User Notes:

- 1) Plant species not listed are considered UPL for wetland delineation purposes.
- 2) A few UPL species are listed because they are rated FACU or wetter in at least one Corps region.
- 3) Some state boundaries lie within two or more Corps Regions. If a species occurs in one region but not the other, its rating will be shown in one column and the other column will be BLANK.

Approved for public release; distribution is unlimited.
