IDO Sharing

DECENTRALIZED TREND

The trading trend of the Crypto market is towards Decentralization, the trading volume of DEX exchanges increases over time but is still not popular because the volume is not high, the liquidity is not large enough, and the functions are limited. Bot trading features...

WHAT IS PIGSWAP

Decentralized transactions, low fees, automated functions

We build a decentralized exchange with all the features of a centralized exchange, including automatic grid trading functions that the current DEX exchanges are not yet able to meet

ROAD MAP

MAKE MONEY WITH PIGSWAP

Grow the PIG Holders community by sharing IDO Sharing and owning the community to enjoy passive income from other ecosystem products

WHAT IS BUMPER PIG

How are the rules of the game

Each player will choose 1 pig and bet PigToken to enter the room, the pigs will compete and push the opponent into the water, the surrounding land will gradually collapse to bring the pigs closer together. The pig that stays on the shore in the end wins

Cash flow model

The BEST pig will receive 60% of everyone's bet in the room, 30% will be used to pay Affiliate, 5% will be burned, 5% operating costs

How does BumperPIG burn PIG Tokens

Each room on average will have 10 players, the minimum number of PIG bets is 1000 PIG/player, each room takes place on average 2 minutes, the goal of the project when launching is to have 1000 CCU (players at the same time). The target number of rooms is 100 consecutive rooms. Every 2 minutes, 50,000 PIG is burned, 1,500,000 PIG is burned/hour, 36,000,000 PIG/day is burned. The more people play BumperPIG, the more PIGs are burned

Opportunity **x600** to **x1000** times capital with
PIG Race

WHAT IS PIG RACE

How are the rules of the game

Each participating ticket is 10\$, after the ticketing round ends, the PIG burning contract will be activated, all players will compete to transfer 1000 PIG into the Contract, the system will rely on the PIG transfer history to arrange who Play in position on the system tree from top to bottom from left to right, the top winners will be divided 100% of everyone's ticket. Details will be announced when it's coming out

How does PIG Race burn PIG Tokens

There will be 1 race every 3 days, the goal of the project is on average each race will have at least 10,000 tickets sold, equivalent to at least 10,000,000 PIG burned every 3 days. (equivalent to 100,000,000 PIG burned every month)

PIGCHAIN

Blockchain encrypts anonymous transactions, the foundation for projects that want to build Decentralized applications

PIG is used to pay fees for Blockchain transactions

PIG TOKENOMIC

Max Supply
210,000,000,000

98% IDO Sharing and 2% listing on DEX
or CEX

50% of the revenue from products in
the ecosystem will be used to Buyback
and **Burn 99% of PIG**

WHAT IS IDO SHARING

Giving the right to sell IDO to the community

IDO Sharing is a Token sale model but the recipient is not the DEV team but the community. Previous buyers will have an Affiliate link to send to friends, when friends buy IDO, 81.25% will be returned to the upline system, 18.75% used for Add Pool and listing activities. Team dev does not collect money from selling this IDO

BENEFITS OF IDO SHARING

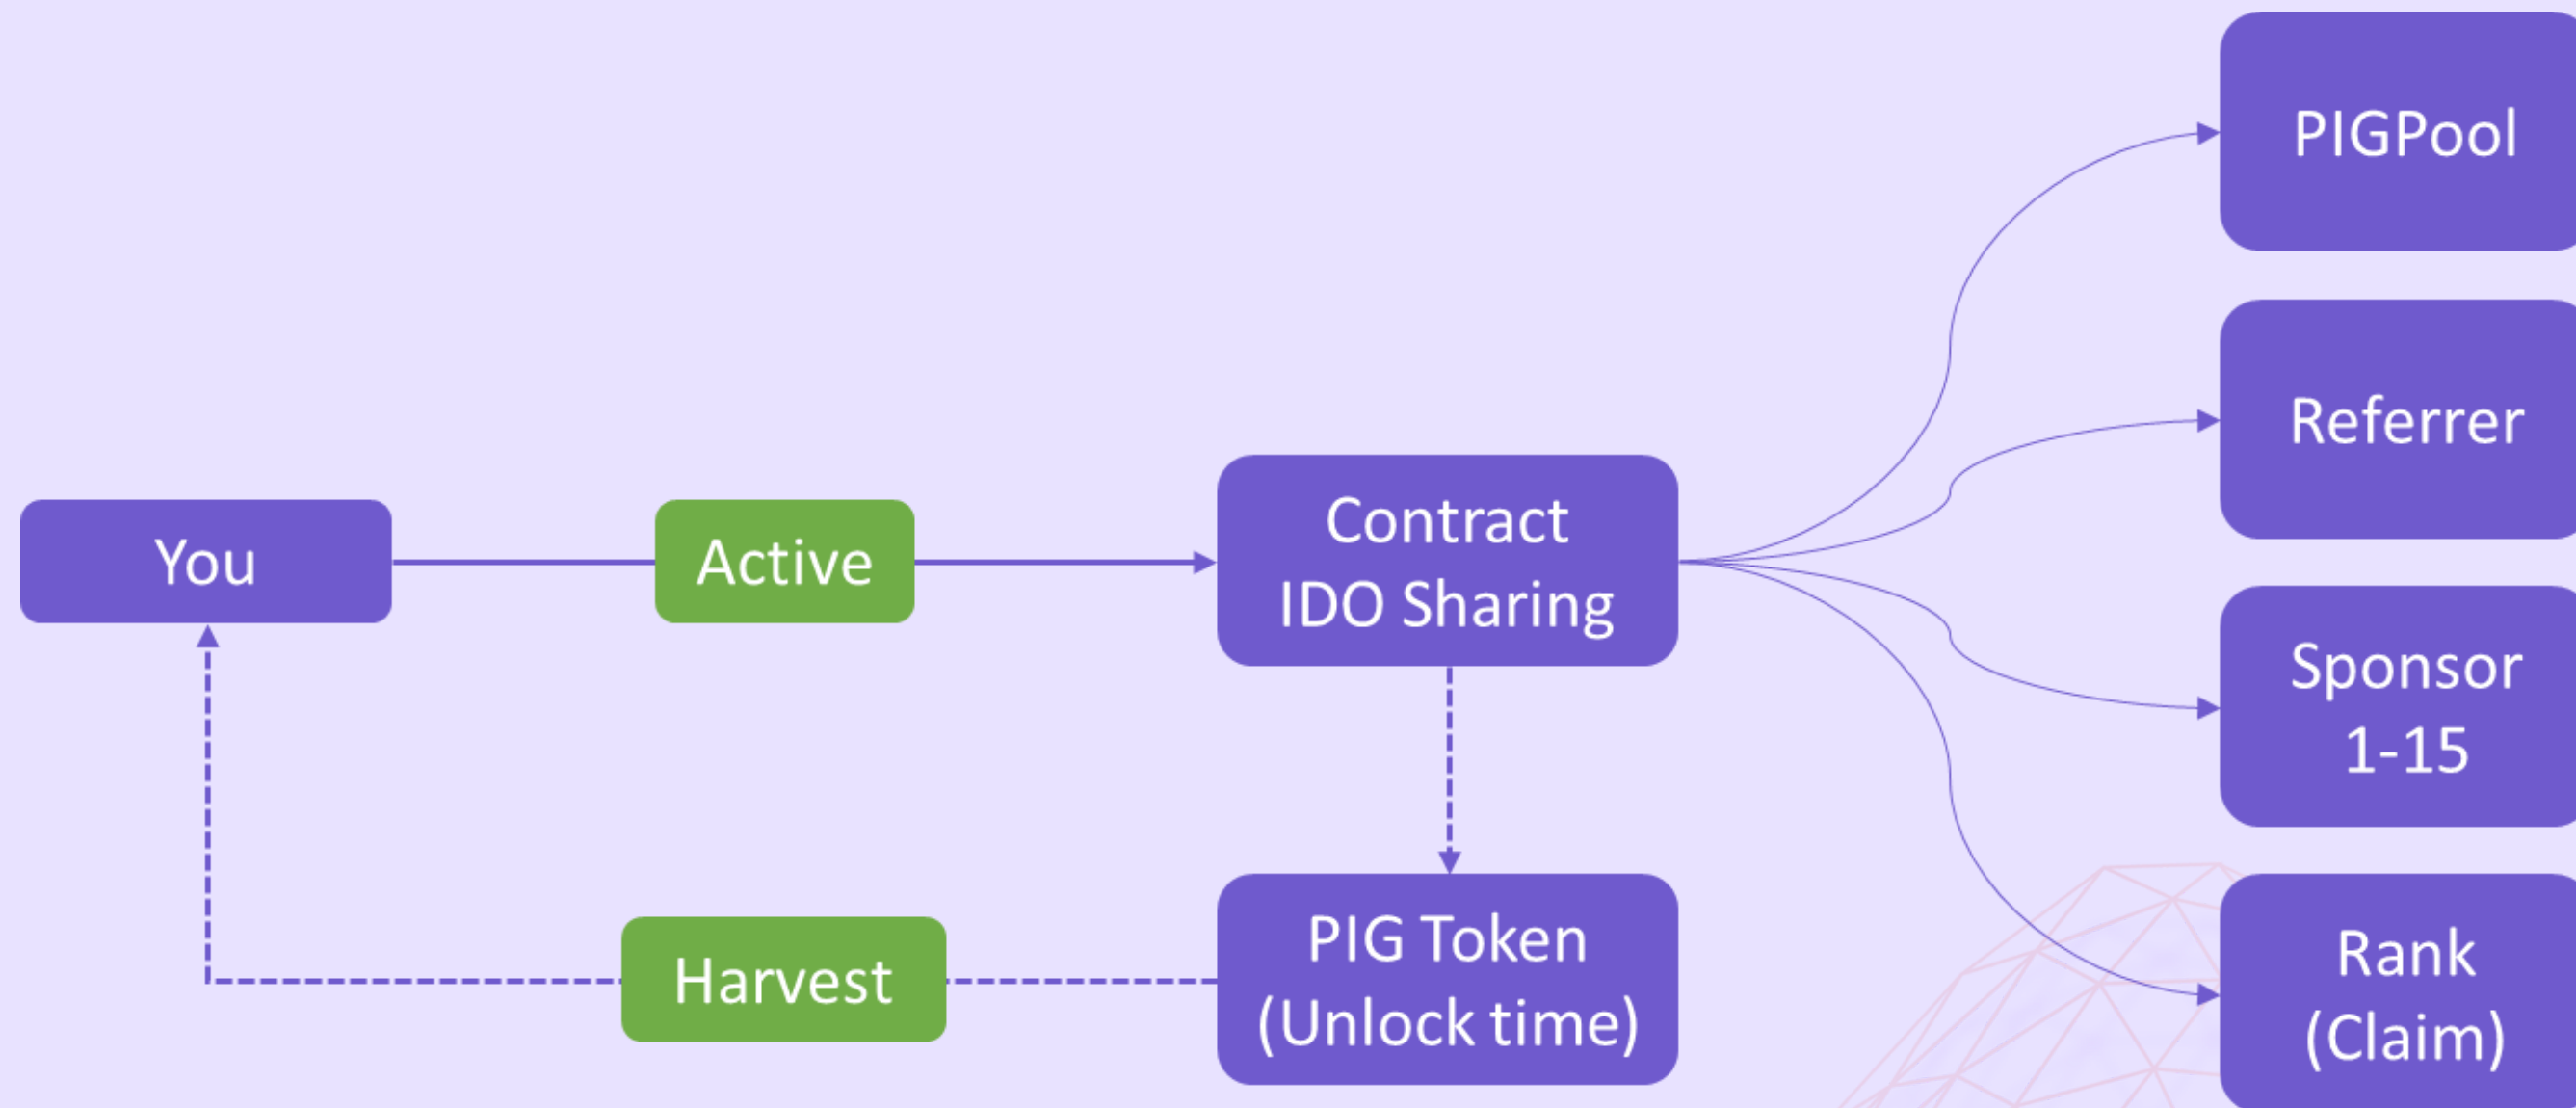

- Give the community the right to sell IDO on behalf of the project
- Help the community get more ways to make money than just wait for the coin to list and sell out
- Transparency in cash flow data
- Increase the spread to quickly get a large community
