## Description:
```

The Open Icon Library contains icons from various sources. This file list the license and source of each file in this package. In the rare occasion where there is two files with the same name, you will have to check the developers package. If you wish to use these icons in your project, include this file in your projects documentation.

Summary
Description Perl.jpg
English: O'Reilly created Programming Republic of Perl logos and Powered by Perl buttons. However, the Camel has never been meant to be an official Perl symbol, and if one is to be considered instead, it's an onion.
Português: O'Reilly criou os logotipos da "república de programação do Perl" e os botões "Feito por Perl". Contudo, o camelo nunca foi o símbolo oficial da linguagem, sendo este o desenho de uma cebola.

New_Mercurial_logo.svg

(SVG file, nominally 100 × 120 pixels, file size: 110 KB)

Summary

Description New Mercurial logo.svg

English: New Mercurial logo design.

This logo is a simple "liquid mercury" theme like the original logo, in keeping with the ideas that inspired the name: fast, fluid, flexible, etc. It scales nicely to all sizes, including 16x16 for favicons, prints well, and generally makes the lead Mercurial developer happy.

Original design: Cali Mastny

Various fiddling: Matt Mackall

Français : Nouveau design du logo Mercurial.

Ce logo repose sur le thème simple "mercure liquide" comme le logo original, en gardant l'idée qui a inspiré son nom : rapide, fluide, flexible, etc. Il s'adapte bien à toutes les tailles, y compris 16x16 pour les favicons, s'imprime correctement, et plus généralement, rend le développeur principal de Mercurial heureux.

Summary

Converted to SVG.svg This symbol image should be recreated using vector graphics as an SVG file. This has several advantages; see Commons:Media for cleanup for more information. If an SVG form of this image is already available, please upload it. After uploading an SVG, replace this template with {{vector version available|new image name.svg}}.

.

600 mm by 600 mm (24 in by 24 in) dead end sign, made to the specifications of the 2004 edition of Standard Highway Signs (sign W14-1). Uses the Roadgeek 2005 fonts. (United States law does not permit the copyrighting of typeface designs, and the fonts are meant to be copies of a U.S. Government-produced work anyway.) Colors are from [1] (Pantone Yellow 116), converted to RGB by [2].

## Description  
##
```

Licenses and Authors of these icons are from many different debian packages.

Below is a list of the icons name and its respective package. The easiest way to find the authors and licenses of an icon is:

- *Go to: http://www.debian.org/distrib/packages#search_packages
- *Search for the package
- *Click one of the packages. Example "lenny (stable)"
- *Click the, "Copyright File", link on the left
- *There you go

These files are collected from various packages in Debian. Please take a look at the copyright file of the package to find out the exact license

Each sections has the following keys:

- File - The name of the icon file in /usr/share/app-install/icons/
- Location - The path of the icon inside the package
- Package - The name of the package the file has been extracted of

It may also contain the following keys:

- Orig-Location: The initial filename, without following symlinks, etc.
- Orig-Package: The initial package, without following symlinks.
