Prepping for Eternity

Dear Friend,

We must **BE READY** for the Lord's soon return – By belief – professing Jesus the Most High Priest who baptizes with the Holy Ghost. – Also (look up) Mark 1:8, Hebrews 4:14

Therefore be ye also ready: for in such an hour as ye think not the Son of man cometh. Matthew 24:44

And to **BELIEVE** in the gospel according to 1 Corinthians 15: 1,2,3,4 (look up). KJV. – Also (look up) Ephesians 1:13

Who is he that overcometh the world, but he that believeth that Jesus is the Son of God? 1 John 5:5

Friend call on the name of Jesus Christ today and **BE SAVED.**

Look unto me, and be ye saved, all the ends of the earth: for I am God, and there is none else. Isaiah 45:22

So then Trust in the Lord and **BE HAPPY.** Happy is that People, that is in such a case: yea, happy is that people whose God is the LORD. Psalms 144:15

**Also – in your daily walk ask...
What would Jesus do?**

Fish And Game Officials Remind Recreational Shooters That Targeting Protected Nongame Birds And Protected Ground Squirrels Is Illegal

— Idaho Dept. of Fish & Game —

Summer is a popular time of year, not just for recreational shooters but some ground squirrels and protected nongame birds nesting in Idaho's flatlands

Temperatures are starting to climb and the days are long, and that's good news for recreational shooters looking to get out of city limits to shoot guns. Summer is a popular season for recreational shooters across the state, but it's also a critical time of year for some nongame bird species that nest in, or are commonly found in, popular shooting areas.

While the majority of hunters and recreational shooters follow the law, Fish and Game law enforcement officials want to remind shooters they are likely to encounter protected nongame wildlife, and there's a heavy price to pay for pulling the trigger on a protected species.

Two men recently pleaded guilty to unlawfully taking a golden eagle (a protected bird of prey) at the Morley Nelson Snake River Birds of Prey National Conservation Area. A judge sentenced both men to two years of probation, as well as a two-year hunting and firearm possession ban. Each had to pay a restitution upwards of \$3,000.

A golden eagle was shot and killed west of Oakley in February 2020.

It's a shooter's responsibility to know the law, and a good rule of thumb is to shoot targets instead of wildlife unless you know exactly what you're shooting at and you're doing it legally.

"The illegal shooting of protected nongame wildlife such as owls, hawks, eagles and other birds such as long-billed curlews is a persistent and prevalent problem in Idaho," said Deniz Aygen, Fish and Game's Watchable Wildlife Biologist.

"Long-billed curlews and many species of raptors are identified by Fish and Game as species of greatest conservation need, and sadly, substantial poaching occurs in areas that were established to aid in their conservation, but are also heavily used by recreational shooters."

Nearly all the nongame bird species found in Idaho are protected and therefore illegal to shoot. There are a few nonnative species that can be taken year-round with a valid hunting license, including European starlings, Eurasian-collared doves, house sparrows and rock pigeons.

Shooting protected birds may seem harmless, but it's been shown to affect some bird populations.

Research published in 2020 shows that shooting protected nongame species — specifically raptors and long-billed curlews — is more common in areas with high use by recreational shooters and happens more frequently than previously known.

Where was the study conducted? In Southwest Idaho at the Morley Nelson Snake River Birds of Prey National Conservation Area.

The study suggested that illegal shooting may have a role in the long-term declines observed for the local population of long-billed curlews in the conservation area, which had dwindled from more than 2,000 in the late 1970s, to fewer than 200 in 2014, and is now well under 100 curlews.

The study also implied that a small segment of recreational shooters appear to be poaching protected nongame species while they are target shooting or hunting unprotected nongame species like ground squirrels.

A note on ground squirrels

This time of year, many shooters are targeting ground squirrels around the state. While there are a few species of ground squirrels open to hunting, such as the Uinta or Columbian ground squirrel, some ground squirrels are protected. For instance, Northern and Southern Idaho ground squirrels, rock squirrels, Piute ground squirrels (in East Idaho), Merriam's ground squirrels, golden-mantled ground squirrels and Wyoming ground squirrels (in Southwest Idaho) are all protected species and should not be targeted.

If you can't tell the difference between an unprotected and protected species of ground squirrel, or any other wildlife, you shouldn't be targeting them.

Check out Fish and Game's Ground Squirrel webpage for a full list of both protected and unprotected ground squirrel species before you go out.

People can help preserve Idaho's hunting and fishing heritage by reporting poaching. Make the call if something doesn't seem right. Contact Citizens Against Poaching at 1-800-632-5999.

City of Coeur d'Alene LEAF-FEST Begins November 14th

MONDAY, NOVEMBER 14th, 2022 marks the start of the City of Coeur d'Alene's annual leaf pick-up program. Please be sure to **KEEP** leaves on your property until **Tuesday, November 1st**. After Tuesday the 1st, please rake your leaves and pine needles about one foot away from the gutter/curb line to allow for water drainage. City crews and equipment are limited, so we need your help. Leaves will be picked up only once. Please do not put leaves in the street after city crews have completed your area and **do not** include bagged leaves, branches, debris or trash.

Pick-up will start south of Sherman Avenue and move north. We expect completion before December 9th. Follow our progress on maps.cdaid.org/leaf

LEAF-FEST DO'S & DON'TS

- DO:**
- **KEEP** leaves and needles on property until **Tuesday, November 1st**.
 - Please move cars off the street if at all possible during leaf pick-up.
 - Keep the leaves about one foot away from the curb line to allow drainage.
 - Be alert for leaf pick-up equipment traveling through your neighborhood.
 - Keep a safe distance away from leaf pick-up heavy equipment.
 - Recognize that we have a tough job to do in a very short window between when the leaves fall and when the snow flies.
 - City and private trucks are exempted from covering loads during the leaf pick-up period. Sweepers will follow city trucks to collect remaining/excess leaves.

REMEMBER: Needles and Leaves ONLY! No branches, grass clippings or garden debris. NO GARBAGE

- DO NOT:**
- Place bagged leaves in the street.
 - Mix branches, debris or other trash in with the leaves.
 - Miss the deadline...We only have time for one pass.
- If you have questions or need additional information, please check the website streets.cdaid.org or call the Street Maintenance Information Line at 208-769-2233

Who Is Ready for Pumpkin Spice Whoopie Pies? Everyone!

Nestled snugly between "everything BBQ-flavored time" and "everything peppermint-flavored time" we have my personal favorite: "everything pumpkin-spice-flavored time"! This week I have a wonderful dessert overflowing with the nectar of the pumpkin spice gods.

Remember whoopie pies? If a cake, a cookie, frosting and a sandwich somehow managed to have a baby, it'd be a whoopie pie. Two round, pillowy cakelike cookies with a creamy cloudlike filling sandwiched between them. So soft and dreamy, they're bound to please the most discerning sweet tooth.

Traditionally, whoopie pies are chocolate cakes with vanilla filling, but not today! We're making pumpkin spice whoopie pies with several fillings to choose from. We have marshmallow pumpkin spice, maple vanilla, salted caramel and, for making pumpkin spice latte whoopies, coffee latte filling. How to choose? You might have to make this more than once! I sure did.

This pumpkin spice cookie recipe has been around forever and is very easy to prepare. I've chosen to use a boxed cake mix as an ingredient because I find it not only easier, but when you compare the cost of assembling all the cake ingredients, it's less expensive. Look for cake mix on sale when possible.

PUMPKIN SPICE WHOOPIE PIES
 Total Time: 45 minutes
 Yield: 15 decadent whoopie pies

1 cup canned pumpkin
 1/3 cup butter, softened
 1 (15.25 ounce) package spice cake mix
 2 eggs
 1/2 cup milk
 Filling (see recipes below)

Preheat oven to 375 F. Line two cookie sheets with parchment paper or greased foil. In a stand mixer or large mixing bowl with an electric mixer on medium speed, beat pumpkin and butter until smooth. Add cake mix, eggs and milk, then mix until well-combined. Chill batter for 15 minutes to firm up a little.

Drop batter by heaping tablespoons, 3 inches apart, on cookie sheets. Aim for 30 cookies total. Smoothe the

www.JasonCoblentz.com

These soft and dreamy whoopie pies are bound to please.

tops of the cookie batter with moist fingertips. Bake for 15 minutes. I did one sheet at a time, but you can do two at once. Just rotate pans halfway through.

Place cookies on a wire rack to cool completely before assembling into whoopie pies — seriously; let them cool or it's a big mess. If storing before assembling, place in single layers in a storage container with wax paper between layers to prevent sticking. These soft cookies will stick

together like glue!

To assemble, prepare filling of choice (recipes below) and chill filling for one hour. Pipe or spoon about 2 tablespoons of filling on the flat side of one cookie and top with a second cookie. Repeat for remaining pairs. Serve immediately or store in the refrigerator.

For each filling recipe below, begin by creaming together 1/2 cup softened butter with an 8-ounce brick of softened cream cheese until smooth. Then add the remaining ingredients.

Marshmallow Pumpkin Spice — Add 2 cups powdered sugar, about half of a 7 ounce container of marshmallow cream (incentive to make a double batch?), 1 teaspoon vanilla, 1 teaspoon pumpkin pie spice and a pinch of salt.

Maple Vanilla — Add 3 cups powdered sugar, 1 teaspoon vanilla and 3 tablespoons maple syrup.

Salted Caramel — Add 1/2 teaspoon each almond and vanilla extracts, 1/2 cup salted caramel sauce (found near the ice cream at the store) and 1/2 teaspoon kosher salt. Gradually add 3 cups powdered sugar.

Coffee Latte — Dissolve 1 1/2 teaspoons instant coffee or instant espresso granules into 1 teaspoon vanilla extract. Add to mixture, then gradually add 3 cups powdered sugar.

Diva Tip: Only serve these treats to people you really like, because they are amazing, and people will follow you home. Truth.

Hunters: Be Sure To Know And Follow Motorized Vehicle Rules For Forest Service Lands

— Idaho Dept. of Fish & Game —

Now that hunting season is upon us, one topic that always comes up is the use of motorized vehicles on US Forest Service lands. There are a few things that hunters need to know to avoid any issues or situations that may result in citations this fall.

First: You cannot drive anywhere you want on US Forest Service lands. The USFS has a motorized travel management program that has been in place for over a decade. Each USFS district has a travel management plan specific to its area. These plans are published annually and are free to the public in several formats. You can visit a USFS office and pick up a hard copy of the travel plan map, scan a QR code and have the map downloaded onto your smart phone, or go to the USFS website to see the plan (fs.usda.gov). Just because it may appear that there is a road or trail that can be driven on, doesn't mean that it is legal. The USFS and Fish and Game jointly enforce motorized vehicle use on Idaho's National Forest land through a Memorandum of Understanding (MOU).

Second: Not all roads and trails are open to all vehicle types. Some trails may be designated as two wheeled (motor bikes) only, some may be open to off road vehicles that are 50 inches wide or less, and some may be open to all vehicles. The vehicle designations are found in the USFS travel plan maps.

Third: Not all roads and trails are open all year. Some roads and trails may have seasonal designations that make them closed for a portion of the year. Again, these dates can be located on the USFS travel plan maps.

Fourth: Do not assume that a road or trail is open just because there is not a sign present that designates the road or trail closed. Unfortunately, signs get torn down or destroyed on USFS property on a regular basis. Some individuals may think that removing signs will give them a free pass by claiming ignorance of the closure. Ignorance is not an excuse. The travel plan information is free and readily available to everyone.

To aid the public in not winding up on the wrong side of a motorized closure, the USFS has reminder signs in place on nearly all of the main roads that funnel the public onto the forest. The signs are a reminder that motor vehicles are only allowed on routes designated on the motor vehicle use maps.

Another handy tool for hunters and recreationists to use is the Avenza map app on your smart device. Avenza is a free mapping app to which the USFS publishes their motor vehicle travel maps. Download Avenza (It's free!) then go to the store in the app and search for the USFS district motor vehicle use map for the area that you want to visit, download the map (It's free!), and that's it, you're done.

One really handy feature of the Avenza app is that once you open your map, the GPS on your device will track your location on the map in real time, even if you don't have cell service. You will appear on your map as a blue dot. This is in addition to tracking your actual GPS coordinates.

Each year when the USFS updates the travel maps, you will be able to open your map and it will give you a notification that there is an updated version available. Download the updated version, and it will replace your map with the most current version. With this app you will never have to worry about whether you are traveling somewhere that you are not supposed to be.

Enjoy your hunting season and hopefully this information helps everyone stay safe and legal!

AS TENGI DESCENDS INTO THE LAIR OF THE LIZARD-MEN, THE SCENT OF DECAY GROWS EVER STRONGER.

AT THE STENCH, MEMORIES SWIRL IN HORRIFYING CLARITY.

HER SISTER SCREAMING...

SCREAMING AS SHE WAS TAKEN AWAY, NEVER TO RETURN...

SCREAMING!! AHHHHK

JUST A GRAKKEL... LOST MY NERVE ON ACCOUNT OF A STUPID CAVE BIRD.

SUPPENLY, TENGI REALIZES SHE IS NOT ALONE.

IN THE PARKNESS SHE HEARS THEM SLITHER EVER CLOSER... SURROUNDING HER.

THERE IS TIME FOR A STIFLED SCREAM... THEN ALL IS SILENT.

- Candy, candy and more candy. Halloween is just around the corner, and some of us like to offer a non-candy alternative to our door-knocking ghouls and goblins. Here are three that I have been successful with: pencils, erasers and glow sticks/bracelets. – JoAnn
- Post-Halloween sales are a great time to pick up imagination-stimulating accessories and outfits for the dress-up bin.
- "Young children often love the act of pumpkin carving, but apart from letting them scoop out the seeds (which is FUN), there's not a safe way to let them help with the cutting. I recommend purchasing a small pumpkin for the little ones to decorate with markers or paint." – W.F. in South Carolina
- "Baby lotion is great to have around on Halloween, because it can be used to remove face paint. Masks can restrict children's vision when trick-or-treating, so face paint is a better way to go. Use a washcloth and baby lotion to get that paint off quick." – A.V. in Oregon
- Choose a battery-powered candle for your carved jack-o'-lanterns. You can leave it on longer, even when you aren't home. And it's much safer than a true flame.
- "Give any costume that your kid wants to wear for Halloween the 'dance test.' Have him or her put on the costume and dance around. If the child is tripping over the hems or the accessories are cumbersome, a change is in order." – M. in Michigan

Hunter Check Stations, CWD Sampling Stations Ready For General Season

— Montana Fish, Wildlife & Parks —

HELENA – Big game hunter check stations will be in operation across Montana beginning this weekend and continue through the general rifle season.

General big game season runs from Oct. 22nd through Nov. 27th.

Hunters must stop at check stations that they pass, even if they have not harvested any animals. For hunters without game, the check station process will be very quick and simple.

Additionally, in northwestern, northcentral, southwestern and southcentral Montana, FWP will be operating CWD sampling stations.

Having your animal sampled for CWD is voluntary. For more information on CWD, please look online at fwp.mt.gov/cwd.

Cat Owner Defends Free-Range Felines

DEAR PAW'S CORNER: As an owner of six indoor cats, I would like to respond to your recent article ("Cats shouldn't get free pass to poop"). In the past two years we have had to pay over \$300 for damage done by chipmunks to our car. We cannot have a raised garden here due to rabbits, groundhogs, deer and chipmunks.

When my cats used to be outdoors, I saw very few birds killed by them. Generally, it was mice and moles. My cats would kill snakes and scare off the squirrels.

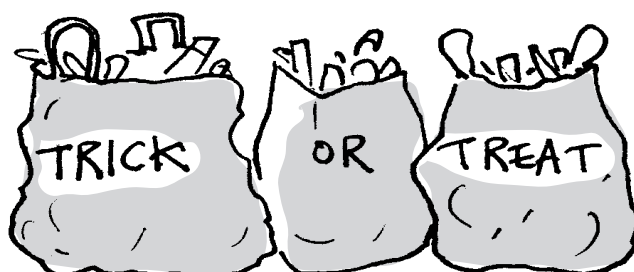

I brought my cats indoors because of coyotes in the area. Also, one of my cats was attacked by a neighbor and had to be put to sleep.

If there were no cats, you would be totally overrun by mice and rats. How would you like that? I suggest that you print this letter, that you do not shorten it, that you apologize for what you said about cats and that you think twice before you put something like this in writing again. Thank you. — *Debra in West Virginia*

DEAR DEBRA: I will apologize ... for shortening your letter, as we have limited space. You raise many good points based on your personal experience. Cats do keep many rodents at bay, because they are incredibly good hunters. But they are at grave risk being outdoors, from coyotes, from feral cats carrying diseases and from humans who do evil, foul things.

The article that offended you raised many good points about the damage that outdoor cats can do to neighbors' property, and the danger they pose to small creatures. I'm glad you're keeping your cats safe indoors. Doesn't your experience prove the point that cats are safer inside?

Send your comments, questions or tips to ask@pawscorner.com.

Tropical Mango Smoothie

Paradise in a glass. Make it with a firm, ripe banana for best flavor.

- 1/2 cup pineapple juice, chilled
- 1 cup diced mango
- 1 banana, sliced
- 2 teaspoons fresh lime juice
- 1/2 teaspoon grated, peeled fresh ginger
- 3 ice cubes

In blender, combine pineapple juice, mango, banana, lime juice, ginger and ice and blend until mixture is smooth. Pour into a tall glass.

HOW WE MAKE THE PERFECT PELLET...

The process begins with **RECYCLED** tree by-products.

Only the highest quality, **PREMIUM SELECT** wood shavings & sawdust are used

Next, the shavings go through a series of augers which chops them into smaller sawdust...

This allows the sawdust to more efficiently go through **THE DRIER**

At this stage, **MOISTURE** is driven from the wood fiber to ensure clean, consistent, hot burning pellets, that far exceed industry standards.

Through heat and pressure, **100% NATURAL** wood fiber is formed into a Super Premium Wood Pellet

RESULTING IN...

THE PERFECT PELLET!

BENEFITS:
Less than half the ash of others means less mess!
Low moisture content means much higher BTU output!

Traps, Snares And Pets Can Be A Bad Combination

— Idaho Dept. of Fish & Game —

Fish and Game provides resources that show pet owners how to spot and avoid trap sets, and how to release their pet if it becomes trapped

With many trapping seasons opening in October, upland game bird hunters and other folks recreating with off-leash pets are reminded to avoid traps and be prepared to act quickly in the event their hunting or hiking companion becomes trapped.

Most traps and snares are simple in design and easy to operate if you know what to do. Some of the larger foothold and body-gripping traps can be challenging because they require more effort to open, but the principles are the same.

Fish and Game provides information on how to spot and avoid traps, and what to do if a pet gets caught. Both videos and brochure are available online.

While traps and snares are rarely encountered by bird hunters, many areas in Idaho have trapping seasons that overlap with upland game bird seasons.

To determine if and when trapping seasons are open in the area they are hunting, upland bird hunters can find wolf trapping season dates in the Idaho Big Game Seasons and Rules booklet, and other fur-bearer trapping season dates in the Idaho Upland Game, Turkey and Furbearer 2022-23 Seasons and Rules booklet.

Trappers are advised to avoid conflicts by closely following all rules and regulations, including not setting traps close to popular trails, trailheads or areas where people commonly frequent. Trappers are also encouraged to post warning signs near their trap lines to inform recreationists that traps or snares are in the area, which you can download and print from Fish and Game's website.

Hunting season in Idaho is already warming up. As the weeks go by we will make the final preparations for fall, hunters often find themselves asking critical questions like "Is my rifle or bow sighted in?" "Are my good knives still in my pack?" "Where did I put my tags" "Where am I going to set up camp this year?" "Which wall am I going to put the antlers on?"

Undoubtedly, most of us will have mulled over these questions many times before we head into the hills. With so much to think on, it is pretty easy to forget something along the way to hunting camp. Even if we cover all the bases before our hunt, there's a whole other checklist when the time comes to notch a tag. The excitement of success alone might cause a few of us to miss an item or two on that list, like leaving a good pair of binoculars sitting in the woods.

Regardless of their excitement or exhaustion, one item on the post-harvest checklist that hunters should never forget to check off is to remove the tenderloins when field dressing the animal they harvested. While a forgotten pair of binoculars might mean one more trip up the mountain, a forgotten pair of tenderloins could cost you a trip to the courthouse.

Part of being a responsible hunter is making sure to follow the rules laid out in the hunting regulations. These are not just guidelines. The hunting regulations are the rules for hunters, which are set and enforced under Idaho state law. One of these laws specifically pertains to which portions of meat a hunter is required to retrieve from harvested big game animals. You can read up on the official state

law here: Section 36-1202 – Idaho State Legislature. In Idaho, hunters are required to take all meat from the front and hind quarters down to the knee/hock and the meat running along the top and underside of the backbone. These portions are commonly called the backstraps and tenderloins.

Every year, Idaho Fish and Game officers respond to dozens of cases involving wasted big game animals. Most of these incidents are a result of either lack of preparation or simple forgetfulness. No matter the intent, the outcome is the same as the individual who does it on purpose and the same consequences come into effect. Any individual who is found or pleads guilty to waste of game is subject to the misdemeanor penalties for wasting the particular animal involved. The penalties include a fine set by a judge up to \$1,000, a civil penalty of \$400 for deer or \$750 for elk and the possibility of losing hunting privileges for up to three years.

Sitting on the sidelines watching your family and friends go hunting for three years is a hefty price to pay. To avoid making this mistake, it is best to familiarize yourself with the anatomy of the animals you are hunting and brush up on field dressing techniques to make sure it is done correctly. If done properly, retrieving all portions of edible meat takes little time and results in more, cleaner and better tasting food on the table. Browsing the internet for field dressing videos will provide a great deal of resources to help get experience in this critical part of the hunt. You may also find a few videos on the Idaho Fish and Game website here.

In recent years more hunters have been choosing to use the "gutless method" to process animals in the field. While this circumvents the task of removing the stomach and other internal organs, hunters must be extra cautious to make sure they retrieve what is required by law. The "gutless method" is a quick way to remove the four quarters and backstraps off a downed animal. It is also more suitable for those long hikes out of the back-country by reducing unnecessary weight. But if done improperly or with haste, it is easy to leave large portions of meat, or forget about the tenderloins, resulting in a violation. Once again there are many "how-to" videos to be found online, and another summary can be found on the Fish and Game website here.

However you decide to process your game in the field this year, the most important thing is to take your time and be thorough. Just like triple checking before leaving home that all of the gear makes it into the truck, taking care of a harvested animal is a critical part of the hunt. Happy hunting this coming season, good luck out there and remember the tenderloins!

Interested in winning prizes for fishing? The Lake Pend Oreille Angler Science Program might be for you!

— Idaho Dept. of Fish & Game —

Anglers on Lake Pend Oreille can enter to win prizes by participating in an Angler Science Program for rainbow trout (also called Gerrards or Kamloops)

If you have spent much time fishing on Lake Pend Oreille, then maybe you've been lucky enough to catch a monster rainbow trout. If not, you've likely seen pictures of the truly impressive fish that reside there.

In recent years, Lake Pend Oreille has been producing more rainbow trout over 20 pounds than anywhere else on Earth! This world-class trophy fishery is firing on all cylinders right now, and Idaho Fish and Game is working hard to keep it that way.

To effectively manage this trophy fishery, Fish and Game monitors the rainbow trout population and angler fishing success; however, it's hard to get all the information we need through traditional fish survey methods.

Anglers, this is where you come in - we need your help! Fish and Game is inviting fisherman to participate in an Angler Science Program where we work together to gather information that will help us manage the trophy rainbow trout fishery.

The Lake Pend Oreille Angler Science Program is comprised of anglers who help Fish and Game collect monitoring data for fish in LPO, mainly through completing logbooks and reporting tagged fish.

To-date, we have learned some important information from the Angler Science Program. For example, we learned that 17% of the fish caught in 2021 were larger than 30 inches, compared to only 7% in 2020.

To sweeten the deal, you can win great prizes by participating in the program!

What you can win

By participating in the program, you will receive a custom Lyman lure and sticker. In addition, you will

be entered into a free raffle for the following prizes:

- Yeti Tundra 45 coolers
- Bubba electric filet knives
- Work Sharp electric knife sharpeners
- Custom RTIC 20 ounce tumblers
- Custom hats

How you can participate

Complete a fishing logbook – Anglers must record information while fishing for rainbow trout on Lake Pend Oreille during two time periods that coincide with local fishing derbies.

- Nov. 2-6 the Lake Pend Oreille Angler's Club is hosting its Fall Derby
- Nov. 19-27 the Lake Pend Oreille Idaho Club is hosting its Thanksgiving Derby

There will be a free raffle associated with each time period for participants who submit their logbooks by Dec. 10.

Rules for the raffle are the same as last year, but logbook pick-up locations have changed. Logbooks will be included with the purchase of all derby tickets. If you are not participating in a derby, don't worry. Free logbooks can be picked up at the Panhandle Regional office at 2885 W Kathleen Ave in Coeur d'Alene. For full details, check out this link.

Report tagged rainbow trout –To better understand rainbow trout catch rates, harvest rates and survival rates, Fish and Game is conducting a tagging study in Lake Pend Oreille.

If you're fishing on Pend Oreille, please keep your eye out for tags located in the backs of rainbow trout. Each tag has a unique number printed on it, as well as a phone number, URL and reward value (on select tags only).

Tags can carry a reward value of \$25, \$50, \$100 or \$200, so cross your fingers and hope you catch that reward fish!

If you see a tag, please report the tag number and location of where you caught the fish to Fish and Game.

For full details on the tagging study and how you can participate, check out idfg.idaho.gov/sites/default/files/rbt_logbook_poster-ad_2022-10-6-22.pdf

For more information on fisheries in Lake Pend Oreille, check out idfg.idaho.gov/LPO.

Please contact the Panhandle Regional office at (208) 769-1414 if you have any questions or would like to learn more about the Angler Science Program on Lake Pend Oreille.

Follow us on the Panhandle Region Facebook page for regular updates and news.

Moments in time

THE HISTORY CHANNEL

- **On November 2, 1862,** Mary Todd Lincoln wrote to her husband about the public sentiment against General George B. McClellan's cautious command, saying people "would almost worship you if you would put a fighting general in the place of McClellan." The president followed her advice.
- **On November 1, 1941,** Ansel Adams shot a picture of a moonrise over Hernandez, New Mexico, that would become one of photography's most famous images. Adams made more than 1,300 prints of it during his career including one that sold at a Sotheby's auction for \$609,600 in 2006.
- **On October 31, 1955,** out of loyalty to the crown, England's Princess Margaret announced she would not marry Group Captain Peter Townsend. His divorced status would have forced her to give up her royal title, Civil List allowance, and place in the line of succession to the throne.
- **On November 3, 1960,** Congress passes an act creating the Great Swamp National Wildlife Refuge. Morris County, New Jersey, residents and the Port Authority of New York and New Jersey wanted to turn the swamp into a regional airport.
- **On November 4, 1985,** Soviet defector Vitaly Yurchenko announced his return to the Soviet Union, claiming he'd been kidnapped by the CIA. Yurchenko was awarded the Order of the Red Star by the Soviet government for the successful "infiltration operation."
- **On November 5, 1995,** Cleveland Browns owner Art Modell announces officially that he is moving the team to Baltimore. Months later, the NFL allowed Modell to move the team, but he had to give up rights to the Browns name.
- **On November 5, 2003,** Jarome Iginla of the Calgary Flames, one of just 20 players in NHL history to score 600 goals, became the first Black player in the NHL to become captain. The previous year, Iginla was the first Black man to win gold in the winter Olympics when Canada beat the U.S. at hockey in Salt Lake City.

Horses

— Vivian E. Bogardus —

I had two horses,
when I was a kid...

one named Sally,
one named Sid.

I bounced in the saddle,
and played in the hay...

one horse was black,
the other was gray.

Now my hair is white,
what more can I say?

Hi Yo Silver and
Away!

I'm riding the trail,
my stride will not fail...

GO Rockin' chair!

But watch the cats' tail!

Rockin' and Rollin',

but don't go anywhere...

Home on the Range...in my old rockin' chair!
