

Author List

This list provides the reference numbers to all papers and abstracts on which a given person's name appears as an author. Use the *Find* function (Edit/Find in the command menu) to locate a name within this list. To open any document cited for the author, go to the General Contents Screen and click on the Part Number, then locate the document number in the resulting contents list. For example, to open **G-072**, click on **Part G** in the General Contents screen, find **G-072** in the resulting Part G contents list, and click on the link.

NOTE: To obtain a list of links to individual pages that have a particular name anywhere in the text, whether as an author or in a citation, use the *Search* function. Click on the *Search* icon  if it appears in your toolbar, or select Edit/Search from the command menu. Specify that the search is to be run "in the index named INDEX.PDX" so that all files on the CD will be searched. In addition, check or uncheck as appropriate to your search the options "Whole words only" and "Case-Sensitive." Clicking on any of the lines returned by the search results will display the page on which the string is found, allowing you to eliminate references to other people with the same surname and other nonrelevant matches.

A

Abdrashitova, Svetlana A. (Institute of Microbiology and Virology/Kazakhstan) G-072
Abrams, Stewart H. (Langan Engineering and Environmental Services/USA) F-017, G-109
Abreu, Lillian D.V. (ARCADIS/USA) G-018, G-028
Acheson, Carolyn M. (U.S. EPA/USA) F-070
