Use a ruler or tape measurer to measure your foot (from the heel to the tip of your longest toe).

Choose a table from the left (U.S. to find your U.S. size, U.K. to find your U.K. size, Euro to find your European size).

Find the closest measurement, in inches, that is equal to or greater than the length of your foot. For example, a man whose foot measures 11-1/4 inches is a U.S. 12, a U.K. 12, or a European 47

*Tact Squad shoes and boots are available in several sizes, but not in all wide sizes. Please review the above chart to determine which footwear best suits your build. Bullets indicate that we carry specified size.
