

Not a Matter of Dollars Alone.

While it is true that you may make a considerable saving in dollars and cents by making your purchases at this store, that is not the whole of it. There is more than money at trading with us. There is satisfaction. There is style. There is a philosophy about the goods that won't make you wish you had bought something else.

There are people who are looking for bargains. The style is something that they want a bargain in. That is, a little more than their money's worth. To accommodate this trade we go to market and work hard to secure the bargains. Here we have them. The bargains in every department, and what is more they are bargains in stylish and reliable goods, a fact that makes them the more desirable.

There is another class of trade that deals with largely, to those who do not care for a bargain so much as they do for a good thing. This is the trade of the TWO BROTHERS. They know their goods are worth the price, and that is why they sell them so cheap. If it was not for the price, they would not sell them at all.

To combine we will add that our stock was brought to satisfy the demands of our trade in Wayne and vicinity, and that in case you are in doubt, see and compare goods and prices and give us your opinion.

OVERCOATS.

We have a large line of Nobby Overcoats and of every pattern you would expect to find in a first class store. SMYTHE IN WAYNE

The great question of the day is the question of the future of the Republic. It is a question that has been discussed for many years, and it is one that will continue to be discussed for many years to come. The question is whether or not the Republic is to remain a Republic, or whether it is to become a democracy, or whether it is to become a monarchy, or whether it is to become a dictatorship. The question is whether or not the Republic is to remain a Republic, or whether it is to become a democracy, or whether it is to become a monarchy, or whether it is to become a dictatorship.

"I could not Sew another Stitch to Save my Life."

A gorgeous costume fitted beneath the brilliant light of all rooms. The quality of accuracy is radiant to sight. The nervous habits of a weak woman have told day and night, the weary form and aching limbs have known no rest, for the dress must be finished in time.

That quiet of society and her discomfort we would any way, she (through) looking nature, heavy and soot at her form, and the effort through the act of necessity, may some day find their inevitable common cause.

Nervous prostration, excitability, fainting spells, dizziness, and prostration, loss of appetite, and strength, all indicate nervous trouble, which has been promoted by an overtaxed system.

By the society given and the housemaker takes there is nothing so vital to health as Dr. Williams' Vegetable Compound to restore strength, vigor, and happiness.

Mrs. Lizzie Anderson, 41 Union St., Salem, N. J., writes:
"I have been suffering from nervous trouble for some time, and I have been unable to do any work. I have been very weak and nervous, and I have been unable to do any work. I have been very weak and nervous, and I have been unable to do any work."

Mrs. Sarah Sewer, 103 West St., La Porte, Ind., writes:
"I have been suffering from nervous trouble for some time, and I have been unable to do any work. I have been very weak and nervous, and I have been unable to do any work."

ROUTE OF THE DAY

CONGRESS

By the time the bill is passed, the bill will have been passed by the House of Representatives. The bill will then go to the Senate for its consideration. The bill will then go to the President for his signature. The bill will then become law.

Portrait of a man, likely a member of Congress.

VOTING MACHINES IN USE

The use of voting machines is becoming more and more common. These machines are used to count the votes in an election. They are used in many states and are becoming more popular in others. The machines are used to count the votes in a secret ballot. The machines are used to count the votes in a secret ballot. The machines are used to count the votes in a secret ballot.

HOW BANNERS ARE MADE

The banners are made by a process called silk screening. The process involves creating a stencil of the design to be printed. The stencil is then placed over a piece of fabric. Ink is then pushed through the stencil onto the fabric. The process is repeated until the entire banner is printed. The banners are then dried and finished.

CLASSIFYING THE VOTERS

The voters are classified into different groups based on their age, income, and education. This classification is used to determine the best way to reach each group. The classification is used to determine the best way to reach each group. The classification is used to determine the best way to reach each group.
