

▶ CT 331

Fast, updateable and with auto-detection!

A new generation of detectors is born: smaller, quicker and with automatic currency detection! The **CT 331** checks all Euro notes and is standard equipped with a second currency (GBP).

The **CT 331** and its (optional) rechargeable battery, the sophisticated report function and the update possibility of the machine via USB: we can't make it easier for you!

And of course: 100% result in the Euro counterfeit test!
