Dear Sir or Madam

We are pleased to present you with our young plant and seed catalogue for spring 2015.

The assortment consists of the best varieties according to our experience and it has been expanded with many attractive novelties. All varieties have proven themselves excellently on an international level.

For the first time, we are presenting our **young plants and seeds together in one catalogue**. This innovation gives our range optimum clarity in accordance with each season and it facilitates the production planning. Young plants and seeds now have the same item number. The desired type of product can be selected by the specific identifier.

Our young plants programme has also improved this year by new, productive series. Good examples are the colourful and uniform **Osteospermum series 'Erato®'** as well as the seed-propagated **Begonia boliviensis 'La Paz'**; it is available in four bright flower colours and has a compact, well-branched habit.

In addition to the popular **trio combinations** of individual varieties, we are also now offering them in mixtures of **three different varieties**. These have a uniform plant habit and a reliable bloom in the desired three colours. All combinations have been extensively tested and have impressively proven their merits.

With our **vegetables**, we are consistently following the path towards a **European range**. Many new varieties allow access to the vegetable specialities from our European neighbours. Explore new colours and shapes, get to know the specialities of European cuisine and expand your sales area within Europe by choosing appropriate varieties.

The garden retailing brand **'Volmary® Plants'** with the colourful pots has already gained great popularity. The new website for hobby gardeners and targeted social media activities create emotional **worlds of experience within the Volmary® brands**. Many gardeners and marketers have realised that they can achieve excellent horticultural achievements in partnership by means of targeted marketing and according to our motto **'Grow for Gold®'**.

Better products and specific information are essential for your success. Our international connections to science, breeders, young plant producers, production growers, marketers and the media offer you world class breeding and first-hand knowledge.

Both our experienced **sales representatives and office staff** are happy to advise you in confidence about our varieties and their cultivation requirements. Make use of this advantage.

Yours sincerely

The Management and Employees

Petunia Pegasus® Special Mango

Volmary® Young Plant Production

Volmary – Your Independent Partner

Volmary GmbH is an independent, medium-sized family business in the horticulture sector and a leading European plant breeding company. Volmary GmbH is a strong, innovative partner in professional horticulture as well as for garden centres and food retailers.

We are internationally active and successful in the following areas:

- The production and distribution of vegetatively and generatively propagated **flower and vegetable young plants**
- The propagation and marketing of **seeds** (flower and vegetable seeds)
- Sales of **vegetable bulbs**
- **Classical plant breeding** in the area of flowers and vegetables
- The development of the **plant brand concepts Volmary® PLANTS, Kiepenkerl® Profi-Line® Plants and Soul PLANTS®**

Products for the Highest Quality Demands

Our young plant production produces Volmary young plants with the most modern sowing and greenhouse technology. The production steps are accompanied by precise seed technology and climate control. A computer-assisted quality assurance system makes it possible that only filled trays in the best quality are delivered. Our efficient logistics enable you to receive our young plants reliably and in due time. This guarantees you our high quality standard and makes further cultivation easy and successful.

Exclusive Varieties

In order to offer your customers a current and high-quality assortment of flowers and vegetables, new and particularly efficient varieties are of great importance.

Located in Münster, Germany, the Volmary Plant Breeding and Information Centre provides the perfect opportunity for getting to know the new varieties better. Exact and relevant recommendations for cultivation are the result of intensive variety tests. All new breeds are examined for several years in our greenhouses and in our test fields. Here their suitability for outdoor and bed plantings is also researched.

Variety Shows

Many times throughout the year we invite you to the Volmary Plant Breeding and Information Centre and give you the opportunity to get informed about our newest varieties. Here is a summary of the most important events:

Event	Place	Date	Subject
Volmary Spring Bloomers Day 2015	Münster, DE, Volmary Plant Breeding Centre	Mid-March 2015	Viola, Primula, spring-blooming perennials

Our Plant Brand Concepts

Persuasive marketing strategies create value for production gardeners as well as retailers and end customers.

Soul PLANTS® -
Herbs & Vegetables for the Garden and Soul

Soul PLANTS® are herbs and vegetables for the garden and soul. They are intended for producers who sell their products through food retailers.

Soul PLANTS® stand for lifestyle and living. The product lines Soul FOOD® and Soul FLOWERS® are aimed at younger customers.

- A wide range of many trendy wellness and convenience products
- The modern, sophisticated design provides good additional sales through impulse buying
- Top varieties with regard to the efficient cultivation by the producer and successful further growth at the end customer

The Brand Volmary® – Grow for Gold

The Volmary® plant brand concept is aimed at producers who sell their goods to garden retailers. We stand behind the brand Volmary® with the name of our family business.

The plant brand Volmary® serves the premium segment. The plants are cultivated under license at selected nurseries and marketed through garden retailers. The quality of the products is most crucial: Only professional varieties which guarantee success in hobby gardening are included in the assortment. This creates added values for hobby gardeners and gives them success in their gardens.

- High-selling varieties – diversity that's fun!
- Year-round marketing programme
- Modern, fresh, multicolour brand design
- Attractive presentation at the point of sale
- Effective multi-channel marketing

Grow for Gold - Profit from the many advantages in the world of plants at Volmary®.

Our Products

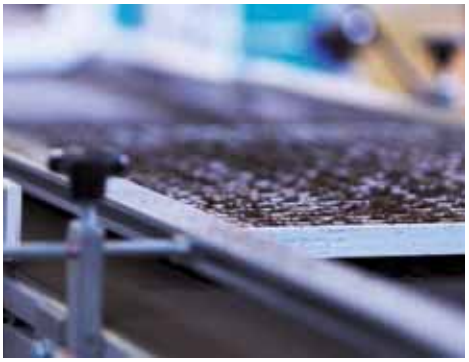
We offer you a wide range of thousands of varieties that we have available for you in many different forms.

Seeds

For gardeners who prefer to grow their plants from seed, we have a large assortment of seeds. Your orders can be individually arranged and made by us.

Young Plants

The most efficient form for the start of cultivation. Vigorous and healthy young plants help you get the most out of the crop.



Labels

For the majority of our product range we offer picture labels that you can order individually for your young plants and seeds.
We have three different types of labels available: For bedding and balcony plants, vegetables and herbs as well as perennials.
Our sales representatives are happy to assist you.

Our Recommendation for the Production of Organic Bedding and Balcony Plants

Organically produced young plants and seeds from the range of vegetables and herbs have been part of our company's assortment for several years.
Since March 2013, Volmary GmbH is now also a Bioland organic partner. In addition to organically produced vegetable and herb young plants or seeds, we now also offer certified organic young plants for ornamental horticulture.

We are therefore pleased to be able to present you with our new organic ornamental plant range for the coming season. We have put this assortment together based on simple cultivation and high tolerance to diseases.
These requirements meet e.g. the genetically compact growing Calibrachoa 'Calipetite®' series and the geranium series 'Grandeur® Dark', which both provide an attractive final product without using inhibitors.
Organically produced vegetables and herbs can be found starting on page 331.

Tagetes

Marigolds for fighting nematodes

1000		°C		
6-10*/15-20**	V-VII	15-18	10-17	-

*) Early sowing: 6-10 kg/ha **) Late sowing: 15-20 kg/ha
In some areas of horticulture, nematodes have led to reduced yields or have even caused problems with total crop losses. One way of fighting these pests in the soil is by sowing Tagetes before the start of cultivation.

Variety					
Evergreen	-	18-22	Otdr	-	-
Single Gold	-	18-22	Otdr	-	-
Nema Mix	-	18-22	Otdr	-	-
Tagetes x erecta	-	18-22	Otdr	-	-
Tagetes x patula	-	18-22	Otdr	-	-

Evergreen

- The marigold x paluta variety forms a dense foliage umbrella in a short time, which guarantees good soil tilth and weed suppression
- Little flower formation, therefore no reseeding
- The comparably small seeds are able to be better mechanically deployed than conventional marigold seeds, height: approx. 70 cm

478800 **Evergreen** SEED
(green)

478800 Evergreen

Single Gold

- Tried and tested, very powerful patula hybrid, highly effective for fighting nematodes
- Quick plant development and the well-branched, higher habit and fast covering of the ground
- The dry mass production is about 100% higher than standard varieties, which ensures an effective green manure, height: approx. 70 cm

478810 **Single Gold** SEED
Yellow

478810 Single Gold

Nema Mix

- Vigorous variety with good ground coverage and branching
- Good formation of crop material and root mass
- Good weed control in practice
- Semi-double flowers in predominantly red shades, height: approx. 60 cm

478805 **Nema Mix** SEED
Mix

478805 Nema Mix

Tagetes x erecta

- Very vigorous, robust plants with good weed suppression and for highly effective green manure, height: approx. 100 cm

478815 **Tagetes x erecta** SEED
Yellow

Tagetes x patula

- This plant is more effective in fighting nematodes than the erecta hybrids
- Less vigorous habit, suitable for areas with lower weed suppression
- Good ornamental value, height: approx. 30 cm

478820 **Tagetes x patula** SEED
Mix

478815 Tagetes x erecta

478820 Tagetes x patula

Talinum paniculatum

439000 Sweet Mix F1

Bouquet Purple F1

- A cut carnation with bright, violet-pink inflorescences
- For cultivating outdoors and in greenhouses
- During summer cultivation, the plants will rebloom and a second cut is possible
- Due to the long flowering period, also suitable for bed plantings

439025 **Bouquet Purple F1** 128 SEED
Neon purple

439025 Bouquet Purple F1

Bodestolz F1

- Sweet William for outdoor cutting that blooms in the year of sowing
- A colourful mixture
- The bright, well covered inflorescences bloom on straight, long stems, height: approx. 50 cm

439050 **Bodestolz Mix F1** 128 SEED
Mix

439050 Bodestolz Mix F1

Messenger Mix

- Early blooming cut variety for overwintering cultivation
- Large flowers in an attractive mix of colours
- Also suitable for forcing under glass

439150 **Messenger Mix** 128 SEED
Mixture

439150 Messenger Mix

Unicus

- A robust, colourful mixture with a wide range of colours for mass cutting
- For overwintering cultivation outdoors

Single stem varieties

Premier F1

- A single stem series with a particularly short cultivation period of 7-8 weeks
- For growing under long day conditions
- Very uniform in habit and earliness
- Short stems and small flowers as standard varieties, ideal for florists

446200 **Orange** SEED
Orange

446205 **Lemon** SEED
Lemon yellow

446200 Premier Orange F1

446205 Premier Lemon F1

Pro Cut F1

- Pollen-free sunflower for cutting that flowers 10 days before 'Sunrich' F1
- Wide, strongly coloured petals surround the dark brown centre
- Many colours with attractive special colours
- Ideal for the start of the season

446250 **Bicolor** SEED
Yellow with red ring

446260 **Orange** SEED
Orange

446265 **Red** SEED
Red

446250 Pro Cut Bicolor F1

446260 Pro Cut Orange F1

446265 Pro Cut Red F1

Elite Sun F1

- Very early bloom and robust habit
- Well suited for starting the season
- Golden yellow flowers with a dark, pollen-free centre
- The flowers reach a sufficient height even under low irradiation

446225 **Elite Sun F1** SEED
Golden yellow

446225 Elite Sun F1

Inara® F1

- Pollen-free cutting variety is characterised by the very early flowering
- The stable, bright petals create an attractive contrast to the dark flower centre
- Healthy, robust foliage and good stability
- Uniform crops

446300 **Bicolor** SEED
Yellow with red ring

446305 **Orange** SEED
Golden orange

446310 **Vanilla** SEED
NEW Cream white

446300 Inara® Bicolor F1

446305 Inara® Orange F1

Sunrich Summer Orange F1

- Pollen-free variety for cultivating int he summer
- Under long day conditions, this variety blooms earlier and remains shorter than 'Sunrich' F1
- Concentrated, uniform bloom
- The flowering quality is comparable to 'Sunrich' F1

446350 **Sunrich Summer Orange F1** SEED
Orange

446350 Sunrich Summer Orange F1

Sunrich F1

- Pollen-free, day-neutral, high-performance variety with a contrast-rich centre
- Uniform start of bloom after a short cultivation time of approx. 10 weeks
- Flower diameter: approx. 15 cm
- Very suitable for transporting and very durable in vases
- Also ideal for greenhouse cultivation in early spring and in late autumn

446500 **Gold** SEED
Golden yellow with yellow centre

446505 **Lemon** SEED
Lemon yellow

446510 **Sunrich Orange F1** 128 SEED
Orange

446505 Sunrich Lemon F1

446510 Sunrich Orange F1

Sunrich DMR Orange F1

- Sunflower for cutting with resistance to downy mildew
- Pollen-free, golden orange flowers with contrast-rich, dark centres
- Stable, dense ring of petals
- Flower diameter: approx. 15 cm
- Very suitable for transporting and very durable in vases
- Ideal for outdoor cultivation

446525 **Sunrich DMR Orange F1** SEED
NEW Orange

446310 Inara® Vanilla F1

446500 Sunrich Gold F1

446525 Sunrich DMR Orange F1

Dafna F1

- A sunflower for cutting with golden orange flowers and a dark brown ring
- Slightly earlier blooming than 'Sunrich' F1 with a marginally shorter stem length
- A quality enrichment to the pollen-free range

446560 **Dafna F1** SEED
Orange

446560 Dafna F1

446605 Vincent's Fresh F1

446650 Tiffany F1

Sunbright Supreme F1

- Golden yellow flowers with large, dark centres
- Pollen-free flowers with a diameter of approx. 20 cm
- Good cutting quality and durability in vases

446625 **Sunbright Supreme F1** SEED
Golden yellow

Full Sun F1

- Large, golden yellow petals and a black-brown ring without pollen
- Very robust, vigorous habit
- Particularly suited for outdoor cultivation on poorer soils
- Cultivation time is approx. 12 weeks

446660 **Full Sun F1** SEED
Golden yellow

Vincent's F1

- Very early blooming, pollen-free series with intense flower colours and an advantageous, upright positioning of the flowers
- The petals are particularly wide and form a thick ring around the centre
- The day-neutral habit ensures that the plants form long stems, even during shorter day lengths
- The uniform plants can be harvested quickly and are easy to defoliate

446600 **Choice** SEED
Golden orange with dark centre

446605 **Fresh** SEED
Golden orange with yellow centre

446600 Vincent's Choice F1

446625 Sunbright Supreme F1

446660 Full Sun F1

Tiffany F1

- Robust cutting variety for cultivating outdoors
- Golden yellow petals and a jet-black centre without pollen
- Dark green, glossy foliage
- Cultivation time is approx. 1 week longer than 'Sunrich Orange' F1
- Particularly recommended for outdoor cultivation on self-cutting fields

446650 **Tiffany F1** SEED
Golden yellow

King Kong

- A variety with impressive growth
- Ideal for competitions for the largest sunflower or for use in striking exhibition plantings
- Forms giant leaves and flowers on the up to arm-thick stems
- Provided that enough water and manure is supplied, the stable plants can reach a height of up to 4.5 m

446700 **King Kong** SEED
Yellow

Schnittwunder

- A well-tried variety with single stems and a black centre
- Golden yellow ring of ray florets
- Open-pollinated variety for semi-professional outdoor cultivation

446800 **Schnittwunder** SEED
Yellow

Double Quick F1

- Variety for cutting with golden yellow, double flowers
- Short cultivation time
- The low stems are ideal for cutting cultivation in the summer

446760 **Double Quick F1** SEED
Golden yellow

Double blooming varieties

446700 King Kong

446840 Early Bear F1

446850 Santa Fe

Mezzulah F1

- A low growing, single stem sunflower with very large flowers
- The jet-black, pollen-free centre surrounds the pure yellow petals
- Dark green, glossy, very healthy foliage and stable, thick stems
- Ideal for impressive bed plantings or for marketing as a robust container plant
- When densely sown, also suited for cutting cultivation in locations with a high risk of wind

446750 **Mezzulah F1** SEED
Yellow

Early Bear F1

- Very early, double blooming variety for cutting
- Golden yellow flower balls
- Stable, short stems with little development of side shoots
- Ideal for outdoor cultivation in the summer

446840 **Early Bear F1** SEED
NEW Golden yellow

Santa Fe

- Particularly uniformly filled flowers in orange-yellow colours
- Stable, medium-sized growth
- For harvesting outdoors starting in August

446850 **Santa Fe** SEED
Orange-yellow

446760 Double Quick F1

Hohe Sonnengold

- Vigorous, late blooming variety
- Golden yellow, densely filled flowers on branched stems
- Ideal for direct marketing after outdoor cultivation

446855 **Hohe Sonnengold** SEED
Golden yellow

446750 Mezzulah F1

446855 Hohe Sonnengold

Branched varieties

Starburst F1

- Semi-double series with a branched habit
- Develops numerous, long lateral shoots early
- Attractive, pollen-free flowers in fresh colours

446920 **Lemon Aura** SEED
Lemon yellow

446925 **Panache** SEED
Golden yellow with dark centre

446920 Starburst Lemon Aura F1

446925 Starb. Panache F1

446945 Rumi Gold F1

446950 Rumi Lemon F1

446955 Rumi Bic. Scarlet F1

446960 Rumi Bicolor Cherry F1

Rumi F1

- Vigorous plants form numerous flower stalks
- Medium-sized, pollen-free flowers in bright colours
- Wide spacing and pinching off the first bud promotes the formation of 5-7, high-quality flower stalks per plant
- Well suited for outdoor cultivation with a long harvesting period
- Due to the long flowering time, also interesting for background plantings in public areas

446945 **Gold** SEED
Golden yellow

446950 **Lemon** SEED
Lemon yellow

446955 **Bicolor Scarlet** SEED
Golden yellow with red ring

446960 **Bicolor Cherry** SEED
Light yellow with cherry red ring

Firecracker F1

- Branched variety with a very short cultivation time
- 12-15 cm large, yellow flowers with a flaming red ring
- Pollen-free and very rich-blooming
- For harvesting single stems and cutting of entire bouquets

446980 **Firecracker F1** SEED
Yellow with red ring

446980 Firecracker F1

Peach Passion F1

- Branched, pollen-free variety with completely apricot-coloured flowers
- An attractive enrichment for floristry
- Early and guaranteed bloom
- Diameter of the flowers: approx. 12-15 cm

446985 **Peach Passion F1** SEED
Apricot

446985 Peach Passion F1

Claret F1

- Intense, wine red-coloured cutting variety with little pollen
- Vigorous habit, early pruning promotes the development of high-quality side shoots
- An attractive variety for unique autumn arrangements

446990 **Claret F1** SEED
Wine red

446990 Claret F1

Goldrush F1

- Very early blooming, branched variety
- Yellow, pollen-free flowers with a dark centre and a diameter of 15 cm
- Early pruning promotes the formation of numerous solitary stems with a length of 80 cm
- Ideal for small-flowered products at the beginning of the season

446995 **Goldrush F1** SEED
Golden yellow with dark centre

Terracotta F1

- Bronze-coloured flowers with dark, pollen-free centre
- Early and rich bloom
- Branched, vigorous habit
- Attractive autumn variety

447020 **Terracotta F1** SEED
Bronze-red

Tanja F1

- Pollen-free, branched variety of type 'Sonja'
- Small, upright flowers with a diameter of approx. 10 cm
- Bright, golden orange petals and a contrast-rich, very dark centre
- Ideal for using in bouquets and arrangements

446900 **Tanja F1** 128 SEED
Golden orange, small flowers

446995 Goldrush F1

447020 Terracotta F1

446900 Tanja F1

Orange Mahagony F1

- Two-coloured flowers with golden yellow petals and a red ring in the centre of the pollen-free flowers
- Branched, vigorous habit
- Attractive autumn variety

447005 **Orange Mahagony F1** SEED
Golden yellow with red ring

Sonja

- Bright orange flowers with a diameter of 10 cm
- Very good, medium-long cutting quality
- Very well-branched plants

447100 **Sonja** SEED
Golden yellow, small flowers

Prado

- Very early blooming, branched variety
- High yield of stems with a length of approx. 80 cm
- Approx. 15 cm large, flowers with pollen and a brown centre
- Short cultivation time of 9 to 11 weeks
- An attractive variety for cultivating outdoors and harvesting in early summer

447125 **Gold** SEED
Golden yellow

447130 **Red** SEED
Deep red

447005 Orange Mahagony F1

447100 Sonja

447125 Prado Gold

447130 Prado Red

447145 Ring of Fire

Holiday

- Cutting variety with strong basal branching
- Long, solitary stems
- Golden yellow flowers with a dark centre
- For outdoor cultivation in the summer

447135 **Holiday** SEED
Golden yellow

Ikarus

- The lemon yellow counterpart to 'Soraya'
- Branched habit with strongly upright stems
- Horizontal, approx. 12-15 cm large flowers
- Medium late blooming

447150 **Ikarus** SEED
Lemon yellow

447135 Holiday

447150 Ikarus

Ring of Fire

- A two-coloured cutting variety with a fiery red ring around the centre of the golden yellow flowers
- The individual flowers with approx. 50 cm long stems or the entire plant with 4 to 6 flowers can be harvested

447145 **Ring of Fire** SEED
Fiery red, golden yellow

Soraya

- Golden orange flowers that grow almost horizontally on the very stable stems
- Produces only little pollen
- Branched habit
- An attractive enrichment for medium late to late harvests outdoors

447165 **Soraya** SEED
Golden orange

447165 Soraya

Blütenbouquet Mix

- An attractive mixture of small-flowered, low growing varieties with a branched habit
- The stems can be harvested or the entire plants if they have been trimmed
- Ideal for a fast arrangement of colourful sunflower bouquets

447205 **Blütenbouquet Mix** SEED
Mix

Gefüllte Mix

- Mixture of double-bloomed varieties in shades of bright yellow and orange
- Long harvest period
- A speciality for complementing the standard range of simple blooming sunflowers for outdoor cultivation

447210 **Gefüllte Mix** SEED
Yellow and orange shades

Verzweigte Mix

- This mixture includes different pollen-free cutting varieties with branched growth for outdoor cultivation
- For diverse sunflower bouquets in different shades of yellow and red
- Rich development of side shoots allow harvesting to take place over many weeks without interruption

447215 **Verzweigte Mix** SEED
Mix

Ländlicher Charme®

(Large seeds)

- Cut flower mixture of professional varieties for outdoor cultivation in the summer
- Contains English marigolds in different colours, safflowers, cosmeas, small-leaved sunflowers and zinnias
- All have large seed bodies and are therefore included in the large seed mixture, height: approx. 100 cm

494500 **Ländlicher Charme® (large seeds)** SEED
Mix

494500 Ländlicher Charme® (large seeds)

Ländlicher Charme®

(Small seeds)

- Cut flower mixture for outdoors that consists of professional, individual varieties
- Contains typical country flowers, e.g. stocks, snapdragons or cornflowers, particularly durable cut flowers, e.g. blueminks, asters or rudbeckia, height: approx. 100 cm

494510 **Ländlicher Charme® (small seeds)** SEED
Mix

494510 Ländlicher Charme® (small seeds)

Ländlicher Charme®

(Bouquet filler)

- This mixture provides a wide range of floristic additions over a longer period of time
- Contains plants with subtle shapes of leaf and flowers, fragrant plants, ornamental grasses
- Plants with infructescences that can be used in late summer and autumn round off the assortment, height: approx. 100 cm

494520 **Ländlicher Charme® (bouquet filler)** SEED
Mix

494520 Ländlicher Charme® (bouquet filler)

Sommerblumenzauber

- Colour-coordinated flower mixtures that allow a comparatively easy but effective creation of larger bouquets in harmonic colour compositions
- After only 2 months, the magnificent summer flowers begin to bloom
- Flowering lasts until autumn because of the special combination of varieties, height: up to 120 cm

Dekofrüchte Mix (Cucumis species)	2	14-16	-
Fakir (Cucumis africanus)	2	14-16	-

Deco Gherkin *(Cucumis anguria)*

- Fresh, green fruits that look like sweet chestnuts in the shell
- Fruits are approx. 5 cm and have 1 cm long, slightly bent spikes
- Good durability and high yield
- Ideal for modern, floristic decoration

419300 Deco Gherkin (Cucumis anguria) SEED

419300 Deco Gherkin

419305 Canox

Canox *(Cucumis canoxii)*

- Dark green fruits with light stripes and short spikes
- The non-edible fruits reach a maximum size of 5 cm
- Medium strong, climbing habit

419305 Canox (Cucumis canoxii) SEED

Torrero *(Cucumis carolinus)*

- Mint green ornamental cucumber with yellow spikes that resemble horned melons
- Not suited for consumption
- Flat, spreading plant with medium vigour

419310 Torrero (Cucumis carolinus) SEED

419310 Torrero

Hedgehog *(Cucumis dipsaceus)*

- Light green, oval fruits that are densely covered with soft spikes
- An enrichment for autumn decorations and for floristic use
- Good durability
- Vigorous habit

419315 Hedgehog (Cucumis dipsaceus) SEED

419315 Hedgehog

Queen Anne's Pocket Melon *(Cucumis melo)*

- In former times, rich women carried these fruits smelling intensely of melon in their pockets
- They should be picked when green and then they exude their aroma until they are fully mature
- The smooth-shelled, oval fruits reach a size of approx. 5 cm

419320 Queen Anne's Pocket Melon (Cucumis melo) SEED

419320 Queen Anne's Pocket Melon

Minero (*Cucumis myriocarpus*)

- Small, lengthwise striped fruits that are densely covered with thin spikes
- Easily cultivated and high yielding in warm locations
- The durable fruits are approx. 3 cm

419330 **Minero (Cucumis myriocarpus)** SEED

419330 Minero

Dekofrüchte Mix (*Cucumis species*)

- An attractive mixture of different coloured and shaped ornamental fruits for floristic use in autumn
- Ideal for cultivation in warm, protected locations or under glass
- Fruit size: approx. 3-8 cm

419350 **Dekofrüchte Mix (Cucumis species)** SEED

419350 Dekofrüchte Mix

Fakir (*Cucumis africanus*)

- Very decorative fruits with a length of approx. 6 cm, distinctive, striped pattern and striking, thick spikes
- The spikes are durable and very attractive for autumn decorations and floristic use

419295 **Fakir (Cucumis africanus)** SEED

419295 Fakir

Small-fruited varieties

Aladin

- A small turban type with dark orange upper side and cream-coloured centre
- The fruits reach a diameter of approx. 12-15 cm

419500 Aladin SEED

419500 Aladin

Baby Bear

- A high yielding, orange pumpkin in an unusual intermediate size of approx. 0.8 to 1.2 kg
- Flat, round fruits with strong stems
- Medium-late ripening and good shelf life
- The husks of the seeds are thin, therefore well suited for roasting

419510 Baby Bear SEED

419510 Baby Bear

Baby Boo

- The white counterpart to 'Jack be Little'
- White, flat-spherical, ribbed fruits with golden yellow flesh
- Edible fruits with a diameter of approx. 10 cm

419520 Baby Boo SEED

419520 Baby Boo

Ball Orange

- Smooth, bright, orange yellow balls with a 10-15 cm diameter
- Very high yielding and reliable cultivation

419530 Ball Orange SEED

419530 Ball Orange

Batwing

- The fruits are predominantly horizontal with dark green and golden yellow halves, some have white stripes
- The fruits reach a weight of up to approx. 500 g
- Bushy plants with an early fruit set

419540 Batwing SEED

419540 Batwing

Bicolor Pear

- Pear-shaped fruits, 10-15 cm in length
- The upper half is golden yellow, dark green below, some have light stripes
- Early and high yielding
- Vigorous habit

419550 Bicolor Pear SEED

419550 Bicolor Pear

Small-fruited varieties

Bicolor Spoon

- Small, slender, club-shaped fruits, 12-15 cm in length
- The upper half is golden yellow, dark green below, some with cream white stripes
- Vigorous, climbing habit

419560 Bicolor Spoon SEED

419560 Bicolor Spoon

Casperita F1

- White, flat, round, well-ribbed fruits with a weight of approx. 300 g
- Very much improved with regard to the colouration, yield and uniformity when compared to the small-fruited variety 'Baby Boo'
- Tolerant to powdery mildew
- Medium early ripening, ripening period: 90 days

419566 Casperita F1 SEED

419566 Casperita F1

Buffy F1

- Cream-coloured, slightly flattened fruits with slight grooves
- Very high yielding with good shelf life
- For filling or microwaving
- Fruit weight: approx. 300 g

419563 Buffy F1 SEED
NEW

419563 Buffy F1

Celebration F1

- Heart-shaped, edible fruits with cream yellow main colour and green-yellow marking
- Slightly smaller fruits than 'Harlequin', diameter: approx. 10-12 cm, weight: approx. 600 g
- Medium early, good yield

419570 Celebration F1 SEED

419570 Celebration F1

Cream of the Crop

- Acorn squash with cream yellow, grooved skin
- Golden yellow flesh with tender consistency
- Bushy habit
- Fruit size: approx. 20 cm

419580 Cream of the Crop SEED

419580 Cream of the Crop

Delicata

- Oblong, cream-coloured fruits with green stripes and slight grooves, length: approx. 20 cm
- Tender flesh

419590 Delicata SEED

419590 Delicata

Bumpkin F1

- Flat, round, slightly ribbed ornamental and edible pumpkin with a bright orange colour
- Fruit weight: approx. 200-300 g
- Diameter: approx. 12-15 cm
- Compact habit and early bearing, ripening period: approx. 80 days
- Tolerant to powdery mildew, ideal prerequisites for a high and reliable yield

419565 Bumpkin F1 SEED

419565 Bumpkin F1

419610 Gold Dust F1

419630 Gremlins

Flat Striped

- Flat, round, dark green, ornamental fruits with highly contrasting, light stripes
- Fruit size: approx. 8 cm
- Early and productive

419600 Flat Striped SEED

Gold Nugget

- Small, onion-shaped, slightly grooved pumpkin in a light orange colour
- Early, very rich fruit set directly on the bushy plants
- Very tasty fruits with a diameter of approx. 10-15 cm
- Keeps well, also suitable as an ornamental pumpkin

419620 Gold Nugget SEED

Harlequin

- Flat, round, grooved fruits with shoulders
- The colours range from cream white to yellow with dark green spots
- Edible fruits with a very good shelf life
- Diameter: approx. 12 cm

419640 Harlequin SEED

419600 Flat Striped

419620 Gold Nugget

419640 Harlequin

Honey Bear F1

- Small-fruited acorn squash with sweet, very starchy flesh
- Fruit weight: approx. 500 g
- Bushy growing plants with early, dense fruit set
- Tolerant to mildew
- Ideal single squash for direct marketing

419650 Honey Bear F1 SEED

Gold Dust F1

- Very high yielding mandarin pumpkin with a moderately vigorous habit
- High resistance to powdery mildew
- Early fruit set, fruit weight: approx. 200-400 g
- Diameter: approx. 8-10 cm

419610 Gold Dust F1 SEED

Gremlins

- The warty ornamental fruits are versatile in their design and colour
- Contains star-shaped, pear-like, winged and mushroom-shaped fruits
- Medium early ripening, fruit size: approx. 12-15 cm

419630 Gremlins SEED

419650 Honey Bear F1

Small-fruited varieties

Jack be Little

- Bright orange fruits that resemble tangerines
- Diameter: 10-12 cm
- Attractive, edible ornamental pumpkin

419660 Jack be Little SEED

419660 Jack be Little

Little Pump-Ke-Mon

- White, flattened fruits with yellow stripes
- An attractive contrast colour to orange and yellow fruits
- Fruit size: approx. 12 cm

419680 Little Pump-Ke-Mon SEED

419680 Little Pump-Ke-Mon

Rolet

- Dark green, glossy, slightly spherical balls with a smooth, hard skin
- Productive, brings good contrasts into the pumpkin assortment
- Edible when young, diameter: approx. 7 cm

419710 Rolet SEED

419710 Rolet

Lil' Orange Mon

- The skin of the tangerine-shaped fruits is intense bright orange
- The fruits reach a diameter of approx. 12-15 cm
- Very decorative, long, dark green stems

419670 Lil' Orange Mon SEED

419670 Lil' Orange Mon

Mini Red Turban

- Orange-red, small, turban-shaped fruits with green and white stripes
- Ideal for bringing colour into ornamental pumpkin mixtures
- Diameter: approx. 10-12 cm

419690 Mini Red Turban SEED

419690 Mini Red Turban

SC4-15

- Flat, round, cream yellow, tangerine-shaped fruits with golden yellow stripes
- The flesh is edible, ideal for cooking in a microwave
- Fruit weight: approx. 400 g

419720 SC4-15 SEED

419720 SC4-15

Spinning Gourd

- Small, pear-shaped fruits with dark green skin and light stripes
- Fruit size: approx. 5-7 cm
- Can also be used in floristry as decorative fruits

419730 Spinning Gourd SEED

419730 Spinning Gourd

Table Ace

- Dark green, heart-shaped fruits with grooved skin
- Golden yellow, tender flesh with a sweet and aromatic flavour
- Bushy habit
- Early and reliable yield
- Very durable, fruit weight: approx. 1 kg

419760 Table Ace SEED

Warzen Orange

- Flat, round, light orange fruits that are covered with numerous warts
- Rich and reliable yield, keeps well
- Diameter: approx. 10 cm

419780 Warzen Orange SEED

Sweet Dumpling

- Tasty fruits with a diameter of 10-12 cm
- Dark green stripes and spots form a very striking contrast to the cream white skin
- Orange-yellow, sweet flesh
- The fruits keep approx. 3-4 months

419740 Sweet Dumpling SEED

419760 Table Ace

419780 Warzen Orange

419740 Sweet Dumpling

Table Gold

- Golden yellow counterpart to 'Table Ace'
- Slightly smaller fruits, approx. 700 g
- Prefers warm locations

419770 Table Gold SEED

Wee-B-Little

- Very early, high yielding mini pumpkin
- Bright, golden orange skin and deep green-coloured stems
- The fruits are edible when young and can be used as “soup cup pumpkins“
- Diameter: approx. 10 cm

419790 Wee-B-Little SEED

Sweet Lightning

- Flat, round pumpkins in mandarin form with deep orange stripes and light-coloured skin
- The 500 g fruits are very tasty and can be cooked in the microwave

419750 Sweet Lightning SEED

419750 Sweet Lightning

419770 Table Gold

419790 Wee-B-Little

Mixtures of small-fruited varieties

Autumn Wings Small

- Mixture of small-fruited, heavily winged fruits in attractive colour combinations
- Early and rich yield, fruit size: approx. 15 cm

419810 Autumn Wings Small SEED

419810 Autumn Wings Small

Autumn Wings Medium

- Mixture of heavily winged fruits in attractive colour combinations
- Medium-sized fruits, ideal for decoration purposes
- Good fruit set, fruit size: approx. 20 cm

419800 Autumn Wings Medium SEED

419800 Autumn Wings Medium

Daisy

- Mixture of slightly star-shaped fruits in yellow shades
- Attractive, two-coloured markings
- Fruit diameter: up to approx. 8 cm

419820 Daisy SEED

419820 Daisy

Essbare Zierkürbisse Mix

- Interesting mixture of small, edible fruits up to 20 cm in diameter
- Different combinations of colours and shapes
- Good durability, also suitable for decoration purposes

419830 Essbare Zierkürbisse Mix SEED

419830 Essbare Zierkürbisse Mix

Galaxy of Stars

- The predominately star-shaped fruits each form five stable, rounded rays
- Easy to clean mechanically after the harvest
- The mixture consists of many attractive colours
- Fruit size: approx. 300 g

419840 Galaxy of Stars SEED

419840 Galaxy of Stars Mix

Goblin Eggs Mix

- Egg-shaped ornamental pumpkin in a mixture of green, yellow and two-coloured fruits
- Fruit size: approx. 10 cm

419850 Goblin Eggs Mix SEED

419850 Goblin Eggs Mix

Kleinfrüchtige Mix

- Small, predominantly spherical to egg-shaped fruits in different shapes and colours

419860 Kleinfrüchtige Mix SEED

419860 Kleinfrüchtige Mix

Kleinfrüchtige Sonderformen Mix

- Small-fruited formula mixture with a large variety of shapes
- An attractive mixture of one and multi-coloured fruits
- Fruit size: up to approx. 15 cm
- Ideal for decoration purposes and autumn floristry

419870 Kleinfrüchtige Sonderformen Mix SEED

419870 Kleinfrüchtige Sonderformen Mix

Little Indian Mix

- Small-fruited mixture with many warts
- Variously shaped fruits in yellow and green shades
- An important part of the ornamental pumpkin range
- Fruit size: approx. 10-12 cm

419890 Little Indian Mix SEED

419890 Little Indian Mix

Warzen Mix

- The flat, round fruits are densely covered with warts
- Different fruit shapes and colours in a size of 8-15 cm
- Robust and reliable yield

419910 Warzen Mix SEED

419910 Warzen Mix

Kronen Mix

- Striking, jagged fruits in white, green or yellow with stripes or a two-coloured pattern
- A true eye-catcher in the assortment of ornamental pumpkins
- Fruit size: approx. 10-15 cm

419880 Kronen Mix SEED

419880 Kronen Mix

Table Mix

- Attractive mix of three different coloured, grooved acorn squashes
- Little creeping, early yield
- Golden yellow, edible flesh
- Fruit size: approx. 20 cm

419900 Table Mix SEED

419900 Table Mix

Warzen Sonderformen Mix

- Heavily warted fruits in a manifold of colours and different shapes
- Contains a wide range for a high-quality assortment of ornamental pumpkins
- Fruit size: approx. 10-15 cm

419920 Warzen Sonderformen Mix SEED

419920 Warzen Sonderformen Mix

Butternut squash

Barbara

- A green butternut squash with light stripes
- The fruit flesh has an excellent quality, intense colouring and is very tasty
- Requires heat during cultivation, pre-cultivation in the spring is recommended for cooler locations
- Fruit weight: approx. 2-3 kg

420100 Barbara SEED

420100 Barbara

Hawk F1

- Small butternut type with a fruit weight of approx. 500-700 g
- Early and very large fruit set
- Compact growing plants
- An ideal fruit for smaller households

420120 Hawk F1 SEED

420120 Hawk F1

Metro F1

- Very uniform butternut type with medium-sized fruits that weigh approx. 1.4 g
- Highly tolerant to powdery mildew
- High dry substance content and good shelf life
- Short shoots and medium-late ripening fruits with smooth, light brown skin

420140 Metro F1 SEED

420140 Metro F1

Early Butternut F1

- Bell-shaped, pale yellow butternut squash
- Orange-coloured, sweet, aromatic flesh
- Medium early fruit set, fruit weight: approx. 1.3 kg
- An addition to the assortment for direct sales

420110 Early Butternut F1 SEED

420110 Early Butternut F1

Hunter F1

- Early maturing butternut squash with a fruit weight of approx. 1.2 kg
- High yielding, long fruits
- Bears fruits early and reliably, even under cooler conditions

420130 Hunter F1 SEED

420130 Hunter F1

Ultra F1

- Large-fruited butternut squash with oblong, slightly curved fruits
- Vigorous habit and medium late maturing
- Fruit weight: 4-5 kg, ideal for processing

420150 Ultra F1 SEED

420150 Ultra F1

Hokkaido squash

Baby Blue

- Blue-green Hokkaido with the popular flavour known from this type of squash
- The plants' shoots are not too long and due to the high plant density, the yield is improved
- Fruit weight: approx. 2-2.5 kg

420300 Baby Blue SEED

420300 Baby Blue

Blue Kuri

- Greyish blue, flat, round, fruits with orange, very tasty flesh
- Good storability
- Fruit weight: approx. 1.5 kg

420320 Blue Kuri SEED

420320 Blue Kuri

Jubiliy F1

- Smaller 'Uchiki Kuri' type with faster and more uniform ripening
- High fruit yields, the flesh can be used
- Good durability
- Fruit weight: approx. 1 kg, ideal for single households

420340 Jubiliy F1 SEED

420340 Jubiliy F1

Blue Ballet

- Onion-shaped, medium-sized fruits in a unusual greyish blue colour
- Orange-yellow, edible flesh
- Fruit weight: approx. 1.5 kg

420310 Blue Ballet SEED

420310 Blue Ballet

Bonbon F1

- Dark green, flat-topped, round to blocky fruits with light stripes and a greenish grey centre
- Golden yellow, sweet and delicate flesh
- Awarded with the All American Selections Medal
- Fruit weight: approx. 2 kg

420330 Bonbon F1 SEED

420330 Bonbon F1

Orange Summer F1

- New, vigorous hybrid Hokkaido squash
- Attractive, red skin
- Low susceptibility to mildew
- High fruit set of uniform fruits that weigh approx. 1.3 kg
- Early and reliable yield

420350 Orange Summer F1 SEED

420350 Orange Summer F1

Hokkaido squash

Snow Delite

- Flat, round, edible pumpkin with light grey skin
- Orange, aromatic flesh
- Diameter: approx. 20-25 cm

420370 Snow Delite SEED

420370 Snow Delite

Sunshine F1

- Flat, round fruits with bright, reddish orange skin
- Extraordinary sweet, starchy flesh
- Awarded with the All American Selections Medal
- Medium early ripening and relatively short shoots
- Fruit weight: approx. 1.5-2 kg

420380 Sunshine F1 SEED

420380 Sunshine F1

Sweet Delite

- Dark green Hokkaido type with golden yellow, very tasty flesh
- Very good durability, also suited as a decorative pumpkin
- Diameter: 20-25 cm

420390 Sweet Delite SEED

420390 Sweet Delite

Uchiki Kuri

- Orange-red coloured Hokkaido squash with an elongated neck
- The orange-red coloured flesh is very tasty and very healthy due to the high carotene content
- Very popular, edible variety for direct sales

420400 Uchiki Kuri SEED

420400 Uchiki Kuri

Vesuv F1

- Early maturing Hokkaido squash with smaller fruits of uniform size, weight: approx. 0.8 kg
- Deep orange-coloured skin
- Ideal for single households

420420 Vesuv F1 SEED

420420 Vesuv F1

Hokkaido Mix

- Mixture of orange, dark green and white-green fruits with aromatic flesh
- Fruit size: 15-20 cm
- Onion-shaped, flat, round fruits, also suitable for autumn decorations

420450 Hokkaido Mix SEED

420450 Hokkaido Mix

Pattypan squash

Flying Saucers F1

- Flat, round golden yellow fruits with a contrasting, dark green centre and a distinct, toothed ring
- Early ripening, the young fruits are edible
- Little creeping, with large fruit set directly on the plant
- Can also be used as an ornamental pumpkin when fully developed
- Diameter: approx. 20 cm

420610 Flying Saucers F1 SEED

420610 Flying Saucers F1

Patisson Panaché

- White-green coloured UFO fruits with green markings
- Very high yielding when repeatedly harvested
- The young fruits are edible
- Diameter: approx. 15-20 cm

420620 Patisson Panaché SEED

420620 Patisson Panaché

Sunburst F1

- Bright yellow, spinning top-shaped scallopini with green spots on the calyx
- Ideal harvest size for consumption: 6-7 cm
- High yielding and excellent flavour
- Bushy habit
- Also suitable for autumn decoration when fully developed

420660 Sunburst F1 SEED

420660 Sunburst F1

Patisson Warted

- A colourful mixture of UFO-shaped fruits that are covered with warts
- Bushy habit
- Durable, decorative pumpkin when the fruits are fully developed

420680 Patisson Warted SEED

420680 Patisson Warted Mix

Patty Green Tint

- Light green UFO fruits
- Early maturing, the young fruits are edible
- Little creeping, very productive
- Diameter: approx. 20 cm

420630 Patty Green Tint SEED

420630 Patty Green Tint

Patisson Strie Melange

- A mixture of decoratively striped, UFO fruits
- Fruits are edible when they are young
- Diameter of the ripe fruits: approx. 20-25 cm

420670 Patisson Strie Melange SEED

420670 Patisson Strie Melange

Patisson Mix

- Mixture of differently coloured UFO pumpkins
- Little creeping
- Diameter: approx. 20 cm

420690 Patisson Mix SEED

420690 Patisson Mix

Spaghetti squash

Heaven

- Rich-bearing spaghetti squash with cream-coloured, slightly stripped fruits
- Good flavour and shelf-life
- Early maturing, fruit weight: approx. 1.5 kg

420800 Heaven SEED

420800 Heaven

Small Wonder

- Small-fruited, yellow spaghetti squash with a weight of approx. 700 g
- Ideal for single households
- Early and very rich fruit set

420820 Small Wonder SEED

420820 Small Wonder

Spaghetti

- Cream-coloured, light yellow fruits when ripe
- Standard variety with fruits that weight 1.5-2 kg
- Fibrous flesh, similar to spaghetti after cooking
- Vigorous habit

420840 Spaghetti SEED
NEW

420840 Spaghetti

Stripetti F1

- A good tasting spaghetti pumpkin with long fruits
- Cream white skin with green stripes
- Weight: approx. 1-1.5 kg

420860 Stripetti F1 SEED

420860 Stripetti F1

Large-fruited varieties

Autumn Crown F1

- Small nutmeg pumpkin with a fruit weight of approx. 2 kg
- The flat, round, light brown fruits are slightly ribbed
- Light orange flesh
- Aromatic, slight melon-like flavour
- Good shelf life and a high ornamental value

421010 Autumn Crown F1 SEED

421010 Autumn Crown F1

Biscuit

- The 10 distinct ribs give the fruits an exotic appearance
- They are dark green then change to ocre yellow when ripe
- Ornamental variety with a good shelf life, fruit weight: approx. 0.7 kg

421030 Biscuit SEED

421030 Biscuit

Blue Doll

- Flat, round, large fruits with silver-blue, shimmery skin
- Dark orange, edible flesh
- Late ripening, pre-cultivation improves the yield
- Resistant to powdery mildew
- Attractive ornamental pumpkin, fruit weight: approx. 10 kg

421035 Blue Doll SEED
NEW

421035 Blue Doll

Bunch O´Warts

- Numerous, dark green warts adorn the surface of the deep orange fruits
- Vertically oval fruits that grow up to 30 cm and weigh 6-9 kg
- The plants are tolerant to powdery mildew

421050 Bunch O´Warts SEED

421050 Bunch O´Warts

Crookneck

- Golden yellow, club-shaped fruits with a bent neck
- Densely covered with warts
- Early maturing, little creeping
- Fruit length: approx. 25 cm

421070 Crookneck SEED

421070 Crookneck

Blue Hubbard

- Pear to top-shaped fruits with greyish blue colour and grooved skin
- The orange flesh is edible
- Vigorous habit, fruit size: approx. 40 cm

421040 Blue Hubbard SEED

421040 Blue Hubbard

Cinderella

- Bright red, flat fruits with marked ribs and a reliably high yield
- Good shelf life and edible, golden yellow flesh
- An attractive ornamental pumpkin with a diameter of approx. 40-50 cm

421060 Cinderella SEED

421060 Cinderella

Crown Prince F1

- Flattened, greyish white fruits with smooth skins
- The flesh is particularly tasty and sweet
- Vigorous habit
- Good shelf life, fruit weight: approx. 3-5 kg

421080 Crown Prince F1 SEED

421080 Crown Prince F1

Large-fruited varieties

Cushaw Green Stripe

- Pear-shaped pumpkin with white skin and green stripes and spots
- Edible, keeps well
- Prefers warm locations, pre-cultivation is recommended
- Fruit size: approx. 40 cm

421090 Cushaw Green Stripe SEED

421090 Cushaw Green Stripe

Dills Atlantic Giant

- Giant pumpkin for competitions, single fruits can reach more than 400 kg
- Light orange skin with slight grooves
- Edible flesh
- Vigorous tendrils

421110 Dills Atlantic Giant SEED

421110 Dills Atlantic Giant

Flat White Boer

- Cream white, flat, round fruits with a diameter of approx. 40 cm
- Vigorous habit
- Edible, fruit weight: approx. 8-10 kg

421130 Flat White Boer SEED

421130 Flat White Boer

Cushaw Orange Stripe

- Pear-shaped pumpkin with white skin and contrasting, orange-coloured stripes and spots
- Edible, keeps well
- Prefers warm locations, pre-cultivation is recommended
- Fruit size: approx. 40 cm

421100 Cushaw Orange Stripe SEED

421100 Cushaw Orange Stripe

Evergreen

- Light green, cylinder-shaped fruits
- Very suitable for making jam, as its tender, light orange flesh has a pleasant melon fragrance
- Fruit weight: approx. 2-3 kg

421120 Evergreen SEED

421120 Evergreen

Futsu Black Rinded

- Light brown, grey-frosted fruits with marked ribs
- Late maturing, pre-cultivation is recommended
- Keeps very well and is tasty
- Fruit size: approx. 20-25 cm

421140 Futsu Black Rinded SEED

421140 Futsu Black Rinded

Galeuse d'Eysines

- Flat, round fruits with light orange colour are strikingly covered with light warts
- The warts resemble peanuts, therefore it is also called peanut pumpkin
- Edible, fruit size: approx. 30 cm

421150 Galeuse d'Eysines SEED

421150 Galeuse d'Eysines

Gele Reuzen *(Gelber Zentner)*

- Popular, yellow-skinned, giant pumpkin with apricot-yellow, coarse skin and a flat, round shape
- Good flavour and particularly suitable for sweet/sour canning
- Good shelf life, fruit weight: approx. 12 kg
- Very vigorous habit

Invincible F1

- Whitish grey, flat, round pumpkin with a good flesh quality and improved characteristics: easy to peel, easy to cut
- Deep orange, thick flesh
- Compact growing, uniform, early ripening
- Good shelf life, fruit weight: approx. 4.5 kg

421187 Invincible F1 SEED
NEW

421187 Invincible F1

Garbo

- Pink to terracotta-coloured fruits with flat, round shapes and distinct ribs
- Very decorative for floristry in autumn
- Good durability and suitability for soups
- Fruit weight: approx. 1-3 kg

421160 Garbo SEED

421160 Garbo

Golden Hubbard

- Spindle-shaped fruits with orange, slightly wrinkled skin
- Medium early, vigorous tendrils
- Savoury, orange-red flesh
- Fruit weight: approx. 3 kg

421180 Golden Hubbard SEED

421180 Golden Hubbard

Jarradahle

- Greyish blue, flat, round fruits with striking, marked grooves
- Edible and also durable as a decorative pumpkin
- Diameter: approx. 25 cm

421190 Jarradahle SEED

421190 Jarradahle

Large-fruited varieties

Kamo Kamo

- Small 'Tonda Padada' type with distinct ribbing
- The fruits mature from dark green to ochre yellow
- Edible, fruit diameter: approx. 15 cm

421200 Kamo Kamo SEED

Knuckle Head F1

- The vertically oval fruits are covered with eye-catching warts
- Dark orange skin colour, slightly ribbed
- Fruit weight: approx. 5-7 kg

421210 Knuckle Head F1 SEED

Lakota

- Pear-shaped ornamental and edible pumpkin with dark green and orange-coloured, uneven skin
- Good storability
- Fruit weight: approx. 3 kg

421230 Lakota SEED

Longue de Nice

- Fruits with a length of up to 1 m that thicken towards the end
- The dark green, smooth skin later turns light brown
- Very durable and good storability
- Sweet flesh, fruit weight: approx. 6-10 kg

421250 Longue de Nice SEED

Lumina

- Slightly ribbed and flat, round pumpkin with glossy, cream white skin
- Orange flesh, diameter: approx. 30 cm

421260 Lumina SEED

Marina di Chioggia

- Greyish green, warted, turban-shaped, diameter: approx. 25 cm
- Edible, orange-red flesh

421270 Marina di Chioggia SEED

Mini Musk

- Nutmeg pumpkin with smaller fruits that weigh approx. 5 kg, short tendrils
- Firm, ochre-coloured flesh with the popular, aromatic flavour of the nutmeg pumpkin
- Late ripening, requires warmth, protected pre-cultivation is recommended

Mixtures of large-fruited varieties

Großfrüchtige Sonderformen Mix

- Large fruits in various forms and bright colours
- Also contains multi-coloured and showy fruits
- Attractive, decorative pumpkin mixture with fruit sizes from 20-40 cm

421480 Großfrüchtige Sonderformen Mix SEED

421480 Großfrüchtige Sonderformen Mix

Pumpkins for carving

Baby Pam

- Round, bright orange fruits with a diameter of approx. 15 cm
- Firm, smooth skin with slight grooves
- High yield and robust habit
- The fruits weigh approx. 1-2 kg and are ideal for smaller carving pumpkins or for consumption in smaller households

421700 Baby Pam SEED

Big Max

- Pumpkin for carving and decorating with large, deep orange fruits
- Edible flesh
- Vigorous habit, medium late ripening
- Fruit weight of up to 50 kg is possible

421710 Big Max SEED

Big Rock F1

- Heavy carving pumpkin with round to blocky shape, slightly wider than 'Rockstar'
- Firm, early colouring, deep orange skin and strong stem
- Medium early ripening, weight: approx. 7 kg up to more than 10 kg

421720 Big Rock F1 SEED

Champion F1

- Very large, comparatively early maturing pumpkin for carving
- Fruit weight: approx. 15-20 kg
- Well-ribbed, deep orange skin, the stem is thick and medium long

421740 Champion F1 SEED

Charmant F1

- Very uniform, flat-topped, round to blocky fruits with orange, slightly grooved skin
- High, reliable yield
- Somewhat later and larger than 'Racer' F1, weight: approx 7-9 kg
- Short shoots, high tolerance to powdery mildew

421750 Charmant F1 SEED

Chucky F1

- Very early maturing, high yielding pumpkin
- Minimal formation of tendrils
- Uniform fruits that weigh approx. 1-1.5 kg
- Ideal for children to carve and paint

421760 Chucky F1 SEED

Cronus F1

- Dark orange pumpkin for carving and cooking with very strong, dark green stems
- Heavy, round to blocky fruits, approx. 15-20 kg
- High tolerance to powdery mildew
- Vigorous, robust habit with high yield
- Medium late harvest

421770 Cronus F1 SEED
NEW

Howden

- Proven, oval-shaped pumpkin for Halloween
- Medium late ripening, good shelf life
- Fruit weight: approx. 8-12 kg

421780 Howden SEED

Howden Biggie

- Very vigorous, voluminous pumpkin for cooking and carving in oval to blocky shapes
- The fruit size (15 kg, a good portion more than 20 kg) is larger than that of 'Rockstar' F1
- Medium late ripening, strong, clearly grooved, orange skin

421790 Howden Biggie SEED

Jack O Latern

- Pumpkin for carving with mainly round fruits, weight: 4-5 kg

421800 Jack O Latern SEED

Mischief F1

- Small pumpkin for carving and cooking with a fruit weight of approx. 1-1.5 kg
- High yielding, early variety with tolerance to powdery mildew
- The skin is slightly ribbed, deep orange-coloured and moderately firm
- Ideal for using as a smaller pumpkin for children to carve

421805 Mischief F1 SEED

Mystic Plus F1

- Intense orange-coloured pumpkin for decorating and cooking with yellow flesh and a good flavour
- Uniform fruits with a weight of approx. 2.5 kg
- Reliable yield, slightly tendriled

421810 Mystic Plus F1 SEED
NEW

Neon F1

- Exceptionally early maturing pumpkin for carving
- Smooth, orange skin and a fruit weight of approx. 3 kg

421820 Neon F1 SEED

New Rocket F1

- An improved Rocket type with a blocky fruit shape, thick stems and intensive ribbing
- High-quality, durable pumpkin for cutting and cooking
- Deep orange skin, fruit weight: approx. 8-10 kg

421830 New Rocket F1 SEED

Orange Smoothie F1

- Handball-sized pumpkin for handicrafts with particularly smooth, light orange skin
- Early and high yielding on short shoots, approx. 2-3 kg
- Ideal for painting and carving

421840 Orange Smoothie F1 SEED

Polar Bear F1

- White, round fruits that weigh 15-25 kg
- Very vigorous habit
- An attractive speciality for carving and painting for Halloween

421860 Polar Bear F1 SEED

421770 Cronus F1

Pumpkins for carving

Prizewinner F1

- Giant pumpkin for contests and carving
- Orange, grooved skin, fruit weight over 40 kg is possible
- Vigorous habit

421870 Prizewinner F1 SEED

Racer F1

- Flat-spherical to spherical pumpkin with early maturity
- Deep orange coloured fruits with bent, strong stems
- Diameter: approx. 30 cm, weight: approx. 6-8 kg
- Proven standard variety

421900 Racer F1 SEED

Racer Plus F1

- Flat, round pumpkin for carving with a high tolerance to mildew
- Strong stems and deep orange, slightly ribbed skin
- Fruit weight: approx. 6-8 kg
- Efficient variety for professional cultivation

421910 Racer Plus F1 SEED

Rocket F1

- Medium early maturing pumpkin with deep orange skin
- Stable, slighty grooved skin, fruit size: approx. 25-30 cm
- Excellent for carving jack-o'-lanterns or gruesome pumpkin faces at Halloween
- Also ideal as a large-fruited pumpkin for cooking

421940 Rocket F1 SEED

Rockstar F1

- Vertically oval, approx. 50 cm high, uniform, deep orange colour
- Medium early maturing and resistant to adverse weather conditions
- Develops strong shoots
- Fruit weight: approx. 15 kg or more

421950 Rockstar F1 SEED

Spirit F1

- Pumpkin for carving and cooking that matures early and uniformly for early sales
- Slightly ribbed, bright orange fruits
- Diameter: approx. 25 cm, fruit weight: approx. 4-5 kg

421960 Spirit F1 SEED

Spooktacular F1

- Flat, round fruits with strong stems
- Slightly ribbed fruits with a weight of approx. 2-3 kg and a diameter of approx. 20 cm
- Ideal, small-fruited pumpkin for children to carve

421970 Spooktacular F1 SEED

Sunlight F1

- Golden yellow, medium-sized pumpkin for carving and cooking
- A unique colour in the assortment
- Robust, dark green stem
- Tolerant to mildew
- Vigorous habit, fruit weight: approx. 2.5 kg

421975 Sunlight F1 SEED
NEW

Wolf

- Carving pumpkin with a particularly massive, dark green stem
- Slightly flattened, almost round fruits, deep orange, firm skin, slightly ribbed
- Medium late ripening, fruit weight: approx. 8-12 kg

421980 Wolf SEED

Malkürbis Mix

- Mixture of numerous different shapes and colours with smooth skins for colouring and handicraft
- Kids can conjure funny faces and grimaces on the autumn pumpkins without using a sharp knife
- Early start of maturing, fruit size: approx. 10-40 cm
- Also contains hard-skinned, non-edible varieties

421990 Malkürbis Mix SEED

Schnitzkürbis Mix

- A mixture of early and medium early varieties in different shapes and colours
- Ideal for carving, handicrafts and decorating
- The diameter of the fruit reaches approx. 10-50 cm
- All varieties are edible

422000 Schnitzkürbis Mix SEED

421870 Prizewinner F1

Bottle gourds

Apple

- Apple-shaped fruits with dark green skin
- Attractive, light spots, diameter: approx. 25 cm
- Vigorous habit
- Loves warmth, pre-cultivation is recommended

422300 Apple SEED

Kalebassen

- Light green, bottle-shaped fruits with a length of up to 50 cm
- Also well suited for hollowing out and carving
- Loves warmth, pre-cultivation is recommended
- Vigorous habit
- Harvest when fully mature

422320 Kalebassen SEED

422300 Apple

422320 Kalebassen

Kalebassen Mix

- Mixture of several calabash varieties in different shapes, green shades and sizes
- Loves warmth, pre-cultivation is recommended
- Very vigorous habit

422330 Kalebassen Mischung SEED

Maranka

- Dark green calabash type with striking, dented skin
- Length: approx. 40 cm
- Cultivation on trellises or supports produces straight fruit necks
- Vigorous habit
- Loves warmth, pre-cultivation is recommended

422340 Maranka SEED

Snake

- Very long, slender fruits with light green skin
- When cultivated in soils, they twist like a snake
- Vigorous habit
- Loves warmth, pre-cultivation is recommended
- Length: up to 1.5 m

422350 Snake SEED

Speckled Swan

- Strikingly shaped, green bottle gourd with light spots on the skin
- If cultivated in beds, they develop the characteristic, bent swan necks
- If the fruits hang on trellises, they remain slim and straight
- Vigorous habit
- Loves warmth, pre-cultivation is recommended

422360 Speckled Swan SEED

Tiny Bottle

- Very small, light green calabash with a size of approx. 10 cm
- Well suited for being painted and handicrafts
- Loves warmth, pre-cultivation is recommended
- Vigorous habit

422370 Tiny Bottle SEED

422340 Maranka

422350 Snake

422360 Speckled Swan

422370 Tiny Bottle

401065 **Salmon** 28 84
Salmon pink

401055 Summer Fruits Carmine

401060 Summer Fr. Lemon

401065 Summer Fr. Salmon

Paprika

- Attractive container plant with numerous, bright red flowers
- Compact, very uniform plant structure
- Strong peduncles, slightly silvery foliage

401080 **Paprika** 28 84
Red

401080 Paprika

Colorado

- Colourful mixture for cutting
- Flowers the year of planting
- Hardy

401090 **Colorado** 128 SEED
Mix

More Achillea can be found on the following page ➜

401090 Colorado

Summer Berries

- Contrasting kaleidoscope of carmine pink colours
- Good for summer production of pots

401100 **Summer Berries** 180 SEED
Mixture of carmine pink shades

401100 Summer Berries

Summer Pastels F2

- Attractive mix of colours in pastel shades with flowers in the first year
- Ideal for container cultivation in the summer
- Also suitable for cutting

401105 **Summer Pastels F2** SEED
Pastel mixture

Agastache x hybrida

Mexican hyssop

1000		°C		
1500	I-V	16-18	10-20	6-7

Variety		cm		Blooms the first year
Astello Indigo	13-15/23*	50	V-IX	x

*) 3 plants/pot

Astello Indigo

- Numerous, indigo-blue flower spikes with a pleasant, mint fragrance
- Vigorous, well-branched perennial
- Robust and reliable cultivation, even when conditions are cool
- Very uniform, ideal for large area bed plantings in landscaping

401275 **Astello Indigo** SEED
Indigo-blue

401275 Astello Indigo

Agastache foeniculum

Anise hyssop

1000		°C		
1500	I-V	16-18	10-20	6-7

Variety		cm		Blooms the first year
Golden Jubilee	12-14	30	V-IX	x

Golden Jubilee

- Medium blue spikes form a striking contrast to the golden yellow foliage
- Very well-branched, stable plant structure
- Pleasantly fragrant
- Ideal for quality pots in the summer and smaller containers

401250 **Golden Jubilee** SEED
Medium blue, golden yellow

401250 Golden Jubilee

Ajuga reptans

Sugar Plum	11-13	15	IV-V	-

Atropurpurea

- Ground cover with mahogany brown, dense foliage
- Blue flowers on short, stable peduncles
- Also good for plantings in autumn

401600 **Atropurpurea** 84
Mahagony brown foliage

Black Scallop

- Shiny, dense foliage with an intense black brown colour
- Medium blue flowers
- Very good hardiness and heat tolerance
- Mildew resistant, an ideal, robust ground cover

401610 **Black Scallop** 84
Black brown foliage

Burgundy Glow

- Carmine pink, white and grey/green patterned foliage
- Interesting as a decorative perennial or colourful ground cover

401620 **Burgundy Glow** 84
Tri-coloured foliage

Mini Mahogany

- Ground cover with narrow, dark brown foliage and very good hardiness
- Very flat, dense growth habit, easy cultivation
- Early, medium blue flowers

401630 **Mini Mahogany** 84
Dark brown foliage

Sugar Plum

- Very healthy, pink, green and cream white coloured foliage
- Very good hardiness, tolerates heat and sun
- Resistant to mildew, an ideal, robust ground cover

401640 **Sugar Plum** 84
Blue, pink foliage

European Vegetable Assortment

The goal:

- A European Volmary® range of vegetables. This is an assortment with which **all users of vegetable seeds and young plants** across Europe can work successfully.

The situation:

- In Europe there are **similar growing conditions** in terms of temperature, moisture, day length and soil/substrates. Large areas, due to the Gulf Stream, are characterised by a humid, oceanic to continental climate. In addition, there is the Mediterranean basin, with its subtropical, summer-dry climate and mild, humid winters; see European climatic map.
- The growth conditions are so similar throughout Europe that most European gardeners can successfully grow **the same species and varieties**. This applies to production growers as well as to amateur gardeners. This is especially true for fruit vegetables, which are often produced under roofs and in substrates.
- Due to various cultivation traditions, food habits and the resulting consumer expectations, there is a **wonderful variety of colours, shapes and flavours** when it comes to European vegetables. These additional regional vegetable types are included in the European Volmary® range of vegetables. They contribute to horticultural diversity and hence to biological diversity.

The advantages:

- A European vegetable assortment enables an exciting, innovative exploration of the various European cultures and cuisines.
- People of different cultures within the home region can be gained as new customers.
- The sales region for vegetable products can be extended across Europe in accordance with consumer habits.

European Climatic Map

Tundra	Mountainous
Subarctic	Humid subtropical
Humid oceanic	Semi-dry
Humid continental	Subtropical summer-dry

Classic Vegetables

- This is the basis of **nutrition for many people.** Vegetable consumption is in contrast to the consumption of meat ethically unproblematic, healthy and environmentally friendly.
- At the same time there is a great **yearning for nature** in the human scale, e.g. urban gardens, outdoor kitchens, old varieties of vegetables types, country magazines...
- In particular, **fruit vegetables are trendy.** Tomatoes, cucumbers, melons, peppers and aubergines are enjoying great and growing popularity among consumers.
- With the blight-resistant **outdoor tomatoes** such as the cherry tomato 'Philovita' and the truss tomato 'Phantasia', full garden success can be achieved by hobby gardeners, even under adverse weather conditions.
- Highly aromatic **vegetable classics** are bringing the magic of old gardens back. Melodious names such as the cherry tomatoes 'Gardener's Delight' from England, 'Black Cherry' and 'Gold Nugget' make the hearts of European gardening enthusiasts beat faster.
- The current **Volmary® seedling assortment** offers all types of fruit in Volmary® quality. Pre-cultivated young plants save time and space. Sowing and the labour-intensive transplanting can be omitted.
- The **Volmary® marketing concepts** Volmary® and Soul PLANTS® are designed to support the sale of high-quality plants at the end customer.

Grafted Vegetables

- Graftings of tomatoes, peppers, cucumbers and melons have been a standard for **professional vegetable growers** for years.
- Graftings provide a **considerable surplus** and ensure a **more stable yield**. They enhance the fruit vegetables' vigour, cold tolerance and resistance to soil-borne nematodes and fungi.
- By cultivating **plants with multiple shoots**, a significantly higher yield can be achieved and decorative summer plants can be grown on house trellises. Children are happy when they can harvest delicious cherry tomatoes from the second floor window.
- These advantages are also appreciated by amateur gardeners. They ask specifically for grafted vegetable plants. Grafted vegetables are an **important source of revenue in the area of bedding and balcony plants.** Gain new clients with this important media topic and position yourself as an innovative leader in the gardening industry.
- Grafted vegetables are healthy due to their natural resistance and they utilise the nutrient resources of the soil due to the vigour of the rootstock. This fits well with the **trend of sustainability**. With the use of solar energy and active storm water management in rain gardens, graftings help the environment and increase the vitality in gardens.
- Our current **range of grafted vegetables** for both the amateur and professional areas of horticulture meets the highest standards, both for the production of high-quality young plants for sales to hobby gardeners as well as for fruit production.

Organic Vegetables & Herbs

- Organic vegetables have become a **major segment** in the vegetable market. Many customers purchase organically produced vegetables and hobby plants. A sustainable and resource-conserving production has become a must.

- The heart of the Volmary® organic fruit vegetable assortment are particularly robust, highly aromatic tomato varieties from **organic, outdoor breedings**. The small-fruited, aromatic tomatoes 'Primavera' (red), 'Dorada' (yellow), 'Indigo Rose' (black) as well as the wild tomatoes 'Rote Murmel' (red) and 'Golden Current' (yellow) are inspiring.

- Volmary GmbH has been a **Bioland organic partner** since March 2013. The common goal is the sales promotion of organic vegetables and herbs according to Bioland quality criteria.

- Organic young plants are supplied to Bioland contract growers and then further cultivated. The finished products can be marketed to organic markets and food retailers under the **brand logos Bioland® and Soul PLANTS®.**

Balcony Vegetables

- Consumers' gardens are getting smaller and smaller, and particularly in cities, many people are proud of their little **paradise on the balcony.** An own garden offers the opportunity to emotionally and physically relax, and it is designed with a lot of imagination and enthusiasm.
- Balcony vegetables, for example delicious strawberries, exclusive artichokes or high yielding, small-fruited tomatoes, cucumbers and peppers are a key component of these gardens and are also used in **mixed plantings with bedding and balcony plants.**
- In containers and lovely terracotta pots, **"real vegetables"** such as the cherry tomato 'Favorita', the mini snack cucumber 'Mini Stars', the snack pepper 'Lubega® Mini' and the small, blocky pepper 'Almira® Midi' feel completely comfortable and provide a rich harvest from the garden throughout the entire summer – all that with full vegetable flavours.
- Our current **balcony vegetable young plant assortment** meets the highest standards in plant production and is intended for sales to amateur gardeners; not only for the production of high quality, flowering potted plants in the spring, but also for sales of fruit-bearing container plants in the summer.
- Ideal additions to our balcony vegetable assortment can be found in the **herb range.**

Herbs

Herbs (continuation)

- Herbs are fascinating. By means of their **spicy, aromatic and healing effects**, they inspire the imagination and invite us to taste and enjoy. The importance of having fresh herbs from your own garden will continue to grow as the consumer increasingly becomes more interested in health awareness.

- The **decorative effect** of herbs, such as the wonderfully blooming bush basil 'Magic Blue®' and its sister variety 'Magic White®', must not be underestimated – a **delight for bees** and other beneficial insects.

- The Volmary® herb assortment offers a promotional **mix of seedlings and cuttings**. Herbs originating from seeds guarantee an efficient and cost-effective production of many culinary herbs. Herbs from cuttings are appreciated if seed propagation is difficult, as is the case with rosemary and lavender. Clear accents at the point of sale are set by the vegetatively propagated herbs with regard to the flavours, the variety of shapes and durability of the plants.

- Our current **assortment of herb young plants,** for amateur and professional gardeners, meets the highest demands. This applies not only to the production of fresh cut herbs e.g. for sales at weekly markets, but also to the production of high-quality herb pots e.g. for sales to amateur gardeners.

Summer onions

Winchester F1

- Very early ripening onion of type 'Amerikaner'
- 'Winchester' forms medium-sized, glossy onions
- Ideal for early, fast marketing without storage

500500 Winchester F1 SEED
NEW

Summit F1

- Very early maturing 'Rijnsburger' type hybrid
- Golden yellow, firm skin
- Excellent storage qualities and late sprouting

500650 Summit F1 SEED

Hytech F1

- Medium early onion with particularly vigorous, upright foliage
- Ripens evenly, brings a high yield
- Uniform, round onions, ideal for long-term storage

500750 Hytech F1 SEED

Hyskin F1

- Recommended variety in the medium early 'Rijnsburger' range
- Very uniform bulbs ripen with narrow necks
- Excellent skin durability and shelf life

500800 Hyskin F1 SEED

500900 Hylander F1

Hylander F1

- Very resistant against downy mildew
- Medium early, round 'Rijnsburger' type with a very high yield
- Uniform onions with excellent skin durability, may be stored until approx. February

500900 Hylander F1 SEED

Redspark F1

- Red, medium late quality variety
- Round onions have smooth necks and are suitable for storage
- Intense, red colour on the inside and outside

501050 Redspark F1 SEED

White Wing F1

- White skin colour, high yield potential
- Very early ripening, ideal for fast sales

501230 White Wing F1 SEED
NEW

Spanish onions

Exhibition

- Very large, mild onion for direct sales
- Interesting for gastronomy, peeling and hobby plants
- Top yields of 1-1.5 kg after pre-cultivation in January

501250 Exhibition SEED

Seeded shallot

Conservor F1

- Efficient alternative for cultivating seeded shallots
- Brown-skinned, oval, French shallot with pink flesh
- Stable root system for even sorting

501550 Conservor F1 SEED

501550 Conservor F1

Spring onions

Bianca di giugno / Starlight

- Hardy, non-bolting spring onion with oval bulbs
- Sowing in August and March with harvests in April and June
- Intense, dark green, upright foliage for easy bunching

501600 Bianca di giugno / Starlight SEED

501600 Bianca di giugno / Starlight

Elody

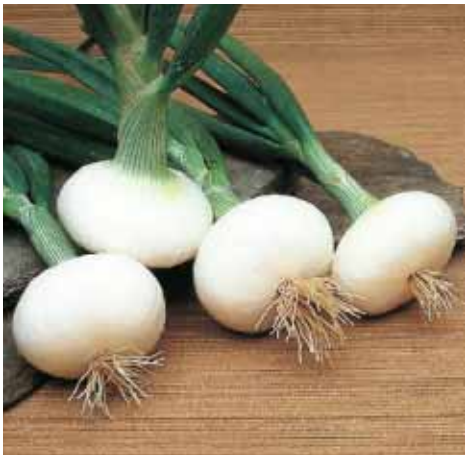
- Well-known, very hardy spring onion for overwintering
- Pure white, oval onions
- Dark green, upright foliage for easy bunching
- For sowing at the end of summer and in the spring

501650 Elody SEED

Barona

- Very early bunching onion of type 'Barletta' with white, flat-round onions
- For the entire season, with sowing from March to July
- The stable, dark green foliage is very well suited for bunching
- French standard variety with a very nice presentation

501700 Barona SEED



501700 Barona

Winter onion sets

Troy F1

- Attractive, dark yellow onion set for overwintering and early spring plantings
- High yields of flat-round to round onions, good skin quality
- Comparatively high tolerance against bolting
- 'Quality inside' breeding programme

501900 Troy F1

501900 Troy F1

Onion sets

Forum F1

- The earliest onion for spring plantings, harvest from mid-June
- An attractive, round onion with an excellent quality
- The thin throat permits a short drying process, which allows for early marketing
- 'Quality inside' breeding programme

502000 Forum F1

Hercules F1

- Yellow, round onion with uniform, upright foliage
- Good tolerance against bolting, very well suited for long storage
- 'Quality inside' breeding programme

502050 Hercules F1

Sturon

- Round, organic onion, also for processing
- Very productive, high dry mass content
- Ideal for long storage with good tolerance to bolting

502100 Sturon

502000 Forum F1

502050 Hercules F1

Red Ray F1

- Very uniform, high-quality onion set (heat-treated)
- Excellent skin and beautiful, ruby red colour
- 'Quality inside' breeding programme

502250 Red Ray F1

Snowball

- White, round, high-quality onion set
- Eary harvest and excellent flavour
- Interesting enrichment to the assortment

502450 Snowball

502250 Red Ray F1

502450 Snowball

Shallots

Yellow Moon

- Yellow, round shallot
- Typical, fine, mild fragrance and flavour
- Very high yielding with good shelf life

502500 Yellow Moon

Biztro

- Red, round shallot with light pink flesh
- Very aromatic fragrance with a spicy, hearty flavour

502550 Biztro

Mikor

- Semi-long, French shallot for the highest demands
- Forms a head of approx. 8-10 brown red, single cloves
- Sweet, aromatic flavour, for upscale gourmet cuisine

502600 Mikor

Longor

- Long, medium early French shallot with a red-brown skin colour
- Forms a head of up to 6-8 single bulbs when mature
- Pink-violet on the inside, with a sweet flavour

502650 Longor

Allium fistolosum

Green onions — Liliaceae

Schweizer Riesen / Prelina

- Very early, 'Schweizer Riesen' type, harvest from mid-June to mid-August
- Strong, long shafts and vigorous, dark green foliage
- Excellent durability in the field during the season

502880 Schweizer Riesen / Prelina SEED
NEW

Bulgarische Riesen / Lincoln

- Productive leek of type 'Bulgarische Riesen'
- Very long stalk, harvest from June to September

502900 Bulgarische Riesen / Lincoln SEED

Blaugrüner Herbst / Sevilla

- Particularly uniform leek for harvesting from July until December
- High yielding and long-shafted stalks with dark green foliage
- Very good to work with and easy to clean

503050 Blaugrüner Herbst / Sevilla SEED

502600 Mikor

502650 Longor

503050 Blaugrüner Herbst / Sevilla

Blaugrüner Herbst / Durina

- Dark green, very healthy autumn leek for harvesting from October until December
- It presents the changeover from autumn and winter varieties with its comparatively good hardiness
- Long, straight shafts and an optimal green/white proportion

503150 Blaugrüner Herbst / Durina SEED

Blaugrüner Winter / Bandit

- Dark green winter leek with upright leaf arrangement
- Very productive and good hardiness
- Long harvest period from September to December
- Remains robust and healthy even under unfavourable conditions

503200 Blaugrüner Winter / Bandit SEED

Blaugrüner Winter / Selina

- Hardy, quality leek for harvesting from mid-November until mid-April
- High yielding, with medium long shafts and robust, dark green foliage

503350 Blaugrüner Winter / Selina SEED

Herbstriesen 2 / Hannibal

- Robust autumn selection for harvesting from July to October
- Dark green, healthy foliage, long, strong shafts

503450 Herbstriesen 2 / Hannibal SEED

Surfer F1

- Uniform and productive autumn leek for harvesting from August to November
- Very upright growth, dark-coloured foliage and robust, uniformly thick stalks
- Minimal susceptibility to thrips, remains strong against rust and Alternaria
- Direct sowing from March to mid-April

503650 Surfer F1 SEED

Curling F1

- Late autumn and winter leek with a dark leaf colour
- Medium long shafts with short, white/green transition and upright foliage
- Good to harvest and easy to clean
- Robust against rust, leaf breakage, thrips, Alternaria and Phytophthora

503700 Curling F1 SEED

503650 Surfer F1

Potted vegetables	-	-	-	-

*) Celeriac for bunching

Balena

- Early bunching celeriac that is comparatively resistant to bolting, very upright foliage
- Also very suitable for the production of large rooted goods
- Forms attractive, round, smooth-surfaced bulbs that have a robust, white inner quality

504200 Balena SEED

Prinz

- Bolt-resistant bunching celeriac for the highest demands with upright, dark green foliage
- The bulb is round, relatively smooth and requires little cleaning
- Also ideal for supplying fresh markets with bulb products
- Also suitable for cultivation under glass, plastic or fleece as well as outdoors

504250 Prinz SEED

Monarch

- Proven standard variety for fresh markets and processing
- Large, heavy, trapezoidal round, light-coloured bulbs with low lying roots
- Firm inner quality, light-coloured and white upon cooking, good shelf life, sowing from mid-March

504300 Monarch SEED

Brilliant

- Medium early variety for fresh markets and industrial purposes as well as for storage
- Good quality, round, smooth, white bulbs, very uniform products with few side roots
- Also suitable as bunching celeriac, the foliage is dark green, medium high and stays healthy for a long time

504400 Brilliant SEED

504200 Balena

Beta vulgaris var. conditiva

Beetroot — Chenopodiaceae

1000	Mio/ha			
12-20	0.6-0.7	IV-VII	30-45 x 5-10	17-22

Round, red roots

Pablo F1

- Round, red hybrid variety with excellent uniformity and a high yield
- The smooth skin makes it ideal for processing, sowing starting in March
- A top variety for fresh markets and the industry, also for storage

504550 Pablo F1 SEED

Boro F1

- Round, smooth root with healthy foliage and intense colouring
- Good storage qualities, ideal for processing and fresh markets
- Sowing from April-June, very robust even under unfavourable weather conditions

504650 Boro F1 SEED

504550 Pablo F1

504900 Boldor F1

Round, yellow roots

Boldor F1

- Innovative, yellow beet of professional quality
- Appealing, round roots, orange on the outside, yellow on the inside
- Very interesting product for fresh markets and direct marketing

504900 Boldor F1 SEED

Oblong, red roots

Taunus F1

- Current top variety with cylindrical, medium long and smooth roots
- Excellent inner quality with uniform colouration

504950 Taunus F1 SEED

504950 Taunus F1

Beta vulgaris var. vulgaris

Chard — Chenopodiaceae

Abeni F1

- Standard for earliness and quality with regard to the harvest in May/June
- Exceptionally good self-coverage in terms of earliness
- Healthy, upright foliage
- Very uniform, good flower quality

506000 Abeni F1 SEED

Ubac F1

- Medium early cauliflower for spring and autumn cultivation
- Large, firm flowers and good self-coverage
- Easy to pack thanks to its stabile, compact and healthy crown
- 35,000 - 40,000 plants / ha

506050 Ubac F1 SEED

Lecanu F1

- Medium early quality cauliflower for harvesting in the summer and autumn; developmental period: approx. 75 days
- The white flowers cover well and have a very good quality and very reliable formation
- 33,000 - 40,000 plants / ha

506200 Lecanu F1 SEED

Clapton F1

- Clubroot resistant (HR), uniform cauliflower for the highest demands, developmental period: approx. 85 days
- The heavy, white heads are particularly resistant to hairiness and double heads
- Robust, moderate growing plants with good self-coverage
- 30,000 - 35,000 plants / ha

506450 Clapton F1 SEED

Skywalker F1

- Healthy, quality cauliflower for autumn cultivation with robust foliage
- Forms heavy, white flowers with fine florets
- Also ideal for industrial cultivation, 30,000 plants / ha

506550 Skywalker F1 SEED

Goodman

- Compact, true-to-seed cauliflower for harvesting from May to August
- Well suited for high densities in order to produce smaller flowers
- 30,000 plants / ha

506700 Goodman SEED

Cauliflower - special types

Grafitti F1

- Violet, large-flowered cauliflower of optimum quality and a high harvest rate
- Does not require any cool night temperatures for colouring, summer cultivation is also possible
- The intense colour is enhanced even more by light
- Up to 60,000 plants / ha

506800 Grafitti F1 SEED

Sunset F1

- Orange-coloured cauliflower for professional cultivation
- With a comparatively high uniformity and harvesting rate
- Convincing due to the intense colouration of the flowers and the strongly upright foliage
- Restrictions regarding the quality must be expected in midsummer

506860 Sunset F1 SEED

Panther F1

- Green, round-headed cauliflower for the highest demands
- Nicely arched, light green flowers without hump formation
- Relatively fast start of harvest, a consistent harvest and high yields
- Ideal for autumn cultivation, 25,000 - 30,000 plants / ha

506950 Panther F1 SEED

Veronica F1

- Reliable, 'Romanesco' type cauliflower with fresh green, pointed inflorescences
- Stable and ideal for cultivation in late summer and autumn
- Robust against powdery mildew
- 25,000 - 30,000 plants / ha

507000 Veronica F1 SEED

506200 Lecanu F1

506800 Grafitti F1

Pointed cabbage

Duncan F1

- Very early and compact pointed cabbage with excellent resistance to bolting
- Suitable for successive sets up to late autumn and for overwintering in mild climates
- Heads are nicely pointed with dark green, upright leaves, weight 1-1.2 kg
- Approx. 50,000 plants / ha

507100 Duncan F1 SEED

Clarinet F1

- Reliable pointed cabbage for the entire season
- High surface yields
- This very sturdy variety has a very dark green colour
- Can be stored for short periods, 60,000 plants / ha

507150 Clarinet F1 SEED

Caramba F1

- Productive, well-filled pointed cabbage for summer and autumn harvests
- Quite sturdy variety, strong, dark green outer leaves
- Cold storage is possible for a short time, 50,000 - 70,000 plants / ha

507200 Caramba F1 SEED

507150 Clarinet F1

Caraflex F1

- Healthy cabbage with attractive, semi-slender heads
- Long growing season, ideal for organic farming
- Well suited for storage, 50,000 - 70,000 plants / ha

507250 Caraflex F1 SEED

Flat, round shape

Fieldglory F1

- Flat, round, early white cabbage for fresh markets, approx. 2 kg
- Convinces due to loose layering, fine, soft leaves and its sweet aroma
- Good durability in the field, 40,000 - 55,000 plants / ha

507300 Fieldglory F1 SEED

Fresh market and storage varieties

Farao F1

- Fresh market white cabbage for early summer harvest
- Outer leaves are dark green, compact and upright
- Round, 1-2 kg heavy heads with superb inner quality
- Good field durability and a comparatively high sturdiness
- 45,000 - 65,000 plants / ha

507400 Farao F1 SEED

Amazon F1

- Quality white cabbage for compact and firm products for fresh markets, 1-3 kg
- Harvest from mid-July to the end of October
- Excellent inner structure for early products
- Long harvest period, sturdy, 40,000 - 55,000 plants/ ha

507550 Amazon F1 SEED

507400 Farao F1

Perfecta F1

- Medium early hybrid of 'early, long-lasting cabbage' type
- Compact growth, fast head formation and very sturdy
- Also extremely resistant during longer harvesting periods
- If planted later, short-term storage is possible, 35,000 - 60,000 plants / ha

507600 Perfecta F1 SEED

Kilaton F1

- Large-headed storage cabbage for the highest demands with clubroot resistance
- Very healthy plants with dark green heads that weigh 2-3.5 kg
- Good for storage, 30,000 - 40,000 plants / ha

507650 Kilaton F1 SEED

507650 Kilaton F1

Lennox F1

- Standard variety with a high cultivation reliability and peak yields for long-term storage
- Heads weigh from 2 to over 4 kg, they are dark green and slightly oval
- With a wide planting distance, even heavy heads can be provided for the latest industrial purposes
- 30,000 - 38,000 plants / ha

507750 Lennox F1 SEED

Industrial varieties

Megaton F1

- Early, very productive hybrid for harvesting from mid-September
- Ideally suited for the sauerkraut industry, the heads weigh up to 8 kg
- Beautiful, solid, fine structure with short inner stal
- Healthy, the abundant outer leaves are tolerant to ringspot
- 25,000 - 33,000 plants / ha

508050 Megaton F1 SEED

Filderkraut

- Large, very sweet white cabbage, ideally suited for the production of fresh sauerkraut
- Heads weigh 2.5-5 kg, pointed, approx. 50 cm high, bright green and have loose inner layering
- 27,000 plants / ha

508200 Filderkraut SEED

Brassica oleracea var. capitata f. rubra

Pointed red cabbage

Kalibos

- Red, medium early pointed cabbage, 2 to 2.5 kg
- Interesting niche product with a crisp internal structure and an excellent flavour
- Also ideally suited for short term storage, 60,000 plants / ha

508300 Kalibos SEED

508300 Kalibos

Fresh market, storage and industrial varieties

Primero F1

- Early maturing, fast-growing red cabbage for harvesting in June/July
- Compact growth and sturdy, good internal structure
- Close planting of approx. 160,000 plants / ha produces head weights of 200-300 g
- 40,000 - 50,000 plants / ha

508350 Primero F1 SEED

Integro F1

- Early, very sturdy, round fresh market red cabbage, 1-2 kg
- The fast growth allows planting as a catch crop
- Short storage is possible for later cultivation, 40,000 - 60,000 plants / ha

508400 Integro F1 SEED

508400 Integro F1

Autoro F1

- Medium late standard variety for fresh markets and processing
- Very high yields, heads are oval, dark red, 2.5-3.5 kg
- Good durability in both the field and in cold storage
- Can be planted relatively late and close together as a fresh market cabbage
- 25,000 - 45,000 plants / ha

508450 Autoro F1 SEED

Lodero F1

- Clubroot-resistant autumn cabbage, also for medium long storage
- Oval heads with a dark red inner colour and good wax layer

508750 Lodero F1 SEED

Subaro F1

- Vigorous, medium late storage variety with excellent wax layer
- For the longest storage, round-oval, solid heads with impressive inner quality
- 35,000 - 50,000 plants / ha

508800 Subaro F1 SEED

508750 Lodero F1

Huzaro F1

- Proven, robust red cabbage variety for optimum storage
- Oval, well-coloured heads with a very good wax layer
- 35,000 - 40,000 plants / ha

508850 Huzaro F1 SEED

Brassica oleracea var. gemmifera

Maximus F1

- Well-known, early brussels sprout variety for harvesting in September/October
- Provides a high yield of smooth, uniform buds
- Very good resistance to bolting, various planting dates are possible

509000 Maximus F1 SEED

509000 Maximus F1

Diablo F1

- Medium early, productive quality variety for harvesting in October/November
- Stable stem, cylindrical plant structure
- The buds are round, smooth and without leaves
- Very productive, long harvesting period

509100 Diablo F1 SEED

Nautic F1

- Medium early, very high yielding brussels sprout for harvesting in October and November
- Forms fine, round buds with thin stem formation
- Firm and robust against fungal diseases

509150 Nautic F1 SEED

Cronus F1

- Clubroot-resistant, medium late brussels sprout for harvesting in November and December
- The buds are dark green, very smooth and have an attractive quality

509200 Cronus F1 SEED

Doric F1

- Popular brussels sprout for organic farming
- With quality buds and good stability, resistant to yellow leaves
- Long harvesting period from October to January

509250 Doric F1 SEED

509200 Cronus F1

Mercurius F1

- Very healthy winter brussels sprout for harvesting from January to February
- Its very uniform buds and the large harvest time slot are impressive

509300 Mercurius F1 SEED

Genius F1

- Winter brussels sprout with high resistance to bolting and a harvest period until the end of February
- Forms uniform, smooth buds with small cut surfaces

509320 Genius F1 SEED

White stems

Cindy F1

- Very early variety for the earliest cultivation in the greenhouse and for the first plantings in the field under fleece
- Robust, with white bulbs that are clean on the bottom side

509450 Cindy F1 SEED

Korist F1

- Standard variety for tunnel and outdoor cultivation throughout the entire season
- Round to flat round stems, strong, upright, dark green foliage
- Sturdy, with good resistance to bolting and only becomes woody slowly
- Good quality harvesting over a longer period

509500 Korist F1 SEED

Korridor F1

- Early summer and autumn kohlrabi with upright, dark green foliage
- The stems are flat-round and have a low tendency to woodiness
- Characterised by its high stability and healthiness

509550 Korridor F1 SEED

Konan F1

- Fast-growing summer variety with good foliage development similar to 'Konmar' F1
- The sturdy hypokotyl and the position of the leaf stalk close to the stem make a fast harvest possible
- Little leaf breakage and easy packing, very good uniformity for a one-time harvest

509600 Konan F1 SEED

Konmar F1

- Summer kohlrabi with dark green and very upright, healthy foliage
- Produces quality stems with a flat, round shape

509650 Konmar F1 SEED

Lanro

- Outdoor variety that is particularly good for early cultivation due to its resistance to frost
- Also suitable for unheated greenhouse cultivation
- The stems are flat-round and have medium strong foliage

509750 Lanro SEED

509650 Konmar F1

509750 Lanro

Kossak F1

- Late, very robust, white hybrid variety for industrial cultivation
- Very productive and sturdy, round, tender flesh and many leaves
- Can be harvested over a long period
- Weight: up to 3 kg/stem, planting distance: 50 x 70 cm

509850 Kossak F1 SEED

Superschmelz

- Slow-growing outdoor kohlrabi which produces very tender stems up to 4 kg in weight
- The foliage is strong and robust, planting distance: 50 x 70 cm

509900 Superschmelz SEED

509850 Kossak F1

Blue stems

Ballot F1

- Early blue kohlrabi for harvesting in the spring and autumn
- Comparatively resistant against bolting, cracking and woodiness
- The stems are round and have a tender inner quality

510000 Ballot F1 SEED

Kolibri F1

- Medium early, blue, flat-round outdoor kohlrabi which is also suitable for early cultivation under plastic
- The stems are sturdy, they become woody at a late stage and are upright on the stalk
- The foliage is compact and upright

510050 Kolibri F1 SEED

Blaro

- Medium late greenhouse and outdoor variety
- Recommended for early outdoor sets due to its low sensitivity to cold and good resistance to bolting
- The stems have a good blue colour and are flat-round/round, the foliage is particularly strong and stable

510100 Blaro SEED

510100 Blaro

Brassica oleracea var. italica

Broccoli — Brassicaceae

1000	1000		°C	
4.0-6.0	1300	I-VI	15-20	4-6

Type of cultivation			°C	
Fresh vegetables	50 x 60	-	-	8-11
Potted vegetables	-	-	-	-

Monterey F1

- Popular, reliable crown broccoli, also for early cultivation
- Harvest is from the start of June until the start of November
- The dark green heads show a fine granulation
- 25,000 - 40,000 plants / ha

510300 Monterey F1 SEED

Belstar F1

- Medium early variety for summer and autumn cultivation
- Forms stable, heavy, dark green flowers of fine quality
- Vigorous habit and resistant to overgrowth and diseases

510350 Belstar F1 SEED

Ironman F1

- Current top variety for the entire season
- Very insensitive to the formation of side shoots and heads without hearts
- The flowers are strikingly dark green, strongly arched and have a medium fine, granular structure
- Concentrated maturing and comparatively little formation of hollow stems

510400 Ironman F1 SEED

Marathon F1

- Medium late, for the production of large umbrella-like 'crown broccoli'
- Very large, heavy and well-arched, bluish-green, finely budded heads
- For midsummer to autumn cultivation, robust against downy mildew

510450 Marathon F1 SEED

510450 Marathon F1

510600 Santee F1

Broccoli rabe

Santee F1

- Broccoli rabe is a flavourful, English speciality with a violet colouring of the flowers
- A large number of small heads with thin stems are harvested
- For planting from April until mid-August with a long harvesting period from June until mid-November

510600 Santee F1 SEED

Brassica oleracea var. sabauda

Savoy — Brassicaceae

1000	1000		°C

Type of cultivation				
Fresh vegetables	50 x 60	-	-	9-20
Potted vegetables	-	-	-	-

Premius F1

- Very early, typical savoy cabbage with medium fine curling and a fresh, green colour
- Very fast development and a relatively long harvest period
- 60,000 - 70,000 plants / ha

510800 Premius F1 SEED

Famosa F1

- Superb variety for summer cultivation, harvest from June to August
- Fresh green, tight heads with dark green, finely curled, blistery outer leaves
- Excellent health and field durability
- 40,000 - 50,000 plants / ha

510850 Famosa F1 SEED

510850 Famosa F1

Melissa F1

- Compact, medium late maturing (early) autumn savoy cabbage
- Firm, dark green heads with a good inner quality, dark green, finely curled outer leaves
- 35,000 - 40,000 plants / ha

510900 Melissa F1 SEED

Firensa F1

- Quality savoy cabbage with a long marketing period from the end of August to November
- Forms compact, round heads with an excellent inner quality
- Ideal for fresh markets, 30,000 - 40,000 plants / ha

511000 Firensa F1 SEED

Wirosa F1

- Reliable variety can be offered fresh from the field or after overwintering or cold storage
- Grey-green heads with abundant outer leaves, very frost hardy
- The outer leaves are finely curled and very robust
- 30,000 - 40,000 plants / ha.

511050 Wirosa F1 SEED

511050 Wirosa F1

Alaska F1

- Proven, finely curled savoy cabbage for autumn and winter harvest up to March
- Finely curled, heavy heads with an attractive blue-green colour
- Very popular due to its healthiness
- Very well suited for storage and freezing
- 30,000 - 40,000 plants / ha

511100 Alaska F1 SEED

Brassica oleracea var. sabellica

Curly kale — Brassicaceae

1000	1000		°C

Type of cultivation				
Fresh vegetables	50 x 50	-	-	13-15
Potted vegetables	-	12 / 19	14-18	8-10

Winnetou F1

- Very productive 'Westländer Winter' type kale
- Large, dark green leaves, finely curled, easy to strip
- Good winter hardiness for harvesting up until January

511300 Winnetou F1 SEED

Reflex F1

- A very frost hardy, productive variety for autumn and winter cultivation
- Semi-high, finely curled, high yielding, easy to tear
- Good resistance to yellowing and unfavourable weather conditions

511350 Reflex F1 SEED

Ripbor F1

- Finely curled, semi-high 'Westländer Winter' type
- Has high productivity, a long harvest period and good winter hardiness

511400 Ripbor F1 SEED

Winterbor F1

- An extremely frost hardy overwintering variety for harvesting until the end of March
- Semi-high plants with dark green, finely curled leaves
- Very good field durability

511450 Winterbor F1 SEED

511300 Winnetou F1

Redbor F1

- Red-leaved, hardy curly kale, very delicious
- A real eye-catcher for autumn decoration for harvest festivals and Halloween

511500 Redbor F1 180 SEED

511500 Redbor F1

Brassica rapa ssp. chinensis

Pac Choi — Brassicaceae

2.8-3.5	1300	II-VIII	18-22	3-4

Type of cultivation				
Fresh vegetables	40 x 50	-	-	7-10
Potted vegetables	-	-	-	-

Sprinkin F1

- Very fast, bolt-resistant Chinese cabbage for spring and summer cultivation
- Has a comparatively high head weight and a dark green colour
- 60,000 - 90,000 plants / ha

512000 Sprinkin F1 SEED

Emiko F1

- Comparatively faster growing Chinese cabbage for summer and autumn cultivation
- Produces firm, cylindrical heads that are resistant to bolting, dark green foliage, weight: 900 - 1,600 g
- Well suited for storage, resistant to Verticillium and some strains of clubroot
- Up to 60,000 plants / ha

512100 Emiko F1 SEED

Bilko F1

- Compact, medium late Chinese cabbage for autumn cultivation, ideally suited for storage
- The attractive, green heads are firm and tight
- Good tolerance to bolting and diseases for high cultivation reliability
- Resistant to several types of clubroot, up to 60,000 plants / ha

512150 Bilko F1 SEED

512150 Bilko F1

Brassica rapa ssp. rapa

Turnip — Brassicaceae

1000	Mio/ha			
3.0-4.0	1.2-1.7	III/VIII	20 x 10	9-11

Market Express F1

- White, round, smooth turnip
- Good flavour with a diameter of 6–8 cm
- Ideal for marketing in bunches of three

512300 Market Express F1 SEED

512300 Market Express F1

512350 Primera F1

512400 Royal Crown F1

Primera F1

- Red-headed, flat-round turnip with white, very tasty flesh
- Very uniform and resistant to bolting, well suited for spring and autumn cultivation

512350 Primera F1 SEED

Royal Crown F1

- White, round turnip with a violet crown
- Few root hairs, late furiness, very uniform

512400 Royal Crown F1 SEED

Capsicum annuum

Bell peppers in colours

Red Mountain F1

- Blocky, red pointed pepper for heated cultivation
- 180-210 g, glossy fruits
- Changes colour relatively fast
- HR Tm:0-2; IR TSWV

512600 Red Mountain F1 SEED

Bontempi F1

- Robust, blocky pepper, fruit weight: 170 g
- Ripens from green to red, thin-walled
- Especially suited for unheated cultivation, e.g. tunnels, also outdoors in mild climates
- HR Tm: 0-2

512850 Bontempi F1 90 180 180 336 SEED

Bendigo F1

- Robust, blocky pepper, early
- Ripens from green to red
- Well suited for unheated cultivation
- HR Tm: 0

512950 Bendigo F1 SEED

Alella F1

- Very large, thick-walled pepper from Spain
- Ideal for greenhouse cultivation
- Blocky, ripens from green to red
- IR TSWV

513100 Alella F1 90 SEED

Aurelio F1

- Italian jumbo pepper of 'Lamuyo' type
- Ripens from green to red, 320-380 g, very aromatic
- HR Tm: 0; IR TSWV

513310 Aurelio F1 90 SEED

Neusiedler Ideal

- Early, light green blocky pepper for forcing and outdoor cultivation
- Ripens to red, open-pollinated

513400 Neusiedler Ideal 336 SEED
NEW

513100 Alella F1

513310 Aurelio F1

Score F1

- Blocky, bright yellow pointed pepper
- Fleshy fruits weighing 190-210 g
- The short plants are easy to cultivate
- Very successful, even when grown in a cold greenhouse or plastic tunnels
- HR Tm:0-3

513500 Score F1 SEED

512600 Red Mountain F1

512850 Bontempi F1

513500 Score F1

Beluga® Yellow F1 (WT 8231)

- Early blocky pepper that ripens from green to yellow
- 170-180 g, also ideal for unheated cultivation

513650 Beluga® Yellow F1 (WT 8231) 180 336 SEED

Maribel F1

- Matures from green to yellow, long blocky 'Lamuyo' type jumbo pepper
- 230 g, complements the red ripening variety 'Aurelio' F1 well
- HR Tm: 0

513700 Maribel F1 90 SEED

Pusztagold

- Medium early, high yielding pepper, open-pollinated
- Light yellow, blocky, blunt pepper that ripens to orange-red

513800 Pusztagold 336 SEED

Orange Glory F1

- Blocky pepper maturing to orange, for heated cultivation in soil and substrate
- Impresses due to its perfect orange colour
- High uniformity and good shelf life of the fruits (190-210 g)
- Vigorous plants provide a very high, quality yield
- HR Tm: 0-3

513850 Orange Glory F1 SEED

Narobi F1

- The bright orange colour of this blocky pepper variety brings additional colour to the pepper range
- High yields also in unheated cultivation and a uniform colour, fruit weight: 180 g
- HR Tm: 0-2

513900 Narobi F1 180 SEED

Beluga® Lilac F1 (WT 9728)

- Bright purple, blocky pepper with an attractive play of colours
- Ripens to red, 150-170 g, very robust

513925 Beluga® Lilac F1 (WT 9728) SEED
NEW

Beluga® Purple F1 (WT 9729)

- Dark purple blocky pepper, 160-170 g, ripens to dark red
- Robust, healthy habit, for greenhouses and outdoors

513945 Beluga® Purple F1 (WT 9729) 180 SEED
NEW

513945 Beluga® Purple F1 (WT 9729)

513700 Maribel F1

513900 Narobi F1

Sweet Green® F1 (E 42.0088)

- Green blocky pepper with an attractive, special colour, fruit weight: 190 g
- Very sweet and aromatic as it ripens, however it stays green
- HR Tm: 0-2

514100 Sweet Green® F1 (E 42.0088) 180 SEED

Monte F1

- Very productive with blocky, light green fruits (200 g) which mature to yellow
- This type of pepper, popular in Austria, is robust and can survive with little heat
- Produces an early, rich harvest of appetising, crisp fruits, even outdoors
- HR Tm: 0-2

514150 Monte F1 180 336 SEED

514100 Sweet Green® F1 (E 42.0088)

514150 Monte F1

514200 Belladonna F1

Belladonna F1

- Interesting special colour, matures from a whitish green to a wax yellow
- Suitable for outdoor cultivation, large fruits, 170-200 g
- HR Tm: 0-2

514200 Belladonna F1 180 SEED

Whitney F1

- White, conically tappered blocky pepper, 12 x 8 cm, with a pleasantly mild aroma
- Early top variety with thick walls and a high yield
- Matures from cream white to yellow, then to bright red

514220 Whitney F1 SEED

514220 Whitney F1

Midi blocky pepper

Almira® Midi Red F1

(BS 02827975)

- Beautiful, small blocky pepper (60 g), matures to bright red
- Forms numerous, attractive fruits with a highly aromatic flavour
- The compact habit is also ideal for the production of fruit-bearing container plants

514300 Almira® Midi Red F1 (BS 02827975) 180 SEED

Almira® Midi Yellow F1

(BS 02827989)

- Bright yellow, small blocky pepper (60 g) from the 'Almira® Midi' series
- Fits well to the other colours with regard to aroma, fruit quality and habit

514350 Almira® Midi Yellow F1 (BS 02827989) 180 SEED

Almira® Midi Orange F1

(BS 02828008)

- Blocky pepper (60 g) that matures to orange with an excellent flavour
- Impressive like other varieties from the 'Almira® Midi' series due to its overly rich and early yield
- Very much recommended for the production of fruit-bearing plants for hobby gardeners

514400 Almira® Midi Orange F1 (BS 02828008) 180 SEED

514300 Almira® Midi Red F1 (BS 02827975)

514350 Almira® Midi Yellow F1 (BS 02827989)

514400 Almira® Midi Orange F1 (BS 02828008)

Tomato peppers

Pritavit F1

- Hungarian tomato pepper with a mild, fruity flavour and high yields
- Bright red, thick-walled fruits with a short and wide shape like a tomato
- HR Tm: 0

514500 **Pritavit F1** 180 SEED

514500 Pritavit F1

Ariella® Midi Yellow F1
(WT 2493)

- Yellow snack pepper (60 g), fruit length: 12-14 cm
- Bright, attractive colour from the 'Almira® Midi' series
- Can be eaten directly because the seeds are located on the base of the fruit

514605 NEW **Ariella® Midi Yellow F1 (WT 2493)** 180 SEED

Ariella® Midi Orange F1
(WT 2495)

- Orange snack pepper (60 g) of 'Ariella® Midi' type, 12-14 cm long
- Children love this particularly sweet variety, very thick-walled
- Also ideal for the production of fruit-bearing container plants for balconies and terraces

514610 NEW **Ariella® Midi Orange F1 (WT 2495)** 180 SEED

Lubega® Mini Red F1
(WT 2450)

- Very aromatic, mini snack pepper (30 g), the sugary sweet fruits mature from green to red
- The approx. 5 cm long and 3 cm wide, conically tapered fruits can be eaten from the top
- Ideal for the production of fruit-bearing plants for balconies and terraces

514700 **Lubega® Mini Red F1 (WT 2450)** 180 SEED

514700 Lubega® Mini Red F1 (WT 2450)

Snack peppers

Ariella® Midi Red F1
(WT 2490)

- Very aromatic, red midi snack pepper (60 g) with a sweet, fruity flavour
- Seeds on the base of the fruit, ideal for direct enjoyment
- Numerous, thick-walled, pointy fruits, 12-14 cm

514555 NEW **Ariella® Midi Red F1 (WT 2490)** 180 SEED

514555 Ariella® Midi Red F1 (WT 2490)

514800 Lubega® Mini Yellow F1 (WT 2103)

514605 Ariella® Midi Yellow F1 (WT 2493)

514610 Ariella® Midi Orange F1 (WT 2495)

514820 Lubega® Mini Orange F1 (WT 2455)

Lubega® Mini Yellow F1 (P)
(WT 2103)

- Yellow mini snack pepper (25 g) that fits very well to the 'Lubega® Mini' series
- The particularly aromatic fruits mature to a bright yellow
- Many fruits form on the compact plants

514800 Lubega® Mini Yellow F1 (WT 2103) 180 SEED

Lubega® Mini Orange F1 (P)
(WT 2455)

- Orange mini snack pepper (30 g), fits to the 'Lubega® Mini' series with regard to its habit and fruit quality
- Also ideal for producing fruit as well as for growing as a very high yielding hobby plant on balconies and terraces

514820 Lubega® Mini Orange F1 (WT 2455) 180 180 SEED

Ophelia F1

- Early maturing, oblong, pointed mini snack pepper, also for cold cultivation
- Matures from green to bright orange, 3-5 cm long, 30 g, extra sweet and aromatic
- Popular in brand concepts such as 'Vitapép' and 'Sweet Bite'
- Generative, compact plants, also ideal for cultivating in containers
- HR Tm: 0

514850 Ophelia F1 SEED

Sweet pointed peppers

Pinokkio F1

- Early maturing, elongated pepper type (80 g), very sweet and aromatic
- Thick-walled fruits mature from light yellow to orange-red
- Robust variety, very high early and total yields
- HR Tm: 0-2

514900 Pinokkio F1 180 SEED

Arikanda F1

- Narrow, Turkish 'Carliston' type pepper
- 'Pinokkio' type, but with more compact plants, matures from white-yellow to red
- Ideal for producing fruit-bearing container plants
- HR Tm: 0-2

514950 Arikanda F1 180 SEED

514900 Pinokkio F1

514950 Arikanda F1

Coach F1

- Large, red oxhorn peppers of type 'Corno di Toro', very productive
- Sweet, aromatic flavour, matures from dark green to red
- Smooth fruit, size: approx. 5 x 20-23 cm, pointed
- HR Tm: 0-2

515000 Coach F1 SEED

Toscana F1

- Sugary sweet, particularly productive 'Dulce Italiano' type pepper
- Elongated, slightly contorted fruits (80 g) mature very early from green to red
- Highly recommended variety, also for outdoor cultivation
- Ideal complement to the popular 'Pinokkio' F1 pepper
- HR Tm: 0

515150 Toscana F1 180 SEED

Lombardo

- Aromatic, predominately mild sweet pepper
- Oblong, pointed fruits that are slightly compressed near the stem
- Spiral type, good for canning

515250 Lombardo 180 336 SEED

515000 Coach F1

515150 Toscana F1

515250 Lombardo

Jiminy F1

- Yellow oxhorn pepper (Corno di Toro)
- Long, wide-shouldered fruits (130 g) that mature from green to yellow
- Pleasant, fruit-like flavour and thick, fleshy fruit walls

HR Tm: 0-2

515300 Jiminy F1 SEED

515300 Jiminy F1

Karpia F1

- Hungarian, sweet pointed pepper, matures from green to red
- Fruit length: approx. 14 cm, width: approx. 5 cm, thin-walled
- Fruit weight: 70 g, ideal for cooking, steaming and filling

515350 Karpia F1 SEED

Gypsy F1

- Early, Hungarian pointed pepper, very high yielding
- Light green fruits, 13 x 6 cm, matures to light red

HR Tm: 0

515450 Gypsy F1 SEED

515500 Hunor F1

Hunor F1

- Hungarian, white pepper with a pointed, wide-shouldered fruit shape
- Tasty, sweet fruits that mature from white-yellow to orange-red
- A high-yielder that is suitable for outdoor cultivation, particularly in favourable climatic areas

HR Tm: 0

515500 Hunor F1 180 SEED

Mildy spicy pointed peppers

Kekova F1

- Long, Turkish 'Demre' (spiral) type aroma pepper
- Aromatic, mildly tangy flavour for a first-class flavour experience
- Thin, slightly contorted fruits mature from green to red

HR Tm: 0-2

515600 Kekova F1 180 SEED

515600 Kekova F1

Tangy pointed peppers

Orias F1

- Hot jumbo chili with compact plants
- Pointed fruits (110 g) are slighly contorted, 5 x 18 cm
- Popular in Southeast Europe where it is eaten green
- Matures from light green to bright red

HR Tm: 0

515750 Orias F1 90 SEED

515750 Orias F1

Fortesse F1

- Hot, light green pepper for salads, popular in Hungary and Macedonia
- Cut into rings and served raw with the spicy, regional cuisine
- Forms compact bushes with numerous fruits

HR Tm: 0-2

515850 Fortesse F1 SEED

515850 Fortesse F1

Hot chilies

Fireflame F1

- Fiery hot cayenne pepper, with an overly rich yield
- Slender, 10-13 cm long fruits mature from dark green to red

HR Tm: 0-2

516050 Fireflame F1 180 180 SEED

De Cayenne

- Fiery hot cayenne pepper
- Matures from green to red, open-pollinated

516200 De Cayenne 336 SEED

Vectura® Yellow F1
(WT 9603)

- Bright yellow, hot cayenne pepper, 11 x 1 cm
- A particularly early, compact variety
- Convinces due to its overly rich amount of fruit that are attractive and spicy

516300 **Vectura® Yellow F1 (WT 9603)** 180 SEED

Vectura® Orange F1
(WT 9605)

- Orange ripening, very hot cayenne pepper
- The bright colour fits very well to the other colours of the Vectura® series
- Similar, compact habit like 'Vectura® Yellow'

516400 **Vectura® Orange F1 (WT 9605)** SEED

516050 Fireflame F1

Jalapeno (Mexican chili)

Samira® Shiny F1
(WT 2640)

- Feiery hot jalapeno that matures from green to red, glossy without cracks in the fruits
- Stable, high yielding with thick-walled, conical fruits, 40 g, 3 x 6 cm
- Mainly harvested when green, for pickling or for making a green, spicy sauce

516505 NEW **Samira® Shiny F1 (WT 2640)** 180 SEED

516505 Samira® Shiny F1 (WT 2640)

Rootstocks for peppers

Capital F1

- Proven rootstock with lots of vigour for pepper grafting
- For growing in soil due to its nematode resistance
- The rootstocks and cultivated variety are sown at the same time
- For grafting, seeds must be sown approx. 10 days earlier for the same planting date

HR Tm 0-2; IR Ma/Mi/Mj

516650 **Capital F1** SEED

Smooth leaves (escariol type)

Eros

- Wide-leaved, fast-growing endive with good filling in the centre
- Very good resistance to bolting for summer and autumn cultivation
- Very healthy bottom side with a small cut surface

517100 Eros SEED

Brillantes

- Robust endive with smooth leaves for the highest demands
- The strong filling enables a good self-blanching and results in a good portion of yellow
- Highly bolt-tolerant in the cold, for outdoor cultivation in the spring and autumn as well as in greenhouses

517150 Brillantes SEED

Trudie

- Very bolt-resistant, smooth-leaved endive for year-round cultivation
- The large heads are well-filled, upright leaves

517200 Trudie SEED

Géante Maraîchère / Alma

- Very impressive, large, 'Géante Maraîchère' type endive
- Autumn and winter cultivation, harvest from October to November in mild climates
- Resistant to low temperatures, very aromatic flavour

517250 Géante Maraîchère / Alma SEED

517250 Géante Maraîchère / Alma

Nuance

- Fast growing escarole endive with good filling in the centre and a broad, well-enclosed bottom side
- Very healthy, robust against dead and dry leaves as well as magnesium deficiency, ideal for organic cultivation
- For outdoor cultivation in the spring and autumn

517300 Nuance SEED

Crimped leaves (frisée type)

Jolie

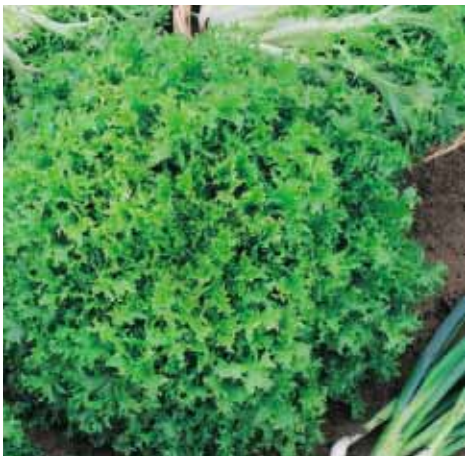
- Robust, large frisée endive with wide, finely slotted leaves, good for blanching
- Very resistant to bolting in the cold, suitable for greenhouses as well as for harvesting outdoors from early summer

517400 Jolie SEED

Minerva

- Autumn and winter frisée endive of type 'Wallonie'
- Ideal for harvesting in October/November
- Very attractive, robust plants

517450 Minerva SEED



517400 Jolie

517450 Minerva

Very fine, crimped leaves (très fine maraîchère type)

Lassie

- Very fine, crimped frisée endive of the French 'Très fine maraîchère' type
- The leaf crimping is ideal for fine and attractive salads in gourmet cuisine
- Recommended for cultivation from spring until autumn
- Characterised by its robustness against rot

517550 Lassie SEED

Glory

- Early, quality frisée endive of type 'Très fine Maraîchère', large yellow proportion
- Head is dense, compact and notched
- For greenhouses and the entire outdoor season from May to October

Radicchio

Indigo

- Uniform variety for summer and autumn cultivation, harvest from June to September
- Forms even, dark red, firm heads with green outer leaves
- Reliable cultivation with a good harvest rate

517750 Indigo SEED

Leonardo

- Radicchio with a longer developmental period, for harvesting from September to November
- The heads are firm, dark red, round and with green bracts, the head weights are comparatively high
- The durability in the field is excellent, the storage suitability allows a long sales period to be possible in autumn

517800 Leonardo SEED

Fiero

- Elongated 'Treviso' type radicchio
- Cylindrical heads can be harvested from July to September
- Ideal for Italian gourmet cooking

517900 Fiero SEED

Galileo

- Wonderful radicchio of the Italian type 'Lusia'
- Beige-yellow leaves with attractive, red speckles, firm, round head
- Late ripening and comparatively tolerant to cold
- Plant in Germany from calender week 25

517950 Galileo SEED

517750 Indigo

517950 Galileo

Chicory

Jupiter

- Early, fresh green, compact, well-closed heads with a height of 30 to 35 cm
- Very productive and very durable in the field
- Direct sowing from the end of June, harvest from September to November

518000 Jupiter SEED

Uranus

- Dark green, cylindrical chicory for autumn cultivation
- Long, strikingly large heads (approx. 45-50 cm), very high yielding
- Tolerates light frost and can be stored until December/January

518050 Uranus SEED

Garden cucumbers

Greenfit F1

- Generative, open variety with a very high yield potential and high resistance to mildew for plantings from March until August
- Very good fruit quality, reaches the harvesting period fast
- The transition to the side shoots is optimal, the plant remains stable during hot weather conditions
- HR Px

518700 Greenfit F1 SEED

Shakira F1

- Very productive, cold-tolerant with a high resistance to powdery mildew
- Generative, open plants with good balance, ideal for cultivation in soil in the summer and autumn
- Very uniform fruits in an optimal length on the stem and the shoots
- The fruits are dark green and slightly grooved
- HR Px

518800 Shakira F1 SEED

518800 Shakira F1

Sudica F1

- Generative, quality variety for the highest numbers and weight
- Smooth, dark green fruits with an ideal length
- Suitable for cultivating in soil and rock wool
- HR PM

518850 Sudica F1 84 SEED

Dominica F1

- Vigorous cucumber variety that is easy to cultivate, very resistant to mildew
- Uniform, dark green, glossy fruits with the best shelf life
- Ideal for soil cultivation, very reliable, guarantees the highest yields

HR PM

518900 Dominica F1 84 SEED

Kalunga F1

- High yield of first-class, dark green fruits
- Intermediate resistance to powdery mildew
- Very uniform fruit set during the entire cultivation period

HR Cca/Ccu; IR Px

518950 Kalunga F1 84 SEED

Paramos F1

- Abundant yields of smooth, dark green quality fruits
- An ideal combination of high resistance to both powdery mildew and cucumber mosaic virus

HR PM/CVYV; IR CMV

519000 Paramos F1 SEED

518900 Dominica F1

Kiruna® F1 (Fitness)

- Robust, mildew-resistant, quality variety
- Long, slender fruits and a high yield potential
- Also ideal for cold cultivation in soil

IR PM/CMV

519050 Kiruna® F1 (Fitness) 84 SEED

Loustik F1

- Highly productive variety with intermediate resistance to powdery mildew and cucumber mosaic virus
- For heated substrate and soil cultivation in the spring and for the second set in the summer
- This vigorous variety produces shiny, dark green, slightly grooved fruits (425-450 g) very early
- The high yield potential enables an optimum ratio between the leaf mass and the development of the fruits

HR Ccu; IR CMV/Px

519100 Loustik F1 SEED

Jurassic F1

- An Asian, 'Urgurke' type cucumber variety, characteristically bumpy skin
- With crisp flesh and an intense cucumber flavour
- Dark green, 35-40 cm long, slender fruits
- Forms individual male flowers under stress, can become bitter

519400 Jurassic F1 SEED

Midi garden cucumber

Midios F1

- Particularly tasty gourmet cucumber of type 'Midi'
- Dark green fruits, 23-25 cm, ideal length for heart-shaped cucumbers

HR PM

519500 Midios F1 84 SEED

519500 Midios F1

Mini garden cucumbers

Printo F1

- Mini garden cucumber with a high yield potential, 15-17 cm
- Smooth, dark green fruits that are optimally harvested when they are 3 cm thick
- Early, long harvest, very robust
- Also for outdoor cultivation in mild climates

HR PM; IR CMV/CVYV

519600 Printo F1 84 84 SEED

518850 Sudica F1

519400 Jurassic F1

519600 Printo F1

Tornac F1

- Mini garden cucumber with appetising, dark green fruits
- Abundant and early yield, at 16-19 cm, the uniform fruits are slightly longer than 'Printo'
- Also ideal for substrate cultivation

HR PM; IR CMV/CVYV

519700 Tornac F1 SEED

Jawell F1

- Mini garden cucumber with average resistance to mildew, no necrosis even with early sowing
- Fast, strong growth, lots of stem fruits and very high total yields
- Bears high fruit loads and has relatively low internodal intervals
- Dark green, even fruit with lengths of approx. 18 cm

HR ZYMV/PRSV/WMV; IR CMV/CVYV/Px

519750 Jawell F1 SEED

Picolino F1

- Short, mini garden cucumber, 12-13 cm, resistant to powdery mildew
- Uniform fruit set, a robust, open habit, easy to process

HR Cca/Ccu; IR Px/CMV/CVYV

519800 Picolino F1 SEED

Mini snack cucumber

Mini Stars F1

- Mini snack cucumber with smooth, 8-10 cm long, very crisp fruits
- 3-5 cucumbers per leaf axil, short distance between internodes

HR WMV; IR CMV/CVYV/PRSV/Px

519850 Mini Stars F1 84 84 SEED

519850 Mini Stars F1

Gherkin, parthenocarpic

Corentine F1

- High yields, fine sorting and the highest quality
- The high regeneration ability allows a constant fruit set
- Easy to pick due to the open habit
- Consistant day/night ratio, dark green, uniformly shaped fruits

HR Ccu/Px; IR CMV

519900 Corentine F1 SEED

Diamant F1

- Parthenocarpic gherkin with high resistance to powdery mildew
- Very robust against downy mildew
- Dark green, slightly shiny fruits, medium late with a long harvesting period

HR: Px/Ccu; IR CMV

520050 Diamant F1 SEED

519900 Corentine F1

520050 Diamant F1

Gherkin, pollination required

Charlotte (Mix) F1

- Very early maturing, predominately female flowering variety for outdoor cultivation
- Very high yielding, oftentimes 3-4 fruits per internode
- Comparatively long, thin fruits, length-thickness ratio: 3.5:1, bitter-free
- Tolerant to powdery and downy mildew and resistant to cucumber mosaic virus and cucumber scab

520100 Charlotte (Mix) F1 SEED

520100 Charlotte (Mix) F1

Garden cucumbers, parthenocarpic

Kenia F1

- Early, vigorous, parthenocarpic cucumber
- High resistances, e.g. to powdery mildew
- Dark green, cylindrical, slightly white, spiked fruits
- Bitter-free and very uniform in shape and size

HR Ccu/Px, IR CMV/Cca

520300 Kenia F1 SEED

520300 Kenia F1

Solverde F1

- Popular, parthenocarpic cucumber (Nostrano), approx. 20-25 cm
- Fruit weight: 300-400 g, fruits have small, white prickles
- Vigorous, relatively cold-tolerant plants
- Optimal for heated and unheated soil cultivation under glass and plastic

520350 Solverde F1 SEED

La Diva F1

- Smooth cucumber with very thin skin and an excellent flavour
- Harvests equal to those of gherkins, All American Selections winner
- Resistant to powdery mildew and cucumber scab

520550 La Diva F1 SEED

Garden cucumbers, pollination required

Darina F1

- Very vigorous, predominantly female flowering cucumber, 20-23 cm
- Very well suited for early cultivation in plastic tunnels as well as outdoors
- Length/thickness ratio: 4.2:1, dark green, white-spiked fruits

IR Px/CMV

520600 Darina F1 SEED

Tanja

- Robust, healthy outdoor and greenhouse cucumber
- 35 cm long, dark green fruits, mixed flowering

520800 Tanja SEED

Peeling cucumber

Travito F1

- Particularly productive cucumber with large, even fruits
- Small core and firm, white flesh
- Ideal for processing into tasty, sweet and sour gherkins

NEW

Naxos F1

- Quality courgette with dark green, cylindrical fruits and attractive, slight speckling
- High yield of grade 1 plants already with the first harvest and during the entire cultivation period
- Strong, compact plants with large leaves, only few prickly hairs and an upright habit

IR CMV/WMV/ZYMV/Gc/Px

521350 Naxos F1 SEED

Mastil F1

- Very mildew-resistant courgette with an extremely high yield potential
- Even, cylindrical fruits with a lovely, medium green fruit colour

IR WMV/ZYMV/Gc/Px

521400 Mastil F1 SEED

520350 Solverde F1

520550 La Diva F1

521400 Mastil F1

Zodiac F1

- Bright yellow, cylindrical, quality courgette
- Vigorous, open habit, easy to harvest
- Wide range of resistances against viruses and powdery mildew

IR ZYMV/WMV/CMV/Oidium

521440 Zodiac F1 SEED
NEW

Pixar F1

- Dark green courgette with medium growth and short internode distances
- Glossy, nicely shaped fruits impress by an excellent shelf life after the harvest

IR ZYMV/WMV/CMV/Oidium

521450 Pixar F1 SEED

Diamant F1

- Medium green, robust variety, early start of harvest, high total yield
- Compact plants are open and easy to harvest

521800 Diamant F1 SEED

Golden Glory F1

- Bright golden yellow courgette with important resistances against viruses and mildew
- Ideal for outdoor plantings from April to July
- Attractive, cylindrical fruits with an excellent quality
- Vigorous plants with an upright habit and easy harvesting

IR Px/WMV/ZYMV

521890 Golden Glory F1 SEED
NEW

521440 Zodiac F1

Gold Rush F1

- Golden yellow fruits with a pleasant flavour, medium early
- Long harvesting period with good yields

521950 Gold Rush F1 SEED

Lorea F1

- Cream white, cylindrical to slightly conical courgette
- Very high yielding, vigorous and healthy
- For the entire outdoor season, popular for oriental cuisine

522001 Lorea F1 SEED
NEW

Special shapes

Satelite F1

- Round hybrid courgette for the highest demands, very high yielding
- Dark green fruits with attractive, medium green speckles
- Early yield, medium strong, uniform habit

522100 Satelite F1 SEED

521890 Golden Glory F1

522001 Lorea F1

Géode F1

- Light green, white-speckled, round courgette
- Very high, early yield, optimal number of blooms on the fruit

522200 Géode F1 SEED

Floridor F1

- Bright yellow, round courgette
- Conspicuous colour and shape, aromatic flavour

522250 Floridor F1 SEED

522100 Satelite F1

522250 Floridor F1

522200 Géode F1

*) Large buds

Imperial Star

- Very early variety with rich harvest and quality buds already in the first year
- Vigorous, healthy growth, green, very large buds

522400 Imperial Star 180 SEED

Vert Globe *(Große Grüne von Laon)*

- Proven variety with large, deep green leaves and fleshy receptacle
- Pinecone-like flower heads

522450 Vert Globe (Große Grüne von Laon) SEED

Madrigal F1

- Green, round-headed hybrid variety with fleshy petals and large receptacles
- Medium early and very stable, extremely good harvests after the second year
- Winter protection is necessary for perennial cultivation

522500 Madrigal F1 SEED

Opal F1

- Red-leaved hybrig artichoke for eating and for floristry
- Particularly uniform, large buds, very fleshy and tasty
- The tightly upright stems are easy to cut

522600 Opal F1 SEED

522400 Imperial Star

Daucus carota ssp. sativus

Carrot — Apiaceae

1000	Mio/ha			
1.0-1.8	1.0-2.5	II-VI	30-40 x 2-4	12-28

Mokum F1

- The combination of earliness, high yield and quality with good flavour makes this variety a standard for very early cultivation
- 'Amsterdamer' type, 15-17 cm long, cylindrical and attractively coloured
- Also suitable for early cultivation under glass and plastic

522700 Mokum F1 SEED

Nerja F1

- Very early 'Amsterdamer' type bunching carrot that is 2-3 days after 'Mokum'
- Long, cylindrical, pointed-top carrots with an intense orange colour
- Excellent, sweet flavour
- Dark green, upright and firm foliage allows easy bundling

522750 Nerja F1 SEED

522750 Nerja F1

522600 Opal F1

Napoli F1

- Early 'Nantaise' type carrot for production of bunching and washing carrots
- A standard due to its earliness, cultivation reliability and versatility
- Successive sets can be sown up to the beginning of July
- 19–20 cm long roots are extremely resistant to breaking, well coloured and smooth
- Strong and robust foliage

522800 Napoli F1 SEED

Laguna F1

- Early bunching and washing carrot for the highest demands
- High yields and a good flavour
- 18-20 cm long, bright orange coloured carrots are uniformly cylindrical in shape
- Late sowings up to the beginning of July are optimal for winter storage

522850 Laguna F1 SEED

Namdal F1

- Early 'Nantaise' type bunching and washing carrot
- Also for first sets under plastic/fleece
- Produces fine, slender, cylindrical carrots that are break-proof
- The foliage is upright, dark green and is very tolerant to foliage diseases

522900 Namdal F1 SEED

522800 Napoli F1

Napa F1

- Medium early washing and storage 'Nantaise' type carrot
- Very uniform, good coloured variety has a high resistance to breakage
- Healthy, resistant foliage
- Ideal for producing carrots for foodtainer purposes

523050 Napa F1 SEED

Nevis F1

- Medium early washing and storage carrot, an ideal complement to 'Nerac'
- Very nice, slim, sturdy carrot that is resistant to breakage
- Grows deep in the ground, also very well suited for covering with straw
- Healthy, stable foliage

523100 Nevis F1 SEED

Negovia F1

- Medium early, productive 'Nevis/Napa' type carrot
- Ideal bunching and washing carrot, produces smooth, cylindrical roots even under stress
- Dark green, upright foliage remains stable for a long time, even under unfavourable conditions

523150 Negovia F1 SEED

523150 Negovia F1

Nerac F1

- Robust, medium late maturing carrot for cultivating in the summer and autumn
- Well-rounded, cylindrical and very smooth carrots
- The foliage is strong and upright
- Ideal as both a washing carrot or for long storage and overwintering covered with straw

523400 Nerac F1 SEED

523400 Nerac F1

Kamaran F1

- Late 'Berlikumer/Flakkeer' type for industrial cultivation
- 25-28 cm long, intense dark orange-coloured, uniform carrots
- Very strong foliage and very good storage qualities

523550 Kamaran F1 SEED

Carrot specialities

Sugarsnax 54 F1

- Ideal crunchy vegetable for health-conscious eating
- Sweet, has a high carotene content and very dark orange-red colour
- Long, very smooth root without a green head and robust, healthy foliage

523600 Sugarsnax 54 F1 SEED

523600 Sugarsnax 54 F1

Purple Haze F1

- Violet carrot variety with an orange heart and an excellent sweet flavour
- Healthy, secondary substances such as anthocyan

523700 Purple Haze F1 SEED

Purple Sun F1

- Intense violet carrot speciality with uniform, medium violet colouration
- Slightly conical carrots with good lengths
- Comparatively good foliage characteristics, little susceptibility to bolting

523750 Purple Sun F1 SEED

White Satin F1

- The white carrot brings additional colour to the range
- Ideal tasty carrot for fresh consumption

523850 White Satin F1 SEED

523700 Purple Haze F1

523750 Purple Sun F1

523850 White Satin F1

Rainbow F1

- Colourful variety with yellow, white and orange-red roots
- Also appealing as a bunching carrot

523950 Rainbow F1 SEED

Mello Yello F1

- Golden yellow root, broadens the colour spectrum for carrots
- High yields of tasty, aromatic carrots
- Stable foliage for an easy harvest

524000 Mello Yello F1 SEED

524000 Mello Yello F1

523950 Rainbow F1

524050 Baltimore F1

Horse carrots

Baltimore F1

- Medium early horse carrot for the highest demands
- Horses love the juicy, crisp carrots and profit from the healthy carotene content
- The homogeneity is remarkable as is the smooth surface and the comparatively cylindrical form
- High yield and strong foliage development with stable leaf formation
- Harvest in autumn, limited storability, developmental time: approx. 110 days
- It is recommended to sow 0.8-1.5 million seeds/ha

524050 Baltimore F1 SEED

Narbonne F1

- 17-19 cm long roots with excellent quality
- Very good internal and external colouring, upright and very strong foliage
- Very good for machine harvesting using the belt lifter method
- Late sowings are very good for storage

523450 Narbonne F1 SEED

Open-pollinated varieties

Nantaise 2 / Jubila

- Robust, open-pollinated carrot with a sweet flavour
- Cylindrical, well-rounded roots, 18-20 cm
- Good colouring and strong, healthy foliage
- Good storage potential if sown later in June

524150 Nantaise 2 / Jubila SEED

Lange rote stumpfe ohne Herz 2 / Vollenda

- Very long, 22-26 cm, cylindrical and smooth carrots
- Uniformly red inner colouring, high dry substance content
- Late maturing, good for storage

524350 Lange rote stumpfe ohne Herz 2 / Vollenda SEED

524150 Nantaise 2 / Jubila

524350 Lange rote stumpfe ohne Herz 2 / Vollenda

Vigorous growing varieties

Elan F1

- Everbearing, very aromatic professional strawberry from the end of June up to the frost
- High yields of up to 6 cm long, bright red fruits
- Ideal for cultivating in pots and hanging baskets, round habit

525000 Elan F1 180 336 SEED

Rosana® F1

- Pink flowering, everbearing strawberry
- Sister variety to 'Elan', fantastic wild strawberry flavour

525150 Rosana® F1 180 336 SEED

Camara® F1

- Dark pink flowering, everbearing strawberry
- Elongated fruits are characterised by their excellent flavour
- An ideal complement to the 'Elan' and 'Rosana®' F1 varieties

525250 Camara® F1 180 336 SEED

525000 Elan F1

525150 Rosana® F1

525250 Camara® F1

Large-flowered varieties

Beltran F1

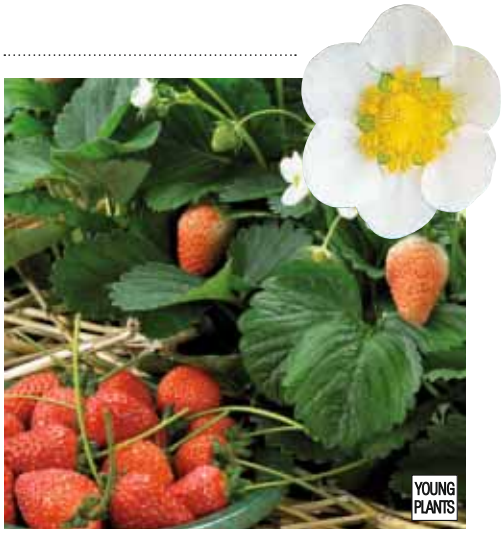
- Very large-flowered strawberry with a high ornamental value, blooms until frost
- The delicious fruits add interesting, additional benefits

525300 Beltran F1 180 SEED

Gasana F1

- Pink-coloured, large-flowered strawberry, delicious fruits
- Attractive enrichment to the range of large-flowered strawberries

525360 Gasana F1 180 336 SEED
NEW



525300 Beltran F1

525360 Gasana F1

525400 Toscana F1

Toscana F1

- Appealing, large-flowered strawberry with beautiful, dark pink flowers
- Very decorative and long blooming, delicious fruits, FleuroStar Award 2011

525400 Toscana F1 180 336 SEED

Compact varieties

Ariba® White F1

- Compact, very early, everbearing strawberry
- With a high area productivity
- Packs and 9-10.5 pots with dense positioning
- Aromatic, attractive fruits

525451 Ariba® White F1 180 336 SEED

Greenhouse lettuce

525451 Ariba® White F1

525551 Ariba® Deep Rose F1

525900 Centore

Centore

- Fast, large, medium green lettuce for greenhouses
- Forms excellent, flat heads with a high weight
- Very resistant to tip burn
- HR Bl:1-24,27,28,30,31

525900 Centore SEED

John

- Attractive, light-coloured, large lettuce for greenhouses with very fast head formation
- Resistant to tip burn with a tightly closed bottom side
- Ideal for winter and spring cultivation
- HR Bl:1-28

525950 John SEED

Pia

- Compact, very fast development for plastic tunnels
- Forms very attractive young plants for sales to hobby gardeners
- HR Bl:1-6,13-15,17/Pb

526050 Pia SEED

Green head lettuce

Torpedo

- Butterhead lettuce for the earliest outdoor cultivation with fleece coverage
- Light green, large heads with healthy, closed bottom side
- Reliable head formation, also during changing conditions in the spring
- HR Bl:1,4-22,25/Pb

526100 Torpedo SEED

Lobela

- Proven, large head lettuce with an attractive, green colour
- For early summer and summer cultivation
- Many outer leaves, early, reliable, closed tip as well as a loose remaining filling
- Excellent durability in the field and high tolerance to tip burn and bolting
- HR Bl:1-28,30,31/Nr:0; IR LMV:1

526300 Lobela SEED

Gorio

- Top head lettuce with an attractive, dark green colour
- Robust leaves and beautiful, small bottom side
- Tolerance to tip burn and bolting
- Also for summer cultivation
- HR Bl:1-28,30,31/Nr:0; IR LMV

526350 Gorio SEED

Sylvesta

- Medium green, thick-leaved lettuce for cultivation from spring to autumn
- Medium-large with tightly closed bottom side and early head formation
- HR Bl:1-17,19,21,23/Nr:0; IR LMV

526400 Sylvesta SEED

Tizian

- Flat, medium, well-filled head and a bright colour
- Very well closed and flat bottom side
- High resistance to bolting and long harvesting periods
- Cultivation from spring to autumn
- HR Bl:1-24,27,28,30,31/Nr:0

526450 Tizian SEED

Estelle

- Large, appetising green lettuce with adequate outer leaves
- The bottom side is tightly closed and flat
- Easy and fast harvesting
- For cultivation from spring to autumn
- HR Bl:1,3-22,24,25,28/Nr:0; IR LMV:1

526500 Estelle SEED

Ovation

- Popular butterhead lettuce for the entire outdoor season
- Robust and relatively bolt-resistant in the summer
- HR Bl:1-12,17,18,22,24,25,28; IR LMV

526650 Ovation SEED

Aquino *(Salanova®)*

- Green, Salanova® head lettuce for year-round outdoor cultivation
- Slightly upright growing head with a beautiful, rosette-like structure
- Very resistant to bolting, also grows well when subject to cooler weather conditions
- HR Bl:1-31/Nr: 0

527000 Aquino (Salanova®) SEED

Red head lettuce

Skyphos

- Red, tasty head lettuce for the entire outdoor season
- Appealing, bright red outer colour, green inner colour
- Medium large heads with good development and resistance to bolting
- HR Bl:1-26,28/Nr:0; IR LMV:1

527100 Skyphos SEED

526300 Lobela

526350 Gorio

527000 Aquino (Salanova®)

Merveille des quatre saisons

- Classic, red head lettuce from France
- Very bright red when subject to cooler growing conditions

527220 Merveille des quatre saisons SEED

Gaugin (Salanova®)

- Red-leaved sister variety to the green, multi-leaved head lettuce 'Aquino'
- With one cut, the head falls into numerous, uniform leaves

HR Bl:1-15,17-22,24-28

527250 Gaugin (Salanova®) SEED

Iceberg lettuce

Lerinas

- Large, aphid resistant 'Saladin' type iceberg lettuce
- Stays healthy for long periods, strong against brown veins
- For year-round outdoor cultivation

HR Bl:1-26,28/Nr:0/Pb

527300 Lerinas SEED

Barcelona

- Large, tasty 'Saladin' type iceberg lettuce
- Medium green, full heads with low susceptibility to tip burn
- Suitable for cultivation from spring to autumn

HR Bl:1-16,19,21,23/Nr:0

527350 Barcelona SEED

Iceking

- Large, heavy iceberg lettuce with fast growth
- The heads have symmetrical layering and are well-filled
- Ideal for cultivation in the spring and autumn
- Very good for difficult soils

HR Bl:1-16,18-24,27,28,30,31/Nr:0

527400 Iceking SEED

Stylist

- Medium-sized, bright green, 'Saladin' type iceberg lettuce
- Medium fast filling, flat ribs, beautiful bottom side
- Ideal for organic cultivation from late spring to autumn

HR Bl:1-27/Nr:0

527450 Stylist SEED

Batavian lettuce, green

Edurne

- Very beautifully shiny batavian lettuce, reliable head formation
- Attractive young plants for sales to amateur gardeners

HR Bl:1-5,7-10,17

527650 Edurne SEED

Masaida

- The original with thin-layered leaves and an excellent flavour
- Popular, green batavian lettuce in Austria
- For plantings from spring to autumn

527680 Masaida SEED

Classic iceberg lettuce

Grazer Krauthäuptel 2

- Popular Austrian iceberg lettuce for outdoor cultivation
- Light green with red markings, medium large heads
- Relatively robust against high summer temperatures

527600 Grazer Krauthäuptel 2 SEED

527100 Skyphos

527650 Edurne

527300 Lerinas

527680 Masaida

527850 Anaconda

528100 Novelski

528150 Teide

Anaconda

- Appetising, fresh green, open batavian lettuce, very aromatic
- Large heads with many leaves and fine crimping
- Very robust, also grows well when subject to cold conditions
- For spring and autumn cultivation
- HR Bl:1-28,30,31/Nr:0; IR LMV

527850 Anaconda SEED

Maritima

- Large, attractive, green, open batavian lettuce
- Plenty of leaves, flexible ribs and a very good filling
- Fine curling of the leaves, high tolerance to bolting and browning of the leaves
- The strong bottom side protects against rot and is reliable for organic cultivation
- HR Bl:1-28,30,31/Nr:0; IR: LMV

527900 Maritima SEED

Red batavian lettuce

Novelski

- Red-green, medium large batavian lettuce
- Compact, firm heads
- Robust against cool, spring weather and bolting
- Ideal for year-round outdoor cultivation
- HR Bl:1-28/ Nr:0

528100 Novelski SEED

Teide

- Intense, dark red, open batavian lettuce for the highest demands
- Robust growth and very good resistance to bolting
- For outdoor cultivation from spring to autumn, very long harvesting period
- HR Bl:1-16,19,21,23

528150 Teide SEED

Classic batavian lettuce

Dorée de Printemps

- Popular, French batavian lettuce
- Crisp, light green, glossy, appetising leaves
- Comparatively bolt-resistant, cultivation from spring to autumn

528300 Dorée de Printemps SEED

Reine de Glaces *(Frisée de Beauregard)*

- Classic, green batavian lettuce for French cuisine
- Glossy, slighty ruffled leaves that are split at the tip
- Cracks wonderfully when cut and is crunchy when eaten
- For spring and autumn cultivation, comparatively resistant to bolting

528350 Reine de Glaces (Frisée de Beauregard) SEED

Rouge Grenobloise

- French batavian lettuce, green with red leaf tips
- Uniform, half-open heads with a very exquisite, fine flavour
- Just as crunchy as iceberg lettuce but not as hard
- For outdoor cultivation in the spring and autumn

528400 Rouge Grenobloise SEED

Gloire du Dauphiné

- Dark red, classical batavian lettuce
- Large, healthy heads, exceptional tolerance to cold
- A must-have for French cuisine

528450 Gloire du Dauphiné SEED

528300 Dorée de Printemps

Tantan

- 'Little Gem' type mini romaine lettuce with a good, sweet flavour
- Height: approx. 18 cm, late bolting and robust against tip burn
- For year-round cultivation

HR Bl:1-17,19,21,23/Nr:0; IR LMV:1

530250 Tantan SEED

Khan

- Mini romaine lettuce with very nice filling
- High level of reliability during the year-round cultivation
- A standard variety in organic farming

HR Bl:1-27,29/Nr:0; IR LMV:1

530300 Khan SEED

Cegolaine

- Green-red mini romaine lettuce for year-round, outdoor harvest
- Bright red outer leaves and strong, yellow-green inner leaves
- Very fast development, for harvesting the head or lettuce hearts

HR Bl:1-28/Nr:0/Pb; IR LMV:1

530400 Cegolaine SEED

530400 Cegolaine

Rivale *(Rougette)*

- Dark red, shiny 'Red Gem' type lettuce, very tasty
- Comparatively large head with a small, easy to cut stem
- Very robust and tolerant to bolting, for cultivation in the spring and autumn

HR Bl:1-26,28; IR LMV

530450 Rivale (Rougette) SEED

530450 Rivale (Rougette)

Red corn salad

Ovired

- Red romaine lettuce with leaves similar to corn salad
- Well suited for the production of red corn salad
- Seed requirement: 40,000-70,000 seeds/m², row distance: 10-12 cm x 2-3 cm

HR Bl:1-16,18-21,23-26,28-31

- Black/brown chocolate tomato with very good flavour
- 130-150 g, slightly flat and round, have slightly green shoulders when ripe
- HR ToMV/Fol:0

533300 Kakao F1 90 SEED

Vine tomatoes

Providance F1

- Vine tomato for soil cultivation, 100 g, also unheated, not for bulk harvests
- Very regular and reliable panicle quality with up to 6-7 fruits
- Bright red fruit colour, fast colouration, strong green parts
- Long, open plants with upright leaves
- HR ToMV:0-2/Ff:A-E/Fol:0,1/For/Va:0/Vd:0

533400 Providance F1 SEED

533300 Kakao F1

Tourance F1

- Medium large vine tomato (110-125 g) with very high yield potential
- Open, slender habit with short, erect leaves
- Generative variety which comes easily into balance and matures early
- Very easy to work with, uniform, flat panicles
- Beautiful, strong green parts and good durability
- HR ToMV:0-2/ToTV/Ff:A-E/Fol:0,1/For/Va:0/Vd:0

533500 Tourance F1 SEED

533400 Providance F1

533500 Tourance F1

Beef tomatoes

Admiro F1

- Small beef tomato for the highest demands, resistant to powdery mildew
- Round, firm, bright red fruits, 140-150 g, very uniform
- Uniform high yields and a very high total production
- The plant is short, very vigorous and grows well
- For heated and unheated cultivation in soil and substrate
- HR ToMV:0-2/Ff:A-E/Fol:0,1/For/Va:0/Vd:0; IR On

533800 Admiro F1 SEED

Fantasio F1

- Very aromatic, 160-180 g, size: 67/87
- Resistant to late blight
- HR ToMV/V/Fol:1,2; IR M/Ss/Pi

533900 Fantasio F1 ☆ 90 SEED

Maestria F1

- French beef tomato, 160 g, size: 77
- Resistant to late blight
- HR ToMV/Va/Vd/Fol:2/TSWV(0); IR Ma/Mi/Mj/Pi

534050 Maestria F1 ☆ 90 SEED

Pyros F1

- Very flavourful beef tomato, 60-180 g, size: 57/77
- Resistant to late blight
- HR V; IR Pi

534100 Pyros F1 180 336 SEED

Monfavet 63-5 F1

- Popular, early beef tomato
- 120 g, size: 57/77

534150 Monfavet 63-5 F1 336 SEED

Large beef tomatoes

Matias F1

- Very large, 250-300 g, aromatic beef tomato
- Very early, rich harvest, robust growth, ideal for soil cultivation
- HR ToMV:0-2/ToTV/Ff:A-E/Fol:0,1/Va:0/Vd:0; IR Ma/Mi/Mj/Pl

534250 Matias F1 ☆ 90 90 SEED

Rebelski F1

- Large, professional beef tomato with high early and total yield
- 230-260 g, beautiful red colour and excellent durability
- The deep crown prevents puncture damage
- Resistant to powdery mildew
- HR ToMV:0-2/Ff:A-E/Fol:0,1/For/Va:0/Vd:0; IR On

534300 Rebelski F1 SEED

Grace F1

- Large, tasty beef tomato (180-200 g)
- Resistant to powdery mildew
- HR ToMV:0-2/Ff:A-E/Fol:0,1/For/Va:0/Vd:0; IR On

534400 Grace F1 SEED

Buffalo Steak F1 *(CLX 37660)*

- Highly aromatic, multi-chambered, jumbo beef tomato, 250-320 g
- Large-fruited, one slice and the hamburger is covered
- HR ToMV/V/Fol:1; IR M

534540 Buffalo Steak F1 (CLX 37660) ☆ 90 SEED
NEW

- Organic cherry tomato with crack-resistant, deep red fruits
- High yielding, good flavour

HR ToMV/Ff:1-5/Fol:0,1; IR Ma/Mi/Mj

537450 Sakura F1 SEED

Sweet Million F1

- Popular hobby variety, 15-20 g
- Very high yielding due to the branched clusters

HR ToMV:0,1/Fol:0

537600 Sweet Million F1 180 336 SEED

Gardener's Delight

- Tasty cherry tomato with a fine, spicy flavour
- Fruit weight: 14-18 g, very popular in England

537750 Gardener's Delight 180 336 SEED

Primavera

- Organic tomato with bright, orange-red fruits
- Very robust again late blight and many other tomato diseases
- Particulary juicy and fruity

537850 Primavera 180 SEED

Various-coloured cherry tomatoes

Solena® Yellow F1 *(Tom 463)*

- Yellow, particulary sweet nectar tomato, very high yielding
- Long panicles, ideal for harvesting single fruits, 13-18 g

537950 Solena® Yellow F1 (Tom 463) NEW 90 SEED

Gold Nugget

- Classic, yellow cherry tomatoes, 20-30 g

538000 Gold Nugget 180 336 SEED

537750 Gardener's Delight

537850 Primavera

537950 Solena® Yellow F1 (Tom463)

Dorada

- Organic cherry tomato with golden yellow fruits
- Very robust against late blight and many other tomato diseases
- Sister variety to 'Primavera'

538050 Dorada 180 SEED

Black Cherry

- Brown/red, classic cherry tomato, 20-30 g
- Exceptionally good aroma, pleasantly soft
- Purplish red flesh shimmers through the transparent skin

538100 Black Cherry 180 336 SEED

Mini San Marzano tomatoes

Caprese F1

- Mini tomato of the popular Italian San Marzano type, 25-30 g
- Longish fruits have a characteristic contraction in the upper third of the fruit
- HR ToMV:0-2; IR Ma/Mi/Mj

538150 Caprese F1 90 90 SEED

Trilly F1

- Italian mini San Marzano tomato
- Long, oval fruits, 20-22 g, ideal for snacking

538250 Trilly F1 180 336 SEED

Plum-shaped cherry tomatoes

Dasher F1

- Shiny bright red, perfectly coloured fruits, 20-30 g
- Pleasantly crisp and sweet flavour, also for panicle harvest
- HR ToMV:0-2/Va:0/Vd:0; IR Ma/Mi/Mj

538300 Dasher F1 90 90 SEED

Santorange F1

- Orange, plum-shaped cherry tomato, 20-30 g
- Fruity, sweet flavour, ideal as a complement to the red variety 'Dasher F1'
- HR ToMV:0-2/Fol:0,1/Va:0/Vd:0

538400 Santorange F1 90 90 SEED

Cupido F1

- Very sweet, small plum tomato, 10-12 g
- Date tomato type
- Well-branched, cluster-shaped panicles, high yield
- HR ToMV:0-2/Fol:0-2/Va:0/Vd:0; IR Ma/Mi/Mj

538450 Cupido F1

Heart-shaped cherry tomatoes

Lipso F1

- Flavourful, crisp, mini, heart-shaped cherry tomato
- Oblong, round, pointed fruits, 10-12 g
- Harvest of panicles and single fruits, vigorous and high yielding
- HR ToMV/Fol:1; IR Ss

538500 Lipso F1 SEED

Truss cherry tomatoes

Brillantino F1

- Bushy growing cherry tomato, 20-25 g
- Excellent, sweet flavour and abundant yield
- HR ToMV:0-2/Pst/Fol:0,1/Va:0/Vd:0

538700 Brillantino F1 SEED

Ovalino F1

- Compact growing cherry tomato with very aromatic, oval fruits
- 20-25 g, an ideal complement to the round-fruited tomato variety 'Brillantino F1'
- HR ToMV:0-2/Fol:0,1

538750 Ovalino F1 SEED

Grafting rootstocks for tomatoes and aubergines

Beaufort F1

- Well-known rootstock for grafting tomatoes and aubergines
- With excellent growth, needs light for germination
- HR ToMV:0-2/Fol:0,1/For/Pl/Va:0/Vd:0; IR Ma/Mi/Mj

538800 Beaufort F1 SEED

Maxifort F1

- Very vigorous tomato rootstock for long cultivation
- Needs light for germination
- HR ToMV:0-2/Fol:0,1/For/Pl/Va:0/Vd:0; IR Ma/Mi/Mj

538850 Maxifort F1 SEED

Vigomax F1

- Robust, well-known rootstock for grafting tomatoes and aubergines
- Comparatively robust in trials against nematodes
- Ideal for soil cultivation with regard to its growth
- Needs light for germination
- HR ToMV:0-2/Fol:0,1/Pl/Va:0/Vd:0; IR Ma/Mi/Mj

538950 Vigomax F1 SEED

180-440	0.3-0.35	V-VII	50-60 x 8	10-11

Green-podded varieties

Dublette

- Proven, fresh market variety, very high yielding
- 18-20 cm long, round, dark green pods
- Good field resistance to fungal diseases and bean mosaic virus
- TSW = approx. 360 g (white-seeded)

539800 Dublette SEED

Divara

- Very high yielding, green bush bean, crunchy and very aromatic
- Straight, succulent, well-rounded, 17-19 cm long, 8-9 mm thick pods
- Resistant to bean anthracnose, bean mosaic virus and halo blight
- TSW = approx. 290 g (white-seeded)

540000 Divara SEED

Negra

- Productive filet bush bean with gourmet qualities
- 15-17 cm long, 6-7 mm thick, tender, and very well-flavoured pods
- The black seeds germinate comparatively well, even when subject to unfavourable conditions
- Resistant to halo blight, anthracnose and bean mosaic virus
- TSW = approx. 190 g (black-seeded)

539600 Lady Di

540000 Divara

Prinzessa

- Very productive, dark green variety with an excellent flavour
- Medium long, 13-15 cm, slightly bent pods with a diameter of 6-8 mm
- An improvement to the well-known, old variety 'Doppelt Holländische Prinzess'
- Resistant to anthracnose, halo blight and bean mosaic virus
- TSW = approx. 280 g (white-green)

540100 Prinzessa SEED

540050 Negra

540100 Prinzessa

540200 Primavera

Primavera

- Very productive, crunchy filet bush bean
- Intense green, glossy, round pods, 13-14 cm long, 8-9 cm thick
- The plants grow upright and have a stable habit, the pods hang freely
- Resistant to anthracnose, halo blight and bean mosaic virus
- TSW = approx. 220 g (white-seeded)

540200 Primavera SEED

Maxi

- Very early, 'Glucken' type bush bean
- Easy harvest, the pods hang freely above the foliage
- Length: 18-20 cm, diameter; 10 mm
- TSW = approx. 320 g (brown-seeded)

540250 Maxi SEED

Sansoucy

- Very productive, new 'Glucken' type
- Beautiful, dark green, straight, 14 cm long pods
- Particularly upright, robust plants with important resistances
- TSW = approx. 400 g (white-seeded)
- HR BCMV/Cl/Psp

540260 Sansoucy SEED
NEW

Flat-podded varieties

Poseidon

- Early, very productive new breeding, flat-podded 'Roma' type, aromatic
- Long, very uniform, straight pods (13-15 cm), particularly wide (18-20 mm)
- Upright, stable bushes with concentrated pod production
- TSW = approx. 460 g (white-seeded)
- HR Psp/BCMV/Cl

540300 Poseidon SEED

Yellow-podded varieties

Goldiva

- Particularly aromatic, yellow bush bean, very productive
- Robust, long, straight pods, 15-17 cm, diameter: 8.5-9.5 cm
- Resistant to anthracnose, bean mosaic virus and halo blight
- TSW = approx. 350 g (white-seeded)

540430 Goldiva SEED
NEW

Golddukat

- Intense, golden yellow, aromatic pods
- 16-18 cm long, diameter: 8-9 mm, round pods
- Resistant to anthracnose and bean mosaic virus
- TSW = approx. 240 g (white-seeded)

540450 Golddukat SEED

Voletta

- Very productive wax bean with fine, aromatic pods
- Straight, fully round, 7-8 mm thick and 17-18 cm long pods
- Intense golden yellow, stays crunchy long after cooking
- Resistant to anthracnose, bean mosaic virus and halo blight
- TSW = approx. 190 g (white-seeded)

540500 Voletta SEED

540550 Capitano

Capitano

- Flat-podded, medium late wax bean
- Pod length: 15 cm, width: 20 mm, stable bushes
- Straight pods with very uniform, bright yellow colouring
- TSW = approx. 330 g (white-seeded)

540550 Capitano SEED

Violet-podded varieties

Bluevetta

- Early to medium early, violet-podded, 'Glucken' type bush bean
- Very productive and tasty, round, smooth pods
- 14-15 cm long and approx. 8 mm thick pods
- The violet colour disappears during cooking
- Robust against anthracnose, bean mosaic virus and halo blight
- TSW = approx. 210 g (white-seeded)

540600 Bluevetta SEED

Dry beans

Facta

- Early, robust standard variety, flat, oval
- Approx. 12-14 long and 15 mm wide, medium green pods
- TSW = approx. 660 g (white-seeded)

540700 Facta SEED

Borlotto Rosso

- Medium early, popular dry bean
- Flat, oval pods, approx. 10-12 cm long, cream white with red marbling
- TSW = approx. 450 g (cream with red speckles)

540750 Borlotto Rosso SEED

*) 4-6 seeds each

Round varieties

Isabel

- Medium early, round-podded French bean, dark green
- Stringless, approx. 14 cm long, diameter: 9-11 mm
- Suitable for early cultivation and as a following crop for late plantings
- Resistant to bean mosaic virus 1

542300 Isabel SEED

Neckarkönigin

- Medium late, round standard variety
- Approx. 28 cm long, 14 mm wide, robust for outdoor cultivation
- Dark green, straight, fleshy and enduringly tender
- HR BCMV

542400 Neckarkönigin SEED

Cobra

- Medium early, black-seeded French bean
- High yield for outdoor and greenhouse cultivation
- Round, dark green, up to 20 cm long, diameter: 7-9 mm, stringless
- Resistant to bean mosaic virus 1

542450 Cobra SEED

Neckargold

- Medium late, deep yellow French bean, very reliable
- Round pods, approx. 23-25 cm long and 13 mm wide

542500 Neckargold SEED

Oval varieties

Eva

- Oval, aromatic with a very high, early yield
- For greenhouse and outdoor cultivation, open habit for easy harvesting
- Very straight, dark green pods, approx. 26-28 cm long, 18 mm wide
- HR BCMV

542600 Eva SEED

Markant

- Early, round-oval French bean for greenhouses and outdoors
- Productive and healthy, approx. 25 cm long pods
- Resistant to bean mosaic virus 1

542650 Markant SEED

Flat varieties

Vitalis

- Flat-podded French bean with medium dark green pods
- Length: approx. 20 cm, width: 20 mm, also for outdoor cultivation
- Slow seed development with optimal pod quality
- Resistant to bean mosaic virus 1

542700 Vitalis SEED

Limka

- Early, 22-24 cm long, stringless, flat and medium green
- Very impressive variety for cultivation under glass and outdoors
- Resistant to bean mosaic virus 1

542800 Limka SEED

Golden Gate

- Flat-podded, bright yellow wax French bean
- Approx. 24 cm long and 24 mm wide, uniform pods
- Medium early, ideal for greenhouses and outdoor cultivation
- Resistant to bean mosaic virus 1

Pisum sativum

Pea — Fabaceae

1000	Mio/ha			
200-300	0.4-0.7	III-VI	30-40 x 3	10-13

Wrinkled peas

Evita

- Early variety with very good quality for fresh markets
- 8-9 cm long pods, medium wide and dark green
- 9-10 dark green peas per pod, dry seed colour is green
- Vigorous plants with early branching and dense, mostly paired pod development
- Height: 60-70 cm, TSW = approx. 220 g

543000 Evita SEED

543000 Evita

Profita

- Productive variety with dark green, deliciously fresh peas
- Medium early, stable plants, sown in sets up to the beginning of July
- Per node, 2-3, approx. 10 cm long, slender pods with 9-10 peas
- Resistant to powdery mildew and Fusarium oxysporum
- Height: approx. 80 cm, TSW = 220 g

543100 Profita SEED

543100 Profita

Grandera

- Large-podded, very productive variety for gourmets
- 11-12 cm long, with 8-10 dark green, large peas
- The leaves are entwined (semi-leafless), for cultivating without a retaining wire
- Resistant to Fusarium oxysporum
- Height: 70-80 cm, TSW = ca. 290 g

543350 Grandera SEED

543350 Grandera

Maxigolt

- Large-podded fresh market variety with very good flavour
- Medium late, resistant to Fusarium oxysporum
- Height: 90-100 cm, TSW = 300 g

543400 Maxigolt SEED

Sugar peas

Zuccola

- Early sugar pea of the 'snap pea' type
- Sugary sweet, thick, fleshy pods with 8-9 peas, length: 8-9 cm
- No endocarp, the pods can be eaten whole
- Resistant to powdery mildew and Fusarium oxysporum
- Height: 70-75 cm, TSW = approx. 220 g

543650 Zuccola SEED

Zufalo

- Stringless, highly aromatic snap pea
- Sweet pods, approx. 7-8 cm long, can be eaten whole
- Also ideal for growing on balconies in containers and pots
- Resistant to powdery mildew and Fusarium oxysporum
- Height: 70-75 cm, TSW = approx. 210 g

543660 Zufalo SEED
NEW

543650 Zuccola

Delikata

- Impressive variety of the 'Kaiserschote' type
- Flat, dark green pods with a length of 10-11 cm, up to 2 cm in width
- Young pods for 'Kaiserschote', later as a sugary sweet garden pea (8-10 peas)
- Resistance to powdery mildew and Fusarium oxysporum
- Height: 75-85 cm, TSW = 280 g

543700 Delikata SEED

Raphanus sativus

Radish — Brassicaceae

1000	Mio/ha			
8-14	0.1-0.5	III-VIII	30 x 35	8-13

Neptun F1

- Comparatively good resistance to bolting, sowing from mid-March
- Medium long root is as sharp in flavour as the typical German radish varieties
- Very good uniformity, a smooth outer skin and low tendency to pithiness

543800 Neptun F1 SEED

April Cross F1

- Early cultivation, sowing can start in April
- The root is up to 40 cm long, cylindrical, smooth and pure white

543850 April Cross F1 SEED

Minowase Summer Cross Nr. 3 F1

- Long, Japanese radish, white
- Do not sow before June (due to risk of bolting)
- Tolerance to Fusarium, virus, and soft rot

543900 Minowase Summer Cross Nr. 3 F1 SEED

Rex

- Fast growing, white indoor and outdoor radish
- Conical to mid-length, very resistant to pithiness, mildly spicy flavour
- The foliage is upright, wide and has smooth edges
- Not to be sown before mid-December for indoor cultivation

544000 Rex SEED

Raphanus sativus var. sativus

Radish — Brassicaceae

1000	Mio/ha			
6-8	2-3	I-XII	8-10 x 4-8	4-10

Hybrid varieties

Lucia F1

- Fast-growing, crunchy radish
- For early greenhouse cultivation and year-round outdoor cultivation
- The tubby bulb is resistant to pithiness, bright red and a very fine root
- Robust foliage, resistant to downy mildew

544250 Lucia F1 SEED

Celesta F1

- Short, very firm and upright growing foliage
- Round, with fine roots and have long, enduringly green cotyledons
- For cold cultivation under glass or tunnels and outdoor cultivation
- Sturdy, tolerant against pithiness, high resistance to downy mildew
- The bulb and foliage keep their freshness, even during short-term storage

544350 Celesta F1 SEED

Vienna F1

- Large, bright red radish with stabile foliage
- Excellent, tender inner quality with a bulb diameter up to 5 cm
- For greenhouses and outdoors from March until September
- Resistant to downy mildew

544500 Vienna F1 SEED

543660 Zufalo

543800 Neptun F1

543700 Delikata

544000 Rex

544350 Celesta F1

Open-pollinated varieties in colours

Pearl

- White, round, quality radish for the entire field production
- Large, up to 6 cm in diameter, with the typical flavour
- Fresh colour, promotes sales together with red radishes

544550 Pearl SEED

Rudi

- Bright red, round radish for the entire outdoor season
- Sturdy bulb, tolerant to pithiness, tubby with fine roots and stable foliage formation
- Relatively early maturity and the very uniform development

544600 Rudi SEED

Sora

- Bright red, can be cultivated from spring until autumn
- The tubby bulbs are fleshy and remain firm and tender for a long time

544750 Sora SEED

Riesenbutter / Vitessa

- Top selection of 'Riesenbutter' type, for the entire outdoor season
- Large, bright red, savoury and crunchy
- Robust, even growth, high tolerance against pithiness

544850 Riesenbutter / Vitessa SEED

Zlata

- Yellow radish with a mildy spicy flavour
- For outdoor cultivation in the spring and autumn
- Round, comparatively resistant to bolting and cracking

544950 Zlata SEED

Viola

- Violet radish variety for the entire outdoor season
- Comparatively resistant to bolting and cracking
- Large, round bulbs, white on the inside

545000 Viola SEED

Poloneza

- Red, round radish with a white tip
- Comparatively resistant to bolting, suitable for forcing and outdoors

545050 Poloneza SEED

Nelson

- Semi-long, bright red with white tips
- Cylindrical bulb has a very good stump
- Medium long, upright foliage, easy to bunch
- Cultivation in the spring with and without plastic covering and for the entire outdoor season

545150 Nelson SEED

Eiszapfen / Vitus

- Very uniform and vigorous selection from the 'Icicle' radish type
- 10-12 cm long, white roots, resistant to pithiness, pleasantly spicy aroma
- Suitable for the entire outdoor cultivation from spring to autumn, as well as for greenhouse cultivation

545250 Eiszapfen / Vitus SEED

De Monica

- Exceptionally early, very high yielding new breeding of type 'Frühe Weißkeimige'
- Very good pod development, length: 15-16 cm, approx. 5 large beans, brown when cooked
- Compact plants, 100-120 cm high, with good field health
- TSW = approx. 1400-1500 g

548200 De Monica SEED

Frühe Weißkeimige / Vroma

- Early fresh market variety, turns brown during cooking, also for one-time harvesting
- Very uniform, up to 19 cm long, thick, hanging pods
- The uniform load allows a high yield
- TSW = approx. 1500 g

548250 Frühe Weißkeimige / Vroma SEED

Green-seeded

Mammut

- Extra large pods, 20-22 cm long, approx. 2.5 cm wide
- Gourmet variety with particularly aromatic, green beans
- Medium high, approx. 100 cm, stable plants
- High tolerance to anthracnose
- TSW = approx. 1600 g

548380 Mammut SEED
NEW

Perla

- Fine, green-seeded delicacy variety with an excellent flavour
- 12-14 cm long, straight, erect pods with a width of approx. 2-2.5 cm, 5-6 beans
- Stable plants, dark foliage, height: approx. 70-75 cm, high tolerance to anthracnose
- TSW = approx. 1000 g

548400 Perla SEED

547750 Gala

548200 De Monica

548380 Mammut

547800 Trophy

548250 Frühe Weißkeimige / Vroma

548400 Perla

Resistances for vegetables:

HR = High resistance
IR = Intermediate resistance

Capsicum annuum:
Tm = Viruses from the Tobamovirus Group (incl. Tobacco Mosaic Virus, Tomato Mosaic Virus and Pepper Mild Mottle Virus)
TSWV = Tomato Spotted Wilt Virus
Ma = Meloidogyne arenaria root-knot nematodes, for soil temperatures up to 28°C. Above this temperature, the varieties become increasingly vulnerable
Mi = Meloidogyne incognita root-knot nematodes, for soil temperatures up to 28°C. Above this temperature, the varieties become increasingly vulnerable
Mj = Meloidogyne javanica root-knot nematodes, for soil temperatures up to 28°C. Above this temperature, the varieties become increasingly vulnerable

Cucumis melo:
PM = Powdery Mildew
EC = Powdery Mildew (Erysiphe cichoracearum)
Gc = Powdery Mildew (Golovinomyces cichoracearu (ex. Erysiphe cichoracearum)
Sf = Powdery Mildew (Sphaerotheca fuliginea)
Px = Powdery Mildew (Podosphaeria xanthii ex. Sphaerotheca fuliginea)
Fom = Fusarium Wilt (Fusarium oxysporum f. sp. melonis)

Cucumis sativus:
PM = Powdery Mildew
Px = Powdery Mildew (Podosphaeria xanthii ex. Sphaerotheca fuliginea)
CMV = Cucumber Mosaic Virus
CVYV = Cucumber Vein Yellowing Virus
ZYMV = Zucchini Yellow Mosaic Virus
PRSV = Papaya Ringspot Virus
WMV = Watermelon Mosaic Virus
Pcu = Downy Mildew (Pseudoperonospora cubensis)
Cca = Target Leaf Spot (Corynespora cassiicola)
Ccu = Scab of Cucurbits (Cladosporium cucumerinum)
Fon = Fusarium Wilt on Watermelons (Fusarium oxysporum f.sp. niveum)
Foc = Fusarium Wilt on Cucumbers (Fusarium oxysporum f.sp. cucumerinum)
Fom = Fusarium Wilt on Melons (Fusarium oxysporum f.sp. melonis)

Curcurbita pepo:
CMV = Cucumber Mosaic Virus
ZYMV = Zucchini Yellow Mosaic Virus
WMV = Watermelon Mosaic Virus
Gc = Powdery Mildew (Golovinomycs cichoracearum)
Px = Powdery Mildew (Podosphaera xanthii)

Lactuca sativa:
Bl = Downy Mildew (Bremia lactucae)
Nr = Lettuce Aphid (Nasonovia ribisnigri)
LMV = Lettuce Mosaic Virus
Pb = Lettuce Root Aphid (Pemphigus bursarius)

Lycopersicon esculentum:
ToMV = Tomato Mosaic Virus
TSWV = Tomato Spotted Wilt Virus
ToTV = Tomato Torrado Virus
TYLCV = Tomato Yellow Leaf Curl Virus
Ff = Leaf Mould Disease (Fulvia fulva, ex Cladosporium fulvum)
Fol = Fusarium Wilt (Fusarium oxysporum f. sp. lycopersici)
For = Fusarium - Crown and Root Rot (Fusarium oxysporum f. sp. radicis lycopersici)
On = Powdery Mildew (Oidium neolycopersici)
Pi = Phytophthora infestans (Late Blight)
Va = Verticillium Wilt (Verticillium albo-atrum)
Vd = Verticillium Wilt (Verticillium dahliae)
V = Verticillium Wilt (Verticillium albo-atrum - Verticillium dahliae race 1)
Ss = Stemphylium solani
Ma = Meloidogyne arenaria root-knot nematodes, for soil temperatures up to 28°C. Above this temperature, the varieties become increasingly vulnerable
Mi = Meloidogyne incognita root-knot nematodes, for soil temperatures up to 28°C. Above this temperature, the varieties become increasingly vulnerable
Mj = Meloidogyne javanica root-knot nematodes, for soil temperatures up to 28°C. Above this temperature, the varieties become increasingly vulnerable
M = Meloidogyne arenaria, Meloidogyne incognita, Meloidogyne javanica root-knot nematodes, for soil temperatures up to 28°C. Above this temperature, the varieties become increasingly vulnerable
Pl = Corky Root Disease (Pyrenochaeta lycopersici)

Phaseolus vulgaris:
BCMV = Bean Common Mosaic Virus
Cl = Anthracnose/Black Spot Disease (Colletotrichum lindemuthianum)
Psp = Halo Blight (Pseudomonas syringae pv. phaseolicola)

Spinacia oleracea:
Pfs = Downy Mildew (Peronospora farinosa f.sp. spinaciae)

Product Information for Vegetables:

1. Resistances

1.1 Terminology

There are different degrees of specification for pests or pathogens in their relationship to plants. The determination of this specification usually requires highly sophisticated analysis techniques. The answer to the question whether a plant can be affected by a pest or pathogen perhaps depends on the applied analysis procedure. It is important to emphasise that the specification of pests and pathogen can generally be subject to temporal and regional fluctuations. The specification also depends on ecological factors, and new harmful organisms or new strains of pathogenic agents that are able to withstand the resistances may develop.

1.2 Definitions

Immunity:
Neither subject to attack by a certain pest nor infection by a certain pathogen.

Resistance:
The ability of a plant type to limit the growth and development of a certain pest or pathogen and/or the damage caused in comparison with susceptible plant types under comparable environmental conditions and pest and pathogen pressure. Under high pest and pathogen pressure, resistant varieties may exhibit some disease symptoms or damage.

Two resistance degrees are defined:

High/standard resistance (HR):
Plant types that highly limit the growth and development of a certain pest or pathogen under normal pest or pathogen pressure in comparison with susceptible plant types. These plant types, however, may exhibit some symptoms or damage under high pest and pathogen pressure.

Moderate/intermediate resistance (IR):
Plant types that limit the growth and development of a certain pest or pathogen, but may exhibit more symptoms or damage in comparison with resistant varieties. Moderate/intermediate resistant varieties will still have less serious symptoms or damages
that susceptible plant types when grown under comparable environmental conditions and/or pest and pathogen pressure.

Susceptibility:
The susceptibly of a plant type is the inability of it to limit the growth and development of a certain pest or pathogen.

1.3 Variety Resistance Information

The resistances of our breedings are coded if they have not been noted elsewhere.

For varieties with resistances to more than one pathogen, resistance codes are separated by "/". If a resistance code refers to a particular disease strain, there is no protection against another strain of this pathogen. If the resistance indication does not refer to a certain strain of a pathogen but to uncertain, non-specified strains, it cannot be guaranteed that the respective variety could nevertheless be infected by the stated pathogen.

The resistances indicated in the catalogue are based on current knowledge at the time of printing. A breaking of resistances by the respective pest, however, cannot be excluded.

2. Disclaimer

We have produced our new catalogue with great care, however mistakes are not excluded. We cannot assume any liability for the completeness and correctness of the content.

No responsibility is taken for any form of information provided by Volmary. Descriptions, recommendations and illustrations are based as far as possible on practical experience and tests. Volmary is not liable in any case for deviating results concerning cultivated products. The seller must decide for himself/herself if the goods and the information are suitable for local cultivation.

Agastache rugosa

Korean mint — Lamiaceae

1000 g	1000		°C	
0.7	20,000-30,000	I-XII	>16	4-5

Variety				
Seoul	30 x 30	9-12	5-8	-

Seoul

- Has refreshing mint fragrance, attractive, violet flowers

550000 Seoul 180 SEED

Allium schoenoprasum

Chives — Liliaceae

1000 g	1000		°C	
1-1.5	20,000-30,000	I-XII	12-15	4-5

Variety				
Staro	30 x 20-25	9-12	9-12	-
Miro	30 x 20-25	9-12	9-12	-

Staro

- Rough, high yielding, very stable
- Forced production, outdoor cultivation and in pots

550050 Staro 180 SEED

550000 Seoul

Miro

- Vigorous selection with moderately strong blades
- Highly suitable for growing bulbs

550150 Miro SEED

Allium tuberosum

Garlic chives — Liliaceae

1000 g	1000		°C	
5	20,000-30,000	I-XII	12-15	4-5

Variety				
Neko	30 x 20-25	9-12	9-12	-

Neko

- Fine garlic taste, no odour, productive

550200 Neko 180 SEED

Anethum graveolens

Dill — Apiaceae

1000 g	1000		°C	
1-2	20,000-30,000	I-XII	>16	2-3

Variety				
Ella	30 x 20	9-12	5-8	-
Goldkrone	30 x 20	9-12	5-8	-
Fernleaf	20 x 20	9-12	5-8	-

Ella

- Aromatic, compact growing, for short bunches and cultivation in pots
- Upright growth, high stability
- Attractive, dark green leaf colour and a high yield of the leaf tips

550250 Ella 180 SEED

550050 Staro

550200 Neko

Goldkrone

- Very thick-leaved and stable standard variety
- Due to the high potential yield, also ideal for large produtions

550450 Goldkrone SEED

Fernleaf

- Specially grown for pot cultivation
- Compact, fine foliage, height: approx. 25-30 cm

550600 Fernleaf SEED

Anthriscus cerefolium

Chervil — Apiaceae

1000 g	1000		°C	
2-3	15,000-25,000	I-XII	>16	2-3

Variety				
Massa	30 x 20	9-12	5-8	-

Massa

- Garden chervil, pleasant fragrance
- Parsley-like herb

550650 Massa 180 SEED

550250 Ella

550650 Massa

Apium graveolens var. secalinum

Cutting celery — Apiaceae

1000 g	1000		°C	
0.5	40	I-XII	>16	4-5

Variety				
Gewone Snij (Gewöhnliche Schnitt)	30 x 20	9-12	9-12	-

Gewone Snij (Gewöhnliche Schnitt)

- Cut variety with fine foliage
- Particularly aromatic and high yielding

550750 **Gewone Snij (Gewöhnliche Schnitt)** SEED

Artemisia drancunculus

Tarragon — Asteraceae

1000 g	1000		°C	
0.2-0.35	15,000-20,000	I-XII	>16	2-3

Variety				
Pfefferkorn	40 x 40	10.5-12	8-10	x
Samira®	40 x 40	9-12	5-8	-

French tarragon

Pfefferkorn

- French tarragon
- Aromatic, anise-like flavour
- Popular variety for cuttings

551000 **Pfefferkorn** 51 128 128

Russian tarragon

Samira®

- Seed-propagated Russian tarragon
- Piquant/bitter flavour

551050 **Samira®** 180 SEED

Borago officinalis

Borage — Boraginaceae

1000 g	1000		°C	
15-30	5,000-10,000	I-XII	>16	2-3

Variety				
Boris	40 x 40	9-12	5-8	-

Boris

- Blue flowers, fresh leaves are a delicacy in raw salads

551150 **Boris** 180 SEED

Bulbine frutescens

Stalked bulbine — Asphodelaceae

1000 g	1000		°C	
-	-	-	-	-

Variety				
Medicus®	40 x 40	12-13	12-16	-

Medicus®

- African medicinal herb for burns, wounds, insect bites and skin rashes
- Contains a jelly-like juice with antibacterial agents in the leaves
- A very decorative, low-maintenance plant with yellow/orange flowers

551200 **Medicus®** 84

551050 Samira®

Coriandrum sativum

Coriander — Apiaceae

1000 g	1000		°C	
4-10	15,000-30,000	I-XII	>16	6-7

Variety				
Caribe	25 x 15	9-12	8-10	-

Caribe

- Fast growing, late sprouting selection with wide, green leaves
- Also known as "cilantro"

551300 **Caribe** 180 SEED

Cymbopogon citratus

Lemon grass — Poaceae

1000 g	1000		°C	
-	-	-	-	-

Variety				
Tasty Lemon	40 x 40	10.5-12	8-10	-

Tasty Lemon

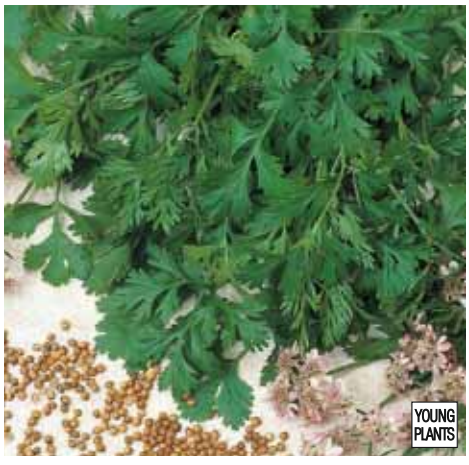
- Genuine lemon grass from vegetative propagation
- Vigorous bulbs, essential for Asian cuisine

551400 **Tasty Lemon** 84

551200 Medicus®

551000 Pfefferkorn

551150 Boris



551300 Caribe

Cymbopogon flexuosus

Lemon grass — Poaceae

1000	1000		°C	
0.3-0.4	70,000-80,000	I-XII	>16	5-6

Variety				
East Indian	20 x 25	9-12	6-8	-

East Indian

- Exotic herb with lemony smell and flavour
- Seed-propagated type with a thin, grass-like habit

551450 East Indian SEED

Diplotaxis tenuifolia

Wild rocket — Brassicaceae

1000	1000		°C	
0.25	20,000-25,000	I-XII	>16	2-3

Variety				
Grazia	40 x 30	9-12	5-8	-
Tiger	40 x 30	9-12	5-8	-

Grazia

- Dark green leaf colour, extremely uniform with a compact habit
- Evenly long, finely toothed leaves with good robustness
- For bunching, for bowls and for pots
- Later blooming than standard varieties

551500 Grazia 180 SEED

Tiger

- Very productive, uniform wild rocket with a spicy flavour
- Deeply slitted, dark green leaves are particularly upright and can be easily bunched if required
- Very healthy and vigorous, ideal for outdoor cultivation

551550 Tiger SEED

Eruca sativa

Salad rocket — Brassicaceae

1000	1000		°C	
2	20,000-25,000	I-XII	>16	1-2

Variety				
Runway	40 x 30	9-12	3-4	-

Runway

- Very productive salad rocket with serrated wild rocket leaf shape
- The mildly spicy flavour is between that of wild and cultivated rocket. The 'Runway' cultivated form has fast growth and large, easy-to-sow seeds
- Fast growth, large seeds, robust against to downy mildew

551650 Runway SEED

Foeniculum vulgare

Fennel — Apiaceae

1000	1000		°C	
5-6	5,000-10,000	I-XII	>16	6-7

Variety				
Greeny	40 x 30	9-12	7-9	-
Smokey	40 x 30	9-12	8-10	-

Greeny

- Green fennel with aromatic, filigree foliage

551790 Greeny 180 SEED
NEW

Smokey

- Bronze-coloured fennel with attractive, aromatic foliage

551800 Smokey 180 SEED

551400 Tasty Lemon

551500 Grazia

551790 Greeny

551450 East Indian

551650 Runway

551800 Smokey

Galium odoratum

Woodruff — Rubiaceae

1000	1000		°C	
-	-	-	-	-

Variety				
Sterntaler	30-20	9-12	10-12	-

Sterntaler

- Popular, aromatic plant for desserts and drinks
- Grows in Central European forests

551900 Sterntaler 51 128

Helichrysum italicum

Dwarf curry — Asteraceae

1000	1000		°C	
-	-	-	-	-

Variety				
Aladin	30 x 20	10.5-12	9-12	x

Aladin

- Oriental flavour
- Spherical habit, silvery foliage

552000 Aladin 51 128 128

Lavandula angustifolia

Lavender — Lamiaceae

1000	1000		°C	
1	2	III-VIII	20-25	7-9

Variety				
Grosso	30 x 40	10.5-12	10.5-12	x
Provence	30 x 30	10.5-12	10.5-12	x

Grosso

- Robust and vigorous lavender variety
- Long, blue-violet, fragrant flower spikes
- From professional cultivation

552100 Grosso 128

Provence

- Lavender from seed with slow germination

552150 Provence SEED

Gynostemma pentaphyllum

Sweet tea vine — Cucurbitaceae

1000	1000		°C	
-	-	-	-	-

Variety				
Jiaogulan	40 x 30	12-13	7-9	x

Jiaogulan

- East Asian medicinal plant, also called Five Leaf Ginseng
- The tea is said to have a rejuvenating effect
- Climbing, frost hardy

551950 Jiaogulan 128 128

Hyssopus officinalis

Hyssop — Lamiaceae

1000	1000		°C	
-	-	-	-	-

Variety				
Blues	30 x 20	10.5-12	10.5-12	x

Blues

- Compact habit and strongly blue, attractive panicles

552050 Blues 128

551900 Sterntaler

552000 Aladin

552100 Grosso

551950 Jiaogulan

552050 Blues

Lepidium sativum

Cress — Brassicaceae

1000	1000		°C	
1.5-2.5	40,000-50,000	I-XII	15-20	-

Variety				
Cressida	-	10.5-12	1-2	-
Sprint	-	10.5-12	1-2	-
Large-leaved	-	10.5-12	1-2	-
Krause	-	10.5-12	1-2	-

Cressida

- Smooth-leaved variety, very rapid and uniform growth
- Short cultivation period, for sowing in sets in trays

552200 Cressida SEED

Sprint

- Particulary fast growing, uniform stem
- Ready to be cut in a few days

552250 Sprint SEED

Large-leaved

- Large-leaved, fast growth, very productive
- Harvested crop stays stable for a relatively long period after cutting

552300 Large-leaved SEED

Krause

- Crinkly-leaved cress
- Rapid and uniform germination

552350 Krause SEED

Levisticum officinale

Lovage — Apiaceae

1000	1000		°C	
3-5	8,000-12,000	I-XII	>16	4-6

Variety				
Verino®	30 x 30	9-12	8-10	-

Verino®

- Popular herb
- Also known as "Maggikraut" in German

552400 Verino® 180 SEED

Lippia dulcis

Aztec sweet herb — Verbenaceae

1000	1000		°C	
-	-	-	-	-

Variety				
Colada®	40 x 30	10.5-12	8-10	x

Colada®

- Calorie-free, tropical sweet plant with mint aroma
- Also for year-round cultivation on the windowsill

552500 Colada® 51 128

Lippia citriodora

Lemon verbena — Verbenaceae

1000	1000		°C	
-	-	-	-	-

Variety				
Freshman	40 x 40	10.5-12	8-10	x

Freshman

- Refreshing, lemon flavour
- French Verveine tea herb

552450 Freshman 51 128

Majorana hortensis

Sweet marjoram — Lamiaceae

1000	1000		°C	
-	-	-	-	-

Variety				
Venezia	40 x 30	10.5-12	8-10	x

Venezia

- Robust, spicy variety from cuttings
- Characteristic aroma, for sausages
- Persistant, limited hardiness

552530 Venezia 128
NEW

552400 Verino®

552500 Colada®

552200 Cressida

552450 Freshman

552530 Venezia

Melissa officinalis

Lemon balm — Lamiaceae

1000 g	1000		°C	
0.5-0.7	10,000-15,000	I-XII	>16	3-4

Variety				
Fit	40 x 30	10.5-12	8-10	x
Relax	40 x 30	9-12	5-8	-

Fit

- Vigorous, uniform, cutting variant
- Comparatively large-leaved

552600 Fit 128

Relax

- Seed variety, calming effect

552650 Relax 180 SEED

Mentha gracilis

Ginger mint — Lamiaceae

1000 g	1000		°C	
-	-	-	-	-

Variety				
Ginger	30 x 30	10.5-12	8-10	x

Ginger

- Yellow/green variegated to pure green foliage
- The leaf colouring depends on the temperature, fruity aromatic

552700 Ginger 128 128

Mentha x piperita

Peppermint — Lamiaceae

1000 g	1000		°C	
0.08	25,000-30,000	I-XII	>16	3-4

Variety				
Chocolate	30 x 30	10.5-12	8-10	x
Cinderella	30 x 30	9-12	5-8	-
Citaro®	30 x 30	10.5-12	8-10	x
Granada	30 x 30	10.5-12	8-10	x
Multimentha	30 x 30	10.5-12	8-10	x
Swiss	30 x 30	10.5-12	8-10	x

Black peppermint

Chocolate

- Smells like dark peppermint chocolate

552750 Chocolate 128 128

Common peppermint

Cinderella

- Popular, refreshing medicinal plant

552800 Cinderella SEED

English peppermint

Citaro®

- Particulary aromatic, 'Mitcham' type peppermint
- Dark green, smooth leaves

552850 Citaro® 128 128

Orange mint

Granada

- Refreshing, fruity, orange flavour

552900 Granada 128 128

552600 Fit

552700 Ginger

552800 Cinderella

552650 Relax

552750 Chocolate

552850 Citaro®

Peppermint

Multimentha

- Robust, vigorous breeding that is not susceptible to frost
- High menthol content for a strong, aromatic tea aroma

552950 Multimentha 128

White peppermint

Swiss

- With a refreshing, mild citrus fragrance

553000 Swiss 128 128

Mentha species

Strawberry mint — Lamiaceae

1000 g	1000		°C	
-	-	-	-	-

Variety				
Almira®	30 x 30	10.5-12	8-10	x

Almira®

- Intense strawberry fragrance, compact habit

553100 Almira® 128

Mentha spicata

Spearmint — Lamiaceae

1000 g	1000		°C	
-	-	-	-	-

Variety				
Crispa	30 x 30	10.5-12	8-10	x
Marokko	30 x 30	10.5-12	8-10	x
Yakima®	30 x 30	10.5-12	8-10	x

Curled mint

Crispa

- Strongly curled leaves

553150 Crispa 128

Moroccan mint

Marokko

- Very refreshing, mild peppermint
- Ideal for summer teas and cocktails

553200 Marokko 51 128 128

Spearmint

Yakima®

- Genuine chewing gum aroma

553250 Yakima® 128

552900 Granada

553000 Swiss

553200 Marokko

552950 Multimentha

553100 Almira®

553150 Crispa

Ocimum basilicum

Basil — Lamiaceae

1000	1000		°C	
1.2-1.6	40,000-50,000	I-XII	>16	3-5

Variety				
Emily	25 x 25	9-12	5-8	-
Edwina	25 x 25	9-12	5-8	-
Großes Grünes Genoveser	25 x 25	9-12	5-8	-
Massilia	25 x 25	9-12	5-8	-
Piccolino	25 x 25	9-12	6-9	-
Chianti	25 x 25	9-12	6-9	-
Sweet Lemon	25 x 25	9-12	5-8	-
Cino	25 x 25	9-12	5-8	-
Siam Queen	25 x 25	9-12	5-8	-

Genovese basil

Emily

- Very compact growing, large, medium green leaves
- Summer cultivation and year-round pot cultivation with much light

553450 Emily SEED

Edwina

- Fast growing, compact basil for pots
- Dark green, glossy leaves, very uniform
- Well suited for winter cultivation

553500 Edwina 180 SEED

Großes Grünes Genoveser

- Large, curved, dark green leaves
- Fast, uniform growth for cutting

553700 Großes Grünes Genoveser SEED

French basil

Massilia

- 'Marseillais' type basil
- Medium large, with numerous, moderately large leaves that are pointed at the ends

553750 Massilia SEED

Fine-leaved basil

Piccolino

- Very compact growing
- Strong aroma, ideal for pot cultivation

553950 Piccolino SEED

Red basil

Chianti

- Stable, uniform variety

554050 Chianti 180 SEED

Lemon basil

Sweet Lemon

- Intense, lemony flavour and smell
- Compact, decorative bushes

554150 Sweet Lemon SEED

554050 Chianti

553450 Emily

553750 Massilia

553250 Yakima®

553500 Edwina

553950 Piccolino

Cinnamon basil

Cino

- Pleasantly sweet cinnamon fragrance
- Violet stems and leaf veins, purple-red flowers

554200 Cino SEED

Thai basil

Siam Queen

- Aromatic, sweet Asian aroma and flavour
- Red-green foliage grows vigorously, relatively late flowers
- Winner of All American Selections

554250 Siam Queen SEED

Ocimum x hybrida

Basil — Lamiaceae

1000	1000		°C

Variety				
Magic Blue®	40 x 50	10.5-13	8-11	x
Magic White	40 x 50	10.5-13	8-11	x
Baristo® Grande	40 x 50	12-14	8-10	x
Baristo® Rosso	40 x 50	12-14	8-10	x
Baristo® Compatto	40 x 50	12-14	9-11	x

Bush basil

Magic Blue®

- Red-leaved bush basil
- Robust habit and rich bloom
- Pleasant fragrance and very aromatic

554400 Magic Blue® 84
Light violet

Magic White

- Green-leaved bush basil, aromatic
- Robust habit and rich, continuous bloom
- Pleasant fragrance and very aromatic

554450 Magic White 84
White

Grafted basil

Baristo® Grande

- Grafted Italian basil
- Robust rootstock for strong growth
- Forms bushy mini standards

554500 Baristo® Grande ★ 90

Baristo® Rosso

- Grafted, red-leaved basil
- Robust rootstock for strong growth
- Forms bushy mini standards

554550 Baristo® Rosso ★ 90

Baristo® Compatto

- Grafted, fine-leaved basil
- Robust rootstock for strong growth
- Forms bushy mini standards

554650 Baristo® Compatto ★ 90

554150 Sweet Lemon

554400 Magic Blue®

554500 Baristo® Grande

Ocimum species

Wild basil — Lamiaceae

1000 g	1000		°C	
-	-	-	-	-

Variety				
Cresto®	40 x 50	10.5-13	8-11	x

Cresto®

- Very robust, spicy, aromatic
- Forms healthy, decorative bushes

554700 Cresto® 84

Origanum majorana

Marjoram, annual — Lamiaceae

1000 g	1000		°C	
0.2-0.3	16,000-20,000	I-XII	>16	3-5

Variety				
Esperanta®	25 x 25	9-12	5-8	-

Esperanta®

- An important culinary herb
- Flavour is similar to thyme, but more delicate, sweeter and more fragrant

554800 Esperanta® 180 SEED

Origanum vulgare

Oregano — Lamiaceae

1000 g	1000		°C	
0.1-0.25	16.000-20.000	I-XII	>16	3-5

Variety				
Aromata	25 x 25	9-12	5-8	-
Margeritha	30 x 30	10.5-12	8-10	x
Goldtaler	30 x 30	10.5-12	9-12	x
Panta®	30 x 30	10.5-12	9-12	x
Diabolo	30 x 30	10.5-12	8-10	x

Common oregano / perennial marjoram

Aromata

- Seed propagated, vigorous variety

554850 Aromata 180 SEED

Margeritha

- Vegetatively propagated, very aromatic, uniform variety

554900 Margeritha 51 128 128

Origanum hirtum

Greek oregano — Lamiaceae

1000 g	1000		°C	
0.1-0.25	16,000-20,000	I-XII	>16	3-5

Variety				
Kreta	25 x 25	9-12	5-8	-

Kreta

- Particulary aromatic, compact oregano,
- Also called "white oregano" because of its white flower colour

554750 Kreta 180 SEED

554750 Kreta

554650 Baristo® Compatto

Origanum syriaca

Zaatar marjoram — Lamiaceae

1000 g	1000		°C	
0.2-0.25	16,000-20,000	I-XII	>16	3-5

Variety				
Zaatar	25 x 25	9-12	6-9	-

Zaatar

- Very aromatic wild oregano
- Ideal for Mediterranean cuisine
- Use like marjoram and oregano

554810 Zaatar 180 SEED

554810 Zaatar

554700 Cresto®

554800 Esperanta®

554850 Aromata

Golden oregano

Goldtaler

- Bright yellow, variegated leaves

554950 Goldtaler 51 128 128

White speckled oregano

Panta®

- Attractive, white/green variegated variety

555000 Panta® 51 128 128

Hanging oregano

Diabolo

- Aromatic, spicy with overhanging habit

555050 Diabolo 51 128 128

Petroselinum crispum ssp. crispum

Parsley — Apiaceae

1000	1000		°C	
1.5-1.8	20	I-XII	12-15	4-5

Variety				
Wega	30 x 10	9-12	6-10	-
Afrodite	30 x 10	9-12	6-10	-
Mooskrause 2 / Grandeur	30 x 10	9-12	6-10	-
Comun 3 / Rialto (Gigante de Italia)	30 x 10	9-12	6-10	-
Gigante di Napoli	30 x 10	9-12	6-10	-

Curled parsley

Wega

- Curled parsely of type 'Mooskrause'
- Top variety for year-round cultivation in pots
- Medium finely curled, dark green leaves
- High uniformity, fast, upright habit and a high yield potential

555100 Wega SEED

Afrodite

- Curly parsley with an intense aroma
- Dark green foliage, strong short stalks and short internodes
- Leaves are thickly curled and heavy

555200 Afrodite SEED

Mooskrause 2 / Grandeur

- Vigorous, curled parsley
- Ideal for pot cultivation and cutting

555500 Mooskrause 2 / Grandeur 180 SEED

Smooth-leaved parsley

Comun 3 / Rialto (Gigante de Italia)

- Smooth-leaved parsley with dark green leaves, strong stalks and an upright habit
- Productive, fast-growing selection of the 'Gigante de Italia' type

555700 Comun 3 / Rialto (Gigante de Italia) SEED

Gigante di Napoli

- Smooth-leaved parsley, high yielding, intense flavour
- Ideal for pot cultivation

555800 Gigante di Napoli 180 SEED

554900 Margeritha

555000 Panta®

555100 Wega

554950 Goldtaler

555050 Diabolo

555500 Mooskrause 2 / Grandeur

Petroselinum crispum ssp. tuberosum

Parsley — Apiaceae

1000	Mio/ha			
1.5-1.8	1-2	III-IV	25-30 x 2-4	30-32

Root parsley

Arat

- Long, smooth, well-filled root parsley with strong foliage
- Recommended for the fresh market and processing

555850 Arat SEED

Halblange / Eagle

- Semi-long, very productive root parsley
- Very smooth and comparatively long

555900 Halblange / Eagle SEED

Halblange / Zentra

- Medium late, very high yielding root parsley
- Semi-long, very smooth roots

556000 Halblange / Zentra SEED

555800 Gigante di Napoli

555850 Arat

Rosmarinus officinalis

Rosemary — Lamiaceae

1000	1000		°C	
0.7-1.3	10	III-VIII	20-25	7-9

Variety				
Abraxas	40 x 30	10.5-12	10-12	x
Citaro®	40 x 30	10.5-12	10-12	x
Blue Winter	40 x 30	10.5-12	12-14	x
Riviera	40 x 30	10.5-12	10-12	x

Gourmet rosemary

Abraxas

- Fast growing, medium green variety for cuttings
- Large-leaved, very aromatic

556200 Abraxas 51 128

556200 Abraxas

Common rosemary

Citaro®

- Robust seedling variety
- Low germination capacity

556250 Citaro® SEED

556000 Halblange / Zentra

Hardy rosemary

Blue Winter

- Blue-green, hardy rosemary
- Slow growing, aromatic

556300 Blue Winter 51 128

Hanging rosemary

Riviera

- Hanging, aromatic rosemary
- Very decorative variety

556350 Riviera 51 128

556300 Blue Winter

556350 Riviera

Rumex acetosa

Common sorrel — Polygonaceae

1000	1000		°C	
0.7-1.2	16,000-20,000	I-XII	>16	2-3

Variety				
Adessa®	40 x 50	9-12	4-7	-

Adessa®

- Green-leaved, spicy sorrel
- Ingredient for the famous 'Frankfurter green sauce'

556400 Adessa® SEED

Rumex sanguineus

Bloody dock — Polygonaceae

1000	1000		°C	
0.7-1.2	16,000-20,000	I-XII	>16	2-3

Variety				
Red Stripe	40 x 50	9-12	5-8	-

Red Stripe

- Green leaves with red veins, ideal for pots
- Milder flavour than common sorrel

556450 Red Stripe 180 SEED

556400 Adessa®

Salsola komarovii

Saltwort — Chenopodiaceae

1000	1000		°C	
3-4	15	I-XII	>16	3-5

Variety				
Osaka	30 x 40	9-12	3-5	-

Osaka

- Japanese herb with long, succulent, green leaves
- Particulary crisp with a slight, salty flavour

556550 Osaka SEED

556550 Osaka

Salvia elegans

Honey melon sage — Lamiaceae

1000	1000		°C	
-	-	-	-	-

Variety				
Mello	30 x 40	10.5-12	8-10	x

Mello

- Smells like ripe honeydew melons, use flowers for desserts, leaves for tea

556600 Mello 128 128

Salvia officinalis

Sage — Lamiaceae

1000	1000		°C	
6-8	10,000-15,000	I-XII	>16	3-5

Variety				
Culinaria	30 x 40	10.5-12	8-10	x
Salina	30 x 40	9-12	5-8	-
Goldblatt	30 x 40	10.5-12	8-10	x
Purpurmantel	30 x 40	10.5-12	8-10	x
Hexenmantel	30 x 40	10.5-12	8-10	x

Silver sage

Culinaria

- Very aromatic sage with large leaves

556650 Culinaria 51 128 128

Common sage

Salina

- Seed-propagated sage variety

556700 Salina 180 SEED

556650 Culinaria

556450 Red Stripe

556600 Mello

556700 Salina

Golden sage

Goldblatt

- Yellow/green variegated foliage

556750 Goldblatt 51 128 128

Purple sage

Purpurmantel

- Crimson, velvet-like leaves

556800 Purpurmantel 51 128 128

Colourful sage

Hexenmantel

- Tricolour, red/green/white foliage

556850 Hexenmantel 51 128 128

556850 Hexenmantel

Salvia rutilans

Pineapple sage — Lamiaceae

1000	1000		°C	
-	-	-	-	-

Variety				
Pino	30 x 40	10.5-12	8-10	x

Pino

- Leaves smell like fresh pineapple
- Decorative flowers starting in early winter

556900 Pino 128 128

556750 Goldblatt

556900 Pino

Sanguisorba minor

Salad burnet — Rosaceae

1000	1000		°C	
6-10	10,000-15,000	I-XII	>16	4-5

Variety				
Prato	30 x 30	9-12	5-8	-

Prato

- Fine culinary herb with delicate, pinnate leaves
- Pleasant, spicy taste similar to cucumber
- An important part of the well-known 'Frankfurter green sauce'

556950 Prato SEED

556800 Purpurmantel

Santolina chamaecyparissus

Cotton lavender — Asteraceae

1000	1000		°C	
-	-	-	-	-

Variety				
Yellow Buttons	30 x 30	10.5-12	9-12	x

Yellow Buttons

- Aromatic, Mediterranean herb
- Attractive, yellow flower buds

557000 Yellow Buttons 128

557000 Yellow Buttons

Santolina viridis

Olive herb — Asteraceae

1000	1000		°C	
-	-	-	-	-

Variety				
Olivia	30 x 30	10.5-12	9-12	x

Olivia

- Bright green, delicate leaves with intense olive flavour
- Use like the popular fruits when cooking

557050 Olivia 51 128

556950 Prato

Satureja douglasii

Hanging mint — Lamiaceae

1000	1000		°C	
-	-	-	-	-

Variety				
Indian Mint	30 x 40	10.5-12/A	8-10/12	x

Indian Mint

- Hanging plant with a strong habit
- Aromatic, mint fragrance

557100 Indian Mint 51 128 128

557100 Indian Mint

Satureja montana

Perennial savoury — Lamiaceae

1000	1000		°C	
0.5-1	15,000-20,000	I-XII	>16	4-5

Variety				
Bolero	30 x 30	10.5-12	8-10	x
Melva®	25 x 25	9-12	5-8	-

Bolero

- Uniform, very aromatic variety for cuttings

557200 Bolero 51 128 128

Melva®

- Seed variety, popular for bean dishes

557210 Melva® SEED

Satureja spicigera

Hanging savoury — Lamiaceae

1000	1000		°C	
-	-	-	-	-

Variety				
Karpaten	30 x 30	10.5-12	8-10	x

Karpaten

- Hanging habit, very spicy
- Bright white, lovely blossoms

557250 Karpaten 128

Stevia rebaudiana

Sweet leaf — Asteraceae

1000	1000		°C	
-	-	-	-	-

Variety				
Sweety	30 x 40	10.5-12	8-10	x

Sweety

- Ornamental plant, also used in cosmetics
- Valued in South America and Asia due to its sweet flavour

557350 Sweety 128

Satureja hortensis

Savory, annual — Lamiaceae

1000	1000		°C	
0.4-0.8	15,000-25,000	I-XII	>16	4-5

Variety

Disclaimer

We have produced our new catalogue with great care, however mistakes are not excluded. We cannot assume any liability for these mistakes.

No responsibility is taken for any form of information provided by Volmary. Descriptions, recommendations and illustrations are based as far as possible on practical experience and tests. Volmary is not liable in any case for deviating results concerning cultivated products. The seller must decide for himself/herself if the goods and the information are suitable for local cultivation.

General Terms and Conditions of Volmary GmbH

1. General

1.1 The following General Terms and Conditions apply to all sales and licensing conducted in the course of our business operations, unless otherwise indicated in our binding offer or order confirmation.

1.2 Our General Terms and Conditions apply exclusively. Buyer terms and conditions that conflict with or differ from our General Terms and Conditions or any supplementary agreements are only binding if expressly agreed to in writing. Our General Terms and Conditions apply even if goods are delivered to the buyer without reservation despite our awareness of conflicting or differing buyer terms and conditions.

1.3 The following General Terms and Conditions apply only to businesses within the meaning of Section 14 of the German Civil Code (Bürgerliches Gesetzbuch – BGB).

1.4 Unless otherwise agreed, the interpretation of customary contracts is subject to Incoterms 2010 (EXW per Incoterms 2010), including any additions in force at the time of contract signing.

2. Offer – contract signing

2.1 Representations of our products (seeds, bulbs, seedlings etc.) in promotional materials etc., including our web pages, are not legally binding offers within the meaning of BGB Section 145. They are non-binding and subject to change. Their purpose is to encourage buyers to submit orders.

2.2 Orders submitted by the buyer shall be considered binding for the buyer for two weeks as of the date on which we receive the order unless otherwise stated upon order submission.

2.3 No contract shall result until the order is confirmed by us in writing. If we deliver goods or services without first confirming the order, this shall constitute acceptance of the order.

2.4 If we accept the order, whether in writing or through fulfilment, after the two-week binding period (see 2.2), the contract shall be considered in effect unless immediately rejected by the buyer.

2.5 We have the right to adjust varieties, quantities and delivery dates on order confirmations to reflect actual availability. Such changes shall be considered accepted unless rejected by the buyer within eight calendar days of receipt of the order confirmation. This applies only if the change is deemed reasonable by the buyer in consideration of our interests.

3. Delivery

3.1 Unless otherwise stated in the contract, delivery dates agreed upon represent the dates on which the goods will be made available at our production facility in Senden, Germany, for handover or shipping (ex works per Incoterms 2010).

3.2 Should our suppliers fail to deliver the right goods to us on time, our obligation to deliver shall be held in abeyance. This only applies in cases where we or our suppliers are not responsible for the delivery delays.

3.3 Raw material or energy shortages, strikes, lockouts, traffic disruptions, governmental decrees or other public law restrictions, breakdowns, force majeure or other circumstances not caused by us or our agents and not or foreseeable by us release us from our obligation to deliver and from any licensing obligations for the duration of the event to the extent that the circumstances impact our ability to deliver.

3.4 In the situations described in Sections 3.2 and 3.3, we have the right, without obligation to pay damages, to withdraw from the contract if fulfilment becomes impossible or unreasonable or an end to the hindrance is not foreseeable. This applies only if we or our agents are not responsible for the hindrance and we inform the buyer of the aforementioned hindrances immediately. In the event of withdrawal, we agree to promptly refund any payments already made by the buyer.

4. Obligation to inspect and to give notice of defects

4.1 We are authorised to fulfil orders in partial shipments unless otherwise agreed. The buyer may refuse to accept partial deliveries only if they do not serve its interests objectively. Rejection of partial deliveries is to be explained in writing, including written substantiation of how partial deliveries would not serve the buyer's interests objectively.

4.2 The buyer shall verify and inspect the goods immediately upon receipt to the extent advisable in the ordinary course of business. Depending on the size of the delivery, verification/inspection shall take place through random sampling of a sufficient quantity of goods. If the buyer requests delivery of the goods to a third party, the buyer must ensure immediate verification and inspection.

4.3 The buyer's obligation to inspect the goods and report any defects immediately upon receipt also extends to phytosanitary properties, including but not limited to viruses, infestation and diseases. If the buyer suspects the presence of such phytosanitary properties, it shall proceed as described in 10.7. In particular, the buyer must also, with regard to its obligation to minimise damage, separate infected or defective goods from other goods (goods delivered by us or those in prior possession of the buyer) to avoid cross-contamination.

4.4 In the event of obvious defects, incorrect deliveries or lower-than-expected quantities, the buyer shall notify us immediately, but no later than within three calendar days. Notification must take place in writing. Transport personnel are not authorised to receive notification of defects. If the buyer fails to notify us as required, the goods shall be considered approved and the buyer shall have no claims for such defects, except in cases where a defect was undetectable at the time of inspection. Sections 377 et seq. of the German Commercial Code (Handelsgesetzbuch – HGB) shall otherwise apply.

4.5 The buyer agrees to inspect the goods upon receipt for transport damage, through appropriate sampling if applicable. If transport damage is found, the buyer shall immediately prepare a report detailing the condition of the goods and the transport damage. The report is to be submitted to the transport personnel for signature. The buyer agrees to report transport damage immediately by submitting the report to the transporter and to inform us and send us a copy of the report. We are not liable for transport damage (Section 11 notwithstanding) unless the damage was caused by us or one of our agents intentionally or as a result of gross negligence.

4.6 Our acceptance of notification of defects shall not constitute acknowledgement of the alleged defects.

5. Pricing and delivery methods

5.1 Unless otherwise contractually agreed, all prices are quoted ex works (our production facility in Senden, Germany). All costs of the goods, such as duties, insurance, taxes, storage fees etc., will be charged to the buyer at the time the goods are delivered ex works (our production facility in Senden, Germany). Shipment shall take place only at the buyer's request, in which case any additional freight/transport costs will have to be borne by the buyer and will be recharged by us.

5.2 The risk of accidental loss of the goods is transferred to the buyer upon handover of the goods to the transporter.

5.3 We will accept the return of sales packaging as required by law. Unless otherwise contractually agreed, packaging must be sorted and delivered by the buyer to our production facility in Senden, Germany, at its own expense.

5.4 All other transport packaging shall be charged to the buyer unless otherwise agreed. Packaging returned undamaged by the buyer shall result in a credit.

5.5 Unless otherwise contractually agreed, goods shall be loaded for transport by the buyer at our production facility in Senden, Germany. This also applies to situations where the goods are picked up by a third party contracted by the buyer. If we assist the buyer or contractor in loading the goods, this shall constitute a favour on our part. The buyer and/or its agent remain solely responsible for proper loading, including compliance with the guidelines for securing the load.

5.6 Our prices are based on the price list in effect at the time the final order is received, unless otherwise agreed. Unless otherwise contractually agreed, prices are quoted ex works (our production facility in Senden, Germany) and exclude packaging and VAT.

6. Payment terms

6.1 Invoices are due 30 days after the invoice date. A 2% discount is granted for full payment within 14 days. Other discounts require express prior written agreement. Discounts are to be negotiated separately for each contract.

6.2 If any changes to the VAT rate occur after contract signing, VAT will be calculated at the newly applicable rate.

6.3 If partial deliveries are made as per 4.1 or in coordination with the buyer, we have the right to bill separately for each partial delivery. Deliveries will be billed at the agreed-upon unit prices.

6.4 Payment is to be transferred exclusively to one of the accounts listed on the invoice.

6.5 Buyer payments are always credited to the oldest outstanding amount unless otherwise agreed. Payments are applied in accordance with BGB Section 367, i.e. first to costs, then to interest and finally to principal. Any other payment determinations by the debtor after the signing of the contract shall be disregarded.

6.6 Cheques are considered provisional fulfilment of payment only. Payment shall not be considered made until the amount of the cheque has been irrevocably credited to our account. Any applicable bank fees, including in the case of returned cheques, shall be charged to the buyer.

6.7 Bank drafts are also considered provisional fulfilment of payment only. Any expenses or costs, including the cost of filing any disputes, shall be borne by the buyer. We are not bound by any deadlines for submitting proof of expenses or filing disputes.

7. Default

7.1 Conditions constituting default and the consequences thereof are defined in BGB Sections 286, 287 and 288.

7.2 If the buyer is in default of payment, we may make future goods and services (including those under other contracts) contingent on prepayment or securities at our discretion; we are further authorised to disclose all claims assignments (see 9.1) to all customers of the buyer and to demand direct payment from said customers. This does not apply if the buyer is only in minor default and its ability to pay is not in question; outstanding amounts are considered minor if they total no more than 5% of the total volume of the contract from which they arose.

7.3 The buyer may offset any counterclaims against us only if said counterclaims have been acknowledged by us or legally enforced.

8. Retention of title

8.1 We retain ownership of the goods delivered by us until full payment of all amounts owed to us under the underlying contract is received, including any costs, interest and default penalties.

8.2 Our ownership also extends to goods, plants and products produced by the buyer through cultivation, handling or processing, blending or mixing of delivered goods that remain under our ownership. If goods under our ownership are processed or inseparably mixed with goods owned by other parties, we shall acquire co-ownership of the new or mixed goods. The amount of the co-ownership is based on the ratio of the invoice value of the delivered goods under our ownership to the invoice value of the other goods.

9. Assignment of claims

9.1 The buyer is authorised in the course of its ordinary business operations to resell the goods delivered by us. In this case, the buyer shall, effective at this time, assign the resulting claims against its customer to us. The amount assigned is limited to the amount of our claim for delivery of the resold goods including any costs, interest or default penalties, provided these were already charged and reported to the buyer. At our request, the buyer shall disclose to us any resale of still-unpaid merchandise including the full names of the recipients and any information necessary for direct collection of the claims assigned to us.

9.2 The buyer agrees to ensure, through suitable arrangements with its customers to the extent allowed by law, that claims assigned to us are not offset but fulfilled only through payment; if required, the buyer must advise the customer of the assignment of the claim.

9.3 The buyer is entitled to collect claims assigned to us from its customers. The buyer agrees to immediately pass on all payments received from its customers to us, up to the amount of our outstanding claims. If the buyer collects claims assigned to us from its customers without passing on payment to us as agreed, we are authorised to disclose the assignment of all claims, including those against other customers, and demand immediate payment. In addition, we may revoke authorisation to collect if the buyer fails to meet its obligations to us in a timely manner or other circumstances arise that cast doubt on the buyer's creditworthiness. If authorisation to collect is no longer in effect or is revoked by us, the buyer must immediately notify us at our request of the names of the debtors of the assigned claims and provide us with all the necessary information and documentation for collection.

9.4 If third parties desire access to goods under our ownership, including as part of foreclosure or insolvency proceedings, the buyer shall notify the third parties of our ownership and provide them with substantiating documentation. The buyer shall notify us immediately upon doing so. Any costs incurred in defending ourselves against alleged third-party claims to goods under our ownership shall be reimbursed by the buyer, provided these are not reimbursed by the third parties; any claims against third parties shall be reciprocally and simultaneously assigned to the buyer.

9.5 If the value of the securities given to us by the buyer exceeds the total value of our secured claims by more than 20%, we agree to release any securities exceeding the 20% at the request of the buyer. We are free to select which securities to release.

10. Guarantee

10.1 If goods delivered by us are marred by a defect, the cause of which was present at the time of risk transfer, we will generally guarantee the goods provided we are notified of the defect within the statute of limitations (see 10.4).

10.2 If the buyer resells goods delivered by us and its customer or the last customer in the supply chain is a consumer within the meaning of BGB Section 13, the buyer may seek recourse from us in accordance with BGB sections 478 and 479 under supplier's redress. In a legitimate case of supplier's redress, the liability limitations described in these General Terms and Conditions shall not apply.

10.3 Supplier's redress requires the goods delivered by us to have been sold to the consumer via the supply chain in unmodified condition. If the goods are cultured or otherwise altered or improperly handled prior to reaching the consumer, supplier's redress shall not apply. Supplier's redress requires that the defect that was present upon transfer of the goods to the consumer also constitute a defect under our relationship with the buyer.

10.4 The statute of limitations for guarantee claims is one year as of the beginning of the legal statute of limitation period. If the buyer seeks justifiable recourse against us under supplier's redress (see 10.2 and 10.3), the legal statute of limitations shall apply instead.

10.5 If the buyer fails to meet its obligation to inspect and to give notice of defects under Section 4, the buyer may lose its rights to guarantee per Section 4.

10.6 The buyer shall notify any non-apparent defects (hidden defects) immediately upon discovery in writing.

10.7 If the buyer reports defects, whether under Section 4 or Section 10.6, the buyer shall grant us the opportunity to inspect said defects and/or to have the defects inspected by third parties. If the buyer hires third parties, including experts, to inspect the goods or determine the presence of defects, we shall only be obliged to cover the costs of the inspection if an immediate expert examination is objectively required and we do not conduct said examination immediately.

10.8 If the buyer brings guarantee claims against us, our initial obligation is limited to re-fulfilment of the order (correction of the defect or delivery of a defect-free product). Should we reject re-fulfilment or if re-fulfilment fails or is deemed unreasonable by the buyer, the buyer may reduce the purchase price or withdraw from the contract. The buyer shall not be entitled to damages (Section 11 notwithstanding).

10.9 If the buyer is entitled to re-fulfilment through delivery of defect-free goods, we have the right to adjust the variety based on actual availability, provided said adjustment is deemed reasonable by the buyer.

11. Claims for damages

11.1 If the buyer is entitled to claims for damages or expense reimbursement due to defects and said claims are not excluded under the above clauses or Section 11.2, these shall expire in one year.

11.2 All other buyer claims to damages or expense reimbursement, with the exception of those mentioned in Section 11.3, regardless of their legal basis and including but not limited to failure to meet debt obligations or prohibited actions, are excluded. In the case of violation of cardinal obligations due to minor negligence, in departure from the above exclusion, our liability shall be limited to damage typically suffered as a result of transactions of this type.

11.3 Furthermore, claims for damages by the buyer resulting from the following are not excluded:

a) damage resulting from injury to life, limb or health caused by a negligent breach of duty on our part, a negligent or intentional breach of duty by our legal representatives or agents

b) other damage caused by an intentional or grossly negligent breach of duty on our part or intentional or grossly negligent breach of duty by our legal representatives or agents.

12. Advice, plant protection, cultivation

12.1 Storage tips, planting instructions, information on resistance, plant protection advice and any other advice are not subject to purchase and supply agreements. They represent only non-binding information, unless expressly covered under the agreement. They do not relieve the buyer from its obligation to properly and professionally store and process the delivered goods and take the necessary care, especially when using pesticides and fertilisers as well as growth promoters and inhibitors. The possibility that pathogens may break the indicated resistance cannot be ruled out.

12.2 If we provide plant protection advice and information regarding resistance, the buyer agrees to first test the recommended measures on a portion of the goods before proceeding with the recommended plant protection methods. Only if the test is successful should the methods be employed on a general basis. Tested plants must be kept under exactly the same conditions as the other plants that will be subject to the plant protection methods upon successful completion of the test. The limitations under these terms and conditions notwithstanding, we shall only be liable for the plant protection advice we provide if the recommended methods are properly tested prior to use and the buyer can provide proof of said tests. Section 11.3 shall apply correspondingly.

12.3 In protecting plants, the buyer shall follow all applicable laws, including the Plant Protection Act (Pflanzenschutzgesetz). If we provide plant protection advice, this does not release the buyer from its responsibility to follow the applicable laws.

12.4 The buyer shall be independently responsible for cultivation, especially in terms of selecting and using growth promoters and inhibitors, fertilisers and pesticides. The buyer shall ensure the compatibility of the methods employed. Please note that damage may occur if non-compatible growth promoters and inhibitors and pesticides are used. We are not liable for any damage resulting from cultivation errors. Section 11.3 shall apply correspondingly.

13. Guarantees

13.1 All descriptions provided by us or our agents or other information, including in catalogues, brochures, advertising material and websites, are generally considered descriptions only unless otherwise expressly stated. These descriptions do not constitute a guarantee that the goods will have certain properties or that they will retain a particular property for a certain length of time.

13.2 If, in departure from Section 13.1, we provide an express guarantee, in the case of defects subject to the guarantee, the buyer shall have unlimited legal guarantee rights.

14. Intellectual property rights, licences, reproduction

14.1 The use of our intellectual property rights, including commercial property rights (plant variety protection and trademark protection), copyrights and image rights, is permitted only on the basis of a licensing agreement. Goods subject to plant variety protection in particular may only be cultivated and reproduced after purchase under a licence agreement. A separate licence agreement is to be signed without the buyer being entitled to such an agreement; the licence agreement shall cover licence fees.

14.2 Plant variety protection is based on applicable laws, especially the Plant Variety Protection Act (Sortenschutzgesetz). We will only deliver protected varieties of plants for the purpose of cultivation and subsequent sale; the buyer is prohibited from producing reproductive material or exporting fertile materials to a country that does not provide plant variety protection, unless agreed separately in writing.

14.3 If mutations/sports occur, the buyer shall notify us immediately, grant us access for examination and review and voluntarily provide us with samples and cuttings of the mutations.

14.4 If the buyer purportedly receives rights from discovery of a mutation that the buyer wishes to sell or protect, the buyer agrees to notify us thereof in advance. We reserve the right to claim our own rights to any mutations.

14.5 If the buyer sells any acquired rights to mutations, the buyer shall grant us irrevocable pre-emptive rights; in the case of the planned protection of such rights, the buyer agrees, effective immediately, to offer us assignment of its rights and, in the event of their non-transferability, to exclusive licensing at an appropriate price.

14.6 If the parties fail to agree on an appropriate price as mentioned above, an expert appointed by our local Chamber of Agriculture shall have the final say.

14.7 The buyer grants us or third parties contracted by us the irrevocable right to visit its planting areas upon prior notice and by appointment in order to verify compliance with variety protection.

14.8 The buyer may not use trademarks or symbols used by us to differentiate its products from those of other legal entities or companies, or use trademarks or symbols that do not differ substantially from our own without our express written permission. The sale of plants in production in our original packaging marked with our trademarks and symbols is exempt. Goods delivered with labels originating from us are also exempt. In this case, trademarks appearing on labels may be used only through use of the labels delivered along with the delivered material to ensure preservation of our corporate designs.

15. Place of fulfilment, jurisdiction, severability clause

15.1 The place of fulfilment for all services under contracts between us and the buyer is Münster in Westphalia (Germany).

15.2 German law applies exclusively. The CISG and other conflict of law provisions possibly leading to the applicability of other jurisdictions, including the so-called Rome I Regulation (EC 593/2008 dated 17 June 2008), are specifically excluded.

15.3 Jurisdiction for all disputes arising from contractual relationships between us and the buyer is Münster in Westphalia (Germany) unless a different exclusive jurisdiction is prescribed by law.

15.4 If one of the clauses of these General Terms and Conditions or another clause in a contract between us and the buyer is or becomes fully or partially invalid, the remainder of the contract shall remain valid. The parties agree to establish a new clause that comes as close as possible to the economic intent of the invalid clause.

Volmary GmbH,
Headquartered in Münster,
District Court Münster HRA 12502,
Managing Directors: Hubertus Volmary, Frank Hüdepohl

Legend

Symbol	Meaning
	Seedling - generative propagation
	Cutting - vegetative propagation
	Bulb - propagated
	Seed requirement / 1000 plants
	Seeding period (month)
	Germination temperature (°C)
	Germination period (days)
	Cultivation period: Sowing until seedling (weeks)
	Seed requirement: seeds/ha (millions)
	Sowing distance (cm)
	Cultivation period for vegetables (weeks)
	TSW (thousand seed weight)
	Seed requirement / 1000 pots
	Seed requirement / 1000 plants
	Number of bulbs (per kg)
	Planting requirements for bulbs (m^2)
	Planting time period for bulbs (month)
	Planting distance for bulbs (cm)
	Cultivation period for bulbs (weeks)

Symbol	Meaning
	Pot size (cm)
	Cultivation time in weeks
	Flowering period (month)
	Growth temperature (°C)
	Pruning / pinching
	Use of growth inhibitors
	Growth height (cm)
	Plant density
	Staggered cultivation is possible
	Drying is possible
	Planting distance in cm
	Edible pumpkin
	Number of bulbs in pot
Blooms in the first year	Blooms in the first year
	Resistances
	Grafted variety
	Hobby variety
	Registered brand
	Protected brand

Symbol	Meaning
(x)	As needed
x	One to two times
xx	Multiple times
	Delivery according to the regulation for trial seed
P	Pack
Otdr	Suitable for outdoors
HB	Cultivation in hanging baskets is possible
	Fleuroselect gold medal
	Fleuroselect quality seal
	Can be produced according to brand concepts for end customers. Additional information can be found starting on page 4 and at www.volmary.com
	Volmary variety / series
SEED ONLY	Only available as seed
YOUNG PLANTS	Only available as a young plant
	The young plants marked with this official organic symbol come from approved ecological production. They are controlled in accordance with the EU regulation on organic production (German organic inspection body - DE-ÖKO-013).
