Variety pays off!

Major sales potential often lies in the subtle differences. Transfer your experiences with glass, tableware or cutlery to the growing market for carafes.

FLOW

the curved one

The shape of this carafe flows as beautifully as its contents. The asymmetric lid gives this compact design momentum. A whole litre and a completely elegant design.

FLOW SLIM

the one with the straight lines

The model among bottles. Delicate lines, a high waist-line, graceful and slender. The FLOW SLIM is the focal point of any table.

FLOW CLASSIC

the classic one

Fits in with any style of interior design. Modestly attractive. Simply a sales hit!

FLOW BOTTLE

the dynamic one

A new take on the established bottle shape. The outline flows seamlessly from the base to the tip. Glass and stainless steel are combined to exciting effect. Beautiful simplicity.

THE PROBLEM: disposable cups

70 % OF COFFEE DRINKERS
in Germany regularly use
takeaway coffee cups.

JUST 15 MINUTES
– that's the average useful life
of a takeaway coffee cup.

320.000*
DISPOSABLE CUPS
used every hour in Germany –
that's 7.6 million a day and
2.8 million a year.

A CHAIN MEASURING ROUGHLY
150,000 km 
IN LENGTH
is what you'd get if you were to line up all
the disposable cups used in Germany in a year
alongside each other. That's enough to go round
the planet three and a half times!

THE SOLUTION: the best thermo mug on the market.

1,200,000,000
LITRES WATER PER YEAR
could be saved if reusable
cups were used exclusively
throughout Germany.

AFTER APPROX. **7** HOURS
the temperature of the coffee in the
TRAVEL MUG is still above 60 °C.

98 % CUSTOMER
SATISFACTION
Over 3,000 reviews with an
overall customer satisfaction
rating of 98%.

Strong product range, strong growth.

Baking is back in style. Some 17 million people bake on a regular basis in Germany alone.* And 28.7% of households that bake do so at least once a week.**

Whether it's for Easter, Christmas, birthdays or for guests – people are baking, decorating, garnishing and transporting their own creations. EMSA offers a competent baking range for all of this – from a single source.

Simply: Be Sweet!

Freshness guaranteed

More freshness. Thanks to the unique seal.

100 % leak-proof.
Because everything
stays where it is.

100 % safe – 100 % leak-proof.
Simply nothing gets through the
EMSA freshness seal – no liquids,
no odours.

100% hygienic.
Because germs
are kept out.

EMSA food containers have a
unique seal without any gaps.
Therefore no germs are able to
accumulate. Food stays fresh
longer. Scientifically proven!*

100 % safe.
Because even baby food
stays fresh and nutritious.

Today's parents are more demanding
than ever. Perfect, because not only
are EMSA food storage containers
100 % BPA-free, but also the only food
storage containers manufactured in
compliance with the Babycare norm.
And adults also want the very best
quality for themselves.

* Benchmarking of food storage containers, a study conducted by Prof. Dr. Fritz Titgemeyer, Professor of Food Microbiology at the University of Applied Science of Münster, Department of Oecotrophology, Sept. – Dec. 2012.

Because fresh food simply stays fresh longer.

- **100 % safe:** even certified for baby food and BPA-free, of course
- **100 % hygienic:** seal and lid are firmly attached to one another
- **100 % leak-proof:** ideal for transporting liquid food and absolutely odourless
- **100 % convenient:** with scale, safely stackable and nestable, supports HACCP
