

## DO YOU HAVE CAPITAL CREDITS TO CLAIM?

Once a year, Oconto Electric publishes the names of members, past and present, who have outstanding capital credit checks. Maybe these checks were misplaced or lost in the mail, but for whatever reason they were not cashed. Now these checks are outdated and cannot be cashed. Names shown are from checks originally issued in 2017 and 2020. We have included the outstanding 2017 capital credit checks because any of these checks that are not reissued this year will be transferred into our educational fund and used for youth scholarships. This is the last opportunity for people to claim this money.

If you find your name listed here please contact OEC at 1-800-472-8410. If you know someone on this list, please have them contact us.

**There are no hidden numbers this month.**

## BOARD MEMBER VERNON GISENAS PASSES (February 6, 1952 - June 25, 2021)

Directors, staff, and employees of Oconto Electric Cooperative (OEC) were saddened when OEC board member Vernon Gisenas passed away at home surrounded by loved ones on Friday, June 25, 2021.

Vernon represented members of District #1 as a director on this board since 2009, continuing until he lost his battle to cancer. Vernon had just attended a strategic planning meeting 11 days earlier at the co-op.

Vernon had been a member of the cooperative for over 40 years.

Since 1993 he had owned a logging business and deer farm. He was a jack-of-all-trades, from working on anything with a motor to all kinds of construction work and logging.

When he wasn't busy working,

Vernon enjoyed hunting, pool league, riding motorcycles, going to gun shows and auctions, and spending quality time with family and friends.

Vernon had served as a supervisor on the Beaver Town Board, and he also served on the Marinette County Board of Supervisors.

Vernon is survived by his son, Christopher (Ashley), granddaughters Aspen and Willow, and his significant other, Karen Jarman.

CEO Byron C. Nolde recalled fondly, "Although Vern was a quiet man, in conversation that familiar grin would often sneak across his face before he would put in his two cents' worth. On behalf of the directors and myself, thank you for all you have done for OEC. You will be greatly missed."

### Energy Efficiency Tip of the Month

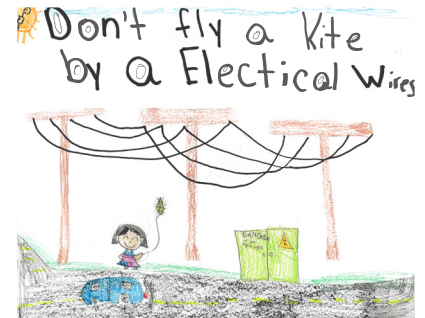

When shopping for new light bulbs, know the difference between lumens and watts. Lumens measure the amount of light produced by the bulb. Watts measure energy consumption. Energy-saving LEDs come in a variety of colors and brightness levels and last 15-25 times longer than incandescent bulbs.

### Safety Artist Winners

Third-grade students from across the Oconto Electric service territory submitted safety posters in May for National Electrical Safety Month. The winners received prizes and their posters were sent to WECA for the state contest.
