Acrylic Bin Systems

Create the perfect display for beads, marbles, tumbled stones or other small items that take up a lot of counter space. Instead of hiding merchandise in boxes and baskets, use these all-clear acrylic bins to give visibility and let light through. We have several different sized bin systems to meet your needs. Each system is made up of two endpieces and a selection of trays. The trays all have different numbers of glued-in dividers.

To order bin systems, you need to:

1. *Choose which size system you want: Standard, Wide, Narrow, Extra-Large, or Mini. The tray size is the main difference between the systems.*
2. *Choose how many tiers of trays you want in the system. (From two – six)*
3. *Choose from the divided-tray options listed with each system to get the trays with the compartment sizes that you need.*

Standard Bins

Our standard bin system is made up of 16"-wide trays that are $2^5/_8$" high and 4" deep. The system includes the trays; choose the tray style (number of compartments) from Standard Tray options below. All systems pack unassembled for easy shipping and come with nylon thumb screws for assembly.

Easels

Miniature Slice Easels

These easels were designed to display mineral agate slices, but have been "discovered" as a way to show framed miniatures, tiles and many other small, flat items. Also good for clocks—the #36A easel is designed to accommodate a standard battery-clock motor between the upright legs. Stackable for compact shipping. These displays are sold in dozens; a discount is available for boxes of 288 pieces.

This chapter contains just some of our special mineral and fossil displays, many of which are also good for displaying seashells. Also, see the Easels Chapter for the many different styles of easels that hold everything from cabochons to agate slabs to orthoceres plates. An excellent variety of mineral and fossil stands can be found in our Egg and Spheres Chapter. Countertop Displays offers the perfect organizational displays for beads or tumbled stones. Turntables and Light Bases contains a selection of attention-getting displays for clear spheres and crystals. And for a huge variety of mounting bases, see our Display Blocks and Bases.

Gold-Plated Calipers

The sleek design of these gold-plated calipers gives them a very elegant look. They are plated over solid brass and come with rubber pads on the inside screw tips.

Display Blocks and Bases

A base is often the important finishing touch for a collectible or item of merchandise. Many companies use bases to permanently mount their products, such as minerals, fossils or seashells, or temporarily mount special items. (See the end of this chapter for adhesive and mounting tack.) A base can give a piece a finished look or call attention to its uniqueness. Rough-edged items may benefit from a base. You can create a grouping of several items on a single base and bases of various heights can create interesting arrangements.

Lighting transforms clear or translucent items into attention-getting merchandise. Glassware, crystalware, paperweights, glass or crystal figures, mineral carvings and glass spheres are just some of the things that you can highlight with one of our lighted display bases.

Small Light Boxes

Our 4"-square light box has a slightly textured plastic surface and is available with a variety of different acrylic tops. All come packaged and assembled with a 6-foot cord with an in-line switch and 7-watt bulb. The height of the box is 1¾". 110 volt.

Product No.	Description
LB1	No hole/translucent white
LB2	1¼" hole/black
LB3	1¼" hole/bronze mirror
LB4	1¼" hole/translucent white
LB5	1¼" hole/chrome mirror

All of the four-inch-square light boxes are also available with a 220-volt cord and bulb. To order, add an "E" to the product number. For example, LB2E.

All of our small light boxes come with a 7-watt bulb. If colored light is desired, just substitute your own 7-watt "Christmas tree" bulb.
