

Tom Perez
Democratic National Committee Chair
430 South Capitol St SE
Washington, DC 20003

Re: Letter from Over 30,000 People – Strengthening the 2020 Party Platform on Fossil Fuels

August 13, 2020

Dear Democratic National Committee Chair Tom Perez,

Avoiding the worst impacts of climate change and achieving environmental justice depends in large part on your leadership this year.

I'm urging you to embrace real and lasting solutions to the climate crisis. In the 2020 platform, I implore you to include strong and unambiguous policies to phase out fossil fuel production. Oil, gas and coal are responsible for nearly 90% of carbon dioxide emissions. Even with aggressive clean energy targets, there's simply no way to keep warming to 1.5°C in line with the Paris Climate Agreement without stopping new fossil fuel expansion and quickly winding down existing fossil fuel production in the United States.

From fracking wells to the Keystone XL and Dakota Access pipelines, fossil fuel projects routinely violate Indigenous rights and disproportionately spew toxic emissions into Black communities and other communities of color. As the Democratic Party advances a vision for environmental and climate justice, you must also address the impacts of the worst actors: coal, oil and gas executives.

The Democrats have the chance to adopt a bold set of recommendations from the DNC's own Council on Environment and Climate Crisis. The Democrats' 2020 platform should build on this blueprint for ending the era of fossil fuels and putting workers and impacted communities front and center in the transition to a renewable energy economy.

The time for half-measures is over. If we're going to have a planet that's safe and habitable for all, we must ensure a just transition off of fossil fuel production that protects workers and communities. The DNC's platform needs to tackle environmental racism and the climate crisis with a plan to protect people – not a handful of fossil fuel executives.

I'm counting on you to be on the right side of history and lead us out of this crisis before it's too late.

Signed by 31,175 individual activists (listed in the attached chart) and the following ten organizations.

Organizations:

1. 350 Action
2. Center for Biological Diversity Action Fund
3. Climate Hawks Vote
4. Food & Water Action
5. Friends of the Earth Action
6. National Children's Campaign
7. Oil Change U.S.
8. Progressive Democrats of America
9. Sierra Club
10. Sunrise Movement
