

Wednesday Walk – Oallen Property – 30 October 2013

The private property is off Oallen Ford Road and borders the Shoalhaven River. We made one stop on the drive in where there was an interesting array of plants including *Philotheca salsolifolia*, *Bossiaea heterophylla*, *Choretrum pauciflorum*, *Xanthorrhoea concava*, *Conospermum taxifolium*, *Persoonia mollis* ssp. *livens*, *Gompholobium minus*, *Hibbertia acicularis*, *Patersonia longifolia*, *Daviesia leptophylla* and *D. squarrosa*. After morning tea at the house site, we followed the powerline management track through dry woodland, making the occasional foray under the powerlines where the taller vegetation had been cleared. We saw good displays of *Ranunculus lappaceus*, *Goodenia hederacea*, *Coronidium scorpioides*, *C. oxylepis* ssp. *lanatum*, *Brachyloma daphnoides*, *Hibbertia obtusifolia*, *Ozothamnus diosmifolius*, *Calotis scabiosifolia* var. *integrifolia*, *Pomaderris phyllicifolia* ssp. *phyllicifolia*, *Isopogon prostratus*, a number of *Lomandra* species, *Wahlenbergia stricta*, *Stylidium graminifolium*, *Pultenaea subspicata*, *Gompholobium minus* and *Dillwynia sericea* - even a pure yellow one. There were some good orchids - *Diuris sulphurea*, *Calochilus platyichilus*, *C. paludosus*, *Caleana major* (many), *Thelymitra* sp. and early buds of a *Dipodium* sp. Other interesting plants were *Bossiaea riparia* (a very upright form in large numbers), *Acacia deanii* (about to flower and covered in large pods), *A. hamiltoniana*, *A. uncinata*, *Pomaderris eriocephala* and *Olearia viscidula*.
