Next Meeting Wednesday 4th September at the Dougherty Community Centre, 7 Victor St, Chatswood. The main meeting commencing at 8.00pm, and the culture class starting at 7.30pm.

Culture Class and **Guest Speaker**. Our guest speaker this month is David Hemmings a very well known Australian Native Orchid grower. David will be conducting the Culture Class prior to our main meeting then after our supper break he will be conducting the main talk on growing Australian hybrids and species. He will be telling us how he grows his orchids and all about fertilizing and watering and repotting, I suggest you take lots of notes as his advice is invaluable.

New member, a special welcome to our new member Anthony Mobbs, please make him feel at home and help him sort out the finer points of our society. We hope you have a long and happy stay with us.

Supper Roster Thanks to this month's helpers **Trish Peterson**, **Cynthia Harrison** and **Judith Barry**, and remember if you like to have something with your coffee or tea why not bring a plate of nibbles.

NORTH SHORE'S SPRING SHOW

We are about to have our last society show of the year. It is our Spring Show which we hold at the St Ives Shopping Village, St Ives. The set-up is on Thursday night (next night after our meeting) 5th September with the pull-down on Sunday 8th September. Attached to this bulletin is a show schedule and a list for you to fill in with your show plants. This list is necessary as we do not judge plants beforehand in their classes so we do not need class cards, but they are judged in the display so we need the lists filled in with your plant name and the class they are to be judged in. Again we need any Australian orchids that are going on the sale table to have an accompanying list and have the special labels in them. We are asking for your support when the roster goes around at our next meeting and for your plants for the display, please help.

DATES TO PUT IN YOUR DIARY

North Shore's dates

Spring Show at the St Ives Village Shopping Centre, Mona Vale Rd, St Ives

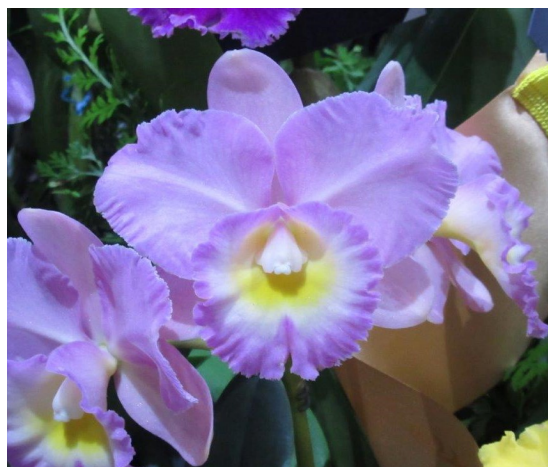

The set-up is on Thursday evening 5th September with the show being open on Friday 6th to Sunday 8th September; pull down will be at 3pm on Sunday 8th.

Other dates

Southern Orchid Spectacular 11th – 13th October Fri & Sat 9.30-4pm & Sun 9.30-2pm. Note it is being held at a new venue, **SUTHERLAND BASKETBALL STADIUM**, in the Waratah Park Reserve, Old Princes Highway, Sutherland. This will be your last chance this year to buy a few more orchids and any unusual supplies that you need.

Thank you to helpers

This year as a way of saying thank you to the members who help out at the shows, each volunteer will have their name put in a special raffle with one entry for each show which they helped at. The raffle will be drawn at the North Shore Christmas meeting with two members winning a prize. As we still have one more show to go this year putting your name on the roster to help will give you a chance to win. Committee members will not be included in the draw.

Congratulations to Bruce Wood who was granted an FCC/NSW with his plants of *Rlc.* Lakehaven Pearl 'Colleen' at North Shore's August meeting.

Gomesa crispa

It is not difficult to understand why this orchid is not common in cultivation because to view a small plant in flower is nothing to get excited about.

The growth is similar to many *Oncidium* or *Odontoglossum* species, the inflorescence which emerges from the base of the new pseudo bulb, is about 15-25 cm. in length with a row of small yellow/green flowers which persist for about 3 weeks. The plant however, if allowed to grow into a specimen, which it does quite quickly, will reward its owner with a massive flowering which can be spectacular. I have seen one in a 20cm. pot with over 30 inflorescences on it, and they all flower at once. We have grown both *G. crispa* and *G. recurva* and strongly advise novice growers to obtain and grow on these orchids. Both species flourish in a bark mix in cool/intermediate conditions under bright light always remembering to pot on not re-pot for the most rewarding results.

From the 16th – 18th August the annual St Ives Orchid Fair, a joint effort by four local societies ANOS Warringah Group, Ku-ring-gai Orchid Society, Manly Warringah Orchid Society and the North Shore Orchid Society was held at the St Ives showground. This Fair has proved to be a very popular show, with large numbers of the public attending to look at the spectacular displays of colourful and exotic orchids, as well as to purchase from the extensive range of orchids and orchid related products that were available from local and interstate nurseries. Although orchid growers have been complaining about the flowering this year, both the Grand Champion and Reserve Champion had FCC awards and during the show four more awards were granted. A truly spectacular event.
