"*callomonii*" (Sarjeant, 1972, p.31–33, pl.5, fig.5; text-fig.6) Gocht, 1976, p.334. Holotype: Sarjeant, 1972, pl.5, fig.5; text-fig.6. **NOW** *Meiourogonyaulax*. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. Age: late Bathonian–early Callovian.

"*cantrellii*" (Sarjeant, 1972, p.37–38, pl.4, fig.3; pl.6, figs.1–2; text-fig.8) Gocht, 1976, p.334. Holotype: Sarjeant, 1972, pl.4, fig.3; pl.6, figs.1–2; text-fig.8. **NOW** *Lanterna*. Originally *Meiourogonyaulax*?, subsequently *Lithodinia*?, thirdly *Lanterna*, fourthly and now *Lanterna*?. Questionable assignment: Gocht (1976, p.334). Age: late Bathonian.

"*caytonensis*" (Sarjeant, 1959, p.330–332, pl.13, fig.1; text-fig.1) Gocht, 1976, p.334. Holotype: Sarjeant, 1959, pl.13, fig.1; text-fig.1. **NOW** *Meiourogonyaulax*. Originally *Gonyaulax* (Appendix B), subsequently (and now) *Meiourogonyaulax*, thirdly *Lithodinia*. Age: early Callovian.

"*crisulata*" (Sarjeant, 1959, p.332–334, pl.13, fig.2; text-fig.2) Gocht, 1976, p.334. Holotype: Sarjeant, 1959, pl.13, fig.2; text-fig.2. **NOW** *Meiourogonyaulax*. Originally *Gonyaulax*? (Appendix B), subsequently *Meiourogonyaulax*?, thirdly *Lithodinia*?, fourthly (and now) *Meiourogonyaulax*, fifthly *Lithodinia*. Questionable assignment: Gocht (1976, p.334) — however, Williams et al. (1993, p.55) retained this species in *Lithodinia* without question. Age: early Callovian.

"*decapitata*" (Wetzel, 1967a, p.869, pl.16, figs.7a–b) Gocht, 1976, p.334. Holotype: Wetzel, 1967a, pl.16, figs.7a–b; Sarjeant, 1980b, pl.3, figs.1–3; text-fig.3; Dietz et al., 1999, text-fig.5b. Originally *Gonyaulax* (Appendix B), subsequently *Meiourogonyaulax*, thirdly *Lithodinia*, fourthly *Meiourogonyaulax*?. **Taxonomic senior synonym:** *Meiourogonyaulax* (as *Lithodinia*) *valensii*, according to Fenton (1981, p.253) and Williams et al. (1993, p.56). Age: Bajocian.

"*deflandrei*" (Sarjeant, 1968, p.228–229, pl.1, fig.20; pl.3, fig.13; text-fig.4) Gocht, 1976, p.334. Holotype: Sarjeant, 1968, pl.1, fig.20; text-fig.4. **NOW** *Meiourogonyaulax*. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. Age: late Callovian.

"*diaphana*" (Stevens, 1987, p.191–192, figs.4A–K,6A–B,7A–D) Williams et al., 1993, p.56. Holotype: Stevens, 1987, figs.4A–D,6A–B; Fensome et al., 1996, figs.1–3,9–10 — p.2111. **NOW** *Meiourogonyaulax*. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. Questionable assignment: Williams et al. (1993, p.56). Age: early Berriasian.

"*dicrypta*" (Gitmez and Sarjeant, 1972, p.225–226, pl.7, fig.6; text-fig.22) Gocht, 1976, p.334. Holotype: Gitmez and Sarjeant, 1972, pl.7, fig.6; text-fig.22. **NOW** *Escharisphaeridia*. Originally *Meiourogonyaulax*, subsequently *Lithodinia*, thirdly *Meiourogonyaulax*?, fourthly *Canningia*?, fifthly (and now) *Escharisphaeridia*. Age: early–late Kimmeridgian.

"*ghermanii*" (Beju, 1971, p.287–288, pl.4, figs.1–3; text-fig.4) Gocht, 1976, p.334. Holotype: Beju, 1971, pl.4, fig.1; text-fig.4. **NOW** *Meiourogonyaulax*. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. Age: Callovian–early Oxfordian.

"*helbyi*" Morgan, 1980, p.26, pl.18, figs.4–7. Emendation: Stover and Helby, 1987d, p.265,267, as *Cernicysta helbyi*. Holotype: Morgan, 1980, pl.18, figs.4–6; Fensome et al., 1996, figs.1–3 — p.2149. **NOW** *Cernicysta*. Originally *Lithodinia*, subsequently (and now) *Cernicysta*. Age: middle Aptian–early Albanian.

"*insulofigurata*" (Dodekova, 1975, p.21–22, pl.2, figs.4–5,7–8; text-figs.3a–c) Gocht, 1976, p.334. Holotype: Dodekova, 1975, pl.2, figs.4–5. **NOW** *Meiourogonyaulax*. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*, thirdly *Lithodinia*?. Questionable assignment: Williams et al. (1993, p.56). Age: late Bathonian.

**jurassica* Eisenack, 1935, p.175–177, pl.4, figs.5–10; text-figs.1–4. Emendations: Eisenack and Klement, 1964, p.505; Gocht, 1975b, p.355. Holotype: Eisenack, 1935, pl.4, fig.5; Gocht, 1975b, figs.22a–b. Age: Callovian.

subsp. *jurassica*. Autonym. Holotype: Eisenack, 1935, pl.4, fig.5; Gocht, 1975b, figs.22a–b.

"var. *jurassica*". Autonym. Holotype: Eisenack, 1935, pl.4, fig.5; Gocht, 1975b, figs.22a–b. **Now redundant.**

"var. *ornata*" Eisenack, 1935, p.176, pl.4, figs.9–10; text-figs.1–4. Holotype: Eisenack, 1935, pl.4, fig.9. **NOW** *Ctenidodinium ornatum*. Originally *Lithodinia jurassica* var. *ornata*, subsequently (and now) *Ctenidodinium ornatum*, thirdly *Gonyaulacysta ornata*. Taxonomic junior synonym: *Brotzenia* (as *Ctenidodinium*?) *cristata*, according to Woollam (1983, p.190). Age: Oxfordian.

subsp. *reburrosa* Quattrocchio and Sarjeant, 1992, p.72–73(al. 2–224 — 2–225), pl.1, figs.10–11; pl.7, figs.2–3; text-figs.3A–B. Holotype: Quattrocchio and Sarjeant, 1992, pl.1, fig.10; text-figs.3A–B. Age: middle-late Callovian–early middle Tithonian.

"*maculata*" (Backhouse, 1988, p.96, pl.32, figs.8,9a–b,10–11; text-figs.29A–B) Williams et al., 1993, p.55. Holotype: Backhouse, 1988, pl.32, figs.9a–b; text-figs.29A–B; Fensome et al., 1996, figs.2–3,6–7 — p.2217. **NOW** *Meiourogonyaulax*. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. Age: early Barremian.

"*mitra*" (Dürr, 1987, p.74,77, figs.3a–b; fig.4, nos.3–6; fig.6, nos.1–3,5) Williams et al., 1993, p.55. Holotype: Dürr, 1987, fig.4, no.3; Dürr, 1988, pl.1, fig.5. **NOW** *Semicavidinium*. Originally *Meiourogonyaulax*, subsequently *Lithodinia*, thirdly (and now) *Semicavidinium*. N.I.A. Age: middle Kimmeridgian.

"*mombasaensis*" (Mungai in Jiang Qinghua et al., 1992, p.87, pl.2, figs.1–2; text-figs.3a–c) Lentin and Williams, 1993, p.400. Holotype: Jiang Qinghua et al., 1992, pl.2, fig.1. **NOW** *Meiourogonyaulax*. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. Age: Kimmeridgian–Tithonian.

perforata Iosifova, 1996, p.223,225, pl.8, figs.6a–c; text-figs.9A–B. Holotype: Iosifova, 1996, pl.8, figs.6a–c; text-figs.9A–B. Age: Ryazanian.

"*pertusa*" Duxbury, 1977, p.41–43, pl.8, fig.5; text-fig.15. Holotype: Duxbury, 1977, pl.8, fig.5; text-fig.15; Fensome et al., 1991, figs.1–3 — p.709; figs.1–3 — p.711. **NOW** *Meiourogonyaulax*. Originally *Lithodinia*, subsequently (and now) *Meiourogonyaulax*. Age: late Berriasian–early Hauterivian.

"subsp. *heta*" (Below, 1981a, p.56–57, pl.3, figs.7a–b,8a–b; pl.11, fig.21; pl.14, figs.1–4; text-figs.59a–b,60) Williams et al., 1993, p.55. Holotype: Below, 1981a, pl.3, figs.8a–b; Fensome et al., 1991, figs.3–4 — p.647; figs.4–5 — p.709. **NOW** *Meiourogonyaulax pertusa* subsp. *heta*. Originally (and now) *Meiourogonyaulax pertusa* subsp. *heta*, subsequently *Lithodinia pertusa* subsp. *heta*. Age: Hauterivian.

"subsp. *pertusa*". Autonym. Holotype: Duxbury, 1977, pl.8, fig.5; text-fig.15; Fensome et al., 1991, figs.1–3 — p.709; figs.1–3 — p.711. **NOW** *Meiourogonyaulax pertusa* subsp. *pertusa*. Originally (and now) *Meiourogonyaulax pertusa* subsp. *pertusa*, subsequently *Lithodinia pertusa* subsp. *pertusa*.

"*pila*" (Gitmez and Sarjeant, 1972, p.226–227, pl.4, fig.5; pl.7, fig.3; text-fig.23) Gocht, 1976, p.334. Holotype: Gitmez and Sarjeant, 1972, pl.4, fig.5; text-fig.23. **NOW** *Meiourogonyaulax*. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. N.I.A. Age: middle-late Kimmeridgian.

"*planoseptata*" (Riding, 1987a, p.262, fig.9, nos.9–12; fig.13) Williams et al., 1993, p.55. Holotype: Riding, 1987a, fig.9, nos.9–10. **NOW** *Meiourogonyaulax*. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. Age: early Callovian.

"*pocockii*" (Sarjeant, 1968, p.230, pl.3, fig.9) Davey, 1979d, p.217. Holotype: Sarjeant, 1968, pl.3, fig.9; Eisenack and Kjellström, 1972, p.185; Davey, 1979d, pl.2, figs.7,10; Fensome et al., 1995, fig.1 — p.1673. **NOW** *Escharisphaeridia*. Originally *Chytroeisphaeridia*, subsequently *Lithodinia*, thirdly (and now) *Escharisphaeridia*. Age: late Callovian.

"*?predae*" (Beju, 1971, p.288–289, pl.4, figs.4a–b,5–7; text-fig.5) Gocht, 1976, p.334. Emendations: Drugg, 1978, p.64 and Below, 1990, p.45–46, both as *Carpathodinium predae*. Holotype: Beju, 1971, pl.4, figs.4a–b; text-fig.5; Eisenack and Kjellström, 1975b, p.792d; Fensome et al., 1995, figs.1–4 — p.1679. **NOW** *Carpathodinium*. Originally *Meiourogonyaulax?*, subsequently *Lithodinia?*, thirdly (and now) *Carpathodinium*. Questionable assignment: Gocht (1976, p.334). Age: Callovian–early Oxfordian.

protothymosa Riding and Helby, 2001d, p.81–83, figs.10A–L. Holotype: Riding and Helby, 2001d, fig.10D. Taxonomic junior synonyms: *Lithodinia australica* and *Meiourogonyaulax protothymosa* (both names not validly published), both according to Riding and Helby (2001d, p.81). Age: Callovian.

"*psora*" (Davey and Verdier, 1974, p.634,636, pl.92, figs.8–9) Gocht, 1976, p.334. Holotype: Davey and Verdier, 1974, pl.92, fig.9. **NOW** *Meiourogonyaulax*. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. N.I.A. Age: Aptian.

"*reticulata*" (Dodekova, 1975, p.22–23, pl.2, figs.11–13; text-fig.4) Gocht, 1976, p.334. Holotype: Dodekova, 1975, pl.2, figs.11–12. **NOW** *Meiourogonyaulax*. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. Age: late Bathonian.

"*rioultii*" (Sarjeant, 1968, p.229) Gocht, 1976, p.334. Holotype: Sarjeant, 1965, pl.1, fig.1. NOW *Meiourogonyaulax*? Originally *Meiourogonyaulax*, subsequently *Lithodinia*, thirdly (and now) *Meiourogonyaulax*?, fourthly *Lithodinia*?. Questionable assignment: Williams et al. (1993, p.56). Age: early Callovian.

"*sagena*" Duxbury, 1980, p.127, pl.3, figs.6,9,12–13. Emendation: Harding, 1990b, p.35, as *Meiourogonyaulax sagena*. Holotype: Duxbury, 1980, pl.3, figs.6,9,12. NOW *Ellipsoidictyum*. Originally *Lithodinia*, subsequently *Meiourogonyaulax*, thirdly (and now) *Ellipsoidictyum*. N.I.A. Age: middle-late Barremian.

"*serrulata*" Davies, 1983, p.26, pl.9, figs.1–6; text-figs.21A–B. Holotype: Davies, 1983, pl.9, figs.3–4; text-figs.21A–B. NOW *Freboldinium*. Originally *Lithodinia*, subsequently (and now) *Freboldinium*. Age: Toarcian–early Bajocian.

"*spongiosa*" (Smelror, 1987, p.230,232, figs.5A–G); text-fig.3) Williams et al., 1993, p.56. Holotype: Smelror, 1987, fig.5B. NOW *Meiourogonyaulax*. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. Age: late Callovian.

"*staffinensis*" (Gitmez, 1970, p.276–278, pl.3, fig.1; text-figs.20A–B) Gocht, 1976, p.334. Emendation: Poulsen and Riding, 1992, p.26, as *Ambonosphaera? staffinensis*. Holotype: Gitmez, 1970, pl.3, fig.1; text-figs.20A–B; Poulsen and Riding, 1992, pl.1, fig.6; text-figs.1A–B. NOW *Ambonosphaera?*. Originally *Meiourogonyaulax*, subsequently *Lithodinia*, thirdly *Polygonifera*, fourthly (and now) *Ambonosphaera?*, fifthly *Lithodinia*?. Questionable assignment: Williams et al. (1993, p.56). Taxonomic junior synonyms: *Senoniasphaera? frisia*, according to Poulsen and Riding (1992, p.26); *Hexagonifera* (now *Senoniasphaera*) *jurassica*, according to Williams et al. (1993, p.32) — however, elsewhere in the same publication, Williams et al. (1993, p.56) retained *Hexagonifera* (now *Senoniasphaera*) *jurassica*. Age: early Kimmeridgian.

"*stoveri*" (Millioud, 1969, p.429, pl.3, figs.1–3) Gocht, 1976, p.334. Holotype: Millioud, 1969, pl.3, figs.1–2. NOW *Meiourogonyaulax*. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. Age: early Hauterivian–early Aptian.

"*strongyla*" (Sarjeant, 1972, p.35–37, pl.4, fig.7; text-fig.7) Gocht, 1976, p.334. Holotype: Sarjeant, 1972, pl.4, fig.7; text-fig.7. NOW *Meiourogonyaulax*. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*, thirdly *Lithodinia*?. Questionable assignment: Williams et al. (1993, p.56). For etymology, see *Meiourogonyaulax strongyla*. Age: Bathonian.

"*superornata*" (Wetzel, 1967a, p.869–870, pl.16, figs.8a–b) Fenton, 1981, p.253. Emendation: Sarjeant, 1980b, p.124–125, as *Meiourogonyaulax superornata*. Holotype: Wetzel, 1967a, pl.16, figs.8a–b; Sarjeant, 1980b, pl.1, figs.2–3; text-fig.4; Dietz et al., 1999, text-fig.5c. NOW *Meiourogonyaulax*. Originally *Gonyaulax* (Appendix B), subsequently (and now) *Meiourogonyaulax*, thirdly *Gonyaulacysta*, fourthly *Lithodinia*?. Questionable assignment: Williams et al. (1993, p.56). Age: late Bathonian.

"*valensii*" (Sarjeant, 1966b, p.145–146, pl.15, fig.7; text-fig.37) Gocht, 1976, p.334. Holotype: Valensi, 1953, pl.2, figs.12–13 (as *Gonyaulax* sp.); Sarjeant, 1966b, pl.15, fig.7; text-fig.37. NOW *Meiourogonyaulax*. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. Taxonomic junior synonym: *Lithodinia decapitata*, according to Fenton (1981, p.253) and Williams et al. (1993, p.56). Age: Bathonian.

LITHOPERIDINIUM Deflandre, 1933, p.272. Siliceous dinoflagellate genus. Taxonomic junior synonym: *Peridinites*, by implication in Deflandre (1945b, cards 806–809), who believed *Peridinites* to be the senior name — however, Harding and Lewis (1994, p.834) retained *Peridinites*. Type: Deflandre, 1933, text-figs.1–7, as *Lithoperidinium oamaruense*.

barbadense (Lefèvre, 1933b, p.222–223, text-figs.9–12) Lentin and Williams, 1993, p.402. Holotype: Lefèvre, 1933b, text-fig.9. Originally *Peridinites*, subsequently (and now) *Lithoperidinium*. Age: Early Tertiary.

diodos (Lefèvre, 1933b, p.227, text-fig.23) Lentin and Williams, 1993, p.402. Holotype: Lefèvre, 1933b, text-fig.23. Originally *Peridinites*, subsequently (and now) *Lithoperidinium*. N.I.A. Age: Early Tertiary.

globosum (Lefèvre, 1933b, p.224, text-figs.15–16) Lentin and Williams, 1993, p.402. Holotype: Lefèvre, 1933b, text-fig.15. Originally *Peridinites*, subsequently (and now) *Lithoperidinium*. Age: Early Tertiary.

"**maculatum**" Vozzhennikova, 1967, p.117–118, pl.49, figs.1–12; pl.50, figs.1–8. **Name not validly published:** holotype not designated. Originally *Lithoperidinium* (name not validly published), subsequently *Peridinites* (name not validly published). Age: early Oligocene.

***oamaruense** Deflandre, 1933, p.273; text-figs.1–7. Holotype: Deflandre, 1933, text-figs.1–7. Originally (and now) *Lithoperidinium*, subsequently *Peridinites*. Age: Tertiary.

ovale (Lefèvre, 1933b, p.226, text-figs.21–22) Lentin and Williams, 1993, p.402. Holotype: Lefèvre, 1933b, text-figs.21–22. Originally *Peridinites*, subsequently (and now) *Lithoperidinium*. Age: Early Tertiary.

"**parvulum**" (Lefèvre, 1933b, p.221–222; text-figs.6–8) Lentin and Williams, 1993, p.402. Holotype: Lefèvre, 1933b, text-fig.7, according to Eisenack and Klement (1964, p.657). **NOW** *Peridinites*. Originally (and now) *Peridinites*, subsequently *Lithoperidinium*. Age: Early Tertiary.

perforatum (Lefèvre, 1933b, p.227–228, text-figs.25–30) Lentin and Williams, 1993, p.402. Holotype: Lefèvre, 1933b, text-figs.29–30. Originally *Peridinites*, subsequently (and now) *Lithoperidinium*. Age: Early Tertiary.

"**piriforme**" (Lefèvre, 1933b, p.225, text-figs.17–18) Lentin and Williams, 1993, p.402. Emendation: Harding and Lewis, 1994, p.834–835, as *Peridinites piriformis*. Holotype: Lefèvre, 1933b, text-fig.17. **NOW** *Peridinites*. Originally (and now) *Peridinites*, subsequently *Lithoperidinium*. Age: Early Tertiary.

"subsp. **compactum**" (Lefèvre, 1933b, p.225, text-figs.19–20) Lentin and Williams, 1993, p.402. Holotype: Lefèvre, 1933b, text-figs.19–20. **NOW** *Peridinites piriformis* subsp. *compactum*. Originally *Peridinites piriformis* var. *compactum*, subsequently (and now) *Peridinites piriformis* subsp. *compactum*, thirdly *Lithoperidinium piriforme* subsp. *compactum*. Age: Early Tertiary.

"subsp. **piriforme**". Autonym. Holotype: Lefèvre, 1933b, text-fig.17. **NOW** *Peridinites piriformis* subsp. *piriformis*. Originally (and now) *Peridinites piriformis* subsp. *piriformis*, subsequently *Lithoperidinium piriforme* subsp. *piriforme*.

rossicum Deflandre, 1940, p.266; text-figs.1–4. Holotype: Deflandre, 1940, text-figs.1–4. Originally (and now) *Lithoperidinium*, subsequently *Peridinites*. Age: Eocene.

"**sphaericum**" (Lefèvre, 1933b, p.223–224, text-figs.13–14,24) Lentin and Williams, 1993, p.403. Emendation: Harding and Lewis, 1994, p.835–836, as *Peridinites sphaericus*. Holotype: Lefèvre, 1933b, text-figs.13–14. **NOW** *Peridinites*. Originally (and now) *Peridinites*, subsequently *Lithoperidinium*. Age: Early Tertiary.

"subsp. **minus**" (Lefèvre, 1933b, p.224, text-fig.24) Lentin and Williams, 1993, p.403. Holotype: Lefèvre, 1933b, text-fig.24. Originally *Peridinites sphaericus* var. *minor*, subsequently *Peridinites sphaericus* subsp. *minor*, thirdly *Lithoperidinium sphaericum* subsp. *minus*. **Taxonomic senior synonym** (at specific rank): *Peridinites sphaericus*, according to Harding and Lewis (1994, p.837). Age: Early Tertiary.

"subsp. **sphaericum**". Autonym. Holotype: Lefèvre, 1933b, text-figs.13–14. **Now redundant.** Originally *Peridinites sphaericus* subsp. *sphaericus*, subsequently *Lithoperidinium sphaericum* subsp. *sphaericum*.

LITOSPHAERIDIUM Davey and Williams, 1966b, p.79–80. Emendations: Davey and Verdier, 1973, p.193; Lucas-Clark, 1984, p.181–182. Taxonomic junior synonym: *Conosphaeridium*, by implication in Sarjeant (1969, p.14), who transferred the "type species" of *Conosphaeridium*, *Conosphaeridium striatoconum*, to *Litosphaeridium* — however, Lentin and Williams (1973, p.31) retained *Conosphaeridium*. Type: Cookson and Eisenack, 1958, pl.11, fig.8, as *Hystrichosphaeridium siphoniphorum*.

adnatum Lucas-Clark, 2007, p.210, pl.1, figs.1–9; text-figs.7A,8. Holotype: Lucas-Clark, 2007, pl.1, figs.1–3. Age: late Albian.

arundum (Eisenack and Cookson, 1960, p.8, pl.3, figs.7–9) Davey, 1979b, p.557. Emendation: Lucas-Clark, 1984, p.188, as *Litosphaeridium arundum*. Holotype: Eisenack and Cookson, 1960, pl.3, fig.7; Helby et al., 1987, figs.29J–K. Originally *Hystrichosphaeridium*, subsequently *Hystrichosphaeridium?*, thirdly (and now) *Litosphaeridium*. Taxonomic senior synonym: *Micrhystridium* (as *Dapsilidinium?*, now *Litosphaeridium*) *fucosum*, according to Below (1982c, p.29) — however, Lentin and Williams (1985, p.227) retained *Hystrichosphaeridium* (as *Litosphaeridium*) *arundum*. Age: Albian.

bacar Lucas-Clark, 1984, p.187, pl.3, figs.1–12. Holotype: Lucas-Clark, 1984, pl.3, figs.1–2,4; Fauconnier and Masure, pl.52, figs.5–7. N.I.A. Age: late Albian–Cenomanian.

conispinum Davey and Verdier, 1973, p.193–194, pl.4, figs.4,6,8–9. Emendation: Lucas-Clark, 1984, p.187, as *Litosphaeridium conispinum*. Holotype: Davey and Verdier, 1973, pl.4, fig.8. Originally (and now) *Litosphaeridium*, subsequently *Polysphaeridium?*, thirdly *Dapsilidinium?*. Lucas-Clark (1984, p.187) retained this species in *Litosphaeridium*. Age: late Albian.

"cooksoniae" (Singh, 1971, p.329–330, pl.51, figs.7–8; pl.52, figs.1–4) Yu Jingxian and Zhang Wangping, 1980, p.112. Emendation: Duxbury, 1980, p.120, as *Florentinia cooksoniae*. Holotype: Singh, 1971, pl.51, fig.7. **NOW** *Kleithriasphaeridium*. Originally *Hystrichosphaeridium*, subsequently *Florentinia*, thirdly *Litosphaeridium*, fourthly (and now) *Kleithriasphaeridium*. Taxonomic senior synonym: *Hystrichosphaeridium* (as *Florentinia*) *mantellii*, according to Below (1982c, p.8) — however, Lentin and Williams (1985, p.135) retained *Florentinia cooksoniae*. Taxonomic junior synonym: *Hystrichosphaeridium cylindratum*, according to Harker and Sarjeant (1975, p.225–226). Age: late Albian.

"?crassipes" (Reade, 1839, pl.9, figs.2–5) Davey and Williams, 1969, p.5. Emendation: Lejeune-Carpentier and Sarjeant, 1981, p.10, as *Hystrichokolpoma? crassipes*. Holotype: Reade, 1839, pl.9, fig.2, lost according to Lejeune-Carpentier and Sarjeant (1981, p.11). Neotype: Lejeune-Carpentier, 1941, fig.9; Lejeune-Carpentier and Sarjeant, 1981, pl.3, fig.3; text-fig.6; designated by Lejeune-Carpentier and Sarjeant (1981, p.11). **NOW** *Hystrichokolpoma*. Originally *Xanthidium* (Appendix A), subsequently *Hystrichosphaeridium*, thirdly *Litosphaeridium?*, fourthly (and now) *Hystrichokolpoma*. Questionable assignment: Davey and Williams (1969, p.5). Taxonomic junior synonym: *Hystrichosphaeridium* (as *Pervosphaeridium*) *truncigerum*, by implication in Yun Hyesu (1981, p.27), who considered *Hystrichosphaeridium* (as *Pervosphaeridium*) *truncigerum* to be the senior name — however, Lentin and Williams (1985, p.282) retained *Pervosphaeridium truncigerum*. This combination, as a questionable assignment, was not validly published in Davey and Williams (1966b, p.83), since these authors did not fully reference the basionym. Age: Late Cretaceous.

fenestreconum (May, 1980, p.54–55, pl.3, figs.6–11) Lucas-Clark, 1984, p.190. Holotype: May, 1980, pl.3, figs.6–8. Originally *Hystrichokolpoma*, subsequently (and now) *Litosphaeridium*. Age: Maastrichtian.

"?flosculus" (Deflandre, 1937b, p.75, pl.15 [al. pl.12], figs.5–6) Davey and Williams, 1969, p.5. Holotype: Deflandre, 1937b, pl.15 (al. pl.12), fig.5. **NOW** *Florentinia?*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (combination not validly published; Appendix A), thirdly *Litosphaeridium?*, fourthly *Silicisphaera?*, fifthly (and now) *Florentinia?*. Questionable assignment: Davey and Williams (1969, p.5). Taxonomic junior synonym: *Eurysphaeridium fibratum* (name not validly published), according to Slimani (2001a, p.192). This combination, as a questionable assignment, was not validly published in Davey and Williams (1966b, p.83), since these authors did not fully reference the basionym. N.I.A. Age: Senonian.

fucosum (Valensi, 1955a, p.40; text-fig.2b) Masure in Fauconnier and Masure, 2004, p.378. Holotype: Valensi, 1955a, text-fig.2b; Fauconnier and Masure, pl.52, figs.8–11. Originally *Micrhystridium*, subsequently *Hystrichosphaeridium*, thirdly *Polysphaeridium?*, fourthly *Dapsilidinium?*, fifthly (and now) *Litosphaeridium*. Taxonomic junior synonyms (at specific rank): *Hystrichosphaeridium tubiferum* subsp. *brevispinum*, according to Below (1982c, p.29); *Hystrichosphaeridium* (as and now *Litosphaeridium*) *arundum*, according to Below (1982c, p.29) — however, Lentin and Williams (1985, p.190,227) retained *Hystrichosphaeridium tubiferum* subsp. *brevispinum* and *Litosphaeridium arundum*. Age: Late Cretaceous.

gaponoffiae Lucas-Clark, 2007, p.210,212, pl.2, figs.1–9; text-figs.7B,9. Holotype: Lucas-Clark, 2007, pl.2, figs.1–2. Age: late Albian.

"?*inversibuccinum*" Davey and Williams, 1966b, p.82, pl.12, fig.3. Emendation: Bujak et al., 1980, p.32, as *Paucisphaeridium inversibuccinum*. Holotype: Davey and Williams, 1966b, pl.12, fig.3; Eisenack and Kjellström, 1972, p.781; Bujak et al., 1980, pl.2, figs.4–5; Fensome et al., 1995, p.1567; Fauconnier and Masure, pl.63, fig.1. **NOW** *Paucisphaeridium*. Originally *Litosphaeridium*?, subsequently (and now) *Paucisphaeridium*. Questionable assignment: Davey and Williams (1966b, p.82). N.I.A. Age: early Eocene.

"*luteticum*" Gruas-Cavagnetto, 1976, p.222, pl.2, figs.9–10. **Name not validly published**: no description.

"?*mamellatum*" de Coninck, 1977, p.42, pl.6, figs.8–13. Holotype: de Coninck, 1977, pl.6, figs.8–10. Questionable assignment: de Coninck (1977, p.42). **Taxonomic senior synonym**: *Cystidiopsis certis* Nagy, 1965, an acritarch species, according to Lucas-Clark (1984, p.184). Age: early-middle Eocene.

?*oblongum* Yu Jingxian and Zhang Wangping, 1980, p.112, pl.4, figs.7–8. Holotype: Yu Jingxian and Zhang Wangping, 1980, pl.4, fig.8. Questionable assignment: Lucas-Clark (1984, p.184). Age: Turonian–Santonian.

"?*parvum*" Matsuoka and Bujak, 1988, p.62–63, pl.8, figs.2a–b,3a–b,4; text-fig.12. Holotype: Matsuoka and Bujak, 1988, pl.8, figs.2a–b; text-fig.12. Questionable assignment: Matsuoka and Bujak (1988, p.62). **Taxonomic senior synonym**: *Minisphaeridium latirictum*, according to Fensome et al. (2009, p.44). Age: late Oligocene–early Miocene.

serratocyclum (Wetzel, 1933b, p.27–28, pl.4, fig.9) Sarjeant, 1985b, p.144–145. Emendation: Sarjeant, 1985b, p.144–145, as *Litosphaeridium serratocyclus*. Holotype: Wetzel, 1933b, pl.4, fig.9; Sarjeant, 1985b, pl.1, fig.6. Originally *Cymatiosphaera radiata* forma *serratocycla* (Appendix A), subsequently (and now) *Litosphaeridium serratocyclum*. Age: Late Cretaceous.

**siphoniphorum* (Cookson and Eisenack, 1958, p.44, pl.11, figs.8–10) Davey and Williams, 1966b, p.80–82. Emendation: Lucas-Clark, 1984, p.186, as *Litosphaeridium siphoniphorum*. Holotype: Cookson and Eisenack, 1958, pl.11, fig.8; Helby et al., 1987, figs.38O–P. Originally *Hystrichosphaeridium*, subsequently (and now) *Litosphaeridium*. Age: Albian–Cenomanian.

subsp. *glabrum* Lucas-Clark, 1984, p.186–187, pl.1, figs.1–11; pl.2, fig.2. Holotype: Lucas-Clark, 1984, pl.1, figs.2–3; Fauconnier and Masure, pl.53, fig.11. Age: Albian–Cenomanian.

subsp. *siphoniphorum*. Autonym. Holotype: Cookson and Eisenack, 1958, pl.11, fig.8.

"?*striatoconum*" (Deflandre and Cookson, 1955, p.275, pl.2, fig.10; text-fig.36) Sarjeant, 1969, p.14. Holotype: Deflandre and Cookson, 1955, text-fig.36. **NOW** *Conosphaeridium*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Litosphaeridium*?, fourthly (and now) *Conosphaeridium*. Questionable assignment: Sarjeant (1969, p.14). Age: middle Senonian.

"?*truncigerum*" (Deflandre, 1937b, p.71–72, pl.13 [al. pl.10], figs.6–7) Davey and Williams, 1969, p.6. Holotype: Deflandre, 1937b, pl.13 (al. pl.10), fig.6. **NOW** *Raetiaedinium*. Originally *Hystrichosphaeridium*, subsequently *Litosphaeridium*?, thirdly *Cordosphaeridium*, fourthly *Exochosphaeridium*, fifthly *Pervosphaeridium*, sixthly *Tityrosphaeridium*?, seventhly *Florentinia*, eighthly *Pervosphaeridium*?, ninthly (and now) *Raetiaedinium*. Questionable assignment: Davey and Williams (1969, p.6). Taxonomic senior synonym: *Xanthidium* (now *Hystrichokolpoma*) *crassipes*, by implication in Yun Hyesu (1981, p.27), who considered *Hystrichosphaeridium* (as *Pervosphaeridium*) *truncigerum* to be the senior name — however, Lentin and Williams (1985, p.282) retained *Hystrichosphaeridium* (as *Pervosphaeridium*) *truncigerum*. Taxonomic junior synonym: *Laticavodinium latispinosum* (name not validly published), according to Slimani (2001a, p.194). This combination, as a questionable assignment, was not validly published in Davey and Williams (1966b, p.83), since these authors did not fully reference the basionym. Age: Senonian.

LOBIONELLA Batten and Lister, 1988, p.355. Type: Batten and Lister, 1988, figs.31,5c, as *Lobionella hirsuta*.

**hirsuta* Batten and Lister, 1988, p.355,357, figs.31,5a–d. Holotype: Batten and Lister, 1988, figs.31,5c. Age: Hauterivian.

LOPHOCYSTA Manum, 1979, p.238. Type: Manum, 1979, pl.1, figs.4–6; text-figs.1A–B, as *Lophocysta sulcolimbata*.

**sulcolimbata* Manum, 1979, p.238,240–242, pl.1, figs.1–11; text-figs.1A–E. Holotype: Manum, 1979, pl.1, figs.4–6; text-figs.1A–B; Fensome et al., 1995, figs.1–3,9 — p.1811. Age: early Miocene.

LOPSIDINIUM Dolby, 2014, p.173. Type: Dolby, 2014, pl.1, fig.2, as *Lopsidinium subrisum*.

paxense Dolby, 2014, p.176, pl.1, figs.9–12. Holotype: Dolby, 2014, pl.1, fig. 10. Age: middle Albian.

**subrisum* Dolby, 2014, p.173,175–176, pl.1, figs.1–8. Holotype: Dolby, 2014, pl.1, fig.2. Age: early Albian.

LOTHARINGIA Below, 1990, p.20–21. Contrary to the opinion of Lentin and Williams (1993, p.405), this name is validly published since the name of the "type species is validly published. This name was not validly published in Below (1987a, p.57), who did not provide a description. Type: Below, 1990, pl.4, figs.11,13, as *Lotharingia maubeugii*.

**maubeugii* Below, 1990, p.21–23, pl.4, figs.10–18; text-figs.5a–g. Holotype: Below, 1990, pl.4, figs.11,13. Contrary to the opinion of Lentin and Williams (1993, p.405), this name is validly published. Below (1987a, p.6) stated that, unless otherwise indicated, all the material is in his personal collection. Since Below (1987a, 1987b, 1990) are parts I to III of a single study, we agree with J. Jansonius (personal communication) that Below's (1987a) repository statement refers to all three publications, fulfilling the requirement of I.C.N. Article 40.7 (see also the discussion on Article 40.7 in the Introduction). This name was not validly published in Below (1987a, p.57), who did not provide a description; Below (1987a, caption to pl.26, fig.d) cited the name as *Saxodinium maubeugii*. Age: Toarcian.

LUEHNDEA Morgenroth, 1970, p.346–347. Emendations: Bucefalo Palliani et al., 1997b, p.114–115; Riding and Helby, 2001a, p.3,5. Type: Morgenroth, 1970, pl.9, fig.1, as *Luehndea spinosa*.

cirilliae Bucefalo Palliani et al., 1997b, p.115,117, pl.1, figs.1–6; pl.2, figs.1–2,5–7; text-fig.3. Holotype: Bucefalo Palliani et al., 1997b, pl.1, figs.1–2. Age: late Pliensbachian–early Toarcian.

microreticulata Bucefalo Palliani et al., 1997b, p.117,119, pl.2, fig.4; text-fig.3. Holotype: Bucefalo Palliani et al., 1997b, pl.2, fig.4. Age: early Toarcian.

septata Riding and Helby, 2001a, p.5, figs.3A–P. Holotype: Riding and Helby, 2001a, fig.3O. Age: Toarcian.

**spinosa* Morgenroth, 1970, p.347, pl.9, figs.1–4. Holotype: Morgenroth, 1970, pl.9, fig.1. Age: late Pliensbachian.

LUNATADINIUM Brideaux and McIntyre, 1973, p.396. Taxonomic junior synonym: *Pylomacystion* (name not validly published), according to Brideaux and McIntyre (1973, p.400). Type: Brideaux and McIntyre, 1973, pl.1, figs.3–4, as *Lunatadinium dissolutum*.

**dissolutum* Brideaux and McIntyre, 1973, p.396–397,400–401, pl.1, figs.1–13. Holotype: Brideaux and McIntyre, 1973, pl.1, figs.3–4; Fensome et al., 1993a, figs.1–2 — p.1129. Taxonomic junior synonym: *Pylomacystion*

californicum (name not validly published), according to Brideaux and McIntyre (1973, p.400). Age: Hauterivian–middle Albian.

LUNNOMIDINIUM Lindström, 2002, p.253,255. Type: Lindström, 2002, pl.1, figs.1–6, as *Lunnomidinium scaniense*.

**scaniense* Lindström, 2002, p.255–258, pl.1, figs.1–12; pl.2, figs.1–12; pl.3, figs.1–12; pl.4, figs.1–6; text-figs.4a–d. Holotype: Lindström, 2002, pl.1, figs.1–6; text-figs.4a–b. Age: Rhaetian.

"**LUTETIANELLA**" Filipescu, 1959, p.168. Siliceous dinoflagellate genus. **Name not validly published**: type not designated. **Taxonomic senior synonym**: *Actiniscus*, according to Dumitrică (1973, p.820). This name was also not validly published in Filipescu (1943, p.264), since no species were proposed.

"*communis*" Filipescu, 1959, p.170, pl.1, figs.8–9. Holotype: Filipescu, 1959, pl.1, fig.8. **Name not validly published**: the generic name *Lutetianella* is not validly published. Age: Miocene.

"var. *acanthica*" Filipescu, 1959, p.170, pl.1, fig.9. Holotype: Filipescu, 1959, pl.1, fig.9. **Name not validly published**: the species name *Lutetianella communis* is not validly published. Age: Miocene.

"*diadema*" Filipescu, 1959, p.170–171, pl.1, figs.10–11. **Name not validly published**: no type designated and also the generic name *Lutetianella* is not validly published. Age: Miocene.

"var. *complexa*" Filipescu, 1959, p.170–171, pl.1, fig.11. Holotype: Filipescu, 1959, pl.1, fig.11. **Name not validly published**: the specific name *Lutetianella diadema* is not validly published. Age: Miocene.

"var. *simplex*" Filipescu, 1959, p.170–171, pl.1, fig.10. Holotype: Filipescu, 1959, pl.1, fig.10. **Name not validly published**: the specific name *Lutetianella diadema* is not validly published. Age: Miocene.

LUXADINIUM Brideaux and McIntyre, 1975, p.36. Type: Brideaux and McIntyre, 1975, pl.12, fig.9, as *Luxadinium primulum*.

auriculatum Xu Jinli, 1987, p.151–152, pl.3, figs.1a–d,2a–b,3–4,5a–c. Holotype: Xu Jinli, 1987, pl.3, figs.1a–d. Age: ?middle-late Eocene.

conchatum Xu Jinli, 1987, p.152–153, pl.1, figs.5a–d,8a–b,11a–b. Holotype: Xu Jinli, 1987, pl.1, figs.5a–d. Age: ?middle-late Eocene.

?*dabendorfense* (Alberti, 1961, p.5, pl.3, fig.4) Bujak and Davies, 1983, p.163. Holotype: Alberti, 1961, pl.3, fig.4. Originally *Gymnodinium* (Appendix B), subsequently *Diconodinium*, thirdly (and now) *Luxadinium*?. Questionable assignment: Bujak and Davies (1983, p.163). Age: Valanginian.

dongmingense Jin Guangxing, He Chengquan and Zhu Shenzhao in He Chengquan et al., 1989, p.50, pl.4, figs.9–12. Holotype: He Chengquan et al., 1989, pl.4, fig.9. Age: Early Tertiary.

elegans He Chengquan in Zheng Yahui and He Chengquan, 1984, p.95, pl.6, figs.18–19; pl.11, fig.3. Holotype: He Chengquan et al., 1989, pl.6, fig.18. Age: Late Cretaceous.

elongatum Jin Guangxing, He Chengquan and Zhu Shenzhao in He Chengquan et al., 1989, p.50–51, pl.5, figs.4–15, pl.29, fig.1. Holotype: He Chengquan et al., 1989, pl.5, fig.5. Age: Early Tertiary.

friabile Xu Jinli, 1987, p.152, pl.2, figs.1a–b,2a–b. Holotype: Xu Jinli, 1987, pl.2, figs.1a–b. Age: ?middle-late Eocene.

lingulatum Marshall, 1989, p.52, pl.9, figs.1–9; text-figs.16A–B. Holotype: Marshall, 1989, pl.9, figs.1–3; text-fig.16A; Fensome et al., 1996, figs.1–3,7 — p.2193. Age: Turonian–early Santonian.

macrocephalum Jin Guangxing, He Chengquan and Zhu Shenzhao in He Chengquan et al., 1989, p.51, pl.4, figs.6–8. Holotype: He Chengquan et al., 1989, pl.4, fig.7. Age: Early Tertiary.

orientale He Chengquan in Zheng Yahui and He Chengquan, 1984, p.96, pl.6, fig.20. Holotype: Zheng Yahui and He Chengquan, 1984, pl.6, fig.20. Mao Shaozhi et al. (1995, p.48) implied that this name should be restricted to the holotype. Age: Late Cretaceous.

***primulum** Brideaux and McIntyre, 1975, p.37–38, pl.12, figs.9–12; pl.13, figs.1–8. Holotype: Brideaux and McIntyre, 1975, pl.12, fig.9; Fensome et al., 1995, fig.4 — p.1683. Age: middle Albian.

propatulum Brideaux and McIntyre, 1975, p.37. Holotype: Singh, 1971, pl.62, fig.8, as *Scriniodinium eurypylum*; Brideaux and McIntyre, 1975, pl.13, figs.9–11. Age: late Albian.

psilatum Jin Guangxing, He Chengquan and Zhu Shenzhao in He Chengquan et al., 1989, p.51–52, pl.4, fig.5. Holotype: He Chengquan et al., 1989, pl.4, fig.5. Age: Early Tertiary.

speciale Jin Guangxing, He Chengquan and Zhu Shenzhao in He Chengquan et al., 1989, p.52, pl.4, fig.14. Holotype: He Chengquan et al., 1989, pl.4, fig.14. Mao Shaozhi et al. (1995, p.48) implied that this name should be restricted to the holotype. Age: Early Tertiary.

MADURADINIUM Cookson and Eisenack, 1970a, p.150. Type: Cookson and Eisenack, 1970a, pl.10, fig.13, as *Maduradinium pentagonum*.

***pentagonum** Cookson and Eisenack, 1970a, p.150, pl.10, figs.13–17. Holotype: Cookson and Eisenack, 1970a, pl.10, fig.13. Age: Senonian.

subsp. **ovale** (Cookson and Eisenack, 1982, p.34, pl.1, figs.15–16) Lentin and Williams, 1985, p.230. Holotype: Cookson and Eisenack, 1982, pl.1, fig.16. Originally *Maduradinium pentagonum* var. *ovale*, subsequently (and now) *Maduradinium pentagonum* subsp. *ovale*. Age: Senonian.

"var. **ovale**" Cookson and Eisenack, 1982, p.34, pl.1, figs.15–16. Holotype: Cookson and Eisenack, 1982, pl.1, fig.16. **NOW** *Maduradinium pentagonum* subsp. *ovale*. Originally *Maduradinium pentagonum* var. *ovale*, subsequently (and now) *Maduradinium pentagonum* subsp. *ovale*. Age: Senonian.

subsp. **pentagonum**. Autonym. Holotype: Cookson and Eisenack, 1970a, pl.10, fig.13.

"var. **pentagonum**". Autonym. Holotype: Cookson and Eisenack, 1970a, pl.10, fig.13. **Now redundant.**

"spatiosum" (Morgenroth, 1966b, p.3–4, pl.1, fig.5) Lentin and Williams, 1976, p.73. Holotype: Morgenroth, 1966b, pl.1, fig.5. **NOW** *Lejeuncysta*. Originally *Lejeunia* (generic name illegitimate), subsequently *Maduradinium*, thirdly (and now) *Lejeuncysta*. Age: early Oligocene.

turpe Norris, 1986, p.44–45, pl.13, fig.7; pl.14, figs.1–4. Holotype: Norris, 1986, pl.13, fig.7. Age: Eocene.

"MAGALLANESIUM" Quattrocchio and Sarjeant, 2003, p.138,140. **Senior taxonomic synonym:** *Spinidinium* according to Fensome et al. (2009 [February], p.59) and Sluijs et al. (2009 [April], p.46). Type: Wilson, 1967a, figs.11–13, as *Deflandrea macmurdoensis*.

"asymmetricum" (Wilson, 1967a, p.62–63, figs.17–21) Quattrocchio and Sarjeant, 2003, p.140. Holotype: Wilson, 1967a, figs.19–21. **NOW** *Alterbidinium*. Originally *Deflandrea*, subsequently *Alterbia* (combination illegitimate), thirdly *Senegalinium?*, fourthly (and now) *Alterbidinium*, fifthly *Magallanesium*. Age: ?Eocene (erratic).

"*balmei*" (Cookson and Eisenack, 1962b, p.486) Quattrocchio and Sarjeant, 2003, p.140. Emendation: Morgan, 1977, p.130, as *Alterbia minor*. Holotype: Cookson and Eisenack, 1960a, pl.1, fig.1; Morgan, 1977, text-fig.2. **NOW** *Spinidinium balmei*. Originally *Deflandrea minor* (name illegitimate), subsequently *Deflandrea balmei*, thirdly *Alterbia balmei* (combination illegitimate), fourthly *Isabelidinium balmei*, fifthly (and now) *Spinidinium balmei*, sixthly *Magallanesium balmei*. Taxonomic senior synonym: *Palaeohystrichophora* (as *Diconodinium*) *minuta*, according to Morgan (1977, p.130) — however, Lentin and Williams (1981, p.156) retained *Deflandrea* (as *Isabelidinium*, now *Spinidinium*) *balmei*. Age: Late Cretaceous.

"*densispinatum*" (Stanley, 1965, p.226–227, pl.21, figs.1–5) Quattrocchio and Sarjeant, 2003, p.140. Holotype: Stanley, 1965, pl.21, figs.1–3. **NOW** *Spinidinium*. Originally (and now) *Spinidinium*, subsequently *Magallanesium*. Taxonomic junior synonym: *Spinidinium microceratum*, according to Stone (1973, p.53–54). Age: Paleocene.

"*denticulatum*" (Pöthe de Baldis and Ramos, 1983, p.438, pl.2, figs.7,11; pl.4, fig.2) Quattrocchio and Sarjeant, p.140. Holotype: Pöthe de Baldis and Ramos, 1983, pl.2, figs.7,11; pl.4, fig.2. **NOW** *Spinidinium argentinum*. Originally *Dioxya denticulata*, subsequently (and now) *Spinidinium argentinum*, thirdly *Magallanesium denticulatum*. *Spinidinium argentinum* is a substitute name, since the epithet "*denticulatum*" is preoccupied in *Spinidinium*. Age: early Aptian.

"*essoii*" (Cookson and Eisenack, 1967a, p.135, pl.19, figs.1–8) Quattrocchio and Sarjeant, 2003, p.140. Holotype: Cookson and Eisenack, 1967a, pl.19, figs.1–2. **NOW** *Spinidinium*. Originally (and now) *Spinidinium*, subsequently *Magallanesium*. Age: late Paleocene.

"**macmurdoense*" (Wilson, 1967a, p.60–62, figs.11–16,22; text-fig.2a) Quattrocchio and Sarjeant, 2003, p.140. Holotype: Wilson, 1967a, figs.11–13. **NOW** *Spinidinium*. Originally *Deflandrea*, subsequently (and now) *Spinidinium*, thirdly *Magallanesium*. Age: Early Tertiary.

"*pilatum*" (Stanley, 1965, p.222, pl.21, figs.12–16) Quattrocchio and Sarjeant, 2003, p.140. Holotype: Stanley, 1965, pl.21, figs.14–16. **NOW** *Spinidinium*? Originally *Wetzeliella*, subsequently *Wetzeliella*?, thirdly (and now) *Spinidinium*?, fourthly *Magallanesium*. Age: Paleocene.

"*pulchrum*" (Benson, 1976, p.194, pl.9, figs.4–9) Quattrocchio and Sarjeant, 2003, p.140. Holotype: Benson, 1976, pl.9, figs.4–7. **NOW** *Spinidinium*? Originally *Deflandrea*, subsequently *Spinidinium*, thirdly *Magallanesium*, fourthly (and now) *Spinidinium*? Age: early Paleocene.

"*rallum*" (Heisecke, 1970, p.226,228, pl.1, figs.1–2; pl.2, fig.1) Quattrocchio and Sarjeant, 2003, p.140. Holotype: Heisecke, 1970, pl.1, fig.2; pl.2, fig.1. **NOW** *Spinidinium*? Originally *Spinidinium*, subsequently *Magallanesium*, thirdly (and now) *Spinidinium*? Age: Danian.

"**MAGHREBINIA**" Below, 1981a, p.22. Emendation: Masure, 1988a, p.362–363. **Taxonomic senior synonym:** *Atopodinium*, according to Masure (1991, p.64) and Masure in Fauconnier and Masure (2004, p.73). Type: Clarke and Verdier, 1967, pl.6, figs.1–2, as *Dinopterygium perforatum*.

"*breviornata*" Masure, 1988b, p.129, pl.3, figs.11A–B,12; pl.5, figs.10A–B; text-fig.4, nos.1–2. Holotype: Masure, 1988b, pl.3, figs.11A–B; text-fig.4, nos.1–2; Fauconnier and Masure, 2004, pl.9, fig.9. **Taxonomic senior synonym:** *Atopodinium haromense*, according to Masure (1991, p.65). Age: Vraconian–middle Cenomanian.

"*chleuh*" Below, 1981a, p.22–23, pl.1, figs.5a–b; pl.12, fig.5; text-figs.13a–b. Emendation: Masure, 1988a, p.365–366, as *Maghrebinia chleuh*. Holotype: Below, 1981a, pl.1, figs.5a–b; text-figs.13a–b; Masure, 1988a, pl.2, figs.1–8; text-figs.3a–b; Fensome et al., 1991, figs.1–4 — p.619; Fauconnier and Masure, 2004, pl.9, figs.1–3. **NOW** *Montanarocysta*. Originally *Maghrebinia*, subsequently *Atopodinium*, thirdly (and now) *Montanarocysta*. N.I.A. Age: Vraconian–Cenomanian.

"*membraniphora*" (Cookson and Eisenack, 1962b, p.495, pl.6, figs.8–14) Below, 1981a, p.22. Holotype: Cookson and Eisenack, 1962b, pl.6, fig.9. **NOW** *Cauveridinium*. Originally *Cyclonephelium*, subsequently *Maghrebinia*, thirdly (and now) *Cauveridinium*. Age: Albian–Cenomanian.

"*mirabilis*" (Below, 1984, p.635–636, pl.6, fig.2) Masure, 1988a, p.366. Emendation: Masure, 1988a, p.366–368, as *Maghrebinia mirabilis*. Holotype: Below, 1981a, pl.1, figs.1a–c, as *Maghrebinia perforata*; Masure, 1988a, pl.3, figs.1–11; text-figs.4a–c, as *Maghrebinia mirabilis*; Fauconnier and Masure, 2004, pl.10, figs.1–4. **NOW** *Montanarocysta mirabilis*. Originally *Maghrebinia perforata* subsp. *mirabilis*, subsequently *Maghrebinia mirabilis*, thirdly *Atopodinium mirabile*, fourthly (and now) *Montanarocysta mirabilis*. Age: late Albian–early Cenomanian.

"**perforata*" (Clarke and Verdier, 1967, p.36–37, pl.6, figs.1–3; text-fig.15) Below, 1981a, p.23. Emendations: Davey and Verdier, 1971, p.30, as *Pterodinium perforatum*; Below, 1981a, p.23–24 and Masure, 1988a, p.363–364, both as *Maghrebinia perforata*. Holotype: Clarke and Verdier, 1967, pl.6, figs.1–2; Masure, 1988a, pl.1, figs.1–9; text-figs.1a–b; Fensome et al., 1995, figs.1–2 — p.1653; Fauconnier and Masure, 2004, pl.10, figs.5–6. **NOW** *Atopodinium*. Originally *Dinopterygium*, subsequently *Pterodinium*, thirdly *Pterodinium?*, fourthly *Maghrebinia*, fifthly (and now) *Atopodinium*. Fensome et al. (1993b, p.98) retained this species in *Maghrebinia*. Age: early Cenomanian.

"subsp. *mirabilis*" Below, 1984, p.635–636, pl.6, fig.2. Emendation: Masure, 1988a, p.366–368, as *Maghrebinia mirabilis*. Holotype: Below, 1981a, pl.1, figs.1a–c, as *Maghrebinia perforata*; Masure, 1988a, pl.3, figs.1–11; text-figs.4a–c; Fauconnier and Masure, 2004, pl.10, figs.1–4. **NOW** *Montanarocysta mirabilis*. Originally *Maghrebinia perforata* subsp. *mirabilis*, subsequently *Maghrebinia mirabilis*, thirdly *Atopodinium mirabile*, fourthly (and now) *Montanarocysta mirabilis*. Age: late Albian–early Cenomanian.

"subsp. *perforata*". Autonym. Holotype: Clarke and Verdier, 1967, pl.6, figs.1–2; Masure, 1988a, pl.1, figs.1–9; text-figs.1a–b. **Now redundant.**

MALVINIA Houben et al., 2011, p.177. Type: Houben et al., 2011, pl.1, figs.1–3, as *Malvinia escutiana*.

**escutiana* Houben et al., 2011, p.177, 179, pl.1, figs.1–12, pl.2, figs.1–6; text-fig.3. Holotype: Houben et al., 2011, pl.1, figs.1–3. Age: early Oligocene.

MANCODINIUM Morgenroth, 1970, p.352. Emendation: Below, 1987b, p.20–22. Taxonomic senior synonym: *Dapcodinium*, according to Dörhöfer and Davies (1980, p.23) — however, Lentin and Williams (1985, p.230) retained *Mancodinium*. Type: Morgenroth, 1970, pl.12, fig.3, as *Mancodinium semitabulatum*.

coalitum (Davies, 1983, p.14, pl.1, figs.1–8; text-figs.6A–B) Below, 1987b, p.22. Holotype: Davies, 1983, pl.1, figs.7–8. Originally *Dapcodinium*, subsequently (and now) *Mancodinium*. Age: Toarcian–early Bajocian.

morgensternii Tykoezinski et al., 2001, p.86,88, pl.2, figs.1a–c,2a–c,3a–c,4a–b,5; pl.3, figs.1a–b,2a–b,3a–b,4a–b,5a–b,6a–b,7–8,9a–b; pl.4, fig.14. Tykoezinski et al., 2001, pl.2, figs.1a–c. Taxonomic junior synonym: *Mancodinium tykoezinskii* (name not validly published), according to Tykoezinski et al. (2001, p.86). Age: late Bathonian.

**semitabulatum* Morgenroth, 1970, p.352–353, pl.12, figs.3–6; pl.13, figs.1–4. Emendation: Below, 1987b, p.23, as *Mancodinium semitabulatum*. Holotype: Morgenroth, 1970, pl.12, fig.3; Fensome et al., 1993a, fig.1 — p.1319; fig.1 — p.1323. Originally (and now) *Mancodinium*, subsequently *Dapcodinium*. Lentin and Williams (1985, p.230) retained this species in *Mancodinium*. Taxonomic junior synonym: *Parvulodinium penitabulatum*, according to Prauss (1989, p.25). Age: late Pliensbachian.

subsp. *fossatum* (Below, 1987b, p.27, pl.6, figs.1–10) Lentin and Williams, 1989, p.234. Holotype: Below, 1987b, pl.6, figs.7–8,10; Fensome et al., 1993a, figs.5–6,8 — p.1201; fig.2 — p.1319. Originally

Mancodinium semitabulatum var. *fossatum*, subsequently (and now) *Mancodinium semitabulatum* subsp. *fossatum*. Age: late Pliensbachian.

"var. *fossatum*" Below, 1987b, p.27, pl.6, figs.1–10. Holotype: Below, 1987b, pl.6, figs.7–8,10; Fensome et al., 1993a, figs.5–6,8 — p.1201; fig.2 — p.1319. **NOW** *Mancodinium semitabulatum* subsp. *fossatum*. Originally *Mancodinium semitabulatum* var. *fossatum*, subsequently (and now) *Mancodinium semitabulatum* subsp. *fossatum*. Age: late Pliensbachian.

subsp. *glabrum* (Below, 1987b, p.27, pl.5, figs.17–19,22,25) Lentin and Williams, 1989, p.234. Holotype: Below, 1987b, pl.5, figs.17–19,22,25; Fensome et al., 1993a, figs.1–5 — p.1213; fig.3 — p.1319. Originally *Mancodinium semitabulatum* var. *glabrum*, subsequently (and now) *Mancodinium semitabulatum* subsp. *glabrum*. Age: late Pliensbachian.

"var. *glabrum*" Below, 1987b, p.27, pl.5, figs.17–19,22,25. Holotype: Below, 1987b, pl.5, figs.17–19,22,25; Fensome et al., 1993a, figs.1–5 — p.1213; fig.3 — p.1319. **NOW** *Mancodinium semitabulatum* subsp. *glabrum*. Originally *Mancodinium semitabulatum* var. *glabrum*, subsequently (and now) *Mancodinium semitabulatum* subsp. *glabrum*. Age: late Pliensbachian.

subsp. *semitabulatum*. Autonym. Holotype: Morgenroth, 1970, pl.12, fig.3; Fensome et al., 1993a, fig.1 — p.1319; fig.1 — p.1323.

"var. *semitabulatum*". Autonym. Holotype: Morgenroth, 1970, pl.12, fig.3; Fensome et al., 1993a, fig.1 — p.1319; fig.1 — p.1323. **Now redundant.**

"*tykoezinski*" Smith in Tykoezinski et al., 2001, p.86. **Name not validly published:** no description. **Taxonomic senior synonym:** *Mancodinium morgensternii*, according to Tykoezinski et al. (2001, p.86).

MANUMIELLA Bujak and Davies, 1983, p.160. Emendations: Fensome et al. 2009, p.43; Thorn et al., 2009, p.439. Marshall (1988, p.205) considered *Isabelidinium* to be the possible taxonomic senior synonym of this genus. Type: Lange, 1969, pl.3, fig.3, as *Broomea seelandica*.

bertodano Thorn et al., 2009, p.439,441, pl.1, figs.1–3,5,6. Holotype: Thorn et al., 2009, pl.1, figs.5–6. Age: latest Maastrichtian.

conorata (Stover, 1974, p.171–172, pl.1, figs.8a–b; text-fig.3C) Bujak and Davies, 1983, p.160. Holotype: Stover, 1974, pl.1, figs.8a–b. Originally *Deflandrea*, subsequently *Isabelia* (combination illegitimate), thirdly *Isabelidinium*, fourthly *Eurydinium*, fifthly (and now) *Manumiella*. Age: early-middle Paleocene.

"?*cretacea*" (Cookson, 1956, p.184–185, pl.1, figs.1–7 [but see discussion under *Isabelidinium cretaceum*]) Bujak and Davies, 1983, p.161. Holotype: Cookson, 1956, pl.1, fig.1; Helby et al., 1987, fig.42L. **NOW** *Isabelidinium*. Originally *Deflandrea*, subsequently *Isabelia* (combination illegitimate), thirdly (and now) *Isabelidinium*, fourthly (and now) *Manumiella*? Questionable assignment: Bujak and Davies (1983, p.161). Age: Late Cretaceous.

subsp. *cretacea*. Autonym. Holotype: Cookson, 1956, pl.1, fig.1. Originally *Isabelidinium cretaceum* subsp. *cretaceum*, subsequently (and now) *Manumiella?* *cretacea* subsp. *cretacea*.

subsp. *gravida* (Mao Shaozhi and Mohr, 1992, p.319, pl.1, figs.11–12) Lentin and Williams, 1993, p.411. Holotype: Mao Shaozhi and Mohr, 1992, pl.1, fig.11. Originally *Isabelidinium cretaceum* subsp. *gravidum*, subsequently (and now) *Manumiella?* *cretacea* subsp. *gravida*. Age: Maastrichtian.

subsp. *oviformis* (Mao Shaozhi and Mohr, 1992, p.319–320, pl.1, figs.7,9; pl.10, fig.2; pl.11, fig.5) Lentin and Williams, 1993, p.411. Holotype: Mao Shaozhi and Mohr, 1992, pl.1, fig.7. Originally *Isabelidinium cretaceum* subsp. *oviforme*, subsequently (and now) *Manumiella?* *cretacea* subsp. *oviformis*. Age: late Campanian.

delicata (Balteş, 1969, p.34, pl.1, fig.7 ex Lentin and Williams, 1973, p.40) Bujak and Davies, 1983, p.161. Holotype: Balteş, 1969, pl.1, fig.7, designated by Lentin and Williams (1973, p.40). Originally *Deflandrea*, subsequently *Isabelia* (combination illegitimate), thirdly *Isabelidinium*, fourthly (and now) *Manumiella*. This name was not validly published in Balteş (1969, p.34) since that author considered it to be provisional. Age: early Eocene.

druggii (Stover, 1974, p.171, pl.1, figs.3a–b,4; text-fig.3B) Bujak and Davies, 1983, p.161. Holotype: Stover, 1974, pl.1, figs.3a–b. Originally *Deflandrea*, subsequently *Isabelia* (combination illegitimate), thirdly *Isabelidinium*, fourthly (and now) *Manumiella*. Taxonomic senior synonym: *Broomea* (as and now *Manumiella*) *seelandica*, according to Firth (1987, p.213) — however, Thorn et al. (2009, p.443) retained *Manumiella druggii*. Taxonomic junior synonym: *Isabelidinium tingitanense*, according to Lentin and Williams (1985, p.201). Age: early-middle Paleocene.

?*hemmoorensis* Marheinecke, 1992, p.89–90, pl.18, figs.13–15; text-fig.18. Holotype: Marheinecke, 1992, pl.18, fig.13; text-fig.18. Questionable assignment: Marheinecke (1992, p.89). Contrary to the opinion of Lentin and Williams (1993, p.411), Williams et al. (1998, p.387) considered this name to be validly published. Age: early Maastrichtian.

"*hungarica*" Siegl-Farkas, 1997, p.81,88, pl.7, fig.7. **Name not validly published:** no description. Age: late Campanian.

lata (Cookson and Eisenack, 1968, p.110; figs.1A–C) Bujak and Davies, 1983, p.161. Holotype: Cookson and Eisenack, 1968, fig.1A. Originally *Deflandrea*, subsequently *Isabelia* (combination illegitimate), thirdly *Isabelidinium*, fourthly (and now) *Manumiella*. Age: ?Santonian–early Campanian.

minuta Marheinecke, 1992, p.91, pl.18, fig.12; text-fig.19. Holotype: Marheinecke, 1992, pl.18, fig.12; text-fig.19. Contrary to the opinion of Lentin and Williams (1993, p.411), Williams et al. (1998, p.387) considered this name to be validly published. Age: late early–early late Maastrichtian.

raijae (Kjellström, 1973, p.20–22, fig.16) Bujak and Davies, 1983, p.161. Holotype: Kjellström, 1973, fig.16. Originally *Deflandrea*, subsequently *Alterbia* (combination illegitimate), thirdly *Eurydinium*, fourthly (and now) *Manumiella*. Age: middle-late Maastrichtian.

rotunda Wilson, 1988, p.26, pl.16, figs.3a–c,4a–b. Holotype: Wilson, 1988, pl.16, figs.3a–c; Fensome et al., 1996, figs.1–3 — p.2335. Age: Paleocene.

**seelandica* (Lange, 1969, p.113–114, pl.2, fig.10; pl.3, fig.3) Bujak and Davies, 1983, p.162. Emendation: Firth, 1987, p.213–214, as *Manumiella seelandica*. Holotype: Lange, 1969, pl.3, fig.3; Fensome et al., 1995, fig.2 — p.1773. Originally *Broomea*, subsequently *Isabelia* (combination illegitimate), thirdly *Isabelidinium*, fourthly (and now) *Manumiella*. Taxonomic junior synonym: *Deflandrea* (as *Manumiella*) *druggii*, according to Firth (1987, p.213) — however Thorn et al. (2009, p.443) retained *Deflandrea* (as *Manumiella*) *druggii*. Age: Danian.

MATURODINIUM Morgenroth, 1970, p.353–354. Taxonomic senior synonym: *Dapcodinium*, according to Dörrhöfer and Davies (1980, p.23) — however, Lentin and Williams (1985, p.231) retained *Maturodinium*. Type: Morgenroth, 1970, pl.13, figs.5–6, as *Maturodinium inornatum*.

**inornatum* Morgenroth, 1970, p.354–355, pl.13, figs.5–8 (plate caption transposed with that of pl.12, fig.6). Holotype: Morgenroth, 1970, pl.13, figs.5–6; Fensome et al., 1993a, figs.1–2 — p.1237; figs.1–2 — p.1241. Originally (and now) *Maturodinium*, subsequently *Dapcodinium*. Lentin and Williams (1985, p.231) retained this species in *Maturodinium*. Age: late Pliensbachian.

subsp. *inornatum*. Autonym. Holotype: Morgenroth, 1970, pl.13, figs.5–6; Fensome et al., 1993a, figs.1–2 — p.1237; figs.1–2 — p.1241.

"var. *inornatum*". Autonym. Holotype: Morgenroth, 1970, pl.13, figs.5–6; Fensome et al., 1993a, figs.1–2 — p.1237; figs.1–2 — p.1241. **Now redundant.**

subsp. *reticulatum* (Below, 1987b, p.28, pl.7, figs.7–10,13,18; pl.8, figs.12–15) Lentin and Williams, 1989, p.235. Holotype: Below, 1987b, pl.7, figs.7–10,18; Fensome et al., 1993a, fig.3 — p.1237; figs.1–5 — p.1305. Originally *Maturodinium inornatum* var. *reticulatum*, subsequently (and now) *Maturodinium inornatum* subsp. *reticulatum*. Age: late Pliensbachian–Aalenian.

"var. *reticulatum*" Below, 1987b, p.28, pl.7, figs.7–10,13,18; pl.8, figs.12–15. Holotype: Below, 1987b, pl.7, figs.7–10,18; Fensome et al., 1993a, fig.3 — p.1237; figs.1–5 — p.1305. **NOW** *Maturodinium inornatum* subsp. *reticulatum*. Originally *Maturodinium inornatum* var. *reticulatum*, subsequently (and now) *Maturodinium inornatum* subsp. *reticulatum*. Age: late Pliensbachian–Aalenian.

MEIOUROGONYAULAX Sarjeant, 1966b, p.144. Taxonomic senior synonym: *Lithodinia*, according to Gocht (1975b, p.353) and Williams et al. (1993, p.54) — however, *Meiourogonyaulax* was retained by Riding and Helby (2001d, p.81,83). This name was not validly published in Sarjeant (1965, p.181), who did not provide a diagnosis. Type: Valensi, 1953, pl.12, figs.12–13, as *Gonyaulax* sp.

?*acanthosphaera* (Sarjeant, 1961a, p.94–95, pl.13, fig.14; text-fig.4) Sarjeant, 1976c, p.12. Emendation: Sarjeant, 1976c, p.12, as *Meiourogonyaulax?* *acanthosphaera*. Holotype: Sarjeant, 1961a, pl.13, fig.14; text-fig.4; Sarjeant, 1976c, pl.5, figs.2,4. Originally *Gonyaulax* (Appendix B), subsequently *Acanthogonyaulax* (combination not validly published), thirdly *Acanthaulax*, fourthly *Meiourogonyaulax*, fifthly (and now) *Meiourogonyaulax?*, sixthly *Lithodinia*, seventhly *Lithodinia?*. This species is here retained in *Meiourogonyaulax* following the retention of the genus by Riding and Helby (2001d, p.81,83). Questionable assignment: Sarjeant (1976c, p.12). Age: early Oxfordian.

amlasis Below, 1981a, p.58, pl.6, figs.14–15,16a–b. Holotype: Below, 1981a, pl.6, figs.16a–b; Fensome et al., 1991, figs.3–4 — p.567. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. This species is here retained in *Meiourogonyaulax* following the retention of the genus by Riding and Helby (2001d, p.81,83). Age: Hauterivian.

araneosa Muir and Sarjeant, 1978, p.197–198, pl.1, fig.1; text-fig.1. Holotype: Muir and Sarjeant, 1978, pl.1, fig.1; text-fig.1. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*, thirdly *Lithodinia?*. This species is here retained in *Meiourogonyaulax* following the retention of the genus by Riding and Helby (2001d, p.81,83). Age: middle Callovian.

baculata Mantle, 2009a, p.59, pl.14, figs.4a–b,5–6; text-fig.12C. Holotype: Mantle, 2009a, pl.14, figs.4a–b. Age: Callovian.

bathonica (Conway, 1978, p.349, pl.2, figs.4–5;7–8) Fensome and Williams, 2004, p.421. Holotype: Conway, 1978, pl.2, figs.4–5. Originally *Lithodinia*, subsequently (and now) *Meiourogonyaulax*. This combination was not validly published in Conway (1990, p.32) since that author did not fully reference the basionym. Age: late Bathonian.

bejui Zotto et al., 1987, p.199–202, pl.1, figs.1a–b,2a–c,3; text-figs.5a–c. Holotype: Zotto et al., 1987, pl.1, figs.1a–b. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. This species is here retained in *Meiourogonyaulax* following the retention of the genus by Riding and Helby (2001d, p.81,83). Age: Kimmeridgian.

borealis Sarjeant, 1980b, p.123–124. Holotype: Sarjeant, 1972, pl.5, fig.3; text-fig.5, as *Meiourogonyaulax decapitata*. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. This species is here retained in *Meiourogonyaulax* following the retention of the genus by Riding and Helby (2001d, p.81,83). Taxonomic junior synonym: *Lithodinia arktika*, according to Riley and Fenton (1982, p.200). Age: late Bathonian.

bulloidea (Cookson and Eisenack, 1960b, p.247, pl.37, fig.11; text-figs.4a–b) Sarjeant, 1969, p.14. Emendation: Riding and Helby, 2001g, p.206, as *Meiourogonyaulax bulloidea*. Holotype: Cookson and Eisenack, 1960b, pl.37, fig.11. Originally *Gonyaulax* (Appendix B), subsequently (and now) *Meiourogonyaulax*, thirdly *Lithodinia*. This species is here retained in *Meiourogonyaulax* following the retention of the genus by Riding and Helby (2001d,

p.81,83). Backhouse (1988, p.95) considered *Meiourogonyaulax stoveri* to be the possible taxonomic senior synonym of this species. Age: Tithonian.

callomonii Sarjeant, 1972, p.31–33, pl.5, fig.5; text-fig.6. Holotype: Sarjeant, 1972, pl.5, fig.5; text-fig.6. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. This species is here retained in *Meiourogonyaulax* following the retention of the genus by Riding and Helby (2001d, p.81,83). Age: late Bathonian–early Callovian.

"?**cantrellii**" Sarjeant, 1972, p.37–38, pl.4, fig.3; pl.6, figs.1–2; text-fig.8. Holotype: Sarjeant, 1972, pl.4, fig.3; pl.6, figs.1–2; text-fig.8. **NOW** *Lanterna*. Originally *Meiourogonyaulax*?, subsequently *Lithodinia*?, thirdly *Lanterna*, fourthly and now *Lanterna*?. Questionable assignment: Sarjeant (1972, p.37). Age: late Bathonian.

caytonensis (Sarjeant, 1959, p.330–332, pl.13, fig.1; text-fig.1) Sarjeant, 1969, p.14. Holotype: Sarjeant, 1959, pl.13, fig.1; text-fig.1. Originally *Gonyaulax* (Appendix B), subsequently (and now) *Meiourogonyaulax*, thirdly *Lithodinia*. This species is here retained in *Meiourogonyaulax* following the retention of the genus by Riding and Helby (2001d, p.81,83). This combination, as a questionable assignment, was not validly published in Sarjeant (1966b, p.146), since that author did not fully reference the basionym. Age: early Callovian.

cristulata (Sarjeant, 1959, p.332–334, pl.13, fig.2; text-fig.2) Sarjeant, 1969, p.14. Holotype: Sarjeant, 1959, pl.13, fig.2; text-fig.2. Originally *Gonyaulax*? (Appendix B), subsequently *Meiourogonyaulax*?, thirdly *Lithodinia*?, fourthly (and now) *Meiourogonyaulax*, fifthly *Lithodinia*. This species is here retained in *Meiourogonyaulax* following the retention of the genus by Riding and Helby (2001d, p.81,83). Questionable assignment: Sarjeant (1969, p.14) — however, Stover and Evitt (1978, p.63) retained it in *Meiourogonyaulax* without question. This combination was not validly published in Sarjeant (1966b, p.146), since that author did not fully reference the basionym. Age: early Callovian.

"?**decapitata**" (Wetzel, 1967a, p.869, pl.16, figs.7a–b) Sarjeant, 1969, p.14. Emendation: Sarjeant, 1980b, p.121, as *Meiourogonyaulax decapitata*. Holotype: Wetzel, 1967a, pl.16, figs.7a–b; Sarjeant, 1980b, pl.3, figs.1–3; text-fig.3; Dietz et al., 1999, text-fig.5b. Originally *Gonyaulax* (Appendix B), subsequently *Meiourogonyaulax*, thirdly *Lithodinia*, fourthly *Meiourogonyaulax*?. Questionable assignment: Stover and Evitt (1978, p.63) as a problematic species. **Taxonomic senior synonym:** *Meiourogonyaulax* (as *Lithodinia*) *valensii*, according to Fenton (1981, p.253) and Williams et al. (1993, p.56). Age: Bajocian.

deflandrei Sarjeant, 1968, p.228–229, pl.1, fig.20; pl.3, fig.13; text-fig.4. Holotype: Sarjeant, 1968, pl.1, fig.20; text-fig.4. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. This species is here retained in *Meiourogonyaulax* following the retention of the genus by Riding and Helby (2001d, p.81,83). Age: late Callovian.

diaphana Stevens, 1987, p.191–192, figs.4A–K,6A–B,7A–D. Holotype: Stevens, 1987, figs.4A–D,6A–B; Fensome et al., 1996, figs.1–3,9–10 — p.2111. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*?. This species is here retained in *Meiourogonyaulax* following the retention of the genus by Riding and Helby (2001d, p.81,83). Age: early Berriasian.

"?**dicrypta**" Gitmez and Sarjeant, 1972, p.225–226, pl.7, fig.6; text-fig.22. Holotype: Gitmez and Sarjeant, 1972, pl.7, fig.6; text-fig.22. **NOW** *Escharisphaeridia*. Originally *Meiourogonyaulax*, subsequently *Lithodinia*, thirdly *Meiourogonyaulax*?, fourthly *Canningia*?, fifthly (and now) *Escharisphaeridia*. Questionable assignment: Stover and Evitt (1978, p.63) as a problematic species. Age: early–late Kimmeridgian.

distincta Smith and Harding, 2004, p.363,365,367, pl.4, figs.1–5; pl.5, figs.7–11; text-figs.3,4a–d. Holotype: Smith and Harding, 2004, pl.4, figs.1–2. Age: early Valanginian.

ghermanii Beju, 1971, p.287–288, pl.4, figs.1–3; text-fig.4. Holotype: Beju, 1971, pl.4, fig.1; text-fig.4. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. This species is here retained in *Meiourogonyaulax* following the retention of the genus by Riding and Helby (2001d, p.81,83). Age: Callovian–early Oxfordian.

insulofigurata Dodekova, 1975, p.21–22, pl.2, figs.4–5,7–8; text-figs.3a–c. Holotype: Dodekova, 1975, pl.2, figs.4–5. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*, thirdly *Lithodinia*?. This species is

here retained in *Meiourogonyaulax* following the retention of the genus by Riding and Helby (2001d, p.81,83). Age: late Bathonian.

maculata Backhouse, 1988, p.96, pl.32, figs.8,9a–b,10–11; text-figs.29A–B. Holotype: Backhouse, 1988, pl.32, figs.9a–b; text-figs.29A–B; Fensome et al., 1996, figs.2–3,6–7 — p.2217. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. This species is here retained in *Meiourogonyaulax* following the retention of the genus by Riding and Helby (2001d, p.81,83). Age: early Barremian.

"membranacea" Wilson in Slimani, 2001a, p.193. **Name not validly published:** no description. **Taxonomic senior synonym:** *Membranigonyaulax wilsonii*, according to Slimani (2001a, p.193).

"mitra" Dürr, 1987, p.74,77, figs.3a–b; fig.4, nos.3–6; fig.6, nos.1–3,5. Holotype: Dürr, 1987, fig.4, no.3; Dürr, 1988, pl.1, fig.5. **NOW** *Semicavidinium*. Originally *Meiourogonyaulax*, subsequently *Lithodinia*, thirdly (and now) *Semicavidinium*. N.I.A. Age: middle Kimmeridgian.

mombasaensis Mungai in Jiang Qinghua et al., 1992, p.87, pl.2, figs.1–2; text-figs.3a–c. Holotype: Jiang Qinghua et al., 1992, pl.2, fig.1. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. This species is here retained in *Meiourogonyaulax* following the retention of the genus by Riding and Helby (2001d, p.81,83). Age: Kimmeridgian–Tithonian.

penitabulata Riding and Helby, 2001d, p.83,85,87, figs.11A–M,12A–I. Holotype: Riding and Helby, 2001d, figs.11I–J. Age: late Callovian.

pertusa (Duxbury, 1977, p.41–43, pl.8, fig.5; text-fig.15) Below, 1981a, p.57. Holotype: Duxbury, 1977, pl.8, fig.5; text-fig.15; Fensome et al., 1991, figs.1–3 — p.709; figs.1–3 — p.711. Originally *Lithodinia*, subsequently (and now) *Meiourogonyaulax*. This combination was not validly published in Fisher and Riley (1976, p.52), since these authors did not fully reference the basionym. Age: late Berriasian–early Hauterivian.

subsp. **heta** Below, 1981a, p.56–57, pl.3, figs.7a–b,8a–b; pl.11, fig.21; pl.14, figs.1–4; text-figs.59a–b,60. Holotype: Below, 1981a, pl.3, figs.8a–b; Fensome et al., 1991, figs.3–4 — p.647; figs.4–5 — p.709. Originally (and now) *Meiourogonyaulax heta* subsp. *pertusa*, subsequently *Lithodinia pertusa* subsp. *heta*. Age: Hauterivian.

subsp. **pertusa**. Autonym. Holotype: Duxbury, 1977, pl.8, fig.5; text-fig.15; Fensome et al., 1991, figs.1–3 — p.709; figs.1–3 — p.711. Originally (and now) *Meiourogonyaulax pertusa* subsp. *pertusa*, subsequently *Lithodinia pertusa* subsp. *pertusa*.

pila Gitmez and Sarjeant, 1972, p.226–227, pl.4, fig.5; pl.7, fig.3; text-fig.23. Holotype: Gitmez and Sarjeant, 1972, pl.4, fig.5; text-fig.23. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. This species is here retained in *Meiourogonyaulax* following the retention of the genus by Riding and Helby (2001d, p.81,83). N.I.A. Age: middle-late Kimmeridgian.

planoseptata Riding, 1987a, p.262, fig.9, nos.9–12; fig.13. Holotype: Riding, 1987a, fig.9, nos.9–10. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. This species is here retained in *Meiourogonyaulax* following the retention of the genus by Riding and Helby (2001d, p.81,83). Age: early Callovian.

"?predae" Beju, 1971, p.288–289, pl.4, figs.4a–b,5–7; text-fig.5. Emendations: Drugg, 1978, p.64 and Below, 1990, p.45–46, both as *Carpathodinium predae*. Holotype: Beju, 1971, pl.4, figs.4a–b; text-fig.5; Eisenack and Kjellström, 1975b, p.792d; Fensome et al., 1995, figs.1–4 — p.1679. **NOW** *Carpathodinium*. Originally *Meiourogonyaulax?*, subsequently *Lithodinia?*, thirdly (and now) *Carpathodinium*. Questionable assignment: Beju (1971, p.288). Age: Callovian–early Oxfordian.

"protothymosa" Helby in Riding and Helby, 2001d, p.81. **Name not validly published:** no description. **Taxonomic senior synonym:** *Lithodinia protothymosa*, according to Riding and Helby (2001d, p.81).

psora Davey and Verdier, 1974, p.634,636, pl.92, figs.8–9. Holotype: Davey and Verdier, 1974, pl.92, fig.9. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. This species is here retained in *Meiourogonyaulax* following the retention of the genus by Riding and Helby (2001d, p.81,83). N.I.A. Age: Aptian.

reticulata Dodekova, 1975, p.22–23, pl.2, figs.11–13; text-fig.4. Holotype: Dodekova, 1975, pl.2, figs.11–12. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. This species is here retained in *Meiourogonyaulax* following the retention of the genus by Riding and Helby (2001d, p.81,83). Age: late Bathonian.

?rioultii Sarjeant, 1965, p.181, pl.1, fig.1; text-fig.1 ex Sarjeant, 1968, p.229. Holotype: Sarjeant, 1965, pl.1, fig.1. Originally *Meiourogonyaulax*, subsequently *Lithodinia*, thirdly (and now) *Meiourogonyaulax?*, fourthly *Lithodinia?*. This species is here retained in *Meiourogonyaulax* following the retention of the genus by Riding and Helby (2001d, p.81,83). Questionable assignment: Stover and Evitt (1978, p.63) as a problematic species. This name was not validly published in Sarjeant (1965, p.181) since the genus *Meiourogonyaulax* was not validly published until 1966. Age: early Callovian.

"sagena" (Duxbury, 1980, p.127, pl.3, figs.6,9,12–13) Lentin and Williams, 1981, p.182. Emendation: Harding, 1990b, p.35, as *Meiourogonyaulax sagena*. Holotype: Duxbury, 1980, pl.3, figs.6,9,12. **NOW** *Ellipsoidictyum*. Originally *Lithodinia*, subsequently *Meiourogonyaulax*, thirdly (and now) *Ellipsoidictyum*. N.I.A. Age: middle-late Barremian.

spongiosa Smelror, 1987, p.230,232, figs.5A–G; text-fig.3. Holotype: Smelror, 1987, fig.5B. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. This species is here retained in *Meiourogonyaulax* following the retention of the genus by Riding and Helby (2001d, p.81,83). Age: late Callovian.

"staffinensis" Gitmez, 1970, p.276–278, pl.3, fig.1; text-figs.20A–B. Emendation: Poulsen and Riding, 1992, p.26, as *Ambonosphaera? staffinensis*. Holotype: Gitmez, 1970, pl.3, fig.1; text-figs.20A–B; Poulsen and Riding, 1992, pl.1, fig.6; text-figs.1A–B. **NOW** *Ambonosphaera?*. Originally *Meiourogonyaulax*, subsequently *Lithodinia*, thirdly *Polygonifera*, fourthly (and now) *Ambonosphaera?*, fifthly *Lithodinia?*. Taxonomic junior synonyms: *Senoniasphaera? frisia*, according to Poulsen and Riding (1992, p.26); *Hexagonifera* (now *Senoniasphaera*) *jurassica*, according to Williams et al. (1993, p.32) — however, elsewhere in the same publication, Williams et al. (1993, p.56) retained *Hexagonifera* (now *Senoniasphaera*) *jurassica*. Age: early Kimmeridgian.

stoveri Millioud, 1969, p.429, pl.3, figs.1–3. Holotype: Millioud, 1969, pl.3, figs.1–2. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. This species is here retained in *Meiourogonyaulax* following the retention of the genus by Riding and Helby (2001d, p.81,83). Backhouse (1988, p.95) considered *Gonyaulax* (as and now *Meiourogonyaulax*) *bulloidea* to be the possible taxonomic senior synonym of this species. Age: early Hauterivian–early Aptian.

straussii Mantle and Riding, 2012, p.57–58,61, pl.1, figs.1–16. Holotype: Mantle and Riding, 2012, pl.1, figs.5–6. Age: late Bajocian–early Bathonian.

strongyla Sarjeant, 1972, p.35–37, pl.4, fig.7; text-fig.7. Holotype: Sarjeant, 1972, pl.4, fig.7; text-fig.7. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*, thirdly *Lithodinia?*. This species was retained in *Meiourogonyaulax* by Fensome and Williams (2004, p.424) following the retention of the genus by Riding and Helby (2001d, p.81,83). Sarjeant (1972) cited the epithet as "*strongylos*", the Greek adjective for rounded. Since Principle 5 of the I.C.N. states that taxon names are to be treated as Latin, this epithet should be rendered as "*strongyla*", in agreement with the feminine gender of the generic name ("*strongylum*" would be the neuter form, and "*strongylus*" the masculine form). Age: Bathonian.

superornata (Wetzel, 1967a, p.869–870, pl.16, figs.8a–b) Sarjeant, 1969, p.15. Emendation: Sarjeant, 1980b, p.124–125, as *Meiourogonyaulax superornata*. Holotype: Wetzel, 1967a, pl.16, figs.8a–b; Sarjeant, 1980b, pl.1, figs.2–3; text-fig.4; Dietz et al., 1999, text-fig.5c. Originally *Gonyaulax* (Appendix B), subsequently (and now) *Meiourogonyaulax*, thirdly *Gonyaulacysta?*, fourthly *Lithodinia*, fifthly *Lithodinia?*. This species is here retained in *Meiourogonyaulax* following the retention of the genus by Riding and Helby (2001d, p.81,83). Age: late Bathonian.

**valensii* Sarjeant, 1966b, p.145–146, pl.15, fig.7; text-fig.37. Holotype: Valensi, 1953, pl.2, figs.12–13 (as *Gonyaulax* sp.); Sarjeant, 1966b, pl.15, fig.7; text-fig.37. Originally (and now) *Meiourogonyaulax*, subsequently *Lithodinia*. This species is here retained in *Meiourogonyaulax* following the retention of the genus by Riding and Helby (2001d, p.81,83). Taxonomic junior synonym: *Lithodinia decapitata*, according to Fenton (1981, p.253) and Williams et al. (1993, p.56). Age: Bathonian.

viriosa Riding and Helby, 2001d, p.87,89, figs.13A–L. Holotype: Riding and Helby, 2001d, figs.13K. Age: late Callovian.

MELITASPHAERIDIUM Harland and Hill, 1979, p.38–39. Type: Deflandre and Cookson, 1955, text-figs.23–26, as *Hystrichosphaeridium choanophorum*.

"*aequabile*" Matsuoka, 1983b, p.114–115, pl.3, figs.7a–b,8a–b,9a–b; pl.4, figs.3a–c; text-figs.9A–B. Holotype: Matsuoka, 1983b, pl.3, figs.7a–b. **Taxonomic senior synonym:** *Melitasphaeridium choanophorum*, according to Harland, Head and Wrenn in Head and Wrenn (1992, p.10). Age: late Miocene.

angustum Matsuoka, 1983b, p.115–116, pl.3, figs.6a–b; pl.4, figs.1a–b,2a–b,4. Holotype: Matsuoka, 1983b, pl.4, figs.2a–b. Age: Pliocene–early Pleistocene.

asterium (Eaton, 1976, p.273, pl.11, figs.7–10) Bujak et al., 1980, p.30. Holotype: Eaton, 1976, pl.11, figs.7–8; Bujak et al., 1980, pl.2, fig.3. Originally *Hystrichosphaeridium*, subsequently (and now) *Melitasphaeridium*. Age: middle Eocene (see Aubry, 1986).

**choanophorum* (Deflandre and Cookson, 1955, p.271–272; text-figs.23–29) Harland and Hill, 1979, p.39. Emendation: Harland and Hill, 1979, p.39,41, as *Melitasphaeridium choanophorum*. Holotype: Deflandre and Cookson, 1955, text-figs.23–26; Fensome et al., 1993a, figs.1–4 — p.1055. Originally *Hystrichosphaeridium*, subsequently (and now) *Melitasphaeridium*. Taxonomic junior synonym: *Melitasphaeridium aequabile*, according to Harland, Head and Wrenn in Head and Wrenn (1992, p.10). Age: Pliocene.

var. *choanophorum*. Autonym. Holotype: Deflandre and Cookson, 1955; text-figs.23–26; Fensome et al., 1993a, figs.1–4 — p.1055.

var. *reductum* Strauss and Lund, 1992, p.165–166, pl.2, figs.12–14; text-fig.2. Holotype: Strauss and Lund, 1992, pl.2, figs.13–14. Age: middle Miocene.

pseudorecurvatum (Morgenroth, 1966a, p.30–31, pl.8, figs.5–6) Bujak et al., 1980, p.30. Holotype: Morgenroth, 1966a, pl.8, fig.5. Originally *Hystrichosphaeridium*, subsequently *Operculodinium*, thirdly (and now) *Melitasphaeridium*. Taxonomic junior synonym: *Hystrichosphaeridium sheppeyense*, according to Stover and Evitt (1978, p.179). Age: early Eocene.

?*simpulum* Islam, 1983a, p.241, pl.3, figs.10–11. Holotype: Islam, 1983a, pl.3, fig.11. Questionable assignment: Islam (1983a, p.241). Age: early Eocene.

?*variabile* He Chengquan, 1991, p.170–171, pl.59, fig.4. Holotype: He Chengquan, 1991, pl.59, fig.4. Questionable assignment: He Chengquan (1991, p.170). Age: middle Eocene.

MELODOMUNCULA Versteegh, 1993, p.371. Emendation: Streng et al., 2009, p.232. Calcareous dinoflagellate genus (see Elbrächter et al., 2008, p.1300). Type: Versteegh, 1993, pl.6, figs.1–3,7, as *Melodomuncula berlinensis*.

**berlinensis* Versteegh, 1993, p.371,372, pl.6, figs.1–7; text-figs.7A–D. Holotype: Versteegh, 1993, pl.6, figs.1–3,7. Age: late Pleistocene.

MEMBRANIGONYAULAX Slimani, 1994, p.19. Type: Slimani, 1994, pl.2, figs.17–18; text-figs.5A–B, as *Membranigonyaulax wilsonii*.

granulata Slimani, 1994, p.20–21, pl.2, figs.1–9. Holotype: Slimani, 1994, pl.2, figs.1–2. Age: early Campanian–early Maastrichtian.

prominenseptata Slimani, 1994, p.21–22, pl.2, figs.13–14,21–23. Holotype: Slimani, 1994, pl.2, figs.21–23. Age: late Campanian.

***wilsonii** Slimani, 1994, p.22–23, pl.2, figs.10–12,17–18,36–37; text-figs.5A–B. Holotype: Slimani, 1994, pl.2, figs.17–18; text-figs.5A–B. Taxonomic junior synonyms: *Meiourogonyaaulax membranacea* (name not validly published), according to Slimani (2001a, p.193); *Microdinium? sincfalense*, according to Slimani and Louwye (2012, p.110,113). Age: early Campanian–early Maastrichtian.

MEMBRANILARNACIA Eisenack, 1963a, p.99. Emendation: Williams and Downie, 1966c, p.219. Taxonomic senior synonym: *Membranilarnax*, by implication in Downie and Sarjeant (1965, p.130) who questionably transferred the "type species" of *Membranilarnax*, *Membranilarnax pterospermoides*, to *Membranilarnacia* — however, Lentin and Williams (1973, p.92) retained *Membranilarnax*. Type: Cookson and Eisenack, 1958, pl.10, fig.9, as *Membranilarnax leptoderma*.

"**amalthei**" Wetzel, 1966, p.318, pl.31, fig.6. Emendation: Sarjeant, 1980b, p.117–118, as *Scriniodinium amalthei*. Holotype: Wetzel, 1966, pl.31, fig.6. **NOW** *Scriniodinium?*. Originally *Membranilarnacia*, subsequently *Membranilarnacia?*, thirdly *Scriniodinium*, fourthly *Endoscrinium*, fifthly (and now) *Scriniodinium?*. Questionable assignment: Stover and Evitt (1978, p.64) and Jan du Chêne et al. (1986a, p.317). Age: late Pliensbachian.

angustivela (Deflandre and Cookson, 1955, p.290, pl.7, figs.4–5) McMinn, 1988, p.150. Holotype: Deflandre and Cookson, 1955, pl.7, fig.4; McMinn, 1988, fig.8C. Originally *Membranilarnax*, subsequently *Samlandia*, thirdly (and now) *Membranilarnacia*. Taxonomic junior synonym: *Samlandia solida* (name not validly published), according to May (1980, p.24) — however, see discussion under *Samlandia solida*. Age: Eocene.

australis (Pöthe de Baldis, 1966, p.225, pl.1, fig.h) Eisenack and Kjellström, 1972, p.797. Holotype: Pöthe de Baldis, 1966, pl.1, fig.h. Originally *Membranilarnax*, subsequently *Cyclonephelium*, thirdly *Membranilarnacia*, fourthly (and now) *Membranilarnacia?*. Questionable assignment: Stover and Evitt (1978, p.64). Age: Early Tertiary.

"**characta**" (Tasch in Tasch et al., 1964, p.192, pl.1, fig.20) Eisenack and Kjellström, 1972, p.799. Holotype: Tasch et al., 1964, pl.1, fig.20. Originally *Membranilarnax*, subsequently *Membranilarnacia?*. **Taxonomic senior synonym:** *Schizosporis reticulata* Cookson and Dettmann, 1959, a zygnetacean zygospore species, according to Pierce (1976, p.27). Questionable assignment: Eisenack and Kjellström (1972, p.799). Age: Albian.

choneta Xu Jinli et al., 1997, p.111, pl.10, figs.3–9 ex He Chengquan et al. 2009, p.352–353,656–657. Holotype: Xu Jinli et al., 1997, pl.10, fig.3. The name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided: He Chengquan et al. (2009, p.657) validated the name by publishing an English diagnosis. Age: middle-late Eocene.

compressa Bujak, 1994, p.127, pl.3, figs.5–6. Holotype: Bujak, 1994, pl.3, figs.5–6. Age: Ypresian.

"**delicata**" Kar, 1979, p.35, pl.4, figs.70–71. Holotype: Kar, 1979, pl.4, fig.70. **Taxonomic senior synonym:** *Hystrichosphaeridium* (as and now *Polysphaeridium*) *zoharyi*, according to Jain and Garg (1991, p.82). Taxonomic senior synonym: *Hystrichosphaeridium* (as *Operculodinium*) *centrocarpum*, according to Jain (1980, p.140) — however, *Membranilarnacia delicata* is now considered a taxonomic junior synonym of *Hystrichosphaeridium* (now *Polysphaeridium*) *zoharyi*. Age: Oligocene.

"*densa*" Cookson and Eisenack, 1974, p.71, pl.25, fig.19; pl.29, fig.19. Holotype: Cookson and Eisenack, 1974, pl.25, fig.19. **Taxonomic senior synonym:** *Membranilarnax* (as *Valensiella?*) *clathroderma*, according to Stover and Evitt (1978, p.64). Age: late Eocene.

"*diktyophora*" Agelopoulos, 1967, p.49–50, pl.12, figs.3–4,6. Holotype: Agelopoulos, 1967, pl.12, fig.4. **Taxonomic senior synonym:** *Cannosphaeropsis* (now *Eatonicysta*) *ursulae*, according to Eaton (1976, p.277). Lachkar and Masure in Fauconnier and Masure (2004, p.389) considered this to be a problematic species, but apparently also accepted the synonymy cited above. Age: late Eocene.

"*donaensis*" Saxena and Rao, 1984, p.55, pl.1, figs.8–9. Holotype: Saxena and Rao, 1984, pl.1, fig.8. **Taxonomic senior synonym:** *Pterospermopsis* (as and now *Tuberculodinium*) *vancampoae*, according to Jain and Garg (1990, p.108). Age: early Miocene.

fibrosa Jiabo, 1978, p.91–92, pl.28, figs.1–12. Holotype: Jiabo, 1978, pl.28, fig.1. Age: Early Tertiary.

"*?formosa*" (Tasch in Tasch et al., 1964, p.192, pl.1, fig.23) Eisenack and Kjellström, 1972, p.801. Holotype: Tasch et al., 1964, pl.1, fig.23. Originally *Membranilarnax*, subsequently *Membranilarnacia?*. **Taxonomic senior synonym:** *Schizosporis reticulata* Cookson and Dettmann, 1959, a zygnematacean zygosporic species, according to Pierce (1976, p.27). Questionable assignment: Eisenack and Kjellström (1972, p.801). Age: Albian.

"*?gigantea*" (Tasch in Tasch et al., 1964, p.192, pl.2, fig.13) Eisenack and Kjellström, 1972, p.803. Holotype: Tasch et al., 1964, pl.2, fig.13. Originally *Membranilarnax*, subsequently *Membranilarnacia?*. **Taxonomic senior synonym:** *Schizosporis reticulata* Cookson and Dettmann, 1959, a zygnematacean zygosporic species, according to Pierce (1976, p.27). Questionable assignment: Eisenack and Kjellström (1972, p.803). Age: Albian.

glabra Agelopoulos, 1967, p.47–49, pl.12, fig.5; pl.13, figs.2–9; text-fig.6. Holotype: Agelopoulos, 1967, pl.12, fig.5; text-fig.6. Age: late Eocene.

hapala (Schjøler and Wilson, 1993, p.346–347, pl.2, figs.1–7; text-figs.12a–b) Lachkar and Masure in Fauconnier and Masure, 2004, p.387. Holotype: Schjøler and Wilson, 1993, pl.2, fig.6. Originally *Eatonicysta*, subsequently (and now) *Membranilarnacia*. This name (not as a new combination, formal or proposed, attributed to an unpublished thesis) was not validly published in Slimani (2001a, p.192). Age: late Campanian–early Maastrichtian.

**leptoderma* (Cookson and Eisenack, 1958, p.50–51, pl.10, figs.7,9) Eisenack, 1963a, p.101. Holotype: Cookson and Eisenack, 1958, pl.10, fig.9; Fauconnier and Masure, 2004, pl.54, fig.1. Originally *Membranilarnax*, subsequently (and now) *Membranilarnacia*. Age: Albian.

"*?liradiscoides*" (Wetzel, 1933b, p.52–53, pl.6, figs.3a–b) Downie and Sarjeant, 1965, p.129. Emendation: Marheinecke, 1992, p.116, as *Membranilarnax liradiscoides*. Holotype: not designated. Lectotype: Wetzel, 1933b, pl.6, fig.3a (specimen to right), designated by Lentin and Williams (1989, p.239). **NOW** *Membranilarnax*. Originally (and now) *Membranilarnax*, subsequently *Membranilarnacia*, thirdly *Membranilarnacia?*. Questionable assignment: Stover and Evitt (1978, p.64) as a problematic species. Age: Late Cretaceous.

?marina (Kufferath, 1950, p.34; text-fig.40) Downie and Sarjeant, 1965, p.129. Holotype: Kufferath, 1950, text-fig.40. Originally *Membranilarnax*, subsequently (and now) *Membranilarnacia?*. Questionable assignment: Downie and Sarjeant (1965, p.129); and Lachkar and Masure in Fauconnier and Masure (2004, p.389) as a problematic species. Age: Holocene.

?minuta de Coninck, 1969, p.43, pl.12, figs.13–14. Holotype: de Coninck, 1969, pl.12, figs.13–14; Fauconnier and Masure, 2004, pl.54, figs.8–9. Originally *Membranilarnacia*, subsequently (and now) *Membranilarnacia?*. Questionable assignment: Stover and Evitt (1978, p.64). Age: early Eocene.

"*multifibrata*" Wilson in Slimani, 1994, p.114. **Name not validly published:** no description or illustration. **Taxonomic senior synonym:** *Membranilarnacia polycladiata*, according to Slimani (2001a, p.193).

?*ovalis* Cookson and Eisenack, 1974, p.72, pl.29, fig.21. Holotype: Cookson and Eisenack, 1974, pl.29, fig.21; Fauconnier and Masure, 2004, pl.54, fig.7. Originally *Membranilarnacia*, subsequently (and now) *Membranilarnacia*?. Questionable assignment: Stover and Evitt (1978, p.64). Age: Senonian.

paucitubata He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.52, pl.22, figs.15–17. Holotype: He Chengquan et al., 1989, pl.22, fig.15. Taxonomic junior synonym: *Membranilarnacia biornata*, according to Mao Shaozhi et al. (1995, p.44) — however, He Chengquan et al. (2009, p.366) retained that species as *Songiella biornata*. Age: Early Tertiary.

pellucida Yu Jingxian and Zhang Wangping, 1980, p.110, pl.3, figs.14–15. Holotype: Yu Jingxian and Zhang Wangping, 1980, pl.3, fig.14. Age: Cenomanian–early Turonian.

?*picena* Biffi and Manum, 1988, p.190,192, pl.7, figs.1–3,5–7,9,12. Emendation: Zevenboom and Santarelli in Zevenboom, 1995, p.151, as *Ectosphaeridium picenum*. Holotype: Biffi and Manum, 1988, pl.7, figs.1,5,9,12; Fauconnier and Masure, 2004, pl.54, figs.12–13. Originally (and now) *Membranilarnacia*, subsequently *Ectosphaeridium* (combination not validly published). Questionable assignment: Biffi and Manum (1988, p.192). Age: early Miocene.

?*pirus* (Deunff, 1959, p.35–36, pl.10, figs.90–93) Downie and Sarjeant, 1965, p.130. Holotype: Deunff, 1959, pl.10, fig.93. Originally *Membranilarnax*?, subsequently (and now) *Membranilarnacia*?. Questionable assignment: Downie and Sarjeant (1965, p.130); and Lachkar and Masure in Fauconnier and Masure (2004, p.389) as a problematic species. This species probably represents acritarchs. N.I.A. Age: Ordovician (Caradoc).

polycladiata Cookson and Eisenack in Eisenack, 1963a, p.100. Holotype: Cookson and Eisenack, 1958, p.51, pl.10, fig.8, as *Membranilarnax* sp. Taxonomic junior synonym: *Membranilarnacia multifibrata* (name not validly published), according to Slimani (2001a, p.193). Age: Albian.

pterococcoides (Wetzel, 1933b, p.53, pl.6, fig.4) Eisenack, 1963a, p.102. Emendation: Sarjeant, 1985b, p.154–155, as *Eatonicysta pterococcoides*. Holotype: Wetzel, 1933b, pl.6, fig.4; Sarjeant, 1985b, pl.4, figs.3,6 (not 1–2); Dietz et al., 1999, fig.10, no.3. Originally *Membranilarnax*, subsequently (and now) *Membranilarnacia*, thirdly *Membranilarnacia*?, fourthly *Eatonicysta*. This species was retained in *Membranilarnacia* without question by Lachkar and Masure in Fauconnier and Masure (2004, p.388). Questionable assignment: Stover and Evitt (1978, p.64) as a problematic species. Age: Senonian.

"?subsp. *minuta*" (Rozen, 1965, p.312–313, pl.2, figs.4–5; text-figs.23–24) Lentin and Williams, 1973, p.92. **Name not validly published**; holotype not designated. Originally *Membranilarnacia pterococcoides* var. *minuta* (name not validly published) subsequently *Membranilarnacia pterococcoides* subsp. *minuta* (name not validly published), thirdly *Eatonicysta pterococcoides* subsp. *minuta* (name not validly published), fourthly *Membranilarnacia pterococcoides*? subsp. *minuta*. Questionable assignment: Lachkar and Masure in Fauconnier and Masure (2004, p.389) as a problematic taxon. Age: late Eocene.

"var. *minuta*" Rozen, 1965, p.312–313, pl.2, figs.4–5; text-figs.23–24. **Name not validly published**: holotype not designated. Originally *Membranilarnacia pterococcoides* var. *minuta* (name not validly published), subsequently *Membranilarnacia pterococcoides* subsp. *minuta* (name not validly published), thirdly *Eatonicysta pterococcoides* subsp. *minuta* (name not validly published). Age: late Eocene.

"?*pterospermoides*" (Wetzel, 1933b, p.52, pl.6, figs.1–2) Downie and Sarjeant, 1965, p.130. Emendation: Sarjeant, 1985b, p.152, as *Membranilarnax pterospermoides*. Holotype: Wetzel, 1933b, pl.6, fig.2 (not fig.1); Sarjeant, 1985b, pl.6, figs.3–4; Fensome et al., 1995, fig.1 — p.1715. **Combination illegitimate**: this is the "type species" of the senior name *Membranilarnax*. **NOW** *Membranilarnax*. Originally (and now) *Membranilarnax*, subsequently *Membranilarnacia*? (combination illegitimate). Questionable assignment: Downie and Sarjeant (1965, p.130). Age: Late Cretaceous.

regulata (Jiabo, 1978, p.78, pl.27, figs.1–2) He Chengquan et al., 2009, p.354. Holotype: Jiabo, 1978, pl.27, fig.1. Originally *Cyclonephelium*, subsequently *Membranophoridium*?, thirdly (and now) *Membranilarnacia*. Age: Early Tertiary.

"reticulata" Williams and Downie, 1966c, p.220–221, pl.24, figs.4,6; text-fig.59. Holotype: Williams and Downie, 1966c, pl.24, fig.4; Bujak et al., 1980, pl.10, figs.3–4. **Taxonomic senior synonym:** *Cannosphaeropsis* (now *Eatonicysta*) *ursulae*, according to de Coninck (1969, p.43) and Gocht (1969, p.65). Lachkar and Masure in Fauconnier and Masure (2004, p.390) considered this to be a problematic species, but apparently also accepted the synonymy cited above. Age: early Eocene.

"reticulovata" (Tasch in Tasch et al., 1964, p.192, pl.2, fig.3) Eisenack and Kjellström, 1972, p.811. Holotype: Tasch et al., 1964, pl.2, fig.3. Originally *Membranilarnax*, subsequently *Membranilarnacia*. **Taxonomic senior synonym:** *Schizosporis reticulata* Cookson and Dettmann, 1959, a zygnematacean zygospore species, according to Pierce (1976, p.27). Age: Albian.

scabra Jiabo, 1978, p.92, pl.27, fig.13. Holotype: Jiabo, 1978, pl.27, fig.13. Age: Early Tertiary.

?tenella Morgenroth, 1968, p.554–555, pl.48, figs.2–4. Holotype: Morgenroth, 1968, pl.48, figs.2–3. Originally *Membranilarnacia*, subsequently (and now) *Membranilarnacia*?. Questionable assignment: Stover and Evitt (1978, p.64). Age: Danian.

?tenera de Coninck, 1975, p.93–94, pl.17, figs.2–3. Holotype: de Coninck, 1975, pl.17, fig.2; Fauconnier and Masure, 2004, pl.54, fig.6. Originally *Membranilarnacia*, subsequently (and now) *Membranilarnacia*?. Questionable assignment: Stover and Evitt (1978, p.64). Age: Ypresian.

"ursulae" (Morgenroth, 1966a, p.20, pl.3, figs.11–12) de Coninck, 1969, p.43. Holotype: Morgenroth, 1966a, pl.3, fig.11; Eisenack and Kjellström, 1972, figure to left — p.143; Fensome et al., 1995, fig.1 — p.1865. **NOW** *Eatonicysta*. Originally *Cannosphaeropsis*, subsequently *Membranilarnacia*, thirdly (and now) *Eatonicysta*. Taxonomic junior synonyms: *Membranilarnacia diktyophora*, according to Eaton (1976, p.277); *Membranilarnacia reticulata*, according to de Coninck (1969, p.43) and Gocht (1969, p.65). Age: early Eocene.

variata (Jiabo, 1978, p.78–79, pl.27, figs.6–10) He Chengquan et al., 2009, p.355. Holotype: Jiabo, 1978, pl.27, fig.6. Originally *Cyclonephelium*, subsequently *Membranophoridium*, thirdly (and now) *Membranilarnacia*. Age: Early Tertiary.

?wetzeli Cookson and Eisenack, 1982, p.46, pl.5, fig.3. Holotype: Cookson and Eisenack, 1982, pl.5, fig.3. Originally *Membranilarnacia*, subsequently *Membranilarnacia*?. Questionable assignment: Lachkar and Masure in Fauconnier and Masure (2004, p.390) as a problematic species; these authors recommended that the name be restricted to the type material. Age: Albian–Cenomanian.

wilsonii Pearce, 2010, p.66, pl.5, figs.1–3. Holotype: Pearce, 2010, pl.5, figs.1–3. Age: early Coniacian–early Campanian.

MEMBRANILARNAX Wetzel, 1933b, p.51. Emendation: Sarjeant, 1985b, p.149,151–152. Taxonomic junior synonym: *Membranilarnacia*, by implication in Downie and Sarjeant (1965, p.130) who questionably transferred the "type species" of *Membranilarnax*, *Membranilarnax pterospermoides*, to *Membranilarnacia* — however, Lentin and Williams (1973, p.93) retained *Membranilarnacia*. Stover and Evitt (1978, p.295) considered *Membranilarnax* to be an acritarch genus. Sarjeant (1985b, p.149,151–152) considered *Membranilarnax* to be a skolochorate dinoflagellate cyst. This name was not validly published in Wetzel (1932, p.136), since that author did not provide a description or designate a type, the latter being a requirement at that time under the I.C.Z.N. Type: Wetzel, 1933b, pl.6, fig.2, as *Membranilarnax pterospermoides*.

"amandopolitana" Valensi, 1955b, p.590, pl.2, fig.7; pl.5, fig.2. Holotype: Valensi, 1955b, pl.2, fig.7. **NOW** *Valensiella*?. Originally *Membranilarnax*, subsequently *Favilarnax*, thirdly *Valensiella*, fourthly (and now) *Valensiella*?. Age: Middle Jurassic.

"angustivela" Deflandre and Cookson, 1955, p.290, pl.7, figs.4–5. Holotype: Deflandre and Cookson, 1955, pl.7, fig.4; McMinn, 1988, fig.8C. **NOW** *Membranilarnacia*. Originally *Membranilarnax*, subsequently *Samlandia*,

thirdly (and now) *Membranilarnacia*. Taxonomic junior synonym: *Samlandia solida* (name not validly published), according to May (1980, p.24) — however, see discussion under *Samlandia solida*. Age: Eocene.

"*australis*" Pöthe de Baldis, 1966, p.225, pl.1, fig.h. Holotype: Pöthe de Baldis, 1966, pl.1, fig.h. **NOW** *Membranilarnacia*?. Originally *Membranilarnax*, subsequently *Cyclonephelium*, thirdly *Membranilarnacia*, fourthly (and now) *Membranilarnacia*?. Age: Early Tertiary.

"*characta*" Tasch in Tasch et al., 1964, p.192, pl.1, fig.20. Holotype: Tasch et al., 1964, pl.1, fig.20. Originally *Membranilarnax*, subsequently *Membranilarnacia*?. **Taxonomic senior synonym:** *Schizosporis reticulata* Cookson and Dettmann, 1959, a zygnematacean zygospore species, according to Pierce (1976, p.27). Age: Albanian.

"*clathroderma*" Deflandre and Cookson, 1955, p.290, pl.7, fig.6; text-fig.51. Holotype: Deflandre and Cookson, 1955, pl.7, fig.6. **NOW** *Valensiella*?. Originally *Membranilarnax*, subsequently *Valensiella*, thirdly (and now) *Valensiella*?. Taxonomic junior synonym: *Membranilarnacia densa*, according to Stover and Evitt (1978, p.64). N.I.A. Age: ?early Eocene.

"*formosa*" Tasch in Tasch et al., 1964, p.192, pl.1, fig.23. Holotype: Tasch et al., 1964, pl.1, fig.23. Originally *Membranilarnax*, subsequently *Membranilarnacia*?. **Taxonomic senior synonym:** *Schizosporis reticulata* Cookson and Dettmann, 1959, a zygnematacean zygospore species, according to Pierce (1976, p.27). Age: Albanian.

"*gigantea*" Tasch in Tasch et al., 1964, p.192, pl.2, fig.13. Holotype: Tasch et al., 1964, pl.2, fig.13. Originally *Membranilarnax*, subsequently *Membranilarnacia*?. **Taxonomic senior synonym:** *Schizosporis reticulata* Cookson and Dettmann, 1959, a zygnematacean zygospore species, according to Pierce (1976, p.27). Age: Albanian.

"*leptoderma*" Cookson and Eisenack, 1958, p.50–51, pl.10, figs.7,9. Holotype: Cookson and Eisenack, 1958, pl.10, fig.9; Fauconnier and Masure, 2004, pl.54, fig.1. **NOW** *Membranilarnacia*. Originally *Membranilarnax*, subsequently (and now) *Membranilarnacia*, thirdly *Membranilarnacia*?. Age: Albanian.

liradisoides Wetzel, 1933b, p.52–53, pl.6, figs.3a–b. Emendation: Marheinecke, 1992, p.116, as *Membranilarnax liradisoides*. Holotype: not designated. Lectotype: Wetzel, 1933b, pl.6, fig.3a (specimen to right), designated by Lentin and Williams (1989, p.239). Originally (and now) *Membranilarnax*, subsequently *Membranilarnacia*, thirdly *Membranilarnacia*?. Marheinecke (1992, p.116) retained this species in *Membranilarnax*. Age: Late Cretaceous.

"forma *gulpensis*" de Wit, 1943, p.384–385, text-figs.12a–b. Holotype: not designated. **NOW** *Membranilarnax liradisoides* subsp. *gulpensis*. Originally *Membranilarnax liradisoides* forma *gulpensis*, subsequently (and now) *Membranilarnax liradisoides* subsp. *gulpensis*. Age: late Senonian.

subsp. *gulpensis* (de Wit, 1943, p.384–385; text-figs.12a–b) Lentin and Williams, 1993, p.420. Holotype: not designated. Originally *Membranilarnax liradisoides* forma *gulpensis*, subsequently (and now) *Membranilarnax liradisoides* subsp. *gulpensis*. Age: late Senonian.

"forma *liradisoides*". Autonym. Holotype: Wetzel, 1933b, pl.6, figs.3a–b (four specimens illustrated). Lectotype: Wetzel, 1933b, pl.6, fig.3a (specimen to right), designated by Lentin and Williams (1989, p.239). **Now redundant.**

subsp. *liradisoides*. Autonym. Holotype: Wetzel, 1933b, pl.6, figs.3a–b (four specimens illustrated). Lectotype: Wetzel, 1933b, pl.6, fig.3a (specimen to right), designated by Lentin and Williams (1989, p.239).

"*marina*" Kufferath, 1950, p.34; text-fig.40. Holotype: Kufferath, 1950, text-fig.40. **NOW** *Membranilarnacia*?. Originally *Membranilarnax*, subsequently (and now) *Membranilarnacia*?. Age: Holocene.

"*ovulum*" Deflandre, 1947d, p.9–10; text-figs.22–23. Emendation: Courtinat, 1989, p.183, as *Valensiella ovulum*. Holotype: Deflandre, 1947d, text-fig.22; Eisenack and Kjellström, 1972, figure to left — p.1095; Fensome et al., 1995, fig.1 — p.1633. **NOW** *Valensiella*. Originally *Membranilarnax*, subsequently *Favilarnax*, thirdly (and now) *Valensiella*. N.I.A. Age: Bajocian.

"?pirus" Deunff, 1959, p.35–36, pl.10, figs.90–93. Holotype: Deunff, 1959, pl.10, fig.93. **NOW** *Membranilarnacia*?. Originally *Membranilarnax*?, subsequently (and now) *Membranilarnacia*?. Questionable assignment: Deunff (1959, p.35). N.I.A. Age: Ordovician (Caradoc).

"*pterococcoides*" Wetzel, 1933b, p.53, pl.6, fig.4. Emendation: Sarjeant, 1985b, p.154–155, as *Eatonicysta pterococcoides*. Holotype: Wetzel, 1933b, pl.6, fig.4; Sarjeant, 1985b, pl.4, figs.3,6 (not 1–2); Dietz et al., 1999, fig.10, no.3. **NOW** *Membranilarnacia*. Originally *Membranilarnax*, subsequently (and now) *Membranilarnacia*, thirdly *Membranilarnacia*?, fourthly *Eatonicysta*. Age: Senonian.

**pterospermoides* Wetzel, 1933b, p.52, pl.6, figs.1–2. Emendation: Sarjeant, 1985b, p.152, as *Membranilarnax pterospermoides*. Holotype: Wetzel, 1933b, pl.6, fig.2 (not fig.1); Sarjeant, 1985b, pl.6, figs.3–4; Fensome et al., 1995, fig.1 — p.1715. Originally (and now) *Membranilarnax*, subsequently *Membranilarnacia*? (combination illegitimate). Wetzel (1933b, p.52) gave the citation for the holotype as his pl.6, fig.1. However, Sarjeant in Lentin and Williams (1989, p.240) noted that the preparation number for the holotype given in the text, the preparation number for pl.6, fig.2 and the preparation marked "holotype: *Membranilarnax pterospermoides*" are all the same. Age: Late Cretaceous.

"*reticulovata*" Tasch in Tasch et al., 1964, p.192, pl.2, fig.3. Holotype: Tasch et al., 1964, pl.2, fig.3. Originally *Membranilarnax*, subsequently *Membranilarnacia*. **Taxonomic senior synonym:** *Schizosporis reticulata* Cookson and Dettmann, 1959, a zygnematacean zygospore species, according to Pierce (1976, p.27). Age: Albanian.

MEMBRANOPHORIDIUM Gerlach, 1961, p.198–199. Emendation: Stover and Evitt, 1978, p.64–65. Taxonomic senior synonym: *Chiropteridium*, according to Brosius (1963, p.47) and Schindler (1992, p.202) — however, Lentin and Williams (1993, p.421) retained *Membranophoridium*. Type: Gerlach, 1961, pl.29, fig.7, designated by Gocht (1969, p.61) as a lectotype of *Membranophoridium aspinatum*.

**aspinatum* Gerlach, 1961, p.199–201, pl.29, figs.7–8. Holotype: designated by Gerlach (1961), but not clearly related to an illustration. Lectotype: Gerlach, 1961, pl.29, fig.7; Fensome et al., 1993a, fig.1 — p.945; designated by Gocht (1969, p.61). Originally (and now) *Membranophoridium*, subsequently *Chiropteridium*. Age: middle Oligocene.

attadalicum Cookson and Eisenack, 1982, p.46, pl.6, fig.21. Holotype: Cookson and Eisenack, 1982, pl.6, fig.21. Age: early Cenomanian.

bilobatum Michoux, 1985, p.145–146, pl.2, figs.8,11; pl.3, figs.9–10. Holotype: Michoux, 1985, pl.3, fig.9. Age: middle Eocene.

connectum Stover and Hardenbol, 1994, p.37, pl.4, figs.22a–c,23a–b. Holotype: Stover and Hardenbol, 1994, pl.4, figs.22a–c. Age: Rupelian.

intermedium Stover and Hardenbol, 1994, p.37–38, pl.4, figs.24a–b,25a–b. Holotype: Stover and Hardenbol, 1994, pl.4, figs.24a–b. Age: Rupelian.

"*multispinatum*" Gerlach, 1961, p.203–204, pl.29, fig.5. Holotype: Gerlach, 1961, pl.29, fig.5. **Taxonomic senior synonym:** *Galea* (as and now *Chiropteridium*) *galea*, by implication in Brosius (1963, p.48) and Gocht (1969, p.63), who considered *Membranophoridium multispinatum* to be a taxonomic junior synonym of *Galea* (as *Chiropteridium*) *dispersa*, which is now a taxonomic junior synonym of *Galea* (now *Chiropteridium*) *galea*. Age: late Oligocene–middle Miocene.

"*partispinatum*" Gerlach, 1961, p.201, pl.29, fig.6. Holotype: Gerlach, 1961, pl.29, fig.6; Fauconnier and Masure, 2004, pl.13, figs.1–2. Originally *Membranophoridium*, subsequently *Chiropteridium*. **Taxonomic senior synonym:** *Galea* (as *Chiropteridium*) *galea*, by implication in Matsuoka and Bujak (1988, p.40), who considered *Membranophoridium* (as *Chiropteridium*) *partispinatum* to be a taxonomic junior synonym of *Galea* (as

Chiropteridium) *mespilana*, which is now a taxonomic junior synonym of *Galea* (now *Chiropteridium*) *galea*. Age: middle-late Oligocene.

perforatum Wilson, 1988, p.26, pl.16, figs.5a–b,6a–b. Holotype: Wilson, 1988, pl.16, figs.5a–b; Fensome et al., 1996, figs.1–2 — p.2271. This name was not validly published in Wilson (1985, p.93) since no description or illustration was provided. Age: early Eocene.

"**regulatum**" (Jiabo, 1978, p.78, pl.27, figs.1–2) Lentin and Williams, 1981, p.185. Holotype: Jiabo, 1978, pl.27, fig.1. **NOW** *Membranilarnacia*?. Originally *Cyclonephelium*, subsequently *Membranophoridium*?, thirdly (and now) *Membranilarnacia*. Questionable assignment: Lentin and Williams (1981, p.185). Age: Early Tertiary.

"**variatum**" (Jiabo, 1978, p.78–79, pl.27, figs.6–10) Lentin and Williams, 1981, p.185. Holotype: Jiabo, 1978, pl.27, fig.6. **NOW** *Membranilarnacia*. Originally *Cyclonephelium*, subsequently *Membranophoridium*, thirdly (and now) *Membranilarnacia*. Age: Early Tertiary.

MEMBRANOSPHERA Samoilovitch in Samoilovitch and Mtchedlishvili, 1961, p.251. Emendation: Drugg, 1967, p.29. The name *Membranosphaera* was originally used by Samoilovitch in Samoilovitch and Mtchedlishvili (1961, p.251) as the name of a "group". Lentin and Williams (1989, p.241) considered that the name *Membranosphaera* was validly published by Norris and Sarjeant (1965, p.40). However, Fensome et al. (1990, p.313) noted "... Samoilovitch and Mtchedlishvili (1961) assigned species directly to *Membranosphaera*, thus clearly indicating *Membranosphaera* to be equivalent to a genus. Since Lentin and Williams (1989) did not specify which nomenclatural rule they were invoking, Williams et al. (1998, p.396) considered this generic name to have been validly published in Samoilovitch and Mtchedlishvili (1961)". Stover and Evitt (1978, p.263) and Fensome et al. (1990, p.313) included this genus in the acritarchs. Vozzhennikova in Lentin and Williams (1993, p.421) noted that *Membranosphaera* is a dinoflagellate cyst with an apical archeopyle. Type: Samoilovitch and Mtchedlishvili, 1961, pl.83, figs.1a–d, as *Membranosphaera maastrichtica*.

bulluliniformis Malyavkina in Samoilovitch and Mtchedlishvili, 1961, p.253–254, pl.84, figs.1a–b,2a–b,3–4. Holotype: Samoilovitch and Mtchedlishvili, 1961, pl.84, figs.1a–b. Malyavkina in Samoilovitch and Mtchedlishvili (1961) expressly cited this taxon as a species; it was not therefore a new combination in Lentin and Williams (1973, p.94). Age: Oxfordian–Early Cretaceous.

"forma **bulluliniformis**". Autonym. Holotype: Samoilovitch and Mtchedlishvili, 1961, pl.84, figs.1a–b. **Now redundant**. Nomenclatural junior synonym: *Membranosphaera bulluliniformis* forma *typica* Malyavkina in Samoilovitch and Mtchedlishvili, which has the same holotype.

subsp. **bulluliniformis**. Autonym. Holotype: Samoilovitch and Mtchedlishvili, 1961, pl.84, figs.1a–b. Nomenclatural junior synonym: *Membranosphaera bulluliniformis* forma *typica*, which has the same holotype.

"forma **sphaerica**" Malyavkina in Samoilovitch and Mtchedlishvili, 1961, p.254–255, pl.84, fig.4. Holotype: Samoilovitch and Mtchedlishvili, 1961, pl.84, fig.4. **NOW** *Membranosphaera bulluliniformis* subsp. *sphaerica*. Originally *Membranosphaera bulluliniformis* forma *sphaerica*, subsequently (and now) *Membranosphaera bulluliniformis* subsp. *sphaerica*. Age: middle Oxfordian–mid Valanginian.

subsp. **sphaerica** (Malyavkina in Samoilovitch and Mtchedlishvili, 1961, p.254–255, pl.84, fig.4) Lentin and Williams, 1973, p.94. Holotype: Samoilovitch and Mtchedlishvili, 1961, pl.84, fig.4. Originally *Membranosphaera bulluliniformis* forma *sphaerica*, subsequently (and now) *Membranosphaera bulluliniformis* subsp. *sphaerica*. Age: middle Oxfordian–mid Valanginian.

"forma **typica**" Malyavkina in Samoilovitch and Mtchedlishvili, 1961, p.253–254, pl.84, figs.1a–b,2a–b,3. Holotype: Samoilovitch and Mtchedlishvili, 1961, pl.84, figs.1a–b. **Name illegitimate** — **nomenclatural senior synonym**: *Membranosphaera bulluliniformis* subsp. *bulluliniformis*, which has the same holotype. Age: Late Jurassic–Late Cretaceous.

"*coninckii*" Burger, 1980a, p.74, pl.26, figs.5,6a–b. Holotype: Burger, 1980a, pl.26, figs.6a–b. **NOW** *Kallosphaeridium*. Originally *Membranosphaera*, subsequently (and now) *Kallosphaeridium*. Age: Albanian.

"*granulata*" Norvick, 1976, p.79–80, pl.11, fig.9; pl.12, fig.3. Holotype: Norvick, 1976, pl.11, fig.9. **NOW** *Kallosphaeridium?*. Originally *Membranosphaera*, subsequently (and now) *Kallosphaeridium?*. Age: Cenomanian.

**maastrichtica* Samoilovitch in Samoilovitch and Mtchedlishvili, 1961, p.252, pl.83, figs.1a–d,2a–d,3,4a–d. Holotype: Samoilovitch and Mtchedlishvili, 1961, pl.83, figs.1a–d. Samoilovitch and Mtchedlishvili (1961) expressly cited this taxon as a species; it was therefore not a new combination in Lentin and Williams (1973, p.94). See also *Elytrocysta druggii*. Age: Santonian–late Eocene.

subsp. *maastrichtica*. Autonym. Holotype: Samoilovitch and Mtchedlishvili, 1961, pl.83, figs.1a–d.

"var. *maastrichtica*". Autonym. Holotype: Samoilovitch and Mtchedlishvili, 1961, pl.83, figs.1a–d. **Now redundant.**

subsp. *pilata* (Samoilovitch in Samoilovitch and Mtchedlishvili, 1961, p.253, pl.83, figs.3,4a–d) Lentin and Williams, 1973, p.94. Holotype: Samoilovitch and Mtchedlishvili, 1961, pl.83, fig.3. Originally *Membranosphaera maastrichtica* var. *pilata*, subsequently (and now) *Membranosphaera maastrichtica* subsp. *pilata*. Age: Santonian–Maastrichtian.

"var. *pilata*" Samoilovitch in Samoilovitch and Mtchedlishvili, 1961, p.253, pl.83, figs.3,4a–d. Holotype: Samoilovitch and Mtchedlishvili, 1961, pl.83, fig.3. **NOW** *Membranosphaera maastrichtica* subsp. *pilata*. Originally *Membranosphaera maastrichtica* var. *pilata*, subsequently (and now) *Membranosphaera maastrichtica* subsp. *pilata*. Age: Santonian–Maastrichtian.

"*norvickii*" Burger, 1980a, p.73–74, pl.26, figs.7–8. Holotype: Burger, 1980a, pl.26, fig.7. **NOW** *Batiacasphaera*. Originally *Membranosphaera*, subsequently *Kallosphaeridium*, thirdly (and now) *Batiacasphaera*. Age: Albanian.

"*romaensis*" Burger, 1980a, p.74, pl.27, figs.1–3. Holotype: Burger, 1980a, pl.27, fig.3. **NOW** *Kallosphaeridium?*. Originally *Membranosphaera*, subsequently *Kallosphaeridium*, thirdly (and now) *Kallosphaeridium?*. Age: Aptian.

rugosa Shaw Chenglong and Huang Tsengchieng, 1994, p.86–87, pl.44, figs.1–2. Holotype: Shaw Chenglong and Huang Tsengchieng, 1994, figs.1–2. Age: Early Cretaceous.

taiwaniana Shaw Chenglong and Huang Tsengchieng, 1994, p.87, pl.44, figs.8–9. Holotype: Shaw Chenglong and Huang Tsengchieng, 1994, pl.44, figs.8–9. Age: Early Cretaceous.

tuberculata Malyavkina in Samoilovitch and Mtchedlishvili, 1961, p.255, pl.84, figs.7a–b,8. Holotype: Samoilovitch and Mtchedlishvili, 1961, pl.84, figs.7a–b. Malyavkina in Samoilovitch and Mtchedlishvili (1961) expressly cited this taxon as a species; it was therefore not a new combination in Lentin and Williams (1973, p.94). Age: Oxfordian–mid Kimmeridgian.

MENDICODINIUM Morgenroth, 1970, p.347–348. Emendation: Bucefalo Palliani et al., 1997a, p.101. Taxonomic junior synonyms: *Thuledinium*, according to Davey (1979c, p.64); *Breedoxella*, according to Stover and Williams (1987, p.45). Type: Morgenroth, 1970, pl.9, figs.5–6, as *Mendicodinium reticulatum*.

brunneum Bucefalo Palliani et al., 1997a, p.110, pl.2, figs.1–4; pl.3, fig.5; text-fig.2. Holotype: Bucefalo Palliani et al., 1997a, pl.2, fig.2. Age: early Toarcian.

caperatum Brideaux, 1977, p.19–20, pl.7, figs.7–11. Holotype: Brideaux, 1977, pl.7, figs.8–9; Fensome et al., 1993a, figs.1–2 — p.1025. Originally (and now) *Mendicodinium*, subsequently *Breedoxella*. Stover and Williams (1987, p.45) retained this species in *Mendicodinium*. Age: Aptian–early Albanian.

echinatum Riding and Helby, 2001a, p.5,7, figs.4A–L. Holotype: Riding and Helby, 2001a, fig.4H. Taxonomic junior synonym: *Mendicodinium spinosum* Helby (name not validly published), according to Riding and Helby (2001a, p.5). Age: Toarcian.

granulatum Kumar, 1986b, p.393, pl.3, fig.6; text-fig.7. Holotype: Kumar, 1986b, pl.3, fig.6. Age: early Kimmeridgian–Tithonian.

groenlandicum (Pocock and Sarjeant, 1972, p.352–354, pl.2, figs.1–9; text-fig.2) Davey, 1979c, p.64. Holotype: Pocock and Sarjeant, 1972, pl.2, fig.1; text-fig.2; Fensome et al., 1995, fig.1 — p.1535. Originally *Thuledinium*, subsequently (and now) *Mendicodinium*. Taxonomic junior synonym: *Mendicodinium woodhamense*, according to Riley and Fenton (1982, p.200). Age: middle Callovian.

kemperii Heilmann-Clausen in Heilmann-Clausen and Thomsen, 1995, p.302–303, pl.5, figs.11–12,14–16. Holotype: Heilmann-Clausen and Thomsen, 1995, pl.5, figs.11–12. Age: early Barremian.

mataschenense Soliman and Feist-Burkhardt in Soliman et al., 2013, p.37,41,43, pl.1, figs.1–9; pl.2, figs.1–9; pl.3, figs.1–12; text-fig.2. Holotype: Soliman et al., 2013, pl.1, figs.1–3. Age: Tortonian.

microreticulatum Kumar, 1986b, p.395–396, pl.5, figs.1,5; text-fig.8. Holotype: Kumar, 1986b, pl.5, fig.5. Age: early Kimmeridgian–Tithonian.

microscabratum Bucefalo Palliani et al., 1997a, p.109, pl.2, figs.10–12; pl.3, figs.8–11; text-fig.2. Holotype: Bucefalo Palliani et al., 1997a, pl.2, fig.10. Age: early Toarcian.

morgenrothii Butler, 1995, p.25–26, pl.1, figs.1–9. Holotype: Butler, 1995, pl.1, figs.1,3. Age: Aalenian–earliest Bajocian.

"quadratum" Kumar, 1987a, p.242, pl.2, figs.8–9. Holotype: Kumar, 1987a, pl.2, fig.8. **NOW** *Shanbeipollenites* (Appendix A). Originally *Mendicodinium*, subsequently (and now *Shanbeipollenites* (Appendix A)). Age: early Kimmeridgian–Tithonian.

***reticulatum** Morgenroth, 1970, p.348–349, pl.9, figs.5–6; pl.10, figs.1–4. Holotype: Morgenroth, 1970, pl.9, figs.5–6. Age: late Pliensbachian.

robustum Zevenboom and Santarelli in Zevenboom, 1995, p.159–160, pl.8, figs.10–12 ex Fensome et al., 2009, p.44. Holotype: Zevenboom, 1995, pl.8, figs.10–12. The name was not validly published in Zevenboom (1995, p.159–160) since the author considered it a manuscript name. Age: latest middle Miocene–early late Miocene.

"rugarum" Piasecki, 1984, p.150–151, pl.4, figs.1–5,7–8; text-fig.5. Holotype: Piasecki, 1984, pl.4, fig.1; text-fig.5; Fensome et al., 1995, figs.1,4–5 — p.1751. **NOW** *Hurlandsia*. Originally *Mendicodinium*, subsequently (and now) *Hurlandsia*. Age: late Ryazanian–early Valanginian.

scabratum Riding and Helby, 2001a, p.7,9, figs.5A–I. Holotype: Riding and Helby, 2001a, figs.5D–F. Age: Toarcian–Bajocian.

spinosum Bucefalo Palliani et al., 1997a, p.103,105–106,109, pl.1, figs.1–12; pl.3, figs.1–2,7; text-fig.2. Holotype: Bucefalo Palliani et al., 1997a, pl.1, figs.7–8. Age: early Toarcian.

subsp. ***perforatum*** Bucefalo Palliani et al., 1997a, p.106,109, pl.1, figs.1–5; pl.3, figs.1–2,7; text-fig.2. Holotype: Bucefalo Palliani et al., 1997a, pl.1, figs.1–2. Age: early Toarcian.

subsp. ***spinosum***. Autonym. Holotype: Bucefalo Palliani et al., 1997a, pl.1, figs.7–8.

"spinosum" Helby in Riding and Helby, 2001a, p.5. **Name not validly published**: no description or illustration. **Taxonomic senior synonym**: *Mendicodinium echinatum*, according to Riding and Helby (2001a, p.5).

umbriense Bucefalo Palliani et al., 1997a, p.103, pl.2, figs.5–9; pl.3, figs.4,6; text-fig.2. Holotype: Bucefalo Palliani et al., 1997a, pl.2, fig.7. Age: early Toarcian.

"*woodhamense*" Drugg, 1978, p.70, pl.5, figs.10–11; pl.6, figs.1–2. Holotype: Drugg, 1978, pl.6, fig.1. **Taxonomic senior synonym:** *Thuledinium* (as *Mendicodinium*) *groenlandicum*, according to Riley and Fenton (1982, p.200). Age: late Callovian.

"**MERISTAULAX**" Brenner, 1988, p.65. **Name illegitimate — senior homonym:** *Meristaulax* Sarjeant, 1984a. **Taxonomic senior synonym:** *Cribroperidinium*, by implication in Jan du Chêne et al. (1986a, p.76) and Lentin and Williams (1993, p.423), who listed *Meristaulax* Sarjeant as a taxonomic junior synonym of *Cribroperidinium* on the basis of the morphology of Sarjeant's lectotype of *Meristaulax granulata*, which is now the type of *Meristaulax* Brenner. Brenner (1988, p.65) cited this genus as "*Meristaulax* Sarjeant 1984". However, he listed as "type species" "*Meristaulax granulata* Sarjeant 1984" with the specimen illustrated by Sarjeant (1984a, pl.3, figs.3–4) as holotype, and clearly separated this species from *Meristaulax granulata* (Klement, 1960) Sarjeant, 1984a, with Klement (1960, pl.4, figs.10–11; text-figs.18–19) as type, which he cited separately (Brenner, 1988, p.35). Thus, Brenner (1988, p.65) effectively created a new genus, *Meristaulax* Brenner, 1988, which is validly published since Brenner (1988, p.65–66) provided a description under the single formal species *Meristaulax granulata* Brenner, listed a type and presented illustrations. Type: Sarjeant, 1984a, pl.3, figs.3–4, text-fig.3, as *Meristaulax granulata*.

"**granulata*" Brenner, 1988, p.65–66, pl.3, figs.2,5. Holotype: Sarjeant, 1984a, pl.3, figs.3–4; text-fig.3; Jan du Chêne et al., 1986a, pl.27, figs.7–10; Brenner, 1988, pl.3, figs.2,5; Fensome et al., 1995, figs.5–6 — p.1525; designated by Brenner (1988, p.65). **Name illegitimate — senior homonym:** *Meristaulax granulata* (Klement, 1960) Sarjeant, 1984a. **NOW** *Cribroperidinium swithini*. Originally *Meristaulax granulata* Brenner (name illegitimate), subsequently (and now) *Cribroperidinium swithini*. Sarjeant (1984a, p.161–162) designated a lectotype in place of the disintegrated holotype of *Gonyaulax* (as *Meristaulax* Sarjeant, now *Acanthaulax*) *granulata* Klement, 1960. Brenner (1988, p.35) argued that Sarjeant's lectotype was not conspecific with Klement's holotype for the species and thus designated a second lectotype; at the same time, Brenner transferred *Meristaulax granulata* (Klement) to *Acanthaulax*. Simultaneously, Brenner (1988, p.65) treated as a separate genus and species "*Meristaulax granulata* sensu Sarjeant 1984[a]" with Sarjeant's lectotype designated as holotype. Brenner thus effectively created an illegitimate junior homonym, *Meristaulax granulata* Brenner, 1988, of *Meristaulax granulata* (Klement, 1960) Sarjeant, 1984a. Age: Late Jurassic.

"**MERISTAULAX**" Sarjeant, 1984a, p.160. **Taxonomic senior synonym:** *Cribroperidinium*, according to Jan du Chêne et al. (1986a, p.76) and Lentin and Williams (1993, p.423). Taxonomic senior synonym: *Acanthaulax*, by implication in Brenner (1988, p.35), who included the type of the genus *Meristaulax* Sarjeant in *Acanthaulax granulata*. Junior homonym: *Meristaulax* Brenner, 1988. Type: Klement, 1960, pl.4, figs.10–11; text-figs.18–19, as *Gonyaulax granulata*; for lectotypes, see *Meristaulax granulata*.

"*angulosa*" (Gitmez, 1970, p.252, pl.2, figs.4–5; text-figs.7A–B) Sarjeant and Gocht in Sarjeant, 1984a, p.160. Holotype: Gitmez, 1970, pl.2, figs.4–5; text-figs.7A–B; Jan du Chêne et al., 1986a, pl.2, figs.11–15. **NOW** *Cribroperidinium*. Originally *Gonyaulacysta*, subsequently *Acanthaulax*, thirdly *Meristaulax*, Sarjeant, fourthly *Acanthaulax*?, fifthly *Rhynchodiniopsis*, sixthly (and now) *Cribroperidinium*. Taxonomic senior synonym: *Gonyaulax* (as and now *Cribroperidinium*) *granulata*, according to Fisher and Riley (1980, p.321) — however, Sarjeant and Gocht in Sarjeant (1984a, p.160) retained *Meristaulax angulosa*. Age: early Kimmeridgian.

"*granulata*" (Klement, 1960, p.39–41, pl.4, figs.10–13; text-figs.18–20) Sarjeant, 1984a, p.161. Emendation: Sarjeant, 1984a, p.161–162, as *Meristaulax granulata*. Holotype: Klement, 1960, pl.4, figs.10–11; text-figs.18–20; Fensome et al., 1995, figs.1–2 — p.1525; disintegrated according to Sarjeant (1984a, p.162). Lectotype (designated by Sarjeant, 1984a, p.162): Sarjeant, 1984a, pl.3, figs.3–4; text-fig.3; Jan du Chêne et al., 1986a, pl.27, figs.7–10; Brenner, 1988, pl.3, figs.2a–b; Fensome et al., 1995, figs.5–6 — p.1525 — however, Brenner (1988, p.35) argued that this specimen is not conspecific with the holotype. Lectotype (designated by Brenner, 1988, p.35): Brenner, 1988, pl.1, figs.3a–c; Fensome et al., 1995, figs.7–9 — p.1525. **NOW** *Cribroperidinium*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly (and now) *Cribroperidinium*, fourthly *Rhynchodiniopsis*, fifthly *Meristaulax* Sarjeant, sixthly *Acanthaulax*. Poulsen (1996, p.73) retained this species in *Cribroperidinium*.

Taxonomic junior synonyms: *Gonyaulax* (as *Cribroperidinium*) *venusta*, according to Schrank (2005, p.56); *Gonyaulax* (now *Cribroperidinium*) *granuligera*, according to Fisher and Riley (1980, p.321) — however, Sarjeant (1984a, p.156–158) retained *Gonyaulax* (as *Cryptarchaeodinium*) *granuligera*; *Gonyaulacysta* (as *Acanthaulax*?, now *Cribroperidinium*) *angulosa*, according to Fisher and Riley (1980, p.321) — however, Sarjeant and Gocht in Sarjeant (1984a, p.160) retained *Gonyaulacysta* (as *Meristaulax*) *angulosa*. For further discussion, see *Cribroperidinium granulatum*. Age: middle Oxfordian–early Kimmeridgian.

MESSELODINIUM Lenz et al., 2007, p.122,124. Type: Lenz et al., pl.1, figs.1–2, as *Messelodinium thielepfeifferae*.

**thielepfeifferae* Lenz et al., 2007, p.124,126, pl.1, figs.1–16; pl.2, figs.1–3; pl.3, figs.1–3; pl.4, figs.1–6. Holotype: Lenz et al., 2007, pl.1, figs.1–2. Age: middle Eocene.

MICHOUXDINIUM Williams et al., 2015, p.306–307. Type: Michoux, 1988, pl.1, figs.1,4,7; text-fig.5A–B, as *Kisselevia aculeata*.

**aculeatum* (Michoux, 1988, p.24,26, pl.1, figs.1,4,7–8; pl.2, figs.1–2, text-figs.5A–B,6A–B) Williams et al., 2015, p.307. Holotype: Michoux, 1988, pl.1, figs.1,4,7; text-figs.5A–B. Originally *Kisselevia*, subsequently *Charlesdownia*, thirdly (and now) *Michouxdinium*. Age: early Eocene.

limitatum (Stover and Hardenbol, 1994, p.34–35, pl.10, figs.70a–c,71a–c) Williams et al., 2015, p.307. Holotype: Stover and Hardenbol, 1994, pl.10, figs.70a–c. Originally *Charlesdownia*, subsequently (and now) *Michouxdinium*. Age: Rupelian.

proserpinum (van Mourik et al., 2001, p.239,241, figs.7a–e) Williams et al., 2015, p.307. Holotype: van Mourik et al., 2001, figs.7b–c. Originally *Charlesdownia*, subsequently (and now) *Michouxdinium*. N.I.A. Age: late Eocene.

?*rhomboidale* (He Chengquan, 1991, p.93, pl.35, figs.11–13) Williams et al., 2015, p.307. Holotype: He Chengquan, 1991, pl.35, figs.11–12. Originally *Kisselevia*, subsequently *Charlesdownia*, thirdly (and now) *Michouxdinium*? Questionable assignment: Williams et al. (2015, p.307). Age: middle Eocene.

variabile (Bujak in Bujak et al., 1980, p.67, pl.17, figs.1–6; text-fig.16) Williams et al., 2015, p.307. Holotype: Bujak et al., 1980, pl.17, figs.1–3. Originally *Kisselevia*, subsequently *Charlesdownia*, thirdly (and now) *Michouxdinium*. Age: middle Eocene (see Aubry, 1986).

MICROCONUS Trejo, 1983, p.7. Calcareous dinoflagellate genus (see Elbrächter et al., 2008, p.1298, who noted that the cyst wall is pithonelloid and so dinoflagellate affinity is questionable). See discussion in Elbrächter et al. (2008, p.1300) regarding the validity of this name. Type: Trejo, 1983, pl.38, fig.4, as *Microconus aequilaterus*.

**aequilaterus* Trejo, 1983, p.7, pl.38, figs.1–5; pl.39, figs.1–8. Holotype : Trejo, 1983, pl.38, fig.4. Age: Late Cretaceous.

diffringens (de Lapparent, 1918, p.21–22 [name first used on p.22], pl.2, fig.1–part; pl.3, figs.1–part,2–part) Trejo, 1983, p.7. Holotype: not designated. Originally *Lagena* (Appendix A), subsequently *Stomiosphaera*, thirdly (and now) *Microconus*. Age: Late Cretaceous? (according to Vogler, 1941, "Inhalt" and p.283).

simplex Trejo, 1983, p.7, pl.38, figs.6–8. Holotype: Trejo, 1983, pl.38, fig.7. Age: Late Cretaceous.

MICRODINIUM Cookson and Eisenack, 1960a, p.6. Emendations: Sarjeant, 1966b, p.148–149; Stover and Evitt, 1978, p.65–66; Slimani, 1994, p.24. Taxonomic senior synonym: *Phanerodinium*, according to Below (1987b, p.36) — however, Lentin and Williams (1989, p.243) retained *Microdinium*. Type: Cookson and Eisenack, 1960a, pl.2, figs.3–4; text-fig.2, as *Microdinium ornatum*.

?alatum Conrad, 1941, p.5, pl.1, fig.C ex Sarjeant, 1967b, p.247–248. Holotype: Conrad, 1941, pl.1, fig.C. Originally *Palaeoperidinium* (name not validly published), subsequently (and now) *Microdinium?*, thirdly *Palaeoperidinium?*. Lentin and Williams (1993, p.424) retained this species in *Microdinium*. Questionable assignment: Sarjeant (1967b, p.248). The name *Palaeoperidinium alatum* was not validly published in Conrad (1941) since the generic name *Palaeoperidinium* was not validly published until 1967. Williams et al. (1998, p.399) accepted Sarjeant's (1967b) indirect reference to Conrad (1941), in which the name *Palaeoperidinium alatum* was first proposed, as indication of a type (I.C.N. Article 40.3). Lentin and Williams (1976, p.109) also proposed this name as a new combination. Age: Maastrichtian.

"*amphidoxosum*" (Jiabo, 1978, p.93, pl.6, fig.2) Lentin and Williams, 1989, p.243. Holotype: Jiabo, 1978, pl.6, fig.2. **NOW** *Tetrachacysta*. Originally *Dinogymnium?*, subsequently *Microdinium*, thirdly (and now) *Tetrachacysta*. Age: Early Tertiary.

angulare (Below, 1987b, p.39–40, pl.12, figs.12–13; pl.13, figs.11–15; pl.16, fig.12) Lentin and Williams, 1989, p.243. Holotype: Below, 1987b, pl.13, figs.11–15; Fensome et al., 1993a, figs.1–4 — p.913. Originally *Phanerodinium*, subsequently (and now) *Microdinium*. Age: middle Albian.

avocetianum Riding, 2002, p.4–6,8, pl.1, figs.1–16; text-fig.2. Holotype: Riding, 2002, pl.1, figs.5–6. Age: late Tithonian.

balteus (Below, 1987b, p.40, pl.15, figs.11–15) Lentin and Williams, 1989, p.243. Holotype: Below, 1987b, pl.15, figs.11–15; Fensome et al., 1993a, figs.1–5 — p.959. Originally *Phanerodinium*, subsequently (and now) *Microdinium*. N.I.A. Age: middle-late Albian.

bensonii Slimani, 1994, p.25–27, pl.4, figs.1–9,14–21. Holotype: Slimani, 1994, pl.4, figs.1–4,16–17. Age: late Campanian–earliest Danian.

subsp. *bensonii*. Autonym. Holotype: Slimani, 1994, pl.4, figs.1–4,16–17.

subsp. *pilatam* Slimani, 1994, p.27, pl.4, figs.6–9,18–21. Holotype: Slimani, 1994, pl.4, figs.7–9,18–19. Age: late Campanian–earliest Danian.

carinatum (Below, 1987b, p.41–43, pl.10, figs.1–10; text-figs.10a–f) Lentin and Williams, 1989, p.243. Holotype: Below, 1987b, pl.10, figs.1–5; Fensome et al., 1993a, figs.1–4 — p.1035. Originally *Phanerodinium*, subsequently (and now) *Microdinium*. Age: late Campanian.

"*carpaticum*" Balteş, 1969, p.31, pl.1, fig.14. Holotype: Balteş, 1969, pl.1, fig.14. **Name not validly published:** provisional designation. Age: Pliocene.

carpentierae Slimani, 1994, p.29–30, pl.5, figs.3–4,11–19,25. Holotype: Slimani, 1994, pl.5, figs.11–13,16–17. Age: late Campanian–earliest Danian.

cassiculus Wilson, 1984c, p.552, figs.6–10. Holotype: Wilson, 1984c, figs.6–7; Fensome et al., 1996, figs.4–5 — p.2087. Originally (and now) *Microdinium*, subsequently *Phanerodinium*. Lentin and Williams (1993, p.424) retained this species in *Microdinium*. N.I.A. Age: Maastrichtian.

chengquani Lentin and Williams, 1993, p.424. Holotype: He Chengquan, 1991, pl.5, fig.8. Originally *Microdinium granulatum* He Chengquan (name illegitimate), subsequently (and now) *Microdinium chengquani*. Substitute name for *Microdinium granulatum* He Chengquan, 1991, p.61, pl.5, figs.1–8 (an illegitimate name). Since the epithet is based on a given name, it ends in "i" rather than "ii" (I.C.B.N. Article 60C.2). Age: late Turonian–Eocene.

consaepum (Below, 1987b, p.43–44, pl.14, figs.1–5,7–12) Lentin and Williams, 1989, p.243. Holotype: Below, 1987b, pl.14, figs.2–5; Fensome et al., 1993a, figs.1–2 — p.1075; figs.2–5 — p.1079. Originally *Phanerodinium*, subsequently (and now) *Microdinium*. Age: middle Albian.

subsp. *baculatum* (Below, 1987b, p.43–44, pl.14, figs.7–12) Lentin and Williams, 1989, p.243. Holotype: Below, 1987b, pl.14, figs.7–10; Fensome et al., 1993a, figs.1–4 — p.953; fig.3 — p.1075. Originally *Phanerodinium consaeptum* var. *baculatum*, subsequently (and now) *Microdinium consaeptum* subsp. *baculatum*. Age: middle-late Albian.

subsp. *consaeptum*. Autonym. Holotype: Below, 1987b, pl.14, figs.2–5; Fensome et al., 1993a, figs.1–2 — p.1075; figs.2–5 — p.1079.

cretaceum Slimani, 1994, p.30–32, pl.6, figs.1–4,18–21. Holotype: Slimani, 1994, pl.6, figs.1–3,18–19. Taxonomic junior synonym: *Microdinium ovatum* Wilson (name not validly published), according to Slimani (2001a, p.193). Age: Maastrichtian.

?*crinitum* Davey, 1969a, p.137, pl.2, figs.7–8. Emendation: Below, 1987b, p.38, as *Phanerodinium?* *crinitum*. Holotype: Davey, 1969a, pl.2, fig.8. Originally (and now) *Microdinium?*, subsequently *Phanerodinium*. Lentin and Williams (1989, p.244) questionably retained this species in *Microdinium*. Questionable assignment: Davey (1969a, p.137). Age: Cenomanian.

deconinckii Slimani, 1994, p.32–33, pl.3, fig.30; pl.5, figs.1–2,5–8,23–24. Holotype: Slimani, 1994, pl.5, figs.1–2,5–6. Age: early Campanian–earliest Danian.

"*deflandrei*" Millioud, 1969, p.429–430, pl.2, figs.5–7. Emendations: Habib, 1973, p.52, as *Druggidium deflandrei*; Below, 1987b, p.58–59, as *Rhaphidodinium deflandrei*. Holotype: Millioud, 1969, pl.2, figs.5–6. **NOW** *Druggidium*. Originally *Microdinium*, subsequently (and now) *Druggidium*, thirdly *Rhaphidodinium*. Age: Barremian.

densigranulatum (Below, 1987b, p.44–45, pl.13, figs.6–10; pl.14, figs.13–15) Lentin and Williams, 1989, p.244. Holotype: Below, 1987b, pl.13, figs.6–10; Fensome et al., 1993a, figs.1–5 — p.1119. Originally *Phanerodinium*, subsequently (and now) *Microdinium*. Age: middle-late Albian.

dentatum Vozzhennikova, 1967, p.94–95, pl.38, figs.2a–e. Emendations: Fechner, 1985, p.120; Lentin and Vozzhennikova, 1990, p.104–105, both as *Microdinium dentatum*; Below, 1987b, p.45–46, as *Phanerodinium dentatum*. Holotype: Vozzhennikova, 1967, pl.38, figs.2a–e; Lentin and Vozzhennikova, 1990, pl.12, figs.5–7; text-fig.59. Originally (and now) *Microdinium*, subsequently *Microdinium?*, thirdly *Phanerodinium*. Questionable assignment: Stover and Evitt (1978, p.66) — however, Fechner (1985, p.120) and Lentin and Vozzhennikova (1990, p.104) included the species in *Microdinium* without question. Age: Late Cretaceous.

"forma *dentatum*". Autonym. Holotype: Vozzhennikova, 1967, pl.38, figs.2a–e; Lentin and Vozzhennikova, 1990, pl.12, figs.5–7; text-fig.59. **Now redundant.**

"subsp. *dentatum*". Autonym. Holotype: Vozzhennikova, 1967, pl.38, figs.2a–e; Lentin and Vozzhennikova, 1990, pl.12, figs.5–7; text-fig.59. **Now redundant.**

"forma *sphaericum*" Vozzhennikova, 1967, p.95–96, pl.36, figs.2a–b; pl.38, figs.1a–b. Emendation: Lentin and Vozzhennikova, 1990, p.115, as *Sokolovidinium sphaericum*. Holotype: Vozzhennikova, 1967, pl.38, figs.1a–b; Lentin and Vozzhennikova, 1990, pl.13, figs.5–6; text-fig.67. **NOW** *Sokolovidinium sphaericum*. Originally *Microdinium dentatum* forma *sphaericum*, subsequently *Microdinium dentatum* subsp. *sphaericum*, thirdly (and now) *Sokolovidinium sphaericum*. Age: Late Cretaceous.

"subsp. *sphaericum*" (Vozzhennikova, 1967, p.95–96, pl.36, figs.2a–b; pl.38, figs.1a–b) Lentin and Williams, 1973, p.95. Emendation: Lentin and Vozzhennikova, 1990, p.115, as *Sokolovidinium sphaericum*. Holotype: Vozzhennikova, 1967, pl.38, figs.1a–b; Lentin and Vozzhennikova, 1990, pl.13, figs.5–6; text-fig.67. **NOW** *Sokolovidinium sphaericum*. Originally *Microdinium dentatum* forma *sphaericum*, subsequently *Microdinium dentatum* subsp. *sphaericum*, thirdly (and now) *Sokolovidinium sphaericum*. Age: Late Cretaceous.

distinctum Davey, 1969a, p.133–135, pl.2, figs.9–11; text-figs.13D–E,I. Holotype: Davey, 1969a, pl.2, figs.9–10; text-fig.13D. Originally (and now) *Microdinium*, subsequently *Phanerodinium*. Lentin and Williams (1989, p.244) retained this species in *Microdinium*. Below (1987b, p.38) considered *Microdinium?* (as *Phanerodinium*) *variospinum*, *Microdinium glabrum* and *Microdinium* (as *Phanerodinium*) *opacum* to be questionable taxonomic junior synonyms of this species. Age: early Cenomanian.

"**echinatum**" Clarke and Verdier, 1967, p.64, pl.1, figs.9–10; text-fig.26. Holotype: Clarke and Verdier, 1967, pl.1, fig.9. **Taxonomic senior synonym:** *Microdinium setosum*, according to Clarke et al. (1968, p.181). Age: Cenomanian.

?**ellipsoideum** Deflandre, 1936b, p.178, pl.6, figs.5–7 ex Sarjeant, 1967b, p.250. Holotype: Deflandre, 1936b, pl.6, fig.6. Originally *Palaeoperidinium* (name not validly published), subsequently *Microdinium*, thirdly (and now) *Microdinium?*, fourthly *Palaeoperidinium?*. Lentin and Williams (1981, p.187) retained this species in *Microdinium*. Questionable assignment: Lentin and Williams (1976, p.110). The name *Palaeoperidinium ellipsoideum* was not validly published in Deflandre (1936b) since the generic name *Palaeoperidinium* was not validly published until 1967. Williams et al. (1998, p.401) accepted Sarjeant's (1967b) indirect reference to Deflandre (1936b) as indication of a type (I.C.N. Article 40.3). Lentin and Williams (1976, p.110) also proposed this name, as a new combination. Age: Late Cretaceous.

"?**fibratum**" Batten and Lister, 1988, p.345,347, figs.2g–h. Holotype: Batten and Lister, 1988, figs.2g–h. **NOW** *Protoellipsodinium*. Originally *Microdinium*, subsequently (and now) *Protoellipsodinium*. Questionable assignment: Batten and Lister (1988, p.345). Age: Barremian.

glabrum Cookson and Eisenack, 1974, p.53, pl.20, fig.19. Holotype: Cookson and Eisenack, 1971, pl.7, fig.11, as *Microdinium* sp. Originally (and now) *Microdinium*, subsequently *Phanerodinium*. Lentin and Williams (1989, p.244) retained this species in *Microdinium*. Below (1987b, p.38) considered *Microdinium* (as *Phaneordinium*) *distinctum* to be the questionable taxonomic senior synonym of this species. Age: Senonian.

"**glabrum**" Wilson in Slimani, 2001a, p.193. **Name not validly published:** no description. **Taxonomic senior synonym:** *Microdinium inornatum*, according to Slimani (2001a, p.193).

granocarinatum (Below, 1987b, p.48–49, pl.16, figs.7–10,14–15) Lentin and Williams, 1989, p.244. Holotype: Below, 1987b, pl.16, figs.7,10,15; Fensome et al., 1993a, figs.1,4,6 — p.1219. Originally *Phanerodinium*, subsequently (and now) *Microdinium*. Age: late early–late Campanian.

"**granulatum**" He Chengquan, 1991, p.61, pl.5, figs.1–8. Holotype: He Chengquan, 1991, pl.5, fig.8. **Name illegitimate — senior homonym:** *Microdinium granulatum* (Jiabo, 1978) Lentin and Williams, 1989. **Substitute name:** *Microdinium chengquani*. Originally *Microdinium granulatum* (name illegitimate), subsequently (and now) *Microdinium chengquani*. Age: late Turonian–Eocene.

"**granulatum**" (Jiabo, 1978, p.94, pl.6, figs.7–8) Lentin and Williams, 1989, p.244. Holotype: Jiabo, 1978, pl.6, fig.7. **NOW** *Tetrachacysta*. Originally *Dinogymnium*, subsequently *Microdinium*, thirdly *Dinogymniopsis*, fourthly (and now) *Tetrachacysta*. Junior homonym: *Microdinium granulatum* He Chengquan, 1991. Age: Early Tertiary.

?**gymnosuturum** Smith, 1992, p.342,344–345, figs.5a–f,6a–d,11j–l. Holotype: Smith, 1992, figs.5a–b. Questionable assignment: Smith (1992, p.342). Age: late Campanian–early Maastrichtian.

?**horridum** (Below, 1987b, p.49–50, pl.17, figs.1–6; text-figs.11a–h) Lentin and Williams, 1989, p.245. Holotype: Below, 1987b, pl.17, figs.1–6; Fensome et al., 1993a, figs.1–4 — p.1229. Originally *Phanerodinium*, subsequently (and now) *Microdinium?*. Lentin and Williams (1993, p.426) retained this species in *Microdinium*. Questionable assignment: Lentin and Williams (1989, p.245). Age: middle Albian–early Cenomanian.

inornatum Slimani, 1994, p.34–36, pl.4, fig.13; pl.6, figs.5–8,14–15,22–23. Holotype: Slimani, 1994, pl.6, figs.5–8,22–23. Taxonomic junior synonym: *Microdinium glabrum* Wilson (name not validly published), according to Slimani (2001a, p.193). Age: early Campanian–late Maastrichtian.

"irregulare" Clarke and Verdier, 1967, p.65–66, pl.7, figs.5–8; text-fig.27. Holotype: Clarke and Verdier, 1967, pl.7, fig.5. **Taxonomic senior synonym:** *Micrhystridium* (as *Phanerodinium*, now *Rhiptocorys*) *veligera*, according to Below (1987b, p.56). Age: Cenomanian–Santonian.

"jiaboense" Lentin and Williams, 1989, p.245. Holotype: Jiabo, 1978 pl.6, fig.1. **NOW** *Tianjinella ovata*. Originally *Dinogymnium ovatum*, subsequently *Microdinium jiaboense*, thirdly (and now) *Tianjinella ovata*. Substitute name for *Dinogymnium ovatum* Jiabo, 1978, p.94, pl.6, fig.1; the name *Microdinium ovatum* is preoccupied. Age: Early Tertiary.

jurassicum Riding and Helby, 2001e, p.120,122–123, figs.6A–T. Holotype: Riding and Helby, 2001e, figs.6M–O. Taxonomic junior synonym: *Microdinium oxfordense* (name not validly published), according to Riding and Helby (2001e, p.120). Age: Callovian–Oxfordian.

kustanaicum Vozzhennikova, 1967, p.96, pl.37, figs.1a–b. Holotype: Vozzhennikova, 1967, pl.37, figs.1a–b; Lentin and Vozzhennikova, 1990, text-fig.60; lost according to Lentin and Vozzhennikova (1990, p.106). Originally (and now) *Microdinium*, subsequently *Microdinium?*. Questionable assignment: Stover and Evitt (1978, p.66) — however, Lentin and Vozzhennikova (1990, p.106) retained this species in *Microdinium* without question. According to Lentin and Vozzhennikova (1990, p.106), no potential lectotype is available and they recommended that the name be restricted to the type material. Age: ?Maastrichtian.

marheinecke Slimani, 1994, p.36–37, pl.6, figs.16–17,24–25. Holotype: Slimani, 1994, pl.6, figs.16–17,24–25. Age: late Maastrichtian–earliest Danian.

mariae Slimani, 1994, p.37–38, pl.4, figs.10–12,26–27,32–34. Holotype: Slimani, 1994, pl.4, figs.10–12,32–34. Age: late Campanian–earliest Danian.

minutum Louwye, 1997, p.151, pl.1, figs.14–16; pl.2, fig.5. Holotype: Louwye, 1997, pl.1, figs.14–16; pl.2, fig.5. This name was not validly published in Slimani (1994, p.41), since no description was provided. Age: latest Cenomanian–Santonian.

"obscuriplicatum" Wilson in Soncini and Rauscher, 1988, p.449. **Name not validly published:** no description. See also Slimani (2001a, p.193).

opacum Brideaux, 1971, p.76–77, pl.21, figs.19–22; text-figs.7d–e. Holotype: Brideaux, 1971, pl.21, figs.21–22; text-figs.7d–e. Originally (and now) *Microdinium*, subsequently *Phanerodinium*. Lentin and Williams (1989, p.245) retained this species in *Microdinium*. Taxonomic junior synonym: *Microdinium spinosum*, according to Below (1987b, p.38). Below (1987b, p.39) considered *Microdinium* (as *Phanerodinium*) *distinctum* to be the questionable taxonomic senior synonym of this species. Age: middle-late Albian.

***ornatum** Cookson and Eisenack, 1960a, p.6–7, pl.2, figs.3–8; text-figs.2–4. Holotype: Cookson and Eisenack, 1960a, pl.2, figs.3–4; text-fig.2. Originally (and now) *Microdinium*, subsequently *Phanerodinium*. Lentin and Williams (1989, p.245) retained this species in *Microdinium*. Age: Albian–Turonian.

?ovatum Horowitz, 1975, p.24, pl.1, fig.3. Holotype: Horowitz, 1975, pl.1, fig.3. Originally *Microdinium*, subsequently (and now) *Microdinium?*. Questionable assignment: Stover and Evitt (1978, p.66). Age: Late Triassic (probably not in place).

"ovatum" Wilson in Slimani, 1994, p.31. **Name not validly published:** no description or illustration. **Taxonomic senior synonym:** *Microdinium cretaceum*, according to Slimani (2001a, p.193).

"oxfordense" Ott in Riding and Helby, 2001e, p.120. **Name not validly published:** no description. **Taxonomic senior synonym:** *Microdinium jurassicum*, according to Riding and Helby (2001e, p.120).

parvum Slimani, 1994, p.38–39, pl.6, figs.11–13,28–29. Holotype: Slimani, 1994, pl.6, figs.12,28. Age: late Campanian–early Maastrichtian.

pauciscabrosum Slimani, 1994, p.39–41, pl.4, figs.28–29; pl.6, figs.9–10,26–27. Holotype: Slimani, 1994, pl.6, figs.9–10,26–27. Age: late Campanian–late Maastrichtian.

"*perplexum*" (Wilson in Soncini and Rauscher, 1988, p.449. **Name not validly published**: no description.

Taxonomic senior synonym: *Phanerodinium?* (now *Microdinium*) *sonciniae*, according to Slimani (2001a, p.193).

punctulatum Vozzhennikova, 1967, p.96, pl.37, figs.7a–b. Holotype: Vozzhennikova, 1967, pl.37, figs.7a–b; Lentin and Vozzhennikova, 1990, text-fig.61; lost according to Lentin and Vozzhennikova (1990, p.107). Originally (and now) *Microdinium*, subsequently *Microdinium?*. Questionable assignment: Stover and Evitt (1978, p.66) — however, Lentin and Vozzhennikova (1990, p.106) included the species in *Microdinium* without question. According to Lentin and Vozzhennikova (1990, p.107), no potential lectotype is available and the name should be restricted to the type. Age: ?Maastrichtian.

?*reteinvolvatum* (Below, 1987b, p.51–52, pl.12, figs.3,8) Lentin and Williams, 1989, p.245. Holotype: Below, 1987b, pl.12, fig.3; Fensome et al., 1993a, fig.1 — p.1297. Originally *Phanerodinium*, subsequently (and now) *Microdinium?*. Questionable assignment: Lentin and Williams (1989, p.245). Age: middle-late Albian.

reticulatum Vozzhennikova, 1967, p.96–97, pl.37, figs.2–5. Holotype: Vozzhennikova, 1967, pl.37, fig.2; Lentin and Vozzhennikova, 1990, text-fig.62; lost according to Lentin and Vozzhennikova (1990, p.107). Originally (and now) *Microdinium*, subsequently *Microdinium?*. Questionable assignment: Stover and Evitt (1978, p.66) — however, Lentin and Vozzhennikova (1990, p.107) included the species in *Microdinium* without question. According to Lentin and Vozzhennikova (1990, p.107), no potential lectotype is available and the name should be restricted to the type. Age: Eocene.

"*robustum*" Davey, 1969b, p.6, pl.1, fig.3; pl.2, fig.2. Holotype: Davey, 1969b, pl.1, fig.3; pl.2, fig.2. **Taxonomic senior synonym**: *Microdinium* (as *Cladopyxidium*) *saepatum*, according to Stover and Evitt (1978, p.30). Age: Maastrichtian–?Danian.

"*saepatum*" Morgenroth, 1968, p.536–537, pl.41, figs.7–9; pl.42, fig.1. Holotype: Morgenroth, 1968, pl.41, fig.7; Eisenack and Kjellström, 1971, p.516a; Fensome et al., 1995, fig.1 — p.1755. **NOW** *Cladopyxidium*. Originally *Microdinium*, subsequently (and now) *Cladopyxidium*. Taxonomic junior synonyms: *Microdinium robustum* and *Cladopyxidium septatum*, both according to Stover and Evitt (1978, p.30). Age: Danian.

septofibrosus (Below, 1987b, p.52–53, pl.13, figs.1–5) Lentin and Williams, 1989, p.245. Holotype: Below, 1987b, pl.13, figs.1–5; Fensome et al., 1993a, figs.1–5 — p.1337. Originally *Phanerodinium*, subsequently (and now) *Microdinium*. Age: late Albian.

setosum Sarjeant, 1966b, p.151, pl.16, figs.9–10; text-fig.39. Emendation: Below, 1987b, p.53–54, as *Phanerodinium setosum*. Holotype: Sarjeant, 1966b, pl.16, figs.9–10. Originally (and now) *Microdinium*, subsequently *Phanerodinium*. Lentin and Williams (1989, p.245–246) retained this species in *Microdinium*. Taxonomic junior synonym: *Microdinium echinatum*, according to Clarke et al. (1968, p.181). Age: Cenomanian.

?*shangsicum* He Chengquan, 1984b, p.160–161, pl.2, figs.1–6. Holotype: He Chengquan, 1984b, pl.2, fig.1. Originally *Microdinium*, subsequently *Microdinium?*. Questionable assignment: Below (1987b, p.39), as a "nomen dubium". Age: Tertiary.

"?*sincfalense*" Louwye, 1997, p.151–152, pl.2, figs.7–8,12–14. Holotype: Louwye, 1997, pl.2, figs.12–14. Questionable assignment: Louwye (1997, p.151). **Taxonomic senior synonym**: *Membranigonyaulax wilsonii*, according to Slimani and Louwye (2012, p.110,113). Age: Turonian–Campanian.

singulare Vozzhennikova, 1967, p.97, pl.39, figs.2a–e. Holotype: Vozzhennikova, 1967, pl.39, figs.2a–b; Lentin and Vozzhennikova, 1990, text-fig.63; lost according to Lentin and Vozzhennikova (1990, p.108). Originally (and now) *Microdinium*, subsequently *Microdinium?*. Questionable assignment: Stover and Evitt (1978, p.66) — however, Lentin and Vozzhennikova (1990, p.108) included the species in *Microdinium* without question. According to Lentin and Vozzhennikova (1990, p.108), no potential lectotype is available and the name should be restricted to the type. Age: Eocene.

"?*smolenskiense*" (Vozzhennikova, 1967, p.93, pl.34, figs.1–6; pl.35, fig.6; pl.36, fig.4) Lentin and Williams, 1973, p.95. Emendation: Lentin and Vozzhennikova, 1990, p.112, as *Rhiptocorys smolenskiensis*. Holotype: Vozzhennikova, 1967, pl.36, fig.4, lost according to Lentin and Vozzhennikova (1990, p.112). Lectotype: Lentin and Vozzhennikova, 1990, pl.13, figs.1–3; text-fig.65, designated by Lentin and Vozzhennikova (1990, p.112). **NOW** *Rhiptocorys*. Originally *Ceratocorys* (Appendix B), subsequently *Microdinium*, thirdly *Microdinium?*, fourthly (and now) *Rhiptocorys*. Questionable assignment: Stover and Evitt (1978, p.66) as a problematic species. Taxonomic senior synonym: *Micrhystridium* (as *Phanerodinium*, now *Rhiptocorys*) *veligera*, according to Below (1987b, p.56) — however, Lentin and Vozzhennikova (1990, p.112) retained *Ceratocorys* (as *Rhiptocorys*) *smolenskiensis*. Age: Late Cretaceous.

sonciniae (Marheinecke, 1992, p.110–111, pl.25, figs.1–4) Slimani, 1994, p.41. Holotype: Marheinecke, 1992, pl.25, figs.1–2. Originally *Phanerodinium?*, subsequently (and now) *Microdinium*. Taxonomic junior synonym: *Microdinium perplexum* (name not validly published), according to Slimani (2001a, p.193). Age: late early–late late Maastrichtian.

"*spinosum*" Brideaux and McIntyre, 1975, p.23–24, pl.6, figs.3–5. Holotype: Brideaux and McIntyre, 1975, pl.6, figs.3–4. **Taxonomic senior synonym:** *Microdinium* (as *Phanerodinium*) *opacum*, according to Below (1987b, p.38). Age: middle Albian.

?*variospinum* Davey, 1969a, p.135, pl.2, figs.5–6; text-fig.13G. Holotype: Davey, 1969a, pl.2, fig.6. Originally *Microdinium*, subsequently (and now) *Microdinium?*. Questionable assignment: Stover and Evitt (1978, p.66). Below (1987b, p.38) considered *Microdinium* (as *Phanerodinium*) *distinctum* to be the questionable taxonomic senior synonym of this species. Age: Cenomanian.

"?*veligerum*" (Deflandre, 1937b, p.81, pl.12 [al. pl.9], fig.9) Davey, 1969a, p.136–137. Emendations: Lejeune-Carpentier, 1943, p.B24–B25, as *Ceratocorys veligera*; Lejeune-Carpentier and Sarjeant, 1983, p.5–6, as *Rhiptocorys veligera*. Holotype: Deflandre, 1937b, pl.12 (al. pl.9), fig.9; Fensome et al., 1995, fig.1 — p.1885. **NOW** *Rhiptocorys*. Originally *Micrhystridium* (Appendix A), subsequently *Ceratocorys* (Appendix B), thirdly *Microdinium*, fourthly *Microdinium?*, fifthly (and now) *Rhiptocorys*, sixthly *Phanerodinium*, seventhly *Phanerodinium?*. Questionable assignment: Stover and Evitt (1978, p.66) as a problematic species. Taxonomic junior synonyms: *Microdinium irregulare* and *Ceratocorys* (as *Microdinium*, now *Rhiptocorys*) *smolenskiensis*, both according to Below (1987b, p.56) — however, Lentin and Vozzhennikova (1990, p.112) retained *Ceratocorys* (as *Rhiptocorys*) *smolenskiensis*. Age: Senonian.

wakuraense Fuji, 1966, p.62, pl.12, fig.3. Holotype: Fuji, 1966, pl.12, fig.3. Age: late Miocene.

"**MICRODISTEPHANUS**" Filipescu, 1959, p.168. Siliceous dinoflagellate genus. **Name not validly published:** type not designated. **Taxonomic senior synonym:** *Actiniscus*, according to Dumitrică (1973, p.820). This name was not validly published in Filipescu (1943, p.264) since no species were proposed. Type: not designated.

"*ellipticus*" Filipescu, 1959, p.170, pl.1, fig.7. Holotype: Filipescu, 1959, pl.1, fig.7, as *Microdistephanus ellipticus* var. *uniornatus*. **Name not validly published:** the generic name *Microdistephanus* is not validly published. Age: Miocene.

"var. *uniornatus*" Filipescu, 1959, p.170, pl.1, fig.7. Holotype: Filipescu, 1959, pl.1, fig.7. **Name not validly published:** the species name *Microdistephanus ellipticus* is not validly published. **Nomenclatural senior synonym:** *Microdistephanus ellipticus* var. *ellipticus*. Age: Miocene.

"*hexaradiatus*" Filipescu, 1959, p.170, pl.1, fig.6. Holotype: Filipescu, 1959, pl.1, fig.6, as *Microdistephanus hexaradiatus* var. *triornatus*. **Name not validly published:** the generic name *Microdistephanus* is not validly published. Age: Miocene.

"var. *triornatus*" Filipescu, 1959, p.170, pl.1, fig.6. Holotype: Filipescu, 1959, pl.1, fig.6. **Name not validly published:** the species name *Microdistephanus hexaradiatus* is not validly published.

Nomenclatural senior synonym: *Microdistephanus hexaradiatus* var. *hexaradiatus* which has the same holotype. Age: Miocene.

"*pentaradiatus*" Filipescu, 1959, p.168–169, pl.1, figs.2–5. Holotype: Filipescu, 1959, not designated. **Name not validly published:** the generic name *Microdistephanus* is not validly published and additionally since Filipescu (1959) did not designate a holotype. Age: Miocene.

"var. *biannelatus*" Filipescu, 1959, p.169, pl.1, fig.2. Holotype: Filipescu, 1959, pl.1, fig.2. **Name not validly published:** the specific name *Microdistephanus pentaradiatus* is not validly published. Age: Miocene.

"var. *biornatus*" Filipescu, 1959, p.169, pl.1, fig.4. Holotype: Filipescu, 1959, pl.1, fig.4. **Name not validly published:** the specific name *Microdistephanus pentaradiatus* is not validly published. Age: Miocene.

"var. *triornatus*" Filipescu, 1959, p.169, pl.1, fig.5. Holotype: Filipescu, 1959, pl.1, fig.5. **Name not validly published:** the specific name *Microdistephanus pentaradiatus* is not validly published. Age: Miocene.

"var. *uniornatus*" Filipescu, 1959, p.169, pl.1, fig.3. Holotype: Filipescu, 1959, pl.1, fig.3. **Name not validly published:** the specific name *Microdistephanus pentaradiatus* is not validly published. Age: Miocene.

"*stellatus*" Filipescu, 1959, p.168, pl.1, fig.1. Holotype: Filipescu, 1959, pl.1, fig.1. **Name not validly published:** the generic name *Microdistephanus* is not validly published. Age: Miocene.

MICROSPHAERIDIUM Benedek, 1972, p.46–47. Type: Benedek, 1972, pl.12, figs.3a–b, as *Microsphaeridium ancistroides*.

**ancistroides* Benedek, 1972, p.47, pl.12, figs.3a–b; text-fig.21. Holotype: Benedek, 1972, pl.12, figs.3a–b; Benedek and Sarjeant, 1981, fig.10, no.4; Sarjeant et al., 1987, pl.2, fig.3. Benedek and Sarjeant (1981, p.347) recommended that this name be restricted to the holotype. Brinkhuis et al. (1992, p.238) considered *Distatodinium biffii* to be a possible taxonomic junior synonym of this species. Age: late Oligocene.

MIKROCYSTA Bjaerke, 1980, p.71. Emendation: Below, 1987b, p.13–14. Type: Bjaerke, 1980, pl.5, fig.10, as *Mikrocysta erugata*.

bjaerkei Below, 1987b, p.14–16, pl.2, figs.1–15; pl.3, figs.1–6,11; text-figs.3a–b. Holotype: Below, 1987b, pl.2, figs.1–2,4; Fensome et al., 1993a, figs.1–3 — p.981. Age: Toarcian.

**erugata* Bjaerke, 1980, p.71–72, pl.5, figs.10–11. Emendation: Below, 1987b, p.16–17. Holotype: Bjaerke, 1980, pl.5, fig.10; Fensome et al., 1993a, fig.1 — p.1145. Age: Toarcian.

granulata Below, 1987b, p.18–19, pl.3, figs.12–15. Holotype: Below, 1987b, pl.3, figs.13,15; Fensome et al., 1993a, figs.2,4 — p.1223. Age: late Pliensbachian–Toarcian.

rugosa Below, 1987b, p.19, pl.3, figs.7–10. Holotype: Below, 1987b, pl.3, figs.7–10; Fensome et al., 1993a, figs.1–2 — p.1307. Age: Toarcian.

MIKROPITHON Agelopoulos, 1967, p.51. Type: Agelopoulos, 1967, pl.10, fig.7, as *Mikropithon amniophorum*.

**amniophorum* Agelopoulos, 1967, p.51–52, pl.10, figs.6–8. Holotype: Agelopoulos, 1967, pl.10, fig.7. Age: Eocene.

"**MILLIOUDODINIUM**" Stover and Evitt, 1978, p.173. Emendation: Sarjeant, 1982b, p.39. **Taxonomic senior synonym:** *Cribroperidinium*, according to Duxbury (1980, p.122) and Lentin and Williams (1993, p.430). Type: Sarjeant, 1966b, pl.15, figs.1–2; text-fig.33, as *Gonyaulacysta fetchamensis*.

"**aequum**" Mao Shaozhi and Norris, 1988, p.35, pl.2, figs.17–19; text-fig.9. Holotype: Mao Shaozhi and Norris, 1988, pl.2, fig.17. **NOW** *Cribroperidinium?*. Originally *Millioudodinium?*, subsequently (and now) *Cribroperidinium?*. Questionable assignment: Mao Shaozhi and Norris (1988, p.35). Age: Late Cretaceous.

"**aichmetes**" (Sarjeant, 1966b, p.123–124, pl.13, figs.5–6; text-fig.30) Stover and Evitt, 1978, p.173. Holotype: Sarjeant, 1966b, pl.13, figs.5–6; text-fig.30; Jan du Chêne et al., 1986a, pl.20, figs.5–7. **NOW** *Cribroperidinium*. Originally *Gonyaulacysta*, subsequently *Millioudodinium*, thirdly (and now) *Cribroperidinium*. Age: late Barremian.

"**ambiguum**" (Deflandre, 1939b, p.144, pl.6, fig.2) Stover and Evitt, 1978, p.173. Holotype: Deflandre, 1939b, pl.6, fig.2; Jan du Chêne et al., 1986a, pl.68, figs.1–3. **NOW** *Leptodinium*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly *Millioudodinium*, fourthly *Rhynchodiniopsis*, fifthly (and now) *Leptodinium*. Age: Kimmeridgian.

"**apione**" (Cookson and Eisenack, 1958, p.36, pl.3, fig.7; text-figs.3–4) Stover and Evitt, 1978, p.173. Holotype: Cookson and Eisenack, 1958, text-figs.3–4; Jan du Chêne et al., 1986a, pl.33, fig.6. **NOW** *Cribroperidinium*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly *Millioudodinium*, fourthly (and now) *Cribroperidinium*. Taxonomic senior synonym: *Gonyaulax* (now *Cribroperidinium*) *edwardsii*, according to Burger (1980a, p.82) — however, Jan du Chêne et al. (1986a, p.76) retained *Gonyaulax* (as *Cribroperidinium*) *apione*. Age: Albian.

"**bacculatum**" (Balteş, 1971, p.3, pl.1, figs.4–5) Stover and Evitt, 1978, p.173. Holotype: Balteş, 1971, pl.1, figs.4–5. **NOW** *Leptodinium?*. Originally *Leptodinium*, subsequently *Millioudodinium*, thirdly *Rhynchodiniopsis?*, fourthly (and now) *Leptodinium?*. Age: early Pliocene.

"**baltesii**" Sütő-Szentai, 1990, p.851,853, pl.5, fig.3; text-fig.77b, nos.1–2. Holotype: Sütő-Szentai, 1990, pl.5, fig.3; text-fig.77b, nos.1–2. **Name not validly published:** lodgement of holotype not specified (I.C.N. Article 40.7). Age: late Miocene.

"**birkelundiae**" (Fensome, 1979, p.38–40, pl.5, figs.5,8,11; text-figs.14A–C) Lentin and Williams, 1981, p.189. Holotype: Fensome, 1979, pl.5, figs.5,8,11; text-figs.14A–B; Jan du Chêne et al., 1986a, pl.24, figs.1–3. **NOW** *Cribroperidinium?*. Originally *Gonyaulacysta*, subsequently *Millioudodinium*, thirdly (and now) *Cribroperidinium?*. Age: Portlandian.

"**boreas**" (Davey, 1974, p.52–53, pl.4, figs.1–4; pl.7, fig.5) Stover and Evitt, 1978, p.174. Holotype: Davey, 1974, pl.4, figs.1–4; Jan du Chêne et al., 1986a, pl.21, figs.1–4. **NOW** *Cribroperidinium*. Originally *Gonyaulacysta*, subsequently *Millioudodinium?*, thirdly (and now) *Cribroperidinium*. Questionable assignment: Stover and Evitt (1978, p.174). N.I.A. Age: late Barremian.

"**cauda**" (Gitmez and Sarjeant, 1972, p.193–194, pl.2, figs.1–2,4–5) Stover and Evitt, 1978, p.173. Holotype: Gitmez and Sarjeant, 1972, pl.2, figs.1–2. Originally *Gonyaulacysta*, subsequently *Millioudodinium*, thirdly *Rhynchodiniopsis*, fourthly *Cribroperidinium?*. **Taxonomic senior synonym:** *Gonyaulacysta* (as and now *Cribroperidinium*) *globata*, according to Poulsen (1996, p.72). N.I.A. Age: early–late Kimmeridgian.

"**confossum**" (Duxbury, 1977, p.33, pl.2, figs.2–4) Sarjeant, 1982b, p.39. Holotype: Duxbury, 1977, pl.2, figs.3–4; Jan du Chêne et al., 1986a, pl.19, fig.5. **NOW** *Cribroperidinium*. Originally *Gonyaulacysta*, subsequently *Millioudodinium*, thirdly *Cribroperidinium?*, fourthly (and now) *Cribroperidinium*. Age: late Hauterivian.

"**confusum**" (Vozzhennikova, 1967, p.80, pl.17, figs.1a–b; pl.25, figs.4–5; pl.27, figs.3–4) Stover and Evitt, 1978, p.174. Holotype: Vozzhennikova, 1967, pl.25, fig.5, lost according to Lentin and Vozzhennikova (1990, p.93).

NOW *Apteodinium*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly *Millioudodinium?*, fourthly *Rhynchodiniopsis?*, fifthly (and now) *Apteodinium*. Questionable assignment: Stover and Evitt (1978, p.174). Age: Late Jurassic.

"**crispum**" (Wetzel, 1967a, p.870, pl.15, figs.4a–b) Stover and Evitt, 1978, p.173. Emendations: Sarjeant, 1980b, p.119–120, as *Hystrichogonyaulax crista*; Fenton, 1981, p.255–256, as *Cribroperidinium crispum*. Holotype: Wetzel, 1967a, pl.15, figs.4a–b; Dietz et al., 1999, text-fig.5a. **NOW** *Cribroperidinium*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly *Millioudodinium*, fourthly *Hystrichogonyaulax*, fifthly (and now) *Cribroperidinium*, sixthly *Acanthaulax*. Age: Middle Jurassic.

"**cristatum**" (Riley in Fisher and Riley, 1980, p.320, pl.1, figs.8,12) Fisher and Riley, 1982, p.53. Holotype: Fisher and Riley, 1980, pl.1, figs.8,12; Jan du Chêne et al., 1986a, pl.67, fig.20. **NOW** *Leptodinium volgense*. Originally *Gonyaulacysta cristata*, subsequently *Leptodinium cristatum* (combination illegitimate), thirdly (and now) *Leptodinium volgense*, fourthly *Millioudodinium cristatum*, fifthly *Cribroperidinium cristatum* (combination not validly published). Age: Volgian.

"**deflandrei**" (Riley in Fisher and Riley, 1980, p.320–321, pl.1, figs.1–2) Fisher and Riley, 1982, p.53. Holotype: Fisher and Riley, 1980, pl.1, figs.1–2; Jan du Chêne et al., 1986a, pl.75, fig.7. **NOW** *Leptodinium*. Originally *Gonyaulacysta*, subsequently (and now) *Leptodinium*, thirdly *Millioudodinium*. Age: Volgian.

"**dektense**" Sütő-Szentai, 1990, p.853–854, pl.5, figs.4–5; text-figs.77c,78c. Holotype: Sütő-Szentai, 1990, pl.5, fig.4; text-fig.78c. **Name not validly published**: lodgement of holotype not specified (I.C.N. Article 40.7). Age: late Miocene.

"**diutinum**" (Duxbury, 1977, p.34–35, pl.1, figs.3–4; text-fig.9) Sarjeant, 1982b, p.39. Holotype: Duxbury, 1977, pl.1, fig.3; text-fig.9; Jan du Chêne et al., 1986a, pl.41, figs.3–4. **NOW** *Wrevittia?*. Originally *Gonyaulacysta*, subsequently *Millioudodinium?*, thirdly (and now) *Wrevittia?*. Questionable assignment: Sarjeant (1982b, p.39). Taxonomic senior synonym: *Gonyaulax* (as *Gonyaulacysta*, now *Wrevittia*) *helicoidea*, according to Stover and Helby (1987d, p.287) — however, Jan du Chêne et al. (1986a, p.130) and Lentin and Williams (1989, p.152) retained *Gonyaulacysta diutina*. Age: Berriasian–Hauterivian.

"**ehrenbergii**" (Gitmez, 1970, p.252–254, pl.2, figs.8–9; text-fig.8) Stover and Evitt, 1978, p.173. Holotype: Gitmez, 1970, pl.2, figs.8–9; text-fig.8, lost according to Jan du Chêne et al. (1986a, p.80). **NOW** *Cribroperidinium?*. Originally *Gonyaulacysta*, subsequently *Millioudodinium*, thirdly (and now) *Cribroperidinium?*. Age: early Kimmeridgian.

"**episomum**" (Sarjeant, 1966b, p.118–119, pl.13, figs.9–10; text-fig.27) Stover and Evitt, 1978, p.173. Holotype: Sarjeant, 1966b, pl.13, figs.9–10; text-fig.27; Jan du Chêne et al., 1986a, pl.67, figs.15–16. **NOW** *Leptodinium*. Originally *Gonyaulacysta*, subsequently *Millioudodinium*, thirdly *Rhynchodiniopsis*, fourthly (and now) *Leptodinium*. Age: late Barremian.

"**exanguium**" (Duxbury, 1977, p.35–36, pl.1, figs.6–7; text-fig.10) Sarjeant, 1982b, p.39. Emendation: Harding, 1990b, p.31–32, as *Gonyaulacysta exanguia*. Holotype: Duxbury, 1977, pl.1, fig.6; text-fig.10b; Jan du Chêne et al., 1986a, pl.40, figs.1–3. **NOW** *Stanfordella*. Originally *Gonyaulacysta*, subsequently *Millioudodinium?*, thirdly (and now) *Stanfordella*. Questionable assignment: Sarjeant (1982b, p.39). Age: Hauterivian–Barremian.

"**fetchamense**" (Sarjeant, 1966b, p.128,130, pl.15, figs.1–2; text-fig.33) Stover and Evitt, 1978, p.173. Holotype: Sarjeant, 1966b, pl.15, figs.1–2; text-fig.33; Helenes, 1984, text-figs.4A–B; Jan du Chêne et al., 1986a, pl.20, figs.1–4; Fensome et al., 1993a, figs.1–2 — p.1189. **NOW** *Cribroperidinium*. Originally *Gonyaulacysta*, subsequently *Millioudodinium*, thirdly (and now) *Cribroperidinium*. Age: early Cenomanian.

"**foveolatum**" Sütő-Szentai, 1982a, p.211–212,219, pl.2, figs.1–5. Holotype: Sütő-Szentai, 1982a, pl.2, fig.1. **NOW** *Apteodinium?*. Originally *Millioudodinium*, subsequently (and now) *Apteodinium?*. Age: late Miocene.

"**gigas**" (Raynaud, 1978, p.392–393, pl.2, fig.16) Lentin and Williams, 1981, p.190. Holotype: Raynaud, 1978, pl.2, fig.16; Jan du Chêne et al., 1986a, pl.30, fig.6. **NOW** *Cribroperidinium?*. Originally *Gonyaulacysta*, subsequently *Millioudodinium*, thirdly (and now) *Cribroperidinium?*. N.I.A. Age: late Kimmeridgian–Portlandian.

"?**giuseppeii**" (Morgenroth, 1966a, p.5, pl.2, figs.3–6) Stover and Evitt, 1978, p.174. Holotype: Morgenroth, 1966a, pl.2, figs.3–4. **NOW** *Cribroperidinium*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly *Millioudodinium?*, fourthly *Rhynchodiniopsis?*, fifthly (and now) *Cribroperidinium*. Questionable assignment: Stover and Evitt (1978, p.174). Age: early Eocene.

"subsp. **giuseppeii**". Autonym. Holotype: Morgenroth, 1966a, pl.2, figs.3–4. **Now redundant**. Originally *Gonyaulax giuseppeii* subsp. *giuseppeii* (Appendix B), subsequently *Gonyaulacysta giuseppeii* subsp. *giuseppeii*, thirdly *Millioudodinium? giuseppeii* subsp. *giuseppeii*, fourthly *Rhynchodiniopsis? giuseppeii* subsp. *giuseppeii*, fifthly *Cribroperidinium giuseppeii* subsp. *giuseppeii*. Taxonomic junior synonym: *Gonyaulax* (as *Rhynchodiniopsis*) *giuseppeii* subsp. *major*, according to Helenes (1984, p.121) and Lentin and Williams (1989, p.81).

"subsp. **majus**" (Morgenroth, 1966a, p.6, pl.2, figs.5–6) Stover and Evitt, 1978, p.174. Holotype: Morgenroth, 1966a, pl.2, figs.5–6. Originally *Gonyaulax giuseppeii* subsp. *major* (Appendix B), subsequently *Gonyaulacysta giuseppeii* subsp. *major*, thirdly *Millioudodinium? giuseppeii* subsp. *majus*, fourthly *Rhynchodiniopsis? giuseppeii* subsp. *major*, fifthly *Cribroperidinium giuseppeii* subsp. *major*. **Taxonomic senior synonym:** *Gonyaulax* (as *Rhynchodiniopsis*) *giuseppeii* subsp. *giuseppeii*, according to Helenes (1984, p.121) and Lentin and Williams (1989, p.81). Age: early Eocene.

"**globatum**" (Gitmez and Sarjeant, 1972, p.195,197, pl.3, figs.1–2; text-figs.5A–B) Stover and Evitt, 1978, p.173. Holotype: Gitmez and Sarjeant, 1972, pl.3, fig.1; text-fig.5A; Jan du Chêne et al., 1986a, pl.29, fig.3. **NOW** *Cribroperidinium*. Originally *Gonyaulacysta*, subsequently *Millioudodinium*, thirdly *Rhynchodiniopsis*, fourthly *Cribroperidinium?*, fifthly (and now) *Cribroperidinium*. Taxonomic junior synonyms: *Gonyaulacysta cauda* and *Gonyaulacysta systremmata*, both according to Poulsen (1996, p.72). Age: middle-late Kimmeridgian.

"?**globosum**" (Brideaux, 1971, p.81, pl.23, figs.37–38; text-figs.7g–h) Stover and Evitt, 1978, p.174. Holotype: Brideaux, 1971, pl.23, figs.37–38; text-fig.7g; Jan du Chêne et al., 1986a, pl.28, figs.10–11. **NOW** *Cribroperidinium?*. Originally *Gonyaulacysta*, subsequently *Millioudodinium?*, thirdly (and now) *Cribroperidinium?*. Questionable assignment: Stover and Evitt (1978, p.174). Age: middle-late Albian.

"?**gottisii**" (Dupin, 1968, p.4, pl.1, figs.7–12) Stover and Evitt, 1978, p.174. Holotype: Dupin, 1968, pl.1, fig.7; Jan du Chêne et al., 1986a, pl.12, fig.11; pl.94, figs.9–10. Originally *Gonyaulacysta*, subsequently *Millioudodinium?*, thirdly *Apteodinium*. Questionable assignment: Stover and Evitt (1978, p.174). **Taxonomic senior synonym:** *Gonyaulax* (now *Rhynchodiniopsis*) *cladophora*, according to Jan du Chêne et al. (1986a, p.48) and Jan du Chêne and Fauconnier (1986, p.55). Age: Late Jurassic.

"**gracillimum**" Sütő-Szentai, 1983, p.21, pl.3, fig.7. **Name not validly published:** no description.

"**granomembranaceum**" Matsuoka, 1983b, p.121–122, pl.1, figs.1a–c,2,3a–b,4a–b,5a–b; text-figs.14A–B. Holotype: Matsuoka, 1983b, pl.1, figs.1a–c; Jan du Chêne et al., 1986a, pl.27, figs.1–2. **NOW** *Cribroperidinium?*. Originally *Millioudodinium*, subsequently (and now) *Cribroperidinium?*. Age: early–early middle Miocene.

"**hadra**" (Sarjeant, 1966b, p.119–121, pl.14, fig.1; text-fig.28) Stover and Evitt, 1978, p.173. Holotype: Sarjeant, 1966b, pl.14, fig.1. **NOW** *Leptodinium?*. Originally *Gonyaulacysta*, subsequently *Millioudodinium*, thirdly *Rhynchodiniopsis*, fourthly (and now) *Leptodinium?*. N.I.A. Age: late Barremian.

"?**italicum**" (Corradini, 1973, p.132–133, pl.19, figs.8a–b; pl.33, figs.5a–b; text-figs.3a–d) Stover and Evitt, 1978, p.174. Holotype: Corradini, 1973, pl.19, figs.8a–b; text-figs.3a–d; Jan du Chêne et al., 1986a, pl.98, fig.11. **NOW** *Rhynchodiniopsis?*. Originally *Gonyaulacysta*, subsequently *Millioudodinium?*, thirdly *Hystrichogonyaulax*, fourthly (and now) *Rhynchodiniopsis?*. Questionable assignment: Stover and Evitt (1978, p.174). Age: Late Cretaceous–Paleocene.

- "*jamborü*" Sütő-Szentai, 1988, p.356, pl.4, fig.4. **Name not validly published**: no description. Age: late Miocene.
- "*jubaris*" Davies, 1983, p.19, pl.5, figs.13–20; text-fig.13. Holotype: Davies, 1983, pl.5, fig.16; Jan du Chêne et al., 1986a, pl.150, figs.17–18. **NOW** *Cribroperidinium*. Originally *Millioudodinium*, subsequently (and now) *Cribroperidinium*. N.I.A. Age: Tithonian.
- "*kashiense*" He Chengquan, 1991, p.108–109, pl.4, figs.34–37. Holotype: He Chengquan, 1991, pl.4, fig.37. **NOW** *Cribroperidinium*. Originally *Millioudodinium*, subsequently (and now) *Cribroperidinium*. Age: Paleocene–Eocene.
- "*longicorne*" (Downie, 1957, p.420, pl.20, fig.8; text-figs.2a–b) Sarjeant, 1982b, p.39. Holotype: Downie, 1957, pl.20, fig.8; text-figs.2a–b; Jan du Chêne et al., 1986a, pl.30, fig.1. **NOW** *Cribroperidinium?*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly *Gonyaulacysta?*, fourthly *Millioudodinium*, fifthly (and now) *Cribroperidinium?*. Age: late Kimmeridgian.
- "*lorentheyi*" Sütő-Szentai, 1988, p.355, pl.3, fig.1. **Name not validly published**: no description. Age: late Miocene.
- "*?mamilliferum*" (Deflandre, 1939b, p.143, pl.6, fig.1) Stover and Evitt, 1978, p.174. Holotype: Deflandre, 1939b, pl.6, fig.1; Jan du Chêne et al., 1986a, pl.72, figs.1–8. **NOW** *Leptodinium*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta?*, thirdly *Millioudodinium?*, fourthly *Rhynchodiniopsis?*, fifthly (and now) *Leptodinium*. Questionable assignment: Stover and Evitt (1978, p.174). Age: Kimmeridgian.
- "*?mecsekense*" (Nagy, 1969, p.292, pl.1, figs.6,8) Stover and Evitt, 1978, p.174. Holotype: Nagy, 1969, pl.1, figs.6,8; Jan du Chêne et al., 1986a, pl.11, figs.10–12. **NOW** *Apteodinium*. Originally *Palaeoperidinium*, subsequently *Gonyaulacysta?*, thirdly *Millioudodinium?*, fourthly (and now) *Apteodinium*. Questionable assignment: Stover and Evitt (1978, p.174). Age: late Miocene.
- "*monacanthum*" (Deflandre, 1936b, p.176–177, pl.5, fig.10 ex Sarjeant, 1967b, p.252) Stover and Evitt, 1978, p.174. Holotype: Deflandre, 1935, pl.6, fig.1; Deflandre, 1936b, pl.5, fig.10; lost according to Jan du Chêne et al. (1986a, p.48). **NOW** *Apteodinium?*. Originally *Palaeoperidinium* (name not validly published), subsequently *Gonyaulacysta*, thirdly *Millioudodinium*, fourthly *Apteodinium*, fifthly (and now) *Apteodinium?*. Age: Senonian.
- "*nuciforme*" (Deflandre, 1939a, p.180, pl.8, figs.4–6 ex Sarjeant, 1962a, p.482–483) Sarjeant, 1982b, p.39. Holotype: Deflandre, 1939a, pl.8, fig.6; Jan du Chêne et al., 1986a, pl.11, figs.1–3. **NOW** *Cribroperidinium*. Originally *Palaeoperidinium* (name not validly published), subsequently *Gonyaulax* (Appendix B), thirdly *Gonyaulacysta*, fourthly *Apteodinium*, fifthly *Millioudodinium*, sixthly (and now) *Cribroperidinium*. Taxonomic junior synonym: *Palaeoperidinium nuciformoides*, according to Sarjeant (1968, p.227). Age: Oxfordian.
- "*obesum*" (Brideaux, 1971, p.82, pl.23, fig.39; text-figs.8a–b) Stover and Evitt, 1978, p.174. Holotype: Brideaux, 1971, pl.23, fig.39; text-figs.8a–b; Jan du Chêne et al., 1986a, pl.30, fig.9. **NOW** *Cribroperidinium?*. Originally *Gonyaulacysta*, subsequently *Millioudodinium*, thirdly *Rhynchodiniopsis*, fourthly (and now) *Cribroperidinium?*. Age: late Albanian.
- "*obscurum*" (Lejeune-Carpentier, 1946, p.B191, figs.3–5) Sarjeant, 1982b, p.39. Emendation: Lejeune-Carpentier and Sarjeant, 1981, p.4, as *Gonyaulacysta? obscura*. Holotype: Lejeune-Carpentier, 1946, figs.3–4; Lejeune-Carpentier and Sarjeant, 1981, pl.2, figs.3–4; text-fig.2. **NOW** *Gonyaulacysta?*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly (and now) *Gonyaulacysta?*, fourthly *Millioudodinium*. Age: Senonian.
- "*ordocavum*" (Duxbury, 1977, p.37–38, pl.1, figs.10–11; text-fig.12) Sarjeant, 1982b, p.39. Holotype: Duxbury, 1977, pl.1, figs.10–11; text-fig.12; Jan du Chêne et al., 1986a, pl.41, figs.1–2. **NOW** *Stanfordella*. Originally *Gonyaulacysta*, subsequently *Millioudodinium*, thirdly (and now) *Stanfordella*. Age: early–late Hauterivian.
- "*?palla*" (Sarjeant, 1966b, p.113–114, pl.13, figs.3–4; text-fig.24) Stover and Evitt, 1978, p.174. Holotype: Sarjeant, 1966b, pl.13, figs.3–4; Jan du Chêne et al., 1986a, pl.27, figs.15–17. **NOW** *Cribroperidinium*. Originally

Gonyaulacysta, subsequently *Millioudodinium*, thirdly *Millioudodinium?*, fourthly *Rhynchodiniopsis*, fifthly (and now) *Cribroperidinium*. Questionable assignment: Below (1981a, p.58). N.I.A. Age: early Barremian.

"*?panonicum*" (Nagy, 1965, p.200–201, pl.1, figs.1–2; pl.2, fig.10; text-figs.1–2) Stover and Evitt, 1978, p.174. Holotype: Nagy, 1965, pl.1, figs.1–2; pl.2, fig.10; Jan du Chêne et al., 1986a, pl.31, figs.1–4. **NOW** *Cribroperidinium?*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly *Millioudodinium?*, fourthly (and now) *Cribroperidinium?*. Questionable assignment: Stover and Evitt (1978, p.174). Age: early Pliocene.

"*parorthoceras*" (Davey, 1968, p.1) Stover and Evitt, 1978, p.174. Holotype: Sarjeant, 1966b, pl.14, figs.5–6; text-fig.29, as *Gonyaulacysta orthoceras*; Jan du Chêne et al., 1986a, pl.26, figs.6–8. **NOW** *Cribroperidinium?*. Originally *Gonyaulacysta*, subsequently *Millioudodinium*, thirdly (and now) *Cribroperidinium?*. Age: late Barremian.

"*pelagicum*" Sütő-Szentai, 1990, p.854, pl.4, fig.3; text-fig.78d. Holotype: Sütő-Szentai, 1990, pl.4, fig.3; text-fig.78d. **Name not validly published**: lodgement of holotype not specified (I.C.N. Article 40.7). This name was also not validly published in Sütő-Szentai (1982a, pl.4, figs.3–4), since that author did not provide a description. Age: late Miocene.

"*pennatum*" (Riley in Fisher and Riley, 1980, p.321–322, pl.1, figs.10–11) Fisher and Riley, 1982, p.53. Holotype: Fisher and Riley, 1980, pl.1, figs.10–11; Jan du Chêne et al., 1986a, pl.98, fig.5. **NOW** *Rhynchodiniopsis*. Originally *Gonyaulacysta*, subsequently *Hystrihogonyaulax*, thirdly *Millioudodinium*, fourthly (and now) *Rhynchodiniopsis*. Age: late Kimmeridgian.

"*punctatum*" (Balteş, 1971, p.3, pl.1, figs.2–3,6–7) Stover and Evitt, 1978, p.174. **Name not validly published**: holotype not designated. Originally *Leptodinium* (name not validly published), subsequently *Millioudodinium* (name not validly published). Age: early Pliocene.

"*quadratum*" Sütő-Szentai, 1988, p.349,351. **Name not validly published**: no description. Age: late Miocene.

"*saetigerum*" McIntyre and Brideaux, 1980, p.15, pl.2, figs.2–3,7. Holotype: McIntyre and Brideaux, 1980, pl.3, figs.2–3,7; Jan du Chêne et al., 1986a, pl.24, figs.4–6. **NOW** *Cribroperidinium?*. Originally *Millioudodinium*, subsequently (and now) *Cribroperidinium?*. Age: Valanginian.

"*sarjeantii*" (Vozzhennikova, 1967, p.87–89, pl.25, figs.1–2; pl.28, fig.4; pl.31, figs.1a–b,2a–b,3; pl.32, figs.1,2a–c,3,4a–b) Stover and Evitt, 1978, p.174. Holotype: Vozzhennikova, 1967, pl.31, fig.1a; Lentin and Vozzhennikova, 1990, text-fig.53; lost according to Lentin and Vozzhennikova (1990, p.95). Neotype: Vozzhennikova, 1967, pl.31, fig.3; Lentin and Vozzhennikova, 1990, pl.16, fig.4; designated by Lentin and Vozzhennikova (1990, p.95). **NOW** *Cribroperidinium*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly *Millioudodinium*, fourthly *Rhynchodiniopsis*, fifthly *Cribroperidinium?*, sixthly (and now) *Cribroperidinium*. Age: Tithonian.

"subsp. *sarjeantii*". Autonym. Holotype: Vozzhennikova, 1967, pl.31, fig.1a; Lentin and Vozzhennikova, 1990, text-fig.53; lost according to Lentin and Vozzhennikova (1990, p.95). Neotype: Vozzhennikova, 1967, pl.31, fig.3; Lentin and Vozzhennikova, 1990, pl.16, fig.4; designated by Lentin and Vozzhennikova (1990, p.95). **NOW** *Cribroperidinium sarjeantii* subsp. *sarjeantii*. Originally *Gonyaulacysta sarjeantii* subsp. *sarjeantii*, subsequently *Millioudodinium sarjeantii* subsp. *sarjeantii*, thirdly *Rhynchodiniopsis sarjeantii* subsp. *sarjeantii*, fourthly *Cribroperidinium? sarjeantii* subsp. *sarjeantii*, fifthly (and now) *Cribroperidinium sarjeantii* subsp. *sarjeantii*.

"subsp. *sphaericum*" (Vozzhennikova, 1967, p.89, pl.25, figs.1–2; pl.28, fig.4; pl.32, figs.1–4) Stover and Evitt, 1978, p.174. Holotype: Vozzhennikova, 1967, pl.28, fig.4; Jan du Chêne et al., 1986a, pl.20, fig.9; lost according to Lentin and Vozzhennikova (1990, p.97). Lectotype: Lentin and Vozzhennikova, 1990, pl.16, figs.1–2, designated by Lentin and Vozzhennikova (1990, p.97). **NOW** *Cribroperidinium sarjeantii* subsp. *sphaericum*. Originally *Gonyaulax sarjeantii* var. *sphaerica* (Appendix B), subsequently *Gonyaulacysta sarjeantii* subsp. *sphaerica*, thirdly *Millioudodinium sarjeantii* subsp. *sphaericum*, fourthly

Rhynchodiniopsis sarjeantii subsp. *sphaerica*, fifthly *Cribroperidinium?* *sarjeantii* subsp. *sphaericum*, sixthly (and now) *Cribroperidinium sarjeantii* subsp. *sphaericum*. Age: Tithonian.

"?*scottii*" (Cookson and Eisenack, 1958, p.30, pl.2, figs.5–6) Stover and Evitt, 1978, p.174. Holotype: Cookson and Eisenack, 1958, pl.2, fig.5; Jan du Chêne et al., 1986a, pl.33, fig.5. **NOW** *Cribroperidinium?*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly *Millioudodinium?*, fourthly (and now) *Cribroperidinium?*. Questionable assignment: Stover and Evitt (1978, p.174). Age: early-middle Kimmeridgian.

"*spinoreticulatum*" McIntyre and Brideaux, 1980, p.15–16, pl.3, figs.4,8–12. Holotype: McIntyre and Brideaux, 1980, pl.3, figs.4,9,12; Jan du Chêne et al., 1986a, pl.13, figs.9–11. **NOW** *Cribroperidinium*. Originally *Millioudodinium*, subsequently *Apteodinium*, thirdly (and now) *Cribroperidinium*. Taxonomic junior synonym: *Gonyaulacysta* (as *Apteodinium*) *compta*, according to Lucas-Clark (1987, p.178). Age: Valanginian.

"*systemmatum*" (Gitmez and Sarjeant, 1972, p.204–205, pl.5, figs.7–8) Sarjeant, 1982b, p.39. Holotype: Gitmez and Sarjeant, 1972, pl.5, figs.7–8; Jan du Chêne et al., 1986a, pl.29, figs.4–7. Originally *Gonyaulacysta*, subsequently *Cribroperidinium*, thirdly *Millioudodinium*, fourthly *Cribroperidinium?*, fifthly *Acanthaulax*. **Taxonomic senior synonym:** *Gonyaulacysta* (as and now *Cribroperidinium*) *globata*, according to Poulsen (1996, p.72). Age: early Kimmeridgian.

"*tenuitabulatum*" (Gerlach, 1961, p.159, pl.25, figs.10–11; text-figs.1–3) Stover and Evitt, 1978, p.174. Emendation: Sarjeant, 1984b, p.76, as *Rhynchodiniopsis tenuitabulata*. Holotype: Gerlach, 1961, pl.25, figs.10–11, lost according to Sarjeant (1984b, p.78). Lectotype: Sarjeant, 1984b, pl.2, fig.2, designated by Sarjeant (1984b, p.78). **NOW** *Cribroperidinium*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly *Millioudodinium*, fourthly (and now) *Cribroperidinium*, fifthly *Rhynchodiniopsis*. Age: middle Oligocene–middle Miocene.

"*transdanuvianum*" Sütő-Szentai, 1990, p.855, pl.4, figs.1a–b,2; text-fig.78b. Holotype: Sütő-Szentai, 1990, pl.4, fig.2; text-fig.78b. **Name not validly published:** lodgement of holotype not specified (I.C.N. Article 40.7). This name was also not validly published in Sütő-Szentai (1989, pl.7, fig.1), since that author did not provide a description. Age: late Miocene.

"*unicarpum*" Kar, 1992, p.341. **Name not validly published:** no description or illustration.

"*unicornum*" Kar, 1985, p.206, pl.49, fig.8. Emendation: Jain and Garg, 1991, p.72–73, as *Apteodinium unicornum*. Holotype: Kar, 1985, pl.49, fig.8. **NOW** *Apteodinium*. Originally *Millioudodinium*, subsequently (and now) *Apteodinium*. Age: Miocene.

"?*venulosum*" Mao Shaozhi and Norris, 1988, p.34–35, pl.3, figs.1–2; text-fig.9. Holotype: Mao Shaozhi and Norris, 1988, pl.3, fig.1. **NOW** *Cribroperidinium?*. Originally *Millioudodinium?*, subsequently (and now) *Cribroperidinium?*. Questionable assignment: Mao Shaozhi and Norris (1988, p.34). Age: Late Cretaceous.

"*wetzelii*" (Lejeune-Carpentier, 1939, p.B526; text-figs.1–2) Sarjeant, 1985b, p.137. Emendations: Lejeune-Carpentier, 1946, p.B189–B190, as *Gonyaulax wetzelii*; Lejeune-Carpentier and Sarjeant, 1981, p.2–3, as *Gonyaulacysta wetzelii*. Holotype: Lejeune-Carpentier, 1939, text-figs.1–2; Lejeune-Carpentier and Sarjeant, 1981, pl.5, figs.5–6. **NOW** *Cribroperidinium*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly *Gonyaulacysta?*, fourthly (and now) *Cribroperidinium*, fifthly *Millioudodinium*. Age: Senonian.

"*xinjiangense*" He Chengquan, 1991, p.109, pl.4, fig.21. Holotype: He Chengquan, 1991, pl.4, fig.21. **NOW** *Cribroperidinium*. Originally *Millioudodinium*, subsequently (and now) *Cribroperidinium*. Age: Paleocene–late Eocene.

MINISPHAERIDIUM Fensome et al., 2009, p.44. Type: Davey and Williams, 1966b, pl.10, fig.8, as *Hystrichosphaeridium latirictum*.

**latirictum* (Davey and Williams, 1966b, p.66–67, pl.10, fig.8) Fensome et al., 2009, p.44. Holotype: Davey and Williams, 1966b, pl.10, fig.8; Bujak et al., 1980, pl.8, figs.4–5. Originally *Hystrichosphaeridium*, subsequently *Hystrichosphaeridium?*, thirdly (and now) *Minisphaeridium*. Taxonomic junior synonyms: *Cordosphaeridium minimum* (al. *Cordosphaeridium inodes* subsp. *minimum*) according to Fensome et al. (2009, p.44) — the epithet *latirictum* has priority at specific rank over the epithet *minimum*; *Litosphaeridium? parvum*, according to Fensome et al. (2009, p.44). Age: early Eocene.

MOESIODINIUM Antonescu, 1974, p.62. Emendation: Below, 1987a, p.129. Taxonomic junior synonym: *Angustidinium*, according to Below (1987a, p.129) — however, Lentin and Williams (1989, p.17) retained *Angustidinium*. Type: Antonescu, 1974, pl.1, figs.5–8,10–12, as *Moesiodinium raileanui*.

"*acribes*" (Davey and Verdier, 1971, p.38–39, pl.2, figs.10,12) Below, 1987a, p.129. Emendation: Goodman and Evitt, 1981, p.48,50,52–53, as *Angustidinium acribes*. Holotype: Davey and Verdier, 1971, pl.2, fig.10; Fensome et al., 1993a, fig.1 — p.875. **NOW** *Angustidinium*. Originally *Deflandrea*, subsequently *Alterbia* (combination illegitimate), thirdly *Alterbia?* (combination illegitimate), fourthly (and now) *Angustidinium*, fifthly *Moesiodinium*. Age: early Albanian.

**raileanui* Antonescu, 1974, p.62–63, pl.1, figs.1–16. Holotype: Antonescu, 1974, pl.1, figs.5–8,10–12. Age: Middle Jurassic.

"*vozhennikovae*" Below, 1987a, p.130–131, pl.19, figs.1–10; text-figs.69a–f. Holotype: Below, 1987a, pl.19, figs.1,4–6,8; Fensome et al., 1993a, figs.1,3–6 — p.1381. **NOW** *Angustidinium*. Originally *Moesiodinium*, subsequently (and now) *Angustidinium*. Age: early–late Volgian.

MOMBASADINIUM Riding and Helby, 2001f, p.159–160,162. Type: Jiang Qinghua et al., 1992, pl.2, fig.10, as *Indodinium? parvelatum*.

**parvelatum* (Jiang Qinghua in Jiang Qinghua et al., 1992, p.85,87, pl.2, fig.10) Riding and Helby, 2001f, p.162. Emendation: Riding and Helby, 2001f, p.162, as *Mombasadinium parvelatum*. Holotype: Jiang Qinghua et al., 1992, pl.2, fig.10. Originally *Indodinium?*, subsequently (and now) *Mombasadinium*. Taxonomic junior synonym: *Omatia jurabiana* (name not validly published), according to Riding and Helby (2001f, p.162). Age: Kimmeridgian–Tithonian.

MONTANAROCYSTA Corradini, 1973, p.183. Emendation: Slimani, 2004, p.177. Type: Corradini, 1973, pl.30, figs.3a–b, as *Montanarocysta aemiliana*.

**aemiliana* Corradini, 1973, p.183–184, pl.30, figs.2,3a–b. Emendation: Slimani, 2004, p.177,179–180. Holotype: Corradini, 1973, pl.30, figs.3a–b. Age: Late Cretaceous–Paleocene.

chleuh (Below, 1981a, p.22–23, pl.1, figs.5a–b; pl.12, fig.5; text-figs.13a–b) Slimani, 2004, p.181. Emendation: Masure, 1988a, p.365–366, as *Maghrebina chleuh*. Holotype: Below, 1981a, pl.1, figs.5a–b; text-figs.13a–b; Masure, 1988a, pl.2, figs.1–8; text-figs.3a–b; Fensome et al., 1991, figs.1–4 — p.619; Fauconnier and Masure, 2004, pl.9, figs.1–3. Originally *Maghrebina*, subsequently *Atopodinium*, thirdly (and now) *Montanarocysta*. N.I.A. Age: Vraconian–Cenomanian.

mirabilis (Below, 1984, p.635–636, pl.6, fig.2) Slimani, 2004, p.181,182. Emendation: Masure, 1988a, p.366–368, as *Maghrebina mirabilis*. Holotype: Below, 1981a, pl.1, figs.1a–c, as *Maghrebina perforata*; Masure, 1988a, pl.3, figs.1–11; text-figs.4a–c; Fauconnier and Masure, 2004, pl.10, figs.1–4. Originally *Maghrebina perforata* subsp. *mirabilis*, subsequently *Maghrebina mirabilis*, thirdly *Atopodinium mirabile*, fourthly (and now) *Montanarocysta mirabilis*. Age: late Albian–early Cenomanian.

MOORODINIUM Backhouse, 1988, p.97. Fensome et al. (1991, p.359) argued that the correct spelling should be "*Mooradinium*", as opposed to the protologue rendition "*Moorodinium*"; however, Fensome et al. (1996, p.2015–2016), reconsidered and recommended that the spelling "*Moorodinium*" be retained. Type: Backhouse, 1988, pl.34, fig.8; text-fig.30E, as *Moorodinium spinatum*.

peregrinum Backhouse, 1988, p.97,99, pl.33, figs.1a–b,2,3a–b,4–5; pl.48, figs.5–6; text-figs.30A–C. Holotype: Backhouse, 1988, pl.33, figs.1a–b; text-fig.30A; Fensome et al., 1996, figs.1–2,8 — p.2265. Age: late Tithonian–?earliest Valanginian.

quindalupense Backhouse, 1988, p.99, pl.33, figs.6–10; pl.34, fig.1. Holotype: Backhouse, 1988, pl.33, fig.9; Fensome et al., 1996, fig.3 — p.2313. Age: early Barremian.

simplex Backhouse, 1988, p.99–100, pl.34, figs.2–5. Holotype: Backhouse, 1988, pl.34, fig.4; Fensome et al., 1996, fig.3 — p.2361. Age: late Tithonian–?earliest Valanginian.

***spinatum** Backhouse, 1988, p.100, pl.34, figs.6–14; pl.47, fig.9; pl.48, figs.7–10; text-figs.30D–F. Holotype: Backhouse, 1988, pl.34, fig.8; text-fig.30E; Fensome et al., 1996, figs.2,11 — p.2369. Age: late Tithonian–?earliest Valanginian.

tessellatum Riding and Helby, 2001a, p.9,11,13, figs.6A–P. Holotype: Riding and Helby, 2001a, fig.6J. Age: Toarcian.

MORIA Sluijs et al., 2009, p.50. Type: Sluijs et al., 2009, pl.1, figs.1–4, as *Moria zachosii*.

***zachosii** Sluijs et al., 2009, p.50, pl.1, figs.1–7; pl.2, figs.1–6; text-figs.3a–b. Holotype: Sluijs et al., 2009, pl.1, figs.1–4. Age: late Eocene.

MORKALLACYSTA Harris, 1974, p.163. Taxonomic senior synonym: *Palaeoperidinium*, according to Lentin and Williams (1976, p.160) — however Stover and Evitt (1978, p.113–114) retained *Morkallacysta*. Type: Harris, 1974, pl.1, fig.5, as *Morkallacysta pyramidalis*.

dalangshanensis (Yu Jingxian et al., 1981, p.259, pl.1, figs.7–10,15–16) He Chengquan et al., 2009, p.508. Holotype: Yu Jingxian et al., 1981, pl.1, fig.7. Originally *Sanshuia*, subsequently *Geiselodinium*, thirdly *Saeptodinium*, fourthly (and now) *Morkallacysta*. Age: Late Cretaceous.

paradoxa (Jin Guangxing, He Chengquan and Zhu Shenzhao in He Chengquan et al., 1989, p.58–59, pl.4, figs.15–17) Mao Shaozhi et al., 1995, p.52. Holotype: He Chengquan et al., 1989, pl.4, fig.17. Originally *Palaeoperidinium*, subsequently (and now) *Morkallacysta*. Age: Early Tertiary.

***pyramidalis** Harris, 1974, p.163, pl.1, figs.5–11. Holotype: Harris, 1974, pl.1, fig.5. Originally (and now) *Morkallacysta*, subsequently *Palaeoperidinium*. Stover and Evitt (1978, p.113–114) retained this species in *Morkallacysta*. Age: Paleocene.

?**tasmanica** Cookson and Eisenack, 1982, p.37, pl.8, figs.9–10. Holotype: Cookson and Eisenack, 1982, pl.8, fig.10. Questionable assignment: Cookson and Eisenack (1982, p.37). Age: Eocene.

MOSAICODINIUM Dodekova, 1990, p.38–39. Type: Dodekova, 1975, pl.1, figs.1–3, as *Ctenidodinium mosaicum*.

***mosaicum** (Dodekova, 1975, p.18–19, pl.1, figs.1–6; pl.2, figs.1–3,6) Dodekova, 1990, p.39. Holotype: Dodekova, 1975, pl.1, figs.1–3. Originally *Ctenidodinium*, subsequently *Ctenidodinium?*, thirdly *Eodinia*, fourthly (and now) *Mosaicodinium*. Age: late Bathonian.

MUDERONGIA Cookson and Eisenack, 1958, p.40–41. Emendation: Monteil, 1991b, p.470–471. Taxonomic junior synonyms: *Phoberocysta*, according to Monteil (1991b, p.470) — however, Poulsen (1996, p.56) retained *Phoberocysta*; *Pseudomuderongia*, according to Helby (1987, p.297) and Stover and Williams (1987, p.181). Helby (1987, p.298) considered the "modified description" provided by Stover and Evitt (1978, p.66) to represent an emendation of *Muderongia*. Type: Cookson and Eisenack, 1958, pl.6, fig.2, as *Muderongia mcwhaei*.

aequicornia Århus in Århus et al., 1990, p.189, figs.11J,12B,G,H. Emendation: Monteil, 1991b, p.472. Holotype: Århus et al., 1990, fig.12H. Age: early Barremian.

asymmetrica Brideaux, 1977, p.40, pl.15, figs.9–10; pl.16, fig.1. Emendation: Monteil, 1991b, p.472, as *Muderongia asymmetrica*. Holotype: Brideaux, 1977, pl.15, fig.9; pl.16, fig.1. Originally (and now) *Muderongia*, subsequently *Pseudomuderongia*. Stover and Williams (1987, p.181) retained this species in *Muderongia*. Age: Aptian–early Albian.

australis Helby, 1987, p.300–303, figs.2A–C,3A–K,5. Emendation: Monteil, 1991b, p.472. Holotype: Helby, 1987, figs.2A–C; Monteil, 1991b, pl.5, fig.2; Fensome et al., 1996, figs.1–3 — p.2055. Age: Hauterivian–Barremian.

brachialis Ottone and Pérez-Loinaze, 2002, p.117–118,120, figs.2A–D. Holotype: Ottone and Pérez-Loinaze, 2002, fig.2D. Age: Hauterivian.

"*brevispinosa*" Iosifova, 1996, p.225,227, pl.14, figs.2,3a–b,4; pl.15, figs.1a–c. Holotype: Iosifova, 1996, pl.15, figs.1a–c. **Taxonomic senior synonym:** *Muderongia longicornia*, according to Monteil (1996, p.42). Age: Ryazanian.

crucis Neale and Sarjeant, 1962, p.449–450, pl.20, figs.2,6; text-fig.6. Emendation: Monteil, 1991b, p.473. Holotype: Neale and Sarjeant, 1962, pl.20, fig.6; text-fig.6; Monteil, 1991b, pl.5, fig.6. Taxonomic senior synonym: *Pseudoceratium?* (as *Muderongia tetracanthum*, according to Morgan (1980, p.28) — however, Jansonius (1982, p.16) retained *Muderongia crucis*. Age: late Hauterivian.

"*digitata*" Duxbury, 1983, p.35–36, pl.3, fig.15; text-fig.15. Holotype: Duxbury, 1983, pl.3, fig.15; text-fig.15. **NOW** *Vesperopsis*. Originally *Muderongia?*, subsequently *Australisphaera*, thirdly (and now) *Vesperopsis*. Questionable assignment: Duxbury (1983, p.35). Age: late Aptian.

endovata Riding et al., 2001, p.24–26,28, pl.1, figs.1–2; text-fig.3. Holotype: Riding et al., 2001, pl.1, fig.1; text-fig.3. Age: Valanginian.

extensiva Duxbury, 1977, p.54–55, pl.15, fig.10. Holotype: Duxbury, 1977, pl.15, fig.10. Taxonomic senior synonym: *Muderongia mcwhaei*, according to Monteil (1991b, p.473) — however, Poulsen (1996, p.57) retained *Muderongia extensiva*. Age: early Valanginian–early Hauterivian.

"*imparilis*" Duxbury, 1980, p.127–129, pl.5, figs.2,4–5; text-figs.11A–B. Holotype: Duxbury, 1980, pl.5, figs.4–5; text-fig.11B. **NOW** *Odontochitina*. Originally *Muderongia*, subsequently *Odontochitina?*, thirdly (and now) *Odontochitina*. Age: middle-late Barremian.

?*lata* Yu Jingxian and Zhang Wangping, 1980, p.110, pl.3, figs.12–13. Holotype: Yu Jingxian and Zhang Wangping, 1980, pl.3, fig.12. Questionable assignment: Monteil (1991b, p.471). Age: Late Cretaceous.

longicornia Monteil, 1991b, p.473, pl.2, figs.1–3. Emendation: Monteil, 1996, p.42. Holotype: Monteil, 1991b, pl.2, fig.1. Taxonomic senior synonym: *Muderongia simplex*, according to Poulsen (1992a, p.57) — however, Monteil (1996, p.42) retained *Muderongia longicornia*. Taxonomic junior synonym: *Muderongia brevispinosa*, according to Monteil (1996, p.42). Age: early Berriasian.

****mcwhaei*** Cookson and Eisenack, 1958, p.41, pl.6, figs.1–5. Emendations: Helby, 1987, p.303–305; Monteil, 1991b, p.473–474. Holotype: Cookson and Eisenack, 1958, pl.6, fig.2; Helby et al., 1987, figs.7A–B; Monteil,

1991b, pl.4, fig.4. Taxonomic junior synonyms: *Muderongia extensiva* and *Phoberocysta rariornata*, both according to Monteil (1991b, p.473) — however, Prössl (1992b, p.115) retained *Phoberocysta rariornata*. Helby (1987, p.303–305) considered that the specimens illustrated in pl.6, figs.1,4–5 of Cookson and Eisenack (1958) are not *Muderongia mcwhaei*. Age: Aptian.

"*microperforata*" (Davey, 1982b, p.30, pl.9, figs.4–6) Monteil, 1991b, p.474. Emendation: Monteil, 1991b, p.474, as *Muderongia microperforata*. Holotype: Davey, 1982b, pl.9, figs.4–5; Monteil, 1991b, pl.2, fig.10. **NOW** *Muderongia simplex* subsp. *microperforata*. Originally (and now) *Muderongia simplex* subsp. *microperforata*, subsequently *Muderongia microperforata*. Age: late Ryazanian–early Valanginian.

"*neocomica*" (Gocht, 1957, p.172–178, pl.19, figs.1–5; pl.20, figs.1–7; text-figs.7–16) Lentin and Williams, 1993, p.438. Emendation: Helby, 1987, p.310–313, as *Phoberocysta neocomica*. Holotype: Gocht, 1957, pl.19, fig.1; text-fig.7. **NOW** *Phoberocysta*. Originally *Wetzeliella?*, subsequently (and now) *Phoberocysta*, thirdly *Muderongia*. Taxonomic junior synonym: *Muderongia tomaszowensis*, by implication in Monteil (1991b, p.477), who considered *Wetzeliella?* (as *Phoberocysta neocomica* to be the junior name — however, this synonymy has not been generally followed. Monteil, in an errata sheet accompanying Monteil (1991b), gave the citation: "*Muderongia neocomica* Gocht 1957 comb. nov. and emend." — however, an errata sheet does not constitute effective publication (cf. I.C.N. Article 30.1). Monteil (1991b, p.477) listed in synonymy with *Muderongia tomaszowensis* the following taxa: *Wetzeliella?* (as *Phoberocysta neocomica* subsp. *circulata*, *Wetzeliella?* (as *Phoberocysta neocomica* subsp. *cruciformis* and *Wetzeliella?* (as *Phoberocysta neocomica* subsp. *dedecosa*; Lentin and Williams (1993, p.438) assumed that Monteil (1991b) intended to treat all three subspecies as taxonomic junior synonyms of the autonym *Phoberocysta neocomica* subsp. *neocomica*. Age: Hauterivian.

"*pannosa*" Duxbury, 1980, p.129–130, pl.10, figs.3,6; text-figs.12A–B. Holotype: Duxbury, 1980, pl.10, fig.3; text-fig.12B. **NOW** *Nyktericysta?*. Originally *Muderongia*, subsequently *Australisphaera*, thirdly (and now) *Nyktericysta?*. Age: middle Barremian.

pariata Duxbury, 1983, p.36–37, pl.2, figs.5,8; text-fig.16. Emendation: Monteil, 1991b, p.474–475. Holotype: Duxbury, 1983, pl.2, figs.5,8; text-fig.16; Monteil, 1991b, pl.7, figs.3a–c. Taxonomic senior synonym: *Muderongia perforata*, according to Århus in Århus et al. (1990, p.191) — however, Monteil (1991b, p.474) retained *Muderongia pariata*. Age: early Aptian–early Albian.

"*pentaradiata*" Singh, 1983, p.127, pl.43, fig.5. Holotype: Singh, 1983, pl.43, fig.5. **NOW** *Nyktericysta*. Originally *Muderongia*, subsequently *Balmula*, thirdly (and now) *Nyktericysta*. Age: early Cenomanian.

perforata Alberti, 1961, p.13, pl.2, figs.8–9 (not fig.7 according to Riding et al., 2001, p.28). Emendations: Monteil, 1991b, p.475; Riding et al., 2001, p.28. Holotype: Alberti, 1961, pl.2, fig.8; lost according to Riding et al. (2001, p.28). Lectotype: Alberti, 1961, pl.2, fig.9 and Riding et al., 2001, pl.1, fig.3, designated (as a neotype) by Riding et al. (2001, p.28). Taxonomic senior synonym: *Muderongia simplex*, according to Jain and Khowaja-Ateequzaman (1984, p.39) — however, Lentin and Williams (1989, p.252) retained *Muderongia perforata*. Taxonomic junior synonym: *Muderongia pariata*, according to Århus in Århus et al. (1990, p.191) — however, Monteil (1991b, p.474) retained *Muderongia pariata*. Age: Turonian.

sarjeantii Volkheimer 2010, p.240, figs.4E–H. Holotype: Volkheimer 2010, fig.4E. Age: late Valanginian–early Hauterivian.

siciliana Torricelli, 1997, p.341, pl.1, figs.1–6. Holotype: Torricelli, 1997, pl.1, fig.1. Age: early Hauterivian.

simplex Alberti, 1961, p.12, pl.2, figs.1–2,4–6; pl.12, figs.1–2. Emendations: Monteil, 1991b, p.475; Poulsen, 1996, p.57; Riding et al., 2001, p.29. Holotype: Alberti, 1961, pl.2, fig.4; lost according to Riding et al. (2001, p.30). Neotype: Davey, 1979c, pl.2, fig.5, as *Muderongia* sp. A; Monteil, 1991b, pl.1, figs.3a–c, as *Senoniasphaera tabulata*; Riding et al., 2001, pl.1, figs.4–5; designated by Riding et al. (2001, p.30). Taxonomic junior synonyms: *Muderongia longicornia*, according to Poulsen (1996, p.57) — however, Monteil (1996, p.42) retained *Muderongia longicornia*; *Muderongia perforata*, according to Jain and Khowaja-Ateequzaman (1984, p.39) — however, Lentin and Williams (1989, p.252) retained *Muderongia perforata*; *Muderongia tomaszowensis*, according to Jain and Khowaja-Ateequzaman (1984, p.39) and Poulsen (1996, p.58) — however, Riding et al. (2001, p.31) retained

Muderongia tomaszowensis; *Senoniasphaera tabulata*, according to Riding et al. (2001), p.29. Age: Valanginian–early Barremian.

subsp. *microperforata* Davey, 1982b, p.30, pl.9, figs.4–6. Emendation: Monteil, 1991b, p.474, as *Muderongia microperforata*. Holotype: Davey, 1982b, pl.9, figs.4–5; Monteil, 1991b, pl.2, fig.10. Originally (and now) *Muderongia simplex* subsp. *microperforata*, subsequently *Muderongia microperforata*. Poulsen (1996, p.59) retained this taxon as a subspecies of *Muderongia simplex*. Age: late Ryazanian–early Valanginian.

subsp. *simplex*. Autonym. Holotype: Alberti, 1961, pl.2, fig.4.

staurota Sarjeant, 1966c, p.203–204, pl.21, figs.6–7; pl.23, fig.4; text-fig.53. Emendation: Monteil, 1991b, p.475–476. Holotype: Sarjeant, 1966c, pl.21, fig.6; text-fig.53a; Sarjeant et al., 1987, pl.2, fig.5. Age: early Barremian.

"*tabulata*" (Raynaud, 1978, p.393–394, pl.1, figs.1–2) Monteil, 1991b, p.476. Emendation: Monteil, 1991b, p.476, as *Muderongia tabulata*. Holotype: Raynaud, 1978, pl.1, fig.1. **NOW** *Phoberocysta*. Originally (and now) *Phoberocysta*, subsequently *Muderongia*. Taxonomic junior synonyms (at specific rank): *Wetzeliella?* (as *Phoberocysta*) *neocomica* subsp. *convexa*, *Wetzeliella?* (as *Phoberocysta*) *neocomica* subsp. *pteridia*, and *Wetzeliella?* (as *Phoberocysta*) *neocomica* subsp. *subovalis*, all according to Monteil (1991b, p.476). Age: Berriasian–Valanginian.

testudinaria Burger, 1980b, p.274–275, figs.9B,10A–E. Emendation: Monteil, 1991b, p.476. Holotype: Burger, 1980b, fig.9B; Fensome et al., 1996, fig.1 — p.2401. Originally (and now) *Muderongia*, subsequently *Pseudomuderongia*. Helby (1987, p.305) and Stover and Williams (1987, p.181) retained this species in *Muderongia*. Taxonomic junior synonyms: *Phoberocysta lowryi*, *Phoberocysta burgeri*, and *Phoberocysta edgellii*, all according to Monteil (1991b, p.476). Age: ?Hauterivian.

tetracantha (Gocht, 1957, p.168, pl.18, figs.7–9; text-fig.5) Alberti, 1961, p.14. Emendation: Monteil, 1991b, p.476–477, as *Muderongia tetracantha*. Holotype: Gocht, 1957, pl.18, fig.7. Originally *Pseudoceratium?*, subsequently (and now) *Muderongia*. Taxonomic junior synonym: *Muderongia crucis*, according to Morgan (1980, p.28) — however, Jansonius (1982, p.16) retained *Muderongia crucis*. Age: late Hauterivian.

tomaszowensis Alberti, 1961, p.12–13, pl.2, figs.12–13. Emendations: Monteil, 1991b, p.477; Riding et al., 2001, p.31. Holotype: Alberti, 1961, pl.2, fig.12; lost according to Riding et al. (2001, p.31). Lectotype: Alberti, 1961, pl.2, fig.13; Riding et al., pl.1, fig.7; designated (as a neotype) by Riding et al. (2001, p.31). Taxonomic senior synonyms: *Wetzeliella?* (as *Phoberocysta*) *neocomica*, by implication in Monteil (1991b, p.476), who considered *Muderongia tomaszowensis* to be the senior name — however, this synonymy has not been generally followed; *Muderongia simplex*, according to Jain and Khowaja-Ateequzaman (1984, p.39) and Poulsen (1996, p.59) — however, Riding et al. (2001, p.31) retained *Muderongia tomaszowensis*. Age: Valanginian.

MUIRADINIUM Harland and Sarjeant, 1970, p.225. Type: Churchill and Sarjeant, 1962, pl.1, fig.18; text-fig.2, as *Gymnodinium dorsispirale*.

**dorsispirale* (Churchill and Sarjeant, 1962, p.33, pl.1, fig.18; text-fig.2) Harland and Sarjeant, 1970, p.225. Holotype: Churchill and Sarjeant, 1962, pl.1, fig.18; text-fig.2. Originally *Gymnodinium* (Appendix B), subsequently (and now) *Muiradinium*. Age: Holocene.

MUIRIELLA Churchill and Sarjeant, 1962, p.36. Emendation: Harland and Sarjeant, 1970, p.226–227. Type: Churchill and Sarjeant, 1962, pl.1, figs.20–21, as *Muiriella plioplax*.

**plioplax* Churchill and Sarjeant, 1962, p.37–38, pl.1, figs.20–21; text-fig.4. Emendation: Harland and Sarjeant, 1970, p.227–228. Holotype: Churchill and Sarjeant, 1962, pl.1, figs.20–21. Age: Holocene.

"**MULTISPINULA**" Bradford, 1975, p.3067. **Taxonomic senior synonym:** *Selenopemphix*, according to Matsuoka (1985a, p.51) and Head (1993, p.31–32). Harland and Reid in Harland et al. (1980, p.222) considered *Multispinula* to be not validly published in Bradford (1975) because it lacked a Latin diagnosis. However, since the type is a fossil, a Latin diagnosis is not a requirement. Type: Bradford, 1975, fig.5, as *Multispinula quanta*.

"?*minuta*" Harland and Reid in Harland et al., 1980, p.216,218, figs.2M–O. Holotype: Harland et al., 1980, fig.2O. **NOW** *Islandinium*. Originally *Multispinula*, subsequently *Multispinula?*, thirdly *Algidasphaeridium?*, fourthly (and now) *Islandinium*. Questionable assignment: Matsuoka (1985a, p.53). Taxonomic junior synonym: *Cantiacidinium conicum* (name not validly published), according to Head et al. (2001, p.629). Age: Holocene.

"**quanta*" Bradford, 1975, p.3067,3069, figs.5–7. Holotype: Bradford, 1975, fig.5; Fensome et al., 1995, fig.1 — p.1725. **NOW** *Selenopemphix*. Originally *Multispinula*, subsequently (and now) *Selenopemphix*. Motile equivalent: *Protoperidinium conicum* (Gran, 1900) Balech, 1974, according to Harland (1981, p.68) — however, see Head (1993, p.37; 1996b, p.1214). Age: Holocene.

"**MURATICYSTA**" Head et al., 1989b, p.458. **Taxonomic senior synonym:** *Filisphaera*, according to Head (1994b, p.234). Type: Head et al., 1989b, pl.5, figs.1–3,5, as *Muraticysta microornata*.

"**microornata*" Head et al., 1989b, p.458, pl.5, figs.1–3,5–7. Holotype: Head et al., 1989b, pl.5, figs.1–3,5; Head, 1994b, pl.5, figs.1–3. **NOW** *Filisphaera*. Originally *Muraticysta*, subsequently (and now) *Filisphaera*. Age: early Pliocene.

MURATODINIUM Drugg, 1970b, p.818. Type: Cookson and Eisenack, 1967b, pl.40, fig.3, as *Kenleyia fimbriata*.

eocenicum (Yu Jingxian, 1989, p.159, pl.43, figs.1,3,6; text-fig.3) He Chengquan et al., 2009, p.168,645. Emendation: He Chengquan et al., 2009, p.645, as *Muratodinium eocenicum*. Holotype: Yu Jingxian, 1989, pl.43, fig.3. Originally *Thalassiphora*, subsequently (and now) *Muratodinium*. Age: Eocene.

**fimbriatum* (Cookson and Eisenack, 1967b, p.252, pl.40, figs.1–7) Drugg, 1970b, p.818–819. Holotype: Cookson and Eisenack, 1967b, pl.40, fig.3. Originally *Kenleyia*, subsequently (and now) *Muratodinium*. Age: late Paleocene.

"*subathuensis*" Sarkar, 2012, p.174–177; pl.1, figs.1–6; text-fig.3. Holotype: Sarkar, 2012, pl.1, fig.1; text-fig.3. **Name illegitimate — nomenclatural senior synonym:** *Thalassiphora simlaensis*. Sarkar (2012, p.174) included the type of *Thalassiphora simlaensis*, the substitute name for *Subathua spinosa*, in synonymy with *Muratodinium subathuensis*, and thus *Muratodinium subathuensis* must be considered an illegitimate nomenclatural junior synonym. Age: Lutetian.

NANNOCERATOPSIS Deflandre, 1939a, p.183. Emendations: Evitt, 1961b, p.306; Piel and Evitt, 1980, p.102; Poulsen, 1992b, p.44; Riding and Helby, 2001a, p.13. Type: Deflandre, 1939a, pl.8, fig.10, as *Nannoceratopsis pellucida*.

ambonis Drugg, 1978, p.70–71, pl.6, figs.3–7. Emendation: Riding, 1984a, p.75–76. Holotype: Drugg, 1978, pl.6, fig.3. Age: Aalenian.

deflandrei Evitt, 1961b, p.308–312, pl.1, figs.1–14; pl.2, figs.1–29; text-figs.5,9–17. Emendation: Ilyina in Ilyina et al., 1994, p.12–13. Holotype: Evitt, 1961b, pl.1, fig.13. Taxonomic senior synonym: *Nannoceratopsis gracilis*, according to Evitt (1962, p.1129–1130) and (at varietal and subspecific ranks) *Nannoceratopsis gracilis* var. *obsoleta* (subsequently *Nannoceratopsis gracilis* subsp. *obsoleta*), according to Prauss (1989, p.13). — however, Ilyina in Ilyina et al. (1994, p.12) retained *Nannoceratopsis deflandrei*. Age: late Pliensbachian.

subsp. *anabarensis* Ilyina in Ilyina et al., 1994, p.15–16, pl.2, figs.1–6; pl.5, figs.4–5. Holotype: Ilyina et al., 1994, pl.5, fig.4. Age: late Pliensbachian–early Toarcian.

subsp. *deflandrei*. Autonym. Holotype: Evitt, 1961b, pl.1, fig.13. Taxonomic junior synonym: *Nannoceratopsis gracilis* var. *obsoleta* (subsequently *Nannoceratopsis gracilis* subsp. *obsoleta*), according to Ilyina in Ilyina et al. (1994, p.14).

subsp. *senex* (van Helden, 1977, p.165, pl.33.1, figs.1–9; text-fig.33.4) Ilyina in Ilyina et al., 1994, p.14. Holotype: van Helden, 1977, pl.33.1, figs.6–7. Originally *Nannoceratopsis senex*, subsequently (and now) *Nannoceratopsis deflandrei* subsp. *senex*. Age: ?late Pliensbachian–early Bajocian.

dictyambonis Riding, 1984a, p.78–79, pl.1, figs.1–6; text-figs.1B–C. Holotype: Riding, 1984a, pl.1, fig.1. Age: late Toarcian–early Bajocian.

evae Prauss, 1989, p.13, pl.8, figs.18–21; text-fig.3 (part). Holotype: Prauss, 1989, pl.8, figs.19–21; text-fig.3. Age: late Aalenian–late Bajocian.

globiformis Bucefalo Palliani and Riding, 1997b, p.115–116, pl.1, figs.1–8; text-fig.9 (part). Holotype: Bucefalo Palliani and Riding, 1997b, pl.1, figs.1–2. Age: late Pliensbachian.

gracilis Alberti, 1961, p.30, pl.7, figs.16–17. Emendations: Evitt, 1962, p.1129–1130; van Helden, 1977, p.165. Holotype: Alberti, 1961, pl.7, fig.17. Taxonomic junior synonym: *Nannoceratopsis deflandrei*, according to Evitt (1962, p.1129–1130) — however, Ilyina et al. (1994, p.12) retained *Nannoceratopsis deflandrei*. Age: Bajocian.

"subsp. *gracilis*". Autonym. Emendation: Prauss, 1989, p.13, as *Nannoceratopsis gracilis* var. *gracilis*. Holotype: Alberti, 1961, pl.7, fig.17. **Now redundant.**

"var. *gracilis*". Autonym. Emendation: Prauss, 1989, p.13, as *Nannoceratopsis gracilis* var. *gracilis*. Holotype: Alberti, 1961, pl.7, fig.17. **Now redundant.**

"subsp. *obsoleta*" (Prauss, 1989, p.13–14, pl.7, fig.16; text-fig.3 [part]) Lentin and Williams, 1993, p.441. Holotype: Prauss, 1989, pl.7, fig.16. Originally *Nannoceratopsis gracilis* var. *obsoleta*, subsequently *Nannoceratopsis gracilis* subsp. *obsoleta*. **Taxonomic senior synonym:** *Nannoceratopsis deflandrei* subsp. *deflandrei*, according to Ilyina in Ilyina et al. (1994, p.14). Taxonomic junior synonym (at varietal rank): *Nannoceratopsis deflandrei*, according to Prauss (1989, p.13) — however, Ilyina in Ilyina et al. (1994, p.12) retained *Nannoceratopsis deflandrei*. Age: late Pliensbachian–late Toarcian.

"var. *obsoleta*" Prauss, 1989, p.13–14, pl.7, fig.16; text-fig.3 (part). Holotype: Prauss, 1989, pl.7, fig.16. Originally *Nannoceratopsis gracilis* var. *obsoleta*, subsequently *Nannoceratopsis gracilis* subsp. *obsoleta*. **Taxonomic senior synonym** (at specific rank): *Nannoceratopsis deflandrei*, according to Ilyina et al. (1994, p.12). Taxonomic junior synonym (at varietal rank): *Nannoceratopsis deflandrei*, according to Prauss (1989, p.13) — however, Ilyina in Ilyina et al. (1994, p.12) retained *Nannoceratopsis deflandrei*. Age: late Pliensbachian–late Toarcian.

subsp. *superba* Bucefalo Palliani and Riding, 1998, p.172,174,177, fig.9, nos.1–6. Holotype: Bucefalo Palliani and Riding, 1998, fig.9, no.1. Age: late Toarcian–Aalenian.

magnicornis Bucefalo Palliani and Riding, 1997b, p.116, pl.1, figs.9–15; text-fig.9 (part). Holotype: Bucefalo Palliani and Riding, 1997b, pl.1, fig.9. The epithet spelling is revised to accord grammatically with a meaning "big horned"; the neuter would be *magnicorne* (J. Jansonius and J. Riding, pers. comm.). Age: late Pliensbachian.

**pellucida* Deflandre, 1939a, p.183, pl.8, figs.8–12. Emendation: Evitt, 1961b, p.312. Holotype: Deflandre, 1939a, pl.8, fig.10. Age: Oxfordian.

plegas Drugg, 1978, p.71, pl.6, figs.8–9; pl.7, fig.3. Holotype: Drugg, 1978, pl.6, fig.8. N.I.A. Age: Aalenian.

- subsp. *brevicorna* (Prauss, 1989, p.14–15, pl.7, figs.5–6,13; text-fig.3 [part]) Lentin and Williams, 1993, p.442. Holotype: Prauss, 1989, pl.7, fig.13. Originally *Nannoceratopsis plegas* var. *brevicorna*, subsequently (and now) *Nannoceratopsis plegas* subsp. *brevicorna*. Age: late Toarcian–late Bajocian.
- "var. *brevicorna*" Prauss, 1989, p.14–15, pl.7, figs.5–6,13; text-fig.3 (part). Holotype: Prauss, 1989, pl.7, fig.13. **NOW** *Nannoceratopsis plegas* subsp. *brevicorna*. Originally *Nannoceratopsis plegas* var. *brevicorna*, subsequently (and now) *Nannoceratopsis plegas* subsp. *brevicorna*. Age: late Toarcian–late Bajocian.
- subsp. *dictyornata* (Prauss, 1989, p.15,17, pl.7, figs.2–4; text-fig.3 [part]) Lentin and Williams, 1993, p.442. Holotype: Prauss, 1989, pl.7, figs.2–3. Originally *Nannoceratopsis plegas* var. *dictyornata*, subsequently (and now) *Nannoceratopsis plegas* subsp. *dictyornata*. Age: early Aalenian.
- "var. *dictyornata*" Prauss, 1989, p.15,17, pl.7, figs.2–4; text-fig.3 (part). Holotype: Prauss, 1989, pl.7, figs.2–3. **NOW** *Nannoceratopsis plegas* subsp. *dictyornata*. Originally *Nannoceratopsis plegas* var. *dictyornata*, subsequently (and now) *Nannoceratopsis plegas* subsp. *dictyornata*. Age: early Aalenian.
- subsp. *plegas*. Autonym. Emendation: Prauss, 1989, p.15, as *Nannoceratopsis plegas* var. *plegas*. Holotype: Drugg, 1978, pl.6, fig.8. N.I.A.
- "var. *plegas*". Autonym. Emendation: Prauss, 1989, p.15, as *Nannoceratopsis plegas* var. *plegas*. Holotype: Drugg, 1978, pl.6, fig.8. **Now redundant**. N.I.A.
- radiata* Kumar, 1986b, p.404–405, pl.5, figs.2,6. Holotype: Kumar, 1986b, pl.5, fig.6. Age: Kimmeridgian–Tithonian.
- raunsgaardii* Poulsen, 1996, p.53–54, pl.35, figs.14–15; pl.36, figs.5–6; pl.40, fig.3. Holotype: Poulsen, 1996, pl.35, fig.15. Age: late Pliensbachian–earliest Bajocian.
- reticulata* Mantle, 2005, p.260,262, pl.4, figs.1–9. Holotype: Mantle, 2005, pl.4, figs.1–3. Age: Callovian–early Oxfordian.
- ridingii* Poulsen, 1992b, p.45, pl.1, figs.A–F. Holotype: Poulsen, 1992b, pl.1, fig.E. Age: Pliensbachian–Aalenian.
- "*senex*" van Helden, 1977, p.165, pl.33.1, figs.1–9; text-fig.33.4. Holotype: van Helden, 1977, pl.33.1, figs.6–7. **NOW** *Nannoceratopsis deflandrei* subsp. *senex*. Originally *Nannoceratopsis senex*, subsequently (and now) *Nannoceratopsis deflandrei* subsp. *senex*. Age: ?late Pliensbachian–early Bajocian.
- spiculata* Stover, 1966, p.42–43, pl.8, figs.1A–5E. Holotype: Stover, 1966, pl.8, figs.1A–D. Age: Bajocian–Bathonian.
- spinosa* Riding and Helby, 2001a, p.13–14, figs.7A–F,I. Holotype: Riding and Helby, 2001a, fig.7I. Age: early Toarcian.
- symmetrica* Bucefalo Palliani and Riding, 2000, p.12, figs.6I–P,7J. Holotype: Bucefalo Palliani and Riding, 2000, fig.6I. Age: early Toarcian.
- triangulata* Prauss, 1987, p.131–135, fig.2, nos.1–3; fig.3, nos.1–3; fig.4, nos.1–3. Holotype: Prauss, 1987, fig.2, no.1; fig.3, nos.1,3. Age: late Toarcian.
- tricerias* Drugg, 1978, p.71, pl.6, figs.10–12; pl.7, figs.1–2. Holotype: Drugg, 1978, pl.6, fig.12. Taxonomic junior synonym: *Nannoceratopsis tricornuta*, according to Wille and Gocht (1979, p.256). Age: Pliensbachian–late Callovian.

"*tricornuta*" Wille and Gocht, 1979, p.241–242,244, figs.18–23. Holotype: Wille and Gocht, 1979, fig.23.

Taxonomic senior synonym: *Nannoceratopsis tricerias*, according to Wille and Gocht (1979, p.256). Age: early Toarcian.

NANSHADINIUM He Chengquan and Sun Xuekun, 1991, p.290. Type: He Chengquan and Sun Xuekun, 1991, pl.1, figs.7a–b; text-fig.59, as *Nanshadinium decorosum*.

**decorosum* He Chengquan and Sun Xuekun, 1991, p.290–291, pl.1, figs.7a–b,8–9,10a–b,11; text-fig.59. Holotype: He Chengquan and Sun Xuekun, 1991, pl.1, figs.7a–b; text-fig.59. Age: Quaternary.

psilatam He Chengquan and Sun Xuekun, 1991, p.291, pl.2, figs.5a–b. Holotype: He Chengquan and Sun Xuekun, 1991, pl.2, figs.5a–b. Age: Quaternary.

NAVARRELLA Trejo, 1983, p.12. Calcareous dinoflagellate genus (see Elbrächter et al., 2008, p.1298, who noted that the cyst wall is pithonelloid and so a dinoflagellate affinity is questionable). Trejo (1983, p.12) gave the spelling as *Navarrela*, corrected in Elbrächter et al. (2008, p.1300). Type : Trejo, 1983, pl.58, fig.5, as *Navarrella castroi*.

**castroi* Trejo, 1983, p.12, pl.58, figs.5–6. Holotype: Trejo, 1983, pl.58, fig.5. Age: Late Cretaceous.

"**NECROBROOMEA**" Wiggins, 1975, p.111. Emendation: Below, 1990, p.52. **Taxonomic senior synonym:** *Batioladinium*, according to Brideaux (1977, p.10). Taxonomic senior synonym: *Imbatodinium*, according to Dörhöfer and Davies (1980, p.36–37) — however, Lentin and Williams (1985, p.249) retained *Necrobroomea* as a taxonomic junior synonym of *Batioladinium*. With respect to the synonymy of *Necrobroomea* and *Batioladinium*, Below (1990, p.52) considered *Necrobroomea* to be the senior name. Taxonomic junior synonym: *Aprobolocysta*, according to Below (1990, p.52) — however, Lentin and Williams (1993, p.31) retained *Aprobolocysta*. Fensome et al. (1993b, p.78) gave the following statement: "Below (1990, p.52) listed *Batioladinium* Brideaux 1975 as a taxonomic junior synonym of *Necrobroomea* Wiggins 1975 rather than the reverse, as is customarily the case. Below stated that '... the genus *Necrobroomea* Wiggins (publication date 25 April 1975 in *Geoscience and Man*, volume 11) has priority over *Batioladinium* Brideaux 1975 (publication date 15 June 1975 in the *Canadian Journal of Botany*, volume 53(12))' [translation]. However, Below was clearly unaware that Brideaux (1977, p.10) stated that '*Necrobroomea* Wiggins, 1975 appeared in *Geoscience and Man*, v.11, the date of publication being given as April 25th, 1975. However, in a letter to the writer, acting editor, Ruth B. Hubert, established that no copies of this volume were available to the public before July 23rd, 1975, and that there was no prior distribution of the volume.' On the basis of this evidence and the observation that the *Canadian Journal of Botany*, v.53, no.12 did appear in June 1975 (W.W. Brideaux, personal communication to R.A.F.), *Necrobroomea* must be considered junior to *Batioladinium* if these two taxa are considered congeneric." Type: Alberti, 1961, pl.5, fig.19, as *Broomea? longicornuta*.

"*alata*" (Backhouse, 1987, p.211–212, figs.5A–D,9A–D) Below, 1990, p.53. Holotype: Backhouse, 1987, figs.5A–B,9A–B; Fensome et al., 1996, figs.1–2,5–6 — p.2019. **NOW** *Aprobolocysta*. Originally (and now) *Aprobolocysta*, subsequently *Necrobroomea*. Age: middle Hauterivian–early Barremian.

"*bipartita*" (Backhouse, 1987, p.212, figs.9E–H) Below, 1990, p.53. Holotype: Backhouse, 1987, figs.9E–F; Fensome et al., 1996, figs.1–2 — p.2067. **NOW** *Aprobolocysta*. Originally (and now) *Aprobolocysta*, subsequently *Necrobroomea*. Age: middle Hauterivian.

"*eilema*" (Duxbury, 1977, p.52–53, pl.14, figs.4–5,8; text-figs.19A–B) Below, 1990, p.53. Holotype: Duxbury, 1977, pl.14, figs.4–5; text-fig.19B; Pourtoy, 1988, pl.3, figs.1–3,5–6; Fensome et al., 1993a, figs.1–2,5 — p.1139. **NOW** *Aprobolocysta*. Originally (and now) *Aprobolocysta*, subsequently *Necrobroomea*. N.I.A. Age: late Hauterivian.

"*exigua*" (Alberti, 1961, p.26–27, pl.5, fig.14) Wiggins, 1975, p.111. Holotype: Alberti, 1961, pl.5, fig.14. **NOW** *Batioladinium*?. Originally *Broomea*, subsequently (and now) *Batioladinium*?, thirdly *Necrobroomea*, fourthly *Imbatodinium*. Below (1990, p.53) also proposed this combination. Age: early Hauterivian.

"*galeata*" (Backhouse, 1987, p.212, figs.9I–L) Below, 1990, p.53. Holotype: Backhouse, 1987, figs.9I–J; Fensome et al., 1996, figs.1–2 — p.2135. **NOW** *Aprobolocysta*. Originally (and now) *Aprobolocysta*, subsequently *Necrobroomea*. Age: Valanginian–earliest Hauterivian.

"*gochtii*" (Alberti, 1961, p.27, pl.5, figs.8–10,?16) Wiggins, 1975, p.111. Holotype: Alberti, 1961, pl.5, fig.8. **NOW** *Batioladinium*?. Originally *Broomea*, subsequently (and now) *Batioladinium*?, thirdly *Necrobroomea*, fourthly *Imbatodinium*. Taxonomic junior synonyms: *Batioladinium pomum* and *Aprobolocysta* (as *Batioladinium varigranosa*, both according to Below (1990, p.53). Below (1990, p.53) also proposed this combination. Age: Valanginian–?Hauterivian.

"*imbatodinensis*" (Vozzhennikova, 1967, p.55, pl.12, figs.4a–c) Wiggins, 1975, p.111. Emendation: Lentin and Vozzhennikova, 1990, p.91–92, as *Protobatioladinium imbatodinense*. Holotype: Vozzhennikova, 1967, pl.12, fig.4a; Lentin and Vozzhennikova, 1990, pl.11, figs.9–11; text-fig.50. **NOW** *Protobatioladinium*. Originally *Imbatodinium*, subsequently *Necrobroomea*?, thirdly *Pareodinia*, fourthly *Pareodinia*?, fifthly *Batioladinium*, sixthly (and now) *Protobatioladinium*, seventhly *Gochteodinia*. Questionable assignment: Wiggins (1975, p.111). Age: Late Jurassic.

"*jaegeri*" (Alberti, 1961, p.26, pl.5, figs.1–7) Wiggins, 1975, p.111. Emendation: Below, 1990, p.54, as *Necrobroomea jaegeri*. Holotype: Alberti, 1961, pl.5, fig.2; Eisenack and Klement, 1964, p.67; Fensome et al., 1995, fig.2 — p.1571. **NOW** *Batioladinium*. Originally *Broomea*, subsequently (and now) *Batioladinium*, thirdly *Necrobroomea*, fourthly *Imbatodinium*. Taxonomic junior synonym: *Pseudoceratium gochtii* Pocock (subsequently *Pseudoceratium hansgochtii*), according to Singh (1971, p.320). Age: late Barremian.

"**longicornuta*" (Alberti, 1961, p.27–28, pl.5, figs.18–21; pl.6, figs.1–2) Wiggins, 1975, p.111. Emendation: Below, 1990, p.56, as *Necrobroomea longicornuta*. Holotype: Alberti, 1961, pl.5, fig.19; Eisenack and Klement, 1964, p.69; Fensome et al., 1996, fig.1 — p.2205. **NOW** *Batioladinium*. Originally *Broomea*?, subsequently (and now) *Batioladinium*, thirdly *Necrobroomea*, fourthly *Imbatodinium*. Taxonomic junior synonym: *Batioladinium radiculatum*, according to Below (1990, p.53). Below (1990, p.53) also proposed this combination. Age: late Hauterivian–late Barremian.

"*micropoda*" (Eisenack and Cookson, 1960, p.7–8, pl.2, figs.8–9) Wiggins, 1975, p.111. Emendation: Below, 1990, p.56, as *Necrobroomea micropoda*. Holotype: Eisenack and Cookson, 1960, pl.2, fig.9. **NOW** *Batioladinium*. Originally *Broomea*, subsequently (and now) *Batioladinium*, thirdly *Necrobroomea*, fourthly *Imbatodinium*. Taxonomic junior synonyms: *Imbatodinium fractum*, according to Below (1990, p.56); *Broomea* (now *Batioladinium*?) *pellifera*, according to Wiggins (1975, p.111) — however, Dörhöfer and Davies (1980, p.38) retained *Broomea* (as *Batioladinium*?) *pellifera*. Below (1990, p.54) also proposed this combination. Age: Aptian–Albian.

"*neista*" (Duxbury, 1980, p.112–113, pl.2, figs.8–9; text-fig.5) Below, 1990, p.54. Holotype: Duxbury, 1980, pl.2, figs.8–9; text-fig.5; Pourtoy, 1988, pl.4, figs.4–5,7–9. **NOW** *Aprobolocysta*. Originally (and now) *Aprobolocysta*, subsequently *Necrobroomea*. Duxbury (1980) cited the epithet as "*neistosa*" but indicated that it was based on the Greek adjective "*neistos*". Since Principle 5 of the I.C.N. states that taxon names are to be treated as Latin, this epithet should be rendered as "*neista*", in agreement with the feminine gender of the generic name ("*neistum*" would be the neuter form and "*neistus*" the masculine form). Age: Barremian.

"*pellifera*" (Alberti, 1961, p.26, pl.5, figs.11–13) Below, 1990, p.54. Holotype: Alberti, 1961, pl.5, fig.11. **NOW** *Batioladinium*?. Originally *Broomea*, subsequently (and now) *Batioladinium*?, thirdly *Imbatodinium*, fourthly *Necrobroomea*. Taxonomic senior synonym: *Broomea* (as *Batioladinium*) *micropoda*, according to Wiggins (1975, p.111) — however, Dörhöfer and Davies (1980, p.38) retained *Broomea* (as *Batioladinium*) *pellifera*. Age: late Barremian–early Aptian.

"*reticulata*" (Stover and Helby, 1987a, p.101–103, figs.1A–N) Below, 1990, p.54. Holotype: Stover and Helby, 1987a, figs.1E–G; Helby et al., 1987, fig.25I; Fensome et al., 1996, figs.1–3 — p.2325. **NOW** *Batioladinium*. Originally (and now) *Batioladinium*, subsequently *Necrobroomea*. Age: Berriasian.

"*simplex*" (Cookson and Eisenack, 1958, p.42, pl.6, fig.9) Wiggins, 1975, p.111. Holotype: Cookson and Eisenack, 1958, pl.6, fig.9. **NOW** *Broomea*. Originally (and now) *Broomea*, subsequently *Necrobroomea*. Age: Late Jurassic.

"?*tricornoides*" (Alberti, 1961, p.28, pl.5, fig.17) Wiggins, 1975, p.111. Holotype: Alberti, 1961, pl.5, fig.17. **NOW** *Batioladinium*?. Originally *Broomea*?, subsequently (and now) *Batioladinium*?, thirdly *Necrobroomea*?, fourthly *Imbatodinium*?. Questionable assignment: Wiggins (1975, p.111). Age: late Hauterivian.

"*trycheria*" (Pourtoy, 1988, p.388–389, pl.1, figs.1–6,8; pl.5, figs.1–2,5,9) Below, 1990, p.54. Holotype: Pourtoy, 1988, pl.1, figs.1–3. **NOW** *Aprobolocysta*. Originally (and now) *Aprobolocysta*, subsequently *Necrobroomea*. Age: late Valanginian.

NELCHINOPSIS Wiggins, 1972, p.299. Emendation: Harding, 1996, p.352–353,355. Taxonomic senior synonym: *Gonyaulacysta*, according to Duxbury (1977, p.37) — however, Stover and Williams (1987, p.11) retained *Nelchinopsis*. Taxonomic junior synonym: *Alaskadinium*, according to Stover and Williams (1987, p.11). Type: Vozzhennikova, 1967, pl.26, figs.1–6, as *Gonyaulax kostromiensis* (see *Nelchinopsis kostromiensis* for lectotype).

**kostromiensis* (Vozzhennikova, 1967, p.85–86, pl.26, figs.1–6; pl.27, figs.1–2) Wiggins, 1972, p.301–302. Emendation: Harding, 1996, p.353,355, as *Nelchinopsis kostromiensis*. Holotype: Vozzhennikova, 1967, pl.26, figs.1–6; Jan du Chêne et al., 1986a, pl.44, figs.7–8; Lentin and Vozzhennikova, 1990, text-fig.64; lost according to Lentin and Vozzhennikova (1990, p.109). Lectotype: Lentin and Vozzhennikova, 1990, pl.15, figs.5–6, designated by Lentin and Vozzhennikova (1990, p.109); Harding, 1996, pl.1, fig.1. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly (and now) *Nelchinopsis*. Stover and Williams (1987, p.11) retained this species in *Nelchinopsis*. Taxonomic junior synonym: *Alaskadinium wigginsii*, according to Stover and Williams (1987, p.11). Age: ?Valanginian or early Hauterivian.

NELSONIELLA Cookson and Eisenack, 1960a, p.4. Type: Cookson and Eisenack, 1960a, pl.1, fig.12, as *Nelsoniella aceras*.

**aceras* Cookson and Eisenack, 1960a, p.4, pl.1, figs.12–13. Holotype: Cookson and Eisenack, 1960a, pl.1, fig.12. Age: Santonian–Campanian.

"*glomerosa*" Wilson in Slimani, 1994, p.65. **Name not validly published**: no description or illustration. **Taxonomic senior synonym**: *Disphaeria* (now *Turnhosphaera*) *hypoflata*, according to Slimani (2001a, p.194).

incomposita Pearce, 2010, p.68, pl.5, figs.8–11. Holotype: Pearce, 2010, pl.5, figs.8–9,11. Age: Campanian.

oviformis Cookson and Eisenack, 1982, p.33, pl.3, fig.2. Holotype: Cookson and Eisenack, 1982, pl.3, fig.2. Age: Senonian.

semireticulata Cookson and Eisenack, 1960a, p.4–5, pl.1, fig.15. Holotype: Cookson and Eisenack, 1960a, pl.1, fig.15. Age: Santonian–Campanian.

tuberculata Cookson and Eisenack, 1960a, p.4, pl.1, fig.14. Holotype: Cookson and Eisenack, 1960a, pl.1, fig.14. Age: Santonian–Campanian.

NEMATOSPHAEROPSIS Deflandre and Cookson, 1955, p.268. Emendations: Williams and Downie, 1966c, p.222; Wrenn, 1988, p.137. Taxonomic junior synonyms: *Trabeculidium*, according to Stover and Williams (1987,

p.217) — however, Sarjeant (1989, p.93) retained *Trabeculidium*; *Pterococcus* Lohmann (an illegitimate name) and *Coccolpaterus*, by implication in Reid (1974, p.592) and Fensome et al. (1993b, p.93), who included the "type species", *Pterococcus* (subsequently *Coccolpaterum*) *labyrinthus*, in *Nematosphaeropsis*. This name was not validly published in Deflandre and Cookson (1954, p.1237), since these authors did not provide a description. Type: Deflandre and Cookson, 1955, pl.8, fig.5, as *Nematosphaeropsis balcombiana*.

"*aquaeductus*" Piasecki, 1980, p.70, pl.1, figs.1–3; pl.5, figs.1–2. Holotype: Piasecki, 1980, pl.1, figs.1–3. **NOW** *Unipontidinium*. Originally *Nematosphaeropsis*, subsequently *Nematosphaeropsis?*, thirdly *Impagidinium*, fourthly (and now) *Unipontidinium*. Questionable assignment: Edwards (1984, p.586) as a problematic species. N.I.A. Age: middle Miocene.

**balcombiana* Deflandre and Cookson, 1955, p.268–269, pl.8, fig.5. Holotype: Deflandre and Cookson, 1955, pl.8, fig.5. Taxonomic senior synonym: *Pterosperma* (as *Nematosphaeropsis*) *labyrinthus*, according to Reid (1974, p.592) — however, Wrenn (1988, p.139) retained *Nematosphaeropsis balcombiana*. Head and Westphal (1999, p.12) considered this species to be the questionable taxonomic senior synonym of *Nematosphaeropsis rigida*. Motile equivalent: *Gonyaulax spinifera* (Claparède and Lachmann, 1859) Diesing, 1866, according to Wall and Dale (1967, p.352; 1968c, p.270). Wrenn in Head and Wrenn (1992, p.14) recommended that this name be restricted to the holotype. Age: middle Miocene.

"*bicorporis*" Sütő-Szentai, 1990, p.847,849, pl.2, figs.1a–b; text-figs.76d,77a. Holotype: Sütő-Szentai, 1990, pl.2, figs.1a–b; text-fig.77a. **Name not validly published**: lodgement of holotype not specified (I.C.B.N. Article 37.5). This name was also not validly published in Sütő-Szentai (1989, pl.6, fig.3), since that author did not provide a description. Age: late Miocene.

crassimuratus Strauss et al., 2001, p.406, pl.3, figs.3–4. Holotype: Strauss et al., 2001, pl.3, fig.3. Age: late Miocene.

"*delicata*" Wilson in Slimani, 1994, p.76. **Name not validly published**: no description or illustration. **Taxonomic senior synonym**: *Cannosphaeropsis* (as and now *Nematosphaeropsis*) *philippotii*, according to Slimani (2001a, p.193).

densiradiata (Cookson and Eisenack, 1962b, p.493, pl.4, figs.5–7) Stover and Evitt, 1978, p.176. Holotype: Cookson and Eisenack, 1962b, pl.4, figs.5–6. Originally *Cannosphaeropsis*, subsequently (and now) *Nematosphaeropsis*. Age: Cenomanian.

downiei Brown, 1986, p.7,10, pl.1, figs.1–6. Holotype: Brown, 1986, pl.1, figs.1–2. Age: early Miocene.

"*elegantula*" (Drugg, 1967, p.25, pl.4, fig.17) Stover and Williams, 1987, p.217. Holotype: Drugg, 1967, pl.4, fig.17. **NOW** *Trabeculidium*. Originally *Cannosphaeropsis*, subsequently *Cannosphaeropsis?*, thirdly (and now) *Trabeculidium*, fourthly *Nematosphaeropsis*. Jan du Chêne (1988, p.162) also proposed this combination. Age: Danian.

"*grandis*" Davey, 1975, p.153–154, pl.1, fig.9. Holotype: Davey, 1975, pl.1, fig.9; Jan du Chêne et al., 1986a, pl.55, figs.1–8. **NOW** *Unipontidinium*. Originally *Nematosphaeropsis*, subsequently *Impagidinium*, thirdly (and now) *Unipontidinium*. Age: Senonian, ?Campanian.

labyrinthus (Ostenfeld, 1903, p.578, fig.127) Reid, 1974, p.592. Holotype: Ostenfeld, 1903, fig.127. Originally *Pterosperma* (a modern prasinophyte), subsequently *Pterococcus* (combination illegitimate), thirdly *Coccolpaterum*, fourthly (and now) *Nematosphaeropsis*. Taxonomic junior synonym: *Nematosphaeropsis balcombiana*, according to Reid (1974, p.592) — however, Wrenn (1988, p.139) retained *Nematosphaeropsis balcombiana*. Motile equivalent: *Gonyaulax spinifera* complex, according to Dodge (1989, p.289). Wrenn (1988, p.136) retained this species in *Pterococcus* and did not consider it to be a dinoflagellate; however, Dale in Head and Wrenn (1992, p.12) and Fensome et al. (1993b, p.93) retained this species in *Nematosphaeropsis*. Wrenn in Head and Wrenn (1992, p.14) recommended that this name be restricted to the holotype, but see discussion in Rochon et al. (1999, p.30). Rochon et al. (1999, p.30) implied that this species may be the taxonomic senior synonym of *Nematosphaeropsis lemniscata*. N.I.A. Age: extant.

lativittata Wrenn, 1988, p.140,142, pl.1, figs.5–15,18; pl.5, figs.1–5; pl.6, figs.5–6. Holotype: Wrenn, 1988, pl.1, figs.12–15,18. Age: Pliocene.

lemniscata Bujak, 1984, p.189–190, pl.3, figs.5–7. Emendation: Wrenn, 1988, p.142,144. Holotype: Bujak, 1984, pl.3, fig.7. Taxonomic junior synonym: *Nematosphaeropsis oblonga*, according to Wrenn (1988, p.142) — however, Mudie in Head and Wrenn (1992, p.16,18) retained *Nematosphaeropsis oblonga*. Rochon et al. (1999, p.30) implied that this species may be a taxonomic junior synonym of *Nematosphaeropsis labyrinthus*. Age: late Oligocene–early Pleistocene.

major Head et al., 1989b, p.459, pl.2, figs.1–4. Holotype: Head et al., 1989b, pl.2, figs.1–2. Age: late Miocene.

oblonga Mudie, 1987, p.804, pl.3, figs.4a–b. Holotype: Mudie, 1987, pl.3, figs.4a–b; Head and Wrenn, 1992, pl.1, figs.3,6. Taxonomic senior synonym: *Nematosphaeropsis lemniscata*, according to Wrenn (1988, p.142) — however, Mudie in Head and Wrenn (1992, p.16,18) retained *Nematosphaeropsis oblonga*. Age: late Miocene–early Pliocene.

philippotii (Deflandre, 1947a, p.1574; text-figs.2–3) de Coninck, 1969, p.29. Holotype: Deflandre, 1947a, text-fig.3. Originally *Cannosphaeropsis*, subsequently (and now) *Nematosphaeropsis*, thirdly *Nematosphaeropsis*?. Questionable assignment: Stover and Evitt (1978, p.176) — however, Slimani (1994, p.76) included this species in *Nematosphaeropsis* without question. Taxonomic junior synonym: *Nematosphaeropsis delicata* (name not validly published), according to Slimani (2001a, p.193). Age: Senonian.

"pusulosa" (Morgenroth, 1966b, p.8, pl.2, fig.6) Stover and Evitt, 1978, p.176. Holotype: Morgenroth, 1966b, pl.2, fig.6; Sarjeant et al., 1987, pl.1, fig.8. **NOW** *Trabeculidium*. Originally *Cannosphaeropsis*, subsequently *Nematosphaeropsis*, thirdly (and now) *Trabeculidium*. Age: early Oligocene.

"quinquetra" (Duxbury, 1980, p.133–134, pl.9, figs.1–2,5) Stover and Williams, 1987, p.217. Holotype: Duxbury, 1980, pl.9, fig.2; Fensome et al., 1995, fig.2 — p.1729. **NOW** *Trabeculidium*. Originally (and now) *Trabeculidium*, subsequently *Nematosphaeropsis*. Age: middle Barremian.

reticulensis (Pastiels, 1948, p.49, pl.5, figs.7–10) Sarjeant, 1986, p.9. Emendation: Sarjeant, 1986, p.9,11, as *Nematosphaeropsis reticulensis*. Holotype: Pastiels, 1948, pl.5, fig.10, unrecognizable according to Sarjeant (1986, p.11). Lectotype: Pastiels, 1948, pl.5, fig.7; Sarjeant, 1986, pl.3, fig.6; designated by Sarjeant (1986, p.11). Originally *Cannosphaeropsis*, subsequently *Adnatosphaeridium*, thirdly (and now) *Nematosphaeropsis*. De Coninck (1986a, p.17–18) also proposed this combination. Age: early Eocene.

rigida Wrenn, 1988, p.144,146,148, pl.2, figs.1–6; pl.3, fig.4; pl.4, figs.1–5; pl.6, figs.3–4. Holotype: Wrenn, 1988, pl.2, figs.1–6. Head and Westphal (1999, p.12) considered this species to be a questionable taxonomic junior synonym of *Nematosphaeropsis balcombiana*. Age: Miocene–Holocene.

scala Duxbury, 1977, p.43, pl.9, fig.2. Holotype: Duxbury, 1977, pl.9, fig.2. N.I.A. Age: early Valanginian–late Hauterivian.

silsila Guédé and Slimani in Guédé et al., 2014, p.295–298, figs.3A–L,4A–B. Holotype: Guédé et al., 2014, figs.3A–C. Age: late Maastrichtian.

singularis Davey, 1979b, p.557, pl.5, figs.6,10,14. Holotype: Davey, 1979b, pl.5, fig.14. Age: Aptian–Albian.

"velata" Clarke and Verdier, 1967, p.51–52, pl.10, figs.1–2; text-fig.22. Holotype: Clarke and Verdier, 1967, pl.10, fig.2. **NOW** *Culversphaera*. Originally *Nematosphaeropsis*, subsequently *Spiniferites*?, thirdly (and now) *Culversphaera*. Age: Santonian.

?*wrennii* McMinn, 1992, p.435, pl.3, figs.17–20. Holotype: McMinn, 1992, pl.3, figs.19–20. Questionable assignment: McMinn (1992, p.435). Age: late Miocene.

NENJIANGELLA Yuan Deyan and He Chengquan, 1999, p.90,92–93. Type: Yuan Deyan and He Chengquan, 1999, pl.1, fig.14, as *Nenjiangella granulata*.

***granulata** Yuan Deyan and He Chengquan, 1999, p.90–91,93, pl.1, figs.9–15. Holotype: Yuan Deyan and He Chengquan, 1999, pl.1, fig.14. Age: Middle Late Cretaceous.

NEODIACRODIUM Fedorova-Shakhmundes, 1976, p.94. Fedorova-Shakhmundes (1976, p.94) considered this to be an acritarch genus, but Lentin in Lentin and Williams (1993, p.447) determined it to be a dinoflagellate genus. Type: Fedorova-Shakhmundes, 1976, pl.1, figs.7,7a, as *Neodiacrodium longiprocessatum*.

breviprocessatum Fedorova-Shakhmundes, 1976, p.97–98, pl.1, figs.5,5a–b,6,6a. Holotype: Fedorova-Shakhmundes, 1976, pl.1, figs.5,5a–b. Age: late Barremian.

corniculatum Fedorova-Shakhmundes, 1976, p.96–97, pl.1, figs.4,4a. Holotype: Fedorova-Shakhmundes, 1976, pl.1, figs.4,4a. Age: Barremian.

hystrichoforme Fedorova-Shakhmundes, 1976, p.99, pl.1, figs.11,11a–b. Holotype: Fedorova-Shakhmundes, 1976, pl.1, figs.11,11a–b. Age: late Barremian.

***longiprocessatum** Fedorova-Shakhmundes, 1976, p.94–95, pl.1, figs.7,7a,8. Holotype: Fedorova-Shakhmundes, 1976, pl.1, figs.7,7a. Age: early Valanginian.

proprium Fedorova-Shakhmundes, 1976, p.98–99, pl.1, figs.9,9a,10. Holotype: Fedorova-Shakhmundes, 1976, pl.1, figs.9,9a. Age: late Barremian.

timofeevii (Shakhmundes, 1971, p.438–439, figs.1e–f [in published English translation]) Fedorova-Shakhmundes, 1976, p.95. Holotype: Shakhmundes, 1971, fig.1e (in published English translation, p.226); Fedorova-Shakhmundes, 1976, pl.1, figs.2,2a. Originally *Acanthodiacrodium* (Appendix A), subsequently (and now) *Neodiacrodium*. Fensome et al. (1990, p.33–34) accepted this name as validly published, at least in the published translation of Shakhmundes (1971), the original of which is in Russian. Shakhmundes (1971, p.438) cited "Fig.1d" as holotype; however, no illustrations appear to have accompanied that publication (or, at least, none is present in the copy held in the Geological Survey of Canada Library, Ottawa). In the published translation, fig.1e is listed as the holotype of *Acanthodiacrodium timofeevii*. Age: early Aptian.

NEOEURYSphaeridium Slimani, 1994, p.77–78. According to Slimani (1994, p.77) this may be the taxonomic senior synonym of *Eurysphaeridium* (name not validly published). However, *Eurysphaeridium* has no formal type, and the other specific epithet assigned to *Eurysphaeridium* has been synonymized with another genus. Type: Slimani, 1994, pl.13, figs.1–4; text-figs.12A–B, as *Neoeurysphaeridium glabrum*.

***glabrum** Slimani, 1994, p.78–80, pl.13, figs.1–6; text-figs.12A–B. Holotype: Slimani, 1994, pl.13, figs.1–4; text-figs.12A–B. Taxonomic junior synonym: *Eurysphaeridium glabrum* (name not validly published), according to Slimani (2001a, p.193). Age: late Campanian–early Maastrichtian.

"**NEOGIPPSLANDIA**" Özdikmen, 2009, p.235. **Name illegitimate — nomenclatural senior synonym:** *Gippslandia*, which has the same type. Özdikmen (2009, p.235) considered *Gippslandia* Stover and Williams, 1987 to be illegitimate because it is a junior homonym of *Gippslandia* Bayly and Arnott 1969; however, *Gippslandia* Bayly and Arnott is an animal and under the I.C.N. it does not pre-empt *Gippslandia* Stover and Williams. Type: Stover, 1974, pl.5, figs.4a–c, as *Deflandrea extensa*.

***extensa** (Stover, 1974, p.178–179, pl.5, figs.4a–c,5a–d,6) Özdikmen, 2009, p.235. Holotype: Stover, 1974, pl.5, figs.4a–c; Fensome et al., 1993a, figs.1–3 — p.1167. Originally *Deflandrea*, subsequently *Vozzhemikovia*?, thirdly *Dioxya*?, fourthly *Lentinia*, fifthly (and now) *Gippslandia*, sixthly *Neogippslandia* (generic name illegitimate).

Although Özdikmen (2009) did not fully reference the basionym when proposing the transfer of this species to *Neogippslandia*, he did so under the aegis of the I.C.Z.N., so the combination can be considered validly published. Age: middle-late Eocene.

NEONORTHIDIUM Marheinecke, 1992, p.117. Taxonomic junior synonym: *Northidium* (name not validly published), according to Marheinecke (1992, p.117). Contrary to the opinion of Lentin and Williams (1993, p.447), Williams et al. (1998, p.421) considered *Neonorthidium* to be validly published. Type: Marheinecke, 1992, pl.26, figs.12–14; text-fig.23, as *Neonorthidium perforatum*.

***perforatum** Marheinecke, 1992, p.117–118, pl.26, figs.12–14; text-fig.23. Holotype: Marheinecke, 1986, pl.22, figs.1–2,4, as *Northidium perforatum* (name not validly published); Marheinecke, 1992, pl.26, figs.12–14; text-fig.23. Originally *Northidium* (name not validly published), subsequently (and now) *Neonorthidium*. Contrary to the opinion of Lentin and Williams (1993, p.447), Williams et al. (1998, p.421) considered this name to be validly published. Age: late early–early late Maastrichtian.

NEOSPHAERODICTYON Slimani, 2003, p.273–274. Taxonomic junior synonym: *Sphaerodictyon* (name not validly published), according to Slimani (2003, p.273). Type: Slimani, 2003, pl.1, figs.8–9, as *Neosphaerodictyon filusum*.

***filusum** Slimani, 2003, p.274–275, pl.1, figs.8–12. Holotype: Slimani, 2003, pl.1, figs.8–9. Taxonomic junior synonym: *Sphaerodictyon filusum* (name not validly published) according to Slimani (2003, p.274). Age: Campanian–early Maastrichtian.

NEPHRODINELLA Keupp, 1981, p.66. Calcareous dinoflagellate genus (see Streng et al., 2004, p.482 and Elbrächter et al., 2008, p.1300). Type: Keupp, 1981, pl.53, figs.1–3, as *Nephrodinella reniformis*.

***reniformis** Keupp, 1981, p.66–68, pl.53, figs.1–11. Holotype: Keupp, 1981, pl.53, figs.1–3. Age: late Hauterivian–mid Barremian.

"**NETRELYTRON**" Sarjeant, 1961a, p.113. Emendation: Sarjeant, 1966c, p.199. **Taxonomic senior synonym:** *Kalyptea*, according to Wiggins (1975, p.110) and Poulsen (1996, p.60). Taxonomic senior synonym: *Pareodinia*, according to Below (1990, p.64). Type: Sarjeant, 1961a, pl.15, fig.15; text-fig.14 (left figure), as *Netrelytron stegastum*.

"**jurassicum**" (Alberti, 1961, p.21, pl.7, fig.8) Sarjeant, 1966c, p.201. Holotype: Alberti, 1961, pl.7, fig.8. **Combination not validly published:** basionym not fully referenced. Originally *Kalyptea*, subsequently *Netrelytron* (combination not validly published). **Taxonomic senior synonym:** *Kalyptea* (as *Pareodinia diceras*, according to Below (1990 [October], p.65). Taxonomic senior synonym: *Netrelytron* (as *Kalyptea*, now *Pareodinia stegasta*, according to Wiggins (1975, p.110) and Kunz (1990 [January], p.12) — however, Below (1990 [October], p.65) considered *Kalyptea jurassica* to be a taxonomic junior synonym of *Kalyptea* (as *Pareodinia diceras*). Gocht (1970b, p.154) considered *Pareodinia ceratophora* to be the questionable taxonomic senior synonym of this species. Age: Bathonian–Callovian.

"**par**" Gitmez, 1970, p.314–315, pl.5, fig.4; pl.9, fig.4. Holotype: Gitmez, 1970, pl.9, fig.4. Originally *Netrelytron*, subsequently *Kalyptea*. **Taxonomic senior synonym:** *Netrelytron* (as *Kalyptea stegastum*, according to Poulsen (1996, p.61). Taxonomic senior synonyms: *Pareodinia ceratophora* subsp. *ceratophora* (as *Pareodinia ceratophora* var. *ceratophora*), according to Below (1990, p.65); *Netrelytron* (as *Kalyptea trinetrum*, according to Wiggins (1975, p.110). For etymology, see *Kalyptea par*. N.I.A. Age: early Kimmeridgian.

"***stegastum**" Sarjeant, 1961a, p.114–115, pl.15, fig.15; text-fig.14. Holotype: Sarjeant, 1961a, pl.15, fig.15; text-fig.14 (left figure); Sarjeant et al., 1987, pl.1, fig.6. **NOW** *Kalyptea*. Originally *Netrelytron*, subsequently (and now) *Kalyptea*, thirdly *Pareodinia*. Taxonomic junior synonyms: *Netrelytron par* and *Netrelytron trinetrum*, both

according to Poulsen (1996, p.61); *Kalyptea jurassica*, according to Wiggins (1975, p.110) and Kunz (1990 [January], p.12) — however, Below (1990 [October], p.65) considered *Kalyptea jurassica* to be a taxonomic junior synonym of *Kalyptea* (as *Pareodinia*) *dicerias*. Age: early Oxfordian.

"*trinetrum*" Sarjeant, 1966c, p.199–200, pl.22, fig.3; text-fig.51. Holotype: Sarjeant, 1966c, pl.22, fig.3. Originally *Netrelytron*, subsequently *Kalyptea*, thirdly *Pareodinia*. **Taxonomic senior synonym:** *Netrelytron* (as and now *Kalyptea*) *stegastum*, according to Poulsen (1996, p.61). Taxonomic junior synonym: *Netrelytron* *par*, according to Wiggins (1975, p.110) — however, *Netrelytron parum* is now a taxonomic junior synonym of *Pareodinia* *ceratophora* subsp. *ceratophora*. For etymology, see *Pareodinia trinetra*. Age: middle Barremian.

NEUFFENIA Brenner and Dürr, 1986, p.12. Type: Brenner and Dürr, 1986, fig.2, no.1; fig.3, nos.1–2, as *Neuffenia willei*.

**willei* Brenner and Dürr, 1986, p.13, fig.2, nos.1–2, fig.3, nos.1–4, fig.4, nos.1–2. Holotype: Brenner and Dürr, 1986, fig.2, no.1; fig.3, nos.1–2; Fensome et al., 1995, figs.1–3 — p.1919. Age: late Oxfordian.

subsp. *lanterna* Poulsen, 1996, p.87, pl.19, figs.7–9. Holotype: Poulsen, 1996, pl.19, fig.9. Age: latest Oxfordian–Volgian.

subsp. *willei*. Autonym. Holotype: Brenner and Dürr, 1986, fig.2, no.1; fig.3, nos.1–2; Fensome et al., 1995, figs.1–3 — p.1919.

NEXOSISPINUM Davey, 1979b, p.557–558. Taxonomic senior synonym: *Kiokansium*, according to Stover and Williams (1987, p.163) — however, Prössl (1990, p.104) retained *Nexosispinum*. Type: Davey, 1979b, pl.6, fig.5, as *Nexosispinum hesperus*.

"?*complicatum*" Slimani, 1996, p.377, pl.3, figs.D–E; pl.4, figs.H,J–N ex Slimani, 2001b, p.5, pl.3, figs.6–11. Holotype: Slimani, 1996, pl.4, fig.M; Slimani, 2001b, pl.3, fig.11. Questionable assignment: Slimani (1996, p.377; 2001b, p.5). **Taxonomic senior synonym:** *Pulchrasphaera minuscula*, according to Slimani (2001b, p.5). This name was not validly published in Slimani (1996) since no English or Latin description or diagnosis was provided. Age: late early Maastrichtian–Danian.

**hesperus* Davey, 1979b, p.558, pl.6, figs.1–5. Emendation: Torricelli, 2000, p.262. Holotype: Davey, 1979b, pl.6, fig.5; Fensome et al., 1995, fig.3 — p.1541. Originally (and now) *Nexosispinum*, subsequently *Kiokansium*. Prössl (1990, p.104) retained this species in *Nexosispinum*. N.I.A. Age: early Aptian–early middle Albanian.

subsp. *brevispinosum* Torricelli, 2000, p.262, pl.16, figs.2,4–6. Holotype: Torricelli, 2000, pl.16, figs.4–5. Age: Hauterivian.

subsp. *hesperus*. Autonym. Holotype: Davey, 1979b, pl.6, fig.5; Fensome et al., 1995, fig.3 — p.1541.

minimum Prössl, 1990, p.104–105, pl.1, figs.2,4,6,8–9 ex Prössl, 1992b, p.113,115. Holotype: Prössl, 1990, pl.1, figs.2,4,6. This name was not validly published in Prössl (1990, p.104–105), since that author did not specify the lodgment of the holotype. Age: early Hauterivian–early Barremian.

vetusculum (Davey, 1974, p.45, pl.1, figs.1–2) Davey, 1979b, p.558. Holotype: Davey, 1974, pl.1, fig.2. Originally *Adnatosphaeridium*, subsequently *Systematophora*, thirdly (and now) *Nexosispinum*, fourthly *Kiokansium*. Prössl (1990, p.104) retained this species in *Nexosispinum*. Age: early Barremian.

NIDAROCYSTA Monteil, 1997, p.390,392–394. Type: Monteil, 1997, pl.3, fig.3; pl.4, figs.1–6; text-figs.6a–b, as *Nidarocysta jubilaea*.

**jubilaea* Monteil, 1997, p.394, pl.1, figs.1–6; pl.2, figs.1–6; pl.3, figs.1–3; pl.4, figs.1–6; pl.5, figs.1–6; pl.6, figs.1–6; pl.7, figs.1–6; pl.8, figs.1–6; text-figs.3a–f,4A–D,5A–D,6a–f,7a–f,8a–b. Holotype: Monteil, 1997, pl.3, fig.3; pl.4, figs.1–6; text-figs.6a–b. Age: latest Oxfordian–earliest Kimmeridgian.

NORICYSTA Bujak and Fisher, 1976, p.58. Emendation: Dörhöfer and Davies, 1980, p.23–24. Type: Bujak and Fisher, 1976, pl.9, figs.2–4, as *Noricysta fimbriata*.

**fimbriata* Bujak and Fisher, 1976, p.60,62, pl.9, figs.1–5; text-figs.5A–B. Emendation: Dörhöfer and Davies, 1980, p.24. Holotype: Bujak and Fisher, 1976, pl.9, figs.2–4. Age: Norian.

pannucea Bujak and Fisher, 1976, p.62, pl.9, figs.6–10; text-fig.5D. Holotype: Bujak and Fisher, 1976, pl.9, fig.6–7; text-fig.5D. Age: Norian.

varivallata Bujak and Fisher, 1976, p.62, pl.9, figs.16–17; text-fig.5C. Holotype: Bujak and Fisher, 1976, pl.9, figs.16–17; text-fig.5C. Age: Norian.

"**NORMANDIA**" Zügel, 1994, p.30. Calcareous dinoflagellate genus (see Streng et al., 2004, p.482 and Elbrächter et al., 2008, p.1300, the latter noting that the cyst wall is pithonelloid and so a dinoflagellate affinity is questionable). **Name illegitimate** — **senior homonym**: *Normandia* Hooker, 1872, a rubiacean. **Substitute name**: *Zuegelia*. Type: Zügel, 1994, pl.3, figs.1–5, as *Normandia circumperforata*.

***circumperforata** Zügel, 1994, p.30,32,34, pl.3, figs.1–15; text-figs.12–13. Holotype: Zügel, 1994, pl.3, figs.1–5. **NOW** *Zuegelia*. Originally *Normandia* (generic name illegitimate), subsequently (and now) *Zuegelia*. Age: early Turonian.

"**NORTHIDIUM**" Marheinecke, 1986, p.27. **Name not validly published**: no description. **Taxonomic senior synonym**: *Neonorthidium*, according to Marheinecke (1992, p.117).

"**perforatum**" Marheinecke, 1986, p.27. **Name not validly published**: no description. **NOW** *Neonorthidium*. Originally *Northidium* (name not validly published), subsequently (and now) *Neonorthidium*. Marheinecke (1986, p.27), indicated that this name is from an unpublished thesis by G. Wilson. Age: late early–early late Maastrichtian.

"**NOVEDWARDSIELLA**" Özdikmen, 2009, p.234. **Name illegitimate** — **nomenclatural senior synonym**: *Edwardsiella* Versteegh and Zevenboom 1995. Özdikmen (2009) considered *Edwardsiella* Versteegh and Zevenboom to be illegitimate because it is a junior homonym of *Edwardsiella* Andres, 1883; however, *Edwardsiella* Andres is an animal and under the I.C.N. does not pre-empt *Edwardsiella* Versteegh and Zevenboom. Type: Versteegh, 1995, pl.2, figs.1,4, as *Edwardsiella sexispinosa*.

***sexispinosa** (Versteegh and Zevenboom in Versteegh, 1995, p.88–89, pl.2, figs.1–4) Özdikmen, 2009, p.234. Holotype: Versteegh, 1995, pl.2, figs.1,4; Versteegh and Zevenboom, 1995, pl.2, figs.1,4. **NOW** *Edwardsiella*. Originally (and now) *Edwardsiella*, subsequently *Novedwardsiella* (generic name illegitimate). Although Özdikmen (2009) did not fully reference the basionym when proposing the transfer of this species to *Novedwardsiella*, he did so under the aegis of the I.C.Z.N., so the combination can be considered validly published. Age: Chattian–mid Piacenzian.

NYKTERICYSTA Bint, 1986, p.148–149. Emendations: Wan Chuanbiao and Zhang Ying, 1990, p.6–7,13; He Chengquan et al., 1992, p.183–184,190; Gao Ruiqi et al., 1992b, p.35; Mao Shaozhi et al., 1999, p.152; Fensome et al., 2009, p.46. Taxonomic junior synonym: *Balmula*, according to Fensome et al. (2009, p.46). Type: Bint, 1986, pl.4, figs.1–2,5–6; text-figs.3A–B, as *Nyktericysta davisii*.

arachnion Bint, 1986, p.153–154, pl.4, figs.13–16; pl.5, figs.1–5; pl.8, figs.7–8. Holotype: Bint, 1986, pl.4, figs.13–15; pl.8, figs.7–8. N.I.A. Age: early late Albian.

aspera Wan Chuanbiao and Zhang Ying, 1990, p.10, pl.2, figs.7–9. Holotype: Wan Chuanbiao and Zhang Ying, 1990, pl.2, fig.7. **Taxonomic senior synonym:** *Nyktericysta hailaerensis*, according to Mao Shaozhi et al. (1999, p.154). Wan Chuanbiao and Zhang Ying (1990, p.10) assigned this species to *Nyktericysta* subgenus *Hailaera*. Age: Early Cretaceous.

beierensis Wan Chuanbiao and Zhang Ying, 1990, p.8–9, pl.1, figs.1–4. Emendation: Mao Shaozhi et al., 1999, p.154. Holotype: Wan Chuanbiao and Zhang Ying, 1990, pl.1, fig.4. Wan Chuanbiao and Zhang Ying (1990, p.8,13) assigned this species to *Nyktericysta* subgenus *Hastodinium*. Age: Early Cretaceous.

**davisii* Bint, 1986, p.149–150,152–153, pl.4, figs.1–12; pl.8, figs.1–6; text-figs.3A–C,4A–B,10A–B. Holotype: Bint, 1986, pl.4, figs.1–2,5–6; text-figs.3A–B; Fensome et al., 1993a, figs.1–3,7–8 — p.1099. Age: late Mid–early late Albian.

dictyophora He Chengquan et al., 1992, p.184,190–191, pl.1, figs.1–9. Emendation: Mao Shaozhi et al., 1999, p.156, as *Quantouendinium dictyophorum*. Holotype: He Chengquan et al., 1992, pl.1, fig.1; Gao Ruiqi et al., 1992b, pl.1, fig.1; Gao Ruiqi et al., 1992c, pl.1, fig.8; Mao Shaozhi et al., 1999, pl.5, fig.2. **NOW** *Quantouendinium*. Originally *Nyktericysta*, subsequently (and now) *Quantouendinium*. Taxonomic junior synonyms: *Nyktericysta dictyophora* subsp. *circularis* and *Nyktericysta fusiformis*, both according to Mao Shaozhi et al. (1999, p.156); however, He Chengquan et al. (2009, p.304) retained the two taxa as *Quantouendinium dictyophorum* subsp. *circularis* and *Quantouendinium fusiforme* respectively. Age: Albian.

"subsp. *circularis*" He Chengquan et al., 1992, p.185,191, pl.1, figs.7–9. Holotype: He Chengquan et al., 1992, pl.1, fig.7; Gao Ruiqi et al., 1992b, pl.2, fig.4. **NOW** *Quantouendinium dictyophorum* subsp. *circularis*. Originally *Nyktericysta dictyophora* subsp. *circularis*, subsequently (and now) *Quantouendinium dictyophorum* subsp. *circularis*. Taxonomic senior synonym: *Nyktericysta* (now *Quantouendinium*) *dictyophora*, according to Mao Shaozhi et al. (1999, p.156); however, He Chengquan et al. (2009, p.304) retained this taxon as *Quantouendinium dictyophorum* subsp. *circularis*. Age: Albian.

"subsp. *dictyophora*". Autonym. Holotype: He Chengquan et al., 1992, pl.1, fig.1; Gao Ruiqi et al., 1992b, pl.1, fig.1; Gao Ruiqi et al., 1992c, pl.1, fig.8. **NOW** *Quantouendinium dictyophorum* subsp. *dictyophora*. Originally *Nyktericysta dictyophora* subsp. *dictyophora*, subsequently (and now) *Quantouendinium dictyophorum* subsp. *dictyophora*.

fusiformis He Chengquan et al., 1992, p.185,191–192, pl.1, fig.16; pl.2, figs.1–3. Holotype: He Chengquan et al., 1992, pl.2, fig.2; Gao Ruiqi et al., 1992b, pl.4, fig.6. **NOW** *Quantouendinium*. Originally *Nyktericysta*, subsequently (and now) *Quantouendinium*. Taxonomic senior synonym: *Nyktericysta* (now *Quantouendinium*) *dictyophora*, according to Mao Shaozhi et al. (1999, p.156); however, He Chengquan et al. (2009, p.304) retained this species as *Quantouendinium fusiforme*. Age: Albian.

granorugosa (Qiao Xiuyun et al., 1992) Williams and Fensome, 2016, p.140. Holotype: Qiao Xiuyun et al., 1992, pl.2, fig.10; Gao Ruiqi et al., 1992b, pl.2, fig.5; Gao Ruiqi et al., 1992c, pl.1, fig.11. Originally *Balmula*, subsequently (and now) *Nyktericysta*. Age: Berriasian–Barremian.

hailaerensis Wan Chuanbiao and Zhang Ying, 1990, p.10, pl.2, figs.4–6. Emendation: Mao Shaozhi et al., 1999, p.154. Holotype: Wan Chuanbiao and Zhang Ying, 1990, pl.2, fig.6. Taxonomic junior synonym: *Nyktericysta aspera*, according to Mao Shaozhi et al. (1999, p.154). Wan Chuanbiao and Zhang Ying (1990, p.8,13) assigned this species to *Nyktericysta* subgenus *Hailaera*. Age: Early Cretaceous.

lacustra Zippi, 1998, p.50,52, pl.24, figs.1–9; pl.25, figs.1–9; pl.26, figs.1–10; pl.27, figs.1–10; pl.28, figs.1–6; text-fig.16 (part). Holotype: Zippi, 1998, pl.28, figs.1–3. Age: Albian.

microreticulata He Chengquan et al., 1992, p.185–186,192, pl.1, figs.10–15. Emendation: Mao Shaozhi et al., 1999, p.157, as *Quantouendinium microreticulatum*. Holotype: He Chengquan et al., 1992, pl.1, fig.10; Gao Ruiqi

et al., 1992b, pl.3, fig.1. **NOW** *Quantouendinium*. Originally *Nyktericysta*, subsequently (and now) *Quantouendinium*. Taxonomic junior synonyms: *Nyktericysta microreticulata* subsp. *circularis* and *Nyktericysta symmetrica*, both according to Mao Shaozhi et al. (1999, p.156); however, He Chengquan et al. (2009, p.305–306) retained the two taxa as *Quantouendinium microreticulata* subsp. *circularis* and *Quantouendinium symmetricum* respectively. Age: Albian.

"subsp. *circularis*" He Chengquan et al., 1992, p.186,193, pl.1, figs.13–15. Holotype: He Chengquan et al., 1992, pl.1, fig.13; Gao Ruiqi et al., 1992b, pl.3, fig.7. **NOW** *Quantouendinium microreticulatum* subsp. *circularis*. Originally *Nyktericysta microreticulata* subsp. *circularis*, subsequently (and now) *Quantouendinium microreticulatum* subsp. *circularis*. Taxonomic senior synonym: *Nyktericysta* (now *Quantouendinium*) *microreticulata*, according to Mao Shaozhi et al. (1999, p.157); however, He Chengquan et al. (2009, p.305) retained this taxon as *Quantouendinium microreticulatum* subsp. *circularis*. Age: Albian.

"subsp. *microreticulata*". Autonym. Holotype: He Chengquan et al., 1992, pl.1, fig.10; Gao Ruiqi et al., 1992b, pl.3, fig.1. **NOW** *Quantouendinium microreticulatum* subsp. *microreticulatum*. Originally *Nyktericysta microreticulata* subsp. *microreticulata*, subsequently (and now) *Quantouendinium microreticulatum* subsp. *microreticulatum*.

nebulosa Wan Chuanbiao and Zhang Ying, 1990, p.10–11, pl.3, figs.1,3. Emendation: Mao Shaozhi et al., 1999, p.154–155. Holotype: Wan Chuanbiao and Zhang Ying, 1990, pl.3, fig.1. Wan Chuanbiao and Zhang Ying (1990, p.10) assigned this species to *Nyktericysta* subgenus *Hailaera*. Age: Early Cretaceous.

?pannosa (Duxbury, 1980, p.129–130, pl.10, figs.3,6; text-figs.12A–B) Bint, 1986, p.149. Holotype: Duxbury, 1980, pl.10, fig.3; text-fig.12B. Originally *Muderongia*, subsequently *Australisphaera*, thirdly (and now) *Nyktericysta*?. Questionable assignment: Bint (1986, p.149). Age: middle Barremian.

pentagonum (Singh, 1983, p.128–129, pl.44, figs.2–3) Bint, 1986, p.149. Holotype: Singh, 1983, pl.44, fig.2. Originally *Endoceratium*, subsequently (and now) *Nyktericysta*. N.I.A. Age: middle Cenomanian.

pentaradiata (Singh, 1983, p.127, pl.43, fig.5) Williams and Fensome, 2016, p.140. Holotype: Singh, 1983, pl.43, fig.5. Originally *Muderongia*, subsequently *Balmula*, thirdly (and now) *Nyktericysta*. Age: early Cenomanian.

puyangensis Wan Chuanbiao and Qiao Xiuyun, 1994, p.503,507–508, pl.1, figs.3,5–6,8,10; pl.2, figs.1,3,8. Emendation: Mao Shaozhi et al., 1999, p.152. Holotype: Wan Chuanbiao and Qiao Xiuyun, 1994, pl.2, fig.8; Mao Shaozhi et al., 1999, pl.4, fig.7. Age: Middle-late Early Cretaceous.

ramiformis Wan Chuanbiao and Zhang Ying, 1990, p.9, pl.1, figs.5–7. Emendation: Mao Shaozhi et al., 1999, p.154, as *Nyktericysta ramuliformis*. Holotype: Wan Chuanbiao and Zhang Ying, 1990, pl.1, fig.7. Wan Chuanbiao and Zhang Ying (1990, p.9) assigned this species to *Nyktericysta* subgenus *Hastodinium*. Age: Early Cretaceous.

reticulata Wan Chuanbiao and Zhang Ying, 1990, p.7–8, pl.1, figs.8–10; pl.2, fig.1. Emendation: Mao Shaozhi et al., 1999, p.152–154. Holotype: Wan Chuanbiao and Zhang Ying, 1990, pl.2, fig.1. Wan Chuanbiao and Zhang Ying (1990, p.7) assigned this species to *Nyktericysta* subgenus *Nyktericysta*. Age: Early Cretaceous.

spinosa (Gao Ruiqi et al., 1992a) comb. nov.

Balmula spinosa Gao Ruiqi et al., 1992a, p.18,24, pl.1, figs.17–18.

Emendation: Mao Shaozhi et al., 1999, p.157, as *Quantouendinium spinosum*. Holotype: Gao Ruiqi et al., 1992a, pl.1, fig.17; Gao Ruiqi et al., 1992b, pl.8, fig.1; Mao Shaozhi et al., 1999, pl.4, fig.2. Originally *Balmula*, subsequently *Quantouendinium*, thirdly (and now) *Nyktericysta*. He Chengquan et al. (2009, p.294) retained this species in *Balmula*. The combination *Nyktericysta spinosa* is proposed here since *Balmula* is now considered a taxonomic junior synonym of *Nyktericysta*. Age: Campanian.

"*symmetrica*" He Chengquan et al., 1992, p.186–187,193, pl.2, figs.4–6. Holotype: He Chengquan et al., 1992, pl.2, fig.4; Gao Ruiqi et al., 1992b, pl.2, fig.5. **NOW** *Quantouendinium*. Originally *Nyktericysta*, subsequently (and now) *Quantouendinium*. Taxonomic senior synonym: *Nyktericysta* (now *Quantouendinium*) *microreticulata*,

according to Mao Shaozhi et al. (1999, p.157); however, He Chengquan et al. (2009, p.306) retained this species as *Quantouendinium symmetricum*. Age: Albian.

"*trigona*" Lang Yan et al., 1999, p.375,387–388, pl.3, figs.1–7. Holotype: Lang Yan et al., 1999, pl.3, fig.3. **NOW** *Quantouendinium*. Originally *Nyctericysta*, subsequently (and now) *Quantouendinium*. Age: Early Cretaceous.

tripenta (Bint, 1986, p.158,160, pl.6, figs.9–17; pl.7, fig.8; text-figs.6A–B) Fensome et al., 2009, p.46. Holotype: Bint, 1986, pl.6, figs.10,14–16; text-fig.6B; Fensome et al., 1995, figs.1,4,7 — p.1851. Originally *Balmula*, subsequently (and now) *Nyctericysta*. Age: late Albian.

?*vitrea* (Duxbury, 1983, p.26–27, pl.2, fig.11; pl.3, fig.5; text-fig.8) Bint, 1986, p.149. Holotype: Duxbury, 1983, pl.2, fig.11; text-fig.8. Originally *Australisphaera*, subsequently (and now) *Nyctericysta*?. Questionable assignment: Bint (1986, p.149). Age: early Aptian.

NYKTERICYSTA subgenus **HAILAERA** Wan Chuanbiao and Zhang Ying, 1990, p.9–10,13. Emendation: Mao Shaozhi et al., 1999, p.154. Wan Chuanbiao and Zhang Ying (1990, p.9–10,13) included the following species in this subgenus: *Nyctericysta aspera*, *Nyctericysta hailaerensis* and *Nyctericysta nebulosa*. This subgenus was also used by He Chengquan et al. (2009, p.297–298). Type: Wan Chuanbiao and Zhang Ying, 1990, pl.2, fig.6, as *Nyctericysta (Hailaera) hailaerensis*.

NYKTERICYSTA subgenus **HASTODINIUM** Wan Chuanbiao and Zhang Ying, 1990, p.8,13. Emendation: Mao Shaozhi et al., 1999, p.154. Wan Chuanbiao and Zhang Ying (1990, p.8–9,13) included the following species in this subgenus: *Nyctericysta beierensis* and *Nyctericysta ramiformis*. This subgenus was also used by He Chengquan et al. (2009, p.298–299). Type: Wan Chuanbiao and Zhang Ying, 1990, pl.1, fig.4, as *Nyctericysta (Hastodinium) beierensis*.

NYKTERICYSTA subgenus **NYKTERICYSTA**. Autonym. Emendation: Mao Shaozhi et al., 1999, p.152. Wan Chuanbiao and Zhang Ying (1990, p.7,13) included the following species in this subgenus: *Nyctericysta arachnion*, *Nyctericysta davisii*, *Nyctericysta pentagonum* and *Nyctericysta reticulata*. Mao Shaozhi et al. (1999, p.152) additionally included *Nyctericysta puyangensis*. This subgenus was also used by He Chengquan et al. (2009, p.299–301). Type: Bint, 1986, pl.4, figs.1–2,5–6; text-figs.3A–B, as *Nyctericysta davisii*.

"**OBLIQUIPITHONELLA**" Keupp in Keupp and Mutterlose, 1984, p.158. Calcareous dinoflagellate genus (see Elbrächter et al., 2008, p.1300). **Taxonomic senior synonym:** *Pirumella*, according to Streng et al. (2004, p.482), who included the type of *Obliquipithonella* in *Pirumella*; see also Fensome and Williams (2004, p.461). Although the "type species", *Obliquipithonella multistrata*, was not validly transferred to *Obliquipithonella* by Keupp in Keupp and Mutterlose (1984, p.158), the generic name *Obliquipithonella* was validly published, since it is based on a previously validly published species name, *Pithonella multistrata*. Type: Pflaumann and Krasheninnikov, 1978, pl.7, figs.3a–f, as *Pithonella multistrata*.

"*albiensis*" Keupp and Kowalski, 1992, p.222–223, pl.8, figs.13–15. Holotype: Keupp and Kowalski, 1992, pl.8, fig.13. **NOW** *Pirumella*. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: middle to late Albian.

"*amplicrostallina*" (Pflaumann and Krasheninnikov, 1978, p.820, pl.3, figs.4a–c,5a–d,6a–d (not 7a–d) Lentin and Williams, 1985, p.380. Holotype: Pflaumann and Krasheninnikov, 1978, pl.3, figs.5a–c. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Maastrichtian.

"*bassriverensis*" (Olsson and Youssefnia, 1979, p.1090, pl.1, figs.13–16) Lentin and Williams, 1985, p.380. Holotype: Olsson and Youssefnia, 1979, pl.1, fig.16. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Cenomanian.

"bilamellata" (Pflaumann and Krasheninnikov, 1978, p.822, pl.5, figs.5,6a–d; pl.6, figs.1a–b,2a–b) Lentin and Williams, 1985, p.380. Holotype: Pflaumann and Krasheninnikov, 1978, pl.5, figs.6a–d. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Campanian–early Maastrichtian.

"carteri" (Bolli, 1974, p.852, pl.1, figs.1–4; pl.8, figs.1–3; pl.21, fig.1) Lentin and Williams, 1985, p.380. Holotype: Bolli, 1974, pl.1, figs.1–2; pl.21, fig.1. **NOW** *Pirumella multistrata* forma *carteri*. Originally *Pithonella carteri*, subsequently *Obliquipithonella carteri*, thirdly *Pirumella carteri*, fourthly *Obliquipithonella multistrata* forma *carteri*, fifthly (and now) *Pirumella multistrata* forma *carteri*. Taxonomic senior synonym: *Pithonella* (now *Pirumella*) *multistrata*, according to Keupp (1992a, p.500) — however, Kohring (1993a, p.65) retained *Pithonella carteri* (as *Obliquipithonella multistrata* forma *carteri*). Taxonomic junior synonym (at specific rank): *Pithonella woodburyensis*, according to Kohring (1993a, p.65) — however, *Pithonella woodburyensis* is now considered a taxonomic junior synonym of *Pithonella* (now *Pirumella*) *tanyphloia*. Age: Tithonian.

"cookii" (Bolli, 1974, p.856, pl.6, figs.9–12; pl.18, figs.3–9; pl.23, fig.6) Lentin and Williams, 1985, p.380. Holotype: Bolli, 1974, pl.6, fig.9; pl.23, fig.6. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly *Orthopithonella* (combination not validly published), fourthly (and now) *Pirumella*. Age: Coniacian–Santonian.

"cumulosa" Zügel, 1994, p.73–74, pl.16, figs.14–15. Holotype: Zügel, 1994, pl.16, fig.14. **NOW** *Pirumella*. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: late Cenomanian.

"cylindrica" (Pflaumann and Krasheninnikov, 1978, p.822, pl.5, figs.1a–c,2a–b,3a–c,4a–c) Lentin and Williams, 1985, p.380. Holotype: Pflaumann and Krasheninnikov, 1978, pl.5, figs.4a–c. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Campanian–Maastrichtian.

"echinosa" (Keupp, 1982, p.331–332, pl.6.2–7, figs.10–12; pl.6.2–8, figs.1–2) Lentin and Williams, 1985, p.380. Holotype: Keupp, 1982, pl.6.2–7, figs.11–12; pl.6.2–8, fig.2. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Willems (1988, p.456) also proposed this combination. Age: early Albian.

"edgarii" (Bolli, 1974, p.854, pl.4, figs.1–4; pl.13, figs.3–7; pl.22, fig.4) Lentin and Williams, 1985, p.380. Holotype: Bolli, 1974, pl.4, figs.1–2; pl.13, fig.3; pl.22, fig.4. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Taxonomic junior synonym: *Pithonella titanoplax*, according to Keupp (1981, p.64) — however, Kohring (1993a, p.74) retained *Pithonella* (as *Obliquipithonella*, now *Pirumella*) *titanoplax*. Age: Albian.

"fragilis" Hildebrand-Habel and Willems, 1997, p.183, pl.2, fig.7 ex Hildebrand-Habel and Willems 2004, p.183,185. Holotype: Hildebrand-Habel and Willems, 1997, pl.2, fig.7, as *Obliquipithonella fragilis* and Hildebrand-Habel and Willems, 2004, pl.1, figs.1–3. **Name not validly published**, since it was used in anticipation of future acceptance (I.C.N. Article 36.1b). **NOW** *Pirumella*. Originally *Obliquipithonella* (name not validly published), subsequently (and now) *Pirumella*. Hildebrand-Habel and Willems (1997, p.183) referred this name to a submitted manuscript. Age: middle Coniacian–early Santonian.

"fusiformis" (Rögl, 1976, p.702, pl.1, figs.12–14; pl.2, figs.9–12) Lentin and Williams, 1985, p.380. Holotype: Rögl, 1976, pl.1, fig.12; pl.2, figs.9–10. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Danian.

"globosa" (Fütterer, 1984, p.536, pl.2, figs.1–9) Fütterer, 1990, p.541. Holotype: Fütterer, 1984, pl.2, figs.1–3. **NOW** *Orthopithonella*?. Originally *Pithonella*, subsequently *Orthopithonella*, thirdly *Obliquipithonella*, fourthly (and now) *Orthopithonella*?. Age: middle Maastrichtian–early Danian.

"granifera" (Fütterer, 1978, p.715, pl.2, figs.1–12) Kohring, 1993a, p.71. Emendation: Janofske and Karwath, 2000, p.107–108, as *Leonella granifera*. Holotype: Fütterer, 1978, pl.2, figs.1,4,7. **NOW** *Leonella*. Originally *Thoracosphaera*, subsequently *Obliquipithonella*, thirdly *Orthopithonella*, fourthly (and now) *Leonella*. Age: late Pliocene–Pleistocene.

"*guttula*" (Pflaumann and Krasheninnikov, 1978, p.821–822, pl.8, figs.1a–e,2a–c,3a–b,4a–b) Lentin and Williams, 1985, p.380. Holotype: Pflaumann and Krasheninnikov, 1978, pl.8, figs.1a–e. Originally *Pithonella*, subsequently *Obliquipithonella*. **Taxonomic senior synonym:** *Pithonella* (now *Pirumella*) *thayeri*, according to Keupp (1981, p.43–44). Age: Valanginian–Hauterivian.

"*heirtzleri*" (Bolli, 1974, p.855, pl.5, figs.5–8; pl.15, figs.7–12; pl.16, figs.1–4; pl.23, fig.2) Lentin and Williams, 1985, p.380. Holotype: Bolli, 1974, pl.5, fig.5; pl.23, fig.2. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Albian.

"*hystrichosphaeroidea*" Zügel, 1994, p.76, pl.18, figs.1–6. Holotype: Zügel, 1994, pl.18, figs.1–2. **NOW** *Pirumella*. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: late Cenomanian.

"*irregularis*" Akselman and Keupp, 1990, p.172–173,175–178, pl.1, figs.1–19; text-fig.2. Holotype: Akselman and Keupp, 1990, pl.1, fig.3. **NOW** *Pirumella*. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Motile equivalent: *Scrippsiella patagonica* Akselman and Keupp, 1990, according to Akselman and Keupp (1990, p.169). Contrary to the opinion of Lentin and Williams (1993, p.452), the name *Obliquipithonella irregularis* can be considered legitimate, since Akselman and Keupp (1990) did not explicitly include the type of *Scrippsiella patagonica* in synonymy (I.C.N. Article 52.2e). Age: extant.

"*johnstonei*" (Bolli, 1974, p.856, pl.6, figs.5–8; pl.18, figs.1–2; pl.23, fig.5) Lentin and Williams, 1985, p.380. Holotype: Bolli, 1974, pl.6, figs.5–6; pl.18, fig.1; pl.23, fig.5. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Taxonomic senior synonym: *Thoracosphaera* (now *Orthopithonella*) *deflandrei*, according to Kohring (1993a, p.30) — however, Streng et al. (2004, p.482) retained *Pithonella* (as *Pirumella*) *johnstonei*. Age: Coniacian–Santonian.

"*krasheninnikovii*" (Bolli, 1974, p.856, pl.7, figs.1–5; pl.18, figs.10–12; pl.19, figs.1–12; pl.20, figs.1–4; pl.24, figs.1–2) Lentin and Williams, 1985, p.381. Holotype: Bolli, 1974, pl.7, figs.1–2; pl.18, fig.10; pl.24, fig.1. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Coniacian–Santonian.

"*labyrinthica*" Zügel, 1994, p.75, pl.17, figs.10–15. Holotype: Zügel, 1994, pl.17, figs.10–12. **NOW** *Pirumella*. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: middle Cenomanian.

"*laquaeta*" Keupp and Mutterlose, 1994, p.755, figs.9.6–9.8. Holotype: Keupp and Mutterlose, 1994, fig.9.7. **NOW** *Pirumella*. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: early Aptian.

"*lepidota*" (Keupp, 1982, p.330–331, pl.6.2–7, figs.2–7) Lentin and Williams, 1985, p.381. Holotype: Keupp, 1982, pl.6.2–7, figs.2,7. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: late Aptian–early Albian.

"*loeblichii*" (Bolli, 1974, p.853–854; pl.3, figs.1–4; pl.11, figs.9–12; pl.12, figs.1–3; pl.22, fig.1) Lentin and Williams, 1985, p.381. Holotype: Bolli, 1974, pl.3, figs.1–2; pl.11, figs.9–10; pl.22, fig.1. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Taxonomic senior synonym: *Pithonella helentappaniae*, according to Keupp (1979c, p.23) — however, Keupp (1981, p.60) retained *Pithonella loeblichii*. Taxonomic junior synonyms: *Pithonella bollii*, *Pithonella megalithica* and *Pithonella nonarenziae*, all according to Keupp (1981, p.60) — however, Zügel (1994, p.66) retained *Pithonella* (as *Obliquipithonella*, now *Pirumella*) *nonarenziae*. Age: ?late Aptian–middle Albian.

"*longiporosa*" (Pflaumann and Krasheninnikov, 1978, p.820, pl.2, figs.1a–c,2a–c,3a–b) Lentin and Williams, 1985, p.381. Holotype: Pflaumann and Krasheninnikov, 1978, pl.2, figs.1a–c. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: latest Albian–Cenomanian.

"*loricata*" (Krasheninnikov and Basov, 1983, p.982, pl.3, figs.1–7) Lentin and Williams, 1985, p.381. Holotype: Krasheninnikov and Basov, 1983, pl.3, figs.1,4. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Albian.

"*mcnighii*" (Bolli, 1974, p.852–853, pl.1, figs.5–8; pl.8, figs.4–8; pl.21, fig.2) Lentin and Williams, 1985, p.381. Holotype: Bolli, 1974, pl.1, figs.5–6; pl.8, fig.4; pl.21, fig.2. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Tithonian.

"*microspinosa*" Zügel, 1994, p.74–75, pl.17, figs.1–8. Holotype: Zügel, 1994, pl.17, figs.1–2. **NOW** *Pirumella*. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: early Cenomanian.

"*miniaperta*" (Krasheninnikov and Basov, 1983, p.983, pl.5, figs.1–8) Lentin and Williams, 1985, p.381. Holotype: Krasheninnikov and Basov, 1983, pl.5, figs.1,7. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Albian.

"**multistrata*" (Pflaumann and Krasheninnikov, 1978, p.821, pl.7, figs.3a–f,4a–b,5a–b,6a–b) Lentin and Williams, 1985, p.381. Holotype: Pflaumann and Krasheninnikov, 1978, pl.7, figs.3a–f. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Taxonomic junior synonyms: *Pithonella atlantica*, *Pithonella excentrica* and *Pithonella hannoverana*, all according to Keupp (1981, p.29–30) — however, Kohring (1993a, p.66) retained *Pithonella excentrica* (as *Obliquipithonella multistrata* forma *excentrica*). Age: Valanginian–Barremian.

"forma *carteri*" (Bolli, 1974, p.852, pl.1, figs.1–4; pl.8, figs.1–3, pl.21, fig.1) Kohring, 1993a, p.65. Holotype: Bolli, 1974, pl.1, figs.1–2; pl.21, fig.1. **NOW** *Pirumella multistrata* forma *carteri*. Originally *Pithonella carteri*, subsequently *Obliquipithonella carteri*, thirdly *Pirumella carteri*, fourthly *Obliquipithonella multistrata* forma *carteri*, fifthly (and now) *Pirumella multistrata* forma *carteri*. Taxonomic senior synonym (at specific rank): *Pithonella* (now *Pirumella*) *multistrata*, according to Keupp (1992a, p.500) — however, Kohring (1993a, p.65) retained *Pithonella carteri* (as *Obliquipithonella multistrata* forma *carteri*). Taxonomic junior synonym (at specific rank): *Pithonella woodburyensis*, according to Kohring (1993a, p.65) — however, *Pithonella woodburyensis* is now considered a taxonomic junior synonym of *Pithonella* (now *Pirumella*) *tanyphloia*. Age: Tithonian.

"forma *continga*" Kohring, 1993a, p.69–70, pl.30, figs.a–p. Holotype: Kohring, 1993a, pl.30, figs.a,c,e. **NOW** *Pirumella multistrata* forma *continga*. Originally *Obliquipithonella multistrata* forma *continga*, subsequently (and now) *Pirumella multistrata* forma *continga*. Age: middle Oligocene.

"forma *excentrica*" (Keupp, 1979c, p.660, pl.6, figs.6–12) Kohring, 1993a, p.66. Holotype: Keupp, 1979c, pl.6, figs.7–8,11. **NOW** *Pirumella multistrata* forma *excentrica*. Originally *Pithonella excentrica*, subsequently *Obliquipithonella multistrata* forma *excentrica*, thirdly (and now) *Pirumella multistrata* forma *excentrica*. Taxonomic senior synonym: *Pithonella* (now *Pirumella*) *multistrata*, according to Keupp (1981, p.30) — however, Kohring (1993a, p.66) retained *Pithonella excentrica* (as *Obliquipithonella multistrata* forma *excentrica*). Monnet (1993, p.33) also proposed this combination. Age: late Hauterivian.

"forma *multistrata*". Autonym. Holotype: Pflaumann and Krasheninnikov, 1978, pl.7, figs.3a–f. **NOW** *Pirumella multistrata* forma *multistrata*. Originally *Obliquipithonella multistrata* forma *multistrata*, subsequently (and now) *Pirumella multistrata* forma *multistrata*.

"forma *patriciagreeleyae*" (Bolli, 1974, p.853, pl.2, figs.9–12; pl.11, figs.1–8; pl.21, fig.6) Kohring, 1993a, p.67. Holotype: Bolli, 1974, pl.2, figs.9–10; pl.21, fig.6. **NOW** *Pirumella multistrata* forma *patriciagreeleyae*. Originally *Pithonella patriciagreeleyae*, subsequently *Obliquipithonella patriciagreeleyae*, thirdly *Pirumella patriciagreeleyae*, fourthly *Obliquipithonella multistrata* forma *patriciagreeleyae*, fifthly (and now) *Pirumella multistrata* forma *patriciagreeleyae*. Taxonomic junior synonym: *Pithonella francadecimae*, according to Keupp (1981, p.41). Age: Barremian–Albian.

"*nonarenziae*" (Bolli, 1974, p.853, pl.2, figs.5–8; pl.10, figs.9–12; pl.21, fig.5) Zügel, 1994, p.66. Holotype: Bolli, 1974, pl.2, fig.5; pl.21, fig.5. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Taxonomic senior synonym: *Pithonella* (now *Pirumella*) *loeblichii*, according to Keupp (1981,

p.60) — however, Zügel (1994, p.66) retained *Pithonella* (as *Obliquipithonella*, now *Pirumella*) *nonarenziae*. Taxonomic junior synonym: *Pithonella sheilasantawae*, according to Zügel (1994, p.66). Age: Barremian–Albian.

"*operculata*" (Bramlette and Martini, 1964, p.305–306, pl.5, figs.3–7) Fütterer, 1990, p.540. Holotype: Bramlette and Martini, 1964, pl.5, figs.4–5. **NOW** *Cervisiella*. Originally *Thoracosphaera*, subsequently *Obliquipithonella*, thirdly *Pirumella*, fourthly *Operculodinella*, fifthly (and now) *Cervisiella*. Taxonomic junior synonym: *Thoracosphaera atlantica*, according to Fütterer (1990, p.540). Age: Maastrichtian–Paleocene.

"*ossis*" Kienel, 1994, p.45–46, pl.8, figs.7–15. Holotype: Kienel, 1994, pl.8, figs.7–10. **NOW** *Pirumella*. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. N.I.A. Age: Danian.

"*pachystrata*" Zügel, 1994, p.37–38, pl.5, figs.1–12. Holotype: Zügel, 1994, pl.5, figs.1–3. **NOW** *Pirumella*. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: late Cenomanian.

"*paradoxa*" Keupp, 1991b, p.132, pl.3, figs.7–12. Holotype: Keupp, 1991b, pl.3, figs.7–9. **NOW** *Pirumella*. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: late Cenomanian.

"*parva*" (Fütterer, 1984, p.536–537, pl.3, figs.1–10; pl.4, figs.8–9) Lentin and Williams, 1985, p.381. Holotype: Fütterer, 1984, pl.3, figs.3,6,10. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Fütterer (1990, p.541) also proposed this combination. Age: Danian–early Pleistocene.

"*patriciagreeleyae*" (Bolli, 1974, p.853, pl.2, figs.9–12; pl.11, figs.1–8; pl.21, fig.6) Lentin and Williams, 1985, p.381. Holotype: Bolli, 1974, pl.2, figs.9–10; pl.21, fig.6. **NOW** *Pirumella multistrata* forma *patriciagreeleyae*. Originally *Pithonella patriciagreeleyae*, subsequently *Obliquipithonella patriciagreeleyae*, thirdly *Pirumella patriciagreeleyae*, fourthly *Obliquipithonella multistrata* forma *patriciagreeleyae*, fifthly (and now) *Pirumella multistrata* forma *patriciagreeleyae*. Taxonomic junior synonym: *Pithonella francadecimae*, according to Keupp (1981, p.41). Age: Barremian–Albian.

"subsp. *ovata*" (Keupp, 1979a, p.32, pl.6, fig.10; pl.7, figs.1–3) Lentin and Williams, 1985, p.382. Holotype: Keupp, 1979a, pl.7, figs.1–2. Originally *Pithonella patriciagreeleyae* subsp. *ovata*, subsequently *Obliquipithonella patriciagreeleyae* subsp. *ovata*, thirdly *Pirumella patriciagreeleyae* subsp. *ovata*. **Taxonomic senior synonym** (at specific rank): *Pithonella sliteri*, according to Keupp (1982, p.334). Age: early Barremian.

"subsp. *patriciagreeleyae*". Autonym. Holotype: Bolli, 1974, pl.2, figs.9–10; pl.21, fig.6. **Now redundant**. Originally *Pithonella patriciagreeleyae* subsp. *patriciagreeleyae*, subsequently *Obliquipithonella patriciagreeleyae* subsp. *patriciagreeleyae*, thirdly *Pirumella patriciagreeleyae* subsp. *patriciagreeleyae*.

"*pinguis*" Keupp and Ilg, 1989, p.173, pl.11, figs.1–6. Holotype: Keupp and Ilg, 1989, pl.11, figs.1–2. **NOW** *Pirumella*. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: early-middle Oxfordian.

"*piriformis*" (Keupp, 1977, p.66–67, pl.23, figs.1–5; text-fig.7) Lentin and Williams, 1985, p.382. Holotype: information not available. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Tithonian.

"*porosa*" (Pflaumann and Krasheninnikov, 1978, p.820, pl.2, figs.4a–b,5a–c,6a–b,7; pl.3, figs.1a–b,2a–b,3) Lentin and Williams, 1985, p.382. Holotype: Pflaumann and Krasheninnikov, 1978, pl.2, figs.4a–b. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Albian–Cenomanian.

"forma *obturata*" (Pflaumann and Krasheninnikov, 1978, p.820, pl.3, figs.1a–b,2a–b,3) Lentin and Williams, 1985, p.382. Holotype: Pflaumann and Krasheninnikov, 1978, pl.3, figs.1a–b. **NOW** *Pirumella porosa* subsp. *obturata*. Originally *Pithonella porosa* forma *obturata*, subsequently *Obliquipithonella porosa* forma *obturata*, thirdly (and now) *Pirumella porosa* subsp. *obturata*. Age: latest Albian–Cenomanian.

- "forma *porosa*". Autonym. Holotype: Pflaumann and Krasheninnikov, 1978, pl.2, figs.4a–b. **Now redundant.** Originally *Pithonella porosa* forma *porosa*, subsequently *Obliquipithonella porosa* forma *porosa*.
- "*prasina*" Janofske, 1992, p.14, pl.4, figs.1a–h; pl.5, figs.1a–h,2a–c; pl.6, figs.1a–f,2a–d; pl.19, figs.4–5. Holotype: Janofske, 1992, pl.4, figs.1a–h; pl.19, fig.5. **NOW** *Pirumella*. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: Carnian.
- "*quiltyi*" (Bolli, 1974, p.855–856, pl.6, figs.1–4; pl.17, figs.1–12; pl.23, fig.4) Lentin and Williams, 1985, p.382. Holotype: Bolli, 1974, pl.6, fig.1; pl.23, fig.4. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Albian.
- "*rhombica*" Janofske, 1987, p.50, pl.1, fig.5. Holotype: Janofske, 1987, pl.1, fig.5. **NOW** *Pirumella*. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: Rhaetian.
- "*robinsonii*" (Bolli, 1974, p.854, pl.4, figs.5–8; pl.13, figs.8–12; pl.14, figs.1–3; pl.22, fig.5) Lentin and Williams, 1985, p.382. Holotype: Bolli, 1974, pl.4, figs.5–6; pl.13, figs.8–9; pl.22, fig.5. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Taxonomic junior synonym: *Pithonella trilamellata*, according to Keupp (1982, p.325). Age: Albian.
- "subsp. *coalita*" (Keupp, 1979a, p.27, pl.4, figs.9–10) Lentin and Williams, 1985, p.382. Holotype: Keupp, 1979a, pl.4, figs.9–10. **NOW** *Pirumella robinsonii* subsp. *coalita*. Originally *Pithonella robinsonii* subsp. *coalita*, subsequently *Obliquipithonella robinsonii* subsp. *coalita*, thirdly (and now) *Pirumella robinsonii* subsp. *coalita*. Age: early Barremian.
- "subsp. *robinsonii*". Autonym. Holotype: Bolli, 1974, pl.4, figs.5–6; pl.13, figs.8–9; pl.22, fig.5. **NOW** *Pirumella robinsonii* subsp. *robinsonii*. Originally *Pithonella robinsonii* subsp. *robinsonii*, subsequently *Obliquipithonella robinsonii* subsp. *robinsonii*, thirdly (and now) *Pirumella robinsonii* subsp. *robinsonii*.
- "*rockeri*" (Bolli, 1974, p.854, pl.3, figs.5–8; pl.12, figs.4–6; pl.22, fig.2) Lentin and Williams, 1985, p.382. Holotype: Bolli, 1974, pl.3, fig.5; pl.22, fig.2. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: ?late Aptian–middle Albian.
- "*saxea*" (Stradner, 1961, p.84, fig.71) Kohring, 1997, p.155. Holotype: Stradner, 1961, fig.71. **Combination not validly published:** basionym not fully referenced. **NOW** *Cervisiella*. Originally *Thoracosphaera*, subsequently *Obliquipithonella* (combination not validly published), thirdly *Pirumella*, fourthly (and now) *Cervisiella*. This combination was not validly published in Keupp (1987, p.51) and Kienel (1994, p.46), since these authors did not fully reference the basionym. Age: Danian.
- "*scobidota*" Zügel, 1994, p.70, pl.15, figs.13–15. Holotype: Zügel, 1994, pl.15, figs.13–15. **NOW** *Pirumella*. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: late Cenomanian.
- "*sheilasantawae*" (Bolli, 1974, p.854–855, pl.4, figs.9–12; pl.14, figs.4–9; pl.22, fig.6) Lentin and Williams, 1985, p.382. Holotype: Bolli, 1974, pl.4, figs.9–10; pl.14, figs.7–8; pl.22, fig.6. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly *Pirumella*. **Taxonomic senior synonym:** *Pithonella* (now *Pirumella*) *nonarenziae*, according to Zügel (1994, p.66). Taxonomic junior synonym: *Thoracosphaera thoracata*, according to Keupp (1981, p.63). Age: Albian.
- "*sicelis*" Kohring, 1993b, p.17, pl.2, figs.10–15. Holotype: Kohring, 1993b, pl.2, figs.10–11. **NOW** *Pirumella*. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: early Pliocene.
- "*sliteri*" (Bolli, 1980, p.528, pl.5, figs.1–12; pl.6, figs.1–6) Lentin and Williams, 1985, p.382. Holotype: Bolli, 1980, pl.5, figs.1–2. **NOW** *Pirumella*. Originally (and now) *Pirumella*, subsequently *Pithonella*, thirdly *Obliquipithonella*. Taxonomic junior synonym (at specific rank): *Pithonella* (subsequently *Pirumella*) *patriciagreeleyae* subsp. *ovata*, according to Keupp (1982, p.334). Age: late Hauterivian.

"*spathulata*" Keupp and Ilg, 1989, p.172–173, pl.8, fig.15; pl.9, figs.1–15. Holotype: Keupp and Ilg, 1989, pl.9, figs.1–3. **NOW** *Pirumella*. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: late Callovian–early Oxfordian.

"*sphenifera*" Keupp, 1987, p.52, pl.19, figs.7–12. Holotype: Keupp, 1987, pl.19, figs.7–8. **NOW** *Pirumella*. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: middle Albian–early Cenomanian.

"*spinosa*" (Keupp, 1979a, p.17–18, pl.1, fig.6) Lentin and Williams, 1985, p.382. Holotype: Keupp, 1979a, pl.1, fig.6. **NOW** *Pirumella*. Originally *Thoracosphaera*, subsequently *Pithonella*, thirdly *Obliquipithonella*, fourthly (and now) *Pirumella*. Age: early Barremian.

"*squalida*" (Krasheninnikov and Basov, 1983, p.982, pl.4, figs.1–8) Lentin and Williams, 1985, p.383. Holotype: Krasheninnikov and Basov, 1983, pl.4, figs.3–4,6. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: earliest late Cenomanian.

"*squamosa*" (Krasheninnikov and Basov, 1983, p.983, pl.6, figs.1–6) Lentin and Williams, 1985, p.383. Holotype: Krasheninnikov and Basov, 1983, pl.6, figs.3,5. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Junior homonym: *Obliquipithonella squamosa* Zügel, 1994. Age: Albian.

"*squamosa*" Zügel, 1994, p.72–73, pl.16, figs.10–13. Holotype: Zügel, 1994, pl.16, fig.10. **Name illegitimate — senior homonym:** *Obliquipithonella squamosa* (Krasheninnikov and Basov, 1983) Lentin and Williams, 1985. **Substitute name:** *Pirumella zuegelii*. Originally *Obliquipithonella squamosa* (name illegitimate), subsequently (and now) *Pirumella zuegelii*. Age: late Cenomanian.

"*stellata*" Zügel, 1994, p.40, pl.6, figs.4–6. Holotype: Zügel, 1994, pl.6, figs.4–5. **NOW** *Pirumella*. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: late Cenomanian.

"*strobila*" (Keupp, 1979a, p.18, pl.2, figs.1–3) Lentin and Williams, 1985, p.383. Holotype: Keupp, 1979a, pl.2, figs.1–2. **NOW** *Pirumella*. Originally *Thoracosphaera*, subsequently *Pithonella*, thirdly *Obliquipithonella*, fourthly (and now) *Pirumella*. Age: early Barremian.

"*tanyphloia*" (Keupp, 1979a, p.29–30, pl.6, figs.1–8) Lentin and Williams, 1985, p.383. Holotype: Keupp, 1979a, pl.6, figs.1–3. **NOW** *Pirumella multistrata* forma *tanyphloia*. Originally *Pithonella tanyphloia*, subsequently *Obliquipithonella tanyphloia*, thirdly *Pirumella tanyphloia*, fourthly (and now) *Pirumella multistrata* forma *tanyphloia*. Taxonomic junior synonym: *Pithonella woodburyensis*, according to Keupp (1981, p.36–38). Age: early Barremian.

"*thayeri*" (Bolli, 1974, p.853, pl.1, figs.9–12; pl.8, figs.9–12; pl.9, figs.1–12; pl.21, fig.3) Lentin and Williams, 1985, p.383. Holotype: Bolli, 1974, pl.1, fig.9; pl.21, fig.3. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Taxonomic junior synonyms: *Pirumella edithvincentiae*, *Pithonella guttula*, *Pithonella helentappanae* and *Pithonella oviformis*, all according to Keupp (1981, p.43–44). Age: Oxfordian–Tithonian.

"*titanoplax*" (Rögl, 1976, p.701–702, pl.1, figs.5–9; pl.2, figs.5–8) Kohring, 1993a, p.74. Holotype: Rögl, 1976, pl.1, fig.5; pl.2, figs.5–6. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Taxonomic senior synonym: *Pithonella* (now *Pirumella*) *edgarii*, according to Keupp (1981, p.64) — however, Kohring (1993a, p.74) retained *Obliquipithonella titanoplax*. Age: Danian.

"*toichohadra*" Keupp, 1995, p.162–163, pl.7, figs.7–9. Holotype: Keupp and Kowalski, 1992, pl.8, fig.8, as *Obliquipithonella* sp. cf. *williamsenii*. **NOW** *Pirumella*. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: Albian.

"*transitoria*" (Krasheninnikov and Basov, 1983, p.983, pl.7, figs.1–6) Lentin and Williams, 1985, p.383. Holotype: Krasheninnikov and Basov, 1983, pl.7, figs.1,6. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Campanian.

"*trilamellata*" (Pflaumann and Krasheninnikov, 1978, p.821, pl.6, figs.3a–c,4a–b,5a–c,7a–b; pl.7, figs.1a–c,2) Lentin and Williams, 1985, p.383. Holotype: Pflaumann and Krasheninnikov, 1978, pl.6, figs.3a–c. Originally *Pithonella*, subsequently *Obliquipithonella*. **Taxonomic senior synonym:** *Pithonella* (now *Pirumella*) *robinsonii*, according to Keupp (1982, p.325). Age: Valanginian to ?Aptian–Albian.

"*usheri*" (Krasheninnikov and Basov, 1983, p.983, pl.7, figs.7–9; pl.8, figs.1–2) Lentin and Williams, 1989, p.400. Holotype: Krasheninnikov and Basov, 1983, pl.7, fig.7; pl.8, fig.1. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Maastrichtian.

"*williamsonii*" (Bolli, 1978b, p.912–913, pl.2, figs.1–12; pl.3, figs.1–12) Lentin and Williams, 1985, p.383. Holotype: Bolli, 1978b, pl.2, figs.1–3. **NOW** *Pirumella*. Originally *Bonetocardiella*, subsequently *Pithonella*, thirdly *Obliquipithonella*, fourthly *Orthopithonella*, fifthly (and now) *Pirumella*. Age: Oxfordian–Kimmeridgian.

OCCISUCYSTA Gitmez, 1970, p.267. Emendation: Jan du Chêne et al., 1986b, p.12–15. Taxonomic junior synonym: *Diacanthum*, according to Below (1981a, p.59) — however, Lentin and Williams (1981, p.80) retained *Diacanthum*. Type: Gitmez, 1970, pl.5, figs.1–2; text-fig.16, as *Occisucysta balios*.

"*aculeata*" (Klement, 1960, p.42, pl.5, figs.6–9; text-fig.21) Below, 1981a, p.60. Holotype: Klement, 1960, pl.5, figs.6–7. **NOW** *Tehamadinium*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly *Acanthaulax*, fourthly *Occisucysta*, fifthly (and now) *Tehamadinium*. Age: early Kimmeridgian.

**balios* Gitmez, 1970, p.267–268, pl.5, figs.1–2; text-fig.16. Emendation: Jan du Chêne et al., 1986b, p.15–16. Holotype: Gitmez, 1970, pl.5, figs.1–2; text-fig.16; Jan du Chêne et al., 1986a, pl.77, figs.1–3; Jan du Chêne et al., 1986b, pl.1, figs.1–3. N.I.A. Age: early Kimmeridgian.

"*brixii*" Below, 1982a, p.29–30,32, pl.2, figs.3a–b,4a–b,5–11,12a–b,13a–b; pl.3, figs.10–17,21; text-figs.5a–d. Emendation: Jan du Chêne et al., 1986b, p.21–22, as *Tehamadinium brixii*. Holotype: Below, 1982a, pl.2, figs.13a–b; Jan du Chêne et al., 1986a, pl.116, figs.1–2; Jan du Chêne et al., 1986b, pl.13, figs.1–4; Fensome et al., 1993a, figs.1–2 — p.987. **NOW** *Tehamadinium*. Originally *Occisucysta*, subsequently (and now) *Tehamadinium*. Below (1982a, p.29) gave the citation "*Occisucysta brixii brixii* n.sp." but did not name any formal varieties of *Occisucysta brixii*. Age: early Valanginian.

"*cornuta*" (Davey, 1974, p.48–49, pl.2, figs.1–5) Below, 1981a, p.60. Holotype: Davey, 1974, pl.2, figs.2–3; Jan du Chêne et al., 1986a, pl.21, figs.8–9. **NOW** *Cribroperidinium?*. Originally *Cribroperidinium*, subsequently *Occisucysta*, thirdly (and now) *Cribroperidinium?*. Age: middle-late Barremian.

"*coummia*" Below, 1981a, p.61, pl.8, figs.6–7; pl.13, figs.10–11. Emendation: Jan du Chêne et al., 1986b, p.22–23, as *Tehamadinium coummia*. Holotype: Below, 1981a, pl.8, fig.6; Jan du Chêne et al., 1986a, pl.118, figs.7–9; Jan du Chêne et al., 1986b, pl.14, figs.1–4; Fensome et al., 1991, figs.1–2 — p.631. **NOW** *Tehamadinium*. Originally *Occisucysta*, subsequently (and now) *Tehamadinium*. Age: Albian.

"*crestata*" Jain, 1977b, p.175, pl.5, figs.63–65. Emendation: Jan du Chêne et al., 1986b, p.23–24, as *Tehamadinium crestata*. Holotype: Jain, 1977b, pl.5, figs.63–65; Jan du Chêne et al., 1986a, pl.118, fig.11; Jan du Chêne et al., 1986b, pl.26, fig.4. **NOW** *Tehamadinium*. Originally *Occisucysta*, subsequently (and now) *Tehamadinium*. Age: early Albian.

duxburyi Jan du Chêne et al., 1986b, p.16–17, pl.4, figs.1–12; pl.5, figs.1–12; pl.6, figs.1–4; pl.7, figs.1–7. Holotype: Jan du Chêne et al., 1986b, pl.4, figs.4–7; Jan du Chêne et al., 1986a, pl.78, fig.4. Age: late Aptian.

?*echinata* Duxbury, 1983, p.51, pl.4, figs.12–13. Emendation: Jan du Chêne et al., 1986b, p.17–18. Holotype: Duxbury, 1983, pl.4, figs.12–13; Jan du Chêne et al., 1986a, pl.77, figs.10–12; Jan du Chêne et al., 1986b, pl.8, figs.1–6. Questionable assignment: Duxbury (1983, p.51). Age: Aptian.

elongata Sun Xuekun and He Chengquan, 1992, p.196,203, pl.1, fig.9; pl.4, fig.1. Holotype: Sun Xuekun and He Chengquan, 1992, pl.1, fig.9. Age: Late Jurassic.

evittii" (Dodekova, 1969, p.14–15, pl.1, figs.1–6; pl.2, figs.1–12; text-figs.Aa–b) Gitmez, 1970, p.269. Emendation: Jan du Chêne et al., 1986b, p.26–27, as *Tehamadinium evittii*. Holotype: Dodekova, 1969, pl.1, figs.1–2; Jan du Chêne et al., 1986a, pl.117, figs.1–2; Jan du Chêne et al., 1986b, pl.20, figs.1–4. **NOW** *Tehamadinium*. Originally *Gonyaulacysta*, subsequently *Occisucysta*, thirdly (and now) *Tehamadinium*. Taxonomic junior synonym: *Diacanthum hollisteri*, according to Below (1982a, p.32–33) — however, Jan du Chêne et al. (1986b, p.122) and Habib and Drugg (1987, p.762–763) retained *Diacanthum hollisteri*. Age: Tithonian.

hinzii Below, 1984, p.636, pl.6, figs.7A–C,8A–B; text-fig.6. Emendation: Jan du Chêne et al., 1986b, p.18–19. Holotype: Below, 1984, pl.6, figs.7A–C; Jan du Chêne et al., 1986a, pl.79, figs.7–9; Jan du Chêne et al., 1986b, pl.10, figs.1–9. Age: middle-late Aptian.

hollisteri" (Habib, 1972, p.376–377, pl.9, figs.1,3; pl.10, fig.1; text-fig.2) Below, 1981a, p.60. Emendation: Habib and Drugg, 1987, p.762, as *Diacanthum hollisteri*. Holotype: Habib, 1972, pl.9, fig.1; Fensome et al., 1995, fig.1 — p.1547. **NOW** *Diacanthum*. Originally (and now) *Diacanthum*, subsequently *Occisucysta*. Taxonomic senior synonym: *Gonyaulacysta* (as and now *Occisucysta*) *evittii*, according to Below (1982a, p.32–33) — however, Jan du Chêne et al. (1986b, p.122) and Habib and Drugg (1987, p.762–763) retained *Diacanthum hollisteri*. Age: ?Valanginian.

mazaganensis" Below, 1984, p.636–637, pl.6, figs.9A–C; pl.7, figs.1A–B; text-fig.7. Emendation: Jan du Chêne et al., 1986b, p.27, as *Tehamadinium mazaganense*. Holotype: Below, 1984, pl.7, figs.1A–B; Jan du Chêne et al., 1986a, pl.117, figs.4–6; Jan du Chêne et al., 1986b, pl.21, figs.1–9. **NOW** *Tehamadinium*. Originally *Occisucysta*, subsequently (and now) *Tehamadinium*. Age: late Albian.

monoheuriskos Gitmez and Sarjeant, 1972, p.221–223, pl.7, figs.10–11; text-fig.21. Emendation: Jan du Chêne et al., 1986b, p.19–20. Holotype: Gitmez and Sarjeant, 1972, pl.7, figs.10–11; text-fig.21; Jan du Chêne et al., 1986a, pl.77, figs.8–9; Jan du Chêne et al., 1986b, pl.1, figs.8–11. Originally *Occisucysta*, subsequently (and now) *Occisucysta*?. Questionable assignment: Jan du Chêne et al. (1986b, p.19–20). N.I.A. Age: early Kimmeridgian.

paucispina" (Eisenack and Cookson, 1960, p.5–6, pl.2, fig.7) Below, 1981a, p.60. Emendation: Jan du Chêne et al., 1986a, p.369, as *Pervosphaeridium paucispinum*. Holotype: Eisenack and Cookson, 1960, pl.2, fig.7; Jan du Chêne et al., 1986a, pl.122, fig.13. **NOW** *Pervosphaeridium*. Originally *Trichodinium*, subsequently *Occisucysta*, thirdly (and now) *Pervosphaeridium*. Age: Albian.

sousensis" Below, 1981a, p.61–62, pl.8, figs.1a–b,2. Emendation: Jan du Chêne et al., 1986b, p.26–27, as *Tehamadinium sousense*. Holotype: Below, 1981a, pl.8, figs.1a–b; Jan du Chêne et al., 1986a, pl.117, figs.7–10; Jan du Chêne et al., 1986b, pl.22, figs.1–5; Fensome et al., 1991, figs.1–5 — p.743. **NOW** *Tehamadinium*. Originally *Occisucysta*, subsequently (and now) *Tehamadinium*. Age: late Aptian.

speetonensis" (Davey, 1974, p.63, pl.7, figs.2–3) Below, 1981a, p.60. Holotype: Davey, 1974, pl.7, figs.2–3; Jan du Chêne et al., 1986a, pl.121, figs.1–2. **NOW** *Trichodinium*. Originally (and now) *Trichodinium*, subsequently *Occisucysta*?. Questionable assignment: Below (1981a, p.60). Age: Barremian.

tentorium Duxbury, 1977, p.44–45, pl.3, figs.8–9; text-fig.16. Emendation: Jan du Chêne et al., 1986b, p.20. Holotype: Duxbury, 1977, pl.3, figs.8–9; Jan du Chêne et al., 1986a, pl.79, figs.1–3; Jan du Chêne et al., 1986b, pl.11, figs.1–5. N.I.A. Age: late Berriasian–early Barremian.

tenuiceras" (Eisenack, 1958a, p.389–391, pl.21, figs.14–15; pl.22, figs.1–3; pl.24, fig.2; text-figs.4a–c,5) Below, 1981a, p.63. Emendations: Sarjeant, 1985a, p.63,65–66, as *Acanthaulax? tenuiceras*; Jan du Chêne et al., 1986b, p.29–30, as *Tehamadinium tenuiceras*. Holotype: Eisenack, 1958a, pl.21, fig.15; Sarjeant, 1985a, pl.6, figs.1–2; text-fig.3; Jan du Chêne et al., 1986a, pl.118, fig.1; Jan du Chêne et al., 1986b, pl.24, fig.5. **NOW** *Cribroperidinium*?. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*?, thirdly *Diacanthum*, fourthly *Occisucysta*, fifthly *Acanthaulax*?, sixthly *Tehamadinium*, seventhly (and now) *Cribroperidinium*?.

Taxonomic junior synonym: *Occisucysta victorii*, according to Pöthe de Baldis and Ramos (1988, p.33). Age: late Barremian–Aptian.

"*thulia*" Davies, 1983, p.19–20, pl.5, figs.1–8,10–12; text-fig.14. Holotype: Davies, 1983, pl.5, figs.10–11. **NOW** *Ctenidodinium*?. Originally *Occisucysta*, subsequently (and now) *Ctenidodinium*?. Age: middle Callovian–Oxfordian.

"*victorii*" Pöthe de Baldis and Ramos, 1983, p.444, pl.3, figs.6,8. Holotype: Pöthe de Baldis and Ramos, 1983, pl.3, figs.6,8; Jan du Chêne et al., 1986a, pl.26, figs.1–2. Originally *Occisucysta*, subsequently *Tehamadinium*. **Taxonomic senior synonym:** *Gonyaulax* (as *Occisucysta*, now *Cribroperidinium*?) *tenuiceras*, according to Pöthe de Baldis and Ramos (1988, p.33). Age: early Aptian.

wierzbowskii Poulsen, 1996, p.67,69, pl.25, figs.1–5; text-figs.21A–B. Holotype: Poulsen, 1996, pl.25, figs.1–3. Age: early Volgian.

OCHETODINIUM Damassa, 1979a, p.830,833. Type: Damassa, 1979a, pl.6, figs.1,5, as *Ochetodinium romanum*.

**romanum* Damassa, 1979a, p.833–834, pl.6, figs.1–12. Holotype: Damassa, 1979a, pl.6, figs.1,5; Fensome et al., 1995, figs.1–2 — p.1747. Age: early-middle Eocene.

taiwanianum Shaw Chenglong, 1999b, p.174, figs.43–44. Holotype: Shaw Chenglong, 1999b, figs.43–44. Age: Eocene.

"*vermiculatum*" Wilson, 1988, p.26–27, pl.16, figs.1–2. Holotype: Wilson, 1988, pl.16, fig.2; Fensome et al., 1996, fig.2 — p.2429. **NOW** *Corrudinium*. Originally *Ochetodinium*, subsequently (and now) *Corrudinium*. Age: early Eocene.

OCTODINIUM Wrenn and Hart, 1988, p.359. Type: Wrenn and Hart, 1988, fig.29, no.5, as *Octodinium askinia*.

**askinia* Wrenn and Hart, 1988, p.359–360, fig.28, nos.1–2,4, fig.29, nos.1–7. Holotype: Wrenn and Hart, 1988, fig.29, no.5; Fensome et al., 1993a, fig.7 — p.941. Age: Eocene.

ODONTOCHITINA Deflandre, 1937b, p.94. Emendations: Davey, 1970, p.354; Bint, 1986, p.138; El Mehdawi, 1998, p.174; Núñez-Betelu and Hills, 1998, p.925–926,928. This name was not validly published in Deflandre (1935, p.234) since no type was designated, a requirement under the I.C.Z.N. at that time. Type: Deflandre, 1937b, pl.18 (al. pl.15), fig.8, as *Odontochitina silicorum*.

ancala Bint, 1986, p.139–140, pl.1, figs.2–8; pl.7, figs.1–2; text-fig.2A. Holotype: Bint, 1986, pl.1, figs.5–6; text-fig.2A. Age: middle-late Albian.

annulata Yu Jingxian and Zhang Wangping, 1980, p.110, pl.3, figs.10–11. Holotype: Yu Jingxian and Zhang Wangping, 1980, pl.3, fig.10. Age: Late Cretaceous.

athabaskensis Pocock, 1962, p.78, pl.14, figs.209–210. Holotype: Pocock, 1962, pl.14, fig.209. Age: Barremian.

"*blastema*" Davey, 1970, p.356, pl.5, figs.4–5. Holotype: Davey, 1970, pl.5, fig.4. **NOW** *Xenascus*. Originally *Odontochitina*, subsequently (and now) *Xenascus*. Taxonomic senior synonym: *Hystrichosphaera* (as *Xenascus*) *ceratioides*, according to Davey and Verdier (1971, p.27) — however, Stover and Helby (1987a, p.128) retained *Odontochitina* (as *Xenascus*) *blastema*. N.I.A. Age: Cenomanian.

costata Alberti, 1961, p.31, pl.6, figs.10–13. Emendation: Clarke and Verdier, 1967, p.58–59. Holotype: Alberti, 1961, pl.6, fig.12. Taxonomic junior synonym: *Odontochitina striatoperforata*, according to Clarke and Verdier (1967, p.58) and Yun Hyesu (1981, p.59). Age: Cenomanian–Turonian.

cribropoda Deflandre and Cookson, 1955, p.292, pl.3, figs.7–11; text-fig.58. Holotype: Deflandre and Cookson, 1955, pl.3, fig.7. Taxonomic junior synonym: *Odontochitina subbaramana*, according to Jain (1977b, p.186). This name was not validly published in Deflandre and Cookson (1954, p.1236), who did not provide a description. Age: Senonian.

diducta Pearce, 2010, p.62,64, pl.6, fig.1. Holotype: Pearce, 2010, pl.6, fig.1. Age: middle Santonian–late Campanian.

grandis Fedorova-Shakhmundes, 1980, p.6, pl.1, fig.3. Holotype: Fedorova-Shakhmundes, 1980, pl.1, fig.3. Age: Cenomanian.

imparilis (Duxbury, 1980, p.127–129, pl.5, figs.2,4–5; text-figs.11A–B) Jain and Khowaja-Ateequzzaman, 1984, p.38. Holotype: Duxbury, 1980, pl.5, figs.4–5; text-fig.11B. Originally *Muderongia*, subsequently *Odontochitina*?, thirdly (and now) *Odontochitina*. Questionable assignment: Jain and Khowaja-Ateequzzaman (1984, p.38) — however, Bint (1986, p.138) included this species in *Odontochitina* without question. Age: middle-late Barremian.

indigena Marshall, 1988, p.198–199, figs.5A–B,11G–S. Holotype: Marshall, 1988, figs.11Q–S; Fensome et al., 1996, figs.11–13 — p.2157. Age: Santonian.

kashiensis He Chengquan, 1991, p.60, pl.6, figs.14–16. Holotype: He Chengquan, 1991, pl.6, fig.14. Age: Turonian.

nuda (Gocht, 1957, p.168, pl.18, figs.3–4,6) Dörhöfer and Davies, 1980, p.39. Holotype: Gocht, 1957, pl.18, fig.3. Originally *Pseudoceratium*?, subsequently (and now) *Odontochitina*. Age: late Hauterivian.

octopus Núñez-Betelu and Hills, 1998, p.928–929, pl.1, figs.1–6. Holotype: Núñez-Betelu and Hills, 1998, pl.1, fig.5. Age: late Coniacian?

+***operculata*** (Wetzel, 1933a, p.170, pl.2, figs.21–22; text-fig.3) Deflandre and Cookson, 1955, p.291–292. Holotype: Wetzel, 1933a, pl.2, fig.21. Originally *Ceratium* subgenus *Euoceratium* (Appendix B), subsequently *Palaeoceratium* subgenus *Euoceratium* (combination not validly published), thirdly *Odontochitina*. Taxonomic junior synonym: *Odontochitina silicorum*, according to Deflandre and Cookson (1955, p.292). The nomenclatural type of the genus *Odontochitina* remains the holotype of *Odontochitina silicorum*. Age: Senonian.

porifera Cookson, 1956, p.188, pl.1, fig.17. Holotype: Cookson, 1956, pl.1, fig.17. Age: Senonian.

rhakodes Bint, 1986, p.140,142,144, pl.1, figs.9–12; pl.2, figs.1–4; pl.7, figs.3–4; text-figs.2B,13A. Holotype: Bint, 1986, pl.1, figs.9–10; text-fig.2B. Age: middle Albian–early Cenomanian.

"****silicorum***" Deflandre, 1937b, p.95, pl.18 (al. pl.15), figs.8–13. Holotype: Deflandre, 1937b, pl.18 (al. pl.15), fig.8. **Taxonomic senior synonym:** *Ceratium* (as *Odontochitina*) *operculata*, according to Deflandre and Cookson (1955, p.292). The nomenclatural type of the genus *Odontochitina* remains the holotype of *Odontochitina silicorum*. This name was not validly published in Deflandre (1935, p.234, caption to pl.9, figs.8–10), since that author did not designate a type, a requirement at that time under the I.C.Z.N. N.I.A. Age: Late Cretaceous.

singhii Morgan, 1980, p.29–30, pl.20, figs.12–15. Holotype: Morgan, 1980, pl.20, figs.12–13. Age: early–late Albian.

spinosa Wilson, 1984c, p.554,556, figs.22–26. Holotype: Wilson, 1984c, figs.22,25–26; Fensome et al., 1996, figs.1,4–5 — p.2373. Age: Maastrichtian.

streelii Slimani, 1996, p.377–378, pl.3, figs.A–C; text-figs.6A–B ex Slimani, 2001b, p.5, pl.2, figs.1–2; pl.3, fig.5. Holotype: Slimani, 1996, pl.3, figs.A–B; Slimani, 2001b, pl.2, figs.1–2. This name was not validly published in Slimani (1996) since no English or Latin description or diagnosis was provided. Age: late Campanian–early Maastrichtian.

"*striatoperforata*" Cookson and Eisenack, 1962b, p.490, pl.3, figs.14–19. Holotype: Cookson and Eisenack, 1962b, pl.3, fig.16. **Taxonomic senior synonym:** *Odontochitina costata*, according to Clarke and Verdier (1967, p.58) and Yun Hyesu (1981, p.59). Age: Albanian–Cenomanian.

"*subbaramana*" Jain and Taugourdeau-Lantz, 1973, p.64–65, pl.4, fig.3. Holotype: Jain and Taugourdeau-Lantz, 1973, pl.4, fig.3. **Taxonomic senior synonym:** *Odontochitina cribropoda*, according to Jain (1977b, p.186). Age: Early Cretaceous.

tabulata El Mehdawi, 1998, p.174,177–178, pl.1, figs.1–8; pl.2, figs.1–6; text-figs.2A–D. Holotype: El Mehdawi, 1998, pl.1, fig.2; text-fig.2B. Age: late Santonian–early Campanian.

"*wetzeli*" Wilson in Foucher in Robaszynski et al., 1985, p.33, pl.10, figs.9–12. **Name not validly published:** no description. **Taxonomic senior synonym:** *Xenascus wetzeli*, according to Slimani (2001a, p.194; 2001b, p.9).

ODONTOCHITINOPSIS Eisenack, 1961, p.298–299,308. Type: Deflandre, 1937b, pl.17 (al. pl.14), figs.2–3, as *Ceratocystidiopsis molesta*.

incerta (Deflandre-Rigaud, 1954, p.59; text-fig.3) Eisenack and Klement, 1964, p.563. Holotype: Deflandre-Rigaud, 1954, text-fig.3. Originally *Ceratocystidiopsis* (Appendix A), subsequently (and now) *Odontochitina*. Lentin and Williams (1981, p.199) retained this species in *Odontochitina*. This combination was not validly published in Eisenack (1961, p.299), since that author did not fully reference the basionym. Age: Late Cretaceous.

**molesta* (Deflandre, 1937b, p.90, pl.17 [al. pl.14], figs.2–3) Eisenack, 1961, p.299. Holotype: Deflandre, 1937b, pl.17 (al. pl.14), figs.2–3. Originally *Ceratocystidiopsis* (Appendix A), subsequently (and now) *Odontochitina*. Age: Senonian.

"**OKERISPHAERIDIUM**" Kunz, 1990, p.22. **Taxonomic senior synonym:** *Dissiliodinium*, according to Feist-Burkhardt and Monteil (2001, p.58). Type: Kunz, 1990, pl.4, figs.11a–b; text-figs.9a–c, as *Okerisphaeridium fragile*.

"**fragile*" Kunz, 1990, p.22–23, pl.4, figs.11a–b,12a–b,13,14a–b,15; text-figs.9a–c. Holotype: Kunz, 1990, pl.4, figs.11a–b; figs.11a–b; text-figs.9a–c. **NOW** *Dissiliodinium*. Originally *Okerisphaeridium*, subsequently (and now) *Dissiliodinium*. Age: late Oxfordian.

OLIGOKOLPOMA Fensome et al., 2009, p.47. Type: Fensome et al., 2009, pl.7, figs.m–o, as *Oligokolpoma tubulus*.

galeottii Pross et al. 2010, p.230, pl. 3, figs.1–10. Holotype: Pross et al. 2010, pl. 3, figs.1–3. Age: Oligocene.

**tubulus* Fensome et al., 2009, p.47, pl.7, figs.m–o,q–t. Holotype: Fensome et al., 2009, pl.7, figs.m–o. N.I.A. Age: youngest occurrence, early Serravallian.

OLIGOSPHAERIDIUM Davey and Williams, 1966b, p.70–71. Emendation: Davey, 1982b, p.13. Original type: White, 1842, pl.4, fig.11, as *Xanthidium tubiferum* var. *complex*. Neotype: Davey and Williams, 1966b, pl.7, fig.1, designated by Davey and Williams (1966b, p.71).

abaculum Davey, 1979a, p.428,430,432–433, pl.48, figs.1–6; pl.49, figs.1–7; pl.50, figs.1,4,10–11; text-figs.1–2. Holotype: Davey, 1979a, pl.49, figs.1,3; Fauconnier and Masure, 2004, pl.56, figs.1–3. Age: Barremian–early Albanian.

abbreviatum Xu Jinli et al., 1997, p.82–83, pl.24, fig.10 ex He Chengquan et al., 2009, p.657. Holotype: Xu Jinli et al., 1997, pl.24, fig.10. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.657) validated the name by publishing an English diagnosis. Age: middle-late Eocene.

albertense (Pocock, 1962, p.82, pl.15, figs.226–227) Davey and Williams, 1969, p.5. Holotype: Pocock, 1962, pl.15, fig.226; Brideaux, 1977, pl.11, figs.3–4; Jansonius, 1986, pl.4, figs.4–5; Fauconnier and Masure, 2004, pl.55, figs.1–6. Originally *Hystrichosphaeridium*, subsequently (and now) *Oligosphaeridium*. Taxonomic junior synonyms: *Hystrichosphaeridium* (as *Oligosphaeridium*) *irregulare*, according to Jansonius (1986, p.213); *Hystrichosphaeridium* (as *Oligosphaeridium*?) *coelenteratum*, *Hystrichosphaeridium* (as *Oligosphaeridium*?) *dispare* and *Hystrichosphaeridium* (as *Oligosphaeridium*) *reniforme*, by implication in Stover and Evitt (1978, p.68–69), who considered these species to be taxonomic junior synonyms of *Hystrichosphaeridium* (as *Oligosphaeridium*) *irregulare*, which is now a taxonomic junior synonym of *Hystrichosphaeridium* (now *Oligosphaeridium*) *albertense*. This combination was not validly published in Davey and Williams (1966b, p.77), since these authors did not fully reference the basionym. Age: Barremian.

anapetum van Mourik et al., 2001, p.241,243, figs.8a–e. Holotype: van Mourik et al., 2001, figs.8a–c. Age: late middle-late Eocene.

"anthophorum" (Cookson and Eisenack, 1958, p.43, pl.11, figs.12–13; text-figs.16–18) Davey, 1969a, p.147. Holotype: Cookson and Eisenack, 1958, pl.11, fig.12; Fauconnier and Masure, 2004, pl.73, figs.5–6. **NOW** *Stiphrosphaeridium*. Originally *Hystrichosphaeridium*, subsequently *Oligosphaeridium*, thirdly *Polystephanephorus*, fourthly *Hystrichosphaerina*, fifthly (and now) *Stiphrosphaeridium*. Taxonomic junior synonym: *Hystrichosphaerina schindewolfii*, according to Davey (1979c, p.65) — however, Lentin and Williams (1981, p.150) retained *Hystrichosphaerina schindewolfii*. This combination was not validly published in Davey and Williams (1966b, p.77), since these authors did not fully reference the basionym. Age: Aptian–Albian.

?asterigerum (Gocht, 1959, p.67, pl.3, fig.1; pl.7, figs.1–4) Davey and Williams, 1969, p.5. Holotype: Gocht, 1959, pl.3, fig.1; Fauconnier and Masure, 2004, pl.57, figs.1–6. Originally *Hystrichosphaeridium*, subsequently (and now) *Oligosphaeridium*?. Taxonomic junior synonym: *Hystrichosphaeridium* (as *Oligosphaeridium*) *vasiformum*, according to Duxbury (1977, p.45) — however, McIntyre and Brideaux (1980, p.21) retained *Hystrichosphaeridium* (as *Oligosphaeridium*) *vasiformum*. Questionable assignment: Davey and Williams (1969, p.5). This combination, as a questionable assignment, was not validly published in Davey and Williams (1966b, p.77), since these authors did not fully reference the basionym. Age: late Valanginian–late Hauterivian.

buciniferum Corradini, 1973, p.142–143, pl.21, figs.2a–b; text-fig.5. Holotype: Corradini, 1973, pl.21, figs.2a–b; text-fig.5. Age: Senonian.

byersense Duane, 1997, p.134–136, pl.3, figs.1–2,4–5; pl.4, figs.1–4; text-figs.5–6. Holotype: Duane, 1997, pl.3, fig.1; text-fig.5. Age: Valanginian.

"cephalum" Sah et al., 1970, p.147, pl.2, figs.22–23. Holotype: Sah et al., 1970, pl.2, fig.22. **Taxonomic senior synonym:** *Xanthidium tubiferum* var. *complex* (as *Oligosphaeridium*) *complex*, according to Lejeune-Carpentier and Sarjeant (1981, p.9) and, Jain (1982, p.52). Fauconnier and Cornu in Fauconnier and Masure (2004, p.403) listed this as a problematic species but apparently accepted the synonymy cited above. Age: Late Cretaceous.

"?coelenteratum" (Tasch in Tasch et al., 1964, p.195, pl.2, fig.11) Davey and Williams, 1969, p.5. Holotype: Tasch et al., 1964, pl.2, fig.11. Originally *Hystrichosphaeridium*, subsequently *Oligosphaeridium*?. **Taxonomic senior synonym:** *Hystrichosphaeridium* (now *Oligosphaeridium*) *albertense*, by implication in Stover and Evitt (1978, p.69), who considered *Hystrichosphaeridium* (subsequently *Oligosphaeridium*) *coelenteratum* to be a taxonomic junior synonym of *Hystrichosphaeridium* (subsequently *Oligosphaeridium*) *irregulare*, which is now a taxonomic junior synonym of *Hystrichosphaeridium* (now *Oligosphaeridium*) *albertense*. Questionable assignment: Davey and Williams (1969, p.5). This combination, as a questionable assignment, was not validly published in Davey and Williams (1966b, p.77), since these authors did not fully reference the basionym. Fauconnier and Cornu in Fauconnier and Masure (2004, p.403) listed this as a problematic species but apparently accepted the synonymy cited above. Age: Albian.

***complex** (White, 1842, p.39, pl.4, fig.11) Davey and Williams, 1966b, p.71–74. Holotype: White, 1842, pl.4, fig.11, lost according to Davey and Williams (1966b, p.74). Neotype: Davey and Williams, 1966b, pl.7, fig.1, designated by Davey and Williams (1966b, p.71). Originally *Xanthidium tubiferum* var. *complex* (Appendix A), subsequently *Xanthidium complex* (Appendix A), thirdly *Hystrichosphaeridium complex*, fourthly (and now) *Oligosphaeridium complex*. Taxonomic junior synonyms: *Hystrichosphaeridium elegantulum*, according to Deflandre (1946b, p.111); *Hystrichosphaeridium himalayense*, according to Jain and Garg (1986b, p.64); *Oligosphaeridium cephalum*, according to Lejeune-Carpentier and Sarjeant (1981, p.9) and Jain (1982, p.52); *Geodia? irregularis*, according to Harker and Sarjeant in Harker et al. (1990, p.59). Srivastava (1995, p.316) indicated that the epithet should be rendered as "*complexum*". In Latin, "complexus" is an adjective derived from the verb "complector" (= to embrace, clasp). White (1842) may have been referring to the process endings in this species, which expand distally and may be imagined to reach out to "clasp", in which case the epithet would indeed be properly rendered as "*complexum*". However, he may have wished to imply the English meaning of the word "complex", believing, incorrectly, that the word also existed in Latin, parallel to Latin words such as "triplex" and "felix", which retain the same ending regardless of gender. Given the uncertainty of White's original intent, and the long-standing stability of the epithet as "*complex*", we prefer to retain the latter spelling, considering it a "fantasy" or "neo-latin name". (We acknowledge discussion with J. Jansonius, upon which the preceding sentences are based.) Age: Senonian.

subsp. **brevispinum** Jain, 1977b, p.182, pl.1, fig.4. Holotype: Jain, 1977b, pl.1, fig.4; Fauconnier and Masure, 2004, pl.55, figs.10–11. Age: Albian.

subsp. **complex**. Autonym. Holotype: White, 1842, pl.4, fig.11, lost according to Davey and Williams (1966b, p.74). Neotype: Davey and Williams, 1966b, pl.7, fig.1, designated by Davey and Williams (1966b, p.71).

dharmpurense Khanna and Singh, 1981b, p.398, fig.2, nos.5–6; text-fig.11. Holotype: Khanna and Singh, 1981b, fig.2, no.5. This name was not validly published in Singh et al. (1979, p.35–36), Khanna (1979, p.217) and Khanna et al. (1981, pl.3, fig.5), since no description was provided. Age: middle Eocene.

"**diastema**" Singh, 1971, p.337, pl.55, figs.4–5; pl.56, figs.1–2. Holotype: Singh, 1971, pl.55, fig.4. **Taxonomic senior synonym:** *Oligosphaeridium totum*, according to Harker and Sarjeant (1975, p.226) and Brideaux and McIntyre (1975, p.29). Fauconnier and Cornu in Fauconnier and Masure (2004, p.403) listed this as a problematic species but apparently accepted the synonymy cited above. N.I.A. Age: late Albian.

"**dictyophorum**" (Cookson and Eisenack, 1958, p.44, pl.11, fig.14) Davey and Williams, 1969, p.5. Holotype: Cookson and Eisenack, 1958, pl.11, fig.14; Fensome et al., 1993a, fig.1 — p.1125. **NOW** *Stiphrosphaeridium*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Oligosphaeridium*, fourthly (and now) *Stiphrosphaeridium*. This combination, as a questionable assignment, was not validly published in Davey and Williams (1966b, p.77), since these authors did not fully reference the basionym. Age: Late Jurassic.

"**dictyostilum**" (Menéndez, 1965, p.11,12, pl.2, fig.6; pl.3, figs.18–22) Eisenack and Kjellström, 1972, p.845. Emendation: Sarjeant, 1981, p.115, as *Areosphaeridium dictyostilum*. Holotype: Menéndez, 1965, pl.2, fig.6; pl.3, figs.18–20. **NOW** *Enneadocysta?*. Originally *Hystrichosphaeridium*, subsequently *Oligosphaeridium?*, thirdly *Areosphaeridium*, fourthly (and now) *Enneadocysta?*. Questionable assignment: Eisenack and Kjellström (1972, p.845). Taxonomic senior synonym: *Hystrichosphaeridium* (as *Areosphaeridium*) *diktyoplokum*, according to Eaton (1971, p.359) — however, Sarjeant (1981, p.115–116) retained *Hystrichosphaeridium* (as *Areosphaeridium*, now *Enneadocysta?*) *dictyostilum*. Taxonomic junior synonyms: *Areosphaeridium* (now *Enneadocysta*) *arcuatum*, according to Sarjeant (1981, p.115–116) — however, Lentin and Williams (1985, p.26) retained *Areosphaeridium* (now *Enneadocysta*) *arcuatum*; *Cordosphaeridium* (as *Areosphaeridium*, now *Cooksonidium*) *capricornum*, according to Sarjeant (1981, p.115–116) — however, Lentin and Williams (1985, p.26) retained *Areosphaeridium* (now *Cooksonidium*) *capricornum*. Age: Tertiary.

diluculum Davey, 1982b, p.14–15, pl.2, figs.1–5. Holotype: Davey, 1982b, pl.2, figs.1–2; Fauconnier and Masure, 2004, pl.58, figs.1–3. Age: late Ryazanian–early Valanginian.

"*dispare*" (Tasch in Tasch et al., 1964, p.195, pl.2, fig.8) Davey and Williams, 1969, p.5. Holotype: Tasch et al., 1964, pl.2, fig.8. Originally *Hystrichosphaeridium*, subsequently *Oligosphaeridium*?. **Taxonomic senior synonym:** *Hystrichosphaeridium* (as *Oligosphaeridium*) *albertense*, by implication in Stover and Evitt (1978, p.69), who considered *Hystrichosphaeridium* (as *Oligosphaeridium*) *dispare* to be a taxonomic junior synonym of *Hystrichosphaeridium* (subsequently *Oligosphaeridium*) *irregulare*, which is now a taxonomic junior synonym of *Hystrichosphaeridium* (now *Oligosphaeridium*) *albertense*. Questionable assignment: Davey and Williams (1969, p.5). This combination, as a questionable assignment, was not validly published in Davey and Williams (1966b, p.77), since these authors did not fully reference the basionym. Fauconnier and Cornu in Fauconnier and Masure (2004, p.403) listed this as a problematic species but apparently accepted the synonymy cited above. Age: Albian.

dividuum Williams, 1978, p.797, pl.5, fig.8. Holotype: Williams, 1978, pl.5, fig.8. Age: Valanginian–Barremian.

djenn Below, 1982c, p.22, pl.2, figs.1–2, 3a–b; text-figs.5i–l. Holotype: Below, 1982c, pl.2, figs.3a–b; Fauconnier and Masure, 2004, pl.58, figs.4–5. N.I.A. Age: Barremian–late Albian.

dongmingense He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.53, pl.20, figs.11–14. Holotype: He Chengquan et al., 1989, pl.20, fig.11. Age: Early Tertiary.

fenestratum Duxbury, 1980, p.130–131, pl.9, figs.8–9. Holotype: Duxbury, 1980, pl.9, figs.8–9; Fauconnier and Masure, 2004, pl.59, figs.1–2. Age: middle Barremian.

granulatum He Chengquan, 1991, p.132–133, pl.26, fig.17. Holotype: He Chengquan, 1991, pl.26, fig.17. Age: late Eocene.

heilongjiangense Yu Jingxian, 1982, p.248–49, pl.5, figs.1,4. Holotype: Yu Jingxian, 1982, pl.5, fig.4. Age: Valanginian–Hauterivian.

homomorphum He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.53, pl.20, figs.16–17. Holotype: He Chengquan et al., 1989, pl.20, fig.17. Age: Early Tertiary.

intermedium Corradini, 1973, p.143–144, pl.21, fig.7; text-fig.6. Holotype: Corradini, 1973, pl.21, fig.7; text-fig.6. Age: Late Cretaceous–?Paleocene.

"*irregulare*" (Pocock, 1962, p.82, pl.15, figs.228–229) Davey and Williams, 1969, p.5. Holotype: Pocock, 1962, pl.15, figs.228–229, lost according to Jansonius (1986, p.220). Lectotype: Jansonius, 1986, pl.4, fig.3, designated by Jansonius (1986, p.214 — caption to pl.4); Fauconnier and Masure, 2004, pl.55, fig.9. Originally *Hystrichosphaeridium*, subsequently *Oligosphaeridium*. **Taxonomic senior synonym:** *Hystrichosphaeridium* (as *Oligosphaeridium*) *albertense*, according to Jansonius (1986, p.213). Taxonomic junior synonyms: *Hystrichosphaeridium* (as *Oligosphaeridium*?) *coelenteratum*, *Hystrichosphaeridium* (as *Oligosphaeridium*?) *dispare*, *Hystrichosphaeridium* (as *Oligosphaeridium*) *reniforme*, all according to Stover and Evitt (1978, p.69). This combination, as a questionable assignment, was not validly published in Davey and Williams (1966b, p.77), since these authors did not fully reference the basionym. Fauconnier and Cornu in Fauconnier and Masure (2004, p.404) listed this as a problematic species but apparently accepted the synonymy cited above. Age: late Barremian–Aptian.

"*itajaiense*" Masure and Arai, 2003, p.61–62, pl.1, fig.19. Holotype: Masure and Arai, 2003, pl.1, fig.19. **Name not validly published:** no Latin or English description. Age: Turonian.

jixiense He Chengquan and Sun Xuekun, 2000, p.50–51, 58, pl.3, figs.1–2; text-fig.1. Holotype: He Chengquan and Sun Xuekun, 2000, pl.3, fig.1; text-fig.1. Age: late Hauterivian.

junctum Bailey and Loy, 1997, p.159, 162, pl.1, figs.1–4; pl.2, figs.1–4; text-fig.2. Holotype: Bailey and Loy, 1997, pl.1, figs.1–3. Originally *Oligosphaeridium*, subsequently (and now) *Oligosphaeridium*?. Questionable assignment: Fauconnier and Cornu in Fauconnier and Masure (2004, p.402). Age: early–late Hauterivian.

levimarginatum Marheinecke, 1992, p.64–65, pl.12, figs.4,10–11. Holotype: Marheinecke, 1992, pl.12, fig.4; Fauconnier and Masure, 2004, pl.57, fig.10. Contrary to the opinion of Lentin and Williams (1993, p.461), Williams et al. (1998, p.436) considered this name to be validly published. Age: late early–early late Maastrichtian.

"*longicercale*" He Chengquan, 1991, p.133, pl.26, fig.8. Holotype: He Chengquan, 1991, pl.26, fig.8. **Name not validly published:** lodgement of holotype not specified (I.C.N. Article 40.7). Age: Cenomanian.

"*macrotubulum*" (Neale and Sarjeant, 1962, p.452–455, pl.20, fig.7; text-fig.8a) Davey and Williams, 1966b, p.75. Holotype: Neale and Sarjeant, 1962, pl.20, fig.7; text-fig.8a; Fauconnier and Masure, 2004, pl.57, fig.7. Originally *Hystrichosphaeridium*, subsequently *Oligosphaeridium*, thirdly *Oligosphaeridium*?. **Taxonomic senior synonym:** *Hystrichosphaeridium* (as *Oligosphaeridium*) *vasiformum*, according to McIntyre and Brideaux (1980, p.21). Questionable assignment: Stover and Evitt (1978, p.68–69). Age: Hauterivian.

?*membranaceum* Jiabo, 1978, p.71–72, pl.26, fig.12. Holotype: Jiabo, 1978, pl.26, fig.12. Originally *Oligosphaeridium*, subsequently (and now) *Oligosphaeridium*?. Questionable assignment: Fauconnier and Cornu in Fauconnier and Masure (2004, p.404) as a problematic species. Age: Early Tertiary.

minus Jiabo, 1978, p.72, pl.26, figs.5–6. Holotype: Jiabo, 1978, pl.26, fig.6. Originally *Oligosphaeridium*, subsequently (and now) *Oligosphaeridium*?. Questionable assignment: Fauconnier and Cornu in Fauconnier and Masure (2004, p.404) as a problematic species; however, He Chengquan et al. (2009, p. 116) included this species in *Oligosphaeridium* without question. Taxonomic junior synonyms: *Oligosphaeridium panjinense* and *Bipolaribucina pusilla*, both according to He Chengquan et al. (2009, p. 116). N.I.A. Age: Early Tertiary.

"*nannus*" Davey, 1974, p.59, pl.4, figs.9–10. Emendations: Duxbury, 1977, p.31; Khowaja-Atequzaman et al., 1985, p.98,100, both as *Discorsia nannus*. Holotype: Davey, 1974, pl.4, fig.9; Fensome et al., 1995, fig.1 — p.1619; Fauconnier and Masure, 2004, pl.22, fig.1. **NOW** *Discorsia*. Originally *Oligosphaeridium*, subsequently (and now) *Discorsia*. N.I.A. Age: early Barremian.

ovatum He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.54, pl.19, figs.18–22. Holotype: He Chengquan et al., 1989, pl.19, fig.20. Age: Early Tertiary.

"*panjinense*" Liu Zhili and Zheng Yuefang in Liu Zhili et al., 1992, p.75, pl.14, figs.9–11. Holotype: Liu Zhili et al., 1992, pl.14, fig.10. **Taxonomic senior synonym:** *Oligosphaeridium minus*, according to He Chengquan et al. (2009, p.116) Age: Early Tertiary.

"*paradoxum*" (Brosius, 1963, p.41–42, pl.4, figs.1,6; text-fig.2, nos.1a–c) Davey and Williams, 1969,p.5. Holotype: Brosius, 1963, pl.4, fig.6; Fensome et al., 1995, fig.2 — p.1639. **NOW** *Distatodinium*. Originally *Hystrichosphaeridium*, subsequently *Tanyosphaeridium*, thirdly *Oligosphaeridium*?, fourthly (and now) *Distatodinium*, fifthly *Bipolaribucina*. Questionable assignment: Davey and Williams (1969,p.5). Taxonomic junior synonym: *Distatodinium craterum*, according to Fensome et al. (2009, p.31). Age: late Oligocene.

patulum Riding and Thomas, 1988, p.80–82, pl.3, figs.1–3,5–6; text-figs.8a–b,9b. Holotype: Riding and Thomas, 1988, pl.3, figs.1–2; Fauconnier and Masure, 2004, pl.60, fig.1. Age: early–late Kimmeridgian.

perforatum (Gocht, 1959, p.68–69, pl.3, fig.7; pl.7, figs.13–16) Davey and Williams, 1969, p.5. Holotype: Gocht, 1959, pl.3, fig.7; pl.7, fig.13; Fauconnier and Masure, 2004, pl.59, figs.3–11. Junior homonym: *Oligosphaeridium perforatum* Jain, 1977b. Originally *Hystrichosphaeridium*, subsequently (and now) *Oligosphaeridium*. This combination was not validly published in Davey and Williams (1966b, p.77), since these authors did not fully reference the basionym. Age: Hauterivian–Barremian.

?subsp. *colum* Duxbury, 1983, p.53, pl.8, fig.9; text-fig.24. Holotype: Duxbury, 1983, pl.8, fig.9; Fauconnier and Masure, 2004, pl.62, figs.1–3. Originally *Oligosphaeridium perforatum* subsp. *colum*, subsequently (and now) *Oligosphaeridium perforatum*? subsp. *colum*. Questionable assignment: Fauconnier and Cornu in Fauconnier and Masure (2004, p.403). Age: late Aptian–early Albian.

subsp. *perforatum*. Autonym. Holotype: Gocht, 1959, pl.3, fig.7; Fauconnier and Masure, 2004, pl.59, figs.3–11.

"*perforatum*" Jain, 1977b, p.181, pl.1, figs.5–7. Holotype: Jain, 1977b, pl.1, fig.5. **Name illegitimate** — **senior homonym**: *Oligosphaeridium perforatum* (Gocht, 1959) Davey and Williams, 1969. **Substitute name**: *Oligosphaeridium porosum*. Originally *Oligosphaeridium perforatum* Jain, 1977b (name illegitimate), subsequently (and now) *Oligosphaeridium porosum*. Age: early Albian.

potculum Jain, 1977b, p.181, pl.1, figs.1–3. Holotype: Jain, 1977b, pl.1, fig.3; Fauconnier and Masure, 2004, pl.62, figs.5–7. N.I.A. Age: early Albian.

porosum Lentin and Williams, 1981, p.201. Holotype: Jain, 1977b, pl.1, fig.5. Originally *Oligosphaeridium perforatum* Jain, 1977b (name illegitimate), subsequently (and now) *Oligosphaeridium porosum*. Substitute name for *Oligosphaeridium perforatum* Jain, 1977b, p.181, pl.1, figs.5–7 (an illegitimate name). Age: early Albian.

prolixispinosum Davey and Williams, 1966b, p.76–77, pl.8, figs.2–3. Holotype: Davey and Williams, 1966b, pl.8, fig.3; Fauconnier and Masure, 2004, pl.60, figs.2–4. Originally (and now) *Oligosphaeridium*, subsequently *Tanyosphaeridium*. Lentin and Williams (1981, p.201) retained this species in *Oligosphaeridium*. Age: Cenomanian.

pseudoabaculum Harding, 1990b, p.42, pl.24, figs.1–7 ex Harding in Williams et al. 1998, p.437. Holotype: Harding, 1990b, pl.24, fig.1; Fauconnier and Masure, 2004, pl.60, fig.5. This name was not validly published in Harding (1990b) since the lodgement of the holotype was not specified (I.C.N. Article 40.7). Age: early Barremian.

pulcherrimum (Deflandre and Cookson, 1955, p.270–271, pl.1, fig.8; text-figs.21–22) Davey and Williams, 1966b, p.75–76. Holotype: Deflandre and Cookson, 1955, pl.1, fig.8; text-figs.21–22; Fauconnier and Masure, 2004, pl.60, figs.8–11. Originally *Hystrichosphaeridium*, subsequently (and now) *Oligosphaeridium*. Age: Albian.

quattrocchioae Volkheimer 2010, p.236,238, figs.5H–M,6A–B,F–H. Holotype: Volkheimer 2010, fig.6B. Age: late Valanginian–early Hauterivian.

"*reniforme*" (Tasch in Tasch et al., 1964, p.193, pl.2, fig.6) Davey, 1969a, p.148. Holotype: Tasch et al., 1964, pl.2, fig.6. Originally *Hystrichosphaeridium*, subsequently *Oligosphaeridium*. **Taxonomic senior synonym**: *Hystrichosphaeridium* (now *Oligosphaeridium*) *albertense*, by implication in Stover and Evitt (1978, p.69), who considered *Hystrichosphaeridium reniforme* to be a taxonomic junior synonym of *Hystrichosphaeridium* (subsequently *Oligosphaeridium*) *irregulare*, which is now a taxonomic junior synonym of *Hystrichosphaeridium* (now *Oligosphaeridium*) *albertense*. This combination was not validly published in Davey and Williams (1966b, p.77), since these authors did not fully reference the basionym. Fauconnier and Cornu in Fauconnier and Masure (2004, p.404) listed this as a problematic species but apparently accepted the synonymy cited above. Age: Albian.

reticulatum Davey and Williams, 1966b, p.74, pl.7, fig.10. Holotype: Davey and Williams, 1966b, pl.7, fig.10; Fauconnier and Masure, 2004, pl.61, figs.1–3. Age: Cenomanian.

saghirum Slimani et al., 2012, p.342–344, fig.4A–J. Holotype: Slimani et al., 2012, fig.4A–F. Age: late Maastrichtian–Danian.

speciale Xu Jinli et al., 1997, p.83–84, pl.14, fig.2 ex He Chengquan et al., 2009, p.658. Holotype: Xu Jinli et al., 1997, pl.14, fig.2. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.658) validated the name by publishing an English diagnosis. Age: middle-late Eocene.

suibinense Yu Jingxian, 1982, p.249, pl.5, fig.7. Holotype: Yu Jingxian, 1982, pl.5, fig.7. Age: Valanginian–Hauterivian.

swanense Riding and Helby, 2001f, p.163,165–166, figs.12A–F,13A–C. Holotype: Riding and Helby, 2001f, fig.12E. Age: Oxfordian–Kimmeridgian.

tenuiprocessum Singh, 1983, p.123–124, pl.42, figs.1–4. Holotype: Singh, 1983, pl.42, fig.1; Fauconnier and Masure, 2004, pl.61, fig.4. Age: latest Albian–early Cenomanian.

totum Brideaux, 1971, p.88–89, pl.25, figs.53–55,57. Holotype: Brideaux, 1971, pl.25, fig.53. Taxonomic junior synonym: *Oligosphaeridium diastema*, according to Harker and Sarjeant (1975, p.226) and Brideaux and McIntyre (1975, p.29). Age: late Albian.

subsp. *minus* (Brideaux, 1971, p.88–89, pl.25, figs.54,57) Lentin and Williams, 1973, p.100. Holotype: Brideaux, 1971, pl.25, fig.57. Originally *Oligosphaeridium totum* var. *minus*, subsequently (and now) *Oligosphaeridium totum* subsp. *minus*. Age: late Albian.

"var. *minus*" Brideaux, 1971, p.88–89, pl.25, figs.54,57. Holotype: Brideaux, 1971, pl.25, fig.57. **NOW** *Oligosphaeridium totum* subsp. *minus*. Originally *Oligosphaeridium totum* var. *minus*, subsequently (and now) *Oligosphaeridium totum* subsp. *minus*. Age: late Albian.

subsp. *totum*. Autonym. Holotype: Brideaux, 1971, pl.25, fig.57.

"var. *totum*". Autonym. Holotype: Brideaux, 1971, pl.25, fig.57. **Now redundant.**

?*trabeculosum* Singh, 1983, p.122–123, pl.41, fig.11. Holotype: Singh, 1983, pl.41, fig.11; Fauconnier and Masure, 2004, pl.61, fig.5. Originally *Oligosphaeridium*, subsequently (and now) *Oligosphaeridium?*. Questionable assignment: Fauconnier and Cornu in Fauconnier and Masure (2004, p.403). Age: early Cenomanian.

?*tubulatum* (Menéndez, 1965, p.13, pl.2, fig.7; pl.3, fig.17) Sarjeant and Stancliffe, 1994, p.56. Holotype: Menéndez, 1965, pl.2, fig.7. Originally *Micrhystridium* (Appendix A), subsequently (and now) *Oligosphaeridium?*. Questionable assignment: Sarjeant and Stancliffe (1994, p.56); and Fauconnier and Cornu in Fauconnier and Masure (2004, p.404) as a problematic species. Age: Oligocene.

umbraculum Duxbury, 2001, p.109–111, fig.10, nos.1–4. Holotype: Duxbury, 2001, fig.10, nos.1–2. Age: early Hauterivian.

vasiformum (Neale and Sarjeant, 1962, p.452, pl.20, fig.1; text-fig.8b) Davey and Williams, 1966b, p.74–75. Holotype: Neale and Sarjeant, 1962, pl.20, fig.1; text-fig.8b; Fauconnier and Masure, 2004, pl.62, fig.4. Originally *Hystrichosphaeridium*, subsequently (and now) *Oligosphaeridium*. Taxonomic senior synonym: *Hystrichosphaeridium* (as *Oligosphaeridium?*) *asterigerum*, according to Duxbury (1977, p.45) — however, McIntyre and Brideaux (1980, p.21) retained *Hystrichosphaeridium* (as *Oligosphaeridium*) *vasiformum*. Taxonomic junior synonym: *Hystrichosphaeridium* (as *Oligosphaeridium?*) *macrotubulum*, according to McIntyre and Brideaux (1980, p.21). Age: middle Hauterivian–early Barremian.

verrucosum Davey, 1979b, p.558, pl.5, figs.1–3. Holotype: Davey, 1979b, pl.5, figs.1–2; Fauconnier and Masure, 2004, pl.61, figs.6–9. Age: late Aptian.

xinjiangense He Chengquan, 1991, p.133–134, pl.26, figs.15–16; pl.59, figs.5–6; text-fig.23. Holotype: He Chengquan, 1991, pl.26, fig.16; text-fig.23. Age: Paleocene–middle Eocene.

"**OMANODINIUM**" Bradford, 1975, p.3070. **Taxonomic senior synonym:** *Selenopemphix*, according to Bradford and Wall (1984, p.49) and Head (1993, p.32). Lentin and Williams (1981, p.202) did not agree with Harland and Reid in Harland et al. (1980, p.223) that *Omanodinium* and the two included species, *Omanodinium alticinctum* and *Omanodinium tholus*, are not validly published names because they lack Latin diagnoses. As no living forms were observed, Lentin and Williams (1981) agreed with Bradford (1975), who clearly stated that he considered cysts of unknown origin in unconsolidated sediments to be fossils. Type: Bradford, 1975, figs.23–26, as *Omanodinium alticinctum*.

"**alticinctorum*" Bradford, 1975, p.3070,3072, figs.23–28. Holotype: Bradford, 1975, figs.23–26; Fensome et al., 1993a, figs.1–4 — p.907. **NOW** *Selenopemphix*. Originally *Omanodinium*, subsequently (and now) *Selenopemphix*. Motile equivalent: *Protopteridinium subinerve* (Paulsen, 1904) Loeblich III, 1970, according to Bradford (1975, p.3070) and Matsuoka (1984b, p.2) — however, see Head (1996b, p.1215). Age: Holocene.

"*tholus*" Bradford, 1975, p.3072,3074, figs.17–22. Holotype: Bradford, 1975, fig.17. **NOW** *Selenopemphix*. Originally *Omanodinium*, subsequently *Protopteridinium* subgenus *Protopteridinium* section *Selenopemphix* (combination not validly published; Appendix B), thirdly *Selenopemphix* (combination not validly published), fourthly (and now) *Selenopemphix*. N.I.A. Age: Holocene.

OMATIA Cookson and Eisenack, 1958, p.60. Emendations: Wiggins, 1969, p.150; Stover and Helby, 1987b, p.149,152. Taxonomic junior synonym: *Herendeenia*, according to Stover and Evitt (1978, p.280) — however, Stover and Helby (1987b, p.149,152) retained *Herendeenia*. Type: Cookson and Eisenack, 1958, pl.8, fig.8, as *Omatia montgomeryi*.

"*alaskaensis*" Stover and Evitt, 1978, p.178. Holotype: Wiggins, 1969, pl.1, figs.1–3 (as *Herendeenia pisciformis*). **NOW** *Herendeenia*. Originally *Omatia*, subsequently (and now) *Herendeenia*. Age: Neocomian, ?late Hauterivian–Barremian.

"*butticula*" Wiggins, 1969, p.150, pl.2, figs.1–5. Holotype: Wiggins, 1969, pl.2, figs.1–2; Fensome et al., 1993a, figs.1–2 — p.1005. **NOW** *Boreocysta*. Originally *Omatia*, subsequently (and now) *Boreocysta*. Age: Neocomian, ?late Valanginian or early Hauterivian.

"*jurabiana*" Helby in Riding and Helby, 2001f, p.162. **Name not validly published**: no description. **Taxonomic senior synonym**: *Indodinium* (as and now *Mombasadinium*) *parvelatum*, according to Riding and Helby (2001f, p.162).

**montgomeryi* Cookson and Eisenack, 1958, p.60, pl.8, figs.7–9. Emendation: Stover and Helby, 1987b, p.152–153. Holotype: Cookson and Eisenack, 1958, pl.8, fig.8. Age: Late Jurassic.

"*pisciformis*" Cookson and Eisenack, 1958, p.61, pl.8, fig.6. Emendation: Stover and Helby, 1987b, p.154, as *Herendeenia pisciformis*, as a revised description. Holotype: Cookson and Eisenack, 1958, pl.8, fig.6. **NOW** *Herendeenia*. Originally *Omatia*, subsequently (and now) *Herendeenia*. Age: Late Jurassic.

OMATIDIUM Courtinat in Courtinat and Gaillard, 1980, p.40. Emendation: Courtinat, 1989, p.168. Type: Cookson and Eisenack, 1958, pl.5, fig.9, as *Hystrichodinium amphiacanthum*.

**amphiacanthum* (Cookson and Eisenack, 1958, p.37, pl.5, fig.9) Courtinat in Courtinat and Gaillard, 1980, p.40. Holotype: Cookson and Eisenack, 1958, pl.5, fig.9; Fensome et al., 1993a, fig.1 — p.911. Originally *Hystrichodinium*, subsequently *Hystrichodinium?*, thirdly (and now) *Omatidium*. Age: Late Jurassic or Neocomian.

bernieri Courtinat, 1989, p.170–171, pl.15, figs.1,3–6; text-fig.75. Holotype: Courtinat, 1989, pl.15, fig.1. Age: Oxfordian.

"*enayi*" Courtinat, 1989, p.181, pl.23, fig.6. Holotype: Courtinat, 1989, pl.23, fig.6. Originally *Escharisphaeridia*, subsequently *Omatidium*. **Taxonomic senior synonym**: *Escharisphaeridia psilata*, according to Poulsen (1996, p.80). This species was inadvertently included in *Omatidium* by Lentin and Williams (1993, p.464). Age: Oxfordian.

"**OODNADATTIA**" Eisenack and Cookson, 1960, p.6. **Taxonomic senior synonym**: *Dinoptyrgium*, according to Norris and Sarjeant (1965, p.44) and Lentin and Williams (1985, p.259). Taxonomic junior synonym: *Xiphophoridium*, according to Below (1981a, p.64) — however, Lentin and Williams (1981, p.294) retained *Xiphophoridium*. Type: Eisenack and Cookson, 1960, pl.2, fig.10, as *Oodnadattia tuberculata*.

"*alata*" (Cookson and Eisenack, 1962b, p.487–488, pl.2, figs.1–4) Below, 1981a, p.107. Emendation: Sarjeant, 1966b, p.147, as *Xiphophoridium alatum*. Holotype: Cookson and Eisenack, 1962b, pl.2, fig.1; Fensome et al., 1993a, fig.1 — p.893; Fauconnier and Masure, 2004, pl.80, fig.6. **NOW** *Dinopterygium*. Originally *Hystrichodinium*, subsequently *Xiphophoridium*, thirdly *Pyramidium* (combination illegitimate, since the generic name is illegitimate), fourthly *Oodnadattia*, fifthly (and now) *Dinopterygium*. Age: Albian–Cenomanian.

"*cooksoniae*" Kimyai, 1966, p.471, pl.2, fig.21. Holotype: Kimyai, 1966, pl.2, fig.21. Originally *Oodnadattia*, subsequently *Dinopterygium*. **Taxonomic senior synonym:** *Oodnadattia* (now *Dinopterygium*) *tuberculata*, according to Below (1981a, p.107). Age: Cenomanian.

"*pterophora*" (Deflandre and Courteville, 1939, p.102, pl.2, figs.4–5) Below, 1981a, p.107. Holotype: Deflandre and Courteville, 1939, pl.2, figs.4–5. **NOW** *Dinopterygium*. Originally *Hystrichosphaeridium*, subsequently *Cymatiosphaera* (Appendix A), thirdly *Oodnadattia*, fourthly (and now) *Dinopterygium*. Age: Senonian.

"**tuberculata*" Eisenack and Cookson, 1960, p.6–7, pl.2, figs.10–14; text-fig.1. Holotype: Eisenack and Cookson, 1960, pl.2, fig.10; Helby et al., 1987, fig.38G. **NOW** *Dinopterygium*. Originally *Oodnadattia*, subsequently (and now) *Dinopterygium*. Taxonomic senior synonym: *Dinopterygium cladoides*, according to Clarke and Verdier (1967, p.36) — however, Stover and Evitt (1978, p.205) retained *Oodnadattia* (as *Dinopterygium*) *tuberculata*. Taxonomic junior synonyms: *Oodnadattia cooksoniae* and *Leptodinium? micropunctatum*, both according to Below (1981a, p.107) — however, Lentin and Williams (1981, p.173) retained *Leptodinium? micropunctatum*. Age: Albian.

OPAEOPSOMUS Pocock, 1972, p.96. Taxonomic senior synonyms: *Ellipsoidictyum*, according to Stover and Evitt (1978, p.69); *Dapcodinium*, according to Dörhöfer and Davies (1980, p.23); *Valvaeodinium*, according to Below (1987b, p.64) — however, Lentin and Williams (1993, p.465) retained *Opaeopsomus*. Pocock (1972, p.96) cited this genus as "*Opaeopsomus* Evitt n.gen.". Lentin and Williams (1993, p.465) recommended that this name be restricted to the "type species". Type: Pocock, 1972, pl.24, fig.14, as *Opaeopsomus wapellensis*.

**wapellensis* Pocock, 1972, p.97, pl.24, fig.14. Emendation: Dörhöfer and Davies, 1980, p.23, as *Dapcodinium wapellense*. Holotype: Pocock, 1972, pl.24, fig.14, lost according to Jansonius (1986, p.220). Originally (and now) *Opaeopsomus*, subsequently *Dapcodinium*, thirdly *Valvaeodinium*. Lentin and Williams (1993, p.465) retained this species in *Opaeopsomus*. Lentin and Williams (1993, p.465) recommended that this name be restricted to the type. Age: Callovian.

"subsp. *minutus*" Mao Shaozhi, 1989, p.141, pl.29, figs.12–15,17–25,30–31. Holotype: Mao Shaozhi, 1989, pl.29, fig.15. **NOW** *Operculodinium centrocarpum* subsp. *minutum*. Originally (and now) *Operculodinium centrocarpum* subsp. *minutum*, subsequently *Opaeopsomus wapellensis* subsp. *minutus*. Lentin and Williams (1993, p.465) inadvertently cited this taxon as *Opaeopsomus wapellensis* subsp. *minutus*. Age: Quaternary.

"subsp. *wapellensis*". Autonym. Holotype: Pocock, 1972, pl.24, fig.14. **Now redundant.**

OPERCULODINELLA Kienel, 1994, p.48. Emendation: Hildebrand-Habel et al., 1999, p.79. Calcareous dinoflagellate genus. Type: Kienel, 1994, pl.10, figs.1–2,4–6, as *Operculodinella costata*.

**costata* Kienel, 1994, p.48–49, pl.10, figs.1–6; text-fig.17. Holotype: Kienel, 1994, pl.10, figs.1–2,4–6. Age: Danian.

hydria Kienel, 1994, p.48, pl.9, figs.6–10. Holotype: Kienel, 1994, pl.9, figs.8–9. Age: Danian.

"*operculata*" (Bramlette and Martini, 1964, p.305–306, pl.5, figs.3–7) Hildebrand-Habel et al., 1999, p.79. Emendation: Streng et al., 2004, p.467, as *Cervisiella operculata*. Holotype: Bramlette and Martini, 1964, pl.5, figs.4–5. **NOW** *Cervisiella*. Originally *Thoracosphaera*, subsequently *Obliquipithonella*, thirdly *Pirumella*,

fourthly *Operculodinella*, fifthly (and now) *Cervisiella*. Taxonomic junior synonym: *Thoracosphaera atlantica*, according to Fütterer (1990, p.540). Age: Maastrichtian–Paleocene.

reticulata Kienel, 1994, p.49–50, pl.9 (not pl.10), figs.11–15. Holotype: Kienel, 1994, pl.9, figs.13–14. Age: Danian.

OPERCULODINIUM Wall, 1967, p.110–111. Emendation: Matsuoka et al., 1997, p.22. Type: Deflandre and Cookson, 1955, pl.8, figs.3–4, as *Hystriosphæridium centrocarpum*.

alsium Matsuoka and Bujak, 1988, p.64–65, pl.8, figs.7,8a–b,9. Holotype: Matsuoka and Bujak, 1988, pl.8, figs.8a–b; Head, 1994b, pl.8, figs.6–9. Age: late Miocene.

ancoriferum Gao Ruiqi et al., 1992a, p.21–22,28, pl.2, figs.10–12. Holotype: Gao Ruiqi et al., 1992a, pl.2, fig.10. Age: Cenomanian.

"*antwerpense*" Louwye, 1999, p.115–117, pl.2, figs.1–9. Holotype: Louwye, 1999, pl.2, figs.1–6. **Taxonomic senior synonym:** *Operculodinium tegillatum*, according to Louwye and de Schepper (2010, p.767). Taxonomic junior synonym: *Operculodinium? pontis* (name not validly published), according to Louwye (1999, p.115). Age: late Miocene.

aquinawense Marret and Kim, 2009, p.128,130,132,136, pl.1, figs.1–12; pl.2, figs.1–12; pl.3, figs.1–9; pl.4, fig.1; pl.5, figs.1–4,6. Holotype: Marret and Kim, 2009, pl.1, figs.1–8. Age: late Pleistocene–Holocene.

azcaratei Troncoso and Doubinger, 1980, p.104–105, pl.2, figs.1–2. Holotype: Troncoso and Doubinger, 1980, pl.2, figs.1–2. Age: Maastrichtian–Danian.

baculatum Yu Jingxian and Zhang Wangping, 1980, p.114–115, pl.6, figs.8–9. Holotype: Yu Jingxian and Zhang Wangping, 1980, pl.6 (not pl.4 as stated in the text), fig.9. Age: Turonian–early Maastrichtian.

bahamense Head in Head and Westphal, 1999, p.12–13, fig.9, nos.9–14; fig.10, nos.1–5. Emendation: Paez-Reyes and Head, 2013, p.789,791. Holotype: Head and Westphal, 1999, fig.9, nos.9–12. Age: Pliocene.

bahiaense (Regali et al., 1974, p.289–290, pl.23, fig.5) Arai in Fauconnier and Masure, 2004, p.345. Holotype: Regali et al., 1974, pl.23, fig.5. Originally *Hystriosphæridium*, subsequently *Cleistosphæridium?*, thirdly *Impletosphæridium?*, fourthly (and now) *Operculodinium*. Age: Eocene–Oligocene.

bellulum Islam, 1983a, p.241, pl.2, fig.6. Holotype: Islam, 1983a, pl.2, fig.6. Age: early Eocene.

"*bergmannii*" (Archangelsky, 1969a, p.414–415, pl.2, figs.8,11) Stover and Evitt, 1978, p.178. Holotype: Archangelsky, 1969a, pl.2, fig.11. **NOW** *Lingulodinium*. Originally *Cleistosphæridium*, subsequently *Operculodinium*, thirdly *Downiesphaeridium*, fourthly (and now) *Lingulodinium*. Taxonomic junior synonyms: *Solisphaeridium filamentosum* (Appendix A) and *Impletosphæridium charrieri*, both according to Quattrocchio and Sarjeant (2003, p.142). Masure in Fauconnier and Masure (2004, p.197) proposed the retention of this species in *Operculodinium* but were not aware of the work of Quattrocchio and Sarjeant (2003). Age: Eocene.

?*borgerholtense* Louwye, 2001, p.126–127, fig.4, nos.1–12. Emendation: Soliman et al., 2009, p.75. Holotype: Louwye, 2001, fig.4, nos.1–5; Soliman et al., 2009, pl.1, figs.1–3; pl.2, figs.11–20. Questionable assignment: Louwye (2001, p.126). Age: early-middle Miocene.

brevibaculatum He Chengquan, 1991, p.144–145, pl.20, figs.1–3. Holotype: He Chengquan, 1991, pl.20, fig.2. Age: Paleocene–early Eocene.

capituliferum He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.55, pl.17, figs.4–5; text-fig.5. Holotype: He Chengquan et al., 1989, pl.17, fig.5; text-fig.5. Age: Early Tertiary.

**centrocarpum* (Deflandre and Cookson, 1955, p.272–273, pl.8, figs.3–4) Wall, 1967, p.111. Holotype: Deflandre and Cookson, 1955, pl.8, figs.3–4; Matsuoka et al., 1997, pl.1, figs.1–6. Originally *Hystrichosphaeridium centrocarpum*, subsequently *Baltisphaeridium centrocarpum* (Appendix A), thirdly *Cordosphaeridium centrocarpum*, fourthly *Cordosphaeridium tiara* subsp. *centrocarpum*, fifthly (and now) *Operculodinium centrocarpum*, sixthly *Cordosphaeridium? microtriainum* subsp. *centrocarpum*, seventhly *Cleistosphaeridium centrocarpum*. Lentin and Williams (1973, p.102) retained this taxon as *Operculodinium centrocarpum*. Taxonomic junior synonyms: *Operculodinium? echigoense*, according to Matsuoka et al. (1997, p.22); *Membranilarnacia delicata*, according to Jain (1980, p.140) — however, *Membranilarnacia delicata* is now considered to be a taxonomic junior synonym of *Hystrichosphaeridium* (now *Polysphaeridium*) *zoharyi*. Motile equivalent: *Peridinium* (now *Protoceratium*) *reticulatum* Claparède and Lachmann, 1859 (as *Gonyaulax grindleyi* Reinecke, 1967), according to Wall and Dale (1966, p.1025–1026) — however, see Head (1996b, p.1211). Head in Head and Wrenn (1992, p.24) considered this species to be the possible taxonomic senior synonym of *Operculodinium wallii*. See also *Hystrichosphaeridium westii*. Age: Miocene.

subsp. *amplum* (Wetzel, 1955, p.38; text-fig.11) Sarjeant, 1984c, p.130. Emendation: Sarjeant, 1984c, p.131, as *Operculodinium centrocarpum* subsp. *amplum*. Holotype: Wetzel, 1955, text-fig.11; Sarjeant, 1984c, pl.3, figs.1–3; text-fig.4. Originally *Hystrichosphaeridium hirsutum* subsp. *amplum* (name not validly published), subsequently *Baltisphaeridium hirsutum* subsp. *amplum* (name not validly published; Appendix A), thirdly *Operculodinium? hirsutum* subsp. *amplum* (name not validly published), fourthly (and now) *Operculodinium centrocarpum* subsp. *amplum*. Age: Danian.

subsp. *centrocarpum*. Autonym. Holotype: Deflandre and Cookson, 1955, pl.8, figs.3–4.

var. *centrocarpum*. Autonym. Holotype: Deflandre and Cookson, 1955, pl.8, figs.3–4; Matsuoka et al., 1997, pl.1, figs.1–6.

var. *cezare* de Vernal et al., 1989, p.2462, pl.1, figs.8–11 ex Head, 2007, p.1011. Holotype: de Vernal et al., 1989, pl.1, figs.8–9; de Vernal et al., 2001, fig.3.4 (lower panel); designated by Head (2007, p.1011). The name was not validly published in de Vernal et al. (1989), since these authors did not designate a holotype. Age: Quaternary.

var. *minus* Morzadec-Kerfourn, 1979, p.226, pl.33, fig.7. Holotype: Morzadec-Kerfourn, 1979, pl.33, fig.7.

subsp. *minutum* Mao Shaozhi, 1989, p.141–142, pl.29, figs.12–15, 17–25, 30–31. Holotype: Mao Shaozhi, 1989, pl.29, fig.15. Originally (and now) *Operculodinium centrocarpum* subsp. *minutum*, subsequently *Opaeopsomus wapellensis* subsp. *minutus*. Lentin and Williams (1993, p.465) inadvertently cited this taxon as *Opaeopsomus wapellensis* subsp. *minutus*. Age: Quaternary.

subsp. *novum* Marheinecke, 1992, p.54–55, pl.10, figs.4, 7–8. Holotype: Marheinecke, 1992, pl.10, figs.4, 7–8. Contrary to the opinion of Lentin and Williams (1993, p.466), Williams et al. (1998, p.441) considered this name to be validly published. Age: late early–late late Maastrichtian.

subsp. *teokides* (Srivastava and Banerjee, 1969, p.103, pl.1, figs.6–8) Lentin and Williams, 1981, p.204. Holotype: Srivastava and Banerjee, 1969, pl.1, figs.6–7. Originally *Hystrichosphaeridium centrocarpum* var. *teokides*, subsequently (and now) *Operculodinium centrocarpum* subsp. *teokides*. Age: Eocene.

"*charrieri*" (Troncoso and Doubinger, 1980, p.102, pl.2, figs.7–8) Masure in Fauconnier and Masure, 2004, p.198. Holotype: Troncoso and Doubinger, 1980, pl.2, fig.7. Originally *Impletosphaeridium*, subsequently *Operculodinium*. **Taxonomic senior synonym:** *Cleistosphaeridium* (now *Lingulodinium*) *bergmannii*, according to Quattrocchio and Sarjeant, 2003, p.142. When Masure in Fauconnier and Masure (2004, p.197) proposed this combination, she was not aware of the work of Quattrocchio and Sarjeant (2003). Age: Maastrichtian–Danian.

corradinii Slimani, 1994, p.80–81, pl.12, figs.20–23. Holotype: Slimani, 1994, pl.12, figs.22–23. Age: early Campanian–early Maastrichtian.

crassum Harland, 1979b, p.536, pl.2, figs.12–14. Holotype: Harland, 1979b, pl.2, figs.12–14. Taxonomic senior synonym: *Hystrichosphaeridium* (as *Operculodinium*) *israelianum*, according to Harland in Head and Wrenn (1992, p.20) — however, Head (1996b, p.1231) provisionally retained *Operculodinium crassum*. Williams et al. (1998, p.441) incorrectly indicated that Head (1996b, p.1231) questioned the assignment of this species to *Operculodinium*. Age: late Miocene–early Pleistocene.

deconinckii Lentin and Williams, 1989, p.267. Holotype: de Coninck, 1986b, pl.6, figs.26–28. Originally *Operculodinium spiniferum* de Coninck (name illegitimate), subsequently (and now) *Operculodinium deconinckii*. Substitute name for *Operculodinium spiniferum* de Coninck, 1986b, p.16–17, pl.6, figs.21–22, 26–28 (an illegitimate name). Age: Bartonian–Tongrian.

?**delicatum** Kar, 1985, p.207, pl.50, fig.7. Holotype: Kar, 1985, pl.50, fig.7. Questionable assignment: Jain and Garg (1991, p.78). Jain and Garg (1991, p.78) recommended that this name be restricted to the holotype. Age: Miocene.

divergens (Eisenack, 1954b, p.67, pl.9, figs.13–16) Stover and Evitt, 1978, p.178. Holotype: Eisenack, 1954b, pl.9, fig.14. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (combination not validly published; Appendix A), thirdly *Cordosphaeridium*, fourthly (and now) *Operculodinium*. Age: early Oligocene.

"?**echigoense**" Matsuoka, 1983b, p.126, pl.7, figs.1, 2a–b, 3–5, 8. Holotype: Matsuoka, 1983b, pl.7, fig.5; Matsuoka et al., 1997, pl.3, figs.1–3. Originally *Operculodinium*, subsequently (and now) *Operculodinium*?. Questionable assignment: Mudie (1987, p.804). **Taxonomic senior synonym:** *Operculodinium centrocarpum*, according to Matsuoka et al. (1997, p.22). Age: early middle Miocene.

?**eirikianum** Head et al., 1989b, p.459, pl.4, figs.11, 13–16. Emendation: Head, 1997, p.180. Holotype: Head et al., 1989b, pl.4, figs.11, 15–16. Questionable assignment: Head et al. (1989b, p.459). Age: late Miocene–early Pliocene.

var. **crebrum** De Schepper and Head, 2008, p.103–104, 106, pl.1, figs.1–20. Holotype: De Schepper and Head, 2008, pl.1, figs.1–4. Age: Piacenzian.

var. **eirikianum**. Autonym. Holotype: Head et al., 1989b, pl.4, figs.11, 15–16.

eisenackii Heilmann-Clausen and Van Simaey, 2005, p.176–177, pl.8, figs.3–6. Holotype: Heilmann-Clausen and Van Simaey, 2005, pl.8, fig.5. Taxonomic junior synonym (at specific rank): *Hystrichosphaeridium divergens* forma *areolatum*, according to Heilmann-Clausen and Van Simaey (2005, p.176). Age: middle Eocene.

erinaceum (Morgenroth, 1966a, p.33–34, pl.8, figs.10–12) Stover and Evitt, 1978, p.178. Holotype: Morgenroth, 1966a, pl.8, fig.10. Originally *Impletosphaeridium*, subsequently (and now) *Operculodinium*. Age: early Eocene.

evittii Khanna and Singh, 1981b, p.404–405, fig.4, no.5; text-fig.15. Holotype: Khanna and Singh, 1981b, fig.4, no.5. Age: early Eocene.

exquisitum Islam, 1983b, p.341, pl.4, fig.8. Holotype: Islam, 1983b, pl.4, fig.8. Age: middle Eocene.

floridium Warny and Wrenn, 1997, p.287, 290, pl.3, figs.1–6; pl.4, figs.1–6. Holotype: Warny and Wrenn, 1997, pl.4, figs.1, 3, 5. Age: Oligocene–Pliocene.

flucturum Davey, 1969b, p.8, pl.2, figs.3, 7–8. Holotype: Davey, 1969b, pl.2, fig.7. Age: Maastrichtian–?Danian.

giganteum Wall, 1967, p.112, pl.16, figs.9–10. Holotype: Wall, 1967, pl.16, figs.9–10. Age: Pleistocene–Holocene.

"?**hirsutum**" (Ehrenberg, 1837b, pl.1, figs.10, ?13) Lentin and Williams, 1973, p.102. **Name not validly published:** Ehrenberg (1837b) did not intend to introduce a new species. Originally *Xanthidium hirsutum* (name not validly published; Appendix A), subsequently *Ovum hispidum* subsp. *hirsutum* (name not validly published; Appendix A),

thirdly *Hystrichosphaera hirsuta* (name not validly published), fourthly *Hystrichosphaeridium hirsutum* (name not validly published), fifthly *Baltisphaeridium hirsutum* (name not validly published; Appendix A), sixthly *Operculodinium hirsutum* (name not validly published), seventhly *Operculodinium? hirsutum* (name not validly published). Questionable assignment: Stover and Evitt (1978, p.179). According to Fensome et al. (1990, p.102): "It is apparent from the discussion given by Sarjeant (1984a, p.131–132) that Ehrenberg (1838 [1837b herein]) did not intend to introduce a new taxon but was comparing fossil specimens with *Xanthidium* (now *Staurastrum*) *hirsutum* Ehrenberg, 1838 [1837b herein], a species of extant desmids. Thus the microfossil species name *Xanthidium hirsutum* and derivatives (*Hystrichosphaeridium hirsutum*, *Hystrichosphaera hirsuta* and *Operculodinium hirsutum*) are not validly published according to I.C.N. Article 36.1a. The specimen illustrated and provisionally identified as *Xanthidium hirsutum* by Ehrenberg (1838 [1837b herein]) is a specimen of *Coronifera striolata* ... according to Sarjeant (1984a, p.131–132)." Yun Hyesu (1981, p.29) considered *Xanthidium hirsutum* of Ehrenberg (1837b) to be a possible taxonomic junior synonym of *Hystrichosphaeridium* (now *Pervosphaeridium*) *pseudhystrichodinium*. Age: Late Cretaceous.

"subsp. **amplum**" (Wetzel, 1955, p.38; text-fig.11) Lentin and Williams, 1973, p.102. Emendation: Sarjeant, 1984c, p.131, as *Operculodinium centrocarpum* subsp. *amplum*. Holotype: Wetzel, 1955, text-fig.11; Sarjeant, 1984c, pl.3, figs.1–3; text-fig.4. **Name not validly published:** the species name *Operculodinium? hirsutum* is not validly published. **NOW** *Operculodinium centrocarpum* subsp. *amplum*. Originally *Hystrichosphaeridium hirsutum* subsp. *amplum* (name not validly published), subsequently *Baltisphaeridium hirsutum* subsp. *amplum* (name not validly published; Appendix A), thirdly *Operculodinium hirsutum?* subsp. *amplum* (name not validly published), fourthly (and now) *Operculodinium centrocarpum* subsp. *amplum*. Age: Danian.

"subsp. **minus**" (Wetzel, 1933b, p.45–46, pl.4, fig.26) Lentin and Williams, 1973, p.102. Holotype: Wetzel, 1933b, pl.4, fig.26. **Name not validly published:** the species name *Operculodinium? hirsutum* is not validly published. **NOW** *Coronifera? striolata* subsp. *minor*. Originally *Hystrichosphaera hirsuta* forma *minor* (name not validly published), subsequently *Baltisphaeridium hirsutum* forma *minus* (name not validly published; Appendix A), thirdly *Operculodinium? hirsutum* subsp. *minus* (name not validly published), fourthly (and now) *Coronifera? striolata* subsp. *minor*. Age: Late Cretaceous.

"subsp. **varians**" (Wetzel, 1933b, p.47–48, pl.4, figs.27–29) Lentin and Williams, 1973, p.102. Holotype: not designated. Lectotype: Wetzel, 1933b, fig.29; designated by Lentin and Williams (1989, p.78). **NOW** *Coronifera? striolata* subsp. *varians*. Originally *Hystrichosphaera hirsuta* subsp. *varians* (name not validly published), subsequently *Baltisphaeridium hirsutum* forma *varians* (name not validly published; Appendix A), thirdly *Operculodinium? hirsutum* subsp. *varians* (name not validly published), fourthly (and now) *Coronifera? striolata* subsp. *varians*. Age: Late Cretaceous.

"**?iaculigerum**" (Klement, 1960, p.57–58, pl.7, fig.10) Sarjeant, 1984a, p.171, pl.2, fig.5; text-fig.7. Emendation: Sarjeant, 1984a, p.171, as *Operculodinium? iaculigerum*. Holotype: Klement, 1960, pl.7, fig.10; Sarjeant, 1984a, pl.2, fig.5; text-fig.7; Fauconnier and Masure, 2004, pl.23, figs.4–5. **NOW** *Downiesphaeridium*. Originally *Baltisphaeridium* (Appendix A), subsequently *Operculodinium?*, thirdly *Cleistosphaeridium*, fourthly (and now) *Downiesphaeridium*. Questionable assignment: Sarjeant (1984a, p.171). Taxonomic junior synonym: *Cleistosphaeridium? polyacanthum*, according to Brenner (1988, p.42) — however, Islam (1993, p.84) retained *Cleistosphaeridium?* (as *Downiesphaeridium*) *polyacanthum*. Age: middle Kimmeridgian.

israelianum (Rossignol, 1962, p.132, pl.2, fig.3) Wall, 1967, p.111. Holotype: Rossignol, 1962, pl.2, fig.3. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Cleistosphaeridium* (combination not validly published), fourthly (and now) *Operculodinium*, fifthly *Cordosphaeridium* (combination not validly published). Taxonomic junior synonyms: *Cleistosphaeridium cephalum*, according to Jain and Garg (1991, p.78); *Operculodinium crassum*, according to Edwards and Andrieu (1992, p.262) — however, Head (1996b, p.1231) retained *Operculodinium crassum*; and *Hystrichosphaeridium westii* (name not validly published), by implication in Wall and Dale (1968a, p.315, as "hystrichosphere type x of West"). Motile equivalent: *Peridinium* (now *Protoceratium*) *reticulatum* Claparède and Lachmann, 1859, questionably according to Wall and Dale (1968c, p.272), and without question according to Matsuoka (1989, p.224). Age: Pleistocene.

janduchenei Head et al., 1989b, p.459, pl.4, figs.7–8,12. Holotype: Head et al., 1989b, pl.4, figs.7–8. Age: late Miocene–early Pliocene.

?*kashiense* He Chengquan, 1991, p.145, pl.21, fig.4. Holotype: He Chengquan, 1991, pl.21, fig.4. Questionable assignment: He Chengquan (1991, p.145). Age: middle Eocene.

longispinigerum Matsuoka, 1983b, p.125, pl.9, figs.5–7,8a–b,9. Holotype: Matsuoka, 1983b, pl.9, figs.8a–b; Head and Wrenn, 1992, pl.5, figs.4,8,11. Age: late Miocene–early Pleistocene.

majus Jain and Dutta in Dutta and Jain, 1980, p.68, pl.3, figs.19–22. Holotype: Dutta and Jain, 1980, pl.3, fig.19. Age: late Paleocene.

?*megagranum* Head in Head and Westphal, 1999, p.13,15, fig.10, nos.14–15; fig.12, nos.1–9. Holotype: Head and Westphal, 1999, fig.12, nos.1–3. Questionable assignment: Head and Westphal (1999, p.13). Age: late late Pliocene.

microtriainum (Klumpp, 1953, p.390, pl.17, figs.6–7) Islam, 1983a, p.241. Emendation: Sarjeant, 1981, p.110–112, as *Achomosphaera microtriaina*. Holotype: Klumpp, 1953, pl.17, figs.6–7; Sarjeant, 1981, pl.2, figs.1–2; text-fig.2. Originally *Hystriosphæridium*, subsequently *Cordosphæridium*, thirdly *Cordosphæridium?*, fourthly *Polysphaeridium*, fifthly *Achomosphaera*, sixthly (and now) *Operculodinium*. Taxonomic junior synonym: *Operculodinium paucispinosum*, according to Jain and Garg (1991, p.80). Age: late Eocene.

minutum He Chengquan, 1991, p.145–146, pl.21, figs.6–7; text-figs.30a–b. Holotype: He Chengquan, 1991, pl.21, fig.6; text-fig.30b. Age: Paleocene.

multispinosum Ashraf, 1979, p.144, pl.9, figs.9,11. Holotype: Ashraf, 1979, pl.9, fig.11. Age: Early Cretaceous.

nanaconulum Islam, 1983a, p.241–242, pl.3, figs.12–14. Holotype: Islam, 1983a, pl.3, figs.12–13. Age: early Eocene.

nitidum Islam, 1983a, p.242, pl.4, figs.2–3. Holotype: Islam, 1983a, pl.4, fig.3. Age: early Eocene.

operculatum (Sah et al., 1970, p.144, pl.1, figs.1–2) Jain, 1982, p.51. Holotype: Sah et al., 1970, pl.1, fig.1. Originally *Achomosphaera*, subsequently *Achomosphaera?*, thirdly (and now) *Operculodinium*. Age: Late Cretaceous.

oriensum Warny and Wrenn, 1997, p.290–291, pl.1, figs.7–9; pl.2, figs.1–4. Holotype: Warny and Wrenn, 1997, pl.1, figs.7–9. Age: Tortonian–Messinian.

ornamentum (Jain and Tandon, 1981, p.12–13, pl.2, fig.35) Jain and Garg, 1991, p.80–81. Holotype: Jain and Tandon, 1981, pl.2, fig.35. Originally *Polysphaeridium*, subsequently (and now) *Operculodinium*. Age: middle Eocene.

"*paucispinosum*" Kar, 1985, p.207, pl.50, fig.6. Holotype: Kar, 1985, pl.50, fig.6. **Taxonomic senior synonym:** *Hystriosphæridium* (as *Operculodinium*) *microtriainum*, according to Jain and Garg (1991, p.80). Age: Miocene.

"?*personatum*" (Corradini, 1973, p.157, pl.23, figs.5–6) Stover and Evitt, 1978, p.179. Emendation: Masure, 1986, p.110–111, as *Corradinisphaeridium personatum*. Holotype: Corradini, 1973, pl.23, fig.6; Eisenack and Kjellström, 1981b, p.770f; Masure, 1986, pl.1, figs.1–3; text-figs.1a–b; Fensome et al., 1995, figs.1–3,5–7 — p.1663. **NOW** *Corradinisphaeridium*. Originally *Lanternosphaeridium*, subsequently *Operculodinium?*, thirdly (and now) *Corradinisphaeridium*. Questionable assignment: Stover and Evitt (1978, p.179). Age: Senonian.

piaseckii Strauss and Lund, 1992, p.167, pl.3, figs.2–3. Emendation: de Verteuil and Norris, 1996a, p.126. Holotype: Strauss and Lund, 1992, pl.3, fig.3. Age: middle Miocene.

"*piaseckii*" Zevenboom and Santarelli in Zevenboom, 1995, p.139–140, pl.7, figs.1–6. Holotype: Zevenboom, 1995, pl.7, figs.1–3. **Name not validly published**: considered a manuscript name. If validated, this name would be an illegitimate junior homonym of *Operculodinium piaseckii* Strauss and Lund. Age: early Miocene–late Pliocene.

?*placitum* Drugg and Loeblich Jr., 1967, p.186, pl.1, figs.9–10,11a–b; text-fig.4. Holotype: Drugg and Loeblich Jr., 1967, pl.1, figs.11a–b. Originally *Operculodinium*, subsequently *Operculodinium?*. Questionable assignment: Stover and Evitt (1978, p.179) as a problematic species. Taxonomic junior synonym: *Polysphaeridium cephalum*, according to Jain and Garg (1991, p.81). Age: late Eocene–Oligocene.

"?*pontis*" Zevenboom and Santarelli in Zevenboom, 1995, p.139, pl.6, figs.11–14. Holotype: Zevenboom, 1995, pl.6, figs.11–14. **Name not validly published**: considered a manuscript name. Questionable assignment: Zevenboom and Santarelli in Zevenboom (1995, p.139). **Taxonomic senior synonym**: *Operculodinium tegillatum*; Louwye (1999, p.115) considered *Operculodinium? pontis* to be a taxonomic junior synonym of *Operculodinium antwerpense*, which is now considered a taxonomic junior synonym of *Operculodinium tegillatum*. N.I.A. Age: ?late Miocene–Pliocene.

"*pseudorecurvatum*" (Morgenroth, 1966a, p.30–31, pl.8, figs.5–6) Stover and Evitt, 1978, p.179. Holotype: Morgenroth, 1966a, pl.8, fig.5. **NOW** *Melitasphaeridium*. Originally *Hystrichosphaeridium*, subsequently *Operculodinium*, thirdly (and now) *Melitasphaeridium*. Taxonomic junior synonym: *Hystrichosphaeridium sheppeyense*, according to Stover and Evitt (1978, p.179). Age: early Eocene.

psilatium Wall, 1967, p.111–112, pl.16, figs.6–8. Holotype: Wall, 1967, pl.16, figs.6–8. Motile equivalent: *Protoceratium reticulatum* (Claparède and Lachmann, 1859) Bütschli, 1885, according to Wall and Dale (1967, p.352). Age: Holocene.

"*pugiatum*" Drugg, 1970b, p.819; text-figs.16D–E. Holotype: Drugg, 1970b, text-fig.16E. **NOW** *Lingulodinium*. Originally *Operculodinium*, subsequently (and now) *Lingulodinium*. Age: Oligocene.

?*punctatum* Cookson and Eisenack, 1971, p.220, pl.9, fig.6. Holotype: Cookson and Eisenack, 1971, pl.9, fig.6. Questionable assignment: Cookson and Eisenack (1971, p.220). Partridge in Lentin and Williams (1985, p.262) considered this species to be an acritarch. Age: Albian–Cenomanian.

radiculatum Smith, 1992, p.348,351, figs.9,10e,i–j. Holotype: Smith, 1992, figs.9,10j. Quattrocchio and Sarjeant (2003, p.142) considered this species to be a possible taxonomic junior synonym of *Cleistosphaeridium* (now *Linguladinium*) *bergmannii*. Age: late Campanian–early Maastrichtian.

?*rarispinosum* Cookson and Eisenack, 1971, p.220–221, pl.9, figs.7–8. Holotype: Cookson and Eisenack, 1971, pl.9, fig.7. Questionable assignment: Cookson and Eisenack (1971, p.220–221). Partridge in Lentin and Williams (1985, p.262) considered this species to be an acritarch. Age: Albian–Cenomanian.

robustum Kar, 1985, p.207–208, pl.50, fig.8. Holotype: Kar, 1985, pl.50, fig.8. Age: Miocene.

severinii (Cookson and Cranwell, 1967, p.208, pl.3, figs.1–2) Islam, 1983b, p.342. Holotype: Cookson and Cranwell, 1967, pl.3, fig.1. Originally *Baltisphaeridium* (Appendix A) subsequently *Impletosphaeridium*, thirdly (and now) *Operculodinium*. Age: Eocene–Oligocene.

"*solarum*" Drugg, 1970b, p.819; text-figs.16A–C. Holotype: Drugg, 1970b, text-figs.16A–C. **NOW** *Lingulodinium*. Originally *Operculodinium*, subsequently (and now) *Lingulodinium*. Age: Oligocene.

?*spiniferum* Cookson and Eisenack, 1982, p.47, pl.4, fig.21. Holotype: Cookson and Eisenack, 1982, pl.4, fig.21. Originally *Operculodinium*, subsequently (and now) *Operculodinium?*. Questionable assignment: Lentin and Williams (1985, p.262). Junior homonym: *Operculodinium spiniferum* de Coninck, 1986b. Age: Senonian.

"*spiniferum*" de Coninck, 1986b, p.16–17, pl.6, figs.21–22,26–28. Holotype: de Coninck, 1986b, pl.6, figs.26–28. **Name illegitimate — senior homonym**: *Operculodinium? spiniferum* Cookson and Eisenack, 1982. **Substitute**

name: *Operculodinium deconinckii*. Originally *Operculodinium spiniferum* de Coninck (name illegitimate), subsequently (and now) *Operculodinium deconinckii*. Age: Bartonian–Tongrian.

"?*spinigerum*" Brideaux, 1977, p.30, pl.12, figs.8–9; pl.13, figs.1–11. Holotype: Brideaux, 1977, pl.12, figs.8–9; pl.13, figs.1–4. Originally *Operculodinium?*, subsequently *Protoellipsodinium*. Questionable assignment: Brideaux (1977, p.30). **Taxonomic senior synonym:** *Protoellipsodinium clavulus*, according to Duxbury (1983, p.53). Age: Barremian.

?*spinulosum* He Chengquan, 1991, p.146, pl.21, fig.5. Holotype: He Chengquan, 1991, pl.21, fig.5. Questionable assignment: He Chengquan (1991, p.146). Age: late Turonian–early Senonian.

taiwanianum Shaw Chenglong, 1999b, p.174–176, figs.45–51. Holotype: Shaw Chenglong, 1999b, figs.46–48. Age: Eocene.

tegillatum Head, 1997, p.180,183, fig.9, nos.13–20; fig.10; fig.11, nos.1–2; fig.16, nos.13–16; fig.17, no.1. Holotype: Head, 1997, fig.9, nos.13–17. Taxonomic junior synonyms: *Operculodinium antwerpense*, according to Louwe and de Schepper (2010, p.767); *Operculodinium? pontis* (name not validly published), a taxonomic junior synonym of *Operculodinium antwerpense* according to Louwe (1999, p.115). Age: middle Pliocene.

tenuissimum He Chengquan et al., 1992, p.187, pl.2, figs.7–12. Holotype: He Chengquan et al., 1992, pl.2, fig.7. Age: Albian.

tiara (Klumpp, 1953, p.390–391, pl.17, figs.8–10) Stover and Evitt, 1978, p.179. Holotype: Klumpp, 1953, pl.17, figs.8–9. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Cordosphaeridium*, fourthly *Cleistosphaeridium*, fifthly (and now) *Operculodinium*. N.I.A. Age: Eocene.

uncinispinosum (de Coninck, 1969, p.32–33, pl.9, figs.6–8) Islam, 1983b, p.342. Holotype: de Coninck, 1969, pl.9, figs.6–8. Originally *Cordosphaeridium*, subsequently *Cordosphaeridium?*, thirdly *Cleistosphaeridium*, fourthly (and now) *Operculodinium*. Age: early Eocene.

vacuolatum Head et al., 1989c, p.492–493, pl.9, figs.8–9. Holotype: Head et al., 1989c, pl.9, figs.8–9. Age: middle or early late? Miocene.

"*variabile*" Zevenboom and Santarelli in Zevenboom, 1995, p.140–141, pl.7, figs.7–12. Holotype: Zevenboom, 1995, pl.7, figs.7–9. **Name not validly published:** considered a manuscript name. Age: early–late Miocene.

wallii Matsuoka, 1983b, p.127, pl.7, fig.9; pl.9, figs.1a–b,2,3a–b,4. Holotype: Matsuoka, 1983b, pl.9, figs.1a–b. Head in Head and Wrenn (1992, p.24) considered this species to be a possible taxonomic junior synonym of *Operculodinium centrocarpum*. Age: late Miocene–early Pleistocene.

xanthium (Benedek, 1972, p.27–28, pl.9, fig.8; text-fig.9) Stover and Evitt, 1978, p.179. Emendation: Benedek and Sarjeant, 1981, p.342–343, as *Lingulodinium xanthium*. Holotype: Benedek, 1972, pl.9, fig.8; Benedek and Sarjeant, 1981, fig.9, no.5. Originally *Cordosphaeridium*, subsequently (and now) *Operculodinium*, thirdly *Lingulodinium*. Stover and Hardenbol (1994, p.33) retained this species in *Operculodinium*. Age: middle-late Oligocene.

zhongyuanense He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.56, pl.17, figs.16–25; pl.30, fig.2; text-fig.7. Holotype: He Chengquan et al., 1989, pl.17, fig.20; text-fig.7. Age: Early Tertiary.

OROBODINIUM Gocht and Wille, 1990, p.697–698. Type: Gocht and Wille, 1990, fig.4, as *Orobodinium automobile*.

**automobile* Gocht and Wille, 1990, p.699–700,702, figs.4–7,8a–b,9a–b,10–17,27–29. Holotype: Gocht and Wille, 1990, fig.4. Age: late Bajocian–middle Callovian.

changii Tykoezinski et al., 2001, p.89, pl.4, figs.1a–b,2a–b,3a–b,4a–b,5a–b,6a–b,7a–b,8–9. Tykoezinski et al., 2001, pl.4, figs.1a–b,9. Taxonomic junior synonym: *Orobodinium cunstonense* (name not validly published), according to Tykoezinski et al. (2001, p.89). Age: early Callovian.

"*cunstonense*" Smith in Tykoezinski et al., 2001, p.89. **Name not validly published**: no description. **Taxonomic senior synonym**: *Orobodinium changii*, according to Tykoezinski et al. (2001, p.89).

rete Gocht and Wille, 1990, p.702–703, figs.23a–b,24a–b. Holotype: Gocht and Wille, 1990, figs.24a–b. Age: early Bathonian.

ORTHOCARINELLUM Keupp, 1987, p.41. Emendation: Kienel, 1994, p.37. Calcareous dinoflagellate genus. Type: Keupp, 1987, pl.7, figs.1–6, as *Orthocarinellum galerum*.

biconvexum Kienel, 1994, p.37–38, pl.5, figs.1–6 (not 11–16). Holotype: Kienel, 1994, pl.5, figs.1–2,4–5. Age: Danian.

conosimile Kohring, 1993a, p.47–48, pl.8b, figs.a–f. Holotype: Kohring, 1993a, pl.8b, figs.a,c–d. Age: late Eocene.

**galerum* Keupp, 1987, p.43, pl.7, figs.1–6; text-fig.5. Holotype: Keupp, 1987, pl.7, figs.1–6. N.I.A. Age: middle Albian–early Cenomanian.

ORTHOPITHONELLA Keupp in Keupp and Mutterlose, 1984, p.158. Emendations: Keupp and Versteegh, 1989, p.210; Streng et al., 2002, p.401. Calcareous dinoflagellate genus (see Streng et al., 2004, p.482 and Elbrächter et al., 2008, p.1300–1301). Taxonomic senior synonym: *Stomiosphaera*, according to Reháková and Michalík (1996, p.93 — however, Streng et al. (2004, p.482) retained *Orthopithonella*. Although in proposing this genus Keupp in Keupp and Mutterlose (1984, p.158), did not validly transfer the "type species" to *Orthopithonella*, the generic name was still valid since it was based on a pre-existing species name. Type: Bolli, 1974, pl.3, fig.9; pl.12, fig.9; pl.22, fig.3, as *Pithonella gustafsonii*.

"*aculeata*" Willems, 1996, p.223, pl.1, fig.2. Holotype: not designated. **Name not validly published**: no description. Age: early Danian.

?*aequilamellata* Willems, 1988, p.446–449, pl.3, figs.11–16. Holotype: Willems, 1988, pl.3, fig.15. Questionable assignment: Streng et al. (2004, p.482). Age: early Santonian.

"*albatrosiana*" (Kamptner, 1963, p.177–178, pl.5, fig.30) Lentin and Williams, 1985, p.383. Holotype: Kamptner, 1963, fig.30. **NOW** *Calciodinellum*. Originally *Thoracosphaera*, subsequently *Orthopithonella*, thirdly *Sphaerodinella*, fourthly (and now) *Calciodinellum*. Taxonomic junior synonyms: *Thoracosphaera ricaseta*, according to Fütterer (1976, p.134); and *Thoracosphaera rela* according to Fütterer (1978, p.716). Age: extant.

?*aspera* Fütterer, 1990, p.538, pl.5, figs.1–3. Holotype: Fütterer, 1990, pl.5, figs.1–2. Questionable assignment: Streng et al. (2004, p.482). Age: latest Maastrichtian–late Danian.

compsa (Keupp, 1982, p.318–319, pl.6.2–3, figs.5–8) Lentin and Williams, 1985, p.384. Holotype: Keupp, 1982, pl.6.2–3, figs.6–8. Originally *Pithonella*, subsequently (and now) *Orthopithonella*. Age: late Aptian–Campanian.

?*congruens* Fütterer, 1990, p.539, pl.4, figs.1–3,6–7. Holotype: Fütterer, 1990, pl.4, fig.6. Questionable assignment: Streng et al. (2004, p.482). Taxonomic senior synonym: *Stomiosphaera wanneri* according to Reháková and Michalík (1996, p.93) — however, Streng et al. (2004, p.482) retained *Orthopithonella congruens*. Age: late Maastrichtian–earliest Danian.

"*cookii*" (Bolli, 1974, p.856, pl.6, figs.9–12; pl.18, figs.3–9; pl.23, fig.6) Willems, 1988, p.437. Holotype: Bolli, 1974, pl.6, fig.9; pl.23, fig.6. **Combination not validly published**: basionym not fully referenced. **NOW**

Pirumella. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly *Orthopithonella* (combination not validly published), fourthly (and now) *Pirumella*. Age: Coniacian–Santonian.

"*deflandrei*" (Kamptner, 1956, p.448–455, figs.1–4) Kohring, 1993a, p.30. Holotype: Kamptner, 1956, fig.1. **NOW** *Fuettererella*. Originally *Thoracosphaera*, subsequently *Orthopithonella*, thirdly (and now) *Fuettererella*. This combination was not validly published in Keupp (1992a, p.499), since that author did not fully reference the basionym. Taxonomic junior synonyms: *Thoracosphaera* (now *Orthopithonella*) *johnstonei* and *Orthopithonella?* *minuta*, according to Kohring (1993a, p.30) — however, Streng et al. (2004, p.482) retained *Pithonella* (as *Pirumella*) *johnstonei* and *Orthopithonella?* *minuta*. Age: Eocene.

?*duplicata* Kohring, 1993a, p.36–38, pl.5, figs.a–h; pl.6, figs.a–l; pl.36, figs.d–e; text-fig.6. Holotype: Kohring, 1993a, pl.5, fig.a; pl.6, fig.l. Questionable assignment: Streng et al. (2004, p.482). Age: late Eocene.

"*flora*" Fütterer, 1990, p.538, pl.3, figs.1–7. Holotype: Fütterer, 1990, pl.3, figs.1,3. **NOW** *Fuettererella*. Originally *Orthopithonella*, subsequently (and now) *Fuettererella*. N.I.A. Age: late Maastrichtian–Danian.

?*geometrica* (Jafar, 1983, p.233, fig.10, nos.5–6; fig.11, no.6) Janofske, 1987, p.50. Holotype: Jafar, 1983, fig.10, no.5. Originally *Prinsiosphaera* (Appendix A), subsequently *Orthopithonella*, thirdly *Thoracosphaera*, fourthly (and now) ?*Orthopithonella*. Janofske (1992, p.18) retained this species in *Orthopithonella*. Questionable assignment: Streng et al. (2004, p.482). Taxonomic junior synonyms (at specific rank): *Prinsiosphaera triassica* subsp. *hyalina* and *Prinsiosphaera triassica* subsp. *noeliae* (both Appendix A), according to Janofske (1987, p.50). Age: Rhaetian.

?*globosa* (Fütterer, 1984, p.536, pl.2, figs.1–9) Lentin and Williams, 1985, p.384. Holotype: Fütterer, 1984, pl.2, figs.1–3. Originally *Pithonella*, subsequently *Orthopithonella*, thirdly *Obliquipithonella*, fourthly (and now) *Orthopithonella?*. Questionable assignment: Kohring (1993a, p.38). Age: middle Maastrichtian–early Danian.

"*granifera*" (Fütterer, 1978, p.715, pl.2, figs.1–12) Keupp and Kohring, 1993, p.29. Emendation: Janofske and Karwath, 2000, p.107–108, as *Leonella granifera*. Holotype: Fütterer, 1978, pl.2, figs.1,4,7. **NOW** *Leonella*. Originally *Thoracosphaera*, subsequently *Obliquipithonella*, thirdly *Orthopithonella*, fourthly (and now) *Leonella*. Age: late Pliocene–Pleistocene.

"forma *salebra*" Kienel, 1994, p.35–36, pl.3, figs.11–12,14–15. **Name not validly published**: holotype not designated. Age: Danian.

**gustafsonii* (Bolli, 1974, p.854, pl.3, figs.9–12; pl.12, figs.7–12; pl.13, figs.1–2; pl.22, fig.3) Lentin and Williams, 1985, p.384. Emendation: Streng et al., 2002, p.404. Holotype: Bolli, 1974, pl.3, fig.9; pl.12, fig.9; pl.22, fig.3. Originally *Pithonella*, subsequently (and now) *Orthopithonella*. Taxonomic junior synonyms: *Pithonella paratabulata*, according to Keupp (1981, p.20); *Pithonella pycnothecata* and *Pithonella tithonica*, both according to Willems (1988, p.437) — however, Kohring (1993a, p.35) retained *Pithonella* (as and now *Orthopithonella*) *pycnothecata*. Age: ?late Aptian–middle Albian.

forma *gustafsonii*. Autonym. Holotype: Bolli, 1974, pl.3, fig.9; pl.12, fig.9; pl.22, fig.3.

forma *salebra* Kienel, 1994, p.34–35, pl.3, figs.1–10,13. Holotype: Kienel, 1994, pl.3, figs.3,6, as *Orthopithonella* cf. *gustafsonii* forma *salebra*. Age: Danian.

?*minuta* Fütterer, 1990, p.537–538, pl.1, figs.3–9. Holotype: Fütterer, 1990, pl.1, figs.4–5. Questionable assignment: Streng et al. (2004, p.482). Taxonomic senior synonym: *Thoracosphaera* (now *Fuettererella*) *deflandrei*, according to Kohring (1993a, p.30) — however, Streng et al. (2004, p.482) retained *Orthopithonella?* *minuta*. Age: early Paleocene–middle Miocene.

?*misurinae* Janofske, 1992, p.12–13, pl.1, figs.1a–f,2a–e; pl.2, figs.1a–d,2a–d,3a–c,4a–e; pl.3, figs.1a–d,2a–f; pl.19, figs.1–3. Holotype: Janofske, 1992, pl.1, figs.1a–f. fig.3. Questionable assignment: Streng et al. (2004, p.482). Age: Carnian.

?*multipora* Kienel, 1994, p.36, pl.4, figs.1–4. Holotype: Kienel, 1994, pl.4, figs.1–2. Questionable assignment: Streng et al. (2004, p.482). Age: Danian.

?*ornata* Zügel, 1994, p.83–85, pl.20, figs.8–15. Holotype: Zügel, 1994, pl.20, figs.8–10. Questionable assignment: Streng et al. (2004, p.482). Age: late Cenomanian.

?*porata* (Keupp, 1982, p.316–318, pl.6.2–2, fig.12; pl.6.2–3, figs.1–4,10) Lentin and Williams, 1985, p.384. Holotype: Keupp, 1982, pl.6.2–3, figs.1–2. Originally *Pithonella*, subsequently *Orthopithonella*, thirdly (and now) *Orthopithonella*. Questionable assignment: Streng et al. (2004, p.482). Age: early Barremian–early Albian.

?*porifera* Keupp and Kowalski, 1992, p.218, pl.2, figs.6–15. Holotype: Keupp and Kowalski, 1992, pl.2, figs.7–9. Questionable assignment: Streng et al. (2004, p.482). Age: late Albian.

?*pynothecata* (Keupp, 1978, p.94, figs.11–12) Lentin and Williams, 1985, p.384. Holotype: Keupp, 1978, fig.11. Originally *Pithonella*, subsequently *Orthopithonella*, thirdly (and now) *Orthopithonella*. Questionable assignment: Streng et al. (2004, p.482). Taxonomic senior synonym: *Pithonella* (as and now *Orthopithonella gustafsonii*, according to Willems (1988, p.437) — however, Kohring (1993a, p.35) retained *Orthopithonella pynothecata*. Age: Tithonian.

?*reticulata* Zügel, 1994, p.81, pl.19, figs.12–14. Holotype: Zügel, 1994, pl.19, figs.12–13. Questionable assignment: Streng et al. (2004, p.482). Age: late Cenomanian.

"*tesserula*" (Fütterer, 1978, p.715, pl.3, figs.1–8,10–11) Keupp, 1992a, p.499. Holotype: Fütterer, 1978, pl.3, figs.1,4,7,10. **Combination not validly published:** basionym not fully referenced. **NOW** *Fuettererella*. Originally *Thoracosphaera*, subsequently *Orthopithonella* (combination not validly published), thirdly (and now) *Fuettererella*. N.I.A. Age: Paleocene–late Oligocene.

"*tithonica*" (Keupp, 1978, p.90,92, figs.7–10) Lentin and Williams, 1985, p.384. Holotype: Keupp, 1978, fig.7. Originally *Pithonella*, subsequently *Orthopithonella*. **Taxonomic senior synonym:** *Pithonella* (as and now *Orthopithonella gustafsonii*, according to Willems (1988, p.437). Age: Tithonian.

?*veeversii* (Bolli, 1974, p.855, pl.5, figs.9–12; pl.16, figs.5–12; pl.23, fig.3) Lentin and Williams, 1985, p.384. Holotype: Bolli, 1974, pl.5, figs.9–10; pl.23, fig.3. Originally *Pithonella*, subsequently *Orthopithonella*, thirdly (and now) *Orthopithonella*. Questionable assignment: Streng et al. (2004, p.482). Age: Albian.

?*weileri* Kohring, 1993a, p.40, pl.34, figs.a–f. Holotype: Kohring, 1993a, pl.34, figs.d–f. Questionable assignment: Streng et al. (2004, p.482). Age: Oligocene.

"*williamsonii*" (Bolli, 1978b, p.912–913, pl.2, figs.1–12; pl.3, figs.1–12 ex Keupp, 1981, p.65) Willems, 1988, p.449. Holotype: Bolli, 1978b, pl.2, figs.1–3. **NOW** *Pirumella*. Originally *Bonetocardiella*, subsequently *Pithonella*, thirdly *Obliquipithonella*, fourthly *Orthopithonella*, fifthly (and now) *Pirumella*. Age: Oxfordian–Kimmeridgian.

ORTHOTABULATA Kienel, 1994, p.38. Calcareous dinoflagellate genus (see Streng et al., 2004, p.482 and Elbrächter et al., 2008, p.1301). Type: Kienel, 1994, pl.5, figs.7–12, as *Orthotabulata obscura*.

**obscura* Kienel, 1994, p.38–39, pl.5, figs.7–15. Holotype: Kienel, 1994, pl.5, figs.7–12. Age: Danian.

OVALICYSTA Bjaerke, 1980, p.71. Taxonomic senior synonym: *Dodekovia*, according to Below (1987a, p.113) — however, Stover and Williams (1987, p.169) and Lentin and Williams (1989, p.269) retained *Ovalicysta*. Type: Bjaerke, 1980, pl.2, fig.7, as *Ovalicysta hiata*.

***hiata** Bjaerke, 1980, p.71, pl.2, figs.7–12. Holotype: Bjaerke, 1980, pl.2, fig.7; Fensome et al., 1995, fig.1 — p.1543. Taxonomic senior synonym: *Dodekovia syzygia*, according to Below (1987a, p.121) — however, Lentin and Williams (1989, p.269) retained *Ovalicysta hiata*. Age: Toarcian.

VOIDINIUM Davey, 1970, p.351. Emendations: Lentin and Williams, 1976, p.103–104; Duxbury, 1983, p.61,63. Taxonomic senior synonym: *Ascodinium*, according to Helenes (1983, p.258) — however, Lentin and Williams (1989, p.269) retained *Ovoidinium*. Taxonomic junior synonyms: *Craspedodinium*, according to Lentin and Williams (1976, p.157) — however, Stover and Evitt (1978, p.34) retained *Craspedodinium*; *Evittia* Pocock (illegitimate name); *Pocockia* (substitute name for *Evittia* Pocock), according to Lentin and Williams (1976, p.162). Type: Cookson and Hughes, 1964, pl.5, fig.4, as *Ascodinium verrucosum*.

cinctum (Cookson and Eisenack, 1958, p.26, pl.4, figs.1–3) Davey, 1970, p.354. Holotype: Cookson and Eisenack, 1958, pl.4, fig.3. Originally *Deflandrea*, subsequently *Evittia* Pocock (combination illegitimate), thirdly *Pocockia*, fourthly (and now) *Ovoidinium*, fifthly *Ascodinium*. Lentin and Williams (1989, p.269) retained this species in *Ovoidinium*. Age: late Neocomian–early Aptian.

diversum Davey, 1979b, p.558, pl.6, figs.6–16. Holotype: Davey, 1979b, pl.6, fig.9. Originally (and now) *Ovoidinium*, subsequently *Ascodinium*. Lentin and Williams (1989, p.269) retained this species in *Ovoidinium*. Age: late Aptian–early Albian.

?fragile Norvick, 1976, p.88, pl.13, figs.1,8; pl.17, fig.7. Holotype: Norvick, 1976, pl.13, fig.1. Originally (and now) *Ovoidinium?*, subsequently *Ascodinium?*. Lentin and Williams (1989, p.269) questionably retained this species in *Ovoidinium*. Questionable assignment: Norvick (1976, p.88). Age: Cenomanian.

granulatum Song Zhichen in Song Zhichen et al., 1985, p.39, pl.7, figs.1–2. Holotype: Song Zhichen et al., 1985, pl.7, figs.1–2. Age: late Eocene–early Oligocene.

implanum Davey, 1979b, p.558–559, pl.5, figs.7–9,11–12. Holotype: Davey, 1979b, pl.5, figs.7,11. Originally (and now) *Ovoidinium*, subsequently *Ascodinium*. Lentin and Williams (1989, p.269) retained this species in *Ovoidinium*. Age: late Albian.

incomptum Duxbury, 1983, p.64, pl.10, figs.4–5,9; text-figs.30A–C. Holotype: Duxbury, 1983, pl.10, figs.5,9; text-fig.30C. Originally (and now) *Ovoidinium*, subsequently *Ascodinium*. Lentin and Williams (1989, p.269) retained this species in *Ovoidinium*. Age: late Aptian.

incorporeum Duxbury, 1983, p.65, pl.10, fig.14; text-figs.31A–B. Holotype: Duxbury, 1983, pl.10, fig.14; text-figs.31A–B. Originally (and now) *Ovoidinium*, subsequently *Ascodinium*. Lentin and Williams (1989, p.270) retained this species in *Ovoidinium*. Age: late Aptian–early Albian.

"?indicum" Jain and Taugourdeau-Lantz, 1973, p.64, pl.4, figs.1–2. Holotype: Jain and Taugourdeau-Lantz, 1973, pl.4, fig.1. **NOW** *Yalkalpodinium*. Originally *Ovoidinium*, subsequently *Ovoidinium?*, thirdly (and now) *Yalkalpodinium*. Questionable assignment: Stover and Evitt (1978, p.217). Age: ?Aptian–?early Albian.

"?indistinctum" (Cookson and Eisenack, 1974, p.76, pl.25, figs.6–8) Lentin and Williams, 1976, p.105. Emendation: Riding and Helby, 2001h, p.229–230, as *Craspedodinium indistinctum*. Holotype: Cookson and Eisenack, 1974, pl.25, fig.7. **NOW** *Craspedodinium*. Originally (and now) *Craspedodinium*, subsequently *Ovoidinium?*. Questionable assignment: Lentin and Williams (1976, p.105). Age: late Albian (as revised by Riding and Helby, 2001h, p.232).

?kansanum (Tasch in Tasch et al., 1964, p.196, pl.1, fig.1) Lentin and Williams, 1976, p.105. Holotype: Tasch et al., 1964, pl.1, fig.1. Originally *Peridinium* (Appendix B), subsequently *Deflandrea?*, thirdly (and now) *Ovoidinium?*, fourthly *Ascodinium?*. Lentin and Williams (1989, p.270) questionably retained this species in *Ovoidinium*. Questionable assignment: Lentin and Williams (1976, p.105). Age: Albian.

membranaceum Slimani, 1994, p.115–116, pl.18, figs.7–12. Holotype: Slimani, 1994, pl.18, figs.7–9. Age: early Campanian–late Maastrichtian.

"**ostium**" Davey, 1970, p.353, pl.4, figs.5–6; text-fig.1B. Holotype: Davey, 1970, pl.4, fig.5. **NOW** *Ovoidinium verrucosum* subsp. *ostium*. Originally *Ovoidinium ostium*, subsequently *Ovoidinium verrucosum* var. *ostium*, thirdly (and now) *Ovoidinium verrucosum* subsp. *ostium*, fourthly *Ascodinium verrucosum* subsp. *ostium*. Lentin and Williams (1989, p.270) retained this taxon in *Ovoidinium* as *Ovoidinium verrucosum* subsp. *ostium*. Age: Albian–early Cenomanian.

ovale (Cookson and Eisenack, 1970a, p.145, pl.13, fig.8) Lentin and Williams, 1976, p.105. Holotype: Cookson and Eisenack, 1970a, pl.13, fig.8. Originally *Ascodinium*, subsequently (and now) *Ovoidinium*. Lentin and Williams (1989, p.270) retained this species in *Ovoidinium*. Age: Albian–Cenomanian.

scabratum (Jain and Taugourdeau-Lantz, 1973, p.64, pl.4, figs.11–12) Khowaja-Ateequzzaman and Garg, 2004b, p.13. Holotype: Jain and Taugourdeau-Lantz, 1973, pl.4, fig.11. Emendation: Khowaja-Ateequzzaman and Garg, 2004a, p.13–14. Originally *Hexagonifera*, subsequently *Leberidocysta?*, thirdly *Hexagonifera?*, fourthly (and now) *Ovoidinium*. Age: Early Cretaceous.

scabrosum (Cookson and Hughes, 1964, p.40, pl.5, figs.1–3) Davey, 1970, p.352. Holotype: Cookson and Hughes, 1964, pl.5, fig.1. Originally *Ascodinium*, subsequently (and now) *Ovoidinium*. Lentin and Williams (1989, p.270) retained this species in *Ovoidinium*. Age: late Albian–early Cenomanian.

striatum Riding and Helby, 2001h, p.232–233, figs.4A–P,5A–D. Holotype: Riding and Helby, 2001h, figs.4I–K. Age: late Aptian.

"?**torulosum**" (Davey and Verdier, 1973, p.180,183, pl.1, figs.2,5,8) Below, 1981a, p.124. Holotype: Davey and Verdier, 1973, pl.1, fig.2. **NOW** *Canningia*. Originally (and now) *Canningia*, subsequently *Batiacasphaera*, thirdly *Ovoidinium*. Questionable assignment: Below (1981a, p.124). Age: late Albian–early Cenomanian.

"?**turritum**" (Brideaux, 1977, p.13, pl.4, figs.1–9) Below, 1981a, p.125. Holotype: Brideaux, 1977, pl.4, figs.1–3. **NOW** *Canningia?*. Originally (and now) *Canningia?*, subsequently *Ovoidinium?*. Questionable assignment: Below (1981a, p.125). Age: Barremian.

***verrucosum** (Cookson and Hughes, 1964, p.41, pl.5, figs.4–7) Davey, 1970, p.351–352. Holotype: Cookson and Hughes, 1964, pl.5, fig.4. Originally *Ascodinium*, subsequently (and now) *Ovoidinium*. Lentin and Williams (1989, p.270) retained this species in *Ovoidinium*. Age: late Albian–early Cenomanian.

subsp. **ostium** (Davey, 1970, p.353, pl.4, figs.5–6; text-fig.1B) Lentin and Williams, 1975, p.2153. Holotype: Davey, 1970, pl.4, fig.5. Originally *Ovoidinium ostium*, subsequently *Ovoidinium verrucosum* var. *ostium*, thirdly (and now) *Ovoidinium verrucosum* subsp. *ostium*, fourthly *Ascodinium verrucosum* subsp. *ostium*. Lentin and Williams (1989, p.270) retained this taxon as *Ovoidinium verrucosum* subsp. *ostium*. Age: Albian–early Cenomanian.

"var. **ostium**" (Davey, 1970, p.353, pl.4, figs.5–6; text-fig.1B) Davey and Verdier, 1973, p.198. Holotype: Davey, 1970, pl.4, fig.5. **NOW** *Ovoidinium verrucosum* subsp. *ostium*. Originally *Ovoidinium ostium*, subsequently *Ovoidinium verrucosum* var. *ostium*, thirdly (and now) *Ovoidinium verrucosum* subsp. *ostium*, fourthly *Ascodinium verrucosum* subsp. *ostium*. Age: Albian–early Cenomanian.

subsp. **verrucosum**. Autonym. Holotype: Cookson and Hughes, 1964, pl.5, fig.4. Originally (and now) *Ovoidinium verrucosum* subsp. *verrucosum*, subsequently *Ascodinium verrucosum* subsp. *verrucosum*.

"var. **verrucosum**". Autonym. Holotype: Cookson and Hughes, 1964, pl. 5, fig. 4. **Now redundant**.

waltonii (Pocock, 1972, p.93, pl.22, figs.13–14) Lentin and Williams, 1976, p.105. Holotype: Pocock, 1972, pl.22, fig.14. Originally *Evittia* Pocock (generic name illegitimate), subsequently *Pocockia*, thirdly (and now)

Ovoidinium, fourthly *Ascodinium*. Lentin and Williams (1989, p.270) retained this species in *Ovoidinium*. Age: ?Toarcian–?Bajocian, as given by Jansonius (1986, p.202).

PALAECYSTA Chen, 2013, p.288–289. Type: Chen, 2013, pl.1, fig.1, as *Palaecysta integra*.

complicata (Neale and Sarjeant 1962, p.455–456, pl.19, figs.6–7) Williams and Fensome, 2016, p.140. Holotype: Neale and Sarjeant, 1962, pl.19, figs.6–7; Fauconnier and Masure, 2004, pl.75, figs.7–8. Originally *Systematophora*, subsequently (and now) *Palaecysta*. This combination was not validly published in Chen (2013, p.290), since that author did not fully reference the basionym. Age: late Hauterivian–mid Barremian.

crispabaculata Chen, 2013, p.290–291, pl.11, figs.124–130; pl.12, figs.135–147; text-fig.9, nos.1–2, text-fig.10, nos.27–28, text-fig.11, nos.53–55. Holotype: Chen, 2013, pl.11, fig.124. The validity of this species name may be in question. Chen (2013) provided no separate entry for the species but provided two separate entries for "*Palaecysta crispabaculata* sp. nov. subsp. *crispa* (Chen, 2013, p.290–291) and "*Palaecysta crispabaculata* subsp. *delicata*" (Chen, 2013, p.291). In the remarks to the former he refers to "this species" and in remarks to the latter he makes comparison with "*P. crispabaculata*" rather than with the autonym (i.e. the other subspecies). Here we consider the species *Palaecysts crispabaculata* to be validly published with the protologue circumscribing the text and illustrations for the two subspecies. On this basis, Chen's *Palaecysta crispabaculata* subsp. *crispa* must be called *Palaecysta crispabaculata* subsp. *crispabaculata* as the autonym. Age: early Hauterivian.

"subsp. ***crispa***" Chen, 2013, p.290–291, pl.11, figs.124–130; pl.12, figs.139,145–147, text-fig.9, no.1; text-fig.10, no.27; text-fig.11, nos.53–55. Holotype: Chen, 2013, pl.11, fig.124. **Incorrect name for autonym.** **NOW** *Palaecysta crispabaculata*. Originally *Palaecysta crispabaculata* subsp. *crispa* (name incorrect), subsequently (and now) *Palaecysta crispabaculata* subsp. *crispabaculata*.

subsp. ***crispabaculata***. Autonym. Holotype: Chen, 2013, pl.11, fig.124. This taxon was illustrated in Chen (2013) as pl.11, figs.124–130; pl.12, figs.139,145–147, text-fig.9, no.1; text-fig.10, no.27; text-fig.11, nos.53–55.

subsp. ***delicata*** Chen, 2013, p.291, pl.12, figs.135–138,140–144; text-fig.9, no.2, text-fig.10, no.28. Holotype: Chen, 2013, pl.12, fig.142. Age: early Hauterivian.

foveoreticulata Chen, 2013, p.291–292, pl.6, figs.59–69; pl.7, figs.71–81; pl.8, figs.82–87; text-fig.9, nos.6,17–25; text-fig.10, nos.32,42–50. Holotype: Chen, 2013, pl.6, fig.59. Age: late Berriasian.

subsp. ***foveoreticulata***. Autonym. Holotype: Chen, 2013, pl.6, fig.59.

subsp. ***madagascarensis*** Chen, 2013, p.291–292, pl.8, figs.82–87; text-fig.9, nos. 6,10,32. Holotype: Chen, 2013, pl.8, fig.83. Age: Berriasian.

****integra*** Chen, 2013, p.289–290, pl.1, figs.1–6; pl.2, figs.16–20; pl.5, figs.51–58; text-figs.5A–C; text-figs.9, nos.5,7,11,14; text-figs.10, nos.31,38, text-figs.11, nos.64–65,67. Holotype: Chen, 2013, pl.1, fig.1. Age: late Tithonian–Berriasian.

subsp. ***digitata*** Chen, 2013, p.290, pl.2, figs.16–17; text-fig.9, no.14, text-fig.10, no.38, text-fig.11, no.67. Holotype: Chen, 2013, pl.2, fig.17. Age: late Tithonian.

subsp. ***integra***. Autonym. Holotype: Chen, 2013, pl.1, fig.1.

mahajangaensis Chen, 2013, p.290, pl.5, figs.51–58; text-fig.9, no.7, text-fig.11, nos.62–63. Holotype: Chen, 2013, pl.5, fig.52; text-fig.10, no.33. Age: late Tithonian.

melakyensis Chen, 2013, p.292, pl.13, figs.148–151; text-figs.9, no.13, text-fig.10, no.39. Holotype: Chen, 2013, pl.13, fig.148. Age: late Tithonian–early Berriasian.

morondavaensis Chen, 2013, p.293, pl.3, figs.27–36; text-fig.6; text-fig.10, no.3; text-fig.11, nos.69–70. Holotype: Chen, 2013, pl.3, fig.34; text-fig.9, no.3, text-fig.10, no.29. Age: late Tithonian–Berriasian.

palmula (Davey, 1982b, p.11–12, pl.1, figs.1–4) Williams and Fensome, 2016, p.140. Holotype: Davey, 1982b, pl.1, figs.1–3; Fauconnier and Masure, 2004, pl.76, figs.11–13 Originally *Systematophora*, subsequently (and now) *Palaecysta*. This combination was not validly published in Chen (2013, p.293), since that author did not fully reference the basionym. Chen (2013, p.293) listed some of his illustrations as paratypes; however, since Chen's paper does not constitute the protologue for this species, and as the illustrations do not purport to be from Davey's (1982b) original study, they are not paratypes. Age: Ryazanian–Valanginian.

subsp. *ankamotraensis* Chen, 2013, p.293, pl.2, figs.22–26; text-fig.7, text-fig.9, nos.9–10, text-fig.10, no.35 ex Williams and Fensome, 2016, 141. Holotype: Chen, 2013, pl.2, fig.23. The name was not validly published in Chen (2013, p.293), since the combination *Palaecysta palmula* was not validly published. Age: late Tithonian.

subsp. *palmula*. Autonym. Holotype: Davey, 1982b, pl.1, figs.1–3.

pectita Chen, 2013, p.293–294, pl.8, figs.88–98; pl.11, figs.132–134; text-fig.9, no.4,11; text-fig., 10, nos.30, 36, text-fig.11, no.66. Holotype: Chen, 2013, pl.8, fig.91. Age: middle Berriasian.

subsp. *merinai* Chen, 2013, p.294, pl.11, figs.132–134, text-fig.10, no.30. Holotype: Chen, 2013, pl.11, fig.132; text-fig.10, no.30. Age: late Tithonian.

subsp. *pectita*. Autonym. Holotype: Chen, 2013, pl.8, fig.91.

sylibum (Davey, 1979a, p.433–434,436, pl.48, figs.7–9, pl.50, figs.2–7,5–6,7–9) Williams and Fensome, 2016, p.140. Holotype: Davey, 1979a, pl.50, fig.2; Fauconnier and Masure, 2004, pl.77, fig.3. Originally *Systematophora*, subsequently (and now) *Palaecysta*. This combination was not validly published in Chen (2013, p.293), since that author did not fully reference the basionym. N.I.A. Age: late Tithonian–Barremian.

virgae Chen, 2013, p.292,294–295, pl.1, figs.7–14; pl.9, figs.100–101, pl.10, figs.110–120; text-fig.9, nos.12,16,26, text-fig.10, nos.37,41, 52, text-fig.11, nos.58–61. Holotype: Chen, 2013, pl.1, fig.7. Age: Berriasian.

subsp. *externa* Chen, 2013, p.294–295, pl.10, figs.110–120; text-fig.8, text-fig.9, no.12, text-fig.10, no.37, text-fig.11, nos.60–61. Holotype: Chen, 2013, pl.10, fig.119. Age: late Tithonian–Berriasian.

subsp. *lanceolata* Chen, 2013, p.292, pl.9, figs.100–101,104–105,107–109; text-figs.9, no.26, text-fig.10, no.52. Holotype: Chen, 2013, pl.9, fig.107. Chen (2013, p.292) described this subspecies several pages before he erected the species (Chen, 2013, p.294). Age: late Tithonian–Berriasian.

subsp. *virgae*. Autonym. Holotype: Chen, 2013, pl.1, fig.7.

"**PALAEOCERATIUM**" Wetzels, 1948, p.329. **Name not validly published:** no description.

"*operculatum*" (Wetzels, 1933a, p.170, pl.2, figs.21–22; text-fig.3) Wetzels, 1948, p.329. Holotype: Wetzels, 1933a, pl.2, fig.21. **Combination not validly published:** the generic name *Palaecoceratium* is not validly published. **NOW** *Odontochitina*. Originally *Ceratium* subgenus *Euceratium* (Appendix B), subsequently *Palaecoceratium* subgenus *Euceratium* (combination not validly published), thirdly (and now) *Odontochitina*. Taxonomic junior synonym: *Odontochitina silicorum*, according to Deflandre and Cookson (1955, p.292). Age: Senonian.

PALAEOCYSTODINIUM Alberti, 1961, p.20. Emendation: Fensome et al. 2009, p.48. Taxonomic senior synonym: *Svalbardella*, according to Lindgren (1984, p.186) — however, Wrenn and Hart (1988, p.361–362) retained *Palaecocystodinium*. Taxonomic junior synonym: *Cystodiniopsis* Vozzhennikova, 1963, by implication in Vozzhennikova (1967, p.152), who transferred the "type species" of *Cystodiniopsis* Vozzhennikova, 1963,

Cystodiniopsis hyperxantha, to *Palaeocystodinium*. Type: Alberti, 1961, pl.7, fig.12, as *Palaeocystodinium golzowense*.

akhmetievi Vasilyeva in Andreeva-Grigorovich et al., 2011, p.48–49, pl.6, figs. 5–6. Holotype: Andreeva-Grigorovich et al., 2011, pl.6, figs.5–6. Age: Danian–Selandian.

australinum (Cookson, 1965b, p.140, pl.25, figs.1–4) Lentin and Williams, 1976, p.89. Emendation: Malloy, 1972, p.63, as *Svalbardella australina*. Holotype: Cookson, 1965b, pl.25, fig.4. Originally *Svalbardella*, subsequently (and now) *Palaeocystodinium*. Age: Paleocene.

benjaminii Drugg, 1967, p.31, pl.3, fig.1; pl.9, fig.3. Holotype: Drugg, 1967, pl.3, fig.1. Age: Maastrichtian–Danian.

bulliforme Ioannides, 1986, p.31, pl.17, figs.2–5. Holotype: Ioannides, 1986, pl.17, fig.4. Age: Maastrichtian–early Paleocene.

?*deflandrei* Gruas-Cavagnetto, 1968, p.92–93, pl.13, figs.15–19. Holotype: Gruas-Cavagnetto, 1968, pl.13, figs.15,18. Questionable assignment: Gruas-Cavagnetto (1968, p.92). Age: late Paleocene.

?*denticulatum* Alberti, 1961, p.20–21, pl.7, fig.9. Holotype: Alberti, 1961, pl.7, fig.9. Questionable assignment: Alberti (1961, p.20). Age: Turonian.

elegans He Chengquan, 1991, p.86–87, pl.34, figs.12–13. Holotype: He Chengquan, 1991, pl.34, fig.13. Age: late Eocene.

"*gabonense*" Stover and Evitt, 1978, p.115. Holotype: Malloy, 1972, pl.1, fig.17, as *Svalbardella australina*. **NOW** *Andalusiella*. Originally *Palaeocystodinium*, subsequently (and now) *Andalusiella*. Age: Maastrichtian.

****golzowense*** Alberti, 1961, p.20, pl.7, figs.10–12; pl.12, fig.16. Holotype: Alberti, 1961, pl.7, fig.12. Age: late Eocene–late Oligocene.

granulatum (Wilson, 1967b, p.226–227, figs.7–9) Lentin and Williams, 1976, p.89. Holotype: Wilson, 1967b, fig.9. Originally *Svalbardella*, subsequently (and now) *Palaeocystodinium*. Age: Maastrichtian (see Wilson, 1972).

hampdenense (Wilson, 1977, p.564–566, figs.1–8) Wrenn and Hart, 1988, p.362. Holotype: Wilson, 1977, figs.1–3. Originally *Svalbardella*, subsequently (and now) *Palaeocystodinium*. Age: middle Eocene.

?*hyperxanthum* (Vozzhennikova, 1963, p.185, fig.20) Vozzhennikova, 1967, p.152. Emendation: Lentin and Vozzhennikova, 1990, p.60, as *Palaeocystodinium? hyperxanthum*. Holotype: Vozzhennikova, 1963, fig.20, lost according to Lentin and Vozzhennikova (1990, p.60). Lectotype: Lentin and Vozzhennikova, 1990, pl.7, fig.7; text-fig.31, designated by Lentin and Vozzhennikova (1990, p.60). Originally *Cystodiniopsis*, subsequently *Palaeocystodinium*, thirdly (and now) *Palaeocystodinium?*. Questionable assignment: Stover and Evitt (1978, p.115). Age: Paleocene.

lidiae (Górka, 1963, p.37–39, pl.5, fig.6) Davey, 1969b, p.12–13. Emendation: Davey, 1969b, p.12, as *Palaeocystodinium lidiae*. Holotype: Górka, 1963, pl.5, fig.6. Originally *Leiofusa* (Appendix A), subsequently (and now) *Palaeocystodinium*. Age: Maastrichtian.

"*microgranulatum*" Jain and Milleped, 1973, p.29, pl.2, figs.23–24; pl.3, fig.30. Holotype: Jain and Milleped, 1973, pl.3, fig.30. **Taxonomic senior synonym:** *Svalbardella* (as *Alterbia*; now *Andalusiella polymorpha*, according to Lentin and Williams (1976, p.89)). Age: Maastrichtian.

minor Strauss in Strauss et al., 2001, p.407, pl.2, figs.1–3; text-fig.2 (part). Holotype: Strauss et al., 2001, pl.2, fig.1. This name was not validly published in Rusbült and Strauss (1992, p.156 — caption to fig.2) and Lund et al. (1993, caption to pl.1, fig.15) since these authors did not provide a description. Age: middle Miocene.

miocaenicum Strauss in Strauss et al., 2001, p.407–409, pl.2, figs.4–5; text-fig.2 (part). Holotype: Strauss et al., 2001, pl.2, fig.5. This name was not validly published in Rusbült and Strauss (1992, caption to fig.2) since these authors did not provide a description. Age: middle Miocene.

obesum Fensome et al., 2009, p.50, pl.8, figs.j–l. Holotype: Fensome et al., 2009, pl.8, fig.l. Age: youngest occurrence, Rupelian.

pilosum Guler et al., 2005, p.421–422, figs.6F–R. Holotype: Guler et al., 2005, fig.6R. Age: late? Maastrichtian.

powellense Strauss et al., 2001, p.409, pl.2, figs.6–7. Holotype: Strauss and Lund, 1992, pl.5, fig.1, designated by Strauss et al. (2001, p.409). Age: middle Miocene.

"**punctatum**" Jain and Millepied, 1973, p.29, pl.2, fig.24 (identified as *Palaeocystodinium microgranulatum* in the figure caption); pl.3, figs.26–28. Emendation: Masure et al., 1996, p.180–181, as *Andalusiella mauthei* subsp. *punctata*. Holotype: Jain and Millepied, 1973, pl.3, fig.27. **NOW** *Andalusiella mauthei* subsp. *punctata*. Originally *Palaeocystodinium punctatum*, subsequently *Andalusiella polymorpha* subsp. *punctata*, thirdly (and now) *Andalusiella mauthei* subsp. *punctata*. Taxonomic senior synonym (at specific rank): *Svalbardella* (as *Alterbia*; now *Andalusiella*) *polymorpha*, according to Lentin and Williams (1976, p.89) — however, Schrank (1987, p.265) retained *Palaeocystodinium punctatum* (as *Andalusiella polymorpha* subsp. *punctata*). Age: Maastrichtian.

rafi Antolinez-Delgado and Oboh-Ikuenobe, 2007, p.60, pl.1, fig.8; pl.2, figs.3,7. Holotype: Antolinez-Delgado and Oboh-Ikuenobe, 2007, pl.1, fig.8. Age: Paleocene–?earliest Eocene.

"**reductum**" May, 1980, p.84–85, pl.21, fig.20. Emendation: Kirsch, 1991, p.120, as *Biconidinium reductum*. Holotype: May, 1980, pl.21, fig.20. **NOW** *Biconidinium*. Originally *Palaeocystodinium*, subsequently (and now) *Biconidinium*. Taxonomic junior synonym: *Svalbardella parva* (name not validly published), according to Slimani (2001a, p.192). Age: late Campanian–early Maastrichtian.

?**rhomboides** (Wetzel, 1933a, p.168, pl.2, fig.17) Lentin and Williams, 1973, p.103. Holotype: Wetzel, 1933a, pl.2, fig.17. Originally *Ceratium fusus* forma *rhomboides* (Appendix B), subsequently (and now) *Palaeocystodinium? rhomboides*. Questionable assignment: Lentin and Williams (1973, p.103). Age: Senonian.

subsp. **filosum** (Wetzel, 1933a, p.169, pl.2, fig.20) Lentin and Williams, 1973, p.103. Holotype: Wetzel, 1933a, pl.2, fig.20. Originally *Ceratium fusus* forma *filosum* (Appendix B), subsequently (and now) *Palaeocystodinium? rhomboides* subsp. *filosum*. Age: Senonian.

subsp. **incertum** (Deflandre, 1936b, p.188, pl.10, figs.8–9 [not fig.5]) Lentin and Williams, 1973, p.103. Holotype: not designated. Lectotype: Deflandre, 1936b, pl.10, fig.8, designated by Lentin and Williams (1993, p.476). Originally *Ceratium fusus* forma *incertum* (Appendix B), subsequently (and now) *Palaeocystodinium? rhomboides* subsp. *incertum*. Age: Senonian.

"subsp. **nodosum**" (Wetzel, 1933a, p.169, pl.2, fig.19) Lentin and Williams, 1973, p.104. Holotype: Wetzel, 1933a, pl.2, fig.19; Dietz et al., 1999, fig.10, no.5. Originally *Ceratium fusus* forma *nodosum* (Appendix B), subsequently *Palaeocystodinium? rhomboides* subsp. *nodosum*. **Taxonomic senior synonym** (at specific rank): *Deflandrea delineata*, according to Sarjeant (1985b, p.157). Age: Senonian.

subsp. **ovatum** (Wetzel, 1933a, p.168–169, pl.2, fig.18) Lentin and Williams, 1973, p.104. Holotype: Wetzel, 1933a, pl.2, fig.18. Originally *Ceratium fusus* forma *ovatum* (Appendix B), subsequently (and now) *Palaeocystodinium? rhomboides* subsp. *ovatum*. Age: Senonian.

subsp. **rhomboides**. Autonym. Holotype: Wetzel, 1933a, pl.2, fig.17.

scabratum Jain et al., 1975, p.12–13, pl.6, fig.63. Holotype: Jain et al., 1975, pl.6, fig.63. Age: Danian.

stockmansii Boltenhagen, 1977, p.114–115, pl.23, figs.1a–b,2–4. Holotype: Boltenhagen, 1977, pl.23, figs.1a–b. Age: Campanian–Maastrichtian.

"*striatogranulosum*" Zevenboom and Santarelli in Zevenboom, 1995, p.160–161, pl.9, figs.12–13. Holotype: Zevenboom, 1995, pl.9, figs.12–13. **Name not validly published**: considered a manuscript name. Age: early to middle Miocene.

teespinosum Fensome et al., 2009, p.50, pl.8, figs.q–t. Holotype: Fensome et al., 2009, pl.8, fig.r. Age: youngest occurrence, middle Rupelian.

"*ventricosum*" Zevenboom and Santarelli in Zevenboom, 1995, p.161, pl.9, figs.14–15. Holotype: Zevenboom, 1995, pl.9, figs.14–15. **Name not validly published**: considered a manuscript name. Age: latest early Miocene–middle Miocene.

PALAEOGLENODINIUM Deflandre, 1935, p.227. This name not validly published in Deflandre (1934, caption to fig.3 — p.967) since no description was provided. Type: Deflandre, 1935, pl.7, figs.2–3, as *Palaeoglenodinium cretaceum*.

**cretaceum* Deflandre, 1935, p.227, pl.7, figs.2–3. Holotype: Deflandre, 1934, figs.2–3; Deflandre, 1935, pl.7, figs.2–3; Deflandre, 1936b, pl.3, figs.5–6. Sarjeant in Lentin and Williams (1989, p.272) recommended that this name be restricted to the holotype. This species was not validly published in Deflandre (1934, caption to fig.3 — p.967) since no description was provided. A full description of this species appeared in Deflandre (1936b, p.172). Age: ?Senonian.

PALAEOHYSTRICHODINIUM He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.56. Type: He Chengquan et al., 1989, pl.16, fig.4; text-fig.8, as *Palaeohystrichodinium elegans*.

cavispineum Zheng Yuefang and Liu Xuexian in Liu Zhili et al., 1992, p.76, pl.7, fig.29; text-fig.6. Holotype: Liu Zhili et al., 1992, pl.7, fig.29; text-fig.6. Age: Early Tertiary.

conicosum (Jiabo, 1978, p.57, pl.29, figs.4–5) He Chengquan et al., 2009, p.531. Holotype: Jiabo, 1978, pl.29, fig.4. Originally *Bipolaribucina*, subsequently *Impletosphaeridium*, thirdly (and now) *Palaeohystrichodinium*. Age: Early Tertiary.

**elegans* He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.57, pl.16, figs.4–8; text-fig.8. Holotype: He Chengquan et al., 1989, pl.16, fig.4; text-fig.8. Age: Early Tertiary.

?*insuetum* Liu Zhili and Zheng Yuefang in Liu Zhili et al., 1992, p.77, pl.12, figs.8–9. Holotype: Liu Zhili et al., 1992, pl.12, fig.8. Questionable assignment: Liu Zhili et al. (1992, p.77). Age: Early Tertiary.

jinxianense Zheng Yuefang and Liu Xuexian in Liu Zhili et al., 1992, p.77, pl.11, figs.11–12. Holotype: Liu Zhili et al., 1992, pl.11, fig.11. Age: Early Tertiary.

quadratum He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.57, pl.16, figs.1–3. Holotype: He Chengquan et al., 1989, pl.16, fig.1. Age: Early Tertiary.

PALAEOHYSTRICHOPHORA Deflandre, 1935, p.230. Emendation: Deflandre and Cookson, 1955, p.257. This genus was not validly published in Deflandre (1934, caption to fig.8 — p.967) since no description was provided. Type: Deflandre, 1935, pl.8, fig.4, as *Palaeohystrichophora infusorioides*.

"*brevispinosa*" Pocock, 1962, p.81, pl.14, figs.222–223. Emendation: Brideaux, 1977, p.15–16, as *Tenua brevispinosa*. Holotype: Pocock, 1962, pl.14, fig.222; Jansonius, 1986, pl.4, fig.6; Fauconnier and Masure, 2004, pl.14, figs.7–8. **NOW** *Circulodinium*. Originally *Palaeohystrichophora*, subsequently *Tenua* Eisenack, thirdly *Canningia*?, fourthly *Cyclonephelium*, fifthly (and now) *Circulodinium*. Age: Barremian.

cheit (Below, 1981a, p.126–127, pl.9, figs.23–24; text-fig.85) Mahmoud, 1998, p.93–94. Holotype: Below, 1981a, pl.9, fig.23; Fensome et al., 1991, fig.1 — p.611. Originally *Subtilisphaera*, subsequently (and now) *Palaeohystrichophora*. Age: Aptian–Vraconian.

"dispersa" Cookson and Eisenack, 1958, p.39, pl.10, figs.12,14. Emendation: Morgan, 1977, p.127, as *Diconodinium dispersum*. Holotype: Cookson and Eisenack, 1958, pl.10, fig.14; Morgan, 1977, pl.1, figs.2a–b. Originally *Palaeohystrichophora*, subsequently *Diconodinium*. **Taxonomic senior synonym:** *Palaeohystrichophora* (as and now *Diconodinium*) *multispina*, according to Stover and Helby (1987a, p.103). Age: Albian–Cenomanian.

granulata Mao Shaozhi and Norris, 1988, p.47, pl.12, figs.9–12. Holotype: Mao Shaozhi and Norris, 1988, pl.12, fig.11. Age: Late Cretaceous.

***infusorioides** Deflandre, 1935, p.230–231, pl.8, fig.4. Holotype: Deflandre, 1934, fig.8; Deflandre, 1935, pl.8, fig.4; Deflandre, 1936b, pl.9, fig.7. Taxonomic junior synonym: *Palaeohystrichophora paucisetosa*, according to Aurisano (1989, p.170). This species was not validly published in Deflandre (1934, caption to fig.8 — p.967) since no description was provided. A full description was given in Deflandre (1936b, p.186–187). Age: ?Senonian.

"isodiametrica" Cookson and Eisenack, 1958, p.38, pl.12, figs.11–12. Holotype: Cookson and Eisenack, 1958, pl.12, figs.11–12. **NOW** *Hystrichodinium*. Originally *Palaeohystrichophora*, subsequently (and now) *Hystrichodinium*. Age: Campanian–early Maastrichtian.

"minuta" Deflandre and Cookson, 1955, p.257, text-fig.4. Holotype: Deflandre and Cookson, 1955, text-fig.4. **NOW** *Diconodinium*. Originally *Palaeohystrichophora*, subsequently (and now) *Diconodinium*. Taxonomic junior synonym: *Deflandrea* (as *Alterbia*; now *Spinidinium*) *balmei*, according to Morgan (1977, p.130) — however, Lentin and Williams (1981, p.156) retained *Deflandrea* (as *Isabelidinium*) *balmei*. This name was not validly published in Deflandre and Cookson (1954, p.1236) since no description was given. Age: Santonian.

"multispina" Deflandre and Cookson, 1955, p.257, pl.1, fig.5. Emendation: Morgan, 1977, p.127–128, as *Diconodinium multispinum*. Holotype: Deflandre and Cookson, 1955, pl.1, fig.5; Morgan, 1977, pl.1, figs.1a–b. **NOW** *Diconodinium*. Originally *Palaeohystrichophora*, subsequently (and now) *Diconodinium*. Taxonomic junior synonyms: *Palaeohystrichophora* (as *Diconodinium*) *dispersum*, according to Stover and Helby (1987a, p.103); *Diconodinium pusillum*, according to Morgan (1977, p.127) — however, Below (1981a, p.124) retained *Diconodinium pusillum*. Age: Santonian.

?muriciformis Conrad, 1941, p.7, pl.1, fig.k ex Sarjeant, 1967b, p.253. Holotype: Conrad, 1941, pl.1, fig.k. Originally *Palaeoperidinium* (name not validly published), subsequently (and now) *Palaeohystrichophora*?. Questionable assignment: Sarjeant (1967b, p.253). The name *Palaeoperidinium muriciforme* was not validly published in Conrad (1941) since the generic name *Palaeoperidinium* was not validly published until 1967. Williams et al. (1998, p.453) accepted Sarjeant's (1967b) indirect reference to Conrad (1941) as indication of a type (I.C.N. Article 40.3). Lentin and Williams (1976, p.110) also proposed this name, as a new combination. Age: Maastrichtian.

"myalupensis" Churchill and Sarjeant, 1962, p.38–40, figs.5,22–23. Holotype: Churchill and Sarjeant, 1962, figs.5,22. **NOW** *Cobricosphaeridium* (Appendix A). Originally *Palaeohystrichophora*, subsequently *Aquadulcum* (Appendix A), thirdly (and now) *Cobricosphaeridium* (Appendix A). Age: Holocene.

oblongata Jiabo, 1978, p.89–90, pl.20, figs.7–8. Holotype: Jiabo, 1978, pl.20, fig.7. Age: Early Tertiary.

palaeoinfusa Fensome et al., 2009, p.51, pl.8, figs.q–t. Holotype: Fensome et al., 2009, pl.8, fig.r. Age: youngest occurrence (frequent), middle Cenomanian.

panshanensis Jiabo, 1978, p.89, pl.20, figs.1–6; text-fig.15. Holotype: Jiabo, 1978, pl.20, fig.1. Age: Early Tertiary.

"*paucisetosa*" Deflandre, 1943, p.507–508; text-fig.26. Holotype: Deflandre, 1943, text-fig.26. **Taxonomic senior synonym:** *Palaeohystrichophora infusorioides*, according to Aurisano (1989, p.170). Age: ?Senonian.

"*paucispina*" Alberti, 1961, p.19–20, pl.3, fig.25. Holotype: Alberti, 1961, pl.3, fig.25. **NOW** *Rhombodella* (Appendix A). Originally *Palaeohystrichophora*, subsequently *Palaeotetradinium*, thirdly (and now) *Rhombodella* (Appendix A). Taxonomic junior synonym: *Rhombodella natans*, according to Stover and Evitt (1978, p.71). Age: middle Albian.

"*pellifera*" Cookson and Eisenack, 1958, p.38, pl.10, fig.11. Emendation: Morgan, 1977, p.128, as *Diconodinium pelliferum*. Holotype: Cookson and Eisenack, 1958, pl.10, fig.11; Morgan, 1977, pl.1, figs.7a–b. **NOW** *Diconodinium*. Originally *Palaeohystrichophora*, subsequently (and now) *Diconodinium*. Age: Albian.

"*pikeae*" Churchill and Sarjeant, 1962, p.40–41, figs.6,24. Holotype: Churchill and Sarjeant, 1962, figs.6,24. **NOW** *Cobricosphaeridium* (Appendix A). Originally *Palaeohystrichophora*, subsequently *Aquadulcum* (Appendix A), thirdly (and now) *Cobricosphaeridium* (Appendix A). Age: Holocene.

"*spinosissima*" Deflandre, 1939a, p.179, pl.9, fig.11 ex Deflandre and Cookson, 1955, p.258. Holotype: Deflandre, 1939a, pl.9, fig.11. **NOW** *Pareodinia*?. Originally *Palaeoperidinium* (name not validly published), subsequently *Palaeohystrichophora*, thirdly *Acanthaulax*?, fourthly *Pareodinia*, fifthly (and now) *Pareodinia*?. The name *Palaeoperidinium spinosissimum* was not validly published in Deflandre (1939a) since the generic name *Palaeoperidinium* was not validly published until 1967. Age: Late Jurassic.

PALAEOPERIDINIUM Deflandre, 1934, p.968 ex Sarjeant, 1967b, p.246–247. Emendation: Evitt et al., 1998, p.46,48. Taxonomic junior synonyms: *Astrocysta*, *Morkallacysta* and *Pentagonum*, all according to Lentin and Williams (1976, p.150,160,161) — however, Stover and Evitt (1978, p.113–114) retained *Morkallacysta*. The name *Palaeoperidinium* was not validly published in Deflandre (1934) since that author did not designate a type, which he was obliged to do as he was using zoological nomenclature (I.C.Z.N. Article 13b). No type was designated until Sarjeant (1967b) did so; he also brought the generic name under the auspices of the I.C.B.N. (now the I.C.N.). This interpretation differs from that in Lentin and Williams (1993) and accords with that of Loeblich Jr. and Loeblich III (1966) and, in essence, also that of Sarjeant (1967b). In contrast to the contention of Tappan and Loeblich Jr. (1967, p.526), Deflandre (1934, p.968) did publish a description of *Palaeoperidinium* as a footnote. In validating the generic name, Sarjeant (1967b, p.246) provided an emended diagnosis. Type: Ehrenberg, 1837b, pl.1, fig.4, as *Peridinium pyrophorum*.

"*?alatum*" Conrad, 1941, p.5, pl.1, fig.C. Holotype: Conrad, 1941, pl.1, fig.C. **Name not validly published:** generic name not validly published until 1967. **NOW** *Microdinium*?. Originally *Palaeoperidinium* (name not validly published), subsequently (and now) *Microdinium*?, thirdly *Palaeoperidinium*? (combination not validly published). Questionable assignment: Stover and Evitt (1978, p.218) as a problematic species. This combination was not validly published in Stover and Evitt (1978, p.218) since these authors did not fully reference the basionym. Age: Maastrichtian.

"*amplum*" (Harland, 1973, p.673–674, pl.84, figs.1,7; text-fig.8) Lentin and Williams, 1976, p.109. Holotype: Harland, 1973, pl.84, fig.1. Originally *Lejeunia* (generic name illegitimate), subsequently *Astrocysta* (combination not validly published), thirdly *Palaeoperidinium*. **Taxonomic senior synonym:** *Palaeoperidinium cretaceum*, according to Harker and Sarjeant in Harker et al. (1990, p.128). Age: late Campanian.

angularium Xu Jinli, 1987, p.153, pl.4, figs.1–5. Holotype: Xu Jinli, 1987, pl.4, fig.2. Questionable assignment: Evitt et al. (1998, p.48); however, He Chengquan et al. (2009, p.399) included this species in *Palaeoperidinium* without question. Taxonomic junior synonyms: *Palaeoperidinium? asperum* and *Palaeoperidinium? leptodermatum*, both according to He Chengquan et al. (2009, p.399–400). Age: ?middle-late Eocene.

?ariadnae Norris, 1986, p.45, pl.12, figs.10–12; pl.13, figs.1–4. Holotype: Norris, 1986, pl.13, fig.2. Questionable assignment: Evitt et al. (1998, p.48). Age: Eocene.

"articulatum" Wetzel in Eisenack, 1938b, p.187. **Name not validly published** and not intended to be formalized. Holotype: Eisenack, 1938b, fig.4; Eisenack, 1954b, pl.7, fig.3 (not pl.7, fig.1 as indicated in Eisenack, 1954b, p.90). **NOW** *Wetziella*. Originally (and now) *Wetziella*, subsequently *Palaeoperidinium* (name not validly published), thirdly *Hystrichosphaeridium*, fourthly *Wetziella* subgenus *Wetziella*. Taxonomic junior synonyms: *Wetziella echinulata*, according to Costa and Downie (1979, p.40); *Wetziella horrida*, according to Stover and Evitt (1978, p.131); *Rhombodinium* (as *Wetziella coronatum*, according to Costa and Downie (1979, p.43) — however, Iakovleva and Heilmann-Clausen (2010, p. 211,226) retained *Rhombodinium* (as *Wetziella coronatum*; *Rhombodinium pentagonum*, according to Costa and Downie (1979, p.40) — however, Lentin and Williams (1981, p.244) retained *Rhombodinium pentagonum*; *Wetziella hampdenensis*, according to Costa and Downie (1979, p.40) — however, Lentin and Williams (1981, p.290) retained *Wetziella hampdenensis*; *Wetziella* (now *Charlesdowniea*) *clathrata*, according to Pasteris (1948, p.42) — however, this synonymy has not been generally accepted. Age: late Eocene–early Oligocene.

"asperum" Xu Jinli, 1987, p.153, pl.4, figs.11–12. Holotype: Xu Jinli, 1987, pl.4, fig.11. Questionable assignment: Evitt et al. (1998, p.48). **Taxonomic senior synonym:** *Palaeoperidinium angularium*, according to He Chengquan et al. (2009, p.399). Age: ?middle-late Eocene.

"basilium" (Drugg, 1967, p.13, pl.1, figs.9–11; pl.9, figs.1a–b) Drugg, 1970b, p.810. Holotype: Drugg, 1967, pl.1, fig.11. Originally *Peridinium* (Appendix B), subsequently *Palaeoperidinium*. **Taxonomic senior synonym:** *Peridinium* (as and now *Palaeoperidinium*) *pyrophorum*, according to Stover and Evitt (1978, p.218). Age: ?Maastrichtian–Danian.

"bicuneatum" Deflandre, 1939a, p.180, pl.8, fig.7. Holotype: Deflandre, 1939a, pl.8, fig.7. **Name not validly published:** generic name not validly published until 1967. **NOW** *Cornudinium*. Originally *Palaeoperidinium* (name not validly published), subsequently *Scrinioidinium*, thirdly *Glossodinium*, fourthly *Dinopterygium*, fifthly (and now) *Cornudinium*. Age: Oxfordian.

"carlylense" Pocock, 1972, p.146. **Name not validly published:** no description or illustration.

"castanea" Deflandre, 1935, p.229, pl.6, fig.8. Holotype: Deflandre, 1935, pl.6, fig.8; Deflandre, 1936b, pl.6, fig.1; Jan du Chêne et al., 1986a, pl.122, figs.9–10. **Name not validly published:** generic name not validly published until 1967. **NOW** *Trichodinium*. Originally *Palaeoperidinium* (name not validly published), subsequently (and now) *Trichodinium*. Taxonomic senior synonyms: *Apteodinium* (as *Trichodinium ciliatum* and *Trichodinium intermedium*, both by implication in Clarke and Verdier (1967, p.19), who believed *Trichodinium castanea* to be the senior name — however, subsequent workers have retained the three species (e.g. see Morgan, 1980, p.33 and Harding, 1990b, p.38). A full description of this species is given in Deflandre (1936b, p.177). N.I.A. Age: ?Senonian (erratic).

"caulleryi" Deflandre, 1935, p.229, pl.6, fig.4. Holotype: Deflandre, 1934, fig.7; Deflandre, 1935, pl.6, fig.4; Deflandre, 1936b, pl.5, figs.5,7. **Name not validly published:** generic name not validly published until 1967. **NOW** *Diconodinium?*. Originally *Palaeoperidinium* (name not validly published), subsequently *Diconodinium*, thirdly (and now) *Diconodinium?*. This name was not validly published in Deflandre (1934, caption to fig.7 — p.967) additionally since no description was provided. A full description of this species was given by Deflandre (1936b, p.177). Age: Senonian.

"cayeuxii" Deflandre, 1936b, p.178–179, pl.6, figs.8–15; pl.7, fig.8. Emendation: Slimani, 1994, p.44, as *Phanerodinium cayeuxii*. Holotype: Deflandre, 1934, fig.5; Deflandre, 1935, pl.6, fig.3; Deflandre, 1936b, pl.6, figs.8–10. **Name not validly published:** generic name not validly published until 1967. **NOW** *Phanerodinium*. Originally *Palaeoperidinium* (name not validly published), subsequently (and now) *Phanerodinium*. This name was not validly published in Deflandre (1934, fig.5 — p.967; 1935, p.229) additionally since no description was provided. Age: Senonian.

"chonetum" Xu Jinli, 1987, p.153–154, pl.4, figs.6–10. Holotype: Xu Jinli, 1987, pl.4, fig.6. Questionable assignment: Evitt et al. (1998, p.48). Age: ?middle-late Eocene.

?commune Jin Guangxing, He Chengquan and Zhu Shenzhao in He Chengquan et al., 1989, p.57–58, pl.4, figs.21,22. Holotype: He Chengquan et al., 1989, pl.4, fig.22. Questionable assignment: Evitt et al. (1998, p.48). Age: Early Tertiary.

"cornutum" Vozzhennikova, 1963, text-fig.14. **Name not validly published:** no description and generic name not validly published until 1967.

"crassinervum" Deflandre, 1939b, p.144, pl.6, fig.5. Emendation: Nøhr-Hansen, 1986, p.33, as *Cribroperidinium crassinervum*. Holotype: Deflandre, 1939b, pl.6, fig.5; Jan du Chêne et al., 1986a, pl.70, figs.1–4. **Name not validly published:** generic name not validly published until 1967. **NOW** *Cribroperidinium*. Originally *Palaeoperidinium* (name not validly published), subsequently *Gonyaulacysta*, thirdly *Leptodinium*, fourthly *Leptodinium?*, fifthly (and now) *Cribroperidinium*. Age: Kimmeridgian.

cretaceum (Pocock, 1962, p.80, pl.14, figs.219–221 ex Davey, 1970, p.359) Lentin and Williams, 1976, p.110. Emendations: Harding, 1990a, p.44 and Evitt et al., 1998, p.50, both as *Palaeoperidinium cretaceum*. Holotype: Pocock, 1962, pl.14, fig.219. Originally *Palaeoperidinium* (name not validly published), subsequently *Astrocysta*, thirdly *Lejeunia?* (combination illegitimate), fourthly *Subtilisphaera*, fifthly (and now) *Palaeoperidinium*. Taxonomic junior synonyms: *Lejeunia* (as *Palaeoperidinium*) *ampla*, according to Harker and Sarjeant in Harker et al. (1990, p.128); *Astrocysta* (as *Palaeoperidinium*) *manumcooksonii*, according to Lentin and Williams (1976, p.110). The name *Palaeoperidinium cretaceum* was not validly published in Pocock (1962) since the generic name *Palaeoperidinium* was not validly published until 1967. Davey (1970, p.359), while validating the name as *Astrocysta cretacea*, proposed an "emendation". Age: Aptian–Albian.

"damasii" (Lejeune-Carpentier, 1942, p.B185–B186, figs.9–14) Lentin and Williams, 1976, p.110. Emendation: Lejeune-Carpentier and Sarjeant, 1981, p.16, as *Deflandrea? damasii*. Holotype: Lejeune-Carpentier, 1942, fig.10; Lejeune-Carpentier and Sarjeant, 1981, pl.6, fig.3; text-fig.9a. **NOW** *Deflandrea?*. Originally *Peridinium* (Appendix B), subsequently *Cooksoniella?*, thirdly *Palaeoperidinium*, fourthly *Deflandrea*, fifthly (and now) *Deflandrea?*. Age: Senonian.

"deflandrei" Lentin and Williams, 1973, p.105. Holotype: Deflandre, 1936b, pl.4, fig.4 as *Peridinium conicum*. **Taxonomic senior synonym:** *Peridinium* (as and now *Palaeoperidinium*) *pyrophorum*, according to Stover and Evitt (1978, p.218). Lentin and Williams (1973, p.105) erected this species to accommodate fossil specimens attributed to the modern taxon *Protoperidinium conicum* (Gran, 1900) Balech, 1974 by Deflandre (1939b, p.174), who provided a description. Age: Danian.

"subsp. *deflandrei*". Autonym. Holotype: Deflandre, 1936b, pl.4, fig.4, as *Peridinium conicum*. **Now redundant.**

"subsp. *larjakiense*" (Vozzhennikova, 1967, p.71–72, pl.16, figs.1a–b,2a–b) Lentin and Williams, 1973, p.105. Holotype: Vozzhennikova, 1967, pl.16, figs.1a–b; Lentin and Vozzhennikova, 1990, text-fig.32; lost according to Lentin and Vozzhennikova (1990, p.61). Originally *Peridinium conicum* var. *larjakiense* (Appendix B), subsequently *Palaeoperidinium deflandrei* subsp. *larjakiense*, thirdly *Cooksoniella larjakiensis*, fourthly *Palaeoperidinium larjakiense*. **Taxonomic senior synonym** (at specific rank): *Peridinium* (now *Palaeoperidinium*) *pyrophorum*, according to Lentin and Vozzhennikova (1990, p.61). Age: Paleocene.

"dictyophorum" Deflandre, 1939a, p.178, pl.8, figs.1–3. Holotype: Deflandre, 1939a, pl.8, fig.1; Jan du Chêne et al., 1986a, pl.7, figs.1–5. **Name not validly published:** generic name not validly published until 1967. **NOW** *Scriniodinium?*. Originally *Palaeoperidinium* (name not validly published), subsequently *Gonyaulacysta*, thirdly *Aldorfia*, fourthly *Scriniodinium*, fifthly (and now) *Scriniodinium?*. Age: Oxfordian.

"?ellipsoideum" Deflandre, 1936b, p.178, pl.6, figs.5–7. Holotype: Deflandre, 1936b, pl.6, figs.6–7. **Name not validly published:** generic name not validly published until 1967. **NOW** *Microdinium?*. Originally *Palaeoperidinium* (name not validly published), subsequently (and now) *Microdinium?*, thirdly *Microdinium*, fourthly *Palaeoperidinium?* (combination not validly published). Questionable assignment: Stover and Evitt (1978,

p.218) as a problematic species. This combination was not validly published in Stover and Evitt (1978, p.218) since these authors did not fully reference the basionym. Age: Senonian.

?*eurypylum* (Manum and Cookson, 1964, p.20–21, pl.4, figs.7–13) Evitt, 1975, p.81. Holotype: Manum and Cookson, 1964, pl.4, figs.9–10. Originally *Scriniodinium*, subsequently *Palaeoperidinium*, thirdly *Saeptodinium*, fourthly (and now) *Palaeoperidinium*?. Evitt et al. (1998, p.52) provisionally retained this species in *Palaeoperidinium*. Questionable assignment: Evitt et al. (1998, p.52). Age: Late Cretaceous.

?*granulatum* (Oleinik, 1975, p.225–226, pl.1, figs.3–5) Lentin and Williams, 1981, p.210. Holotype: Oleinik, 1975, pl.1, figs.3–5. Originally *Pentagonum granulatum* (generic name illegitimate), subsequently (and now) *Palaeoperidinium granulatum* Oleinik, thirdly *Palaeoperidinium oleinikii* (name illegitimate). Nomenclatural junior synonym: *Palaeoperidinium oleinikii*, which has the same type. Questionable assignment: Evitt et al. (1998, p.48). Lentin and Williams (1981, p.210; 1993, p.480) considered this name to be illegitimate, as a junior homonym of *Palaeoperidinium granulatum* Singh, 1964. However, Williams et al. (1998, p.456) considered the name *Palaeoperidinium granulatum* Singh to be not validly published, and hence that *Palaeoperidinium granulatum* Oleinik must be considered a validly published and legitimate name. Age: late Eocene.

"*granulatum*" Singh, 1964, p.135, pl.18, figs.2–3. Holotype: Singh, 1964, pl.18, figs.2–3. **Name not validly published:** generic name not validly published until 1967. **NOW** *Apteodinium? indicosum*. Originally *Palaeoperidinium granulatum* (name not validly published), subsequently *Gonyaulacysta indicosa*, thirdly (and now) *Apteodinium? indicosum*. Age: middle-late Albian.

?*granulosum* He Chengquan in Zheng Yahui and He Chengquan, 1984, p.97, pl.7, figs.1–10; pl.9, figs.1–4. Holotype: Zheng Yahui and He Chengquan, 1984, pl.7, fig.7. Questionable assignment: Evitt et al. (1998, p.48). Age: Late Cretaceous.

"*hansonianum*" (Traverse, 1955, p.77–79, pl.13, fig.147) Lentin and Williams, 1973, p.105. Holotype: Traverse, 1955, pl.13, fig.147; Traverse, 1994, pl.1, fig.1. **NOW** *Saeptodinium*. Originally *Peridinium* (Appendix B), subsequently *Palaeoperidinium*, thirdly (and now) *Saeptodinium*. Evitt (1974, p.4) indicated that this species has affinities with the modern species *Peridinium limbatum* (Stokes, 1887) Lemmermann, 1899. Age: latest Oligocene (middle early Miocene, according to Traverse, 1994).

?*huanghuaense* (Jiabo, 1978, p.56, pl.1, figs.1–3) Lentin and Williams, 1981, p.210. Holotype: Jiabo, 1978, pl.1, fig.1. Originally *Pentagonum* (generic name illegitimate), subsequently (and now) *Palaeoperidinium*. Questionable assignment: Evitt et al. (1998, p.48). Age: Early Tertiary.

?*humile* Xu Jinli, 1987, p.154, pl.2, figs.6,7a–b. Holotype: Xu Jinli, 1987, pl.2, figs.7a–b. Questionable assignment: Evitt et al. (1998, p.48). Age: ?middle-late Eocene.

"*hyalodermum*" Deflandre, 1939b, p.144, pl.6, figs.3–4. Holotype: Deflandre, 1939b, pl.6, figs.3–4; Jan du Chêne et al., 1986a, pl.58, figs.1–5. **Name not validly published:** generic name not validly published until 1967. **NOW** *Impagidinium*?. Originally *Palaeoperidinium* (name not validly published), subsequently *Gonyaulacysta*, thirdly *Gonyaulacysta*?, fourthly *Rhynchodiniopsis*?, fifthly (and now) *Impagidinium*?. Age: Kimmeridgian.

?*jiangsuense* He Chengquan in Zheng Yahui and He Chengquan, 1984, p.97–98, pl.7, fig.16–20. Holotype: Zheng Yahui and He Chengquan, 1984, pl.7, fig.16. Questionable assignment: Evitt et al. (1998, p.48). Age: Late Cretaceous.

"*larjakiense*" (Vozzhennikova, 1967, p.71–72, pl.16, figs.1a–b,2a–b) Lentin and Williams, 1981, p.210. Holotype: Vozzhennikova, 1967, pl.16, figs.1a–b; Lentin and Vozzhennikova, 1990, text-fig.32; lost according to Lentin and Vozzhennikova (1990, p.61). Originally *Peridinium conicum* var. *larjakiense* (Appendix B), subsequently *Palaeoperidinium deflandrei* subsp. *larjakiense*, thirdly *Cooksoniella larjakiensis*, fourthly *Palaeoperidinium larjakiense*. **Taxonomic senior synonym:** *Peridinium* (now *Palaeoperidinium*) *pyrophorum*, according to Lentin and Vozzhennikova (1990, p.61). Age: Paleocene.

"*leptodermatum*" Jin Guangxing, He Chengquan and Zhu Shenzhao in He Chengquan et al., 1989, p.58, pl.4, fig.23. Holotype: He Chengquan et al., 1989, pl.4, fig.23. Questionable assignment: Evitt et al. (1998, p.48). **Taxonomic senior synonym:** *Palaeoperidinium angularium*, according to He Chengquan et al. (2009, p.399–400). Age: Early Tertiary.

"*manumcooksonii*" (Corradini, 1973, p.176–177, pl.28, figs.4,6) Lentin and Williams, 1976, p.110. Holotype: Corradini, 1973, pl.28, fig.4. Originally *Astrocysta*, subsequently *Palaeoperidinium*. **Taxonomic senior synonym:** *Palaeoperidinium cretaceum*, according to Lentin and Williams (1976, p.110). Age: Late Cretaceous–Paleocene.

"*marginatum*" (Vozzhennikova, 1967, p.107, pl.46, figs.1,3–4,6) Lentin and Williams, 1976, p.110. Holotype: Vozzhennikova, 1967, pl.46, fig.6; Lentin and Vozzhennikova, 1990, pl.7, fig.6; text-fig.33; lost according to Lentin and Vozzhennikova (1990, p.62). Originally *Pentagonum* (generic name illegitimate), subsequently *Palaeoperidinium*. **Taxonomic senior synonym:** *Peridinium* (now *Palaeoperidinium*) *pyrophorum*, according to Lentin and Vozzhennikova (1990, p.61). Age: Paleocene.

"*mecsekense*" Nagy, 1969, p.292, pl.1, figs.6,8. Holotype: Nagy, 1969, pl.1, figs.6,8; Jan du Chêne et al., 1986a, pl.11, figs.10–12. **NOW** *Apteodinium*. Originally *Palaeoperidinium*, subsequently *Gonyaulacysta*?, thirdly *Millioudodinium*?, fourthly (and now) *Apteodinium*. Age: late Miocene.

"*monacanthum*" Deflandre, 1936b, p.176–177, pl.5, fig.10. Holotype: Deflandre, 1935, pl.6, fig.1; Deflandre, 1936b, pl.5, fig.10; lost according to Jan du Chêne et al. (1986a, p.48). **Name not validly published:** generic name not validly published until 1967. **NOW** *Apteodinium*?. Originally *Palaeoperidinium* (name not validly published), subsequently *Gonyaulacysta*, thirdly *Millioudodinium*, fourthly *Apteodinium*, fifthly (and now) *Apteodinium*?. This name was not validly published in Deflandre (1935, p.227–228), since the genus *Palaeoperidinium* was not validly published until 1967 and, additionally, since that author did not provide a description. Age: Senonian.

"*mosaicum*" Downie, 1957, p.424, pl.20, fig.7; text-fig.2f. Emendation: Sarjeant, 1976c, p.6–7, as *Leptodinium mosaicum*. Holotype: Downie, 1957, pl.20, fig.7; text-fig.2f; Sarjeant, 1976c, pl.2, figs.3,5; text-figs.2a–b; Jan du Chêne et al., 1986a, pl.70, figs.5–6. **Name not validly published:** generic name not validly published until 1967. **NOW** *Leptodinium*?. Originally *Palaeoperidinium* (name not validly published), subsequently *Gonyaulacysta*, thirdly *Leptodinium*, fourthly (and now) *Leptodinium*?. N.I.A. Age: late Kimmeridgian.

"*muriciforme*" Conrad, 1941, p.7, pl.1, fig.K. Holotype: Conrad, 1941, pl.1, fig.K. **Name not validly published:** generic name not validly published until 1967. **NOW** *Palaeohystrichophora*?. Originally *Palaeoperidinium* (name not validly published), subsequently (and now) *Palaeohystrichophora*?. Age: Maastrichtian.

"*nuciforme*" Deflandre, 1939a, p.180, pl.8, figs.4–6. Holotype: Deflandre, 1939a, pl.8, fig.6; Jan du Chêne et al., 1986a, pl.11, figs.1–3. **Name not validly published:** generic name not validly published until 1967. **NOW** *Cribroperidinium*. Originally *Palaeoperidinium* (name not validly published), subsequently *Gonyaulax* (Appendix B), thirdly *Gonyaulacysta*, fourthly *Apteodinium*, fifthly *Millioudodinium*, sixthly (and now) *Cribroperidinium*. Taxonomic junior synonym: *Palaeoperidinium nuciformoides*, according to Sarjeant (1968, p.227). Age: Oxfordian.

"*nuciformoides*" Górka, 1965, p.324–325, pl.2, figs.1–2. Holotype: Górka, 1965, pl.2, fig.2. **Name not validly published:** generic name not validly published until 1967. **Taxonomic senior synonym:** *Palaeoperidinium* (as *Gonyaulacysta*; now *Cribroperidinium*) *nuciforme*, according to Sarjeant (1968, p.227). Age: Astartian (late Oxfordian).

"*nudum*" Downie, 1957, p.424, pl.20, fig.11; text-fig.2e. Holotype: Downie, 1957, pl.20, fig.11. **Name not validly published:** generic name not validly published until 1967. Originally *Palaeoperidinium* (name not validly published), subsequently *Pareodinia*, thirdly *Pareodinia*?. **Taxonomic senior synonym:** *Pareodinia ceratophora*, according to Wiggins (1975, p.103) and Kunz (1990, p.13). If validated, this name would be a junior homonym of *Palaeoperidinium nudum* Nagy, 1969. Age: late Kimmeridgian.

"*nudum*" Nagy, 1969, p.291, pl.1, fig.1. Holotype: Nagy, 1969, pl.1, fig.1. **NOW** *Pyxidinospis*? *nuda*. Originally *Palaeoperidinium nudum* Nagy, subsequently *Palaeoperidinium pannonium* (name illegitimate), thirdly *Phthanoperidinium pannonium* (name illegitimate), fourthly *Gonyaulacysta*? *nuda*, fifthly *Tectatodinium*? *nudum*,

sixthly *Tectatodinium? pannonium* (name illegitimate), seventhly *Pyxidiniopsis? pannonia* (name illegitimate), eighthly (and now) *Pyxidiniopsis? nuda*. Nomenclatural junior synonym: *Palaeoperidinium* (subsequently *Phthanoperidinium*, *Tectatodinium?* and *Pyxidiniopsis?*) *pannonium*, which has the same type. See also the discussion under *Pyxidiniopsis? nuda* and *Palaeoperidinium nudum* Downie 1957. Age: late Miocene.

"*oleinikii*" Lentin and Williams, 1981, p.211. Holotype: Oleinik, 1975, pl.1, fig.3. **Name illegitimate** — **nomenclatural senior synonym:** *Palaeoperidinium granulatum* Oleinik, which has the same type. **NOW** *Palaeoperidinium granulatum* Oleinik. Originally *Pentagonum granulatum* (generic name illegitimate), subsequently (and now) *Palaeoperidinium granulatum* Oleinik, thirdly *Palaeoperidinium oleinikii* (name illegitimate). Substitute name for *Palaeoperidinium granulatum* (Oleinik, 1975, p.225–226, pl.1, figs.3–5), Lentin and Williams, 1981, p.211. See discussion under *Palaeoperidinium granulatum* Oleinik. Age: late Eocene.

?*oviforme* Jin Guangxing, He Chengquan and Zhu Shenzhao in He Chengquan et al., 1989, p.58, pl.4, fig.20. Holotype: He Chengquan et al., 1989, pl.4, fig.20. Mao Shaozhi et al. (1995, p.99) indicated that this name should be restricted to the holotype. Questionable assignment: Evitt et al. (1998, p.48). Age: Early Tertiary.

"*paleocenicum*" (Cookson and Eisenack, 1965c, p.142–143, pl.19, figs.1–4; text-figs.2a–b) Lentin and Williams, 1976, p.110. Holotype: Cookson and Eisenack, 1965c, pl.19, figs.2–3. **NOW** *Ginginodinium*. Originally *Peridinium* (Appendix B), subsequently *Cooksoniella?*, thirdly *Palaeoperidinium*, fourthly (and now) *Ginginodinium*. Age: middle Paleocene.

"*pannonium*" Lentin and Williams, 1973, p.106. Holotype: Nagy, 1969, pl.1, fig.1. **Name illegitimate** — **nomenclatural senior synonym:** *Palaeoperidinium* (now *Pyxidiniopsis?*) *nudum* Nagy, which has the same type. **NOW** *Pyxidiniopsis? nuda*. Originally *Palaeoperidinium nudum* Nagy, subsequently *Palaeoperidinium pannonium* (name illegitimate), thirdly *Phthanoperidinium pannonium* (name illegitimate), fourthly *Gonyaulacysta? nuda*, fifthly *Tectatodinium? nudum*, sixthly *Tectatodinium? pannonium* (name illegitimate), seventhly *Pyxidiniopsis? pannonia* (name illegitimate), eighthly (and now) *Pyxidiniopsis? nuda*. See also the discussion under *Pyxidiniopsis? nuda*. Age: late Miocene.

"*paradoxum*" Jin Guangxing, He Chengquan and Zhu Shenzhao in He Chengquan et al., 1989, p.58–59, pl.4, figs.15–17. Holotype: He Chengquan et al., 1989, pl.4, fig.17. **NOW** *Morkallacysta*. Originally *Palaeoperidinium*, subsequently (and now) *Morkallacysta*. Age: Early Tertiary.

?*parvum* (Harland, 1973, p.672–673, pl.84, figs.3,12–14; text-fig.7) Lentin and Williams, 1976, p.111. Holotype: Harland, 1973, pl.84, fig.14. Originally *Lejeunia* (generic name illegitimate), subsequently (and now) *Palaeoperidinium*. Questionable assignment: Evitt et al. (1998, p.48). Age: late Campanian.

"*pilum*" Gocht, 1959, p.56, pl.6, fig.14; pl.8, fig.8. Holotype: Gocht, 1959, pl.6, fig.14; Jan du Chêne et al., 1986a, pl.73, figs.7–8. **Name not validly published:** generic name not validly published until 1967. **NOW** *Leptodinium?*. Originally *Palaeoperidinium* (name not validly published), subsequently *Gonyaulacysta?*, thirdly (and now) *Leptodinium?*. N.I.A. Age: Valanginian.

"?piriforme" Conrad, 1941, p.9, pl.1, fig.G. Holotype: Conrad, 1941, pl.1, fig.G. **Name not validly published:** generic name not validly published until 1967. **NOW** *Gonyaulacysta*. Originally *Palaeoperidinium* (name not validly published), subsequently *Gonyaulacysta?* (combination not validly published), thirdly (and now) *Gonyaulacysta*, fourthly *Palaeoperidinium?* (combination not validly published). Questionable assignment: Stover and Evitt (1978, p.218) as a problematic species. This combination was not validly published in Stover and Evitt (1978, p.218) since these authors did not fully reference the basionym. Age: Maastrichtian.

?*primaevum* He Chengquan in Zheng Yahui and He Chengquan, 1984, p.98, pl.8, fig.21; pl.9, figs.5–6. Holotype: Zheng Yahui and He Chengquan, 1984, pl.8, fig.21. Questionable assignment: Evitt et al. (1998, p.48). Age: Late Cretaceous.

"*pyramidale*" (Harris, 1974, p.163, pl.1, figs.5–11) Lentin and Williams, 1976, p.111. Holotype: Harris, 1974, pl.1, fig.5. **NOW** *Morkallacysta*. Originally (and now) *Morkallacysta*, subsequently *Palaeoperidinium*. Age: Paleocene.

***pyrophorum** (Ehrenberg, 1837b, pl.1, figs.1,4 ex Wetzel, 1933a, p.164–165) Sarjeant, 1967b, p.246. Emendations: Sarjeant, 1967b, p.246–247; Gocht and Netzel, 1976, p.403–405; Evitt et al., 1998, p.48–49; all as *Palaeoperidinium pyrophorum*. Holotype: Ehrenberg, 1837b, pl.1, fig.4; Lejeune-Carpentier, 1938b, figs.1–4. Originally *Peridinium* (Appendix B), subsequently (and now) *Palaeoperidinium*. Taxonomic junior synonyms: *Peridinium* (as *Palaeoperidinium*) *basilium* and *Palaeoperidinium deflandrei*, both according to Stover and Evitt (1978, p.218); *Pentagonum marginatum*, *Pentagonum sibiricum*, and (at specific rank) *Peridinium conicum* subsp. *larjakiense* (subsequently *Palaeoperidinium larjakiense*), all according to Lentin and Vozzhennikova (1990, p.61). This combination was not validly published in Deflandre (1934, caption to text-fig.1) and Deflandre (1935, p.224) since the generic name was not validly published until 1967. The name *Peridinium pyrophorum* was not validly published in Ehrenberg (1837b) and Ehrenberg (1854, caption to pl.37) since no description was provided. Of Ehrenberg's (1837b) illustrations, only pl.1, fig.4 is of a single specimen, which thus has subsequently been accepted as the holotype. The specimen illustrated by Sarjeant (1967b, fig.3) as the holotype appears to be a different specimen. Age: Late Cretaceous.

"reticulatum" Valensi, 1953, p.28, pl.2, figs.4–5,14,19; pl.13, fig.6; text-fig.2d. Holotype: Valensi, 1953, pl.2, figs.4–5; Fauconnier and Masure, 2004, pl.28, figs.1–4. **Name not validly published:** generic name not validly published until 1967. **NOW** *Epiplosphaera*. Originally *Palaeoperidinium* (name not validly published), subsequently *Dictyopyxis* (generic name illegitimate), thirdly *Dictyopyxidia*, fourthly *Ellipsoidictyum*, fifthly (and now) *Epiplosphaera*. Taxonomic senior synonym: *Epiplosphaera bireticulata*, by implication in Courtinat (1989, p.176), who believed *Palaeoperidinium* (as *Epiplosphaera*) *reticulatum* to be the senior name — however, Poulsen (1992a, p.66) retained the two species. Age: Bajocian.

"rhomboidale" Górka, 1965, p.301–302, pl.1, figs.6a–b. Holotype: Górka, 1965, pl.1, figs.6a–b; Jan du Chêne et al., 1986a, pl.121, figs.14–15. **Name not validly published:** generic name not validly published until 1967. **NOW** *Trichodinium?*. Originally *Palaeoperidinium* (name not validly published), subsequently (and now) *Trichodinium?*. Age: early Kimmeridgian.

?rugosum He Chengquan in Zheng Yahui and He Chengquan, 1984, p.98, pl.7, figs.13–15. Holotype: Zheng Yahui and He Chengquan, 1984, pl.7, fig.15. Questionable assignment: Evitt et al. (1998, p.48). Age: Late Cretaceous.

"sibiricum" (Vozzhennikova, 1967, p.106–107, pl.46, figs.2,5) Lentin and Williams, 1976, p.111. Holotype: Vozzhennikova, 1967, pl.46, fig.2, lost according to Lentin and Vozzhennikova (1990, p.63). Lectotype: Lentin and Vozzhennikova, 1990, pl.7, fig.3; text-fig.34, designated by Lentin and Vozzhennikova (1990, p.63). Originally *Pentagonum*, subsequently *Palaeoperidinium*. **Taxonomic senior synonym:** *Peridinium* (now *Palaeoperidinium*) *pyrophorum*, according to Lentin and Vozzhennikova (1990, p.61). Age: Paleocene.

?sinense He Chengquan, 1991, p.63–64, pl.1, figs.34–37. Holotype: He Chengquan, 1991, pl.1, fig.37. Questionable assignment: Evitt et al. (1998, p.48). Age: Paleocene–middle Eocene.

"spinosisimum" Deflandre, 1939a, p.179, pl.9, fig.11. Holotype: Deflandre, 1939a, pl.9, fig.11. **Name not validly published:** generic name not validly published until 1967. **NOW** *Pareodinia?*. Originally *Palaeoperidinium* (name not validly published), subsequently *Palaeohystrichophora*, thirdly *Acanthaulax?*, fourthly *Pareodinia*, fifthly (and now) *Pareodinia?*. Age: Late Jurassic.

"spinosum" Cookson and Hughes, 1964, p.49, pl.8, figs.6–8. Holotype: Cookson and Hughes, 1964, pl.8, fig.8. **Name not validly published:** generic name not validly published until 1967. **NOW** *Epelidosphaeridia*. Originally *Palaeoperidinium* (name not validly published), subsequently (and now) *Epelidosphaeridia*. Age: early Cenomanian.

?striatum He Chengquan, 1991, p.64, pl.1, figs.31–33; text-fig.7. Holotype: He Chengquan, 1991, pl.1, fig.33; text-fig.7. Questionable assignment: Evitt et al. (1998, p.48). Age: Paleocene.

?subconicoides (Lejeune-Carpentier, 1942, p.B183–B185; text-figs.1–8) Lentin and Williams, 1973, p.106. Holotype: Lejeune-Carpentier, 1942, text-figs.1–2; Strel et al., 1977, pl.2, fig.3. Originally *Peridinium* (Appendix B), subsequently (and now) *Palaeoperidinium?*. Questionable assignment: Lentin and Williams (1973, p.106). Age: Late Cretaceous.

"*tabulatum*" (Cookson and Eisenack, 1965c, p.143–144, pl.19, figs.5–8; text-fig.3) Lentin and Williams, 1976, p.111. Holotype: Cookson and Eisenack, 1965c, pl.19, figs.6–7. **NOW** *Ginginodinium*. Originally (and now) *Ginginodinium*, subsequently *Palaeoperidinium*. Age: middle Paleocene.

?*tenuis* Schumacker-Lambry, 1978, p.46–47, pl.4, figs.11–13. Holotype: Schumacker-Lambry, 1978, pl.4, fig.11. Questionable assignment: Evitt et al. (1998, p.48). Age: late Paleocene (Landenian).

"?*velatum*" Conrad, 1941, p.8–9, pl.1, fig.A. Holotype: Conrad, 1941, pl.1, fig.A. **Name not validly published:** generic name not validly published until 1967. **NOW** *Trithyrodinium?*. Originally *Palaeoperidinium* (name not validly published), subsequently *Scriniodinium?*, thirdly *Palaeoperidinium?* (combination not validly published), fourthly (and now) *Trithyrodinium?*. Questionable assignment: Stover and Evitt (1978, p.218) as a problematic species. This combination was not validly published in Stover and Evitt (1978, p.218) since these authors did not fully reference the basionym. Age: Maastrichtian.

"*ventriosum*" (Wetzel, 1933a, p.161–162, pl.2, figs.4–6; text-figs.1,8) Deflandre, 1935. Emendation: Lejeune-Carpentier and Sarjeant, 1981, p.5, as *Cribroperidinium ventriosum*. Holotype: Wetzel, 1933a, pl.2, fig.4; Lejeune-Carpentier, 1946, fig.2; Lejeune-Carpentier and Sarjeant, 1981, pl.1, figs.3–4; text-fig.3. **Combination not validly published:** generic name not validly published until 1967. **NOW** *Cribroperidinium*. Originally *Peridinium* (Appendix B), subsequently *Palaeoperidinium* (combination not validly published), thirdly (and now) *Cribroperidinium*. Age: Senonian.

PALAEOSPHAERIUM Górká, 1965, p.308. Type: Górká, 1965, pl.2, figs.7a–b, as *Palaeosphaerium infrequens*.

**infrequens* Górká, 1965, p.308, pl.2, figs.7a–b. Holotype: Górká, 1965, pl.2, figs.7a–b. Sarjeant (1978a, p.38) indicated that this species name should be restricted to the holotype. Age: early Kimmeridgian.

PALAEOTETRADINIUM Deflandre, 1936b, p.189. Emendations: Deflandre and Sarjeant, 1970, p.3; Stover and Evitt, 1978, p.70. Taxonomic junior synonyms: *Inversidinium* and *Rhombodella*, both according to Stover and Evitt (1978, p.70–71) — however, Duxbury (1980, p.134–135) retained *Rhombodella*. This name was not validly published in Deflandre (1934, caption to fig.6 — p.967) since no description was provided. Type: Deflandre, 1936b, pl.9, fig.11, as *Palaeotetradinium silicorum*.

caudatum (Benson, 1976, p.218,220, pl.13, figs.4–6) Stover and Evitt, 1978, p.71. Holotype: Benson, 1976, pl.13, figs.4–6. Originally *Inversidinium*, subsequently (and now) *Palaeotetradinium*. Age: late Maastrichtian–early Paleocene.

"*hermesinoides*" Wetzel, 1940, p.138–140, pl.5, fig.7. Holotype: Wetzel, 1940, pl.5, fig.7. **NOW** *Villosacapsula?* (Appendix A). Originally *Palaeotetradinium*, subsequently *Veryhachium* (Appendix A), thirdly (and now) *Villosacapsula?* (Appendix A). Age: Late Cretaceous.

"*hyalodermum*" Cookson, 1956, p.188–189, pl.1, figs.12–16. Holotype: Cookson, 1956, pl.1, figs.12–13. **NOW** *Dorsennidium* (Appendix A). Originally *Palaeotetradinium*, subsequently *Veryhachium* (Appendix A), thirdly *Goniosphaeridium* (Appendix A), fourthly (and now) *Dorsennidium* (Appendix A). Age: Albian–Cenomanian.

maastrichtiense Herngreen et al., 1986, p.57,59, pl.12, figs.1–3. Holotype: Herngreen et al., 1986, pl.12, figs.1–2. Age: Maastrichtian.

minusculum (Alberti, 1961, p.10–11, pl.1, fig.10; pl.12, fig.4) Stover and Evitt, 1978, p.71. Holotype: Alberti, 1961, pl.1, fig.10. Originally *Wetzeliiella* subgenus *Rhombodinium*, subsequently *Rhombodinium?*, thirdly *Inversidinium*, fourthly (and now) *Palaeotetradinium*. Taxonomic junior synonym: *Inversidinium exilimurum*, according to Stover and Evitt (1978, p.71). Age: early Eocene.

"*natans*" (Cookson and Eisenack, 1962b, p.496, pl.7, figs.12–13) Lentin and Williams, 1985, p.272. Holotype: Cookson and Eisenack, 1962b, pl.7, fig.13. **Combination not validly published**: basionym not fully referenced. Originally *Rhombodella* (Appendix A), subsequently *Palaeotetradinium* (combination not validly published). **Taxonomic senior synonym**: *Palaeohystrichophora* (now *Rhombodella*) *paucispina*, according to Stover and Evitt (1978, p.71). Lentin and Williams (1985, p.272) inadvertently proposed this combination. Age: Aptian–Albian.

"*paucispinum*" (Alberti, 1961, p.19–20, pl.3, fig.25) Stover and Evitt, 1978, p.71. Holotype: Alberti, 1961, pl.3, fig.25. **NOW** *Rhombodella* (Appendix B). Originally *Palaeohystrichophora*, subsequently *Palaeotetradinium*, thirdly (and now) *Rhombodella* (Appendix B). Taxonomic junior synonym: *Rhombodella natans*, according to Stover and Evitt (1978, p.71). Age: middle Albian.

**silicorum* Deflandre, 1936b, p.189, pl.9, fig.11. Emendation: Deflandre and Sarjeant, 1970, p.4. Holotype: Deflandre, 1936b, pl.9, fig.11; Deflandre and Sarjeant, 1970, pl.1, figs.7–8. This name was not validly published in Deflandre (1934, caption to fig.6 — p.967; 1935, p.231) since no description was provided. N.I.A. Age: ?Senonian.

"*simplex*" Yu Jingxian, 1982, p.253, pl.8, figs.18–19. Holotype: Yu Jingxian, 1982, pl.8, fig.18. **NOW** *Cupritia* (Appendix A). Originally *Palaeotetradinium*, subsequently (and now) *Cupritia* (Appendix A). Age: late Kimmeridgian–Berriasian.

"**PALINOSPHERA**" Reinsch in Locker 1967, p.852. Calcareous dinoflagellate genus (see Elbrächter et al., 2008, p.1301, who noted that the cyst wall is pithonelloid and so a dinoflagellate affinity is questionable). **Name not validly published**: see below. **Taxonomic senior synonym**: *Pithonella*, by implication in Zügel (1994, p.17), who transferred the type to that genus. Locker (1967, p.852) appears to have been first to use this generic name, although he attributed it to Reinsch (1905). Reinsch had used the informal term "Palinosphären", but did not base a generic name on the term. Locker provided a brief description and included only a single species, *Palinosphaera sphaerica*, albeit questionably. Thus, pending further information, *Lagena* (as *Palinosphaera*) *sphaerica* must be considered the type of the generic name *Palinosphaera*. Following Zügel's (1994) transfer of *Lagena sphaerica* to *Pithonella*, *Palinosphaera* must be considered a taxonomic junior synonym of *Pithonella*. On the basis that Locker (1967) was working under the I.C.Z.N., Elbrächter et al. (2008, p.1301) indicated that the generic name *Palinosphaera* is not validly published (using I.C.N. terminology) as it contravenes I.C.Z.N. Articles 13.3 and 15.1. Type: *Palinosphaera sphaerica*.

"*brezovica*" Borza, 1972, p.148,150, figs.36–42. Holotype: Borza, 1972, figs.37. **NOW** *Pithonella*. Originally *Palinosphaera*, subsequently (and now) *Pithonella*. Age: Campanian.

sphaerica*" (Kaufmann in Heer, 1865, p.196, figs.104,106a–b) Locker, 1967, p.856 — caption to pl.1, fig.3. Holotype: not designated. **NOW *Pithonella*. Originally *Lagena* (Appendix A), subsequently *Stomiosphaera*, thirdly *Palinosphaera* (generic name not validly published), fourthly (and now) *Pithonella*. Questionable assignment: Locker, (1967, p.852). Taxonomic senior synonym: *Lagena* (now *Pithonella*) *ovalis*, according to Lorenz (1902, p.46) — however, Bonet (1956, p.450) retained *Lagena* (as *Stomiosphaera*) *sphaerica*. Taxonomic junior synonym: *Lagena orbularia* (Appendix A), according to Bonet (1956, p.450) — however, Masters and Scott (1978, p.215) retained the latter species as type of *Inocardion*. Locker (1967 p.856 — caption to pl.1, fig.3) gave the citation "*Palinosphaera* (?) *sphaerica*". However, as potential type of the genus, the assignment would not be questionable. Age: late Cenomanian–Turonian (based on later studies by Bolli — P. Hochuli, personal communication).

"**PALINOSPHERA**" Voigt and Häntzschel 1964, p.538. Calcareous dinoflagellate genus (see Elbrächter et al., 2008, p.1301, who noted that the cyst wall is pithonelloid and so a dinoflagellate affinity is questionable). **Name not validly published**: on the basis that Voigt and Häntzschel (1964) were working under the I.C.Z.N., Elbrächter et al. (2008, p.1301) indicated that the generic name *Palinosphaeria* is not validly published (using I.C.N. terminology) as it contravenes I.C.Z.N. Articles 13.3 and 15.1. Type: *Palinosphaera sphaerica* — no holotype designated.

"**PALMNICKIA**" Eisenack, 1954b, p.69. **Taxonomic senior synonym:** *Samlandia*, according to Morgenroth (1966a, p.39–40). Type: Eisenack, 1954b, pl.11, fig.10, as *Palmnickia lobifera*.

"**californica**" Drugg, 1967, p.30, pl.5, figs.14–15; pl.9, fig.8. Holotype: Drugg, 1967, pl.5, fig.15. **NOW** *Danea*. Originally *Palmnickia*, subsequently *Samlandia*, thirdly (and now) *Danea*, fourthly *Damassadinium* (generic name illegitimate). Taxonomic junior synonym: *Danea mutabilis*, according to Damassa (1979b, p.193). Age: Danian.

"***lobifera**" Eisenack, 1954b, p.70, pl.11, figs.10–11. Holotype: Eisenack, 1954b, pl.11, fig.10. **Taxonomic senior synonym:** *Samlandia chlamydophora*, according to Morgenroth (1966a, p.39–40). Age: early Oligocene.

PALYNODINIUM Gocht, 1970a, p.135,137–138,140. Loeblich Jr. and Loeblich III (1971, p.312) argued that the generic name *Palynodinium* was not validly published in Gocht (1970a) since no description or diagnosis was provided. However, since Gocht (1970a) proposed the genus and a single species, and provided a description for the species, under I.C.N. Article 38.5 both the generic and specific names must be considered validly published. A generic description was given by Gocht (1973, p.456). Type: Gocht, 1970a, fig.4, nos.1a–c, as *Palynodinium grallator*.

biculleum Kirsch, 1991, p.94–95, pl.17, figs.1–6; pl.41, figs.1–12; text-figs.44a–d,45. Holotype: Kirsch, 1991, pl.17, figs.1,3. Age: late Maastrichtian.

***grallator** Gocht, 1970a, p.135,137–138,140, figs.2a–e; fig.4, nos.1a–c,2a–b,3a–b,4a–b,5a–b,6a–b,7–8; fig.5, nos.1,2a–b. Holotype: Gocht, 1970a, fig.4, nos.1a–c. Age: Late Cretaceous.

helveticum Kirsch, 1991, p.95–96, pl.18, figs.1–8. Holotype: Kirsch, 1991, pl.18, figs.6–8. Age: early-middle Campanian.

"**koshakense**" Sharafutdinova, 1992, p.97–98, pl.2, figs.1–4; pl.3, figs.1–9. Holotype: Sharafutdinova, 1992, pl.3, figs.7–9. **Name not validly published:** lodgement of type not specified. Age: Maastrichtian–Danian.

minus Willumsen, 2006, p.957–959, figs.3A–K. Holotype: Willumsen, 2006, figs.3A–B,D–E. Age: latest Maastrichtian–earliest Danian.

spongiosum Hultberg, 1985c, p.139–140, pl.8, figs.H–J. Holotype: Hultberg, 1985c, pl.8, figs.H–J. Age: late Maastrichtian.

PANDADINIUM Courtinat, 1989, p.189. Emendation: Dodekova, 1994, p.24. Type: Dodekova, 1969, pl.3, figs.2–3,5, as *Lanterna spinosa*.

"**pattei**" (Valensi, 1949, p.539–540, fig.1) Courtinat, 1989, p.189. Holotype: Valensi, 1949, fig.1; Fauconnier and Masure, 2004, pl.62, figs.8–9. **NOW** *Hystriosphæridium*. Originally (and now) *Hystriosphæridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Lanterna*, fourthly *Lanterna?*, fifthly *Pandadinium*. Age: Bathonian.

"**saturnale**" (Brideaux and Fisher, 1976, p.24–25, pl.6, figs.1–10; pl.7, figs.1–13) Courtinat, 1989, p.190. Holotype: Brideaux and Fisher, 1976, pl.6, figs.1–7. **NOW** *Epiplosphaera*. Originally *Lanterna*, subsequently *Lanterna?*, thirdly *Pandadinium*, fourthly (and now) *Epiplosphaera*. Age: late Oxfordian–late Kimmeridgian.

***spinusum** (Dodekova, 1969, p.17–18, pl.3, figs.2–3,5–6,9,12; text-figs.C, Da) Courtinat, 1989, p.190. Holotype: Dodekova, 1969, pl.3, figs.2–3,5. Originally *Lanterna*, subsequently *Lanterna?*, thirdly (and now) *Pandadinium*. Age: Tithonian.

PANNOSIELLA Batten and Lister, 1988, p.347. Type: Batten and Lister, 1988, fig.2f, as *Pannosiella perforata*.

**perforata* Batten and Lister, 1988, p.347–348, figs.2f,3g. Holotype: Batten and Lister, 1988, fig.2f. Age: Barremian.

PAPUADINIUM Davey, 1988, p.42. Type: Cookson and Eisenack, 1960b, pl.39, fig.15, as *Cannosphaeropsis apiculata*.

**apiculatum* (Cookson and Eisenack, 1960b, p.254, pl.39, fig.15) Davey, 1988, p.42. Emendation: Davey, 1988, p.42–43, as *Papuadinium apiculatum*. Holotype: Cookson and Eisenack, 1960b, pl.39, fig.15; Fensome et al., 1993a, fig.1 — p.927. Originally *Cannosphaeropsis*, subsequently *Adnatosphaeridium*, thirdly *Rigaudella*, fourthly (and now) *Papuadinium*. Age: ?Tithonian.

PARABOHAIIDINA Jiabo, 1978, p.43. Emendations: He Chengquan, 1984b, p.155; Xu Jinli and Mao Shaozhi, 1989, p.300–301; Sun Xuekun, 1994, p.80,82; He Chengquan et al., 2009, p.464,645. Taxonomic junior synonym: *Conicoidium*, according to Sun Xuekun (1994, p.80). Type: Jiabo, 1978, pl.16, fig.9, as *Parabohaidina laevigata*.

arcteverrucosa (Liu Zhili and Zheng Yuefang in Liu Zhili et al., 1992, p.55, pl.3, figs.7–10) He Chengquan et al., 2009, p.467. Holotype: Liu Zhili et al., 1992, pl.3, fig.7. Originally *Bohaidina*, subsequently (and now) *Parabohaidina*. Age: Early Tertiary.

arenata nom. nov. subst. pro *Parabohaidina granulata* (He Chengquan, 1984b) He Chengquan et al., 2009. *Conicoideum granulatum* He Chengquan, 1984b, p.156–157, pl.2, figs.22–27; text-fig.1. Emendation: Xu Jinli and Mao Shaozhi, 1989, p.302. Holotype: He Chengquan, 1984b, pl.2, fig.26. Originally *Conicoidium granulatum*, subsequently *Parabohaidina granulata* (Jiabo) He Chengquan et al. (illegitimate combination, non *Parabohaidina granulata* Jiabo), thirdly (and now) *Parabohaidina arenata*. Taxonomic senior synonym: *Parabohaidina granulata*, according to Sun Xuekun (1994, p.82) — however, He Chengquan et al. (2009, p.454) retained this species separately. The name *Parabohaidina arenata* is proposed here as a substitute name for the illegitimate combination *Parabohaidina granulata* (He Chengquan) He Chengquan et al. The epithet derives from the Latin *arenatus*, full of sand. Age: Tertiary.

bullata nom. nov. subst. pro *Parabohaidina tuberculatus* (Jiabo, 1978) He Chengquan et al., 2009. *Conicoidium tuberculatum* Jiabo, 1978, p.46, pl.18, figs.5–10; text-fig.7. Holotype: Jiabo, 1978, pl.18, fig.7. Originally *Conicoidium tuberculatum*, subsequently *Parabohaidina tuberculata* (Jiabo) He Chengquan et al. (illegitimate name, non *Parabohaidina tuberculata* He Chengquan), thirdly (and now) *Parabohaidina bullata*. Taxonomic senior synonym: *Parabohaidina tuberculata*, according to Sun Xuekun (1994, p.82) — however, He Chengquan et al. (2009, p.466) retained this species separately. The name *Parabohaidina bullata* is proposed here as a substitute name for the illegitimate combination *Parabohaidina tuberculata* (Jiabo) He Chengquan et al. The epithet derives from the Latin *bullata*, knob, stud. N.I.A. Age: Early Tertiary.

ceratoides Zhu Shenzhao, He Chengquan and Jin Guangxing in He Chengquan et al., 1989, p.59, pl.14, fig.1. Holotype: He Chengquan et al., 1989, pl.14, fig.1. Age: Early Tertiary.

granorugosum (Jiabo, 1978, p.46, pl.18, figs.11–12) He Chengquan et al., 2009, p.465. Holotype: Jiabo, 1978, pl.18, fig.12. Originally *Conicoidium*, subsequently (and now) *Parabohaidina*. Taxonomic senior synonym: *Parabohaidina retirugosa*, according to Sun Xuekun (1994, p.82) — however, He Chengquan et al. (2009, p.465) retained this species separately. Age: Early Tertiary.

"*granulata*" (He Chengquan, 1984b, p.156–157, pl.2, figs.22–27; text-fig.1) He Chengquan et al., 2009, p.465. Emendation: Xu Jinli and Mao Shaozhi, 1989, p.302. Holotype: He Chengquan, 1984b, pl.2, fig.26. **Combination illegitimate — senior homonym:** *Parabohaidina granulata* Jiabo 1978. **NOW** *Parabohaidina arenata*. Originally *Conicoidium granulatum*, subsequently *Parabohaidina granulata* (Jiabo) He Chengquan et al. (illegitimate combination, non *Parabohaidina granulata* Jiabo), thirdly (and now) *Parabohaidina arenata*. Taxonomic senior synonym: *Parabohaidina granulata* Jiabo, according to Sun Xuekun (1994, p.82) — however, He Chengquan et al. (2009, p.454) retained this species separately. Age: Tertiary.

"subsp. *minor*" (Tang in Cai Zhiguo et al., 1998, p.239, pl.80, figs.8) He Chengquan et al., 2009, p.466. Holotype: Cai Zhiguo et al., 1998, pl.80, figs.8. **Name not validly published:** no English or Latin description or diagnosis. Originally *Conicoidium granulatum* subsp. *minor* (name not validly published), subsequently *Parabohaidina granulata* (He Chengquan) subsp. *minor* (name not validly published).

granulata Jiabo, 1978, p.44, pl.17, figs.4–6. Holotype: Jiabo, 1978, pl.17, fig.5. Taxonomic junior synonym: *Conicoidium granulatum*, according to Sun Xuekun (1994, p.82) — however, He Chengquan et al. (2009, p.454) retained that species separately. Junior homonym: *Parabohaidina granulata* (He Chengquan) He Chengquan et al. 2009. Age: Early Tertiary.

subsp. *granulata*. Autonym. Holotype: Jiabo, 1978, pl.17, fig.5. Age: Early Tertiary.

subsp. *magna* Zhu Shenzhao, He Chengquan and Jin Guangxing in He Chengquan et al., 1989, p.60, pl.15, figs.1–4 ex He Chengquan et al., 2009, p.468. Holotype: He Chengquan et al., 1989, p.60, pl.15, fig.3, designated by He Chengquan et al. (2009, p.468). This name was not validly published in He Chengquan et al. (1989) as no holotype was designated. Age: Early Tertiary.

"*laevigata*" (Jiabo, 1978, p.46, pl.18, fig.1) He Chengquan et al., 2009, 466. Holotype: Jiabo, 1978, pl.18, fig.1. **Combination illegitimate — senior homonym:** *Parabohaidina laevigata* Jiabo 1978. **NOW** *Parabohaidina runcinatus*. Originally *Conicoidium laevigatum*, subsequently *Parabohaidina laevigata* (Jiabo) He Chengquan et al. (illegitimate combination, non *Parabohaidina laevigata* Jiabo), thirdly (and now) *Parabohaidina runcinatus*. Taxonomic senior synonym: *Parabohaidina laevigata*, according to Sun Xuekun (1994, p.82)) — however, He Chengquan et al. (2009, p.466) retained this species separately. Age: Early Tertiary.

**laevigata* Jiabo, 1978, p.43, pl.15, fig.4; pl.16, figs.1–11; pl.17, figs.1–3. Emendation: Xu Jinli and Mao Shaozhi, 1989, p.301. Holotype: Jiabo, 1978, pl.16, fig.9. Taxonomic junior synonym: *Conicoidium laevigatum*, according to Sun Xuekun (1994, p.82)) — however, He Chengquan et al. (2009, p.466) retained this species separately. Junior homonym: *Parabohaidina laevigata* (Jiabo) He Chengquan et al. 2009. Age: Early Tertiary.

"forma *laevigata*". Autonym. Emendation: Xu Jinli and Mao Shaozhi, 1989, p.301. Holotype: Jiabo, 1978, pl.16, fig.9. **Now redundant.**

subsp. *laevigata*. Autonym. Emendation: Xu Jinli and Mao Shaozhi, 1989, p.301, as *Parabohaidina laevigata* forma *laevigata*. Holotype: Jiabo, 1978, pl.16, fig.9.

"forma *minor*" (Jiabo, 1978, p.44, pl.16, figs.1–6; pl.17, figs.1–3) Xu Jinli and Mao Shaozhi, 1989, p.301. Emendation: Xu Jinli and Mao Shaozhi, 1989, p.301, as *Parabohaidina laevigata* forma *minor*. Holotype: Jiabo, 1978, pl.17, fig.1. **NOW** *Parabohaidina laevigata* subsp. *minor*. Originally (and now) *Parabohaidina laevigata* subsp. *minor*, subsequently *Parabohaidina laevigata* forma *minor*. Age: Early Tertiary.

subsp. *minor* Jiabo, 1978, p.44, pl.16, figs.1–6; pl.17, figs.1–3. Emendation: Xu Jinli and Mao Shaozhi, 1989, p.301, as *Parabohaidina laevigata* forma *minor*. Holotype: Jiabo, 1978, pl.17, fig.1. Originally (and now) *Parabohaidina laevigata* subsp. *minor*, subsequently *Parabohaidina laevigata* forma *minor*. Lentin and Williams (1989, p.280) retained this taxon at subspecific rank. Age: Early Tertiary.

"forma *ovata*" (Jiabo, 1978, p.44, pl.15, fig.4) Xu Jinli and Mao Shaozhi, 1989, p.301. Emendation: Xu Jinli and Mao Shaozhi, 1989, p.301–302, as *Parabohaidina laevigata* forma *ovata*. Holotype: Jiabo, 1978, pl.15, fig.4. **NOW** *Parabohaidina laevigata* subsp. *ovata*. Originally (and now) *Parabohaidina laevigata* subsp. *ovata*, subsequently *Parabohaidina laevigata* forma *ovata*. Age: Early Tertiary.

subsp. *ovata* Jiabo, 1978, p.44, pl.15, fig.4. Emendation: Xu Jinli and Mao Shaozhi, 1989, p.301–302, as *Parabohaidina laevigata* forma *ovata*. Holotype: Jiabo, 1978, pl.15, fig.4. Originally (and now) *Parabohaidina laevigata* subsp. *ovata*, subsequently *Parabohaidina laevigata* forma *ovata*. Lentin and Williams (1989, p.280) retained this taxon at subspecific rank. Age: Early Tertiary.

operculata He Chengquan, 1984b, p.155–156, pl.1, figs.19–20. Holotype: He Chengquan, 1984b, pl.1, fig.20. Age: Oligocene.

puyangensis Zhu Shenzhao, He Chengquan and Jin Guangxing in He Chengquan et al., 1989, p.60, pl.15, figs.7–14. Holotype: He Chengquan et al., 1989, pl.15, fig.13. Age: Early Tertiary.

retirugosa Jiabo, 1978, p.44–45, pl.17, figs.7–9. Holotype: Jiabo, 1978, pl.17, fig.7. Taxonomic junior synonym: *Conicoidium granorugosum*, according to Sun Xuekun (1994, p.82) — however, He Chengquan et al. (2009, p. 465) retained that species separately. Age: Early Tertiary.

runcinatus nom. nov. subst. pro *Parabohaidina laevigata* (Jiabo, 1978) He Chengquan et al., 2009.

Conicoideum laevigatum Jiabo, 1978, p.46, pl.18, fig.1.

Holotype: Jiabo, 1978, pl.18, fig.1. Originally *Conicoidium laevigatum*, subsequently *Parabohaidina laevigata* (Jiabo) He Chengquan et al. (illegitimate combination, non *Parabohaidina laevigata* Jiabo), thirdly (and now) *Parabohaidina runcinatus*. Taxonomic senior synonym: *Parabohaidina laevigata*, according to Sun Xuekun (1994, p.82) — however, He Chengquan et al. (2009, p.466) retained this species separately. The name *Parabohaidina runcinatus* is proposed here as a substitute name for the illegitimate combination *Parabohaidina laevigata* (Jiabo) He Chengquan et al. The epithet derives from the Latin *runcinatus*, planed off. Age: Early Tertiary.

shangsica He Chengquan, 1984b, p.156, pl.1, figs.1–3. Holotype: He Chengquan, 1984b, pl.1, fig.1. Age: Oligocene.

tuberculata He Chengquan, 1984b, p.156, pl.1, fig.9. Holotype: He Chengquan, 1984b, pl.1, fig.9. Taxonomic junior synonyms: *Conicoidium tuberculatum*, according to Sun Xuekun (1994, p.82) — however, He Chengquan et al. (2009, p.466) retained that species separately; *Bohaidina laxituberculata*, according to He Chengquan et al., 2009, p.471. Junior homonym: *Parabohaidina tuberculata* (Jiabo) He Chengquan et al. 2009. Age: middle-late Oligocene.

"*tuberculata*" (Jiabo, 1978, p.46, pl.18, figs.5–10; text-fig.7) He Chengquan et al., 2009, p.466. Holotype: Jiabo, 1978, pl.18, fig.7. **Combination illegitimate — senior homonym:** *Parabohaidina tuberculata* He Chengquan 1984b. **NOW** *Parabohaidina bulla*. Originally *Conicoidium tuberculatum*, subsequently *Parabohaidina tuberculata* (Jiabo) He Chengquan et al. (illegitimate name, non *Parabohaidina tuberculata* He Chengquan), thirdly (and now) *Parabohaidina bulla*. Taxonomic senior synonym: *Parabohaidina tuberculata*, according to Sun Xuekun (1994, p.82) — however, He Chengquan et al. (2009, p.466) retained this species separately. Age: Early Tertiary.

verrucosa Jiabo, 1978, p.45, pl.17, fig.11. Holotype: Jiabo, 1978, pl.17, fig.11. Age: Early Tertiary.

"*verrucosa*" Jiabo, 1978, p.45, pl.17, fig.10. Holotype: Jiabo, 1978, pl.17, fig.10. **NOW** *Bohaidina*. Originally *Parabohaidina*, subsequently (and now) *Bohaidina*. Age: Early Tertiary.

"**PARABOHAININA** subgenus **CONICOIDIUM**" (Jiabo, 1978, p.45–46) He Chengquan et al., 2009, p.465.

Combination not validly published: no clear indication of rank. We assume that the rank of subgenus was implied by He Chengquan et al. (2009) and so treat it as such here; but in doing so do not intend to validate the name. He Chengquan et al. (2009, p.465–466) included the following species in this subgenus: *Parabohaidina granorugosa*, *Parabohaidina granulata* (He Chengquan) He Chengquan et al. (combination illegitimate), *Parabohaidina laevigata* (Jiabo) He Chengquan et al. (combination illegitimate) and *Parabohaidina tuberculata* (Jiabo) He Chengquan et al. (combination illegitimate). Type: Jiabo, 1978, pl.18, fig.7, as *Conicoidium tuberculatum*.

"**PARABOHAININA** subgenus **PARABOHAININA**". Autonym. **Name redundant.** He Chengquan et al. (2009, p.465–466) included the following species in this subgenus: *Parabohaidina arcteverrucosa*, *Parabohaidina ceratoides*, *Parabohaidina granulata* Jiabo, *Parabohaidina laevigata* Jiabo, *Parabohaidina operculata*, *Parabohaidina puyangensis*, *Parabohaidina retirugosa*, *Parabohaidina shangsica*, *Parabohaidina tuberculata* He Chengquan, *Parabohaidina verrucosa* and *Parabohaidina verrucosa*. Type: Jiabo, 1978, pl.16, fig.9, as *Parabohaidina laevigata*.

PARAEVANSIA Below, 1990, p.57–58. Type: Fensome, 1979, pl.4, fig.5; text-fig.11E, as *Pareodinia brachyhelis*.

**brachyhelis* (Fensome, 1979, p.29–31, pl.4, figs.3,5–7; text-figs.11A–E) Below, 1990, p.58. Emendation: Below, 1990, p.58, as *Paraevansia brachyhelis*. Holotype: Fensome, 1979, pl.4, fig.5; text-fig.11E. Originally *Pareodinia*, subsequently (and now) *Paraevansia*. Age: Bajocian–Callovian.

mammillata Quattrocchio and Sarjeant, 1992, p.83–84 (al. 2–235 — 2–236), pl.4, figs.5–9; pl.5, figs.5–10. Holotype: Quattrocchio and Sarjeant, 1992, pl.4, fig.5. Age: middle-late Tithonian.

PARAGONYAULACYSTA Johnson and Hills, 1973, p.207. Emendations: Dörhöfer and Davies, 1980, p.31; Below, 1990, p.59–60. Type: Johnson and Hills, 1973, pl.2, fig.9, as *Paragonyaulacysta calloviensis*.

?*borealis* (Brideaux and Fisher, 1976, p.21–22, pl.3, figs.3–4,6–9; pl.4, figs.1–8) Stover and Evitt, 1978, p.116. Holotype: Brideaux and Fisher, 1976, pl.3, figs.3,6,8. Originally *Pareodinia*, subsequently *Paragonyaulacysta*, thirdly (and now) *Paragonyaulacysta*?. Questionable assignment: Below (1990, p.60). Age: late Oxfordian–Berriasian.

**calloviensis* Johnson and Hills, 1973, p.207, pl.2, figs.9,15–16 (not 13,17); text-figs.9A–C. Emendation: Dörhöfer and Davies, 1980, p.31. Holotype: Johnson and Hills, 1973, pl.2, fig.9; Fensome et al., 1993a, fig.1 — p.1015. Below (1990, p.60) gave the citation "*Paragonyaulacysta calloviensis* Johnson and Hills 1973, emend.". Age: early Callovian.

capillosa (Brideaux and Fisher, 1976, p.20–21, pl.2, figs.3–10; pl.3, figs.1–2,5) Stover and Evitt, 1978, p.116. Holotype: Brideaux and Fisher, 1976, pl.2, figs.5–7. Originally *Pareodinia*, subsequently (and now) *Paragonyaulacysta*. Age: late Oxfordian–Berriasian.

?*fenesepta* Mantle, 2009a, p.47–49, pl.7, figs.1–9; text-fig.10. Holotype: Mantle, 2009a, pl.7, fig.1. Questionable assignment: Mantle (2009a, p.47). Age: Callovian–early Oxfordian.

helbyi Mantle, 2009a, p.49–51, pl.8, figs.1–7; text-fig.11. Holotype: Mantle, 2009a, pl.8, figs.1a–b. Age: Callovian–early Oxfordian.

retiphragmata Dörhöfer and Davies, 1980, p.31–32, figs.14,29D–F. Emendation: Below, 1990, p.60,62. Holotype: Dörhöfer and Davies, 1980, figs.14,29D–F. Age: Callovian.

spinisutura Below, 1990, p.62–64, pl.10, figs.1–6,12–13; text-figs.18a–f. Holotype: Below, 1990, pl.10, figs.2,5. Contrary to the opinion of Lentin and Williams (1993, p.489), this name is validly published. Below (1987a, p.6) stated that, unless otherwise indicated, all the material is in his personal collection. Since Below (1987a, 1987b, 1990) are parts I to III of a single study, we agree with J. Jansonius (personal communication) that Below's (1987a) repository statement refers to all three publications, fulfilling the requirement of I.C.N. Article 40.7 (see also the discussion on Article 40.7 in the Introduction). Age: Kimmeridgian.

"**PARAIREIANA**" He Chengquan, 1984a, p.768–769,772–773. **Taxonomic senior synonym:** *Carpatella*, according to Chen et al. (1988, p.21). Type: He Chengquan, 1984a, pl.1, fig.8, as *Paraireiana sinensis*.

"*circularis*" He Chengquan, 1991, p.171, pl.8, fig.13. Holotype: He Chengquan, 1991, pl.8, fig.13. **NOW** *Carpatella*. Originally *Paraireiana*, subsequently (and now) *Carpatella*. Age: Paleocene.

"*fusifformis*" He Chengquan, 1991, p.171, pl.8, fig.6–8. Holotype: He Chengquan, 1991, pl.8, fig.6. **NOW** *Carpatella*. Originally *Paraireiana*, subsequently (and now) *Carpatella*. Age: middle Eocene.

"**lamprota**" He Chengquan, 1991, p.171–172, pl.8, figs.15–16. Holotype: He Chengquan, 1991, pl.8, figs.15–16. **NOW** *Carpatella*. Originally *Paraireiana*, subsequently (and now) *Carpatella*. Age: early Eocene.

"**scabrota**" He Chengquan, 1991, p.172, pl.8, fig.14. Holotype: He Chengquan, 1991, pl.8, fig.14. **NOW** *Carpatella*. Originally *Paraireiana*, subsequently (and now) *Carpatella*. Age: Paleocene.

"***sinensis**" He Chengquan, 1984a, p.769, pl.1, figs.8–11. Holotype: He Chengquan, 1984a, pl.1, fig.8. **NOW** *Carpatella*. Originally *Paraireiana*, subsequently (and now) *Carpatella*. Age: Paleocene–Eocene.

"**PARANETRELYTRON**" Sarjeant, 1966c, p.201. **Taxonomic senior synonym:** *Pareodinia*, according to Wiggins (1975, p.102) and Stover and Evitt (1978, p.296). Type: Sarjeant, 1966c, pl.21, fig.5; pl.23, fig.5, as *Paranetrellytron strongylum*.

"***strongylum**" Sarjeant, 1966c, p.201–202, pl.21, fig.5; pl.23, fig.5; text-fig.52. Holotype: Sarjeant, 1966c, pl.21, fig.5; pl.23, fig.5. Originally *Paranetrellytron*, subsequently *Pareodinia*. **Taxonomic senior synonym:** *Pareodinia ceratophora*, according to Wiggins (1975, p.103) and Kunz (1990, p.13). For etymology, see *Pareodinia strongyla*. Age: early Barremian.

PARAPERIDINIUM Jin Guangxing, He Chengquan and Zhu Shenzhao in He Chengquan et al., 1989, p.60–61. Emendation: Mao Shaozhi et al., 1995, p.59. Type: He Chengquan et al., 1989, pl.1, fig.16, as *Paraperidinium bellum*.

***bellum** Jin Guangxing, He Chengquan and Zhu Shenzhao in He Chengquan et al., 1989, p.61, pl.1, figs.1–18; pl.29, figs.5–6. Emendation: Mao Shaozhi et al., 1995, p.60. Holotype: He Chengquan et al., 1989, pl.1, fig.16. Taxonomic junior synonym: *Paraperidinium draco*, according to Mao Shaozhi et al. (1995, p.60). Age: Early Tertiary.

"**draco**" Jin Guangxing, He Chengquan and Zhu Shenzhao in He Chengquan et al., 1989, p.61, pl.1, figs.19–25. Holotype: He Chengquan et al., 1989, pl.1, fig.19. **Taxonomic senior synonym:** *Paraperidinium bellum*, according to Mao Shaozhi et al. (1995, p.60). Age: Early Tertiary.

PARARHOMBODELLA Xu Jinli et al., 1997, p.91–92, 149–150. Emendation: He Chengquan et al., 2009, p.282, 646. Name incorrectly spelled as "*Parhombodella*" in Xu Jinli et al. (1997, p.149). Type: Jiabo, 1978, pl.24, fig.12, as *Rhombodella tubiforma*.

biformoides Xu Jinli et al., 1997, p.94–95, pl.32, figs.6a–c; text-fig.8 ex He Chengquan et al., 2009, p.282, 658. Holotype: Xu Jinli et al., 1997, pl.32, figs.6a–c; text-fig.8. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided. He Chengquan et al. (2009, p.658) validated the name by publishing an English diagnosis. Age: Oligocene.

bifurcata (Jiabo, 1978, p.50, pl.24, figs.16–17) Xu Jinli et al., 1997, p.95. Originally *Rhombodella* (Appendix A), subsequently (and now) *Pararhombodella*. Age: Early Tertiary.

***tubiforma** (Jiabo, 1978, p.50, pl.24, figs.12–13) Xu Jinli et al., 1997, p.92. Holotype: Jiabo, 1978, pl.24, fig.12. Originally *Rhombodella* (Appendix A), subsequently (and now) *Pararhombodella*. Taxonomic junior synonym: *Rhombodella symphyanthera* (Appendix A), according to Xu Jinli et al. (1997, p.92). Age: Early Tertiary.

variabilis (Jiabo, 1978, p.50, pl.24, figs.7–11) Xu Jinli et al., 1997, p.95. Holotype: Jiabo, 1978, pl.24, fig.11. Originally *Rhombodella* (Appendix A), subsequently (and now) *Pararhombodella*. Age: Early Tertiary.

verruciformis (He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.65–66, pl.19, figs.9–11) Xu Jinli et al., 1997, p.96. Holotype: He Chengquan et al., 1989, pl.19, fig.10. Originally *Rhombodella*

(Appendix A), subsequently (and now) *Pararhombodella*. Taxonomic junior synonym: *Rhombodella formosa* (Appendix A), according to Xu Jinli et al. (1997, p.96). Age: Early Tertiary.

PARASCRINIOCASSIS Below, 1990, p.27. Contrary to the opinion of Lentin and Williams (1993, p.490), this name is validly published since the name of the "type species" is validly published. Type: Below, 1990, pl.5, figs.11–15, as *Parascrinioicassis krumbeckii*.

**krumbeckii* Below, 1990, p.27–28,30, pl.5, figs.1–15; pl.4, figs.1–9; text-figs.7a–h. Holotype: Below, 1990, pl.5, figs.11–15. Contrary to the opinion of Lentin and Williams (1993, p.490), this name is validly published. Below (1987a, p.6) stated that, unless otherwise indicated, all the material is in his personal collection. Since Below (1987a, 1987b, 1990) are parts I to III of a single study, we agree with J. Jansonius (personal communication) that Below's (1987a) repository statement refers to all three publications, fulfilling the requirement of I.C.N. Article 40.7 (see also the discussion on Article 40.7 in the Introduction). Age: late Pliensbachian–early Toarcian.

PARASTOMIOSPHAERA Nowak, 1968, p.298. Calcareous dinoflagellate genus (see Elbrächter et al., 2008, p.1301). Type: Borza, 1964, pl.1, fig.5, as *Stomiosphaera malmica*.

**malmica* (Borza, 1964, p.192, pl.1, figs.5–6) Nowak, 1968, p.298. Holotype: Borza, 1964, pl.1, fig.5. Originally *Stomiosphaera*, subsequently *Cadosina*, thirdly (and now) *Parastomiosphaera*. Age: Kimmeridgian.

PAREODINIA Deflandre, 1947d, p.4. Emendations: Gocht, 1970b, p.153; Johnson and Hills, 1973, p.208; Wiggins, 1975, p.103; Stover and Evitt, 1978, p.116–117; Below, 1990, p.64–65. Taxonomic junior synonyms: *Paranetrellytron*, according to Wiggins (1975, p.102) and Stover and Evitt (1978, p.296); *Caddasphaera*, by implication in Prauss (1989, p.42), who transferred the "type species" of *Caddasphaera*, *Caddasphaera halosa*, to *Pareodinia*; *Netrellytron*, according to Below (1990, p.64) — however, *Netrellytron* is now considered to be a taxonomic junior synonym of *Kalyptea*; *Glomodinium*, according to Stover and Evitt (1978, p.116–117) — however, Dörhöfer and Davies (1980, p.12) retained *Glomodinium*; *Imbatodinium*, according to Wiggins (1975, p.103) and, by implication in Below (1990, p.68), who included the "type species" of *Imbatodinium*, *Imbatodinium kondratjevii*, in *Pareodinia* — however, Dörhöfer and Davies (1980, p.36–37) and Harker and Sarjeant (1991, p.708) retained *Imbatodinium*; *Pluriarvalium*, according to Wiggins (1975, p.102) — however, Lentin and Williams (1989, p.297) retained *Pluriarvalium*; *Kalyptea*, according to Gocht (1970b, p.154) — however, Lentin and Williams (1993, p.365) retained *Kalyptea*; *Broomea*, according to Wiggins (1975, p.102) — however, Lentin and Williams (1976, p.144) retained *Broomea*. Type: Deflandre, 1947d, text-fig.1, as *Pareodinia ceratophora*.

"*aceras*" (Manum and Cookson, 1964, p.27–28, pl.6, figs.9–11) Davey and Verdier, 1974, p.645. Holotype: Manum and Cookson, 1964, pl.6, fig.9. **NOW** *Caligodinium*. Originally *Kalyptea*, subsequently (and now) *Caligodinium*, thirdly *Pareodinia*. Taxonomic junior synonym: *Caligodinium amiculum*, according to Heilmann-Clausen (1985, p.18) — however, Lentin and Williams (1989, p.44) retained *Caligodinium amiculum*. Age: Cenomanian.

"*alaskensis*" Wiggins, 1975, p.104, pl.2, figs.7–8. Holotype: Wiggins, 1975, pl.2, fig.7. **NOW** *Evansia*. Originally *Pareodinia*, subsequently *Glomodinium* (combination not validly published), thirdly (and now) *Evansia*. Taxonomic junior synonyms: *Pareodinia minuta* and *Pareodinia robusta*, both according to Below (1990, p.72) — however, Poulsen (1996, p.62) retained *Pareodinia robusta*. Age: ?Callovian–mid Kimmeridgian.

?*ampullacea* Yu Jingxian, 1982, p.236, pl.1, figs.5,8. Holotype: Yu Jingxian, 1982, pl.1, fig.5. Originally *Pareodinia*, subsequently (and now) *Pareodinia*?. Questionable assignment: Below (1990, p.65) as a "nomen dubium". Age: Late Jurassic–Early Cretaceous.

?*angulata* Kumar, 1987a, p.242–243, pl.1, figs.3,6,9; text-fig.5. Holotype: Kumar, 1987a, pl.1, fig.3. Originally *Pareodinia*, subsequently (and now) *Pareodinia*?. Questionable assignment: Below (1990, p.65) as a "nomen dubium". Age: Kimmeridgian–Tithonian.

"*antennata*" (Gitmez and Sarjeant, 1972, p.232–233, pl.11, figs.2–3) Wiggins, 1975, p.107. Holotype: Gitmez and Sarjeant, 1972, pl.11, fig.3. **NOW** *Gochteodinia*. Originally *Imbatodinium*, subsequently *Pareodinia*, thirdly (and now) *Gochteodinia*. Age: early–late Kimmeridgian.

aphelia Cookson and Eisenack, 1958, p.60, pl.12, figs.3–4,9. Emendation: Below, 1990, p.66. Holotype: Cookson and Eisenack, 1958, pl.12, fig.4. Taxonomic senior synonym: *Pareodinia ceratophora*, according to Wiggins (1975, p.103) — however, Below (1990, p.66) retained *Pareodinia aphia*. Age: Middle Jurassic–Early Cretaceous.

?*apotomocerastes* Sarjeant, 1972, p.27–28, pl.3, fig.4. Holotype: Sarjeant, 1972, l.3, fig.4. Originally *Pareodinia*, subsequently (and now) *Pareodinia*?. Questionable assignment: Stover and Evitt (1978, p.117); Below (1990, p.65) as a "nomen dubium". Age: late Bathonian–early Callovian.

arctica Wiggins, 1975, p.103, pl.2, figs.1–5. Holotype: Wiggins, 1975, pl.2, fig.1. Below (1990, p.65) suggested that this species may be a smooth variant of *Glomodinium* (now *Evansia*) *alaskense*. Age: Late Jurassic, ?Tithonian.

asperata Riley in Fisher and Riley, 1980, p.324, pl.3, figs.6,10. Holotype: Fisher and Riley, 1980, pl.3, figs.6,10. Age: Volgian.

"*barentsensis*" Smelror, 1988a, p.296, pl.3, figs.4–5; text-fig.11. Holotype: Smelror, 1988a, pl.3, fig.5. **NOW** *Evansia*. Originally *Pareodinia*, subsequently (and now) *Evansia*. Age: early Callovian–early Oxfordian.

"*borealis*" Brideaux and Fisher, 1976, p.21–22, pl.3, figs.3–4,6–9; pl.4, figs.1–8. Holotype: Brideaux and Fisher, 1976, pl.3, figs.3,6,8. **NOW** *Paragonyaulacysta*. Originally *Pareodinia*, subsequently (and now) *Paragonyaulacysta*. Age: late Oxfordian–Berriasian.

"*brachyhelis*" Fensome, 1979, p.29–31, pl.4, figs.3,5–7; text-figs.11A–E. Emendation: Below, 1990, p.58, as *Paraevansia brachyhelis*. Holotype: Fensome, 1979, pl.4, fig.5; text-fig.11E. **NOW** *Paraevansia*. Originally *Pareodinia*, subsequently (and now) *Paraevansia*. Age: Bajocian–Callovian.

brevicornis Zatonkaya, 1975, p.31, pl.1, fig.1. Holotype: Zatonkaya, 1975, pl.1, fig.1. Age: Volgian.

brevicornuta Kunz, 1990, p.12–13, pl.1, figs.13–15; text-figs.6a–b. Holotype: Kunz, 1990, pl.1, fig.13; text-fig.6a. Age: Tithonian.

"*capillosa*" Brideaux and Fisher, 1976, p.20–21, pl.2, figs.3–10; pl.3, figs.1–2,5. Holotype: Brideaux and Fisher, 1976, pl.2, figs.5–7. **NOW** *Paragonyaulacysta*. Originally *Pareodinia*, subsequently (and now) *Paragonyaulacysta*. Age: late Oxfordian–Berriasian.

**ceratophora* Deflandre, 1947d, p.4, text-figs.1–3. Emendation: Gocht, 1970b, p.153–156. Holotype: Deflandre, 1947d, text-fig.1. Taxonomic junior synonyms: *Cryptomeriapollenites coralliensis* (Appendix A), according to Sarjeant (1962b, p.263); *Kalyptea monoceras*, according to Wiggins (1975, p.103) and Below (1990, p.65); *Paranetrelytron strongylum*, according to Wiggins (1975, p.103); *Pareodinia aphia*, according to Wiggins (1975, p.103) — however, Below (1990, p.66) retained *Pareodinia aphia*; *Pareodinia nuda*, according to Wiggins (1975, p.103) and Kunz (1990, p.13). Gocht (1970b, p.154) considered *Kalyptea jurassica* and *Kalyptea diceras* to be possible taxonomic junior synonyms of *Pareodinia ceratophora*. Age: late Callovian.

subsp. *ceratophora*. Autonym. Emendation: Below, 1990, p.66–67, as *Pareodinia ceratophora* var. *ceratophora*. Holotype: Deflandre, 1947d, text-fig.1. Taxonomic junior synonyms: *Pareodinia ceratophora* subsp. *pachycera* (as *Pareodinia ceratophora* var. *pachycera*) and *Netrelytron par*, both according to Below (1990, p.65) — however, *Netrelytron parum* is now considered a taxonomic junior synonym of *Netrelytron* (as and now) *Kalyptea stegastum*.

"var. *ceratophora*". Autonym. Emendation: Below, 1990, p.66–67, as *Pareodinia ceratophora* var. *ceratophora*. Holotype: Deflandre, 1947d, text-fig.1. **Now redundant**. Taxonomic junior synonyms: *Pareodinia ceratophora* subsp. *pachycera* (as *Pareodinia ceratophora* var. *pachycera*) and *Netrelytron*

parum, both according to Below (1990, p.65) — however, *Netrelytron parum* is now considered a taxonomic junior synonym of *Netrelytron* (as and now) *Kalyptea stegastum*.

"subsp. ***pachycera***" (Sarjeant, 1959, p.337, pl.13, fig.10; text-fig.5a) Lentin and Williams, 1973, p.108. Holotype: Sarjeant, 1959, pl.13, fig.10; text-fig.5a. Originally *Pareodinia ceratophora* var. *pachycera*, subsequently *Pareodinia ceratophora* subsp. *pachycera*. **Taxonomic senior synonym:** *Pareodinia ceratophora* subsp. *ceratophora* (as *Pareodinia ceratophora* var. *ceratophora*), according to Below (1990, p.65). The derivation of the name was not stated in the protologue. Since Principle 5 of the I.C.N. states that taxa names are to be treated as Latin and since compound epithets are conventionally treated as adjectives, the epithet should be rendered as "*pachycera*" in agreement with the feminine gender of the generic name. Age: early Callovian.

"var. ***pachycera***" Sarjeant, 1959, p.337, pl.13, fig.10; text-fig.5a. Holotype: Sarjeant, 1959, pl.13, fig.10; text-fig.5a. Originally *Pareodinia ceratophora* var. *pachycera*, subsequently *Pareodinia ceratophora* subsp. *pachycera*. **Taxonomic senior synonym:** *Pareodinia ceratophora* subsp. *ceratophora* (as *Pareodinia ceratophora* var. *ceratophora*), according to Below (1990, p.65). For etymology see under *Pareodinia ceratophora* subsp. *pachycera*. Age: early Callovian.

subsp. ***scopaeus*** (Sarjeant, 1972, p.26, pl.2, fig.4) Lentin and Williams, 1973, p.108. Emendation: Below, 1990, p.67, as *Pareodinia ceratophora* var. *scopaeus*. Holotype: Sarjeant, 1972, pl.2, fig.4. Originally *Pareodinia ceratophora* var. *scopaeus*, subsequently (and now) *Pareodinia ceratophora* subsp. *scopaeus*. Below (1990, p.67–68) retained this taxon as a varietas — however, Lentin and Williams (1993, p.492) retained it at subspecific rank. N.I.A. Age: late Bathonian–early Callovian.

"var. ***scopaeus***" Sarjeant, 1972, p.26, pl.2, fig.4. Emendation: Below, 1990, p.67, as *Pareodinia ceratophora* var. *scopaeus*. Holotype: Sarjeant, 1972, pl.2, fig.4. **NOW** *Pareodinia ceratophora* subsp. *scopaeus*. Originally *Pareodinia ceratophora* var. *scopaeus*, subsequently (and now) *Pareodinia ceratophora* subsp. *scopaeus*. Age: late Bathonian–early Callovian.

cingulata He Chengquan et al., 2005a, p.51,249–250, pl.17, figs.3–5. Holotype: He Chengquan et al., 2005a, pl.17, fig.4. Age: Middle to Late Jurassic.

"?***communis***" He Chengquan, 1984b, p.159, pl.5, figs.18–20. Holotype: He Chengquan, 1984b, pl.5, fig.18. **NOW** *Pseudokomewuia*. Originally *Pareodinia*, subsequently *Pareodinia*?, thirdly (and now) *Pseudokomewuia*. Questionable assignment: Below (1990, p.66) as a "nomen dubium". Age: middle-late Oligocene.

crassicornis Zatonkaya, 1975, p.31–32, pl.1, fig.2. Holotype: Zatonkaya, 1975, pl.1, fig.2. Age: Late Jurassic.

?***curvocervicata*** Tasch in Tasch et al., 1964, p.196, pl.3, fig.1. Holotype: Tasch et al., 1964, pl.3, fig.1. Originally *Pareodinia*, subsequently (and now) *Pareodinia*?. Questionable assignment: Stover and Evitt (1978, p.117) as a problematic species; Below (1990, p.66) as a "nomen dubium". Age: Albian.

"***dasyforma***" Wiggins, 1975, p.107. Emendations: Below, 1990, p.50 and Lentin and Vozzhennikova, 1990, p.85, both as *Gochteodinia villosa*. Holotype: Vozzhennikova, 1967, pl.12, figs.3a–b; pl.15, fig.1; Eisenack and Kjellström, 1975b, figure to right — p.726f; Lentin and Vozzhennikova, 1990, pl.11, figs.7–8; text-fig.47; Fensome et al., 1995, fig.1 — p.1903; Fensome et al., 1996, figs.1–3 — p.2431. **NOW** *Gochteodinia villosa*. Originally *Imbatodinium villosum*, subsequently *Pareodinia villosa* (Vozzhennikova) (combination not validly published), thirdly *Pareodinia dasyforma*, fourthly (and now) *Gochteodinia villosa*. Substitute name for *Imbatodinium villosum* Vozzhennikova, 1967, p.56, pl.12, figs.1a–b,2a–b,3a–b; pl.13, figs.1a–e,2,3a–d; pl.14, figs.1a–e,2a–i; pl.15, figs.1–2 (an illegitimate name). Age: Late Jurassic.

"***dicerus***" (Cookson and Eisenack, 1960b, p.256–257, pl.39, fig.1) Below, 1990, p.65. Emendation: Fisher and Riley, 1980, p.323, as *Kalyptea dicerus*. Holotype: Cookson and Eisenack, 1960b, pl.39, fig.1. **NOW** *Kalyptea*. Originally (and now) *Kalyptea*, subsequently *Komewuia*, thirdly *Pareodinia*. Taxonomic junior synonym: *Kalyptea jurassica*, according to Below (1990, p.65). Age: Tithonian.

elongata Yu Jingxian, 1982, p.236–237, pl.1, figs.6–7. Holotype: Yu Jingxian, 1982, pl.1, fig.6. After examining the holotype, Lentin in Lentin and Williams (1989, p.282) concluded that this species is not a dinoflagellate. Age: Late Jurassic–Early Cretaceous.

"*evittii*" (Pocock, 1972, p.94–95, pl.24, figs.6,8; text-fig.11) Wiggins, 1975, p.105. Holotype: Pocock, 1972, pl.24, fig.8, lost according to Jansonius (1986, p.208). Lectotype: Jansonius, 1986, pl.6, figs.8–9, designated by Jansonius (1986, p.208). **NOW** *Evansia*. Originally *Tenua* Eisenack, subsequently *Pareodinia*, thirdly *Glomodinium*, fourthly (and now) *Evansia*. Taxonomic junior synonyms: *Pareodinia tripartita* and (at specific rank) *Pareodinia tripartita* subsp. *rotunda*, both according to Wiggins (1975, p.105). Age: late Bajocian–Callovian.

?*gibberosa* Jiabo, 1978, p.48–49, pl.6, fig.14. Holotype: Jiabo, 1978, pl.6, fig.14. Originally *Pareodinia*, subsequently (and now) *Pareodinia*?. Questionable assignment: Below (1990, p.66) as a "nomen dubium". Age: Early Tertiary.

granuloperforata Nejad et al., 1999, p.50, pl.5, fig.5; pl.7, figs.1–2; pl.18, figs.2,13; pl.28, fig.9; text-fig.6.1. Holotype: Nejad et al., 1999, pl.18, figs.2,13; text-fig.6.1. Age: early Oxfordian.

groenlandica Sarjeant, 1972, p.27, pl.2, fig.2; pl.5, fig.1. Holotype: Sarjeant, 1972, pl.5, fig.1. Age: late Bathonian–early Callovian.

halosa (Filatoff, 1975, p.91, pl.29, figs.10–12) Prauss, 1989, p.42. Emendation: Prauss, 1989, p.42, as *Pareodinia halosa*. Holotype: Filatoff, 1975, pl.29, fig.10. Originally *Kalyptea*, subsequently *Kalyptea*?, thirdly *Caddasphaera*, fourthly *Pterocystidiopsis* (Appendix A), fifthly (and now) *Pareodinia*. Age: Bajocian.

"*imbatodinensis*" (Vozzhennikova, 1967, p.55, pl.12, figs.4a–c) Lentin and Williams, 1977b, p.125. Emendation: Lentin and Vozzhennikova, 1990, p.91–92, as *Protobatioladinium imbatodinense*. Holotype: Vozzhennikova, 1967, pl.12, fig.4a; Lentin and Vozzhennikova, 1990, pl.11, figs.9–11; text-fig.50. **NOW** *Protobatioladinium*. Originally *Imbatodinium*, subsequently *Necrobroomea*?, thirdly *Pareodinia*, fourthly *Pareodinia*?, fifthly *Batioladinium*, sixthly (and now) *Protobatioladinium*, seventhly *Gochteodinia*. Questionable assignment: Stover and Evitt (1978, p.117). Age: Late Jurassic.

"*kondratjevii*" (Vozzhennikova, 1967, p.55, pl.9, figs.1,2a–c,3–9; pl.10, figs.1a–b,2a–b,3a–b,4–6; pl.11, figs.1a–e,2a–b,3; pl.15, figs.3–4) Wiggins, 1975, p.104. Emendations: Dörhöfer and Davies, 1980, p.37 and Lentin and Vozzhennikova, 1990, p.89, both as *Imbatodinium kondratjevii*; Below, 1990, p.68, as *Pareodinia kondratjevii*. Holotype: Vozzhennikova, 1967, pl.9, fig.4; pl.10, figs.1a–b; Lentin and Vozzhennikova, 1990, pl.11, figs.1–2; text-figs.48a–b. **NOW** *Imbatodinium*. Originally (and now) *Imbatodinium*, subsequently *Pareodinia*. Age: Late Jurassic.

mangaotanensis Schiøler and Crampton, 2014, p.224, figs.9A–D. Holotype: Schiøler and Crampton, 2014, fig.9C. Age: late Cenomanian.

?*microreticulata* (Jiabo, 1978, p.90, pl.6, fig.13) Lentin and Williams, 1989, p.282. Holotype: Jiabo, 1978, pl.6, fig.13. Originally *Ascodinium*?, subsequently (and now) *Pareodinia*. Questionable assignment: Lentin and Williams (1989, p.282). Jiabo (1978, p.90) gave the specific epithet as "*midroreticulatum*", but from the plate caption it is clear that they intended it to be "*microreticulatum*". Age: Early Tertiary.

?*minima* Yu Jingxian, 1982, p.237, pl.1, figs.9–10,19. Holotype: Yu Jingxian, 1982, pl.1, fig.9. Originally *Pareodinia*, subsequently (and now) *Pareodinia*?. Questionable assignment: Lentin in Lentin and Williams (1989, p.282); Below (1990, p.66) as a "nomen dubium". Lentin in Lentin and Williams (1989, p.282), after examining the holotype, concluded that this species is not a dinoflagellate. Age: late Kimmeridgian–Berriasian.

"*minuta*" Wiggins, 1975, p.104, pl.2, figs.9–10. Holotype: Wiggins, 1975, pl.2, fig.9. **Taxonomic senior synonym:** *Pareodinia* (now *Evansia*) *alaskensis*, according to Below (1990, p.72). Age: Late Jurassic.

?moderna Kufferath, 1950, p.37–38; text-fig.34. Holotype: Kufferath, 1950, text-fig.34. Originally *Pareodinia*, subsequently (and now) *Pareodinia?*. Questionable assignment: Below (1990, p.66) as a "nomen dubium". Age: Holocene.

"mutabilis" Riley in Fisher and Riley, 1980, p.324–325, pl.3, figs.1–3. Emendation: Below, 1990, p.49, as *Gochteodinia mutabilis*. Holotype: Gitmez and Sarjeant, 1972, pl.11, fig.1, as *Imbatodinium cf. villosum*. **NOW** *Gochteodinia*. Originally *Pareodinia*, subsequently (and now) *Gochteodinia*. This name was not validly published in Fisher and Riley (1976, p.52), since no description was provided. Age: Volgian.

"nuda" Downie, 1957, p.424, pl.20, fig.11; text-fig.2e ex Sarjeant, 1967b, p.254. Holotype: Downie, 1957, pl.20, fig.11. Originally *Palaeoperidinium* (name not validly published), subsequently *Pareodinia*, thirdly *Pareodinia?*. Questionable assignment: Below (1990, p.66) as a "nomen dubium". **Taxonomic senior synonym:** *Pareodinia ceratophora*, according to Wiggins (1975, p.103) and Kunz (1990, p.13). The name *Palaeoperidinium nudum* Downie was not validly published in Downie (1957) since the generic name *Palaeoperidinium* was not validly published until 1967. Williams et al. (1998, p.467) accepted Sarjeant's (1967b) indirect reference to Downie (1957) as indication of a type (I.C.N. Article 40.3). Age: late Kimmeridgian.

"osmingtonensis" (Sarjeant, 1962b, p.262, pl.1, fig.5; text-fig.6) Wiggins, 1975, p.105. Holotype: Sarjeant, 1962b, pl.1, fig.5. **NOW** *Pluriarvalium*. Originally (and now) *Pluriarvalium*, subsequently *Pareodinia*. Age: late Oxfordian.

"subsp. *osmingtonensis*". Autonym. Holotype: Sarjeant, 1962b, pl.1, fig.5. **NOW** *Pluriarvalium osmingtonense* subsp. *osmingtonense*. Originally *Pareodinia osmingtonensis* subsp. *osmingtonensis*, subsequently (and now) *Pluriarvalium osmingtonense* subsp. *osmingtonense*.

"subsp. *rostrata*" Wiggins, 1975, p.106–107, pl.5, figs.1–2. Holotype: Wiggins, 1975, pl.5, fig.1. **NOW** *Pluriarvalium osmingtonense* subsp. *rostratum*. Originally *Pareodinia osmingtonensis* subsp. *rostrata*, subsequently (and now) *Pluriarvalium osmingtonense* subsp. *rostratum*. Age: Late Jurassic.

pauca Dodekova, 1994, p.36–37, pl.8, figs.7–10. Holotype: Dodekova, 1994, pl.8, figs.7–8. Age: middle to late Tithonian.

procerchagrinata Below, 1990, p.69, pl.15, figs.12–16, 21, 26–27. Holotype: Below, 1990, pl.15, figs.12, 15, 21, 26–27. Contrary to the opinion of Lentin and Williams (1993, p.494), this name is validly published. Below (1987a, p.6) stated that, unless otherwise indicated, all the material is in his personal collection. Since Below (1987a, 1987b, 1990) are parts I to III of a single study, we agree with J. Jansonius (personal communication) that Below's (1987a) repository statement refers to all three publications, fulfilling the requirement of I.C.N. Article 40.7 (see also the discussion on Article 40.7 in the Introduction). Age: late Bajocian–Callovian.

prolongata Sarjeant, 1959, p.335–336, pl.13, fig.8; text-fig.4. Holotype: Sarjeant, 1959, pl.13, fig.8. Age: early Callovian.

?pseudochyrooides (Below, 1987a, p.118–119, pl.15, figs.4–10) Lentin and Williams, 1989, p.283. Holotype: Below, 1987a, pl.15, figs.7–10; Fensome et al., 1993a, figs.3–6 — p.1291. Originally *Dodekovia*, subsequently (and now) *Pareodinia?*. Questionable assignment: Lentin and Williams (1989, p.283). Age: Toarcian.

?psilata Jain and Millepied, 1975, p.143–144, pl.3, fig.51. Holotype: Jain and Millepied, 1975, pl.3, fig.51. Originally *Pareodinia*, subsequently (and now) *Pareodinia?*. Questionable assignment: Below (1990, p.66) as a "nomen dubium". Age: Aptian–Albian.

psiloperforata Nejad et al., 1999, p.50–51, pl.8, fig.3; pl.13, fig.12; text-fig.6.2. Holotype: Nejad et al., 1999, pl.13, fig.12; text-fig.6.2. Age: early Oxfordian.

"ramosa" (Cookson and Eisenack, 1958, p.41–42, pl.6, figs.6–8) Wiggins, 1975, p.107. Holotype: Cookson and Eisenack, 1958, pl.6, fig.7. **NOW** *Broomea*. Originally (and now) *Broomea*, subsequently *Pareodinia*. Age: Middle-Late Jurassic.

?*rectangularis* Yu Jingxian, 1982, p.236, pl.1, fig.1. Holotype: Yu Jingxian, 1982, pl.1, fig.1. Originally *Pareodinia*, subsequently (and now) *Pareodinia*?. Questionable assignment: Lentin and Williams (1989, p.283) and Below (1990, p.66) as a "nomen dubium". Age: late Kimmeridgian–Berriasian.

?*reticulata* (Below, 1987a, p.119, pl.15, figs.11–15) Lentin and Williams, 1989, p.283. Holotype: Below, 1987a, pl.15, figs.11–15; Fensome et al., 1993a, figs.1–5 — p.1301. Originally *Dodekovia*, subsequently (and now) *Pareodinia*?. Questionable assignment: Lentin and Williams (1989, p.283). Age: Toarcian.

"*reticulopilosa*" (Dodekova, 1975, p.26–27, pl.5, figs.1–6) Stover and Evitt, 1978, p.117. Holotype: Dodekova, 1975, pl.5, figs.1–2. **NOW** *Evansia*. Originally *Glomodinium*, subsequently *Pareodinia*, thirdly (and now) *Evansia*. Age: late Bathonian.

robusta Wiggins, 1975, p.105, pl.3, figs.1–4. Holotype: Wiggins, 1975, pl.3, fig.1. Originally (and now) *Pareodinia*, subsequently *Pareodinia*?. Questionable assignment: Below (1990, p.65–66) as a "nomen dubium" — however, Poulsen (1996, p.62) retained the species in *Pareodinia* without question. Taxonomic senior synonym: *Pareodinia* (now *Evansia*) *alaskensis*, according to Below (1990, p.72) — however, Poulsen (1996, p.62) retained *Pareodinia robusta*. Age: Late Jurassic.

?*rostrata* Yu Jingxian, 1982, p.236, pl.1, figs.2–3. Holotype: Yu Jingxian, 1982, pl.1, fig.2. Originally *Pareodinia*, subsequently (and now) *Pareodinia*?. Questionable assignment: Lentin and Williams (1989, p.283); Below (1990, p.66) as a "nomen dubium". After examining the holotype, Lentin in Lentin and Williams (1989, p.283) concluded that this species is not a dinoflagellate. Age: late Kimmeridgian–Berriasian.

"*spinosa*" Alberti, 1961, p.24, pl.4, fig.16. Holotype: Alberti, 1961, pl.4, fig.16. **NOW** *Apteodinium?* *albertii*. Originally *Pareodinia spinosa*, subsequently *Apteodinium?* *spinosum* (combination illegitimate), thirdly (and now) *Apteodinium?* *albertii*. Age: late Barremian.

?*spinosissima* (Deflandre, 1939a, p.179, pl.9, fig.11 ex Deflandre and Cookson, 1955, p.258) Wiggins, 1975, p.107. Holotype: Deflandre, 1939a, pl.9, fig.11. Originally *Palaeoperidinium* (name not validly published), subsequently *Palaeohystrichophora*, thirdly *Acanthaulax?*, fourthly *Pareodinia*, fifthly (and now) *Pareodinia*?. Questionable assignment: Stover and Evitt (1978, p.117) and Below (1990, p.66) as a "nomen dubium". The name *Palaeoperidinium spinosissimum* was not validly published in Deflandre (1939a) since the generic name *Palaeoperidinium* was not validly published until 1967. Age: Late Jurassic.

"*stegasta*" (Sarjeant, 1961a, p.114–115, pl.15, fig.15; text-fig.14) Below, 1990, p.65. Holotype: Sarjeant, 1961a, pl.15, fig.15; text-fig.14 (left figure); Sarjeant et al., 1987, pl.1, fig.6. **NOW** *Kalyptea*. Originally *Netrelytron*, subsequently (and now) *Kalyptea*, thirdly *Pareodinia*. Taxonomic junior synonyms: *Netrelytron par* and *Netrelytron trinetrum*, both according to Poulsen (1996, p.61); *Kalyptea jurassica*, according to Wiggins (1975, p.110) and Kunz (1990 [January], p.12) — however, Below (1990 [October], p.65) considered *Kalyptea jurassica* to be a taxonomic junior synonym of *Kalyptea* (as *Pareodinia*) *dicerca*. Age: early Oxfordian.

"*strongyla*" (Sarjeant, 1966c, p.201–202, pl.21, fig.5; pl.23, fig.5; text-fig.52) Below, 1990, p.65. Holotype: Sarjeant, 1966c, pl.21, fig.5; pl.23, fig.5. Originally *Paranetrelytron*, subsequently *Pareodinia*. **Taxonomic senior synonym:** *Pareodinia ceratophora*, according to Wiggins (1975, p.103). Sarjeant (1966c) cited the epithet as "*strongylos*", the Greek adjective for "rounded". Since Principle 5 of the I.C.N. states that taxon names are to be treated as Latin, this epithet should be rendered as "*strongyla*" in agreement with the feminine gender of the generic name ("*strongylum*" would be the neuter form, and "*strongylus*" the masculine form). Age: early Barremian.

suibinensis He Chengquan and Huang Guanjun, 1997, p.27,39, pl.1, figs.11–12. Holotype: He Chengquan and Huang Guanjun, 1997, pl.1, fig.11. Age: Callovian.

"*tamarensis*" Ingram in Riding and Helby, 2001d, p.89. **Name not validly published:** no description. **Taxonomic senior synonym:** *Tabulodinium senarium*, according to Riding and Helby (2001d, p.89).

tamboviensis (Vozzhennikova, 1967, p.61, pl.41, fig.1) Lentin and Vozzhennikova, 1990, p.90. Holotype: Vozzhennikova, 1967, pl.41, fig.1; Lentin and Vozzhennikova, 1990, pl.14, fig.9; text-fig.49. Originally *Apteodinium*, subsequently *Apteodinium?*, thirdly (and now) *Pareodinia*. Age: Barremian.

"*trinetra*" (Sarjeant, 1966c, p.199–200, pl.22, fig.3; text-fig.51) Below, 1990, p.65. Holotype: Sarjeant, 1966c, pl.22, fig.3. Originally *Netrelytron*, subsequently *Kalyptea*, thirdly *Pareodinia*. **Taxonomic senior synonym:** *Netrelytron* (as and now *Kalyptea*) *stegastum*, according to Poulsen (1996, p.61). Taxonomic junior synonym: *Netrelytron parum*, according to Wiggins (1975, p.110) — however, *Netrelytron parum* is now considered a taxonomic junior synonym of *Netrelytron* (now *Kalyptea*) *stegastum*. Sarjeant (1966c) stated that the epithet was derived from the Greek tri = three and netron = spindle. Since Principle 5 of the I.C.N. states that taxon names are to be treated as Latin and since compound epithets are conventionally treated as adjectives, the epithet should be rendered as trinetra in agreement with the feminine gender of the generic name. Age: middle Barremian.

"*tripartita*" Johnson and Hills, 1973, p.208, pl.2, figs.12–14,17–18; pl.3, figs.1–2; text-figs.11A–C. Holotype: Johnson and Hills, 1973, pl.2, fig.18. Originally *Pareodinia*, subsequently *Glomodinium*, thirdly *Evansia*. **Taxonomic senior synonym:** *Tenua* (as *Pareodinia*, now *Evansia*) *evittii*, according to Wiggins (1975, p.105) and Lentin and Williams (1989, p.283). Age: late Bathonian.

"var. *acuta*" Johnson and Hills, 1973, caption to pl.2, fig.12. **Name not validly published:** no description.

"var. *obtusa*" Johnson and Hills, 1973, p.208. Holotype: Johnson and Hills, 1973, pl.2, fig.18. **Name illegitimate** — **nomenclatural senior synonym:** *Pareodinia tripartita* var. *tripartita*, which has the same holotype. Age: late Bathonian.

"subsp. *rotunda*" (Johnson and Hills, 1973, p.209, pl.3, figs.1–2; text-fig.11C) Lentin and Williams, 1975, p.2153. Holotype: Johnson and Hills, 1973, pl.3, fig.2. Originally *Pareodinia tripartita* var. *rotunda*, subsequently *Pareodinia tripartita* subsp. *rotunda*, thirdly *Evansia tripartita* subsp. *rotunda*. **Taxonomic senior synonym** (at specific rank): *Tenua* (as *Pareodinia*, now *Evansia*) *evittii*, according to Wiggins (1975, p.105) and Below (1990, p.73). Age: late Bathonian.

"var. *rotunda*" Johnson and Hills, 1973, p.209, pl.3, figs.1–2; text-fig.11C. Holotype: Johnson and Hills, 1973, pl.3, fig.2. Originally *Pareodinia tripartita* var. *rotunda*, subsequently *Pareodinia tripartita* subsp. *rotunda*, thirdly *Evansia tripartita* subsp. *rotunda*. **Taxonomic senior synonym** (at specific rank): *Tenua* (as *Pareodinia*, now *Evansia*) *evittii*, according to Wiggins (1975, p.105) and Below (1990, p.73). Age: late Bathonian.

"subsp. *tripartita*". Autonym. Holotype: Johnson and Hills, 1973, pl.2, fig.18. **Now redundant.** Originally *Pareodinia tripartita* subsp. *tripartita*, subsequently *Evansia tripartita* subsp. *tripartita*. Nomenclatural junior synonym: *Pareodinia tripartita* var. *obtusa*, which has the same holotype.

"var. *tripartita*". Autonym. Holotype: Johnson and Hills, 1973, pl.2, fig.18. **Now redundant.** Nomenclatural junior synonym: *Pareodinia tripartita* var. *obtusa*, which has the same holotype.

"*verrucosa*" (Vozzhennikova, 1967, p.56, pl.12, fig.6) Wiggins, 1975, p.105. Emendation: Lentin and Vozzhennikova, 1990, p.83–84, as *Gochteodinia verrucosa*. Holotype: Vozzhennikova, 1967, pl.12, fig.6; Lentin and Vozzhennikova, 1990 pl.11, fig.5; text-fig.46. **NOW** *Gochteodinia*. Originally *Imbatodinium*, subsequently *Pareodinia*, thirdly (and now) *Gochteodinia*. Age: Late Jurassic.

?*villosa* Tasch in Tasch et al., 1964, p.195–196, pl.1, fig.9. Holotype: Tasch et al., 1964, pl.1, fig.9. Originally *Pareodinia*, subsequently (and now) *Pareodinia?*. Questionable assignment: Stover and Evitt (1978, p.117) as a problematic species, and Below (1990, p.66) as a "nomen dubium". Age: Albian.

"*villosa*" (Vozzhennikova, 1967, p.56, pl.12, figs.1a–b,2a–b,3a–b; pl.13, figs.1a–e,2,3a–d; pl.14, figs.1a–e,2a–i; pl.15, figs.1–2) Wiggins, 1975, p.107. Emendations: Lentin and Vozzhennikova, 1990, p.85; Below, 1990, p.50, both as *Gochteodinia villosa*. Holotype: Vozzhennikova, 1967, pl.12, figs.3a–b; pl.15, fig.1; Eisenack and Kjellström, 1975b, figure to right — p.726f; Lentin and Vozzhennikova, 1990, pl.11, figs.7–8; text-fig.47; Fensome

et al., 1995, fig.1 — p.1903; Fensome et al., 1996, figs.1–3 — p.2431. **Combination not validly published:** not proposed formally. **NOW** *Gochteodinia villosa*. Originally *Imbatodinium villosum*, subsequently *Pareodinia villosa* (Vozzhennikova) (combination not validly published), thirdly *Pareodinia dasyforma*, fourthly (and now) *Gochteodinia villosa*. This combination, if validated, would be an illegitimate junior homonym of *Pareodinia villosa* Tasch. Age: Late Jurassic.

"*wigginsii*" Smelror, 1988a, p.296,298, pl.8, figs.1–2; text-fig.12. Holotype: Smelror, 1988a, pl.8, fig.2. **NOW** *Evansia*. Originally *Pareodinia*, subsequently (and now) *Evansia*. Age: early Oxfordian.

"**PAREODINIOPSIS**" Beju, 1978, p.4. **Name not validly published:** no description.

"*bimembranis*" Beju, 1978, p.4. **Name not validly published:** no description or illustration.

"**PARVOCAVATUS**" Gitmez, 1970, p.306. **Taxonomic senior synonym:** *Dingodinium*, according to Fisher and Riley (1976, p.52). Type: Gitmez, 1970, pl.6, fig.9; text-fig.31, as *Parvocavatus tuberosus*.

"*scabratus*" Kumar, 1986b, p.399, pl.5, fig.3; pl.6, figs.4,6; text-fig.9. Holotype: Kumar, 1986b, pl.6, fig.6. Originally *Parvocavatus*, subsequently *Dingodinium*. **Taxonomic senior synonym:** *Dingodinium minutum* Dodekova, according to Poulsen (1996, p.82). Age: Kimmeridgian–Tithonian.

"?*scutella*" (Eisenack, 1958a, p.385, pl.24, fig.3) Sarjeant, 1985a, p.87. Emendation: Sarjeant, 1985a, p.87–89, as *Parvocavatus? scutella*. Holotype: Eisenack, 1958a, pl.24, fig.3; Sarjeant, 1985a, pl.7, fig.3; pl.9, figs.4–6; Jan du Chêne et al., 1986a, pl.111, fig.1. **NOW** *Scriniodinium?*. Originally *Scriniodinium*, subsequently *Ellipsoidictyum*, thirdly *Parvocavatus?*, fourthly (and now) *Scriniodinium?*. Questionable assignment: Sarjeant (1985a, p.87–89). N.I.A. Age: late Aptian.

"*spinusus*" Duxbury, 1977, p.46–47, pl.9, fig.3; text-fig.17. Holotype: Duxbury, 1977, pl.9, fig.3; text-fig.17. **NOW** *Dingodinium?*. Originally *Parvocavatus*, subsequently *Dingodinium*, thirdly (and now) *Dingodinium?*. Age: late Berriasian.

"**tuberosus*" Gitmez, 1970, p.307–308, pl.6, fig.9; text-fig.31. Emendation: Poulsen, 1996, p.83, as *Dingodinium tuberosum*. Holotype: Gitmez, 1970, pl.6, fig.9; text-fig.31. **NOW** *Dingodinium*. Originally *Parvocavatus*, subsequently (and now) *Dingodinium*, thirdly *Dingodinium?*. Age: early Kimmeridgian.

PARVOCYSTA Bjaerke, 1980, p.59–60,62. **Taxonomic senior synonym:** *Dodekovia*, according to Below (1987a, p.113) — however, Lentin and Williams (1989, p.284) retained *Parvocysta*. Type: Bjaerke, 1980, pl.1, figs.4–5, as *Parvocysta bullula*.

ampulla Riding and Shaw in Riding et al., 1991, p.149, pl.1, figs.1–5; text-fig.4A. Holotype: Riding et al., 1991, pl.1, figs.1–2. N.I.A. Age: late Toarcian–Aalenian.

barbata Bjaerke, 1980, p.65, pl.1, figs.10,14–15,18; text-fig.3F. Holotype: Bjaerke, 1980, pl.1, figs.10,14–15. Age: Toarcian.

"*bjaerkei*" Smelror, 1987, p.227,230, figs.4G,8C–D; text-fig.9. Emendation: Bailey and Hogg, 1995, p.58, as *Fentonia bjaerkei*. Holotype: Smelror, 1987, fig.4G. **NOW** *Limbicysta* (Appendix A). Originally *Parvocysta*, subsequently *Fentonia* (Appendix A), thirdly (and now) *Limbicysta* (Appendix A). Age: late Callovian.

**bullula* Bjaerke, 1980, p.62,64, pl.1, figs.2–6,9; text-fig.3C. Holotype: Bjaerke, 1980, pl.1, figs.4–5; Fensome et al., 1993a, figs.4–5 — p.997. Originally (and now) *Parvocysta*, subsequently *Dodekovia*. Lentin and Williams (1989, p.284) retained this species in *Parvocysta*. N.I.A. Age: Toarcian.

"*contracta*" Bjaerke, 1980, p.64–65, pl.1, figs.7–8; text-fig.3B. Holotype: Bjaerke, 1980, pl.1, figs.7–8.

Taxonomic senior synonym: *Susadinium* (as *Dodekovia*) *scrofoides*, according to Below (1987a, p.120). Age: Toarcian.

"?*cracens*" Bjaerke, 1980, p.66, pl.4, fig.16; text-fig.3D. Emendation: Prauss, 1989, p.22, as *Reutlingia cracens*. Holotype: Bjaerke, 1980, pl.4, fig.16. **NOW** *Reutlingia*. Originally *Parvocysta*?, subsequently (and now) *Reutlingia*. Questionable assignment: Bjaerke (1980, p.66). Age: Toarcian.

nasuta Bjaerke, 1980, p.65–66, pl.1, figs.11–12; text-fig.3A. Emendation: Below, 1987a, p.139, as *Reutlingia nasuta*. Holotype: Bjaerke, 1980, pl.1, figs.11–12; Fensome et al., 1993a, figs.1–2 — p.1267; figs.1–2 — p.1271. Originally (and now) *Parvocysta*, subsequently *Reutlingia*. Lentin and Williams (1989, p.284–285) retained this species in *Parvocysta*. Age: Toarcian.

subsp. *nasuta*. Autonym. Holotype: Bjaerke, 1980, pl.1, figs.11–12; Fensome et al., 1993a, figs.1–2 — p.1267; figs.1–2 — p.1271.

subsp. *ramosa* (Below, 1987a, p.140, pl.20, figs.5–6,11–12,16,18) Lentin and Williams, 1989, p.285. Holotype: Below, 1987a, pl.20, figs.5–6,11–12,18; Fensome et al., 1993a, fig.3 — p.1267; figs.1–5 — p.1295. Originally *Reutlingia nasuta* var. *ramosa*, subsequently (and now) *Parvocysta nasuta* subsp. *ramosa*. Age: Toarcian.

?*tricornuta* Riding and Shaw in Riding et al., 1991, p.149–150,152, pl.1, figs.11–15; text-fig.4C. Holotype: Riding et al., 1991, pl.1, fig.11. Questionable assignment: Riding and Shaw in Riding et al. (1991, p.149). Age: late Toarcian–Aalenian.

?*triquetra* Riding and Shaw in Riding et al., 1991, p.152, pl.1, figs.6–10; text-fig.4B. Holotype: Riding et al., 1991, pl.1, fig.9. Questionable assignment: Riding and Shaw in Riding et al. (1991, p.152). Age: late Toarcian–Aalenian.

PARVULODINIUM Dodekova, 1975, p.29. Type: Dodekova, 1975, pl.6, figs.6–9, as *Parvulodinium penitabulatum*.

**clavatum* Dodekova, 1975, p.30, pl.6, figs.4–9; text-fig.8. Holotype: Dodekova, 1975, pl.6, figs.6–9. Age: late Bathonian.

"*penitabulatum*" Davies, 1983, p.27–28, pl.9, figs.9–11,13–15,17–19; text-fig.24. Holotype: Davies, 1983, pl.9, figs.9–11,13–15; text-fig.24. **Taxonomic senior synonym:** *Mancodinium semitabulatum*, according to Prauss (1989, p.25). Age: Toarcian–early Bajocian.

PAUCIBUCINA Jiabo, 1978, p.73–74. Emendation: Mao Shaozhi et al., 1995, p.44. Chen et al. (1988, p.22) considered this to be an acritarch genus. However, Lentin in Lentin and Williams (1989, p.285) examined the type and determined it to be a dinoflagellate cyst. Type: Jiabo, 1978, pl.24, fig.1; text-fig.14, as *Paucibucina dongyingensis*.

**dongyingensis* Jiabo, 1978, p.74, pl.24, fig.1; text-fig.14. Holotype: Jiabo, 1978, pl.24, fig.1; text-fig.14. Age: Early Tertiary.

liaoningensis Jiabo, 1978, p.74, pl.24, fig.2. Holotype: Jiabo, 1978, pl.24, fig.2. Age: Early Tertiary.

pylophora Lang Yan et al., 1999, p.378,388, pl.2, figs.9–10. Holotype: Lang Yan et al., 1999, pl.2, fig.9. Age: Early Cretaceous.

simplex Jiabo, 1978, p.74, pl.24, figs.3–4. Holotype: Jiabo, 1978, pl.24, fig.3. Age: Early Tertiary.

PAUCISPHAERIDIUM Bujak et al., 1980, p.30,32. Type: Davey and Williams, 1966b, pl.12, fig.3, as *Litosphaeridium? inversibuccinum*.

cylindratum Islam, 1983b, p.342, pl.1, figs.12–14. Holotype: Islam, 1983b, pl.1, fig.12. Age: early Eocene.

hexagonum He Chengquan, 1991, p.174–175, pl.15, fig.11. Holotype: He Chengquan, 1991, pl.15, fig.11. Age: Paleocene.

**inversibuccinum* (Davey and Williams, 1966b, p.82, pl.12, fig.3) Bujak et al., 1980, p.32. Emendation: Bujak et al., 1980, p.32, as *Paucisphaeridium inversibuccinum*. Holotype: Davey and Williams, 1966b, pl.12, fig.3; Eisenack and Kjellström, 1972, p.781; Bujak et al., 1980, pl.2, figs.4–5; Fensome et al., 1995, fig.1 — p.1567; Fauconnier and Masure, 2004, pl.63, fig.1. Originally *Litosphaeridium?*, subsequently (and now) *Paucisphaeridium*. Age: early Eocene.

"forma *bipolare*" de Coninck, 1986b, p.17, pl.6, figs.31–32,40–41. **Name not validly published**: holotype not designated. **NOW** *Paucisphaeridium inversibuccinum* subsp. *bipolare*. Originally *Paucisphaeridium inversibuccinum* forma *bipolare* (name not validly published), subsequently (and now) *Paucisphaeridium inversibuccinum* subsp. *bipolare*. Age: middle Eocene–early Oligocene (Bartonian–Tongrian).

subsp. *bipolare* de Coninck, 1986b, p.17, pl.6, figs.31–32,40–41 ex Masure and Courtinat in Fauconnier and Masure, 2004, p.437. Holotype: de Coninck, 1986b, pl.6, figs.31–32, designated by Masure and Courtinat in Fauconnier and Masure (2004, p.437); Fauconnier and Masure, 2004, pl.63, figs.2–7. Originally *Paucisphaeridium inversibuccinum* forma *bipolare* (name not validly published), subsequently (and now) *Paucisphaeridium inversibuccinum* subsp. *bipolare*. The name *Paucisphaeridium inversibuccinum* forma *bipolare* was not validly published in de Coninck (1986b) since no holotype was designated. Age: middle Eocene–early Oligocene (Bartonian–Tongrian).

subsp. *inversibuccinum*. Autonym. Holotype: Davey and Williams, 1966b, pl.12, fig.3; Eisenack and Kjellström, 1972, p.781; Bujak et al., 1980, pl.2, figs.4–5; Fensome et al., 1995, fig.1 — p.1567; Fauconnier and Masure, 2004, pl.63, fig.1. Age: early Eocene.

PELTIPHORIDIUM Xu Jinli et al., 1997, p.84,148–149. Type: Jiabo, 1978, pl.29, fig.2, as *Bipolaribucina oblongata*.

abbreviatum Xu Jinli et al., 1997, p.85, pl.20, fig.4; pl.21, figs.3–4,11 ex He Chengquan et al., 2009, p.358,659. Holotype: Xu Jinli et al., 1997, pl.21, fig.3. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided. He Chengquan et al. (2009, p.659) validated the name by publishing an English diagnosis. Age: middle-late Eocene.

liaoningense (Jiabo, 1978, p.58, pl.29, figs.6–8) Xu Jinli et al., 1997, p.85. Holotype: Jiabo, 1978, pl.29, fig.7. Originally *Bipolaribucina*, subsequently *Impletosphaeridium*, thirdly (and now) *Peltiphoridium*. Age: Early Tertiary.

**oblongatum* (Jiabo, 1978, p.58, pl.29, figs.1–3) Xu Jinli et al., 1997, p.85. Holotype: Jiabo, 1978, pl.29, fig.2. Originally *Bipolaribucina oblongata*, subsequently *Impletosphaeridium oblongatum* (combination illegitimate), thirdly *Impletosphaeridium elongatum*, fourthly (and now) *Peltiphoridium oblongatum*. Age: Early Tertiary.

PENTADINELLUM Keupp, 1991a, p.283–284. Calcareous dinoflagellate genus (see Streng et al., 2004, p.482 and Elbrächter et al., 2008, p.1301). Type: Wall and Dale, 1968b, pl.172, fig.20, as "oblate-type cyst", now *Pentadinellum oblatum*.

cretaceum Keupp, 1992b, p.131–132, pl.5, figs.6–10. Holotype: Keupp, 1992b, pl.5, figs.6–7. Age: middle Aptian.

***oblatum** Keupp, 1991a, p.282–283. Holotype: Wall and Dale, 1968b, pl.172, fig.20, as "oblate-type cyst". Motile equivalent: probably *Enciculifera mexicana* Balech, 1967, according to Wall et al. (1970, p.155). Motile equivalent: *Enciculifera* sp. cf. *E. mexicana* Balech, 1967, according to Streng et al. (2004, p.482). Age: Quaternary.

vimineum (Keupp, 1987, p.49–50, pl.13, figs.7–12; pl.14, figs.1–8) Keupp, 1992b, p.132. Holotype: Keupp, 1987, pl.13, figs.7–8. Originally *Carinellum*, subsequently (and now) *Pentadinellum*. Keupp (1995, p.158) placed the generic name in quotes. Age: middle Albian–early Cenomanian.

PENTADINIUM Gerlach, 1961, p.164–165. Emendation: Benedek et al., 1982, p.266–268. Taxonomic junior synonyms: *Planinosphaeridium*, according to Stover and Evitt (1978, p.179–180); *Toenisbergia*, according to Lentin and Williams (1985, p.356). Type: Gerlach, 1961, pl.26, figs.5–6; text-figs.6–7, as *Pentadinium laticinctum*.

alabamense Quaijtaal and Brinkhuis, 2012, p.50,52–53, pl.1, figs.1A–L; pl.2, figs.A–F; text-figs.3A–B. Holotype: Quaijtaal and Brinkhuis, 2012, pl.1, figs.A–D. Age: early Oligocene.

?circumsutum (Morgenroth, 1966b, p.5, pl.1, figs.3–4) Stover and Evitt, 1978, p.180. Holotype: Morgenroth, 1966b, pl.1, fig.3. Originally *Pterodinium*, subsequently (and now) *Pentadinium*?. Questionable assignment: Stover and Evitt (1978, p.180). Age: early Oligocene.

corium Schiøler, 2005, p.29–30, pl.8, figs.11–12,16–18; text-fig.6. Holotype: Schiøler, 2005, pl.8, figs.17–18. Age: Rupelian–Chattian.

favatum Edwards, 1982, p.113, pl.1, figs.4,7,10–13; pl.2, figs.1–12. Holotype: Edwards, 1982, pl.1, figs.4,7,10; Jan du Chêne et al., 1986a, pl.82, figs.1–5. Age: middle Eocene.

galileoi Sancay et al., 2007, p.537–538,540, pl.1, figs.1–20, text-fig.4. Holotype: Sancay et al., 2007, pl.1, figs.1–4. Age: Maastrichtian.

goniferum Edwards, 1982, p.114,116, pl.4, figs.1–9. Holotype: Edwards, 1982, pl.4, figs.1–2,4–5,7–8; Jan du Chêne et al., 1986a, pl.82, figs.6–8,11–12. Age: middle Eocene.

imaginatum (Benedek, 1972, p.43–44, pl.2, figs.11a–b; pl.6, figs.9a–b) Stover and Hardenbol, 1994, p.33. Holotype: Benedek, 1972, pl.6, figs.9a–b; Benedek et al., 1982, figs.6A,C,E,8A–B. Originally *Pentadinium laticinctum* subsp. *imaginatum*, subsequently (and now) *Pentadinium imaginatum*. Taxonomic senior synonym: *Pentadinium taeniagerum* subsp. *imaginatum* (as *Toenisbergia imaginatum*), according to Benedek et al. (1982, p.279) — however, Lentin and Williams (1985, p.279) retained *Pentadinium imaginatum* (as *Pentadinium laticinctum* subsp. *imaginatum*). Age: late Oligocene.

***laticinctum** Gerlach, 1961, p.165–166, pl.26, figs.5–6; text-figs.6–7. Emendation: Benedek et al., 1982, p.268–272. Holotype: Gerlach, 1961, pl.26, figs.5–6; text-figs.6–7; Benedek et al., 1982, text-figs.3E–F; Jan du Chêne et al., 1986a, pl.80, fig.3. Age: middle Oligocene–middle Miocene.

subsp. **granobaculatum** He Chengquan, 1991, p.123, pl.5, figs.38–39. Holotype: He Chengquan, 1991, pl.5, figs.38–39. Age: middle Eocene.

subsp. **granulatum** Gocht, 1969, p.29–30, pl.9, figs.17–18; text-fig.20. Holotype: Gocht, 1969, pl.9, fig.18; text-fig.20c. Age: middle Oligocene.

"subsp. **imaginatum**" Benedek, 1972, p.43–44, pl.2, figs.11a–b; pl.6, figs.9a–b. Holotype: Benedek, 1972, pl.6, figs.9a–b; Benedek et al., 1982, figs.6A,C,E,8A–B. **NOW** *Pentadinium imaginatum*. Originally *Pentadinium laticinctum* subsp. *imaginatum*, subsequently (and now) *Pentadinium imaginatum*. Taxonomic senior synonym: *Pentadinium taeniagerum* subsp. *imaginatum* (as *Toenisbergia imaginatum*), according to Benedek et al. (1982, p.279) — however, Lentin and Williams (1985, p.279) retained *Pentadinium laticinctum* subsp. *imaginatum*. Age: late Oligocene.

subsp. *laticinctum*. Autonym. Holotype: Gerlach, 1961, pl.26, figs.5–6; text-figs.6–7; Benedek et al., 1982, text-figs.3E–F; Jan du Chêne et al., 1986a, pl.80, fig.3.

"subsp. *lophophorum*" Benedek, 1972, p.44, pl.6, figs.8a–b; text-fig.19. Emendation: Benedek et al., 1982, p.275, as *Pentadinium lophophorum*. Holotype: Benedek, 1972, pl.6, figs.8a–b; text-fig.19; Benedek et al., 1982, text-figs.5A–B,7B,D,F. **NOW** *Pentadinium lophophorum*. Originally *Pentadinium laticinctum* subsp. *lophophorum*, subsequently (and now) *Pentadinium lophophorum*. Taxonomic junior synonym (at specific and subspecific ranks): *Pentadinium taeniagerum* subsp. *lophophorum*, according to Benedek et al. (1982, p.275). Age: middle Oligocene.

lophophorum (Benedek, 1972, p.44, pl.6, figs.8a–b; text-fig.19) Benedek et al., 1982, p.275–279. Emendation: Benedek et al., 1982, p.275, as *Pentadinium lophophorum*. Holotype: Benedek, 1972, pl.6, figs.8a–b; text-fig.19; Benedek et al., 1982, text-figs.5A–B,7B,D,F. Originally *Pentadinium laticinctum* subsp. *lophophorum*, subsequently (and now) *Pentadinium lophophorum*. Taxonomic junior synonym (at specific and subspecific ranks): *Pentadinium taeniagerum* subsp. *lophophorum*, according to Benedek et al. (1982, p.275). Age: middle Oligocene.

membranaceum (Eisenack, 1965b, p.151, pl.14, fig.4; pl.15, fig.6; text-fig.1) Stover and Evitt, 1978, p.180. Holotype: Eisenack, 1965b, pl.14, fig.4; text-fig.1; Jan du Chêne et al., 1986a, pl.80, figs.4–7. Originally *Planinosphaeridium*, subsequently (and now) *Pentadinium*. Taxonomic junior synonym: *Ataxiodinium choane*, according to Dale (1976, p.45; footnote to table II) — however, Edwards and Andrieu (1992, p.265) retained *Ataxiodinium choane*. Age: late Eocene–early Oligocene.

netangei Zhao Yunyun and Morzadec-Kerfourn, 1994, p.266,268, pl.1, figs.4a–c,5a–b,6a–b,7; pl.2, figs.4–8. Holotype: Zhao Yunyun and Morzadec-Kerfourn, 1994, pl.1, figs.4a–c. Age: Pleistocene.

omasum Harding, 1990b, p.36–37, pl.17, figs.1–14 ex Harding in Williams et al., 1998, p.473. Holotype: Harding, 1990b, pl.17, figs.1,3. This name was not validly published in Harding (1990b) since the lodgement of the holotype was not specified (I.C.N. Article 40.7). N.I.A. Age: late Barremian.

polypodium Edwards, 1982, p.113–114, pl.3, figs.1–12. Holotype: Edwards, 1982, pl.3, figs.1–2,4–5,7. Age: middle Eocene.

sabulum Fensome et al., 2009, p.54, pl.9, figs.i–o. Holotype: Fensome et al., 2009, pl.9, figs.k–l. Age: youngest occurrence, middle Aquitanian.

spinulum Strauss and Lund, 1992, p.168–169, pl.4, figs.1–3,6. Holotype: Strauss and Lund, 1992, pl.4, figs.1–3. Age: middle Miocene.

taeniagerum Gerlach, 1961, p.167–168, pl.26, figs.8–9,12,15; text-fig.8. Holotype: Gerlach, 1961, pl.26, fig.8; text-fig.8; Benedek et al., 1982, text-fig.4D; Fensome et al., 1995, fig.1 — p.1841; figs.1–2 — p.1845. Benedek et al. (1982, p.275) suggested "that this name be restricted to the holotype and [one of the] paratype[s]...." Age: middle Oligocene–middle Miocene.

subsp. *imaginatum* Benedek, 1972, p.45–46, pl.6, figs.12a–b. Emendation: Benedek et al., 1982, p.279,281, as *Toenisbergia imaginata*. Holotype: Benedek, 1972, pl.6, figs.12a–b; Eisenack and Kjellström, 1975a, first page labelled "nach S.646"; Benedek et al., 1982, figs.7A,C,E,8C–D (not 8A–B); Fensome et al., 1995, figs.1–4 — p.1557. Originally (and now) *Pentadinium taeniagerum* subsp. *imaginatum*, subsequently *Toenisbergia imaginatum*. Lentin and Williams (1985, p.279) retained this taxon as *Pentadinium laticinctum* subsp. *imaginatum*. Taxonomic junior synonym: *Pentadinium laticinctum* subsp. *imaginatum*, according to Benedek et al. (1982, p.279) — however, Lentin and Williams (1985, p.279) retained *Pentadinium laticinctum* subsp. *imaginatum*. Age: late Oligocene.

"subsp. *lophophorum*" Benedek, 1972, p.45, pl.6, figs.13a–b. Holotype: Benedek, 1972, pl.6, figs.13a–b; Eisenack and Kjellström, 1975a, second page labelled "nach S.646"; Fensome et al., 1995, figs.1–4 — p.1609. **Taxonomic senior synonym** (at specific and subspecific ranks): *Pentadinium laticinctum* subsp.

lophophorum (now *Pentadinium lophophorum*), according to Benedek et al. (1982, p.275). Age: middle Oligocene.

subsp. *taeniagerum*. Autonym. Holotype: Gerlach, 1961, pl.26, fig.8; text-fig.8; Benedek et al., 1982, text-fig.4D; Fensome et al., 1995, fig.1 — p.1841; figs.1–2 — p.1845.

PENTAFIDIA Backhouse, 1988, p.103–104 Type: Backhouse, 1988, pl.50, figs.1–3; text-figs.31A–C, as *Pentafidia charlottensis*.

**charlottensis* Backhouse, 1988, p.104–105, pl.37, figs.8–16; pl.50, figs.1–3; text-figs.31A–C. Holotype: Backhouse, 1988, pl.37, fig.8; text-fig.31B; Fensome et al., 1993a, fig.1 — p.1045. Age: Berriasian–?earliest Valanginian.

punctata Backhouse, 1988, p.105, pl.38, figs.1–7; pl.50, figs.4–6 (not figs.3–4); text-figs.31D–E. Holotype: Backhouse, 1988, pl.38, fig.1; text-fig.31D; Fensome et al., 1996, figs.1,9 — p.2307. Age: late Tithonian–?earliest Valanginian.

"**PENTAGONUM**" Vozzhennikova, 1963 ex Vozzhennikova, 1967

"*conicoides*" Vozzhennikova, 1963, caption to text-fig.17 — p.185. **Name not validly published:** orthographic error. The name appears only in the description for text-fig.17, there it is erroneously used for *Pentagonum sibiricum*, according to Vozzhennikova in Lentin and Williams (1993, p.500).

"*granulatum*" Oleinik, 1975, p.225–226, pl.1, figs.3–5. Holotype: Oleinik, 1975, pl.1, fig.3. **NOW** *Palaeoperidinium granulatum* Oleinik. Originally *Pentagonum granulatum* (generic name illegitimate), subsequently (and now) *Palaeoperidinium granulatum* Oleinik, thirdly *Palaeoperidinium oleinikii* (name illegitimate). Following I.C.N. Article 55.1, the species name *Pentagonum granulatum* is validly published even though the generic name *Pentagonum* is illegitimate. Age: late Eocene.

"*huanghuaense*" Jiabo, 1978, p.56, pl.1, figs.1–3. Holotype: Jiabo, 1978, pl.1, fig.1. **NOW** *Palaeoperidinium*. Originally *Pentagonum* (generic name illegitimate), subsequently (and now) *Palaeoperidinium*. Following I.C.N. Article 55.1, the species name *Pentagonum huanghuaense* is validly published even though the generic name *Pentagonum* is illegitimate. Age: Early Tertiary.

"*marginatum*" Vozzhennikova, 1967, p.107, pl.46, figs.1,3–4,6. Holotype: Vozzhennikova, 1967, pl.46, fig.6; Lentin and Vozzhennikova, 1990, pl.7, fig.6; text-fig.33; lost according to Lentin and Vozzhennikova (1990, p.62). Originally *Pentagonum* (generic name illegitimate), subsequently *Palaeoperidinium*. **Taxonomic senior synonym:** *Peridinium* (now *Palaeoperidinium*) *pyrophorum*, according to Lentin and Vozzhennikova (1990, p.61). Following I.C.N. Article 55.1, the species name *Pentagonum marginatum* is validly published even though the generic name *Pentagonum* is illegitimate. Age: Paleocene.

"**sibiricum*" Vozzhennikova, 1967, p.106–107, pl.46, figs.2,5. Holotype: Vozzhennikova, 1967, pl.46, fig.2, lost according to Lentin and Vozzhennikova (1990, p.63). Lectotype: Lentin and Vozzhennikova, 1990, pl.7, fig.3; text-fig.34, designated by Lentin and Vozzhennikova (1990, p.63). Originally *Pentagonum* (generic name illegitimate), subsequently *Palaeoperidinium*. **Taxonomic senior synonym:** *Peridinium* (now *Palaeoperidinium*) *pyrophorum*, according to Lentin and Vozzhennikova (1990, p.61). Following I.C.N. Article 55.1, the specific name *Pentagonum sibiricum* was validly published in Vozzhennikova (1967) even though the generic name *Pentagonum* is illegitimate. As indicated by Vozzhennikova (1963, p.183) and confirmed by Vozzhennikova (1967, p.106), the specimens illustrated in Vozzhennikova (1963, text-figs.17a–b) are specimens of *Pentagonum sibiricum*, even though the caption identifies them as *Pentagonum conicoides*. The name *Pentagonum sibiricum* was not validly published in Vozzhennikova (1963) since no holotype was designated. Age: Paleocene.

PERIDICTYOCYSTA Cookson and Eisenack, 1974, p.70. Type: Cookson and Eisenack, 1958, pl.8, fig.3, as *Cannosphaeropsis mirabilis*.

?*bamburiensis* Mungai in Jiang Qinghua et al., 1992, p.90, pl.3, figs.4–6; text-figs.4a–b. Holotype: Jiang Qinghua et al., 1992, pl.3, fig.4. Questionable assignment: Mungai in Jiang Qinghua et al. (1992, p.90); and Fauconnier in Fauconnier and Masure (2004, p.440) as a problematic species. Age: Tithonian.

**mirabilis* (Cookson and Eisenack, 1958, p.48, pl.8, figs.3–5) Cookson and Eisenack, 1974, p.70. Holotype: Cookson and Eisenack, 1958, pl.8, fig.3. Originally *Cannosphaeropsis*, subsequently (and now) *Peridictyocysta*. Age: Late Jurassic.

PERIDINITES Lefèvre, 1933b, p.221. Emendation: Harding and Lewis, 1994, p.834. Siliceous dinoflagellate genus. Taxonomic senior synonym: *Lithoperidinium*, by implication in Deflandre (1945b, cards 806–809), who believed *Peridinites* to be the senior name — however, Harding and Lewis (1994, p.834) retained *Peridinites*. This name was not validly published in Lefèvre (1933a) since no validly published species were assigned to it. For a full discussion, see Fensome et al. (1993b, p.137). Type: Lefèvre, 1933b, text-fig.7, as *Peridinites parvulus*.

"*barbadensis*" Lefèvre, 1933b, p.222–223, text-figs.9–12. Holotype: Lefèvre, 1933b, text-fig.9. **NOW** *Lithoperidinium*. Originally *Peridinites*, subsequently (and now) *Lithoperidinium*. This name was not validly published in Lefèvre (1933a, p.416) since no illustrations were provided. Age: Early Tertiary.

"*diodos*" Lefèvre, 1933b, p.227, text-fig.23. Holotype: Lefèvre, 1933b, text-fig.23. **NOW** *Lithoperidinium*. Originally *Peridinites*, subsequently (and now) *Lithoperidinium*. This name was not validly published in Lefèvre (1933a, p.417–418) since no illustrations were provided. N.I.A. Age: Early Tertiary.

"*globosus*" Lefèvre, 1933b, p.224, text-figs.15–16. Holotype: Lefèvre, 1933b, text-fig.15. **NOW** *Lithoperidinium*. Originally *Peridinites*, subsequently (and now) *Lithoperidinium*. This name was not validly published in Lefèvre (1933a, p.416) since no illustrations were provided. Age: Early Tertiary.

"*maculatus*" (Vozzhennikova, 1967, p.117–118, pl.49, figs.1–12; pl.50, figs.1–8) Lentin and Williams, 1973, p.110. **Name not validly published:** holotype not designated. Originally *Lithoperidinium* (name not validly published), subsequently *Peridinites* (name not validly published). Age: early Oligocene.

"*oamaruensis*" (Deflandre, 1933, p.273, text-figs.1–7) Deflandre, 1945b, cards 806–809. Holotype: Deflandre, 1933, text-figs.1–7. **NOW** *Lithoperidinium*. Originally (and now) *Lithoperidinium*, subsequently *Peridinites*. Age: Tertiary.

"*ovalis*" Lefèvre, 1933b, p.226, text-figs.21–22. Holotype: Lefèvre, 1933b, text-figs.21–22. **NOW** *Lithoperidinium*. Originally *Peridinites*, subsequently (and now) *Lithoperidinium*. This name was not validly published in Lefèvre (1933a, p.417) since no illustrations were provided. Age: Early Tertiary.

**parvulus* Lefèvre, 1933b, p.221–222, text-figs.6–8. Holotype: Lefèvre, 1933b, text-fig.7, according to Eisenack and Klement (1964, p.657). Originally (and now) *Peridinites*, subsequently *Lithoperidinium*. This species was retained in *Peridinites* by Harding and Lewis (1994, p.834). This name was not validly published in Lefèvre (1933a, p.416) since no illustrations were provided. Age: Early Tertiary.

"*perforatus*" Lefèvre, 1933b, p.227–228, text-figs.25–30. Holotype: Lefèvre, 1933b, text-figs.29–30. **NOW** *Lithoperidinium*. Originally *Peridinites*, subsequently (and now) *Lithoperidinium*. This name was not validly published in Lefèvre (1933a, p.418) since no illustrations were provided. Age: Early Tertiary.

piriformis Lefèvre, 1933b, p.225, text-figs.17–20. Emendation: Harding and Lewis, 1994, p.834–835, as *Peridinites piriformis*. Holotype: Lefèvre, 1933b, text-fig.17. Originally (and now) *Peridinites*, subsequently *Lithoperidinium*. This species was retained in *Peridinites* by Harding and Lewis (1994, p.834). This name was not validly published in Lefèvre (1933a, p.417) since no illustrations were provided. Age: Early Tertiary.

subsp. **compactus** (Lefèvre, 1933b, p.225, text-figs.19–20) Lentin and Williams, 1973, p.110. Holotype: Lefèvre, 1933b, text-figs.19–20. Originally *Peridinites piriformis* var. *compactus*, subsequently (and now) *Peridinites piriformis* subsp. *compactus*, thirdly (and now) *Lithoperidinium piriforme* subsp. *compactum*. Age: Early Tertiary.

"var. **compactus**" Lefèvre, 1933b, p.225, text-figs.19–20. Holotype: Lefèvre, 1933b, text-figs.19–20. **NOW** *Peridinites piriformis* subsp. *compactus*. Originally *Peridinites piriformis* var. *compactus*, subsequently (and now) *Peridinites piriformis* subsp. *compactus*, thirdly *Lithoperidinium piriforme* subsp. *compactum*. This name was not validly published in Lefèvre (1933a, p.417) since no illustrations were provided. Age: Early Tertiary.

subsp. **piriformis**. Autonym. Holotype: Lefèvre, 1933b, text-fig.17. Originally (and now) *Peridinites piriformis* subsp. *piriformis*, subsequently *Lithoperidinium piriforme* subsp. *piriforme*.

"var. **piriformis**". Autonym. Holotype: Lefèvre, 1933b, text-fig.17. **Now redundant.**

"**rossicus**" (Deflandre, 1940, p.266, text-figs.1–4) Deflandre, 1945b, cards 817–818. Holotype: Deflandre, 1940, text-figs.1–4. **NOW** *Lithoperidinium*. Originally (and now) *Lithoperidinium*, subsequently *Peridinites*. Age: Eocene.

sphaericus Lefèvre, 1933b, p.223–224, text-figs.13–14,24. Emendation: Harding and Lewis, 1994, p.835–836, as *Peridinites sphaericus*. Holotype: Lefèvre, 1933b, text-figs.13–14. Originally (and now) *Peridinites*, subsequently *Lithoperidinium*. This species was retained in *Peridinites* by Harding and Lewis (1994, p.835). Taxonomic junior synonym (at specific rank): *Peridinites sphaericus* var. *minus*, according to Harding and Lewis (1994, p.837). This name was not validly published in Lefèvre (1933a, p.416–417) since no illustrations were provided. Age: Early Tertiary.

"subsp. **minor**" (Lefèvre, 1933b, p.224; text-fig.24) Lentin and Williams, 1973, p.111. Holotype: Lefèvre, 1933b, text-fig.24. Originally *Peridinites sphaericus* var. *minor*, subsequently *Peridinites sphaericus* subsp. *minor*, thirdly *Lithoperidinium sphaericum* subsp. *minus*. **Taxonomic senior synonym** (at specific rank): *Peridinites sphaericus*, according to Harding and Lewis (1994, p.837). Age: Early Tertiary.

"var. **minor**" Lefèvre, 1933b, p.224; text-fig.24. Holotype: Lefèvre, 1933b, text-fig.24. Originally *Peridinites sphaericus* var. *minor*, subsequently *Peridinites sphaericus* subsp. *minor*, thirdly *Lithoperidinium sphaericum* subsp. *minus*. **Taxonomic senior synonym** (at specific rank): *Peridinites sphaericus*, according to Harding and Lewis (1994, p.837). Age: Early Tertiary.

"subsp. **sphaericus**". Autonym. Holotype: Lefèvre, 1933b, text-figs.13–14. **Now redundant.** Originally *Peridinites sphaericus* subsp. *sphaericus*, subsequently *Lithoperidinium sphaericum* subsp. *sphaericum*.

"var. **sphaericus**". Autonym. Holotype: Lefèvre, 1933b, text-figs.13–14. **Now redundant.**

PERISSEIASPHAERIDIUM Davey and Williams, 1966b, p.78. Type: Davey and Williams, 1966b, pl.11, fig.8, as *Perisseiasphaeridium pannosum*.

"**eisenackii**" Davey and Williams, 1969, p.6. Holotype: Eisenack, 1958a, pl.26, fig.1, as *Hystrichosphaeridium anthophorum*. **Taxonomic senior synonym:** *Hystrichosphaerina schindewolfii*, according to Davey and Verdier (1974, p.640). Age: late Aptian.

ingerdiae Nøhr-Hansen, 1986, p.35–36, pl.3, fig.11; pl.4, figs.8–9; text-fig.6. Holotype: Nøhr-Hansen, 1986, pl.3, fig.11; Stancliffe and Sarjeant, 1990, pl.3, fig.2. Age: early Kimmeridgian.

insolitum Davey, 1982b, p.19–20, pl.4, figs.8–10. Holotype: Davey, 1982b, pl.4, fig.8; Fauconnier and Masure, 2004, pl.64, figs.6–8. Age: early Portlandian–early Ryazanian.

inusitatum Stevens and Helby, 1987, p.179,181, figs.13A–C,14A–G. Holotype: Stevens and Helby, 1987, figs.14A–B,E–F; Helby et al., 1987, fig.23C; Fensome et al., 1996, figs.1–3,6 — p.2169. Age: early Berriasian.

**pannosum* Davey and Williams, 1966b, p.78–79, pl.3, fig.5; pl.11, fig.8; text-fig.15. Holotype: Davey and Williams, 1966b, pl.11, fig.8; Bujak et al., 1980, pl.2, figs.7–8. Age: Early Eocene — possibly reworked Jurassic, according to Fensome (1979, p.60–61).

PERNAMBUGIA Janofske and Karwath, 2000, p.114. Emendation: Streng et al., 2004, p.471–472. Calcareous dinoflagellate genus (see Streng et al., 2004, p.482 and Elbrächter et al., 2008, p.1301). Type: Kamptner, 1963, pl.4, fig.26, as *Thoracosphaera tuberosa*.

?*patata* Streng et al., 2004, p.472–473, fig.12, nos.1–10. Holotype: Streng et al., 2004, fig.12, no.1. Questionable assignment: Streng et al. (2004, p.472). Age: early Oligocene–early Miocene.

**tuberosa* (Kamptner, 1963, p.179, fig.26) Janofske and Karwath, 2000, p.114. Emendation: Janofske and Karwath, 2000, p.114–115, as *Pernambugia tuberosa*. Holotype: Kamptner, 1963, fig.26. Originally *Thoracosphaera*, subsequently *Sphaerodinella* (combination not validly published), thirdly *Sphaerodinella?*, fourthly (and now) *Pernambugia*. Taxonomic junior synonyms: *Thoracosphaera candora* and *Thoracosphaera narena*, both according to Fütterer (1976, p.132). Age: Pleistocene.

"forma *elongata*" (Hildebrand-Habel et al., 1999, p.83, pl.5, figs.5–7; text-fig.6A–B) Fensome and Williams, 2004, p. 516. Holotype: Hildebrand-Habel et al., 1999, pl.5, figs.5–6. **NOW** *Calciodinellum elongatum*. Originally *Sphaerodinella? tuberosa* forma *elongata*, subsequently *Calciodinellum elongatum* (combination not validly published), thirdly *Pernambugia tuberosa* forma *elongata*, fourthly (and now) *Calciodinellum elongatum*. Age: middle Eocene.

"forma *tuberosa*". Autonym. Holotype: Kamptner, 1963, fig.26. **Now redundant.** Originally *Sphaerodinella tuberosa* forma *tuberosa*, subsequently *Pernambugia tuberosa* forma *tuberosa*.

"forma *variospinosa*" (Hildebrand-Habel et al., 1999, p.83–84, pl.5, figs.8–15, text-fig.7A–C) Fensome and Williams, 2004, p.516. Holotype: Hildebrand-Habel et al., 1999, pl.5, figs.8–11. **NOW** *Calciodinellum levantinum* forma *variospinosum*. Originally *Sphaerodinella? tuberosa* forma *variospinosa*, subsequently *Pernambugia tuberosa* forma *variospinosa*, thirdly (and now) *Calciodinellum levantinum* forma *variospinosum*. Age: middle Eocene.

PERVOSPHAERIDIUM Yun Hyesu, 1981, p.26–27. Type: Deflandre, 1937b, pl.15 (al. pl.12), fig.3, as *Hystrichosphaeridium pseudhystrichodinium*.

brevispinum (Norvick, 1976, p.53, pl.4, figs.5–6) Below, 1982c, p.27. Holotype: Norvick, 1976, pl.4, figs.5–6. Originally *Exochosphaeridium*, subsequently *Exochosphaeridium?*, thirdly (and now) *Pervosphaeridium*. Age: Cenomanian.

cenomaniense (Norvick, 1976, p.52–53, pl.4, figs.4,8) Below, 1982c, p.27. Holotype: Norvick, 1976, pl.4, fig.4. Originally *Exochosphaeridium*, subsequently *Exochosphaeridium?*, thirdly (and now) *Pervosphaeridium*. Age: Cenomanian.

elegans Louwye, 1997, p.152, pl.2, figs.10–11. Holotype: Louwye, 1997, pl.2, figs.10–11. Taxonomic junior synonym: *Cleistosphaeridium hallembayense* (name not validly published), according to Slimani (2001a, p.193). Age: Campanian.

granaculare Fensome et al., 2009, p.54, pl.9, figs.p–s. Holotype: Fensome et al., 2009, pl.9, figs. Age: youngest occurrence, early Campanian.

?granulosum (Jain and Millepied, 1975, p.151–152, pl.5, figs.69–70) Masure in Fauconnier and Masure, 2004, p.164. Holotype: Jain and Millepied, 1975, pl.5, fig.69. Originally *Polysphaeridium*, subsequently *Dapsilidium*, thirdly (and now) *Pervosphaeridium?*. Questionable assignment: Masure in Fauconnier and Masure (2004, p.164). Age: Campanian–Maastrichtian.

intervelum Kirsch, 1991, p.73–74, pl.27, figs.7,9–12; pl.40, figs.5–6; text-figs.40,41a–b. Holotype: Kirsch, 1991, pl.27, figs.10–12; pl.40, fig.5; text-figs.41a–b. Age: early-middle Campanian.

mediterraneum (Corradini, 1973, p.137–138, pl.19, figs.5a–b; text-fig.4) Masure in Fauconnier and Masure, 2004, p.346. Holotype: Corradini, 1973, text-fig.4. Originally *Cleistosphaeridium*, subsequently *Impletosphaeridium*, thirdly (and now) *Pervosphaeridium*. Age: Late Cretaceous.

monasteriense Yun Hyesu, 1981, p.27–28, pl.5, figs.3,5,8; text-fig.7. Holotype: Yun Hyesu, 1981, pl.5, fig.3; Fensome et al., 1991, fig.1 — p.681. Age: early Santonian.

morgenrothii (Corradini, 1973, p.155, pl.23, fig.1) Kirsch, 1991, p.74. Holotype: Corradini, 1973, pl.23, fig.1. Originally *Lanternosphaeridium*, subsequently *Fibrocyta*, thirdly (and now) *Pervosphaeridium*. Age: Senonian.

multispinum Slimani, 1994, p.81–82, pl.12, figs.10–14. Holotype: Slimani, 1994, pl.12, figs.10–12. Age: late Campanian–Danian.

paucispinum (Eisenack and Cookson, 1960, p.5–6, pl.2, fig.7) Jan du Chêne et al., 1986a, p.369. Emendation: Jan du Chêne et al., 1986a, p.369, as *Pervosphaeridium paucispinum*. Holotype: Eisenack and Cookson, 1960, pl.2, fig.7; Jan du Chêne et al., 1986a, pl.122, fig.13. Originally *Trichodinium*, subsequently *Occisucyta*, thirdly (and now) *Pervosphaeridium*. Age: Albanian.

***pseudhystrichodinium** (Deflandre, 1937b, p.73, pl.15 [al. pl.12], figs.3–4) Yun Hyesu, 1981, p.29. Emendation: Davey, 1969a, p.163, as *Exochosphaeridium pseudhystrichodinium*. Holotype: Deflandre, 1937b, pl.15 (al. pl.12), fig.3; Eisenack and Kjellström, 1972, p.415; Fensome et al., 1995, fig.1 — p.1705. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Exochosphaeridium*, fourthly (and now) *Pervosphaeridium*. Taxonomic junior synonym: *Hystrichosphaeridium* (al. *Exochosphaeridium*) *palmatum*, according to Yun Hyesu (1981, p.29). Ziaja (1989, p.214) considered *Exochosphaeridium muelleri* to be a possible taxonomic junior synonym of *Pervosphaeridium pseudhystrichodinium*. Yun Hyesu (1981, p.29) considered *Xanthidium hirsutum* of Ehrenberg, 1837b (name not validly published) to be a possible taxonomic junior synonym of this species. Age: Late Cretaceous.

septatum Slimani, 1996, p.378–379, pl.2, figs.J–L; pl.4, figs.C–D ex Slimani, 2001b, p.8, pl.1, figs.3,6–9. Holotype: Slimani, 1996, pl.2, figs.J–L; Slimani, 2001b, pl.1, figs.7–9. This name was not validly published in Slimani (1996) since no English or Latin description or diagnosis was provided. Age: early–late Campanian.

truncatum (Davey, 1969a, p.164–166, pl.7, figs.1–3) Below, 1982c, p.27. Emendations: Masure, 1988b, p.129; Harker and Sarjeant in Harker et al., 1990, p.73–74, both as *Pervosphaeridium truncatum*. Holotype: Davey, 1969a, pl.7, fig.2; Masure, 1988b, pl.4, figs.6A–B; text-fig.5, nos.1–2. Originally *Exochosphaeridium striolatum* var. *truncatum*, subsequently *Exochosphaeridium striolatum* subsp. *truncatum*, thirdly *Exochosphaeridium?* *truncatum*, fourthly (and now) *Pervosphaeridium truncatum*. Age: Cenomanian.

"?truncigerum" (Deflandre, 1937b, p.71–72, pl.13 [al. pl.10], figs.6–7) Yun Hyesu, 1981, p.27. Holotype: Deflandre, 1937b, pl.13 (al. pl.10), fig.6. **NOW** *Raetiaedinium*. Originally *Hystrichosphaeridium*, subsequently *Litosphaeridium?*, thirdly *Cordosphaeridium*, fourthly *Exochosphaeridium*, fifthly *Pervosphaeridium*, sixthly *Tityrosphaeridium?*, seventhly *Florentinia*, eighthly *Pervosphaeridium?*, ninthly (and now) *Raetiaedinium*. Questionable assignment: Stover and Williams (1987, p.176). Taxonomic senior synonym: *Xanthidium* (now *Hystrichokolpoma*) *crassipes*, by implication in Yun Hyesu (1981, p.27), who considered *Pervosphaeridium?* *truncigerum* to be the senior name — however, Lentin and Williams (1985, p.282) retained *Pervosphaeridium?* *truncigerum*. Taxonomic junior synonym: *Laticavodinium latispinosum* (name not validly published), according to Slimani (2001a, p.194). Age: Senonian.

tubuloaculeatum Slimani, 1994, p.82–83, pl.12, figs.24–28. Holotype: Slimani, 1994, pl.12, figs.27–28. Age: early Maastrichtian–earliest Danian.

PETALODINIUM Williams et al., 2015, p.307. Type: Williams and Downie, 1966b, pl.20, fig.1, as *Wetzeliella condylos*.

***condylos** (Williams and Downie, 1966b, p.193–194, pl.20, figs.1–2) Williams et al., 2015, p.308. Holotype: Williams and Downie, 1966b, pl.20, fig.1. Originally *Wetzeliella*, subsequently *Rhombodinium*, thirdly *Dracodinium*, fourthly (and now) *Petalodinium*. N.I.A. Age: early Eocene.

crassithecum (Vozzhennikova, 1967, p.170, pl.91, figs.1–2,4–6) Williams et al., 2015, p.308. Holotype: Vozzhennikova, 1967, pl.91, fig.1; Lentin and Vozzhennikova, 1990, text-fig.40; lost according to Lentin and Vozzhennikova (1990, p.76). Originally *Rhombodinium glabrum* forma *crassithecum*, subsequently *Rhombodinium glabrum* subsp. *crassithecum*, thirdly (and now) *Petalodinium crassithecum*. According to Lentin and Vozzhennikova (1990, p.76), no potential lectotype is available. These authors recommended that this name be restricted to the type. Age: late Eocene–early Oligocene.

laszczynskii (Gedl, 1995, p.205, pl.7, figs.11,13) Williams et al., 2015, p.308. Holotype: Gedl, 1995, pl.7, fig.13. Originally *Dracodinium*, subsequently (and now) *Petalodinium*. Age: early-middle Eocene.

lenisium Iakovleva, 2016, p.11 (on PDF initially published online), pl.7, figs.1–2; text-fig.4a (part). Holotype: Iakovleva, 2016, pl.7, figs.1–2. Age: earliest Eocene.

rhomboideum (Alberti, 1961, p.10, pl.1, figs.1–5; pl.12, fig.9) Williams et al., 2015, p.308. Holotype: Alberti, 1961, pl.1, fig.3; pl.12, fig.9. Originally *Wetzeliella* subgenus *Rhombodinium*, subsequently *Rhombodinium*, thirdly *Dracodinium*, fourthly (and now) *Petalodinium*. Age: late Eocene.

subsp. **ovale** (Andreeva-Grigorovich and Savitskaya, 1993, p.44–45, pl.1, figs.5,7–8) Williams et al., 2015, p.308. Holotype: Andreeva-Grigorovich and Savitskaya, 1993, pl.1, fig.5; Andreeva-Grigorovich et al., 2011, pl.20, fig.2. Originally *Dracodinium rhomboideum?* subsp. *ovale*, subsequently (and now) *Petalodinium rhomboideum?* subsp. *ovale*. Questionable assignment: Williams et al. (2015, p.308). Andreeva-Grigorovich and Savitskaya (1993) cited this taxon as "*Dracodinium rhomboideum* subsp. *ovale* (Grigorovich, 1971) emend. Andreeva-Grigorovich and Savitskaya". However, *Rhombodinium rhomboideum* forma *ovale* was not validly published in Grigorovich (1971), since that author did not provide a description. Age: early Eocene.

subsp. **rhomboideum**. Autonym. Holotype: Alberti, 1961, pl.1, fig.3; pl.12, fig.9.

rugosum (Michoux, 1988, p.30–31, pl.3, figs.1–9; text-figs.8A–B) Williams et al., 2015, p.308. Holotype: Michoux, 1988, pl.3, figs.1–5; text-figs.8A–B. Originally *Rhombodinium*, subsequently (and now) *Petalodinium*. Age: early Eocene.

sheppeyense Williams et al., 2015, p.307–308. Holotype: Williams and Downie, 1966b, pl.20, fig.10, as *Wetzeliella (Rhombodinium) glabra*. Age: Ypresian.

spinulum (Islam, 1983a, p.236, pl.2, fig.4) Williams et al., 2015, p.308. Holotype: Islam, 1983a, pl.2, fig.4. Originally *Dracodinium politum* subsp. *spinulum*, subsequently (and now) *Petalodinium spinulum*. Age: early Eocene.

waipawaense (Wilson, 1967c, p.493–494, figs.18,20) Williams et al., 2015, p.308. Holotype: Wilson, 1967c, fig.18. Originally *Wetzeliella* subgenus *Rhombodinium*, subsequently *Rhombodinium*, thirdly *Dracodinium*, fourthly (and now) *Petalodinium*. Age: early Eocene.

PHALLOCYSTA Dörhöfer and Davies, 1980, p.26–27. Emendations: Riding, 1984b, p.117; Below, 1987a, p.132. Taxonomic junior synonym: *Andreedinium*, according to Riding (1994, p.13). Type: Dörhöfer and Davies, 1980, fig.26K (not 29K), as *Phallocysta eumekes*.

arctica (Below, 1987a, p.112–113, pl.22, figs.1–8; text-fig.64) Riding, 1994, p.14. Holotype: Below, 1987a, pl.22, figs.1–3,6,8; Fensome et al., 1993a, figs.1–3,5 — p.929. Originally *Andreedinium*, subsequently (and now) *Phallocysta*. Age: Toarcian.

elongata (Beju, 1971, p.289–290, pl.3, figs.7–10; text-figs.6A–E) Riding, 1994, p.16. Emendations: Feist-Burkhardt and Monteil, 1994, p.9, as *Andreedinium elongatum*; Riding, 1994, p.16, as *Phallocysta elongata*. Holotype: Beju, 1971, pl.3, fig.7; text-fig.6A. Originally *Fromea* (Appendix A), subsequently *Fromea?* (Appendix A), thirdly *Wallodinium*, fourthly *Palaeostomocystis* (Appendix A), fifthly *Andreedinium*, sixthly (and now) *Phallocysta*. Nomenclatural junior synonym: *Phallocysta minuta*, which see for details. Taxonomic senior synonym: *Prismatocystis* (now *Wallodinium*) *cylindrica*, according to Duxbury (1983, p.68) — however, Feist-Burkhardt and Monteil in Feist-Burkhardt (1990, p.615) retained *Phallocysta* (as *Andreedinium*) *elongata*. Taxonomic junior synonym: *Phallocysta subconica*, according to Riding (1994, p.16). Age: Bajocian–Oxfordian.

irregulensis (Filatoff, 1975, p.90, pl.29, figs.12–14) Stover and Helby, 1987a, p.111. Emendation: Stover and Helby, 1987a, p.111, as *Phallocysta irregulensis*, as a revised description. Holotype: Filatoff, 1975, pl.29, fig.14; Stover and Helby, 1987a, figs.11L–M. Originally *Evansia*, subsequently *Evansia?*, thirdly *Phallocysta*, fourthly *Andreedinium*, fifthly (and now) *Phallocysta?*. This species was retained in *Phallocysta* by Riding (1994, p.14). Questionable assignment: Riding (1994, p.14). Age: Bajocian.

***eumekes** Dörhöfer and Davies, 1980, p.27, figs.12,24D–E,G,26H,J–K,27A–I. Emendation: Riding, 1984b, p.119. Holotype: Dörhöfer and Davies, 1980, fig.26K (not 29K); Fensome et al., 1993a, fig.1 — p.1155. Age: Toarcian–Bajocian/Bathonian.

frommernensis Below, 1987a, p.132–133, pl.22, figs.9–18; text-fig.70. Holotype: Below, 1987a, pl.22, figs.10–13,18; Fensome et al., 1993a, figs.2–5,7 — p.1205. Age: Aalenian.

granosa Riding and Helby 2001c, p.61–62, figs.1A–I. Holotype: Riding and Helby 2001c, figs.1G–I. Age: Bathonian.

"minuta" Prauss 1989, p.20–21, pl.2, figs.1–4; text-fig.5. Holotype: Prauss 1989, pl.2, fig.3; text-fig.5. **Name illegitimate** — **nomenclatural senior synonym:** *Fromea elongata*, since Prauss (1989, p.20) included the holotype of *Fromea elongata* in synonymy with *Phallocysta minuta*. Substitute name: *Phallocysta subconica*. Originally *Phallocysta minuta* (name illegitimate), subsequently *Phallocysta subconica*. Age: late Toarcian–early Bajocian.

"subconica" Lentin and Williams, 1993, p.507. Holotype: Prauss, 1989, pl.2, fig.3; text-fig.5. Originally *Phallocysta minuta* (name illegitimate), subsequently *Phallocysta subconica*. Substitute name for *Phallocysta minuta* Prauss, 1989, p.20–21, pl.2, figs.1–4; text-fig.5 (an illegitimate name). **Taxonomic senior synonym:** *Fromea* (as and now *Phallocysta*) *elongata*, according to Riding (1994, p.16). The name *Phallocysta minuta* is illegitimate since, in proposing it, Prauss (1989, p.20) included in synonymy the holotype of *Fromea elongata*. However, Riding et al. (1991, p.153) argued that the form described by Prauss as *Phallocysta minuta* is distinct from *Fromea elongata*. Hence, Lentin and Williams (1993, p.507) proposed the name *Phallocysta subconica* to accommodate Prauss's material. Age: late Toarcian–early Bajocian.

thomasii Smelror, 1991, p.175, pl.1, figs.11–20. Holotype: Smelror, 1991, pl.1, fig.16. Age: Aalenian–Bajocian.

PHANERODINIUM Deflandre, 1937a, p.110. Emendations: Below, 1987b, p.36–38; Slimani, 1994, p.43. Taxonomic junior synonyms: *Fibradinium*, *Microdinium*, *Rhiptocorys* and *Subtilidinium*, all according to Below (1987b, p.36) — however, Lentin and Williams (1989, p.135,243,316,354) retained all four genera. Stover and Evitt (1978, p.236) noted that the type of *Phanerodinium*, *Phanerodinium cayeuxii*, is embedded in flint so the nature of the archeopyle is uncertain. Accordingly, Lentin and Williams (1989, p.289) recommended that only

Phanerodinium cayeuxii and *Phanerodinium setiferum* be included in *Phanerodinium*. Type: Deflandre, 1935, pl.6, fig.3, as *Palaeoperidinium cayeuxii* (name not validly published).

"*angulare*" Below, 1987b, p.39–40, pl.12, figs.12–13; pl.13, figs.11–15; pl.16, fig.12. Holotype: Below, 1987b, pl.13, figs.11–15; Fensome et al., 1993a, figs.1–4 — p.913. **NOW** *Microdinium*. Originally *Phanerodinium*, subsequently (and now) *Microdinium*. Age: middle Albian.

"*annetorpense*" (Morgenroth, 1968, p.538, pl.42, figs.4–7; text-figs.1–2) Below, 1987b, p.38. Holotype: Morgenroth, 1968, pl.42, fig.4. **NOW** *Fibradinium*. Originally (and now) *Fibradinium*, subsequently *Phanerodinium*. Age: Danian.

"*balteus*" Below, 1987b, p.40, pl.15, figs.11–15. Holotype: Below, 1987b, pl.15, figs.11–15; Fensome et al., 1993a, figs.1–5 — p.959. **NOW** *Microdinium*. Originally *Phanerodinium*, subsequently (and now) *Microdinium*. N.I.A. Age: middle-late Albian.

belgicum Slimani and Louwye, 2011, p.48, pl.2, figs.12–18. Holotype: Slimani and Louwye, 2011, pl.2, figs.12–14. Age: late Maastrichtian.

"*carinatum*" Below, 1987b, p.41–43, pl.10, figs.1–10; text-figs.10a–f. Holotype: Below, 1987b, pl.10, figs.1–5; Fensome et al., 1993a, figs.1–4 — p.1035. **NOW** *Microdinium*. Originally *Phanerodinium*, subsequently (and now) *Microdinium*. Age: late Campanian.

"*cassiculus*" (Wilson, 1984c, p.552, figs.6–10) Below, 1987b, p.38. Holotype: Wilson, 1984c, figs.6–7. **NOW** *Microdinium*. Originally (and now) *Microdinium*, subsequently *Phanerodinium*. N.I.A. Age: Maastrichtian.

**cayeuxii* Deflandre, 1936b, p.178–179, pl.6, figs.8–15; pl.7, fig.8 ex Deflandre, 1937a, p.110–112. Emendation: Slimani, 1994, p.44, as *Phanerodinium cayeuxii*. Holotype: Deflandre, 1934, fig.5; Deflandre, 1935, pl.6, fig.3; Deflandre, 1936b, pl.6, figs.8–10. Originally *Palaeoperidinium* (name not validly published), subsequently (and now) *Phanerodinium*. The name *Palaeoperidinium cayeuxii* was not validly published in Deflandre (1936b) since the generic name *Palaeoperidinium* was not validly published until 1967. Age: Senonian.

"subsp. *cayeuxii*". Autonym. Holotype: Deflandre, 1935, pl.6, fig.3; Deflandre, 1936b, pl.6, figs.8–10. **Now redundant.**

"var. *cayeuxii*". Autonym. Holotype: Deflandre, 1935, pl.6, fig.3; Deflandre, 1936b, pl.6, figs.8–10. **Now redundant.**

"subsp. *laeve*" (Lejeune-Carpentier, 1951, p.B310–B311; text-fig.6) Lentin and Williams, 1973, p.112. Emendation: Lejeune-Carpentier and Sarjeant, 1983, p.4, as *Druggidium laeve*. Holotype: Lejeune-Carpentier, 1951, text-fig.6. **NOW** *Druggidium? laeve*. Originally *Phanerodinium cayeuxii* var. *laeve*, subsequently *Phanerodinium cayeuxii* subsp. *laeve*, thirdly *Druggidium laeve*, fourthly (and now) *Druggidium? laeve*. Age: Senonian.

"var. *laeve*" Lejeune-Carpentier, 1951, p.B310–B311; text-fig.6. Emendation: Lejeune-Carpentier and Sarjeant, 1983, p.4, as *Druggidium laeve*. Holotype: Lejeune-Carpentier, 1951, text-fig.6. **NOW** *Druggidium? laeve*. Originally *Phanerodinium cayeuxii* var. *laeve*, subsequently *Phanerodinium cayeuxii* subsp. *laeve*, thirdly *Druggidium laeve*, fourthly (and now) *Druggidium? laeve*. Age: Senonian.

"*consaeptum*" Below, 1987b, p.43–44, pl.14, figs.1–5,7–12. Holotype: Below, 1987b, pl.14, figs.2–5; Fensome et al., 1993a, figs.1–2 — p.1075; figs.2–5 — p.1079. **NOW** *Microdinium*. Originally *Phanerodinium*, subsequently (and now) *Microdinium*. Age: middle Albian.

"var. *baculatum*" Below, 1987b, p.43–44, pl.14, figs.7–12. Holotype: Below, 1987b, pl.14, figs.7–10; Fensome et al., 1993a, figs.1–4 — p.953; fig.3 — p.1075. **NOW** *Microdinium consaeptum* subsp. *baculatum*. Originally *Phanerodinium consaeptum* var. *baculatum*, subsequently (and now) *Microdinium consaeptum* subsp. *baculatum*. Age: middle-late Albian.

"var. **consaeptum**". Autonym. Holotype: Below, 1987b, pl.14, figs.2–5; Fensome et al., 1993a, figs.1–2 — p.1075; figs.2–5 — p.1079. **Now redundant**.

"?**crinitum**" (Davey, 1969a, p.137, pl.2, figs.7–8) Below, 1987b, p.38. Emendation: Below, 1987b, p.38, as *Phanerodinium? crinitum*. Holotype: Davey, 1969a, pl.2, fig.8. **NOW Microdinium?**. Originally (and now) *Microdinium?*, subsequently *Phanerodinium?*. Questionable assignment: Below (1987b, p.38). Age: Cenomanian.

"**densibaculatum**" Below, 1987b, p.44, pl.12, figs.4,9. Holotype: Below, 1987b, pl.12, figs.4,9; Fensome et al., 1993a, figs.1–2 — p.1115. **NOW Fibradinium?**. Originally *Phanerodinium*, subsequently (and now) *Fibradinium?*. Age: middle-late Albian.

"**densigranulatum**" Below, 1987b, p.44–45, pl.13, figs.6–10; pl.14, figs.13–15. Holotype: Below, 1987b, pl.13, figs.6–10; Fensome et al., 1993a, figs.1–5 — p.1119. **NOW Microdinium**. Originally *Phanerodinium*, subsequently (and now) *Microdinium*. Age: middle-late Albian.

"**dentatum**" (Vozzhennikova, 1967, p.94–95, pl.38, figs.2a–e) Below, 1987b, p.38. Emendations: Fechner, 1985, p.120; Lentin and Vozzhennikova, 1990, p.104–105, both as *Microdinium dentatum*; Below, 1987b, p.45–46, as *Phanerodinium dentatum*. Holotype: Vozzhennikova, 1967, pl.38, figs.2a–e; Lentin and Vozzhennikova, 1990, pl.12, figs.5–7; text-fig.59. **NOW Microdinium**. Originally (and now) *Microdinium*, subsequently *Microdinium?*, thirdly *Phanerodinium*. Age: Late Cretaceous.

"**diatretiforme**" Below, 1987b, p.46–47, pl.12, figs.2,7. Holotype: Below, 1987b, pl.12, figs.2,7; Fensome et al., 1993a, figs.1–2 — p.1123. **NOW Fibradinium?**. Originally *Phanerodinium*, subsequently (and now) *Fibradinium?*. Age: Oligocene.

"**distinctum**" (Davey, 1969a, p.133–135, pl.2, figs.9–11; text-figs.13D–E,I) Below, 1987b, p.38. Holotype: Davey, 1969a, pl.2, figs.9–10; text-figs.13D–E. **NOW Microdinium**. Originally *Phanerodinium*, subsequently (and now) *Microdinium*. Age: early Cenomanian.

"**exilimuratum**" (Schumacker-Lambry, 1978, p.37, pl.2, figs.5–8) Below, 1987b, p.38. Holotype: Schumacker-Lambry, 1978, pl.2, figs.5–6. **NOW Cladopyxidium**. Originally (and now) *Cladopyxidium*, subsequently *Phanerodinium*. Age: late Paleocene (Landenian).

"**foliis**" Below, 1987b, p.47–48, pl.9, figs.1–6. Holotype: Below, 1987b, pl.9, figs.1–5; Fensome et al., 1993a, figs.1–5 — p.1197. **NOW Fibradinium?**. Originally *Phanerodinium*, subsequently (and now) *Fibradinium?*. N.I.A. Age: late Bajocian–middle Callovian.

"**fourmarieri**" Lejeune-Carpentier, 1951, p.B311; text-fig.7. Emendation: Lejeune-Carpentier and Sarjeant, 1981, p.2, as *Druggidium fourmarieri*; Slimani and Louwye, 2011, p.48, as *Phanerodinium fourmarieri*. Holotype: Lejeune-Carpentier, 1951, text-fig.7; Streel et al., 1977, pl.2, fig.10. Originally (and now) *Phanerodinium* subsequently *Druggidium*, thirdly *Druggidium*. Age: Late Cretaceous.

"**glabrum**" (Cookson and Eisenack, 1974, p.53, pl.20, fig.19) Below, 1987b, p.38. Holotype: Cookson and Eisenack, 1971, pl.7, fig.11, as *Microdinium* sp. **NOW Microdinium**. Originally (and now) *Microdinium*, subsequently *Phanerodinium*. Age: Senonian.

"**granocarinatedum**" Below, 1987b, p.48–49, pl.16, figs.7–10,14–15. Holotype: Below, 1987b, pl.16, figs.7,10,15; Fensome et al., 1993a, figs.1,4–6 — p.1219. **NOW Microdinium**. Originally *Phanerodinium*, subsequently (and now) *Microdinium*. Age: late early–late Campanian.

"**horridum**" Below, 1987b, p.49–50, pl.17, figs.1–6; text-figs.11a–h. Holotype: Below, 1987b, pl.17, figs.1–6; Fensome et al., 1993a, figs.1–4 — p.1229. **NOW Microdinium?**. Originally *Phanerodinium*, subsequently (and now) *Microdinium?*. Age: middle Albian–early Cenomanian.

"lacertum" Below, 1987b, p.50–51, pl.9, figs.7–10; pl.12, fig.5. Holotype: Below, 1987b, pl.9, figs.7–10; Fensome et al., 1993a, figs.1–5 — p.1247. **NOW** *Fibradinium?*. Originally *Phanerodinium*, subsequently (and now) *Fibradinium?*. Age: middle Albian.

"minutum" (Morgenroth, 1968, p.539–540, pl.42, figs.8–9; pl.43, figs.1–2; text-figs.3–4) Below, 1987b, p.38. Holotype: Morgenroth, 1968, pl.42, figs.8–9. **NOW** *Subtilidinium*. Originally (and now) *Subtilidinium*, subsequently *Phanerodinium*. Age: Danian.

"opacum" (Brideaux, 1971, p.76–77, pl.21, figs.19–22; text-figs.7d–e) Below, 1987b, p.38. Holotype: Brideaux, 1971, pl.21, figs.21–22; text-figs.7d–e. **NOW** *Microdinium*. Originally (and now) *Microdinium*, subsequently *Phanerodinium*. Taxonomic junior synonym: *Microdinium spinosum*, according to Below (1987b, p.38). Age: middle-late Albian.

"ornatum" (Cookson and Eisenack, 1960a, p.6–7, pl.2, figs.3–8; text-figs.2–4) Below, 1987b, p.38. Holotype: Cookson and Eisenack, 1960a, pl.2, figs.3–4; text-fig.2. **NOW** *Microdinium*. Originally (and now) *Microdinium*, subsequently *Phanerodinium*. Age: Albian–Turonian.

ovum Slimani, 1994, p.46–47, pl.7, figs.5–6,33–38. Holotype: Slimani, 1994, pl.7, figs.5–6,33–35. N.I.A. Age: late Campanian–earliest Danian.

"reteinvolvatum" Below, 1987b, p.51–52, pl.12, figs.3,8. Holotype: Below, 1987b, pl.12, fig.3; Fensome et al., 1993a, fig.1 — p.1297. **NOW** *Microdinium?*. Originally *Phanerodinium*, subsequently (and now) *Microdinium?*. Age: middle-late Albian.

"senticetum" Below, 1987b, p.52, pl.9, figs.11–15. Holotype: Below, 1987b, pl.9, figs.11–15; Fensome et al., 1993a, figs.1–4 — p.1329. **NOW** *Eisenackia?*. Originally *Phanerodinium*, subsequently (and now) *Eisenackia?*. N.I.A. Age: late Albian.

septatum Slimani, 1994, p.47–48, pl.7, figs.13–14,39–43. Holotype: Slimani, 1994, pl.7, figs.13–14,39–41. Age: late Campanian–late Maastrichtian.

"septofibrosus" Below, 1987b, p.52–53, pl.13, figs.1–5. Holotype: Below, 1987b, pl.13, figs.1–5; Fensome et al., 1993a, figs.1–5 — p.1337. **NOW** *Microdinium*. Originally *Phanerodinium*, subsequently (and now) *Microdinium*. Age: late Albian.

setiferum Deflandre, 1937a, p.112–114; text-fig.5. Holotype: Deflandre, 1937a, text-fig.5. Age: Senonian.

"setosum" (Sarjeant, 1966b, p.151, pl.16, figs.9–10; text-fig.39) Below, 1987b, p.38. Emendation: Below, 1987b, p.53–54, as *Phanerodinium setosum*. Holotype: Sarjeant, 1966b, pl.16, figs.9–10. **NOW** *Microdinium*. Originally (and now) *Microdinium*, subsequently *Phanerodinium*. Taxonomic junior synonym: *Microdinium echinatum*, according to Clarke et al. (1968, p.181). Age: Cenomanian.

"?sonciniae" Marheinecke, 1992, p.110–111, pl.25, figs.1–4. Holotype: Marheinecke, 1992, pl.25, figs.1–2. **NOW** *Microdinium*. Originally *Phanerodinium?*, subsequently (and now) *Microdinium*. Questionable assignment: Marheinecke (1992, p.110). Taxonomic junior synonym: *Microdinium perplexum* (name not validly published), according to Slimani (2001a, p.193). Contrary to the opinion of Lentin and Williams (1993, p.509), Williams et al. (1998, p.480) considered this name to be validly published. Age: late early–late Maastrichtian.

"squamosum" Below, 1987b, p.54–56, pl.11, figs.1–15; pl.12, figs.1,6,11; pl.16, fig.13. Holotype: Below, 1987b, pl.11, figs.1,3–6; Fensome et al., 1993a, figs.1,3–6 — p.1355. **NOW** *Fibradinium?*. Originally *Phanerodinium*, subsequently (and now) *Fibradinium?*. Age: early Oligocene.

?turnhoutensis Slimani, 1994, p.49–50, pl.7, figs.7–8,27–32. Holotype: Slimani, 1994, pl.7, figs.7–8,27–28. Questionable assignment: Slimani (1994, p.49). Age: early Campanian–earliest Danian.

"*veligerum*" (Deflandre, 1937b, p.81, pl.12 [al. pl.9], fig.9) Below, 1987b, p.38. Emendations: Lejeune-Carpentier, 1943, p.B24–B25, as *Ceratocorys veligera*; Lejeune-Carpentier and Sarjeant, 1983, p.5–6, as *Rhaptocorys veligera*. Holotype: Deflandre, 1937b, pl.12 (al. pl.9), fig.9; Fensome et al., 1995, fig.1 — p.1885. **NOW** *Rhaptocorys*. Originally *Michrystidium* (Appendix A), subsequently *Ceratocorys* (Appendix B), thirdly *Microdinium*, fourthly *Microdinium?*, fifthly (and now) *Rhaptocorys*, sixthly *Phanerodinium*, seventhly *Phanerodinium?*. Questionable assignment: Marheinecke (1992, p.110). Taxonomic junior synonyms: *Microdinium irregulare* and *Ceratocorys* (as *Microdinium*, now *Rhaptocorys*) *smolenskiensis*, both according to Below (1987b, p.56) — however, Lentin and Vozzhennikova (1990, p.112) retained *Ceratocorys* (now *Rhaptocorys*) *smolenskiensis*. Age: Senonian.

PHELODINIUM Stover and Evitt, 1978, p.117–118. Emendation: Mao Shaozhi and Norris, 1988, p.51–52. Type: Corradini, 1973, pl.28, fig.3, as *Deflandrea pentagonalis*.

africanum Biffi and Grignani, 1983, p.140, pl.6, figs.1–6. Holotype: Biffi and Grignani, 1983, pl.6, fig.4. Age: Oligocene.

anisum Mao Shaozhi and Norris, 1988, p.52, pl.15, figs.14–16. Holotype: Mao Shaozhi and Norris, 1988, pl.15, fig.16. Age: late Paleocene–late Eocene.

boldii Wrenn and Hart, 1988, p.365, fig.33, nos.1,4. Holotype: Wrenn and Hart, 1988, fig.33, nos.1,4. Age: late Paleocene–Eocene.

"*boloniense*" (Riegel, 1974, p.354–355, pl.1, figs.6–10; text-fig.3) Riegel and Sarjeant, 1982, p.296. Emendation: Riegel and Sarjeant, 1982, p.297, as *Phelodinium boloniense*. Holotype: Riegel, 1974, pl.1, fig.7; Sarjeant et al., 1987, pl.2, fig.2. **NOW** *Cerodinium*. Originally *Deflandrea*, subsequently *Ceratiopsis* (combination illegitimate), thirdly *Senegalinium*, fourthly *Phelodinium*, fifthly (and now) *Cerodinium*. Age: ?Senonian.

cranwelliae Hannah et al., 1998, p.537, figs.6c–f. Holotype: Hannah et al., 1998, figs.6c–d. Age: early Miocene.

elongatum Slimani et al., 2010, p.117–118, pl.3, fig.11: pl.7, figs.9–10; pl.8, figs.2–3. Holotype: Slimani et al., 2010, pl.8, figs.2–3. Age: late Maastrichtian–early Danian.

exilicornutum Smith, 1992, p.345,348, figs.8c,g–i. Holotype: Smith, 1992, fig.8c. Age: late Campanian–early Maastrichtian.

gaditanum (Riegel, 1974, p.356–357, pl.2, figs.8–9; pl.3, figs.1–2) Lentin and Williams, 1981, p.223. Emendation: Riegel and Sarjeant, 1982, p.297–299, as *Phelodinium gaditanum*. Holotype: Riegel, 1974, pl.2, figs.8–9; Riegel and Sarjeant, 1982, fig.7D. Originally *Deflandrea*, subsequently *Senegalinium*, thirdly *Lejeunia* (combination illegitimate), fourthly *Lejeunecysta*, fifthly (and now) *Phelodinium*. Riegel and Sarjeant (1982, p.297) also proposed this combination. Age: ?Senonian.

harringtonii Levy and Harwood, 2000, p.212,214, pl.8, figs.a–d. Holotype: Levy and Harwood, 2000, pl.8, fig.a. Age: middle-late Eocene.

kozłowskii (Górka, 1963, p.41, pl.5, fig.4) Lindgren, 1984, p.181. Holotype: Górka, 1963, pl.5, fig.4. Originally *Lejeunia* (generic name illegitimate), subsequently *Astrocysta*, thirdly *Senegalinium*, fourthly (and now) *Phelodinium*. Taxonomic senior synonym: *Peridinium* (as *Lejeunia*, now *Phelodinium*) *tricuspe*, according to Harker and Sarjeant (1975, p.223) — however, Lindgren (1984, p.181) retained *Phelodinium kozłowskii*. Age: late Maastrichtian.

longicorne He Chengquan, 1991, p.69, pl.2, figs.28–29. Holotype: He Chengquan, 1991, pl.2, fig.29. Age: Paleocene.

magnificum (Stanley, 1965, p.218–219, pl.20, figs.1–6) Stover and Evitt, 1978, p.118. Holotype: Stanley, 1965, pl.20, figs.4–6. Originally *Deflandrea*, subsequently *Lejeunia* (combination illegitimate), thirdly *Senegalinium*, fourthly *Lejeunecysta*, fifthly (and now) *Phelodinium*. Taxonomic junior synonym (at specific rank): *Peridinium*

crassipes forma *altum*, according to Sarjeant (1985b, p.159) and Lentin and Williams (1993, p.503). Age: Paleocene.

nigericum Biffi and Grignani, 1983, p.140, pl.3, figs.3,5. Holotype: Biffi and Grignani, 1983, pl.3, fig.3. Age: Oligocene.

pachyceras Liengjarern et al., 1980, p.486–487, pl.54, fig.4. Holotype: Liengjarern et al., 1980, pl.54, fig.4. Williams et al. (1998, p.481) were incorrect in rendering the epithet as "*pachycerum*". As a Greek compound noun, it should be cited as *pachyceras*, as in Liengjarern et al. (1980). N.I.A. Age: late Eocene–early Oligocene.

**pentagonale* (Corradini, 1973, p.175, pl.28, fig.3) Stover and Evitt, 1978, p.118. Holotype: Corradini, 1973, pl.28, fig.3; Eisenack and Kjellström, 1981a, page labelled "nach S.208"; Fensome et al., 1995, fig.1 — p.1649. Originally *Deflandrea*, subsequently *Lejeunia* (combination illegitimate), thirdly *Senegalinium*, fourthly *Lejeunecysta*, fifthly (and now) *Phelodinium*. Age: Senonian.

pumilum Liengjarern et al., 1980, p.487, pl.54, fig.2. Holotype: Liengjarern et al., 1980, pl.54, fig.2. Age: late Eocene.

?*spinatum* He Chengquan, 1991, p.69–70, pl.2, figs.24–27. Holotype: He Chengquan, 1991, pl.2, fig.25. Questionable assignment: He Chengquan (1991, p.69–70). Age: Paleocene.

spinocapitatum He Chengquan, 1991, p.70, pl.2, figs.30–31. Holotype: He Chengquan, 1991, pl.2, fig.30. Age: Paleocene.

tricuspe (Wetzel, 1933a, p.166, pl.2, fig.14) Stover and Evitt, 1978, p.118. Emendation: Lejeune-Carpentier and Sarjeant, 1981, p.20, as *Lejeunecysta tricuspis*. Holotype: Wetzel, 1933a, pl.2, fig.14; Lejeune-Carpentier, 1942, fig.21; Lejeune-Carpentier and Sarjeant, 1981, pl.6, fig.5. Originally *Peridinium* (Appendix B), subsequently *Lejeunia* (combination illegitimate), thirdly *Astrocysta*, fourthly *Senegalinium*, fifthly *Lejeunecysta*, sixthly (and now) *Phelodinium*. Taxonomic junior synonym: *Lejeunia* (now *Phelodinium*) *kozłowskii*, according to Harker and Sarjeant (1975, p.223) — however, Lindgren (1984, p.181) retained *Phelodinium kozłowskii*. Age: Senonian.

"subsp. *divaricans*" (Wetzel, 1933a, p.165–166, text-fig.2) Lentin and Williams, 1985, p.284. Holotype: Wetzel, 1933a, text-fig.2. Originally *Peridinium pedunculatum* forma *divaricans* (Appendix B), subsequently *Phelodinium tricuspis* subsp. *divaricans*. **Taxonomic senior synonym** (at specific rank): *Deflandrea* (as *Ceratiopsis*, now *Cerodinium*) *albertii*, according to Sarjeant (1985b, p.158) and Lentin and Williams (1993, p.504,511). Age: Late Cretaceous.

"subsp. *tricuspe*". Autonym. Holotype: Wetzel, 1933a, pl.2, fig.14; Lejeune-Carpentier, 1942, fig.21; Lejeune-Carpentier and Sarjeant, 1981, pl.6, fig.5. **Now redundant.**

PHOBEROCYSTA Millioud, 1969, p.431–432. Emendation: Helby, 1987, p.307. Taxonomic senior synonym: *Muderongia*, according to Monteil (1991b, p.470) — however, Poulsen (1996, p.56) retained *Phoberocysta*. Taxonomic junior synonym: *Xenascus*, by implication in Davey and Verdier (1971, p.27), who considered the "type species" of *Xenascus*, *Xenascus australensis*, to be a taxonomic junior synonym of *Phoberocysta* (now *Xenascus*) *ceratioides* — however, Lentin and Williams (1973, p.143) retained *Xenascus*. Type: Gocht, 1957, pl.19, fig.1; text-fig.7, as *Wetzeliella? neocomica*.

"*burgeri*" Helby, 1987, p.307–309, figs.10A–F,11,12A–C. Holotype: Helby, 1987, figs.10A–C,11; Fensome et al., 1996, figs.1–3,7–8 — p.2073. **Taxonomic senior synonym**: *Muderongia testudinaria*, according to Monteil (1991b, p.476). Age: latest Valanginian–Hauterivian.

"*ceratioides*" (Deflandre, 1937b, p.66–67, pl.12 [al. pl.9], figs.7–8) Davey and Verdier, 1971, p.26. Holotype: Deflandre, 1937b, pl.12 (al. pl.9), figs.7–8; Fensome et al., 1991, fig.1 — p.601; fig.1 — p.605. **NOW** *Xenascus*. Originally *Hystriochosphaera*, subsequently *Pseudoceratium*, thirdly *Spiniferites*, fourthly *Phoberocysta*, fifthly (and now) *Xenascus*. Taxonomic junior synonyms: *Endoceratium* (now *Xenascus*) *perforatum*, according to Davey and

Verdier (1971, p.27) — however, Yun Hyesu (1981, p.62) retained *Xenascus perforatus*; *Xenascus australensis*, according to Davey and Verdier (1971, p.26) — however, Lentin and Williams (1985, p.374) retained *Xenascus australensis*; *Odontochitina blastema*, according to Davey and Verdier (1971, p.27) — however, Stover and Helby (1987a, p.128) retained *Odontochitina* (as *Xenascus*) *blastema*. This combination was not validly published in Millioud (1969, p.432), since that author did not clearly use the name *Phoberocysta ceratioides*. Age: Senonian.

"*dubia*" Corradini, 1973, p.182, pl.29, figs.6a–b. Holotype: Corradini, 1973, pl.29, figs.6a–b. **NOW** *Xenascus*?. Originally *Phoberocysta*?, subsequently (and now) *Xenascus*?. Questionable assignment: Corradini (1973, p.182). Age: Senonian.

"*edgellii*" Helby, 1987, p.309–310, figs.12D–F, 13A–I. Holotype: Helby, 1987, figs.12D–F; Fensome et al., 1996, figs.1–3 — p.2119. **Taxonomic senior synonym:** *Muderongia testudinaria*, according to Monteil (1991b, p.476). Age: Hauterivian.

"*gochtii*" Corradini, 1973, p.179–181, pl.29, figs.1a–b, 3; text-fig.9. Holotype: Corradini, 1973, pl.29, figs.1a–b; text-fig.9. **NOW** *Xenascus*. Originally *Phoberocysta*, subsequently (and now) *Xenascus*. Age: Senonian.

"*lowryi*" Backhouse, 1987, p.219, 221, figs.7A–B, 12A–D, 14C. Holotype: Backhouse, 1987, figs.7A–B, 12C–D; Fensome et al., 1996, figs.3–6 — p.2211. **Taxonomic senior synonym:** *Muderongia testudinaria*, according to Monteil (1991b, p.476). Age: Hauterivian.

**neocomica* (Gocht, 1957, p.172–178, pl.19, figs.1–5; pl.20, figs.1–7; text-figs.7–16) Millioud, 1969, p.432. Emendation: Helby, 1987, p.310–313, as *Phoberocysta neocomica*. Holotype: Gocht, 1957, pl.19, fig.1; text-fig.7. Originally *Wetzeliella*?, subsequently (and now) *Phoberocysta*, thirdly *Muderongia*. Poulsen (1996, p.59) retained this species in *Phoberocysta*. Taxonomic junior synonym: *Muderongia tomaszowensis*, by implication in Monteil (1991b, p.477), who considered *Muderongia tomaszowensis* to be the senior name — however, this synonymy has not been generally followed. Age: Hauterivian.

"subsp. *circulata*" (Gocht, 1957, p.178; text-fig.14) Lentin and Williams, 1973, p.112. Holotype: Gocht, 1957, text-fig.14. Originally *Wetzeliella? neocomica* forma *circulata*, subsequently *Phoberocysta neocomica* subsp. *circulata*. **Taxonomic senior synonym:** *Phoberocysta neocomica* subsp. *neocomica* (now redundant), by implication in Monteil (1991b, p.477), who listed this taxon as a taxonomic junior synonym of *Phoberocysta neocomica*. Age: Hauterivian.

"subsp. *convexa*" (Gocht, 1957, p.178, pl.20, figs.1–2) Lentin and Williams, 1973, p.112. Holotype: not designated. Lectotype: Gocht, 1957, pl.20, fig.1, designated by Lentin and Williams (1989, p.294). Originally *Wetzeliella? neocomica* forma *convexa*, subsequently *Phoberocysta neocomica* subsp. *convexa*. **Taxonomic senior synonym** (at specific rank): *Phoberocysta* (as *Muderongia*) *tabulata*, according to Monteil (1991b, p.476). Age: Hauterivian.

"subsp. *cruciformis*" (Gocht, 1957, p.176–177, pl.19, fig.5; pl.20, fig.3; text-figs.9–10) Lentin and Williams, 1973, p.112. Holotype: not designated. Lectotype: Gocht, 1957, pl.20, fig.1, designated by Lentin and Williams (1989, p.294). Originally *Wetzeliella? neocomica* forma *cruciformis*, subsequently *Phoberocysta neocomica* subsp. *cruciformis*. **Taxonomic senior synonym:** *Phoberocysta neocomica* subsp. *neocomica* (now redundant), by implication in Monteil (1991b, p.477), who listed this taxon as a taxonomic junior synonym of *Phoberocysta neocomica*. Age: Hauterivian.

"subsp. *dedecosa*" (Gocht, 1957, p.177; text-fig.11) Lentin and Williams, 1973, p.112. Holotype: Gocht, 1957, text-fig.11. Originally *Wetzeliella? neocomica* forma *dedecosa*, subsequently *Phoberocysta neocomica* subsp. *dedecosa*. **Taxonomic senior synonym:** *Phoberocysta neocomica* subsp. *neocomica* (now redundant), by implication in Monteil (1991b, p.477), who listed this taxon as a taxonomic junior synonym of *Phoberocysta neocomica*. Age: Hauterivian.

"subsp. *neocomica*". Autonym. Holotype: Gocht, 1957, pl.19, fig.1; text-fig.7. **Now redundant.** Taxonomic junior synonyms: *Wetzeliella? neocomica* forma *circulata* (subsequently *Phoberocysta neocomica* subsp. *circulata*), *Wetzeliella? neocomica* forma *cruciformis* (subsequently *Phoberocysta*

neocomica subsp. *cruciformis*) and *Wetziella? neocomica* forma *dedecosa* (subsequently *Phoberocysta neocomica* subsp. *dedecosa*), by implication in Monteil (1991b, p.477), who listed these taxa as taxonomic junior synonyms of *Phoberocysta neocomica*.

"subsp. *pteridia*" (Gocht, 1957, p.178, pl.20, fig.5) Lentin and Williams, 1973, p.112. Holotype: Gocht, 1957, pl.20, fig.5. Originally *Wetziella? neocomica* forma *pteridia*, subsequently *Phoberocysta neocomica* subsp. *pteridia*. **Taxonomic senior synonym** (at specific rank): *Phoberocysta* (as *Muderongia*) *tabulata*, according to Monteil (1991b, p.476). Age: Hauterivian.

"subsp. *subovalis*" (Gocht, 1957, p.177; text-figs.12–13) Lentin and Williams, 1973, p.113. Holotype: not designated. Lectotype: Gocht, 1957, text-fig.13, designated by Lentin and Williams (1989, p.294). Originally *Wetziella? neocomica* forma *subovalis*, subsequently *Phoberocysta neocomica* subsp. *subovalis*. **Taxonomic senior synonym** (at specific rank): *Phoberocysta* (as *Muderongia*) *tabulata*, according to Monteil (1991b, p.476). Age: Hauterivian.

rariornata Prössl, 1990, p.98–99, pl.2, figs.3,9 ex Prössl, 1992b, p.113,115. Holotype: Prössl, 1990, pl.2, fig.3. Taxonomic senior synonym: *Muderongia mcwhaei*, according to Monteil (1991b, p.473) — however, Prössl (1992b, p.115) retained *Phoberocysta rariornata*. This name was not validly published in Prössl (1990, p.98–99), since that author did not specify the lodgment of the holotype. Age: early Hauterivian.

"*sarjeantii*" Corradini, 1973, p.181, pl.29, figs.2a–b,4a–b; pl.37, fig.3. Holotype: Corradini, 1973, pl.29, figs.2a–b. **NOW** *Xenascus*. Originally *Phoberocysta*, subsequently (and now) *Xenascus*. Age: Senonian.

"*serpaglii*" Corradini, 1973, p.181–182, pl.29, figs.5,7a–b; pl.37, fig.4. Holotype: Corradini, 1973, pl.29, figs.7a–b. **NOW** *Xenascus*. Originally *Phoberocysta*, subsequently (and now) *Xenascus*. Age: Senonian.

tabulata Raynaud, 1978, p.393–394, pl.1, figs.1–2. Emendation: Monteil, 1991b, p.476, as *Muderongia tabulata*. Holotype: Raynaud, 1978, pl.1, fig.1. Originally (and now) *Phoberocysta*, subsequently *Muderongia*. Poulsen (1996, p.59) retained this species in *Phoberocysta*. Taxonomic junior synonyms (at specific rank): *Phoberocysta neocomica* subsp. *convexa*, *Phoberocysta neocomica* subsp. *pteridia* and *Phoberocysta neocomica* subsp. *subovalis*, all according to Monteil (1991b, p.476). Age: Berriasian–Valanginian.

"**PHOREISA**" Courteville 1948, p.10. Calcareous dinoflagellate genus (see Elbrächter et al. 2008, p.1301). **Name not validly published**: no description, diagnosis or illustration.

"*concentrica*" Courteville 1948, p.10. **Name not validly published**: no description, diagnosis or illustration, and generic name not validly published. Age: Cretaceous.

"*ovata*" Courteville 1948, p.10. **Name not validly published**: no description, diagnosis or illustration, and generic name not validly published. Age: Cretaceous.

"*punctata*" Courteville 1948, p.10. **Name not validly published**: no description, diagnosis or illustration, and generic name not validly published. Age: Cretaceous.

PTHANOPERIDINIUM Drugg and Loeblich Jr., 1967, p.182. Emendations: Edwards and Bebout, 1981, p.36; Islam, 1982, p.306. Taxonomic junior synonym: *Vectidinium*, according to Islam (1982, p.313) — however, Lentin and Williams (1989, p.381) retained *Vectidinium*. Type: Drugg and Loeblich Jr., 1967, pl.1, fig.4, as *Phthanoperidinium amoenum*.

alectrolophum Eaton, 1976, p.295,298, pl.17, figs.10–11; text-fig.23A. Holotype: Eaton, 1976, pl.17, fig.11; Bujak et al., 1980, pl.5, fig.9. Age: ?middle Eocene (see Aubry, 1986).

amiculum Liengjarern et al., 1980, p.487–488, pl.53, fig.4. Holotype: Liengjarern et al., 1980, pl.53, fig.4. Age: late Eocene.

- *amoenum** Drugg and Loeblich Jr., 1967, p.182, pl.1, figs.1,2a–b,3a–b,4–5; text-fig.1. Holotype: Drugg and Loeblich Jr., 1967, pl.1, fig.4. Age: Oligocene.
- antarcticum** Mao Shaozhi and Mohr, 1995, p.249,251, pl.1, figs.1–7,9–10; pl.7, figs.3,6–7. Holotype: Mao Shaozhi and Mohr, 1995, pl.1, fig.1. Age: middle Eocene.
- bennettii** Matsuoka and Bujak, 1988, p.66–67, pl.9, figs.4–9; text-figs.13A–B. Holotype: Matsuoka and Bujak, 1988, pl.9, fig.4; text-fig.13A. Age: early Oligocene.
- "biconicum"** Jin Guangxing, He Chengquan and Zhu Shenzhao in He Chengquan et al., 1989, p.62, pl.7, figs.1–6; text-fig.9. Holotype: He Chengquan et al., 1989, pl.7, fig.6; text-fig.9. **NOW** *Diconodinium*. Originally *Phthanoperidinium*, subsequently (and now) *Diconodinium*. Age: Early Tertiary.
- brooksii** Edwards and Bebout, 1981, p.38,40, pl.1, figs.1–9; pl.2, figs.1–9; text-figs.2–4. Holotype: Edwards and Bebout, 1981, pl.1, figs.1–3. Age: middle-late Eocene.
- ?campoense** Caro, 1973, p.359–360, pl.4, fig.7. Holotype: Caro, 1973, pl.4, fig.7. Originally *Phthanoperidinium*, subsequently (and now) *Phthanoperidinium?*. Questionable assignment: Stover and Evitt (1978, p.119). Age: early Eocene.
- chalossense** Michoux, 1985, p.146–147, pl.3, figs.6–8,15. Holotype: Michoux, 1985, pl.3, figs.6–8. Age: middle Eocene.
- clithridium** Bujak, 1994, p.127,129, pl.4, figs.1–3. Holotype: Bujak, 1994, pl.4, figs.1–2. Age: Lutetian.
- comatum** (Morgenroth, 1966b, p.1, pl.1, figs.1–2) Eisenack and Kjellström, 1972, p.907. Holotype: Morgenroth, 1966b, pl.1, fig.1. Originally *Peridinium* (Appendix B), subsequently (and now) *Phthanoperidinium*. Taxonomic junior synonyms: *Phthanoperidinium tritonium*, according to Bujak in Bujak et al. (1980, p.72) — however, Fensome et al. (2009, p.54–55) considered *Phthanoperidinium tritonium* to be a taxonomic junior synonym of *Phthanoperidinium coreoides*; *Hystrichogonyaulax* (now *Phthanoperidinium*) *coreoides*, according to Stover and Evitt (1978, p.118) — however, Benedek and Sarjeant (1981, p.328–330) retained *Phthanoperidinium coreoides*. Eaton (1976, p.294) also proposed this combination. Age: early Oligocene.
- coreoides** (Benedek, 1972, p.20, pl.9, figs.4a–c) Lentin and Williams, 1976, p.76. Emendation: Benedek and Sarjeant, 1981, p.328–330, as *Phthanoperidinium coreoides*. Holotype: Benedek, 1972, pl.9, figs.4a–c; Benedek and Sarjeant, 1981, fig.3, nos.2,4; fig.5. Originally *Hystrichogonyaulax*, subsequently (and now) *Phthanoperidinium*. Taxonomic senior synonym: *Peridinium* (now *Phthanoperidinium*) *comatum*, according to Stover and Evitt (1978, p.118) — however, Benedek and Sarjeant (1981, p.328–330) retained *Phthanoperidinium coreoides*. Taxonomic junior synonym *Phthanoperidinium tritonium*, according to Fensome et al. (2009, p.54–55), which species had previously been considered a taxonomic junior synonym of *Phthanoperidinium comatum* by Bujak in Bujak et al. (1980, p.72). Age: middle Oligocene.
- coriciterium** Islam, 1982, p.307–309, pl.1, figs.6,8–11; text-fig.1. Holotype: Islam, 1982, pl.1, fig.8. Age: early Eocene.
- cornutum** Heilmann-Clausen and Van Simaey, 2005, p.178, pl.9, figs.1–5. Holotype: Heilmann-Clausen and Van Simaey, 2005, pl.9, fig.1–2. Age: middle Eocene.
- crenulatum** (de Coninck, 1975, p.96, pl.17, figs.5–7,12–15) Lentin and Williams, 1977b, p.131. Emendation: Heilmann-Clausen, 1985, p.24–25, as *Phthanoperidinium crenulatum*. Holotype: de Coninck, 1975, pl.17, figs.12–13. Originally *Peridinium*, subsequently (and now) *Phthanoperidinium*. Age: early Eocene (Ypresian).
- delicatum** Michoux, 1985, p.147–148, pl.2, figs.1–4; pl.3, figs.1–5,13–14; text-fig.7. Holotype: Michoux, 1985, pl.2, figs.1–4; text-fig.7. Age: early-middle Eocene.

"?*diamantum*" (Churchill and Sarjeant, 1962, p.34–36, pl.1, fig.19; text-fig.3) Lentin and Williams, 1973, p.113. Holotype: Churchill and Sarjeant, 1962, pl.1, fig.19; text-fig.3. **NOW** *Gonyaulacysta*. Originally *Peridinium?* (Appendix B), subsequently *Phthanoperidinium?*, thirdly (and now) *Gonyaulacysta*. Questionable assignment: Lentin and Williams (1973, p.113). Age: Holocene.

distinctum Bujak, 1994, p.129, pl.4, figs.7–12. Holotype: Bujak, 1994, pl.4, figs.7–8. Age: Lutetian.

"*echinatum*" Eaton, 1976, p.298–299, pl.17, figs.8–9,12; text-fig.23B. Holotype: Eaton, 1976, pl.17, figs.8–9; Bujak et al., 1980, pl.5, figs.10–12. **Taxonomic senior synonym:** *Peridinium* (now *Phthanoperidinium*) *stockmansii*, according to de Coninck (1977, p.40) and by implication in Islam (1982, p.315), who considered *Phthanoperidinium echinatum* to be the senior name. Taxonomic junior synonym: *Phthanoperidinium? pseudoechinatum*, according to Islam (1982, p.309). Age: early-middle Eocene (see Aubry, 1986).

?*eocenicum* (Cookson and Eisenack, 1965a, p.119–120, pl.11, figs.1–5) Lentin and Williams, 1973, p.113. Holotype: Cookson and Eisenack, 1965a, pl.11, figs.1–2. Originally *Peridinium* (Appendix B), subsequently (and now) *Phthanoperidinium?*. Questionable assignment: Lentin and Williams (1973, p.113). Stover and Evitt (1978, p.119) considered *Phthanoperidinium stockmansii* and *Phthanoperidinium resistente* to be possible taxonomic junior synonyms of *Phthanoperidinium? eocenicum*. Eaton (1976, p.294) also proposed this combination. Age: late Eocene.

filigranum (Benedek, 1972, p.12–13, pl.4, figs.3a–b) Benedek and Sarjeant, 1981, p.325–327. Holotype: Benedek, 1972, pl.4, figs.3a–b; Benedek and Sarjeant, 1981, figs.4,8, nos.1–2. Originally *Deflandrea?*, subsequently *Vozzhennikovia?*, thirdly *Dioxya*, fourthly (and now) *Phthanoperidinium*. Bujak and Davies (1983, p.163) also proposed this combination. Age: middle Oligocene.

flebile Liengjarern et al., 1980, p.488–489, pl.54, fig.6. Holotype: Liengjarern et al., 1980, pl.54, fig.6. Age: early Oligocene.

geminatum Bujak in Bujak et al., 1980, p.72,74, pl.19, figs.8–12; text-figs.20D,22A. Holotype: Bujak et al., 1980, pl.19, figs.9–11. Age: middle Eocene (see Aubry, 1986).

?*illustrans* (Wetzel, 1933a, p.167, pl.2, fig.15) Lentin and Williams, 1973, p.113. Holotype: Wetzel, 1933a, pl.2, fig.15. Originally *Peridinium* (Appendix B), subsequently (and now) *Phthanoperidinium?*. Questionable assignment: Lentin and Williams (1973, p.113); Stover and Evitt (1978, p.119) as a problematic species. Age: Senonian.

indistinctum Islam, 1982, p.311, pl.2, figs.1–5; text-fig.2. Holotype: Islam, 1982, pl.2, fig.1. Age: middle Eocene.

?*lambdoideum* (E. Nagy, 1966, p.39–40, pl.1, figs.1–3; text-figs.1a–b) Eisenack and Kjellström, 1972, p.909. Holotype: E. Nagy, 1966, pl.1, figs.1–3; text-figs.1a–b. Originally *Peridinium* (Appendix B), subsequently *Phthanoperidinium*, thirdly (and now) *Phthanoperidinium?*. Questionable assignment: Stover and Evitt (1978, p.119) as a problematic species. Age: early Pliocene.

levimurum Bujak in Bujak et al., 1980, p.74, pl.19, figs.13–16; text-figs.20E,22B. Holotype: Bujak et al., 1980, pl.19, fig.13. Age: middle Eocene (see Aubry, 1986).

multispinum Bujak in Bujak et al., 1980, p.74, pl.19, figs.17–19; text-fig.20F. Holotype: Bujak et al., 1980, pl.19, fig.18. Age: middle Eocene (see Aubry, 1986).

obscurum Harland and Sharp, 1980, p.291,293–295, pl.1, figs.1–9, pl.2, figs.1–6; text-figs.3A–C. Holotype: Harland and Sharp, 1980, pl.1, figs.1–2. Age: late Eocene.

ovoideum He Chengquan, 1991, p.71, pl.2, fig.14; text-fig.8. Holotype: He Chengquan, 1991, pl.2, fig.14; text-fig.8. Age: late Eocene.

paleocenicum Lucas-Clark, 2006, p.196,198, pl.2, figs.10–17; pl.3, figs.1–3; text-figs.5A–B. Holotype: Lucas-Clark, pl.2, figs.10–12. Age: Paleocene.

"pannonium" (Lentin and Williams, 1973, p.106) Harker and Sarjeant, 1975, p.224. Holotype: Nagy, 1969, pl.1, fig.1. **Name illegitimate** — **nomenclatural senior synonym**: *Palaeoperidinium* (now *Pyxidinospis?*) *nudum* Nagy, which has the same type. **NOW** *Pyxidinospis? nuda*. Originally *Palaeoperidinium nudum* Nagy, subsequently *Palaeoperidinium pannonium* (name illegitimate), thirdly *Phthanoperidinium pannonium* (name illegitimate), fourthly *Gonyaulacysta nuda*, fifthly *Tectatodinium nudum*, sixthly *Tectatodinium? pannonium* (name illegitimate), seventhly *Pyxidinospis? pannonia* (name illegitimate), eighthly *Pyxidinospis? nuda*. See also the discussion under *Pyxidinospis? nuda*. Age: late Miocene.

polytrix (Benedek, 1972, p.20, pl.6, figs.1a–b) Lentin and Williams, 1976, p.76. Emendation: Benedek and Sarjeant, 1981, p.330–333, as *Phthanoperidinium polytrix*. Holotype: Benedek, 1972, pl.6, figs.1a–b; Benedek and Sarjeant, 1981, fig.2, nos.4,6, fig.6. Originally *Hystriochogonyaulax*, subsequently *Phthanoperidinium?*, thirdly (and now) *Phthanoperidinium*. Questionable assignment: Lentin and Williams (1976, p.76) — however, Benedek and Sarjeant (1981, p.330) included the species in *Phthanoperidinium* without question. Age: middle Oligocene.

powellii Bujak, 1994, p.129–130, pl.3, figs.7–9. Holotype: Bujak, 1994, pl.3, fig.8. Age: Lutetian.

"?pseudoechinatum" Bujak in Bujak et al., 1980, p.75–76, pl.19, fig.20; text-fig.20C. Holotype: Bujak et al., 1980, pl.19, fig.20. Questionable assignment: Bujak in Bujak et al. (1980, p.75). **Taxonomic senior synonym**: *Peridinium* (now *Phthanoperidinium*) *stockmansii*, by implication in Islam (1982, p.309), who considered *Phthanoperidinium? pseudoechinatum* to be a taxonomic junior synonym of *Phthanoperidinium echinatum*, which is now a taxonomic junior synonym of *Peridinium* (now *Phthanoperidinium*) *stockmansii*. Age: middle Eocene (see Aubry, 1986).

regale Bujak, 1994, p.130, pl.4, figs.4–6. Holotype: Bujak, 1994, pl.4, figs.4–5. Age: Lutetian.

resistente (Morgenroth, 1966a, p.5, pl.2, figs.1–2) Eisenack and Kjellström, 1972, p.911. Holotype: Morgenroth, 1966a, pl.2, figs.1–2. Originally *Peridinium* (Appendix B), subsequently (and now) *Phthanoperidinium*. Stover and Evitt (1978, p.119) considered this species to be a possible taxonomic junior synonym of *Phthanoperidinium eocenicum*. Eaton (1976, p.294) also proposed this combination. Age: early Eocene.

rhomboidale He Chengquan, 1991, p.71–72, pl.2, fig.12. Holotype: He Chengquan, pl.2, fig.12. Age: late Eocene.

rothmaniae Stotland in Andreeva-Grigorovich et al., 2011, p.36–38, pl.53, figs.1–9; pl.54, figs.1–3. Holotype: Andreeva-Grigorovich et al., 2011, pl.53, figs.1–9. Age: Rupelian.

?schizokeras (de Coninck, 1975, p.97, pl.17, figs.16–17) Lentin and Williams, 1977b, p.131. Holotype: de Coninck, 1975, pl.17, figs.16–17. Originally *Peridinium* (Appendix B), subsequently *Phthanoperidinium*, thirdly (and now) *Phthanoperidinium?*. Questionable assignment: Stover and Evitt (1978, p.119). Age: Ypresian.

stockmansii (de Coninck, 1975, p.97–98, pl.17, figs.18–37) Lentin and Williams, 1977b, p.131. Holotype: de Coninck, 1975, pl.17, figs.26–27. Originally *Peridinium* (Appendix B), subsequently *Phthanoperidinium*. Taxonomic junior synonyms: *Phthanoperidinium echinatum*, according to de Coninck (1977, p.40) and by implication in Islam (1982, p.315), who considered *Phthanoperidinium echinatum* to be the senior name; *Phthanoperidinium? pseudoechinatum*, by implication in Islam (1982, p.309), who considered *Phthanoperidinium? pseudoechinatum* to be a taxonomic junior synonym of *Phthanoperidinium echinatum*. Stover and Evitt (1978, p.119) considered this species to be a possible taxonomic junior synonym of *Phthanoperidinium eocenicum*. Age: Ypresian.

"stoveri" (Liengjareern et al., 1980, p.490–491, pl.54, fig.7) Islam, 1982, p.313. Holotype: Liengjareern et al., 1980, pl.54, fig.7; Fensome et al., 1995, fig.1 — p.1807. **NOW** *Vectidinium*. Originally (and now) *Vectidinium*, subsequently *Phthanoperidinium*. Age: late Eocene–early Oligocene.

tenellum Jin Guangxing, He Chengquan and Zhu Shenzhao in He Chengquan et al., 1989, p.62–63, pl.6, fig.22. Holotype: He Chengquan et al., 1989, pl.6, fig.22. Age: Early Tertiary.

"tritonium" Eaton, 1976, p.299–300, pl.17, figs.2–3,6–7; text-figs.23C,24A–B. Holotype: Eaton, 1976, pl.17, fig.3; text-figs.24A–B; Bujak et al., 1980, pl.5, figs.7–8. **Taxonomic senior synonym:** *Hystrichogonyaulax* (now *Phthanoperidinium*) *coroides*, according to Fensome et al. (2009, p.54–55). Bujak in Bujak et al. (1980, p.72) considered *Phthanoperidinium tritonium* to be a taxonomic junior synonym of *Phthanoperidinium comatum*. Age: early-middle Eocene (see Aubry, 1986).

vozhennikovae Stotland in Andreeva-Grigorovich et al., 2011, p.38–39, pl.55, figs.1–9; pl.56, figs.1–3. Holotype: Andreeva-Grigorovich et al., 2011, pl.55, figs.1–9. Age: Rupelian.

zosimovichi Stotland in Andreeva-Grigorovich et al., 2011, p.39–40, pl.57, figs.1–9,2a,4a,9a; pl.58, figs.1a–d,2a–d,3a–d. Holotype: Andreeva-Grigorovich et al., 2011, pl.57, figs.1–9,2a,4a,9a. Age: early Oligocene.

PHYSALOCYSTA Xu Jinli et al., 1997, p.121,154. Type: Xu Jinli et al., 1997, pl.22, fig.13; text-fig.14, as *Physalocysta rotunda*.

oblongata Xu Jinli et al., 1997, p.122, pl.21, figs.12–15 ex He Chengquan et al., 2009, p.659. Holotype: Xu Jinli et al., 1997, pl.21, fig.12. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.659) validated the name by publishing an English diagnosis. Age: middle-late Eocene.

quadrata Xu Jinli et al., 1997, p.122–123, pl.23, figs.3–4,7–8 ex He Chengquan et al., 2009, p.360,660. Holotype: Xu Jinli et al., 1997, pl.23, fig.3. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.660) validated the name by publishing an English diagnosis. Age: middle-late Eocene.

***rotunda** Xu Jinli et al., 1997, p.121–122,154–155, pl.22, figs.12–15; pl.23, figs.12–14; text-fig.14. Holotype: Xu Jinli et al., 1997, pl.22, fig.13; text-fig.14. Age: early-middle Eocene.

simplex Xu Jinli et al., 1997, p.123, pl.41, figs.8–10 ex He Chengquan et al., 2009, p.361,660. Holotype: Xu Jinli et al., 1997, pl.41, fig.9. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.660) validated the name by publishing an English diagnosis. Age: middle-late Eocene.

"PICCOLADINIUM" Versteegh and Zevenboom in Versteegh, 1995, p.91. **Taxonomic senior synonym:** *Hapsocysta*, by implication in Heilmann-Clausen and Van Simaey (2005, p.166), who transferred the type of the genus to *Hapsocysta*. Versteegh and Zevenboom (1995, p.223) also proposed this name. Type: Versteegh, 1995, pl.4, figs.1,4, as *Piccoladinium fenestratum*.

***"fenestratum"** Versteegh and Zevenboom in Versteegh, 1995, p.91–92, pl.4, figs.1–7. Holotype: Versteegh, 1995, pl.4, figs.1,4; **NOW** *Hapsocysta*. Originally *Piccoladinium*, subsequently (and now) *Hapsocysta*. Versteegh and Zevenboom (1995, p.223–224) also proposed this name. Age: early Chattian–mid Piacenzian.

PIERCEITES Habib and Drugg, 1987, p.761. Type: Habib and Drugg, 1987, pl.6, fig.1, as *Pierceites schizocystis*.

?chiemgoviensis Kirsch, 1991, p.111, pl.18, figs.11–13; text-fig.55. Holotype: Kirsch, 1991, pl.18, fig.11; text-fig.55. Questionable assignment: Kirsch (1991, p.111). Age: early Maastrichtian.

pentagonus (May, 1980, p.87–88, pl.10, figs.13–14) Habib and Drugg, 1987, p.762. Holotype: May, 1980, pl.10, figs.13–14. Originally *Trithyrodinium*, subsequently (and now) *Pierceites*. Age: early Maastrichtian.

**schizocystis* Habib and Drugg, 1987, p.761–762, pl.6, figs.1–6. Holotype: Habib and Drugg, 1987, pl.6, fig.1; Fensome et al., 1995, fig.1 — p.1769. Age: ?Cenomanian.

PILADINIUM Williams et al., 2015, p.308–309. Type: Michoux, 1988, pl.1, figs.2–3, as *Kisselevia columna*.

**columna* (Michoux, 1988, p.28,30, pl.1, figs.2–3,5–6; pl.2, figs.3–5; text-figs.7A–B) Williams et al., 2015, p.309. Holotype: Michoux, 1988, pl.1, figs.2–3. Originally *Kisselevia*, subsequently *Charlesdowniea*, thirdly (and now) *Piladinium*. N.I.A. Age: early Eocene.

edwardsii (Wilson, 1967c, p.477, figs.8–9) Williams et al., 2015, p.309. Holotype: Wilson, 1967c, fig.8. Originally *Wetzeliella*, subsequently *Kisselevia*, thirdly *Charlesdowniea*, fourthly (and now) *Piladinium*. Age: early Eocene.

PILOSIDIINIUM Courtinat, 1989, p.190. Type: Gitmez and Sarjeant, 1972, pl.1, fig.1, as *Tenua echinata*.

aptiense (Burger, 1980a, p.76, pl.23, figs.1,5; pl.24, fig.1) Courtinat in Fauconnier and Masure, 2004, p.447. Holotype: Burger, 1980a, pl.23, fig.1; Fauconnier and Masure, 2004, pl.63, figs.11–13. Originally *Tenua* Eisenack, subsequently *Sentusidinium*, thirdly *Batiacasphaera*, fourthly (and now) *Pilosidinium*. Taxonomic junior synonym: *Tenua* (as *Sentusidinium*) *microrobusta*, according to Backhouse (1988, p.107). Age: Aptian.

asymmetricum (Pocock, 1972, p.107, pl.26, figs.29–30) Courtinat in Fauconnier and Masure, 2004, p.447. Holotype: Pocock, 1972, pl.26, fig.29; Fauconnier and Masure, pl.63, fig.15. Originally *Leiosphaeridia* (Appendix A), subsequently *Sentusidinium*, thirdly (and now) *Pilosidinium*. Taxonomic junior synonym: *Sentusidinium* (as *Pilosidinium*) *fibrosum*, according to Courtinat in Fauconnier and Masure, 2004, p.447. Age: late Bajocian–early Bathonian.

asymmetrum (Fenton et al., 1980, p.160,162, pl.16, figs.1,3,5) Courtinat in Fauconnier and Masure, 2004, p.447. Holotype: Fenton et al., 1980, pl.16, fig.3. Originally *Tenua* Eisenack, subsequently *Sentusidinium*, thirdly (and now) *Pilosidinium*. Age: late Bajocian–early Bathonian.

cactosum Quattrocchio and Sarjeant, 1992, p.91–92 (al. 2–243 — 2–244), pl.6, fig.2, pl.8, fig.6. Holotype: Quattrocchio and Sarjeant, 1992, pl.6, fig.2. Age: middle-late Tithonian.

capillatum (Davey, 1975, p.155–156, pl.2, figs.4,7) Courtinat in Fauconnier and Masure, 2004, p.448. Holotype: Davey, 1975, pl.2, fig.7. Originally *Tenua* Eisenack, subsequently *Sentusidinium*, thirdly (and now) *Pilosidinium*. Age: Senonian (?Campanian).

densicomatum (Maier, 1959, p.307–308, pl.29, figs.7–8) Courtinat in Fauconnier and Masure, 2004, p.448. Emendation: Sarjeant, 1983, p.111–113, as *Sentusidinium densicomatum*. Holotype: Maier, 1959, pl.29, fig.7. Originally *Galea* (generic name illegitimate), subsequently *Baltisphaeridium* (Appendix A), thirdly *Impletosphaeridium*, fourthly *Impletosphaeridium?*, fifthly *Sentusidinium*, sixthly (and now) *Pilosidinium*. Age: middle Oligocene–middle Miocene.

**echinatum* (Gitmez and Sarjeant, 1972, p.190, pl.1, figs.1,9) Courtinat, 1989, p.190. Holotype: Gitmez and Sarjeant, 1972, pl.1, fig.1; Fauconnier and Masure, 2004, pl.63, fig.14. Originally *Tenua* Eisenack, subsequently *Sentusidinium*, thirdly *Batiacasphaera*, fourthly (and now) *Pilosidinium*. Age: early–late Kimmeridgian.

fensomei Courtinat, 1989, p.190–191, pl.21, figs.2–3,5,7; pl.23, fig.15. Holotype: Courtinat, 1989, pl.21, fig.7; Fauconnier and Masure, pl.64, fig.1. Age: Oxfordian.

"*fibrosum*" (Kumar, 1987a, p.243–244, pl.1, figs.5,7–8,11; text-fig.6) Courtinat in Fauconnier and Masure 2004, p.447. Holotype: Kumar, 1987a, pl.1, fig.5. **Combination not validly published:** not accepted as a correct name by its author. Originally *Sentusidinium*, subsequently *Pilosidinium* (combination not validly published). **Taxonomic senior synonym:** *Leiosphaeridia* (now *Pilosidinium*) *asymmetrica*, according to Courtinat in

Fauconnier and Masure (2004, p.447,449). Courtinat in Fauconnier and Masure (2004, p.447,449) proposed this combination while simultaneously considering it to be a junior synonym. Age: early Kimmeridgian–Tithonian.

filium (Davies, 1983, p.29–30, pl.10, figs.5–6,8–9; text-fig.27) Courtinat, 1989, p.191. Holotype: Davies, 1983, pl.10, fig.8; Fauconnier and Masure, 2004, pl.64, figs.2–3. Originally *Sentusidinium*, subsequently (and now) *Pilosidinium*. Age: late Oxfordian–Valanginian.

microcystum (Bujak in Bujak et al., 1980, p.88,90, pl.22, figs.2–5) Courtinat in Fauconnier and Masure 2004, p.448. Holotype: Bujak et al., 1980, pl.22, figs.2–3; Fauconnier and Masure, 2004, pl.64, figs.4–5. Originally *Tenua* Eisenack, subsequently *Cleistosphaeridium*, thirdly *Sentusidinium*, fourthly (and now) *Pilosidinium*. Age: middle Eocene (see Aubry, 1986).

myriatrichum (Fensome, 1979, p.12–13, pl.2, fig.7; text-fig.5A) Courtinat, 1989, p.191. Holotype: Fensome, 1979, pl.2, fig.7; text-fig.5A; Fauconnier and Masure, 2004, pl.63, fig.16. Originally *Sentusidinium*, subsequently (and now) *Pilosidinium*. Age: late Oxfordian–mid Kimmeridgian.

neophytensum (Ioannides et al., 1977, p.463, pl.5, figs.5,8–9) Courtinat, 1989, p.191. Holotype: Ioannides et al., 1977, pl.5, fig.5. Originally *Tenua* Eisenack, subsequently *Sentusidinium*?, thirdly (and now) *Pilosidinium*. Age: middle Kimmeridgian.

PIRUMELLA Bolli, 1980, p.528. Emendation: Streng et al., 2009, p.242. Calcareous dinoflagellate genus (see Streng et al., 2004, p.482–483 and Elbrächter et al., 2008, p.1301). Taxonomic senior synonym: *Pithonella*, by implication in Keupp (1981, p.44), who considered the "type species" of *Pirumella*, *Pirumella edithvincentiae*, to be a taxonomic junior synonym of *Pithonella* (now *Pirumella*) *thayeri* — however, Lentin and Williams (1993, p.577) retained *Pirumella*. Taxonomic junior synonym: *Obliquipithonella*, according to Streng et al. (2004, p.482), who included the type of *Obliquipithonella* in *Pirumella*; see also Fensome and Williams (2004, p.461). Type: Bolli, 1980, pl.4, figs.1–2, as *Pirumella edithvincentiae*.

albiensis (Keupp and Kowalski, 1992, p.222–223, pl.8, figs.13–15) Williams et al., 1998, p.487. Holotype: Keupp and Kowalski, 1992, pl.8, fig.13. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: middle-late Albian.

amplificrystallina (Pflaumann and Krasheninnikov, 1978, p.820, pl.3, figs.4a–c,5a–d,6a–d — not 7a–d) Lentin and Williams, 1993, p.517. Holotype: Pflaumann and Krasheninnikov, 1978, pl.3, figs.5a–c. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Maastrichtian.

bassriverensis (Olsson and Youssefnia, 1979, p.1090, pl.1, figs.13–16) Lentin and Williams, 1993, p.517. Holotype: Olsson and Youssefnia, 1979, pl.1, fig.16. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Cenomanian.

bilamellata (Pflaumann and Krasheninnikov, 1978, p.822, pl.5, figs.5,6a–d, pl.6, figs.1a–b,2a–b) Lentin and Williams, 1993, p.517. Holotype: Pflaumann and Krasheninnikov, 1978, pl.5, figs.6a–d. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Willems (1992, p.160) considered *Pithonella* (as *Obliquipithonella*, now *Pirumella*) *krasheninnikovii* to be the possible taxonomic senior synonym of this species. Age: Campanian–early Maastrichtian.

"carteri" (Bolli, 1974, p.852, pl.1, figs.1–4; pl.8, figs.1–3; pl.21, fig.1) Lentin and Williams, 1993, p.517. Holotype: Bolli, 1974, pl.1, figs.1–2; pl.21, fig.1. **NOW** *Pirumella multistrata* forma *carteri*. Originally *Pithonella carteri*, subsequently *Obliquipithonella carteri*, thirdly *Pirumella carteri*, fourthly *Obliquipithonella multistrata* forma *carteri*, fifthly (and now) *Pirumella multistrata* forma *carteri*. Taxonomic senior synonym: *Pithonella* (now *Pirumella*) *multistrata*, according to Keupp (1992a, p.500) — however, Kohring (1993a, p.65) retained *Pithonella carteri* (as *Obliquipithonella multistrata* forma *carteri*). Taxonomic junior synonym (at specific rank): *Pithonella woodburyensis*, according to Kohring (1993a, p.65) — however, *Pithonella woodburyensis* is now considered a taxonomic junior synonym of *Pithonella* (now *Pirumella*) *tanyphloia*. Age: Tithonian.

cookii (Bolli, 1974, p.856, pl.6, figs.9–12; pl.18, figs.3–9; pl.23, fig.6) Lentin and Williams, 1993, p.517. Holotype: Bolli, 1974, pl.6, fig.9; pl.23, fig.6. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly *Orthopithonella* (combination not validly published), fourthly (and now) *Pirumella*. Willems (1992, p.160) considered *Pithonella* (as *Obliquipithonella*, now *Pirumella*) *krasheninnikovii* to be the possible taxonomic senior synonym of this species. Age: Coniacian–Santonian.

cumulosa (Zügel, 1994, p.73–74, pl.16, figs.14–15) Williams et al., 1998, p.487. Holotype: Zügel, 1994, pl.16, fig.14. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: late Cenomanian.

cylindrica (Pflaumann and Krasheninnikov, 1978, p.822, pl.5, figs.1a–c,2a–b,3a–c,4a–c) Lentin and Williams, 1993, p.517. Holotype: Pflaumann and Krasheninnikov, 1978, pl.5, figs.4a–c. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Willems (1992, p.160) considered *Pithonella* (as and now *Obliquipithonella*) *krasheninnikovii* to be the possible taxonomic senior synonym of this species. Age: Campanian–Maastrichtian.

echinosa (Keupp, 1982, p.331–332, pl.6.2–7, figs.10–12; pl.6.2–8, figs.1–2) Lentin and Williams, 1993, p.517. Holotype: Keupp, 1982, pl.6.2–7, figs.11–12; pl.6.2–8, fig.2. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: early Albanian.

edgarii (Bolli, 1974, p.854, pl.4, figs.1–4; pl.13, figs.3–7; pl.22, fig.4) Lentin and Williams, 1993, p.518. Holotype: Bolli, 1974, pl.4, figs.1–2; pl.13, fig.3; pl.22, fig.4. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Taxonomic junior synonym: *Pithonella titanoplax*, according to Keupp (1981, p.64) — however, Kohring (1993a, p.74) retained *Pithonella* (as *Obliquipithonella*, now *Pirumella*) *titanoplax*. Age: Albanian.

"**edithvincentiae*" Bolli, 1980, p.528, pl.4, figs.1–12. Holotype: Bolli, 1980, pl.4, figs.1–2. **Taxonomic senior synonym:** *Pithonella* (now *Pirumella*) *thayeri*, according to Keupp (1981, p.44). The nomenclatural type of the genus *Pirumella* remains the holotype of *Pirumella edithvincentiae*. Age: late Hauterivian.

fragilis Hildebrand-Habel and Willems, 1997, p.183, pl.2, fig.7 ex Hildebrand-Habel and Willems 2004, p.183,185. Holotype: Hildebrand-Habel and Willems, 1997, pl.2, fig.7, as *Obliquipithonella fragilis* and Hildebrand-Habel and Willems, 2004, pl.1, figs.1–3. Originally *Obliquipithonella* (name not validly published), subsequently (and now) *Pirumella*. Age: middle Coniacian–early Santonian.

fusiformis (Rögl, 1976, p.702, pl.1, figs.12–14; pl.2, figs.9–12) Lentin and Williams, 1993, p.518. Holotype: Rögl, 1976, pl.1, fig.12; pl.2, figs.9–10. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: early Paleocene (Danian).

heirtzleri (Bolli, 1974, p.855, pl.5, figs.5–8; pl.15, figs.7–12; pl.16, figs.1–4; pl.23, fig.2) Lentin and Williams, 1993, p.518. Holotype: Bolli, 1974, pl.5, fig.5; pl.23, fig.2. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Albanian.

hystrichosphaeroidea (Zügel, 1994, p.76, pl.18, figs.1–6) Williams et al., 1998, p.488. Holotype: Zügel, 1994, pl.18, figs.1–2. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: late Cenomanian.

irregularis (Akselman and Keupp, 1990, p.172–173,175–178, pl.1, figs.1–19; text-fig.2) Williams et al., 1998, p.488. Holotype: Akselman and Keupp, 1990, pl.1, fig.3. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Motile equivalent: *Scrippsiella patagonica* Akselman and Keupp, 1990, according to Akselman and Keupp (1990, p.169). Age: extant.

johnstonei (Bolli, 1974, p.856, pl.6, figs.5–8; pl.18, figs.1–2; pl.23, fig.5) Lentin and Williams, 1993, p.518. Holotype: Bolli, 1974, pl.6, figs.5–6; pl.18, fig.1; pl.23, fig.5. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Taxonomic senior synonym: *Thoracosphaera* (now *Orthopithonella*) *deflandrei*, according to Kohring (1993a, p.30) — however, Streng et al. (2004, p.482) retained *Pithonella* (as *Pirumella*) *johnstonei*. Age: Coniacian–Santonian.

krasheninnikovii (Bolli, 1974, p.856, pl.7, figs.1–5; pl.18, figs.10–12; pl.19, figs.1–12; pl.20, figs.1–4; pl.24, figs.1–2) Lentin and Williams, 1993, p.518. Holotype: Bolli, 1974, pl.7, figs.1–2; pl.18, fig.10; pl.24, fig.1. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Willems (1992, p.160) considered *Pithonella* (now *Pirumella*) *cookii*, *Pithonella* (now *Pirumella*) *bilamellata* and *Pithonella* (now *Pirumella*) *cylindrica* to be possible taxonomic junior synonyms of this species. Fütterer (1990, p.540) and Willems (1992, p.160) also proposed this combination. Age: Coniacian–Santonian.

labyrinthica (Zügel, 1994, p.75, pl.17, figs.10–15) Williams et al., 1998, p.488. Holotype: Zügel, 1994, pl.17, figs.10–12. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: middle Cenomanian.

laquaeta (Keupp and Mutterlose, 1994, p.755, figs.9.6–9.8) Williams et al., 1998, p.488. Holotype: Keupp and Mutterlose, 1994, fig.9.7. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: early Aptian.

lepidota (Keupp, 1982, p.330–331, pl.6.2–7, figs.2–7) Lentin and Williams, 1993, p.518. Holotype: Keupp, 1982, pl.6.2–7, figs.2,7. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Aptian–early Albian.

loeblichii (Bolli, 1974, p.853–854, pl.3, figs.1–4; pl.11, figs.9–12; pl.12, figs.1–3; pl.22, fig.1) Lentin and Williams, 1993, p.518. Holotype: Bolli, 1974, pl.3, figs.1–2; pl.11, figs.9–10; pl.22, fig.1. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Taxonomic senior synonym: *Pithonella helentappaniae*, according to Keupp (1979c, p.23) — however, Keupp (1981, p.60) retained *Pirumella* (as *Pithonella*) *loeblichii*. Taxonomic junior synonyms: *Pithonella bollii*, *Pithonella megalithica* and *Pithonella nonarenziae*, all according to Keupp (1981, p.60) — however, Zügel (1994, p.66) retained *Pithonella* (as *Obliquipithonella*) *nonarenziae*. Age: ?late Aptian–middle Albian.

longiporosa (Pflaumann and Krasheninnikov, 1978, p.820, pl.2, figs.1a–c,2a–c,3a–b) Lentin and Williams, 1993, p.519. Holotype: Pflaumann and Krasheninnikov, 1978, pl.2, figs.1a–c. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Albian–Cenomanian.

loricata (Krasheninnikov and Basov, 1983, p.982, pl.3, figs.1–7) Lentin and Williams, 1993, p.519. Holotype: Krasheninnikov and Basov, 1983, pl.3, figs.1,4. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Albian.

mcnightii (Bolli, 1974, p.852–853, pl.1, figs.5–8; pl.8, figs.4–8; pl.21, fig.2) Lentin and Williams, 1993, p.519. Holotype: Bolli, 1974, pl.1, figs.5–6; pl.8, fig.4; pl.21, fig.2. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Tithonian.

microspinosa (Zügel, 1994, p.74–75, pl.17, figs.1–8) Williams et al., 1998, p.489. Holotype: Zügel, 1994, pl.17, figs.1–2. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: early Cenomanian.

miniaperta (Krasheninnikov and Basov, 1983, p.983, pl.5, figs.1–8) Lentin and Williams, 1993, p.519. Holotype: Krasheninnikov and Basov, 1983, pl.5, figs.1,7. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Albian.

multistrata (Pflaumann and Krasheninnikov, 1978, p.821, pl.7, figs.3a–f,4a–b,5a–b,6a–b) Lentin and Williams, 1993, p.519. Holotype: Pflaumann and Krasheninnikov, 1978, pl.7, figs.3a–f. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Taxonomic junior synonyms: *Pithonella carteri*, according to Keupp (1992a, p.500) — however, Kohring (1993a, p.65) retained *Pithonella carteri* (as *Obliquipithonella multistrata* forma *carteri*); *Pithonella atlantica*, *Pithonella excentrica* and *Pithonella hannoverana*, all according to Keupp (1981, p.29–30) — however, Kohring (1993a, p.66) retained *Pithonella excentrica* (as *Obliquipithonella multistrata* forma *excentrica*). Age: Valanginian–Barremian.

forma **carteri** (Bolli, 1974, p.852, pl.1, figs.1–4; pl.8, figs.1–3; pl.21, fig.1) Williams et al., 1998, p.489. Holotype: Bolli, 1974, pl.1, figs.1–2; pl.21, fig.1. Originally *Pithonella carteri*, subsequently *Obliquipithonella carteri*, thirdly *Pirumella carteri*, fourthly *Obliquipithonella multistrata* forma *carteri*, fifthly (and now) *Pirumella multistrata* forma *carteri*. Taxonomic senior synonym: *Pithonella* (now

Pirumella multistrata, according to Keupp (1992a, p.500) — however, Kohring (1993a, p.65) retained *Pithonella carteri* (as *Obliquipithonella multistrata* forma *carteri*). Taxonomic junior synonym (at specific rank): *Pithonella woodburyensis*, according to Kohring (1993a, p.65) — however, *Pithonella woodburyensis* is now considered a taxonomic junior synonym of *Pithonella* (now *Pirumella*) *tanyphloia*. Age: Tithonian.

forma ***continga*** (Kohring, 1993a, p.69–70, pl.30, figs.a–p) Williams et al., 1998, p.489. Holotype: Kohring, 1993a, pl.30, figs.a,c,e. Originally *Obliquipithonella multistrata* forma *continga*, subsequently (and now) *Pirumella multistrata* forma *continga*. Age: middle Oligocene.

forma ***excentrica*** (Keupp, 1979c, p.660, pl.6, figs.6–12) Williams et al., 1998, p.489. Holotype: Keupp, 1979c, pl.6, figs.7–8,11. Originally *Pithonella excentrica*, subsequently *Obliquipithonella multistrata* forma *excentrica*, thirdly (and now) *Pirumella multistrata* forma *excentrica*. Taxonomic senior synonym: *Pithonella* (now *Pirumella*) *multistrata*, according to Keupp (1981, p.30) — however, Kohring (1993a, p.66) retained *Pithonella excentrica* (as *Obliquipithonella multistrata* forma *excentrica*). Age: late Hauterivian.

forma ***multistrata***. Autonym. Holotype: Pflaumann and Krasheninnikov, 1978, pl.7, figs.3a–f. Originally *Obliquipithonella multistrata* forma *multistrata*, subsequently (and now) *Pirumella multistrata* forma *multistrata*.

forma ***patriciagreeleyae*** (Bolli, 1974, p.853, pl.2, figs.9–12; pl.11, figs.1–8; pl.21, fig.6) Williams et al., 1998, p.489–490. Holotype: Bolli, 1974, pl.2, figs.9–10; pl.21, fig.6. Originally *Pithonella patriciagreeleyae*, subsequently *Obliquipithonella patriciagreeleyae*, thirdly *Pirumella patriciagreeleyae*, fourthly *Obliquipithonella multistrata* forma *patriciagreeleyae*, fifthly (and now) *Pirumella multistrata* forma *patriciagreeleyae*. Taxonomic junior synonym: *Pithonella francadecimae*, according to Keupp (1981, p.41). Age: Barremian–Albian.

forma ***tanyphloia*** (Keupp, 1979a, p.29–30, pl.6, figs.1–8) Weinkauff et al., 2013, p.249. Holotype: Keupp, 1979a, pl.6, figs.1–3. Originally *Pithonella tanyphloia*, subsequently *Obliquipithonella tanyphloia*, thirdly *Pirumella tanyphloia*, fourthly (and now) *Pirumella multistrata* forma *tanyphloia*. Taxonomic junior synonym: *Pithonella woodburyensis*, according to Keupp (1981, p.36–38). Age: early Barremian.

nonarenziae (Bolli, 1974, p.853, pl.2, figs.5–8; pl.10, figs.9–12; pl.21, fig.5) Williams et al., 1998, p.490. Holotype: Bolli, 1974, pl.2, fig.5; pl.21, fig.5. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Taxonomic senior synonym: *Pithonella* (now *Pirumella*) *loeblichii*, according to Keupp (1981, p.60) — however, Zügel (1994, p.66) retained *Pithonella* (as *Obliquipithonella*, now *Pirumella*) *nonarenziae*. Taxonomic junior synonym: *Pithonella sheilasantawae*, according to Zügel (1994, p.66). Age: Barremian–Albian.

"operculata" (Bramlette and Martini, 1964, p.305–306, pl.5, figs.3–7) Williams et al., 1998, p.490. Emendation: Streng et al., 2004, p.467, as *Cervisiella operculata*. Holotype: Bramlette and Martini, 1964, pl.5, figs.4–5. **NOW** *Cervisiella*. Originally *Thoracosphaera*, subsequently *Obliquipithonella*, thirdly *Pirumella*, fourthly *Operculodinella*, fifthly (and now) *Cervisiella*. Taxonomic junior synonym: *Thoracosphaera atlantica*, according to Fütterer (1990, p.540). Age: Maastrichtian–Paleocene.

ossis (Kienel, 1994, p.45–46, pl.8, figs.7–15) Williams et al., 1998, p.490. Holotype: Kienel, 1994, pl.8, figs.7–10. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. N.I.A. Age: Danian.

pachystrata (Zügel, 1994, p.37–38, pl.5, figs.1–12) Williams et al., 1998, p.490. Holotype: Zügel, 1994, pl.5, figs.1–3. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: Danian.

paradoxa (Keupp, 1991b, p.132, pl.3, figs.7–12) Williams et al., 1998, p.490. Holotype: Keupp, 1991b, pl.3, figs.7–9. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: late Cenomanian.

parva (Fütterer, 1984, p.536–537, pl.3, figs.1–10; pl.4, figs.8–9) Lentin and Williams, 1993, p.519. Holotype: Fütterer, 1984, pl.3, figs.3,6,10. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Danian–early Pleistocene.

"patriciagreeleyae" (Bolli, 1974, p.853, pl.2, figs.9–12; pl.11, figs.1–8; pl.21, fig.6) Lentin and Williams, 1993, p.519. Holotype: Bolli, 1974, pl.2, figs.9–10; pl.21, fig.6. **NOW** *Pirumella multistrata* forma *patriciagreeleyae*. Originally *Pithonella patriciagreeleyae*, subsequently *Obliquipithonella patriciagreeleyae*, thirdly *Pirumella patriciagreeleyae*, fourthly *Obliquipithonella multistrata* forma *patriciagreeleyae*, fifthly (and now) *Pirumella multistrata* forma *patriciagreeleyae*. Taxonomic junior synonym: *Pithonella francadecimae*, according to Keupp (1981, p.41). Age: Barremian–Albian.

"subsp. **ovata**" (Keupp, 1979a, p.32, pl.6, fig.10; pl.7, figs.1–3) Lentin and Williams, 1993, p.519–520. Holotype: Keupp, 1979a, pl.7, figs.1–2. Originally *Pithonella patriciagreeleyae* subsp. *ovata*, subsequently *Obliquipithonella patriciagreeleyae* subsp. *ovata*, thirdly *Pirumella patriciagreeleyae* subsp. *ovata*. **Taxonomic senior synonym** (at specific rank): *Pithonella sliteri*, according to Keupp (1982, p.334). Age: early Barremian.

"subsp. **patriciagreeleyae**". Autonym. Holotype: Bolli, 1974, pl.2, figs.9–10; pl.21, fig.6. **Now redundant**. Originally *Pithonella patriciagreeleyae* subsp. *patriciagreeleyae*, subsequently *Obliquipithonella patriciagreeleyae* subsp. *patriciagreeleyae*, thirdly *Pirumella patriciagreeleyae* subsp. *patriciagreeleyae*.

pinguis (Keupp and Ilg, 1989, p.173, pl.11, figs.1–6) Lentin and Williams, 1993, p.520. Holotype: Keupp and Ilg, 1989, pl.11, figs.1–2. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: early-middle Oxfordian.

piriformis (Keupp, 1977, p.66–67, pl.23, figs.1–5; text-fig.7) Lentin and Williams, 1993, p.520. Holotype: information not available. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. This combination was not validly published in Bolli (1980, p.528), since that author did not fully reference the basionym. Age: Tithonian.

porosa (Pflaumann and Krasheninnikov, 1978, p.820, pl.2, figs.4a–b,5a–c,6a–b,7) Lentin and Williams, 1993, p.520. Holotype: Pflaumann and Krasheninnikov, 1978, pl.2, figs.4a–b. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Albian–Cenomanian.

subsp. **obturata** (Pflaumann and Krasheninnikov, 1978, p.820, pl.3, figs.1a–b,2a–b,3) Lentin and Williams, 1993, p.520. Holotype: Pflaumann and Krasheninnikov, 1978, pl.3, figs.1a–b. Originally *Pithonella porosa* forma *obturata*, subsequently *Obliquipithonella porosa* forma *obturata*, thirdly (and now) *Pirumella porosa* subsp. *obturata*. Age: latest Albian–Cenomanian.

subsp. **porosa**. Autonym. Holotype: Pflaumann and Krasheninnikov, 1978, pl.2, figs.4a–b.

prasina (Janofske, 1992, p.14, pl.4, figs.1a–h; pl.5, figs.1a–h,2a–c; pl.6, figs.1a–f,2a–d; pl.19, figs.4–5) Williams et al., 1998, p.491. Holotype: Janofske, 1992, pl.4, figs.1a–h; pl.19, fig.5. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: Carnian.

quiltyi (Bolli, 1974, p.855–856, pl.6, figs.1–4; pl.17, figs.1–12; pl.23, fig.4) Lentin and Williams, 1993, p.520. Holotype: Bolli, 1974, pl.6, fig.1; pl.23, fig.4. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Albian.

rhombica (Janofske, 1987, p.50, pl.1, fig.5) Lentin and Williams, 1993, p.520. Holotype: Janofske, 1987, pl.1, fig.5. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: Rhaetian.

robinsonii (Bolli, 1974, p.854, pl.4, figs.5–8; pl.13, figs.8–12; pl.14, figs.1–3; pl.22, fig.5) Lentin and Williams, 1993, p.520. Holotype: Bolli, 1974, pl.4, figs.5–6; pl.13, figs.8–9; pl.22, fig.5. Originally *Pithonella*, subsequently

Obliquipithonella, thirdly (and now) *Pirumella*. Taxonomic junior synonym: *Pithonella trilamellata*, according to Keupp (1982, p.325). Age: Albian.

subsp. *coalita* (Keupp, 1979a, p.27, pl.4, figs.9–10) Lentin and Williams, 1993, p.521. Holotype: Keupp, 1979a, pl.4, figs.9–10. Originally *Pithonella robinsonii* subsp. *coalita*, subsequently *Obliquipithonella robinsonii* subsp. *coalita*, thirdly (and now) *Pirumella robinsonii* subsp. *coalita*. Age: early Barremian.

subsp. *robinsonii*. Autonym. Holotype: Bolli, 1974, pl.4, figs.5–6; pl.13, figs.8–9; pl.22, fig.5. Originally *Pithonella robinsonii* subsp. *robinsonii*, subsequently *Obliquipithonella robinsonii* subsp. *robinsonii*, thirdly (and now) *Pirumella robinsonii* subsp. *robinsonii*. Age: Albian.

rockeri (Bolli, 1974, p.854, pl.3, figs.5–8; pl.12, figs.4–6; pl.22, fig.2) Lentin and Williams, 1993, p.521. Holotype: Bolli, 1974, pl.3, fig.5; pl.22, fig.2. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: ?late Aptian–middle Albian.

"*saxea*" (Stradner, 1961, p.84, fig.71) Williams et al., 1998, p.491. Holotype: Stradner, 1961, fig.71. **NOW** *Cervisiella*. Originally *Thoracosphaera*, subsequently *Obliquipithonella* (combination not validly published), thirdly *Pirumella*, fourthly (and now) *Cervisiella*. Age: Danian.

scobidota (Zügel, 1994, p.70, pl.15, figs.13–15) Williams et al., 1998, p.491. Holotype: Zügel, 1994, pl.15, figs.13–15. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: late Cenomanian.

"*sheilasantawae*" (Bolli, 1974, p.854–855, pl.4, figs.9–12; pl.14, figs.4–9; pl.22, fig.6) Lentin and Williams, 1993, p.521. Holotype: Bolli, 1974, pl.4, figs.9–10; pl.14, figs.7–8; pl.22, fig.6. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly *Pirumella*. **Taxonomic senior synonym:** *Pithonella* (now *Pirumella*) *nonarenziae*, according to Zügel (1994, p.66). Taxonomic junior synonym: *Thoracosphaera thoracata*, according to Keupp (1981, p.63). Age: Albian.

sicelis (Kohring, 1993b, p.17, pl.2, figs.10–15) Williams et al., 1998, p.491. Holotype: Kohring, 1993b, pl.2, figs.10–11. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: early Pliocene.

sliteri Bolli, 1980, p.528, pl.5, figs.1–12; pl.6, figs.1–6. Holotype: Bolli, 1980, pl.5, figs.1–2. Originally (and now) *Pirumella*, subsequently *Pithonella*, thirdly *Obliquipithonella*. Taxonomic junior synonym (at specific rank): *Pithonella* (subsequently *Pirumella*) *patriciagreeleyae* subsp. *ovata*, according to Keupp (1982, p.334). Age: late Hauterivian.

spathulata (Keupp and Ilg, 1989, p.172–173, pl.8, fig.15; pl.9, figs.1–15) Lentin and Williams, 1993, p.521. Holotype: Keupp and Ilg, 1989, pl.9, figs.1–3. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: late Callovian–early Oxfordian.

sphenifera (Keupp, 1987, p.52, pl.19, figs.7–12) Lentin and Williams, 1993, p.521. Holotype: Keupp, 1987, pl.19, figs.7–8. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: early Cenomanian.

spinosa (Keupp, 1979a, p.17–18, pl.1, fig.6) Lentin and Williams, 1993, p.521. Holotype: Keupp, 1979a, pl.1, fig.6. Originally *Thoracosphaera*, subsequently *Pithonella*, thirdly *Obliquipithonella*, fourthly (and now) *Pirumella*. Age: early Barremian.

squalida (Krasheninnikov and Basov, 1983, p.982, pl.4, figs.1–8) Lentin and Williams, 1993, p.521. Holotype: Krasheninnikov and Basov, 1983, pl.4, figs.3–4,6. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Earliest late Cenomanian.

squamosa (Krasheninnikov and Basov, 1983, p.983, pl.6, figs.1–6) Lentin and Williams, 1993, p.521–522. Holotype: Krasheninnikov and Basov, 1983, pl.6, figs.3,5. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Albian.

stellata (Zügel, 1994, p.40, pl.6, figs.4–6) Williams et al., 1998, p.492. Holotype: Zügel, 1994, pl.6, figs.4–5. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: late Cenomanian.

strobila (Keupp, 1979a, p.18, pl.2, figs.1–3) Lentin and Williams, 1993, p.522. Holotype: Keupp, 1979a, pl.2, figs.1–2. Originally *Thoracosphaera*, subsequently *Pithonella*, thirdly *Obliquipithonella*, fourthly (and now) *Pirumella*. Age: early Barremian.

"*tanyphloia*" (Keupp, 1979a, p.29–30, pl.6, figs.1–8) Lentin and Williams, 1993, p.522. Holotype: Keupp, 1979a, pl.6, figs.1–3. **NOW** *Pirumella multistrata* forma *tanyphloia*. Originally *Pithonella tanyphloia*, subsequently *Obliquipithonella tanyphloia*, thirdly *Pirumella tanyphloia*, fourthly (and now) *Pithonella multistrata* forma *tanyphloia*. Taxonomic junior synonym: *Pithonella woodburyensis*, according to Keupp (1981, p.36–38). Age: early Barremian.

+*thayeri* (Bolli, 1974, p.853, pl.1, figs.9–12; pl.8, figs.9–12; pl.9, figs.1–12; pl.21, fig.3) Lentin and Williams, 1993, p.522. Holotype: Bolli, 1974, pl.1, fig.9; pl.21, fig.3. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Taxonomic junior synonyms: *Pirumella edithvincentiae*, *Pithonella guttula*, *Pithonella helentappaniae*, and *Pithonella oviformis*, all according to Keupp (1981, p.43–44). The nomenclatural type of the genus *Pirumella* remains the holotype of *Pirumella edithvincentiae*. Age: Oxfordian–Tithonian.

titanoplax (Rögl, 1976, p.701–702, pl.1, figs.5–9; pl.2, figs.5–8) Williams et al., 1998, p.492. Holotype: Rögl, 1976, pl.1, fig.5; pl.2, figs.5–6. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Taxonomic senior synonym: *Pithonella* (now *Pirumella*) *edgarii*, according to Keupp (1981, p.64) — however, Kohring (1993a, p.74) retained *Obliquipithonella* (now *Pirumella*) *titanoplax*. Age: Danian.

toichhadra (Keupp, 1995, p.162–163, pl.7, figs.7–9) Williams et al., 1998, p.492. Holotype: Keupp and Kowalski, 1992, pl.8, fig.8, as *Obliquipithonella* sp. cf. *williamsenonii*. Originally *Obliquipithonella*, subsequently (and now) *Pirumella*. Age: Albanian.

transitoria (Krasheninnikov and Basov, 1983, p.983, pl.7, figs.1–6) Lentin and Williams, 1993, p.522. Holotype: Krasheninnikov and Basov, 1983, pl.7, figs.1,6. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Campanian.

usherii (Krasheninnikov and Basov, 1983, p.983, pl.7, figs.7–9; pl.8, figs.1–2) Lentin and Williams, 1993, p.522. Holotype: Krasheninnikov and Basov, 1983, pl.7, fig.7; pl.8, fig.1. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Maastrichtian.

williamsenonii (Bolli, 1978b, p.912–913, pl.2, figs.1–12; pl.3, figs.1–12) Williams et al., 1998, p.492–493. Holotype: Bolli, 1978b, pl.2, figs.1–3. Originally *Bonetocardiella*, subsequently *Pithonella*, thirdly *Obliquipithonella*, fourthly *Orthopithonella*, fifthly (and now) *Pirumella*. Age: Oxfordian–Kimmeridgian.

zuegelii Williams et al., 1998, p.493. Holotype: Zügel, 1994, pl.16, fig.10. Originally *Obliquipithonella squamosa* (name illegitimate), subsequently (and now) *Pirumella zuegelii*. This is the substitute name for *Obliquipithonella squamosa* Zügel, 1994, p.72–73, pl.16, figs.10–13; the name *Pirumella squamosa* is preoccupied. Age: late Cenomanian.

PITHONELLA Lorenz, 1902, p.46. Emendations: Bignot and Lezard, 1964, p.140; Villain, 1977, p.144; Masters and Scott, 1978, p.215; Keupp, 1987, p.39; Zügel, 1994, p.24. Calcareous dinoflagellate genus (see Streng et al., 2004, p.483 and Elbrächter et al., 2008, p.1301, the latter noting that the cyst wall is pithonelloid and so a dinoflagellate affinity is questionable — see also below). Taxonomic junior synonyms: *Pirumella*, by implication in Keupp (1981, p.44), who considered the "type species" of *Pirumella*, *Pirumella edithvincentiae*, to be a taxonomic junior synonym of *Pithonella* (now *Pirumella*) *thayeri* — however, Lentin and Williams (1993, p.517) retained *Pirumella*; *Palinosphaera*, by implication in Zügel (1994, p.17), who transferred the type of that genus to *Pithonella* — see under *Palinosphaera* for a full discussion; *Cadosinella*, according to Wendler et al. (2013, p.1098), although these authors did not propose any related species transfers; *Calcisphaerula*, according to Villain (1977, p.144) and Wendler et al. (2013, p.1098) (but see Elbrächter et al., 2008, p.1299); *Andriella* and *Wallia*, both according to

Wendler et al. (2013, p.1098). Keupp in Keupp and Mutterlose (1984) included in *Pithonella* forms of unknown affinity only; forms which are demonstrably dinoflagellates were included in *Obliquipithonella* and *Orthopithonella*. However, Willems (1995a, p.61) considered *Pithonella* to represent calcareous dinoflagellate cysts. Wendler et al. (2013, p.1098) considered that *Pithonella* has probable affiliation with dinoflagellates, although they confusingly listed the genus under both Calcitarcha (see Versteegh et al., 2009) and Division Dinoflagellata; for the present we provisionally retain it as a dinoflagellate. Type: not designated; "type species" — *Pithonella ovalis*.

"**amplicrystallina**" Pflaumann and Krasheninnikov, 1978, p.820, pl.3, figs.4a–c,5a–d,6a–d (not 7a–d). Holotype: Pflaumann and Krasheninnikov, 1978, pl.3, figs.5a–c. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Maastrichtian.

antarctica Rögl, 1976, p.702, pl.3, figs.1–6; pl.4, figs.1–12. Holotype: Rögl, 1976, pl.3, fig.1; pl.4, figs.1–3. Keupp in Lentini and Williams (1989, p.401) suggested that this species may be a foraminifer. Age: Danian.

"**atlantica**" Olsson and Youssefina, 1979, p.1090, pl.2, figs.7–12. Holotype: Olsson and Youssefina, 1979, pl.2, fig.8. **Taxonomic senior synonym:** *Pithonella* (now *Pirumella*) *multistrata*, according to Keupp (1981, p.30). Age: early Campanian.

atopa Keupp and Kienel, 1994, p.204–205, pl.3, figs.1–15. Holotype: Keupp and Kienel, 1994, pl.3, figs.1–2,13. Age: late Albian.

"**bassriverensis**" Olsson and Youssefina, 1979, p.1090, pl.1, figs.13–16. Holotype: Olsson and Youssefina, 1979, pl.1, fig.16. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Cenomanian.

"**bilamellata**" Pflaumann and Krasheninnikov, 1978, p.822, pl.5, figs.5,6a–d; pl.6, figs.1a–b,2a–b. Holotype: Pflaumann and Krasheninnikov, 1978, pl.5, figs.6a–d. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Campanian–early Maastrichtian.

"**bollii**" Rögl, 1976, p.701, pl.1, figs.1–4; pl.2, figs.1–4. Holotype: Rögl, 1976, pl.1, fig.1; pl.2, figs.1–3. **Taxonomic senior synonym:** *Pithonella* (now *Pirumella*) *loeblichii*, according to Keupp (1981, p.60). Taxonomic senior synonym: *Pithonella helentappaniae*, according to Keupp (1979a, p.23). Age: Danian.

brezovica (Borza, 1972, p.148,150, figs.36–42) Fensome and Williams, 2004, p.534. Holotype: Borza, 1972, figs.37. Originally *Palinosphaera*, subsequently (and now) *Pithonella*. Age: Campanian.

cardiiformis Zügel, 1994, p.23–24, pl.1, figs.12–15; pl.2, figs.1–2; text-figs.11b,13. Holotype: Zügel, 1994, pl.1, figs.12–13. Age: middle Turonian.

"**carteri**" Bolli, 1974, p.852, pl.1, figs.1–4; pl.8, figs.1–3; pl.21, fig.1. Holotype: Bolli, 1974, pl.1, figs.1–2; pl.21, fig.1. **NOW** *Pirumella multistrata* forma *carteri*. Originally *Pithonella carteri*, subsequently *Obliquipithonella carteri*, thirdly *Pirumella carteri*, fourthly *Obliquipithonella multistrata* forma *carteri*, fifthly (and now) *Pirumella multistrata* forma *carteri*. Taxonomic senior synonym: *Pithonella* (now *Pirumella*) *multistrata*, according to Keupp (1992a, p.500) — however, Kohring (1993a, p.65) retained *Pithonella carteri* (as *Obliquipithonella multistrata* forma *carteri*). Taxonomic junior synonym: *Pithonella woodburyensis*, according to Kohring (1993a, p.65); however, *Pithonella woodburyensis* is now considered a taxonomic junior synonym of *Pithonella* (now *Pirumella*) *tanyphloia*. Age: Tithonian.

caucasia Keller, 1946, p.95, pl.3, fig.2. Holotype: Keller, 1946, pl.3, fig.2. Andri (1972, p.22) considered this species to be a possible taxonomic synonym of *Pithonella perlonga* (name not validly published). Age: information not available.

caucasic Keller, 1946, p.95, pl.3, fig.2. Holotype: Keller, 1946, pl.3, fig.2. Originally (and now) *Pithonella*, subsequently *Inocardion*. This species was retained in *Pithonella* by Streng et al. (2004, p.483). Andri (1972, p.22) considered this species to be a possible taxonomic synonym of *Pithonella perlonga*. Age: information not available.

"*compsa*" Keupp, 1982, p.318–319, pl.3, figs.5–8. Holotype: Keupp, 1982, pl.3, figs.6–8. **NOW** *Orthopithonella*. Originally *Pithonella*, subsequently (and now) *Orthopithonella*. Age: late Aptian–Campanian.

"*cookii*" Bolli, 1974, p.856, pl.6, figs.9–12; pl.18, figs.3–9; pl.23, fig.6. Holotype: Bolli, 1974, pl.6, fig.9; pl.23, fig.6. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly *Orthopithonella* (combination not validly published), fourthly (and now) *Pirumella*. Age: Coniacian–Santonian.

"*cylindrica*" Pflaumann and Krasheninnikov, 1978, p.822, pl.5, figs.1a–c,2a–b,3a–c,4a–c. Holotype: Pflaumann and Krasheninnikov, 1978, pl.5, figs.4a–c. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Campanian–Maastrichtian.

diconica Wendler and Wendler in Wendler et al., 2013, p.1098, 1104, fig.18, nos.3–4. Holotype: Wendler et al., 2013, fig.18, no.3. Age: middle Turonian.

discoidea Willems, 1992, p.165–166, pl.6, figs.3–7. Holotype: Willems, 1992, pl.6, figs.3–5. Age: early Maastrichtian.

"*echinosa*" Keupp, 1982, p.331–332, pl.6.2–7, figs.10–12; pl.6.2–8, figs.1–2. Holotype: Keupp, 1982, pl.6.2–7, figs.11–12; pl.6.2–8, fig.2. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: early Albian.

"*edgarii*" Bolli, 1974, p.854, pl.4, figs.1–4; pl.13, figs.3–7; pl.22, fig.4. Holotype: Bolli, 1974, pl.4, figs.1–2; pl.13, fig.3; pl.22, fig.4. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Taxonomic junior synonym: *Pithonella titanoplax*, according to Keupp (1981, p.64) — however, Kohring (1993a, p.74) retained *Pithonella* (as *Obliquipithonella*, now *Pirumella*) *titanoplax*. Age: Albian.

"*excentrica*" Keupp, 1979c, p.660, pl.6, figs.6–12. Holotype: Keupp, 1979c, pl.6, figs.7–8,11. **NOW** *Pirumella multistrata* forma *excentrica*. Originally *Pithonella excentrica*, subsequently *Obliquipithonella multistrata* forma *excentrica*, thirdly (and now) *Pirumella multistrata* forma *excentrica*. Taxonomic senior synonym: *Pithonella* (now *Pirumella*) *multistrata*, according to Keupp (1981, p.30) — however, Kohring (1993a, p.66) retained *Pithonella excentrica* (as *Obliquipithonella multistrata* forma *excentrica*). Age: late Hauterivian.

"*francadecimae*" Bolli, 1974, p.855, pl.5, figs.1–4; pl.14, figs.10–12; pl.15, figs.1–6; pl.23, fig.1. Holotype: Bolli, 1974, pl.5, figs.1–2; pl.23, fig.1. **Taxonomic senior synonym:** *Pithonella patriciagreeleyae* (now *Pirumella multistrata* forma *patriciagreeleyae*), according to Keupp (1981, p.41). Age: Albian.

"*fusifformis*" Rögl, 1976, p.702, pl.1, figs.12–14; pl.2, figs.9–12. Holotype: Rögl, 1976, pl.1, fig.12; pl.2, figs.9–10. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: early Paleocene (Danian).

"*globosa*" Fütterer, 1984, p.536, pl.2, figs.1–9. Holotype: Fütterer, 1984, pl.2, figs.1–3. **NOW** *Orthopithonella*?. Originally *Pithonella*, subsequently *Orthopithonella*, thirdly *Obliquipithonella*, fourthly (and now) *Orthopithonella*?. Age: middle Maastrichtian–early Danian.

"*globulus*" (Wetzel, 1933b, p.29, pl.4, fig.12) Sarjeant, 1985b, p.159. Holotype: Wetzel, 1933b, pl.4, fig.12; Sarjeant, 1985b, pl.2, fig.3; Dietz et al., 1999, fig.10, no.4. **NOW** *Pleurozonaria* (Appendix A). Originally (and now) *Pleurozonaria* (Appendix A), subsequently *Tasmanites* (Appendix A), thirdly *Pithonella*. N.I.A. Age: Late Cretaceous.

"*gustafsonii*" Bolli, 1974, p.854, pl.3, figs.9–12; pl.12, figs.7–12; pl.13, figs.1–2; pl.22, fig.3. Holotype: Bolli, 1974, pl.3, fig.9; pl.12, fig.9; pl.22, fig.3. **NOW** *Orthopithonella*. Originally *Pithonella*, subsequently (and now) *Orthopithonella*. Taxonomic junior synonyms: *Pithonella paratabulata*, according to Keupp (1981, p.20); *Pithonella pycnothecata* and *Pithonella tithonica*, both according to Willems (1988, p.437) — however, Kohring (1993a, p.35) retained *Pithonella* (as and now *Orthopithonella*) *pycnothecata*. Age: middle Maastrichtian–early Danian.

"*guttula*" Pflaumann and Krasheninnikov, 1978, p.821–822, pl.8, figs.1a–e,2a–c,3a–b,4a–b. Holotype: Pflaumann and Krasheninnikov, 1978, pl.8, figs.1a–e. Originally *Pithonella*, subsequently *Obliquipithonella*. **Taxonomic senior synonym:** *Pithonella* (now *Pirumella*) *thayeri*, according to Keupp (1981, p.43). Age: Valanginian–Hauterivian.

"*hannoverana*" Keupp, 1979a, p.27–29, pl.5, figs.1–9. Holotype: Keupp, 1979a, pl.5, figs.1–3. **Taxonomic senior synonym:** *Pithonella* (now *Pirumella*) *multistrata*, according to Keupp (1981, p.29). Age: early Barremian.

"*heirtzleri*" Bolli, 1974, p.855, pl.5, figs.5–8; pl.15, figs.7–12; pl.16, figs.1–4; pl.23, fig.2. Holotype: Bolli, 1974, pl.5, fig.5; pl.23, fig.2. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Albanian.

"*helentappaniae*" Bolli, 1974, p.853, pl.2, figs.1–4; pl.10, figs.1–8; pl.21, fig.4. Holotype: Bolli, 1974, pl.2, fig.1; pl.21, fig.4. **Taxonomic senior synonym:** *Pithonella* (now *Pirumella*) *thayeri*, according to Keupp (1981, p.43–44). Taxonomic junior synonyms: *Pithonella bollii* and *Pithonella* (now *Pirumella*) *loeblichii*, both according to Keupp (1979a, p.23) — however, Keupp (1981, p.60) retained *Pithonella loeblichii* with *Pithonella bollii* as its taxonomic junior synonym. Age: Barremian–Albian.

innominata (Bonet, 1956, p.443–447, pl.22, fig.1 [part]; pl.24, figs.1–2; pl.27, fig.1 [part]) Villain, 1977, p.147. Emendation: Villain, 1977, p.147, as *Pithonella innominata*. Holotype: not designated. Originally *Calcisphaerula*, subsequently (and now) *Pithonella*. As this name was published under the I.C.Z.N., it can be considered valid even though it lacks a holotype. Age: Albian–Santonian.

"*johnstonei*" Bolli, 1974, p.856, pl.6, figs.5–8; pl.18, figs.1–2; pl.23, fig.5. Holotype: Bolli, 1974, pl.6, figs.5–6; pl.18, fig.1; pl.23, fig.5. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly *Pirumella*. Taxonomic senior synonym: *Thoracosphaera* (now *Orthopithonella*) *deflandrei*, according to Kohring (1993a, p.30) — however, Streng et al. (2004, p.482) retained *Pithonella* (as *Pirumella*) *johnstonei*. Age: Coniacian–Santonian.

"*krasheninnikovii*" Bolli, 1974, p.856, pl.7, figs.1–5; pl.18, figs.10–12; pl.19, figs.1–12; pl.20, figs.1–4; pl.24, figs.1–2. Holotype: Bolli, 1974, pl.7, figs.1–2; pl.18, fig.10; pl.24, fig.1. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Coniacian–Santonian.

lamellata Keupp and Kienel, 1994, p.205–206, pl.4, figs.1–15; pl.5, figs.1–10. Holotype: Keupp and Kienel, 1994, pl.4, fig.1. Age: late Albian.

"*lepidota*" Keupp, 1982, p.330–331, pl.6.2–7, figs.2–7. Holotype: Keupp, 1982, pl.6.2–7, figs.2,7. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: late Aptian–early Albian.

"*loeblichii*" Bolli, 1974, p.853–854, pl.3, figs.1–4; pl.11, figs.9–12; pl.12, figs.1–3; pl.22, fig.1. Holotype: Bolli, 1974, pl.3, figs.1–2; pl.11, figs.9–10; pl.22, fig.1. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Taxonomic senior synonym: *Pithonella helentappaniae*, according to Keupp (1979a, p.23) — however, Keupp (1981, p.60) retained *Pithonella* (now *Pirumella*) *loeblichii*. Taxonomic junior synonyms: *Pithonella bollii*, *Pithonella megalithica* and *Pithonella nonarenziae*, all according to Keupp (1981, p.60) — however, Zügel (1994, p.66) retained *Pithonella* (as *Obliquipithonella*) *nonarenziae*. Age: ?late Aptian–middle Albian.

"*longiporosa*" Pflaumann and Krasheninnikov, 1978, p.820, pl.2, figs.1a–c,2a–c,3a–b. Holotype: Pflaumann and Krasheninnikov, 1978, pl.2, figs.1a–c. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: latest Albian–Cenomanian.

"*loricata*" Krasheninnikov and Basov, 1983, p.982, pl.3, figs.1–7. Holotype: Krasheninnikov and Basov, 1983, pl.3, figs.1,4. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Albian.

"*mcnightii*" Bolli, 1974, p.852–853, pl.1, figs.5–8; pl.8, figs.4–8; pl.21, fig.2. Holotype: Bolli, 1974, pl.1, figs.5–6; pl.8, fig.4; pl.21, fig.2. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Tithonian.

"*megalithica*" Keupp, 1979a, p.25–26, pl.4, figs.1–2,4; text-fig.2. Holotype: Keupp, 1979a, pl.4, fig.1. **Taxonomic senior synonym:** *Pithonella* (now *Pirumella*) *loeblichii*, according to Keupp (1981, p.60). Age: early Barremian.

melloi* (Keupp, 1990) Williams and Fensome, 2016, p.141. Holotype: Keupp, 1990, pl.14, figs.1–3. **NOW *Pithonella*. Originally *Wallia*, subsequently (and now) *Pithonella*. Taxonomic junior synonym: *Wallia jakei* (name not validly published), according to Keupp (1990, p.49). This combination was not validly published in Wendler et al. (2013, p.1098) as the basionym was not fully cited. Age: middle Campanian.

"*microgranula*" Zügel, 1994, p.20–24, pl.1, figs.8–11; text-figs.7b,13. Holotype: Zügel, 1994, pl.1, figs.8–9. Age: earliest Turonian.

"*miniaperta*" Krasheninnikov and Basov, 1983, p.983, pl.5, figs.1–8. Holotype: Krasheninnikov and Basov, 1983, pl.5, figs.1,7. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Albian.

"*multicava*" Borza, 1972, p.144,146, text-figs.13–35. Holotype: Borza, 1972, text-fig.13. **Taxonomic senior synonym:** *Pithonella perlonga*, according to Villain (1977, p.146). Age: Campanian.

"*multistrata*" Pflaumann and Krasheninnikov, 1978, p.821, pl.7, figs.3a–f,4a–b,5a–b,6a–b. Holotype: Pflaumann and Krasheninnikov, 1978, pl.7, figs.3a–f. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Taxonomic junior synonyms: *Pithonella carteri*, according to Keupp (1992a, p.500) — however, Kohring (1993a, p.65) retained *Pithonella carteri* (as *Obliquipithonella multistrata* forma *carteri*); *Pithonella atlantica*, *Pithonella excentrica* and *Pithonella hannoverana*, all according to Keupp (1981, p.29–30) — however, Kohring (1993a, p.66) retained *Pithonella excentrica* (as *Obliquipithonella multistrata* forma *excentrica*). Age: Valanginian–Barremian.

"*nonarenziae*" Bolli, 1974, p.853, pl.2, figs.5–8; pl.10, figs.9–12; pl.21, fig.5. Holotype: Bolli, 1974, pl.2, fig.5; pl.21, fig.5. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Taxonomic senior synonym: *Pithonella* (now *Pirumella*) *loeblichii*, according to Keupp (1981, p.60) — however, Zügel (1994, p.66) retained *Pithonella* (as *Obliquipithonella*, now *Pirumella*) *nonarenziae*. Taxonomic junior synonym: *Pithonella sheilasantawae*, according to Zügel (1994, p.66). Age: Barremian–Albian.

"*organica*" Hultberg, 1985a, p.26–28,30, figs.1A–D,2A–D,3A–H. Holotype: Hultberg, 1985a, fig.1A; Hultberg, 1985d, fig.1A. Hultberg (1985d, p.116–117,119) also proposed this name. Age: early Paleocene.

**ovalis* (Kaufmann in Heer, 1865, p.196–197, figs.107a–b) Lorenz, 1902, p.46. Holotype: not designated. Neotype: Wendler et al., 2013, fig.9, no.2; fig.17. Emendation: Wendler et al., 2013, p.1101–1102 as a "Diagnosis", implied to be an emendation on their p.1104. Originally *Lagena* (Appendix A), subsequently (and now) *Pithonella*, thirdly *Fissurina* (Appendix A). Colom (1955, p.121) retained this species in *Pithonella*. Taxonomic junior synonym: *Lagena* (now *Pithonella*) *sphaerica*, according to Lorenz (1902, p.46) — however, Bonet (1956, p.450) and Wendler et al. (2013, p.1098) retained *Lagena* (as *Stomiosphaera*) *sphaerica*. Wendler et al. (2013, p.1101) cited this combination as new. Age: late Cenomanian–Turonian (based on later studies by Bolli — P. Hochuli, personal communication).

"*oviformis*" Keupp, 1979a, p.32–33, pl.8, figs.1–5. Holotype: Keupp, 1979a, pl.8, figs.1–2. **Taxonomic senior synonym:** *Pithonella* (now *Pirumella*) *thayeri*, according to Keupp (1981, p.43). Age: early Barremian.

"*paratabulata*" Keupp, 1980b, p.242–244, pl.30, figs.1–9, pl.31, figs.1–12. Holotype: Keupp, 1980b, pl.30, fig.1. **Taxonomic senior synonym:** *Pithonella* (now *Orthopithonella*) *gustafsonii*, according to Keupp (1981, p.20). Age: late Aptian.

"*parva*" Fütterer, 1984, p.536–537, pl.3, figs.1–10; pl.4, figs.8–9. Holotype: Fütterer, 1984, pl.3, figs.3,6,10. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Danian–early Pleistocene.

"*patriciagreeleyae*" Bolli, 1974, p.853, pl.2, figs.9–12; pl.11, figs.1–8; pl.21, fig.6. Holotype: Bolli, 1974, pl.2, figs.9–10; pl.21, fig.6. **NOW** *Pirumella multistrata* forma *patriciagreeleyae*. Originally *Pithonella patriciagreeleyae*, subsequently *Obliquipithonella patriciagreeleyae*, thirdly *Pirumella patriciagreeleyae*, fourthly *Obliquipithonella multistrata* forma *patriciagreeleyae*, fifthly (and now) *Pirumella multistrata* forma *patriciagreeleyae*. Taxonomic junior synonym: *Pithonella francadecimae*, according to Keupp (1981, p.41). Age: Barremian–Albian.

"subsp. *ovata*" Keupp, 1979a, p.32, pl.6, fig.10; pl.7, figs.1–3. Holotype: Keupp, 1979a, pl.7, figs.1–2. Originally *Pithonella patriciagreeleyae* subsp. *ovata*, subsequently *Obliquipithonella patriciagreeleyae* subsp. *ovata*, thirdly *Pirumella patriciagreeleyae* subsp. *ovata*. **Taxonomic senior synonym** (at specific rank): *Pirumella* (as *Pithonella*) *sliteri*, according to Keupp (1982, p.334). Age: early Barremian.

"subsp. *patriciagreeleyae*". Autonym. Holotype: Bolli, 1974, pl.2, figs.9–10; pl.21, fig.6. **Now redundant**. Originally *Pithonella patriciagreeleyae* subsp. *patriciagreeleyae*, subsequently *Obliquipithonella patriciagreeleyae* subsp. *patriciagreeleyae*, thirdly *Pirumella patriciagreeleyae* subsp. *patriciagreeleyae*.

perlonga Andri, 1972, p.22–24, pl.3, figs.2–6; text-fig.9, nos.1–20. Holotype: not designated. Taxonomic junior synonym: *Pithonella multicava*, according to Villain (1977, p.146). Andri (1972, p.22) considered this species to be a possible taxonomic synonym of *Cadosinella gracillimoides* (Appendix A) and *Pithonella caucasica*. As this name was published under the I.C.Z.N., it can be considered valid even though it lacks a holotype. Age: late Cenomanian–?early Turonian.

"*piriformis*" Keupp, 1977, p.66–67, pl.23, figs.1–5; text-fig.7. Holotype: information not available. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Tithonian.

"*porata*" Keupp, 1982, p.316–318, pl.6.2–2, fig.12; pl.6.2–3, figs.1–4,10. Holotype: Keupp, 1982, pl.6.2–3, figs.1–2. **NOW** ?*Orthopithonella*. Originally *Pithonella*, subsequently *Orthopithonella*, thirdly (and now) ?*Orthopithonella*. Age: early Barremian–early Albian.

"*porosa*" Pflaumann and Krasheninnikov, 1978, p.820, pl.2, figs.44a–b,5a–c,6a–b,7; pl.3, figs.1a–b,2a–b,3. Holotype: Pflaumann and Krasheninnikov, 1978, pl.2, figs.4a–b. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Albian–Cenomanian.

"forma *obturata*" Pflaumann and Krasheninnikov, 1978, p.820, pl.3, figs.1a–b,2a–b,3. Holotype: Pflaumann and Krasheninnikov, 1978, pl.3, figs.1a–b. **NOW** *Pirumella porosa* subsp. *obturata*. Originally *Pithonella porosa* forma *obturata*, subsequently *Obliquipithonella porosa* subsp. *obturata*, thirdly (and now) *Pirumella porosa* subsp. *obturata*. Age: latest Albian–Cenomanian.

"forma *porosa*". Autonym. Holotype: Pflaumann and Krasheninnikov, 1978, pl.2, figs.4a–b. **Now redundant**. Originally *Pithonella porosa* forma *porosa*, subsequently *Obliquipithonella porosa* forma *porosa*.

"*pycnothecata*" Keupp, 1978, p.94, figs.11–12. Holotype: Keupp, 1978, fig.11. **NOW** ?*Orthopithonella*. Originally *Pithonella*, subsequently *Orthopithonella*, thirdly (and now) ?*Orthopithonella*. Taxonomic senior synonym: *Pithonella* (as and now *Orthopithonella*) *gustafsonii*, according to Willems (1988, p.437) — however, Kohring (1993a, p.35) retained *Pithonella* (as and now *Orthopithonella*) *pycnothecata*. Age: Tithonian.

pyramidalis Willems, 1995a, p.63,65–66, pl.2, figs.1–7. Holotype: Willems, 1995a, pl.2, figs.1,4–6. Age: latest early Campanian–earliest late Campanian.

"*quiltyi*" Bolli, 1974, p.855–856, pl.6, figs.1–4; pl.17, figs.1–12; pl.23, fig.4. Holotype: Bolli, 1974, pl.6, fig.1; pl.23, fig.4. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Albanian.

"*robinsonii*" Bolli, 1974, p.854, pl.4, figs.5–8; pl.13, figs.8–12; pl.14, figs.1–3; pl.22, fig.5. Holotype: Bolli, 1974, pl.4, figs.5–6; pl.13, figs.8–9; pl.22, fig.5. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Taxonomic junior synonym: *Pithonella trilamellata*, according to Keupp (1982, p.325). Age: Albanian.

"subsp. *coalita*" Keupp, 1979a, p.27, pl.4, figs.9–10. Holotype: Keupp, 1979a, pl.4, figs.9–10. **NOW** *Pirumella robinsonii* subsp. *coalita*. Originally *Pithonella robinsonii* subsp. *coalita*, subsequently *Obliquipithonella robinsonii* subsp. *coalita*, thirdly (and now) *Pirumella robinsonii* subsp. *coalita*. Age: early Barremian.

"subsp. *robinsonii*". Autonym. Holotype: Bolli, 1974, pl.4, figs.5–6; pl.13, figs.8–9; pl.22, fig.5. **NOW** *Pirumella robinsonii* subsp. *robinsonii*. Originally *Pithonella robinsonii* subsp. *robinsonii*, subsequently *Obliquipithonella robinsonii* subsp. *robinsonii*, thirdly (and now) *Pirumella robinsonii* subsp. *robinsonii*.

"*rockeri*" Bolli, 1974, p.854, pl.3, figs.5–8; pl.12, figs.4–6; pl.22, fig.2. Holotype: Bolli, 1974, pl.3, fig.5; pl.22, fig.2. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: ?late Aptian–middle Albanian.

"*sheilasantawae*" Bolli, 1974, p.854–855, pl.4, figs.9–12; pl.14, figs.4–9; pl.22, fig.6. Holotype: Bolli, 1974, pl.4, figs.9–10; pl.14, figs.7–8; pl.22, fig.6. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly *Pirumella*. **Taxonomic senior synonym:** *Pithonella* (now *Pirumella*) *nonarenziae*, according to Zügel (1994, p.66). Taxonomic junior synonym: *Thoracosphaera thoracata*, according to Keupp (1981, p.63). Age: Albanian.

"*siniformis*" Řehánek and Mišík, 1991, p.113–114, 116, pl.1, figs.1–9; text-figs.2,3A. Holotype: Řehánek and Mišík, 1991, pl.1, fig.1. Age: Campanian.

"*sliteri*" (Bolli, 1980, p.528, pl.5, figs.1–12; pl.6, figs.1–6) Keupp, 1982, p.334–335. Holotype: Bolli, 1980, pl.5, figs.1–2. **NOW** *Pirumella*. Originally (and now) *Pirumella*, subsequently *Pithonella*, thirdly *Obliquipithonella*. Taxonomic junior synonym (at specific rank): *Pithonella* (subsequently *Pirumella*) *patriciagreeleyae* subsp. *ovata*, according to Keupp (1982, p.334). Age: late Hauterivian.

"*sphaerica*" (Kaufmann in Heer, 1865, p.196, figs.104, 106a–b) Zügel, 1994, p.17. Holotype: not designated. Originally *Lagena* (Appendix A), subsequently *Stomiosphaera*, thirdly *Palinosphaera* (generic name not validly published), fourthly (and now) *Pithonella*. Taxonomic senior synonym: *Lagena* (now *Pithonella*) *ovalis*, according to Lorenz (1902, p.46) — however, Bonet (1956, p.450) and Wendler et al. (2013, p.1098) retained *Lagena* (as *Stomiosphaera*) *sphaerica*. Taxonomic junior synonym: *Lagena orbularia*, according to Bonet (1956, p.450). This combination was not validly published in Villain (1977, p.147), Masters and Scott (1978, caption to pl.1, fig.3 — p.216), Bolli (1978a, p.822), Keupp (1987, p.52), Willems (1992, p.164), Kohring (1993a, p.95), and Monnet (1993, p.45), since these authors did not fully reference the basionym. Villain (1977, p.147) included the prasinophyte name *Pleurozonaria globulus* Wetzel, 1933b in synonymy with this species, but apparently he did not intend to implicate the holotype of *Pleurozonaria globulus*. Age: late Cenomanian–Turonian (based on later studies by Bolli — P. Hochuli, personal communication).

"*spinosa*" (Keupp, 1979a, p.17–18, pl.1, fig.6) Keupp, 1981, p.65. Holotype: Keupp, 1979a, pl.1, fig.6. **NOW** *Pirumella*. Originally *Thoracosphaera*, subsequently *Pithonella*, thirdly *Obliquipithonella*, fourthly (and now) *Pirumella*. Age: early Barremian.

"*squalida*" Krasheninnikov and Basov, 1983, p.982, pl.4, figs.1–8. Holotype: Krasheninnikov and Basov, 1983, pl.4, figs.3–4, 6. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: earliest late Cenomanian.

"*squamosa*" Krasheninnikov and Basov, 1983, p.983, pl.6, figs.1–6. Holotype: Krasheninnikov and Basov, 1983, pl.6, figs.3,5. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Albian.

"*strobila*" (Keupp, 1979a, p.18, pl.2, figs.1–3) Keupp, 1981, p.64. Holotype: Keupp, 1979a, pl.2, figs.1–2. **NOW** *Pirumella*. Originally *Thoracosphaera*, subsequently *Pithonella*, thirdly *Obliquipithonella*, fourthly (and now) *Pirumella*. Age: early Barremian.

"*tanyphloia*" Keupp, 1979a, p.29–30, pl.6, figs.1–8. Holotype: Keupp, 1979a, pl.6, figs.1–3. **NOW** *Pirumella multistrata* forma *tanyphloia*. Originally *Pithonella tanyphloia*, subsequently *Obliquipithonella tanyphloia*, thirdly *Pirumella tanyphloia*, fourthly (and now) *Pithonella multistrata* forma *tanyphloia*. Taxonomic junior synonym: *Pithonella woodburyensis*, according to Keupp (1981, p.36–38). Age: early Barremian.

"*thayeri*" Bolli, 1974, p.853, pl.1, figs.9–12; pl.8, figs.9–12; pl.9, figs.1–12; pl.21, fig.3. Holotype: Bolli, 1974, pl.1, fig.9; pl.21, fig.3. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Taxonomic junior synonyms: *Pithonella edithvincentiae*, *Pithonella guttula*, *Pirumella helentappaniae* and *Pithonella oviformis*, all according to Keupp (1981, p.43–44). Age: Oxfordian–Tithonian.

"*titanoplax*" Rögl, 1976, p.701–702, pl.1, figs.5–9; pl.2, figs.5–8. Holotype: Rögl, 1976, pl.1, fig.5; pl.2, figs.5–6. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Taxonomic senior synonym: *Pithonella* (now *Pirumella*) *edgarii*, according to Keupp (1981, p.64) — however, Kohring (1993a, p.74) retained *Pithonella* (as *Obliquipithonella*, now *Pirumella*) *titanoplax*. Age: Danian.

"*tithonica*" Keupp, 1978, p.90,92, figs.7–10. Holotype: Keupp, 1978, fig.7. Originally *Pithonella*, subsequently *Orthopithonella*. **Taxonomic senior synonym:** *Pithonella* (as and now *Orthopithonella*) *gustafsonii*, according to Willems (1988, p.437). Age: Tithonian.

"*transitoria*" Krasheninnikov and Basov, 1983, p.983, pl.7, figs.1–6. Holotype: Krasheninnikov and Basov, 1983, pl.7, figs.1,6. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Campanian.

trejoi Bonet, 1956, p.459–461, pl.27, figs.1–part,2. Holotype: not designated. Originally (and now) *Pithonella*, subsequently *Andriella*. This species was retained in *Pithonella* by implication in Wendler et al. (2013) when they considered *Andriella* to be a taxonomic junior synonym of *Pithonella*. As this name was published under the I.C.Z.N., it can be considered valid even though it lacks a holotype. Age: late Albian–Turonian.

"*trilamellata*" Pflaumann and Krasheninnikov, 1978, p.821, pl.6, figs.3a–c,4a–b,5a–c,7a–b; pl.7, figs.1a–c,2. Holotype: Pflaumann and Krasheninnikov, 1978, pl.6, figs.3a–c. **Taxonomic senior synonym:** *Pithonella* (now *Pirumella*) *robinsonii*, according to Keupp (1982, p.325). Age: Valanginian–?Aptian–Albian.

"*tuberculata*" Pflaumann and Krasheninnikov, 1978, p.820–821, pl.1, figs.7a–c,8. Holotype: Pflaumann and Krasheninnikov, 1978, pl.1, figs.7a–c. **NOW** *Alasphaera*. Originally *Pithonella*, subsequently (and now) *Alasphaera*. Taxonomic junior synonyms: *Alasphaera verrucosa*, according to Keupp (1981, p.55); *Alasphaera caudata*, according to Monnet (1993, p.41), who considered *Alasphaera caudata* to be the senior name. Age: late Valanginian–early Hauterivian.

"*usherii*" Krasheninnikov and Basov, 1983, p.983, pl.7, figs.7–9; pl.8, figs.1–2. Holotype: Krasheninnikov and Basov, 1983, pl.7, fig.7; pl.8, fig.1. **NOW** *Pirumella*. Originally *Pithonella*, subsequently *Obliquipithonella*, thirdly (and now) *Pirumella*. Age: Maastrichtian.

"*veeversii*" Bolli, 1974, p.855, pl.5, figs.9–12; pl.16, figs.5–12; pl.23, fig.3. Holotype: Bolli, 1974, pl.5, figs.9–10; pl.23, fig.3. **NOW** ?*Orthopithonella*. Originally *Pithonella*, subsequently *Orthopithonella*, thirdly (and now) ?*Orthopithonella*. Age: Albian.

velardei Trejo, 1983, p.9–10, pl.56, figs.2–6; pl.57, fig.1; pl.59, fig.5. Holotype: Trejo, 1983, pl.56, fig.2. Age: Late Cretaceous.

"*williamsonii*" (Bolli, 1978b, p.912–913, pl.2, figs.1–12; pl.3, figs.1–12) Keupp, 1981, p.65. Holotype: Bolli, 1978b, pl.2, figs.1–3. **NOW** *Pirumella*. Originally *Bonetocardiella*, subsequently *Pithonella*, thirdly *Obliquipithonella*, fourthly *Orthopithonella*, fifthly (and now) *Pirumella*. Age: Oxfordian–Kimmeridgian.

"*woodburyensis*" Olsson and Youssefnia, 1979, p.1091, pl.1, fig.11; pl.2, figs.1–6. Holotype: Olsson and Youssefnia, 1979, pl.2, fig.3. **Taxonomic senior synonym:** *Pithonella* (now *Pirumella*) *tanyphloia*, according to Keupp (1981, p.36–38). Taxonomic senior synonym (at specific rank): *Pithonella carteri* (now *Pirumella multistrata* forma *carteri*), according to Kohring (1993a, p.65). Age: Santonian–Campanian.

"**PLANINOSPHERIDIUM**" Eisenack, 1965b, p.151. **Taxonomic senior synonym:** *Pentadinium*, according to Stover and Evitt (1978, p.179–180). Taxonomic junior synonym: *Ataxiodinium*, by implication in Wall et al. (1977, p.149), who transferred the "type species" of *Ataxiodinium*, *Ataxiodinium choane*, to *Planinosphaeridium* — however, Edwards and Andrlé (1992, p.265) retained *Ataxiodinium*. Type: Eisenack, 1965b, pl.14, fig.4; text-fig.1, as *Planinosphaeridium membranaceum*.

"*choane*" (Reid, 1974, p.588–589, pl.1, figs.1–2) Wall et al., 1977, p.149. Holotype: Reid, 1974, pl.1, figs.1–2; Fensome et al., 1993a, figs.1–2 — p.1053. **NOW** *Ataxiodinium*. Originally (and now) *Ataxiodinium*, subsequently *Planinosphaeridium*. Taxonomic senior synonym: *Planinosphaeridium* (now *Pentadinium*) *membranaceum*, according to Dale (1976, p.45; footnote to table II) — however, Edwards and Andrlé (1992, p.265) retained *Ataxiodinium choane*. N.I.A. Age: Holocene.

"**membranaceum*" Eisenack, 1965b, p.151, pl.14, fig.4; pl.15, fig.6; text-fig.1. Holotype: Eisenack, 1965b, pl.14, fig.4; text-fig.1; Jan du Chêne et al., 1986a, pl.80, figs.4–7. **NOW** *Pentadinium*. Originally *Planinosphaeridium*, subsequently (and now) *Pentadinium*. Taxonomic junior synonym: *Ataxiodinium choane*, according to Dale (1976, p.45; footnote to table II) — however, Edwards and Andrlé (1992, p.265) retained *Ataxiodinium choane*. Motile equivalent: *Gonyaulax spinifera* (Claparède and Lachmann, 1859) Diesing, 1866, according to Dale (1976, table 2 — p.45). Age: late Eocene–early Oligocene.

PLANOPERIDINIUM de Coninck, 1986b, p.18. Type: de Coninck, 1986b, pl.8, figs.1–3, as *Planoperidinium gracile*.

**gracile* de Coninck, 1986b, p.18, pl.6, fig.44; pl.8, figs.1–10. Holotype: de Coninck, 1986b, pl.8, figs.1–3; Fensome et al., 1995, figs.1–3 — p.1521. Age: Rupelian.

"**PLETHYSYRINX**" Sarjeant, 1981, p.106. **Taxonomic senior synonym:** *Disphaerogena*, by implication in Stover and Williams (1987, p.179), who considered *Plethysyrinx* to be a taxonomic junior synonym of *Cyclapophysis*, which is now considered to be a taxonomic junior synonym of *Disphaerogena*. Type: Corradini, 1973, pl.22, fig.5, as *Cordosphaeridium lemniscatum*.

"*lata*" (Klumpp, 1953, p.392, pl.18, figs.8–10) Sarjeant, 1981, p.106. Emendation: Sarjeant, 1981, p.106–107, as *Plethysyrinx lata* — however, see Lentin and Williams (1985, p.72). Holotype: Klumpp, 1953, pl.18, figs.8–9. **NOW** *Cordosphaeridium latum*. Originally *Hystrichosphaeridium diktyoplokum* subsp. *latum*, subsequently *Cordosphaeridium diktyoplokum* subsp. *latum*, thirdly *Areosphaeridium diktyoplokum* subsp. *latum*, fourthly *Plethysyrinx lata*, fifthly (and now) *Cordosphaeridium latum*. Age: Eocene.

"**lemniscata*" (Corradini, 1973, p.152–153, pl.22, figs.4a–b,5; pl.33, figs.2,4; pl.39, fig.2) Sarjeant, 1981, p.106. Holotype: Corradini, 1973, pl.22, fig.5; Fensome et al., 1995, fig.3 — p.1601. **NOW** *Disphaerogena*. Originally *Cordosphaeridium*, subsequently *Cordosphaeridium?*, thirdly *Plethysyrinx*, fourthly *Cyclapophysis*, fifthly (and now) *Disphaerogena*. Age: Late Cretaceous–Paleocene.

PLURIARVALIUM Sarjeant, 1962b, p.260. Taxonomic senior synonym: *Pareodinia*, according to Wiggins (1975, p.102) — however, Stover and Evitt (1978, p.119) retained *Pluriarvalium*. Type: Sarjeant, 1962b, pl.1, fig.5, as *Pluriarvalium osmingtonense*.

**osmingtonense* Sarjeant, 1962b, p.262, pl.1, fig.5; text-fig.6. Holotype: Sarjeant, 1962b, pl.1, fig.5. Originally (and now) *Pluriarvalium*, subsequently *Pareodinia*. Stover and Evitt (1978, p.119) retained this species in *Pluriarvalium*. Age: late Oxfordian.

subsp. *osmingtonense*. Autonym. Holotype: Sarjeant, 1962b, pl.1, fig.5. Originally *Pareodinia osmingtonensis* subsp. *osmingtonensis*, subsequently (and now) *Pluriarvalium osmingtonense* subsp. *osmingtonense*.

subsp. *rostratum* (Wiggins, 1975, p.106–107, pl.5, figs.1–2) Stover and Evitt, 1978, p.119. Holotype: Wiggins, 1975, pl.5, fig.1. Originally *Pareodinia osmingtonensis* subsp. *rostrata*, subsequently (and now) *Pluriarvalium osmingtonense* subsp. *rostratum*. Age: Late Jurassic.

"**POCOCKIA**" Lentin and Williams, 1973, p.114. Substitute name for *Evittia* Pocock, 1972, p.93 (an illegitimate name). **Taxonomic senior synonym:** *Ovoidinium*, according to Lentin and Williams (1976, p.162; 1989, p.269). Taxonomic senior synonym: *Ascodinium*, according to Helenes (1983, p.258) — however *Ovoidinium* is now generally retained, with *Deflandrea* (as *Ovoidinium*) *cincta* assigned to it. Type: Cookson and Eisenack, 1958, pl.4, fig.3, as *Deflandrea cincta*.

*"*cincta*" (Cookson and Eisenack, 1958, p.26, pl.4, figs.1–3) Lentin and Williams, 1973, p.114. Holotype: Cookson and Eisenack, 1958, pl.4, fig.3. **NOW** *Ovoidinium*. Originally *Deflandrea*, subsequently *Evittia* Pocock (combination illegitimate), thirdly *Pocockia*, fourthly (and now) *Ovoidinium*, fifthly *Ascodinium*. Age: late Neocomian–early Aptian.

"*waltonii*" (Pocock, 1972, p.93, pl.22, figs.13–14) Lentin and Williams, 1973, p.114. Holotype: Pocock, 1972, pl.22, fig.14. **NOW** *Ovoidinium*. Originally *Evittia* Pocock (generic name illegitimate), subsequently *Pocockia*, thirdly (and now) *Ovoidinium*, fourthly *Ascodinium*. The stratigraphic range is as given by Jansonius (1986, p.202). Age: ?Toarcian–?Bajocian.

POLYGONIFERA Habib, 1972, p.376. Emendation: Mehrotra and Sarjeant, 1984c, p.46. Taxonomic junior synonyms: *Ambonosphaera*, according to Brenner (1988, p.68) — however, Prauss (1989, p.31) retained *Ambonosphaera*; *Leberidocysta*, according to Mehrotra and Sarjeant (1984c, p.46) — however, Lentin and Williams (1985, p.214) retained *Leberidocysta*. Type: Habib, 1972, pl.5, figs.1a–b, as *Polygonifera evittii*.

?*aspera* Dodekova, 1990, p.40–41, pl.4, figs.3,11–16. Holotype: Dodekova, 1990, pl.4, fig.13. Questionable assignment: Dodekova (1990, p.40). Age: middle Callovian.

bavarica (Lund and Ecke, 1988, p.348,351, pl.1, figs.2a–b,4; text-figs.3a–b) Stancliffe, 1991, p.190. Holotype: Lund and Ecke, 1988, pl.1, figs.2a–b; text-fig.3a. Originally *Ambonosphaera*, subsequently (and now) *Polygonifera*. Dodekova (1992, p.46) also proposed this combination. Age: ?late middle Oxfordian.

"*calloviana*" (Fensome, 1979, p.51–54, pl.7, figs.3,5–6,8–9; text-figs.16A–D,17A–B) Brenner, 1988, p.69. Holotype: Fensome, 1979, pl.7, figs.3,6,9; text-figs.16B–C; Fensome et al., 1993a, figs.1–3,7–8 — p.1007. **NOW** *Ambonosphaera*. Originally (and now) *Ambonosphaera*, subsequently *Polygonifera*. Age: early Callovian.

"*chlamydata*" (Cookson and Eisenack, 1962b, p.496, pl.7, figs.1–3,5–8) Mehrotra and Sarjeant, 1984c, p.48. Emendations: Fechner, 1985, p.119 and Marheinecke, 1992, p.88, both as *Leberidocysta chlamydata*. Holotype: Cookson and Eisenack, 1962b, pl.7, fig.2. **NOW** *Leberidocysta*. Originally *Hexagonifera*, subsequently *Hexagonifera?*, thirdly (and now) *Leberidocysta*, fourthly *Polygonifera*. Age: Albian–Cenomanian.

"*eisenackii*" Mehrotra and Sarjeant, 1984c, p.46–48, pl.1, figs.1–7; pl.2, figs.1–7; text-figs.1a–d,2a–c,3a–b. Holotype: Mehrotra and Sarjeant, 1984c, pl.1, fig.6; text-fig.1c. **NOW** *Platycystidia* (Appendix A). Originally *Polygonifera*, subsequently *Leberidocysta*?, thirdly (and now) *Platycystidia* (Appendix A). Age: Aptian.

**evittii* Habib, 1972, p.376, pl.5, figs.1a–b,2. Holotype: Habib, 1972, pl.5, figs.1a–b; Fensome et al., 1993a, figs.1–2 — p.1159. Age: Oxfordian–Kimmeridgian.

"*staffinensis*" (Gitmez, 1970, p.276–278, pl.3, fig.1; text-figs.20A–B) Davey, 1982b, p.31. Emendation: Poulsen and Riding, 1992, p.26, as *Ambonosphaera?* *staffinensis*. Holotype: Gitmez, 1970, pl.3, fig.1; text-figs.20A–B; Poulsen and Riding, 1992, pl.1, fig.6; text-figs.1A–B. **NOW** *Ambonosphaera?*. Originally *Meiourogonyaulax*, subsequently *Lithodinia*, thirdly *Polygonifera*, fourthly (and now) *Ambonosphaera?*, fifthly *Lithodinia?*. Taxonomic junior synonyms: *Senoniasphaera?* *frisica*, according to Poulsen and Riding (1992, p.26); *Hexagonifera* (now *Senoniasphaera*) *jurassica*, according to Williams et al. (1993, p.32) — however, elsewhere in the same publication, Williams et al. (1993, p.56) retained *Hexagonifera* (now *Senoniasphaera*) *jurassica*. Age: early Kimmeridgian.

POLYSPHAERIDIUM Davey and Williams, 1966b, p.91–92. Emendation: Bujak et al., 1980, p.32,34. Taxonomic senior synonym: *Pyrodinium* Plate, 1906, an extant dinoflagellate genus, according to Fensome et al. (1993b, p.111) — however, Head (1996b, p.1231) retained *Polysphaeridium*. Taxonomic junior synonym: *Hemicystodinium*, according to Bujak et al. (1980, p.34). Type: Davey and Williams, 1966b, pl.11, fig.1, as *Polysphaeridium subtile*.

"?*amalthei*" (Wetzel, 1966, p.317, pl.31, figs.2,2a–b) Riley and Sarjeant, 1972, p.2. Holotype: Wetzel, 1966, pl.31, figs.2,2a. **NOW** *Dapsilidinium?*. Originally *Hystrichosphaeridium*, subsequently *Polysphaeridium*, thirdly *Polysphaeridium?*, fourthly (and now) *Dapsilidinium?*. Questionable assignment: Stover and Evitt (1978, p.76). Age: late Toarcian.

"*ambiguum*" (Deflandre, 1937b, p.81, pl.16 [al. pl.13], figs.8–9) Yun Hyesu, 1981, p.44. Holotype: Deflandre, 1937b, pl.16 (al. pl.13), fig.8; Fauconnier and Masure, 2004, pl.71, figs.6–7. **NOW** *Sepispinula?*. Originally *Micrhystridium* (Appendix A), subsequently *Cleistosphaeridium*, thirdly *Polysphaeridium*, fourthly *Chlamydophorella*, fifthly *Dapsilidinium*, sixthly *Gorgonisphaeridium* (Appendix A), seventhly (and now) *Sepispinula?*. Taxonomic junior synonyms: *Hystrichosphaeridium* (now *Sepispinula?*) *huguoniotii*, according to Clarke and Verdier (1967, p.54) and *Hystrichosphaeridium* (now *Sepispinula*) *ancoriferum*, both according to Yun Hyesu (1981, p.44) and Schiøler and Wilson (1998, p.328) — however, Masure in Fauconnier and Masure (2004, p.499–500) retained *Sepispinula ancorifera* and *Sepispinula?* *huguoniotii*. Age: Late Cretaceous.

asperum (Maier, 1959, p.319, pl.33, fig.2) Davey and Williams, 1969, p.6. Emendation: Sarjeant, 1983, p.113–114, as *Polysphaeridium asperum*. Holotype: Maier, 1959, pl.33, fig.2. Originally *Hystrichosphaeridium*, subsequently *Polysphaeridium?*, thirdly *Dapsilidinium*, fourthly (and now) *Polysphaeridium*. Questionable assignment: Davey and Williams (1969, p.6) — however, Sarjeant (1983, p.113–114) retained this species in *Polysphaeridium* without question. This combination, as a questionable assignment, was not validly published in Davey and Williams (1966b, p.95), since these authors did not fully reference the basionym. Age: middle Miocene.

"*assamicum*" Mehrotra, 1983, p.18, pl.5, figs.4,8–9. Holotype: Mehrotra, 1983, pl.5, fig.4. **NOW** *Dapsilidinium*. Originally *Polysphaeridium*, subsequently (and now) *Dapsilidinium*. This name was not validly published in Mehrotra and Sah (1982, p.129; pl.3, figs.1–2), since these authors did not provide a description. Age: Early Tertiary.

belgicum Sarjeant, 1969, p.15. Holotype: Pastiels, 1948, pl.3, fig.16, as *Hystrichosphaeridium fluctuans*, lost according to Sarjeant (1986, p.18). Originally (and now) *Polysphaeridium*, subsequently *Polysphaeridium?*, thirdly *Dapsilidinium?*. Questionable assignment: Stover and Evitt (1978, p.76) — however, Sarjeant (1986, p.18) retained this species in *Polysphaeridium* without question. Sarjeant (1969, p.15) based this species on material described by Pastiels (1948, p.40, pl.3, fig.16) as *Hystrichosphaeridium fluctuans*. Age: early Eocene.

biformum Islam, 1983b, p.342–343, pl.4, figs.3,6. Holotype: Islam, 1983b, pl.4, fig.6. Age: middle Eocene.

"?*caminuspinum*" (Wall, 1965a, p.165, pl.9, fig.4) Riley and Sarjeant, 1972, p.3. Holotype: Wall, 1965a, pl.9, fig.4. **NOW** *Beaumontella*?. Originally *Hystrichosphaeridium*, subsequently *Polysphaeridium*?, thirdly *Dapsilidinium*?, fourthly (and now) *Beaumontella*?. Questionable assignment: Riley and Sarjeant (1972, p.3). Taxonomic junior synonym: *Cleistosphaeridium mojsisovicsii*, according to Below (1987a, p.70). Age: early Sinemurian.

"*cephalum*" Kar, 1979, p.34, pl.4, figs.66a–b,67. Holotype: Kar, 1979, p.34, pl.4, figs.66a–b,67. Originally *Polysphaeridium*, subsequently *Sumatradinium*, thirdly *Batiacasphaera*?. **Taxonomic senior synonym:** *Operculodinium placitum*, according to Jain and Garg (1991, p.81). N.I.A. Age: Oligocene.

"*chems*" Below, 1982c, p.27–28, pl.2, figs.8a–b; text-fig.6b. Holotype: Below, 1982c, pl.2, figs.8a–b; Fauconnier and Masure, 2004, pl.19, figs.12–13. **NOW** *Dapsilidinium*. Originally *Polysphaeridium*, subsequently (and now) *Dapsilidinium*. N.I.A. Age: late Hauterivian.

congregatum (Stover, 1977, p.79, pl.3, figs.39–44) Bujak et al., 1980, p.34. Holotype: Stover, 1977, pl.3, figs.39–42. Originally *Hemicystodinium*, subsequently (and now) *Polysphaeridium*. Age: middle Oligocene.

"?*conispinum*" (Davey and Verdier, 1973, p.193–194, pl.4, figs.4,6,8–9) Stover and Evitt, 1978, p.76. Emendation: Lucas-Clark, 1984, p.187, as *Litosphaeridium conispinum*. Holotype: Davey and Verdier, 1973, pl.4, fig.8. **NOW** *Litosphaeridium*. Originally (and now) *Litosphaeridium*, subsequently *Polysphaeridium*?, thirdly *Dapsilidinium*?. Questionable assignment: Stover and Evitt (1978, p.76) as a problematic species. Age: late Albian.

"?*daveyi*" Boltenhagen, 1977, p.37–38,40, pl.2, figs.3–4. Holotype: Boltenhagen, 1977, pl.2, fig.3; Fauconnier and Masure, 2004, pl.20, fig.3. **NOW** *Dapsilidinium*. Originally *Polysphaeridium*?, subsequently (and now) *Dapsilidinium*. Questionable assignment: Boltenhagen (1977, p.37). Age: late Cenomanian–Turonian.

"?*deflandrei*" (Valensi, 1947, p.817; text-fig.3) Davey and Williams, 1969, p.6. Holotype: Valensi, 1947, text-fig.3; Fauconnier and Masure, 2004, pl.21, figs.1–4. **NOW** *Dapsilidinium*?. Originally *Hystrichosphaeridium*, subsequently *Polysphaeridium*?, thirdly (and now) *Dapsilidinium*?. Questionable assignment: Davey and Williams (1969, p.6). This combination, as a questionable assignment, was not validly published in Davey and Williams (1966b, p.95), since these authors did not fully reference the basionym. Age: Middle Jurassic.

"*duma*" Below, 1982c, p.28, pl.2, figs.9a–b,10a–b,11–12; text-fig.6a. Holotype: Below, 1982c, pl.2, figs.9a–b; Fauconnier and Masure, 2004, pl.19, figs.14–15. **NOW** *Dapsilidinium*. Originally *Polysphaeridium*, subsequently (and now) *Dapsilidinium*. N.I.A. Age: Hauterivian–Albian.

"?*elegantulum*" (Lejeune-Carpentier, 1940, p.B222; text-figs.11–12) Davey and Williams, 1966b, p.95. Holotype: Lejeune-Carpentier, 1940, text-fig.11; Lejeune-Carpentier and Sarjeant, 1981, pl.4, figs.3–4. **Combination not validly published:** basionym not fully referenced. Originally *Hystrichosphaeridium*, subsequently *Polysphaeridium*?. Questionable assignment: Davey and Williams (1966b, p.95). **Taxonomic senior synonym:** *Xanthidium* (now *Oligosphaeridium*) *complex*, according to Deflandre (1946b, p.111). Age: Turonian–Senonian.

"?*elongatum*" Jain and Millepied, 1975, p.150–151, pl.5, figs.73–74. Holotype: Jain and Millepied, 1975, pl.5, fig.74. **NOW** *Exochosphaeridium*. Originally *Polysphaeridium*, subsequently *Polysphaeridium*?, thirdly *Dapsilidinium*?, fourthly (and now) *Exochosphaeridium*. Questionable assignment: Stover and Evitt (1978, p.76). Age: Maastrichtian.

"?*fabium*" (Tasch in Tasch et al., 1964, p.195, pl.2, fig.5) Davey and Williams, 1969, p.6. Holotype: Tasch et al., 1964, pl.2, fig.5. Originally *Hystrichosphaeridium*, subsequently *Polysphaeridium*?. Questionable assignment: Davey and Williams (1969, p.6). **Taxonomic senior synonym:** *Hystrichosphaeridium* (as and now *Kiokansium*) *unituberculatum*, according to Stover and Evitt (1978, p.76). This combination, as a questionable assignment, was not validly published in Davey and Williams (1966b, p.95), since these authors did not fully reference the basionym. Age: Albian.

"?*flexuosum*" (Davey et al., 1966, p.169, pl.2, fig.5) Below, 1982c, p.28. Emendation: Sarkar and Singh, 1988, p.39, as *Cleistosphaeridium flexuosum*. Holotype: Davey et al., 1966, pl.2, fig.5; Fauconnier and Masure, 2004, pl.23, fig.8. **NOW** *Downiesphaeridium*. Originally *Cleistosphaeridium*?, subsequently *Polysphaeridium*?, thirdly

Cleistosphaeridium, fourthly (and now) *Downiesphaeridium*. Questionable assignment: Below (1982c, p.28). Age: Cenomanian.

"*?fluctuans*" (Eisenack, 1938c, p.230–231, pl.16, figs.1–3) Davey and Williams, 1966b, p.95. Holotype: Eisenack, 1938c, pl.16, fig.3. **Name not validly published**: basionym not fully referenced. **NOW** *Baltisphaeridium* (Appendix A). Originally *Bion* (Appendix A), subsequently *Hystrichosphaeridium*, thirdly *Polysphaeridium?* (combination not validly published), fourthly (and now) *Baltisphaeridium* (Appendix A). Questionable assignment: Davey and Williams (1966b, p.95). Age: Silurian.

"*?follium*" (Tasch in Tasch et al., 1964, p.195, pl.1, fig.8) Davey and Williams, 1969, p.6. Holotype: Tasch et al., 1964, pl.1, fig.8. Originally *Hystrichosphaeridium*, subsequently *Polysphaeridium?*. **Taxonomic senior synonym**: *Hystrichosphaeridium* (as and now *Kiokansium*) *unituberculatum*, according to Stover and Evitt (1978, p.76). Questionable assignment: Davey and Williams (1969, p.6). This combination, as a questionable assignment, was not validly published in Davey and Williams (1966b, p.95), since these authors did not fully reference the basionym. Age: Albian.

"*?fucosum*" (Valensi, 1955a, p.40; text-fig.2b) Davey and Williams, 1969, p.6. Holotype: Valensi, 1955a, text-fig.2b; Fauconnier and Masure, 2004, pl.52, figs.8–11. **NOW** *Litosphaeridium*. Originally *Micrhystridium*, subsequently *Hystrichosphaeridium*, thirdly *Polysphaeridium?*, fourthly *Dapsilidinium?*, fifthly (and now) *Litosphaeridium*. Questionable assignment: Davey and Williams (1969, p.6). Taxonomic junior synonyms: *Hystrichosphaeridium tubiferum* var. *brevispinum*, according to Below (1982c, p.29) — however, Lentin and Williams (1985, p.190) retained *Hystrichosphaeridium tubiferum* var. *brevispinum* (as *Hystrichosphaeridium tubiferum* subsp. *brevispinum*); *Hystrichosphaeridium* (as and now *Litosphaeridium*) *arundum*, according to Below (1982c, p.29) — however, Lentin and Williams (1985, p.227) retained *Litosphaeridium arundum*. This combination, as a questionable assignment, was not validly published in Davey and Williams (1966b, p.95), since these authors did not fully reference the basionym. Age: Late Cretaceous.

"*?giganteum*" Caro, 1973, p.360–361, pl.2, fig.12. Holotype: Caro, 1973, pl.2, fig.12; Fauconnier and Masure, 2004, pl.49, figs.13–14. **NOW** *Exochosphaeridium*. Originally *Polysphaeridium*, subsequently *Cleistosphaeridium*, thirdly *Impletosphaeridium*, fourthly (and now) *Exochosphaeridium*. Age: early Eocene.

"*?granulosum*" Jain and Millepied, 1975, p.151–152, pl.5, figs.69–70. Holotype: Jain and Millepied, 1975, pl.5, fig.69. **NOW** *Pervosphaeridium?*. Originally *Polysphaeridium*, subsequently *Dapsilidinium*, thirdly (and now) *Pervosphaeridium?*. Age: Campanian–Maastrichtian.

"*?laminaspinosum*" Davey and Williams, 1966b, p.94–95, pl.8, fig.8. Holotype: Davey and Williams, 1966b, pl.8, fig.8; Fauconnier and Masure, 2004, pl.19, fig.16. **NOW** *Dapsilidinium*. Originally *Polysphaeridium*, subsequently (and now) *Dapsilidinium*. Age: Cenomanian.

"*?langii*" (Wall, 1965a, p.165, pl.6, figs.9–11; pl.9, fig.9) Riley and Sarjeant, 1972, p.3. Emendations: Morbey, 1975, p.41–42, as *Hystrichosphaeridium langii*; Below, 1987a, p.70–71, as *Beaumontella langii*. Holotype: Wall, 1965a, pl.6, fig.9; pl.9, fig.9; Fensome et al., 1995, figs.1–2 — p.1595. **NOW** *Beaumontella*. Originally *Hystrichosphaeridium*, subsequently *Polysphaeridium?*, thirdly *Dapsilidinium?*, fourthly (and now) *Beaumontella*. Questionable assignment: Riley and Sarjeant (1972, p.3). Age: Hettangian–early Sinemurian.

"*?majus*" (Lejeune-Carpentier, 1940, p.B220–B221; text-fig.13) Davey and Williams, 1969, p.6. Emendation: Lejeune-Carpentier and Sarjeant, 1981, p.12, as *Amphorosphaeridium majus*. Holotype: Lejeune-Carpentier, 1940, text-fig.13; Strel et al., 1977, pl.1, fig.7; Lejeune-Carpentier and Sarjeant, 1981, pl.2, figs.6–7; text-fig.7. **NOW** *Exochosphaeridium*. Originally *Hystrichosphaeridium*, subsequently *Polysphaeridium?*, thirdly *Cordosphaeridium*, fourthly *Dapsilidinium?* (combination not validly published), fifthly *Amphorosphaeridium*, sixthly (and now) *Exochosphaeridium*. Questionable assignment: Davey and Williams (1969, p.6). Taxonomic junior synonyms: *Baltisphaeridium* (as *Exochosphaeridium*) *bifidum* and *Exochosphaeridium bifidum* var. *involutum* (as *Exochosphaeridium bifidum* subsp. *involutum*), both according to Peyrot (2011, p.284). This combination, as a questionable assignment, was not validly published in Davey and Williams (1966b, p.95), since these authors did not fully reference the basionym. Age: Late Cretaceous.

"*marsupium*" (Tasch in Tasch et al., 1964, p.193, pl.3, fig.16) Davey and Williams, 1969, p.6. Holotype: Tasch et al., 1964, pl.3, fig.16. Originally *Hystrichosphaeridium*, subsequently *Polysphaeridium*?. Questionable assignment: Davey and Williams (1969, p.6). **Taxonomic senior synonym:** *Hystrichosphaeridium* (as and now *Kiokansium unituberculatum*, according to Stover and Evitt (1978, p.76). This combination, as a questionable assignment, was not validly published in Davey and Williams (1966b, p.95), since these authors did not fully reference the basionym. Age: Albian.

"*microtriainum*" (Klumpp, 1953, p.390, pl.17, figs.6–7) Kar, 1979, p.33. Emendation: Sarjeant, 1981, p.110–112, as *Achomosphaera microtriaina*. Holotype: Klumpp, 1953, pl.17, figs.6–7; Sarjeant, 1981, pl.2, figs.1–2; text-fig.2. **NOW** *Operculodinium*. Originally *Hystrichosphaeridium*, subsequently *Cordosphaeridium*, thirdly *Cordosphaeridium*?, fourthly *Polysphaeridium*, fifthly *Achomosphaera*, sixthly (and now) *Operculodinium*. Age: late Eocene.

"*multispinosum*" Davey, 1974, p.60, pl.7, fig.4. Holotype: Davey, 1974, pl.7, fig.4. **NOW** *Dapsilidinium*. Originally *Polysphaeridium*, subsequently (and now) *Dapsilidinium*. Age: early–late Barremian.

"*ornamentum*" Jain and Tandon, 1981, p.12–13, pl.2, fig.35. Holotype: Jain and Tandon, 1981, pl.2, fig.35. **NOW** *Operculodinium*. Originally *Polysphaeridium*, subsequently (and now) *Operculodinium*. Age: middle Eocene.

"*pachydermum*" (Cookson and Eisenack, 1960b, p.251–252, pl.38, fig.5; text-fig.5) Eisenack and Kjellström, 1975b, p.397 [al. p.922A]. Holotype: Cookson and Eisenack, 1960b, pl.38, fig.5; Fauconnier and Masure, 2004, pl.48, fig.10. **NOW** *Impletosphaeridium*. Originally *Hystrichosphaeridium*, subsequently *Polysphaeridium*, thirdly *Hystrichosphaeridium*?, fourthly *Dapsilidinium*, fifthly (and now) *Impletosphaeridium*. Age: Oxfordian–Tithonian.

parvum (Huang Tsengchieng, 1981, p.50, pl.2, figs.1–2) Lentin and Williams, 1993, p.533. Holotype: Huang Tsengchieng, 1981, pl.2, figs.1–2. Age: Miocene.

"*pastielsii*" Davey and Williams, 1966b, p.92–93, pl.4, fig.10. Holotype: Davey and Williams, 1966b, pl.4, fig.10; Eisenack and Kjellström, 1972, p.923; Bujak et al., 1980, pl.6, figs.6,9; Fensome et al., 1995, fig.1 — p.1647; Fauconnier and Masure, 2004, pl.19, figs.17–19. **NOW** *Dapsilidinium*. Originally *Polysphaeridium*, subsequently (and now) *Dapsilidinium*. Taxonomic junior synonym: *Polysphaeridium* (now *Dapsilidinium*) *pseudocolligerum* according to Mertens et al. (2014, p.532) — however, Fensome et al., in press retained *Dapsilidinium pseudocolligerum* as a separate species. Age: early Eocene.

"*paulinae*" (Valensi, 1953, p.48, pl.12, fig.6) Davey and Williams, 1969, p.6. Holotype: Valensi, 1953, pl.12, fig.6. **NOW** *Dapsilidinium*?. Originally *Micrhystridium* (Appendix A), subsequently *Hystrichosphaeridium*, thirdly *Polysphaeridium*?, fourthly (and now) *Dapsilidinium*?. Questionable assignment: Davey and Williams (1969, p.6). This combination, as a questionable assignment, was not validly published in Davey and Williams (1966b, p.95), since these authors did not fully reference the basionym. Age: Middle Jurassic.

"*perovatum*" (Tasch in Tasch et al., 1964, p.194, pl.3, fig.13) Davey and Williams, 1969, p.6. Holotype: Tasch et al., 1964, pl.3, fig.13. Originally *Hystrichosphaeridium*, subsequently *Polysphaeridium*?. **Taxonomic senior synonym:** *Hystrichosphaeridium* (as and now *Kiokansium unituberculatum*, according to Stover and Evitt (1978, p.76). Questionable assignment: Davey and Williams (1969, p.6). This combination, as a questionable assignment, was not validly published in Davey and Williams (1966b, p.95), since these authors did not fully reference the basionym. Age: Albian.

"*polypes*" (Cookson and Eisenack, 1962b, p.491–492, pl.4, figs.11–13) Davey and Williams, 1966b, p.95. Emendation: Duxbury, 1983, p.49, as *Kiokansium polypes*. Holotype: Cookson and Eisenack, 1962b, pl.4, figs.11–13; Fensome et al., 1996, figs.1–3 — p.2283. Originally *Hystrichosphaeridium recurvatum* subsp. *polypes*, subsequently *Polysphaeridium? polypes* (combination not validly published), thirdly *Cleistosphaeridium polypes*, fourthly *Bacchidinium polypes*, fifthly *Impletosphaeridium polypes*, sixthly *Kiokansium polypes*. Questionable assignment: Davey and Williams (1966b, p.95). **Taxonomic senior synonym** (at specific rank): *Hystrichosphaeridium* (as and now *Kiokansium unituberculatum*, by implication in Duxbury (1983, p.49), who considered *Hystrichosphaeridium recurvatum* subsp. *polypes* (as *Kiokansium polypes*) to be the senior name.

Taxonomic junior synonym: *Cleistosphaeridium? solidum*, according to Below (1982c, p.16). Age: Albian–Cenomanian.

"*pseudocolligerum*" Stover, 1977, p.74–75, pl.1, figs.14–19. Holotype: Stover, 1977, pl.1, figs.14–16. **NOW** *Dapsilidinium*. Originally *Polysphaeridium*, subsequently (and now) *Dapsilidinium*. Taxonomic senior synonym: *Polysphaeridium* (now *Dapsilidinium*) *pastielsii* according to Mertens et al. (2014, p.532) — however, Fensome et al., in press, retained *Dapsilidinium pseudocolligerum* as a separate species. Age: early Oligocene–early Miocene.

"*pumilum*" Davey and Williams, 1966b, p.93–94, pl.7, figs.3–4. Holotype: Davey and Williams, 1966b, pl.7, fig.3; Fauconnier and Masure, 2004, pl.20, fig.2. **NOW** *Dapsilidinium?*. Originally *Polysphaeridium*, subsequently *Polysphaeridium?*, thirdly (and now) *Dapsilidinium?*. Questionable assignment: Stover and Evitt (1978, p.76). Age: Cenomanian.

"*punctatum*" Jain and Millepied, 1975, p.151, pl.5, figs.71–72. Holotype: Jain and Millepied, 1975, pl.5, fig.72. **NOW** *Exochosphaeridium?*. Originally *Polysphaeridium*, subsequently *Polysphaeridium?*, thirdly *Dapsilidinium?*, fourthly (and now) *Exochosphaeridium?*. Questionable assignment: Stover and Evitt (1978, p.76). Age: Maastrichtian.

"*rhabdophorum*" (Valensi, 1955b, p.593, pl.3, fig.7) Davey and Williams, 1969, p.7. Holotype: Valensi, 1955b, pl.3, fig.7; Fauconnier and Masure, 2004, pl.20, figs.10–11. **NOW** *Exochosphaeridium*. Originally *Hystrichosphaeridium*, subsequently *Polysphaeridium?*, thirdly *Dapsilidinium?*, fourthly (and now) *Exochosphaeridium*. Questionable assignment: Davey and Williams (1969, p.7). This combination, as a questionable assignment, was not validly published in Davey and Williams (1966b, p.95), since these authors did not fully reference the basionym. Age: Late Cretaceous.

"*simplex*" (White, 1842, p.38, pl.4, fig.3, fig.10) Davey and Williams, 1969, p.7. Holotype: White, 1842, pl.4, fig.10. **NOW** *Dapsilidinium simplex*. Originally *Xanthidium tubiferum* var. *simplex* (Appendix A), subsequently *Xanthidium simplex* (Appendix A), thirdly *Hystrichosphaeridium simplex*, fourthly *Polysphaeridium? simplex*, fifthly (and now) *Dapsilidinium simplex*. Questionable assignment: Davey and Williams (1969, p.7). This combination, as a questionable assignment, was not validly published in Davey and Williams (1966b, p.95), since these authors did not fully reference the basionym. Age: Late Cretaceous.

**subtile* Davey and Williams, 1966b, p.92, pl.11, fig.1. Emendation: Bujak et al., 1980, p.34. Holotype: Davey and Williams, 1966b, pl.11, fig.1; Bujak et al., 1980, pl.3, figs.9,12. Taxonomic senior synonym: *Hystrichosphaeridium* (as and now *Polysphaeridium*) *zoharyi*, according to Islam (1983b, p.343) — however, Bujak in Lentin and Williams (1989, p.300) retained *Polysphaeridium subtile*. Taxonomic junior synonym: *Tenua* (as *Hemicystodinium?*) *taugourdeaui*, according to Lentin and Williams (1993, p.275). Age: early Eocene.

"subsp. *ktana*" (Rossignol, 1964, p.88, pl.2, figs.6–7,10; pl.3, fig.11) Islam, 1983b, p.343. Holotype: Rossignol, 1964, pl.2, fig.7. **NOW** *Polysphaeridium zoharyi* subsp. *ktana*. Originally *Hystrichosphaeridium zoharyi* var. *ktana*, subsequently *Hemicystodinium zoharyi* var. *ktana* (combination not validly published), thirdly *Hemicystodinium zoharyi* subsp. *ktana*, fourthly (and now) *Polysphaeridium zoharyi* subsp. *ktana*, fifthly *Polysphaeridium subtile* subsp. *ktana*. Taxonomic junior synonym (at subspecific rank): *Hystrichosphaeridium? breviatum*, according to Islam (1983b, p.343) — however, Masure and Foucher in Fauconnier and Masure (2004, p.309–310) retained *Hystrichosphaeridium? breviatum*. Age: Pleistocene.

"subsp. *subtile*". Autonym. Holotype: Davey and Williams, 1966b, pl.11, fig.1. **Now redundant.**

"*sulaimenii*" Beju, 1978, p.4. **Name not validly published:** no description or illustration. Questionable assignment: Beju (1978, p.4).

taiwanianum (Huang Tsengchieng, 1981, p.50, pl.2, figs.3–4) Lentin and Williams, 1993, p.535. Holotype: designated but not identified to an illustration. Age: Miocene.

tianshanense He Chengquan, 1991, p.129, pl.28, fig.13; text-fig.21. Holotype: He Chengquan, 1991, pl.28, fig.13; text-fig.21. Age: Paleocene.

"?*tribrachiosum*" (Tasch in Tasch et al., 1964, p.195, pl.1, fig.3) Davey and Williams, 1969, p.7. Holotype: Tasch et al., 1964, pl.1, fig.3. Originally *Hystrichosphaeridium*, subsequently *Polysphaeridium*?. Questionable assignment: Davey and Williams (1969, p.7). **Taxonomic senior synonym:** *Hystrichosphaeridium* (as and now *Kiokansium*) *unituberculatum*, according to Stover and Evitt (1978, p.76). This combination was not validly published in Davey and Williams (1966b, p.95), since these authors did not fully reference the basionym. Age: Albian.

"*trompetum*" Cookson and Eisenack, 1982, p.47, pl.4, fig.22. Holotype: Cookson and Eisenack, 1982, pl.4, fig.22. **NOW** *Cordosphaeridium*?. Originally *Polysphaeridium*, subsequently (and now) *Cordosphaeridium*?. N.I.A. Age: Paleocene.

variabile He Chengquan, 1991, p.129, pl.28, figs.14–15; pl.58, figs.5–6. Holotype: He Chengquan, 1991, pl.28, fig.15. Age: Paleocene.

"*warreni*" Habib, 1976, p.383, pl.2, figs.4,6a–b. Holotype: Habib, 1976, pl.2, figs.6a–b. **NOW** *Dapsilidinium*. Originally *Polysphaeridium*, subsequently (and now) *Dapsilidinium*. Age: Berriasian–Aptian?.

"*williamsii*" Boltenhagen, 1977, p.41–42, pl.2, figs.6–7. Holotype: Boltenhagen, 1977, pl.2, fig.6; Fauconnier and Masure, 2004, pl.50, fig.6. **NOW** *Impletosphaeridium*. Originally *Polysphaeridium*, subsequently *Cleistosphaeridium*?, thirdly (and now) *Impletosphaeridium*. Age: Cenomanian–early Turonian.

"*williereae*" Boltenhagen, 1977, p.42–43, pl.3, figs.3a–b,4–6. Holotype: Boltenhagen, 1977, pl.3, figs.3a–b. **NOW** *Apectodinium*?. Originally *Polysphaeridium*, subsequently (and now) *Apectodinium*?. Age: Paleocene.

zoharyi (Rossignol, 1962, p.132, pl.2, fig.10) Bujak et al., 1980, p.34. Holotype: Rossignol, 1962, pl.2, fig.10. Originally *Hystrichosphaeridium*, subsequently *Polysphaeridium*? (combination not validly published), thirdly *Hemicystodinium*, fourthly (and now) *Polysphaeridium*. Taxonomic junior synonyms: *Polysphaeridium subtile*, according to Islam (1983b, p.343) — however, Lentin and Williams (1989, p.300) retained *Polysphaeridium subtile*; *Tenua* (as *Hemicystodinium*?) *taugourdeau*, according to Lentin and Williams (1981, p.27,127) — however, *Tenua taugourdeau* is now considered a taxonomic junior synonym of *Polysphaeridium subtile*; *Membranilarnacia delicata*, according to Jain and Garg (1991, p.82). Motile equivalent: *Pyrodinium bahamense* Plate, 1906, according to Wall and Dale (1969, p.140); *Pyrodinium bahamense* var. *compressum* (Böhm, 1931) Steidinger et al., 1980, according to Matsuoka (1989, p.220). Matsuoka (1983a, p.16) considered *Hystrichosphaera* (as *Hystrichosphaeridium*) *intermedia* to be the possible taxonomic senior synonym of this species. This combination, as a questionable assignment, was not validly published in Davey and Williams (1966b, p.95), since these authors did not fully reference the basionym. Age: Pleistocene.

subsp. *ktana* (Rossignol, 1964, p.88, pl.2, figs.6–7,10; pl.3, fig.11) Lentin and Williams, 1981, p.232. Holotype: Rossignol, 1964, pl.2, fig.7. Originally *Hystrichosphaeridium zoharyi* var. *ktana*, subsequently *Hemicystodinium zoharyi* var. *ktana* (combination not validly published), thirdly *Hemicystodinium zoharyi* subsp. *ktana*, fourthly (and now) *Polysphaeridium zoharyi* subsp. *ktana*, fifthly *Polysphaeridium subtile* subsp. *ktana*. Lentin and Williams (1989, p.300) retained this taxon as a subspecies of *Polysphaeridium zoharyi*. Taxonomic junior synonym (at subspecific rank): *Hystrichosphaeridium? breviatum*, according to Islam (1983b, p.343) — however, Masure and Foucher in Fauconnier and Masure (2004, p.309–310) retained *Hystrichosphaeridium? breviatum*. Age: Pleistocene.

subsp. *zoharyi*. Autonym. Holotype: Rossignol, 1962, pl.2, fig.10. Originally *Hemicystodinium zoharyi* subsp. *zoharyi*, subsequently (and now) *Polysphaeridium zoharyi* subsp. *zoharyi*.

POLYSTEPHANEPHORUS Sarjeant, 1961b, p.1096. Emendation: Stancliffe and Sarjeant, 1990, p.205. Taxonomic senior synonyms: *Hystrichosphaerina*, according to Duxbury (1980, p.125–126) — however, Lentin and Williams (1981, p.232) and Davey (1982b, p.20) retained *Polystephanephorus*; *Systematophora*, according to

Brenner (1988, p.83) — however, Stancliffe and Sarjeant (1990, p.205) retained *Polystephanephorus*. Type: Sarjeant, 1961a, pl.14, fig.7; text-fig.7, as *Polystephanosphaera calatha*.

"**anthophorus**" (Cookson and Eisenack, 1958, p.43, pl.11, figs.12–13; text-figs.16–18) Davey, 1979c, p.65. Holotype: Cookson and Eisenack, 1958, pl.11, fig.12; Fauconnier and Masure, 2004, pl.73, figs.5–6. **NOW** *Stiphrosphaeridium*. Originally *Hystrichosphaeridium*, subsequently *Oligosphaeridium*, thirdly *Polystephanephorus*, fourthly *Hystrichosphaerina*, fifthly (and now) *Stiphrosphaeridium*. Taxonomic junior synonym: *Hystrichosphaerina schindewolfii*, according to Davey (1979c, p.65) — however, Lentin and Williams (1981, p.150) retained *Hystrichosphaerina schindewolfii*. Age: Aptian–Albian.

***calathus** (Sarjeant, 1961a, p.104, pl.14, fig.7; text-fig.7) Sarjeant, 1961b, p.1096. Emendation: Stancliffe and Sarjeant, 1990, p.205, as *Polystephanephorus calathus*. Holotype: Sarjeant, 1961a, pl.14, fig.7; text-fig.7; Stancliffe and Sarjeant, 1990, pl.2, figs.1,4; text-fig.1. Originally *Polystephanosphaera*, subsequently (and now) *Polystephanephorus*, thirdly *Hystrichosphaerina*. Lentin and Williams (1981, p.232) retained this species in *Polystephanephorus*. Although Sarjeant (1961b, p.1096) did not fully reference the basionym when he proposed this combination, he was clearly using zoological nomenclature, which does not require basionym citations. Age: early Oxfordian.

"**caulleryi**" (Deflandre, 1939a, p.138, pl.11, figs.2–3) Courtinat, 1989, p.171. Emendation: Stancliffe and Sarjeant, 1990, p.200, as *Adnatosphaeridium caulleryi*. Holotype: Deflandre, 1939a, pl.11, fig.2; Stancliffe and Sarjeant, 1990, pl.1, figs.3–4; Fauconnier and Masure, 2004, pl.1, figs.7–8. **NOW** *Adnatosphaeridium*. Originally *Hystrichosphaeridium*, subsequently *Cannosphaeropsis*, thirdly (and now) *Adnatosphaeridium*, fourthly *Polystephanephorus*. Age: early Oxfordian.

euryanthus Cookson and Eisenack, 1974, p.70–71, pl.24, fig.14. Holotype: Cookson and Eisenack, 1974, pl.24, fig.14; Fauconnier and Masure, 2004, pl.65, fig.4. Age: ?Neocomian–Albian.

paracalathus (Sarjeant, 1960a, p.143–144, pl.6, fig.4; text-fig.3b) Sarjeant, 1961b, p.1096. Emendation: Stancliffe and Sarjeant, 1990, p.206, as *Polystephanephorus paracalathus*. Holotype: Sarjeant, 1960a, pl.6, fig.4; text-fig.3b; Stancliffe and Sarjeant, 1990, pl.2, figs.2–3,5; text-fig.2. Originally *Polystephanosphaera*, subsequently (and now) *Polystephanephorus*, thirdly *Hystrichosphaerina*. Lentin and Williams (1981, p.232) retained this species in *Polystephanephorus*. Although Sarjeant (1961b, p.1096) did not fully reference the basionym when he proposed this combination, he was clearly using zoological nomenclature, which does not require basionym citations. Age: middle Callovian.

"**sarjeantii**" Gitmez, 1970, p.291–292, pl.11, fig.4; text-fig.25. Holotype: Gitmez, 1970, pl.11, fig.4; text-fig.25; Fauconnier and Masure, 2004, pl.26, fig.7. **NOW** *Emmetrocyta*. Originally *Polystephanephorus*, subsequently (and now) *Emmetrocyta*, thirdly *Hystrichosphaerina*, fourthly *Stiphrosphaeridium*. Age: early Kimmeridgian.

"?**sarrisii**" Archangelsky, 1969a, p.411, pl.2, figs.5–7. Holotype: Archangelsky, 1969a, pl.2, figs.6–7. **NOW** *Senoniasphaera?*. Originally *Polystephanephorus?*, subsequently (and now) *Senoniasphaera?*. Questionable assignment: Archangelsky (1969a, p.411). Age: Eocene.

"**schindewolfii**" (Alberti, 1961, p.38–39, pl.10, figs.1–3,6–7) Yun Hyesu, 1981, p.36. Holotype: Alberti, 1961, pl.10, figs.2–3; Eisenack and Kjellström, 1972, p.1009; Fensome et al., 1995, figs.2–3 — p.1765. **NOW** *Hystrichosphaerina*. Originally (and now) *Hystrichosphaerina*, subsequently *Systematophora*, thirdly *Polystephanephorus*. Taxonomic senior synonym: *Hystrichosphaeridium* (as *Oligosphaeridium*) *anthophorum*, according to Davey (1979c, p.65) — however, Lentin and Williams (1981, p.150) retained *Polystephanephorus* (as *Hystrichosphaerina*) *schindewolfii*. Taxonomic junior synonym: *Perisseiasphaeridium eisenackii*, according to Davey and Verdier (1974, p.640). Age: late Barremian–Turonian.

"**speciosus**" (Alberti, 1961, p.37, pl.9, fig.13) Riley and Sarjeant, 1972, p.3. Holotype: Alberti, 1961, pl.9, fig.13; Stancliffe and Sarjeant, 1990, pl.5, fig.6. **NOW** *Adnatosphaeridium?*. Originally *Cannosphaeropsis*, subsequently *Polystephanephorus*, thirdly *Cannosphaeropsis?*, fourthly (and now) *Adnatosphaeridium?*. Age: Bathonian–Callovian.

"*turonica*" (Alberti, 1961, p.39, pl.10, figs.4a–b) Yun Hyesu, 1981, p.36. Holotype: Alberti, 1961, pl.10, figs.4a–b. **NOW** *Hystriosphera*. Originally (and now) *Hystriosphera*, subsequently *Systematophora*, thirdly *Polystephanophorus*. Age: Turonian.

"*urnaformis*" (Cookson, 1953, p.118, pl.2, figs.41–43) Sarjeant, 1961b, p.1096. Holotype: Cookson, 1953, pl.2, figs.41–42. **NOW** *Emmetrocyta*. Originally *Cannospheropsis*, subsequently *Polystephanophorus*, thirdly (and now) *Emmetrocyta*. Although Sarjeant (1961b, p.1096) did not fully reference the basionym when he proposed this combination, he was clearly using zoological nomenclature, which does not require basionym citations. Age: Oligocene.

"**POLYSTEPHANOSPHAERA**" Sarjeant, 1960a, p.140–142. **Taxonomic senior synonym:** *Systematophora*, according to Sarjeant (1961b, p.1095–1096). Taxonomic junior synonym: *Surculosphaeridium*, by implication in Courtinat (1989, p.173), who considered the "type species", *Polystephanosphaera valensii* to be a taxonomic junior synonym of *Hystriosphera* (as and now *Surculosphaeridium*) *vestitum* — however, Stancliffe and Sarjeant (1990, p.207–208) retained the two species, as well as the genus *Surculosphaeridium*. Type: Sarjeant, 1960a, pl.6, fig.4; text-fig.3b, as *Polystephanosphaera valensii*.

"*calatha*" Sarjeant, 1961a, p.104, pl.14, fig.7; text-fig.7. Emendation: Stancliffe and Sarjeant, 1990, p.205, as *Polystephanophorus calathus*. Holotype: Sarjeant, 1961a, pl.14, fig.7; text-fig.7; Stancliffe and Sarjeant, 1990, pl.2, figs.1,4; text-fig.1. **NOW** *Polystephanophorus*. Originally *Polystephanosphaera*, subsequently (and now) *Polystephanophorus*, thirdly *Hystriosphera*. Age: early Oxfordian.

"*paracalatha*" Sarjeant, 1960a, p.143–144, pl.6, fig.4; text-fig.3b. Emendation: Stancliffe and Sarjeant, 1990, p.206, as *Polystephanophorus paracalathus*. Holotype: Sarjeant, 1960a, pl.6, fig.4; text-fig.3b; Stancliffe and Sarjeant, 1990, pl.2, figs.2,3,5; text-fig.2. **NOW** *Polystephanophorus*. Originally *Polystephanosphaera*, subsequently (and now) *Polystephanophorus*, thirdly *Hystriosphera*. Age: middle Callovian.

"**valensii*" Sarjeant, 1960a, p.142–143, pl.6, figs.5–7; text-fig.3c. Holotype: Sarjeant, 1960a, pl.6, fig.6; text-fig.3c; Eisenack and Kjellström, 1972, p.143; Stancliffe and Sarjeant, 1990, pl.3, figs.5,7,10; Fensome et al., 1995, figs.2,4 — p.1871. **NOW** *Systematophora*. Originally *Polystephanosphaera*, subsequently (and now) *Systematophora*. Taxonomic senior synonym: *Hystriosphera* (as and now *Surculosphaeridium*?) *vestitum*, according to Courtinat (1989, p.173) — however, Stancliffe and Sarjeant (1990, p.209) retained *Polystephanosphaera* (as and now *Systematophora*) *valensii*. Age: late Oxfordian.

"**PONTIADINIUM**" Stover and Evitt, 1978, p.180. **Taxonomic senior synonym:** *Komewuia*, according to Chen (1982, p.36). Type: Balteş, 1971, pl.2, fig.2, as *Diconodinium inequicornutum* (name not validly published).

"**inequicornutum*" Balteş, 1971, p.5, pl.1, figs.8–12; pl.2, figs.1–3 ex Stover and Evitt, 1978, p.180. Holotype: Balteş, 1971, pl.2, fig.2; Fensome et al., 1996, fig.5 — p.2161; designated as a lectotype by Stover and Evitt, 1978, p.180. **NOW** *Komewuia*. Originally *Diconodinium* (name not validly published), subsequently *Pontiadinium*, thirdly (and now) *Komewuia*. Age: early Pliocene.

"*obesum*" Sütő-Szentai, 1982a, p.210–211, 218–219, pl.4, fig.1 (two illustrations), fig.2 (three illustrations); text-fig.5. Holotype: Sütő-Szentai, 1982a, pl.4, fig.2 (three illustrations); text-fig.5. **NOW** *Impagidinium*?. Originally *Pontiadinium*, subsequently (and now) *Impagidinium*?. Age: late Miocene.

"*pecsvaradense*" Sütő-Szentai, 1982a, p.209–210, 218, pl.3, figs.1 (two illustrations), 2–3; text-fig.4. Holotype: Sütő-Szentai, 1982a, pl.3, figs.1 (two illustrations); text-fig.4. **NOW** *Impagidinium*?. Originally *Pontiadinium*, subsequently (and now) *Impagidinium*?. Age: late Miocene.

"**POSONIELLA**" Streng et al., 2009, p.233–234. Calcareous dinoflagellate genus (see Gottschling and Soehner, 2013, p.127). Type: Versteegh, 1993, pl.1, figs.4–5, as *Bicarinellum tricarinelloides*.

campestris Streng et al., 2009, p.234–235, pl.6, figs.1–6; text-figs.5C,F,G. Holotype: Streng et al., 2009, pl.6, fig.1. Age: middle Miocene.

pustulata Streng et al., 2009, p.234, pl.5, figs.1–8; text-figs.5B,E,G. Holotype: Streng et al., 2009, pl.5, fig.1. Age: middle Miocene.

**tricarinelloides* (Versteegh, 1993, p.357,359,360, pl.1, figs.1–12; text-figs.4A–D) Streng et al., 2009, p.234. Holotype: Versteegh, 1993, pl.1, figs.4–5. Originally *Bicarinellum*, subsequently (and now) *Posoniella*. Age: late Pliocene–late Pleistocene.

PRAECALCIGONELLUM Keupp and Versteegh, 1989, p.211. Calcareous dinoflagellate genus (see Streng et al., 2004, p.483 and Elbrächter et al., 2008, p.1301). Although the "type species", *Praecalcionellum polymorphum*, was not validly transferred by Keupp and Versteegh (1989, p.211), the generic name *Praecalcionellum* was validly published by these authors since it is based on a previously validly published species name (I.C.N. Article 40.3). Type: Keupp, 1980a, pl.15, figs.7–8, as *Calcigonellum polymorphum*.

dolium (Keupp, 1979a, p.39–40, pl.9, figs.7–9) Streng et al., 2004, p.474. Holotype: Keupp, 1979a, pl.9, figs.7–9. Originally *Calcigonellum*, subsequently (and now) *Praecalcionellum*. Age: early Barremian.

duopylum Willems, 1995b, p.146,148–150, figs.1a–e; fig.2, nos.1–6; fig.3, nos.1–7. Holotype: Willems, 1995b, fig.2, nos.1–4; fig.3, nos.5–6. Age: earliest Danian.

mutterlosei (Keupp, 1979a, p.41, pl.10, figs.11–12; pl.11, figs.1–5) Lentin and Williams, 1993, p.538. Holotype: Keupp, 1979a, pl.11, figs.1–3. Originally *Calcicarpinum*, subsequently *Calcigonellum*, thirdly (and now) *Praecalcionellum*. This combination was not validly published in Keupp and Versteegh (1989, p.218, pl.2, fig.11), since these authors did not fully reference the basionym. Age: early Barremian.

**polymorphum* (Keupp, 1980a, p.128,130–131, pl.15, figs.7–15; pl.16, figs.1–6) Lentin and Williams, 1993, p.538. Holotype: Keupp, 1980a, pl.15, figs.7–8. Originally *Calcigonellum*, subsequently (and now) *Praecalcionellum*. This combination was not validly published in Keupp and Versteegh (1989, p.211,218, pl.2, fig.10), since these authors did not fully reference the basionym. Age: late Aptian–early Albian.

subsp. *dentatum* (Keupp, 1980a, p.131, pl.15, figs.13–15; pl.16, fig.1) Lentin and Williams, 1993, p.538. Holotype: Keupp, 1980a, pl.15, fig.13. Originally *Calcigonellum polymorphum* subsp. *dentatum*, subsequently (and now) *Praecalcionellum polymorphum* subsp. *dentatum*. Age: late Gargasian.

subsp. *polymorphum*. Autonym. Holotype: Keupp, 1980a, pl.15, figs.7–8. Originally *Calcigonellum polymorphum* subsp. *polymorphum*, subsequently (and now) *Praecalcionellum polymorphum* subsp. *polymorphum*.

subsp. *tenue* (Keupp, 1980a, p.131–132, pl.16, figs.2–6) Lentin and Williams, 1993, p.538. Holotype: Keupp, 1980a, pl.16, figs.2–3. Originally *Calcigonellum polymorphum* subsp. *tenue*, subsequently (and now) *Praecalcionellum polymorphum* subsp. *tenue*. Age: late Aptian.

schizosaeptum Versteegh, 1993, p.376–377, pl.8, figs.1–8; text-figs.8A–E. Holotype: Versteegh, 1993, pl.8, figs.1–5,7–8. Age: late Pliocene–late Pleistocene.

sulcatum (Keupp, 1979c, p.658, pl.6, figs.16–21) Streng et al., 2004, p.474. Holotype: Keupp, 1979c, pl.2, figure labelled as "*C. sulcatum*". Originally *Calcigonellum*, subsequently (and now) *Praecalcionellum*. Age: early Hauterivian.

triangulare (Keupp, 1980a, p.134–135, pl.17, figs.10–15) Keupp, 1992b, p.126. Holotype: Keupp, 1980a, pl.17, figs.10–13. Originally *Echinodinella*, subsequently (and now) *Praecalcionellum*. Age: late Gargasian.

PRAECALCISPHAERULA Trejo, 1983, p.5. Calcareous dinoflagellate genus (see Elbrächter et al., 2008, p.1301, who noted that the cyst wall is pithonelloid and so a dinoflagellate affinity is questionable). Type: Trejo, 1983, pl.21, fig.3, as *Praecalcisphaerula primula*.

**primula* Trejo, 1983, p.5–6, pl.20, figs.1–3; pl.21, figs.2–10; pl.22, figs.1–4. Holotype: Trejo, 1983, pl.21, fig.3. Age: Albian.

PRAUSSIA Williams et al. 1998, p.507. Substitute name for *Hyalosphaera* Prauss, 1989, p.23 (an illegitimate name). Type: Prauss, 1989, pl.5, fig.11; text-fig.6, as *Hyalosphaera ephemera*.

**ephemera* (Prauss, 1989, p.23–24, pl.5, figs.11–12,15–18; text-fig.6) Williams et al., 1998, p.507. Holotype: Prauss, 1989, pl.5, fig.11; text-fig.6. Originally *Hyalosphaera* (generic name illegitimate), subsequently (and now) *Praussia*. Age: late Toarcian.

PRIONODINIUM Leffingwell and Morgan, 1977, p.293–294. Type: Leffingwell and Morgan, 1977, pl.1, figs.2a–b, as *Prionodinium alaskense*.

**alaskense* Leffingwell and Morgan, 1977, p.294–295, pl.1, figs.1a–b,2a–b,3; pl.2, figs.1–4,5a–b; pl.3, figs.4a–b; text-figs.4a–b. Holotype: Leffingwell and Morgan, 1977, pl.1, figs.2a–b; Jan du Chêne et al., 1986a, pl.84, figs.10–15; Fensome et al., 1993a, figs.1–2 — p.891. Age: Hauterivian–Barremian.

alveolatum Leffingwell and Morgan, 1977, p.295–297, pl.1, figs.4a–b,5,6a–b; pl.2, figs.6a–b,7–8; text-figs.5a–b. Holotype: Leffingwell and Morgan, 1977, pl.1, figs.4a–b; Jan du Chêne et al., 1986a, pl.84, figs.4–9. Age:Hauterivian–Barremian.

PRODUCTODINIUM Davey, 1988, p.43–44. Type: Davey, 1988, pl.8, fig.6, as *Productodinium chenii*.

**chenii* Davey, 1988, p.44, pl.8, figs.4–6,9. Holotype: Davey, 1988, pl.8, fig.6; Fensome et al., 1993a, fig.2 — p.1047. Age: early Oxfordian–early Kimmeridgian.

"**PROLATODINIUM**" Beju, 1978, p.4. **Name not validly published:** no description.

"*prolatum*" Beju, 1978, p.4. **Name not validly published:** no description or illustration.

PROLIXOSPHAERIDIUM Davey et al., 1966, p.171. Emendation: Davey, 1969a, p.160. Type: Davey et al., 1966, pl.3, fig.2; text-fig.45, as *Prolixosphaeridium deirense*.

anasillum Erkmen and Sarjeant, 1980, p.64–65, pl.4, figs.2,9; pl.5, fig.3. Holotype: Erkmen and Sarjeant, 1980, pl.4, fig.2; Fauconnier and Masure, 2004, pl.65, figs.1–2. Taxonomic senior synonym: *Hystrichosphaeridium xanthiopyxides* var. *granulosum* (as and now *Prolixosphaeridium granulosum*), according to Lentin and Williams (1993, p.539) — however, this synonymy was based on a mis-reading of Erkmen and Sarjeant (1980). Taxonomic junior synonym (at specific rank): *Baltisphaeridium pilosum* var. *longispinosum* (as *Tenua pilosa* subsp. *longispinosa*), according to Erkmen and Sarjeant (1980, p.64). Age: late Callovian–late Kimmeridgian.

"*apiculatum*" Beju, 1978, p.4. **Name not validly published:** no description or illustration.

basifurcatum Dodekova, 1969, p.21–22, pl.5, figs.1–6; text-fig.G. Holotype: Dodekova, 1969, pl.5, figs.1–2,4. Taxonomic senior synonym: *Baltisphaeridium* (now *Prolixosphaeridium*) *mixtispinosum*, according to Courtinat (1989, p.182) — however, Fauconnier and Monteil in Fauconnier and Masure (2004, p.461) retained *Prolixosphaeridium basifurcatum*. Age: Tithonian.

"capitatum" (Cookson and Eisenack, 1960b, p.252, pl.39, fig.9) Singh, 1971, p.342. Holotype: Cookson and Eisenack, 1960b, pl.39, fig.9; Fauconnier and Masure, 2004, pl.66, fig.1. **NOW** *Barbatacysta*. Originally *Hystrichosphaeridium*, subsequently *Prolixosphaeridium*, thirdly *Tenua* Eisenack, fourthly *Batiacasphaera*, fifthly (and now) *Barbatacysta*. Age: Oxfordian–Kimmeridgian.

conulum Davey, 1969a, p.160–161, pl.8, figs.5–6. Holotype: Davey, 1969a, pl.8, fig.5. Age: Cenomanian.

***deirens** Davey et al., 1966, p.171–172, pl.3, fig.2; text-fig.45. Emendation: Harding, 1990b, p.46–47, as *Prolixosphaeridium deirens*. Holotype: Davey et al., 1966, pl.3, fig.2; text-fig.45; Fauconnier and Masure, 2004, pl.65, fig.3. Originally (and now) *Prolixosphaeridium deirens*, subsequently *Prolixosphaeridium parvispinum* subsp. *deirens*. Lentin and Williams (1985, p.294) retained this taxon at specific rank. Taxonomic senior synonym (at specific and varietal ranks): *Hystrichosphaeridium xanthiopyxides* var. *parvispinum* (as and now *Prolixosphaeridium parvispinum*), according to Davey and Verdier (1974, p.636–637) — however, Harding (1990b, p.46) retained *Prolixosphaeridium deirens*. Age: middle Barremian.

"elongatum" Jain, 1977b, p.185, pl.4, figs.48–49. Holotype: Jain, 1977b, pl.4, fig.48. **Taxonomic senior synonym** (at specific and varietal ranks): *Hystrichosphaeridium xanthiopyxides* var. *parvispinum* (as and now *Prolixosphaeridium parvispinum*), according to Lentin and Williams (1985, p.294). Age: early Albian.

floccus Stancliffe, 1991, p.194, 196, pl.2, figs.2–3, 8–9; text-figs.8A–B. Holotype: Stancliffe, 1991, pl.2, figs.2–3; text-figs.8A–B. N.I.A. Age: late Oxfordian.

?foratum Dodekova, 1994, p.26–27, pl.5, figs.3–4, 10, 13. Holotype: Dodekova, 1994, pl.5, figs.3–4. Questionable assignment: Dodekova (1994, p.26). Age: late Tithonian–Berriasian.

granulosum (Deflandre, 1937b, p.77, pl.16 [al. pl.13], fig.4) Davey et al., 1966, p.172. Holotype: Deflandre, 1937b, pl.16 (al. pl.13), fig.4; Fauconnier and Masure, 2004, pl.66, fig.4. Originally *Hystrichosphaeridium xanthiopyxides* var. *granulosum*, subsequently *Baltisphaeridium xanthiopyxides* var. *granulosum* (combination not validly published, Appendix A), thirdly *Baltisphaeridium granulosum* (Appendix A), fourthly (and now) *Prolixosphaeridium granulosum*. Taxonomic junior synonyms (at specific rank): *Baltisphaeridium pilosum* var. *longispinosum* (as *Tenua pilosa* subsp. *longispinosa*), according to Sarjeant (1976c, p.19) — however, Erkmen and Sarjeant (1980, p.64) considered *Baltisphaeridium pilosum* var. *longispinosum* to be a taxonomic junior synonym (at specific rank) of *Prolixosphaeridium anasillum*, not of *Hystrichosphaeridium xanthiopyxides* var. *granulosum* (as *Prolixosphaeridium granulosum*); *Prolixosphaeridium anasillum*, according to Lentin and Williams (1993, p.539) — however, this synonymy was based on a mis-reading of Erkmen and Sarjeant (1980). Age: Senonian.

inequiornatum Stover and Helby, 1987c, p.246, figs.18A–H. Holotype: Stover and Helby, 1987c, figs.18C–E; Fensome et al., 1996, figs.3–5 — p.2165. Age: late Hauterivian–Barremian.

mixtispinosum (Klement, 1960, p.58–59, pl.6, figs.17–19) Davey et al., 1969, p.17. Holotype: Klement, 1960, pl.6, figs.17–18; Sarjeant, 1984a, pl.4, fig.4; Fauconnier and Masure, 2004, pl.66, figs.2–3. Originally *Baltisphaeridium* (Appendix A), subsequently (and now) *Prolixosphaeridium*. Taxonomic junior synonym: *Prolixosphaeridium basifurcatum*, according to Courtinat (1989, p.182) — however, Fauconnier and Monteil in Fauconnier and Masure (2004, p.461) retained *Prolixosphaeridium basifurcatum*. This combination was not validly published in Davey et al. (1966, p.173), since these authors did not fully reference the basionym. Age: early Kimmeridgian.

?nanus (Wetzel, 1933b, p.43, pl.4, fig.23; text-fig.13 ex Lentin and Williams, 1985, p.322) Sarjeant, 1985b, p.145. Emendation: Sarjeant, 1985b, p.145, as *Prolixosphaeridium nanus*. Holotype: Wetzel, 1933b, pl.4, fig.23; Sarjeant, 1985b, pl.2, figs.6–7. Originally *Hystrichosphaera pilosa* forma *nanus* (name not validly published), subsequently *Sentusidinium pilosum?* subsp. *nanus*, thirdly *Prolixosphaeridium nanus*, fourthly (and now) *Prolixosphaeridium?* *nanus*. Questionable assignment: Fauconnier and Monteil in Fauconnier and Masure (2004, p.462–463). The name *Hystrichosphaera pilosa* forma *nanus* was not validly published in Wetzel (1933b) since the species combination *Hystrichosphaera pilosa* was not validly published. N.I.A. Age: Late Cretaceous.

parvispinum (Deflandre, 1937b, p.77, pl.16 [al. pl.13], fig.5) Davey et al., 1969, p.17. Holotype: Deflandre, 1937b, pl.16 (al. pl.13), fig.5; Fauconnier and Masure, 2004, pl.66, figs.5–6. Originally *Hystrichosphaeridium*

xanthiopyxides var. *parvispinum*, subsequently *Hystrichosphaeridium parvispinum*, thirdly *Baltisphaeridium parvispinum* (Appendix A), fourthly (and now) *Prolixosphaeridium parvispinum*. Taxonomic junior synonyms (at specific and varietal ranks): *Prolixosphaeridium deirense*, according to Davey and Verdier (1974, p.636–637) — however, Harding (1990b, p.46) retained *Prolixosphaeridium deirense*; *Prolixosphaeridium elongatum*, according to Lentin and Williams (1985, p.294). This combination was not validly published in Davey et al. (1966, p.173), since these authors did not fully reference the basionym. Age: late Aptian.

"subsp. *deirense*" (Davey et al., 1966, p.171–172, pl.3, fig.2; text-fig.45) Below, 1982c, p.31. Emendation: Harding, 1990b, p.46–47, as *Prolixosphaeridium deirense*. Holotype: Davey et al., 1966, pl.3, fig.2; text-fig.45; Fauconnier and Masure, 2004, pl.65, fig.3. **NOW** *Prolixosphaeridium deirense*. Originally (and now) *Prolixosphaeridium deirense*, subsequently *Prolixosphaeridium parvispinum* subsp. *deirense*. Taxonomic senior synonym (at specific and varietal ranks): *Hystrichosphaeridium xanthiopyxides* var. *parvispinum* (now *Prolixosphaeridium parvispinum*), according to Davey and Verdier (1974, p.636–637) — however, Harding (1990b, p.46) retained *Prolixosphaeridium parvispinum* subsp. *deirense* (as *Prolixosphaeridium deirense*). Age: middle Barremian.

"subsp. *parvispinum*". Autonym. Holotype: Deflandre, 1937b, pl.16 (al. pl.13), fig.5; Fauconnier and Masure, 2004, pl.66, figs.5–6. **Now redundant.**

perforospineum Dodekova, 1994, p.27, pl.5, figs.9,12,16–18. Holotype: Dodekova, 1994, pl.5, figs.16–18. Age: middle-late Tithonian.

"?*spissum*" (McIntyre and Brideaux, 1980, p.20, pl.7, figs.1–9) Lentin and Williams, 1981, p.234. Holotype: McIntyre and Brideaux, 1980, pl.7, figs.1–4. **NOW** *Prolixosphaeridiopsis* (Appendix A). Originally *Cleistosphaeridium*, subsequently *Prolixosphaeridium?*, thirdly (and now) *Prolixosphaeridiopsis* (Appendix A). Questionable assignment: Lentin and Williams (1981, p.234). Age: Valanginian.

"?*toryna*" (Cookson and Eisenack, 1960b, p.252, pl.38, figs.6,15) Eisenack and Kjellström, 1972, p.951. Holotype: Cookson and Eisenack, 1960b, pl.38, fig.15. **NOW** *Egmontodinium*. Originally *Hystrichosphaeridium*, subsequently *Prolixosphaeridium?*, thirdly *Tanyosphaeridium*, fourthly (and now) *Egmontodinium*. Questionable assignment: Eisenack and Kjellström (1972, p.951). N.I.A. Age: Tithonian–Neocomian.

"?*xanthiopyxides*" (Wetzel, 1933b, p.44–45, pl.4, fig.25 ex Deflandre, 1937b, p.77) Davey et al., 1969, p.17. Emendations: Morgenroth, 1968, p.556, as *Hystrichosphaeridium? xanthiopyxides*; Sarjeant, 1985b, p.142–144, as *Tanyosphaeridium xanthiopyxides*. Holotype: Wetzel, 1933b, pl.4, fig.25, Morgenroth, 1968, pl.48, fig.5; Sarjeant, 1985b, pl.3, figs.2–3; Dietz et al., 1999, fig.10, no.8. **NOW** *Tanyosphaeridium*. Originally *Hystrichosphaera* (name not validly published), subsequently *Hystrichosphaeridium*, thirdly *Hystrichosphaeridium?*, fourthly *Baltisphaeridium* (Appendix A), fifthly *Prolixosphaeridium?*, sixthly (and now) *Tanyosphaeridium*. Questionable assignment: Davey et al. (1969, p.17). Taxonomic junior synonym: *Hystrichosphaeridium* (as *Tanyosphaeridium*) *magdaliium*, according to Stover and Evitt (1978, p.85). This combination was not validly published in Davey et al. (1966, p.173), since these authors did not fully reference the basionym. Age: Late Cretaceous (?Maastrichtian, according to Sarjeant, 1985b, p.143).

"**PROMINANGULARIA**" Jiabo, 1978, p.47. Emendation: Xu Jinli and Mao Shaozhi, 1989, p.303. **Taxonomic senior synonym:** *Bohaidina*, according to Sun Xuekun (1994, p.70). Chen et al. (1988, p.23) included this genus in the acritarchs; however, Lentin in Lentin and Williams (1989, p.304) considered it to be a freshwater ceratioid dinoflagellate cyst. He Chengquan et al. (2009, p.453) considered *Prominangularia* to be a subgenus of *Bohaidina*. Type: Jiabo, 1978, pl.19, fig.7, as *Prominangularia granulata*.

"*dongyingensis*" Jiabo, 1978, p.48, pl.19, figs.13–17. Holotype: Jiabo, 1978, pl.19, fig.14. **NOW** *Bohaidina*. Originally *Prominangularia*, subsequently (and now) *Bohaidina*. Taxonomic senior synonym: *Bohaidina granulata*, according to Sun Xuekun (1994, p.71) — however, He Chengquan et al. (2009, p.453) retained the species separately as *Bohaidina dongyingensis*. Age: Early Tertiary.

"**granulata*" Jiabo, 1978, p.47–48, pl.19, figs.7–12; pl.46, figs.1a–b; text-fig.8. Emendation: Xu Jinli and Mao Shaozhi, 1989, p.303. Holotype: Jiabo, 1978, pl.19, fig.7. **NOW** *Bohaidina arenula*. Originally *Prominangularia granulata*, subsequently *Bohaidina granulata* (Jiabo) He Chengquan et al. (illegitimate combination, non *Bohaidina granulata* Jiabo), thirdly (and now) *Bohaidina arenula*. Taxonomic senior synonym: *Bohaidina granulata* Jiabo, according to Sun Xuekun (1994, p.71) — however, He Chengquan et al. (2009, p.454) retained this species separately. Age: Early Tertiary.

"*laevigata*" Jiabo, 1978, p.48, pl.19, figs.5–6. Holotype: Jiabo, 1978, pl.19, fig.6. **NOW** *Bohaidina enodis*. Originally *Prominangularia laevigata*, subsequently *Bohaidina laevigata* (Jiabo) He Chengquan et al. (illegitimate combination, non *Bohaidina laevigata* Jiabo), thirdly (and now) *Bohaidina enodis*. Taxonomic senior synonym: *Bohaidina laevigata* Jiabo, according to Sun Xuekun (1994, p.71) — however, He Chengquan et al. (2009, p.454) retained this species separately. Age: Early Tertiary.

"*micirugosa*" He Chengquan, 1984b, p.158, pl.2, figs.12–17. Holotype: He Chengquan, 1984b, pl.2, fig.14. **NOW** *Bohaidina*. Originally *Prominangularia*, subsequently (and now) *Bohaidina*. Taxonomic senior synonym: *Bohaidina rugosa*, according to Sun Xuekun (1994, p.71) — however, He Chengquan et al. (2009, p.454) retained this species separately. Age: Tertiary.

"*reticulata*" Zheng Yuefang and Liu Xuexian in Liu Zhili et al., 1992, p.79–80, pl.5, figs.14–17; text-fig.7. Holotype: Liu Zhili et al., 1992, pl.5, fig.17. **NOW** *Bohaidina*. Originally *Prominangularia*, subsequently (and now) *Bohaidina*. Age: Early Tertiary.

PROTOBATIOLADINIUM Nøhr-Hansen, 1986, p.36–37. Type: Nøhr-Hansen, 1986, pl.3, fig.5; text-fig.7, as *Protobatioladinium westburiense*.

elatmaense Riding and Ilyina, 1996, p.150, figs.1a–d. Holotype: Riding and Ilyina, 1996, fig.1a. Age: early-middle Bathonian.

?*elongatum* Riding and Ilyina, 1998, p.86, figs.1a–d. Holotype: Riding and Ilyina, 1998, fig.1a. Age: late Bathonian.

imbatodinense (Vozzhennikova, 1967, p.55, pl.12, figs.4a–c) Lentin and Vozzhennikova, 1990, p.91. Emendation: Lentin and Vozzhennikova, 1990, p.92, as *Protobatioladinium imbatodinense*. Holotype: Vozzhennikova, 1967, pl.12, fig.4a; Lentin and Vozzhennikova, 1990, pl.11, figs.9–11; text-fig.50. Originally *Imbatodinium*, subsequently *Necrobroomea*?, thirdly *Pareodinia*, fourthly *Pareodinia*?, fifthly *Batioladinium*, sixthly (and now) *Protobatioladinium*, seventhly *Gochteodinia*. Lentin and Williams (1993, p.541) retained this species in *Protobatioladinium*. Age: Late Jurassic.

lindiense Schrank, 2005, p.72, pl.10, figs.4–8; text-fig.2. Holotype: Schrank, 2005, pl.10, fig.4. Age: Tithonian.

lunare Monteil, 1992a, p.276–277, pl.6, figs.1–6; pl.7, figs.1–2. Holotype: Monteil, 1992a, pl.6, figs.1–3. Age: early Tithonian.

mercieri Feist-Burkhardt and Pross, 1999, p.107–108, pl.1, figs.1–6; pl.2, figs.1–6; pl.7, figs.1–6; pl.11, figs.1–9; pl.12, figs.1–9; text-fig.1, nos.1a–b,2; text-fig.2, nos.1a–b,2a–b,3a–b. Holotype: Feist-Burkhardt and Pross, 1999, pl.1, figs.1–6; pl.7, figs.1–3; pl.11, figs.1–6; text-fig.1, no.1. Age: late Bajocian–early Bathonian.

rossicum (Iosifova, 1992, p.59–61, pl.9, figs.2a–b; pl.10, figs.1a–b; text-fig.1e) Iosifova, 1996, p.227. Holotype: Iosifova, 1992, pl.10, figs.1a–b; Iosifova, 1996, pl.7, figs.4a–c; text-figs.10A–B. Originally *Batioladinium*, subsequently (and now) *Protobatioladinium*. Age: Ryazanian.

**westburiense* Nøhr-Hansen, 1986, p.37–38, pl.3, figs.5–8; text-fig.7. Holotype: Nøhr-Hansen, 1986, pl.3, fig.5; text-fig.7; Fensome et al., 1995, figs.1,5–6 — p.1911. Age: early Kimmeridgian.

PROTOELLIPSODINIUM Davey and Verdier, 1971, p.28. Type: Davey and Verdier, 1971, pl.5, fig.2, as *Protoellipsodinium spinocristatum*.

clavulus Davey and Verdier, 1974, p.637–638, pl.93, fig.7. Emendation: Duxbury, 1983, p.53. Holotype: Davey and Verdier, 1974, pl.93, fig.7. Taxonomic junior synonym: *Operculodinium?* (as *Protoellipsodinium*) *spinigerum*, according to Duxbury (1983, p.53). N.I.A. Age: Aptian.

"**corollum**" Hasenboehler in Masure, 1984, p.95. **Name not validly published**: no description. Age: early Albian–Cenomanian.

densispinum Morgan, 1980, p.30–31, pl.24, figs.1–3. Holotype: Morgan, 1980, pl.24, figs.2–3. Age: middle Aptian–Cenomanian.

fibratum (Batten and Lister, 1988, p.345,347, figs.2g–h)Wan Chuanbiao et al., 1997, p.412. Holotype: Batten and Lister, 1988, figs.2g–h. Originally *Microdinium?*, subsequently (and now) *Protoellipsodinium*. Age: Barremian.

"**longispinosum**" Prössl, 1990, p.105, pl.6, figs.5–7 ex Prössl, 1992b, p.113,115–116. Holotype: Prössl, 1990, pl.6, figs.5–6. **Taxonomic senior synonym**: *Protoellipsodinium spinosum*, according to Heilmann-Clausen and Thomsen (1995, p.306). This name was not validly published in Prössl (1990, p.105), since that author did not specify the lodgment of the holotype. Age: late Hauterivian–early Barremian.

minutum Sun Xuekun, 1994, p.82, pl.3, fig.11. Holotype: Sun Xuekun, 1994, pl.3, fig.11. Age: Eocene.

"**rarispinum**" Prössl, 1990, p.105–106, pl.5, figs.9,12–13 ex Prössl, 1992b, p.113,116. Holotype: Prössl, 1990, pl.5, fig.9. **Taxonomic senior synonym**: *Protoellipsodinium spinosum*, according to Heilmann-Clausen and Thomsen (1995, p.306). This name was not validly published in Prössl (1990, p.105–106), since that author did not specify the lodgment of the holotype. Age: early Hauterivian–late Barremian.

seghire Below, 1981a, p.110–111, pl.11, figs.9,10a–b,11,13a–c,14–15; pl.15, figs.17–19; text-fig.71 (part). Holotype: Below, 1981a, pl.11, figs.10a–b; Fensome et al., 1991, figs.1–2 — p.733; figs.1–2 — p.737. Age: late Aptian.

subsp. **medaure** Below, 1981a, p.110–111, pl.11, figs.9,13a–c,14–15; pl.15, figs.17–18; text-fig.71 (part). Holotype: Below, 1981a, pl.11, figs.13a–c; Fensome et al., 1991, figs.1–3 — p.675; figs.3–4 — p.737. Age: Hauterivian.

subsp. **seghire**. Autonym. Holotype: Below, 1981a, pl.11, figs.10a–b.

"**spinigerum**" (Brideaux, 1977, p.30, pl.12, figs.8–9; pl.13, figs.1–11) Lentin and Williams, 1981, p.235. Holotype: Brideaux, 1977, pl.12, figs.8–9; pl.13, figs.1–4. Originally *Operculodinium?*, subsequently *Protoellipsodinium*. **Taxonomic senior synonym**: *Protoellipsodinium clavulum*, according to Duxbury (1983, p.53). Age: Barremian.

***spinocristatum** Davey and Verdier, 1971, p.28–29, pl.5, figs.2,5,11. Holotype: Davey and Verdier, 1971, pl.5, fig.2. Age: early–late Albian.

spinosum Davey and Verdier, 1971, p.29–30, pl.5, fig.10. Holotype: Davey and Verdier, 1971, pl.5, fig.10. Taxonomic junior synonyms: *Protoellipsodinium longispinosum* and *Protoellipsodinium rarispinum*, both according to Heilmann-Clausen and Thomsen (1995, p.306). Age: early–late Albian.

touile Below, 1981a, p.111–112, pl.11, figs.8,16a–c,17a–b; pl.15, figs.15–16; text-fig.71 (part). Holotype: Below, 1981a, pl.11, figs.16a–c; Fensome et al., 1991, figs.1–3 — p.761; figs.1–3 — p.765. Age: Aptian.

subsp. **mugataë** Below, 1981a, p.112, pl.11, figs.8,17a–b; pl.15, figs.15–16; text-fig.71 (part). Holotype: Below, 1981a, pl.11, figs.17a–b; Fensome et al., 1991, figs.2–3 — p.687; figs.5–6 — p.761. Age: Hauterivian.

subsp. *touile*. Autonym. Holotype: Below, 1981a, pl.11, figs.16a–c; Fensome et al., 1991, figs.1–3 — p.761; figs.1–3 — p.765.

verrucosum Yu Jingxian, 1982, p.248, pl.8, figs.6,11. Holotype: Yu Jingxian, 1982, pl.8, fig.11. Age: Late Jurassic–Early Cretaceous.

PSALIGONYAULAX Sarjeant, 1966b, p.136. Emendation: Sarjeant, 1982b, p.44–45. Taxonomic senior synonym: *Gonyaulacysta*, according to Below (1981a, p.52) — however, Lentin and Williams (1981, p.235) retained *Psaligonyaulax*. Type: Sarjeant, 1966b, pl.14, figs.7–8; text-fig.35, as *Psaligonyaulax deflandrei*.

"*apatela*" (Cookson and Eisenack, 1960b, p.249, pl.37, figs.12–13) Sarjeant, 1969, p.15. Emendation: Sarjeant, 1982b, p.42, as *Tubotuberella apatela*. Holotype: Cookson and Eisenack, 1960b, pl.37, fig.12; Jan du Chêne et al., 1986a, pl.124, figs.1–2; Fensome et al., 1993a, fig.1 — p.921. **NOW** *Tubotuberella*. Originally *Scriniodinium*, subsequently *Psaligonyaulax*, thirdly (and now) *Tubotuberella*, fourthly *Glabridinium*. Age: Late Jurassic.

"*australica*" Cookson and Eisenack, 1982, p.37–38, pl.2, figs.13–15. Holotype: Cookson and Eisenack, 1982, pl.2, fig.14, lost according to Jan du Chêne et al. (1986a, p.266). **Taxonomic senior synonym:** *Psaligonyaulax* (as and now *Gonyaulacysta*) *dualis*, according to Brenner (1988, p.54). Taxonomic senior synonym: *Scriniodinium?* *ceratophorum*, according to Jan du Chêne et al. (1986a, p.266). Age: Oxfordian–early Kimmeridgian.

circularis He Chengquan, 1991, p.122, pl.29, fig.11. Holotype: He Chengquan, 1991, pl.29, fig.11. Age: Paleocene.

?*cypraea* Ioannides et al., 1977, p.460, pl.4, figs.5–8; text-fig.12. Holotype: Ioannides et al., 1977, pl.4, fig.5; text-fig.12; Jan du Chêne et al., 1986a, pl.85, figs.1–2; pl.86, figs.9–11. Originally *Psaligonyaulax*, subsequently (and now) *Psaligonyaulax?*, thirdly *Gonyaulacysta*. Jan du Chêne et al. (1986a, p.266) questionably retained this species in *Psaligonyaulax*. Questionable assignment: Stover and Evitt (1978, p.182). Age: Kimmeridgian.

**deflandrei* Sarjeant, 1966b, p.137–138, pl.14, figs.7–8; text-fig.35. Emendation: Sarjeant, 1982b, p.45–46, as *Psaligonyaulax deflandrei*. Holotype: Sarjeant, 1966b, pl.14, figs.7–8; text-fig.35; Jan du Chêne et al., 1986a, pl.85, figs.3–4; pl.86, figs.1–3. Originally (and now) *Psaligonyaulax*, subsequently *Gonyaulacysta* (combination illegitimate). Lentin and Williams (1981, p.235) retained this species in *Psaligonyaulax*. Taxonomic junior synonym: *Gonyaulacysta extensa*, according to Clarke et al. (1968, p.181). Age: Cenomanian.

"*dualis*" Brideaux and Fisher, 1976, p.18–20, pl.1, figs.4–6,8–12; pl.2, figs.1–2. Holotype: Brideaux and Fisher, 1976, pl.1, figs.4–5; Jan du Chêne et al., 1986a, pl.37, figs.11–12. **NOW** *Gonyaulacysta*. Originally *Psaligonyaulax*, subsequently (and now) *Gonyaulacysta*. Taxonomic senior synonym: *Gonyaulax* (as and now *Gonyaulacysta*) *jurassica*, according to Sarjeant (1982b, p.29) — however, Jan du Chêne et al. (1986a, p.131) retained *Gonyaulacysta dualis*. Taxonomic junior synonym: *Psaligonyaulax australis*, according to Brenner (1988, p.54). Age: late Oxfordian–late Kimmeridgian.

"*galeata*" (Cookson and Eisenack, 1960a, p.3–4, pl.1, figs.16–18) Davey and Verdier, 1973, p.195. Holotype: Cookson and Eisenack, 1960a, pl.1, fig.16; Jan du Chêne et al., 1986a, pl.48, figs.11–13; Helby et al., 1987, fig.38L. **NOW** *Hystrichosphaeropsis*. Originally *Scriniodinium*, subsequently *Psaligonyaulax*, thirdly (and now) *Hystrichosphaeropsis*. Age: Albian–Cenomanian.

"*simplicia*" (Cookson and Eisenack, 1961b, p.42, pl.2, figs.3–4; text-figs.1e–f) Sarjeant, 1969, p.15. Holotype: Cookson and Eisenack, 1961b, pl.2, figs.3–4; text-figs.1e–f; Jan du Chêne et al., 1986a, pl.54, figs.1–5. **NOW** *Impagidinium?*. Originally *Rottnestia*, subsequently *Psaligonyaulax*, thirdly (and now) *Impagidinium?*. This combination was not validly published in Sarjeant (1966b, p.138), since that author did not fully reference the basionym. Age: Eocene.

PSEUDOALTERBIA Mao Shaozhi and Norris, 1988, p.53. Type: Mao Shaozhi and Norris, 1988, pl.16, fig.4, as *Pseudoalterbia concinna*.

**concinna* Mao Shaozhi and Norris, 1988, p.53, pl.16, figs.4–6. Holotype: Mao Shaozhi and Norris, 1988, pl.16, fig.4; Fensome et al., 1993a, fig.1 — p.1067. Age: Turonian–Santonian.

"*PSEUDOBOHAIDINA*" Xu Jinli et al., 1997, p.48,144. **Taxonomic senior synonym:** *Batiacasphaera*, according to He Chengquan et al. (2009, p.326). Type: Xu Jinli et al., 1997, pl.42, fig.1, as *Pseudobohaidina granulata*.

"**granulata*" Xu Jinli et al., 1997, p.48,144, pl.42, figs.1–2,4–5. Holotype: Xu Jinli et al., 1997, pl.42, fig.1. **Taxonomic senior synonym:** *Batiacasphaera macrogranulata*, according to He Chengquan et al. (2009, p.331). Age: middle-late Eocene.

"*oblongata*" Xu Jinli et al., 1997, p.49, pl.42, fig.6. Holotype: Xu Jinli et al., 1997, pl.42, fig.6. **Name not validly published:** no English or Latin description. **NOW** *Batiacasphaera*. Originally *Pseudobohaidina* (name not validly published), subsequently (and now) *Batiacasphaera*. Age: middle-late Eocene.

"*retirugosa*" Xu Jinli et al., 1997, p.48–49, pl.42, fig.3. Holotype: Xu Jinli et al., 1997, pl.42, fig.3. **Name not validly published:** no English or Latin description. **NOW** *Batiacasphaera*. Originally *Pseudobohaidina* (name not validly published), subsequently (and now) *Batiacasphaera*. Age: middle-late Eocene.

PSEUDOCERATIUM Gocht, 1957, p.166. Emendations: Dörhöfer and Davies, 1980, p.39; Bint, 1986, p.144; Helby, 1987, p.313–315. Taxonomic junior synonyms: *Aptea* and *Doidyx*, both according to Bint (1986, p.144) — however, Quattrocchio and Sarjeant (1992, p.2–234) retained *Aptea*; *Eopseudoceratium*, according to Stover and Evitt (1978, p.77); *Endoceratium*, according to Helby (1987, p.313–315) — however, Lentin and Williams (1989, p.125) retained *Endoceratium*. Type: Gocht, 1957, pl.18, fig.1, as *Pseudoceratium pelliferum*.

almohadense (Below, 1984, p.635, pl.1, figs.5A–B,6–7) Lentin and Williams, 1989, p.306. Holotype: Below, 1984, pl.1, figs.5A–B. Originally *Aptea*, subsequently (and now) *Pseudoceratium*. Age: middle-late Aptian.

anaphrissum (Sarjeant, 1966c, p.206, pl.22, fig.8; pl.23, fig.6; text-fig.55) Bint, 1986, p.145. Emendation: Harding, 1990b, p.17–18, as *Pseudoceratium anaphrissum*. Holotype: Sarjeant, 1966c, pl.22, fig.8; text-fig.55. Originally *Doidyx*, subsequently *Tenua* Eisenack, thirdly *Aptea*, fourthly (and now) *Pseudoceratium*. Age: early Barremian.

aulaeum Harding, 1990b, p.18, pl.1, figs.1–6 ex Harding in Williams et al., 1998, p.512. Holotype: Harding, 1990b, pl.1, fig.1. This name was not validly published in Harding (1990b) since the lodgement of the holotype was not specified (I.C.N. Article 40.7). N.I.A. Age: late Barremian.

australiense Fensome and Williams 2004, p.554. Substitute name for *Pseudoceratium robustum* Riding and Helby, 2001g, p.208,210,212, figs.15A–L. Holotype: Riding and Helby, 2001g, figs.15J–K. Originally *Pseudoceratium robustum* Riding and Helby (name illegitimate), subsequently (and now) *Pseudoceratium australiense*. Age: Tithonian.

brevicornutum Herngreen et al., 2000, p.50, pl.9, figs.6–7. Holotype: Herngreen et al., 2000, pl.9, fig.6. Taxonomic junior synonym: *Pseudoceratium eopelliferum* (name not validly published), according to Herngreen et al. (2000, p.50). Age: late Ryazanian–early Hauterivian.

"*ceratioides*" (Deflandre, 1937b, p.66–67, pl.12 [al. pl.9], figs.7–8) Clarke and Verdier, 1967, p.60. Holotype: Deflandre, 1937b, pl.12 (al. pl.9), figs.7–8; Fensome et al., 1991, fig.1 — p.601; fig.1 — p.605. **NOW** *Xenascus*. Originally *Hystrichosphaera*, subsequently *Pseudoceratium*, thirdly *Spiniferites*, fourthly *Phoberocysta*, fifthly (and now) *Xenascus*. Taxonomic junior synonyms: *Endoceratium* (now *Xenascus*) *perforatum*, according to Davey and Verdier (1971, p.27) — however, Yun Hyesu (1981, p.62) retained *Endoceratium* (as *Xenascus*) *perforatum*; *Xenascus australensis*, according to Davey and Verdier (1971, p.26) — however, Lentin and Williams (1985, p.374) retained *Xenascus australensis*; *Odontochitina blastema*, according to Davey and Verdier (1971, p.27) — however, Stover and Helby (1987a, p.128) retained *Odontochitina* (as *Xenascus*) *blastema*. This combination was not validly published in Deflandre (1966, p.6), since that author did not fully reference the basionym. Age: Senonian.

"*dettmanniae*" Cookson and Hughes, 1964, p.51–52, pl.7, figs.1–4. Emendation: Harding and Hughes, 1990, p.312,314, as *Endoceratium dettmanniae*. Holotype: Cookson and Hughes, 1964, pl.7, fig.1. **NOW** *Endoceratium*. Originally *Pseudoceratium*, subsequently (and now) *Endoceratium*. Age: late Albian–early Cenomanian.

distinctum Duxbury, 2001, p.111–112, fig.11, nos.1–4. Holotype: Duxbury, 2001, fig.11, no.1. Age: late Aptian.

eisenackii (Davey, 1969a, p.170–171, pl.8, figs.3–4; pl.9, fig.4; text-figs.16A–B [not 17A–B]) Bint, 1986, p.145. Holotype: Davey, 1969a, pl.8, fig.4. Originally *Cyclonephelium*, subsequently *Aptea*, thirdly (and now) *Pseudoceratium*. Taxonomic senior synonym: *Aptea* (now *Pseudoceratium*) *polymorpha*, according to Cookson and Eisenack (1974, p.74) — however, Below (1981a, p.7) retained *Aptea eisenackii*. Age: late Albian.

"*eopelliferum*" Herngreen et al., 1994, p.386. **Name not validly published**: no description or illustration. **Taxonomic senior synonym**: *Pseudoceratium brevicornutum*, according to Herngreen et al. (2000, p.50).

expoliturum Brideaux, 1971, p.102–103, pl.30, figs.105–106,108. Holotype: Brideaux, 1971, pl.30, fig.106. Taxonomic junior synonym: *Pseudoceratium regium*, according to Harker and Sarjeant (1975, p.226). Age: middle-late Albian.

"*exquisitum*" (Morgan, 1980, p.22, pl.10, figs.11–12) Helby, 1987, p.315. Holotype: Morgan, 1980, pl.10, figs.11–12; Helby et al., 1987, fig.29I. **NOW** *Endoceratium*. Originally (and now) *Endoceratium*, subsequently *Pseudoceratium*. Age: Albian.

gochtii Neale and Sarjeant, 1962, p.446–448, pl.20, figs.3–4; text-figs.5a–c. Holotype: Neale and Sarjeant, 1962, pl.20, fig.3; text-fig.5a. Originally *Pseudoceratium* subgenus *Eopseudoceratium*, subsequently *Eopseudoceratium*, thirdly (and now) *Pseudoceratium*. Lentin and Williams (1985, p.297) retained this species in *Pseudoceratium*. Junior homonym: *Pseudoceratium gochtii* Pocock, 1962. Age: late Hauterivian–mid Barremian.

"*gochtii*" Pocock, 1962, p.79, pl.14, figs.213–214. Holotype: Pocock, 1962, pl.14, fig.213, lost according to Jansonius (1986, p.222). **Name illegitimate** — **senior homonym**: *Pseudoceratium gochtii* Neale and Sarjeant, 1962. Substitute name: *Pseudoceratium hansgochtii*. Originally *Pseudoceratium gochtii* Pocock, 1962 (name illegitimate), subsequently *Pseudoceratium hansgochtii*. **Taxonomic senior synonym**: *Broomea* (now *Batioladinium*) *jaegeri*, according to Singh (1971, p.320). Age: late Albian–early Cenomanian.

"*hansgochtii*" Lentin and Williams, 1981, p.236. Holotype: Pocock, 1962, pl.14, fig.213, lost according to Jansonius (1986, p.222). Originally *Pseudoceratium gochtii* Pocock, 1962 (name illegitimate), subsequently *Pseudoceratium hansgochtii*. Substitute name for *Pseudoceratium gochtii* Pocock, 1962, p.79, pl.14, figs.213–214 (an illegitimate name). **Taxonomic senior synonym**: *Broomea* (now *Batioladinium*) *jaegeri*, according to Singh (1971, p.320). Age: late Albian–early Cenomanian.

iehiense Helby and May in Helby, 1987, p.315–316, figs.16A–K,17. Holotype: Helby, 1987, figs.16I–J; Fensome et al., 1996, figs.1–2 — p.2153. Age: late Tithonian–early Berriasian.

interiorensense Bint, 1986, p.146,148, pl.3, figs.3–4,9–15; pl.7, figs.9–10. Holotype: Bint, 1986, pl.3, figs.3,9. Age: late Albian.

iveri Nøhr-Hansen, 1993, p.100–102, pl.19, figs.1–8; text-figs.13–15. Holotype: Nøhr-Hansen, 1993, pl.19, fig.1; text-fig.13. Age: latest Barremian.

"*ludbrookiae*" (Cookson and Eisenack, 1958, p.52–54, pl.5, figs.7–8) Eisenack, 1961, p.290. Emendation: Morgan, 1980, p.23, as *Endoceratium ludbrookiae*. Holotype: Cookson and Eisenack, 1958, pl.5, fig.7. **NOW** *Endoceratium*. Originally *Ceratocystidiopsis* (Appendix A), subsequently *Pseudoceratium*, thirdly (and now) *Endoceratium*. Age: Albian.

"?*nudum*" Gocht, 1957, p.168, pl.18, figs.3–4,6. Holotype: Gocht, 1957, pl.18, fig.3. **NOW** *Odontochitina*. Originally *Pseudoceratium*?, subsequently (and now) *Odontochitina*. Questionable assignment: Gocht (1957, p.168). Age: late Hauterivian.

?*parvum* Michael, 1964, p.28, pl.2, fig.1. Holotype: Michael, 1964, pl.2, fig.1. Originally *Pseudoceratium*, subsequently (and now) *Pseudoceratium*?. Questionable assignment: Bint (1986, p.145) as a problematic species. Age: early Barremian.

**pelliferum* Gocht, 1957, p.166–168, pl.18, figs.1–2; text-figs.1–3. Emendation: Dörhöfer and Davies, 1980, p.39. Holotype: Gocht, 1957, pl.18, fig.1. Age: Valanginian–late Hauterivian.

"subsp. *pelliferum*". Autonym. Holotype: Gocht, 1957, pl.18, fig.1. **Now redundant.**

"var. *pelliferum*". Autonym. Holotype: Gocht, 1957, pl.18, fig.1. **Now redundant.**

"subsp. *solocispinum*" (Davey, 1974, p.68, pl.9, fig.6) Lentin and Williams, 1975, p.2154. Emendation: Harding, 1990b, p.19, as *Pseudoceratium solocispinum*. Holotype: Davey, 1974, pl.9, fig.6. **NOW** *Pseudoceratium solocispinum*. Originally *Pseudoceratium pelliferum* var. *solocispinum*, subsequently *Pseudoceratium pelliferum* subsp. *solocispinum*, thirdly (and now) *Pseudoceratium solocispinum*. Age: middle-late Barremian.

"var. *solocispinum*" Davey, 1974, p.68, pl.9, fig.6. Emendation: Harding, 1990b, p.19, as *Pseudoceratium solocispinum*. Holotype: Davey, 1974, pl.9, fig.6. **NOW** *Pseudoceratium solocispinum*. Originally *Pseudoceratium pelliferum* var. *solocispinum*, subsequently *Pseudoceratium pelliferum* subsp. *solocispinum*, thirdly (and now) *Pseudoceratium solocispinum*. Age: middle-late Barremian.

plerum (Duxbury, 1983, p.22,25, pl.1, figs.7–8,11; pl.10, fig.3; text-figs.5–6) Bint, 1986, p.145. Holotype: Duxbury, 1983, pl.1, fig.7. Originally *Aptea*, subsequently (and now) *Pseudoceratium*. Age: early Aptian.

"*polymorphum*" (Eisenack, 1958a, p.394, pl.22, figs.5–12; pl.24, fig.5) Bint, 1986, p.145. Emendation: Dörhöfer and Davies, 1980, p.34–36, as *Aptea polymorpha*. Holotype: Eisenack, 1958a, pl.22, fig.5; Sarjeant, 1985a, pl.7, fig.4. **NOW** *Aptea*. Originally (and now) *Aptea*, subsequently *Pseudoceratium*. Taxonomic junior synonym: *Aptea* (now *Pseudoceratium*) *eisenackii*, according to Cookson and Eisenack (1974, p.74) — however, Below (1981a, p.7) retained *Aptea eisenackii*. Age: Aptian.

"*regium*" Singh, 1971, p.375–376, pl.66, figs.2–4; pl.67, figs.1–2. Holotype: Singh, 1971, pl.66, figs.2–3. **Taxonomic senior synonym:** *Pseudoceratium expolitum*, according to Harker and Sarjeant (1975, p.226). Age: middle-late Albanian.

retusum Brideaux, 1977, p.14–15, pl.4, figs.10–12; pl.5, figs.1–2,5–10. Holotype: Brideaux, 1977, pl.4, figs.10–12. Age: Barremian–Aptian.

?*robustum* Michael, 1964, p.29, pl.2, fig.2. Holotype: Michael, 1964, pl.2, fig.2. Originally *Pseudoceratium*, subsequently (and now) *Pseudoceratium*?. Questionable assignment: Bint (1986, p.145) as a problematic species. Junior homonym: *Pseudoceratium robustum* Riding and Helby, 2001g. Age: early Barremian.

"*robustum*" Riding and Helby, 2001g, p.208,210,212, figs.15A–L. Holotype: Riding and Helby, 2001g, figs.15J–K. **Name illegitimate — senior homonym:** *Pseudoceratium? robustum* Michael, 1964. **Substitute name:** *Pseudoceratium australiense*. Originally *Pseudoceratium robustum* Riding and Helby (name illegitimate), subsequently (and now) *Pseudoceratium australiense*. Age: Tithonian.

securigerum (Davey and Verdier, 1974, p.642–643, pl.91, figs.2–3; text-fig.5(vii)) Bint, 1986, p.145. Holotype: Davey and Verdier, 1974, pl.91, fig.3. Originally *Aptea*, subsequently (and now) *Pseudoceratium*. Age: early Aptian.

solocispinum (Davey, 1974, p.68, pl.9, fig.6) Harding, 1990b, p.19. Emendation: Harding, 1990b, p.19, as *Pseudoceratium solocispinum*. Holotype: Davey, 1974, pl.9, fig.6. Originally *Pseudoceratium pelliferum* var. *solocispinum*, subsequently *Pseudoceratium pelliferum* subsp. *solocispinum*, thirdly (and now) *Pseudoceratium solocispinum*. Age: middle-late Barremian.

spitiense Jain and Garg in Jain et al., 1984, p.72, pl.3, figs.41–42. Holotype: Jain et al., 1984, pl.3, fig.42. Age: Kimmeridgian–early Tithonian.

"***tetracanthum***" Gocht, 1957, p.168, pl.18, figs.7–9; text-fig.5. Emendation: Monteil, 1991b, p.476–477, as *Muderongia tetracantha*. Holotype: Gocht, 1957, pl.18, fig.7. **NOW** *Muderongia*. Originally *Pseudoceratium*?, subsequently (and now) *Muderongia*. Questionable assignment: Gocht (1957, p.168). Taxonomic junior synonym: *Muderongia crucis*, according to Morgan (1980, p.28) — however, Jansonius (1982, p.16) retained *Muderongia crucis*. Age: late Hauterivian.

toveae Nøhr-Hansen, 1993, p.108,110, pl.21, fig.11; pl.22, figs.1–7. Holotype: Nøhr-Hansen, 1993, pl.22, fig.1. Age: late Barremian–?earliest Aptian.

"***turneri***" Cookson and Eisenack, 1958, p.55, pl.5, figs.2–6. Holotype: Cookson and Eisenack, 1958, pl.5, fig.3. **NOW** *Endoceratium*. Originally *Pseudoceratium*, subsequently (and now) *Endoceratium*. Age: Aptian–Albian.

weymouthense Helby, 1987, p.316–317, figs.19A–C,20A–D. Holotype: Helby, 1987, figs.19A–B; Fensome et al., 1996, figs.1–2 — p.2443. Age: late Tithonian–early Berriasian.

"**PSEUDOCERATIUM** subgenus **EOPSEUDOCERATIUM**" Neale and Sarjeant, 1962, p.446. Originally *Pseudoceratium* subgenus *Eopseudoceratium*, subsequently *Eopseudoceratium*. **Taxonomic senior synonym:** *Pseudoceratium*, according to Stover and Evitt (1978, p.77). Type: Neale and Sarjeant, 1962, pl.20, fig.3; text-fig.5, as *Pseudoceratium (Eopseudoceratium) gochtii*.

"**PSEUDOCERATIUM** subgenus **PSEUDOCERATIUM**". Autonym. **Now redundant.** Type: Gocht, 1957, pl.18, fig.1, as *Pseudoceratium pelliferum*.

PSEUDODEFLANDREA Alberti, 1959a, p.91–92. Type: Alberti, 1959a, text-fig.1, as *Pseudodeflandrea gigantea*.

****gigantea*** Alberti, 1959a, p.92; text-fig.1. Holotype: Alberti, 1959a, text-fig.1. Lentin and Williams (1976, p.125) suggested that this species may be a form of *Odontochitinospis* or *Xenascus*. Age: middle Oligocene.

PSEUDOKOMEWUIA He Chengquan, 1980, p.1–2. Chen et al. (1988, p.23) considered that this genus was not effectively published, because He Chengquan (1980) was distributed as a handout at the Fifth International Palynological Conference in 1980 at Cambridge, England. However, according to Jansonius in Lentin and Williams (1989, p.307–308), this distribution was sufficient to satisfy the requirements of the I.C.N. (although I.C.N. Article 30.1 may shed doubt on this assessment). Type: He Chengquan, 1980, pl.1, fig.1, as *Pseudokomewuia laevigata*.

cerciata He Chengquan, 1980, p.3–4, pl.1, figs.7–8. Holotype: He Chengquan, 1980, pl.1, fig.7. Age: Oligocene.

communis (He Chengquan, 1984b, p.159, pl.5, figs.18–20) He Chengquan et al., 2009, p.534. Holotype: He Chengquan, 1984b, pl.5, fig.18. Originally *Pareodinia*, subsequently *Pareodinia*?, thirdly (and now) *Pseudokomewuia*. Age: middle-late Oligocene.

granulata He Chengquan, 1980, p.4, pl.1, figs.9–12. Holotype: He Chengquan, 1980, pl.1, fig.10. Age: Oligocene.

****laevigata*** He Chengquan, 1980, p.2–3, pl.1, figs.1–6; text-figs.1–3. Holotype: He Chengquan, 1980, pl.1, fig.1. Age: Oligocene.

subsp. *fusifformis* He Chengquan, 1984b, p.165, pl.3, figs.5–9. Holotype: He Chengquan, 1984b, pl.3, fig.6. Age: Tertiary.

subsp. *laevigata*. Autonym. Holotype: He Chengquan, 1980, pl.1, fig.1.

subsp. *subtilis* He Chengquan, 1984b, p.165, pl.3, figs.10–13; text-fig.4. Holotype: He Chengquan, 1984b, pl.3, fig.12; text-fig.4. Age: Tertiary.

longangulata Liu Zhili and Zheng Yuefang in Liu Zhili et al., 1992, p.81, pl.7, fig.4. Holotype: Liu Zhili et al., 1992, pl.7, fig.4. Liu Zhili and Zheng Yuefang in Liu Zhili et al. (1992, p.81) included this species in *Pseudokomewuia* subgenus *Condocorpidia*. Age: Early Tertiary.

minuticornicula Liu Zhili and Zheng Yuefang in Liu Zhili et al., 1992, p.81, pl.7, fig.1. Holotype: Liu Zhili et al., 1992, pl.7, fig.1. Liu Zhili and Zheng Yuefang in Liu Zhili et al. (1992, p.81) included this species in *Pseudokomewuia* subgenus *Pseudokomewuia*. Age: Early Tertiary.

radiata He Chengquan, 1984b, p.167, pl.5, fig.14. Holotype: He Chengquan, 1984b, pl.5, fig.14. He Chengquan (1984b, p.167) included this species in *Pseudokomewuia* subgenus *Condocorpidia*. Age: Tertiary.

retirugosa He Chengquan, 1980, p.5–6, pl.1, figs.15–16. Holotype: He Chengquan, 1980, pl.1, fig.16. He Chengquan (1980, p.5) included this species in *Pseudokomewuia* subgenus *Condocorpidia*. Age: Oligocene.

subsp. *pygmea* He Chengquan, 1984b, p.168, pl.5, figs.16–17; text-fig.8. Holotype: He Chengquan, 1984b, pl.5, fig.17; text-fig.8. Age: Tertiary.

subsp. *retirugosa*. Autonym. Holotype: He Chengquan, 1980, pl.1, fig.16.

shangsica He Chengquan, 1984b, p.168–169, pl.4, figs.14–20; pl.5, figs.1–6; text-fig.9. Holotype: He Chengquan, 1984b, pl.4, fig.14. He Chengquan (1984b, p.168) included this species in *Pseudokomewuia* subgenus *Condocorpidia*. Age: Tertiary.

subsp. *pygmea* He Chengquan, 1984b, p.169, pl.5, figs.1–6. Holotype: He Chengquan, 1984b, pl.5, fig.1. Age: Tertiary.

subsp. *shangsica*. Autonym. Holotype: He Chengquan, 1984b, pl.4, fig.14.

sparsa He Chengquan, 1991, p.60–61, pl.12, figs.3–4. Holotype: He Chengquan, 1991, pl.12, fig.3. He Chengquan (1991, p.60) did not include this species in a subgenus. Age: late Turonian–early Senonian.

tuberculata He Chengquan, 1984b, p.169, pl.5, fig.15. Holotype: He Chengquan, 1984b, pl.5, fig.15. He Chengquan (1984b, p.169) included this species in *Pseudokomewuia* subgenus *Condocorpidia*. Age: Tertiary.

unicornis He Chengquan, 1980, p.5, pl.1, figs.13–14; text-fig.4. Holotype: He Chengquan, 1980, pl.1, fig.14. Age: Oligocene.

PSEUDOKOMEWUIA subgenus **CONDOPIDIA** He Chengquan, 1980, p.4. He Chengquan (1980 and 1984b) included the following species in this subgenus: *Pseudokomewuia radiata*, *Pseudokomewuia retirugosa*, *Pseudokomewuia shangsica*, *Pseudokomewuia tuberculata*, and *Pseudokomewuia unicornis*. Liu Zhili and Zheng Yuefang in Liu Zhili et al. (1992, p.81) included *Pseudokomewuia longangulata* in this subgenus. He Chengquan et al. (2009, p.534–537) included the following species in this subgenus: *Pseudokomewuia communis*, *Pseudokomewuia longangulata*, *Pseudokomewuia radiata*, *Pseudokomewuia retirugosa*, *Pseudokomewuia shangsica*, *Pseudokomewuia tuberculata* and *Pseudokomewuia unicornis*. Type: He Chengquan, 1980, pl.1, fig.14, as *Pseudokomewuia unicornis*.

PSEUDOKOMEWUIA subgenus **PSEUDOKOMEWUIA**. Autonym. All species not assigned to *Pseudokomewuia* subgenus *Condocorpidia* are included in the type subgenus. Liu Zhili and Zheng Yuefang in Liu Zhili et al. (1992, p.81) specifically included *Pseudokomewuia minuticornicula* in this subgenus. He Chengquan et al. (2009, p.537–540) included the following species in this subgenus: *Pseudokomewuia cerciata*, *Pseudokomewuia granulata*, *Pseudokomewuia laevigata*, *Pseudokomewuia minuticornicula* and *Pseudokomewuia sparsa*. Type: He Chengquan, 1980, pl.1, fig.1, as *Pseudokomewuia laevigata*.

"PSEUDOMUDERONGIA" Jain and Khowaja-Ateequzzaman, 1984, p.40. **Taxonomic senior synonym:** *Muderongia*, according to Helby (1987, p.297) and Stover and Williams (1987, p.181). Type: Burger, 1980b, fig.9B, as *Muderongia testudinaria*.

"asymmetrica" (Brideaux, 1977, p.40, pl.15, figs.9–10; pl.16, fig.1) Jain and Khowaja-Ateequzzaman, 1984, p.40. Emendation: Monteil, 1991b, p.472, as *Muderongia asymmetrica*. Holotype: Brideaux, 1977, pl.15, fig.9; pl.16, fig.1. **NOW** *Muderongia*. Originally (and now) *Muderongia*, subsequently *Pseudomuderongia*. Age: Aptian–early Albian.

"*testudinaria" (Burger, 1980b, p.274–275, figs.9B,10A–E) Jain and Khowaja-Ateequzzaman, 1984, p.40. Holotype: Burger, 1980b, fig.9B; Fensome et al., 1996, fig.1 — p.2401. **NOW** *Muderongia*. Originally (and now) *Muderongia*, subsequently *Pseudomuderongia*. Taxonomic junior synonyms: *Phoberocysta lowryi*, *Phoberocysta burgeri* and *Phoberocysta edgellii*, all according to Monteil (1991b, p.476). Age: ?Hauterivian.

PSEUDOPITHONELLA Versteegh, 1993, p.373,376. Calcareous dinoflagellate genus (see Streng et al., 2004, p.483 and Elbrächter et al., 2008, p.1298, the latter noting that the cyst wall is pithonelloid and so a dinoflagellate affinity is questionable). See also *Pseudopithonella* Trejo in Appendix A. Type: Versteegh, 1993, pl.9, figs.3–4, as *Pseudopithonella striatula*.

***striatula** Versteegh, 1993, p.376, pl.9, figs.1–6. Holotype: Versteegh, 1993, pl.9, figs.3–4. Age: late Pleistocene.

PSEUDORHOMBODINIUM Wrenn, 1996, p.212,214. Type: Wrenn, 1996, pl.3, fig.4, as *Pseudorhombodinium lisbonense*.

***lisbonense** Wrenn, 1996, p.214,216,218, pl.1, figs.1–4; pl.2, figs.1–5; pl.3, figs.1–4. Holotype: Wrenn, 1996, pl.3, fig.4. Age: middle Eocene.

"PSEUDOSPINIFERITES" Lund, 2002, p.87. **Taxonomic senior synonym:** *Spiniferites*, by implication in Schiøler (2005, p.30), who transferred the type, *Pseudospiniferites manumii*, to *Spiniferites*. Type: Lund, 2002, pl.1, figs.1–2, as *Pseudospiniferites manumii*.

"*manumii" Lund, 2002, p.87–88, pl.1, figs.1–7. Emendation: Schiøler, 2005, p.30, as *Spiniferites manumii*. Holotype: Lund, 2002, pl.1, figs.1–2. **NOW** *Spiniferites*. Originally *Pseudospiniferites*, subsequently (and now) *Spiniferites*. Age: early Oligocene.

PSEUDOSTEPHODINIUM Yu Jingxian et al., 1981, p.262. Type: Yu Jingxian et al., 1981, pl.1, fig.34, as *Pseudostephodinium sanshuiense*.

***sanshuiense** Yu Jingxian et al., 1981, p.262, pl.1, figs.33–34; text-fig.4. Holotype: Yu Jingxian et al., 1981, pl.1, fig.34. Age: Late Cretaceous.

"**PTEROCOCCUS**" Lohmann, 1904, p.47. **Name illegitimate** — **senior homonyms**: *Pterococcus* Pallas, 1773 and *Pterococcus* Hasskarl, 1842. Substitute name: *Coccopterum*. **Taxonomic senior synonym**: *Nematosphaeropsis*, by implication in Reid (1977, p.592) and Fensome et al. (1993b, p.93), who included the "type species" of *Pterococcus*, *Pterococcus labyrinthus*, in *Nematosphaeropsis*. Type: Ostenfeld, 1903, fig.127, as *Pterosperma labyrinthus*.

"**labyrinthus*" (Ostenfeld, 1903, p.578, fig.127) Lohmann, 1904, p.47. Holotype: Ostenfeld, 1903, fig.127. **Combination illegitimate**: generic name illegitimate. **NOW** *Nematosphaeropsis*. Originally *Pterosperma* (Appendix A), subsequently *Pterococcus* (combination illegitimate), thirdly *Coccopterum*, fourthly (and now) *Nematosphaeropsis*. Taxonomic junior synonym: *Nematosphaeropsis balcombiana*, according to Reid (1974, p.592) — however, Wrenn (1988, p.139) retained *Nematosphaeropsis balcombiana*. Motile equivalent: *Gonyaulax spinifera* (Claparède and Lachmann, 1859) Diesing, 1866, according to Dodge (1989, p.289). N.I.A. Age: extant.

PTEROCYSTA Rochon in Rochon et al., 2003, p.97. Type: Rochon et al., 2003, pl.1, figs.1,4, as *Pterocysta cruciformis*.

**cruciformis* Rochon in Rochon et al., 2003, p.97–98,100,102, pl.1, figs.1–9; pl.2, figs.1–9; text-fig.2A–D. Holotype: Rochon et al., 2003, pl.1, figs.1,4. Age: late Pleistocene.

PTERODINIUM Eisenack, 1958a, p.395. Emendations: Yun Hyesu, 1981, p.12; Sarjeant, 1985a, p.70–72 — however, see Jan du Chêne et al. (1986a, p.273). Type: Eisenack, 1958a, pl.24, fig.6; text-fig.6, as *Pterodinium aliferum*.

agadirensis Below, 1981a, p.112–113, pl.3, figs.9a–b. Holotype: Below, 1981a, pl.3, figs.9a–b; Jan du Chêne et al., 1986a, pl.87, figs.13–14; Fensome et al., 1991, figs.1–3 — p.565. Age: Aptian (Gargasian).

"*alectrolophum*" (Sarjeant, 1966b, p.134–135, pl.15, figs.3–6; text-fig.34) Below, 1982d, p.352–353. Holotype: Sarjeant, 1966b, pl.15, figs.5–6; Jan du Chêne et al., 1986a, pl.54, figs.15–16. **NOW** *Impagidinium*. Originally *Leptodinium*, subsequently (and now) *Impagidinium*, thirdly *Pterodinium*. Age: middle Barremian.

**aliferum* Eisenack, 1958a, p.395–396, pl.24, fig.6; text-fig.6. Emendation: Sarjeant, 1985a, p.72–74 — however, see Jan du Chêne et al. (1986a, p.273). Holotype: Eisenack, 1958a, pl.24, fig.6; text-fig.6; Sarjeant, 1985a, pl.5, figs.1–2; text-fig.5; Jan du Chêne et al., 1986a, pl.87, figs.1–6. Age: late Aptian.

ayachense Guédé and Slimani in Guédé et al., 2014, p.298, figs.6A–P. Holotype: Guédé et al., 2014, figs.6A–D. Age: Maastrichtian–Selandian.

bab Below, 1981a, p.113, pl.7, figs.10a–b,11a–c; pl.14, figs.9,12a–c,13; text-figs.72a–d,73a–c. Holotype: Below, 1981a, pl.7, figs.11a–c; Jan du Chêne et al., 1986a, pl.87, fig.8; Fensome et al., 1991, figs.1–3 — p.581. Originally (and now) *Pterodinium*, subsequently *Leptodinium*. Jan du Chêne et al. (1986a, p.273) retained this species in *Pterodinium*. Below (1981a, p.113) named this species *Pterodinium bab*; "bab" is the Arabic for door. Head et al. (1989b, p.458), citing the then active I.C.B.N. Article 73.10, latinized the epithet "bab" to "babatum". However, I.C.N. Article 60.1 indicates that the spelling of a name/epithet such as "bab" must not be changed. N.I.A. Age: Hauterivian.

cingulatum (Wetzel, 1933b, p.28, pl.4, fig.10) Below, 1981a, p.114. Holotype: Wetzel, 1933b, pl.4, fig.10. Originally *Cymatiosphaera* (Appendix A), subsequently *Hystrichosphaera*, thirdly *Spiniferites*, fourthly *Spiniferites?*, fifthly (and now) *Pterodinium*. Taxonomic junior synonym: *Cymatiosphaera* (as *Spiniferites?*) *ptero*, according to Below (1981a, p.114) — however, Pavlishina (1990, p.95) retained *Cymatiosphaera* (now *Pterodinium?*) *ptero*. Age: Senonian.

subsp. *cingulatum*. Autonym. Holotype: Wetzel, 1933b, pl.4, fig.10. Originally *Spiniferites cingulatus* subsp. *cingulatus*, subsequently *Spiniferites? cingulatus* subsp. *cingulatus*, thirdly (and now) *Pterodinium cingulatum* subsp. *cingulatum*.

subsp. *conterminatum* Marheinecke, 1992, p.39–40, pl.5, figs.10–12. Holotype: Marheinecke, 1992, pl.5, figs.10–12. Contrary to the opinion of Lentin and Williams (1993, p.551), Williams et al. (1998, p.517) considered this name to be validly published. Age: early Maastrichtian.

subsp. *danicum* Jan du Chêne, 1988, p.163–164, pl.19, figs.7–13; text-figs.6A–B. Holotype: Jan du Chêne, 1988, pl.19, figs.7–9. Age: Danian.

subsp. *exile* Marheinecke, 1992, p.40, pl.5, figs.7–9. Holotype: Marheinecke, 1992, pl.5, figs.7–9. Contrary to the opinion of Lentin and Williams (1993, p.551), Williams et al. (1998, p.517) considered this name to be validly published. Age: late early–early late Maastrichtian.

subsp. *granulatum* (Clarke and Verdier, 1967, p.45–46, pl.9, figs.5–6; text-fig.18) Lentin and Williams, 1981, p.238. Holotype: Clarke and Verdier, 1967, pl.9, fig.5; Jan du Chêne et al., 1986a, pl.88, figs.5–8. Originally *Hystrichosphaera cingulata* var. *granulata*, subsequently *Spiniferites cingulatus* subsp. *granulatus*, thirdly *Spiniferites? cingulatus* subsp. *granulatus*, fourthly (and now) *Pterodinium cingulatum* subsp. *granulatum*. Age: Cenomanian.

subsp. *intermedium* (Cookson and Eisenack, 1974, p.64, pl.23, figs.8–9,11) Lentin and Williams, 1981, p.238. Holotype: Cookson and Eisenack, 1974, pl.23, fig.8, lost according to Jan du Chêne et al. (1986a, p.274). Originally *Spiniferites cingulatus* var. *intermedius*, subsequently *Spiniferites cingulatus* subsp. *intermedius*, thirdly *Spiniferites? cingulatus* subsp. *intermedius*, fourthly (and now) *Pterodinium cingulatum* subsp. *intermedium*. Age: Senonian.

subsp. *ovale* (Cookson and Eisenack, 1974, p.64–65, pl.23, fig.12a–b) Lentin and Williams, 1981, p.238. Holotype: Cookson and Eisenack, 1974, pl.23, fig.12a–b, lost according to Jan du Chêne et al. (1986a, p.274). Originally *Spiniferites cingulatus* var. *ovalis*, subsequently *Spiniferites cingulatus* subsp. *ovalis*, thirdly *Spiniferites? cingulatus* subsp. *ovalis*, fourthly (and now) *Pterodinium cingulatum* subsp. *ovale*. Age: Paleocene.

subsp. *polygonale* (Clarke and Verdier, 1967, p.47, pl.8, figs.7–8; text-fig.20) Paul et al., 1994, p.722. Holotype: Clarke and Verdier, 1967, pl.8, fig.7; Jan du Chêne et al., 1986a, pl.89, figs.7–9. Originally *Hystrichosphaera cingulata* var. *polygonalis*, subsequently *Spiniferites cingulatus* subsp. *polygonalis*, thirdly *Spiniferites? cingulatus* subsp. *polygonalis*, fourthly (and now) *Pterodinium cingulatum* subsp. *polygonale*. Taxonomic senior synonyms (at specific rank): *Hystrichosphaera* (now *Spiniferites*) *crassimurata*, according to Clarke et al. (1968, p.181) and *Cymatiosphaera* (now *Pterodinium?*) *pterota*, according to Pavlishina (1990, p.95) — however, Paul et al. (1994, p.722) retained *Hystrichosphaera cingulata* subsp. *polygonalis* (as *Pterodinium cingulatum* subsp. *polygonale*). Age: Cenomanian.

subsp. *reticulatum* (Davey and Williams, 1966a, p.39, pl.1, fig.10; pl.2, fig.4) Lentin and Williams, 1981, p.238. Holotype: Davey and Williams, 1966a, pl.1, fig.10; pl.2, fig.4. Originally *Hystrichosphaera cingulata* var. *reticulata*, subsequently *Spiniferites cingulatus* subsp. *reticulatus*, thirdly *Spiniferites? cingulatus* subsp. *reticulatus*, fourthly (and now) *Pterodinium cingulatum* subsp. *reticulatum*. Taxonomic junior synonym: *Hystrichosphaera cingulata* var. *perforata*, according to Clarke et al. (1968, p.181). Age: Cenomanian.

"*circumsutum*" Morgenroth, 1966b, p.5, pl.1, figs.3–4. Holotype: Morgenroth, 1966b, pl.1, fig.3. **NOW** *Pentadinium?*. Originally *Pterodinium*, subsequently (and now) *Pentadinium?*. Age: early Oligocene.

?*cornutum* Cookson and Eisenack, 1962b, p.490, pl.3, figs.1–6. Holotype: Cookson and Eisenack, 1962b, pl.3, figs.1–3; Jan du Chêne et al., 1986a, pl.90, fig.1. Originally *Pterodinium*, subsequently (and now) *Pterodinium?*, thirdly *Gonyaulacysta*. Jan du Chêne et al. (1986a, p.274) questionably retained this species in *Pterodinium*. Questionable assignment: Stover and Evitt (1978, p.183). Age: Aptian–?Albian.

"*crassimuratum*" (Davey and Williams, 1966a, p.39, pl.1, fig.11) Thurow et al., 1988, p.624. Holotype: Davey and Williams, 1966a, pl.1, fig.11. Originally *Hystrichosphaera*, subsequently *Spiniferites*, thirdly *Pterodinium*. **Taxonomic senior synonym:** *Cymatiosphaera* (as *Spiniferites?*, now *Pterodinium*) *pterota*, according to Kjellström

(1973, p.44) and Pavlishina (1990, p.95). Taxonomic junior synonym (at specific rank): *Hystrichosphaera cingulata* var. *polygonalis*, according to Clarke et al. (1968, p.181) — however, Paul et al. (1994, p.722) retained *Hystrichosphaera cingulata* var. *polygonalis* (as *Pterodinium cingulatum* subsp. *polygonale*). Age: Cenomanian.

cretaceum Slimani et al., 2008, p.334, figs.4A–F. Holotype: Slimani et al., 2008, figs.4A–D. Age: late Maastrichtian.

eisenackii Jain, 1977b, p.178, pl.6, fig.73. Holotype: Jain, 1977b, pl.6, fig.73; Jan du Chêne et al., 1986a, pl.90, figs.6–7. Age: early Albian.

"**magnoserratum**" Cookson and Eisenack, 1962b, p.490, pl.3, figs.7–8. Holotype: Cookson and Eisenack, 1962b, pl.3, figs.7–8. **NOW** *Spiniferites*?. Originally *Pterodinium*, subsequently (and now) *Spiniferites*?, thirdly *Gonyaulacysta*. Age: Aptian–?Albian.

?**makropterum** (Cookson and Eisenack, 1982, p.47–48, pl.7, figs.1–3) Lentin and Williams, 1985, p.300. Holotype: Cookson and Eisenack, 1982, pl.7, fig.2. Originally *Spiniferites*, subsequently (and now) *Pterodinium*?. Questionable assignment: Lentin and Williams (1985, p.300). Age: Middle Cretaceous.

mamounia Below, 1981a, p.116–117, pl.7, figs.9a–d; pl.15, fig.14; text-figs.77a–b. Holotype: Below, 1981a, pl.7, figs.9a–d; Jan du Chêne et al., 1986a, pl.87, fig.7; Fensome et al., 1991, figs.1–4 — p.667. N.I.A. Age: Aptian (Gargasian).

"?**perforatum**" (Clarke and Verdier, 1967, p.36–37, pl.6, figs.1–3; text-fig.15) Davey and Verdier, 1971, p.30–31. Emendations: Davey and Verdier, 1971, p.30, as *Pterodinium perforatum*; Below, 1981a, p.23–24; Masure, 1988a, p.363–364, both as *Maghrebina perforata*. Holotype: Clarke and Verdier, 1967, pl.6, figs.1–2; Masure, 1988a, pl.1, figs.1–9; text-figs.1a–b; Fensome et al., 1995, figs.1–2 — p.1653; Fauconnier and Masure, 2004, pl.10, figs.5–6. **NOW** *Atopodinium*. Originally *Dinopterygium*, subsequently *Pterodinium*, thirdly *Pterodinium*?, fourthly *Maghrebina*, fifthly (and now) *Atopodinium*. Questionable assignment: Stover and Evitt (1978, p.183). Age: early Cenomanian.

premon Duxbury, 1980, p.131, pl.3, figs.1–2. Holotype: Duxbury, 1980, pl.3, figs.1–2; Jan du Chêne et al., 1986a, pl.87, figs.9–10. N.I.A. Age: middle Barremian.

?**pterotum** (Cookson and Eisenack, 1958, p.50, pl.11, fig.7) Pavlishina, 1990, p.95. Emendation: Pavlishina, 1990, p.95, as *Pterodinium? pterotum*. Holotype: Cookson and Eisenack, 1958, pl.11, fig.7. Originally *Cymatiosphaera* (Appendix A), subsequently *Spiniferites*, thirdly *Hystrichosphaera*, fourthly *Spiniferites*?, fifthly (and now) *Pterodinium*?. Questionable assignment: Pavlishina (1990, p.95). Taxonomic senior synonym: *Cymatiosphaera* (as and now *Pterodinium*) *cingulata*, according to Below (1981a, p.114) — however, Pavlishina (1990, p.95) retained *Cymatiosphaera* (now *Pterodinium?*) *pteroata*. Taxonomic junior synonyms: *Hystrichosphaera* (as *Spiniferites*) *crassimurata*, according to Kjellström (1973, p.44) and Pavlishina (1990, p.95); (at specific rank) *Hystrichosphaera cingulata* var. *polygonalis*, according to Pavlishina (1990, p.95) — however, Paul et al. (1994, p.722) retained *Hystrichosphaera cingulata* subsp. *polygonalis* (as *Pterodinium cingulatum* subsp. *polygonale*). Age: Albian–Maastrichtian.

?**reticulatum** Singh, 1971, p.358–359, pl.60, figs.6–7. Holotype: Singh, 1971, pl.60, figs.6–7; Jan du Chêne et al., 1986a, pl.90, figs.4–5. Originally *Pterodinium*, subsequently (and now) *Pterodinium*?. Questionable assignment: Stover and Evitt (1978, p.183). Age: middle Albian.

"**striatum**" (Clarke and Verdier, 1967, p.31, pl.4, figs.11–13; pl.5, fig.15; text-fig.12) Yun Hyesu, 1981, p.12. Holotype: Clarke and Verdier, 1967, pl.4, figs.11–13; Jan du Chêne et al., 1986a, pl.88, figs.9–11. **NOW** *Dimidium*. Originally *Gonyaulacysta*, subsequently *Leptodinium*, thirdly *Impagidinium*, fourthly *Pterodinium*, fifthly (and now) *Dimidium*. Age: Santonian.

tuberculatum Khowaja-Ateequzaman and Jain, 1992, p.172,174, pl.8, fig.5. Holotype: Khowaja-Ateequzaman and Jain, 1992, pl.8, fig.5. Age: Hauterivian–Barremian.

"**verrucosum**" Brideaux and McIntyre, 1975, p.30, pl.9, figs.1–8. Holotype: Brideaux and McIntyre, 1975, pl.9, figs.1–4; Jan du Chêne et al., 1986a, pl.64, figs.16–19. **NOW** *Impagidinium*. Originally *Pterodinium*, subsequently (and now) *Impagidinium*. Age: middle Albian.

PULCHRASPHERA Schiøler et al., 1997, p.89. Type: Schiøler et al., 1997, pl.1, figs.1–3, as *Pulchraspera minuscula*.

***minuscula** Schiøler et al., 1997, p.89, pl.1, figs.1–6; pl.2, figs.1–8. Holotype: Schiøler et al., 1997, pl.1, figs.1–3. Taxonomic junior synonym: *Nexosispinum? complicatum*, according to Slimani (2001b, p.5). Age: late Maastrichtian.

"**PYLOMACYSTION**" Warren in Brideaux and McIntyre, 1973, p.400. **Name not validly published**: no description. **Taxonomic senior synonym**: *Lunatadinium*, according to Brideaux and McIntyre (1973, p.400).

"**californicum**" Warren in Brideaux and McIntyre, 1973, p.400. **Name not validly published**: no description or illustration. **Taxonomic senior synonym**: *Lunatadinium dissolutum*, according to Brideaux and McIntyre (1973, p.400).

"**PYRAMIDIUM**" Clarke and Verdier, 1967, p.39–40. **Name illegitimate** — **nomenclatural senior synonym**: *Xiphophoridium*, which has the same type. Taxonomic senior synonym: *Oodnadattia*, according to Below (1981a, p.64) — however, Lentin and Williams (1981, p.238,294) retained *Xiphophoridium*. Type: Cookson and Eisenack, 1962b, pl.2, fig.1, as *Hystrichodinium alatum*.

***alatum** (Cookson and Eisenack, 1962b, p.487–488, pl.2, figs.1–4) Clarke and Verdier, 1967, p.40. Emendation: Sarjeant, 1966b, p.147, as *Xiphophoridium alatum*. Holotype: Cookson and Eisenack, 1962b, pl.2, fig.1; Fensome et al., 1993a, fig.1 — p.893; Fauconnier and Masure, 2004, pl.80, fig.6. **NOW** *Dinopterygium*. Originally *Hystrichodinium*, subsequently *Xiphophoridium*, thirdly *Pyramidium* (generic name illegitimate), fourthly *Oodnadattia*, fifthly (and now) *Dinopterygium*. Age: Albian–Cenomanian.

PYXIDIELLA Cookson and Eisenack, 1958, p.51. Type: Cookson and Eisenack, 1958, pl.6, fig.10, as *Pyxidiella pandora*.

"**limata**" Beju, 1978, p.4. **Name not validly published**: no description or illustration.

***pandora** Cookson and Eisenack, 1958, p.52, pl.6, figs.10–11. Holotype: Cookson and Eisenack, 1958, pl.6, fig.10. Age: Late Jurassic.

?**scrobiculata** (Deflandre and Cookson, 1955, p.291, pl.3, fig.3; text-fig.57) Cookson and Eisenack, 1958, p.52. Holotype: Deflandre and Cookson, 1955, pl.3, fig.3. Originally *Leiosphaera* (Appendix A), subsequently *Pyxidiella*, thirdly *Leiosphaeridia* (Appendix A), fourthly *Palaeostomocystis* (Appendix A), fifthly (and now) *Pyxidiella?*, sixthly *Batiacasphaera*. De Coninck (1986b, p.18) questionably retained this species in *Pyxidiella*. Questionable assignment: Stover and Evitt (1978, p.120). Age: Santonian–Eocene.

?**simplex** Harland, 1979b, p.537–538, pl.3, figs.12–15. Holotype: Harland, 1979b, pl.3, fig.12. Originally (and now) *Pyxidiella?*, subsequently *Tectatodinium*. Lentin and Williams (1985, p.301) questionably retained this species in *Pyxidiella*. Questionable assignment: Harland (1979b, p.537). Age: late Miocene.

triangularis Yu Jingxian, 1982, p.257, pl.6, figs.14–16. Holotype: Yu Jingxian, 1982, pl.6, fig.15. Age: Late Jurassic–Early Cretaceous.

tumida Stover and Helby, 1987d, p.271, figs.9A–U. Holotype: Stover and Helby, 1987d, figs.9A–E; Fensome et al., 1996, figs.1–5 — p.2413. Age: Barremian–early Aptian.

PYXIDINOPSIS Habib, 1976, p.382. Type: Habib, 1976, pl.1, figs.1a–b, as *Pyxidinospis challengerensis*.

ardonensis Jan du Chêne, 1988, p.164, pl.14, figs.1–9. Holotype: Jan du Chêne, 1988, pl.14, figs.1–3. Age: Danian.

asperata (Jiabo, p.110, pl.41, figs.18–20) He Chengquan et al., 2009, p.240. Holotype: Jiabo, pl.41, fig.18. Originally *Dictyotidium* (Appendix A), subsequently (and now) *Pyxidinospis*. Age: late Eocene–early Oligocene.

bakonyensis (Góczán, 1962, p.193–194,200, pl.3, figs.4–10) Stover and Evitt, 1978, p.184. Holotype: Góczán, 1962, pl.3, figs.4–5. Originally *Palaeostomocystis* (Appendix A), subsequently (and now) *Pyxidinospis*. Age: Maastrichtian.

brabantiana Louwye, 2001, p.129, fig.7, nos.1–11. Holotype: Louwye, 2001, fig.7, nos.1–3. Age: early-middle Miocene.

braboi De Schepper et al., 2004, p.628,631, fig.6, nos.1–12. Holotype: De Schepper et al., 2004, fig.6, nos.1–6. Age: late early–early late Pliocene.

***challengerensis** Habib, 1976, p.382, pl.1, figs.1a–b; pl.3, figs.1–2. Holotype: Habib, 1976, pl.1, figs.1a–b; Fensome et al., 1993a, figs.1–2 — p.1043. Age: Berriasian–Hauterivian.

circulareticulata (Liu Zhili and Zheng Yuefang in Liu Zhili et al. 1992, p.90, pl.20, figs.7–9) He Chengquan et al., 2009, p.241. Holotype: Liu Zhili et al. 1992, pl.20, fig.8. Originally *Dictyotidium* (Appendix A), subsequently (and now) *Pyxidinospis*. Age: Oligocene.

composita He Chengquan, 1991, p.118, pl.7, figs.1–5. Holotype: He Chengquan, 1991, pl.7, fig.1. Age: middle Eocene.

"consolida" Pan Zhaoren in Xu Jinli et al., 1997, p.72, pl.37, fig.12; pl.38, figs.11,16. Holotype: Xu Jinli et al., 1997, pl.37, fig.12. **Name not validly published:** no English or Latin description. **NOW** *Batiacasphaera*. Originally *Pyxidinospis* (name not validly published), subsequently (and now) *Batiacasphaera*. Age: Oligocene.

crassimurata Wilson, 1988, p.27, pl.17, figs.1a–b,2,3a–c. Holotype: Wilson, 1988, pl.17, figs.3a–c; Fensome et al., 1996, figs.4–6 — p.2095. Age: middle Eocene.

debiliconspicuta (Liu Zhili and Zheng Yuefang in Liu Zhili et al. 1992, p.90, pl.20, figs.4–6) He Chengquan et al., 2009, p. 241. Holotype: Liu Zhili et al. 1992, pl.20, fig.4. Originally *Dictyotidium* (Appendix A), subsequently (and now) *Pyxidinospis*. Age: Oligocene.

delicata Wilson, 1988, p.27–28, pl.17, figs.6,7a–b. Holotype: Wilson, 1988, pl.17, figs.7a–b; Fensome et al., 1996, figs.2–3 — p.2103. Age: early to middle Eocene.

densepunctata de Coninck, 1985, p.68, pl.2, figs.20–21. Holotype: de Coninck, 1985, pl.2, fig.20. Age: middle Eocene.

densureticulata (Zheng Yuefang and Liu Zhili in Liu Zhili et al. 1992, p.90–91, pl.21, figs.6) He Chengquan et al., 2009, p.242. Holotype: Liu Zhili et al. 1992, pl.21, figs.6. Originally *Dictyotidium* (Appendix A), subsequently (and now) *Pyxidinospis*. Age: Oligocene.

"diallengerensis" Kedves, 1992, p.54. **Name not validly published:** no description or illustration. Presumably a misspelling of *Pyxidinospis challengerensis*.

elliptica Biffi and Manum, 1988, p.210, pl.14, figs.6–8. Holotype: Biffi and Manum, 1988, pl.14, fig.7. Age: Oligocene–early Miocene.

- epakros* Willumsen, 2011, p.226,228, figs.12G–J. Holotype: Willumsen, 2011, fig.12H. N.I.A. Age: late Maastrichtian–earliest Paleocene.
- everriculum* Willumsen, 2011, p.228,230, figs.13C–F. Holotype: Willumsen, 2011, fig.13F. N.I.A. Age: late Maastrichtian–earliest Paleocene.
- fairhavenensis* de Verteuil and Norris, 1996a, p.148, pl.11, figs.9–20; pl.12, figs.1–8. Holotype: de Verteuil and Norris, 1996a, pl.11, figs.9–11. Age: early Miocene.
- "*granospinosa*" Pan Zhaoren in Xu Jinli et al., 1997, p.71, pl.38, figs.21–24. Holotype: Xu Jinli et al., 1997, pl.38, fig.21. **Name not validly published:** no English or Latin description. **Taxonomic senior synonym:** *Pyxidinospis pylomica*, according to He Chengquan et al. (2009, p.245). Age: Oligocene.
- granulata* (Ioannides et al., 1977, p.462, pl.4, figs.18–19) Lentin and Williams, 1985, p.301. Holotype: Ioannides et al., 1977, pl.4, fig.18. Originally *Tapeinosphaeridium*, subsequently *Tectatodinium?*, thirdly (and now) *Pyxidinospis*. Age: middle Kimmeridgian.
- jiaboi* (Fensome et al., 1990, p.195) Fensome and Williams, 2004, p.563. Holotype: Jiabo, 1978, pl.41, fig.17. Originally *Dictyotidium reticulatum* Jiabo (name illegitimate; Appendix A), subsequently *Dictyotidium jiaboi* (Appendix A), thirdly *Pyxidinospis reticulata* (Jiabo, 1978) (name illegitimate), fourthly (and now) *Pyxidinospis jiaboi*. *Dictyotidium jiaboi* is a substitute name for *Dictyotidium reticulatum* Jiabo, 1978. Age: late Eocene–early Oligocene.
- laminata* (Davies, 1983, p.21, pl.6, figs.1–5,21; text-fig.16) Lentin and Williams, 1985, p.302. Holotype: Davies, 1983, pl.6, fig.21; text-fig.16. Originally *Tectatodinium*, subsequently (and now) *Pyxidinospis*. Age: late Oxfordian–late Tithonian.
- macroreticulata* (Liu Zhili and Zheng Yuefang in Liu Zhili et al. 1992, p.91, pl.21, figs.4–5) He Chengquan et al. 2009, p.243. Holotype: Liu Zhili et al. 1992, pl.21, fig.4. Originally *Dictyotidium* (Appendix A), subsequently (and now) *Pyxidinospis*. Age: Oligocene.
- meadensis* Willumsen, 2011, p.230,233, figs.12A–D. Holotype: Willumsen, 2011, figs.12A–B. Age: late Maastrichtian–early Paleocene.
- microgranulata* Pan Zhaoren in Xu Jinli et al., 1997, p.68–69, pl.38, figs.17–19 ex He Chengquan et al., 2009, p.243, 661. Holotype: Xu Jinli et al., 1997, pl.38, fig.17. Originally *Granoreticella* (name not validly published), subsequently (and now) *Pyxidinospis*. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.661) validated the name by publishing an English diagnosis. Age: Oligocene.
- microreticulata* (Jiabo, 1978, p.111, pl.41, figs.6–9) Pan Zhaoren in Xu Jinli et al., 1997, p.71. Holotype: Jiabo, 1978, pl.4, fig.8. Originally *Dictyotidium* (Appendix A), subsequently (and now) *Pyxidinospis*. Age: Oligocene.
- minor* He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.63, pl.7, figs.17–19. Holotype: He Chengquan et al., 1989, pl.7, fig.18. Taxonomic junior synonym: *Pyxidinospis rugireticulatum*, according to He Chengquan et al. (2009, p. 244). Age: Early Tertiary.
- naturalis* Pan Zhaoren in Xu Jinli et al., 1997, p.72, pl.39, figs.8–9 ex He Chengquan et al., 2009, p.661. Holotype: Xu Jinli et al., 1997, pl.39, fig.9. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.661) validated the name by publishing an English diagnosis. Age: Oligocene.
- ?*nuda* (Nagy, 1969, p.291, pl.1, fig.1) Williams et al., 1998, p.520–521. Holotype: Nagy, 1969, pl.1, fig.1. Originally *Palaeoperidinium nudum* Nagy, subsequently *Palaeoperidinium pannonium* (name illegitimate), thirdly *Phthanoperidinium pannonium* (name illegitimate), fourthly *Gonyaulacysta? nuda*, fifthly *Tectatodinium? nudum*,

sixthly *Tectatodinium pannonium* (name illegitimate), seventhly *Pyxidinospis? pannonia* (name illegitimate), eighthly (and now) *Pyxidinospis? nuda*. Questionable assignment: Head (1994a, p.308), for *Pyxidinospis? pannonia*. Nomenclatural junior synonym: *Palaeoperidinium* (subsequently *Phthanoperidinium*, *Tectatodinium?* and *Pyxidinospis?*) *pannonium*, which has the same type. Lentin and Williams (1973, p.106) proposed the name *Palaeoperidinium pannonium* for *Palaeoperidinium nudum* Nagy in the belief that the latter was an illegitimate junior homonym of *Palaeoperidinium nudum* Downie. However, Williams et al. (1998, p.521) re-interpreted *Palaeoperidinium nudum* Downie to be an invalid name; thus, *Palaeoperidinium nudum* Nagy must be considered as a validly published and legitimate name. In light of this, Williams et al. (1998, p.520–521) proposed the combination *Pyxidinospis? nuda*. Age: late Miocene.

"*ovis*" Zevenboom and Santarelli in Zevenboom, 1995, p.153–154, pl.9, figs.1–3. Holotype: Zevenboom, 1995, pl.9, figs.1–3. **Name not validly published:** considered a manuscript name. Age: earliest early Miocene–late Miocene.

pachyderma (Jiabo, 1978, p.111, pl.41, figs.10–12; pl.46, figs.2a–b) Pan Zhaoren in Xu Jinli et al., 1997, p.71. Holotype: Jiabo, 1978, pl.41, fig.12. Originally *Dictyotidium* (Appendix A), subsequently (and now) *Pyxidinospis*. Age: late Oligocene.

"*?pannonia*" (Lentin and Williams, 1973, p.106) Head, 1994a, p.308. Holotype: Nagy, 1969, pl.1, fig.1. **Name illegitimate — nomenclatural senior synonym:** *Palaeoperidinium* (now *Pyxidinospis?*) *nudum*, which has the same holotype. **NOW** *Pyxidinospis? nuda*. Originally *Palaeoperidinium nudum* Nagy, subsequently *Palaeoperidinium pannonium* (name illegitimate), thirdly *Phthanoperidinium pannonium* (name illegitimate), fourthly *Gonyaulacysta? nuda*, fifthly *Tectatodinium? nudum*, sixthly *Tectatodinium pannonium* (name illegitimate), seventhly *Pyxidinospis? pannonia* (name illegitimate), eighthly (and now) *Pyxidinospis? nuda*. Questionable assignment: Head (1994a, p.308). See also the discussion under *Pyxidinospis? nuda*. Age: late Miocene.

pastilliformis Head in Matsuoka and Head, 1992, p.168–170, pl.2, figs.1–15, 18–19; pl.3, figs.1–5, 7–8, 10–12. Holotype: Head et al., 1989a, pl.1, figs.9–10 (as *Batiacasphaera/Cerebrocysta?* Group A); Matsuoka and Head, 1992, pl.2, figs.7–10, 13. Age: late Miocene.

"*protospinosus*" Zevenboom and Santarelli in Zevenboom, 1995, p.154, pl.9, figs.4–8. Holotype: Zevenboom, 1995, pl.9, figs.7–8. **Name not validly published:** considered a manuscript name. The epithet is correctly rendered as "*protospinosus*", not "*protospinosis*". Age: late early Miocene–earliest middle Miocene.

pseudodictyota He Chengquan, 1991, p.118–119, pl.7, figs.6–8. Holotype: He Chengquan, 1991, pl.7, fig.7. Age: middle Eocene.

psilata (Wall and Dale in Wall et al., 1973, p.22–23, pl.1, figs.9–15; pl.3, figs.1–6) Head, 1994a, p.308. Holotype: Wall et al., 1973, pl.1, fig.9; Head, 1994b, pl.5, figs.8–10. Originally *Tectatodinium*, subsequently (and now) *Pyxidinospis*. Age: Holocene.

pylomica (Jiabo, 1978, p.103, pl.39, figs.11–14) He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.63–64. Holotype: Jiabo, 1978, pl.39, fig.14. Originally *Granodiscus* (Appendix A), subsequently (and now) *Pyxidinospis*. Age: Oligocene.

"*reticulata*" (Jiabo, 1978, p.111, pl.41, figs.13–17) Pan Zhaoren in Xu Jinli et al., 1997, p.72. Holotype: Jiabo, 1978, pl.41, fig.17. **Name illegitimate: senior homonym:** *Pyxidinospis reticulata* McMinn and Sun Xuekun, 1994. **NOW** *Pyxidinospis jiaboi*. Originally *Dictyotidium reticulatum* Jiabo (name illegitimate; Appendix A), subsequently *Dictyotidium jiaboi* (Appendix A), thirdly *Pyxidinospis reticulata* (name illegitimate), fourthly (and now) *Pyxidinospis jiaboi*. Age: late Eocene–early Oligocene.

reticulata McMinn and Sun Xuekun, 1994, p.48,50, pl.3, figs.1–4. Emendation: Marret and de Vernal, 1997, p.387. Holotype: McMinn and Sun Xuekun, 1994, pl.3, figs.3–4. Junior homonym: *Pyxidinospis reticulata* (Jiabo 1978) Pan Zhaoren in Xu Jinli et al. Age: Holocene.

?*retiola* Dodekova, 1994, p.42–43, pl.12, figs.1–2,4,7. Holotype: Dodekova, 1994, pl.12, fig.1. Questionable assignment: Dodekova (1994, p.42). Age: early to middle Tithonian.

spinoreticulatum (Jiabo, 1978, p.111–112, pl.42, figs.5–6) Pan Zhaoren in Xu Jinli et al., 1997, p.72. Holotype: Jiabo, 1978, pl.42, fig.5. Originally *Dictyotidium* (Appendix A), subsequently (and now) *Pyxidinospis*. Age: late Eocene–early Oligocene.

"*spinosus*" Zevenboom and Santarelli in Zevenboom, 1995, p.155, pl.9, figs.9–11. Holotype: Zevenboom, 1995, pl.9, figs.9–11. **Name not validly published:** considered a manuscript name. The epithet is correctly rendered as "*spinosus*", not "*spinosis*". Age: middle Miocene–earliest late Miocene.

suibinensis (Sun Xuekun and He Chengquan, 1992, p.197,204, pl.2, figs.4–5) He Chengquan et al., 2009, p.246. Holotype: Sun Xuekun and He Chengquan, 1992, pl.2, figs.4–5. Originally *Chytroeisphaeridia*, subsequently (and now) *Pyxidinospis*. Age: Late Jurassic.

tuberculata Versteegh and Zevenboom in Versteegh, 1995, p.92–93, pl.5, figs.1–6. Holotype: Versteegh, 1995, pl.5, figs.1–3; Versteegh and Zevenboom, 1995, pl.5, figs.1–3. Versteegh and Zevenboom (1995, p.225) also proposed this name. Age: Aquitanian–Piacenzian.

vesiculata Head and Norris, 2003, p.8,11, fig.8, nos.1–20. Holotype: Head and Norris, 2003, fig.8, nos.6–9. Age: late Miocene–early early Pliocene.

vesiculus (Liu Zhili and Zheng Yuefang in Liu Zhili et al. 1992, p.96, pl.22, figs.5–9) He Chengquan et al., 2009, p.246. Holotype: Liu Zhili et al. 1992, pl.22, fig.7. Originally *Granodiscus* (Appendix A), subsequently (and now) *Pyxidinospis*. Age: Oligocene.

"*waipawaensis*" Wilson, 1988, p.28, pl.17, figs.4,5a–b. Holotype: Wilson, 1988, pl.17, fig.5a–b; Fensome et al., 1996, figs.2–3 — p.2441. **NOW** *Cerebrocysta*. Originally *Pyxidinospis*, subsequently (and now) *Cerebrocysta*. Age: middle to late Eocene.

QUANTOUENDINIUM Mao Shaozhi et al., 1999, p.155–156. Type: He Chengquan et al., 1992, pl.1, fig.1, as *Nyktericysta dictyophora*.

dictyophorum (He Chengquan et al., 1992, p.184,190–191, pl.1, figs.1–9) Mao Shaozhi et al., 1999, p.156. Emendation: Mao Shaozhi et al., 1999, p.156, as *Quantouendinium dictyophorum*. Holotype: He Chengquan et al., 1992, pl.1, fig.1; Gao Ruiqi et al., 1992b, pl.1, fig.1; Gao Ruiqi et al., 1992c, pl.1, fig.8; Mao Shaozhi et al., 1999, pl.5, fig.2. Taxonomic junior synonyms: *Nyktericysta dictyophora* subsp. *circularis* and *Nyktericysta fusiformis*, both according to Mao Shaozhi et al. (1999, p.156); however, He Chengquan et al. (2009, p.304) retained the two taxa as *Quantouendinium dictyophorum* subsp. *circularis* and *Quantouendinium fusiforme* respectively. Age: Albian.

subsp. *circularis* (He Chengquan et al., 1992, p.185,191, pl.1, figs.7–9) He Chengquan et al., 2009, p. 304. Holotype: He Chengquan et al., 1992, pl.1, fig.7; Gao Ruiqi et al., 1992b, pl.2, fig.4. Taxonomic senior synonym: *Nyktericysta* (now *Quantouendinium*) *dictyophora*, according to Mao Shaozhi et al. (1999, p.156) — however, He Chengquan et al. (2009, p.304) retained this taxon as *Quantouendinium dictyophorum* subsp. *circularis*. Originally *Nyktericysta dictyophora* subsp. *circularis*, subsequently (and now) *Quantouendinium dictyophorum* subsp. *circularis*. Age: Albian.

subsp. *dictyophorum*. Autonym. Holotype: He Chengquan et al., 1992, pl.1, fig.1; Gao Ruiqi et al., 1992b, pl.1, fig.1; Gao Ruiqi et al., 1992c, pl.1, fig.8. Originally *Nyktericysta dictyophora* subsp. *dictyophora*, subsequently (and now) *Quantouendinium dictyophorum* subsp. *dictyophorum*.

fusiforme (He Chengquan et al., 1992, p.185,191–192, pl.1, fig.16; pl.2, figs.1–3) He Chengquan et al., 2009, p.304. Holotype: He Chengquan et al., 1992, pl.2, fig.2; Gao Ruiqi et al., 1992b, pl.4, fig.6. Taxonomic senior synonym: *Nyktericysta* (now *Quantouendinium*) *dictyophora*, according to Mao Shaozhi et al. (1999, p.156); however, He

Chengquan et al. (2009, p.304) retained this species as *Quantouendinium fusiforme*. Originally *Nyktericysta*, subsequently (and now) *Quantouendinium*. Age: Albanian.

microreticulatum (He Chengquan et al., 1992, p.185–186,192, pl.1, figs.10–15) Mao Shaozhi et al., 1999, p.157. Emendation: Mao Shaozhi et al., 1999, p.157, as *Quantouendinium microreticulatum*. Holotype: He Chengquan et al., 1992, pl.1, fig.10; Gao Ruiqi et al., 1992b, pl.3, fig.1. Originally *Nyktericysta*, subsequently (and now) *Quantouendinium*. Taxonomic junior synonyms: *Nyktericysta microreticulata* subsp. *circularis* and *Nyktericysta symmetrica*, both according to Mao Shaozhi et al. (1999, p.156); however, He Chengquan et al. (2009, p.305–306) retained the two taxa as *Quantouendinium microreticulata* subsp. *circularis* and *Quantouendinium symmetricum* respectively. Age: Albanian.

subsp. **circularis** (He Chengquan et al., 1992, p.186,193, pl.1, figs.13–15) He Chengquan et al. 2009, p.305. Holotype: He Chengquan et al., 1992, pl.1, fig.13; Gao Ruiqi et al., 1992b, pl.3, fig.7. Taxonomic senior synonym: *Nyktericysta* (now *Quantouendinium*) *microreticulata*, according to Mao Shaozhi et al. (1999, p.157); however, He Chengquan et al. (2009, p.305) retained this taxon as *Quantouendinium microreticulatum* subsp. *circularis*. Originally *Nyktericysta microreticulata* subsp. *circularis*, subsequently (and now) *Quantouendinium microreticulatum* subsp. *circularis*. Age: Albanian.

subsp. **microreticulata**. Autonym. Holotype: He Chengquan et al., 1992, pl.1, fig.10; Gao Ruiqi et al., 1992b, pl.3, fig.1. Originally *Nyktericysta microreticulata* subsp. *microreticulata*, subsequently (and now) *Quantouendinium microreticulatum* subsp. *microreticulatum*.

"spinosum" (Gao Ruiqi et al., 1992a, p.18,24, pl.1, figs.17–18) Mao Shaozhi et al., 1999, p.157. Emendation: Mao Shaozhi et al., 1999, p.157, as *Quantouendinium spinosum*. Holotype: Gao Ruiqi et al., 1992a, pl.1, fig.17; Gao Ruiqi et al., 1992b, pl.8, fig.1; Mao Shaozhi et al., 1999, pl.4, fig.2. **NOW** *Nyktericysta*. Originally *Balmula*, subsequently *Quantouendinium*, thirdly (and now) *Nyktericysta*. Age: Campanian.

symmetricum (He Chengquan et al., 1992, p.186–187,193, pl.2, figs.4–6) He Chengquan et al., 2009, p.306. Holotype: He Chengquan et al., 1992, pl.2, fig.4; Gao Ruiqi et al., 1992b, pl.2, fig.5. Taxonomic senior synonym: *Nyktericysta* (now *Quantouendinium*) *microreticulata*, according to Mao Shaozhi et al. (1999, p.157); however, He Chengquan et al. (2009, p.306) retained this species as *Quantouendinium symmetricum*. Originally *Nyktericysta*, subsequently (and now) *Quantouendinium*. Age: Albanian.

trigonum (Lang Yan et al., 1999, p.375,387–388, pl.3, figs.1–7) He Chengquan et al., 2009, p.306. Holotype: Lang Yan et al., 1999, pl.3, fig.3. Originally *Nyktericysta*, subsequently (and now) *Quantouendinium*. Age: Early Cretaceous.

QUINQUECUSPIS Harland, 1977b, p.106. Emendation: Harland, 1982, p.396–397, as *Protoperidinium* subgenus *Protoperidinium* section *Quinquecuspis* (name not validly published). Originally (and now) *Quinquecuspis*, subsequently *Protoperidinium* subgenus *Protoperidinium* section *Quinquecuspis* (name not validly published). Taxonomic junior synonym: *Lejeunecysta*, by implication in Matsuoka (1987, p.57), who incorrectly considered *Lejeunecysta* to be the senior name — however, this synonymy has not been generally followed. Harland (1982, p.396–397) considered *Quinquecuspis* Harland, 1977b to be not validly published, since it lacked a Latin diagnosis. As noted by Fensome et al. (1991, p.434), this was not necessary since the cysts are considered fossil and a Latin diagnosis is not required. Head (1993, p.31) contended that *Quinquecuspis* was not validly published in Harland (1977b) because as its type he designated a then unpublished species name, *Trinovantedinium concretum* Reid, 1977. Head believed that the paper by Reid (1977) was not published until 1978. However, although the journal in which Reid's paper appeared did indeed not come out until 1978, preprints of Reid's paper did appear in 1977 (P.C. Reid, personal communication, 1997). Accordingly *Quinquecuspis* was validly published in Harland (1977b). Type: Reid, 1977, pl.1, figs.9–11, as *Trinovantedinium concretum*.

chinensis He Chengquan and Sun Xuekun, 1991, p.292–293, pl.1, figs.3–4 ex He Chengquan et al., 2009, p.517–518. Holotype: He Chengquan and Sun Xuekun, 1991, p.292–293, pl.1, fig.3, designated by He Chengquan et al. (2009, p.518). This name was not validly published in He Chengquan and Sun Xuekun (1991) as no holotype was

designated. Motile equivalent: *Protoperidinium latissimum* (Kofoid, 1907a) Balech, 1974, according to He Chengquan and Sun Xuekun (1991, p.292). Age: Quaternary.

***concreta** (Reid, 1977, p.438–439, pl.1, figs.9–11) Harland, 1977b, p.107. Holotype: Reid, 1977, pl.1, figs.9–11; Fensome et al., 1993a, figs.1–3 — p.1069. Originally *Trinovantedinium*, subsequently (and now) *Quinquecuspis*, thirdly *Lejeunecysta*. This species was retained in *Quinquecuspis* by Head (1996b, p.1231). Motile equivalent: *Protoperidinium leonis* (Pavillard, 1916) Balech, 1974, according to Harland (1981, p.68) and Lewis et al. (1984, p.30). Head (1993, p.31) also proposed this combination. Age: Holocene.

RAETIAEDINIUM Kirsch, 1991, p.125. Type: Kirsch, 1991, pl.28, figs.2–4, as *Raetiaedinium evittigratia*.

belgium Slimani, 1994, p.84–85, pl.12, figs.5–9. Holotype: Slimani, 1994, pl.12, figs.5–7. Age: late Campanian.

***evittigratia** Kirsch, 1991, p.126, pl.28, figs.2–4, 7–8; text-figs.58a–b, 59. Holotype: Kirsch, 1991, pl.28, figs.2–4. The epithet, meaning "with thanks to Evitt", should be cited as a noun in apposition. N.I.A. Age: middle Campanian.

fibrostriatum Slimani, 1994, p.85–86, pl.13, figs.7–11. Holotype: Slimani, 1994, pl.13, figs.7–10. Age: late Maastrichtian.

laevigatum Slimani, 1994, p.86–87, pl.12, figs.1–3. Holotype: Slimani, 1994, pl.12, figs.1–2. Age: early Campanian–earliest Danian.

punctulatum Slimani, 1994, p.87–88, pl.13, figs.12–15. Holotype: Slimani, 1994, pl.13, figs.14–15. Age: late Campanian–earliest Danian.

truncigerum (Deflandre, 1937b, p.71–72, pl.13 [al. pl.10], figs.6–7) Kirsch, 1991, p.126. Holotype: Deflandre, 1937b, pl.13 (al. pl.10), fig.6. Originally *Hystrichosphaeridium*, subsequently *Litosphaeridium?*, thirdly *Cordosphaeridium*, fourthly *Exochosphaeridium*, fifthly *Pervosphaeridium*, sixthly *Tityrosphaeridium?*, seventhly *Florentinia*, eighthly *Pervosphaeridium?*, ninthly (and now) *Raetiaedinium*. Taxonomic senior synonym: *Xanthidium* (now *Hystrichokolpoma*) *crassipes*, by implication in Yun Hyesu (1981, p.27), who considered *Hystrichosphaeridium* (as *Pervosphaeridium*, now *Raetiaedinium*) *truncigerum* to be the senior name — however, Lentin and Williams (1985, p.282) retained *Hystrichosphaeridium* (as *Pervosphaeridium*, now *Raetiaedinium*) *truncigerum*. Taxonomic junior synonym: *Laticavodinium latispinosum* (name not validly published), according to Slimani (2001a, p.194). Age: Senonian.

RAMIDINIUM Guerstein et al., 1998, p.28. Type: Guerstein et al., 1998, pl.1, figs.4–5, text-figs.2D–E, as *Ramidinium tridens*.

***tridens** Guerstein et al., 1998, p.28–29, 31–32, pl.1, figs.1–15; text-figs.2A–I, 3A–I. Holotype: Guerstein et al., 1998, pl.1, figs.4–5; text-figs.2D–E. Age: Burdigalian–Langhian.

RAPHIDODINIUM Deflandre, 1936b, p.184–185. Emendations: Sarjeant and Downie, 1982, p.116–117; Below, 1987b, p.57–58. Taxonomic junior synonym: *Druggidium*, according to Below (1987b, p.57) — however, Lentin and Williams (1989, p.121) retained *Druggidium*. Type: Deflandre, 1936b, pl.10, figs.1–2, 7, as *Raphidodinium fucatum*.

"**apicopaucicum**" (Habib, 1973, p.51–52, pl.1, figs.1–3; pl.3, figs.1–3; text-fig.3) Below, 1987b, p.58. Holotype: Habib, 1973, pl.1, fig.3; text-fig.3. **NOW** *Druggidium*. Originally (and now) *Druggidium*, subsequently *Raphidodinium*. Age: Berriasian–Barremian.

"*augustum*" (Harding, 1986b, p.20–21, pl.2, figs.1–9; text-fig.3) Below, 1987b, p.58. Holotype: Harding, 1986b, pl.2, figs.1–2. **NOW** *Druggidium*. Originally (and now) *Druggidium*, subsequently *Raphidodinium*. Age: late Hauterivian–early Barremian.

"*deflandrei*" (Millioud, 1969, p.429–430, pl.2, figs.5–7) Below, 1987b, p.58. Emendations: Habib, 1973, p.52, as *Druggidium deflandrei*; Below, 1987a, p.58–59, as *Raphidodinium deflandrei*. Holotype: Millioud, 1969, pl.2, figs.5–6. **NOW** *Druggidium*. Originally *Microdinium*, subsequently (and now) *Druggidium*, thirdly *Raphidodinium*. Age: Barremian.

**fucatum* Deflandre, 1936b, p.185–186, pl.10, figs.1–7. Emendation: Sarjeant and Downie, 1982, p.117–118. Holotype: Deflandre, 1936b, pl.10, figs.1–2,7. Age: ?Senonian.

subsp. *compactum* Marheinecke, 1992, p.79, pl.16, figs.1–2. Holotype: Marheinecke, 1992, pl.16, figs.1–2. Contrary to the opinion of Lentin and Williams (1993, p.557), Williams et al. (1998, p.525) considered this name to be validly published. Age: early–late Maastrichtian.

subsp. *fucatum*. Autonym. Holotype: Deflandre, 1936b, pl.10, figs.1–2,7.

subsp. *forma* Deflandre, 1943, p.504–505, pl.17, fig.9; text-fig.27. Holotype: Deflandre, 1943, pl.17, fig.9; text-fig.27. The rank of this taxon was not specified in the protologue but, since this was not a requirement until 1953 (I.C.N. Article 37.1), the name is validly published. Williams et al. (1998, p.525–526) arbitrarily assigned it to the rank of subspecies. N.I.A. Age: Late Cretaceous.

"*rhabdoreticulatum*" (Habib, 1973, p.53, pl.2, figs.3–7) Below, 1987b, p.58. Holotype: Habib, 1973, pl.2, fig.6. **NOW** *Druggidium*. Originally (and now) *Druggidium*, subsequently *Raphidodinium*. Age: Valanginian–Albian.

?*singulare* (Firtion, 1952, p.160, pl.8, figs.1–2) Stancliffe and Sarjeant, 1996, p.162. Originally *Micrhystridium* (Appendix A), subsequently *Veryhachium* (Appendix A), thirdly (and now) *Raphidodinium*?. Questionable assignment: Stancliffe and Sarjeant (1996, p.162). Taxonomic junior synonym: *Baltisphaeridium crameri* Singh, 1971, an acritarch species, according to Burger (1980a, p.91). Age: early Cenomanian.

RENIDINIUM Morgenroth, 1968, p.551–552. Type: Morgenroth, 1968, pl.47, fig.1, as *Renidinium membraniferum*.

gracile Hultberg and Malmgren, 1985, p.49–50, figs.11E–I. Holotype: Hultberg and Malmgren, 1985, figs.11H–I. Hultberg (1985c, p.143) also proposed this name. Age: late Maastrichtian–Danian.

**membraniferum* Morgenroth, 1968, p.552–553, pl.46, fig.9; pl.47, figs.1–3. Holotype: Morgenroth, 1968, pl.47, fig.1. Age: Danian.

rigidum Prince et al., 1999, p.163–164, pl.1, figs.13–15,17–19. Holotype: Prince et al., 1999, pl.1, figs.13,17–19. Age: early middle Santonian.

vitulare (Cookson, 1965b, p.138–139, pl.24, figs.1–7) Stover and Evitt, 1978, p.79. Holotype: Cookson, 1965b, pl.24, figs.1–2. Originally *Cyclonephelium*, subsequently (and now) *Renidinium*. Age: Paleocene.

RESTICULASPHAERA Harding, 1990b, p.44 ex Harding in Williams et al. 1998, p.526. This name was not validly published in Harding (1990b) since the name of the "type species" was not validly published. Type: Harding, 1990b, pl.27, fig.1, as *Resticulasphaera medusae*.

**medusae* Harding, 1990b, p.44–45, pl.27, figs.1–8 ex Harding in Williams et al. 1998, p.526. Holotype: Harding, 1990b, pl.27, fig.1. This name was not validly published in Harding (1990b) since the lodgement of the holotype was not specified (I.C.N. Article 40.7). Age: late Hauterivian–late Barremian.

RETESPHAERA Hildebrand-Habel et al., 1999, p.81. Calcareous dinoflagellate genus (see Streng et al., 2004, p.483 and Elbrächter et al., 2008, p.1301). Type: Hildebrand-Habel et al., 1999, pl.2, figs.11–13, as *Retesphaera diadema*.

**diadema* Hildebrand-Habel et al., 1999, p.81, pl.2, figs.11–17; text-fig.5A–C. Holotype: Hildebrand-Habel et al., 1999, pl.2, figs.11–13. N.I.A. Age: Maastrichtian.

RETICULATOSPHAERA Matsuoka, 1983b, p.116. Emendation: Bujak and Matsuoka, 1986, p.238. Type: Matsuoka, 1983b, pl.4, fig.8, as *Reticulosphaera stellata*.

+*actinocoronata* (Benedek, 1972, p.34, pl.12, fig.13; text-fig.13) Bujak and Matsuoka, 1986, p.238. Emendation: Bujak and Matsuoka, 1986, p.238–239, as *Reticulosphaera actinocoronata*. Holotype: Benedek, 1972, pl.12, fig.13; Benedek and Sarjeant, 1981, fig.10, no.5; text-fig.11; Sarjeant et al., 1987, pl.2, fig.4; Fensome et al., 1993a, fig.1 — p.879. Originally *Cleistosphaeridium*, subsequently *Areosphaeridium?*, thirdly (and now) *Reticulosphaera*. Taxonomic junior synonym: *Reticulosphaera stellata*, according to Bujak and Matsuoka (1986, p.238). The nomenclatural type of the genus *Reticulosphaera* remains the holotype of *Reticulosphaera stellata*. Age: middle-late Oligocene.

"*pseudoursulae*" Waagstein and Heilmann-Clausen, 1995, p.188. **Name not validly published**: no description or illustration.

"**stellata*" Matsuoka, 1983b, p.116–117, pl.4, figs.8–11; text-fig.10. Holotype: Matsuoka, 1983b, pl.4, fig.8; Fensome et al., 1995, fig.1 — p.1801. **Taxonomic senior synonym**: *Cleistosphaeridium* (as and now *Reticulosphaera*) *actinocoronatum*, according to Bujak and Matsuoka (1986, p.238). The nomenclatural type of the genus *Reticulosphaera* remains the holotype of *Reticulosphaera stellata*. Age: Pliocene or younger.

REUTLINGIA Drugg, 1978, p.72. Emendation: Below, 1987a, p.133–134. Taxonomic junior synonym: *Facetodinium*, according to Below (1987a, p.133) — however, Lentin and Williams (1989, p.135) retained *Facetodinium* as a taxonomic junior synonym of *Susadinium*. Type: Drugg, 1978, pl.7, figs.8–10, as *Reutlingia gochtii*.

cardobarbata Below, 1987a, p.134–135, pl.20, figs.7–10,13–15. Holotype: Below, 1987a, pl.20, fig.7; Fensome et al., 1993a, fig.1 — p.1031. Age: Toarcian.

cracens (Bjaerke, 1980, p.66, pl.4, fig.16; text-fig.3D) Prauss, 1989, p.22. Emendation: Prauss, 1989, p.22, as *Reutlingia cracens*. Holotype: Bjaerke, 1980, pl.4, fig.16. Originally *Parvocysta?*, subsequently (and now) *Reutlingia*. Age: Toarcian.

"*delmensis*" Below, 1987a, p.135–136, pl.18, figs.1–3,6,8–9. Holotype: Below, 1987a, pl.18, figs.1,8; Fensome et al., 1993a, figs.1,4 — p.1111. **NOW** *Susadinium*. Originally *Reutlingia*, subsequently (and now) *Susadinium*. Age: Toarcian.

"*fausta*" (Bjaerke, 1980, p.69, pl.2, figs.1–6; text-figs.4A–D) Below, 1987a, p.136. Emendation: Below, 1987a, p.136–137, as *Reutlingia fausta*. Holotype: Bjaerke, 1980, pl.2, figs.1–3; Fensome et al., 1993a, figs.1–3 — p.1175. **NOW** *Susadinium*. Originally *Facetodinium*, subsequently (and now) *Susadinium*, thirdly *Reutlingia*. Age: Toarcian.

**gochtii* Drugg, 1978, p.72–73, pl.7, figs.7–10. Emendation: Below, 1987a, p.137–138. Holotype: Drugg, 1978, pl.7, figs.8–10; Fensome et al., 1995, figs.2–4 — p.1517. Age: late Callovian.

hirsuta Below, 1987a, p.138–139, pl.19, figs.13–17. Holotype: Below, 1987a, pl.19, figs.13,15; Fensome et al., 1993a, figs.1,3 — p.1227. Age: Toarcian.

"*nasuta*" (Bjaerke, 1980, p.65–66, pl.1, figs.11–12; text-fig.3A) Below, 1987a, p.139. Emendation: Below, 1987a, p.139, as *Reutlingia nasuta*. Holotype: Bjaerke, 1980, pl.1, figs.11–12; Fensome et al., 1993a, figs.1–2 — p.1267; figs.1–2 — p.1271. **NOW** *Parvocysta*. Originally (and now) *Parvocysta*, subsequently *Reutlingia*. Age: Toarcian.

"var. *nasuta*". Autonym. Holotype: Bjaerke, 1980, pl.1, figs.11–12; Fensome et al., 1993a, figs.1–2 — p.1267; figs.1–2 — p.1271. **Now redundant.**

"var. *ramosa*" Below, 1987a, p.140, pl.20, figs.5–6,11–12,16,18. Holotype: Below, 1987a, pl.20, figs.5–6,11–12,18; Fensome et al., 1993a, fig.3 — p.1267; figs.1–5 — p.1295. **NOW** *Parvocysta nasuta* subsp. *ramosa*. Originally *Reutlingia nasuta* var. *ramosa*, subsequently (and now) *Parvocysta nasuta* subsp. *ramosa*. Age: Toarcian.

sekheladonensis Smelror and Lominadze, 1989, p.164–165, fig.4A,5, nos.1–4. Holotype: Smelror and Lominadze, 1989, fig.5, nos.1–3. Age: middle Callovian.

RHADINODINIUM Williams et al., 2015, p.309. Type: Williams and Downie, 1966b, pl.20, fig.9. as *Wetzeliella* (*Rhombodinium*) *glabra*.

glabrum (Cookson, 1956, p.186, pl.2, figs.1–5) Williams et al., 2015, p.309. Holotype: Cookson, 1956, pl.2, fig.1. Originally *Wetzeliella*, subsequently *Rhombodinium*, thirdly *Wilsonidium*, fourthly *Rhombodinium?*, fifthly (and now) *Rhadinodinium*. Age: Eocene.

**politum* (Bujak et al., 1980, p.29, pl.11, fig.1) Williams et al., 2015, p.309. Holotype: Williams and Downie, 1966b, pl.19, fig.9 (see discussion below), as *Wetzeliella glabra*; not Bujak et al., 1980, pl.11, fig.1 as indicated by Williams et al. (1998, p.204). Originally *Dracodinium*, subsequently (and now) *Rhadinodinium*. Aside from the fact that the holotype of *Dracodinium* (now *Rhadinodinium*) *politum* was incorrectly indicated in Williams et al. (1998), confusion is caused by the fact that the plates and captions in the originally-issued protologue publication were mixed up. Hence, in Williams and Downie (1966b, original issue), the holotype appears as pl.19, fig.9, opposite the caption labelled plate 19 but clearly intended for the plate labelled 20; the correct caption for the plate labelled 19 is opposite the plate labelled 20. In the 1983 issue of the monograph, these problems were corrected and the holotype of *Dracodinium* (now *Rhadinodinium*) *politum* is pl.20, fig.9. Age: early Eocene.

RHAETOGONYAULAX Sarjeant, 1966b, p.152–153. Emendations: Harland et al., 1975, p.860; Fisher and van Helden, 1979, p.270,272; Below, 1987a, p.101–102. Taxonomic junior synonym: *Shublikodinium*, according to Stover and Evitt (1978, p.218) and Lentin and Williams (1989, p.338). Type: Sarjeant, 1963b, text-figs.1–2 (left), as *Gonyaulax rhaetica*.

arctica (Wiggins, 1973, p.4, pl.1, figs.1–14; pl.2, figs.1–9; text-figs.2a–d) Stover and Evitt, 1978, p.219. Emendation: Below, 1987a, p.103–105, as *Rhaetogonyaulax arctica*. Holotype: Wiggins, 1973, pl.1, figs.1–2. Originally *Shublikodinium*, subsequently (and now) *Rhaetogonyaulax*. Taxonomic junior synonyms: *Shublikodinium acanthocomum*, *Shublikodinium armatum*, *Shublikodinium setigerum*, *Shublikodinium spinulosum*, *Shublikodinium verrucosum*, and (at specific rank) *Shublikodinium verrucosum* subsp. *exsculptum*, all according to Stover and Evitt (1978, p.219). Age: Carnian.

subsp. *arctica*. Autonym. Holotype: Wiggins, 1973, pl.1, figs.1–2. Originally *Shublikodinium arcticum* subsp. *arcticum*, subsequently (and now) *Rhaetogonyaulax arctica* subsp. *arctica*.

subsp. *maculata* (Wiggins, 1973, p.4–5, pl.2, figs.10–12) Stover and Evitt, 1978, p.219. Holotype: Wiggins, 1973, pl.2, fig.10. Originally *Shublikodinium arcticum* var. *maculatum*, subsequently *Shublikodinium arcticum* subsp. *maculatum*, thirdly (and now) *Rhaetogonyaulax arctica* subsp. *maculata*. Age: Carnian.

"*chaloneri*" (Sarjeant, 1963b, p.354; text-figs.2 [right]-3), Sarjeant, 1969, p.15. Holotype: Sarjeant, 1963b, text-figs.2(right)-3. **NOW** *Rhaetogonyaulax rhaetica* subsp. *chaloneri*. Originally *Gonyaulax chaloneri* (Appendix B),

subsequently *Rhaetogonyaulax chaloneri*, thirdly *Rhaetogonyaulax rhaetica* var. *chaloneri*, fourthly (and now) *Rhaetogonyaulax rhaetica* subsp. *chaloneri*. This combination was not validly published in Sarjeant (1966b, p.153), since that author did not fully reference the basionym. Age: Carnian.

dilatata (Wiggins, 1973, p.6, pl.5, figs.3–4) Stover and Evitt, 1978, p.219. Holotype: Wiggins, 1973, pl.5, fig.3. Originally *Shublikodinium*, subsequently (and now) *Rhaetogonyaulax*. Taxonomic junior synonyms: *Shublikodinium echinoverrucatum*, *Shublikodinium granulatum*, and *Shublikodinium scaberrimum*, all according to Stover and Evitt (1978, p.219). Age: Carnian.

**rhaetica* (Sarjeant, 1963b, p.353; text-figs.1–2 [left]) Loeblich Jr. and Loeblich III, 1968, p.212. Emendations: Harland et al., 1975, p.862; Fisher and van Helden, 1979, p.270; Below, 1987a, p.105–106, all as *Rhaetogonyaulax rhaetica*. Holotype: Sarjeant, 1963b, text-figs.1–2 (left). Originally *Gonyaulax* (Appendix B), subsequently (and now) *Rhaetogonyaulax*. Taxonomic junior synonym: *Rhaetogonyaulax testacea*, *Rhaetogonyaulax tortuosa*, and *Rhaetogonyaulax uncinata*, all according to Below (1987a, p.105). Age: Carnian.

subsp. *chaloneri* (Sarjeant, 1963b, p.354, text-figs.2 [right]–3) Lentin and Williams, 1977b, p.138. Holotype: Sarjeant, 1963b, text-figs.2(right)–3. Originally *Gonyaulax chaloneri* (Appendix B), subsequently *Rhaetogonyaulax chaloneri*, thirdly *Rhaetogonyaulax rhaetica* var. *chaloneri*, fourthly (and now) *Rhaetogonyaulax rhaetica* subsp. *chaloneri*. Age: Carnian.

"var. *chaloneri*" (Sarjeant, 1963b, p.354, text-figs.2 [right]–3) Harland et al., 1975, p.863. Holotype: Sarjeant, 1963b, text-figs.2(right)–3. **NOW** *Rhaetogonyaulax rhaetica* subsp. *chaloneri*. Originally *Gonyaulax chaloneri* (Appendix B), subsequently *Rhaetogonyaulax chaloneri*, thirdly *Rhaetogonyaulax rhaetica* var. *chaloneri*, fourthly (and now) *Rhaetogonyaulax rhaetica* subsp. *chaloneri*. Age: Carnian.

subsp. *rhaetica*. Autonym. Holotype: Sarjeant, 1963b, text-figs.1–2 (left).

"var. *rhaetica*". Autonym. Holotype: Sarjeant, 1963b, text-figs.1–2 (left). **Now redundant.**

"*testacea*" Fisher and van Helden, 1979, p.272, pl.1, figs.1–6; text-fig.1E. Holotype: Fisher and van Helden, 1979, pl.1, figs.1–4. **Taxonomic senior synonym:** *Gonyaulax* (as and now *Rhaetogonyaulax*) *rhaetica*, according to Below (1987a, p.105). Age: middle Norian–Rhaetian.

"*tortuosa*" Fisher and van Helden, 1979, p.274,276, pl.2, fig.7; pl.3, figs.2,6–7; pl.4, figs.1–8. Holotype: Fisher and van Helden, 1979, pl.4, figs.4,6. **Taxonomic senior synonym:** *Gonyaulax* (as and now *Rhaetogonyaulax*) *rhaetica*, according to Below (1987a, p.105). Age: Carnian–Rhaetian.

"*uncinata*" Fisher and van Helden, 1979, p.274, pl.2, figs.3–8; pl.3, figs.1,3–5. Holotype: Fisher and van Helden, 1979, pl.2, figs.3–5. **Taxonomic senior synonym:** *Gonyaulax* (as and now *Rhaetogonyaulax*) *rhaetica*, according to Below (1987a, p.105). Age: middle Norian–Rhaetian.

wigginsii (Stover and Helby, 1987a, p.120, figs.18A–B,19A–I,20) Lentin and Williams, 1989, p.316. Holotype: Stover and Helby, 1987a, figs.19A–B; Fensome et al., 1996, figs.1–2 — p.2445. Originally *Shublikodinium*, subsequently (and now) *Rhaetogonyaulax*. Age: late Carnian.

RHIPTOCORYS Lejeune-Carpentier and Sarjeant, 1983, p.5. Emendations: Lentin and Vozzhennikova, 1990, p.110–111; Slimani, 1994, p.51. Taxonomic senior synonym: *Phanerodinium*, according to Below (1987b, p.36) — however, Lentin and Williams (1989, p.316) retained *Rhiptocorys*. Type: Deflandre, 1937b, pl.12 (al. pl.9), fig.9, as *Michrhystridium veligerum*.

smolenskiensis (Vozzhennikova, 1967, p.93, pl.34, figs.1–6; pl.35, fig.6; pl.36, fig.4) Lentin and Vozzhennikova, 1990, p.112. Emendation: Lentin and Vozzhennikova, 1990, p.112, as *Rhiptocorys smolenskiensis*. Holotype: Vozzhennikova, 1967, pl.36, fig.4, lost according to Lentin and Vozzhennikova (1990, p.112). Lectotype: Lentin and Vozzhennikova, 1990, pl.13, figs.1–3; text-fig.65, designated by Lentin and Vozzhennikova (1990, p.112). Originally *Ceratocorys* (Appendix B), subsequently *Microdinium*, thirdly *Microdinium?*, fourthly (and now)

Rhiptocorys. Taxonomic senior synonym: *Micrhystridium* (as *Phanerodinium*; now *Rhiptocorys*) *veligerum*, according to Below (1987b, p.39) — however, Lentin and Vozzhennikova (1990, p.112) retained *Rhiptocorys smolenskiensis*. Age: Late Cretaceous.

**veligera* (Deflandre, 1937b, p.81, pl.12 [al. pl.9], fig.9) Lejeune-Carpentier and Sarjeant, 1983, p.5. Emendations: Lejeune-Carpentier, 1943, p.B24–B25, as *Ceratocorys veligera*; Lejeune-Carpentier and Sarjeant, 1983, p.5–6, as *Rhiptocorys veligera*. Holotype: Deflandre, 1937b, pl.12 (al. pl.9), fig.9; Fensome et al., 1995, fig.1 — p.1885. Originally *Micrhystridium* (Appendix A), subsequently *Ceratocorys* (Appendix B), thirdly *Microdinium*, fourthly *Microdinium?*, fifthly (and now) *Rhiptocorys*, sixthly *Phanerodinium*, seventhly *Phanerodinium?*. Lentin and Williams (1993, p.560) retained this species in *Rhiptocorys*. Taxonomic junior synonyms: *Microdinium irregulare* and *Ceratocorys* (as *Microdinium*, now *Rhiptocorys*) *smolenskiensis*, both according to Below (1987b, p.56) — however, Lentin and Vozzhennikova (1990, p.112) retained *Ceratocorys* (as *Rhiptocorys*) *smolenskiensis*. Age: Senonian.

RHOMBODINIUM Gocht, 1955, p.85. Emendations: Bujak, 1979, p.313–314 — however, see Lentin and Vozzhennikova (1989, p.218–219); Williams, Damassa, Fensome and Guerstein in Fensome et al., 2009, p.57. Originally (and now) *Rhombodinium*, subsequently *Wetzeliella* subgenus *Rhombodinium*. Lentin and Williams (1977b, p.139) retained *Rhombodinium* at generic rank. Type: Gocht, 1955, text-fig.1c, as *Rhombodinium draco*.

aidae Iakovleva in Oreshkina et al., 2015, p.74, fig.16, nos.1–11,13–15,17–20; text-fig.23. Holotype: Oreshkina et al., 2015, fig.16, nos.13–15. Age: Bartonian–Priabonian.

"*antonescui*" Ionescu, 2003, p.40–41, pl.2, figs.1–2,6. **Name not validly published**: lodgement of holotype not indicated. Holotype: Ionescu, 2003, pl.2, fig.1. Age: Bartonian–Priabonian.

cerciatum He Chengquan, 1991, p.94–95, pl.36, fig.8. Holotype: He Chengquan, 1991, pl.36, fig.8. Age: late Eocene.

"*cingulatum*" Goodman in Michoux, 1988, p.31. **Name not validly published**: no description.

"*condylos*" (Williams and Downie, 1966b, p.193–194, pl.20, figs.1–2) Lentin and Williams, 1976, p.128. Holotype: Williams and Downie, 1966b, pl.20, fig.1. **NOW** *Petalodinium*. Originally *Wetzeliella*, subsequently *Rhombodinium*, thirdly *Dracodinium*, fourthly (and now) *Petalodinium*. N.I.A. Age: early Eocene.

"*coronatum*" Vozzhennikova, 1967, p.170–171, pl.89, figs.1–3,5; pl.90, figs.1–5. Holotype: Vozzhennikova, 1967, pl.89, fig.1; pl.90, fig.4; Lentin and Vozzhennikova, 1990, text-fig.43; lost according to Lentin and Vozzhennikova (1990, p.80). Neotype: Iakovleva and Heilmann-Clausen, 2010, pl.12, fig.4, designated by Iakovleva and Heilmann-Clausen (2010, p.211). **NOW** *Dracodinium*. Originally *Rhombodinium*, subsequently *Wetzeliella*, thirdly (and now) *Dracodinium*. Taxonomic senior synonym: *Wetzeliella articulata*, according to Costa and Downie (1979, p.430) — however, Iakovleva and Heilmann-Clausen (2010, p. 211,226) retained *Rhombodinium* (as *Wetzeliella*) *coronatum*. Age: Ypresian.

denticulatum He Chengquan, 1991, p.95, pl.36, figs.6–7. Holotype: He Chengquan, 1991, pl.36, fig.7. Age: middle-late Eocene.

**draco* Gocht, 1955, p.86, text-figs.1a–c. Holotype: Gocht, 1955, text-fig.1c. Originally (and now) *Rhombodinium*, subsequently *Wetzeliella* subgenus *Rhombodinium*. Vozzhennikova (1967, p.168) retained this species in *Rhombodinium*. N.I.A. Age: middle Oligocene.

"forma *draco*". Autonym. Holotype: Gocht, 1955, text-fig.1c. **Now redundant**.

subsp. *draco*. Autonym. Holotype: Gocht, 1955, text-fig.1c.

"forma *freienwaldense*" Gocht, 1955, p.87; text-figs.2a–b. Holotype: Gocht, 1955, text-fig.2b. **NOW** *Rhombodinium?* *freienwaldense*. Originally *Rhombodinium draco* forma *freienwaldense*, subsequently

Rhombodinium draco subsp. *freienwaldense*, thirdly (and now) *Rhombodinium? freienwaldense*. Taxonomic senior synonym (at specific rank): *Rhombodinium rotundatum*, by implication in Costa and Downie (1979, p.44), who believed *Rhombodinium freienwaldense* to be the senior name — however, Grabowska in Malinowskiej and Piwockiego (1996, p.343) retained *Rhombodinium draco* forma *freienwaldense* (as *Rhombodinium freienwaldense*). Age: middle Oligocene.

"subsp. *freienwaldense*" (Gocht, 1955, p.87; text-figs.2a–b) Lentin and Williams, 1973, p.120. Holotype: Gocht, 1955, text-fig.2b. **NOW** *Rhombodinium? freienwaldense*. Originally *Rhombodinium draco* forma *freienwaldense*, subsequently *Rhombodinium draco* subsp. *freienwaldense*, thirdly (and now) *Rhombodinium? freienwaldense*. Taxonomic senior synonym (at specific rank): *Rhombodinium rotundatum*, by implication in Costa and Downie (1979, p.44), who believed *Rhombodinium freienwaldense* to be the senior name — however, Grabowska in Malinowskiej and Piwockiego (1996, p.343) retained *Rhombodinium draco* subsp. *freienwaldense* (as *Rhombodinium freienwaldense*). Age: middle Oligocene.

subsp. *quadratum* He Chengquan, 1991, p.96, pl.38, figs.1–5. Holotype: He Chengquan, 1991, pl.38, fig.1. Age: late Eocene.

elegans He Chengquan, 1991, p.97, pl.39, figs.1–8. Holotype: He Chengquan, 1991, pl.39, fig.8. Age: middle Eocene.

elongatum He Chengquan, 1991, p.97–98, pl.40, figs.1–5,7–8; pl.41, figs.1–6. Holotype: He Chengquan, 1991, pl.41, fig.1. Age: middle Eocene.

subsp. *elongatum*. Autonym. Holotype: He Chengquan, 1991, pl.41, fig.1.

subsp. *spinale* He Chengquan, 1991, p.98, pl.40, figs.1–5. Holotype: He Chengquan, 1991, pl.40, fig.1. Age: middle Eocene.

fimbriatum Vasilyeva, 2013, p.122, pl.4, figs.5–10. Holotype : Vasilyeva, 2013, pl.4, fig.5. Age: Bartonian–Priabonian.

?*fornicale* (Yu Jingxian, 1989, p.155, pl.58, figs.1,3) He Chengquan et al., 2009, p.495. Holotype: Yu Jingxian, 1989, pl.58, fig.1. Originally *Gochtodinium*, subsequently *Wetzeliella*, thirdly (and now) *Rhombodinium?* Questionable assignment: Williams et al. (2015, p.311). Williams et al. (2015, p.311) also proposed this combination. Age: Eocene.

?*freienwaldense* (Gocht, 1955, p.87; text-figs.2a–b) Costa and Downie, 1979, p.44. Holotype: Gocht, 1955, text-fig.2b. Originally *Rhombodinium draco* forma *freienwaldense*, subsequently *Rhombodinium draco* subsp. *freienwaldense*, thirdly (and now) *Rhombodinium? freienwaldense*. Questionable assignment: Williams et al. (2015, p.311). Taxonomic senior synonym (at specific rank): *Rhombodinium rotundatum*, by implication in Costa and Downie (1979, p.44), who believed *Rhombodinium freienwaldense* to be the senior name — however, Grabowska in Malinowskiej and Piwockiego (1996, p.343) retained *Rhombodinium freienwaldense*. Grabowska in Malinowskiej and Piwockiego (1996, p.343) also proposed this combination. Age: middle Oligocene.

"?*glabrum*" (Cookson, 1956, p.186, pl.2, figs.1–5) Vozzhennikova, 1967, p.169. Holotype: Cookson, 1956, pl.2, fig.1. **NOW** *Rhadinodinium*. Originally *Wetzeliella*, subsequently *Rhombodinium*, thirdly *Wilsonidium*, fourthly *Rhombodinium?*, fifthly (and now) *Rhadinodinium*. Questionable assignment: Head and Norris (1989, p.532). Age: Eocene.

"forma *crassithecum*" Vozzhennikova, 1967, p.170, pl.91, figs.1–2,4–6. Holotype: Vozzhennikova, 1967, pl.91, fig.1; Lentin and Vozzhennikova, 1990, text-fig.40; lost according to Lentin and Vozzhennikova (1990, p.76). **NOW** *Petalodinium crassithecum*. Originally *Rhombodinium glabrum* forma *crassithecum*, subsequently *Rhombodinium glabrum* subsp. *crassithecum*, thirdly (and now) *Petalodinium crassithecum*. According to Lentin and Vozzhennikova (1990, p.76), no potential lectotype is available. These authors recommended that this name be restricted to the type. Age: late Eocene–early Oligocene.

"subsp. *crassithecum*" (Vozzhennikova, 1967, p.170, pl.91, figs.1–2,4–6) Lentin and Williams, 1973, p.120. Holotype: Vozzhennikova, 1967, pl.91, fig.1; Lentin and Vozzhennikova, 1990, text-fig.40; lost according to Lentin and Vozzhennikova (1990, p.76). **NOW** *Petalodinium crassithecum*. Originally *Rhombodinium glabrum* forma *crassithecum*, subsequently *Rhombodinium glabrum* subsp. *crassithecum*, thirdly (and now) *Petalodinium crassithecum*. According to Lentin and Vozzhennikova (1990, p.76), no potential lectotype is available. These authors recommended that this name be restricted to the type. Age: late Eocene–early Oligocene.

"forma *glabrum*". Autonym. Holotype: Cookson, 1956, pl.2, fig.1. **Now redundant.**

subsp. *glabrum*. Autonym. Holotype: Cookson, 1956, pl.2, fig.1.

"subsp. *granulatum*" (Wilson, 1967c, p.493, figs.29–30) Lentin and Williams, 1973, p.120. Holotype: Wilson, 1967c, fig.30. **NOW** *Epelidinium granulatum*. Originally *Wetzelia* subgenus *Rhombodinium glabra* var. *granulata*, subsequently *Rhombodinium glabrum* subsp. *granulatum*, thirdly *Dracodinium granulatum*, fourthly (and now) *Epelidinium granulatum*. Age: late Eocene.

"*intermedium*" (Cookson and Eisenack, 1961b, p.40, pl.1, figs.5–6) Lentin and Williams, 1973, p.120. Holotype: Cookson and Eisenack, 1961b, pl.1, fig.5. **NOW** *Castellodinium*. Originally *Wetzelia*, subsequently *Rhombodinium*, thirdly *Wilsonidium*, fourthly (and now) *Castellodinium*. Age: Eocene.

"*irtichense*" Ilyina et al., 1994, p.104. **Name not validly published:** no description or illustration. This name may refer to *Wetzelia irtyschensis*.

irtyschense (Alberti, 1961, p.8, pl.1, figs.11–12; pl.12, fig.8) Williams et al., 2015, p.311. Holotype: Alberti, 1961, pl.1, fig.12. Originally *Wetzelia*, subsequently (and now) *Rhombodinium*. Age: Priabonian.

?*kunlunense* He Chengquan, 1991, p.98–99, pl.37, figs.3–6. Holotype: He Chengquan, 1991, pl.37, fig.6. Questionable assignment: Williams et al. (2015, p.311). Age: late Turonian–middle Eocene.

?*longimanum* Vozzhennikova, 1967, p.171, pl.92, figs.1–3; pl.93, figs.1–6; pl.94, figs.1–3. Holotype: Vozzhennikova, 1967, pl.92, fig.1; pl.93, fig.1; Lentin and Vozzhennikova, 1990, pl.7, figs.1,3; text-fig.41. Questionable assignment: Williams et al. (2015, p.311). Lentin and Vozzhennikova (1990, p.77–78) provided an "expanded description" for this species. Age: Priabonian.

magnum Vasilyeva, 2013, p.121–122, pl.4, figs.1–3 ex Williams and Fensome, 2016, p.14. Holotype: Vasilyeva, 2013, pl.4, fig.1, designated by Williams and Fensome (2016, p.141). The name *Rhombodinium magnum* was not validly published in Vasilyeva (2013), since that author referred to two separate specimens as the holotype (on p. 121 as pl.4, fig. 3 and in the plate caption as pl.4, fig.1). Age: Bartonian.

?*majus* Yu Jingxian, 1982, p.257, pl.8, fig.8. Holotype: Yu Jingxian, 1982, pl.8, fig.8. Questionable assignment: Lentin and Williams (1985, p.307). Williams et al. (2015, p.311) recommended that the name be restricted to the holotype. Age: Late Jurassic–Early Cretaceous.

?*minus* He Chengquan, 1991, p.99, pl.36, fig.5. Holotype: He Chengquan, 1991, pl.36, fig.5. Questionable assignment: Williams et al. (2015, p.311). Age: middle Eocene.

"?*minusculum*" (Alberti, 1961, p.10–11, pl.1, fig.10; pl.12, fig.4) Lentin and Williams, 1973, p.120. Holotype: Alberti, 1961, pl.1, fig.10. **NOW** *Palaeotetradinium*. Originally *Wetzelia* subgenus *Rhombodinium*, subsequently *Rhombodinium?*, thirdly *Inversidinium*, fourthly (and now) *Palaeotetradinium*. Questionable assignment: Lentin and Williams (1976, p.128). Taxonomic junior synonym: *Inversidinium exilimurum*, according to Stover and Evitt (1978, p.71). Age: early Eocene.

mirabile He Chengquan, 1991, p.99, pl.35, figs.7–9. Holotype: He Chengquan, 1991, pl.35, fig.7. Age: middle Eocene.

?*oravense* Grigorovich, 1971, p.94, pl.2, fig.6. Holotype: Grigorovich, 1971, pl.2, fig.6. Questionable assignment: Williams et al. (2015, p.311). Age: Eocene.

ornatum (Vozzhennikova, 1967, p.103–104, pl.42, figs.1–3; pl.43, figs.1–4; pl.44, figs.1–12; pl.45, figs.1–3) Williams et al., 2015, p.311. Emendations: Lentin and Vozzhennikova, 1989, p.223; Vasilyeva in Andreeva-Grigorovich et al., 2011, p.53. Holotype: Vozzhennikova, 1967, pl.44, fig.6, lost according to Lentin and Vozzhennikova (1989, p.223). Lectotype: Vozzhennikova, 1967, pl.44, fig.1 (as holotype of *Kisselevia ornata* forma *reticulata*); Lentin and Vozzhennikova, 1989, pl.1, figs.1–2; Lentin and Vozzhennikova, 1990, pl.9, fig.1; designated by Lentin and Vozzhennikova (1989, p.223). Originally *Kisselevia*, subsequently (and now) *Rhombodinium*. Age: Eocene.

?*pentagonum* Vozzhennikova, 1967, p.171–172, pl.89, fig.4; pl.95, figs.1–5; pl.96, figs.1–6. Holotype: Vozzhennikova, 1967, pl.96, fig.3, lost according to Lentin and Vozzhennikova (1990, p.78). Lectotype: Lentin and Vozzhennikova, 1990, pl.7, fig.4; text-fig.42, designated by Lentin and Vozzhennikova (1990, p.78). Originally *Rhombodinium*, subsequently *Wetzeliiella*, thirdly (and now) *Rhombodinium*?. Stover and Evitt (1978, p.121) retained this species in *Rhombodinium*. Questionable assignment: Lentin and Vozzhennikova (1990, p.79). Taxonomic senior synonym: *Wetzeliiella articulata*, according to Costa and Downie (1979, p.40) — however, Lentin and Williams (1981, p.244) retained *Rhombodinium pentagonum*. Lentin and Vozzhennikova (1990, p.79) provided an "expanded description" for this species. Age: late Eocene–early Oligocene.

perforatum (Jan du Chêne and Châteauneuf, 1975, p.30–31, pl.1, figs.8–14; pl.3, figs.7–10) Lentin and Williams, 1977b, p.139. Holotype: Jan du Chêne and Châteauneuf, 1975, pl.1, figs.8–9. Originally *Wetzeliiella* subgenus *Rhombodinium*, subsequently (and now) *Rhombodinium*. Age: middle Lutetian–late Priabonian.

porosum Bujak, 1979, p.314–315, pl.1, figs.3,5–8; pl.2, fig.11; text-fig.8C. Holotype: Bujak, 1979, pl.1, figs.5–6; Bujak et al., 1980, pl.20, fig.8. Age: middle Eocene.

?*pustulosum* Châteauneuf, 1980, p.150, pl.29, figs.5–7,10. Holotype: Châteauneuf, 1980, pl.29, figs.6–7. Questionable assignment: Williams et al. (2015, p.311). Age: late Eocene (Auversian).

"*rhomboideum*" (Alberti, 1961, p.10, pl.1, figs.1–5; pl.12, fig.9) Lentin and Williams, 1973, p.121. Holotype: Alberti, 1961, pl.1, fig.3; pl.12, fig.9. **NOW** *Petalodinium*. Originally *Wetzeliiella* subgenus *Rhombodinium*, subsequently *Rhombodinium*, thirdly *Dracodinium*, fourthly (and now) *Petalodinium*. Age: late Eocene.

"forma *ovale*" Grigorovich, 1971, pl.1, fig.4. **Name not validly published**: no description. Age: early-middle Eocene.

?*rotundatum* Balteş, 1969, p.35, pl.5, fig.10 ex Lentin and Williams, 1973, p.121. Holotype: Balteş, 1969, pl.5, fig.10. Originally *Wetzeliiella* (name not validly published), subsequently (and now) *Rhombodinium*. Questionable assignment: Williams et al. (2015, p.311). Taxonomic junior synonym (at specific rank): *Rhombodinium draco* forma *freienwaldense* (as *Rhombodinium freienwaldense*), by implication in Costa and Downie (1979, p.44), who believed *Rhombodinium freienwaldense* to be the senior name — however, Grabowska in Malinowskiej and Piwockiego (1996, p.343) retained *Rhombodinium freienwaldense*. This name was not validly published in Balteş (1969) since that author considered it a provisional designation. Age: Oligocene.

"*rugosum*" Michoux, 1988, p.30–31, pl.3, figs.1–9; text-figs.8A–B. Holotype: Michoux, 1988, pl.3, figs.1–5; text-figs.8A–B. **NOW** *Petalodinium*. Originally *Rhombodinium*, subsequently (and now) *Petalodinium*. Age: early Eocene.

sinense He Chengquan, 1991, p.99–100, pl.42, figs.1–6. Holotype: He Chengquan, 1991, pl.42, fig.3. Age: middle Eocene.

spinula (Bujak, 1979, p.313, pl.2, figs.3–9; text-fig.8E) Williams et al., 2015, p.311. Holotype: Bujak, 1979, pl.2, figs.3–5; Bujak et al., 1980, pl.15, fig.6. Originally *Gochtodinium*, subsequently *Wetzeliiella*, thirdly (and now) *Rhombodinium*. N.I.A. Age: middle Eocene (see Aubry, 1986).

subtile Wilson, 1988, p.28, pl.18, figs.1a–b,2. Holotype: Wilson, 1988, pl.18, fig.2; Fensome et al., 1996, fig.3 — p.2383. Age: early Eocene.

"translucidum" Michoux, 1988, p.31–32, pl.4, figs.1–5,7–8; text-fig.9. Holotype: Michoux, 1988, pl.4, fig.4. **NOW** *Epelidinium?* Originally *Rhombodinium*, subsequently (and now) *Epelidinium?* Age: early Eocene.

tuberculatum He Chengquan, 1991, p.100, pl.37, figs.1–2. Holotype: He Chengquan, 1991, pl.37, fig.1. Age: middle Eocene.

turgaicum Vasilyeva in Vasilyeva et al., 2001, p.72, pl.3, figs.4–6 ex Vasilyeva in Andreeva-Grigorovich et al., 2011, p.57–58, pl.25, figs.3,5. Holotype: Vasilyeva et al., 2001, pl.3, fig.5; Andreeva-Grigorovich et al., 2011, pl.25, fig.3. This name was not validly published in Vasilyeva et al. (2001), since no English or Latin diagnosis was provided. Age: Bartonian.

variabile (He Chengquan, 1991, p.92, pl.35, fig.1; text-fig.12) Williams et al., 2015, p.311. Holotype: He Chengquan, 1991, pl.35, fig.1; text-fig.12. Originally *Dracodinium*, subsequently (and now) *Rhombodinium*. Age: late Eocene.

vialovii Oleinik, 1976, p.85–86, pl.1, figs.7–9. Holotype: Oleinik, 1976, pl.1, fig.7. Age: late Eocene.

?**vozzhennikovae** Williams et al., 2015, p.311. Holotype: Vozzhennikova, 1960, pl.3, fig.1, lost according to Lentin and Vozzhennikova (1989, p.215–216). Substitute name for *Kisselevia major* Vozzhennikova, 1967, p.104–105. Originally *Kisselevia major*, subsequently (and now) *Rhombodinium? vozzhennikovae*. Questionable assignment: Williams et al. (2015, p.311). Williams et al. (2015) proposed *Rhombodinium? vozzhennovae* as a substitute name for *Kisselevia major* Vozzhennikova, 1967, p.104–105 as the epithet *majus* (al. *major*) is already occupied by *Rhombodinium? majus* Yu Jingxian. Fensome and Williams (2004, p.382) did not follow Lentin and Vozzhennikova (1989) in considering the name *Kisselevia major* to be not validly published; Vozzhennikova (1967) provided a description and designated a holotype from Vozzhennikova (1960). That the holotype is lost has no bearing on the validity of the name. Lentin and Vozzhennikova (1989) noted that no potential lectotype is available. The name *Kisselevia major* was not validly published in Vozzhennikova (1963, fig.15) since that author did not provide a description. Age: Eocene.

"waipawaense" (Wilson, 1967c, p.493–494, figs.18,20) Lentin and Williams, 1973, p.121. Holotype: Wilson, 1967c, fig.18. **NOW** *Petalodinium*. Originally *Wetzelilla* subgenus *Rhombodinium*, subsequently *Rhombodinium*, thirdly *Dracodinium*, fourthly (and now) *Petalodinium*. Age: early Eocene.

wuqaiense He Chengquan, 1991, p.100, pl.36, figs.1–3. Holotype: He Chengquan, 1991, pl.36, fig.1. Age: middle Eocene.

RHYNCHODINIOPSIS Deflandre, 1935, p.231. Emendations: Below, 1981a, p.117; Sarjeant, 1982b, p.34–35; Jan du Chêne et al., 1985b, p.116,118,120. Taxonomic junior synonym: *Gonyaulacysta*, by implication in Millioud (1969, p.428), who illegitimately transferred the "type species" of *Rhynchodiniopsis*, *Rhynchodiniopsis aptiana*, to the junior name *Gonyaulacysta* — however, Lentin and Williams (1973, p.58,121) retained *Gonyaulacysta*. Type: Deflandre, 1935, pl.5, fig.10; pl.8, figs.7–9, as *Rhynchodiniopsis aptiana*.

"ambigua" (Deflandre, 1939a, p.144, pl.6, fig.2) Sarjeant, 1982b, p.35. Holotype: Deflandre, 1939a, pl.6, fig.2; Jan du Chêne et al., 1986a, pl.68, figs.1–3. **NOW** *Leptodinium*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly *Millioudodinium*, fourthly *Rhynchodiniopsis*, fifthly (and now) *Leptodinium*. Age: Kimmeridgian.

"angulosa" (Gitmez, 1970, p.252, pl.2, figs.4–5; text-figs.7A–B) Courtinat, 1989, p.203. Holotype: Gitmez, 1970, pl.2, figs.4–5; text-figs.7A–B; Jan du Chêne et al., 1986a, pl.2, figs.11–15. **NOW** *Cribroperidinium*. Originally *Gonyaulacysta*, subsequently *Acanthaulax*, thirdly *Meristaulax* Sarjeant, fourthly *Acanthaulax?*, fifthly *Rhynchodiniopsis*, sixthly (and now) *Cribroperidinium*. Taxonomic senior synonym: *Gonyaulax* (as *Gonyaulacysta*,

now *Cribroperidinium*) *granulata*, according to Fisher and Riley (1980, p.321) — however, Sarjeant and Gocht in Sarjeant (1984a, p.160) retained *Gonyaulacysta* (as *Meristaulax*; now *Rhynchodiniopsis*) *angulosa*. Age: early Kimmeridgian.

**aptiana* Deflandre, 1935, p.231, pl.5, fig.10; pl.8, figs.7–10. Emendation: Sarjeant, 1982b, p.36–37. Holotype: Deflandre, 1935, pl.5, fig.10; pl.8, figs.7–9; Deflandre, 1936b, pl.7, figs.2–4. Originally (and now) *Rhynchodiniopsis*, subsequently *Gonyaulacysta*. Lentin and Williams (1973, p.121) retained this species in *Rhynchodiniopsis*. Taxonomic junior synonym: *Gonyaulacysta fimbriata*, according to Below (1981a, p.118) — however, Sarjeant (1982b, p.35) retained *Gonyaulacysta* (as *Rhynchodiniopsis*) *fimbriata*. Jan du Chêne et al. (1986a, p.286) indicated that this species was emended by Stover and Evitt (1978, p.278–279); however, those authors did not indicate that they were emending the species. Age: Senonian.

"?*bacculata*" (Balteş, 1971, p.3, pl.1, figs.4–5) Sarjeant, 1982b, p.36. Holotype: Balteş, 1971, pl.1, figs.4–5. **NOW** *Leptodinium*?. Originally *Leptodinium*, subsequently *Millioudodinium*, thirdly *Rhynchodiniopsis*?, fourthly (and now) *Leptodinium*?. Questionable assignment: Sarjeant (1982b, p.36). Age: early Pliocene.

"*canadensis*" (Pocock, 1972, p.89, pl.24, figs.1–2; text-fig.4) Jansonius, 1986, p.214. Holotype: Pocock, 1972, pl.24, fig.1; Jan du Chêne et al., 1986a, pl.97, figs.1–4. Originally *Gonyaulacysta*, subsequently *Hystrichogonyaulax*, thirdly *Rhynchodiniopsis*. **Taxonomic senior synonym:** *Gonyaulax* (as *Gonyaulacysta*; now *Rhynchodiniopsis*) *cladophora*, according to Fisher and Riley (1980, p.320) and Kunz (1990, p.23). Age: Oxfordian–Kimmeridgian.

"*cauda*" (Gitmez and Sarjeant, 1972, p.193–194, pl.2, figs.1–2,4–5) Sarjeant, 1982b, p.35. Holotype: Gitmez and Sarjeant, 1972, pl.2, figs.1–2. Originally *Gonyaulacysta*, subsequently *Millioudodinium*, thirdly *Rhynchodiniopsis*, fourthly *Cribroperidinium*?. **Taxonomic senior synonym:** *Gonyaulacysta globata*, according to Poulsen (1996, p.72). N.I.A. Age: early–late Kimmeridgian.

cladophora (Deflandre, 1939a, p.173–176, pl.7, figs.1–5; text-figs.5–6) Below, 1981a, p.118. Holotype: Deflandre, 1939a, pl.7, fig.1; Jan du Chêne et al., 1986a, pl.94, fig.6. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly *Hystrichogonyaulax*, fourthly (and now) *Rhynchodiniopsis*. Taxonomic junior synonyms: *Gonyaulacysta gottisii*, according to Jan du Chêne et al. (1986a, p.48) and Jan du Chêne and Fauconnier (1986, p.55); *Gonyaulacysta downiei* and *Gonyaulacysta* (as *Hystrichogonyaulax*) *canadensis*, both according to Fisher and Riley (1980, p.320) and Kunz (1990, p.23). Age: early Oxfordian.

subsp. ***cladophora***. Autonym. Holotype: Deflandre, 1939a, pl.7, fig.1. Originally *Gonyaulax cladophora* subsp. *cladophora* (Appendix B), subsequently *Gonyaulacysta cladophora* subsp. *cladophora*, thirdly *Hystrichogonyaulax cladophora* subsp. *cladophora*, fourthly (and now) *Rhynchodiniopsis cladophora* subsp. *cladophora*. Taxonomic junior synonyms: *Gonyaulax* (as *Rhynchodiniopsis*) *cladophora* subsp. *extensa*, *Gonyaulax* (as *Rhynchodiniopsis*) *cladophora* subsp. *hemipolyedrica* and *Gonyaulax* (as *Rhynchodiniopsis*) *cladophora* subsp. *isovalvata*, all by implication in Brenner (1988, p.72), who listed these subspecies as taxonomic junior synonyms of the species *Rhynchodiniopsis cladophora* — however, Lentin and Williams (1993, p.566) retained all three subspecies. Age: early Oxfordian.

subsp. ***extensa*** (Klement, 1960, p.36–37, pl.4, figs.1–4; text-fig.16) Below, 1981a, p.118. Holotype: Klement, 1960, pl.4, figs.1–3; Jan du Chêne et al., 1986a, pl.95, figs.4–5. Originally *Gonyaulax cladophora* subsp. *extensa* (Appendix B), subsequently *Gonyaulacysta cladophora* subsp. *extensa*, thirdly *Hystrichogonyaulax cladophora* subsp. *extensa*, fourthly (and now) *Rhynchodiniopsis cladophora* subsp. *extensa*. Taxonomic senior synonym: *Gonyaulax* (as *Rhynchodiniopsis*) *cladophora* subsp. *cladophora*, by implication in Brenner (1988, p.72), who listed this subspecies as a taxonomic junior synonym of the species *Rhynchodiniopsis cladophora* — however, Lentin and Williams (1993, p.566) retained *Gonyaulax* (as *Rhynchodiniopsis*) *cladophora* subsp. *extensa*. Age: early Kimmeridgian.

subsp. ***hemipolyedrica*** (Klement, 1960, p.36, pl.3, figs.10–12; text-figs.14–15) Below, 1981a, p.118. Holotype: Klement, 1960, pl.3, figs.10–11. Originally *Gonyaulax cladophora* subsp. *hemipolyedrica* (Appendix B), subsequently *Gonyaulacysta cladophora* subsp. *hemipolyedrica*, thirdly *Hystrichogonyaulax cladophora* subsp. *hemipolyedrica*, fourthly (and now) *Rhynchodiniopsis cladophora* subsp.

hemipolyedrica. Taxonomic senior synonym: *Gonyaulax* (as *Rhynchodiniopsis*) *cladophora* subsp. *cladophora*, by implication in Brenner (1988, p.72), who listed this subspecies as a taxonomic junior synonym of the species *Rhynchodiniopsis cladophora* — however, Lentin and Williams (1993, p.566) retained *Gonyaulax* (as *Rhynchodiniopsis*) *cladophora* subsp. *hemipolyedrica*. Age: early Kimmeridgian.

subsp. *isovalvata* (Klement, 1960, p.37–38, pl.4, figs.5–9; text-fig.17) Below, 1981a, p.118. Holotype: Klement, 1960, pl.4, figs.5–6. Originally *Gonyaulax cladophora* subsp. *isovalvata* (Appendix B), subsequently *Gonyaulacysta cladophora* subsp. *isovalvata*, thirdly *Hystrichogonyaulax cladophora* subsp. *isovalvata*, fourthly (and now) *Rhynchodiniopsis cladophora* subsp. *isovalvata*. Taxonomic senior synonym: *Gonyaulax* (as *Rhynchodiniopsis*) *cladophora* subsp. *cladophora*, by implication in Brenner (1988, p.72), who listed this subspecies as a taxonomic junior synonym of the species *Rhynchodiniopsis cladophora* — however, Lentin and Williams (1993, p.566) retained *Gonyaulax* (as *Rhynchodiniopsis*) *cladophora* subsp. *isovalvata*. Age: early Kimmeridgian.

"?*confusa*" (Vozzhennikova, 1967, p.80, pl.17, figs.1a–b; pl.25, figs.4–5; pl.27, figs.3–4) Sarjeant, 1982b, p.36. Holotype: Vozzhennikova, 1967, pl.25, fig.5, lost according to Lentin and Vozzhennikova (1990, p.93). **NOW** *Apteodinium*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly *Millioudodinium?*, fourthly *Rhynchodiniopsis?*, fifthly (and now) *Apteodinium*. Questionable assignment: Sarjeant (1982b, p.36). Age: Late Jurassic.

"*crassicornuta*" (Klement, 1960, p.38–39, pl.5, figs.1–3) Below, 1981a, p.118. Emendation: Sarjeant, 1984a, p.158–160, as *Rhynchodiniopsis crassicornuta*. Holotype: Klement, 1960, pl.5, fig.1; Sarjeant, 1984a, pl.2, figs.1–2; text-fig.2; Jan du Chêne et al., 1986a, pl.45, figs.1–4. **NOW** *Gonyaulacysta?*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly (and now) *Gonyaulacysta?*, fourthly *Rhynchodiniopsis*. Age: early Kimmeridgian.

"?*downiei*" (Pocock, 1972, p.87, pl.22, figs.1–2; text-fig.2) Sarjeant, 1982b, p.36. Holotype: Pocock, 1972, pl.22, figs.1–2; Jan du Chêne et al., 1986a, pl.97, figs.7–12. Originally *Gonyaulacysta*, subsequently *Hystrichosphaeropsis*, thirdly *Rhynchodiniopsis?*, fourthly *Rhynchodiniopsis*. Questionable assignment: Sarjeant (1982b, p.36). **Taxonomic senior synonym:** *Gonyaulacysta* (as *Hystrichogonyaulax*, now *Rhynchodiniopsis*) *cladophora*, according to Fisher and Riley (1980, p.320) and Kunz (1990, p.23). Age: Oxfordian–Kimmeridgian.

"*episoma*" (Sarjeant, 1966b, p.118–119, pl.13, figs.9–10; text-fig.27) Sarjeant, 1982b, p.35. Holotype: Sarjeant, 1966b, pl.13, figs.9–10; text-fig.27; Jan du Chêne et al., 1986a, pl.67, figs.15–16. **NOW** *Leptodinium*. Originally *Gonyaulacysta*, subsequently *Millioudodinium*, thirdly *Rhynchodiniopsis*, fourthly (and now) *Leptodinium*. Age: late Barremian.

fimbriata (Duxbury, 1980, p.123, pl.1, figs.1–3) Sarjeant, 1982b, p.35. Holotype: Duxbury, 1980, pl.1, figs.1–2; Jan du Chêne et al., 1986a, pl.98, figs.1–2. Originally *Gonyaulacysta*, subsequently (and now) *Rhynchodiniopsis*. Taxonomic senior synonym: *Rhynchodiniopsis aptiana*, according to Below (1981a, p.118) — however, Sarjeant (1982b, p.36) retained *Rhynchodiniopsis fimbriata*. Age: middle Barremian.

foveata Snape, 1992, p.277, figs.7h,k,n. Holotype: Snape, 1992, fig.7h. Age: middle Tithonian.

"?*giuseppei*" (Morgenroth, 1966a, p.5, pl.2, figs.3–6) Sarjeant, 1982b, p.36. Holotype: Morgenroth, 1966a, pl.2, figs.3–4. **NOW** *Cribroperidinium*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly *Millioudodinium?*, fourthly *Rhynchodiniopsis?*, fifthly (and now) *Cribroperidinium*. Questionable assignment: Sarjeant (1982b, p.36). Age: early Eocene.

"subsp. *giuseppei*". Autonym. **Now redundant.** Originally *Gonyaulax giuseppei* subsp. *giuseppei* (Appendix B), subsequently *Gonyaulacysta giuseppei* subsp. *giuseppei*, thirdly *Millioudodinium?* *giuseppei* subsp. *giuseppei*, fourthly *Rhynchodiniopsis?* *giuseppei* subsp. *giuseppei*, fifthly *Cribroperidinium giuseppei* subsp. *giuseppei*. Taxonomic junior synonym: *Gonyaulax* (as *Cribroperidinium*) *giuseppei* subsp. *major*, according to Helenes (1984, p.121) and Lentin and Williams (1989, p.81).

"subsp. *major*" (Morgenroth, 1966a, p.6, pl.2, figs.5–6) Sarjeant, 1982b, p.36. Holotype: Morgenroth, 1966a, pl.2, figs.5–6. Originally *Gonyaulax giuseppeii* subsp. *major* (Appendix B), subsequently *Gonyaulacysta giuseppeii* subsp. *major*, thirdly *Millioudodinium?* *giuseppeii* subsp. *major*, fourthly *Rhynchodiniopsis?* *giuseppeii* subsp. *major*, fifthly *Cribroperidinium giuseppeii* subsp. *majus*. **Taxonomic senior synonym:** *Rhynchodiniopsis* (as *Cribroperidinium*) *giuseppeii* subsp. *giuseppeii*, according to Helenes (1984, p.121) and Lentin and Williams (1989, p.81). Age: early Eocene.

"*globata*" (Gitmez and Sarjeant, 1972, p.195,197, pl.3, figs.1–2; text-figs.5A–B) Sarjeant, 1982b, p.35. Holotype: Gitmez and Sarjeant, 1972, pl.3, fig.1; text-fig.5A; Jan du Chêne et al., 1986a, pl.29, fig.3. **NOW** *Cribroperidinium*. Originally *Gonyaulacysta*, subsequently *Millioudodinium*, thirdly *Rhynchodiniopsis*, fourthly *Cribroperidinium?*, fifthly (and now) *Cribroperidinium*. Taxonomic junior synonyms: *Gonyaulacysta cauda* and *Gonyaulacysta systremmata*, both according to Poulsen (1996, p.72). Age: middle-late Kimmeridgian.

gochtii (Pocock, 1972, p.90, pl.22, fig.12; text-fig.6) Jansonius in Jan du Chêne et al., 1986a, p.287. Holotype: Pocock, 1972, pl.22, fig.12; Jan du Chêne et al., 1986a, pl.93, figs.4–8; Jansonius, 1986, pl.1, figs.1–3; text-fig.14. Originally *Scriniodinium*, subsequently *Scriniodinium?*, thirdly *Endoscrinium*, fourthly (and now) *Rhynchodiniopsis*. Jansonius (1986, p.218) also proposed this combination. Age: late Bajocian.

gongylos (Sarjeant, 1966b, p.111–113, pl.13, figs.1–2; text-fig.23) Sarjeant, 1982b, p.35. Holotype: Sarjeant, 1966b, pl.13, figs.1–2; text-fig.23; Jan du Chêne et al., 1986a, pl.93, figs.10–13. Originally *Gonyaulacysta*, subsequently *Leptodinium?*, thirdly (and now) *Rhynchodiniopsis*. N.I.A. Age: early Oxfordian.

"*granulata*" (Klement, 1960, p.39–41, pl.4, figs.10–13; text-figs.18–20) Sarjeant, 1982b, p.35. Emendation: Sarjeant, 1984a, p.161–162, as *Meristaulax granulata*. Holotype: Klement, 1960, pl.4, figs.10–11; text-figs.18–20; Fensome et al., 1995, figs.1–2 — p.1525; disintegrated according to Sarjeant (1984a, p.162). Lectotype (designated by Sarjeant, 1984a, p.162): Sarjeant, 1984a, pl.3, figs.3–4; text-fig.3; Jan du Chêne et al., 1986a, pl.27, figs.7–10; Brenner, 1988, pl.3, figs.2a–b; Fensome et al., 1995, figs.5–6 — p.1525 — however, Brenner (1988, p.35) argued that this specimen is not conspecific with the holotype. Lectotype (designated by Brenner, 1988, p.35): Brenner, 1988, pl.1, figs.3a–c; Fensome et al., 1995, figs.7–9 — p.1525. **NOW** *Cribroperidinium*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly (and now) *Cribroperidinium*, fourthly *Rhynchodiniopsis*, fifthly *Meristaulax* Sarjeant, sixthly *Acanthaulax*. Poulsen (1996, p.73) retained this species in *Cribroperidinium*. Taxonomic junior synonyms: *Gonyaulax* (as *Cribroperidinium*) *venusta*, according to Schrank (2005, p.56); *Gonyaulax* (now *Cribroperidinium*) *granuligera*, according to Fisher and Riley (1980, p.321) — however, Sarjeant (1984a, p.156–158) retained *Gonyaulax* (as *Cryptarchaeodinium*) *granuligera*; *Gonyaulacysta* (as *Acanthaulax?*, now *Cribroperidinium*) *angulosa*, according to Fisher and Riley (1980, p.321) — however, Sarjeant and Gocht in Sarjeant (1984a, p.160) retained *Gonyaulacysta* (as *Meristaulax*) *angulosa*. For further discussion, see *Cribroperidinium granulatum*. Age: middle Oxfordian–early Kimmeridgian.

"*granuligera*" (Klement, 1960, p.41–42, pl.5, figs.4–5) Sarjeant, 1982b, p.35. Emendation: Sarjeant, 1984a, p.156, as *Cryptarchaeodinium granuligerum*. Holotype: Klement, 1960, pl.5, figs.4–5; Sarjeant, 1984a, pl.1, figs.3–4; text-fig.1; Jan du Chêne et al., 1986a, pl.27, figs.11–14. **NOW** *Cribroperidinium*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly (and now) *Cribroperidinium*, fourthly *Rhynchodiniopsis*, fifthly *Cryptarchaeodinium*, sixthly *Acanthaulax*. Taxonomic senior synonym: *Gonyaulax* (as *Gonyaulacysta*) *granulata*, according to Fisher and Riley (1980, p.121) — however, Sarjeant (1984a, p.156) retained *Gonyaulax* (as *Cryptarchaeodinium*) *granuligera*. Age: middle Oxfordian–early Kimmeridgian.

"*hadra*" (Sarjeant, 1966b, p.119–121, pl.14, fig.1; text-fig.28) Sarjeant, 1982b, p.35. Holotype: Sarjeant, 1966b, pl.14, fig.1. **NOW** *Leptodinium?*. Originally *Gonyaulacysta*, subsequently *Millioudodinium*, thirdly *Rhynchodiniopsis*, fourthly (and now) *Leptodinium?*. Age: late Barremian.

hermii Kirsch, 1993, p.48,50, pl.3, figs.10–17. Holotype: Kirsch, 1993, pl.3, figs.12–13. Age: Barremian.

"*hyaloderma*" (Deflandre, 1939b, p.144, pl.6, figs.3–4 ex Sarjeant, 1967b, p.252) Sarjeant, 1982b, p.36. Holotype: Deflandre, 1939b, pl.6, figs.3–4; Jan du Chêne et al., 1986a, pl.58, figs.1–5. **NOW** *Impagidinium?*. Originally *Palaeoperidinium* (name not validly published), subsequently *Gonyaulacysta*, thirdly *Gonyaulacysta?*, fourthly

Rhynchodiniopsis?, fifthly (and now) *Impagidinium?*. Questionable assignment: Sarjeant (1982b, p.36). Age: Kimmeridgian.

"*hyalodermopsis*" (Cookson and Eisenack, 1958, p.34, pl.3, figs.11–12; text-figs.5–6) Sarjeant, 1982b, p.35. Holotype: Cookson and Eisenack, 1958, pl.3, figs.11–12; text-figs.5–6; Jan du Chêne et al., 1986a, pl.74, figs.9–10. **NOW** *Leptodinium?*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly (and now) *Leptodinium?*, fourthly *Rhynchodiniopsis*. Age: Neocomian–Aptian.

?*italica* (Corradini, 1973, p.132–133, pl.19, figs.8a–b; pl.33, figs.5a–b; text-figs.3a–d) Jan du Chêne et al., 1985b, p.120. Holotype: Corradini, 1973, pl.19, figs.8a–b; text-figs.3a–d; Jan du Chêne et al., 1986a, pl.98, fig.11. Originally *Gonyaulacysta*, subsequently *Millioudodinium?*, thirdly *Hystrichogonyaulax*, fourthly (and now) *Rhynchodiniopsis?*. Questionable assignment: Jan du Chêne et al. (1985b, p.120). Age: Late Cretaceous–Paleocene.

"?*mamillifera*" (Deflandre, 1939b, p.143, pl.6, fig.1) Sarjeant, 1982b, p.36. Holotype: Deflandre, 1939b, pl.6, fig.1; Jan du Chêne et al., 1986a, pl.72, figs.1–8. **NOW** *Leptodinium*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta?*, thirdly *Millioudodinium?*, fourthly *Rhynchodiniopsis?*, fifthly (and now) *Leptodinium*. Questionable assignment: Sarjeant (1982b, p.36). Age: Kimmeridgian.

martonensis Bailey et al., 1997, p.239, figs.4a–b. Holotype: Bailey et al., 1997, fig.4a. Age: late Kimmeridgian.

?*microceras* (Eisenack, 1958a, p.391, pl.21, fig.13) Sarjeant, 1985a, p.66. Emendation: Sarjeant, 1985a, p.67, as *Rhynchodiniopsis microceras*. Holotype: Eisenack, 1958a, pl.21, fig.13; Sarjeant, 1985a, pl.6, figs.5–6; pl.7, fig.6; text-fig.4; Jan du Chêne et al., 1986a, pl.99, figs.5–6. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly *Rhynchodiniopsis*, fourthly (and now) *Rhynchodiniopsis?*. Questionable assignment: Jan du Chêne et al. (1986a, p.287). Age: late Aptian.

"?*nannotrix*" (Deflandre, 1939b, p.143, pl.6, fig.7) Sarjeant, 1982b, p.36. Holotype: Deflandre, 1939b, pl.6, fig.7; Jan du Chêne et al., 1986a, pl.69, figs.4–6. **NOW** *Leptodinium*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly *Gonyaulacysta?*, fourthly *Rhynchodiniopsis?*, fifthly (and now) *Leptodinium*. Questionable assignment: Sarjeant (1982b, p.36). Age: Kimmeridgian.

?*nealei* (Sarjeant, 1962a, p.480–481, pl.69, fig.1; text-fig.2) Jan du Chêne et al., 1985b, p.120. Holotype: Sarjeant, 1962a, pl.69, fig.1; text-fig.2. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta?* (combination not validly published), thirdly *Hystrichogonyaulax*, fourthly *Hystrichogonyaulax?*, fifthly *Rhynchodiniopsis*, sixthly (and now) *Rhynchodiniopsis?*. Questionable assignment: Jan du Chêne et al. (1986a, p.287–288). Age: Oxfordian.

"*obesa*" (Brideaux, 1971, p.82, pl.23, fig.39; text-figs.8a–b) Sarjeant, 1982b, p.35. Holotype: Brideaux, 1971, pl.23, fig.39; text-figs.8a–b; Jan du Chêne et al., 1986a, pl.30, fig.9. **NOW** *Cribroperidinium?*. Originally *Gonyaulacysta*, subsequently *Millioudodinium*, thirdly *Rhynchodiniopsis*, fourthly (and now) *Cribroperidinium?*. Age: late Albian.

"*palla*" (Sarjeant, 1966b, p.113–114, pl.13, figs.3–4; text-fig.24) Sarjeant, 1982b, p.35. Holotype: Sarjeant, 1966b, pl.13, figs.3–4; Jan du Chêne et al., 1986a, pl.27, figs.15–17. **NOW** *Cribroperidinium*. Originally *Gonyaulacysta*, subsequently *Millioudodinium*, thirdly *Millioudodinium?*, fourthly *Rhynchodiniopsis*, fifthly (and now) *Cribroperidinium*. Age: early Barremian.

"*pectinigera*" Prauss, 1990, p.281. **Name not validly published**: no description. This name presumably refers to *Gonyaulacysta pectinigera*.

pennata (Riley in Fisher and Riley, 1980, p.321–322, pl.1, figs.10–11) Jan du Chêne et al., 1985b, p.118. Holotype: Fisher and Riley, 1980, pl.1, figs.10–11; Jan du Chêne et al., 1986a, pl.98, fig.5. Originally *Gonyaulacysta*, subsequently *Hystrichogonyaulax*, thirdly *Millioudodinium*, fourthly (and now) *Rhynchodiniopsis*. Age: late Kimmeridgian.

"*perforans*" (Cookson and Eisenack, 1958, p.30–32, pl.2, figs.1–4, 7–8; text-figs.8–9) Sarjeant, 1982b, p.35. Holotype: Cookson and Eisenack, 1958, pl.2, fig.1; text-figs.8–9; Jan du Chêne et al., 1986a, pl.32, fig.2. **NOW**

Cribroperidinium?. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly *Leptodinium?*, fourthly *Rhynchodiniopsis*, fifthly *Cribroperidinium*, sixthly (and now) *Cribroperidinium?*. Age: Late Jurassic.

?*regalis* (Gocht, 1970b, p.139–140, pl.33, figs.5–7; text-fig.10) Jan du Chêne et al., 1985b, p.120. Holotype: Gocht, 1970b, pl.33, fig.6; text-fig.10; Jan du Chêne et al., 1986a, pl.98, figs.6–10. Originally *Leptodinium*, subsequently *Hystrichogonyaulax*, thirdly (and now) *Rhynchodiniopsis?*. Questionable assignment: Jan du Chêne et al. (1985b, p.120). Age: early Bathonian.

"*saepita*" (Ashraf, 1979, p.128, pl.2, fig.27; pl.3, figs.1–3,5) Jan du Chêne et al., 1985b, p.120. Holotype: Ashraf, 1979, pl.3, fig.2. **NOW** *Leptodinium*. Originally (and now) *Leptodinium*, subsequently *Hystrichogonyaulax*, thirdly *Rhynchodiniopsis*, fourthly *Ctenidodinium*. Age: Late Jurassic (Malm).

saliorum Louwye, 1997, p.152–153, pl.2, figs.1–2,4,9. Holotype: Louwye, 1997, pl.2, figs.1–2,4. The epithet is in the genitive plural case and would not change its ending if transferred to a genus of different gender. Age: Campanian.

"*sarjeantii*" (Vozzhennikova, 1967, p.87–89, pl.25, figs.1–2; pl.28, fig.4; pl.31, figs.1–3; pl.32, figs.1–4) Sarjeant, 1982b, p.35. Holotype: Vozzhennikova, 1967, pl.31, fig.1a; Lentin and Vozzhennikova, 1990, text-fig.53; lost according to Lentin and Vozzhennikova (1990, p.95). Neotype: Vozzhennikova, 1967, pl.31, fig.3?; Lentin and Vozzhennikova, 1990, pl.16, fig.4; designated by Lentin and Vozzhennikova (1990, p.95). **NOW** *Cribroperidinium*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly *Millioudodinium*, fourthly *Rhynchodiniopsis*, fifthly *Cribroperidinium?*, sixthly (and now) *Cribroperidinium*. Age: Tithonian.

"subsp. *sarjeantii*". Autonym. Holotype: Vozzhennikova, 1967, pl.31, fig.1a; Lentin and Vozzhennikova, 1990, text-fig.53; lost according to Lentin and Vozzhennikova (1990, p.95). Neotype: Vozzhennikova, 1967, pl.31, fig.3?; Lentin and Vozzhennikova, 1990, pl.16, fig.4; designated by Lentin and Vozzhennikova (1990, p.95). **NOW** *Cribroperidinium sarjeantii* subsp. *sarjeantii*. Originally *Gonyaulacysta sarjeantii* subsp. *sarjeantii*, subsequently *Millioudodinium sarjeantii* subsp. *sarjeantii*, thirdly *Rhynchodiniopsis sarjeantii* subsp. *sarjeantii*, fourthly *Cribroperidinium? sarjeantii* subsp. *sarjeantii*, fifthly (and now) *Cribroperidinium sarjeantii* subsp. *sarjeantii*.

"subsp. *sphaerica*" (Vozzhennikova, 1967, p.89, pl.25, figs.1–2; pl.28, fig.4; pl.32, figs.1–4) Sarjeant, 1982b, p.35. Holotype: Vozzhennikova, 1967, pl.28, fig.4; Jan du Chêne et al., 1986a, pl.20, fig.9; lost according to Lentin and Vozzhennikova (1990, p.97). Lectotype: Lentin and Vozzhennikova, 1990, pl.16, figs.1–2, designated by Lentin and Vozzhennikova (1990, p.97). **NOW** *Cribroperidinium sarjeantii* subsp. *sphaericum*. Originally *Gonyaulax sarjeantii* var. *sphaerica* (Appendix B), subsequently *Gonyaulacysta sarjeantii* subsp. *sphaerica*, thirdly *Millioudodinium sarjeantii* subsp. *sphaericum*, fourthly *Rhynchodiniopsis sarjeantii* subsp. *sphaerica*, fifthly *Cribroperidinium? sarjeantii* subsp. *sphaericum*, sixthly (and now) *Cribroperidinium sarjeantii* subsp. *sphaericum*. Age: Tithonian.

serrata (Cookson and Eisenack, 1958, p.34, pl.3, fig.2; text-figs.12–14) Jan du Chêne et al., 1985b, p.120. Holotype: Cookson and Eisenack, 1958, pl.3, fig.2; Jan du Chêne et al., 1986a, pl.99, figs.3–4. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly *Hystrichogonyaulax*, fourthly (and now) *Rhynchodiniopsis*. Age: Late Jurassic–Neocomian.

"*setcheyensis*" (Sarjeant, 1976c, p.4–6, pl.1, fig.7; text-fig.1) Sarjeant, 1982b, p.36. Holotype: Sarjeant, 1976c, pl.1, fig.7; Jan du Chêne et al., 1986a, pl.74, figs.1–4. **NOW** *Impagidinium*. Originally *Gonyaulacysta*, subsequently *Leptodinium*, thirdly *Rhynchodiniopsis*, fourthly (and now) *Impagidinium*. Age: Kimmeridgian.

"*tenuitabulata*" (Gerlach, 1961, p.159, pl.25, figs.10–11; text-figs.1–3) Sarjeant, 1984b, p.76. Holotype: Gerlach, 1961, pl.25, figs.10–11. **NOW** *Cribroperidinium*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly *Millioudodinium*, fourthly (and now) *Cribroperidinium*, fifthly *Rhynchodiniopsis*. Age: middle Oligocene–middle Miocene.

"*whitei*" (Sarjeant, 1966b, p.126–128, pl.14, fig.2; text-fig.32) Sarjeant, 1982b, p.36. Holotype: Sarjeant, 1966b, pl.14, fig.2. **NOW** *Impagidinium?*. Originally *Gonyaulacysta*, subsequently (and now) *Impagidinium?*, thirdly *Rhynchodiniopsis*. Age: Cenomanian.

RIASANODINIUM Iosifova, 1992, p.62. Type: Iosifova, 1992, pl.9, figs.1a–b; text-figs.1a–b, as *Riasanodinium fedorovae*.

**fedorovae* Iosifova, 1992, p.62–63, pl.9, figs.1a–c (not fig.5); text-figs.1a–b. Holotype: Iosifova, 1992, pl.9, figs.1a–b; text-figs.1a–b; Iosifova, 1996, pl.13, figs.4a–c; text-figs.11A–B. Age: Ryazanian.

RICULACYSTA Stover, 1977, p.76–77. Type: Stover, 1977, pl.2, figs.22–24, as *Riculacysta perforata*.

amplexa Kirsch, 1991, p.127–128, pl.33, figs.1,5–6,9–13; pl.43, figs.1,4,7; text-figs.60a–b. Holotype: Kirsch, 1991, pl.33, figs.5,9; Fauconnier and Masure, 2004, pl.67, figs.7–8. Age: late Maastrichtian.

?*pala* Kirsch, 1991, p.128–129. pl.32, figs.11–13; pl.33, figs.2–4,7–8; text-figs.61a–c. Holotype: Kirsch, 1991, pl.32, figs.11–13; text-figs.61a–c; Fauconnier and Masure, 2004, pl.67, figs.1–3. Questionable assignment: Kirsch (1991, p.128). N.I.A. Age: Maastrichtian.

**perforata* Stover, 1977, p.77–78, pl.2, figs.22–31. Holotype: Stover, 1977, pl.2, figs.22–24; Fensome et al., 1995, figs.1–3 — p.1651. Taxonomic junior synonym: *Cyclonephelium semitectum*, according to Köthe (1990, p.50) — however, Kirsch (1991, p.129) retained *Cyclonephelium* (as *Riculacysta*, now *Glaphyrocysta*) *semitectum*. Age: middle-late Oligocene.

"*semitecta*" (Bujak in Bujak et al., 1980, p.46,48,50, pl.14, figs.2–9; text-fig.13) Kirsch, 1991, p.129. Holotype: Bujak et al., 1980, pl.14, figs.4–6; Fauconnier and Masure, 2004, pl.33, figs.10–11. **Combination not validly published**: basionym not fully referenced. **NOW** *Glaphyrocysta*. Originally *Cyclonephelium*, subsequently (and now) *Glaphyrocysta*, thirdly *Riculacysta* (combination not validly published). Taxonomic senior synonym: *Riculacysta perforata*, according to Köthe (1990, p.50) — however, Kirsch (1991, p.129) retained *Cyclonephelium* (as *Riculacysta*, now *Glaphyrocysta*) *semitectum*. Age: middle Eocene (see Aubry, 1986).

shauka Slimani et al., 2012, p.348–349, fig.7A–I. Holotype: Slimani et al., 2012, fig.7A–E. Age: late Maastrichtian–Thanetian.

RIGAUDELLA Below, 1982b, p.138–139. Type: Deflandre, 1939a, pl.11, fig.1, as *Hystrichosphaeridium aemulum*.

**aemula* (Deflandre, 1939a, p.187–189, pl.9, fig.12; pl.10, figs.5–8; pl.11, figs.1,7) Below, 1982b, p.139. Emendation: Below, 1982b, p.139–140, as *Rigaudella aemula*. Holotype: Deflandre, 1939a, pl.11, fig.1; Eisenack and Kjellström, 1972, figure to left — p.43; Fensome et al., 1995, fig.1 — p.1473; fig.2 — p.1477. Originally *Hystrichosphaeridium*, subsequently *Cannosphaeropsis*, thirdly *Adnatosphaeridium*, fourthly (and now) *Rigaudella*. Taxonomic junior synonym: *Cannosphaeropsis paucispina*, according to Below (1982b, p.139). Age: Oxfordian.

subsp. *aemula*. Autonym. Holotype: Deflandre, 1939a, pl.11, fig.1; Eisenack and Kjellström, 1972, figure to left — p.43; Fensome et al., 1995, fig.1 — p.1473; fig.2 — p.1477. Originally *Cannosphaeropsis aemula* subsp. *aemula*, subsequently *Adnatosphaeridium aemulum* subsp. *aemulum*, thirdly (and now) *Rigaudella aemula* subsp. *aemula*.

subsp. *fenestrata* Nejad et al., 1999, p.51–52, pl.15, figs.3,10; text-fig.6.3. Holotype: Nejad et al., 1999, pl.15, fig.10; text-fig.6.3. Age: early Oxfordian.

subsp. *integra* (Cookson and Eisenack, 1958, p.47, pl.7, figs.6–7) Below, 1982b, p.147. Holotype: Cookson and Eisenack, 1958, pl.7, fig.6; Fensome et al., 1995, fig.1 — p.1565; Fauconnier and Masure,

2004, pl.68, figs.8–9. Originally *Cannosphaeropsis aemula* subsp. *integra*, subsequently *Adnatosphaeridium aemulum* subsp. *integrum*, thirdly (and now) *Rigaudella aemula* subsp. *integra*. Age: Late Jurassic.

apenninica (Corradini, 1973, p.163–164, pl.25, figs.4a–b; pl.36, figs.1a–b) Below, 1982b, p.148. Holotype: Corradini, 1973, pl.25, figs.4a–b; Fauconnier and Masure, 2004, pl.68, figs.10–12. Originally *Adnatosphaeridium*, subsequently (and now) *Rigaudella*. Age: Campanian–?Paleocene.

"*apiculata*" (Cookson and Eisenack, 1960b, p.254, pl.39, fig.15) Below, 1982b, p.148. Emendation: Davey, 1988, p.43–44, as *Papuadinium apiculatum*. Holotype: Cookson and Eisenack, 1960b, pl.39, fig.15; Fensome et al., 1993a, fig.1 — p.927. **NOW** *Papuadinium*. Originally *Cannosphaeropsis*, subsequently *Adnatosphaeridium*, thirdly *Rigaudella*, fourthly (and now) *Papuadinium*. Age: ?Tithonian.

filamentosa (Cookson and Eisenack, 1958, p.47–48, pl.7, figs.8–9; pl.8, figs.1–2) Below, 1982b, p.148. Holotype: Cookson and Eisenack, 1958, pl.7, fig.9. Originally *Cannosphaeropsis*, subsequently *Adnatosphaeridium*, thirdly (and now) *Rigaudella*. Taxonomic junior synonym: *Cannosphaeropsis* (subsequently *Rigaudella*) *perforata*, according to Stancliffe and Sarjeant (1990, p.206). Age: Middle-Late Jurassic.

"*perforata*" (Alberti, 1961, p.37, pl.9, fig.14) Below, 1982b, p.149. Holotype: Alberti, 1961, pl.9, fig.14. Originally *Cannosphaeropsis*, subsequently *Adnatosphaeridium*, thirdly *Rigaudella*. **Taxonomic senior synonym:** *Cannosphaeropsis* (now *Rigaudella*) *filamentosa*, according to Stancliffe and Sarjeant (1990, p.206). Fauconnier and Ogg in Fauconnier and Masure (2004, p.479–480) listed this taxon as a provisional species but accepted the synonymy cited above. Age: ?Callovian.

"*separata*" Parker in Riding and Helby, 2001g, p.184. **Name not validly published:** no description. **Taxonomic senior synonym:** *Balcattia cheleusis*, according to Riding and Helby (2001g, p.184).

RIPEA Batten, 1985, p.431. Type: Batten, 1985, text-figs.3B,5A, as *Ripea sussexensis*.

**sussexensis* Batten, 1985, p.431–432, text-figs.3A–C,4A–L,5A–F. Emendation: Batten and Lister, 1988, p.354. Holotype: Batten, 1985, text-figs.3B,5A; Fensome et al., 1995, figs.4,8 — p.1815. Age: ?late Hauterivian.

RISSERELLA Trejo, 1983, p.8. Calcareous dinoflagellate genus (see Elbrächter et al., 2008, p.1301, who noted that the cyst wall is pithonelloid and so a dinoflagellate affinity is questionable). Type: Trejo, 1983, pl.45, fig.3, as *Risserella rablingae*.

cordobaensis Trejo, 1983, p.9, pl.47, figs.1–6. Holotype: Trejo, 1983, pl.47, fig.6. Age: Cenomanian–Turonian.

**rablingae* Trejo, 1983, p.8–9, pl.45, fig.3; pl.46, figs.3–8. Holotype: Trejo, 1983, pl.45, fig.3. Age: Cenomanian–Turonian.

"**RIVERNOOKIA**" Cookson and Eisenack, 1982, p.56. **Taxonomic senior synonym:** *Hafniasphaera*, by implication in Lentin and Williams (1985, p.163), who included the "type species" of *Rivernookia*, *Rivernookia septata*, in *Hafniasphaera*. Taxonomic senior synonym: *Spiniferites*, according to Stover and Williams (1987, p.195). Type: Cookson and Eisenack, 1967b, pl.42, fig.6, as *Baltisphaeridium septata*.

septata* (Cookson and Eisenack, 1967b, p.253–254, pl.42, figs.6–10; text-fig.1) Cookson and Eisenack, 1982, p.56. Emendation: McLean, 1971, p.730, as *Spiniferites septatus*. Holotype: Cookson and Eisenack, 1967b, pl.42, fig.6; Eisenack and Kjellström, 1975b, uppermost figure — p.984w; Fensome et al., 1996, fig.1 — p.2355. **NOW *Hafniasphaera*. Originally *Baltisphaeridium* (Appendix A), subsequently *Spiniferites*, thirdly (and now) *Hafniasphaera*, fourthly *Achomosphaera*, fifthly *Rivernookia*. Age: late Paleocene.

ROMANODINIUM Balteş, 1971, p.8–9. Type: see discussion under *Romanodinium areolatum*; "type species" — *Romanodinium areolatum*.

***areolatum** Balteş, 1971, p.9, pl.3 (not pl.5), figs.1–2. Holotype: designated by Balteş (1971), but not clearly related to an illustration. Age: early Pliocene.

ROSSWANGIA Wille and Gocht, 1985, p.123,125,127,129. Taxonomic junior synonym: *Dinaurelia*, according to Below (1987b, p.29) — however, Stover and Williams (1987, p.79) and Lentin and Williams (1989, p.110) retained *Dinaurelia*. Type: Wille and Gocht, 1985, pl.5, figs.7a–b, as *Rosswangia simplex*.

holotabulata (Davies, 1983, p.14–15, pl.1, figs.9–19; text-fig.7) Below, 1987b, p.30. Emendation: Below, 1987b, p.30, as *Rosswangia holotabulata*. Holotype: Davies, 1983, pl.1, figs.9–11. Originally *Dapcodinium*, subsequently (and now) *Rosswangia*. Age: Toarcian–Bathonian.

"**pyrgos**" (Wille and Gocht, 1985, p.129–131,133–135, pl.1, figs.1a–d,2–3; pl.2, figs.1a–d,2a–b,3,4a–b; pl.3, figs.1a–b,2–5; pl.4, figs.1a–b,2,3a–c,4a–b,5; pl.5, figs.1a–b; text-figs.1A–C,2A–B,3A–B,4A–B,5A–B,6B) Below, 1987b, p.30. Holotype: Wille and Gocht, 1985, pl.1, figs.1a–d; text-figs.2A–B; Fensome et al., 1995, figs.1–4,10 — p.1719. **NOW** *Dinaurelia*. Originally (and now) *Dinaurelia*, subsequently *Rosswangia*. N.I.A. Age: late Bajocian.

***simplex** Wille and Gocht, 1985, p.123,125,127,129, pl.5, figs.2–3,4a–b,5–6,7a–b; text-fig.6A. Holotype: Wille and Gocht, 1985, pl.5, figs.7a–b; Fensome et al., 1995, figs.5–6 — p.1789. Age: middle Callovian.

ROTOSPHAEROPSIS Davey, 1988, p.45. Type: Davey, 1988, pl.10, figs.1,5, as *Rotosphaeropsis muna*.

***munu** Davey, 1988, p.45–46, pl.10, figs.1–3,5. Holotype: Davey, 1988, pl.10, figs.1,5; Fensome et al., 1996, figs.1–2 — p.2237. N.I.A. Age: Valanginian.

thule (Davey, 1982b, p.26–27, pl.8, figs.7–11) Riding and Davey, 1989, p.109. Emendation: Riding and Davey, 1989, p.109,112, as *Rotosphaeropsis thule*. Holotype: Davey, 1982b, pl.8, figs.8–11; Riding and Davey, 1989, pl.1, fig.4. Originally *Cannosphaeropsis*, subsequently (and now) *Rotosphaeropsis*. N.I.A. Age: latest Kimmeridgian–late Ryazanian.

ROTTNESTIA Cookson and Eisenack, 1961b, p.40,42. Taxonomic senior synonyms: *Hystrichosphaeropsis*, according to Sarjeant (1966b, p.139) — however, Stover and Evitt (1978, p.185) retained *Rottnestia*; *Triblastula*, according to Yun Hyesu (1981, p.22) — however, Jan du Chêne et al. (1986a, p.309) retained *Rottnestia*. Jan du Chêne et al. (1986a, p.309) referred to the description of this genus by Stover and Evitt (1978, p.185) as an emendation, although the latter authors did not indicate it to be an emendation. Type: Eisenack, 1954b, pl.9, fig.5, as *Hystrichosphaera borussica*.

amphicavata Dobell and Norris in Harland et al., 1980, p.218–220, text-figs.4A–N,5–7. Holotype: Harland et al., 1980, text-figs.4A–C. Taxonomic senior synonym: *Spiniferites frigidus*, according to Bujak (1984, p.191) — however, de Vernal et al. (1992, p.324) retained *Rottnestia amphicavata*. Age: Holocene.

***borussica** (Eisenack, 1954b, p.62, pl.9, figs.5a–b,6–7) Cookson and Eisenack, 1961b, p.42. Holotype: Eisenack, 1954b, pl.9, fig.5a–b. Originally *Hystrichosphaera*, subsequently (and now) *Rottnestia*, thirdly *Triblastula*, fourthly *Hystrichosphaeropsis* (combination not validly published). Eisenack (1969a, p.105–108) and Jan du Chêne et al. (1986a, p.309) retained this species in *Rottnestia*. Taxonomic junior synonym: *Hystrichosphaeropsis jubata* (name not validly published), according to May (1980, p.24). Age: early Oligocene.

subsp. **borussica**. Autonym. Holotype: Eisenack, 1954b, pl.9, fig.5.

subsp. **granulata** Heilmann-Clausen in Heilmann-Clausen and Costa, 1989, p.470–471, pl.17, figs.5,9–11. Holotype: Heilmann-Clausen and Costa, 1989, pl.17, fig.9. Age: early Eocene (Ypresian).

granulata Hultberg, 1985c, p.143–144, pl.9, fig.J. Holotype: Hultberg, 1985c, pl.9, fig.J. Age: late Maastrichtian–early Paleocene.

ovata Matsuoka and Bujak, 1988, p.69–70, pl.10, figs.1a–b,2; text-fig.14. Holotype: Matsuoka and Bujak, 1988, pl.10, figs.1a–b; text-fig.14. Age: late Oligocene–early Miocene.

"*simplicia*" Cookson and Eisenack, 1961b, p.42, pl.2, figs.3–4; text-figs.1e–f. Holotype: Cookson and Eisenack, 1961b, pl.2, figs.3–4; text-figs.1e–f; Jan du Chêne et al., 1986a, pl.54, figs.1–5. **NOW** *Impagidinium?*. Originally *Rottnestia*, subsequently *Psaligonyaulax*, thirdly (and now) *Impagidinium?*. Age: Eocene.

wetzelii (Deflandre, 1937b, p.65, pl.11 [al. pl.8], figs.6,8) Slimani, 1994, p.59. Holotype: Deflandre, 1937b, pl.11 (al. pl.8), figs.6,8. Originally *Hystrichosphaera*, subsequently *Hystrichosphaeropsis* (combination not validly published), thirdly *Spiniferites*, fourthly (and now) *Rottnestia*. Taxonomic junior synonym: *Hystrichosphaeropsis forficata* (name not validly published), according to Slimani (2001a, p.194). Age: Senonian.

subsp. *brevispinosa* Slimani, 1994, p.58–59, pl.9, figs.7–13. Holotype: Slimani, 1994, pl.9, figs.12–13. Taxonomic junior synonym: *Hystrichosphaeropsis jubata* (name not validly published), according to Slimani (1994, p.58)– however, Slimani did not acknowledge the synonymy of *Hystrichosphaeropsis jubata* with *Hystrichosphaera* (now *Rottnestia*) *borussica* by May (1980). Age: late Campanian.

subsp. *wetzelii*. Autonym. Holotype: Deflandre, 1937b, pl.11 (al. pl.8), figs.6,8. Slimani (1994, p.59–60) and Schiøler et al. (1997, p.89–90) proposed emendations of this taxon.

"**ROTUNDUS**" Koppelhus and Nielsen, 1994, p.175. **Name not validly published**: no description.

"*granulatus*" Koppelhus and Nielsen, 1994, p.175. **Name not validly published**: no description or illustration.

RUEGENIA Willems, 1992, p.157–158. Emendations: Kienel, 1994, p.40; Hildebrand-Habel and Willems 2004, p.185. Calcareous dinoflagellate genus (see Streng et al., 2004, p.483 and Elbrächter et al., 2008, p.1301). Type: Willems, 1992, pl.1, figs.1–5, as *Ruegenia inaequilamellata*.

areata Keupp et al., 1992, p.196–198, pl.2, figs.1–14. Holotype: Keupp et al., 1992, pl.2, figs.1–3. Age: late Albian.

crassa Kienel, 1994, p.40–42, pl.6, figs.7–15; pl.7, figs.1–4; text-fig.15. Holotype: Kienel, 1994, pl.6, figs.7–9. Age: Maastrichtian.

hadra Keupp et al., 1992, p.198–199, pl.3, figs.3–9. Holotype: Keupp et al., 1992, pl.3, figs.3–7. Age: early Aptian.

**inaequilamellata* Willems, 1992, p.158–159, pl.1, figs.1–5. Holotype: Willems, 1992, pl.1, figs.1–5. Age: early Maastrichtian.

kyrta Keupp et al., 1992, p.195–196, pl.1, figs.1–13. Holotype: Keupp et al., 1992, pl.1, figs.1–2. Age: middle to late Albian.

nodosa Keupp et al., 1992, p.198, pl.1, figs.14–15. Holotype: Keupp et al., 1992, pl.1, figs.14–15. Age: middle Albian.

oranensis Keupp and Kohring, 1993, p.30–31, pl.3, figs.1–7. Holotype: Keupp and Kohring, 1993, pl.3, figs.4–5,7. Age: late Miocene.

quinqueangulata Hildebrand-Habel and Willems, 1997 p.185–186, pl.3, figs.12–15 ex Hildebrand-Habel and Willems, 2004, p.185, pl.2, figs.4–11. Holotype: Hildebrand-Habel and Willems, 1997, pl.3, figs.12–14; Hildebrand-Habel and Willems, 2004, pl.2, figs.4–11. This name was not validly published in Hildebrand-Habel and Willems (1997), since the authors did not designate a holotype and referred it to a submitted manuscript. Age: middle Coniacian–early Santonian.

SAEPTODINIUM Harris, 1974, p.162. Taxonomic junior synonym: *Sanshuia*, according to Lentin and Williams (1989, p.326) — however, Mao Shaozhi et al. (1995, p.50) retained *Sanshuia*. Type: Harris, 1974, pl.1, fig.2, as *Saeptodinium gravattense*.

circulare Jin Guangxing, He Chengquan and Zhu Shenzhao in He Chengquan et al., 1989, p.66, pl.2, figs.16–18. Holotype: He Chengquan et al., 1989, pl.2, fig.17. Age: Eocene.

"*dalangshanense*" (Yu Jingxian et al., 1981, p.259, pl.1, figs.7–10,15–16) Lentin and Williams, 1989, p.325. Holotype: Yu Jingxian et al., 1981, pl.1, fig.7. **NOW** *Morkallacysta*. Originally *Sanshuia*, subsequently *Geiselodinium*, thirdly *Saeptodinium*, fourthly (and now) *Morkallacysta*. Age: Late Cretaceous.

eminens (Jin Guangxing, He Chengquan and Zhu Shenzhao in He Chengquan et al., 1989, p.48, pl.5, figs.17–18) Mao Shaozhi et al., 1995, p.49. Holotype: He Chengquan et al., 1989, pl.5, fig.17. Originally *Laciniadinium*, subsequently (and now) *Saeptodinium*. Age: Early Tertiary.

"*eurypylum*" (Manum and Cookson, 1964, p.20–21, pl.4, figs.7–13) Stover and Evitt, 1978, p.220. Holotype: Manum and Cookson, 1964, pl.4, figs.9–10. **NOW** *Palaeoperidinium*? Originally *Scriniodinium*, subsequently *Palaeoperidinium*, thirdly *Saeptodinium*, fourthly (and now) *Palaeoperidinium*? Age: Late Cretaceous.

fibrirugulare (Yu Jingxian et al., 1981, p.260, pl.1, figs.11–12) Lentin and Williams, 1989, p.325. Holotype: Yu Jingxian et al., 1981, pl.1, fig.11. Originally *Sanshuia*, subsequently *Geiselodinium*, thirdly (and now) *Saeptodinium*. Age: Late Cretaceous.

**gravattense* Harris, 1974, p.162–163, pl.1, figs.1–4. Holotype: Harris, 1974, pl.1, fig.2. Age: Paleocene.

hansonianum (Traverse, 1955, p.77–79, pl.13, fig.147) Stover and Evitt, 1978, p.220. Holotype: Traverse, 1955, pl.13, fig.147; Traverse, 1994, pl.1, fig.1. Originally *Peridinium* (Appendix B), subsequently *Palaeoperidinium*, thirdly (and now) *Saeptodinium*. This combination was not validly published in Harris (1974, p.162), since that author did not fully reference the basionym. Evitt (1974, p.4) indicated that this species has affinities with the modern species *Peridinium limbatum* (Stokes, 1887) Lemmermann, 1899. Age: latest Oligocene (middle early Miocene, according to Traverse, 1994).

"*micropodum*" (Yu Jingxian et al., 1981, p.259–260, pl.1, figs.3–4) Lentin and Williams, 1989, p.325. Emendation: Mao Shaozhi et al., 1995, p.50–51, as *Sanshuia micropodum*. Holotype: Yu Jingxian et al., 1981, pl.1, fig.3. **NOW** *Sanshuia*. Originally (and now) *Sanshuia*, subsequently *Geiselodinium*, thirdly *Saeptodinium*. Age: Late Cretaceous.

"*minus*" (Yu Jingxian et al., 1981, p.260, pl.1, figs.13–14) Lentin and Williams, 1989, p.325. Emendation: Mao Shaozhi et al., 1995, p.50, as *Sanshuia minor*. Holotype: Yu Jingxian et al., 1981, pl.1, fig.13. **NOW** *Sanshuia*. Originally (and now) *Sanshuia*, subsequently *Geiselodinium*, thirdly *Saeptodinium*. Age: Late Cretaceous.

minutum (Jiabo, 1978, p.83, pl.3, figs.10–11) Lentin and Williams, 1989, p.325. Holotype: Jiabo, 1978, pl.3, fig.11. Originally *Deflandrea*, subsequently *Sanshuia*, thirdly *Geiselodinium*, fourthly (and now) *Saeptodinium*. Age: Early Tertiary.

"*ovatum*" (Jiabo, 1978, p.84, pl.4, figs.1–3) Lentin and Williams, 1989, p.325. Emendation: Mao Shaozhi et al., 1995, p.51, as *Sanshuia ovata*. Holotype: Jiabo, 1978, pl.4, fig.2. **NOW** *Sanshuia*. Originally *Deflandrea*, subsequently *Subtilisphaera*, thirdly (and now) *Sanshuia*, fourthly *Geiselodinium*, fifthly *Saeptodinium*. Age: Early Tertiary.

skipseaense Hunt in Hunt et al., 1985, p.103, pl.1, figs.1–9; pl.2, figs.1–3; text-fig.2. Holotype: Hunt et al., 1985, pl.1, figs.2,5,8. Age: late Quaternary.

"*sphaericum*" (Yu Jingxian et al., 1981, p.259, pl.1, figs.1–2,6) Lentin and Williams, 1989, p.325. Emendation: Mao Shaozhi et al., 1995, p.52, as *Sanshuia sphaerica*. Holotype: Yu Jingxian et al., 1981, pl.1, fig.1. **NOW** *Sanshuia*. Originally (and now) *Sanshuia*, subsequently *Geiselodinium*, thirdly *Saeptodinium*. Age: Late Cretaceous.

tasmaniense Harris, 1974, p.163, pl.1, fig.12; pl.2, figs.1–6. Holotype: Harris, 1974, pl.2, fig.1. Age: late Oligocene–early Miocene.

tiandongense He Chengquan and Qian Zeshu, 1979, p.177, pl.1, figs.6–7a–b. Holotype: He Chengquan and Qian Zeshu, 1979, pl.1, fig.7. Age: late Eocene–Oligocene.

SAGENODINIUM Williams et al., 2015, p.311–312. Type: Damassa, 1979a, pl.8, fig.8, as *Kisselevia crassoramosa*.

**franciscanum* Williams et al., 2015, p.312, pl.2, figs.15–16. Holotype: Damassa, 1979a, pl.8, fig.8, as *Kisselevia crassoramosa*. Age: Eocene.

SAHULIDINIUM Stover and Helby, 1987a, p.113. Type: Stover and Helby, 1987a, figs.13I–J, as *Sahulidinium ottii*.

**ottii* Stover and Helby, 1987a, p.113–114, figs.12A–B,13A–N. Holotype: Stover and Helby, 1987a, figs.13I–J; Fensome et al., 1996, figs.4–5 — p.2251. Age: Anisian–Ladinian.

SAMLANDIA Eisenack, 1954b, p.76. Taxonomic junior synonym: *Palmnickia*, according to Morgenroth (1966a, p.39–40). Type: Eisenack, 1954b, pl.11, fig.12, as *Samlandia chlamydophora*.

"*angustivela*" (Deflandre and Cookson, 1955, p.290, pl.7, figs.4–5) Eisenack, 1963a, p.102. Holotype: Deflandre and Cookson, 1955, pl.7, fig.4; McMinn, 1988, fig.8C. **NOW** *Membranilarnacia*. Originally *Membranilarnax*, subsequently *Samlandia*, thirdly (and now) *Membranilarnacia*. Questionable assignment: Stover and Evitt (1978, p.186). Taxonomic junior synonym: *Samlandia solida* (name not validly published), according to May (1980, p.24) — however, see discussion under *Samlandia solida*. Age: Eocene.

"*californica*" (Drugg, 1967, p.30, pl.5, figs.14–15; pl.9, fig.8) Lentin and Williams, 1977b, p.141. Holotype: Drugg, 1967, pl.5, fig.15. **NOW** *Danea*. Originally *Palmnickia*, subsequently *Samlandia*, thirdly (and now) *Danea*, fourthly *Damassadinium* (generic name illegitimate). Taxonomic junior synonym: *Danea mutabilis*, according to Damassa (1979b, p.193). Age: Danian.

carnarvonensis McMinn, 1988, p.150, figs.7A–C. Holotype: McMinn, 1988, figs.7A–C; Fensome et al., 1996, figs.1–3 — p.2081. Age: late Campanian–early Maastrichtian.

**chlamydophora* Eisenack, 1954b, p.76, pl.11, figs.12–15. Holotype: Eisenack, 1954b, pl.11, fig.12. Taxonomic junior synonym: *Palmnickia lobifera*, according to Morgenroth (1966a, p.39–40) and Benedek (1972, p.36). Age: early Oligocene.

delicata Wilson, 1988, p.29, pl.19, figs.2,3a–b,4a–b. Holotype: Wilson, 1988, pl.19, figs.3a–b; Fensome et al., 1996, figs.2–3 — p.2105. Age: early Eocene.

mayi McMinn, 1988, p.150–152, figs.7D–F. Holotype: McMinn, 1988, figs.7D–E; Fensome et al., 1996, figs.1–2 — p.2225. Taxonomic junior synonym: *Samlandia solida* (name not validly published), according to Slimani (2001a, p.194). See discussion under *Samlandia solida*. Age: late Campanian.

mirifica He Chengquan, 1991, p.126–127, pl.7, fig.9; pl.51, fig.17. Holotype: He Chengquan, 1991, pl.7, fig.9. Age: middle Eocene.

pseudoreticulata Slimani, 1994, p.117–118, pl.14, figs.23–30. Holotype: Slimani, 1994, pl.14, figs.25–30. Age: latest Maastrichtian–Danian.

reticulifera Cookson and Eisenack, 1965a, p.126–127, pl.15, figs.10–15. Holotype: Cookson and Eisenack, 1965a, pl.15, fig.10. Age: late Eocene.

septata Wilson, 1988, p.29, pl.19, figs.5a–b,6,7a–b. Holotype: Wilson, 1988, pl.19, figs.5a–b; Fensome et al., 1996, figs.1–2 — p.2351. Age: early Eocene.

"*solida*" Wilson in May, 1980, p.24. **Name not validly published:** no description or illustration. **Taxonomic senior synonym:** *Samlandia mayi*, according to Slimani (2001a, p.194). May (1980, p.24) considered this name to be a synonym of *Membranilarnax* (as *Samlandia*, now *Membranilarnacia*) *angustivela*; however, McMinn (1988, p.150–152) assigned May's specimens of *Samlandia angustivela* to a new species, *Samlandia mayi*.

spongia Yu Jingxian, 1989, p.128, pl.39, figs.5–6,8; text-fig.2. Holotype: Yu Jingxian, 1989, pl.39, fig.6. Age: Eocene.

vermicularia McMinn, 1988, p.152, figs.7G–I. Holotype: McMinn, 1988, fig.7G; Fensome et al., 1996, fig.1 — p.2425. Age: early Maastrichtian.

"*SAMSONIA*" Morgan in Riding and Helby, 2001d, p.95. **Name not validly published:** no description. **Taxonomic senior synonym:** *Voodooia*, by implication in Riding and Helby (2001d, p.95), who included the only species name, *Samsonia tabulata* (name not validly published), in synonymy with *Voodooia tabulata*.

"*tabulata*" Morgan in Riding and Helby, 2001d, p.95. **Name not validly published:** no description. **Taxonomic senior synonym:** *Voodooia tabulata*, according to Riding and Helby (2001d, p.95).

SANSHUIA Yu Jingxian et al., 1981, p.259. Taxonomic senior synonyms: *Geiselodinium*, according to Chen et al. (1988, p.27) and *Saeptodinium*, according to Lentin and Williams (1989, p.326) — however, Mao Shaozhi et al. (1995, p.50) retained *Sanshuia*. Type: Yu Jingxian et al., 1981, pl.1, fig.1, as *Sanshuia sphaerica*.

"*dalangshanensis*" Yu Jingxian et al., 1981, p.259, pl.1, figs.7–10,15–16. Holotype: Yu Jingxian et al., 1981, pl.1, fig.7. **NOW** *Morkallacysta*. Originally *Sanshuia*, subsequently *Geiselodinium*, thirdly *Saeptodinium*, fourthly (and now) *Morkallacysta*. Age: Late Cretaceous.

"*fibrirugularis*" Yu Jingxian et al., 1981, p.260, pl.1, figs.11–12. Holotype: Yu Jingxian et al., 1981, pl.1, fig.11. **NOW** *Saeptodinium*. Originally *Sanshuia*, subsequently *Geiselodinium*, thirdly (and now) *Saeptodinium*. Age: Late Cretaceous.

micropoda Yu Jingxian et al., 1981, p.259–260, pl.1, figs.3–4. Emendation: Mao Shaozhi et al., 1995, p.50–51, as *Sanshuia micropoda*. Holotype: Yu Jingxian et al., 1981, pl.1, fig.3. Originally (and now) *Sanshuia*, subsequently *Geiselodinium*, thirdly *Saeptodinium*. Mao Shaozhi et al. (1995, p.50) retained this species in *Sanshuia*. Age: Late Cretaceous.

minor Yu Jingxian et al., 1981, p.260, pl.1, figs.13–14. Emendation: Mao Shaozhi et al., 1995, p.50, as *Sanshuia minor*. Holotype: Yu Jingxian et al., 1981, pl.1, fig.13. Originally (and now) *Sanshuia*, subsequently

Geiselodinium, thirdly *Saeptodinium*. Mao Shaozhi et al. (1995, p.50) retained this species in *Sanshuia*. Age: Late Cretaceous.

"*minuta*" (Jiabo, 1978, p.83, pl.3, figs.10–11) Lentin and Williams, 1985, p.313. Holotype: Jiabo, 1978, pl.3, fig.11. **NOW** *Saeptodinium*. Originally *Deflandrea*, subsequently *Sanshuia*, thirdly *Geiselodinium*, fourthly (and now) *Saeptodinium*. This combination was not validly published in Yu Jingxian et al. (1981, p.260), since these authors did not fully reference the basionym. Age: Early Tertiary.

ovata (Jiabo, 1978, p.84, pl.4, figs.1–3) Lentin and Williams, 1985, p.313. Emendation: Mao Shaozhi et al., 1995, p.51, as *Sanshuia ovata*. Holotype: Jiabo, 1978, pl.4, fig.2. Originally *Deflandrea*, subsequently *Subtilisphaera*, thirdly (and now) *Sanshuia*, fourthly *Geiselodinium*, fifthly *Saeptodinium*. Mao Shaozhi et al. (1995, p.51) retained this species in *Sanshuia*. This combination was not validly published in Yu Jingxian et al. (1981, p.260), since these authors did not fully reference the basionym. Age: Early Tertiary.

**sphaerica* Yu Jingxian et al., 1981, p.259, pl.1, figs.1–2,6. Emendation: Mao Shaozhi et al., 1995, p.52, as *Sanshuia sphaerica*. Holotype: Yu Jingxian et al., 1981, pl.1, fig.1. Originally (and now) *Sanshuia*, subsequently *Geiselodinium*, thirdly *Saeptodinium*. Mao Shaozhi et al. (1995, p.52) retained this species in *Sanshuia*. Age: Late Cretaceous.

SATURNODINIUM Brinkhuis et al., 1992, p.242,244. Type: Brinkhuis et al., 1992, pl.7, fig.1, as *Saturnodinium perforatum*.

pansum (Stover, 1977, p.78–79, pl.2, figs.32–38) Brinkhuis et al., 1992, p.246. Holotype: Stover, 1977, pl.2, figs.34–36. Originally *Thalassiphora?*, subsequently (and now) *Saturnodinium*. Age: middle-late Oligocene.

**perforatum* Brinkhuis et al., 1992, p.244,246, pl.4, figs.1–5; pl.7, figs.1–4. Holotype: Brinkhuis et al., 1992, pl.7, fig.1. Age: latest Oligocene–earliest Miocene.

SATYRODINIUM Lentin and Manum, 1986, p.112,114. Type: Lentin and Manum, 1986, pl.1, figs.1–3, as *Satyrodinium bengalense*.

**bengalense* Lentin and Manum, 1986, p.114–116, pl.1, figs.1–9; text-figs.2,4A. Holotype: Lentin and Manum, 1986, pl.1, figs.1–3; Fensome et al., 1993a, figs.1–2 — p.969. Age: Campanian.

haumuriense (Wilson, 1984c, p.554, figs.14–21) Lentin and Manum, 1986, p.114. Holotype: Wilson, 1984c, figs.14–15; Lentin and Manum, 1986, text-fig.4B; Fensome et al., 1996, figs.1–2 — p.2147. Originally *Isabelidinium*, subsequently *Isabelidinium?*, thirdly (and now) *Satyrodinium*. Age: Maastrichtian.

SAUMURIA Zügel, 1994, p.47. Calcareous dinoflagellate genus (see Streng et al., 2004, p.483 and Elbrächter et al., 2008, p.1301). Type: Zügel, 1994, pl.9, figs.1–2, as *Saumuria distincta*.

cingulofera Zügel, 1994, p.51, pl.9, figs.13–15. Holotype: Zügel, 1994, pl.9, figs.13–14. Age: late Cenomanian.

**distincta* Zügel, 1994, p.47–50, pl.9, figs.1–7; text-figs.15,17a. Holotype: Zügel, 1994, pl.9, figs.1–2. Age: late Cenomanian.

obscura Zügel, 1994, p.50, pl.9, figs.8–12; text-fig.17b. Holotype: Zügel, 1994, pl.9, figs.8–10. Age: late Cenomanian.

SAXODINIUM Below, 1990, p.23–24. Contrary to the opinion of Lentin and Williams (1993, p.577), this name is validly published since the name of the "type species" is validly published. This generic name was not validly

published in Below (1987a, pl.26, fig.d), who did not provide a description. Type: Below, 1990, pl.3, figs.6–10, as *Saxodinium moorbergense*.

"*maubeugii*" Below, 1987a, pl.26, fig.d. **Name not validly published:** no description. See also *Lotharingia maubeugii*.

**moorbergense* Below, 1990, p.24–26, pl.3, figs.1–15; text-figs.6a–f. Holotype: Below, 1990, pl.3, figs.6–10. Contrary to the opinion of Lentin and Williams (1993, p.578), this name is validly published. Below (1987a, p.6) stated that, unless otherwise indicated, all the material is in his personal collection. Since Below (1987a, 1987b, 1990) are parts I to III of a single study, we agree with J. Jansonius (personal communication) that Below's (1987a) repository statement refers to all three publications, fulfilling the requirement of I.C.N. Article 40.7 (see also the discussion on Article 40.7 in the Introduction). Age: Aalenian.

SCALDECYSTA De Schepper et al., 2004, p.641. Type: De Schepper et al., 2004, fig.12, nos.1–4, as *Scaldecysta doelensis*.

**doelensis* De Schepper et al., 2004, p.641, fig.12, nos.1–12; fig.13, nos.1–8. Holotype: De Schepper et al., 2004, fig.12, nos.1–4. Age: Pliocene.

SCHEMATOPHORA Deflandre and Cookson, 1955, p.262. This name was not validly published in Deflandre and Cookson (1954, p.1237), since no description was provided. Type: Deflandre and Cookson, 1955, pl.6, figs.11–12, as *Schematophora speciosa*.

amabilis Stevens, 1987, p.193, figs.3H–M,8A–C. Holotype: Stevens, 1987, figs.3I–K,8A–B; Fensome et al., 1996, figs.1–3,7–8 — p.2023. Age: early Berriasian.

obscura Wilson, 1988, p.29–30, pl.20, figs.1a–b,2a–b,3a–b. Holotype: Wilson, 1988, pl.20, figs.1a–b; Fensome et al., 1996, figs.1–2 — p.2247; Fauconnier and Masure, 2004, pl.71, figs.1–2. Age: early Eocene.

**speciosa* Deflandre and Cookson, 1955, p.262–263, pl.6, figs.11–13; pl.7, fig.11. Emendation: Stover, 1975, p.39. Holotype: Deflandre and Cookson, 1955, pl.6, figs.11–12. Age: Eocene–Miocene.

SCRINIOCASSIS Gocht, 1964, p.121. Emendations: Prauss, 1989, p.29; Below, 1990, p.30. Taxonomic junior synonym: *Eyachia*, according to Prauss (1989, p.29) and Below (1990, p.30). Type: Gocht, 1964, pl.17, figs.2a–c, as *Scriniocassis weberi*.

"*dictyotus*" (Cookson and Eisenack, 1960b, p.248–249, pl.37, figs.8–9) Beju, 1971, p.299. Holotype: Cookson and Eisenack, 1960b, pl.37, fig.9; Jan du Chêne et al., 1986a, pl.5, fig.1; pl.7, fig.6. **NOW** *Scriniodinium*. Originally (and now) *Scriniodinium*, subsequently *Scriniocassis*, thirdly *Aldorfia*. Age: Oxfordian–Tithonian.

"subsp. *dictyotus*". Autonym. Holotype: Cookson and Eisenack, 1960b, pl.37, fig.9; Jan du Chêne et al., 1986a, pl.5, fig.1; pl.7, fig.6. **NOW** *Scriniodinium dictyotum* subsp. *dictyotum*. Originally (and now) *Scriniodinium dictyotum* subsp. *dictyotum*, subsequently *Scriniocassis dictyota* subsp. *dictyota*, thirdly *Aldorfia dictyota* subsp. *dictyota*.

"subsp. *osmingtonensis*" (Gitmez, 1970, p.310–311, pl.1, fig.3; pl.8, fig.12) Lentin and Williams, 1975, p.2154. Holotype: Gitmez, 1970, pl.8, fig.12; Jan du Chêne et al., 1986a, pl.7, figs.10–11. **NOW** *Scriniodinium dictyotum* subsp. *osmingtonense*. Originally (and now) *Scriniodinium dictyotum* subsp. *osmingtonense*, subsequently *Scriniocassis dictyota* subsp. *osmingtonensis*, thirdly *Aldorfia dictyota* subsp. *osmingtonensis*. Taxonomic senior synonym: *Scriniocassis weberi*, according to Davies (1983, p.24) — however, Jan du Chêne et al. (1986a, p.35) retained *Scriniocassis dictyotus* subsp. *osmingtonensis* (as *Aldorfia dictyota* subsp. *osmingtonensis*). Age: early Kimmeridgian.

"subsp. *papillatus*" (Gitmez, 1970, p.311, pl.9, fig.11) Lentin and Williams, 1975, p.2154. Holotype: Gitmez, 1970, pl.9, fig.11. **NOW** *Scriniodinium dictyotum* subsp. *papillatum*. Originally (and now) *Scriniodinium dictyotum* subsp. *papillatum*, subsequently *Scriniocassis dictyotus* subsp. *papillatus*, thirdly *Scriniocassis papillatus*, fourthly *Aldorfia dictyota* subsp. *papillata*. Age: early Kimmeridgian.

"subsp. *pyrum*" (Gitmez, 1970, p.311,313, pl.10, fig.1; pl.13, figs.1–2; text-figs.33a–b) Lentin and Williams, 1975, p.2154. Holotype: Gitmez, 1970, pl.13, figs.1–2; text-fig.33a; Jan du Chêne et al., 1986a, pl.7, figs.7–8. **NOW** *Scriniodinium dictyotum* subsp. *pyrum*. Originally (and now) *Scriniodinium dictyotum* subsp. *pyrum*, subsequently *Scriniocassis dictyota* subsp. *pyrum*, thirdly *Scriniocassis pyrum*, fourthly *Aldorfia dictyota* subsp. *pyrum*. N.I.A. Age: early Kimmeridgian.

?*downiei* Kumar, 1986b, p.402, pl.4, fig.7; text-fig.11. Holotype: Kumar, 1986b, pl.4, fig.7. Originally *Scriniocassis*, subsequently (and now) *Scriniocassis*?. Questionable assignment: Below (1990, p.31) as a "nomen dubium". Age: Kimmeridgian–Tithonian.

"*klementii*" (Pocock, 1972, p.91, pl.23, figs.1–2; text-fig.7) Jansonius, 1986, p.218. Holotype: Pocock, 1972, pl.23, figs.1–2; Jan du Chêne et al., 1986a, pl.108, figs.5–8. **NOW** *Endoscrinium*. Originally *Scriniodinium*, subsequently *Scriniodinium*?, thirdly (and now) *Endoscrinium*, fourthly *Scriniocassis*. Age: Callovian.

"*limbatus*" Lund, 1996, p.136. **Name not validly published**: no description or illustration.

limbicavatus Prauss, 1989, p.29–31, pl.4, figs.1–9,12; text-fig.8. Holotype: Prauss, 1989, pl.4, figs.7–9; text-fig.8. Age: late Toarcian–early Aalenian.

"*papillatus*" (Gitmez, 1970, p.311, pl.9, fig.11) Davies, 1983, p.24. Holotype: Gitmez, 1970, pl.9, fig.11. **NOW** *Scriniodinium dictyotum* subsp. *papillatum*. Originally (and now) *Scriniodinium dictyotum* subsp. *papillatum*, subsequently *Scriniocassis dictyotus* subsp. *papillatus*, thirdly *Scriniocassis papillatus*, fourthly *Aldorfia dictyota* subsp. *papillata*. Age: early Kimmeridgian.

priscus (Gocht, 1979, p.308,310,312–317; figs.1a–d,2a–b,3a–e,4a–d,5–6,7a–d,8a–b,9a–c,10) Below, 1990, p.31. Emendation: Below, 1990, p.32, as *Scriniocassis priscus*. Holotype: Gocht, 1979, figs.9a–c; Fensome et al., 1995, figs.1–2 — p.1687. Originally *Eyachia*, subsequently (and now) *Scriniocassis*. This combination was not validly published in Below (1987a, p.58) and Prauss (1989, p.29–30), since these authors did not fully reference the basionym. N.I.A. Age: Aalenian.

"*pyrum*" (Gitmez, 1970, p.311,313, pl.10, fig.1; pl.13, figs.1–2; text-figs.33a–b) Davies, 1983, p.24. Holotype: Gitmez, 1970, pl.13, figs.1–2; text-fig.33a; Jan du Chêne et al., 1986a, pl.7, figs.7–8. **NOW** *Scriniodinium dictyotum* subsp. *pyrum*. Originally (and now) *Scriniodinium dictyotum* subsp. *pyrum*, subsequently *Scriniocassis dictyota* subsp. *pyrum*, thirdly *Scriniocassis pyrum*, fourthly *Aldorfia dictyota* subsp. *pyrum*. N.I.A. Age: early Kimmeridgian.

"*reticulatus*" (Pocock, 1972, p.91–92, pl.23, fig.3) Jansonius, 1986, p.219. Holotype: Pocock, 1972, pl.23, fig.3; Jan du Chêne et al., 1986a, pl.108, figs.1–4. **NOW** *Endoscrinium*. Originally *Scriniodinium*, subsequently *Scriniodinium*?, thirdly *Scriniocassis*, fourthly (and now) *Endoscrinium*. Age: Callovian.

**weberi* Gocht, 1964, p.121, pl.17, figs.1a–d,2a–c,3a–c,4a–b; text-fig.39. Emendation: Below, 1990, p.36. Holotype: Gocht, 1964, pl.17, figs.2a–c; text-fig.39. Taxonomic junior synonym (at specific rank): *Scriniodinium* (as *Scriniocassis*; now *Scriniodinium*) *dictyotum* subsp. *osmingtonense*, according to Davies (1983, p.24) — however, Jan du Chêne et al. (1986a, p.35) retained *Scriniodinium dictyotum* subsp. *osmingtonense* (as *Aldorfia dictyota* subsp. *osmingtonensis*). Age: late Toarcian–early Bajocian.

SCRINIODINIUM Klement, 1957, p.409–410. Emendations: Prauss, 1989, p.45; Riding and Fensome, 2003, p.9–10. Taxonomic junior synonyms: *Endoscrinium*, according to Stover and Evitt (1978, p.187) and Dodekova (1990, p.30–31) — however, Lentin and Williams (1993, p.207) retained *Endoscrinium*; *Athigmatocysta*, according to Stover and Williams (1987, p.27) and Brenner (1988, p.72) — however, Harding (1990b, p.28) retained

Athigmatocysta. Although the "type species", *Scriniodinium crystallinum*, was not validly transferred to *Scriniodinium* by Klement (1957), the generic name *Scriniodinium* was validly published, since it is based on a previously validly published species name, *Gymnodinium crystallinum*. Type: Deflandre, 1939a, pl.5, figs.1–2, as *Gymnodinium crystallinum*.

"*acroferum*" Prauss, 1989, p.45–46, pl.9, figs.1–2, pl.14, figs.17–22; text-fig.21. **NOW** *Endoscrinium*. Originally *Scriniodinium*, subsequently (and now) *Endoscrinium*. Holotype: Prauss, 1989, pl.14, figs.19–21; text-fig.21. Age: late Bathonian–late Callovian.

?*amalthei* (Wetzel, 1966, p.318, pl.31, fig.6) Sarjeant, 1980b, p.117. Emendation: Sarjeant, 1980b, p.117, as *Scriniodinium amalthei*. Holotype: Wetzel, 1966, pl.31, fig.6. Originally *Membranilarnacia*, subsequently *Membranilarnacia*?, thirdly *Scriniodinium*, fourthly *Endoscrinium*, fifthly (and now) *Scriniodinium*?. Questionable assignment: Jan du Chêne et al. (1986a, p.317). Riding and Fensome (2003, p.13) implied effectively that the use of this name be restricted to the holotype. Age: late Pliensbachian.

anceps (Raynaud, 1978, p.392, pl.1, fig.17) Jan du Chêne et al., 1986a, p.315. Holotype: Raynaud, 1978, pl.1, fig.17; Jan du Chêne et al., 1986a, pl.110, figs.6–8. Originally *Endoscrinium*, subsequently (and now) *Scriniodinium*. Riding and Fensome (2003, p.13) also proposed this combination. Jan du Chêne et al. (1986a, p.315) indicated that this species was originally included in *Scriniodinium*; however, the original assignment was *Endoscrinium*. Age: late Kimmeridgian.

"*apatelum*" Cookson and Eisenack, 1960b, p.249, pl.37, figs.12–13. Emendation: Sarjeant, 1982b, p.42, as *Tubotuberella apatela*. Holotype: Cookson and Eisenack, 1960b, pl.37, fig.12; Jan du Chêne et al., 1986a, pl.124, figs.1–2; Fensome et al., 1993a, fig.1 — p.921. **NOW** *Tubotuberella*. Originally *Scriniodinium*, subsequently *Psalignonyaulax*, thirdly (and now) *Tubotuberella*, fourthly *Glabridinium*. Age: Late Jurassic.

"*asymmetricum*" (Riding, 1987a, p.261, fig.7, nos.1–2,5; fig.12) Dodekova, 1990, p.30. Holotype: Riding, 1987a, fig.7, no.1. **NOW** *Endoscrinium*. Originally (and now) *Endoscrinium*, subsequently *Scriniodinium*. Age: late Bathonian.

"*attadalense*" (Cookson and Eisenack, 1958, p.25, pl.1, fig.7) Eisenack, 1967, p.193 (748a). Holotype: Cookson and Eisenack, 1958, pl.1, fig.7; Jan du Chêne et al., 1986a, pl.112, figs.4–7; Riding and Fensome, 2003, text-fig.4B. **NOW** *Endoscrinium*. Originally *Gymnodinium* (Appendix B), subsequently *Scriniodinium*, thirdly (and now) *Endoscrinium*. Age: Aptian.

"*australiense*" (Deflandre and Cookson, 1955, p.248, pl.5, fig.1) Cookson and Eisenack, 1965a, p.122. Holotype: Deflandre and Cookson, 1955, pl.5, fig.1. **NOW** *Apteodinium*. Originally *Gymnodinium* (Appendix B), subsequently *Emslandia* (combination not validly published), thirdly *Scriniodinium*, fourthly (and now) *Apteodinium*. Taxonomic junior synonym: *Emslandia crassimurata*, according to Lucas-Clark (1987, p.174). Eisenack (1967, p.195 [al.748b]) also proposed this combination. Age: middle Miocene.

barremianum Duxbury, 2001, p.112–113, fig.12, nos.1–2. Holotype: Duxbury, 2001, fig.12, no.1. Age: late Barremian (holotype caved into middle Barremian according to Duxbury, 2001, p.112).

"*bessebae*" (Below, 1981a, p.48–49, pl.7, figs.4–6,7a–b,8; pl.14, figs.6,7a–b,8; text-figs.48a–b,49a–b,50–51,52a–d) Jan du Chêne et al., 1986a, p.315. Holotype: Below, 1981a, pl.7, figs.7a–b; Jan du Chêne et al., 1986a, pl.104, figs.12–13; Fensome et al., 1991, figs.4–7 — p.589. **NOW** *Endoscrinium*. Originally (and now) *Endoscrinium*, subsequently *Scriniodinium*. N.I.A. Age: Barremian.

"*bicuneatum*" Deflandre, 1939a, p.180, pl.8, fig.7 ex Sarjeant, 1967b, p.248. Holotype: Deflandre, 1939a, pl.8, fig.7. **NOW** *Cornudinium*. Originally *Palaeoperidinium*, subsequently *Scriniodinium*, thirdly *Glossodinium*, fourthly *Dinopterygium*, fifthly (and now) *Cornudinium*. The name *Palaeoperidinium bicuneatum* was not validly published in Deflandre (1939a) since the generic name *Palaeoperidinium* was not validly published until 1967. Williams et al. (1998, p.546) accepted Sarjeant's (1967b) indirect reference to Deflandre (1939a), in which the name *Palaeoperidinium bicuneatum* was first proposed, as indication of a type (I.C.N. Article 40.3). Age: Oxfordian.

bucinatum Brenner, 1988, p.72–74, pl.12, figs.1–2. Holotype: Brenner, 1988, pl.12, fig.1. Age: early Kimmeridgian.

subsp. **bucinatum**. Autonym. Holotype: Brenner, 1988, pl.12, fig.1.

subsp. **labyrinthus** Brenner, 1988, p.73–74, pl.12, fig.2. Holotype: Brenner, 1988, pl.12, fig.2. N.I.A. Age: early Kimmeridgian.

campanula Gocht, 1959, p.61–62, pl.4, fig.6; pl.5, figs.1a–b. Holotype: Gocht, 1959, pl.5, figs.1a–b; Jan du Chêne et al., 1986a, pl.110, figs.1–5; Fensome et al., 1991, figs.1–3 — p.593; figs.1–5 — p.597. Originally (and now) *Scriniodinium*, subsequently *Endoscrinium*, thirdly *Scriniodinium*?. Questionable assignment: Stover and Evitt (1978, p.187); however, Riding and Fensome (2003, p.13–14) retained this species without question in *Scriniodinium*. Taxonomic junior synonym: *Gonyaulacysta fragosa*, according to Harker and Sarjeant (1975, p.224) and Brideaux and McIntyre (1975, p.33). N.I.A. Age: Hauterivian.

subsp. **campanula**. Autonym. Holotype: Gocht, 1959, pl.5, figs.1a–b; Jan du Chêne et al., 1986a, pl.110, figs.1–5; Fensome et al., 1991, figs.1–3 — p.593; figs.1–5 — p.597. Originally *Endoscrinium campanula* subsp. *campanula*, subsequently *Scriniodinium*? *campanula* subsp. *campanula*, thirdly (and now) *Scriniodinium campanula* subsp. *campanula*. N.I.A.

subsp. **nichan** (Below, 1981a, p.50–51, pl.7, fig.2) Jan du Chêne et al., 1986a, p.317. Holotype: Below, 1981a, pl.7, fig.2; Jan du Chêne et al., 1986a, pl.110, figs.9–10; Fensome et al., 1991, figs.4–5 — p.593; figs.1–3 — p.695. Originally *Endoscrinium campanula* subsp. *nichan*, subsequently *Scriniodinium*? *campanula* subsp. *nichan*, thirdly (and now) *Scriniodinium campanula* subsp. *nichan*. Riding and Fensome (2003, p.14) retained this taxon as *Scriniodinium capanula* subsp. *nichan*. N.I.A. Age: Hauterivian.

"?**ceratophorum**" Cookson and Eisenack, 1960b, p.249, pl.37, fig.7. Emendation: Riding, 2005a, p.14,16,18, as *Gonyaulacysta ceratophora*. Holotype: Cookson and Eisenack, 1960b, pl.37, fig.7; Jan du Chêne et al., 1986a, pl.112, fig.1; Helby et al., 1987, fig.18C; Riding, 2005a, text-figs.2A–B. **NOW** *Gonyaulacysta*. Originally *Scriniodinium*, subsequently *Scriniodinium*?, thirdly (and now) *Gonyaulacysta*. Questionable assignment: Stover and Evitt (1978, p.187). Taxonomic junior synonym: *Psaligonyaulax australica*, according to Jan du Chêne et al. (1986a, p.266) — however, *Psaligonyaulax australica* is now considered a taxonomic junior synonym of *Psaligonyaulax* (as *Gonyaulacysta*) *dualis*. Age: Oxfordian–early Kimmeridgian.

"**cooksoniae**" Anderson, 1960, p.30, pl.9, figs.1–3. Holotype: Anderson, 1960, pl.9, figs.2–3. **Taxonomic senior synonym:** *Deflandrea* (now *Subtilisphaera*) *perlucida*, by implication since Fensome et al. (2009, p.60) considered *Subtilisphaera perlucida* to be a taxonomic senior synonym of *Subtilisphaera pirnaensis*, which Sarjeant and Anderson (1969, p.232–233) considered to be the taxonomic senior synonym of *Scriniodinium cooksoniae*. Age: Late Cretaceous.

***crystallinum** (Deflandre, 1939a, p.165, pl.5, figs.1–3) Klement, 1960, p.18. Emendation: Riding and Fensome, 2003, p.12–13. Holotype: Deflandre, 1939a, pl.5, figs.1–2; Jan du Chêne et al., 1986a, pl.104, figs.1–4. Originally *Gymnodinium* (Appendix B), subsequently (and now) *Scriniodinium*. Taxonomic junior synonym: *Scriniodinium playfordii*, according to Jan du Chêne et al. (1986a, p.316) — however, Brenner (1988, p.79) retained *Scriniodinium playfordii*. This combination was not validly published in Klement (1957, p.409), since that author did not fully reference the basionym. Riding and Fensome (2003, p.18) considered this species to be the possible taxonomic senior synonym of *Scriniodinium oxfordianum*. Age: Oxfordian.

?**dictyophorum** (Deflandre, 1939a, p.178, pl.8, figs.1–3 ex Sarjeant, 1967b, p.249–250) Brenner, 1988, p.74. Holotype: Deflandre, 1939a, pl.8, fig.1; Jan du Chêne et al., 1986a, pl.7, figs.1–5. The name *Palaeoperidinium dictyophorum* was not validly published in Deflandre (1939a) since the generic name *Palaeoperidinium* was not validly published until 1967. In validating the name *Gonyaulacysta dictyophora*, Sarjeant (1967b, p.249–250) provided an "emended diagnosis". Age: Oxfordian.

dictyotum Cookson and Eisenack, 1960b, p.248–249, pl.37, figs.8–9. Holotype: Cookson and Eisenack, 1960b, pl.37, fig.9; Jan du Chêne et al., 1986a, pl.5, fig.1; pl.7, fig.6. Originally (and now) *Scriniodinium*, subsequently *Scriniocassis*, thirdly *Aldorfia*. This species was retained in *Scriniodinium* by Riding and Fensome (2003, p.16). Age: Oxfordian–Tithonian.

subsp. **dictyotum**. Autonym. Holotype: Cookson and Eisenack, 1960b, pl.37, fig.9; Jan du Chêne et al., 1986a, pl.5, fig.1; pl.7, fig.6. Originally (and now) *Scriniodinium dictyotum* subsp. *dictyotum*, subsequently *Scriniocassis dictyota* subsp. *dictyota*, thirdly *Aldorfia dictyota* subsp. *dictyota*.

subsp. **osmingtonense** Gitmez, 1970, p.310–311, pl.1, fig.3; pl.8, fig.12. Holotype: Gitmez, 1970, pl.8, fig.12; Jan du Chêne et al., 1986a, pl.7, figs.10–11. Originally (and now) *Scriniodinium dictyotum* subsp. *osmingtonense*, subsequently *Scriniocassis dictyota* subsp. *osmingtonensis*, thirdly *Aldorfia dictyota* subsp. *osmingtonensis*. This subspecies is retained here since the species is now retained in *Scriniodinium*. Taxonomic senior synonym (at specific rank): *Scriniocassis weberi*, according to Davies (1983, p.24) — however, Jan du Chêne et al. (1986a, p.35) retained *Scriniodinium dictyotum* subsp. *osmingtonense* (as *Aldorfia dictyota* subsp. *osmingtonensis*). Age: early Kimmeridgian.

subsp. **papillatum** Gitmez, 1970, p.311, pl.9, fig.11. Holotype: Gitmez, 1970, pl.9, fig.11. Originally (and now) *Scriniodinium dictyotum* subsp. *papillatum*, subsequently *Scriniocassis dictyotus* subsp. *papillatus*, thirdly *Scriniocassis papillatus*, fourthly *Aldorfia dictyota* subsp. *papillata*. This subspecies is retained here since the species is now retained in *Scriniodinium*. Age: early Kimmeridgian.

subsp. **pyrum** Gitmez, 1970, p.311,313, pl.10, fig.1; pl.13, figs.1–2; text-figs.33a–b. Holotype: Gitmez, 1970, pl.13, figs.1–2; text-fig.33a; Jan du Chêne et al., 1986a, pl.7, figs.7–8. Originally (and now) *Scriniodinium dictyotum* subsp. *pyrum*, subsequently *Scriniocassis dictyota* subsp. *pyrum*, thirdly *Scriniocassis pyrum*, fourthly *Aldorfia dictyota* subsp. *pyrum*. This subspecies is retained here since the species is now retained in *Scriniodinium*. N.I.A. Age: early Kimmeridgian.

?**echinatum** Jain and Garg in Jain et al., 1984, p.73, pl.2, fig.21; pl.3, fig.45. Holotype: Jain et al., 1984, pl.2, fig.21. Questionable assignment: Riding and Fensome (2003, p.16). Age: Kimmeridgian–early Tithonian.

?**eocaenicum** Olaru, 1978a, p.86, pl.12, fig.13. Holotype: Olaru, 1978a, pl.12, fig.13. Originally *Scriniodinium*, subsequently (and now) *Scriniodinium*?. Questionable assignment: Jan du Chêne et al. (1986a, p.317). Age: late Eocene.

"**eurypylum**" Manum and Cookson, 1964, p.20–21, pl.4, figs.7–13. Holotype: Manum and Cookson, 1964, pl.4, figs.9–10. **NOW** *Palaeoperidinium*? Originally *Scriniodinium*, subsequently *Palaeoperidinium*, thirdly *Saeptodinium*, fourthly (and now) *Palaeoperidinium*? Age: Late Cretaceous.

"**galeatum**" Cookson and Eisenack, 1960a, p.3–4, pl.1, figs.16–18. Holotype: Cookson and Eisenack, 1960a, pl.1, fig.16; Jan du Chêne et al., 1986a, pl.48, figs.11–13; Helby et al., 1987, fig.38L. **NOW** *Hystrichosphaeropsis*. Originally *Scriniodinium*, subsequently *Psaligonyaulax*, thirdly (and now) *Hystrichosphaeropsis*. Age: Albanian–Cenomanian.

"**galeritum**" (Deflandre, 1939a, p.167, pl.5, figs.7–9; pl.6, fig.1) Klement, 1960, p.22. Holotype: Deflandre, 1939a, pl.5, figs.7–8; Eisenack and Klement, 1964, p.759,761; Jan du Chêne et al., 1986a, pl.104, figs.10–11; Fensome et al., 1995, fig.1 — p.1501; figs.1–2 — p.1505. **NOW** *Endoscrinium*. Originally *Gymnodinium* (Appendix B), subsequently *Scriniodinium*, thirdly (and now) *Endoscrinium*. Age: Oxfordian.

"subsp. **fornicatum**" Klement, 1960, p.25–26, pl.1, figs.7–12. Holotype: Klement, 1960, pl.1, figs.7–8; Jan du Chêne et al., 1986a, pl.107, figs.4–6; Fensome et al., 1995, figs.1–2 — p.1489. **NOW** *Endoscrinium galeritum* subsp. *fornicatum*. Originally *Scriniodinium galeritum* subsp. *fornicatum*, subsequently (and now) *Endoscrinium galeritum* subsp. *fornicatum*. Age: middle Oxfordian.

"subsp. **galeritum**". Autonym. Holotype: Deflandre, 1939a, pl.5, figs.7–8; Eisenack and Klement, 1964, p.759,761; Jan du Chêne et al., 1986a, pl.104, figs.10–11; Fensome et al., 1995, fig.1 — p.1501; figs.1–2

— p.1505. **NOW** *Endoscrinium galeritum* subsp. *galeritum*. Originally *Scriniodinium galeritum* subsp. *galeritum*, subsequently (and now) *Endoscrinium galeritum* subsp. *galeritum*.

"subsp. ***reticulatum***" Klement, 1960, p.26–27, pl.2, figs.1–2. Holotype: Klement, 1960, pl.2, figs.1–2; Eisenack and Klement, 1964, p.765; Jan du Chêne et al., 1986a, pl.108, figs.9–10; Fensome et al., 1995, figs.1–2 — p.1739. **NOW** *Endoscrinium galeritum* subsp. *reticulatum*. Originally *Scriniodinium galeritum* subsp. *reticulatum*, subsequently (and now) *Endoscrinium galeritum* subsp. *reticulatum*. Age: middle Oxfordian.

"***glabrum***" (Duxbury, 1977, p.24, pl.11, figs.1,6; text-fig.3) Jan du Chêne et al., 1986a, p.316. Holotype: Duxbury, 1977, pl.11, figs.1,6; text-fig.3; Jan du Chêne et al., 1986a, pl.111, figs.9–10; Fensome et al., 1995, figs.1–2 — p.1511. **NOW** *Athigmatocysta*. Originally (and now) *Athigmatocysta*, subsequently *Endoscrinium*, thirdly *Scriniodinium*. Stover and Williams (1987, p.27) also proposed this combination. Age: late Berriasian–mid Barremian.

"?***globosum***" (Olaru, 1978a, p.81, pl.12, fig.14; pl.15, fig.23) Lentin and Williams, 1985, p.316. Holotype: Olaru, 1978a, pl.12, fig.14. **NOW** *Leptodinium?*. Originally *Leptodinium*, subsequently (and now) *Leptodinium?*, thirdly *Scriniodinium*. Questionable assignment: Lentin and Williams (1985, p.316). Lentin and Williams (1985, p.316) inadvertently listed this species under *Scriniodinium*. Age: late Eocene.

"?***gochtii***" Pocock, 1972, p.90, pl.22, fig.12; text-fig.6. Holotype: Pocock, 1972, pl.22, fig.12; Jan du Chêne et al., 1986a, pl.93, figs.4–8. **NOW** *Rhynchodiniopsis*. Originally *Scriniodinium*, subsequently *Scriniodinium?*, thirdly *Endoscrinium*, fourthly (and now) *Rhynchodiniopsis*. Questionable assignment: Stover and Evitt (1978, p.187). Age: late Bajocian.

"***granulatum***" (Raynaud, 1978, p.391–392, pl.2, figs.6,12) Jan du Chêne et al., 1986a, p.316. Holotype: Raynaud, 1978, pl.2, fig.6; Jan du Chêne et al., 1986a, pl.111, figs.13–14. **NOW** *Endoscrinium*. Originally *Athigmatocysta*, subsequently (and now) *Endoscrinium*, thirdly *Scriniodinium*. Age: late Kimmeridgian–Portlandian.

"***hauterivianum***" Duxbury, 2001, p.113–114, fig.13, nos.1–3. Holotype: Duxbury, 2001, fig.13, no.2. **NOW** *Endoscrinium*. Originally *Scriniodinium*, subsequently (and now) *Endoscrinium*. Age: early–early late Hauterivian.

"***heikeae***" Prössl, 1990, p.106, pl.12, figs.1–2,4–5,9 ex Prössl, 1992b, p.113,116. Holotype: Prössl, 1990, pl.12, figs.1,4,9. **NOW** *Endoscrinium*. Originally *Scriniodinium*, subsequently (and now) *Endoscrinium*. This name was not validly published in Prössl (1990, p.106), since that author did not specify the lodgment of the holotype. Age: Albian.

?***heusseri*** Habib, 1970, p.366–368, pl.8, fig.4. Holotype: Habib, 1970, pl.8, fig.4. Originally *Scriniodinium*, subsequently (and now) *Scriniodinium?*. Questionable assignment: Jan du Chêne et al. (1986a, p.317). Age: Albian–Cenomanian.

"***indicum***" Jain and Garg in Jain et al., 1984, p.72–73, pl.2, figs.22–23. Holotype: Jain et al., 1984, pl.2, fig.22. **NOW** *Endoscrinium*. Originally *Scriniodinium*, subsequently (and now) *Endoscrinium*. Age: Kimmeridgian–early Tithonian.

inritibile Riley in Fisher and Riley, 1980, p.322–323, pl.2, figs.7,9. Holotype: Fisher and Riley, 1980, pl.2, figs.7,9; Jan du Chêne et al., 1986a, pl.111, fig.5. This species name was not validly published in Fisher and Riley (1976, p.52) and Riley (1979, p.220), since no description was provided. Age: late Kimmeridgian.

"?***irisiae***" Kjellström, 1973, p.40–42, fig.34. Holotype: Kjellström, 1973, fig.34; Jan du Chêne et al., 1986a, pl.46, fig.8. **NOW** *Hystrichosphaeropsis*. Originally *Scriniodinium?*, subsequently (and now) *Hystrichosphaeropsis*. Questionable assignment: Kjellström (1973, p.40). Age: middle-late Maastrichtian.

"?***irregulare***" (Cookson and Eisenack, 1958, p.28–29, pl.10, figs.1–2) Stover and Evitt, 1978, p.188. Holotype: Cookson and Eisenack, 1958, pl.10, fig.1; Jan du Chêne et al., 1986a, pl.109, figs.1–2. **NOW** *Endoscrinium*. Originally *Wetzeliella*, subsequently *Wetzeliopsis* (name not validly published), thirdly *Scriniodinium?*, fourthly

Tubotuberella, fifthly (and now) *Endoscrinium*. Questionable assignment: Stover and Evitt (1978, p.188). Taxonomic junior synonym: *Wetzeliella meckelfeldensis*, according to Costa and Downie (1979, p.43) — however, Lentin and Williams (1981, p.290) retained *Wetzeliella meckelfeldensis*. Age: Late Jurassic.

"*kempiae*" Stover and Helby, 1987a, p.114–115, figs.14A–B,15A–F,16A–I. Holotype: Stover and Helby, 1987a, figs.15A–F; Fensome et al., 1996, figs.1–6 — p.2183. **NOW** *Endoscrinium*. Originally *Scriniodinium*, subsequently (and now) *Endoscrinium*. Age: Callovian.

"*klementii*" Pocock, 1972, p.91, pl.23, figs.1–2; text-fig.7. Holotype: Pocock, 1972, pl.23, figs.1–2; Jan du Chêne et al., 1986a, pl.108, figs.5–8. **NOW** *Endoscrinium*. Originally *Scriniodinium*, subsequently *Scriniodinium?*, thirdly (and now) *Endoscrinium*, fourthly *Scrinioicassis*. Questionable assignment: Stover and Evitt (1978, p.188) — however, Below (1990, p.31) retained this species in *Scriniodinium* without question. Age: Callovian.

"*luridum*" (Deflandre, 1939a, p.166, pl.5, figs.4–6) Klement, 1960, p.20. Holotype: Deflandre, 1939a, pl.5, figs.4–5; Jan du Chêne et al., 1986a, pl.109, figs.6–8. **NOW** *Endoscrinium*. Originally *Gymnodinium*, subsequently *Scriniodinium*, thirdly (and now) *Endoscrinium*, fourthly *Tubotuberella*. Age: early Oxfordian.

"subsp. *largocavatum*" Beju, 1978, p.4. **Name not validly published**: no description or illustration.

"*nilsii*" Kjellström, 1973, p.42, fig.35. Holotype: Kjellström, 1973, fig.35. **Taxonomic senior synonym**: *Epicephalopyxis* (as and now *Paralecaniella*) *indentata* (Appendix A), according to Jan du Chêne et al. (1986a, p.318). Questionable assignment: Kjellström (1973, p.42). Age: middle-late Maastrichtian.

"*novissimum*" Morgenroth, 1968, p.540–541, pl.43, figs.3–4. Holotype: Morgenroth, 1968, pl.43, fig.4. **NOW** *Endoscrinium?*. Originally *Scriniodinium*, subsequently *Scriniodinium?*, thirdly (and now) *Endoscrinium?*. Questionable assignment: Stover and Evitt (1978, p.188). Age: Danian.

"*obscurum*" Manum and Cookson, 1964, p.21–22, pl.4, figs.5–6. Holotype: Manum and Cookson, 1964, pl.4, fig.6. **NOW** *Endoscrinium*. Originally *Scriniodinium*, subsequently *Scriniodinium?*, thirdly (and now) *Endoscrinium*. Questionable assignment: Stover and Evitt (1978, p.188). Age: Late Cretaceous.

oxfordianum Sarjeant, 1962a, p.485, pl.69, figs.13–14. Holotype: Sarjeant, 1962a, pl.69, fig.14. Originally *Scriniodinium*, subsequently *Endoscrinium*, thirdly *Sirmiodinium*, fourthly (and now) *Scriniodinium?*. Questionable assignment: Riding and Fensome (2003, p.18), who questionably retained this species in *Scriniodinium*. Riding and Fensome (2003, p.18) considered this species to be a possible junior synonym of *Scriniodinium crystallinum*. Age: Oxfordian.

parvmarginatum (Cookson and Eisenack, 1958, p.24, pl.1, fig.6) Eisenack, 1967, p.201 (770a). Holotype: Cookson and Eisenack, 1958, pl.1, fig.6; Jan du Chêne et al., 1986a, pl.112, figs.10–12. Originally *Gymnodinium* (Appendix B), subsequently (and now) *Scriniodinium*. Age: Late Jurassic.

pharo (Duxbury, 1977, p.32, pl.9, fig.5; text-fig.8) Davey, 1982b, p.31. Holotype: Duxbury, 1977, pl.9, fig.5; Jan du Chêne et al., 1986a, pl.111, figs.11–12. Originally *Endoscrinium*, subsequently (and now) *Scriniodinium*. Jan du Chêne et al. (1986a, p.316) and Woollam and Riding (1983, p.7) also proposed this combination. N.I.A. Age: late Berriasian–early Valanginian.

playfordii Cookson and Eisenack, 1960b, p.248, pl.37, fig.6. Holotype: Cookson and Eisenack, 1960b, pl.37, fig.6, lost according to Jan du Chêne et al. (1986a, p.316). Taxonomic senior synonym: *Gymnodinium* (as and now *Scriniodinium*) *crystallinum*, according to Jan du Chêne et al. (1986a, p.316) — however, Brenner (1988, p.79) retained *Scriniodinium playfordii*. Age: Oxfordian–Tithonian.

"*pontianum*" Balteş, 1969, p.35–36, pl.3 [not pl.4], fig.15 ex Lentin and Williams, 1973, p.123. Holotype: Balteş, 1969, pl.3, fig.15, designated by Lentin and Williams (1973, p.123). **NOW** *Hystrichosphaeropsis*. Originally *Scriniodinium*, subsequently (and now) *Hystrichosphaeropsis*. This name was not validly published in Balteş (1969, p.35) since that author considered it to be a provisional designation. Age: early Pliocene.

prolatum Stevens, 1987, p.193–195, figs.9A–J. Holotype: Stevens, 1987, figs.9A–C; Fensome et al., 1996, figs.1–3 — p.2299. Originally (and now) *Scriniodinium*, subsequently *Endoscrinium*. Riding and Fensome (2003, p.18) retained this species in *Scriniodinium*. Age: early Berriasian.

"pseudocrystallinum" Beju, 1971, p.295–297, pl.7, figs.1–3; text-fig.7. Holotype: Beju, 1971, pl.7, fig.1. Originally *Scriniodinium*, subsequently *Sirmiodinium*. **Taxonomic senior synonym:** *Sirmiodinium grossii*, according to Drugg (1978, p.73) and Kunz (1990, p.39). Age: Oxfordian–Kimmeridgian.

"reticulatum" Pocock, 1972, p.91–92, pl.23, fig.3. Holotype: Pocock, 1972, pl.23, fig.3; Jan du Chêne et al., 1986a, pl.108, figs.1–4. **NOW** *Endoscrinium*. Originally *Scriniodinium*, subsequently *Scriniodinium?*, thirdly *Scriniocassis*, fourthly (and now) *Endoscrinium*. Questionable assignment: Stover and Evitt (1978, p.188) — however, Below (1990, p.31) retained this species in *Scriniodinium* without question. Age: Callovian.

"rostratum" Brideaux and McIntyre, 1975, p.33–34, pl.10, figs.6–14; pl.11, figs.1–3. Holotype: Brideaux and McIntyre, 1975, pl.10, figs.12–14; Jan du Chêne et al., 1986a, pl.111, figs.2–4. **NOW** *Endoscrinium*. Originally *Scriniodinium*, subsequently (and now) *Endoscrinium*. Age: middle Albian.

?scutella Eisenack, 1958a, p.385, pl.24, fig.3. Emendation: Sarjeant, 1985a, p.87–89, as *Parvocavatus? scutella*. Holotype: Eisenack, 1958a, pl.24, fig.3; Sarjeant, 1985a, pl.7, fig.3; pl.9, figs.4–6; Jan du Chêne et al., 1986a, pl.111, fig.1. Originally *Scriniodinium*, subsequently *Ellipsoidictyum*, thirdly *Parvocavatus?*, fourthly (and now) *Scriniodinium?*. Jan du Chêne et al. (1986a, p.318) retained the species in *Scriniodinium*. Questionable assignment: Jan du Chêne et al. (1986a, p.318). N.I.A. Age: late Aptian.

?speciosum He Chengquan in Zheng Yahui and He Chengquan, 1984, p.100, pl.6, figs.21–22; pl.10, fig.6. Holotype: Zheng Yahui and He Chengquan, 1984, pl.6, fig.21. Questionable assignment: Riding and Fensome (2003, p.19), who stated that this species may be assignable to *Senegalinium*. Age: Late Cretaceous.

"subvallare" Sarjeant, 1962b, p.262–263, pl.1, fig.10; text-fig.7. Holotype: Sarjeant, 1962b, pl.1, fig.10; text-fig.7. **NOW** *Endoscrinium*. Originally *Scriniodinium*, subsequently (and now) *Endoscrinium*. Age: late Oxfordian.

?torulosum (Deflandre, 1943, p.504–505, pl.17, figs.7–8; text-figs.17–25) Lentin and Williams, 1973, p.124. Holotype: Deflandre, 1943, pl.17, figs.7–8; text-figs.17–20; Jan du Chêne et al., 1986a, pl.104, figs.5–6. Originally *Gymnodinium* (Appendix B), subsequently (and now) *Scriniodinium?*. Questionable assignment: Lentin and Williams (1973, p.124). Stover and Evitt (1978, p.188) suggested that this species represents acritarchs; however, Riding and Fensome (2003, p.19) considered it to represent dinoflagellates, albeit as a questionable species of *Scriniodinium*. Age: Senonian.

"trabeculosum" Gocht, 1959, p.62, pl.4, fig.5. Emendation: Harding, 1996, p.359,361,363, as *Gardodinium trabeculosum*. Holotype: Gocht, 1959, pl.4, fig.5; Harding, 1996, pl.3, figs.1,6–7. **NOW** *Gardodinium*. Originally *Scriniodinium*, subsequently (and now) *Gardodinium*, thirdly *Chlamydothorella*. Taxonomic junior synonyms: *Gardodinium eisenackii*, according to Davey (1974, p.51); *Gardodinium albertii* and *Gardodinium pyriforme*, both according to Harding (1996, p.350); *Gardodinium elongatum*, by implication in Brideaux and McIntyre (1975, p.33), who considered *Gardodinium elongatum* to be a taxonomic junior synonym of *Gardodinium eisenackii*. Age: Hauterivian.

"?velatum" Conrad, 1941, p.8–9, pl.1, fig.A ex Sarjeant, 1967b, p.256. Holotype: Conrad, 1941, pl.1, fig.A. **NOW** *Trithyrodinium?*. Originally *Palaeoperidinium* (name not validly published), subsequently *Scriniodinium?*, thirdly *Palaeoperidinium?* (combination not validly published), fourthly (and now) *Trithyrodinium?*. Questionable assignment: Sarjeant (1967b, p.256). The name *Palaeoperidinium velatum* was not validly published in Conrad (1941) since the generic name *Palaeoperidinium* was not validly published until 1967. Williams et al. (1998, p.550) accepted Sarjeant's (1967b) indirect reference to Conrad (1941) as indication of a type (I.C.N. Article 40.3). Lentin and Williams (1976, p.111) also proposed this name, as a new combination. Age: Maastrichtian.

"?verrucosum" Heisecke, 1970, p.232,234, pl.9, figs.2–3; pl.10, fig.3. Holotype: Heisecke, 1970, pl.9, fig.2; pl.10, fig.3. **NOW** *Cerodinium*. Originally *Scriniodinium*, subsequently *Scriniodinium?*, thirdly (and now) *Cerodinium*. Questionable assignment: Stover and Evitt (1978, p.188). Age: Danian.

"*SCRINIODINIUM* subgenus *ENDOSCRINIUM*" Klement, 1960, p.18. **NOW** *Endoscrinium*. Originally *Scriniodinium* subgenus *Endoscrinium*, subsequently *Endoscrinium*. Type: Deflandre, 1939a, pl.5, figs.7–8, as *Gymnodinium galearium*.

"*SCRINIODINIUM* subgenus *SCRINIODINIUM*". Autonym. **Now redundant**. Type: Deflandre, 1939a, pl.5, figs.1–2, as *Gymnodinium crystallinum*.

SELENOPEMPHIX Benedek, 1972, p.47. Emendations: Bujak in Bujak et al., 1980, p.82; Head, 1993, p.32, both as *Selenopemphix*. Originally (and now) *Selenopemphix*, subsequently *Protopteridinium* subgenus *Protopteridinium* section *Selenopemphix* (name not validly published). Taxonomic junior synonyms: *Omanodinium*, according to Bradford and Wall (1984, p.49) and Head (1993, p.32); *Multispinula*, according to Matsuoka (1985a, p.51) and Head (1993, p.31–32). Head (1993, p.32) considered by implication that the acritarch genus *Margosphaera* Nagy, 1965, is the possible taxonomic senior synonym of this genus. Type: Benedek, 1972, pl.11, fig.13, as *Selenopemphix nephroides*.

alticincta (Bradford, 1975, p.3070,3072, figs.23–28) Matsuoka, 1985a, p.52. Holotype: Bradford, 1975, figs.23–26; Fensome et al., 1993a, figs.1–4 — p.907. Originally *Omanodinium*, subsequently (and now) *Selenopemphix*. Head (1993, p.32), by considering *Omanodinium* to be a taxonomic junior synonym of *Selenopemphix*, effectively retained this species in *Selenopemphix*. Motile equivalent: *Protopteridinium subinerme* (Paulsen, 1904) Loeblich III, 1970, according to Bradford (1975, p.3070) and Matsuoka (1984b, p.2) — however, see Head (1996b, p.1215). Age: Holocene.

antarctica Marret and de Vernal, 1997, p.389,391, pl.5, figs.1–5. Holotype: Marret and de Vernal, 1997, pl.5, fig.2. Age: Holocene.

armageddonensis de Verteuil and Norris, 1992, p.398–399, pl.1, figs.1–4; text-fig.4. Holotype: de Verteuil and Norris, 1992, pl.1, figs.1–2; text-fig.4. Age: late Miocene.

armata Bujak in Bujak et al., 1980, p.83–84, pl.21, figs.1–3; text-figs.23D,24. Holotype: Bujak et al., 1980, pl.21, figs.1–3. Age: middle Eocene (see Aubry, 1986).

bothrion Harland and Pudsey, 2002, p.273,275, pl.2, figs.1–4; pl.3, figs.7–8; pl.4, figs.1–2. Holotype: Harland and Pudsey, 2002, pl.2, figs.1–2. N.I.A. Age: late Miocene.

brevispinosa Head et al., 1989c, p.494, pl.7, figs.1–2,5. Holotype: Head et al., 1989c, pl.7, fig.5. Age: middle or early late? Miocene.

subsp. "*brevispinosa*". Autonym. Holotype: Head et al., 1989c, pl.7, fig.5. **Now redundant**.

subsp. *conspicua* de Verteuil and Norris, 1992, p.399–401, pl.2, figs.2–8; pl.10, figs.1–4; pl.11, figs.1–2; text-fig.5. Holotype: de Verteuil and Norris, 1992, pl.2, figs.2–3. Age: late middle-late Miocene.

"subsp. *conspicua*" de Verteuil and Norris, 1992, p.399–401, pl.2, figs.2–8; pl.10, figs.1–4; pl.11, figs.1–2; text-fig.5. Holotype: de Verteuil and Norris, 1992, pl.2, figs.2–3. **NOW** *Selenopemphix conspicua*. Originally *Selenopemphix brevispinosa* subsp. *conspicua*, subsequently (and now) *Selenopemphix conspicua*. Age: late middle-late Miocene.

conspicua (de Verteuil and Norris, 1992, p.399–401, pl.2, figs.2–8; pl.10, figs.1–4; pl.11, figs.1–2; text-fig.5) Louwye et al. 2004, p.378. Holotype: de Verteuil and Norris, 1992, pl.2, figs.2–3. Originally *Selenopemphix brevispinosa* subsp. *conspicua*, subsequently (and now) *Selenopemphix conspicua*. Age: late middle-late Miocene.

- coronata* Bujak in Bujak et al., 1980, p.84, pl.21, figs.4–5; text-figs.17B,23C. Holotype: Bujak et al., 1980, pl.21, figs.4–5. Age: middle Eocene (see Aubry, 1986).
- crenata* Matsuoka and Bujak, 1988, p.70–72, pl.10, figs.6a–b,7; text-fig.15. Holotype: Matsuoka and Bujak, 1988, pl.10, figs.6a–b; text-fig.15; Head, 1994b, pl.2, figs.1–3; text-fig.2A. Age: late Miocene.
- dionaeacysta* Head et al., 1989b, p.459–460, pl.1, figs.3–4,7. Holotype: Head et al., 1989b, pl.1, fig.7. Taxonomic junior synonym: *Selenopemphix harpeza*, according to Head (1993, p.36). Age: late Miocene–early Pliocene.
- elegantula* (Williams, 1978, p.797–798, pl.7, figs.4,7–9 [not only figs.7–9]) Bujak in Bujak et al., 1980, p.84. Holotype: Williams, 1978, pl.7, fig.8. Originally *Vozzhennikovia?*, subsequently (and now) *Selenopemphix*. Age: middle Eocene.
- "*harpeza*" (Harland in Harland et al., 1991, p.653–654, fig.4f) Lentin and Williams, 1993, p.587. Holotype: Harland et al., 1991, fig.4f. Originally *Protopteridinium* subgenus *Protopteridinium* section *Selenopemphix* (section name not validly published; Appendix B), subsequently (and now) *Selenopemphix*. **Taxonomic senior synonym:** *Selenopemphix dionaeacysta*, according to Head (1993, p.36). N.I.A. Age: early Pleistocene.
- ?*indentata* Head et al., 1989b, p.460, pl.1, figs.1–2,5–6. Holotype: Head et al., 1989b, pl.1, fig.1. Questionable assignment: Head et al. (1989b, p.460). Age: late Miocene.
- islandensis* Verhoeven and Louwye, 2012, p.13–16,18, pl.1, figs.1–12; pl.2, figs.1–12; text-figs.3A–B,4A. Holotype: Verhoeven and Louwye, 2012, pl.1, figs.1–3. Age: early Pliocene.
- kepion* Harland and Pudsey, 2002, p.275–278, pl.3, figs.1–6; pl.5, figs.1–8; text-fig.4. Holotype: Harland and Pudsey, 2002, pl.5, figs.1–2. N.I.A. Age: late Miocene.
- maastrichta* Kumar et al., 1993, p.141–143, pl.1, figs.1–8; text-fig.2. Holotype: Kumar et al., 1993, pl.1, fig.1. Age: late Maastrichtian.
- minusa* Harland and Pudsey, 2002, p.278–279, pl.4, figs.5–7. Holotype: Harland and Pudsey, 2002, pl.4, fig.7. Based on Greek, this epithet is correctly rendered as *minusa* when feminine, *minys* (as cited in Harland and Pudsey) when masculine, and *minym* when neuter. Age: late Miocene.
- **nephroides* Benedek, 1972, p.47–48, pl.11, fig.13; pl.16, figs.1–4. Emendations: Bujak in Bujak et al., 1980, p.84; Benedek and Sarjeant, 1981, p.333–334,336 — however, see Head (1993, p.36). Holotype: Benedek, 1972, pl.11, fig.13; Benedek and Sarjeant, 1981, fig.8, nos.5–6; Head, 1993, fig.20, no.12. Taxonomic junior synonym: *Lejeunia* (now *Lejeunecysta*) *psilodora*, according to Benedek and Sarjeant (1981, p.333) — however, Lentin and Williams (1985, p.217) and Head (1993, p.36) retained *Lejeunia* (as *Lejeunecysta*) *psilodora*. Motile equivalent: *Protopteridinium subinermis* (Paulsen, 1904) Loeblich III, 1970, according to Harland (1982, p.396) — however, see Head (1993, p.36; 1996b, p.1215). Age: middle-late Oligocene.
- porcupensis* Louwye et al., 2008, p.136,138, pl.3, figs.1–9. Holotype: Louwye et al., 2008, pl.3, figs.1–5. Age: late Burdigalian–Langhian.
- prionota* Levy and Harwood, 2000, p.216, pl.8, figs.k–l. Holotype: Levy and Harwood, 2000, pl.8, fig.k. Age: middle-late Eocene.
- quanta* (Bradford, 1975, p.3067,3069, figs.5–7) Matsuoka, 1985a, p.51. Holotype: Bradford, 1975, fig.5; Fensome et al., 1995, fig.1 — p.1725. Originally *Multispinula*, subsequently (and now) *Selenopemphix*. This species was retained in *Selenopemphix* by Head (1993, p.36). Motile equivalent: *Protopteridinium conicum* (Gran, 1900) Balech, 1974, according to Harland (1981, p.68) — however, see Head (1993, p.37). Age: Holocene.
- selenoides* Benedek, 1972, p.48, pl.11, fig.15; pl.16, figs.5–8; text-fig.22. Emendations: Bujak in Bujak et al., 1980, p.86; Benedek and Sarjeant, 1981, p.336–338. Holotype: Benedek, 1972, pl.11, fig.15; Benedek and Sarjeant, 1981, fig.9, nos.6–7; Head, 1993, fig.20, no.1. Taxonomic junior synonym: *Lejeunia* (as *Lejeunecysta*) *paratenella*,

according to Benedek and Sarjeant (1981, p.336–338). Motile equivalent: "some specimens" of *Protopteridinium subinerme* (Paulsen, 1904) Loeblich III, 1970, according to Lewis et al. (1984, p.31). Age: middle-late Oligocene.

septum Heilmann-Clausen and Van Simaey, 2005, p.178,180, pl.11, figs.8–10. Holotype: Heilmann-Clausen and Van Simaey, 2005, pl.11, fig.8. N.I.A. Age: ?earliest Oligocene.

tholus (Bradford, 1975, p.3072,3074, figs.17–22) Head, 1996b, p.1231. Holotype: Bradford, 1975, fig.17. Originally *Omanodinium*, subsequently *Protopteridinium* subgenus *Protopteridinium* section *Selenopemphix* (combination not validly published), thirdly (and now) *Selenopemphix*. This combination was not validly published in Lentin and Williams (1989, p.333), since these authors did not intend to propose it. N.I.A. Age: Holocene.

undulata Verleye et al., 2011, p.71–72, pl.1, figs.1–9; p.2, figs.1–3. Holotype: Verleye et al., 2011, pl.1, figs.2–3. Age: Holocene.

warriensis Biffi and Grignani, 1983, p.143, pl.7, figs.4,7–8,10–14. Holotype: Biffi and Grignani, 1983, pl.7, fig.4. Age: Oligocene.

weileri Pross, 1997, p.125–126, pl.12, figs.10–11; text-fig.32B. Holotype: Pross, 1997, pl.12, fig.10. Age: middle Rupelian.

"*SEMBARIDINIUM*" Beju, 1978, p.4. **Name not validly published:** no description.

"*ornatum*" Beju, 1978, p.4. **Name not validly published:** no description or illustration.

"*sembarii*" Beju, 1978, p.4. **Name not validly published:** no description or illustration.

SEMICAVIDINIUM Dodekova, 1994, p.28. Type: Dürr, 1987, pl.4, fig.2, as *Meiourogonyaulax mitra*.

**mitra* (Dürr, 1987, p.74,77, figs.3a–b; fig.4, nos.3–6; fig.6, nos.1–3,5) Dodekova, 1994, p.28. Holotype: Dürr, 1987, fig.4, no.3; Dürr, 1988, pl.1, fig.5. Originally *Meiourogonyaulax*, subsequently *Lithodinia*, thirdly (and now) *Semicavidinium*. N.I.A. Age: middle Kimmeridgian.

SENEGALINIUM Jain and Millepie, 1973, p.22–23. Emendation: Stover and Evitt, 1978, p.122–123. Taxonomic senior synonym: *Deflandrea*, according to Hergreen (1975, p.60–61) — however, Lentin and Williams (1977b, p.144) retained *Senegalinium*. Nomenclatural junior synonym: *Alterbia*, by implication in Lentin and Williams (1976, p.49), who illegitimately included the "type species" of the senior generic name *Senegalinium*, *Senegalinium bicavatatum*, in *Alterbia*. See the discussion under *Alterbia*. Type: Jain and Millepie, 1973, pl.1, figs.1–3, as *Senegalinium bicavatatum*.

"*acuminatum*" (Cookson and Eisenack, 1958, p.27, pl.4, figs.5–8) Loeblich Jr. and Tappan, 1977, p.368. Holotype: Cookson and Eisenack, 1958, pl.4, fig.5. **NOW** *Isabelidinium*. Originally *Deflandrea*, subsequently *Alterbia* (combination illegitimate), thirdly *Senegalinium*, fourthly (and now) *Isabelidinium*. Age: Cenomanian–early Turonian.

aenigmaticum (Boltenhagen, 1977, p.86–88, pl.14, figs.5a–b,6–10) Lentin and Williams, 1981, p.250. Holotype: Boltenhagen, 1977, pl.14, figs.5a–b. Originally *Deflandrea*, subsequently (and now) *Senegalinium*. Age: latest Albian–Turonian.

"*albertii*" (Corradini, 1973, p.174–175, pl.27, figs.7a–b,8; pl.28, fig.2) Harland, 1977a, p.189. Holotype: Corradini, 1973, pl.27, figs.7a–b. **NOW** *Cerodinium*. Originally *Deflandrea*, subsequently *Senegalinium*?, thirdly *Ceratiopsis* (combination illegitimate), fourthly (and now) *Cerodinium*. Taxonomic junior synonym (at specific rank): *Peridinium pedunculatum* forma *divaricans* (subsequently *Phelodinium tricuspae* subsp. *divaricans*),

according to Sarjeant (1985b, p.158) and Lentin and Williams (1993, p.504,511). Questionable assignment: Harland (1977a, p.189). Age: Late Cretaceous–Paleocene.

?*ambiguum* He Chengquan in Zheng Yahui and He Chengquan, 1984, p.100, pl.6, figs.29–30. Holotype: Zheng Yahui and He Chengquan, 1984, pl.6, fig.30. Questionable assignment: He Chengquan in Zheng Yahui and He Chengquan (1984, p.100). Age: Late Cretaceous.

"?*asymmetricum*" (Wilson, 1967a, p.62–63, figs.17–21) Stover and Evitt, 1978, p.123. Holotype: Wilson, 1967a, figs.19–21. **NOW** *Alterbidinium*. Originally *Deflandrea*, subsequently *Alterbia* (combination illegitimate), thirdly *Senegalinium*?, fourthly (and now) *Alterbidinium*, fifthly *Magallanesium*. Questionable assignment: Stover and Evitt (1978, p.123). Age: ?Eocene (erratic).

**bicavatum* Jain and Millepied, 1973, p.23, pl.1, figs.1–4; text-fig.1B. Holotype: Jain and Millepied, 1973, pl.1, figs.1–3; Fensome et al., 1993a, figs.1–2 — p.975. Originally (and now) *Senegalinium*, subsequently *Deflandrea*, thirdly *Alterbia* (combination illegitimate). Lentin and Williams (1977b, p.144) retained this species in *Senegalinium*. Age: Campanian–Maastrichtian.

"*boloniense*" (Riegel, 1974, p.354–355, pl.1, figs.6–10; text-fig.3) Harland, 1977a, p.189. Emendation: Riegel and Sarjeant, 1982, p.296–297, as *Phelodinium boloniense*. Holotype: Riegel, 1974, pl.1, fig.7; Sarjeant et al., 1987, pl.2, fig.2. **NOW** *Cerodinium*. Originally *Deflandrea*, subsequently *Ceratiopsis* (combination illegitimate), thirdly *Senegalinium*, fourthly *Phelodinium*, fifthly (and now) *Cerodinium*. Stover and Evitt (1978, p.123) also proposed this combination. Age: ?Senonian.

cuvillieri (Boltenhagen, 1977, p.99–100, pl.17, figs.3,4a–b,5a–b,6) Lentin and Williams, 1980, p.41. Holotype: Boltenhagen, 1977, pl.17, fig.3. Originally *Deflandrea*, subsequently (and now) *Senegalinium*. Age: Campanian.

?*dilwynense* (Cookson and Eisenack, 1965c, p.141, pl.18, figs.6–9) Stover and Evitt, 1978, p.123. Holotype: Cookson and Eisenack, 1965c, pl.18, figs.7–8. Originally *Deflandrea*, subsequently *Alterbia* (combination illegitimate), thirdly *Senegalinium*?. Questionable assignment: Stover and Evitt (1978, p.123). Age: Paleocene.

"*dubium*" Jain and Millepied, 1973, p.25, pl.2, figs.12–13. Emendation: Masare et al., 1996, p.180, as *Andalusiella dubia*. Holotype: Jain and Millepied, 1973, pl.2, fig.13. **NOW** *Andalusiella*. Originally *Senegalinium*, subsequently *Deflandrea*, thirdly *Deflandrea*?, fourthly *Andalusiella*?, fifthly (and now) *Andalusiella*. Age: Maastrichtian.

ectorugosum (Archangelsky, 1969b, p.192, pl.1, figs.5–7) Stover and Evitt, 1978, p.123. Holotype: Archangelsky, 1969b, pl.1, figs.5–6. Originally *Deflandrea*, subsequently *Alterbia* (combination illegitimate), thirdly (and now) *Senegalinium*. Age: Eocene.

"*gaditanum*" (Riegel, 1974, p.356–357, pl.2, figs.8–9; pl.3, figs.1–2) Harland, 1977a, p.189. Emendation: Riegel and Sarjeant, 1982, p.297–299, as *Phelodinium gaditanum*. Holotype: Riegel, 1974, pl.2, figs.8–9; Riegel and Sarjeant, 1982, fig.7D. **NOW** *Phelodinium*. Originally *Deflandrea*, subsequently *Senegalinium*, thirdly *Lejeunia* (combination illegitimate), fourthly *Lejeunecysta*, fifthly (and now) *Phelodinium*. Age: ?Senonian.

"*granulostriatum*" Jain and Millepied, 1973, p.24–25, pl.1, figs.7–11; pl.2, fig.18; pl.3, fig.29. Holotype: Jain and Millepied, 1973, pl.1, fig.7. **NOW** *Cerodinium*. Originally *Senegalinium*, subsequently *Deflandrea*, thirdly *Ceratiopsis* (combination illegitimate), fourthly (and now) *Cerodinium*. Age: Maastrichtian.

"*ingramii*" (Cookson and Eisenack, 1970a, p.143, pl.12, figs.7–9) Loeblich Jr. and Tappan, 1977, p.368. Holotype: Cookson and Eisenack, 1970a, pl.12, fig.9; Eisenack and Kjellström, 1975a, figure to left — p.190a; Fensome et al., 1996, fig.3 — p.2167. **NOW** *Eurydinium*. Originally *Deflandrea*, subsequently *Senegalinium*, thirdly *Alterbia* (combination illegitimate), fourthly (and now) *Eurydinium*. Age: Albian–Cenomanian.

iterlaaense Nøhr-Hansen and Heilmann-Clausen, 2001, p.164,166–168, fig.6, nos.1–6. Holotype: Nøhr-Hansen and Heilmann-Clausen, 2001, fig.6, nos.1–3. Fensome and Williams (2004, p.596) were incorrect in attributing this name to Hansen. Age: middle Danian–early Selandian.

"kozłowskii" (Górka, 1963, p.41, pl.5, fig.4) Harland, 1977a, p.189. Holotype: Górka, 1963, pl.5, fig.4. **NOW** *Phelodinium*. Originally *Lejeunia* (generic name illegitimate), subsequently *Astrocysta*, thirdly *Senegalinium*, fourthly (and now) *Phelodinium*. Taxonomic senior synonym: *Peridinium* (as *Lejeunia*, now *Phelodinium*) *tricuspe*, according to Harker and Sarjeant (1975, p.223) — however, Lindgren (1984, p.181) retained *Lejeunia* (as *Phelodinium*) *kozłowskii*. Age: late Maastrichtian.

laevigatum (Malloy, 1972, p.64, pl.1, figs.1–7) Bujak and Davies, 1983, p.163. Holotype: Malloy, 1972, pl.1, fig.5. Originally *Deflandrea*, subsequently *Lejeunia* (combination illegitimate), thirdly *Andalusiella*, fourthly *Lejeunecysta*, fifthly (and now) *Senegalinium*. Taxonomic junior synonym: *Senegalinium psilatum*, according to Herngreen (1975, p.61). Age: Senonian.

macrocystum (Cookson and Eisenack, 1960a, p.3, pl.1, figs.7–8) Stover and Evitt, 1978, p.123. Holotype: Cookson and Eisenack, 1960a, pl.1, fig.7. Originally *Deflandrea*, subsequently *Alterbia* (combination illegitimate), thirdly (and now) *Senegalinium*. Age: Campanian.

"magnificum" (Stanley, 1965, p.218–219, pl.20, figs.1–6) Harland, 1977a, p.188. Holotype: Stanley, 1965, pl.20, figs.4–6. **NOW** *Phelodinium*. Originally *Deflandrea*, subsequently *Lejeunia* (combination illegitimate), thirdly *Senegalinium*, fourthly *Lejeunecysta*, fifthly (and now) *Phelodinium*. Taxonomic junior synonym (at specific rank): *Peridinium crassipes* forma *altum*, according to Sarjeant (1985b, p.159) and Lentin and Williams (1993, p.503). Age: Paleocene.

maxicavernum Beilstein, 1994, p.191–192, pl.29, figs.3–4. Holotype: Beilstein, 1994, pl.29, fig.3. Age: Campanian.

microgranulatum (Stanley, 1965, p.219, pl.19, figs.4–6) Stover and Evitt, 1978, p.123. Holotype: Stanley, 1965, pl.19, figs.4–5. Originally *Deflandrea*, subsequently *Alterbia* (combination illegitimate), thirdly (and now) *Senegalinium*. Age: Paleocene.

microspinosum (Boltenhagen, 1977, p.98–99, pl.17, figs.1a–c, 2a–b) Lentin and Williams, 1980, p.41. Holotype: Boltenhagen, 1977, pl.17, figs.1a–c. Originally *Deflandrea*, subsequently (and now) *Senegalinium*. Age: Campanian–Maastrichtian.

obscurum (Drugg, 1967, p.17, pl.2, figs.8–9; pl.9, fig.5) Stover and Evitt, 1978, p.123. Holotype: Drugg, 1967, pl.2, fig.8. Originally *Deflandrea*, subsequently *Alterbia* (combination illegitimate), thirdly (and now) *Senegalinium*. Age: Maastrichtian–Danian.

orei (Jan du Chêne and Adediran, 1985, p.29, pl.1, figs.2–4) Stover and Williams, 1987, p.148. Holotype: Jan du Chêne and Adediran, 1985, pl.1, fig.3. Originally *Lentinia*, subsequently (and now) *Senegalinium*. Age: late Paleocene–early Eocene.

pallidum Lucas-Clark, 2006, p.200, pl.3, figs.10–11, 13–14. Holotype: Lucas-Clark, 2006, pl.3, figs.10–11. Age: late Paleocene.

"?pannuceum" (Stanley, 1965, p.220, pl.22, figs.1–4, 8–10) Harland, 1977a, p.189. Holotype: Stanley, 1965, pl.22, figs.3–4. **NOW** *Cerodinium*. Originally *Deflandrea*, subsequently *Senegalinium?*, thirdly *Deflandrea?*, fourthly *Ceratiopsis* (combination illegitimate), fifthly (and now) *Cerodinium*. Questionable assignment: Harland (1977a, p.189). Age: Paleocene.

"pentagonale" (Corradini, 1973, p.175, pl.28, fig.3) Harland, 1977a, p.189. Holotype: Corradini, 1973, pl.28, fig.3; Eisenack and Kjellström, 1981a, page labelled "nach S.208"; Fensome et al., 1995, fig.1 — p.1649. **NOW** *Phelodinium*. Originally *Deflandrea*, subsequently *Lejeunia* (combination illegitimate), thirdly *Senegalinium*, fourthly *Lejeunecysta*, fifthly (and now) *Phelodinium*. Age: Senonian.

"*psilatum*" Jain and Millepied, 1973, p.23–24, pl.1, figs.5–6; text-fig.1A. Holotype: Jain and Millepied, 1973, pl.1, fig.6. **Taxonomic senior synonym:** *Deflandrea* (now *Senegalinium*) *laevigata*, according to Herngreen (1975, p.61). Age: Campanian–Maastrichtian.

sergipense (Herngreen, 1975, p.61, pl.3, figs.13–15) Lentin and Williams, 1980, p.41. Holotype: Herngreen, 1975, pl.3, figs.14–15. Originally *Deflandrea*, subsequently (and now) *Senegalinium*. Age: late Senonian.

?*simplex* Lucas-Clark, 2006, p.200–202, pl.3, figs.15–16; pl.4, figs.1–4. Holotype: Lucas-Clark, 2006, pl.3, figs.15–16. Questionable assignment: Lucas-Clark (2006, p.200). Age: Paleocene.

"?*subquadrum*" (Corradini, 1973, p.175–176, pl.28, fig.1) Harland, 1977a, p.189. Holotype: Corradini, 1973, pl.28, fig.1. **NOW** *Cerodinium*. Originally *Deflandrea*, subsequently *Senegalinium*? (combination illegitimate), thirdly *Ceratiopsis* (combination illegitimate), fourthly (and now) *Cerodinium*. Questionable assignment: Harland (1977a, p.189). Age: Senonian.

"*tricuspe*" (Wetzel, 1933a, p.166, pl.2, fig.14) Harland, 1977a, p.188. Emendation: Lejeune-Carpentier and Sarjeant, 1981, p.20, as *Lejeunecysta tricuspis*. Holotype: Wetzel, 1933a, pl.2, fig.14; Lejeune-Carpentier, 1942, fig.21; Lejeune-Carpentier and Sarjeant, 1981, pl.6, fig.5. **NOW** *Phelodinium*. Originally *Peridinium* (Appendix B), subsequently *Lejeunia* (combination illegitimate), thirdly *Astrocysta*, fourthly *Senegalinium*, fifthly *Lejeunecysta*, sixthly (and now) *Phelodinium*. Taxonomic junior synonym: *Lejeunia* (now *Phelodinium*) *kozlowskii*, according to Harker and Sarjeant (1975, p.223) — however, Lindgren (1984, p.181) retained *Lejeunia* (as *Phelodinium*) *kozlowskii*. Age: Senonian.

"*trisinum*" Jain and Millepied, 1973, p.25, pl.2, fig.16. Holotype: Jain and Millepied, 1973, pl.2, fig.16. **Taxonomic senior synonym:** *Svalbardella* (now *Andalusiella*) *polymorpha*, according to Lentin and Williams (1976, p.164). Age: Maastrichtian.

SENONIASPHAERA Clarke and Verdier, 1967, p.61. Type: Clarke and Verdier, 1967, pl.14, fig.8, as *Senoniasphaera protrusa*.

clavellii Bailey et al., 1997, p.236,239, figs.4d–h. Holotype: Bailey et al., 1997, fig.4d (not figs.3d–h). Age: late Kimmeridgian.

edenensis Marshall, 1990a, p.18, figs.9A–E,15L–W. Holotype: Marshall, 1990a, figs.9A–B,15R–T; Fensome et al., 1996, figs.1–3,9 — p.2115. Age: Campanian.

"?*frisica*" Raynaud, 1978, p.394, pl.1, fig.11. Holotype: Raynaud, 1978, pl.1, fig.11. Originally *Senoniasphaera*?, subsequently *Sirmiodiniopsis*. Questionable assignment: Raynaud (1978, p.394). **Taxonomic senior synonym:** *Meiourogonyaulax* (as *Ambonosphaera*?) *staffinensis*, according to Poulsen and Riding (1992, p.26). Age: Oxfordian–mid Valanginian.

inornata (Drugg, 1970b, p.811–812, figs.3C–F) Stover and Evitt, 1978, p.80. Holotype: Drugg, 1970b, fig.3C. Originally *Chiropteridium*, subsequently (and now) *Senoniasphaera*. Age: Danian.

jurassica (Gitmez and Sarjeant, 1972, p.240–241, pl.14, figs.5,8) Lentin and Williams, 1976, p.85. Emendation: Poulsen and Riding, 1992, p.28, as *Senoniasphaera jurassica*. Holotype: Gitmez and Sarjeant, 1972, pl.14, fig.5; Poulsen and Riding, 1992, text-figs.3C–D. Originally *Hexagonifera*, subsequently (and now) *Senoniasphaera*, thirdly *Ambonosphaera*. Lentin and Williams (1981, p.11) retained this species in *Senoniasphaera*. Taxonomic senior synonym: *Meiourogonyaulax* (now *Lithodinia*?) *staffinensis*, according to Williams et al. (1993, p.32) — however, elsewhere in the same publication, Williams et al. (1993, p.56) retained *Hexagonifera* (now *Senoniasphaera*) *jurassica*. Age: Kimmeridgian.

lordii (Cookson and Eisenack, 1968, p.112, figs.11–K) Lentin and Williams, 1976, p.102. Holotype: Cookson and Eisenack, 1968, fig.1J. Originally *Ascodinium*, subsequently (and now) *Senoniasphaera*. Age: Santonian–early Campanian.

macroreticulata Prince et al., 2008, p.90, pl.1, fig.7–10. Holotype: Prince et al., 2008, pl.1, figs.7–8. Age: late Santonian–early Campanian.

microreticulata Brideaux and McIntyre, 1975, p.35, pl.11, figs.7–12; pl.12, figs.1–8. Holotype: Brideaux and McIntyre, 1975, pl.11, figs.7–9; pl.12, fig.1. Originally (and now) *Senoniasphaera*, subsequently *Canningia*. Lentin and Williams (1981, p.33) retained this species in *Senoniasphaera*. Age: middle Albian.

palla Louwye, 1997, p.153, pl.2, figs.3,6. Holotype: Louwye, 1997, pl.2, figs.3,6. Age: Turonian.

**protrusa* Clarke and Verdier, 1967, p.61–62, pl.14, figs.7–9; text-fig.24. Emendation: Prince et al., 1999, p.161. Holotype: Clarke and Verdier, 1967, pl.14, fig.8. Age: Santonian.

subsp. *congreusa* Prince et al., 2008, p.90, pl.2, figs.1–3. Holotype: Prince et al., 2008, pl.2, figs.1–2. Age: middle Santonian–early Campanian.

subsp. *protrusa*. Autonym. Holotype: Clarke and Verdier, 1967, pl.14, fig.8.

ptomatis Helby, May and Partridge in Helby, 1987, p.319–321, figs.25A–S,26. Holotype: Helby, 1987, figs.25A–D; Fensome et al., 1996, figs.1–4 — p.2303. N.I.A. Age: middle Berriasian.

?*reticulata* (Khanna and Singh, 1981b, p.391, fig.1, nos.4,6; text-fig.3) Lentin and Williams, 1993, p.591. Holotype: Khanna and Singh, 1981b, fig.1, no.4. Originally *Hexagonifera*, subsequently (and now) *Senoniasphaera*?. Questionable assignment: Lentin and Williams (1993, p.591). This name was not validly published in Singh et al. (1979, p.35–36), Khanna (1979, p.216) and Khanna et al. (1981, p.261), since no description was provided. Age: early-middle Eocene.

"?*reticulata*" Wilson in Masure, 1985, caption to fig.1b — p.202. **Name not validly published:** no description or illustration. Questionable assignment: Wilson in Masure (1985, caption to fig.1b — p.202).

rotundata Clarke and Verdier, 1967, p.62–63, pl.14, figs.1–3; text-fig.25. Emendation: Prince et al., 1999, p.162. Holotype: Clarke and Verdier, 1967, pl.14, fig.2. Age: Santonian–Campanian.

"subsp. *alveolata*" Pearce et al., 2003, p.301–302, pl.2, figs.6–7. Holotype: Pearce et al., 2003, pl.2, figs.6–7. **Taxonomic senior synonym:** *Senoniasphaera turonica*, according to Pearce et al. (2011, p.92). Age: early Turonian–early Coniacian.

"subsp. *rotundata*". Autonym. Holotype: Clarke and Verdier, 1967, pl.14, fig.2. **Now redundant.**

?*sarrisii* (Archangelsky, 1969a, p.411, pl.2, figs.5–7) Stover and Evitt, 1978, p.80. Holotype: Archangelsky, 1969a, pl.2, figs.6–7. Originally *Polystephanephorus*?, subsequently (and now) *Senoniasphaera*?. Questionable assignment: Stover and Evitt (1978, p.80). Age: Eocene.

stagonoides (Benedek, 1972, p.10, pl.2, fig.12; text-fig.5) Helenes, 1983, p.262. Emendation: Benedek and Sarjeant, 1981, p.324, as *Ascodinium stagonoides*. Holotype: Benedek, 1972, pl.2, fig.12; Benedek and Sarjeant, 1981, fig.3, nos.1,3. Originally *Ascodinium*, subsequently *Deflandrea*, thirdly (and now) *Senoniasphaera*. Age: late Oligocene.

"*tabulata*" Backhouse and Helby in Helby, 1987, p.317–319, figs.21A–G,22A–C,23. Holotype: Helby, 1987, figs.21A–B; Fensome et al., 1996, figs.1–2 — p.2395. **Taxonomic senior synonym:** *Muderongia simplex*, according to Riding et al. (2001), p.29. Age: Hauterivian.

turensis Vasilyeva in Andreeva-Grigorovich et al., 2011, p.34, pl.2, fig.6. Holotype: Andreeva-Grigorovich et al., 2011, pl.2, fig.6. Age: Danian.

turonica (Prössl, 1990, p.108–109, pl.16, figs.1–2,6–7 ex Prössl, 1992b, p.113–114) Pearce et al., 2011, p.92. Holotype: Prössl, 1990, pl.16, figs.1–2. Originally *Craspedodinium*, subsequently (and now) *Senoniasphaera*. Taxonomic junior synonym: *Senoniasphaera rotundata* subsp. *alveolata*, according to Pearce et al. (2011, p.92). Age: middle Cenomanian–late Turonian.

whitenessensis Prince et al., 2008, p.91, pl.1, figs.11–12. Holotype: Prince et al., 2008, pl.1, figs. 11–12. As the epithet was avowedly named after a place and not a person, the spelling is corrected here from *whitenessii* to *whitenessensis*. Age: late Santonian.

SENTUSIDINIUM Sarjeant and Stover, 1978, p.49–50. Emendation: Courtinat, 1989, p.192. Taxonomic senior synonym: *Batiacasphaera*, according to Dörrhöfer and Davies (1980, p.40) — however, Lentin and Williams (1981, p.24,253) retained *Sentusidinium*. Nomenclatural junior synonym: *Tenua* Davey, which has the same type. Type: Sarjeant, 1968, pl.1, fig.22; pl.2, fig.1, as *Tenua rioultii*.

"aptiense" (Burger, 1980a, p.76, pl.23, figs.1,5; pl.24, fig.1) Burger, 1980b, p.277. Holotype: Burger, 1980a, pl.23, fig.1; Fauconnier and Masure, 2004, pl.63, figs.11–13. **NOW** *Pilosidinium*. Originally *Tenua* Eisenack, subsequently *Sentusidinium*, thirdly *Batiacasphaera*, fourthly (and now) *Pilosidinium*. Taxonomic junior synonym: *Tenua* (as *Sentusidinium*) *microrobusta*, according to Backhouse (1988, p.107). Age: Aptian.

"asymmetricum" (Pocock, 1972, p.107, pl.26, figs.29–30) Jansonius, 1986, p.219. Holotype: Pocock, 1972, pl.26, fig.29; Fauconnier and Masure, 2004, pl.63, fig.15. **NOW** *Pilosidinium*. Originally *Leiosphaeridia* (Appendix A), subsequently *Sentusidinium*, thirdly (and now) *Pilosidinium*. Taxonomic junior synonym: *Sentusidinium* (as *Pilosidinium*) *fibrosum*, according to Courtinat in Fauconnier and Masure, 2004, p.447. Age: late Bajocian–early Bathonian.

"asymmetrum" (Fenton et al., 1980, p.160,162, pl.16, figs.1,3,5) Lentin and Williams, 1981, p.253. Holotype: Fenton et al., 1980, pl.16, fig.3. **NOW** *Pilosidinium*. Originally *Tenua* Eisenack, subsequently *Sentusidinium*, thirdly (and now) *Pilosidinium*. Age: late Bajocian.

"atlanticum" (Habib, 1972, p.375, pl.4, figs.2,5) Sarjeant and Stover, 1978, p.50. Holotype: Habib, 1972, pl.4, fig.2. **NOW** *Valvaeodinium*. Originally *Tenua* Eisenack, subsequently *Sentusidinium*?, thirdly *Fromea* (Appendix A), fourthly *Kylindrocysta*, fifthly (and now) *Valvaeodinium*. Questionable assignment: Sarjeant and Stover (1978, p.50). Taxonomic junior synonym: *Fromea complicata* (Appendix A), according to Davies (1983, p.31) — however, Jansonius (1989, p.65) retained *Fromea complicata*. Age: Callovian–Oxfordian.

"baculatum" (Dodekova, 1975, p.28–29, pl.6, figs.1–3; text-fig.7) Sarjeant and Stover, 1978, p.50. Holotype: Dodekova, 1975, pl.6, figs.1–3. **NOW** *Barbatacysta*. Originally *Tenua* Eisenack, subsequently *Sentusidinium*, thirdly (and now) *Barbatacysta*. Age: late Bathonian.

"bellulum" (Jiabo, 1978, p.51, pl.23, figs.14–16) Xu Jinli et al., 1997, p.46. Holotype: Jiabo, 1978, pl.23, fig.15. **NOW** *Batiacasphaera*? Originally *Tenua* Eisenack, subsequently *Kallosphaeridium*?, thirdly *Batiacasphaera*, fourthly (and now) *Batiacasphaera*?, fifthly *Sentusidinium*. Age: Early Tertiary.

?bifidum (Jiabo, 1978, p.51–52, pl.22, figs.7–16) He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.66–67, pl.16, figs.17–23. Holotype: Jiabo, 1978, pl.22, fig.8. Originally *Tenua* Eisenack, subsequently *Cleistosphaeridium*?, thirdly (and now) *Sentusidinium*. Questionable assignment: Xu Jinli et al. (1997, p.46); and Courtinat in Fauconnier and Masure (2004, p.486) as a problematic species. Islam (1993, p.87) also proposed this combination. Age: Early Tertiary.

biornatum (Jiabo, 1978, p.52, pl.22, figs.21–29; pl.23, figs.1–4) He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.67. Holotype: Jiabo, 1978, pl.22, fig.24. Originally *Tenua biornata*, subsequently *Kallosphaeridium biornatum* (combination not validly published), thirdly *Kallosphaeridium biparatum*, fourthly *Batiacasphaera biornata*, fifthly (and now) *Sentusidinium biornatum*. Lentin and Williams (1993, p.53) retained this species in *Batiacasphaera*, but He Chengquan et al. (2009, p.249) retained it in *Sentusidinium*. Age: Early Tertiary.

subsp. *biornatum*. Autonym. Holotype: Jiabo, 1978, pl.22, fig.24. Originally *Tenua biornata* subsp. *biornata*, subsequently *Kallosphaeridium biornatum* subsp. *biornatum* (combination not validly published), thirdly *Kallosphaeridium biparatum* subsp. *biparatum*, fourthly *Batiacasphaera biornata* subsp. *biornata*, fifthly (and now) *Sentusidinium biornatum* subsp. *biornatum*.

"subsp. *conspiculum*" Liu Zhili and Zheng Yuefang in Liu Zhili et al., 1992, p.84–85, pl.9, figs.10–11. Holotype: Liu Zhili et al., 1992, pl.9, fig.11. **NOW** *Batiacasphaera conspicula*. Originally *Sentusidinium biornatum* subsp. *conspiculum*, subsequently *Batiacasphaera biornata* subsp. *conspicula*, thirdly (and now) *Batiacasphaera conspicula*. Age: Early Tertiary.

subsp. *crassum* (Jiabo, 1978, p.52, pl.23, figs.1–4) He Chengquan et al., 2009, p. 250. Holotype: Jiabo, 1978, pl.23, fig.3. Originally *Tenua biornata* subsp. *crassa*, subsequently *Kallosphaeridium biornatum* subsp. *crassum* (combination not validly published), thirdly *Kallosphaeridium biparatum* subsp. *crassum*, fourthly *Batiacasphaera biornata* subsp. *crassa*, fifthly (and now) *Sentusidinium biornatum* subsp. *crassum*. He Chengquan et al. (2009, p.250) implied that this combination was proposed by He Chengquan et al. (1989, p.67), but we have been unable to verify this. Age: Early Tertiary.

"*brachyspinosum*" Zheng Yuefang and Liu Xuexian in Liu Zhili et al., 1992, p.85, pl.18, figs.12–17. Holotype: Liu Zhili et al., 1992, pl.18, fig.16. **NOW** *Batiacasphaera*. Originally *Sentusidinium*, subsequently (and now) *Batiacasphaera*. Age: Early Tertiary.

"*brevispinosum*" Courtinat in Courtinat and Gaillard, 1980, p.60, pl.9, figs.4,7,11; text-fig.10e. Holotype: Courtinat and Gaillard, 1980, pl.9, fig.7; Fauconnier and Masure, 2004, pl.11, fig.1. **NOW** *Barbatacysta*. Originally *Sentusidinium*, subsequently (and now) *Barbatacysta*. Taxonomic junior synonym: *Barbatacysta lemoignei*, according to Courtinat in Fauconnier and Masure (2004, p.83). Junior homonym: *Sentusidinium? brevispinosum* (Jain and Millepied, 1975) Islam, 1993. Age: late Oxfordian.

"*?brevispinosum*" (Jain and Millepied, 1975, p.150, pl.5, figs.80–82) Islam, 1993, p.87. Holotype: Jain and Millepied, 1975, pl.5, figs.80–81; Fauconnier and Masure, 2004, pl.69, fig.6. **Combination illegitimate — senior homonym:** *Sentusidinium brevispinosum* Courtinat in Courtinat and Gaillard, 1980. **Substitute name:** *Sentusidinium? millepiedii*. Originally *Cleistosphaeridium? brevispinosum*, subsequently *Sentusidinium brevispinosum* (combination illegitimate), thirdly *Sentusidinium? brevispinosum* (combination illegitimate), fourthly (and now) *Sentusidinium? millepiedii*. Questionable assignment: Courtinat in Fauconnier and Masure (2004, p.486) as a problematic species. Age: Aptian.

"*capillatum*" (Davey, 1975, p.155–156, pl.2, figs.4,7) Lentin and Williams, 1981, p.253. Holotype: Davey, 1975, pl.2, fig.7. **NOW** *Pilosidinium*. Originally *Tenua* Eisenack, subsequently *Sentusidinium*, thirdly (and now) *Pilosidinium*. Age: Senonian, ?Campanian.

conispinosum Xu Jinli et al., 1997, p.47, pl.34, figs.6a–b; pl.35, figs.14a–b,16a–b; pl.36, figs.15a–b ex He Chengquan et al., 2009, p.662. Holotype: Xu Jinli et al., 1997, pl.35, figs.16a–b. The name was not validly published in Xu Jinli et al. (1997), since they did not provide an English or a Latin description: He Chengquan et al. (2009, p.662) validated it by publishing a diagnosis in English. Age: Oligocene.

"*creberbarbatum*" Erkmén and Sarjeant, 1980, p.52–54, text-fig.2. Holotype: Fensome, 1979, pl.1, fig.3 (as *Sentusidinium pilosum*); Erkmén and Sarjeant, 1980, text-fig.2. **NOW** *Barbatacysta*. Originally *Sentusidinium*, subsequently (and now) *Barbatacysta*. Taxonomic junior synonym: *Sentusidinium parvum*, according to Courtinat in Fauconnier and Masure (2004, p.83–84). Age: Oxfordian–Kimmeridgian.

"*?cuculliforme*" Davies, 1983, p.29, pl.10, figs.1–4; text-fig.26. Holotype: Davies, 1983, pl.10, figs.3–4; Fauconnier and Masure, 2004, pl.69, figs.1–3. Originally *Sentusidinium*, subsequently *Sentusidinium?*, thirdly *Cyclonephelium*. Questionable assignment: Courtinat (1989, p.192). **Taxonomic senior synonym:** *Cleistosphaeridium* (now *Sentusidinium*) *separatum*, according to Courtinat in Fauconnier and Masure (2004, p.486). Courtinat in Fauconnier and Masure (2004, p.487) simultaneously considered this to be a problematic species of *Sentusidinium*. Age: Berriasian–Valanginian.

"densicomatum" (Maier, 1959, p.307–308, pl.29, figs.7–8) Sarjeant, 1983, p.111. Emendation: Sarjeant, 1983, p.111–113, as *Sentusidinium densicomatum*. Holotype: Maier, 1959, pl.29, fig.7. **NOW** *Pilosidinium*. Originally *Galea* (generic name illegitimate), subsequently *Baltisphaeridium* (Appendix A), thirdly *Impletosphaeridium*, fourthly *Impletosphaeridium?*, fifthly *Sentusidinium*, sixthly (and now) *Pilosidinium*. Age: middle Oligocene–middle Miocene.

"densispinum" He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.67, pl.17, figs.1–3. Holotype: He Chengquan et al., 1989, pl.17, fig.3. Age: Early Tertiary.

"echinatum" (Gitmez and Sarjeant, 1972, p.190, pl.1, figs.1,9) Sarjeant and Stover, 1978, p.50. Holotype: Gitmez and Sarjeant, 1972, pl.1, fig.1; Fauconnier and Masure, 2004, pl.63, fig.14. **NOW** *Pilosidinium*. Originally *Tenua* Eisenack, subsequently *Sentusidinium*, thirdly *Batiacasphaera*, fourthly (and now) *Pilosidinium*. Age: early–late Kimmeridgian.

"eisenackii" (Boltenhagen, 1977, p.56–58, pl.5, figs.5a–b,6a–b,7a–b,8a–b) Lentin and Williams, 1981, p.253. Holotype: Boltenhagen, 1977, pl.5, figs.5a–b; Fauconnier and Masure, 2004, pl.69, fig.4. Originally *Tenua* Eisenack, subsequently (and now) *Sentusidinium*. Taxonomic junior synonym: *Sentusidinium spiculatum*, according to Courtinat in Fauconnier and Masure (2004, p.485). Age: Cenomanian–Turonian.

subsp. **"eisenackii"**. Autonym. Holotype: Boltenhagen, 1977, pl.5, figs.5a–b; Fauconnier and Masure, 2004, pl.69, fig.4.

?subsp. **"vermiculatum"** (Boltenhagen, 1977, p.57–58, pl.5, figs.7a–b,8a–b) Lentin and Williams, 1981, p.253. Holotype: Boltenhagen, 1977, pl.5, figs.7a–b; Fauconnier and Masure, 2004, pl.70, fig.6. Originally *Tenua eisenackii* var. *vermiculata*, subsequently *Sentusidinium eisenackii* subsp. *vermiculatum*, thirdly (and now) *Sentusidinium eisenackii?* subsp. *vermiculatum*. Questionable assignment: Courtinat in Fauconnier and Masure (2004, p.487) as a problematic taxon. Age: Cenomanian–Turonian.

"erythrocomum" Erkmen and Sarjeant, 1980, p.56,58, pl.2, fig.11; pl.3, figs.1–6,8–11; pl.4, fig.5; text-fig.5. Holotype: Erkmen and Sarjeant, 1980, pl.4, fig.5; Fauconnier and Masure, 2004, pl.69, fig.7. Age: late Callovian.

?**"fibrillosum"** Backhouse, 1988, p.107–108, pl.41, figs.3a–b,4a–b,5a–b,6. Holotype: Backhouse, 1988, pl.41, figs.4a–b; Fensome et al., 1996, figs.3–4 — p.2123; Fauconnier and Masure, 2004, pl.70, figs.7–8. Questionable assignment: Backhouse (1988, p.107). Age: late Valanginian–Hauterivian.

"fibrosum" Kumar, 1987a, p.243–244, pl.1, figs.5,7–8,11; text-fig.6. Holotype: Kumar, 1987a, pl.1, fig.5. Originally *Sentusidinium*, subsequently *Pilosidinium* (combination not validly published). **Taxonomic senior synonym:** *Leiosphaeridia* (now *Pilosidinium*) *asymmetrica*, according to Courtinat in Fauconnier and Masure (2004, p.447,449). Age: early Kimmeridgian–Tithonian.

"filiatum" Davies, 1983, p.29–30, pl.10, figs.5–6,8–9; text-fig.27. Holotype: Davies, 1983, pl.10, fig.8; Fauconnier and Masure, 2004, pl.64, figs.2–3. **NOW** *Pilosidinium*. Originally *Sentusidinium*, subsequently (and now) *Pilosidinium*. Age: late Oxfordian–Valanginian.

"fungosum" Harding, 1990b, p.43–44, pl.25, figs.1–9 ex Harding in Williams et al., 1998, p.557. Holotype: Harding, 1990b, pl.25, fig.1. Originally *Cleistosphaeridium* (name not validly published), subsequently (and now) *Sentusidinium*. The name *Cleistosphaeridium fungosum* was not validly published in Harding (1990b) since the lodgment of the holotype was not specified. Age: early Barremian.

"granulatum" (Courtinat in Courtinat and Gaillard, 1980, p.13–14, pl.1, figs.4,6; text-fig.2b) Brenner, 1988, p.80. Holotype: Courtinat and Gaillard, 1980, pl.1, fig.6. **NOW** *Escharisphaeridia*. Originally *Chytroeisphaeridia*, subsequently (and now) *Escharisphaeridia*, thirdly *Sentusidinium*. Age: late Oxfordian.

"hexagonale" Kumar, 1986b, p.400–401, pl.1, figs.5,7; text-fig.10. Holotype: Kumar, 1986b, pl.1, fig.5. **Taxonomic senior synonym:** *Sentusidinium sparsibarbatum*, according to Courtinat in Fauconnier and Masure

(2004, p.486). Courtinat in Fauconnier and Masure (2004, p.487) simultaneously considered this to be a problematic species of *Sentusidinium*. Age: early Kimmeridgian–Tithonian.

"*microcystum*" (Bujak in Bujak et al., 1980, p.88,90, pl.22, figs.2–5) Islam, 1993, p.88. Holotype: Bujak et al., 1980, pl.22, figs.2–3; Fauconnier and Masure, 2004, pl.64, figs.4–5. **NOW** *Pilosidinium*. Originally *Tenua* Eisenack, subsequently *Cleistosphaeridium*, thirdly *Sentusidinium*, fourthly (and now) *Pilosidinium*. Age: middle Eocene (see Aubry, 1986).

"*microrobustum*" (Morgan, 1980, p.33, pl.29, figs.15–16) Lentin and Williams, 1985, p.321. Holotype: Morgan, 1980, pl.29, figs.15–16. Originally *Tenua* Eisenack, subsequently *Sentusidinium*. **Taxonomic senior synonym:** *Tenua* (as *Batiacasphaera*, now *Pilosidinium*) *aptiensis*, according to Backhouse (1988, p.107). Courtinat in Fauconnier and Masure (2004, p.487) simultaneously considered this to be a problematic species of *Sentusidinium*. Age: late Neocomian–late Albian.

?*millepedii* Fensome and Williams, 2004, p.601. Substitute name for *Sentusidinium? brevispinosum* (Jain and Millepied, 1975, p.150, pl.5, figs.80–82) Islam, 1993, p.87. Holotype: Jain and Millepied, 1975, pl.5, figs.80–81; Fauconnier and Masure, 2004, pl.69, fig.6. Originally *Cleistosphaeridium? brevispinosum*, subsequently *Sentusidinium brevispinosum* (combination illegitimate), thirdly *Sentusidinium? brevispinosum* (combination illegitimate), fourthly (and now) *Sentusidinium? millepedii*. Questionable assignment: Courtinat in Fauconnier and Masure (2004, p.486), who considered *Sentusidinium brevispinosum* (Jain and Millepied) to be a problematic species. Age: Aptian.

minus (Jiabo, 1978, p.52–53, pl.23, figs.5–7) He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.68. Holotype: Jiabo, 1978, pl.23, fig.5. Originally *Tenua hystrix* subsp. *minor*, subsequently *Kallosphaeridium? minus*, thirdly *Batiacasphaera minor* (combination illegitimate), fourthly *Batiacasphaera sinensis*, fifthly *Batiacasphaera jiaboi* (name not validly published), sixthly (and now) *Sentusidinium minus*. Lentin and Williams (1993, p.56) retained this species in *Batiacasphaera*, but He Chengquan et al. (2009, p.251) retained it in *Sentusidinium*. Age: Early Tertiary.

minutum He Chengquan, 1991, p.59, pl.15, fig.4. Holotype: He Chengquan, 1991, pl.15, fig.4. Age: late Senonian–early Eocene.

"*myriatrichum*" Fensome, 1979, p.12–13, pl.2, fig.7; text-fig.5A. Holotype: Fensome, 1979, pl.2, fig.7; text-fig.5A; Fauconnier and Masure, 2004, pl.63, fig.16. **NOW** *Pilosidinium*. Originally *Sentusidinium*, subsequently (and now) *Pilosidinium*. Age: late Oxfordian–mid Kimmeridgian.

"?*neophytensum*" (Ioannides et al., 1977, p.463, pl.5, figs.5,8–9) Sarjeant and Stover, 1978, p.50. Holotype: Ioannides et al., 1977, pl.5, fig.5. **NOW** *Pilosidinium*. Originally *Tenua* Eisenack, subsequently *Sentusidinium?*, thirdly (and now) *Pilosidinium*. Questionable assignment: Sarjeant and Stover (1978, p.50). Age: middle Kimmeridgian.

"*ornatum*" Courtinat in Courtinat and Gaillard, 1980, p.61–62, pl.9, figs.2–3,5; text-fig.10a. Holotype: Courtinat and Gaillard, 1980, pl.9, fig.2; Fauconnier and Masure, 2004, pl.28, figs.5–10. Originally *Sentusidinium*, subsequently *Epiplosphaera*. **Taxonomic senior synonym:** *Epiplosphaera reticulospinosa*, according to Courtinat (1989, p.176). Age: late Oxfordian.

?*panshanense* (Jiabo, 1978, p.63, pl.22, figs.1–6) Islam, 1993, p.88. Holotype: Jiabo, 1978, pl.22, fig.1. Originally *Cleistosphaeridium*, subsequently (and now) *Sentusidinium*. Questionable assignment: Courtinat in Fauconnier and Masure (2004, p.487) as a problematic species. Age: Early Tertiary.

"*parvum*" Kunz, 1990, p.33–34, pl.8, figs.14a–c,15a–c,16a–b; text-fig.11. Holotype: Kunz, 1990, pl.8, figs.14a–c; text-fig.11. Originally *Sentusidinium*, subsequently *Barbatacysta* (name not validly published). **Taxonomic senior synonym:** *Sentusidinium* (now *Barbatacysta*) *creberbarbatum*, according to Courtinat in Fauconnier and Masure (2004, p.83–84). Age: late Oxfordian.

"*pelionense*" Fensome, 1979, p.13–15, pl.1, figs.5–9; text-fig.5B. Holotype: Fensome, 1979, pl.1, figs.5,7; text-fig.5B; Fauconnier and Masure, 2004, pl.11, fig.4. **NOW** *Barbatacysta*. Originally *Sentusidinium*, subsequently (and now) *Barbatacysta*. Age: Bajocian–Bathonian.

perforoconum (Yun Hyesu, 1981, p.43, pl.15, figs.1–4) Islam, 1993, p.88. Holotype: Yun Hyesu, 1981, pl.15, fig.4; Fensome et al., 1991, fig.4 — p.707; Fauconnier and Masure, 2004, pl.70, figs.2–3. Originally *Cleistosphaeridium*, subsequently (and now) *Sentusidinium*. Age: early Santonian.

"*pilosum*" (Ehrenberg, 1854, pl.37, section 8, fig.4) Sarjeant and Stover, 1978, p.50. Emendation: Erkmen and Sarjeant, 1980, p.51, as *Sentusidinium pilosum*. Holotype: Ehrenberg, 1854, pl.37, section 8, fig.4. **NOW** *Barbatacysta pilosa*. Originally *Xanthidium pilosum* (Appendix A), subsequently *Hystrichosphaera pilosa* (combination not validly published), thirdly *Hystrichosphaeridium? pilosum*, fourthly *Baltisphaeridium pilosum* (Appendix A), fifthly *Ovum hispidum* subsp. *pilosum* (combination not validly published; Appendix A), sixthly *Cleistosphaeridium pilosum* (combination not validly published), seventhly *Tenua pilosa*, eighthly *Sentusidinium pilosum*, ninthly *Batiacasphaera pilosa*, tenthly (and now) *Barbatacysta pilosa*. Age: Oxfordian.

"forma ?*nanus*" Wetzel, 1933b, p.43, pl.4, fig.23; text-fig.13 ex Lentin and Williams, 1985, p.322. Emendation: Sarjeant, 1985b, p.145, as *Prolixosphaeridium nanus*. Holotype: Wetzel, 1933b, pl.4, fig.23; Sarjeant, 1985b, pl.2, figs.6–7. **NOW** *Prolixosphaeridium? nanus*. Originally *Hystrichosphaera pilosa* forma *nanus* (name not validly published), subsequently *Sentusidinium pilosum?* subsp. *nanus*, thirdly *Prolixosphaeridium nanus*, fourthly (and now) *Prolixosphaeridium? nanus*. Questionable assignment: Lentin and Williams (1985, p.322). The name *Hystrichosphaera pilosa* forma *nanus* was not validly published in Wetzel (1933b) since the species combination *Hystrichosphaera pilosa* was not validly published. N.I.A. Age: Late Cretaceous.

"forma *pilosum*". Autonym. Holotype: Ehrenberg, 1854, pl.37, section 8, no.4. **Now redundant**. Originally *Hystrichosphaera pilosa* forma *pilosa*, subsequently *Sentusidinium pilosum* forma *pilosum*.

qingzangense He Chengquan et al., 2005a, p.64–65,250, pl.21, figs.13–15. Holotype: He Chengquan et al., 2005a, pl.21, fig.15. Age: Late Jurassic (Kimmeridgian according to He Chengquan et al., 2009, p.253).

reticuloides Xu Jinli et al., 1997, p.47, pl.16, figs.3–4; pl.17, figs.3–4; pl.18, figs.12–15; pl.19, figs.7–9 ex He Chengquan et al., 2009, p.662. Holotype: Xu Jinli et al., 1997, pl.18, fig.12. This name (as *Sentusidinium reticuloidum*) was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.662) validated the name by publishing an English diagnosis. Age: middle-late Eocene.

**rioultii* (Sarjeant, 1968, p.231, pl.1, figs.12,22; pl.2, figs.1–2,4) Sarjeant and Stover, 1978, p.50. Emendation: Courtinat, 1989, p.192, as *Sentusidinium rioultii*. Holotype: Sarjeant, 1968, pl.1, fig.22; pl.2, fig.1; Eisenack and Kjellström, 1972, figure to left — p.1043; Fensome et al., 1995, fig.1 — p.1743; Fauconnier and Masure, 2004, pl.70, fig.4. Originally *Tenua* Eisenack, subsequently *Batiacasphaera*, thirdly (and now) *Sentusidinium*, fourthly *Tenua* Davey (combination illegitimate). Age: late Callovian.

separatum (McIntyre and Brideaux, 1980, p.19–20, pl.6, figs.4–5,7–8) Lentin and Williams, 1981, p.254. Holotype: McIntyre and Brideaux, 1980, pl.6, figs.4–5. Originally *Cleistosphaeridium*, subsequently (and now) *Sentusidinium*. Taxonomic junior synonym: *Sentusidinium cuculliforme*, according to Courtinat in Fauconnier and Masure (2004, p.486). Age: Valanginian.

shenxianense He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.68, pl.17, figs.6–10; text-fig.10. Holotype: He Chengquan et al., 1989, pl.17, fig.7; text-fig.10. Age: Early Tertiary.

sparsibarbatum Erkmen and Sarjeant, 1980, p.54–56, pl.2, figs.2–8; pl.6, fig.9; text-figs.4a–c. Holotype: Erkmen and Sarjeant, 1980, pl.6, fig.9; text-fig.4a; Fauconnier and Masure, 2004, pl.69, fig.8; pl.70, fig.1. Taxonomic junior synonym: *Sentusidinium hexagonale*, according to Courtinat in Fauconnier and Masure (2004, p.486). Age: Callovian.

spatiosum Dodekova, 1994, p.33, pl.5, figs.6–8,11. Holotype: Dodekova, 1994, pl.5, figs.7–8. Age: early to middle Tithonian.

"*spiculatum*" Yu Jingxian and Zhang Wangping, 1980, p.107, pl.1, figs.15–16. Holotype: Yu Jingxian and Zhang Wangping, 1980, pl.1, fig.16. **Taxonomic senior synonym:** *Sentusidinium eisenackii*, according to Courtinat in Fauconnier and Masure (2004, p.485). Courtinat in Fauconnier and Masure (2004, p.487) simultaneously considered this to be a problematic species of *Sentusidinium*. Age: Campanian–Maastrichtian.

stipulatum Mao Shaozhi and Norris, 1988, p.40–41, pl.8, figs.21–22. Holotype: Mao Shaozhi and Norris, 1988, pl.8, fig.22. Age: late Eocene–early Oligocene.

"?*varispinosum*" (Sarjeant, 1959, p.338–340, pl.13, fig.7; text-fig.6) Sarjeant and Stover, 1978, p.50. Holotype: Sarjeant, 1959, pl.13, fig.7; text-fig.6; Fauconnier and Masure, 2004, pl.49, fig.8. **NOW** *Impletosphaeridium*. Originally *Baltisphaeridium* (Appendix A), subsequently *Tenua* Eisenack, thirdly *Sentusidinium*, fourthly *Sentusidinium?*, fifthly *Cleistosphaeridium*, sixthly (and now) *Impletosphaeridium*. Questionable assignment: Stover and Evitt (1978, p.81). Age: early Callovian.

"?*verrucatum*" Xu Jinli et al., 1997, p.47, pl.35, figs.12a–b,13a–b,15a–b,16a–b,17–20,21a–b. Holotype: Xu Jinli et al., 1997, pl.35, figs.15a–b. **Name not validly published:** no English or Latin description. **NOW** *Batiacasphaera*. Originally *Sentusidinium?* (name not validly published), subsequently (and now) *Batiacasphaera*. Questionable assignment: Xu Jinli et al. (1997, p.47). Age: Oligocene.

"*verrucosum*" (Sarjeant, 1968, p.232, pl.1, fig.17; pl.2, figs.3,6) Sarjeant and Stover, 1978, p.50. Holotype: Sarjeant, 1968, pl.1, fig.17; pl.2, figs.3,6; Fauconnier and Masure, 2004, pl.11, figs.2–3. **NOW** *Barbatacysta*. Originally *Tenua* Eisenack, subsequently *Batiacasphaera*, thirdly *Sentusidinium*, fourthly (and now) *Barbatacysta*. Age: late Callovian.

villersense (Sarjeant, 1968, p.231–232, pl.1, fig.16; pl.2, figs.5–10) Sarjeant and Stover, 1978, p.50. Holotype: Sarjeant, 1968, pl.1, fig.16; Fauconnier and Masure, 2004, pl.70, fig.5. Originally *Tenua* Eisenack, subsequently *Batiacasphaera*, thirdly (and now) *Sentusidinium*. Age: early Callovian–early Oxfordian.

SEPISPINULA Islam, 1993, p.88. Taxonomic senior synonym: *Chlamydophorella*, by implication in Schiøler and Wilson (1998, p.328), who considered the type, *Sepispinula ancorifera*, to be a taxonomic junior synonym of *Chlamydophorella ambigua* — however, Masure in Fauconnier and Masure (2004, p.499) retained *Sepispinula*. Type: Cookson and Eisenack, 1960a, pl.2, fig.11, as *Hystrichosphaeridium ancoriferum*.

?*ambigua* (Deflandre, 1937b, p.81, pl.16 [al. pl.13], figs.8–9) Masure in Fauconnier and Masure, 2004, p.500. Holotype: Deflandre, 1937b, pl.16 (al. pl.13), fig.8; Fauconnier and Masure, 2004, pl.71, figs.6–7. Originally *Micrhystridium* (Appendix A), subsequently *Cleistosphaeridium*, thirdly *Polysphaeridium*, fourthly *Chlamydophorella*, fifthly *Dapsilidinium*, sixthly *Gorgonisphaeridium* (Appendix A), seventhly *Sepispinula?*. Taxonomic junior synonyms: *Hystrichosphaeridium* (now *Sepispinula?*) *huguoniotii*, according to Clarke and Verdier (1967, p.54) and *Hystrichosphaeridium* (now *Sepispinula*) *ancoriferum*, both according to Yun Hyesu (1981, p.44) and Schiøler and Wilson (1998, p.328) — however, Masure in Fauconnier and Masure (2004, p.499–500) retained *Hystrichosphaeridium* (as and now *Sepispinula*) *ancoriferum* and *Hystrichosphaeridium* (as and now *Sepispinula?*) *huguoniotii*. Questionable assignment: Masure in Fauconnier and Masure (2004, p.500) as a problematic species. Age: Late Cretaceous.

**ancorifera* (Cookson and Eisenack, 1960a, p.8, pl.2, fig.11) Islam, 1993, p.88. Emendation: Cookson and Eisenack, 1968, p.119–120, as *Cleistosphaeridium ancoriferum*. Holotype: Cookson and Eisenack, 1960a, pl.2, fig.11. Originally *Hystrichosphaeridium*, subsequently *Cleistosphaeridium*, thirdly (and now) *Sepispinula*. Taxonomic senior synonym: *Micrhystridium* (as *Polysphaeridium*, now *Sepispinula?*) *ambiguum*, according to Yun Hyesu (1981, p.44) and Schiøler and Wilson (1998, p.328) — however, Masure in Fauconnier and Masure (2004, p.499) retained *Sepispinula ancorifera*. Taxonomic senior synonym: *Hystrichosphaeridium* (now *Sepispinula?*) *huguoniotii*, according to Clarke and Verdier (1967, p.54) — however, Masure in Fauconnier and Masure (2004, p.499) retained *Sepispinula ancorifera*. Age: Albian–Cenomanian.

?*huguoniotii* (Valensi, 1955a, p.38–39, text-fig.2a) Islam, 1993, p.88. Holotype: Valensi, 1955a, text-fig.2a; Fauconnier and Masure, 2004, pl.72, figs.1–3. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Cleistosphaeridium*, fourthly *Cleistosphaeridium?*, fifthly *Chlamydophorella*, sixthly *Sepispinula*, seventhly (and now) *Sepispinula?*. Questionable assignment: Masure in Fauconnier and Masure (2004, p.500) as a problematic species. Taxonomic senior synonym: *Micrhystridium* (as *Polysphaeridium*, now *Sepispinula?*) *ambiguum*, according to Yun Hyesu (1981, p.44) and Schiøler and Wilson (1998, p.328) — however, Masure in Fauconnier and Masure (2004, p.500) retained *Hystrichosphaeridium* (as and now *Sepispinula?*) *huguoniotii*. Taxonomic junior synonym: *Hystrichosphaeridium* (now *Sepispinula*) *ancoriferum*, according to Clarke and Verdier (1967, p.54) — however, Masure in Fauconnier and Masure (2004, p.499) retained *Hystrichosphaeridium* (as and now *Sepispinula*) *ancoriferum*. Age: Late Cretaceous.

"subsp. *huguoniotii*". Autonym. Holotype: Valensi, 1955a, text-fig.2a; Fauconnier and Masure, 2004, pl.72, figs.1–3. **Now redundant**. Originally *Cleistosphaeridium huguoniotii* subsp. *huguoniotii*, subsequently *Cleistosphaeridium? huguoniotii* subsp. *huguoniotii*, thirdly *Sepispinula huguoniotii* subsp. *huguoniotii*.

"subsp. *pertusa*" (Davey, 1969a, p.156–157, pl.7, figs.6–7,9) Islam, 1993, p.88. Holotype: Davey, 1969a, pl.7, fig.7. **NOW** *Sepispinula pertusa*. Originally *Cleistosphaeridium huguoniotii* var. *pertusum*, subsequently *Cleistosphaeridium huguoniotii* subsp. *pertusum*, thirdly *Cleistosphaeridium? huguoniotii* subsp. *pertusum*, fourthly *Dapsilidinium ambiguum* subsp. *pertusum*, fifthly *Sepispinula huguoniotii* subsp. *pertusa*, sixthly (and now) *Sepispinula pertusa*. Age: late Cenomanian.

pertusa (Davey, 1969a, p.156–157, pl.7, figs.6–7,9) Masure in Fauconnier and Masure, 2004, p.499. Holotype: Davey, 1969a, pl.7, fig.7. Originally *Cleistosphaeridium huguoniotii* var. *pertusum*, subsequently *Cleistosphaeridium huguoniotii* subsp. *pertusum*, thirdly *Cleistosphaeridium? huguoniotii* subsp. *pertusum*, fourthly *Dapsilidinium ambiguum* subsp. *pertusum*, fifthly *Sepispinula huguoniotii* subsp. *pertusum*, sixthly (and now) *Sepispinula pertusa*. Age: late Cenomanian.

"?*regulatum*" (Zhou Heyi, 1985, p.7, pl.1, figs.16–17,19–21) Masure in Fauconnier and Masure, 2004, p.499. Holotype: Zhou Heyi, 1985, pl.1, fig.16. **NOW** *Cleistosphaeridium*. Originally (and now) *Cleistosphaeridium*, subsequently *Impletosphaeridium*, thirdly *Sepispinula?*. Questionable assignment: Masure in Fauconnier and Masure (2004, p.499). Age: middle Oligocene.

?*tenu* (Harris, 1974, p.164, pl.2, figs.7–9) Masure in Fauconnier and Masure, 2004, p.499. Holotype: Harris, 1974, pl.2, figs.8–9. Originally *Cleistosphaeridium*, subsequently *Impletosphaeridium*, thirdly (and now) *Sepispinula?*. Questionable assignment: Masure in Fauconnier and Masure (2004, p.499). Age: Paleocene.

SEPTIAREATA Kienel, 1994, p.55. Calcareous dinoflagellate genus (see Streng et al., 2004, p.483 and Elbrächter et al., 2008, p.1301, the latter noting that the cyst wall is pithonelloid and so a dinoflagellate affinity is questionable). Type: Kienel, 1994, pl.15, figs.10–14, as *Septiareata pyramiforma*.

**pyramiforma* Kienel, 1994, p.55–56, pl.15, figs.9–15. Holotype: Kienel, 1994, pl.15, figs.10–14. Age: late Maastrichtian.

SERILIODINIUM Eaton, 1996, p.152–153. Type: Eaton, 1996, pl.1, figs.1–2; text-figs.2A–B,5A–B, as *Seriliodinium explicatum*.

**explicatum* Eaton, 1996, p.153,155–157,159,161,163,166, pl.1, figs.1–6; pl.2, figs.1–6; pl.3, figs.1–6; pl.4, figs.1–8; text-figs.2A–D,3A–D,4A–D,5A–H,6A–D,7A–C. Holotype: Eaton, 1996, pl.1, figs.1–2; text-figs.2A–B,5A–B. Age: Pliocene–Pleistocene.

SHANDONGIDIUM Xu Jinli et al., 1997, p.54,147–148. Type: Xu Jinli et al., 1997, pl.4, figs.6a–b, as *Shandongidium ellipticum*.

baculatum Xu Jinli et al., 1997, p.56, pl.5, figs.2–3; pl.52, figs.3a–b ex He Chengquan et al., 2009, p.663. Holotype: Xu Jinli et al., 1997, pl.5, fig.3. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.663) validated the name by publishing an English diagnosis. Age: middle-late Eocene.

bellulum Xu Jinli et al., 1997, p.56, pl.5, figs.1a–b,4a–c; pl.51, figs.1a–b,4 ex He Chengquan et al., 2009, p.663. Holotype: Xu Jinli et al., 1997, pl.5, figs.4a–c. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.663) validated the name by publishing an English diagnosis. Age: middle-late Eocene.

***ellipticum** Xu Jinli et al., 1997, p.55,148, pl.4, figs.6a–b,7a–b,8a–b,9a–b,10a–b,11a–b; pl.50, figs.1–4; pl.51, figs.2,3a–b; text-fig.3. Holotype: Xu Jinli et al., 1997, pl.4, figs.6a–b. Age: middle-late Eocene.

helimithoideum Xu Jinli et al., 1997, p.56–57, pl.5, figs.6–7 ex He Chengquan et al., 2009, p.364–365,664. Holotype: Xu Jinli et al., 1997, pl.5, fig.6. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.664) validated the name by publishing an English diagnosis. Age: middle-late Eocene.

retirugosum Xu Jinli et al., 1997, p.57, pl.6, figs.3–4,5a–b,8 ex He Chengquan et al., 2009, p.664. Holotype: Xu Jinli et al., 1997, pl.6, fig.8. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.664) validated the name by publishing an English diagnosis. Age: middle-late Eocene.

variabile Xu Jinli et al., 1997, p.57, pl.5, fig.5; pl.52, figs.2a–b; pl.53, figs.1a–c ex He Chengquan et al., 2009, p.365,665. Holotype: Xu Jinli et al., 1997, pl.5, fig.5. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.665) validated the name by publishing an English diagnosis. Age: middle-late Eocene.

"**SHUBLIKODINIUM**" Wiggins, 1973, p.2–4. Emendation: Stover and Helby, 1987a, p.118–119, as a revised description. **Taxonomic senior synonym:** *Rhaetogonyaulax*, according to Stover and Evitt (1978, p.218) and Lentin and Williams (1989, p.338). Type: Wiggins, 1973, pl.1, figs.1–2, as *Shublikodinium arcticum*.

"**acanthocomum**" Wiggins, 1973, p.5, pl.4, figs.5–6. Holotype: Wiggins, 1973, pl.4, figs.5–6. **Taxonomic senior synonym:** *Shublikodinium* (as and now *Rhaetogonyaulax*) *arcticum*, according to Stover and Evitt (1978, p.219). Age: Late Triassic.

"***arcticum**" Wiggins, 1973, p.4, pl.1, figs.1–14; pl.2, figs.1–9; text-figs.2a–d. Emendation: Below, 1987a, p.103–105, as *Rhaetogonyaulax arctica*. Holotype: Wiggins, 1973, pl.1, figs.1–2. **NOW** *Rhaetogonyaulax*. Originally *Shublikodinium*, subsequently (and now) *Rhaetogonyaulax*. Taxonomic junior synonyms: *Shublikodinium acanthocomum*, *Shublikodinium armatum*, *Shublikodinium setigerum*, *Shublikodinium spinulosum*, *Shublikodinium verrucosum*, and (at specific rank) *Shublikodinium verrucosum* subsp. *exculptum*, all according to Stover and Evitt (1978, p.219). Age: Carnian.

"subsp. **arcticum**". Autonym. Holotype: Wiggins, 1973, pl.1, figs.1–2. **NOW** *Rhaetogonyaulax arctica* subsp. *arctica*. Originally *Shublikodinium arcticum* subsp. *arcticum*, subsequently (and now) *Rhaetogonyaulax arctica* subsp. *arctica*.

"var. **arcticum**". Autonym. Holotype: Wiggins, 1973, pl.1, figs.1–2. **Now redundant.**

"subsp. **maculatum**" (Wiggins, 1973, p.4–5, pl.2, figs.10–12) Lentin and Williams, 1973, p.125. Holotype: Wiggins, 1973, pl.2, fig.10. **NOW** *Rhaetogonyaulax arctica* subsp. *maculata*. Originally *Shublikodinium*

arcticum var. *maculatum*, subsequently *Shublikodinium arcticum* subsp. *maculatum*, thirdly (and now) *Rhaetogonyaulax arctica* subsp. *maculata*. Age: Carnian.

"var. **maculatum**" Wiggins, 1973, p.4–5, pl.2, figs.10–12. Holotype: Wiggins, 1973, pl.2, fig.10. **NOW** *Rhaetogonyaulax arctica* subsp. *maculata*. Originally *Shublikodinium arcticum* var. *maculatum*, subsequently *Shublikodinium arcticum* subsp. *maculatum*, thirdly (and now) *Rhaetogonyaulax arctica* subsp. *maculata*. Age: Carnian.

"**armatum**" Wiggins, 1973, p.6, pl.5, fig.1. Holotype: Wiggins, 1973, pl.5, fig.1. **Taxonomic senior synonym:** *Shublikodinium* (as and now *Rhaetogonyaulax*) *arcticum*, according to Stover and Evitt (1978, p.219). Age: Late Triassic.

"**dilatatum**" Wiggins, 1973, p.6, pl.5, figs.3–4. Holotype: Wiggins, 1973, pl.5, fig.3. **NOW** *Rhaetogonyaulax*. Originally *Shublikodinium*, subsequently (and now) *Rhaetogonyaulax*. Taxonomic junior synonyms: *Shublikodinium echinoverrucatum*, *Shublikodinium granulatum*, and *Shublikodinium scaberrimum*, all according to Stover and Evitt (1978, p.219). Age: Carnian.

"**echinoverrucatum**" Wiggins, 1973, p.6–7, pl.5, figs.5–6. Holotype: Wiggins, 1973, pl.5, fig.5. **Taxonomic senior synonym:** *Shublikodinium* (as and now *Rhaetogonyaulax*) *dilatatum*, according to Stover and Evitt (1978, p.219). Age: Late Triassic.

"**granulatum**" Wiggins, 1973, p.6, pl.5, fig.2. Holotype: Wiggins, 1973, pl.5, fig.2. **Taxonomic senior synonym:** *Shublikodinium* (as and now *Rhaetogonyaulax*) *dilatatum*, according to Stover and Evitt (1978, p.219). Age: Late Triassic.

"**scaberrimum**" Wiggins, 1973, p.7, pl.5, fig.6. Holotype: Wiggins, 1973, pl.5, fig.6. **Taxonomic senior synonym:** *Shublikodinium* (as *Rhaetogonyaulax*) *dilatatum*, according to Stover and Evitt (1978, p.219). Age: Late Triassic.

"**setigerum**" Wiggins, 1973, p.5–6, pl.4, figs.10–11. Holotype: Wiggins, 1973, pl.4, figs.10–11. **Taxonomic senior synonym:** *Shublikodinium* (as and now *Rhaetogonyaulax*) *arcticum*, according to Stover and Evitt (1978, p.219). Age: Late Triassic.

"**spinulosum**" Wiggins, 1973, p.5, pl.4, figs.7–9. Holotype: Wiggins, 1973, pl.4, fig.7. **Taxonomic senior synonym:** *Shublikodinium* (as and now *Rhaetogonyaulax*) *arcticum*, according to Stover and Evitt (1978, p.219). Age: Late Triassic.

"**verrucosum**" Wiggins, 1973, p.5, pl.3, figs.1–11; pl.4, figs.1–3. Holotype: Wiggins, 1973, pl.3, fig.3. **Taxonomic senior synonym:** *Shublikodinium* (as and now *Rhaetogonyaulax*) *arcticum*, according to Stover and Evitt (1978, p.219). Age: Late Triassic.

"subsp. **exsculptum**" (Wiggins, 1973, p.5, pl.4, fig.4) Lentin and Williams, 1973, p.125. Holotype: Wiggins, 1973, pl.4, fig.4. Originally *Shublikodinium verrucosum* var. *exsculptum*, subsequently *Shublikodinium verrucosum* subsp. *exsculptum*. **Taxonomic senior synonym** (at specific rank): *Shublikodinium* (as and now *Rhaetogonyaulax*) *arcticum*, according to Stover and Evitt (1978, p.219). Age: Late Triassic.

"var. **exsculptum**" Wiggins, 1973, p.5, pl.4, fig.4. Holotype: Wiggins, 1973, pl.4, fig.4. Originally *Shublikodinium verrucosum* var. *exsculptum*, subsequently *Shublikodinium verrucosum* subsp. *exsculptum*. **Taxonomic senior synonym** (at specific rank): *Shublikodinium* (as and now *Rhaetogonyaulax*) *arcticum*, according to Stover and Evitt (1978, p.219). Age: Late Triassic.

"subsp. **verrucosum**". Autonym. Holotype: Wiggins, 1973, pl.3, fig.3. **Now redundant.**

"var. **verrucosum**". Autonym. Holotype: Wiggins, 1973, pl.3, fig.3. **Now redundant.**

"*wigginsii*" Stover and Helby, 1987a, p.120, figs.18A–B,19A–I,20. Holotype: Stover and Helby, 1987a, figs.19A–B; Fensome et al., 1996, figs.1–2 — p.2445. **NOW** *Rhaetogonyaulax*. Originally *Shublikodinium*, subsequently (and now) *Rhaetogonyaulax*. Age: late Carnian.

"**SILICISPHAERA**" Davey and Verdier, 1976, p.320–321. **Taxonomic senior synonym:** *Florentinia*, according to Duxbury (1980, p.119) and Lentin and Williams (1989, p.339). Type: Deflandre, 1937b, pl.14 (al. pl.11), figs.3–4, as *Hystrichosphaeridium ferox*.

"*buspina*" Davey and Verdier, 1976, p.321–322, pl.2, figs.1–6; text-fig.3. Holotype: Davey and Verdier, 1976, pl.2, figs.1–3. **NOW** *Florentinia*. Originally *Silicisphaera*, subsequently (and now) *Florentinia*. Age: Senonian.

"**ferox*" (Deflandre, 1937b, p.72, pl.14 [al. pl.11], figs.3–4) Davey and Verdier, 1976, p.322. Holotype: Deflandre, 1937b, pl.14 (al. pl.11), figs.3–4. **NOW** *Florentinia*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Hystrichokolpoma*, fourthly *Silicisphaera*, fifthly (and now) *Florentinia*. Age: Senonian.

"?*flosculus*" (Deflandre, 1937b, p.75, pl.15 [al. pl.12], figs.5–6) Davey and Verdier, 1976, p.330. Holotype: Deflandre, 1937b, pl.15 (al. pl.12), fig.5. **NOW** *Florentinia*?. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (combination not validly published, Appendix A), thirdly *Litosphaeridium*?, fourthly *Silicisphaera*?, fifthly (and now) *Florentinia*?. Questionable assignment: Davey and Verdier (1976, p.330). Taxonomic junior synonym: *Eurysphaeridium fibratum* (name not validly published), according to Slimani (2001a, p.192). N.I.A. Age: Senonian.

"*ramulus*" May, 1980, p.66–67, pl.2, figs.13–16. Holotype: May, 1980, pl.2, figs.13–14. **NOW** *Florentinia*. Originally *Silicisphaera*, subsequently (and now) *Florentinia*. N.I.A. (Williams et al., 1998, p.561, incorrectly cited the epithet as "*ramula*"). Age: Maastrichtian.

"*tenera*" Davey and Verdier, 1976, p.326–327, pl.3, figs.8–12; text-fig.6. Holotype: Davey and Verdier, 1976, pl.3, figs.8–11. **NOW** *Florentinia*. Originally *Silicisphaera*, subsequently (and now) *Florentinia*. Age: Senonian.

"?*torulosa*" Davey and Verdier, 1976, p.328, pl.4, figs.10–12. Holotype: Davey and Verdier, 1976, pl.4, figs.10–11. **NOW** *Florentinia*?. Originally *Silicisphaera*?, subsequently (and now) *Florentinia*?. Questionable assignment: Davey and Verdier (1976, p.328). Age: Turonian.

"*tridactylites*" (Valensi, 1955a, p.37–38, fig.1D) Davey and Verdier, 1976, p.330. Holotype: Valensi, 1955a, fig.1D. **NOW** *Florentinia*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Hystrichokolpoma* (combination not validly published), fourthly *Achomosphaera*, fifthly *Silicisphaera*, sixthly (and now) *Florentinia*. Age: Cretaceous.

"**SINOCYSTA**" He Chengquan, 1984a, p.769,773. **Taxonomic senior synonym:** *Laciniadinium*, according to Chen et al. (1988, p.28). Type: He Chengquan, 1984a, pl.1, fig.5; text-fig.1, as *Sinocysta minuta*.

"*granulata*" He Chengquan, 1991, p.64, pl.1, figs.1–6,30. Holotype: He Chengquan, 1991, pl.1, fig.1. **NOW** *Laciniadinium*. Originally *Sinocysta*, subsequently (and now) *Laciniadinium*. Age: late Turonian–early Senonian.

"*macrocephala*" Jin Guangxing, He Chengquan and Zhu Shenzhao in He Chengquan et al., 1989, p.69, pl.6, figs.23–25. Holotype: He Chengquan et al., 1989, pl.6, fig.24. **NOW** *Laciniadinium*. Originally *Sinocysta*, subsequently (and now) *Laciniadinium*. Age: Early Tertiary.

"**minuta*" He Chengquan, 1984a, p.769–770, pl.1, figs.5–7; text-fig.1. Holotype: He Chengquan, 1984a, pl.1, fig.5; text-fig.1. **NOW** *Laciniadinium*. Originally *Sinocysta*, subsequently (and now) *Laciniadinium*. Age: Late Cretaceous.

"*subtilis*" He Chengquan, 1991, p.65, pl.1, figs.19–23. Holotype: He Chengquan, 1991, pl.1, fig.19. **NOW** *Laciniadinium*. Originally *Sinocysta*, subsequently (and now) *Laciniadinium*. Age: late Turonian–Eocene.

"*tianshanensis*" He Chengquan, 1991, p.65, pl.2, figs.8–9. Holotype: He Chengquan, 1991, pl.2, fig.8. **NOW** *Laciniadinium*. Originally *Sinocysta*, subsequently (and now) *Laciniadinium*. Age: late Eocene.

"*xinjiangensis*" He Chengquan, 1991, p.65, pl.1, figs.7–12. Holotype: He Chengquan, 1991, pl.1, fig.11. **NOW** *Laciniadinium*. Originally *Sinocysta*, subsequently (and now) *Laciniadinium*. Age: Paleocene–Eocene.

SIRMIODINIOPSIS Drugg, 1978, p.73. Taxonomic junior synonym: *Arkellidium*, according to Lentin and Williams (1981, p.21). Type: Drugg, 1978, pl.7, fig.11, as *Sirmiodiniopsis orbis*.

"*frisias*" (Raynaud, 1978, p.394, pl.1, fig.11) Lentin and Williams, 1981, p.256. Holotype: Raynaud, 1978, pl.1, fig.11. Originally *Senoniasphaera*?, subsequently *Sirmiodiniopsis*. **Taxonomic senior synonym:** *Meiourogonyaulax* (as *Ambonosphaera*?) *staffinensis*, according to Poulsen and Riding (1992, p.26). Age: Oxfordian–mid Valanginian.

**orbis* Drugg, 1978, p.73–74, pl.7, fig.11; pl.8, figs.1–4. Holotype: Drugg, 1978, pl.7, fig.11; Fensome et al., 1995, fig.1 — p.1631. Taxonomic junior synonym: *Arkellidium* (as *Sirmiodiniopsis*) *triapertum*, according to Riley and Fenton (1982, p.199). Age: Callovian.

"*triaperta*" (Beju, 1979, p.4–5, fig.1, nos.1–6; figs.2A–A',B–E) Lentin and Williams, 1981, p.256. Holotype: Beju, 1979, fig.1, no.1; figs.2A–A'; Fensome et al., 1995, figs.1,7–8 — p.1847. Originally *Arkellidium*, subsequently *Sirmiodiniopsis*. **Taxonomic senior synonym:** *Sirmiodiniopsis orbis*, according to Riley and Fenton (1982, p.199). Age: late Callovian.

SIRMIODINIUM Alberti, 1961, p.22. Emendation: Warren, 1973, p.104. Type: Alberti, 1961, pl.7, fig.6, as *Sirmiodinium grossii*.

**grossii* Alberti, 1961, p.22, pl.7, figs.5–7; pl.12, fig.5. Emendation: Warren, 1973, p.104–105. Holotype: Alberti, 1961, pl.7, fig.6. Taxonomic junior synonym: *Scriniodinium* (subsequently *Sirmiodinium*) *pseudocrystallinum*, according to Drugg (1978, p.73) and Kunz (1990, p.39). Age: late Hauterivian–late Barremian.

"*oxfordianum*" (Sarjeant, 1962a, p.485, pl.69, figs.13–14) Courtinat in Courtinat and Gaillard, 1980, p.52. Holotype: Sarjeant, 1962a, pl.69, fig.14. **NOW** *Scriniodinium*?. Originally *Scriniodinium*, subsequently *Endoscrinium*, thirdly *Sirmiodinium*, fourthly (and now) *Scriniodinium*?. Age: Oxfordian.

"*pseudocrystallinum*" (Beju, 1971, p.295–297, pl.7, figs.1–3; text-fig.7) Courtinat, 1989, p.218. Holotype: Beju, 1971, pl.7, fig.1. Originally *Scriniodinium*, subsequently *Sirmiodinium*. **Taxonomic senior synonym:** *Sirmiodinium grossii*, according to Drugg (1978, p.73) and Kunz (1990, p.39). Age: Oxfordian–Kimmeridgian.

"**SKUACERATOPSIS**" Helby in Riding and Helby, 2001a, p.15. **Name not validly published:** no description. **Taxonomic senior synonym:** *Skuadinium*, by implication in Riding and Helby (2001a, p.15). Riding and Helby indicated that *Skuaceratopsis* is an unpublished synonym for *Skuadinium asymmetricum*.

SKUADINIUM Riding and Helby, 2001a, p.14–15. Taxonomic junior synonym: *Skuaceratopsis* (name not validly published), by implication in Riding and Helby (2001a, p.15). Riding and Helby indicated that *Skuaceratopsis* is an unpublished synonym for *Skuadinium asymmetricum*. Type: Riding and Helby, 2001a, fig.8M, as *Skuadinium biturbinatum*.

asymmetricum Riding and Helby, 2001a, p.15,17, figs.9A–I. Holotype: Riding and Helby, 2001a, figs.9H–I. Age: early Toarcian.

**biturbinatum* Riding and Helby, 2001a, p.15, figs.8A–P. Holotype: Riding and Helby, 2001a, fig.8M. Age: early Toarcian.

reticulatum Riding and Helby, 2001a, p.17, figs.10A–I. Holotype: Riding and Helby, 2001a, fig.10G–H. Age: early Toarcian.

SLITERIA Krasheninnikov and Basov, 1983, p.984. Calcareous dinoflagellate genus (see Streng et al., 2004, p.483 and Elbrächter et al., 2008, p.1301). Type: Krasheninnikov and Basov, 1983, pl.11, fig.4, as *Sliteria pentagonalis*.

**pentagonalis* Krasheninnikov and Basov, 1983, p.984, pl.11, figs.4–9; pl.12, figs.1–8. Holotype: Krasheninnikov and Basov, 1983, pl.11, fig.4. Age: Turonian–early Campanian.

SMOLENSKIELLA Vozzhennikova, 1967, p.181–182. Emendation: Lentin and Vozzhennikova, 1990, p.64. Type: Vozzhennikova, 1967, pl.105, fig.4; pl.106, fig.4, as *Smolenskiella crassitheca*.

bicornis Zatonkaya, 1975, p.32, pl.1, fig.3. Holotype: Zatonkaya, 1975, pl.1, fig.3. Age: Berriasian.

**crassitheca* Vozzhennikova, 1967, p.182–183, pl.105, figs.1a–b,2,3a–b,4,6; pl.106, figs.1–4; text-figs.17a–b. Emendation: Lentin and Vozzhennikova, 1990, p.64–65. Holotype: Vozzhennikova, 1967, pl.105, fig.4; pl.106, fig.4; Lentin and Vozzhennikova, 1990, pl.8, figs.1–3; text-fig.35. Age: Late Cretaceous.

SOANIELLA Vozzhennikova, 1967, p.108. Emendation: Lentin and Vozzhennikova, 1990, p.66. Lentin and Williams (1976, p.165) indicated *Soaniella* to be a superfluous name, citing I.C.B.N. Article 69 of the 1972 Code (Stafleu et al., 1972), equivalent to I.C.N. Article 57.1). However, that article is not pertinent here and *Soaniella* is a validly published name. Type: Vozzhennikova, 1967, pl.116, figs.1–2, as *Soaniella granulata* (which see for lectotype).

**granulata* Vozzhennikova, 1967, p.108–109, pl.116, figs.1–12. Emendation: Lentin and Vozzhennikova, 1990, p.67–68. Holotype: Vozzhennikova, 1967, pl.116, figs.1–2, lost according to Lentin and Vozzhennikova (1990, p.67). Lectotype: Vozzhennikova, 1967, pl.116, fig.7; Lentin and Vozzhennikova, 1990, pl.10, fig.1; text-fig.36; designated by Lentin and Vozzhennikova (1990, p.67). Lentin and Williams (1976, p.165) designated this species as a "*nomen ambiguum*"; however, this is not a formal status under the I.C.N. Age: Eocene–early Oligocene.

kulkovae Vasilyeva, 2013, p.119, pl.2, figs.25–29. Holotype: Vasilyeva, 2013, pl.2, figs.25–26. Age: Ypresian–Lutetian.

SOKOLOVIDINIUM Lentin and Vozzhennikova, 1990, p.113–114. Type: Vozzhennikova, 1967, pl.38, figs.1a–b, as *Microdinium dentatum* forma *sphaericum*.

**sphaericum* (Vozzhennikova, 1967, p.95–96, pl.36, figs.2a–b; pl.38, figs.1a–b) Lentin and Vozzhennikova, 1990, p.114–116. Emendation: Lentin and Vozzhennikova, 1990, p.115, as *Sokolovidinium sphaericum*. Holotype: Vozzhennikova, 1967, pl.38, figs.1a–b; Lentin and Vozzhennikova, 1990, pl.13, figs.5–6; text-fig.67. Originally *Microdinium dentatum* forma *sphaericum*, subsequently *Microdinium dentatum* subsp. *sphaericum*, thirdly (and now) *Sokolovidinium sphaericum*. Age: Late Cretaceous (Senonian).

SONGIELLA Sun Xuekun, 1994, p.84. Emendation: Xu Jinli et al., 1997, p.58. Type: Jiabo, 1978, pl.29, fig.9, as *Bipolaribucina huanghuaensis*.

?*biornata* (He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.39, pl.22, figs.18–19) He Chengquan et al., 2009, p.366. Holotype: He Chengquan et al., 1989, pl.22, fig.18. Originally *Bipolaribucina*?,

subsequently *Distatodinium*, thirdly (and now) *Songiella*. Taxonomic senior synonym: *Membranilarnacia paucitubata*, according to Mao Shaozhi et al. (1995, p.44) — however, He Chengquan et al. (2009, p.366) retained this species as *Songiella biornata*. Age: Early Tertiary.

brachypoda Xu Jinli et al., 1997, p.58–59, pl.2, figs.5a–b ex He Chengquan et al., 2009, p.366–367,665. Holotype: Xu Jinli et al., 1997, pl.2, figs.5a–b. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.665) validated the name by publishing an English diagnosis. Age: middle-late Eocene.

crassa Xu Jinli et al., 1997, p.59; pl.2, figs.8,9a–b ex He Chengquan et al., 2009, p.367,666. Holotype: Xu Jinli et al., 1997, pl.2, fig.8. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.666) validated the name by publishing an English diagnosis. Age: middle-late Eocene.

ephippioidea Xu Jinli et al., 1997, p.59, pl.2, fig.7; pl.6, figs.1–2; pl.48, figs.3a–b ex He Chengquan et al., 2009, p.367,666–667. Holotype: Xu Jinli et al., 1997, pl.2, fig.7. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.666–667) validated the name by publishing an English diagnosis. Age: middle-late Eocene.

foveolata Xu Jinli et al., 1997, p.59–60, pl.3, figs.4a–b,6a–b,7a–b ex He Chengquan et al., 2009, p.368,667. Holotype: Xu Jinli et al., 1997, pl.3, figs.4a–b. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.667) validated the name by publishing an English diagnosis. Age: middle-late Eocene.

globola Xu Jinli et al., 1997, p.60, pl.3, figs.12a–b,13; pl.4, figs.4–5 ex He Chengquan et al., 2009, p.368,667–668. Holotype: Xu Jinli et al., 1997, pl.3, figs.12a–b. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.668) validated the name by publishing an English diagnosis. Age: middle-late Eocene.

****huanghuaensis*** (Jiabo, 1978, p.57, pl.29, figs.9–10) Sun Xuekun, 1994, p.84. Holotype: Jiabo, 1978, pl.29, fig.9. Originally *Bipolaribucina*, subsequently *Impletosphaeridium*, thirdly (and now) *Songiella*. Age: Early Tertiary.

intacta Xu Jinli et al., 1997, p.60, pl.3, figs.8–9; pl.49, figs.1a–d ex He Chengquan et al., 2009, p.369,668. Holotype: Xu Jinli et al., 1997, pl.49, figs.1a–d. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.668) validated the name by publishing an English diagnosis. Age: middle-late Eocene.

leptocaulis Xu Jinli et al., 1997, p.61, pl.2, figs.6a–b; pl.3, figs.10–11,14; pl.49, figs.2a–b ex He Chengquan et al., 2009, p.369–370,669. Holotype: Xu Jinli et al., 1997, pl.2, figs.6a–b. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.669) validated the name by publishing an English diagnosis. Age: middle-late Eocene.

longicaulis Xu Jinli et al., 1997, p.61–62, pl.2, figs.4a–b; pl.3, figs.5a–b; pl.48; figs.1a–b,2; text-fig.4 ex He Chengquan et al., 2009, p.370,669. Holotype: Xu Jinli et al., 1997, pl.2, figs.4a–b; text-fig.4. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.669–670) validated the name by publishing an English diagnosis. Age: middle-late Eocene.

SOPHISMATIA Williams et al., 2015, p.312–313. Type: Williams and Downie, 1966b, pl.19, figs.2,4; text-fig.49, as *Wetziella tenuivirgula*.

conopia (Williams and Downie, 1966b, p.184, pl.18, fig.5) Williams et al., 2015, p.313. Holotype: Williams and Downie, 1966b, pl.18, fig.5. Originally *Wetziella articulata* var. *conopia*, subsequently *Wetziella articulata* subsp. *conopia*, thirdly *Kisselevia tenuivirgula* subsp. *conopia*, fourthly *Charlesdowniea tenuivirgula* subsp. *conopia*, fifthly (and now) *Sophismatia conopia*. Age: early Eocene.

crassoramosa (Williams and Downie, 1966b, p.189–190; pl.19, figs.1,5,7; text-fig.50) Williams et al., 2015, p.313. Holotype: Williams and Downie, 1966b, pl.19, fig.7. Originally *Wetzeliiella tenuivirgula* var. *crassoramosa*, subsequently *Wetzeliiella tenuivirgula* subsp. *crassoramosa*, thirdly *Kisselevia tenuivirgula* subsp. *crassoramosa*, fourthly *Kisselevia crassoramosa*, fifthly *Charlesdowniea crassoramosa*, sixthly (and now) *Sophismatia crassoramosa*. In most uses subsequent to the protologue, the epithet has been spelled "*crassiramosa*", but it was spelled as "*crassoramosa*" in the protologue. Herein, we revert to the original spelling and treat the other spelling as a typographic error. Age: early Eocene.

?***exouros*** (Islam, 1983c, p.88, pl.3, figs.3–4) Williams et al., 2015, p.313. Holotype: Islam, 1983c, pl.3, fig.3. Originally *Kisselevia tenuivirgula* subsp. *exouros*, subsequently *Charlesdowniea tenuivirgula* subsp. *exouros*, thirdly (and now) *Sophismatia? exouros*. Questionable assignment: Williams et al. (2015, p.313). Age: middle Eocene.

?***insolens*** (Eaton, 1976, p.292–293, pl.18, figs.1–2) Williams et al., 2015, p.313. Holotype: Eaton, 1976, pl.18, fig.2; Bujak et al., 1980, pl.11, fig.4. Originally *Kisselevia*, subsequently *Kisselevia?*, thirdly (and now) *Sophismatia?*. Questionable assignment: Williams et al. (2015, p.313). Age: early Eocene.

reticulata (Williams and Downie, 1966b, p.187–188, pl.19, figs.3,6; text-fig.48) Williams et al., 2015, p.313. Holotype: Williams and Downie, 1966b, pl.19, figs.3,6; text-fig.48. Originally *Wetzeliiella*, subsequently *Kisselevia*, thirdly *Charlesdowniea*, fourthly (and now) *Sophismatia*. Age: early Eocene.

****tenuivirgula*** (Williams and Downie, 1966b, p.188–189, pl.19, figs.1–2,4–5,7; text-figs.49–50) Williams et al., 2015, p.313. Holotype: Williams and Downie, 1966b, pl.19, figs.2,4; text-fig.49. Originally *Wetzeliiella*, subsequently *Kisselevia*, thirdly *Charlesdowniea*, fourthly (and now) *Sophismatia*. Age: early Eocene.

"**SPEETONIA**" Duxbury, 1977, p.48–49. **Name illegitimate** — **senior homonym**: *Speetonia* Black, 1971. **Substitute name**: *Lagenorhytis*. Type: Duxbury, 1977, pl.12, fig.4, as *Speetonia delicatula*.

****delicatula***" Duxbury, 1977, p.49, pl.12, figs.1–2,4–5; text-fig.18. Emendation: Piasecki, 1984, p.149–150, as *Lagenorhytis delicatula*. Holotype: Duxbury, 1977, pl.12 (not pl.2), fig.4; Fensome et al., 1993a, fig.3 — p.1107. **NOW** *Lagenorhytis*. Originally *Speetonia* (generic name illegitimate), subsequently (and now) *Lagenorhytis*. Age: early Valanginian.

"**SPHAERELLA**" Keller 1946, p.95,97,107. Calcareous dinoflagellate genus (see Elbrächter et al., 2008, p.1301–1302). **Name illegitimate**: senior homonym *Sphaerella* Sommerfelt 1824, a chlorophycean. **Substitute name**: *Inocardion*. Type: not designated; "type species" *Lagena* (now *Inocardion*) *orbularia*.

****orbularia*** (de Lapparent, 1918, p.20, pl.2, figs.1–part,2–part; pl.3, fig.2–part) Keller 1946, p.95,107. Holotype: not designated. **NOW** *Inocardion*. Originally *Lagena* (Appendix A), subsequently *Stomiosphaera*, thirdly *Sphaerella* (generic name illegitimate), fourthly *Stomiodinium?*, fifthly (and now) *Inocardion*. Taxonomic senior synonym: *Lagena* (now *Pithonella*) *sphaerica*, according to Bonet (1956, p.450) — however, Masters and Scott (1978, p.215) retained this species as the type of *Inocardion*. Age: Late Cretaceous.

"**SPHAERODICTYON**" Wilson in Slimani, 2003, p.273. **Name not validly published**: no description. **Taxonomic senior synonym**: *Neosphaerodictyon*, according to Slimani (2003, p.273).

"***filosum***" Wilson in Slimani, 2003, p.274. **Name not validly published**: no description or illustration. **Taxonomic senior synonym**: *Neosphaerodictyon filosum*, according to Slimani (2003, p.274).

"**SPHAERODINELLA**" Keupp and Versteegh, 1989, p.209–210. Calcareous dinoflagellate genus (see Elbrächter et al., 2008, p.1302). **Taxonomic senior synonym**: *Calciodinellum*, by implication in Janofske and Karwath (2000,

p.100), who transferred the type, *Sphaerodinella albatrosiana*, to *Calciodinellum*. Type: Kamptner, 1963, pl.5, fig.30, as *Thoracosphaera albatrosiana*.

"**albatrosiana*" (Kamptner, 1963, p.177–178, pl.5, fig.30) Keupp and Versteegh, 1989, p.209. Holotype: Kamptner, 1963, pl.5, fig.30. **NOW** *Calciodinellum*. Originally *Thoracosphaera*, subsequently *Orthopithonella*, thirdly *Sphaerodinella*, fourthly (and now) *Calciodinellum*. Taxonomic junior synonyms: *Thoracosphaera ricolosa*, according to Fütterer (1976, p.134); and *Thoracosphaera rela* according to Fütterer (1978, p.716). Age: Pleistocene.

"var. *albatrosiana*". Autonym. Holotype: Kamptner, 1963, pl.5, fig.30. **NOW** *Calciodinellum albatrosianum* var. *albatrosianum*. Originally *Sphaerodinella albatrosiana* var. *albatrosiana*, subsequently (and now) *Calciodinellum albatrosianum* var. *albatrosianum*.

"var. *spinulosa*" Versteegh, 1993, p.377–378, pl.4, figs.12–16. Holotype: Versteegh, 1993, pl.4, figs.12–13,16. **NOW** *Calciodinellum albatrosianum* var. *spinulosum*. Originally *Sphaerodinella albatrosiana* var. *spinulosa*, subsequently (and now) *Calciodinellum albatrosianum* var. *spinulosum*. Age: late Pliocene.

"*arctica*" (Gilbert and Clark, 1983, p.400, pl.1, figs.1–15) Keupp and Kohring, 1993, p.29. Holotype: Gilbert and Clark, 1983, pl.1, fig.1. **NOW** *Caracomia*. Originally *Thoracosphaera*, subsequently *Sphaerodinella*, thirdly (and now) *Caracomia*. This combination was not validly published in Keupp and Versteegh (1989, p.210), since these authors did not fully reference the basionym. Age: late Miocene–Holocene.

"*tuberosa*" (Kamptner, 1963, p.179, fig.26) Hildebrand-Habel et al., 1999, p.82. Emendation: Janofske and Karwath, 2000, p.114–115, as *Pernambugia tuberosa*. Holotype: Kamptner, 1963, fig.26. **NOW** *Pernambugia*. Originally *Thoracosphaera*, subsequently *Sphaerodinella* (combination not validly published), thirdly *Sphaerodinella?*, fourthly (and now) *Pernambugia*. Taxonomic junior synonyms: *Thoracosphaera candora* and *Thoracosphaera narena*, both according to Fütterer (1976, p.132). Questionable assignment: Hildebrand-Habel et al. (1999, p.82). This combination was not validly published in Keupp and Versteegh (1989, p.210), since these authors did not fully reference the basionym. Age: Pleistocene.

"forma *elongata*" Hildebrand-Habel et al., 1999, p.83, pl.5, figs.5–7; text-fig.6A–B. Holotype: Hildebrand-Habel et al., 1999, pl.5, figs.5–6. **NOW** *Calciodinellum elongatum*. Originally *Sphaerodinella? tuberosa* forma *elongata*, subsequently *Calciodinellum elongatum* (combination not validly published), thirdly *Pernambugia tuberosa* forma *elongata*, fourthly (and now) *Calciodinellum elongatum*. Age: middle Eocene.

"forma *tuberosa*". Autonym. Holotype: Kamptner, 1963, fig.26. **NOW** *Pernambugia tuberosa* forma *tuberosa*. Originally *Sphaerodinella tuberosa* forma *tuberosa*, subsequently (and now) *Pernambugia tuberosa* forma *tuberosa*.

"forma *variospinosa*" Hildebrand-Habel et al., 1999, p.83–84, pl.5, figs.8–15, text-fig.7A–C. Holotype: Hildebrand-Habel et al., 1999, pl.5, figs.8–11. **NOW** *Calciodinellum levantinum* forma *variospinosum*. Originally *Sphaerodinella? tuberosa* forma *variospinosa*, subsequently *Pernambugia tuberosa* forma *variospinosa*, thirdly (and now) *Calciodinellum levantinum* forma *variospinosum*. Age: middle Eocene.

SPINIDIINIUM Cookson and Eisenack, 1962b, p.489. Emendations: Lentin and Williams, 1976, p.62–63; Quattrocchio and Sarjeant, 2003, p.134–135; Sluijs et al., 2009, p.46. Taxonomic junior synonyms: *Magallanesium*, according to Fensome et al. (2009 [February], p.59) and Sluijs et al. (2009 [April], p.46); *Volkheimeridium*, according to Sluijs et al., (2009, p.46). Type: Cookson and Eisenack, 1962b, pl.1, figs.1–2, as *Spinidinium styloniferum*

"*apertura*" Wilson, 1967a, p.64–65, figs.3–5,8. Holotype: Wilson, 1967a, figs.3–4; Fensome et al., 1993a, figs.1–2 — p.925. **NOW** *Vozzhennikovia*. Originally *Spinidinium*, subsequently (and now) *Vozzhennikovia*, thirdly *Dioxya*. N.I.A. Age: Paleocene–Oligocene.

argentinium Lentin and Williams, 1985, p.325. Holotype: Pöthe de Baldis and Ramos, 1983, pl.2, figs.7,11. Originally *Dioxya denticulata*, subsequently (and now) *Spinidinium argentinium*, thirdly *Magallanesium denticulatum*. Substitute name for *Dioxya denticulata* Pöthe de Baldis and Ramos, 1983, p.438, pl.2, figs.7,11; pl.4, fig.2. This species was retained in *Spinidinium* by Sluijs et al. (2009, p.46). Age: early Aptian.

balmei (Cookson and Eisenack, 1962b, p.486) Ioannides, 1986, p.35. Emendation: Morgan, 1977, p.130, as *Alterbia minor*. Holotype: Cookson and Eisenack, 1960a, pl.1, fig.1; Morgan, 1977, text-fig.2. Originally *Deflandrea minor* (name illegitimate), subsequently *Deflandrea balmei*, thirdly *Alterbia balmei* (combination illegitimate), fourthly *Isabelidinium balmei*, fifthly (and now) *Spinidinium balmei*, sixthly *Magallanesium balmei*. Taxonomic senior synonym: *Palaeohystrichophora* (as *Diconodinium*) *minuta*, according to Morgan (1977, p.130) — however, Lentin and Williams (1981, p.156) retained *Deflandrea* (as *Isabelidinium*, now *Spinidinium*) *balmei*. Sluijs et al. (2009, p.47) retained this species in *Spinidinium*. Age: Late Cretaceous.

bellum Lucas-Clark, 2006, p.202,204, pl.4, figs.5–9. Holotype: Lucas-Clark, 2006, pl.4, figs.5–7. Age: Paleocene.

"boydii" Morgan, 1975, p.159–160, pl.1, figs.3a–d. Holotype: Morgan, 1975, pl.1, figs.3a–d; Helby et al., 1987, fig.29D. **NOW** *Chichaouadinium*. Originally *Spinidinium*, subsequently (and now) *Chichaouadinium*. Age: late Aptian–Albian.

?clavus Harland, 1973, p.674–675, pl.84, figs.5–6,10; text-fig.9. Holotype: Harland, 1973, pl.84, fig.6. Originally (and now), *Spinidinium*, subsequently *Spinidinium?*, thirdly *Volkheimeridium*. Questionable assignment: Stover and Evitt (1978, p.125). Sluijs et al. (2009, p.47) questionably retained this species in *Spinidinium*. N.I.A. Age: late Campanian.

colemanii Wrenn and Hart, 1988, p.366–367, fig.36, nos.1–2; fig.39, no.2. Holotype: Wrenn and Hart, 1988, fig.36, nos.1–2. Age: late Paleocene–Eocene.

delicatum Slimani and Louwye, 2013, p.19, pl.4, figs.11–18. Holotype: Slimani and Louwye, 2013, pl.4, figs.11–14. Age: latest Maastrichtian.

densispinatum Stanley, 1965, p.226–227, pl.21, figs.1–5. Holotype: Stanley, 1965, pl.21, figs.1–3. Originally (and now) *Spinidinium*, subsequently *Magallanesium*. Taxonomic junior synonym: *Spinidinium microceratum*, according to Stone (1973, p.53–54). Sluijs et al. (2009, p.47) retained this species in *Spinidinium*. Age: Paleocene.

denticulatum Pöthe de Baldis and Ramos, 1983, p.441, pl.2, figs.3,8. Holotype: Pöthe de Baldis and Ramos, 1983, pl.2, figs.3,8. Originally (and now) *Spinidinium*, subsequently *Spinidinium?* Quattrocchio and Sarjeant (2003, p.136) questionably retained this species in *Spinidinium*; however, Sluijs et al. (2009, p.47) retained the species in *Spinidinium* without question. Age: early Aptian.

echinoideum (Cookson and Eisenack, 1960a, p.2, pl.1, figs.5–6) Lentin and Williams, 1976, p.64. Emendation: Sverdløve and Habib, 1974, p.58, as *Deflandrea echinoidea*. Holotype: Cookson and Eisenack, 1960a, pl.1, figs.5. Originally *Deflandrea*, subsequently (and now) *Spinidinium*, thirdly *Vozzhennikovia*, fourthly *Spinidinium?* Questionable assignment: Quattrocchio and Sarjeant (2003, p.136); however, Sluijs et al. (2009, p.47) retained the species in *Spinidinium* without question. Age: Santonian–Campanian.

subsp. **echinoideum**. Autonym. Holotype: Cookson and Eisenack, 1960a, pl.1, figs.5–6.

subsp. **rhombicum** (Cookson and Eisenack, 1974, p.49–50, pl.20, figs.5–9) Lentin and Williams, 1976, p.64. Holotype: Cookson and Eisenack, 1974, pl.20, fig.7. Originally *Deflandrea rhombica*, subsequently (and now) *Spinidinium echinoideum* subsp. *rhombicum*, thirdly *Spinidinium rhombicum*. Lentin and Williams (1981, p.257) retained this taxon as *Spinidinium echinoideum* subsp. *rhombicum*. Age: Albian–Cenomanian.

eggeri Kirsch, 1991, p.113, pl.23, figs.1–3; text-figs.56a–e. Holotype: Kirsch, 1991, pl.23, fig.1; text-figs.56a–b. Age: late Santonian.

essoii Cookson and Eisenack, 1967a, p.135, pl.19, figs.1–8. Holotype: Cookson and Eisenack, 1967a, pl.19, figs.1–2. Originally (and now) *Spinidinium*, subsequently *Magallanesium*. Sluijs et al. (2009, p.47) retained this species in *Spinidinium*. Age: late Paleocene.

"*gallium*" (Davey and Verdier, 1973, p.196–197, pl.3, figs.1–4) Lentin and Williams, 1976, p.64. Holotype: Davey and Verdier, 1973, pl.3, figs.1.3. **NOW** *Isabelidinium*. Originally *Deflandrea*, subsequently *Spinidinium*, thirdly (and now) *Isabelidinium*. Age: late Albian–early Cenomanian.

"*gerhardii*" Kirsch, 2000, p.42–43, pl.4, figs.15–16; text-fig.10. Holotype: Kirsch, 2000, pl.4, fig.15. **Name not validly published**: no English or Latin description. Age: ?middle-late Campanian.

?*irmoechinatum* (Heisecke, 1970, p.230, pl.1, fig.3; pl.2, figs.2–3) Stover and Evitt, 1978, p.125. Holotype: Heisecke, 1970, pl.1, fig.3; pl.2, figs.2–3. Originally *Deflandrea*, subsequently *Gonyaulacysta*, thirdly (and now) *Spinidinium*?, fourthly *Volkheimeridium*. Questionable assignment: Stover and Evitt (1978, p.125). Sluijs et al. (2009, p.47) questionably retained this species in *Spinidinium*. Age: early Paleocene.

lanterna Cookson and Eisenack, 1970a, p.144–145, pl.12, figs.1–3. Holotype: Cookson and Eisenack, 1970a, pl.12, fig.2. Originally (and now) *Spinidinium*, subsequently *Volkheimeridium*. Sluijs et al. (2009, p.47) retained this species in *Spinidinium*. N.I.A. Age: Late Cretaceous.

luciae Wrenn and Hart, 1988, p.368, fig.35, nos.1–3, fig.38, nos.1–5; fig.39, no.4. Holotype: Wrenn and Hart, 1988, fig.35, nos.1–3. Originally (and now) *Spinidinium*, subsequently *Volkheimeridium*. Sluijs et al. (2009, p.47) retained this species in *Spinidinium*. Age: early Eocene.

macmurdoense (Wilson, 1967a, p.60–62, figs.11–16,22; text-fig.2a) Lentin and Williams, 1976, p.64. Holotype: Wilson, 1967a, figs.11–13. Originally *Deflandrea*, subsequently (and now) *Spinidinium*, thirdly *Magallanesium*. Sluijs et al. (2009, p.47–48) retained this species in *Spinidinium*. Age: Early Tertiary.

"*mariae*" Aurisano, 1984, p.5,7, figs.4E–G. Holotype: Aurisano, 1984, figs.4E–F. **NOW** *Vozzhennikovia*. Originally *Spinidinium*, subsequently (and now) *Vozzhennikovia*. Age: early Santonian–late early Campanian.

"*microceratum*" Stanley, 1965, p.227–228, pl.22, figs.5–6. Holotype: Stanley, 1965, pl.22, fig.6. **Taxonomic senior synonym**: *Spinidinium* (now *Magallanesium*) *densispinatum*, according to Stone (1973, p.53–54). Age: Paleocene.

"*microechinatum*" Ilyina et al., 1994, p.100. **Name not validly published**: no description or illustration. Ilyina et al. (1994) attributed this name to Stover and Evitt.

"*minus*" He Chengquan and Wang Kede, 1990, p.417,423,424, pl.4, figs.10–11. Holotype: designated but not identified in illustrations. **NOW** *Vozzhennikovia*. Originally *Spinidinium*, subsequently (and now) *Vozzhennikovia*. Age: Eocene.

"*montanaense*" (Harland, 1977a, p.184–185, pl.25, figs.4,6–7,10–12) Lentin and Williams, 1977b, p.147. Holotype: Harland, 1977a, pl.25, fig.4. **NOW** *Alterbidinium*. Originally *Deflandrea*, subsequently *Spinidinium*, thirdly *Alterbia* (combination illegitimate), fourthly (and now) *Alterbidinium*. Age: late Campanian–Maastrichtian.

?*ornatum* (May, 1980, p.77–78, pl.9, figs.3–5) Lentin and Williams, 1981, p.258. Holotype: May, 1980, pl.9, figs.3–4. Originally *Deflandrea*, subsequently *Spinidinium*, thirdly *Spinidinium*? Questionable assignment: Sluijs et al. (2009, p.48). Age: Campanian–basal Maastrichtian.

ovale (Vozzhennikova, 1967, p.99, pl.40, figs.1a–b,2a–b) Lentin and Williams, 1977b, p.147. Holotype: Vozzhennikova, 1967, pl.40, figs.1a–b, lost according to Lentin and Vozzhennikova (1990, p.69), who stated that no potential lectotype is available. Originally *Canninginopsis*, subsequently *Spinidinium*?, thirdly (and now) *Spinidinium*. Questionable assignment: Lentin and Williams (1977b, p.147): however, Sluijs et al. (2009, p.48) retained this species in *Spinidinium* without question. Age: Paleocene–Eocene.

pentagonum Kurita, 2004, p.36,38,40,42, pl.1, figs.1–16. Holotype: Kurita, 2004, pl.1, figs.1–4. Age: late middle to ?late Eocene.

?pilatum (Stanley, 1965, p.222, pl.21, figs.12–16) Costa and Downie, 1979, p.43. Holotype: Stanley, 1965, pl.21, figs.14–16. Originally *Wetzeliiella*, subsequently *Wetzeliiella?*, thirdly (and now) *Spinidinium?*, fourthly *Magallanesium*. Questionable assignment: Costa and Downie (1979, p.43). Sluijs et al. (2009, p.48) questionably retained this species in *Spinidinium*. Age: Paleocene.

?pulchrum (Benson, 1976, p.194, pl.9, figs.4–9) Lentin and Williams, 1977b, p.147. Holotype: Benson, 1976, pl.9, figs.4–7. Originally *Deflandrea*, subsequently *Spinidinium*, thirdly *Magallanesium*, fourthly (and now) *Spinidinium?* Questionable assignment: Sluijs et al. (2009, p.48), who retained the species in *Spinidinium*. Age: early Paleocene.

?rallum Heisecke, 1970, p.226,228, pl.1, figs.1–2; pl.2, fig.1. Originally *Spinidinium*, subsequently *Magallanesium*, thirdly (and now) *Spinidinium?* Questionable assignment: Sluijs et al. (2009, p.48). Age: Danian.

"rhombicum" (Cookson and Eisenack, 1974, p.49–50, pl.20, figs.5–9) Stover and Evitt, 1978, p.124. Holotype: Cookson and Eisenack, 1974, pl.20, fig.7. **NOW** *Spinidinium echinoideum* subsp. *rhombicum*. Originally *Deflandrea rhombica*, subsequently (and now) *Spinidinium echinoideum* subsp. *rhombicum*, thirdly *Spinidinium rhombicum*. Age: Albian–Cenomanian.

"rotundum" Wilson, 1967a, p.65–66, figs.6–7. Holotype: Wilson, 1967a, fig.6. **NOW** *Vozzhennikovia*. Originally *Spinidinium*, subsequently (and now) *Vozzhennikovia*, thirdly *Dioxya*. Age: Eocene.

rugosum (Stanley, 1965, p.222–223, pl.21, figs.6–11) Costa and Downie, 1979, p.45. Holotype: Stanley, 1965, pl.21, figs.10–11. Originally *Wetzeliiella*, subsequently *Wilsonidium?*, thirdly *Wetzeliiella?*, fourthly (and now) *Spinidinium*. Williams et al. (2015, p.318) retained this species in *Spinidinium*. Age: Paleocene.

?sagittula (Drugg, 1970b, p.809–810, figs.1A–C) Lentin and Williams, 1976, p.64. Holotype: Drugg, 1970b, fig.1A. Originally *Deflandrea*, subsequently *Spinidinium*, thirdly (and now) *Spinidinium?* Questionable assignment: Sluijs et al. (2009, p.48). N.I.A. Age: early Eocene.

schellenbergii Sluijs et al., 2009, p.46, pl.4, figs.6–9; pl.6, figs.3–4. Holotype: Sluijs et al., 2009, pl.4, figs.6–7. Age: middle-late Eocene.

stellatum Soncini, 1992, p.333,335–337, pl.3, figs.1–14; text-figs.7,8a–b. Holotype: Soncini, 1992, pl.3, figs.1–3. Age: Thanetian–Ypresian.

***styloniferum** Cookson and Eisenack, 1962b, p.489, pl.1, figs.1–5. Holotype: Cookson and Eisenack, 1962b, pl.1, figs.1–2. Age: Aptian–?Albian.

sverdrupianum (Manum, 1963, p.59–60, pl.2, figs.6–15; text-fig.3) Lentin and Williams, 1976, p.64. Emendation: Lebedeva in Ilyina et al., 1994, p.64, as *Spinidinium sverdrupianum*. Holotype: Manum, 1963, pl.2, figs.12–13. Originally *Deflandrea*, subsequently (and now) *Spinidinium*, thirdly *Subtilisphaera*, fourthly *Cooksoniella* (combination not validly published). Lentin and Williams (1977b, p.157) retained this species in *Spinidinium*. Age: Cenomanian.

?tabulare He Chengquan, 1991, p.88, pl.2, figs.15–17. Holotype: He Chengquan, 1991, pl.2, fig.16. Questionable assignment: Sluijs et al. (2009, p.48). Age: Paleocene.

?taiwanianum Shaw Chenglong, 1999b, p.158–159, figs.1–3. Holotype: Shaw Chenglong, 1999b, figs.1–3. Questionable assignment: Sluijs et al. (2009, p.48). Age: Eocene.

?tripylum Kurita, 2004, p.42, pl.2, figs.1–13; text-fig.10b. Holotype: Kurita, 2004, pl.2, figs.1–4,13. Questionable assignment: Kurita (2004, p.42). Age: late Oligocene.

uncinatum May, 1980, p.85–86, pl.10, figs.5–7; pl.13, figs.9–10. Holotype: May, 1980, pl.10, figs.5–7. Age: late Campanian–early Maastrichtian.

"*vestitum*" Brideaux, 1971, p.99–101, pl.29, figs.99–103; text-figs.10a,d. Holotype: Brideaux, 1971, pl.29, figs.99,102–103; text-figs.10a,d. **NOW** *Chichaouadinium*. Originally *Spinidinium*, subsequently *Deflandrea*, thirdly *Spinidinium?*, fourthly (and now) *Chichaouadinium*. Questionable assignment: Stover and Evitt (1978, p.125). Taxonomic junior synonym: *Deflandrea limpida*, according to Lentin and Williams (1973, p.43). Age: late Albian–early Cenomanian.

SPINIFERELLA Stover and Hardenbol, 1994, p.38–39. Type: Gerlach, 1961, pl.27, figs.10–12, as *Hystrichosphaera cornuta*.

**cornuta* (Gerlach, 1961, p.180, pl.27, figs.10–12) Stover and Hardenbol, 1994, p.38. Emendation: Stover and Hardenbol, 1994, p.38–39, as *Spiniferella cornuta*. Holotype: Gerlach, 1961, pl.27, figs.10–12. Originally *Hystrichosphaera*, subsequently *Spiniferites*, thirdly (and now) *Spiniferella*. Age: middle Oligocene–middle Miocene.

subsp. *cornuta*. Autonym. Holotype: Gerlach, 1961, pl.27, figs.10–12. Taxonomic junior synonyms (at subspecific rank): *Spiniferites cornutus* var. *opisthophorus* (as *Spiniferites cornutus* subsp. *opisthophorus*), according to Below (1982c, p.33); *Hystrichosphaera cornuta* var. *laevimura* (as *Spiniferites cornutus* subsp. *laevimurus*, now *Spiniferella cornuta* subsp. *laevimura*), according to Cookson and Eisenack (1974, p.62) — however, Below (1982c, p.33) retained *Spiniferites cornutus* subsp. *laevimurus* (now *Spiniferella cornuta* subsp. *laevimura*).

subsp. *flexa* (He Chengquan, 1991, p.151, pl.22, fig.4) Williams et al., 1998, p.566. Holotype: He Chengquan, 1991, pl.22, fig.4. Originally *Spiniferites cornutus* subsp. *flexus*, subsequently (and now) *Spiniferella cornuta* subsp. *flexa*. Age: Paleocene.

subsp. *kasira* Slimani et al., 2012, p.344, fig.4K–T. Holotype: Slimani et al., 2012, fig.4M–O. Age: early Danian.

subsp. *laevimura* (Davey and Williams, 1966a, p.44–45, pl.4, fig.5) Williams et al., 1998, p.566. Holotype: Davey and Williams, 1966a, pl.4, fig.5; Bujak et al., 1980, pl.4, figs.9,12. Originally *Hystrichosphaera cornuta* var. *laevimura*, subsequently *Spiniferites cornutus* subsp. *laevimurus*, thirdly (and now) *Spiniferella cornuta* subsp. *laevimura*. Taxonomic senior synonyms (at subspecific rank): *Hystrichosphaera cornuta* var. *cornuta* (as *Spiniferites cornutus* subsp. *cornutus*, now *Spiniferella cornuta* subsp. *cornuta*), according to Cookson and Eisenack (1974, p.62) — however, Below (1982c, p.33) retained *Hystrichosphaera cornuta* var. *laevimura* (as *Spiniferites cornutus* subsp. *laevimurus*, now *Spiniferella cornuta* subsp. *laevimura*). Taxonomic junior synonyms (as subspecific rank): *Spiniferites cornutus* var. *crassifurcatus* (as *Spiniferites cornutus* subsp. *crassifurcatus*), and *Spiniferites cornutus* var. *normalis* (as *Spiniferites cornutus* subsp. *normalis*), both according to Below (1982c, p.33). Age: early Eocene.

subsp. *ovalis* (He Chengquan, 1991, p.151–152, pl.22, figs.1–2) Williams et al., 1998, p.566). Holotype: He Chengquan, 1991, pl.22, figs.1–2. Originally *Spiniferites cornutus* subsp. *ovalis*, subsequently (and now) *Spiniferella cornuta* subsp. *ovalis*. Age: Paleocene.

SPINIFERITES Mantell, 1850, p.191. Emendation: Sarjeant, 1970, p.75. Taxonomic junior synonyms: *Hafniasphaera*, according to Stover and Williams (1987, p.117) — however, Edwards (1996, p.989) retained *Hafniasphaera*; *Hystrichosphaera*, according to Sarjeant (1970, p.75); *Hystrichokibotium*, by implication in Gocht (1969, p.32), who considered *Hystrichokibotium* to be a taxonomic junior synonym of *Hystrichosphaera*; *Rivernookia*, according to Stover and Williams (1987, p.195) — however, *Rivernookia* is now considered a taxonomic junior synonym of *Hafniasphaera*; *Achomosphaera*, according to Duxbury (1983, p.54–55) — however, Lentin and Williams (1989, p.3) retained *Achomosphaera*; *Pseudospiniferites*, by implication in Schiøler (2005,

p.30), who transferred the type, *Pseudospiniferites manumii*, to *Spiniferites*. Loeblich Jr. and Loeblich III (1966, p.56–57) designated *Spiniferites ramosus* as the "type species" of *Spiniferites*. Fensome et al. (1993b, p.93) considered *Spiniferites* to be the possible taxonomic senior synonym of *Gonyaulax*. I.C.N. Article 11.7 now stipulates that names based on extant types take priority over names based on fossil types, so if the two genera are considered synonymous, *Gonyaulax* should now have priority. However, I.C.N. Article 11.1 makes allowance for dual taxonomy for fossils (see Introduction). Type: Ehrenberg, 1837b, pl.1, fig.15, as *Xanthidium ramosum* — lectotype designated by Davey and Williams (1966a, p.32).

adnatus Matsuoka and Bujak, 1988, p.72–74, pl.10, figs.8a–b,9; pl.11, figs.1a–b,2–3; pl.19, fig.8; text-fig.16. Holotype: Matsuoka and Bujak, 1988, pl.10, figs.8a–b. Age: late Oligocene.

"subsp. **adnatus**". Autonym. Holotype: Matsuoka and Bujak, 1988, pl.10, figs.8a–b. **Now redundant.**

"subsp. **puyangensis**" (He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.70, pl.21, figs.1–11) Mao Shaozhi et al., 1995, p.35. Holotype: He Chengquan et al., 1989, pl.21, fig.4. **NOW** *Spiniferites puyangensis*. Originally (and now) *Spiniferites puyangensis*, subsequently *Spiniferites adnatus* subsp. *puyangensis*. He Chengquan et al. (2009, p.208) retained this taxon at specific rank. Age: Early Tertiary.

alaskensis Marret et al., 2001, p.384–386, pl.1, figs.1–9 ex Marret in Fensome and Williams, 2004, p.613. Holotype: Marret et al., 2001, pl.1, figs.7–9. This name was not validly published in Marret et al. (2001) since these authors did not indicate which of the illustrations represented the holotype. Age: late Pleistocene.

alatus Duxbury, 1977, p.49, pl.5, fig.4. Holotype: Duxbury, 1977, pl.5, fig.4. Age: late Berriasian–early Valanginian.

aliger Singh, 1983, p.143–144, pl.50, figs.1–6; pl.51, fig.1. Holotype: Singh, 1983, pl.50, fig.1. This epithet, meaning winged, is correctly rendered as *aliger* when masculine, *aligera* when feminine and *aligerum* when neuter. Age: early Cenomanian.

ancorifer Cookson and Eisenack, 1974, p.58, pl.21, figs.4–5. Holotype: Cookson and Eisenack, 1974, pl.21, fig.4. This epithet, meaning anchor-bearing, is correctly rendered as "*ancorifer*" when masculine, "*ancorifera*" when feminine, and "*ancoriferum*" when neuter. Age: Middle-late Cretaceous.

subsp. **ancorifer**. Autonym. Holotype: Cookson and Eisenack, 1974, pl.21, fig.4.

subsp. **ghiran** Below, 1982c, p.32, pl.7, figs.6a–c,8,9a–b. Holotype: Below, 1982c, pl.7, figs.6a–c. Age: Aptian (Gargasian).

"**andalousiensis**" (Jan du Chêne, 1977, p.112, pl.1, figs.1–4) Strauss in Strauss and Lund, 1992, p.169. Emendation: Jan du Chêne and Londeix, 1988, p.239, as *Achomosphaera andalousiensis*. Holotype: Jan du Chêne, 1977, pl.1, fig.1, lost according to Jan du Chêne and Londeix (1988, p.237). Lectotype: Jan du Chêne and Londeix, 1988, pl.1, figs.1–3, designated by Jan du Chêne and Londeix (1988, p.244). **NOW** *Achomosphaera*. Originally (and now) *Achomosphaera*, subsequently *Spiniferites*. Taxonomic junior synonyms: *Spiniferites septentrionalis*, according to Harland (1983, p.103–104) — however, Londeix et al. (2009, p.67–68) retained *Spiniferites septentrionalis*; *Spiniferites aquilonius*, according to Strauss in Strauss and Lund (1992, p.169). Age: late Miocene (Andalusian).

antistatus Islam, 1983a, p.244, pl.4, figs.4–6; text-fig.4. Holotype: Islam, 1983a, pl.4, figs.4–5. Age: early Eocene.

"**aquilonius**" Matsuoka and Bujak, 1988, p.74–76, pl.11, figs.6a–d; pl.12, figs.1a–b; pl.19, figs.4a–c,7; text-figs.17A–E. Holotype: Matsuoka and Bujak, 1988, pl.11, figs.6a–d; text-fig.17A. **Taxonomic senior synonym:** *Achomosphaera* (as *Spiniferites*) *andalousiensis*, according to Strauss in Strauss and Lund (1992, p.169). Matsuoka in Head and Wrenn (1992, p.26) considered this species to be a possible taxonomic junior synonym of *Spiniferites septentrionalis*, but not of *Achomosphaera andalousiensis*. Age: late Miocene.

aracajuensis (Regali et al., 1974, p.291, pl.24, fig.6) Lentin and Williams, 1981, p.259. Holotype: Regali et al., 1974, pl.24, fig.6. Originally *Hystrichosphaeridium*, subsequently (and now) *Spiniferites*. Age: Paleocene–early Eocene.

asperulus Matsuoka, 1983b, p.131–132, pl.12, figs.2,3a–b,4; text-figs.17A–B. Holotype: Matsuoka, 1983b, pl.12, fig.2. Age: Pliocene or younger.

assamicus (Kar et al., 1972, p.147, pl.1, figs.6–7) Lentin and Williams, 1973, p.126. Holotype: Kar et al., 1972, pl.1, fig.6. Originally *Hystrichosphaera*, subsequently *Spiniferites*, thirdly (and now) *Spiniferites?*. Jain (1982, p.52) recommended that this name be restricted to the holotype. Questionable assignment: Stover and Evitt (1978, p.190). Age: Tertiary.

"*balcanicus*" (Balteş, 1971, p.6, pl.3, figs.3–7) Sütő-Szentai, 2000, p.162. Holotype: Balteş, 1971, pl.3, figs.3–7. **NOW** *Thalassiphora*. Originally (and now) *Thalassiphora*, subsequently *Disphaeria*, thirdly *Subathua* (combination not validly published), fourthly *Spiniferites*. Taxonomic senior synonym: *Pterospermopsis* (as and now *Thalassiphora pelagica*, according to Stover and Evitt (1978, p.194) — however, Sütő-Szentai (2000, p.162) retained *Thalassiphora* (as *Spiniferites balcanica*). This combination was not validly published in Sütő-Szentai (1988, p.356; 1991, p.188) and Sütő (1994, captions to pls.5–6 — p.470) since these authors did not fully reference the basionym. Age: early Pliocene.

bejui Masare et al., 1998, p.266, pl.3, figs.3–4; text-fig.6. Holotype: Masare et al., 1998, pl.3, figs.3–4. Age: Coniacian?–Santonian.

belerius Reid, 1974, p.596–598, pl.2, figs.12–13. Holotype: Reid, 1974, pl.2, figs.12–13. Motile equivalent: *Gonyaulax scrippsiae* Kofoid, 1911, according to Reid (1974, p.596). Age: Holocene.

bentorii (Rossignol, 1964, p.84–85, pl.1, figs.3,3bis,5–8; pl.3, figs.1–3; text-figs.A–F) Wall and Dale, 1970, p.47–48. Holotype: Rossignol, 1964, pl.1, figs.3,7–8. Originally *Hystrichosphaera*, subsequently (and now) *Spiniferites*. Taxonomic junior synonyms: *Hystrichosphaera* (as *Spiniferites nodosa*, according to Reid (1974, p.598) and Harland (1977b, p.98–99) — however, Lentin and Williams (1981, p.264) retained *Hystrichosphaera* (as *Spiniferites nodosa*); and *Leptodinium churchillii*, according to Harland (1977b, p.98–99) — however, the latter is now generally considered a taxonomic junior synonym of *Hystrichosphaera* (now *Spiniferites nodosa*). The name *Hystrichosphaera bentorii* was not validly published in Rossignol (1961, pl.1, figs.7–8), who did not provide a description, and in Rossignol (1962, p.132), who did not illustrate this taxon or provide a reference to an illustration. Motile equivalent: *Gonyaulax digitalis* (Pouchet, 1883) Kofoid, 1911, according to Wall and Dale (1967, p.352) and Dodge (1989, p.283). Age: Pleistocene–Holocene.

subsp. *bentorii*. Autonym. Holotype: Rossignol, 1964, pl.1, figs.3,7–8.

var. *bentorii*. Autonym. Holotype: Rossignol, 1964, pl.1, figs.3,7–8.

subsp. *budajenoensis* Sütő-Szentai, 1986, p.34–35, pl.1, fig.5. Holotype: Sütő-Szentai, 1986, pl.1, fig.5. This name was not validly published in Sütő-Szentai (1983, p.18, pl.2, fig.2) since that author did not give a description. Age: late Miocene.

"subsp. *coniunctus*" Sütő-Szentai, 1990, p.846–847, pl.5, fig.1. Holotype: Sütő-Szentai, 1990, pl.5, fig.1. **Name not validly published:** lodgement of holotype not specified (I.C.N. Article 40.7). This name was also not validly published in Sütő-Szentai (1988, p.355, pl.2, fig.5) since that author did not provide a description. Age: late Miocene.

var. *globus* Morzadec-Kerfourn, 1979, p.222,224, pl.31, fig.10. Holotype: Morzadec-Kerfourn, 1979, pl.31, fig.10. Age: Quaternary.

subsp. *granulatus* Fuchs and Sütő-Szentai, 1991, p.24, pl.9, figs.1,2 (two illustrations),3; text-fig.2, no.4 (two illustrations). Holotype: Fuchs and Sütő-Szentai, 1991, pl.9, fig.3; text-fig.2, no.4 (two illustrations).

This name was not validly published in Sütő-Szentai (1988, p.344, pl.2, fig.3) since that author did not provide a description. Age: late Miocene.

"subsp. *matraensis*" Sütő-Szentai, 1988, p.344. **Name not validly published:** no description. Age: late Miocene.

subsp. *oblongus* Sütő-Szentai, 1986, p.36–37, pl.2, fig.3; pl.3, fig.1. Holotype: Sütő-Szentai, 1986, pl.2, fig.3. This name was not validly published in Sütő-Szentai (1983, p.18, pl.2, fig.5) and Sütő-Szentai (1984, p.72) since these authors did not give a description. Age: late Miocene.

subsp. *pannonicus* Sütő-Szentai, 1986, p.35–36, pl.2, figs.1 (two illustrations), 2. Holotype: Sütő-Szentai, 1986, pl.2, fig.1 (two illustrations). This name was not validly published in Sütő-Szentai (1983, p.18, pl.2, fig.3; pl.3, fig.2) and Sütő-Szentai (1984, p.62) since these authors did not give a description. Age: late Miocene.

"subsp. *piriformis*" Sütő-Szentai, 1988, p.344. **Name not validly published:** no description. Age: late Miocene.

"subsp. *pseudooblongus*" Sütő-Szentai, 1983, p.18, pl.2, fig.6. **Name not validly published:** no description.

subsp. *truncatus* (Rossignol, 1964, p.85, pl.1, figs.5–6; pl.3, fig.1) Lentin and Williams, 1973, p.126. Holotype: Rossignol, 1964, pl.1, figs.5–6. Originally *Hystrichosphaera bentorii* var. *truncata*, subsequently (and now) *Spiniferites bentorii* subsp. *truncatus*. Age: Quaternary.

binxianensis Xu Jinli et al., 1997, p.103, pl.15, figs.2,5–8,11; pl.16, figs.1–2; pl.17, figs.1–2,9 ex He Chengquan et al., 2009, p.670. Holotype: Xu Jinli et al., 1997, pl.15, fig.6. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.670) validated the name by publishing an English diagnosis. Age: middle-late Eocene.

"*buccina*" (Davey and Williams, 1966a, p.42–43, pl.4, fig.1; text-figs.10–11) Sarjeant, 1970, p.75. Holotype: Davey and Williams, 1966a, pl.4, fig.1; text-fig.10. Originally *Hystrichosphaera*, subsequently *Spiniferites*. **Taxonomic senior synonym:** *Hystrichokibotium* (now *Spiniferites*) *pseudofurcatus*, according to Lentin and Williams (1973, p.126). N.I.A. Age: Eocene.

bullatus Beilstein, 1994, p.171–172, pl.26, figs.6–8. Holotype: Beilstein, 1994, pl.26, figs.6–7. Age: Campanian.

bulloideus (Deflandre and Cookson, 1955, p.264, pl.5, figs.3–4) Sarjeant, 1970, p.75. Holotype: Deflandre and Cookson, 1955, pl.5, figs.3–4. Originally *Hystrichosphaera*, subsequently (and now) *Spiniferites*. Taxonomic senior synonym: *Xanthidium* (as and now *Spiniferites*) *ramosus*, according to Harland (1977b, p.101–102) — however, Lentin and Williams (1981, p.259) retained *Hystrichosphaera* (as *Spiniferites*) *bulloidea*. Taxonomic junior synonym: *Spiniferites nanus*, according to Matsuoka (1983a, p.23) — however, Matsuoka (1991, table 2 — p.8) retained *Spiniferites nanus*. Motile equivalent: *Gonyaulax scrippsae* Kofoid, 1911, according to Wall and Dale (1967, p.352; 1968c, p.270) — however, see Head (1996b, p.1205). Age: Eocene–Miocene.

"*cambrus*" (Sah et al., 1970, p.144, pl.1, fig.3) Stover and Evitt, 1978, p.190. Holotype: Sah et al., 1970, pl.1, fig.3. Originally *Achomosphaera*, subsequently *Spiniferites*. **Taxonomic senior synonym:** *Galea* (now *Spiniferites*) *twistringiensis*, by implication in Jain (1982, p.51), who considered *Achomosphaera cambra* to be a taxonomic junior synonym (at subspecific rank) of *Hystrichosphaera ramosa* var. *multibrevis* (as *Spiniferites ramosus* subsp. *multibrevis*), which is now considered to be a taxonomic junior synonym (at specific rank) of *Galea* (now *Spiniferites*) *twistringiensis*. Age: Late Cretaceous.

"*ceratioides*" (Deflandre, 1937b, p.66–67, pl.12 [al. pl.9], figs.7–8) Sarjeant, 1970, p.76. Holotype: Deflandre, 1937b, pl.12 (al. pl.9), figs.7–8; Fensome et al., 1991, fig.1 — p.601; fig.1 — p.605. **NOW** *Xenascus*. Originally *Hystrichosphaera*, subsequently *Pseudoceratium*, thirdly *Spiniferites*, fourthly *Phoberocysta*, fifthly (and now) *Xenascus*. Taxonomic junior synonyms: *Endoceratium* (now *Xenascus*) *perforatum*, according to Davey and

Verdier (1971, p.27) — however, Yun Hyesu (1981, p.62) retained *Xenascus perforatus*; *Xenascus australensis*, according to Davey and Verdier (1971, p.26) — however, Lentin and Williams (1985, p.374) retained *Xenascus australensis*; *Odontochitina blastema*, according to Davey and Verdier (1971, p.27) — however, Stover and Helby (1987a, p.128) retained *Odontochitina* (as *Xenascus*) *blastema*. Age: Senonian.

chebca (Below, 1982c, p.35, pl.8, figs.7,8a–c,9) Lentin and Williams, 1993, p.604. Holotype: Below, 1982c, pl.8, figs.8a–c. Originally *Spiniferites multibrevis* subsp. *chebca*, subsequently (and now) *Spiniferites chebca*. N.I.A. Age: Hauterivian–Aptian.

choanus Matsuoka and Bujak, 1988, p.76–77, pl.14, figs.2,3a–b; text-fig.18. Holotype: Matsuoka and Bujak, 1988, pl.14, figs.3a–b; text-fig.18. Age: late Oligocene–early Miocene.

"?*cingulatus*" (Wetzel, 1933b, p.28, pl.4, fig.10) Sarjeant, 1970, p.76. Holotype: Wetzel, 1933b, pl.4, fig.10. **NOW** *Pterodinium*. Originally *Cymatiosphaera* (Appendix A), subsequently *Hystrichosphaera*, thirdly *Spiniferites*, fourthly *Spiniferites?*, fifthly (and now) *Pterodinium*. Questionable assignment: Stover and Evitt (1978, p.190). Taxonomic junior synonym: *Cymatiosphaera* (as *Spiniferites?*) *pteroata*, according to Below (1981a, p.114) — however, Pavlishina (1990, p.95) retained *Cymatiosphaera* (now *Pterodinium?*) *pteroata*. Age: Senonian.

"subsp. *cingulatus*". Autonym. Holotype: Wetzel, 1933b, pl.4, fig.10. **NOW** *Pterodinium cingulatum* subsp. *cingulatum*. Originally *Spiniferites cingulatus* subsp. *cingulatus*, subsequently *Spiniferites? cingulatus* subsp. *cingulatus*, thirdly (and now) *Pterodinium cingulatum* subsp. *cingulatum*.

"var. *cingulatus*". Autonym. Holotype: Wetzel, 1933b, pl.4, fig.10. **Now redundant**. Originally *Hystrichosphaera cingulata* var. *cingulata*, subsequently *Spiniferites cingulatus* var. *cingulatus*.

"subsp. *granulatus*" (Clarke and Verdier, 1967, p.45–46, pl.9, figs.5–6; text-fig.18) Lentin and Williams, 1973, p.127. Holotype: Clarke and Verdier, 1967, pl.9, fig.5; Jan du Chêne et al., 1986a, pl.88, figs.5–8. **NOW** *Pterodinium cingulatum* subsp. *granulatum*. Originally *Hystrichosphaera cingulata* var. *granulata*, subsequently *Spiniferites cingulatus* subsp. *granulatus*, thirdly *Spiniferites? cingulatus* subsp. *granulatus*, fourthly (and now) *Pterodinium cingulatum* subsp. *granulatum*. Age: Cenomanian.

"subsp. *intermedius*" (Cookson and Eisenack, 1974, p.64, pl.23, figs.8–9,11) Lentin and Williams, 1977b, p.149. Holotype: Cookson and Eisenack, 1974, pl.23, fig.8, lost according to Jan du Chêne et al. (1986a, p.274). **NOW** *Pterodinium cingulatum* subsp. *intermedium*. Originally *Spiniferites cingulatus* var. *intermedius*, subsequently *Spiniferites cingulatus* subsp. *intermedius*, thirdly *Spiniferites? cingulatus* subsp. *intermedius*, fourthly (and now) *Pterodinium cingulatum* subsp. *intermedium*. Age: Senonian.

"var. *intermedius*" Cookson and Eisenack, 1974, p.64, pl.23, figs.8–9,11. Holotype: Cookson and Eisenack, 1974, pl.23, fig.8, lost according to Jan du Chêne et al. (1986a, p.274). **NOW** *Pterodinium cingulatum* subsp. *intermedium*. Originally *Spiniferites cingulatus* var. *intermedius*, subsequently *Spiniferites cingulatus* subsp. *intermedius*, thirdly *Spiniferites? cingulatus* subsp. *intermedius*, fourthly (and now) *Pterodinium cingulatum* subsp. *intermedium*. Age: Senonian.

"subsp. *ovalis*" (Cookson and Eisenack, 1974, p.64–65, pl.23, fig.12a–b) Lentin and Williams, 1977b, p.149. Holotype: Cookson and Eisenack, 1974, pl.23, fig.12a–b, lost according to Jan du Chêne et al. (1986a, p.274). **NOW** *Pterodinium cingulatum* subsp. *ovale*. Originally *Spiniferites cingulatus* var. *ovalis*, subsequently *Spiniferites cingulatus* subsp. *ovalis*, thirdly *Spiniferites? cingulatus* subsp. *ovalis*, fourthly (and now) *Pterodinium cingulatum* subsp. *ovale*. Age: Paleocene.

"var. *ovalis*" Cookson and Eisenack, 1974, p.64–65, pl.23, fig.12a–b. Holotype: Cookson and Eisenack, 1974, pl.23, fig.12a–b, lost according to Jan du Chêne et al. (1986a, p.274). **NOW** *Pterodinium cingulatum* subsp. *ovale*. Originally *Spiniferites cingulatus* var. *ovalis*, subsequently *Spiniferites cingulatus* subsp. *ovalis*, thirdly *Spiniferites? cingulatus* subsp. *ovalis*, fourthly (and now) *Pterodinium cingulatum* subsp. *ovale*. Age: Paleocene.

"subsp. *perforatus*" (Clarke and Verdier, 1967, p.46–47, pl.9, figs.2–4; text-fig.19) Lentin and Williams, 1973, p.127. Holotype: Clarke and Verdier, 1967, pl.9, figs.2–3; Jan du Chêne et al., 1986a, pl.89, figs.1–3. Originally *Hystrichosphaera cingulata* var. *perforata*, subsequently *Spiniferites cingulatus* subsp. *perforatus*, thirdly *Spiniferites?* *cingulatus* subsp. *perforatus*. **Taxonomic senior synonym** (at subspecific rank): *Hystrichosphaera cingulata* var. *reticulata* (now *Pterodinium cingulatum* subsp. *reticulatum*), according to Clarke et al. (1968, p.181). Age: Cenomanian–mid Senonian.

"subsp. *polygonalis*" (Clarke and Verdier, 1967, p.47, pl.8, figs.7–8; text-fig.20) Lentin and Williams, 1973, p.127. Holotype: Clarke and Verdier, 1967, pl.8, fig.7; Jan du Chêne et al., 1986a, pl.89, figs.7–9. **NOW** *Pterodinium cingulatum* subsp. *polygonale*. Originally *Hystrichosphaera cingulata* var. *polygonalis*, subsequently *Spiniferites cingulatus* subsp. *polygonalis*, thirdly *Spiniferites?* *cingulatus* subsp. *polygonalis*, fourthly (and now) *Pterodinium cingulatum* subsp. *polygonale*. Taxonomic senior synonyms (at specific rank): *Hystrichosphaera* (now *Spiniferites*) *crassimurata*, according to Clarke et al. (1968, p.181) and *Cymatiosphaera* (now *Pterodinium?*) *pterota*, according to Pavlishina (1990, p.95) — however, Paul et al. (1994, p.722) retained *Hystrichosphaera cingulata* subsp. *polygonalis* (as *Pterodinium cingulatum* subsp. *polygonale*). Age: Cenomanian.

"var. *prominoseptatus*" Wilson in Slimani, 1994, p.104. **Name not validly published**: no description or illustration. **Taxonomic senior synonym**: *Impagidinium rigidaseptatum*, according to Slimani (2001a, p.193).

"subsp. *reticulatus*" (Davey and Williams, 1966a, p.39, pl.1, fig.10; pl.2, fig.4) Lentin and Williams, 1973, p.127. Holotype: Davey and Williams, 1966a, pl.1, fig.10; pl.2, fig.4. **NOW** *Pterodinium cingulatum* subsp. *reticulatum*. Originally *Hystrichosphaera cingulata* var. *reticulata*, subsequently *Spiniferites cingulatus* var. *reticulatus*, thirdly *Spiniferites cingulatus* subsp. *reticulatus*, fourthly *Spiniferites?* *cingulatus* subsp. *reticulatus*, fifthly (and now) *Pterodinium cingulatum* subsp. *reticulatum*. Taxonomic junior synonym: *Hystrichosphaera cingulata* var. *perforata*, according to Clarke et al. (1968, p.181). Age: Cenomanian.

"var. *reticulatus*" (Davey and Williams, 1966a, p.39, pl.1, fig.10; pl.2, fig.4) Davey and Verdier, 1971, p.33. Holotype: Davey and Williams, 1966a, pl.1, fig.10; pl.2, fig.4. **NOW** *Pterodinium cingulatum* subsp. *reticulatum*. Originally *Hystrichosphaera cingulata* var. *reticulata*, subsequently *Spiniferites cingulatus* var. *reticulatus*, thirdly *Spiniferites cingulatus* subsp. *reticulatus*, fourthly *Spiniferites?* *cingulatus* subsp. *reticulatus*, fifthly (and now) *Pterodinium cingulatum* subsp. *reticulatum*. Taxonomic junior synonym: *Hystrichosphaera cingulata* var. *perforata*, according to Clarke et al. (1968, p.181). Age: Cenomanian.

"var. *spinatus*" Song Zhichen in Song Zhichen et al., 1985, p.43, pl.2, fig.5. Holotype: Song Zhichen et al., 1985, pl.2, fig.5; He Chengquan et al., 2009, pl.133, fig.7. **NOW** *Spiniferites spinatus*. Originally *Spiniferites cingulatus* var. *spinatus*, subsequently (and now) *Spiniferites spinatus*. Age: early-middle Pleistocene.

compactus Cookson and Eisenack, 1974, p.59, pl.21, fig.11. Holotype: Cookson and Eisenack, 1974, pl.21, fig.11. Age: ?Aptian–Albian.

confossus Davey, 1979b, p.559, pl.8, figs.1–4. Holotype: Davey, 1979b, pl.8, figs.1–3. Age: late Aptian.

coniconcavus De Schepper et al., 2004, p.628, figs.5.1–20. Holotype: De Schepper et al., figs.5.1–6. Age: late early–early late Pliocene.

cooksoniae Lentin and Williams, 1977b, p.149. Holotype: Cookson and Eisenack, 1974, pl.27, fig.7. Originally *Spiniferites granulatus* (name illegitimate), subsequently (and now) *Spiniferites cooksoniae*. Substitute name for *Spiniferites granulatus* Cookson and Eisenack, 1974, p.59, pl.27, fig.7 (an illegitimate name). Age: ?Aptian–Albian.

?**corniger** (Wetzel, 1933b, p.39, pl.5, fig.6 ex Deflandre, 1937b, p.66) Sarjeant, 1970, p.76. Holotype: Wetzel, 1933b, pl.5, fig.6. Originally *Hystrichosphaera*, subsequently *Spiniferites*, thirdly (and now) *Spiniferites?*.

Questionable assignment: Stover and Evitt (1978, p.191). This epithet, meaning horn-bearing, is correctly rendered as "*corniger*" when masculine. Age: Late Cretaceous.

"*cornutus*" (Gerlach, 1961, p.180, pl.27, figs.10–12) Sarjeant, 1970, p.76. Emendation: Stover and Hardenbol, 1994, p.38–39, as *Spiniferella cornuta*. Holotype: Gerlach, 1961, pl.27, figs.10–12. **NOW** *Spiniferella*. Originally *Hystrichosphaera*, subsequently *Spiniferites*, thirdly (and now) *Spiniferella*. Age: middle Oligocene–middle Miocene.

"subsp. *aspinatus*" (Cookson and Eisenack, 1974, p.63, pl.23, fig.6) Lentin and Williams, 1977b, p.149. Holotype: Cookson and Eisenack, 1974, pl.23, fig.6. **NOW** *Impagidinium aspinatum*. Originally *Spiniferites cornutus* var. *aspinatus*, subsequently *Spiniferites cornutus* subsp. *aspinatus*, thirdly (and now) *Impagidinium aspinatum*. Age: Paleocene.

"var. *aspinatus*" Cookson and Eisenack, 1974, p.63, pl.23, fig.6. Holotype: Cookson and Eisenack, 1974, pl.23, fig.6. **NOW** *Impagidinium aspinatum*. Originally *Spiniferites cornutus* var. *aspinatus*, subsequently *Spiniferites cornutus* subsp. *aspinatus*, thirdly (and now) *Impagidinium aspinatum*. Age: Paleocene.

"subsp. *cornutus*". Autonym. Holotype: Gerlach, 1961, pl.27, figs.10–12. **Now redundant**. Taxonomic junior synonyms (at subspecific rank): *Spiniferites cornutus* var. *opisthophorus* (as *Spiniferites cornutus* subsp. *opisthophorus*), according to Below (1982c, p.33); *Hystrichosphaera cornuta* var. *laevimura* (as *Spiniferites cornutus* subsp. *laevimurus*, now *Spiniferella cornuta* subsp. *laevimura*), according to Cookson and Eisenack (1974, p.62) — however, Below (1982c, p.33) retained *Spiniferites cornutus* subsp. *laevimurus* (now *Spiniferella cornuta* subsp. *laevimura*).

"var. *cornutus*". Autonym. Holotype: Gerlach, 1961, pl.27, figs.10–12. **Now redundant**. Originally *Hystrichosphaera cornuta* var. *cornuta*, subsequently *Spiniferites cornutus* var. *cornutus*. Taxonomic junior synonyms (at subspecific rank): *Spiniferites cornutus* var. *opisthophorus* (as *Spiniferites cornutus* subsp. *opisthophorus*), according to Below (1982c, p.33); *Hystrichosphaera cornuta* var. *laevimura* (as *Spiniferites cornutus* subsp. *laevimurus*, now *Spiniferella cornuta* subsp. *laevimura*), according to Cookson and Eisenack (1974, p.62) — however, Below (1982c, p.33) retained *Spiniferites cornutus* subsp. *laevimurus* (now *Spiniferella cornuta* subsp. *laevimura*).

"subsp. *crassifurcatus*" (Cookson and Eisenack, 1974, p.63, pl.22, fig.9) Lentin and Williams, 1977b, p.150. Holotype: Cookson and Eisenack, 1974, pl.22, fig.9. Originally *Spiniferites cornutus* var. *crassifurcatus*, subsequently *Spiniferites cornutus* subsp. *crassifurcatus*. **Taxonomic senior synonym** (at subspecific rank): *Hystrichosphaera cornuta* var. *laevimura* (as *Spiniferites cornutus* subsp. *laevimurus*, now *Spiniferella cornuta* subsp. *laevimura*), according to Below (1982c, p.33). Age: Albian–Cenomanian.

"var. *crassifurcatus*" Cookson and Eisenack, 1974, p.63, pl.22, fig.9. Holotype: Cookson and Eisenack, 1974, pl.22, fig.9. Originally *Spiniferites cornutus* var. *crassifurcatus*, subsequently *Spiniferites cornutus* subsp. *crassifurcatus*. **Taxonomic senior synonym** (at subspecific rank): *Hystrichosphaera cornuta* var. *laevimura* (as *Spiniferites cornutus* subsp. *laevimurus*, now *Spiniferella cornuta* subsp. *laevimura*), according to Below (1982c, p.33). Age: Albian–Cenomanian.

"subsp. *flexus*" He Chengquan, 1991, p.151, pl.22, fig.4. Holotype: He Chengquan, 1991, pl.22, fig.4. **NOW** *Spiniferella cornuta* subsp. *flexa*. Originally *Spiniferites cornutus* subsp. *flexus*, subsequently (and now) *Spiniferella cornuta* subsp. *flexa*. Age: Paleocene.

"subsp. *laevimurus*" (Davey and Williams, 1966a, p.44–45, pl.4, fig.5) Lentin and Williams, 1973, p.127. Holotype: Davey and Williams, 1966a, pl.4, fig.5; Bujak et al., 1980, pl.4, figs.9,12. **NOW** *Spiniferella cornuta* subsp. *laevimura*. Originally *Hystrichosphaera cornuta* var. *laevimura*, subsequently *Spiniferites cornutus* subsp. *laevimurus*, thirdly (and now) *Spiniferella cornuta* subsp. *laevimura*. Taxonomic senior synonym (at subspecific rank): *Hystrichosphaera cornuta* var. *cornuta* (as *Spiniferites cornutus* subsp. *cornutus*, now *Spiniferella cornuta* subsp. *cornuta*), according to Cookson and Eisenack (1974, p.62) — however, Below (1982c, p.33) retained *Hystrichosphaera cornuta* var. *laevimura* (as *Spiniferites cornutus* subsp. *laevimurus*, now *Spiniferella cornuta* subsp. *laevimura*). Taxonomic junior synonyms (at

subspecific rank): *Spiniferites cornutus* var. *crassifurcatus* (as *Spiniferites cornutus* subsp. *crassifurcatus*), and *Spiniferites cornutus* var. *normalis* (as *Spiniferites cornutus* subsp. *normalis*), both according to Below (1982c, p.33). Age: early Eocene.

"subsp. *normalis*" (Cookson and Eisenack, 1974, p.62, pl.23, fig.5) Lentin and Williams, 1977b, p.150. Holotype: Cookson and Eisenack, 1974, pl.23, fig.5. Originally *Spiniferites cornutus* var. *normalis*, subsequently *Spiniferites cornutus* subsp. *normalis*. **Taxonomic senior synonym** (at subspecific rank): *Hystrichosphaera cornuta* var. *laevimura* (as *Spiniferites cornutus* subsp. *laevimurus*, now *Spiniferella cornuta* subsp. *laevimura*), according to Below (1982c, p.33). Age: Paleocene.

"var. *normalis*" Cookson and Eisenack, 1974, p.62, pl.23, fig.5. Holotype: Cookson and Eisenack, 1974, pl.23, fig.5. Originally *Spiniferites cornutus* var. *normalis*, subsequently *Spiniferites cornutus* subsp. *normalis*. **Taxonomic senior synonym** (at subspecific rank): *Hystrichosphaera cornuta* var. *laevimura* (as *Spiniferites cornutus* subsp. *laevimurus*, now *Spiniferella cornuta* subsp. *laevimura*), according to Below (1982c, p.33). Age: Paleocene.

"subsp. *opisthophorus*" (Cookson and Eisenack, 1974, p.62, pl.23, figs.1–4) Lentin and Williams, 1977b, p.150. Holotype: Cookson and Eisenack, 1974, pl.23, fig.1. Originally *Spiniferites cornutus* var. *opisthophorus*, subsequently *Spiniferites cornutus* subsp. *opisthophorus*. **Taxonomic senior synonym** (at subspecific rank): *Hystrichosphaera cornuta* var. *cornuta*, the autonym (as *Spiniferites cornutus* subsp. *cornutus*), according to Below (1982c, p.33). Age: Paleocene.

"var. *opisthophorus*" Cookson and Eisenack, 1974, p.62, pl.23, figs.1–4. Holotype: Cookson and Eisenack, 1974, pl.23, fig.1. Originally *Spiniferites cornutus* var. *opisthophorus*, subsequently *Spiniferites cornutus* subsp. *opisthophorus*. **Taxonomic senior synonym** (at subspecific rank): *Hystrichosphaera cornuta* var. *cornuta*, the autonym (as *Spiniferites cornutus* subsp. *cornutus*), according to Below (1982c, p.33). Age: Paleocene.

"subsp. *ovalis*" He Chengquan, 1991, p.151–152, pl.22, figs.1–2. Holotype: He Chengquan, 1991, pl.22, figs.1–2. **NOW** *Spiniferella cornuta* subsp. *ovalis*. Originally *Spiniferites cornutus* subsp. *ovalis*, subsequently (and now) *Spiniferella cornuta* subsp. *ovalis*. Age: Paleocene.

"subsp. *sinefurcatus*" (Cookson and Eisenack, 1974, p.63, pl.22, fig.8) Lentin and Williams, 1977b, p.150. Holotype: Cookson and Eisenack, 1974, pl.22, fig.8. Originally *Spiniferites cornutus* var. *sinefurcatus*, subsequently *Spiniferites cornutus* subsp. *sinefurcatus*. **Taxonomic senior synonym** (at subspecific rank): *Spiniferites ramosus* var. *brevifurcatus* (as *Spiniferites ramosus* subsp. *brevifurcatus*), according to Below (1982c, p.33). Age: Albian–Cenomanian.

"var. *sinefurcatus*" Cookson and Eisenack, 1974, p.63, pl.22, fig.8. Holotype: Cookson and Eisenack, 1974, pl.22, fig.8. Originally *Spiniferites cornutus* var. *sinefurcatus*, subsequently *Spiniferites cornutus* subsp. *sinefurcatus*. **Taxonomic senior synonym** (at subspecific rank): *Spiniferites ramosus* var. *brevifurcatus* (as *Spiniferites ramosus* subsp. *brevifurcatus*), according to Below (1982c, p.33). Age: Albian–Cenomanian.

"*crassimuratus*" (Davey and Williams, 1966a, p.39, pl.1, fig.11) Sarjeant, 1970, p.76. Holotype: Davey and Williams, 1966a, pl.1, fig.11. Originally *Hystrichosphaera*, subsequently *Spiniferites*, thirdly *Pterodinium*. **Taxonomic senior synonym:** *Cymatiosphaera* (as *Spiniferites*?, now *Pterodinium*) *pterota*, according to Kjellström (1973, p.44) and Pavlishina (1990, p.95). Taxonomic junior synonym (at specific rank): *Hystrichosphaera cingulata* var. *polygonalis*, according to Clarke et al. (1968, p.181) — however, Paul et al. (1994, p.722) retained *Hystrichosphaera cingulata* var. *polygonalis* (as *Pterodinium cingulatum* subsp. *polygonale*). Age: Cenomanian.

"*crassipellis*" (Deflandre and Cookson, 1955, p.265, pl.6, figs.2–3; text-fig.20) Sarjeant, 1970, p.76. Holotype: Deflandre and Cookson, 1955, pl.6, figs.2–3. **NOW** *Achomosphaera*. Originally *Hystrichosphaera*, subsequently *Spiniferites*, thirdly (and now) *Achomosphaera*. Taxonomic junior synonyms: *Achomosphaera recurvata* and *Hystrichosphaera* (subsequently *Spiniferites*) *membranosa*, according to Quattrocchio and Sarjeant (1996, p.116). Age: early Eocene.

crassivariabilis Strauss in Strauss et al., 2001, p.411, pl.4, figs.3–5; text-fig.4 (part). Holotype: Strauss et al., pl.4, fig.3. This name was not validly published in Pross (1997, p.97) since no holotype was designated; Pross attributed this name to an unpublished species by Strauss. Age: middle-late Miocene.

?***cristatus*** (Conrad, 1941, p.4–5, pl.1, fig.D; text-fig.2D) Lentin and Williams, 1973, p.128. Holotype: Conrad, 1941, pl.1, fig.D; text-fig.2D. Originally *Hystrichosphaera*, subsequently *Spiniferites*, thirdly (and now) *Spiniferites?*. Questionable assignment: Stover and Evitt (1978, p.191) as a problematic species. Age: Maastrichtian.

cruciformis Wall and Dale in Wall et al., 1973, p.21–22, pl.1, figs.1–6; pl.2, figs.1–4. Holotype: Wall et al., 1973, pl.1, figs.2–3. Age: early Holocene.

"***cryptovesiculatus***" (Hansen, 1977, p.14–15, figs.9–10,18C,E–F,19A–B) Stover and Williams, 1987, p.117. Holotype: Hansen, 1977, figs.18C,E–F. **NOW** *Hafniasphaera*. Originally (and now) *Hafniasphaera*, subsequently *Spiniferites*. Age: Danian.

delicatus Reid, 1974, p.601–602, pl.2, figs.20–22. Holotype: Reid, 1974, pl.2, figs.20–22. Age: Holocene.

dentatus (Gocht, 1959, p.75–76, pl.4, fig.11; pl.7, fig.19) Lentin and Williams, 1973, p.128. Emendation: Duxbury, 1977, p.49–50, as *Spiniferites? dentatus*. Holotype: Gocht, 1959, pl.4, fig.11. Originally *Hystrichosphaera?*, subsequently *Spiniferites?*, thirdly (and now) *Spiniferites*. Duxbury (1977, p.49) retained the species in *Spiniferites* without question. Questionable assignment: Lentin and Williams (1973, p.128). Age: late Hauterivian.

ellipsoideus Matsuoka, 1983b, p.132–133, pl.13, figs.6a–b,7a–b. Holotype: Matsuoka, 1983b, pl.13, figs.6a–b. Age: middle-late Miocene.

elongatus Reid, 1974, p.602–603, pl.3, figs.23–24. Holotype: Reid, 1974, pl.3, figs.23–24. Originally (and now) *Spiniferites*, subsequently *Gonyaulax* (Appendix B). Because we follow the dual approach to the nomenclature of dinoflagellates (see Head et al. 2016), we retain this species in *Spiniferites*. Motile equivalent: *Gonyaulax spinifera* (Claparède and Lachmann, 1859) Diesing, 1866, according to Dale (1976, table 2 — p.45). Age: Holocene.

falcipediis Warny and Wrenn, 1997, p.291,293,297, pl.5, figs.1–4; pl.6, figs.1–4; pl.7, figs.1–2. Holotype: Warny and Wrenn, 1997, pl.5, figs.1–4. Age: late Miocene–early Pliocene.

fenestratus Duxbury, 2001, p.114–115, fig.14, nos.1–6. Holotype: Duxbury, 2001, fig.14, no.1. Age: late Hauterivian–mid Barremian.

firmus Matsuoka, 1983b, p.134, pl.14, figs.4a–b,5a–c. Holotype: Matsuoka, 1983b, pl.14, figs.5a–c; He Chengquan et al., 2009, pl.131, fig.14. Age: early Pleistocene.

"***fluens***" (Hansen, 1977, p.16, figs.13–14,19C–D) Stover and Williams, 1987, p.117. Holotype: Hansen, 1977, figs.19C–D. **NOW** *Hafniasphaera*. Originally (and now) *Hafniasphaera*, subsequently *Spiniferites*. Age: late Maastrichtian–Danian.

formosus Shaw Chenglong, 1999b, p.177–178, figs.54–56. Holotype: Shaw Chenglong, 1999b, figs.54–56. Age: Eocene.

foveolatus Schiøler, 1993, p.111, pl.5, figs.1–6. Holotype: Schiøler, 1993, pl.5, fig.2. Age: Maastrichtian.

fragilis He Chengquan, 1991, p.152, pl.23, fig.12. Holotype: He Chengquan, 1991, pl.23, fig.12. Age: Paleocene.

frigidus Harland and Reid in Harland et al., 1980, p.213–216, figs.2A–J; text-fig.3. Holotype: Harland et al., 1980, figs.2G–J; de Vernal et al., 1992, pl.5, fig.8. Taxonomic junior synonym: *Rottnestia amphicavata*, according to Bujak (1984, p.191) — however, de Vernal et al. (1992, p.324) retained *Rottnestia amphicavata*. Age: Holocene.

"*furcatus*" (Ehrenberg, 1837b, pl.1, figs.12,14) Lentin and Williams, 1973, p.128. Holotype: not designated. **Combination not validly published:** not intended and basionym not fully referenced. Originally *Xanthidium furcatum* (Appendix A), subsequently *Hystrichosphaera furcata*, thirdly *Ovum hispidum* subsp. *furcatum* (combination not validly published), fourthly *Spiniferites furcatus* (combination not validly published). **Taxonomic senior synonym:** *Xanthidium* (as *Hystrichosphaera*, now *Spiniferites*) *ramosum*, according to Davey and Williams (1966a, p.29–33). Taxonomic junior synonym: *Geodia? tripunctata* (Appendix A), according to Sarjeant (1964a, p.195). Age: Late Cretaceous.

galeaformis Sütő, 1994, p.456, pl.8, figs.1–2. Holotype: Sütő, 1994, pl.8, fig.1. Age: late Miocene.

"*goodmanii*" (Edwards, 1982, p.110,112–113, pl.1, figs.1–3,5–6,8–9) Stover and Williams, 1987, p.117. Holotype: Edwards, 1982, pl.1, figs.1–3. **NOW** *Hafniasphaera*. Originally (and now) *Hafniasphaera*, subsequently *Spiniferites*. Age: early Eocene.

gracilimembranaceus Strauss and Lund, 1992, p.169–170, pl.4, figs.7–9. Holotype: Strauss and Lund, 1992, pl.4, fig.9. Age: middle Miocene.

"*graciosus*" (Hansen, 1977, p.15, figs.11–12,18B,D) Stover and Williams, 1987, p.117. Holotype: Hansen, 1977, fig.18B. **NOW** *Hafniasphaera*. Originally (and now) *Hafniasphaera*, subsequently *Spiniferites*. Age: Danian.

"*grallaeformis*" (Brosius, 1963, p.42, pl.5, fig.3; text-fig.2) Strauss et al. 2001, p.412. Holotype: Brosius, 1963, pl.5, fig.3. **Combination not validly published:** basionym not fully referenced. **NOW** *Achomosphaera*. Originally *Hystrichosphaeridium*, subsequently (and now) *Achomosphaera*, thirdly *Spiniferites* (combination not validly published). Taxonomic junior synonym: *Spiniferites solidago*, according to Strauss et al. (2001, p.412). Age: Oligocene.

"*granulatus*" Cookson and Eisenack, 1974, p.59, pl.27, fig.7. Holotype: Cookson and Eisenack, 1974, pl.27, fig.7. **Name illegitimate — senior homonym:** *Spiniferites granulatus* (Davey, 1969b) Lentin and Williams, 1973. **Substitute name:** *Spiniferites cooksoniae*. Originally *Spiniferites granulatus* (name illegitimate), subsequently (and now) *Spiniferites cooksoniae*. Age: ?Aptian–Albian.

granulatus (Davey, 1969b, p.4–5, pl.1, figs.4–7) Lentin and Williams, 1973, p.128. Holotype: Davey, 1969b, pl.1, figs.4–7. Junior homonym: *Spiniferites granulatus* Cookson and Eisenack, 1974. Originally *Hystrichosphaera*, subsequently (and now) *Spiniferites*. Age: Maastrichtian–?Danian.

hainanensis Sun Xuekun and Song Zhichen, 1992, p.49, pl.1, fig.12; pl.2, figs.1–2. Holotype: Sun Xuekun and Song Zhichen, 1992, pl.1, fig.12; He Chengquan et al., 2009, pl.133, fig.1. Age: Quaternary.

"*heterostylus*" (Heisecke, 1970, p.238,240, pl.5, figs.1–4; pl.6, figs.4–5) Lentin and Williams, 1973, p.128. Holotype: Heisecke, 1970, pl.5, figs.3–4; pl.6, fig.4. **NOW** *Achomosphaera*. Originally *Hystrichosphaera*, subsequently *Spiniferites*, thirdly (and now) *Achomosphaera*. Age: Danian.

hexatypicus Matsuoka, 1983b, p.133–134, pl.13, figs.1a–b,2a–b,3; text-figs.18A–B. Holotype: Matsuoka, 1983b, pl.13, figs.1a–b. Taxonomic junior synonym: *Spiniferites ovatus* Bujak, according to Bujak and Matsuoka (1986, p.239). Age: middle-late Miocene.

"*hirundo*" (Eisenack, 1958a, p.404–405, pl.24, fig.12) Sarjeant, 1981, p.123. Emendation: Sarjeant, 1985a, p.76–77, as *Achomosphaera hirundo*. Holotype: Eisenack, 1958a, pl.24, fig.12. **NOW** *Cordosphaeridium?*. Originally *Hystrichosphaeridium*, subsequently *Achomosphaera*, thirdly *Lanternosphaeridium*, fourthly (and now) *Cordosphaeridium?*, fifthly *Spiniferites?*. Questionable assignment: Sarjeant (1981, p.123). N.I.A. Age: Early Cretaceous.

"*hyalospinosus*" (Hansen, 1977, p.14, figs.7–8,18A) Stover and Williams, 1987, p.117. Holotype: Hansen, 1977, fig.18A. **NOW** *Hafniasphaera*. Originally (and now) *Hafniasphaera*, subsequently *Spiniferites*. Age: Danian.

hyperacanthus (Deflandre and Cookson, 1955, p.264–265, pl.6, fig.7) Cookson and Eisenack, 1974, p.59. Holotype: Deflandre and Cookson, 1955, pl.6, fig.7. Originally *Hystrichosphaera*, subsequently *Achomosphaera*, thirdly (and now) *Spiniferites*. Taxonomic junior synonym (at specific rank): *Hystrichosphaera furcata* var. *multiplicata* (as *Spiniferites ramosus* subsp. *multiplicatus*), according to Matsuoka (1985a, p.35) — however, Londeix et al. (2009, p.66) retained the latter taxon. Motile equivalent: *Gonyaulax spinifera* complex, according to Matsuoka et al. (1989, p.94). Reid (1974, p.603) also proposed this combination. Age: Miocene.

"inaequalis" Wall and Dale in Wall et al., 1973, p.22, pl.1, figs.7–8. Holotype: Wall et al., 1973, pl.1, figs.7–8. **NOW** *Impagidinium*. Originally *Spiniferites*, subsequently (and now) *Impagidinium*. Age: Holocene.

incertus (Klumpp, 1953, p.389–390, pl.17, figs.1–2) Sarjeant, 1981, p.109–110. Emendations: Morgenroth, 1966a, p.15, as *Hystrichosphaera incerta*; Sarjeant, 1981, p.109–110, as *Spiniferites incertus*. Holotype: Klumpp, 1953, pl.17, figs.1–2. Originally *Areoligera*, subsequently *Hystrichosphaera*, thirdly (and now) *Spiniferites*. Taxonomic junior synonym: *Hystrichokibotium* (now *Spiniferites*) *pseudofurcatum*, according to Morgenroth (1966a, p.15) — however, Sarjeant (1981, p.108–109) retained *Hystrichokibotium* (as and now *Spiniferites*) *pseudofurcatum*. Age: late Eocene.

jarvisii Pearce, 2010, p.53,55, pl.6, figs.2–5. Holotype: Pearce, 2010, pl.6, figs.2–5. Age: early Campanian.

katatonos Corradini, 1973, p.169, pl.25, figs.3a–c,6a–b; pl.37, figs.1–2. Holotype: Corradini, 1973, pl.25, figs.3a–c. Age: Late Cretaceous–Paleocene.

lasmus Reid, 1974, p.604–605, pl.3, figs.25–27. Holotype: Reid, 1974, pl.3, figs.25–27. Age: Holocene.

lenzii Below, 1982c, p.34, pl.7, figs.7a–b; pl.8, figs.3a–b,6a–b; text-fig.7. Holotype: Below, 1982c, pl.7, figs.7a–b. Age: Albian.

"leptodermus" (Maier, 1959, p.321–322, pl.33, figs.5–6) Sarjeant, 1970, p.76. Holotype: Maier, 1959, pl.33, fig.5; Sarjeant, 1983, pl.1, fig.2; pl.6, figs.1–2; pl.7, fig.4. Originally *Hystrichosphaeridium*, subsequently *Hystrichosphaera*, thirdly *Spiniferites*. **Taxonomic senior synonym:** *Hystrichosphaeridium* (as *Achomosphaera*) *alcicornu*, according to Sarjeant (1983, p.100). Age: middle Oligocene–late Miocene.

ludhamensis Head, 1996a, p.557, fig.12, nos.3–14; fig.13; fig.14, nos.1–3. Holotype: Head, 1996a, fig.12, nos.5–9. Age: early Pleistocene (Antian).

?magnoserratus (Cookson and Eisenack, 1962b, p.490, pl.3, figs.7–8) Stover and Evitt, 1978, p.191. Holotype: Cookson and Eisenack, 1962b, pl.3, figs.7–8. Originally *Pterodinium*, subsequently (and now) *Spiniferites?*, thirdly *Gonyaulacysta*. Lentin and Williams (1985, p.154) questionably retained this species in *Spiniferites*. Questionable assignment: Stover and Evitt (1978, p.191). Age: Aptian–?Albian.

maisensis Sütő, 1994, p.456–457, pl.1, figs.1–2, text-fig.7 (al. pl.A), nos.1a–b. Holotype: Sütő, 1994, pl.1, fig.1. Age: late Miocene.

"makropterus" Cookson and Eisenack, 1982, p.47–48, pl.7, figs.1–3. Holotype: Cookson and Eisenack, 1982, pl.7, fig.2. **NOW** *Pterodinium?*. Originally *Spiniferites*, subsequently (and now) *Pterodinium?*. Age: Middle Cretaceous.

manumii (Lund, 2002, p.87–88, pl.1, figs.1–7) Schiøler, 2005, p.30. Emendation: Schiøler, 2005, p.30. Holotype: Lund, 2002, pl.1, figs.1–2. Originally *Pseudospiniferites*, subsequently (and now) *Spiniferites*. Age: early Oligocene.

?maranhensis (Regali et al., 1974, p.291, pl.23, fig.3) Lentin and Williams, 1981, p.263. Holotype: Regali et al., 1974, pl.23, fig.3. Originally *Hystrichosphaeridium*, subsequently (and now) *Spiniferites?*. Questionable assignment: Lentin and Williams (1981, p.263). Age: Albian–Cenomanian.

membranaceus (Rossignol, 1964, p.86, pl.1, figs.4,9–10; pl.3, figs.7,12) Sarjeant, 1970, p.76. Holotype: Rossignol, 1964, pl.1, figs.4,9–10. Originally *Hystrichosphaera furcata* var. *membranacea*, subsequently *Hystrichosphaera ramosa* var. *membranacea*, thirdly *Hystrichosphaera membranacea*, fourthly (and now) *Spiniferites membranaceus*, fifthly *Gonyaulax membranacea*. Because we follow the dual approach to the nomenclature of dinoflagellates (see Head et al. 2016), we retain this species in *Spiniferites*. Motile equivalent: *Gonyaulax spinifera* (Claparède and Lachmann, 1859) Diesing, 1866, according to Dale (1976, table 2 — p.45) and Dodge (1989, p.289). Age: Pleistocene–Holocene.

"*membranispinus*" O'Connor and Walker, 1993, p.151. **Name not validly published:** no description or illustration.

"*membranosus*" (Archangelsky, 1969b, p.197,199, pl.3, figs.1–4) Lentin and Williams, 1973, p.128. Holotype: Archangelsky, 1969b, pl.3, figs.1–3. Originally *Hystrichosphaera*, subsequently (and now) *Spiniferites*. **Taxonomic senior synonym:** *Hystrichosphaera* (as and now *Achomosphaera*) *crassipellis*, according to Quattrocchio and Sarjeant (1996, p.116). Age: late Eocene.

microceras Cookson and Eisenack, 1974, p.60–61, pl.22, figs.10–12; pl.24, figs.1–2. Holotype: Cookson and Eisenack, 1974, pl.24, fig.2. Age: Paleocene.

subsp. *laticornutus* (Cookson and Eisenack, 1974, p.61, pl.22, fig.11) Lentin and Williams, 1977b, p.151. Holotype: Cookson and Eisenack, 1974, pl.22, fig.11. Originally *Spiniferites microceras* var. *laticornutus*, subsequently (and now) *Spiniferites microceras* subsp. *laticornutus*. Age: Paleocene.

"var. *laticornutus*" Cookson and Eisenack, 1974, p.61, pl.22, fig.11. Holotype: Cookson and Eisenack, 1974, pl.22, fig.11. **NOW** *Spiniferites microceras* subsp. *laticornutus*. Originally *Spiniferites microceras* var. *laticornutus*, subsequently (and now) *Spiniferites microceras* subsp. *laticornutus*. Age: Paleocene.

subsp. *microceras*. Autonym. Holotype: Cookson and Eisenack, 1974, pl.24, fig.2.

"var. *microceras*". Autonym. Holotype: Cookson and Eisenack, 1974, pl.24, fig.2. **Now redundant.**

subsp. *opisthophorus* (Cookson and Eisenack, 1974, p.61, pl.22, fig.12) Lentin and Williams, 1977b, p.152. Holotype: Cookson and Eisenack, 1974, pl.22, fig.12. Originally *Spiniferites microceras* var. *opisthophorus*, subsequently (and now) *Spiniferites microceras* subsp. *opisthophorus*. Age: Paleocene.

"var. *opisthophorus*" Cookson and Eisenack, 1974, p.61, pl.22, fig.12. Holotype: Cookson and Eisenack, 1974, pl.22, fig.12. **NOW** *Spiniferites microceras* subsp. *opisthophorus*. Originally *Spiniferites microceras* var. *opisthophorus*, subsequently (and now) *Spiniferites microceras* subsp. *opisthophorus*. Age: Paleocene.

mirabilis (Rossignol, 1964, p.86–87, pl.2, figs.1–3; pl.3, figs.4–5) Sarjeant, 1970, p.76. Holotype: Rossignol, 1964, pl.2, figs.1–2. Originally *Hystrichosphaera*, subsequently (and now) *Spiniferites*. Motile equivalent: *Gonyaulax spinifera* (Claparède and Lachmann, 1859) Diesing, 1866, according to Wall and Dale (1967, p.352; 1968c, p.270) and Dodge (1989, p.289). Age: Pleistocene.

monilis (Davey and Williams, 1966a, p.45, pl.5, fig.2) Sarjeant, 1970, p.76. Emendation: Eaton, 1976, p.282, as *Spiniferites monilis*. Holotype: Davey and Williams, 1966a, pl.5, fig.2; Bujak et al., 1980, pl.4, figs.7–8. Originally *Hystrichosphaera*, subsequently (and now) *Spiniferites*. Age: early Eocene.

"*multibrevis*" (Davey and Williams, 1966a, p.35–36, pl.1, fig.4; pl.4, fig.6; text-fig.9) Below, 1982c, p.35. Holotype: Davey and Williams, 1966a, pl.4, fig.6. Originally *Hystrichosphaera ramosa* var. *multibrevis*, subsequently *Spiniferites ramosus* var. *multibrevis*, thirdly *Spiniferites ramosus* subsp. *multibrevis*, fourthly *Spiniferites multibrevis*. **Taxonomic senior synonym** (at specific rank): *Galea* (now *Spiniferites*) *twistingiensis*, according to Sarjeant (1983, p.94–95). **Taxonomic junior synonym** (at subspecific rank): *Achomosphaera* (as *Spiniferites*) *cambrata*, according to Jain (1982, p.51). Age: Hauterivian.

"subsp. *chebca*" Below, 1982c, p.35, pl.8, figs.7,8a–c,9. Holotype: Below, 1982c, pl.8, figs.8a–c. **NOW** *Spiniferites chebca*. Originally *Spiniferites multibrevis* subsp. *chebca*, subsequently (and now) *Spiniferites chebca*. N.I.A. Age: Hauterivian–Aptian.

"subsp. *multibrevis*". Autonym. Holotype: Davey and Williams, 1966a, pl.4, fig.6. **Now redundant**.

"subsp. *seghiris*" Below, 1982c, p.35–36, pl.8, figs.4a–b,5a–b. Holotype: Below, 1982c, pl.8, figs.4a–b. **NOW** *Spiniferites seghiris*. Originally *Spiniferites multibrevis* subsp. *seghiris*, subsequently (and now) *Spiniferites seghiris*. Age: late Hauterivian.

multisphaerus Price and Pospelova, 2014, p.107,113–115, pl.1, figs.1–13; pl.2, figs.1–12; pl.3, figs.7–9; pl.4, figs.4–9; pl.5, figs.4–11; text-fig.3. Holotype: Price and Pospelova, 2014, pl.1, figs.1–13. Age: late Quaternary.

multispinulus Pearce, 2010, p.55–56, pl.7, figs.1–6. Holotype: Pearce, 2010, pl.7, figs.1–6. Age: middle early Campanian.

"*nanus*" Matsuoka, 1976, p.111, pl.28, figs.1–3. Holotype: Matsuoka, 1976, p.111, pl.28, figs.1–2. **Taxonomic senior synonym:** *Hystrichosphaera* (as *Spiniferites*) *bulloidea*, according to Matsuoka (1983a, p.23). Taxonomic senior synonym: *Spiniferites nanus*, according to Matsuoka (1983a, p.23) — however, Matsuoka (1991, table 2 — p.8) retained *Spiniferites nanus*. N.I.A. Age: Pleistocene.

"*neptuni*" (Eisenack, 1958a, p.399, pl.26, figs.7–8; text-fig.8) Duxbury, 1983, p.55. Emendations: Duxbury, 1983, p.55, as *Spiniferites neptuni*; Sarjeant, 1985a, p.89–90,92, as *Florentinia? neptuni*. Holotype: Eisenack, 1958a, pl.26, fig.7. **NOW** *Achomosphaera*. Originally *Baltisphaeridium* (Appendix A), subsequently (and now) *Achomosphaera*, thirdly *Achomosphaera?*, fourthly *Spiniferites*, fifthly *Florentinia?*. For etymology see under *Achomosphaera*. Age: Early Cretaceous.

nodosus (Wall, 1967, p.101, pl.14, figs.7–9; text-fig.2) Sarjeant, 1970, p.76. Holotype: Wall, 1967, pl.14, figs.7–9. Originally *Hystrichosphaera*, subsequently (and now) *Spiniferites*. Taxonomic senior synonym: *Hystrichosphaera* (as and now *Spiniferites*) *bentorii*, according to Reid (1974, p.598) and Harland (1977b, p.98–99) — however, Lentin and Williams (1981, p.264) retained *Spiniferites nodosus*. Taxonomic junior synonym: *Leptodinium churchillii*, according to Reid (1974, p.599). Motile equivalent: *Gonyaulax digitalis* (Pouchet, 1883) Kofoid, 1911, according to Wall and Dale (1967, p.352). Age: Quaternary.

nortonensis Matsuoka and Bujak, 1988, p.79–80, pl.13, figs.1a–b,2; text-fig.19. Holotype: Matsuoka and Bujak, 1988, pl.13, figs.1a–b; text-fig.19. Age: late Miocene.

"*ovatus*" Bujak, 1984, p.192, pl.3, figs.15–18. Holotype: Bujak, 1984, pl.3, fig.18. **Name illegitimate — senior homonym:** *Spiniferites ovatus* Matsuoka, 1983b. **Taxonomic senior synonym:** *Spiniferites hexatypicus*, according to Bujak and Matsuoka (1986, p.239). Age: late Miocene–early Pliocene.

ovatus Matsuoka, 1983b, p.134–135, pl.3, figs.1a–c,2,3a–b,4a–b; text-figs.19A–B. Holotype: Matsuoka, 1983b, pl.3, figs.1a–c. Junior homonym: *Spiniferites ovatus* Bujak, 1984. Age: late Miocene.

pachydermus (Rossignol, 1964, p.86, pl.1, figs.1–2; pl.3, fig.6) Reid, 1974, p.607. Holotype: Rossignol, 1964, pl.1, figs.1–2. Originally *Hystrichosphaera furcata* var. *pachyderma*, subsequently *Hystrichosphaera ramosa* var. *pachyderma* (combination not validly published), thirdly *Spiniferites ramosus* subsp. *pachydermus*, fourthly (and now) *Spiniferites pachydermus*. Motile equivalent: *Gonyaulax ellegaardiae* Mertens et al. 2015, according to Mertens et al. (2015, p.560). Age: Pleistocene–Holocene.

pacificus Zhao Yunyun and Morzadec-Kerfourn, 1994, p.268–269, pl.1, figs.1a–c,2a–b,3; pl.2, figs.1–2,3a–b. Holotype: Zhao Yunyun and Morzadec-Kerfourn, 1994, pl.1, figs.1a–c. Age: Pleistocene.

"*palliatius*" Wilson in Slimani, 2001a, p.193. **Name not validly published:** no description. **Taxonomic senior synonym:** *Hystrichostroglylon coninckii*, according to Slimani (2001a, p.193).

"palmatus" (White, 1842, p.39–40, pl.4, fig.12) Mantell, 1854, p.251. Holotype: White, 1842, pl.4, fig.12.

Nomenclatural senior synonym: *Xanthidium tubiferum* var. *recurvatum* (as *Hystrichosphaeridium recurvatum*), which has the same type. Originally *Xanthidium tubiferum* var. *palmatum* (Appendix A), subsequently *Xanthidium palmatum* (Appendix A), thirdly *Spiniferites palmatus*, fourthly *Cordosphaeridium palmatum*, fifthly *Hystrichosphaeridium palmatum* (combination illegitimate), sixthly *Hystrichosphaeridium duplum* (name illegitimate). Nomenclatural junior synonyms: *Xanthidium tubiferum* var. *palmaforme* and *Hystrichosphaeridium duplum*, both of which have the same holotype as *Hystrichosphaeridium palmatum*. This is not an illegitimate combination. For a full discussion, see *Hystrichosphaeridium recurvatum*. Age: Senonian.

paradoxus (Cookson and Eisenack, 1968, p.114; text-figs.2G,3) Sarjeant, 1970, p.76. Holotype: Cookson and Eisenack, 1968, text-figs.2G,3. Originally *Hystrichosphaera*, subsequently (and now) *Spiniferites*. Age: Senonian.

?**paucifurcatus** (Cookson and Eisenack, 1982, p.39, pl.8, figs.5–6) Masure in Fauconnier and Masure, 2004, p.346. Holotype: Cookson and Eisenack, 1982, pl.8, fig.5. Originally *Cleistosphaeridium*, subsequently *Impletosphaeridium?*, thirdly (and now) *Spiniferites?*. Questionable assignment: Masure in Fauconnier and Masure (2004, p.346). Age: Paleocene.

"?**pedatus**" (Wetzel, 1933b, p.55–56, pl.4, fig.35 ex Downie and Sarjeant, 1965, p.119) Lentin and Williams, 1973, p.129. Emendation: Sarjeant, 1985b, p.145–146, as *Coronifera pedata*. Holotype: Wetzel, 1933b, pl.4, fig.35. **NOW** *Coronifera*. Originally *Hystrichosphaera?*, subsequently *Spiniferites?*, thirdly (and now) *Coronifera*. Questionable assignment: Lentin and Williams (1973, p.129). Taxonomic senior synonym: *Coronifera oceanica*, by implication in Sarjeant (1985b, p.145–147), who believed *Hystrichosphaera?* (as *Coronifera*) *pedata* to be the senior name — however, Kirsch (1991, p.71) retained the two species. Age: Late Cretaceous.

perforatus (Davey and Williams, 1966a, p.41, pl.5, fig.7) Sarjeant, 1970, p.76. Holotype: Davey and Williams, 1966a, pl.5, fig.7; Bujak et al., 1980, pl.5, figs.2–3. Originally *Hystrichosphaera*, subsequently (and now) *Spiniferites*. Age: early Eocene.

"perpusillus" Zheng Yuefang and Liu Xuexian in Liu Zhili et al., 1992, p.86, pl.14, figs.19–20. Holotype: Liu Zhili et al., 1992, pl.14, fig.20. **NOW** *Valensiella*. Originally *Spiniferites*, subsequently (and now) *Valensiella*. Age: Early Tertiary.

polyplasius (Maier, 1959, p.322–323, pl.33, figs.7–8) Sarjeant, 1983, p.96. Emendation: Sarjeant, 1983, p.96–97, as *Spiniferites polyplasius*. Holotype: Maier, 1959, pl.33, fig.7; Sarjeant, 1983, pl.1, fig.3; pl.2, fig.2. Originally *Hystrichosphaeridium*, subsequently *Hystrichosphaeridium?*, thirdly (and now) *Spiniferites*. Age: Miocene.

porosus (Manum and Cookson, 1964, p.11–12, pl.2, figs.1–5; text-fig.2) Harland, 1973, p.690. Holotype: Manum and Cookson, 1964, pl.2, figs.2–3; text-fig.2. Originally *Hystrichosphaera*, subsequently (and now) *Spiniferites*. Age: Late Cretaceous.

primaevus (Duxbury, 1977, p.50, pl.4, figs.2–3) Monteil, 1991b, p.304. Holotype: Duxbury, 1977, pl.4, figs.2–3. Originally *Spiniferites ramosus* subsp. *primaevus*, subsequently (and now) *Spiniferites primaevus*. Age: early Valanginian.

procerus Marheinecke, 1992, p.29–30, pl.3, fig.8. Holotype: Marheinecke, 1992, pl.3, fig.8. Contrary to the opinion of Lentin and Williams (1993, p.612), Williams et al. (1998, p.576) considered this name to be validly published. Age: early Maastrichtian.

pseudofurcatus (Klumpp, 1953, p.388, pl.16, figs.12–14) Sarjeant, 1970, p.76. Emendation: Sarjeant, 1981, p.108–109, as *Spiniferites pseudofurcatus*. Holotype: Klumpp, 1953, pl.16, figs.12,14; Sarjeant, 1981, pl.3, figs.1–2; text-fig.2; Fensome et al., 1995, figs.1–2 — p.1709. Originally *Hystrichokibotium*, subsequently *Hystrichosphaera* (combination illegitimate), thirdly (and now) *Spiniferites*. Taxonomic senior synonym: *Areoligera* (as *Hystrichosphaera*, now *Spiniferites*) *incerta*, according to Morgenroth (1966a, p.15) — however, Sarjeant (1981, p.108–109) retained *Hystrichokibotium* (as and now *Spiniferites*) *pseudofurcatum*. Taxonomic junior synonyms: *Hystrichosphaera* (as *Spiniferites*) *buccina*, according to Lentin and Williams (1973, p.126); *Hystrichosphaera*

tertiaria, according to Gocht (1969, p.32) and Sarjeant (1970, p.76). May (1980, p.64) considered *Achomosphaera alvicornu* to be a possible taxonomic junior synonym of this species. Age: late Eocene.

subsp. *granulosus* Schiøler, 1993, p.111, pl.4, figs.1–3. Holotype: Schiøler, 1993, pl.4, fig.2. Age: Maastrichtian.

subsp. *laevigatus* He Chengquan, 1991, p.153, pl.22, fig.15. Holotype: He Chengquan, 1991, pl.22, fig.15. Age: Paleocene.

subsp. *obliquus* (Wall, 1967, p.103, pl.14, fig.16; text-fig.2) Lentin and Williams, 1973, p.129. Holotype: Wall, 1967, pl.14, fig.16. Originally *Hystrichosphaera tertiariorum* var. *obliqua*, subsequently (and now) *Spiniferites pseudofurcatus* subsp. *obliquus*. Age: late Pleistocene–Holocene.

subsp. *pseudofurcatus*. Autonym. Holotype: Klumpp, 1953, pl.16, figs.12,14; Sarjeant, 1981, pl.3, figs.1–2; text-fig.2; Fensome et al., 1995, figs.1–2 — p.1709.

subsp. *verrucosus* Schiøler, 2005, p.31, pl.19, figs. 1–4. Holotype: Schiøler, 2005, pl. 19, fig.2. Age: latest Lutetian–Bartonian.

"?*pterotus*" (Cookson and Eisenack, 1958, p.50, pl.11, fig.7) Sarjeant, 1970, p.76. Emendation: Pavlishina, 1990, p.95, as *Pterodinium? pterotum*. Holotype: Cookson and Eisenack, 1958, pl.11, fig.7. **NOW** *Pterodinium?* Originally *Cymatiosphaera* (Appendix A), subsequently *Spiniferites*, thirdly *Hystrichosphaera*, fourthly *Spiniferites?*, fifthly (and now) *Pterodinium?*. Questionable assignment: Stover and Evitt (1978, p.191). Taxonomic senior synonym: *Cymatiosphaera* (as and now *Pterodinium*) *cingulata*, according to Below (1981a, p.114) — however, Pavlishina (1990, p.95) retained *Cymatiosphaera* (now *Pterodinium?*) *pterota*. Taxonomic junior synonyms: *Hystrichosphaera* (as *Spiniferites*) *crassimurata*, according to Kjellström (1973, p.44) and Pavlishina (1990, p.95); (at specific rank) *Hystrichosphaera cingulata* var. *polygonalis*, according to Pavlishina (1990, p.95) — however, Paul et al. (1994, p.722) retained *Hystrichosphaera cingulata* subsp. *polygonalis* (as *Pterodinium cingulatum* subsp. *polygonale*). Age: Albian–Maastrichtian.

puyangensis He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.70, pl.21, figs.1–11. Holotype: He Chengquan et al., 1989, pl.21, fig.4. Originally (and now) *Spiniferites puyangensis*, subsequently *Spiniferites adnatus* subsp. *puyangensis*. He Chengquan et al. (2009, p.208) retained this taxon at specific rank. Age: Early Tertiary.

**ramosus* (Ehrenberg, 1837b, pl.1, fig.15) Mantell, 1854, p.239. Holotype: not designated. Lectotype: Ehrenberg, 1837b, pl.1, fig.15, designated by Davey and Williams (1966a, p.32). Originally *Xanthidium ramosum* (Appendix A), subsequently (and now) *Spiniferites ramosus*, thirdly *Hystrichosphaera ramosa*, fourthly *Ovum hispidum* subsp. *ramosum* (combination not validly published, Appendix A), fifthly *Bion ramosum* (Appendix A). Sarjeant (1970, p.75) retained this species in *Spiniferites*. Taxonomic junior synonyms: *Xanthidium* (as *Hystrichosphaera*) *furcatum*, according to Davey and Williams (1966a, p.29–33); *Galea korykos* and *Hystrichosphaeridium echinoides*, both according to Sarjeant (1983, p.91–92); *Areoligera birama*, according to Morgenroth (1968, p.550); *Geodia? tripunctata*, by implication in Sarjeant (1964a, p.175), who considered *Geodia? tripunctata* to be a taxonomic junior synonym of *Xanthidium* (as *Hystrichosphaera*) *furcatum*; *Hystrichosphaera* (subsequently *Spiniferites*) *bulloidea*, according to Harland (1977b, p.101–102) — however, Lentin and Williams (1981, p.259) retained *Hystrichosphaera* (as *Spiniferites*) *bulloidea*; *Homotryblium distinctum*, according to Jain and Garg (1982, p.69), who considered *Homotryblium distinctum* to be a taxonomic junior synonym of *Spiniferites ramosus* subsp. *ramosus*. Motile equivalent: *Gonyaulax spinifera* (Claparède and Lachmann, 1859) Diesing, 1866, according to Dodge (1989, p.289). The validity/authorship of this name may need to be reconsidered as it appears that Ehrenberg (1837b) did not provide a description. Age: Late Cretaceous.

?subsp. *angustus* (Wetzel, 1952, p.394, pl.A, fig.2; text-fig.2) Lentin and Williams, 1973, p.129. Emendation: Sarjeant, 1984c, p.125–126, as *Spiniferites ramosus* var. *angustus*. Holotype: Wetzel, 1952, pl.A, fig.2; text-fig.2; Sarjeant, 1984c, pl.8, figs.3–4. Originally *Hystrichosphaera furcata* subsp. *angusta*, subsequently (and now) *Spiniferites ramosus?* subsp. *angustus*, thirdly *Spiniferites ramosus* var. *angustus*.

Lentin and Williams (1985, p.335) questionably retained this taxon as a subspecies of *Spiniferites ramosus*. Questionable assignment: Lentin and Williams (1973, p.129). Age: Danian.

"var. *angustus*" (Wetzel, 1952, p.394, pl.A, fig.2; text-fig.2) Sarjeant, 1984c, p.125–126. Emendation: Sarjeant, 1984c, p.125–126, as *Spiniferites ramosus* var. *angustus*. Holotype: Wetzel, 1952, pl.A, fig.2; text-fig.2; Sarjeant, 1984c, pl.8, figs.3–4. **NOW** *Spiniferites ramosus*? subsp. *angustus*. Originally *Hystrichosphaera furcata* subsp. *angusta*, subsequently (and now) *Spiniferites ramosus*? subsp. *angustus*, thirdly *Spiniferites ramosus* var. *angustus*. Age: Danian.

subsp. *aquilus* Pearce, 2010, p.56, pl.7, figs.7–12. Holotype: Pearce, 2010, pl.7, figs.7–12. Pearce (2010, p.56) gave the heading for this taxon as "*Spiniferites ramosus aquilus* sp. nov." and began the diagnosis with "A species of *Spiniferites* ...". It is clear from the name, however, that he intended the taxon to be a subspecies, and so we consider the incorrect citation of rank as a typographic error and consider *Spiniferites ramosus* subsp. *aquilus* to be validly published in Pearce (2011). Age: early Cenomanian–late Campanian.

"?subsp. *aulosphaeropsis*" (Wetzel, 1933b, p.35, pl.5, fig.5 ex Downie and Sarjeant, 1965, p.118) Lentin and Williams, 1973, p.129. Holotype: Wetzel, 1933b, pl.5, fig.5. Originally *Hystrichosphaera furcata* forma *aulosphaeropsis*, subsequently *Spiniferites ramosus*? subsp. *aulosphaeropsis*. Questionable assignment: Lentin and Williams (1973, p.129). **Taxonomic senior synonym** (at specific rank): *Avellodinium falsificum*, according to Sarjeant (1985b, p.156–157). The name *Hystrichosphaera furcata* forma *aulosphaeropsis* was not validly published in Wetzel (1933b) since the species combination *Hystrichosphaera furcata* was not validly published. Age: Cretaceous.

subsp. *brevifurcatus* (Cookson and Eisenack, 1974, p.57, pl.21, figs.6,9) Lentin and Williams, 1977b, p.153. Holotype: Cookson and Eisenack, 1974, pl.21, fig.6. Originally *Spiniferites ramosus* var. *brevifurcatus*, subsequently (and now) *Spiniferites ramosus* subsp. *brevifurcatus*. Taxonomic junior synonym: *Spiniferites cornutus* var. *sinefurcatus* (as *Spiniferites cornutus* subsp. *sinefurcatus*), according to Below (1982c, p.33). Age: Turonian–Senonian.

"var. *brevifurcatus*" Cookson and Eisenack, 1974, p.57, pl.21, figs.6,9. Holotype: Cookson and Eisenack, 1974, pl.21, fig.6. **NOW** *Spiniferites ramosus* subsp. *brevifurcatus*. Originally *Spiniferites ramosus* var. *brevifurcatus*, subsequently (and now) *Spiniferites ramosus* subsp. *brevifurcatus*. Taxonomic junior synonym (at subspecific rank): *Spiniferites cornutus* var. *sinefurcatus* (as *Spiniferites cornutus* subsp. *sinefurcatus*), according to Below (1982c, p.33). Age: Turonian–Senonian.

subsp. *brevirugosus* He Chengquan, 1991, p.153, pl.22, fig.5. Holotype: He Chengquan, 1991, pl.22, fig.5. Age: Paleocene.

subsp. *cavispinosus* Hansen, 1977, p.13, figs.21D–E. Holotype: Hansen, 1977, fig.21D. Age: Maastrichtian.

subsp. *cingulatus* He Chengquan, 1991, p.153–154, pl.22, figs.6–7. Holotype: He Chengquan, 1991, pl.22, fig.7. Age: Paleocene.

subsp. *endoperforatus* (Corradini, 1973, p.168, pl.26, figs.9–10) Lentin and Williams, 1975, p.2155. Holotype: Corradini, 1973, pl.26, fig.9. Originally *Spiniferites ramosus* var. *endoperforatus*, subsequently (and now) *Spiniferites ramosus* subsp. *endoperforatus*. Age: Senonian.

"var. *endoperforatus*" Corradini, 1973, p.168, pl.26, figs.9–10. Holotype: Corradini, 1973, pl.26, fig.9. **NOW** *Spiniferites ramosus* subsp. *endoperforatus*. Originally *Spiniferites ramosus* var. *endoperforatus*, subsequently (and now) *Spiniferites ramosus* subsp. *endoperforatus*. Age: Senonian.

subsp. *gracilis* (Davey and Williams, 1966a, p.34–35, pl.1, fig.5; pl.5, fig.6) Lentin and Williams, 1973, p.130. Holotype: Davey and Williams, 1966a, pl.5, fig.6; Bujak et al., 1980, pl.4, figs.1–2. Originally *Hystrichosphaera ramosa* var. *gracilis*, subsequently *Spiniferites ramosus* var. *gracilis*, thirdly (and now) *Spiniferites ramosus* subsp. *gracilis*. Lentin and Williams (1993, p.614) retained this taxon as *Spiniferites*

ramosus subsp. *gracilis*. Taxonomic junior synonym (at subspecific rank): *Hystrichosphaeridium plicatum*, according to Sarjeant (1983, p.93). Age: Cenomanian–Eocene.

"var. *gracilis*" (Davey and Williams, 1966a, p.34–35, pl.1, fig.5; pl.5, fig.6) Corradini, 1973, p.165. Holotype: Davey and Williams, 1966a, pl.5, fig.6; Bujak et al., 1980, pl.4, figs.1–2. **NOW** *Spiniferites ramosus* subsp. *gracilis*. Originally *Hystrichosphaera ramosa* var. *gracilis*, subsequently *Spiniferites ramosus* var. *gracilis*, thirdly (and now) *Spiniferites ramosus* subsp. *gracilis*. Taxonomic junior synonym (at subspecific rank): *Hystrichosphaeridium plicatum*, according to Sarjeant (1983, p.93). Age: Cenomanian–Eocene.

subsp. *granomembranceus* (Davey and Williams, 1966a, p.37–38, pl.4, fig.4) Lentin and Williams, 1973, p.130. Holotype: Davey and Williams, 1966a, pl.4, fig.4; Bujak et al., 1980, pl.4, figs.10–11. Originally *Hystrichosphaera ramosa* var. *granomembrancea*, subsequently *Spiniferites ramosus* var. *granomembranceus*, thirdly (and now) *Spiniferites ramosus* subsp. *granomembranceus*. Lentin and Williams (1993, p.614) retained this taxon as *Spiniferites ramosus* subsp. *granomembranceus*. Age: early Eocene.

"var. *granomembranceus*" (Davey and Williams, 1966a, p.37–38, pl.4, fig.4) Corradini, 1973, p.166. Holotype: Davey and Williams, 1966a, pl.4, fig.4; Bujak et al., 1980, pl.4, figs.10–11. **NOW** *Spiniferites ramosus* subsp. *granomembranceus*. Originally *Hystrichosphaera ramosa* var. *granomembrancea*, subsequently *Spiniferites ramosus* var. *granomembranceus*, thirdly (and now) *Spiniferites ramosus* subsp. *granomembranceus*. Lentin and Williams (1993, p.614) retained this taxon as *Spiniferites ramosus* subsp. *granomembranceus*. Age: early Eocene.

subsp. *granosus* (Davey and Williams, 1966a, p.35, pl.4, fig.9) Lentin and Williams, 1973, p.130. Holotype: Davey and Williams, 1966a, pl.4, fig.9. Originally *Hystrichosphaera ramosa* var. *granosa*, subsequently *Spiniferites ramosus* var. *granosus*, thirdly (and now) *Spiniferites ramosus* subsp. *granosus*. Age: early Eocene.

"var. *granosus*" (Davey and Williams, 1966a, p.35, pl.4, fig.9) Corradini, 1973, p.167. Holotype: Davey and Williams, 1966a, pl.4, fig.9. **NOW** *Spiniferites ramosus* subsp. *granosus*. Originally *Hystrichosphaera ramosa* var. *granosa*, subsequently *Spiniferites ramosus* var. *granosus*, thirdly (and now) *Spiniferites ramosus* subsp. *granosus*. Age: early Eocene.

subsp. *maeandriformis* (Corradini, 1973, p.168–169, pl.26, figs.11–12) Lentin and Williams, 1975, p.2155. Holotype: Corradini, 1973, pl.26, fig.11. Originally *Spiniferites ramosus* var. *maeandriformis*, subsequently (and now) *Spiniferites ramosus* subsp. *maeandriformis*. Age: Senonian.

"var. *maeandriformis*" Corradini, 1973, p.168–169, pl.26, figs.11–12. Holotype: Corradini, 1973, pl.26, fig.11. **NOW** *Spiniferites ramosus* subsp. *maeandriformis*. Originally *Spiniferites ramosus* var. *maeandriformis*, subsequently (and now) *Spiniferites ramosus* subsp. *maeandriformis*. Age: Senonian.

subsp. *multibrachiatus* (de Wit, 1943, p.376; text-fig.3f) Lentin and Williams, 1973, p.130. Holotype: de Wit, 1943, text-fig.3f. Originally *Hystrichosphaera furcata* forma *multibrachiata*, subsequently (and now) *Spiniferites ramosus* subsp. *multibrachiatus*. Age: Late Cretaceous.

"subsp. *multibrevis*" (Davey and Williams, 1966a, p.35–36, pl.1, fig.4; pl.4, fig.6; text-fig.9) Lentin and Williams, 1973, p.130. Holotype: Davey and Williams, 1966a, pl.4, fig.6; Bujak et al., 1980, pl.4, figs.3,6. Originally *Hystrichosphaera ramosa* var. *multibrevis*, subsequently *Spiniferites ramosus* var. *multibrevis*, thirdly *Spiniferites ramosus* subsp. *multibrevis*, fourthly *Spiniferites multibrevis*. **Taxonomic senior synonym** (at specific rank): *Galea* (now *Spiniferites*) *twistringiensis*, according to Sarjeant (1983, p.94–95). Taxonomic junior synonym (at subspecific rank): *Achomospaera* (as *Spiniferites*) *cambra*, according to Jain (1982, p.51). Age: Late Cretaceous.

"var. *multibrevis*" (Davey and Williams, 1966a, p.35–36, pl.1, fig.4; pl.4, fig.6; text-fig.9) Davey and Verdier, 1971, p.33. Holotype: Davey and Williams, 1966a, pl.4, fig.6; Bujak et al., 1980, pl.4, figs.3,6.

Originally *Hystrichosphaera ramosa* var. *multibrevis*, subsequently *Spiniferites ramosus* var. *multibrevis*, thirdly *Spiniferites ramosus* subsp. *multibrevis*, fourthly *Spiniferites multibrevis*. **Taxonomic senior synonym** (at specific rank): *Galea* (now *Spiniferites*) *twistringiensis*, according to Sarjeant (1983, p.95–96). Taxonomic junior synonym (at subspecific rank): *Achomosphaera* (as *Spiniferites*) *cambra*, according to Jain (1982, p.51). Age: Hauterivian.

subsp. ***multiplicatus*** (Rossignol, 1964, p.86, pl.1, fig.14; pl.3, fig.16) Lentin and Williams, 1973, p.130. Holotype: Rossignol, 1964, pl.1, fig.14. Originally *Hystrichosphaera furcata* var. *multiplicata*, subsequently *Hystrichosphaera ramosa* var. *multiplicata* (combination not validly published), thirdly *Spiniferites ramosus* subsp. *multiplicatus*. Taxonomic senior synonym (at specific rank): *Hystrichosphaera* (as *Spiniferites*) *hyperacantha*, according to Matsuoka (1985a, p.35) — however, Londeix et al. (2009, p.66) retained the latter taxon. Age: Pleistocene–Holocene.

"subsp. ***pachydermus***" (Rossignol, 1964, p.86, pl.1, figs.1–2; pl.3, fig.6) Lentin and Williams, 1973, p.130. Holotype: Rossignol, 1964, pl.1, figs.1–2. **NOW** *Spiniferites pachydermus*. Originally *Hystrichosphaera furcata* var. *pachyderma*, subsequently *Hystrichosphaera ramosa* var. *pachyderma* (combination not validly published), thirdly *Spiniferites ramosus* subsp. *pachydermus*, fourthly (and now) *Spiniferites pachydermus*. Age: Pleistocene–Holocene.

"subsp. ***primaevus***" Duxbury, 1977, p.50, pl.4, figs.2–3. Holotype: Duxbury, 1977, pl.4, figs.2–3. **NOW** *Spiniferites primaevus*. Originally *Spiniferites ramosus* subsp. *primaevus*, subsequently (and now) *Spiniferites primaevus*. Age: early Valanginian.

subsp. ***pteroceus*** Slimani, 1996, p.379, pl.3, figs.H–J; pl.4, figs.E–G ex Slimani, 2001b, p.8, pl.3, figs.1–4. Holotype: Slimani, 1996, pl.3, figs.H–J; Slimani, 2001b, pl.3, figs.1–2. This name was not validly published in Slimani (1996) since no English or Latin description or diagnosis was provided. Age: early Campanian–Danian.

subsp. ***ramosus***. Autonym. Holotype: not designated. Lectotype: Ehrenberg, 1837b, pl.1, fig.15, designated by Davey and Williams (1966a, p.32). Taxonomic junior synonym: *Homotryblium distinctum*, according to Jain and Garg (1982, p.69) (see *Spiniferites ramosus*).

"var. ***ramosus***". Autonym. Holotype: not designated. Lectotype: Ehrenberg, 1837b, pl.1, fig.15, designated by Davey and Williams (1966a, p.32). **Now redundant**. Originally *Hystrichosphaera ramosa* var. *ramosa*, subsequently *Spiniferites ramosus* var. *ramosus*.

subsp. ***reticulatus*** (Davey and Williams, 1966a, p.38, pl.1, figs.2–3) Lentin and Williams, 1973, p.130. Holotype: Davey and Williams, 1966a, pl.1, figs.2–3. Originally *Hystrichosphaera ramosa* var. *reticulata*, subsequently *Spiniferites ramosus* var. *reticulatus*, thirdly (and now) *Spiniferites ramosus* subsp. *reticulatus*. Age: Cenomanian.

"var. ***reticulatus***" (Davey and Williams, 1966a, p.38, pl.1, figs.2–3) Davey and Verdier, 1971, p.34. Holotype: Davey and Williams, 1966a, pl.1, figs.2–3. **NOW** *Spiniferites ramosus* subsp. *reticulatus*. Originally *Hystrichosphaera ramosa* var. *reticulata*, subsequently *Spiniferites ramosus* var. *reticulatus*, thirdly (and now) *Spiniferites ramosus* subsp. *reticulatus*. Age: Cenomanian.

subsp. ***septoperforatus*** Marheinecke, 1992, p.26, pl.3, figs.6–7. Holotype: Marheinecke, 1992, pl.3, figs.6–7. Contrary to the opinion of Lentin and Williams (1993, p.616), Williams et al. (1998, p.579) considered this name to be validly published. Age: early Maastrichtian.

subsp. ***spinosus*** Jain, 1978, p.149, pl.1, fig.3. Holotype: Jain, 1978, pl.1, fig.3. Age: Maastrichtian.

subsp. ***ulcus*** Marheinecke, 1992, p.20, pl.2, fig.3. Holotype: Marheinecke, 1992, pl.2, fig.3. Contrary to the opinion of Lentin and Williams (1993, p.616), Williams et al. (1998, p.580) considered this name to be validly published. N.I.A. Age: early–late Maastrichtian.

"*ramuliferus*" (Deflandre, 1937b, p.74, pl.14 [al. pl.11], figs.5–6; pl.17 [al. pl.14], fig.10) Reid, 1974, p.608. Holotype: Deflandre, 1937b, pl.14 (al. pl.11), fig.5; Fensome et al., 1991, fig.1 — p.721; fig.1 — p.725. **NOW** *Achomosphaera*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (combination not validly published, Appendix A), thirdly (and now) *Achomosphaera*, fourthly *Spiniferites*. Taxonomic junior synonym: *Hystrichosphaeridium rehdense*, according to Sarjeant (1983, p.97–99). Age: Late Cretaceous.

reductus Matsuoka and Bujak, 1988, p.82–83, pl.14, figs.4a–b,5. Holotype: Matsuoka and Bujak, 1988, pl.14, figs.4a–b. Age: late Oligocene–early Miocene.

?*reginaldii* (Mantell, 1844, p.240; text-fig.53, no.5) Mantell, 1854, p.91. Emendation: Sarjeant, 1967c, p.244–245, as *Hystrichosphaera reginaldii*. Holotype: Mantell, 1844, text-fig.53, no.5; Sarjeant, 1967c, figs.3A–B,4–5; Sarjeant, 1992a, figs.2,4a–b. Originally *Xanthidium* (Appendix A), subsequently (and now) *Spiniferites*, thirdly *Hystrichosphaera*, fourthly *Baltisphaeridium* (Appendix A), fifthly (and now) *Spiniferites*?. Questionable assignment: Stover and Evitt (1978, p.191) as a problematic species. Age: Late Cretaceous.

rhizophorus Head in Head and Westphal, 1999, p.15,17, fig.4, no.8; fig.6, nos.1–6. Holotype: Head and Westphal, 1999, fig.6, nos.1–4. Age: late early–late Pliocene.

ristingensis Head, 2007, p.1011–1012, figs.8.c–l. Holotype: Head, 2007, figs.8.c–g. Age: late Pleistocene (Eemian).

rubinus (Rossignol, 1962, p.134 ex Rossignol, 1964, p.87–88, pl.1, figs.12–13; pl.3, figs.22–23) Sarjeant, 1970, p.76. Holotype: Rossignol, 1964, pl.1, figs.12–13. Originally *Hystrichosphaeridium* (name not validly published), subsequently *Hystrichosphaera*, thirdly (and now) *Spiniferites*. The name *Hystrichosphaeridium rubinum* was not validly published in Rossignol (1962) since no illustration was provided. Age: Quaternary.

"*sagittarius*" Sütő-Szentai, 1990, p.848,851, pl.2, figs.3–4; text-figs.76a–c. **Name not validly published:** lodgement of holotype not specified (I.C.N. Article 40.7). Age: late Miocene.

"*sarmaticus*" Sütő-Szentai, 1984, p.70, pl.1, fig.1. **Name not validly published:** no description.

scabratus (Wall, 1967, p.102, pl.14, figs.10–13; text-fig.2) Sarjeant, 1970, p.76. Holotype: Wall, 1967, pl.14, figs.10–13; Harland, 1983, pl.45, fig.7. Originally *Hystrichosphaera*, subsequently (and now) *Spiniferites*. This is a cyst equivalent of *Gonyaulax spinifera* (Claparède and Lachmann, 1859) Diesing, 1866, according to Dodge (1989, p.289). Age: Pleistocene–Holocene.

scabrosus (Clarke and Verdier, 1967, p.49–50, pl.9, figs.7–10; text-fig.21) Lentin and Williams, 1975, p.2155. Holotype: Clarke and Verdier, 1967, pl.9, fig.10. Originally *Hystrichosphaera*, subsequently (and now) *Spiniferites*. Harker and Sarjeant (1975, p.225) also proposed this combination. Age: Cenomanian–Santonian.

scalenus Guerstein et al., 2008, p.79, pl.2, figs.3–8; pl.3, figs.6–12. Holotype: Guerstein et al., 2008, pl.2, figs.3–4. Age: middle Eocene to earliest Oligocene.

seghiris (Below, 1982c, p.35–36, pl.8, figs.4a–b,5a–b) Lentin and Williams, 1993, p.616. Holotype: Below, 1982c, pl.8, figs.4a–b. Originally *Spiniferites multibrevis* subsp. *seghiris*, subsequently (and now) *Spiniferites seghiris*. Age: late Hauterivian.

"*septatus*" (Cookson and Eisenack, 1967b, p.253–254, pl.42, figs.6–10; text-fig.1) McLean, 1971, p.730. Emendation: McLean, 1971, p.730, as *Spiniferites septatus*. Holotype: Cookson and Eisenack, 1967b, pl.42, fig.6; Eisenack and Kjellström, 1975b, uppermost figure — p.984w; Fensome et al., 1996, fig.1 — p.2355. **NOW** *Hafniasphaera*. Originally *Baltisphaeridium* (Appendix A), subsequently *Spiniferites*, thirdly (and now) *Hafniasphaera*, fourthly *Achomosphaera*, fifthly *Rivernookia*. Age: late Paleocene.

septentrionalis Harland, 1977b, p.103–104, pl.1, figs.12–18; text-fig.4. Holotype: Harland, 1977b, pl.1, figs.17–18; Jan du Chêne and Londeix, 1988, pl.1, figs.10–12. Taxonomic senior synonym: *Achomosphaera andalousiensis*, according to Harland (1983, p.326) — however, Londeix et al. (2009, p.67–68) retained *Spiniferites septentrionalis*.

Head and Wrenn (1992, p.2) had earlier questioned the synonymy and Matsuoka in Head and Wrenn (1992, p.26) considered *Spiniferites aquilonius* to be a possible synonym of *Spiniferites septentrionalis*. Age: late Quaternary.

serratus Matsuoka, 1983b, p.135–136, pl.14, figs.1a–c,2a–c,3; text-figs.20A–B. Holotype: Matsuoka, 1983b, pl.14, figs.1a–c. Age: Pliocene or younger.

?*setosus* (Philippot, 1949, p.56; text-fig.1) Sarjeant, 1970, p.76–77. Holotype: Philippot, 1949, text-fig.1. Originally *Hystrichosphaera*, subsequently *Spiniferites*, thirdly (and now) *Spiniferites?*. Questionable assignment: Stover and Evitt (1978, p.191) as a problematic species. Age: Senonian.

"*solidago*" de Verteuil and Norris, 1996a, p.144,146,148, pl.10, figs.6–15; pl.11, figs.1–8. Holotype: de Verteuil and Norris, 1996a, pl.10, figs.6–7. **Taxonomic senior synonym:** *Hystrichosphaeridium* (as *Spiniferites*, now *Achomosphaera*) *grallaeformis*, according to Strauss et al. (2001, p.412). N.I.A. Age: late Oligocene–late Miocene.

?*speciosus* (Deflandre, 1937b, p.65, pl.11 [al. pl.8], fig.2) Sarjeant, 1970, p.77. Holotype: Deflandre, 1937b, pl.11 (al. pl.8), fig.2. Originally *Hystrichosphaera*, subsequently *Spiniferites*, thirdly (and now) *Spiniferites?*. Questionable assignment: Stover and Evitt (1978, p.191). Age: Late Cretaceous.

speetonensis Duxbury, 1980, p.131–132, pl.11, figs.1–2,4. Holotype: Duxbury, 1980, pl.11, figs.1–2,4. Age: Barremian.

spinatus (Song Zhichen in Song Zhichen et al., 1985, p.43, pl.2, fig.5) Lentin and Williams, 1989, p.351. Holotype: Song Zhichen et al., 1985, pl.2, fig.5; He Chengquan et al., 2009, pl.133, fig.7. Originally *Spiniferites cingulatus* var. *spinatus*, subsequently (and now) *Spiniferites spinatus*. Age: early-middle Pleistocene.

splendidus Harland, 1979b, p.537, pl.3, figs.1–2. Holotype: Harland, 1979b, pl.3, figs.1–2. Age: late Miocene–early Pliocene.

spongiophragmatus Strauss et al., 2001, p.412–413, pl.4, fig.1: text-fig.4 (part). Holotype: Strauss et al., pl.4, fig.1. This name was not validly published in Strauss (1991b, p.67–68) and Rusbült and Strauss (1992, p.156, caption to fig.2) since these authors did not provide a description. Age: middle Miocene.

?*spongiosus* Duxbury, 2001, p.116–117, fig.15, nos.1–5. Holotype: Duxbury, 2001, fig.15, nos.1–2. Questionable assignment: Duxbury (2001, p.116). Age: early Valanginian.

spumeus Harding, 1990b, p.24, pl.6, figs.1–8 ex Harding in Williams et al. 1998, p.581. Holotype: Harding, 1990b, pl.6, fig.1. This name was not validly published in Harding (1990b) since the lodgement of the holotype was not specified (I.C.N. Article 40.7). Age: late Barremian.

strictus Matsuoka, 1983b, p.136–137, pl.12, figs.5a–b,6. Holotype: Matsuoka, 1983b, pl.12, figs.5a–b. Age: Pliocene or younger.

supparus (Drugg, 1967, p.24, pl.4, figs.5–6) Sarjeant, 1970, p.77. Holotype: Drugg, 1967, pl.4, fig.5. Originally *Hystrichosphaera*, subsequently (and now) *Spiniferites*. N.I.A. Age: Maastrichtian–Danian.

"*szarmaticus*" Sütő-Szentai, 1983, p.18, pl.2, fig.1. **Name not validly published:** no description.

tengelicensis Sütő-Szentai, 1982a, p.208–209,217–218, pl.1, fig.7; text-fig.1. Holotype: Sütő-Szentai, 1982a, pl.1, fig.7; text-fig.1. Age: late Miocene.

terminus Marheinecke, 1992, p.30–31, pl.4, figs.3,6. Holotype: Marheinecke, 1992, pl.4, figs.3,6. Contrary to the opinion of Lentin and Williams (1993, p.617), Williams et al. (1998, p.581) considered this name to be validly published. Age: early Maastrichtian.

"*tertiarius*" (Eisenack and Gocht, 1960, p.515; text-fig.4) Lentin and Williams, 1973, p.131. Holotype: Eisenack and Gocht, 1960, text-fig.4. Originally *Hystrichosphaera*, subsequently *Spiniferites*. **Taxonomic senior synonym:**

Hystrichokibotium (now *Spiniferites*) *pseudofurcatum*, according to Gocht (1969, p.32) and Sarjeant (1970, p.76). Age: Oligocene.

tianshanensis He Chengquan, 1991, p.154–155, pl.23, fig.5. Holotype: He Chengquan, 1991, pl.23, fig.5. Age: Paleocene.

tihanyensis Sütő-Szentai, 2000, p.162, pl.2, fig.1; pl.3, figs.1–2; text-figs.5a–b. Holotype: Sütő-Szentai, 2000, pl.3, fig.1; text-fig.5a. This name was not validly published in Sütő-Szentai (1988, p.350; 1991, p. 180, pl.A, figs.a–b) since no description was provided. Age: late Miocene.

?*trabeculiferus* (Deflandre and Cookson, 1955, p.269, pl.8, fig.6) Lentin and Williams, 1973, p.131. Holotype: Deflandre and Cookson, 1955, pl.8, fig.6. Originally *Hystrichokibotium*, subsequently *Spiniferites*, thirdly (and now) *Spiniferites*?. Questionable assignment: Stover and Evitt (1978, p.191). Age: middle Miocene.

?*tripodes* (Morzadec-Kerfourn, 1966, p.140–141, pl.3, figs.3–4) Lentin and Williams, 1973, p.131. Holotype: Morzadec-Kerfourn, 1966, pl.3, figs.3–4. Originally *Baltisphaeridium* (Appendix A), subsequently (and now) *Spiniferites*?. Questionable assignment: Lentin and Williams (1973, p.131). Age: Holocene.

tripus Singh, 1983, p.144–145, pl.51, figs.2–3. Holotype: Singh, 1983, pl.51, fig.2. Age: early Cenomanian.

twistringiensis (Maier, 1959, p.308–309, pl.30, figs.3–4) Fensome et al., 1990, p.639. Holotype: Maier, 1959, pl.30, fig.3; Sarjeant, 1983, pl.5, fig.3. Originally *Galea* (generic name illegitimate), subsequently *Baltisphaeridium* (Appendix A), thirdly *Areoligera*, fourthly (and now) *Spiniferites*. Taxonomic junior synonyms: (at specific rank) *Hystrichosphaera ramosa* var. *multibrevis* (subsequently *Spiniferites multibrevis*), according to Sarjeant (1983, p.94–95); *Achomosphaera* (al. *Spiniferites*) *cambra*, by implication in Jain (1982, p.51), who considered this species to be a taxonomic junior synonym of *Hystrichosphaera ramosa* var. *multibrevis* (as *Spiniferites ramosus* subsp. *multibrevis*). Following I.C.N. Article 55.1, the species name *Galea twistringiensis* is validly published even though the generic name *Galea* is illegitimate. According to Fensome et al. (1990, p.639): "Lentin and Williams (1985, p.140,333) and Lentin and Williams (1989, p.347) brought together the synonymies proposed by Jain (1982) and Sarjeant (1983), but also accepted the elevation of the variety (and later subspecies) '*multibrevis*' to specific rank as *Spiniferites multibrevis*. Lentin and Williams (1985,1989) considered the epithet '*multibrevis*' to be senior. Since the latter epithet was not raised to specific rank until Below (1982c, p.35) did so, the epithets '*twistringiensis*' (validly published in 1964) and '*cambrus*' (erected in 1970) are both senior to '*multibrevis*' at specific rank. Thus, following the synonymies cited above and considering this taxon at specific rank, the correct name is *Spiniferites twistringiensis* The specific epithet has commonly been misspelled '*twistringense*'." Age: middle Miocene.

validus Sütő-Szentai, 1982b, p.316–318, pl.6, figs.1–2. Holotype: Sütő-Szentai, 1982b, pl.6, figs.1–2. Age: late Miocene.

"subsp. *robustus*" Sütő-Szentai, 1983, p.18, pl.2, fig.8. **Name not validly published:** no description.

variabilis Beilstein, 1994, p.172–173, pl.26, figs.9–11; pl.36, fig.6. Holotype: Beilstein, 1994, pl.26, figs.9–10. Age: Campanian–Maastrichtian.

?*varmae* Lentin and Williams, 1973, p.131. Emendation: Matsuoka and Bujak, 1988, p.84–84, as *Spiniferites? varmae*. Holotype: Varma and Dangwal, 1964, pl.2, figs.7–8. Originally *Hystrichosphaera pseudofurcata*, subsequently *Spiniferites varmae*, thirdly (and now) *Spiniferites varmae*?. Questionable assignment: Stover and Evitt (1978, p.191) as a problematic species. Substitute name for *Hystrichosphaera pseudofurcata* Varma and Dangwal, 1964, p.66, pl.2, figs.7–8; the name *Spiniferites pseudofurcatus* is preoccupied. Age: Eocene–Oligocene.

"?*velatus*" (Clarke and Verdier, 1967, p.51–52, pl.10, figs.1–2; text-fig.22) Stover and Evitt, 1978, p.191. Holotype: Clarke and Verdier, 1967, pl.10, fig.2. **NOW** *Culversphaera*. Originally *Nematosphaeropsis*, subsequently *Spiniferites*?, thirdly (and now) *Culversphaera*. Questionable assignment: Stover and Evitt (1978, p.191). Age: Santonian.

virgulaeformis Sütő, 1994, p.457, pl.2, figs.a–c, text-fig.7 (al. pl.A), nos.2a–b. Holotype: Sütő, 1994, pl.2, figs.a–c. Age: late Miocene.

"*wetzelii*" (Deflandre, 1937b, p.65, pl.11 [al. pl.8], figs.6,8) Sarjeant, 1970, p.77. Holotype: Deflandre, 1937b, pl.11 (al. pl.8), figs.6,8. **NOW** *Rottnestia*. Originally *Hystrichosphaera*, subsequently *Hystrichosphaeropsis* (combination not validly published), thirdly *Spiniferites*, fourthly (and now) *Rottnestia*. Taxonomic junior synonym: *Hystrichosphaeropsis forficata* (name not validly published), according to Slimani (2001a, p.194). Age: Senonian.

"**SPINIFERITES** subgenus **HAFNIASPHAERA**" (Hansen, 1977, p.13–14) Quattrocchio and Sarjeant, 2003, p.;140. Emendation: Fensome et al., 2009, p.34, as *Hafniasphaera*. **NOW** *Hafniasphaera*. Originally (and now) *Hafniasphaera*, subsequently *Spiniferites* subgenus *Hafniasphaera*. Taxonomic senior synonym: *Spiniferites*, according to Stover and Williams (1987, p.117) — however, Edwards (1996, p.989) retained *Hafniasphaera*. Taxonomic junior synonym: *Rivernookia*, according to Lentin and Williams (1985, p.311). Fensome et al. (2009, p.34) retained *Hafniasphaera* at generic rank. Type: Hansen, 1977, fig.18A, as *Hafniasphaera hyalospinosa*.

"**SPINIFERITES** subgenus **SPINIFERITES**". Autonym. **Now redundant**. Type: Ehrenberg, 1837b, pl.1, fig.15, as *Xanthidium ramosum*, designated by Davey and Williams (1966a, p.32) as a lectotype of *Hystrichosphaera ramosa*.

SPINIFEROPSIS He Chengquan, 1984a, p.770,773–774. Type: He Chengquan, 1984a, pl.1, fig.1, as *Spiniferopsis granulata*.

**granulata* He Chengquan, 1984a, p.770, pl.1, fig.1. Holotype: He Chengquan, 1984a, pl.1, fig.1. Age: late Paleocene–middle Eocene.

"**SPONGIOSPHAERIDIUM**" Sütő-Szentai, 1995, p.53. **Name not validly published**: no description. This name was spelled "*Spongiosphaerodinium*" by Sütő-Szentai (1995, p.49).

"*pannonicum*" Sütő-Szentai, 1995, p.49. **Name not validly published**: no description or illustration.

SPONGODINIUM Deflandre, 1936b, p.169–170. Emendations: Stover and Evitt, 1978, p.191–192; Lucas-Clark, 1987, p.166. Type: Ehrenberg, 1837b, pl.1, fig.6, as *Peridinium delitiense*.

"*canadense*" Singh, 1983, p.141, pl.49, figs.1–3. Emendation: Lucas-Clark, 1987, p.164, as *Wigginsiella canadensis*. Holotype: Singh, 1983, pl.49, fig.1; Jan du Chêne et al., 1986a, pl.114, fig.3. **NOW** *Wigginsiella*. Originally *Spongodinium*, subsequently (and now) *Wigginsiella*. Age: early Cenomanian.

**delitiense* (Ehrenberg, 1837b, pl.1, figs.1,6) Deflandre, 1936b, p.170–171. Emendation: Lucas-Clark, 1987, p.167, as *Spongodinium delitiense*. Holotype: Ehrenberg, 1837b, pl.1, fig.6. Originally *Peridinium* (Appendix B), subsequently (and now) *Spongodinium*. Of the two illustrations provided by Ehrenberg (1837b), only his pl.1, fig.6 shows a single specimen, which can thus be accepted as the type. However, the validity/authorship of this name may need to be reconsidered as it appears that Ehrenberg (1837b) did not provide a description. Age: Late Cretaceous.

?*extremum* (Cookson and Eisenack, 1974, p.48, pl.20, fig.4) Lentin and Williams, 1976, p.40. Holotype: Cookson and Eisenack, 1974, pl.20, fig.4. Originally *Deflandrea*, subsequently (and now) *Spongodinium*?, thirdly *Isabelidinium*?. Questionable assignment: Lentin and Williams (1976, p.40). We here retain this species questionably in *Spongodinium* rather than *Isabelidinium* as it clearly has a precingular archeopyle. Age: Albian–Cenomanian.

reticulatum Hultberg, 1985b, p.62–63, pl.2, figs.3–4. Holotype: Hultberg, 1985b, pl.2, fig.3. Hultberg (1985c, p.150) also proposed this name. Age: early Danian.

?*solidum* Alberti, 1961, p.31–32, pl.3, figs.17–18. Holotype: Alberti, 1961, pl.3, fig.18. Questionable assignment: Alberti (1961, p.31). Age: late Barremian–late Aptian.

SPUMADINIUM Brinkhuis et al., 2000, p.103, 105. Type: Brinkhuis et al., 2000, pl.4, figs.10–12, as *Spumadinium felderorum*.

**felderorum* Brinkhuis et al., 2000, p.105,107, pl.4, figs.1–3,7–12; pl.5, figs.1–12; pl.6, figs.2–4; pl.7, fig.2; text-fig.3L. Holotype: Brinkhuis et al., 2000, pl.4, figs.10–12. Age: latest Maastrichtian–Danian.

irregulare Slimani and Louwye, 2013, p.15,18, pl.3, figs.1–12. Holotype: Slimani and Louwye, 2013, pl.3, figs.1–5. Age: early late Maastrichtian.

STANFORDELLA Helenes and Lucas-Clark, 1997, p.180,182. Taxonomic junior synonyms: *Dampierodinium* (name not validly published), by implication in Riding and Helby (2001g, p.212); *Farragodinium* (name not validly published) by implication in Riding and Helby (2001g, p.212). Type: Helenes and Lucas-Clark, 1997, pl.2, figs.1–2, as *Stanfordella granulosa*.

?*cretacea* (Neale and Sarjeant, 1962, p.441–443, pl.19, figs.1–2; text-figs.2a–b) Helenes and Lucas-Clark, 1997, p.186. Holotype: Neale and Sarjeant, 1962, pl.19, figs.1–2; text-figs.2a–b. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly (and now) *Stanfordella*?. Questionable assignment: Helenes and Lucas-Clark (1997, p.186). Age: Hauterivian.

exsanguia (Duxbury, 1977, p.35–36, pl.1, figs.6–7; text-fig.10) Helenes and Lucas-Clark, 1997, p.182. Emendation: Harding, 1990b, p.31–32, as *Gonyaulacysta exsanguia*. Holotype: Duxbury, 1977, pl.1, fig.6; text-fig.10b; Jan du Chêne et al., 1986a, pl.40, figs.1–3. Originally *Gonyaulacysta*, subsequently *Millioudodinium*?, thirdly (and now) *Stanfordella*. Age: Hauterivian–Barremian.

fastigiata (Duxbury, 1977, p.36–37, pl.1, figs.8–9,12; text-fig.11) Helenes and Lucas-Clark, 1997, p.183. Emendation: Helenes and Lucas-Clark, 1997, p.184, as *Stanfordella fastigiata*. Holotype: Duxbury, 1977, pl.1, figs.8,12; text-fig.11; Jan du Chêne et al., 1986a, pl.43, figs.1–6. Originally *Gonyaulacysta*, subsequently (and now) *Stanfordella*. Age: early Hauterivian–early Barremian.

**granulosa* Helenes and Lucas-Clark, 1997, p.182, pl.2, figs.1–8; text-figs.4A–D. Holotype: Helenes and Lucas-Clark, 1997, pl.2, figs.1–2. Taxonomic junior synonyms: *Dampierodinium ovum* and *Farragodinium curiosum* (both names not validly published), both according to Riding and Helby (2001g, p.212). Age: late Tithonian–Valanginian.

ordocava (Duxbury, 1977, p.37–38, pl.1, figs.10–11; text-fig.12) Helenes and Lucas-Clark, 1997, p.184. Holotype: Duxbury, 1977, pl.1, figs.10–11; text-fig.12; Jan du Chêne et al., 1986a, pl.41, figs.1–2. Originally *Gonyaulacysta*, subsequently *Millioudodinium*, thirdly (and now) *Stanfordella*. Age: early–late Hauterivian.

STELLADINIUM Bradford, 1975, p.3065–3066. Originally (and now) *Stelladinium*, subsequently *Protoperidinium* subgenus *Archaeoperidinium* section *Stelladinium* (combination not validly published). Harland and Reid in Harland et al. (1980, p.222,224) considered *Stelladinium* Bradford, 1975 to be not validly published, since it lacked a Latin diagnosis. As noted by Fensome et al. (1991, p.477), this was not necessary since a Latin diagnosis is not required for fossil cysts. Type: Bradford, 1975, fig.2, as *Stelladinium reidii*.

abei Matsuoka, 1985a, p.59–60, pl.14, figs.7–10. Holotype: Matsuoka, 1985a, pl.14, figs.7–10. Age: Holocene.

subsp. *abei*. Autonym. Holotype: Matsuoka, 1985a, pl.14, figs.7–10.

subsp. *elegans* He Chengquan and Sun Xuekun, 1991, p.294–295, pl.3, fig.17. Holotype: He Chengquan and Sun Xuekun, 1991, pl.3, fig.17. Age: Quaternary.

reductum Bint, 1988, p.333,335, figs.2G–I,3. Holotype: Bint, 1988, fig.2G; Fensome et al., 1996, fig.1 — p.2323. Age: Holocene.

**reidii* Bradford, 1975, p.3065–3066, figs.2–4. Holotype: Bradford, 1975, fig.2; Fensome et al., 1995, fig.1 — p.1735. Motile equivalent: *Protoperidinium compressum* (Abé, 1927) Balech, 1974, according to Bradford and Wall (1984, p.47). Age: Holocene.

robustum Zonneveld, 1997, p.334–335, pl.4, figs.8–10. Holotype: Zonneveld, 1997, pl.4, fig.8. Age: Holocene.

"*stellatum*" (Wall in Wall and Dale, 1968c, p.275, pl.2, figs.13–15; pl.3, figs.16–21) Reid, 1977, p.443. Holotype: Wall and Dale, 1968c, pl.3, figs.16–21. **NOW** *Protoperidinium* (Appendix B). Originally *Peridinium*, subsequently *Stelladinium*, thirdly (and now) *Protoperidinium* (Appendix B). Taxonomic senior synonym: *Peridinium* (now *Protoperidinium compressum* Abé, 1927, according to Loeblich III (1970, p.895–896) and Head (1996b, p.1228) — however, Head in Rochon et al. (1999, p.48) retained *Peridinium* (as *Protoperidinium stellatum*). The holotype of this taxon is a motile dinoflagellate. Age: extant

STENODINIUM Williams et al., 2015, p.313–314. Type: Gocht, 1969, pl.10, fig.13, as *Wetzeliella meckelfeldensis*.

**meckelfeldense* (Gocht, 1969, p.15–16, pl.10, figs.12–15) Williams et al., 2015, p.314. Holotype: Gocht, 1969, pl.10, fig.13. Originally *Wetzeliella*, subsequently (and now) *Stenodinium*. Age: early Eocene.

STENOPYXINIUM Deflandre, 1968, p.424. Type: Deflandre, 1968, figs.1–3, as *Stenopyxinium grassei*.

**grassei* Deflandre, 1968, p.425–426, figs.1–6. Holotype: Deflandre, 1968, figs.1–3; Fensome et al., 1995, figs.1–3 — p.1533. Age: Senonian.

STEPHANELYTRON Sarjeant, 1961a, p.109. Emendations: Stover et al., 1977, p.331; Courtinat, 1999, p.177. Taxonomic junior synonym: *Lagenadinium*, according to Courtinat (1999, p.177). Type: Sarjeant, 1961a, pl.15, fig.11; text-fig.10, as *Stephanelytron redcliffense*.

brontes Courtinat, 1999, p.178, pl.1, figs.1–4; text-fig.2. Holotype: Courtinat, 1999, pl.1, fig.2. N.I.A. Age: late Callovian–early Oxfordian.

callovianum (Piel, 1985, p.108,110,112, pl.1, figs.1–9; pl.2, figs.1–8; pl.3, figs.1–5; text-figs.1a–d,2a–c,3 [part]) Courtinat, 1999, p.177. Holotype: Piel, 1985, pl.1, figs.1–6; Fensome et al., 1993a, figs.1–3 — p.1011. Originally *Lagenadinium*, subsequently (and now) *Stephanelytron*. Age: middle to late Callovian.

caytonense Sarjeant, 1961a, p.110, pl.15, fig.16; text-fig.11. Emendation: Stover et al., 1977, p.332. Holotype: Sarjeant, 1961a, pl.15, fig.16; text-fig.11. Age: early Oxfordian.

ceto Courtinat, 1999, p.179, pl.1, figs.10–12; text-fig.3. Holotype: Courtinat, 1999, pl.1, fig.11. N.I.A. Age: latest Callovian–early Oxfordian.

cretaceum Duxbury, 1983, p.56, pl.7, figs.5–6. Holotype: Duxbury, 1983, pl.7, figs.5–6; Fauconnier and Masure, 2004, pl.73, figs.1–2. Taxonomic senior synonym: *Chlamydophorella* (as *Lagenadinium*?, now *Stephanelytron membranoidea*, according to Heilmann-Clausen in Heilmann-Clausen and Thomsen (1995, p.301) — however, Courtinat (1999, p.178) retained *Stephanelytron cretaceum*. Age: Aptian.

membranoideum (Vozzhennikova, 1967, p.114–115, pl.48, figs.1–2,3a–b,4a–b,5–8,9a–c,10) Courtinat, 1999, p.178. Emendation: Lentin and Vozzhennikova, 1990, p.103, as *Lagenadinium? membranoideum*. Holotype: Vozzhennikova, 1967, pl.48, figs.9a–b; Lentin and Vozzhennikova, 1990, text-fig.58; lost according to Lentin and Vozzhennikova (1990, p.103). Lectotype: ?Vozzhennikova, 1967, pl.48, fig.6; Lentin and Vozzhennikova, 1990, pl.10, figs.6–7; designated by Lentin and Vozzhennikova (1990, p.103). Originally *Chlamydophorella*, subsequently *Chlamydophorella?*, thirdly *Lagenadinium?*, fourthly (and now) *Stephanelyton*. Taxonomic junior synonym: *Stephanelyton cretaceum*, according to Heilmann-Clausen in Heilmann-Clausen and Thomsen (1995, p.301) — however, Courtinat (1999, p.178) retained *Stephanelyton cretaceum*. Age: Late Jurassic.

***redcliffense** Sarjeant, 1961a, p.109–110, pl.15, fig.11; text-fig.10. Emendation: Stover et al., 1977, p.331–332; Fauconnier and Masure, 2004, pl.73, fig.3. Holotype: Sarjeant, 1961a, pl.15, fig.11; text-fig.10; Fensome et al., 1995, figs.1–4 — p.1731. Age: early Oxfordian.

scarburghense Sarjeant, 1961a, p.111, pl.15, figs.12–13. Emendation: Stover et al., 1977, p.333, as *Stephanelyton scarburghense*. Holotype: Sarjeant, 1961a, pl.15, figs.12–13; Fauconnier and Masure, 2004, pl.73, fig.4. Originally (and now) *Stephanelyton*, subsequently *Lagenadinium*. Riding (1987a, p.263) retained this species in *Stephanelyton*. Age: early Oxfordian.

tabulophorum Stover et al., 1977, p.333, pl.1, figs.12a–b,13a–c. Holotype: Stover et al., 1977, pl.1, figs.13a–c. Age: late Callovian.

STEPHODINIUM Deflandre, 1936a, p.58. Emendation: Davey, 1970, p.347. Type: Deflandre, 1936a, text-fig.104, as *Stephodium coronatum*.

australicum Cookson and Eisenack, 1962b, p.491, pl.2, figs.5–10. Holotype: Cookson and Eisenack, 1962b, pl.2, fig.8. Taxonomic senior synonym: *Stephodium coronatum*, according to Clarke and Verdier (1967, p.67) — however, Singh (1983, p.154–155) retained *Stephodium australicum*. Age: late Albian–Cenomanian.

***coronatum** Deflandre, 1936a, p.58; text-fig.104. Holotype: Deflandre, 1936a, text-fig.104. Taxonomic junior synonyms: *Stephodium australicum* and *Stephodium europaicum*, both according to Clarke and Verdier (1967, p.67) — however, Singh (1983, p.154–155) retained *Stephodium australicum*. Age: Senonian.

"**daveyi**" Below, 1982d, p.353–354,356, figs.28–37. Holotype: Below, 1982d, figs.32–34. **Taxonomic senior synonym:** *Stephodium dianneae*, according to Lister and Batten (1988b, p.40). Age: late Aptian.

dianneae Morgan, 1980, p.32, pl.27, figs.9–11; pl.28, figs.1–4. Holotype: Morgan, 1980, pl.28, figs.1–4. Taxonomic junior synonym: *Stephodium daveyi*, according to Lister and Batten (1988b, p.40). Age: Aptian–early Albian.

"**europaicum**" Cookson and Hughes, 1964, p.50, pl.8, figs.9–17. Holotype: Cookson and Hughes, 1964, pl.8, figs.9–12. **Taxonomic senior synonym:** *Stephodium coronatum*, according to Clarke and Verdier (1967, p.67). Age: late Albian.

?**parvum** de Coninck, 1986b, p.19, pl.9, figs.16–18,21–23. Holotype: de Coninck, 1986b, pl.9, figs.21–23. Questionable assignment: de Coninck (1986b, p.19). Age: middle Eocene–early Oligocene (Bartonian–Rupelian).

?**pellucidum** Deflandre, 1943, p.505,507; text-figs.12–16. Holotype: Deflandre, 1943, text-figs.12–13. Originally *Stephodium*, subsequently (and now) *Stephodium?*. Questionable assignment: Stover and Evitt (1978, p.193). Age: ?Senonian.

"**spiniferum**" Cookson and Eisenack, 1965a, p.124–125, pl.14, fig.10. Holotype: Cookson and Eisenack, 1965a, pl.14, fig.10. **NOW** *Thalassiphora?*. Originally *Stephodium*, subsequently (and now) *Thalassiphora?*. Age: late Eocene.

?*spinosum* Slimani, 1996, p.379–380, pl.1, figs.M–R ex Slimani, 2001b, p.8–9, pl.3, figs.12–17. Holotype: Slimani, 1996, pl.1, figs.M–N; Slimani, 2001b, pl.3, figs.12–13. Questionable assignment: Slimani (1996, p.379; 2001b, p.8). This name was not validly published in Slimani (1996) since no English or Latin description or diagnosis was provided. Age: early–late Campanian.

spinulosum Duxbury, 1983, p.57–58, pl.5, figs.6,10,14; text-figs.25–26. Holotype: Duxbury, 1983, pl.5, fig.6. Age: late Aptian–early Albian.

STICHODINIUM Williams et al., 2015, p.314. Emendation: Iakovleva, 2016, p.11 (on PDF initially published online). Type: He Chengquan and Wang Kede, 1990, pl.2, fig.3; text-fig.2, as *Wilsonidium subtile*.

elegantulum Iakovleva, 2016, p.11,18 (on PDF initially published online), pl.7, figs.3,6,9; text-fig.4b (part). Holotype: Iakovleva, 2016, pl.1, figs.4–5. Age: earliest Eocene.

galliciense Iakovleva, 2016, p.18 (on PDF initially published online), pl.1, figs.1–2,4–5,7–8; text-fig.4a (part). Holotype: Iakovleva, 2016, pl.7, figs.3,6. Age: earliest Eocene.

?*lineidentatum* (Deflandre and Cookson, 1955, p.253–254, pl.5, fig.5; text-figs.17–18) Williams et al., 2015, p.314. Holotype: Deflandre and Cookson, 1955, pl.5, fig.5. Originally *Wetzeliella*, subsequently *Wilsonidium*, thirdly (and now) *Stichodinium*? Questionable assignment: Williams et al. (2015, p.314). Age: Eocene.

parisiense Iakovleva, 2016, p.18 (on PDF initially published online), pl.3, figs.1–2,4–5,7–8,10–11; text-fig.4b (part). Holotype: Iakovleva, 2016, pl.3, figs.1–2. Age: earliest Eocene.

prostimum Iakovleva, 2016, p.18–19 (on PDF initially published online), pl.7, figs.7–8; text-fig.4b (part). Holotype: Iakovleva, 2016, pl.7, figs.7–8. Age: earliest Eocene.

**subtile* (He Chengquan and Wang Kede, 1990, p.418,424, pl.2, fig.3; text-fig.2) Williams et al., 2015, p.314. Holotype: He Chengquan and Wang Kede, 1990, pl.2, fig.3; text-fig.2. Originally *Wilsonidium*, subsequently (and now) *Stichodinium*. Age: late early Eocene.

sympagicum Iakovleva, 2016, p.19 (on PDF initially published online), pl.8, figs.1–12; text-fig.4c (part). Holotype: Iakovleva, 2016, pl.8, figs.10–11. Age: earliest Eocene.

STIPHROSPHAERIDIUM Davey, 1982b, p.16. Although the "type species" was not validly transferred by Davey (1982b, p.16,35), the generic name *Stiphrosphaeridium* was validly published by that author since it is based on a previously validly published species name (I.C.N. Article 40.3). Type: Cookson and Eisenack, 1958, pl.11, fig.14, as *Hystrichosphaeridium dictyophorum*.

anthophorum (Cookson and Eisenack, 1958, p.43, pl.11, figs.12–13; text-figs.16–18) Lentin and Williams, 1985, p.340. Holotype: Cookson and Eisenack, 1958, pl.11, fig.12; Fauconnier and Masure, 2004, pl.73, figs.5–6. Originally *Hystrichosphaeridium*, subsequently *Oligosphaeridium*, thirdly *Polystephanephorus*, fourthly (and now) *Stiphrosphaeridium*. Taxonomic junior synonym: *Hystrichosphaerina schindewolfii*, according to Davey (1979c, p.65) — however, Lentin and Williams (1981, p.150) retained *Hystrichosphaerina schindewolfii*. This combination was not validly published in Davey (1982b, p.18,35) since that author did not give a reference for Cookson and Eisenack (1958). Age: Aptian–Albian.

arbustum Davey, 1982b, p.17–18, pl.3, figs.1–4. Holotype: Davey, 1982b, pl.3, figs.1–2; Fauconnier and Masure, 2004, pl.73, figs.7–8. Age: late Ryazanian.

**dictyophorum* (Cookson and Eisenack, 1958, p.44, pl.11, fig.14) Lentin and Williams, 1985, p.340. Holotype: Cookson and Eisenack, 1958, pl.11, fig.14; Fensome et al., 1993a, fig.1 — p.1125. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Oligosphaeridium*, fourthly (and now)

Stiphrosphaeridium. This combination was not validly published in Davey (1982b, p.16,35) since that author did not give a reference for Cookson and Eisenack (1958). Age: Late Jurassic.

"*sarjeantii*" (Gitmez, 1970, p.291–292, pl.11, fig.4; text-fig.25) Courtinat, 1989, p.172. Holotype: Gitmez, 1970, pl.11, fig.4; text-fig.25; Fauconnier and Masure, 2004, pl.26, fig.7. **NOW** *Emmetrocyta*. Originally *Polystephanephorus*, subsequently (and now) *Emmetrocyta*, thirdly *Hystriosphera*, fourthly *Stiphrosphaeridium*. Age: early Kimmeridgian.

STOMIOSPHAERA Wanner, 1940, p.76. Emendation: Dufour, 1968, p.1947. Calcareous dinoflagellate genus, originally described as a foraminifer (see Elbrächter et al., 2008, p.1302). Taxonomic junior synonyms: *Orthopithonella*, by implication in Reháková and Michalík (1996, p.93), who believed *Stomiosphaera* to be the senior name — however, Streng et al. (2004, p.482) retained *Orthopithonella*; *Cadosina*, according to Bonet (1956, p.447–448) — however, I. Nagy (1966, p.87) proposed the retention of *Cadosina*. Fensome and Williams (2004) considered this genus to be not validly published because a type was not designated. However, Elbrächter et al. (2008, p.1298) implied that this generic name can be considered validly published as it was proposed under the I.C.Z.N. Thus, we have revised the status of the contained species as appropriate, as well as reconsidered the generic synonymies. Type: not designated; "type species" — *Stomiosphaera moluccana*.

?*acculeata* Vogler, 1941, p.284, pl.21, figs.66,69. Questionable assignment: Dufour (1968, p.1948). Age: Late Jurassic?–Neocomian?

alpina Leischner, 1959, p.870, text-fig.10b. Holotype: Leischner, 1959, text-fig.10b. Further information not available.

?*asadensis* Colom and Allard, 1958, p.31–32, fig.1 (21 unlabelled illustrations). Holotype: not designated. Questionable assignment: Dufour (1968, p.1948). Even though no holotype was designated, since this species was proposed under zoological nomenclature it can be accepted as validly published. Age: Pliensbachian.

"*betica*" Azéma, 1966, p.838–840, pl.1, figs.7–8; pl.2, fig.9. Holotype: information not available. **NOW** *Bonetocardiella*. Originally *Stomiosphaera*, subsequently (and now) *Bonetocardiella*. Age: information not available.

"*borzae*" (I. Nagy, 1966, p.92, pl.5, figs.15–16) Dufour, 1968, p.1947. Holotype: I. Nagy, 1966, pl.5, fig.15. **NOW** *Carpistomiosphaera*. Originally *Cadosina*, subsequently *Stomiosphaera*, thirdly (and now) *Carpistomiosphaera*. Dufour did not reference the basonym when proposing this combination, but this was not a requirement since he was using zoological nomenclature. Age: Kimmeridgian.

"*cardiiformis*" Ayala Castañares and Seigle, 1962, p.16–17, pl.1, figs.1–5,7–9. Holotype: information not available. Originally *Stomiosphaera*, subsequently *Bonetocardiella*, thirdly *Conejoconus* (generic name illegitimate).

Taxonomic senior synonym: *Leptodermella* (now *Inocardion*) *maastrichtiensis* (Appendix A), according to Villain (1975, p.198). Taxonomic junior synonym: *Bonetocardiella conoidea*, according to Andri (1972, p.15) — however, the latter species has generally been retained as type of *Bonetocardiella*. Age: information not available.

"*carpathica*" Borza, 1964, p.191–192, pl.1, figs.3–4. Holotype: Borza, 1964, pl.1, fig.3. **NOW** *Colomisphaera*. Originally *Stomiosphaera*, subsequently (and now) *Colomisphaera*. Age: Kimmeridgian.

colomii Durand Delga, 1957, p.162–163, pl.1, fig.4. Holotype: Durand Delga, 1957, pl.1, fig.4. Age: Berriasian.

"*conoidea*" Bonet, 1956, p.454–456, pl.22, figs.1(part)–2; pl.27, fig.1(part). **NOW** *Bonetocardiella*. Originally *Stomiosphaera*, subsequently (and now) *Bonetocardiella*, thirdly *Conejoconus* (generic name illegitimate). Taxonomic senior synonym: *Stomiosphaera cardiiformis* according to Andri (1972, p.15) — however, the latter species is now considered a taxonomic junior synonym of *Leptodermella* (now *Inocardion*) *maastrichtiensis* and separate from *Stomiosphaera* (now *Bonetocardiella*) *conoidea*. Age: Middle Cretaceous.

"?*diffringens*" (de Lapparent, 1918, p.21–22 [name first used on p.22], pl.2, fig.1–part; pl.3, figs.1–part,2–part) Vogler, 1941, p.283. Holotype: not designated. **NOW** *Microconus*. Originally *Lagena* (Appendix A), subsequently *Stomiosphaera*, thirdly (and now) *Microconus*. Questionable assignment: Dufour (1968, p.1948). In proposing this combination Vogler (1941, p.283) gave the citation "*Stomiosphaera* cf. *diffringens*". Age: Late Cretaceous? (according to Vogler, 1941, "Inhalt" and p.283).

echinata Nowak, 1968, p.294,296–298, pl.27, figs.1–2; text-fig.4, nos.1–21. Holotype: Nowak, 1968, pl.27, figs.1–2. Age: Hauterivian.

"*fibrata*" (I. Nagy, 1966, p.92–93,100, pl.5, figs.14,22) Dufour, 1968, p.1948. Holotype: I. Nagy, 1966, pl.5, fig.14. **NOW** *Colomisphaera*. Originally *Cadosina*, subsequently *Stomiosphaera*, thirdly (and now) *Colomisphaera*. Dufour did not reference the basionym when proposing this combination, but this was not a requirement since he was using zoological nomenclature. Age: Oxfordian.

"*fusca*" (Wanner, 1940, p.79–81, pl.1, figs.1–2 [parts]; pl.2, figs.3–5; text-figs.19–30) Dufour, 1968, p.1948. Holotype: not designated. **Combination not validly published**: not intended. **NOW** *Cadosina*. Originally (and now) *Cadosina*, subsequently *Stomiosphaera* (combination not validly published). This species is now retained as the type of *Cadosina*. See also *Stomiosphaera fusca* subsp. *misolensis*. Age: Late Jurassic?

"subsp. *misolensis*" (Vogler, 1941, p.281, pl.20, fig.7) Dufour, 1968, p.1948. Holotype: Vogler, 1941, pl.20, fig.7. **Combination not validly published**: specific combination not validly published. **NOW** *Cadosina fusca* subsp. *misolensis*. Originally (and now) *Cadosina fusca* subsp. *misolensis*, subsequently *Stomiosphaera fusca* subsp. *misolensis* (name not validly published). Age: Late Jurassic?–Neocomian?

"*heliosphaera*" (Vogler, 1941, p.281, pl.20, fig.6) Dufour, 1968, p.1948. Holotype: Vogler, 1941, pl.20, fig.6. **NOW** *Colomisphaera*. Originally *Cadosina*, subsequently *Stomiosphaera*, thirdly (and now) *Colomisphaera*. Dufour did not reference the basionym when proposing this combination, but this was not a requirement since he was using zoological nomenclature. Age: Neocomian? (Oxfordian–Berriasian according to I. Nagy, 1966, p.88).

"*lapidosa*" (Vogler, 1941, p.281, pl.21, fig.58) Dufour, 1968, p.1948. Holotype: Vogler, 1941, pl.21, fig.58. **NOW** *Colomisphaera*. Originally *Cadosina*, subsequently *Stomiosphaera*, thirdly (and now) *Colomisphaera*. Dufour did not reference the basionym when proposing this combination, but this was not a requirement since he was using zoological nomenclature. Age: Neocomian?

leporis Řehánek, 1984, p.182–184, pl.84, figs.1–8. Holotype: Řehánek, 1984, pl.84, figs.1–3. Age: Late Cretaceous.

"*malmica*" Borza, 1964, p.192, pl.1, figs.5–6. Holotype: Borza, 1964, pl.1, fig.5. **NOW** *Parastomiosphaera*. Originally *Stomiosphaera*, subsequently *Cadosina* (name not validly published), thirdly (and now) *Parastomiosphaera*. Age: Kimmeridgian.

"*minutissima*" (Colom, 1935, p.12, pl.2, fig.8; text-fig.4a [four specimens]) Durand Delga, 1957, p.161. Holotype: not designated. **NOW** *Colomisphaera*. Originally *Fibroaesphaerae* (generic name not validly published; Appendix A), subsequently *Stomiosphaera*, thirdly (and now) *Colomisphaera*, fourthly *Schizosphaerella*. Age: Late Early Jurassic.

misolensis (Vogler, 1941, p.281, pl.20, figs.1b [indicated as 1a in plate caption],8) Dufour, 1968, p.1948. Holotype: not designated. Originally *Cadosina*, subsequently (and now) *Stomiosphaera*. Age: Late Jurassic?–Neocomian?

**moluccana* Wanner, 1940, p.76–78, pl.1, figs.1–2(parts); pl.2, figs.3–6 (parts); text-figs.1–18. Holotype: not designated. Age: Late Jurassic?

moretii Durand Delga, 1957, p.163, pl.1, fig.5. Holotype: Durand Delga, 1957, pl.1, fig.5. Age: Late Jurassic.

"?*orbularia*" (de Lapparent, 1918, p.20, pl.2, figs.1–part,2–part; pl.3, fig.2–part) Vogler, 1941, p.283. Holotype: not designated. **NOW** *Inocardion*. Originally *Lagena* (Appendix A), subsequently *Stomiosphaera*, thirdly

Sphaerella (generic name illegitimate), fourthly *Stomiodinium?*, fifthly (and now) *Inocardion*. Questionable assignment: Dufour (1968, p.1948). Taxonomic senior synonym: *Lagena* (now *Pithonella*) *sphaerica*, according to Bonet (1956, p.450) — however, Masters and Scott (1978, p.215) retained this species as the type of *Inocardion*. In proposing this combination, Vogler (1941, p.283) gave the citation "*Stomiosphaera* cf. *orbularia*". Age: Late Cretaceous.

?*polygona* Vogler, 1941, p.283, pl.21, fig.61. Holotype: Vogler, 1941, pl.21, fig.61. Questionable assignment: Dufour (1968, p.1948). Age: Neocomian?

"*pulla*" Borza, 1964, p.192–193, pl.2, figs.1–2. Holotype: Borza, 1964, pl.2, fig.1. **NOW** *Colomisphaera*. Originally *Stomiosphaera*, subsequently *Cadosina*, thirdly (and now) *Colomisphaera*. Age: Kimmeridgian.

radiata (Vogler, 1941, p.281, pl.20, fig.1) Dufour, 1968, p.1948. Holotype: Vogler, 1941, pl.20, fig.1. Originally *Cadosina*, subsequently (and now) *Stomiosphaera*. Dufour did not reference the basionym when proposing this combination, but this was not a requirement since he was using zoological nomenclature. Age: Neocomian? (Kimmeridgian according to I. Nagy, 1966, p.88).

"*semiradiata*" (Wanner, 1940, p.81, text-figs.36–37) Dufour, 1968, p.1948. Holotype: not designated. **NOW** *Crustocadosina*. Originally *Cadosina*, subsequently *Stomiosphaera*, thirdly (and now) *Crustocadosina*. Dufour did not reference the basionym when proposing this combination, but this was not a requirement since he was using zoological nomenclature. Age: Late Jurassic?

similis Bonet, 1956, p.453–454, text-figs.4A–C. Holotype: Bonet, 1956, text-figs.4A–C. Age: late Aptian?–early Albian.

"?*sphaerica*" (Kaufmann in Heer, 1865, p.196, figs.104, 106a–b) Bonet, 1956, p.450. Holotype: not designated. **NOW** *Pithonella*. Originally *Lagena* (Appendix A), subsequently *Stomiosphaera*, thirdly *Palinosphaera* (generic name not validly published), fourthly (and now) *Pithonella*. Questionable assignment: Dufour (1968, p.1948). Taxonomic senior synonym: *Lagena* (now *Pithonella*) *ovalis*, according to Lorenz (1902, p.46) — however, Bonet (1956, p.450) retained *Lagena* (as *Stomiosphaera*) *sphaerica*. Taxonomic junior synonym: *Lagena orbularia* (Appendix A), according to Bonet (1956, p.450) — however, Masters and Scott (1978, p.215) retained the latter species as type of *Inocardion*. Age: late Cenomanian–Turonian (based on later studies by Bolli — P. Hochuli, personal communication).

?*spinosa* Vogler, 1941, p.284, pl.21, figs.60,65. Holotype : not designated. Questionable assignment: Dufour (1968, p.1948). Age: Early Cretaceous?

stephanoidea (Colom, 1935, p.12, text-fig.4b) Dufour, 1968, p.1948. Holotype: Colom, 1935, text-fig.4b. Originally *Fibrosphaera* (Appendix A), subsequently (and now) *Stomiosphaera*. Dufour did not reference the basionym when proposing this combination, but this was not a requirement since he was using zoological nomenclature. Age: Late Early Jurassic.

"*sublapidosa*" (Vogler, 1941, p.280–281, pl.20, fig.5) Dufour, 1968, p.1948. Holotype: Vogler, 1941, pl.20, fig.5. **NOW** *Committosphaera*. Originally *Cadosina*, subsequently *Stomiosphaera*, thirdly (and now) *Committosphaera*. Dufour did not reference the basionym when proposing this combination, but this was not a requirement since he was using zoological nomenclature. Age: Neocomian?

"*tenuis*" (I. Nagy, 1966, p.93, 100–101, pl.5, fig.18) Dufour, 1968, p.1948. Holotype: I. Nagy, 1966, pl.5, fig.18. **NOW** *Colomisphaera*. Originally *Cadosina*, subsequently *Stomiosphaera*, thirdly (and now) *Colomisphaera*. Dufour did not reference the basionym when proposing this combination, but this was not a requirement since he was using zoological nomenclature. Age: Oxfordian.

wanneri Borza, 1969, p.62, pl.61, figs.4–13. Taxonomic junior synonym: *Orthopithonella congruens*, according to Reháková and Michalík (1996, p.93) — however, Streng et al. (2004, p.482) retained the latter species separately. Further information not available.

STOMIOSPHAERINA Nowak, 1974, p.53. Calcareous dinoflagellate genus (see Elbrächter et al., 2008, p.1302). Type: Nowak, 1974, pl.1, figs.1–2, as *Stomiosphaerina biedae*.

**biedae* Nowak, 1974, p.53–56, pl.1, figs.1–4; pl.2, figs.3–4; pl.3, figs.1–4; pl.5, figs.1–4; text-fig.2. Holotype: Nowak, 1974, pl.1, figs.1–2. Age: Turonian–?Santonian.

proxima Řehánek, 1987b, p.696–700, pl.1, figs.1–8. Holotype: Řehánek, 1987b, pl.1, figs.1,3,5. Age: early Berriasian.

"**STOMODINIUM**" He Chengquan, 1984a, p.770,774. **Taxonomic senior synonym:** *Xenicodinium*, according to Chen et al. (1988, p.31). Type: He Chengquan, 1984a, pl.1, fig.12, as *Stomodinium crassum*.

crassum* He Chengquan, 1984a, p.770–771, pl.1, figs.12–14; text-fig.2. Holotype: He Chengquan, 1984a, pl.1, fig.12. **NOW *Xenicodinium*. Originally *Stomodinium*, subsequently (and now) *Xenicodinium*. Age: early-middle Eocene.

suturispinosum He Chengquan, 1991, p.120, pl.13, fig.8. Holotype: He Chengquan, 1991, pl.13, fig.8. **NOW** *Xenicodinium*. Originally *Stomodinium*, subsequently (and now) *Xenicodinium*. Age: early Eocene.

verrucosum He Chengquan, 1991, p.119–120, pl.13, figs.1,7; text-fig.18. Holotype: He Chengquan, 1991, pl.13, fig.7, text-fig.18. **NOW** *Xenicodinium*. Originally *Stomodinium*, subsequently (and now) *Xenicodinium*. Age: middle Eocene.

STOVERACYSTA Clowes, 1985, p.29–30. Type: Clowes, 1985, pl.1, figs.1–3, as *Stoveracysta kakanuiensis*.

conerae Biffi and Manum, 1988, p.192,194, pl.6, figs.10–18. Holotype: Biffi and Manum, 1988, pl.6, figs.10–11. Age: early Miocene.

**kakanuiensis* Clowes, 1985, p.32,34, pl.1, figs.1–12; pl.2, figs.1–12; text-figs.4a–b. Holotype: Clowes, 1985, pl.1, figs.1–3; Fensome et al., 1996, figs.1–3 — p.2175. Age: early Oligocene.

ornata (Cookson and Eisenack, 1965a, p.124, pl.13, figs.1–8) Clowes, 1985, p.34. Holotype: Cookson and Eisenack, 1965a, pl.13, figs.1–2. Originally *Eisenackia*, subsequently *Alisocysta*, thirdly (and now) *Stoveracysta*. Age: late Eocene.

STRIATODINIUM Riding and Helby, 2001f, p.166,168. Type: Riding and Helby, 2001f, figs.15O–P, as *Striatodinium ottii*.

lineatum Riding and Helby, 2001f, p.168,170, figs.14A–P. Holotype: Riding and Helby, 2001f, figs.14A–B. Age: Oxfordian–earliest Kimmeridgian.

**ottii* Riding and Helby, 2001f, p.170–171, figs.15A–P. Holotype: Riding and Helby, 2001f, figs.15O–P. Taxonomic junior synonym: *Dictyopyxis elliptica* (name not validly published), according to Riding and Helby (2001f, p.170). Age: Oxfordian–earliest Kimmeridgian.

STROMAPHORA Xu Jinli et al., 1997, p.123,155. Type: Xu Jinli et al., 1997, pl.8, fig.10; text-fig.15, as *Stromaphora caudata*.

**caudata* Xu Jinli et al., 1997, p.123–124,155–156, pl.8, figs.9–11; text-fig.15. Holotype: Xu Jinli et al., 1997, pl.8, fig.10; text-fig.15. Age: middle-late Eocene.

ovata Xu Jinli et al., 1997, p.124, pl.8, figs.1–2,5–8; pl.23, fig.15 ex He Chengquan et al., 2009, p.372,672. Holotype: Xu Jinli et al., 1997, pl.8, fig.1. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.672) validated the name by publishing an English diagnosis. Age: middle-late Eocene.

rotunda Xu Jinli et al., 1997, p.125, pl.8, figs.3–4 ex He Chengquan et al., 2009, p.372,673. Holotype: Xu Jinli et al., 1997, pl.8, fig.3. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.673) validated the name by publishing an English diagnosis. Age: middle-late Eocene.

"**SUBATHUA**" Khanna and Singh, 1980, p.307–308. **Taxonomic senior synonym:** *Thalassiphora*, according to Lentin and Williams (1985, p.340; 1989, p.354). Taxonomic senior synonym: *Disphaeria*, by implication in Sarkar and Singh (1988, p.41), who transferred the "type species" of *Subathua*, *Subathua sahnii*, to *Disphaeria*. Type: Khanna and Singh, 1980, pl.1, fig.2, as *Subathua sahnii*.

"**balcanica**" (Balteş, 1971, p.6, pl.3, figs.3–7) Khanna and Singh, 1980, p.308 and 1981b, p.394. Holotype: Balteş, 1971, pl.3, figs.3–7. **Combination not validly published:** basionym not fully referenced. **NOW** *Thalassiphora*. Originally (and now) *Thalassiphora*, subsequently *Disphaeria*, thirdly *Subathua* (combination not validly published), fourthly *Spiniferites*. Taxonomic senior synonym: *Pterospermopsis* (as and now *Thalassiphora*) *pelagica*, according to Stover and Evitt (1978, p.194) — however, Sütő-Szentai (2000, p.162) retained *Thalassiphora* (as *Spiniferites*) *balcanica*. Age: early Pliocene.

"**sahnii**" Khanna and Singh, 1980, p.308–309, pl.1, figs.1–3,5–9; text-figs.1–2. Emendation: Sarkar and Singh, 1988, p.41, as *Disphaeria sahnii*. Holotype: Khanna and Singh, 1980, pl.1, fig.2; Fensome et al., 1995, fig.2 — p.1759. Originally *Subathua*, subsequently *Disphaeria*. **Taxonomic senior synonym:** *Adnatosphaeridium* (as and now *Thalassiphora*) *patulum*, according to Stover and Williams (1987, p.207) and Lentin and Williams (1989, p.354). Taxonomic senior synonym: *Pterospermopsis* (as and now *Thalassiphora*) *pelagica*, according to Lentin and Williams (1985, p.340). This name was not validly published in Singh et al. (1979, p.35–36,46: caption to pl.2, fig.4) and Khanna (1979, p.217) since no description was provided. Age: Eocene.

"**spinosa**" Khanna and Singh, 1980, p.309, pl.1, figs.10–12; text-fig.3. Holotype: Khanna and Singh, 1980, pl.1, fig.10. **NOW** *Thalassiphora simlaensis*. Originally *Subathua spinosa*, subsequently *Thalassiphora spinosa* (combination illegitimate), thirdly (and now) *Thalassiphora simlaensis*. Taxonomic senior synonym: *Pterospermopsis* (as and now *Thalassiphora*) *pelagica*, according to Lentin and Williams (1985, p.340) — however, Stover and Williams (1987, p.207) retained *Subathua* (as *Thalassiphora*) *spinosa* (now *Thalassiphora simlaensis*). Nomenclatural junior synonym: *Muratodinium subathuensis*, since in proposing this species Sarkar (2012, p.174) included the holotype of *Thalassiphora simlaensis* (= *Subathua spinosa*) in synonymy with *Muratodinium subathuensis*. Age: Eocene.

SUBTILIDINIUM Morgenroth, 1968, p.539. Taxonomic senior synonym: *Phanerodinium*, according to Below (1987b, p.36) — however, Lentin and Williams (1989, p.354,622) retained *Subtilidinium*. Type: Morgenroth, 1968, pl.42, figs.8–9, as *Subtilidinium minutum*.

***minutum** Morgenroth, 1968, p.539–540, pl.42, figs.8–9; pl.43, figs.1–2; text-figs.3–4. Holotype: Morgenroth, 1968, pl.42, figs.8–9. Originally (and now) *Subtilidinium*, subsequently *Phanerodinium*. Lentin and Williams (1989, p.355) retained this species in *Subtilidinium*. Age: Danian.

SUBTILISPHAERA Jain and Millepied, 1973, p.26–27. Emendation: Lentin and Williams, 1976, p.117–119. Type: Jain and Millepied, 1973, pl.3, fig.31, as *Subtilisphaera senegalensis*.

"**asymmetrica**" (Davey and Verdier, 1971, p.39–40, pl.2, figs.4,6) Lentin and Williams, 1976, p.119. Holotype: Davey and Verdier, 1971, pl.2, fig.6. **Name illegitimate: nomenclatural senior synonym:** *Deflandrea* (now *Subtilisphaera*) *deformans*, which has the same type. **NOW** *Subtilisphaera deformans*. Originally *Deflandrea*

asymmetrica (name illegitimate), subsequently *Deflandrea deformans*, thirdly *Deflandrea daveyi* (name illegitimate), fourthly *Subtilisphaera asymmetrica* (name illegitimate), fifthly (and now) *Subtilisphaera deformans*. Age: middle Albian.

balcattensis (Cookson and Eisenack, 1969, p.3,5, figs.1B–F) Lentin and Williams, 1976, p.119. Holotype: Cookson and Eisenack, 1969, fig.1B. Originally *Deflandrea*, subsequently (and now) *Subtilisphaera*. Age: Albian–Cenomanian.

"***cheit***" Below, 1981a, p.126–127, pl.9, figs.23–24; text-fig.85. Holotype: Below, 1981a, pl.9, fig.23; Fensome et al., 1991, fig.1 — p.611. **NOW** *Palaeohystrichophora*. Originally *Subtilisphaera*, subsequently (and now) *Palaeohystrichophora* Age: Aptian–Vraconian.

"***chichalii***" Beju, 1978, p.4. **Name not validly published**: no description or illustration.

cinctuta Roncaglia and Corradini, 1997, p.189,192, pl.5, figs.7–8. Holotype: Roncaglia and Corradini, 1997, pl.5, fig.7. Age: middle Maastrichtian.

circularis He Chengquan in Zheng Yahui and He Chengquan, 1984, p.101, pl.6, figs.10–17. Holotype: Zheng Yahui and He Chengquan, 1984, pl.6, fig.12. Age: Late Cretaceous.

crassigranulosa Jain and Millepied, 1973, p.28, pl.2, fig.25. Holotype: Jain and Millepied, 1973, pl.2, fig.25 (centre of plate). This name was listed incorrectly as invalid in Fensome and Williams (2004, p.637). Age: Aptian.

"***cretacea***" (Pocock, 1962, p.80, pl.14, figs.219–221 ex Davey, 1970, p.359) Jain and Millepied, 1973, p.27. Emendation: Harding, 1990a, p.44, as *Palaeoperidinium cretaceum*. Holotype: Pocock, 1962, pl.14, fig.219. **NOW** *Palaeoperidinium*. Originally *Palaeoperidinium* (name not validly published), subsequently *Astrocysta*, thirdly *Lejeunia?* (combination illegitimate), fourthly *Subtilisphaera*, fifthly (and now) *Palaeoperidinium*. Taxonomic junior synonyms: *Lejeunia* (as *Palaeoperidinium*) *ampla*, according to Harker and Sarjeant in Harker et al. (1990, p.128); *Astrocysta* (as *Palaeoperidinium*) *manumcooksonii*, according to Lentin and Williams (1976, p.110). Age: Aptian–Albian.

deformans (Davey and Verdier, 1973, p.197) Stover and Evitt, 1978, p.238. Holotype: Davey and Verdier, 1971, pl.2, fig.6. Originally *Deflandrea asymmetrica* (name illegitimate), subsequently *Deflandrea deformans*, thirdly *Deflandrea daveyi* (name illegitimate), fourthly *Subtilisphaera asymmetrica* (name illegitimate), fifthly (and now) *Subtilisphaera deformans*. *Deflandrea deformans* is the substitute name for *Deflandrea asymmetrica* Davey and Verdier, 1971, p.39–40, pl.2, figs.4,6 (an illegitimate name). Age: middle Albian.

dongyingensis (Jiabo, 1978, p.82, pl.4, figs.6–9; pl.5, figs.1–6) Song Zhichen and He Chengquan, 1982, p.735. Holotype: Jiabo, 1978, pl.4, fig.6. Originally *Deflandrea*, subsequently (and now) *Subtilisphaera*. Age: Early Tertiary.

elongata He Chengquan in Zheng Yahui and He Chengquan, 1984, p.101–102, pl.6, fig.26; text-fig.1. Holotype: Zheng Yahui and He Chengquan, 1984, pl.6, fig.26; text-fig.1. Age: Late Cretaceous.

"***euthema***" (Davey and Verdier, 1971, p.40, pl.3, figs.1–3) Lentin and Williams, 1976, p.119. Holotype: Davey and Verdier, 1971, pl.3, fig.2. **NOW** *Eurydinium*. Originally *Deflandrea*, subsequently *Subtilisphaera?*, thirdly (and now) *Eurydinium*. Questionable assignment: Lentin and Williams (1976, p.119). Age: middle-late Albian.

foliacea (Eisenack and Cookson, 1960, p.2, pl.1, fig.3) Stover and Evitt, 1978, p.239. Holotype: Eisenack and Cookson, 1960, pl.1, fig.3. Originally *Deflandrea*, subsequently *Alterbia* (combination illegitimate), thirdly (and now) *Subtilisphaera*. Age: Turonian–mid Senonian.

"***guarujaensis***" Masare and Arai, 2003, p.62, pl.1, figs.4–8. Holotype: Masare and Arai, 2003, pl.1, figs.4–7. **Name not validly published**: no English or Latin description. Age: Albian.

?habibii Masure, 1988b, p.129, pl.5, figs.2A–B,3A–B,12; text-fig.6, nos.1–2. Holotype: Masure, 1988b, pl.5, figs.2A–B. Questionable assignment: Masure (1988b, p.129). Age: late Albian–middle Cenomanian.

hagnii Kirsch, 1993, p.50,52, pl.3, figs.1–6; text-figs.5a–d. Holotype: Kirsch, 1993, pl.3, figs.1–2. Age: Barremian.

hyalina Singh, 1983, p.161–162, pl.60, figs.3–9. Holotype: Singh, 1983, pl.60, fig.3. Age: middle Cenomanian.

"inaffecta" (Drugg, 1978, p.68, pl.3, figs.10–12) Bujak and Davies, 1983, p.163. Holotype: Drugg, 1978, pl.3, fig.10. **NOW** *Corculodinium*. Originally *Geiselodinium*, subsequently *Subtilisphaera*, thirdly *Subtilisphaera?*, fourthly (and now) *Corculodinium*. Questionable assignment: Lentin and Williams (1985, p.341). Taxonomic junior synonym: *Geiselodinium paeminosum*, according to Courtinat (2000, p.173). Age: early Kimmeridgian.

kalaallitii Nøhr-Hansen, 1993, p.114, pl.26, figs.1–5. Holotype: Nøhr-Hansen, 1993, pl.26, figs.1–2. Age: late Albian.

"ovata" (Jiabo, 1978, p.84, pl.4, figs.1–3) Song Zhichen and He Chengquan, 1982, p.735. Emendation: Mao Shaozhi et al., 1995, p.51, as *Sanshuia ovata*. Holotype: Jiabo, 1978, pl.4, fig.2. **NOW** *Sanshuia*. Originally *Deflandrea*, subsequently *Subtilisphaera*, thirdly (and now) *Sanshuia*, fourthly *Geiselodinium*, fifthly *Saepodinium*. Age: Early Tertiary.

"paeminosa" (Drugg, 1978, p.68–69, pl.3, figs.5–9) Bujak and Davies, 1983, p.163. Holotype: Drugg, 1978, pl.3, fig.8. Originally *Geiselodinium*, subsequently *Subtilisphaera*, thirdly *Subtilisphaera?*. Questionable assignment: Lentin and Williams (1985, p.342). **Taxonomic senior synonym:** *Geiselodinium* (now *Corculodinium*) *inaffectum*, according to Courtinat (2000, p.173). Age: middle Kimmeridgian.

perlucida (Alberti, 1959b, p.102, pl.9, figs.16–17) Jain and Millepied, 1973, p.27. Holotype: Alberti, 1959b, pl.9, fig.16. Originally *Deflandrea*, subsequently (and now) *Subtilisphaera*. Taxonomic junior synonyms: *Deflandrea* (as *Subtilisphaera*) *pirnaensis*, according to Fensome et al. (2009, p.60); and by implication *Scriniodinium cooksoniae*, which Sarjeant and Anderson (1969, p.32–33) considered to be a taxonomic junior synonym of *Deflandrea* (subsequently *Subtilisphaera*) *pirnaensis*; *Deflandrea* (now *Subtilisphaera*) *rotundata*, according to Davey (1974, p.65) — however, Lentin and Williams (1976, p.119) retained *Deflandrea* (as and now *Subtilisphaera*) *rotundata*. Age: late Barremian.

"pirnaensis" (Alberti, 1959b, p.100, pl.8, figs.1,5) Jain and Millepied, 1973, p.27. Holotype: Alberti, 1959b, pl.8, fig.1. **Taxonomic senior synonym:** *Subtilisphaera perlucida*, according to Fensome et al., 2009, p.60. Originally *Deflandrea*, subsequently *Subtilisphaera*, thirdly *Subtilisphaera?* Questionable assignment: Harker and Sarjeant in Harker et al. (1990, p.133). Taxonomic junior synonym: *Scriniodinium cooksoniae*, according to Sarjeant and Anderson (1969, p.232–233). Lentin and Williams (1976, p.118) stated " *S. pirnaensis* ' is transferred to *Alterbia* ..."; however, they did not effect this change. Age: ?middle Turonian.

pontis-mariae (Deflandre, 1936b, p.167, pl.2, figs.7–9) Lentin and Williams, 1976, p.119. Holotype: Deflandre, 1936b, pl.2, fig.7. Originally *Gymnodinium* (Appendix B), subsequently *Deflandrea*, thirdly *Ascodinium*, fourthly (and now) *Subtilisphaera*. Age: ?Senonian.

puyangensis (Jin Guangxing, He Chengquan and Zhu Shenzhao in He Chengquan et al., 1989, p.37–38, pl.3, fig.7; text-fig.1) Williams et al., 1998, p.590. Holotype: He Chengquan et al., 1989, pl.3, fig.7; text-fig.1. Originally *Alterbia* (generic name illegitimate), subsequently *Alterbidinium*, thirdly (and now) *Subtilisphaera*. Mao Shaozhi et al. (1995, p.99) implied that this name should be restricted to the holotype. Age: Early Tertiary.

rotundata (Eisenack and Cookson, 1960, p.2, pl.1, figs.1–2) Jain and Millepied, 1973, p.27. Holotype: Eisenack and Cookson, 1960, pl.1, fig.1. Originally *Deflandrea*, subsequently *Subtilisphaera*. Taxonomic senior synonym: *Deflandrea* (as and now *Subtilisphaera*) *perlucida*, according to Davey (1974, p.65) — however, Lentin and Williams (1976, p.119) retained *Subtilisphaera rotundata*. Age: Albian.

scabrata Jain and Millepied, 1973, p.28, pl.3, figs.36–39. Holotype: Jain and Millepied, 1973, pl.3, fig.39. Age: Aptian.

scabrella He Chengquan in Zheng Yahui and He Chengquan, 1984, p.102, pl.6, figs.23–25. Holotype: Zheng Yahui and He Chengquan, 1984, pl.6, fig.25. Age: Late Cretaceous.

**senegalensis* Jain and Millepied, 1973, p.27–28, pl.3, figs.31–33. Holotype: Jain and Millepied, 1973, pl.3, fig.31; Fensome et al., 1995, fig.1 — p.1777. Age: Aptian.

"*sverdrupiana*" (Manum, 1963, p.59–60, pl.2, figs.6–15; text-fig.3) Jain and Millepied, 1973, p.27. Emendation: Lebedeva in Ilyina et al., 1994, p.64, as *Spinidinium sverdrupianum*. Holotype: Manum, 1963, pl.2, figs.12–13. **NOW** *Spinidinium*. Originally *Deflandrea*, subsequently (and now) *Spinidinium*, thirdly *Subtilisphaera*, fourthly *Cooksoniella* (combination not validly published). Lentin and Williams (1976, p.118) stated " '*S. sverdrupiana*' [is transferred] to *Palaeoperidinium* ..."; however, they did effect this change. Age: Cenomanian.

terrula (Davey, 1974, p.65, pl.8, figs.4–5) Lentin and Williams, 1976, p.119. Emendation: Harding, 1986a, p.101–102,104, as *Subtilisphaera terrula*. Holotype: Davey, 1974, pl.8, fig.4. Originally *Deflandrea*, subsequently *Subtilisphaera*?, thirdly (and now) *Subtilisphaera*. Questionable assignment: Lentin and Williams (1976, p.119) — however, Harding (1986a, p.101) included the species in *Subtilisphaera* without question. N.I.A. Age: middle Barremian.

"?*trendallii*" (Cookson and Eisenack, 1970a, p.145–146, pl.12, figs.5–6) Lentin and Williams, 1976, p.120. Emendation: Pavlishina, 1995, p.138–139, as *Trithyrodinium trendallii*. Holotype: Cookson and Eisenack, 1970a, pl.12, fig.5. **NOW** *Trithyrodinium*. Originally *Ascodinium*?, subsequently *Subtilisphaera*?, thirdly (and now) *Trithyrodinium*. Questionable assignment: Lentin and Williams (1976, p.120). Age: Albian–Cenomanian.

"*ventriosa*" (Alberti, 1959b, p.101, pl.9, figs.14–15) Jain and Millepied, 1973, p.27. Holotype: Alberti, 1959b, pl.9, fig.14; Eisenack and Klement, 1964, p.239; Fensome et al., 1995, fig.1 — p.1895. **NOW** *Cepadinium*. Originally *Deflandrea*, subsequently *Subtilisphaera*, thirdly (and now) *Cepadinium*. Taxonomic junior synonym: *Cepadinium variabile*, by implication in Lister and Batten (1988b, p.43), who considered *Cepadinium variabile* to be the senior name. Age: early Aptian.

zawia Below, 1981a, p.128–129, pl.9, figs.21–22; text-fig.82. Holotype: Below, 1981a, pl.9, fig.21; Fensome et al., 1991, fig.1 — p.777. N.I.A. Age: Albian.

SUCCINIPERIDINIUM Measure et al., 2013, p.141. Fossil motile dinoflagellate preserved in amber. Type: Measure et al., 2013, pl.3, fig.A, as *Succiniperidinium inopinatum*.

**inopinatum* Measure et al., 2013, p.141–142, pl.1, figs.A–F, pl.2, figs.A–D; pl.3, figs.A–C; pl.4, figs.A–D; pl.5, figs.A–C; pl.6, figs.A–C; pl.7, figs.A–B; text-fig.2. Holotype: Measure et al., pl.3, fig.A. Age: late Albian–earliest Cenomanian.

SUESSIA Morbey, 1975, p.38. Emendation: Below, 1987a, p.87. Nomenclatural junior synonym: *Baserus*, which has the same type. In proposing the name *Baserus*, Özdikmen (2009, p.237) considered *Suessia* Morbey to be illegitimate because it is a junior homonym of *Suessia* Deslongchamps 1855; however, *Suessia* Deslongchamps is an animal and under the I.C.N. it does not pre-empt *Suessia* Morbey. Type: Morbey, 1975, pl.14, fig.5; pl.17, fig.4; text-figs.12a–c, as *Suessia swabiana*.

"*listeri*" Stover and Helby, 1987a, p.121–122,124, figs.21A–C,22A–D,23A–L. Emendation: Below, 1987a, p.77,80, as *Wanneria listeri*. Holotype: Stover and Helby, 1987a, figs.22A–D; Fensome et al., 1996, figs.1–4 — p.2195. **NOW** *Wanneria*. Originally *Suessia*, subsequently (and now) *Wanneria*. Age: Norian.

**swabiana* Morbey, 1975, p.39–40, pl.14, figs.5–11; pl.17, figs.4–9; text-figs.12a–c,13a–c,14a–b,15. Emendation: Below, 1987a, p.94–96. Originally (and now) *Suessia*, subsequently *Baserus* (generic name illegitimate). Holotype: Morbey, 1975, pl.14, fig.5; pl.17, fig.4; text-figs.12a–c; Fensome et al., 1995, figs.1,7–9 — p.1819. Below (1987a,

p.94) considered *Rhombodella* (now *Heibergella*) *kendelbachia* to be a questionable junior synonym of this species. Age: Rhaetian.

SUIBINDIA Yu Jingxian, 1982, p.258–259,262. Type: Yu Jingxian, 1982, pl.8, fig.12, as *Suibindia punctata*.

ovata Yu Jingxian, 1982, p.259, pl.8, figs.25–26. Holotype: Yu Jingxian, 1982, pl.8, fig.26. Age: Late Jurassic–Early Cretaceous.

**punctata* Yu Jingxian, 1982, p.259, pl.8, figs.12,23. Holotype: Yu Jingxian, 1982, pl.8, fig.12. Age: Late Jurassic–Early Cretaceous.

SUMATRADINIUM Lentin and Williams, 1976, p.77–78. Emendation: Lentin et al., 1994, p.570. Matsuoka (1992, p.451) considered *Xandarodinium* to be a possible taxonomic junior synonym of this genus. Type: Drugg, 1970a, fig.12, as *Xenicodinium hispidum*.

"*cephalum*" (Kar, 1979, p.34, pl.4, figs.66a–b,67) Jain, 1980, p.141. Holotype: Kar, 1979, pl.4, figs.66a–b. Originally *Polysphaeridium*, subsequently *Sumatradinium*, thirdly *Batiacasphaera*?. **Taxonomic senior synonym:** *Operculodinium placitum*, according to Jain and Garg (1991, p.81). N.I.A. Age: Oligocene.

"*delectabile*" de Verteuil and Norris, 1992, p.401–402, pl.9, figs.2–6; text-fig.7. Holotype: de Verteuil and Norris, 1992, pl.9, figs.3–4. **NOW** *Erymnodinium*. Originally *Sumatradinium*, subsequently (and now) *Erymnodinium*. Questionable assignment: de Verteuil and Norris (1992, p.401). Age: late Miocene.

druggii Lentin et al., 1994, p.574–575, pl.1, figs.4–7; Fig.3A. Holotype: Lentin et al., 1994, pl.1, fig.4. Age: Burdigalian–?Pliocene.

hamulatum de Verteuil and Norris, 1996a, p.152–153, pl.16, figs.1–8. Holotype: de Verteuil and Norris, 1996a, pl.16, figs.2–5. Age: early Miocene.

**hispidum* (Drugg, 1970a, p.120–121, figs.12–14 [not fig.15]) Lentin and Williams, 1976, p.77. Emendation: Lentin et al., 1994, p.571, as *Sumatradinium hispidum*. Holotype: Drugg, 1970a, fig.12; Lentin et al., 1994, pl.1, fig.1; Fensome et al., 1995, fig.1 — p.1545. Originally *Xenicodinium*, subsequently (and now) *Sumatradinium*. Age: middle Miocene–Pliocene.

"*pliocenicum*" Head, 1993, p.40–41, fig.22, nos.5–14; fig.23. Emendation: De Schepper et al., 2004, p.634, as *Barssidinium pliocenicum*. Holotype: Head, 1993, fig.22, no.11; De Schepper et al., 2004, fig.10.7–9. **NOW** *Barssidinium*. Originally *Sumatradinium*, subsequently (and now) *Barssidinium*. Taxonomic junior synonym: *Barssidinium wrennii*, according to De Schepper et al. (2004, p.634). Age: latest Pliocene.

pustulosum Lentin et al., 1994, p.575, pl.1, fig.12; Fig.3F. Holotype: Lentin et al., 1994, pl.1, fig.12. Age: Serravallian–Tortonian.

soucouyantiae de Verteuil and Norris, 1992, p.402,404,406, pl.8, figs.1–6; pl.9, fig.1; pl.12, figs.2–8. Holotype: de Verteuil and Norris, 1992, pl.8, figs.1–2. Age: early–late Miocene.

SURCULOSPHAERIDIUM Davey et al., 1966, p.160–161. Emendation: Davey, 1982b, p.15 — however, see Stancliffe and Sarjeant (1990, p.207). Taxonomic senior synonym: *Polystephanosphaera*, by implication in Courtinat (1989, p.173), who considered the "type species", *Polystephanosphaera valensii*, to be a taxonomic junior synonym of *Hystrichosphaeridium* (as and now *Surculosphaeridium*) *vestitum* — however, Stancliffe and Sarjeant (1990, p.207–208) retained the two species, as well as the genus *Surculosphaeridium*. Type: Sarjeant, 1960a, pl.6, fig.2, as *Hystrichosphaeridium cribrotubiferum*.

?*alagoense* (Regali et al., 1974, p.290, pl.24, fig.2) Lentin and Williams, 1981, p.270. Holotype: Regali et al., 1974, pl.24, fig.2. Originally *Hystrichosphaeridium*, subsequently (and now) *Surculosphaeridium*?. Questionable assignment: Lentin and Williams (1981, p.270) and Fauconnier and Pourtoy in Fauconnier and Masure (2004, p.519) as a problematic species. Age: middle Eocene–Miocene.

?*argentinense* (Pöthe de Baldis, 1986, p.172, pl.1, figs.1–2) Stover and Williams, 1995, p.102. Holotype: Pöthe de Baldis, 1986, pl.1, fig.1. Originally *Areosphaeridium*, subsequently (and now) *Surculosphaeridium*?. Questionable assignment: Stover and Williams (1995, p.102). Age: Santonian–Campanian.

?*basifurcatum* Yun Hyesu, 1981, p.39–40, pl.16, figs.13–14; text-figs.10a–c. Holotype: Yun Hyesu, 1981, pl.16, fig.13; text-figs.10a–b; Fensome et al., 1991, figs.1,3–4 — p.585; Fauconnier and Masure, 2004, pl.74, figs.14–15. Questionable assignment: Yun Hyesu (1981, p.39) and Fauconnier and Pourtoy in Fauconnier and Masure (2004, p.519) as a problematic species. Age: early Santonian.

belowii Yun Hyesu, 1981, p.40–41, pl.16, figs.5,12; text-figs.11a–b. Holotype: Yun Hyesu, 1981, pl.16, fig.5; text-figs.11a–b; Fensome et al., 1991, figs.2–4 — p.587. Age: early Santonian.

"?*calicigerum*" (de Coninck, 1986b, p.10, pl.1, figs.8–13) Stover and Williams, 1995, p.102. Emendation: Michoux and Masure in Fauconnier and Masure, 2004, p.63. Holotype: de Coninck, 1986b, pl.1, figs.11–13; Fauconnier and Masure, 2004, pl.7, figs.1–3. **NOW** *Areosphaeridium*. Originally *Areosphaeridium*?, subsequently *Surculosphaeridium*?, thirdly (and now) *Areosphaeridium*. Questionable assignment: Stover and Williams (1995, p.102). Age: late Eocene (Tongrian).

?*cassospinum* Yun Hyesu, 1981, p.39, pl.16, figs.4,9,11. Holotype: Yun Hyesu, 1981, pl.16, fig.11; Fensome et al., 1991, fig.3 — p.599. Questionable assignment: Yun Hyesu (1981, p.39) and Fauconnier and Pourtoy in Fauconnier and Masure (2004, p.519) as a problematic species. Age: early Santonian.

**cribrotubiferum* (Sarjeant, 1960a, p.137, pl.6, figs.2–3; text-fig.1) Davey et al., 1966, p.161. Emendations: Davey et al., 1966, p.161; Stancliffe and Sarjeant, 1990, p.207, both as *Surculosphaeridium cribrotubiferum*. Holotype: Sarjeant, 1960a, pl.6, fig.2; text-fig.1; Stancliffe and Sarjeant, 1990, text-fig.3, nos.4,6; Fauconnier and Masure, 2004, pl.73, figs.9–10. Originally *Hystrichosphaeridium*, subsequently (and now) *Surculosphaeridium*. Age: early Oxfordian.

subsp. *cribrotubiferum*. Autonym. Holotype: Sarjeant, 1960a, pl.6, fig.2; text-fig.1; Stancliffe and Sarjeant, 1990, text-fig.3, nos.4,6; Fauconnier and Masure, 2004, pl.73, figs.9–10.

?subsp. *granulosum* Jain, 1977b, p.183, pl.6, fig.76. Holotype: Jain, 1977b, pl.6, fig.76. Originally *Surculosphaeridium cribrotubiferum* subsp. *granulosum*, subsequently (and now) *Surculosphaeridium cribrotubiferum*? subsp. *granulosum*. Questionable assignment: Fauconnier and Pourtoy in Fauconnier and Masure (2004, p.518). Age: early Albian.

divarispinosum Jain, 1977b, p.183, pl.6, fig.77. Holotype: Jain, 1977b, pl.6, fig.77. Age: early Albian.

?*granulatum* (Wetzel, 1952, p.404; text-fig.25) Sarjeant, 1984c, p.136. Emendation: Sarjeant, 1984c, p.136, as *Surculosphaeridium? granulatum*. Holotype: Wetzel, 1952, text-fig.25; Sarjeant, 1984c, pl.5, figs.1–3; text-fig.8. Originally *Hystrichosphaeridium oligacanthum* subsp. *granulatum*, subsequently *Baltisphaeridium oligacanthum* subsp. *granulatum* (Appendix A), thirdly *Cleistosphaeridium? oligacanthum* subsp. *granulatum*, fourthly (and now) *Surculosphaeridium? granulatum*. Questionable assignment: Sarjeant (1984c, p.136) and Fauconnier and Pourtoy in Fauconnier and Masure (2004, p.519) as a problematic species. Age: Paleocene.

"*granulosum*" Jain, 1977b, p.182–183, pl.2, fig.17. Holotype: Jain, 1977b, pl.2, fig.17; Fauconnier and Masure, 2004, pl.76, figs.8–10. **NOW** *Systematophora*. Originally *Surculosphaeridium*, subsequently (and now) *Systematophora*. Age: early Albian.

longifurcatum (Firtion, 1952, p.157–158, pl.9, fig.1; text-figs.1H–M) Davey et al., 1966, p.163. Holotype: Firtion, 1952, pl.9, fig.1; lost according to Fauconnier and Pourtoy in Fauconnier and Masure (2004, p.517). Neotype:

Foucher, 1976, pl.5, figs.7–8, designated by Fauconnier and Pourtoy in Fauconnier and Masure (2004, p.518); Fauconnier and Masure, 2004, pl.74, figs.2–3. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly (and now) *Surculosphaeridium*, fourthly *Surculosphaeridium?*. Questionable assignment: Stover and Evitt (1978, p.83) — however, Fauconnier and Pourtoy in Fauconnier and Masure (2004, p.517) considered that this species should be assigned to *Surculosphaeridium* without question.. Age: Cenomanian.

?*oecaniae* (de Coninck, 1969, p.60, pl.17, figs.12–21) de Coninck, 1986b, p.14. Holotype: de Coninck, 1969, pl.17, figs.20–21. Originally *Micrhystridium* (Appendix A), subsequently *Surculosphaeridium*, thirdly (and now) *Surculosphaeridium?*. Questionable assignment: Fauconnier and Pourtoy in Fauconnier and Masure (2004, p.519) as a problematic species. The epithet was originally cited as "*oecaniae*". In earlier versions of this index it was cited as "*oecania*", and as a noun in apposition (N.I.A.). Fauconnier and Pourtoy in Fauconnier and Masure (2004, p.519) cite the name as "*oecaniense*". However, according to J. Jansonius (pers. comm.), the epithet can be considered a noun in apposition (in the possessive case), since de Coninck (1969, p.60) clearly wanted to emphasize its occurrence in the Eocene of Australia. Hence, the epithet is based on the geographic name "*oecania*". N.I.A. Age: Ypresian.

"?*phoenix*" (Duxbury, 1980, p.124–125, pl.13, figs.5–6; text-fig.9) Lentin and Williams, 1981, p.271. Holotype: Duxbury, 1980, pl.13, figs.5–6; text-fig.9; Fauconnier and Masure, 2004, pl.19, figs.4–11. **NOW** *Cymosphaeridium?*. Originally *Hystrichosphaeridium?*, subsequently *Surculosphaeridium?*, thirdly (and now) *Cymosphaeridium?*. Questionable assignment: Lentin and Williams (1981, p.271). N.I.A. Age: Barremian.

"subsp. *phoenix*". Autonym. Holotype: Duxbury, 1980, pl.13, figs.5–6; text-fig.9. **Now redundant.** N.I.A.

"subsp. *stella*" (Wetzel, 1952, p.403, pl.A, fig.4; text-fig.23) Sarjeant, 1984c, p.135. Emendation: Sarjeant, 1984c, p.135, as *Surculosphaeridium phoenix* subsp. *stella*. Holotype: Wetzel, 1952, pl.A, fig.4; Dietz et al. 1999, text-fig.6f. **NOW** *Surculosphaeridium? stella*. Originally *Hystrichosphaeridium oligacanthum* subsp. *stella*, subsequently *Baltisphaeridium oligacanthum* subsp. *stella* (Appendix A), thirdly *Cleistosphaeridium? oligacanthum* subsp. *stella*, fourthly *Surculosphaeridium? phoenix* subsp. *stella*, fifthly (and now) *Surculosphaeridium? stella*. N.I.A. Age: Paleocene.

"*polyozum*" (Brosius, 1963, p.45, pl.1, fig.6; pl.6, fig.5; text-figs.2a–d) Strauss and Lund, 1992, p.172. Holotype: Brosius, 1963, pl.1, fig.6. **NOW** *Impletosphaeridium?*. Originally *Baltisphaeridium* (Appendix A), subsequently *Cleistosphaeridium?*, thirdly *Surculosphaeridium*, fourthly (and now) *Impletosphaeridium?*. For etymology see under *Impletosphaeridium? polyozum*. Age: late Oligocene.

scissospinum (Yun Hyesu, 1981, p.32–33, pl.16, figs.3,7–8,10; text-figs.8a–b) Fauconnier and Pourtoy in Fauconnier and Masure, 2004, p.518. Holotype: Yun Hyesu, 1981, pl.16, fig.10; text-figs.8a–b; Fensome et al., 1991, figs.3–5 — p.731; Fauconnier and Masure, 2004, pl.74, figs.4–6. Originally *Hystrichosphaeridium*, subsequently (and now) *Surculosphaeridium*. Age: early Santonian.

spinicongregatum Yun Hyesu, 1981, p.40, pl.16, figs.2,6. Holotype: Yun Hyesu, 1981, pl.16, fig.6; Fensome et al., 1991, fig.2 — p.753; Fauconnier and Masure, 2004, pl.74, fig.7. Age: early Santonian.

?*stella* (Wetzel, 1952, p.403, pl.A, fig.4; text-fig.23) Fauconnier in Fauconnier and Masure (2004, p.519). Emendation: Sarjeant, 1984c, p.135, as *Surculosphaeridium phoenix* subsp. *stella*. Holotype: Wetzel, 1952, pl.A, fig.4; Dietz et al. 1999, text-fig.6f. Originally *Hystrichosphaeridium oligacanthum* subsp. *stella*, subsequently *Baltisphaeridium oligacanthum* subsp. *stella* (Appendix A), thirdly *Cleistosphaeridium? oligacanthum* subsp. *stella*, fourthly *Surculosphaeridium? phoenix* subsp. *stella*, fifthly (and now) *Surculosphaeridium? stella*. Questionable assignment: Fauconnier and Pourtoy in Fauconnier and Masure (2004, p.519) as a problematic species. N.I.A. Age: Paleocene.

?*suggestium* (McMinn, 1988, p.146–148, figs.3A–F,4) Stover and Williams, 1995, p.102. Holotype: McMinn, 1988, figs.3A,C; Fensome et al., 1996, figs.1–2 — p.2389. Originally *Areosphaeridium*, subsequently (and now) *Surculosphaeridium*. Questionable assignment: Fauconnier and Pourtoy in Fauconnier and Masure (2004, p.520) as a problematic species. Age: Santonian–mid Campanian.

trunculum Davey, 1979b, p.559–560, pl.8, figs.6–9. Holotype: Davey, 1979b, pl.8, fig.7; Fauconnier and Masure, 2004, pl.74, figs.8–10. Age: Aptian–Albian.

?**vestitum** (Deflandre, 1939a, p.189–190, pl.11, figs.4–6) Davey et al., 1966, p.162. Emendation: Sarjeant, 1960b, p.397, as *Baltisphaeridium vestitum*. Holotype: Deflandre, 1939a, pl.11, fig.5; Fauconnier and Masure, 2004, pl.74, figs.11–12. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Surculosphaeridium*, fourthly (and now) *Surculosphaeridium*?, fifthly *Multiplisphaeridium*? (Appendix A), sixthly *Systematophora*. Stancliffe and Sarjeant (1990, p.207) questionably retained this taxon in *Surculosphaeridium*. Questionable assignment: Stover and Evitt (1978, p.83) and Fauconnier and Pourtoy in Fauconnier and Masure (2004, p.518). Taxonomic junior synonym: *Polystephanosphaera valensii*, according to Courtinat (1989, p.173) — however, Stancliffe and Sarjeant (1990, p.209) retained *Polystephanosphaera* (as and now *Systematophora*) *valensii*. Prior to re-examination of the holotype by Fauconnier and Pourtoy, Davey in Kennedy et al. (2000, p.638) indicated that this species should be assigned to *Surculosphaeridium* without question. Age: Oxfordian.

SUSADINIUM Dörhöfer and Davies, 1980, p.28. Taxonomic senior synonym: *Dodekovia*, according to Below (1987a, p.113) — however, Stover and Williams (1987, p.209) and Lentin and Williams (1989, p.358) retained *Susadinium*. Taxonomic junior synonym: *Facetodinium*, according to Lentin and Williams (1985, p.133). Type: Dörhöfer and Davies, 1980, fig.24I, as *Susadinium scrofoides*.

?**australe** Riding and Helby, 2001a, p.19,22, figs.11A–P. Holotype: Riding and Helby, 2001a, figs.11M–O. Questionable assignment: Riding and Helby (2001a, p.19). Age: early Toarcian.

delmense (Below, 1987a, p.135–136, pl.18, figs.1–3,6,8–9) Lentin and Williams, 1989, p.358. Holotype: Below, 1987a, pl.18, figs.1,8; Fensome et al., 1993a, figs.1,4 — p.1111. Originally *Reutlingia*, subsequently (and now) *Susadinium*. Age: Toarcian.

faustum (Bjaerke, 1980, p.69, pl.2, figs.1–6; text-figs.4A–D) Lentin and Williams, 1985, p.344. Emendation: Below, 1987a, p.136–137, as *Reutlingia fausta*. Holotype: Bjaerke, 1980, pl.2, figs.1–3; Fensome et al., 1993a, figs.1–3 — p.1175. Originally *Facetodinium*, subsequently (and now) *Susadinium*, thirdly *Reutlingia*. Lentin and Williams (1989, p.358) retained this species in *Susadinium*. Age: Toarcian.

"**inflatum**" (Bjaerke, 1980, p.69–71, pl.3, figs.1–13; text-fig.5) Lentin and Williams, 1985, p.344. Holotype: Bjaerke, 1980, pl.3, figs.1–6. Originally *Facetodinium*, subsequently *Susadinium*. **Taxonomic senior synonym:** *Susadinium scrofoides*, according to Below (1987a, p.120) and Stover and Williams (1987, p.97). Age: Toarcian.

knertense (Below, 1987a, p.115–116, pl.16, figs.1–18) Lentin and Williams, 1989, p.358. Holotype: Below, 1987a, pl.16, figs.3–6,14,18; Fensome et al., 1993a, figs.2–4,6 — p.1243. Originally *Dodekovia*, subsequently (and now) *Susadinium*. Age: Toarcian.

?**pinna** (Below, 1987a, p.116–118, pl.14, figs.1–5,11; text-figs.65a–b) Lentin and Williams, 1989, p.358. Holotype: Below, 1987a, pl.14, figs.1,3,5; Fensome et al., 1993a, figs.1,3–4 — p.1281. Originally *Dodekovia*, subsequently (and now) *Susadinium*?. Questionable assignment: Lentin and Williams (1989, p.358). N.I.A. Age: Toarcian.

***scrofoides** Dörhöfer and Davies, 1980, p.28–29, figs.13,24F,H–I,K,25A–D. Holotype: Dörhöfer and Davies, 1980, fig.24I; Fensome et al., 1993a, fig.1 — p.1311; fig.2 — p.1315. Originally (and now) *Susadinium*, subsequently *Dodekovia*. Lentin and Williams (1989, p.359) retained this species in *Susadinium*. Taxonomic junior synonyms: *Parvocysta contracta* and *Facetodinium* (as *Susadinium*) *inflatum*, both according to Below (1987a, p.120). Below (1987a, p.120) provided an emendation, but apparently for *Dodekovia scrofoides* var. *scrofoides*. Age: Toarcian–Bathonian.

subsp. **penicillus** (Below, 1987a, p.121, pl.17, figs.1–2,7–15,17–18) Lentin and Williams, 1989, p.359. Holotype: Below, 1987a, pl.17, figs.9–12; Fensome et al., 1993a, figs.5–7 — p.1279; fig.2 — p.1311. Originally *Dodekovia scrofoides* var. *penicillus*, subsequently (and now) *Susadinium scrofoides* subsp. *penicillus*. N.I.A. Age: Toarcian.

subsp. *scrofoides*. Autonym. Emendation: Below, 1987a, p.120, as *Dodekovia scrofoides* var. *scrofoides*. Holotype: Dörhöfer and Davies, 1980, fig.24I; Fensome et al., 1993a, fig.1 — p.1311; fig.2 — p.1315.

?*tabulatum* (Below, 1987a, p.123,125, pl.13, figs.1–15; text-figs.66a–i) Lentin and Williams, 1989, p.359. Holotype: Below, 1987a, pl.13, figs.1,4,8,12,13; Fensome et al., 1993a, figs.1,3,5–6 — p.1365. Originally *Dodekovia*, subsequently (and now) *Susadinium*?. Questionable assignment: Lentin and Williams (1989, p.359). Age: Toarcian.

SVALARDELLA Manum, 1960, p.21. Taxonomic junior synonym: *Palaeocystodinium*, according to Lindgren (1984, p.186) — however, Wrenn and Hart (1988, p.361–362) retained *Palaeocystodinium*. Type: Manum, 1960, pl.1, figs.1–3; text-fig.2, as *Svalbardella cooksoniae*.

"*australina*" Cookson, 1965b, p.140, pl.25, figs.1–4. Emendation: Malloy, 1972, p.63, as *Svalbardella australina*. Holotype: Cookson, 1965b, pl.25, fig.4. **NOW** *Palaeocystodinium*. Originally *Svalbardella*, subsequently (and now) *Palaeocystodinium*. Age: Paleocene.

**cooksoniae* Manum, 1960, p.21–22, pl.1, figs.1–3; text-fig.2. Holotype: Manum, 1960, pl.1, figs.1–3; text-fig.2. Age: late Paleocene–Eocene.

"*granulata*" Wilson, 1967b, p.226–227, figs.7–9. Holotype: Wilson, 1967b, fig.9. **NOW** *Palaeocystodinium*. Originally *Svalbardella*, subsequently (and now) *Palaeocystodinium*. Age: Maastrichtian (see Wilson, 1972).

"*hampdenensis*" Wilson, 1977, p.564–566, figs.1–8. Holotype: Wilson, 1977, figs.1–3. **NOW** *Palaeocystodinium*. Originally *Svalbardella*, subsequently (and now) *Palaeocystodinium*. Age: middle Eocene.

"*inflata*" Rauscher and Doubinger, 1982, p.104–105, pl.1, figs.13–17. Holotype: Rauscher and Doubinger, 1982, pl.1, figs.13–15. **NOW** *Andalusiella*. Originally *Svalbardella*, subsequently (and now) *Andalusiella*. Age: Maastrichtian.

partimtabulata Heilmann-Clausen and Van Simaëys, 2005, p.180,182, pl.11, figs.2–5; text-fig.8. Holotype: Heilmann-Clausen and Van Simaëys, 2005, pl.11, fig.3; text-fig.8. Age: middle Eocene.

"*parva*" Wilson in Slimani, 2001a, p.192. **Name not validly published**: no description. **Taxonomic senior synonym**: *Palaeocystodinium* (as and now *Biconidinium*) *reductum*, according to Slimani (2001a, p.192).

"*polymorpha*" Malloy, 1972, p.63–64, pl.1, figs.8–16,21. Holotype: Malloy, 1972, pl.1, fig.15. **NOW** *Andalusiella*. Originally *Svalbardella*, subsequently *Alterbia* (combination illegitimate), thirdly (and now) *Andalusiella*. Taxonomic junior synonyms: *Palaeocystodinium microgranulatum*, according to Lentin and Williams (1976, p.89); *Senegalinium trisinium*, according to Lentin and Williams (1976, p.164); *Andalusiella mauthei*, according to Lentin and Williams (1976, p.149) — however, Lentin and Williams (1977b, p.8) retained *Andalusiella mauthei*; *Palaeocystodinium punctatum*, according to Lentin and Williams (1976, p.89) — however, Schrank (1987, p.265) retained that taxon as the subspecies *Andalusiella polymorpha* subsp. *punctata*. Age: Maastrichtian.

"*rhomboides*" Boltenhagen, 1977, p.106–107, pl.20, figs.1a–b,2a–b,3. Emendation: Masare et al., 1996, p.182, as *Andalusiella rhomboides*. Holotype: Boltenhagen, 1977, pl.20, figs.1a–b. **NOW** *Andalusiella*. Originally *Svalbardella*, subsequently (and now) *Andalusiella*. Age: Campanian.

"*vozhennikovae*" Boltenhagen, 1977, p.108, pl.19, figs.5a–c,6–7. Emendation: Masare et al., 1996, p.182, as *Trithyrodinium vozhennikovae*. Holotype: Boltenhagen, 1977, pl.19, figs.5a–c. **NOW** *Trithyrodinium*. Originally *Svalbardella*, subsequently *Andalusiella*, thirdly (and now) *Trithyrodinium*. Age: Campanian.

SVERDRUPIELLA Bujak and Fisher, 1976, p.45–48. Type: Bujak and Fisher, 1976, pl.1, figs.1–2; text-fig.2A, as *Sverdrupiella septentrionalis*.

baccata Bujak and Fisher, 1976, p.48–49, pl.1, figs.5–7; text-fig.2B. Holotype: Bujak and Fisher, 1976, pl.1, figs.5–6; text-fig.2B. Age: Norian.

"**cristata**" Bujak and Fisher, 1976, p.51, pl.6, figs.4–7; text-fig.2F. Holotype: Bujak and Fisher, 1976, pl.6, fig.4; text-fig.2F. **Taxonomic senior synonym:** *Sverdrupiella septentrionalis*, according to Below (1987a, p.101). Age: ?Carnian–Norian.

"**downiei**" Bujak and Fisher, 1976, p.51, pl.7, figs.1–6; text-fig.2I. Holotype: Bujak and Fisher, 1976, pl.7, figs.1–2; text-fig.2I. **Taxonomic senior synonym:** *Sverdrupiella septentrionalis*, according to Below (1987a, p.101). Age: ?Carnian–Norian.

manicata Bujak and Fisher, 1976, p.50, pl.3, figs.8–11; text-fig.2G. Holotype: Bujak and Fisher, 1976, pl.3, figs.8–9; text-fig.2G. Age: Norian.

mutabilis Bujak and Fisher, 1976, p.50, pl.4, figs.1–12; pl.5, figs.1–10; pl.6, figs.1–3; text-fig.2J. Holotype: Bujak and Fisher, 1976, pl.4, fig.1; pl.5, fig.8; text-fig.2J. Age: ?Carnian–Norian.

ornaticingulata Bujak and Fisher, 1976, p.49, pl.1, figs.8–10; text-fig.2K. Holotype: Bujak and Fisher, 1976, pl.1, figs.8–9; text-fig.2K. Age: ?Carnian–Norian.

raiaformis Bujak and Fisher, 1976, p.50, pl.3, figs.4–7; text-fig.2D. Holotype: Bujak and Fisher, 1976, pl.3, figs.4–5; text-fig.2D. Age: ?Carnian–Norian.

sabinensis Bujak and Fisher, 1976, p.49–50, pl.3, figs.1–3; text-fig.2E. Holotype: Bujak and Fisher, 1976, pl.3, figs.1–2; text-fig.2E. Age: ?Carnian–Norian.

***septentrionalis** Bujak and Fisher, 1976, p.48, pl.1, figs.1–4; text-fig.2A. Holotype: Bujak and Fisher, 1976, pl.1, figs.1–2; text-fig.2A. Taxonomic junior synonyms: *Sverdrupiella cristata* and *Sverdrupiella downiei*, both according to Below (1987a, p.101). Age: ?Carnian–Norian.

spinosa Bujak and Fisher, 1976, p.51, pl.6, figs.8–10; text-fig.2C. Holotype: Bujak and Fisher, 1976, pl.6, figs.9–10; text-fig.2C. Age: ?Carnian–Norian.

usitata Bujak and Fisher, 1976, p.49, pl.2, figs.1–12; text-fig.2H. Holotype: Bujak and Fisher, 1976, pl.2, figs.1–2; text-fig.2H. Age: ?Carnian–Norian.

warepaensis Helby and Wilson, 1988, p.118–119,122; text-figs.2A–C,3–14. Holotype: Helby and Wilson, 1988, text-figs.3–4. Age: Norian.

SYSTEMATOPHORA Klement, 1960, p.61–62. Emendations: Brenner, 1988, p.83; Stancliffe and Sarjeant, 1990, p.207–208; Riding and Helby, 2001e, p.123. Taxonomic junior synonyms: *Cleistosphaeridium*, according to Islam (1993, p.88) — however, Eaton et al. (2001, p.176) retained *Cleistosphaeridium*; *Hystrichosphaerina*, by implication in Downie and Sarjeant (1965, p.146), who transferred the "type species" of *Hystrichosphaerina*, *Hystrichosphaerina schindewolfi*, to *Systematophora* and Brenner (1988, p.83) — however, Stover and Evitt (1978, p.57–58) and Stancliffe and Sarjeant (1990, p.204) retained *Hystrichosphaerina*; *Polystephanephorus*, according to Brenner (1988, p.83) — however, Stancliffe and Sarjeant (1990, p.205) retained *Polystephanephorus*; *Polystephanosphaera*, according to Sarjeant (1961b, p.1095–1096); *Taeniophora*, according to Stover and Evitt (1978, p.84) — however, Sarjeant (1984a, p.166) retained *Taeniophora*. Courtinat, Londeix and Pourtoy in Fauconnier and Masure (2004, p.525) listed *Taeniophora* as a taxonomic junior synonym of *Systematophora* but did not list the type, *Taeniophora iunctispina*, within the latter genus. Moreover, Courtinat and Begouën in Fauconnier and Masure (2004, p.545) listed *Taeniophora* as a separate genus, a treatment followed here. Type: Klement, 1960, pl.9, figs.1–3, as *Systematophora areolata*.

"*ancyrea*" Cookson and Eisenack, 1965a, p.126, pl.14, figs.1–3. Holotype: Cookson and Eisenack, 1965a, pl.14, fig.1; Fauconnier and Masure, 2004, pl.76, figs.1–2. **NOW** *Cleistosphaeridium ancyreum*. Originally *Systematophora ancyrea*, subsequently *Systematophora placacantha* var. *ancyrea* (combination not validly published), thirdly (and now) *Cleistosphaeridium ancyreum*. Taxonomic senior synonym: *Hystrichosphaeridium* (now *Cleistosphaeridium*) *placacanthum*, according to Stover and Evitt (1978, p.84) — however, Lentin and Williams (1981, p.272) retained *Systematophora ancyrea*. Age: late Eocene.

**areolata* Klement, 1960, p.62–65, pl.9, figs.1–8; text-figs.32–35. Holotype: Klement, 1960 pl.9, figs.1–3; Stancliffe and Sarjeant, 1990, pl.5, fig.7. Age: early Kimmeridgian.

"?*austini*" (Merrill, 1895, p.6, text-fig.11) Sarjeant, 1964a, p.175. Holotype: Merrill, 1895, text-fig.11. Originally *Geodia?* (Appendix A), subsequently *Systematophora?*. Questionable assignment: Sarjeant (1964a, p.175). **Taxonomic senior synonym:** *Xanthidium* (as *Hystrichosphaera*, now *Spiniferites*) *ramosum*, according to Sarjeant (1966a, p.5). Age: Early Cretaceous.

"?*capricorna*" (Cookson and Eisenack, 1965a, p.128–129, pl.15, figs.1–9) Eisenack, 1969a, p.113. Emendation: Stover and Williams, 1995, p.107, as *Cooksonidium capricornum*. Holotype: Cookson and Eisenack, 1965a, pl.15, fig.7; Fauconnier and Masure, 2004, pl.7, figs.7–10. **NOW** *Cooksonidium*. Originally *Cordosphaeridium*, subsequently *Systematophora?*, thirdly *Areosphaeridium*, fourthly (and now) *Cooksonidium*. Questionable assignment: Eisenack (1969a, p.113). Taxonomic senior synonym: *Hystrichosphaeridium* (as and now *Areosphaeridium*) *dictyostilum*, according to Sarjeant (1981, p.115–116) — however, Lentin and Williams (1985, p.26) retained *Areosphaeridium* (now *Cooksonidium*) *capricornum*. Age: late Eocene.

"*complicata*" Neale and Sarjeant, 1962, p.455–456, pl.19, figs.6–7. Holotype: Neale and Sarjeant, 1962, pl.19, figs.6–7; Fauconnier and Masure, 2004, pl.75, figs.7–8. **NOW** *Palaecysta*. Originally *Systematophora*, subsequently (and now) *Palaecysta*. Age: late Hauterivian–mid Barremian.

conspicua He Chengquan and Li Peng, 1981, p.68–69, pl.33, figs.10–12. Holotype: He Chengquan and Li Peng, 1981, pl.33, fig.12. Age: late Oligocene.

cretacea Davey, 1979b, p.560, pl.8, figs.10,13–15. Holotype: Davey, 1979b, pl.8, figs.10,13; Fauconnier and Masure, 2004, pl.76, figs.4–5. Age: Albian.

?*curta* Matsuoka and Bujak, 1988, p.84–86, pl.15, figs.8–11; text-fig.21. Holotype: Matsuoka and Bujak, 1988, pl.15, fig.9. Originally *Systematophora curta*, subsequently (and now) *Systematophora? curta*, thirdly *Systematophora placacantha* var. *curta*. Eaton et al. (2001, p.190) retained this taxon, without question, as *Systematophora curta*. Questionable assignment: Stancliffe and Sarjeant (1990, p.208) and Courtinat, Londeix and Pourtoy in Fauconnier and Masure (2004, p.526–527). Age: late Oligocene–early Miocene.

?*daveyi* Riding and Thomas, 1988, p.82,84,86, pl.3, figs.8–10; text-figs.10a–b. Holotype: Riding and Thomas, 1988, pl.3, figs.8–9; Fauconnier and Masure, 2004, pl.77, fig.5. Originally *Systematophora*, subsequently (and now) *Systematophora?*. Questionable assignment: Stancliffe and Sarjeant (1990, p.208). Age: early Kimmeridgian–early Portlandian.

"*diversispinosa*" (Davey et al., 1966, p.167, pl.10, fig.7) Islam, 1993, p.88. Emendation: Eaton et al., 2001, p.177. Holotype: Davey et al., 1966, pl.10, fig.7; Bujak et al., 1980, pl.7, figs.7–8; Islam, 1993, pl.1, figs.1–10; text-figs.1A–B; Eaton et al., 2001, figs.1A–B,2A–B; Fauconnier and Masure, 2004, pl.77, fig.9. **NOW** *Cleistosphaeridium*. Originally (and now) *Cleistosphaeridium*, subsequently *Systematophora*. Eaton et al. (2001, p.177) retained this species in *Cleistosphaeridium*. Taxonomic junior synonym: *Areosphaeridium polypetellum*, according to Islam (1993, p.88) — however, Eaton et al. (2001, p.194) retained *Areosphaeridium* (as and now *Cleistosphaeridium*) *polypetellum*. Age: early Eocene.

"*fasciculigera*" Klement, 1960, p.65, pl.9, figs.11–12. Holotype: Klement, 1960, pl.9, figs.11–12; Fauconnier and Masure, 2004, pl.76, fig.6. **Taxonomic senior synonym:** *Xanthidium* (as and now *Systematophora*) *penicillatum*, according to Sarjeant (1980a, p.282). As well as accepting the synonymy cited above, Courtinat, Londeix and

Pourtoy in Fauconnier and Masure (2004, p.527) listed this as a problematic species. Age: middle Oxfordian–early Kimmeridgian.

geminus Riding and Helby, 2001e, p.123–126, figs.7A,8A–I,9A–I. Holotype: Riding and Helby, 2001e, figs.8D–F. N.I.A. Age: Callovian–Oxfordian.

granulosa (Jain, 1977b, p.182–183, pl.2, fig.17) Fauconnier in Fauconnier and Masure, 2004, p.525. Holotype: Jain, 1977b, pl.2, fig.17; Fauconnier and Masure, 2004, pl.76, figs.8–10. Originally *Surculosphaeridium*, subsequently (and now) *Systematophora*. Age: early Albian.

"*iunctispina*" (Klement, 1960, p.68–69, pl.10, figs.1–4) Stover and Evitt, 1978, p.84. Emendation: Sarjeant and Gocht in Sarjeant, 1984a, p.168–169, as *Taeniophora iunctispina*. Holotype: Klement, 1960, pl.10, figs.1–2; Sarjeant, 1984a, pl.3, figs.1–2; text-fig.6; Stancliffe and Sarjeant, 1990, pl.3, figs.3,8; Fauconnier and Masure, 2004, pl.78, figs.3–4. Originally (and now) *Taeniophora*, subsequently *Systematophora*. Age: middle Oxfordian.

"subsp. ***filamentosa***" (Klement, 1960, p.70, pl.10, figs.5–6) Stover and Evitt, 1978, p.84. Emendation: Sarjeant and Gocht in Sarjeant, 1984a, p.169–170, as *Taeniophora filamentosa*. Holotype: Klement, 1960, pl.10, fig.5; Sarjeant, 1984a, pl.2, figs.3–4; Stancliffe and Sarjeant, 1990, pl.3, figs.4,6; Fauconnier and Masure, 2004, pl.78, figs.1–2. **NOW** *Taeniophora filamentosa*. Originally *Taeniophora iunctispina* subsp. *filamentosa*, subsequently *Systematophora iunctispina* subsp. *filamentosa*, thirdly (and now) *Taeniophora filamentosa*. Age: middle Oxfordian.

"subsp. ***iunctispina***". Autonym. Holotype: Klement, 1960, pl.10, figs.1–2; Sarjeant, 1984a, pl.3, figs.1–2; text-fig.6; Stancliffe and Sarjeant, 1990, pl.3, figs.3,8; Fauconnier and Masure, 2004, pl.78, figs.3–4. **Now redundant**. Originally *Taeniophora iunctispina* subsp. *iunctispina*, subsequently *Systematophora iunctispina* subsp. *iunctispina*.

jubifera Dodekova, 1994, p.34–35, pl.7, figs.2–5,8–9. Holotype: Dodekova, 1994, pl.7, figs.5,8. Age: middle-late Tithonian.

"*orbifera*" Klement, 1960, p.66–67, pl.9, figs.9–10; pl.10, fig.7. Holotype: Klement, 1960, pl.9, fig.9; Stancliffe and Sarjeant, 1990, pl.5, fig.2; Fauconnier and Masure, 2004, pl.48, figs.1–2. **NOW** *Hystrichosphaerina?*. Originally *Systematophora*, subsequently *Hystrichosphaerina*, thirdly (and now) *Hystrichosphaerina?*. Age: middle Oxfordian.

?*ovata* Gitmez and Sarjeant, 1972, p.237, pl.14, figs.1–3. Holotype: Gitmez and Sarjeant, 1972, pl.14, figs.2–3; Fauconnier and Masure, 2004, pl.77, fig.10. Originally *Systematophora*, subsequently (and now) *Systematophora?*, thirdly *Egmontodinium*. Courtinat (1989, p.173) retained this species in *Systematophora* without question. Questionable assignment: Stover and Evitt (1978, p.84); and Courtinat, Londeix and Pourtoy in Fauconnier and Masure (2004, p.527) as a problematic species. Age: early–late Kimmeridgian.

"*palmula*" Davey, 1982b, p.11–12, pl.1, figs.1–4. Holotype: Davey, 1982b, pl.1, figs.1–3; Fauconnier and Masure, 2004, pl.76, figs.11–13. **NOW** *Palaecysta*. Originally *Systematophora*, subsequently (and now) *Palaecysta*. Age: Ryazanian–Valanginian.

penicillata (Ehrenberg, 1843b, p.62 ex Ehrenberg, 1854, pl.37, section 8, fig.3) Sarjeant, 1980a, p.282. Holotype: Ehrenberg, 1854, pl.37, section 8, fig.3. Originally *Xanthidium penicillatum* (Appendix A), subsequently *Hystrichosphaera penicillata* (combination not validly published), thirdly *Hystrichosphaeridium penicillatum*, fourthly *Ovum hispidum* subsp. *penicillatum* (combination not validly published; Appendix A), fifthly *Hystrichosphaeridium? penicillatum*, sixthly (and now) *Systematophora penicillata*. Taxonomic junior synonym: *Systematophora fasciculigera*, according to Sarjeant (1980a, p.282). The name *Systematophora penicillata* was not validly published in Ehrenberg (1843b) since neither description nor illustration was provided. The validity/authorship of this name may need to be reconsidered as it appears that Ehrenberg (1854) did not provide a description. Age: late Oxfordian.

"*placacantha*" (Deflandre and Cookson, 1955, p.276–277, pl.9, figs.1–3) Davey et al., 1969, p.17. Emendation: May, 1980, p.68, as *Systematophora placacantha*. Holotype: Deflandre and Cookson, 1955, pl.9, figs.1–2; Fauconnier and Masure, 2004, pl.76, figs.14–16. **NOW** *Cleistosphaeridium*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Impletosphaeridium*, fourthly *Systematophora*, fifthly (and now) *Cleistosphaeridium*. Taxonomic junior synonyms: *Baltisphaeridium* (now *Impletosphaeridium*) *panniforme*, according to Sarjeant (1984b, p.86–87) — however, Eaton et al. (2001, p.191) retained *Baltisphaeridium panniforme*; *Systematophora ancyrea*, according to Stover and Evitt (1978, p.84) — however, Lentin and Williams (1981, p.272) retained *Systematophora ancyrea*. Age: Miocene.

"var. *ancyrea*" (Cookson and Eisenack, 1965a, p.126, pl.14, figs.1–3) Strauss and Lund, 1992, p.173. Holotype: Cookson and Eisenack, 1965a, pl.14, fig.1; Fauconnier and Masure, 2004, pl.76, figs.1–3. **Combination not validly published**: basionym not fully referenced. **NOW** *Cleistosphaeridium ancyreum*. Originally *Systematophora ancyrea*, subsequently *Systematophora placacantha* var. *ancyrea* (combination not validly published), thirdly (and now) *Cleistosphaeridium ancyreum*. Taxonomic senior synonym: *Hystrichosphaeridium* (now *Cleistosphaeridium*) *placacanthum*, according to Stover and Evitt (1978, p.84) — however, Lentin and Williams (1981, p.272) retained *Systematophora ancyrea*. Age: late Eocene.

"var. *curta*" (Matsuoka and Bujak, 1988, p.84–86, pl.15, figs.8–11; text-fig.21) Strauss and Lund, 1992, p.173. Holotype: Matsuoka and Bujak, 1988, pl.15, fig.9. **NOW** *Systematophora? curta*. Originally *Systematophora curta*, subsequently (and now) *Systematophora? curta*, thirdly *Systematophora placacantha* var. *curta*. Age: late Oligocene–early Miocene.

"var. *placacantha*". Autonym. Holotype: Deflandre and Cookson, 1955, pl.9, figs.1–2; Fauconnier and Masure, 2004, pl.76, figs.14–16. **Now redundant**

?*prodigiosa* Dodekova, 1994, p.35–36, pl.8, figs.3–6. Holotype: Dodekova, 1994, pl.8, figs.3–4. Questionable assignment: Dodekova (1994, p.35). Age: middle Tithonian.

rosenfeldii Volkheimer and Sarjeant, 1993, p.251.253–254, fig.2, nos.1–4; fig.3, nos.1–2; figs.4–5; fig.6, nos.1–5; fig.7, nos.1–2; fig.8, nos.1–2; fig.9, nos.1–3. Holotype: Volkheimer and Sarjeant, 1993, fig.2, nos.1–2; fig.3, nos.1–2; fig.6, no.3. Age: Valanginian–Hauterivian.

"*schindewolfii*" (Alberti, 1961, p.38–39, pl.10, figs.1–3,6–7) Downie and Sarjeant, 1965, p.146. Holotype: Alberti, 1961, pl.10, figs.2–3; Eisenack and Kjellström, 1972, p.1009; Fensome et al., 1995, figs.2–3 — p.1765. **NOW** *Hystrichosphaerina*. Originally (and now) *Hystrichosphaerina*, subsequently *Systematophora*, thirdly *Polystephanephorus*. Taxonomic senior synonym: *Hystrichosphaeridium* (as and now *Oligosphaeridium*) *anthophorum*, according to Davey (1979c, p.65) — however, Lentin and Williams (1981, p.150) retained *Systematophora* (as *Hystrichosphaerina*) *schindewolfii*. Taxonomic junior synonym: *Perisseiasphaeridium eisenackii*, according to Davey and Verdier (1974, p.640). Age: late Barremian–Turonian.

scoriacea (Raynaud, 1978, p.393, pl.1, figs.4–5) Monteil, 1992b, p.304. Holotype: Raynaud, 1978, pl.1, fig.4; Fauconnier and Masure, 2004, pl.77, figs.1–2. Originally *Hystrichosphaeridium*, subsequently (and now) *Systematophora*. Age: Berriasian–mid Valanginian.

?*septata* Wilson, 1988, p.31, pl.23, figs.1a–b,2a–c. Holotype: Wilson, 1988, pl.23, figs.2a–c; Fensome et al., 1996, figs.1–3 — p.2353; Fauconnier and Masure, 2004, pl.77, figs.11–12. Originally *Systematophora*, subsequently (and now) *Systematophora?*. Questionable assignment: Courtinat, Londeix and Pourtoy in Fauconnier and Masure (2004, p.527) as a problematic species. Age: early Eocene.

silvosa Davey in Kennedy et al., 2000, p.636.638–639, figs.30a–d. Holotype: Kennedy et al., 2000, fig.30a. In the protologue the epithet is given as "*silvosus*"; since the epithet is an adjective, the spelling is here made to agree with the gender of the generic name. Age: latest Aptian.

silybum Davey, 1979a, p.433–434,436, pl.48, figs.7–8; pl.50, figs.2–3,5–6,7–9. Holotype: Davey, 1979a, pl.50, fig.2; Fauconnier and Masure, 2004, pl.77, fig.3. N.I.A. Age: Barremian.

"*sylibum*" Davey, 1979a, p.433–434,436, pl.48, figs.7–8; pl.50, figs.2–3,5–6,7–9. Holotype: Davey, 1979a, pl.50, fig.2; Fauconnier and Masure, 2004, pl.77, fig.3. **NOW** *Palaecysta*. Originally *Systematophora*, subsequently (and now) *Palaecysta*. N.I.A. Age: late Tithonian–Barremian.

taiwaniana Shaw Chenglong, 1999b, p.192, figs.120–125. Holotype: Shaw Chenglong, 1999b, figs.123–125. Age: Eocene.

tianshanensis He Chengquan, 1991, p.140, pl.25, figs.1–3; text-fig.25. Holotype: He Chengquan, 1991, pl.25, fig.2. Age: early Eocene.

"*turonica*" (Alberti, 1961, p.39, pl.10, figs.4a–b) Downie and Sarjeant, 1965, p.146. Holotype: Alberti, 1961, pl.10, figs.4a–b. **NOW** *Hystrichosphaerina*. Originally (and now) *Hystrichosphaerina*, subsequently *Systematophora*, thirdly *Polystephanophorus*. Age: Turonian.

urbini Biffi and Manum, 1988, p.196, pl.8, figs.1–2,4,8–9. Holotype: Biffi and Manum, 1988, pl.8, fig.2; Fauconnier and Masure, 2004, pl.77, fig.4. Age: early Miocene.

valensii (Sarjeant, 1960a, p.142–143, pl.6, figs.5–7; text-fig.3c) Sarjeant, 1961b, p.1096. Holotype: Sarjeant, 1960a, pl.6, fig.6; text-fig.3c; Eisenack and Kjellström, 1972, p.143; Stancliffe and Sarjeant, 1990, pl.3, figs.5,7,10; Fensome et al., 1995, figs.2,4 — p.1871. Originally *Polystephanosphaera*, subsequently (and now) *Systematophora*. Taxonomic senior synonym: *Hystrichosphaeridium* (as and now *Surculosphaeridium?*) *vestitum*, according to Courtinat (1989, p.173) — however, Stancliffe and Sarjeant (1990, p.209) retained *Polystephanosphaera* (as and now *Systematophora*) *valensii*. Age: late Oxfordian.

?*variabilis* (Cookson and Eisenack, 1967a, p.134–135, pl.19, figs.9–11) Stover and Evitt, 1978, p.84. Holotype: Cookson and Eisenack, 1967a, pl.19, fig.9; Fauconnier and Masure, 2004, pl.77, figs.6–8. Originally *Cyclonephelium*, subsequently (and now) *Systematophora?*. Questionable assignment: Stover and Evitt (1978, p.84). Age: Paleocene.

"*varians*" May, 1980, p.68–69, pl.7, figs.12–16. Holotype: May, 1980, pl.7, figs.12–14. **NOW** *Hystrichosphaerina*. Originally *Systematophora*, subsequently (and now) *Hystrichosphaerina*. Age: Campanian.

"*varispinosa*" Brenner, 1988, p.87–88, pl.16, figs.2a–c,5a–b. Holotype: Brenner, 1988, pl.16, figs.2a–c. **NOW** *Hystrichosphaerina?* Originally *Systematophora*, subsequently (and now) *Hystrichosphaerina?*. Age: early Kimmeridgian.

"*vestita*" (Deflandre, 1939a, p.189–190, pl.11, figs.4–6) Davey, 1982b, p.13. Emendation: Sarjeant, 1960b, p.397, as *Baltisphaeridium vestitum*. Holotype: Deflandre, 1939a, pl.11, fig.5; Fauconnier and Masure, 2004, pl.74, figs.11–12. **NOW** *Surculosphaeridium?*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Surculosphaeridium*, fourthly (and now) *Surculosphaeridium?*, fifthly *Multiplicisphaeridium?* (Appendix A), sixthly *Systematophora*. Taxonomic junior synonym: *Polystephanosphaera valensii*, according to Courtinat (1989, p.173) — however, Stancliffe and Sarjeant (1990, p.209) retained *Polystephanosphaera* (as and now *Systematophora*) *valensii*. Age: Oxfordian.

"*vetuscula*" (Davey, 1974, p.45, pl.1, figs.1–2) Duxbury, 1977, p.51. Holotype: Davey, 1974, pl.1, fig.2. **NOW** *Nexosispinum*. Originally *Adnatosphaeridium*, subsequently *Systematophora*, thirdly (and now) *Nexosispinum*, fourthly *Kiokansium*. Age: early Barremian.

TABULODINIUM Dodekova, 1990, p.23–24. Emendation: Riding and Helby, 2001d, p.89. Type: Dodekova, 1990, pl.4, figs.4–5, as *Tabulodinium senarium*.

**senarium* Dodekova, 1990, p.24–25, pl.4, figs.4–10; pl.9, figs.3–5,9–10; text-figs.3a–b. Emendation: Riding and Helby, 2001d, p.89. Holotype: Dodekova, 1990, pl.4, figs.4–5. Taxonomic junior synonym: *Pareodinia tamarensis* (name not validly published), according to Riding and Helby (2001d, p.89). Age: late Bathonian–?early Callovian.

TAENIOPHORA Klement, 1960, p.67–68. Emendation: Sarjeant, 1984a, p.166–168. Taxonomic senior synonym: *Systematophora*, according to Stover and Evitt (1978, p.84) — however, Sarjeant (1984a, p.166) retained *Taeniophora*. Courtinat, Londeix and Pourtoy in Fauconnier and Masure (2004, p.525) listed *Taeniophora* as a taxonomic junior synonym of *Systematophora* but did not list the type, *Taeniophora iunctispina*, within the latter genus. Moreover, Courtinat and Begouën in Fauconnier and Masure (2004, p.545) listed *Taeniophora* as a separate genus, a treatment followed here. Type: Klement, 1960, pl.10, figs.1–2, as *Taeniophora iunctispina*.

filamentosa (Klement, 1960, p.70, pl.10, figs.5–6) Sarjeant and Gocht in Sarjeant, 1984a, p.169. Emendation: Sarjeant and Gocht in Sarjeant, 1984a, p.169–170, as *Taeniophora filamentosa*. Holotype: Klement, 1960, pl.10, fig.5; Sarjeant, 1984a, pl.2, figs.3–4; Stancliffe and Sarjeant, 1990, pl.3, figs.4,6; Fauconnier and Masure, 2004, pl.78, figs.1–2. Originally *Taeniophora iunctispina* subsp. *filamentosa*, subsequently *Systematophora iunctispina* subsp. *filamentosa*, thirdly (and now) *Taeniophora filamentosa*. Age: middle Oxfordian.

***iunctispina** Klement, 1960, p.68–69, pl.10, figs.1–4. Emendation: Sarjeant and Gocht in Sarjeant, 1984a, p.168–169, as *Taeniophora iunctispina*. Holotype: Klement, 1960, pl.10, figs.1–2; Sarjeant, 1984a, pl.3, figs.1–2; text-fig.6; Stancliffe and Sarjeant, 1990, pl.3, figs.3,8; Fauconnier and Masure, 2004, pl.78, figs.3–4. Originally (and now) *Taeniophora*, subsequently *Systematophora*. Sarjeant and Gocht in Sarjeant (1984a, p.168) retained this species in *Taeniophora*. Age: middle Oxfordian.

"subsp. **filamentosa**" Klement, 1960, p.70, pl.10, figs.5–6. Emendation: Sarjeant and Gocht in Sarjeant, 1984a, p.169–170, as *Taeniophora filamentosa*. Holotype: Klement, 1960, pl.10, fig.5; Sarjeant, 1984a, pl.2, figs.3–4; Stancliffe and Sarjeant, 1990, pl.3, figs.4,6; Fauconnier and Masure, 2004, pl.78, figs.1–2. **NOW** *Taeniophora filamentosa*. Originally *Taeniophora iunctispina* subsp. *filamentosa*, subsequently *Systematophora iunctispina* subsp. *filamentosa*, thirdly (and now) *Taeniophora filamentosa*. Age: middle Oxfordian.

"subsp. **iunctispina**". Autonym. Holotype: Klement, 1960, pl.10, figs.1–2; Sarjeant, 1984a, pl.3, figs.1–2; text-fig.6; Stancliffe and Sarjeant, 1990, pl.3, figs.3,8; Fauconnier and Masure, 2004, pl.78, figs.3–4. **Now redundant**. Originally *Taeniophora iunctispina* subsp. *iunctispina*, subsequently *Systematophora iunctispina* subsp. *iunctispina*.

"**linifera**" (Cookson and Eisenack, 1967b, p.253, pl.40, fig.9; pl.41, figs.7–8) Eisenack and Kjellström, 1972, p.1019. Holotype: Cookson and Eisenack, 1967b, pl.41, fig.8. **NOW** *Achomosphaera*. Originally *Baltisphaeridium* (Appendix A), subsequently *Taeniophora*, thirdly (and now) *Achomosphaera*. Age: late Paleocene.

TALEISPHAERA Duxbury, 1979a, p.201. Emendation: Masure, 1986, p.114. Taxonomic senior synonym: *Kiokansium*, according to Below (1982c, p.13–15) — however, Lentin and Williams (1985, p.348) retained *Taleisphaera*. Type: Duxbury, 1979a, pl.2, figs.1,4, as *Taleisphaera hydra*.

?**capillata** Lister and Batten, 1988b, p.41, pl.9, figs.15–19. Holotype: Lister and Batten, 1988b, pl.9, fig.15. Questionable assignment: Lister and Batten (1988b, p.41). Age: late Barremian–earliest Aptian.

***hydra** Duxbury, 1979a, p.201, pl.2, figs.1,4,6–7. Emendation: Harding, 1986a, p.97–98,100, as *Taleisphaera hydra*. Holotype: Duxbury, 1979a, pl.2, figs.1,4; Fensome et al., 1993a, figs.1–2 — p.1233. Originally (and now) *Taleisphaera*, subsequently *Kiokansium*. Lentin and Williams (1985, p.348) retained this species in *Taleisphaera*. N.I.A. Age: middle Barremian.

subsp. **elongata** Heilmann-Clausen in Heilmann-Clausen and Thomsen, 1995, p.308–309, pl.12, figs.1–5; text-fig.18. Holotype: Heilmann-Clausen and Thomsen, 1995, pl.12, fig.1; text-fig.18. Age: late Barremian.

subsp. **hydra**. Autonym. Holotype: Duxbury, 1979a, pl.2, figs.1,4.

TALIMUDINIUM Mao Shaozhi and Norris, 1988, p.47–48. Type: Mao Shaozhi and Norris, 1988, pl.15, fig.12; text-fig.18, no.1, as *Talimudinium scissura*.

**scissura* Mao Shaozhi and Norris, 1988, p.48–49, pl.15, figs.8–13; text-fig.18., nos.1–6. Holotype: Mao Shaozhi and Norris, 1988, pl.15, fig.12; text-fig.18, no.1; Fensome et al., 1995, fig.5 — p.1771. N.I.A. Age: Late Cretaceous.

TALLADINIUM Williams, Damassa, Fensome and Guerstein in Fensome et al., 2009, p.61–62. Type: Mao Shaozhi and Norris, 1988, pl.13, fig.6, as *Charlesdowniea wulagenensis*.

?*angulosum* (Châteauneuf and Gruas-Cavagnetto, 1978, p.69–70. Pl.5, figs.8–9) Williams et al., 2015, p.315. Holotype: Châteauneuf and Gruas-Cavagnetto, 1978, pl.5, figs.8–9. Originally *Kisselevia clathrata* subsp. *angulosa*, subsequently *Charlesdowniea clathrata* subsp. *angulosa*, thirdly (and now) *Talladinium? angulosum*. Questionable assignment: Williams et al. (2015, p.315). Age: early Oligocene.

?*clathratum* (Eisenack, 1938b, p.187; text-fig.5) Williams, Damassa, Fensome and Guerstein in Fensome et al., 2009, p.62. Holotype: Eisenack, 1938b, text-fig.5; Eisenack, 1954b, pl.7, fig.12. Originally *Wetziella*, subsequently *Kisselevia?*, thirdly *Charlesdowniea*, fourthly (and now) *Talladinium?* Questionable assignment: Williams, Damassa, Fensome and Guerstein in Fensome et al. (2009, p.62). Taxonomic senior synonym: *Wetziella* (as *Hystrichosphaeridium*) *articulata*, according to Pastiels (1948, p.42) — however, this synonymy has not been generally accepted. Age: late Eocene–early Oligocene.

fusiforme (Mao Shaozhi and Norris, 1988, p.49–50, pl.13, figs.2–4) Williams et al., 2015, p.315. Holotype: Mao Shaozhi and Norris, 1988, pl.13, fig.3. Originally *Kisselevia*, subsequently *Charlesdowniea*, thirdly (and now) *Talladinium*. Age: early Oligocene.

?*marginatum* (Andreeva-Grigorovich and Savitskaya, 1993, p.43–44, pl.2, figs.1–3) Williams et al., 2015, p.315. Holotype: Andreeva-Grigorovich and Savitskaya, 1993, pl.2, fig.2; Andreeva-Grigorovich et al., 2011, pl.18, fig.4. Originally *Charlesdowniea*, subsequently (and now) *Talladinium*. Questionable assignment: Williams et al. (2015, p.315). Age: Rupelian– Chattian.

**wulagenense* (Mao Shaozhi and Norris, 1988, p.50, pl.13, figs.5–10) Fensome et al., 2009, p.62. Holotype: Mao Shaozhi and Norris, 1988, pl.13, fig.6. Originally *Kisselevia*, subsequently *Charlesdowniea*, thirdly (and now) *Talladinium*. Age: late Eocene.

"**TALTARNIA**" Morgan in Riding and Helby, 2001e, p.133. **Name not validly published:** no description. **Taxonomic senior synonym:** *Woodinia*, by implication in Riding and Helby (2001e, p.133), who included the only citation of this generic name, as "*Taltarnia* spp", in synonymy with *Woodinia bensonii*.

TANYOSPHAERIDIUM Davey and Williams, 1966b, p.98. Type: Davey and Williams, 1966b, pl.6, fig.7; text-fig.20, as *Tanyosphaeridium variecalamum*.

boletus Davey, 1974, p.61–62, pl.6, fig.7. Holotype: Davey, 1974, p.61–62, pl.6, fig.7; Fauconnier and Masure, 2004, pl.79, fig.1. N.I.A. Age: Barremian.

"*ellipticum*" (Cookson, 1965a, p.87–88, pl.11, figs.1–3,3a) Davey and Williams, 1969, p.7. Holotype: Cookson, 1965a, pl.11, fig.1. **NOW** *Distatodinium*. Originally *Hystrichosphaeridium*, subsequently *Tanyosphaeridium*, thirdly (and now) *Distatodinium*. Age: late Eocene.

"*fusiforme*" Matsuoka, 1974, p.332–333, pl.46, figs.4,9–10. Holotype: Matsuoka, 1974, pl.46, fig.4; Fauconnier and Masure, 2004, pl.22, fig.7. **NOW** *Distatodinium*. Originally *Tanyosphaeridium*, subsequently (and now) *Distatodinium*. Age: early-middle Miocene.

isocalamum (Deflandre and Cookson, 1955, p.272, pl.2, figs.7–8; text-figs.30–35) Davey and Williams, 1969, p.7. Holotype: Deflandre and Cookson, 1955, pl.2, figs.7–8; Fauconnier and Masure, 2004, pl.78, figs.5–8. Originally *Hystrichosphaeridium*, subsequently (and now) *Tanyosphaeridium*. Age: Early Cretaceous.

jurassicum Jain and Garg in Jain et al., 1984, p.73, pl.1, fig.10. Holotype: Jain et al., 1984, pl.1, fig.10. Age: Kimmeridgian–early Tithonian.

"magdaliuM" (Drugg, 1967, p.26–27, pl.4, figs.8–10; pl.9, fig.7) Heisecke, 1970, p.244. Holotype: Drugg, 1967, pl.4, fig.9. Originally *Hystrichosphaeridium*, subsequently *Tanyosphaeridium*. **Taxonomic senior synonym:** *Hystrichosphaera* (as and now *Tanyosphaeridium*) *xanthiopyxides*, according to Stover and Evitt (1978, p.85). Age: Danian.

magneticum Davies, 1983, p.25, pl.8, figs.1–8,11–12; text-fig.20. Emendation: Torricelli, 2000, p.263. Holotype: Davies, 1983, pl.8, fig.7; Fauconnier and Masure, 2004, pl.79, figs.2–3. Age: Valanginian.

"paradoxum" (Brosius, 1963, p.41–42, pl.4, figs.1,6; text-fig.2, nos.1a–c) Gocht, 1969, p.54. Holotype: Brosius, 1963, pl.4, fig.6; Fensome et al., 1995, fig.2 — p.1639. **NOW** *Distatodinium*. Originally *Hystrichosphaeridium*, subsequently *Tanyosphaeridium*, thirdly *Oligosphaeridium?*, fourthly (and now) *Distatodinium*, fifthly *Bipolaribucina*. Taxonomic junior synonym: *Distatodinium craterum*, according to Fensome et al. (2009, p.31). Age: late Oligocene.

"prolixispinosum" (Davey and Williams, 1966b, p.76–77, pl.8, figs.2–3) Duxbury, 1980, p.132. Holotype: Davey and Williams, 1966b, pl.8, fig.3; Fauconnier and Masure, 2004, pl.60, figs.2–4. **NOW** *Oligosphaeridium*. Originally (and now) *Oligosphaeridium*, subsequently *Tanyosphaeridium*. Age: Cenomanian.

regulare Davey and Williams, 1966b, p.99–100, pl.3, fig.4 (not fig.3 as indicated in text and plate caption). Holotype: Davey and Williams, 1966b, pl.3, fig.4; Bujak et al., 1980, pl.8, figs.3,6; Fauconnier and Masure, 2004, pl.79, figs.4–5. Age: early Eocene.

salpinx Norvick, 1976, p.63–64, pl.9, fig.10. Holotype: Norvick, 1976, pl.9, fig.10; Fauconnier and Masure, 2004, pl.79, figs.6–8. N.I.A. Age: Cenomanian.

singulare Fedorova-Shakhmundes, 1980, p.7, pl.1, fig.4. Holotype: Fedorova-Shakhmundes, 1980, pl.1, fig.4. Age: early Valanginian.

"tenerum" Benedek, 1972, p.35, pl.10, figs.13–14; text-fig.14. Emendation: Benedek and Sarjeant, 1981, p.347–348, as *Distatodinium tenerum*. Holotype: Benedek, 1972, pl.10, fig.13; Benedek and Sarjeant, 1981, fig.1, no.5. **NOW** *Distatodinium*. Originally *Tanyosphaeridium*, subsequently (and now) *Distatodinium*. Age: middle Oligocene.

"toryna" (Cookson and Eisenack, 1960b, p.252, pl.38, figs.6,15) Stover and Evitt, 1978, p.85. Holotype: Cookson and Eisenack, 1960b, pl.38, fig.15. **NOW** *Egmontodinium*. Originally *Hystrichosphaeridium*, subsequently *Prolixosphaeridium?*, thirdly *Tanyosphaeridium*, fourthly (and now) *Egmontodinium*. N.I.A. Age: Tithonian–Neocomian.

***variecalamum** Davey and Williams, 1966b, p.98–99, pl.6, fig.7; text-fig.20. Holotype: Davey and Williams, 1966b, pl.6, fig.7; text-fig.20; Fauconnier and Masure, 2004, pl.80, figs.1–2. Age: Cenomanian.

xanthiopyxides (Wetzel, 1933b, p.44–45, pl.4, fig.25 ex Deflandre, 1937b, p.77) Stover and Evitt, 1978, p.85. Emendations: Morgenroth, 1968, p.556, as *Hystrichosphaeridium? xanthiopyxides*; Sarjeant, 1985b, p.142–144, as *Tanyosphaeridium xanthiopyxides*. Holotype: Wetzel, 1933b, pl.4, fig.25, Morgenroth, 1968, pl.48, fig.5; Sarjeant, 1985b, pl.3, figs.2–3; Dietz et al., 1999, fig.10, no.8. Originally *Hystrichosphaera* (name not validly published), subsequently *Hystrichosphaeridium*, thirdly *Hystrichosphaeridium?*, fourthly *Baltisphaeridium* (Appendix A), fifthly *Prolixosphaeridium?*, sixthly (and now) *Tanyosphaeridium*. Taxonomic junior synonym: *Hystrichosphaeridium* (as *Tanyosphaeridium*) *magdaliuM*, according to Stover and Evitt (1978, p.85). The name

Hystrichosphaera xanthiopyxides was not validly published in Wetzel (1933b), since the generic name *Hystrichosphaera* was not validly published until 1937. Age: Late Cretaceous (?Maastrichtian, according to Sarjeant, 1985b, p.143).

"**TAPEINOSPHAERIDIUM**" Ioannides et al., 1977, p.461–462. **Taxonomic senior synonym:** *Chytroeisphaeridia*, according to Davey (1979d, p.211). Type: Ioannides et al., 1977, pl.5, fig.1, as *Tapeinosphaeridium pericompsum*.

"**granulatum**" Ioannides et al., 1977, p.462, pl.4, figs.18–19. Holotype: Ioannides et al., 1977, pl.4, fig.18. **NOW** *Pyxidinospis*. Originally *Tapeinosphaeridium*, subsequently *Tectatodinium?*, thirdly (and now) *Pyxidinospis*. Age: middle Kimmeridgian.

"**hyalinum**" Raynaud, 1978, p.394–395, pl.2, fig.18. Holotype: Raynaud, 1978, pl.2, fig.18. **NOW** *Chytroeisphaeridia*. Originally *Tapeinosphaeridium*, subsequently (and now) *Chytroeisphaeridia*. Taxonomic junior synonym: *Chytroeisphaeridia grossa*, according to Riding (1990, p.311). Age: early-middle Callovian.

"***pericompsum**" Ioannides et al., 1977, p.463, pl.5, figs.1–4; text-fig.13. Holotype: Ioannides et al., 1977, pl.5, fig.1. **NOW** *Chytroeisphaeridia*. Originally *Tapeinosphaeridium*, subsequently (and now) *Chytroeisphaeridia*. Age: middle Kimmeridgian.

TECTATODINIUM Wall, 1967, p.112–113. Emendation: Head, 1994a, p.306. Type: Wall, 1967, pl.16, fig.12, as *Tectatodinium pellitum*.

"**gochtii**" Dodekova, 1975, p.31, pl.3, figs.8,10–13. Holotype: Dodekova, 1975, pl.3, fig.10. **NOW** *Chytroeisphaeridia*. Originally *Tectatodinium*, subsequently *Dodekovia*, thirdly (and now) *Chytroeisphaeridia*. Age: late Bathonian.

"**grande**" Williams et al., 1993, p.57. Holotype: Manum et al., 1989, pl.20, figs.3–4, as *Tectatodinium* sp. 2. **Taxonomic senior synonym:** *Tectatodinium pellitum*, according to Head (1994a, p.308). Age: late Miocene, ?Tortonian.

"**granulatum**" (Ioannides et al., 1977, p.462, pl.4, figs.18–19) Davey, 1979d, p.217. Holotype: Ioannides et al., 1977, pl.4, fig.18. **NOW** *Pyxidinospis*. Originally *Tapeinosphaeridium*, subsequently *Tectatodinium?*, thirdly (and now) *Pyxidinospis*. Questionable assignment: Davey (1979d, p.217). Age: middle Kimmeridgian.

"**laminatum**" Davies, 1983, p.21, pl.6, figs.1–5,21; text-fig.16. Holotype: Davies, 1983, pl.6, fig.21; text-fig.16. **NOW** *Pyxidinospis*. Originally *Tectatodinium*, subsequently (and now) *Pyxidinospis*. Age: late Oxfordian–late Tithonian.

"**minutum**" Matsuoka, 1983b, p.127, pl.5, fig.6; pl.6, figs.7a–b. Emendation: Matsuoka and Head, 1992, p.167, as *Batiacasphaera minuta*. Holotype: Matsuoka, 1983b, pl.6, figs.7a–b; Matsuoka and Head, 1992, pl.1, figs.1–11; text-figs.1A–C. **NOW** *Batiacasphaera*. Originally *Tectatodinium*, subsequently (and now) *Batiacasphaera*. Age: late early–early middle Miocene.

"**nudum**" (Nagy, 1969, p.291, pl.1, fig.1) Lentin and Williams, 1977b, p.161. Holotype: Nagy, 1969, pl.1, fig.1. **NOW** *Pyxidinospis? nuda*. Originally *Palaeoperidinium nudum* Nagy, subsequently *Palaeoperidinium pannonium* (name illegitimate), thirdly *Phthanoperidinium pannonium* (name illegitimate), fourthly *Gonyaulacysta? nuda*, fifthly *Tectatodinium? nudum*, sixthly *Tectatodinium? pannonium* (name illegitimate), seventhly *Pyxidinospis? pannonia* (name illegitimate), eighthly (and now) *Pyxidinospis? nuda*. Questionable assignment: Lentin and Williams (1977b, p.161). Nomenclatural junior synonym: *Palaeoperidinium* (subsequently *Phthanoperidinium*, *Tectatodinium* and *Pyxidinospis?*) *pannonium*, which has the same holotype. See also the discussion under *Pyxidinospis? nuda*. Age: late Miocene.

"?*pannonium*" (Lentin and Williams, 1973, p.106) Lentin and Williams, 1981, p.275. Holotype: Nagy, 1969, pl.1, fig.1. **Name illegitimate — nomenclatural senior synonym:** *Palaeoperidinium* (now *Pyxidinospis?*) *nudum*, which has the same type. **NOW** *Pyxidinospis? nuda*. Originally *Palaeoperidinium nudum* Nagy, subsequently *Palaeoperidinium pannonium* (name illegitimate), thirdly *Phthanoperidinium pannonium* (name illegitimate), fourthly *Gonyaulacysta? nuda*, fifthly *Tectatodinium? nudum*, sixthly *Tectatodinium? pannonium* (name illegitimate), seventhly *Pyxidinospis? pannonia* (name illegitimate), eighthly (and now) *Pyxidinospis? nuda*. Questionable assignment: Lentin and Williams (1985, p.350). See also the discussion under *Pyxidinospis? nuda*. Age: late Miocene.

**pellitum* Wall, 1967, p.113, pl.16, figs.11–12. Emendation: Head, 1994a, p.308,310. Holotype: Wall, 1967, pl.16, fig.12; Head, 1994a, pl.1, figs.1–9. Taxonomic junior synonym: *Tectatodinium grande*, according to Head (1994a, p.308); *Tectatodinium rugulatum*, questionably according to Head (1994a, p.308), and according to Head and Nøhr-Hansen (1999, p.577). Motile equivalent: *Gonyaulax spinifera* (Claparède and Lachmann, 1859) Diesing, 1866, according to Wall and Dale (1967, p.352; 1968c, p.270) and Dodge (1989, p.289). Age: ?Holocene.

"*psilatium*" Wall and Dale in Wall et al., 1973, p.22–23, pl.1, figs.9–15; pl.3, figs.1–6. Holotype: Wall et al., 1973, pl.1, fig.9; Head, 1994b, pl.5, figs.8–10. **NOW** *Pyxidinospis*. Originally *Tectatodinium*, subsequently (and now) *Pyxidinospis*. Age: Holocene.

"*rugulatum*" (Hansen, 1977, p.12–13, figs.20H–J) McMinn, 1988, p.152. Holotype: Hansen, 1977, figs.20H–J. Originally *Xenicodinium*, subsequently *Tectatodinium*. **Taxonomic senior synonym:** *Tectatodinium pellitum*, questionably according to Head (1994a, p.308), and according to Head and Nøhr-Hansen (1999, p.577). Age: Danian.

"*simplex*" (Harland, 1979b, p.537–538, pl.3, figs.12–15) Edwards, 1984, p.587. Holotype: Harland, 1979b, pl.3, fig.12. **NOW** *Pyxidiella?*. Originally (and now) *Pyxidiella?*, subsequently *Tectatodinium*. Age: late Miocene.

TEHAMADINIUM Jan du Chêne et al., 1986b, p.20–21. This name was not validly published in Jan du Chêne et al. (1986a, p.352) since it was merely used in anticipation of future acceptance of the name (I.C.N. Article 36.1b). Type: Below, 1982a, pl.2, figs.13a–b, as *Occisucysta brixii*.

aculeatum (Klement, 1960, p.42, pl.5, figs.6–9; text-fig.21) Thomas and Cox, 1988, p.319 (August). Holotype: Klement, 1960, pl.5, figs.6–7. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly *Acanthaulax*, fourthly *Occisucysta*, fifthly (and now) *Tehamadinium*. Brenner (1988, p.89; October) also proposed this combination. Age: early Kimmeridgian.

**brixii* (Below, 1982a, p.29–30,32, pl.2, figs.3a–b,4a–b,5–11,12a–b,13a–b; pl.3, figs.10–17,21; textfigs.5a–d) Jan du Chêne et al., 1986b, p.20. Emendation: Jan du Chêne et al., 1986b, p.21–22, as *Tehamadinium brixii*. Holotype: Below, 1982a, pl.2, figs.13a–b; Jan du Chêne et al., 1986a, pl.116, figs.1–2; Jan du Chêne et al., 1986b, pl.13, figs.1–4; Fensome et al., 1993a, figs.1–2 — p.987. Originally *Occisucysta*, subsequently (and now) *Tehamadinium*. Jan du Chêne et al. (1986b, p.21) gave the citation "*Tehamadinium bixi* subsp. *bixi* (Below, 1982[a]) emend." but did not name any subspecies of *Tehamadinium brixii*. This combination was not validly published in Jan du Chêne et al. (1986a, p.352), since the generic name *Tehamadinium* was not validly published. Age: early Valanginian.

coummia (Below, 1981a, p.61, pl.8, figs.6–7; pl.13, figs.10–11) Jan du Chêne et al., 1986b, p.21. Emendation: Jan du Chêne et al., 1986b, p.22–23, as *Tehamadinium coummia*. Holotype: Below, 1981a, pl.8, fig.6; Jan du Chêne et al., 1986a, pl.118, figs.7–9; Jan du Chêne et al., 1986b, pl.14, figs.1–4; Fensome et al., 1991, figs.1–2 — p.631. Originally *Occisucysta*, subsequently (and now) *Tehamadinium*. This combination was not validly published in Jan du Chêne et al. (1986a, p.352), since the generic name *Tehamadinium* was not validly published. N.I.A. Age: Albian.

crestatum (Jain, 1977b, p.175, pl.5, figs.63–65) Jan du Chêne et al., 1986b, p.21. Emendation: Jan du Chêne et al., 1986b, p.23–24, as *Tehamadinium crestatum*. Holotype: Jain, 1977b, pl.5, figs.63–65; Jan du Chêne et al., 1986a, pl.118, fig.11; Jan du Chêne et al., 1986b, pl.26, fig.4. Originally *Occisucysta*, subsequently (and now)

Tehamadinium. This combination was not validly published in Jan du Chêne et al. (1986a, p.352), since the generic name *Tehamadinium* was not validly published. Age: early Albian.

daveyi Jan du Chêne et al., 1986b, p.24, pl.16, figs.1–15; pl.17, figs.1–5. Holotype: Jan du Chêne et al., 1986b, pl.16, figs.1–8. This name was not validly published in Jan du Chêne et al. (1986a, p.352) since the generic name *Tehamadinium* was not validly published and no holotype was designated. Age: Berriasian.

dodekovae Jan du Chêne et al., 1986b, p.25–26, pl.18, figs.1–9; pl.19, figs.1–6; text-fig.5, nos.1–2. Holotype: Jan du Chêne et al., 1986a, pl.116, figs.7–8; Jan du Chêne et al., 1986b, pl.18, figs.1,3,6–9. This name was not validly published in Jan du Chêne et al. (1986a, p.352), since the generic name *Tehamadinium* was not validly published. Age: Berriasian–early? Hauterivian.

evittii (Dodekova, 1969, p.14–15, pl.1, figs.1–6; pl.2, figs.1–12; text-figs.Aa–b) Jan du Chêne et al., 1986b, p.21. Emendation: Jan du Chêne et al., 1986b, p.26–27, as *Tehamadinium evittii*. Holotype: Dodekova, 1969, pl.1, figs.1–2; Jan du Chêne et al., 1986a, pl.117, figs.1–2; Jan du Chêne et al., 1986b, pl.20, figs.1–4. Originally *Gonyaulacysta*, subsequently *Occisucysta*, thirdly (and now) *Tehamadinium*. Taxonomic junior synonym: *Diacanthum hollisteri*, according to Below (1982a, p.32–33) — however, Jan du Chêne et al. (1986b, p.122) and Habib and Drugg (1987, p.762–763) retained *Diacanthum hollisteri*. This combination was not validly published in Jan du Chêne et al. (1986a, p.352), since the generic name *Tehamadinium* was not validly published. Age: Tithonian.

konarae Dodekova, 1992, p.60–61, pl.10, figs.4–8. Holotype: Dodekova, 1992, pl.10, figs.4–7. Age: early Oxfordian–early Kimmeridgian.

mazaganense (Below, 1984, p.636–637, pl.6, figs.9A–C; pl.7, figs.1A–B; text-fig.7) Jan du Chêne et al., 1986b, p.21. Emendation: Jan du Chêne et al., 1986b, p.27, as *Tehamadinium mazaganense*. Holotype: Below, 1984, pl.7, figs.1A–B; Jan du Chêne et al., 1986a, pl.117, figs.4–6; Jan du Chêne et al., 1986b, pl.21, figs.1–9. Originally *Occisucysta*, subsequently (and now) *Tehamadinium*. This combination was not validly published in Jan du Chêne et al. (1986a, p.352), since the generic name *Tehamadinium* was not validly published. Age: late Albian.

sousense (Below, 1981a, p.61–62, pl.8, figs.1a–b,2) Jan du Chêne et al., 1986b, p.21. Emendation: Jan du Chêne et al., 1986b, p.27–28, as *Tehamadinium sousense*. Holotype: Below, 1981a, pl.8, figs.1a–b; Jan du Chêne et al., 1986a, pl.117, figs.7–10; Jan du Chêne et al., 1986b, pl.22, figs.1–5; Fensome et al., 1991, figs.1–5 — p.743. Originally *Occisucysta*, subsequently (and now) *Tehamadinium*. This combination was not validly published in Jan du Chêne et al. (1986a, p.352), since the generic name *Tehamadinium* was not validly published. Age: late Aptian.

"*tenuiceras*" (Eisenack, 1958a, p.389–391, pl.21, figs.14–15; pl.22, figs.1–3; pl.24, fig.2; text-figs.4a–c,5) Jan du Chêne et al., 1986b, p.32. Emendations: Sarjeant, 1985a, p.63,65–66, as *Acanthaulax? tenuiceras*; Jan du Chêne et al., 1986b, p.29–30, as *Tehamadinium tenuiceras*. Holotype: Eisenack, 1958a, pl.21, fig.15; Sarjeant, 1985a, pl.6, figs.1–2; text-fig.3; Jan du Chêne et al., 1986a, pl.118, fig.1; Jan du Chêne et al., 1986b, pl.24, fig.5. **NOW** *Cribroperidinium?*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta?*, thirdly *Diacanthum*, fourthly *Occisucysta*, fifthly *Acanthaulax?*, sixthly *Tehamadinium*, seventhly (and now) *Cribroperidinium?*. Taxonomic junior synonym: *Occisucysta* (subsequently *Tehamadinium*) *victorii*, according to Pöthe de Baldis and Ramos (1988, p.33). This combination was not validly published in Jan du Chêne et al. (1986a, p.352), since the generic name *Tehamadinium* was not validly published. Age: late Barremian–Aptian.

"*victorii*" (Pöthe de Baldis and Ramos, 1983, p.444, pl.3, figs.6,8) Jan du Chêne et al., 1986b, p.21. Holotype: Pöthe de Baldis and Ramos, 1983, pl.3, figs.6,8; Jan du Chêne et al., 1986b, pl.26, figs.1–2. Originally *Occisucysta*, subsequently *Tehamadinium*. **Taxonomic senior synonym:** *Gonyaulax* (as *Occisucysta*, now *Cribroperidinium?*) *tenuiceras*, according to Pöthe de Baldis and Ramos (1988, p.33). This combination was not validly published in Jan du Chêne et al. (1986a, p.352), since the generic name *Tehamadinium* was not validly published. Age: early Aptian.

TENERIDINIUM Krutzsch, 1962, p.41. Type: Krutzsch, 1962, pl.10, figs.3–5, as *Teneridinium magnoides*.

lingulatum He Chengquan, 1991, p.67, pl.2, fig.32. Holotype: He Chengquan, 1991, pl.2, fig.32. Age: Paleocene.

**magnoides* Krutzsch, 1962, p.42, pl.10, figs.1–7; text-fig.1a. Holotype: Krutzsch, 1962, pl.10, figs.3–5. Age: Eocene.

"**TENUA**" Davey, 1978, p.894. **Name illegitimate** — **senior homonym**: *Tenua* Eisenack, 1958a. **Nomenclatural senior synonym**: *Sentusidinium* Sarjeant and Stover, 1978, which has the same type. Type: Sarjeant, 1968, pl.1, fig.22; pl.2, fig.1, as *Tenua rioultii*.

"**rioultii*" (Sarjeant, 1968, p.231, pl.1, figs.12,22; pl.2, figs.1–2,4) Davey, 1978, p.894. Emendation: Courtinat, 1989, p.192, as *Sentusidinium rioultii*. Holotype: Sarjeant, 1968, pl.1, fig.22; pl.2, fig.1; Fauconnier and Masure, 2004, pl.70, fig.4. **Combination illegitimate**: the generic name *Tenua* Davey is illegitimate. **NOW** *Sentusidinium*. Originally *Tenua* Eisenack, subsequently *Batiacasphaera*, thirdly (and now) *Sentusidinium*, fourthly *Tenua* Davey (combination illegitimate). Age: late Callovian.

TENUA Eisenack, 1958a, p.410. Emendations: Sarjeant, 1968, p.230–231; Pocock, 1972, p.94; Sarjeant, 1985a, p.94. Junior homonym: *Tenua* Davey, 1978. Taxonomic senior synonym: *Cyclonephelium*, according to Sarjeant and Stover (1978, p.49) — however, Sarjeant (1985a, p.93) and Lentin and Williams (1989, p.365) retained *Tenua* Eisenack. Taxonomic junior synonym: *Cerbia*, according to Sarjeant (1985a, p.93–94) and Sarjeant (1992b, p.678) — however, Duxbury (2002, p.76,78) retained *Cerbia*. Duxbury (2002, p.78) considered that *Tenua* Eisenack may be the taxonomic senior synonym of *Circulodinium*. Type: Eisenack, 1958a, pl.23, fig.1, as *Tenua hystrix*.

?*americana* (Pöthe de Baldis and Ramos, 1983, p.432–433, pl.1, figs.6,9) Prössl, 1992b, p.116. Holotype: Pöthe de Baldis and Ramos, 1983, pl.1, fig.9. This combination was not validly published in Prössl (1990, p.99), since that author did not fully reference the basionym. Originally *Canningia*, subsequently (and now) *Tenua?* Eisenack. Questionable assignment: Prössl (1992b, p.116); and Courtinat in Fauconnier and Masure (2004, p.557) as a problematic species. Age: early Aptian.

"*anaphrissa*" (Sarjeant, 1966c, p.206, pl.22, fig.8; pl.23, fig.6; text-fig.55) Benedek, 1972, p.9–10. Emendation: Harding, 1990b, p.17–18, as *Pseudoceratium anaphrissum*. Holotype: Sarjeant, 1966c, pl.22, fig.8; text-fig.55. **NOW** *Pseudoceratium*. Originally *Doidyx*, subsequently *Tenua* Eisenack, thirdly *Aptea*, fourthly (and now) *Pseudoceratium*. Age: early Barremian.

"*aptiensis*" Burger, 1980a, p.76, pl.23, figs.1,5; pl.24, fig.1. Holotype: Burger, 1980a, pl.23, fig.1; Fauconnier and Masure, 2004, pl.63, figs.11–13. **NOW** *Pilosidinium*. Originally *Tenua* Eisenack, subsequently *Sentusidinium*, thirdly *Batiacasphaera*, fourthly (and now) *Pilosidinium*. Taxonomic junior synonym: *Tenua* (as *Sentusidinium*) *microrobusta*, according to Backhouse (1988, p.107). Age: Aptian.

"*asymmetra*" Fenton et al., 1980, p.160,162, pl.16, figs.1,3,5. Holotype: Fenton et al., 1980, pl.16, fig.3. **NOW** *Pilosidinium*. Originally *Tenua* Eisenack, subsequently *Sentusidinium*, thirdly (and now) *Pilosidinium*. Age: late Bajocian–early Bathonian.

"*atlantica*" Habib, 1972, p.375, pl.4, figs.2,5. Holotype: Habib, 1972, pl.4, fig.2. **NOW** *Valvaeodinium*. Originally *Tenua* Eisenack, subsequently *Sentusidinium?*, thirdly *Fromea* (Appendix A), fourthly *Kylindrocysta*, fifthly (and now) *Valvaeodinium*. Taxonomic junior synonym: *Fromea complicata* (Appendix A), according to Davies (1983, p.31) — however, Jansonius (1989, p.65) retained *Fromea complicata*. Age: Callovian–Oxfordian.

aucda (Below, 1981a, p.8–9, pl.4, figs.3,5a–b; pl.12, fig.20; text-figs.6a–c,g) Lentin and Williams, 1993, p.638. Holotype: Below, 1981a, pl.4, fig.3; Fensome et al., 1991, fig.1 — p.577. Originally *Cerbia*, subsequently (and now) *Tenua* Eisenack. N.I.A. Age: Barremian.

"*baculata*" Dodekova, 1975, p.28–29, pl.6, figs.1–3; text-fig.7. Holotype: Dodekova, 1975, pl.6, figs.1–3. **NOW** *Barbatocysta*. Originally *Tenua* Eisenack, subsequently *Sentusidinium*, thirdly (and now) *Barbatocysta*. Age: late Bathonian.

- "bellula"** Jiabo, 1978, p.51, pl.23, figs.14–16. Holotype: Jiabo, 1978, pl.23, fig.15. **NOW** *Batiacasphaera*?. Originally *Tenua* Eisenack, subsequently *Kallosphaeridium*?, thirdly *Batiacasphaera*, fourthly (and now) *Batiacasphaera*?, fifthly *Sentusidinium*. Age: Early Tertiary.
- "bifidis"** Jiabo, 1978, p.51–52, pl.22, figs.7–16. Holotype: Jiabo, 1978, pl.22, fig.8. **NOW** *Sentusidinium*. Originally *Tenua* Eisenack, subsequently *Cleistosphaeridium*?, thirdly (and now) *Sentusidinium*. Age: Early Tertiary.
- "biornata"** Jiabo, 1978, p.52, pl.22, figs.21–29; pl.23, figs.1–4. Holotype: Jiabo, 1978, pl.22, fig.24. **NOW** *Sentusidinium biornatum*. Originally *Tenua biornata*, subsequently *Kallosphaeridium biornatum* (combination not validly published), thirdly *Kallosphaeridium biparatum*, fourthly *Batiacasphaera biornata*, fifthly (and now) *Sentusidinium biornatum*. Age: Early Tertiary.
- "brevispinosa"** (Pocock, 1962, p.81, pl.14, figs.222–223) Brideaux, 1977, p.15. Emendation: Brideaux, 1977, p.15–16, as *Tenua brevispinosa*. Holotype: Pocock, 1962, pl.14, fig.222; Jansonius, 1986, pl.4, fig.6; Fauconnier and Masure, 2004, pl.14, figs.7–8. **NOW** *Circulodinium*. Originally *Palaeohystrichophora*, subsequently *Tenua* Eisenack, thirdly *Canningia*?, fourthly *Cyclonephelium*, fifthly (and now) *Circulodinium*. Age: Barremian.
- "capillata"** Davey, 1975, p.155–156, pl.2, figs.4,7. Holotype: Davey, 1975, pl.2, fig.7. **NOW** *Pilosidinium*. Originally *Tenua* Eisenack, subsequently *Sentusidinium*, thirdly (and now) *Pilosidinium*. Age: Senonian, ?Campanian.
- "capitata"** (Cookson and Eisenack, 1960b, p.252, pl.39, fig.9) Gitmez and Sarjeant, 1972, p.189. Holotype: Cookson and Eisenack, 1960b, pl.39, fig.9; Fauconnier and Masure, 2004, pl.66, fig.1. **NOW** *Barbatacysta*. Originally *Hystrichosphaeridium*, subsequently *Prolixosphaeridium*, thirdly *Tenua* Eisenack, fourthly *Batiacasphaera*, fifthly (and now) *Barbatacysta*. Age: Oxfordian–Kimmeridgian.
- "colligata"** Morgan, 1980, p.32, pl.29, figs.6–11. Holotype: Morgan, 1980, pl.29, figs.6–8. **NOW** *Epelidosphaeridia*. Originally *Tenua* Eisenack, subsequently (and now) *Epelidosphaeridia*. Age: Aptian–early Albian.
- "dubia"** Jain and Millepied, 1975, p.152, pl.5, figs.75–76. Holotype: Jain and Millepied, 1975, pl.5, fig.76. **NOW** *Cyclonephelium*?. Originally *Tenua* Eisenack, subsequently *Cyclonephelium*, thirdly (and now) *Cyclonephelium*?. Age: Campanian–Maastrichtian.
- "echinata"** Gitmez and Sarjeant, 1972, p.190, pl.1, figs.1,9. Holotype: Gitmez and Sarjeant, 1972, pl.1, fig.1; Fauconnier and Masure, 2004, pl.63, fig.14. **NOW** *Pilosidinium*. Originally *Tenua* Eisenack, subsequently *Sentusidinium*, thirdly *Batiacasphaera*, fourthly (and now) *Pilosidinium*. Age: early–late Kimmeridgian.
- "eisenackii"** Boltenhagen, 1977, p.56–58, pl.5, figs.5a–b,6a–b,7a–b,8a–b. Holotype: Boltenhagen, 1977, pl.5, figs.5a–b; Fauconnier and Masure, 2004, pl.69, fig.4. **NOW** *Sentusidinium*. Originally *Tenua* Eisenack, subsequently (and now) *Sentusidinium*. Taxonomic junior synonym: *Sentusidinium spiculatum*, according to Courtinat in Fauconnier and Masure (2004, p.485). Age: Cenomanian–Turonian.
- "evittii"** Pocock, 1972, p.94–95, pl.24, figs.6,8; text-fig.11. Holotype: Pocock, 1972, pl.24, fig.8, lost according to Jansonius (1986, p.208). Lectotype: Jansonius, 1986, pl.6, figs.8–9, designated by Jansonius (1986, p.208). **NOW** *Evansia*. Originally *Tenua* Eisenack, subsequently *Pareodinia*, thirdly *Glomodinium*, fourthly (and now) *Evansia*. Taxonomic junior synonyms: *Pareodinia tripartita* and (at specific rank) *Pareodinia tripartita* subsp. *rotunda*, both according to Wiggins (1975, p.105). Age: late Bajocian–Callovian.
- "formosa"** (Mao Shaozhi and Norris, 1988, p.31–32, pl.1, figs.9–10; text-fig.8, nos.1–2) Lentin and Williams, 1993, p.639. Holotype: Mao Shaozhi and Norris, 1988, pl.1, fig.9; text-fig.8, no.2. Originally *Cerbia*, subsequently (and now) *Tenua* Eisenack. Age: late Eocene–early Oligocene.

"*hystricella*" Eisenack, 1958a, p.411, pl.23, figs.5–7. Holotype: Eisenack, 1958a, pl.23, fig.5; Sarjeant, 1985a, pl.10, fig.6. **Taxonomic senior synonym:** *Tenua hystrix*, according to Eisenack and Kjellström (1972, p.1039). N.I.A. Age: Aptian.

**hystrix* Eisenack, 1958a, p.410, pl.23, figs.1–4; text-fig.10. Emendation: Sarjeant, 1985a, p.94–95, as *Tenua hystrix*. Holotype: Eisenack, 1958a, pl.23, fig.1; Sarjeant, 1985a, pl.10, fig.5; Sarjeant, 1992b, fig.1; Fauconnier and Masure, 2004, pl.80, fig.3. Originally (and now) *Tenua* Eisenack, subsequently *Cyclonephelium*. Taxonomic junior synonyms: *Tenua hystricella*, according to Eisenack and Kjellström (1972, p.1039); *Cyclonephelium* (as *Cerbia*) *tabulatum*, according to Sarjeant (1985a, p.95–96) and Sarjeant (1992b, p.681). Backhouse (1988, p.83) considered *Circulodinium hirtellum* to be a possible taxonomic junior synonym of this species. N.I.A. Age: Aptian.

"*kutharensis*" Khanna and Singh, 1981b, p.389–390, fig.1, nos.3,5; text-fig.1. Holotype: Khanna and Singh, 1981b, fig.1, no.3. **NOW** *Batiacasphaera*. Originally *Tenua* Eisenack, subsequently (and now) *Batiacasphaera*?. This name was not validly published in Khanna (1979, p.216) and Singh et al. (1979, p.35–36) since no description was provided. Age: late Paleocene.

"*microcysta*" Bujak in Bujak et al., 1980, p.88,90, pl.22, figs.2–5. Holotype: Bujak et al., 1980, pl.22, figs.2–3; Fauconnier and Masure, 2004, pl.64, figs.4–5. **NOW** *Pilosidinium*. Originally *Tenua* Eisenack, subsequently *Cleistosphaeridium*, thirdly *Sentusidinium*, fourthly (and now) *Pilosidinium*. Age: middle Eocene (see Aubry, 1986).

"*microrobusta*" Morgan, 1980, p.33, pl.29, figs.15–16. Holotype: Morgan, 1980, pl.29, figs.15–16. Originally *Tenua* Eisenack, subsequently *Sentusidinium*. **Taxonomic senior synonym:** *Tenua* (as *Batiacasphaera*, now *Pilosidinium*) *aptiensis*, according to Backhouse (1988, p.107). Age: late Neocomian–late Albian.

"*neophytensa*" Ioannides et al., 1977, p.463, pl.6, figs.5,8–9. Holotype: Ioannides et al., 1977, pl.5, fig.5. **NOW** *Pilosidinium*. Originally *Tenua* Eisenack, subsequently *Sentusidinium*?, thirdly (and now) *Pilosidinium*. Age: middle Kimmeridgian.

"*pilosa*" (Ehrenberg, 1854, pl.37, section 8, fig.4) Sarjeant, 1968, p.231. Emendation: Erkmen and Sarjeant, 1980, p.51, as *Sentusidinium pilosum*. Holotype: Ehrenberg, 1854, pl.37, section 8, fig.4. **NOW** *Barbatacysta pilosa*. Originally *Xanthidium pilosum* (Appendix A), subsequently *Hystrichosphaera pilosa* (combination not validly published), thirdly *Hystrichosphaeridium? pilosum*, fourthly *Baltisphaeridium pilosum* (Appendix A), fifthly *Ovum hispidum* subsp. *pilosum* (combination not validly published; Appendix A), sixthly *Cleistosphaeridium pilosum* (combination not validly published), seventhly *Tenua pilosa*, eighthly *Sentusidinium pilosum*, ninthly *Batiacasphaera pilosa*, tenthly (and now) *Barbatacysta pilosa*. Age: Oxfordian.

reductum (Châteauneuf, 1980, p.136, pl.21, fig.10) Courtinat in Fauconnier and Masure, 2004, p.557. Holotype: Châteauneuf, 1980, pl.21, fig.10; Fauconnier and Masure, 2004, pl.18, figs.11–15. Originally *Cyclonephelium*, subsequently (and now) *Tenua* Eisenack. Age: late Eocene (Marinesian–Ludian).

"*rioultii*" Sarjeant, 1968, p.231, pl.1, figs.12,22; pl.2, figs.1–2,4. Emendation: Courtinat, 1989, p.192, as *Sentusidinium rioultii*. Holotype: Sarjeant, 1968, pl.1, fig.22; pl.2, fig.1; Eisenack and Kjellström, 1972, figure to left — p.1043; Fensome et al., 1995, fig.1 — p.1743; Fauconnier and Masure, 2004, pl.70, fig.4. **NOW** *Sentusidinium*. Originally *Tenua* Eisenack, subsequently *Batiacasphaera*, thirdly (and now) *Sentusidinium*, fourthly *Tenua* Davey (combination illegitimate). Age: late Callovian.

"*simlaensis*" Khanna and Singh, 1981b, p.390, fig.1, nos.8–9; text-fig.2. Holotype: Khanna and Singh, 1981b, fig.1, no.8. **NOW** *Batiacasphaera*?. Originally *Tenua* Eisenack, subsequently (and now) *Batiacasphaera*?. This name was not validly published in Khanna (1979, p.216) and Singh et al. (1979, p.35–36) since no description was provided. Age: early Eocene.

suturispinosa (He Chengquan, 1991, p.173, pl.10, figs.1–3) Lentin and Williams, 1993, p.640. Holotype: He Chengquan, 1991, pl.10, fig.1. Originally *Cerbia*, subsequently (and now) *Tenua* Eisenack. Age: middle Eocene.

"*taugourdeau*" Varma and Dangwal, 1964, p.68, pl.2, fig.9. Holotype: Varma and Dangwal, 1964, pl.2, fig.9. Originally *Tenua* Eisenack, subsequently *Hemicystodinium?*, thirdly *Batiacasphaera*. **Taxonomic senior synonym:** *Polysphaeridium subtile*, according to Lentin and Williams (1993, p.275). Taxonomic senior synonym: *Hystriospheraeridium* (now *Polysphaeridium*) *zoharyi*, according to Lentin and Williams (1981, p.26,127) — however, *Tenua taugoudeau* is now considered a taxonomic junior synonym of *Polysphaeridium subtile*. Age: Eocene–Oligocene.

"*varispinosa*" (Sarjeant, 1959, p.338–340, pl.13, fig.7; text-fig.6) Sarjeant, 1972, p.43. Holotype: Sarjeant, 1959, pl.13, fig.7; text-fig.6; Fauconnier and Masure, 2004, pl.49, fig.8. **NOW** *Impletosphaeridium*. Originally *Baltisphaeridium* (Appendix A), subsequently *Tenua* Eisenack, thirdly *Sentusidinium*, fourthly *Sentusidinium?*, fifthly *Cleistosphaeridium*, sixthly (and now) *Impletosphaeridium*. Age: early Callovian.

"*verrucosa*" Sarjeant, 1968, p.232, pl.1, fig.17; pl.2, figs.3,6. Holotype: Sarjeant, 1968, pl.1, fig.17; pl.2, figs.3,6; Fauconnier and Masure, 2004, pl.11, figs.2–3. **NOW** *Barbatacysta*. Originally *Tenua* Eisenack, subsequently *Batiacasphaera*, thirdly *Sentusidinium*, fourthly (and now) *Barbatacysta*. Age: late Callovian.

"*villersensis*" Sarjeant, 1968, p.231–232, pl.1, fig.16; pl.2, figs.5–10. Holotype: Sarjeant, 1968, pl.1, fig.16; Fauconnier and Masure, 2004, pl.70, fig.5. **NOW** *Sentusidinium*. Originally *Tenua* Eisenack, subsequently *Batiacasphaera*, thirdly (and now) *Sentusidinium*. Age: early Callovian–early Oxfordian.

wenquanensis Cheng Jinhui and He Chengquan 2006, p.280–281, fig.3s1–3s2; fig.5a–b. Holotype: Cheng Jinhui and He Chengquan 2006, fig.3s1–3s2; fig.5a–b. Age: late Kimmeridgian.

"subsp. *biornata*". Autonym. Holotype: Jiabo, 1978, pl.22, fig.24. **NOW** *Sentusidinium biornatum* subsp. *biornatum*. Originally *Tenua biornata* subsp. *biornata*, subsequently *Kallosphaeridium biornatum* subsp. *biornatum* (combination not validly published), thirdly *Kallosphaeridium biparatum* subsp. *biparatum*, fourthly *Batiacasphaera biornata* subsp. *biornata*, fifthly (and now) *Sentusidinium biornatum* subsp. *biornatum*.

"subsp. *crassa*" Jiabo, 1978, p.52, pl.23, figs.1–4. Holotype: Jiabo, 1978, pl.23, fig.3. **NOW** *Sentusidinium biornatum* subsp. *crassum*. Originally *Tenua biornata* subsp. *crassa*, subsequently *Kallosphaeridium biornatum* subsp. *crassum* (combination not validly published), thirdly *Kallosphaeridium biparatum* subsp. *crassum*, fourthly *Batiacasphaera biornata* subsp. *crassa*, fifthly (and now) *Sentusidinium biornatum* subsp. *crassum*. Age: Early Tertiary.

"var. *eisenackii*". Autonym. Holotype: Boltenhagen, 1977, pl.5, figs.5a–b; Fauconnier and Masure, 2004, pl.69, fig.4. **Now redundant.**

"var. *vermiculata*" Boltenhagen, 1977, p.57–58, pl.5, figs.7a–b,8a–b. Holotype: Boltenhagen, 1977, pl.5, figs.7a–b; Fauconnier and Masure, 2004, pl.70, fig.6. **NOW** *Sentusidinium eisenackii?* subsp. *vermiculatum*. Originally *Tenua eisenackii* var. *vermiculata*, subsequently *Sentusidinium eisenackii?* subsp. *vermiculatum*, thirdly (and now) *Sentusidinium eisenackii?* subsp. *vermiculatum*. Age: Cenomanian–Turonian.

"subsp. *hystrix*". Autonym. Holotype: Eisenack, 1958a, pl.23, fig.1; Sarjeant, 1985a, pl.10, fig.5; Sarjeant, 1992b, fig.1; Fauconnier and Masure, 2004, pl.80, fig.3. **Now redundant.**

"subsp. *minor*" Jiabo, 1978, p.52–53, pl.23, figs.5–7. Holotype: Jiabo, 1978, pl.23, fig.5. **NOW** *Sentusidinium minus*. Originally *Tenua hystrix* subsp. *minor*, subsequently *Kallosphaeridium?* *minus*, thirdly *Batiacasphaera minor* (combination illegitimate), fourthly *Batiacasphaera sinensis*, fifthly *Batiacasphaera jiaboi* (name not validly published), sixthly (and now) *Sentusidinium minus*. Age: Early Tertiary.

"subsp. *longispinosa*" (Sarjeant, 1961a, p.102, pl.14, fig.8) Lentin and Williams, 1973, p.136. Holotype: Sarjeant, 1961a, pl.14, fig.8. Originally *Baltisphaeridium pilosum* var. *longispinosum* (Appendix A), subsequently *Tenua pilosa* subsp. *longispinosa*. **Taxonomic senior synonym** (at specific rank):

Prolixosphaeridium anasillum, according to Erkmen and Sarjeant (1980, p.64). Taxonomic senior synonym (at specific rank): *Hystrichosphaeridium xanthiopyxides* var. *granulosum* (as *Prolixosphaeridium granulosum*), according to Sarjeant (1976c, p.19) — however, the taxon is now considered a taxonomic junior synonym (at specific rank) of *Prolixosphaeridium anasillum*. Age: early Oxfordian.

"subsp. *pilosa*". Autonym. Holotype: Ehrenberg, 1854, pl.37, section 8, fig.4. **Now redundant.**

TERNIA Helby and Stover, 1987a, p.135. Type: Helby and Stover, 1987a, figs.4A–C, as *Ternia balmei*.

**balmei* Helby and Stover, 1987a, p.135–136, 138–139, figs.2A–C, 3A–I, 4A–C, 5B, 6A–F, 7A–B. Holotype: Helby and Stover, 1987a, figs.4A–C; Fensome et al., 1993a, figs.1–2 — p.955. Age: late Bathonian–middle Callovian.

TETRACHACYSTA Backhouse, 1988, p.109–110. Type: Backhouse, 1988, pl.42, figs.1a–b; text-figs.32B–C, as *Tetrachacysta allenii*.

**allenii* Backhouse, 1988, p.110, pl.42, figs.1a–b, 2a–b, 3; text-figs.32A–C. Holotype: Backhouse, 1988, pl.42, figs.1a–b; text-figs.32B–C; Fensome et al., 1993a, figs.1–2 — p.905. Taxonomic junior synonym: *Horologinella biconvexa* subsp. *granulata*, according to Xu Jinli et al. (1997, p.42) — however, He Chengquan et al., 2009, p.374 retained that taxon. Age: ?Valanginian–early Barremian.

amphidoxosum (Jiabo, 1978, p.93, pl.6, fig.2) He Chengquan et al., 2009, p.373. Holotype: Jiabo, 1978, pl.6, fig.2. **NOW** *Tetrachacysta*. Originally *Dinogymnium*?, subsequently *Microdinium*, thirdly (and now) *Tetrachacysta*. Age: Early Tertiary.

?*baculata* Backhouse, 1988, p.110–111, pl.42, figs.4–5; pl.51, figs.2–3. Holotype: Backhouse, 1988, pl.42, fig.5; Fensome et al., 1996, fig.2 — p.2059. Questionable assignment: Backhouse (1988, p.110). Age: late Tithonian–Valanginian.

biconvexa (Jiabo, 1978, p.95, pl.29, figs.20–21) He Chengquan et al., 2009, p.374. Holotype: Jiabo, 1978, pl.29, fig.21. Originally *Horologinella*, subsequently (and now) *Tetrachacysta*. Age: Early Tertiary.

subsp. *biconvexa*. Autonym. Holotype: Jiabo, 1978, pl.29, fig.21. Originally *Horologinella biconvexa* subsp. *biconvexa*, subsequently (and now) *Tetrachacysta biconvexa* subsp. *biconvexa*.

subsp. *granulata* (Zheng Yuefang and Liu Xuexian in Liu Zhili et al., 1992, p.70, pl.10, figs.3–8) He Chengquan et al., 2009, p.374. Holotype: Liu Zhili et al., 1992, pl.10, fig.7. Originally *Horologinella biconvexa* subsp. *granulata*, subsequently (and now) *Tetrachacysta biconvexa* subsp. *granulata*. Taxonomic senior synonym: *Tetrachacysta allenii*, according to Xu Jinli et al. (1997, p.42) — however, He Chengquan et al., 2009, p.374 retained this taxon. Age: Early Tertiary.

subsp. *laevigata* (Zheng Yuefang and Liu Xuexian in Liu Zhili et al., 1992, p.69–70, pl.10, figs.1–2) He Chengquan et al., 2009, p.374. Holotype: Liu Zhili et al., 1992, pl.10, fig.2. Originally *Horologinella biconvexa* subsp. *laevigata*, subsequently (and now) *Tetrachacysta biconvexa* subsp. *laevigata*. Age: Early Tertiary.

dawanensis (Liu Zhili and Zheng Yuefang in Liu Zhili et al., 1992, p.70, pl.10, figs.13–14) He Chengquan et al., 2009, p.375. Holotype: Liu Zhili et al., 1992, pl.10, fig.13. Originally *Horologinella*, subsequently (and now) *Tetrachacysta*. Age: Early Tertiary.

granulata (Jiabo, 1978, p.94, pl.6, figs.7–8) Mao Shaozhi et al., 1999, p.158. Holotype: Jiabo, 1978, pl.6, fig.7. Originally *Dinogymnium*, subsequently *Microdinium*, thirdly *Dinogymniopsis*, fourthly (and now) *Tetrachacysta*. Mao Shaozhi et al. (1999, p.158) attributed this species to Gao Ruiqi et al. (1992a), but clearly intended *Dinogymnium granulatum* Jiabo 1978 and gave a full citation for the correct basionym. Age: Early Tertiary.

?*keenei* Marshall, 1989, p.51–52, pl.7, figs.1–12; text-figs.15A–C. Holotype: Marshall, 1989, pl.7, figs.5–7; text-fig.15B; Fensome et al., 1996, figs.4–6,11 — p.2179. Questionable assignment: Marshall (1989, p.51). Age: Turonian–early Santonian.

magnusa (Liu Zhili and Zheng Yuefang in Liu Zhili et al., 1992, p.70–71, pl.10, fig.11; text-fig.4) He Chengquan et al., 2009, p.375. Holotype: Liu Zhili et al., 1992, pl.10, fig.11; text-fig.4. Originally *Horologinella*, subsequently (and now) *Tetrachacysta*. Age: Early Tertiary.

minuta (Zheng Yuefang and Liu Xuexian in Liu Zhili et al., 1992, p.70, pl.10, figs.9–10,12 — not text-fig.4) He Chengquan et al., 2009, p.376. Originally *Horologinella*, subsequently (and now) *Tetrachacysta*. Holotype: Liu Zhili et al., 1992, pl.10, fig.9. Age: Early Tertiary.

multispinosa (Xu Jinli et al., 1997, p.118, pl.22, figs.7–8) He Chengquan et al., 2009, p.376,671. Holotype: Xu Jinli et al., 1997, pl.22, fig.8. Originally *Delozonocysta* (name not validly published), subsequently (and now) *Tetrachacysta*. The name *Delozonocysta multispinosa* was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.671) validated the name by publishing an English diagnosis on proposing the transfer to *Tetrachacysta*. Age: middle-late Eocene.

parvita (Liu Zhili and Zheng Yuefang in Liu Zhili et al., 1992, p.67, pl.7, figs.26–28) He Chengquan et al., 2009, p.377. Holotype: Liu Zhili et al., 1992, pl.7, fig.26. Originally *Dinogymnium*, subsequently (and now) *Tetrachacysta*. Age: Early Tertiary.

spinosigibberosa (Brideaux and Fisher, 1976, p.22–24, pl.4, fig.9; pl.5, figs.1–16) Backhouse, 1988, p.110. Holotype: Brideaux and Fisher, 1976, pl.5, figs.1,5–8. Originally *Horologinella*, subsequently (and now) *Tetrachacysta*. Age: late Oxfordian–?Portlandian.

spinulosa (Gao Ruiqi et al., 1992a, p.19–20,26, pl.1, figs.7–8) Mao Shaozhi et al., 1999, p.158. Holotype: Gao Ruiqi et al., 1992a, pl.1, fig.7. Originally *Dinogymniopsis*, subsequently (and now) *Tetrachacysta*. Taxonomic junior synonym: *Dinogymnium velutinum*, according to He Chengquan et al. (2009, p.377). Age: Cenomanian.

tuberculata (Gao Ruiqi et al., 1992a, p.20,27, pl.1, figs.5–6) Mao Shaozhi et al., 1999, p.158–159. Holotype: Gao Ruiqi et al., 1992a, pl.1, fig.5. Originally *Dinogymniopsis*, subsequently (and now) *Tetrachacysta*. Taxonomic junior synonym: *Dinogymnium cavituberculatum*, according to He Chengquan et al. (2009, p.377). Age: Cenomanian.

TETRAMEROSPHAERA Willems, 1985, p.183. Emendation: Willems, 1988, p.452. Calcareous dinoflagellate genus (see Streng et al., 2004, p.483 and Elbrächter et al., 2008, p.1302). Type: Willems, 1985, pl.1, figs.1a–d, as *Tetramerosphaera lacrimula*.

**lacrimula* Willems, 1985, p.183–190, pl.1, figs.1a–d,2,3a–c; pl.2, figs.4–6,7a–c,8,9a–b; pl.3, figs.10–11,12a–b,13–14; pl.4, figs.15a–b,16a–b,17a–b,18a–c,19a–b,20a–c; text-fig.2. Holotype: Willems, 1985, pl.1, figs.1a–d. N.I.A. Age: late Maastrichtian.

"**rara*" Górká, 1965, p.307, pl.2, figs.6a–b. Holotype: Górká, 1965, pl.2, figs.6a–b. **NOW** *Gorkadinium*. Originally *Tetrasphaera* Górká (generic name illegitimate), subsequently (and now) *Gorkadinium*. Following I.C.N. Article 55.1, the species name *Tetrasphaera rara* is validly published even though the generic name *Tetrasphaera* Górká, 1965 is illegitimate. Age: early Kimmeridgian.

"**TETRASPHERA**" Górká, 1965, p.307. **Name illegitimate** — **senior homonym**: *Tetrasphaera* Popovsky, 1912. **Substitute name**: *Gorkadinium*. Type: Górká, 1965, pl.2, figs.6a–b, as *Tetrasphaera rara*.

TETRATROPIS Willems, 1990, p.242–244. Calcareous dinoflagellate genus (see Streng et al., 2004, p.483 and Elbrächter et al., 2008, p.1302, the latter noting that the cyst wall is pithonelloid and so a dinoflagellate affinity is

questionable). Emendations: Bison et al., 2004, p.127; Odin, 2009, p.185. Type: Willems, 1990, pl.1, figs.1a–d, as *Tetratropis corbula*.

**corbula* Willems, 1990, p.244–248, pl.1, figs.1a–d,2a–d; text-figs.1a–c. Holotype: Willems, 1990, pl.1, figs.1a–d. Hildebrand-Habel and Willems (1997, p.183) referred to this name as a new combination. N.I.A. Age: middle Coniacian.

medicamen Odin, 2009, p.185, pl.4, figs.57–64. Holotype: Odin, 2009, pl.4, fig.57–59. Odin (2009) did not provide an English or Latin description; however, the name *Tetratropis medicamen* can be considered validly published as Odin was using the I.C.Z.N. Age: late Campanian.

patina Willems, 1990, p.248–250, pl.2, figs.3a–b,4,5a–b,6a–b,7; text-figs.2a–c. Holotype: Willems, 1990, pl.2, figs.3a–b. Hildebrand-Habel and Willems (1997, p.183) referred to this name as a new combination. N.I.A. Age: middle Coniacian.

terrina Bison et al., 2004, p.128–132, pl.1, figs.1–6: pl.2, figs.1–6. Holotype: Bison et al., 2004, pl.1, figs.1,3. Age: late Campanian.

THALASSIPHORA Eisenack and Gocht, 1960, p.513. Emendations: Williams and Downie, 1966c, p.234; Gocht, 1968, p.153; Benedek and Gocht, 1981, p.59. Taxonomic senior synonym: *Disphaeria*, according to Norvick (1973, p.45) — however, Lentin and Williams (1985, p.353) retained *Thalassiphora*. Taxonomic junior synonyms: *Erikania*, according to Stover and Evitt (1978, p.194); *Subathua*, according to Lentin and Williams (1985, p.340) and Stover and Williams (1987, p.207). Type: Eisenack, 1954b, pl.12, fig.17, as *Pterospermopsis pelagica*.

angusta He Chengquan, 1991, p.124, pl.10, figs.4–6. Holotype: He Chengquan, 1991, pl.10, fig.6. Age: middle Eocene.

balcanica Balteş, 1971, p.6, pl.3, figs.3–7. Holotype: Balteş, 1971, pl.3, figs.3–7. Originally (and now) *Thalassiphora*, subsequently *Disphaeria*, thirdly *Subathua* (combination not validly published), fourthly *Spiniferites*. Taxonomic senior synonym: *Pterospermopsis* (as and now *Thalassiphora*) *pelagica*, according to Stover and Evitt (1978, p.194) — however, Sütő-Szentai (2000, p.162) retained *Thalassiphora* (as *Spiniferites*) *balcanica*. This species is herein retained in *Thalassiphora* as its morphology clearly accords with that genus rather than with *Spiniferites*. Age: early Pliocene.

bononiensis Corradini, 1973, p.185–186, pl.30, figs.5,6a–b,8a–b; pl.37, figs.5a–b; pl.38, fig.1; pl.39, fig.1. Holotype: Corradini, 1973, pl.30, figs.6a–b. Originally (and now) *Thalassiphora*, subsequently *Disphaeria*. Lentin and Williams (1985, p.353) retained this species in *Thalassiphora*. Age: Late Cretaceous–Paleocene.

chinensis He Chengquan, 1991, p.124–125, pl.11, figs.8–9. Holotype: He Chengquan, 1991, pl.11, figs.8–9. Age: early Eocene.

decrementa Islam, 1983b, p.343–344, pl.4, figs.4–5; text-fig.7. Holotype: Islam, 1983b, pl.4, figs.4–5; text-fig.7. Age: middle Eocene.

"*defloccata*" (Davey and Verdier, 1973, p.198, pl.3, figs.6,8) Lentin and Williams, 1976, p.85. Holotype: Davey and Verdier, 1973, pl.3, fig.8. **NOW** *Leberidocysta*. Originally *Hexagonifera*, subsequently *Thalassiphora*, thirdly (and now) *Leberidocysta*, fourthly *Disphaeria*, fifthly *Craspedodinium*. Age: late Albian–early Cenomanian.

delicata Williams and Downie, 1966c, p.235, pl.26, fig.8. Emendation: Eaton, 1976, p.287, as *Thalassiphora delicata*. Holotype: Williams and Downie, 1966c, pl.26, fig.8; Bujak et al., 1980, pl.10, fig.8. Originally (and now) *Thalassiphora*, subsequently *Disphaeria*. Lentin and Williams (1977b, p.54) retained this species in *Thalassiphora*. Age: early Eocene.

dominiqui Iakovleva and Heilmann-Clausen, 2010, p.211, pl.11, figs.1–4. Holotype: Iakovleva and Heilmann-Clausen, 2010, pl.11, figs.1–2. Age: late Ypresian.

dynamica (Morgenroth, 1966a, p.27–28, pl.6, figs.7–8) Stover and Evitt, 1978, p.195. Holotype: Morgenroth, 1966a, pl.6, fig.8. Originally *Erikania*, subsequently (and now) *Thalassiphora*. Taxonomic junior synonym: *Thalassiphora* (as and now *Disphaeria*) *munda*, according to Yun Hyesu (1981, p.70) — however, Lentin and Williams (1985, p.353) retained *Disphaeria munda*. Age: early Eocene.

elongata Vasilyeva in Vasilyeva et al., 2001, p.67–68, pl.1, figs.1–2,6 ex Vasilyeva in Andreeva-Grigorovich et al., 2011, p.31–32, pl.4, figs.1–8. Holotype: Andreeva-Grigorovich et al., 2011, pl.4, figs.1–5. This species was not validly published in Vasilyeva et al. (2001), since no English or Latin diagnosis was provided. We provisionally interpret the five images listed as the holotype to represent a single specimen that has been manipulated; if it is found that they represent more than one specimen, the name *Thalassiphora elongata* would remain to be validated. Age: late Eocene–early Oligocene.

"*eocenica*" Yu Jingxian, 1989, p.159, pl.43, figs.1,3,6; text-fig.3. Emendation: He Chengquan et al., 2009, p.645, as *Muratodinium eocenicum*. Holotype: Yu Jingxian, 1989, pl.43, fig.3. **NOW** *Muratodinium*. Originally *Thalassiphora*, subsequently (and now) *Muratodinium*. Age: Eocene.

fenestrata Liengjarern et al., 1980, p.489, pl.54, fig.1. Holotype: Liengjarern et al., 1980, pl.54, fig.1. Age: late Eocene–early Oligocene.

flammea Cookson and Eisenack, 1967b, p.252–253, pl.42, figs.1–5. Holotype: Cookson and Eisenack, 1967b, pl.42, fig.1. Originally (and now) *Thalassiphora*, subsequently *Disphaeria*. Lentin and Williams (1985, p.353) retained this species in *Thalassiphora*. Age: late Paleocene.

"*gonoperforata*" Strauss, 1991b, p.68. **Name not validly published**: no description or illustration. **NOW** *Cousteaudinium aubryae* subsp. *gonoperforatum*. Originally *Thalassiphora gonoperforata* (name not validly published), subsequently (and now) *Cousteaudinium aubryae* subsp. *gonoperforatum*. The name *Thalassiphora gonoperforata* was also not validly published in Rusbült and Strauss (1992, p.156) and Lund et al. (1993, caption to pl.1, fig.13). Age: middle Miocene.

graciliis Heilmann-Clausen and Van Simaëys, 2005, p.182,184, pl.12, figs.1–3; pl.14, fig.3. Holotype: Heilmann-Clausen and Van Simaëys, 2005, pl.12, fig.1. Age: middle-late Eocene.

indica Saxena and Sarkar, 2000, p.259, pl.1, figs.11–12. Holotype: Saxena and Sarkar, 2000, pl.1, fig.12. Age: middle Eocene.

inflata Heilmann-Clausen in Thomsen and Heilmann-Clausen, 1985, p.355,361, pl.7, figs.3–8; text-figs.11A–F. Holotype: Thomsen and Heilmann-Clausen, 1985, pl.7, figs.5–6; text-figs.11C–D. Originally (and now) *Thalassiphora*, subsequently *Flandrecysta* (name not validly published). Age: Danian–early Selandian.

jabliensis Khanna and Singh, 1981b, p.393, fig.3, nos.5–6; text-fig.7. Holotype: Khanna and Singh, 1981b, fig.3, no.5. Age: middle Eocene.

kacharica Vasilyeva in Vasilyeva et al., 2001, p.68, pl.2, figs.1–2 ex Vasilyeva in Andreeva-Grigorovich et al., 2011, p.32–33, pl.4, figs.9–12. Holotype: Vasilyeva et al., 2001, pl.2, fig.1; Andreeva-Grigorovich et al., 2011, pl.4, fig.9. This species was not validly published in Vasilyeva et al. (2001), since no English or Latin diagnosis was provided. Age: late Eocene–early Oligocene.

?*maxima* Jain and Millepied, 1975, p.146, pl.4, figs.53–54. Holotype: Jain and Millepied, 1975, pl.4, fig.54. Originally *Thalassiphora*, subsequently (and now) *Thalassiphora?*, thirdly *Disphaeria*. Lentin and Williams (1985, p.354) questionably retained the species in *Thalassiphora*. Questionable assignment: Stover and Evitt (1978, p.195). Age: Campanian–Maastrichtian.

microcysta Singh, 1983, p.153–154, pl.56, figs.7–8; pl.57, fig.1. Holotype: Singh, 1983, pl.56, fig.7. Age: early Cenomanian.

microperforata Heilmann-Clausen and Van Simaey, 2005, p.184,186, pl.13, figs.1–3; pl.14, fig.2. Holotype: Heilmann-Clausen and Van Simaey, 2005, pl.13, figs.1–2. Age: middle-late Eocene.

"*munda*" Davey and Verdier, 1973, p.196, pl.3, figs.5,7,10. Holotype: Davey and Verdier, 1973, pl.3, fig.10. **NOW** *Disphaeria*. Originally *Thalassiphora*, subsequently (and now) *Disphaeria*. Taxonomic senior synonym: *Erikania* (as and now *Thalassiphora*) *dynamica*, according to Yun Hyesu (1981, p.70) — however, Lentin and Williams (1985, p.353) retained *Thalassiphora* (as *Disphaeria*) *munda*. Age: late Albian–Cenomanian.

ovata He Chengquan, 1991, p.125, pl.11, figs.10–12. Holotype: He Chengquan, 1991, pl.11, fig.11. Age: Paleocene–early Eocene.

"*pansa*" Stover, 1977, p.78–79, pl.2, figs.32–38. Holotype: Stover, 1977, pl.2, figs.34–36. **NOW** *Saturnodinium*. Originally *Thalassiphora*?, subsequently (and now) *Saturnodinium*. Questionable assignment: Stover (1977, p.78). Age: middle-late Oligocene.

papulovii Vasilyeva in Vasilyeva et al., 2001, p.68, pl., figs.3–5,7 ex Vasilyeva in Andreeva-Grigorovich et al., 2011, p.33–34, pl.4, figs.13–16. Holotype: Vasilyeva et al., 2001, pl.2, fig.3; Andreeva-Grigorovich et al., 2011, pl.4, fig.13. This species was not validly published in Vasilyeva et al. (2001), since no English or Latin diagnosis was provided. Age: late Eocene–early Oligocene.

patula (Williams and Downie, 1966c, p.217, pl.24, figs.1–2; text-fig.58) Stover and Evitt, 1978, p.195. Holotype: Williams and Downie, 1966c, pl.24, fig.2; text-fig.58. Originally *Adnatosphaeridium*?, subsequently (and now) *Thalassiphora*. Taxonomic senior synonym: *Pterospermopsis* (as and now *Thalassiphora*) *pelagica*, according to Benedek and Gocht (1981, p.59) — however, Lentin and Williams (1985, p.354) retained *Thalassiphora patula*. Taxonomic junior synonym: *Subathua sahnii*, according to Stover and Williams (1987, p.207) and Lentin and Williams (1989, p.354). Bujak et al. (1980, p.36) also proposed this combination. Age: early Eocene.

**pelagica* (Eisenack, 1954b, p.71, pl.12, figs.17–18) Eisenack and Gocht, 1960, p.513–514. Emendation: Benedek and Gocht, 1981, p.59–61, as *Thalassiphora pelagica*. Holotype: Eisenack, 1954b, pl.12, fig.17. Originally *Pterospermopsis* (Appendix A), subsequently (and now) *Thalassiphora*, thirdly *Disphaeria*. Lentin and Williams (1977b, p.54) retained this species in *Thalassiphora*. Taxonomic junior synonyms: *Thalassiphora sueroi* and *Thalassiphora* (as *Disphaeria*) *balcanica*, both according to Stover and Evitt (1978, p.194) — however, Sütő-Szentai (2000, p.162) retained *Thalassiphora* (as *Spiniferites*) *balcanica*; *Pterocystidiopsis* (as *Thalassiphora*) *velata* and *Adnatosphaeridium* (as *Thalassiphora*) *patulum*, both according to Benedek and Gocht (1981, p.59) — however, Lentin and Williams (1985, p.354) retained *Thalassiphora patula* and Brinkhuis and Biffi (1993, p.179) retained *Pterocystidiopsis* (as and now *Thalassiphora*) *velata*; *Subathua sahnii*, according to Lentin and Williams (1985, p.340) — however, *Subathua sahnii* is now considered to be a taxonomic junior synonym of *Adnatosphaeridium* (as and now *Thalassiphora*) *patulum*; *Subathua spinosa*, according to Lentin and Williams (1985, p.340) — however, Stover and Williams (1987, p.207) retained *Subathua* (as *Thalassiphora*) *spinosa* (now *Thalassiphora simlaensis*). Age: late Eocene–early Oligocene.

"*petila*" Corradini, 1973, p.186, pl.31, figs.1–2. Emendation: Slimani, 1994, p.65, as *Wilsonisphaera petila*. Holotype: Corradini, 1973, pl.31, fig.2. **NOW** *Wilsonisphaera*. Originally *Thalassiphora*?, subsequently *Disphaeria*, thirdly (and now) *Wilsonisphaera*. Taxonomic junior synonym: *Glaphyrosphaera glabra*, according to Schiøler and Wilson (1995, p.511). Lentin and Williams (1985, p.354) questionably retained this species in *Thalassiphora*. Questionable assignment: Corradini (1973, p.186). Age: Senonian.

reticulata Morgenroth, 1966b, p.6–7, pl.2, figs.1–2. Holotype: Morgenroth, 1966b, pl.2, figs.1–2; Sarjeant et al., 1987, pl.1, fig.4. Originally (and now) *Thalassiphora*, subsequently *Disphaeria*. Lentin and Williams (1977b, p.54) retained this species in *Thalassiphora*. Age: early Oligocene.

robusta Smith and Harding, 2004, p.376–377, pl.5, figs.1–3,12. Holotype: Smith and Harding, 2004, pl.5, figs.1–2. Age: middle Volgian.

rota Schiøler, 2005, p.31–32, pl.5, figs.1–4; text-figs.7a–b. Holotype: Schiøler, 2005, pl.5, fig.1; text-fig.7a. Age: latest Aquitanian–earliest Burdigalian.

salvadorensis (Regali et al., 1974, p.290, pl.23, fig.1) Lentin and Williams, 1981, p.279. Holotype: Regali et al., 1974, pl.23, fig.1. Originally *Hystriochosphaeridium*, subsequently (and now) *Thalassiphora*. Age: Eocene.

simlaensis Lentin and Williams, 1993, p.644. Holotype: Khanna and Singh, 1980, pl.1, fig.10. Originally *Subathua spinosa*, subsequently *Thalassiphora spinosa* (combination illegitimate), thirdly (and now) *Thalassiphora simlaensis*. Substitute name for *Thalassiphora spinosa* (Khanna and Singh, 1980, p.309, pl.1, figs.10–12; text-fig.3) Stover and Williams, 1987, p.207 (an illegitimate name). Taxonomic senior synonym: *Pterospermopsis* (as and now *Thalassiphora*) *pelagica*, according to Lentin and Williams (1985, p.340) — however, Stover and Williams (1987, p.207) retained *Thalassiphora simlaensis* (as *Thalassiphora spinosa*). Nomenclatural junior synonym: *Muratodinium subathuensis*, since in proposing this species Sarkar (2012, p.174) included the holotype of *Thalassiphora simlaensis* (= *Subathua spinosa*) in synonymy with *Muratodinium subathuensis*. Age: Eocene.

?*spinifera* (Cookson and Eisenack, 1965a, p.124–125, pl.14, fig.10) Stover and Evitt, 1978, p.195. Holotype: Cookson and Eisenack, 1965a, pl.14, fig.10. Originally *Stephodinium*, subsequently (and now) *Thalassiphora*?. Questionable assignment: Stover and Evitt (1978, p.195). Age: late Eocene.

"?*spinosa*" (Clarke and Verdier, 1967, p.77–78, pl.17, figs.1–2; text-fig.31) Foucher, 1975, caption to pl.1, figs.7–8. Holotype: Clarke and Verdier, 1967, pl.17, fig.1. **NOW** *Whitecliffia*. Originally *Pterospermopsis* (Appendix A), subsequently *Pterospermella* (Appendix A), thirdly *Thalassiphora*?, fourthly (and now) *Whitecliffia*. Questionable assignment: Foucher (1975, caption to pl.1). Taxonomic junior synonym: *Hexagonifera perforata* (name not validly published), according to Slimani (2001a, p.194). Junior homonym: *Thalassiphora spinosa* (Khanna and Singh, 1980) Stover and Williams, 1987. Foucher (1976, caption to pl.2, fig.3 — p.218) also proposed this combination. Age: Santonian.

"*spinosa*" (Khanna and Singh, 1980, p.309, pl.1, figs.10–12; text-fig.3) Stover and Williams, 1987, p.207. Holotype: Khanna and Singh, 1980, pl.1, fig.10. **Combination illegitimate — senior homonym:** *Thalassiphora spinosa* (Clarke and Verdier, 1967) Foucher, 1975. **Substitute name:** *Thalassiphora simlaensis*. Originally *Subathua spinosa*, subsequently *Thalassiphora spinosa* (combination illegitimate), thirdly (and now) *Thalassiphora simlaensis*. Taxonomic senior synonym: *Pterospermopsis* (as and now *Thalassiphora*) *pelagica*, according to Lentin and Williams (1985, p.340) — however, Stover and Williams (1987, p.207) retained *Subathua* (as *Thalassiphora*) *spinosa* (now *Thalassiphora simlaensis*). Nomenclatural junior synonym: *Muratodinium subathuensis*, since in proposing this species Sarkar (2012, p.174) included the holotype of *Thalassiphora simlaensis* (= *Subathua spinosa*) in synonymy with *Muratodinium subathuensis*. Age: Eocene.

succincta Morgenroth, 1966b, p.7–8, pl.2, figs.7–9. Holotype: Morgenroth, 1966b, pl.2, fig.7. Originally (and now) *Thalassiphora*, subsequently *Disphaeria*. Lentin and Williams (1977b, p.54) retained this species in *Thalassiphora*. Age: early Oligocene.

"*sueroi*" Pöthe de Baldis, 1966, p.224–225, pl.2, fig.d. Holotype: Pöthe de Baldis, 1966, pl.2, fig.d. Originally *Thalassiphora*, subsequently *Disphaeria*. Lentin and Williams (1985, p.355) retained this species in *Thalassiphora*. **Taxonomic senior synonym:** *Pterospermopsis* (as and now *Thalassiphora*) *pelagica*, according to Stover and Evitt (1978, p.194). Age: Early Tertiary.

velata (Deflandre and Cookson, 1955, p.291, pl.8, fig.8) Eisenack and Gocht, 1960, p.514–515. Holotype: Deflandre and Cookson, 1955, pl.8, fig.8. Originally *Pterocystidiopsis* (Appendix A), subsequently (and now) *Thalassiphora*, thirdly *Disphaeria*. Brinkhuis and Biffi (1993, p.179) retained this species in *Thalassiphora*. Taxonomic senior synonym: *Pterospermopsis* (as and now *Thalassiphora*) *pelagica*, according to Benedek and Gocht (1981, p.59) and Sarjeant (1981, p.117) — however, Brinkhuis and Biffi (1993, p.179) retained *Thalassiphora velata*. Age: Early Tertiary.

"**THULEDINIUM**" Pocock and Sarjeant, 1972, p.352. **Taxonomic senior synonym:** *Mendicodinium*, according to Davey (1979c, p.64). Pocock and Sarjeant (1972, p.352) considered *Thuledinium* to be an acritarch. Type: Pocock and Sarjeant, 1972, pl.2, fig.1; text-fig.2, as *Thuledinium groenlandicum*.

"**groenlandicum*" Pocock and Sarjeant, 1972, p.352–354, pl.2, figs.1–9; text-fig.2. Holotype: Pocock and Sarjeant, 1972, pl.2, fig.1; text-fig.2. **NOW** *Mendicodinium*. Originally *Thuledinium*, subsequently (and now) *Mendicodinium*. Taxonomic junior synonym: *Mendicodinium woodhamense*, according to Kunz (1990, p.38). Age: middle Callovian.

TIANJINELLA He Chengquan and Sun Xuekun, 1996, p.384–385. Taxonomic junior synonym: *Delozonocysta*, according to He Chengquan et al. (2009, p.126). Type: He Chengquan and Sun Xuekun, 1996, pl.1, fig.1, as *Tianjinella elliptica*.

brevispinosa (Xu Jinli et al., 1997, p.116–117, 153, pl.8, figs.12, 13a–b, 14a–b, 15a–b, 16–17; pl.9, figs.2, 8; text-fig.12) He Chengquan et al. 2009, p.127. Originally *Delozonocysta*, subsequently (and now) *Tianjinella*. Holotype: Xu Jinli et al., 1997, pl.8, figs.13a–b. Age: middle-late Eocene.

displicata Xu Jinli et al., 1997, p.117, pl.9, fig.7 ex He Chengquan et al., 2009, p.127, 671. Holotype: Xu Jinli et al., 1997, pl.9, fig.7. Originally *Delozonocysta* (name not validly published), subsequently (and now) *Tianjinella*. The name *Delozonocysta displicata* was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.671) validated the name by publishing an English diagnosis on proposing the transfer to *Tianjinella*. Age: middle-late Eocene.

**elliptica* He Chengquan and Sun Xuekun, 1996, p.385, pl.1, figs.1–9; pl.2, figs.1–6; text-fig.3. Holotype: He Chengquan and Sun Xuekun, 1996, pl.1, fig.1. Age: Eocene.

longispinosa Xu Jinli et al., 1997, p.117–118, pl.9, figs.1a–c, 3a–b, 4–6 ex He Chengquan et al., 2009, p.128, 672. Holotype: Xu Jinli et al., 1997, pl.9, figs.1a–c. Originally *Delozonocysta* (name not validly published), subsequently (and now) *Tianjinella*. The name *Delozonocysta longispinosa* was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.672) validated the name by publishing an English diagnosis on proposing the transfer to *Tianjinella*. Age: middle-late Eocene.

ovata (Jiabo, 1978, p.94, pl.6, fig.1) He Chengquan and Sun Xuekun, 1996, p.385. Holotype: Jiabo, 1978, pl.6, fig.1. Originally *Dinogymnium ovatum*, subsequently *Microdinium jiaboense*, thirdly (and now) *Tianjinella ovata*. Age: Early Tertiary.

"**TITYROSPHAERIDIUM**" Sarjeant, 1981, p.120. **Taxonomic senior synonym:** *Cordosphaeridium*, according to Lentin and Williams (1985, p.355) and Edwards (2001, p.G19). Type: Brosius, 1963, pl.6, fig.1, as *Hystrichosphaeridium cantharellus*.

"**biarmatum*" (Morgenroth, 1966a, p.21, pl.4, figs.6–7) Sarjeant, 1981, p.121. Holotype: Morgenroth, 1966a, pl.4, figs.6–7. **NOW** *Cordosphaeridium*. Originally (and now) *Cordosphaeridium*, subsequently *Tityrosphaeridium*?. Questionable assignment: Sarjeant (1981, p.121). Age: early Eocene.

"**callosum*" (Morgenroth, 1966a, p.21, pl.4, figs.8–10) Sarjeant, 1981, p.121. Holotype: Morgenroth, 1966a, pl.4, figs.9–10. **NOW** *Cordosphaeridium*?. Originally *Cordosphaeridium*, subsequently (and now) *Cordosphaeridium*?, thirdly *Tityrosphaeridium*?. Questionable assignment: Sarjeant (1981, p.121). Age: early Eocene.

"**cantharellus*" (Brosius, 1963, p.40–41, pl.6, fig.1; text-fig.2, nos.11a–c) Sarjeant, 1981, p.120. Holotype: Brosius, 1963, pl.6, fig.1; Fensome et al., 1993a, fig.1 — p.1021. **NOW** *Cordosphaeridium*. Originally *Hystrichosphaeridium*, subsequently (and now) *Cordosphaeridium*, thirdly *Tityrosphaeridium*. N.I.A. Age: late Oligocene.

"**exilimum*" (Davey and Williams, 1966b, p.87, pl.11, fig.2) Jain and Garg, 1986a, p.120. Holotype: Davey and Williams, 1966b, pl.11, fig.2; Bujak et al., 1980, pl.7, figs.4–5. Originally *Cordosphaeridium*, subsequently *Hystrichosphaerina*?, thirdly *Tityrosphaeridium*?. Questionable assignment: Jain and Garg (1986a, p.120). **Taxonomic senior synonym:** *Cordosphaeridium fibrospinum*, according to Fensome et al. (2009, p.23).

Taxonomic junior synonym: *Achomosphaera* (subsequently *Cordosphaeridium*) *valianta*, according to Jain (1982, p.52). Age: early Eocene.

"*fibrospinosum*" (Davey and Williams, 1966b, p.86, pl.5, fig.5) Jain and Garg, 1986a, p.121. Emendation: Davey, 1969c, p.36, as a revised diagnosis for *Cordosphaeridium fibrospinosum*. Holotype: Davey and Williams, 1966b, pl.5, fig.5; Bujak et al., 1980, pl.7, figs.3,6. **NOW** *Cordosphaeridium*. Originally (and now) *Cordosphaeridium*, subsequently *Emmetrocyta*?, thirdly *Tityrosphaeridium*?. Questionable assignment: Jain and Garg (1986a, p.121). Taxonomic junior synonyms: *Cordosphaeridium exilimurum* and *Achomosphaera* (subsequently *Cordosphaeridium*) *valianta*, both according to Fensome et al. (2009, p.23). Age: early Eocene.

"*funiculatum*" (Morgenroth, 1966a, p.22–23, pl.6, figs.2–3) Sarjeant, 1981, p.121. Emendation: Brinkhuis, 1992, p.97, as *Cordosphaeridium funiculatum*. Holotype: Morgenroth, 1966a, pl.6, fig.2. **NOW** *Cordosphaeridium*. Originally (and now) *Cordosphaeridium*, subsequently *Tityrosphaeridium*?. Questionable assignment: Sarjeant (1981, p.121). Age: early Eocene.

"*gracile*" (Eisenack, 1954b, p.66, pl.8, fig.17; pl.10, figs.3–8; pl.12, figs.7,21) Sarjeant, 1981, p.121. Emendation: Davey and Williams, 1966b, p.84–85, as *Cordosphaeridium gracile*. Holotype: Eisenack, 1954b, pl.10, fig.5. **NOW** *Cordosphaeridium gracile*. Originally *Hystrichosphaeridium inodes* subsp. *gracile*, subsequently *Cordosphaeridium inodes* subsp. *gracile*, thirdly (and now) *Cordosphaeridium gracile*, fourthly *Tityrosphaeridium gracile*. Age: Oligocene.

"*latispinosum*" (Davey and Williams, 1966b, p.88, pl.5, fig.8) Sarjeant, 1981, p.121. Holotype: Davey and Williams, 1966b, pl.5, fig.8; Bujak et al., 1980, pl.8, figs.7–9. **NOW** *Achilleodinium*. Originally *Cordosphaeridium*, subsequently (and now) *Achilleodinium*, thirdly *Tityrosphaeridium*?. Questionable assignment: Sarjeant (1981, p.121). Age: early Eocene.

"*porosispinum*" (Davey, 1982b, p.29–30, pl.10, figs.8–12) Norris and Jux, 1984, p.160. Holotype: Davey, 1982b, pl.10, figs.10–12. **NOW** *Kleithriasphaeridium*. Originally (and now) *Kleithriasphaeridium*, subsequently *Tityrosphaeridium*. Age: late Kimmeridgian–late Ryazanian.

"*senegalense*" (Jain and Millepied, 1975, p.149, pl.5, fig.68) Sarjeant, 1981, p.121. Holotype: Jain and Millepied, 1975, pl.5, fig.68. **NOW** *Cordosphaeridium*. Originally (and now) *Cordosphaeridium*, subsequently *Tityrosphaeridium*?. Questionable assignment: Sarjeant (1981, p.121). Age: Campanian–Maastrichtian.

"*tenuistriatum*" (Heisecke, 1970, p.245, pl.7, fig.1; pl.12, figs.3–4) Sarjeant, 1981, p.121. Emendation: Quattrocchio and Sarjeant (1996, p.118), as *Tityrosphaeridium tenuistriatum*. Holotype: Heisecke, 1970, pl.7, fig.1; pl.12, figs.3–4. **NOW** *Cordosphaeridium*?. Originally *Cordosphaeridium*, subsequently (and now) *Cordosphaeridium*?, thirdly *Tityrosphaeridium*?, fourthly *Tityrosphaeridium*. Questionable assignment: Sarjeant (1981, p.121) — however, Quattrocchio and Sarjeant (1996, p.118) retained this species in *Tityrosphaeridium* without question. Quattrocchio and Sarjeant (1996, p.118) also proposed this combination. Age: early Paleocene.

"*truncigerum*" (Deflandre, 1937b, p.71–72, pl.13 [al. pl.10], figs.6–7) Sarjeant, 1981, p.121. Holotype: Deflandre, 1937b, pl.13 (al. pl.10), fig.6. **NOW** *Raetiaedinium*. Originally *Hystrichosphaeridium*, subsequently *Litosphaeridium*?, thirdly *Cordosphaeridium*, fourthly *Exochosphaeridium*, fifthly *Pervosphaeridium*, sixthly *Tityrosphaeridium*?, seventhly *Florentinia*, eighthly *Pervosphaeridium*?, ninthly (and now) *Raetiaedinium*. Questionable assignment: Sarjeant (1981, p.121). Taxonomic senior synonym: *Xanthidium* (now *Hystrichokolpoma*) *crassipes*, by implication in Yun Hyesu (1981, p.27) who considered *Tityrosphaeridium* (as *Pervosphaeridium*) *truncigerum* to be the senior name — however, Lentin and Williams (1985, p.282) retained *Tityrosphaeridium* (as *Pervosphaeridium*) *truncigerum*. Taxonomic junior synonym: *Laticavodinium latispinosum* (name not validly published), according to Slimani (2001a, p.194). Age: Senonian.

"**TOENISBERGIA**" Benedek et al., 1982, p.279. **Taxonomic senior synonym:** *Pentadinium*, according to Lentin and Williams (1985, p.356; 1993, p.498). Type: Benedek, 1972, pl.6, figs.12a–b, as *Pentadinium taeniagerum* subsp. *imaginatum*.

"**imaginata*" (Benedek, 1972, p.45–46, pl.6, figs.12a–b; pl.6, fig.9) Benedek et al., 1982, p.279,281–283. Emendation: Benedek et al., 1982, p.279,281, as *Toenisbergia imaginata*. Holotype: Benedek, 1972, pl.6, figs.12a–b; Eisenack and Kjellström, 1975a, page labelled "nach S.646"; Benedek et al., 1982, figs.7A,C,E,8C–D (not 8A–B); Fensome et al., 1995, figs.1–4 — p.1557. **NOW** *Pentadinium taeniagerum* subsp. *imaginatum*. Originally (and now) *Pentadinium taeniagerum* subsp. *imaginatum*, subsequently *Toenisbergia imaginata*. Taxonomic junior synonym (at specific rank): *Pentadinium laticinctum* subsp. *imaginatum*, according to Benedek et al. (1982, p.279–283) — however, Lentin and Williams (1985, p.279) retained *Pentadinium laticinctum* subsp. *imaginatum*. Age: late Oligocene.

"**TOOLONGIA**" Cookson and Eisenack, 1960a, p.14. **Taxonomic senior synonym:** *Dinopterygium*, according to Stover and Evitt (1978, p.205). Type: Cookson and Eisenack, 1960a, pl.3, fig.11, as *Toolongia medusoides*.

"**medusoides*" Cookson and Eisenack, 1960a, p.14, pl.3, figs.11–12. Holotype: Cookson and Eisenack, 1960a, pl.3, fig.11. Originally *Toolongia*, subsequently *Dinopterygium*. **Taxonomic senior synonym:** *Dinopterygium cladoides*, according to Yun Hyesu (1981, p.71). Age: Senonian.

TRABECULIDIUM Duxbury, 1980, p.132–133. Taxonomic senior synonym: *Nematosphaeropsis*, according to Stover and Williams (1987, p.217) and Jan du Chêne (1988, p.162) — however, Sarjeant (1989, p.93) retained *Trabeculidium*. Type: Duxbury, 1980, pl.9, fig.2, as *Trabeculidium quinquetrum*.

elegantulum (Drugg, 1967, p.25, pl.4, fig.17) Duxbury, 1980, p.134. Holotype: Drugg, 1967, pl.4, fig.17. Originally *Cannosphaeropsis*, subsequently *Cannosphaeropsis?*, thirdly (and now) *Trabeculidium*, fourthly *Nematosphaeropsis*. Lentin and Williams (1993, p.649) retained this species in *Trabeculidium*. Age: Danian.

pusulosum (Morgenroth, 1966b, p.8, pl.2, fig.6) Duxbury, 1980, p.134. Holotype: Morgenroth, 1966b, pl.2, fig.6; Sarjeant et al., 1987, pl.1, fig.8. Originally *Cannosphaeropsis*, subsequently *Nematosphaeropsis*, thirdly (and now) *Trabeculidium*. Lentin and Williams (1993, p.649) retained this species in *Trabeculidium*. Age: early Oligocene.

**quinquetrum* Duxbury, 1980, p.133–134, pl.9, figs.1–2,5. Holotype: Duxbury, 1980, pl.9, fig.2; Fensome et al., 1995, fig.2 — p.1729. Originally (and now) *Trabeculidium*, subsequently *Nematosphaeropsis*. Lentin and Williams (1993, p.649) retained this species in *Trabeculidium*. Age: middle Barremian.

TRIBLASTULA Wetzel, 1933b, p.54. Emendations: Morgenroth, 1966a, p.15; Eisenack, 1969a, p.107. Taxonomic junior synonyms: *Rottnestia*, according to Yun Hyesu (1981, p.22) — however, Jan du Chêne et al. (1986a, p.309) retained *Rottnestia*; *Hystrichosphaeropsis*, according to Yun Hyesu (1981, p.22) — however, Jan du Chêne et al. (1986a, p.158) retained *Hystrichosphaeropsis*. Sarjeant (1985b, p.138) considered the "Modified Description" of Stover and Evitt (1978, p.195–196) to represent an emendation of *Triblastula*. This name was not validly published in Wetzel (1932, p.136), since that author did not designate a type, a requirement at that time under the I.C.Z.N. Type: Wetzel, 1933b, pl.6, fig.5, as *Triblastula utinensis*.

"*borussica*" (Eisenack, 1954b, p.62, pl.9, figs.5a–b,6–7) Morgenroth, 1966a, p.15–16. Holotype: Eisenack, 1954b, pl.9, fig.5a–b. **NOW** *Rottnestia*. Originally *Hystrichosphaera*, subsequently (and now) *Rottnestia*, thirdly *Triblastula*, fourthly *Hystrichosphaeropsis* (combination not validly published). Taxonomic junior synonym: *Hystrichosphaeropsis jubata* (name not validly published), according to May (1980, p.24). Age: early Oligocene.

"*fibrata*" Wilson in Slimani, 1994, p.61. **Name not validly published:** no description or illustration. **Taxonomic senior synonym:** *Triblastula wilsonii*, according to Slimani (2001a, p.194).

"*nuda*" Wetzel, 1961, p.340, pl.2, fig.2. Holotype: Wetzel, 1961, pl.2, fig.2. Originally *Triblastula*, subsequently *Hystrichosphaeropsis*. **Taxonomic senior synonym:** *Triblastula* (as and now *Hystrichosphaeropsis*) *quasicribrata*, according to Marheinecke (1992, p.44). Age: ?Late Cretaceous (erratic).

"quasicribrata" Wetzel, 1961, p.340, pl.2, fig.3. Holotype: Wetzel, 1961, pl.2, fig.3; Sarjeant, 1985b, pl.2, fig.1; Jan du Chêne et al., 1986a, pl.46, figs.9–10; Dietz et al., 1999, fig.10, no.9. **NOW** *Hystrichosphaeropsis*. Originally *Triblastula*, subsequently (and now) *Hystrichosphaeropsis*. Taxonomic junior synonyms: *Triblastula nuda* and *Triblastula tubulata*, both according to Marheinecke (1992, p.44); (at specific rank) *Deflandrea* (as *Amphidiadema*) *rectangularis* subsp. *samuelsonii*, according to Gocht (1976, p.322). Contrary to the opinion of Stover and Evitt (1978, p.94), Gocht (1976, p.322) did not consider this species to be the taxonomic senior synonym of *Amphidiadema rectangularis*, but only the specimen identified by Kjellström (1973, p.17). Age: ?Late Cretaceous (erratic).

"tubulata" Wetzel, 1961, p.340, pl.2, fig.4. Holotype: Wetzel, 1961, pl.2, fig.4. Originally *Triblastula*, subsequently *Hystrichosphaeropsis*. **Taxonomic senior synonym:** *Triblastula* (as and now *Hystrichosphaeropsis*) *quasicribrata*, according to Marheinecke (1992, p.44). Age: ?Late Cretaceous (erratic).

***utinensis** Wetzel, 1933b, p.54, pl.6, figs.5–6. Emendation: Sarjeant, 1985b, p.138–139. Holotype: Wetzel, 1933b, pl.6, fig.5; lost according to Sarjeant (1985b, p.139). Neotype: Wetzel, 1961, pl.2, fig.1, designated by Sarjeant (1985b, p.139). This name was not validly published in Wetzel (1932, p.136), since that author did not designate a holotype, a requirement at that time under the I.C.Z.N. Age: Cretaceous (erratic).

wilsonii Slimani, 1994, p.60–62, pl.9, fig.3; pl.10, figs.10–12. Holotype: Slimani, 1994, pl.10, figs.10–11. Taxonomic junior synonym: *Triblastula fibrata* (name not validly published), according to Slimani (2001a, p.194). Age: latest early to earliest late Maastrichtian.

TRICHODINIUM Eisenack and Cookson, 1960, p.5. Emendation: Clarke and Verdier, 1967, p.18–19. Type: Eisenack and Cookson, 1960, pl.2, fig.4, as *Trichodinium pellitum*.

australe (Burger, 1980b, p.268–269, figs.5C–D,6A) Fauconnier in Fauconnier and Masure, 2004, p.116. Emendation: Fauconnier in Fauconnier and Masure, 2004, p.116, as *Trichodinium australe*. Holotype: Burger, 1980b, fig.5D; Fauconnier and Masure, 2004, pl.15, figs.3–5. Originally *Cleistosphaeridium*, subsequently *Circulodinium*, thirdly (and now) *Trichodinium*. Age: Neocomian.

"bifurcatum" Jain and Millepied, 1975, p.140–141, pl.1, figs.14–16. Holotype: Jain and Millepied, 1975, pl.1, fig.14; Jan du Chêne et al., 1986a, pl.121, figs.6–8. **NOW** *Trichodinium castanea* subsp. *bifurcatum*. Originally *Trichodinium bifurcatum*, subsequently (and now) *Trichodinium castanea* subsp. *bifurcatum*. Age: Maastrichtian.

bisculpturum Beilstein, 1994, p.155, pl.23, figs.9–10. Holotype: Beilstein, 1994, pl.23, fig.9. Age: Campanian–Maastrichtian.

boltenhagenii Masure in Fauconnier and Masure, 2004, p.116. Emendation: Masure in Fauconnier and Masure, 2004, p.116–117, as *Trichodinium boltenhagenii*. Holotype: Boltenhagen, 1977, pl.7, figs.1a–b; Fauconnier and Masure, 2004, pl.15, fig.6. Originally *Chytroeisphaeridia spinosa*, subsequently *Cleistosphaeridium? spinosum*, thirdly *Circulodinium spinosum*, fourthly (and now) *Trichodinium boltenhagenii*. Substitute name for *Chytroeisphaeridia spinosa* Boltenhagen, 1977, p.54–55, pl.7, figs.1a–b,2,3a–b,4a–b,5a–b, since the name *Trichodinium spinosum* is preoccupied. Age: Cenomanian–Turonian.

brevispinosum Khowaja-Ateequzaman, 1993, p.131–132, pl.1, figs.1–3. Holotype: Khowaja-Ateequzaman, 1993, pl.1, figs.1–3. Age: early Albian.

calvum Harding, 1990b, p.37, pl.19, figs.7–12 ex Harding in Williams et al. 1998, p.614. Holotype: Harding, 1990b, pl.19, fig.7. This name was not validly published in Harding (1990b) since the lodgement of the holotype was not specified (I.C.N. Article 40.7). Age: late Barremian.

"capillatum" (Courtinat in Courtinat and Gaillard, 1980, p.75, pl.2, fig.15) Courtinat, 1989, p.208. Holotype: Courtinat and Gaillard, 1980, pl.2, fig. 15. **NOW** *Filisphaeridium? courtinatii* (Appendix A). Originally *Comasphaeridium capillatum* (Appendix A), subsequently *Trichodinium capillatum*, thirdly (and now) *Filisphaeridium? courtinatii* (Appendix A). Age: late Oxfordian.

castanea Deflandre, 1935, p.229, pl.6, fig.8 ex Clarke and Verdier, 1967, p.19–20. Holotype: Deflandre, 1935, pl.6, fig.8; Deflandre, 1936b, pl.6, fig.1; Jan du Chêne et al., 1986a, pl.122, figs.9–10. Originally *Palaeoperidinium* (name not validly published), subsequently (and now) *Trichodinium*. Taxonomic senior synonyms: *Apteodinium* (as and now *Trichodinium*) *ciliatum* and *Trichodinium intermedium*, both by implication in Clarke and Verdier (1967, p.19), who believed *Trichodinium castanea* to be the senior name — however, subsequent workers have retained the three species (e.g. see Morgan, 1980, p.33; Harding, 1990b, p.38). A full description of this species was given in Deflandre (1936b, p.177–178). The name *Palaeoperidinium castanea* was not validly published in Deflandre (1935) since the generic name *Palaeoperidinium* was not validly published until 1967. N.I.A. Age: ?Senonian (erratic).

subsp. **bifurcatum** (Jain and Millepied, 1975, p.140, pl.1, figs.14–16) Schrank, 1987, p.263. Holotype: Jain and Millepied, 1975, pl.1, fig.14; Jan du Chêne et al., 1986a, pl.121, figs.6–8. Originally *Trichodinium bifurcatum*, subsequently (and now) *Trichodinium castanea* subsp. *bifurcatum*. Age: Maastrichtian.

subsp. **castanea**. Autonym. Holotype: Deflandre, 1935, pl.6, fig.8; Deflandre 1936b, pl.6, fig.1; Jan du Chêne et al., 1986a, pl.122, figs.9–10. N.I.A.

cerciatum He Chengquan, 1991, p.120–121, pl.21, fig.17. Holotype: He Chengquan, 1991, pl.21, fig.17. Age: Paleocene.

?**chilense** Troncoso and Doubinger, 1980, p.96–97, pl.1, fig.14. Holotype: Troncoso and Doubinger, 1980, pl.1, fig.14. Originally *Trichodinium*, subsequently (and now) *Trichodinium?*. Questionable assignment: Jan du Chêne et al. (1986a, p.369). Age: Maastrichtian–Danian.

ciliatum (Gocht, 1959, p.65, pl.8, figs.5–6) Eisenack and Klement, 1964, p.811. Holotype: Gocht, 1959, pl.8, fig.5; Jan du Chêne et al., 1986a, pl.121, figs.9–13. Originally *Apteodinium*, subsequently (and now) *Trichodinium*. Taxonomic junior synonym: *Trichodinium castanea*, by implication in Clarke and Verdier (1967, p.19), who believed *Trichodinium castanea* to be the senior name — however, Harding (1990b, p.38) retained the two species. Age: late Hauterivian.

"**delicatum**" Davey, 1975, p.156–157, pl.2, figs.8–9,11–12. Holotype: Davey, 1975, pl.2, fig.8. **NOW** *Apteodinium*. Originally *Trichodinium*, subsequently (and now) *Apteodinium*. Age: Senonian, ?Campanian.

discus Harding, 1990b, p.38, pl.18, figs.7–13 ex Harding in Williams et al. 1998, p.615. Holotype: Harding, 1990b, pl.18, fig.7. This name was not validly published in Harding (1990b) since the lodgement of the holotype was not specified (I.C.N. Article 40.7). N.I.A. Age: early Barremian.

eisenackii Burger, 1980a, p.81, pl.37, figs.1,4. Holotype: Burger, 1980a, pl.37, fig.1. Age: Aptian.

erinaceoides Davies, 1983, p.21–22, pl.6, figs.6–15; text-fig.17. Holotype: Davies, 1983, pl.6, figs.6–7. Age: late Tithonian–early Valanginian.

fusifforme He Chengquan, 1991, p.121, pl.21, fig.3. Holotype: He Chengquan, 1991, pl.21, fig.3. Age: early Eocene.

hirsutum Cookson, 1965b, p.139, pl.25, figs.5–13. Holotype: Cookson, 1965b, pl.25, figs.5–7. Age: Paleocene.

intermedium Eisenack and Cookson, 1960, p.6, pl.2, figs.5–6. Holotype: Eisenack and Cookson, 1960, pl.2, fig.5; Jan du Chêne et al., 1986a, pl.120, fig.1. Taxonomic junior synonym: *Trichodinium castanea*, by implication in Clarke and Verdier (1967, p.19), who believed *Trichodinium castanea* to be the senior name — however, Morgan (1980, p.33) retained the two species. Age: Aptian–early Albian.

jainii Khowaja-Ateequzzaman, 1993, p.132,134, pl.1, figs.8–10. Holotype: Khowaja-Ateequzzaman, 1993, pl.1, figs.8–10. Age: early Albian.

"**magnum**" Jain, 1977b, p.175–176, pl.4, figs.40–42. Holotype: Jain, 1977b, pl.4, figs.41–42; Jan du Chêne et al., 1986a, pl.122, fig.8. **NOW** *Cribroperidinium*. Originally *Trichodinium*, subsequently *Acanthaulax*, thirdly (and now) *Cribroperidinium*. Age: early Albian.

minutum Khowaja-Ateequzzaman, 1993, p.134–135, pl.1, figs.4–7. Holotype: Khowaja-Ateequzzaman, 1993, pl.1, figs.4–7. Age: early Albian.

"**paucispinum**" Eisenack and Cookson, 1960, p.5–6, pl.2, fig.7. Emendation: Jan du Chêne et al., 1986a, p.369, as *Pervosphaeridium paucispinum*. Holotype: Eisenack and Cookson, 1960, pl.2, fig.7; Jan du Chêne et al., 1986a, pl.122, fig.13. **NOW** *Pervosphaeridium*. Originally *Trichodinium*, subsequently *Occisucysta*, thirdly (and now) *Pervosphaeridium*. Age: Albian.

***pellitum** Eisenack and Cookson, 1960, p.5, pl.2, fig.4. Holotype: Eisenack and Cookson, 1960, pl.2, fig.4; Jan du Chêne et al., 1986a, pl.120, fig.4. Age: Aptian.

piaseckii Bailey et al., 1997, p.239,241, figs.3g–k. Holotype: Bailey et al., 1997, fig.3h. Age: late Kimmeridgian.

?**rhomboidale** Górká, 1965, p.301–302, pl.1, figs.6a–b ex Sarjeant, 1967b, p.255–256. Holotype: Górká, 1965, pl.1, figs.6a–b; Jan du Chêne et al., 1986a, pl.121, figs.14–15. Originally *Palaeoperidinium* (name not validly published), subsequently (and now) *Trichodinium*?. Questionable assignment: Sarjeant (1967b, p.256). The name *Palaeoperidinium rhomboidale* was not validly published in Górká (1965) since the generic name *Palaeoperidinium* was not validly published until 1967. Williams et al. (1998, p.616) accepted Sarjeant's (1967b) indirect reference to Górká (1965) as indication of a type (I.C.N. Article 40.3). Lentin and Williams (1976, p.111) also proposed this name, as a new combination. Age: early Kimmeridgian.

scarburghense (Sarjeant, 1964b, p.472–473) Williams et al., 1993, p.57. Holotype: Sarjeant, 1961a, pl.13, fig.13; text-fig.5; Jan du Chêne et al., 1986a, pl.3, figs.1–2. Originally *Gonyaulax areolata* (name illegitimate; Appendix B), subsequently *Gonyaulacysta scarburghensis*, thirdly *Gonyaulacysta areolata* (combination illegitimate), fourthly *Acanthaulax areolata* (combination illegitimate), fifthly *Acanthaulax scarburghensis*, sixthly *Liesbergia scarburghensis*, seventhly (and now) *Trichodinium scarburghense*. *Gonyaulacysta scarburghensis* is the substitute name for *Gonyaulax areolata* Sarjeant, 1961a, p.95–96, pl.13, fig.13; text-fig.5 (an illegitimate name). Taxonomic junior synonym: *Acanthaulax senta*, according to Berger (1986, p.343). Age: late Callovian–early Oxfordian.

speetonense Davey, 1974, p.63, pl.7, figs.2–3. Holotype: Davey, 1974, pl.7, figs.2–3; Jan du Chêne et al., 1986a, pl.121, figs.1–2. Originally (and now) *Trichodinium*, subsequently *Occisucysta*?. Lentin and Williams (1981, p.281) retained this species in *Trichodinium*. Age: Barremian.

spinosum Singh, 1971, p.316–317, pl.48, figs.8–9. Holotype: Singh, 1971, pl.48, fig.8; Jan du Chêne et al., 1986a, pl.122, fig.12. Age: late Albian.

tenuispinum He Chengquan, 1991, p.121, pl.21, fig.16; text-fig.19. Holotype: He Chengquan, 1991, pl.21, fig.16; text-fig.19. Age: middle Eocene.

TRIGONOPYXIDIA Cookson and Eisenack, 1961a, p.75. Substitute name for *Trigonopyxis* Cookson and Eisenack, 1960a, p.11 (an illegitimate name). Although the "type species" was not validly transferred by Cookson and Eisenack (1961a, p.75), the generic name *Trigonopyxidida* was validly published by these authors since it is based on a previously validly published species name (I.C.N. Article 40.3). Type: Cookson and Eisenack, 1960a, pl.3, fig.19, as *Trigonopyxis ginella*.

ficellata de Coninck, 1986b, p.20, pl.10, figs.13–18,22–25. Holotype: de Coninck, 1986b, pl.10, figs.13–15. Age: Tongrian.

***ginella** (Cookson and Eisenack, 1960a, p.11, pl.3, figs.18–20) Downie and Sarjeant, 1965, p.149. Holotype: Cookson and Eisenack, 1960a, pl.3, fig.19; Fensome et al., 1996, fig.2 — p.2137. Originally *Trigonopyxis* (generic name illegitimate), subsequently (and now) *Trigonopyxidida*. Age: ?late Albian–Cenomanian.

microreticulata Jiabo, 1978, p.124–125, pl.43, fig.1. Holotype: Jiabo, 1978, pl.43, fig.1. Age: Early Tertiary.

"**TRIGONOPYXIS**" Cookson and Eisenack, 1960a, p.11. **Name illegitimate** — **senior homonym**: *Trigonopyxis* Penard, 1912. **Substitute name**: *Trigonopyxidida*. Type: Cookson and Eisenack, 1960a, pl.3, fig.19, as *Trigonopyxis ginella*.

"**ginella*" Cookson and Eisenack, 1960a, p.11, pl.3, figs.18–20. Holotype: Cookson and Eisenack, 1960a, pl.3, fig.19; Fensome et al., 1996, fig.2 — p.2137. **NOW** *Trigonopyxidida*. Originally *Trigonopyxis* (generic name illegitimate), subsequently (and now) *Trigonopyxidida*. Age: ?late Albian–Cenomanian.

"**TRIGONUS**" Banasová et al., 2007, p.111. Calcareous dinoflagellate genus (see Gottschling and Soehner, 2013, p.127). **Name not validly published**, since it was merely used in anticipation of future acceptance of the name (I.C.N. Article 36.1). **Taxonomic synonym**: *Calciconus*, according to Streng et al. (2009, p.229).

"*conicus*" Banasová et al., 2007, p.111–113, pl.1, figs.9–12. **Name not validly published**, since it was merely used in anticipation of future acceptance of the name (I.C.N. Article 36.1). **Taxonomic synonym**: *Calciconus irregularis*, according to Streng et al. (2009, p.230). Age: middle Miocene.

TRINGADINIUM Riding and Helby, 2001e, p.126,128. Type: Riding and Helby, 2001e, fig.10Q–S, as *Tringadinium bjaerkei*.

**bjaerkei* Riding and Helby, 2001e, p.128,130–131, figs.10A–T,11A–T. Holotype: Riding and Helby, 2001e, figs.10Q–S. Taxonomic junior synonym: *Bulbosia tithonica* (name not validly published), according to Riding and Helby (2001e, p.128). Age: Callovian–Berriasian.

comptum Riding and Helby, 2001e, p.131,133, figs.12A–T. Holotype: Riding and Helby, 2001e, figs.12P–R. Age: Callovian–Oxfordian.

TRINOVANTEDINIUM Reid, 1977, p.436–437. Emendations: Harland, 1977b, p.108; Bujak, 1984, p.193; de Verteuil and Norris, 1992, p.406. Originally (and now) *Trinovantedinium*, subsequently *Protoperidinium* subgenus *Protoperidinium* section *Trinovantedinium* (combination not validly published). Bradford and Wall (1984, p.48) considered *Vozzhennikovia* to be the questionable taxonomic senior synonym of this genus. Type: Reid, 1977, pl.1, figs.6–8, as *Trinovantedinium capitatum*.

+*applanatum* (Bradford, 1977 [April], p.47–49, fig.2, nos.1–8) Bujak and Davies, 1983, p.163. Holotype: Bradford, 1977, fig.2, nos.1–4. Originally *Lejeunia* (generic name illegitimate), subsequently *Lejeunecysta*, thirdly (and now) *Trinovantedinium*, fourthly *Capillicysta*. Taxonomic junior synonym: *Trinovantedinium capitatum* Reid, 1977 (November), by implication in Matsuoka (1984b, p.6), who did not specify priority, and de Verteuil and Norris (1992, p.397–398,408). The nomenclatural type of the genus *Trinovantedinium* remains the holotype of *Trinovantedinium capitatum*. Motile equivalent: *Protoperidinium pentagonum* (Gran, 1902) Balech, 1974, according to Bradford and Wall (1984, p.48–49) and Gu Haifeng et al. (2015, p.49). Age: Holocene.

boreale Bujak, 1984, p.193–194, pl.4, figs.1–4. Holotype: Bujak, 1984, pl.4, fig.2; Head, 1994b, pl.10, figs.1–5. Age: late Eocene.

"**capitatum*" Reid, 1977 (November), p.437–438, pl.1, figs.6–8. Holotype: Reid, 1977, pl.1, figs.6–8; Fensome et al., 1993a, figs.1–3 — p.1027. **Taxonomic senior synonym**: *Lejeunia* (now *Trinovantedinium*) *applanata* Bradford, 1977 (April), by implication in Matsuoka (1984b, p.6), who did not specify priority, and de Verteuil and Norris (1992, p.397–398,408). The nomenclatural type of the genus *Trinovantedinium* remains the holotype of *Trinovantedinium capitatum*. Motile equivalent: *Protoperidinium pentagonum* (Gran, 1902) Balech, 1974, according to Harland (1981, p.68). Age: Holocene.

"**concretum**" Reid, 1977, p.438–439, pl.1, figs.9–11. Holotype: Reid, 1977, pl.1, figs.9–11; Fensome et al., 1993a, figs.1–3 — p.1069. **NOW** *Quinquecuspis*. Originally *Trinovantedinium*, subsequently (and now) *Quinquecuspis*, thirdly *Lejeunecysta*. Motile equivalent: *Protopteridinium leonis* (Pavillard, 1916) Balech, 1974, according to Harland (1981, p.68) and Lewis et al. (1984, p.30). Age: Holocene.

ferugnomatum de Verteuil and Norris, 1992, p.412,414, pl.3, figs.1–10. Holotype: de Verteuil and Norris, 1992, pl.3, figs.1–3. Age: late Miocene.

glorianum (Head et al., 1989b, p.453, pl.5, figs.4,8,10–12) de Verteuil and Norris, 1992, p.414. Holotype: Head et al., 1989b, pl.5, figs.11–12. Originally *Capillicysta*, subsequently (and now) *Trinovantedinium*. Age: late Miocene–earliest Pliocene.

harpagonium de Verteuil and Norris, 1992, p.414–415, pl.4, figs.1–8; text-fig.8. Holotype: de Verteuil and Norris, 1992, pl.4, figs.1–3. Age: middle Miocene.

henrietii Louwye et al., 2008, p.138,140, pl.4, figs.1–9. Holotype: Louwye et al., pl.4, figs.1–5. Age: middle Miocene.

"**oliva**" Reid, 1977, p.439–440, pl.1, figs.12–14; pl.2, fig.18. Holotype: Reid, 1977, pl.1, figs.12–13. **NOW** *Lejeunecysta*. Originally *Trinovantedinium*, subsequently (and now) *Lejeunecysta*. Taxonomic senior synonym: *Lejeunia* (as *Lejeunecysta*) *paratenella*, according to Harland (1977b, p.105) — however, Turon and Londeix (1988, p.344) retained *Trinovantedinium* (as *Lejeunecysta*) *oliva*. N.I.A. Age: Holocene.

pallidifulvum Matsuoka, 1987, p.63–64, pl.13, figs.1–9. Holotype: Matsuoka, 1987, pl.13, figs.7–9. Age: Holocene.

papula de Verteuil and Norris, 1992, p.415–416, pl.5, figs.1–9. Holotype: de Verteuil and Norris, 1992, pl.5, figs.1–3. N.I.A. Age: late Miocene.

"**sabrina**" Reid, 1977, p.441–442, pl.2, figs.15–17. Holotype: Reid, 1977, pl.2, fig.15. **NOW** *Lejeunecysta*. Originally *Trinovantedinium*, subsequently (and now) *Lejeunecysta*. Motile equivalent: *Protopteridinium leonis* (Pavillard, 1916) Balech, 1974, according to Harland (1981, p.68). N.I.A. Age: Holocene.

sterthense Head, 1993, p.41,44, fig.25, nos.2–11. Holotype: Head, 1993, fig.25, nos.10–11. Age: latest Pliocene.

variabile (Bujak, 1984, p.194–195, pl.4, figs.7–10; text-fig.3) de Verteuil and Norris, 1992, p.416. Holotype: Bujak, 1984, pl.4, fig.8; Head, 1994b, pl.11, figs.4–5,7–8; text-fig.3. Originally *Xandarodinium*, subsequently (and now) *Trinovantedinium*. Age: late Miocene–early Pleistocene.

?**xyllochporum** de Verteuil and Norris, 1992, p.416,418,420, pl.6, figs.1–6; text-fig.10. Holotype: de Verteuil and Norris, 1992, pl.6, fig.1. Questionable assignment: de Verteuil and Norris (1992, p.416). Age: middle Miocene.

"**TRIOPERCULODINIUM**" Drugg, 1970b, p.820. **Taxonomic senior synonym:** *Lingulodinium*, according to Wall and Dale in Wall et al. (1973, p.24). Type: Drugg, 1970b, text-figs.16F–G, as *Trioperculodinium siculum*.

"***sicula**" Drugg, 1970b, p.820; text-figs.16F–G. Holotype: Drugg, 1970b, text-figs.16F–G. **NOW** *Lingulodinium*. Originally *Trioperculodinium*, subsequently (and now) *Lingulodinium*. N.I.A. Age: Oligocene.

TRIPHAGMADINIUM Van Simaey et al., 2005, p.125. Type: Van Simaey et al., 2005, pl.1, figs.1–5, as *Triphragmadinium demaniae*.

***demiae** Van Simaey et al., 2005, p.126, pl.1, figs.1–6; pl.2, figs.1–3,6–8. Holotype: Van Simaey et al., 2005, pl.1, figs.1–5. Age: late Oligocene.

TRITHYRODINIUM Drugg, 1967, p.20. Emendations: Davey, 1969b, p.10; Lentin and Williams, 1976, p.98–100; Marheinecke, 1992, p.94–95. Type: Drugg, 1967, pl.3, fig.2, as *Trithyrodinium evittii*.

druggii Stone, 1973, p.54–55, pl.5, figs.18–19,19a. Holotype: Stone, 1973, pl.5, fig.18. Age: late Campanian.

dubium Singh, 1983, p.137, pl.47, figs.8–10. Holotype: Singh, 1983, pl.47, fig.8. Age: middle Cenomanian.

***evittii** Drugg, 1967, p.20, pl.3, figs.2–3; pl.9, fig.2. Holotype: Drugg, 1967, pl.3, fig.2. Taxonomic junior synonym: *Trithyrodinium fragile*, according to Nøhr-Hansen and Dam (1999, p.129). Age: Danian.

"**fragile**" Davey, 1969b, p.11, pl.3, figs.6,9. Holotype: Davey, 1969b, pl.3, fig.6. **Taxonomic senior synonym:** *Trithyrodinium evittii*, according to Nøhr-Hansen and Dam (1999, p.129). Age: Maastrichtian–?Danian.

"**inequale**" Wilson in Slimani, 2001a, p.192. **Name not validly published:** no description. **Taxonomic senior synonym:** *Trithyrodinium* (now *Chatangiella?*) *robustum*, according to Slimani (2001a, p.192).

nigerianum Beilstein, 1994, p.193–194, pl.29, figs.5–6. Holotype: Beilstein, 1994, pl.29, fig.5. Age: Campanian.

"**ornatum**" Felix and Burbridge, 1973, p.23–24, pl.4, fig.12. Holotype: Felix and Burbridge, 1973, pl.4, fig.12. **NOW** *Ginginodinium*. Originally *Trithyrodinium*, subsequently (and now) *Ginginodinium*. Age: Maastrichtian.

partridgei Willumsen and Vajda 2010, p.529,531; figs.5A–F. Holotype: Willumsen and Vajda 2010, figs.5A–B. Age: early Paleocene.

"**pentagonum**" May, 1980, p.87–88, pl.10, figs.13–14. Holotype: May, 1980, pl.10, figs.13–14. **NOW** *Pierceites*. Originally *Trithyrodinium*, subsequently (and now) *Pierceites*. Age: early Maastrichtian.

quinqueangulare Marheinecke, 1992, p.95, pl.19, figs.9–11. Holotype: Marheinecke, 1992, pl.19, figs.9–10. Contrary to the opinion of Lentin and Williams (1993, p.653), Williams et al. (1998, p.618) considered this name to be validly published. Age: early Maastrichtian.

rhomboideum Singh, 1983, p.136–137, pl.46, figs.11–13; pl.47, figs.1–7. Holotype: Singh, 1983, pl.46, figs.11–13. Age: middle Cenomanian.

"**robustum**" Benson, 1976, p.199,200,202, pl.11, figs.9–12; pl.12, fig.1. Holotype: Benson, 1976, pl.11, figs.9–12; pl.12, fig.1. **NOW** *Chatangiella?*. Originally *Trithyrodinium*, subsequently (and now) *Chatangiella?*. Taxonomic junior synonym: *Trithyrodinium inequale* (name not validly published), according to Slimani (2001a, p.192). Age: late Maastrichtian.

sabulum Mao Shaozhi and Norris, 1988, p.45–46, pl.12, figs.1–4; text-figs.16–17. Holotype: Mao Shaozhi and Norris, 1988, pl.12, fig.4; text-fig.16. N.I.A. Age: Late Cretaceous.

striatum Benson, 1976, p.197–198, pl.11, figs.4–8. Holotype: Benson, 1976, pl.11, figs.4–6. Age: late Maastrichtian.

suspectum (Manum and Cookson, 1964, p.9–10, pl.1, figs.9–13) Davey, 1969b, p.12. Holotype: Manum and Cookson, 1964, pl.1, fig.9. Originally *Hexagonifera*, subsequently (and now) *Trithyrodinium*, thirdly *Deflandrea*. Lentin and Williams (1976, p.100) retained this species in *Trithyrodinium*. Age: Cenomanian.

subsp. **suspectum**. Autonym. Holotype: Manum and Cookson, 1964, pl.1, fig.9.

subsp. **ukrainense** Dodsworth, 2004, p.130–131,133–134, pl.1, figs.1–8. Holotype: Dodsworth, 2004, pl.1, figs.1,7. Age: Cenomanian–Turonian.

trendallii (Cookson and Eisenack, 1970a, p.145–146, pl.12, figs.5–6) Pavlishina, 1995, p.138–139. Emendation: Pavlishina, 1995, p.138–139, as *Trithyrodinium trendallii*. Holotype: Cookson and Eisenack, 1970a, pl.12, fig.5. Originally *Ascodinium*?, subsequently *Subtilisphaera*?, thirdly (and now) *Trithyrodinium*. Age: Albian–Cenomanian.

unicorniculum Davey, 1975, p.158–159, pl.3, figs.6–7. Holotype: Davey, 1975, pl.3, fig.6. Age: Senonian, ?Campanian.

?*velatum* (Conrad, 1941, p.8–9, pl.1, fig.A ex Sarjeant, 1967b, p.256) Riding and Fensome, 2003, p.24. Holotype: Conrad, 1941, pl.1, fig.A. Originally *Palaeoperidinium* (name not validly published), subsequently *Scriniodinium*?, thirdly *Palaeoperidinium*? (combination not validly published), fourthly (and now) *Trithyrodinium*?. Questionable assignment: Riding and Fensome (2003, p.24). The name *Palaeoperidinium velatum* was not validly published in Conrad (1941) since the generic name *Palaeoperidinium* was not validly published until 1967. Williams et al. (1998, p.550) accepted Sarjeant's (1967b) indirect reference to Conrad (1941) as indication of a type (I.C.N. Article 40.3). Age: Maastrichtian.

vermiculatum (Cookson and Eisenack, 1961a, p.74, pl.12, figs.6–8) Lentin and Williams, 1976, p.100. Holotype: Cookson and Eisenack, 1961a, pl.12, fig.6. Originally *Hexagonifera*, subsequently (and now) *Trithyrodinium*. Age: Senonian.

"*verrucosum*" (Manum, 1963, p.60–61, pl.3, figs.1–4) Davey, 1969b, p.12. Holotype: Manum, 1963, pl.3, figs.1–2. **NOW** *Chatangiella*. Originally *Deflandrea*, subsequently *Trithyrodinium*, thirdly *Australiella*, fourthly (and now) *Chatangiella*. Taxonomic junior synonym: *Cooksoniella* (as *Chatangiella*) *vnigrii*, according to Yun Hyesu (1981, p.66) — however, Lebedeva in Ilyina et al. (1994, p.70) retained *Cooksoniella* (as and now *Chatangiella*) *vnigrii*. Age: Middle Cretaceous.

vozhennikovae (Boltenhagen, 1977, p.108, pl.19, figs.5a–c,6–7) Masare et al., 1996, p.182. Emendation: Masare et al., 1996, p.182, as *Trithyrodinium vozhennikovae*. Holotype: Boltenhagen, 1977, pl.19, figs.5a–c. Originally *Svalbardella*, subsequently *Andalusiella*, thirdly (and now) *Trithyrodinium*. Age: Campanian.

TRIVALVADINIUM Islam, 1983b, p.344,346. Emendation: Khowaja-Ateequzzaman and Garg, 1995, p.247–248. Type: Islam, 1983b, pl.4, fig.9, as *Trivalvadinium formosum*.

**formosum* Islam, 1983b, p.346, pl.4, fig.9. Holotype: Islam, 1983b, pl.4, fig.9; Fensome et al., 1995, fig.1 — p.1487. Age: early-middle Eocene.

"*plenum*" Islam, 1983c, p.90, pl.4, figs.4–6. Holotype: Islam, 1983c, pl.4, fig.5. **NOW** *Jainiella*. Originally *Trivalvadinium*, subsequently (and now) *Jainiella*. Age: early Eocene.

TUBERCULODINIUM Wall, 1967, p.114. Taxonomic senior synonym: *Pyrophacus*, by implication in Wall and Dale (1971, p.234), who included the "type species", *Tuberculodinium vancampoae*, in *Pyrophacus* — however, Head (1996b, p.1232) retained *Tuberculodinium*. Type: Rossignol, 1962, pl.2, fig.1, as *Pterospermopsis? vancampoae*.

paraense (Regali et al., 1974, p.289, pl.23, fig.6) Lentin and Williams, 1981, p.282. Holotype: Regali et al., 1974, pl.23, fig.6. Originally *Hystriospheraidium*, subsequently (and now) *Tuberculodinium*. Age: early Miocene.

rossignoliae Drugg, 1970a, p.116–118, figs.3,10–11. Emendation: Matsuoka and Bujak, 1988, p.87–88. Holotype: Drugg, 1970a, fig.10. Age: early Miocene.

**vancampoae* (Rossignol, 1962, p.134, pl.2, fig.1) Wall, 1967, p.114–115. Holotype: Rossignol, 1962, pl.2, fig.1. Originally *Pterospermopsis?* (Appendix A), subsequently (and now) *Tuberculodinium*, thirdly *Pyrophacus* (Appendix B). Head (1996b, p.1232) retained this species in *Tuberculodinium*. Taxonomic junior synonym:

Membranilarnacia donaensis, according to Jain and Garg (1990, p.108). Motile equivalent: *Pyrophacus steinii* (Schiller, 1935) Wall and Dale, 1971, according to Matsuoka et al. (1989, p.94). Age: Pleistocene.

wallii Drugg, 1970a, p.115–116, figs.1,4–6. Holotype: Drugg, 1970a, p.115–116, fig.4. Age: post–Miocene.

TUBIDERMODINIUM Morgenroth, 1966a, p.16. Type: Morgenroth, 1966a, pl.3, fig.4, as *Tubidermodinium sulcatum*.

**sulcatum* Morgenroth, 1966a, p.16–17, pl.3, figs.4–6. Holotype: Morgenroth, 1966a, pl.3, fig.4. Age: early Eocene.

TUBOTUBERELLA Vozzhennikova, 1967, p.179–180. Emendations: Brideaux, 1977, p.36; Sarjeant, 1982b, p.41; Dodekova, 1990, p.32. Taxonomic junior synonyms: *Dimidiadinium*, by implication in Sarjeant (1982b, p.42), who retained the "type species" of *Dimidiadinium*, *Dimidiadinium dangeardii*, in *Tubotuberella*; *Glabridinium*, according to Sarjeant (1982b, p.41). Type: Vozzhennikova, 1967, pl.101, figs.2a–b; pl.104, fig.2, as *Tubotuberella rhombiformis* (which see for lectotype).

apatela (Cookson and Eisenack, 1960b, p.249, pl.37, figs.12–13) Ioannides et al., 1977, p.464. Emendation: Sarjeant, 1982b, p.42, as *Tubotuberella apatela*. Holotype: Cookson and Eisenack, 1960b, pl.37, fig.12; Jan du Chêne et al., 1986a, pl.124, figs.1–2; Fensome et al., 1993a, fig.1 — p.921. Originally *Scriniodinium*, subsequently *Psaligonyaulax*, thirdly (and now) *Tubotuberella*, fourthly *Glabridinium*. Sarjeant (1982b, p.41) retained this species in *Tubotuberella*. This combination was not validly published in Fisher and Riley (1976, p.52), since these authors did not fully reference the basionym. Age: Late Jurassic.

dangeardii (Sarjeant, 1968, p.226–227, pl.1, fig.21; pl.3, figs.8,15; text-fig.3) Stover and Evitt, 1978, p.197. Emendation: Sarjeant, 1982b, p.42–43, as *Tubotuberella dangeardii*. Holotype: Sarjeant, 1968, pl.3, fig.8; text-fig.3; Sarjeant, 1982b, text-figs.5c–d; Jan du Chêne et al., 1986a, pl.127, figs.4–7; Fensome et al., 1993a, figs.1,3–4 — p.1089; figs.1,4–5 — p.1093. Originally *Gonyaulacysta*, subsequently *Dimidiadinium*, thirdly (and now) *Tubotuberella*. Lentin and Williams (1985, p.150) retained this species in *Tubotuberella*. Age: Oxfordian.

subsp. *dangeardii*. Autonym. Holotype: Sarjeant, 1968, pl.3, fig.8; text-fig.3; Sarjeant, 1982b, text-figs.5c–d; Jan du Chêne et al., 1986a, pl.127, figs.4–7; Fensome et al., 1993a, figs.1,3–4 — p.1089; figs.1,4–5 — p.1093.

subsp. *primitiva* Sarjeant, 1982b, p.44, pl.7, figs.3–4,9–10; text-figs.5a–b. Holotype: Sarjeant, 1982b, pl.7, fig.9; text-figs.5a–b; Fensome et al., 1993a, fig.3 — p.1089; figs.1,4–5 — p.1289. Age: Bathonian.

"*dentata*" Raynaud, 1978, p.395, pl.2, fig.13. Emendation: Riding, 2012, p.70,72, as *Gonyaulacysta dentata*. Holotype: Raynaud, 1978, pl.2, fig.13; Jan du Chêne et al., 1986a, pl.126, figs.1–3, lost according to Riding and Michoux (2013, p.51). Neotype: Fensome et al., 1996, pl.1, fig.20; Riding, 2012, pl.2, figs.1–2; Riding and Michoux, 2013, pl.1, figs.1–3; designated by Riding and Michoux (2013, p.51–52. **NOW** *Gonyaulacysta*. Originally *Tubotuberella*, subsequently (and now) *Gonyaulacysta*. Age: middle-late Callovian.

egemenii (Gitmez, 1970, p.272–274, pl.10, figs.5–6; text-fig.18) Stover and Evitt, 1978, p.197. Holotype: Gitmez, 1970, pl.10, figs.5–6; text-fig.18; Jan du Chêne et al., 1986a, pl.126, figs.4–7. Originally *Leptodinium*, subsequently (and now) *Tubotuberella*. Brenner (1988, p.93) considered *Tubotuberella sphaerocephalis* to be the questionable taxonomic senior synonym of this species. Age: early Kimmeridgian.

"*eisenackii*" (Deflandre, 1939a, p.171, pl.6, figs.7–10; text-figs.3–4) Stover and Evitt, 1978, p.197. Emendation: Sarjeant, 1982b, p.32–33, as *Gonyaulacysta eisenackii*. Holotype: Deflandre, 1939a, pl.6, figs.7–8; text-figs.3–4; Jan du Chêne et al., 1986a, pl.125, figs.5–9. **NOW** *Gonyaulacysta*. Originally *Gonyaulax* (Appendix B), subsequently (and now) *Gonyaulacysta*, thirdly *Endoscrinium*, fourthly *Tubotuberella*. Taxonomic junior synonym: *Tubotuberella sphaerocephalis*, according to Sarjeant (1982b, p.32). Age: Oxfordian.

"subsp. *eisenackii*". Autonym. Holotype: Deflandre, 1939a, pl.6, figs.7–8; text-figs.3–4; Jan du Chêne et al., 1986a, pl.125, figs.5–9. **Now redundant.** Originally *Gonyaulax eisenackii* subsp. *eisenackii* (Appendix B), subsequently *Endoscrinium eisenackii* subsp. *eisenackii*, thirdly *Gonyaulacysta eisenackii* subsp. *eisenackii*, fourthly *Tubotuberella eisenackii* subsp. *eisenackii*. Taxonomic junior synonym: *Gonyaulax* (as *Gonyaulacysta*, subsequently *Tubotuberella*) *eisenackii* subsp. *oligodentata*, according to Sarjeant (1982b, p.32).

"subsp. *oligodentata*" (Cookson and Eisenack, 1958, p.30, pl.2, fig.11) Stover and Evitt, 1978, p.198. Holotype: Cookson and Eisenack, 1958, pl.2, fig.11; Jan du Chêne et al., 1986a, pl.125, figs.10–11. Originally *Gonyaulax eisenackii* subsp. *oligodentata* (Appendix B), subsequently *Gonyaulacysta eisenackii* subsp. *oligodentata*, thirdly *Endoscrinium eisenackii* subsp. *oligodentatum*, fourthly *Tubotuberella eisenackii* subsp. *oligodentata*. **Taxonomic senior synonym:** *Gonyaulax* (as and now *Gonyaulacysta*) *eisenackii* subsp. *eisenackii*, according to Sarjeant (1982b, p.32). Age: Late Jurassic.

"*irregularis*" (Cookson and Eisenack, 1958, p.28–29, pl.10, figs.1–2) Davies, 1983, p.23. Holotype: Cookson and Eisenack, 1958, pl.10, fig.1; Jan du Chêne et al., 1986a, pl.109, figs.1–2. **NOW** *Endoscrinium*. Originally *Wetzeliella*, subsequently *Wetzeliopsis* (name not validly published), thirdly *Scriniodinium?*, fourthly *Tubotuberella*, fifthly (and now) *Endoscrinium*. Taxonomic junior synonym: *Wetzeliella meckelfeldensis*, according to Costa and Downie (1979, p.43) — however, Lentin and Williams (1981, p.290) retained *Wetzeliella meckelfeldensis*. Age: Late Jurassic.

"*lurida*" (Deflandre, 1939a, p.166, pl.5, figs.4–6) Davies, 1983, p.24. Holotype: Deflandre, 1939a, pl.5, figs.4–5; Jan du Chêne et al., 1986a, pl.109, figs.6–8. **NOW** *Endoscrinium*. Originally *Gymnodinium* (Appendix B), subsequently *Scriniodinium*, thirdly (and now) *Endoscrinium*, fourthly *Tubotuberella*. Age: early Oxfordian.

missilis Stover and Helby, 1987a, p.124,126–127, figs.24A–B,25A–K. Holotype: Stover and Helby, 1987a, figs.25A–G; Fensome et al., 1996, figs.1–6 — p.2229. N.I.A. Age: Kimmeridgian.

owensii Poulsen, 1996, p.78–79, pl.34, figs.1–9. Holotype: Poulsen, 1996, pl.34, figs.4–5. Age: Oxfordian.

**rhomboformis* Vozzhennikova, 1967, p.180, pl.101, figs.1a–b,2a–b; pl.102, figs.1,2a–b,3a–b; pl.104, figs.1–3. Emendation: Brideaux, 1977, p.36. Holotype: Vozzhennikova, 1967, pl.101, figs.2a–b; pl.104, fig.2, lost according to Lentin and Vozzhennikova (1990, p.117–118). Lectotype: Lentin and Vozzhennikova, 1990, pl.14, figs.1–2; text-fig.68, designated by Lentin and Vozzhennikova (1990, p.117). Contrary to the statements of Stover and Evitt (1978, p.197), Vozzhennikova (1967, p.180) cited only one specimen for the holotype. Lentin and Vozzhennikova (1990, p.117) provided an "expanded description" for this species. Age: Late Jurassic.

"*sphaerocephala*" Vozzhennikova, 1967, p.181, pl.103, figs.1a–b,2,3a–b; pl.104, figs.4,5a–b. Holotype: Vozzhennikova, 1967, pl.103, fig.2; Lentin and Vozzhennikova, 1990, text-fig.55; lost according to Lentin and Vozzhennikova (1990, p.98). Originally *Tubotuberella*, subsequently *Dimidiadinium*. **Taxonomic senior synonym:** *Gonyaulax* (as and now *Gonyaulacysta*) *eisenackii*, according to Sarjeant (1982b, p.32). Vozzhennikova originally spelled the epithet as "*sphaerocephalus*" but indicated it to be an adjective; hence it is here revised to "*sphaerocephala*". Age: Late Jurassic.

uncinata (Brideaux, 1977, p.38–39, pl.15, figs.2–5,7–8) Davies, 1983, p.24. Holotype: Brideaux, 1977, pl.15, figs.2–5; Jan du Chêne et al., 1986a, pl.127, figs.1–3. Originally *Dimidiadinium*, subsequently (and now) *Tubotuberella*. Backhouse (1987, p.221) also proposed this combination. Age: Hauterivian–Barremian.

vlamingii Backhouse, 1987, p.221,223, figs.8A–B,13A–D,14D. Holotype: Backhouse, 1987, figs.8A–B,13A–B; Fensome et al., 1996, figs.1–2,6–7 — p.2437. Age: Valanginian.

vozhennikovae (Sarjeant, 1982b, p.33–34, pl.7, fig.8; pl.8, fig.9) Jan du Chêne et al., 1986a, p.379. Holotype: Sarjeant, 1982b, pl.8, fig.9. Originally *Gonyaulacysta*, subsequently (and now) *Tubotuberella*. Brenner (1988, p.93) considered *Tubotuberella sphaerocephala* to be the questionable taxonomic senior synonym of this species. Age: early Oxfordian.

whatleyi (Sarjeant, 1972, p.19–21, pl.7, fig.1; text-fig.4) Stover and Evitt, 1978, p.198. Holotype: Sarjeant, 1972, pl.7, fig.1; text-fig.4; Jan du Chêne et al., 1986a, pl.124, figs.10–11. Originally *Gonyaulacysta*, subsequently (and now) *Tubotuberella*. Age: Bathonian–middle Callovian.

TURBIOSPHAERA Archangelsky, 1969a, p.408. Type: Wilson, 1967a, figs.2b,32, as *Cordosphaeridium filosum*.

**filosa* (Wilson, 1967a, p.66, figs.2b,31–32,34) Archangelsky, 1969a, p.408–411. Holotype: Wilson, 1967a, figs.2b,32. Originally *Cordosphaeridium*, subsequently (and now) *Turbiosphaera*. Age: Paleocene–Oligocene.

galatea Eaton, 1976, p.289, pl.15, figs.4–6. Holotype: Eaton, 1976, pl.15, fig.4; Bujak et al., 1980, pl.6, figs.1–2. N.I.A. Age: early Eocene.

guersteiniae Bijl and Brinkhuis, 2015, p.91–92, pl.1A–G. Holotype: Bijl and Brinkhuis, 2015, pl.1A–B. Age: Ypresian.

magnifica Eaton, 1976, p.290, pl.15, figs.7–9. Holotype: Eaton, 1976, pl.15, fig.8; Bujak et al., 1980, pl.6, fig.3. Age: middle Eocene.

proximata Tripathi, 1989, p.64–65, pl.1, figs.9,12; pl.2, figs.6,10; pl.3, fig.6. Holotype: Tripathi, 1989, pl.1, fig.9. Age: late Eocene.

sagena Levy and Harwood, 2000, p.230, pl.11, figs.a–e. Holotype: Levy and Harwood, 2000, pl.11, figs.a–c. Age: early late Eocene.

symmetrica Bujak in Bujak et al., 1980, p.90, pl.22, figs.6–8. Holotype: Bujak et al., 1980 pl.22, fig.6. Age: middle Eocene (see Aubry, 1986).

TURNHOSPHERA Slimani, 1994, p.62. Type: Yun Hyesu, 1981, pl.9, fig.1, as *Disphaeria hypoflata*.

granulata Slimani, 1994, p.63–64, pl.8, figs.5,7–9; pl.10, fig.6; text-fig.9C. Holotype: Slimani, 1994, pl.8, figs.7–9. Age: late Campanian–early Maastrichtian.

hyalina Slimani, 1994, p.64–65, pl.8, figs.6,10–14; text-fig.9B. Holotype: Slimani, 1994, pl.8, figs.10–14. Age: early Campanian–early Maastrichtian.

**hypoflata* (Yun Hyesu, 1981, p.70, pl.9, figs.1–3) Slimani, 1994, p.65. Emendation: Slimani, 1994, p.66, as *Turnhosphaera hypoflata*. Holotype: Yun Hyesu, 1981, pl.9, fig.1; Fensome et al., 1991, fig.1 — p.651. Originally *Disphaeria*, subsequently (and now) *Turnhosphaera*. Taxonomic junior synonyms: *Nelsoniella glomerata* (name not validly published), according to Slimani (2001a, p.194); *Invertocysta flandriensis*, according to Slimani and Louwye (2012, p.110,114). Age: early Santonian.

UMBODINIUM Bint, 1983, p.173–175. Type: Bint, 1983, pl.1, figs.1–3; text-fig.4A, as *Umbodinium crustov*.

**crustov* Bint, 1983, p.175–176,178, pl.1, figs.1–12; text-figs.2A–B,3F,4A–D. Holotype: Bint, 1983, pl.1, figs.1–3; text-fig.4A; Fensome et al., 1993a, figs.1–3,7 — p.1083. Age: late Albian.

UMBRIADINIUM Bucefalo Palliani and Riding, 1997a, p.199. This name was not validly published in Bucefalo Palliani and Mattioli (1995, p.60) since these authors did not provide a description. Type: Bucefalo Palliani and Riding, 1997a, pl.1, fig.1, as *Umbriadinium mediterraneense*.

***mediterraneense** Bucefalo Palliani and Riding, 1997a, p.199–201, pl.1, figs.1–9; text-figs.8A–E. Holotype: Bucefalo Palliani and Riding, 1997a, pl.1, fig.1. This name was not validly published in Bucefalo Palliani and Mattioli (1995, p.60) since these authors did not provide a description. Age: late Pliensbachian–early Toarcian.

UNIPONTIDINIUM Wrenn, 1988, p.148. Type: Piasecki, 1980, pl.1, figs.1–3, as *Nematosphaeropsis aquaeductus*.

***aquaeductus** (Piasecki, 1980, p.70, pl.1, figs.1–3; pl.5, figs.1–2) Wrenn, 1988, p.148. Holotype: Piasecki, 1980, pl.1, figs.1–3. Originally *Nematosphaeropsis*, subsequently *Nematosphaeropsis?*, thirdly *Impagidinium*, fourthly (and now) *Unipontidinium*. N.I.A. Age: middle Miocene.

grande (Davey, 1975, p.153–154, pl.1, fig.9) Wrenn, 1988, p.149. Holotype: Davey, 1975, pl.1, fig.9; Jan du Chêne et al., 1986a, pl.55, figs.1–8. Originally *Nematosphaeropsis*, subsequently *Impagidinium*, thirdly (and now) *Unipontidinium*. Age: Senonian, ?Campanian.

UVATODINIUM Vozzhennikova, 1963, p.182. Emendation: Lentin and Vozzhennikova, 1990, p.70. Type: Vozzhennikova, 1963, text-figs.13a–b, as *Uvatodinium nasutum* (which see for lectotype).

"marginatum" Vozzhennikova, 1967, p.51–52, pl.8, figs.1–2. Holotype: Vozzhennikova, 1967, pl.8, fig.1, lost according to Lentin and Vozzhennikova (1990, p.71). **Taxonomic senior synonym:** *Uvatodinium nasutum*, according to Lentin and Vozzhennikova (1990, p.71). Age: Paleocene.

"minutum" Mao Shaozhi, 1988, p.246–247, 251, pl.1, figs.5–6, 10. Holotype: Mao Shaozhi, 1988, pl.1, figs.5–6, 10. **NOW** *Vozzhennikovia*. Originally *Uvatodinium*, subsequently (and now) *Vozzhennikovia*. Age: Eocene.

***nasutum** Vozzhennikova, 1963, p.182; text-figs.13a–b. Emendation: Lentin and Vozzhennikova, 1990, p.71–72. Holotype: Vozzhennikova, 1963, text-figs.13a–b; Vozzhennikova, 1967, pl.8, fig.5; lost according to Lentin and Vozzhennikova (1990, p.71). Lectotype: Lentin and Vozzhennikova, 1990, pl.12, figs.1–2; text-fig.38, designated by Lentin and Vozzhennikova (1990, p.71). Taxonomic junior synonym: *Uvatodinium marginatum*, according to Lentin and Vozzhennikova (1990, p.71). Age: Paleocene.

VALENSIELLA Eisenack, 1963a, p.100–101. Emendation: Courtinat, 1989, p.182. Nomenclatural junior synonym: *Favilarnax*, which has the same type. Taxonomic junior synonym: *Cassiculosphaeridia*, according to Courtinat (1989, p.182) — however, Slimani (1994, p.98) retained *Cassiculosphaeridia*. Type: Deflandre, 1947d, text-fig.22, as *Membranilarnax ovulum*.

altomurata (Courtinat in Courtinat and Gaillard, 1980, p.11–12, pl.2, fig.16; pl.5, fig.7) Courtinat, 1989, p.182. Emendation: Courtinat, 1989, p.182–183, as *Valensiella altomurata*. Holotype: Courtinat and Gaillard, 1980, pl.2, fig.16; pl.5, fig.7. Originally *Cassiculosphaeridia*, subsequently (and now) *Valensiella*. Age: late Oxfordian.

?amandopolitana (Valensi, 1955b, p.590, pl.2, fig.7; pl.5, fig.2) Eisenack, 1963a, p.102. Holotype: Valensi, 1955b, pl.2, fig.7. Originally *Membranilarnax*, subsequently *Favilarnax*, thirdly *Valensiella*, fourthly (and now) *Valensiella?*. Questionable assignment: Stover and Evitt (1978, p.86). Age: Middle Jurassic.

ampulla Gocht, 1970b, p.149–150, pl.34, figs.7–9; text-fig.19a. Holotype: Gocht, 1970b, pl.34, fig.7. N.I.A. Age: early Bathonian.

?clathroderma (Deflandre and Cookson, 1955, p.290, pl.7, fig.6; text-fig.51) Eisenack, 1963a, p.101. Holotype: Deflandre and Cookson, 1955, pl.7, fig.6. Originally *Membranilarnax*, subsequently *Valensiella*, thirdly (and now) *Valensiella?*. Questionable assignment: Stover and Evitt (1978, p.86). Taxonomic junior synonym: *Membranilarnacia densa*, according to Stover and Evitt (1978, p.64). N.I.A. Age: ?early Eocene.

delicata (Stover and Helby, 1987a, p.103, figs.2A–H) Lentin and Williams, 1993, p.661. Holotype: Stover and Helby, 1987a, figs.2A–C; Stevens, 1987, figs.9K–M; Fensome et al., 1996, figs.1–3 — p.2107. Originally *Cassiculosphaeridia*, subsequently (and now) *Valensiella*. Age: Berriasian.

dictydia (Sarjeant, 1972, p.41, pl.3, fig.3; pl.6, fig.6) Lentin and Williams, 1993, p.661. Holotype: Sarjeant, 1972, pl.6, fig.6. Originally *Chytroeisphaeridia*, subsequently *Batiacasphaera*, thirdly *Escharisphaeridia*, fourthly *Cassiculosphaeridia*, fifthly (and now) *Valensiella*. Age: Bathonian–Callovian.

dictyophora Yuan Deyan and He Chengquan, 1999, p.91,93–94, pl.1, figs.1a–b,2–8. Holotype: Yuan Deyan and He Chengquan, 1999, pl.1, figs.1a–b. Age: Middle Late Cretaceous.

foucheri Slimani, 1994, p.118–119, pl.18, figs.1–6. Holotype: Slimani, 1994, pl.18, figs.1–2. Age: early Campanian–late Maastrichtian.

griphus Norvick, 1976, p.75–76, pl.8, figs.6–7; pl.10, figs.7–9. Holotype: Norvick, 1976, pl.10, figs.7–8. N.I.A. Age: Cenomanian.

"*groenlandica*" (Smelror, 1988a, p.288,292,294, pl.8, figs.3,5–6; text-fig.9) Poulsen, 1992a, p.70. Holotype: Smelror, 1988a, pl.8, figs.5–6. **Combination not validly published:** basionym not fully referenced. **NOW** *Valvaeodinium*. Originally *Ellipsoidictyum*, subsequently (and now) *Valvaeodinium*, thirdly *Valensiella* (combination not validly published). Age: early Oxfordian.

"*magna*" (Davey, 1974, p.46, pl.1, figs.3–7) Courtinat, 1989, p.183. Emendation: Harding, 1990b, p.49, as *Cassiculosphaeridia magna*. Holotype: Davey, 1974, pl.1, fig.6. **NOW** *Cassiculosphaeridia*. Originally (and now) *Cassiculosphaeridia*, subsequently *Valensiella*. Age: early–late Barremian.

ovalis (Harker and Sarjeant in Harker et al., 1990, p.87–88, pl.2, figs.7–8,11–12; text-fig.19 ex Harker and Sarjeant, 1991, p.708) Lentin and Williams, 1993, p.661. Holotype: Harker et al., 1990, pl.2, fig.7; text-fig.19. Originally *Cassiculosphaeridia*, subsequently (and now) *Valensiella*. This name was not validly published by Harker and Sarjeant in Harker et al. (1990), since these authors did not specify place of lodgement of the holotype (I.C.N. Article 40.7). Age: late Campanian.

**ovulum* (Deflandre, 1947d, p.9–10; text-figs.22–23) Eisenack, 1963a, p.101. Emendation: Courtinat, 1989, p.183, as *Valensiella ovulum*. Holotype: Deflandre, 1947d, text-fig.22; Eisenack and Kjellström, 1972, figure to left — p.1095; Fensome et al., 1995, fig.1 — p.1633. Originally *Membranilarnax*, subsequently *Favilarnax*, thirdly (and now) *Valensiella*. N.I.A. Age: Bajocian.

parvula (Batten and Lister, 1988, p.341,343, figs.1h,2c–d) Lentin and Williams, 1993, p.662. Holotype: Batten and Lister, 1988, figs.2c–d. Originally *Cassiculosphaeridia*, subsequently (and now) *Valensiella*. Age: Barremian.

perpusilla (Zheng Yuefang and Liu Xuexian in Liu Zhili et al., 1992, p.86, pl.14, figs.19–20) He Chengquan et al., 2009, p.379. Holotype: Liu Zhili et al., 1992, pl.14, fig.20. Originally *Spiniferites*, subsequently (and now) *Valensiella*. Age: Early Tertiary.

pontiformis (He Chengquan, 1991, p.57–58, pl.8, figs.1–5; pl.54, fig.5) Lentin and Williams, 1993, p.662. Holotype: He Chengquan, 1991, pl.8, fig.4. Originally *Cassiculosphaeridia*, subsequently (and now) *Valensiella*. Age: middle-late Eocene.

punctata Jain, 1977b, p.180, pl.4, fig.44. Holotype: Jain, 1977b, pl.4, fig.44. Age: early Albian.

"*pygmaeus*" (Stevens, 1987, p.186,188, figs.4L–Q) Lentin and Williams, 1993, p.662. Holotype: Stevens, 1987, figs.4L–N; Fensome et al., 1996, figs.1–3 — p.2309. **NOW** *Cassiculosphaeridia*. Originally (and now) *Cassiculosphaeridia*, subsequently *Valensiella*. N.I.A. Age: early Berriasian.

"reticulata" (Davey, 1969a, p.142, pl.3, fig.7; pl.4, fig.3) Courtinat, 1989, p.184. Holotype: Davey, 1969a, pl.4, fig.3. **NOW** *Cassiculosphaeridia*. Originally (and now) *Cassiculosphaeridia*, subsequently *Valensiella*. Age: Cenomanian.

sarstedtensis (Below, 1982d, p.344–345, figs.1–2) Lentin and Williams, 1993, p.662. Holotype: Below, 1982d, fig.1. Originally *Cassiculosphaeridia*, subsequently (and now) *Valensiella*. Age: late Aptian.

tazadensis (Below, 1981a, p.33–34, pl.10, figs.8–10; pl.12, fig.16) Lentin and Williams, 1993, p.662. Holotype: Below, 1981a, pl.10, fig.10; Fensome et al., 1991, fig.3 — p.755. Originally *Cassiculosphaeridia*, subsequently (and now) *Valensiella*. Age: Hauterivian–early Barremian.

undulata Jiabo, 1978, p.92, pl.27, figs.11–12. Holotype: Jiabo, 1978, pl.27, fig.12. Age: Early Tertiary.

vermiculata Gocht, 1970b, p.150, pl.34, figs.10–11; text-fig.19d. Holotype: Gocht, 1970b, pl.34, fig.10. Age: early Bathonian.

VALLODINIUM Williams et al., 2015, p.315–316. Type: Jan du Chêne and Adediran, 1985, pl.9, figs.1–2, as *Wilsonidium nigeriaense*.

?echinosuturatum (Wilson, 1967c, p.477,479, figs.3,22–25) Williams et al., 2015, p.316 Holotype: Wilson, 1967c, figs.22–24. Originally *Wetzeliella*, subsequently *Wilsonidium*, thirdly (and now) *Vallodinium*? Questionable assignment: Williams et al. (2015, p.316). Age: middle Eocene.

heilmannii Iakovleva, 2016, p.19 (on PDF initially published online), pl.6, figs.3–8; text-fig.4b (part). Holotype: Iakovleva, 2016, pl.6, fig.3. Age: earliest Eocene.

***nigeriaense** (Jan du Chêne and Adediran, 1985, p.31,33, pl.7, figs.1–6; pl.8, figs.1–6; pl.9, figs.1–5) Williams et al., 2015, p.316. Holotype: Jan du Chêne and Adediran, 1985, pl.9, figs.1–2. Originally *Wilsonidium*, subsequently (and now) *Vallodinium*. Age: late Paleocene–early Eocene.

picardicum Iakovleva, 2016, p.19–20 (on PDF initially published online), pl.2, figs.1–2,5–6,9; text-fig.4c (part). Holotype: Iakovleva, 2016, pl.2, fig.9. Age: earliest Eocene.

stellatum (Damassa, 1979a, p.834,837, pl.7, figs.1–7) Williams et al., 2015, p.316. Holotype: Damassa, 1979a, pl.7, figs.1–2. Originally *Kisselevia*, subsequently *Charlesdowniea*, thirdly (and now) *Vallodinium*. Age: early-middle Eocene.

VALVAEODINIUM Morgenroth, 1970, p.350. Emendation: Below, 1987b, p.64–65. Taxonomic junior synonyms: *Kylindrocysta*, *Comparodinium* and *Opaeopsomus*, all according to Below (1987b, p.64) — however, Lentin and Williams (1993, p.465) retained *Opaeopsomus*. Type: Morgenroth, 1970, pl.11, figs.1–2, as *Valvaeodinium armatum*.

aquilonium (Dörhöfer and Davies, 1980, p.24,26, figs.26E,I,28A–H) Below, 1987b, p.69. Emendation: Below, 1987b, p.69, as *Valvaeodinium aquilonium*. Holotype: Dörhöfer and Davies, 1980, fig.26E. Originally *Comparodinium*, subsequently (and now) *Valvaeodinium*. Age: Toarcian–Bajocian/Bathonian.

***armatum** Morgenroth, 1970, p.350–351, pl.11, figs.1–5. Holotype: Morgenroth, 1970, pl.11, figs.1–2; Fensome et al., 1993a, figs.1–2 — p.935; figs.1–2 — p.939. Age: late Pliensbachian.

subsp. **armatum**. Autonym. Holotype: Morgenroth, 1970, pl.11, figs.1–2; Fensome et al., 1993a, figs.1–2 — p.935; figs.1–2 — p.939.

"var. **armatum**". Autonym. Holotype: Morgenroth, 1970, pl.11, figs.1–2; Fensome et al., 1993a, figs.1–2 — p.935; figs.1–2 — p.939. **Now redundant.**

subsp. *exile* (Below, 1987b, p.67–69, pl.20, figs.1–5) Lentin and Williams, 1989, p.379. Holotype: Below, 1987b, pl.20, figs.1–4; Fensome et al., 1993a, fig.3 — p.935. Originally *Valvaeodinium armatum* var. *exile*, subsequently (and now) *Valvaeodinium armatum* subsp. *exile*. Age: Toarcian.

"var. *exile*" Below, 1987b, p.67–69, pl.20, figs.1–5. Holotype: Below, 1987b, pl.20, figs.1–4; Fensome et al., 1993a, fig.3 — p.935. **NOW** *Valvaeodinium armatum* subsp. *exile*. Originally *Valvaeodinium armatum* var. *exile*, subsequently (and now) *Valvaeodinium armatum* subsp. *exile*. Age: Toarcian.

atlanticum (Habib, 1972, p.375, pl.4, figs.2,5) Lentin and Williams, 1993, p.663. Holotype: Habib, 1972, pl.4, fig.2. Originally *Tenua* Eisenack, subsequently *Sentusidinium?*, thirdly *Fromea* (Appendix A), fourthly *Kylindrocysta*, fifthly (and now) *Valvaeodinium*. Taxonomic junior synonym: *Fromea complicata* (Appendix A), according to Davies (1983, p.31) — however, Jansonius (1989, p.65) retained *Fromea complicata*. Age: Callovian–Oxfordian.

brevepellitum Below, 1987b, p.69–70, pl.24, figs.10–14 (not 12–16). Holotype: Below, 1987b, pl.24, figs.10–13 (not 12–15); Fensome et al., 1993a, figs.1–4 — p.985. Age: late Bajocian.

cavum (Davies, 1983, p.16, pl.2, figs.10–15; text-fig.9) Below, 1987b, p.70. Emendation: Below, 1987b, p.70, as *Valvaeodinium cavum*. Holotype: Davies, 1983, pl.2, figs.10–11. Originally *Comparodinium?*, subsequently (and now) *Valvaeodinium*. Age: Toarcian–Bajocian.

cookii Mantle and Riding, 2012, p.65,67, pl.8, figs.16–25. Holotype: Mantle and Riding, 2012, pl.8, fig.25. Age: late Bajocian–early Bathonian.

"*diacrorhaetium*" (Morbey, 1975, p.44, pl.16, figs.3–6; text-figs.20a–b) Lentin and Williams, 1989, p.380. Holotype: Morbey, 1975, pl.16, figs.3–6; text-fig.20a. Originally *Comparodinium*, subsequently *Valvaeodinium*. **Taxonomic senior synonym:** *Comparodinium* (as and now *Valvaeodinium*) *koessenium*, according to Below (1987b, p.66). Age: Rhaetian.

euareatum Prauss, 1989, p.26–27, pl.3, figs.18–22,26–28,33; text-fig.7. Holotype: Prauss, 1989, pl.3, figs.18–20; text-fig.7. Age: early-middle Bajocian.

flos Below, 1987b, p.71–72, pl.22, figs.1–6,12 (not 13). Holotype: Below, 1987b, pl.22, figs.1,3–6; Fensome et al., 1993a, figs.1,3–6 — p.1195. N.I.A. Age: early Pliensbachian.

groenlandicum (Smelror, 1988a, p.288,292,294, pl.8, figs.3,5–6; text-fig.9) Smelror, 1988a, p.303. Holotype: Smelror, 1988a, pl.8, figs.5–6. Originally *Ellipsoidictyum*, subsequently (and now) *Valvaeodinium*, thirdly *Valensiella* (combination not validly published). Age: early Oxfordian.

hanneae Piasecki, 2001, p.28–29, figs.5A–L. Holotype: Piasecki, 2001, fig.5A–B. Age: latest Bathonian–earliest Callovian.

hirsutum Bucefalo Palliani and Riding, 1997a, p.202,204, pl.1, figs.10–12; text-figs.9A–B. Holotype: Bucefalo Palliani and Riding, 1997a, pl.1, fig.10. Age: early Toarcian.

koessenium (Morbey, 1975, p.44, pl.15, figs.14a–b; pl.16, figs.1–2; text-fig.19a, nos.a–b; textfig.19b, no.i) Below, 1987b, p.66. Holotype: Morbey, 1975, pl.15, figs.14a–b; text-fig.19a, no.a; Fensome et al., 1995, figs.1–3 — p.1589. Originally *Comparodinium*, subsequently (and now) *Valvaeodinium*. Taxonomic junior synonym: *Comparodinium* (subsequently *Valvaeodinium*) *diacrorhaetium*, according to Below (1987b, p.66). Age: Rhaetian–Hettangian.

leneae Piasecki, 2001, p.26–28, figs.4A–L. Holotype: Piasecki, 2001, fig.4D–E (not figs.5D–E, as indicated by Piasecki, 2001, p.27). Age: middle Bathonian–earliest Callovian.

limbafibrosus Below, 1987b, p.72–73, pl.20, figs.6–15. Holotype: Below, 1987b, pl.20, figs.6–9; Fensome et al., 1993a, fig.1 — p.1251; figs.1–4 — p.1255. Age: late Pliensbachian.

subsp. **gralla** (Below, 1987b, p.73, pl.20, figs.11–15) Lentin and Williams, 1989, p.380. Holotype: Below, 1987b, pl.20, figs.11–12,14–15; Fensome et al., 1993a, figs.1–2,4–5 — p.1215; fig.2 — p.1251. Originally *Valvaeodinium limbafibrosus* var. *gralla*, subsequently (and now) *Valvaeodinium limbafibrosus* subsp. *gralla*. N.I.A. Age: late Pliensbachian.

"var. **gralla**" Below, 1987b, p.73, pl.20, figs.11–15. Holotype: Below, 1987b, pl.20, figs.11–12,14–15; Fensome et al., 1993a, figs.1–2,4–5 — p.1215; fig.2 — p.1251. **NOW** *Valvaeodinium limbafibrosus* subsp. *gralla*. Originally *Valvaeodinium limbafibrosus* var. *gralla*, subsequently (and now) *Valvaeodinium limbafibrosus* subsp. *gralla*. N.I.A. Age: late Pliensbachian.

subsp. **limbafibrosus**. Autonym. Holotype: Below, 1987b, pl.20, figs.6–9; Fensome et al., 1993a, fig.1 — p.1251; figs.1–4 — p.1255.

"var. **limbafibrosus**". Autonym. Holotype: Below, 1987b, pl.20, figs.6–9; Fensome et al., 1993a, fig.1 — p.1251; figs.1–4 — p.1255. **Now redundant.**

lineatum (Wille and Gocht, 1979, p.235,237, figs.13a–b,14a–b,15a–b,16a–b; fig.24, nos.10–11; fig.27, nos.7a–b,8–9,10a–b,11; fig.28, nos.1a–b) Below, 1987b, p.66. Holotype: Wille and Gocht, 1979, figs.13a–b; fig.27, nos.9a–b. Originally *Comparodinium*, subsequently (and now) *Valvaeodinium*. Age: Pliensbachian–Toarcian.

perpunctatum (Wille and Gocht, 1979, p.238, fig.24, no.4; fig.28, nos.7–8) Below, 1987b, p.66. Holotype: Wille and Gocht, 1979, fig.28, no.7. Originally *Comparodinium*, subsequently (and now) *Valvaeodinium*. Age: Pliensbachian.

punctatum (Wille and Gocht, 1979, p.228–231, figs.3a–b,4a–b,5a–d,6–8,9a–b,10a–b; fig.24, nos.6–9; fig.26, nos.1a–b,2a–b,3a–b,4–5,6a–b,7a–b,8–9,10a–b,11,12a–b; fig.27, nos.1a–b,2a–b,3–6) Below, 1987b, p.73. Emendation: Below, 1987b, p.73, as *Valvaeodinium punctatum*. Holotype: Wille and Gocht, 1979, figs.3a–b; fig.26, nos.1a–b. Originally *Comparodinium*, subsequently (and now) *Valvaeodinium*. Age: Pliensbachian–Toarcian.

subsp. **magnum** (Wille and Gocht, 1979, p.231, fig.24, no.9; fig.26, no.11) Lentin and Williams, 1989, p.380. Holotype: Wille and Gocht, 1979, fig.26, no.11. Originally *Comparodinium punctatum* var. *magnum*, subsequently *Comparodinium punctatum* subsp. *magnum*, thirdly *Valvaeodinium punctatum* var. *magnum*, fourthly (and now) *Valvaeodinium punctatum* subsp. *magnum*. Age: Toarcian.

"var. **magnum**" (Wille and Gocht, 1979, p.231, fig.24, no.9; fig.26, no.11) Below, 1987b, p.66. Holotype: Wille and Gocht, 1979, fig.26, no.11. **NOW** *Valvaeodinium punctatum* subsp. *magnum*. Originally *Comparodinium punctatum* var. *magnum*, subsequently *Comparodinium punctatum* subsp. *magnum*, thirdly *Valvaeodinium punctatum* var. *magnum*, fourthly (and now) *Valvaeodinium punctatum* subsp. *magnum*. Age: Toarcian.

subsp. **punctatum**. Autonym. Holotype: Wille and Gocht, 1979, figs.3a–b; fig.26, nos.1a–b. Originally *Comparodinium punctatum* subsp. *punctatum*, subsequently (and now) *Valvaeodinium punctatum* subsp. *punctatum*.

"var. **punctatum**". Autonym. Holotype: Wille and Gocht, 1979, figs.3a–b; fig.26, nos.1a–b. **Now redundant.** Originally *Comparodinium punctatum* var. *punctatum*, subsequently *Valvaeodinium punctatum* var. *punctatum*

scalatum (Wille and Gocht, 1979, p.231,233–234, figs.11a–b,12a–b; fig.28, nos.2a–b,3a–c,4a–b,5–6) Below, 1987b, p.74. Emendation: Below, 1987b, p.74, as *Valvaeodinium scalatum*. Holotype: Wille and Gocht, 1979, figs.11a–b; fig.28, nos.2a–b. Originally *Comparodinium*, subsequently (and now) *Valvaeodinium*. Age: Pliensbachian–Toarcian.

sphaerechinatum Below, 1987b, p.75–76, pl.21, figs.1–6. Holotype: Below, 1987b, pl.21, figs.2–5; Fensome et al., 1993a, figs.2–5 — p.1341. Age: Toarcian.

spinosum (Fenton et al., 1980, p.162–163, pl.14, figs.10–13; pl.15, figs.2,4–6) Below, 1987b, p.66. Holotype: Fenton et al., 1980, pl.14, fig.13; Fensome et al., 1995, fig.4 — p.1797. Originally *Kylindrocysta*, subsequently (and now) *Valvaeodinium*. Age: late Bajocian–early Bathonian.

spongiosum Below, 1987b, p.76–78, pl.23, figs.1–15. Holotype: Below, 1987b, pl.23, figs.6–10; Fensome et al., 1993a, fig.1 — p.1345; figs.1–4 — p.1347. Age: Aalenian–early Bajocian.

subsp. *spongiosum*. Autonym. Holotype: Below, 1987b, pl.23, figs.6–10; Fensome et al., 1993a, fig.1 — p.1345; figs.1–4 — p.1347.

"var. *spongiosum*". Autonym. Holotype: Below, 1987b, pl.23, figs.6–10; Fensome et al., 1993a, fig.1 — p.1345; figs.1–4 — p.1347. **Now redundant.**

subsp. *spongoflabellum* (Below, 1987b, p.77–78, pl.23, figs.1–5,11) Lentin and Williams, 1989, p.380. Holotype: Below, 1987b, pl.23, figs.1–5; Fensome et al., 1993a, fig.2 — p.1345; figs.1–5 — p.1351. Originally *Valvaeodinium spongiosum* var. *spongoflabellum*, subsequently (and now) *Valvaeodinium spongiosum* subsp. *spongoflabellum*. Age: Aalenian–early Bajocian.

"var. *spongoflabellum*" Below, 1987b, p.77–78, pl.23, figs.1–5,11. Holotype: Below, 1987b, pl.23, figs.1–5; Fensome et al., 1993a, fig.2 — p.1345; figs.1–5 — p.1351. **NOW** *Valvaeodinium spongiosum* subsp. *spongoflabellum*. Originally *Valvaeodinium spongiosum* var. *spongoflabellum*, subsequently (and now) *Valvaeodinium spongiosum* subsp. *spongoflabellum*. Age: Aalenian–early Bajocian.

stella Below, 1987b, p.78, pl.22, figs.13–16. Holotype: Below, 1987b, pl.22, figs.13–16; Fensome et al., 1993a, figs.1–4 — p.1359. N.I.A. Age: Aalenian–early Bajocian.

stipulatum (Wille and Gocht, 1979, p.237–238, figs.17a–b; fig.24, no.5; fig.28, nos.9–12) Below, 1987b, p.79. Emendation: Below, 1987b, p.79, as *Valvaeodinium stipulatum*. Holotype: Wille and Gocht, 1979, figs.17a–b; fig.28, nos.9–12. Originally *Comparodinium*, subsequently (and now) *Valvaeodinium*. Age: Pliensbachian.

thereseae Smelror, 1991, p.175,179, pl.1, figs.1–10. Holotype: Smelror, 1991, pl.1, fig.5. Age: late Bathonian–middle Callovian.

vermicylindratum Below, 1987b, p.79–80, pl.25, figs.1–18. Holotype: Below, 1987b, pl.25, figs.9–12,17; Fensome et al., 1993a, figs.7–11 — p.1373. Age: Bajocian.

vermipellitum Below, 1987b, p.80–81, pl.24, figs.1–11. Holotype: Below, 1987b, pl.24, figs.1–5; Fensome et al., 1993a, figs.1–4 — p.1377. Age: Aalenian–early Bajocian.

"*wapellense*" (Pocock, 1972, p.97, pl.24, fig.14) Below, 1987b, p.66. Emendation: Dörhöfer and Davies, 1980, p.23, as *Dapcodinium wapellense*. Holotype: Pocock, 1972, pl.24, fig.14. **NOW** *Opaeopsomus*. Originally (and now) *Opaeopsomus*, subsequently *Dapcodinium*, thirdly *Valvaeodinium*. Age: Callovian.

weitschatii Below, 1987b, p.81, pl.22, figs.7–11. Holotype: Below, 1987b, pl.22, figs.7–11; Fensome et al., 1993a, figs.1–5 — p.1385. Age: Toarcian.

VECTENSIA Batten and Lister, 1988, p.348–349. Type: Batten and Lister, 1988, fig.3c, as *Vectensia varians*.

**variens* Batten and Lister, 1988, p.349–350, figs.3c,e–f. Holotype: Batten and Lister, 1988, fig.3c. Age: Barremian.

VECTIDINIUM Liengjarern et al., 1980, p.490. Taxonomic senior synonym: *Phthanoperidinium*, according to Islam (1982, p.313) — however, Lentin and Williams (1985, p.364) retained *Vectidinium*. Type: Liengjarern et al., 1980, pl.54, fig.7, as *Vectidinium stoveri*.

**stoveri* Liengjarern et al., 1980, p.490–491, pl.54, fig.7. Holotype: Liengjarern et al., 1980, pl.54, fig.7; Fensome et al., 1995, fig.1 — p.1807. Originally (and now) *Vectidinium*, subsequently *Phthanoperidinium*. Lentin and Williams (1985, p.365) retained this species in *Vectidinium*. Age: late Eocene–early Oligocene.

VERTEBRELLUM Zügel, 1994, p.54. Calcareous dinoflagellate genus (see Streng et al., 2004, p.483 and Elbrächter et al., 2008, p.1303). Type: Zügel, 1994, pl.11, figs.10–15, as *Vertebrellum holotabulatum*.

**holotabulatum* Zügel, 1994, p.54–56, pl.11, figs.10–15; text-fig.16. Holotype: Zügel, 1994, pl.11, figs.10–15. Age: late Cenomanian.

"**VESPADINIA**" Parker in Riding and Helby, 2001g, p.179,181. **Name not validly published:** no description. **Taxonomic senior synonym:** *Aidelocysta*, by implication in Riding and Helby (2001g, p.179,181), who included the only species name, *Vespadinia clavata* (name not validly published), in synonymy with *Aidelocysta clavata*.

"*clavata*" Parker in Riding and Helby, 2001g, p.179,181. **Name not validly published:** no description. **Taxonomic senior synonym:** *Aidelocysta clavata*, according to Riding and Helby (2001g, p.179,181).

VESPEROPSIS Bint, 1986, p.156. Emendations: Qiao Xiuyun et al., 1992, p.32–33,36–37; Wan Chuanbiao and Qiao Xiuyun, 1994, p.503; Mao Shaozhi et al., 1999, p.149–150. Taxonomic junior synonym: *Contrangularia*, by implication in He Chengquan et al. (2009, p.307). Type: Bint, 1986, pl.5, figs.9,12–13; text-fig.5, as *Vesperopsis mayi*.

didaoensis Cheng Jinhui and He Chengquan, 2001, p.129–130,133, fig.1, nos.1–5. Holotype: Cheng Jinhui and He Chengquan, 2001, fig.1, no.2. Age: Berriasian–Hauterivian.

digitata (Duxbury, 1983, p.35–36, pl.3, fig.15; text-fig.15) Bint, 1986, p.156. Holotype: Duxbury, 1983, pl.3, fig.15; text-fig.15. Originally *Muderongia*?, subsequently *Australisphaera*, thirdly (and now) *Vesperopsis*, fourthly *Vesperopsis*?. Questionable assignment: Lentin and Williams (1989, p.381), who stated incorrectly that Bint (1986, p.156) questionably included this species in *Vesperopsis* — however, Lentin and Williams (1993, p.665) included the species in *Vesperopsis* without question. Bint (1986, p.156) suggested that *Australisphaera* (as and now *Vesperopsis*) *dolabella* is a possible taxonomic synonym of this species. Age: late Aptian.

dolabella (Duxbury, 1983, p.25–26, pl.3, fig.11; text-fig.7) Bint, 1986, p.156. Holotype: Duxbury, 1983, pl.3, fig.11; text-fig.7. Originally *Australisphaera*, subsequently (and now) *Vesperopsis*, thirdly *Vesperopsis*?. Lentin and Williams (1993, p.665) included the species in *Vesperopsis* without question. Questionable assignment: Lentin and Williams (1989, p.381), who stated incorrectly that Bint (1986, p.156) questionably included this species in *Vesperopsis* — however, Lentin and Williams (1993, p.665) included the species in *Vesperopsis* without question. Bint (1986, p.156) suggested that *Muderongia*? (as and now *Vesperopsis*) *digitata* is a possible taxonomic synonym of this species. Age: early Albian.

fragilis (Harding, 1986a, p.100–101, pl.16, figs.6–9; pl.17, fig.9; text-fig.2) Harding, 1990b, p.22. Holotype: Harding, 1986a, pl.16, fig.6. Originally *Australisphaera*, subsequently (and now) *Vesperopsis*. Age: late Hauterivian.

glabra Qiao Xiuyun et al., 1992, p.33,36–37, pl.1, figs.1–9; pl.3, figs.1–12. Emendation: Mao Shaozhi et al., 1999, p.150–151. Holotype: Qiao Xiuyun et al., 1992, pl.1, fig.9; Gao Ruiqi et al., 1992b, pl.5, fig.7. Taxonomic junior synonyms: *Vesperopsis granulata* and *Australisphaera cruciata*, both according to Mao Shaozhi et al. (1999, p.150). Age: Berriasian–Barremian.

granulata (Wan Chuanbiao and Zhang Ying, 1990, p.12, pl.3, figs.7–9) He Chengquan et al., 2009, p.307. Emendation: Mao Shaozhi et al., 1999, p.155. Holotype: Wan Chuanbiao and Zhang Ying, 1990, pl.3, fig.8. Originally *Contrangularia*, subsequently (and now) *Vesperopsis*. He Chengquan et al., (2009, p.307) incorrectly considered the new combination to be a "stat. nov." as well as a "comb nov". Age: Early Cretaceous.

jixianensis Wan Chuanbiao et al., 1995, p.57–58,60–61, pl.3, figs.9–10. Emendation: Mao Shaozhi et al., 1999, p.151. Holotype: Wan Chuanbiao et al., 1995, pl.3, fig.9; Mao Shaozhi et al., 1999, pl.1, fig.4. Taxonomic junior synonym: *Vesperopsis suibinensis*, according to Mao Shaozhi et al.(1999, p.151). Age: Neocomian.

longicornis (Batten and Lister, 1988, p.340–341, figs.1b–e,g) Harding, 1990b, p.21. Emendation: Harding, 1990b, p.21–22, as *Vesperopsis longicornis*. Holotype: Batten and Lister, 1988, figs.1b–c. Originally *Australisphaera*, subsequently (and now) *Vesperopsis*. Age: Barremian.

**mayi* Bint, 1986, p.156–157, pl.5, figs.8–9,12–14; pl.6, figs.6–8; text-fig.5. Holotype: Bint, 1986, pl.5, figs.9,12–13; text-fig.5; Fensome et al., 1995, figs.1–2 — p.1617. Age: late Albian.

nebulosa Bint, 1986, p.157, pl.6, figs.1–5. Holotype: Bint, 1986, pl.6, figs.1–2. Age: late Albian.

pseudovitrea (Lister and Batten, 1988b, p.25–27, pl.3, figs.2–3; text-fig.6B, nos.1–4) Harding, 1990b, p.22. Holotype: Lister and Batten, 1988b, pl.3, fig.3; text-fig.6B, no.1. Originally *Australisphaera*, subsequently (and now) *Vesperopsis*. Age: latest Barremian–early Aptian.

reticulata (Wan Chuanbiao and Zhang Ying, 1990, p.11–12, pl.3, figs.2,4,6) He Chengquan et al., 2009, p.308. Emendation: Mao Shaozhi et al., 1999, p.155. Holotype: Wan Chuanbiao and Zhang Ying, 1990, pl.3, fig.2; Mao Shaozhi et al., 1999, pl.4, fig.9. Originally *Contrangularia*, subsequently (and now) *Vesperopsis*. He Chengquan et al., 2009, p.307) incorrectly considered the new combination to be a "stat. nov." as well as a "comb nov". Age: Early Cretaceous.

sanjiangensis Wan Chuanbiao and Qiao Xiuyun, 1994, p.504,507, pl.1, figs.1,4; pl.2, fig.9. Emendation: Mao Shaozhi et al., 1999, p.151. Holotype: Wan Chuanbiao and Qiao Xiuyun, 1994, pl.2, fig.9. Age: Middle-late Early Cretaceous.

"*suibinensis*" Wan Chuanbiao et al., 1995, p.57,60, pl.3, figs.2–3,7. Holotype: Wan Chuanbiao et al., 1995, pl.3, fig.3. **Taxonomic senior synonym:** *Vesperopsis jixianensis*, according to Mao Shaozhi et al. (1999, p.151). Age: Neocomian.

yanjiensis Mao Shaozhi et al., 1999, p.151–152, pl.2,figs.1–5; pl.3, figs.1–7; text-fig.3A–F. Holotype: Mao Shaozhi et al., 1999, pl.2,fig.1; text-fig.3C. Age: Valanginian–Hauterivian.

zhaodongensis Qiao Xiuyun et al., 1992, p.34,37–38, pl.2, figs.1–7. Holotype: Qiao Xiuyun et al., 1992, pl.2, figs.1–2; Gao Ruiqi et al., 1992b, pl.7, fig.1. Age: Aptian.

"**VESPEROPSIS** subgenus **CONTRANGULARIA**" (Wan Chuanbiao and Zhang Ying, 1990, p.11,13–14) He Chengquan et al. 2009, p.307. Emendation: Mao Shaozhi et al., 1999, p.154–155, as *Contrangularia*. **Combination not validly published:** no clear indication of rank. We assume that the rank of subgenus was implied by He Chengquan et al. (2009) and so treat it as such here; but in doing so do not intend to validate the name. **Taxonomic senior synonym:** *Vesperopsis*, by implication in He Chengquan et al. (2009, p.307). Originally *Contrangularia*, subsequently *Vesperopsis* subgenus *Contrangularia* (name not validly published). Type: Wan Chuanbiao and Zhang Ying, 1990, pl.3, fig.2, as *Contrangularia reticulata*.

VEXILLOCYSTA Harding, 1990b, p.45 ex Harding in Williams et al., 1998, p.628. This name was not validly published in Harding (1990b) since the name of the "type species" was not validly published. Type: Harding, 1990b, pl.24, fig.8, as *Vexillocysta retis*.

**retis* Harding, 1990b, p.45, pl.24, figs.8–14 ex Harding in Williams et al., 1998, p.628. Holotype: Harding, 1990b, pl.24, fig.8. This name was not validly published in Harding (1990b) since the lodgement of the holotype was not specified (I.C.N. Article 40.7). Age: late Hauterivian–late Barremian.

"**VOLKHEIMERIDIUM**" Quattrocchio and Sarjeant, 2003, 136,138. **Taxonomic senior synonym:** *Spinidinium*, according to Sluijs et al. (2009, p.46). Type: Cookson and Eisenack, 1970a, pl.12, fig.2, as *Spinidinium lanterna*.

"*clavus*" (Harland, 1973, p.674–675, pl.84, figs.5–6,10; text-fig.9) Quattrocchio and Sarjeant, 2003, p.136. Holotype: Harland, 1973, pl.84, fig.6. **NOW** *Spinidinium*. Originally (and now) *Spinidinium* subsequently *Spinidinium?*, thirdly *Volkheimeridium*. N.I.A. Age: late Campanian.

"*irmoechinatum*" (Heisecke, 1970, p.230, pl.1, fig.3; pl.2, figs.2–3) Quattrocchio and Sarjeant, 2003, p.138. Holotype: Heisecke, 1970, pl.1, fig.3; pl.2, figs.2–3. **NOW** *Spinidinium?* Originally *Deflandrea*, subsequently *Gonyaulacysta*, thirdly (and now) *Spinidinium?*, fourthly *Volkheimeridium*. Questionable assignment: Quattrocchio and Sarjeant (2003, p.138). Age: early Paleocene.

"*lanterna*" (Cookson and Eisenack, 1970a, p.144–145, pl.12, figs.1–3) Quattrocchio and Sarjeant, 2003, p.136. Holotype: Cookson and Eisenack, 1970a, pl.12, fig.2. **NOW** *Spinidinium*. Originally (and now) *Spinidinium*, subsequently *Volkheimeridium*. N.I.A. Age: Late Cretaceous.

"*luciae*" (Wrenn and Hart, 1988, p.368, fig.35, nos.1–3, fig.38, nos.1–5; fig.39, no.4) Quattrocchio and Sarjeant, 2003, p.138. Holotype: Wrenn and Hart, 1988, fig.35, nos.1–3. **NOW** *Spinidinium*. Originally (and now) *Spinidinium*, subsequently *Volkheimeridium*. Age: early Eocene.

VOODOOIA Riding and Helby, 2001d, p.93–95. Taxonomic junior synonym: *Samsonia* (name not validly published), by implication in Riding and Helby (2001d, p. 95), who included the only species name, *Samsonia tabulata* (name not validly published), in synonymy with *Voodooia tabulata*. Type: Riding and Helby, 2001d, fig.18M, as *Voodooia tabulata*.

**tabulata* Riding and Helby, 2001d, p.95,97, figs.17A–B,18A–O. Holotype: Riding and Helby, 2001d, fig.18M. Taxonomic junior synonyms: *Samsonia tabulata* and *Broomea tabulata* (both names not validly published), both according to Riding and Helby (2001d, p.95). Age: early late Callovian.

VOTADINIUM Reid, 1977, p.444. Originally (and now) *Votadinium*, subsequently *Protoperidinium* subgenus *Protoperidinium* section *Votadinium* (combination not validly published). Contrary to the opinion of Lentin and Williams (1993, p.666), we consider this name not to be illegitimate. I.C.N. Article 52.1 states that a name is illegitimate if it was nomenclaturally superfluous when published — i.e. if the taxon to which the name was applied definitely included the type of another name. However, Article 52.2 indicates that this rule does not apply if "... the type is at the same time excluded either explicitly or by implication." We have invoked this last clause to retain the species name *Votadinium calvum* (and in consequence the generic name *Votadinium*). Lentin and Williams (1993) considered the name *Votadinium calvum* to be an illegitimate superfluous name (in the sense of Article 52.1), since in proposing the species as new, Reid (1977) considered it to represent the encysted stage of *Protoperidinium oblongum*; strict application of Article 52.1 thus prescribes that *Votadinium calvum* is a nomenclatural junior synonym of *Protoperidinium oblongum*. However, a duality of nomenclature ("cyst taxa" and "motile taxa") is acceptable practice for dinoflagellates, and is condoned by Article 11.1. Since Reid (1977) clearly viewed the two names *Votadinium calvum* and *Protoperidinium oblongum* as representing distinct entities, one based on cysts, the other on the motile stage, and since he clearly did not propose the name *Votadinium calvum* to replace *Protoperidinium oblongum*, we invoke Article 52.2 to retain the former name as an acceptable option from both the nomenclatural and taxonomic viewpoints. Type: Reid, 1977, pl.2, fig.21, as *Votadinium calvum*.

**calvum* Reid, 1977, p.444–445, pl.2, figs.21–23. Holotype: Reid, 1977, pl.2, fig.21; Fensome et al., 1993a, fig.1 — p.1017. Motile equivalent: *Peridinium* (now *Protoperidinium*) *oblongum* (Aurivillius, 1898) Cleve, 1900,

according to Reid (1977, p.444). For a discussion of the nomenclatural validity and legitimacy of this species name, see the discussion under *Votadinium*. Age: Holocene.

elongatum He Chengquan and Sun Xuekun, 1991, p.297, pl.2, figs.11–12. Holotype: He Chengquan and Sun Xuekun, 1991, pl.2, fig.11. Age: Quaternary.

nanhaiense He Chengquan and Sun Xuekun, 1991, p.297–298, pl.2, figs.13–17. Holotype: He Chengquan and Sun Xuekun, 1991, pl.2, fig.15. Age: Quaternary.

spinosum Reid, 1977, p.445–446, pl.2, figs.24–26. Holotype: Reid, 1977, pl.2, figs.24–26. Motile equivalent: *Protoperidinium claudicans* (Paulsen, 1907) Balech, 1974, according to Reid (1977, p.445). Contrary to the opinion of Lentin and Williams (1993, p.666), this name is not illegitimate following I.C.N. Article 52.2e, since Reid (1977, p.445) did not explicitly include the type of *Peridinium claudicans* in synonymy with his new species, *Votadinium spinosum*. Age: Holocene.

VOZZHENNIKOVIA Lentin and Williams, 1976, p.65–66. Emendation: Sluijs et al., 2009, p.48–49. Taxonomic senior synonym: *Dioxya*, according to Morgan (1977, p.131) — however, Lentin and Williams (1981, p.287) retained *Vozzhennikovia*. Bradford and Wall (1984, p.48) considered *Trinovantedium* to be a questionable taxonomic junior synonym of this genus. Type: Wilson, 1967a, figs.3–4, as *Spinidinium apertura*.

angulata Wilson, 1988, p.32, pl.24, figs.1–6, 7a–c. Holotype: Wilson, 1988, pl.24, fig.5; Fensome et al., 1996, fig.4 — p.2031. Age: Paleocene.

**apertura* (Wilson, 1967a, p.64–65, figs.3–5, 8) Lentin and Williams, 1976, p.65. Holotype: Wilson, 1967a, figs.3–4; Fensome et al., 1993a, figs.1–2 — p.925. Originally *Spinidinium*, subsequently (and now) *Vozzhennikovia*, thirdly *Dioxya*. Lentin and Williams (1981, p.287) retained this species in *Vozzhennikovia*. N.I.A. Age: Paleocene–Oligocene.

cearaichia Stover and Hardenbol, 1994, p.39, pl.12, figs.78a–b, 79. Holotype: Stover and Hardenbol, 1994, pl.12, fig.79. Age: Rupelian.

"*echinoidea*" (Cookson and Eisenack, 1960a, p.2, pl.1, figs.5–6) Stover and Evitt, 1978, p.130. Emendation: Sverdløve and Habib, 1974, p.58–59, as *Deflandrea echinoidea*. Holotype: Cookson and Eisenack, 1960a, pl.1, figs.5. **NOW** *Spinidinium*. Originally *Deflandrea*, subsequently (and now) *Spinidinium*, thirdly *Vozzhennikovia*, fourthly *Spinidinium*? Age: Santonian–Campanian.

"*elegantula*" Williams, 1978, p.797–798, pl.7, figs.4, 7–9 (not only figs.7–9, as specified in the protologue). Holotype: Williams, 1978, pl.7, fig.8. **NOW** *Selenopemphix*. Originally *Vozzhennikovia*?, subsequently (and now) *Selenopemphix*. Questionable assignment: Williams (1978, p.797). Age: middle Eocene.

"*extensa*" (Stover, 1974, p.178–179, pl.5, figs.4a–c, 5a–d, 6) Lentin and Williams, 1976, p.67. Holotype: Stover, 1974, pl.5, figs.4a–c; Fensome et al., 1993a, figs.1–3 — p.1167. **NOW** *Gippslandia*. Originally *Deflandrea*, subsequently *Vozzhennikovia*?, thirdly *Dioxya*?, fourthly *Lentinia*, fifthly (and now) *Gippslandia*. Questionable assignment: Lentin and Williams (1976, p.67). Age: middle-late Eocene.

"*filigrana*" (Benedek, 1972, p.12–13, pl.4, figs.3a–b) Lentin and Williams, 1976, p.67. Holotype: Benedek, 1972, pl.4, figs.3a–b; Benedek and Sarjeant, 1981, figs.4, 8, nos.1–2. **NOW** *Phthanoperidinium*. Originally *Deflandrea*?, subsequently *Vozzhennikovia*?, thirdly *Dioxya*, fourthly (and now) *Phthanoperidinium*. Questionable assignment: Lentin and Williams (1976, p.67). Age: middle Oligocene.

mariae (Aurisano, 1984, p.5, 7, figs.4E–G) Sluijs et al., 2009, p.50. Holotype: Aurisano, 1984, figs.4E–F. Originally *Spinidinium*, subsequently (and now) *Vozzhennikovia*. Age: early Santonian–late early Campanian.

?*microornata* Slimani, 1994, p.120–121, pl.14, figs.16–22, 38. Holotype: Slimani, 1994, pl.14, figs.16–18. Questionable assignment: Sluijs et al. (2009, p.50). Age: late Campanian–early Maastrichtian

minus (He Chengquan and Wang Kede, 1990, p.417,423,424, pl.4, figs.10–11) Sluijs et al., 2009, p.50. Holotype: designated but not identified in illustrations. Originally *Spinidinium*, subsequently (and now) *Vozzhennikovia*. Age: Eocene.

minuta (Mao Shaozhi, 1988, p.246–247,251, pl.1, figs.5–6,10) Lentin and Vozzhennikova, 1990, p.71. Holotype: Mao Shaozhi, 1988, pl.1, figs.5–6,10. Originally *Uvatodinium*, subsequently (and now) *Vozzhennikovia*. Age: Eocene.

netrona Levy and Harwood, 2000, p.210,212, pl.11, figs.f–g. Emendation: Sluijs et al., 2009, p.49. Holotype: Levy and Harwood, 2000, pl.11, figs.f–g. Age: middle-late Eocene.

roehliae Sluijs et al., 2009, p.49, pl.3, figs.1–7; pl.5, figs.1–7; text-fig.2b. Holotype: Sluijs et al., 2009, pl.3, figs.1–3. Age: middle-late Eocene.

rotunda (Wilson, 1967a, p.65–66, figs.6–7) Lentin and Williams, 1976, p.67. Holotype: Wilson, 1967a, fig.6. Originally *Spinidinium*, subsequently (and now) *Vozzhennikovia*, thirdly *Dioxya*. Lentin and Williams (1981, p.287) retained this species in *Vozzhennikovia*. Age: Eocene.

spinalis He Chengquan, 1991, p.72, pl.2, fig.23. Holotype: He Chengquan, 1991, pl.2, fig.23. Age: middle Eocene.

spinula Stover and Hardenbol, 1994, p.39–40, pl.12, figs.80,81a–b,82a–b. Holotype: Stover and Hardenbol, 1994, pl.12, fig.80. N.I.A. Age: Rupelian.

spinulosa Wilson, 1984c, p.549,552, figs.2–5. Holotype: Wilson, 1984c, fig.4; Fensome et al., 1996, fig.4 — p.2377. Age: Maastrichtian.

stickleyae Sluijs et al., 2009, p.49, pl.3, figs.8–9; pl.4, figs.1–5; pl.6, fig.2a. Holotype: Sluijs et al., 2009, pl.4, figs.1–3. Age: middle-late Eocene.

tawanuiensis Crouch et al., 2014, p.65,71,73, pl.3, figs.1–12. Holotype: Crouch et al., 2014, pl.3, figs.1–2. Age: late Paleocene.

"*tenella*" (Morgenroth, 1966b, p.4–5, pl.1, figs.8–9) Lentin and Williams, 1976, p.67. Holotype: Morgenroth, 1966b, pl.1, fig.8. **NOW** *Lejeunecysta*. Originally *Lejeunia* (generic name illegitimate), subsequently *Vozzhennikovia*, thirdly *Dioxya*, fourthly (and now) *Lejeunecysta*. Age: early Oligocene.

"*tenera*" (Krutzsch, 1962, p.44, pl.11, figs.20–22; text-fig.1e) Lentin and Williams, 1976, p.67. Holotype: Krutzsch, 1962, pl.11, figs.20–22. **NOW** *Geiselodinium*. Originally *Deflandrea?*, subsequently *Vozzhennikovia*, thirdly *Dioxya*, fourthly (and now) *Geiselodinium*. Age: middle Eocene.

"*villosa*" (Eisenack and Cookson, 1960, p.10, pl.2, figs.15–16) Stover and Evitt, 1978, p.130. Emendation: Morgan, 1977, p.134,136, as *Dioxya villosa*. Holotype: Eisenack and Cookson, 1960, pl.2, fig.15; Morgan, 1977, pl.2, figs.6a–b. **NOW** *Dioxya*. Originally (and now) *Dioxya*, subsequently *Vozzhennikovia*. Age: Albian.

"**WALLIA**" Keupp, 1990, p.49. Calcareous dinoflagellate genus (see Streng et al., 2004, p.483 and Elbrächter et al., 2008, p.1303, the latter noting that the cyst wall is pithonelloid and so a dinoflagellate affinity is questionable). **Taxonomic senior synonym:** *Pithonella*, according to Wendler et al. (2013, p.1098). The name *Wallia* was not validly published in Keupp and Ilg (1989, p.175), since these authors clearly did not intend to propose a new name. Type: Keupp, 1990, pl.14, figs.1–3, as *Wallia melloi*.

"*jakei*" Keupp and Ilg, 1989, Caption to pl.12, figs.13–15. **Name not validly published:** generic name not validly published until 1990. **Taxonomic senior synonym:** *Wallia* (now *Pithonella*) *melloi*, according to Keupp (1990, p.49). Age: middle Campanian.

"**melloi*" Keupp, 1990, p.49–50, pl.14, figs.1–12; pl.15, figs.1–4. Holotype: Keupp, 1990, pl.14, figs.1–3. **NOW** *Pithonella*. Originally *Wallia*, subsequently (and now) *Pithonella*. Taxonomic junior synonym: *Wallia jakei* (name not validly published), according to Keupp (1990, p.49). Age: middle Campanian.

WALLIDINELLUM Keupp, 1991a, p.282–283. Calcareous dinoflagellate genus. Type: Wall and Dale, 1968b, pl.172, figs.5–6, as *Scrippsiella sweeneyae*.

**dalei* Keupp, 1991a, p.283. Holotype: Wall and Dale, 1968b, pl.172, figs.5–6, as *Scrippsiella sweeneyae*. Motile equivalent: *Scrippsiella sweeneyae* Balech, 1959, according to Keupp (1991a, p.282). Age: Quaternary.

WALLODINIUM Loeblich Jr. and Loeblich III, 1968, p.212. Emendation: Riding, 1994, p.17–18. Substitute name for *Diplotesta* Cookson and Eisenack, 1960b, p.256 (an illegitimate name). Duxbury (1983, p.68) and Fensome et al. (1990, p.535) considered this genus to represent acritarchs; however, Riding (1994, p.17–18) confirmed its dinoflagellate affinity. Type: Cookson and Eisenack, 1960b, pl.39, fig.4, as *Diplotesta glaessneri*.

anglicum (Cookson and Hughes, 1964, p.56–57, pl.11, figs.1–5) Lentin and Williams, 1973, p.140. Holotype: Cookson and Hughes, 1964, pl.11, fig.2. Originally *Diplotesta*, subsequently (and now) *Wallodinium*. Age: late Albian–early Cenomanian.

bidigitatum (Manum and Cookson, 1964, p.25–26, pl.5, figs.4–6) Lentin and Williams, 1973, p.140. Holotype: Manum and Cookson, 1964, pl.5, fig.6. Originally *Diplotesta*, subsequently (and now) *Wallodinium*. Age: Late Cretaceous.

cylindricum (Habib, 1970, p.374, pl.10, fig.2) Duxbury, 1983, p.68. Emendations: Prauss, 1989, p.47–48; Riding, 1994, p.18; Feist-Burkhardt and Monteil, 1994, p.7, all as *Wallodinium cylindricum*. Holotype: Habib, 1970, pl.10, fig.2. Originally *Prismatocystis* (Appendix A), subsequently *Hexagonifera*, thirdly (and now) *Wallodinium*. Taxonomic junior synonym: *Fromea* (as *Wallodinium*, now *Phallocysta*) *elongata*, according to Duxbury (1983, p.68) — however, Feist-Burkhardt and Monteil in Feist-Burkhardt (1990, p.615) retained *Fromea* (as *Andreedinium*) *elongata*. Age: Albian–Cenomanian.

"*elongatum*" (Beju, 1971, p.289–290, pl.3, figs.7–10; text-figs.6A–E) Duxbury, 1980, p.136. Emendations: Feist-Burkhardt and Monteil, 1994, p.9, as *Andreedinium elongatum*; Riding, 1994, p.16, as *Phallocysta elongata*. Holotype: Beju, 1971, pl.3, fig.7; text-fig.6A. **NOW** *Phallocysta*. Originally *Fromea* (Appendix A), subsequently *Fromea?* (Appendix A), thirdly *Wallodinium*, fourthly *Palaeostomocystis* (Appendix A), fifthly *Andreedinium*, sixthly (and now) *Phallocysta*. Nomenclatural junior synonym: *Phallocysta minuta*; refer to that species for details. Taxonomic senior synonym: *Prismatocystis* (as and now *Wallodinium*) *cylindrica*, according to Duxbury (1983, p.68) — however, Feist-Burkhardt and Monteil in Feist-Burkhardt (1990, p.615) retained *Wallodinium* (as *Andreedinium*) *elongatum*. Taxonomic junior synonym: *Phallocysta subconica*, according to Riding (1994, p.16). Age: Bajocian–Oxfordian.

**glaessneri* (Cookson and Eisenack, 1960b, p.256, pl.39, figs.4–6) Loeblich Jr. and Loeblich III, 1968, p.212. Holotype: Cookson and Eisenack, 1960b, pl.39, fig.4. Originally *Diplotesta*, subsequently (and now) *Wallodinium*. Age: Oxfordian–?Aptian.

inflatum (Habib, 1969, p.98, pl.3, figs.14–15; pl.4, fig.2) Habib, 1970, p.274. Holotype: Habib, 1969, pl.3, fig.14. Originally *Diplotesta*, subsequently (and now) *Wallodinium*. Age: Albian–Cenomanian.

krutzschii (Alberti, 1961, p.21, pl.7, figs.19–21; pl.12, figs.6–7) Habib, 1972, p.378. Holotype: Alberti, 1961, pl.7, fig.19. Originally *Diplotesta*, subsequently (and now) *Wallodinium*. Age: Hauterivian–Barremian.

laganum Feist-Burkhardt and Monteil, 1994, p.7–8, pl.4, figs.1–4; text-fig.2b. Holotype: Feist-Burkhardt and Monteil, 1994, pl.4, fig.2. Age: late Toarcian–early Aalenian.

luna (Cookson and Eisenack, 1960a, p.10–11, pl.3, fig.21) Lentini and Williams, 1973, p.140. Holotype: Cookson and Eisenack, 1960a, pl.3, fig.21. Originally *Diplotesta*, subsequently (and now) *Wallothinium*. N.I.A. Age: ?late Albian–Cenomanian.

WALVISIA Miles, 1990, p.82–84. Type: Miles, 1990, pl.2, figs.1–3, as *Walvisia woodii*.

**woodii* Miles, 1990, p.84, pl.2, figs.1–9; text-figs.4A–B. Holotype: Miles, 1990, pl.2, figs.1–3. Age: late Albian.

WANAEA Cookson and Eisenack, 1958, p.57. Emendations: Fensome, 1981, p.51; Riding and Helby, 2001b, p.35. Taxonomic junior synonym: *Energlynia*, according to Riley and Fenton (1982, p.199–200). Type: Deflandre and Cookson, 1955, pl.3, fig.14, as *Epicephalopyxis spectabilis*.

acollaris Dodekova, 1975, p.20–21, pl.2, figs.9–10; pl.3, figs.1–7,9; text-fig.2. Emendation: Riding and Helby, 2001b, p.37. Holotype: Dodekova, 1975, pl.3, figs.1–4. Originally (and now) *Wanaea*, subsequently *Energlynia*. Dodekova (1990, p.43) retained this species in *Wanaea*. Taxonomic junior synonyms: *Wanaea* (as *Energlynia*) *indotata*, according to Woollam (1980, p.250) — however, Feist-Burkhardt and Monteil (1997, p.45) retained *Wanaea indotata*; *Wanaea zoharensis*, according to Fensome (1981, p.50) — however, Riding and Helby (2001b, p.51) retained *Wanaea zoharensis*; *Energlynia kyrbasia*, according to Fenton and Fisher (1978, p.236). Age: late Bathonian.

clathrata Cookson and Eisenack, 1958, p.58, pl.9, figs.6–8. Holotype: Cookson and Eisenack, 1958, pl.9, fig.6; Helby et al., 1987, fig.18M. Age: Late Jurassic.

"*clathrabilis*" Helby in Riding and Helby, 2001b, p.43. **Name not validly published**: no description. **Taxonomic senior synonym**: *Wanaea spectabilis*, according to Riding and Helby (2001b, p.43).

cornucavata Feist-Burkhardt and Pross, 1998, p.109–110, pl.3, figs.1–6; pl.4, figs.1–7; pl.8, figs.1–6; pl.13, figs.1–5; pl.14, figs.1–5; pl.16, figs.3–4. Holotype: Feist-Burkhardt and Pross, 1998, pl.3, figs.1–6; pl.8, figs.1–3; pl.13, figs.1–5. Age: early Bathonian.

digitata Cookson and Eisenack, 1958, p.58, pl.9, figs.2–5. Emendation: Woollam, 1982, p.48. Holotype: Cookson and Eisenack 1958, pl.9, fig.2. Age: Late Jurassic.

enoda Riding and Helby, 2001b, p.39, figs.2A–I. Holotype: Riding and Helby, 2001b, fig.2H. Age: late Bathonian–mid Callovian.

fimbriata Sarjeant, 1961a, p.112–113, pl.15, fig.14; text-fig.13. Holotype: Sarjeant, 1961a, pl.15, fig.14; textfig.13. Age: early Oxfordian.

indotata Drugg, 1978, p.74–75, pl.8, figs.11–14. Holotype: Drugg, 1978, pl.8, fig.12. Originally (and now) *Wanaea*, subsequently *Energlynia*. Feist-Burkhardt and Monteil (1997, p.45) retained this species in *Wanaea*. Taxonomic senior synonym: *Wanaea acollaris*, according to Woollam (1980, p.250) — however, Feist-Burkhardt and Monteil (1997, p.45) retained *Wanaea indotata*. Age: Bajocian–middle Callovian.

lacuna Riding and Helby, 2001b, p.39,41, figs.3A–L. Holotype: Riding and Helby, 2001b, fig.3J. Age: late Bathonian.

**spectabilis* (Deflandre and Cookson, 1955, p.293, pl.3, figs.12–14) Cookson and Eisenack, 1958, p.57. Emendation: Riding and Helby, 2001b, p.43–44. Holotype: Deflandre and Cookson, 1955, pl.3, fig.14. Originally *Epicephalopyxis* (Appendix A), subsequently (and now) *Wanaea*. Taxonomic junior synonym: *Wanaea clathrabilis* (name not validly published), according to Riding and Helby (2001b, p.43). Age: Oxfordian.

talea Riding and Helby, 2001b, p.45,47,49, figs.7C,8A–I. Holotype: Riding and Helby, 2001b, figs.7C,8I. Age: middle Oxfordian.

thysanota Woollam, 1982, p.48, pl.2, fig.1; text-fig.1B(ii). Holotype: Woollam, 1982, pl.2, fig.1. Age: late Callovian–early Oxfordian.

verrucosa Riding and Helby, 2001b, p.49,51, figs.9A–L. Holotype: Riding and Helby, 2001b, fig.9A. Age: late Bathonian.

zoharensis Conway, 1978, p.347, pl.1, figs.6–7,9. Emendation: Riding and Helby, 2001b, p.51. Holotype: Conway, 1978, pl.1, fig.7; Riding and Helby, 2001b, figs.10G–H. Taxonomic senior synonym: *Wanaea* (as *Energlynia*) *acollaris*, according to Fensome (1981, p.50) — however, Riding and Helby (2001b, p.51) retained *Wanaea zoharensis*. Age: late Bathonian.

WANNERIA Below, 1987a, p.72–73,76–77. Nomenclatural junior synonym: *Belowius*, which has the same type. Özdikmen (2009) considered *Wanneria* Below to be illegitimate because it is a junior homonym of *Wanneria* Walcott 1908; however, *Wanneria* Walcott is an animal and under the I.C.N. it does not pre-empt *Wanneria* Below. Type: Below, 1987a, pl.2, figs.2–10, as *Wanneria misolensis*.

listeri (Stover and Helby, 1987a, p.121–122,124, figs.21A–C,22A–D,23A–L) Below, 1987a, p.77,80. Emendation: Below, 1987a, p.77,80, as *Wanneria listeri*. Holotype: Stover and Helby, 1987a, figs.22A–D; Fensome et al., 1996, figs.1–4 — p.2195. Originally *Suessia*, subsequently (and now) *Wanneria*. Age: Norian.

**misolensis* Below, 1987a, p.80,86, pl.1, figs.15–18; pl.2, figs.1–10,14–15; pl.3, figs.2–10,12–13,15; text-figs.36a–g,37a–h,39–47; table 2. Holotype: Below, 1987a, pl.2, figs.2–10; Fensome et al., 1993a, figs.2–3 — p.1257. Originally (and now) *Wanneria*, subsequently *Belowius* (generic name illegitimate). Age: Norian.

WARRENIA Monteil, 1992a, p.278–279. Type: Monteil, 1992a, pl.5, figs.1–2, as *Warrenia californica*.

?*brevispinosa* (Iosifova, 1992, p.61–62, pl.10, figs.2a–b,3a–b) Iosifova, 1996, p.231. Holotype: Iosifova, 1992, pl.10, figs.3a–b; Iosifova, 1996, pl.14, figs.1a–c. Originally *Kiokansium*, subsequently (and now) *Warrenia*?. Questionable assignment: Iosifova (1996, p.231). Age: Valanginian.

**californica* Monteil, 1992a, p.279,281, pl.5, figs.1–9; pl.8, figs.1–4. Holotype: Monteil, 1992a, pl.5, figs.1–2. Age: late Tithonian–early Valanginian.

WEIACHIA Feist-Burkhardt, 1995b, p.212–213. Type: Feist-Burkhardt, 1995b, pl.1, fig.9; text-fig.3, as *Weiachia fenestrata*.

**fenestrata* Feist-Burkhardt, 1995b, p.213–214, pl.1, figs.1–5,9; text-fig.3. Holotype: Feist-Burkhardt, 1995b, pl.1, fig.9; text-fig.3. Age: late Toarcian.

WERVEKODINIUM Below, 1990, p.80,82. Contrary to the opinion of Lentin and Williams (1993, p.670), this name is validly published since the name of the "type species" is validly published. Type: Below, 1990, pl.16, figs.9–10,13, as *Wervekodium granulatum*.

**granulatum* Below, 1990, p.82, pl.16, figs.7–17; text-figs.24a–f. Holotype: Below, 1990, pl.16, figs.9–10,13. Contrary to the opinion of Lentin and Williams (1993, p.670), this name is validly published. Below (1987a, p.6) stated that, unless otherwise indicated, all the material is in his personal collection. Since Below (1987a, 1987b, 1990) are parts I to III of a single study, we agree with J. Jansonius (personal communication) that Below's (1987a) repository statement refers to all three publications, fulfilling the requirement of I.C.N. Article 40.7 (see also the discussion on Article 40.7 in the Introduction). Age: late Pliensbachian–Toarcian.

WETZELIELLA Eisenack, 1938b, p.187. Emendations: Williams and Downie, 1966b, p.182; Lentin and Williams, 1976, p.129–130; Williams, Damassa, Fensome and Guerstein in Fensome et al., 2009, p.66. Taxonomic junior synonyms: *Gochtodinium*, according to Lentin and Vozzhennikova (1989, p.228); *Dracodinium*, by implication in Williams and Downie (1966b, p.195), who transferred the "type species" of *Dracodinium*, *Dracodinium solidum*, to *Wetzelietta* — however, Costa and Downie (1979, p.36) and Lentin and Williams (1989, p.121) retained *Dracodinium*. Type: Eisenack, 1938b, fig.4, as *Wetzelietta articulata*.

"*abortiva*" Yu Jingxian, 1989, p.154–155, pl.56, fig.4; pl.57, fig.4. Holotype: Yu Jingxian, 1989, pl.56, fig.4. **NOW** *Axiodinium*. Originally *Wetzelietta*, subsequently (and now) *Axiodinium*. Age: Eocene.

"*africaensis*" Jan du Chêne and Adediran, 1985, p.30–31, pl.6, figs.5–6. Holotype: Jan du Chêne and Adediran, 1985, pl.6, fig.5. **NOW** *Apectodinium*. Originally *Wetzelietta*, subsequently (and now) *Apectodinium*. Age: late Paleocene–early Eocene.

**articulata* Wetzel in Eisenack, 1938b, p.187; text-fig.4. Holotype: Eisenack, 1938b, fig.4; Eisenack, 1954b, pl.7, fig.3 (not pl.7, fig.1 as indicated in Eisenack, 1954b, p.90). Originally (and now) *Wetzelietta*, subsequently *Palaeoperidinium* (name not validly published), thirdly *Hystrichosphaeridium*, fourthly *Wetzelietta* subgenus *Wetzelietta*. Taxonomic junior synonyms: *Wetzelietta echinulata*, according to Costa and Downie (1979, p.40); *Wetzelietta horrida*, according to Stover and Evitt (1978, p.131); *Rhombodinium* (as *Wetzelietta coronatum*), according to Costa and Downie (1979, p.43) — however, Iakovleva and Heilmann-Clausen (2010, p. 211,226) retained *Rhombodinium* (as *Wetzelietta coronatum*); *Rhombodinium pentagonum*, according to Costa and Downie (1979, p.40) — however, Lentin and Williams (1981, p.244) retained *Rhombodinium pentagonum*; *Wetzelietta hampdenensis*, according to Costa and Downie (1979, p.40) — however, Lentin and Williams (1981, p.290) retained *Wetzelietta hampdenensis*; *Wetzelietta* (now *Charlesdowniea clathrata*, according to Pasteris (1948, p.42) — however, this synonymy has not been generally accepted. Age: late Eocene–early Oligocene.

subsp. *articulata*. Autonym. Holotype: Eisenack, 1938b, fig.4; Eisenack, 1954b, pl.7, fig.3 (not pl.7, fig.1 as indicated in Eisenack, 1954b, p.90).

"var. *articulata*". Autonym. Holotype: Eisenack, 1938b, fig.4; Eisenack, 1954b, pl.7, fig.3 (not pl.7, fig.1 as indicated in Eisenack, 1954b, p.90). **Now redundant**.

"subsp. *brevicornuta*" Heilmann-Clausen in Heilmann-Clausen and Costa, 1989, p.472, pl.6, figs.1,6. Holotype: Heilmann-Clausen and Costa, 1989, pl.6, fig.1. **NOW** *Dracodinium? brevicornutum*. Originally *Wetzelietta articulata* subsp. *brevicornuta*, subsequently (and now) *Dracodinium? brevicornutum*. Age: late Ypresian.

"subsp. *conopia*" (Williams and Downie, 1966b, p.184, pl.18, fig.5) Lentin and Williams, 1973, p.141. Holotype: Williams and Downie, 1966b, pl.18, fig.5. **NOW** *Sophismatia conopia*. Originally *Wetzelietta articulata* var. *conopia*, subsequently *Wetzelietta articulata* subsp. *conopia*, thirdly *Kisselevia tenuivirgula* subsp. *conopia*, fourthly *Charlesdowniea tenuivirgula* subsp. *conopia*, fifthly (and now) *Sophismatia conopia*. Age: early Eocene.

"var. *conopia*" Williams and Downie, 1966b, p.184, pl.18, fig.5. Holotype: Williams and Downie, 1966b, pl.18, fig.5. **NOW** *Sophismatia conopia*. Originally *Wetzelietta articulata* var. *conopia*, subsequently *Wetzelietta articulata* subsp. *conopia*, thirdly *Kisselevia tenuivirgula* subsp. *conopia*, fourthly *Charlesdowniea tenuivirgula* subsp. *conopia*, fifthly (and now) *Sophismatia conopia*. Age: early Eocene

"subsp. *magnifica*" (Iakovleva and Kulkova, 2001, p.18, pl.6, figs.3–4; text-fig.11) Fensome and Williams, 2004, p.686. Holotype Iakovleva and Kulkova, 2001, pl.6, figs.3–4; text-fig.11. **NOW** *Dracodinium magnificum*. Originally *Wetzelietta coronata* subsp. *magnifica*, subsequently *Wetzelietta articulata* subsp. *magnifica*, thirdly (and now) *Dracodinium magnificum*. The combination *Wetzelietta articulata* subsp. *magnifica* was proposed by Fensome and Williams (2004, p.686), since *Wetzelietta coronata* was then considered a taxonomic junior synonym of *Wetzelietta articulata*, however, Iakovleva and Heilmann-Clausen (2010, p. 211,226) retained *Rhombodinium* (as *Wetzelietta coronatum*). Age: Ypresian.

?subsp. *scabrata* (Shaw Chenglong, 1999a, p.45, figs.49–57) Williams et al., 2015, p.317. Holotype: Shaw Chenglong, 1999a, figs.49–51. Originally *Wetzeliella articulata* var. *scabrata*, subsequently (and now) *Wetzeliella articulata*? subsp. *scabrata*. Questionable assignment: Williams et al. (2015, p.317). Age: Eocene.

"var. *scabrata*" Shaw Chenglong, 1999a, p.45, figs.49–57. Holotype: Shaw Chenglong, 1999a, figs.49–51. **NOW** *Wetzeliella articulata*? subsp. *scabrata*. Originally *Wetzeliella articulata* var. *scabrata*, subsequently (and now) *Wetzeliella articulata*? subsp. *tabulata*. Age: Eocene.

?subsp. *taiwaniana* (Shaw Chenglong, 1999a, p.42,44–45, figs.37–48) Williams et al., 2015, p.317. Holotype: Shaw Chenglong, 1999a, figs.37–39. Originally *Wetzeliella articulata* var. *taiwaniana*, subsequently (and now) *Wetzeliella articulata*? subsp. *taiwaniana*. Questionable assignment: Williams et al. (2015, p.317). Age: Eocene.

"var. *taiwaniana*" Shaw Chenglong, 1999a, p.42,44–45, figs.37–48. Holotype: Shaw Chenglong, 1999a, figs.37–39. **NOW** *Wetzeliella articulata*? subsp. *taiwaniana*. Originally *Wetzeliella articulata* var. *taiwaniana*, subsequently (and now) *Wetzeliella articulata*? subsp. *taiwaniana*. Age: Eocene.

"*astra*" Denison in Costa et al., 1978, p.263, text-fig.2. Holotype: Costa et al., 1978, text-fig.2; Jolley and Spinner, 1989, pl.1, figs.3–4. **NOW** *Dracodinium*. Originally *Wetzeliella*, subsequently (and now) *Dracodinium*. N.I.A. Age: early Eocene.

?*astroides* Islam, 1983b, p.346,348, pl.3, fig.11. Holotype: Islam, 1983b, pl.3, fig.11. Questionable assignment: Williams et al. (2015, p.317). Age: early Eocene.

"*augusta*" Harland, 1979c, p.63, pl.2, figs.13–15. Holotype: Harland, 1979c, pl.2, fig.13. **NOW** *Axiodinium*. Originally *Wetzeliella* subgenus *Apectodinium*, subsequently *Apectodinium*, thirdly (and now) *Axiodinium*. Age: latest Paleocene.

caviarticulata Fensome et al., 2009, p.66, pl.11, figs.m–o,q–t. Holotype: Fensome et al., 2009, pl.11, figs.m–o. Age: youngest occurrence, early Lutetian.

"*clathrata*" Eisenack, 1938b, p.187; text-fig.5. Holotype: Eisenack, 1938b, text-fig.5; Eisenack, 1954b, pl.7, fig.12. **NOW** *Talladinium*? Originally *Wetzeliella*, subsequently *Kisselevia*?, thirdly *Charlesdowniea*, fourthly (and now) *Talladinium*? Taxonomic senior synonym: *Wetzeliella* (as *Hystrichosphaeridium*) *articulata*, according to Pastiels (1948, p.42) — however, this synonymy has not been generally accepted. Age: late Eocene–early Oligocene.

"subsp. *clathrata*" " Autonym. Holotype: Eisenack, 1938b, text-fig.5; Eisenack, 1954b, pl.7, fig.12. **Now redundant**. Originally *Wetzeliella clathrata* subsp. *clathrata*, subsequently *Kisselevia*? *clathrata* subsp. *clathrata*, thirdly *Charlesdowniea clathrata* subsp. *clathrata*.

"var. *clathrata*". Autonym. Holotype: Eisenack, 1938b, text-fig.5; Eisenack, 1954b, pl.7, fig.12. **Now redundant**.

"subsp. *fasciata*" (Rozen, 1965, p.296–297; pl.2, fig.13; text-fig.4) Lentin and Williams, 1973, p.141. Holotype: Rozen, 1965, pl.2, fig.13; text-fig.4. **NOW** *Charlesdowniea*? *fasciata*. Originally *Wetzeliella clathrata* var. *fasciata*, subsequently *Wetzeliella clathrata* subsp. *fasciata*, thirdly *Kisselevia*? *clathrata* subsp. *fasciata*, fourthly *Kisselevia fasciata*, fifthly *Charlesdowniea fasciata*, sixthly (and now) *Charlesdowniea*? *fasciata*. Age: late Eocene.

"var. *fasciata*" Rozen, 1965, p.296–297; pl.2, fig.13; text-fig.4. Holotype: Rozen, 1965, pl.2, fig.13; text-fig.4. **NOW** *Charlesdowniea*? *fasciata*. Originally *Wetzeliella clathrata* var. *fasciata*, subsequently *Wetzeliella clathrata* subsp. *fasciata*, thirdly *Kisselevia*? *clathrata* subsp. *fasciata*, fourthly *Kisselevia fasciata*, fifthly *Charlesdowniea fasciata*, sixthly (and now) *Charlesdowniea*? *fasciata*. Age: late Eocene.

"*coleothrypta*" Williams and Downie, 1966b, p.185–186, pl.18, fig.8; text-fig.47. Holotype: Williams and Downie, 1966b, pl.18, fig.8; text-fig.47; Bujak et al., 1980, pl.12, figs.7–8. **NOW** *Charlesdowniea*. Originally *Wetzeliella*, subsequently *Kisselevia*, thirdly (and now) *Charlesdowniea*. Age: early Eocene.

"*condylos*" Williams and Downie, 1966b, p.193–194, pl.20, figs.1–2. Holotype: Williams and Downie, 1966b, pl.20, fig.1. **NOW** *Petalodinium*. Originally *Wetzeliella*, subsequently *Rhombodinium*, thirdly *Dracodinium*, fourthly (and now) *Petalodinium*. N.I.A. Age: early Eocene.

"*coronata*" (Vozzhennikova, 1967, p.170–171, pl.89, figs.1–3,5; pl.90, figs.1–5) Lentin and Williams, 1976, p.131. Holotype: Vozzhennikova, 1967, pl.89, fig.1; pl.90, fig.4; Lentin and Vozzhennikova, 1990, text-fig.43; lost according to Lentin and Vozzhennikova (1990, p.80). Designated neotype: Iakovleva and Heilmann-Clausen, 2010, pl.12, fig.4. **NOW** *Dracodinium*. Originally *Rhombodinium*, subsequently *Wetzeliella*, thirdly (and now) *Dracodinium*. Taxonomic senior synonym: *Wetzeliella articulata*, according to Costa and Downie (1979, p.430); however, Iakovleva and Heilmann-Clausen (2010, p. 211,226) retained *Rhombodinium* (as *Wetzeliella*) *coronatum*. Age: Ypresian.

"subsp. *coronata*". Autonym. Holotype: Vozzhennikova, 1967, pl.89, fig.1; pl.90, fig.4; Lentin and Vozzhennikova, 1990, text-fig.43; lost according to Lentin and Vozzhennikova (1990, p.80). **Now redundant.**

"subsp. *magnifica*" Iakovleva and Kulkova, 2001, p.18, pl.6, figs.3–4; text-fig.11. Holotype: Iakovleva and Kulkova, 2001, pl.6, figs.3–4; text-fig.11. **NOW** *Dracodinium magnificum*. Originally *Wetzeliella coronata* subsp. *magnifica*, subsequently *Wetzeliella articulata* subsp. *magnifica*, thirdly (and now) *Dracodinium magnificum*. Age: Ypresian.

?*crassa* Mao Shaozhi and Norris, 1988, p.50–51, pl.15, figs.1–2. Holotype: Mao Shaozhi and Norris, 1988, pl.15, fig.1. Questionable assignment: Williams et al. (2015, p.317). Age: late Eocene.

"*crispa*" Agelopoulos, 1967, p.21–22, pl.3, fig.8; pl.4, figs.5a–b. Holotype: Agelopoulos, 1967, pl.3, fig.8. **NOW** *Dracodinium*. Originally *Wetzeliella*, subsequently (and now) *Dracodinium*. Age: late Eocene.

"*degenerata*" Yu Jingxian, 1989, p.152, pl.54, figs.2–3. Holotype: Yu Jingxian, 1989, pl.54, fig.2. **NOW** *Axiodinium*. Originally *Wetzeliella*, subsequently (and now) *Axiodinium*. Age: Paleocene.

distalis He Chengquan, 1991, p.101, pl.41, fig.7. Holotype: He Chengquan, 1991, pl.41, fig.7. Age: middle Eocene.

"*draco*" (Gocht, 1955, p.86; text-figs.1a–c) Alberti, 1961, p.8. Holotype: Gocht, 1955, text-fig.1c. **NOW** *Rhombodinium*. Originally (and now) *Rhombodinium*, subsequently *Wetzeliella* subgenus *Rhombodinium*. N.I.A. Age: middle Oligocene.

"*echinosuturata*" Wilson, 1967c, p.477,479, figs.3,22–25. Holotype: Wilson, 1967c, figs.22–24. **NOW** *Vallodinium?* Originally *Wetzeliella*, subsequently *Wilsonidium*, thirdly (and now) *Vallodinium?* Age: middle Eocene.

"*echinulata*" Vozzhennikova, 1967, p.164–165. Holotype: Vozzhennikova, 1960, pl.3, fig.3; Lentin and Vozzhennikova, 1990, text-fig.44; lost according to Lentin and Vozzhennikova (1990, p.81). **Taxonomic senior synonym:** *Wetzeliella articulata*, according to Costa and Downie (1979, p.40). This name was not validly published in Vozzhennikova (1960, pl.3, fig.3) since no description was given. No potential lectotype is available according to Lentin and Vozzhennikova (1990, p.81). Age: Eocene.

"*edwardsii*" Wilson, 1967c, p.477, figs.8–9. Holotype: Wilson, 1967c, fig.8. **NOW** *Piladinium*. Originally *Wetzeliella*, subsequently *Kisselevia*, thirdly *Charlesdowniea*, fourthly (and now) *Piladinium*. Age: early Eocene.

elongata He Chengquan, 1991, p.101–102, pl.41, fig.8. Holotype: He Chengquan, 1991, pl.41, fig.8. Age: middle Eocene

"*eocaenica*" Agelopoulos, 1967, p.16–17, pl.2, figs.6–7; pl.3, figs.1–7. Holotype: Agelopoulos, 1967, pl.3, fig.4. **NOW** *Dracodinium*. Originally *Wetzelietta*, subsequently (and now) *Dracodinium*. Taxonomic junior synonym: *Wetzelietta* (subsequently *Dracodinium*) *pachyderma*, by implication in Caro (1973, p.365), who considered the name *Wetzelietta eocaenica* to be not effectively published. Williams et al. (2015, p.304) also considered *Dracodinium pachydermum* to be a taxonomic junior synonym of *Dracodinium eocaenicum*. Age: latest Ypresian.

"*exinulata*" Vozzhennikova, 1960, pl.3, fig.3. **Name not validly published**: no description. Age: Eocene.

?*flexibilis* Yu Jingxian, 1989, p.154, pl.57, figs.1–3. Holotype: Yu Jingxian, 1989, pl.57, fig.2. Questionable assignment: Williams et al. (2015, p.317). Age: Eocene.

"*fornicalis*" (Yu Jingxian, 1989, p.155, pl.58, figs.1,3) Lentin and Williams, 1993, p.673. Holotype: Yu Jingxian, 1989, pl.58, fig.1. **NOW** *Rhombodinium*? Originally *Gochtodinium*, subsequently *Wetzelietta*, thirdly (and now) *Rhombodinium*? Age: Eocene.

"*glabra*" Cookson, 1956, p.186, pl.2, figs.1–5. Holotype: Cookson, 1956, pl.2, fig.1. **NOW** *Rhadinodinium*. Originally *Wetzelietta*, subsequently *Rhombodinium*, thirdly *Wilsonidium*, fourthly *Rhombodinium*?, fifthly (and now) *Rhadinodinium*. Age: Eocene.

"var. *glabra*". Autonym. Holotype: Cookson, 1956, pl.2, fig.1. **Now redundant**.

"var. *granulata*" Wilson, 1967c, p.493, figs.29–30. Holotype: Wilson, 1967c, fig.30. **NOW** *Dracodinium granulatum*. Originally *Wetzelietta* subgenus *Rhombodinium glabra* var. *granulata*, subsequently *Rhombodinium glabrum* subsp. *granulatum*, thirdly (and now) *Dracodinium granulatum*. Age: late Eocene.

gochtii Costa and Downie, 1976, p.609–610, pl.92, figs.2–3. Holotype: Costa and Downie, 1976, pl.92, fig.2. Age: middle Oligocene.

?*hampdenensis* Wilson, 1967c, p.480–481, figs.17,19. Holotype: Wilson, 1967c, fig.19. Taxonomic senior synonym: *Wetzelietta articulata*, according to Costa and Downie (1979, p.40) — however, Lentin and Williams (1981, p.290) retained *Wetzelietta hampdenensis*. Questionable assignment: Williams et al. (2015, p.317). Age: middle Eocene.

"*homomorpha*" Deflandre and Cookson, 1955, p.254, pl.5, fig.7; text-fig.19 (not text-figs.17–18 as indicated by Deflandre and Cookson, 1955, p.254). Emendation: Harland, 1979c, p.64, as *Apectodinium homomorphum*. Holotype: Deflandre and Cookson, 1955, pl.5, fig.7; text-fig.19; Eisenack and Klement, 1964, p.829; Fensome et al., 1995, figs.1–2 — p.1553. **NOW** *Apectodinium*. Originally *Wetzelietta*, subsequently *Wetzelietta* subgenus *Apectodinium*, thirdly (and now) *Apectodinium*. Taxonomic junior synonyms: *Apectodinium folliculum* and *Hystrichosphaeridium* (as *Apectodinium*) *caiobense*, both according to Williams et al. (1993, p.57). See also discussion under *Apectodinium pastielsii*. Age: early Eocene.

"subsp. *homomorpha*". Autonym. Holotype: Deflandre and Cookson, 1955, pl.5, fig.7; text-fig.19; Eisenack and Klement, 1964, p.829; Fensome et al., 1995, figs.1–2 — p.1553. **Now redundant**. Originally *Wetzelietta homomorpha* subsp. *homomorpha*, subsequently *Apectodinium homomorphum* subsp. *homomorphum*.

"var. *homomorpha*". Autonym. Holotype: Deflandre and Cookson, 1955, pl.5, fig.7; text-fig.19; Eisenack and Klement, 1964, p.829; Fensome et al., 1995, figs.1–2 — p.1553. **Now redundant**.

"subsp. *quinquelata*" (Williams and Downie, 1966b, p.191–192, pl.18, fig.7) Lentin and Williams, 1973, p.141. Holotype: Williams and Downie, 1966b, pl.18, fig.7. **NOW** *Apectodinium quinquelatum*. Originally *Wetzelietta homomorpha* var. *quinquelata*, subsequently *Wetzelietta homomorpha* subsp. *quinquelata*, thirdly *Apectodinium homomorphum* subsp. *quinquelatum*, fourthly *Wetzelietta quinquelata*, fifthly (and now) *Apectodinium quinquelatum*. Taxonomic senior synonym (at specific rank): *Hystrichosphaeridium* (now *Apectodinium*) *geometricum*, by implication in Harland (1979c, p.67), who

believed the latter to be the junior name — however, Lentin and Williams (1989, p.18) retained *Apectodinium quinquelatum*. Age: early Eocene.

"var. *quinquelata*" Williams and Downie, 1966b, p.191–192, pl.18, fig.7. Holotype: Williams and Downie, 1966b, pl.18, fig.7. **NOW** *Apectodinium quinquelatum*. Originally *Wetzeliella homomorpha* var. *quinquelata*, subsequently *Wetzeliella homomorpha* subsp. *quinquelata*, thirdly *Apectodinium homomorphum* subsp. *quinquelatum*, fourthly *Wetzeliella quinquelata*, fifthly (and now) *Apectodinium quinquelatum*. Taxonomic senior synonym (at specific rank): *Hystriosphæridium* (now *Apectodinium*) *geometricum*, by implication in Harland (1979c, p.67), who believed the latter to be the senior name — however, Lentin and Williams (1989, p.18) retained *Apectodinium quinquelatum*. Age: early Eocene.

"*horrida*" Jan du Chêne and Châteauneuf, 1975, p.28,30, pl.1, figs.1–7; pl.3, figs.1–6. Holotype: Jan du Chêne and Châteauneuf, 1975, pl.1, figs.1–4. **Taxonomic senior synonym:** *Wetzeliella articulata*, according to Stover and Evitt (1978, p.131). Age: early Eocene.

"*hyperacantha*" Cookson and Eisenack, 1965b, p.134–135, pl.16, figs.3–6. Holotype: Cookson and Eisenack, 1965b, pl.16, fig.5. **NOW** *Apectodinium*. Originally *Wetzeliella*, subsequently *Wetzeliella* subgenus *Apectodinium*, thirdly (and now) *Apectodinium*. Age: Paleocene.

"*intermedia*" Cookson and Eisenack, 1961b, p.40, pl.1, figs.5–6. Holotype: Cookson and Eisenack, 1961b, pl.1, fig.5. **NOW** *Castellodinium*. Originally *Wetzeliella*, subsequently *Rhombodinium*, thirdly *Wilsonidium*, fourthly (and now) *Castellodinium*. Age: Eocene.

"*irregularis*" Cookson and Eisenack, 1958, p.28–29, pl.10, figs.1–2. Holotype: Cookson and Eisenack, 1958, pl.10, fig.1; Jan du Chêne et al., 1986a, pl.109, figs.1–2. **NOW** *Endoscrinium*. Originally *Wetzeliella*, subsequently *Wetzeliopsis* (name not validly published), thirdly *Scriniodinium?*, fourthly *Tubotuberella*, fifthly (and now) *Endoscrinium*. Taxonomic junior synonym: *Wetzeliella meckelfeldensis*, according to Costa and Downie (1979, p.43) — however, Lentin and Williams (1981, p.290) retained *Wetzeliella meckelfeldensis*. Age: Late Jurassic.

"*irtyschensis*" Alberti, 1961, p.8, pl.1, figs.11–12; pl.12, fig.8. Holotype: Alberti, 1961, pl.1, fig.12. **NOW** *Rhombodinium*. Originally *Wetzeliella*, subsequently (and now) *Rhombodinium*. Age: Priabonian.

"*leptavirgula*" Williams and Downie, 1966b, p.184. **Name not validly published:** no description.

"*lineidentata*" Deflandre and Cookson, 1955, p.253–254, pl.5, fig.5; text-figs.17–18. Holotype: Deflandre and Cookson, 1955, pl.5, fig.5. **NOW** *Stichodinium?*. Originally *Wetzeliella*, subsequently *Wilsonidium*, thirdly (and now) *Stichodinium?* This name was not validly published in Deflandre and Cookson (1954, p.1236), since these authors did not give a description. Age: Eocene.

"*lobisca*" (Williams and Downie, 1966b, p.196, pl.20, fig.3) Jolley and Spinner, 1989, p.369. Holotype: Williams and Downie, 1966b, pl.20, fig.3. **NOW** *Dracodinium lobiscum*. Originally *Wetzeliella symmetrica* var. *lobisca*, subsequently *Wetzeliella symmetrica* subsp. *lobisca*, thirdly *Wetzeliella meckelfeldensis* subsp. *lobisca*, fourthly *Wetzeliella lobisca*, fifthly (and now) *Dracodinium lobiscum*. Age: earliest Eocene.

"*longispinosa*" (Wilson, 1968, p.59–60, figs.1–10) Lentin and Williams, 1976, p.132. Holotype: Wilson, 1968, fig.4. **NOW** *Apectodinium*. Originally *Deflandrea*, subsequently *Wetzeliella*, thirdly (and now) *Apectodinium*. Age: Paleocene or early Eocene.

"*lunaris*" Gocht, 1969, p.13–15, pl.10, figs.1–3; text-fig.6. Holotype: Gocht, 1969, pl.10, fig.3. **NOW** *Axiodinium*. Originally *Wetzeliella*, subsequently (and now) *Axiodinium*. Age: early–?late Eocene.

"*meckelfeldensis*" Gocht, 1969, p.5–16, pl.10, figs.12–15. Holotype: Gocht, 1969, pl.10, fig.13. **NOW** *Stenodinium*. Originally *Wetzeliella*, subsequently (and now) *Stenodinium*. Age: early Eocene.

"subsp. *lobisca*" (Williams and Downie, 1966b, p.196, pl.20, fig.3) Costa and Downie, 1979, p.43. Holotype: Williams and Downie, 1966b, pl.20, fig.3. **NOW** *Dracodinium lobiscum*. Originally *Wetzeliella*

symmetrica var. *lobisca*, subsequently *Wetziella symmetrica* subsp. *lobisca*, thirdly *Wetziella meckelfeldensis* subsp. *lobisca*, fourthly *Wetziella lobisca*, fifthly (and now) *Dracodinium lobiscum*. Age: earliest Eocene.

"subsp. *meckelfeldensis*". Autonym. Holotype: Gocht, 1969, pl.10, fig.13. **Now redundant.**

"*minuscula*" Alberti, 1961, p.10–11, pl.1, fig.10; pl.12, fig.4. Holotype: Alberti, 1961, pl.1, fig.10. **NOW** *Palaeotetradinium*. Originally *Wetziella* subgenus *Rhombodinium?*, subsequently *Rhombodinium?*, thirdly *Inversidinium*, fourthly (and now) *Palaeotetradinium*. Taxonomic junior synonym: *Inversidinium exilimurum*, according to Stover and Evitt (1978, p.71). Age: early Eocene.

"?*neocomica*" Gocht, 1957, p.172–178, pl.19, figs.1–5; pl.20, figs.1–7; text-figs.7–16. Emendation: Helby, 1987, p.310–313, as *Phoberocysta neocomica*. Holotype: Gocht, 1957, pl.19, fig.1; text-fig.7. **NOW** *Phoberocysta*. Originally *Wetziella?*, subsequently (and now) *Phoberocysta*, thirdly *Muderongia*. Questionable assignment: Gocht (1957, p.172). Taxonomic junior synonym: *Muderongia tomaszowensis*, by implication in Monteil (1991b, p.477), who considered *Muderongia tomaszowensis* to be the senior name — however, this synonymy has not been generally followed. Age: Hauterivian.

"forma *circulata*" Gocht, 1957, p.178; text-fig.14. Holotype: Gocht, 1957, text-fig.14. Originally *Wetziella? neocomica* forma *circulata*, subsequently *Phoberocysta neocomica* subsp. *circulata*. **Taxonomic senior synonym:** *Wetziella?* (as *Muderongia*) *neocomica* subsp. *neocomica* (now redundant), by implication in Monteil (1991b, p.477), who listed this taxon as a taxonomic junior synonym of *Phoberocysta neocomica*. Age: Hauterivian.

"forma *convexa*" Gocht, 1957, p.178, pl.20, figs.1–2. Holotype: not designated. Lectotype: Gocht, 1957, pl.20, fig.1, designated by Lentin and Williams (1989, p.293). Originally *Wetziella? neocomica* forma *convexa*, subsequently *Phoberocysta neocomica* subsp. *convexa*. **Taxonomic senior synonym** (at specific rank): *Phoberocysta* (as *Muderongia*) *tabulata*, according to Monteil (1991b, p.476). Age: Hauterivian.

"forma *cruciformis*" Gocht, 1957, p.176–177, pl.19, fig.5; pl.20, fig.3; text-figs.9–10. Holotype: not designated. Lectotype: Gocht, 1957, pl.20, fig.3, designated by Lentin and Williams (1989, p.293). Originally *Wetziella? neocomica* forma *cruciformis*, subsequently *Phoberocysta neocomica* subsp. *cruciformis*. **Taxonomic senior synonym:** *Wetziella?* (as *Muderongia*) *neocomica* subsp. *neocomica* (now redundant), by implication in Monteil (1991b, p.477), who listed this taxon as a taxonomic junior synonym of *Phoberocysta neocomica*. Age: Hauterivian.

"forma *dedecosa*" Gocht, 1957, p.177; text-fig.11. Holotype: Gocht, 1957, text-fig.11. Originally *Wetziella? neocomica* forma *dedecosa*, subsequently *Phoberocysta neocomica* subsp. *dedecosa*. **Taxonomic senior synonym:** *Wetziella?* (as *Muderongia*) *neocomica* subsp. *neocomica* (now redundant), by implication in Monteil (1991b, p.477), who listed this taxon as a taxonomic junior synonym of *Phoberocysta neocomica*. Age: Hauterivian.

"forma *neocomica*". Autonym. Holotype: Gocht, 1957, pl.19, fig.1. **Now redundant.** Taxonomic junior synonyms: *Phoberocysta neocomica* subsp. *circulata*, *Phoberocysta neocomica* subsp. *cruciformis* and *Phoberocysta neocomica* subsp. *dedecosa*, by implication in Monteil (1991b, p.477), who listed these taxa as taxonomic junior synonyms of *Phoberocysta neocomica*.

"forma *pteridia*" Gocht, 1957, p.178, pl.20, fig.5. Holotype: Gocht, 1957, pl.20, fig.5. Originally *Wetziella? neocomica* forma *pteridia*, subsequently *Phoberocysta neocomica* subsp. *pteridia*. **Taxonomic senior synonym** (at specific rank): *Phoberocysta* (as *Muderongia*) *tabulata*, according to Monteil (1991b, p.476). Age: Hauterivian.

"forma *subovalis*" Gocht, 1957, p.177; text-figs.12–13. Holotype: not designated. Lectotype: Gocht, 1957, text-fig.13, designated by Lentin and Williams (1989, p.294). Originally *Wetziella? neocomica* forma *subovalis*, subsequently *Phoberocysta neocomica* subsp. *subovalis*. **Taxonomic senior synonym** (at

specific rank): *Phoberocysta* (as *Muderongia*) *tabulata*, according to Monteil (1991b, p.476). Age: Hauterivian.

"*ornata*" Wilson, 1967c, p.481–482, figs.33–34. Holotype: Wilson, 1967c, fig.33. **NOW** *Wilsonidium*. Originally *Wetzelietta*, subsequently (and now) *Wilsonidium*, thirdly *Rhombodinium?*. Age: early Eocene.

ovalis Eisenack, 1954b, p.59, pl.8, fig.5. Holotype: Eisenack, 1954b, pl.8, fig.5. Age: early Oligocene.

subsp. *ovalis*. Autonym. Holotype: Eisenack, 1954b, pl.8, fig.5.

subsp. *rotundata* Andreeva-Grigorovich and Savitskaya, 1993, p.44, pl.1, figs.3–4. Holotype: Andreeva-Grigorovich and Savitskaya, 1993, pl.1, fig.3; Andreeva-Grigorovich et al., 2011, pl.34, fig.4. Age: Eocene–Oligocene.

"*pachyderma*" Caro, 1973, p.365, pl.3, figs.4–6. Holotype: Caro, 1973, pl.3, fig.4. Originally *Wetzelietta*, subsequently *Dracodinium*. **Taxonomic senior synonym:** *Wetzelietta* (now *Dracodinium*) *eocaenica*, by implication in Caro (1973, p.365), who considered the name *Wetzelietta eocaenica* to be not effectively published. Williams et al. (2015, p.304) also considered *Dracodinium pachydermum* to be a taxonomic junior synonym of *Dracodinium eocaenicum*. Age: early Eocene.

"*paniculata*" Costa and Downie, 1976, p.608–609, pl.92, fig.1. Holotype: Costa and Downie, 1976, pl.92, fig.1. **NOW** *Apectodinium*. Originally *Wetzelietta* subgenus *Apectodinium*, subsequently (and now) *Apectodinium*. Taxonomic junior synonym: *Fibrocyta axialis*, according to Garg et al. (1995, p.364). Age: early Eocene.

"*parva*" Alberti, 1961, p.8–9, pl.1, figs.14–18; pl.12, figs.10–11. Emendation: Harland, 1979c, p.65–66, as *Apectodinium parvum*. Holotype: Alberti, 1961, pl.1, fig.14. **NOW** *Apectodinium*. Originally *Wetzelietta* subgenus *Wetzelietta*, subsequently *Wetzelietta* subgenus *Apectodinium*, thirdly (and now) *Apectodinium*. Age: late Paleocene–early Eocene.

"*pentagona*" (Vozzhennikova, 1967, p.171–172, pl.89, fig.4; pl.95, figs.1–5; pl.96, figs.1–6) Lentin and Williams, 1976, p.132. Holotype: Vozzhennikova, 1967, pl.96, fig.3, lost according to Lentin and Vozzhennikova (1990, p.78). Lectotype: Lentin and Vozzhennikova, 1990, pl.7, fig.4; text-fig.42, designated by Lentin and Vozzhennikova (1990, p.78). **NOW** *Rhombodinium?*. Originally *Rhombodinium*, subsequently *Wetzelietta*, thirdly (and now) *Rhombodinium?*. Taxonomic senior synonym: *Wetzelietta articulata*, according to Costa and Downie (1979, p.40) — however, Lentin and Williams (1981, p.291) retained *Wetzelietta pentagona*. Age: late Eocene–early Oligocene.

"*perforata*" Jan du Chêne and Châteauneuf, 1975, p.30–31, pl.1, figs.8–14; pl.3, figs.7–10. Holotype: Jan du Chêne and Châteauneuf, 1975, pl.1, figs.8–9. **NOW** *Rhombodinium*. Originally *Wetzelietta* subgenus *Rhombodinium*, subsequently (and now) *Rhombodinium*. Age: middle Lutetian–late Priabonian.

"*pilata*" Stanley, 1965, p.222, pl.21, figs.12–16. Holotype: Stanley, 1965, pl.21, figs.14–16. **NOW** *Spinidinium?* Originally *Wetzelietta*, subsequently *Wetzelietta?*, thirdly (and now) *Spinidinium?*, fourthly *Magallanesium*. Questionable assignment: Lentin and Williams (1976, p.132). Age: Paleocene.

"*quinquelata*" (Williams and Downie, 1966b, p.191–192, pl.18, fig.7) Harland, 1979c, p.67. Holotype: Williams and Downie, 1966b, pl.18, fig.7. **NOW** *Apectodinium quinquelatum*. Originally *Wetzelietta homomorpha* var. *quinquelata*, subsequently *Wetzelietta homomorpha* subsp. *quinquelata*, thirdly *Apectodinium homomorphum* subsp. *quinquelatum*, fourthly *Wetzelietta quinquelata*, fifthly (and now) *Apectodinium quinquelatum*. Taxonomic senior synonym (at specific rank): *Hystrichosphaeridium* (now *Apectodinium*) *geometricum*, by implication in Harland (1979c, p.67), who believed the latter to be the junior name — however, Lentin and Williams (1989, p.18) retained *Apectodinium quinquelatum*. Age: early Eocene.

"*reticulata*" Williams and Downie, 1966b, p.187–188, pl.19, figs.3,6; text-fig.48. Holotype: Williams and Downie, 1966b, pl.19, figs.3,6; text-fig.48. **NOW** *Sophismatia*. Originally *Wetzelietta*, subsequently *Kisselevia*, thirdly *Charlesdowniea*, fourthly (and now) *Sophismatia*. Age: early Eocene.

"*rhomboidea*" Alberti, 1961, p.10, pl.1, figs.1–5; pl.12, fig.9. Holotype: Alberti, 1961, pl.1, fig.3; pl.12, fig.9. **NOW** *Petalodinium*. Originally *Wetzeliella* subgenus *Rhombodinium*, subsequently *Rhombodinium*, thirdly *Dracodinium*, fourthly (and now) *Petalodinium*. Age: late Eocene.

?*robosta* Yu Jingxian, 1989, p.152, pl.54, figs.1,4; pl.55, figs.1–2,6. Holotype: Yu Jingxian, 1989, pl.54, fig.1. Questionable assignment: Williams et al. (2015, p.317). Age: Eocene.

"*rotundata*" Balteş, 1969, p.35, pl.5, fig.10. **Name not validly published:** provisional designation. Holotype: Balteş, 1969, pl.5, fig.10. **NOW** *Rhombodinium*. Originally *Wetzeliella* (name not validly published), subsequently (and now) *Rhombodinium*. Taxonomic junior synonym (at specific rank): *Rhombodinium draco* forma *freienwaldense* (as *Rhombodinium freienwaldense*), by implication in Costa and Downie (1979, p.44), who believed *Rhombodinium freienwaldense* to be the senior name — however, Grabowska in Malinowskiej and Piwockiego (1996, p.343) retained *Rhombodinium freienwaldense*. Age: Oligocene.

"?*rugosa*" Stanley, 1965, p.222–223, pl.21, figs.6–11. Holotype: Stanley, 1965, pl.21, figs.10–11. **NOW** *Spinidinium*. Originally *Wetzeliella*, subsequently *Wilsonidium?*, thirdly *Wetzeliella?*, fourthly (and now) *Spinidinium*. Questionable assignment: Stover and Evitt (1978, p.132). Age: Paleocene.

"*samlandica*" Eisenack, 1954b, p.59, pl.8, figs.11–12. Holotype: Eisenack, 1954b, pl.8, fig.11. **NOW** *Dracodinium*. Originally *Wetzeliella*, subsequently (and now) *Dracodinium*. Neumann (1990, p.163) retained this species in *Wetzeliella*; however, Williams et al. (2015, p.304) retained the species in *Dracodinium*. Age: early Eocene.

"*similis*" Eisenack, 1954b, p.58–59, pl.8, figs.8–10. Holotype: Eisenack, 1954b, pl.8, fig.10. **NOW** *Dracodinium*. Originally *Wetzeliella*, subsequently (and now) *Dracodinium*. Age: early Oligocene.

simplex (Bujak, 1979, p.312–313, pl.2, fig.10; pl.3, figs.1–12; text-figs.4B,8F) Lentin and Vozzhennikova, 1989, p.228. Holotype: Bujak, 1979, pl.3, figs.7–12; Bujak et al., 1980, pl.15, fig.5; Fensome et al., 1995, figs.1–5 — p.1793. Originally *Gochtodinium*, subsequently (and now) *Wetzeliella*. Age: middle Eocene (see Aubry, 1986).

"*solida*" (Gocht, 1955, p.88; text-figs.3a–b,4a–c,5a–c) Williams and Downie, 1966b, p.195. Holotype: Gocht, 1955, text-figs.3a–b. **NOW** *Dracodinium*. Originally (and now) *Dracodinium*, subsequently *Wetzeliella*. Age: Eocene or Oligocene.

"*spinula*" (Bujak, 1979, p.313, pl.2, figs.3–9; text-fig.8E) Lentin and Vozzhennikova, 1989, p.228. Holotype: Bujak, 1979, pl.2, figs.3–5; Bujak et al., 1980, pl.15, fig.6. **NOW** *Rhombodinium*. Originally *Gochtodinium*, subsequently *Wetzeliella*, thirdly (and now) *Rhombodinium*. N.I.A. Age: middle Eocene (see Aubry, 1986).

?*spinulosa* Wilson, 1988, p.32–33, pl.25, figs.1a–b,2a–b. Holotype: Wilson, 1988, pl.25, figs.2a–b; Fensome et al., 1996, figs.3–4 — p.2379. Questionable assignment: Williams et al. (2015, p.317). Age: early Eocene.

"*summissa*" Harland, 1979c, p.66–67, fig.12. Holotype: Harland, 1979c, pl.1, fig.12. **NOW** *Apectodinium*. Originally *Wetzeliella* subgenus *Apectodinium*, subsequently (and now) *Apectodinium*, thirdly *Krutzschidinium* (combination not validly published). Age: late Paleocene.

symmetrica Weiler, 1956, p.132–135, pl.11, figs.1–3; text-figs.2–5. Holotype: Weiler, 1956, pl.11, fig.1. Taxonomic junior synonym: *Hystriosphæridium saturnium*, according to Sarjeant (1983, p.107–108). Age: middle Oligocene.

subsp. *incisa* Gerlach, 1961, p.156–158, pl.25, fig.9. Holotype: Gerlach, 1961, pl.25, fig.9. Age: middle-late Oligocene.

"subsp. *lobisca*" (Williams and Downie, 1966b, p.196, pl.20, fig.3) Lentin and Williams, 1973, p.143. Holotype: Williams and Downie, 1966b, pl.20, fig.3. **NOW** *Dracodinium lobiscum*. Originally *Wetzeliella symmetrica* var. *lobisca*, subsequently *Wetzeliella symmetrica* subsp. *lobisca*, thirdly *Wetzeliella*

meckelfeldensis subsp. *lobisca*, fourthly *Wetzeliella lobisca*, fifthly (and now) *Dracodinium lobiscum*. Age: earliest Eocene.

"var. *lobisca*" Williams and Downie, 1966b, p.196, pl.20, fig.3. Holotype: Williams and Downie, 1966b, pl.20, fig.3. **NOW** *Dracodinium lobiscum*. Originally *Wetzeliella symmetrica* var. *lobisca*, subsequently *Wetzeliella symmetrica* subsp. *lobisca*, thirdly *Wetzeliella meckelfeldensis* subsp. *lobisca*, fourthly *Wetzeliella lobisca*, fifthly (and now) *Dracodinium lobiscum*. Age: earliest Eocene.

?subsp. *scabrata* (Shaw Chenglong, 1999a, p.42, figs.31–36) Williams et al., 2015, p.317. Holotype: Shaw Chenglong, 1999a, figs.31–33. Originally *Wetzeliella symmetrica* var. *scabrata*, subsequently (and now) *Wetzeliella symmetrica?* subsp. *scabrata*. Questionable assignment: Williams et al. (2015, p.318). Age: Eocene.

"var. *scabrata*" Shaw Chenglong, 1999a, p.42, figs.31–36. Holotype: Shaw Chenglong, 1999a, figs.31–33. **NOW** *Wetzeliella symmetrica?* subsp. *scabrata*. Originally *Wetzeliella symmetrica* var. *scabrata*, subsequently (and now) *Wetzeliella symmetrica?* subsp. *scabrata*. Age: Eocene.

subsp. *symmetrica*. Autonym. Holotype: Weiler, 1956, pl.11, fig.1.

"var. *symmetrica*". Autonym. Holotype: Weiler, 1956, pl.11, fig.1. **Now redundant**.

?subsp. *taiwaniana* (Shaw Chenglong, 1999a, p.41–42, figs.22–30) Williams et al., 2015, p.318. Holotype: Shaw Chenglong, 1999a, figs.22–24. Originally *Wetzeliella symmetrica* var. *taiwaniana*, subsequently (and now) *Wetzeliella symmetrica?* subsp. *taiwaniana*. Questionable assignment: Williams et al. (2015, p.318). Age: Eocene.

"var. *taiwaniana*" Shaw Chenglong, 1999a, p.41–42, figs.22–30. Holotype: Shaw Chenglong, 1999a, figs.22–24. **NOW** *Wetzeliella symmetrica?* subsp. *taiwaniana*. Originally *Wetzeliella symmetrica* var. *taiwaniana*, subsequently (and now) *Wetzeliella symmetrica?* subsp. *taiwaniana*. Age: Eocene.

"*tabulata*" Wilson, 1967c, p.473–474, figs.2a–b,4–7,10–11. Holotype: Wilson, 1967c, figs.4–6; Fensome et al., 1996, figs.1–3 — p.2397. **NOW** *Wilsonidium*. Originally *Wetzeliella*, subsequently (and now) *Wilsonidium*. Age: late Eocene.

"*tenuivirgula*" Williams and Downie, 1966b, p.188–189, pl.19, figs.1–2,4–5,7; text-figs.49–50. Holotype: Williams and Downie, 1966b, pl.19, figs.2,4; text-fig.49. **NOW** *Sophismatia*. Originally *Wetzeliella*, subsequently *Kisselevia*, thirdly *Charlesdowniea*, fourthly (and now) *Sophismatia*. Age: early Eocene.

"subsp. *crassoramosa*" (Williams and Downie, 1966b, p.189–190; pl.19, figs.1,5,7; text-fig.50) Lentin and Williams, 1973, p.143. Holotype: Williams and Downie, 1966b, pl.19, fig.7. **NOW** *Sophismatia crassoramosa*. Originally *Wetzeliella tenuivirgula* var. *crassoramosa*, subsequently *Wetzeliella tenuivirgula* subsp. *crassoramosa*, thirdly *Kisselevia tenuivirgula* subsp. *crassoramosa*, fourthly *Kisselevia crassoramosa*, fifthly *Charlesdowniea crassoramosa*, sixthly (and now) *Sophismatia crassoramosa*. Age: early Eocene.

"var. *crassoramosa*" Williams and Downie, 1966b, p.189–190; pl.19, figs.1,5,7; text-fig.50. Holotype: Williams and Downie, 1966b, pl.19, fig.7. **NOW** *Sophismatia crassoramosa*. Originally *Wetzeliella tenuivirgula* var. *crassoramosa*, subsequently *Wetzeliella tenuivirgula* subsp. *crassoramosa*, thirdly *Kisselevia tenuivirgula* subsp. *crassoramosa*, fourthly *Kisselevia crassoramosa*, fifthly *Charlesdowniea crassoramosa*, sixthly (and now) *Sophismatia crassoramosa*. Age: early Eocene.

"subsp. *tenuivirgula*". Autonym. Holotype: Williams and Downie, 1966b, pl.19, figs.2,4; text-fig.49. **Now redundant**. Originally *Wetzeliella tenuivirgula* subsp. *tenuivirgula*, subsequently *Kisselevia tenuivirgula* subsp. *tenuivirgula*, thirdly *Charlesdowniea tenuivirgula* subsp. *tenuivirgula*.

"var. *tenuivirgula*". Autonym. Holotype: Williams and Downie, 1966b, pl.19, fig.7. **Now redundant**.

?tianshanensis He Chengquan, 1991, p.102, pl.40, fig.6; pl.63, figs.1–4. Holotype: He Chengquan, 1991, pl.40, fig.6. Questionable assignment: Williams et al. (2015, p.318). Age: middle Eocene.

"triangulata" (Yu Jingxian, 1989, p.155–156, pl.58, figs.2,5,8) Lentin and Williams, 1993, p.678. Holotype: Yu Jingxian, 1989, pl.58, fig.2. **NOW** *Epelidinium*. Originally *Gochtodinium*, subsequently *Wetzeliella*, thirdly *Wilsonidium*, fourthly (and now) *Epelidinium*. Age: Eocene.

"uncinata" Michoux, 1988, p.36,38, pl.7, figs.1–6; pl.8, figs.1–7: text-fig.12. Holotype: Michoux, 1988, pl.7, figs.1–5; text-fig.12. **NOW** *Dolichodinium*. Originally *Wetzeliella*, subsequently (and now) *Dolichodinium*. Age: early Eocene.

"unicaudalis" Caro, 1973, p.366,368, pl.5, figs.1,9. Holotype: Caro, 1973, pl.5, fig.1. **NOW** *Dolichodinium*? Originally *Wetzeliella*, subsequently (and now) *Dolichodinium*? Age: early Eocene.

"varielongituda" Williams and Downie, 1966b, p.196–197, pl.20, figs.4,8. Holotype: Williams and Downie, 1966b, pl.20, fig.4. **NOW** *Dracodinium*. Originally *Wetzeliella*, subsequently (and now) *Dracodinium*. Age: early Eocene.

"waipawaensis" Wilson, 1967c, p.493–494, figs.18,20. Holotype: Wilson, 1967c, fig.18. **NOW** *Petalodinium*. Originally *Wetzeliella* subgenus *Rhombodinium*, subsequently *Rhombodinium*, thirdly *Dracodinium*, fourthly (and now) *Petalodinium*. Age: early Eocene.

"wetzeli" Agelopoulos, 1967, p.17–18, pl.2, figs.4,5a–b. Holotype: Agelopoulos, 1967, pl.2, figs.5a–b. **NOW** *Dracodinium*. Originally *Wetzeliella*, subsequently (and now) *Dracodinium*. Age: Late Eocene.

xinjiangensis He Chengquan, 1991, p.102–103, pl.43, figs.1–9; pl.62, figs.1–5. Holotype: He Chengquan, 1991, pl.43, fig.3. Age: middle Eocene.

"WETZELIELLA subgenus APECTODINIUM" Costa and Downie, 1976, p.608. **NOW** *Apectodinium*. Originally *Wetzeliella* subgenus *Apectodinium*, subsequently (and now) *Apectodinium*. Costa and Downie (1976, p.608–609) assigned the following species to this subgenus: *Wetzeliella homomorpha*, *Wetzeliella hyperacantha*, *Wetzeliella parva* and *Wetzeliella paniculata*. Harland (1979c, p.63,66–67) assigned the following species to the subgenus: *Wetzeliella augusta*, *Wetzeliella quinquelata* and *Wetzeliella sumissa*. Entries for these species are included under the genus *Wetzeliella*. Type: Deflandre and Cookson, 1955, pl.5, fig.7; text-fig.19, as *Wetzeliella homomorpha*.

"WETZELIELLA subgenus RHOMBODINIUM" (Gocht, 1955, p.85) Alberti, 1961, p.9. **NOW** *Rhombodinium*. Originally (and now) *Rhombodinium*, subsequently *Wetzeliella* subgenus *Rhombodinium*. Alberti (1961, p.9–11) assigned the following species in this subgenus: *Wetzeliella draco*, *Wetzeliella rhomboidea* and questionably *Wetzeliella minuscula*. Wilson (1967c, p.493) assigned the following species to this subgenus: *Wetzeliella waipawaensis*. Jan du Chêne and Châteauneuf (1975, p.30) assigned the following species to this subgenus: *Wetzeliella perforata*. Entries for these species are included under the genus *Wetzeliella*. Type: Gocht, 1955, text-fig.1c, as *Rhombodinium draco*.

"WETZELIELLA subgenus WETZELIELLA". Autonym. **Now redundant**. Type: Eisenack, 1938b, fig.4, as *Wetzeliella articulata*.

"WETZELIOPSIS" Beju, 1978, p.4. **Name not validly published**: no description. **Taxonomic senior synonym**: *Endoscrinium*, by implication, as the type of *Wetzeliopsis* is now included in that genus. Type: Cookson and Eisenack, 1958, pl.10, fig.1, as *Wetzeliella irregularis*.

***"irregularis"** (Cookson and Eisenack, 1958, p.28–29, pl.10, figs.1–2) Beju, 1978, p.4. Holotype: Cookson and Eisenack, 1958, pl.10, fig.1; Jan du Chêne et al., 1986a, pl.109, figs.1–2. **Combination not validly published**:

basionym not fully referenced. **NOW** *Endoscrinium*. Originally *Wetzeliella*, subsequently *Wetzeliopsis* (name not validly published), thirdly *Scriniodinium?*, fourthly *Tubotuberella*, fifthly (and now) *Endoscrinium*. Taxonomic junior synonym: *Wetzeliella meckelfeldensis*, according to Costa and Downie (1979, p.43) — however, Lentin and Williams (1981, p.290) retained *Wetzeliella meckelfeldensis*. Age: Late Jurassic.

WHITECLIFFIA Pearce, 2010, p.68. Type: Clarke and Verdier, 1967, pl.17, fig.1, as *Pterospermopsis spinosa*.

**spinosa* (Clarke and Verdier, 1967, p.77–78, pl.17, figs.1–2; text-fig.31) Pearce, 2010, p.68. Holotype: Clarke and Verdier, 1967, pl.17, fig.1. Originally *Pterospermopsis* (Appendix A), subsequently *Pterospermella* (Appendix A), thirdly *Thalassiphora?*, fourthly (and now) *Whitecliffia*. Taxonomic junior synonym: *Hexagonifera perforata* (name not validly published), according to Slimani (2001a, p.194). Age: Santonian.

WIGGINSIELLA Lucas-Clark, 1987, p.160–161. This name was not validly published in Helenes (1984, p.111) since that author did not provide a description. Type: Lucas-Clark, 1987, pl.1, figs.1–9, as *WigginsIELLA grandstandica*.

canadensis (Singh, 1983, p.141, pl.49, figs.1–3) Lucas-Clark, 1987, p.164. Emendation: Lucas-Clark, 1987, p.164, as *WigginsIELLA canadensis*. Holotype: Singh, 1983, pl.49, fig.1; Jan du Chêne et al., 1986a, pl.114, fig.3. Originally *Spongodinium*, subsequently (and now) *WigginsIELLA*. Age: early Cenomanian.

**grandstandica* Lucas-Clark, 1987, p.162,164, pl.1, figs.1–14; text-figs.2A–E. Holotype: Lucas-Clark, 1987, pl.1, figs.1–9; Fensome et al., 1995, figs.1–4 — p.1523. Age: late Albian.

WILLEIDINIUM Feist-Burkhardt, 1995a, p.168,170–171. Type: Feist-Burkhardt, 1995a, pl.1, figs.1–3; text-fig.5, nos.1a–b, as *Willeidinium baiocassinum*.

**baiocassinum* Feist-Burkhardt, 1995a, p.171–172, pl.1, figs.1–6; pl.2, figs.1–6; pl.3, figs.1–6; pl.4, figs.1–6; text-figs.1A–D,2A–C,3A–B; text-fig.5, nos.1a–b,2,3a–b,4a–b. Holotype: Feist-Burkhardt, 1995a, pl.1, figs.1–3; text-fig.5, nos.1a–b. Age: late Bajocian–early Bathonian.

WILLIAMSIDINIUM Lentin, 1983, p.148,150. Type: Lentin, 1983, pl.1, figs.1a–b, as *Williamsidinium banksianum*.

**banksianum* Lentin, 1983, p.150, pl.1, figs.1a–b,2–7; text-fig.1. Holotype: Lentin, 1983, pl.1, figs.1a–b; Fensome et al., 1993a, figs.1–2 — p.963. Age: Maastrichtian.

diaphanes Kurita, 2004, p.43–44, pl.3, figs.1–9; text-fig.10a. Holotype: Kurita, 2004, pl.3, figs.1–3; text-fig.10a. Age: late Oligocene.

WILSONIDIUM Lentin and Williams, 1976, p.138–139. Emendation: Williams et al., 2015, p.318. Type: Wilson, 1967c, figs.4–6, as *Wetzeliella tabulata*.

"?*aechmophorum*" (Benedek, 1972, p.41, pl.5, figs.7,11; text-fig.17) Lentin and Williams, 1976, p.139. Emendation: Benedek and Sarjeant, 1981, p.340–341, as *Gerlachidium aechmophorum*. Holotype: Benedek, 1972, pl.5, fig.7; text-fig.17; Benedek and Sarjeant, 1981, figs.7,9, nos.1–2; Fensome et al., 1993a, figs.1–2 — p.887. **NOW** *Gerlachidium*. Originally *Lejeunia* (generic name illegitimate), subsequently *Wilsonidium?*, thirdly *Lejeunecysta*, fourthly (and now) *Gerlachidium*. Questionable assignment: Lentin and Williams (1976, p.139). Age: middle-late Oligocene.

"**compactum**" Michoux, 1988, p.38–39, pl.9, figs.1–9; pl.10, figs.1–9 (not fig.10); text-figs.13A–B,14. Holotype: Michoux, 1988, pl.9, figs.1–3; text-figs.13A–B. **NOW** *Castellodinium*. Originally *Wilsonidium*, subsequently (and now) *Castellodinium*. Age: middle Eocene.

conspicuum (He Chengquan, 1991, p.103–104, pl.44, figs.6–12) Williams et al., 2015, p.318. Holotype: He Chengquan, 1991, pl.44, fig.10. Originally *Wilsonidium lineidentatum* subsp. *conspicuum*, subsequently (and now) *Wilsonidium conspicuum*. Age: early Eocene.

"**echinosuturatum**" (Wilson, 1967c, p.477,479, figs.3,22–25) Lentin and Williams, 1976, p.139. Holotype: Wilson, 1967c, figs.22–24. **NOW** *Vallodinium*? Originally *Wetzeliella*, subsequently *Wilsonidium*, thirdly (and now) *Vallodinium*? Age: middle Eocene.

"**glabrum**" (Cookson, 1956, p.186, pl.2, figs.1–5) Costa and Downie, 1979, p.45. Holotype: Cookson, 1956, pl.2, fig.1. **NOW** *Rhadinodinium*. Originally *Wetzeliella*, subsequently *Rhombodinium*, thirdly *Wilsonidium*, fourthly *Rhombodinium*?, fifthly (and now) *Rhadinodinium*. Age: Eocene.

"**intermedium**" (Cookson and Eisenack, 1961b, p.40, pl.1, figs.5–6) Costa and Downie, 1979, p.45. Holotype: Cookson and Eisenack, 1961b, pl.1, fig.5. **NOW** *Castellodinium*. Originally *Wetzeliella*, subsequently *Rhombodinium*, thirdly *Wilsonidium*, fourthly (and now) *Castellodinium*. Age: Eocene.

"**lineidentatum**" (Deflandre and Cookson, 1955, p.253–254, pl.5, fig.5; text-figs.17–18) Lentin and Williams, 1976, p.139. Holotype: Deflandre and Cookson, 1955, pl.5, fig.5. **NOW** *Stichodinium*? Originally *Wetzeliella*, subsequently *Wilsonidium*, thirdly (and now) *Stichodinium*? Age: Eocene.

"subsp. **conspicuum**" He Chengquan, 1991, p.103–104, pl.44, figs.6–12. Holotype: He Chengquan, 1991, pl.44, fig.10. **NOW** *Wilsonidium conspicuum*. Originally *Wilsonidium lineidentatum* subsp. *conspicuum*, subsequently (and now) *Wilsonidium conspicuum*. Age: early Eocene.

"subsp. **lineidentatum**". Autonym. Holotype: Deflandre and Cookson, 1955, pl.5, fig.5. **Now redundant**.

modicum Iakovleva, 2016, p.20 (on PDF initially published online), pl.7, figs.10–11; text-fig.4b (part). Holotype: Iakovleva, 2016, pl.7, figs.10–11. Age: earliest Eocene.

"**nigeriaense**" Jan du Chêne and Adedirán, 1985, p.31,33, pl.7, figs.1–6; pl.8, figs.1–6; pl.9, figs.1–5. Holotype: Jan du Chêne and Adedirán, 1985, pl.9, figs.1–2. **NOW** *Vallodinium*. Originally *Wilsonidium*, subsequently (and now) *Vallodinium*. Age: late Paleocene–early Eocene.

ornatum (Wilson, 1967c, p.481–482, figs.33–34) Lentin and Williams, 1976, p.139. Holotype: Wilson, 1967c, fig.33. Originally *Wetzeliella*, subsequently (and now) *Wilsonidium*, thirdly *Rhombodinium*?. Lentin and Williams (1981, p.244) retained this species in *Wilsonidium*. Age: early Eocene.

"**pechoricum**" Iakovleva and Heilmann-Clausen, 2007, p.1024,1025,1027–1031, fig.2, nos.1–5; fig.3, nos.1–12; fig.4, nos.1–6; fig.5, nos.1–4; fig.6, nos.1–4. Holotype: Iakovleva and Heilmann-Clausen, 2007, fig.2, nos.4–5, fig.3, no.1. **NOW** *Epelidinium*. Originally *Wilsonidium*, subsequently (and now) *Epelidinium*. Age: earliest Eocene.

"**?rugosum**" (Stanley, 1965, p.222–223, pl.21, figs.6–11) Lentin and Williams, 1976, p.140. Holotype: Stanley, 1965, pl.21, figs.10–11. **NOW** *Spinidinium*. Originally *Wetzeliella*, subsequently *Wilsonidium*?, thirdly *Wetzeliella*?, fourthly (and now) *Spinidinium*. Questionable assignment: Lentin and Williams (1976, p.140). Age: Paleocene.

stellatum Antolinez-Delgado and Oboh-Ikuenobe, 2007, p.60–61, pl.2, figs.1–2,6,8. Holotype: Antolinez-Delgado and Oboh-Ikuenobe, 2007, pl.2, fig.1. Age: Paleocene–?earliest Eocene.

"*subtile*" He Chengquan and Wang Kede, 1990, p.418,424, pl.2, fig.3; text-fig.2. Holotype: He Chengquan and Wang Kede, 1990, pl.2, fig.3; text-fig.2. **NOW** *Stichodinium*. Originally *Wilsonidium*, subsequently (and now) *Stichodinium*. Age: late early Eocene.

**tabulatum* (Wilson, 1967c, p.473–474, figs.2a–b,4–7,10–11) Lentin and Williams, 1976, p.138,140. Holotype: Wilson, 1967c, figs.4–6; Fensome et al., 1996, figs.1–3 — p.2397. Originally *Wetzelietta*, subsequently (and now) *Wilsonidium*. Age: late Eocene.

"*tesselatum*" (Châteauneuf and Gruas-Cavagnetto, 1978, p.65–66, pl.1, figs.1–2) Islam, 1983c, p.90. Holotype: Châteauneuf and Gruas-Cavagnetto, 1978, pl.1, figs.1–2. **NOW** *Axioidinium tessellatum*. Originally *Apectodinium homomorphum* subsp. *tessellatum*, subsequently *Wilsonidium tessellatum*, thirdly (and now) *Axioidinium tessellatum*. Age: early Eocene (Sparnacian).

"*triangulatum*" (Yu Jingxian, 1989, p.155–156, pl.58, figs.2,5,8) He Chengquan et al., 2009, p.505. Holotype: Yu Jingxian, 1989, pl.58, fig.2. **NOW** *Epelidinium*. Originally *Gochtodinium*, subsequently *Wetzelietta*, thirdly *Wilsonidium*, fourthly (and now) *Epelidinium*. Age: Eocene.

"*tuberosuturatum*" He Chengquan, 1991, p.103, pl.37, figs.7–8. Holotype: He Chengquan, 1991, pl.37, fig.8. **NOW** *Castellodinium?* Originally *Wilsonidium*, subsequently (and now) *Castellodinium?* Age: middle Eocene.

WILSONISPHAERA Slimani, 1994, p.67–68. Taxonomic junior synonym: *Glaphyrosphaera*, according to Schiøler and Wilson (1995, p.511). Type: Corradini, 1973, pl.31, fig.2, as *Thalassiphora?* *petila*.

**petila* (Corradini, 1973, p.186, pl.31, figs.1–2) Slimani, 1994, p.68–69. Emendation: Slimani, 1994, p.68, as *Wilsonisphaera petila*. Holotype: Corradini, 1973, pl.31, fig.2. Originally *Thalassiphora?*, subsequently *Disphaeria*, thirdly (and now) *Wilsonisphaera*. Taxonomic junior synonym: *Glaphyrosphaera glabra*, according to Schiøler and Wilson (1995, p.511). Age: Senonian.

WITTAUDINIUM Bucefalo Palliani and Riding, 1998, p.166,168–169. Type: Bucefalo Palliani and Riding, 1998, fig.11, no.1, as *Wittaudinium minutum*.

**minutum* Bucefalo Palliani and Riding, 1998, p.169–170, fig.10, nos.1–5; fig.11, nos.1–5. Holotype: Bucefalo Palliani and Riding, 1998, fig.11, no.1. Age: late Toarcian–Aalenian.

WOODINIA Riding and Helby, 2001d, p.97,99. Taxonomic junior synonym: *Taltarnia*, by implication in Riding and Helby (2001e, p.133), who included the only citation of this generic name, as "*Taltarnia* spp", in synonymy with *Woodinia bensonii*. Type: Riding and Helby, 2001d, figs.19K–M, as *Woodinia pedis*.

bensonii Riding and Helby, 2001e, p.133,135–136, figs.13A–T. Holotype: Riding and Helby, 2001e, figs.13A–B. Age: Oxfordian.

**pedis* Riding and Helby, 2001d, p.99, figs.19A–T. Holotype: Riding and Helby, 2001d, figs.19K–M. N.I.A. Age: late Callovian.

WREVITTIA Helenes and Lucas-Clark, 1997, p.186–187. Type: Eisenack and Cookson, 1960, pl.1, fig.4, as *Gonyaulax helicoidea*.

cassidata (Eisenack and Cookson, 1960, p.3, pl.1, figs.5–6) Helenes and Lucas-Clark, 1997, p.188. Emendations: Sarjeant, 1966b, p.125, as *Gonyaulacysta cassidata*; Helenes and Lucas-Clark, 1997, p.190, as *Wrevittia cassidata*. Holotype: Eisenack and Cookson, 1960, pl.1, fig.5; Jan du Chêne et al., 1986a, pl.40, figs.6–7. Originally *Gonyaulax helicoidea* subsp. *cassidata*, subsequently *Gonyaulax cassidata*, thirdly *Gonyaulacysta cassidata*, fourthly (and now) *Wrevittia cassidata*. Age: Aptian–Cenomanian.

?*diutina* (Duxbury, 1977, p.34–35, pl.1, figs.3–4; text-fig.9) Helenes and Lucas-Clark, 1997, p.190. Holotype: Duxbury, 1977, pl.1, fig.3; text-fig.9.; Jan du Chêne et al., 1986a, pl.41, figs.3–4. Originally *Gonyaulacysta*, subsequently *Millioudodinium*, thirdly (and now) *Wrevittia*?. Questionable assignment: Helenes and Lucas-Clark (1997, p.190). Taxonomic senior synonym: *Gonyaulax* (as *Gonyaulacysta*, now *Wrevittia*) *helicoidea*, according to Stover and Helby (1987d, p.287) — however, Jan du Chêne et al. (1986a, p.130) and Lentin and Williams (1989, p.152) retained *Gonyaulacysta* (now *Wrevittia*?) *diutina*. Age: Berriasian–Hauterivian.

subsp. *diutina*. Autonym. Holotype: Duxbury, 1977, pl.1, fig.3; text-fig.9; Jan du Chêne et al., 1986a, pl.41, figs.3–4. Originally *Gonyaulacysta diutina* subsp. *diutina*, subsequently (and now) *Wrevittia*? *diutina* subsp. *diutina*.

subsp. *tabulacornuta* (Prössl, 1990, p.102–103, pl.8, figs.1–2,4–5 ex Prössl, 1992b, p.113,115) Williams et al. 1998, p.642. Originally *Gonyaulacysta diutina* subsp. *tabulacornuta*, subsequently (and now) *Wrevittia*? *diutina* subsp. *tabulacornuta*. The name *Gonyaulacysta diutina* subsp. *tabulacornuta* was not validly published in Prössl (1990, p.102–103), since that author did not specify the lodgment of the holotype. Age: early Barremian.

**helicoidea* (Eisenack and Cookson, 1960, p.2–3, pl.1, figs.4–6,9 [figs.5–6 are now *Wrevittia cassidata*]) Helenes and Lucas-Clark, 1997, p.187. Emendations: Sarjeant, 1966b, p.116, as *Gonyaulacysta helicoidea*; Helenes and Lucas-Clark, 1997, p.187–188, as *Wrevittia helicoidea*. Holotype: Eisenack and Cookson, 1960, pl.1, fig.4; Jan du Chêne et al., 1986a, pl.40, figs.4–5. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly (and now) *Wrevittia*. Taxonomic junior synonym: *Gonyaulacysta* (now *Wrevittia*?) *diutina*, according to Stover and Helby (1987d, p.287) -however, Jan du Chêne et al. (1986a, p.130) and Lentin and Williams (1989, p.152) retained *Gonyaulacysta* (now *Wrevittia*?) *diutina*. Age: Neocomian–Aptian.

?*perforobtusa* (Duxbury, 1977, p.39, pl.1, fig.1; text-fig.13) Helenes and Lucas-Clark, 1997, p.192. Holotype: Duxbury, 1977, pl.1, fig.1; text-fig.13; Jan du Chêne et al., 1986a, pl.44, figs.1–2. Originally *Gonyaulacysta*, subsequently *Gonyaulacysta*?, thirdly (and now) *Wrevittia*?. Questionable assignment: Helenes and Lucas-Clark (1997, p.192). Age: Hauterivian.

XANDARODINIUM Reid, 1977, p.446–447. Matsuoka (1992, p.451) considered *Sumatradinium* to be the possible taxonomic senior synonym of this genus. Type: Reid, 1977, pl.3, figs.27–28, as *Xandarodinium xanthum*.

"*variabile*" Bujak, 1984, p.194–195, pl.4, figs.7–10; text-fig.3. Holotype: Bujak, 1984, pl.4, fig.8; Head, 1994b, pl.11, figs.4–5,7–8; text-fig.3. **NOW** *Trinovantedinium*. Originally *Xandarodinium*, subsequently (and now) *Trinovantedinium*. Age: late Miocene–early Pleistocene.

**xanthum* Reid, 1977, p.447–448, pl.3, figs.27–29. Holotype: Reid, 1977, pl.3, figs.27–28; Fensome et al., 1995, figs.1–2 — p.1921. Motile equivalent: *Protoperidinium divaricatum* (Meunier, 1919) Parke and Dodge, 1976, according to Matsuoka (1984b, p.2) — however, see Head (1996b, p.1213). Age: Holocene.

XENASCUS Cookson and Eisenack, 1969, p.7. Emendations: Yun Hyesu, 1981, p.60; Stover and Helby, 1987a, p.128. Taxonomic senior synonym: *Phoberocysta*, by implication in Davey and Verdier (1971, p.27), who considered the "type species" of *Xenascus*, *Xenascus australensis*, to be a taxonomic junior synonym of *Hystrichosphaera* (as *Phoberocysta*, now *Xenascus*) *ceratioides* — however, Lentin and Williams (1973, p.143) retained *Xenascus*. Type: Cookson and Eisenack, 1969, figs.11–J, as *Xenascus australensis*.

asperatus Stover and Helby, 1987a, p.128–129, figs.26A–M,27. Holotype: Stover and Helby, 1987a, figs.26J–K; Fensome et al., 1996, figs.5–6 — p.2047. Age: late Albian.

**australensis* Cookson and Eisenack, 1969, p.7, figs.11–K. Holotype: Cookson and Eisenack, 1969, figs.11–J. Taxonomic senior synonym: *Hystrichosphaera* (as *Phoberocysta*, now *Xenascus*) *ceratioides*, according to Davey

and Verdier (1971, p.26) — however, Lentin and Williams (1985, p.374) retained *Xenascus australensis*. Age: Albian–Cenomanian.

blastema (Davey, 1970, p.356, pl.5, figs.4–5) Stover and Helby, 1987a, p.128. Holotype: Davey, 1970, pl.5, fig.4. Originally *Odontochitina*, subsequently (and now) *Xenascus*. Taxonomic senior synonym: *Hystrichosphaera* (as *Phoberocysta*, now *Xenascus*) *ceratioides*, according to Davey and Verdier (1971, p.27) — however, Stover and Helby (1987a, p.128) retained *Xenascus blastema*. N.I.A.. Age: Cenomanian.

ceratioides (Deflandre, 1937b, p.66–67, pl.12 [al. pl.9], figs.7–8) Lentin and Williams, 1973, p.144. Holotype: Deflandre, 1937b, pl.12 (al. pl.9), figs.7–8; Fensome et al., 1991, fig.1 — p.601; fig.1 — p.605. Originally *Hystrichosphaera*, subsequently *Pseudoceratium*, thirdly *Spiniferites*, fourthly *Phoberocysta*, fifthly (and now) *Xenascus*. Taxonomic junior synonyms: *Endoceratium* (now *Xenascus*) *perforatum*, according to Davey and Verdier (1971, p.27) — however, Yun Hyesu (1981, p.62) retained *Endoceratium* (as *Xenascus*) *perforatum*; *Xenascus australensis*, according to Davey and Verdier (1971, p.26) — however, Lentin and Williams (1985, p.374) retained *Xenascus australensis*; *Odontochitina blastema*, according to Davey and Verdier (1971, p.27) — however, Stover and Helby (1987a, p.128) retained *Odontochitina* (as *Xenascus*) *blastema*. Age: Senonian.

subsp. **ceratioides**. Autonym. Holotype: Deflandre, 1937b, pl.12 (al. pl.9), figs.7–8.

subsp. **procerus** Yun Hyesu, 1981, p.61, pl.14, figs.5,8–9. Holotype: Yun Hyesu, 1981, pl.14, fig.9; Fensome et al., 1991, fig.2 — p.601; fig.3 — p.717. Age: early Santonian.

?dubius (Corradini, 1973, p.182, pl.29, figs.6a–b) Lentin and Williams, 1993, p.681. Holotype: Corradini, 1973, pl.29, figs.6a–b. Originally *Phoberocysta?*, subsequently (and now) *Xenascus?*. Questionable assignment: Lentin and Williams (1993, p.681). This combination was not validly published in Monteil (1991b, p.471), since that author did not fully reference the basionym. Age: Senonian.

esbeckianus Yun Hyesu, 1981, p.61–62, pl.14, figs.2–4,6. Holotype: Yun Hyesu, 1981, pl.14, fig.3; Fensome et al., 1991, fig.2 — p.639. Age: early Santonian.

ghanaensis Masure et al., 1998, p.266–267, pl.3, figs.14–15. Holotype: Masure et al., 1998, pl.3, figs.14–15. Age: Maastrichtian.

gochti (Corradini, 1973, p.179–181, pl.29, figs.1a–b,3; text-fig.9) Stover and Evitt, 1978, p.88. Holotype: Corradini, 1973, pl.29, figs.1a–b; text-fig.9. Originally *Phoberocysta*, subsequently (and now) *Xenascus*. Age: Senonian.

perforatus (Vozzhennikova, 1967, p.188–189, pl.112, figs.1a–b,3; pl.113, fig.1) Yun Hyesu, 1981, p.62. Emendation: Yun Hyesu, 1981, p.62, as *Xenascus perforatus* — however, see Lentin and Vozzhennikova (1990, p.119). Holotype: Vozzhennikova, 1967, pl.112, fig.1a; Lentin and Vozzhennikova, 1990, pl.16, fig.5; text-fig.69. Originally *Endoceratium*, subsequently (and now) *Xenascus*. Taxonomic senior synonym: *Hystrichosphaera* (as *Phoberocysta*, now *Xenascus*) *ceratioides*, according to Davey and Verdier (1971, p.27) — however, Yun Hyesu (1981, p.62) retained *Xenascus perforatus*. Lentin and Vozzhennikova (1990, p.118–119) provided an "expanded description" for this species. Age: Late Cretaceous.

plotei Below, 1981a, p.21–22, pl.2, figs.8–9; pl.8, figs.20a–b,21; pl.14, fig.15; text-fig.10. Holotype: Below, 1981a, pl.2, fig.9; text-fig.10; Fensome et al., 1991, figs.2–3 — p.713. Age: late Aptian–early Cenomanian.

sarjeantii (Corradini, 1973, p.181, pl.29, figs.2a–b,4a–b; pl.37, fig.3) Stover and Evitt, 1978, p.88. Holotype: Corradini, 1973, pl.29, figs.2a–b. Originally *Phoberocysta*, subsequently (and now) *Xenascus*. Age: Senonian.

serpaglii (Corradini, 1973, p.181–182, pl.29, figs.5,7a–b; pl.37, fig.4) Stover and Evitt, 1978, p.88. Holotype: Corradini, 1973, pl.29, figs.7a–b. Originally *Phoberocysta*, subsequently (and now) *Xenascus*. Age: Senonian.

spinatus Prince et al., 2008, p.91, pl.2, figs.4–7. Holotype: Prince et al., 2008, pl.2, figs.4–5. Age: late Santonian.

velimensis Žitt et al., 1997, p.146–147, pl.4, figs.1–4; text-fig.5. Holotype: Žitt et al., 1997, pl.1, figs.1–4. Age: early Turonian.

wetzeli Slimani, 1996, p.380–381, pl.3, figs.F–G; pl.4, figs.A–B; text-figs.7A–B ex Slimani, 2001b, p.9, pl.2, figs.3–4,7–8. Holotype: Slimani, 1996, pl.4, figs.A–B; Slimani, 2001b, pl.2, figs.3–4. Taxonomic junior synonym: *Odontochitina wetzelii* (name not validly published), according to Slimani (2001a, p.194; 2001b, p.9). This name was not validly published in Slimani (1996) since no English or Latin description or diagnosis was provided. Age: Campanian–early Maastrichtian (Campanian–?Maastrichtian according to Slimani, 1996, p.381).

yunii Prince et al., 2008, p.91–92, pl. 2, fig.8,9. Holotype: Prince et al., 2008, pl.2, fig.8. Age: middle Santonian.

XENICODINIUM Klement, 1960, p.53–54. Taxonomic junior synonym: *Stomodinium*, according to Chen et al. (1988, p.31). Type: Klement, 1960, pl.5, figs.14–15, as *Xenicodinium densispinosum*.

conispinum Stover and Hardenbol, 1994, p.40, pl.7, figs.42a–b,43a–b. Holotype: Stover and Hardenbol, 1994, pl.7, figs.42a–b. Age: Rupelian.

crassum (He Chengquan, 1984a, p.770–771, pl.1, figs.12–14; text-fig.2) Chen et al., 1988, p.31. Holotype: He Chengquan, 1984a, pl.1, fig.12. Originally *Stomodinium*, subsequently (and now) *Xenicodinium*. Age: early-middle Eocene.

delicatum Hultberg, 1985c, p.157, pl.12, figs.J–K. Holotype: Hultberg, 1985c, pl.12, figs.J–K. Age: late Danian.

**densispinosum* Klement, 1960, p.54, pl.5, figs.14–15. Holotype: Klement, 1960, pl.5, figs.14–15. Age: early Kimmeridgian.

echiniferum Stover and Hardenbol, 1994, p.40–41, pl.7, figs.44a–c,45a–c. Holotype: Stover and Hardenbol, 1994, pl.7, figs.44a–c. Age: Rupelian.

"*hispidum*" Drugg, 1970a, p.120–121, figs.12–14 (not 15). Emendation: Lentin et al., 1994, p.571, as *Sumatradinium hispidum*. Holotype: Drugg, 1970a, fig.12; Lentin et al., 1994, pl.1, fig.1; Fensome et al., 1995, fig.1 — p.1545. **NOW** *Sumatradinium*. Originally *Xenicodinium*, subsequently (and now) *Sumatradinium*. Age: middle Miocene–Pliocene.

lubricum Morgenroth, 1968, p.554, pl.47, fig.9; pl.48, fig.1. Holotype: Morgenroth, 1968, pl.47, fig.9. Age: Danian.

meandriforme Hultberg, 1985c, p.156–157, pl.12, figs.H–I. Holotype: Hultberg, 1985c, pl.12, figs.H–I. Age: late Danian.

reticulatum Hansen, 1977, p.12, figs.20D–G. Holotype: Hansen, 1977, figs.20D–G. Age: Danian.

"*rugulatum*" Hansen, 1977, p.12–13, figs.20H–J. Holotype: Hansen, 1977, figs.20H–J. Originally *Xenicodinium*, subsequently *Tectatodinium*. **Taxonomic senior synonym:** *Tectatodinium pellitum*, questionably according to Head (1994a, p.308), and according to Head and Nøhr-Hansen (1999, p.577). Age: Danian.

suturispinosum (He Chengquan, 1991, p.120, pl.13, fig.8) Lentin and Williams, 1993, p.682. Holotype: He Chengquan, 1991, pl.13, fig.8. Originally *Stomodinium*, subsequently (and now) *Xenicodinium*. Age: early Eocene.

verrucosum (He Chengquan, 1991, p.119–120, pl.13, figs.1,7; text-fig.18) Lentin and Williams, 1993, p.683. Holotype: He Chengquan, 1991, pl.13, fig.7; text-fig.18. Originally *Stomodinium*, subsequently (and now) *Xenicodinium*. Age: middle Eocene.

XENIKOON Cookson and Eisenack, 1960a, p.14–16. Type: Cookson and Eisenack, 1960a, pl.3, fig.17, as *Xenikoon australis*.

"**americanus**" Habib, 1970, p.372, pl.10, fig.10. Holotype: Habib, 1970, pl.10, fig.10. **NOW** *Craspedodinium*. Originally *Xenikoon*, subsequently (and now) *Craspedodinium*. Age: Albian–Cenomanian.

***australis** Cookson and Eisenack, 1960a, p.16, pl.3, figs.16–17. Holotype: Cookson and Eisenack, 1960a, pl.3, fig.17. Age: late Turonian–Campanian.

"**XIPHOPHORIDIUM**" Sarjeant, 1966b, p.146–147. **Taxonomic senior synonym:** *Dinopterygium*, according to Fensome et al. (2009, p.27). Taxonomic senior synonym: *Oodnadattia*, according to Below (1981a, p.64) — however, Lentin and Williams (1981, p.294) retained *Xiphophoridium*. Nomenclatural junior synonym: *Pyramidium*, which has the same type. Type: Cookson and Eisenack, 1962b, pl.2, fig.1, as *Hystrichodinium alatum*.

"***alatum**" (Cookson and Eisenack, 1962b, p.487–488, pl.2, figs.1–4) Sarjeant, 1966b, p.147. Emendation: Sarjeant, 1966b, p.147, as *Xiphophoridium alatum*. Holotype: Cookson and Eisenack, 1962b, pl.2, fig.1; Fensome et al., 1993a, fig.1 — p.893; Fauconnier and Masure, 2004, pl.80, fig.6. **NOW** *Dinopterygium*. Originally *Hystrichodinium*, subsequently *Xiphophoridium*, thirdly *Pyramidium* (genus name illegitimate), fourthly *Oodnadattia*, fifthly (and now) *Dinopterygium*. Age: Albian–Cenomanian.

"**asteriforme**" Yun Hyesu, 1981, p.57–58, pl.8, figs.7,9–10. Holotype: Yun Hyesu, 1981, pl.8, fig.9; Fensome et al., 1991, fig.2 — p.575; Fauconnier and Masure, 2004, pl.80, fig.4. **NOW** *Dinopterygium*. Originally *Xiphophoridium*, subsequently (and now) *Dinopterygium*. Age: early Santonian.

XISHADINIUM He Chengquan et al., 2009, p.525,647. Type: Wall and Dale, 1968c, pl.4, fig.19, as cyst of *Diplopsalis lenticula*.

***circulatum** He Chengquan et al., 2009, p.525,647, pl.16, figs.19–20. Holotype: Wall and Dale, 1968c, pl.4, fig.19, as cyst of *Diplopsalis lenticula*. Age: middle-late Pleistocene.

XUIDINIUM Mao Shaozhi and Norris, 1988, p.53–54. Type: Mao Shaozhi and Norris, 1988, pl.16, fig.10, as *Xuidinium laevigatum*.

***laevigatum** Mao Shaozhi and Norris, 1988, p.54, pl.16, figs.7–11. Holotype: Mao Shaozhi and Norris, 1988, pl.16, fig.10; Fensome et al., 1995, fig.3 — p.1593. Age: late Paleocene.

XYLOCHOARION Erkmen and Sarjeant, 1978, p.401,403–404. Type: Erkmen and Sarjeant, 1978, figs.1,5–6, as *Xylochoarion hacknessense*.

***hacknessense** Erkmen and Sarjeant, 1978, p.404,406, figs.1–11. Holotype: Erkmen and Sarjeant, 1978, figs.1,5–6; Fensome et al., 1995, figs.1–2,5 — p.1539. Age: Callovian.

YALKALPODINIUM Morgan, 1980, p.34. Emendation: Riding and Helby, 2001d, p.99. Type: Morgan, 1980, pl.31, figs.17–18, as *Yalkalpodinium scutum*.

"**areolatum**" (Cookson and Eisenack, 1960b, p.253, pl.38, figs.7–8) Morgan, 1980, p.34. Holotype: Cookson and Eisenack, 1960b, pl.38, fig.8. **NOW** *Cyclonephelium*. Originally (and now) *Cyclonephelium*, subsequently *Yalkalpodinium*. Age: Tithonian.

elangianum Riding and Helby, 2001d, p.101–102, figs.20A–P. Holotype: Riding and Helby, 2001d, figs.20I–K. Age: late Callovian–Oxfordian.

indicum (Jain and Taugourdeau-Lantz, 1973, p.64, pl.4, figs.1–2) Morgan, 1980, p.34. Holotype: Jain and Taugourdeau-Lantz, 1973, pl.4, fig.1. Originally *Ovoidinium*, subsequently *Ovoidinium?*, thirdly (and now) *Yalkalpodinium*. Age: ?Aptian–early Albian.

playfordii Mantle, 2009b, p.98–100, pl.7, figs.1–5; text-figs.1A,B. Holotype: Mantle, 2009b, pl.7, fig.3. Age: Callovian.

**scutum* Morgan, 1980, p.34, pl.31, figs.15–18. Holotype: Morgan, 1980, pl.31, figs.17–18; Fensome et al., 1996, figs.3–4 — p.2345. N.I.A. Age: Barremian–late Albian.

YNEZIDINIUM Lucas-Clark and Helenes, 2000, p.114–115. Type: Lucas-Clark and Helenes, 2000, pl.1, figs.1–3, as *Ynezidinium malloyii*.

brevisulcatum (Michoux, 1985, p.144–145, pl.1, figs.9–11; text-fig.4) Lucas-Clark and Helenes, 2000, p.118. Holotype: Michoux, 1985, pl.1, fig.10; Jan du Chêne et al., 1986a, pl.56, figs.4–6. Originally *Impagidinium*, subsequently (and now) *Ynezidinium*. Age: middle Eocene.

latolineatum (Yun Hyesu, 1981, p.10–11, pl.9, figs.10a–b, 15a–b; text-figs.2a–c) Lucas-Clark and Helenes, 2000, p.118. Holotype: Yun Hyesu, 1981, pl.9, figs.10a–b; text-figs.2a–b; Jan du Chêne et al., 1986a, pl.75, figs.12–14; Fensome et al., 1991, figs.1–4 — p.659. Originally *Leptodinium*, subsequently (and now) *Ynezidinium*. Age: early Santonian.

**malloyi* Lucas-Clark and Helenes, 2000, p.115, 117–118, pl.1, figs.1–10, text-figs.4–6. Holotype: Lucas-Clark and Helenes, 2000, pl.1, figs.1–3, text-fig.4. Age: late Paleocene.

pentahedrias (Damassa, 1979b, p.202, 204, pl.3, figs.22, 24–26, 28–29; pl.4, figs.1–3, 6; text-fig.4) Lucas-Clark and Helenes, 2000, p.120. Holotype: Damassa, 1979b, pl.3, fig.25; Jan du Chêne et al., 1986a, pl.59, figs.7–8. Originally *Impagidinium*, subsequently (and now) *Ynezidinium*. N.I.A. Age: early Paleocene.

tazaense Slimani et al., 2008, p.334, 336, figs.5A–L, 6A–B. Holotype: Slimani et al., 2008, figs.5A–D, 6A–B. Age: early Danian.

waipawaense (Wilson, 1988, p.24, pl.13, figs.1a–b; pl.14, figs.1a–c, 2a–b) Lucas-Clark and Helenes, 2000, p.120. Holotype: Wilson, 1988, pl.14, figs.1a–c; Fensome et al., 1996, figs.1–3 — p.2439. Originally *Impagidinium*, subsequently (and now) *Ynezidinium*. Age: early-middle Eocene.

YOLKINIGYMNIIUM Lentin and Vozzhennikova, 1990, p.30–31. Type: May, 1977, pl.2, figs.9–10, as *Dinogymnium lanceolatum*.

elongatum (May, 1977, p.112, 114, pl.2, figs.11–12) Lentin and Vozzhennikova, 1990, p.31. Holotype: May, 1977, pl.2, figs.11–12; Lentin and Vozzhennikova, 1990, Appendix, A, fig.42. Originally *Dinogymnium*, subsequently (and now) *Yolkinigymnium*. Age: late Campanian–early Maastrichtian.

expansum Firth, 1993, p.201, pl.5, figs.5–8. Holotype: Firth, 1993, pl.5, figs.6–7. Age: early Maastrichtian.

**lanceolatum* (May, 1977, p.115, pl.2, figs.9–10) Lentin and Vozzhennikova, 1990, p.30. Holotype: May, 1977, pl.2, figs.9–10; Lentin and Vozzhennikova, 1990, Appendix A, fig.41. Originally *Dinogymnium*, subsequently (and now) *Yolkinigymnium*. Age: late Campanian–early Maastrichtian.

ZHONGYUANDINIUM Zhu Shenzhao, He Chengquan and Jin Guangxing in He Chengquan et al., 1989, p.71–72. Emendation: Mao Shaozhi et al., 1995, p.61–62. Type: He Chengquan et al., 1989, pl.10, fig.11; text-fig.12, as *Zhongyuandinium decorosum*.

biconicum Zhu Shenzhao, He Chengquan and Jin Guangxing in He Chengquan et al., 1989, p.72, pl.8, fig.15. Holotype: He Chengquan et al., 1989, pl.8, fig.15. Age: Early Tertiary.

craciatum Zhu Shenzhao, He Chengquan and Jin Guangxing in He Chengquan et al., 1989, p.72, pl.9, figs.11–16; text-fig.11. Holotype: He Chengquan et al., 1989, pl.9, fig.16; text-fig.11. Age: Early Tertiary.

***decorosum** Zhu Shenzhao, He Chengquan and Jin Guangxing in He Chengquan et al., 1989, p.72–73, pl.10, figs.3–16, pl.28, figs.1–8; text-fig.12. Holotype: He Chengquan et al., 1989, pl.10, fig.11; text-fig.12. Taxonomic junior synonyms: *Zhongyuandinium granorugosum* and *Zhongyuandinium simplex*, both according to Mao Shaozhi et al. (1995, p.62). Age: Early Tertiary.

elongatum Zhu Shenzhao, He Chengquan and Jin Guangxing in He Chengquan et al., 1989, p.73, pl.8, figs.16–21, pl.9, figs.1–3; text-fig.13. Holotype: He Chengquan et al., 1989, pl.9, fig.1; text-fig.13. Age: Early Tertiary.

"subsp. **elongatum**". Autonym. Holotype: He Chengquan et al., 1989, pl.9, fig.1; text-fig.13. **Now redundant**. Taxonomic junior synonym: *Zhongyuandinium elongatum* subsp. *latum*, according to Mao Shaozhi et al. (1995, p.63,99).

"subsp. **latum**" Zhu Shenzhao, He Chengquan and Jin Guangxing in He Chengquan et al., 1989, p.73–74, pl.8, figs.16–21. Holotype: He Chengquan et al., 1989, pl.8, fig.18. **Taxonomic senior synonym:** *Zhongyuandinium elongatum* subsp. *elongatum*, according to Mao Shaozhi et al. (1995, p.63,99). Age: Early Tertiary.

"granorugosum" Zhu Shenzhao, He Chengquan and Jin Guangxing in He Chengquan et al., 1989, p.74, pl.9, figs.8–10. Holotype: He Chengquan et al., 1989, pl.9, fig.9. **Taxonomic senior synonym:** *Zhongyuandinium decorosum*, according to Mao Shaozhi et al. (1995, p.62). Age: Early Tertiary.

intermedium Gao Ruiqi et al., 1992a, p.22,28, pl.3, figs.10–13. Holotype: Gao Ruiqi et al., 1992a, pl.3, fig.10. Age: Campanian.

minus Zhu Shenzhao, He Chengquan and Jin Guangxing in He Chengquan et al., 1989, p.74, pl.9, figs.6–7. Holotype: He Chengquan et al., 1989, pl.9, fig.7. Age: Early Tertiary.

"simplex" Zhu Shenzhao, He Chengquan and Jin Guangxing in He Chengquan et al., 1989, p.74, pl.10, figs.1–2. Holotype: He Chengquan et al., 1989, pl.10, fig.1. **Taxonomic senior synonym:** *Zhongyuandinium decorosum*, according to Mao Shaozhi et al. (1995, p.62). Age: Early Tertiary.

striatum Zhu Shenzhao, He Chengquan and Jin Guangxing in He Chengquan et al., 1989, p.74–75, pl.9, figs.4–5. Holotype: He Chengquan et al., 1989, pl.9, fig.4. Age: Early Tertiary.

turbinatum Zhu Shenzhao, He Chengquan and Jin Guangxing in He Chengquan et al., 1989, p.75, pl.8, figs.1–14; text-fig.14. Holotype: He Chengquan et al., 1989, pl.8, fig.9; text-fig.14. Age: Early Tertiary.

subsp. **pygmeum** Zhu Shenzhao, He Chengquan and Jin Guangxing in He Chengquan et al., 1989, p.75–76, pl.8, figs.1–4; text-fig.15. Holotype: He Chengquan et al., 1989, pl.8, fig.1; text-fig.15. Age: Early Tertiary.

subsp. **turbinatum**. Autonym. Holotype: He Chengquan et al., 1989, pl.8, fig.9; text-fig.14.

ZUEGELIA Özdikmen 2009, p.237. Calcareous dinoflagellate genus (see Streng et al., 2004, p.482 under *Normandia*; Elbrächter et al., 2008, p.1300, who noted that the cyst wall is pithonelloid and so a dinoflagellate affinity is questionable — also under *Normandia*; and Gottschling and Soehner, 2013, p.129). Substitute name for *Normandia* Zügel, non Hooker. Özdikmen (2009) cited this name as *Zugelia*, based on the name Zügel. Based on I.C.N. Article 60.6, the name should be spelled as *Zuegelia*. In proposing this name, Özdikmen (2009) considered it

to be a replacement for *Normandia* Pic 1900; however, *Normandia* Pic is an animal and under the I.C.N. it does not pre-empt *Normandia* Zügel. Type: Zügel, 1994, pl.3, figs.1–5, as *Normandia circumperforata*.

**circumperforata* (Zügel, 1994, p.30,32,34, pl.3, figs.1–15; text-figs.12–13) Özdikmen 2009, p.237. Holotype: Zügel, 1994, pl.3, figs.1–5. Originally *Normandia* (generic name illegitimate), subsequently (and now) *Zuegelia*. Although Özdikmen (2009) did not fully reference the basionym when proposing the transfer of this species to *Zuegelia*, he did so under the aegis of the I.C.Z.N., so the combination can be considered validly published. Age: early Turonian.

APPENDIX A

ACANTHODIACRODIUM Timofeev, 1958, p.831. Emendation: Deflandre and Deflandre-Rigaud, 1962, p.194. Acritarch genus. See Fensome et al. (1990, p.23) for synonymy. Type: Timofeev, 1958, pl.1, fig.2, as *Acanthodiacrodium dentiferum*.

"**echinulatum**" (Deflandre, 1937b, p.55, pl.11 [al. pl.8], fig.9) Deflandre, 1966, p.5. Holotype: Deflandre, 1937b, pl.11 (al. pl.8), fig.9, lost according to Deflandre and Foucher (1967, p.4). Neotype: Deflandre and Foucher, 1967, pl.1, fig.6, designated by Deflandre and Foucher (1967, p.4). **Combination not validly published**: basionym not fully referenced. **NOW** *Diacrocanthidium* (Appendix A). Originally *Palaeostomocystis* (Appendix A), subsequently *Acanthodiacrodium* (combination not validly published), thirdly (and now) *Diacrocanthidium* (Appendix A). Taxonomic junior synonym: *Cleistosphaeridium parvum*, according to Bujak in Bujak et al. (1980, p.52). Age: Late Cretaceous.

"**hamatum**" (Downie, 1958, p.335, pl.16, fig.1; text-figs.2j–k) Martin, 1973, p.32–33. Holotype: Downie, 1958, pl.16, fig.1. **NOW** *Baltisphaeridium hamatum* (Appendix A). Originally *Hystrichosphaeridium hirsutoides* var. *hamatum*, subsequently *Baltisphaeridium hirsutoides* var. *hamatum* (Appendix A), thirdly *Micrhystridium hamatum* (Appendix A), fourthly *Acanthodiacrodium hamatum*, fifthly (and now) *Baltisphaeridium hamatum* (Appendix A). Age: Early Ordovician.

"**timofeevii**" Shakhmundes, 1971, p.438–439 (p.226 in published English translation), figs.1e–f. Holotype: Shakhmundes, 1971, fig.1e; Fedorova-Shakhmundes, 1976, pl.1, figs.2,2a. **NOW** *Neodiacrodium*. Originally *Acanthodiacrodium*, subsequently (and now) *Neodiacrodium*. Junior homonym: *Acanthodiacrodium timofeevii* Golub and Volkova in Volkova and Golub, 1985. Age: Cretaceous–early Aptian.

tuberatum (Downie, 1958, p.338, pl.17, fig.3; text-fig.3f) Martin, 1972, p.36. Holotype: Downie, 1958, pl.17, fig.3. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly (and now) *Acanthodiacrodium*, fourthly *Vulcanisphaera* (Appendix A), fifthly *Goniosphaeridium* (Appendix A). W.A.S.Sarjeant (personal communication) has suggested that this species be retained in *Acanthodiacrodium*, pending re-examination of the type. Age: Early Ordovician.

ALDRIDGEISPHAERA Kozur, 1984, p.131. Muellerisphaerid genus. Type: Kozur, 1984, pl.1, fig.1, as *Aldridgeisphaera latispinosa*.

mutabilis (Sannemann, 1955, p.331, pl.5, figs.5–6; text-figs.17a–d) Sarjeant and Vavrdova, 1997, p.6. Holotype: Sannemann, 1955, pl.5, fig.5. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Multiplicisphaeridium* (Appendix A), fourthly (and now) *Aldridgeisphaera*. Age: Devonian (late Givetian).

?**robusta** (Sannemann, 1955, p.331, pl.1, figs.6,8–9; pl.6, figs.7–9; text-figs.13–14a–c) Sarjeant and Vavrdova, 1997, p.6. Holotype: Sannemann, 1955, pl.6, fig.7. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (combination illegitimate, Appendix A), thirdly *Multiplicisphaeridium* (Appendix A), fourthly (and now) *Aldridgeisphaera*?. Questionable assignment: Sarjeant and Vavrdova (1997, p.6). Age: Devonian (late Givetian).

subsp. **fissa** (Sannemann, 1955, p.331, pl.6, fig.9; text-figs.14a–c) Sarjeant and Vavrdova, 1997, p.6. Holotype: Sannemann, 1955, pl.6, fig.9. Originally *Hystrichosphaeridium robustum* subsp. *fissum*, subsequently *Baltisphaeridium robustum* subsp. *fissum* (combination illegitimate, Appendix A), thirdly *Multiplicisphaeridium robustum* subsp. *fissum* (Appendix A), fourthly (and now) *Aldridgeisphaera*? *robusta* subsp. *fissa*. Age: Devonian (late Givetian).

subsp. **robusta**. Autonym. Holotype: Sannemann, 1955, pl.6, fig.7. Originally *Hystrichosphaeridium robustum* subsp. *robustum*, subsequently *Multiplicisphaeridium robustum* subsp. *robustum*, thirdly (and now) *Aldridgeisphaera*? *robusta* subsp. *robusta*.

AMMONIDIUM Lister, 1970, p.48–49. Emendations: Le Hérissé, 1989, p.80–81, as a revised diagnosis; Sarjeant and Vavrdova, 1997, p.15. Acritarch genus. Type: Downie, 1963, pl.92, fig.6, as *Baltisphaeridium microcladum*.

"*lewisii*" (Deunff, 1954a, p.240, fig.3) Lister, 1970, p.49. Holotype: Deunff, 1954a, fig.3. **Combination not validly published:** Lister (1970, p.49) did not clearly use the name *Ammonidium lewisii*. **NOW** *Gorgonisphaeridium?* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Ammonidium* (combination not validly published), fourthly *Multiplicisphaeridium* (Appendix A), fifthly (and now) *Gorgonisphaeridium?* (Appendix A). Age: Middle Devonian.

microfurcatum (Deunff, 1957, p.6, fig.2 — p.13; fig.3 — p.14) Fensome et al., 1990, p.59. Holotype: Deunff, 1957, fig.2 — p.13. Originally *Hystrichosphaeridium*, subsequently *Veryhachium* (combination not validly published, Appendix A), thirdly *Baltisphaeridium* (Appendix A), fourthly (and now) *Ammonidium*. This combination was not validly published in Lister (1970, p.49) since that author did not clearly use the name *Ammonidium microfurcatum*. Age: Middle Devonian.

ANGULARIA Samoilovitch in Samoilovitch and Mtchedlishvili, 1961, p.255–256. Acritarch genus. Type: Samoilovitch and Mtchedlishvili, 1961, pl.83, figs.5a–c, as *Angularia viridula*.

granulata Liu Zhili and Zheng Yuefang in Liu Zhili et al., 1992, p.51, pl.26, figs.18–21; text-fig.1. Holotype: Liu Zhili et al., 1992, pl.26, fig.21. The authors attributed this species to the dinoflagellates. Age: Early Tertiary.

?*obida* (Snopková and Samuel, 1982, p.132, pl.48, figs.1–3; pl.49, figs.1–2; pl.50, fig.1) Lentin and Williams, 1993, p.691. Holotype: Snopková and Samuel, 1982, pl.48, figs.1–3; pl.49, figs.1–2; pl.50, fig.1. Originally *Pentagonium* Snopková and Samuel (generic name illegitimate; Appendix A), subsequently (and now) *Angularia?*. Questionable assignment: Lentin and Williams (1993, p.691). Age: Priabonian.

"AQUADULCUM" Harland and Sarjeant, 1970, p.220–221. Acritarch genus. **Taxonomic senior synonym:** *Cobricosphaeridium* (Appendix A), according to Head et al. (2003, p.1164). Type: Harland and Sarjeant, 1970, pl.21, figs.7–8; text-fig.5, as *Aquadulcum serpens*.

"*awendae*" Burden et al., 1986, p.52,54, pl.1, figs.1–15. Emendation: Head et al., 2003, p.1167, 1169, as *Cobricosphaeridium awendae*. Holotype: Burden et al., 1986, pl.1, figs.1–3; Head et al., fig.4, nos.1–4. **NOW** *Cobricosphaeridium* (Appendix A). Originally *Aquadulcum*, subsequently (and now) *Cobricosphaeridium* (Appendix A). Age: Holocene.

"*myalupense*" (Churchill and Sarjeant, 1962, p.38–40, figs.5,22–23) Harland and Sarjeant, 1970, p.221–222. Holotype: Churchill and Sarjeant, 1962, figs.5,22. **NOW** *Cobricosphaeridium* (Appendix A). Originally *Palaeohystrichophora*, subsequently *Aquadulcum*, thirdly (and now) *Cobricosphaeridium* (Appendix A). Age: Holocene.

"*ovatum*" Gao Ruiqi et al., 1992b, p.48–49,61, pl.13, figs.18–20. Holotype: Gao Ruiqi et al., 1992b, pl.13, fig.20. **NOW** *Cobricosphaeridium?* (Appendix A). Originally *Aquadulcum*, subsequently (and now) *Cobricosphaeridium?* (Appendix A). Age: Late Cretaceous.

"*pikeae*" (Churchill and Sarjeant, 1962, p.40–41, figs.6,24) Harland and Sarjeant, 1970, p.222. Holotype: Churchill and Sarjeant, 1962, figs.6,24. **NOW** *Cobricosphaeridium* (Appendix A). Originally *Palaeohystrichophora*, subsequently *Aquadulcum*, thirdly (and now) *Cobricosphaeridium* (Appendix A). Age: Holocene.

"**serpens*" Harland and Sarjeant, 1970, p.221, pl.21, figs.7–8; text-fig.5. Holotype: Harland and Sarjeant, 1970, pl.21, figs.7–8; text-fig.5; Head et al., 2003, fig.8, nos.17–20; fig.9, no.1. **NOW** *Cobricosphaeridium* (Appendix A). Originally *Aquadulcum*, subsequently (and now) *Cobricosphaeridium* (Appendix A). Age: Holocene.

"*?vermiculatum*" Song Zhichen in Song Zhichen et al., 1985, p.39–40, pl.2, figs.9–10. Holotype: Song Zhichen et al., 1985, pl.2, figs.9–10. **NOW** *Cobricosphaeridium?* (Appendix A). Originally *Aquadulcum?*, subsequently (and

now) *Cobricosphaeridium*? (Appendix A). Questionable assignment: Song Zhichen in Song Zhichen et al. (1985, p.39–40). Age: early-middle Pleistocene.

"?*yanchepe*se" Harland and Sarjeant, 1970, p.222–223, pl.22, fig.3. Holotype: Harland and Sarjeant, 1970, pl.22, fig.3. **NOW** *Cobricosphaeridium* (Appendix A). Originally *Aquadulcum*?, subsequently (and now) *Cobricosphaeridium* (Appendix A). Questionable assignment: Harland and Sarjeant (1970, p.222–223). Age: Holocene.

ARCHAEODINIUM Ouyang Shu, 1979, p.10. Acritarch genus. Type: Ouyang Shu, 1979, pl.2, fig.13, as *Archaeodinium cingulatum*.

**cingulatum* Ouyang Shu, 1979, p.10, pl.2, figs.9–16; text-fig.16. Holotype: Ouyang Shu, 1979, pl.2, fig.13. Age: Late Permian?

"**ARCHAEOHYSTRICHOSPHAERIDIUM**" Timofeev, 1959, p.32 ex Loeblich Jr. and Tappan, 1976, p.303. Acritarch genus. **Taxonomic senior synonym:** *Cymatiogalea* (Appendix A), according to Loeblich Jr. and Tappan (1976, p.303) and Cramer and Diez (1979, p.65). For a full discussion, see Fensome et al. (1990, p.66). Type: Timofeev, 1959, pl.3, fig.6, as *Archaeohystrichosphaeridium bifurcatum*.

"*setigerfurcatum*" (Timofeev, 1959, p.52–53, pl.4, fig.6) Combaz and Peniguel, 1972, p.133. Holotype: Timofeev, 1959, pl.4, fig.6. **Combination not validly published:** generic name not validly published until 1976 and basionym not fully referenced. **NOW** *Baltisphaeridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium* (Appendix A), thirdly *Archaeohystrichosphaeridium* (combination not validly published). Age: Early Ordovician.

ARPYLORUS Calandra, 1964, p.4114. Emendation: Sarjeant, 1978b, p.173. Genus of possible annelid or arthropod eggs according to Le Herissé et al. (1995). Type: Calandra, 1964, fig.1, as *Arpylorus antiquus*.

**antiquus* Calandra, 1964, p.4114, figs.1–3. Emendation: Sarjeant, 1978b, p.174. Holotype: Calandra, 1964, fig.1; Sarjeant, 1978b, pl.2, figs.2,4; text-fig.1A. Age: Late Silurian.

ARTEMISIOCYSTA Benedek, 1972, p.49. Acritarch genus. Type: Benedek, 1972, pl.12, figs.8a–b, as *Artemisiocysta cladodichotoma*.

**cladodichotoma* Benedek, 1972, p.49, pl.12, figs.8a–b; text-fig.23. Holotype: Benedek, 1972, pl.12, figs.8a–b. Age: middle-late Oligocene.

zinglongtaiensis Jiabo, 1978, p.95, pl.26, fig.1. Holotype: Jiabo, 1978, pl.26, fig.1. Age: Early Tertiary.

ASCOSTOMOCYSTIS Drugg and Loeblich Jr., 1967, p.187. Acritarch genus. Type: Drugg and Loeblich Jr., 1967, pl.3, fig.15, as *Ascostomocystis hydria*.

gigantea Singh, 1983, p.129–130, pl.45, figs.1–2. Holotype: Singh, 1983, pl.45, fig.1. Age: early Cenomanian.

"*granosa*" Matsuoka, 1983b, p.141, pl.8, figs.5a–b,7a–b,8. Emendation: Matsuoka and Head, 1992, p.170, as *Cyclopsiella granosa*. Holotype: Matsuoka, 1983b, pl.8, figs.5a–b; Matsuoka and Head, 1992, pl.1, figs.12–15. Originally *Ascostomocystis*, subsequently *Cyclopsiella* (Appendix A). **Taxonomic senior synonym:** *Echigraminidites* (as and now *Cyclopsiella*) *lusaticus*, according to Strauss and Lund (1992, p.174). Taxonomic senior synonym: *Cyclopsiella granulata*, according to Head et al. (1989b, p.497) — however, Head et al. (1992, p.163) retained *Ascostomocystis* (as *Cyclopsiella*) *granosa*. Taxonomic junior synonym: *Cyclopsiella spiculosa*, according to Matsuoka and Head (1992, p.170). Age: early-middle Miocene.

"*granulata*" Châteauneuf, 1980, p.133, pl.19, figs.8,11 (not figs.9–10, as indicated by Châteauneuf, 1980, p.133). Holotype: Châteauneuf, 1980, pl.19, fig.8. **Substitute name:** *Cyclopsiella chateauneufii* (Appendix A); the name *Cyclopsiella granulata* is preoccupied. Originally *Ascostomocystis granulata*, subsequently (and now) *Cyclopsiella chateauneufii* (Appendix A). Age: late Eocene (Auversian)–Oligocene (Stampian).

**hydria* Drugg and Loeblich Jr., 1967, p.187, pl.3, figs.13–15; text-fig.5. Holotype: Drugg and Loeblich Jr., 1967, pl.3, fig.15. N.I.A. Age: early Eocene.

"*laevigata*" Châteauneuf, 1980, p.133, pl.19, figs.6,9 (not figs.7–8, as indicated by Châteauneuf, 1980, p.133). Holotype: Châteauneuf, 1980, pl.19, figs.6,9. **NOW** *Cyclopsiella?* (Appendix A). Originally *Ascostomocystis*, subsequently (and now) *Cyclopsiella?* (Appendix A). Age: late Eocene (Auversian).

maxima Singh, 1971, p.425–426, pl.79, figs.3–4. Holotype: Singh, 1971, pl.79, fig.3. Age: late Albian.

potana Drugg and Loeblich Jr., 1967, p.187–188, pl.3, figs.10–12; text-fig.6. Holotype: Drugg and Loeblich Jr., 1967, pl.3, figs.10,12. Age: Oligocene.

"AZONOTETRAPORINA" Teteryuk, 1958, p.1035. Zygnematalean genus. **Name not validly published:** no description.

"*horologia*" Staplin, 1960, p.6, pl.1, figs.4,6. Holotype: Staplin, 1960, pl.1, fig.4; Pestchevitskaya, 2003, pl.2, fig.16. **Name not validly published:** generic name not validly published. **NOW** *Horologinella*. Originally *Azonotetraporina* (name not validly published), subsequently *Tetraporina* (Appendix A), thirdly (and now) *Horologinella*. Questionable assignment: Staplin (1960, p.6). Age: Carboniferous (late Mississippian).

BACHMAYERELLA Rögl and Franz, 1979, p.87. Streng et al. (2004, p.1303) did not consider this a calcareous dinoflagellate genus; Elbrächter et al. (2008, p.1303) implied that it is a calcisphere. Type: Rögl and Franz, 1979, pl.1, figs.1–2; pl.2, fig.15; pl.3, fig.30, as *Bachmayerella laqueata*.

**laqueata* Rögl and Franz, 1979, p.87–90, pl.1, figs.1–8; pl.2, figs.15–22; pl.3, figs.23–30; pl.4, figs.31–34. Holotype: Rögl and Franz, 1979, pl.1, figs.1–2; pl.2, fig.15; pl.3, fig.30. Age: middle Miocene (Badenian).

tenuis Rögl and Franz, 1979, p.90–93, pl.1, figs.9–14; pl.4, figs.35–38; pl.5, figs.39–46. Holotype: Rögl and Franz, 1979, pl.1, fig.9; pl.4, figs.36–37. Age: middle Miocene (Badenian).

BACISPHAERIDIUM Eisenack, 1962, p.355–356. Acritarch genus. See Fensome et al. (1990, p.81) for synonymy. Type: Eisenack, 1934, pl.4, fig.20, as *Bion bacifer*.

**baciferum* (Eisenack, 1934, p.66, pl.4, figs.20–21) Eisenack, 1962, p.356. Holotype: Eisenack, 1934, pl.4, fig.20, lost according to Eisenack (1962, p.356). Neotype: Eisenack, 1962, pl.44, fig.3, designated by Eisenack (1962, p.356). Originally *Bion* (Appendix A), subsequently *Hystrichosphaeridium*, thirdly *Veryhachium* (combination not validly published, Appendix A), fourthly (and now) *Bacisphaeridium*, fifthly *Baltisphaeridium* (combination not validly published, Appendix A). Age: Late Ordovician.

BALTISPHAERIDIUM Eisenack, 1958a, p.398–399. Emendations: Staplin et al., 1965, p.188; Eisenack, 1969b, p.249; Eiserhardt, 1989, p.88–90. Acritarch genus. Although the "type species", *Baltisphaeridium longispinosum*, was not validly transferred by Eisenack (1958a, p.398), the generic name *Baltisphaeridium* was validly published since it is based on a previously validly published specific name (I.C.N. Article 40.3). For synonymy see Fensome et al. (1990, p.82–83). Type: Eisenack, 1931, pl.5, fig.10, as *Ovum hispidum* subsp. *longispinosum*.

aculeatum (Timofeev, 1959, p.56, pl.4, fig.21) Downie and Sarjeant, 1965, p.87. Holotype: Timofeev, 1959, pl.4, fig.21. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.89), since these authors did not fully reference the basionym. Age: Early Ordovician.

apiculatum (Timofeev, 1959, p.52, pl.4, fig.3) Downie and Sarjeant, 1965, p.87. Holotype: Timofeev, 1959, pl.4, fig.3. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*, thirdly *Goniosphaeridium* (combination not validly published, Appendix A). This combination was not validly published in Downie and Sarjeant (1963, p.89), since these authors did not fully reference the basionym. Age: Early Ordovician.

"armatum" (Deflandre, 1937b, p.76–77, pl.16 [al. pl.13], figs.6–7) Downie and Sarjeant, 1965, p.87. Emendation: Davey, 1969a, p.153, as *Cleistosphaeridium armatum*. Holotype: Deflandre, 1937b, pl.16 (al. pl.13), fig.6; Fauconnier and Masure, 2004, pl.23, figs.1–3. **NOW** *Downiesphaeridium*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Cleistosphaeridium*, fourthly (and now) *Downiesphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.91), since these authors did not fully reference the basionym. Age: late Senonian.

arrectum (Timofeev, 1959, p.53, pl.4, fig.8) Downie and Sarjeant, 1965, p.87. Holotype: Timofeev, 1959, pl.4, fig.8. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.89), since these authors did not fully reference the basionym. Age: Early-Mid Ordovician.

"ashdodense" (Rossignol, 1962, p.132, pl.2, fig.2) Downie and Sarjeant, 1965, p.87. Holotype: Rossignol, 1962, pl.2, fig.2. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Cleistosphaeridium*. **Taxonomic senior synonym:** *Hystrichosphaeridium* (now *Lingulodinium*) *machaerophorum*, according to Wall (1967, p.109). Age: Pleistocene.

"?astarte" (Sannemann, 1955, p.325, pl.4, fig.1; text-figs.1a–b) Eisenack et al., 1973, p.65. Holotype: Sannemann, 1955, pl.4, fig.1. **NOW** *Buedingiisphaeridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly (and now) *Buedingiisphaeridium* (Appendix A). Questionable assignment: Eisenack et al. (1973, p.65). N.I.A. Age: Devonian (late Givetian).

asteroideum (Maslov, 1956, p.262, pl.86, fig.13) Downie and Sarjeant, 1965, p.87. Holotype: Maslov, 1956, pl.86, fig.13. Originally *Hystrichosphaera*, subsequently *Hystrichosphaeridium*, thirdly (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.87), since these authors did not fully reference the basionym. Age: Late Cretaceous.

atavum (Naumova, 1968, p.38, pl.2, fig.11) Fensome et al., 1990, p.85. Holotype: Naumova, 1968, pl.2, fig.11. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. Since Naumova (1968), in a citation in her plate caption, referred to this species as *Baltisphaeridium atavum*, Fensome et al. (1990, p.85) validated the combination since this Cambrian species is clearly not assignable to *Hystrichosphaeridium*. Age: Cambrian.

"baciferum" (Eisenack, 1934, p.66, pl.4, figs.20–21) Cramer and Diez, 1979, p.44. Holotype: Eisenack, 1934, pl.4, fig.20, lost according to Eisenack (1962, p.356). Neotype: Eisenack, 1962, pl.44, fig.3, designated by Eisenack (1962, p.356). **Combination not validly published:** basionym not fully referenced. **NOW** *Bacisphaeridium* (Appendix A). Originally *Bion* (Appendix A), subsequently *Hystrichosphaeridium*, thirdly *Veryhachium* (combination not validly published, Appendix A), fourthly (and now) *Bacisphaeridium* (Appendix A), fifthly *Baltisphaeridium* (combination not validly published). Cramer and Diez (1979) apparently did not intend to propose this as a new combination. Age: Late Ordovician.

"balticum" (Eisenack, 1951, p.190, pl.3, figs.10–11) Cramer, 1970, p.180. Holotype: Eisenack, 1951, pl.3, fig.10. **NOW** *Pachysphaeridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Pulvinosphaeridium* (combination not validly published, Appendix A), thirdly *Veryhachium* (Appendix A), fourthly *Goniosphaeridium* (Appendix A), fifthly *Baltisphaeridium*, sixthly *Estiastra* (Appendix A), seventhly (and now) *Pachysphaeridium* (Appendix A). Age: Early Ordovician.

"*bifidum*" Clarke and Verdier, 1967, p.72–73, pl.17, figs.5–6. Emendation: Davey, 1969b, p.26,28, as *Exochosphaeridium bifidum*. Holotype: Clarke and Verdier, 1967, pl.17, fig.5. Originally *Baltisphaeridium*, subsequently (and now) *Exochosphaeridium*. **Taxonomic senior synonym:** *Hystrichosphaeridium* (now *Exochosphaeridium*) *majus* according to Peyrot (2011, p.284). Age: Cenomanian–Campanian.

"*biformoides*" (Eisenack, 1954b, p.68–69, pl.11, figs.16–20) Downie and Sarjeant, 1965, p.87. Holotype: Eisenack, 1954b, pl.11, fig.18. **NOW** *Achilleodinium*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Hystrichokolpoma*, fourthly (and now) *Achilleodinium*, fifthly *Florentinia*. This combination was not validly published in Downie and Sarjeant (1963, p.91), since these authors did not fully reference the basionym. Age: late Eocene–early Oligocene.

bimarginatum (Timofeev, 1959, p.54, pl.4, fig.12) Downie and Sarjeant, 1965, p.87. Holotype: Timofeev, 1959, pl.4, fig.12. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.89), since these authors did not fully reference the basionym. Age: Early Ordovician.

bohemicum (Eisenack, 1934, p.70–71, pl.5, fig.31 ex Eisenack, 1938a, p.12) Downie and Sarjeant, 1965, p.87. Holotype: Eisenack, 1934, pl.5, fig.31. Originally *Ovum hispidum* subsp. *bohemicum* (name not validly published), subsequently *Hystrichosphaeridium bohemicum*, thirdly (and now) *Baltisphaeridium bohemicum*. This combination was not validly published in Downie and Sarjeant (1963, p.89), since these authors did not fully reference the basionym. The name *Ovum hispidum* subsp. *bohemicum* was not validly published in Eisenack (1934) since the specific name *Ovum hispidum* was not validly published. Age: Silurian.

"*borracherosum*" Cramer, 1964, p.289, pl.1, fig.11; text-fig.16, no.6. Holotype: Cramer, 1964, pl.1, fig.11. **NOW** *Petaloferidium* (Appendix A). Originally *Baltisphaeridium*, subsequently *Multiplicisphaeridium* (Appendix A), thirdly *Hystrichosphaeridium* (combination not validly published), fourthly (and now) *Petaloferidium* (Appendix A). Age: Silurian (Ludlow).

"*brevifurcatum*" (Eisenack, 1954a, p.207–208, pl.1, fig.2; text-fig.2) Downie and Sarjeant, 1965, p.88. Holotype: Eisenack, 1954a, pl.1, fig.2. **NOW** *Visbysphaera* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly (and now) *Visbysphaera* (Appendix A), fourthly *Multiplicisphaeridium* (Appendix A). This combination was not validly published in Downie and Sarjeant (1963, p.89), since these authors did not fully reference the basionym. Age: Silurian (late Llandovery).

"*brevispinosum*" (Eisenack, 1931, p.111, pl.5, figs.3–5 ex Eisenack, 1938a, p.12) Eisenack, 1959, p.197–198. Holotype: Eisenack, 1931, pl.5, fig.3, as *Ovum hispidum* subsp. *brevispinosum*, lost according to Eisenack (1959, p.197). Neotype: Eisenack, 1959, pl.15, fig.13, designated by Eisenack (1959, p.197), lost according to Ribecai and Tongiorgi (1999, p.124). New Neotype: Eisenack, 1959, pl.15, fig.16, designated by Ribecai and Tongiorgi (1999, p.124). **NOW** *Pachysphaeridium brevispinosum* (Appendix A). Originally *Ovum hispidum* subsp. *brevispinosum* (name not validly published), subsequently *Hystrichosphaeridium brevispinosum*, thirdly *Baltisphaeridium brevispinosum*, fourthly *Buedingiisphaeridium brevispinosum* (combination not validly published, Appendix A), fifthly *Pachysphaeridium brevispinosum* (Appendix A). This combination was not validly published in Eisenack (1958b, p.400), since that author did not fully reference the basionym. The name *Ovum hispidum* subsp. *brevispinosum* was not validly published in Eisenack (1931) since the specific name *Ovum hispidum* was not validly published. Age: Silurian.

subsp. *brevispinosum*. Autonym. Holotype: Eisenack, 1931, pl.5, fig.3, as *Ovum hispidum* subsp. *brevispinosum*, lost according to Eisenack (1959, p.197). Neotype: Eisenack, 1959, pl.15, fig.13, designated by Eisenack (1959, p.197). Originally *Hystrichosphaeridium brevispinosum* subsp. *brevispinosum*, subsequently (and now) *Baltisphaeridium brevispinosum* subsp. *brevispinosum*. See discussion under *Baltisphaeridium brevispinosum* subsp. *callosum*.

"var. *brevispinosum*". Autonym. Holotype: Eisenack, 1931, pl.5, fig.3, as *Ovum hispidum* subsp. *brevispinosum*, lost according to Eisenack (1959, p.197). Neotype: Eisenack, 1959, pl.15, fig.13, designated by Eisenack (1959, p.197). **Now redundant.** Originally *Hystrichosphaeridium brevispinosum* var. *brevispinosum*, subsequently *Baltisphaeridium brevispinosum* var. *brevispinosum*.

subsp. *callosum* (Sannemann, 1955, p.325–326, pl.1, figs.1–4,7; pl.3, figs.2–5,10; pl.4, figs.3–9; pl.6, figs.11–12; text-figs.2a–d) Fensome et al., 1990, p.87. Holotype: Sannemann, 1955, pl.4, fig.3. Originally *Hystrichosphaeridium brevispinosum* subsp. *callosum*, subsequently *Buedingiisphaeridium brevispinosum* subsp. *callosum* (combination not validly published, Appendix A), thirdly (and now) *Baltisphaeridium brevispinosum* subsp. *callosum*. This combination was not validly published in Downie and Sarjeant (1963 p.90), since these authors did not fully reference the basionym, nor was it validly published in Eisenack et al. (1973, p.79–80), since these authors did not give a clear indication of taxonomic rank. Le Herissé in Ribecai and Tongiorgi (1999, p.124) considered this taxon and *Baltisphaeridium brevispinosum* subsp. *castaneoides* to be "... related to mazuelloids or muellerisphaerids (mineralized microfossils)" and not conspecific with *Hystrichosphaeridium* (now *Pachysphaeridium*) *brevispinosum*, but no new taxonomic assignments were proposed. We feel that, although the species has been transferred to *Pachysphaeridium*, since this Index does not treat acritarchs or mineralized microfossils in detail, it would be inappropriate for us to make taxonomic proposals here; hence we leave two subspecies (and the autonym) "in limbo". Age: Devonian (late Givetian).

subsp. *castaneoides* (Sannemann, 1955, p.326, pl.4, figs.13–14; text-fig.3) Fensome et al., 1990, p.87. Holotype: Sannemann, 1955, pl.4, fig.13. Originally *Hystrichosphaeridium brevispinosum* subsp. *castaneoides*, subsequently (and now) *Baltisphaeridium brevispinosum* subsp. *castaneoides*. Kjellström (1971a, p.18) listed this subspecies questionably in his synonymy for *Baltisphaeridium brevispinosum*. This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym, nor was it validly published in Eisenack et al. (1973, p.81), since these authors did not give a clear indication of taxonomic rank. See discussion under *Baltisphaeridium brevispinosum* subsp. *callosum*. Age: Devonian (late Givetian).

"var. *nanus*" (Deflandre, 1945a, p.62–63, pl.1, figs.5–7) Downie, 1959, p.59. Holotype: Deflandre, 1945a, pl.1, figs.5–6. **Combination not validly published:** basionym not fully referenced. **NOW** *Polygonium nanus* (Appendix A). Originally *Hystrichosphaeridium brevispinosum* var. *nanus*, subsequently *Baltisphaeridium brevispinosum* var. *nanus* (combination not validly published), thirdly *Baltisphaeridium nanus* (combination not validly published, Appendix A), fourthly *Micrhystridium nanus* (Appendix A), fifthly (and now) *Polygonium nanus* (Appendix A), sixthly *Solisphaeridium nanus* (Appendix A). Taxonomic junior synonym: *Baltisphaeridium brevispinosum* var. *wenlockense* (subgenus *Salopidium wenlockense*) Downie, 1959, an acritarch taxon, according to Lister (1970, p.54). N.I.A. Age: Silurian.

"*bulbosum*" (Ehrenberg, 1837b, pl.1, fig.17) Lentini and Williams, 1973, p.173. Emendation: Morgenroth, 1968, p.546–547, as *Hystrichokolpoma bulbosum*. Holotype: Ehrenberg, 1837b, pl.1, fig.17. Neotype: Morgenroth, 1968, pl.44, fig.6, designated by Morgenroth (1968, p.546). **Combination not validly published:** basionym not fully referenced. **NOW** *Hystrichokolpoma*. Originally *Xanthidium bulbosum* (Appendix A), subsequently *Hystrichosphaera bulbosa* (combination not validly published), thirdly *Hystrichosphaeridium bulbosum*, fourthly *Ovum hispidum* subsp. *bulbosum* (name not validly published, Appendix A), fifthly (and now) *Hystrichokolpoma bulbosum*, sixthly *Baltisphaeridium bulbosum* (combination not validly published). Taxonomic senior synonym: *Xanthidium* (as *Hystrichosphaeridium*) *tubiferum*, according to Stover and Evitt (1978, p.55) — however, Lentini and Williams (1981, p.134) retained *Xanthidium* (as *Hystrichokolpoma*) *bulbosum*. This combination cannot be legitimized since it would create a junior homonym of *Baltisphaeridium bulbosum* Kjellström, 1971a. Age: Danian.

capillare (Li Wenben, 1974, p.370, pl.196, fig.15) Lu Mengning and Wang Ruoshan, 1980, p.375. Holotype: Li Wenben, 1974, pl.196, fig.15. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. Age: Late Triassic.

castanea (Eisenack, 1934, p.71, pl.5, fig.32 ex Eisenack, 1938a, p.12) Downie and Sarjeant, 1965, p.88. Holotype: Eisenack, 1934, pl.5, fig.32. Originally *Ovum hispidum* subsp. *castanea* (name not validly published), subsequently *Hystrichosphaeridium castanea*, thirdly (and now) *Baltisphaeridium castanea*. This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. The name *Ovum hispidum* subsp. *castanea* was not validly published in Eisenack (1934) since the specific name *Ovum hispidum* was not validly published. N.I.A. Age: Silurian.

"centrocarpum" (Deflandre and Cookson, 1955, p.272–273, pl.8, figs.3–4) Gerlach, 1961, p.192–193. Holotype: Deflandre and Cookson, 1955, pl.8, figs.3–4; Matsuoka et al., 1997, pl.1, figs.1–6. **NOW** *Operculodinium centrocarpum*. Originally *Hystrichosphaeridium centrocarpum*, subsequently *Baltisphaeridium centrocarpum*, thirdly *Cordosphaeridium centrocarpum*, fourthly *Cordosphaeridium tiara* subsp. *centrocarpum*, fifthly (and now) *Operculodinium centrocarpum*, sixthly *Cordosphaeridium microtriainum* subsp. *centrocarpum*, seventhly *Cleistosphaeridium centrocarpum*. Taxonomic junior synonyms: *Operculodinium?* *echigoense*, according to Matsuoka et al. (1997, p.22); *Membranilarnacia delicata*, according to Jain (1980, p.140). Motile equivalent: *Peridinium* (now *Protoceratium*) *reticulatum* Claparède and Lachmann, 1859 (as *Gonyaulax grindleyi* Reinecke, 1967), according to Wall and Dale (1966, p.1025–1026) — however, see Head (1996b, p.1211). Age: Miocene.

"circumscissum" (Timofeev, 1959, p.53, pl.4, fig.9) Downie and Sarjeant, 1965, p.88. Holotype: Timofeev, 1959, pl.4, fig.9. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Early Ordovician.

"clavicularum" (Deflandre, 1939a, p.191–192, pl.10, fig.4) Downie and Sarjeant, 1965, p.88. Emendation: Sarjeant, 1968, p.223, as *Solisphaeridium clavicularum*. Holotype: Deflandre, 1939a, pl.10, fig.4. **NOW** *Micrhystridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Solisphaeridium* (Appendix A), fourthly (and now) *Micrhystridium* (Appendix A). This combination was not validly published in Downie and Sarjeant (1963, p.91), since these authors did not fully reference the basionym. Age: Late Jurassic.

"claviferum" (Wilkinson, 1849, p.89–92, pl.13, fig.1) Downie and Sarjeant, 1965, p.88. Holotype: Wilkinson, 1849, pl.13, fig.1. Originally *Xanthidium* (Appendix A), subsequently *Hystrichosphaeridium*, thirdly (and now) *Baltisphaeridium*. According to Wilkinson (1849, p.89), "This species was originally named *Xanthidium tubiferum dilatatum*, but as the duplex trivial name is contrary to the rules of nomenclature, it has been thought advisable to alter it to *Xanthidium claviferum* ...". Wilkinson's contention is not necessarily the case since, as *Xanthidium tubiferum* var. *dilatatum*, the "earlier" name may have been validated. However, Wilkinson gave no further information regarding the source of the name "*Xanthidium tubiferum dilatatum*". This combination was not validly published in Downie and Sarjeant (1963, p.91), since these authors did not fully reference the basionym. Age: Late Cretaceous.

"clavigerum" (Deflandre, 1937b, p.71, pl.14 [al. pl.11], figs.1–2) Downie and Sarjeant, 1963, p.88. Emendation: Davey and Verdier, 1976, as *Florentinia clavigera*. Holotype: Deflandre, 1937b, pl.14 (al. pl.11), figs.1–2. **Combination not validly published:** basionym not fully referenced. **NOW** *Florentinia*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (name not validly published), thirdly *Hystrichosphaera*, fourthly *Hystrichokolpoma*, fifthly (and now) *Florentinia*. Age: Senonian.

"cognitum" (Timofeev, 1959, p.54–55, pl.4, fig.15) Downie and Sarjeant, 1965, p.88. Holotype: Timofeev, 1959, pl.4, fig.15. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Early-Mid Ordovician.

"colligerum" (Deflandre and Cookson, 1955, p.278–279, pl.7, fig.3) Downie and Sarjeant, 1965, p.88. Emendations: Cookson, 1965a, p.86; Goodman and Witmer, 1985, p.77–78, both as *Diphyes colligerum*. Holotype: Deflandre and Cookson, 1955, pl.7, fig.3. **NOW** *Diphyes*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly (and now) *Diphyes*. Taxonomic junior synonym: *Diphyes pseudoficusoides* according to Fensome et al. (2009, p.30). This combination was not validly published in Downie and Sarjeant (1963, p.92), since these authors did not fully reference the basionym. Age: early Eocene.

"coniferum" (Sannemann, 1955, p.327, pl.4, fig.2; text-figs.4a–b) Downie and Sarjeant, 1965, p.88. Holotype: Sannemann, 1955, pl.4, fig.2. **NOW** *Multiplicisphaeridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly (and now) *Multiplicisphaeridium* (Appendix A). This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Devonian (late Givetian).

conspicuum (Timofeev, 1959, p.54, pl.4, fig.14) Downie and Sarjeant, 1965, p.88. Holotype: Timofeev, 1959, pl.4, fig.14. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Late Cambrian.

corollatum (Timofeev, 1959, p.54, pl.4, fig.11) Downie and Sarjeant, 1965, p.89. Holotype: Timofeev, 1959, pl.4, fig.11. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Early Ordovician.

"cristatum" (Downie, 1958, p.338–339, pl.16, fig.4; text-fig.4f) Downie and Sarjeant, 1965, p.165. Holotype: Downie, 1958, pl.16, fig.4. **NOW** *Cymatiogalea* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Priscogalea* (Appendix A), fourthly (and now) *Cymatiogalea* (Appendix A). Taxonomic junior synonym: *Cymatiogalea polygonomorpha* Górka, 1967, an acritarch species, according to Rasul (1974, p.56). Junior homonym: *Baltisphaeridium cristatum* Grishina in Grishina and Klenina, 1981, an acritarch species. This combination was not validly published in Eisenack (1958b, p.400), since that author did not fully reference the basionym. Age: Early Ordovician.

"danicum" (Wetzel, 1952, p.396–397, pl.A, figs.5–6; text-fig.8) Downie and Sarjeant, 1965, pl.89. Emendation: Sarjeant, 1984c, p.129–130, as *Achomosphaera danica*. Holotype: Wetzel, 1952, pl.A, fig.6; Dietz et al., 1999, text-fig.6b. **NOW** *Achomosphaera*. Originally *Areoligera*, subsequently *Baltisphaeridium*, thirdly *Hystrichosphaeridium*, fourthly *Cleistosphaeridium?*, fifthly (and now) *Achomosphaera*. Taxonomic senior synonym: *Areoligera senonensis*, according to Lejeune-Carpentier and Sarjeant (1981, p.15) — however, Sarjeant (1984c, p.130) retained *Baltisphaeridium* (as *Achomosphaera*) *danicum*. This combination was not validly published in Downie and Sarjeant (1963, p.91), since these authors did not fully reference the basionym. Age: Paleocene.

"delicatum" Wall, 1965a, p.156, pl.1, figs.11–13; pl.7, fig.6. Holotype: Wall, 1965a, pl.1, fig.11. **NOW** *Beaumontella?*. Originally *Baltisphaeridium*, subsequently, *Solisphaeridium* (combination not validly published, Appendix A), thirdly (and now) *Beaumontella?*. Age: Hettangian–early Sinemurian.

"densicomatum" (Maier, 1959, p.307–308, pl.29, figs.7–8) Gerlach, 1961, p.193. Emendation: Sarjeant, 1983, p.111–113, as *Sentusidinium densicomatum*. Holotype: Maier, 1959, pl.29, fig.7. **NOW** *Pilosidinium*. Originally *Galea* (generic name illegitimate), subsequently *Baltisphaeridium* (Appendix A), thirdly *Impletosphaeridium*, fourthly *Impletosphaeridium?*, fifthly *Sentusidinium*, sixthly (and now) *Pilosidinium*. Age: middle Oligocene–middle Miocene.

"denticulatum" (Courteville in Deflandre, 1946a, card 895) Downie and Sarjeant, 1965, p.89. **Name not validly published**: no description. Originally *Hystrichosphaeridium* (name not validly published), subsequently *Baltisphaeridium* (name not validly published). This name cannot be legitimized since it would be a junior homonym of *Baltisphaeridium denticulatum* Stockmans and Willièrè, 1963. Górka (1969, p.47–48) believed this name to be the senior homonym of *Baltisphaeridium denticulatum* Stockmans and Willièrè, 1963.

"dictyophorum" (Cookson and Eisenack, 1958, p.44, pl.11, fig.14) Downie and Sarjeant, 1965, p.89. Holotype: Cookson and Eisenack, 1958, pl.11, fig.14; Fensome et al., 1993a, fig.1 — p.1125. **NOW** *Stiphrosphaeridium*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Oligosphaeridium*, fourthly (and now) *Stiphrosphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.91), since these authors did not fully reference the basionym. Age: Late Jurassic.

differtum (Sannemann, 1955, p.327, pl.4, fig.15; text-figs.5a–c) Downie and Sarjeant, 1965, p.89. Holotype: Sannemann, 1955, pl.4, fig.15. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Devonian (late Givetian).

"digitatum" (Eisenack, 1938a, p.20–22, pl.4, figs.3–5; text-fig.7) Eisenack, 1959, p.200. Emendation: Eisenack, 1959, p.200, as *Baltisphaeridium digitatum*. Holotype: Eisenack, 1938a, pl.4, fig.3, lost according to Eisenack

(1959, p.200). Neotype: Eisenack, 1959, pl.16, fig.11, designated by Eisenack (1959, p.200). **NOW** *Hoegklintia* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Multiplicisphaeridium* (Appendix A), fourthly (and now) *Hoegklintia* (Appendix A). Age: Ordovician (erratic).

dignum (Sannemann, 1955, p.327, pl.1, fig.5; pl.4, fig.11; text-fig.7) Downie and Sarjeant, 1965, p.89. Holotype: Sannemann, 1955, pl.4, fig.11. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Devonian (late Givetian).

diploporum (Eisenack, 1951, p.190–191, pl.2, fig.6) Downie and Sarjeant, 1965, p.89. Holotype: Eisenack, 1951, pl.2, fig.6. Originally *Hystrichosphaeridium*, subsequently *Micrhystridium* (combination not validly published, Appendix A), thirdly (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Ordovician (erratic).

"divergens" (Eisenack, 1954b, p.67, pl.9, figs.13–16) Downie and Sarjeant, 1963, p.91. Holotype: Eisenack, 1954b, pl.9, fig.14. **Combination not validly published:** basionym not fully referenced. **NOW** *Operculodinium*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (combination not validly published), thirdly *Cordosphaeridium*, fourthly (and now) *Operculodinium*. Age: early Oligocene.

"downiei" Sarjeant, 1960a, p.138–139. Holotype: Downie, 1957, pl.20, fig.10 (as *Hystrichosphaeridium pattei* Valensi, 1949); Jan du Chêne et al., 1986a, pl.3, figs.7–9. **NOW** *Cribroperidinium?*. Originally *Baltisphaeridium*, subsequently *Acanthaulax*, thirdly *Acanthaulax?*, fourthly *Cyclonephelium*, fifthly (and now) *Cribroperidinium?*. Age: Kimmeridgian.

"echinoides" (Maier, 1959, p.318–319, pl.32, figs.5–6) Downie and Sarjeant, 1965, p.90. Holotype: Maier, 1959, pl.32, fig.6. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Cleistosphaeridium*. **Taxonomic senior synonym:** *Xanthidium* (now *Spiniferites*) *ramosum*, according to Sarjeant (1983, p.91–92). This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: middle Oligocene–middle Miocene.

"ehrenbergii" (Deflandre, 1947c, fig.1, no.5) Sarjeant, 1961a, p.103. Emendation: Masure in Fauconnier and Masure, 2004, p.337–338, as *Impletosphaeridium ehrenbergii*. Holotype: Deflandre, 1939a, pl.10, fig.9, as *Hystrichosphaeridium* cf. *hirsutum*; Deflandre, 1947c, fig.1, no.5; Fauconnier and Masure, 2004, pl.48, figs.9,11. **NOW** *Impletosphaeridium*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Cleistosphaeridium*, fourthly *Cleistosphaeridium?*, fifthly (and now) *Impletosphaeridium*. Nomenclatural junior synonym: *Cleistosphaeridium deflandrei* Courtinat, 1989, which has the same type. For a full discussion, see *Impletosphaeridium ehrenbergii*. Age: Oxfordian.

eisenackianum (Deunff, 1959, p.23–24, pl.2, figs.26,30–31) Downie and Sarjeant, 1965, p.90. Holotype: Deunff, 1959, pl.2, fig.26. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Middle Ordovician.

var. **crozonense** (Deunff, 1959, p.24, pl.2, figs.25,27–29,32) Downie and Sarjeant, 1965, p.90. Holotype: Deunff, 1959, pl.2, fig.28. Originally *Hystrichosphaeridium eisenackianum* var. *crozonense*, subsequently (and now) *Baltisphaeridium eisenackianum* var. *crozonense*. This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Ordovician (Caradoc).

var. **eisenackianum**. Autonym. Holotype: Deunff, 1959, pl.2, fig.26. Originally *Hystrichosphaeridium eisenackianum* var. *eisenackianum*, subsequently (and now) *Baltisphaeridium eisenackianum* var. *eisenackianum*.

"eisenackii" (Sannemann, 1955, p.327–328, pl.4, figs.10,12; text-figs.8a–d) Downie and Sarjeant, 1965, p.90. Holotype: Sannemann, 1955, pl.4, fig.10. **NOW** *Multiplicisphaeridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly (and now) *Multiplicisphaeridium* (Appendix A).

This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Late Devonian (Givetian).

"**eoplanctonicum**" (Eisenack, 1955, p.178–179, pl.4, fig.14) Downie, 1959, p.60. Holotype: Eisenack, 1955, pl.4, fig.14. **NOW** *Oppilatala* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Multiplicisphaeridium* (Appendix A), fourthly (and now) *Oppilatala* (Appendix A). Taxonomic junior synonym: *Multiplicisphaeridium septispinosum* Lister, 1970, an acritarch species, according to Eisenack et al. (1973, p.617). Age: Silurian (Ludlow).

"**erectum**" (Manum and Cookson, 1964, p.14, pl.3, figs.5–6) Clarke and Verdier, 1967, p.73. Holotype: Manum and Cookson, 1964, pl.3, figs.5–6. **NOW** *Kiokansium?*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Cordosphaeridium?*, fourthly *Cleistosphaeridium?*, fifthly (and now) *Kiokansium?*. Age: Albian–Turonian.

"**erraticum**" (Eisenack, 1954a, p.209, pl.1, figs.6–7; text-fig.7) Downie and Sarjeant, 1965, p.90. Holotype: Eisenack, 1954a, pl.1, fig.6. **NOW** *Visbysphaera* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly (and now) *Visbysphaera* (Appendix A), fourthly *Multiplicisphaeridium* (Appendix A). This combination was not validly published in Downie and Sarjeant (1963, p.90) and Cramer (1964, p.294), since these authors did not fully reference the basionym. Age: Silurian (late Ludlow).

"**ferox**" (Deflandre, 1937b, p.72, pl.14 [al. pl.11], figs.3–4) Downie and Sarjeant, 1965, p.90. Holotype: Deflandre, 1937b, pl.14 (al. pl.11), figs.3–4. **NOW** *Florentinia*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Hystrichokolpoma*, fourthly *Silicisphaera*, fifthly (and now) *Florentinia*. This combination was not validly published in Downie and Sarjeant (1963, p.91), since these authors did not fully reference the basionym. Age: Senonian.

"**fimbriatum**" (White, 1842, p.36, pl.4, div.3, fig.3) Downie and Sarjeant, 1965, p.91. Holotype: White, 1842, pl.4, div.3, fig.3; Sarjeant, 1991, fig.4.2. **NOW** *Filisphaeridium* (Appendix A). Originally *Xanthidium* (Appendix A), subsequently *Hystrichosphaeridium*, thirdly *Baltisphaeridium*, fourthly *Comasphaeridium* (Appendix A), fifthly (and now) *Filisphaeridium* (Appendix A). This combination was not validly published in Sarjeant (1959, p.339) and Downie and Sarjeant (1963, p.91), since these authors did not fully reference the basionym. Age: Late Cretaceous.

"**flosculus**" (Deflandre, 1937b, p.75–76, pl.15 [al. pl.12], figs.5–6) Downie and Sarjeant, 1963, p.91. Holotype: Deflandre, 1937b, pl.15 (al. pl.12), fig.5. **Combination not validly published:** basionym not fully referenced. **NOW** *Florentinia?*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (combination not validly published), thirdly *Litosphaeridium?*, fourthly *Silicisphaera?*, fifthly (and now) *Florentinia?*. Taxonomic junior synonym: *Eurysphaeridium fibratum* (name not validly published), according to Slimani (2001a, p.192). N.I.A. Age: Cretaceous (Senonian).

"**fluctuans**" (Eisenack, 1938c, p.230–231, pl.16, figs.1–3) Lentin and Williams, 1993, p.699. Holotype: Eisenack, 1938c, pl.16, fig.3. Originally *Bion* (Appendix A), subsequently *Hystrichosphaeridium*, thirdly *Polysphaeridium?* (combination not validly published), fourthly (and now) *Baltisphaeridium*. Age: Silurian.

"**franconium**" (Sannemann, 1955, p.328, pl.3, fig.1; pl.5, figs.1–2) Downie and Sarjeant, 1965, p.90. Holotype: Sannemann, 1955, pl.5, fig.1. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Devonian (late Givetian).

"**funginum**" Morgenroth, 1966a, p.17, pl.3, figs.7–8. Holotype: Morgenroth, 1966a, pl.3, fig.7. Originally *Baltisphaeridium*, subsequently *Lingulodinium*. **Taxonomic senior synonym:** *Hystrichosphaeridium* (as and now *Lingulodinium machaerophorum*, according to Kokinos and Anderson (1995, p.162). Age: early Eocene.

"**galea**" (Maier, 1959, p.306, pl.29, fig.4) Sarjeant, 1964a, p.176. Emendation: Sarjeant, 1983, p.110, as *Chiropteridium galea*. Holotype: Maier, 1959, pl.29, fig.4; Eisenack and Kjellström, 1975b, p.88a; Fensome et al., 1995, fig.1 — p.1495. **NOW** *Chiropteridium*. Originally *Galea* (generic name illegitimate), subsequently *Baltisphaeridium*, thirdly *Areoligera*, fourthly *Areoligera?*, fifthly (and now) *Chiropteridium*. Taxonomic junior

synonyms: *Chiropteridium dispersum*, *Galea* (subsequently *Baltisphaeridium mespilana* and *Galea* (subsequently *Baltisphaeridium levis*), all according to Sarjeant (1983, p.108–109); *Membranophoridium multispinatum*, by implication in Brosius (1963, p.48) and Gocht (1969, p.63), who considered *Membranophoridium multispinatum* to be a taxonomic junior synonym of *Galea* (as *Chiropteridium dispersa*, which is now a taxonomic junior synonym of *Galea* (now *Chiropteridium galea*); *Membranophoridium* (subsequently *Chiropteridium partispinatum*, by implication in Matsuoka and Bujak (1988, p.40), who considered *Membranophoridium partispinatum* to be a taxonomic junior synonym of *Galea* (as *Chiropteridium mespilana*, which is now a taxonomic junior synonym of *Galea* (now *Chiropteridium galea*). N.I.A. Age: Oligocene.

"**geometricum**" (Patiels, 1948, p.41, pl.4, figs.1–11 ex Downie and Sarjeant, 1965, p.90) Fensome et al., 1990, p.617. Holotype: Patiels, 1948, pl.4, fig.4. **NOW** *Apectodinium*. Originally *Hystrichosphaeridium geometricum* (name illegitimate), subsequently *Baltisphaeridium geometricum*, thirdly *Apectodinium pastielsii* (name illegitimate), fourthly (and now) *Apectodinium pastielsii*. Nomenclatural junior synonym: *Apectodinium pastielsii*, which has the same type. Taxonomic junior synonym (at specific rank): *Wetzeliella homomorpha* var. *quinquelata* (as *Wetzeliella quinquelata*; now *Apectodinium quinquelatum*), by implication in Harland (1979c, p.67), who believed the latter to be the senior name — however, Lentin and Williams (1989, p.18) retained *Apectodinium quinquelatum*. Age: Ypresian.

"**gotlandicum**" (Eisenack, 1954a, p.209, pl.1, fig.5; text-fig.6) Downie and Sarjeant, 1965, p.90. Holotype: Eisenack, 1954a, pl.1, fig.5. **NOW** *Visbysphaera* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Multiplicisphaeridium* (Appendix A), fourthly (and now) *Visbysphaera* (Appendix A). Taxonomic junior synonym: *Baltisphaeridium peltatum* Cramer, 1966, an acritarch species, according to Cramer (1970, p.157). This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Silurian (late Llandovery).

"**granulosum**" (Deflandre, 1937b, p.77, pl.16 [al. pl.13], fig.4) Sarjeant, 1962b, p.264. Holotype: Deflandre, 1937b, pl.16 (al. pl.13), fig.4; Fauconnier and Masure, 2004, pl.66, fig.4. **NOW** *Prolixosphaeridium granulosum*. Originally *Hystrichosphaeridium xanthiopyxides* var. *granulosum*, subsequently *Baltisphaeridium xanthiopyxides* var. *granulosum* (combination not validly published, Appendix A), thirdly *Baltisphaeridium granulosum*, fourthly (and now) *Prolixosphaeridium granulosum*. Taxonomic junior synonyms (at specific rank): *Baltisphaeridium pilosum* var. *longispinosum* (as *Tenua pilosa* subsp. *longispinosa*), according to Sarjeant (1976c, p.19) — however, Erkmen and Sarjeant (1980, p.64–65) considered *Baltisphaeridium pilosum* var. *longispinosum* to be a taxonomic junior synonym (at specific rank) of *Prolixosphaeridium anasillum*; *Prolixosphaeridium anasillum*, according to Lentin and Williams (1993, p.539) — however, this synonymy was based on a mis-reading of Erkmen and Sarjeant (1980). Age: Senonian.

hamatum (Downie, 1958, p.335, pl.16, fig.1; text-figs.2j–k) Kjellström, 1976, p.18. Holotype: Downie, 1958, pl.16, fig.1. Originally *Hystrichosphaeridium hirsutoides* var. *hamatum*, subsequently *Baltisphaeridium hirsutoides* var. *hamatum* (Appendix A), thirdly *Micrhystridium hamatum* (Appendix A), fourthly *Acanthodiacrodium hamatum* (Appendix A), fifthly (and now) *Baltisphaeridium hamatum*. Age: Early Ordovician.

"**heteracanthum**" (Deflandre and Cookson, 1955, p.276, pl.2, figs.5–6; text-figs.40–41) Downie and Sarjeant, 1965, p.91. Emendation: Radmacher et al., 2014, p.33,36, as *Heterosphaeridium heteracanthum*. Holotype: Deflandre and Cookson, 1955, pl.2, fig.5; Fauconnier and Masure, 2004, pl.35, figs.7–8. **NOW** *Heterosphaeridium*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Cleistosphaeridium*, fourthly (and now) *Heterosphaeridium*, fifthly *Heterosphaeridium?* Age: Late Cretaceous–early Eocene.

hippocrepicum (Timofeev, 1959, p.52, pl.4, fig.2) Downie and Sarjeant, 1965, p.91. Holotype: Timofeev, 1959, pl.4, fig.2. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.91), since these authors did not fully reference the basionym. Age: Early Ordovician.

hirsutoides (Eisenack, 1951, p.189–190, pl.3, fig.8) Eisenack, 1959, p.196. Holotype: Eisenack, 1931, pl.5, fig.19, as "*Ovum hispidum* cf. *hirsutum* Ehrenb.", lost according to Eisenack et al. (1973, p.125). Neotype: Eisenack, 1951, pl.3, fig.8, designated by Eisenack et al. (1973, p.125). Originally *Hystrichosphaeridium*, subsequently (and now)

Baltisphaeridium. This combination was not validly published in Eisenack (1958b, p.400), since that author did not fully reference the basionym. Age: Late Ordovician.

"forma **asteroideum**" (Maslov, 1956, p.262, pl.86, fig.13) Eisenack, 1959, p.196. Holotype: Maslov, 1956, pl.86, fig.13. **NOW** *Baltisphaeridium asteroideum* (Appendix A). Originally *Hystrichosphaera asteroidea*, subsequently *Hystrichosphaeridium asteroideum*, thirdly *Baltisphaeridium hirsutoides* forma *asteroideum*, fourthly (and now) *Baltisphaeridium asteroideum* (Appendix A). Age: Late Cretaceous.

"var. **hamatum**" (Downie, 1958, p.335, pl.16, fig.1; text-figs.2j–k) Downie and Sarjeant, 1965, p.91. Holotype: Downie, 1958, pl.16, fig.1. **NOW** *Baltisphaeridium hamatum* (Appendix A). Originally *Hystrichosphaeridium hirsutoides* var. *hamatum*, subsequently *Baltisphaeridium hirsutoides* var. *hamatum*, thirdly *Micrhystridium hamatum* (Appendix A), fourthly *Acanthodiacrodium hamatum* (Appendix A), fifthly (and now) *Baltisphaeridium hamatum* (an acritarch species, Appendix A). Age: Early Ordovician.

"var. **hirsutoides**". Autonym. Holotype: Eisenack, 1931, pl.5, fig.19, as "*Ovum hispidum* cf. *hirsutum* Ehrenb.", lost according to Eisenack et al. (1973, p.125). Neotype: Eisenack, 1951, pl.3, fig.8, designated by Eisenack et al. (1973, p.125). **Now redundant**. Originally *Hystrichosphaeridium hirsutoides* var. *hirsutoides*, subsequently *Baltisphaeridium hirsutoides* var. *hirsutoides*.

"**hirsutum**" (Ehrenberg, 1837b, pl.1, figs.10, 13) Downie and Sarjeant, 1965, p.91. **Name not validly published**: Ehrenberg (1837b) did not intend to introduce a new species. Originally *Xanthidium hirsutum* (name not validly published, Appendix A), subsequently *Ovum hispidum* subsp. *hirsutum* (name not validly published, Appendix A), thirdly *Hystrichosphaera hirsuta* (name not validly published), fourthly *Hystrichosphaeridium hirsutum* (name not validly published), fifthly *Baltisphaeridium hirsutum* (name not validly published), sixthly *Operculodinium hirsutum* (name not validly published), seventhly *Operculodinium? hirsutum* (name not validly published). See discussion under *Operculodinium? hirsutum*. This name was not validly published additionally in Klement (1960, p.58), since that author did not fully reference the basionym. Age: Late Cretaceous.

"subsp. **amplum**" (Wetzel, 1955, p.38; text-fig.11) Downie and Sarjeant, 1965, p.91. Emendation: Sarjeant, 1984c, p.131, as *Operculodinium centrocarpum* subsp. *amplum*, Holotype: Wetzel, 1955, text-fig.11; Sarjeant, 1984a, pl.3, figs.1–3; text-fig.4. **Name not validly published**: specific name not validly published. **NOW** *Operculodinium centrocarpum* subsp. *amplum*. Originally *Hystrichosphaeridium hirsutum* subsp. *amplum* (name not validly published), subsequently *Baltisphaeridium hirsutum* subsp. *amplum* (name not validly published), thirdly *Operculodinium? hirsutum* subsp. *amplum*, fourthly (and now) *Operculodinium centrocarpum* subsp. *amplum*. In proposing this subspecies, Wetzel (1955) misspelled the specific epithet as "*hirtum*"; see Downie and Sarjeant (1965, p.166). Age: early Paleocene (Danian).

"forma **minus**" (Wetzel, 1933b, p.45–46, pl.4, fig.26) Downie and Sarjeant, 1965, p.91. Holotype: Wetzel, 1933b, pl.4, fig.26. **Name not validly published**: specific name not validly published. **NOW** *Coronifera striolata?* subsp. *minor*. Originally *Hystrichosphaera hirsuta* forma *minor* (name not validly published), subsequently *Baltisphaeridium hirsutum* forma *minus* (name not validly published), thirdly *Operculodinium hirsutum* subsp. *minus* (name not validly published), fourthly (and now) *Coronifera striolata?* subsp. *minor*. Age: Late Cretaceous.

"forma **varians**" (Wetzel, 1933b, p.47–48, pl.4, figs.27–29) Downie and Sarjeant, 1965, p.91. Holotype: Wetzel, 1933b, fig.29; designated by Lentin and Williams (1989, p.78). **Name not validly published**: specific name not validly published. **NOW** *Coronifera striolata?* subsp. *varians*. Originally *Hystrichosphaera hirsuta* forma *varians* (name not validly published), subsequently *Baltisphaeridium hirsutum* forma *varians* (name not validly published), thirdly *Operculodinium hirsutum* subsp. *varians* (name not validly published), fourthly (and now) *Coronifera striolata?* subsp. *varians*. Age: Late Cretaceous.

"**horridum**" (Deflandre, 1937b, p.74, pl.15 [al. pl.12], figs.7–8) Downie and Sarjeant, 1965, p.91. Emendation: Masure, 1986, p.112–113, as *Corradinisphaeridium horridum*. Holotype: Deflandre, 1937b, pl.15 (al. pl.12), figs.7–8. **NOW** *Corradinisphaeridium*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly

(and now) *Corradinisphaeridium*. Taxonomic junior synonym: *Lanternosphaeridium* (as *Fibrocyta?*) *mutinense*, according to Masure (1986, p.112). This combination was not validly published in Downie and Sarjeant (1963, p.91), since these authors did not fully reference the basionym. Age: Late Cretaceous.

"*huecospinosum*" (Cramer, 1964, p.331, pl.6, fig.2; text-fig.36, no.7) Cramer, 1966, p.238. Holotype: Cramer, 1964, pl.6, fig.2. **Combination not validly published:** basionym not fully referenced. **NOW** *Umbellasphaeridium* (Appendix A). Originally *Hystrichosphaeridium?*, subsequently *Baltisphaeridium?* (combination not validly published), thirdly *Florisphaeridium* (Appendix A), fourthly (and now) *Umbellasphaeridium* (Appendix A). Questionable assignment: Cramer (1966, p.238). Age: Devonian (Emsian).

"*huguoniotii*" (Valensi, 1955a, p.38–39, text-fig.2a) Downie and Sarjeant, 1965, p.91. Holotype: Valensi, 1955a, text-fig.2a; Fauconnier and Masure, 2004, pl.72, figs.1–3. **NOW** *Sepispinula?*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Cleistosphaeridium*, fourthly *Cleistosphaeridium?*, fifthly *Chlamydophorella*, sixthly *Sepispinula*, seventhly (and now) *Sepispinula?*. Taxonomic senior synonym: *Micrhystridium* (as *Polysphaeridium*, now *Sepispinula?*) *ambiguum*, according to Yun Hyesu (1981, p.44) and Schiøler and Wilson (1998, p.328) — however, Masure in Fauconnier and Masure (2004, p.500) retained *Hystrichosphaeridium* (as and now *Sepispinula?*) *huguoniotii*. Taxonomic junior synonym: *Hystrichosphaeridium* (now *Sepispinula*) *ancoriferum*, according to Clarke and Verdier (1967, p.54) — however, Masure in Fauconnier and Masure (2004, p.499) retained *Hystrichosphaeridium* (as and now *Sepispinula*) *ancoriferum*. Age: Late Cretaceous.

"*hymenoforum*" (Eisenack, 1938a, p.19, pl.3, figs.2–5) Downie and Sarjeant, 1965, p.91. Holotype: Eisenack, 1938a, pl.3, fig.2. **NOW** *Peteinosphaeridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly (and now) *Peteinosphaeridium* (Appendix A). This combination was not validly published in Eisenack (1958b, p.400 and 1959, p.204) and Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Ordovician (erratic).

"*hystrichoreticulatum*" (Eisenack, 1938a, p.20, pl.3, figs.6A–B) Downie and Sarjeant, 1965, p.91. Holotype: Eisenack, 1938a, pl.3, figs.6A–B. **NOW** *Peteinosphaeridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly (and now) *Peteinosphaeridium* (Appendix A). This combination was not validly published in Downie and Sarjeant (1963, p.91), since these authors did not fully reference the basionym. Age: Ordovician (erratic).

"*iaculigerum*" Klement, 1960, p.57–58, pl.7, fig.10. Emendation: Sarjeant, 1984a, p.171, as *Operculodinium?* *iaculigerum*. Holotype: Klement, 1960, pl.7, fig.10; Sarjeant, 1984a, pl.2, fig.5; text-fig.7; Fauconnier and Masure, 2004, pl.23, figs.4–5. **NOW** *Downiesphaeridium*. Originally *Baltisphaeridium*, subsequently *Operculodinium?*, thirdly *Cleistosphaeridium*, fourthly (and now) *Downiesphaeridium*. Taxonomic junior synonym: *Cleistosphaeridium polyacanthum*, according to Brenner (1988, p.42) — however, Islam (1993, p.84) retained *Cleistosphaeridium?* (as *Downiesphaeridium*) *polyacanthum*. Age: middle Kimmeridgian.

inconspicuum (Timofeev, 1959, p.54, pl.4, fig.13) Downie and Sarjeant, 1965, p.91. Holotype: Timofeev, 1959, pl.4, fig.13. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Early Ordovician.

"*insigne*" (Fridriksone, 1971, p.14–16, pl.2, figs.10–22) Volkova, 1974, p.195. Holotype: Fridriksone, 1971, pl.2, fig.10. **NOW** *Skiagia* (Appendix A). Originally *Hystrichosphaeridium?*, subsequently *Baltisphaeridium*, thirdly (and now) *Skiagia* (Appendix A). Age: Early-Mid Cambrian.

"*integrum*" (Sannemann, 1955, p.329, pl.5, fig.12; text-fig.12) Downie and Sarjeant, 1965, p.91. Holotype: Sannemann, 1955, pl.5, fig.12. **NOW** *Multiplicisphaeridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly (and now) *Multiplicisphaeridium* (Appendix A). This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Devonian (late Givetian).

"*intermedium*" (Wetzel, 1933b, p.46; text-fig.14 ex Deflandre, 1937b, p.77) Downie and Sarjeant, 1965, p.91. Holotype: Wetzel, 1933b, text-fig.14. **NOW** *Hystrichosphaeridium?*. Originally *Hystrichosphaera* (name not

validly published), subsequently *Hystrichosphaeridium*, thirdly *Baltisphaeridium*, fourthly (and now) *Hystrichosphaeridium*?. This combination was not validly published in Downie and Sarjeant (1963, p.91), since these authors did not fully reference the basionym. Age: Late Cretaceous.

"israelianum" (Rossignol, 1962, p.132, pl.2, fig.3) Downie and Sarjeant, 1965, p.91. Holotype: Rossignol, 1962, pl.2, fig.3. **NOW** *Operculodinium*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Cleistosphaeridium* (combination not validly published), fourthly (and now) *Operculodinium*, fifthly *Cordosphaeridium* (combination not validly published). Taxonomic junior synonyms: *Cleistosphaeridium cephalum*, according to Jain and Garg (1991, p.78); *Operculodinium crassum*, according to Edwards and Andrieu (1992, p.262) — however, Head (1996b, p.1231) retained *Operculodinium crassum*; and *Hystrichosphaeridium westii* (name not validly published), by implication in Wall and Dale (1968a, p.315, as "hystrichosphere type x of West"). Motile equivalent: *Peridinium* (now *Protoceratium*) *reticulatum* Claparède and Lachmann, 1859, questionably according to Wall and Dale (1968c, p.272), and without question according to Matsuoka (1989, p.224). Age: Pleistocene.

"korykos" (Maier, 1959, p.310–311, pl.30, figs.7–8) Sarjeant, 1964a, p.176. Holotype: Maier, 1959, pl.30, fig.7. Originally *Galea* (generic name illegitimate), subsequently *Baltisphaeridium*, thirdly *Chiropteridium*?, fourthly *Hystrichosphaeridium*?. **Taxonomic senior synonym:** *Xanthidium* (now *Spiniferites*) *ramosum*, according to Sarjeant (1983, p.91–92). N.I.A. Age: middle Miocene.

"leve" (Maier, 1959, p.308, pl.30, figs.1–2) Sarjeant, 1964a, p.176. Holotype: Maier, 1959, pl.30, fig.1; Sarjeant, 1983, pl.2, fig.3; pl.5, fig.1; text-fig.2. Originally *Galea* (generic name illegitimate), subsequently *Baltisphaeridium*, thirdly *Cleistosphaeridium*. **Taxonomic senior synonym:** *Galea* (now *Chiropteridium*) *galea*, according to Sarjeant (1983, p.108–109). Age: middle Oligocene–middle Miocene.

"lewisii" (Deunff, 1954a, p.240, fig.3) Downie and Sarjeant, 1965, p.92. Holotype: Deunff, 1954a, fig.3. **NOW** *Gorgonisphaeridium*? (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Ammonidium* (combination not validly published, Appendix A), fourthly *Multiplicisphaeridium* (Appendix A), fifthly (and now) *Gorgonisphaeridium*? (Appendix A). This combination was not validly published in Downie and Sarjeant (1963, p.91), since these authors did not fully reference the basionym. Age: Middle Devonian.

"ligospinosum" de Coninck, 1969, p.50, pl.15, figs.9–19. Holotype: de Coninck, 1969, pl.15, fig.19; Fauconnier and Masure, 2004, pl.49, fig.7. **NOW** *Impletosphaeridium*. Originally *Baltisphaeridium*, subsequently (and now) *Impletosphaeridium*. Age: early Eocene.

"liniferum" Cookson and Eisenack, 1967b, p.253, pl.40, fig.9; pl.41, figs.7–8. Holotype: Cookson and Eisenack, 1967b, pl.41, fig.8. **NOW** *Achomosphaera*. Originally *Baltisphaeridium*, subsequently *Taeniophora*, thirdly (and now) *Achomosphaera*. Age: late Paleocene.

"lobospinosum" (Gocht, 1960, p.222–223, 226–227, pl.17, figs.1–16; text-figs.1–15) Downie and Sarjeant, 1963, p.91. Holotype: Gocht, 1960, pl.17, fig.1; Fauconnier and Masure, 2004, pl.13, figs.3–4. **Combination not validly published:** basionym not fully referenced. **NOW** *Chiropteridium*. Originally *Hystrichosphaeridium* (name not validly published), subsequently (and now) *Chiropteridium*, thirdly *Baltisphaeridium* (combination not validly published). Age: middle Oligocene.

"longifurcatum" (Firtion, 1952, p.157–158, pl.9, fig.1; text-figs.1H–M) Downie and Sarjeant, 1965, p.92. Holotype: Firtion, 1952, pl.9, fig.1; lost according to Fauconnier and Pourtoy in Fauconnier and Masure (2004, p.517). Neotype: Foucher, 1976, pl.5, figs.7–8, designated by Fauconnier and Pourtoy in Fauconnier and Masure (2004, p.518); Fauconnier and Masure, 2004, pl.74, figs.2–3. **NOW** *Surculosphaeridium*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly (and now) *Surculosphaeridium*, fourthly *Surculosphaeridium*?. This combination was not validly published in Downie and Sarjeant (1963, p.92), since these authors did not fully reference the basionym. Age: Cenomanian.

"longispinosoides" (Sannemann, 1955, p.329–330, pl.1, fig.10; pl.2, figs.1–4; pl.3, figs.6,8; pl.6, figs.1–6; text-figs.9a–b) Downie and Sarjeant, 1965, p.92. Holotype: Sannemann, 1955, pl.6, fig.1. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in

Downie and Sarjeant (1963, p.92), since these authors did not fully reference the basionym. Age: Devonian (late Givetian).

***longispinosum** (Eisenack, 1931, p.110–111, pl.5, figs.6–17 ex Wetzel, 1933b, p.44) Eisenack, 1959, p.194–195. Holotype: Eisenack, 1931, pl.5, fig.10, as *Ovum hispidum* subsp. *longispinosum*, lost according to Eisenack (1959, p.194). Neotype: Eisenack, 1959, pl.15, fig.1, designated by Eisenack (1959, p.194). Originally *Ovum hispidum* subsp. *longispinosum* (name not validly published, Appendix A), subsequently *Hystrichosphaera longispinosa* (name not validly published), thirdly *Hystrichosphaeridium longispinosum*, fourthly (and now) *Baltisphaeridium longispinosum*, fifthly *Micrhystridium longispinosum* (combination not validly published, Appendix A). This combination was not validly published in Eisenack (1958a, p.398), since that author did not fully reference the basionym. The name *Ovum hispidum* subsp. *longispinosum* was not validly published in Eisenack (1931) since the specific name *Ovum hispidum* was not validly published. Age: Ordovician (erratic).

"var. **uncinatum**" (Downie, 1958, p.337, text-fig.2a) Downie and Sarjeant, 1965, p.92. Holotype: Downie, 1958, text-fig.2a. **NOW** *Stellechinatum uncinatum* (Appendix A). Originally *Hystrichosphaeridium longispinosum* var. *uncinatum*, subsequently *Baltisphaeridium longispinosum* var. *uncinatum*, thirdly *Baltisphaeridium uncinatum* (Appendix A), fourthly *Micrhystridium uncinatum* (Appendix A), fifthly *Goniosphaeridium uncinatum* (Appendix A), sixthly *Polygonium uncinatum* (Appendix A), seventhly *Goniosphaeridium polygonale* subsp. *uncinatum* (combination not validly published, Appendix A), eighthly (and now) *Stellechinatum uncinatum* (Appendix A). Taxonomic junior synonym: *Goniosphaeridium regulare* Yin Leiming in Chen Junyuan et al., 1985, an acritarch species, according to Yin Leiming (1986, p.347). Age: Early Ordovician.

longofilum (Maier, 1959, p.317, pl.32, fig.7) Downie and Sarjeant, 1965, p.92. Holotype: Maier, 1959, pl.32, fig.7. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.91), since these authors did not fully reference the basionym. Age: middle Oligocene.

"lucidum" (Deunff, 1959, p.25–26, pl.9, figs.80,82–83,85–89) Downie and Sarjeant, 1965, p.92. Holotype: Deunff, 1959, pl.9, fig.82. **NOW** *Micrhystridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Solisphaeridium* (Appendix A), fourthly (and now) *Micrhystridium* (Appendix A). This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Ordovician (Caradoc).

"lumectum" Sarjeant, 1960a, p.139–140, pl.6, fig.1; text-fig.2. Holotype: Sarjeant, 1960a, pl.6, fig.1; text-fig.2. **NOW** *Impletosphaeridium*. Originally *Baltisphaeridium*, subsequently *Cleistosphaeridium*, thirdly *Cleistosphaeridium?*, fourthly (and now) *Impletosphaeridium*. Age: late Oxfordian.

"lychneum" (Maier, 1959, p.310, pl.30, fig.6) Sarjeant, 1964a, p.176. Holotype: Maier, 1959, pl.30, fig.6. Originally *Galea* (generic name illegitimate), subsequently *Baltisphaeridium*, thirdly *Areoligera*. **Taxonomic senior synonym:** *Hystrichosphaeridium* (now *Achomosphaera*) *alcicornu*, according to Sarjeant (1983, p.100–101). Downie and Sarjeant (1965, p.92) also proposed this combination. Age: Miocene.

"machaerophorum" (Deflandre and Cookson, 1955, p.274, pl.9, figs.4,8) Gerlach, 1961, p.191–192. Holotype: Deflandre and Cookson, 1955, pl.9, fig.4. **NOW** *Lingulodinium*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Cleistosphaeridium* (combination not validly published), fourthly (and now) *Lingulodinium*. Taxonomic junior synonyms: *Cleistosphaeridium disjunctum*, according to Reid (1974, p.591); *Hystrichosphaeridium ashdodense*, according to Wall (1967, p.109); *Baltisphaeridium* (subsequently) *Lingulodinium funginum*, *Lingulodinium brevispinosum* and *Lingulodinium sadoense*, all according to Kokinos and Anderson (1995, p.162); *Hystrichosphaeridium redonense*, questionably according to Harland (1977b, p.94) and according to Rochon et al. (1999, p.20). Motile equivalent: *Gonyaulax polyedra* Stein, 1883, according to Wall and Dale (1968c, p.271). Age: Miocene.

"var. **filiforme**" Rossignol, 1964, p.91, pl.2, fig.13. Holotype: Rossignol, 1964, pl.2, fig.13. **NOW** *Lingulodinium machaerophorum* subsp. *filiforme*. Originally *Baltisphaeridium machaerophorum* var. *filiforme*, subsequently (and now) *Lingulodinium machaerophorum* subsp. *filiforme*. Age: Pleistocene.

"var. *machaerophorum*". Autonym. Holotype: Deflandre and Cookson, 1955, pl.9, fig.4. **Now redundant.**

"var. *megacanthum*" Rossignol, 1964, p.91, pl.2, fig.15. Holotype: Rossignol, 1964, pl.2, fig.15. **NOW** *Lingulodinium machaerophorum* subsp. *megacanthum*. Originally *Baltisphaeridium machaerophorum* var. *megacanthum*, subsequently (and now) *Lingulodinium machaerophorum* subsp. *megacanthum*. Age: Pleistocene.

"var. *strangulatum*" Rossignol, 1964, p.92, pl.2, fig.16. Holotype: Rossignol, 1964, pl.2, fig.16. **NOW** *Lingulodinium strangulatum*. Originally *Baltisphaeridium machaerophorum* var. *strangulatum*, subsequently *Lingulodinium machaerophorum* subsp. *strangulatum*, thirdly (and now) *Lingulodinium strangulatum*. Age: Pleistocene.

"*malleoferum*" (White, 1842, p.37, pl.4, div.3, fig.7) Downie and Sarjeant, 1965, p.92. Holotype: White, 1842, pl.4, div.3, fig.7; Sarjeant, 1991, fig.4.6. **NOW** *Achomosphaera*?. Originally *Xanthidium* (Appendix A), subsequently *Baltisphaeridium*, thirdly (and now) *Achomosphaera*?, fourthly *Hystrichosphaeridium* (combination not validly published). This combination was not validly published in Downie and Sarjeant (1963, p.91), since these authors did not fully reference the basionym. Age: Late Cretaceous.

"*malum*" Cramer, 1964, p.297, pl.1, figs.6,8,10; text-fig.19, nos.10–12. Holotype: Cramer, 1964, pl.1, fig.8. **NOW** *Rhacobrachion* (Appendix A). Originally *Baltisphaeridium*, subsequently *Evittia Brito* (Appendix A), thirdly *Hystrichosphaeridium* (combination not validly published), fourthly *Multiplicisphaeridium* (Appendix A), fifthly (and now) *Rhacobrachion* (Appendix A). Age: Silurian (Ludlow).

"*mariannae*" (Philippot, 1949, p.56–57; text-fig.2) Downie and Sarjeant, 1965, p.92. Holotype: Philippot, 1949, text-fig.2. **NOW** *Achomosphaera*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly (and now) *Achomosphaera*. This combination was not validly published in Downie and Sarjeant (1963, p.91), since these authors did not fully reference the basionym. Age: Late Cretaceous.

"*meson*" (Eisenack, 1955, p.179) Downie and Sarjeant, 1965, p.92. Holotype: Eisenack, 1954a, pl.1, fig.3. **NOW** *Visbysphaera mesa* (Appendix A). Originally *Hystrichosphaeridium intermedium* (name illegitimate), subsequently *Hystrichosphaeridium meson*, thirdly *Baltisphaeridium meson*, fourthly (and now) *Visbysphaera mesa* (Appendix A), fifthly *Multiplicisphaeridium meson* (Appendix A). *Hystrichosphaeridium meson* is the substitute name for *Hystrichosphaeridium intermedium* Eisenack, 1954a, p.208, pl.1, figs.3,9; text-figs.3–4 (an illegitimate name). Taxonomic junior synonym: *Baltisphaeridium* (subsequently *Multiplicisphaeridium*) *micropilare* Cramer, 1970, an acritarch species, according to Ye Xiaorong (1984, p.42). This combination was not validly published in Downie (1959, p.60 and 1963, p.641) and Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Silurian (late Llandovery–late Ludlow).

"*mespilanum*" (Maier, 1959, p.306–307, pl.29, figs.5–6) Sarjeant, 1964a, p.176. Holotype: Maier, 1959, pl.29, fig.5. Originally *Galea* (generic name illegitimate), subsequently *Baltisphaeridium*, thirdly *Chiropteridium*, fourthly *Hystrichosphaeridium*. **Taxonomic senior synonym:** *Galea* (now *Chiropteridium*) *galea*, according to Sarjeant (1983, p.108–109). Age: middle Oligocene–middle Miocene.

"*microfurcatum*" (Deunff, 1957, p.6, fig.2 — p.13; fig.3 — p.14) Stockmans and Willièrè, 1962b, p.92. Holotype: Deunff, 1957, fig.2 — p.13. **NOW** *Ammonidium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Veryhachium* (combination not validly published, Appendix A), thirdly *Baltisphaeridium*, fourthly (and now) *Ammonidium* (Appendix A). Age: Middle Devonian.

"*microspinosum*" (Eisenack, 1954a, p.209–210, pl.1, fig.8) Downie, 1959, p.60. Holotype: Eisenack, 1954a, pl.1, fig.8. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*, thirdly *Lophosphaeridium* (Appendix A), fourthly *Visbysphaera* (Appendix A), fifthly *Buedingiisphaeridium* (combination not validly published, Appendix A). Eiserhardt (1992, p.12) retained this species in *Baltisphaeridium*. Taxonomic junior synonym: *Baltisphaeridium listeri* Kiryanov, 1978, an acritarch species, according to Le Hérissé (1989, p.210). Age: Silurian (late Llandovery).

"mixtispinosum" Klement, 1960, p.58, pl.6, figs.17–19. Holotype: Klement, 1960, pl.6, figs.17–18; Sarjeant, 1984a, pl.4, fig.4; Fauconnier and Masure, 2004, pl.66, figs.2–3. **NOW** *Prolixosphaeridium*. Originally *Baltisphaeridium*, subsequently (and now) *Prolixosphaeridium*. Taxonomic junior synonym: *Prolixosphaeridium basifurcatum*, according to Courtinat (1989, p.182) — however, Fauconnier and Monteil in Fauconnier and Masure (2004, p.461) retained *Prolixosphaeridium basifurcatum*. Age: early Kimmeridgian.

"multifurcatum" (Deflandre, 1937b, p.76, pl.16 [al. pl.13], figs.1–3) Klement, 1960, p.59. Emendation: Masure in Fauconnier and Masure, 2004, p.270, as *Exochosphaeridium multifurcatum*. Holotype: Deflandre, 1937b, pl.16 (al. pl.13), figs.1–2; Fensome et al., 1991, figs.1–2 — p.691; fig.1 — p.693; Fensome et al., 1993a, fig.1 — p.1261; figs.1–2 — p.1265; Fauconnier and Masure, 2004, pl.37, figs.10–11. **NOW** *Exochosphaeridium*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Cleistosphaeridium*, fourthly *Cleistosphaeridium?*, fifthly *Heterosphaeridium*, sixthly (and now) *Exochosphaeridium*. Age: Late Cretaceous.

multipilosum (Eisenack, 1931, p.111, pl.5, figs.20–22 ex Eisenack, 1938a, p.12) Eisenack, 1959, p.197. Holotype: Eisenack, 1931, pl.5, fig.22, as *Ovum hispidum* subsp. *multipilosum*, lost according to Eisenack (1959, p.197). Neotype: Eisenack, 1959, pl.15, fig.11, designated by Eisenack (1959, p.197). Originally *Ovum hispidum* subsp. *multipilosum* (name not validly published, Appendix A), subsequently *Hystrichosphaeridium multipilosum*, thirdly (and now) *Baltisphaeridium multipilosum*. This combination was not validly published in Eisenack (1958b, p.400), since that author did not fully reference the basionym. The name *Ovum hispidum* subsp. *multipilosum* was not validly published in Eisenack (1931) since the specific name *Ovum hispidum* was not validly published. Age: Silurian.

subsp. **multipilosum**. Autonym. Holotype: Eisenack, 1931, pl.5, fig.22, as *Ovum hispidum* subsp. *multipilosum*, lost according to Eisenack (1959, p.197). Neotype: Eisenack, 1959, pl.15, fig.11, designated by Eisenack (1959, p.197). Originally *Hystrichosphaeridium multipilosum* subsp. *multipilosum*, subsequently (and now) *Baltisphaeridium multipilosum* subsp. *multipilosum*.

subsp. **validum** (Sannemann, 1955, p.330, pl.5, figs.9–10; text-fig.10) Downie and Sarjeant, 1965, p.93. Holotype: Sannemann, 1955, pl.5, fig.9. Originally *Hystrichosphaeridium multipilosum* subsp. *validum*, subsequently (and now) *Baltisphaeridium multipilosum* subsp. *validum*. Age: Devonian (late Givetian).

"multispinosum" Singh, 1964, p.141, pl.20, figs.1–2. Holotype: Singh, 1964, pl.20, fig.1; Fauconnier and Masure, 2004, pl.23, fig.10. **NOW** *Cometodinium*. Originally *Baltisphaeridium*, subsequently *Cleistosphaeridium*, thirdly *Cleistosphaeridium?*, fourthly *Downiesphaeridium*, fifthly (and now) *Cometodinium*. Junior homonyms: *Baltisphaeridium multispinosum* Nagy, 1965 and *Baltisphaeridium multispinosum* Xing Yusheng, 1982, both acritarch species. Age: middle Albian–early Cenomanian.

"mutabile" (Sannemann, 1955, p.331, pl.5, figs.5–6; text-figs.17a–d) Downie and Sarjeant, 1965, p.93. Holotype: Sannemann, 1955, pl.5, fig.5. **NOW** *Aldridgeisphaera* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Multiplicisphaeridium* (Appendix A), fourthly (and now) *Aldridgeisphaera* (Appendix A). Junior homonym: *Baltisphaeridium mutabile* (Naumova, 1950) Downie and Sarjeant, 1965. See discussion in Fensome et al. (1990, p.111). This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Devonian (late Givetian).

"nanus" (Deflandre, 1945a, p.62–63, pl.1, figs.5–7) Stockmans and Willièrè, 1962a, p.54–55. Holotype: Deflandre, 1945a, pl.1, figs.5–6. **NOW** *Polygonium nanus* (Appendix A). Originally *Hystrichosphaeridium brevispinosum* var. *nanus*, subsequently *Baltisphaeridium brevispinosum* var. *nanus* (combination not validly published, Appendix A), thirdly *Baltisphaeridium nanus*, fourthly *Micrhystridium nanus* (Appendix A), fifthly (and now) *Polygonium nanus* (Appendix A), sixthly *Solisphaeridium nanus* (Appendix A). Taxonomic junior synonym (at specific rank): *Baltisphaeridium brevispinosum* var. *wenlockense* (subsequently *Salopidium wenlockense*) Downie, 1959, an acritarch taxon, according to Lister (1970, p.54). N.I.A. Age: Silurian.

"neptuni" Eisenack, 1958a, p.399, pl.26, figs.7–8; text-fig.8. Emendations: Duxbury, 1983, p.55, as *Spiniferites neptuni*; Sarjeant, 1985a, p.89–90, 92, as *Florentinia? neptuni*. Holotype: Eisenack, 1958a, pl.26, fig.7. **NOW**

Achomosphaera?. Originally *Baltisphaeridium*, subsequently *Achomosphaera*, thirdly (and now) *Achomosphaera*?, fourthly *Spiniferites*, fifthly *Florentinia*?. For etymology, see *Achomosphaera neptuni*. Age: Early Cretaceous.

nudatum (Timofeev, 1959, p.53, pl.4, fig.10) Downie and Sarjeant, 1965, p.93. Holotype: Timofeev, 1959, pl.4, fig.10. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Early Ordovician.

"ohioense" (Winslow, 1962, p.77, pl.19, figs.1,22; pl.22, fig.9) Downie and Sarjeant, 1965, p.93. Holotype: Winslow, 1962, pl.22, fig.9. **NOW** *Gorgonisphaeridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly (and now) *Gorgonisphaeridium* (Appendix A). This combination was not validly published in Downie and Sarjeant (1963, p.93), since these authors did not fully reference the basionym. Age: Late Devonian.

"oligacanthum" (Wetzel, 1952, p.402–405, pl.A, figs.4,7–8,11a–b; text-figs.21–25) Downie and Sarjeant, 1965, p.93. Emendation: Wilson and Sarjeant in Sarjeant, 1984c, p.127–128, as *Laticavodinium oligacanthum*. Holotype: Wetzel, 1952, pl.A, fig.8; Sarjeant, 1984c, pl.2, figs.4–5; text-fig.2; Fensome et al., 1995, figs.1–5 — p.1625; Dietz et al., 1999, text-fig.6g. **NOW** *Impletosphaeridium*?. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Cleistosphaeridium*?, fourthly *Laticavodinium*, fifthly (and now) *Impletosphaeridium*?. This combination was not validly published in Downie and Sarjeant (1963, p.91), since these authors did not fully reference the basionym. Age: Danian.

"subsp. ***complanatum***" (Wetzel, 1952, p.404–405, pl.A, figs.11a–b) Downie and Sarjeant, 1965, p.93. Emendation: Sarjeant, 1984c, p.142, as *Solisphaeridium stimulierum* subsp. *complanatum*. Holotype: Wetzel, 1952, pl.A, figs.11a–b; Sarjeant, 1984c, pl.4, fig.6; text-fig.13. **NOW** *Micrhystridium stimulierum*? subsp. *complanatum* (Appendix A). Originally *Hystrichosphaeridium oligacanthum* subsp. *complanatum*, subsequently *Baltisphaeridium oligacanthum* subsp. *complanatum*, thirdly *Cleistosphaeridium? oligacanthum* subsp. *complanatum*, fourthly (and now) *Solisphaeridium stimulierum* subsp. *complanatum* (Appendix A), fifthly *Micrhystridium stimulierum*? subsp. *complanatum* (Appendix A). Age: Paleocene.

"subsp. ***granulatum***" (Wetzel, 1952, p.404; text-fig.25) Downie and Sarjeant, 1965, p.93. Emendation: Sarjeant, 1984c, p.136, as *Surculosphaeridium? granulatum*. Holotype: Wetzel, 1952, text-fig.25; Sarjeant, 1984c, pl.5, figs.1–3; text-fig.8. **NOW** *Surculosphaeridium? granulatum*. Originally *Hystrichosphaeridium oligacanthum* subsp. *granulatum*, subsequently *Baltisphaeridium oligacanthum* subsp. *granulatum*, thirdly *Cleistosphaeridium? oligacanthum* subsp. *granulatum*, fourthly (and now) *Surculosphaeridium? granulatum*. Age: Paleocene.

"subsp. ***oligacanthum***". Autonym. Holotype: Wetzel, 1952, pl.A, fig.8; Sarjeant, 1984c, pl.2, figs.4–5; text-fig.2; Fensome et al., 1995, figs.1–5 — p.1625. **Now redundant**. Originally *Hystrichosphaeridium oligacanthum* subsp. *oligacanthum*, subsequently *Baltisphaeridium oligacanthum* subsp. *oligacanthum*, thirdly *Cleistosphaeridium? oligacanthum* subsp. *oligacanthum*.

"subsp. ***stella***" (Wetzel, 1952, p.403, pl.A, fig.4; text-fig.23) Downie and Sarjeant, 1965, p.93. Emendation: Sarjeant, 1984c, p.135, as *Surculosphaeridium phoenix* subsp. *stella*. Holotype: Wetzel, 1952, pl.A, fig.4; Dietz et al. 1999, text-fig.6f. **NOW** *Surculosphaeridium? stella*. Originally *Hystrichosphaeridium oligacanthum* subsp. *stella*, subsequently *Baltisphaeridium oligacanthum* subsp. *stella*, thirdly *Cleistosphaeridium? oligacanthum* subsp. *stella*, fourthly *Surculosphaeridium? phoenix* subsp. *stella*, fifthly (and now) *Surculosphaeridium? stella*. N.I.A. Age: Paleocene.

"subsp. ***velatum***" (Wetzel, 1952, p.403–404, pl.A, fig.7; text-fig.24) Downie and Sarjeant, 1965, p.93. Emendation: Sarjeant, 1984c, p.133, as *Cauca? velata*. Holotype: Wetzel, 1952, pl.A, fig.7; text-fig.24; Sarjeant, 1984c, pl.3, figs.4–6; text-fig.6. **NOW** *Cauca? velata*. Originally *Hystrichosphaeridium oligacanthum* subsp. *velatum*, subsequently *Baltisphaeridium oligacanthum* subsp. *velatum*, thirdly *Cleistosphaeridium? oligacanthum* subsp. *velatum*, fourthly (and now) *Cauca? velata*. Age: Paleocene.

"oligofurcatum" (Eisenack, 1954a, p.208, pl.1, fig.4; text-fig.5) Downie and Sarjeant, 1965, p.94. Holotype: Eisenack, 1954a, pl.1, fig.4; text-fig.5. **NOW** *Visbysphaera* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly (and now) *Visbysphaera* (Appendix A), fourthly *Multiplicisphaeridium* (Appendix A). This combination was not validly published in Downie and Sarjeant (1963, p.94), since these authors did not fully reference the basionym. Age: Silurian (late Llandovery).

ordovicum (Timofeev, 1959, p.56, pl.4, fig.20) Downie and Sarjeant, 1965, p.94. Holotype: Timofeev, 1959, pl.4, fig.20. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.94), since these authors did not fully reference the basionym. Age: Early Ordovician.

"palmatum" (Deflandre and Courteville, 1939, p.101, pl.3, fig.1) Downie and Sarjeant, 1965, p.93. Holotype: Deflandre and Courteville, 1939, pl.3, fig.1. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Exochosphaeridium*, fourthly *Exochosphaeridium?*. **Taxonomic senior synonym:** *Hystrichosphaeridium* (now *Pervosphaeridium*) *pseudhystrichodinium* Deflandre, 1937b, according to Yun Hyesu (1981, p.29). This combination was not validly published in Downie and Sarjeant (1963, p.91), since these authors did not fully reference the basionym. Age: Late Cretaceous.

"panniforme" Gerlach, 1961, p.196, pl.28, fig.13. Holotype: Gerlach, 1961, pl.28, fig.13. **NOW** *Impletosphaeridium*. Originally *Baltisphaeridium*, subsequently (and now) *Impletosphaeridium*, thirdly *Cleistosphaeridium*. Taxonomic senior synonym: *Hystrichosphaeridium* (now *Cleistosphaeridium*) *placacanthum*, according to Sarjeant (1984b, p.86–87) — however, Eaton et al. (2001, p.191) retained *Baltisphaeridium* (as *Impletosphaeridium*) *panniforme*. Age: middle Oligocene.

"parvispinum" (Deflandre, 1937b, p.77, pl.16 [al. pl.13], fig.5) Klement, 1960, p.59. Holotype: Deflandre, 1937b, pl.16 (al. pl.13), fig.5; Fauconnier and Masure, 2004, pl.66, figs.5–6. **NOW** *Prolixosphaeridium parvispinum*. Originally *Hystrichosphaeridium?* *xanthiopyxides* var. *parvispinum*, subsequently *Hystrichosphaeridium parvispinum*, thirdly *Baltisphaeridium parvispinum*, fourthly (and now) *Prolixosphaeridium parvispinum*. Taxonomic junior synonyms (at specific rank): *Prolixosphaeridium deirense*, according to Davey and Verdier (1974, p.636–637) — however, Harding (1990b, p.46) retained *Prolixosphaeridium deirense*; *Prolixosphaeridium elongatum*, according to Lentin and Williams (1985, p.294). Age: late Aptian.

pateum (Timofeev, 1959, p.52, pl.4, fig.4) Downie and Sarjeant, 1965, p.94. Holotype: Timofeev, 1959, pl.4, fig.4. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Early Ordovician.

"pattei" (Valensi, 1949, p.539–540, fig.1) Sarjeant, 1960a, p.138–139. Holotype: Valensi, 1949, fig.1; Fauconnier and Masure, 2004, pl.62, figs.8–9. **NOW** *Hystrichosphaeridium*. Originally (and now) *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Lanterna*, fourthly *Lanterna?*, fifthly *Pandadinium*. Age: Bathonian.

"paucifurcatum" (Cookson and Eisenack, 1961b, p.44, pl.2, fig.15) Downie and Sarjeant, 1965, p.94. Holotype: Cookson and Eisenack, 1961b, pl.2, fig.15. **NOW** *Hystrichosphaeridium*. Originally (and now) *Hystrichosphaeridium*, subsequently *Baltisphaeridium*. Age: Eocene.

"pectiniforme" Gerlach, 1961, p.195, pl.28, fig.14; text-fig.18. Emendations: Sarjeant, 1984b, p.83–84,86, as *Areosphaeridium pectiniforme*; Stover and Williams, 1995, p.114, as *Enneadocysta pectiniformis*. Holotype: Gerlach, 1961, pl.28, fig.14; Sarjeant, 1984b, pl.1, fig.2; pl.4, fig.2; Fauconnier and Masure, 2004, pl.7, figs.4–5. **NOW** *Enneadocysta*. Originally *Baltisphaeridium*, subsequently *Cleistosphaeridium*, thirdly *Areosphaeridium?*, fourthly *Areosphaeridium*, fifthly (and now) *Enneadocysta*. Taxonomic junior synonym: *Areosphaeridium* (now *Enneadocysta*) *multicornutum*, according to Sarjeant (1984b, p.83–84) — however, Stover and Williams (1995, p.112) retained *Areosphaeridium* (as *Enneadocysta*) *multicornutum*. Age: middle Oligocene.

"pilosum" (Ehrenberg, 1854, pl.37, section 8, fig.4) Sarjeant, 1961a, p.101. Emendation: Erkmen and Sarjeant, 1980, p.51, as *Sentusidinium pilosum*. Holotype: Ehrenberg, 1854, pl.37, section 8, fig.4. **NOW** *Barbatocysta pilosa*. Originally *Xanthidium pilosum* (Appendix A), subsequently *Hystrichosphaera pilosa* (combination not

validly published), thirdly *Hystrichosphaeridium? pilosum*, fourthly *Baltisphaeridium pilosum*, fifthly *Ovum hispidum* subsp. *pilosum* (combination not validly published; Appendix A), sixthly *Cleistosphaeridium pilosum* (combination not validly published), seventhly *Tenua pilosa*, eighthly *Sentusidinium pilosum*, ninthly *Batiacasphaera pilosa*, tenthly (and now) *Barbatocysta pilosa*. Age: Oxfordian.

"var. **longispinosum**" Sarjeant, 1961a, p.102, pl.14, fig.8. Holotype: Sarjeant, 1961a, pl.14, fig.8. Originally *Baltisphaeridium pilosum* var. *longispinosum*, subsequently *Tenua pilosa* subsp. *longispinosa*. **Taxonomic senior synonym** (at specific rank): *Prolixosphaeridium anasillum*, according to Erkmen and Sarjeant (1980, p.64). Taxonomic senior synonym (at specific rank): *Hystrichosphaeridium xanthiopyxides* var. *granulosum* (now *Prolixosphaeridium granulosum*), according to Sarjeant (1976c, p.19) — however, Erkmen and Sarjeant (1980, p.64–65) considered *Baltisphaeridium pilosum* var. *longispinosum* to be a taxonomic junior synonym (at specific rank) of *Prolixosphaeridium anasillum*. Age: early Oxfordian.

"var. **pilosum**". Autonym. Holotype: Ehrenberg, 1854, pl.37, section 8, fig.4. **Now redundant.**

"**piriferum**" (Eisenack, 1954a, p.206–207, pl.1, figs.1a–b; text-fig.1) Downie and Sarjeant, 1965, p.94. Holotype: Eisenack, 1954a, pl.1, figs.1a–b. **NOW** *Visbysphaera* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Multiplicisphaeridium* (Appendix A), fourthly (and now) *Visbysphaera* (Appendix A). Taxonomic junior synonyms: *Baltisphaeridium hermosum* Cramer and Diez, 1968 (name not validly published), an acritarch species, according to Cramer (1970, p.148); *Baltisphaeridium* (now *Visbysphaera*) *dilatispinosum* Downie, 1963, an acritarch species, according to Eisenack (1965c, p.263) — however, Fensome et al. (1990, p.530) retained *Baltisphaeridium* (now *Visbysphaera*) *dilatispinosum*. This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Silurian (late Llandovery).

"**placacanthum**" (Deflandre and Cookson, 1955, p.276–277, pl.9, figs.1–3) Downie and Sarjeant, 1965, p.94. Emendation: May, 1980, p.68, as *Systematophora placacantha*. Holotype: Deflandre and Cookson, 1955, pl.9, figs.1–2; Fauconnier and Masure, 2004, pl.76, figs.14–16. **NOW** *Cleistosphaeridium*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Impletosphaeridium*, fourthly *Systematophora*, fifthly (and now) *Cleistosphaeridium*. Taxonomic junior synonyms: *Baltisphaeridium* (as *Cleistosphaeridium*) *panniforme*, according to Sarjeant (1984b, p.86–87); *Systematophora* (now *Cleistosphaeridium*) *ancyrea*, according to Stover and Evitt (1978, p.84) — however, Lentin and Williams (1981, p.272) retained *Systematophora ancyrea*. Age: Miocene.

"**plicatum**" (Maier, 1959, p.318, pl.33, fig.1) Downie and Sarjeant, 1965, p.94. Holotype: Maier, 1959, pl.33, fig.1. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. **Taxonomic senior synonym** (at subspecific rank): *Hystrichosphaera ramosa* var. *gracilis* (now *Spiniferites ramosus* subsp. *gracilis*), according to Sarjeant (1983, p.93). This combination was not validly published in Downie and Sarjeant (1963, p.92), since these authors did not fully reference the basionym. Age: middle Oligocene.

"**polygonale**" (Eisenack, 1931, p.113, pl.4, figs.16–20; pl.5, fig.18 ex Eisenack, 1938a, p.12) Eisenack, 1959, p.199–200. Holotype: Eisenack, 1931, pl.4, fig.19, as *Ovum hispidum* subsp. *polygonale*, lost according to Eisenack (1959, p.199). Neotype: Paris and Deunff, 1970, pl.1, fig.4, as *Veryhachium splendens*, designated by Fensome et al. (1990, p.235), which see. **NOW** *Polygonium polygonale* (Appendix A). Originally *Ovum hispidum* subsp. *polygonale* (combination not validly published, Appendix A), subsequently *Hystrichosphaeridium polygonale*, thirdly *Baltisphaeridium polygonale*, fourthly *Veryhachium polygonale* (combination not validly published, Appendix A), fifthly *Goniosphaeridium polygonale* (Appendix A), sixthly (and now) *Polygonium polygonale* (Appendix A). Taxonomic junior synonyms: *Impletosphaeridium? primordiale*, according to Eisenack et al. (1973, p.497–498); *Veryhachium* (subsequently *Goniosphaeridium*) *splendens* Paris and Deunff, 1970, an acritarch species, by implication in Turner (1984, p.113–114) who believed *Goniosphaeridium splendens* to be the senior name; *Hystrichosphaeridium* (subsequently *Baltisphaeridium*) *sexradiatum*, according to Eisenack (1965c, p.261). Age: Silurian (erratic).

"**polyozum**" Brosius, 1963, p.45, pl.1, fig.6; pl.6, fig.5; text-figs.2a–d. Holotype: Brosius, 1963, pl.1, fig.6. **NOW** *Impletosphaeridium?*. Originally *Baltisphaeridium*, subsequently *Cleistosphaeridium?*, thirdly *Surculosphaeridium*, fourthly (and now) *Impletosphaeridium?*. For etymology, see *Impletosphaeridium? polyozum*. Age: late Oxfordian.

"polytrichum" (Valensi, 1947, p.818; text-fig.4) Downie and Sarjeant, 1965, p.95. Holotype: Valensi, 1947, text-fig.4; Fauconnier and Masure, 2004, pl.24, figs.1–6. **NOW** *Impletosphaeridium?* Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Cleistosphaeridium*, fourthly *Impletosphaeridium*, fifthly *Downiesphaeridium*, sixthly (and now) *Impletosphaeridium?*. Taxonomic junior synonym: *Cleistosphaeridium* (as *Downiesphaeridium*) *polyacanthum*, according to Masure in Fauconnier and Masure (2004, p.196). This combination was not validly published in Sarjeant (1959, p.339 and 1962, p.487), since that author did not fully reference the basionym. Age: late Bajocian.

"pseudhystrichodinium" (Deflandre, 1937b, p.73, pl.15 [al. pl.12], figs.3–4) Downie and Sarjeant, 1965, p.95. Emendation: Davey, 1969a, p.163, as *Exochosphaeridium pseudhystrichodinium*. Holotype: Deflandre, 1937b, pl.15 (al. pl.12), fig.3; Eisenack and Kjellström, 1972, p.415; Fensome et al., 1995, fig.1 — p.1705. **NOW** *Pervosphaeridium*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Exochosphaeridium?*, fourthly (and now) *Pervosphaeridium*. Taxonomic junior synonym: *Hystrichosphaeridium* (as *Exochosphaeridium?*) *palmatum*, according to Yun Hyesu (1981, p.29). This combination was not validly published in Downie and Sarjeant (1963, p.92), since these authors did not fully reference the basionym. Age: Late Cretaceous.

"subsp. **magnum**" (Wetzel, 1955, p.35,38, figs.9–10,14) Downie and Sarjeant, 1965, p.95. Emendation: Sarjeant, 1984c, p.138–139, as *Coronifera oceanica* subsp. *magna*. Holotype: Wetzel, 1955, fig.9; Sarjeant, 1984c, pl.5, figs.4–5; text-fig.11 (two illustrations); Fensome et al., 1991, figs.1–3 — p.663; fig.1 — p.697. **NOW** *Coronifera oceanica* subsp. *magna*. Originally *Hystrichosphaeridium pseudhystrichodinium* subsp. *magnum*, subsequently *Baltisphaeridium pseudhystrichodinium* subsp. *magnum*, thirdly (and now) *Coronifera oceanica* subsp. *magna*, fourthly *Coronifera pedata* subsp. *magna*. Age: Paleocene.

"subsp. **pseudhystrichodinium**". Autonym. Holotype: Deflandre, 1937b, pl.15 (al. pl.12), fig.3. **Now redundant**. Originally *Hystrichosphaeridium pseudhystrichodinium* subsp. *pseudhystrichodinium*, subsequently *Baltisphaeridium pseudhystrichodinium* subsp. *pseudhystrichodinium*.

"pumile" (Wetzel, 1933b, p.44, pl.4, fig.24 ex Deflandre, 1937b, p.78) Downie and Sarjeant, 1963, p.92. Emendation: Sarjeant, 1985b, p.162, as *Diacrocanthidium pumile*. Holotype: Wetzel, 1933b, pl.4, fig.24. **Combination not validly published**: basionym not fully referenced. **NOW** *Diacrocanthidium? pumile* (Appendix A). Originally *Hystrichosphaera longispinosa* forma *pumilis* (name not validly published), subsequently *Hystrichosphaeridium pumile*, thirdly *Baltisphaeridium pumile* (combination not validly published), fourthly *Micrhystridium pumile* (Appendix A), fifthly (and now) *Diacrocanthidium? pumile* (Appendix A). Age: Late Cretaceous (erratic).

quadriradiatum (Timofeev, 1959, p.57, pl.4, fig.25) Downie and Sarjeant, 1965, p.95. Holotype: Timofeev, 1959, pl.4, fig.25. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Early Ordovician.

"ramuliferum" (Deflandre, 1937b, p.74, pl.14 [al. pl.11], figs.5–6; pl.17 [al. pl.14], fig.10) Downie and Sarjeant, 1963, p.92. Holotype: Deflandre, 1937b, pl.14 (al. pl.11), fig.5; Fensome et al., 1991, fig.1 — p.721; fig.1 — p.725. **Combination not validly published**: basionym not fully referenced. **NOW** *Achomosphaera*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (combination not validly published), thirdly (and now) *Achomosphaera*, fourthly *Spiniferites*. Age: Late Cretaceous.

"ramusculosum" (Deflandre, 1945a, p.63, pl.1, figs.8–16; text-figs.38–39) Downie, 1959, p.59–60. Emendation: Lister, 1970, p.92–93, as *Multiplicisphaeridium ramusculosum*. Holotype: Deflandre, 1945a, pl.1, figs.8–10. **NOW** *Multiplicisphaeridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Evittia Brito* (combination not validly published, Appendix A), fourthly (and now) *Multiplicisphaeridium* (Appendix A), fifthly *Peteinosphaeridium* (combination not validly published, Appendix A), sixthly *Oppilatala* (Appendix A). Age: Silurian.

"var. *macrocladum*" (Deunff, 1955, p.146, text-fig.21) Downie and Sarjeant, 1965, p.95. Holotype: Deunff, 1955, text-fig.21. **NOW** *Multiplicisphaeridium ramusculosum* var. *macrocladum* (Appendix A). Originally *Hystrichosphaeridium ramusculosum* var. *macrocladum*, subsequently *Baltisphaeridium ramusculosum* var. *macrocladum*, thirdly *Multiplicisphaeridium ramusculosum* var. *macrocladum* (combination not validly published, Appendix A), fourthly *Oppilatala ramusculosa* var. *macroclada* (Appendix A), fifthly (and now) *Multiplicisphaeridium ramusculosum* var. *ramusculosum* (Appendix A). Age: Middle Devonian.

"var. *ramusculosum*". Autonym. Holotype: Deflandre, 1945a, pl.1, figs.8–10. **NOW** *Multiplicisphaeridium ramusculosum* var. *ramusculosum* (Appendix A). Originally *Hystrichosphaeridium ramusculosum* var. *ramusculosum*, subsequently *Baltisphaeridium ramusculosum* var. *ramusculosum*, thirdly *Oppilatala ramusculosa* var. *ramusculosa* (Appendix A), fourthly (and now) *Multiplicisphaeridium ramusculosum* var. *ramusculosum* (Appendix A). Junior homonym: *Baltisphaeridium ramusculosum* var. *ramusculosum* Cramer and Diez, 1972, an acritarch varietas.

"*reginaldii*" (Mantell, 1844, p.240; text-fig.53, no.5) Downie and Sarjeant, 1965, p.95. Emendation: Sarjeant, 1967c, p.244–245, as *Hystrichosphaera reginaldii*. Holotype: Mantell, 1844, text-fig.53, no.5; Sarjeant, 1967c, figs.3A–B,4–5; Sarjeant, 1992a, figs.2,4a–b. **NOW** *Spiniferites*?. Originally *Xanthidium* (Appendix A), subsequently *Spiniferites*, thirdly *Hystrichosphaera*, fourthly *Baltisphaeridium*, fifthly (and now) *Spiniferites*?. This combination was not validly published in Downie and Sarjeant (1963, p.92), since these authors did not fully reference the basionym. Age: Late Cretaceous.

"*rehdense*" (Maier, 1959, p.317–318, pl.32, figs.3–4) Downie and Sarjeant, 1965, p.95. Holotype: Maier, 1959, pl.32, fig.4; Sarjeant, 1983, pl.1, fig.1. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*. **Taxonomic senior synonym:** *Hystrichosphaeridium* (now *Achomosphaera*) *ramuliferum*, according to Sarjeant (1983, p.97–99). This combination was not validly published in Downie and Sarjeant (1963, p.92), since these authors did not fully reference the basionym. Age: middle Miocene.

"*reticuloidum*" Jiabo, 1978, p.115–116, pl.31, figs.18–19. Holotype: Jiabo, 1978, pl.31, fig.19. **NOW** *Kallosphaeridium*?. Originally *Baltisphaeridium*, subsequently *Filisphaeridium* (Appendix A), thirdly (and now) *Kallosphaeridium*?. Age: late Oligocene.

"*rhabdophorum*" (Valensi, 1955b, p.593, pl.3, fig.7) Downie and Sarjeant, 1963, p.87. Holotype: Valensi, 1955b, pl.3, fig.7. **Combination not validly published:** basionym not fully referenced. **NOW** *Dapsilidinium*?. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (combination not validly published), thirdly *Polysphaeridium*?, fourthly (and now) *Dapsilidinium*?. Age: Late Cretaceous.

rigens (Timofeev, 1959, p.55, pl.4, fig.18) Downie and Sarjeant, 1965, p.95. Holotype: Timofeev, 1959, pl.4, fig.18. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Early Ordovician.

rjabininii (Timofeev, 1959, p.56, pl.4, fig.24) Downie and Sarjeant, 1965, p.95. Holotype: Timofeev, 1959, pl.4, fig.24. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Early Ordovician.

"*robustum*" (Sannemann, 1955, p.331, pl.1, figs.6,8–9; pl.6, figs.7–9; text-figs.13,14a–c) Downie and Sarjeant, 1965, p.95. Holotype: Sannemann, 1955, pl.6, fig.7. **Combination illegitimate — senior homonym:** *Baltisphaeridium robustum* Eisenack, 1963b, an acritarch species. **NOW** *Aldridgeisphaera*? (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (combination illegitimate), thirdly *Multiplicisphaeridium* (Appendix A), fourthly (and now) *Aldridgeisphaera*? (Appendix A). Junior homonym: *Baltisphaeridium robustum* Yin Leiming in Chen Junyuan et al., 1985, an acritarch species. This combination was not validly published in Downie and Sarjeant (1963), since these authors did not fully reference the basionym. Age: Devonian (late Givetian).

- "subsp. *fissum*" (Sannemann, 1955, p.331, pl.6, fig.9; text-figs.14a–c) Downie and Sarjeant, 1965, p.95. Holotype: Sannemann, 1955, pl.6, fig.9. **Combination illegitimate:** the specific name is illegitimate. **NOW** *Aldridgeisphaera? robusta* subsp. *fissa* (Appendix A). Originally *Hystrichosphaeridium robustum* subsp. *fissum*, subsequently *Baltisphaeridium robustum* subsp. *fissum* (combination illegitimate), thirdly *Multiplicisphaeridium robustum* subsp. *fissum* (Appendix A), fourthly (and now) *Aldridgeisphaera? robusta* subsp. *fissa* (Appendix A). This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Devonian (late Givetian).
- "*saturnium*" (Maier, 1959, p.319–320, pl.32, fig.8) Downie and Sarjeant, 1965, p.95. Holotype: Maier, 1959, pl.32, fig.8; Sarjeant, 1983, pl.4, figs.3–4. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*. **Taxonomic senior synonym:** *Wetziella symmetrica*, according to Sarjeant (1983, p.107–108). This combination was not validly published in Downie and Sarjeant (1963, p.92), since these authors did not fully reference the basionym. Age: middle Miocene.
- "*seminudum*" (Wetzel, 1952, p.405; text-fig.26) Downie and Sarjeant, 1965, p.96. Holotype: Wetzel, 1952, text-fig.26. **NOW** *Solisphaeridium?* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly (and now) *Solisphaeridium?* (Appendix A). This combination was not validly published in Downie and Sarjeant (1963, p.92), since these authors did not fully reference the basionym. Age: early Paleocene (Danian).
- "*septatum*" Cookson and Eisenack, 1967b, p.253–254, pl.42, figs.6–10; text-fig.1. Holotype: Cookson and Eisenack, 1967b, pl.42, fig.6; Eisenack and Kjellström, 1975b, uppermost figure — p.984w; Fensome et al., 1996, fig.1 — p.2355. **NOW** *Hafniasphaera*. Originally *Baltisphaeridium*, subsequently *Spiniferites*, thirdly (and now) *Hafniasphaera*, fourthly *Achomosphaera*, fifthly *Rivernookia*. Age: late Paleocene.
- setigerfurcatum* (Timofeev, 1959, p.52–53, pl.4, fig.6) Downie and Sarjeant, 1965, p.96. Holotype: Timofeev, 1959, pl.4, fig.6. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*, thirdly *Archaeohystrichosphaeridium* (combination not validly published, Appendix A). This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Early Ordovician.
- "*severinii*" Cookson and Cranwell, 1967, p.208, pl.3, figs.1–2. Holotype: Cookson and Cranwell, 1967, pl.3, fig.1. **NOW** *Operculodinium*. Originally *Baltisphaeridium*, subsequently *Impletosphaeridium*, thirdly (and now) *Operculodinium*. Age: Eocene–Oligocene.
- "*sexradiatum*" (Timofeev, 1959, p.53, pl.4, fig.7) Downie and Sarjeant, 1965, p.96. Holotype: Timofeev, 1959, pl.4, fig.7. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*. **Taxonomic senior synonym:** *Hystrichosphaeridium* (now *Polygonium*) *polygonale*, according to Eisenack (1965c, p.261). This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Early Ordovician.
- "*spiciferum*" (Deunff, 1955, p.146, pl.3, fig.1; text-fig.26) Downie and Sarjeant, 1965, p.96. Holotype: Deunff, 1955, pl.3, fig.1. **NOW** *Stellechinatum* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Veryhachium* (combination not validly published, Appendix A), thirdly *Baltisphaeridium*, fourthly *Evittia* Brito (combination not validly published, Appendix A), fifthly *Multiplicisphaeridium* (Appendix A), sixthly (and now) *Stellechinatum* (Appendix A). This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Middle Devonian.
- spiculatum* (White, 1844, p.87, pl.9, fig.4) Downie and Sarjeant, 1965, p.96. Holotype: White, 1844, pl.9, fig.4. Originally *Xanthidium tubiferum* var. *spiculatum* (Appendix A), subsequently *Hystrichosphaeridium spiculatum*, thirdly (and now) *Baltisphaeridium spiculatum*. This combination was not validly published in Downie and Sarjeant (1963, p.92), since these authors did not fully reference the basionym. Age: Late Cretaceous.
- spinescens* (Timofeev, 1959, p.56, pl.4, fig.23) Downie and Sarjeant, 1965, p.96. Holotype: Timofeev, 1959, pl.4, fig.23. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Early Ordovician.

"**spinosum**" (White, 1842, p.37, pl.4, fig.6) Downie and Sarjeant, 1965, p.96. Holotype: White, 1842, pl.4, fig.6; lost according to Sarjeant (1966b, p.141). **NOW** *Exochosphaeridium?*. Originally *Xanthidium* (Appendix A), subsequently *Hystrichosphaeridium*, thirdly *Baltisphaeridium*, fourthly *Cordosphaeridium* (combination not validly published), fifthly *Exochosphaeridium*, sixthly (and now) *Exochosphaeridium?*. Junior homonym: *Baltisphaeridium spinosum* Rasul, 1979, an acritarch species. This combination was not validly published in Downie and Sarjeant (1963, p.92), since these authors did not fully reference the basionym. Age: Late Cretaceous.

"var. **deflandrei**" (Lejeune-Carpentier, 1941, p.84, fig.6) Downie and Sarjeant, 1965, p.96. Emendation: Lejeune-Carpentier and Sarjeant, 1981, p.14, as *Fibrocysta? deflandrei*. Holotype: Lejeune-Carpentier, 1941, fig.6; Lejeune-Carpentier and Sarjeant, 1981, pl.4, figs.5–6; text-fig.8. **NOW** *Fibrocysta? deflandrei*. Originally *Hystrichosphaeridium spinosum* var. *deflandrei*, subsequently *Baltisphaeridium spinosum* var. *deflandrei*, thirdly *Cordosphaeridium spinosum* var. *deflandrei* (combination not validly published), fourthly *Exochosphaeridium spinosum* var. *deflandrei*, fifthly *Exochosphaeridium spinosum* subsp. *deflandrei*, sixthly *Exochosphaeridium? spinosum* subsp. *deflandrei*, seventhly (and now) *Fibrocysta? deflandrei*. Age: Late Cretaceous.

"var. **spinosum**". Autonym. Holotype: White, 1842, pl.4, fig.6. **Now redundant**. Originally *Hystrichosphaeridium spinosum* var. *spinosum*, subsequently *Baltisphaeridium spinosum* var. *spinosum*, thirdly *Exochosphaeridium spinosum* var. *spinosum*.

"**spiralisetum**" (de Wit, 1943, p.383; text-figs.2,11) Downie and Sarjeant, 1965, p.97. Holotype: de Wit, 1943, text-figs.2,11, lost according to de Wit (personal communication to GLW). **NOW** *Impletosphaeridium?*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Cleistosphaeridium*, fourthly (and now) *Impletosphaeridium?*. Age: Late Cretaceous.

stellaeforme (Timofeev, 1959, p.57, pl.4, fig.26) Downie and Sarjeant, 1965, p.97. Holotype: Timofeev, 1959, pl.4, fig.26. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Early Ordovician.

"**stimuliferum**" (Deflandre, 1939a, p.192, pl.10, fig.10) Sarjeant, 1961a, p.100–101. Holotype: Deflandre, 1939a, pl.10, fig.10. **NOW** *Solisphaeridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly (and now) *Solisphaeridium* (Appendix A), fourthly *Filisphaeridium* (combination not validly published, Appendix A), fifthly *Micrhystridium* (Appendix A). Age: Late Jurassic.

"**striatoconum**" (Deflandre and Cookson, 1955, p.275, pl.2, fig.10; text-fig.36) Downie and Sarjeant, 1965, p.97. Holotype: Deflandre and Cookson, 1955, text-fig.36. **NOW** *Conosphaeridium*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Litosphaeridium?*, fourthly (and now) *Conosphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.92), since these authors did not fully reference the basionym. Age: middle Senonian.

"**striolatum**" (Deflandre, 1937b, p.72, pl.15 [al. pl.12], figs.1–2) Downie and Sarjeant, 1965, p.97. Holotype: Deflandre, 1937b, pl.15 (al. pl.12), fig.1. **NOW** *Coronifera*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Exochosphaeridium*, fourthly (and now) *Coronifera*. This combination was not validly published in Downie and Sarjeant (1963, p.92), since these authors did not fully reference the basionym. Age: Late Cretaceous.

sylhetii (Baksi, 1962, p.17, pl.2, fig.26) Downie and Sarjeant, 1965, p.97. Holotype: Baksi, 1962, pl.2, fig.26. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*, thirdly *Hystrichosphaeridium?*. Lentin and Williams (1989, p.188) retained this species in *Baltisphaeridium*. Age: Eocene.

"**tiara**" (Klumpp, 1953, p.390–391, pl.17, figs.8–10) Downie and Sarjeant, 1965, p.97. Holotype: Klumpp, 1953, pl.17, figs.8–9. **NOW** *Operculodinium*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Cordosphaeridium*, fourthly *Cleistosphaeridium*, fifthly (and now) *Operculodinium*. This combination was not

validly published in Downie and Sarjeant (1963, p.92), since these authors did not fully reference the basionym. N.I.A. Age: Eocene.

"*toyetae*" Cramer, 1964, p.302, pl.1, figs.14–15; text-fig.22, nos.7,7a. Holotype: Cramer, 1964, pl.1, fig.15. **NOW** *Florisphaeridium* (Appendix A). Originally *Baltisphaeridium*, subsequently *Multiplicisphaeridium?* (Appendix A), thirdly *Hystrichosphaeridium*, fourthly (and now) *Florisphaeridium* (Appendix A). Age: Devonian (middle Siegenian–Emsian).

"*triangulatum*" Gerlach, 1961, p.194–195, pl.29, fig.1. Emendation: Sarjeant, 1984b, p.82–83, as *Achomosphaera triangulata*. Holotype: Gerlach, 1961, pl.29, fig.1; Sarjeant, 1984b, pl.1, figs.4–5. **NOW** *Achomosphaera*. Originally *Baltisphaeridium*, subsequently (and now) *Achomosphaera*. Age: middle Oligocene–mid Miocene.

"*tribuliferum*" Sarjeant, 1962a, p.487, pl.70, fig.4; text-figs.6c,7. Holotype: Sarjeant, 1962a, pl.70, fig.4; Fauconnier and Masure, 2004, pl.23, fig.11. **NOW** *Downiesphaeridium*. Originally *Baltisphaeridium*, subsequently *Cleistosphaeridium*, thirdly *Cleistosphaeridium?*, fourthly *Impletosphaeridium*, fifthly (and now) *Downiesphaeridium*. Age: Oxfordian.

"*tridactylites*" (Valensi, 1955a, p.37–38, fig.1D) Downie and Sarjeant, 1965, p.97. Holotype: Valensi, 1955a, fig.1D. **NOW** *Florentinia*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Hystrichokolpoma* (combination not validly published), fourthly *Achomosphaera*, fifthly *Silicisphaera*, sixthly (and now) *Florentinia*. This combination was not validly published in Downie and Sarjeant (1963, p.92), since these authors did not fully reference the basionym. Age: Cretaceous.

"*trifurcatum*" (Eisenack, 1931, p.112, pl.4, figs.21–23 ex Eisenack, 1938a, p.12, 16–19) Eisenack, 1959, p.202. Holotype: Eisenack, 1931, pl.4, fig.21, as *Ovum hispidum* subsp. *trifurcatum*; Eisenack, 1938a, pl.2, fig.2; lost according to Eisenack (1959, p.202). Neotype: Eisenack, 1959, pl.17, fig.3, designated by Eisenack (1959, p.202). **NOW** *Peteinosphaeridium trifurcatum* (Appendix A). Originally *Ovum hispidum* subsp. *trifurcatum* (name not validly published, Appendix A), subsequently *Hystrichosphaeridium trifurcatum*, thirdly *Baltisphaeridium trifurcatum*, fourthly (and now) *Peteinosphaeridium trifurcatum* (Appendix A). Taxonomic junior synonyms: *Peteinosphaeridium bergstroemii* Staplin et al., 1965, an acritarch species, according to Eisenack (1969b, p.254–255); *Baltisphaeridium trifurcatum* subsp. *breviradiatum* (subsequently *Peteinosphaeridium breviradiatum*), by implication in Eisenack (1969b, p.255), who considered *Baltisphaeridium trifurcatum* subsp. *breviradiatum* to be the senior name. This combination was not validly published in Eisenack (1958b, p.400), since that author did not fully reference the basionym. Age: Ordovician (erratic).

"subsp. *consonum*" (Sannemann, 1955, p.332, pl.5, fig.7) Downie and Sarjeant, 1965, p.98. Holotype: Sannemann, 1955, pl.5, fig.7. **NOW** *Multiplicisphaeridium consonum* (Appendix A). Originally *Hystrichosphaeridium trifurcatum* subsp. *consonum*, subsequently *Baltisphaeridium trifurcatum* subsp. *consonum*, thirdly (and now) *Multiplicisphaeridium consonum* (Appendix A). This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Devonian (late Givetian).

"subsp. *procerum*" (Sannemann, 1955, p.332, pl.5, fig.8; text-fig.18) Downie and Sarjeant, 1965, p.98. Holotype: Sannemann, 1955, pl.5, fig.8. **NOW** *Multiplicisphaeridium procerum* (Appendix A). Originally *Hystrichosphaeridium trifurcatum* subsp. *procerum*, subsequently *Baltisphaeridium trifurcatum* subsp. *procerum*, thirdly (and now) *Multiplicisphaeridium procerum* (Appendix A). This combination was not validly published in Downie and Sarjeant (1963, p.90), since these authors did not fully reference the basionym. Age: Devonian (late Givetian).

"subsp. *trifurcatum*". Autonym. Holotype: Eisenack, 1931, pl.4, fig.21, as *Ovum hispidum* subsp. *trifurcatum*; Eisenack, 1938a, pl.2, fig.2; lost according to Eisenack (1959, p.202). Neotype: Eisenack, 1959, pl.17, fig.3, designated by Eisenack (1959, p.202). **NOW** *Peteinosphaeridium trifurcatum* subsp. *trifurcatum* (Appendix A). Originally *Hystrichosphaeridium trifurcatum* subsp. *trifurcatum*, subsequently *Baltisphaeridium trifurcatum* subsp. *trifurcatum*, thirdly (and now) *Peteinosphaeridium trifurcatum* subsp. *trifurcatum* (Appendix A). Taxonomic junior synonym: *Baltisphaeridium trifurcatum* subsp. *breviradiatum* (subsequently *Peteinosphaeridium breviradiatum*) Eisenack, 1959 ex Eisenack, 1965a, an

acritarch taxon, according to Eisenack (1969b, p.255), who believed *Baltisphaeridium trifurcatum* subsp. *breviradiatum* (al. *Peteinosphaeridium breviradiatum*) to be the senior name.

triplicativum (Timofeev, 1959, p.55, pl.4, fig.16) Downie and Sarjeant, 1965, p.98. Holotype: Timofeev, 1959, pl.4, fig.16. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.90–91), since these authors did not fully reference the basionym. Age: Early Ordovician.

tripodes Morzadec-Kerfourn, 1966, p.140–141, pl.3, figs.3–4. Holotype: Morzadec-Kerfourn, 1966, pl.3, figs.3–4. **NOW** *Spiniferites*?. Originally *Baltisphaeridium*, subsequently (and now) *Spiniferites*?. Age: Holocene.

trispinosum (Eisenack, 1938a, p.14,16; text-figs.2–3) Schultz, 1967, p.176–177. Emendation: Stancliffe and Sarjeant, 1994, p.233, as *Veryhachium trispinosum*. Holotype: Eisenack, 1938a, text-fig.2, lost according to Eisenack et al. (1979, p.499). Neotype: Deunff, 1980, pl.1, fig.7, designated by Stancliffe and Sarjeant (1994, p.233). **NOW** *Veryhachium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently (and now) *Veryhachium* (Appendix A), thirdly *Baltisphaeridium*, fourthly *Micrhystridium* (combination not validly published, Appendix A). Taxonomic junior synonyms: *Veryhachium cucruse* Timofeev, 1962, an acritarch species, according to Martin (1969, p.106); *Veryhachium arctatum* Deunff, 1981, *Veryhachium concavum* Piskun, 1974a, *Veryhachium edenense* Colbath, 1979, *Veryhachium microgranuliferum* Piskun, 1974a and *Hystrichosphaeridium* (subsequently *Veryhachium*) *trisulcum*, all acritarch species, and all according to Stancliffe and Sarjeant (1994, p.233). Age: Silurian (erratic).

tschunense (Timofeev, 1962, caption to pl.11, fig.1) Downie and Sarjeant, 1965, p.98. Holotype: Timofeev, 1962, pl.11, fig.1. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. Age: Middle Ordovician.

tuberatum (Downie, 1958, p.338, pl.17, fig.3; text-fig.3f) Downie and Sarjeant, 1965, p.98. Holotype: Downie, 1958, pl.17, fig.3. **NOW** *Acanthodiacrodium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly (and now) *Acanthodiacrodium* (Appendix A), fourthly *Vulcanisphaera* (Appendix A), fifthly *Goniosphaeridium* (Appendix A). This combination was not validly published in Downie and Sarjeant (1963, p.91), since these authors did not fully reference the basionym. Hu Yunxu (1986, p.219) also proposed this combination. Age: Early Ordovician.

tuberosum (Sannemann, 1955, p.345, pl.4, fig.17; text-fig.16) Downie and Sarjeant, 1965, p.98. Holotype: Sannemann, 1955, pl.4, fig.17. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.91), since these authors did not fully reference the basionym. Age: Devonian (Givetian).

twistringiense (Maier, 1959, p.308–309, pl.30, figs.3–4) Sarjeant, 1964a, p.176. Holotype: Maier, 1959, pl.30, fig.3; Sarjeant, 1983, pl.5, fig.3. **NOW** *Spiniferites*. Originally *Galea* (generic name illegitimate), subsequently *Baltisphaeridium*, thirdly *Areoligera*, fourthly (and now) *Spiniferites*. Taxonomic junior synonyms (at specific rank): *Hystrichosphaera ramosa* var. *multibrevis* (now *Spiniferites multibrevis*), according to Sarjeant (1983, p.94–95), who considered this species to be a taxonomic junior synonym of *Hystrichosphaera ramosa* var. *multibrevis* (as *Spiniferites ramosus* subsp. *multibrevis*); *Achomosphaera* (al. *Spiniferites*) *cambra*, by implication in Jain (1982, p.51). Age: middle Miocene.

uncinatum (Downie, 1958, p.337; text-fig.2a) Martin, 1966b, p.425. Holotype: Downie, 1958, text-fig.2a. **NOW** *Stellechinatum uncinatum* (Appendix A). Originally *Hystrichosphaeridium longispinosum* var. *uncinatum*, subsequently *Baltisphaeridium longispinosum* var. *uncinatum* (Appendix A), thirdly *Baltisphaeridium uncinatum*, fourthly *Micrhystridium uncinatum* (Appendix A), fifthly *Goniosphaeridium uncinatum* (Appendix A), sixthly *Polygonium uncinatum* (Appendix A), seventhly *Goniosphaeridium polygonale* subsp. *uncinatum* (combination not validly published, Appendix A), eighthly (and now) *Stellechinatum uncinatum* (Appendix A). Taxonomic junior synonym: *Goniosphaeridium regulare* Yin Leiming in Chen Junyuan et al., 1985, an acritarch species, according to Yin Leiming (1986, p.347). Age: Early Ordovician.

varispinosum Sarjeant, 1959, p.338, pl.13, fig.7; text-fig.6. Holotype: Sarjeant, 1959, pl.13, fig.7; text-fig.6; Fauconnier and Masure, 2004, pl.49, fig.8. **NOW** *Impletosphaeridium*. Originally *Baltisphaeridium*, subsequently

Tenua Eisenack, thirdly *Sentusidinium*, fourthly *Sentusidinium?*, fifthly *Cleistosphaeridium*, sixthly (and now) *Impletosphaeridium*. Age: early Callovian.

"*veliferum*" (Downie, 1958, p.340, pl.17, fig.2) Downie and Sarjeant, 1965, p.98. Holotype: Downie, 1958, pl.17, fig.2. **NOW** *Cymatiogalea* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly (and now) *Cymatiogalea* (Appendix A). Age: Ordovician (Tremadoc).

"*venustum*" (Sannemann, 1955, p.345, pl.5, fig.11; text-fig.15) Downie and Sarjeant, 1965, p.98. Holotype: Sannemann, 1955, pl.5, fig.11. **NOW** *Hapsidopalla* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Multiplicisphaeridium* (Appendix A), fourthly (and now) *Hapsidopalla* (Appendix A). This combination was not validly published in Downie and Sarjeant (1963, p.91), since these authors did not fully reference the basionym. Age: Devonian (late Givetian).

"*vestitum*" (Deflandre, 1939a, p.189–190, pl.11, figs.4–6) Sarjeant, 1960b, p.397. Emendation: Sarjeant, 1960b, p.397, as *Baltisphaeridium vestitum*. Holotype: Deflandre, 1939a, pl.11, fig.5; Fauconnier and Masure, 2004, pl.74, figs.11–12. **NOW** *Surculosphaeridium?*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium*, thirdly *Surculosphaeridium*, fourthly (and now) *Surculosphaeridium?*, fifthly *Multiplicisphaeridium?* (Appendix A), sixthly *Systematophora*. Taxonomic junior synonym: *Polystephanosphaera valensii*, according to Courtinat (1989, p.173) — however, Stancliffe and Sarjeant (1990, p.209) retained *Polystephanosphaera* (as and now *Systematophora valensii*). Age: Oxfordian.

"*whitei*" (Deflandre and Courteville, 1939, p.103, pl.3, figs.5–6) Downie and Sarjeant, 1965, p.98. Emendation: Monteil, 1991a, p.444, as *Cometodinium? whitei*. Holotype: Deflandre and Courteville, 1939, pl.3, fig.5; Fauconnier and Masure, 2004, pl.16, figs.7–8. **NOW** *Cometodinium*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Impletosphaeridium*, fourthly *Comasphaeridium* (Appendix A), fifthly *Cometodinium?*, sixthly (and now) *Cometodinium*. This combination was not validly published in Sarjeant (1959, p.339), since that author did not fully reference the basionym. Age: Senonian.

"*xanthiopyxides*" (Wetzel, 1933b, p.44–45, pl.4, fig.25 ex Deflandre, 1937b, p.77) Downie and Sarjeant, 1965, p.98. Emendations: Morgenroth, 1968, p.556, as *Hystrichosphaeridium? xanthiopyxides*; Sarjeant, 1985b, p.142–144, as *Tanyosphaeridium xanthiopyxides*. Holotype: Wetzel, 1933b, pl.4, fig.25, Morgenroth, 1968, pl.48, fig.5; Sarjeant, 1985b, pl.3, figs.2–3; Dietz et al., 1999, fig.10, no.8. **NOW** *Tanyosphaeridium*. Originally *Hystrichosphaera* (name not validly published), subsequently *Hystrichosphaeridium*, thirdly *Hystrichosphaeridium?*, fourthly *Baltisphaeridium*, fifthly *Prolixosphaeridium?*, sixthly (and now) *Tanyosphaeridium*. Taxonomic junior synonym: *Hystrichosphaeridium* (as *Tanyosphaeridium magdali*), according to Stover and Evitt (1978, p.85). This combination was not validly published in Klement (1960, p.59), since that author did not fully reference the basionym. Age: Late Cretaceous (?Maastrichtian, according to Sarjeant, 1985b, p.143).

"var. *granulosum*" (Deflandre, 1937b, p.77, pl.16 [al. pl.13], fig.4) Klement, 1960, p.59. Holotype: Deflandre, 1937b, pl.16 (al. pl.13), fig.4; Fauconnier and Masure, 2004, pl.66, fig.4. **Combination not validly published**: basionym not fully referenced. **NOW** *Prolixosphaeridium granulosum*. Originally *Hystrichosphaeridium xanthiopyxides* var. *granulosum*, subsequently *Baltisphaeridium xanthiopyxides* var. *granulosum* (combination not validly published), thirdly *Baltisphaeridium granulosum* (Appendix A), fourthly (and now) *Prolixosphaeridium granulosum*. Taxonomic junior synonyms (at specific rank): *Baltisphaeridium pilosum* var. *longispinosum* (as *Tenua pilosa* subsp. *longispinosa*), according to Sarjeant (1976c, p.19) — however, Erkmen and Sarjeant (1980, p.64–65) considered *Baltisphaeridium pilosum* var. *longispinosum* to be a taxonomic junior synonym (at specific rank) of *Prolixosphaeridium anasillum*; *Prolixosphaeridium anasillum*, according to Lentin and Williams (1993, p.539) — however, this synonymy was based on a mis-reading of Erkmen and Sarjeant (1980). Age: Senonian.

zonale (Timofeev, 1959, p.55, pl.4, fig.19) Downie and Sarjeant, 1965, p.99. Holotype: Timofeev, 1959, pl.4, fig.19. Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium*. This combination was not validly published in Downie and Sarjeant (1963, p.91), since these authors did not fully reference the basionym. Age: Early Ordovician.

BERINGIELLA Bujak, 1984, p.195. Acritarch genus. Type: Bujak, 1984, pl.4, figs.12–13, as *Beringiella fritilla*.

**fritilla* Bujak, 1984, p.195, pl.4, figs.12–14. Holotype: Bujak, 1984, pl.4, figs.12–13. Age: late Pleistocene.

BION Lohmann, 1904, p.24. Extant problematic plankton genus. For a complete listing of acritarch species that have been included in the genus, see Fensome et al. (1990, p.620–621).

"*baciferum*" Eisenack, 1934, p.66, pl.4, figs.20–21. Holotype: Eisenack, 1934, pl.4, fig.20, lost according to Eisenack (1962, p.356). Neotype: Eisenack, 1962, pl.44, fig.3, designated by Eisenack (1962, p.356). **NOW** *Bacisphaeridium* (Appendix A). Originally *Bion*, subsequently *Hystrichosphaeridium*, thirdly *Veryhachium* (combination not validly published, Appendix A), fourthly (and now) *Bacisphaeridium* (Appendix A), fifthly *Baltisphaeridium* (combination not validly published, Appendix A). Age: Late Ordovician.

"*fluctuans*" Eisenack, 1938c, p.230–231, pl.16, figs.1–3. Holotype: Eisenack, 1938c, pl.16, fig.3. **NOW** *Baltisphaeridium* (Appendix A). Originally *Bion*, subsequently *Hystrichosphaeridium*, thirdly *Polysphaeridium?* (combination not validly published), fourthly (and now) *Baltisphaeridium* (Appendix A). Age: Silurian.

"*ramosum*" (Ehrenberg, 1837b, pl.1, fig.15) Eisenack, 1938c, p.243 (caption to pl.16, fig.5). Holotype: not designated. Lectotype: Ehrenberg, 1837b, pl.1, fig.15, designated by Davey and Williams (1966a, p.32). **NOW** *Spiniferites ramosus*. Originally *Xanthidium ramosum* (Appendix A), subsequently (and now) *Spiniferites ramosus*, thirdly *Hystrichosphaera ramosa*, fourthly *Ovum hispidum* subsp. *ramosum* (combination not validly published, Appendix A), fifthly *Bion ramosum*. Taxonomic junior synonyms: *Xanthidium* (as *Hystrichosphaera*) *furcatum*, according to Davey and Williams (1966a, p.29–33); *Galea korykos* and *Hystrichosphaeridium echinoides*, both according to Sarjeant (1983, p.91–92); *Areoligera birama*, according to Morgenroth (1968, p.550); *Geodia? tripunctata*, by implication in Sarjeant (1964a, p.175), who considered *Geodia? tripunctata* to be a taxonomic junior synonym of *Xanthidium* (as *Hystrichosphaera*) *furcatum*; *Hystrichosphaera* (subsequently *Spiniferites*) *bulloidea*, according to Harland (1977b, p.101–102) — however, Lentin and Williams (1981, p.259) retained *Hystrichosphaera* (as *Spiniferites*) *bulloidea*; *Homotryblium distinctum*, according to Jain and Garg (1982, p.69), who considered *Homotryblium distinctum* to be a taxonomic junior synonym of *Spiniferites ramosus* subsp. *ramosus*. Motile equivalent: *Gonyaulax spinifera* (Claparède and Lachmann, 1859) Diesing, 1866, according to Dodge (1989, p.289). Age: Late Cretaceous.

BUEDINGIISPHAERIDIUM Schaarschmidt, 1963, p.69–70. Emendations: Lister, 1970, p.59,61; Sarjeant and Stancliffe, 1994, p.24. Acritarch genus. For synonymy see Fensome et al. (1990, p.136). Type: Schaarschmidt, 1963, pl.20, fig.6; text-fig.26, as *Buedingiisphaeridium permicum*.

astarte (Sannemann, 1955, p.325, pl.4, fig.1; text-figs.1a–b) Moreau-Benoit, 1974, p.77. Holotype: Sannemann, 1955, pl.4, fig.1. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly (and now) *Buedingiisphaeridium*. N.I.A. Age: Devonian (late Givetian).

"*brevispinosum*" (Eisenack, 1931, p.111, pl.5, figs.3–5 ex Eisenack, 1938a, p.12) Moreau-Benoit, 1974, p.77–78. Holotype: Eisenack, 1931, pl.5, fig.3, lost according to Eisenack (1959, p.197). Neotype: Eisenack, 1959, pl.15, fig.13, designated by Eisenack (1959, p.197), lost according to Ribecai and Tongiorgi (1999, p.124). New Neotype: Eisenack, 1959, pl.15, fig.16, designated by Ribecai and Tongiorgi (1999, p.124). **Combination not validly published**: basionym not fully referenced. **NOW** *Pachysphaeridium brevispinosum* (Appendix A). Originally *Ovum hispidum* subsp. *brevispinosum* (name not validly published, Appendix A), subsequently *Hystrichosphaeridium brevispinosum*, thirdly *Baltisphaeridium brevispinosum* (Appendix A), fourthly *Buedingiisphaeridium brevispinosum* (combination not validly published), fifthly (and now) *Pachysphaeridium brevispinosum* (Appendix A). Age: Silurian.

"subsp. *callosum*" (Sannemann, 1955, p.325–326, pl.1, figs.1–4,7; pl.3, figs.2–5,10; pl.4, figs.3–9; pl.6, figs.11–12; text-figs.2a–d) Moreau-Benoit, 1974, p.77–78. Holotype: Sannemann, 1955, pl.4, fig.3. **Combination not validly published**: specific name not validly published. **NOW** *Baltisphaeridium brevispinosum* subsp. *callosum* (Appendix A — see discussion therein). Originally *Hystrichosphaeridium*

brevispinosum subsp. *callosum*, subsequently *Buedingiisphaeridium brevispinosum* subsp. *callosum* (combination not validly published), thirdly (and now) *Baltisphaeridium brevispinosum* subsp. *callosum* (Appendix A). This combination was not validly published in Moreau-Benoit (1974) additionally since that author did not specify the taxonomic rank. Age: Devonian (late Givetian).

"*microspinosum*" (Eisenack, 1954a, p.209–210, pl.1, fig.8) Gardiner and Vanguetaine, 1971, p.183–184. Holotype: Eisenack, 1954a, pl.1, fig.8. **Combination not validly published**: basionym not fully referenced. **NOW** *Baltisphaeridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium* (Appendix A), thirdly *Lophosphaeridium* (Appendix A), fourthly *Visbysphaera* (Appendix A), fifthly *Buedingiisphaeridium* (combination not validly published). Taxonomic junior synonym: *Baltisphaeridium listeri* Kiryanov, 1978, an acritarch species, according to Le Hérissé (1989, p.210). Age: Silurian (late Llandovery).

CATILLOPSIS Drugg, 1970b, p.821. Acritarch genus. Type: Drugg, 1970b, fig.17D, as *Catillopsis abdita*.

**abdita* Drugg, 1970b, p.821, figs.17D–F,18A–C,19A–B. Holotype: Drugg, 1970b, fig.17D. Age: early Eocene.

CERATOCYSTIDIOPSIS Deflandre, 1937b, p.89. Acritarch genus. Type: Deflandre, 1937b, pl.17 (al. pl.14), fig.1, as *Ceratocystidiopsis simplex*.

"*incerta*" Deflandre-Rigaud, 1954, p.59; text-fig.3. Holotype: Deflandre-Rigaud, 1954, text-fig.3. **NOW** *Odontochitinopsis*. Originally *Ceratocystidiopsis*, subsequently (and now) *Odontochitinopsis*. Age: Late Cretaceous.

"*ludbrookiae*" Cookson and Eisenack, 1958, p.52–54, pl.5, figs.7–8. Emendation: Morgan, 1980, p.23, as *Endoceratium ludbrookiae*. Holotype: Cookson and Eisenack, 1958, pl.5, fig.7. **NOW** *Endoceratium*. Originally *Ceratocystidiopsis*, subsequently *Pseudoceratium*, thirdly (and now) *Endoceratium*. Age: Albian.

"*molesta*" Deflandre, 1937b, p.90, pl.17 (al. pl.14), figs.2–3. Holotype: Deflandre, 1937b, pl.17 (al. pl.14), figs.2–3. **NOW** *Odontochitinopsis*. Originally *Ceratocystidiopsis*, subsequently (and now) *Odontochitinopsis*. Age: Senonian.

**simplex* Deflandre, 1937b, p.89–90, pl.17 (al. pl.14), fig.1. Holotype: Deflandre, 1937b, pl.17 (al. pl.14), fig.1. Age: Late Cretaceous.

CHONESPHAERA Klumpp, 1953, p.395. Problematic genus: see discussion under *Chonesphaera incerta*. A calcisphere genus according to Elbrächter et al. (2008, p.1303). Type: Klumpp, 1953, pl.19, fig.9, as *Chonesphaera incerta*.

**incerta* Klumpp, 1953, p.395, pl.19, fig.9. Holotype: Klumpp, 1953, pl.19, fig.9. The type material is lost and Keupp in Lentin and Williams (1985, p.379) believed that this taxon is not a dinoflagellate. Age: late Eocene.

CIRRIFERA Cookson and Eisenack, 1960a, p.10. Acritarch genus. Type: Cookson and Eisenack, 1960a, pl.3, fig.8, as *Cirrifera unilateralis*.

**unilateralis* Cookson and Eisenack, 1960a, p.10, pl.3, fig.8. Holotype: Cookson and Eisenack, 1960a, pl.3, fig.8. Age: late Albian–Cenomanian.

COBRICOSPHAERIDIUM Harland and Sarjeant, 1970, p.216–217. Emendation: Head et al., 2003, p.1164–1165,1167). Acritarch genus: see McMinn (1991, p.280), McMinn et al. (1992, p.316) and Head et al. (2003, p.1161,1163), who considered that this genus may represent copepod eggs. Taxonomic junior synonym:

- Aquadulcum* (Appendix A), according to Head et al. (2003, p.1164). Type: Harland and Sarjeant, 1970, pl.21, figs.1–2; text-fig.2, as *Cobricosphaeridium hebes*.
- awendae* (Burden et al., 1986, p.52,54, pl.1, figs.1–15) Head et al., 2003, p.1167. Emendation: Head et al., 2003, p.1167, 1169, as *Cobricosphaeridium awendae*. Holotype: Burden et al., 1986, pl.1, figs.1–3; Head et al., fig.4, nos.1–4. Originally *Aquadulcum* (Appendix A), subsequently (and now) *Cobricosphaeridium*. Age: Holocene.
- ?*giganteum* McMinn, 1991, p.280, pl.4, figs.1–12. Holotype: McMinn, 1991, pl.4, figs.7–8,10–11. Questionable assignment: Head et al., 2003, p.1177. McMinn et al. (1992, p.315) demonstrated through incubation experiments that *Cobricosphaeridium giganteum* may represent copepod eggs. Age: Holocene.
- **hebes* Harland and Sarjeant, 1970, p.217–218, pl.21, figs.1–2; text-fig.2. Emendation: Head et al., 2003, p.1169. Holotype: Harland and Sarjeant, 1970, pl.21, figs.1–2; text-fig.2; Head et al., 2003, fig.8, nos.1–7. N.I.A. Age: Holocene.
- hinojalense* Head et al., 2003, p.1171, fig.11, nos.12–21; fig.13, nos.1–4; fig.15, nos.12,14–15. Holotype: Head et al., 2003, fig.11, nos.16–19. Age: Holocene.
- myalupense* (Churchill and Sarjeant, 1962, p.38–40, figs.5,22–23) Head et al., 2003, p.1171. Holotype: Churchill and Sarjeant, 1962, figs.5,22. Originally *Palaeohystrichophora*, subsequently *Aquadulcum* (Appendix A), thirdly (and now) *Cobricosphaeridium*. Age: Holocene.
- ?*ovatum* (Gao Ruiqi et al., 1992b, p.48–49,61, pl.13, figs.18–20) Head et al., 2003, p.1177. Holotype: Gao Ruiqi et al., 1992b, pl.13, fig.20. Originally *Aquadulcum* (Appendix A), subsequently (and now) *Cobricosphaeridium*?. Questionable assignment: Head et al. (2003, p.1177). Age: Late Cretaceous.
- pikeae* (Churchill and Sarjeant, 1962, p.40–41, figs.6,24) Head et al., 2003, p.1171. Holotype: Churchill and Sarjeant, 1962, figs.6,24. Originally *Palaeohystrichophora*, subsequently *Aquadulcum* (Appendix A), thirdly (and now) *Cobricosphaeridium*. Age: Holocene.
- serpens* (Harland and Sarjeant, 1970, p.221, pl.21, figs.7–8; text-fig.5) Head et al., 2003, p.1173. Holotype: Harland and Sarjeant, 1970, pl.21, figs.7–8; text-fig.5; Head et al., 2003, fig.8, nos.17–20; fig.9, no.1. Originally *Aquadulcum* (Appendix A), subsequently (and now) *Cobricosphaeridium*. Age: Holocene.
- spiniferum* Harland and Sarjeant, 1970, p.218–220, pl.21, figs.3–6; text-figs.3–4. Emendation: Head et al., 2003, p.1173,1175. Holotype: Harland and Sarjeant, 1970, pl.21, figs.3,6; text-fig.3; Head et al., 2003, fig.9, nos.5–10. Age: Holocene.
- subsp. *elegans* Harland and Sarjeant, 1970, p.219–220, pl.21, figs.4–5; text-fig.4. Emendation: Head et al., 2003, p.1175,1177. Holotype: Harland and Sarjeant, 1970, pl.21, figs.4–5; text-fig.4; Head et al., 2003, fig.10, nos.1–6. Age: Holocene.
- subsp. *spiniferum*. Autonym. Holotype: Harland and Sarjeant, 1970, pl.21, figs.3,6; text-fig.3; Head et al., 2003, fig.9, nos.5–10. Head et al. (2003, p.1175) proposed an emended diagnosis for this subspecies.
- ?*vermiculatum* (Song Zhichen in Song Zhichen et al., 1985, p.39–40, pl.2, figs.9–10) Head et al., 2003, p.1179. Holotype: Song Zhichen et al., 1985, pl.2, figs.9–10. Originally *Aquadulcum*? (Appendix A), subsequently (and now) *Cobricosphaeridium*? Questionable assignment: Head et al. (2003, p.1179). Age: early-middle Pleistocene.
- yanchepense* (Harland and Sarjeant, 1970, p.222–223, pl.22, fig.3) Head et al., 2003, p.1177. Holotype: Harland and Sarjeant, 1970, pl.22, fig.3. Originally *Aquadulcum*? (Appendix A), subsequently (and now) *Cobricosphaeridium*. Age: Holocene.

COLLUMOSPHERA Jain and Dutta in Dutta and Jain, 1980, p.70. Acritarch genus. Taxonomic senior synonym: *Cyclopsiella* (Appendix A), according to Lentin and Williams (1985, p.66) — however, Lentin and Williams (1989, p.70) retained *Collumosphaera*. Type: Dutta and Jain, 1980, pl.4, fig.33, as *Collumosphaera fruticosa*.

**fruticosa* Jain and Dutta in Dutta and Jain, 1980, p.70–71, pl.4, figs.28–36; pl.5, figs.38–43. Holotype: Dutta and Jain, 1980, pl.4, fig.33. Originally (and now) *Collumosphaera*, subsequently *Cyclopsiella* (Appendix A). Age: late Paleocene.

garoensis Saxena and Sarkar, 2000, p.257,259, pl.1, figs.5–6. Holotype: Saxena and Sarkar, 2000, pl.1, fig.5. Age: middle Eocene.

COMASPHAERIDIUM Staplin et al., 1965, p.192. Emendation: Sarjeant and Stancliffe, 1994, p.25. Acritarch genus. For synonymy see Fensome et al. (1990, p.149). Type: Valensi, 1949, fig.5, no.6, as *Micrhystridium cometes*.

"*capillatum*" Courtinat in Courtinat and Gaillard, 1980, p.75, pl.2, fig.15. Holotype: Courtinat and Gaillard, 1980, pl.2, fig.15. **NOW** *Filisphaeridium? courtinatii* (Appendix A). Originally *Comasphaeridium capillatum*, subsequently *Trichodinium capillatum*, thirdly (and now) *Filisphaeridium? courtinatii* (Appendix A). Age: late Oxfordian.

"*fimbriatum*" (White, 1842, p.36, pl.4, div.3, fig.3) Sarjeant, 1991, p.88. Holotype: White, 1842, pl.4, div.3, fig.3; Sarjeant, 1991, fig.4.2. **NOW** *Filisphaeridium* (Appendix A) Originally *Xanthidium* (Appendix A), subsequently *Hystrichosphaeridium*, thirdly *Baltisphaeridium* (Appendix A), fourthly *Comasphaeridium*, fifthly (and now) *Filisphaeridium* (Appendix A). Age: Late Cretaceous.

"*whitei*" (Deflandre and Courteville, 1939, p.103, pl.3, figs.5–6) de Coninck, 1969, p.59. Emendation: Monteil, 1991a, p.444, as *Cometodinium? whitei*. Holotype: Deflandre and Courteville, 1939, pl.3, fig.5; Fauconnier and Masure, 2004, pl.16, figs.7–8. **NOW** *Cometodinium*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Impletosphaeridium*, fourthly *Comasphaeridium* (Appendix A), fifthly *Cometodinium?*, sixthly (and now) *Cometodinium*. Age: Senonian.

CRYPTOMERIAPOLLENITES Kremp, 1949, p.58 ex Potonié, 1958, p.58. Pollen genus. Type: Kremp, 1949, pl.5, fig.30 as "cf. *Cryptomeria* — Poll. largus".

"*coralliensis*" Lantz, 1958, p.927, pl.5, figs.55–56; pl.6, fig.57. Holotype: Lantz, 1958, pl.5, fig.55. **Taxonomic senior synonym:** *Pareodinia ceratophora*, according to Sarjeant (1962b, p.263). Age: Oxfordian.

CUPRITIA Courtinat in Courtinat and Gaillard, 1980, p.23. Acritarch genus. Type: Courtinat and Gaillard, 1980, pl.2, figs.7,10, as *Cupritia minima*.

**minima* Courtinat in Courtinat and Gaillard, 1980, p.23–24, pl.2, figs.7,10; text-fig.3. Holotype: Courtinat and Gaillard, 1980, pl.2, figs.7,10. According to Jansonius in Lentin and Williams (1985, p.84), Courtinat does not now consider this species to be a dinoflagellate. Age: late Oxfordian.

simplex (Yu Jingxian, 1982, p.253, pl.8, figs.18–19) Brenner, 1988, p.97. Holotype: Yu Jingxian, 1982, pl.8, fig.18. Originally *Palaeotetradinium*, subsequently (and now) *Cupritia*. Age: late Kimmeridgian–Berriasian.

CYCLODICTYON Cookson and Eisenack, 1958, p.58. Acritarch genus. Type: Cookson and Eisenack, 1958, pl.12, fig.1, as *Cyclodictyon minus*.

minus Pocock, 1972, p.101, pl.23, fig.10. Holotype: Pocock, 1972, pl.23, fig.10. According to Jansonius in Lentin and Williams (1989, p.87), this is possibly an acritarch. Age: Callovian.

**paradoxum* Cookson and Eisenack, 1958, p.58–59, pl.12, figs.1–2. Holotype: Cookson and Eisenack, 1958, pl.12, fig.1. Age: Cenomanian–early Turonian.

CYCLOPSIELLA Drugg and Loeblich Jr., 1967, p.188,190. Emendations: Jain and Dutta in Dutta and Jain, 1980, p.71 — however, see Head et al. (1989c, p.496–497); Head et al., 1989c, p.496. Acritarch genus. Taxonomic junior synonym: *Collumosphaera* (Appendix A), according to Lentin and Williams (1985, p.88) — however, Lentin and Williams (1989, p.70) retained *Collumosphaera*. Type: Drugg and Loeblich Jr., 1967, pl.3, figs.1–2, as *Cyclopsiella elliptica*.

angusta He Chengquan, 1991, p.190–191, pl.53, figs.12–13. Holotype: He Chengquan, 1991, pl.53, fig.12. Age: Paleocene.

?*chateauneufii* Head et al., 1989c, p.497. Holotype: Châteauneuf, 1980, pl.19, fig.8. Originally *Ascotomocystis granulata* (Appendix A), subsequently (and now) *Cyclopsiella? chateauneufii*. Questionable assignment: Head et al. (1989c, p.497). Substitute name for *Ascotomocystis granulata* Châteauneuf, 1980, p.133, pl.19, figs.8,11 (Appendix A); the name *Cyclopsiella granulata* is preoccupied. Age: middle Eocene–early Oligocene.

coniata Jain and Tandon, 1981, p.14, pl.2, figs.32–33. Holotype: Jain and Tandon, 1981, pl.2, fig.33. Age: middle Eocene.

deltoides He Chengquan and Li Peng, 1981, p.70, pl.35, fig.1. Holotype: He Chengquan and Li Peng, 1981, pl.35, fig.1. Age: late Oligocene.

**elliptica* Drugg and Loeblich Jr., 1967, p.190, pl.3, figs.1–6; text-fig.7. Holotype: Drugg and Loeblich Jr., 1967, pl.3, figs.1–2. Age: Oligocene.

"fruticosa" (Jain and Dutta in Dutta and Jain, 1980, p.70–71, pl.4, figs.28–36; pl.5, figs.38–43) Lentin and Williams, 1985, p.88. Holotype: Dutta and Jain, 1980, pl.4, fig.33. **NOW** *Collumosphaera* (Appendix A). Originally (and now) *Collumosphaera* (Appendix A), subsequently *Cyclopsiella*. Age: late Paleocene.

"granosa" (Matsuoka, 1983b, p.141, pl.8, figs.5a–b,7a–b,8) Head et al., 1992, p.163. Emendation: Matsuoka and Head, 1992, p.170, as *Cyclopsiella granosa*. Holotype: Matsuoka, 1983b, pl.8, figs.5a–b; Matsuoka and Head, 1992, pl.1, figs.12–15. Originally *Ascotomocystis* (Appendix A), subsequently *Cyclopsiella*. **Taxonomic senior synonym:** *Echigraminidites* (as and now *Cyclopsiella*) *lusaticus* (Appendix A), according to Strauss and Lund (1992, p.174). Taxonomic senior synonym: *Cyclopsiella granulata* (Appendix A), according to Head et al. (1989c, p.497) — however, Head et al. (1992, p.163) retained *Cyclopsiella granosa*. Taxonomic junior synonym: *Cyclopsiella spiculosa* (Appendix A), according to Matsuoka and Head (1992, p.170). This combination was not validly published in Head et al. (1989c, p.497), since these authors did not accept *Cyclopsiella granosa* to be the correct name. Age: early-middle Miocene.

granulata He Chengquan and Li Peng, 1981, p.69–70, pl.35, figs.4–8. Holotype: He Chengquan and Li Peng, 1981, pl.35, fig.5. Taxonomic junior synonym: *Ascotomocystis granosa* (Appendix A), according to Head et al. (1989c, p.497) — however, Head et al. (1992, p.163) retained *Ascotomocystis* (as *Cyclopsiella*) *granosa*. Age: late Oligocene.

?*laevigata* (Châteauneuf, 1980, p.133, pl.19, figs.8,11) Head et al., 1989c, p.497. Holotype: Châteauneuf, 1980, pl.19, fig.8. Originally *Ascotomocystis* (Appendix A), subsequently (and now) *Cyclopsiella*. Questionable assignment: Head et al. (1989c, p.497). Age: late Eocene.

laxa He Chengquan, 1991, p.191, pl.53, fig.11. Holotype: He Chengquan, 1991, pl.53, fig.11. Age: Paleocene.

lusatica (Kruttsch, 1970, p.70, pl.8, figs.8–15,16,16a,17,17a,18) Strauss and Lund, 1992, p.174. Holotype: Kruttsch, 1970, pl.8, figs.11–15. Originally *Echigraminidites* (Appendix A), subsequently (and now) *Cyclopsiella*.

Taxonomic junior synonyms: *Ascostomocystis granosa* (Appendix A) and *Cyclopsiella spiculata* (Appendix A), according to Strauss and Lund (1992, p.174). Age: middle Miocene.

minor Yu Jingxian, 1989, p.159–160, pl.51, figs.21,23. Holotype: Yu Jingxian, 1989, pl.51, fig.23. Age: early Eocene.

?murus Duxbury, 1983, p.67, pl.9, fig.15. Holotype: Duxbury, 1983, pl.9, fig.15. Originally *Cyclopsiella*, subsequently (and now) *Cyclopsiella?*. Questionable assignment: Head et al. (1989c, p.497). N.I.A. Age: early Albian.

ornamenta Jain, 1977b, p.187, pl.6, fig.72. Holotype: Jain, 1977b, pl.6, fig.72. Age: early Albian.

rhomboidalis He Chengquan and Li Peng, 1981, p.70, pl.35, fig.2; text-fig.7. Holotype: He Chengquan and Li Peng, 1981, pl.35, fig.2; text-fig.7. Age: late Oligocene.

"spiculosa" Head et al., 1989c, p.497–498, pl.5, figs.20–21. Holotype: Head et al., 1989c, pl.5, fig.21. **Taxonomic senior synonym:** *Echigraminidites* (as and now *Cyclopsiella*) *lusaticus* (Appendix A), according to Strauss and Lund (1992, p.174). Taxonomic senior synonym: *Cyclopsiella granosa* (Appendix A), according to Matsuoka and Head (1992, p.170), which is now considered a taxonomic junior synonym of *Echigraminidites* (as *Cyclopsiella*) *lusaticus* (Appendix A). Age: Miocene.

?trematophora (Cookson and Eisenack, 1967a, p.136, pl.19, fig.13) Lentin and Williams, 1977b, p.39. Holotype: Cookson and Eisenack, 1967a, pl.19, fig.13. Originally *Leiosphaeridia* (Appendix A), subsequently *Cyclopsiella*, thirdly (and now) *Cyclopsiella?*. Questionable assignment: Head et al. (1989c, p.497). Age: late Eocene.

vieta Drugg and Loeblich Jr., 1967, p.192,194, pl.3, figs.7–9; text-fig.8. Holotype: Drugg and Loeblich Jr., 1967, pl.3, fig.7. Age: Oligocene.

CYMATIOGALEA Deunff, 1961a, p.41–42. Emendation: Deunff, 1964, p.121. Acritarch genus. For synonymy see Fensome et al. (1990, p.163). Type: Deunff, 1961a, pl.1, fig.1, as *Cymatiogalea margaritata*.

cristata (Downie, 1958, p.338–339, pl.16, fig.4; text-fig.4f) Rauscher, 1973, p.65. Holotype: Downie, 1958, pl.16, fig.4. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Priscogalea* (Appendix A), fourthly (and now) *Cymatiogalea*. Taxonomic junior synonym: *Cymatiogalea polygonophora* Górka, 1967, an acritarch species, according to Rasul (1974, p.56). Eisenack et al. (1973, p.219–220), Rasul (1974, p.56) and Deunff et al. (1974, p.11) also proposed this combination. Age: Early Ordovician.

velifera (Downie, 1958, p.340, pl.17, fig.2) Martin, 1969, p.133. Holotype: Downie, 1958, pl.17, fig.2. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly (and now) *Cymatiogalea*. Age: Ordovician (Tremadoc).

CYMATIOSPHAERA Wetzel, 1933b, p.27 ex Deflandre, 1954, p.257. Prasinophyte genus. For a full discussion, see Fensome et al. (1990, p.167). Type: Wetzel, 1933b, pl.4, fig.8, as *Cymatiosphaera radiata*.

"cingulata" Wetzel, 1933b, p.28, pl.4, fig.10. Holotype: Wetzel, 1933b, pl.4, fig.10. **NOW** *Pterodinium*. Originally *Cymatiosphaera*, subsequently *Hystrichosphaera*, thirdly *Spiniferites*, fourthly *Spiniferites?*, fifthly (and now) *Pterodinium*. Taxonomic junior synonym: *Cymatiosphaera* (as *Spiniferites?*) *pterota*, according to Below (1981a, p.114) — however, Pavlishina (1990, p.95) retained *Cymatiosphaera* (now *Pterodinium?*) *pterota*. Age: Senonian.

"membranacea" (Philippot, 1949, p.57–58; text-fig.3) Davey and Williams in Davey et al., 1969 (December), p.5. Holotype: Philippot, 1949, text-fig.3. **Name illegitimate** — **senior homonym:** *Cymatiosphaera membranacea* (Deunff, 1955 ex Deunff, 1961b) Stockmans and Willièrè, 1969 (April). **Substitute name:** *Cymatiosphaera philippotii* (Appendix A). Originally *Hystrichosphaeridium membranaceum*, subsequently *Cymatiosphaera*

membranacea (name illegitimate), thirdly (and now) *Cymatiosphaera philippotii* (Appendix A). Junior homonym: *Cymatiosphaera membranacea* Kiryanov, 1974, a prasinophyte species. This combination was not validly published in Davey and Williams (1966b, p.104), since these authors did not fully reference the basionym. Age: Late Cretaceous.

philippotii Fensome et al., 1990, p.173. Holotype: Philippot, 1949, text-fig.3. Originally *Hystrichosphaeridium membranaceum*, subsequently *Cymatiosphaera membranacea* (name illegitimate), thirdly (and now) *Cymatiosphaera philippotii*. Substitute name for *Cymatiosphaera membranacea* (Philippot, 1949, p.57–58; text-fig.3) Davey and Williams in Davey et al., 1969, p.5 (an illegitimate name). Age: Late Cretaceous.

pterothora (Deflandre and Courteville, 1939, p.102, pl.2, figs.4–5) Downie and Sarjeant, 1965, p.106. Holotype: Deflandre and Courteville, 1939, pl.2, figs.4–5. Originally *Hystrichosphaeridium*, subsequently *Cymatiosphaera*, thirdly *Oodnadattia*, fourthly (and now) *Dinopterygium*. This combination was not validly published in Downie and Sarjeant (1963, p.92), since these authors did not fully reference the basionym. Age: Late Cretaceous.

pterotha Cookson and Eisenack, 1958, p.50, pl.11, fig.7. Emendation: Pavlishina, 1990, p.95, as *Pterodinium?* *pterotum*. Holotype: Cookson and Eisenack, 1958, pl.11, fig.7. **NOW** *Pterodinium?* Originally *Cymatiosphaera* (Appendix A), subsequently *Spiniferites*, thirdly *Hystrichosphaera*, fourthly *Spiniferites?*, fifthly (and now) *Pterodinium?*. Taxonomic senior synonym: *Cymatiosphaera* (as and now *Pterodinium*) *cingulata*, according to Below (1981a, p.114) — however, Pavlishina (1990, p.95) retained *Cymatiosphaera* (now *Pterodinium?*) *pterotha*. Taxonomic junior synonyms: *Hystrichosphaera* (as *Spiniferites*) *crassimurata*, according to Kjellström (1973, p.44) and Pavlishina (1990, p.95); (at specific rank) *Hystrichosphaera cingulata* var. *polygonalis*, according to Pavlishina (1990, p.95) — however, Paul et al. (1994, p.722) retained *Hystrichosphaera cingulata* subsp. *polygonalis* (as *Pterodinium cingulatum* subsp. *polygonale*). Age: Albian–Maastrichtian.

radiata Wetzel, 1933b, p.27, pl.4, fig.8. Emendation: Sarjeant, 1985b, p.161–162. Holotype: Wetzel, 1933b, pl.4, fig.8. Taxonomic junior synonym: *Cymatiosphaera* (subsequently *Cymatiosphaeropsis*) *stigmata* Cookson and Eisenack, 1958, a prasinophyte species, according to Sarjeant (1985b, p.161). Junior homonym: *Cymatiosphaera radiata* Yankauskas and Posti, 1976, a prasinophyte species. This name was not validly published in Wetzel (1932, pl.2, fig.13). Age: Late Cretaceous.

"forma ***radiata***". Autonym. Holotype: Wetzel, 1933b, pl.4, fig.8. **Now redundant.**

"forma ***serratocycla***" Wetzel, 1933b, p.27–28, pl.4, fig.9. Emendation: Sarjeant, 1985b, p.144–145, as *Litosphaeridium serratocyclum*. Holotype: Wetzel, 1933b, pl.4, fig.9; Sarjeant, 1985b, pl.1, fig.6. **NOW** *Litosphaeridium serratocyclum*. Originally *Cymatiosphaera radiata* forma *serratocycla*, subsequently (and now) *Litosphaeridium serratocyclum*. Age: Late Cretaceous.

striata Eisenack and Cookson, 1960, p.9, pl.3, figs.10–11. Holotype: Eisenack and Cookson, 1960, pl.3, fig.11. **NOW** *Heslertonia*. Originally *Cymatiosphaera*, subsequently (and now) *Heslertonia*. Age: Cenomanian.

teichophera Sarjeant, 1961a, p.107–108, pl.15, fig.9; text-figs.9a–b. Emendation: Below, 1990, p.42–43, as *Arkellea teichophera*. Holotype: Sarjeant, 1961a, pl.15, fig.9; text-figs.9a–b; Sarjeant, 1976c, pl.6, fig.3. **NOW** *Arkellea*. Originally *Cymatiosphaera*, subsequently *Heslertonia*, thirdly (and now) *Arkellea*. Age: early Oxfordian.

CYSTIDIOPSIS Nagy, 1965, p.209. Acritarch genus. Type: Nagy, 1965, pl.5, figs.27–29, as *Cystidiopsis certa*.

certa Nagy, 1965, p.209–210, pl.5, figs.27–30. Holotype: Nagy, 1965, pl.5, figs.27–29. Age: middle Miocene.

DAILLYDIUM Stockmans and Willière, 1969, p.33. Acritarch genus. Type: Stockmans and Willière, 1962a, pl.1, fig.18, as *Hystrichosphaeridium quadridactylites*.

quadridactylites" (Stockmans and Willière, 1962a, p.67–68, pl.1, fig.18; text-fig.29) Stockmans and Willière, 1969, p.33–35. Holotype: Stockmans and Willière, 1962a, pl.1, fig.18. Originally *Hystrichosphaeridium*,

subsequently *Daillydium*. **Taxonomic senior synonym:** *Cymatiosphaera* (now *Daillydium*) *pentaster* Staplin, 1961, a prasinophyte species, according to Playford in Playford and Dring (1981, p.17–18). Taxonomic senior synonym: *Cymatiosphaera tetraster* Staplin, 1961, a prasinophyte species, according to Górká (1974, p.134), which is now considered a taxonomic junior synonym of *Cymatiosphaera* (now *Daillydium*) *pentaster*. The nomenclatural type of the genus *Daillydium* remains the holotype of *Daillydium quadridactylites*. Age: Devonian (Frasnian).

"DEFLANDRIDIUM" Nagy, 1969, p.294. Zygnematalean genus (Head, 1992, p.249). **Taxonomic senior synonym:** *Planctonites* (Appendix A), according to Head (1992, p.249). Type: Nagy, 1969, pl.2, figs.3–4,6, as *Deflandridium stellatum*.

"*stellatum" Nagy, 1969, p.294, pl.2, figs.1,3–4,6. Holotype: Nagy, 1969, pl.2, figs.3–4,6. **NOW** *Planctonites stellatus* (Appendix A). Originally *Deflandridium stellatum*, subsequently *Planctonites nagyae* (name illegitimate), thirdly (and now) *Planctonites stellatus*. As noted by Head (1992, p.250,252), Fensome et al. (1990, p.187) were incorrect in stating that this name was not validly published. Age: late Miocene.

DEUNFFIA Downie, 1960, p.198. Emendation: Thusu, 1973, p.806–807. Acritarch genus. Type: Downie, 1960, pl.1, fig.8, as *Deunffia monospinosa*.

monacantha (Deunff, 1951, p.323; text-fig.4) Downie, 1960, p.198. Holotype: Deunff, 1951, text-fig.4. Originally *Hystrichosphaeridium*, subsequently *Veryhachium* (combination not validly published, Appendix A), thirdly (and now) *Deunffia*. Cramer and Diez (1979, p.47) considered this species to be a possible taxonomic junior synonym of *Hystrichosphaeridium* (now *Veryhachium*) *trispinosum* or *Veryhachium trisulcum* (Appendix A). Age: Middle Ordovician.

DIACROCANTHIDIUM Deflandre and Foucher, 1967, p.3. Acritarch genus. Although the "type species" was not validly transferred by Deflandre and Foucher (1967), the generic name *Diacrocanthidium* was validly published by these authors, since it is based on a previously validly published species name (I.C.N. Article 40.3). Type: Deflandre, 1937b, pl.11 (al. pl.8), fig.9, as *Palaeostomocystis echinulata*.

?**costatum** Habib and Knapp, 1982, p.366, pl.11, figs.1–3. Holotype: Habib and Knapp, 1982, pl.11, figs.1,3. Questionable assignment: Habib and Knapp (1982, p.366). Age: early Hauterivian.

***echinulatum** (Deflandre, 1937b, p.55, pl.11 [al. pl.8], fig.9) Loeblich Jr. and Loeblich III, 1970b, p.200. Holotype: Deflandre, 1937b, pl.11 (al. pl.8), fig.9, lost according to Deflandre and Foucher (1967, p.4). Neotype: Deflandre and Foucher, 1967, pl.1, fig.6, designated by Deflandre and Foucher (1967, p.4). Originally *Palaeostomocystis* (Appendix A), subsequently *Acanthodiacrodium* (combination not validly published, Appendix A), thirdly (and now) *Diacrocanthidium*. Taxonomic junior synonym: *Cleistosphaeridium parvum*, according to Bujak in Bujak et al. (1980, p.52). This combination was not validly published in Deflandre and Foucher (1967, p.4), since these authors did not fully reference the basionym. Age: Late Cretaceous.

?**granulatum** Habib and Knapp, 1982, p.366, pl.11, figs.4–5. Holotype: Habib and Knapp, 1982, pl.11, figs.4–5. Questionable assignment: Habib and Knapp (1982, p.366). Age: late Hauterivian.

?**psilatum** Habib and Knapp, 1982, p.366–368, pl.11, fig.6. Holotype: Habib and Knapp, 1982, pl.11, fig.6. Questionable assignment: Habib and Knapp (1982, p.366). Age: late Hauterivian.

?**pumile** (Wetzel, 1933b, p.4, pl.4, fig.24 ex Deflandre, 1937b, p.78) Sarjeant, 1985b, p.162. Emendation: Sarjeant, 1985b, p.162, as *Diacrocanthidium pumile*. Holotype: Wetzel, 1933b, pl.4, fig.24. Originally *Hystrichosphaera longispinosa* forma *pumilis* (name not validly published), subsequently *Hystrichosphaeridium pumile*, thirdly *Baltisphaeridium pumile* (name not validly published; Appendix A), fourthly *Micrhystridium pumile* (Appendix A), fifthly (and now) *Diacrocanthidium?* *pumile*. Questionable assignment: Sarjeant (1985b, p.162). See *Hystrichosphaera longispinosa* forma *pumilis* for discussion. Age: Late Cretaceous (erratic).

"*spinigerum*" de Coninck, 1969, p.43–44, pl.13, figs.11–13. Holotype: de Coninck, 1969, pl.13, figs.11–12. **NOW** *Paucilobimorpha* (Appendix A). Originally *Diacrocanthidium*, subsequently (and now) *Paucilobimorpha* (Appendix A). Age: Ypresian.

ungaricum Fedorova-Shakhmundes, 1976, p.93–94, pl.1, fig.1. Holotype: Fedorova-Shakhmundes, 1976, pl.1, fig.1. Age: early Valanginian.

DICTYOCHA Ehrenberg, 1837c, p.61. Silicoflagellate genus. Type: not designated?; "type species" — *Dictyocha fibula*.

"*elegans*" Ehrenberg, 1844a, p.79. Holotype: Ehrenberg, 1854, pl.22, fig.51. **NOW** *Actiniscus*. Originally *Dictyocha*, subsequently (and now) *Actiniscus*. Dumitrică (1973, p.822) considered *Dictyocha* (now *Actiniscus*) *pentasterias* to be the questionable taxonomic senior synonym of this species. Age: Pliocene.

"*sirius*" Ehrenberg, 1841, p.150. Holotype: not designated **NOW** *Actiniscus*. Originally *Dictyocha* subgenus *Actiniscus*, subsequently (and now) *Actiniscus*, thirdly *Distephanus* (name not validly published; Appendix A), fourthly *Gymmaster*. Illustrations of this species were provided by Ehrenberg (1854, pl.18, figs.59,60; and pl.33 (XV), fig.1. Dumitrică (1973, p.822) considered *Dictyocha* (now *Actiniscus*) *pentasterius* to be the questionable taxonomic senior synonym of this species. N.I.A. Age: Miocene.

"*pentasteria*" Ehrenberg, 1841, p.111,149. Holotype: not designated. **NOW** *Actiniscus*. Originally *Dictyocha* subgenus *Actiniscus*, subsequently (and now) *Actiniscus*, thirdly *Gymmaster*. Downie and Sarjeant (1965, p.82) retained this species in *Actiniscus*. Dumitrică (1973, p.822) considered *Dictyocha* (now *Actiniscus*) *elegans* and *Dictyocha* (now *Actiniscus*) *sirius* to be questionable taxonomic junior synonyms of this species. Age: Pliocene.

"*sirius*" (Ehrenberg, 1844a) Ehrenberg, 1854. Holotype: Ehrenberg, 1854, pl.18, fig.59. **Name not validly published**: see discussion under *Actiniscus sirius*. **NOW** *Actiniscus*. Originally (and now) *Actiniscus* (name not validly published), subsequently *Dictyocha* (name not validly published), thirdly *Distephanus* (name not validly published, Appendix A), fourthly *Gymmaster*, fifthly (and now) *Actiniscus*. Further information not available. N.I.A. Age: Miocene.

"*stella*" Ehrenberg, 1839a, p.129, pl.4, fig.11p. Holotype: Ehrenberg, 1839a, pl.4, fig.11p. **NOW** *Actiniscus*?. Originally *Dictyocha*?, subsequently *Dictyocha* subgenus *Actiniscus*, thirdly *Actiniscus*, fourthly and now) *Actiniscus*? Ehrenberg (1839a, p.129) provided the plate citation indicated here, but location of a pertinent specimen is not obvious in the plate. N.I.A. Age: Pliocene.

"**DICTYOCHA** subgenus **ACTINISCUS**" Ehrenberg 1841, p.149–150. **NOW** *Actiniscus*. Originally *Dictyocha* subgenus *Actiniscus*, subsequently (and now) *Actiniscus*. See genus entry for *Actiniscus* and species entries for *Dictyocha elegans*, *Dictyocha pentasterias* and *Dictyocha sirius*. Type: not designated; "type species" is *Actiniscus pentasterias*, designated by Downie and Sarjeant (January, 1965, p.81–82) for *Actiniscus*.

DICTYOSPHAERIDIUM Wetzel, 1952, p.406. Emendation: Sarjeant, 1984c, p.140–141. Acritarch genus. Junior homonym: *Dictyosphaeridium* Timofeev, 1969. Type: Wetzel, 1952, pl.A, figs.12a–b, as *Dictyosphaeridium deflandrei*.

**deflandrei* Wetzel, 1952, p.406, pl.A, figs.12a–b. Emendation: Sarjeant, 1984c, p.141. Holotype: Wetzel, 1952, pl.A, figs.12a–b; Sarjeant, 1984c, pl.7, fig.3; text-fig.12; Dietz et al., text-fig.6c. Age: Danian.

DICTYOTIDIUM Eisenack 1955, p.179. Acritarch genus. See Fensome et al. (1991, p.193) for further information. Type: Eisenack, 1938a, pl. 3, fig 8a as *Leiosphaera dictyota*.

"*asperatum*" Jiabo, p.110, pl.41, figs.18–20. Holotype: Jiabo, pl.41, fig.18. **NOW** *Pyxidinospis*. Originally *Dictyotidium*, subsequently (and now) *Pyxidinospis*. Age: late Eocene–early Oligocene.

"*circulareticulatum*" Liu Zhili and Zheng Yuefang in Liu Zhili et al. 1992, p.90, pl.20, figs.7–9. Holotype: Liu Zhili et al. 1992, pl.20, fig.8. **NOW** *Pyxidinospis*. Originally *Dictyotidium*, subsequently (and now) *Pyxidinospis*. Age: Oligocene.

"*debiliconspicuum*" Liu Zhili and Zheng Yuefang in Liu Zhili et al. 1992, p.90, pl.20, figs.4–6. Holotype: Liu Zhili et al. 1992, pl.20, fig.4. **NOW** *Pyxidinospis*. Originally *Dictyotidium*, subsequently (and now) *Pyxidinospis*. Age: Oligocene.

"*densureticulatum*" Zheng Yuefang and Liu Zhili in Liu Zhili et al. 1992, p.90–91, pl.21, figs.6. Holotype: Liu Zhili et al. 1992, pl.21, figs.6. **NOW** *Pyxidinospis*. Originally *Dictyotidium*, subsequently (and now) *Pyxidinospis*. Age: Oligocene.

"*jiaboi*" Fensome et al., 1990, p.195. Holotype: Jiabo, 1978, pl.41, fig.17. **NOW** *Pyxidinospis jiaboi*. Originally *Dictyotidium reticulatum* Jiabo, 1978 (name illegitimate), subsequently *Dictyotidium jiaboi*, thirdly *Pyxidinospis reticulata* (Jiabo, 1978) (name illegitimate), fourthly (and now) *Pyxidinospis jiaboi*. Substitute name for *Dictyotidium reticulatum* Jiabo, 1978, p.111, pl.41, figs.13–17. Age: late Eocene–early Oligocene.

"*macroreticulatum*" Liu Zhili and Zheng Yuefang in Liu Zhili et al. 1992, p.91, pl.21, figs.4–5. Holotype: Liu Zhili et al. 1992, pl.21, fig.4. **NOW** *Pyxidinospis*. Originally *Dictyotidium*, subsequently (and now) *Pyxidinospis*. Age: Oligocene.

"*microreticulatum*" Jiabo, 1978, p.111, pl.41, figs.6–9. Holotype: Jiabo, 1978, pl.41, fig.8. **NOW** *Pyxidinospis*. Originally *Dictyotidium*, subsequently (and now) *Pyxidinospis*. Age: Oligocene.

"*pachydermum*" Jiabo, 1978, p.111, pl.41, figs.10–12; pl.46, figs.2a–b. Holotype: Jiabo, 1978, pl.41, fig.12. **NOW** *Pyxidinospis*. Originally *Dictyotidium*, subsequently (and now) *Pyxidinospis*. Age: late Oligocene.

"*reticulatum*" Jiabo, 1978, p.111, pl.41, figs.13–17. Holotype: Jiabo, 1978, pl.41, fig.17. Name illegitimate: senior homonyms: *Dictyotidium reticulatum* Schulz, 1965 and *Dictyotidium reticulatum* (Eisenack, 1938a) Eisenack et al., 1976. **NOW** *Pyxidinospis jiaboi*. Originally *Dictyotidium reticulatum* Jiabo, 1978 (name illegitimate), subsequently *Dictyotidium jiaboi*, thirdly *Pyxidinospis reticulata* (Jiabo, 1978) (name illegitimate), fourthly (and now) *Pyxidinospis jiaboi*. Age: late Eocene–early Oligocene.

"*rugireticulatum*" Liu Zhili and Zheng Yuefang in Liu Zhili et al. 1992, p.92, pl.20, figs.18–20. Holotype: Liu Zhili et al. 1992, pl.20, fig.19. **Taxonomic senior synonym:** *Pyxidinospis minor*, according to He Chengquan et al. (2009, p. 244). Age: Oligocene.

"*spinoreticulatum*" Jiabo, 1978, p.111–112, pl.42, figs.5–6. Holotype: Jiabo, 1978, pl.42, fig.5. **NOW** *Pyxidinospis*. Originally *Dictyotidium*, subsequently (and now) *Pyxidinospis*. Age: late Eocene–early Oligocene.

DILATISPHAERA Lister, 1970, p.65. Acritarch genus. Taxonomic senior synonym: *Hystrichosphaeridium*, according to Eisenack et al. (1973, p.407) — however, Cramer and Diez (1979, p.76) retained *Dilatisphaera*. Type: Lister, 1970, pl.6, fig.10, as *Dilatisphaera laevigata*.

"*dameryensis*" Dorning, 1981, p.188, pl.2, fig.6. Holotype: Dorning, 1981, pl.2, fig.6. **NOW** *Dilatisphaera williereae* subsp. *dameryensis*. Originally *Dilatisphaera dameryensis*, subsequently *Palaeohystrichosphaeridium williereae* subsp. *dameryense* (Appendix A), thirdly (and now) *Dilatisphaera williereae* subsp. *dameryensis*. Age: Silurian (Llandovery).

**laevigata* Lister, 1970, p.66, pl.6, figs.10–12; text-figs.18,20d. Holotype: Lister, 1970, pl.6, fig.10. Originally (and now) *Dilatisphaera*, subsequently *Hystrichosphaeridium*. Cramer and Diez (1979, p.76) retained this species in *Dilatisphaera*. Age: Silurian (Wenlock).

williereae (Martin, 1966a, p.389–391, pl.1, fig.23; text-figs.33–34) Le Hérisse, 1989, p.115. Holotype: Martin, 1966a, pl.1, fig.23. Originally *Hystrichosphaeridium*, subsequently *Dilatisphaera* (combination not validly published), thirdly *Palaeohystrichosphaeridium* (Appendix A), fourthly (and now) *Dilatisphaera*. Taxonomic junior synonym: *Ozotobrachion? podolicus* Sheshegova, 1973, an acritarch species, according to Kiryanov (1978, p.90). This combination was not validly published in Lister (1970, p.65) since that author did not clearly use the name *Dilatisphaera williereae*. Age: Silurian.

subsp. *dameryensis* (Dorning, 1981, p.188, pl.2, fig.6) Williams et al. 1998, p.683. Holotype: Dorning, 1981, pl.2, fig.6. Originally *Dilatisphaera dameryensis*, subsequently *Palaeohystrichosphaeridium williereae* subsp. *dameryense* (Appendix A), thirdly (and now) *Dilatisphaera williereae* subsp. *dameryensis*. Age: Silurian (Llandovery).

DIPLOFUSA Cookson and Eisenack, 1960a, p.10. Acritarch genus. Type: Cookson and Eisenack, 1960a, pl.3, fig.10, as *Diplofusa gearlensis*.

**gearlensis* Cookson and Eisenack, 1960a, p.10, pl.3, fig.10. Holotype: Cookson and Eisenack, 1960a, pl.3, fig.10. Age: Cenomanian.

DISCOSPHAERA Haeckel, 1884, p.111. Coccolithophorid genus. Type: information not available; "type species" — *Discosphaera thomsonii*.

"*regalis*" Gaarder, 1954, p.8, fig.5. Holotype: Gaarder, 1954, fig.5. **NOW** *Scrippsiella* (Appendix B). Originally *Discosphaera*, subsequently *Rhabdothorax*, thirdly (and now) *Scrippsiella* (Appendix B). Taxonomic junior synonym: *Rhabdothorax gerenus* (name not validly published), according to Gaarder in Gaarder and Heimdal (1973, p.89). Age: extant.

"**DISTEPHANUS**" Stöhr, 1880, p.121. Silicoflagellate genus. **Name illegitimate: senior homonym:** *Distephanus* Cassini 1817. Type: uncertain; "type species", *Distephanus rotundus*.

"*sirius*" (Ehrenberg, 1841, p.150) Haeckel (according to Schütt, 1891, p.20). Holotype: not designated. **NOW** *Actiniscus*. Originally *Dictyochoa* subgenus *Actiniscus*, subsequently (and now) *Actiniscus*, thirdly *Distephanus* (name not validly published; Appendix A), fourthly *Gymmaster*. In his synonymy list for this species, Schütt (1891) indicated that the name *Distephanus sirius* was cited by Haeckel (date not specified). Dumitrică (1973, p.822) considered *Dictyochoa* (now *Actiniscus*) *pentasterius* to be the questionable taxonomic senior synonym of this species. N.I.A. Age: Miocene.

DOMASIA Downie, 1960, p.199. Emendation: Hill, 1974, p.17. Acritarch genus. Type: Downie, 1960, pl.1, fig.7, as *Domasia trispinosa*.

"*discophora*" Cookson and Eisenack, 1962b, p.492–493, pl.7, figs.17–21. Holotype: Cookson and Eisenack, 1962b, pl.7, fig.17. **NOW** *Domasiella* (Appendix A). Originally *Domasia*, subsequently (and now) *Domasiella* (Appendix A). Age: Aptian–Albian.

DOMASIELLA Eisenack, 1969a, p.111–112. Acritarch genus. Although the "type species" was not validly transferred by Eisenack (1969a), the generic name *Domasiella* was validly published by that author, since it is based on a previously validly published species name (I.C.N. Article 40.3). Type: Cookson and Eisenack, 1962b, pl.7, fig.17, as *Domasiella discophora*.

**discophora* (Cookson and Eisenack, 1962b, p.492–493, pl.7, figs.17–21) Loeblich Jr. and Loeblich III, 1970b, p.200. Holotype: Cookson and Eisenack, 1962b, pl.7, fig.17. Originally *Domasia* (Appendix A), subsequently (and

now) *Domasiella*. This combination was not validly published in Eisenack (1969a, p.112), since that author did not fully reference the basionym. Age: Aptian–Albian.

DORSENNIDIUM Wicander, 1974, p.20. Emendation: Sarjeant and Stancliffe, 1994, p.39. Acritarch genus. Type: Wicander, 1974, pl.9, fig.12, as *Dorsennidium patulum*.

hyalodermum (Cookson, 1956, p.188–189, pl.1, figs.12–16) Sarjeant and Stancliffe, 1994, p.40. Holotype: Cookson, 1956, pl.1, fig.12. Originally *Palaeotetradinium*, subsequently *Veryhachium* (Appendix A), thirdly *Goniosphaeridium* (Appendix A), fourthly (and now) *Dorsennidium*. Age: Albian–Cenomanian.

ECHIGRAMINIDITES Krutzsch, 1970, p.17–18. Pollen genus. Type: Krutzsch, 1970, pl.8, figs.1–1a, as *Echigraminidites maravicus*.

lusaticus Krutzsch, 1970, p.70, pl.8, figs.8–15,16,16a,17,17a,18. Holotype: Krutzsch, 1970, pl.8, figs.11–15. **NOW** *Cyclopsiella*. Originally *Echigraminidites*, subsequently (and now) *Cyclopsiella*. Taxonomic junior synonyms: *Ascostomocystis granosa* and *Cyclopsiella spiculata*, according to Strauss and Lund (1992, p.174). Age: middle Miocene.

ENIGMADINIUM Wrenn and Hart, 1988, p.353–354. Acritarch genus. Type: Wrenn and Hart, 1988, fig.24, no.1, as *Enigmadinium cylindrifloriferum*.

***cylindrifloriferum** Wrenn and Hart, 1988, p.354, fig.24, nos.1–3; fig.45, nos.1–6. Holotype: Wrenn and Hart, 1988, fig.24, no.1; Fensome et al., 1993a, fig.1 — p.1087. Age: early Eocene.

EPICEPHALOPYXIS Deflandre, 1937b, p.92. Acritarch genus. This name was not validly published in Deflandre (1935), since no type was designated, this being a requirement of the I.C.Z.N. at that time. Type: Deflandre, 1937b, pl.18, fig.6, as *Epicephalopyxis adhaerens*, designated by Lentin and Williams (1989, p.130).

***adhaerens** Deflandre, 1937b, p.92–93, pl.18, figs.4–7. Holotype: Deflandre, 1937b, pl.18, fig.6. This species was not validly published in Deflandre (1935, p.234) since no type was designated, this being a requirement of the I.C.Z.N. at that time. Age: Late Cretaceous.

"**indentata**" Deflandre and Cookson, 1955, p.292, pl.9, figs.5–7; text-fig.56. Emendation: Elsie, 1977, p.96, as *Paralecaniella indentata*. Holotype: Deflandre and Cookson, 1955, pl.9, fig.6. **NOW** *Paralecaniella* (Appendix A). Originally *Epicephalopyxis*, subsequently (and now) *Paralecaniella* (Appendix A). Taxonomic junior synonym: *Scriniodinium nilsii*, according to Jan du Chêne et al. (1986a, p.318). Age: Paleocene–Miocene.

"**spectabilis**" Deflandre and Cookson, 1955, p.293, pl.3, figs.12–14. Holotype: Deflandre and Cookson, 1955, pl.3, fig.14. **NOW** *Wanaea*. Originally *Epicephalopyxis*, subsequently (and now) *Wanaea*. Age: Oxfordian.

ESTIASTRA Eisenack, 1959, p.201. Emendation: Sarjeant and Stancliffe, 1994, p.50. Acritarch genus. Type: Eisenack, 1959, pl.16, fig.17, as *Estiastra magna*.

"**baltica**" (Eisenack, 1951, p.190, pl.3, figs.10–11) Sarjeant and Stancliffe, 1994, p.50. Holotype: Eisenack, 1951, pl.3, fig.10. **NOW** *Pachysphaeridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Pulvinosphaeridium* (combination not validly published, Appendix A), thirdly *Veryhachium* (Appendix A), fourthly *Goniosphaeridium* (Appendix A), fifthly *Baltisphaeridium* (Appendix A), sixthly *Estiastra*, seventhly (and now) *Pachysphaeridium* (Appendix A). Age: Early Ordovician.

?**oligospinosa** (Eisenack, 1934, p.64–65, pl.4, figs.15–18 ex Eisenack, 1938a, p.12) Jacobson and Achab, 1985, p.182. Holotype: Eisenack, 1934, pl.4, fig.18, lost according to Eisenack et al. (1973, p.494). Originally *Ovum*

hispidum subsp. *oligospinosum* (name not validly published, Appendix A), subsequently *Hystrichosphaeridium oligospinosum*, thirdly *Pulvinosphaeridium oligospinosum* (Appendix A), fourthly *Veryhachium oligospinosum* (Appendix A), fifthly *Goniosphaeridium oligospinosum* (Appendix A), sixthly (and now) *Estiastra? oligospinosum*. Questionable assignment: Jacobson and Achab (1985, p.182). The name *Ovum hispidum* subsp. *oligospinosa* was not validly published in Eisenack (1934) since the specific name *Ovum hispidum* was not validly published. Age: Silurian (erratic).

EVITTIA Brito, 1967, p.477. Emendations: Lister, 1970, p.66–67; Eiserhardt, 1992, p.24; Sarjeant and Vavrdova, 1997, p.20. Acritarch genus. For synonymy see Fensome et al. (1990, p.216–217). Junior homonym: *Evittia* Pocock, 1972 (see main index). Type: Brito, 1967, pl.1, fig.9, as *Evittia sommeri*.

"*mala*" (Cramer, 1964, p.297, pl.1, figs.6,8,10; text-fig.19, nos.10–12) Lister, 1970, p.70–71. Holotype: Cramer, 1964, pl.1, fig.8. **NOW** *Rhacobrachion* (Appendix A). Originally *Baltisphaeridium* (Appendix A), subsequently *Evittia* Brito, thirdly *Hystrichosphaeridium* (combination not validly published), fourthly *Multiplicisphaeridium* (Appendix A), fifthly (and now) *Rhacobrachion* (Appendix A). Age: Silurian (Ludlow).

"*ramusculosa*" (Deflandre, 1945a, p.63, pl.1, figs.8–16; text-figs.38–39) Lister, 1970, p.67. Emendation: Lister, 1970, p.92–93, as *Multiplicisphaeridium ramusculosum*. Holotype: Deflandre, 1945a, pl.1, figs.8–10. **Combination not validly published:** the name *Evittia ramusculosa* was not clearly used. **NOW** *Multiplicisphaeridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Evittia* Brito (combination not validly published), fourthly (and now) *Multiplicisphaeridium* (Appendix A), fifthly *Peteinosphaeridium* (combination not validly published, Appendix A), sixthly *Oppilatala* (Appendix A). Age: Silurian–Devonian (late Llandovery–Emsian).

"*spicifera*" (Deunff, 1955, p.146, pl.3, fig.1; text-fig.26) Lister, 1970, p.67. Holotype: Deunff, 1955, pl.3, fig.1. **Combination not validly published:** the name *Evittia spicifera* was not clearly used. **NOW** *Stellechinatum* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Veryhachium* (combination not validly published, Appendix A), thirdly *Baltisphaeridium* (Appendix A), fourthly *Evittia* Brito (combination not validly published), fifthly *Multiplicisphaeridium* (Appendix A), sixthly (and now) *Stellechinatum* (Appendix A). Age: Middle Devonian.

"**FENTONIA**" Bailey and Hogg, 1995, p.58. Acritarch genus. **Taxonomic senior synonym:** *Limbicysta* (Appendix A), according to MacRae et al. (1996, p.1479). Nomenclatural junior synonym: *Neofentonia* (Appendix A). Özdikmen (2009, p.234) considered *Fentonia* Bailey and Hogg, 1995 to be illegitimate because it is a junior homonym of *Fentonia* Butler 1881; however, *Fentonia* Butler 1881 is an animal and under the I.C.N. it does not pre-empt *Fentonia* Bailey and Hogg. Type: Smelror, 1987, fig.4G, as *Parvocysta bjaerkei*.

"**bjaerkei*" (Smelror, 1987, p.227,230, figs.4G,8C–D; text-fig.9) Bailey and Hogg, 1995, p.58. Emendation: Bailey and Hogg, 1995, p.58, as *Fentonia bjaerkei*. Holotype: Smelror, 1987, fig.4G. **NOW** *Limbicysta* (Appendix A). Originally *Parvocysta*, subsequently *Fentonia*, thirdly (and now) *Limbicysta* (Appendix A), fourthly *Neofentonia* (generic name illegitimate; Appendix A). Age: late Callovian.

FIBROSPHAERA de Lapparent, 1924. Cited as "*Fibroesphaerae*" in Colom (1935, p.12). Further information not available.

"*minutissima*" Colom, 1935, p.12, pl.2, fig.8; text-fig.4a (four specimens). **Name not validly published:** holotype not designated. Originally *Fibrosphaera* (name not validly published), subsequently *Stomiosphaera* (name not validly published), thirdly *Colomisphaera* (name not validly published), fourthly *Schizosphaerella* (name not validly published). Designation of a holotype was a requirement of the I.C.Z.N. at the time that Colom (1935) proposed this name. Age: Late Early Jurassic.

"*stephanoidea*" Colom, 1935, p.12, text-fig.4b. Holotype: Colom, 1935, text-fig.4b. **NOW** *Stomiosphaera*. Originally *Fibrosphaera*, subsequently (and now) *Stomiosphaera*. Age: Late Early Jurassic.

FILISPHAERIDIUM Staplin et al., 1965, p.192. Acritarch genus. For synonymy see Fensome et al. (1990, p.223). Type: Jansonius, 1962, pl.16, fig.50, as *Micrhystridium setasessitante*.

"*aspersum*" Jiabo, 1978, p.116, pl.31, figs.1–6; pl.49, figs.2–4. Holotype: Jiabo, 1978, pl.31, fig.1. **NOW** *Kallosphaeridium?*. Originally *Filisphaeridium*, subsequently (and now) *Kallosphaeridium?*. Age: Oligocene.

?*courtinatii* Sarjeant and Stancliffe, 1994, p.29. Holotype: Courtinat and Gaillard, 1980, pl.2, fig.15. Originally *Comasphaeridium capillatum* (Appendix A), subsequently *Trichodinium capillatum*, thirdly (and now) *Filisphaeridium? courtinatii*. Substitute name for *Comasphaeridium capillatum* Courtinat in Courtinat and Gaillard, 1980, p.75, pl.2, fig.15; the name *Filisphaeridium capillatum* is preoccupied. Questionable assignment: Sarjeant and Stancliffe (1994, p.29). Age: late Oxfordian.

fimbriatum (White, 1842, p.36, pl.4, div.3, fig.3) Sarjeant and Stancliffe, 1994, p.29. Holotype: White, 1842, pl.4, div.3, fig.3; Sarjeant, 1991, fig.4, no.2. Originally *Xanthidium* (Appendix A), subsequently *Hystrichosphaeridium*, thirdly *Baltisphaeridium* (Appendix A), fourthly *Comasphaeridium* (Appendix A), fifthly (and now) *Filisphaeridium*. Age: Late Cretaceous.

reticuloidum (Jiabo, 1978, p.115–116, pl.31, figs.18–19) Song Zhichen et al., 1985, p.55–56. Holotype: Jiabo, 1978, pl.31, fig.19. **NOW** *Kallosphaeridium?*. Originally *Baltisphaeridium* (Appendix A), subsequently *Filisphaeridium*, thirdly (and now) *Kallosphaeridium?*. Age: late Oligocene.

"*stimuliferum*" (Deflandre, 1939a, p.192, pl.10, fig.10) Cramer and Diez, 1979, p.52. Holotype: Deflandre, 1939a, pl.10, fig.10. **Combination not validly published**: basionym not fully referenced. **NOW** *Solisphaeridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly (and now) *Solisphaeridium* (Appendix A), fourthly *Filisphaeridium* (combination not validly published), fifthly *Micrhystridium* (Appendix A). Age: Late Jurassic.

FISSURINA Information not available.

"*ovalis*" (Kaufmann in Heer, 1865, p.196–197, figs.107a–b) Colom et al., 1953, p.529. Holotype: not designated. **NOW** *Pithonella*. Originally *Lagena* (Appendix A), subsequently (and now) *Pithonella*, thirdly *Fissurina*. Taxonomic junior synonym: *Lagena* (now *Pithonella*) *sphaerica*, according to Lorenz (1902, p.46).- however, Bonet (1956, p.450) retained *Lagena* (as *Stomiosphaera*) *sphaerica*. Age: late Cenomanian–Turonian (based on later studies by Bolli — P. Hochuli, personal communication).

FLORISPHAERIDIUM Lister, 1970, p.74. Acritarch genus. Type: Lister, 1970, pl.7, figs.11–12, as *Florisphaeridium castellum*.

"*huecospinosum*" (Cramer, 1964, p.331, pl.6, fig.2; text-fig.36, no.7) Eisenack et al., 1973, p.471. Holotype: Cramer, 1964, pl.6, fig.2. **NOW** *Umbellasphaeridium* (Appendix A). Originally *Hystrichosphaeridium?*, subsequently *Baltisphaeridium* (combination not validly published, Appendix A), thirdly *Florisphaeridium*, fourthly (and now) *Umbellasphaeridium* (Appendix A). Age: Devonian (Emsian).

toyetae (Cramer, 1964, p.302, pl.1, figs.14–15) Cramer and Diez, 1976, p.83–84. Holotype: Cramer, 1964, pl.1, fig.15. Originally *Baltisphaeridium* (Appendix A), subsequently *Multiplicisphaeridium?* (Appendix A), thirdly *Hystrichosphaeridium*, fourthly (and now) *Florisphaeridium*. Age: Devonian (middle Siegenian–Emsian).

FROMEA Cookson and Eisenack, 1958, p.55. Emendation: Yun Hyesu, 1981, p.55–56. Acritarch genus. Type: Cookson and Eisenack, 1958, pl.5, fig.10, as *Fromea amphora*.

acambra Sah et al., 1970, p.148, pl.2, fig.28. Holotype: Sah et al., 1970, pl.2, fig.28. Originally (and now) *Fromea*, subsequently *Palaeostomocystis* (Appendix A). Jansonius (1989, p.65) retained this species in *Fromea*. Age: Late Cretaceous.

**amphora* Cookson and Eisenack, 1958, p.56, pl.5, figs.10–11. Holotype: Cookson and Eisenack, 1958, pl.5, fig.10. Taxonomic junior synonym: *Fromea warlinghamensis* (Appendix A), according to Riley (1979, p.221) — however, Jansonius (1989, p.67) retained *Fromea warlinghamensis*. Age: Albian–Cenomanian.

apertulata Fedorova, 1989, p.70–71, pl.30, figs.1,1a,2. Holotype: Fedorova, 1989, pl.30, figs.1,1a. Age: Ryazanian.

apiculata (Cookson and Eisenack, 1960a, p.12, pl.3, fig.15) Stover and Evitt, 1978, p.48. Holotype: Cookson and Eisenack, 1960a, pl.3, fig.15. Originally *Palaeostomocystis* (Appendix A), subsequently *Fromea*?, thirdly (and now) *Fromea*. Questionable assignment: Stover and Evitt (1978, p.48) — however, Jansonius (1989, p.65) included this species in *Fromea* without question. Age: Santonian–Campanian.

"*atlantica*" (Habib, 1972, p.375, pl.4, figs.2,5) Davies, 1983, p.31. Holotype: Habib, 1972, pl.4, fig.2. **NOW** *Valvaeodinium*. Originally *Tenua* Eisenack, subsequently *Sentusidinium*?, thirdly *Fromea*, fourthly *Kylindrocysta*, fifthly (and now) *Valvaeodinium*. Taxonomic junior synonym: *Fromea complicata* (Appendix A), according to Davies (1983, p.31) — however, Jansonius (1989, p.65) retained *Fromea complicata*. Age: Callovian–Oxfordian.

callia Zatonkaya, 1975, p.34, pl.1, fig.4. Holotype: Zatonkaya, 1975, pl.1, fig.4. Age: Callovian.

chinensis He Chengquan, 1991, p.50–51, pl.6, figs.11–13. Holotype: He Chengquan, 1991, pl.6, fig.12. This name was not validly published in He Chengquan and Wang Kede (1990, p.411), who by citing the name as "*Fromea* cf. *chinensis* He" clearly regarded it as provisional. Age: middle Eocene.

chytra (Drugg, 1967, p.35, pl.6, fig.12) Stover and Evitt, 1978, p.48. Holotype: Drugg, 1967, pl.6, fig.12. Originally *Palaeostomocystis* (Appendix A), subsequently (and now) *Fromea*. Taxonomic junior synonym: *Palaeostomocystis minor* (Appendix A), according to Xu Jinli et al. (1997, p.41). Age: Maastrichtian–Danian.

circulata Lang Yan et al., 1999, p.379,388–389, pl.1, figs.8–9. Holotype: Lang Yan et al., 1999, pl.1, fig.9. Age: Early Cretaceous.

complicata Brideaux, 1977, p.18–19, pl.7, figs.1–6. Holotype: Brideaux, 1977, pl.7, figs.1–2. Taxonomic senior synonym: *Tenua* (as *Fromea*) *atlantica*, according to Davies (1983, p.31) — however, Jansonius (1989, p.65) retained *Fromea complicata*. Age: Aptian–Albian.

cooksoniae Fedorova-Shakhmundes, 1980, p.5–6, pl.1, figs.1–2. Holotype: Fedorova-Shakhmundes, 1980, pl.1, fig.1. Age: early Aptian.

crassisoma Zatonkaya, 1975, p.34–35, pl.1, fig.6. Holotype: Zatonkaya, 1975, pl.1, fig.6. Age: Late Jurassic.

cryptofoveolata Fedorova, 1989, p.71, pl.30, figs.3,3a. Holotype: Fedorova, 1989, pl.30, figs.3,3a. Age: late Volgian.

cylindrica (Cookson and Eisenack, 1960b, p.258, pl.39, fig.16) Stover and Evitt, 1978, p.48. Holotype: Cookson and Eisenack, 1960b, pl.39, fig.16. Originally *Palaeostomocystis* (Appendix A), subsequently *Fromea*?, thirdly (and now) *Fromea*. Questionable assignment: Stover and Evitt (1978, p.48) — however, Jansonius (1989, p.65) included this species in *Fromea* without question. Age: Late Jurassic–Neocomian.

"?*elongata*" Beju, 1971, p.289–290, pl.3, figs.7–10; text-figs.6A–E. Emendations: Feist-Burkhardt and Monteil, 1994, p.9, as *Andreedinium elongatum*; Riding, 1994, p.16, as *Phallocysta elongata*. Holotype: Beju, 1971, pl.3, fig.7; text-fig.6A. **NOW** *Phallocysta*. Originally *Fromea*, subsequently *Fromea*?, thirdly *Walloodinium*, fourthly *Palaeostomocystis* (Appendix A), fifthly *Andreedinium*, sixthly (and now) *Phallocysta*. Questionable assignment: Stover and Evitt (1978, p.48). Junior homonym: *Fromea elongata* Jain and Millepied, 1975. Nomenclatural junior

synonym: *Phallocysta minuta*, which see for details. Taxonomic senior synonym: *Prismatocystis* (now *Walloodinium*) *cylindrica*, according to Duxbury (1983, p.68) — however, Feist-Burkhardt and Monteil in Feist-Burkhardt (1990, p.615) retained *Andreedinium elongatum*. Taxonomic junior synonym: *Phallocysta subconica*, according to Riding (1994, p.16). Junior homonym: *Fromea elongata* Jain and Millepied, 1975 (Appendix A). Age: Bajocian–Oxfordian.

"*elongata*" Jain and Millepied, 1975, p.141, pl.2, figs.29–30. Holotype: Jain and Millepied, 1975, pl.2, fig.30. **Name illegitimate — senior homonym:** *Fromea elongata* Beju, 1971. **Substitute name:** *Fromea granulata* (Appendix A). Originally *Fromea elongata* (name illegitimate), subsequently (and now) *Fromea granulata* (Appendix A), thirdly *Fromea senegalensis* (name illegitimate; Appendix A). Age: Aptian–Albian.

endogranulata Fedorova, 1989, p.71–72, pl.30, figs.4,5,5a. Holotype: Fedorova, 1989, pl.30, figs.5,5a. Age: Ryazanian.

expolita (Brideaux, 1977, p.20, pl.7, figs.12–14) Lentin and Williams, 1981, p.105. Holotype: Brideaux, 1977, pl.7, figs.12–14. Originally *Palaeostomocystis* (Appendix A), subsequently (and now) *Fromea*. Age: Barremian.

fragilis (Cookson and Eisenack, 1962b, p.496–497, pl.7, figs.10–11) Stover and Evitt, 1978, p.48. Holotype: Cookson and Eisenack, 1962b, pl.7, fig.11. Originally *Palaeostomocystis* (Appendix A), subsequently (and now) *Fromea*. Age: Aptian–Cenomanian.

glabella (Singh, 1971, p.428–429, pl.80, fig.4) Lentin and Williams, 1981, p.106. Holotype: Singh, 1971, pl.80, fig.4. Originally *Palaeostomocystis* (Appendix A), subsequently (and now) *Fromea*. Age: late Albian.

grandis Jansonius, 1989, p.65, pl.1, fig.1; text-fig.2. Holotype: McIntyre and Brideaux, 1980, pl.5, fig.9, as "*Fromea* sp. cf. *Fromea fragilis*"; Jansonius, 1989, pl.1, fig.1; text-fig.2. Age: Valanginian.

granulata Lentin and Williams, 1977b, p.61. Holotype: Jain and Millepied, 1975, pl.2, fig.30. Originally *Fromea elongata* Jain and Millepied (name illegitimate; Appendix A), subsequently (and now) *Fromea granulata*, thirdly *Fromea senegalensis* (name illegitimate; Appendix A). Substitute name for *Fromea elongata* Jain and Millepied, 1975, p.141, pl.2, figs.29–30 (an illegitimate name; Appendix A). The substitute name *Fromea senegalensis* (Appendix A) postdates *Fromea granulata* by one month (Lentin and Williams, 1985, p.137). Age: Aptian–Albian.

"*granulosa*" (Cookson and Eisenack, 1974, p.79, pl.28, fig.10) Stover and Evitt, 1978, p.48. Holotype: Cookson and Eisenack, 1974, pl.28, fig.10. **NOW** *Batiacasphaera*. Originally *Palaeostomocystis* (Appendix A), subsequently *Fromea*, thirdly (and now) *Batiacasphaera*. Age: Albian–Cenomanian.

"*irregularis*" Courtinat in Courtinat and Gaillard, 1980, p.27–28, pl.3, figs.5,8. Holotype: Courtinat and Gaillard, 1980, pl.3, fig.8. **Taxonomic senior synonym:** *Fromea warlinghamensis* (Appendix A), according to Jansonius (1989, p.65). Age: late Oxfordian.

?*laevigata* (Drugg, 1967, p.35, pl.6, figs.14–15) Stover and Evitt, 1978, p.48. Holotype: Drugg, 1967, pl.6, fig.14. Originally *Palaeostomocystis* (Appendix A), subsequently *Fromea*, thirdly (and now) *Fromea*?. Questionable assignment: Stover and Evitt (1978, p.48). Junior homonym: *Fromea laevigata* (Jiabo, 1978) Lentin and Williams, 1981 (Appendix A). Age: Maastrichtian–Danian.

"*laevigata*" (Jiabo, 1978, p.126–127, pl.32, fig.23) Lentin and Williams, 1981, p.106. Holotype: Jiabo, 1978, pl.32, fig.23. **Name illegitimate — senior homonym:** *Fromea laevigata* (Drugg, 1967) Stover and Evitt, 1978 (Appendix A). Substitute name: *Fromea psilata* (Appendix A). **NOW** *Bosedinia laevigata*. Originally *Palaeostomocystis laevigata* (name illegitimate; Appendix A), subsequently *Bosea laevigata* (generic name illegitimate), thirdly *Fromea laevigata* (name illegitimate), fourthly *Fromea psilata* (Appendix A), fifthly (and now) *Bosedinia laevigata*. Age: Early Tertiary.

latisecta Fedorova, 1989, p.72–73, pl.30, figs.6–7. Holotype: Fedorova, 1989, pl.30, fig.6. Age: late Volgian.

macroplicata Zatonskaya, 1975, p.35, pl.1, fig.7. Holotype: Zatonskaya, 1975, pl.1, fig.7. Age: Late Jurassic.

madurensis Cookson and Eisenack, 1982, p.29, pl.1, fig.9. Holotype: Cookson and Eisenack, 1982, pl.1, fig.9. Questionable assignment: Cookson and Eisenack (1982, p.29) — however, Jansonius (1989, p.67) included the species in *Fromea* without question. Age: Senonian.

"*microgranulosa*" Jain, 1977b, p.176, pl.6, fig.74. Holotype: Jain, 1977b, pl.6, fig.74. **NOW** *Bosedinia*. Originally *Fromea*, subsequently (and now) *Bosedinia*. Age: early Albian.

"*minor*" (Jiabo, 1978, p.127, pl.32, figs.14–21) Lentin and Williams, 1981, p.106. Holotype: Jiabo, 1978, pl.32, fig.20. Originally *Palaeostomocystis* (Appendix A), subsequently *Fromea*. **Taxonomic senior synonym:** *Fromea chytra*, according to Xu Jinli et al. (1997, p.41). Age: Early Tertiary.

monilifera Backhouse, 1987, p.223, figs.13E–H. Holotype: Backhouse, 1987, fig.13E. Age: late Barremian–early Aptian.

nicosia Jansonius, 1989, p.67, pl.1, figs.2–7; text-fig.1. Holotype: Ioannides, 1986, pl.13, fig.10, as *Fromea fragilis*; Jansonius, 1989, pl.1, fig.4; text-fig.1. Age: Santonian–early Paleocene.

"*oblonga*" (Deflandre, 1945b, card 852) Stover and Evitt, 1978, p.48. Holotype: Deflandre, 1945b, card 852. **Name not validly published:** no description. Originally *Palaeostomocystis* (name not validly published; Appendix A), subsequently *Fromea* (name not validly published). Age: Late Cretaceous.

pachyderma Kar, 1979, p.35, pl.4, fig.75. Holotype: Kar, 1979, pl.4, fig.75. Jain (1980, p.142) considered this taxon to be a pteridophytic spore. Age: ?Oligocene.

"*pachythea*" (Cookson and Eisenack, 1971, p.222, pl.11, figs.7–9) Lentin and Williams, 1985, p.138. Holotype: Cookson and Eisenack, 1971, pl.11, fig.8. **NOW** *Palaeostomocystis* (Appendix A). Originally (and now) *Palaeostomocystis* (Appendix A), subsequently *Fromea*. Age: Middle Cretaceous.

paksensis Fedorova, 1989, p.73, pl.30, figs.8–9. Holotype: Fedorova, 1989, pl.30, fig.8. Age: early Valanginian.

"*psilata*" Lentin and Williams, 1981, p.106. Holotype: Jiabo, 1978, pl.32, fig.23. **NOW** *Bosedinia laevigata*. Originally *Palaeostomocystis laevigata* (name illegitimate; Appendix A), subsequently *Bosea laevigata* (generic name illegitimate), thirdly *Fromea laevigata* (name illegitimate; Appendix A), fourthly *Fromea psilata*, fifthly (and now) *Bosedinia laevigata*. Substitute name for *Fromea laevigata* (Jiabo, 1978 p.126–127, pl.32, fig.23) Lentin and Williams, 1981, p.106 (an illegitimate name). Age: Early Tertiary.

quadrugata Duxbury, 1980, p.134, pl.4, figs.12–15; text-fig.15. Holotype: Duxbury, 1980, pl.4, figs.12–13; text-fig.15. Age: Barremian.

"*reticulata*" (Davey, 1969b, p.14, pl.4, figs.3–4,6) Stover and Evitt, 1978, p.48. Holotype: Davey, 1969b, pl.4, fig.3. **NOW** *Batiacasphaera*?. Originally *Chytroeisphaeridia*, subsequently *Fromea*, thirdly *Batiacasphaera*, fourthly (and now) *Batiacasphaera*?. Age: Campanian–Maastrichtian.

rugosa Zatonkaya, 1975, p.35, pl.1, fig.8. Holotype: Zatonkaya, 1975, pl.1, fig.8. Age: Late Jurassic.

"*scabrata*" (Jiabo, 1978, p.127, pl.32, figs.24–25; pl.46, figs.3a–b) Lentin and Williams, 1981, p.107. Holotype: Jiabo, 1978, pl.32, fig.25. **NOW** *Bosedinia*. Originally *Palaeostomocystis* (Appendix A), subsequently *Fromea*, thirdly (and now) *Bosedinia*. Age: Early Tertiary.

"*senegalensis*" Jain and Millepieid, 1977, p.284. Holotype: Jain and Millepieid, 1975, pl.2, fig.30. **Name illegitimate** — **nomenclatural senior synonym:** *Fromea granulata* Lentin and Williams, 1977b, which has the same holotype. **NOW** *Fromea granulata* (Appendix A). Originally *Fromea elongata* Jain and Millepieid (name illegitimate; Appendix A), subsequently *Fromea granulata* (Appendix A), thirdly *Fromea senegalensis* (name illegitimate). Substitute name for *Fromea elongata* Jain and Millepieid, 1975, p.141, pl.2, figs.29–30 (an illegitimate

name; Appendix A). The substitute name *Fromea granulata* predates *Fromea senegalensis* by one month (Lentin and Williams, 1985, p.137). Age: Aptian–Albian.

senilis (McIntyre and Brideaux, 1980, p.18, pl.5, fig.12; pl.6, fig.1) Lentin and Williams, 1981, p.107. Holotype: McIntyre and Brideaux, 1980, pl.5, fig.12; pl.6, fig.1. Originally *Palaeostomocystis* (Appendix A), subsequently (and now) *Fromea*. Age: Valanginian (type material reworked from Aalenian strata according to Poulton et al., 1990, p.171; fig.3).

"*simplex*" Yun Hyesu, 1981, p.56–57, pl.13, figs.10,15. Holotype: Yun Hyesu, 1981, pl.13, fig.15. **NOW** *Batioladinium*. Originally *Fromea*, subsequently (and now) *Batioladinium*. Age: early Santonian.

staveia Elsik, 1977, p.100,102, pl.2, figs.12–14. Holotype: Elsik, 1977, pl.2, fig.12. Age: late Eocene.

thomsenii Poulsen, 1996, p.88, pl.42, figs.6–9. Holotype: Poulsen, 1996, pl.42, fig.7. Age: middle Volgian.

tornatilis (Drugg, 1978, p.71–72, pl.7, figs.4–6) Lentin and Williams, 1981, p.107. Holotype: Drugg, 1978, pl.7, fig.5. Originally *Palaeostomocystis* (Appendix A), subsequently (and now) *Fromea*. Age: Callovian–Oxfordian.

torosa Zatonkaya, 1975, p.34, pl.1, fig.5. Holotype: Zatonkaya, 1975, pl.1, fig.5. Age: Late Jurassic–Early Cretaceous.

triquetra (Brideaux, 1977, p.20–21, pl.8, figs.1–6) Yun Hyesu, 1981, p.56. Holotype: Brideaux, 1977, pl.8, figs.1–2. Originally *Palaeostomocystis* (Appendix A), subsequently (and now) *Fromea*. Age: Barremian.

warlinghamensis Gitmez and Sarjeant, 1972, p.188–189, pl.1, figs.6,8; pl.9, figs.5–6. Holotype: Gitmez and Sarjeant, 1972, pl.1, fig.6. Taxonomic senior synonym: *Fromea amphora* (Appendix A), according to Riley (1979, p.221) — however, Jansonius (1989, p.67) retained *Fromea warlinghamensis*. Taxonomic junior synonym: *Fromea irregularis* (Appendix A), according to Jansonius (1989, p.65). Age: Kimmeridgian.

zhongyuanensis He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.46, pl.3, figs.1–5. Holotype: He Chengquan et al., 1989, pl.3, fig.3. Age: Early Tertiary.

GEODIA Lamarck, 1816. Sponge genus. Type: information not available.

"*austini*" Merrill, 1895, p.16; text-fig.11. Holotype: Merrill, 1895, text-fig.11. Originally *Geodia?*, subsequently *Systematophora?*. Questionable assignment: Merrill (1895, p.16). **Taxonomic senior synonym:** *Xanthidium* (as *Hystrichosphaera*, now *Spiniferites*) *ramosum*, according to Sarjeant (1966a, p.5). Age: Early Cretaceous.

"*hillii*" Merrill, 1895, p.17; text-fig.21. Holotype: Merrill, 1895, text-fig.21. **NOW** *Hystrichosphaeridium?*. Originally *Geodia?*, subsequently *Hystrichosphaeridium*, thirdly (and now) *Hystrichosphaeridium?*. Questionable assignment: Merrill (1895, p.17). Age: Early Cretaceous.

"*irregularis*" Merrill, 1895, p.16; text-fig.4. Holotype: Merrill, 1895, text-fig.4. Originally *Geodia? irregularis*, subsequently *Hystrichosphaeridium irregulare* (combination illegitimate), thirdly *Hystrichosphaeridium? irregulare* (combination illegitimate), fourthly *Hystrichosphaeridium speciale*. Questionable assignment: Merrill (1895, p.16). **Taxonomic senior synonym** (at specific rank): *Xanthidium tubiferum* var. *complex* (now *Oligosphaeridium complex*), according to Harker and Sarjeant in Harker et al. (1990, p.59). Age: Early Cretaceous.

"*spinipansata*" Merrill, 1895, p.17; text-fig.20. Holotype: Merrill, 1895, text-fig.20. **NOW** *Hystrichosphaeridium?*. Originally *Geodia?*, subsequently *Hystrichosphaeridium*, thirdly (and now) *Hystrichosphaeridium?*. Questionable assignment: Merrill (1895, p.17). Age: Early Cretaceous.

"*tripunctata*" Merrill, 1895, p.16; text-fig.15. Holotype: Merrill, 1895, text-fig.15. Questionable assignment: Merrill (1895, p.16). **Taxonomic senior synonym:** *Xanthidium* (now *Spiniferites*) *ramosum*, by implication in Sarjeant (1964a, p.175), who considered *Geodia? tripunctata* to be a taxonomic junior synonym of *Xanthidium* (as

Hystrichosphaera furcatum, which is now a taxonomic junior synonym of *Spiniferites ramosus*. Age: Early Cretaceous.

"**GONIOSPHAERIDIUM**" Eisenack, 1969a, p.256. Emendations: Kjellström, 1971a, p.43; Turner, 1984, p.111–112; Eiserhardt, 1992, p.28. Acritarch genus. **Taxonomic senior synonym:** *Polygonium* (Appendix A), according to Le Hérissé (1989, p.181) and Sarjeant and Stancliffe (1996, p.358). For further synonymy see Fensome et al. (1990, p.232). Type: Eisenack, 1931, pl.4, fig.19, as *Ovum hispidum* subsp. *polygonale*.

"**apiculatum**" (Timofeev, 1959, p.52, pl.4, fig.3) Wolf, 1980, p.125. Holotype: Timofeev, 1959, pl.4, fig.3. **Combination not validly published:** basionym not fully referenced. **NOW** *Baltisphaeridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium* (Appendix A), thirdly *Goniosphaeridium* (combination not validly published). Age: Early Ordovician.

"**balticum**" (Eisenack, 1951, p.190, pl.3, figs.10–11) Eisenack, 1969a, p.258. Holotype: Eisenack, 1951, pl.3, fig.10, lost according to Eisenack et al. (1973, p.478). **NOW** *Pachysphaeridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Pulvinosphaeridium* (combination not validly published, Appendix A), thirdly *Veryhachium* (Appendix A), fourthly *Goniosphaeridium*, fifthly *Baltisphaeridium* (Appendix A), sixthly *Estriastra* (Appendix A), seventhly (and now) *Pachysphaeridium* (Appendix A). Eisenack et al. (1973, p.477–479) retained this species in *Goniosphaeridium*. Age: Early Ordovician.

"**hyalodermum**" (Cookson, 1956, p.188–189, pl.1, figs.12–16) Cookson and Eisenack, 1982, p.51. Holotype: Cookson, 1956, pl.1, fig.12. **NOW** *Dorsennidium* (Appendix A). Originally *Palaeotetradinium*, subsequently *Veryhachium* (Appendix A), thirdly *Goniosphaeridium* (Appendix A), fourthly (and now) *Dorsennidium* (Appendix A). Age: Albian–Cenomanian.

"**oligospinosum**" (Eisenack, 1934, p.64–65, pl.4, figs.15–18 ex Eisenack, 1938a, p.12) Eisenack, 1969a, p.256–257. Holotype: Eisenack, 1934, pl.4, fig.18, lost according to Eisenack et al. (1973, p.494). **NOW** *Estriastra?* *oligospinosa* (Appendix A). Originally *Ovum hispidum* subsp. *oligospinosum* (name not validly published, Appendix A), subsequently *Hystrichosphaeridium oligospinosum*, thirdly *Pulvinosphaeridium oligospinosum* (Appendix A), fourthly *Veryhachium oligospinosum* (Appendix A), fifthly *Goniosphaeridium oligospinosum*, sixthly (and now) *Estiastra?* *oligospinosa* (Appendix A). Age: Silurian (erratic).

"***polygonale**" (Eisenack, 1931, p.113, pl.4, figs.16–20; pl.5, fig.18 ex Eisenack, 1938a, p.12) Eisenack, 1969a, p.257–258. Holotype: Eisenack, 1931, pl.4, fig.19, as *Ovum hispidum* subsp. *polygonale*, lost according to Eisenack (1959, p.199). Neotype: Paris and Deunff, 1970, pl.1, fig.4, as *Veryhachium splendens*, designated by Fensome et al. (1990, p.235), which see. **NOW** *Polygonium* (Appendix A). Originally *Ovum hispidum* subsp. *polygonale* (combination not validly published, Appendix A), subsequently *Hystrichosphaeridium polygonale*, thirdly *Baltisphaeridium polygonale* (Appendix A), fourthly *Veryhachium polygonale* (combination not validly published, Appendix A), fifthly *Goniosphaeridium polygonale*, sixthly (and now) *Polygonium polygonale* (Appendix A). Taxonomic junior synonyms: *Impletosphaeridium? primordiale*, according to Eisenack et al. (1973, p.497–498); *Veryhachium* (subsequently *Goniosphaeridium*) *splendens* Paris and Deunff, 1970, an acritarch species, according to Turner (1984, p.113–114) who believed *Goniosphaeridium splendens* to be the senior name; *Hystrichosphaeridium* (subsequently *Baltisphaeridium*) *sexradiatum*, an acritarch species, according to Eisenack (1965c, p.261). For discussion see Fensome et al. (1990, p.235). Age: Silurian (erratic).

"subsp. **uncinatum**" (Downie, 1958, p.337; text-fig.2a) Tynni, 1982, p.72. Holotype: Downie, 1958, text-fig.2a. **Combination not validly published:** basionym not fully referenced. **NOW** *Stellechinatum uncinatum* (Appendix A). Originally *Hystrichosphaeridium longispinosum* var. *uncinatum*, subsequently *Baltisphaeridium longispinosum* var. *uncinatum* (Appendix A), thirdly *Baltisphaeridium uncinatum* (Appendix A), fourthly *Micrhystridium uncinatum* (Appendix A), fifthly *Goniosphaeridium uncinatum* (Appendix A), sixthly *Polygonium uncinatum* (Appendix A), seventhly *Goniosphaeridium polygonale* subsp. *uncinatum* (combination not validly published), eighthly (and now) *Stellechinatum uncinatum* (Appendix A). Taxonomic junior synonym: *Goniosphaeridium regulare* Yin Leiming in Chen Junyuan et al., 1985, an acritarch species, according to Yin Leiming (1986, p.347). Age: Early Ordovician.

"tuberatum" (Downie, 1958, p.338, pl.17, fig.3; text-fig.3f) Welsch, 1986, p.49. Holotype: Downie, 1958, pl.17, fig.3. **NOW** *Acanthodiacrodium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly (and now) *Acanthodiacrodium* (Appendix A), fourthly *Vulcanisphaera* (Appendix A), fifthly *Goniosphaeridium*. Age: Early Ordovician.

"uncinatum" (Downie, 1958, p.337; text-fig.2a) Kjellström, 1971b, p.27. Holotype: Downie, 1958, text-fig.2a. **NOW** *Stellechinatum uncinatum* (Appendix A). Originally *Hystrichosphaeridium longispinosum* var. *uncinatum*, subsequently *Baltisphaeridium longispinosum* var. *uncinatum* (Appendix A), thirdly *Baltisphaeridium uncinatum* (Appendix A), fourthly *Micrhystridium uncinatum* (Appendix A), fifthly *Goniosphaeridium uncinatum*, sixthly *Polygonium uncinatum* (Appendix A), seventhly *Goniosphaeridium polygonale* subsp. *uncinatum* (combination not validly published, Appendix A), eighthly (and now) *Stellechinatum uncinatum* (Appendix A). Taxonomic junior synonym: *Goniosphaeridium regulare* Yin Leiming in Chen Junyuan et al., 1985, an acritarch species, according to Yin Leiming (1986, p.347). Age: Early Ordovician.

GORGONISPHAERIDIUM Staplin et al., 1965, p.192–193. Emendation: Kiryanov, 1978, p.14–15. Acritarch genus. Type: Staplin et al., 1965, pl.19, fig.20, as *Gorgonisphaeridium winslowiae*.

"ambiguum" (Deflandre, 1937b, p.81, pl.16 [al. pl.13], figs.8–9) Sarjeant and Stancliffe, 1994, p.31. Holotype: Deflandre, 1937b, pl.16 (al. pl.13), fig.8; Fauconnier and Masure, 2004, pl.71, figs.6–7. **NOW** *Sepispinula?*. Originally *Micrhystridium* (Appendix A), subsequently *Cleistosphaeridium*, thirdly *Polysphaeridium*, fourthly *Chlamydophorella*, fifthly *Dapsilidinium*, sixthly *Gorgonisphaeridium*, seventhly (and now) *Sepispinula?*. Taxonomic junior synonyms: *Hystrichosphaeridium* (now *Sepispinula?*) *huguoniotii*, according to Clarke and Verdier (1967, p.54) and *Hystrichosphaeridium* (now *Sepispinula*) *ancoriferum*, both according to Yun Hyesu (1981, p.44) and Schiøler and Wilson (1998, p.328) — however, Masure in Fauconnier and Masure (2004, p.499–500) retained *Sepispinula ancorifera* and *Sepispinula? huguoniotii*. Age: Late Cretaceous.

lewisii (Deunff, 1954a, p.240, fig.3) Sarjeant and Vavrdova, 1997, p.24. Holotype: Deunff, 1954a, fig.3. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Ammonidium* (combination not validly published, Appendix A), fourthly *Multiplicisphaeridium* (Appendix A), fifthly (and now) *Gorgonisphaeridium*. Age: Middle Devonian.

ohioense (Winslow, 1962, p.77, pl.19, figs.1,22; pl.22, fig.9) Wicander, 1974, p.26. Holotype: Winslow, 1962, pl.22, fig.9. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly (and now) *Gorgonisphaeridium*. Age: Late Devonian.

GRANODISCUS Mädler, 1963, p.340–341. Acritarch genus. Type: Mädler, 1963, pl.23, fig.3, as *Granodiscus granulatus*.

"pylomicus" Jiabo, 1978, p.103, pl.39, figs.11–14. Holotype: Jiabo, 1978, pl.39, fig.14. **NOW** *Pyxidinospis*. Originally *Granodiscus*, subsequently (and now) *Pyxidinospis*. Age: Oligocene.

"vesiculus" Liu Zhili and Zheng Yuefang in Liu Zhili et al. 1992, p.96, pl.22, figs.5–9. Holotype: Liu Zhili et al. 1992, pl.22, fig.7. **NOW** *Pyxidinospis*. Originally *Granodiscus*, subsequently (and now) *Pyxidinospis*. Age: Oligocene.

HALODINIUM Bujak, 1984, p.196. Acritarch genus. Type: Bujak, 1984, pl.4, fig.17, as *Halodinium majus*.

***majus** Bujak, 1984, p.196, pl.4, figs.15–17. Holotype: Bujak, 1984, pl.4, fig.17. Age: Pleistocene.

minus Bujak, 1984, p.196, pl.4, figs.18–20. Holotype: Bujak, 1984, pl.4, figs.18–19. Age: Pleistocene.

scopaem Head, 1993, p.47, fig.27, no.14; fig.28, nos.1–5. Holotype: Head, 1993, fig.27, no.14. Age: latest Pliocene.

HALOPHORIDIA Cookson and Eisenack, 1962a, p.271. Acritarch genus. Type: Cookson and Eisenack, 1962a, pl.37, fig.6, as *Halophoridia xena*.

spinosa Singh, 1983, p.132–133, pl.45, figs.9–11. Holotype: Singh, 1983, pl.45, fig.9. Age: early Cenomanian.

**xena* Cookson and Eisenack, 1962a, p.271, pl.37, figs.6–8. Holotype: Cookson and Eisenack, 1962a, pl.37, fig.6. Age: Albian–Cenomanian.

HAPSIDOPALLA Playford, 1977, p.25. Emendation: Wicander and Wood, 1981, p.42–43. Acritarch genus. Type: Deunff, 1957, fig.1 — p.13, as *Micrhystridium sannemannii*.

?*venusta* (Sannemann, 1955, p.345, pl.5, fig.11; text-fig.15) Playford, 1977, p.25. Holotype: Sannemann, 1955, pl.5, fig.11. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Multiplicisphaeridium* (Appendix A), fourthly (and now) *Hapsidopalla*. Questionable assignment: Sarjeant and Vavrdova (1997, p.25). Sarjeant and Vavrdova (1997, p.25) postulated that this species may represent muellerisphaerids. Age: Devonian (late Givetian).

HOEGKLINTIA Dorning, 1981, p.192. Emendation: Eiserhardt, 1992, p.41. Acritarch genus. Type: Eisenack, 1959, pl.16, fig.12, as *Baltisphaeridium visbyense*.

digitata (Eisenack, 1938a, p.20–22, pl.4, figs.3–5; text-fig.7) Dorning, 1981, p.192. Holotype: Eisenack, 1938a, pl.4, fig.3, lost according to Eisenack (1959, p.200). Neotype: Eisenack, 1959, pl.16, fig.11, designated by Eisenack (1959, p.200). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Multiplicisphaeridium* (Appendix A), fourthly (and now) *Hoegklintia*. Le Hérissé (1989, p.147) also proposed this combination. Age: Ordovician (erratic).

HUNGARODISCUS Kriván-Hutter, 1963, p.76. Acritarch genus. Type: Kriván-Hutter, 1963, pl.5, figs.1–6; pl.6, figs.1–7, as *Hungarodiscus fragilis*.

"*fissilis*" Jiabo, 1978, p.100–101, pl.35, figs.3–9. Emendation: Mao Shaozhi et al., 1995, p.43. Holotype: Jiabo, 1978, pl.35, fig.4. **NOW** *Lacunodinium*. Originally *Hungarodiscus*, subsequently (and now) *Lacunodinium*. Taxonomic junior synonym: *Hungarodiscus foveolatus*, according to Mao Shaozhi et al. (1995, p.43). Age: Oligocene.

"*foveolatus*" Jiabo, 1978, p.101, pl.3, figs.1–4. Holotype: Jiabo, 1978, pl.3, fig.2. **Taxonomic senior synonym:** *Hungarodiscus* (now *Lacunodinium*) *fissilis*, according to Mao Shaozhi et al. (1995, p.43). Age: Oligocene.

"*punctatus*" Jiabo, 1978, p.101, pl.35, figs.1–2. Holotype: Jiabo, 1978, pl.35, fig.1. **NOW** *Lacunodinium*. Originally *Hungarodiscus*, subsequently (and now) *Lacunodinium*. Age: late Oligocene.

KOFOIDOPSIS Tasch, 1963, p.333. The "type species" of this genus is based on a mineral grain according to Stover and Evitt (1978, p.265,294). Type: Tasch, 1963, pl.1, figs.7–8, as *Kofoidopsis coronata*.

**coronata* Tasch, 1963, p.333–334, pl.1, figs.7–8. Holotype: Tasch, 1963, pl.1, figs.7–8. This species is based on a mineral grain according to Stover and Evitt (1978, p.265). Age: Early Permian.

KOROJONIA Cookson and Eisenack, 1958, p.54. Acritarch genus. Type: Cookson and Eisenack, 1958, pl.12, fig.13, as *Korojonia dubiosa*.

**dubiosa* Cookson and Eisenack, 1958, p.54, pl.12, fig.13. Holotype: Cookson and Eisenack, 1958, pl.12, fig.13. Age: Cenomanian–early Maastrichtian.

LAGENA (Walker and Jacob in Kanmacher, 1798) Brown, 1827. A foraminifer genus.

"*diffringens*" de Lapparent, 1918, p.21–22 [name first used on p.22], pl.2, fig.1–part; pl.3, figs.1–part,2–part. Holotype: not designated. **NOW** *Microconus*. Originally *Lagena*, subsequently *Stomiosphaera*, thirdly (and now) *Microconus*. Age: Late Cretaceous? (according to Vogler, 1941, "Inhalt" and p.283).

"*gracillima*" Seguenza in de Lapparent, 1918, p.19, pl.3, fig.1–part. Holotype: not designated: although the caption to de Lapparent's pl.3, fig.1 suggests a single specimen ("g"), there is no indication as to which specimen this refers. **NOW** *Cadosina*. Originally *Lagena*, subsequently (and now) *Cadosina*. Age: Cretaceous.

"*orbularia*" de Lapparent, 1918, p.20, pl.2, figs.1–part,2–part; pl.3, fig.2–part. Holotype: not designated. **NOW** *Inocardion*. Originally *Lagena* (Appendix A), subsequently *Stomiosphaera*, thirdly *Sphaerella* (generic name illegitimate), fourthly *Stomiodinium?*, fifthly (and now) *Inocardion*. Taxonomic senior synonym: *Lagena* (now *Pithonella*) *sphaerica*, according to Bonet (1956, p.450) — however, Masters and Scott (1978, p.215) retained this species as type of *Inocardion*. Age: Late Cretaceous.

"*ovalis*" Kaufmann in Heer, 1865, p.196–197, figs.107a–b. Holotype: not designated. **NOW** *Pithonella*. Originally *Lagena*, subsequently (and now) *Pithonella*, thirdly *Fissurina* (Appendix A). Taxonomic junior synonym: *Lagena* (now *Pithonella*) *sphaerica*, according to Lorenz (1902, p.46) — however, Bonet (1956, p.450) retained *Lagena* (as *Stomiosphaera*) *sphaerica*. Age: late Cenomanian–Turonian (based on later studies by Bolli — P. Hochuli, personal communication).

"*sphaerica*" Kaufmann in Heer, 1865, p.196, figs.104,106a–b. Holotype: not designated. **NOW** *Pithonella*. Originally *Lagena* (Appendix A), subsequently *Stomiosphaera*, thirdly *Palinosphaera* (generic name not validly published), fourthly (and now) *Pithonella*. Taxonomic senior synonym: *Lagena* (now *Pithonella*) *ovalis*, according to Lorenz (1902, p.46) — however, Bonet (1956, p.450) retained *Lagena* (as *Stomiosphaera*) *sphaerica*. Taxonomic junior synonym: *Lagena orbularia* (Appendix A), according to Bonet (1956, p.450) — however, Masters and Scott (1978, p.215) retained the latter species as type of *Inocardion*. Age: late Cenomanian–Turonian (based on later studies by Bolli — P. Hochuli, personal communication).

LECANIELLA Cookson and Eisenack, 1962a, p.269. Zygmematalean genus (Head, 1992, p.246). Type: Cookson and Eisenack, 1962a, pl.37, fig.16, as *Lecaniella margostriata*.

dictyota Cookson and Eisenack, 1962a, p.270, pl.37, figs.18–20. Holotype: Cookson and Eisenack, 1962a, fig.18. Age: Aptian–Cenomanian.

foveata Singh, 1971, p.426, pl.79, figs.5–10; pl.80, fig.1. Holotype: Singh, 1971, pl.79, figs.5–6. Age: late Albian.

foveolata Filatoff, 1975, p.93–94, pl.30, figs.11–12. Holotype: Filatoff, 1975, pl.30, fig.12. Age: Bajocian.

**margostriata* Cookson and Eisenack, 1962a, p.269–270, pl.37, figs.16–17. Holotype: Cookson and Eisenack, 1962a, pl.37, fig.16. Age: Albian–Cenomanian.

proteiformis Wan Chuanbiao et al., 1995, p.58,61, pl.1, figs.1–5,7–12,14; text-figs.3A–E. Holotype: Wan Chuanbiao et al., 1995, pl.1, figs.1,3–4. Age: Early Cretaceous.

LEFFINGWELLIA Head and Norris, 2003, p.12. Acritarch genus. Type: Head and Norris, 2003, fig.12, nos.16–18, as *Leffingwellia costata*.

costata Head and Norris, 2003, p.12,14, fig.10; fig.12, nos.16–25. Holotype: Head and Norris, 2003, fig.12, nos.16–18. Age: late early–late Pliocene.

LEIOFUSA Eisenack, 1938a, p.28. Emendations: Eisenack, 1965a, p.140; Combaz et al., 1967, p.297. Acritarch genus. Type: Eisenack, 1934, pl.4, fig.19, as *Ovum hispidum* subsp. *fusiforme* (name not validly published).

"*lidiae*" Górka, 1963, p.37, pl.5, fig.6. Emendation: Davey, 1969b, p.12, as *Palaeocystodinium lidiae*. Holotype: Górka, 1963, pl.5, fig.6. **NOW** *Palaeocystodinium*. Originally *Leiofusa*, subsequently (and now) *Palaeocystodinium*. Age: Maastrichtian.

"**LEIOSPHAERA**" Eisenack, 1938a, p.12,22–24. Acritarch genus. **Taxonomic senior synonym:** *Tasmanites* (Appendix A), according to Schopf et al. (1944, p.18). Type: Eisenack, 1931, pl.5, fig.2, as *Bion solida*.

"*scrobiculata*" Deflandre and Cookson, 1955, p.291, pl.3, fig.3; text-fig.57. Holotype: Deflandre and Cookson, 1955, pl.3, fig.3. **NOW** *Pyxidiella?*. Originally *Leiosphaera*, subsequently *Pyxidiella*, thirdly *Leiosphaeridia* (Appendix A), fourthly *Palaeostomocystis* (Appendix A), fifthly (and now) *Pyxidiella?*, sixthly *Batiacasphaera*. Age: Santonian–Eocene.

LEIOSPHAERIDIA Eisenack, 1958c, p.2. Emendations: Downie and Sarjeant, 1963, p.94–95; Turner, 1984, p.116. Acritarch genus. For synonymy see Fensome et al. (1990, p.271–272). Type: Eisenack, 1958c, pl.2, fig.5, as *Leiosphaeridia baltica*.

"*asymmetrica*" Pocock, 1972, p.107, pl.26, figs.29–30. Holotype: Pocock, 1972, pl.26, fig.29; Fauconnier and Masure, 2004, pl.63, fig.15. **NOW** *Pilosidinium*. Originally *Leiosphaeridia*, subsequently *Sentusidinium*, thirdly (and now) *Pilosidinium*. Taxonomic junior synonym: *Sentusidinium* (as *Pilosidinium*) *fibrosum*, according to Courtinat in Fauconnier and Masure, 2004, p.447. Age: late Bajocian–early Bathonian.

"*chytrooides*" Sarjeant, 1962a, p.493, pl.70, figs.13,16. Emendation: Davey, 1979d, as *Chytroeisphaeridia chytrooides*. Holotype: Sarjeant, 1962a, pl.70, fig.13. **NOW** *Chytroeisphaeridia*. Originally *Leiosphaeridia* subgenus *Chytroeisphaeridia*, subsequently (and now) *Chytroeisphaeridia*. Age: Oxfordian.

"*ovata*" Wilson, 1967b, p.230, figs.23–26. Holotype: Wilson, 1967b, fig.23. **NOW** *Palaeostomocystis* (Appendix A). Originally *Leiosphaeridia*, subsequently (and now) *Palaeostomocystis* (Appendix A). Age: Maastrichtian (see Wilson, 1972).

"*scrobiculata*" (Deflandre and Cookson, 1955, p.291, pl.3, fig.3; text-fig.57) Rossignol, 1964, p.92–94. Holotype: Deflandre and Cookson, 1955, pl.3, fig.3. **NOW** *Pyxidiella?*. Originally *Leiosphaera* (Appendix A), subsequently *Pyxidiella*, thirdly *Leiosphaeridia*, fourthly *Palaeostomocystis* (Appendix A), fifthly (and now) *Pyxidiella?*, sixthly *Batiacasphaera*. Age: Santonian–Eocene.

"*similis*" Cookson and Eisenack, 1960b, p.254, pl.38, fig.14. Holotype: Cookson and Eisenack, 1960b, pl.38, fig.14. **NOW** *Nummus* (Appendix A). Originally *Leiosphaeridia*, subsequently (and now) *Nummus* (Appendix A). Age: Tithonian.

"*trematophora*" Cookson and Eisenack, 1967a, p.136, pl.19, fig.13. Holotype: Cookson and Eisenack, 1967a, pl.19, fig.13. **NOW** *Cyclopsiella*. Originally *Leiosphaeridia*, subsequently (and now) *Cyclopsiella*. Age: late Eocene.

"**LEIOSPHAERIDIA** subgenus **CHYTROEISPHAERIDIA**" Sarjeant, 1962a, p.492. **NOW** *Chytroeisphaeridia*. Originally *Leiosphaeridia* subgenus *Chytroeisphaeridia*, subsequently (and now) *Chytroeisphaeridia*. Type: Sarjeant, 1962a, pl.70, fig.13, as *Leiosphaeridia* subgenus *Chytroeisphaeridia chytrooides*.

LEPTODERMELLA von Höhnel 1915, p.212. A fungal genus.

"*maastrichtiensis*" Visser, 1951, p.211, pl.7, fig.13. Holotype: Visser, 1951, pl.7, fig.13. **NOW** *Inocardion*. Originally *Leptodermella*, subsequently *Bonetocardiella*, thirdly and now *Inocardion*. Taxonomic junior synonym: *Stomiosphaera cardiiformis* (name not validly published), according to Villain (1975, p.198). Age: Maastrichtian.

LIMBICYSTA Marshall, 1989, p.28–32. Acritarch genus. Taxonomic junior synonyms: *Fentonia* (Appendix A), according to MacRae et al. (1996, p.1479); and *Neofentonia* (Appendix A), which is a nomenclatural junior synonym of *Fentonia*. Type: Marshall, 1989, pl.1, figs.1–5, as *Limbicysta pediformis*.

bjaerkei (Smelror, 1987, p.227,230, figs.4G,8C–D; text-fig.9) MacRae et al., 1996, p.1481. Emendation: Bailey and Hogg, 1995, p.58, as *Fentonia bjaerkei*. Holotype: Smelror, 1987, fig.4G. Originally *Parvocysta*, subsequently *Fentonia*, thirdly (and now) *Limbicysta* (Appendix A), fourthly *Neofentonia* (generic name illegitimate; Appendix A). Age: late Callovian.

LOPHODICTYOTIDIUM Pocock, 1972, p.109. Acritarch genus. Type: Pocock, 1972, pl.25, fig.5, as *Lophodictyotidium sarjeantii*.

**sarjeantii* Pocock, 1972, p.109, pl.25, fig.5. Holotype: Pocock, 1972, pl.25, fig.5. Although the holotype appears to be tabulate, Jansonius in Lentin and Williams (1989, p.231) indicated that this is not a dinoflagellate. Age: late Bajocian.

LOPHOSPHAERIDIUM Timofeev, 1959, p.29 ex Downie, 1963, p.630. Emendation: Lister, 1970, p.61. Acritarch genus. For full details, see Fensome et al. (1990, p.301). Type: Timofeev, 1959, pl.2, fig.5, as *Lophosphaeridium rarum*.

"*microspinosum*" (Eisenack, 1954a, p.209–210, pl.1, fig.8) Downie, 1963, p.631. Holotype: Eisenack, 1954a, pl.1, fig.8. **NOW** *Baltisphaeridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium* (Appendix A), thirdly *Lophosphaeridium*, fourthly *Visbysphaera* (Appendix A), fifthly *Buedingiisphaeridium* (combination not validly published, Appendix A). Taxonomic junior synonym: *Baltisphaeridium listeri* Kiryanov, 1978, according to Le Hérissé (1989, p.210). Age: Silurian (late Llandovery).

MATHUROSPHAERA Varma and Dangwal, 1964, p.70. Acritarch genus. Type: Varma and Dangwal, 1964, pl.2, figs.11–12, as *Mathurophaera rajivii*.

**rajivii* Varma and Dangwal, 1964, p.70, pl.2, figs.11–12. Holotype: Varma and Dangwal, 1964, pl.2, figs.11–12. Age: Eocene–Oligocene.

MESOCENA Ehrenberg 1843c, p.401. A dictyophycean genus.

?*heptagonus* Ehrenberg, 1843c, p.417, pl.1, section 3, fig.26. Holotype: Ehrenberg, 1843c, p.417, pl.1, section 3, fig.26. Originally *Mesocena*?, subsequently (and now) *Actiniscus*? Questionable assignment: Ehrenberg 1843c, p.417. Age: Pliocene.

MICRHYSTRIDIUM Deflandre, 1937b, p.79. Emendations: Staplin, 1961, p.408; Sarjeant, 1967c, p.204; Lister, 1970, p.77; Sarjeant and Stancliffe, 1994, p.12. Acritarch genus. Taxonomic junior synonym: *Solisphaeridium* (Appendix A), according to Sarjeant and Stancliffe (1994, p.12) — however, Moczyłowska (1998, p.98) retained *Solisphaeridium*. For further synonymy, see Fensome et al. (1990, p.315) and Sarjeant and Stancliffe (1994, p.12). Type: Deflandre, 1937b, pl.12 (al. pl.9), fig.11, as *Micrhystridium inconspicuum*.

"ambiguum" Deflandre, 1937b, p.81, pl.16 (al. pl.13), figs.8–9. Holotype: Deflandre, 1937b, pl.16 (al. pl.13), fig.8; Fauconnier and Masure, 2004, pl.71, figs.6–7. **NOW** *Sepispinula?*. Originally *Micrhystridium*, subsequently *Cleistosphaeridium*, thirdly *Polysphaeridium*, fourthly *Chlamydochorella*, fifthly *Dapsilidinium*, sixthly *Gorgonisphaeridium* (Appendix A), seventhly (and now) *Sepispinula?*. Taxonomic junior synonyms: *Hystrichosphaeridium* (now *Sepispinula?*) *huguoniotii*, according to Clarke and Verdier (1967, p.54) and *Hystrichosphaeridium* (now *Sepispinula*) *ancoriferum*, both according to Yun Hyesu (1981, p.44) and Schiøler and Wilson (1998, p.328) — however, Masure in Fauconnier and Masure (2004, p.499–500) retained *Sepispinula ancorifera* and *Sepispinula? huguoniotii*. Age: Late Cretaceous.

clavicularum (Deflandre, 1939a, p.191–192, pl.10, fig.4) Sarjeant and Stancliffe, 1994, p.16. Emendation: Sarjeant, 1968, p.223, as *Solisphaeridium clavicularum*. Holotype: Deflandre, 1939a, pl.10, fig.4. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Solisphaeridium* (Appendix A), fourthly (and now) *Micrhystridium*. Age: Late Jurassic.

"diploporum" (Eisenack, 1951, p.190–191, pl.2, fig.6) Downie and Sarjeant, 1963, p.90. Holotype: Eisenack, 1951, pl.2, fig.6. **Name not validly published**: basionym not fully referenced. **NOW** *Baltisphaeridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Micrhystridium*, thirdly (and now) *Baltisphaeridium* (Appendix A). Age: Ordovician (erratic).

"fucosum" Valensi, 1955a, p.40; text-fig.2b. Holotype: Valensi, 1955a, text-fig.2b; Fauconnier and Masure, 2004, pl.52, figs.8–11. **NOW** *Litosphaeridium*. Originally *Micrhystridium*, subsequently *Hystrichosphaeridium*, thirdly *Polysphaeridium?*, fourthly *Dapsilidinium?*, fifthly (and now) *Litosphaeridium*. Taxonomic junior synonyms (at specific rank): *Hystrichosphaeridium tubiferum* subsp. *brevispinum*, according to Below (1982c, p.29) — however, Lentin and Williams (1985, p.190) retained *Hystrichosphaeridium tubiferum* subsp. *brevispinum*; *Hystrichosphaeridium* (as and now *Litosphaeridium*) *arundum*, according to Below (1982c, p.29) — however, Lentin and Williams (1985, p.227) retained *Litosphaeridium arundum*. Age: Late Cretaceous.

"hamatum" (Downie, 1958, p.335, pl.16, fig.1; text-figs.2j–k) Deflandre and Deflandre-Rigaud, 1965, fiche 2248. Holotype: Downie, 1958, pl.16, fig.1. **NOW** *Baltisphaeridium hamatum* (Appendix A). Originally *Hystrichosphaeridium hirsutoides* var. *hamatum*, subsequently *Baltisphaeridium hirsutoides* var. *hamatum* (Appendix A), thirdly *Micrhystridium hamatum*, fourthly *Acanthodiacrodium hamatum* (Appendix A), fifthly (and now) *Baltisphaeridium hamatum* (Appendix A). Age: Early Ordovician.

***inconspicuum** Deflandre, 1935, p.233, pl.9, figs.11–12 ex Deflandre, 1937b, p.80. Holotype: Deflandre, 1937b, pl.12 (al. pl.9), fig.11. Originally *Hystrichosphaera* (name not validly published), subsequently (and now) *Micrhystridium*. The name *Hystrichosphaera inconspicua* was not validly published in Deflandre (1935) since the generic name *Hystrichosphaera* was not validly published until 1937, and additionally since no holotype was designated, a requirement of the I.C.Z.N. at that time. Age: Late Cretaceous.

"longispinosum" (Eisenack, 1931, p.110–111, pl.5, figs.6–17 ex Wetzel, 1933b, p.44) Cramer et al., 1979, p.42. Holotype: Eisenack, 1931, pl.5, fig.10, lost according to Eisenack (1959, p.194). Neotype: Eisenack, 1959, pl.15, fig.1, designated by Eisenack (1959, p.194). **Combination not validly published**: basionym not fully referenced. **NOW** *Baltisphaeridium longispinosum* (Appendix A). Originally *Ovum hispidum* subsp. *longispinosum* (name not validly published; Appendix A), subsequently *Hystrichosphaera longispinosa* (name not validly published), thirdly *Hystrichosphaeridium longispinosum*, fourthly (and now) *Baltisphaeridium longispinosum* (Appendix A), fifthly *Micrhystridium longispinosum* (name not validly published). Age: Ordovician (early Caradoc).

lucidum (Deunff, 1959, p.25–26, pl.9, figs.80,82–83,85–89) Sarjeant and Stancliffe, 1994, p.17. Holotype: Deunff, 1959, pl.9, fig.82. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Solisphaeridium* (Appendix A), fourthly (and now) *Micrhystridium*. Age: Ordovician (Caradoc).

"nanus" (Deflandre, 1945a, p.62–63, pl.1, figs.5–7) Deflandre and Deflandre-Rigaud, 1965, fiche 2296. Holotype: Deflandre, 1945a, pl.1, figs.5–6. **NOW** *Polygonium nanus* (Appendix A). Originally *Hystrichosphaeridium brevispinosum* var. *nanus*, subsequently *Baltisphaeridium brevispinosum* var. *nanus* (combination not validly published, Appendix A), thirdly *Baltisphaeridium nanus* (Appendix A), fourthly *Micrhystridium nanus*, fifthly (and now) *Polygonium nanus* (Appendix A), sixthly *Solisphaeridium nanus* (Appendix A). Taxonomic junior synonym:

Baltisphaeridium brevispinosum var. *wenlockense* (subsequently *Salopidium wenlockense*) Downie, 1959, an acritarch taxon, according to Lister (1970, p.54). N.I.A. Age: Silurian.

"?*oceaniae*" de Coninck, 1969, p.60, pl.17, figs.12–21. Holotype: de Coninck, 1969, pl.17, figs.20–21. **NOW** *Surculosphaeridium*?. Originally *Micrhystridium*, subsequently *Surculosphaeridium*, thirdly (and now) *Surculosphaeridium*?. Questionable assignment: de Coninck (1969, p.60). Age: Ypresian.

"*paulinae*" Valensi, 1953, p.48, pl.12, fig.6. Holotype: Valensi, 1953, pl.12, fig.6. **NOW** *Dapsilidinium*?. Originally *Micrhystridium*, subsequently *Hystrichosphaeridium*, thirdly *Polysphaeridium*?, fourthly (and now) *Dapsilidinium*?. Age: Middle Jurassic.

"*picoricum*" Cramer, 1964, p.303, pl.11, figs.1–3; text-fig.24. Holotype: Cramer, 1964, pl.11, fig.2. Originally *Micrhystridium*, subsequently *Multiplicisphaeridium* (Appendix A), thirdly *Hystrichosphaeridium* (combination not validly published). **Taxonomic senior synonym:** *Baltisphaeridium* (now *Multiplicisphaeridium*) *cladum* Downie, 1963, an acritarch species, according to Colbath (1979, p.20–21). Age: Devonian (middle Siegenian–Emsian).

"*pumile*" (Wetzel, 1933b, p.44, pl.4, fig.24 ex Deflandre, 1937b, p.78) Downie and Sarjeant, 1965, p.133. Holotype: Wetzel, 1933b, pl.4, fig.24. **NOW** *Diacrocanthidium?* *pumile* (Appendix A). Originally *Hystrichosphaera longispinosa* forma *pumilis* (name not validly published), subsequently *Hystrichosphaeridium pumile*, thirdly *Baltisphaeridium pumile* (combination not validly published, Appendix A), fourthly *Micrhystridium pumile*, fifthly (and now) *Diacrocanthidium?* *pumile* (Appendix A). Age: Late Cretaceous (erratic).

?*seminudum* (Wetzel, 1952, p.405; text-fig.26) Sarjeant and Stancliffe, 1994, p.18. Holotype: Wetzel, 1952; text-fig.26. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Solisphaeridium* (Appendix A), fourthly (and now) *Micrhystridium*. Questionable assignment: Sarjeant and Stancliffe (1994, p.18). Age: Danian.

"*singulare*" Firtion, 1952, p.160, pl.8, figs.1–2. Holotype: Firtion, 1952, pl.8, figs.1–2. **NOW** *Raphidodinium*?. Originally *Micrhystridium*, subsequently *Veryhachium* (Appendix A), thirdly (and now) *Raphidodinium*?. Taxonomic junior synonym: *Baltisphaeridium crameri* Singh, 1971, an acritarch species, according to Burger (1980a, p.91). Age: early Cenomanian.

stimuliferum (Deflandre, 1939a, p.192, pl.10, fig.10) Sarjeant and Stancliffe, 1994, p.18. Holotype: Deflandre, 1939a, pl.10, fig.10. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Solisphaeridium* (Appendix A), fourthly *Filisphaeridium* (combination not validly published, Appendix A), fifthly (and now) *Micrhystridium*. This combination was not validly published in Cramer and Diez (1979, p.52) since these authors did not fully reference the basionym. Age: Late Jurassic.

?subsp. *complanatum* (Wetzel, 1952, p.404–405, pl.A, figs.11a–b) Sarjeant and Stancliffe, 1994, p.18. Emendation: Sarjeant, 1984c, p.142, as *Solisphaeridium stimuliferum* subsp. *complanatum* (Appendix A). Holotype: Wetzel, 1952, pl.A, figs.11a–b; Sarjeant, 1984c, pl.4, fig.6; text-fig.13. Originally *Hystrichosphaeridium oligacanthum* subsp. *complanatum*, subsequently *Baltisphaeridium oligacanthum* subsp. *complanatum* (Appendix A), thirdly *Cleistosphaeridium?* *oligacanthum* subsp. *complanatum*, fourthly *Solisphaeridium stimuliferum* subsp. *complanatum*, fifthly (and now) *Micrhystridium stimuliferum?* subsp. *complanatum*. Questionable assignment: Sarjeant and Stancliffe (1994, p.18). Age: Paleocene.

subsp. *stimuliferum*. Autonym. Holotype: Deflandre, 1939a, pl.10, fig.10. Originally *Solisphaeridium stimuliferum* subsp. *stimuliferum*, subsequently *Micrhystridium stimuliferum* subsp. *stimuliferum*.

"*suemegense*" Góczán, 1962, p.192, pl.2, figs.12–14. Holotype: Góczán, 1962, pl.2, figs.12–14. **NOW** *Chlamydophorella*?. Originally *Micrhystridium*, subsequently (and now) *Chlamydophorella*?. Age: early Aptian.

"*trispinosum*" (Eisenack, 1938a, p.14,16, text-figs.2–3) Eisenack et al., 1979, p.499. Emendation: Stancliffe and Sarjeant, 1994, p.233, as *Veryhachium trispinosum*. Holotype: Eisenack, 1938a, text-fig.2, lost according to Eisenack et al. (1979, p.499). Neotype: Deunff, 1980, pl.1, fig.7, designated by Stancliffe and Sarjeant (1994,

p.233). **Combination not validly published**: the combination was not intended. **NOW** *Veryhachium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently (and now) *Veryhachium* (Appendix A), thirdly *Baltisphaeridium* (Appendix A), fourthly *Micrhystridium* (combination not validly published). Taxonomic junior synonyms: *Veryhachium cucruse* Timofeev, 1962, an acritarch species, according to Martin (1969, p.106) and *Veryhachium arctatum* Deunff, 1981, *Veryhachium concavum* Piskun, 1974a, *Veryhachium edenense* Colbath, 1979, *Veryhachium microgranuliferum* Piskun, 1974a and *Hystrichosphaeridium* (subsequently *Veryhachium*) *trisulcum*, all acritarch species, and all according to Stancliffe and Sarjeant (1994, p.233). Age: Silurian (erratic).

"*tubulatum*" Menéndez, 1965, p.13, pl.2, fig.7; pl.3, fig.17. Holotype: Menéndez, 1965, pl.2, fig.7. **NOW** *Oligosphaeridium*?. Originally *Micrhystridium*, subsequently (and now) *Oligosphaeridium*?. Age: Oligocene.

"*uncinatum*" (Downie, 1958, p.337; text-fig.2a) Cramer, 1970, p.107. Holotype: Downie, 1958, text-fig.2a. **NOW** *Stellechinatum uncinatum* (Appendix A). Originally *Hystrichosphaeridium longispinosum* var. *uncinatum*, subsequently *Baltisphaeridium longispinosum* var. *uncinatum* (Appendix A), thirdly *Baltisphaeridium uncinatum* (Appendix A), fourthly *Micrhystridium uncinatum*, fifthly *Goniosphaeridium uncinatum* (Appendix A), sixthly *Polygonium uncinatum* (Appendix A), seventhly *Goniosphaeridium polygonale* subsp. *uncinatum* (combination not validly published, Appendix A), eighthly (and now) *Stellechinatum uncinatum* (Appendix A). Taxonomic junior synonym: *Goniosphaeridium regulare* Yin Leiming in Chen Junyuan et al., 1985, an acritarch species, according to Yin Leiming (1986, p.347). Age: Early Ordovician.

"*veligerum*" Deflandre, 1937b, p.81, pl.12 (al. pl.9), fig.9. Emendations: Lejeune-Carpentier, 1943, B24–B25, as *Ceratocorys veligera*; Lejeune-Carpentier and Sarjeant, 1983, p.5–6, as *Rhiptocorys veligera*. Holotype: Deflandre, 1937b, pl.12 (al. pl.9), fig.9; Fensome et al., 1995, fig.1 — p.1885. **NOW** *Rhiptocorys*. Originally *Micrhystridium*, subsequently *Ceratocorys* (Appendix B), thirdly *Microdinium*, fourthly *Microdinium*?, fifthly (and now) *Rhiptocorys*, sixthly *Phanerodinium*, seventhly *Phanerodinium*?. Taxonomic junior synonyms: *Microdinium irregulare* and *Ceratocorys* (as *Microdinium*; now *Rhiptocorys*) *smolenskiensis*, both according to Below (1987b, p.56) — however, Lentin and Vozzhennikova (1990, p.112) retained *Ceratocorys* (as *Rhiptocorys*) *smolenskiensis*. Age: Senonian.

MIRIFICYSTA Yu Jingxian, 1982, p.237–238. Acritarch genus. Type: Yu Jingxian, 1982, pl.1, fig.20, as *Mirificysta lineata*.

**lineata* Yu Jingxian, 1982, p.238, pl.1, fig.20; text-fig.3. Holotype: Yu Jingxian, 1982, pl.1, fig.20. Age: Late Jurassic–Early Cretaceous.

MULTIPLICISPHAERIDIUM Staplin, 1961, p.410. Emendations: Staplin et al., 1965, p.180; Eisenack, 1969a, p.258; Lister, 1970, p.83–86; Turner, 1984, p.120; Eiserhardt, 1992, p.49; Sarjeant and Vavrdova, 1997, p.2–3. Acritarch genus. For synonymy see Fensome et al. (1990, p.338–339). Type: Staplin, 1961, pl.48, fig.24, as *Multiplicisphaeridium ramispinosum*.

"*borracherosum*" (Cramer, 1964, p.289, pl.1, fig.11; text-fig.16, no.6) Eisenack et al., 1973, p.543–544. Holotype: Cramer, 1964, pl.1, fig.11. **NOW** *Petaloferidium* (Appendix A). Originally *Baltisphaeridium* (Appendix A), subsequently *Multiplicisphaeridium*, thirdly *Hystrichosphaeridium* (combination not validly published), fourthly (and now) *Petaloferidium* (Appendix A). This combination was not validly published in Lister (1970, p.84) since that author did not clearly use the name *Multiplicisphaeridium borracherosum*. Age: Silurian (Ludlow).

"*brevifurcatum*" (Eisenack, 1954a, p.207–208, pl.1, fig.2; text-fig.2) Eisenack et al., 1973, p.547–548. Holotype: Eisenack, 1954a, pl.1, fig.2. **NOW** *Visbysphaera* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly (and now) *Visbysphaera* (Appendix A), fourthly *Multiplicisphaeridium*. Age: Silurian (late Llandovery).

coniferum (Sannemann, 1955, p.327, pl.4, fig.2; text-figs.4a–b) Eisenack et al., 1973, p.567. Holotype: Sannemann, 1955, pl.4, fig.2. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly (and now)

Multiplicisphaeridium. Sarjeant and Vavrdova (1997, p.6) considered this species to represent muellerisphaerids. Age: Devonian (late Givetian).

consonum (Sannemann, 1955, p.332, pl.5, fig.7) Eisenack et al., 1973, p.569–570. Holotype: Sannemann, 1955, pl.5, fig.7. Originally *Hystrichosphaeridium trifurcatum* subsp. *consonum*, subsequently *Baltisphaeridium trifurcatum* subsp. *consonum* (Appendix A), thirdly (and now) *Multiplicisphaeridium consonum*. Sarjeant and Vavrdova (1997, p.6) considered this species to represent muellerisphaerids. Age: Devonian (late Givetian).

?cruciatum (Wetzel, 1933b, p.94–95, pl.4, fig.30 ex Lejeune-Carpentier, 1940, p.B222) Stancliffe and Sarjeant, 1994, p.235. Emendation: Lejeune-Carpentier and Sarjeant, 1981, p.22–23, as *Veryhachium cruciatum*. Holotype: Wetzel, 1933b, pl.4, fig.30. Originally *Hystrichosphaera* (name not validly published), subsequently *Hystrichosphaeridium*, thirdly *Hystrichosphaeridium?*, fourthly *Veryhachium* (Appendix A), fifthly (and now) *Multiplicisphaeridium?*. Questionable assignment: Stancliffe and Sarjeant (1994, p.235). The name *Hystrichosphaera cruciata* was not validly published in Wetzel (1933b) since the generic name *Hystrichosphaera* was not validly published until 1937. Age: Late Cretaceous.

"digitatum" (Eisenack, 1938a, p.20–22, pl.4, figs.3–5; text-fig.7) Eisenack, 1969a, p.259. Holotype: Eisenack, 1938a, pl.4, fig.3, lost according to Eisenack (1959, p.200). Neotype: Eisenack, 1959, pl.16, fig.11, designated by Eisenack (1959, p.200). **NOW** *Hoegklintia* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Multiplicisphaeridium*, fourthly (and now) *Hoegklintia* (Appendix A). Age: Ordovician (erratic).

eisenackii (Sannemann, 1955, p.327–328, pl.4, figs.10–12; text-figs.8a–d) Eisenack et al., 1973, p.615. Holotype: Sannemann, 1955, pl.4, fig.10. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly (and now) *Multiplicisphaeridium*. Sarjeant and Vavrdova (1997, p.6) considered this species to represent muellerisphaerids. Age: Devonian (late Givetian).

"eoplanktonicum" (Eisenack, 1955, p.178–179, pl.4, fig.14) Lister, 1970, p.89. Holotype: Eisenack, 1955, pl.4, fig.14. **NOW** *Oppilatala* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Multiplicisphaeridium*, fourthly (and now) *Oppilatala* (Appendix A). Taxonomic junior synonym: *Multiplicisphaeridium septispinosum* Lister, 1970, an acritarch species, according to Eisenack et al. (1973, p.617). Age: late Ludlow.

"erraticum" (Eisenack 1954a, p.209, pl.1, figs.6–7; text-fig.7) Eisenack et al., 1973, p.621–622. Holotype: Eisenack, 1954a, pl.1, fig.6. **NOW** *Visbysphaera* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly (and now) *Visbysphaera* (Appendix A), fourthly *Multiplicisphaeridium*. Age: Silurian (late Ludlow).

"gotlandicum" (Eisenack, 1954a, p.209, pl.1, fig.5; text-fig.6) Eisenack et al., 1973, p.651–652. Holotype: Eisenack, 1954a, pl.1, fig.5. **NOW** *Visbysphaera* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Multiplicisphaeridium*, fourthly (and now) *Visbysphaera* (Appendix A). Taxonomic junior synonym: *Baltisphaeridium peltatum* Cramer, 1966, an acritarch species, according to Cramer (1970, p.157). Age: Silurian (late Llandovery).

integrum (Sannemann, 1955, p.329, pl.5, fig.12; text-fig.12) Eisenack et al., 1973, p.661. Holotype: Sannemann, 1955, pl.5, fig.12. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly (and now) *Multiplicisphaeridium*. Sarjeant and Vavrdova (1997, p.6) considered this species to represent muellerisphaerids. Age: Devonian (late Givetian).

"lewisii" (Deunff, 1954a, p.240, fig.3) Elaouad-Debbaj, 1981, p.45. Holotype: Deunff, 1954a, fig.3. **NOW** *Gorgonisphaeridium?* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Ammonidium* (combination not validly published, Appendix A), fourthly *Multiplicisphaeridium*, fifthly (and now) *Gorgonisphaeridium?* (Appendix A). Age: Middle Devonian.

"malum" (Cramer, 1964, p.297, pl.1, figs.6,8,10; text-fig.19, nos.10–12) Eisenack et al., 1973, p.677–678. Holotype: Cramer, 1964, pl.1, fig.8. **NOW** *Rhacobrachion* (Appendix A). Originally *Baltisphaeridium* (Appendix

A), subsequently *Evittia* Brito (Appendix A), thirdly *Hystrichosphaeridium* (combination not validly published), fourthly *Multiplicisphaeridium*, fifthly (and now) *Rhacobranchion* (Appendix A). Age: Silurian (Ludlow).

"**meson**" (Eisenack, 1955, p.179) Eisenack et al., 1973, p.681–682. Holotype: Eisenack, 1954a, pl.1, fig.3. **NOW** *Visbysphaera mesa* (Appendix A). Originally *Hystrichosphaeridium intermedium* (name illegitimate), subsequently *Hystrichosphaeridium meson*, thirdly *Baltisphaeridium meson* (Appendix A), fourthly (and now) *Visbysphaera mesa* (Appendix A), fifthly *Multiplicisphaeridium meson*. *Hystrichosphaeridium meson* is the substitute name for *Hystrichosphaeridium intermedium* Eisenack, 1954a, p.208, pl.1, figs.3,9; text-figs.3–4 (an illegitimate name). Taxonomic junior synonym: *Baltisphaeridium* (subsequently *Multiplicisphaeridium micropilare*) Cramer, 1970, an acritarch species, according to Ye Xiaorong (1984, p.42). Age: Silurian (late Llandovery–late Ludlow).

"**?mutabile**" (Sannemann, 1955, p.331, pl.5, figs.5–6; text-figs.17a–d) Eisenack et al., 1973, p.699–700. Holotype: Sannemann, 1955, pl.5, fig.5. **NOW** *Aldridgeisphaera* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Multiplicisphaeridium?*, fourthly (and now) *Aldridgeisphaera* (Appendix A). Questionable assignment: Eisenack et al. (1973, p.699). Age: Devonian (late Givetian).

"**oligofurcatum**" (Eisenack, 1954a, p.208–209, pl.1, fig.4; text-fig.5) Eisenack et al., 1973, p.703–704. Holotype: Eisenack, 1954a, pl.1, fig.4; text-fig.5. **NOW** *Visbysphaera* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly (and now) *Visbysphaera* (Appendix A), fourthly *Multiplicisphaeridium*. Age: Silurian (late Llandovery).

"**picoricum**" (Cramer, 1964, p.303–304, pl.11, figs.1–3; text-fig.24) Lister, 1970, p.92. Holotype: Cramer, 1964, pl.11, fig.2. Originally *Micrhystridium* (Appendix A), subsequently *Multiplicisphaeridium*, thirdly *Hystrichosphaeridium* (combination not validly published). **Taxonomic senior synonym:** *Baltisphaeridium* (now *Multiplicisphaeridium*) *cladum* Downie, 1963, an acritarch species, according to Colbath (1979, p.20). Age: Devonian (middle Siegenian–Emsian).

"**piriferum**" (Eisenack, 1954a, p.206–207, pl.1, figs.1a–b; text-fig.1) Eisenack et al., 1973, p.737–739. Holotype: Eisenack, 1954a, pl.1, figs.1a–b. **NOW** *Visbysphaera* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Multiplicisphaeridium*, fourthly (and now) *Visbysphaera* (Appendix A). Taxonomic junior synonyms: *Baltisphaeridium hermosum* Cramer and Diez, 1968 (name not validly published), an acritarch species, according to Cramer (1970, p.148); *Baltisphaeridium* (now *Visbysphaera*) *dilatipinosum*, according to Eisenack (1965c, p.263) — however, Fensome et al. (1990, p.530) retained *Baltisphaeridium* (now *Visbysphaera*) *dilatipinosum*. Age: Silurian (late Llandovery).

"**procerum**" (Sannemann, 1955, p.332, pl.5, fig.8; text-fig.18) Eisenack et al., 1973, p.743–744. Holotype: Sannemann, 1955, pl.5, fig.8. Originally *Hystrichosphaeridium trifurcatum* subsp. *procerum*, subsequently *Baltisphaeridium trifurcatum* subsp. *procerum* (Appendix A), thirdly (and now) *Multiplicisphaeridium procerum*. Sarjeant and Vavrdova (1997, p.6) considered this species to represent muellerisphaerids. Age: Devonian (late Givetian).

"**ramusculosum**" (Deflandre, 1945a, p.63, pl.1, figs.8–16; text-figs.38–39) Lister, 1970, p.92. Emendation: Lister, 1970, p.92–93, as *Multiplicisphaeridium ramusculosum*. Holotype: Deflandre, 1945a, pl.1, figs.8–10. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Evittia* Brito (combination not validly published, Appendix A), fourthly (and now) *Multiplicisphaeridium*, fifthly *Peteinosphaeridium* (combination not validly published, Appendix A), sixthly *Oppilatala* (Appendix A). Sarjeant and Vavrdova (1997, p.6) retained this species in *Multiplicisphaeridium*. Age: Silurian.

var. **macrocladum** (Deunff, 1955, p.146, text-fig.21) Williams et al., 1998, p.698. Holotype: Deunff, 1955, text-fig.21. Originally *Hystrichosphaeridium ramusculosum* var. *macrocladum*, subsequently *Baltisphaeridium ramusculosum* var. *macrocladum*, thirdly *Multiplicisphaeridium ramusculosum* var. *macrocladum* (combination not validly published), fourthly *Oppilatala ramusculosum* var. *macrocladum*, fifthly (and now) *Multiplicisphaeridium ramusculosum* var. *macrocladum*. This combination was not validly published in Eisenack et al. (1973, p.759), since those authors did not specify the taxonomic rank. Age: Middle Devonian.

var. **ramusculosum**. Autonym. Holotype: Deflandre, 1945a, pl.1, figs.8–10. Originally *Hystrichosphaeridium ramusculosum* var. *ramusculosum*, subsequently *Baltisphaeridium ramusculosum* var. *ramusculosum* (Appendix A), thirdly *Oppilatala ramusculosa* var. *ramusculosa*, fourthly (and now) *Multiplicisphaeridium ramusculosum* subsp. *ramusculosum*.

"**robustum**" (Sannemann, 1955, p.331, pl.1, figs.6,8–9; pl.6, figs.7–9; text-figs.13,14a–c) Eisenack et al., 1973, p.779. Holotype: Sannemann, 1955, pl.6, fig.7. **NOW** *Aldridgeisphaera?* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (combination illegitimate, Appendix A), thirdly *Multiplicisphaeridium*, fourthly (and now) *Aldridgeisphaera?* (Appendix A). Age: Devonian (late Givetian).

"subsp. **fissum**" (Sannemann, 1955, p.331, pl.6, fig.9; text-figs.14a–c) Fensome et al., 1990, p.355. Holotype: Sannemann, 1955, pl.6, fig.9. **NOW** *Aldridgeisphaera? robusta* subsp. *fissa* (Appendix A). Originally *Hystrichosphaeridium robustum* subsp. *fissum*, subsequently *Baltisphaeridium robustum* subsp. *fissum* (combination illegitimate, Appendix A), thirdly *Multiplicisphaeridium robustum* subsp. *fissum*, fourthly (and now) *Aldridgeisphaera? robusta* subsp. *fissa* (Appendix A). This combination was not validly published in Eisenack et al. (1973, p.781) since these authors did not clearly indicate the taxonomic rank. Age: Devonian (late Givetian).

"subsp. **robustum**". Autonym. Holotype: Sannemann, 1955, pl.6, fig.7. **NOW** *Aldridgeisphaera? robusta* subsp. *robusta* (Appendix A). Originally *Hystrichosphaeridium robustum* subsp. *robustum*, subsequently *Multiplicisphaeridium robustum* subsp. *robustum*, thirdly (and now) *Aldridgeisphaera? robusta* subsp. *robusta* (Appendix A).

"**spiciferum**" (Deunff, 1955, p.146, pl.3, fig.1; text-fig.26) Eisenack et al., 1973, p.801. Holotype: Deunff, 1955, pl.3, fig.1. **NOW** *Stellechinatum* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Veryhachium* (combination not validly published, Appendix A), thirdly *Baltisphaeridium* (Appendix A), fourthly *Evittia Brito* (combination not validly published, Appendix A), fifthly *Multiplicisphaeridium*, sixthly (and now) *Stellechinatum* (Appendix A). Age: Middle Devonian.

"**toyetae**" (Cramer, 1964, p.302, pl.1, figs.14–15; text-fig.22, nos.7–7a) Eisenack et al., 1973, p.815–816. Holotype: Cramer, 1964, pl.1, fig.15. **NOW** *Florisphaeridium* (Appendix A). Originally *Baltisphaeridium* (Appendix A), subsequently *Multiplicisphaeridium?*, thirdly *Hystrichosphaeridium*, fourthly (and now) *Florisphaeridium* (Appendix A). Questionable assignment: Eisenack et al. (1973, p.815). Age: Devonian (middle Siegenian–Emsian).

"**venustum**" (Sannemann, 1955, p.345, pl.5, fig.11; text-fig.15) Eisenack et al., 1973, p.827. Holotype: Sannemann, 1955, pl.5, fig.11. **NOW** *Hapsidopalla* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Multiplicisphaeridium*, fourthly (and now) *Hapsidopalla* (Appendix A). Sarjeant and Vavrdova (1997, p.6) postulated that this species may be a muellerisphaerid. Age: Devonian (late Givetian).

"**vestitum**" (Deflandre, 1939a, p.189–190, pl.11, figs.4–6) Pocock, 1972, p.116. Emendation: Sarjeant, 1960b, p.397, as *Baltisphaeridium vestitum*. Holotype: Deflandre, 1939a, pl.11, fig.5; Fauconnier and Masure, 2004, pl.74, figs.11–12. **NOW** *Surculosphaeridium?*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Surculosphaeridium*, fourthly (and now) *Surculosphaeridium?*, fifthly *Multiplicisphaeridium?*, sixthly *Systematophora*. Questionable assignment: Pocock (1972, p.116). Taxonomic junior synonym: *Polystephanosphaera valensii*, according to Courtinat (1989, p.173) — however, Stancliffe and Sarjeant (1990, p.209) retained *Polystephanosphaera* (as and now *Systematophora*) *valensii*. Age: Jurassic (Oxfordian).

NANNOBARBOPHORA Habib and Knapp, 1982, p.347. Emendation: Head, 2003b, p.383. Acritarch genus. Taxonomic junior synonym: *Svenkodinium*, according to Head (2003b, p.383). Type: Habib and Knapp, 1982, pl.4, figs.5–6, as *Nannobarbophora barbata*.

gedlii Head, 2003b, p.383,385, fig.2, nos.1–10. Holotype: Head, 2003b, fig.2, nos.1–4. Taxonomic junior synonyms: *Svenkodium versteeghii* (name not validly published) and *Svenkodium minimum* (name not validly published), both according to Head (2003b, p.383). Age: late early-middle Miocene.

walldalei Head, 1996a, p.565,567, fig.17. Holotype: Head, 1996a, fig.17. Taxonomic junior synonym: *Impletosphaeridium acropora*, according to Head and Westphal (1999, p.20). Age: early Pliocene–early Pleistocene.

NANNOCERATOPSIELLA Tasch, 1963, p.333. This genus is based on a mineral grain, according to Stover and Evitt (1978, p.265,295). Type: Tasch, 1963, pl.1, figs.4–6, as *Nannoceratopsiella permiana*.

**permiana* Tasch, 1963, p.333, pl.1, figs.4–6. Holotype: Tasch, 1963, pl.1, figs.4–6. This taxon is based on a mineral grain according to Stover and Evitt (1978, p.265). Age: Early Permian.

wellingtoniana (Tasch, 1963, p.336, pl.1, fig.9) Lentin and Williams, 1976, p.45. Holotype: Tasch, 1963, pl.1, fig.9. Originally *Deflandrea?*, subsequently (and now) *Nannoceratopsiella*. This taxon is based on a mineral grain, according to Stover and Evitt (1978, p.265). Age: Early Permian.

"**NEOFENTONIA**" Özdikmen, 2009, p.234. Acritarch genus. **Name illegitimate — nomenclatural senior synonym:** *Fentonia* (Appendix A), which has the same type. **Taxonomic senior synonym:** *Limbicysta* (Appendix A), which is now considered to be the senior synonym of *Fentonia*. Özdikmen (2009, p.234) considered *Fentonia* Bailey and Hogg, 1995 to be illegitimate because it is a junior homonym of *Fentonia* Butler, 1881; however, *Fentonia* Butler, 1881 is an animal and under the I.C.N. it does not pre-empt *Fentonia* Bailey and Hogg. In proposing *Neofentonia*, in the header for the relevant section Özdikmen (2009) misspelled the generic name as "*Noefentonia*", clearly intending it to be *Neofentonia*. Type: Smelror, 1987, fig.4G, as *Parvocysta bjaerkei*.

"**bjaerkei*" (Smelror, 1987, p.227,230, figs.4G,8C–D; text-fig.9) Özdikmen, 2009, p.235. Emendation: Bailey and Hogg, 1995, p.58, as *Fentonia bjaerkei*. Holotype: Smelror, 1987, fig.4G. **NOW** *Limbicysta* (Appendix A). Originally *Parvocysta*, subsequently *Fentonia* (Appendix A), thirdly (and now) *Limbicysta* (Appendix A), fourthly *Neofentonia* (generic name illegitimate; Appendix A). Although Özdikmen (2009) did not fully reference the basionym when proposing the transfer of this species to *Neofentonia*, he did so under the aegis of the I.C.Z.N., so the combination can be considered validly published. Age: late Callovian.

NUMMUS Morgan, 1975, p.163. Acritarch genus. Type: Morgan, 1975, pl.3, figs.1a–d, as *Nummus monoculatus*.

"*ambitomegasimilis*" Morgan in Riding and Helby, 2001d, p.102. **Name not validly published:** no description. **Taxonomic senior synonym:** *Nummus apiculus*, according to Riding and Helby (2001d, p.102).

apiculus Riding and Helby, 2001d, p.102,103, figs.21A–P. Holotype: Riding and Helby, 2001d, fig.21K. Taxonomic junior synonym: *Nummus ambitomegasimilis* (name not validly published), according to Riding and Helby (2001d, p. 102). N.I.A. Age: latest Bathonian–Callovian.

mallajoharensis Jain and Garg in Jain et al., 1984, p.72, pl.3, figs.59–61. Holotype: Jain et al., 1984, pl.3, fig.60. Age: Kimmeridgian–early Tithonian.

"*minisimilis*" Morgan in Riding and Helby, 2001g, p.214. **Name not validly published:** no description. **Taxonomic senior synonym:** *Nummus tithonicus*, according to Riding and Helby (2001g, p.214).

**monoculatus* Morgan, 1975, p.163, pl.3, figs.1a–d,4a–c. Holotype: Morgan, 1975, pl.3, figs.1a–d; Helby et al., 1987, fig.28I. Age: late Neocomian–Aptian.

parvus Backhouse, 1988, p.112, pl.43, figs.13–14,15a–b,16; text-fig.33C. Holotype: Backhouse, 1988, pl.43, fig.14; text-fig.33C. Age: late Valanginian–?early Aptian.

pentagonus Backhouse, 1988, p.112, pl.44, figs.1–4,5a–b,6–7; text-fig.33E. Holotype: Backhouse, 1988, pl.44, figs.5a–b; text-fig.33E. Age: Barremian–?early Aptian.

similis (Cookson and Eisenack, 1960b, p.254, pl.38, fig.14) Burger, 1980b, p.275. Holotype: Cookson and Eisenack, 1960b, pl.38, fig.14. Originally *Leiosphaeridia* (Appendix A), subsequently (and now) *Nummus*. Age: Tithonian.

tithonicus Riding and Helby, 2001g, p.214, figs.18A–P. Holotype: Riding and Helby, 2001g, fig.18E. Taxonomic junior synonym: *Nummus minisimilis* (name not validly published), according to Riding and Helby (2001g, p.214). Age: Oxfordian–Berriasian.

OLLULA Góczán, 1962, p.194,200. Acritarch genus. Góczán (1962) originally considered this genus to be incertae sedis. The generic name *Ollula* and its "type species", *Ollula ollula*, were described under the I.C.Z.N. Thus, the generic name was available (i.e. validly published) as of 1962. However, under the I.C.N., the original name of the "type species" is an inadmissible tautonym and was replaced with *Ollula goczanii* by Loeblich Jr. and Loeblich III (1966, p.442). Type: Góczán, 1962, pl.3, figs.11–16, as *Ollula ollula*.

***goczanii** Loeblich Jr. and Loeblich III, 1966, p.442. Holotype: Góczán, 1962, pl.3, figs.11–16. Originally *Ollula ollula* (name inadmissible; Appendix A), subsequently (and now) *Ollula goczanii*. Substitute name for *Ollula ollula* Góczán, 1962, p.195,201, pl.3, figs.11–16 (an inadmissible name). Age: Cretaceous.

"**ollula**" Góczán, 1962, p.195,201; pl.3, figs.11–16. Holotype: Góczán, 1962, pl.3, figs.11–16. **Substitute name:** *Ollula goczanii*; the name *Ollula ollula*, since it is a tautonym, is inadmissible under the I.C.N. Originally *Ollula ollula* (name inadmissible), subsequently (and now) *Ollula goczanii*. The name of this species was originally established under the I.C.Z.N., according to which it is an available (i.e. validly published) name. However, under I.C.N. Article 23.4, the epithet is an invalid tautonym. Hence, Loeblich Jr. and Loeblich III (1966, p.42) erected the new name, *Ollula goczanii*, for this species. Age: Late Cretaceous.

OPPILATALA Loeblich Jr. and Wicander, 1976, p.19. Acritarch genus. Type: Loeblich Jr. and Wicander, 1976, pl.6, fig.13, as *Oppilatala vulgaris*.

eoplanktonica (Eisenack, 1955, p.178–179, pl.4, fig.14) Dorning, 1981, p.196. Holotype: Eisenack, 1955, pl.4, fig.14. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Multiplicisphaeridium* (Appendix A), fourthly (and now) *Oppilatala*. Taxonomic junior synonym: *Multiplicisphaeridium septispinosum* Lister, 1970, an acritarch species, according to Eisenack et al. (1973, p.617). Age: Silurian (late Ludlow).

"**ramusculosa**" (Deflandre, 1945a, p.63, pl.1, figs.8–16; text-figs.38–39) Dorning, 1981, p.196. Emendation: Lister, 1970, p.92–93, as *Multiplicisphaeridium ramusculosum*. Holotype: Deflandre, 1945a, pl.1, figs.8–10. **NOW** *Multiplicisphaeridium*. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Evittia* Brito (combination not validly published, Appendix A), fourthly (and now) *Multiplicisphaeridium* (Appendix A), fifthly *Peteinosphaeridium* (combination not validly published, Appendix A), sixthly *Oppilatala*. Age: Silurian.

"var. **macroclada**" (Deunff, 1955, p.146; text-fig.21) Fensome et al., 1990, p.373. Holotype: Deunff, 1955, text-fig.21. **NOW** *Multiplicisphaeridium ramusculosum* var. *macrocladum*. Originally *Hystrichosphaeridium ramusculosum* var. *macrocladum*, subsequently *Baltisphaeridium ramusculosum* var. *macrocladum* (Appendix A), thirdly *Multiplicisphaeridium ramusculosum* var. *macrocladum* (combination not validly published, Appendix A), fourthly *Oppilatala ramusculosa* var. *macroclada*, fifthly (and now) *Multiplicisphaeridium ramusculosum* var. *macrocladum*. Age: Middle Devonian.

"var. **ramusculosa**". Autonym. Holotype: Deflandre, 1945a, pl.1, figs.8–10. **NOW** *Multiplicisphaeridium ramusculosum* subsp. *ramusculosum*. Originally *Hystrichosphaeridium ramusculosum* var. *ramusculosum*, subsequently *Baltisphaeridium ramusculosum* var. *ramusculosum* (Appendix A), thirdly *Oppilatala*

ramusculosa var. *ramusculosa*, fourthly (and now) *Multiplicisphaeridium ramusculosum* subsp. *ramusculosum*.

OVOIDITES Potonié, 1951, p.151 ex Krutzsch, 1959, p.249–250. Zygnemataceous zygosporic genus. Type: Potonié, 1951, pl.21, fig.185, as *Ovoidites ligneolus*.

"**fragile**" Harris, 1965, p.97, pl.27, figs.4–5. Holotype: Harris, 1965, pl.27, fig.5. **NOW** *Cassidium*. Originally *Ovoidites*, subsequently (and now) *Cassidium*. Age: early Eocene.

"**OVUM**" Eisenack, 1931, p.110. **Name not validly published**: it coincides with a morphological term and is thus contrary to I.C.N. Article 20.2. "Ovum" is Latin for egg. According to Fensome et al. (1990, p.379): "In giving the heading '*Ova hispida* Lohm.', Eisenack (1931) was clearly referring to the inadmissible two-word, unhyphenated generic name *Ovum hispidum* ... apparently proposed by Lohmann (1904). However, by giving citations such as '*Ovum hispidum longispinosum* n. subsp.' it is clear that Eisenack (1931) considered *Ovum* to be a generic name and *Ovum hispidum* (plural: *Ova hispida*) to be a specific name. *Ovum hispidum* can thus be considered the single (and type) species assigned to *Ovum* by Eisenack (1931), a description being provided on his p.110. "Type species": *Ovum hispidum* Eisenack, 1931 (an invalid name)." Type: not designated.

"***hispidum**" Eisenack, 1931, p.110, pl.4, figs.16–23; pl.5, figs.3–24. Holotype: not designated. **Name not validly published**: generic name not validly published. See the discussion under the generic entry for *Ovum*. Age: Silurian.

"subsp. **bohemicum**" Eisenack, 1934, p.70–71, pl.5, fig.31. Holotype: Eisenack, 1934, pl.5, fig.31. **Name not validly published**: specific name is not validly published. **NOW** *Baltisphaeridium bohemicum* (Appendix A). Originally *Ovum hispidum* subsp. *bohemicum* (name not validly published), subsequently *Hystrichosphaeridium bohemicum*, thirdly (and now) *Baltisphaeridium bohemicum* (Appendix A). Age: Silurian.

"subsp. **brevispinosum**" Eisenack, 1931, p.111, pl.5, figs.3–5. Holotype: Eisenack, 1931, pl.5, fig.3, lost according to Eisenack (1959, p.197). Neotype: Eisenack, 1959, pl.15, fig.13, designated by Eisenack (1959, p.197); lost according to Ribecai and Tongiorgi (1999, p.124). New Neotype: Eisenack, 1959, pl.15, fig.16, designated by Ribecai and Tongiorgi (1999, p.124). **Name not validly published**: specific name not validly published. **NOW** *Pachysphaeridium brevispinosum* (Appendix A). Originally *Ovum hispidum* subsp. *brevispinosum* (name not validly published), subsequently *Hystrichosphaeridium brevispinosum*, thirdly *Baltisphaeridium brevispinosum* (Appendix A), fourthly *Buedingiisphaeridium brevispinosum* (combination not validly published, Appendix A), fifthly (and now) *Pachysphaeridium brevispinosum* (Appendix A). Age: Silurian.

"subsp. **bulbosum**" (Ehrenberg, 1837b, pl.1, fig.17) Downie and Sarjeant, 1965, p.174. Emendation: Morgenroth, 1968, p.546–547, as *Hystrichokolpoma bulbosum*. Holotype: Ehrenberg, 1837b, pl.1, fig.17. Neotype: Morgenroth, 1968, pl.44, fig.6, designated by Morgenroth (1968, p.546). **Combination not validly published**: specific name not validly published and combination not intended. **NOW** *Hystrichokolpoma bulbosum*. Originally *Xanthidium bulbosum* (Appendix A), subsequently *Hystrichosphaera bulbosa* (combination not validly published), thirdly *Hystrichosphaeridium bulbosum*, fourthly *Ovum hispidum bulbosum* (combination not validly published), fifthly (and now) *Hystrichokolpoma bulbosum*, sixthly *Baltisphaeridium bulbosum* (combination not validly published, Appendix A). Taxonomic senior synonym: *Xanthidium* (as *Hystrichosphaeridium*) *tubiferum*, according to Stover and Evitt (1978, p.55) — however, Lentin and Williams (1981, p.134) retained *Xanthidium* (as *Hystrichokolpoma*) *bulbosum*. Downie and Sarjeant (1965, p.174) gave the citation "*O. [Ovum] hispidum bulbosum* (Ehrenberg, 1838a [1837b herein]) Lohmann, 1904, now *Hystrichosphaeridium*." However, we have not been able to locate the combination *Ovum hispidum* subsp. *bulbosum* in Lohmann (1904). Age: Danian.

"subsp. **castanea**" Eisenack, 1934, p.71, pl.5, fig.32. Holotype: Eisenack, 1934, pl.5, fig.32. **Name not validly published**: specific name not validly published. **NOW** *Baltisphaeridium castanea* (Appendix A).

Originally *Ovum hispidum* subsp. *castanea* (name not validly published), subsequently *Hystrichosphaeridium castanea*, thirdly (and now) *Baltisphaeridium castanea* (Appendix A). N.I.A. Age: Silurian.

"subsp. *furcatum*" (Ehrenberg, 1837b, pl.1, figs.12,14) Downie and Sarjeant, 1965, p.174. Holotype: not designated. **Combination not validly published**: specific name not validly published, basionym not fully referenced, and combination not intended. Originally *Xanthidium furcatum* (Appendix A), subsequently *Hystrichosphaera furcata*, thirdly *Ovum hispidum* subsp. *furcatum* (combination not validly published), fourthly *Spiniferites furcatus* (combination not validly published). **Taxonomic senior synonym**: *Xanthidium* (as *Hystrichosphaera*; now *Spiniferites*) *ramosum*, according to Davey and Williams (1966a, p.29–33). Taxonomic junior synonym: *Geodia? tripunctata* (Appendix A), according to Sarjeant (1964a, p.175). Downie and Sarjeant (1965, p.174) attributed this combination to Lohmann (1904); however, the combination apparently was not proposed in the latter publication. Age: Late Cretaceous.

"subsp. *hirsutum*" (Ehrenberg, 1837b, pl.1, figs.10,?13) Eisenack, 1931, p.111. **Name not validly published**: Ehrenberg (1837b) did not intend to introduce a new species and specific name not validly published. Originally *Xanthidium hirsutum* (name not validly published, Appendix A), subsequently *Ovum hispidum* subsp. *hirsutum* (name not validly published, Appendix A), thirdly *Hystrichosphaera hirsuta* (name not validly published), fourthly *Hystrichosphaeridium hirsutum* (name not validly published), fifthly *Baltisphaeridium hirsutum* (name not validly published, Appendix A), sixthly *Operculodinium hirsutum* (name not validly published), seventhly *Operculodinium? hirsutum* (name not validly published). See discussion under *Operculodinium? hirsutum*. Age: Late Cretaceous.

"subsp. *longispinosum*" Eisenack, 1931, p.110–111, pl.5, figs.6–17. Holotype: Eisenack, 1931, pl.5, fig.10, lost according to Eisenack (1959, p.194). Neotype: Eisenack, 1959, pl.15, fig.1, designated by Eisenack (1959, p.194). **Name not validly published**: specific name not validly published. **NOW** *Baltisphaeridium longispinosum* (Appendix A). Originally *Ovum hispidum* subsp. *longispinosum* (name not validly published), subsequently *Hystrichosphaera longispinosa* (name not validly published), thirdly *Hystrichosphaeridium longispinosum*, fourthly (and now) *Baltisphaeridium longispinosum* (Appendix A), fifthly *Micrhystridium longispinosum* (combination not validly published, Appendix A). Age: Ordovician (erratic).

"subsp. *multipilosum*" Eisenack, 1931, p.111, pl.5, figs.20–22. Holotype: Eisenack, 1931, pl.5, fig.22, lost according to Eisenack (1959, p.197). Neotype: Eisenack, 1959, pl.15, fig.11, designated by Eisenack (1959, p.197). **Name not validly published**: specific name not validly published. **NOW** *Baltisphaeridium multipilosum* (Appendix A). Originally *Ovum hispidum* subsp. *multipilosum* (name not validly published), subsequently *Hystrichosphaeridium multipilosum*, thirdly (and now) *Baltisphaeridium multipilosum* (Appendix A). Age: Silurian.

"subsp. *oligospinosum*" Eisenack, 1934, p.64–65, pl.4, figs.15–18. Holotype: Eisenack, 1934, pl.4, fig.18, lost according to Eisenack et al. (1973, p.494). **Name not validly published**: specific name not validly published. **NOW** *Estiastra? oligospinosa* (Appendix A). Originally *Ovum hispidum* subsp. *oligospinosum* (name not validly published), subsequently *Hystrichosphaeridium oligospinosum*, thirdly *Pulvinosphaeridium oligospinosum* (Appendix A), fourthly *Veryhachium oligospinosum* (Appendix A), fifthly *Goniosphaeridium oligospinosum* (Appendix A), sixthly (and now) *Estiastra? oligospinosa* (Appendix A). Age: Ordovician (early Caradoc).

"subsp. *penicillatum*" (Ehrenberg, 1843b, p.62 ex Ehrenberg, 1854, pl.37, section 8, fig.3) Downie and Sarjeant, 1965, p.174 Holotype: Ehrenberg, 1854, pl.37, section 8, fig.3. **Combination not validly published**: specific name not validly published, basionym not fully referenced, and combination not intended. **NOW** *Systematophora penicillata*. Originally *Xanthidium penicillatum* (Appendix A), subsequently *Hystrichosphaera penicillata* (combination not validly published), thirdly *Hystrichosphaeridium penicillatum*, fourthly *Ovum hispidum* subsp. *penicillatum* (combination not validly published), fifthly *Hystrichosphaeridium? penicillatum*, sixthly (and now) *Systematophora penicillata*. Taxonomic junior synonym: *Systematophora fasciculigera*, according to Sarjeant (1980a, p.282). Downie

and Sarjeant (1965, p.174) attributed this combination to Lohmann (1904); however, the combination apparently was not proposed in the latter publication. Age: late Oxfordian.

"subsp. *pilosum*" (Ehrenberg, 1854, pl.37, section 8, fig.4) Downie and Sarjeant, 1965, p.174. Emendation: Erkmén and Sarjeant, 1980, p.51, as *Sentusidinium pilosum*. Holotype: Ehrenberg, 1854, pl.37, section 8, fig.4. **Combination not validly published:** specific name not validly published, basionym not fully referenced, and combination not intended. **NOW** *Barbatacysta pilosa*. Originally *Xanthidium pilosum* (Appendix A), subsequently *Hystrichosphaera pilosa* (combination not validly published), thirdly *Hystrichosphaeridium? pilosum*, fourthly *Baltisphaeridium pilosum* (Appendix A), fifthly *Ovum hispidum* subsp. *pilosum* (combination not validly published), sixthly *Cleistosphaeridium pilosum* (combination not validly published), seventhly *Tenua pilosa*, eighthly *Sentusidinium pilosum*, ninthly *Batiacasphaera pilosa*, tenthly (and now) *Barbatacysta pilosa*. Downie and Sarjeant (1965, p.174) attributed this combination to Lohmann (1904); however, the combination apparently was not proposed in the latter publication. Age: Oxfordian.

"subsp. *polygonale*" Eisenack, 1931, p.113, pl.4, figs.16–20; pl.5, fig.18. Holotype: Eisenack, 1931, pl.4, fig.19, lost according to Eisenack (1959, p.199). Neotype: Paris and Deunff, 1970, pl.1, fig.4, as *Veryhachium splendens*, designated by Fensome et al. (1990, p.235), which see. **Name not validly published:** specific name not validly published. **NOW** *Polygonium polygonale* (Appendix A). Originally *Ovum hispidum* subsp. *polygonale* (name not validly published), subsequently *Hystrichosphaeridium polygonale*, thirdly *Baltisphaeridium polygonale* (Appendix A), fourthly *Veryhachium polygonale* (combination not validly published, Appendix A), fifthly *Goniosphaeridium polygonale* (Appendix A), sixthly (and now) *Polygonium polygonale* (Appendix A). Taxonomic junior synonyms: *Impletosphaeridium? primordiale*, according to Eisenack et al. (1973, p.497–498); *Veryhachium* (subsequently *Goniosphaeridium*) *splendens* Paris and Deunff, 1970, an acritarch species, according to Turner (1984, p.113–114) who believed *Goniosphaeridium splendens* to be the senior name; *Hystrichosphaeridium* (subsequently *Baltisphaeridium*) *sexradiatum* Timofeev, 1959, an acritarch species, according to Eisenack (1965c, p.261). Age: Silurian (erratic).

"subsp. *ramosum*" (Ehrenberg, 1837b, pl.1, fig.15) Eisenack, 1931, p.112. Holotype: not designated. Lectotype: Ehrenberg, 1837b, pl.1, fig.15, designated by Davey and Williams (1966a, p.32). **Combination not validly published:** specific name not validly published. **NOW** *Spiniferites*. Originally *Xanthidium ramosum* (Appendix A), subsequently (and now) *Spiniferites ramosus*, thirdly *Ovum hispidum* subsp. *ramosum* (combination not validly published), fourthly *Hystrichosphaera ramosa*, fifthly *Bion ramosum* (Appendix A). Taxonomic junior synonyms: *Xanthidium* (as *Hystrichosphaera*) *furcatum*, according to Davey and Williams (1966a, p.29–33); *Galea korykos* and *Hystrichosphaeridium echinoides*, both according to Sarjeant (1983, p.91–92); *Areoligera birama*, according to Morgenroth (1968, p.550); *Geodia? tripunctata*, by implication in Sarjeant (1964a, p.175), who considered *Geodia? tripunctata* to be a taxonomic junior synonym of *Hystrichosphaera furcata*; *Hystrichosphaera* (as *Spiniferites*) *bulloidea*, according to Harland (1977b, p.101–102) — however, Lentin and Williams (1981, p.259) retained *Hystrichosphaera* (as *Spiniferites*) *bulloidea*; *Homotryblium distinctum*, according to Jain and Garg (1982, p.69), who considered *Homotryblium distinctum* to be a taxonomic junior synonym of *Spiniferites ramosus* subsp. *ramosus*. Motile equivalent: *Gonyaulax spinifera* (Claparède and Lachmann, 1859) Diesing, 1866, according to Dodge (1989, p.289). Downie and Sarjeant (1965, p.174) attributed this combination to Lohmann (1904); however, the combination was apparently not proposed in this latter publication. Age: Late Cretaceous.

"subsp. *trifurcatum*" Eisenack, 1931, p.112, pl.4, figs.21–23. Holotype: Eisenack, 1931, pl.4, fig.21. **Name not validly published:** specific name not validly published. **NOW** *Peteinosphaeridium trifurcatum* (Appendix A). Originally *Ovum hispidum* subsp. *trifurcatum* (name not validly published), subsequently *Hystrichosphaeridium trifurcatum*, thirdly *Baltisphaeridium trifurcatum* (Appendix A), fourthly (and now) *Peteinosphaeridium trifurcatum* (Appendix A). Taxonomic junior synonyms: *Peteinosphaeridium bergstroemii* Staplin et al., 1965, an acritarch species, according to Eisenack (1969a, p.254–255); *Baltisphaeridium trifurcatum* subsp. *breviradiatum* (subsequently *Peteinosphaeridium breviradiatum*), according to Eisenack (1969a, p.255), who considered *Baltisphaeridium trifurcatum* subsp. *breviradiatum* to be the senior name. Age: Ordovician (erratic).

"subsp. *tubiferum*" (Ehrenberg, 1837b, pl.1, fig.16) Downie and Sarjeant, 1965, p.174. Emendation: Davey and Williams, 1966b, p.56–58. Holotype: Ehrenberg, 1837b, pl.1, fig.16. **Combination not validly published**: specific name not validly published, basionym not fully referenced, and combination not intended. **NOW** *Hystrichosphaeridium tubiferum*. Originally *Xanthidium tubiferum* (Appendix A), subsequently *Hystrichosphaera tubifera* (combination not validly published), thirdly (and now) *Hystrichosphaeridium tubiferum*, fourthly *Ovum hispidum* subsp. *tubiferum* (combination not validly published). Taxonomic junior synonym: *Xanthidium* (as *Hystrichokolpoma*) *bulbosum*, according to Stover and Evitt (1978, p.55) — however, Lentin and Williams (1989, p.134) retained *Xanthidium* (as *Hystrichokolpoma*) *bulbosum*. Downie and Sarjeant (1965, p.174) attributed this combination to Lohmann (1904); however, the combination was apparently not proposed in that publication. Age: Late Cretaceous?

"**OVUM HISPIDUM**" Lohmann, 1904, p.25. **Name not validly published**: it comprises two unhyphenated words. Fensome et al. (1990, p.637) stated: "Lohmann clearly intended this to be a generic name. As such, it is inadmissible under I.C.N. Article 20.3 since it is composed of two words unhyphenated. It is not inadmissible on the grounds that it coincides with morphological terms since I.C.N. Article 20.2 does not apply to generic names proposed before 1912. We have not been able to verify the relationship, if any, between the generic name *Ovum hispidum* Lohmann and the species name *Ovulum hispidum* Ehrenberg, 1854 (fide Loeblich Jr. and Loeblich III, 1970a, p.539)."OVUM-HISPIDUM

PACHYSPHAERIDIUM Burmann, 1970, p.310–311. Acritarch genus. Type: Eisenack, 1959, pl.15, fig.2, as *Baltisphaeridium longispinosum* (now accommodated in *Pachysphaeridium robustum* — see Fensome et al., 1990, p.383).

balticum (Eisenack, 1951, p.190, pl.3, figs.10–11) Ribecai and Tongiorgi, 1999, p.122. Holotype: Eisenack, 1951, pl.3, fig.10. Originally *Hystrichosphaeridium*, subsequently *Pulvinosphaeridium* (combination not validly published, Appendix A), thirdly *Veryhachium* (Appendix A), fourthly *Goniosphaeridium* (Appendix A), fifthly *Baltisphaeridium* (Appendix A), sixthly *Estiastra* (Appendix A), seventhly (and now) *Pachysphaeridium*. Age: Early Ordovician.

brevispinosum (Eisenack, 1931, p.111, pl.5, figs.3–5 ex Eisenack, 1938a, p.12) Ribecai and Tongiorgi, 1999, p.123. Holotype: Eisenack, 1931, pl.5, fig.3, as *Ovum hispidum* subsp. *brevispinosum*, lost according to Eisenack (1959, p.197). Neotype: Eisenack, 1959, pl.15, fig.13, designated by Eisenack (1959, p.197), lost according to Ribecai and Tongiorgi (1999, p.124). New Neotype: Eisenack, 1959, pl.15, fig.16, designated by Ribecai and Tongiorgi (1999, p.124). Originally *Ovum hispidum* subsp. *brevispinosum* (name not validly published), subsequently *Hystrichosphaeridium brevispinosum*, thirdly *Baltisphaeridium brevispinosum* (Appendix A), fourthly *Buedingiisphaeridium brevispinosum* (combination not validly published, Appendix A), fifthly (and now) *Pachysphaeridium brevispinosum*. Age: Silurian.

PALAEODINOPHYSIS Vozzhennikova and Sheshegova, 1989, p.442. Problematic genus. Type: Vozzhennikova and Sheshegova, 1989, figs.1a,d, as *Palaeodinophysis altaica*.

***altaica** Vozzhennikova and Sheshegova, 1989, p.444–445, figs.1a–d,2. Holotype: Vozzhennikova and Sheshegova, 1989, figs.1a,d. Age: Devonian.

PALAEOHYSTRICHOSPHAERIDIUM Eiserhardt, 1986, p.177. Acritarch genus. Type: Eisenack, 1968, pl.24, fig.2, as *Hystrichosphaeridium wimanii*.

"**williereae**" (Martin, 1966b, p.389–391, pl.1, fig.23; text-figs.33–34) Eiserhardt, 1986, p.181. Holotype: Martin, 1966b, pl.1, fig.23. **NOW** *Dilatitphaera* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Dilatitphaera* (combination not validly published, Appendix A), thirdly *Palaeohystrichosphaeridium*, fourthly (and

now) *Dilatisphaera*. Taxonomic junior synonym: *Ozotobrachion? podolicus* Sheshegova, 1973, an acritarch species, according to Kiryanov (1978, p.90). Age: Silurian (Llandovery).

"subsp. *dameryense*" (Dorning, 1981, p.188, pl.2, fig.6) Fensome et al., 1990, p.384. Holotype: Dorning, 1981, pl.2, fig.6. **NOW** *Dilatisphaera williereae* subsp. *dameryensis*. Originally *Dilatisphaera dameryensis* (Appendix A), subsequently *Palaeohystrichosphaeridium williereae* subsp. *dameryense*, thirdly (and now) *Dilatisphaera williereae* subsp. *dameryensis*. The combination *Palaeohystrichosphaeridium williereae* subsp. *dameryense* was not validly published in Eiserhardt (1986, p.182) since that author did not specify the taxonomic rank; he gave the citation "*Palaeohystrichosphaeridium williereae dameryensis*." Age: Silurian (Llandovery).

"subsp. *williereae*". Autonym. Holotype: Martin, 1966b, pl.1, fig.23. **NOW** *Dilatisphaera williereae* subsp. *williereae*. Originally *Palaeohystrichosphaeridium williereae* subsp. *williereae*, subsequently (and now) *Dilatisphaera williereae* subsp. *williereae*.

**wimani* (Eisenack, 1968, p.92, pl.24, figs.1–3) Eiserhardt, 1986, p.177,180. Holotype: Eisenack, 1968, pl.24, fig.2. Originally *Hystrichosphaeridium*, subsequently (and now) *Palaeohystrichosphaeridium*. Age: Silurian (Llandovery).

PALAEOSTOMOCYSTIS Deflandre, 1937b, p.52. Acritarch genus. Taxonomic junior synonym: *Cladopyxidium*, by implication in Marheinecke (1992, p.105), who transferred the "type species", *Palaeostomocystis reticulata*, to *Cladopyxidium* — however, Lentin and Williams (1993, p.483) retained *Cladopyxidium*. This name was not validly published in Deflandre (1935, p.234) since no type was designated. According to Stover and Evitt (1978, p.6), Deflandre (1966, p.6) emended the diagnosis of this genus; however, no formal emendation was proposed in Deflandre (1966). Type: Deflandre, 1937b, pl.12 (al. pl.9), fig.4, as *Palaeostomocystis reticulata*.

"*acambra*" (Sah et al., 1970, p.148, pl.2, fig.28) Yun Hyesu, 1981, p.73. Holotype: Sah et al., 1970, pl.2, fig.28. **NOW** *Fromea* (Appendix A). Originally (and now) *Fromea* (Appendix A), subsequently *Palaeostomocystis*. Age: Late Cretaceous.

"*apiculata*" Cookson and Eisenack, 1960a, p.12, pl.3, fig.15. Holotype: Cookson and Eisenack, 1960a, pl.3, fig.15. **NOW** *Fromea* (Appendix A). Originally *Palaeostomocystis*, subsequently *Fromea?* (Appendix A), thirdly (and now) *Fromea* (Appendix A). Age: Santonian–Campanian.

"*bakonyensis*" Góczán, 1962, p.193–194,200, pl.3, figs.4–10. Holotype: Góczán, 1962, pl.3, figs.4–5. **NOW** *Pyxidinospis*. Originally *Palaeostomocystis*, subsequently (and now) *Pyxidinospis*. Age: Maastrichtian.

"*chytra*" Drugg, 1967, p.35, pl.6, fig.12. Holotype: Drugg, 1967, pl.6, fig.12. **NOW** *Fromea* (Appendix A). Originally *Palaeostomocystis*, subsequently (and now) *Fromea* (Appendix A). Taxonomic junior synonym: *Palaeostomocystis minor*, according to Xu Jinli et al. (1997, p.41). Age: Maastrichtian–Danian.

cretacea (Wetzel, 1933a, p.175, pl.2, figs.28–29) Deflandre, 1937b, p.54. Holotype: Wetzel, 1933a, pl.2, fig.28. Originally *Trachelomonas?* (Appendix A), subsequently (and now) *Palaeostomocystis*. This combination was not validly published in Deflandre (1935, p.234) since the generic name *Palaeostomocystis* was not validly published until 1937. Age: Late Cretaceous.

"*cylindrica*" Cookson and Eisenack, 1960b, p.258, pl.39, fig.16. Holotype: Cookson and Eisenack, 1960b, pl.39, fig.16. **NOW** *Fromea* (Appendix A). Originally *Palaeostomocystis*, subsequently *Fromea?* (Appendix A), thirdly (and now) *Fromea* (Appendix A). Age: Late Jurassic–Neocomian.

"*decora*" Deflandre, 1945b, card 850, figs.1–2. Holotype: Deflandre, 1945b, fig.1. **Name not validly published:** no description. This name, attributed to Deflandre, was also not validly published in Wetzel (1942, p.42). Age: Late Cretaceous.

"*echinulata*" Deflandre, 1937b, p.55, pl.11 (al. pl.8), fig.9. Holotype: Deflandre, 1937b, pl.11 (al. pl.8), fig.9. **NOW** *Diacrocanthidium* (Appendix A). Originally *Palaeostomocystis*, subsequently *Acanthodiacrodium* (combination not validly published, Appendix A), thirdly (and now) *Diacrocanthidium* (Appendix A). Taxonomic junior synonym: *Cleistosphaeridium parvum*, according to Bujak in Bujak et al. (1980, p.52). Age: Late Cretaceous.

"*elongata*" (Beju, 1971, p.289–290, pl.3, figs.7–10; text-figs.6A–E) Yun Hyesu, 1981, p.73. Emendations: Feist-Burkhardt and Monteil, 1994, p.9, as *Andreedinium elongatum*; Riding, 1994, p.16, as *Phallocysta elongata*. Holotype: Beju, 1971, pl.3, fig.7; text-fig.6A. **NOW** *Phallocysta*. Originally *Fromea* (Appendix A), subsequently *Fromea?* (Appendix A), thirdly *Wallodinium*, fourthly *Palaeostomocystis*, fifthly *Andreedinium*, sixthly (and now) *Phallocysta*. Taxonomic senior synonym: *Prismatocystis* (now *Wallodinium*) *cylindrica*, according to Duxbury (1983, p.68) — however, Feist-Burkhardt and Monteil in Feist-Burkhardt (1990, p.615) retained *Palaeostomocystis* (as *Andreedinium*) *elongata*. Nomenclatural junior synonym: *Phallocysta minuta*: refer to that species for details. Taxonomic junior synonym: *Phallocysta subconica*, according to Riding (1994, p.16). Age: Bajocian–Oxfordian.

"*expolita*" Brideaux, 1977, p.20, pl.7, figs.12–14. Holotype: Brideaux, 1977, pl.7, figs.12–14. **NOW** *Fromea* (Appendix A). Originally *Palaeostomocystis*, subsequently (and now) *Fromea* (Appendix A). Age: Barremian.

foveolata Slimani, 1994, p.42–43, pl.7, figs.15–17,54–58. Holotype: Slimani, 1994, pl.7, figs.15–17,54–55. Age: late Campanian–early Maastrichtian.

"*fragilis*" Cookson and Eisenack, 1962b, p.496–497, pl.7, figs.10–11. Holotype: Cookson and Eisenack, 1962b, pl.7, fig.11. **NOW** *Fromea* (Appendix A). Originally *Palaeostomocystis*, subsequently (and now) *Fromea* (Appendix A). Age: Aptian–Cenomanian.

"*glabella*" Singh, 1971, p.428–429, pl.80, fig.4. Holotype: Singh, 1971, pl.80, fig.4. **NOW** *Fromea* (Appendix A). Originally *Palaeostomocystis*, subsequently (and now) *Fromea* (Appendix A). Age: late Albian.

globosa Louwye, 1999, p.121, pl.5, figs.3–7. Holotype: Louwye, 1999, pl.5, figs.3–6. Age: late Miocene.

"*granulosa*" Cookson and Eisenack, 1974, p.79, pl.28, fig.10. Holotype: Cookson and Eisenack, 1974, pl.28, fig.10. **NOW** *Batiacasphaera*. Originally *Palaeostomocystis*, subsequently *Fromea* (Appendix A), thirdly (and now) *Batiacasphaera*. Age: Albian–Cenomanian.

"*laevigata*" Drugg, 1967, p.35, pl.6, figs.14–15. Holotype: Drugg, 1967, pl.6, fig.14. **NOW** *Fromea* (Appendix A). Originally *Palaeostomocystis*, subsequently *Fromea?* (Appendix A), thirdly (and now) *Fromea* (Appendix A). Junior homonym: *Palaeostomocystis laevigata* Jiabo, 1978 (Appendix A). Age: Maastrichtian–Danian.

"*laevigata*" Jiabo, 1978, p.126–127, pl.32, fig.23. Holotype: Jiabo, 1978, pl.32, fig.23. **Name illegitimate** — **senior homonym**: *Palaeostomocystis laevigata* Drugg, 1967. **NOW** *Bosedinia laevigata*. Originally *Palaeostomocystis laevigata* (name illegitimate), subsequently *Bosea laevigata* (generic name illegitimate), thirdly *Fromea laevigata* (name illegitimate; Appendix A), fourthly *Fromea psilata* (Appendix A), fifthly (and now) *Bosedinia laevigata*. Age: Early Tertiary.

"*minor*" Jiabo, 1978, p.127, pl.32, figs.14–21. Holotype: Jiabo, 1978, pl.32, fig.20. Originally *Palaeostomocystis*, subsequently *Fromea* (Appendix A). Jansonius (1989, p.67) retained this species in *Palaeostomocystis*. **Taxonomic senior synonym**: *Fromea chytra* (Appendix A), according to Xu Jinli et al. (1997, p.41). Age: Early Tertiary.

"*oblonga*" Deflandre, 1945b, card 852, figs.1–5. Holotype: Deflandre, 1945a, fig.1. **Name not validly published**: no description. Originally *Palaeostomocystis* (name not validly published), subsequently *Fromea* (name not validly published; Appendix A). This name was also not validly published in Wetzel (1942, p.42), who attributed it to Deflandre.

ovata (Wilson, 1967b, p.230, figs.23–26) Eisenack et al., 1973, p.873. Holotype: Wilson, 1967b, fig.23. Originally *Leiosphaeridia* (Appendix A), subsequently (and now) *Palaeostomocystis*. Age: Maastrichtian (see Wilson, 1972).

pachythea Cookson and Eisenack, 1971, p.222, pl.11, figs.7–9. Holotype: Cookson and Eisenack, 1971, pl.11, fig.8. Originally (and now) *Palaeostomocystis*, subsequently *Fromea* (Appendix A). Jansonius (1989, p.67) retained this species in *Palaeostomocystis*. Age: Middle Cretaceous.

"*pergamentacea*" Burger, 1980a, p.88, pl.47, figs.2–3. Holotype: Burger, 1980a, pl.47, fig.3. **NOW** *Leberidocysta*?. Originally *Palaeostomocystis*, subsequently (and now) *Leberidocysta*?, thirdly *Craspedodinium*. Age: Aptian.

pulchella Conrad, 1941, p.10; text-fig.3. Holotype: Conrad, 1941, text-fig.3. Age: Maastrichtian.

punctulosa Deflandre, 1941, p.22–23, pl.6, fig.11. Holotype: Deflandre, 1941, pl.6, fig.11. Age: Kimmeridgian.

**reticulata* Deflandre, 1937b, p.53–54, pl.12 (al. pl.9), figs.4–5. Emendation: Marheinecke, 1992, p.105–106, as *Cladopyxidium reticulata* (combination illegitimate). Holotype: Deflandre, 1935, pl.9, fig.13; Deflandre, 1936a, fig.133; Deflandre, 1937b, pl.12 (al. pl.9), fig.4. Originally (and now) *Palaeostomocystis*, subsequently *Cladopyxidium* (combination illegitimate). This name was not validly published in Deflandre (1935, caption to pl.9, fig.13; 1936a, caption to fig.133 — p.77) since no description was provided. Age: Late Cretaceous.

"*scabrata*" Jiabo, 1978, p.127, pl.32, figs.24–25; pl.46, figs.3a–b. Holotype: Jiabo, 1978, pl.32, fig.25. **NOW** *Bosedinia*. Originally *Palaeostomocystis*, subsequently *Fromea* (Appendix A), thirdly (and now) *Bosedinia*. Age: Early Tertiary.

"*scrobiculata*" (Deflandre and Cookson, 1955, p.291, pl.3, fig.3; text-fig.57) Eisenack et al., 1973, p.881–882. Holotype: Deflandre and Cookson, 1955, pl.3, fig.3. **NOW** *Pyxidiella*?. Originally *Leiosphaera* (Appendix A) subsequently (and now) *Pyxidiella*?, thirdly *Leiosphaeridia* (Appendix A), fourthly *Palaeostomocystis*, fifthly *Batiacasphaera*. Cookson and Eisenack (1974, p.79) also proposed this combination. Age: Santonian–Eocene.

"*senilis*" McIntyre and Brideaux, 1980, p.18, pl.5, fig.12; pl.6, fig.1. Holotype: McIntyre and Brideaux, 1980, pl.5, fig.12; pl.6, fig.1. **NOW** *Fromea* (Appendix A). Originally *Palaeostomocystis*, subsequently (and now) *Fromea* (Appendix A). Age: Valanginian.

"*sinuosa*" Cookson and Eisenack, 1960b, p.258, pl.38, figs.16–17. Emendation: Helby and Stover, 1987b, p.160, as *Dollidinium sinuosum*. Holotype: Cookson and Eisenack, 1960b, pl.38, fig.16; Fensome et al., 1996, fig.1 — p.2363; lost according to Helby and Stover (1987b, p.164). Lectotype: Helby and Stover, 1987b, figs.4A–C; Fensome et al., 1996, fig.1 — p.2363; designated as a neotype by Helby and Stover (1987b, p.164). **NOW** *Dollidinium*. Originally *Palaeostomocystis*, subsequently (and now) *Dollidinium*. Age: Tithonian–Berriasian.

sphaerica Deflandre, 1937b, p.54, pl.12 (al. pl.9), fig.6. Holotype: Deflandre, 1935, pl.9, fig.14; Deflandre, 1936a, fig.134; Deflandre, 1937b, pl.12 (al. pl.9), fig.6. This name was not validly published in Deflandre (1935, caption to pl.9, fig.14 — p.234; 1936a, caption to fig.134 — p.77) since no description was provided. Age: Cretaceous.

"*tornatilis*" Drugg, 1978, p.71–72, pl.7, figs.4–6. Holotype: Drugg, 1978, pl.7, fig.5. **NOW** *Fromea* (Appendix A). Originally *Palaeostomocystis*, subsequently (and now) *Fromea* (Appendix A). Age: Callovian–Oxfordian.

"*triquetra*" Brideaux, 1977, p.20–21, pl.8, figs.1–6. Holotype: Brideaux, 1977, pl.8, figs.1–2. **NOW** *Fromea* (Appendix A). Originally *Palaeostomocystis*, subsequently (and now) *Fromea* (Appendix A). Age: Barremian.

PALHISTIODINIA Deflandre, 1939a, p.185. Problematic genus. Type: Deflandre, 1939a, pl.5, fig.10, as *Palhistiodinia arcana*.

**arcana* Deflandre, 1939a, p.185, pl.5, fig.10. Holotype: Deflandre, 1939a, pl.5, fig.10. Sarjeant (1978a, p.38) noted that the holotype is severely damaged and recommended that the genus and species names should be allowed to fall into disuse. It shows no evidence of dinoflagellate affinity. Age: Oxfordian.

PARALECANIELLA Cookson and Eisenack, 1970b, p.323. Emendation: Elsik, 1977, p.96. Acritarch or schizosporous algal genus (Elsik, 1977, p.96). Type: Deflandre and Cookson, 1955, pl.9, fig.6, as *Epicephalopyxis indentata*.

**indentata* (Deflandre and Cookson, 1955, p.292, pl.9, figs.5–7; text-fig.56) Cookson and Eisenack, 1970b, p.323. Emendation: Elsik, 1977, p.96, as *Paralecaniella indentata*. Holotype: Deflandre and Cookson, 1955, pl.9, fig.6. Originally *Epicephalopyxis* (Appendix A), subsequently (and now) *Paralecaniella*. Taxonomic junior synonym: *Scriniodium nilsii*, according to Jan du Chêne et al. (1986a, p.318). Age: Paleocene–Miocene.

PAUCILOBIMORPHA de Coninck, 1986b, p.22. Emendation: Prössl, 1994, p.400. Acritarch genus. Type: de Coninck, 1986b, pl.11, figs.19–20, as *Paucilobimorpha triradiata*.

?*apiculata* (Cookson and Eisenack, 1962a, p.272, pl.37, fig.4) Prössl, 1994, p.401. Holotype: Cookson and Eisenack, 1962a, pl.37, fig.4; Pestchevitskaya, 2001, pl.2, fig.13; Pestchevitskaya, 2003, pl.2, fig.6. Originally *Horologinella*, subsequently (and now) *Paucilobimorpha*?. Questionable assignment: Prössl (1994, p.401). Pestchevitskaya (2001, p.106; 2003, p.53) included this species in *Horologinella* but did not mention its transfer to *Paucilobimorpha*. Age: Campanian.

extrema (Cookson and Eisenack, 1962a, p.272–273, pl.37, fig.10) Prössl, 1994, p.401. Holotype: Cookson and Eisenack, 1962a, pl.37, fig.10; Pestchevitskaya, 2001, pl.2, fig.16; Pestchevitskaya, 2003, pl.2, fig.4. Originally *Horologinella*, subsequently (and now) *Paucilobimorpha*. Pestchevitskaya (2001, p.106; 2003, p.53) included this species in *Horologinella* but did not mention its transfer to *Paucilobimorpha*. Age: Cenomanian.

incurvata (Cookson and Eisenack, 1962a, p.272, pl.37, fig.5) Prössl, 1994, p.402. Holotype: Cookson and Eisenack, 1962a, pl.37, fig.5; Pestchevitskaya, 2001, pl.2, fig.14; Pestchevitskaya, 2003, pl.2, fig.5. Originally *Horologinella*, subsequently (and now) *Paucilobimorpha*. Pestchevitskaya (2001, p.106; 2003, p.53) included this species in *Horologinella* but did not mention its transfer to *Paucilobimorpha*. Age: early Eocene.

spinigera (de Coninck, 1969, p.43–44, pl.13, figs.11–13) Prössl, 1994, p.403. Holotype: de Coninck, 1969, pl.13, figs.11–12. Originally *Diacrocanthidium* (Appendix A), subsequently (and now) *Paucilobimorpha*. Age: Ypresian.

spinosa (Cookson, 1965a, p.89, pl.10, figs.10–12; pl.11, fig.10) Prössl, 1994, p.403. Holotype: Cookson, 1965a, pl.10, fig.11; Pestchevitskaya, 2003, pl.2, fig.14. Originally *Horologinella*?, subsequently (and now) *Paucilobimorpha*. This combination was not validly published in de Coninck (1986b, p.22), since that author did not fully reference the basionym. Pestchevitskaya (2003, p.53) included this species in *Horologinella* but did not mention its transfer to *Paucilobimorpha*. Age: late Eocene.

**triradiata* de Coninck, 1986b, p.23, pl.11, figs.17–21,26. Holotype: de Coninck, 1986b, pl.11, figs.19–20. Age: middle Eocene–early Oligocene.

"**PENTAGONIUM**" Snopková and Samuel, 1982, p.132. Acritarch genus. **Name illegitimate — senior homonym:** *Pentagonium* Schauer, 1843. Type: Snopková and Samuel, 1982, pl.48, figs.1–3; pl.49, figs.1–2; pl.50, fig.1, as *Pentagonium obidum*.

obidum* Snopková and Samuel, 1982, p.132, pl.48, figs.1–3; pl.49, figs.1–2; pl.50, fig.1. Holotype: Snopková and Samuel, 1982, pl.48, figs.1–3; pl.49, figs.1–2; pl.50, fig.1. **NOW *Angularia*? (Appendix A). Originally *Pentagonium* Snopková and Samuel (generic name illegitimate), subsequently (and now) *Angularia*? (Appendix A). Following I.C.N. Article 55.1, the species name *Pentagonium obidum* is validly published even though the generic name *Pentagonium* Snopková and Samuel is illegitimate. Age: late Eocene (Priabonian).

PETALOFERIDIUM Jacobson, 1978, p.295–296. Emendation: Sarjeant and Vavrdova, 1997, p.29. Acritarch genus. Type: Jacobson, 1978, pl.1, fig.5, as *Petaloferidium stigii*.

borracherosum (Cramer, 1964, p.289, pl.1, fig.11; text-fig.16, no.6) Sarjeant and Vavrdova, 1997, p.29. Holotype: Cramer, 1964, pl.1, fig.11. Originally *Baltisphaeridium* (Appendix A), subsequently *Multiplicisphaeridium* (Appendix A), thirdly *Hystrichosphaeridium* (combination not validly published), fourthly (and now) *Petaloferidium*. Age: Silurian (Ludlow).

PETEINOSPHAERIDIUM Staplin et al., 1965, p.194. Acritarch genus. For synonymy see Fensome et al. (1990, p.389). Type: Staplin et al., 1965, pl.20, fig.13, as *Peteinosphaeridium bergstroemii*.

hymeniferum (Eisenack, 1938a, p.19, pl.3, figs.2–5) Fensome et al., 1990, p.390. Holotype: Eisenack, 1938a, pl.3, fig.2. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly (and now) *Peteinosphaeridium*. This combination was not validly published in Eisenack (1969a, p.254), since that author did not fully reference the basionym. Age: Ordovician (erratic).

?**hystrichoreticulatum** (Eisenack, 1938a, p.20, pl.3, figs.6A–B) Eisenack et al., 1973, p.905–906. Holotype: Eisenack, 1938a, pl.3, figs.6A–B, lost according to Eisenack et al. (1973, p.905). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly (and now) *Peteinosphaeridium*?. Questionable assignment: Eisenack et al. (1973, p.905). Age: Ordovician (erratic).

"**ramusculosum**" (Deflandre, 1945a, p.63, pl.1, figs.8–16; text-figs.38–39) Piskun, 1974b, caption to pl.12, fig.9. Emendation: Lister, 1970, p.92–93, as *Multiplicisphaeridium ramusculosum*. Holotype: Deflandre, 1945a, pl.1, figs.8–10. **Combination not validly published**: basionym not fully referenced. **NOW** *Multiplicisphaeridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Evittia* Brito (combination not validly published, Appendix A), fourthly (and now) *Multiplicisphaeridium* (Appendix A), fifthly *Peteinosphaeridium* (combination not validly published), sixthly *Oppilatala* (Appendix A). Age: Silurian.

?**sibiricum** (Timofeev, 1966, p.46–47, pl.9, fig.3) Eisenack et al., 1979, p.101. Holotype: Timofeev, 1966, pl.9, fig.3. Originally *Hystrichosphaeridium*, subsequently (and now) *Peteinosphaeridium*. Questionable assignment: Eisenack et al. (1979, p.101). Age: Late Ordovician.

+**trifurcatum** (Eisenack, 1931, p.112, pl.4, figs.21–23 ex Eisenack, 1938a, p.12,16–19) Eisenack, 1969a, p.254. Holotype: Eisenack, 1931, pl.4, fig.21, as *Ovum hispidum* subsp. *trifurcatum*; Eisenack, 1938a, pl.2, fig.2; lost according to Eisenack (1959, p.202). Neotype: Eisenack, 1959, pl.17, fig.3, designated by Eisenack (1959, p.202). Originally *Ovum hispidum* subsp. *trifurcatum* (name not validly published, Appendix A), subsequently *Hystrichosphaeridium trifurcatum*, thirdly *Baltisphaeridium trifurcatum* (Appendix A), fourthly (and now) *Peteinosphaeridium trifurcatum*. Taxonomic senior synonym: *Xanthidium* (now *Spiniferites*) *ramosum*, according to Wetzel (1933b, p.36) — however, the latter species is a dinoflagellate. Taxonomic junior synonyms: *Peteinosphaeridium bergstroemii* Staplin et al., 1965, an acritarch species, according to Eisenack (1969a, p.254–255); *Baltisphaeridium trifurcatum* subsp. *breviradiatum* (subsequently *Peteinosphaeridium breviradiatum*), by implication in Eisenack (1969a, p.255), who considered *Baltisphaeridium trifurcatum* subsp. *breviradiatum* to be the senior name. The nomenclatural type of the genus *Peteinosphaeridium* remains the holotype of *Peteinosphaeridium bergstroemii*. The name *Ovum hispidum* subsp. *trifurcatum* was not validly published in Eisenack (1931) since the specific name *Ovum hispidum* was not validly published. For further discussion see Fensome et al. (1990, p.392). Age: Ordovician (erratic).

subsp. **trifurcatum**. Autonym. Holotype: Eisenack, 1931, pl.4, fig.21, as *Ovum hispidum* subsp. *trifurcatum* and Eisenack, 1938a, pl.2, fig.2, lost according to Eisenack (1959, p.202). Neotype: Eisenack, 1959, pl.17, fig.3, designated by Eisenack (1959, p.202). Originally *Hystrichosphaeridium trifurcatum* subsp. *trifurcatum*, subsequently *Baltisphaeridium trifurcatum* subsp. *trifurcatum* (Appendix A), thirdly (and now) *Peteinosphaeridium trifurcatum* subsp. *trifurcatum*. Nomenclatural junior synonym: *Baltisphaeridium trifurcatum* forma *typicum* Eisenack, 1959, an acritarch taxon, which has the same type. Taxonomic junior synonym: *Baltisphaeridium* (subsequently *Peteinosphaeridium*) *trifurcatum* subsp. *breviradiatum* Eisenack, 1959, an acritarch taxon, by implication in Eisenack (1969a, p.255), who believed *Baltisphaeridium trifurcatum* subsp. *breviradiatum* to be the senior name.

PINOCCHIODINIUM Torricelli, 2000, p.263. Acritarch genus. Type: Torricelli, 2000, pl.13, fig.7, as *Pinocchiodinium erbae*.

**erbae* Torricelli, 2000, p.264, pl.13, figs.1–12. Holotype: Torricelli, 2000, pl.13, fig.7. Age: Aptian.

PIPERODINIUM Mudie in Scott et al., 1984, p.214. Acritarch genus. Head (1996b, p.1231) questionably regarded this genus as representing dinoflagellates, but in our view it lacks unequivocal evidence of dinoflagellate affinity. Type: Scott et al., 1984, pl.1, figs.1–3, as *Piperodinium perplexum*.

**perplexum* Mudie in Scott et al., 1984, p.214–215, pl.1, figs.1–3. Holotype: Scott et al., 1984, pl.1, fig.1. Age: Holocene.

PLANCTONITES Krutzsch in Krutzsch et al., 1960, p.141. Zygnematalean genus (Head, 1992, p.249). Taxonomic junior synonym: *Deflandridium*, according to Head (1992, p.249). Fensome et al. (1990, p.395) were incorrect in stating that this name was not validly published in Krutzsch et al. (1960) since the "type species" had a valid name, *Sporites stellarius*, even though the combination *Planctonites stellarius* was not validly published. Type: not designated; "type species" — *Sporites stellarius* Potonié, 1934.

"*nagya*e" Head, 1992, p.250,252. Holotype: Nagy, 1969, pl.2, figs.3–4,6. **Name illegitimate — nomenclatural senior synonym:** *Deflandridium* (now *Planctonites*) *stellatum*, which has the same type. **NOW** *Planctonites stellatus*. Originally *Deflandridium stellatum*, subsequently *Planctonites nagya*e (name illegitimate), thirdly (and now) *Planctonites stellatus*. Substitute name for *Deflandridium stellatum* Nagy, 1969, p.294, pl.2, figs.1,3–4,6. Head (1992, p.250) considered that transfer of *Deflandridium stellatum* to *Planctonites* would create an illegitimate junior homonym of *Planctonites stellarius* (Potonié, 1934) Krutzsch and Vanhoorne, 1977; however, the two epithets are not identical. Age: late Miocene.

stellatus (Nagy, 1969, p.294, pl.2, figs.1,3–4,6) Williams et al., 1998, p.708. Holotype: Nagy, 1969, pl.2, figs.3–4,6. Originally *Deflandridium stellatum*, subsequently *Planctonites nagya*e (name illegitimate), thirdly (and now) *Planctonites stellatus*. Age: late Miocene.

PLATYCYSTIDIA Cookson and Eisenack, 1960a, p.12. Acritarch genus. Type: Cookson and Eisenack, 1960a, pl.3, fig.22, as *Platycystidia diptera*.

**diptera* Cookson and Eisenack, 1960a, p.14, pl.3, fig.22. Holotype: Cookson and Eisenack, 1960a, pl.3, fig.22. Age: ?late Albian–Cenomanian.

eisenackii (Mehrotra and Sarjeant, 1984c, p.46–48, pl.1, figs.1–7; pl.2, figs.1–7; text-figs.1a–d,2a–c,3a–b) Backhouse, 1988, p.114. Holotype: Mehrotra and Sarjeant, 1984c, pl.1, fig.6; text-fig.1c. Originally *Polygonifera*, subsequently *Leberidocysta*?, thirdly (and now) *Platycystidia*. Age: Aptian.

PLEUROZONARIA Wetzel, 1933b, p.29. Prasinophyte genus (although Elbrächter et al., 2008, p.1301 listed this as a questionable calcareous dinoflagellate genus). Taxonomic senior synonyms: *Pithonella*, according to Foucher and Taugourdeau-Lantz (1975, p.1677–1679); *Tasmanites* (Appendix A), by implication in Morgenroth (1966a, p.41–42) who transferred the "type species" of *Pleurozonaria*, *Pleurozonaria globulus*, to *Tasmanites* — however, Fensome et al. (1990, p.395) retained *Pleurozonaria*. Taxonomic junior synonym: *Crassosphaera* Cookson and Manum, 1960, a prasinophyte genus, according to Mädler (1963, p.328) — however, Fensome et al. (1990, p.159) retained *Crassosphaera*. Type: Wetzel, 1933b, pl.4, fig.12, as *Pleurozonaria globulus*.

**globulus* Wetzel, 1933b, p.29, pl.4, fig.12. Holotype: Wetzel, 1933b, pl.4, fig.12; Sarjeant, 1985b, pl.2, fig.3; Dietz et al., 1999, fig.10, no.4. Originally (and now) *Pleurozonaria*, subsequently *Tasmanites* (Appendix A), thirdly *Pithonella*. Fensome et al. (1990, p.396) retained the species in *Pleurozonaria*. N.I.A. Age: Late Cretaceous.

POLYGONIUM Vavrdová, 1966, p.412–413. Emendations: Le Hérisse, 1989, p.181; Sarjeant and Stancliffe, 1994, p.42. Acritarch genus. Taxonomic junior synonyms: *Goniosphaeridium* (Appendix A), according to Le Hérisse (1989, p.181) and Sarjeant and Stancliffe (1996, p.358); *Celtiberium* Fombella, 1977, an acritarch genus, according to Sarjeant and Stancliffe (1996, p.358). See also Fensome et al. (1990, p.405). Type: Vavrdová, 1966, pl.1, fig.3; text-fig.3b (not pl.2, fig.3), as *Polygonium gracile*.

nanus (Deflandre, 1945a, p.62–63, pl.1, figs.5–7) Jacobson, 1978, p.297. Holotype: Deflandre, 1945a, pl.1, figs.5–6. Originally *Hystrichosphaeridium brevispinosum* var. *nanus*, subsequently *Baltisphaeridium nanus* (Appendix A), thirdly *Baltisphaeridium brevispinosum* var. *nanus* (combination not validly published, Appendix A), fourthly *Micrhystridium nanus* (Appendix A), fifthly (and now) *Polygonium nanus*, sixthly *Solisphaeridium nanus* (Appendix A). Sarjeant and Stancliffe (1994, p.21) retained this species in *Polygonium*. Taxonomic junior synonym: *Baltisphaeridium brevispinosum* var. *wenlockense* (subsequently *Salopidium wenlockense*) Downie, 1959, an acritarch taxon, according to Lister (1970, p.54). N.I.A. Age: Silurian.

polygonale (Eisenack, 1931, p.113, pl.4, figs.16–20; pl.5, fig.18 ex Eisenack, 1938a, p.12) Le Hérisse, 1989, p.182. Holotype: Eisenack, 1931, pl.4, fig.19, as *Ovum hispidum* subsp. *polygonale*, lost according to Eisenack (1959, p.199). Neotype: Paris and Deunff, 1970, pl.1, fig.4, as *Veryhachium splendens*, designated by Fensome et al. (1990, p.235), which see. Originally *Ovum hispidum* subsp. *polygonale* (name not validly published, Appendix A), subsequently *Hystrichosphaeridium polygonale*, thirdly *Baltisphaeridium polygonale* (Appendix A), fourthly *Veryhachium polygonale* (combination not validly published, Appendix A), fifthly *Goniosphaeridium polygonale* (Appendix A), sixthly (and now) *Polygonium polygonale*. Taxonomic junior synonyms: *Impletosphaeridium? primordiale*, according to Eisenack et al. (1973, p.497–498); *Veryhachium* (subsequently *Goniosphaeridium*) *splendens* Paris and Deunff, 1970, an acritarch species, according to Turner (1984, p.113–114), who believed *Goniosphaeridium splendens* to be the senior name; *Hystrichosphaeridium* (subsequently *Baltisphaeridium*) *sexradiatum*, according to Eisenack (1965c, p.261). This combination was not validly published in Wright and Meyers (1981, p.28) since these authors did not fully reference the basionym. The name *Ovum hispidum* subsp. *polygonale* was not validly published in Eisenack (1931) since the specific name *Ovum hispidum* was not validly published. Age: Silurian (erratic).

"uncinatum" (Downie, 1958, p.337; text-fig.2a) Richardson and Rasul, 1978, p.450. Holotype: Downie, 1958, text-fig.2a. **NOW** *Stellechinatum uncinatum* (Appendix A). Originally *Hystrichosphaeridium longispinosum* var. *uncinatum*, subsequently *Baltisphaeridium longispinosum* var. *uncinatum* (Appendix A), thirdly *Baltisphaeridium uncinatum* (Appendix A), fourthly *Micrhystridium uncinatum* (Appendix A), fifthly *Goniosphaeridium uncinatum* (Appendix A), sixthly *Polygonium uncinatum*, seventhly *Goniosphaeridium polygonale* subsp. *uncinatum* (combination not validly published, Appendix A), eighthly (and now) *Stellechinatum uncinatum* (Appendix A). Taxonomic junior synonym: *Goniosphaeridium regulare* Yin Leiming in Chen Junyuan et al., 1985, an acritarch species, according to Yin Leiming (1986, p.347). Age: Early Ordovician.

PRINSIOSPHAERA Jafar, 1983, p.232–233. A calcisphere genus according to Elbrächter et al. (2008, p.1303). Type: Jafar, 1983, fig.8, nos.1a–c, as *Prinsiosphaera triassica*.

"geometrica" Jafar, 1983, p.233, fig.10, nos.5–6; fig.11, no.6. Holotype: Jafar, 1983, fig.10, no.5. **NOW** *?Orthopithonella*. Originally *Prinsiosphaera*, subsequently *Orthopithonella*, thirdly *Thoracosphaera*, fourthly (and now) *?Orthopithonella*. Taxonomic junior synonyms (at specific rank): *Prinsiosphaera triassica* subsp. *hyalina* and *Prinsiosphaera triassica* subsp. *noeliae*, according to Janofske (1987, p.50). Age: Rhaetian.

***triassica** Jafar, 1983, p.234–235,237, fig.6, nos.7a–b,8a–d,9a–d; fig.7, nos.1a–c,2a–c,3a–c,4a–c,5a–b,6a–b; fig.8, nos.1a–c,2a–c,3a–b,4a–c,5–6,7a–b,8a–c,9a–b; fig.9, nos.1a–c,2,3a–c,4a–b,5–6,7a–b,8a–b,9a–b; fig.10, nos.1–4. Holotype: Jafar, 1983, fig.8, nos.1a–c. Age: Carnian–Rhaetian.

"subsp. *hyalina*" Jafar, 1983, p.234, fig.9, nos.1a–c,2,7a–b. Holotype: Jafar, 1983, fig.9, nos.1a–c. **Taxonomic senior synonym** (at specific rank): *Prinsiosphaera* (now *Orthopithonella*) *geometrica*, according to Janofske (1987, p.50). Age: late Norian.

"subsp. *noeliae*" Jafar, 1983, p.234, fig.9, nos.3a–c,4a–b,5–6,8a–b,9a–b; fig.10, nos.1–4. Holotype: Jafar, 1983, fig.9, nos.8a–b. **Taxonomic senior synonym** (at specific rank): *Prinsiosphaera* (now *Orthopithonella*) *geometrica*, according to Janofske (1987, p.50). Janofske (1987, p.50) considered some specimens of this taxon illustrated by Jafar (1983 — figs.9, nos.3a–c,4a–b,8a–b,9a–b), including the type, to belong to *Orthopithonella geometrica*. Age: Rhaetian.

PRISCOGALEA Deunff, 1961a, p.40. Emendation: Rasul, 1974, p.47. Acritarch genus. Type: Deunff, 1961a, pl.1, fig.7, as *Priscogalea barbara*.

"*cristata*" (Downie, 1958, p.338–339, pl.16, fig.4; text-fig.4f) Martin, 1969, p.85. Holotype: Downie, 1958, pl.16, fig.4. **NOW** *Cymatiogalea* (Appendix A). Originally *Hystriosphæridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Priscogalea*, fourthly (and now) *Cymatiogalea* (Appendix A). Taxonomic junior synonym: *Cymatiogalea polygonomorpha* Górka, 1967, an acritarch species, according to Rasul (1974, p.56). Age: Early Ordovician.

PRISMATOCYSTIS Habib, 1969, p.98. Acritarch genus. Type: Habib, 1969, pl.3, fig.11, as *Prismatocystis ewingii*.

"*cylindrica*" Habib, 1970, p.374, pl.10, fig.2. Emendations: Prauss, 1989, p.47–48; Feist-Burkhardt and Monteil, 1994, p.7; Riding, 1994, p.18, all as *Wallodinium cylindricum*. Holotype: Habib, 1970, pl.10, fig.2. **NOW** *Wallodinium*. Originally *Prismatocystis*, subsequently *Hexagonifera*, thirdly (and now) *Wallodinium*. Taxonomic junior synonym: *Fromea* (as *Wallodinium*, now *Phallocysta*) *elongata*, according to Duxbury (1983, p.68) — however, Feist-Burkhardt and Monteil in Feist-Burkhardt (1990, p.615) retained *Fromea* (as *Andreedinium*) *elongata*. Age: Albian–Cenomanian.

**ewingii* Habib, 1969, p.98, pl.3, fig.11. Holotype: Habib, 1969, pl.3, fig.11. Age: Albian–early Cenomanian.

PROLIXOSPHAERIDIOPSIS Hogg and Bailey, 1997, p.50. Acritarch genus. Type: McIntyre and Brideaux, 1980, pl.7, figs.1–4, as *Cleistosphaeridium spissum*.

**spissa* (McIntyre and Brideaux, 1980, p.20, pl.7, figs.1–9) Hogg and Bailey, 1997, p.50. Holotype: McIntyre and Brideaux, 1980, pl.7, figs.1–4. Originally *Cleistosphaeridium*, subsequently *Prolixosphaeridium*?, thirdly (and now) *Prolixosphaeridiopsis*. Age: Valanginian.

PSEUDOFROMEA Burger, 1980b, p.276. Acritarch genus. Type: Burger, 1980b, fig.12A, as *Pseudofromea collaris*.

**collaris* Burger, 1980b, p.276–277, figs.12A–C,13. Holotype: Burger, 1980b, fig.12A. Age: Barremian.

PSEUDOPITHONELLA Trejo, 1983, p.11. A calcisphere genus according to Elbrächter et al. (2008, p.1303). This name was proposed under the I.C.Z.N. and the homonym *Pseudopithonella* Versteegh does not compete against it unless it is brought under the I.C.N. Elbrächter et al. (2008, p.1301) stated "Trejo (1983) validly published *Pseudopithonella* Trejo under the I.C.Z.N., but we do not consider this fossil as belonging to any group of organisms governed by the I.C.B.N. [now I.C.N.] (... even the Dinophyceae)".

PTEROCYSTIDIOPSIS Deflandre, 1937b, p.90. Acritarch genus. Taxonomic junior synonym: *Caddasphaera*, by implication in Courtinat in Courtinat and Gaillard (1980, p.80), who transferred the "type species" of *Caddasphaera*, *Caddasphaera halosa*, to *Pterocystidiopsis* — however, Lentin and Williams (1981, p.31,237) retained *Caddasphaera*. This name was not validly published in Deflandre (1935, p.234) since no description was given. Type: Deflandre, 1937b, pl.17 (al. pl.14), figs.7–8, as *Pterocystidiopsis stephaniana*.

albertii Ioannides et al., 1977, p.465, pl.5, fig.20. Holotype: Ioannides et al., 1977, pl.5, fig.20. Age: Kimmeridgian.

?*angulosa* Deflandre, 1941, p.23–24, pl.6, figs.6–10. Holotype: Deflandre, 1941, pl.6, fig.6. Questionable assignment: Deflandre (1941, p.23). Age: Late Jurassic.

bottnica Tynni, 1976, p.35, pl.4, fig.8; text-fig.39b. Holotype: Tynni, 1976, pl.4, fig.8; text-fig.39b. Age: Middle Ordovician.

durandiae Henry, 1969, p.90–91, pl.12, figs.87–88. Holotype: Henry, 1969, pl.12, fig.88. Age: Caradoc.

elegans Tynni, 1976, p.35, pl.4, fig.7; text-fig.39a. Holotype: Tynni, 1976, pl.4, fig.7; text-fig.39a. Age: Middle Ordovician.

"*halosa*" (Filatoff, 1975, p.91, pl.29, figs.10–11) Courtinat in Courtinat and Gaillard, 1980, p.80. Emendation: Prauss, 1989, p.42, as *Pareodinia halosa*. Holotype: Filatoff, 1975, pl.29, fig.10. **NOW** *Pareodinia*. Originally *Kalyptea*, subsequently *Kalyptea*?, thirdly *Caddasphaera*, fourthly *Pterocystidiopsis*, fifthly (and now) *Pareodinia*. Age: Bajocian.

magnaiensis Song Zhichen in Zhu Zunghao et al., 1985, p.59, pl.2, fig.8. Holotype: Zhu Zunghao et al., 1985, pl.2, fig.8. Age: early-middle Miocene.

ornata Deflandre, 1937b, p.91–92, pl.18 (al. pl.15), figs.1–3. Holotype: Deflandre, 1937b, pl.18 (al. pl.15), figs.1–3. Age: Late Cretaceous.

**stephaniana* Deflandre, 1937b, p.91, pl.17 (al. pl.14), figs.7–9. Holotype: Deflandre, 1935, pl.9, fig.2; Deflandre, 1937b, pl.17 (al. pl.14), figs.7–8. This species was not validly published in Deflandre (1935, p.234; caption to pl.9, fig.2) since that author did not provide a description. Age: Cenomanian.

treptensis Courtinat in Courtinat and Gaillard, 1980, p.81–82, pl.6, figs.4,6. Holotype: Courtinat and Gaillard, 1980, pl.6, fig.4. Originally (and now) *Pterocystidiopsis*, subsequently *Caddasphaera*. Lentin and Williams (1993, p.550) retained this species in *Pterocystidiopsis*. Age: late Oxfordian.

"*velata*" Deflandre and Cookson, 1955, p.291, pl.8, fig.8. Holotype: Deflandre and Cookson, 1955, pl.8, fig.8. **NOW** *Thalassiphora*. Originally *Pterocystidiopsis*, subsequently (and now) *Thalassiphora*, thirdly *Disphaeria*. Taxonomic senior synonym: *Pterospermopsis* (now *Thalassiphora*) *pelagica*, according to Benedek and Gocht (1981, p.59) and Sarjeant (1981, p.117) — however, Brinkhuis and Biffi (1993, p.179) retained *Pterocystidiopsis* (as and now *Thalassiphora*) *velata*. Age: Early Tertiary.

PTEROSPERMA Pouchet, 1893, p.178. Modern prasinophyte genus. Type: information not available.

"*labyrinthus*" Ostefeld, 1903, p.578, fig.127. Holotype: Ostefeld, 1903, fig.127. **NOW** *Nematosphaeropsis*. Originally *Pterosperma*, subsequently *Pterococcus* (combination illegitimate), thirdly *Coccopterum*, fourthly (and now) *Nematosphaeropsis*. Taxonomic junior synonym: *Nematosphaeropsis balcombiana*, according to Reid (1974, p.592) — however, Wrenn (1988, p.139) retained *Nematosphaeropsis balcombiana*. Motile equivalent: *Gonyaulax spinifera* (Claparède and Lachmann, 1859) Diesing, 1866, according to Dodge (1989, p.289). N.I.A. Age: extant.

PTEROSPERMELLA Eisenack, 1972, p.597. Prasinophyte genus. For discussion of status of this genus see Fensome et al. (1990, p.425). Type: Cookson and Eisenack, 1958, pl.9, fig.11, as *Pterospermopsis aureolata*.

"*spinosa*" (Clarke and Verdier, 1967, p.77–78, pl.17, figs.1–2; text-fig.31) Eisenack et al., 1973, p.1011–1012. Holotype: Clarke and Verdier, 1967, pl.17, fig.1. **NOW** *Whitecliffia*. Originally *Pterospermopsis* (Appendix A), subsequently *Pterospermella* (Appendix A), thirdly *Thalassiphora*?, fourthly (and now) *Whitecliffia*. Taxonomic

junior synonym: *Hexagonifera perforata* (name not validly published), according to Slimani (2001a, p.194). Age: Santonian.

PTEROSPERMOPSIS Wetzel, 1952, p.411. Emendation: Sarjeant, 1984a, p.143–145. Acritarch genus. For synonymy see Fensome et al. (1990, p.429). Type: Wetzel, 1952, pl.16, fig.34 as *Pterospermopsis danica*.

danica Wetzel, 1952, p.412, pl.16, fig.34. Emendation: Sarjeant, 1984c, p.145–146. Holotype: Wetzel, 1952, pl.16, fig.34; Dietz et al., 1999, text-fig.6d. Age: Danian.

"pelagica" Eisenack, 1954b, p.71, pl.12, figs.17–18. Emendation: Benedek and Gocht, 1981, p.59–61, as *Thalassiphora pelagica*. Holotype: Eisenack, 1954b, pl.12, fig.17. **NOW** *Thalassiphora*. Originally *Pterospermopsis*, subsequently (and now) *Thalassiphora*, thirdly *Disphaeria*. Taxonomic junior synonyms: *Thalassiphora sueroi* and *Thalassiphora* (as *Disphaeria*) *balcanica*, both according to Stover and Evitt (1978, p.194) — however, Sütő-Szentai (2000, p.162) retained *Thalassiphora* (as *Spiniferites*) *balcanica*. *Pterocystidiopsis* (as *Thalassiphora*) *velata* and *Adnatosphaeridium* (as *Thalassiphora*) *patulum*, both according to Benedek and Gocht (1981, p.59) — however, Lentin and Williams (1985, p.354) retained *Thalassiphora patula* and Brinkhuis and Biffi (1993, p.179) retained *Pterocystidiopsis* (as and now *Thalassiphora*) *velata*; *Subathua sahnii*, according to Lentin and Williams (1985, p.340) — however, *Subathua sahnii* is now considered to be a taxonomic junior synonym of *Adnatosphaeridium* (as and now *Thalassiphora*) *patulum*; *Subathua spinosa*, according to Lentin and Williams (1985, p.340) — however, Stover and Williams (1987, p.207) retained *Subathua* (as *Thalassiphora*) *spinosa* (now *Thalassiphora simlaensis*). Age: late Eocene–early Oligocene.

"spinosa" Clarke and Verdier, 1967, p.77–78, pl.17, figs.1–2; text-fig.31. Holotype: Clarke and Verdier, 1967, pl.17, fig.1. **NOW** *Whitecliffia*. Originally *Pterospermopsis* (Appendix A), subsequently *Pterospermella* (Appendix A), thirdly *Thalassiphora?*, fourthly (and now) *Whitecliffia*. Taxonomic junior synonym *Hexagonifera perforata* (name not validly published), according to Slimani (2001a, p.194). Age: Santonian.

"?vancampoe" Rossignol, 1962, p.134, pl.2, fig.1. Holotype: Rossignol, 1962, pl.2, fig.1. **NOW** *Tuberculodinium*. Originally *Pterospermopsis?*, subsequently (and now) *Tuberculodinium*, thirdly *Pyrophacus* (Appendix B). Questionable assignment: Rossignol (1962, p.134). Taxonomic junior synonym: *Membranilarnacia donaensis*, according to Jain and Garg (1990, p.108). Motile equivalent: *Pyrophacus steinii* (Schiller, 1935) Wall and Dale, 1971, according to Matsuoka et al. (1989, p.94). Age: Pleistocene.

PULVINOSPHAERIDIUM Eisenack, 1954a, p.210. Emendation: Sarjeant and Stancliffe, 1994, p.52. Acritarch genus. For synonymy see Fensome et al. (1990, p.433). Type: Eisenack, 1954a, pl.1, fig.10, as *Pulvinosphaeridium pulvinellum*.

"balticum" (Eisenack, 1951, p.190, pl.3, figs.10–11) Eisenack, 1954a, p.210. Holotype: Eisenack, 1951, pl.3, fig.10. **Combination not validly published:** basionym not fully referenced. **NOW** *Pachysphaeridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Pulvinosphaeridium* (combination not validly published), thirdly *Veryhachium* (Appendix A), fourthly *Goniosphaeridium* (Appendix A), fifthly *Baltisphaeridium* (Appendix A), sixthly *Estiastra* (Appendix A), seventhly (and now) *Pachysphaeridium* (Appendix A). Age: Early Ordovician.

"oligospinosum" (Eisenack, 1934, p.64–65, pl.4, figs.15–18 ex Eisenack, 1938a, p.12) Eisenack, 1954a, p.210. Holotype: Eisenack, 1934, pl.4, fig.18, lost according to Eisenack et al. (1973, p.494). **NOW** *Estiastra?* *oligospinosa* (Appendix A). Originally *Ovum hispidum* subsp. *oligospinosum* (name not validly published, Appendix A), subsequently *Hystrichosphaeridium oligospinosum*, thirdly *Pulvinosphaeridium oligospinosum*, fourthly *Veryhachium oligospinosum* (Appendix A), fifthly *Goniosphaeridium oligospinosum* (Appendix A), sixthly (and now) *Estiastra?* *oligospinosa* (Appendix A). Age: Silurian (erratic).

QUADRINA Bujak in Bujak et al., 1980, p.90. Acritarch genus. Type: Bujak et al., 1980, pl.22, fig.9, as *Quadrina pallida*.

?*condita* de Verteuil and Norris, 1992, p.420,423, pl.6, figs.7–12; pl.12, fig.1; text-fig.11. Holotype: de Verteuil and Norris, 1992, pl.6, fig.7. Questionable assignment: de Verteuil and Norris (1992, p.420), who regarded this species as algae incertae sedis. Age: middle-late Miocene.

**pallida* Bujak in Bujak et al., 1980, p.90–91, pl.22, figs.9–11. Holotype: Bujak et al., 1980, pl.22, fig.9. Age: middle Eocene.

RHABDOSPHAERA Haeckel, 1894. Extant coccolithophorid genus. Further information not available.

"*erinacea*" Kamptner, 1937, p.71. Holotype: Kamptner, 1937, pl.1, figs.6–7; fig.2. Epitype: Kretschmann et al. 2014, figs.4–5, designated by Kretschmann et al. (2014, figs.4–5). **NOW** *Scrippsiella* (Appendix B). Originally *Rhabdosphaera*, subsequently *Rhabdothorax*, thirdly (and now) *Scrippsiella* (Appendix B). Taxonomic senior synonym: *Glenodinium* (now *Scrippsiella*) *trochoideum* (Appendix B, under *Scrippsiella*), according to Janofske (2000, p.180); however Kretschmann et al. (2014, p.403) retained this species. Age: extant.

RHACOBRACTION Dorning, 1981, p.198. Acritarch genus. The second part of the generic name is based on the Greek masculine noun "*brachion*" (arm), and hence adjectival specific epithets should be conjugated accordingly. Type: Cramer, 1964, pl.1, fig.8, as *Baltisphaeridium malum*.

**malus* (Cramer, 1964, p.297, pl.1, figs.6,8,10; text-fig.19, nos.10–12) Dorning, 1981, p.198. Holotype: Cramer, 1964, pl.1, fig.8. Originally *Baltisphaeridium* (Appendix A), subsequently *Evittia* Brito (Appendix A), thirdly *Hystrichosphaeridium* (combination not validly published), fourthly *Multiplicisphaeridium* (Appendix A), fifthly (and now) *Rhacobracion*. Sarjeant and Vavrdova (1997, p.10) retained this species in *Rhacobracion*. Age: Silurian (Ludlow).

RHOMBODELLA Cookson and Eisenack, 1962b, p.496. Emendations: Jiabo, 1978, p.49; Mao Shaozhi et al., 1995, p.60. Acritarch genus. Taxonomic senior synonym: *Palaeotetradinium*, according to Stover and Evitt (1978, p.70–71) — however, Duxbury (1980, p.134–135) retained *Rhombodella*. Type: Cookson and Eisenack, 1962b, pl.7, fig.13, as *Rhombodella natans*.

acantha Xu Jinli et al., 1997, p.45–46, pl.42, figs.10–11 ex He Chengquan et al., 2009, p.474,661–662. Holotype: Xu Jinli et al., 1997, pl.42, fig.10. This name was not validly published in Xu Jinli et al. (1997), since no English or Latin description was provided; He Chengquan et al. (2009, p.661–662) validated the name by publishing an English diagnosis. Age: Oligocene.

baculata Jiabo, 1978, p.49, pl.24, figs.14–15. Holotype: Jiabo, 1978, pl.24, fig.14. Age: Early Tertiary.

"*bifurcata*" Jiabo, 1978, p.50, pl.24, figs.16–17. Holotype: Jiabo, 1978, pl.24, fig.17. **NOW** *Pararhombodella*. Originally *Rhombodella*, subsequently (and now) *Pararhombodella*. Age: Early Tertiary.

"*commixtum*" Tang in Cai Zhiguo et al., 1998, p.245, pl.82, fig.10 Holotype: Cai Zhiguo et al., 1998, pl.82, fig.10. **Name not validly published:** no Latin or English description or diagnosis. The specific epithet was given as "*commixtun*" in the protologue. Age: information not available

elongata He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.64, pl.19, fig.2. Holotype: He Chengquan et al., 1989, pl.19, fig.2. Mao Shaozhi et al. (1995, p.99) indicated that this name should be restricted to the holotype. Age: Early Tertiary.

"*formosa*" Zheng Yuefang and Liu Xuexian in Liu Zhili et al., 1992, p.82, pl.8, figs.14–18. Holotype: Liu Zhili et al., 1992, pl.8, fig.16. **Taxonomic senior synonym:** *Rhombodella* (now *Pararhombodella*) *verruciformis*, according to Xu Jinli et al. (1997, p.96). Age: Early Tertiary.

granulata Zheng Yuefang and Liu Xuexian in Liu Zhili et al., 1992, p.82, pl.8, figs.19–22. Holotype: Liu Zhili et al., 1992, pl.8, fig.19. The authors attributed this species to the dinoflagellates. Age: Early Tertiary.

"kendelbachia" Morbey, 1975, p.38, pl.14, figs.1–4; pl.17, figs.1–3. Holotype: Morbey, 1975, pl.14, fig.1; pl.17, fig.1. **NOW** *Heibergella*. Originally *Rhombodella*, subsequently *Chytroeisphaeridia*, thirdly (and now) *Heibergella*. Age: Rhaetian.

laevigata Liu Zhili and Zheng Yuefang in Liu Zhili et al., 1992, p.82, pl.8, figs.1–5. Holotype: Liu Zhili et al., 1992, pl.8, fig.5. The authors attributed this species to the dinoflagellates. Age: Early Tertiary.

"*natans" Cookson and Eisenack, 1962b, p.496, pl.7, figs.12–13. Holotype: Cookson and Eisenack, 1962b, pl.7, fig.13. Originally *Rhombodella*, subsequently *Palaeotetradinium*. **Taxonomic senior synonym:** *Palaeohystrichophora* (as and now *Rhombodella paucispina*, according to Stover and Evitt (1978, p.71). The nomenclatural type of the genus *Rhombodella* remains the holotype of *Rhombodella natans*. Age: Aptian–Albian.

papillifera He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.64, pl.19, fig.1. Holotype: He Chengquan et al., 1989, pl.19, fig.1. Mao Shaozhi et al. (1995, p.99) indicated that this name should be restricted to the holotype. Age: Early Tertiary.

+paucispina (Alberti, 1961, p.19–20, pl.3, fig.25) Duxbury, 1980, p.136. Holotype: Alberti, 1961, pl.3, fig.25. Originally *Palaeohystrichophora*, subsequently *Palaeotetradinium*, thirdly (and now) *Rhombodella*. Lentin and Williams (1981, p.242) retained this species in *Rhombodella*. Taxonomic junior synonym: *Rhombodella natans*, according to Stover and Evitt (1978, p.71). The nomenclatural type of the genus *Rhombodella* remains the holotype of *Rhombodella natans*. Age: Albian.

"symphyanthera" He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.64–65, pl.19, figs.3–5. Holotype: He Chengquan et al., 1989, pl.19, fig.5. **Taxonomic senior synonym:** *Rhombodella* (as and now *Pararhombodella*) *tubiforma*, according to Xu Jinli et al. (1997, p.92). Age: Early Tertiary.

"tubiforma" Jiabo, 1978, p.50, pl.24, figs.12–13. Holotype: Jiabo, 1978, pl.24, fig.12. **NOW** *Pararhombodella*. Originally *Rhombodella*, subsequently (and now) *Pararhombodella*. Age: Early Tertiary.

"variabilis" Jiabo, 1978, p.50, pl.24, figs.7–11. Holotype: Jiabo, 1978, pl.24, fig.11. **NOW** *Pararhombodella*. Originally *Rhombodella*, subsequently (and now) *Pararhombodella*. Age: Early Tertiary.

"verruciformis" He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.65–66, pl.19, figs.9–11. Holotype: He Chengquan et al., 1989, pl.19, fig.10. **NOW** *Pararhombodella*. Originally *Rhombodella*, subsequently (and now) *Pararhombodella*. Taxonomic junior synonym: *Rhombodella formosa*, according to Xu Jinli et al. (1997, p.96). Age: Early Tertiary.

vesca Duxbury, 1980, p.135–136, pl.5, figs.7,10; text-fig.16. Holotype: Duxbury, 1980, pl.5, figs.7,10. Age: Barremian.

RUGASPHAERA Jiabo, 1978, p.105–106. Acritarch genus. Junior homonym: *Rugasphaera* Martin in Martin and Dean, 1988, an acritarch genus. Type: Jiabo, 1978, pl.40, fig.13, as *Rugasphaera corrugis*.

"operculata" Jiabo, 1978, p.107, pl.40, figs.17–20; pl.48, figs.3a–b. Holotype: Jiabo, 1978, pl.40, fig.19. **NOW** *Bosedinia*. Originally *Rugasphaera*, subsequently *Bosea* (combination illegitimate), thirdly (and now) *Bosedinia*. Age: late Eocene–Oligocene.

"SARJEANTIA" Horowitz, 1975, p.25. Emendation: Fensome and Sarjeant, 1982, p.51,53. Spore genus. **Taxonomic senior synonym:** *Aratrisporites* Leschik, 1956, a monoete spore, according to Conway and Cousminer (1983, p.35) and Fensome et al. (1993b, p.191). Sarjeant (1988, p.177–180) maintained that this genus represents dinoflagellates. Type: Horowitz, 1975, pl.1, fig.7, as *Sarjeantia triassica*.

"**triassica*" Horowitz, 1975, p.25, pl.1, fig.7. Emendation: Fensome and Sarjeant, 1982, p.53–54. Holotype: Horowitz, 1975, pl.1, fig.7. **Taxonomic senior synonym:** *Aratrisporites fimbriatus* Playford and Dettmann, 1965, a monolete spore, according to Conway and Cousminer (1983, p.35). Age: Late Triassic.

SCHIZOCYSTIA Cookson and Eisenack, 1962a, p.270. Acritarch genus. Taxonomic senior synonym: *Tetraporina* (Appendix A), by implication in Elsik (1968, p.286), who transferred the "type species", *Schizocystia rugosa*, to *Tetraporina* — however, most subsequent authors (e.g. Backhouse, 1988, p.115), retained *Schizocystia*. Type: Cookson and Eisenack, 1962a, pl.37, fig.11, as *Schizocystia rugosa*.

?*bicornuta* Jardiné et al., 1974, p.116, pl.1, fig.5. Holotype: Jardiné et al., 1974, pl.1, fig.5. Questionable assignment: Jardiné et al. (1974, p.116). Age: Famennian.

"*laevigata*" Cookson and Eisenack, 1962a, p.270–271, pl.37, figs.13–14. Holotype: Cookson and Eisenack, 1962a, pl.37, fig.13. **Taxonomic senior synonym:** *Schizocystia rugosa*, according to Elsik (1968, p.286). Age: ?late Albian–Cenomanian.

lundii Poulsen, 1996, p.88–89, pl.45, figs.3–4. Holotype: Poulsen, 1996, pl.45, fig.4. Age: Rhaetian–Toarcian.

nonmarina Chlonova, 1976, p.63–64, pl.1, figs.16–17; pl.20, figs.23–26. Holotype: Chlonova, 1976, pl.1, fig.17; pl.20, figs.24–26. Age: ?Albian–Cenomanian.

pilosa Jardiné et al., 1972, p.297, pl.1, figs.7–8. Holotype: Jardiné et al., 1972, pl.1, fig.8. Age: ?Gedinnian.

rara Playford and Dettmann, 1965, p.160–161, pl.17, figs.67–69. Holotype: Playford and Dettmann, 1965, pl.17, fig.67. Age: Triassic (Rhaetian)–Early Jurassic.

**rugosa* Cookson and Eisenack, 1962a, p.270, pl.37, figs.11–12. Holotype: Cookson and Eisenack, 1962a, pl.37, fig.11. Originally (and now) *Schizocystia*, subsequently *Tetraporina* (Appendix A). Backhouse (1988, p.115) retained this species in *Schizocystia*. Taxonomic junior synonym: *Schizocystia laevigata*, according to Elsik (1968, p.286). Age: ?late Albian–Cenomanian.

saharica Jardiné et al., 1974, p.116, pl.1, fig.3. Holotype: Jardiné et al., 1974, pl.1, fig.3. Age: ?Gedinnian.

SCHIZOSPHAERELLA Deflandre and Dangeard, 1938, p.1115–1117. Calcisphere genus (see Streng et al., 2004, p.481 and Elbrächter et al., 2008, p.1303). Kálin and Bernoulli (1984, p.414–415) provisionally attributed this genus to the dinoflagellates; and Řehánek and Cecca (1993, p.156) firmly attributed it to the dinoflagellate order Thoracosphaerales. Type: none designated — "type species" *Schizosphaerella punctulata*.

"*astraea*" Moshkovitz, 1979, p.458–459, pl.2, figs.1–8. **Name not validly published:** holotype not designated. Age: Sinemurian–Pliensbachian.

"*minutissima*" (Colom, 1935, p.12, pl.2, fig.8; text-fig.4a [four specimens]) Řehánek and Cecca, 1993, p.156. **Name not validly published:** holotype not designated. Originally *Fibrosphaera* (name not validly published; Appendix A), subsequently *Stomiosphaera* (name not validly published), thirdly *Colomisphaera* (name not validly published), fourthly *Schizosphaerella* (name not validly published). Designation of a holotype was a requirement of the I.C.Z.N. at the time that Colom (1935) proposed this name. Age: Late Early Jurassic.

**punctulata* Deflandre and Dangeard, 1938, p.1115–1117, figs.1–6. Holotype: not designated. Age: Hettangian–Kimmeridgian.

SHANBEIPOLLENITES Qian Lijun and Wu Jingyun in Qian Lijun et al., 1987, p.72. Gymnosperm pollen genus. Emendation: Schrank, 2004, p.303–304. Type: Qian Lijun et al., 1987, pl.14, fig.29, as *Shanbeipollenites quadrangulatus*.

quadratum (Kumar, 1987a, p.242, pl.2, figs.8–9) Schrank, 2004, p.304. Holotype: Kumar, 1987a, pl.2, fig.8. Originally *Mendicodinium*, subsequently (and now *Shanbeipollenites*). Age: early Kimmeridgian–Tithonian.

SICYOIDIUM He Chengquan, 1980, p.8. Acritarch genus. Type: He Chengquan, 1980, pl.1, fig.21, as *Sicyoidium ansatum*.

***ansatum** He Chengquan, 1980, p.8, pl.1, figs.21–22. Holotype: He Chengquan, 1980, pl.1, fig.21. Age: Oligocene.

circulare He Chengquan et al., 2009, p.246, 550,646, pl.177, fig.6. Holotype: He Chengquan et al., 2009, pl.177, fig.6. Age: Oligocene.

opimum He Chengquan, 1984b, p.186, pl.10, figs.15–18. Holotype: He Chengquan, 1984b, pl.10, fig.15. Age: middle-late Oligocene.

SKIAGIA Downie, 1982, p.262–263. Acritarch genus. Type: Downie, 1982, fig.9c, as *Skiagia scottica*.

insignis (Fridriksone, 1971, p.14–16, pl.2, figs.10–22) Downie, 1982, p.263–264. Holotype: Fridriksone, 1971, pl.2, fig.10. Originally *Hystrichosphaeridium?*, subsequently *Baltisphaeridium* (Appendix A), thirdly (and now) *Skiagia*. Age: Early-Mid Cambrian.

SOLISPHAERIDIUM Staplin et al., 1965, p.183–184. Emendations: Sarjeant, 1968, p.222; Moczydłowska, 1998, p.98–99. Acritarch genus. Taxonomic senior synonym: *Micrhystridium* (Appendix A), according to Sarjeant and Stancliffe (1994, p.12) — however, Moczydłowska (1998, p.98) retained *Solisphaeridium*. For synonymy see Fensome et al. (1990, p.453). Type: Deflandre, 1939a, pl.10, fig.10, as *Hystrichosphaeridium stimulierum*.

"clavicularum" (Deflandre, 1939a, p.191–192, pl.10, fig.4) Sarjeant, 1968, p.223. Emendation: Sarjeant, 1968, p.223, as *Solisphaeridium clavicularum*. Holotype: Deflandre, 1939a, pl.10, fig.4. **NOW** *Micrhystridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Solisphaeridium*, fourthly (and now) *Micrhystridium* (Appendix A). Age: Late Jurassic.

"delicatum" (Wall, 1965a, p.156, pl.1, figs.11–13; pl.7, fig.6) Riley and Sarjeant, 1972, table 1. Holotype: Wall, 1965a, pl.1, fig.11. **Combination not validly published:** basionym not fully referenced. **NOW** *Beaumontella?*. Originally *Baltisphaeridium* (Appendix A), subsequently *Solisphaeridium* (combination not validly published), thirdly (and now) *Beaumontella?*. Age: Hettangian–early Sinemurian.

"filamentosum" Heisecke, 1970, p.256, pl.8, fig.6; pl.11, figs.2–3. Holotype: Heisecke, 1970, pl.8, fig.6; pl.11, fig.2. **Taxonomic senior synonym:** *Cleistosphaeridium* (now *Lingulodinium*) *bergmannii*, according to Quattrocchio and Sarjeant, 2003, p.142. Age: Paleocene.

"lucidum" (Deunff, 1959, p.25–26, pl.9, figs.80,82–83,85–89) Turner, 1985, p.226–228. Holotype: Deunff, 1959, pl.9, fig.82. **NOW** *Micrhystridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Solisphaeridium*. Age: Ordovician (Caradoc).

"nanus" (Deflandre, 1945a, p.62–63, pl.1, figs.5–7) Turner, 1984, p.136–137. Holotype: Deflandre, 1945a, pl.1, figs.5–6. **NOW** *Polygonium nanus* (Appendix A). Originally *Hystrichosphaeridium brevispinosum* var. *nanus*, subsequently *Baltisphaeridium brevispinosum* var. *nanus* (combination not validly published, Appendix A), thirdly *Baltisphaeridium nanus* (Appendix A), fourthly *Micrhystridium nanus* (Appendix A), fifthly (and now) *Polygonium nanus* (Appendix A), sixthly *Solisphaeridium nanus*. Taxonomic junior synonym: *Baltisphaeridium brevispinosum*

var. *wenlockense* (subsequently *Salopidium wenlockense*) Downie, 1959, an acritarch species, according to Lister (1970, p.54). N.I.A. Age: Silurian.

"?*seminudum*" (Wetzel, 1952, p.405, text-fig.26) Sarjeant, 1984a, p.143. Holotype: Wetzel, 1952, text-fig.26. **NOW** *Micrhystridium*? (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Solisphaeridium*, fourthly (and now) *Micrhystridium* (Appendix A). Questionable assignment: Sarjeant (1984a, p.143). Age: Paleocene (Danian).

**stimuliferum* (Deflandre, 1939a, p.192; pl.10, fig.10) Pocock, 1972, p.113. Holotype: Deflandre, 1939a, pl.10, fig.10. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly (and now) *Solisphaeridium*, fourthly *Filisphaeridium* (combination not validly published, Appendix A), fifthly *Micrhystridium* (Appendix A). Moczyłowska (1998, p.98) retained this species in *Solisphaeridium*. Age: Late Jurassic.

"subsp. *complanatum*" (Wetzel, 1952, p.404–405, pl.A, figs.11a–b) Sarjeant, 1984c, p.142. Emendation: Sarjeant, 1984c, p.142, as *Solisphaeridium stimuliferum* subsp. *complanatum*. Holotype: Wetzel, 1952, pl.A, figs.11a–b; Sarjeant, 1984c, pl.4, fig.6; text-fig.13. **NOW** *Micrhystridium stimuliferum*? subsp. *complanatum* (Appendix A). Originally *Hystrichosphaeridium oligacanthum* subsp. *complanatum*, subsequently *Baltisphaeridium oligacanthum* subsp. *complanatum* (Appendix A), thirdly *Cleistosphaeridium? oligacanthum* subsp. *complanatum*, fourthly *Solisphaeridium stimuliferum* subsp. *complanatum*, fifthly (and now) *Micrhystridium stimuliferum*? subsp. *complanatum* (Appendix A). Age: Paleocene.

"subsp. *stimuliferum*". Autonym. Holotype: Deflandre, 1939a, pl.10, fig.10. **NOW** *Micrhystridium stimuliferum* subsp. *stimuliferum* (Appendix A). Originally *Solisphaeridium stimuliferum* subsp. *stimuliferum* (Appendix A), subsequently (and now) *Micrhystridium stimuliferum* subsp. *stimuliferum* (Appendix A).

SPICADINIUM Batten and Lister, 1988, p.357. Acritarch genus. Type: Batten and Lister, 1988, figs.5j–k, as *Spicadinium akidoton*.

**akidoton* Batten and Lister, 1988, p.357–358, figs.4d,5j–k. Holotype: Batten and Lister, 1988, figs.5j–k. Taxonomic junior synonym: *Cleistosphaeridium nenjiangense*, according to Mao Shaozhi et al. (1999, p.159). Age: Hauterivian.

"*nenjiangense*" (Gao Ruiqi et al., 1992a, p.18,24, pl.3, figs.1–9; pl.4, figs.1–7) Schrank, 2001, p.204. Holotype: Gao Ruiqi et al., 1992a, pl.3, fig.1. Originally *Cleistosphaeridium*, subsequently *Impletosphaeridium*, thirdly *Spicadinium*. **Taxonomic senior synonym:** *Spicadinium akidoton*, according to Mao Shaozhi et al. (1999, p.159). This combination was also proposed by Masure in Fauconnier and Masure (2004, p.346). In proposing this combination, neither Schrank nor Masure acknowledged the synonymy proposed by Mao Shaozhi et al. (1999); we therefore follow the latter treatment. Age: Campanian.

SPINULIFERITES Huang Tsengchieng, 1981, p.51. Acritarch genus. Type: Huang Tsengchieng, 1981, pl.2, fig.13, as *Spinuliferites taiwanensis*.

**taiwanensis* Huang Tsengchieng, 1981, p.51, pl.2, fig.13. Holotype: Huang Tsengchieng, 1981, pl.2, fig.13. Age: Miocene.

STELLECHINATUM Turner, 1984, p.137. Acritarch genus. Type: Martin, 1969, pl.4, fig.206, as *Veryhachium celestum*.

spiciferum (Deunff, 1955, p.146, pl.3, fig.1; text-fig.26) Sarjeant and Vavrdova, 1997, p.31. Holotype: Deunff, 1955, pl.3, fig.1. Originally *Hystrichosphaeridium*, subsequently *Veryhachium* (combination not validly published, Appendix A), thirdly *Baltisphaeridium* (Appendix A), fourthly *Evittia Brito* (combination not validly published,

Appendix A), fifthly *Multiplicisphaeridium* (Appendix A), sixthly (and now) *Stellechinatum*. Age: Middle Devonian.

uncinatum (Downie, 1958, p.337; text-fig.2a) Molyneux, 1987, p.342,344. Holotype: Downie, 1958, text-fig.2a. Originally *Hystrichosphaeridium longispinosum* var. *uncinatum*, subsequently *Baltisphaeridium longispinosum* var. *uncinatum* (Appendix A), thirdly *Baltisphaeridium uncinatum* (Appendix A), fourthly *Micrhystridium uncinatum* (Appendix A), fifthly *Goniosphaeridium uncinatum* (Appendix A), sixthly *Polygonium uncinatum* (Appendix A), seventhly *Goniosphaeridium polygonale* subsp. *uncinatum* (combination not validly published, Appendix A), eighthly (and now) *Stellechinatum uncinatum*. Taxonomic junior synonym: *Goniosphaeridium regulare* Yin Leiming in Chen Junyuan et al., 1985, an acritarch species, according to Yin Leiming (1986, p.347). Age: Early Ordovician.

STRIATOTHECA Burmann, 1970, p.299–300. Emendation: Sarjeant and Stancliffe, 1994, p.46. Acritarch genus. Type: Burmann, 1970, pl.11, fig.1, as *Striatotheca principalis*.

geometrica (Deflandre, 1945a, p.64–65, pl.2, figs.2–5) Sarjeant and Stancliffe, 1994, p.46. Holotype: Deflandre, 1945a, pl.2, fig.2. Originally *Hystrichosphaeridium geometricum*, subsequently *Veryhachium geometricum* (Appendix A), thirdly *Veryhachium trispinosum* subsp. *geometricum* (combination not validly published, Appendix A), fourthly (and now) *Striatotheca geometrica*. Age: Middle Silurian.

"SVENKODINIUM" Gedl, 1996, p.214. **Name not validly published:** type not validly published. Acritarch genus. **Taxonomic senior synonym:** *Nannobarbophora* (Appendix A), according to Head (2003b, p.383). Type: Gedl, 1996, figs.16i–k, as *Svenkodium minimum*.

"*minimum" Gedl, 1996, p.214, figs.12J,16a–b,i–k,N–P,R. **Name not validly published:** repository of holotype not indicated. Holotype: Gedl, 1996, figs.16i–k. **Taxonomic senior synonym:** *Nannobarbophora gedlii* (Appendix A), according to Head (2003b, p.383). Age: middle Miocene.

"versteeghii" Gedl, 1996, p.214, figs.12K–L,16c–h,l,M,P. **Name not validly published:** repository of holotype not indicated. Holotype: Gedl, 1996, figs.16d,h,l. **Taxonomic senior synonym:** *Nannobarbophora gedlii* (Appendix A), according to Head (2003b, p.383). Age: middle Miocene.

TASMANITES Newton, 1875, p.341. Prasinophyte genus. For synonymy see Fensome et al. (1990, p.471). Type: not designated.

"globulus" (Wetzel, 1933b, p.29, pl.4, fig.12) Morgenroth, 1966a, p.41–42. Holotype: Wetzel, 1933b, pl.4, fig.12; Sarjeant, 1985b, pl.2, fig.3; Dietz et al., 1999, fig.10, no.4. **NOW** *Pleurozonaria* (Appendix A). Originally (and now) *Pleurozonaria* (Appendix A), subsequently *Tasmanites*, thirdly *Pithonella*. N.I.A. Age: Late Cretaceous.

TETRANGULADINIUM Yu Jingxian et al., 1983, p.68. Genus representing zygospores of cyanobacteria. Earlier authors considered this genus to represent acritarchs (Chen et al., 1988, p.33; Fensome et al., 1990, p.477) and dinoflagellate cysts (Batten and Lister, 1988, p.358–359). Chen et al. (1988, p.34) and the authors of pre-2004 versions of this Index were incorrect in considering that Yu Jingxian et al. (1983) did not designate a holotype for the type of the genus: hence the genus and its type were validly published when proposed. Type: Yu Jingxian et al., 1983, pl.30, fig.2, as *Tetranguladinium conspicuum*.

***conspicuum** Yu Jingxian et al., 1983, p.68, pl.29, fig.9; pl.30, figs.2–6. Holotype: Yu Jingxian et al., 1983, pl.30, fig.2. See discussion under the generic entry. Age: Cretaceous.

cruciforme Yu Jingxian et al., 1983, p.69, pl.29, figs.6–8; pl.30, fig.1. Holotype: Yu Jingxian et al., 1983, pl.29, fig.8. In contrast to indications in pre-2004 versions of this Index, *Tetranguladinium cruciforme* was validly published originally because the generic name was validly published. Age: Cretaceous.

minqiaoense Qian Zeshu et al., 1986, p.24, pl.1, fig.39. Holotype: Qian Zeshu et al., 1986, pl.1, fig.39. In contrast to indications in pre-2004 versions of this Index, *Tetranguladinium minqiaoense* was validly published originally because the generic name was validly published. Age: Paleocene–Eocene.

opimum He Chengquan, Zhu Shenzhao and Jin Guangxing in He Chengquan et al., 1989, p.71, pl.20, fig.18. Holotype: He Chengquan et al., 1989, pl.20, fig.18. Age: Early Tertiary.

rectangulatum Yi Sangheon, 1997, p.530–531, figs.10c,14e–f. Holotype: Yi Sangheon, 1997, fig.14e. Age: late Maastrichtian.

reticulatum Yi Sangheon, 1997, p.531,537, figs.10b,14g–h,15a. Holotype: Yi Sangheon, 1997, fig.14g–h. Age: late Maastrichtian.

TETRAPORINA Naumova, 1939, p.357 ex Bolkhovitina, 1953, p.102. Zygnematalean genus. Taxonomic junior synonym: *Schizocystia* (Appendix A), by implication in Elsik (1968, p.286), who transferred the "type species", *Schizocystia rugosa*, to *Tetraporina* — however, most subsequent authors (e.g. Backhouse, 1988, p.115) retained *Schizocystia*. Type: information not available.

"*horologia*" Staplin, 1960, p.6, pl.1, figs.4,6 ex Playford, 1963, p.659. Holotype: Staplin, 1960, pl.1, fig.4; Pestchevitskaya, 2003, pl.2, fig.16. **NOW** *Horologinella*. Originally *Azonotetraporina* (name not validly published, Appendix A), subsequently *Tetraporina*, thirdly (and now) *Horologinella*. The name *Azonotetrapirina horologia* was not validly published in Staplin (1960) since the generic name *Azonotetraporina* was not validly published. Age: Carboniferous (late Mississippian).

"*rugosa*" (Cookson and Eisenack, 1962a, p.270, pl.37, figs.11–12) Elsik, 1968, p.286. Holotype: Cookson and Eisenack, 1962a, pl.37, fig.11. **NOW** *Schizocystia* (Appendix A). Originally (and now) *Schizocystia* (Appendix A), subsequently *Tetraporina*. Taxonomic junior synonym: *Schizocystia laevigata*, according to Elsik (1968, p.286). Age: ?late Albian–Cenomanian.

TRUNCATISPHAERIDIUM Riding and Duxbury, 1993, p.58–59. Acritarch genus. Type: Riding and Duxbury, 1993, pl.1, figs.1–2, as *Truncatisphaeridium clevelandense*.

**clevelandense* Riding and Duxbury 1993, p.59–60,62, pl.1, figs.1–6; text-fig.2. Holotype: Riding and Duxbury, 1993, pl.1, figs.1–2. Age: Aalenian–early Bajocian.

TUBULIFERA Schumacker-Lambry, 1978, p.52–53. Acritarch genus. Type: Schumacker-Lambry, 1978, pl.8, fig.6, as *Tubulifera heterosolenia*.

**heterosolenia* Schumacker-Lambry, 1978, p.53, pl.8, figs.4–7. Holotype: Schumacker-Lambry, 1978, pl.8, fig.6. Age: late Paleocene (Landenian).

UMBELLASPHAERIDIUM Jardiné et al., 1972, p.302–303. Acritarch genus. Type: Jardiné et al., 1972, pl.2, fig.12, as *Umbellasphaeridium saharicum*.

huecospinosum (Cramer, 1964, p.331, pl.6, fig.2; text-fig.36, no.7) Cramer and Diez, 1976, p.96. Holotype: Cramer, 1964, pl.6, fig.2. Originally *Hystrichosphaeridium*?, subsequently *Baltisphaeridium*? (combination not validly published, Appendix A), thirdly *Florisphaeridium* (Appendix A), fourthly (and now) *Umbellasphaeridium*. Age: Devonian (Emsian).

VERYHACHIUM Deunff, 1954b, p.305–306. Emendations: Downie and Sarjeant, 1963, p.93–94; Turner, 1984, p.139; Sarjeant and Stancliffe, 1994, p.33. Acritarch genus. For synonymy see Fensome et al. (1990, p.510) and Stancliffe and Sarjeant (1994, p.229). Type: Deunff, 1959, pl.1, fig.4, as *Veryhachium trisulcum*.

"baciferum" (Eisenack, 1934, p.66, pl.4, figs.20–21) Deunff, 1954b, p.306. Holotype: Eisenack, 1934, pl.4, fig.20, lost according to Eisenack (1962, p.356). Neotype: Eisenack, 1962, pl.44, fig.3, designated by Eisenack (1962, p.356). **Combination not validly published:** basionym not fully referenced. **NOW** *Bacisphaeridium* (Appendix A). Originally *Bion* (Appendix A), subsequently *Hystrichosphaeridium*, thirdly *Veryhachium* (combination not validly published), fourthly (and now) *Bacisphaeridium* (Appendix A), fifthly *Baltisphaeridium* (combination not validly published, Appendix A). This combination was not validly published in Deunff (1954b, p.306) additionally since that author did not clearly use the name *Veryhachium baciferum*. Age: Late Ordovician.

"balticum" (Eisenack, 1951, p.190, pl.3, figs.10–11) Eisenack, 1959, p.204. Holotype: Eisenack, 1951, pl.3, fig.10. **NOW** *Pachysphaeridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Pulvinosphaeridium* (combination not validly published, Appendix A), thirdly *Veryhachium*, fourthly *Goniosphaeridium* (Appendix A), fifthly *Baltisphaeridium* (Appendix A), sixthly *Estiastra* (Appendix A), seventhly (and now) *Pachysphaeridium* (Appendix A). Junior homonym: *Veryhachium balticum* Yankauskas and Vaitekunene, 1972, an acritarch species. This combination was not validly published in Deunff (1954b, p.306), since that author did not fully reference the basionym or clearly use the name *Veryhachium balticum*. Age: Early Ordovician.

"cruciatum" (Wetzel, 1933b, p.94–95, pl.4, fig.30 ex Lejeune-Carpentier, 1940, p.B222) Lejeune-Carpentier and Sarjeant, 1981, p.22. Emendation: Lejeune-Carpentier and Sarjeant, 1981, p.22–23, as *Veryhachium cruciatum*. Holotype: Wetzel, 1933b, pl.4, fig.30. **NOW** *Multiplicisphaeridium?* (Appendix A). Originally *Hystrichosphaera* (name not validly published), subsequently *Hystrichosphaeridium*, thirdly *Hystrichosphaeridium?*, fourthly *Veryhachium*, fifthly (and now) *Multiplicisphaeridium?* (Appendix A). Age: Late Cretaceous.

"geometricum" (Deflandre, 1945a, p.64–65, pl.2, figs.2–5) Stockmans and Willière, 1963, p.452. Holotype: Deflandre, 1945a, pl.2, fig.2. **NOW** *Striatotheca geometrica* (Appendix A). Originally *Hystrichosphaeridium geometricum*, subsequently *Veryhachium geometricum*, thirdly *Veryhachium trispinosum* subsp. *geometricum* (combination not validly published, Appendix A), fourthly (and now) *Striatotheca geometrica* (Appendix A). This combination was not validly published in Deunff (1954b, p.306), since that author did not fully reference the basionym or clearly use the name *Veryhachium geometricum*. Age: Middle Silurian.

"hermesinoides" (Wetzel, 1940, p.138–140, pl.5, fig.7) Deflandre and Deflandre-Rigaud, 1964, fiche 1998. Holotype: Wetzel, 1940, pl.5, fig.7. **NOW** *Villosacapsula?* (Appendix A). Originally *Palaeotetradinium*, subsequently *Veryhachium*, thirdly (and now) *Villosacapsula?* (Appendix A). Age: Late Cretaceous.

"hyalodermum" (Cookson, 1956, p.188–189, pl.1, figs.12–16) Schaarschmidt, 1963, p.62–63. Holotype: Cookson, 1956, pl.1, fig.12. **NOW** *Dorsennidium* (Appendix A). Originally *Palaeotetradinium*, subsequently *Veryhachium*, thirdly *Gorgonisphaeridium* (Appendix A), fourthly (and now) *Dorsennidium* (Appendix A). Age: Albian–Cenomanian.

"lairdii" Deflandre, 1946c, card 1112 ex Loeblich Jr., 1970, p.742. Holotype: Deunff, 1959, pl.8, fig.75, designated by Loeblich Jr. (1970, p.742). Originally *Hystrichosphaeridium* (name not validly published), subsequently *Veryhachium*. **Taxonomic senior synonym:** *Veryhachium valiente* Cramer, 1964, an acritarch species, according to Martin (1969, p.95), who believed *Veryhachium lairdii* to be the senior name. **Taxonomic junior synonym:** *Veryhachium bromidense* Loeblich Jr., 1970, an acritarch species, according to Turner (1984, p.142). The name *Hystrichosphaeridium lairdii* was not validly published in Deflandre (1946c) since that author did not provide a description. Age: Middle Silurian.

"mensula" Wetzel, 1933b, p.49–50, pl.4, fig.32 ex Downie and Sarjeant, 1963, p.151. Holotype: Wetzel, 1933b, pl.4, fig.32. Originally *Hystrichosphaera* (name not validly published), subsequently *Hystrichosphaeridium* (name not validly published), thirdly (and now) *Veryhachium*. This combination was not validly published in Downie and Sarjeant (1963, p.94), since these authors did not reference the "basionym". The name *Hystrichosphaera mensula* was not validly published in Wetzel (1933b) since the generic name *Hystrichosphaera* was not validly published until 1937. N.I.A. Age: Late Cretaceous.

"*microfurcatum*" (Deunff, 1957, p.6, fig.2 — p.13, fig.3 — p.14) Deunff, 1957, caption to fig.3 — p.14. Holotype: Deunff, 1957, fig.2 — p.13. **Combination not validly published:** unintended citation of the name *Hystrichosphaeridium* (now *Ammonidium*) *microfurcatum*. **NOW** *Ammonidium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Veryhachium* (combination not validly published), thirdly *Baltisphaeridium* (Appendix A), fourthly (and now) *Ammonidium* (Appendix A). Age: Middle Devonian.

"*monacanthum*" (Deunff, 1951, p.323; text-fig.4) Deunff, 1954b, p.305–307. Holotype: Deunff, 1951, text-fig.4. **Combination not validly published:** basionym not fully referenced and name not clearly used. **NOW** *Deunffia* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Veryhachium* (combination not validly published), thirdly (and now) *Deunffia* (Appendix A). Questionable assignment: Deunff (1959, p.29). This combination was also not validly published in Deunff (1959, p.29) and Cramer (1963, p.215), since these authors did not fully reference the basionym. Age: Middle Ordovician.

"*oligospinosum*" (Eisenack, 1934, p.64–65, pl.4, figs.15–18 ex Eisenack, 1938a, p.12) Downie and Sarjeant, 1965, p.152. Holotype: Eisenack, 1934, pl.4, fig.18, lost according to Eisenack et al. (1973, p.494). **NOW** *Estiastra?* *oligospinosa* (Appendix A). Originally *Ovum hispidum* subsp. *oligospinosum* (name not validly published, Appendix A), subsequently *Hystrichosphaeridium oligospinosum*, thirdly *Pulvinosphaeridium oligospinosum* (Appendix A), fourthly *Veryhachium oligospinosum*, fifthly *Goniosphaeridium oligospinosum* (Appendix A), sixthly (and now) *Estiastra? oligospinosa* (Appendix A). This combination was not validly published in Deunff (1954b, p.306), since that author did not fully reference the basionym or clearly use the name *Veryhachium oligospinosum*. It was not validly published in Downie and Sarjeant (1963, p.94) and Eisenack (1963b, p.209), since these authors did not fully reference the basionym. Age: Silurian (erratic).

"*polygonale*" (Eisenack, 1931, p.113, pl.4, figs.16–20; pl.5, fig.18 ex Eisenack, 1938a, p.12) Eisenack, 1963b, p.209. Holotype: Eisenack, 1931, pl.4, fig.19, as *Ovum hispidum* subsp. *polygonale*, lost according to Eisenack (1959, p.199). Neotype: Paris and Deunff, 1970, pl.1, fig.4, as *Veryhachium splendens*, designated by Fensome et al. (1990, p.235), which see. **Combination not validly published:** basionym not fully referenced. **NOW** *Polygonium polygonale* (Appendix A). Originally *Ovum hispidum* subsp. *polygonale* (name not validly published, Appendix A), subsequently *Hystrichosphaeridium polygonale*, thirdly *Baltisphaeridium polygonale* (Appendix A), fourthly *Veryhachium polygonale* (combination not validly published), fifthly *Goniosphaeridium polygonale* (Appendix A), sixthly (and now) *Polygonium polygonale* (Appendix A). Taxonomic junior synonyms: *Impletosphaeridium? primordiale*, according to Eisenack et al. (1973, p.497–498); *Veryhachium* (subsequently *Goniosphaeridium*) *splendens* Paris and Deunff, 1970, an acritarch species, according to Turner (1984, p.113–114) who believed *Goniosphaeridium splendens* to be the senior name; *Hystrichosphaeridium* (subsequently *Baltisphaeridium*) *sexradiatum*, according to Eisenack (1965c, p.261). This combination was also not validly published in Deflandre and Deflandre-Rigaud (1964, fiche 2061), since these authors did not fully reference the basionym. Age: Silurian (erratic).

"*singulare*" (Firtion, 1952, p.160, pl.8, figs.1–2) Burger, 1980a, p.91. Holotype: Firtion, 1952, pl.8, figs.1–2. **NOW** *Raphidodinium?*. Originally *Micrhystridium* (Appendix A), subsequently *Veryhachium*, thirdly (and now) *Raphidodinium?*. Taxonomic junior synonym: *Baltisphaeridium crameri* Singh, 1971, an acritarch species, according to Burger (1980a, p.91). Age: early Cenomanian.

"*spiciferum*" (Deunff, 1955, p.146, pl.3, fig.1; text-fig.26) Deunff, 1955, caption to pl.3, fig.1. Holotype: Deunff, 1955, pl.3, fig.1. **Combination not validly published:** unintended citation of the name *Hystrichosphaeridium spiciferum*. **NOW** *Stellechinatum* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Veryhachium* (combination not validly published), thirdly *Baltisphaeridium* (Appendix A), fourthly *Evittia* Brito (combination not validly published, Appendix A), fifthly *Multiplicisphaeridium* (Appendix A), sixthly (and now) *Stellechinatum* (Appendix A). Age: Middle Devonian.

staurasteroides (Deflandre, 1945a, p.25–26, pl.2, figs.7–9) Downie and Sarjeant, 1965, p.152. Emendation: Stancliffe and Sarjeant, 1994, p.234, as *Veryhachium staurasteroides*. Holotype: Deflandre, 1945a, pl.2, fig.7. Originally *Hystrichosphaeridium*, subsequently (and now) *Veryhachium*. This combination was not validly published in Deunff (1954b, p.306), since that author did not fully reference the basionym or clearly use the name. Age: Middle Silurian.

+*trispinosum* (Eisenack, 1938a, p.14,16; text-figs.2–3) Stockmans and Willièrè, 1962a, p.46–47. Emendation: Stancliffe and Sarjeant, 1994, p.233, as *Veryhachium trispinosum*. Holotype: Eisenack, 1938a, text-fig.2, lost according to Eisenack et al. (1979, p.499). Neotype: Deunff, 1980, pl.1, fig.7, designated by Stancliffe and Sarjeant (1994, p.233). Originally *Hystrichosphaeridium*, subsequently (and now) *Veryhachium*, thirdly *Baltisphaeridium* (Appendix A), fourthly *Micrhystridium* (combination not validly published, Appendix A). This species was retained in *Veryhachium* by Cramer and Diez (1979, p.59). Taxonomic junior synonyms: *Veryhachium cucruse* Timofeev, 1962, an acritarch species, according to Martin (1969, p.106); *Veryhachium arctatum* Deunff, 1981, *Veryhachium concavum* Piskun, 1974a, *Veryhachium edenense* Colbath, 1979, *Veryhachium microgranuliferum* Piskun, 1974a and *Hystrichosphaeridium* (ultimately *Veryhachium*) *trisulcum*, all acritarch species, and all according to Stancliffe and Sarjeant (1994, p.233). The nomenclatural type of the genus *Veryhachium* remains the holotype of *Hystrichosphaeridium* (ultimately *Veryhachium*) *trisulcum*. This combination was not validly published in Deunff (1954b, p.306) and Stockmans and Willièrè (1960, p.2,5–6), since these authors did not fully reference the basionym. It was not validly published in Deunff (1954b) additionally since that author did not clearly use the name *Veryhachium trispinosum*. Cramer and Diez (1979, p.47) considered *Veryhachium trispinosum* (or *Veryhachium trisulcum*) to be the possible taxonomic senior synonym of *Hystrichosphaeridium* (now *Deunffia*) *monacanthum*. Age: Silurian (erratic).

"subsp. *geometricum*" (Deflandre, 1945a, p.64–65, pl.2, figs.2–5) Tynni, 1982, p.84. Holotype: Deflandre, 1945a, pl.2, fig.2. **Combination not validly published:** basionym not fully referenced. **NOW** *Striatotheca geometrica* (Appendix A). Originally *Hystrichosphaeridium geometricum*, subsequently *Veryhachium geometricum* (Appendix A), thirdly *Veryhachium trispinosum* subsp. *geometricum* (combination not validly published), fourthly (and now) *Striatotheca geometrica* (Appendix A). Age: Middle Silurian.

"subsp. *trisulcum*" (Deunff, 1951, p.323, caption to text-fig.3 ex Deunff, 1959, p.27–28; pl.1, figs.1–4,8,10,12–14,16–17,20,22–23) Tynni, 1982, p.85. Holotype: Deunff, 1959, pl.1, fig.4 (see Fensome et al., 1990, p.526, under *Veryhachium trisulcum*). **Combination not validly published:** basionym not fully referenced. Originally *Hystrichosphaeridium trisulcum* (name not validly published), subsequently *Veryhachium trisulcum* (name not validly published), thirdly *Veryhachium trisulcum* (Appendix A), fourthly *Veryhachium trispinosum* subsp. *trisulcum* (combination not validly published). **Taxonomic senior synonym** (at specific rank): *Hystrichosphaeridium* (now *Veryhachium*) *trispinosum*, according to Stancliffe and Sarjeant (1994, p.233). Age: Middle Ordovician.

"**trisulcum*" Deunff, 1951, p.323, caption to text-fig.3 ex Deunff, 1959, p.27–28, pl.1, figs.1–4,8,10,12–14,16–17,20,22–23. Holotype: Deunff, 1959, pl.1, fig.4 (see Fensome et al., 1990, p.526). Originally *Hystrichosphaeridium trisulcum* (name not validly published), subsequently *Veryhachium trisulcum* (name not validly published), thirdly *Veryhachium trisulcum*, fourthly *Veryhachium trispinosum* subsp. *trisulcum* (combination not validly published, Appendix A). **Taxonomic senior synonym:** *Hystrichosphaeridium* (now *Veryhachium*) *trispinosum*, according to Stancliffe and Sarjeant (1994, p.233). The nomenclatural type of the genus *Veryhachium* remains the holotype of *Hystrichosphaeridium* (subsequently *Veryhachium*) *trisulcum*. The names *Hystrichosphaeridium trisulcum* and *Veryhachium trisulcum* were not validly published respectively in Deunff (1951, caption to text-fig.3) and Deunff (1954b, p.306), since no description was provided in the former publication and no illustration was provided in the latter publication. This name was not validly published in Deunff (1954b, p.306) since no illustration was provided. The name *Hystrichosphaeridium trisulcum* was not validly published in Deunff (1951, p.323) since no description was provided. Cramer and Diez (1979, p.47) considered *Veryhachium trisulcum* (or *Veryhachium trispinosum*) to be the possible taxonomic senior synonym of *Hystrichosphaeridium* (now *Deunffia*) *monacanthum*. Beju (1972, p.718) and Tynni (1976, p.38) misspelled the specific epithet as "*trisulcatum*". Age: Middle Ordovician.

VILLOSACAPSULA Loeblich Jr. and Tappan, 1976, p.307–308. Acritarch genus. Type: Loeblich Jr., 1970, fig.36A, as *Veryhachium setosapelliculum*.

?*hermesinoides* (Wetzel, 1940, p.138–140, pl.5, fig.7) Sarjeant and Stancliffe, 1994, p.47. Holotype: Wetzel, 1940, pl.5, fig.7. Originally *Palaeotetradinium*, subsequently *Veryhachium* (Appendix A), thirdly (and now) *Villosacapsula*. Questionable assignment: Sarjeant and Stancliffe (1994, p.47). Age: Late Cretaceous.

VISBYSPHAERA Lister, 1970, p.98. Emendations: Kiryanov, 1978, p.21; Le Hérisse, 1989, p.198–199. Acritarch genus. For synonymy see Fensome et al. (1990, p.529). Type: Downie, 1963, pl.92, fig.4, as *Baltisphaeridium dilatispinosum*.

brevifurcata (Eisenack, 1954a, p.207–208, pl.1, fig.2; text-fig.2) Lister, 1970, p.100. Holotype: Eisenack, 1954a, pl.1, fig.2. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly (and now) *Visbysphaera*, fourthly *Multiplicisphaeridium* (Appendix A). Priewalder (1987, p.60) retained this species in *Visbysphaera*. Le Hérisse (1989, p.201) also proposed this combination. Age: Silurian (late Llandovery).

erratica (Eisenack, 1954a, p.209, pl.1, figs.6–7; text-fig.7) Lister, 1970, p.98. Holotype: Eisenack, 1954a, pl.1, fig.6. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly (and now) *Visbysphaera*, fourthly *Multiplicisphaeridium* (Appendix A). Priewalder (1987, p.60) retained this species in *Visbysphaera*. Age: Silurian (late Ludlow).

gotlandica (Eisenack, 1954a, p.209, pl.1, fig.5; text-fig.6) Kiryanov, 1978, p.87–88. Holotype: Eisenack, 1954a, pl.1, fig.5. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Multiplicisphaeridium* (Appendix A), fourthly (and now) *Visbysphaera*. Taxonomic junior synonym: *Baltisphaeridium peltatum* Cramer, 1966, an acritarch species, according to Cramer (1970, p.157). This combination was not validly published in Lister (1970, p.98) since that author did not clearly use the name *Visbysphaera gotlandica*. Age: Silurian (late Llandovery).

mesa (Eisenack, 1955, p.179) Lister, 1970, p.100. Holotype: Eisenack, 1954a, pl.1, fig.3. Originally *Hystrichosphaeridium intermedium* (name illegitimate), subsequently *Hystrichosphaeridium meson*, thirdly *Baltisphaeridium meson* (Appendix A), fourthly (and now) *Visbysphaera mesa*, fifthly *Multiplicisphaeridium meson* (Appendix A). Priewalder (1987, p.62) retained this species in *Visbysphaera*. *Hystrichosphaeridium meson* is the substitute name for *Hystrichosphaeridium intermedium* Eisenack, 1954a, p.208, pl.1, figs.3,9; text-figs.3–4 (an illegitimate name). Taxonomic junior synonym: *Baltisphaeridium* (subsequently *Multiplicisphaeridium*) *micropilare* Cramer, 1970, an acritarch species, according to Ye Xiaorong (1984, p.42). Age: Silurian (late Llandovery–late Ludlow).

"*microspinoso*" (Eisenack, 1954a, p.209–210, pl.1, fig.8) Lister, 1970, p.99. Holotype: Eisenack, 1954a, pl.1, fig.8. **NOW** *Baltisphaeridium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently (and now) *Baltisphaeridium* (Appendix A), thirdly *Lophosphaeridium* (Appendix A), fourthly *Visbysphaera*, fifthly *Buedingiisphaeridium* (combination not validly published, Appendix A). Priewalder (1987, p.62) retained this species in *Visbysphaera*. Taxonomic junior synonym: *Baltisphaeridium listeri* Kiryanov, 1978, an acritarch species, according to Le Hérisse (1989, p.210). Age: Silurian (late Llandovery).

oligofurcata (Eisenack, 1954a, p.208, pl.1, fig.4; text-fig.5) Lister, 1970, p.100. Holotype: Eisenack, 1954a, pl.1, fig.4; text-fig.5. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly (and now) *Visbysphaera*, fourthly *Multiplicisphaeridium* (Appendix A). Priewalder (1987, p.63) retained this species in *Visbysphaera*. Age: Silurian (late Llandovery).

pirifera (Eisenack, 1954a, p.206–207, pl.1, figs.1a–b; text-fig.1) Kiryanov, 1978, p.89–90. Holotype: Eisenack, 1954a, pl.1, figs.1a–b. Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly *Multiplicisphaeridium* (Appendix A), fourthly (and now) *Visbysphaera*. Taxonomic junior synonym: *Baltisphaeridium hermosum* Cramer and Diez, 1968 (name not validly published), an acritarch species, according to Cramer (1970, p.148); *Baltisphaeridium* (now *Visbysphaera*) *dilatispinosum* Downie, 1963, an acritarch species, according to Eisenack (1965c, p.263) — however, Fensome et al. (1990, p.530) retained *Visbysphaera dilatispinosa*. This combination was not validly published in Lister (1970, p.98) since that author did not clearly use the name. Age: Silurian (late Llandovery).

VULCANISPHAERA Deunff, 1961a, p.42. Emendation: Rasul, 1976, p.479. Acritarch genus. Type: Deunff, 1961a, pl.2, fig.1, as *Vulcanisphaera africana*.

"*tuberata*" (Downie, 1958, p.338, pl.17, fig.3; text-fig.3f) Eisenack et al., 1973, p.1087–1088. Holotype: Downie, 1958, pl.17, fig.3. **NOW** *Acanthodiacrodium* (Appendix A). Originally *Hystrichosphaeridium*, subsequently *Baltisphaeridium* (Appendix A), thirdly (and now) *Acanthodiacrodium* (Appendix A), fourthly *Vulcanisphaera*, fifthly *Goniosphaeridium* (Appendix A). Age: Early Ordovician.

WETZELODINIUM Deflandre, 1936b, p.168. Radiolarian genus. Type: Wetzel, 1933a, pl.2, fig.23, as *Wetzelodinium tentaculatum*.

**tentaculatum* (Wetzel, 1933a, p.171, pl.2, fig.23; text-fig.4) Deflandre, 1936b, p.168–169. Holotype: Wetzel, 1933a, pl.2, fig.23. Originally *Polykrikos* (Appendix B), subsequently (and now) *Wetzelodinium*. This is a radiolarian; Pessagno in Sarjeant (1985b, p.164) stated that the holotype of this species represents "a broken multicyrtd Nassellarian". Age: ?Senonian.

XANTHIDIUM Ehrenberg, 1834, p.317. Extant desmid genus.

"*bulbosum*" Ehrenberg, 1837b, pl.1, fig.17. Emendation: Morgenroth, 1968, p.546–547, as *Hystrichokolpoma bulbosum*. Holotype: Ehrenberg, 1837b, pl.1, fig.17. Neotype: Morgenroth, 1968, pl.44, fig.6, designated by Morgenroth (1968, p.546). **NOW** *Hystrichokolpoma bulbosum*. Originally *Xanthidium bulbosum*, subsequently *Hystrichosphaera bulbosa* (combination not validly published), thirdly *Hystrichosphaeridium bulbosum*, fourthly *Ovum hispidum* subsp. *bulbosum* (combination not validly published, Appendix A), fifthly (and now) *Hystrichokolpoma bulbosum*, sixthly *Baltisphaeridium bulbosum* (combination not validly published, Appendix A). Taxonomic senior synonym: *Xanthidium* (as *Hystrichosphaeridium*) *tubiferum*, according to Stover and Evitt (1978, p.55) — however, Lentin and Williams (1989, p.134) retained *Xanthidium* (as *Hystrichokolpoma*) *bulbosum*. This name may not have been validly published in Ehrenberg (1837b) since no description in that publication has been referenced or found. The validity/authorship of this name may need to be reconsidered as it appears that Ehrenberg (1837b) did not provide a description. Age: Danian.

"*claviferum*" Wilkinson, 1849, p.89–92, pl.13, fig.1. Holotype: Wilkinson, 1849, pl.13, fig.1. **NOW** *Baltisphaeridium* (Appendix A). Originally *Xanthidium*, subsequently *Hystrichosphaeridium*, thirdly (and now) *Baltisphaeridium* (Appendix A). Age: Late Cretaceous.

"*complex*" (White, 1842, p.39, pl.4, fig.11) Bronn, 1848, p.1375. Holotype: White, 1842, pl.4, fig.11, lost according to Davey and Williams (1966b, p.74). Neotype: Davey and Williams, 1966b, pl.7, fig.1, designated by Davey and Williams (1966b, p.71). **NOW** *Oligosphaeridium complex*. Originally *Xanthidium tubiferum* var. *complex* (Appendix A), subsequently *Xanthidium complex*, thirdly *Hystrichosphaeridium complex*, fourthly (and now) *Oligosphaeridium complex*. Taxonomic junior synonyms: *Hystrichosphaeridium elegantulum*, according to Deflandre (1946b, p.111); *Hystrichosphaeridium himalayense*, according to Jain and Garg (1986b, p.64); *Oligosphaeridium cephalum*, according to Lejeune-Carpentier and Sarjeant (1981, p.9) and Jain (1982, p.52). Age: Senonian.

"*crassipes*" Reade, 1839, pl.9, figs.2–5. Emendation: Lejeune-Carpentier and Sarjeant, 1981, p.10, as *Hystrichokolpoma? crassipes*. Holotype: Reade, 1839, pl.9, fig.2, lost according to Lejeune-Carpentier and Sarjeant (1981, p.11). Neotype: Lejeune-Carpentier, 1941, fig.9; Lejeune-Carpentier and Sarjeant, 1981, pl.3, fig.3; text-fig.6; designated by Lejeune-Carpentier and Sarjeant (1981, p.11). **NOW** *Hystrichokolpoma*. Originally *Xanthidium*, subsequently *Hystrichosphaeridium*, thirdly *Litosphaeridium?*, fourthly (and now) *Hystrichokolpoma*. Taxonomic junior synonym: *Hystrichosphaeridium* (as *Pervosphaeridium*, now *Raetiaedinium*) *truncigerum*, by implication in Yun Hyesu (1981, p.27), who considered *Pervosphaeridium truncigerum* to be the senior name — however, Lentin and Williams (1985, p.282) retained *Pervosphaeridium truncigerum*. Age: Late Cretaceous.

"fimbriatum" White, 1842, p.36, pl.4, div.3, fig.3. Holotype: White, 1842, pl.4, div.3, fig.3; Sarjeant, 1991, fig.4.2. **NOW** *Filisphaeridium* (Appendix A). Originally *Xanthidium*, subsequently *Hystrichosphaeridium*, thirdly *Baltisphaeridium* (Appendix A), fourthly *Comasphaeridium* (Appendix A), fifthly (and now) *Filisphaeridium* (Appendix A). Age: Late Cretaceous.

"furcatum" Ehrenberg, 1837b, pl.1, figs.12,14. Holotype: not designated. Originally *Xanthidium furcatum*, subsequently *Hystrichosphaera furcata*, thirdly *Ovum hispidum* subsp. *furcatum* (combination not validly published), fourthly *Spiniferites furcatus* (combination not validly published). **Taxonomic senior synonym:** *Xanthidium* (now *Spiniferites*) *ramosum*, according to Davey and Williams (1966a, p.29–33). Taxonomic junior synonym: *Geodia? tripunctata* (Appendix A), according to Sarjeant (1964a, p.175). Age: Late Cretaceous.

"hirsutum" Ehrenberg, 1837b, pl.1, figs. 10,?13. **Name not validly published:** Ehrenberg (1837b) did not intend to introduce a new species. Originally *Xanthidium hirsutum* (name not validly published), subsequently *Ovum hispidum* subsp. *hirsutum* (name not validly published, Appendix A), thirdly *Hystrichosphaera hirsuta* (name not validly published), fourthly *Hystrichosphaeridium hirsutum* (name not validly published), fifthly *Baltisphaeridium hirsutum* (name not validly published, Appendix A), sixthly *Operculodinium hirsutum* (name not validly published), seventhly *Operculodinium? hirsutum* (name not validly published). See discussion under *Operculodinium? hirsutum*. Age: Late Cretaceous.

"malleoferum" White, 1842, p.37, pl.4, div.3, fig.7. Holotype: White, 1842, pl.4, div.3, fig.7; Sarjeant, 1991, fig.4.6. **NOW** *Achomosphaera?*. Originally *Xanthidium*, subsequently *Baltisphaeridium* (Appendix A), thirdly (and now) *Achomosphaera?*, fourthly *Hystrichosphaeridium* (combination not validly published). Age: Late Cretaceous.

"palmatum" (White, 1842, p.39–40, pl.4, fig.12) Bronn, 1848, p.1375. Holotype: White, 1842, pl.4, fig.12. Originally *Xanthidium tubiferum* var. *palmatum* (Appendix A), subsequently *Xanthidium palmatum*, thirdly *Spiniferites palmatus*, fourthly *Cordosphaeridium palmatum*, fifthly *Hystrichosphaeridium recurvatum* (combination illegitimate), sixthly *Hystrichosphaeridium duplum* (name illegitimate). **Nomenclatural senior synonym:** *Xanthidium tubiferum* var. *recurvatum* (as *Hystrichosphaeridium recurvatum*), which has the same holotype. Nomenclatural junior synonyms: *Xanthidium tubiferum* var. *palmaforme* and *Hystrichosphaeridium duplum*, both of which have the same holotype as *Hystrichosphaeridium palmatum*. This is not an illegitimate combination. See *Hystrichosphaeridium recurvatum* for a full discussion. Age: Senonian.

"penicillatum" Ehrenberg, 1843b, p.61 ex Ehrenberg, 1854, pl.37, section 8, fig.3. Holotype: Ehrenberg, 1854, pl.37, section 8, fig.3. **NOW** *Systematophora penicillata*. Originally *Xanthidium penicillatum* (Appendix A), subsequently *Hystrichosphaera penicillata* (combination not validly published), thirdly *Hystrichosphaeridium penicillatum*, fourthly *Ovum hispidum* subsp. *penicillatum* (combination not validly published), fifthly *Hystrichosphaeridium? penicillatum*, sixthly (and now) *Systematophora penicillata*. Taxonomic junior synonym: *Systematophora fasciculigera*, according to Sarjeant (1980a, p.282). The name *Xanthidium penicillatum* was not validly published in Ehrenberg (1843b), with neither description nor illustration being provided. The validity/authorship of this name may need to be reconsidered as it appears that Ehrenberg (1854) did not provide a description. Age: late Oxfordian.

"pilosum" Ehrenberg, 1854, pl.37, section 8, fig. 4. Emendation: Erkmen and Sarjeant, 1980, p.51, as *Sentusidinium pilosum*. Holotype: Ehrenberg, 1854, pl.37, section 8, fig. 4. **NOW** *Barbatacysta pilosa*. Originally *Xanthidium pilosum*, subsequently *Hystrichosphaera pilosa* (combination not validly published), thirdly *Hystrichosphaeridium? pilosum*, fourthly *Baltisphaeridium pilosum* (Appendix A), fifthly *Ovum hispidum* subsp. *pilosum* (Appendix A), sixthly *Cleistosphaeridium pilosum* (combination not validly published), seventhly *Tenua pilosa*, eighthly *Sentusidinium pilosum*, ninthly *Batiacasphaera pilosa*, tenthly (and now) *Barbatacysta pilosa*. The validity/authorship of this name may need to be reconsidered as it appears that Ehrenberg (1854) did not provide a description. Age: Oxfordian.

"ramosum" Ehrenberg, 1837b, pl.1, fig.15. Holotype: not designated. Lectotype: Ehrenberg, 1837b, pl.1, fig.15, designated by Davey and Williams (1966a, p.32). **NOW** *Spiniferites ramosus*, Originally *Xanthidium ramosum*, subsequently (and now) *Spiniferites ramosus*, thirdly *Ovum hispidum* subsp. *ramosum* (combination not validly published, Appendix A), fourthly *Hystrichosphaera ramosa*, fifthly *Bion ramosum* (Appendix A). Taxonomic junior synonyms: *Xanthidium* (as *Hystrichosphaera*) *furcatum*, according to Davey and Williams (1966a, p.29–33);

Galea korykos and *Hystrichosphaeridium echinoides*, both according to Sarjeant (1983, p.91–92); *Areoligera birama*, according to Morgenroth (1968, p.550); *Geodia? tripunctata* (Appendix A), by implication in Sarjeant (1964a, p.175), who considered *Geodia? tripunctata* to be a taxonomic junior synonym of *Hystrichosphaera furcata*; *Hystrichosphaera* (as *Spiniferites*) *bulloidea*, according to Harland (1977b, p.101–102) — however, Lentin and Williams (1981, p.259) retained *Hystrichosphaera* (as *Spiniferites*) *bulloidea*; *Homotryblium distinctum*, according to Jain and Garg (1982, p.69), who considered *Homotryblium distinctum* to be a taxonomic junior synonym of *Spiniferites ramosus* subsp. *ramosus*. Motile equivalent: *Gonyaulax spinifera* (Claparède and Lachmann, 1859) Diesing, 1866, according to Dodge (1989, p.289). The validity/authorship of this name may need to be reconsidered as it appears that Ehrenberg (1837b) did not provide a description. Age: Late Cretaceous.

"**reginaldii**" Mantell, 1844, p.240; text-fig.53, no.5. Emendation: Sarjeant, 1967c, p.244–245, as *Hystrichosphaera reginaldii*. Holotype: Mantell, 1844, text-fig.53, no.5; Sarjeant, 1967c, figs.3A–B,4–5; Sarjeant, 1992a, figs.2,4a–b. **NOW** *Spiniferites?*. Originally *Xanthidium*, subsequently *Spiniferites*, thirdly *Hystrichosphaera*, fourthly *Baltisphaeridium* (Appendix A), fifthly (and now) *Spiniferites?*. Age: Late Cretaceous.

"**simplex**" White, 1842, p.38, pl.4, fig.10. Holotype: White, 1842, pl.4, fig.10. **NOW** *Dapsilidinium*. Originally *Xanthidium tubiferum* var. *simplex* (Appendix A), subsequently *Xanthidium simplex*, thirdly *Hystrichosphaeridium simplex*, fourthly *Polysphaeridium? simplex*, fifthly (and now) *Dapsilidinium simplex*. Age: Late Cretaceous.

"**spinosum**" White, 1842, p.37, pl.4, fig.6. Holotype: White, 1842, pl.4, fig.6; lost according to Sarjeant (1966b, p.141). **NOW** *Exochosphaeridium?*. Originally *Xanthidium*, subsequently *Hystrichosphaeridium*, thirdly *Baltisphaeridium* (Appendix A), fourthly *Cordosphaeridium* (combination not validly published), fifthly *Exochosphaeridium*, sixthly (and now) *Exochosphaeridium?*. Age: Late Cretaceous.

"**tubiferum**" Ehrenberg, 1837b, pl.1, fig.16. Emendation: Davey and Williams, 1966b, p.56–58, as *Hystrichosphaeridium tubiferum*. Holotype: Ehrenberg, 1837b, pl.1, fig.16. **NOW** *Hystrichosphaeridium tubiferum*. Originally *Xanthidium tubiferum*, subsequently *Hystrichosphaera tubifera* (combination not validly published), thirdly (and now) *Hystrichosphaeridium tubiferum*, fourthly *Ovum hispidum* subsp. *tubiferum* (combination not validly published; Appendix A). Taxonomic junior synonym: *Xanthidium* (as *Hystrichokolpoma*) *bulbosum*, according to Stover and Eviitt (1978, p.55) — however, Lentin and Williams (1989, p.134) retained *Xanthidium* (as *Hystrichokolpoma*) *bulbosum*. The validity/authorship of this name may need to be reconsidered as it appears that Ehrenberg (1837b) did not provide a description. Age: Late Cretaceous?.

"var. **complex**" White, 1842, p.39, pl.4, fig.11. Holotype: White, 1842, pl.4, fig.11, lost according to Davey and Williams (1966b, p.74). Neotype: Davey and Williams, 1966b, pl.7, fig.1, designated by Davey and Williams (1966b, p.71). **NOW** *Oligosphaeridium complex*. Originally *Xanthidium tubiferum* var. *complex*, subsequently *Xanthidium complex* (Appendix A), thirdly *Hystrichosphaeridium complex*, fourthly (and now) *Oligosphaeridium complex*. Taxonomic junior synonyms: *Hystrichosphaeridium elegantulum*, according to Deflandre (1946b, p.111); *Hystrichosphaeridium himalayense*, according to Jain and Garg (1986b, p.64); *Oligosphaeridium cephalum*, according to Lejeune-Carpentier and Sarjeant (1981, p.9) and Jain (1982, p.52). Age: Senonian.

"var. **dilatatum**" Wilkinson, 1849, p.89. **Name not validly published**: no description. See discussion under *Baltisphaeridium claviferum* (Appendix A).

"var. **palmaforme**" White, 1842, p.39, pl.4, fig.12. Holotype: White, 1842, pl.4, fig.12. **Nomenclatural senior synonym**: *Xanthidium tubiferum* var. *recurvatum* (as *Hystrichosphaeridium recurvatum*), which has the same holotype. Nomenclatural senior synonym: *Xanthidium tubiferum* var. *palmatum*, which has the same holotype. Nomenclatural junior synonym: *Hystrichosphaeridium duplum*, which has the same holotype. This is not an illegitimate name. For a full discussion, see *Hystrichosphaeridium recurvatum*. Age: Senonian.

"var. **palmatum**" White, 1842, p.39–40, pl.4, fig.12. Holotype: White, 1842, pl.4, fig.12. Originally *Xanthidium tubiferum* var. *palmatum*, subsequently *Xanthidium palmatum* (Appendix A), thirdly *Spiniferites palmatus*, fourthly *Cordosphaeridium palmatum*, fifthly *Hystrichosphaeridium palmatum* (combination illegitimate), sixthly *Hystrichosphaeridium duplum* (name illegitimate). **Nomenclatural**

senior synonym: *Xanthidium tubiferum* var. *recurvatum* (as *Hystrichosphaeridium recurvatum*), which has the same holotype. Nomenclatural junior synonyms: *Xanthidium tubiferum* var. *palmaforme* and *Hystrichosphaeridium duplum*, both of which have the same holotype as *Hystrichosphaeridium palmatum*. This is not an illegitimate name. For a full discussion, see *Hystrichosphaeridium recurvatum*. Age: Senonian.

"var. **recurvatum**" White, 1842, p.39, pl.4, fig.12. Holotype: White, 1842, pl.4, fig.12. **NOW** *Hystrichosphaeridium recurvatum*. Originally *Xanthidium tubiferum* var. *recurvatum*, subsequently (and now) *Hystrichosphaeridium recurvatum*. Nomenclatural junior synonyms: *Xanthidium tubiferum* var. *palmaforme*, *Xanthidium tubiferum* var. *palmatum* and *Hystrichosphaeridium duplum*, all of which have the same holotype as *Xanthidium tubiferum* var. *recurvatum*. Age: Senonian.

"var. **simplex**" White, 1842, p.38, pl.4, fig.10. Holotype: White, 1842, pl.4, fig.10. **NOW** *Dapsilidinium*. Originally *Xanthidium tubiferum* var. *simplex*, subsequently *Xanthidium simplex* (Appendix A), thirdly *Hystrichosphaeridium simplex*, fourthly *Polysphaeridium? simplex*, fifthly (and now) *Dapsilidinium simplex*. Age: Late Cretaceous.

"var. **spiculatum**" White, 1844, p.87, pl.9, fig.4. Holotype: White, 1844, pl.9, fig.4. **NOW** *Baltisphaeridium spiculatum* (Appendix A). Originally *Xanthidium tubiferum* var. *spiculatum*, subsequently *Hystrichosphaeridium spiculatum*, thirdly (and now) *Baltisphaeridium spiculatum* (Appendix A). Age: Late Cretaceous.

"**vestitum**" White, 1842, p.36, pl.4, div.3, fig.2. Holotype: White, 1842, pl.4, div.3, fig.2. **NOW** *Eatonicysta?*. Originally *Xanthidium*, subsequently (and now) *Eatonicysta?*. Age: Late Cretaceous.

APPENDIX B

AMPHIDINIUM Claparède and Lachmann, 1859, p.276.

"**mitratum**" Vozzhennikova, 1967, p.40, pl.1, figs.2–3; pl.5, figs.1–2,4. Emendation: Lentin and Vozzhennikova, 1990, p.29–30, as *Amphigymnium mitratum*. Holotype: Vozzhennikova, 1967, pl.1, fig.2; Lentin and Vozzhennikova, 1990, pl.1, figs.10–11; text-fig.12; Appendix A, fig.38. **NOW** *Amphigymnium*. Originally *Amphidinium*, subsequently *Dinogymnium*, thirdly (and now) *Amphigymnium*. Age: Turonian–Senonian.

"**sibiricum**" Vozzhennikova, 1965. **Name not validly published:** no illustration.

CENTRODINIUM Kofoid, 1907a, p.185.

palaeofusum Wetzel, 1971, p.91, fig.8. Holotype: Wetzel, 1971, fig.8. Age: Senonian.

CERATIUM F. von P. Schrank, 1793, p.34.

fusus (Ehrenberg) Dujardin, 1841. Modern species defined from the motile stage. Further information not available. N.I.A. Age: extant.

"forma **filosum**" Wetzel, 1933a, p.169, pl.2, fig.20. Holotype: Wetzel, 1933a, pl.2, fig.20. **NOW** *Palaeocystodinium? rhomboides* subsp. *filosum*. Originally *Ceratium fusus* forma *filosum*, subsequently (and now) *Palaeocystodinium rhomboides* subsp. *filosum*. Wetzel (1933a, p.169) gave the following citation, "Form d: *Ceratium (Amphiceratium)* cf. *fusus*, forma *filosum* n.f." Age: Senonian.

"forma **incertum**" Deflandre, 1936b, p.188, pl.10, figs.8–9 (not fig.5). Holotype: not designated. Lectotype: Deflandre, 1936b, pl.10, fig.8, designated by Lentin and Williams (1993, p.476). **NOW** *Palaeocystodinium? rhomboides* forma *incertum*. Originally *Ceratium fusus* forma *incertum*, subsequently (and now) *Palaeocystodinium? rhomboides* forma *incertum*. Age: Senonian.

"forma **nodosum**" Wetzel, 1933a, p.169, pl.2, fig.19. Holotype: Wetzel, 1933a, pl.2, fig.19; Dietz et al., 1999, fig.10, no.5. Originally *Ceratium fusus* forma *nodosum*, subsequently *Palaeocystodinium? rhomboides* subsp. *nodosum*. **Taxonomic senior synonym** (at specific rank): *Deflandrea delineata*, according to Sarjeant (1985b, p.157). Wetzel (1933a, p.169) gave the following citation, "Form c: *Ceratium (Amphiceratium)* cf. *fusus*, forma *nodosum* n.f." Age: Senonian.

"forma **ovatum**" Wetzel, 1933a, p.168, pl.2, fig.18. Holotype: Wetzel, 1933a, pl.2, fig.18. **NOW** *Palaeocystodinium rhomboides* subsp. *ovatum*. Originally *Ceratium fusus* forma *ovatum*, subsequently (and now) *Palaeocystodinium? rhomboides* subsp. *ovatum*. Wetzel (1933a, p.168) gave the following citation, "Form b: *Ceratium (Amphiceratium)* cf. *fusus*, forma *ovatum* n.f." Age: Senonian.

"forma **rhomboides**" Wetzel, 1933a, p.168, pl.2, fig.17. Holotype: Wetzel, 1933a, pl.2, fig.17. **NOW** *Palaeocystodinium rhomboides*. Originally *Ceratium fusus* forma *rhomboides*, subsequently (and now) *Palaeocystodinium? rhomboides*. Wetzel (1933a, p.168) gave the following citation, "Form a: *Ceratium (Amphiceratium)* cf. *fusus*, forma *rhomboides* n.f." Age: Senonian.

"**operculatum**" Wetzel, 1933a, p.170, pl.2, figs.21–22; text-fig.3. Holotype: Wetzel, 1933a, pl.2, fig.21. **NOW** *Odontochitina operculata*. Originally *Ceratium (Euceratium) operculatum*, subsequently *Palaeoceratium* (combination not validly published), thirdly (and now) *Odontochitina*. Taxonomic junior synonym: *Odontochitina silicorum*, according to Deflandre and Cookson (1955, p.292). Wetzel (1933a, p.170) gave the following citation, "*Ceratium (Euceratium) operculatum* n. sp." Age: Senonian.

CERATOCORYS Stein, 1883, p.20.

"*smolenskiensis*" Vozzhennikova, 1967, p.93, pl.34, figs.1–6; pl.35, fig.6; pl.36, fig.4. Emendation: Lentin and Vozzhennikova, 1990, p.112, as *Rhiptocorys smolenskiensis*. Holotype: Vozzhennikova, 1967, pl.36, fig.4, lost according to Lentin and Vozzhennikova (1990, p.112). Lectotype: Lentin and Vozzhennikova, 1990, pl.13, figs.1–3; text-fig.65, designated by Lentin and Vozzhennikova (1990, p.112). **NOW** *Rhiptocorys*. Originally *Ceratocorys*, subsequently *Microdinium*, thirdly *Microdinium?*, fourthly (and now) *Rhiptocorys*. Taxonomic senior synonym: *Micrhystridium* (as *Phanerodinium*, now *Rhiptocorys*) *veligerum*, according to Below (1987b, p.39) — however, Lentin and Vozzhennikova (1990, p.112) retained *Ceratocorys* (as *Rhiptocorys*) *smolenskiensis*. Age: Late Cretaceous.

"*veligera*" (Deflandre, 1937b, p.81, pl.12 [al. pl.9], fig.9) Lejeune-Carpentier, 1943, p.B24–B25. Emendations: Lejeune-Carpentier, 1943, p.B24–B25, as *Ceratocorys veligera*; and Lejeune-Carpentier and Sarjeant, 1983, p.5–6, as *Rhiptocorys veligera*. Holotype: Deflandre, 1937b, pl.12 (al. pl.9), fig.9; Fensome et al., 1995, fig.1 — p.1885. **NOW** *Rhiptocorys*. Originally *Micrhystridium* (Appendix A), subsequently *Ceratocorys*, thirdly *Microdinium*, fourthly *Microdinium?*, fifthly (and now) *Rhiptocorys*, sixthly *Phanerodinium*, seventhly *Phanerodinium?*. Taxonomic junior synonyms: *Microdinium irregulare* and *Microdinium smolenskiense*, both according to Below (1987b, p.56) — however, Lentin and Vozzhennikova (1990, p.112) retained *Ceratocorys* (as *Rhiptocorys*) *smolenskiensis*. Age: Senonian.

CLADOPYXIS Stein, 1883, p.18.

"*svalbardensis*" Below, 1987b, p.60, pl.29, figs.1–6; text-figs.13a–g. Holotype: Below, 1987b, pl.29, figs.1,3–4,6; text-figs.13c–g; Fensome et al., 1993a, figs.1,3–4,6 — p.1361. **NOW** *Cladopyxidium*. Originally *Cladopyxis*, subsequently (and now) *Cladopyxidium*. Age: Toarcian.

GONIODOMA Stein, 1883, p.9,13,16,19,21.

"*milneri*" (Murray and Whitting, 1899, p.325, pl.27, figs.2a–d) Kofoid, 1911, p.203. Holotype: not designated. **NOW** *Lingulodinium*. Originally *Gonyaulax* (Appendix B), subsequently *Goniodoma*, thirdly (and now) *Lingulodinium*. This species represents living motile cells. Age: extant.

polyedrica (Pouchet, 1883, p.42, fig.34) Jörgensen, 1900, p.33. Holotype: Pouchet, 1883, fig.34. Originally *Peridinium* (Appendix B), subsequently (and now) *Goniodoma*, thirdly *Heteraulacysta*. Lentin and Williams (1973, p.67–68) retained this species in *Goniodoma*, restricting it to modern forms. Morgenroth (1966a, p.7) included Eocene fossils in this modern, motile-based species. Lentin and Williams (1973, p.67–68) proposed *Heteraulacysta fehmarnensis* for fossil cysts which resemble *Goniodoma polyedrica*. Age: extant.

GONYAULAX Diesing, 1866, p.305,382. Fensome et al. (1993b, p.93) considered *Gonyaulax* to be a possible taxonomic junior synonym of *Spiniferites*. Type: specimen not designated originally or apparently subsequently; "type species" *Peridinium* (now *Gonyaulax*) *spiniferum* Claparède and Lachmann, 1859.

"*acanthosphaera*" Sarjeant, 1961a, p.94–95, pl.13, fig.14; text-fig.4. Emendation: Sarjeant, 1976c, p.12, as *Meiourogonyaulax? acanthosphaera*. Holotype: Sarjeant, 1961a, pl.13, fig.14; text-fig.4; Sarjeant, 1976c, pl.5, figs.2,4. **NOW** *Meiourogonyaulax?*. Originally *Gonyaulax*, subsequently *Acanthogonyaulax* (combination not validly published), thirdly *Acanthaulax*, fourthly *Meiourogonyaulax*, fifthly (and now) *Meiourogonyaulax?*, sixthly *Lithodinia*, seventhly *Lithodinia?*. Age: early Oxfordian.

"*aceras*" Eisenack, 1958a, p.391, pl.21, figs.1–2. Emendation: Sarjeant, 1985a, p.57,59, as *Cribroperidinium aceras*. Holotype: Eisenack, 1958a, pl.21, fig.1; Sarjeant, 1985a, pl.4, figs.1–2; Jan du Chêne et al., 1986a, pl.2, figs.6–7. **NOW** *Cribroperidinium*. Originally *Gonyaulax*, subsequently *Gonyaulacysta?* (combination not validly published), thirdly *Leptodinium*, fourthly *Acanthaulax?*, fifthly (and now) *Cribroperidinium*. Age: Aptian.

"*aculeata*" Klement, 1960, p.42, pl.5, figs.6–9; text-fig.21. Holotype: Klement, 1960, pl.5, figs.6–7. **NOW** *Tehamadinium*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly *Acanthaulax*, fourthly *Occisucysta*, fifthly (and now) *Tehamadinium*. Age: early Kimmeridgian.

"*amabilis*" Deflandre, 1939b, p.143, pl.6, fig.8. Emendation: Kunz, 1990, p.18–19, as *Leptodinium amabile*. Holotype: Deflandre, 1939b, pl.6, fig.8; Jan du Chêne et al., 1986a, pl.69, figs.1–3. **NOW** *Leptodinium*. Originally *Gonyaulax*, subsequently (and now) *Leptodinium*, thirdly *Gonyaulacysta*, fourthly *Leptodinium?*. Age: Kimmeridgian.

"*ambigua*" Deflandre, 1939b, p.144, pl.6, fig.2. Holotype: Deflandre, 1939b, pl.6, fig.2; Jan du Chêne et al., 1986a, pl.68, figs.1–3. **NOW** *Leptodinium*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly *Millioudodinium*, fourthly *Rhynchodiniopsis*, fifthly (and now) *Leptodinium*. Age: Kimmeridgian.

"*apionis*" Cookson and Eisenack, 1958, p.36, pl.3, fig.7; text-figs.3–4. Holotype: Cookson and Eisenack, 1958, text-figs.3–4; Jan du Chêne et al., 1986a, pl.33, fig.6. **NOW** *Criproperidinium*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly *Millioudodinium*, fourthly (and now) *Criproperidinium*. Taxonomic senior synonym: *Gonyaulax* (now *Criproperidinium*) *edwardsii*, according to Burger (1980a, p.82) — however, Jan du Chêne et al. (1986a, p.76) retained *Gonyaulax* (as *Criproperidinium*) *apionis*. Age: Albian.

"*areolata*" Sarjeant, 1961a, p.95–96, pl.13, fig.13; text-fig.5. Holotype: Sarjeant, 1961a, pl.13, fig.13; text-fig.5; Jan du Chêne et al., 1986a, pl.3, figs.1–2. **Name illegitimate** — **senior homonym**: *Gonyaulax areolata* Kofoid and Michener, 1911. Substitute name: *Gonyaulacysta scarburghensis*. **NOW** *Trichodinium scarburghense*. Originally *Gonyaulax areolata* (name illegitimate), subsequently *Gonyaulacysta scarburghensis*, thirdly *Gonyaulacysta areolata* (combination illegitimate), fourthly *Acanthaulax areolata* (combination illegitimate), fifthly *Acanthaulax scarburghensis*, sixthly *Liesbergia scarburghensis*, seventhly (and now) *Trichodinium scarburghense*. Taxonomic junior synonym: *Acanthaulax senta*, according to Berger (1986, p.343) and Jan du Chêne et al. (1986a, p.25). Age: late Callovian–early Oxfordian.

"*bulloidea*" Cookson and Eisenack, 1960b, p.247, pl.37, fig.11; text-figs.4a–b. Emendation: Riding and Helby, 2001g, p.206, as *Meiourogonyaulax bulloidea*. Holotype: Cookson and Eisenack, 1960b, pl.37, fig.11. Originally *Gonyaulax*, subsequently (and now) *Meiourogonyaulax*, thirdly *Lithodinia*. Age: Tithonian.

"*cassidata*" (Eisenack and Cookson, 1960, p.3, pl.1, figs.5–6) Cookson and Eisenack, 1962b, p.486. Emendations: Sarjeant, 1966b, p.125, as *Gonyaulacysta cassidata*; Helenes and Lucas-Clark, 1997, p.190, as *Wrevittia cassidata*. Holotype: Eisenack and Cookson, 1960, pl.1, fig.5; Jan du Chêne et al., 1986a, pl.40, figs.6–7. **NOW** *Wrevittia cassidata*. Originally *Gonyaulax helicoidea* subsp. *cassidata*, subsequently *Gonyaulax cassidata*, thirdly *Gonyaulacysta cassidata*, fourthly (and now) *Wrevittia cassidata*. Age: Aptian–Cenomanian.

"*caytonensis*" Sarjeant, 1959, p.330–332, pl.13, fig.1; text-fig.1. Holotype: Sarjeant, 1959, pl.13, fig.1; text-fig.1. **NOW** *Meiourogonyaulax*. Originally *Gonyaulax* (Appendix B), subsequently (and now) *Meiourogonyaulax*, thirdly *Lithodinia*. Age: early Callovian.

"*chaloneri*" Sarjeant, 1963b, p.354; text-figs.2 (right)-3. Holotype: Sarjeant, 1963b, text-figs.2 (right)-3. **NOW** *Rhaetogonyaulax rhaetica* subsp. *chaloneri*. Originally *Gonyaulax chaloneri*, subsequently *Rhaetogonyaulax chaloneri*, thirdly *Rhaetogonyaulax rhaetica* var. *chaloneri*, fourthly (and now) *Rhaetogonyaulax rhaetica* subsp. *chaloneri*. Age: Carnian.

"*cladophora*" Deflandre, 1939a, p.173–176, pl.7, figs.1–5; text-figs.5–6. Holotype: Deflandre, 1939a, pl.7, fig.1; and Jan du Chêne et al., 1986a, pl.94, fig.6. **NOW** *Rhynchodiniopsis*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly *Hystrichogonyaulax*, fourthly (and now) *Rhynchodiniopsis*. Taxonomic junior synonyms: *Gonyaulacysta gottisii*, according to Jan du Chêne et al. (1986a, p.48) and Jan du Chêne and Fauconnier (1986, p.55); *Gonyaulacysta canadensis* and *Gonyaulacysta downiei*, both according to Fisher and Riley (1980, p.320) and Kunz (1990, p.23). Age: early Oxfordian.

"subsp. *cladophora*". Autonym. Holotype: Deflandre, 1939a, pl.7, fig.1; Jan du Chêne et al., 1986a, pl.94, fig.6. **NOW** *Rhynchodiniopsis cladophora* subsp. *cladophora*. Originally *Gonyaulax cladophora* subsp.

cladophora, subsequently *Gonyaulacysta cladophora* subsp. *cladophora*, thirdly *Hystrichogonyaulax cladophora* subsp. *cladophora*, fourthly (and now) *Rhynchodiniopsis cladophora* subsp. *cladophora*. Taxonomic junior synonyms: *Gonyaulax* (as *Rhynchodiniopsis*) *cladophora* subsp. *extensa*, *Gonyaulax* (as *Rhynchodiniopsis*) *cladophora* subsp. *hemipolyedrica* and *Gonyaulax* (as *Rhynchodiniopsis*) *cladophora* subsp. *isovalvata*, all by implication in Brenner (1988, p.72), who listed these subspecies as taxonomic junior synonyms of the species *Rhynchodiniopsis cladophora* — however, Lentin and Williams (1993, p.566) retained all three subspecies.

"subsp. *extensa*" Klement, 1960, p.36–37, pl.4, figs.1–4; text-fig.16. Holotype: Klement, 1960, pl.4, figs.1–3; Jan du Chêne et al., 1986a, pl.95, figs.4–5. **NOW** *Rhynchodiniopsis cladophora* subsp. *extensa*. Originally *Gonyaulax cladophora* subsp. *extensa*, subsequently *Gonyaulacysta cladophora* subsp. *extensa*, thirdly *Hystrichogonyaulax cladophora* subsp. *extensa*, fourthly (and now) *Rhynchodiniopsis cladophora* subsp. *extensa*. Taxonomic senior synonym: *Gonyaulax* (as *Rhynchodiniopsis*) *cladophora* subsp. *cladophora*, by implication in Brenner (1988, p.72), who listed this subspecies as a taxonomic junior synonym of *Rhynchodiniopsis cladophora* — however, Lentin and Williams (1993, p.566) retained *Gonyaulax* (as *Rhynchodiniopsis*) *cladophora* subsp. *extensa*. Age: early Kimmeridgian.

"subsp. *hemipolyedrica*" Klement, 1960, p.36, pl.3, figs.10–12; text-figs.14–15. Holotype: Klement, 1960, pl.3, figs.10–11. **NOW** *Rhynchodiniopsis cladophora* subsp. *hemipolyedrica*. Originally *Gonyaulax cladophora* subsp. *hemipolyedrica*, subsequently *Gonyaulacysta cladophora* subsp. *hemipolyedrica*, thirdly *Hystrichogonyaulax cladophora* subsp. *hemipolyedrica*, fourthly (and now) *Rhynchodiniopsis cladophora* subsp. *hemipolyedrica*. Taxonomic senior synonym: *Gonyaulax* (as *Rhynchodiniopsis*) *cladophora* subsp. *cladophora*, by implication in Brenner (1988, p.72), who listed this subspecies as a taxonomic junior synonym of *Rhynchodiniopsis cladophora* — however, Lentin and Williams (1993, p.566) retained *Gonyaulax* (as *Rhynchodiniopsis*) *cladophora* subsp. *hemipolyedrica*. Age: early Kimmeridgian.

"subsp. *isovalvata*" Klement, 1960, p.37–38, pl.4, figs.5–9; text-fig.17. Holotype: Klement, 1960, pl.4, figs.5–6. **NOW** *Rhynchodiniopsis cladophora* subsp. *isovalvata*. Originally *Gonyaulax cladophora* subsp. *isovalvata*, subsequently *Gonyaulacysta cladophora* subsp. *isovalvata*, thirdly *Hystrichogonyaulax cladophora* subsp. *isovalvata*, fourthly (and now) *Rhynchodiniopsis cladophora* subsp. *isovalvata*. Taxonomic senior synonym: *Gonyaulax* (as *Rhynchodiniopsis*) *cladophora* subsp. *cladophora*, by implication in Brenner (1988, p.72), who listed this subspecies as a taxonomic junior synonym of *Rhynchodiniopsis cladophora* — however, Lentin and Williams (1993, p.566) retained *Gonyaulax* (as *Rhynchodiniopsis*) *cladophora* subsp. *isovalvata*. Age: early Kimmeridgian.

"*clathrata*" Cookson and Eisenack, 1960b, p.246–247, pl.37, fig.5; text-fig.2. Holotype: Cookson and Eisenack, 1960b, pl.37, fig.5; text-fig.2; Jan du Chêne et al., 1986a, pl.71, figs.10–12. **NOW** *Leptodinium*. Originally *Gonyaulax*, subsequently (and now) *Leptodinium*, thirdly *Gonyaulacysta*. Age: ?Tithonian.

"*confusa*" Vozzhennikova, 1967, p.80, pl.17, figs.1a–b; pl.25, figs.4–5; pl.27, figs.3–4. Holotype: Vozzhennikova, 1967, pl.25, fig.5, lost according to Lentin and Vozzhennikova (1990, p.93). **NOW** *Apteodinium*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly *Millioudodinium?*, fourthly *Rhynchodiniopsis?*, fifthly (and now) *Apteodinium*. Age: Late Jurassic.

"*cornigera*" Valensi, 1953, p.27, pl.1, figs.4,8,10; pl.2, figs.1–2; pl.13, fig.5; text-fig.2a. Emendation: Jan du Chêne et al., 1985b, p.110, as *Ctenidodinium cornigerum*. Holotype: Valensi, 1953, pl.1, fig.8. **NOW** *Ctenidodinium*. Originally *Gonyaulax*, subsequently *Gonyaulacysta?* (combination not validly published), thirdly *Hystrichogonyaulax*, fourthly (and now) *Ctenidodinium*. Woollam (1983, p.193) considered *Ctenidodinium combazii* to be a possible taxonomic junior synonym of this species. Age: Bathonian.

"*crassicornuta*" Klement, 1960, p.38–39, pl.5, figs.1–3. Emendation: Sarjeant, 1984a, p.158–160, as *Rhynchodiniopsis crassicornuta*. Holotype: Klement, 1960, pl.5, fig.1; Sarjeant, 1984a, pl.2, figs.1–2; text-fig.2; Jan du Chêne et al., 1986a, pl.45, figs.1–4. **NOW** *Gonyaulacysta?*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly (and now) *Gonyaulacysta?*, fourthly *Rhynchodiniopsis*. Age: early Kimmeridgian.

"*cretacea*" Neale and Sarjeant, 1962, p.441–443, pl.19, figs.1–2; text-figs.2a–b. Holotype: Neale and Sarjeant, 1962, pl.19, figs.1–2; text-figs.2a–b. **NOW** *Stanfordella*?. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly (and now) *Stanfordella*?. Age: Hauterivian.

"*crispa*" Wetzel, 1967a, p.870, pl.15, figs.4a–b. Emendations: Sarjeant, 1980b, p.119–120, as *Hystrichogonyaulax crispa*; Fenton, 1981, p.255,257, as *Cribroperidinium crispum*. Holotype: Wetzel, 1967a, pl.15, figs.4a–b; Dietz et al., 1999, text-fig.5a. **NOW** *Cribroperidinium*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly *Millioudodinium*, fourthly *Hystrichogonyaulax*, fifthly (and now) *Cribroperidinium*, sixthly *Acanthaulax*. Age: Middle Jurassic.

"?*crystalata*" Sarjeant, 1959, p.332–334, pl.13, fig.2; text-fig.2. Holotype: Sarjeant, 1959, pl.13, fig.2; text-fig.2. **NOW** *Meiourogonyaualax*. Originally *Gonyaulax*?, subsequently *Meiourogonyaualax*?, thirdly *Lithodinia*?, fourthly (and now) *Meiourogonyaualax*, fifthly *Lithodinia*. Questionable assignment: Sarjeant (1959, p.332). Age: early Callovian.

"*culmula*" Norris, 1965, p.793–795, figs.1–2,6–9. Holotype: Norris, 1965, figs.8–9. **NOW** *Dichadogonyaulax*. Originally *Gonyaulax*, subsequently (and now) *Dichadogonyaulax*, thirdly *Ctenidodinium*, fourthly *Avellodinium*. N.I.A. Age: Portlandian.

"*decapitata*" Wetzel, 1967a, p.869, pl.16, figs.7a–b. Emendation: Sarjeant, 1980b, p.121, as *Meiourogonyaualax decapitata*. Holotype: Wetzel, 1967a, pl.16, figs.7a–b; Sarjeant, 1980b, pl.3, figs.1–3; text-fig.3; Dietz et al., 1999, text-fig.5b. Originally *Gonyaulax*, subsequently *Meiourogonyaualax*, thirdly *Lithodinia*, fourthly *Meiourogonyaualax*? **Taxonomic senior synonym:** *Meiourogonyaualax* (as *Lithodinia*) *valensii* Sarjeant, 1966b, according to Fenton (1981, p.253) and Williams et al. (1993, p.56). Age: Bajocian.

"*diaphana*" Cookson and Eisenack, 1958, p.36, pl.3, figs.13–14; text-figs.10–11. Holotype: Cookson and Eisenack, 1958, pl.3, figs.13–14; text-figs.10–11; Jan du Chêne et al., 1986a, pl.32, fig.6. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly *Cribroperidinium*. **Taxonomic senior synonym:** *Gonyaulax* (now *Cribroperidinium*) *muderongensis*, according to Backhouse (1988, p.80). Age: Aptian.

digitale (Pouchet, 1883, p.443, pl.18–19, fig.14) Kofoid, 1911, p.214. Holotype: information not available. Originally *Protoperidinium* (Appendix B), subsequently (and now) *Gonyaulax*. N.I.A. Age: extant.

subsp. *digitalis*. Autonym. Holotype: information not available. N.I.A.

"subsp. *prima*" Sütő-Szentai, 1988, p.355, pl.3, fig.2. **Name not validly published:** no description. This name was also specified as new but not validly published, for the same reason, in Sütő-Szentai (1991, p.190; pl.F, figs.a–b). Age: late Miocene.

"subsp. *quatuor*" Sütő-Szentai, 1988, p.356, pl.3, fig.5. **Name not validly published:** no description. This name was also specified as new but not validly published, for the same reason, in Sütő-Szentai (1991, p.192; pl.G, figs.f). Age: late Miocene.

subsp. *secunda* Fuchs and Sütő-Szentai, 1991, p.24, pl.8, figs.1–5; text-fig.2, nos.2 (two illustrations), 3. Holotype: Fuchs and Sütő-Szentai, 1991, pl.8, fig.5, text-fig.2, no.2 (two illustrations). This name was not validly published in Sütő-Szentai (1988, p.344, pl.3, fig.4) and Sütő-Szentai (1991, p.190, pl.F, fig.d), since these authors did not provide a description. Age: late Miocene.

"subsp. *tertia*" Sütő-Szentai, 1988, p.356, pl.3, fig.6. **Name not validly published:** no description. This name was also specified as new but not validly published, for the same reason, in Sütő-Szentai (1991, p.192; pl.G, fig.e). Age: late Miocene.

"subsp. *transformis*" Sütő-Szentai, 1991, p.190, pl.F, fig.c. **Name not validly published:** no description. Age: late Miocene.

"*edwardsii*" Cookson and Eisenack, 1958, p.32, pl.3, figs.5–6; text-fig.7. Holotype: Cookson and Eisenack, 1958, pl.3, fig.6; text-fig.7; Jan du Chêne et al., 1986a, pl.32, fig.4; pl.33, fig.3. **NOW** *Cribroperidinium?*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly *Cribroperidinium*, fourthly (and now) *Cribroperidinium?*. Taxonomic junior synonyms: *Gonyaulax* (as *Cribroperidinium*) *apione*, according to Burger (1980a, p.82) — however, Jan du Chêne et al. (1986a, p.76) retained *Cribroperidinium apione*; and *Gonyaulax* (as *Cribroperidinium*) *orthoceras*, according to Davey and Verdier (1971, p.17) — however, Lentin and Williams (1985, p.79) retained *Gonyaulax* (as *Cribroperidinium*) *orthoceras*. Age: Albian–early Turonian.

"*eisenackii*" Deflandre, 1939a, p.171, pl.6, figs.7–10; text-figs.3–4. Emendation: Sarjeant, 1982b, p.32–33, as *Gonyaulacysta eisenackii*. Holotype: Deflandre, 1939a, pl.6, figs.7–8; text-figs.3–4; Jan du Chêne et al., 1986a, pl.125, figs.5–9. **NOW** *Gonyaulacysta*. Originally *Gonyaulax*, subsequently (and now) *Gonyaulacysta*, thirdly *Endoscrinium*, fourthly *Tubotuberella*. Taxonomic junior synonym: *Tubotuberella sphaerocephala*, according to Sarjeant (1982b, p.32). Age: Oxfordian.

"subsp. *eisenackii*". Autonym. Holotype: Deflandre, 1939a, pl.6, figs.7–8; text-figs.3–4; Jan du Chêne et al., 1986a, pl.125, figs.5–9. **Now redundant**. Originally *Gonyaulax eisenackii* subsp. *eisenackii*, subsequently *Gonyaulacysta eisenackii* subsp. *eisenackii*, thirdly *Endoscrinium eisenackii* subsp. *eisenackii*, fourthly *Tubotuberella eisenackii* subsp. *eisenackii*. Taxonomic junior synonym: *Gonyaulax* (as *Gonyaulacysta*) *eisenackii* subsp. *oligodentata*, according to Sarjeant (1982b, p.32).

"subsp. *oligodentata*" Cookson and Eisenack, 1958, p.30, pl.2, fig.11. Holotype: Cookson and Eisenack, 1958, pl.2, fig.11; Jan du Chêne et al., 1986a, pl.125, figs.10–11. Originally *Gonyaulax eisenackii* subsp. *oligodentata*, subsequently *Gonyaulacysta eisenackii* subsp. *oligodentata*, thirdly *Endoscrinium eisenackii* subsp. *oligodentatum*, fourthly *Tubotuberella eisenackii* subsp. *oligodentata*. **Taxonomic senior synonym**: *Gonyaulax eisenackii* subsp. *eisenackii*, according to Sarjeant (1982b, p.32). Age: Late Jurassic.

"*elongate*" (Reid, 1974, p.602–603, pl.3, figs.23–24) Ellegaard et al., 2003, p.154. Holotype: Reid, 1974, pl.3, figs.23–24. **NOW** *Spiniferites*. Originally (and now) *Spiniferites*, subsequently *Gonyaulax*. Because we follow the dual approach to the nomenclature of dinoflagellates (see Head et al. 2016), we retain this species in *Spiniferites*. Motile equivalent: *Gonyaulax spinifera* (Claparède and Lachmann, 1859) Diesing, 1866, according to Dale (1976, table 2 — p.45). Age: Holocene.

"*eumorpha*" Cookson and Eisenack, 1960b, p.246, pl.37, figs.1–3; text-fig.3. Holotype: Cookson and Eisenack, 1960b, pl.37, fig.1; Jan du Chêne et al., 1986a, pl.75, fig.4. **NOW** *Leptodinium*. Originally *Gonyaulax*, subsequently *Gonyaulacysta* (combination not validly published), thirdly (and now) *Leptodinium*. Age: Late Jurassic.

"*freakei*" Sarjeant, 1963c, p.85–86, pl.1, figs.1–3. Holotype: Sarjeant, 1963c, pl.1, figs.1–3; Jan du Chêne et al., 1986a, pl.67, figs.13–14. Originally *Gonyaulax*, subsequently *Gonyaulacysta?* (combination not validly published), thirdly *Leptodinium*. **Taxonomic senior synonym**: *Leptodinium subtile*, according to Brenner (1988, p.60). Age: early Oxfordian.

"*giuseppeii*" Morgenroth, 1966a, p.5, pl.2, figs.3–6. Holotype: Morgenroth, 1966a, pl.2, figs.3–4. **NOW** *Cribroperidinium*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly *Millioudodinium?*, fourthly *Rhynchodiniopsis?*, fifthly (and now) *Cribroperidinium*. Age: early Eocene.

"subsp. *giuseppeii*". Autonym. Holotype: Morgenroth, 1966a, pl.2, figs.3–4. **Now redundant**. Originally *Gonyaulax giuseppeii* subsp. *giuseppeii*, subsequently *Gonyaulacysta giuseppeii* subsp. *giuseppeii*, thirdly *Millioudodinium?* *giuseppeii* subsp. *giuseppeii*, fourthly *Rhynchodiniopsis?* *giuseppeii* subsp. *giuseppeii*, fifthly *Cribroperidinium giuseppeii* subsp. *giuseppeii*. Taxonomic junior synonym: *Gonyaulax* (as *Rhynchodiniopsis*) *giuseppeii* subsp. *major*, according to Helenes (1984, p.121) and Lentin and Williams (1989, p.81). Age: early Eocene.

"subsp. *major*" Morgenroth, 1966a, p.6, pl.2, figs.5–6. Holotype: Morgenroth, 1966a, pl.2, figs.5–6. Originally *Gonyaulax giuseppeii* subsp. *major*, subsequently *Gonyaulacysta giuseppeii* subsp. *major*, thirdly *Millioudodinium?* *giuseppeii* subsp. *majus*, fourthly *Rhynchodiniopsis?* *giuseppeii* subsp. *major*, fifthly

Cribroperidinium giuseppei subsp. *majus*. **Taxonomic senior synonym:** *Gonyaulax giuseppei* subsp. *giuseppei*, according to Helenes (1984, p.121) and Lentin and Williams (1989, p.81). Age: early Eocene.

"**granulata**" Klement, 1960, p.39–41, pl.4, figs.10–13; text-figs.18–20. Emendation: Sarjeant, 1984a, p.161–162, as *Meristaulax granulata*. Holotype: Klement, 1960, pl.4, figs.10–11; text-figs.18–20; Fensome et al., 1995, figs.1–2 — p.1525; disintegrated according to Sarjeant (1984a, p.162). Lectotype (designated by Sarjeant, 1984a, p.162): Sarjeant, 1984a, pl.3, figs.3–4; text-fig.3; Jan du Chêne et al., 1986a, pl.27, figs.7–10; Brenner, 1988, pl.3, figs.2a–b; Fensome et al., 1995, figs.5–6 — p.1525 — however, Brenner (1988, p.35) argued that this specimen is not conspecific with the holotype. Lectotype (designated by Brenner, 1988, p.35): Brenner, 1988, pl.1, figs.3a–c; Fensome et al., 1995, figs.7–9 — p.1525. **NOW** *Cribroperidinium*. Originally *Gonyaulax* (Appendix B), subsequently *Gonyaulacysta*, thirdly (and now) *Cribroperidinium*, fourthly *Rhynchodiniopsis*, fifthly *Meristaulax* Sarjeant, sixthly *Acanthaulax*. Poulsen (1996, p.73) retained this species in *Cribroperidinium*. Taxonomic junior synonyms: *Gonyaulax* (as *Cribroperidinium*) *venusta*, according to Schrank (2005, p.56); *Gonyaulax* (now *Cribroperidinium*) *granuligera*, according to Fisher and Riley (1980, p.321) — however, Sarjeant (1984a, p.156–158) retained *Gonyaulax* (as *Cryptarchaeodinium*) *granuligera*; *Gonyaulacysta* (as *Acanthaulax*?, now *Cribroperidinium*) *angulosa*, according to Fisher and Riley (1980, p.321) — however, Sarjeant and Gocht in Sarjeant (1984a, p.160) retained *Gonyaulacysta* (as *Meristaulax*) *angulosa*. For further discussion, see *Cribroperidinium granulatum*. Age: middle Oxfordian–early Kimmeridgian.

"**granuligera**" Klement, 1960, p.41–42, pl.5, figs.4–5. Emendation: Sarjeant, 1984a, p.156, as *Cryptarchaeodinium granuligerum*. Holotype: Klement, 1960, pl.5, figs.4–5; Sarjeant, 1984a, pl.1, figs.3–4; text-fig.1; and Jan du Chêne et al., 1986a, pl.27, figs.11–14. **NOW** *Cribroperidinium*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly (and now) *Cribroperidinium*, fourthly *Rhynchodiniopsis*, fifthly *Cryptarchaeodinium*, sixthly *Acanthaulax*. Taxonomic senior synonym: *Gonyaulax* (as *Gonyaulacysta*, now *Cribroperidinium*) *granulata*, according to Fisher and Riley (1980, p.321) — however, Sarjeant (1984a, p.156) retained *Gonyaulax* (as *Cryptarchaeodinium*) *granuligera*. Age: middle Oxfordian–early Kimmeridgian.

"**helicoidea**" Eisenack and Cookson, 1960, p.2–3, pl.1, figs.4–6,9 (figs.5–6 are now *Gonyaulacysta cassidata*). Emendations: Sarjeant, 1966b, p.116, as *Gonyaulacysta helicoidea*; Helenes and Lucas-Clark, 1997, p.187–188, as *Wrevittia helicoidea*. Holotype: Eisenack and Cookson, 1960, pl.1, fig.4; Jan du Chêne et al., 1986a, pl.40, figs.4–5. **NOW** *Wrevittia*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly (and now) *Wrevittia*. Taxonomic junior synonym: *Gonyaulacysta* (now *Wrevittia*?) *diutina*, according to Stover and Helby (1987d, p.287) — however, Jan du Chêne et al. (1986a, p.131) and Lentin and Williams (1989, p.152) retained *Gonyaulacysta* (now *Wrevittia*?) *diutina*. Age: Neocomian–Aptian.

"subsp. **cassidata**" Eisenack and Cookson, 1960, p.3, pl.1, figs.5–6. Emendations: Sarjeant, 1966b, p.125, as *Gonyaulacysta cassidata*; Helenes and Lucas-Clark, 1997, p.190, as *Wrevittia cassidata*. Holotype: Eisenack and Cookson, 1960, pl.1, fig.5; Jan du Chêne et al., 1986a, pl.40, figs.6–7. **NOW** *Wrevittia cassidata*. Originally *Gonyaulax helicoidea* subsp. *cassidata*, subsequently *Gonyaulax cassidata*, thirdly *Gonyaulacysta cassidata*, fourthly (and now) *Wrevittia cassidata*. Age: Aptian–Cenomanian.

"subsp. **helicoidea**". Autonym. Holotype: Eisenack and Cookson, 1960, pl.1, fig.4; Jan du Chêne et al., 1986a, pl.40, figs.4–5. **Now redundant**.

"var. **helicoidea**". Autonym. Holotype: Eisenack and Cookson, 1960, pl.1, fig.4; Jan du Chêne et al., 1986a, pl.40, figs.4–5. **Now redundant**. Originally *Gonyaulax helicoidea* var. *helicoidea*, subsequently *Gonyaulacysta helicoidea* var. *helicoidea*.

"var. **tuberculata**" Vozzhennikova, 1967, p.83, pl.41, figs.3a–b. Emendation: Lentin and Vozzhennikova, 1990, p.100, as *Gonyaulacysta? tuberculata*. Holotype: Vozzhennikova, 1967, pl.41, figs.3a–b; Lentin and Vozzhennikova, 1990, text-fig.56; lost according to Lentin and Vozzhennikova (1990, p.99). Neotype: Lentin and Vozzhennikova, 1990, pl.14, figs.7–8, designated by Lentin and Vozzhennikova (1990, p.99). **NOW** *Gonyaulacysta? tuberculata*. Originally *Gonyaulax helicoidea* var. *tuberculata*, subsequently *Gonyaulacysta helicoidea* var. *tuberculata*, thirdly *Gonyaulacysta helicoidea* subsp. *tuberculata*, fourthly (and now) *Gonyaulacysta? tuberculata*. Age: Tithonian.

"*heslertonensis*" Neale and Sarjeant, 1962, p.440, pl.19, fig.5; pl.20, fig.5. Emendation: Duxbury, 1980, p.124, as *Heslertonia heslertonensis*. Holotype: Neale and Sarjeant, 1962, pl.19, fig.5; text-fig.1. **NOW** *Heslertonia*. Originally *Gonyaulax*, subsequently (and now) *Heslertonia*. Age: Hauterivian–Barremian.

"*hyalodermopsis*" Cookson and Eisenack, 1958, p.34, pl.3, figs.11–12; text-figs.5–6. Holotype: Cookson and Eisenack, 1958, pl.3, figs.11–12; text-figs.5–6; Jan du Chêne et al., 1986a, pl.74, figs.9–10. **NOW** *Leptodinium?*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly (and now) *Leptodinium?*, fourthly *Rhynchodiniopsis*. Age: Neocomian–Aptian.

"*jurassica*" Deflandre, 1939a, p.168, pl.6, figs.2–5; text-figs.1–2. Emendation: Sarjeant, 1982b, p.28–30, as *Gonyaulacysta jurassica*. Holotype: Deflandre, 1939a, pl.6, figs.2–3; text-figs.1–2; Jan du Chêne et al., 1986a, pl.37, figs.1–3. **NOW** *Gonyaulacysta*. Originally *Gonyaulax*, subsequently (and now) *Gonyaulacysta*. Taxonomic junior synonym: *Psaligonyaulax* (as *Gonyaulacysta*) *dualis*, according to Sarjeant (1982b, p.29) — however, Jan du Chêne et al. (1986a, p.131) retained *Gonyaulacysta dualis*. Age: Oxfordian.

"var. *jurassica*". Autonym. Holotype: Deflandre, 1939a, pl.6, figs.2–3; text-figs.1–2; and Jan du Chêne et al., 1986a, pl.37, figs.1–3. **NOW** *Gonyaulacysta jurassica* var. *jurassica*. Originally *Gonyaulax jurassica* var. *jurassica*, subsequently (and now) *Gonyaulacysta jurassica* var. *jurassica*.

"var. *longicornis*" Deflandre, 1939a, p.171, pl.6, fig.6. Emendation: Sarjeant, 1982b, p.31, as *Gonyaulacysta jurassica* subsp. *adecta* var. *longicornis*. Holotype: Deflandre, 1939a, pl.6, fig.6; Jan du Chêne et al., 1986a, pl.37, figs.7–8. **NOW** *Gonyaulacysta jurassica* subsp. *adecta* var. *longicornis*. Originally *Gonyaulax jurassica* var. *longicornis*, subsequently *Gonyaulacysta jurassica* var. *longicornis*, thirdly *Gonyaulacysta jurassica* subsp. *longicornis*, fourthly (and now) *Gonyaulacysta jurassica* subsp. *adecta* var. *longicornis*. Taxonomic junior synonym: *Gonyaulacysta jurassica* var. *brevis* (as *Gonyaulacysta jurassica* subsp. *brevis*), according to Sarjeant (1982b, p.31). Age: Oxfordian.

"*kostromiensis*" Vozzhennikova, 1967, p.85–86, pl.26, figs.1–6; pl.27, figs.1–2. Emendation: Harding, 1996, p.353,355, as *Nelchinopsis kostromiensis*. Holotype: Vozzhennikova, 1967, pl.26, figs.1–6; Jan du Chêne et al., 1986a, pl.44, figs.7–8; Lentin and Vozzhennikova, 1990, text-fig.64; lost according to Lentin and Vozzhennikova (1990, p.109). Lectotype: Lentin and Vozzhennikova, 1990, pl.15, figs.5–6, designated by Lentin and Vozzhennikova (1990, p.109); and Harding, 1996, pl.1, fig.1. **NOW** *Nelchinopsis*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly (and now) *Nelchinopsis*. Taxonomic junior synonym: *Alaskadinium wigginsii*, according to Stover and Williams (1987, p.11). Age: Neocomian, ?Valanginian or early Hauterivian.

"*longicornis*" Downie, 1957, p.420, pl.20, fig.8; text-figs.2a–b. Holotype: Downie, 1957, pl.20, fig.8; text-figs.2a–b; Jan du Chêne et al., 1986a, pl.30, fig.1. **NOW** *Cribroperidinium?*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly *Gonyaulacysta?*, fourthly *Millioudodinium*, fifthly (and now) *Cribroperidinium?*. Age: late Kimmeridgian.

"*mamillifera*" Deflandre, 1939b, p.143, pl.6, fig.1. Holotype: Deflandre, 1939b, pl.6, fig.1; Jan du Chêne et al., 1986a, pl.72, figs.1–8. **NOW** *Leptodinium*. Originally *Gonyaulax*, subsequently *Gonyaulacysta?*, thirdly *Millioudodinium?*, fourthly *Rhynchodiniopsis?*, fifthly (and now) *Leptodinium*. Age: Kimmeridgian.

"*margaritifera*" Cookson and Eisenack, 1960a, p.5–6, pl.2, figs.1–2; text-fig.1. Holotype: Cookson and Eisenack, 1960a, pl.2, fig.1; Jan du Chêne et al., 1986a, pl.54, fig.6. **NOW** *Impagidinium*. Originally *Gonyaulax*, subsequently *Gonyaulacysta* (combination not validly published), thirdly *Leptodinium*, fourthly (and now) *Impagidinium*. Age: Campanian.

"*membranacea*" (Rossignol, 1964, p.86, pl.1, figs.4,9–10; pl.3, figs.7,12) Ellegaard et al., 2003, p.157. Holotype: Rossignol, 1964, pl.1, figs.4,9–10. **NOW** *Spiniferites*. Originally *Hystrichosphaera furcata* var. *membranacea*, subsequently *Hystrichosphaera ramosa* var. *membranacea*, thirdly *Hystrichosphaera membranacea*, fourthly (and now) *Spiniferites membranaceus*, fifthly *Gonyaulax membranacea*. Because we follow the dual approach to the nomenclature of dinoflagellates (see Head et al. 2016), we retain this species in *Spiniferites*. Motile equivalent: *Gonyaulax spinifera* (Claparède and Lachmann, 1859) Diesing, 1866, according to Dale (1976, table 2 — p.45) and Dodge (1989, p.289). Age: Pleistocene–Holocene.

"*microceras*" Eisenack, 1958a, p.391, pl.21, fig.13. Emendation: Sarjeant, 1985a, p.67, as *Rhynchodiniopsis microceras*. Holotype: Eisenack, 1958a, pl.21, fig.13; Sarjeant, 1985a, pl.6, figs.5–6; pl.7, fig.6; text-fig.4; Jan du Chêne et al., 1986a, pl.99, figs.5–6. **NOW** *Rhynchodiniopsis*?. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly *Rhynchodiniopsis*, fourthly (and now) *Rhynchodiniopsis*?. Age: late Aptian.

"*millioudii*" Sarjeant, 1963c, p.87–88, pl.1, figs.4–7. Holotype: Sarjeant, 1963c, pl.1, figs.4–7; Jan du Chêne et al., 1986a, pl.71, figs.4–7. **NOW** *Leptodinium*. Originally *Gonyaulax*, subsequently *Gonyaulacysta* (combination not validly published), thirdly (and now) *Leptodinium*. Age: early Oxfordian.

"*milneri*" Murray and Whitting, 1899, p.325, pl.27, figs.2a–d. Holotype: not designated. **NOW** *Lingulodinium*. Originally *Gonyaulax*, subsequently *Goniodoma* (Appendix B), thirdly (and now) *Lingulodinium*. Age: extant.

"*muderongensis*" Cookson and Eisenack, 1958, p.32, pl.3, figs.3–4; text-fig.15. Holotype: Cookson and Eisenack, 1958, pl.3, fig.3; text-fig.15. **NOW** *Cribroperidinium*?. Originally *Gonyaulax*, subsequently *Gonyaulacysta* (combination not validly published), thirdly *Cribroperidinium*, fourthly (and now) *Cribroperidinium*?. Taxonomic junior synonym: *Gonyaulax* (as *Cribroperidinium*) *diaphana*, according to Backhouse (1988, p.80). Age: Aptian.

"*nannotrix*" Deflandre, 1939b, p.143, pl.6, fig.7. Holotype: Deflandre, 1939b, pl.6, fig.7; Jan du Chêne et al., 1986a, pl.69, figs.4–6. **NOW** *Leptodinium*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly *Gonyaulacysta*?, fourthly *Rhynchodiniopsis*?, fifthly (and now) *Leptodinium*. Age: Kimmeridgian.

"*nealei*" Sarjeant, 1962a, p.480–481, pl.69, fig.1; text-fig.2. Holotype: Sarjeant, 1962a, pl.69, fig.1; text-fig.2. **NOW** *Rhynchodiniopsis*?. Originally *Gonyaulax*, subsequently *Gonyaulacysta*? (combination not validly published), thirdly *Hystrichogonyaulax*, fourthly *Hystrichogonyaulax*?, fifthly *Rhynchodiniopsis*, sixthly (and now) *Rhynchodiniopsis*?. Age: Oxfordian.

"*nuciformis*" Deflandre, 1939a, p.180, pl.8, figs.4–6 ex Sarjeant, 1962a, p.482–483. Holotype: Deflandre, 1938, pl.8, fig.6; Jan du Chêne et al., 1986a, pl.11, figs.1–3. **NOW** *Cribroperidinium*. Originally *Palaeoperidinium* (name not validly published), subsequently *Gonyaulax*, thirdly *Gonyaulacysta*, fourthly *Apteodinium*, fifthly *Millioudodinium*, sixthly (and now) *Cribroperidinium*. Taxonomic junior synonym: *Palaeoperidinium nuciformoides*, according to Sarjeant (1968, p.227). The name *Palaeoperidinium nuciforme* was not validly published in Deflandre (1939a) since the generic name *Palaeoperidinium* was not validly published until 1967. Age: Oxfordian.

"*obscura*" Lejeune-Carpentier, 1946, p.B191, figs.3–5. Emendation: Lejeune-Carpentier and Sarjeant, 1981, p.4, as *Gonyaulacysta? obscura*. Holotype: Lejeune-Carpentier, 1946, figs.3–4; Lejeune-Carpentier and Sarjeant, 1981, pl.2, figs.3–4; text-fig.2. **NOW** *Gonyaulacysta*?. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly (and now) *Gonyaulacysta*?, fourthly *Millioudodinium*. Age: Senonian.

"*orthoceras*" Eisenack, 1958a, p.388, pl.21, figs.3–11; pl.24, fig.1. Emendation: Sarjeant, 1985a, p.51,53, as *Cribroperidinium orthoceras*. Holotype: Eisenack, 1958a, pl.21, fig.5; Sarjeant, 1985a, pl.1, figs.1,4; text-fig.1; Jan du Chêne et al., 1986a, pl.24, figs.7–8. **NOW** *Cribroperidinium*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly (and now) *Cribroperidinium*, fourthly *Cribroperidinium*?. Taxonomic senior synonym: *Gonyaulax* (as *Cribroperidinium*) *edwardsii*, according to Davey and Verdier (1971, p.17) — however, Lentin and Williams (1985, p.79) retained *Cribroperidinium orthoceras*. Age: Aptian.

"*pachyderma*" Deflandre, 1939a, p.176–178, pl.7, figs.6–10; text-figs.7–10. Holotype: Deflandre, 1939a, pl.7, figs.6–7. **NOW** *Korystocysta*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly *Ctenidodinium*, fourthly *Ctenidodinium*?, fifthly (and now) *Korystocysta*, sixthly *Dichadogonyaulax*. Taxonomic junior synonyms: *Leptodinium norrisii*, according to Benson (1985, p.154); *Dichadogonyaulax* (subsequently *Korystocysta*) *kettonensis*, by implication in Conway (1990, p.35), who considered *Dichadogonyaulax kettonensis* to be the senior name — however, Lentin and Williams (1993, p.374) retained *Dichadogonyaulax* (as *Korystocysta*) *kettonensis*. Age: Oxfordian.

"*paliuro*" Sarjeant, 1962a, p.260, pl.1, fig.7; text-fig.5. Holotype: Sarjeant, 1962a, pl.1, fig.7. **NOW** *Cribroperidinium?*. Originally *Gonyaulax*, subsequently *Acanthogonyaulax* (combination not validly published), thirdly *Acanthaulax*, fourthly *Acanthaulax?*, fifthly (and now) *Cribroperidinium?*. Age: Oxfordian.

"*pannonica*" Nagy, 1965, p.200–201, pl.1, figs.1–2; pl.2, fig.10; text-figs.1–2. Holotype: Nagy, 1965, pl.1, figs.1–2; pl.2, fig.10; Jan du Chêne et al., 1986a, pl.31, figs.1–4. **NOW** *Cribroperidinium?*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly *Millioudodinium?*, fourthly (and now) *Cribroperidinium?*. Age: early Pliocene.

"*perforans*" Cookson and Eisenack, 1958, p.30–32, pl.2, figs.1–4,7–8; text-figs.8–9. Holotype: Cookson and Eisenack, 1958, pl.2, fig.1; text-figs.8–9; Jan du Chêne et al., 1986a, pl.32, fig.2. **NOW** *Cribroperidinium?*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly *Leptodinium?*, fourthly *Rhynchodiniopsis*, fifthly *Cribroperidinium*, sixthly (and now) *Cribroperidinium?*. Age: Late Jurassic.

"var. *kunzeviensis*" Vozzhennikova, 1967, p.87, pl.27, fig.6; pl.30, fig.2; pl.33, fig.6. Holotype: Vozzhennikova, 1967, pl.30, fig.2, lost according to Lentin and Vozzhennikova (1990, p.94). **NOW** *Cribroperidinium?* *perforans* subsp. *kunzeviense*. Originally *Gonyaulax perforans* var. *kunzeviensis*, subsequently *Gonyaulacysta kunzeviensis*, thirdly *Gonyaulacysta perforans* var. *kunzeviensis* (combination not validly published), fourthly (and now) *Cribroperidinium?* *perforans* subsp. *kunzeviense*. Age: Valanginian.

"var. *perforans*". Autonym. Holotype: Cookson and Eisenack, 1958, pl.2, fig.1; text-figs.8–9; Jan du Chêne et al., 1986a, pl.32, fig.2. **Now redundant.**

"*polyedra*" Stein, 1883, p.13, pl.4, figs.7–9. Holotype: not designated. **NOW** *Lingulodinium*. Originally *Gonyaulax*, subsequently (and now) *Lingulodinium*. This species represents living dinoflagellates. N.I.A. Age: extant.

"*porosa*" Lejeune-Carpentier, 1946, p.B193,B196; text-fig.6. Emendation: Lejeune-Carpentier and Sarjeant, 1981, p.7–8, as *Leptodinium porosum*. Holotype: Lejeune-Carpentier, 1946, text-fig.6; Strel et al., 1977, pl.2, fig.4; Lejeune-Carpentier and Sarjeant, 1981, pl.3, figs.1–2; text-fig.4. **NOW** *Leptodinium*. Originally *Gonyaulax*, subsequently *Gonyaulacysta* (combination not validly published), thirdly (and now) *Leptodinium*, fourthly *Leptodinium?*. Age: Late Cretaceous.

"*pyrum*" Drugg, 1967, p.14, pl.1, fig.17; pl.9, figs.6a–b. Holotype: Drugg, 1967, pl.1, fig.17; Jan du Chêne et al., 1986a, pl.27, figs.3–5. **NOW** *Cribroperidinium?*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly (and now) *Cribroperidinium?*. N.I.A. Age: Maastrichtian–Danian.

"*reticulata*" Nagy, 1969, p.293, pl.1, figs.7,10; text-figs.4a–b. Holotype: Nagy, 1969, pl.1, figs.7,10; Jan du Chêne et al., 1986a, pl.74, figs.5–6. **NOW** *Leptodinium?*. Originally *Gonyaulax*, subsequently *Leptodinium*, thirdly (and now) *Leptodinium?*. Age: late Miocene.

"*rhaetica*" Sarjeant, 1963b, p.353; text-figs.1–2(left). Emendations: Harland et al., 1975, p.862; Fisher and van Helden, 1979, p.270; Below, 1987a, p.105–106, all as *Rhaetogonyaulax rhaetica*. Holotype: Sarjeant, 1963b, text-figs.1–2 (left). **NOW** *Rhaetogonyaulax*. Originally *Gonyaulax*, subsequently (and now) *Rhaetogonyaulax*. Taxonomic junior synonyms: *Rhaetogonyaulax testacea*, *Rhaetogonyaulax tortuosa* and *Rhaetogonyaulax uncinata*, all according to Below (1987a, p.105). Age: Late Triassic.

"*sarjeantii*" Vozzhennikova, 1967, p.87–89, pl.25, figs.1–2; pl.28, fig.4; pl.31, figs.1a–b,2a–b,3; pl.32, figs.1,2a–c,3,4a–b. Holotype: Vozzhennikova, 1967, pl.31, fig.1a; Lentin and Vozzhennikova, 1990, text-fig.53; lost according to Lentin and Vozzhennikova (1990, p.95). Neotype: Vozzhennikova, 1967, pl.31, fig.3; Lentin and Vozzhennikova, 1990, pl.16, fig.4; designated by Lentin and Vozzhennikova (1990, p.95). **NOW** *Cribroperidinium?*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly *Millioudodinium*, fourthly *Rhynchodiniopsis*, fifthly *Cribroperidinium?*, sixthly (and now) *Cribroperidinium*. Age: Tithonian.

"var. *sarjeantii*". Autonym. Holotype: Vozzhennikova, 1967, pl.31, fig.1a; Lentin and Vozzhennikova, 1990, text-fig.53; lost according to Lentin and Vozzhennikova (1990, p.95). Neotype: Vozzhennikova,

1967, pl.31, fig.3; Lentin and Vozzhennikova, 1990, pl.16, fig.4; designated by Lentin and Vozzhennikova (1990, p.95). **Now redundant.**

"var. *sphaerica*" Vozzhennikova, 1967, p.89, pl.25, figs.1–2; pl.28, fig.4; pl.32, figs.1–4. Holotype: Vozzhennikova, 1967, pl.28, fig.4; Jan du Chêne et al., 1986a, pl.20, fig.9; lost according to Lentin and Vozzhennikova (1990, p.97). Lectotype: Lentin and Vozzhennikova, 1990, pl.16, figs.1–2, designated by Lentin and Vozzhennikova (1990, p.97). **NOW** *Cribroperidinium sarjeantii* subsp. *sphaericum*. Originally *Gonyaulax sarjeantii* var. *sphaerica*, subsequently *Gonyaulacysta sarjeantii* subsp. *sphaerica*, thirdly *Millioudodinium sarjeantii* subsp. *sphaericum*, fourthly *Rhynchodiniopsis sarjeantii* subsp. *sphaerica*, fifthly *Cribroperidinium? sarjeantii* subsp. *sphaericum*, sixthly (and now) *Cribroperidinium sarjeantii* subsp. *sphaericum*. Age: Tithonian.

"*scottii*" Cookson and Eisenack, 1958, p.30, pl.2, figs.5–6. Holotype: Cookson and Eisenack, 1958, pl.2, fig.5; Jan du Chêne et al., 1986a, pl.33, fig.5. **NOW** *Cribroperidinium?*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly *Millioudodinium?*, fourthly (and now) *Cribroperidinium?*. Age: early-middle Kimmeridgian.

"*serrata*" Cookson and Eisenack, 1958, p.34, pl.3, fig.2; text-figs.12–14. Holotype: Cookson and Eisenack, 1958, pl.3, fig.2; Jan du Chêne et al., 1986a, pl.99, figs.3–4. **NOW** *Rhynchodiniopsis*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly *Hystrichogonyaulax*, fourthly (and now) *Rhynchodiniopsis*. Age: Late Jurassic–Neocomian.

"*superornata*" Wetzel, 1967a, p.869–870, pl.16, figs.8a–b. Emendation: Sarjeant, 1980b, p.124–125, as *Meiourogonyaulax superornata*. Holotype: Wetzel, 1967a, pl.16, figs.8a–b; Sarjeant, 1980b, pl.1, figs.2–3; text-fig.4; Dietz et al., 1999, text-fig.5c. **NOW** *Meiourogonyaulax*. Originally *Gonyaulax* (Appendix B), subsequently (and now) *Meiourogonyaulax*, thirdly *Gonyaulacysta?*, fourthly *Lithodinia*, fifthly *Lithodinia?*. Age: late Bathonian.

"*tenuiceras*" Eisenack, 1958a, p.389–391, pl.21, figs.14–15; pl.22, figs.1–3; pl.24, fig.2; text-figs.4a–c,5. Emendations: Sarjeant, 1985a, p.63,65–66, as *Acanthaulax? tenuiceras*; Jan du Chêne et al., 1986b, p.29–30, as *Tehamadinium tenuiceras*. Holotype: Eisenack, 1958a, pl.21, fig.15; Sarjeant, 1985a, pl.6, figs.1–2; text-fig.3; Jan du Chêne et al., 1986a, pl.118, fig.1; Jan du Chêne et al., 1986b, pl.24, fig.5. **NOW** *Cribroperidinium?*. Originally *Gonyaulax*, subsequently *Gonyaulacysta?*, thirdly *Diacanthum*, fourthly *Occisucysta*, fifthly *Acanthaulax?*, sixthly *Tehamadinium*, seventhly (and now) *Cribroperidinium?*. Taxonomic junior synonym: *Occisucysta victorii*, according to Pöthe de Baldis and Ramos (1988, p.33). Age: late Barremian–Aptian.

"*tenuitabulata*" Gerlach, 1961, p.159, pl.25, figs.10–11; text-figs.1–3. Emendation: Sarjeant, 1984b, p.76, as *Rhynchodiniopsis tenuitabulata*. Holotype: Gerlach, 1961, pl.25, figs.10–11. **NOW** *Cribroperidinium*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly *Millioudodinium*, fourthly (and now) *Cribroperidinium*, fifthly *Rhynchodiniopsis*. Age: middle Oligocene–mid Miocene.

"*transparens*" Sarjeant, 1959, p.334, pl.13, fig.3; text-fig.3. Holotype: Sarjeant, 1959, pl.13, fig.3. **NOW** *Gonyaulacysta?*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly (and now) *Gonyaulacysta?*. Age: early Callovian.

"*venusta*" Klement, 1960, p.44–45, pl.5, figs.10–13; text-fig.22. Holotype: Klement, 1960, pl.5, figs.10–11. **Taxonomic senior synonym:** *Gonyaulax* (as *Cribroperidinium*) *granulata*, according to Schrank (2005, p.56). Originally *Gonyaulax* (Appendix B), subsequently *Acanthogonyaulax* (combination not validly published), thirdly *Acanthaulax*, fourthly *Gonyaulacysta*, fifthly *Cribroperidinium*. Age: middle Oxfordian–Kimmeridgian.

"*wetzelii*" Lejeune-Carpentier, 1939, p.B526; text-figs.1–2. Emendations: Lejeune-Carpentier, 1946, p.B189–B190, as *Gonyaulax wetzelii*; Lejeune-Carpentier and Sarjeant, 1981, p.2–3, as *Gonyaulacysta wetzelii*. Holotype: Lejeune-Carpentier, 1939, text-figs.1–2; Lejeune-Carpentier and Sarjeant, 1981, pl.5, figs.5–6. **NOW** *Cribroperidinium*. Originally *Gonyaulax*, subsequently *Gonyaulacysta*, thirdly *Gonyaulacysta?*, fourthly (and now) *Cribroperidinium*, fifthly *Millioudodinium*. Age: Senonian.

GYMNODINIUM Stein, 1878, p.89–91,97.

"*albertii*" Vozzhennikova, 1967, p.41–42, pl.5, figs.7–8. Emendation: Lentin and Vozzhennikova, 1990, p.23, as *Dinogymnium vozzhennikovae*. Holotype: Vozzhennikova, 1967, pl.5, fig.7; Lentin and Vozzhennikova, 1990, pl.3, figs.2–3; text-fig.9. **Substitute name:** *Dinogymnium vozzhennikovae*. Originally *Gymnodinium albertii*, subsequently (and now) *Dinogymnium vozzhennikovae*. Age: Turonian.

"*attadalense*" Cookson and Eisenack, 1958, p.25, pl.1, fig.7. Holotype: Cookson and Eisenack, 1958, pl.1, fig.7; Jan du Chêne et al., 1986a, pl.112, figs.4–7; Riding and Fensome, 2003, text-fig.4B. **NOW** *Endoscrinium*. Originally *Gymnodinium* (Appendix B), subsequently *Scriniodinium*, thirdly (and now) *Endoscrinium*. Age: Aptian.

"*australiense*" Deflandre and Cookson, 1955, p.248, pl.5, fig.1. Holotype: Deflandre and Cookson, 1955, pl.5, fig.1. **NOW** *Apteodinium*. Originally *Gymnodinium*, subsequently *Emslandia* (combination not validly published), thirdly *Scriniodinium*, fourthly (and now) *Apteodinium*. Taxonomic junior synonym: *Emslandia crassimurata*, according to Lucas-Clark (1987, p.174). Age: middle Miocene.

"*avellanum*" Lejeune-Carpentier, 1951, p.B309; text-fig.3. Emendation: Lejeune-Carpentier and Sarjeant, 1981, p.10–11, as *Dinogymnium avellanum*. Holotype: Lejeune-Carpentier, 1951, text-fig.3; Streel et al., 1977, pl.2, fig.7. **NOW** *Dinogymnium*. Originally *Gymnodinium*, subsequently (and now) *Dinogymnium*. Age: Maastrichtian.

"*cretaceum*" Deflandre, 1936b, p.164–165, pl.2, figs.1–3. Holotype: Deflandre, 1934, figs.9–10; Deflandre, 1935, pl.5, figs.6–7; text-figs.4–5; Deflandre, 1936b, pl.2, figs.1–2. **NOW** *Dinogymnium*. Originally *Gymnodinium*, subsequently (and now) *Dinogymnium*. This name was not validly published in Deflandre (1934, caption to figs.9–10 — p.967; 1935, p.225) since no description was given. Age: ?Senonian.

"*crystallinum*" Deflandre, 1939a, p.165, pl.5, figs.1–3. Emendation: Riding and Fensome, 2003, p.12–13. Holotype: Deflandre, 1939a, pl.5, figs.1–2; Jan du Chêne et al., 1986a, pl.104, figs.1–4. **NOW** *Scriniodinium*. Originally *Gymnodinium*, subsequently (and now) *Scriniodinium*. Age: Oxfordian.

"*curvatum*" Vozzhennikova, 1967, p.43, pl.1, figs.10–12; pl.4, figs.2–3. Holotype: Vozzhennikova, 1967, pl.1, fig.10; Lentin and Vozzhennikova, 1990, text-fig.5b, lost according to Lentin and Vozzhennikova (1990, p.18). Originally *Gymnodinium*, subsequently *Dinogymnium*. **Taxonomic senior synonym:** *Gymnodinium* (as *Dinogymnium*) *longicorne*, according to Lentin and Vozzhennikova (1990, p.18). Age: Senonian.

"*dabendorfense*" Alberti, 1961, p.5, pl.3, fig.4. Holotype: Alberti, 1961, pl.3, fig.4. **NOW** *Luxadinium*?. Originally *Gymnodinium*, subsequently *Diconodinium*, thirdly (and now) *Luxadinium*?. Age: Valangian.

"*decorum*" Deflandre, 1943, p.503–504 pl.17, fig.2; text-figs.8–9. Holotype: Deflandre, 1943, pl.17, fig.2; text-figs.8–9. **NOW** *Dinogymnium*. Originally *Gymnodinium*, subsequently (and now) *Dinogymnium*. Age: Senonian.

"*denticulatum*" Alberti, 1961, p.5, pl.3, figs.2–3. Holotype: Alberti, 1961, pl.3, fig.2. **NOW** *Dinogymnium*. Originally *Gymnodinium*, subsequently (and now) *Dinogymnium*. Age: Senonian.

"*digitus*" Deflandre, 1936b, p.166–167, pl.2, figs.4–5. Holotype: Deflandre, 1935, text-figs.7–8; Deflandre, 1936b, pl.2, figs.4–5. **NOW** *Dinogymnium*. Originally *Gymnodinium*, subsequently (and now) *Dinogymnium*. This name was not validly published in Deflandre (1935, p.225) since no description was given. N.I.A. Age: Senonian.

"var. *crassum*" Vozzhennikova, 1967, p.44, pl.5, figs.3,9–10. Holotype: Vozzhennikova, 1967, pl.5, fig.9; Lentin and Vozzhennikova, 1990, text-fig.3; lost according to Lentin and Vozzhennikova (1990, p.16). **NOW** *Dinogymnium digitus* subsp. *crassum*. Originally *Gymnodinium digitus* var. *crassum*, subsequently (and now) *Dinogymnium digitus* subsp. *crassum*. Age: Turonian.

"var. *digitus*". Autonym. Holotype: Deflandre, 1935, text-figs.7–8. **Now redundant**. N.I.A.

"*dorsispirale*" Churchill and Sarjeant, 1962, p.33, pl.1, fig.18; text-fig.2. Holotype: Churchill and Sarjeant, 1962, pl.1, fig.18; text-fig.2. **NOW** *Muiradinium*. Originally *Gymnodinium*, subsequently (and now) *Muiradinium*. Age: Holocene.

"*fehmarrense*" Morgenroth, 1966a, p.4–5, pl.1, fig.1. Holotype: Morgenroth, 1966a, pl.1, fig.1. **NOW** *Diconodinium*?. Originally *Gymnodinium*, subsequently (and now) *Diconodinium*?. Age: early Eocene.

"?*gabonense*" Deflandre, 1965, p.388,390, pl.1, figs.1–9. Holotype: Deflandre, 1965, pl.1, figs.1–3. **NOW** *Dinogymnium*. Originally ?*Gymnodinium*, subsequently (and now) *Dinogymnium*. Questionable assignment: Deflandre (1965, p.388). Age: Tertiary.

"*galeritum*" Deflandre, 1939a, p.167, pl.5, figs.7–9; pl.6, fig.1. Holotype: Deflandre, 1939a, pl.5, figs.7–8; Eisenack and Klement, 1964, p.759,761; Jan du Chêne et al., 1986a, pl.104, figs.10–11; Fensome et al., 1995, fig.1 — p.1501; figs.1–2 — p.1505. **NOW** *Endoscrinium*. Originally *Gymnodinium*, subsequently *Scriniodinium*, thirdly (and now) *Endoscrinium*. Age: Oxfordian.

"*heterocostatum*" Deflandre, 1936b, p.165–166, pl.2, fig.6. Holotype: Deflandre, 1935, text-fig.6; Deflandre, 1936b, pl.2, fig.6. **NOW** *Dinogymnium*. Originally *Gymnodinium*, subsequently (and now) *Dinogymnium*. This name was not validly published in Deflandre (1935, p.225) since no description was given. Age: ?Senonian.

"var. *heterocostatum*". Autonym. Holotype: Deflandre, 1935, text-fig.6; Deflandre, 1936b, pl.2, fig.6. **Now redundant.**

"var. *kolpaschevii*" Vozzhennikova, 1967, p.45, pl.3, fig.5. Holotype: Vozzhennikova, 1967, pl.3, fig.5; Lentin and Vozzhennikova, 1990, pl.3, fig.1; text-fig.4. **NOW** *Dinogymnium heterocostatum* subsp. *kolpaschevii*. Originally *Gymnodinium heterocostatum* var. *kolpaschevii*, subsequently (and now) *Dinogymnium heterocostatum* subsp. *kolpaschevii*. Lentin and Vozzhennikova (1990, p.17) provided an "expanded description" for this taxon. Age: Senonian.

"*hexagonum*" Deflandre-Rigaud, 1954, p.58; text-figs.1–2. Holotype: Deflandre-Rigaud, 1954, text-figs.1–2. **NOW** *Dinogymnium*?. Originally *Gymnodinium*, subsequently *Dinogymnium*, thirdly (and now) *Dinogymnium*?. Age: Campanian–?Maastrichtian.

"*hyalinum*" Vozzhennikova, 1967, p.45, pl.1, fig.9; pl.2, fig.6; pl.3, fig.4; pl.5, fig.11. Holotype: Vozzhennikova, 1967, pl.3, fig.4; Lentin and Vozzhennikova, 1990, pl.2, fig.8; text-fig.7; lost according to Lentin and Vozzhennikova (1990, p.21). Originally *Gymnodinium*, subsequently *Dinogymnium*. **Taxonomic senior synonym:** *Gymnodinium* (as *Dinogymnium*) *nelsonense*, according to Lentin and Vozzhennikova (1990, p.21). Age: Senonian.

"*kasachstanicum*" Vozzhennikova, 1967, p.45–46, pl.2, figs.4a–b; pl.3, figs.9a–b. Holotype: Vozzhennikova, 1967, pl.2, figs.4a–b; pl.3, figs.9a–b; Lentin and Vozzhennikova, 1990, pl.1, figs.3–7; text-fig.2. Originally *Gymnodinium*, subsequently *Dinogymnium*. **Taxonomic senior synonym:** *Dinogymnium acuminatum*, according to Lentin and Vozzhennikova (1990, p.15). Age: Campanian–Maastrichtian.

"*laticinctum*" Deflandre, 1943, p.501,503, pl.17, fig.3; text-fig.11. Holotype: Deflandre, 1943, pl.17, fig.3; text-fig.11. **NOW** *Dinogymnium*. Originally *Gymnodinium*, subsequently (and now) *Dinogymnium*. Age: ?Senonian.

"*longicorne*" Vozzhennikova, 1967, p.46, pl.1, fig.8; pl.3, fig.6; pl.4, figs.6a–b,7. Emendation: Lentin and Vozzhennikova, 1990, p.18–19, as *Dinogymnium longicorne*. Holotype: Vozzhennikova, 1967, pl.1, fig.8; Lentin and Vozzhennikova, 1990, pl.2, figs.1–2; text-fig.5a. **NOW** *Dinogymnium*. Originally *Gymnodinium*, subsequently (and now) *Dinogymnium*. Taxonomic junior synonym: *Gymnodinium* (as *Dinogymnium*) *curvatum*, according to Lentin and Vozzhennikova (1990, p.18). Age: Senonian.

"*luridum*" Deflandre, 1939a, p.166, pl.5, figs.4–6. Holotype: Deflandre, 1939a, pl.5, figs.4–5; Jan du Chêne et al., 1986a, pl.109, figs.6–8. **NOW** *Endoscrinium*. Originally *Gymnodinium*, subsequently *Scriniodinium*, thirdly (and now) *Endoscrinium*, fourthly *Tubotuberella*. Age: early Oxfordian.

"*marthae*" Deflandre, 1943, p.500, pl.17, fig.1; text-figs.1–4. Holotype: Deflandre, 1943, pl.17, fig.1; text-figs.1–4. **NOW** *Dinogymnium*. Originally *Gymnodinium*, subsequently (and now) *Dinogymnium*. Age: Senonian.

"*muticum*" Vozzhennikova, 1967, p.46–47, pl.1, figs.6–7; pl.2, fig.9. Emendation: Lentin and Vozzhennikova, 1990, p.19–20, as *Dinogymnium muticum*. Holotype: Vozzhennikova, 1967, pl.1, fig.6; Lentin and Vozzhennikova, 1990, text-fig.6a; lost according to Lentin and Vozzhennikova (1990, p.19). Neotype: Vozzhennikova, 1967, pl.1, fig.7; Lentin and Vozzhennikova, 1990, pl.2, figs.13–14; text-fig.6b; designated by Lentin and Vozzhennikova (1990, p.20). **NOW** *Dinogymnium*. Originally *Gymnodinium*, subsequently (and now) *Dinogymnium*. Age: Senonian.

"*nelsonense*" Cookson, 1956, p.183, pl.1, figs.8–11. Holotype: Cookson, 1956, pl.1, fig.10; Helby et al., 1987, fig.42C; Lentin and Vozzhennikova, 1990, pl.2, fig.8. **NOW** *Dinogymnium*. Originally *Gymnodinium*, subsequently (and now) *Dinogymnium*. Taxonomic junior synonym: *Gymnodinium* (as *Dinogymnium*) *hyalinum*, according to Lentin and Vozzhennikova (1990, p.21). Age: Senonian.

"*parvimarginatum*" Cookson and Eisenack, 1958, p.24, pl.1, fig.6. Holotype: Cookson and Eisenack, 1958, pl.1, fig.6; Jan du Chêne et al., 1986a, pl.112, figs.10–12. **NOW** *Scriniodinium*. Originally *Gymnodinium*, subsequently (and now) *Scriniodinium*. Age: Late Jurassic.

"*pontis-mariae*" Deflandre, 1936b, p.167, pl.2, figs.7–9. Holotype: Deflandre, 1936b, pl.2, fig.7. **NOW** *Subtilisphaera*. Originally *Gymnodinium*, subsequently *Deflandrea*, thirdly *Ascodinium*, fourthly (and now) *Subtilisphaera*. Age: ?Senonian.

"*sibiricum*" Vozzhennikova, 1967, p.47–48, pl.2, figs.2,3a–b; pl.3, figs.2–3. Emendation: Lentin and Vozzhennikova, 1990, p.21–22, as *Dinogymnium sibiricum*. Holotype: Vozzhennikova, 1967, pl.3, figs.2–3; Lentin and Vozzhennikova, 1990; text-fig.8; lost according to Lentin and Vozzhennikova (1990, p.22). Lectotype: Vozzhennikova, 1967, pl.2, fig.2, designated by Lentin and Vozzhennikova (1990, p.22). **NOW** *Dinogymnium*. Originally *Gymnodinium*, subsequently (and now) *Dinogymnium*. This name was not validly published in Vozzhennikova (1963, text-fig.49b), who did not provide a description. Age: Senonian.

"*sphaerocephalum*" Vozzhennikova, 1967, p.48, pl.2, fig.7; pl.3, fig.1. Emendation: Lentin and Vozzhennikova, 1990, p.25–26, as *Alisogymnium sphaerocephalum*. Holotype: Vozzhennikova, 1967, pl.3, fig.1; Lentin and Vozzhennikova, 1990, pl.2, figs.6,11–12; text-fig.10. **NOW** *Alisogymnium*. Originally *Gymnodinium*, subsequently *Dinogymnium*, thirdly (and now) *Alisogymnium*. Taxonomic junior synonym: *Dinogymnium assamicum*, according to Jain (1977a, p.133–134) — however, Lentin and Vozzhennikova (1990, p.28) retained *Dinogymnium* (as *Alisogymnium*) *assamicum*. Age: Senonian.

"var. *laeve*" Vozzhennikova, 1967, p.48, pl.1, fig.4; pl.2, fig.5. Emendation: Lentin and Vozzhennikova, 1990, p.26–27, as *Alisogymnium laeve*. Holotype: Vozzhennikova, 1967, pl.2, fig.5; Lentin and Vozzhennikova, 1990, pl.2, fig.7a; lost according to Lentin and Vozzhennikova (1990, p.26). Neotype: Harland, 1973, pl.85, figs.2–3 (as *Dinogymnium longicornis*); Lentin and Vozzhennikova, 1990, pl.2, fig.7b; designated by Lentin and Vozzhennikova (1990, p.27). **NOW** *Alisogymnium laeve*. Originally *Gymnodinium sphaerocephalum* var. *laeve*, subsequently *Dinogymnium sphaerocephalum* subsp. *laeve*, thirdly (and now) *Alisogymnium laeve*. Age: Senonian.

"var. *sphaerocephalum*". Autonym. Holotype: Vozzhennikova, 1967, pl.3, fig.1; Lentin and Vozzhennikova, 1990, pl.2, figs.6,11–12; text-fig.10. **Now redundant.**

"*strombomorphum*" Deflandre, 1943, p.501, pl.17, figs.4–6; text-figs.5–7. Holotype: Deflandre, 1943, pl.17, figs.4–6; text-figs.5–7. **NOW** *Dinogymnium*. Originally *Gymnodinium*, subsequently (and now) *Dinogymnium*. Age: ?Senonian.

"*torulosum*" Deflandre, 1943, p.504–505, pl.17, figs.7–8; text-figs.17–25. Holotype: Deflandre, 1943, pl.17, figs.7–8; text-figs.17–20; Jan du Chêne et al., 1986a, pl.104, figs.5–6. **NOW** *Scriniodinium*?. Originally *Gymnodinium*, subsequently (and now) *Scriniodinium*?. Age: Senonian.

"*ventriosum*" Alberti, 1961, p.5–6, pl.3, fig.5. Holotype: Alberti, 1961, pl.3, fig.5. **NOW** *Diconodinium*. Originally *Gymnodinium*, subsequently (and now) *Diconodinium*. Age: Turonian.

"*westralium*" Cookson and Eisenack, 1958, p.25, pl.1, fig.9. Emendation: May, 1977, p.118, as *Dinogymnium westralium*. Holotype: Cookson and Eisenack, 1958, pl.1, fig.9. **NOW** *Dinogymnium*. Originally *Gymnodinium*, subsequently (and now) *Dinogymnium*. Age: Senonian.

LEBESSPHAERA Meier et al., 2002, p.610. Calcareous dinoflagellate genus based on an extant cyst (see Streng et al., 2004, p.482 and Elbrächter et al., 2008, p.1300). Type: Meier et al., 2002, figs.7a–b, as *Lebessphaera urania*.

**urania* Meier et al., 2002, p.610–612, text-fig.6; figs.7a–i. Holotype: Meier et al., 2002, figs.7a–b. N.I.A. Age: extant.

PERIDINIUM Ehrenberg, 1832a, p.38. The current status of fossil dinoflagellate taxa formerly included in *Peridinium* is given below.

"*basilium*" Drugg, 1967, p.13, pl.1, figs.9–11; pl.9, figs.1a–b. Holotype: Drugg, 1967, pl.1, fig.11. Originally *Peridinium*, subsequently *Palaeoperidinium*. **Taxonomic senior synonym:** *Peridinium* (now *Palaeoperidinium*) *pyrophorum*, according to Stover and Evitt (1978, p.218). Age: ?Maastrichtian–Danian.

"*comatum*" Morgenroth, 1966b, p.1, pl.1, figs.1–2. Holotype: Morgenroth, 1966b, pl.1, fig.1. **NOW** *Phthanoperidinium*. Originally *Peridinium* (Appendix B), subsequently (and now) *Phthanoperidinium*. Taxonomic junior synonyms: *Phthanoperidinium tritonium*, according to Bujak in Bujak et al. (1980, p.72); however, Fensome et al. (2009, p.54–55) considered *Phthanoperidinium tritonium* to be a taxonomic junior synonym of *Phthanoperidinium coreoides*; *Hystrichogonyaulax* (now *Phthanoperidinium*) *coreoides*, according to Stover and Evitt (1978, p.118) — however, Benedek and Sarjeant (1981, p.328–330) retained *Phthanoperidinium coreoides*. Eaton (1976, p.294) also proposed this combination. Age: early Oligocene.

"*conicum*" (Gran, 1900, p.47) Ostenfeld and Schmidt, 1901, p.174. Holotype: information not available. **NOW** *Protoperidinium conicum* (Appendix B). Originally *Peridinium divergens* var. *conicum*, subsequently *Peridinium conicum*, thirdly (and now) *Protoperidinium conicum* (Appendix B). Modern species defined from the motile stage. Fossil cysts assigned to this species by Deflandre (1939b) were included in *Palaeoperidinium deflandrei* Lentin and Williams, 1973, by Lentin and Williams (1973, p.105). Age: extant.

"var. *conicum*". Autonym. **Now redundant.**

"var. *larjakiense*" Vozzhennikova, 1967, p.71–72, pl.16, figs.1a–b, 2a–b. Holotype: Vozzhennikova, 1967, pl.16, figs.1a–b; Lentin and Vozzhennikova, 1990, text-fig.32; lost according to Lentin and Vozzhennikova (1990, p.61). Originally *Peridinium conicum* var. *larjakiense*, subsequently *Palaeoperidinium deflandrei* subsp. *larjakiense*, thirdly *Cooksoniella larjakiensis*, fourthly *Palaeoperidinium larjakiense*. **Taxonomic senior synonym:** *Peridinium* (now *Palaeoperidinium*) *pyrophorum*, according to Lentin and Vozzhennikova (1990, p.61). Age: Paleocene.

crassipes Kofoid, 1907b, p.309, pl.31, figs.46–47. Holotype: Kofoid, 1907b, pl.31, figs.46–47. Modern species defined from the motile stage. Age: extant.

"forma *altum*" Wetzel, 1933a, p.163, pl.2, figs.8–9. Holotype: not designated. **Taxonomic senior synonym** (at specific rank): *Deflandrea* (now *Phelodinium*) *magnifica*, according to Sarjeant (1985b, p.159). Wetzel (1933a, p.163) gave the following citation, "*Peridinium* cf. *crassipes* Kofoid, forma *altum* n.f." Age: Senonian.

"*crenulatum*" de Coninck, 1975, p.96, pl.17, figs.5–7, 12–13, 14–15. Emendation: Heilmann-Clausen, 1985, p.24–25, as *Phthanoperidinium crenulatum*. Holotype: de Coninck, 1975, pl.17, figs.12–13. **NOW** *Phthanoperidinium*. Originally *Peridinium*, subsequently (and now) *Phthanoperidinium*. Age: early Eocene (Ypresian).

"*damasii*" Lejeune-Carpentier, 1942, p.B185–B186, figs.9–14. Emendation: Lejeune-Carpentier and Sarjeant, 1981, p.16, as *Deflandrea? damasii*. Holotype: Lejeune-Carpentier, 1942, fig.10; Lejeune-Carpentier and Sarjeant, 1981,

pl.6, fig.3; text-fig.9a. **NOW** *Deflandrea*?. Originally *Peridinium*, subsequently *Cooksoniella*?, thirdly *Palaeoperidinium*, fourthly *Deflandrea*, fifthly (and now) *Deflandrea*?. Age: Senonian.

"*delitiense*" Ehrenberg, 1837b, pl.1, fig.6. Emendation: Lucas-Clark, 1987, p.167, as *Spongodinium delitiense*. Holotype: Ehrenberg, 1837b, pl.1, fig.6. **NOW** *Spongodinium*. Originally *Peridinium*, subsequently (and now) *Spongodinium*. Of the two illustrations provided by Ehrenberg (1837b), only his pl.1, fig.6 shows a single specimen, which can thus be accepted as the type. However, the validity/authorship of this name may need to be reconsidered as it appears that Ehrenberg (1837b) did not provide a description. Age: Late Cretaceous.

"*diamantum*" Churchill and Sarjeant, 1962, p.34–36, pl.1, fig.19; text-fig.3. Holotype: Churchill and Sarjeant, 1962, pl.1, fig.19; text-fig.3. **NOW** *Gonyaulacysta*. Originally *Peridinium*, subsequently *Phthanoperidinium*?, thirdly (and now) *Gonyaulacysta*. Questionable assignment: Churchill and Sarjeant (1962, p.34). Age: Holocene.

divergens Ehrenberg, 1840, p.201. Holotype: information not available. Modern species defined from the motile stage.

"var. *conicum*" Gran, 1900, p.47. Holotype: information not available. **NOW** *Protooperidinium conicum* (Appendix B). Originally *Peridinium divergens* var. *conicum*, subsequently *Peridinium conicum*, thirdly (and now) *Protooperidinium conicum* (Appendix B). Modern taxon defined from the motile stage. Fossil cysts assigned to this taxon by Deflandre (1939b) were included in *Palaeoperidinium deflandrei* by Lentin and Williams (1973, p.105). Age: extant.

"*eocenicum*" Cookson and Eisenack, 1965a, p.119–120, pl.11, figs.1–5. Holotype: Cookson and Eisenack, 1965a, pl.11, figs.1–2. **NOW** *Phthanoperidinium*?. Originally *Peridinium*, subsequently (and now) *Phthanoperidinium*?. Age: late Eocene.

"*galeatum*" Lejeune-Carpentier, 1942, p.B186–B188, figs.15–20. Emendation: Lejeune-Carpentier and Sarjeant, 1981, p.18–19, as *Deflandrea galeata*. Holotype: Lejeune-Carpentier, 1942, figs.15–16; Lejeune-Carpentier and Sarjeant, 1981, pl.5, figs.1–2; text-fig.10. **NOW** *Deflandrea*. Originally *Peridinium*, subsequently (and now) *Deflandrea*. Age: Senonian.

"*hansonianum*" Traverse, 1955, p.77–79, pl.13, fig.147. Holotype: Traverse, 1955, pl.13, fig.147; Traverse, 1994, pl.1, fig.1. **NOW** *Saeptodinium*. Originally *Peridinium*, subsequently *Palaeoperidinium*, thirdly (and now) *Saeptodinium*. Evitt (1974, p.4) indicated that this species has affinities with the modern species *Peridinium limbatum* (Stokes, 1887) Lemmermann, 1899. Age: latest Oligocene (middle early Miocene, according to Traverse, 1994).

"*illustrans*" Wetzel, 1933a, p.167, pl.2, fig.15. Holotype: Wetzel, 1933a, pl.2, fig.15. **NOW** *Phthanoperidinium*?. Originally *Peridinium*, subsequently (and now) *Phthanoperidinium*?. Age: Senonian.

"*kansanum*" Tasch in Tasch et al., 1964, p.196, pl.1, fig.1. Holotype: Tasch et al., 1964, pl.1, fig.1. **NOW** *Ovoidinium*?. Originally *Peridinium*, subsequently *Deflandrea*?, thirdly (and now) *Ovoidinium*?, fourthly *Ascodinium*?. Age: Albian.

"*lambdoideum*" E. Nagy, 1966, p.39–40, pl.1, figs.1–3; text-figs.1a–b. Holotype: E. Nagy, 1966, pl.1, figs.1–3; text-figs.1a–b. **NOW** *Phthanoperidinium*?. Originally *Peridinium*, subsequently *Phthanoperidinium*, thirdly (and now) *Phthanoperidinium*?. Age: early Pliocene.

"*paleocenicum*" Cookson and Eisenack, 1965c, p.142–143, pl.19, figs.1–4; text-figs.2a–b. Holotype: Cookson and Eisenack, 1965c, pl.19, figs.2–3. **NOW** *Ginginodinium*. Originally *Peridinium*, subsequently *Cooksoniella*?, thirdly *Palaeoperidinium*, fourthly (and now) *Ginginodinium*. Age: middle Paleocene.

pedunculatum Schütt, 1895, pl.14, fig.47, nos.1–3 — p.158. Holotype: not designated. This species was not described by Schütt (1895) and thus the name *Peridinium pedunculatum* was not validly published at that time. This name has presumably been subsequently validated, though investigation of this issue is beyond the scope of the present work. Age: extant.

- "forma *divaricans*" Wetzel, 1933a, p.165–166, text-fig.2. Holotype: Wetzel, 1933a, text-fig.2. Originally *Peridinium pedunculatum* forma *divaricans*, subsequently *Phelodinium tricuspis* subsp. *divaricans*.
Taxonomic senior synonym (at specific rank): *Deflandrea* (now *Cerodinium*) *albertii*, according to Sarjeant (1985b, p.158) and Lentin and Williams (1993, p.504,511). Age: Late Cretaceous.
- "*pleum*" Tasch in Tasch et al., 1964, p.196, pl.1, fig.15. Holotype: Tasch et al., 1964, pl.1, fig.15. **NOW** *Deflandrea*?. Originally *Peridinium*, subsequently (and now) *Deflandrea*?, thirdly *Gonyaulacysta*?. Age: Albian.
- "*polyedricum*" Pouchet, 1883, p.42, fig.34. Holotype: Pouchet, 1883, fig.34. **NOW** *Goniodoma* (Appendix B). Originally *Peridinium*, subsequently (and now) *Goniodoma* (Appendix B), thirdly *Heteraulacacysta*. Age: extant.
- ponticum* Wall and Dale in Wall et al., 1973, p.24–25, pl.1, figs.16–20; pl.2, figs.7–9. Holotype: Wall et al., 1973, pl.1, figs.16–17. Originally (and now) *Peridinium*, subsequently *Proto-peridinium* (combination not validly published). This species is based on fossil cysts. Age: late Quaternary.
- "*pyrophorum*" Ehrenberg, 1837b, pl.1, figs.1,4 ex Wetzel, 1933a, p.164–165. Emendations: Sarjeant, 1967b, p.246–247; Gocht and Netzel, 1976, p.403–405, both as *Palaeoperidinium pyrophorum*. Holotype: Ehrenberg, 1837b, pl.1, fig.4; Lejeune-Carpentier, 1938b, figs.1–4. **NOW** *Palaeoperidinium*. Originally *Peridinium*, subsequently (and now) *Palaeoperidinium*. Taxonomic junior synonyms: *Peridinium* (now *Palaeoperidinium*) *basilium* and *Palaeoperidinium deflandrei*, both according to Stover and Evitt (1978, p.218); *Pentagonum marginatum*, *Pentagonum sibiricum*, and *Peridinium conicum* var. *larjakiense* (as *Palaeoperidinium larjakiense*), all according to Lentin and Vozzhennikova (1990, p.61). This name was not validly published in Ehrenberg (1837b) and Ehrenberg (1854, caption to pl.37) since no description was provided. Of Ehrenberg's (1837b) illustrations, only pl.1, fig.4 is of a single specimen, which thus has subsequently been accepted as the holotype. The specimen illustrated by Sarjeant (1967b, fig.3) as the holotype appears to be a different specimen. Age: Late Cretaceous.
- "*resistente*" Morgenroth, 1966a, p.5, pl.2, figs.1–2. Holotype: Morgenroth, 1966a, pl.2, figs.1–2. **NOW** *Phthanoperidinium*. Originally *Peridinium*, subsequently (and now) *Phthanoperidinium*. Age: early Eocene.
- "*schizokeras*" de Coninck, 1975, p.97, pl.17, figs.16–17. Holotype: de Coninck, 1975, pl.17, figs.16–17. **NOW** *Phthanoperidinium*?. Originally *Peridinium*, subsequently *Phthanoperidinium*, thirdly (and now) *Phthanoperidinium*?. Age: early Eocene (Ypresian).
- "*stellatum*" Wall in Wall and Dale, 1968c, p.275, pl.2, figs.13–15; pl.3, figs.16–21. Holotype: Wall and Dale, 1968c, pl.3, figs.16–21. **NOW** *Proto-peridinium* (Appendix B). Originally *Peridinium*, subsequently *Stelladinium*, thirdly (and now) *Proto-peridinium* (Appendix B). Taxonomic senior synonym: *Peridinium* (now *Proto-peridinium*) *compressum* Abé, 1927, according to Loeblich III (1970, p.895–896) and Head (1996b, p.1228) — however, Head in Rochon et al. (1999, p.48) retained *Peridinium* (as *Proto-peridinium*) *stellatum*. Age: Holocene.
- "*stockmansii*" de Coninck, 1975, p.97–98, pl.17, figs.18–37. Holotype: de Coninck, 1975, pl.17, figs.26–27. **NOW** *Phthanoperidinium*. Originally *Peridinium*, subsequently (and now) *Phthanoperidinium*. Taxonomic junior synonym: *Phthanoperidinium echinatum*, according to de Coninck (1977, p.40). Age: early Eocene (Ypresian).
- "*subconicoides*" Lejeune-Carpentier, 1942, p.B183–B185; text-figs.1–8. Holotype: Lejeune-Carpentier, 1942, text-figs.1–2; Streel et al., 1977, pl.2, fig.3. **NOW** *Palaeoperidinium*?. Originally *Peridinium*, subsequently (and now) *Palaeoperidinium*?. Age: Late Cretaceous.
- "*tricuspe*" Wetzel, 1933a, p.166, pl.2, fig.14. Emendation: Lejeune-Carpentier and Sarjeant, 1981, p.20, as *Lejeunecysta tricuspis*. Holotype: Wetzel, 1933a, pl.2, fig.14; Lejeune-Carpentier, 1942, fig.21; Lejeune-Carpentier and Sarjeant, 1981, pl.6, fig.5. **NOW** *Phelodinium*. Originally *Peridinium*, subsequently *Lejeunia* (combination illegitimate), thirdly *Astro-cysta*, fourthly *Senegalinium*, fifthly *Lejeunecysta*, sixthly (and now) *Phelodinium*. Taxonomic junior synonym: *Lejeunia* (now *Phelodinium*) *kozłowskii*, according to Harker and Sarjeant (1975, p.223) — however, Lindgren (1984, p.181) retained *Phelodinium kozłowskii*. This name was not validly published in Wetzel (1932, p.142 caption to pl.2, fig.11), since no description was given. Age: Senonian.

"*ventriosum*" Wetzel, 1933a, p.161–162, pl.2, figs.4–6; text-figs.1,8. Emendation: Lejeune-Carpentier and Sarjeant, 1981, p.5, as *Cribroperidinium ventriosum*. Holotype: Wetzel, 1933a, pl.2, fig.4; Lejeune-Carpentier, 1946, fig.2; Lejeune-Carpentier and Sarjeant, 1981, pl.1, figs.3–4; text-fig.3. **NOW** *Cribroperidinium*. Originally *Peridinium*, subsequently *Palaeoperidinium* (combination not validly published), thirdly (and now) *Cribroperidinium*. Age: Senonian.

POLYKRIKOS Bütschli, 1873, p.673.

"*tentaculatus*" Wetzel, 1933a, p.171, pl.2, fig.23; text-fig.4. Holotype: Wetzel, 1933a, pl.2, fig.23; text-fig.4. **NOW** *Wetzelodinium* (Appendix A). Originally *Polykrikos*, subsequently (and now) *Wetzelodinium* (Appendix A). Pessagno in Sarjeant (1985b, p.164) noted that the holotype represents a broken radiolarian. This name was not validly published in Wetzel (1932, p.135), since no description was given. Age: ?Senonian.

PROTOPERIDINIUM Bergh, 1881a, p.63.

"*catomus*" Harland in Harland et al., 1991, p.651,653, figs.4d–e. Holotype: Harland et al., 1991, fig.4d. **NOW** *Lejeunecysta*. Originally *Protoperidinium* subgenus *Protoperidinium* section *Lejeunecysta* (section name not validly published), subsequently (and now) *Lejeunecysta*. N.I.A. Age: early Pleistocene.

conicum (Gran, 1900, p.47) Balech, 1974, p.58. Holotype: information not available. Originally *Peridinium divergens* var. *conicum* (Appendix B), subsequently *Peridinium conicum* (Appendix B), thirdly (and now) *Protoperidinium conicum*. Modern species defined from the motile stage. Fossil cysts assigned to this taxon by Deflandre (1939b) were included in *Palaeoperidinium deflandrei* by Lentin and Williams (1973, p.105). Age: Holocene.

"*digitale*" Pouchet, 1883, p.443, pl.18–19, fig.14. Holotype: information not available. **NOW** *Gonyaulax* (Appendix B). Originally *Protoperidinium*, subsequently (and now) *Gonyaulax* (Appendix B). N.I.A. Age: extant.

"*harpeza*" Harland in Harland et al., 1991, p.653–654, fig.4f. Holotype: Harland et al., 1991, fig.4f. Originally *Protoperidinium* subgenus *Protoperidinium* section *Selenopemphix* (section name not validly published), subsequently *Selenopemphix*. **Taxonomic senior synonym:** *Selenopemphix dionaeacysta*, according to Head (1993, p.36). N.I.A. Age: early Pleistocene.

"*marieae*" Harland in Harland et al., 1991, p.653, figs.4j–l. Holotype: Harland et al., 1991, fig.4j. **NOW** *Lejeunecysta*. Originally *Protoperidinium* subgenus *Protoperidinium* section *Lejeunecysta* (section name not validly published), subsequently (and now) *Lejeunecysta*. Age: early Pleistocene.

"*ponticum*" (Wall and Dale in Wall et al., 1973, p.24–25, pl.1, figs.16–20; pl.2, figs.7–9) Matsuoka, 1985b, table 2 — p.5. **Combination not validly published:** basionym not fully referenced. **NOW** *Peridinium* (Appendix B). Originally (and now) *Peridinium* (Appendix B), subsequently *Protoperidinium* (combination not validly published). This species is based on fossil cysts. Age: late Quaternary.

stellatum (Wall in Wall and Dale, 1968c, p.275, pl.2, figs.13–15; pl.3, figs.16–21) Head in Rochon et al., 1999, p.48. Holotype: Wall and Dale, 1968c, pl.3, figs.16–21. Originally *Peridinium*, subsequently *Stelladinium*, thirdly (and now) *Protoperidinium*. Taxonomic senior synonym: *Peridinium* (now *Protoperidinium*) *compressum* Abé, 1927, according to Loeblich III (1970, p.895–896) and Head (1996b, p.1228) — however, Head in Rochon et al. (1999, p.48) retained *Peridinium* (as *Protoperidinium*) *stellatum*. Age: Holocene.

"*tholus*" (Bradford, 1975, p.3072,3074, figs.17–22) Bradford and Wall, 1984, p.49. Holotype: Bradford, 1975, fig.17. **Combination not validly published:** basionym not fully referenced. **NOW** *Selenopemphix*. Originally *Omanodinium*, subsequently *Protoperidinium* subgenus *Protoperidinium* section *Selenopemphix* (combination not validly published), thirdly *Selenopemphix* (combination not validly published), fourthly (and now) *Selenopemphix*. N.I.A. Age: Holocene.

tricingulatum Kawami et al., 2009, p.262–264, figs.2a–l,3a–p,4. Holotype: Kawami et al., 2009, figs.3a–p. Originally (and now) *Protoperidinium*, subsequently *Islandinium* (combination not validly published). This species is based on an motile cell. Age: extant.

PROTOPERIDINIUM subgenus **ARCHAEPERIDINIUM** (Jørgensen, 1912, p.6) Lebour, 1922, p.809. Modern subgenus defined from the motile stage. Originally *Archaeperidinium*, subsequently (and now) *Protoperidinium* subgenus *Archaeperidinium*.

PROTOPERIDINIUM subgenus **ARCHAEPERIDINIUM** section **ARCHAEPERIDINIUM**. Autonym. Modern section defined from the motile stage. Harland (1982, p.372) included fossilizable cysts in this taxon.

PROTOPERIDINIUM subgenus **ARCHAEPERIDINIUM** section **FUSCUSASPHAERIDIUM** Harland, 1982, p.395. Modern section defined from the motile stage. Harland (1982, p.372) included fossilizable cysts in this taxon.

"**PROTOPERIDINIUM** subgenus **ARCHAEPERIDINIUM** section **STELLADINIUM**" (Bradford, 1975, p.3065–3066) Harland, 1982, p.395. **Combination not validly published:** basionym not fully referenced. **NOW** *Stelladinium*. Originally (and now) *Stelladinium*, subsequently *Protoperidinium* subgenus *Archaeperidinium* section *Stelladinium* (combination not validly published). Type: Bradford, 1975, fig.2, as *Stelladinium reidii*.

PROTOPERIDINIUM subgenus **PROTOPERIDINIUM**. Autonym. Modern subgenus defined from the motile stage.

PROTOPERIDINIUM subgenus **PROTOPERIDINIUM** section **ASYMMETROPEDINIUM** Harland, 1982, p.396. Modern section defined from the motile stage. Harland (1982, p.372) included fossilizable cysts in this taxon.

"**PROTOPERIDINIUM** subgenus **PROTOPERIDINIUM** section **BRIGANTEDINIUM**" (Reid, 1977, p.432) Harland, 1982, p.396. **Name not validly published:** see discussion under *Brigantedinium*. **NOW** *Brigantedinium*. Originally *Brigantedinium* (name not validly published), subsequently *Protoperidinium* subgenus *Protoperidinium* section *Brigantedinium* (name not validly published), thirdly (and now) *Brigantedinium*. In proposing this combination, Harland (1982, p.396) did not fully reference the basionym. Type: Wall, 1965b, text-figs.7,20, as *Chytroeisphaeridia simplex*.

"**PROTOPERIDINIUM** subgenus **PROTOPERIDINIUM** section **LEJEUNECYSTA**" (Artzner and Dörhöfer, 1978, p.1381) Harland et al., 1991, p.651. **Combination not validly published:** basionym not fully referenced. **NOW** *Lejeunecysta*. Originally *Lejeunia* Gerlach, 1961 (generic name illegitimate), subsequently (and now) *Lejeunecysta*, thirdly *Protoperidinium* subgenus *Protoperidinium* section *Lejeunecysta* (combination not validly published). Harland in Harland et al. (1991, p.651,653) included *Protoperidinium* (now *Lejeunecysta*) *catomus* and *Protoperidinium* (now *Lejeunecysta*) *mariae* in this section. Taxonomic senior synonym: *Quinquecuspis*, by implication in Matsuoka (1987, p.57), who incorrectly considered *Lejeunecysta* to be the senior name — however, this synonymy has not been generally followed. Type: Gerlach, 1961, pl.26, figs.10–11, as *Lejeunia hyalina*.

PROTOPERIDINIUM subgenus **PROTOPERIDINIUM** section **PROTOPERIDINIUM**. Autonym. Modern section defined from the motile stage. Harland (1982, p.372) included fossilizable cysts in this section.

"**PROTOPERIDINIUM** subgenus **PROTOPERIDINIUM** section **QUINQUECUSPIS**" (Harland, 1977b, p.106) Harland, 1982, p.396–397. Emendation: Harland, 1982, p.396–397, as *Protoperidinium* subgenus *Protoperidinium* section *Quinquecuspis*. **Combination not validly published**: basionym not fully referenced. **NOW** *Quinquecuspis*. Originally (and now) *Quinquecuspis*, subsequently *Protoperidinium* subgenus *Protoperidinium* section *Quinquecuspis* (combination not validly published). Taxonomic junior synonym: *Lejeunecysta*, by implication in Matsuoka (1987, p.57), who incorrectly considered *Lejeunecysta* to be the senior name — however, this synonymy has not been generally followed. Type: Reid, 1977, pl.26, figs.10–11, as *Trinovantedinium concretum*.

PROTOPERIDINIUM subgenus **PROTOPERIDINIUM** section **SELENOPEMPHIX** (Benedek, 1972, p.47) Harland, 1982, p.396. Emendations: Bujak in Bujak et al., 1980, p.82; Head, 1993, p.32, both as *Selenopemphix*. **Combination not validly published**: basionym not fully referenced. **NOW** *Selenopemphix*. Originally (and now) *Selenopemphix*, subsequently *Protoperidinium* subgenus *Protoperidinium* section *Selenopemphix* (name not validly published). Taxonomic junior synonyms: *Omanodinium*, according to Bradford and Wall (1984, p.49) and Head (1993, p.32); *Multispinula*, according to Matsuoka (1985a, p.51) and Head (1993, p.31–32). Head (1993, p.32) considered by implication that the acritarch genus *Margosphaera* Nagy, 1965, is the possible taxonomic senior synonym of this taxon. Type: Benedek, 1972, pl.11, fig.13, as *Selenopemphix nephroides*.

"**PROTOPERIDINIUM** subgenus **PROTOPERIDINIUM** section **TRINOVANTEDINIUM**" (Reid, 1977, p.436–437) Harland, 1982, p.397. **Combination not validly published**: basionym not fully referenced. **NOW** *Trinovantedinium*. Originally (and now) *Trinovantedinium*, subsequently *Protoperidinium* subgenus *Protoperidinium* section *Trinovantedinium* (combination not validly published). Type: Reid, 1977, pl.1, figs.6–8, as *Trinovantedinium capitatum*.

"**PROTOPERIDINIUM** subgenus **PROTOPERIDINIUM** section **VOTADINIUM**" (Reid, 1977, p.444) Harland, 1982, p.396. **Combination not validly published**: basionym not fully referenced. **NOW** *Votadinium*. Originally (and now) *Votadinium*, subsequently *Protoperidinium* subgenus *Protoperidinium* section *Votadinium* (combination not validly published). Type: Reid, 1977, pl.2, fig.21, as *Votadinium calvum*.

PYROPHACUS Stein, 1883, p.9,26,28–29. Taxonomic junior synonym: *Tuberculodinium*, by implication in Wall and Dale (1971, p.234), who included the "type species", *Tuberculodinium vancampoae*, in *Pyrophacus* — however, Head (1996b, p.1232) retained *Tuberculodinium*.

"**vancampoae**" (Rossignol, 1962, p.134, pl.2, fig.1) Wall and Dale, 1971, p.234. Holotype: Rossignol, 1962, pl.2, fig.1. **NOW** *Tuberculodinium*. Originally *Pterospermopsis* (Appendix A), subsequently (and now) *Tuberculodinium*, thirdly *Pyrophacus*. Taxonomic junior synonym: *Membranilarnacia donaensis*, according to Jain and Garg (1990, p.108). Motile equivalent: *Pyrophacus steinii* (Schiller, 1935) Wall and Dale, 1971, according to Matsuoka et al. (1989, p.94). Age: Pleistocene.

"**RHABDOTHORAX**" Kamptner, 1958, p.88–90 ex Gaarder and Heimdal 1973, p.97. Calcareous dinoflagellate genus (see Elbrächter et al., 2008, p.1301). **Taxonomic senior synonym**: *Scrippsiella* (Appendix B), according to Janofske (2000, p.180). This name was not validly published in Kamptner (1958) since that author did not provide a Latin diagnosis. The generic name *Rhabdothorax* is validly published even though the proposed name for its type, *Rhabdothorax erinaceus*, is not validly published; this is because the basionym, *Rhabdosphaera erinacea*, is a validly published name. Type: information not available; "type species" — *Rhabdosphaera erinacea*.

"***erinaceus**" (Kamptner, 1937, p.71–74, pl.1, figs.6–7; fig.2) Gaarder and Heimdal 1973, p.97. Holotype: Kamptner, 1937, pl.1, figs.6–7; fig.2. Epitype: Kretschmann et al. 2014, figs.4–5, designated by Kretschmann et al. (2014, figs.4–5). **Combination not validly published**: basionym not fully referenced. **NOW** *Scrippsiella*. Originally *Rhabdosphaera* (Appendix A), subsequently *Rhabdothorax* (combination not validly published), thirdly (and now) *Scrippsiella* (Appendix B). Taxonomic senior synonym: *Glenodinium* (now *Scrippsiella*) *trochoideum*

(Appendix B, under *Scrippsiella*), according to Janofske (2000, p.180) — however, Kretschmann et al. (2014, p.403) retained this species, as *Scrippsiella*. This combination was also not validly published in Kamptner (1958, p.89) since the generic name was not validly published. Age: extant.

"*gerenus*" Kamptner, 1967, p.146, pl.8, fig.60; pl.9, fig.63. Holotype: information not available. **Name not validly published:** generic name not validly published. **Taxonomic senior synonym:** *Discosphaera* (as *Rhabdothorax*, now *Scrippsiella*) *regalis* (Appendix B, under *Scrippsiella*), according to Gaarder in Gaarder and Heimdal (1973, p.89). Age: extant.

"*regalis*" (Gaarder, 1954, p.8, fig.5) Gaarder in Gaarder and Heimdal, 1973, p.89. Holotype: Gaarder, 1954, fig.5. **NOW** *Scrippsiella* (Appendix B). Originally *Discosphaera* (Appendix A), subsequently *Rhabdothorax*, thirdly (and now) *Scrippsiella* (Appendix B). Taxonomic junior synonym: *Rhabdothorax gerenus* (name not validly published), according to Gaarder in Gaarder and Heimdal (1973, p.89). Age: extant.

SCRIPPSIELLA Balech, 1959, p.196 ex Loeblich III, 1965, p.15. Emendation: Janofske, 2000, p.180. Taxonomic junior synonym: *Rhabdothorax*, according to Janofske (2000, p.180).

erinaceus (Kamptner, 1937, p.71) Kretschmann et al., 2014, p.403. Holotype: Kamptner, 1937, pl.1, figs.6–7; fig.2. Epitype: Kretschmann et al. 2014, figs.4–5, designated by Kretschmann et al. (2014, figs.4–5). Originally *Rhabdosphaera* (Appendix A), subsequently *Rhabdothorax* (combination not validly published), thirdly (and now) *Scrippsiella*. Taxonomic senior synonym: *Glenodinium* (now *Scrippsiella*) *trochoideum* (Appendix B, under *Scrippsiella*), according to Janofske (2000, p.180) — however, Kretschmann et al. (2014, p.403) retained this species, as *Scrippsiella*. Age: extant.

regalis (Gaarder, 1954, p.8, fig.5) Janofske, 2000, p.183. Holotype: Gaarder, 1954, fig.5. Emendation: Janofske, 2000, p.183–184. Originally *Discosphaera* (Appendix A), subsequently *Rhabdothorax*, thirdly (and now) *Scrippsiella*. Taxonomic junior synonym: *Rhabdothorax gerenus* (name not validly published), according to Gaarder in Gaarder and Heimdal (1973, p.89). Gaarder in Gaarder and Heimdal (1973, p.89) considered *Discoaster planctonicus* Lecal, 1952, a discoaster species, to be a possible taxonomic junior synonym of this species. Age: extant.

triquetracapitata Meier et al., 2002, p.612–613, text-fig.8, figs.9a–i. Holotype: Meier et al., 2002, figs.9a–b. This name is based on cysts from surface sediment. Age: Holocene.

**trochoidea* (Stein, 1883, pl.3, figs.27–29) Loeblich III, 1976, p.25. Holotype: Stein, 1883, pl.3, figs.27–29. Originally *Glenodinium* (modern dinoflagellate; not indexed), subsequently *Peridinium* (not indexed herein), thirdly (and now) *Scrippsiella*. Taxonomic junior synonyms: *Peridinium faeroense* (not indexed herein), *Rhabdosphaera erinacea* and *Scrippsiella sweeneyae* (not indexed herein), all according to Janofske (2000, p.180). For further details, see Head (1996b, p.1229) and Janofske (2000, p.180–183). Age: extant.

THORACOSPHERA Kamptner, 1927, p.180–184. Emendation: Fütterer, 1976, p.119,130 — see below. Extant calcareous dinoflagellate genus (see Streng et al., 2004, p.483 and Elbrächter et al., 2008, p.1302), currently containing some fossil-based species. According to Tangen et al. (1982), the "type species", *Thoracosphaera heimii*, represents the calcareous cell wall of a dinoflagellate vegetative stage. It is unlikely, however, that all the species listed below are dinoflagellates. Fütterer (1976) provided a diagnosis for *Thoracosphaera* which was not labelled an emendation or revision; in his abstract, however, he refers to the "redefined and revised genus *Thoracosphaera*". Type: Kamptner, 1927, text-fig.6, as *Syracosphaera pelagica*.

"*albatrosiana*" Kamptner, 1963, p.177–178, pl.5, fig.30. Holotype: Kamptner, 1963, pl.5, fig.30. **NOW** *Calciadinellum*. Originally *Thoracosphaera*, subsequently *Orthopithonella*, thirdly *Sphaerodinella*, fourthly (and now) *Calciadinellum*. Taxonomic junior synonyms: *Thoracosphaera ricosea*, according to Fütterer (1976, p.134); and *Thoracosphaera rela* according to Fütterer (1978, p.716). Age: Pleistocene.

"*arctica*" Gilbert and Clark, 1983, p.400, pl.1, figs.1–15. Holotype: Gilbert and Clark, 1983, pl.1, fig.1. **NOW** *Caracomia*. Originally *Thoracosphaera*, subsequently *Sphaerodinella*, thirdly (and now) *Caracomia*. Age: late Miocene–Holocene.

"*atlantica*" Haq and Lohmann, 1976, p.183, pl.3, figs.11–12. Holotype: Haq and Lohmann, 1976, pl.3, fig.13. **Taxonomic senior synonym:** *Thoracosphaera* (now *Operculodinella*) *operculata*, according to Fütterer (1990, p.540). Age: Paleocene–Eocene.

"*candora*" Kamptner, 1967, p.157, pl.17, figs.100,102; pl.18, figs.105–106. **Name not validly published:** holotype not designated. **Taxonomic senior synonym:** *Thoracosphaera* (now *Pernambugia*) *tuberosa*, according to Fütterer (1976, p.132). Age: extant.

"*corsena*" Kamptner, 1967, p.157, pl.12, figs.81–85. **Name not validly published:** holotype not designated. **Taxonomic senior synonym:** *Syracosphaera* (as and now *Thoracosphaera*) *heimii*, according to Fütterer (1976, p.131). Age: extant.

"*deflandrei*" Kamptner, 1956, p.448–455, figs.1–4. Holotype: Kamptner, 1956, fig.1. **NOW** *Fuettererella*. Originally *Thoracosphaera*, subsequently *Orthopithonella*, thirdly (and now) *Fuettererella*. Taxonomic junior synonyms: *Thoracosphaera* (now *Orthopithonella*) *johnstonei* and *Orthopithonella?* *minuta*, according to Kohring (1993a, p.30) — however, Streng et al. (2004, p.482) retained *Pithonella* (as *Pirumella*) *johnstonei* and *Orthopithonella?* *minuta*. Age: Eocene.

"*edwardsii*" Müller, 1976, p.52, pl.4, figs.3–6; pl.5, fig.6; pl.6, fig.1. Holotype: Müller, 1976, pl.5, fig.6. **Taxonomic senior synonym:** *Calciodinellum operosum*, according to Fütterer (1978, p.718). Age: Quaternary.

?*eichstaettensis* Keupp, 1978, p.88–89, figs.1–2. Holotype: Keupp, 1978, fig.1. Questionable assignment: Streng et al. (2004, p.483). Age: early Tithonian.

"*geometrica*" (Jafar, 1983, p.233, fig.10, nos.5–6) Bown, 1987, p.82. Holotype: Jafar, 1983, fig.10, no.5. **NOW** ?*Orthopithonella*. Originally *Prinsiosphaera*, subsequently *Orthopithonella*, thirdly *Thoracosphaera*, fourthly (and now) ?*Orthopithonella*. Taxonomic junior synonyms (at specific rank): *Prinsiosphaera triassica* subsp. *hyalina* and *Prinsiosphaera triassica* subsp. *noeliae* (both Appendix A), according to Janofske (1987, p.50). Age: Rhaetian.

"*granifera*" Fütterer, 1978, p.715, pl.2, figs.1–12. Emendation: Janofske and Karwath, 2000, p.107–108, as *Leonella granifera*. Holotype: Fütterer, 1978, pl.2, figs.1,4,7. **NOW** *Leonella*. Originally *Thoracosphaera*, subsequently *Obliquipithonella*, thirdly *Orthopithonella*, fourthly (and now) *Leonella*. Age: late Pliocene–Pleistocene.

"*granulosa*" Kamptner, 1963, p.178–179, pl.5, fig.28. Holotype: Kamptner, 1963, pl.5, fig.28. **Taxonomic senior synonym:** *Syracosphaera* (as and now *Thoracosphaera*) *heimii*, according to Fütterer (1976, p.130). Age: Paleocene.

+*heimii* (Lohmann, 1920, p.117–118, fig.29) Kamptner, 1944, p.145. Holotype: Lohmann, 1920, fig.29. Originally *Syracosphaera*, subsequently (and now) *Thoracosphaera*. Taxonomic junior synonyms: *Thoracosphaera pelagica*, according to Kamptner (1944, p.145); *Thoracosphaera corsena* and *Thoracosphaera granulosa* according to Fütterer (1976, p.130–131); and *Thoracosphaera imperforata*, according to Fütterer (1978, p.714). The nomenclatural type of the genus *Thoracosphaera* remains the holotype of *Thoracosphaera pelagica*. According to Tangen et al. (1982), this species represents the calcareous cell wall of a dinoflagellate vegetative stage. Age: extant.

"*imperforata*" Kamptner, 1955, p.37,66–71; pl.8, fig.98. Holotype: Kamptner, 1955, pl.8, fig.98. **Taxonomic senior synonym:** *Syracosphaera* (as and now *Thoracosphaera*) *heimii*, according to Fütterer (1978, p.714). Age: extant.

"*narena*" Kamptner, 1967, p.158, pl.15, figs.96–97; pl.16, figs.98–99; pl.17, figs.101,103. **Name not validly published:** holotype not designated. **Taxonomic senior synonym:** *Thoracosphaera* (now *Pernambugia*) *tuberosa*, according to Fütterer (1976, p.132). Age: extant.

"*operculata*" Bramlette and Martini, 1964, p.305–306, pl.5, figs.3–7. Emendation: Streng et al., 2004, p.467, as *Cervisiella operculata*. Holotype: Bramlette and Martini, 1964, pl.5, figs.4–5. **NOW** *Cervisiella*. Originally *Thoracosphaera*, subsequently *Obliquipithonella*, thirdly *Pirumella*, fourthly *Operculodinella*, fifthly (and now) *Cervisiella*. Taxonomic junior synonym: *Thoracosphaera atlantica*, according to Fütterer (1990, p.540). Age: Maastrichtian–Paleocene.

"**pelagica*" Kamptner, 1927, p.180–184, text-fig.6. Holotype: Kamptner, 1927, text-fig.6. **Taxonomic senior synonym:** *Syracosphaera* (as and now *Thoracosphaera*) *heimii*, according to Kamptner (1944, p.145). The nomenclatural type of the genus *Thoracosphaera* remains the holotype of *Thoracosphaera pelagica*. Age: extant.

?*prolata* Bukry and Bramlette, 1969, p.141, pl.3, figs.15–17. Holotype: Bukry and Bramlette, 1969, pl.3, figs.16–17. Questionable assignment: Streng et al. (2004, p. 483). Age: middle Eocene to early Oligocene.

"*rela*" Kamptner, 1967, p.158–159, pl.19, figs.107–108. Holotype: Kamptner, 1967, pl.19, figs.107–108. **Taxonomic senior synonym:** *Thoracosphaera* (now *Calciodinellum*) *albatrosiana*, according to Fütterer (1978, p.716). Age: extant.

"*reliana*" Kamptner, 1967, p.159, pl.20, figs.109–110; pl.21, figs.111–112; pl.22, figs.113–114. **Name not validly published:** holotype not designated. Age: extant.

"*ricoseta*" Kamptner, 1967, p.159, pl.13, fig.87. Holotype: Kamptner, 1967, pl.13, fig.87. **Taxonomic senior synonym:** *Thoracosphaera* (now *Sphaerodinella*) *albatrosiana*, according to Fütterer (1976, p.134). Age: extant.

"*saxea*" Stradner, 1961, p.84, fig.71. Holotype: Stradner, 1961, fig.71. **NOW** *Cervisiella*. Originally *Thoracosphaera*, subsequently *Obliquipithonella* (combination not validly published), thirdly *Pirumella*, fourthly (and now) *Cervisiella*. Age: Danian.

"*spinosa*" Keupp, 1979a, p.17–18, pl.1, fig.6. Holotype: Keupp, 1979a, pl.1, fig.6. **NOW** *Pirumella*. Originally *Thoracosphaera*, subsequently *Pithonella*, thirdly *Obliquipithonella*, fourthly (and now) *Pirumella*. Age: early Barremian.

"*strobila*" Keupp, 1979a, p.18, pl.2, figs.1–3. Holotype: Keupp, 1979a, pl.2, figs.1–2. **NOW** *Pirumella*. Originally *Thoracosphaera*, subsequently *Pithonella*, thirdly *Obliquipithonella*, fourthly (and now) *Pirumella*. Age: early Barremian.

"*tesserula*" Fütterer, 1978, p.715, pl.3, figs.1–8,10–11. Holotype: Fütterer, 1978, pl.3, figs.1,4,7,10. **NOW** *Fuettererella*. Originally *Thoracosphaera*, subsequently *Orthopithonella* (combination not validly published), thirdly (and now) *Fuettererella*. N.I.A. Age: Paleocene–late Oligocene.

"*thoracata*" Keupp, 1979a, p.19, pl.2, figs.8–11. Holotype: Keupp, 1979a, pl.2, figs.8,11. **Taxonomic senior synonym:** *Pithonella* (now *Pirumella*) *sheilasantawae*, according to Keupp (1981, p.63). Age: early Barremian.

"*tuberosa*" Kamptner, 1963, p.179–180, pl.4, fig.26. Emendation: Janofske and Karwath, 2000, p.114–115, as *Pernambugia tuberosa*. Holotype: Kamptner, 1963, pl.4, fig.26. **NOW** *Pernambugia*. Originally *Thoracosphaera*, subsequently *Sphaerodinella* (combination not validly published), thirdly *Sphaerodinella?*, fourthly (and now) *Pernambugia*. Taxonomic junior synonyms: *Thoracosphaera candora* and *Thoracosphaera narena*, both according to Fütterer (1976, p.132). Age: Pleistocene.

wombatensis Bralower et al. 1991, p.135, pl.7, figs.1–19. Holotype: Bralower et al., 1991, pl.7, fig.1. Streng et al. (2004, p.481) considered this species to probably belong to *Schizosphaerella*. Age: Late Triassic.

"**ZYGABIKODINIUM**" Loeblich Jr. and Loeblich III, 1970a, p.541. Substitute name for *Diplopeltopsis* Pavillard, 1913, p.7 (an illegitimate name). **Taxonomic senior synonym:** *Preperidinium* Mangin, 1913 (an extant dinoflagellate genus), according to Elbrächter (1993, p.174).

"**lenticulatum*" (Mangin, 1911, p.30,32, figs.3–4) Loeblich Jr. and Loeblich III, 1970a, p.541. Holotype: Mangin, 1911, figs.3–4 — p.30. **Taxonomic senior synonym:** *Peridinium* (now *Preperidinium*) *meunieri* Pavillard, 1912, an extant dinoflagellate species, according to Elbrächter (1993, p.176). Mudie (1987, p.806) recorded cysts of this species from upper Pliocene-Pleistocene sediments, citing the name as "*Zygabikodinium lenticulatum* Wall and Dale, 1968 [1968c herein] emend. Bujak and Davies, 1983." Age: extant.

1992: Distribution of selected dinoflagellate cysts in modern marine sediments. In: Head, M.J. and Wrenn, J.H. (editors), *Neogene and Quaternary Dinoflagellate Cysts and Acritarchs*, p.259–288; American Association of Stratigraphic Palynologists Foundation, Dallas, U.S.A.

Edwards, L.E. and Bebout, J.W.

1981: Emendation of *Phthanoperidinium* Drugg and Loeblich 1967, and a description of *P. brooksii* sp. nov. from the Eocene of the mid-Atlantic outer continental shelf. *Palynology*, v.5, p.29–41, pl.1–2.

Ehrenberg, C.G.

1832a: Beiträge zur Kenntnis der Organisation der Infusorien und ihrer geographischen Verbreitung, besonders in Sibirien. *Abhandlungen der Königlichen Akademie der Wissenschaften zu Berlin, aus dem Jahre 1830, Physikalische Klasse*, p.1–88, pl.1–8. [Cited as Ehrenberg 1830 in Fensome and Williams, 2004, following Farr et al., 1979, p.1290; however, from the publication it is clear that the work was presented in March 1830 and published in 1832.]

1832b: Über die Entwicklung und Lebensdauer der Infusionsthier; nebst ferneren Beiträgen zu einer Vergleichung ihrer organischen Systeme. *Abhandlungen der Königlichen Akademie der Wissenschaften zu Berlin, aus dem Jahre 1831, Physikalische Klasse*, p. 1–154. [From the publication it is clear that the work was presented in June 1831 and published in January 1832.]

1834: Dritter Beitrag zur Erkenntniss grosser Organisation in der Richtung des kleinsten Raumes. *Abhandlungen der Königlichen Akademie der Wissenschaften zu Berlin, aus dem Jahre 1833*, p.145–336. [From the publication it is clear that this work was presented in July 1832, published as a separate in May 1834, and published in the journal in 1835; thus, effective publication was May 1834.]

1836: Das Leuchten des Meeres. Neue Beobachtungen nebst Übersicht der Hauptmomente der geschichtlichen Entwicklung dieses merkwürdigen Phänomens. *Abhandlungen der Königlichen Akademie der Wissenschaften zu Berlin, aus dem Jahre 1834*, p. 411–575, pl. 1–2. [It is clear from the publication that the paper was presented in April 1834 and the journal volume was published 1836; there is no mention of a separate.]

1837a: Zusätze zur Erkenntnis grosser organischer Ausbildung in den kleinsten thierschen Organismen. *Abhandlungen der Königlichen Akademie der Wissenschaften zu Berlin, aus dem Jahre 1835, Physikalische Klasse*, p.151–180, pl.1. [Cited in Fensome and Williams, 2004, as Ehrenberg, 1836 based on their contention that a separate was published in 1836. However, it is clear from the journal that the paper was presented in May 1835 and the journal volume was published 1837; there is no mention of a separate.]

1837b: Über das Massenverhältniss der jetzt lebenden Kiesel-Infusorien und über ein neues Infusorien-Conglomerat als Polirschiefer von Jastraba in Ungarn. *Abhandlungen der Königlichen Akademie der Wissenschaften zu Berlin, aus dem Jahre 1836, Physikalische Klasse*, p.109–135, pl.1–2. [Cited as Ehrenberg, 1838, in Fensome and Williams, 2004. However, from the journal it is clear that the work was presented in July or August 1837, published as a separate in December 1837, and published in the journal in 1838. Thus the date of effective publication is 1837.]

1837c: Gesamtsitzung der Akademie. Bericht über die zur Bekanntmachung geeigneten Verhandlungen der Königlich Preussischen Akademie der Wissenschaften zu Berlin, p. 57–61. [Full reference not available; cited as Ehrenberg 1837 in Fensome and Williams, 2004.]

1838: Die Infusionsthierchen als vollkommene Organismen. Ein Blick in das tiefere organische Leben der Natur. Leipzig, Leopold Voss, xvii+547 p., 64 pl.

1839a: Über das im Jahre 1868 in Curland vom Himmel gefallene Meteorpapier und über dessen Zusammensetzung aus Conferven und Infusorien. Abhandlungen der Königlich Akademie der Wissenschaften zu Berlin, aus dem Jahre 1838, Physikalische Klasse, p.45–147, 1 table, pl.1–4. [From the journal it is clear that the work was presented in December 1838 and published in the journal in 1839.]

1839b: Über jetzt wirklich noch zahlreich lebende Thier-Arten der Kreideformation der Erde. Königlich Preussische Akademie der Wissenschaften zu Berlin, Bericht über die zur Bekanntmachung geeigneten Verhandlungen, 1839, p.152–159. [Not seen.]

1840: 274 Blätter von ihm selbst ausgeführter Zeichnungen von ebenso vielen Arten. Königlich Preussische Akademie der Wissenschaften zu Berlin, Bericht über die zur Bekanntmachung geeigneten Verhandlungen, 1840, p.197–219. [Cited as Ehrenberg, 1840b, in Fensome and Williams, 2004.]

1841: Über noch jetzt zahlreich lebende Thierarten der Kreidebildung und den Organismus der Polythalamien. Abhandlungen der Königlich Akademie der Wissenschaften zu Berlin, aus dem Jahre 1839, Physikalische Klasse, p.81–174, pl.1–4. (From the journal it is clear that the work was presented in October 1839, published as a separate in January 1840, and published in the journal in 1841.) [This was cited in Fensome and Williams, 2004, as Ehrenberg 1840a, following indications by Loeblich and Loeblich, 1966, p.14,70 and Farr et al., 1979, p.22, that the publication date was 1840. However, it is clear from the publication that the work was read in October 1838 with additions in January 1840, but that the publication date was 1841.]

1843a: Hr. Ehrenberg las den ersten Theil seiner Beobachtungen über die Verbreitung des jetzt wirkenden kleinsten organischen Lebens in Asien, Australien und Afrika und über die vorherrschende Bildung auch des Oolithkalkes der Juraformation aus kleinen polythalamischen Thieren. Bericht über die zur Bekanntmachung geeigneten Verhandlungen der Königlich Preussische Akademie der Wissenschaften zu Berlin, aus dem Jahre 1843, p.100–106.

1843b: 1. Über einige Jura-Infusorien-Arten des Corallrags bei Krakau. Bericht über die zur Bekanntmachung geeigneten Verhandlungen der Königlich Preussische Akademie der Wissenschaften zu Berlin, aus dem Jahre 1843, p.61–63.

1843c: Verbreitung und Einfluss des mikroskopischen Lebens in Süd und Nord-Amerika. Abhandlungen der Königlich Akademie der Wissenschaften zu Berlin, aus dem Jahre 1841, erste Theile, p.291–446, pl.1–4. [Read in 1841 and printed in 1843.]

1844a: Hr. Ehrenberg las eine Mittheilung über zwei neue Lager von Gebirgsmassen aus Infusorien als Meeres-Absatz in Nord-Amerika und eine Vergleichung derselben mit den organischen Kreide-Gebilden in Europa und Afrika. Bericht über die zur Bekanntmachung geeigneten Verhandlungen der Königlich Preussische Akademie der Wissenschaften zu Berlin, aus dem Jahre 1844, p.57–97.

1844b: Herr Ehrenberg legte seine Untersuchungen über die kleinsten Lebensformen im Quellenlande des Euphrats und Araxes, so wie über eine an neuen Formen sehr reiche marine Tripelbildung von den Bermuda-Inseln vor. Bericht über die zur Bekanntmachung geeigneten Verhandlungen der Königlich Preussische Akademie der Wissenschaften zu Berlin, aus dem Jahre 1844, p.253–275, 1 pl.

1845: Hr. Ehrenberg übergab zuerst der Akademie einige Zusätze zu seinen letzten Mittheilungen über die mikroskopische Lebensformen von Portugall und Spanien, Sud-Afrika, Hinter-Indien, Japan und Kurdistan, und legte die folgenden Diagnosen von den im October verzeichneten, jene Erdstriche characterisirenden 5 neuen Generibus und 129 neuen Arten vor. Bericht über die zur Bekanntmachung geeigneten Verhandlungen der Königlich Preussische Akademie der Wissenschaften zu Berlin, aus dem Jahre 1845, p. 357–381.

1854: Mikrogeologie. Das Erden und Felsen schaffende Wirken des unsichtbaren kleinen selbständigen Lebens auf der Erde. Leipzig, Leopold Voss, 374+31+88 p., 40 pl.

1860: Nachtrag zur Hrn. Ehrenbergs Mittheilung vom 8. Decbr. 1859. Monatsberichte der Königl. Preuss. Akademie der Wissenschaften zu Berlin, aus dem Jahre 1859, p. 791–793.

1873: Die das Funkeln und Aufblitzen des Mittelmeeres bewirkenden unsichtbar kleinen Lebensformen. Festschrift zur Feier des Hundertjährigen Bestehens der Gessellschaft Naturforschender Freunde zu Berlin; Berlin, Ferd. Dümmlers Verlagsbuchhandlung, p. 1–4, pl. 1.

Eisenack, A.

2012: International Code of Zoological Nomenclature Fourth Edition. The International Trust for Zoological Nomenclature: online <http://iczn.org/iczn/index.jsp>. (dated 1999 but incorporating 2012 amendments).

Riding, J.B.

1983: *Gonyaulacysta centriconnata* sp. nov. and a dinoflagellate cyst from Late Callovian and Early Oxfordian of eastern England. *Palynology*, v.7, p.197–204, pl.1–2.

1984a: Observations on the Jurassic dinoflagellate cyst *Nannoceratopsis ambonis* Drugg, 1978. *Journal of Micropalaeontology*, v.3, no.1, p.75–79, pl.1.

1984b: A palynological investigation of Toarcian to early Aalenian strata from the Blea Wyke area, Ravenscar, North Yorkshire. *Yorkshire Geological Society, Proceedings*, v.45, pts.1-2, p.109–122.

1987a: Dinoflagellate cyst stratigraphy of the Nettleton Bottom Borehole (Jurassic: Hettangian to Kimmeridgian), Lincolnshire, England. *Proceedings of the Yorkshire Geological Society*, v.46, pt.3, p.231–266.

1987b: *Limbodinium*, a new dinoflagellate genus from the Jurassic of western Europe. *Palynology*, v.11, p.55–65, pl.1–3.

1990: On *Chytroesphaeridia hyalina* (Raynaud) Lentin and Williams (Pyrrhophyta, Dinophyceae). *Taxon*, v.39, p.311–312.

1994: A taxonomic study of the Mesozoic dinoflagellate cysts *Phallocysta elongata* (Beju 1971) comb. nov., emend. nov. and *Walloodinium cylindricum* (Habib 1970) Duxbury 1983 emend. nov. *Palynology*, v.18, p.11–22, pl.1.

2002: *Microdinium avocetianum* sp. nov., a dinoflagellate cyst from the latest Jurassic (Tithonian) of Australia. *Palynology*, v.25, p.3–10, pl.1. (Cover date 2001, issue date 2002.)

2004: *Frigatadinium frigatense* gen. et sp. nov., a dinoflagellate cyst from the Late Jurassic–Early Cretaceous (Oxfordian–Berriasian) of Australasia. *Memoir of the Association of Australasian Palaeontologists*, v.29, p.237–244.

2005a: The Late Jurassic dinoflagellate cyst *Gonyaulacysta ceratophora* (Cookson & Eisenack 1960) comb. nov., emend. nov. *Palynology*, v.29, p.13–22, pl.1.

2005b: *Fostericysta* Riding nom. nov. (division Dinoflagellata). *Taxon*, v.54, no.4. p.1091.

2012: The Jurassic dinoflagellate cyst *Gonyaulacysta dentata* (Raynaud 1978) Lentin & Vozzhennikova 1990 emend. nov.: an index species for the Late Callovian to earliest Oxfordian of the northern hemisphere. *Review of Palaeobotany and Palynology*, v.176–177, p.68–81, pl.1–2.

Riding, J.B. and Bailey, D.A.

1991: *Durotrigia filapicata*, comb. nov. for *Gonyaulacysta filapicata* (fossil Pyrrophyta: Dinophyceae). *Taxon*, v.40, p.100–102.

Riding, J.B. and Davey, R.J.

1989: *Rotosphaeropsis thula* (Davey 1982) comb. nov. and emend.: a dinoflagellate cyst from the Upper Jurassic–Lower Cretaceous of England. *Journal of Micropalaeontology*, v.8, no.1, p.109–112, pl.1.

Riding, J.B. and Duxbury, S.

1993: A new non-marine acritarch from the Middle Jurassic of Britain. *Special Papers in Palaeontology*, no.48, p.57–66, pl.1.

Riding, J.B. and Fensome, R.A.

2003: A review of *Scriniodinium* Klement 1957, *Endoscrinium* (Klement 1960) Vozzhennikova 1967 and related dinoflagellate cyst taxa. *Palynology*, v.26, p.5–33, pl.1–3. (Cover date 2002, issue date 2003.)

Riding, J.B. and Helby, R.

2001a: Early Jurassic (Toarcian) dinoflagellate cysts from the Timor Sea, Australia. In Laurie, J.R and Foster, C.B. (editors), *Studies in Australian Mesozoic palynology II; Memoir of the Association of Australasian Palaeontologists*, no.24, p.1–32.

2001b: A selective reappraisal of *Wanaea* Cookson & Eisenack 1958 (Dinophyceae). In Laurie, J.R and Foster, C.B. (editors), *Studies in Australian Mesozoic palynology II; Memoir of the Association of Australasian Palaeontologists*, no.24, p.33–58.

2001c: *Phallocysta granosa* sp. nov., a Mid Jurassic (Bathonian) dinoflagellate cyst from the Timor Sea, Australia. In Laurie, J.R and Foster, C.B. (editors), *Studies in Australian Mesozoic palynology II; Memoir of the Association of Australasian Palaeontologists*, no.24, p.59–63.

2001d: Microplankton from the Mid Jurassic (late Callovian) *Rigaudella aemula* Zone in the Timor Sea, north-western Australia. In Laurie, J.R and Foster, C.B. (editors), *Studies in Australian Mesozoic palynology II; Memoir of the Association of Australasian Palaeontologists*, no.24, p.65–109.

2001e: Dinoflagellate cysts from the Late Jurassic (Oxfordian) *Wanaea spectabilis* Zone in the Timor Sea region. In Laurie, J.R and Foster, C.B. (editors), *Studies in Australian Mesozoic palynology II; Memoir of the Association of Australasian Palaeontologists*, no.24, p.111–140.

2001f: Dinoflagellate cysts from the Late Jurassic (Kimmeridgian) *Dingodinium swanense* Zone in the North-West Shelf and Timor Sea, Australia. In Laurie, J.R and Foster, C.B. (editors), Studies in Australian Mesozoic palynology II; Memoir of the Association of Australasian Palaeontologists, no.24, p.141–176.

2001g: Marine microplankton from the Late Jurassic (Tithonian) of the north-west Australian region. In Laurie, J.R and Foster, C.B. (editors), Studies in Australian Mesozoic palynology II; Memoir of the Association of Australasian Palaeontologists, no.24, p.177–220.

2001h: Some stratigraphically significant dinoflagellate cysts from the Early Cretaceous (Aptian and Albian) of Australia. In Laurie, J.R and Foster, C.B. (editors), Studies in Australian Mesozoic palynology II; Memoir of the Association of Australasian Palaeontologists, no.24, p.225–235.

Riding, J.B. and Ilyina, V.I.

1996: *Protobatioladinium elatmaensis* sp. nov., a dinoflagellate cyst from the Bathonian of Russia. Journal of Micropalaeontology, v.15, pt.2, p.150.

1998: A new dinoflagellate cyst from the Upper Bathonian (Middle Jurassic) strata of the Russian Platform. Journal of Micropalaeontology, v.17, pt.1, p.86.

Riding, J.B. and Michoux, D.

2013: Further observations on the Jurassic dinoflagellate cyst *Gonyaulacysta dentata* (Raynaud 1978) Lentin & Vozzhennikova 1990 emended Riding 2012. Review of Palaeobotany and Palynology, v.196, p.51–56, pl.1.

Riding, J.B. and Schmidt, F.G.

2009: Deflandre (1938) — a palynological classic. AASP--The Palynology Society Newsletter, v.42 (4), p.16–18.

Riding, J.B. and Thomas, J.E.

1988: Dinoflagellate cyst stratigraphy of the Kimmeridge Clay (Upper Jurassic) from the Dorset coast, southern England. Palynology, v.12, p.65–88, pl.1–3.

Riding, J.B. and Zijlstra, G.

2006: *Belowicysta* nom. nov., a new name for the Jurassic dinoflagellate cyst *Belowia* Riding & Helby, 2001. Alcheringa, v.30, p.313–314.

Riding, J.B., Walton, W. and Shaw, D.

1991: Toarcian to Bathonian (Jurassic) palynology of the Inner Hebrides, northwest Scotland. Palynology, v.15, p.115–179, pl.1–9.

Riding, J.B., Poulsen, N.E. and Bailey, D.A.

2001: A taxonomic study of the dinoflagellate cyst *Muderongia simplex* Alberti 1961 and related species. Palynology, v.24, p.21–35, pl.1. (Cover date 2000, issue date 2001.)

Riegel, W.

1974: New forms of organic-walled microplankton from an Upper Cretaceous assemblage in southern Spain. Revista española de micropaleontología, v.6, no.3, p.347–366, pl.1–3.

Riegel, W. and Sarjeant, W.A.S.

1982: Dinoflagellate cysts from the Upper Cretaceous of southern Spain: new morphological and taxonomic observations. Neues Jahrbuch für Geologie und Paläontologie, Abhandlungen, v.162, p.286–303.

Riley, L.A.

1979: Dinocysts from the Upper Kimmeridgian (*pectinatus* Zone) of Marton, Yorkshire. Mercian Geologist, v.7, p.219–222.

Riley, L.A. and Fenton, J.P.G.

- 1980: A dinocyst zonation for the Callovian-Oxfordian succession of north-west Europe. 5th International Palynological Conference, Cambridge, England, 1980, Abstracts, p.340.
- 1982: A dinocyst zonation for the Callovian to Middle Oxfordian succession (Jurassic) of northwest Europe. *Palynology*, v.6, p.193–202.
- Riley, L.A. and Sarjeant, W.A.S.
1972: Survey of the stratigraphic distribution of dinoflagellates, acritarchs and tasmanitids in the Jurassic. *Geophytology*, v.2, no.1, p.1–40.
- Robaszynski, F., Bless, M.J.M., Felder, P.J., Foucher, J.-C., Legoux, O., Manivit, H., Meesen, J.P.M.T. and van der Tuuk, L.A.
1985: The Campanian-Maastrichtian boundary in the chalky facies close to the type-Maastrichtian area. *Bulletin des Centres de recherches exploration-production Elf-Aquitaine*, v.9, no.1, p.1–113, pl.1–22.
- Rochon, A., de Vernal, A., Turon, J.-L., Matthiessen, J. and Head, M.J.
1999: Distribution of Recent dinoflagellate cysts in surface sediments from the North Atlantic Ocean and adjacent areas in relation to sea-surface parameters. *American Association of Stratigraphic Palynologists, Contributions Series*, no.35, 146 p.
- Rochon, A., Mudie, P.J., Aksu, A.E. and Gillespie, H.
2003: *Pterocysta* gen. nov.: a new dinoflagellate cyst from Pleistocene glacial-stage sediments of the Black and Marmara seas. *Palynology*, v.26, p.95–105, pl.1–3. (Cover date 2002, issue date 2003.)
- Rögl, F.
1976: Danian Calcisphaerulidae of D.S.D.P. Leg 35, Site 323, south-east Pacific Ocean. In: Hollister, C.D. et al., *Deep Sea Drilling Project, Washington, Initial Reports*, v.35, p.701–711, pl.1–4.

1992: Mikrofossilien des Unter- und Mittelmiozäns in der Braunkohlenbohrung Lübtheen 46/84 (Südwest-Mecklenburg). Neues Jahrbuch für Geologie und Paläontologie, Monatshefte, no.3, p.150–170.

Rzedowski, J.

1957: Notas sobre la flora y la vegetación del estado de San Luis Potosí. IV. Un género nuevo y dos especies poco conocidas de la parte sur del estado. Ciencia (México), v.16, p.139–142. (Cover date 1956)

Sah, S.C.D., Kar, R.K. and Singh, R.Y.

1970: Fossil microplankton from the Langpar Formation of Therriaghat, south Shillong Plateau, Assam, India. The Palaeobotanist, v.18, p.143–150, pl.1–2.

Salujha, S.K. and Kindra, G.S.

1981: Palynological fossils from the Langpar Formation exposed along South Shillong Front, Meghalaya, India. Geoscience Journal, v.2, p.43–62, pl.1–3.

Salujha, S.K., Srivastava, N.C. and Rawat, M.S.

1969: Microforal assemblages from Subathu sediments of Simla Hills. Journal of the Palaeontological Society of India, v.12, p.25–40, pl.3–4.

Salujha, S.K., Rehman, K. and Kindra, G.S.

1973: Distinction between the Bhuban and Bokabil sediments on the southern edge of Shillong Plateau based on palynofossil assemblages. Oil and Natural Gas Commission, Dehradun, Bulletin, v.10, no.1–2, p.109–117.

Samoilovitch, S.R. and Mtchedlishvili, N.D.(editors)

1961: Pyltsa i spory zapadnoi Sibiri, yura-paleotsen. Vsesoyuznyi Neftyanoi Nauchno-Issledovatel'skii Geologorazvedochnyi Institut, Leningrad (VNIGRI), Trudy, no.177, 352 p., 84+LXV pl.

Sancay, R.H., Bati, Z., Edwards, L.E. and Ertug, K.I.

2007: A new species of *Pentadinium* from eastern Anatolia, Turkey, *Pentadinium galileoi*. Micropaleontology, v.52, no.6, p.537–543, pl.1.

Sangiorgi, F., Brinkhuis, H. and Damassa, S.P.

2009: *Arcticacysta*: a new organic-walled dinoflagellate cyst genus from the early Miocene? of the central Arctic Ocean. Micropaleontology, v.55, no.2–3, p.249–258, pl.1–4.

Sannemann, D.

1955: Hystrichosphaerideen aus dem Gotlandium und Mittel-Devon des Frankenwaldes und ihr Feinbau. Senckenbergiana Lethaea, v.36, no.5–6, p.321–346, pl.1–6.

Sarai, C., Yamaguchi, A., Kawami, H. and Matsuoka, K.

2013: Two new species formally attributed to *Protoperidinium oblongum* (Aurivillius) Park et Dodge (Peridinales, Dinophyceae): evidence from cyst incubation experiments. Review of Palaeobotany and Palynology, v.192 p.103–118, pl.1–5.

Sarjeant, W.A.S.

1959: Microplankton from the Cornbrash of Yorkshire. *Geological Magazine*, v.96, no.5, p.329–346, pl.13.

1960a: New hystrichospheres from the Upper Jurassic of Dorset. *Geological Magazine*, v.97, no.2, p.137–144, pl.6.

1960b: Microplankton from the Corallian Rocks of Yorkshire. *Proceedings of the Yorkshire Geological Society*, v.32, pt.4, p.389–408, pl.12–14.

1961a: Microplankton from the Kellaways Rock and Oxford Clay of Yorkshire. *Palaeontology*, v.4, no.1, p.90–118, pl.13–15.

1961b: *Systematophora* Klement and *Polystephanosphaera* Sarjeant. *Journal of Paleontology*, v.35, no.5, p.1095–1096.

1962a: Microplankton from the Ampthill Clay of Melton, south Yorkshire. *Palaeontology*, v.5, no.3, p.478–497, pl.69–70.

1962b: Upper Jurassic microplankton from Dorset, England. *Micropaleontology*, v.8, no.2, p.255–268, pl.1–2.

1963a: *Favilarnax*, new genus of Mesozoic hystrichospheres. *Journal of Paleontology*, v.37, no.3, p.719–721.

1963b: Fossil dinoflagellates from Upper Triassic sediments. *Nature*, v.199, p.353–354.

1963c: Two new Jurassic species of *Gonyaulax* (Dinophyceae). *Revue de micropaléontologie*, v.6, p.85–88, pl.1.

1964a: Taxonomic notes on hystrichospheres and acritarchs. *Journal of Paleontology*, v.38, no.1, p.173–177.

1964b: New name and diagnosis for an Upper Jurassic species of *Gonyaulacysta* (Dinophyceae). *Palaeontology*, v.7, p.472–473.

1965: Microplankton from the Callovian (*S. calloviense* Zone) of Normandy. *Revue de micropaléontologie*, v.8, p.175–184, pl.1.

1966a: The supposed "sponge spicules" of Merrill, 1895, from the Lower Cretaceous (Albian) of Texas. *Breviora*, no.242, p.1–15, pl.1.

1966b: Dinoflagellate cysts with *Gonyaulax*-type tabulation. In: Davey, R.J., Downie, C., Sarjeant, W.A.S. and Williams, G.L., *Studies on Mesozoic and Cainozoic dinoflagellate cysts; British Museum (Natural History) Geology, Bulletin, Supplement 3*, p.107–156.

1966c: Further dinoflagellate cysts from the Speeton Clay. In: Davey, R.J., Downie, C., Sarjeant, W.A.S. and Williams, G.L., *Studies on Mesozoic and Cainozoic dinoflagellate cysts; British Museum (Natural History) Geology, Bulletin, Supplement 3*, p.199–214.

1967a: The stratigraphical distribution of fossil dinoflagellates. *Review of Palaeobotany and Palynology*, v.1, no.1–4, p.323–343.

1967b: The genus *Palaeoperidinium* Deflandre (Dinophyceae). *Grana Palynologica*, v.7, p.243–258.

1967c: The rediscovery of a lost species of dinoflagellate cyst *Hystrichosphaera* (ex *Spiniferites*) *reginaldi* (Mantell 1844) comb.nov. *Microscopy: the Journal of the Quekett Microscopical Club*, v.30, p.241–250.

1968: Microplankton from the Upper Callovian and Lower Oxfordian of Normandy. *Revue de micropaléontologie*, v.10, no.4, p.221–242, pl.1–3.

- 1969: Taxonomic changes. In: Davey, R.J., Downie, C., Sarjeant, W.A.S. and Williams, G.L., Appendix to "Studies on Mesozoic and Cainozoic Dinoflagellate Cysts"; British Museum (Natural History) Geology, Bulletin, Appendix to Supplement 3, p.7–15.
- 1970: The genus *Spiniferites* Mantell, 1850 (Dinophyceae). *Grana*, v.10, p.74–78.

1967c: Some species of *Wetzelialla* Eisenack (Dinophyceae) from New Zealand Eocene and Paleocene strata. *New Zealand Journal of Botany*, v.5, p.469–497.

- 1968: Palynology of some Lower Tertiary coal measures in the Waihao District, south Canterbury, New Zealand. *New Zealand Journal of Botany*, v.6, p.56–62.
- 1972: Age of the Garden Cove Formation, Campbell Island. *New Zealand Journal of Geology and Geophysics*, v.15, p.184–185.
- 1973: Palynology of the Middle Pleistocene Te Piki bed, Cape Runaway, New Zealand. *New Zealand Journal of Geology and Geophysics*, v.16, p.345–354.
- 1977: A new species of *Svalbardella* Manum (Dinophyceae) from the Eocene of New Zealand. *New Zealand Journal of Geology and Geophysics*, v.20, p.563–566.
- 1978: *Kaiwaradinium*, a new dinoflagellate genus from the Late Jurassic of North Canterbury, New Zealand. *New Zealand Journal of Geology and Geophysics*, v.21, p.81–84.
- 1984a: Two new dinoflagellates from the Late Jurassic of North Canterbury, New Zealand. *Journal of the Royal Society of New Zealand*, v.14, no.3, p.215–221.
- 1984b: A new Paleocene dinoflagellate cyst from the Chatham Islands, New Zealand. *New Zealand Journal of Botany*, v.22, p.545–547.
- 1984c: Some new dinoflagellate species from the New Zealand Haumurian and Piripauan stages (Santonian-Maastrichtian, Late Cretaceous). *New Zealand Journal of Botany*, v.22, p.549–556.
- 1985: Dinoflagellate biostratigraphy of the Eocene Hampden Section, North Otago, New Zealand (2). *New Zealand Geological Survey, Research Notes 1985, Record 8*, p.93–101.
- 1988: Paleocene and Eocene dinoflagellate cysts from Waipawa, Hawkes Bay, New Zealand. *New Zealand Geological Survey Paleontological Bulletin*, no.57, 96 p., 26 pl.
- Wilson, G.J. and Clowes, C.D.
1980: A concise catalogue of organic-walled fossil dinoflagellate genera. *New Zealand Geological Survey, Report*, no.92, p.1–199.
- 1982: *Arachnodinium*, a new dinoflagellate genus from the Lower Tertiary of Antarctica. *Palynology*, v.6, p.97–103, pl.1–2.
- Wilson, G.J. and Helby, R.
1988: Early Cretaceous dinoflagellate assemblages from Torlesse rocks near Ethelton, North Canterbury. *New Zealand Geological Survey Record*, v.35, p.38–43, pl.1–2.
- Winslow, M.R.
1962: Plant spores and other microfossils from Upper Devonian and Lower Mississippian rocks of Ohio. *United States Geological Survey*, p.1–93, pl.1–22.
- Wise, S.W. Jr. and Wind, F.H.
1977: Mesozoic and Cenozoic calcareous nannofossils recovered by DSDP Leg 36 drilling on the Falkland Plateau, southwest Atlantic sector of the southern ocean. In: Barker, P.F. et al., *Deep Sea Drilling Project, Washington, Initial Reports*, v.36, p.269–492, pl.1–89.
- Wolf, R.
1980: The lower and upper boundary of the Ordovician System of some selected regions (Celtiberia, eastern Sierra Morena) in Spain. Part I: the Lower Ordovician sequence of Celtiberia. *Neues Jahrbuch für Geologie und Paläontologie, Abhandlungen*, v.160, no.1, p.118–137.
- Wolfard, A. and Van Erve, A.W.

1981: *Crussolia deflandrei* nov. gen. et nov. sp., a dinoflagellate cyst from the Jurassic (Callovian-Lower Oxfordian) of Montagne Crussol, Rhône Valley, France. *Review of Palaeobotany and Palynology*, v.34, p.321–329, pl.1–2.

Woollam, R.

1980: Jurassic dinocysts from shallow marine deposits of the East Midlands, England. *Journal, University of Sheffield Geological Society*, v.7, p.243–261.

1982: Observations on the Jurassic dinocyst genera *Energlynia* and *Wanaea*. *Journal of Micropalaeontology*, v.1, p.45–52, pl.1–2.

1983: A review of the Jurassic dinocyst genera *Ctenidodinium* Deflandre 1938 and *Dichadogonyaulax* Sarjeant 1966. *Palynology*, v.7, p.183–196, pl.1.

Woollam, R. and Riding, J.B.

1983: Dinoflagellate cyst zonation of the English Jurassic. *Institute of Geological Sciences, Report 83/2*, p.1–42, pl.1–8.

Wrenn, J.H.

1988: Differentiating species of the dinoflagellate cyst genus *Nematosphaeropsis* Deflandre & Cookson 1955. *Palynology*, v.12, p.129–150, pl.1–7.

1996: *Pseudorhombodinium lisbonense* gen. et sp. nov., a new dinoflagellate fossil from the Lisbon Formation (Middle Eocene), Little Stave Creek, Alabama. *Palynology*, v.20, p.209–219, pl.1–3.

Wrenn, J.H. and Hart, G.F.

1988: Paleogene dinoflagellate cyst biostratigraphy of Seymour Island, Antarctica. *Geological Society of America, Memoir*, no.169, p.321–447.

Wright, R.P. and Meyers, W.C.

1981: Organic-walled microplankton in the subsurface Ordovician of northeastern Kansas. *Kansas Geological Survey, Subsurface Geology Series*, no.4, p.1–53, pl.1–8.

Xing Yusheng

1982: Microflora of the Sinian System and Lower Cambrian near Kunming, Yunnan and its stratigraphical significance. *Acta Geologica Sinica*, v.56, no.1, p.42–49, pl.1–2. (In Chinese with English summary.)

Xu Jinli

1987: New materials of dinoflagellates from the 4th member of Shahejie Formation in Dongying Basin, Shandong Province. *Proceedings on Stratigraphy and Paleontology of Oil and Gas Bearing Areas in China*, no.1, p.144–155, pl.1–4; *The Petroleum Industry Press, Beijing, China*. (In Chinese with English summary.)

Xu Jinli and Mao Shaozhi

1989: A new understanding of the bohaidinioid dinoflagellates. *Acta Botanica Sinica*, v.31, no.3, p.215–222 and no.4, p.300–306, pl.1–3. (This paper was published in two parts.)

Xu Jinli, Pan Zhaoren, Yang Yumei, Zhu Youhua and Fan Naimin

1997: On the Paleogene microphytoplankton from the Shenli oil-bearing region, Shandong, China. 241 p., 59 pl.; *Petroleum University Press, Dongying, China*. (In Chinese with English summary.)

Xu Zhaoran and Nicolson, D.H.

1992: Don't abbreviate Chinese names. *Taxon*, v.41, p.499–504.

Yankauskas, T.V. and Posti, E.

1976: Novye vidy akritarkh kembriya Pribaltiki. *Eesti NSV Teaduste, Akadeemia Toimetised*, v.25, *Keemia, Geologia*, no.2, p.145–151, 1 pl.

Yankauskas, T.V. and Vaitekunene, G.K.

1972: Akritarkhi iz silura Pribaltiki (Silurian acritarchs from the Baltic area). *Paleontologicheskii Zhurnal*, no.2, p.113–121, pl.7.

Ye Xiaorong

1984: Microfossil assemblage from Silurian of Kumyezek at Toli NW Xinjiang and their stratigraphic significance. *Bulletin of the Xian Institute of Geology and Mineral Resources, Chinese Academy of Geological Sciences*, no.7, p.38–49, pl.1–2. (In Chinese with English summary.)

Yi Sangheon

1997: Zygnematacean zygospores and other freshwater algae from the Upper Cretaceous of the Yellow Sea Basin, southwest coast of Korea. *Cretaceous Research*, v.18, p.515–544.

Yin Leiming

1986: Acritarchs. In: Chen Junyuan, *Aspects of Cambrian-Ordovician Boundary in Dayangcha, China*, p.314–373, pl.83–98; China Prospect Publishing House, Beijing, China.

Yu Jingxian

1982: Late Jurassic to Early Cretaceous dinoflagellate assemblages of eastern Heilongjiang Province, China. *Chinese Academy of Geological Sciences, Shenyang Institute of Geology and Mineral Resources, Bulletin*, no.5, p.227–267, pl.1–8. (In Chinese with English abstract.)

1989: Dinoflagellates. *Cenozoic Paleobiota of the Continental Shelf of the East China Sea (Donghai)*, Micropaleobotanical Volume, p.112–160, 260–262, 298–307, pl.38–59; Geological Publishing House, Beijing, China.

Yu Jingxian and Zhang Wangping

1980: Upper Cretaceous dinoflagellate cysts and acritarchs of western Xinjiang. *Chinese Academy of Geological Sciences, Bulletin, Series 1*, v.2, no.1, p.93–119, pl.1–6. (In Chinese with English abstract.)

Yu Jingxian, Sun Mongrong, Sun Suying and Mao Shaozhi

1981: Dinoflagellates and acritarchs from Dalanshan Formation and their significance in explain the depositional environment. *Oil and Gas Geology*, v.2, no.3, p.254–264, pl.1. (In Chinese with English abstract.)

Yu Jingxian, Guo Zhengying and Mao Shaozhi

1983: Cretaceous palynological assemblages from the district south of the Songhua River. *Chinese Academy of Geological Sciences, Professional Papers of Stratigraphy and Palaeontology*, Geological Publishing House, Beijing, no.10, p.1–86, pl.1–30. (In Chinese with English abstract.)

Yuan Deyan and He Chengquan

1999: Two new species of dinoflagellate cysts from the Upper Cretaceous Nenjiang Formation, southern Songliao Basin, NE China. *Acta Micropalaeontologica Sinica*, v.16, no.1, p.89–94, pl.1. (In Chinese with English summary.)

Yun Hyesu

1981: Dinoflagellaten aus der Oberkreide (Santon) von Westfalen. *Palaeontographica, Abteilung B*, v.177, p.1–89, pl.1–16.

Zahiri, A.

1981: Phytoplankton of Barremian type section from Angles, south east France. *The Iranian Petroleum Institute, Bulletin*, no.83, p.1–34, pl.1–7.

Zatonskaya, S.G.

1975: Opisaniye novykh vidov peridinei iz otlozhenii verkhnei yury i nizhnego mela Shaimskogo neftenosnogo raiona. *Zapadno-Sibirskii Nauchno-Issledovatel'skii Geologorazvedochnyi Institut, Trudy*, v.101, p.31–35.

Zevenboom, D.

1995: Dinoflagellate cysts from the Mediterranean Late Oligocene and Miocene. Ph.D. Thesis, University of Utrecht, 221 p., 9 pl.; Cip-Gegevens Koninklijke Bibliotheek, Den Haag, The Netherlands.

Zhang Lujin

1984: Late Triassic spores and pollen from central Sichuan. *Palaeontologica Sinica*, "whole" no.167, New Series A, no.8, p.14–100, pl.1–27; Science Press, Beijing, China. (In Chinese with English summary.)

Zhao Chuanben and Qiao Xiuyun

1993: Discovery of the Muling Formation and its palynomorph assemblages in Ning'an Basin. *Acta Micropalaeontologica Sinica*, v.10, no.4, p.447–458. (In Chinese with English summary.)

Zhao Yunyun and Morzadec-Kerfourn, M.-T.

1994: Nouveaux kystes de dinoflagellés: *Spiniferites pacificus* nov. sp. et *Pentadinium netangei* nov. sp. de Pléistocène du nord-ouest Pacifique. *Geobios*, v.27, no.3, p.261–269, pl.1–2.

Zheng Yahui and He Chengquan

1984: Palynology of the Upper Cretaceous Taizhou Formation in Well Qin-30, northern Jiangsu. *Nanjing Institute of Geology and Palaeontology, Academia Sinica, Bulletin*, v.8, p.55–117, pl.1–11. (In Chinese with English abstract.)

Zhou Heyi

1985: Middle Oligocene dinoflagellates and acritarchs from the first member of the Shahejie Formation in the Dongying depression of northern Shandong and their paleogeographical significance. *Proceedings of the First National Conference on Fossil Algae*, p.1–11; pl.1; Geological Publishing House, Beijing, China. (In Chinese with English summary.)

Zhu Zunghao, Wu Liyu, Xi Ping, Song Zhichen and Zhang Yiyong

1985: A research on Tertiary palynology from the Qaidam Basin, Qinghai Province. p.1–297, pl.1–62; Research Institute of Exploration and Development, Qinghai Petroleum Administration, Nanjing Institute of Geology and Palaeontology, Academia Sinica, Nanjing, China. (In Chinese with English summary.)

Ziaja, J.

1989: Dinoflagellate cysts from Grodziszczce Beds (Hauterivian-Lower Barremian?) of Lipnik near Bielsko, western Carpathians. *Cysty bruzdnic z warstw grodziskich (hoteryw-dolny barrem?) z Lipnika kolo Bielska w zachodnich Karpatach. Acta Palaeobotanica*, v.29, no.1, p.213–218, pl.1.

Zippi, P.

1998: Freshwater algae from the Mattagami Formation (Albian), Ontario: paleoecology, botanical affinities, and systematic taxonomy. *Micropaleontology*, v.44, supplement 1, 78 p., 31 pl.

Žitt, J., Nekvasilová, O., Bosák, P., Svobodová, M., Stembroková-Jírová, D. and Šastný, M.

1997: Rocky coast facies of the Cenomanian-Turonian Boundary interval at Velim (Bohemian Cretaceous Basin, Czech Republic). Second part. *Věstník Českého Geologického Ústavu*, v.72, no.2, p.141–155, pl.1–5.

Zonneveld, K.A.F.

1997: New species of organic-walled dinoflagellate cysts from modern sediments of the Arabian Sea (Indian Ocean). *Review of Palaeobotany and Palynology*, v.97, p.319–337; pl.1–4.

Zonneveld, K.A.F. and Jurkschat, T.

1999: *Bitectatodinium spongium* (Zonneveld, 1997) Zonneveld et Jurkschat, comb. nov. from modern sediments and sediment trap samples of the Arabian Sea (northwestern Indian Ocean): taxonomy and ecological affinity. *Review of Palaeobotany and Palynology*, v.106, p.153–169.

Zotto, M., Drugg, W.S. and Habib, D.

1987: Kimmeridgian dinoflagellate stratigraphy in the southwestern North Atlantic. *Micropaleontology*, v.33, p.193–213, pl.1–6.

Zügel, P.

1994: Verbreitung kalkiger Dinoflagellaten-Zysten im Cenoman/Turon von Westfrankreich und Norddeutschland. *Courier Forschungsinstitut Senckenberg*, v.176, p.1–161, pl.1–20.
