PRESIDENT CHUCK STABEN

Chuck Staben took office as the 18th president of the University of Idaho March 1, 2014. During President Staben's first year at the University of Idaho, the University successfully concluded the "Inspiring Futures: Invest in the University of Idaho" campaign, with donors contributing more than \$261 million, far exceeding the original goal of \$225 million. The University budget position has improved while tuition increased by the lowest percentage in 10 years. Staben has called for the University to grow enrollment to meet Idaho's needs while maintaining excellence in graduate and professional education, research and outreach. Staben has called for the University to be better in all that we do.

Before joining UI, Staben served as provost and vice president for academic affairs at the University of South Dakota. During his tenure there, the university increased enrollment, retention and graduation, and research grants. As provost, Staben helped guide the university through state funding declines and helped lead its transition to a new budget model.

Staben also served as associate vice president for research at the University of Kentucky from 2004-08, and acted as vice president in 2006-07. Prior to that appointment, he was a professor of biology from 1989-2008 and chair of the biology department from 2000-04. He was a postdoctoral researcher at Stanford University from 1987-89

and at Chiron Research Laboratories from 1985-86. He also was a graduate research and teaching assistant at the University of California, Berkeley from 1978-84.

Staben's research focused on fungal developmental biology, bioinformatics and fungal genomics. He received grants from the National Science Foundation, the National Institutes of Health and other agencies. He has served on National Science Foundation and National Institutes of Health grant review panels and recently served on a National Research Council

committee that reviewed the Experimental Program to Stimulate Competitive Research and the Institutional Development Award programs for the U.S. Senate. Staben taught microbiology, genetics, bioinformatics and introductory biology, and he received numerous awards for teaching. Staben received a bachelor's degree from the University of Illinois, Champaign-Urbana in 1978 and his doctoral degree in biochemistry from the University of California, Berkeley in 1984. He is originally from Waukegan, Illinois.

Staben and his wife, Dr. Mary Beth Staben, a practicing physician, have three college-aged children: Mac, Cal and Rae. Mac and Cal both began medical school in 2014; Mac is at Boston University and Cal is at the University of Louisville. Rae is studying economics at Stanford University.

Samuel D. Hunter

Samuel D. Hunter, 33, is a Moscow native and playwright known for crafting moving portraits of unlikely protagonists that explore the human capacity for empathy through the prism of his characters' struggles.

Hunter received a Bachelor of Fine Arts degree from New York University in 2004 and a Master of Fine Arts degree in 2007 from the University of Iowa. He also earned an Artist Diploma from Julliard's Playwrights Program in 2009.

In 2014, Hunter received a MacArthur Fellowship, a prize awarded annually to individuals who show exceptional merit and promise for continued and enhanced creative work. In 2013, his play "The Whale" — one of his most widely produced works — received the Drama Desk Award, the Lucille Lortel Award for Outstanding Play, and Drama League and Outer Critics Circle nominations for best play. The play focuses on Charlie, an expository writing instructor who has been driven by grief to a state of morbid obesity.

A writing assignment on Melville's *Moby Dick* becomes a leitmotif that resonates throughout the play, as its lonely and adrift characters move toward a deeper understanding of the hopes and motivations that propel one another.

Hunter premiered three new plays during the 2013–14 season — "The Few," "Rest" and "A Great Wilderness" — that continue his interest in the poetry of everyday speech and the aspirations of those seldom celebrated on the stage, from a staff of outcasts who run a newspaper for lonely, long-haul truckers to the octogenarian residents of a rest home days away from shutting down. Hunter's quietly captivating dramas confront the polarizing and socially isolating aspects of contemporary life across the American landscape.

Hunter, who now lives in New York City, is an ensemble playwright at Victory Gardens, a core member of the Playwrights Center, a company member of Partial Comfort Productions, and an alumnus of Ars Nova's Playgroup. Internationally, his work has been translated into Spanish and presented in Mexico City and Monterrey, and he has worked in the West Bank with Ashtar Theatre of Ramallah and Ayyam al-Masrah of Hebron.

Hunter is also a 2015 honorary degree recipient of the Doctor of Humane Letters, in recognition of his contributions as a visionary scholar, author, playwright, and a most distinguished son of Idaho.

Buckner-Webb is a respected motivational speaker who also uses her voice to raise awareness about diversity, justice, inclusion and human rights topics. She is in high demand for her presentations that address leadership, purpose, success and responsibility in the business context.

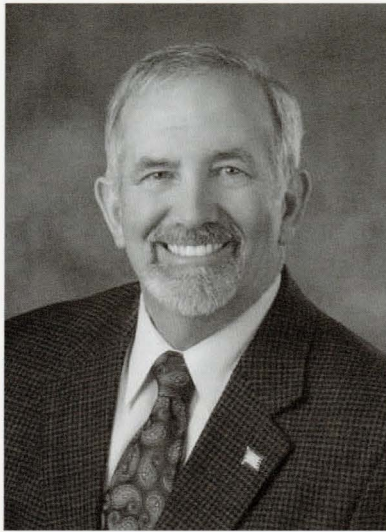

Her credo, "leave a legacy," underscores her work in every area of activity, and to that end she donates countless hours to a variety of community organizations. She is a founding board member of the Idaho Black History Museum and the winner of numerous awards, including the Hewlett Packard Human Rights Award, Jefferson Award for Public Service, 2013 Idaho Mother Award from American Mothers, Inc., the Gandhi, King, Ikeda Award for Peace from Morehouse College, and the Joyce Stein Award WCA, in acknowledgement of her commitment and devotion to volunteerism in the community.

UNIVERSITY OF IDAHO ALUMNI DISTINGUISHED IDAHOAN AWARD

The Alumni Distinguished Idahoan Award is awarded to a living person who has an international and national reputation and has brought distinction to the State of Idaho and the University of Idaho while rendering extraordinary service to both.

Kristin Armstrong Savola

UI alumna **Kristin Armstrong Savola** of Boise is a competitive cyclist and two-time Olympic gold medalist — the only Idahoan to claim that distinction. Armstrong Savola, who graduated from UI in 1995 with a bachelor's degree in sports physiology from the College of Education, claimed the top prize in the women's individual time trial for road racing in the Beijing Olympics in 2008 and again in 2012 in London.

Before becoming one of the world's top competitive road cyclists, Armstrong Savola was a runner, swimmer and triathlete. In 1999, she competed in the Ironman World Championships in Hawaii. In 2001 at age 27, Armstrong Savola was diagnosed with osteoarthritis in her hips, which forced her to move away from high-impact activities such as running. She became passionate about cycling and by 2003 was recognized as one of the top American cyclists.

Armstrong Savola's list of career achievements include a 2005 bronze world championship, 2006 world time trial championship, 2007 silver world championships and 2009 world time trial championship.

Armstrong Savola placed eighth in the Athens Olympics in 2004, returning in 2008 to take gold. In 2009, she took a break from competition to give birth to

her first child, Lucas. She returned to competitive road cycling in 2010, and again took the gold medal for the women's time trial at the 2012 London Olympics. She also was the oldest rider to win an Olympic time trial. She officially retired from competitive racing after the 2012 games.

She was the commencement speaker at UI in 2010.

Armstrong Savola co-owns K-Edge Cycling Solutions and serves as a community health ambassador for St. Luke's Health System, the only Idaho-based nonprofit health system. Her vision is to make Idaho one of the healthiest places in the country in which to live.

ALUMNI OF DISTINCTION

Patricia "Patt" Riffle

Patricia "Patt" Riffle grew up in Boise. She received her bachelor's degree in education from the University of Idaho in 1963 and earned a master's in counseling from Seattle University.

Riffle is an alumna of Pi Beta Phi and has been actively involved with UI since graduation. She has been a member of the regional campaign committee for the Seattle area, a former Education Advocacy Board member and involved in the UI Foundation.

Riffle taught school in the Challenge gifted program in Edmonds, Washington, and has since been involved in numerous organizations and projects aimed at gifted education. She helped develop legislation and lobbied the Washington State Legislature for a budget line item that funded statewide gifted programs. She was instrumental in the formation of the Quest Program, the Lake Washington School District's gifted program and WAETAG, a professional group for teachers of gifted programs.

She is active in her community and was vice president of the Eastside Housing Association, which built a 52-unit apartment complex for families in transition.

Patricia and her husband, Keith Riffle, were part of the 2002-03 steering committee for Campaign for Idaho, for which they helped to raise \$123 million. She also helped identify ways to improve the way the Vandal Call Center and Annual Giving communicate with female alumnae. Her efforts resulted in a change to UI policy and helped pave the way for improved relations between the University and its alumnae.

The WWAMI Medical Education Program is offered in partnership between the University of Washington School of Medicine and the host universities throughout the five-state regional system. Medical students from Idaho complete their first year of training at the University of Idaho, Moscow campus, then complete the remainder of their training in Idaho and throughout the five-state WWAMI region. Historically, the UI WWAMI Program was offered jointly with the Washington State University WWAMI Program. First-year students were given the opportunity to learn from combined biomedical faculties, while making use of the teaching, research and training facilities on both campuses. UI WWAMI students also complete their first clinical training rotations with local physicians, clinics and hospitals in Moscow and the Palouse.

WASHINGTON-IDAHO REGIONAL PROGRAM IN VETERINARY MEDICINE

Established in 1974. Mark A. McGuire, Ph.D., Head of Animal and Veterinary Science

The University of Idaho cooperates with Washington State University in a program of veterinary medical education, research and service. In the program, students from Idaho take the first three years of professional training in veterinary medicine at Washington State University; faculty members from Idaho and WSU offer instruction in the professional and academic curricula. In the fourth year of the program, students receive part of the clinical training at the Caldwell, Idaho, veterinary medical facility.

SIGNIFICANCE OF ACADEMIC APPAREL AND SYMBOLS OF INVESTITURE

University of Idaho Academic Mace

Maces date to the Middle Ages and symbolize strength and authority. Each is unique and reflects the values and characteristics of the institution. The University's chief marshal who leads all academic processions carries the mace. The University of Idaho's mace, used for the first time at the centennial commencement, is 32 inches long, made of walnut and encircled with bands of Idaho gold and silver in which Idaho garnets and opals have been inlaid. The head is embellished with silver and gold representations of camas plants and syringa flowers. The chair of the University's Faculty Senate, the marshal of the academic procession, carries the mace in the American tradition, at a 45-degree angle across the chest, while in England, the bearer carries it over the shoulder.

University of Idaho Academic Apparel

By observing certain features of the academic apparel, it is possible to learn several things about the academic status of the scholar: the level of the degree attained, the branch of learning in which it was earned, and the college or university conferring the degree.

Gowns

The gowns differ according to the level of the degree. The sleeves are the principal indicator—gowns of bachelor's have pointed sleeves; those of master's have oblong sleeves with an arc cut away at the front; and doctors have round, bell-shaped sleeves. Bachelor's and master's gowns are untrimmed. Doctoral gowns have distinctive velvet facing down the front and three velvet bars on each sleeve.

The University of Idaho adopted a doctoral gown of its own in 1989. The silver gown has a panel and sleeve bars of black velvet outlined in antique gold. The beret-styled soft cap is patterned after the Cambridge version instead of the traditional Oxford-style mortarboard. The cap and gown were designed by Emeritus Professor Edmund Chavez in the University's centennial year and are worn today by officials and university administration.

Honor Cords

Honor Cords, worn around the neck and hanging loosely down the front, identify students who are graduating with honors: gold, summa cum laude (with highest distinction); silver, magna cum laude (with great distinction); and bronze, cum laude (with distinction). The cords are provided by the University of Idaho and are worn on this one occasion only.

Caps

The color of the tassel worn on the cap varies with the level of degree. The bachelor's tassel represents the color appropriate to the major field of study (see colors at right); the master's and specialist's tassels are black; and the doctoral tassels are old gold.

University of Idaho President's Medallions

The first medallion was created by Idaho artists George and Macky Roberts. The President's Medallion was first used in 1965 at the inauguration of Ernest Hartung, the University of Idaho's 12th president.

The medallion's base is a three-and-a-half-inch disc of pure Idaho silver. Mounted on the base is a disc of native jasper; a sterling silver sunburst is inlaid in the disc. Inside the sunburst is a modification of the Chinese character meaning "mountain," which features three upward-pointing prongs. Over the center prong is a gold inlay, thus symbolizing "Light on the Mountain."

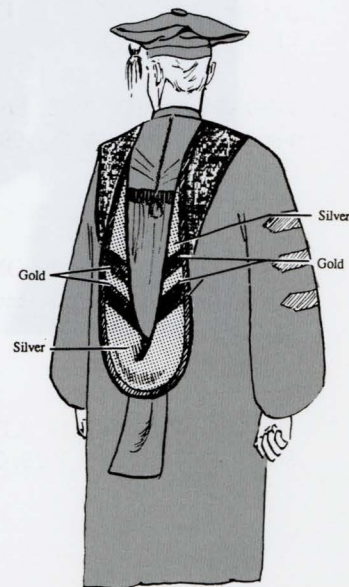

The heavy medallion is worn suspended from a collar woven of Idaho wool, some of which is dyed with dahlia flowers to match the jasper and some of which is from a black sheep. The second President's Medallion, worn during commencement by then President Timothy P. White, was commissioned in 2004. This medallion's base is a gold-leafed University seal and is worn suspended by a chain with gold leaf charms, each representing the Presidents who have served the University.

Hoods

The length of the hood also varies according to the level of degree. The bachelor's gown is worn without a hood. A master's hood is three and one-half feet long, and a doctor's hood is four feet in length and has panels at the sides. It is from the colors adorning the hood that one can learn two other facts. Lining: the hood is lined with the official color or colors of the college or university conferring the degree (silver and gold, signifying the University of Idaho). Trimming: the hood is trimmed with velvet of a color appropriate to the wearer's branch of learning. For example, the trimming for the degree of Master of Science in Agriculture is maize, representing agriculture, rather than golden yellow, representing science. (In the case of the Doctor of Philosophy degree, the dark blue color is used, representing the mastery of the discipline of learning and scholarship, regardless of the branch of learning.) Colors associated with the different disciplines are listed below:

Agriculture.....	Maize
Arts, Letters, Humanities.....	White
Commerce, Accountancy, Business.....	Drab
Economics.....	Copper
Education.....	Light Blue
Engineering.....	Orange
Fine Arts, including Architecture.....	Brown
Forestry.....	Russet
Journalism.....	Crimson
Law.....	Purple
Music.....	Pink
Philosophy.....	Dark Blue
Physical Education.....	Sage Green
Public Administration.....	Peacock Blue
Science.....	Golden Yellow

“HERE WE HAVE IDAHO”

1 Alma Mater, the hope of a pioneer race;
You're fashioned of dreams and of toil,
Your walls and your towers by stout-hearted men
Were raised from the rock and the soil.

Chorus

And here we have Idaho,
Winning her way to fame;
Silver and Gold in the sunlight blaze,
And romance lies in her name;
Singing, we're singing of you, ah, proudly too;
All our lives through we'll go singing,
Singing of you, Alma Mater, our Idaho.

2 Now ours is the heritage, rich and so full,
The gain of their toil and their tears;
And ours is the fruit, and the harvest is ours,
Oh, Idaho, gift of the years.

Chorus

And here we have Idaho,
Winning her way to fame;
Silver and Gold in the sunlight blaze,
And romance lies in her name;
Singing, we're singing of you, ah, proudly too;
All our lives through we'll go singing,
Singing of you, Alma Mater, our Idaho.
