NOTES:

- The Funding Opportunity Announcement (FOA) and associated application guide remain the official documents for defining application requirements. This resource is meant to complement, not replace, those documents.
- NIH application packages include a subset of the forms included in this resource. You will only need to complete the forms provided to you with a specific FOA.
- This resource displays the forms as they would show if you use Grants.gov's downloadable forms option for submission, but the same forms, form fields and guidance apply regardless of submission option even if the display is slightly different.
- Don't forget to periodically check the Related Notices section of the FOA for any updates to instructions or policies since the opportunity was posted. At a minimum, check this section when you download the application and again a week or two before the due date.
- The blue and pink annotations throughout this resource represent processing notes and eRA system business rule checks (i.e., validations). The pink ones are for new fields introduced with FORMS-D application packages. Notes FORMS-D
