**RE: Universal Service Funds Status      Docket #18-999-09**

Attached for your information is the latest status report on the Utah Universal Service Fund. All reported amounts are proprietary.

The Universal Service Fund showed a balance of \$7,375,861.33 at the end of August 2018, which is a net increase of \$1,002,673.50 from the previous month. High cost support disbursed to rural ILECs totaled \$0.00. This is due to the reporting error which occurred last month. Relay Utah disbursements for July were \$30,189.58. Contributions for June totaled \$1,126,631.52.

The net increase for August is a result of regular operations of the USF fund and a late adjustment to period 13, made by the Division of Finance on Sept. 10, 2018 for -\$93,768.44. Regular operations would have resulted in a \$1,096,441.94 increase.

In July, 7 providers reported using revenue as a basis for remitting their USF contribution. Their contributions totaled \$16,298.22. The Division is continuing education efforts for providers that contribute under the old rules. 81 providers remitted USF based on connections. There were 2,880,577 connections reported for June. 2,238 connections were claimed as exempt by providers.
