22 INTERNATIONAL PASSIVE HOUSE CONFERENCE 2018

and Exhibition

MOC | Munich 09 – 10 March 2018

Workshops & Excursions 05 – 11 March 2018

Landeshauptstadt München Referat für Gesundheit und Umwelt

Bayerisches Staatsministerium für Wirtschaft und Medien, Energie und Technologie

Chairman of the board,

in Frankfurt am Main"

ABG FRANKFURT HOLDING

"Over 15 years of economic success with Passive Houses

09:00 - 09:45am Welcome

Ilse Aigner Bavarian State Minister for Economic Affairs and Media, Energy and Technology

© Christian Brecheis

Stephanie Jacobs Head of Health and Environment, City of Munich

© Eleana Hegerich

Christine Degenhart President of the Bavarian Chamber of Architects

Michael Kordon 1st Vice President of the Bavarian Chamber of Construction Engineers

© Birgit Gleixner

Dieter Vierlbeck Deputy Managing Director of the Chamber of Crafts for Munich and Upper Bavaria

09:45 - 10:15am Frank Junker

© Ulrike Deuscher

10:15 - 11:00am Wolfgang Feist

Founder of the Passive House Institute and Professor at the University of Innsbruck "Passive House for affordable housing construction"

© Peter Cook

11:00 - 11:10am	Awards Ceremony Component Award for cost-effective home ventilation
11:15am - 12:30pm	Guided tours of the exhibition
12:00 - 1:00pm	Lunch break
1:00 - 3:30pm	Sessions 1 - 4
3:30 - 4:00pm	Coffee break
4:00 - 6:30pm	Sessions 5 - 8
6:30pm	End of the event

Passive House Networking Party 7.30 pm in the exhibition hall

PROGRAMME FRIDAY | 9 MARCH 2018

AFTERNOON

Ses	ssion 1: Passive House in Bavaria, Hall 2 (Level 0)	Sessio	n 3: Projects in North America, Room D 111 (Level 1)
1:00 pm	Karin Reich	1:00 pm	Stas Zakrzewski
	Passive House buildings in the Bavarian State Administration		The importance of embodied energy in today's Passive House projects: A New York case study
1:25 pm	Josef Hochhuber	1:25 pm	A. Arifuzzaman, D. Byrne
	The Bavarian 10,000-houses-programme – promoting efficient and system-relevant buildings		750 bed student residence with high occupancy load, is the cost of Passive House worth it?
1:50 pm	G. Vallentin, R. Vallentin	1:50 pm	Brandon Nicholson
	Passive House development in Munich and Bavaria		Passive House proof in Pittsburgh: profit + Paris progress
2:15 pm	Alexander Kirschbaum	2:15 pm	M. Studer, L. Picciano
	Monitoring and operational optimisation of a new Passive House school building		New market rate projects for the fast growing region of Vancouver
2:40 pm	F. Lang, J. Klaffke	2:40 pm	P: McMath, Northern most certified PH in North America – A learning demonstration project P: Wall/Wimmers, A comparative LCA of the
<u>.</u>	The sustainable city of the future		wood innovation research lab: an industrial PH for cold climates P: Fahssi, Calgary, carbon, and components: opportunities for PH in "C-Town" P: Moorhead, Buck Moorhead Architect: designing PH on the sly
3:05 pm	Franz Freundorfer	3:05 pm	P: Paulsen, Clearing the air: Is flow rate a sufficient measure of kitchen
	Passive House through cooperation in regional networks – it's worth it!		range hood efficacy? P: Zouari, Feasibility assessment of PH in the far Canadian North P: Peel, Primary Energy considerations in a large mixed-use student dorm P: Buffone, HANAC Corona: a case study of PH in multifamily affordable housing
Session	2: Components / Building services, Room K 1 (Level 0)	Session 4	Politics, Networks and Trainings, Room C 112 (Level 1)
1:00 pm	Dietmar Siegele	1:00 pm	Shane Colclough
	Simulation study on the use of enthalpy transducers in cold climates		The Passive House Standard – a key enabler
1:25 pm	Jörg Wollnow	1:25 pm	Birgit Knoch
	Hygrothermal safety reserves thanks to hygrobrid technology for old and new buildings		Luxembourg – not just banks
1:50 pm	Solitair Kluth	1:50 pm	Maarja Meitern
	Fiberglass composite as an innovative building material in the building envelope		How is energy efficiency connected to value in European markets?
2:15 pm	Rainer Pfluger	2:15 pm	Dieter Herz
	Replicable cost-effective solutions for Passive House multi-storey apartment buildings, Campagne-Areal Innsbruck		Implementing and securing Passive House requirements in public construction
2:40 pm	Martin Sambale	2:40 pm	Nick Grant
	Avoiding mistakes through the certification of Passive House buildings	3:05 pm	Passivhaus for the many not the few P: Jedliczka "Educate yourself and influence others through what you
3:05 pm	Michael Stegemann	•	are" Wilhelm von Humboldt P: Feirer, PH is child's play – knowledge transfer for the builders of tomorrow P: Tzanev, The building knowledge
	Thermal optimisation of anchoring elements, here:		hubs: successfully running PH trainings in Southeastern Europe P: McKenzie Without a certificate it is just a passive house Or is it?

P: Reichmann, "Walking Forest": PH with integrated artwork

P: Short presentation (Poster)

Simultaneous translation into English

Session 2	2: Components / Building services, Room K 1 (Level 0)
1:00 pm	Dietmar Siegele
	Simulation study on the use of enthalpy transducers in cold climates
1:25 pm	Jörg Wollnow
	Hygrothermal safety reserves thanks to hygrobrid technology for old and new buildings
1:50 pm	Solitair Kluth
	Fiberglass composite as an innovative building material in the building envelope
2:15 pm	Rainer Pfluger
	Replicable cost-effective solutions for Passive House multi-storey apartment buildings, Campagne-Areal Innsbruck
2:40 pm	Martin Sambale
	Avoiding mistakes through the certification of Passive House buildings
3:05 pm	Michael Stegemann
	Thermal optimisation of anchoring elements, here: masonry bracket P: Materne, Market overview battery storage – capabilities and distinctive features P: Schuller, Eco-efficiency analysis of heating and storage systems for households

PROGRAMME FRIDAY | 9 MARCH 2018

Session 5: Cost-effectiveness / Economics in residential buildings,

Hall 2 (Lev	vel 0)		
4:00 pm	Mario Bodem	4:00 pm	Amarante Barambio Buisan
	Cost reduction through the Passive House Standard –		Premium, ecological and autarc. A house in Mallorca
	further optimisation approaches	4:25 pm	Francesco Nesi
4:25 pm	Gerrit Horn		A systematic LCC analysis for the Mediterranean: the
	True component costs	4.50	emblematic case of Italy
		4:50 pm	Stefan Pallantzas
4:50 pm	Engelbert Spiß		Can a single minisplit heat and cool a 100m ² Passive House?
	Showcase project: The first five-Euro Passive House Standard residential building in Tyrol	5:15 pm	P: Oliveira, Innovative sustainable construction: Energy independent CLT P
5:15 pm	Britta Stein		for South Europe P: Dobrevski, How to get cost-effective summer comfor P: Gavião, PH in Brazil: different solutions for different climatic conditions
<u>5.15 pili</u>	Reducing utility costs in social housing		P: Stathopoulou, Single family PH PLUS in Attica, Greece
		5:40 pm	P: Russo, Cost-effective MEP solutions for a multifamily building in Medite
5:40 pm	Andreas Nordhoff	5.40 pm	ranean climate P: Abercromby, Construction & evaluation of a complex P
	Economic supply of Passive House with heat pump		in the warm climate of Western Australia P: Pagliano, Monitoring results a zero energy PH with renewables in a Mediterranean climate P: Clarke, Boundary conditions for robust summer comfort predictions in PHPP
6:05 pm	P: Noy, Growing up in a PH – Ten years of experience and its influence on a young adult P: Costa, Integral planning enables the interdis- ciplinary optimisation of a youth recreational center P: Geyer, PH – preferably simple! P: Gstrein, Flat rate model – PH new-build with electric heating and PV system P: v. Thermann, PH of GWG Munich – Humannweg 1– Harthof	6:05 pm	P: Treberspurg, Summer comfort in PH residential buildings through component-activated reinforced concrete ceilings P: Oumaima, Ther- mal comfort in a building in function with the urban green space P: Arda, A modular approach to building purpose-oriented self-suffi- cient structures
9	Session 6: Retrofit projects, Room K 1 (Level 0)	Ses	ssion 8: Methods and Tools, Room C 112 (Level 1)
4:00 pm	Helmut Schöberl	4:00 pm	P. Cuesta, J. Calvo
	Eberlgasse Passive House retrofit in inhabited state		Passive House users and BIM. How to make the most of revit models on PHPP certifications
4:25 pm	Friedrich-Günther Rentzsch	4:25 pm	Tim Martel
	City of Lübbenau / Spreewald: Integration nursery –		Time Saving Tools for PHPP: Window Tool and
	Wichtel — in Lubbenau / Spreewald		Lifetime costing with co-benefits
4:50 pm	Clemens Le Levé	4:50 pm	Michael Crilly
	Ecological retrofit – with a new façade system		Convergence and interoperability of BIM with passive design principles
5:15 pm	Jürgen Schnieders	5:15 pm	Frank Grootenboer
	Why older buildings are not heated as much as thought — an attempt to explain		Energy Performance Guarantee Insurance for retrofits based on the PHPP calculation
5:40 pm	R. lannetti, B. Kaufmann	5:40 pm	Krisjanis Kalnciems
	Reconciling efficiency-cost-effectiveness – PH Standard – affordable apartments in Italy		The Passive House Standard as the backbone for successful PPP infrastructure projects
	Admir Music	6:05 pm	P: Hall, PVopti – Hourly-based design tool for determining personal consu- tion I P: McNamara, An investigation into the combined use of graphical
6:05 pm	Admin Music		

5:15pm Participants of the panel discussion

9:00pm Plenary

Burkhard Schulze Darup Architect "Passive House quo vadis?"

Josef Hochhuber

Bavarian Ministry of Economic Affairs and Media, Energy and Technology

Elrond Burrell VIA architecture, Passivhaus in Plain English & More, and Passive House Institute New Zealand "Love Passive House"

10:30am - 1:00pm
1:00pm - 2:15pm
2:15pm - 4:45pm
4:45pm - 5:15pm

Sessions 9 - 12 Lunch break Sessions 13 - 15 Coffee break

5:15pm Panel discussion (in German): "Passive House – it's worth it! How to effectively implement high energy efficiency at the regional level"

Wolfgang Feist University of Innsbruck and Passive House Institute

Simone Kreutzer IG Passivhus Sverige

Micheel Wassouf Energiehaus Edificios Pasivos

Franz Freundorfer Passivhauskreis Rosenheim-Traunstein

PROGRAMME SATURDAY | 10 MARCH 2018

Session 9: Cost-effective non-residential projects in operation, Hall 2 (Level 0)

10:30 am Laszlo Lepp MPREIS Passive House Supermarkets: An economic success story 10:55 am Andreas Robrecht Monitoring and operational optimisation of the Energy Plus School Schmuttertal-Gymnasium Diedorf 11:20 am Søren Peper Monitoring: Passive House police administrative building 11:45 am Rainer Moll Experiences with operational and user behavior in non-residential Passive House buildings 12:10 pm Olaf Reiter Conference Center IHD Dresden – the next generation lecture hall 12:35 pm Martin Endhardt

Office building using hybrid construction

	Session 10 Room K1 (): Supply Concepts and Renewable Energies, (Level 0)	Sessi	or
	10:30 am	Benjamin Krick	10:30 am	R
Dermar		Opportunities for electrically supplied buildings in Germany's sustainable energy transition		Pi Ce
	10:55 am	Jürgen Schnieders	10:55 am	A
IIslilli		Energy balancing at district level		N K
3	11:20 am	Rainer Vallentin	11:20 am	Je
		PER participation model with sustainability component		Pa ex
nd	11:45 am	Jessica Grove-Smith	11:45 am	В
וווטוומוופוופטטא נומוואומרוטוו		Active cooling in the context of a renewable energy supply		Ei m
	12:10 pm	R. Vallentin, M. Schröferl	12:10 pm	P:
		Energy self-sufficient Passive House building		in to se Fii
	12:35 pm	Martina Reinwald		
		Energy storage and grid regulation for highly efficient buildings – wind heating 2.0 P: Slonski, The path from Passive House to the Plus Energy House		PH PH PH ac
		P: Deimel, Plus Energy House Tuttlingerweg: Cooling in summer		п

MORNING

Session 11: Passive House in Asia, Room D 111 (Level	1)
--	----

10:30 am	Ludwig Rongen
	SAYYAS Passive House Window Factory, Harbin (Northern China)
10:55 am	Bintao Deng
	The development and mode exploration of passive ultra-low energy buildings in China
11:20 am	Mingzhe Lu
	The modernisation of existing building stock towards the PHI Passive House Standard in China
11:45 pm	Myoungju Lee
	Applying Passive House Standard techniques to the first zero energy housing complex in Nowon District, Korea
12:10 pm	Aijuan Zou
	Passive House HVAC System Design Case Study
12:35 pm	P: Rongen, Prefabricated Passive House Modular Buildings, Sunite (China) and Ulan Bator (Mongolia) P: Ring Evaluating energy consumption and comfort in Qingdao Passive House experience center P: Zhicai, The application of graphite polystyrene board in Passive House buildings in China
Sess	ion 12: Projects in Europe, Room C 112 (Level 1)
10:30 am	Rachel Mitchell
10:30 am	Rachel Mitchell Proving Passivhaus: Post occupancy evaluation of certified Passivhaus homes in the UK
10:30 am	Proving Passivhaus: Post occupancy evaluation of

EXCURSIONS | SUNDAY, 11 March 2018

Practical tips for the designer's everyday life (in GERMAN only) The balancing act between norms and energy efficiency

Friday | Room C 115/116 | 1:00pm-3:30pm

How MUST my ventilation perform – what are the efficiency potentials?

Standard recommendations vs. energy saving window installation

Building envelope: Avoid thermal bridges – optimising potentials

Airtightness: why leaks cost money

Compatibility of efficiency and building culture

Guided tour of the exhibition

Programme tip for the afternoon:

Session 5: Cost-effectiveness / economics in residential buildings, Hall 2 Session 6: Retrofit projects, Room K1

Passive House – it's worth it! Convince your clients!

Saturday | Room C 115/116 | 10:30am-1:00pm

Comfort and health – the arguments for sustainable housing

Cost drivers in the project: how can I get around these? Solutions

The Performance Gap – does it really exist?

Passive House in the funding jungle

Guided tour of the exhibition

Programme tip for the afternoon:

Session 13: Cost-effective ventilation solutions for residential construction, Hall 2 Session 14: Ecology und Passive House, Room K 1

Excursions in Munich and surroundings

On Sunday, 11 March 2018, conference participants will have the opportunity to tour Passive House buildings that are either already completed or under construction as well as component manufacturing facilities. All excursions include travel. The tour will be conducted in either English or German with an English translation. A small meal and drink will be provided.

Meeting point:

MOC | Munich | Lilienthalallee 40 | 80939 Munich

Excursion 1 | District living | 09:00am – 4:30pm

Multi-family buildings | Workshops | Local energy supply | Mobility earlier end possible: 4:00pm Hbf Munich Excursion 2 | Munich | 09:00am – 4:30pm State Parliament Building | School | Multi-storey apartment building earlier end possible: 4:00pm Hbf Munich Excursion 3 | Munich North | 09:00am – 4:30pm School | Kindergarten | Office building earlier end possible: 4:15pm Hbf Munich Excursion 4 | Augsburg | 09:00am - 5:00pm Plus Energy School | PH Prefabricated home manufacturer (wood) | Office building | Multi-family building earlier end possible: 4:15pm Hbf Augsburg Excursion 5 | Allgäu | 09:00am – 5:45pm Ventilation manufacturer | PH Premium | School with sports hall | Office building (under construction) earlier end possible: 5:30pm Hbf Munich Excursion 6 | Innsbruck | 08:00am - 7:00pm PH Prefabricated home manufacturer (wood) | Supermarket | Multi-storey apartment building | University retrofit

earlier end possible: 5:00pm Hbf Innsbruck

Please note that this programme is subject to change.

Exhibition

Passive House components provide maximum comfort with low energy costs in new builds and refurbishments alike. Whether you are looking for insulation materials, windows or ventilation systems with heat recovery – all of the leading manufacturers of Passive House components will be represented at the accompanying trade fair. Here you will find first-class advice, information materials, illustrative models, and experts happy to answer your questions.

- Date: Friday and Saturday, 09 and 10 March 2018
- Venue: MOC | Munich Lilienthalallee 40 80939 Munich | Germany
- Times: 09 March 2018, 10:00am 07:00pm 10 March 2018, 09:00am - 06:30pm

The conference and Passive House exhibition are

aimed at: architects, designers, engineers, energy consultants, energy suppliers, tradespeople, scientists and researchers, retailers, manufacturers, local authorities, property developers, students

To order an exhibitor info pack, please contact: Donna Haab | Passive House Institute

Tel.: +49 (0) 6151/826 99 89 E-mail: donna.haab@passiv.de

Exhibition area themes

- Insulation
- Windows and doors
- Ventilation systems with heat recovery, compact heat pump units, air conditioning split units, subsoil heat exchangers, stoves and heating systems, solar collectors
- Measuring devices for airtight construction and ventilation techniques, infrared cameras
- Products for ensuring airtightness
- Prefabricated buildings and building components
- Contracting businesses, trade associations, architectural and engineering firms, energy consultants, quality assurers
- Software, specialist literature, advanced training
- Renewables for Passive House buildings

Training & Networks for 21st century construction (in English) Passive House-Forum, Friday, 11:15am - 1:15pm

Experience exchange for universities, colleges, further-education centres and networks. Dedicated to the teaching and dissemination of energy efficient construction knowledge.

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 649810.

WORKSHOPS

Component Award for cost-effective home ventilation

In 2018 for the second time running, the Component Award will be awarded for ventilation solutions for residential buildings. The housing sector is once again experiencing steady growth after years of stagnation. The current Component Award will therefore concentrate on cost-effective ventilation solutions for new residential constructions.

Thursday, March 8, 2018: 9:30am - 4:30pm Dialogue Forum for Municipalities:

Energy-efficient municipal buildings: successful, costeffective implementation from the planning and construction phase to operation. (in German)

This event offers successful and practical examples for the implementation of energy-efficient municipal buildings for representatives from municipalities, cities and rural districts. With concrete tips and instructions for implementation, beginners and experts alike will get an overview of the technical and economic possibilities and developments of energy-efficient construction.

More information: www.lfu.bayern.de/veranstaltungen

Monday, March 5 & Tuesday, March 6, 2018: PHPP Basics (in German) 9:00am - 5:30pm

This 2-day workshop provides basic knowledge of the Passive House Planning Package (PHPP), the energy balancing and planning tool for efficient buildings and retrofits.

Wednesday, March 7, 2018

PHPP variant calculation (in English) 9:00am - 5:30pm

Become familiar with the use of the PHPP variant calculation! Allow your client to compare efficiency measures for various standards; check the influence of insulation thickness or other components on the energy demand; and enter retrofit stages to explain efficiency improvement of a building over 20 years.

designPH – from beginner to advanced user (in English) 9:00am - 5:30pm

We will demonstrate how a building model can easily be set up using the 3D planning tool designPH, to receive preliminary feedback on the energy performance of your sketch designs. Learn how to refine the building energy model to improve the efficiency.

Thursday, March 8, 2018: New ventilation concepts (in German) 9:00am - 1:00pm

Become familiar with new controlled ventilation concepts that provide a promising approach towards reduced investment costs: façade-integrated ventilation and decentralized solutions.

BIM based quality assurance and efficiency design (in English) 9:00am - 1:00pm

Learn how to prepare a BIM-model for IFC-export to then either import it into PHPP or into a Virtual Construction Management Platform for quality assurance of energy efficient projects.

Space is limited, registration obligatory – no fee.

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 637221.

Thursday, March 8, 2018: Economics of energy efficiency (in German) 9:00am - 1:00pm

How do you determine the economics of energy efficiency measures? In this workshop, you will learn how to make reasonable use of project cost data and how to compare options. The influence of funding programmes is also shown. The practical part deals with the input of project variants into the PHPP and the economic analysis with PHeco.

Airtightness and moisture control in different climates (in English) 9:00am - 1:00pm

This workshop will focus on the importance of airtight construction and the influences on energy consumption and moisture protection under different climatic conditions. Findings from various studies carried out by PHI on Passive House buildings in different climates will also be summarised.

Energy efficiency and renewables towards optimal solutions (in German) 9:00am - 1:00pm

The less energy a building requires, the easier it is for this energy to be provided in a sustainable way. We will show you how cost-efficient and simple solutions can be achieved – both in theory and in many built and monitored examples.

Your personal conference preparation: Passive House Basics E-Learning: www.passivhausplaner.eu

Thursday, March 8, 2018:

Energy efficient hot water systems (in English) 2:30 - 6:30pm

The energy demand for the provision of hot water plays a dominant role in the energy balance of residential Passive House buildings. This workshop presents and discusses saving potentials and planning recommendations.

Commissioning and performance optimisation (in German) 2:30 - 6:30pm

The workshop will focus on quality assurance as well as common MVHR commissioning issues and suggestions on how to tackle them. The most important findings of the 52nd session of the Research group for cost-effective Passive House buildings will be summarised.

Cooling and dehumidification (in English) 2:30 - 6:30pm

This workshop provides an overview of cooling and dehumidification strategies for Passive House buildings. After initial considerations on the reduction of cooling energy demand, the main focus will be on the energy efficient and cost-effective supply and distribution of cooling in Passive House buildings in warm climates.

Highly efficient building envelope: Comfortable, practical and economical (in German) 2:30 - 6:30pm

Thermal insulation and airtightness lead to mold, high costs and don't deliver the promised savings? The exact opposite is the case! This workshop will discuss the reasons for this, as well as practical and cost-efficient solutions and how to convince your clients.

> Passive House designer course (in German)

6 - 8 March 2018 in Munich, 14/15 March 2018 in Kempten (Bavaria) www.eza-bildung.de

1. Registration

Registrations must be either submitted online or by post. Registrations are binding and will be processed in the order in which they are received. The number of participants is limited. After registration, you will receive an invoice. The early booking discount can only be granted if the registration is made before 15 January 2018 and payment is completed by 21 January 2018. Only those who have paid the applicable fees in full will be admitted to the conference. Only cancellations in writing will be accepted. All cancellations received after 20 December 2017 will incur a \notin 70 processing fee while cancellations made as of 20 January 2018 will incur a fee equal to 50% of the total registration fee. The participation fee is to be paid in full in the case of no-show or cancellation on, or after the 10 February 2018. A substitute participant may, however, be nominated.

2. Services

The scope of services includes: the conference proceedings with all written contributions, lunch, coffee breaks and simultaneous translation into English at all German language sessions. The organisers reserve the right to make any necessary changes to the programme.

3. Cancellation, limitation of liability

In the event that the 22nd Passive House Conference or any part of the framework programme must be cancelled, the participants will be notified immediately and any participation fees already paid will be reimbursed. The liability of the organisers is limited to reimbursement of the paid participation fee only.
