

| Scientific Name | Additional Detail | Description | Conservation | Location |
|------------------------------------|--------------------------------|---|---------------|-------------------------|
| Acacia consobrina | Watercourse Wattle | Fast growing low spreading/weeping shrub 1m x 2.5m. Masses of yellow flowers Jun-Sep that attract bees. Suits clayey soils both with loam or sand in full sun/part shade. | | Esperance Plains |
| Acacia lasiocarpa | Dune Moses or Panjang | Attractive compact shrub to 60cm. Bright yellow flowers Jun-Oct. Well drained soil in open sunny location. Suitable for coastal gardens and limestone areas. Hardy. | | Perth Coastal |
| Acacia merinthophora | Zig-zag Wattle | Beautiful ornamental weeping shrub to 3m. Yellow flowers May-Sep. Attractive zig-zag arrangement of the phyllodes. Well drained soils in full sun. Ideal for floral arrangements. Specimen plant. | | Avon Wheatbelt |
| Acacia rossei | Yellowdine Wattle | Erect open shrub to 3m. Very showy dense clusters of golden yellow terminal flowers Aug-Dec. Well drained soils in open sunny location. Prune to shape. Hardy. | | Avon Wheatbelt |
| Alyogyne hakeifolia | | Erect shrub to 3m with thin needle-like leaves. Has large lilac hibiscus like flowers Aug-Nov. Suits most soils including limestone. Prefers full sun. Prune to preferred shape. | | Wheatbelt |
| Androcalva pulchella | | Small shrub 1m x 1m, white-pink flowers Jul to Nov. Sandy and gravelly soils in full sun | | Northern Avon Wheatbelt |
| Anthocercis littorea | Yellow Tailflower | Erect or sprawling shrub to 2m. Unusual large yellow flowers with purple striped throat Aug-Oct. Suits full sun/part shade in coastal limestone, dunes and sandplains. | | Coastal |
| Anthocercis viscosa subsp. viscosa | Sticky Tailflower | Straggly large leaved viscid shrub to 2m. Large white/cream flowers Aug-Oct. Prefers well drained soils in full sun/part shade. Tolerates coastal conditions. | | Albany |
| Astartea scoparia | Common Astartea | Erect open shrub to 1.8m tall. Masses of small white flowers Nov-Jan. Suits most soils in full sun to part shade. Suitable for bog garden. Tolerates winter-wet. Prune for shape. | | Perth Metro |
| Babingtonia grandiflora | Large-flowered Babingtonia | Spreading open shrub to 1.2m. Sprays of white-pink flowers Aug-Dec. Prefers well drained soils in full or part sun. Prune to shape after flowering. | | Geraldton Sandplains |
| Baeckea sp. Limestone | | Robust upright shrub to 1.5m. Masses of white flowers Jun-Dec. Prefers well drained soils in full sun/part shade. For open sunny gardens. Hardy. Trim after flowering. Limestone tolerant. | Priority 1 | Perth Metro |
| Baeckea subcuneata | | Colourful spreading shrub to 1.8m. Masses of pink flowers Aug-Nov. Prefers well drained soils in full sun/part shade. Suits raised beds or open gardens. | Priority 2 | Geraldton Sandplains |
| Beaufortia anisandra | Dark Beaufortia | Densely branched rounded shrub to 1m. Terminal clusters of dark red flowers Oct-May. Well-drained soils in full sun/part shade. Suits rockeries and raised beds. Bird attracting. | | Esperance Plains |
| Beaufortia bracteosa | | Colourful small shrub to 80cm. Bright red flowers Aug-Dec. Prefers well drained soils in full sun. Suits open garden beds. Tip prune to shape. Drought tolerant. | | Avon Wheatbelt |
| Beaufortia cyrtodonta | Stirling Range Bottlebrush | Dense leaved shrub to 1.5m. Striking red flowers Sep-Nov. Suits full sun/part shade in sandy, lateritic or rocky clay soils. Bird attracting. | | Stirling Range |
| Beaufortia elegans | Elegant Beaufortia (Red) | Upright rounded shrub to 1m x 1.2m. Profuse red flowers Aug-Feb. Well drained soils. Full sun/part shade. Will tolerate winter-wet. Hardy. | | Ex Moyles |
| Beaufortia orbifolia | Ravensthorpe Bottlebrush | Attractive upright shrub to 2m. Unique red bottlebrush flowers Aug-Dec. Suits most soils in full sun. Suits open garden beds. Tip prune to shape. | | Esperance Plains |
| Billardiera lehmanniana | Kurup | Colourful spreading shrub <60cm or climber to 1.2m if given support. Masses of white flowers Aug-Dec. Most soils in full sun/part shade. Suits raised beds and pot culture. | | Esperance Plains |
| Boronia clavata | | Upright slender shrub to 1.5m. Small delicately perfumed, bell-shaped yellow-green flowers Aug-Oct. For most soils. Suitable for pot culture, borders and damp areas. | Declared Rare | Esperance Plains |
| Boronia dichotoma | | Erect, slender perennial to 75cm. Stunning dark pink flowers Aug-Dec. Prefers wetter soils in full sun/part shade. Suits edge of bog garden/winter-wet areas. Prune for more flowers. | | Perth Metro |
| Bossiaea preissii | | Open, upright prickly shrub to 1m, stunning when in flower. Red pea flowers Jun-Nov. Well drained soils in full sun/part shade. Suitable for containers or smaller gardens. | | Esperance Plains |
| Callistemon phoeniceus | Lesser Bottlebrush | Colourful large shrub to 3m. Stunning scarlet red flowers Sep-Jan. Suits most soils in full sun. Good for screening. Tolerates moist conditions. Bird attracting. | | S.W. |
| Calothamnus lateralis | | Upright shrub to 1.5m with long needle-like leaves and dark red flowers Sep-Dec. Suits clay, loam or sandy soils in part shade. Benefits from summer watering. | | Jarrah Forest |
| Calothamnus quadrifidus | One-sided Bottlebrush (Yellow) | Upright shrub to 2m. Unusual yellow-flowered form, flowers Jun-Dec. Suits most soils in full sun. Hardy. Bird attracting. Limestone tolerant. | | Cultivar |
| Calytrix chrysantha | | Very attractive shrub to 1.3m with deep green foliage. Bright yellow starflowers Dec-Feb. Prefers well-drained soils in full sun. Good container plant. | Priority 4 | Geraldton Sandplains |
| Calytrix leschenaultii | | Colourful upright shrub to 80cm. Profuse purple flowers Jun-Nov. Well drained soil in full sun/part shade. Ideal for pot culture and small gardens. Tip prune after flowering. | | S.W. |

| | | | | |
|---|------------------------------------|---|------------|----------------------|
| Calytrix sp. | Yellow | Spectacular small shrub to 60cm. Stunning yellow flowers Aug-Oct. Well drained soil in full sun. Ideal for feature areas in the garden. Also suits pot culture. | | W.A. |
| Calytrix strigosa | Arrowsmith Starflower | Colourful semi-prostrate shrub to 60cm. Mauve pink flowers Aug-Jan. Well drained soils in warm sunny position. Suits pot culture and small gardens. | | North Sandplains |
| Chamelaucium axillare | Esperance Waxflower | Erect open shrub <1.2m. Waxy white flowers ageing to red Sep-Dec. Prefers well drained soils in full sun. Suits pot culture . | | W.A. |
| Chamelaucium ciliatum | Cascade Rd form | Small upright shrub <1m. Long lasting waxy white flowers Jan-Dec. Well drained soils in full sun. Tip prune regularly. | | Esperance Plains |
| Chamelaucium drummondii subsp. Carnamah | | Striking upright shrub to 1m. White wax flowers turning pink/red Aug-Oct. Prefers well drained soils in full sun with a bit of soil moisture. Suits pot culture. | | Carnamah |
| Chorizema cordatum | Heart-leaf Flame Pea | Erect, straggly shrub to 1.2m. Stunning orange/pink flowers Jul-Dec. Prefers well drained soils in full sun/part shade but needs extra moisture. Tip prune for shape. | | Perth Hills |
| Chorizema diversifolium | Climbing Flame Pea | Colourful trailing/twining groundcover or climber to 1m. Pink, orange, red and yellow flowers Aug-Dec. Suits most soils in full sun to part shade. Limestone tolerant. | | S.W. |
| Cooperhooia polygalacea | | Compact dense shrub <60cm. Colourful mauve flowers Aug-Nov. Prefers well drained soils in full sun/part shade. Suits pot culture. Prune after flowering. | | Esperance Plains |
| Cyathostemon sp. | | Hardy small shrub to 1m. Masses of white flowers Oct-Dec. Prefers well drained soils in full sun/part shade. Suitable for raised beds or pot culture. | | Avon Wheatbelt |
| Dampiera decurrens | | Stiff robust perennial to 80cm. Masses of purple-blue flowers Sep-Jan. Well drained soils in full sun/part shade. Ideal for borders, rockeries and pots. | Priority 2 | Esperance Plains |
| Dampiera lavandulacea | Blue | Spreading shrub to 90cm. Masses of blue flowers Jul-Nov. For most soils in full sun to part shade. Damp tolerant. Suits edge of bog garden. | | S.W. |
| Dampiera linearis | Common Dampiera | Suckering groundcover to 30cm, slowly spreading to 1m wide. Blue-purple flowers May-Nov. Suits most soils. Full sun to part shade. | | Perth Metro |
| Dampiera loranthifolia | | Spectacular mounding perennial to 40cm. Masses of dark blue flowers May-Jan. Well drained soils in full sun/part shade. Ideal for borders, rockeries, pots and baskets. | | Esperance Plains |
| Darwinia neildiana | Fringed Bell | Interesting dwarf shrub to 60cm. Nodding heads of burgundy flowers Aug-Dec. Prefers well drained soils in full sun/part shade. Suitable for raised beds and pot culture. | | Lesueur Sandplains |
| Darwinia oldfieldii | Oldfield's Darwinia (Pink) | Small spreading shrub 60cm x 1m. Grey foliage with showy pink flowers Aug-Nov. Prefers well drained soils in full sun. Suitable for open sunny gardens. Hardy. | | Geraldton Sandplains |
| Darwinia pauciflora | | Open to bushy shrub to 1.5m with terminal clusters of white/pink flowers May-Oct. Suits well drained sandy soils in full sun/part shade. Prune to promote bushy form with more flowers. | | Geraldton Sandplains |
| Darwinia pinifolia | | Low spreading to prostrate shrub 50cm x 80cm. Striking red flower clusters Sept-Dec. Prefers well drained sandy or loamy soils in full/part sun. Summer watering required. | | Geraldton Sandplains |
| Darwinia polycephala | | Open shrub to 50cm. Abundant red-purple flowers Mar-Sep. Suits most soils in full sun. Ideal for pot culture and small gardens. | Priority 4 | Eastern Mallee |
| Diplolaena angustifolia | Yanchep Rose | Attractive compact shrub to 1.5m. Showy red-orange flowers Jun-Oct. Suits most well drained soils in full sun. Good for coastal limestone. | | Perth Coastal |
| Diplolaena dampieri | Southern Diplolaena | Attractive robust shrub to 1.5m. Showy red-orange flowers Jul-Nov. Well drained soils in full sun/part shade. Good for coastal limestone. Prune to shape. Hardy. | | Perth Coastal |
| Diplolaena leemaniana | | Dense spreading shrub to 1.5m. Attractive pendulous red & yellow flowers Jul-Oct. Well drained soils in full sun/part shade. Good for coastal limestone. Prune to shape. Hardy. | | Geraldton Sandplains |
| Diplolaena microcephala | Lesser Diplolaena | Dense spreading shrub to 1.5m. Attractive pendulous small red/yellow flowers Jul-Dec. Suits well drained soils in full sun/part shade. Prune to shape. Hardy. | | Esperance Plains |
| Disphyma crassifolium | Round-leaved Pigface / Noon-flower | Succulent groundcover to 20cm x 1m. Pink/purple flowers Aug-Feb. Leaves turn red. Suits all soils. Full sun. Drought, salt and lime tolerant. Very hardy. | | Wheatbelt |
| Dodonaea concinna | | Erect fine-leaved shrub 0.5-2m. Attractive foliage and conspicuous red fruits late spring/summer. Suits most soil types in full sun to part shade. Hardy. | | Esperance Plains |
| Eremaea pauciflora | Orange-flowered Eremaea | Attractive compact shrub to 1.2m x 1.2m. Prolific orange flowers Jul-Jan. Suits most well drained soils in full sun. Lightly prune after flowering. | | Perth Metro |
| Eremophila adenotricha | Glandular-haired Eremophila | Upright compact shrub with unusual sticky and hairy leaves to 1m. Purple/mauve tubular flowers Aug-Nov. Prefers well drained soils with some clay in full sun/part shade. | Priority 1 | Merredin |
| Eremophila arachnoides subsp. tenera | | Broom like shrub to 2m with slender leaves and lilac-blue flowers Aug-Dec. Prefers well drained soils in full sun. Hardy. | | Goldfields |

| | | | | |
|------------------------------------|----------------------------------|--|---------------|----------------------|
| Eremophila denticulata | Toothed Eremophila | Colourful upright shrub to 2m. Bright red/pink flowers Aug-Feb. Most soils in full sun/part shade. Fast growing. Hardy. Bird attracting. Prune regularly to shape. | | Esperance |
| Eremophila dichroantha | Bale-hook eremophila | Small / med erect broom-like shrub, 0.6-3 m high. Small blue-purple (occasionally white) flowers Aug to Nov. Adaptable to most soil types. | | Eastern Goldfields |
| Eremophila georgei | | Erect open shrub with serrate leaves to 0.6-3m. Purple/blue flowers Mar-Dec. Prefers well drained soils in full sun. Drought tolerant. | | Gascoyne |
| Eremophila gilesii | Desert Fuchsia | Delightful spreading shrub to 1m. Blue-purple flowers Mar-Nov. Well drained soils. Full sun to part shade. Hardy. Tip prune regularly. | | W.A. |
| Eremophila glabra subsp. Junana | | Spreading shrub to 1m. Tubular orange-red flowers Aug-Oct. Suits most well drained soils in part or full sun. Prune to shape. | | Esperance |
| Eremophila glabra subsp. carnososa | Leeman form (Red) | Small spreading shrub 1.2m x 0.75m. Grey-green foliage. Red flowers May-Jan. Suits well drained soils, coastal sands and limestone. Best in full sun. | | Geraldton Sandplains |
| Eremophila glabra x decipiens | | Attractive spreading shrub to 60cm x 1m. Red flowers for most of the year. Most well drained soils in full sun. Hardy. Bird attracting. | | Cultivar |
| Eremophila glabra | 'Dawes' | Vigorous shrub with grey/green foliage 80cm x 1m. Bird attracting orange/yellow flowers Apr-Oct. Prefers well drained soils in full sun/part shade. Prune to shape. | | Cultivar |
| Eremophila glabra | 'Mingenew Gold' | Highly floriferous prostrate groundcover to 30cm x 2m. Tubular yellow flowers Oct-Jun. Most well drained soils in full sun. Very hardy. | | Mingenew |
| Eremophila laanii | | Colourful spreading shrub <2m. Pink flowers Jun-Dec. Suits most well drained soils in full sun/part shade but tolerates damp soils. Can be pruned heavily. Bird-attracting. Hardy. | | Murchison |
| Eremophila pinnatifida | Dalwallinu Eremophila | Compact shrub 60cm-1m high. Pale purple flowers Aug-Jan. Well drained soil in full sun/part shade. Hardy. Tip prune regularly. | Declared Rare | Wheatbelt |
| Eremophila racemosa | Showy Eremophila | Attractive upright shrub to 1.5m. Purple, pink, red flowers Aug-Dec. Well drained soils in full sun. Bird attracting. Prune after flowering. | Priority 4 | Southern Wheatbelt |
| Eremophila scaberula | Rough Emu Bush | Delightful spreading heath-like shrub 30-75cm high. Purple-blue flowers Aug-Oct. Well drained soil in full sun/part shade. Hardy. | Declared Rare | Wheatbelt |
| Eremophila splendens | Splendid Eremophila | Erect open shrub to 1m+. Spectacular display of red flowers Sep-Nov/Dec. Suits most soils in full sun. Limestone tolerant. Bird attracting. Tip prune regularly. | Priority 1 | Shark Bay |
| Eremophila ternifolia | Wongan Eremophila | Low much branched shrub to 50cm and 1m wide. Blue flowers Aug-Nov. Likes open spaces in full sun but tolerates some shade. Suits red clay or sandy soils. | Declared Rare | Wongan Hills |
| Eremophila weldii | Purple Emubush | Spreading compact shrub 50cm x1m. Lilac flowers Jun-Dec. Suits all soils, especially limestone. Full sun/part shade. Can be pruned hard. Drought tolerant once established. Hardy. | | Esperance Plains |
| Eremophila youngii | | Highly floriferous erect shrub to 3m+. Attractive dusky pink flowers Jan-Oct. Will suit most soils in full sun. Drought and limestone tolerant. | | Gascoyne |
| Eucalyptus forrestiana | Fuchsia Gum | Colourful-fruited mallee to 6m. Red capsules and yellow flowers Jan-Mar. Prefers well drained soils in full sun. Small shade tree. | | Esperance Plains |
| Eucalyptus kingsmillii | Kingsmill's Mallee | Very ornamental mallee 2-6m high. Attractive large pale yellow to pink-red flowers Apr-Sep. Prefers well drained soils in full sun. Drought tolerant. | | W.A. |
| Eucalyptus synandra | Jingymia Mallee | Graceful spreading mallee <5m. Stunning cream to pink flowers Sep-Mar. Suits most soils in full sun. Hardy. | Declared Rare | Goldfields |
| Eucalyptus youngiana | Large-fruited Mallee | Colourful small mallee or tree to 3m. Large stunning red flowers Jun-Oct. Suits most soils in full sun. Drought tolerant. | | Murchison |
| Frankenia confusa | | Colourful low shrub to 75cm. Pink and white flowers Sep-Oct. Well drained soils in full sun. Suits raised garden beds. Salt Tolerant. Hardy. | Priority 4 | Murchison |
| Goodenia scapigera | White Goodenia | Attractive erect perennial to 80cm. White flower spikes Aug-Dec. Well drained soils in full sun/part shade. Suits pots or open gardens. Hardy. | | S.W. |
| Grevillea bracteosa | Bracted Grevillea | Open shrub to 1.8m. Pink flowers Aug-Dec. Suits most soils in full sun/part shade. Bird attracting. Hardy. Prune lightly after flowering. | | Geraldton Sandplains |
| Guichenotia macrantha | Large Flowered Guichenotia | Attractive shrub to 1.2m. Purple/pink flowers May-Sep. Suits most well drained soils in full sun/part shade. Limestone tolerant. | | Wheatbelt |
| Hakea francisiana | Grass-leaved / Bottlebrush Hakea | Attractive upright shrub to 5m. Prolific racemes of pink flowers Jul-Oct. Needs well drained soils in full sun. Prune to shape. Bird attracting. Hardy. | | Avon Wheatbelt |
| Hakea minyma | | Attractive upright shrub to 3m. Prolific racemes of white with pink sweetly-scented flowers Aug-Nov. For well drained soils in full sun. Prune to shape. Bird attracting. Hardy. | | Avon Wheatbelt |
| Hakea orthorrhyncha | Bird Hakea | Spreading shrub to 2.5m. Profuse red flowers Aug-Sep. Suits most soils in full sun. Hardy. Bird attracting. | | Murchison |

| | | | | |
|---|---------------------------|---|------------|----------------------|
| Hakea petiolaris subsp. petiolaris | Sea-urchin Hakea | Ornamental rounded shrub <2m. Pink & cream flowers May-Jul. Most well drained soils in full sun. Bird attracting. Hardy. | | Perth Hills |
| Hardenbergia comptoniana | Native Wisteria | Vigorous twining climber to 5m. Masses of purple blue flowers Jul-Oct. Most soils in full sun/part shade. For large gardens, climbing frame or fences. Hardy. | | Perth Metro |
| Hibbertia commutata | | Round multi-stemmed shrub to 60cm. Bright yellow flowers Jul-Nov. Suits well drained soils in full sun/part shade and particularly suitable for lateritic soils. | | Jarrah Forest |
| Hibbertia porongurupensis | | Attractive upright shrub to 1m with grey/green foliage. Large yellow flowers Sep-Nov. Well drained soils in full sun/part shade. Suitable for sheltered locations and raised beds. | Priority 4 | Jarrah Forest |
| Hypocalymma gardneri | | Delightful small shrub to 30cm. Stunning yellow flowers Jul-Sep. Well drained soil in full sun/part shade. Suits raised beds and pot/basket culture. Tip prune after flowering. | Priority 3 | Geraldton Sandplains |
| Hypocalymma phillipsii | | Very ornamental compact shrub to 60cm. Glossy foliage and spicy fragrant white waxy flowers Aug-Jan. Suits most well drained soils in a sheltered location. Butterfly attracting. | Priority 4 | Stirlings |
| Hypocalymma tetrapterum | | Attractive rounded shrub to 40cm. Lacy white flowers Jun-Aug. Prefers well drained soils in full sun/part shade. Suits small gardens and pot culture. Light prune after flowering. | Priority 3 | Dandaragan |
| Kunzea affinis | | Showy upright shrub to 1.5m. Bright cerise pink flowers Aug-Oct. Prefers well drained soils in full sun. Group in open beds for upright impact. | | W.A. |
| Lechenaultia expansa | | Small spreading shrub to 15cm. Terminal heads of blue flowers Oct-Jan. Most soils in part shade. Suits small gardens or pot culture in sheltered location. Also suitable for bog gardens. | | Stirlings / Mallee |
| Lechenaultia floribunda | 'Bellus White' | Colourful compact shrub to 40cm. Attractive white flowers Aug-Dec. Prefers well drained soils in full sun/part shade. Suitable for raised beds, open gardens and pots. | | Geraldton Sandplains |
| Lechenaultia floribunda | 'Jandakot Pink' | Colourful compact shrub to 40cm. Attractive pink flowers Aug-Dec. Prefers well drained soils in full sun/part shade. Suitable for raised beds, open gardens and pots. | | Swan Coastal Plain |
| Lechenaultia orchestris | Dancing Leschenaultia | Spreading shrub to 30cm. Beautiful large mauve-blue flowers Oct-Dec. Well drained soils in full sun. Ideal for raised beds or pot culture. | Priority 1 | Mallee |
| Lechenaultia superba | Barrens Leschenaultia | Erect shrub to 50cm. Stunning large red-orange flowers May-Nov. Well drained soils in full sun to part shade. Ideal for rockeries or pot culture. | Priority 4 | Esperance Plains |
| Leptosema aphyllum | Ribbon Pea (Upright form) | Upright spreading shrub to 80cm. Flat ribbon-like foliage with red pea flowers May-Oct. Well drained soils in full sun/part shade. Suitable for rockeries and verges. | | Northern Sandplains |
| Leptospermum erubescens | Roadside Tea Tree | Tall upright shrub to 2m. Colourful white-pink flowers Jul-Nov. Prefers well drained soils in full sun/part shade. Prune regularly to shape. Hardy. | | S.W. |
| Melaleuca cordata | Heart-leaf Honeymyrtle | Attractive shrub to 1.5m. Globular deep pink flowers Sep-Dec. Well drained soils in full sun. Prune to shape after flowering. Suits rockery and pot culture. Bird attracting. | | Avon Wheatbelt |
| Melaleuca filifolia | Wiry Honeymyrtle | Stunning upright shrub to 2m. Brilliant pink flowers Aug-Oct. Suits most soils in full sun. Drought tolerant. Bird attracting. | | Northern Sandplains |
| Melaleuca seriata | | Small spreading shrub to 75cm. Profuse deep pink/purple flowers Sept-Dec. Well drained sandy soils in full sun. Will tolerate some alkalinity. Lightly prune after flowering. | | Perth Metro |
| Melaleuca suberosa | Corky-bark Honeymyrtle | Spreading shrub to 1m. Masses of dark pink/purple flowers Aug-Dec. Well drained soils in full sun. Prune to shape after flowering. Suits rockery or pot culture. Bird attracting. Hardy. | | Esperance Plains |
| Melaleuca systema | Coastal Honeymyrtle | Soft dense shrub to 1.5m. Large yellow pompom flowers Aug-Oct. Most soils in full sun. Ideal for coastal sands and limestone. Trim after flowering. | | Central West Coast |
| Nematolepis phebaloides | | Attractive erect shrub to 80cm with glossy foliage. Tubular red flowers with green tips Mar-Dec. Suits most soils but best in a protected area. Full sun/part shade. Limestone tolerant. | | W.A. |
| Patersonia occidentalis var. angustifolia | Purple Flag | Attractive tussock plant 0.6-1m. Dark purple flowers Sep-Nov. Ideal for landscaping and bog gardens. Most soils in full sun/part shade. | | Perth Metro |
| Pelargonium australe | Wild Geranium | Delightful perennial herb to 50cm. Pink/white flowers Sep-Dec. Prefers well drained soils in part shade. Suits pot culture and raised beds. | | W.A. |
| Pembertonia latisquamea | | Tangled climbing shrub to 1m. Attractive mauve daisy flowers Jul-Oct. Well drained soils in full sun. Best amongst shrubs for support. Limestone tolerant. | | Carnarvon |
| Petalostylis labicheoides | Butterfly bush | Attractive rounded shrub 1-4m with intense sprays of yellow/orange 'butterfly' flowers Mar-Dec. Suits most soils & requires warm sunny position. Drought tolerant and hardy. | | Northern WA |
| Phymatocarpus maxwellii | | Showy upright shrub to 1.5m. Pompom purple flowers Aug-Nov. Prefers well drained soils in full sun. Contrasting blue grey foliage. Hardy. | | Ravensthorpe |
| Pileanthus limacis | Coastal Coppercups | Attractive spreading shrub to 80cm. Pale pink flowers Jul-Sep. Well drained soils in full sun. Garden or pot culture. Prefers open position. Limestone tolerant. | | Pilbara Coast |

| | | | | |
|---|-----------------------------|---|------------|----------------------|
| <i>Pileanthus peduncularis x bellus</i> | 'Pixie Pie' | Colourful upright shrub to 1.2m. Stunning orange/pink flowers Oct-Nov. Suits most soils in full sun/part shade. Great for open sunny gardens. Hardy. | | Murchison |
| <i>Platysace deflexa</i> | Youlk | Tuberous spreading shrub to 80cm. Showy heads of white/cream flowers Jan-Dec. Prefers well drained soils in part shade and sheltered location. Edible tubers. | | Gnowangerup |
| <i>Platytheca galioides</i> | | Small spreading shrub to 40cm. Colourful violet/blue flowers Jul-Nov. Well drained soils in part shade. Sheltered location. Suits cottage gardens and pot culture. | | S.W. |
| <i>Pomaderris myrtilloides</i> | | Compact bushy shrub 1-2m high. Spectacular displays of rounded clusters of white (often with pink) flowers Apr-Sep. Well drained soils in full sun/part shade. Suits limestone areas. | | W.A. |
| <i>Quoya dilatata</i> | (syn. <i>Pityrodia</i>) | Small spreading shrub to 60cm. Attractive orange flowers Sep-Nov. Suits most soils in full sun. Ideal for pot culture/small gardens. Hardy. | | Geraldton Sandplains |
| <i>Regelia velutina</i> | Barren's Regelia | Handsome upright shrub to 4m. Stunning bright red flowers Sep-Feb. Well drained soils in full sun. Feature specimen plant. Hardy. Bird attracting and for cut flowers. | | W.A. |
| <i>Samolus junceus</i> | | Erect almost leafless perennial to 50cm. Perfumed pink-white flowers Sep-Apr. Tolerates winter-wet soils and salt. Will suit sedge and frog gardens. | | S.W. |
| <i>Scaevola anchusifolia</i> | Silky Scaevola | Dense shrub to 45cm. Striking blue flowers May-Aug. Well drained soils in full sun. Excellent for coastal areas, limestone and rockeries. Hardy. | | Perth Coastal |
| <i>Scaevola anchusifolia</i> | Silky Scaevola (Dwarf form) | Dense groundcover to 30cm x 60cm. Striking blue flowers May-Aug. Well drained soils in full sun. Excellent for coastal areas, limestone and rockeries. Hardy. | | Perth Coastal |
| <i>Scaevola crassifolia</i> | 'Sydney Dome' | Tough dome-shaped shrub to 30cm. Prolific blue flowers Sep-Dec. Suits most soils in full sun especially coastal gardens and limestone areas. Good edging plant. | | Pilbara Coast |
| <i>Scaevola crassifolia</i> | Variegated | Unusual variegated form of the tough spreading shrub to 1m. Prolific blue flowers Sep-Dec. Suits most soils in full sun especially coastal gardens and limestone areas. Very hardy. | | Perth Coastal |
| <i>Scaevola lanceolata</i> | Long-leaved Scaevola | Colourful erect perennial to 40cm. Perfumed mauve fan flowers Aug-Dec. Suits most soils in full sun/part shade. Tolerant of winter-wet. Ideal for pot culture. Mass plant for colour. | | Geraldton Sandplains |
| <i>Scaevola oldfieldii</i> | | Erect shrub to 2m. Attractive bright green leaves with white flowers Aug-Dec. Well drained soils in full sun. Will also grow in damp areas. | Priority 3 | Geraldton |
| <i>Scaevola porocarya</i> | Striate-fruit Scaevola | Upright spreading shrub >1.5m. Pale blue flowers Jul-Oct. Prefers well drained soils in full sun. Hardy. | | Geraldton Sandplains |
| <i>Scaevola thesioides</i> subsp. <i>filifolia</i> | Rats Tails | Open spreading shrub to 50cm. Pale blue flowers Aug-Nov. Well drained soils in full sun. Excellent for pot culture, coastal or limestone areas and rockeries. Hardy. | | Esperance Plains |
| <i>Scaevola thesioides</i> subsp. <i>thesioides</i> | Rats Tails | Open spreading shrub to 50cm. Blue flowers Aug-Mar. Well drained soils in full sun. Excellent for coastal or limestone areas and rockeries. Hardy. | | Perth Coastal |
| <i>Scholtzia laxiflora</i> | White | Upright graceful shrub to 2m. Delicate white flowers Aug-Oct. Prefers well drained soils mainly in full sun. Suitable as feature plant, for cut flowers and winter-wet areas. | | Geraldton Sandplains |
| <i>Senna glutinosa</i> | | Small tree to 4m. Intense bright yellow flowers Jul-Sep. Suits dry locations with well drained soils particularly sand in full sun/part shade. Waterwise. | | Gascoyne |
| <i>Senna pleurocarpa</i> | | Open shrub to 1.5m. Bunches of yellow flowers Aug-Nov followed by interesting elongated seed pods. Prefers well drained soil in full sun/part shade. Waterwise. | | Inland W.A. |
| <i>Siegfriedia darwinioides</i> | | Dainty, elegant and quite beautiful shrub to 1m. Creamy green flowers May-Nov. Well drained soils in sheltered location with part shade. Suits pot culture. Prune to shape. | | Esperance Plains |
| <i>Spyridium globulosum</i> | Basket Bush | Large bushy shrub to 2m+. Dense heads of small off-white flowers Jun-Nov. Suits most soils in full sun/part shade especially coastal gardens and limestone areas. | | Perth Coastal |
| <i>Tecticornia</i> sp. | Samphire | Unusual novelty succulent shrub to 40cm with seasonal foliage colour variation. Suitable for pot culture or growing in saline clay soils. | | Wheatbelt |
| <i>Thomasia pygmaea</i> | Tiny Thomasia | Small spreading shrub to 30cm. Stunning pink flowers Aug-Dec. Suits most soils. Dappled shade. Good for pot culture and raised beds. | Priority 3 | Esperance Plains |
| <i>Thryptomene baeckeacea</i> | Pink mound form | Attractive compact highly floriferous groundcover to 30cm x 1m. Masses of pink flowers May-Oct. For open areas with well drained soils. Hardy. | | Ex Moyles |
| <i>Thryptomene baeckeacea</i> | Prostrate form | Excellent groundcover 10cm x 1m wide. Highly floriferous with masses of pink flowers Jun-Aug. Well drained soil. Full sun/part shade. Drought tolerant once established. | | Northern Sandplains |
| <i>Thryptomene costata</i> | | Floriferous erect shrub to 3m. White-pink flowers Aug-Oct. Prefers well drained soils and rocky locations in full sun/part shade. Waterwise. | | Karara Rangeland |

| | | | | |
|--|------------------------------------|--|------------|----------------------|
| Thryptomene saxicola | White | Attractive spreading shrub <1m. Masses of white flowers Feb-Nov. Well drained soil in full sun/part shade. Suits pot culture and raised garden beds. | | Donnelly River |
| Thryptomene sp. Lancelin | | Compact rounded shrub <50cm. Highly floriferous with masses of tiny pink flowers May-Sep. Well drained soil in full sun. Suitable for pot culture. Drought tolerant once established. | Priority 3 | Northern Sandplains |
| Thryptomene stenophylla | | Delightful spreading dwarf shrub <1m occasionally layering. Dense dark green foliage with masses of pink/purple flowers Jun-Aug. Most well drained soils. Full sun. Limestone tolerant. | Priority 2 | Geraldton Sandplains |
| Verticordia chrysantha | Yellow Featherflower | Upright shrub to 60cm x 60cm. Dazzling golden yellow flowers Sep-Dec. Well drained soil in full sun. Suits open garden/rockeries. Prune lightly after flowering. | | Avon Wheatbelt |
