

APPENDICES FOR INFECTIONS MANUSCRIPT

Appendix 1 – MedDRA LLT Terms used for Query

Table 1 – MedDRA LLT terms under Infections and Infestations System Organ Class

| |
|------------------------------------|
| 2019 novel coronavirus infection |
| 2019-nCoV infection |
| AA amyloidosis |
| Abdominal abscess |
| Abdominal abscess NOS |
| Abdominal actinomycotic infection |
| Abdominal hernia gangrenous |
| Abdominal hernia infection |
| Abdominal hernia NOS gangrenous |
| Abdominal infection |
| Abdominal phlegmon |
| Abdominal sepsis |
| Abdominal tuberculosis |
| Abdominal wall abscess |
| Abdominal wall infection |
| Abdominal wall phlegmon |
| Abiotrophia defectiva endocarditis |
| Abortion infected |
| Abortion infective |
| ABPA |
| Abscess |
| Abscess anorectal |
| Abscess apocrine gland |
| Abscess bacterial |
| Abscess bacterial NOS |
| Abscess Bartholin's |
| Abscess breast |
| Abscess central nervous system NOS |
| Abscess dental |
| Abscess discharge |
| Abscess eye |
| Abscess fungal |
| Abscess genital organ (male) |
| Abscess gum |
| Abscess hand |
| Abscess in nose |
| Abscess injection site |
| Abscess intestinal |
| Abscess jaw |
| Abscess kidney |
| Abscess leg |
| Abscess limb |

Abscess neck
Abscess NOS
Abscess of anal and rectal regions
Abscess of Bartholin's gland
Abscess of breast associated with childbirth
Abscess of breast associated with childbirth, delivered, with mention of postpartum complication
Abscess of breast associated with childbirth, unspecified as to episode of care
Abscess of breast, antepartum
Abscess of breast, postpartum
Abscess of external auditory meatus
Abscess of external ear
Abscess of eyelid
Abscess of finger
Abscess of intestine
Abscess of liver
Abscess of lung
Abscess of lung and mediastinum
Abscess of mediastinum
Abscess of prostate
Abscess of salivary gland
Abscess of thymus
Abscess of toe
Abscess of vulva, other
Abscess on buttock
Abscess oral
Abscess paradontal
Abscess perianal
Abscess perinephric
Abscess periodontal
Abscess peritonsillar
Abscess pilonidal
Abscess rupture
Abscess soft tissue
Abscess sweat gland
Abscesses of skin
ABSSSI
Acanthameba infection
Acanthameba keratitis
Acanthamoeba infection
Acanthamoeba infection NOS
Acanthamoeba keratitis
Acariasis
Acariasis NOS
Acariasis, other
Acariasis, unspecified
Acarodermatitis
Achromobacter infection

Achromobacter xylosoxidans infection
Acid fast bacilli infection
Acinetobacter bacteraemia
Acinetobacter bacteremia
Acinetobacter infection
Acinetobacter sepsis
Acne pustular
Acoustic neuritis
Acquired immune deficiency syndr
Acquired immune deficiency syndrome
Acquired immuno deficiency syndrome
Acquired immunodeficiency syndrome
Acquired immunodeficiency syndrome NOS
Acquired immunodeficiency syndrome, unspecified
Acquired immunodeficiency syndrome-related complex, unspecified
Acquired prion disease
Acrodermatitis chronica atrophicans
Acrodermatitis papulosa infantum
Actinomycetomas
Actinomycosis
Actinomycotic abdominal infection
Actinomycotic granuloma
Actinomycotic infection of other specified sites
Actinomycotic infection of unspecified site
Actinomycotic infection, cutaneous
Actinomycotic infections
Actinomycotic liver abscess
Actinomycotic pulmonary infection
Actinomycotic sepsis
Actinomycotic skin infection
Activated PI3 kinase delta syndrome
Active tuberculosis
Acute amebic dysentery without mention of abscess
Acute amoebic dysentery without mention of abscess
Acute and subacute bacterial endocarditis
Acute and subacute endocarditis
Acute and subacute infective endocarditis in diseases classified elsewhere
Acute anterior poliomyelitis
Acute apical periodontitis
Acute apical periodontitis of pulpal origin
Acute appendicitis
Acute appendicitis with generalized peritonitis
Acute appendicitis with peritoneal abscess
Acute appendicitis without mention of peritonitis
Acute bacterial anorectal infection
Acute bacterial bronchitis
Acute bacterial diarrhea

Acute bacterial diarrhoea
Acute bacterial exacerbation of chronic bronchitis
Acute bacterial exacerbation of chronic sinusitis
Acute bacterial skin and skin structure infection
Acute bronchiolitis
Acute bronchitis
Acute bronchitis and bronchiolitis
Acute bronchopneumonia
Acute canaliculitis, lacrimal
Acute Chagas disease
Acute conjunctivitis
Acute conjunctivitis, unspecified
Acute cystitis
Acute cystitis (excl in pregnancy)
Acute dacryocystitis
Acute diverticulitis
Acute encephalitis with refractory, repetitive partial seizures
Acute endocarditis
Acute endocarditis, unspecified
Acute endophthalmitis
Acute epididymo-orchitis
Acute epiglottitis
Acute epiglottitis with obstruction
Acute epiglottitis without mention of obstruction
Acute ethmoidal sinusitis
Acute Eustachian salpingitis
Acute exacerbation of chronic bronchitis
Acute exacerbation of chronic bronchitis NOS
Acute febrile mucocutaneous lymph node syndrome (MCLS)
Acute focal bacterial nephritis
Acute follicular conjunctivitis
Acute frontal sinusitis
Acute fulminant hepatitis
Acute gastroenteritis
Acute generalis. exematous pustul
Acute generalised exanthematous pustulosis
Acute generalized exanthematous pustulosis
Acute gingivitis
Acute gonococcal cervicitis
Acute gonococcal endometritis
Acute gonococcal infection of lower genitourinary tract
Acute gonococcal infection, of upper genitourinary tract
Acute gonococcal salpingitis
Acute gonococcal urethritis
Acute haemorrhagic conjunctivitis
Acute hemorrhagic conjunctivitis
Acute hepatitis A

Acute hepatitis B
Acute hepatitis C
Acute hepatitis E
Acute histoplasmosis
Acute HIV infection
Acute HIV syndrome
Acute human immunodeficiency virus type I infection
Acute infection
Acute infection of pinna
Acute infection with HIV
Acute infective bronchitis
Acute infective pericarditis
Acute infective polyneuritis
Acute inflammatory demyelinating polyradiculoneuropathy
Acute inflammatory demyelinating polyradiculopathy
Acute kidney infection
Acute laryngitis
Acute laryngitis & tracheitis
Acute laryngitis and tracheitis
Acute laryngopharyngitis
Acute laryngotracheitis
Acute laryngotracheitis with obstruction
Acute laryngotracheitis without mention of obstruction
Acute laryngotracheobronchitis
Acute lobar nephronia
Acute localised exanthematous pustulosis
Acute localized exanthematous pustulosis
Acute lower respiratory tract infection
Acute mastitis
Acute mastoiditis
Acute mastoiditis with other complications
Acute mastoiditis without complications
Acute maxillary sinusitis
Acute meningoencephalitis
Acute miliary tuberculosis
Acute miliary tuberculosis, bacteriological or histological examination unknown (at present)
Acute miliary tuberculosis, bacteriological or histological examination not done
Acute miliary tuberculosis, confirmed by animal inoculation
Acute miliary tuberculosis, confirmed by bacterial culture
Acute miliary tuberculosis, confirmed histologically
Acute miliary tuberculosis, tubercle bacilli found (in sputum) by microscopy
Acute miliary tuberculosis, unspecified examination
Acute motor axonal neuropathy
Acute motor-sensory axonal neuropathy
Acute mucoid otitis media
Acute myringitis
Acute myringitis without mention of otitis media

Acute myringitis, unspecified
Acute nasopharyngitis
Acute nasopharyngitis (common cold)
Acute nonparalytic poliomyelitis
Acute non-paralytic poliomyelitis
Acute nonparalytic poliomyelitis, poliovirus type i
Acute non-paralytic poliomyelitis, poliovirus type I
Acute nonparalytic poliomyelitis, poliovirus type ii
Acute non-paralytic poliomyelitis, poliovirus type II
Acute nonparalytic poliomyelitis, poliovirus type iii
Acute non-paralytic poliomyelitis, poliovirus type III
Acute nonparalytic poliomyelitis, unspecified type poliovirus
Acute non-paralytic poliomyelitis, unspecified type poliovirus
Acute nonsuppurative otitis media
Acute non-suppurative otitis media
Acute nonsuppurative otitis media, unspecified
Acute non-suppurative otitis media, unspecified
Acute obstructive suppurative cholangitis
Acute on chronic bronchitis
Acute on chronic hepatitis B
Acute on chronic pyelonephritis
Acute or unspecified hepatitis C with hepatic coma
Acute or unspecified hepatitis C without mention of hepatic coma
Acute or unspecified pelvic peritonitis, female
Acute osteomyelitis
Acute osteomyelitis involving ankle and foot
Acute osteomyelitis involving forearm
Acute osteomyelitis involving hand
Acute osteomyelitis involving lower leg
Acute osteomyelitis involving multiple sites
Acute osteomyelitis involving other specified sites
Acute osteomyelitis involving pelvic region and thigh
Acute osteomyelitis involving shoulder region
Acute osteomyelitis involving upper arm
Acute osteomyelitis, site unspecified
Acute otitis externa
Acute otitis media with effusion
Acute papular onchodermatitis
Acute paralytic poliomyelitis specified as bulbar
Acute paralytic poliomyelitis specified as bulbar, poliovirus type i
Acute paralytic poliomyelitis specified as bulbar, poliovirus type ii
Acute paralytic poliomyelitis specified as bulbar, poliovirus type iii
Acute paralytic poliomyelitis specified as bulbar, unspecified type of poliovirus
Acute parametritis and pelvic cellulitis
Acute perichondritis of pinna
Acute periodontitis
Acute peritonitis

Acute petrositis
Acute pharyngitis
Acute pharyngotonsillitis
Acute pneumocystis carinii pneumonia
Acute pneumonia
Acute poliomyelitis
Acute poliomyelitis with other paralysis
Acute poliomyelitis with other paralysis, poliovirus type i
Acute poliomyelitis with other paralysis, poliovirus type ii
Acute poliomyelitis with other paralysis, poliovirus type iii
Acute poliomyelitis with other paralysis, unspecified type of poliovirus
Acute poliomyelitis, unspecified
Acute poliomyelitis, unspecified, poliovirus type i
Acute poliomyelitis, unspecified, poliovirus type ii
Acute poliomyelitis, unspecified, poliovirus type iii
Acute poliomyelitis, unspecified, poliovirus, unspecified type
Acute polysinusitis
Acute posterior ganglionitis
Acute pulmonary blastomycosis
Acute pulmonary histoplasmosis
Acute pyelitis
Acute pyelonephritis
Acute pyelonephritis and acute pyelonephrosis
Acute pyelonephritis with lesion of renal medullary necrosis
Acute pyelonephritis without lesion of renal medullary necrosis
Acute respiratory tract infection
Acute retroviral syndrome
Acute rheumatic endocarditis
Acute rheumatic heart disease, unspecified
Acute rheumatic myocarditis
Acute rheumatic pericarditis
Acute rheumatism
Acute rhinitis
Acute rhinosinusitis
Acute salpingitis
Acute salpingitis and oophoritis
Acute sanguinous otitis media
Acute serous otitis media
Acute sinusitis
Acute sinusitis, ethmoidal
Acute sinusitis, maxillary
Acute sinusitis, other
Acute sinusitis, sphenoidal
Acute sinusitis, unspecified
Acute sphenoidal sinusitis
Acute suppurative otitis media
Acute suppurative otitis media in diseases classified elsewhere

Acute suppurative otitis media with spontaneous rupture of eardrum
Acute suppurative otitis media without spontaneous rupture of eardrum
Acute swimmers' ear
Acute syphilitic meningitis (secondary)
Acute tonsillitis
Acute tonsillitis (excl proven streptococcal)
Acute tracheitis
Acute tracheitis with obstruction
Acute tracheitis without mention of obstruction
Acute tracheobronchitis
Acute traumatic osteomyelitis
Acute tuberculosis
Acute unspecified poliomyelitis
Acute upper respiratory infection of multiple or unspecified sites
Acute upper respiratory infections of multiple or unspecified sites
Acute upper respiratory infections of other multiple sites
Acute upper respiratory infections of unspecified site
Acute upper respiratory tract infection
Acute urinary tract infection
Acute vaginitis
Acute viral bronchitis NOS
Acute viral hepatitis
Acute vulvitis
Adenoiditis
Adenopathy due to secondary syphilis
Adenopathy syphilitic
Adenotonsillitis
Adenoviral conjunctivitis
Adenoviral encephalitis
Adenoviral haemorrhagic cystitis
Adenoviral hemorrhagic cystitis
Adenoviral hepatitis
Adenoviral meningitis
Adenoviral meningoencephalitis
Adenoviral upper respiratory infection
Adenovirus encephalomyeloradiculitis
Adenovirus infection
Adenovirus infection in conditions classified elsewhere and of unspecified site
Adenovirus infection NOS
Adenovirus interstitial nephritis
Adenovirus reactivation
Adhesive otitis
Administration site abscess
Administration site cellulitis
Administration site infection
Administration site joint infection
Administration site pustule

Adnexitis
Adrenal gland abscess
Adrenal gland tuberculosis
Adrenitis
Aerococcus urinae infection
Aeromonas caviae gastroenteritis
Aeromonas caviae infection
Aeromonas gastroenteritis
Aeromonas hydrophila gastroenteritis
Aeromonas hydrophila infection
Aeromonas infection
African eye worm
African trypanosomiasis
African trypanosomiasis, unspecified
AGEP
AGEP-DRESS overlap
Aggregatibacter infection
Aggregatibacter segnis infection
AIDP
AIDS
AIDS cholangiopathy
AIDS dementia
AIDS dementia complex
AIDS dysmorphic syndrome
AIDS encephalopathy
AIDS neuropathy
AIDS related complex
AIDS related complication
AIDS related complication NOS
AIDS related lymphoma
AIDS retinopathy
AIDS-associated haemorrhagic sarcoma
AIDS-associated hemorrhagic sarcoma
AIDS-dementia complex
AIDS-related dementia
Air-borne transmission
Alastrim
Alcaligenes infection
Algid malaria
Alimentary tract aleukia
Allergic bronchopulmonary aspergillosis
Allergic bronchopulmonary mycosis
Allescheriasis
Allescheriosis
Allescheriosis (Petriellidosis)
Allograft-associated haemorrhagic sarcoma
Allograft-associated hemorrhagic sarcoma

Alongshan virus infection
Alopecia syphilitic
Alpha haemolytic streptococcal infection
Alpha hemolytic streptococcal infection
Alphaviral infection
Alternaria infection
Alveolar echinococcosis
Alveolar osteitis
Alveolitis of jaw
Ameba histolytica dysentery
Amebiasis
Amebiasis NOS
Amebiasis, unspecified
Amebic brain abscess
Amebic colitis
Amebic dysentery
Amebic enteritis
Amebic infection of other sites
Amebic liver abscess
Amebic lung abscess
Amebic nondysenteric colitis
Amebic non-dysenteric colitis
Amebic skin ulceration
Ameboma
American hantavirus infection syndrome
American trypanosomiasis
Amnionitis
Amniotic cavity infection
Amniotic cavity infection NOS
Amniotic infection syndrome
Amniotic infection syndrome of Blane
Amoeba histolytica dysentery
Amoeba histolytica infection NOS
Amoebiasis
Amoebiasis NOS
Amoebiasis, unspecified
Amoebic brain abscess
Amoebic colitis
Amoebic dysentery
Amoebic enteritis
Amoebic infection of other sites
Amoebic liver abscess
Amoebic lung abscess
Amoebic nondysenteric colitis
Amoebic non-dysenteric colitis
Amoebic skin ulcer
Amoebic skin ulceration

Amoeboma
Anaerobic bacterial infection NOS
Anaerobic pyoderma NOS
Anal abscess
Anal candida
Anal candidiasis
Anal chlamydia infection
Anal fistula infection
Anal fungal infection
Anal gonococcal infection
Anal herpes
Anal infection
Anal infection NOS
Anal papillitis
Anal thrush
Anal tinea
Anal warts
Anastomotic infection
Ancylostoma caninum infection
Ancylostoma duodenale infection
Ancylostoma necator infection
Ancylostomiasis
Ancylostomiasis and necatoriasis
Ancylostomiasis and necatoriasis, unspecified
Ancylostomiasis due to ancylostoma braziliense
Ancylostomiasis due to ancylostoma ceylanicum
Ancylostomiasis due to ancylostoma duodenale
Aneurysm of aorta, specified as syphilitic
Angina gangrenous
Angina tonsillaris
Angiomatosis bacillary
Angiostrongylus infection
Angular blepharoconjunctivitis
Anicteric leptospirosis
Anisakiasis
Anogenital herpes
Anogenital warts
Anorectal abscess
Anorectal cellulitis
Anorectal human papilloma virus infection
Anorectal infection
Anorectal infection bacterial
Ano-rectal infection bacterial NOS
Ano-rectal infection NOS
Anterior nasal diphtheria
Anthrax
Anthrax sepsis

Anthrax septicaemia
Anthrax septicemia
Anthrax, unspecified
Antibiotic associated colitis
Antibiotic resistant Staphylococcus aureus infection
Antibiotic resistant strain
Antimalarial drug resistance
Anus candida
Aortic aneurysm syphilitic
Aortic valve endocarditis
Aortitis salmonella
Aortitis syphilitic
Appendiceal abscess
Appendicitis
Appendicitis perforated
Appendicitis purulent perforated
Appendicitis, unqualified
Application site abscess
Application site cellulitis
Application site folliculitis
Application site infection
Application site joint infection
Application site pustules
Arboviral infection
ARC
Arenaviral haemorrhagic fever
Arenaviral hemorrhagic fever
Argentine haemorrhagic fever
Argentine hemorrhagic fever
Arm infection
Arteriovenous fistula infection
Arteriovenous fistula site abscess
Arteriovenous fistula site cellulitis
Arteriovenous fistula site infection
Arteriovenous graft site abscess
Arteriovenous graft site cellulitis
Arteriovenous graft site infection
Arteritis infective
Arthritis bacterial
Arthritis bacterial NOS
Arthritis due to rubella
Arthritis following viral infection
Arthritis fungal
Arthritis fungal NOS
Arthritis gonococcal
Arthritis helminthic
Arthritis helminthic NOS

Arthritis infective
Arthritis infective NOS
Arthritis pyogenic
Arthritis reactive
Arthritis rubella
Arthritis salmonella
Arthritis septic
Arthritis viral
Arthritis viral NOS
Arthritis-dermatitis syndrome
Arthropathy associated with helminthiasis
Arthropathy associated with infections
Arthropathy associated with mycoses
Arthropathy associated with other bacterial diseases
Arthropathy associated with other infectious and parasitic diseases
Arthropathy associated with other viral diseases
Arthropathy associated with Reiter's disease and allied conditions
Arthropathy associated with Reiter's disease and nonspecific urethritis
Arthropathy involving ankle and foot associated with helminthiasis
Arthropathy involving ankle and foot associated with mycoses
Arthropathy involving ankle and foot associated with other bacterial disease
Arthropathy involving ankle and foot associated with other infectious and parasitic diseases
Arthropathy involving ankle and foot associated with other viral diseases
Arthropathy involving ankle and foot associated with Reiter's disease and nonspecific urethritis
Arthropathy involving forearm associated with helminthiasis
Arthropathy involving forearm associated with mycoses
Arthropathy involving forearm associated with other bacterial diseases
Arthropathy involving forearm associated with other infectious and parasitic diseases
Arthropathy involving forearm associated with other viral diseases
Arthropathy involving forearm associated with Reiter's disease and nonspecific urethritis
Arthropathy involving hand associated with helminthiasis
Arthropathy involving hand associated with mycoses
Arthropathy involving hand associated with other bacterial diseases
Arthropathy involving hand associated with other infectious and parasitic diseases
Arthropathy involving hand associated with other viral diseases
Arthropathy involving hand associated with Reiter's disease and nonspecific urethritis
Arthropathy involving lower leg associated with helminthiasis
Arthropathy involving lower leg associated with mycoses
Arthropathy involving lower leg associated with other bacterial disease
Arthropathy involving lower leg associated with other bacterial diseases
Arthropathy involving lower leg associated with other infectious and parasitic diseases
Arthropathy involving lower leg associated with other viral diseases
Arthropathy involving lower leg associated with Reiter's disease and nonspecific urethritis
Arthropathy involving multiple sites associated with helminthiasis
Arthropathy involving multiple sites associated with mycoses
Arthropathy involving multiple sites associated with other bacterial diseases
Arthropathy involving multiple sites associated with other infectious and parasitic diseases

Arthropathy involving multiple sites associated with other viral diseases
Arthropathy involving multiple sites associated with Reiter's disease and nonspecific urethritis
Arthropathy involving oth spec sites assoc with reiter's disease and nonspecific ureth
Arthropathy involving other specified sites associated with helminthiasis
Arthropathy involving other specified sites associated with mycoses
Arthropathy involving other specified sites associated with other bacterial diseases
Arthropathy involving other specified sites associated with other infectious and parasitic diseases
Arthropathy involving other specified sites associated with other viral diseases
Arthropathy involving other specified sites associated with Reiter's disease and nonspecific urethri
Arthropathy involving pelvic region and thigh assoc with reiter's disease and nonspec ureth
Arthropathy involving pelvic region and thigh associated with helminthiasis
Arthropathy involving pelvic region and thigh associated with mycoses
Arthropathy involving pelvic region and thigh associated with other bacterial diseases
Arthropathy involving pelvic region and thigh associated with other infectious and parasitic disease
Arthropathy involving pelvic region and thigh associated with other viral diseases
Arthropathy involving pelvic region and thigh associated with Reiter's disease and nonspec ureth
Arthropathy involving shoulder region associated with
Arthropathy involving shoulder region associated with helminthiasis
Arthropathy involving shoulder region associated with mycoses
Arthropathy involving shoulder region associated with other bacterial diseases
Arthropathy involving shoulder region associated with other infectious and parasitic diseases
Arthropathy involving shoulder region associated with other viral diseases
Arthropathy involving shoulder region associated with Reiter's disease and nonspecific urethritis
Arthropathy involving upper arm associated with helminthiasis
Arthropathy involving upper arm associated with mycoses
Arthropathy involving upper arm associated with other bacterial diseases
Arthropathy involving upper arm associated with other infectious and parasitic diseases
Arthropathy involving upper arm associated with other viral diseases
Arthropathy involving upper arm associated with Reiter's disease and nonspecific urethritis
Arthropathy, site unspecified, associated with helminthiasis
Arthropathy, site unspecified, associated with mycoses
Arthropathy, site unspecified, associated with other bacterial diseases
Arthropathy, site unspecified, associated with other infectious and parasitic diseases
Arthropathy, site unspecified, associated with other viral diseases
Arthropathy, site unspecified, associated with Reiter's disease and nonspecific urethritis
Arthropod infestation
Arthropod infestation NOS
Arthropod transmitted infection
Arthropod-borne disease
Arthropod-borne disease NOS
Arthropod-borne disease, unspecified
Arthropod-borne haemorrhagic fever
Arthropod-borne haemorrhagic fever, unspecified
Arthropod-borne hemorrhagic fever
Arthropod-borne hemorrhagic fever, unspecified
Arthropod-borne viral disease, unspecified
Arthropod-borne viral encephalitis

Ascariasis
Ascaris lumbricoides infection
Ascending flaccid paralysis
Ascites infection
Aseptic meningitis
Asian flu
Aspergilloma
Aspergillosis
Aspergillosis NOS
Aspergillosis oral
Aspergillosis pharyngeal
Aspergillosis recurrent
Aspergillus colonisation
Aspergillus colonization
Aspergillus flavus bronchopulmonary infection
Aspergillus flavus infection
Aspergillus fumigatus bronchopulmonary infection
Aspergillus fumigatus infection
Aspergillus infection
Aspergillus infection NOS
Aspergillus niger infection
Aspergillus terreus infection
Aspiration pneumonia
Asymptomatic bacteraemia
Asymptomatic bacteremia
Asymptomatic bacteriuria
Asymptomatic bacteriuria (excl pregnancy and neonatal)
Asymptomatic bacteriuria antepartum
Asymptomatic bacteriuria in pregnancy
Asymptomatic bacteriuria in pregnancy, unspecified as to episode of care
Asymptomatic bacteriuria in pregnancy, with delivery
Asymptomatic bacteriuria in pregnancy, with delivery, with mention of postpartum complication
Asymptomatic bacteriuria postpartum
Asymptomatic COVID-19
Asymptomatic HIV infection
Asymptomatic human immunodeficiency virus type I infection
Asymptomatic infection with HIV
Asymptomatic neurosyphilis
Asymptomatic SARS-CoV-2 infection
Asymptomatic syphilis
Asymptomatic viral hepatitis
Athlete's foot
ATLL
Atrophic gastritis
Atrophic gastritis, without mention of haemorrhage
Atrophic gastritis, without mention of hemorrhage
Atrophic pharyngitis

Atypical measles
Atypical mycobacterial infection
Atypical mycobacterial infection NOS
Atypical mycobacterial lower respiratory tract infection
Atypical mycobacterial lymphadenitis
Atypical mycobacterial pneumonia
Atypical mycobacteriosis
Atypical mycobacterium pericarditis
Atypical pneumonia
Aureobasidium pullulans infection
Auricular chondritis
Auricular perichondritis
Australian encephalitis
Autoimmune gastritis
Avian influenza
Axillary abscess
Axillary candidiasis
Axillary moniliasis
Axonal and demyelinating polyneuropathy
B. cereus emetic syndrome
Babesia
Babesiosis
Bacillary angiomatosis
Bacillary dysentery
Bacillary gastroenteritis
Bacillary peliosis hepatis
Bacillus anthracis infection
Bacillus bacteraemia
Bacillus bacteremia
Bacillus cereus gastroenteritis
Bacillus cereus infection
Bacillus circulans infection
Bacillus infection
Bacillus infection NOS
Back abscess
Bacteraemia
Bacteraemia, unspecified
Bacterascites
Bacteremia
Bacteremia, unspecified
Bacterial abdominal infection
Bacterial abscess central nervous system
Bacterial allergy
Bacterial blepharitis
Bacterial colitis
Bacterial colonisation
Bacterial colonization

Bacterial corneal ulcer
Bacterial dacryocystitis
Bacterial dermatitis
Bacterial diarrhea
Bacterial diarrhoea
Bacterial disease carrier
Bacterial endocarditis
Bacterial endophthalmitis
Bacterial enteritis, unspecified
Bacterial eye infection
Bacterial folliculitis
Bacterial food poisoning
Bacterial food poisoning NOS
Bacterial gingivitis
Bacterial growth genital asymptom
Bacterial growth genital asymptomatic
Bacterial haematological infection
Bacterial hematological infection
Bacterial infection
Bacterial infection due to *Bacillus fragilis*
Bacterial infection due to *clostridium perfringens*
Bacterial infection due to *helicobacter pylori* (*H. pylori*)
Bacterial infection due to *mycoplasma*
Bacterial infection due to other anaerobes
Bacterial infection due to other gram-negative organisms
Bacterial infection due to other specified bacteria
Bacterial infection due to other staphylococcus
Bacterial infection due to other *Streptococcus*
Bacterial infection due to *staphylococcus aureus*
Bacterial infection due to *streptococcus*, group A
Bacterial infection due to *streptococcus*, group B
Bacterial infection due to *streptococcus*, group C
Bacterial infection due to *streptococcus*, group D
Bacterial infection due to *streptococcus*, group F
Bacterial infection due to *streptococcus*, group G
Bacterial infection due to unspecified staphylococcus
Bacterial infection due to unspecified streptococcus
Bacterial infection in conditions classified elsewhere and of unspecified site
Bacterial infection NOS
Bacterial infection, unspecified, in conditions classified elsewhere and of unspecified site
Bacterial iritis
Bacterial keratoconjunctivitis
Bacterial labyrinthitis
Bacterial meningitis
Bacterial myositis
Bacterial parotitis
Bacterial pericarditis

Bacterial pneumonia, unspecified
Bacterial prostatitis
Bacterial pyelonephritis
Bacterial rash
Bacterial resistance
Bacterial rhinitis
Bacterial salpingitis
Bacterial salpingo-oophoritis
Bacterial sepsis
Bacterial toxemia
Bacterial tracheitis
Bacterial translocation
Bacterial ureteritis
Bacterial urethritis
Bacterial urosepsis
Bacterial vaginosis
Bacterial vulvovaginitis
Bacteriuria
Bacteriuria (excl in pregnancy)
Bacteriuria in pregnancy
Bacteriuria NOS
Bacteriuria NOS absent
Bacteriuria NOS present
Bacteroides bacteremia
Bacteroides bacteremia
Bacteroides infection
Bakulovirus infection
Balamuthia infection
Balanitis candida
Balanitis monilia
Balanoposthitis infective
Balantidiasis
Balantidium coli
Bancroftian filariasis
Barmah Forest virus infection
Bartholinitis
Bartholin's abscess
Bartonella henselae infection
Bartonellosis
Bazin's disease
Bazin's syndrome
BCG infection
Bed bug infestation
Bed bugs
Beef tapeworm infection
Bejel
Belly button infection

Benign lymphoreticulosis
Benign recurrent lymphocytic meningitis
Beta haemolytic streptococcal infection
Beta hemolytic streptococcal infection
Beta-lactam antibiotic resistance
Bezold abscess
Bickerstaff's brainstem encephalitis
Bickerstaff's encephalitis
Bifidobacterium infection
Bilateral bronchopneumonia
Bilateral femoral hernia with gangrene
Bilateral inguinal hernia, with gangrene
Bilateral mumps
Bilateral otitis externa
Bilateral otitis media
Bilateral otitis media (acute, non-supp)
Bilateral parotiditis
Bilateral parotitis
Bilateral pneumonia
Bilharzia infection
Biliary abscess
Biliary sepsis
Biliary tract infection
Biliary tract infection bacterial
Biliary tract infection cryptosporidial
Biliary tract infection fungal
Biliary tract infection helminthic
Biliary tract infection NOS
Biliary tract infection viral
Biloma infected
Biphasic hepatitis
Bird flu
Bisexual human immunodeficiency virus transmission
BK viraemia
BK viremia
BK virus infection
BK virus nephropathy
Black piedra
Black plague
Blackwater fever
Bladder candidiasis
Bladder diverticulitis
Bladder infection
Bladder infection NOS
Blastocystis hominis infection
Blastocystis infection
Blastomyces dermatitidis infection

Blastomyces epididymitis
Blastomyces pneumonia
Blastomyces pneumonia recurrent
Blastomycosis
Blastomycosis recurrent
Blastomycotic infection
Blebitis
Blennorrhagic arthritis
Blepharal papilloma
Blepharo conjunctivitis
Blepharoconjunctivitis
Blepharoconjunctivitis, unspecified
Blister infected
Blister of elbow, forearm, and wrist, infected
Blister of face, neck, and scalp except eye, infected
Blister of fingers, infected
Blister of foot and toe(s), infected
Blister of hand(s) except finger(s) alone, infected
Blister of hip, thigh, leg, and ankle, infected
Blister of other, multiple, and unspecified sites, infected
Blister of shoulder and upper arm, infected
Blister of trunk, infected
Blister, infected of face, neck and scalp except eye
Blister, infected of face, neck and scalp excl eye
Bloodborne infection
Bloodstream infection
Bockhart's impetigo
Body lice
Body pediculosis
Body tinea
Boil
Boil in external ear
Boil in nose
Boil in the outer ear canal
Boil of external auditory meatus
Boil on arm
Boil on buttock
Boil on face
Boil on finger
Boil on foot
Boil on genital organ (male)
Boil on hand
Boil on leg
Boil on neck
Boil on scrotum
Boil on thigh
Boil on toe

Boil vulval
Bolivian haemorrhagic fever
Bolivian hemorrhagic fever
Bone & joint tuberculosis
Bone abscess
Bone and joint lesions due to yaws
Bone infection
Bone infection NOS
Bone tuberculosis
Borderline leprosy
Borderline leprosy (group b)
Borderline mycobacterium leprae infection
Bordetella infection
Bordetella pertussis laryngotracheobronchitis
Borna disease virus infection
Borna virus infection
Bornholm disease
Borrelia burgdorferi infection
Borrelia infection
Borrelia infection NOS
Borrelia recurrentis infection
Boston exanthema
Botkin's disease
Botryomycosis
Botulism
Boutonneuse fever
Bovine pustular stomatitis
Bovine pustular stomatitis virus infection
Bovine tuberculosis
Brachyspira infection
Brachyspira pilosicoli infection
Brain abscess
Brain abscess NOS
Brain echinococcosis
Brain empyema
Branhamella catarrhalis infection
Brazilian purpuric fever
Breakthrough COVID-19
Breakthrough dengue
Breakthrough dengue fever
Breakthrough dengue fever virus infection
Breakthrough infection
Breakthrough SARS-CoV-2 infection
Breakthrough varicella
Breast abscess
Breast cellulitis
Breast discharge infected

Breast discharge infected male
Breast infection
Breast infection NOS
Brevibacterium infection
Brill Zinsser disease
Brill's disease
Brodie's abscess
Bronchial infection
Bronchial pneumonia
Bronchial superinfection
Bronchiolitis
Bronchitis
Bronchitis acute
Bronchitis acute NOS
Bronchitis acute viral
Bronchitis acute viral NOS
Bronchitis bacterial
Bronchitis bacterial NOS
Bronchitis fungal
Bronchitis fungal NOS
Bronchitis haemophilus
Bronchitis hemophilus
Bronchitis moraxella
Bronchitis mycoplasmal
Bronchitis NOS
Bronchitis pneumococcal
Bronchitis viral
Bronchitis, not specified as acute or chronic
Bronchopneumonia
Bronchopneumonia NOS
Bronchopneumonia, organism unspecified
Bronchopulmonary aspergillosis
Bronchopulmonary aspergillosis allergic
Bronchopulmonary infection
Brucella abortus
Brucella abortus infection
Brucella canis
Brucella melitensis
Brucella melitensis infection
Brucella sepsis
Brucella septicaemia

HIV infection WHO clinical stage IV
HIV infection with constitutional disease
HIV infection with neurologic disease

HIV infection with other conditions
HIV infection with other specified secondary infections
HIV infection with secondary cancers
HIV infection with specific secondary infections
HIV lipoatrophy
HIV lipodystrophy
HIV meningoencephalitis
HIV peripheral neuropathy
HIV retinopathy
HIV seroconversion illness
HIV viraemia
HIV viremia
HIV wasting syndrome
HIV with persistent generalized adenopathy
HIV-1
HIV-1 infection
HIV-2
HIV-2 infection
HIV-3
HIV-associated mild neurocognitive disorder
HIV-associated neurocognitive disorder
HIV-related dementia
Homosexual human immunodeficiency virus transmission
Hookworm infection
Hordeolum
Hordeolum and other deep inflammation of eyelid
Hordeolum externum
Hordeolum internum
Hospital acquired bacterial pneumonia
Hospital acquired infection
Hospital acquired pneumonia
Hospitalisation-associated infection
Hospitalization-associated infection
HP associated GI disease
HPV infection
HSV infection
HTLV-1 carrier
HTLV-I
HTLV-I infection
HTLV-I-associated myelopathy
Human anaplasmosis
Human bocavirus infection
Human ehrlichiosis
Human granulocytic ehrlichiosis
Human herpesvirus 6 encephalitis
Human herpesvirus 6 infection
Human herpesvirus 6 infection reactivation

Human herpesvirus 7 infection
Human herpesvirus 8 infection
Human immunodeficiency virus infection causing lymphadenopathy
Human immunodeficiency virus infection causing other disorders involving the immune mechanism
Human immunodeficiency virus infection causing other specified conditions
Human immunodeficiency virus infection causing other specified infections
Human immunodeficiency virus infection causing specified acute infections
Human immunodeficiency virus infection causing specified disease of the central nervous system
Human immunodeficiency virus infection with specified conditions
Human immunodeficiency virus infection with specified infections
Human immunodeficiency virus infection with specified malignant neoplasms
Human immunodeficiency virus infection, unspecified
Human immunodeficiency virus syndrome
Human immunodeficiency virus transmission
Human immunodeficiency virus type
Human immunodeficiency virus type I infection with constitutional disease
Human immunodeficiency virus type I infection with neurologic disease
Human immunodeficiency virus type I infection with other conditions
Human immunodeficiency virus type I infection with other specified secondary infections
Human immunodeficiency virus type I infection with persistent generalized adenopathy
Human immunodeficiency virus type I infection with secondary cancers
Human immunodeficiency virus type I infection with specific secondary infections
Human immunodeficiency virus, type 2 infection in conditions classified elsewhere and of unspec sit
Human immunodeficiency virus, type 2 infection in conditions classified elsewhere and of unspec site
Human papilloma virus colonisation
Human papilloma virus colonization
Human papilloma virus infection
Human papilloma virus infection in conditions classified elsewhere and of unspecified site
Human papillomavirus infection
Human polyomavirus infection
Human pythiosis
Human T-cell leukaemia virus III
Human T-cell leukaemia virus type I infection
Human T-cell leukaemia virus type I myelopathy
Human T-cell leukaemia virus type II infection
Human T-cell leukemia virus III
Human T-cell leukemia virus type I infection
Human T-cell leukemia virus type I myelopathy
Human T-cell leukemia virus type II infection
Human T-cell lymphocytic virus type II infection
Human T-cell lymphotropic virus, type I infection in cond class elsewhere and of unspec site
Human T-cell lymphotropic virus, type II infection in cond class elsewhere and of unspec site
Human T-cell lymphotropic virus infection
Human T-cell lymphotropic virus infection NOS
Human T-cell lymphotropic virus type I infection
Human T-cell lymphotropic virus type III infection
Hydatid cyst

Hydatid disease
Hydrocele male infected
Hymenolepiasis
Hymenolepsis infection
Hymenolepsis nana infection
Hyperacute strongyloidiasis
Hyperkeratosis due to yaws
Hyperparasitaemia
Hyperparasitemia
Hypertrophic pharyngitis
Hypopyon
Hypopyon ulcer
Iatrogenic infection
Idiopathic haemorrhagic sarcoma
Idiopathic hemorrhagic sarcoma
Ileal gangrene
Ileal infection
Ill-defined intestinal infections
Immune reconstitution inflammatory syndrome associated Kaposi's sarcoma
Immune reconstitution inflammatory syndrome associated tuberculosis
Immunological competence decreased
Impetigo
Impetigo bullosa
Impetigo contagious
Impetigo NOS
Implant infection
Implant site abscess
Implant site cellulitis
Implant site infection
Implant site pocket infection
Implant site pustules
Implantable cardiac defibrillator infection
Incision site abscess
Incision site cellulitis
Incision site infection
Incisional hernia gangrenous
Incisional hernia infection
Incisional hernia, with gangrene
Inclusion blenorrhea
Inclusion blenorrhoea
Inclusion conjunctivitis
Inclusion conjunctivitis neonatal
Increased susceptibility increased
Increased susceptibility to infections NOS
Increased tendency for infection
Indeterminate leprosy
Indeterminate leprosy (group i)

Indirect infection transmission
Induced abortion infection
Induced malaria
Induration erythema
Infantile acropustulosis
Infantile septic granulomatosis
Infantile vaginitis
Infect and parasitic cond in the mother classifiable elsewhere, but compg preg, c/birth or puerp
Infect and parasitic conds in the mother class elsewhere, but comp preg, c/birth, or the puerp
Infected abortion
Infected abortion (spontaneous)
Infected animal bite
Infected aural fistula
Infected bite
Infected bites
Infected bunion
Infected chalazion
Infected corn
Infected cyst
Infected dermal cyst
Infected ear lobe
Infected eczema
Infected epidermal cyst
Infected finger
Infected fistula
Infected gouty tophus
Infected hidradenitis
Infected hydrocele
Infected induced abortion
Infected ingrowing toe nail
Infected insect bite
Infected large intestinal ulcer
Infected lip
Infected lymphocele
Infected mastoid cavity
Infected Meibomian cyst
Infected metastasis
Infected naevus
Infected nail bed
Infected neoplasm
Infected nevus
Infected nipple
Infected rash
Infected scar
Infected sebaceous cyst
Infected seroma
Infected skin atheroma

Infected skin ulcer
Infected socket
Infected thumb
Infected toe
Infected tonsillar remnant
Infected urinoma
Infected varicose vein
Infected vasculitis
Infectible easily
Infection
Infection (chronic) of amputation stump
Infection aggravated
Infection aggravated NOS
Infection and inflammatory reaction due to cardiac device, implant and graft
Infection and inflammatory reaction due to indwelling urinary catheter
Infection and inflammatory reaction due to internal joint prosthesis
Infection and inflammatory reaction due to internal prosthetic device, implant, and graft
Infection and inflammatory reaction due to nervous system device implant, and graft
Infection and inflammatory reaction due to other genitourinary device, implant, and graft
Infection and inflammatory reaction due to other internal orthopedic device, implant, and graft
Infection and inflammatory reaction due to other internal prosthetic device, implant, and graft
Infection and inflammatory reaction due to other vascular device implant, and graft
Infection and inflammatory reaction due to unspecified device, implant, and graft
Infection *Bacillus pyocyaneus*
Infection bacterial
Infection bladder
Infection breast
Infection by dematiaceous fungi (Phaeohyphomycosis)
Infection by *Histoplasma capsulatum*
Infection by *histoplasma capsulatum*, with mention of other manifestation
Infection by *histoplasma capsulatum*, without mention of manifestation
Infection by *Histoplasma duboisii*
Infection by *histoplasma duboisii* with mention of other manifestation
Infection by *histoplasma duboisii*, without mention of manifestation
Infection fungal
Infection fungal (mycotic)
Infection histoplasmosis
Infection IGTN
Infection in an immunocompromised host
Infection in an immunocompromized host
Infection in marrow transplant recipients
Infection in patient who abuses drugs
Infection in patient with acquired immune deficiency
Infection in patient with acquired immunodeficiency syndrome
Infection in patient with AIDS
Infection in patient with congenital immune deficiency
Infection in patient with leukaemia

Infection in patient with leukemia
Infection in patient with solid tumour
Infection in patient with spinal cord injury
Infection in solid organ transplant recipients
Infection in the elderly
Infection in the neonate
Infection induced
Infection ingrowing toenail
Infection injection site
Infection localised
Infection masked
Infection masked NOS
Infection mixed
Infection MRSA
Infection mycobacterium avium
Infection mycotic
Infection NOS
Infection not responding
Infection of amniotic cavity
Infection of amniotic cavity, antepartum
Infection of amniotic cavity, delivered
Infection of amniotic cavity, unspecified as to episode of care
Infection of amputation stump
Infection of colostomy or enterostomy
Infection of gum
Infection of kidney
Infection of kidney, unspecified
Infection of nipple, postpartum
Infection of the outer ear
Infection parasitic
Infection precipitated
Infection protozoal
Infection Pseudomonas aeruginosa
Infection pyogenic
Infection pyogenic due to resistant bacteria
Infection reactivation
Infection respiratory
Infection staphylococcal
Infection superimposed
Infection susceptibility incr
Infection susceptibility increased
Infection systemic
Infection TBC
Infection transmission via personal contact
Infection tuberculosis
Infection upper respiratory
Infection urinary tract

Infection via infected/vaccinated person
Infection via vaccinated person
Infection via vaccinee
Infection viral
Infections - congenital
Infections of genitourinary tract antepartum
Infections of genitourinary tract in pregnancy
Infections of genitourinary tract in pregnancy, unspecified as to episode of care
Infections of genitourinary tract in pregnancy, with delivery
Infections of genitourinary tract in pregnancy, with delivery, with mention of postpartum complicati
Infections of genitourinary tract postpartum
Infections of kidney
Infections of nipple associated with childbirth
Infections of nipple associated with childbirth, delivered with mention of postpartum complication
Infections of nipple associated with childbirth, unspecified as to episode of care
Infections of nipple, antepartum
Infections of the breast and nipple associated with childbirth
Infections specific to the perinatal period
Infectious and parasitic diseases, unspecified
Infectious colitis
Infectious colitis, enteritis, and gastroenteritis
Infectious corneal infiltrate
Infectious crystalline keratopathy
Infectious diarrhea
Infectious diarrhea (presumed)
Infectious diarrhoea
Infectious diarrhoea (presumed)
Infectious disease carrier
Infectious disease inapparent
Infectious disease NOS carrier
Infectious endophthalmitis
Infectious hepatitis
Infectious iridocyclitis
Infectious meningitis
Infectious mononucleosis
Infectious peritonitis
Infectious pleural effusion
Infectious pneumonitis
Infectious stomatitis
Infectious thyroiditis
Infective aneurysm
Infective aortitis
Infective arthritis NOS
Infective blepharitis
Infective cervicitis
Infective chondritis
Infective corneal ulcer

Infective dermatitis of eyelid of types resulting in deformity
Infective episcleritis
Infective exacerbation of asthma
Infective exacerbation of bronchiectasis
Infective exacerbation of chronic obstructive airways disease
Infective exacerbation of COAD
Infective gastroduodenitis
Infective gastroenteritis
Infective glossitis
Infective iritis
Infective keratitis
Infective laryngitis
Infective mesenteric panniculitis
Infective myositis
Infective otitis externa
Infective otitis externa, unspecified
Infective palatitis
Infective pericardial effusion
Infective periostitis
Infective pulmonary exacerbation of cystic fibrosis
Infective rhinitis
Infective scleritis
Infective sigmoiditis
Infective spondylitis
Infective tenosynovitis
Infective thrombosis
Infective uveitis
Infective uvulitis
Infestation
Infestation NOS
Infestation, unspecified
Inflammation pelvic
Inflammatory appendiceal mass
Inflammatory disease of ovary, fallopian tube, pelvic cellular tissue, and peritoneum
Inflammatory disease of ovary, fallopian tube, pelvic cellular tissue and peritoneum
Influenza
Influenza (epidemic)
Influenza A H1N1 pneumonia
Influenza A virus infection
Influenza B virus infection
Influenza myocarditis
Influenza with other manifestations
Influenza with other respiratory manifestations
Influenza with pneumonia
Infusion site abscess
Infusion site cellulitis
Infusion site infection

Infusion site joint infection
Infusion site pustule
Inguinal abscess
Inguinal hernia gangrenous
Inguinal hernia, with gangrene
Inguinal infection
Inhalation pneumonia
Inhalational pneumonia
Initial lesions of yaws
Injection site abscess
Injection site cellulitis
Injection site infection
Injection site joint infection
Injection site pustule
Inner ear infection
Insect bite of foot and toe(s), nonvenomous, infected
Insect bite of foot and toe(s), non-venomous, infected
Insect bite of shoulder and upper arm, nonvenomous, infected
Insect bite of shoulder and upper arm, non-venomous, infected
Insect bite of trunk, nonvenomous, infected
Insect bite of trunk, non-venomous, infected
Insect bite, nonvenomous of face, neck, and scalp except eye, infected
Insect bite, nonvenomous of fingers, infected
Insect bite, non-venomous of fingers, infected
Insect bite, nonvenomous of hip, thigh, leg, and ankle, infected
Insect bite, nonvenomous of shoulder and upper arm, infected
Insect bite, nonvenomous of trunk, infected
Insect bite, nonvenomous, of elbow, forearm, and wrist, infected
Insect bite, nonvenomous, of foot and toe(s), infected
Insect bite, nonvenomous, of hand(s) except finger(s) alone, infected
Insect bite, nonvenomous, of other, multiple, and unspecified sites, infected
Instillation site abscess
Instillation site infection
Instillation site pustules
Interdigital mycosis
Intermediate lesions of pinta
Intermediate warts
Internal hordeolum
Interstitial plasma cell pneumonia
Interstitial pneumonia due to COVID-19
Intertriginous candidiasis
Intertriginous moniliasis
Intertrigo candida
Intervertebral discitis
Intestinal amebiasis
Intestinal amoebiasis
Intestinal crypt abscess

Intestinal fistula infection
Intestinal fluke
Intestinal fluke infection
Intestinal gangrene
Intestinal gangrene NOS
Intestinal gastric metaplasia
Intestinal helminthiasis, unspecified
Intestinal infection due to aerobacter aerogenes
Intestinal infection due to arizona group of paracolon bacilli
Intestinal infection due to campylobacter
Intestinal infection due to Clostridioides difficile
Intestinal infection due to clostridium difficile
Intestinal infection due to enterohaemorrhagic E. coli
Intestinal infection due to enterohemorrhagic E. coli
Intestinal infection due to enteroinvasive E. coli
Intestinal infection due to enteropathogenic E. coli
Intestinal infection due to enterotoxigenic E. coli
Intestinal infection due to Escherichia coli (E. coli)
Intestinal infection due to other anaerobes
Intestinal infection due to other gram-negative bacteria
Intestinal infection due to other intestinal E. coli infections
Intestinal infection due to other organism, not elsewhere classified
Intestinal infection due to other specified bacteria
Intestinal infection due to other specified bacteria not elsewhere classified
Intestinal infection due to proteus (mirabilis) (morganii)
Intestinal infection due to pseudomonas
Intestinal infection due to staphylococcus
Intestinal infection due to unspecified E. coli
Intestinal infection due to yersinia enterocolitica
Intestinal infections due to other organisms
Intestinal metaplasia of the gastric mucosa
Intestinal parasitism, unspecified
Intestinal schistosomiasis
Intestinal sepsis
Intestinal trichomoniasis
Intestinal tuberculosis
Intra-abdominal abscess
Intra-abdominal infection
Intracranial abscess
Intracranial and intraspinal abscess
Intracranial and intraspinal abscess of unspecified site
Intracranial infection
Intranasal fungal infection
Intra-peritoneal abscess
Intraspinal abscess
Intrauterine gas
Intrauterine infection

Intrauterine inflammation, infection, or both
Invasive bacterial infection
Invasive bronchopulmonary aspergillosis
Invasive candidiasis
Invasive gastroenteritis
Invasive mycosis
Inverting papilloma of the nasal cavity
Inverting papilloma of the paranasal sinus
IRIS associated Kaposi's sarcoma
IRIS associated TB
Irreversible pulpitis
Ischiorectal abscess
Isolated tracheal or bronchial tuberculosis
Isolated tracheal or bronchial tuberculosis, bact or hist exam unknown
Isolated tracheal or bronchial tuberculosis, bacteriological or histological examination not done
Isolated tracheal or bronchial tuberculosis, confirmed by animal inoculation
Isolated tracheal or bronchial tuberculosis, confirmed by bacterial culture
Isolated tracheal or bronchial tuberculosis, confirmed histologically
Isolated tracheal or bronchial tuberculosis, tubercle bacilli found (in sputum) by microscopy
Isolated tracheal or bronchial tuberculosis, unspecified examination
Isospora belli
Isosporiasis
Ixodiasis
Jacob-Creutzfeld disease
Jakob-Creutzfeldt disease
Jamestown Canyon encephalitis
Jamestown Canyon virus infection
Janeway lesion
Japanese B encephalitis
Japanese B viral encephalitis
Japanese B virus encephalitis
Japanese encephalitis
Japanese spotted fever
Jaundice hemologous serum-like
JC virus granule cell neuronopathy
JC virus infection
JC virus nephropathy
Jejunal gangrene
Jejunal infection
Jock itch
Joint abscess
Joint infection
Joint tuberculosis
J-pouch infection
Junin haemorrhagic fever
Junin hemorrhagic fever
Junin virus infection

Juvenile neurosyphilis
Juvenile neurosyphilis, unspecified
Kala-azar
Kaposi sarcoma herpesvirus inflammatory cytokine syndrome
Kaposi sarcoma inflammatory cytokine syndrome
Kaposi's sarcoma
Kaposi's sarcoma AIDS related
Kaposi's sarcoma epidemic type
Kaposi's sarcoma NOS
Kaposi's sarcoma, gastrointestinal sites
Kaposi's sarcoma, lung
Kaposi's sarcoma, lymph nodes
Kaposi's sarcoma, other specified sites
Kaposi's sarcoma, palate
Kaposi's sarcoma, skin
Kaposi's sarcoma, soft tissue
Kaposi's sarcoma, unspecified
Kaposi's varicelliform eruption
Katayama fever
Kawasaki's disease
Keratitis bacterial
Keratitis bacterial NOS
Keratitis fungal
Keratitis herpetic
Keratitis viral
Keratitis viral NOS
Keratoconjunctivitis measles
Keratoderma blenorrhagica
Keratoderma blenorrhagicum
Keratoiritis
Keratomycosis
Keratitis gonococcal
Keratitis palmoplantar with periodontopathy
Keratouveitis
Kerion
Kidney abscess
Kidney infection
Kidney infection acute
Kidney infection acute NOS
Kidney infection chronic
Kidney infection chronic NOS
Kidney infection NOS
Kissing disease
Klebsiella bacteraemia
Klebsiella bacteremia
Klebsiella infection
Klebsiella infection NOS

Klebsiella ornithinolytica infection
Klebsiella ornitholytica infection
Klebsiella oxytoca infection
Klebsiella pneumonia
Klebsiella pneumoniae cystitis
Klebsiella pneumoniae infection
Klebsiella pneumoniae invasive syndrome
Klebsiella pneumoniae pneumonia
Klebsiella sepsis
Klebsiella septicaemia
Klebsiella septicemia
Klebsiella urinary tract infection
Klebsiella cystitis
Klebsiella pneumonia
Koplik's spots
Korean haemorrhagic fever
Korean hemorrhagic fever
KSHV inflammatory cytokine syndrome
Kuru
Kuru agent infection
Kysanur Forest disease
Kysthitis
L. infantum
L.braziliensis
L.donovani
L.mexicana
L.tropica
Labium majus pudendi purulence
Laboratory confirmed COVID-19
Laboratory confirmed SARS-CoV-2 infection without symptoms
Labyrinthitis
Labyrinthitis (excl dizziness)
Labyrinthitis NOS
Labyrinthitis, unspecified
Lacrimal duct infection
Lacrimal gland abscess
Lacrimal sac cellulitis
LaCrosse virus infection
Lactobacillus bacteraemia
Lactobacillus bacteremia
Lactobacillus infection
Lactobacillus infection NOS
Lambliasis
Large bowel gangrene
Large intestine infection
Laryngeal cryptococcosis
Laryngeal diphtheria

Laryngeal papilloma
Laryngeal papillomatosis
Laryngitis
Laryngitis (acute)
Laryngitis acute NOS
Laryngitis bacterial
Laryngitis chronic
Laryngitis chronic NOS
Laryngitis fungal
Laryngitis NOS
Laryngitis viral
Laryngitis viral NOS
Laryngopharyngitis
Laryngopharyngitis NOS
Laryngotracheitis
Laryngotracheitis acute NOS
Laryngo-tracheitis acute NOS
Laryngotracheitis chronic NOS
Laryngotracheitis NOS
Laryngotracheitis obstructive
Laryngotracheo bronchitis
Laryngotracheobronchitis
Lassa fever
Lassa virus infection
Late congenital syphilis, latent
Late congenital syphilis, unspecified
Late effects of acute poliomyelitis
Late effects of central nervous system tuberculosis
Late effects of genitourinary tuberculosis
Late effects of intracranial abscess or pyogenic infection
Late effects of other and unspecified infectious and parasitic diseases
Late effects of other infectious and parasitic diseases
Late effects of respiratory or unspecified tuberculosis
Late effects of trachoma
Late effects of tuberculosis
Late effects of tuberculosis of bones and joints
Late effects of tuberculosis of other specified organs
Late effects of viral encephalitis
Late lesions of pinta
Late onset neonatal pneumonia
Late onset neonatal sepsis
Late postoperative wound infection
Late symptomatic syphilis, unspecified
Late syphilis, latent
Late syphilis, unspecified
Latent infection appearance of
Latent syphilis

Latent syphilis, unspecified
Latent toxoplasmosis
Latent tuberculosis
Latent yaws
LCM virus infection
Leclercia bacteraemia
Leclercia bacteremia
Left otitis externa
Left otitis media (acute, non-supp)
Leg infection
Legionella infection
Legionella infection NOS
Legionella pneumophila infection
Legionella pneumophila pneumonia
Legionella pneumonia
Legionnaire's disease
Leishmania braziliensis infection
Leishmania donovani infection
Leishmania tropica infection
Leishmaniasis
Leishmaniasis NOS
Leishmaniasis visceral (kala-azar)
Leishmaniasis, unspecified
Lemierre syndrome
Lentivirus infection
Lepromatous leprosy
Lepromatous leprosy (type I)
Leprosy
Leprosy NOS
Leprosy, unspecified
Leptospira interrogans infection mild
Leptospira interrogans infection severe
Leptospira sepsis
Leptospiral meningitis (aseptic)
Leptospirosis
Leptospirosis icterohaemorrhagica
Leptospirosis icterohemorrhagica
Leptospirosis, unspecified
Leptotrichia buccalis infection
Leptotrichia infection
Leuconostoc infection
Leukoplakia oral hairy
Lewandowsky-Lutz disease
LGV
Lice infestation
Lice NOS
Lineal gingival erythema

Lip infection
Lip papilloma
Lip pustule
Listeraemia
Listeremia
Listeria encephalitis
Listeria food poisoning
Listeria infection
Listeria monocytogenes infection
Listeria sepsis
Listeriosis
Liver abscess
Liver abscess and sequelae of chronic liver disease
Liver fluke infection
Liver transplant abscess
Loa loa infection
Lobar pneumonia
Lobar pneumonia NOS
Lobomycosis
Local infections of skin and subcutaneous tissue, other
Localised infection
Localised peritonitis
Localized infection
Localized peritonitis
Localized salmonella infection, unspecified
Localized salmonella infections
Lochia malodorous
Lochia malodourous
Lochial infection
Loiasis
Long COVID
Long COVID-19
Louping ill
Louse-borne (epidemic) typhus
Louse-borne relapsing fever
Lower resp tract infec
Lower resp. tract infection
Lower respiratory tract herpes infection
Lower respiratory tract infection
Lower respiratory tract infection bacterial
Lower respiratory tract infection fungal
Lower respiratory tract infection NOS
Lower respiratory tract infection viral
Lower urinary tract infection
Lower urinary tract infection bacterial
LRTI
Ludwig angina

Lues
Lues maligna

Lyell syndrome
Lyell's disease
Lyell's syndrome
Lyme arthritis
Lyme borreliosis
Lyme carditis
Lyme disease
Lymes disease
Lyme's disease
Lymph gland infection
Lymph node abscess
Lymph node tuberculosis
Lymph node tuberculosis NOS
Lymphadenitis bacterial
Lymphadenitis fungal
Lymphadenitis helminthic
Lymphadenitis suppurative
Lymphadenitis viral
Lymphadenopathy suppurative
Lymphangitic streak
Lymphangitis
Lymphatic filariasis
Lymphocutaneous sporotrichosis
Lymphocytic choriomeningitis
Lymphocytic choriomeningitis virus infection
Lymphocytic gastritis
Lymphocytic meningitis
Lymphogranuloma inguinale
Lymphogranuloma venereum
Lymphoma AIDS related
MAC lymphadenitis

Machupo virus infection
Macrolide antibiotic resistance
Madura foot
Maduramycosis
MAI lymphadenitis
Majocchi granuloma
Major puerperal infection
Major puerperal infection, delivered, with mention of postpartum complication
Major puerperal infection, postpartum
Major puerperal infection, unspecified as to episode of care
Malacoplakia
Malacoplakia gastrointestinal
Malacoplakia of bone
Malacoplakia vesicae
Malaria
Malaria complicating pregnancy, childbirth, or the puerperium
Malaria NOS
Malaria of mother, comp pregnancy, childbirth or the puerperium, unspec as to eoc
Malaria of mother, complicating preg, childbirth or the puerperium, unspec as to episode of care
Malaria of mother, with delivery
Malaria of mother, with delivery, with mention of postpartum complication
Malaria recrudescence
Malaria recurrent
Malaria relapse
Malaria, antepartum
Malaria, postpartum
Malaria, unspecified
Malarial myocarditis
Malassezia folliculitis
Malassezia infection
Malayan filariasis
Male genital tract tuberculosis
Male genital tract tuberculosis NOS
Malignant otitis externa
Malignant syphilis
Malta fever
Mammary gland abscess
Mammary tuberculosis
Mammitis
Mansonella ozzardi infection
Mansonella perstans infection
Mansonella streptocerca infection
Mansonellosis
Marburg disease
Marburg viral haemorrhagic fever
Marburg viral hemorrhagic fever
Marburg virus infection

Mastitis
Mastitis acute female
Mastitis bacterial
Mastitis chronic
Mastitis female
Mastitis fungal
Mastitis infective
Mastitis male
Mastitis postpartum
Mastoid abscess
Mastoid abscess NOS
Mastoid empyema
Mastoid infection
Mastoiditis
Mastoiditis and related conditions
Mastoiditis fungal
Mastoiditis NOS
Maternal pyrexia during labor, unspecified
Maternal pyrexia during labour, unspecified
Maxillary sinusitis
Maxillofacial space infection
ME
Measles
Measles keratoconjunctivitis
Measles like illness
Measles meningitis
Measles post vaccine
Measles with other specified complication
Measles with other specified complications
Measles with unspecified complication
Measles without mention of complication
Mediastinal abscess
Mediastinal infection
Mediastinitis
Medical device site abscess
Medical device site cellulitis
Medical device site infection
Medical device site joint infection
Medical device site pustule
Mediterranean fever
Mediterranean spotted fever
Meibomian cyst infected
Melenay's syndrome
Meliodosis
Melting skin graft
Meningeal tuberculosis
Meningitis

Meningitis anaerobic bacterial NOS
Meningitis aseptic

Periproctal abscess
Perirectal abscess
Perisigmoiditis
Peristomal abscess NOS
Peritoneal abscess
Peritoneal candidiasis
Peritoneal chlamydia infection
Peritoneal infection

Peritoneal tuberculosis
Peritonitis
Peritonitis bacterial
Peritonitis bacterial NOS
Peritonitis gonococcal
Peritonitis helminthic
Peritonitis in infectious diseases classified elsewhere
Peritonitis perforative
Peritonitis pneumococcal
Peritonitis suppurative
Peritonitis syphilitic
Peritonitis viral
Peritonitis, unspecified
Peritonsillar abscess
Peritonsillar abscess NOS
Peritonsillar cellulitis
Peritonsillitis
Periumbilical abscess
Periumbilical sepsis
Periungual abscess
Periungual infection
Peri-urethral abscess
Peri-urethral abscess NOS
Persistent generalised lymphadenopathy
Persistent generalised lymphadenopathy
Persistent generalized lymphadenopathy
Pertussis
Pertussis-like syndrome
Peruvian wart
Petrositis
Petrositis, unspecified
Pfeiffer's disease
Phaeohyphomycosis
Phaeohyphomycosis
Phaeohyphomycotic brain abscess
Phaeomycosis
Phaeomycotic brain abscess
Pharyngeal abscess
Pharyngeal candida albicans infection
Pharyngeal candidiasis
Pharyngeal chlamydia infection
Pharyngeal gonococcal infection
Pharyngeal mucosa atrophy
Pharyngeal pustule
Pharyngitis
Pharyngitis (excl tonsillitis)
Pharyngitis bacterial

Pharyngitis mycoplasmal
Pharyngitis NOS
Pharyngitis streptococcal
Pharyngitis ulcerative
Pharyngitis viral NOS
Pharyngoconjunctival fever
Pharyngoconjunctival fever of children
Pharyngolaryngeal abscess
Pharyngotonsillitis
Pharyngotracheitis
Phlebitis infective
Phlebitis septic
Phlebotomus fever
Phlegmon
Phlegmonous angina
Phlegmonous dacryocystitis
Phlegmonous gastritis
Phlyctenular keratoconjunctivitis
Phlyctenulosis
PHN
Photoinduced acute generalised exanthematous pustulosis
Photoinduced acute generalized exanthematous pustulosis
Photoinduced Stevens-Johnson syndrome
Phthirus pubis (pubic louse)
Phthisis
Picornavirus infection
PID
PID Pelvic inflammatory disease
PIK3CD gene mutation
Pilonidal abscess
Pilonidal cyst
Pilonidal cyst congenital
Pilonidal cyst pain
Pilonidal cyst with abscess
Pilonidal cyst without mention of abscess
Pilonidal disease
Pilonidal fistula
Pilonidal sinus
Pilonidal sinus infected
Pinkeye
Pinta
Pinta, unspecified
Pinworm infection
Pinworms
Pitted keratolysis
Pityriasis versicolor
Pityriasis versicolour

Plague
Plague haemorrhagic
Plague hemorrhagic
Plague sepsis
Plague, unspecified
Planar warts
Plantar warts
Plasmodium falciparum infection
Plasmodium falciparum recrudescence
Plasmodium infection
Plasmodium knowlesi infection
Plasmodium knowlesi recrudescence
Plasmodium malariae infection
Plasmodium malariae recrudescence
Plasmodium ovale infection
Plasmodium ovale recrudescence
Plasmodium ovale relapse
Plasmodium vivax infection
Plasmodium vivax recrudescence
Plasmodium vivax relapse
Plaut's angina
Plaut-Vincent angina
Plesiomonas shigelloides infection
Pleural infection
Pleural infection bacterial
Pleural infection NOS
Pleurisy bacterial
Pleurisy viral
Pleurisy with effusion, with mention of a bacterial cause other than tuberculosis
Pleuropneumonia
PLG
Pneumococcal acute exacerbation of chronic bronchitis
Pneumococcal bacteraemia
Pneumococcal bacteremia
Pneumococcal infection
Pneumococcal infection NOS
Pneumococcal meningitis
Pneumococcal peritonitis
Pneumococcal pneumonia
Pneumococcal pneumonia [Streptococcus pneumoniae pneumonia]
Pneumococcal secondary bacterial infection of acute bronchitis
Pneumococcal sepsis
Pneumococcal septicaemia
Pneumococcal septicemia
Pneumococcus infection in conditions classified elsewhere and of unspecified site
Pneumocystis carinii infection
Pneumocystis carinii pneumonia

Pneumocystis jiroveci infection
Pneumocystis jiroveci pneumonia
Pneumocystis jirovecii infection
Pneumocystis jirovecii pneumonia
Pneumocystis pneumonia
Pneumocystosis
Pneumocystosis recurrent
Pneumonia
Pneumonia acinetobacter
Pneumonia adenoviral
Pneumonia aerobacter
Pneumonia aggravated
Pneumonia anaerobic bacterial NOS
Pneumonia anthrax
Pneumonia aspergilla
Pneumonia aspergillus

Pneumonia bacterial
Pneumonia bacterial NOS
Pneumonia blastomyces
Pneumonia bordetella
Pneumonia chlamydial
Pneumonia congenital NOS
Pneumonia congestive
Pneumonia cryptococcal
Pneumonia cytomegaloviral
Pneumonia due to adenovirus
Pneumonia due to anaerobes
Pneumonia due to Escherichia coli (E. Coli)
Pneumonia due to Haemophilus influenzae (H. influenzae)
Pneumonia due to Hemophilus Influenzae (H. influenzae)
Pneumonia due to Klebsiella pneumoniae
Pneumonia due to mycoplasma pneumoniae
Pneumonia due to other gram-negative bacteria
Pneumonia due to other specified bacteria
Pneumonia due to other specified organism
Pneumonia due to other Streptococcus
Pneumonia due to other virus not elsewhere classified
Pneumonia due to other viruses not elsewhere classified
Pneumonia due to parainfluenza virus
Pneumonia due to pseudomonas
Pneumonia due to respiratory syncytial virus
Pneumonia due to Staphylococcus
Pneumonia due to Streptococcus
Pneumonia due to Streptococcus, group a
Pneumonia due to Streptococcus, group b
Pneumonia due to unspecified Streptococcus

Pneumonia escherichia
Pneumonia following pulmonary infarction
Pneumonia fungal
Pneumonia fungal NOS
Pneumonia gram-negative bacterial NOS
Pneumonia gram-positive bacterial
Pneumonia haemophilus
Pneumonia helminthic
Pneumonia hemophilus
Pneumonia herpes viral
Pneumonia hypostatic
Pneumonia in anthrax
Pneumonia in aspergillosis
Pneumonia in cytomegalic inclusion disease
Pneumonia in infectious diseases classified elsewhere
Pneumonia in measles
Pneumonia in ornithosis
Pneumonia in other infectious diseases classified elsewhere
Pneumonia in other systemic mycoses
Pneumonia in tularaemia
Pneumonia in tularemia
Pneumonia in whooping cough
Pneumonia influenzal
Pneumonia klebsiella
Pneumonia legionella
Pneumonia lobar
Pneumonia measles
Pneumonia moraxella
Pneumonia MRSA
Pneumonia mycoplasmal
Pneumonia necrotising
Pneumonia necrotizing
Pneumonia NOS
Pneumonia NOS congenital
Pneumonia parainfluenzae viral
Pneumonia pneumococcal
Pneumonia post measles
Pneumonia primary atypical
Pneumonia proteus
Pneumonia pseudomonal
Pneumonia Pseudomonas aeruginosa
Pneumonia recurrent
Pneumonia respiratory syncytial viral
Pneumonia salmonella
Pneumonia serratia
Pneumonia staphylococcal
Pneumonia streptococcal

Pneumonia toxoplasmal
Pneumonia tularaemia
Pneumonia tularemia
Pneumonia viral
Pneumonia viral NOS
Pneumonia, organism unspecified
Pneumonic plague
Pneumonic plague, unspecified
Pneumonic, unspecified plague
Pneumonitis cryptococcal
Pneumonitis due to toxoplasmosis
Pneumonitis pseudomonas
Pneumonitis toxoplasmal
Pneumouterus
Pogosta disease
Poisoning by fungi
Polio
Polio acute
Polioencephalitis
Polio-like paralysis
Poliomyelitis
Poliomyelitis (acute)
Poliomyelitis acute
Poliomyelitis late effects of
Poliomyelitis NOS
Poliomyelitis post vaccine
Poliomyelitis post-vaccine
Polyarthritis rheumatica acuta
Polymicrobial bacteraemia
Polymicrobial bacterascites
Polymicrobial bacteremia
Polymyxin antibiotic resistance
Polyneuropathy mumps
Polyomavirus interstitial nephritis
Polyomavirus viraemia
Polyomavirus viremia
Polyomavirus-associated nephropathy
Poly-resistant pulmonary tuberculosis
Poly-resistant tuberculosis
Polysegmental pneumonia
Poncet's disease
Pontiac fever
Pork tapeworm infection
Porphyromonas bacteraemia
Porphyromonas bacteremia
Porphyromonas gingivalis bacteraemia
Porphyromonas gingivalis bacteremia

Porphyromonas infection
Porphyromonas infection NOS
Portal pyaemia
Portal pyemia
Post abortion infection
Post abortion infection NOS
Post dysenteric arthropathy
Post gonococcal urethritis
Post herpetic neuralgia
Post herpetic trigeminal neuralgia
Post infection glomerulonephritis
Post infectious encephalitis
Post kala-azar dermal leishmaniasis
Post measles blindness
Post measles encephalitis
Post measles otitis media
Post measles pneumonia
Post polio syndrome
Post procedural cellulitis
Post procedural infection
Post procedural meningitis
Post procedural pneumonia
Post procedural sepsis
Post procedural site wound infection
Post streptococcal glomerulonephritis
Post transfusion hepatitis
Post transplant Epstein-Barr virus associated lymphoproliferative disorder
Post transplant lymphoproliferative disorder
Post treatment Lyme disease syndrome
Post vaccination autoinoculation
Post varicella encephalitis
Post viral debility
Post viral fatigue
Post viral fatigue syndrome
Post zoster pain
Post-acute COVID-19 syndrome
Post-COVID syndrome
Post-COVID-19 syndrome
Postdysenteric arthropathy
Postdysenteric arthropathy involving ankle and foot
Postdysenteric arthropathy involving forearm
Postdysenteric arthropathy involving hand
Postdysenteric arthropathy involving lower leg
Postdysenteric arthropathy involving multiple sites
Postdysenteric arthropathy involving other specified sites
Postdysenteric arthropathy involving pelvic region and thigh
Postdysenteric arthropathy involving shoulder region

Postdysenteric arthropathy involving upper arm
Postdysenteric arthropathy, site unspecified
Posterior uveitis
Postherpetic polyneuropathy
Postherpetic trigeminal neuralgia
Post-herpetic trigeminal neuralgia
Postinfectious encephalitis
Postmeasles encephalitis
Postmeasles otitis media
Postmeasles pneumonia
Postnatal mastitis
Postoperative abscess
Postoperative infection
Postoperative infection NOS
Postoperative infection, not elsewhere classified
Postoperative stitch abscess
Postoperative wound infection
Post-operative wound infection
Postpartum pyrexia
Postpartum sepsis
Post-stenotic pneumonia
Post-traumatic wound infection
Posttraumatic wound infection not elsewhere classified
Postvaricella encephalitis
Post-viral fatigue syndrome
Post-viral fatigue syndrome NOS
Pott's disease
Pouchitis infective
Pregnancy related infection
Presacral abscess
Preseptal cellulitis
Presumed ocular histoplasmosis syndrome
Primary anal syphilis
Primary atypical pneumonia
Primary coccidioidomycosis (pulmonary)
Primary extrapulmonary coccidioidomycosis
Primary HIV infection
Primary infection NOS
Primary lesions of pinta
Primary peritonitis
Primary pneumonic plague
Primary pulmonary TB
Primary pyoderma
Primary syphilis
Primary transmission
Primary tuberculous complex
Primary tuberculous complex, bacteriological or histological examination unknown (at present)

Primary tuberculous complex, bacteriological or histological examination not done
Primary tuberculous complex, confirmed by animal inoculation
Primary tuberculous complex, confirmed by bacterial culture
Primary tuberculous complex, confirmed histologically
Primary tuberculous complex, tubercle bacilli found (in sputum) by microscopy
Primary tuberculous complex, unspecified examination
Primary tuberculous infection
Primary tuberculous infection, unspecified type
Primary tuberculous infection, unspecified type, bact or hist exam unknown
Primary tuberculous infection, unspecified type, bact or hist exam not done
Primary tuberculous infection, unspecified type, confirmed by animal inoculation
Primary tuberculous infection, unspecified type, confirmed by bacterial culture
Primary tuberculous infection, unspecified type, confirmed histologically
Primary tuberculous infection, unspecified type, tubercle bacilli found (in sputum) by microscopy
Primary tuberculous infection, unspecified type, unspecified examination
Prion disease
Proctitis bacterial
Proctitis chlamydial
Proctitis fungal
Proctitis gonococcal
Proctitis herpes
Proctitis infectious
Proctitis monilial
Proctitis mycoplasma genitalium
Proctitis mycoplasmal
Proctitis viral
Progressive acute diverticulitis
Progressive massive fibrosis
Progressive multifocal leucoencephalopathy
Progressive multifocal leukoencephalopathy
Progressive outer retinal necrosis
Progressive vaccinia
Prolonged bacterial vaccine shedding
Propionibacterium infection
Prostate infection
Prostatic abscess
Prostatitis Escherichia coli
Prostatitis gonococcal
Prostatitis trichomonal
Prostatitis tuberculous
Prosthesis related infection
Prosthetic valve endocarditis
Proteus (mirabilis) (morganii) infection in conditions classified elsewhere and of unspecified site
Proteus infection
Proteus infection NOS
Prototheca wickerhamii infection
Protothecosis

Protozoal colonisation
Protozoal colonization
Protozoal corneal ulcer
Protozoal disease carrier
Protozoal infection NOS
Providencia infection
Providencia urinary tract infection
Pseudallescheria infection
Pseudallescheria infection NOS
Pseudallescheria sepsis
Pseudoaneurysm infection
Pseudocowpox
Pseudocroup
Pseudomembranous candidiasis
Pseudomembranous colitis
Pseudomembranous conjunctivitis
Pseudomembranous enterocolitis
Pseudomembranous patch
Pseudomembranous proctocolitis
Pseudomonal bacteraemia
Pseudomonal bacteremia
Pseudomonal sepsis
Pseudomonal skin infection
Pseudomonas aeruginosa infection NOS
Pseudomonas aeruginosa meningitis
Pseudomonas bronchitis
Pseudomonas colonisation
Pseudomonas colonization
Pseudomonas infection
Pseudomonas infection in conditions classified elsewhere and of unspecified site
Pseudomonas infection NOS
Pseudomonas mallei infection
Pseudomonas oryzihabitans infection
Pseudomonas peritonitis
Pseudomonas pseudomallei infection
Psittacosis
Psoas abscess
Psorospermiasis
Pubertal mastitis
Pubic abscess
Pubic lice
Pubis pediculosis
Puerperal fever
Puerperal infection
Puerperal mastitis
Puerperal metritis
Puerperal pyrexia

Puerperal pyrexia of unknown origin, delivered, with mention of postpartum complication
Puerperal pyrexia of unknown origin, postpartum
Puerperal pyrexia of unknown origin, unspecified as to episode of care
Puerperal sepsis
Pulm TB
Pulmo. tuberc. steroid-induced
Pulmonary actinomycotic infection
Pulmonary anthrax
Pulmonary aspergillosis
Pulmonary blastomycosis
Pulmonary coccidioides
Pulmonary coccidioides chronic
Pulmonary coccidioidomycosis, unspecified
Pulmonary cryptococcosis
Pulmonary diseases due to other mycobacteria
Pulmonary echinococcosis
Pulmonary empyema
Pulmonary gangrene
Pulmonary histoplasmosis
Pulmonary hydatidosis
Pulmonary mucormycosis
Pulmonary mycosis
Pulmonary nocardiosis
Pulmonary paracoccidioidomycosis
Pulmonary sepsis
Pulmonary sporotrichosis
Pulmonary suppuration
Pulmonary syphilis
Pulmonary TB
Pulmonary trichosporonosis
Pulmonary tuberculoma
Pulmonary tuberculosis
Pulmonary tuberculosis aggravated
Pulmonary tuberculosis reactivated
Pulmonary tuberculosis, unspecified
Pulmonary tularaemia
Pulmonary tularemia
Pulmonary valve endocarditis
Pulpitis
Pulpitis dental
Puncture site abscess
Puncture site cellulitis
Puncture site infection
Purple urine bag syndrome
Purulence
Purulence NOS
Purulent appendicitis

Purulent arthritis
Purulent bronchitis
Purulent conjunctivitis
Purulent discharge
Purulent endophthalmitis
Purulent endophthalmitis, unspecified
Purulent meningitis
Purulent nasal discharge
Purulent paronychia
Purulent pericarditis
Purulent pharyngitis
Purulent phlegm
Purulent rhinorrhea
Purulent rhinorrhoea
Purulent sialoadenitis
Purulent sinusitis
Purulent synovitis
Pustular acne
Pustular eczema
Pustular folliculitis
Pustular rash
Pustular skin eruption
Pustule
Pustules on hand
Putrid bronchitis
Puumala virus nephropathy
Pyaeamia
Pyelitis
Pyelitis or pyelonephritis in diseases classified elsewhere
Pyelitis, acute
Pyelocystitis
Pyelonephritis
Pyelonephritis acute
Pyelonephritis acute necrotising
Pyelonephritis acute necrotizing
Pyelonephritis acute NOS
Pyelonephritis chronic
Pyelonephritis chronic NOS
Pyelonephritis fungal
Pyelonephritis mycoplasmal
Pyelonephritis NOS
Pyelonephritis of renal graft
Pyelonephritis or pyonephrosis, not specified as acute or chronic
Pyelonephritis viral
Pyelonephritis, unspecified
Pyeloureteritis
Pyemia

Pyloric abscess
Pyoarthrosis
Pyocystitis
Pyoderma
Pyoderma (skin infection)
Pyoderma streptococcal
Pyogenic arthritis
Pyogenic arthritis hip
Pyogenic arthritis involving ankle and foot
Pyogenic arthritis involving forearm
Pyogenic arthritis involving hand
Pyogenic arthritis involving lower leg
Pyogenic arthritis involving multiple sites
Pyogenic arthritis involving other specified sites
Pyogenic arthritis involving pelvic region and thigh
Pyogenic arthritis involving shoulder region
Pyogenic arthritis involving upper arm
Pyogenic arthritis, site unspecified
Pyogenic liver abscess
Pyogenic meningitis
Pyometra
Pyometritis
Pyomyositis
Pyonephrosis
Pyonephrosis NOS
Pyoperitoneum
Pyopneumothorax
Pyorrhoea
Pyorrhoea
Pyosalpinx
Pyospermia
Pyothorax
Pyoureter
Pyrexia of unknown origin during the puerperium
Pyrexia puerperal
Pyrexial cold
Pyrogenic liver abscess
Pythium insidiosum infection
Pyuria
Q fever
Q-fever
Quartan malaria
Queensland tick typhus
Quinsy
Rabies
Rabies virus infection
Radiation site infection

Ramsay-Hunt syndrome
Raoultella ornithinolytica infection
Rash impetiginous
Rash pustular
Rash vesiculopustular
Rash vesiculo-pustular
Rat-bite fever
Rat-bite fever unspecified
Rat-bite spirillary fever
Rat-bite streptobacillary fever
RCL infection
Reaction mononucleoid
Reactivated pulmonary TB
Reactive arthritis
Reactive arthropathy
Recrudescence typhus
Rectal abscess
Rectovaginal septum abscess
Recurrent bilateral femoral hernia with gangrene
Recurrent bilateral inguinal hernia, with gangrene
Recurrent infection
Recurrent infectious peritonitis
Recurrent peritonitis
Recurrent PV thrush
Recurrent pyogenic cholangitis
Recurrent respiratory tract infections
Recurrent subareolar breast abscess
Recurrent thrush
Recurrent unilateral or unspecified femoral hernia with gangrene
Recurrent unilateral or unspecified inguinal hernia, with gangrene
Recurrent urinary tract infection
Recurrent UTI
Recurring boils
Recurring skin boils
Reiter syndrome
Reiters disease
Reiter's disease
Reiter's syndrome
Relapsing fever
Relapsing fever, louse-borne
Relapsing fever, tick-borne
Relapsing fever, unspecified
Renal abscess
Renal abscess NOS
Renal and perinephric abscess
Renal carbuncle
Renal cyst infection

Renal echinococcosis
Renal graft infection
Renal syphilis
Renal TB
Renal transplant abscess
Renal tuberculosis
Reoviral infection
Replication competent lentivirus infection
Reproductive tract procedural infection
Resistance bacterial
Resistant oral thrush
Respiratory infection
Respiratory moniliasis
Respiratory papilloma
Respiratory papillomatosis
Respiratory syncytial virus bronchiolitis
Respiratory syncytial virus bronchitis
Respiratory syncytial virus infection
Respiratory syncytial virus infection NOS
Respiratory syncytial virus infection recurrent
Respiratory syncytial virus pneumonitis
Respiratory tract chlamydial infection
Respiratory tract infection
Respiratory tract infection bacterial
Respiratory tract infection fungal
Respiratory tract infection NOS
Respiratory tract infection viral
Respiratory tract infection viral NOS
Retinal pseudomembrane
Retinitis
Retinitis central
Retinitis histoplasma
Retinitis NOS
Retinitis viral
Retroauricular cellulitis
Retroperitoneal abscess
Retroperitoneal infection
Retroperitonitis
Retropharyngeal abscess
Retro-pharyngeal abscess
Retro-pharyngeal abscess NOS
Retrosternal infection
Retroviral infection
Retroviral infection NOS
Retroviral rebound syndrome
Retrovirus infection in conditions classified elsewhere and of unspecified site
Reversible pulpitis

Reyes syndrome
Reye's syndrome
RHD
Rheumatic chorea
Rheumatic chorea with heart involvement
Rheumatic chorea without mention of heart involvement
Rheumatic diseases of endocardium, valve unspecified
Rheumatic fever
Rheumatic fever with heart involvement
Rheumatic fever with mention of heart involvement
Rheumatic fever without mention of cardiac involvement
Rheumatic fever without mention of heart involvement
Rheumatic heart disease
Rheumatic heart disease NOS
Rheumatic heart disease, other and unspecified
Rheumatic heart disease, unspecified
Rheumatic myocarditis
Rheumatic pneumonia
Rhinitis
Rhinitis (infective)
Rhinitis exacerbated
Rhinitis infective
Rhinitis NOS
Rhinitis NOS exacerbated
Rhinitis purulent
Rhinocerebral mucormycosis
Rhinoconjunctivitis
Rhinolaryngitis
Rhino-orbital-cerebral mucormycosis
Rhinopharyngitis
Rhinoscleroma
Rhinosinusitis
Rhinosporidiosis
Rhinotracheitis
Rhinovirus infection
Rhinovirus infection in conditions classified elsewhere and of unspecified site
Rhinovirus infection NOS
Rhizobium radiobacter bacteraemia
Rhizobium radiobacter bacteremia
Rhizopus infection
Rhodesian trypanosomiasis
Rhodococcus equi infection
Rhodococcus infection
Rhombencephalitis
Rickettsia akari infection
Rickettsia australis infection
Rickettsia conorii infection

Rickettsia prowazekii infection
Rickettsia rickettsii infection
Rickettsia siberica infection
Rickettsia tsutsugamushi infection
Rickettsia typhi infection
Rickettsial pox
Rickettsialpox
Rickettsioses not tick borne
Rickettsiosis
Rickettsiosis NOS
Rickettsiosis, unspecified
Rifampicin resistant pulmonary tuberculosis
Rifampicin resistant tuberculosis
Rift Valley fever
Rift Valley fever virus infection
Right middle lobe pneumonia
Right otitis externa
Right otitis media (acute, non-supp)
Ringworm NOS
Ringworm of body
Ringworm of foot
Ringworm of groin
Ringworm of nail
Ringworm of scalp
Ringworm of scrotum
Ritter's disease
Ritter's-Lyells syndrome
River blindness
Rochalimaea henselae infection
Rochalimaea infection
Rochalimaea quintana infection
Rocio virus infection
Rocky mountain spotted fever
Romana's sign
Root abscess
Root canal infection
Rose gardener's disease
Roseola
Roseola infantum
Ross river fever
Ross river virus infection
Rotaviral gastroenteritis
Rotavirus gastroenteritis
Rotavirus infection
Rothia mucilaginosa infection
Roundworm infection
Roundworm infection NOS

Royal Free disease
RSV infection
RTI
Rubella
Rubella (excl pregnancy)
Rubella complicating pregnancy, childbirth, or the puerperium
Rubella in pregnancy
Rubella infection neurological
Rubella infection neurological NOS
Rubella of mother, comp pregnancy, childbirth, or the puerperium, unspec as to eoc
Rubella of mother, complicating pregnancy, childbirth, or the puerperium, unspecified as to episode
Rubella of mother, with delivery
Rubella of mother, with delivery, with mention of postpartum complication
Rubella virus congenital infection
Rubella with neurological complications
Rubella with other neurological complications
Rubella with other specified complication
Rubella with other specified complications
Rubella with unspecified complications
Rubella with unspecified neurological complication
Rubella without mention of complication
Rubella, antepartum
Rubella, postpartum
Rubeola
Rubeola virus infection
Ruptured appendix
Russian spring-summer (taiga) encephalitis
Russian spring-summer encephalitis
S.boydii gastroenteritis
S.dysenteriae gastroenteritis
S.flexneri gastroenteritis
S.sonnei gastroenteritis
Sacral tuberculosis
Sacrococcygeal cyst
Sactosalpinx
Salivary gland abscess NOS
Salivary gland infection
Salivary gland infection (excl mumps)
Salmonella
Salmonella arthritis
Salmonella bacteraemia
Salmonella bacteremia
Salmonella enteritidis gastroenteritis
Salmonella enteritis
Salmonella enterocolitis
Salmonella gastroenteritis
Salmonella infection (other than S. typhi)

Salmonella infection NOS
Salmonella infection, unspecified
Salmonella meningitis
Salmonella osteomyelitis
Salmonella paratyphi infection
Salmonella pneumonia
Salmonella poisoning
Salmonella sepsis
Salmonella sepsis recurrent
Salmonella septicaemia
Salmonella septicemia
Salmonella typhi infection
Salmonellosis
Salpingeal tuberculosis
Salpingitis
Salpingitis acute NOS
Salpingitis and oophoritis not specified as acute, subacute, or chronic
Salpingitis chronic NOS
Salpingitis gonococcal
Salpingitis gonococcal acute
Salpingitis gonococcal chronic
Salpingitis gonococcal NOS
Salpingitis infection
Salpingitis NOS
Salpingitis tuberculous
Salpingo-oophorec abscess
Salpingo-oophoritis
San Joaquin valley fever
Sand flea disease
Sandfly fever
Sapovirus infection
Sarcocystis infection
Sarcoptes scabiei infestation
Sarcosporidiosis
SARS
SARS-CoV-1 infection
SARS-CoV-2 acute respiratory disease
SARS-CoV-2 carrier
SARS-CoV-2 Delta variant infection
SARS-CoV-2 infection
SARS-CoV-2 infection post vaccine
SARS-CoV-2 Omicron variant infection
SARS-CoV-2 pneumonia
SARS-CoV-2 reinfection
SARS-CoV-2 sepsis
SARS-CoV-2 variant infection
SARS-CoV-2 variant of concern infection

SARS-CoV-2 viraemia
SARS-CoV-2 viremia
SARS-CoV-2 VOC infection
SBE
Scabies
Scabies infestation
Scalded skin syndrome
Scalp abscess
Scalp folliculitis
Scalp tinea
Scarlatina
Scarlet fever
Scarletina

Severe fever with thrombocytopenia syndrome
Severe invasive streptococcal infection
Severe invasive Streptococcus dysgalactiae infection
Sexual transmission of infection
Sexually transmitted disease
Sexually transmitted disease carrier
Sexually transmitted disease NOS
Sexually transmitted infection
Sheeppox virus disease
Shewanella algae bacteraemia
Shewanella algae bacteremia
Shiga toxin-producing Escherichia coli infection
Shigella

Shigella boydii
Shigella boydii gastroenteritis
Shigella dysenteriae
Shigella dysenteriae gastroenteritis
Shigella flexneri
Shigella flexneri gastroenteritis
Shigella gastroenteritis
Shigella infection
Shigella sepsis
Shigella sonnei
Shigella sonnei gastroenteritis
Shigella sonnei infection
Shigellosis
Shigellosis, unspecified
Shingles
Shock septic
Shunt infection
Sialadenitis
Sialoadenitis
Sialoadenitis infection
Sialoadenitis NOS
Sigmoid diverticulitis
Silicotuberculosis
Simple chronic conjunctivitis
Sinobronchial syndrome
Sinobronchitis
Sinonasal papilloma
Sinonasal papillomatosis
Sinus infection
Sinusitis
Sinusitis acute NOS
Sinusitis aspergillus
Sinusitis bacterial
Sinusitis chronic NOS
Sinusitis fungal
Sinusitis NOS
Sinusitis recurrent
Sixth disease
SJS-TEN overlap
Skene's duct abscess
Skenitis
Skin & subcutaneous tissue absces
Skin & subcutaneous tissue abscess
Skin and subcutaneous tissue abscess NOS
Skin bacterial infection
Skin candida
Skin candida NOS

Skin fungal infection NOS
Skin graft infection
Skin infection
Skin infection aggravated
Skin infection helminthic
Skin infection NOS
Skin infection pyogenic
Skin papilloma
Skin tuberculosis
Skull base osteomyelitis
Sleeping sickness
Slow virus infection
Slow virus infection of central nervous system
Small intestinal bacterial overgrowth
Small intestinal gangrene NOS
Small intestine gangrene
Small intestine infection
Smallpox
Smallpox, unspecified
Snowshoe hare virus infection
Soft tissue infection
Soft tissue infection NOS
Southern tick-associated rash illness
Sparganosis (larval diphyllbothriasis)
Spastic bronchitis
Specific diseases due to Coxsackie virus
Specific infections by free-living amebae
Specific infections by free-living amoebae
Spermatocord funiculitis
Sphingomonas paucimobilis bacteraemia
Sphingomonas paucimobilis bacteremia
Sphingomonas paucimobilis infection
Spinal cord abscess
Spinal cord abscess NOS
Spinal cord infection
Spinal empyema
Spinal epidural empyema
Spinal infection viral
Spinal meningitis
Spinal osteomyelitis
Spinal subdural empyema
Spirillary fever
Spirochaetal infection
Spirochaete infection NOS
Spirochetal infection, other
Spirochetal infection, unspecified
Spleen tuberculosis

Splenic abscess
Splenic candidiasis
Splenic infection
Splenic infection bacterial
Splenic infection fungal
Splenic infection helminthic
Splenic infection NOS
Splenic infection viral
Spondylodiscitis
Spontaneous bacterial peritonitis
Sporadic infantile bilateral striatal necrosis
Sporothric schenckii infection
Sporothrix schenckii infection
Sporotrichosis
Sporotrichosis NOS
Spotted fevers
Sputum purulent
St. Louis encephalitis
St. Louis encephalitis virus infection
Stanton's disease
Staphylococcal abscess
Staphylococcal bacteraemia
Staphylococcal bacteremia
Staphylococcal blepharitis
Staphylococcal cellulitis
Staphylococcal colonisation
Staphylococcal colonization
Staphylococcal endocarditis
Staphylococcal eye infection
Staphylococcal food poisoning
Staphylococcal gastroenteritis
Staphylococcal impetigo
Staphylococcal infection
Staphylococcal infection NOS
Staphylococcal mediastinitis
Staphylococcal meningitis
Staphylococcal ophthalmic infection
Staphylococcal osteomyelitis
Staphylococcal parotitis
Staphylococcal pharyngitis
Staphylococcal pneumonia
Staphylococcal scalded skin syndrome
Staphylococcal sepsis
Staphylococcal septicaemia
Staphylococcal septicemia
Staphylococcal skin infection
Staphylococcal toxemia

Staphylococcal toxemia
Staphylococcal toxic shock syndrome
Staphylococcus aureus abscess
Staphylococcus aureus bacteraemia
Staphylococcus aureus bacteremia
Staphylococcus aureus cellulitis
Staphylococcus aureus endocarditis
Staphylococcus aureus gastroenteritis
Staphylococcus aureus impetigo
Staphylococcus aureus infection
Staphylococcus aureus mediastinitis
Staphylococcus aureus meningitis
Staphylococcus aureus ophthalmic infection
Staphylococcus aureus pneumonia
Staphylococcus aureus septicaemia
Staphylococcus aureus septicemia
Staphylococcus aureus skin infection
Staphylococcus aureus toxic shock syndrome
Staphylococcus epidermidis abscess
Staphylococcus epidermidis cellulitis
Staphylococcus epidermidis endocarditis
Staphylococcus epidermidis infection
Staphylococcus epidermidis meningitis
Staphylococcus epidermidis septicaemia
Staphylococcus epidermidis septicemia
Staphylococcus infection in conditions classified elsewhere and of unspecified site.
Staphylococcus lugdunensis infection
Staphylococcus pseudintermedius infection
Staphylococcus saprophyticus infection
Staphylococcus simulans infection
Staphyloderma
Stenotrophomonas bacteraemia
Stenotrophomonas bacteremia
Stenotrophomonas infection
Stenotrophomonas maltophilia infection
Stenotrophomonas maltophilia pneumonia
Stenotrophomonas sepsis
Stent related infection
Stercoral peritonitis
Sternitis
Sternoarticular pyarthrosis
Stevens Johnson reaction
Stevens Johnson syndrome
Stevens Johnson type reaction
Stevens Johnson syndrome
Stevens-Johnson syndrome
Stitch abscess

Stoma site abscess
Stoma site candida
Stoma site cellulitis
Stoma site infection
Stomach flu
Stomach virus
Stomatitis monilial
Stomatococcal infection
Stomatococcus mucilaginosus infection
Stomatomycosis
Streptobacillary fever
Streptobacillus infection
Streptobacillus infection NOS
Streptococcal abscess
Streptococcal bacteraemia
Streptococcal bacteremia
Streptococcal bronchitis
Streptococcal cellulitis
Streptococcal colonisation
Streptococcal colonization
Streptococcal endocarditis
Streptococcal impetigo
Streptococcal infection
Streptococcal infection NOS
Streptococcal meningitis
Streptococcal pharyngitis
Streptococcal pyoderma
Streptococcal sepsis
Streptococcal septicaemia
Streptococcal septicemia
Streptococcal sore throat
Streptococcal sore throat and scarlatina
Streptococcal sore throat and scarlet fever
Streptococcal tonsillitis
Streptococcal toxic shock syndrome
Streptococcal urinary tract infection
Streptococcus agalactiae infection
Streptococcus agalactiae septicaemia
Streptococcus agalactiae septicemia
Streptococcus dysgalactiae infection
Streptococcus dysgalactiae pneumonia
Streptococcus dysgalactiae sepsis
Streptococcus dysgalactiae toxic shock syndrome
Streptococcus faecalis endocarditis
Streptococcus fecalis endocarditis
Streptococcus group A sepsis
Streptococcus group B sepsis

Streptococcus group D sepsis
Streptococcus infection in conditions classified elsewhere and of unspecified site
Streptococcus mitis infection
Streptococcus pneumoniae acute exacerbation of chronic bronchitis
Streptococcus pneumoniae meningitis
Streptococcus pneumoniae pneumonia
Streptococcus pneumoniae secondary bacterial infection of acute bronchitis
Streptococcus pneumoniae septicaemia
Streptococcus pneumoniae septicemia
Streptococcus pyogenes abscess
Streptococcus pyogenes cellulitis
Streptococcus pyogenes impetigo
Streptococcus pyogenes pharyngitis
Streptococcus pyogenes septicaemia
Streptococcus pyogenes septicemia
Streptococcus pyogenes toxic shock syndrome
Streptococcus suis infection
Streptococcus viridans group infection
Streptoderma
Strongyloidiasis
Strongyloidiasis hyperinfection
Strongyloides stercoralis infection
Strongyloidiasis
Stump appendicitis
Sty
Stye
Subacute bacterial endocarditis
Subacute endocarditis
Subacute fulminant hepatitis
Subacute inflammatory demyelinating polyneuropathy
Subacute sclerosing panencephalitis
Subacute thyroiditis
Subarachnoid abscess
Subclinical infection
Subcutaneous abscess
Subcutaneous bacterial infection
Subcutaneous fungal infection
Subcutaneous infection
Subcutaneous viral infection
Subdiaphragmatic abscess
Subdural abscess
Subdural brain empyema
Subdural empyema
Subgaleal abscess
Subglottic laryngitis
Submandibular abscess
Submandibular adenitis

Submandibular sialoadenitis
Submandibular space infection
Subperiosteal abscess
Subperiosteal abscess of mastoid
Subphrenic abscess
Subungual abscess
Superficial gastritis
Superficial gastroduodenitis
Superficial postoperative wound infection
Superinfection
Superinfection bacterial
Superinfection fungal
Superinfection lung
Superinfection mycobacterial
Superinfection oral
Superinfection viral
Suppuration gum
Suppurative and unspecified otitis media
Suppurative infection
Suppurative labyrinthitis
Suppurative lymphadenopathy
Suppurative peritonitis, other
Suppurative thrombophlebitis
Supraglottitis
Suprapubic abscess
Surgical site infection
Surgical wound infection
Suspected COVID-19
Suspected COVID-19 without laboratory confirmation
Suspected SARS-CoV-2 infection
Suspected transmission of an infectious agent via a medicinal product
Suspected transmission of an infectious agent via product
Suture line infection
Sweat gland infection
Sweating fever
Swimmer's ear
Swimmer's itch
Swimming pool conjunctivitis
Swine influenza
Sycosis barbae
Sycosis vulgaris
Sydenham's chorea
Sylvatic yellow fever
Symptomatic bacteraemia
Symptomatic bacteremia
Symptomatic COVID-19
Symptomatic early congenital syphilis

Syndrome flu
Syndrome Guillain-Barre
Syndrome Lyell's
Syndrome Reyes
Syndrome Stevens-Johnson
Syndrome toxic shock
Syngamiasis
Syphilis
Syphilis anal
Syphilis carrier
Syphilis complicating pregnancy, childbirth, or the puerperium
Syphilis genital
Syphilis musculoskeletal
Syphilis NOS
Syphilis of bone
Syphilis of kidney
Syphilis of liver
Syphilis of lung
Syphilis of mother, comp pregnancy, childbirth, or the puerperium, unspec as to eoc
Syphilis of mother, complicating pregnancy, childbirth, or the puerperium, unspecified as to episode
Syphilis of mother, complicating pregnancy, with delivery
Syphilis of mother, complicating pregnancy, with delivery, with mention of postpartum complication
Syphilis of muscle
Syphilis of synovium, tendon, and bursa
Syphilis, antepartum
Syphilis, postpartum
Syphilis, unspecified
Syphilitic acoustic neuritis
Syphilitic alopecia
Syphilitic aneurysm of aorta
Syphilitic aortitis
Syphilitic chancre
Syphilitic chorioretinitis (secondary)
Syphilitic disseminated retinochoroiditis
Syphilitic encephalitis
Syphilitic endocarditis
Syphilitic endocarditis of aortic valve
Syphilitic endocarditis of heart valve
Syphilitic endocarditis of mitral valve
Syphilitic endocarditis of pulmonary valve
Syphilitic endocarditis of tricuspid valve
Syphilitic endocarditis of valve, unspecified
Syphilitic episcleritis
Syphilitic gumma
Syphilitic interstitial keratitis
Syphilitic iridocyclitis (secondary)
Syphilitic meningitis

Syphilitic myocarditis
Syphilitic optic atrophy
Syphilitic parkinsonism
Syphilitic pelvic inflammatory disease
Syphilitic pericarditis
Syphilitic peritonitis
Syphilitic retrobulbar neuritis
Syphilitic ruptured cerebral aneurysm
Syphilitic uveitis, unspecified
Syringitis
Systemic bacterial infection
Systemic bartonellosis
Systemic candida
Systemic candidiasis
Systemic fungal infection NOS
Systemic herpes zoster infection
Systemic infection
Systemic moniliasis
Systemic mycosis
Systemic viral infection
T.cruzi
T.gambiense
T.rhodesiense
Tabes dorsalis
Taenia echinococcus infection
Taenia saginata infection
Taenia solium infection
Taenia solium infection, intestinal form
Taeniasis
Taeniasis, unspecified
Taiga encephalitis
Tapeworm infection NOS
TB
TB - late effects of
TB bone
TB empyema
TB epididymitis
TB Gland neck
TB hydrothorax
TB meningitis
TB of glottis
TB of neck gland
TB of pleura
TB salpingitis
TB spine
T-cell lymphoblastic leukaemia acute
T-cell lymphoblastic leukemia acute

T-cell lymphoma
T-cell lymphoma NOS
T-cell type acute leukaemia
T-cell type acute leukemia
TEN
Tendon infection
Tertian malaria
Tertiary syphilis
Tertiary Treponema pallidum infection
Testicular abscess
Testicular infection
Tetanus
Tetanus like
Tetanus neonatorum
Tetanus-like
Thigh abscess
Thornwaldt disease
Threadworm infection
Threadworms
Throat infection
Thrombophlebitis septic
Thrombophlebitis septic pelvic
Thrush
Thrush balanitis
Thrush NOS
Thrush of skin NOS
Thrush oral
Thrush vaginal
Thymus abscess
Thyroglossal cyst infection
Thyroid echinococcosis
Thyroid gland abscess
Thyroid infection
Thyroid tuberculosis
Thyroiditis subacute
Tick borne Rickettsioses
Tick paralysis
Tick-borne fever
Tick-borne fever NOS
Tick-borne relapsing fever
Tick-borne rickettsioses
Tick-borne rickettsioses, unspecified
Tick-borne rickettsiosis, unspecified
Tick-borne viral encephalitis
Tick-borne viral encephalitis, unspecified
Tinea
Tinea axillaris

Tinea barbae
Tinea blanca
Tinea capitis
Tinea corporis
Tinea cruris
Tinea faciei
Tinea imbricata
Tinea incognito
Tinea infection
Tinea infection NOS
Tinea manuum
Tinea nigra
Tinea NOS
Tinea of hand
Tinea pedis
Tinea trichophytina cruris
Tinea unguium
Tinea versicolor
Tinea versicolour
Toadstool poisoning
Tongue abscess
Tongue fungal infection
Tongue infection
Tonsil squamous cell papilloma
Tonsillar abscess
Tonsillitis
Tonsillitis acute NOS
Tonsillitis bacterial
Tonsillitis chronic NOS
Tonsillitis fungal
Tonsillitis NOS
Tonsillitis pyogenic
Tonsillitis recurrent
Tonsillitis streptococcal
Tonsillitis viral NOS
Tooth abscess
Tooth infection
Tooth inflammation
TORCH infection
TORCH syndrome
Tornwaldt bursitis
Torulopsidosis
Torulopsis infection
Torulosis
Toxaemia
Toxaemia bacterial
Toxaemia bacterial NOS

Toxemia
Toxemia bacterial
Toxic effect of aflatoxin and other mycotoxin (food contaminants)
Toxic effect of berries and other plants eaten as food
Toxic effect of fish and shellfish eaten as food
Toxic effect of mushrooms eaten as food
Toxic effect of noxious substances eaten as food
Toxic effect of other specified noxious substances eaten as food
Toxic effect of unspecified noxious substance eaten as food
Toxic epideoneal necrolysis
Toxic epidermal necrolysis
Toxic epitheliolysis
Toxic pustuloderma
Toxic respiratory epitheliolysis
Toxic shock syndrome
Toxic shock syndrome NOS
Toxic shock syndrome staphylococcal
Toxic shock syndrome streptococcal
Toxin associated diarrhea
Toxin associated diarrhoea
Toxocara canis infection
Toxocara cati infection
Toxocara infection
Toxocariasis
Toxoplasma gondii encephalitis
Toxoplasma gondii infection
Toxoplasma encephalitis
Toxoplasmic encephalitis recurrent
Toxoplasmosis
Toxoplasmosis NOS
Toxoplasmosis of other specified sites
Toxoplasmosis recurrent
Toxoplasmosis, unspecified
Tracheal abscess
Tracheal papilloma
Tracheitis
Tracheitis NOS
Tracheitis obstructive
Tracheitis viral NOS
Tracheobronchial herpes infection
Tracheobronchitis
Tracheobronchitis bacterial
Tracheobronchitis mycoplasma
Tracheobronchitis viral
Tracheo-laryngeal bronchitis
Tracheo-laryngeal bronchitis NOS
Tracheostomy infection

Trachoma
Trachoma inclusion conjunctivitis
Trachoma, active stage
Trachoma, initial stage
Trachoma, unspecified
Transfusion-transmitted infectious disease
Transient bacteraemia
Transient bacteremia
Transmissible spongiform encephalopathy
Transmission of an infectious agent via a medicinal product
Transmission of an infectious agent via organ transplant
Transmission of an infectious agent via product
Transmission of an infectious agent via transplant
Transplant abscess
Traveler's diarrhea
Traveller's diarrhoea
Trematode infection
Trematode infection, unspecified
Trematode infections, other
Trench fever
Trench mouth
Treponema carateum infection
Treponema pallidum infection
Treponema pallidum spp. endemicum infection
Treponema pallidum spp. pertenue infection
Trichinella infection
Trichinella spiralis infection
Trichiniasis
Trichinosis
Trichomonal prostatitis
Trichomonal urethritis
Trichomonal vaginitis
Trichomonal vulvovaginitis
Trichomoniasis
Trichomoniasis intestinal
Trichomoniasis of other specified sites
Trichomoniasis, unspecified
Trichophytia maculovesiculosa
Trichophytia pompholyticiformis
Trichophytic granuloma
Trichophyton infection
Trichophyton infection NOS
Trichophytosis
Trichophytosis unguium
Trichosporon beigelii infection
Trichosporon cutaneum infection
Trichosporon infection

Trichostrongyliasis
Trichuriasis
Trichuris infection
Trichuris trichiuria infection
Tricuspid valve endocarditis
Trombidiasis
Tropical eosinophilia
Tropical infectious disease
Tropical pyomyositis
Tropical spastic paraparesis
Tropical spastic paresis
Tropical ulcer
Trypanosoma cruzi infection
Trypanosomiasis
Trypanosomiasis NOS
Trypanosomiasis, unspecified
Tsutsugamushi fever
Tubercular lymphadenitis
Tuberculoid leprosy
Tuberculoid leprosy (type t)
Tuberculoma
Tuberculoma of brain
Tuberculoma of brain, bacteriological or histological examination not done
Tuberculoma of brain, bacteriological or histological examination unknown (at present)
Tuberculoma of brain, confirmed by animal inoculation
Tuberculoma of brain, confirmed by bacterial culture
Tuberculoma of brain, confirmed histologically
Tuberculoma of brain, tubercle bacilli found (in sputum) by microscopy
Tuberculoma of brain, unspecified examination
Tuberculoma of central nervous system
Tuberculoma of meninges
Tuberculoma of meninges, bacteriological or histological examination not done.
Tuberculoma of meninges, bacteriological or histological examination unknown (at present)
Tuberculoma of meninges, confirmed by animal inoculation
Tuberculoma of meninges, confirmed by bacterial culture
Tuberculoma of meninges, confirmed histologically
Tuberculoma of meninges, tubercle bacilli found (in sputum) by microscopy
Tuberculoma of meninges, unspecified examination
Tuberculoma of spinal cord
Tuberculoma of spinal cord, bacteriological or histological examination not done
Tuberculoma of spinal cord, bacteriological or histological examination unknown (at present)
Tuberculoma of spinal cord, confirmed by animal inoculation
Tuberculoma of spinal cord, confirmed by bacterial culture
Tuberculoma of spinal cord, confirmed histologically
Tuberculoma of spinal cord, tubercle bacilli found (in sputum) by microscopy
Tuberculoma of spinal cord, unspecified examination
Tuberculosis

Tuberculosis aggravated
Tuberculosis bladder
Tuberculosis carrier
Tuberculosis cerebral
Tuberculosis complicating pregnancy, childbirth, or the puerperium
Tuberculosis cutis indurativa
Tuberculosis extrapulmonary recurrent
Tuberculosis gastrointestinal
Tuberculosis gastrointestinal NOS
Tuberculosis genitourinary NOS
Tuberculosis indurativa
Tuberculosis late effects
Tuberculosis late effects of
Tuberculosis liver
Tuberculosis NOS
Tuberculosis NOS aggravated
Tuberculosis of adrenal glands
Tuberculosis of adrenal glands, bacteriological or histological examination not done
Tuberculosis of adrenal glands, bacteriological or histological examination unknown (at present)
Tuberculosis of adrenal glands, confirmed by animal inoculation
Tuberculosis of adrenal glands, confirmed by bacterial culture
Tuberculosis of adrenal glands, confirmed histologically
Tuberculosis of adrenal glands, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of adrenal glands, unspecified examination
Tuberculosis of bladder
Tuberculosis of bladder, bacteriological or histological examination not done
Tuberculosis of bladder, bacteriological or histological examination unknown (at present)
Tuberculosis of bladder, confirmed by animal inoculation
Tuberculosis of bladder, confirmed by bacterial culture
Tuberculosis of bladder, confirmed histologically
Tuberculosis of bladder, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of bladder, unspecified examination
Tuberculosis of bones and joints
Tuberculosis of bones and joints, unspecified
Tuberculosis of bronchus
Tuberculosis of bronchus, bacteriological or histological examination not done
Tuberculosis of bronchus, bacteriological or histological examination unknown (at present)
Tuberculosis of bronchus, confirmed by animal inoculation
Tuberculosis of bronchus, confirmed histologically
Tuberculosis of bronchus, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of bronchus, tubercle bacilli not found in sputum , but found in bact culture
Tuberculosis of bronchus, unspecified examination
Tuberculosis of central nervous system
Tuberculosis of central nervous system NOS
Tuberculosis of ear
Tuberculosis of ear, bacteriological or histological examination unknown (at present)
Tuberculosis of ear, bacteriological or histological examination not done

Tuberculosis of ear, confirmed by animal inoculation
Tuberculosis of ear, confirmed by bacterial culture
Tuberculosis of ear, confirmed histologically
Tuberculosis of ear, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of ear, unspecified examination
Tuberculosis of epididymis
Tuberculosis of epididymis, bacteriological or histological examination not done
Tuberculosis of epididymis, bacteriological or histological examination unknown (at present)
Tuberculosis of epididymis, confirmed by animal inoculation
Tuberculosis of epididymis, confirmed by bacterial culture
Tuberculosis of epididymis, confirmed histologically
Tuberculosis of epididymis, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of epididymis, unspecified examination
Tuberculosis of esophagus
Tuberculosis of esophagus, bacteriological or histological examination not done
Tuberculosis of esophagus, bacteriological or histological examination unknown (at present)
Tuberculosis of esophagus, confirmed by animal inoculation
Tuberculosis of esophagus, confirmed by bacterial culture
Tuberculosis of esophagus, confirmed histologically
Tuberculosis of esophagus, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of esophagus, unspecified examination
Tuberculosis of eye
Tuberculosis of eye, bacteriological or histological examination unknown (at present)
Tuberculosis of eye, bacteriological or histological examination not done
Tuberculosis of eye, confirmed by animal inoculation
Tuberculosis of eye, confirmed by bacterial culture
Tuberculosis of eye, confirmed histologically
Tuberculosis of eye, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of eye, unspecified examination
Tuberculosis of female genital organs
Tuberculosis of genitourinary system
Tuberculosis of hip
Tuberculosis of hip, bacteriological or histological examination unknown (at present)
Tuberculosis of hip, bacteriological or histological examination not done
Tuberculosis of hip, confirmed by animal inoculation
Tuberculosis of hip, confirmed by bacterial culture
Tuberculosis of hip, confirmed histologically
Tuberculosis of hip, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of hip, unspecified examination
Tuberculosis of intestines and mesenteric glands
Tuberculosis of intestines and mesenteric glands, bact or hist exam unknown
Tuberculosis of intestines and mesenteric glands, bact or hist exam not done
Tuberculosis of intestines and mesenteric glands, confirmed by animal inoculation
Tuberculosis of intestines and mesenteric glands, confirmed by bacterial culture
Tuberculosis of intestines and mesenteric glands, confirmed histologically
Tuberculosis of intestines and mesenteric glands, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of intestines and mesenteric glands, unspecified examination

Tuberculosis of intestines, peritoneum, and mesenteric glands
Tuberculosis of intrathoracic lymph nodes
Tuberculosis of intrathoracic lymph nodes, bact or hist exam unknown
Tuberculosis of intrathoracic lymph nodes, bacteriological or histological examination not done
Tuberculosis of intrathoracic lymph nodes, confirmed by animal inoculation
Tuberculosis of intrathoracic lymph nodes, confirmed by bacterial culture
Tuberculosis of intrathoracic lymph nodes, confirmed histologically
Tuberculosis of intrathoracic lymph nodes, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of intrathoracic lymph nodes, unspecified examination
Tuberculosis of kidney
Tuberculosis of kidney, bacteriological or histological examination not done
Tuberculosis of kidney, bacteriological or histological examination unknown (at present)
Tuberculosis of kidney, confirmed by animal inoculation
Tuberculosis of kidney, confirmed by bacterial culture
Tuberculosis of kidney, confirmed histologically
Tuberculosis of kidney, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of kidney, unspecified examination
Tuberculosis of knee
Tuberculosis of knee, bacteriological or histological examination not done
Tuberculosis of knee, bacteriological or histological examination unknown (at present)
Tuberculosis of knee, confirmed by animal inoculation
Tuberculosis of knee, confirmed by bacterial culture
Tuberculosis of knee, confirmed histologically
Tuberculosis of knee, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of knee, unspecified examination
Tuberculosis of limb bones
Tuberculosis of limb bones, bacteriological or histological examination not done
Tuberculosis of limb bones, bacteriological or histological examination unknown (at present)
Tuberculosis of limb bones, confirmed by animal inoculation
Tuberculosis of limb bones, confirmed by bacterial culture
Tuberculosis of limb bones, confirmed histologically
Tuberculosis of limb bones, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of limb bones, unspecified examination
Tuberculosis of lung with cavitation
Tuberculosis of lung with cavitation, bact or hist exam unknown
Tuberculosis of lung with cavitation, bacteriological or histological examination not done
Tuberculosis of lung with cavitation, confirmed by animal inoculation
Tuberculosis of lung with cavitation, confirmed by bacterial culture
Tuberculosis of lung with cavitation, confirmed histologically
Tuberculosis of lung with cavitation, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of lung with cavitation, unspecified examination
Tuberculosis of lung, infiltrative
Tuberculosis of lung, infiltrative, bacteriological or histological examination not done
Tuberculosis of lung, infiltrative, bacteriological or histological examination unknown (at present)
Tuberculosis of lung, infiltrative, confirmed by animal inoculation
Tuberculosis of lung, infiltrative, confirmed by bacterial culture
Tuberculosis of lung, infiltrative, confirmed histologically

Tuberculosis of lung, infiltrative, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of lung, infiltrative, unspecified examination
Tuberculosis of lung, nodular
Tuberculosis of lung, nodular, bacteriological or histological examination unknown (at present)
Tuberculosis of lung, nodular, bacteriological or histological examination not done
Tuberculosis of lung, nodular, confirmed by animal inoculation
Tuberculosis of lung, nodular, confirmed by bacterial culture
Tuberculosis of lung, nodular, confirmed histologically
Tuberculosis of lung, nodular, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of lung, nodular, unspecified examination
Tuberculosis of mastoid
Tuberculosis of mastoid, bacteriological or histological examination not done
Tuberculosis of mastoid, bacteriological or histological examination unknown (at present)
Tuberculosis of mastoid, confirmed by animal inoculation
Tuberculosis of mastoid, confirmed by bacterial culture
Tuberculosis of mastoid, confirmed histologically
Tuberculosis of mastoid, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of mastoid, unspecified examination
Tuberculosis of meninges and central nervous system
Tuberculosis of mother, comp pregnancy, childbirth, or the puerperium, unspec as to eoc
Tuberculosis of mother, complicating pregnancy, childbirth, or the puerperium, unspecified as to epi
Tuberculosis of mother, with delivery
Tuberculosis of mother, with delivery, with mention of postpartum complication
Tuberculosis of oesophagus
Tuberculosis of oesophagus, bacteriological or histological examination not done
Tuberculosis of oesophagus, bacteriological or histological examination unknown (at present)
Tuberculosis of oesophagus, confirmed by animal inoculation
Tuberculosis of oesophagus, confirmed by bacterial culture
Tuberculosis of oesophagus, confirmed histologically
Tuberculosis of oesophagus, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of oesophagus, unspecified examination
Tuberculosis of other bones
Tuberculosis of other female genital organs
Tuberculosis of other female genital organs, bact or hist exam unknown
Tuberculosis of other female genital organs, bacteriological or histological examination not done
Tuberculosis of other female genital organs, confirmed by animal inoculation
Tuberculosis of other female genital organs, confirmed by bacterial culture
Tuberculosis of other female genital organs, confirmed histologically
Tuberculosis of other female genital organs, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of other female genital organs, unspecified examination
Tuberculosis of other male genital organs
Tuberculosis of other male genital organs, bact or hist exam unknown
Tuberculosis of other male genital organs, bacteriological or histological examination not done
Tuberculosis of other male genital organs, confirmed by animal inoculation
Tuberculosis of other male genital organs, confirmed by bacterial culture
Tuberculosis of other male genital organs, confirmed histologically
Tuberculosis of other male genital organs, tubercle bacilli found (in sputum) by microscopy

Tuberculosis of other male genital organs, unspecified examination
Tuberculosis of other organs
Tuberculosis of other specified bone
Tuberculosis of other specified bone, bact or hist exam unknown
Tuberculosis of other specified bone, bacteriological or histological examination not done
Tuberculosis of other specified bone, confirmed by animal inoculation
Tuberculosis of other specified bone, confirmed by bacterial culture
Tuberculosis of other specified bone, confirmed histologically
Tuberculosis of other specified bone, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of other specified bone, unspecified examination
Tuberculosis of other specified joint
Tuberculosis of other specified joint, bact or hist exam unknown
Tuberculosis of other specified joint, bacteriological or histological examination not done
Tuberculosis of other specified joint, confirmed by animal inoculation
Tuberculosis of other specified joint, confirmed by bacterial culture
Tuberculosis of other specified joint, confirmed histologically
Tuberculosis of other specified joint, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of other specified joint, unspecified examination
Tuberculosis of other specified organs
Tuberculosis of other specified organs, bact or hist exam unknown
Tuberculosis of other specified organs, bacteriological or histological examination not done
Tuberculosis of other specified organs, confirmed by animal inoculation
Tuberculosis of other specified organs, confirmed by bacterial culture
Tuberculosis of other specified organs, confirmed histologically
Tuberculosis of other specified organs, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of other specified organs, unspecified examination
Tuberculosis of other urinary organs
Tuberculosis of other urinary organs, bact or hist exam unknown
Tuberculosis of other urinary organs, bacteriological or histological examination not done
Tuberculosis of other urinary organs, confirmed by animal inoculation
Tuberculosis of other urinary organs, confirmed by bacterial culture
Tuberculosis of other urinary organs, confirmed histologically
Tuberculosis of other urinary organs, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of other urinary organs, unspecified examination
Tuberculosis of peripheral lymph nodes
Tuberculosis of peripheral lymph nodes, bact or hist exam unknown
Tuberculosis of peripheral lymph nodes, bacteriological or histological examination not done
Tuberculosis of peripheral lymph nodes, confirmed by animal inoculation
Tuberculosis of peripheral lymph nodes, confirmed by bacterial culture
Tuberculosis of peripheral lymph nodes, confirmed histologically
Tuberculosis of peripheral lymph nodes, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of peripheral lymph nodes, unspecified examination
Tuberculosis of skin and subcutaneous cellular tissue
Tuberculosis of skin and subcutaneous cellular tissue, bact or hist exam not done
Tuberculosis of skin and subcutaneous cellular tissue, bact or hist exam unknown
Tuberculosis of skin and subcutaneous cellular tissue, confirmed by animal inoculation
Tuberculosis of skin and subcutaneous cellular tissue, confirmed by bacterial culture

Tuberculosis of skin and subcutaneous cellular tissue, confirmed histologically
Tuberculosis of skin and subcutaneous cellular tissue, tubercle bacilli found in sputum
Tuberculosis of skin and subcutaneous cellular tissue, unspecified examination
Tuberculosis of spinal cord
Tuberculosis of spine
Tuberculosis of spleen
Tuberculosis of spleen, bacteriological or histological examination not done
Tuberculosis of spleen, bacteriological or histological examination unknown (at present)
Tuberculosis of spleen, confirmed by animal inoculation
Tuberculosis of spleen, confirmed by bacterial culture
Tuberculosis of spleen, confirmed histologically
Tuberculosis of spleen, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of spleen, unspecified examination
Tuberculosis of thyroid gland
Tuberculosis of thyroid gland, bacteriological or histological examination not done
Tuberculosis of thyroid gland, bacteriological or histological examination unknown (at present)
Tuberculosis of thyroid gland, confirmed by animal inoculation
Tuberculosis of thyroid gland, confirmed by bacterial culture
Tuberculosis of thyroid gland, confirmed histologically
Tuberculosis of thyroid gland, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of thyroid gland, unspecified origin
Tuberculosis of unspecified bones and joints
Tuberculosis of unspecified bones and joints, bact or hist exam unknown
Tuberculosis of unspecified bones and joints, bacteriological or histological examination not done
Tuberculosis of unspecified bones and joints, confirmed by animal inoculation
Tuberculosis of unspecified bones and joints, confirmed by bacterial culture
Tuberculosis of unspecified bones and joints, confirmed histologically
Tuberculosis of unspecified bones and joints, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of unspecified bones and joints, unspecified examination
Tuberculosis of ureter
Tuberculosis of ureter, bacteriological or histological examination unknown (at present)
Tuberculosis of ureter, bacteriological or histological examination not done
Tuberculosis of ureter, confirmed by animal inoculation
Tuberculosis of ureter, confirmed by bacterial culture
Tuberculosis of ureter, confirmed histologically
Tuberculosis of ureter, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of ureter, unspecified examination
Tuberculosis of uterine cervix
Tuberculosis of vertebral column
Tuberculosis of vertebral column, bacteriological or histological examination unknown (at present)
Tuberculosis of vertebral column, bacteriological or histological examination not done
Tuberculosis of vertebral column, confirmed by animal inoculation
Tuberculosis of vertebral column, confirmed by bacterial culture
Tuberculosis of vertebral column, confirmed histologically
Tuberculosis of vertebral column, tubercle bacilli found (in sputum) by microscopy
Tuberculosis of vertebral column, unspecified examination
Tuberculosis pulmonary reactivated

Tuberculosis reactivated
Tuberculosis ureter
Tuberculosis, antepartum
Tuberculosis, postpartum
Tuberculous abscess
Tuberculous abscess central nervous system
Tuberculous abscess of brain
Tuberculous abscess of brain, bacteriological or histological examination not done
Tuberculous abscess of brain, bacteriological or histological examination unknown (at present)
Tuberculous abscess of brain, confirmed by animal inoculation
Tuberculous abscess of brain, confirmed by bacterial culture
Tuberculous abscess of brain, confirmed histologically
Tuberculous abscess of brain, tubercle bacilli found (in sputum) by microscopy
Tuberculous abscess of brain, unspecified examination
Tuberculous abscess of spinal cord
Tuberculous abscess of spinal cord, bact or hist exam unknown
Tuberculous abscess of spinal cord, bacteriological or histological examination not done
Tuberculous abscess of spinal cord, bacteriological or histological examination unknown (at present)
Tuberculous abscess of spinal cord, confirmed by animal inoculation
Tuberculous abscess of spinal cord, confirmed by bacterial culture
Tuberculous abscess of spinal cord, confirmed histologically
Tuberculous abscess of spinal cord, tubercle bacilli found (in sputum) by microscopy
Tuberculous abscess of spinal cord, unspecified examination
Tuberculous bone
Tuberculous bronchiectasis
Tuberculous bronchiectasis, bacteriological or histological examination not done
Tuberculous bronchiectasis, bacteriological or histological examination unknown (at present)
Tuberculous bronchiectasis, confirmed by animal inoculation
Tuberculous bronchiectasis, confirmed by bacterial culture
Tuberculous bronchiectasis, confirmed histologically
Tuberculous bronchiectasis, tubercle bacilli found (in sputum) by microscopy
Tuberculous bronchiectasis, unspecified examination
Tuberculous bronchopneumonia
Tuberculous empyema
Tuberculous encephalitis or myelitis
Tuberculous encephalitis or myelitis, bacteriological or histological examination not done
Tuberculous encephalitis or myelitis, confirmed by animal inoculation
Tuberculous encephalitis or myelitis, confirmed by bacterial culture
Tuberculous encephalitis or myelitis, confirmed histologically
Tuberculous encephalitis or myelitis, tubercle bacilli found (in sputum) by microscopy
Tuberculous encephalitis or myelitis, unspecified examination
Tuberculous endometritis
Tuberculous fibrosis of lung
Tuberculous fibrosis of lung, bacteriological or histological examination not done
Tuberculous fibrosis of lung, bacteriological or histological examination unknown (at present)
Tuberculous fibrosis of lung, confirmed by animal inoculation
Tuberculous fibrosis of lung, confirmed by bacterial culture

Tuberculous fibrosis of lung, confirmed histologically
Tuberculous fibrosis of lung, tubercle bacilli found (in sputum) by microscopy
Tuberculous fibrosis of lung, unspecified examination
Tuberculous granuloma
Tuberculous laryngitis
Tuberculous laryngitis, bacteriological or histological examination unknown (at present)
Tuberculous laryngitis, bacteriological or histological examination not done
Tuberculous laryngitis, confirmed by animal inoculation
Tuberculous laryngitis, confirmed by bacterial culture
Tuberculous laryngitis, confirmed histologically
Tuberculous laryngitis, tubercle bacilli found (in sputum) by microscopy
Tuberculous laryngitis, unspecified examination
Tuberculous meningitis
Tuberculous meningitis, bacteriological or histological examination not done.
Tuberculous meningitis, bacteriological or histological examination unknown (at present)
Tuberculous meningitis, confirmed by animal inoculation
Tuberculous meningitis, confirmed by bacterial culture
Tuberculous meningitis, confirmed histologically
Tuberculous meningitis, tubercle bacilli found (in sputum) by microscopy
Tuberculous meningitis, unspecified examination
Tuberculous oophoritis and salpingitis
Tuberculous oophoritis and salpingitis, bact or hist exam unknown
Tuberculous oophoritis and salpingitis, bacteriological or histological examination not done
Tuberculous oophoritis and salpingitis, confirmed by animal inoculation
Tuberculous oophoritis and salpingitis, confirmed by bacterial culture
Tuberculous oophoritis and salpingitis, confirmed histologically
Tuberculous oophoritis and salpingitis, tubercle bacilli found (in sputum) by microscopy
Tuberculous oophoritis and salpingitis, unspecified examination
Tuberculous pelvic inflammatory disease
Tuberculous peritonitis
Tuberculous peritonitis, bacteriological or histological examination not done
Tuberculous peritonitis, bacteriological or histological examination unknown (at present)
Tuberculous peritonitis, confirmed by animal inoculation
Tuberculous peritonitis, confirmed by bacterial culture
Tuberculous peritonitis, confirmed histologically
Tuberculous peritonitis, tubercle bacilli found (in sputum) by microscopy
Tuberculous peritonitis, unspecified examination
Tuberculous pleurisy
Tuberculous pleurisy in primary progressive tuberculosis
Tuberculous pleurisy in primary progressive tuberculosis, bact or hist exam not done
Tuberculous pleurisy in primary progressive tuberculosis, bact or hist exam unknown
Tuberculous pleurisy in primary progressive tuberculosis, confirmed by animal inoculation
Tuberculous pleurisy in primary progressive tuberculosis, confirmed by bacterial culture
Tuberculous pleurisy in primary progressive tuberculosis, confirmed histologically
Tuberculous pleurisy in primary progressive tuberculosis, tubercle bacilli in sputum by microscopy
Tuberculous pleurisy in primary progressive tuberculosis, unspecified examination
Tuberculous pleurisy, bacteriological or histological examination unknown (at present)

Tuberculous pleurisy, bacteriological or histological examination not done
Tuberculous pleurisy, confirmed by animal inoculation
Tuberculous pleurisy, confirmed by bacterial culture
Tuberculous pleurisy, confirmed histologically
Tuberculous pleurisy, tubercle bacilli found (in sputum) by microscopy
Tuberculous pleurisy, unspecified examination
Tuberculous pneumonia (any form)
Tuberculous pneumonia (any form), bacteriological or histological examination not done
Tuberculous pneumonia (any form), bacteriological or histological examination unknown (at present)
Tuberculous pneumonia (any form), confirmed by animal inoculation
Tuberculous pneumonia (any form), confirmed by bacterial culture
Tuberculous pneumonia (any form), confirmed histologically
Tuberculous pneumonia (any form), tubercle bacilli found (in sputum) by microscopy
Tuberculous pneumonia (any form), unspecified examination
Tuberculous pneumothorax
Tuberculous pneumothorax, bacteriological or histological examination unknown (at present)
Tuberculous pneumothorax, bacteriological or histological examination not done
Tuberculous pneumothorax, confirmed by animal inoculation
Tuberculous pneumothorax, confirmed by bacterial culture
Tuberculous pneumothorax, confirmed histologically
Tuberculous pneumothorax, tubercle bacilli found (in sputum) by microscopy
Tuberculous pneumothorax, unspecified examination
Tuberculous salpingitis
Tuberculous spine
Tuberculous tenosynovitis
Tubo-ovarian abscess
Tularaemia
Tularemia
Tumor abscess
Tumor infection
Tumour abscess
Tumour infection
Tungiasis
TV Trichomonas vaginalis
Tympanic membrane infection
Tympanitis
Type 1 lepra reaction
Type 2 lepra reaction
Type A gastritis
Type B gastritis
Typhoid
Typhoid and paratyphoid fevers
Typhoid carrier
Typhoid fever
Typhus
Typhus NOS
Typhus, unspecified

Ulceroglandular tularaemia
Ulceroglandular tularemia
Umbilical cord infection
Umbilical cord sepsis NOS
Umbilical hernia gangrenous
Umbilical hernia with gangrene
Umbilical sepsis
Umbilical sepsis NOS
Uncomplicated infection
Uncomplicated malaria
Uncomplicated pyelonephritis
Undulant fever
Unilateral or unspecified femoral hernia with gangrene
Unilateral or unspecified inguinal hernia, with gangrene
Unqualified appendicitis
Unspec infec of the b&n assoc with childbirth , delivered, with ment of postpar comp
Unspec infec of the b&n assoc with childbirth , delivered, with or w/o ment of antepar cond
Unspec infec of the b&n assoc with childbirth , unspec as to eoc
Unspec infection or infestation of mother, comp preg, childbirth, or the puerp, unspec as to eoc
Unspec infection or infestation of mother, with delivery, with mention of postpart comp
Unspecified bacteraemia
Unspecified bacteremia
Unspecified brucellosis
Unspecified cause of encephalitis
Unspecified chlamydial infection in conditions classified elsewhere and of unspecified site
Unspecified cholera
Unspecified chronic suppurative otitis media
Unspecified congenital syphilis
Unspecified diseases due to mycobacteria
Unspecified diseases of conjunctiva due to Chlamydiae
Unspecified diseases of conjunctiva due to viruses
Unspecified diseases of conjunctiva due to viruses and Chlamydiae
Unspecified filariasis
Unspecified genitourinary tuberculosis, bact or hist exam unknown
Unspecified genitourinary tuberculosis, bacteriological or histological examination not done
Unspecified genitourinary tuberculosis, confirmed by animal inoculation
Unspecified genitourinary tuberculosis, confirmed by bacterial culture
Unspecified genitourinary tuberculosis, confirmed histologically
Unspecified genitourinary tuberculosis, tubercle bacilli found (in sputum) by microscopy
Unspecified genitourinary tuberculosis, unspecified examination
Unspecified infection of bone
Unspecified infection of bone in multiple sites
Unspecified infection of bone of other specified sites
Unspecified infection of bone of pelvic region and thigh
Unspecified infection of bone of shoulder region
Unspecified infection of bone, ankle and foot
Unspecified infection of bone, forearm

Unspecified infection of bone, hand
Unspecified infection of bone, lower leg
Unspecified infection of bone, site unspecified
Unspecified infection of bone, upper arm
Unspecified infection of the breast and nipple associated with childbirth
Unspecified infection of the breast and nipple, antepartum
Unspecified infection of the breast and nipple, postpartum
Unspecified infection or infestation complicating pregnancy, childbirth, or the puerperium
Unspecified infection or infestation of mother, antepartum
Unspecified infection or infestation of mother, complicating pregnancy, childbirth, or the puerperium
Unspecified infection or infestation of mother, postpartum
Unspecified infection or infestation of mother, with delivery
Unspecified infection or infestation of mother, with delivery, with mention of postpartum complication
Unspecified infectious and parasitic diseases
Unspecified infective arthritis
Unspecified infective arthritis involving ankle and foot
Unspecified infective arthritis involving forearm
Unspecified infective arthritis involving hand
Unspecified infective arthritis involving lower leg
Unspecified infective arthritis involving multiple sites
Unspecified infective arthritis involving other specified sites
Unspecified infective arthritis involving pelvic region and thigh
Unspecified infective arthritis involving shoulder region
Unspecified infective arthritis involving upper arm
Unspecified infective arthritis, site unspecified
Unspecified inflammatory disease of female pelvic organs and tissues
Unspecified local infection of skin and subcutaneous tissue
Unspecified mastoiditis
Unspecified meningococcal infection
Unspecified miliary tuberculosis, bacteriological or histological examination unknown (at present)
Unspecified miliary tuberculosis
Unspecified miliary tuberculosis, bacteriological or histological examination not done
Unspecified miliary tuberculosis, confirmed by animal inoculation
Unspecified miliary tuberculosis, confirmed by bacterial culture
Unspecified miliary tuberculosis, confirmed histologically
Unspecified miliary tuberculosis, tubercle bacilli found (in sputum) by microscopy
Unspecified miliary tuberculosis, unspecified examination
Unspecified non-arthropod-borne viral diseases of central nervous system
Unspecified nongonococcal urethritis (NGU)
Unspecified non-gonococcal urethritis (NGU)
Unspecified osteomyelitis
Unspecified osteomyelitis involving ankle and foot
Unspecified osteomyelitis involving forearm
Unspecified osteomyelitis involving hand
Unspecified osteomyelitis involving lower leg
Unspecified osteomyelitis involving multiple sites
Unspecified osteomyelitis involving other specified sites

Unspecified osteomyelitis involving pelvic region and thigh
Unspecified osteomyelitis involving shoulder region
Unspecified osteomyelitis involving upper arm
Unspecified osteomyelitis, site unspecified
Unspecified otitis media
Unspecified peritonitis
Unspecified plague
Unspecified protozoal intestinal disease
Unspecified pulmonary tuberculosis
Unspecified pulmonary tuberculosis, bacteriological or histological examination not done
Unspecified pulmonary tuberculosis, bacteriological or histological examination unknown (at present)
Unspecified pulmonary tuberculosis, confirmed by animal inoculation
Unspecified pulmonary tuberculosis, confirmed by bacterial culture
Unspecified pulmonary tuberculosis, confirmed histologically
Unspecified pulmonary tuberculosis, tubercle bacilli found (in sputum) by microscopy.
Unspecified pulmonary tuberculosis, unspecified examination
Unspecified rat-bite fever
Unspecified relapsing fever
Unspecified respiratory tract infection
Unspecified retrovirus infection in conditions classified elsewhere and of unspecified site
Unspecified rheumatic heart disease
Unspecified schistosomiasis
Unspecified secondary syphilis
Unspecified septicaemia
Unspecified septicemia
Unspecified sinusitis (chronic)
Unspecified slow virus infection of central nervous system
Unspecified suppurative otitis media
Unspecified tuberculosis of central nervous system
Unspecified tuberculosis of central nervous system, bact or hist exam not done
Unspecified tuberculosis of central nervous system, bact or hist exam unknown
Unspecified tuberculosis of central nervous system, confirmed by bacterial culture
Unspecified tuberculosis of central nervous system, confirmed by animal inoculation
Unspecified tuberculosis of central nervous system, confirmed histologically
Unspecified tuberculosis of central nervous system, tubercle bacilli found (in sputum) by microscopy
Unspecified tuberculosis of central nervous system, unspecified examination
Unspecified tuberculosis of meninges and central nervous system
Unspecified tularaemia
Unspecified tularemia
Unspecified type maternal pyrexia during labor, delivered
Unspecified type maternal pyrexia during labor, unspecified as to episode of care
Unspecified type maternal pyrexia, antepartum
Unspecified ventral hernia with gangrene
Unspecified viraemia
Unspecified viral and chlamydial infections
Unspecified viral hepatitis with hepatic coma
Unspecified viral hepatitis without mention of hepatic coma

Unspecified viral infection in conditions classified elsewhere and of unspecified site
Unspecified viral meningitis
Unspecified viremia
Unspecified yellow fever
Unspecified zoonotic bacterial disease
Upper aerodigestive tract infection
Upper resp tract infection
Upper respiratory fungal infection
Upper respiratory fungal infection NOS
Upper respiratory infection
Upper respiratory tract infection
Upper respiratory tract infection bacterial
Upper respiratory tract infection helminthic
Upper respiratory tract infection NOS
Upper respiratory tract infection viral NOS
Urachal abscess
Urachal sinus infection
Urban yellow fever
Ureaplasma cervicitis
Ureaplasma infection
Ureaplasma urealyticum infection
Ureaplasma urethritis
Ureaplasma vaginitis
Ureaplasma vulvovaginitis
Ureter abscess
Ureter abscess NOS
Ureteral infection
Ureteritis
Urethra papilloma
Urethral abscess
Urethral bulbitis
Urethral carbuncle
Urethral discharge syndrome
Urethral infection
Urethral papilloma
Urethral stricture due to infection
Urethral stricture post infection
Urethral structure due to infective diseases classified elsewhere
Urethral structure due to unspecified infection
Urethritis
Urethritis (non-venereal)
Urethritis chlamydial
Urethritis gonococcal
Urethritis gonococcal acute
Urethritis gonococcal chronic
Urethritis gonococcal NOS
Urethritis mycoplasmal

Urethritis nonspecific
Urethritis non-specific
Urethritis trichomonal
Urethritis ureaplasma
Urethritis, unspecified
Urethrotrigonitis
URI
Urinary bladder abscess
Urinary infection
Urinary meatitis
Urinary tract abscess
Urinary tract candidiasis
Urinary tract infection
Urinary tract infection bacterial
Urinary tract infection enterococcal
Urinary tract infection fungal
Urinary tract infection neonatal
Urinary tract infection NOS
Urinary tract infection NOS neonatal
Urinary tract infection pseudomonas
Urinary tract infection staphylococcal
Urinary tract infection viral
Urinary tract infection, site not specified
Urinary tract yeast infection
Urine candida
Urine containing pus
Urine purulent
Urogenital infection bacterial
Urogenital infection fungal
Urogenital trichomoniasis
Urogenital trichomoniasis, unspecified
Urosepsis
URTI
URTI (upper respiratory tract infection)
Uterine abscess
Uterine adnexitis
Uterine infection
Uterine infection NOS
UTI
UTI symptoms
Uveitis due to secondary syphilis
VABP
Vaccination site abscess
Vaccination site cellulitis
Vaccination site infection
Vaccination site joint infection
Vaccination site pustule

Vaccine associated paralytic poliomyelitis
Vaccine bacteria shedding
Vaccine breakthrough infection
Vaccine derived SARS-CoV-2 infection
Vaccine virus shedding
Vaccinia
Vaccinia aggravated
Vaccinia gangrenosum
Vaccinia necrosum
Vaccinia virus infection
Vaginal abscess
Vaginal bacterial infection
Vaginal candida
Vaginal candidiasis
Vaginal cellulitis
Vaginal dysbacteriosis
Vaginal flora imbalance
Vaginal infection
Vaginal infection NOS
Vaginal moniliasis
Vaginal mycosis
Vaginal papilloma
Vaginal sores
Vaginal stump human papilloma virus infection
Vaginal yeast
Vaginal yeast infection
Vaginitis
Vaginitis and vulvovaginitis
Vaginitis and vulvovaginitis in diseases classified elsewhere
Vaginitis and vulvovaginitis, unspecified
Vaginitis bacterial
Vaginitis bacterial NOS
Vaginitis chlamydial
Vaginitis gardnerella
Vaginitis gonococcal
Vaginitis staphylococcal
Vaginitis trichomonal
Vaginitis viral
Vaginosis bacterial
Vaginosis bacterial NOS
Vaginosis fungal NOS
Valley fever
Van Bogaert encephalitis
Vancomycin intermediate Staphylococcus aureus infection
Vancomycin-resistant enterococcal infection
Variant Creutzfeldt-Jakob disease
Varicella

Varicella (haemorrhagic) pneumonitis
Varicella (hemorrhagic) pneumonitis
Varicella encephalitis
Varicella keratitis
Varicella meningitis
Varicella pneumonia
Varicella post vaccine
Varicella without mention of complication
Varicella zoster
Varicella zoster encephalitis
Varicella zoster esophagitis
Varicella zoster gastritis
Varicella zoster oesophagitis
Varicella zoster pneumonia
Varicella zoster sepsis
Varicella zoster viraemia
Varicella zoster viremia
Varicella zoster virus infection
Variola major
Vascular access related infection
Vascular access related sepsis
Vascular access site abscess
Vascular access site cellulitis
Vascular access site infection
Vascular device infection
Vascular device lead infection
Vascular graft infection
Vascular implant infection
Vascular stent graft infection
Vascular stent infection
VD
Vector-borne transmission of infection
VEE infection
Veillonella infection
Venereal disease NOS
Venereal disease, unspecified
Venereal lymphogranuloma proctitis
Venereal urethritis due to chlamydia trachomatis
Venereal urethritis due to other specified organism
Venereal warts
Venezuelan equine encephalitis
Venezuelan equine encephalitis virus infection
Venezuelan equine fever
Ventilated HAP
Ventilated hospital acquired bacterial pneumonia
Ventilator associated bacterial pneumonia
Ventilator associated pneumonia

Ventral (incisional) hernia with gangrene
Ventral hernia with gangrene
Ventricular drain related infection
Ventriculitis
Ventriculo-peritoneal shunt infection
Verruca
Verruca viral
Verruca vulgaris
Verrucous cyst
Vertebral abscess
Vertebral osteomyelitis
Vertical human immunodeficiency virus transmission
Vertical infection transmission
Vesicular pharyngitis
Vesiculopustular rash
Vesiculo-pustular rash
Vessel puncture site cellulitis
Vessel puncture site infection
Vestibular neuritis
Vestibular neuronitis
Vestibular paralysis
Vestibulitis
Vestibulitis, nasal
Vibrio cholera gastroenteritis
Vibrio cholera infection
Vibrio cholerae gastroenteritis
Vibrio gastroenteritis
Vibrio vulnificus infection
Vincent's angina
Viraemia
Viraemia NOS
Viraemia NOS absent
Viraemia NOS present
Viraemia, unspecified
Viral abdominal infection
Viral acanthoma
Viral and chlamydial infection in conditions classified elsewhere and of unspecified site
Viral arthritis
Viral bronchopneumonia
Viral cardiomyopathy
Viral conjunctivitis
Viral corneal ulcer
Viral diarrhea
Viral diarrhoea
Viral disease carrier
Viral encephalitis
Viral encephalitis transmitted by other and unspecified arthropods

Viral enteritis
Viral epiglottitis
Viral esophagitis
Viral exanthem
Viral exanthema, unspecified
Viral exanthemata, unspecified
Viral eye infection NOS
Viral gastroenteritis
Viral haematological infection
Viral haemorrhagic cystitis
Viral hematological infection
Viral hemorrhagic cystitis
Viral hepatitis
Viral hepatitis A
Viral hepatitis A with hepatic coma
Viral hepatitis A without mention of hepatic coma
Viral hepatitis B
Viral hepatitis B with hepatic coma
Viral hepatitis B with hepatic coma, with hepatitis delta
Viral hepatitis B with hepatic coma, without mention of hepatitis delta
Viral hepatitis B without mention of hepatic coma
Viral hepatitis B without mention of hepatic coma, with hepatitis delta
Viral hepatitis B without mention of hepatic coma, without mention of hepatitis delta
Viral hepatitis C
Viral hepatitis carrier
Viral hepatitis NOS
Viral hepatitis not otherwise specified
Viral infection
Viral infection in conditions classified elsewhere and of unspecified site
Viral infection NOS
Viral iritis
Viral keratouveitis
Viral labyrinthitis
Viral laryngitis
Viral mastitis
Viral meningitis
Viral myelitis
Viral myocarditis
Viral myositis
Viral oesophagitis
Viral ophthalmic infection
Viral parotitis
Viral pericarditis
Viral perimyocarditis
Viral pharyngitis
Viral pneumonia
Viral pneumonia, unspecified

Viral pneumonitis
Viral rash
Viral rash NOS
Viral resistance
Viral retinitis
Viral rhinitis
Viral sepsis
Viral sinusitis
Viral skin infection
Viral sore throat
Viral stomatitis
Viral syndrome
Viral thyroiditis
Viral tonsillitis
Viral tracheitis
Viral upper respiratory tract infection
Viral uveitis
Viral vasculitis
Viral vector shedding
Viral warts
Viral warts, unspecified
Viremia
Viremia absent
Viremia present
Viremia, unspecified
Virologic failure
Virosis
Viruria
Virus hepatitis
Visceral larva migrans
Visceral leishmaniasis
Visceral leishmaniasis Mediterranean
Vitreous abscess
Vitritis infective
Vivax malaria
Vivax malaria (benign tertian)
Vorticella infection
Vulva furunculosis
Vulval abscess
Vulval boil
Vulval candida
Vulval cellulitis
Vulval infection
Vulval mycotic infection
Vulval sores
Vulval vestibulitis
Vulval wart

Vulval warts
Vulvitis
Vulvitis staphylococcal
Vulvovaginal candida
Vulvovaginal candidiasis
Vulvovaginal condyloma
Vulvovaginal human papilloma virus infection
Vulvovaginal mycotic infection
Vulvovaginal papilloma
Vulvovaginal warts
Vulvovaginitis
Vulvovaginitis aggravated
Vulvovaginitis chlamydial
Vulvovaginitis gonococcal
Vulvovaginitis helminthic
Vulvovaginitis infection
Vulvovaginitis NOS
Vulvovaginitis staphylococcal
Vulvovaginitis streptococcal
Vulvovaginitis trichomonal
Walking pneumonia
Wart
Wart (viral)
Warts
Warts (viral)
Waterhouse-Friderichsen syndrome
Waterhouse-Friderichsen syndrome, meningococcal
WEE infection
Wegner's disease
Weil's disease
Weissella confusa infection
Weissella infection
West Nile viral infection
West Nile viral infections
West Nile virus meningoencephalitis
Western equine encephalitis
Western equine encephalitis virus infection
Wet gangrene
Wet gangrene limb
Wheezy bronchitis
Whipples disease
Whipple's disease
Whipworm infection
White piedra
Whitlow
Whooping cough
Whooping cough due to bordetella parapertussis (B. parapertussis)

Whooping cough due to bordetella pertussis (B. pertussis)
Whooping cough due to other specified organism
Whooping cough, unspecified organism
Withdrawal hepatitis
Worms
Wound abscess
Wound cellulitis
Wound infection
Wound infection bacterial
Wound infection due to Pseudomonas aeruginosa
Wound infection due to Staphylococcus aureus
Wound infection fungal
Wound infection helminthic
Wound infection NEC
Wound infection pseudomonas
Wound infection staphylococcal
Wound infection viral
Wound sepsis
WU virus infection
Wuchereria bancroftii infection
Wuchereria infection
Xanthogranulomatous pyelonephritis
X-linked lymphoproliferative syndrome
Yaws
Yaws of bone
Yaws of skin
Yaws, unspecified
Yeast infection
Yeast infection of the mouth
Yeast infection of the skin
Yeast vaginitis
Yellow fever
Yellow fever vaccine-associated neurotropic disease
Yellow fever vaccine-associated viscerotropic disease
Yellow fever virus infection
Yellow fever, unspecified
Yersinia bacteraemia
Yersinia bacteremia
Yersinia enterocolitica gastroenteritis
Yersinia enterocolitica infection
Yersinia enterocolitica sepsis
Yersinia gastroenteritis
Yersinia infection
Yersinia infection NOS
Yersinia meningitis
Yersinia pestis infection
Yersinia pseudotuberculosis gastroenteritis

Yersinia pseudotuberculosis infection
 Yersinia sepsis
 Young's syndrome
 Zika virus associated birth defect
 Zika virus associated Guillain Barre syndrome
 Zika virus associated Guillain Barre-like syndrome
 Zika virus associated microencephaly
 Zika virus associated ocular birth defect
 Zika virus infection
 Zona
 Zoonosis
 Zoonotic bacterial infection
 Zoonotic bacterial infection NOS
 Zoonotic infection NOS
 Zygomatous abscess
 Zygomycosis
 Zygomycosis (Phycomycosis or Mucormycosis)
 Zygomycosis NOS

Appendix 2 – VAERS Terms Related to Infections and Infestations

| SYMPTOM | #EVENTS |
|-----------------------------------|----------------|
| COVID-19 | 86581 |
| VACCINE BREAKTHROUGH INFECTION | 8446 |
| HERPES ZOSTER | 7978 |
| NASOPHARYNGITIS | 6222 |
| COVID-19 PNEUMONIA | 6188 |
| PNEUMONIA | 5137 |
| URINARY TRACT INFECTION | 2926 |
| SUSPECTED COVID-19 | 2845 |
| SEPSIS | 2292 |
| SINUSITIS | 2065 |
| INFLUENZA | 2056 |
| CELLULITIS | 1895 |
| ASYMPTOMATIC COVID-19 | 1654 |
| ORAL HERPES | 1524 |
| INFECTION | 1506 |
| BRONCHITIS | 1067 |
| GUILLAIN-BARRE SYNDROME | 1036 |
| APPENDICITIS | 834 |
| EAR INFECTION | 735 |
| SEPTIC SHOCK | 610 |
| UPPER RESPIRATORY TRACT INFECTION | 552 |
| PNEUMONIA BACTERIAL | 541 |
| POST-ACUTE COVID-19 SYNDROME | 510 |

| | |
|---|-----|
| VIRAL INFECTION | 472 |
| DIVERTICULITIS | 427 |
| CONJUNCTIVITIS | 416 |
| INJECTION SITE CELLULITIS | 416 |
| CYSTITIS | 392 |
| BREAKTHROUGH COVID-19 | 339 |
| HERPES SIMPLEX | 326 |
| PNEUMONIA ASPIRATION | 303 |
| FUNGAL INFECTION | 300 |
| LARYNGITIS | 299 |
| BACTERIAL INFECTION | 281 |
| HERPES VIRUS INFECTION | 273 |
| STAPHYLOCOCCAL INFECTION | 253 |
| PNEUMONIA VIRAL | 250 |
| SUPERINFECTION | 237 |
| PUSTULE | 210 |
| BACTERAEMIA | 200 |
| HORDEOLUM | 200 |
| KIDNEY INFECTION | 190 |
| LYME DISEASE | 189 |
| ATYPICAL PNEUMONIA | 187 |
| RASH PUSTULAR | 180 |
| LOWER RESPIRATORY TRACT INFECTION | 179 |
| PHARYNGITIS | 172 |
| LOCALISED INFECTION | 171 |
| CANDIDA INFECTION | 170 |
| FURUNCLE | 169 |
| PHARYNGITIS STREPTOCOCCAL | 166 |
| VESTIBULAR NEURONITIS | 163 |
| EYE INFECTION | 156 |
| GASTROENTERITIS VIRAL | 154 |
| INJECTION SITE INFECTION | 149 |
| MULTISYSTEM INFLAMMATORY SYNDROME IN CHILDREN | 147 |
| RESPIRATORY TRACT INFECTION | 147 |
| GENITAL HERPES | 141 |
| ORAL CANDIDIASIS | 139 |
| APPENDICITIS PERFORATED | 134 |
| MASTITIS | 132 |
| CLOSTRIDIUM DIFFICILE INFECTION | 129 |
| ABSCCESS | 128 |
| INFECTIOUS MONONUCLEOSIS | 128 |
| ENCEPHALITIS | 123 |
| SKIN INFECTION | 122 |
| RHINITIS | 116 |
| ESCHERICHIA INFECTION | 113 |
| OPHTHALMIC HERPES ZOSTER | 112 |

| | |
|---------------------------------------|-----|
| STREPTOCOCCAL INFECTION | 110 |
| TOOTH INFECTION | 108 |
| OSTEOMYELITIS | 107 |
| EPSTEIN-BARR VIRUS INFECTION | 106 |
| INJECTION SITE ABSCESS | 100 |
| ARTHRITIS REACTIVE | 98 |
| LABYRINTHITIS | 98 |
| RESPIRATORY SYNCYTIAL VIRUS INFECTION | 93 |
| STAPHYLOCOCCAL BACTERAEMIA | 93 |
| TONSILLITIS | 89 |
| POST HERPETIC NEURALGIA | 88 |
| MENINGITIS | 87 |
| OTITIS MEDIA | 87 |
