SMITHSONIAN CONTRIBUTIONS TO BOTANY • NUMBER 98

# Catalogue of Seed Plants of the West Indies

*Pedro Acevedo-Rodríguez  
and Mark T. Strong*

## **SERIES PUBLICATIONS OF THE SMITHSONIAN INSTITUTION**

Emphasis upon publication as a means of “diffusing knowledge” was expressed by the first Secretary of the Smithsonian. In his formal plan for the Institution, Joseph Henry outlined a program that included the following statement: “It is proposed to publish a series of reports, giving an account of the new discoveries in science, and of the changes made from year to year in all branches of knowledge.” This theme of basic research has been adhered to through the years by thousands of titles issued in series publications under the Smithsonian imprint, commencing with Smithsonian Contributions to Knowledge in 1848 and continuing with the following active series:

Smithsonian Contributions to Anthropology  
Smithsonian Contributions to Botany  
Smithsonian Contributions to History and Technology  
Smithsonian Contributions to the Marine Sciences  
Smithsonian Contributions to Museum Conservation  
Smithsonian Contributions to Paleobiology  
Smithsonian Contributions to Zoology

In these series, the Institution publishes small papers and full-scale monographs that report on the research and collections of its various museums and bureaus. The Smithsonian Contributions Series are distributed via mailing lists to libraries, universities, and similar institutions throughout the world.

Manuscripts submitted for series publication are received by the Smithsonian Institution Scholarly Press from authors with direct affiliation with the various Smithsonian museums or bureaus and are subject to peer review and review for compliance with manuscript preparation guidelines. General requirements for manuscript preparation are on the inside back cover of printed volumes. For detailed submissions requirements and to review the “Manuscript Preparation and Style Guide for Authors,” visit the Submissions page at [www.scholarlypress.si.edu](http://www.scholarlypress.si.edu).

## ABSTRACT

Acevedo-Rodríguez, Pedro and Strong, Mark T. Catalogue of Seed Plants of the West Indies. *Smithsonian Contributions to Botany*, number 98, xxv + 1192 pages, 3 maps, 4 tables, 2012.—The catalogue enumerates all taxa of Gymnosperms, Dicotyledons, and Monocotyledons occurring in the West Indies archipelago excluding the islands off the coast of Venezuela (Netherlands Antilles, Venezuelan Antilles, Tobago, and Trinidad). For each accepted taxon, nomenclature (including synonyms described from the West Indies and their references to publication), distribution in the West Indies (including endemic, native, or exotic status), common names, and a numerical listing of literature records are given. Type specimen citations are provided for accepted names and synonyms of Cyperaceae, Sapindaceae, and some selected genera in several families including the Apocynaceae (*Plumeria*), Aquifoliaceae (*Ilex*), and Santalaceae (*Dendrophthora*). More than 30,000 names were treated comprising 208 families, 2,033 genera, and 12,279 taxa, which includes exotic and commonly cultivated plants. The total number of indigenous taxa was approximately 10,470 of which 71% (7,446 taxa) are endemic to the archipelago or part of it. Fifteen new names, 37 combinations, and 7 lectotypifications are validated. A searchable website of this catalogue, maintained and continuously updated at the Smithsonian Institution, is available at <http://botany.si.edu/antilles/WestIndies/>.

# Introduction

---

The present publication represents more than a decade of arduous work devoted to the compilation and revision of scientific and common names of the taxa of seed plants known to occur in the West Indies. The West Indies as defined in a previous paper by Acevedo-Rodríguez and Strong (2008) include three main archipelagos that divide the Caribbean Sea from the Atlantic Ocean (Map. 1), i.e., the Bahama Archipelago (Bahamas Islands + Turks and Caicos Islands), the Greater Antilles (Map 3), and the Lesser Antilles (Map 2). The project originally started as a compilation of scientific names once used for the seed plants of the Greater Antilles, and it was thought to constitute the starting point for the Flora of the Greater Antilles project. While funding for such an ambitious project never materialized, the checklist slowly increased its scope to include the Bahamas, the Lesser Antilles, and common names for plants from the region. Due to the lack of time and resources, we have not included records from the islands off the coast of Venezuela (Netherland Antilles, Venezuelan Antilles, Trinidad, and Tobago).

The *Catalogue of Seed Plants of the West Indies* constitutes the first modern effort to account for all the names (scientific and vernacular) of seed plants known to occur in the Bahama Archipelago, the Greater Antilles, and the Lesser Antilles. We have compiled binomials treated in major floristic works and taxonomic revisions pertinent to the West Indies. Additional names were compiled from specimen records at the Smithsonian Institution (U.S. National Herbarium)

MAP 1. West Indies and Surrounding Continents.

---

and other herbaria, botanical articles, the International Plant Names Index (IPNI), Kew Gardens World Checklist of Selected Plant Families (WCSPF), and the International Legume Database and Information Service (ILDIS). Once the initial compilation was completed, we updated the nomenclature and distributions according to modern monographs, floras of the New World, and from catalogues such as WCSPF and ILDIS. Families lacking modern treatments were then sent to various specialists for extensive revision (see list of contributors). This catalogue is accompanied by a searchable website maintained at the Smithsonian Institution (<http://botany.si.edu/antilles/WestIndies/>), which is continuously updated to incorporate the latest taxonomical concepts and newly described taxa. The catalogue and the website are designed to work together. The catalogue provides rough distributions outside of the West Indies for every accepted scientific name and type information for some groups and selected species, e.g., Cyperaceae. The website allows for numerous searches by family, genus, species, common names, island, and endemism status. In addition, it contains images of numerous accepted species, and in the future will have distribution maps and citation of exsiccatae. Ultimately, we plan to provide type specimen information for all accepted species.

For ease of use, this project (catalogue and web pages) presents families in alphabetical order following the Angiosperm Phylogeny Group (APG-III) family concepts. Genera, species, and synonyms are also arranged in alphabetical order. Accepted names are in **bold** face and synonyms *italicized*.

Where type specimen information is given, herbarium acronyms follow Index Herbariorum (<http://sweetgum.nybg.org/ih/>). Genera flagged with a single (\*) asterisk are endemic while those with a (\*\*) double asterisk are nearly endemic to the West Indies. Nearly endemic genera are those where the vast majority of its species are endemic to the region under consideration. In most cases, basionyms are provided only for native species. A number was given to each reference cited and these correspond to the numbers listed under each accepted name. A species was excluded if no specimen record was found to substantiate it or it was based on a secondary reference. These are listed alphabetically at the end of each family treatment. In order to facilitate searches of genera (which are currently recognized in families different from their traditional circumscription), an index to generic names is provided at the end of the catalogue.

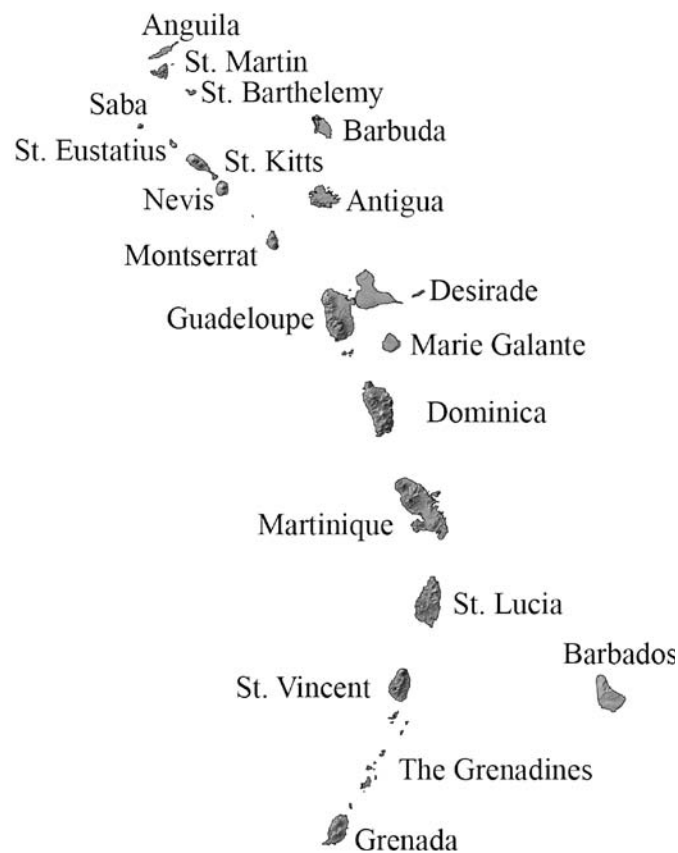

The catalogue provides distributions of the accepted taxa within the Greater and the Lesser Antilles, but not within the Bahamas. Distributions of taxa known to occur in both Dominican Republic and Haiti are presented

as Hispaniola. If taxa are only known for either country, then the country name is indicated in the distribution. Endemism in Puerto Rico and the Virgin Islands is accounted altogether as one unit as these islands belong to the biogeographical unit called the *Puerto Rican bank* (Acevedo-Rodríguez et al. 1996).

The following distribution categories are recognized in this work: native, endemic, exotic, and cultivated. These categories are sometimes difficult to apply as conclusive data on species origin may be missing. The term exotic is used to denote species known to be introduced that seem to be common or naturalized. The term cultivated is restricted to species known only under cultivation and not self-perpetuating.

## DIVERSITY

The West Indies are considered one of the biodiversity hotspots with high priority for conservation in the World due to its biological richness and the fragility of the

MAP 2. Lesser Antilles.

MAP 3. Greater Antilles.

ecosystem (Myers et al., 2000; Mittermeier et al., 2004). In 2008, Acevedo-Rodríguez and Strong estimated for the first time the total percentage of endemism exhibited by the seed plants of this region to be nearly 72%. Additional years of data refinements and analyses confirm our original estimates (Table 1), with a slight decrease, and the figure is closer to 71%. Endemism is tallied by island in the case of Cuba, Hispaniola, and Jamaica; as biotic region in the case of Puerto Rico and the Virgin Islands; or as an archipelago in the case of Bahamas and the Lesser Antilles.

The West Indies contain a total of 208 families of seed plants of which only 183 are indigenous to the re-

gion. There are no endemic families of seed plants in the West Indies, although in the past, Picrodendraceae and Goetzeaceae were considered endemic. However, molecular phylogenetic studies have shown them to be nested within Euphorbiaceae and Solanaceae, respectively, and therefore not meriting recognition at the family level. A list of the ten most species-rich families is presented in Table 3, these contributing to nearly 60% of the native taxa of the region.

There are a total of 2,034 genera of seed plants reported for the West Indies, of which 1,474 are considered indigenous, and 183 endemic (+10 nearly endemic), accounting for 12.4% of generic endemism (Table 1). The endemic genera are represented by 950 species, these con-

TABLE 1. Seed Plant Floristic and Endemism Estimates per Archipelago or Island. (Values in parentheses represent number of endemic taxa.)

Island(s)	Families	Number of genera	Percent of generic endemism	Total taxa	Native taxa	Percent of endemic taxa
Bahamas	127	507 (0)	0%	1337	1068 (101)	9.4%
Cuba	195	1210 (65)	5.3%	6567	5778 (2980)	51.3%
Hispaniola	185	1102 (31)	2.9%	5430	4433 (1881)	41.9%
Jamaica	164	810 (6)	0.7%	3175	2495 (805)	32.4%
Puerto Rico & VI <sup>a</sup>	163	792 (1)	0.1%	3243	2108 (292)	13.6%
Lesser Antilles	163	765 (1)	0.1%	2656	1946 (263)	13.8%
<b>West Indies</b>	<b>183</b>	<b>1474 (182)</b>	<b>12.4%</b>	<b>12,200</b>	<b>10,401 (7383)</b>	<b>71%</b>

<sup>a</sup> VI = Virgin Islands.

**TABLE 2.** Ten Most Diverse Families of Seed Plants Native to the West Indies. (Numbers indicate taxa (species plus infra species) or genera.)

Family	Number of native taxa	Number of endemic taxa	Family	Number of native genera	Number of endemic genera
Rubiaceae	856	730	Asteraceae	145	41
Asteraceae	660	489	Orchidaceae	111	12
Orchidaceae	644	437	Poaceae	96	8
Leguminosae	587	319	Rubiaceae	89	27
Myrtaceae	530	301	Fabaceae	89	10
Euphorbiaceae	398	314	Euphorbiaceae	56	11
Melastomataceae	429	373	Scrophulariaceae	31	4
Poaceae	435	130	Malvaceae	31	2
Cyperaceae	329	91	Melastomataceae	28	3
Urticaceae	256	235	Apocynaceae	23	2

tributing only 9% of the total native seed plant diversity in the region. The most diverse genera in the West Indies are those with wide distributions, ranging throughout the Neotropics. A list of the ten most species-rich indigenous genera is provided in Table 3. Most of the taxa in these genera are endemic and correspond to the most diverse families in the West Indies.

The current estimate for total number of seed plant taxa (species and infra species level) in the West Indies is 12,280, a number that includes exotics and commonly cultivated plants. The total number of indigenous taxa however, is approximately 10,470 of which 7,446 are endemic to the archipelago or part of it, contributing to 71% endemism for the West Indies.

## SYMBOLS AND ABBREVIATIONS USED IN THE CATALOGUE

\* = Endemic genus

\*\* = Nearly endemic

# Acknowledgments

---

**N**umerous colleagues have contributed in one way or another to the completion of this project since its inception more than a decade ago. **Marilyn Hansel** began the first database, entering several thousand records for names extracted from major Caribbean floristic treatments. **Sylvia Orli** developed and formalized the website version of the Catalogue. **Chris Tuccinardi** helped on numerous occasions with the merging and migration of database files, as well as in the creation of various queries to proofread the data or to obtain importance values of taxa. Likewise **Ellen Farr** helped with database structure and the development of efficient models on which to collect floristic and bibliographical data. **Fiona Wilkinson** added numerous recent taxonomic records to the database. **Jamie Whitacre** compiled the common names from the West Indian botanical literature. **Dan Cole** created the West Indian maps; Dr. **Dan Nicolson** answered numerous questions regarding nomenclature and Araceae literature.

Specialists either from Smithsonian or other institutions provided substantial assistance by addressing numerous questions on collections, nomenclature, phylogeny, and taxonomy of various taxa, these include Drs. **Frank Axelrod** (UPRRP), **Paul E. Berry** (MICH), **Douglas C. Daly** (NY), **Piero G. Delprete** (CAY), **Laurence J. Dorr** (US), **Kanchi N. Gandhi** (HUH), **Jacquelyn Kallunki** (NY), **Eve Lucas** (K), **James Luteyn** (NY), **Vivian Negrón-Ortiz** (U.S. Fish and Wildlife Service), **Guy Nesom** (BRIT), **Richard Olmstead** (WTU), **Rosa Rankin** (HAJB), **Susanne Renner** (M), **Dan Skean** (ALBC), **Warren L. Wagner** (US), **John Wiersema** (USDA- GRIN), and **Kenneth Wurdack** (US).

**John D.H. Smith** (Theatrum Botanicum, UK) sent numerous corrections for plants listed for the British Virgin Islands, **Roger Graveson** (St. Lucia) reported new records for St. Lucia (Lesser Antilles). Dr. **Francisco Cejas Rodríguez** (Centro Nacional de Biodiversidad, Cuba), sent an exhaustive list of corrections for the flora of Cuba. Dr. **Sean Carrington** (University of the West Indies) reviewed the status of taxa regarded endemic to the Lesser Antilles, **Sara Alexander** (US) queried our data base and provided several spelling corrections; **Richard Worthington** (UTEP), **Miguel Vives** (Puerto Rico), and **Rubén Padrón** (Puerto Rico) sent specimen records of new additions to the flora of Puerto Rico. Drs. **Christian Feuillet** (US), **John T. Kartesz** (BONAP), and **Peter M. Jørgensen** (MO) meticulously reviewed and made numerous corrections and suggestions to the manuscript. Finally, we thank Dr. **Rob Naczi** (NY) for identifying some Dominican Republic *Carex*.

Grants from the **USDA Invasive Species Initiative** and from the **Office of Latino Initiatives** at NMNH, contributed funding toward the compilation of vernacular names published for the Caribbean region.

# Catalogue of Seed Plants of the West Indies

## ACANTHACEAE

Reviewed by D. Wasshausen

Genera. Total: 40; native: 21; endemic: 6.

Taxa. Total: 180; native: 125; endemic: 99.

*Acanthus montanus* (Nees) T. Anderson, J. Proc. Linn. Soc., Bot. 7: 37. 1863 ["1864"]; *Cheilopsis montana* Nees in A.L.P.P. de Candolle, Prodr. 11: 272. 1847.

Distribution: Cultivated in Hispaniola (Dominican Republic); native to Africa and Europe.

Common Name: Cardo santo extranjero (Dominican Republic).

References: 7, 159.

*Adhatoda carthagenensis* (Jacq.) Nees = *Justicia carthagenensis* Jacq.

*Adhatoda cydoniifolia* Nees = *Justicia cydoniifolia* (Nees) Lindau

*Adhatoda eustachiana* (Jacq.) Nees = *Justicia eustachiana* Jacq.

*Adhatoda origanoides* Nees = *Justicia alainii* Stearn

*Adhatoda periplocifolia* (Jacq.) Nees = *Justicia periplocifolia* Jacq.

*Adhatoda reflexiflora* (Vahl) Nees = *Justicia periplocifolia* Jacq.

*Adhatoda sphaerosperma* (Vahl) Nees = *Justicia sphaerosperma* Vahl

*Adhatoda tetramera* Bello = *Siphonoglossa sessilis* (Jacq.) D.N. Gibson

*Adhatoda vasica* Nees = *Justicia adhatoda* L.

*Amphiscopia retusa* (Vahl) Nees = *Justicia carthagenensis* Jacq.

\**Ancistranthus harpochiloides* (Griseb.) Lindau in I. Urban, Symb. Antill. 2: 226. 1900; *Dianthera harpochiloides* Griseb., Cat. Pl. Cub. 196. 1866; *Jacobinia harpochiloides* (Griseb.) Benth. & Hook. f., Gen. Pl. 2: 1114. 1876.

Distribution: Endemic to Cuba.

References: 3, 30, 152.

*Ancylogyne longiflora* Hook. f. = *Sanchezia longiflora* (Hook. f.) Hook. f. ex Planch.

*Andrographis paniculata* (Burm. f.) Wall. ex Nees in N. Wallich, Pl. Asiat. Rar. 3: 116. 1832; *Justicia paniculata* Burm. f., Fl. Ind. 9. 1768.

Distribution: Exotic in Bahamas, Cuba, Hispaniola, Jamaica, and Lesser Antilles (Barbados, Dominica, Grenada, St. Vincent); native to tropical Asia.

Common Name: Rice bitters (Bahamas, Jamaica).

References: 1, 2, 3, 5, 7, 45, 159, 224.

Note: Considered an invasive species by CeNPIO.

*Anthacanthus acicularis* (Sw.) Nees = *Oplonia acicularis* (Sw.) Stearn

*Anthacanthus acicularis* sensu Lindau = *Oplonia armata* var. *palliodor* Stearn, in part

*Anthacanthus acicularis* sensu Lindau = *Oplonia microphylla* (Lam.) Stearn, in part

*Anthacanthus armatus* sensu Bello = *Oplonia spinosa* (Jacq.) Raf. subsp. *spinosa*

*Anthacanthus bispinosus* Griseb. = *Barleriola solanifolia* (L.) Oerst. ex Lindau

*Anthacanthus cuneatus* Nees = *Oplonia microphylla* (Lam.) Stearn

*Anthacanthus jamaicensis* Griseb. = *Oplonia acicularis* (Sw.) Stearn

*Anthacanthus lycioides* (Link) Nees = *Oplonia microphylla* (Lam.) Stearn

*Anthacanthus microphyllus* (Lam.) Nees = *Oplonia microphylla* (Lam.) Stearn

*Anthacanthus nannophyllus* Urb. = *Oplonia nannophylla* (Urb.) Stearn

*Anthacanthus purpurascens* Griseb. = *Oplonia purpurascens* (Griseb.) Stearn

*Anthacanthus spinosus* (Jacq.) Nees = *Oplonia spinosa* (Jacq.) Raf. subsp. *spinosa*

*Anthacanthus spinosus* sensu Lindau = *Oplonia acicularis* (Sw.) Stearn

*Anthacanthus spinosus* (Jacq.) Nees var. *horridus* Nees = *Oplonia spinosa* (Jacq.) Raf. subsp. *insularis* Borhidi

*Anthacanthus tetrastichus* C. Wright ex Griseb. = *Oplonia tetrasticha* (C. Wright ex Griseb.) Stearn

*Apassalus cubensis* (Urb.) Kobuski, Ann. Missouri Bot. Gard. 15: 2. 1928; *Dyschoriste cubensis* Urb., Symb. Antill. 7: 381. 1912.

Distribution: Endemic to Cuba.

References: 3, 30, 152.

*Apassalus diffusus* (Nees) Kobuski, Ann. Missouri Bot. Gard. 15: 1. 1928, var. *diffusus*; *Dipteracanthus diffusus* Nees in A.L.P.P. de Candolle, Prodr. 11: 124. 1847; *Dyschoriste diffusa* (Nees) Urb., Symb. Antill. 7: 380. 1912.

*Dyschoriste humistrata* Lindau in I. Urban, Symb. Antill. 2: 188. 1900.

Distribution: Endemic to Hispaniola.

References: 5, 7, 30, 266.

*Apassalus diffusus* (Nees) Kobuski var. *glabratus* (Urb.) Borhidi, Acta Bot. Hung. 29: 189. 1983; *Dyschoriste diffusa* (Nees) Urb. var. *glabrata* Urb., Ark. Bot. 22A(8): 90. 1929.

Distribution: Endemic to Hispaniola (Haiti).

References: 7, 149.

*Apassalus humistratus* (Michx.) Kobuski, Ann. Missouri Bot. Gard. 15: 3. 1928; *Ruellia humistrata* Michx., Fl. Bor.-Amer. 2: 23. 1803; *Dyschoriste humistrata* (Michx.) Kuntze, Revis. Gen. Pl. 2: 486. 1891.

*Ruellia diffusa* Griseb., Cat. Pl. Cub. 195. 1866.

Distribution: Native to Cuba, Hispaniola, North America, and South America.

References: 3, 7, 30, 151.

*Apassalus parvulus* Alain & Leonard, Contr. Ocas. Mus. Hist. Nat. Colegio "De La Salle" 15: 20. 1956.

Distribution: Endemic to Cuba.

References: 3, 39.

Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).

- Barleria alata* S. Moore, J. Bot. 18: 266. 1880.
- Distribution: Exotic in Cuba; native to Africa.
- References: 151, 159, 254.
- Barleria lupulina* Lindl., Edwards's Bot. Reg. 18: t. 1483. 1832.
- Distribution: Exotic in Bahamas, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. John, St. Thomas), Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Grenadines, Martinique, Montserrat, St. Lucia, St. Vincent), and Margarita; native to Africa and tropical Asia.
- Common Names: Barré volé, Barre voleur, Barré bolé (Haiti).
- References: 1, 2, 5, 7, 19, 30, 45, 58, 61, 150, 159, 323.
- Barleria prionitis* L., Sp. Pl. 636. 1753.
- Distribution: Exotic in Jamaica, Puerto Rico, and Lesser Antilles (Antigua, Barbados, Grenada, Guadeloupe); native to Africa and tropical Asia.
- Common Names: Picanier jaune (Lesser Antilles), Espinosa amarilla (Puerto Rico).
- References: 1, 2, 30, 58, 131, 159, 295.
- Barleria pyramidata* Lam. = *Ruellia blechum* L.
- Barleria repens* Nees in A.L.P.P. de Candolle, Prodr. 11: 230. 1847.
- Distribution: Exotic in Puerto Rico and Virgin Islands (St. Thomas); native to Old World.
- Reference: 254.
- Barleria saturejoides* Griseb. = *Barleriola saturejoides* (Griseb.) M. Gómez
- Barleria solanifolia* L. = *Barleriola solanifolia* (L.) Oerst. ex Lindau
- Barleria strigosa* Willd., Sp. Pl. 3: 379. 1800.
- Distribution: Exotic in Virgin Islands (St. Thomas) and Lesser Antilles (Martinique); native to tropical Asia.
- References: 1, 30, 58, 152, 159.
- \**Barleriola inermis* Urb. & Ekman, Ark. Bot. 22A(8): 90. 1928.
- Distribution: Endemic to Hispaniola (Dominican Republic).
- References: 7, 152.
- \**Barleriola multiflora* Urb. & Ekman, Ark. Bot. 22A(8): 91. 1928.
- Distribution: Endemic to Hispaniola (Haiti).

*Pachystachys coccinea* (Aubl.) Nees = *Pachystachys spicata* (Ruiz & Pav.) Wassh.

*Pachystachys lutea* Nees in A.L.P.P. de Candolle, Prodr. 11: 320. 1847. Distribution: Exotic in Hispaniola and Margarita; native to Peru.

Common Name: Camarón (Dominican Republic).

References: 123, 323, 387.

*Pachystachys spicata* (Ruiz & Pav.) Wassh., Proc. Biol. Soc. Wash. 99: 175. 1986; *Justicia spicata* Ruiz & Pav., Fl. Peruv. 1: 8. 1798.

*Pachystachys coccinea* (Aubl.) Nees in A.L.P.P. de Candolle, Prodr. 11: 319. 1847.

Distribution: Native to Cuba, Jamaica, Lesser Antilles (Dominica, Grenada, Guadeloupe, Martinique, St. Lucia, St. Vincent), Margarita, and South America; exotic in Hispaniola, Puerto Rico, and Virgin Islands (Tortola).

Common Names: Panache (Haiti), Chandelière, Panache d'officier, Plumet d'officier (Lesser Antilles).

References: 1, 2, 3, 5, 7, 58, 224, 231, 323.

Note: Considered exotic and invasive in Cuba by CeNBIO.

*Phidiasia lindavii* Urb. = *Odontonema lindavii* (Urb.) Acev.-Rodr.

*Phlogacanthus turgidus* (Fuaux) Lindau in I. Urban, Symb. Antill. 2: 211. 1900; *Meninia turgida* Fuaux, Bot. Mag. 99: t. 6043. 1873.

Distribution: Exotic in Lesser Antilles (Martinique); native to Asia.

References: 1, 30, 152.

*Pseuderanthemum atropurpureum* (Hort. ex A. de Vos) Radlk. = *Pseuderanthemum carruthersii* (Seem.) Guillaumin

*Pseuderanthemum bicolor* Radlk., Sitzungsber. Math.-Phys. Cl. Königl. Bayer. Akad. Wiss. München 13: 286. 1883.

Distribution: Cultivated in Cuba, Puerto Rico, Lesser Antilles (Martinique), and South America; native to Malesia.

Common Names: Amor y celos, Erantemo, Suegra y nuera (Cuba), Hortensia (Puerto Rico).

References: 30, 131, 132, 152.

*Pseuderanthemum carruthersii* (Seem.) Guillaumin, Ann. Inst. Bot.-Geol. Colon. Marseille, ser. 6, 5-6: 48. 1948; *Eranthemum carruthersii* Seem., Fl. Vit. 185. 1866.

*Justicia borinquensis* Britton in N.L. Britton & P. Wilson, Sci. Surv. Porto Rico & Virgin Islands 6: 217. 1925.  
*Justicia pauciflora* Vahl, Eclog. Amer. 1: 2. 1797 ["1796"].  
Distribution: Native to Hispaniola, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Antigua, Grenada, Guadeloupe, Martinique, Montserrat, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Martin), Margarita, Mexico, Central America, and South America.  
Common Name: Cossie balsam (Lesser Antilles).  
References: 1, 5, 7, 19, 30, 58, 61, 152, 323.
- Stemonacanthus coccineus* (L.) Griseb. = *Ruellia coccinea* (L.) Vahl
- Stenandrium acuminatum* Urb., Symb. Antill. 7: 382. 1912.  
Distribution: Endemic to Hispaniola (Haiti).  
References: 5, 7, 30.
- Stenandrium arnoldii* H. Dietr., Wiss. Z. Friedrich-Schiller-Univ. Jena, Math.-Naturwiss. Reihe 33: 725. 1984.  
Distribution: Endemic to Cuba.  
References: 39, 149.  
Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).
- Stenandrium bracteosum* (Britton & Millsp.) Britton ex Leonard, Wrightia 2: 77. 1960; *Gerardia bracteosa* Britton & Millsp., Bahama Fl. 402. 1920.  
Distribution: Endemic to Bahamas.  
Reference: 45.
- Stenandrium carolinae* Leonard & Proctor ex Leonard, Wrightia 2: 75. 1960.  
Distribution: Endemic to Bahamas.  
Reference: 45.
- Stenandrium crenatum* Urb., Symb. Antill. 9: 130. 1923.  
Distribution: Endemic to Cuba.  
References: 3, 30.
- Stenandrium droseroides* Nees in A.L.P.P. de Candolle, Prodr. 11: 284. 1847, subsp. *droseroides*; *Gerardia droseroides* (Nees) S.F. Blake, Rhodora 20: 68. 1918.  
Distribution: Endemic to West Indies; native to Bahamas and Cuba.  
Common Name: Sundew stenandrium (Bahamas).  
References: 3, 30, 45.
- Stenandrium droseroides* Nees subsp. *longibracteatum* H. Dietr., Wiss. Z. Friedrich-Schiller-Univ. Jena, Math.-Naturwiss. Reihe 32: 851. 1983.  
Distribution: Endemic to Cuba.  
Reference: 149.
- Stenandrium ekmanii* Urb., Symb. Antill. 9: 130. 1923.  
*Stenandrium glabrescens* Urb., Symb. Antill. 9: 131. 1923.  
Distribution: Native to Cuba and South America.  
References: 3, 30, 39, 152.  
Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).
- Stenandrium glabrescens* Urb. = *Stenandrium ekmanii* Urb.
- Stenandrium heterotrichum* Borhidi, Acta Bot. Acad. Sci. Hung. 23: 316. 1978 ["1977"].  
Distribution: Endemic to Cuba.  
Reference: 149.
- Stenandrium ovatum* Urb., Symb. Antill. 9: 129. 1923.  
Distribution: Endemic to Cuba.  
References: 3, 30.
- Stenandrium pallidum* H. Dietr., Wiss. Z. Friedrich-Schiller-Univ. Jena, Math.-Naturwiss. Reihe 32: 850. 1983.  
Distribution: Endemic to Cuba.  
References: 39, 149.  
Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).
- Stenandrium pinetorum* (Britton & P. Wilson) Alain, Revista Soc. Cub. Bot. 13: 9. 1956; *Gerardia pinetorum* Britton & P. Wilson, Bull. Torrey Bot. Club 43: 466. 1916.  
Distribution: Endemic to Cuba.  
References: 3, 134.
- Stenandrium punctatum* Griseb. = *Stenandrium scabrosum* (Sw.) Nees subsp. *punctatum* (Griseb.) Borhidi

*Stenandrium ruprestre* (Sw.) Nees = *Stenandrium tuberosum* (L.) Urb.

*Stenandrium scabrosum* (Sw.) Nees in A.L.P.P. de Candolle, Prodr. 11: 284. 1847, subsp. *scabrosum*; *Ruellia scabrosa* Sw., Fl. Ind. Occid. 2(2): 1074. 1800.

Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola. References: 3, 5, 7, 30.

*Stenandrium scabrosum* (Sw.) Nees subsp. *punctatum* (Griseb.) Borhidi, Bot. Közlem. 62: 27. 1975; *Stenandrium punctatum* Griseb., Cat. Pl. Cub. 196. 1866.

Distribution: Endemic to Cuba.

References: 3, 149.

Note: Cited for Hispaniola by León & Alain (3), but apparently not found there.

*Stenandrium scabrosum* sensu Griseb. = *Stenandrium wrightii* Lindau

*Stenandrium tuberosum* (L.) Urb., Symb. Antill. 4: 576. 1911; *Gerardia tuberosa* L., Sp. Pl. 610. 1753.

*Ruellia ruprestis* Sw., Prodr. 93. 1788; *Stenandrium ruprestre* (Sw.) Nees in A.L.P.P. de Candolle, Prodr. 11: 283. 1847.

*Gerardia portoricensis* Britton & P. Wilson, Sci. Surv. Porto Rico & Virgin Islands 6: 214. 1925.

Distribution: Endemic to West Indies; native to Cuba, Hispaniola, Puerto Rico, Virgin Islands (St. John, St. Thomas), and Lesser Antilles (Barbados, Guadeloupe, St. Martin). Common Names: Mata espiritista, Yerba maravilla blanca (Puerto Rico). References: 1, 3, 5, 7, 19, 30, 58, 61, 131, 152, 295.

*Stenandrium undulatum* Urb. & Ekman, Ark. Bot. 22A(8): 92. 1928.

Distribution: Endemic to Hispaniola (Haiti).

References: 5, 7.

*Stenandrium wrightii* Lindau in I. Urban, Symb. Antill. 2: 208. 1900.

*Stenandrium scabrosum* sensu Griseb., Pl. Wright. 2: 525. 1862, non Nees.

Distribution: Endemic to Cuba.

References: 3, 30.

*Stephanophysum brevifolium* Pohl = *Ruellia brevifolia* (Pohl) C. Ezcurra

*Stethoma comata* (L.) Britton = *Justicia comata* (L.) Lam.

*Stethoma pectoralis* (Jacq.) Raf. = *Justicia pectoralis* Jacq.

*Stethoma verticillaris* (Nees) Britton = *Justicia martinsoniana* R.A. Howard

*Strobilanthes colorata* (Nees) T. Anderson, J. Linn. Soc., Bot. 9: 481. 1867; *Goldfussia colorata* Nees in N. Wallich, Pl. Asiat. Rar. 3: 89. 1832.

Distribution: Exotic in Lesser Antilles (Martinique); native to India. References: 1, 30, 151.

*Strobilanthes dyeriana* Mast., Gard. Chron. 1: 442. 1893.

Distribution: Exotic in Cuba, Hispaniola, and Margarita; native to India.

Common Name: Erantemo purpúreo (Cuba).

References: 7, 132, 323.

*Strobilanthes glomerata* (Nees) T. Anderson, J. Linn. Soc., Bot. 9: 475. 1867; *Goldfussia glomerata* Nees in N. Wallich, Pl. Asiat. Rar. 3: 88. 1832.

Distribution: Exotic in Jamaica; native to India.

References: 30, 151, 254.

*Teliostachya alopecuroidea* (Vahl) Nees in C.F.P. von Martius, Fl. Bras. 9: 72. 1847; *Ruellia alopecuroidea* Vahl, Ecl. Amer. 2: 49. 1798; *Lepidagathis alopecuroidea* (Vahl) R. Br. ex Griseb., Fl. Brit. W. I. 453. 1862.

Distribution: Native to Cuba, Hispaniola, Puerto Rico, Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Guadeloupe, Marie

Galante, Montserrat, St. Lucia), Central America, South America, and Old World.

Common Names: Fond sang, Queue de renard, Zeau noire (Lesser Antilles), Pata de gallina (Puerto Rico).

References: 1, 3, 7, 30, 58, 131.

*Tetramerium racemulosum* (Wikstr.) Nees = *Justicia racemulosa* Wikstr.

*Thunbergia affinis* S. Moore, J. Bot. 18: 5. 1880.

Distribution: Exotic in Jamaica; native to tropical Africa.

Reference: 254.

*Thunbergia alata* Bojer ex Sims, Bot. Mag. 52: t. 2591. 1825.

Distribution: Naturalized in Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, Tortola), Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Guadeloupe, Martinique, Montserrat, Saba, St. Lucia, St. Vincent), and Trinidad; native to Africa.

Common Names: Anteojo de poeta, Jazmín del vedado, Ojo de poeta (Cuba), Boca de escopeta, Ojo de poeta (Dominican Republic), Black-eyed susan (Jamaica), Fleur jaune-savane, Golden bells (Lesser Antilles), Culo de poeta, Susana (Puerto Rico).

References: 1, 2, 3, 5, 7, 32, 45, 58, 61, 75, 131, 150, 159, 224, 340. Note: Considered an invasive species by CeNBIO.

*Thunbergia erecta* (Benth.) T. Anderson, J. Proc. Linn. Soc., Bot. 7: 18. 1863 ["1864"]; *Meyenia erecta* Benth., Niger Fl. 476. 1849.

Distribution: Exotic in Cuba, and Hispaniola, Puerto Rico, Virgin Islands (Tortola), Lesser Antilles (Dominica, Guadeloupe, Montserrat, St. Lucia), Margarita, and South America; native to Africa.

Common Names: Conchita, Maena, Mainereta, Mainereta blanca, Matrimonio chino, Meyenia, Vellosilla (Cuba), Campanita india, Corona de Nazareno Pétule (s), Trompeta de ángeles (Dominican Republic), Queue de loup (Lesser Antilles), Angelina, Boca de vieja, Violeta, Viuda (Puerto Rico).

References: 1, 3, 7, 23, 58, 131, 132, 150, 159, 231, 323.

*Thunbergia fragrans* Roxb., Pl. Coromandel 1: 47. 1795.

Distribution: Naturalized in Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas, Tortola), and Lesser Antilles (Anguilla, Antigua, Barbados, Dominica, Grenada, The Grenadines, Guadeloupe, Martinique, Montserrat, Nevis, Saba, St. Kitts, St. Lucia, St. Vincent); native to Asia.

Common Names: Anteojo de poeta, Bejuco borococo, Flor de nieve, Jazmín del vedado, Thunbergia (Cuba), Jazmín de maya, Thunbergia, Velo de novia (Dominican Republic), White nightshade (Jamaica), White lady (Lesser Antilles), Flor de nieve, Susana blanca (Puerto Rico), White Susan vine (Virgin Islands). References: 1, 2, 3, 5, 7, 19, 32, 45, 58, 61, 123, 131, 132, 150, 159, 224.

Note: Considered an invasive species by CeNBIO.

*Thunbergia grandiflora* Roxb., Bot. Cab. 4: t. 324. 1820.

Distribution: Exotic in Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. Thomas), Lesser Antilles (Dominica, Guadeloupe, Martinique, Saba, St. Lucia, St. Vincent), and Margarita; naturalized in Puerto Rico; native to Asia.

Common Names: Faurestina, Liane de chine, Pompeya, Tumbergia azul (Cuba), Brisa de la mañana, Corona del rey, Ristra de ajo, Thunbergia (Dominican Republic), Fausto, Pompeya (Puerto Rico). References: 1, 2, 3, 5, 7, 32, 58, 61, 123, 131, 132, 150, 159, 224, 323. Note: An ornamental species, escaping and becoming invasive.

*Thunbergia laurifolia* Lindl., Gard. Chron. 1856: 260. 1856.

Distribution: Exotic in Lesser Antilles (Dominica, Nevis); native to Asia and Malesia.

References: 1, 159.

*Thunbergia mysorensis* (Wight) T. Anderson, J. Linn. Soc., Bot. 9: 448. 1867.

Distribution: Exotic in Lesser Antilles (Guadeloupe); native to tropical Asia.

References: 159, 254.

*Thunbergia vogeliana* Benth. in W.J. Hooker, Niger Fl. 476. 1849.

Distribution: Exotic in Cuba and Tobago; native to tropical West Africa.

References: 159, 254.

*Thysacanthus callistachyus* (Schltdl. & Cham.) Nees = *Odontonema callistachyum* (Schltdl. & Cham.) Kuntze

*Thysacanthus cuspidatus* Nees = *Odontonema cuspidatus* (Nees) Kuntze

*Thysacanthus nitidus* (Jacq.) Nees = *Odontonema nitidum* (Jacq.) Kuntze

*Tubiflora shaferi* P. Wilson = *Elytraria shaferi* (P. Wilson) Leonard

#### DOUBTFUL NAMES

*Ruellia angustifolia* Sw., Prodr. 93. 1788; *Blechnum angustifolium* (Sw.) R. Br., Prodr. 1: 478. 1810.

Distribution: Described for the West Indies.

References: 30, 151, 546.

Note: A name of doubtful application, not a *Ruellia*.

## ADOXACEAE

**Genera.** Total: 2; native: 1; endemic: 0.

**Taxa.** Total: 8; native: 7; endemic: 7.

*Sambucus canadensis* L. = *Sambucus nigra* L. subsp. *canadensis* (L.) Bolli

*Sambucus canadensis* L. var. *laciniata* A. Gray = *Sambucus nigra* L. subsp. *canadensis* (L.) Bolli

*Sambucus intermedia* Carrière var. *insularis* Schwer. = *Sambucus nigra* L. subsp. *canadensis* (L.) Bolli

*Sambucus mexicana* C. Presl ex DC. = *Sambucus nigra* L. subsp. *canadensis* (L.) Bolli

*Sambucus nigra* L. subsp. *canadensis* (L.) Bolli, Diss. Bot. 223: 168. 1994; *Sambucus canadensis* L., Sp. Pl. 269. 1753.

*Sambucus canadensis* L. var. *laciniata* A. Gray, Gard. Dict., ed. 8. 1768.

*Sambucus intermedia* Carrière var. *insularis* Schwer., Mitt. Deutsch. Dendrol. Ges. 18: 38. 1909.

*Sambucus mexicana* C. Presl ex DC., Prodr. 4: 322. 1830.

*Sambucus simpsonii* Rehder, Trees & Shrubs 2: 187. 1911.

Distribution: Exotic in Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Tortola), Lesser Antilles (Barbados, Dominica, Guadeloupe, Martinique, Saba, St. Barthélemy, St. Eustatius, St. Vincent), Mexico, and Central America; native to North America.

References: 1, 2, 4, 5, 7, 58, 61, 75, 136, 151, 151, 224, 231, 340.

Note: Considered an invasive species by CeNBIO.

*Sambucus simpsonii* Rehder = *Sambucus nigra* L. subsp. *canadensis* (L.) Bolli

*Viburnum alpinum* Macfad., Fl. Jamaica 2: 201. 1850.

Distribution: Endemic to Jamaica.

Reference: 2.

*Viburnum arboreum* Britton, Bull. Torrey Bot. Club 37: 351. 1910.

Distribution: Endemic to Jamaica.

References: 2, 427.

Note: Considered vulnerable by the IUCN Red List of Threatened Species.

*Viburnum corymbosum* Urb., Repert. Spec. Nov. Regni Veg. 18: 121. 1922 [15 Aug], *non* (Mill.) Rehder [21 Aug 1922].

Distribution: Endemic to Cuba.

References: 136, 152.

*Viburnum cubense* Urb., Repert. Spec. Nov. Regni Veg. 18: 121. 1922.

Distribution: Endemic to Cuba.

References: 136, 152.

*Viburnum villosum* Sw., Prodr. 54. 1788, var. *villosum*

Distribution: Endemic to Greater Antilles; native to Cuba, and Jamaica.

References: 2, 136.

*Viburnum villosum* Sw. var. *glabrescens* Griseb., Fl. Brit. W. I. 315. 1860.

Distribution: Endemic to Jamaica.

References: 2, 36.

*Viburnum villosum* Sw. var. *subdentatum* Griseb., Fl. Brit. W. I. 315. 1860.

Distribution: Endemic to Jamaica.

Reference: 2.

## AIZOACEAE

**Genera.** Total: 5; native: 3; endemic: 0.

**Taxa.** Total: 8; native: 6; endemic: 2.

*Aptenia cordifolia* (L. f.) Schwantes, Gartenflora 77: 69. 1928.

Distribution: Cultivated in Virgin Islands (St. Thomas).

Reference: 254

\*\**Cypselea humifusa* Turpin, Ann. Mus. Natl. Hist. Nat. 7: 219. 1806.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Puerto Rico, Virgin Islands (Anegada, St. John, St. Thomas), Lesser Antilles (Guadeloupe), Aruba, Bonaire, Curaçao, Margarita, and North America.

Common Name: Panal (Puerto Rico).

References: 1, 3, 4, 5, 6, 7, 19, 45, 58, 61, 131, 323.

\*\**Cypselea rubriflora* Urb., Ark. Bot. 22A(17): 15. 1929.

Distribution: Endemic to Cuba.

References: 3, 39.

Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).

*Sesuvium maritimum* (Walter) Britton, Sterns & Poggenb., Prelim. Cat. 20. 1888; *Pharnaceum maritimum* Walter, Fl. Carol. 117. 1788.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Puerto Rico, Lesser Antilles (St. Barthélemy), North America, and Mexico.

Common Names: Slender sea purslane (Bahamas), Yerba de vidrio (Cuba), Verdolaga de mar (Puerto Rico).

References: 1, 3, 4, 6, 45, 58, 61, 131, 132, 152.

*Sesuvium microphyllum* Willd., Enum. Pl. 1: 521. 1809.

Distribution: Endemic to West Indies; native to Bahamas, Cayman Islands, Cuba, Puerto Rico, and Lesser Antilles (Anguilla).

Common Name: Verdolaga de costa (Cuba).

References: 1, 3, 4, 45, 58.

*Sesuvium portulacastrum* (L.) L., Syst. Nat., ed. 10, 1058. 1759;

*Portulaca portulacastrum* L., Sp. Pl. 446. 1753.

*Trianthena polyandra* Blume, Bijdr. Fl. Ned. Ind. 17: 1137. 1827.

*Sesuvium uvifolium* Sessé & Moc., Fl. Mexic., ed. 2, 126. 1894. Type. Presumably from Cuba, Sessé 2095 (MA).

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Anegada, Guana, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Anguilla, Antigua, Barbados, Barbuda, Dominica, Grenadines, Guadeloupe, Martinique, Montserrat, Redonda, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia, St. Martin), Trinidad, Aruba,

- Bonaire, Curaçao, Margarita, North America, Mexico, Central America, and South America.  
 Common Names: Verdolaga de costa, Yerba de vidrio (Cuba), Plantanillo, Verdolaguilla (Dominican Republic), Pourpier bord de mer, Pourpier la mer (Haiti), Sea-purslane, Seaside purslane (Jamaica), Pourpier-bourd-de-mer (Lesser Antilles), Verdolaga rosada, Yerba de vidrio (Puerto Rico).  
 References: 1, 2, 3, 4, 5, 6, 7, 19, 45, 58, 61, 123, 131, 132, 323, 500.  
*Sesuvium uvifolium* Sessé & Moc. = *Sesuvium portulacastrum* (L.) L.  
*Tetragonia expansa* Murray = *Tetragonia tetragonioides* (Pall.) Kuntze  
*Tetragonia tetragonioides* (Pallas) Kuntze, Revis. Gen. Pl. 1: 264. 1891.  
*Tetragonia expansa* Murray, Commentat. Soc. Regiae Sci. Gott. 6: 13. 1783.  
 Distribution: Cultivated in Puerto Rico; native to Asia, Australia, and Pacific Region.  
 Common Name: Espinaca de Nueva Zelandia (Puerto Rico).  
 References: 6, 131, 151.  
*Trianthema monogyne* L. = *Trianthema portulacastrum* L.  
*Trianthema polyandra* Blume = *Sesuvium portulacastrum* (L.) L.  
*Trianthema portulacastrum* L., Sp. Pl. 223. 1753.  
*Trianthema monogyne* L., Mant. Pl. 1: 69. 1767.  
 Distribution: Native to Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana, St. Croix, St. John, St. Thomas, Tortola), Lesser Antilles (Antigua, Barbados, Grenada, Guadeloupe, Martinique, Montserrat, St. Barthélemy, St. Lucia, St. Martin), Trinidad, Aruba, Bonaire, Curaçao, North America, and Mexico.  
 Common Names: Horse purslane (Bahamas), Yerba del sapo (Cuba), Plantanillo, Verdolaga, Verdolaga rosada, Verdolaguilla (Dominican Republic), Horse purslane (Jamaica), Pourpier courant (Lesser Antilles), Verdolaga de hoja ancha (Puerto Rico).  
 References: 1, 2, 3, 5, 6, 7, 19, 30, 45, 58, 123, 131, 132, 151, 295, 301, 340.

## ALISMATACEAE

**Genera.** Total: 4; native: 4; endemic: 0.  
**Taxa.** Total: 17; native: 17; endemic: 1.

- Albidella nymphaeifolia* (Griseb.) Pichon, Notul. Syst. (Paris) 12: 174. 1946; *Alisma nymphaeifolium* Griseb., Cat. Pl. Cub. 218. 1866; *Echinodorus nymphaeifolius* (Griseb.) Buchenau, Bot. Jahrb. Syst. 2: 483. 1882; *Helanthium nymphaeifolium* (Griseb.) Small, N. Amer. Fl. 17(1): 45. 1909.  
 Distribution: Native to Cuba, Mexico, and Central America.  
 References: 147, 320, 489.  
*Alisma berterioanum* Balb. ex Schult. & Schult. f. = *Echinodorus berteroi* (Spreng.) Fassett

 Distribution: Native to Cuba, Mexico, Central America, and South America.  
 References: 147, 489.  
*Echinodorus grisebachii* Small, N. Amer. Fl. 17(1): 46. 1909.  
 Distribution: Native to Cuba, Central America, and South America.  
 Common Names: Llantén de agua (Cuba), Llantén cimarrón (Cuba).  
 References: 3, 147, 489.  
*Echinodorus intermedius* (Mart.) Griseb. = *Echinodorus subalatus* (Mart.) Griseb.  
*Echinodorus nymphaeifolius* (Griseb.) Buchenau = *Albidella nymphaeifolia* (Griseb.) Pichon  
*Echinodorus ovalis* C. Wright = *Echinodorus cordifolius* (L.) Griseb.  
*Echinodorus parvulus* Engelm. = *Echinodorus tenellus* (Mart. ex Schult. & Schult. f.) Buchenau  
*Echinodorus subalatus* (Mart.) Griseb., Cat. Pl. Cub. 218. 1866; *Alisma subalatum* Mart. in J.J. Roemer & J.A. Schultes, Syst. Veg. 7: 1609. 1830.  
*Echinodorus intermedius* (Mart.) Griseb., Cat. Pl. Cub. 218. 1866.  
 Distribution: Native to Cuba, Mexico, Central America, and South America.  
 Reference: 147.  
*Echinodorus tenellus* (Mart. ex Schult. & Schult. f.) Buchenau, Index Crit. Butom. Alism. Juncag. 21. 1868; *Alisma tenellum* Mart. ex

- Schult. & Schult. f. in J.J. Roemer & J.A. Schultes, Syst. Veg. 7: 1600. 1830; *Helanthium tenellum* (Mart. ex Schult. & Schult. f.) Small in N.L. Britton, Man. Fl. N. States, ed. 2, 54. 1905.  
*Echinodorus parvulus* Engelm. in A. Gray, Manual, ed. 2, 438. 1856;  
*Helanthium parvulum* (Engelm.) Small, N. Amer. Fl. 17(1): 45. 1909.  
 Distribution: Native to Cuba, Hispaniola, Jamaica, North America, Mexico, Central America, and South America.  
 References: 2, 3, 30, 147, 489.
- Echinodorus zombiensis* Jérémie = *Helanthium zombiense* (Jérémie) Lehtonen & Myllys
- Helanthium bolivianum* (Rusby) Lehtonen & Myllys, Cladistics 24: 228. 2008; *Alisma bolivianum* Rusby, Mem. New York Bot. Gard. 7: 208. 1927; *Echinodorus bolivianus* (Rusby) Holm-Niels., Brittonia 31: 276. 1979.
- Helanthium tenellum* sensu Britton & P. Wilson, Sci. Surv. Porto Rico & Virgin Islands 5: 14. 1923.  
 Distribution: Native to Hispaniola, Jamaica, Puerto Rico, Mexico, Central America, and South America.  
 References: 2, 28, 62, 147, 156.
- Helanthium nymphaeifolium* (Griseb.) Small = *Albidella nymphaeifolia* (Griseb.) Pichon
- Helanthium parvulum* (Engelm.) Small = *Echinodorus tenellus* (Mart. ex Schult. & Schult. f.) Buchenau
- Helanthium tenellum* (Mart. ex Schult. & Schult. f.) Small = *Echinodorus tenellus* (Mart. ex Schult. & Schult. f.) Buchenau
- Helanthium tenellum* sensu Britton & P. Wilson = *Echinodorus bolivianus* (Rusby) Holm-Niels.
- Helanthium zombiense* (Jérémie) Lehtonen & Myllys, Cladistics 24: 228. 2008; *Echinodorus zombiensis* Jérémie, Adansonia, sér. 3, 23: 192. 2001.  
 Distribution: Endemic to West Indies; native to Jamaica and Lesser Antilles (Guadeloupe).  
 References: 27, 147, 645.
- Hydrocleys nymphoides* (Humb. & Bonpl. ex Willd.) Buchenau, Abh. Naturwiss. Vereine Bremen 2: 2. 1871; *Stratiotes nymphoides* Humb. & Bonpl. ex Willd., Sp. Pl. 4: 821. 1805.  
 Distribution: Native to Puerto Rico, Tobago, Trinidad, Curaçao, Central America, and South America.  
 Common Names: Lirio de agua amarillo, Water poppy (Puerto Rico).  
 References: 28, 131, 147, 159.
- Limnocharis flava* (L.) Buchenau, Abh. Naturwiss. Vereine Bremen 2: 2. 1871; *Alisma flava* L., Sp. Pl. 343. 1753.  
 Distribution: Native to Cuba, Hispaniola, Mexico, Central America, and South America; exotic in Lesser Antilles (Grenada).  
 Common Names: Malanga de río, Malanguilla de río (Cuba), Lila de ciénaga, Pato de laguna (Dominican Republic).  
 References: 3, 30, 123, 132, 147.
- Lophotocarpus guayanensis* (Kunth) Small = *Sagittaria guayanensis* Kunth
- Sagittaria acutifolia* sensu Griseb. = *Sagittaria intermedia* M. Micheli  
*Sagittaria acutifolia* sensu Bello = *Sagittaria lancifolia* L.  
*Sagittaria angustifolia* Lindl. = *Sagittaria lancifolia* L.  
*Sagittaria graminea* Michx., Fl. Bor.-Amer. 2: 190. 1803.  
 Distribution: Native to Cuba and North America.  
 References: 147, 489.
- Sagittaria guayanensis* Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 1: 250. 1816; *Lophotocarpus guayanensis* (Kunth) Small, Rep. (Annual) Missouri Bot. Gard. 6: 61. 1894.  
 Distribution: Native to Cuba, Hispaniola, Jamaica, Mexico, Central America, and South America.  
 References: 2, 147, 489.
- Sagittaria intermedia* Micheli in A.L.P.P. de Candolle & A.C.P. de Candolle, Monogr. Phan. 3: 80. 1881.  
*Sagittaria acutifolia* sensu Griseb., Fl. Brit. W. I. 505. 1862, non L. f.  
*Sagittaria lancifolia* sensu Bello, Anales Soc. Esp. Hist. Nat. 12: 115. 1883, non L.  
 Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Mexico, and South America.  
 Common Names: Flecha de agua, Flechera, Malanguilla de costa (Cuba), Enea (Dominican Republic).  
 References: 2, 3, 5, 28, 30, 61, 62, 123, 132, 147, 156, 209, 320, 489.
- Sagittaria isoetiformis* J.G. Sm., Rep. (Annual) Missouri Bot. Gard. 6: 115. 1895.  
 Distribution: Native to Cuba and North America.  
 References: 3, 147.
- Sagittaria lancifolia* L., Syst. Nat., ed. 10, 1270. 1759.  
*Sagittaria acutifolia* sensu Bello, Anales Soc. Esp. Hist. Nat. 12: 115. 1883, non L. f.  
*Sagittaria angustifolia* Lindl., Bot. Reg. 14: t. 1141. 1828; *Sagittaria lancifolia* L. var. *angustifolia* (Lindl.) Griseb., Cat. Pl. Cub. 218. 1866.  
 Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, North America, Mexico, Central America, and South America.  
 Common Names: Flecha de agua, Flechera, Lirio de la sabana (Cuba), Angelito, Angelitos, Eneas (Dominican Republic), Plécoire, Renoncule des savanes (Haiti), Flecha de agua, Saeta de agua, Yautía (Puerto Rico).  
 References: 2, 3, 4, 5, 28, 30, 45, 61, 62, 123, 131, 132, 147, 489.
- Sagittaria lancifolia* sensu Bello = *Sagittaria intermedia* M. Micheli  
*Sagittaria latifolia* Willd., Sp. Pl. 4: 409. 1805.  
 Distribution: Native to Cuba, Puerto Rico, North America, Mexico, Central America, and South America.  
 References: 28, 62, 165, 489.  
 Note: Known from Puerto Rico by a single specimen from 1909, perhaps a chance introduction and likely now extirpated there.
- Stratiotes nymphoides* Humb. & Bonpl. ex Willd. = *Hydrocleys nymphoides* (Humb. & Bonpl. ex Willd.) Buchenau

## ALSTROEMERIACEAE

Genera. Total: 1; native: 1; endemic: 0.

Taxa. Total: 2; native: 2; endemic: 0.

*Alstroemeria edulis* Tussac = *Bomarea edulis* (Tussac) Herb.

*Bomarea edulis* (Tussac) Herb., Amaryllidaceae: 111. 1837;  
*Alstroemeria edulis* Tussac, Fl. Antill. 1: 109. 1808.

*Bomarea ovata* sensu Liogier, Dicc. Bot. Española. 283. 2000, non Cav.  
 Distribution: Native to Cuba, Hispaniola, Mexico, Central America, and South America.

Common Names: Campanillitas, Gloriosa del país, Zarcilla (Cuba), Lirio (Dominican Republic), Topinambour blanc (Haiti).  
 References: 3, 30, 123, 147, 490.

*Bomarea obovata* Herb., Amaryllidaceae: 112. 1837.  
 Distribution: Native to Hispaniola, Nicaragua to Peru.  
 References: 147, 254.

*Bomarea ovata* sensu Liogier = *Bomarea edulis* (Tussac) Herb.

## AMARANTHACEAE

Genera. Total: 22; native: 18; endemic: 1.

Taxa. Total: 88; native: 65; endemic: 15.

*Achyranthes altissima* Jacq. = *Chamissoa altissima* (Jacq.) Kunth

*Achyranthes aspera* L., Sp. Pl. 204. 1753, var. *aspera*; *Centrostachys aspera* (L.) Standl., J. Wash. Acad. Sci. 5: 75. 1915.

*Achyranthes aspera* L. var. *indica* L., Sp. Pl. 204. 1753; *Achyranthes indica* (L.) Mill., Gard. Dict., ed. 8. 1768; *Centrostachys indica* (L.) Standl., J. Wash. Acad. Sci. 5: 75. 1915.

*Achyranthes aspera* L. var. *obtusifolia* (Lam.) Griseb., Fl. Brit. W. I. 62. 1859; *Achyranthes obtusifolia* Lam., Encycl. 1: 545. 1785.

*Achyranthes virgata* Poir. in J.B.A.P.M. de Lamarck, Encycl. Suppl. 2: 10. 1811.

Distribution: Widely naturalized in Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Antigua, Barbados, Guadeloupe, Martinique, Saba, St. Lucia, St. Vincent), Aruba, Bonaire, Curaçao, and Margarita; probably originated from Old World tropics.

Common Names: Rabo de gato (Cuba), Cadillo de gato, Huevo de gato, Rabo de gato, Rabo de ratón (Dominican Republic), Cabaio, Feuilles la fièvre, Herbe de fièvre, Herbe la fièvre, Queue de rat, Santypite (Haiti), Man-better-man, Marie-pourrie, Ven-ven (Lesser Antilles).

References: 1, 2, 3, 7, 19, 35, 45, 58, 150, 224, 252, 295, 323, 340.

Note: Considered an invasive species by CeN BIO.

*Achyranthes aspera* L. var. *indica* L. = *Achyranthes aspera* L. var. *aspera*

*Achyranthes aspera* L. var. *obtusifolia* (Lam.) Griseb. = *Achyranthes aspera* L. var. *aspera*

*Achyranthes aspera* L. var. *pubescens* (Moq.) M. Gómez, Noc. Bot. Sist. 58. 1893; *Achyranthes fruticosa* Lam. var. *pubescens* Moq. in A.L.P.P. de Candolle, Prodr. 13(2): 314. 1849.

Distribution: Exotic in Hispaniola, Puerto Rico, and Lesser Antilles (Barbados, Grenadines); probably originated from Old World tropics.

References: 1, 7, 58, 150, 224, 252.

Note: Considered an invasive species by CeN BIO.

*Achyranthes axillaris* Hornem. ex Willd. = *Alternanthera axillaris* (Hornem. ex Willd.) D. Dietr.

*Achyranthes bettzickiana* (Regel) Standl. = *Alternanthera tenella* Colla var. *bettzickiana* (Regel) Veldkamp

*Achyranthes crassifolia* Standl. = *Alternanthera crassifolia* (Standl.) Alain

*Achyranthes fruticosa* Lam. var. *pubescens* Moq. = *Achyranthes aspera* L. var. *pubescens* (Moq.) M. Gómez

*Achyranthes halimifolia* Lam. = *Alternanthera halimifolia* (Lam.) Standl. ex Pittier

*Achyranthes hirtiflora* A. Rich. = *Cyathula achyranthoides* (Kunth) Moq.

*Achyranthes indica* (L.) Mill. = *Achyranthes aspera* L. var. *aspera*

*Achyranthes lanuginosa* Nutt. = *Tidestromia lanuginosa* (Nutt.) Standl.

*Achyranthes obtusifolia* Lam. = *Achyranthes aspera* L. var. *aspera*

*Achyranthes peploides* (Humb. & Bonpl.) Britton = *Alternanthera caracasana* Kunth

*Achyranthes polygonoides* sensu Britton & P. Wilson = *Alternanthera paronychioides* A. St.-Hil.

*Achyranthes portoricensis* (Kuntze) Standl. = *Alternanthera crucis* (Moq.) Boldingh

*Achyranthes ramosissima* (Mart.) Standl. = *Alternanthera ramosissima* (Mart.) Chodat

*Achyranthes repens* L. = *Alternanthera pungens* Kunth

*Achyranthes serpyllifolia* Poir. = *Alternanthera serpyllifolia* (Poir.) Urb.

*Achyranthes sessilis* (L.) Besser = *Alternanthera sessilis* (L.) R. Br. ex DC.

*Achyranthes virgata* Poir. = *Achyranthes aspera* L. var. *aspera*

*Acnida australis* A. Gray = *Amaranthus australis* (A. Gray) J.D. Sauer

*Acnida cuspidata* Bertero ex Spreng. = *Amaranthus australis* (A. Gray) J.D. Sauer

*Alternanthera achyrantha* (L.) R. Br. = *Alternanthera pungens* Kunth

*Alternanthera axillaris* (Hornem. ex Willd.) D. Dietr., Syn. Pl. 1: 866. 1839; *Achyranthes axillaris* Hornem. ex Willd., Enum. Hort. Berol. 270. 1809.

Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.

References: 3, 7, 152.

*Alternanthera bettzickiana* (Regel) G. Nicholson = *Alternanthera tenella* Colla var. *bettzickiana* (Regel) Veldkamp

*Alternanthera brasiliiana* (L.) Kuntze, Revis. Gen. Pl. 2: 537. 1891; *Gomphrena brasiliiana* L., Cent. Pl. 2, 13. 1756.

*Alternanthera dentata* (Moench) Stuehlik ex R.E. Fries, Ark. Bot. 16 (13): 11. 1920; *Gomphrena dentata* Moench, Suppl. Meth. 273. 1802.

*Alternanthera jacquinii* (Schrad.) Alain, Bull. Torrey Bot. Club 92: 292. 1965.

*Mogiphanes straminea* Mart., Nov. Gen. Sp. Pl. 2: 35. 1826.

Distribution: Native to Lesser Antilles (Barbados, Dominica, Grenada, Guadeloupe, Marie Galante, Martinique, Montserrat, St. Lucia, St. Vincent), Aruba, Bonaire, Curaçao, Margarita, Mexico, Central America, and South America; exotic in Bahamas, Hispaniola, Puerto Rico, Virgin Islands (St. John).

Common Names: Cucaracha extranjera, Cucaracha morada (Dominican Republic), Bouton blanc, Marguerite à fleurs rouges (Lesser Antilles).

References: 1, 6, 7, 19, 30, 45, 58, 150, 151, 152, 159, 323.

*Alternanthera canescens* Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 2: 204. 1818.

Distribution: Native to Bahamas, Margarita, and South America.

References: 45, 323.

*Alternanthera caracasana* Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 2: 205. 1818.

*Alternanthera peploides* (Humb. & Bonpl. ex Roem. & Schult.) Urb., Repert. Spec. Nov. Regni Veg. 15: 168. 1918; *Illecebrum peploides* Humb. & Bonpl. ex Roem. & Schult., Syst. Veg. 5: 517. 1820; *Achyranthes peploides* (Humb. & Bonpl.) Britton in N.L. Britton & P. Wilson, Sci. Surv. Porto Rico & Virgin Islands 5: 279. 1924.

Distribution: Native to Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas), Lesser Antilles (Anguilla, Antigua, Barbados, Guadeloupe, Martinique, Saba, St. Barthélemy, St. Eustatius, St. Martin, St. Vincent), and North America.

Common Name: Washerwoman (Bahamas).

References: 1, 2, 3, 5, 6, 7, 19, 45, 58, 61, 151.

*Alternanthera caribaea* Moq. = *Lithophila muscoides* Sw.

*Alternanthera crassifolia* (Standl.) Alain, Contr. Ocas. Mus. Hist. Nat. Colegio "De La Salle" 9: 1. 1950; *Achyranthes crassifolia* Standl., Proc. Biol. Soc. Wash. 32: 241. 1919.

Distribution: Endemic to Cuba.

References: 3, 39, 152.

Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).

*Alternanthera crucis* (Moq.) Boldingh, Fl. Dutch W. Ind. Is. 1: 58. 1909; *Telanthera crucis* Moq. in A.L.P.P. de Candolle, Prodr. 13 (2): 362. 1849.

*Achyranthes portoricensis* (Kuntze) Standl., J. Wash. Acad. Sci. 5: 73. 1915; *Alternanthera portoricensis* Kuntze, Revis. Gen. Pl. 2: 540. 1891.

*Alternanthera dolichocephala* (Urb.) Urb., Symb. Antill. 1: 302. 1899; *Telanthera dolichocephala* Urb., Symb. Antill. 1: 302. 1899.

*Alternanthera sintenisii* (Urb.) Uline, Publ. Field Columbian Mus., Bot. Ser. 1(5): 421. 1899; *Telanthera sintenisii* Urb., Symb. Antill. 1: 301. 1899.

Distribution: Endemic to West Indies; native to Puerto Rico, Virgin Islands (Anegada, Guana, St. Croix, St. John, St. Thomas, Tortola), and Lesser Antilles (Antigua, Guadeloupe, Martinique, St. Martin).

References: 1, 6, 19, 30, 58, 152.

*Alternanthera dentata* (Moench) Stuchlik ex R.E. Fries = *Alternanthera brasiliensis* (L.) Kuntze

*Alternanthera dolichocephala* (Urb.) Urb. = *Alternanthera crucis* (Moq.) Boldingh

*Alternanthera ficoidea* (L.) P. Beauv. = *Alternanthera sessilis* (L.) R. Br. ex DC.

*Alternanthera ficoidea* (L.) R. Br. = *Alternanthera paronychioides* A. St.-Hil.

*Alternanthera flavescens* Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 2: 207. 1818.

Distribution: Exotic in Hispaniola and Lesser Antilles (Grenada, Grenadines, Martinique, Montserrat, St. Lucia, St. Vincent); native to South America.

References: 1, 7, 150.

*Alternanthera flavogrisea* (Urb.) Urb. = *Alternanthera halimifolia* (Lam.) Standl. ex Pittier

*Alternanthera geniculata* Urb., Symb. Antill. 7: 211. 1912.

Distribution: Endemic to West Indies; native to Hispaniola and Lesser Antilles (St. Barthélemy, St. Martin).

References: 1, 5, 7, 30.

*Alternanthera halimifolia* (Lam.) Standl. ex Pittier, Man. Pl. Usual. Venez. 145. 1926; *Achyranthes halimifolia* Lam., Encycl. 1: 547. 1785.

*Alternanthera flavogrisea* (Urb.) Urb., Symb. Antill. 5: 340. 1907; *Telanthera flavogrisea* Urb., Symb. Antill. 1: 300. 1899.

Distribution: Native to Cuba, Jamaica, Lesser Antilles (Grenada, St. Martin), Aruba, Bonaire, Curaçao, Central America, and South America; exotic in Puerto Rico and Virgin Islands (St. Croix, St. Thomas).

References: 1, 2, 3, 30, 151, 224.

Note: Considered exotic and invasive in Cuba by CeN BIO.

*Alternanthera iresinoides* Kunth = *Pfaffia iresinoides* (Kunth) Spreng.

*Alternanthera jacquinii* (Schr.) Alain = *Alternanthera brasiliensis* (L.) Kuntze

*Alternanthera leiantha* (Seub. ex Mart.) Alain = *Alternanthera pungens* Kunth

*Alternanthera linearis* Bello = *Iresine angustifolia* Euphrasén

*Alternanthera maritima* (Mart.) A. St.-Hil., Voy. Distr. Diam. 2: 437. 1833; *Bucholzia maritima* Mart., Nov. Gen. Sp. Pl. 2: 50. 1826.

Distribution: Native to Bahamas, Cuba, Hispaniola, and South America.

Common Name: Beach alternanthera (Bahamas).

References: 3, 7, 45, 150, 151.

*Alternanthera olivacea* (Urb.) Urb., Symb. Antill. 5: 340. 1907; *Telanthera olivacea* Urb., Symb. Antill. 1: 302. 1899.

Distribution: Native to Lesser Antilles (Grenada, Grenadines, St. Lucia, St. Vincent), Curaçao, and South America.

References: 1, 30.

*Alternanthera paronychioides* A. St.-Hil., Voy. Distr. Diam. 2: 439. 1833.

*Achyranthes polygonoides* sensu Britton & P. Wilson, Sci. Surv. Porto Rico & Virgin Islands 5: 279. 1924, non (L.) Lam.

*Alternanthera ficoidea* (L.) R. Br., Prodr. 417. 1810.

*Alternanthera polygonoides* sensu Griseb., Fl. Brit. W. I. 67. 1859, non (L.) R. Br.

Distribution: Native to Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. Thomas, Tortola), Lesser Antilles (Antigua, Barbados, Barbuda, Grenada, Grenadines, Guadeloupe, Marie Galante, Martinique, St. Lucia, St. Martin), Mexico, Central America, and South America.

Common Names: Sanguinaria, Terebinto (Dominican Republic), La mauche, Lamouche (Haiti), Crab withe (Jamaica), Herbe à bordure, Herbe à la veuve (Lesser Antilles), Sanguinaria (Puerto Rico).

References: 1, 2, 3, 5, 6, 7, 30, 45, 58, 123, 131, 150, 151.

*Alternanthera peploides* (Humb. & Bonpl. ex Roem. & Schult.) Urb. = *Alternanthera caracasana* Kunth

*Alternanthera philoxeroides* (Mart.) Griseb., Abh. Königl. Ges. Wiss. Göttingen 24: 36. 1879.

Distribution: Exotic in Puerto Rico and Margarita; native to South America.

References: 6, 150, 252, 323, 383.

*Alternanthera polygonoides* R. Br., Prodr. Fl. Nov. Holland. 417. 1810.

Distribution: Native to Cuba, Central America, and South America.

References: 3, 151.

*Alternanthera polygonoides* sensu Griseb. = *Alternanthera paronychioides* A. St.-Hil.

*Alternanthera polygonoides* R. Br. var. *glabrescens* Griseb. = *Alternanthera sessilis* (L.) R. Br. ex DC.

*Alternanthera portoricensis* Kuntze = *Alternanthera crucis* (Moq.) Boldingh

*Alternanthera pungens* Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 2: 206. 1818.

*Alternanthera achyrantha* (L.) R. Br., Prodr. 417. 1810; *Illecebrum achyranthum* L., Sp. Pl., ed. 2, 299. 1762.

*Alternanthera leiantha* (Seub. ex Mart.) Alain, Contr. Ocas. Mus. Hist. Nat. Colegio "De La Salle" 9: 1. 1950.

*Alternanthera repens* (L.) Kuntze, Revis. Gen. Pl. 2: 536. 1891, non Gmel., 1791; *Achyranthes repens* L., Sp. Pl. 205. 1753.

Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana), North America, Central America, South America, and Old World.

Common Name: Yerba de pollo (Dominican Republic).

References: 2, 3, 6, 7, 30, 58, 151, 237.

*Alternanthera ramosissima* (Mart.) Chodat, Bull. Herb. Boissier, ser. 2, 3: 355. 1903; *Mogiphanes ramosissima* Mart., Nov. Gen. Sp. Pl. 2: 31. 1826; *Achyranthes ramosissima* (Mart.) Standl., J. Wash. Acad. Sci. 5: 74. 1915.

Distribution: Exotic in Jamaica and Puerto Rico; native to South America.

References: 2, 6, 58, 61, 152.

*Alternanthera repens* (L.) Kuntze = *Alternanthera pungens* Kunth

*Alternanthera serpyllifolia* (Poir.) Urb., Symb. Antill. 5: 340. 1907;  
*Achyranthes serpyllifolia* Poir. in J.B.A.P.M. de Lamarck, Encycl. Suppl. 2: 11. 1811.

Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.  
References: 3, 5, 7, 30.

*Alternanthera sessilis* (L.) R. Br. ex DC., Cat. Pl. Horti Monsp. 77. 1813; *Gomphrena sessilis* L., Sp. Pl. 225. 1753; *Achyranthes sessilis* (L.) Besser, Cat. Jard. Bot. Krzemieniec 12. 1810.

*Gomphrena polygonoides* L., Sp. Pl. 225. 1753.

Distribution: Native to Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. John, St. Thomas, Tortola), Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Guadeloupe, Marie Galante, Martinique, Montserrat, Nevis, St. Kitts, St. Lucia, St. Vincent), North America, Mexico, Central America, and South America.

Common Names: Sanguinaria, Santoma cimarrona (Dominican Republic), Magloire (Lesser Antilles), Sanguinaria (Puerto Rico).  
References: 1, 2, 3, 5, 6, 7, 30, 40, 58, 123, 131, 151, 340.

*Alternanthera sintensisii* (Urb.) Uline = *Alternanthera crucis* (Moq.) Boldingh

*Alternanthera spinosa* Roem. & Schult., Syst. Veg. 5: 555. 1819.

Distribution: Native to Cuba, Hispaniola, and South America.

Common Name: Abrojo (Cuba).

References: 3, 5, 132, 151.

*Alternanthera tenella* Colla, Mem. Reale Accad. Sci. Torino 23: 131. 1829, var. *tenella*

Distribution: Native to Bahamas, Cuba, Hispaniola, Puerto Rico, Virgin Islands (St. John, Tortola), Lesser Antilles (Barbados, Dominica, Grenada, Marie Galante, Martinique, Montserrat, St. Lucia, St. Vincent), Mexico, Central America, and South America.

Common Name: Herbe à albumine (Lesser Antilles).

References: 1, 6, 7, 19, 45, 58, 151, 254.

*Alternanthera tenella* Colla var. *bettzickiana* (Regel) Veldkamp, Taxon 27: 313. 1978; *Alternanthera bettzickiana* (Regel) G. Nicholson, Ill. Dict. *Acnida cuspidata* Bertero ex Spreng., Syst. Veg., ed. 16, 3: 903. 1826.

Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, North America, Mexico, and South America.

References: 2, 3, 6, 7, 58, 150.

*Amaranthus blitum* L., Sp. Pl. 990. 1753.

*Amaranthus lividus* L., Sp. Pl. 990. 1753.

*Amaranthus viridis* sensu Britton & Millsp., Bahama Fl. 124. 1920, non L.

Distribution: Native to Bahamas, Cuba, Puerto Rico, Lesser Antilles (Dominica, St. Lucia), Mexico, and South America.

Common Name: Notch-leaved amaranth (Bahamas).

References: 1, 3, 45, 61, 112, 151, 211.

*Amaranthus caudatus* L., Sp. Pl. 990. 1753.

Distribution: Exotic in Cuba, Puerto Rico, Virgin Islands (Tortola), and Lesser Antilles (Barbados, Martinique); native to South America.

Common Names: Amaranto, Bledo francés (Cuba).

References: 1, 3, 6, 16, 58, 150, 231, 252.

*Amaranthus crassipes* Schldtl., Linnaea 6: 757. 1831.

*Scleropus amaranthoides* Schrad. Index Seminum (Göttingen). 1835.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Anguilla, Antigua, Barbados, Guadeloupe, Martinique, St. Barthélemy, St. Martin, St. Vincent), Aruba, Bonaire, Curaçao, Mexico, Central America, and South America.

Common Names: Thick-stalked amaranth (Bahamas), Bledo manso (Cuba), Bledo, Zerpina (Dominican Republic).

References: 1, 2, 3, 4, 5, 6, 7, 19, 30, 45, 58, 61, 123, 132, 150, 151, 159.

*Amaranthus cruentus* L., Syst. Nat., ed. 10, 1269. 1759.

*Amaranthus paniculatus* L., Sp. Pl., ed. 2, 1406. 1763.

Distribution: Exotic in Cuba, Hispaniola, Puerto Rico, Virgin Islands (St. Croix), and Lesser Antilles (Barbuda, Guadeloupe, St. Lucia); probably native to New World tropics.

Common Names: Moco de pavo (Cuba), Bledo, Zépina (Dominican Republic), Épanard (Haiti), Gusano, Moco de pavo (Puerto Rico).  
References: 1, 3, 5, 6, 7, 58, 61, 123, 131, 132, 151, 159, 252.

- Gomphrena ficoidea* L. = *Alternanthera sessilis* (L.) R. Br. ex DC.
- Gomphrena globosa* L., Sp. Pl. 224. 1753.
- Distribution: Exotic in Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. Thomas, Tortola), Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Guadeloupe, Martinique, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia, St. Martin, St. Vincent), and Margarita; widely cultivated and naturalized; origin uncertain.
- Common Names: Flor de San Diego, Inmortal, San Diego, Siempreviva (Cuba), Habana, Santoma, Siempreviva (Dominican Republic), Bachelor's buttons (Jamaica), Siempreviva (Puerto Rico).
- References: 1, 2, 3, 4, 5, 6, 7, 45, 58, 61, 123, 131, 132, 224, 323.
- Note: Considered an invasive species by CeNBIO.
- Gomphrena interrupta* L. = *Froelichia interrupta* (L.) Moq.
- Gomphrena polygonoides* L. = *Alternanthera sessilis* (L.) R. Br. ex DC.
- Gomphrena serrata* L., Sp. Pl. 224. 1753.
- Gomphrena decumbens* Jacq., Pl. Rar. Hort. Schoenbr. 4: 41. 1804.
- Gomphrena dispersa* Standl., Contr. U.S. Natl. Herb. 18: 91. 1916.
- Distribution: Native to Lesser Antilles (Montserrat, St. Kitts, St. Lucia, St. Martin), Mexico, Central America, and South America; exotic and becoming naturalized in Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, Tortola), and southern United States.
- References: 1, 2, 3, 5, 6, 7, 19, 58, 61.
- Gomphrena sessilis* L. = *Alternanthera sessilis* (L.) R. Br. ex DC.
- Gomphrena vermicularis* L. = *Blutaparon vermiculare* (L.) Mears
- Gossypianthus brittonii* Standl. = *Guilleminea brittonii* (Standl.) Mears var. *brittonii*
- Gossypianthus heterophyllus* Ekman & Suess. = *Guilleminea brittonii* (Standl.) Mears var. *heterophylla* (Ekman & Suess.) Mears
- Guilleminea brittonii* (Standl.) Mears, Sida 3: 150. 1967, var. *brittonii*; *Gossypianthus brittonii* Standl., Contr. U.S. Natl. Herb. 18: 92. 1916.
- Distribution: Endemic to Cuba.
- References: 3, 149, 152.
- Guilleminea brittonii* (Standl.) Mears var. *heterophylla* (Ekman & Suess.) Mears, Sida 3: 150. 1967; *Gossypianthus heterophyllus* Ekman & Suess., Repert. Spec. Nov. Regni Veg. 35: 317. 1934.
- Distribution: Endemic to Cuba.
- References: 3, 149.
- Guilleminea lanuginosa* (Poir.) Moq. ex Benth. & Hook. f., Gen. Pl. 3: 37. 1880; *Paronychia lanuginosa* Poir. in J.B.A.P.M. de Lamarck, Encycl. Suppl. 4: 303. 1816; *Gossypianthus lanuginosus* (Poir.) Moq. in A.L.P.P. de Candolle, Prodr. 13(2): 337. 1849.
- Distribution: Native to Hispaniola and Mexico.
- Common Names: Lana de bohío, Sereno de invierno, Yerba de pollo (Dominican Republic).
- References: 5, 7, 151.
- Halocnemum ritterianum* Moq. = *Heterostachys ritteriana* (Moq.) Ung.-Sternb.
- Heterostachys ritteriana* (Moq.) Ung.-Sternb., Atti Congr. Int. Bot. Firenze 1874: 332. 1876; *Halocnemum ritterianum* Moq., Chenop. Monogr. Enum. 109. 1840.
- Distribution: Endemic to Hispaniola.
- Common Name: Pino salado (Dominican Republic).
- References: 5, 7.
- Illecebrum achyranthum* L. = *Alternanthera pungens* Kunth
- Illecebrum peploides* Humb. & Bonpl. ex Roem. & Schult. = *Alternanthera caracasana* Kunth
- Iresine angustifolia* Euphrasén, Beskr. Svenska Vestindiska 165. 1795.
- Alternanthera linearis* Bello, Anales Soc. Esp. Hist. Nat. 12: 107. 1883.
- Iresine elatior* Rich. ex Willd., Sp. Pl. 4: 766. 1806.
- Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana, St. Croix, St. John, St. Thomas, Tortola), Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Guadeloupe, Martinique, Montserrat, Redonda, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia, St. Martin, St. Vincent), Margarita, Mexico, Central America, and South America.
- References: 1, 2, 3, 5, 6, 7, 19, 32, 58, 61, 152, 323, 340.
- Iresine argentata* (Mart.) D. Dietr. = *Pfaffia aurata* (Mart.) Borsch
- Iresine argentata* (Mart.) D. Dietr. var. *latifolia* Suess. = *Pfaffia aurata* (Mart.) Borsch
- Iresine canescens* Humb. & Bonpl. ex Willd. = *Iresine diffusa* Humb. & Bonpl. ex Willd.
- Iresine celosia* L. subsp. *celosia* = *Iresine diffusa* Humb. & Bonpl. ex Willd.
- Iresine celosia* L. subsp. *tomentosa* de la Luz = *Iresine diffusa* Humb. & Bonpl. ex Willd.
- Iresine diffusa* Humb. & Bonpl. ex Willd., Sp. Pl. 4: 765. 1806.
- Celosia paniculata* L., Sp. Pl. 206. 1753; *Iresine paniculata* (L.) Kuntze, Revis. Gen. Pl. 2: 542. 1891.
- Iresine canescens* Humb. & Bonpl. ex Willd., Sp. Pl. 4: 766. 1806.
- Iresine celosia* L. subsp. *celosia*, Syst. Nat., ed. 10, 1291. 1759.
- Iresine celosia* L. subsp. *tomentosa* de la Luz, Feddes Repert. 96: 553. 1985.
- Iresine celosioides* L., Sp. Pl., ed. 2, 1456. 1763.
- Iresine havanensis* Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 2: 199. 1818.
- Iresine parvifolia* Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 2: 199. 1818.
- Distribution: Native to Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix), Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Guadeloupe, Marie Galante, Martinique, Montserrat, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia, St. Martin, St. Vincent), North America, Mexico, Central America, and South America.
- Common Names: Felicidad, Velo de novia del monte (Puerto Rico).
- References: 1, 2, 3, 4, 5, 6, 7, 30, 32, 45, 58, 61, 131, 149, 150, 151.
- Iresine domingensis* Urb., Symb. Antill. 5: 337. 1907.

Distribution: Endemic to Hispaniola (Haiti).

References: 5, 7, 30.

*Iresine elatior* Rich. ex Willd. = *Iresine angustifolia* Euphrasén

*Iresine flavescens* Humb. & Bonpl. ex Willd., Sp. Pl. 4: 766. 1806.

*Iresine inaguensis* Millsp., Publ. Field Columbian Mus., Bot. Ser. 2(3): 149. 1906.

Distribution: Native to Bahamas, Cuba, and Mexico.

Common Names: Coastal iresine (Bahamas), Jiquilete (Cuba).

References: 3, 45, 150, 151.

*Iresine havanensis* Kunth = *Iresine diffusa* Humb. & Bonpl. ex Willd.

*Iresine herbstii* Hook., Gard. Chron. 1864: 654. 1864.

Distribution: Exotic in Cuba, Hispaniola, Puerto Rico, Lesser Antilles (Guadeloupe, Martinique), and Margarita; widely cultivated; origin uncertain.

Common Names: Carey, Coqueta, Molleja (Cuba), Molleja (Dominican Republic), Molleja de gallina, Sinvergüenza (Puerto Rico).

References: 1, 3, 5, 7, 61, 123, 131, 132, 224, 254, 323.

Note: Considered an invasive species by CeN BIO.

*Iresine inaguensis* Millsp. = *Iresine flavescens* Humb. & Bonpl. ex Willd.

*Iresine lindenii* Van Houtte, Fl. Serres Jard. Eur. 17: 41. 1868.

Distribution: Cultivated in Hispaniola and Puerto Rico; origin uncertain.

Common Name: Brillantina (Puerto Rico).

References: 7, 61, 131, 151.

*Iresine paniculata* (L.) Kuntze = *Iresine diffusa* Humb. & Bonpl. ex Willd.

*Lithophila muscoides* Sw., Prodr. 14. 1788.

*Alternanthera caribaea* Moq. in A.L.P.P. de Candolle, Prodr. 13(2): 354. 1852.

*Lithophila muscoides* Sw. subsp. *macrantha* Urb. var. *linearifolia* Urb., Symb. Antill. 5: 338. 1907.

*Lithophila muscoides* Sw. subsp. *macrantha* Urb. var. *platyphylla* Urb., Symb. Antill. 5: 339. 1907.

*Lithophila muscoides* Sw. subsp. *macrantha* Urb. var. *stenophylla* Urb., Symb. Antill. 5: 339. 1907.

*Lithophila muscoides* Sw. subsp. *micrantha* Urb. var. *caespitosa* Urb., Symb. Antill. 5: 339. 1907.

*Lithophila muscoides* Sw. subsp. *micrantha* Urb. var. *compacta* Urb., Symb. Antill. 5: 339. 1907.

*Lithophila muscoides* Sw. subsp. *micrantha* Urb. var. *intermedia* Urb., Symb. Antill. 5: 339. 1907.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Navassa, Puerto Rico, Virgin Islands (Anegada, St. Croix), Lesser Antilles (Anguilla, Antigua, Barbados, Barbuda, Grenadines, Guadeloupe, Marie Galante, Martinique, Montserrat, Redonda, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia, St. Martin), Aruba, Bonaire, Curaçao, Margarita, and Venezuela.

Common Name: Mosslike lithophila (Bahamas).

References: 1, 3, 4, 6, 7, 30, 45, 58, 61, 152, 323.

*Mogiphanes ramosissima* Mart. = *Alternanthera ramosissima* (Mart.) Chodat

*Mogiphanes straminea* Mart. = *Alternanthera brasiliensis* (L.) Kuntze

*Paronychia lanuginosa* Poir. = *Guilleminea lanuginosa* (Poir.) Moq. ex Benth. & Hook. f.

*Pfaffia aurata* (Mart.) Borsch, Novon 5: 230. 1995; *Trommsdorffia aurata* Mart., Nov. Gen. Sp. Pl. 2: 41. 1826.

*Iresine argentata* (Mart.) D. Dietr. var. *latifolia* Suess., Repert. Spec. Nov. Regni Veg. 35: 319. 1934.

*Trommsdorffia argentata* Mart., Nov. Gen. Sp. Pl. 2: 40. 1826; *Iresine argentata* (Mart.) D. Dietr., Syn. Pl. 1: 870. 1839.

*Pfaffia grandiflora* sensu Liogier, Descr. Fl. Puerto Rico 1: 167. 1985, non R.E. Fries

Distribution: Native to Puerto Rico, Lesser Antilles (Martinique), and South America.

References: 1, 6, 30, 32, 58, 151.

*Pfaffia iresinoides* (Kunth) Spreng., Syst. Veg., ed. 16, 4: 106. 1827; *Alternanthera iresinoides* Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 2: 209. 1818.

Distribution: Native to Hispaniola, Lesser Antilles (Guadeloupe, St.

Lucia), Margarita, Mexico, Central America, and South America.

Common Name: Twenty-one shilling (Lesser Antilles).

References: 1, 7, 323.

*Pfaffia grandiflora* sensu Liogier = *Pfaffia aurata* (Mart.) Borsch

*Salicornia bigelovii* Torr., Rep. U.S. Mex. Bound., Bot. 2(1): 184. 1858 ["1859"].

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Puerto Rico, Virgin Islands (Anegada, St. Thomas), Lesser Antilles (Anguilla, St. Martin), North America, and Mexico.

Common Names: Peregil de costa, Verdolaguilla blanca (Cuba), Chifle (Puerto Rico).

References: 1, 3, 4, 6, 7, 45, 131.

*Salicornia perennis* sensu Britton & Millsp. = *Salicornia virginica* L.

*Salicornia virginica* L., Sp. Pl. 4. 1753.

*Salicornia perennis* sensu Britton & Millsp., Bahama Fl. 122. 1920, non Mill.

Distribution: Native to Bahamas, Cayman Islands, Hispaniola, Jamaica, Puerto Rico, and North America.

Common Names: Guinea-bead, Wild coral, Woody glass wort (Bahamas).

References: 2, 4, 7, 45, 61.

*Salsola linearis* Elliott = *Suaeda linearis* (Elliott) Moq.

*Sarcocornia perennis* (Mill.) A.J. Scott, J. Linn. Soc., Bot. 75: 367. 1978 ["1977"]; *Salicornia perennis* Mill., Gard. Dict., ed. 8. 1768.

*Salicornia ambigua* Michx., Fl. Bor.-Amer. 1: 2. 1803.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Anegada, St. Croix), Lesser Antilles (Barbuda), Aruba, Bonaire, Curaçao, Margarita, North America, Mexico, South America, and Old World.

References: 1, 2, 3, 4, 5, 30, 45, 61, 58, 150, 231, 323.

*Scleropus amaranthoides* Schrad. = *Amaranthus crassipes* Schltld.

*Spinacia oleracea* L., Sp. Pl. 1027. 1753.

Distribution: Exotic in Cayman Islands and Hispaniola; widely cultivated, origin uncertain.

Common Names: Espinaca (Dominican Republic), Bon henri, Epinar, Z'epinar (Haiti).

References: 4, 7.

*Suaeda conferta* (Small) I.M. Johnst., J. Arnold Arbor. 24: 230. 1943;

*Dondia conferta* Small, Bull. New York Bot. Gard. 1: 280. 1899.

*Dondia insularis* Britton, Bull. New York Bot. Gard. 4: 138. 1906; *Suaeda insularis* (Britton) Urb. & Ekman, Ark. Bot. 21A(5): 2. 1927.

Distribution: Native to Bahamas, Hispaniola, United States (TX), and Mexico.

Common Name: Island sea-blite (Bahamas).

References: 3, 5, 7, 45, 254, 644.

*Suaeda fruticosa* (L.) Forssk. = *Suaeda vera* Forssk. ex J. F. Gmel.

*Suaeda insularis* (Britton) Urb. & Ekman = *Suaeda conferta* (Small) I.M. Johnst.

*Suaeda linearis* (Elliott) Moq., Chenop. Monogr. Enum. 130. 1840;

*Salsola linearis* Elliott, Sketch Bot. S. Carolina 1(4): 332. 1817.

Distribution: Native to Bahamas, Cuba, Hispaniola, North America, Mexico, and Central America.

Common Name: Tall sea-blite (Bahamas).

References: 3, 7, 45, 644.

*Suaeda moquinii* (Torr.) Greene = *Suaeda nigra* (Raf.) J.F. Macbr.

*Suaeda nigra* (Raf.) J.F. Macbr., Contr. Gray Herb. 56: 50. 1918;  
*Chenopodium nigrum* Raf., Atlantic J. 1(4): 146. 1832.

*Dondia fruticosa* sensu Britton & Millsp., Bahama Fl. 121. 1920, non  
(L.) Northr. nor Forssk.

*Suaeda moquinii* (Torr.) Greene, Pittonia 1: 264. 1889.

*Suaeda torreyana* S. Watson, Proc. Amer. Acad. Arts 9: 88. 1874.

Distribution: Native to Bahamas, Cuba, Hispaniola, North America,  
and Mexico.

References: 45, 159, 254, 644.

*Suaeda tampicensis* (Standl.) Standl., Publ. Field Columbian Mus., Bot.  
Ser. 8(1): 10. 1930; *Dondia tampicensis* Standl., N. Amer. Fl. 21  
(1): 91. 1916.

Distribution: Native to Hispaniola, Virgin Islands (Anegada), United  
States (TX), and Mexico.

Reference: 7, 254.

*Suaeda torreyana* S. Watson = *Suaeda nigra* (Raf.) J.F. Macbr.

*Suaeda vera* Forssk. ex J. F. Gmel., Onomat. Bot. Compl. 8: 797. 1776.

*Suaeda fruticosa* (L.) Forssk., Fl. Aegypt.-Arab. 70. 1775; *Dondia  
fruticosa* (L.) Northr., Mem. Torrey Bot. Club 12: 35. 1902.

Distribution: Exotic in Cuba, Hispaniola, and Virgin Islands (Anegada);  
native to Eurasia and Africa.

Common Name: Yerba de botella (Cuba).

References: 3, 5, 61, 151, 152, 159.

Note: The record for Anegada may refer to *S. tampicensis*

*Telanthera bettzickiana* Regel = *Alternanthera tenella* Colla var.  
*bettzickiana* (Regel) Veldkamp

*Telanthera crucis* Moq. = *Alternanthera crucis* (Moq.) Boldingh

*Telanthera dolichocephala* Urb. = *Alternanthera crucis* (Moq.)  
Boldingh

*Telanthera flavogrisea* Urb. = *Alternanthera halimifolia* (Lam.) Standl.  
ex Pittier

*Telanthera olivacea* Urb. = *Alternanthera olivacea* (Urb.) Urb.

*Telanthera sintenisii* Urb. = *Alternanthera crucis* (Moq.) Boldingh

*Tidestromia lanuginosa* (Nutt.) Standl., J. Wash. Acad. Sci. 6: 70.  
1916; *Achyranthes lanuginosa* Nutt., Trans. Amer. Philos. Soc.,  
n.s., 5: 166. 1820.

Distribution: Native to Hispaniola, North America, and Mexico.

Reference: 7.

*Trommsdorffia argentata* Mart. = *Pfaffia aurata* (Mart.) Borsch

*Trommsdorffia aurata* Mart. = *Pfaffia aurata* (Mart.) Borsch

\**Woehleria serpyllifolia* Griseb., Abh. Königl. Ges. Wiss. Göttingen 9:  
11. 1861.

Distribution: Endemic to Cuba.

Reference: 3.

#### DOUBTFUL NAME

*Iresine gossypiantha* A. Rich. in R. de la Sagra, Hist. Fis. Cuba, Bot. 11:  
177. 1850.

Described as endemic to Cuba; but not known to modern botanists.

## AMARYLLIDACEAE

Genera. Total: 10; native: 3; endemic: 0.

Taxa. Total: 46; native: 22; endemic: 14.

*Agapanthus africanus* (L.) Hoffmanns., Verz. Pfl.-Kult. 35. 1824.

Distribution: Exotic in Jamaica; native to Africa.

References: 2, 147, 151.

*Allium ampeloprasum* L., Sp. Pl. 295. 1753, *nom. cons.*

*Allium porrum* L., Sp. Pl. 295. 1753.

Distribution: Cultivated in Cuba, Hispaniola, and Puerto Rico; native  
to Europe, Africa, and temperate Asia.

Common Names: Ajo porro, Ajo puerro, Puerro, Puerro común (Cuba),  
Puerro (Dominican Republic), Poireau, Porreau (Haiti), Cebollín,  
Puerro (Puerto Rico).

References: 5, 123, 131, 132, 147, 282.

*Allium ascalonicum* sensu authors = *Allium cepa* L.

*Allium canadense* L., Sp. Pl. 1195. 1753.

Distribution: Cultivated in Cuba; native to North America.

Common Names: Ajo de montaña, Ajo porro, Cebollino (Cuba).

Reference: 282.

*Allium cepa* L., Sp. Pl. 300. 1753.

*Allium cepa* L. var. *aggregatum* G. Don, Mem. Wern. Nat. Hist. Soc. 6:  
27. 1827.

*Allium ascalonicum* sensu authors, non L.

Distribution: Cultivated throughout the West Indies. Cultigen  
originating from central Asia.

Common Names: Cebolla, Cebolla corajo, Cebolla de diente, Cebolla  
de la tierra, Cebolla multiplicadora (Cuba), Cebolla (Dominican  
Republic), Charlotte, Echalotte, Géchalotte, Oignon, Z'échalotte  
Z'oignon, Zongnon (Haiti), Onion (Jamaica), Cebolla, Onion  
(Puerto Rico).

References: 5, 28, 123, 131, 132, 147, 282, 295, 597.

Note: A species with numerous cultivars.

*Allium cepa* L. var. *aggregatum* G. Don = *Allium cepa* L.

*Allium chinense* G. Don, Mem. Wern. Nat. Hist. Soc. 6: 83. 1827.

Distribution: Cultivated in Cuba; native to China.

Common Names: Ajo de montaña, Ajo porro, Cebollino, Rackio (Cuba).

References: 147, 282.

*Allium fistulosum* L., Sp. Pl. 301. 1753.

Distribution: Cultivated in Cuba. Cultigen originating from China.

Common Names: Ajo de jardín, Cebollín, Cebollino, Cebollino Español  
(Cuba).

References: 147, 282.

*Allium gracile* Dryand. = *Nothoscordum gracile* (Dryand.) Stearn

*Allium porrum* L. = *Allium ampeloprasum* L

*Allium sativum* L., Sp. Pl. 296. 1753.

Distribution: Cultivated in Cuba, Hispaniola, Jamaica, Puerto Rico,  
and Virgin Islands. Cultigen originating from Asia.

Common Names: Ajo, Ajo común (Cuba), Ajo, Cebolla (Dominican  
Republic), Ail, Ail de cuisine, Lai (Haiti), Garlic (Jamaica), Ajo  
(Puerto Rico), Garlic (Virgin Islands).

References: 2, 5, 28, 123, 131, 132, 147, 282.

*Allium schoenoprasum* L., Sp. Pl. 301. 1753.

Distribution: Exotic in Cuba, Hispaniola, and Jamaica; native to New  
and Old World temperate regions.

Common Names: Cebollino (Cuba), Ciboule Cive, Ciboulette, Civette  
(Haiti), Chives (Jamaica).

References: 2, 5, 28, 123, 132, 282.

*Allium tuberosum* Rottler ex Spreng., Syst. Veg. 2: 38. 1825.

Distribution: Cultivated in Cuba; native to China.

References: 147, 282.

*Amaryllis belladonna* L., Sp. Pl. 293. 1753, *nom. cons.*

Distribution: Exotic in Cuba and Hispaniola; native to Africa.

Common Names: Bella dama, Belladona de otoño, Lirio tararaco,  
Tataraco, Tulipán (Cuba).

References: 5, 132, 147.

*Amaryllis bifolia* Aubl. = *Zephyranthes bifolia* (Aubl.) M. Roem.

- Amaryllis carinata* (Herb.) Spreng. = *Zephyranthes carinata* Herb.  
*Amaryllis equestris* Aiton = *Hippeastrum puniceum* (Lam.) Voss

*Amaryllis tubispatha* L'Hér. = *Habranthus tubispathus* (L'Hér.) Traub  
*Atamosco cardinalis* (C.H. Wright) Britton = *Zephyranthes cardinalis* C.H. Wright  
*Atamosco carinata* (Herb.) P. Wilson = *Zephyranthes carinata* Herb.  
*Atamosco rosea* (Lindl.) Greene = *Zephyranthes rosea* Lindl.  
*Atamosco tubispatha* (L'Hér.) M. Gómez = *Habranthus tubispathus* (L'Hér.) Traub.  
*Atamosco tubispatha* sensu Britton & P. Wilson = *Zephyranthes puertoricensis* Traub.  
*Crinum amabile* Donn ex Ker Gawl. = *Crinum asiaticum* L.  
*Crinum americanum* L., Sp. Pl. 292. 1753.  
*Crinum caribaeum* Baker, Gard. Chron. 1881(2): 40. 1881.  
Distribution: Native to Cayman Islands, Cuba, Jamaica, North America, Mexico, Central America, and South America.  
Common Names: Seven sisters (Cayman Isl.), Lirio de San Pedro (Cuba).  
References: 2, 3, 4, 147, 491.  
*Crinum asiaticum* L., Sp. Pl. 292. 1753.  
*Crinum amabile* Donn ex Ker-Gawl, Hort. Cantabrig., ed. 6, 83. 1811.  
Distribution: Exotic in Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Lesser Antilles (Anguilla, St. Lucia), and Margarita; native to Asia, Malesia, and Pacific Region.  
References: 1, 2, 4, 5, 28, 30, 45, 147, 244, 323, 491.  
*Crinum bulbispermum* (Burm. f.) Milne-Redh. & Schweick., J. Linn. Soc., Bot. 52: 161. 1939.  
Distribution: Exotic in Cuba, Lesser Antilles (Antigua, Guadeloupe, Martinique, Saba, St. Kitts); native to South Africa.  
References: 1, 147, 491.  
*Crinum caribaeum* Baker = *Crinum americanum* L.  
*Crinum erubescens* Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 1: 279. 1816.  
Distribution: Exotic in Cuba, Hispaniola, and Lesser Antilles (Guadeloupe, Saba, St. Kitts); native to Mexico, Central America, and South America.  
Common Names: Lirio, Lirio cinta, Lirio de cinta (Dominican Republic), Lis, Lis blanc, Oignon de lis (Haiti).  
References: 1, 3, 5, 147.  
*Crinum giganteum* Andrews, Bot. Repos. 3: t. 169. 1801.  
Distribution: Cultivated in Cuba; native to tropical Africa.  
Reference: 491.  
*Crinum jagus* (J. Thoms.) Dandy, J. Bot. 77: 64. 1939.  
Distribution: Cultivated in Cuba; native to Africa.  
Reference: 491.  
*Crinum latifolium* L. var. *zeylanicum* L. = *Crinum zeylanicum* (L.) L.  
*Crinum longifolium* (L.) Thunb., Prodr. Pl. Cap. 59. 1794.  
Distribution: Cultivated in Cuba; native to tropical Africa.  
Reference: 491.  
*Crinum oliganthum* Urb., Repert. Spec. Nov. Regni Veg. 15: 100. 1917.  
Distribution: Endemic to Cuba.  
Common Name: Lirio (Cuba)  
References: 3, 132, 147, 491.  
*Crinum palustre* Urb., Repert. Spec. Nov. Regni Veg. 15: 101. 1917.  
Distribution: Endemic to Hispaniola.  
References: 5, 147.  
*Crinum sanderianum* Baker, Gard. Chron., ser. 2, 22: 102. 1884.  
Distribution: Cultivated in Cuba; native to tropical Africa.  
Reference: 491.  
*Crinum zeylanicum* (L.) L., Syst. Nat., ed. 12, 236. 1767; *Crinum latifolium* L. var. *zeylanicum* L. Sp. Pl. 291. 1753.  
Distribution: Exotic in Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. John, St. Thomas, Virgin Gorda), and Lesser Antilles (Barbados, Guadeloupe, Martinique, Saba); native to Africa and Asia.  
Common Names: Lirio de cinta (Cuba), Lirio (Dominican Republic).  
References: 2, 19, 28, 45, 123, 132, 147, 491.  
*Eucharis amazonica* Linden ex Planch., Fl. Serres Jard. Eur. 12: 1216. 1857.  
*Eucharis grandiflora* sensu authors, non Planch. & Linden.  
Distribution: Naturalized in Hispaniola, Jamaica, Puerto Rico, Lesser Antilles (Barbados, Dominica, Guadeloupe, Martinique, Nevis, Saba, St. Eustatius, St. Lucia, St. Martin), and Margarita; widely cultivated in Cuba; native to northern Peru.  
Common Name: Eucharist lily (Jamaica).  
References: 1, 2, 4, 7, 23, 28, 61, 147, 254, 323.  
*Eucharis grandiflora* sensu authors = *Eucharis amazonica* Linden ex Planch.  
*Habranthus tubispathus* (L'Hér.) Traub, Pl. Life 7: 42. 1951; *Amaryllis tubispatha* L'Hér., Sert. Angl. 9. 1789; *Atamosco tubispatha* (L'Hér.) M. Gómez, Bol. Secr. Agric. Comerc. Trab., Cuba 22: 106. 1914; *Zephyranthes tubispatha* (L'Hér.) Herb., Appendix 36. 1821.  
Distribution: Exotic in Cuba, Hispaniola, Virgin Islands (St. Thomas), and Lesser Antilles (Barbados); native to South America.  
References: 28, 147, 294.  
*Hippeastrum equestre* (Aiton) Herb. = *Hippeastrum puniceum* (Lam.) Voss  
*Hippeastrum puniceum* (Lam.) Voss, Vilm. Blumengärtn., ed. 3, 1: 1033. 1895; *Amaryllis punicea* Lam., Encycl. 1: 122. 1783.  
*Amaryllis equestris* Aiton, Hortus Kew. 1: 417. 1789; *Hippeastrum equestre* (Aiton) Herb., Appendix 31. 1821.  
*Hippeastrum purpureum* Kuntze, Revis. Gen. Pl. 2: 703. 1891.  
*Hymenocallis biflora* Sessé & Moc., Fl. Mexic., ed. 2, 87. 1894.  
Distribution: Exotic in Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), and Lesser Antilles (Antigua, Barbados, Désirade, Dominica, Grenada, Guadeloupe, Martinique, Saba, St. Eustatius, St. Lucia, St. Martin, St. Vincent).  
Common Names: Amaryllis, Lino, Lirio, Palito de Indio (Dominican Republic), Calatat, Galatat, La trompette, Lis de Catherine, Lis rouge, Petit lis du calvaire, Zonzon, Zon zon (Haiti), Easter lily (Jamaica), Easter lily, Fleur-trompette, Grote pinpin, Leli, Lis rouge, Red lily (Lesser Antilles), Amapola, Lirio rojo (Puerto Rico).  
References: 1, 2, 3, 4, 5, 28, 30, 45, 131, 147, 152, 491.  
*Hippeastrum purpureum* Kuntze = *Hippeastrum puniceum* (Lam.) Voss  
*Hippeastrum vittatum* Herb., Appendix 31. 1821.  
Distribution: Exotic in Hispaniola and Margarita; native to South America.  
Common Name: Lirio (Dominican Republic).  
References: 5, 147, 323.  
*Hymenocallis arenicola* Northr., Mem. Torrey Bot. Club 12: 28. 1902; *Pancratium arenicola* (Northr.) Alain, Phytologia 8: 369. 1962.  
*Hymenocallis declinata* sensu Britton & Millsp., Bahama Fl. 78. 1920, non, Sweet nor Roem.  
Distribution: Endemic to West Indies; native to Bahamas, Cuba, Hispaniola, and Jamaica.  
References: 2, 3, 45, 147, 491.

- Hymenocallis biflora* Sessé & Moc. = *Hippeastrum puniceum* (Lam.) Voss
- Hymenocallis caribaea* (L.) Herb., Appendix 44. 1821; *Pancratium caribaeum* L., Sp. Pl. 291. 1753; *Nemepiodon caribaeus* (L.) Raf., Fl. Tellur. 4: 22. 1838.
- Hymenocallis caribaea* (L.) Herb. f. *angustifolia* Voss, Vilm. Blumengärtn., ed. 3, 1: 1021. 1895.
- Hymenocallis caribaea* (L.) Herb. var. *cinerascens* Herb., Amaryllidaceae: 212. 1837.
- Hymenocallis caribaea* (L.) Herb. var. *patens* (Lindl. ex Delile) Herb., Amaryllidaceae: 212. 1837.
- Hymenocallis declinata* (Jacq.) Sweet, Hort. Brit., ed. 2, 513. 1830; *Pancratium declinatum* Jacq., Select. Stirp. Amer. Hist. 99. 1763.
- Pancratium carolinianum* sensu Bello, Anales Soc. Esp. Hist. Nat. 12: 120. 1883, non L.
- Distribution: Native to Jamaica, Virgin Islands (St. Croix, St. John, St. Thomas, Virgin Gorda), Lesser Antilles (Anguilla, Antigua, Barbados, Grenada, The Grenadines, Guadeloupe, Marie Galante, Martinique, Montserrat, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia, St. Martin, St. Vincent), and Margarita.
- Common Names: Lirio san Juan, Tararaco blanco (Cuba), Leli, Lily, Lis à l'huile, Lis blanc, Oignon de lis, Spider lily (Lesser Antilles), Spider lily (Virgin Islands).
- References: 1, 2, 3, 19, 147, 323, 491.
- Hymenocallis caribaea* (L.) Herb. f. *angustifolia* Voss = *Hymenocallis caribaea* (L.) Herb.
- Hymenocallis caribaea* (L.) Herb. var. *cinerascens* Herb. = *Hymenocallis caribaea* (L.) Herb.
- Hymenocallis caribaea* (L.) Herb. var. *patens* (Lindl. ex Delile) Herb. = *Hymenocallis caribaea* (L.) Herb.
- Hymenocallis declinata* sensu Britton & Millsp. = *Hymenocallis arenicola* Northr.
- Hymenocallis declinata* (Jacq.) Sweet = *Hymenocallis caribaea* (L.) Herb.
- Hymenocallis expansa* (Herb.) Herb. = *Hymenocallis latifolia* (Mill.) M. Roem.
- Hymenocallis fragrans* (Salisb.) Salisb., Trans. Hort. Soc. London 1: 340. 1812; *Pancratium fragrans* Salisb., Trans. Linn. Soc. London 2: 72. 1794.
- Distribution: Endemic to West Indies; native to Jamaica and apparently the Lesser Antilles (Barbados, Martinique).
- References: 1, 2, 147.
- Hymenocallis latifolia* (Mill.) M. Roem., Fam. Nat. Syn. Monogr. 4: 168. 1847; *Pancratium latifolium* Mill., Gard. Dict., ed. 8. 1768.
- Hymenocallis expansa* (Herb.) Herb., Appendix 44. 1821.
- Pancratium caymanense* (Herb.) Alain, Brittonia 20: 149. 1968.
- Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana, St. Croix, St. John, St. Thomas, Virgin Gorda), Lesser Antilles (St. Kitts), and United States (FL).
- Common Names: Lirio blanco, Lirio de Ciénaga, Lirio de San Juan, Lirio Sanjuanero (Cuba), Amaryllis, Lirio, Lirio blanco, Lirio de plata, Lirio de playa (Dominican Republic), Fleur de lis, Lis blanc, Lis de St. Antoine, Oignon de lis, Pancratier blanc, Pancrais de Antilles (Haiti), Lirio blanco, Lirio de playa (Puerto Rico).
- References: 2, 4, 45, 28, 123, 131, 132, 147, 152, 241, 491.
- Hymenocallis ovata* Herb., Appendix 44. 1821.
- Distribution: Native to Cuba, Lesser Antilles, and South America.
- Common Name: Tararaco blanco (Cuba).
- References: 3, 147.
- Hymenocallis praticola* Britton & P. Wilson, Mem. Torrey Bot. Club 16: 60. 1920; *Pancratium praticola* (Britton & P. Wilson) Alain, Phytologia 8: 369. 1962.
- Hymenocallis stenophylla* Urb., Repert. Spec. Nov. Regni Veg. 21: 53. 1925.
- Distribution: Endemic to Cuba.
- References: 3, 28, 147, 156.
- Note: A collection of a cultivated plant from Puerto Rico seems to refer to this species.
- Hymenocallis speciosa* (L. f. ex Salisb.) Salisb., Trans. Hort. Soc. London 1: 340. 1812; *Pancratium speciosum* L. f. ex Salisb., Trans. Linn. Soc. London 2: 73. 1794.
- Pancratium caribaeum* Curt., Bot. Mag. 21: t. 826. 1805.
- Distribution: Endemic to West Indies; native to Bahamas, Cuba, and Lesser Antilles (Dominica, Grenada, The Grenadines, St. Vincent); cultivated in Puerto Rico and Virgin Islands (St. John).
- Common Name: Lirio del Japón (Cuba).
- References: 1, 19, 28, 45, 132, 147, 152.

- Zephyranthes bifolia* (Aubl.) M. Roem., Fam. Nat. Syn. Monogr. 4: 125. 1847; *Amaryllis bifolia* Aubl., Hist. Pl. Guiane 1: 304. 1775.
- Distribution: Endemic to West Indies; native to Bahamas and Hispaniola.
- Common Names: Cebolla cimarrona, Duende rosado, Primavera, Tulipe, Violeta (Dominican Republic), Duende, Duende cimarrón (Haiti).
- References: 5, 30, 45, 147.
- Zephyranthes candida* (Lindl.) Herb., Bot. Mag. 53: t. 2607. 1826.
- Distribution: Exotic in Lesser Antilles (Guadeloupe, Martinique); native to South America.
- References: 1, 147.
- Zephyranthes cardinalis* C.H. Wright, Bot. Mag. 140: t. 8553. 1914.
- Atamosco cardinalis* (C.H. Wright) Britton in N.L. Britton & C.F. Millspaugh, Bahama Fl. 78. 1920.

Distribution: Endemic to Bahamas.

References: 45, 147.

*Zephyranthes carinata* Herb., Bot. Mag. 52: t. 2594. 1825; *Amaryllis carinata* (Herb.) Spreng., Syst. Veg. 4: 132. 1827; *Atamosco carinata* (Herb.) P. Wilson in N.L. Britton & P. Wilson, Sci. Surv. Porto Rico & Virgin Islands 5: 159. 1923.

*Zephyranthes grandiflora* sensu Proctor, Acevedo-Rodríguez & Strong, Contr. U.S. Natl. Herb. 52: 113. 2005.

Distribution: Native to Jamaica, Puerto Rico, Lesser Antilles, Mexico, Central America, and South America.

References: 1, 28, 147, 230.

*Zephyranthes ciceroana* M.M. Mejía & R.G. García, Moscosoa 8: 23. 1994.

Distribution: Endemic to Hispaniola (Dominican Republic).

Common Name: Duende de la Altigracia (Dominican Republic).

References: 8, 147, 156.

*Zephyranthes citrina* Baker, Bot. Mag. 108: t. 6605. 1882.

*Zephyranthes eggersiana* Urb., Symb. Antill. 5: 292. 1907.

Distribution: Native to Cayman Islands, Cuba, Hispaniola, Mexico, Central America, and South America; apparently introduced in Bahamas, Jamaica, Puerto Rico, Lesser Antilles (Antigua, Barbados, Dominica, Guadeloupe, Saba, St. Barthélemy, St. Lucia, St. Martin), and North America.

Common Names: Brujita amarilla (Cuba), Duende amarillo (Dominican Republic), Crocus (Jamaica), Petit lis jaune, Yellow crocus (Lesser Antilles), Duende amarillo (Puerto Rico).

References: 1, 2, 3, 4, 5, 28, 30, 45, 123, 131, 132, 147, 491.

*Zephyranthes cubensis* Urb., Symb. Antill. 5: 292. 1907.

Distribution: Endemic to Cuba.

Common Names: Brujita americana, Brujitas (Cuba).

References: 3, 30, 147, 491.

*Zephyranthes eggersiana* Urb. = *Zephyranthes citrina* Baker

*Zephyranthes grandiflora* sensu Proctor et al. = *Zephyranthes carinata* Herb.

*Zephyranthes insularum* H.H. Hume ex Moldenke, Pl. Life 8: 152. 1952.

Distribution: Endemic to Cuba.

References: 3, 147.

*Zephyranthes plumieri* H.H. Hume ex Moldenke, Pl. Life 8: 152. 1952.

Distribution: Endemic to Hispaniola.

Reference: 147.

*Zephyranthes proctorii* Acev.-Rodr. & M.T. Strong, Contr. U.S. Natl. Herb. 52: 115. 2005.

Distribution: Endemic to Puerto Rico.

References: 23, 28, 156.

*Zephyranthes puertoricensis* Traub., Pl. Life 7: 37. 1951.

*Atamosco tubispatha* sensu Britton & P. Wilson, Sci. Surv. Porto Rico & Virgin Islands 5: 158. 1923, non (L'Hér.) M. Gómez.

Distribution: Native to Bahamas, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana, St. Croix, St. John), Lesser Antilles (Antigua, Barbados, Barbuda, Guadeloupe, Martinique, Montserrat, Saba, St. Eustatius, St. Lucia, St. Martin, St. Vincent), and South America; cultivated in Cuba.

Common Names: Bruja, Brujita blanca (Cuba), Duende blanco (Dominican Republic), Barbados snow drop, Lis-savane, Petit lis blanc, Sibojitu, White snowdrop (Lesser Antilles), Duende blanco (Puerto Rico).

References: 1, 28, 45, 61, 123, 131, 147, 150, 254, 491.

*Zephyranthes rosea* Lindl., Bot. Reg. 10: t. 821. 1824; *Atamosco rosea* (Lindl.) Greene, Pittonia 3: 188. 1897.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Puerto Rico, Virgin Islands (St. Croix), Lesser Antilles

(Guadeloupe, Martinique, St. Eustatius, St. Martin), Central America, and South America.

Common Names: Small pink atamasco-lily (Bahamas), Brujita rosada (Cuba), Duende rosado (Dominican Republic), Kleine penpen, Leli di San Jose, Sibojitu (Lesser Antilles), Duende rojo (Puerto Rico).

References: 1, 3, 4, 28, 45, 123, 131, 132, 147, 150.

*Zephyranthes tubispatha* (L'Hér.) Herb. = *Habranthus tubispathus* (L'Hér.) Traub

*Zephyranthes wrightii* Baker, Handb. Amaryll. 32. 1888.

Distribution: Endemic to Cuba.

References: 3, 147.

## ANACARDIACEAE

Genera. Total: 10; native: 6; endemic: 0.

Taxa. Total: 35; native: 28; endemic: 22.

*Anacardium excelsum* (Bert. & Balbis ex Kunth) Skeels, U.S.D.A. Bur. Pl. Industr. Bull. 242: 36. 1912.

Distribution: Cultivated in Cuba (Soledad Botanic Gardens).

Reference: 254 (*Jacqs* 8444).

*Anacardium occidentale* L., Sp. Pl. 383. 1753.

Distribution: Exotic in Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Jost van Dyke, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Anguilla, Antigua, Barbados, Dominica, Grenada, Grenadines, Guadeloupe, Marie Galante, Martinique, Montserrat, Saba, St. Barthélemy, St. Eustatius, St. Lucia, St. Martin, St. Vincent), Tobago, Trinidad, and Margarita; native to South America.

Common Names: Cajuil, Marañon (Cuba), Cacajuil, Cajuil (Dominican Republic), Acajou, Anacarde, Noix d'acajou, Pomme, Pomme acajou, Pomme cajou (Haiti), Cashew (Jamaica), Cashew, Cashew-nut, Neva, Noix-cajou, Pomme-cajou, Wild almond (Lesser Antilles), Cajuil, Marañon, Pajuil (Puerto Rico), Cashew nut (Virgin Islands).

References: 1, 2, 3, 5, 6, 7, 19, 40, 58, 61, 75, 123, 131, 132, 224, 301, 323, 340.

Note: Considered an invasive species by CeNBIO.

*Comocladia acuminata* Britton = *Comocladia cuneata* Britton

*Comocladia acuminata* sensu Bello = *Comocladia glabra* (Schult.) Spreng.

*Comocladia cordata* Britton, Torreya 7: 6. 1907.

Distribution: Endemic to Jamaica.

References: 2, 427.

Note: Considered vulnerable by the IUCN Red List of Threatened Species.

*Comocladia cuneata* Britton, Bull. Torrey Bot. Club 41: 9. 1914.

*Comocladia acuminata* Britton, Bull. Torrey Bot. Club 37: 349. 1910.

Distribution: Endemic to Hispaniola.

Common Names: Chicharrón, Guao (Dominican Republic), Bois pagnol, Bresillet, Brésillette, Dos Gilette, La (s) brisiette (Haiti).

References: 5, 7, 149.

Note: Cited for Puerto Rico in error (6).

*Comocladia dentata* Jacq., Enum. Syst. Pl. 12. 1760.

*Comocladia propinqua* Kunth in F.W.H.A. von Humboldt, A.J.A.

Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 7: 16. 1824.

Distribution: Endemic to Greater Antilles; native to Cayman Islands, Cuba, and Hispaniola.

Common Names: Guao, Guao de costa (Dominican Republic), Bouzillette, Brisiette, Bresillet, Bresillette (Haiti).

References: 3, 4, 5, 7, 151.

Note: Cited for Puerto Rico in error (6).

- Comocladia dodonaea* (L.) Urb., Symb. Antill. 4: 360. 1910; *Ilex dodonaea* L., Sp. Pl. 125. 1753.
- Comocladia ilicifolia* Sw., Prodr. 17. 1788.  
Distribution: Endemic to West Indies; native to Hispaniola, Puerto Rico, Virgin Islands (Guana, Jost van Dyke, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), and Lesser Antilles (Anguilla, Antigua, Barbuda, Grenada, Grenadines, Guadeloupe, Marie Galante, Montserrat, Saba, St. Eustatius, St. Kitts, St. Lucia, St. Martin, St. Vincent).  
Common Names: Chicharrón cimarrón, Guao (Dominican Republic), Brésiller, Bresillet, Bresillette (Haiti), Bois de houx, Hogwood, Hollywood, Houx-pays (Lesser Antilles), Carrasco, Chicharrón, Maíz pelado, Maíz tostado, Prapra, Próspera (Puerto Rico).  
References: 1, 5, 6, 7, 19, 30, 58, 61, 123, 131, 152.
- Comocladia domingensis* Britton, Bull. Torrey Bot. Club 37: 350. 1910.  
Distribution: Endemic to Hispaniola.  
Common Names: Guao (Dominican Republic), Bois espagnol (Haiti).  
References: 5, 7.
- Comocladia ebrenbergii* Engl., Bot. Jahrb. Syst. 1: 420. 1881.  
Distribution: Endemic to Hispaniola (Dominican Republic).  
References: 5, 7.
- Comocladia ekmaniana* Helwig, Ark. Bot. 22A(17): 23. 1929.  
Distribution: Endemic to Hispaniola.  
References: 5, 7.
- Comocladia gilgiana* Helwig, Ark. Bot. 22A(17): 24. 1929.  
Distribution: Endemic to Hispaniola.  
References: 5, 7.
- Comocladia glabra* (Schult.) Spreng., Syst. Veg., ed. 16, 1: 176. 1824 ["1825"]; *Comocladia ilicifolia* Sw. var. *glabra* Schult., Mant. 1: 350. 1822.
- Comocladia acuminata* sensu Bello, Anales Soc. Esp. Hist. Nat. 10: 253. 1881, non Sessé & Moc.
- Comocladia glabra* (Schult.) Spreng. var. *acuminata* Urb., Symb. Antill. 4: 361. 1910.  
Distribution: Endemic to Greater Antilles; native to Hispaniola and Puerto Rico.  
Common Names: Chicharrón, Guao (Dominican Republic), Brésillette (Haiti), Carrasco, Guao (Puerto Rico).  
References: 5, 6, 7, 30, 58, 61, 75, 123, 131, 340.

Note: Considered critically endangered by the IUCN Red List of Threatened Species.
- Comocladia pilosa* Britton = *Comocladia pinnatifolia* L.
- Comocladia pinnatifolia* L., Syst. Nat., ed. 10, 861. 1759.  
*Comocladia integrifolia* Jacq., Enum. Syst. Pl. 12. 1760.  
*Comocladia pilosa* Britton, Bull. Torrey Bot. Club 37: 348. 1910.  
Distribution: Endemic to Greater Antilles; native to Hispaniola and Jamaica.  
Common Names: Guao (Dominican Republic), Bois espagnol, Brésille, Bresillet, Bresillette, Sabilier (Haiti), Maiden plum (Jamaica).  
References: 2, 5, 7, 152, 156.
- Comocladia platyphylla* A. Rich. ex Griseb., Cat. Pl. Cub. 68. 1866.  
Distribution: Endemic to Cuba.  
Reference: 3.
- Comocladia propinqua* Kunth = *Comocladia dentata* Jacq.
- Comocladia pubescens* Engl., Bot. Jahrb. Syst. 1: 420. 1881.  
Distribution: Endemic to Greater Antilles; native to Hispaniola and Jamaica.  
Common Name: Guao (Dominican Republic).  
References: 2, 7, 30.
- Comocladia velutina* Britton, Torrey Bot. Club 7: 6. 1907.  
Distribution: Endemic to Jamaica.  
Common Name: Velvet-leaved maiden plum (Jamaica).  
References: 2, 427.  
Note: Considered near threatened by the IUCN Red List of Threatened Species.
- Euleria tetramera* Urb. = *Picrasma tetramera* (Urb.) W.W. Thomas, J.D. Mitchell & A. Noa Monzón (Simaroubaceae)
- Mangifera indica* L., Sp. Pl. 200. 1753.  
Distribution: Exotic in Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Anegada, Guana, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Anguilla, Antigua, Barbados, Barbuda, Dominica, Grenada, Grenadines, Guadeloupe, Martinique, Montserrat, Saba, St. Barthélemy, St. Eustatius, St. Lucia, St. Martin, St. Vincent), Tobago, Trinidad, and Margarita; native to tropical Asia.  
Common Names: Mango (Bahamas), Manga, Manga amarilla, Manga blanca, Mango, Mango de hilacha (Cuba), Mango, Mangue (Dominican Republic), Mangot, Mangot fil, Manguier (Haiti), Mango (Jamaica), Mango, Manguier, Pied-mango (Lesser Antilles), Mango, Mangó (Puerto Rico).

*Rhus metopium* sensu A. Rich. in R. de la Sagra, Hist. Phys. Cuba, Pl. Vasc. 381. 1845, non L.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Puerto Rico, Lesser Antilles (Dominica), North America, and Mexico.

Common Names: Poison tree, Poison wood (Bahamas), Pinipiniche (Cuba), Guao, Manzanillo (Dominican Republic), Bois mulâtre, Machandeuse, Machandoise, Manceniller, Mancenillier, Manchenille, Manchineel, Maximier, Maximilien (Haiti), Poisonwood (Lesser Antilles), Cedro prieto, Papayo (Puerto Rico).

References: 1, 3, 4, 5, 6, 7, 30, 45, 58, 61, 131, 132.

*Metopium venosum* (Griseb.) Engl., Monogr. Phan. 4: 367. 1883; *Rhus venosum* Griseb., Cat. Pl. Cub. 67. 1866.

Distribution: Endemic to Cuba.

Reference: 3.

*Mosquitoxylum jamaicense* Krug & Urb., Notizbl. Königl. Bot. Gart. Berlin 1: 79. 1895.

Distribution: Native to Jamaica, Mexico, Central America, and South America.

Common Name: Mosquito wood (Jamaica).

References: 2, 151.

*Rhus bahamensis* G. Don, Gen. Hist. 2: 72. 1832.

Distribution: Endemic to Bahamas.

References: 45, 152.

*Rhus cominia* L. = *Allophylus cominia* (L.) (Sw.) var. *cominia* (Sapindaceae)

*Rhus copallinum* L., Sp. Pl. 266. 1753.

*Rhus copallinum* L. subsp. *leucanthum* (Jacq.) A.E. Murray, Kalmia 13: 28. 1983; *Rhus leucantha* Jacq., Pl. Rar. Hort. Schoenbr. 3: 50. 1798; *Rhus copallinum* L. var. *leucanthum* (Jacq.) DC., Prodr. 2: 68. 1825.

Distribution: Native to Cuba and North America.

References: 3, 150, 151.

*Rhus copallinum* L. subsp. *leucanthum* (Jacq.) A.E. Murray = *Rhus copallinum* L.

*Rhus metopium* sensu A. Rich. = *Metopium toxiferum* (L.) Krug & Urb.

*Rhus radicans* L. = *Toxicodendron radicans* (L.) Kuntze

*Rhus rufescens* Desv. ex Ham = *Brunellia comocladifolia* Humb. & Bonpl. subsp. *jamaicensis* Cuatrec. (Brunelliaceae)

*Rhus venosum* Griseb. = *Metopium venosum* (Griseb.) Engl.

*Schinus fagara* L. = *Zanthoxylum fagara* (L.) Sarg. (Rutaceae)

*Schinus molle* L., Sp. Pl. 388. 1753.

Distribution: Cultivated in Cuba and Puerto Rico; native to South America.

Common Name: Pimiento de América (Cuba).

References: 6, 58, 132, 224.

Note: Considered an invasive species by CeNBIO.

*Schinus terebinthifolius* Raddi, Mem. Mat. Fis. Soc. Ital. Sci. Modena, Pt. Mem. Fis. 18: 399. 1820.

Distribution: Exotic in Bahamas, Cuba, Hispaniola, Puerto Rico, Virgin Islands (Anegada, St. Croix, St. John), and Margarita; native to South America.

Common Names: Brazilian pepper tree, Christmas-berry tree (Bahamas), Copal, Racimos de rubíes (Cuba), Pimienta del Brasil (Puerto Rico).

References: 6, 7, 19, 45, 58, 61, 131, 132, 159, 224, 323, 383.

Note: Considered an invasive species by CeNBIO.

*Spondias cytherea* Sonn. = *Spondias dulcis* Parkinson

*Spondias cytherea* Tussac = *Spondias mombin* L.

*Spondias dulcis* Parkinson, J. Voy. South Seas 39. 1773.

*Spondias cytherea* Sonn., Voy. Indes Orient. 3: 242. 1782.

Distribution: Exotic in Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas), Lesser Antilles (Guadeloupe), Trinidad, and Margarita; probably native to tropical Asia or Oceania.

Common Names: Ciruela dulce, Jobo de la India, Manzana de Otahití (Cuba), Jobo de la India, Manzana de oro, Robe (Dominican Republic), Mombin espagnol, Pomme cythere (Haiti), Jew plum (Jamaica), Hog plum, Pomme-cythere, Prune-cythere, Yellow plum (Lesser Antilles), Cítara, Jobo de la India (Puerto Rico).

Note: Considered an invasive species by CeNBIO.

*Spondias x robe* Urb., Ark. Bot. 22A(17): 21. 1929.

Distribution: Endemic to Hispaniola.

Common Names: Robe (Dominican Republic), Mombin espagnole (Haiti).

References: 5, 7, 123.

*Terebinthus brownei* Jacq. = *Metopium brownei* (Jacq.) Urb.

*Toxicodendron radicans* (L.) Kuntze, Revis. Gen. Pl. 1: 153. 1891;  
*Rhus radicans* L., Sp. Pl. 266. 1753.

Distribution: Native to Bahamas, North America, and Mexico.

Common Name: Poison ivy.

References: 45, 151.

## ANNONACEAE

Genera. Total: 8; native: 7; endemic: 0.

Taxa. Total: 51; native: 46; endemic: 41.

*Anaxagorea acuminata* sensu Bello = *Oxandra laurifolia* (Sw.) A. Rich.

*Annona bicolor* Urb., Symb. Antill. 7: 223. 1912.

Distribution: Endemic to Hispaniola (Dominican Republic).

Common Name: Guanabanita (Dominican Republic).

References: 5, 7, 30, 132.

*Annona bullata* A. Rich. in R. de la Sagra, Hist. Phys. Cuba, Pl. Vasc. 31. 1845.

Distribution: Endemic to Cuba.

References: 3, 352.

*Annona cascarilloides* Griseb., Cat. Pl. Cub. 2. 1866.

Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.

Common Names: Anoncillo, Anoncillo de sabana, Anoncillo de paredón, Cuabilla, Mamoncillo (Cuba).

References: 3, 5, 7.

*Annona cherimola* Mill., Gard. Dict., ed. 8. 1768.

Distribution: Cultivated in Cuba, Hispaniola, Jamaica, Puerto Rico, and Lesser Antilles (Martinique, St. Lucia); native to South America.

Common Names: Chirimoya (Cuba), Cherimoya, Chermoya, Chirimolia, Chirimoya (Dominican Republic), Cachimán, Cachiman de la china, Cachimán de la chine, Cachiman la chine (Haiti), Cherimoya (Jamaica), Cherimoya, Chirimoya (Puerto Rico).

References: 1, 2, 3, 5, 6, 7, 123, 131, 132.

*Annona crassivenia* Saff., Contr. U.S. Natl. Herb. 18: 50. 1914.

Distribution: Endemic to Cuba.

Common Names: Anón de cuabal, Anoncillo de sabana (Cuba).

References: 3, 132, 151.

*Annona cristalensis* (Alain) Borhidi & Moncada, Acta Agron. Acad. Sci. Hung. 27: 428. 1978; *Xylopiya cristalensis* Alain, Candollea 17: 108. 1960.

Distribution: Endemic to Cuba.

References: 39, 149, 427.

Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39) and vulnerable by the IUCN Red List of Threatened Species.

*Annona cubensis* R.E. Fries, Ark. Bot. 21A(9): 12. 1927.

Distribution: Endemic to Cuba.

Common Name: Anón cimarrón (Cuba).

References: 3, 132.

*Annona dolabripetala* sensu Bello = *Rollinia mucosa* (Jacq.) Baill.

*Annona domingensis* R.E. Fries, Acta Horti Berg. 10: 308. 1931.

Distribution: Endemic to Hispaniola (Dominican Republic).

Reference: 7.

*Annona dumetorum* R.E. Fries, Acta Horti Berg. 10: 308. 1931.

Distribution: Endemic to Hispaniola (Haiti).

Common Name: Anón de perro (Dominican Republic).

References: 7, 123.

*Annona ekmanii* R.E. Fries, Ark. Bot. 21A(9): 16. 1927.

Distribution: Endemic to Cuba.

References: 3, 39, 152.

Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39).

*Annona elliptica* R.E. Fries, Ark. Bot. 21A(9): 13. 1927.

Distribution: Endemic to Cuba.

References: 3, 39, 152.

Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).

*Annona frutescens* R.E. Fries, Ark. Bot. 21A(9): 23. 1927.

Distribution: Endemic to Hispaniola (Haiti).

References: 5, 7.

*Annona glabra* L., Sp. Pl. 537. 1753.

*Annona palustris* L., Sp. Pl., ed. 2, 757. 1762.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana, Jost van Dyke, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Antigua, Barbados, Barbuda, Barbuda, Dominica, Grenada, Grenadines, Guadeloupe, Marie Galante, Martinique, Montserrat, St. Lucia, St. Vincent), Trinidad, Curaçao, Margarita, North America, Mexico, Central America, and South America.

Common Names: Pond-apple (Bahamas), Bagá, Palo bobo de cuba (Cuba), Anón de río, Bagá, Guanábana cimarrona, Guanábana de corcho, Guanábana de perro, Guanábano, Mamón de perro (Dominican Republic), Coeur de boeuf, Corossol marrón, Liege, Mammier, Marrón (Haiti), Pond apple (Jamaica), Bois flot, Cachiman conchon, Cajuca, Dog apple, Gut apple, Monkey apple, Mamain, Pond apple (Lesser Antilles), Bunya, Cayur, Cayure, Corazón cimarrón, Corcho, Coyur (Puerto Rico).

References: 1, 2, 3, 4, 6, 7, 19, 30, 45, 58, 61, 75, 123, 131, 132, 151, 301, 323, 340.

*Annona gracilis* R.E. Fries, Ark. Bot. 21A(9): 24. 1927.

Distribution: Endemic to Hispaniola (Haiti).

References: 5, 7.

*Annona haitiensis* R.E. Fries, Ark. Bot. 21A(9): 17. 1927, subsp. *haitiensis*

Distribution: Endemic to Hispaniola (Dominican Republic).

References: 5, 7.

*Annona haitiensis* R.E. Fries subsp. *appendiculata* R.E. Fries, Acta Horti Berg. 10: 304. 1931.

Distribution: Endemic to Hispaniola (Dominican Republic).

Reference: 7.

*Annona havanensis* R.E. Fries, Ark. Bot. 21A(9): 15. 1927.

Distribution: Endemic to Cuba.

Common Name: Anón silvestre (Cuba).

References: 3, 39, 132.

Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).

*Annona jamaicensis* Sprague, Bull. Herb. Boissier, ser. 2, 5: 701. 1906.  
Distribution: Endemic to Jamaica.  
Reference: 2.

*Annona micrantha* Bertero ex Spreng., Syst. Veg., ed. 16, 2: 640. 1825.  
Distribution: Endemic to Hispaniola (Dominican Republic).  
Common Names: Anón de perro, Guanabanita (Dominican Republic).  
References: 5, 7, 123.

*Annona moaensis* León & Alain, Revista Soc. Cub. Bot. 3: 120. 1946.  
Distribution: Endemic to Cuba.  
References: 3, 39, 152.

Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).

*Annona montana* Macfad., Fl. Jamaica 1: 7. 1837.  
Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix), Lesser Antilles (Antigua, Guadeloupe, Martinique, Saba, St. Eustatius, St. Lucia, St. Vincent), Tobago, Trinidad, Central America, and South America.  
Common Names: Corossol zombi, Guanábana, Guanábana cimarrona, Guanábana de corcho, Guanábana de perro, Guanávana (Dominican Republic), Mountain sour sop (Jamaica), Cachiman-montagne, Mountain soursop, Wild soursop (Lesser Antilles), Guanábana cimarrona (Puerto Rico).

References: 1, 2, 3, 5, 6, 7, 58, 61, 75, 123, 131, 132, 224, 301, 340.  
Note: Considered an invasive species by CeNBIO.

*Annona mucosa* Jacq. = *Rollinia mucosa* (Jacq.) Baill.

*Annona muricata* L., Sp. Pl. 536. 1753.  
*Annona muricata* L. var. *borinquensis* Morales, Flor. Arb. Cub. 60. 1887.  
*Annona muricata* L. f. *mirabilis* R.E. Fries, Ark. Bot. 21A(9): 11. 1927,  
Type: *Duss 3993* (NY).

Distribution: Exotic in Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Antigua, Barbados, Barbuda, Grenada, Grenadines, Guadeloupe, Marie Galante, Martinique, Montserrat, Saba, St. Barthélemy, St. Eustatius, St. Lucia, St. Martin, St. Vincent), Trinidad, and Margarita; native to Mexico, Central America, and South America.

Common Names: Corossol, Guanábana, Guanávana, Guanavena (Dominican Republic), Corossolier (Haiti), Sour sop (Jamaica), Corossolier, Corosolir, Corossol, Guanábana, Soursop (Lesser Antilles), Guanábana (Puerto Rico), Soursop (Virgin Islands).  
References: 1, 2, 3, 4, 5, 6, 7, 19, 30, 58, 61, 75, 123, 131, 151, 224, 301, 323, 340.

Note: Considered an invasive species by CeNBIO.

*Annona nipensis* Alain, Candollea 17: 114. 1960.  
Distribution: Endemic to Cuba.  
References: 39, 149.

Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39).

*Annona oblongifolia* R.E. Fr., Ark. Bot. 21A(9): 20. 1927.  
Distribution: Endemic to Cuba.  
References: 3, 149.

*Annona palustris* L. = *Annona glabra* L.

*Annona praetermissa* Fawc. & Rendle, J. Bot. 52: 74. 1914.  
Distribution: Endemic to Jamaica.  
Common Name: Wild sour sop (Jamaica).  
References: 2, 427.

Note: Considered vulnerable by the IUCN Red List of Threatened Species.

*Annona reticulata* L., Sp. Pl. 537. 1753.

Distribution: Cultivated in Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas, Tortola), Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Grenadines, Guadeloupe, Marie Galante, Martinique, Saba, St. Eustatius, St. Vincent), Margarita, Tobago, and Trinidad; native to Mexico, Central America, and South America.

Common Names: Custard-apple (Bahamas), Chirimoya, Mamón (Cuba), Corazón, Mamón, Mamón de perro (Dominican Republic), Cachimán, Cachimán coeur de boeuf, Coeur de feuf (Haiti), Custard apple (Jamaica), Bullock's heart, Cachiman, Cachiman blanc, Coeur de boeuf, Cachiman rouge, Custard apple (Lesser Antilles), Corazón (Puerto Rico), Custard apple (Virgin Islands).

References: 1, 2, 3, 4, 5, 6, 7, 19, 45, 58, 61, 123, 131, 132, 224, 301, 323, 340.

Note: Considered an invasive species by CeNBIO.

*Annona rosei* Saff., Contr. U.S. Natl. Herb. 18: 56. 1914.

Distribution: Endemic to Hispaniola.  
Common Name: Cachimán zombi (Haiti).  
References: 5, 7, 123.

*Annona salicifolia* Ekman & R.E. Fries, Ark. Bot. 22B (2): 2. 1929.  
Distribution: Endemic to Hispaniola (Haiti).  
Reference: 7.

*Annona sclerophylla* Saff., Proc. Amer. Acad. Arts 50: 52. 1914.  
*Annona sulcata* Urb., Repert. Spec. Nov. Regni Veg. 18: 17. 1922.  
Distribution: Endemic to Cuba.  
References: 3, 152.

*Annona squamosa* L., Sp. Pl. 537. 1753.  
Distribution: Cultivated in Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana, Jost van Dyke, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Antigua, Barbados, Barbuda, Dominica, Grenada, Grenadines, Guadeloupe, Marie Galante, Montserrat, Nevis, Saba, St. Barthélemy, St. Eustatius, St. Lucia, St. Martin, St. Vincent), Aruba, Bonaire, Curaçao, Margarita; Tobago, and Trinidad; native to Mexico, Central America, and South America.

Common Names: Sugar-apple (Bahamas), Anón, Anón sin semilla, Hanón (Cuba), Anón, Cachimán, Cachiman canelle Cachiment canelle, Candongo (Dominican Republic), Cachimán canelle, Candón, Pomme de canelle, Pommier de canelle (Haiti), Sugar apple, Sweet sop (Jamaica), Custard apple, Pomme-canelle, Sugar apple, Sweet sop (Lesser Antilles), Anón (Puerto Rico), Sugar apple, Sweet sop (Virgin Islands).

References: 1, 2, 3, 4, 7, 19, 45, 58, 61, 75, 123, 131, 132, 150, 224, 301, 323, 340.

Note: Considered an invasive species by CeNBIO.

*Annona sulcata* Urb. = *Annona sclerophylla* Saff.

*Annona urbaniana* R.E. Fries, Ark. Bot. 21A(9): 22. 1927.

Distribution: Endemic to Hispaniola.  
Common Names: Mamón de perro (Dominican Republic), Cachimán marrón, Marguerite (Haiti).  
References: 5, 7, 123.

*Asimina blainii* Griseb. = *Guatteria blainii* (Griseb.) Urb.

Distribution: Endemic to Cuba.  
Common Names: Carey, Cirio, Guabico de costa, Guavico, Laurel pico de gallo, Malagueta, Malagueta blanca, Malagueta colorada, Vigueta (Cuba).  
References: 3, 132.

*Xylopiiroigii* P. Wilson, Mem. Torrey Bot. Club 16: 65. 1920.

Distribution: Endemic to Cuba.  
Common Name: Yararey (Cuba).  
References: 3, 156.

## APIACEAE

**Genera.** Total: 22; native: 8; endemic: 2.

**Taxa.** Total: 23; native: 9; endemic: 3.

*Ammi capillaceum* Michx. = *Ptilimnium capillaceum* (Michx.) Raf. ex Ser.

*Ammi majus* L., Sp. Pl. 243. 1753.

Distribution: Exotic in Bahamas, Cuba, and Hispaniola; native to Europe, Africa, and Asia.

Common Names: Perla (Dominican Republic).

References: 3, 7, 45, 150, 159, 224.

Note: Considered an invasive species by CeNBIO.

*Anethum graveolens* L., Sp. Pl. 263. 1753.

Distribution: Exotic in Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. Thomas, Tortola), and Lesser Antilles (Anguilla, Barbados, Dominica, Guadeloupe, Martinique, Montserrat, St. Vincent); widely cultivated; origin uncertain.

Common Names: Dill (Bahamas), Anís alemán, Eneldo (Cuba), Hinojo, Inojo (Dominican Republic), Dill (Jamaica), Anise, Aniseed, Dillweed, Fenouil bâtard, Lami dill (Lesser Antilles), Hinojo (Puerto Rico).

References: 1, 2, 3, 4, 7, 45, 58, 61, 131, 132, 224, 252.

Note: Considered an invasive species by CeNBIO.

*Apium ammi* (Jacq.) Urb. = *Cyclospermum leptophyllum* (Pers.) Sprague ex Britton & P. Wilson

*Apium crispum* Mill. = *Petroselinum crispum* (Mill.) Nyman ex A.W. Hill

*Apium graveolens* L., Sp. Pl. 264. 1753.

Distribution: Cultivated in Cuba, Hispaniola, and Puerto Rico; native to Europe, Africa, and Asia.

Common Names: Apio (Cuba), Apio, Rábano (Dominican Republic), Céleri, Céleri des jardins, Céleri marron (Haiti), Apio, Celery (Puerto Rico).

References: 5, 7, 123, 131, 132, 150, 159.

*Apium leptophyllum* (Pers.) F. Muell. ex Benth. = *Cyclospermum leptophyllum* (Pers.) Sprague ex Britton & P. Wilson

*Apium petroselinum* L. = *Petroselinum crispum* (Mill.) Nyman ex A.W. Hill

*Arracacia xanthorrhiza* Bancr., Trans. Agric. Soc. Jamaica 1825: 5. 1825.

Distribution: Cultivated in Cuba, Hispaniola, Jamaica, and Puerto Rico. Probably native to South America.

Common Names: Afió (Cuba), Afio, Apio, Arracacha, Arracacia, Paneme (Dominican Republic), Apio, Apio tuberoso, Arracacha (Puerto Rico).

References: 2, 5, 7, 58, 61, 123, 131, 132.

\**Asciadium coronopifolium* Griseb., Cat. Pl. Cub. 118. 1866.

Distribution: Endemic to Cuba.

References: 3, 39.

Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).

*Caucalis japonica* Houtt. = *Hydrocotyle hirsuta* Sw. var. *hirsuta* (Araliaceae)

*Centella asiatica* (L.) Urb. in C.F.P. von Martius, Fl. Bras. 11(1): 287. 1879; *Hydrocotyle asiatica* L., Sp. Pl. 234. 1753.

*Centella erecta* (L. f.) Fernald, Rhodora 42: 295. 1940.

*Hydrocotyle repanda* Pers., Syn. Pl. 1: 302. 1805.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Puerto Rico, Lesser Antilles (Dominica, Guadeloupe, Martinique), Trinidad, North America, Mexico, Central America, and South America; exotic in Jamaica.

Common Names: Ovate-leaved marsh pennywort (Bahamas), Oreja de ratón (Cuba), Yerba de clavo (Puerto Rico).

References: 1, 2, 3, 4, 7, 30, 45, 58, 61, 75, 131, 132, 301.

*Centella erecta* (L. f.) Fernald = *Centella asiatica* (L.) Urb.

*Conium maculatum* L., Sp. Pl. 243. 1753.

Distribution: Exotic in Cayman Islands and Hispaniola; native to Europe, Africa, and Asia.

Common Names: Cicuta, Cigüe, Cigüe offinale (Dominican Republic), Grande cigüe (Haiti).

References: 4, 5, 7, 159, 123.

*Coriandrum sativum* L., Sp. Pl. 256. 1753.

Distribution: Cultivated in Cuba, Hispaniola, and Puerto Rico; native to Europe and Asia.

Common Names: Cilantro, Anisillo, Culantro, Culantro de castilla, Culantro de España (Cuba), Cilantrico, Cilantro, Culantrico, Culantro, Silantrico (Dominican Republic), Coriander, Culantro (Puerto Rico).

References: 3, 7, 58, 61, 123, 131, 132, 150, 224, 252.

Note: Considered an invasive species by CeNBIO.

*Crantzia lineata* (Michx.) Nutt. = *Hydrocotyle lineata* Michx. (Araliaceae)

*Crantzia schaffneriana* Schltldl. = *Lilaeopsis schaffneriana* (Schltldl.) J.M. Coult. & Rose

*Cyclosporum leptophyllum* (Pers.) Sprague ex Britton & P. Wilson, Sci. Surv. Porto Rico & Virgin Islands 6: 52. 1925; *Pimpinella leptophylla* Pers., Syn. Pl. 1: 324. 1805; *Apium leptophyllum* (Pers.) F. Muell. ex Benth., Fl. Austral. 3: 372. 1867 ["1866"].

*Apium ammi* (Jacq.) Urb. in C.F.P. von Martius, Fl. Bras. 11(1): 341. 1879.

*Pimpinella domingensis* Spreng. in Roem. & Schult., Syst. Veg. 6: 411. 1820.

Distribution: Exotic in Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. John), and Lesser Antilles (Barbados, Guadeloupe, Martinique); native to South America.

References: 1, 2, 3, 5, 7, 19, 45, 58, 61, 151, 224.

Note: Considered an invasive species by CeNBIO.

*Daucus carota* L., Sp. Pl. 242. 1753.

Distribution: Cultivated in Cuba, Hispaniola, Jamaica, Puerto Rico, and Virgin Islands.

Common Names: Carota, Encaje, Zanahoria (Cuba), Zanahoria (Dominican Republic), Carotte (Haiti), Wild carrot (Jamaica), Zanahoria (Puerto Rico), Carrot (Virgin Islands).

References: 2, 3, 5, 7, 58, 61, 123, 131, 132.

*Eryngium foetidum* L., Sp. Pl. 232. 1753.

Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Thomas), Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Guadeloupe, Martinique, Montserrat, Saba, St. Kitts, St. Lucia, St. Martin, St. Vincent), Tobago, Trinidad, Mexico, Central America, and South America.

Common Names: Cilantro de cartagena, Culantro cimarrón, Culantro de cartagena, Culantro del país, Culantro sabanero, Yerba de sapo, Yerba del sapo (Cuba), Cilantrico, Cilantro, Cilantro sabanero, Culantrico, Culantro, Sabanero (Dominican Republic), Chardon étoilé puant, Coulante, Coulantre, Panicaud fétide (Haiti), Fit weed, Spirit weed (Jamaica), Blessed thistle, Celantro, Chadon benni, Chardon béni, Culantro, Herbe à fler, Herbe puante (Lesser Antilles), Culantro, Culantro del monte (Puerto Rico).

References: 1, 2, 3, 5, 7, 58, 61, 75, 123, 131, 132, 150, 301, 340.

*Eryngium nasturtiifolium* Juss. ex F. Delaroché, Eryng. Alep. Hist. 46. 1808.

Distribution: Endemic to Cuba.

Reference: 3.

*Foeniculum foeniculum* (L.) H. Karst. = *Foeniculum vulgare* Mill.

*Foeniculum officinale* All. = *Foeniculum vulgare* Mill.

*Foeniculum vulgare* Mill., Gard. Dict., ed. 8. 1768.

*Foeniculum foeniculum* (L.) H. Karst., Deut. Fl. 837. 1882.

*Foeniculum officinale* All., Fl. Pedem. 2: 25. 1785.

Distribution: Exotic in Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Tortola), and Lesser Antilles (Barbados, Guadeloupe, Martinique, Saba, St. Barthélemy, St. Vincent).

Common Names: Fennel (Bahamas), Anís de florecia, Hinojo, Hinojo de Florecia (Cuba), Anís, Comino, Hinojo (Dominican Republic), Anís vert, L'anís, La nuit, L'buit (Haiti), Fennel (Jamaica), Anís, Fennel (Lesser Antilles), Eneldo, Esmeldo (Puerto Rico).

References: 1, 2, 3, 5, 7, 45, 58, 61, 123, 131, 132, 150, 151, 224, 231, 252.

Note: Considered an invasive species by CeNBIO.

*Heracleum sphondylium* L., Sp. Pl. 249. 1753.

Distribution: Exotic in Hispaniola; native to Europe, Africa, and Asia.

References: 7, 159.

*Lilaeopsis schaffneriana* (Schltldl.) J.M. Coult. & Rose, Bot. Gaz. 24: 48. 1897; *Crantzia schaffneriana* Schltldl., Linnaea 26: 370. 1854.

Distribution: Native to Cuba, Hispaniola, Mexico, and South America.

References: 3, 7.

*Oenanthe filiformis* Walter = *Oxypolis filiformis* (Walter) Britton

*Oxypolis bakeri* (H. Wolff ex Urban) Britton & P. Wilson ex Britton = *Oxypolis filiformis* (Walter) Britton

*Oxypolis filiformis* (Walter) Britton, Mem. Torrey Bot. Club 5: 239. 1894; *Oenanthe filiformis* Walter, Fl. Carol. 113. 1788.

*Oxypolis bakeri* (H. Wolff) Britton & P. Wilson ex Britton in L.J.K. Brace, Torrey 29: 16. 1929; *Tiedemannia bakeri* H. Wolff in I. Urban, Symb. Antill. 5: 452. 1908.

Distribution: Native to Bahamas, Cuba, and North America.

Common Name: Water dropwort (Bahamas).

References: 3, 45, 150.

*Pastinaca sativa* L., Sp. Pl. 262. 1753.

Distribution: Exotic in Cuba, Hispaniola, and Jamaica; native to Europe and Asia.

Common Names: Chirivia (Cuba), Céleri marron, Persil marrón (Haiti), Wild parsnip (Jamaica).

References: 2, 5, 123, 132.

\**Pedinopetalum domingense* Urb. & H. Wolff, Ark. Bot. 22A(10): 43. 1929.

Distribution: Endemic to Hispaniola (Dominican Republic).

References: 5, 7.

*Petroselinum crispum* (Mill.) Nyman ex A.W. Hill, Consp. Fl. Eur. 309. 1882; *Apium crispum* Mill., Gard. Dict., ed. 8. 1768.

*Apium petroselinum* L., Sp. Pl. 264. 1753.

*Petroselinum sativum* Hoffm., Gen. Pl. Umbell. 177. 1814.

Distribution: Exotic in Hispaniola, Puerto Rico, and Virgin Islands; widely cultivated; origin uncertain.

Common Names: Perejil (Dominican Republic), Persil, Persil vert (Haiti), Perejil (Puerto Rico), Parsley (Virgin Islands).

References: 5, 7, 58, 61, 123, 131, 150, 151.

*Petroselinum sativum* Hoffm. = *Petroselinum crispum* (Mill.) Nyman ex A.W. Hill

*Pimpinella anisum* L., Sp. Pl. 264. 1753.

Distribution: Exotic in Virgin Islands (Tortola); widely cultivated, origin uncertain.

References: 151, 231.

*Pimpinella domingensis* Spreng. in Roem. & Schult. = *Cyclosporum leptophyllum* (Pers.) Sprague ex Britton & P. Wilson

*Pimpinella leptophylla* Pers. = *Cyclosporum leptophyllum* (Pers.) Sprague ex Britton & P. Wilson

*Ptilimnium capillaceum* (Michx.) Raf. ex Ser., Bull. Bot. (Geneva) 1: 217. 1830; *Ammi capillaceum* Michx., Fl. Bor.-Amer. 1: 164. 1803;

*Ptilimnium capillaceum* (Michx.) Raf., Amer. Monthly Mag. & Crit. Rev. 4: 192. 1819, *nom. invalid.*

Distribution: Native to Cuba, Hispaniola, Puerto Rico, and North America.

References: 3, 7, 58, 151.

*Spananthe paniculata* Jacq., Collectanea 3: 247. 1791 [“1789”].

Distribution: Native to Hispaniola, Trinidad, Mexico, Central America, and South America.

References: 5, 7, 301.

*Tiedemannia bakeri* H. Wolff ex Urban = *Oxypolis filiformis* (Walter) Britton

*Torilis anthriscus* (L.) Gaertn. = *Hydrocotyle hirsuta* Sw. var. *hirsuta* (Araliaceae)

*Torilis japonica* (Houtt.) DC., Prodr. 4: 219. 1830.

Distribution: Exotic in Hispaniola.

Reference: 7.

## APOCYNACEAE

by A. Krings (*Asclepidoideae*) & M. Endress (*Apocynoideae*)

Genera. Total: 48; native: 30; endemic: 3.

Taxa. Total: 255; native: 224; endemic: 191.

*Acrocoryne caribaea* Turcz. = *Metastelma bahamense* Griseb.

*Adenium coetaneum* Stapf = *Adenium obesum* (Forssk.) Roem. & Schult.

*Adenium obesum* (Forssk.) Roem. & Schult., Syst. Veg. 4: 411. 1819.

*Adenium coetaneum* Stapf in D. Oliver, Fl. Trop. Afr. 4(1): 277. 1902.

Distribution: Exotic in Virgin Islands (St. Croix); native to Africa and Asia.

References: 159, 230.

*Allamanda blanchetii* A. DC., Prodr. 8: 319. 1844.

*Allamanda violacea* Gardner & Fielding, Sert. Pl. t. 41. 1844.

Distribution: Cultivated in Puerto Rico and Lesser Antilles (Saba); native to Brazil.

Common Name: Purple allamanda (Lesser Antilles).

References: 1, 32, 58, 147, 159.

*Allamanda cathartica* L., Mant. Pl. 2: 214. 1771.

Distribution: Exotic in Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Guadeloupe, Martinique, Montserrat, Saba, St. Barthélemy, St. Kitts, St. Lucia, St. Vincent), Trinidad, and Margarita; naturalized in Puerto Rico; native to South America.

Common Names: Alamanda, Barbera, Barbero, Barbero loco, Cinco llagas, Collazo, Flor de barbero, Jazmín de la tierra, Mala suegra (Cuba), Copa de mantequilla, Mantequilla (Dominican Republic), Yellow allamanda (Jamaica), Allamanda, Liane à lait (Lesser Antilles), Alamanda, Allamanda, Canario, Cautiva (Puerto Rico).

Wilson) Woodson

*Marsdenia campanulata* Griseb. = *Marsdenia clausa* R. Br.

*Marsdenia clausa* R. Br., Mem. Wern. Nat. Hist. Soc. 1: 30. 1811.

- Marsdenia affinis* A. Rich. in R. de la Sagra, Hist. Fis. Cuba, Bot. 11: 100. 1850.
- Marsdenia campanulata* Griseb., Pl. Wright. 2: 521. 1862.  
Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola; dubious in Jamaica.  
Common Names: Curamagüey, Curamagüey blanco (Cuba), Curamagüey (Dominican Republic), Corne a cabrit, Corne a cabrite, Corne cabrit (Haiti).  
References: 2, 3, 5, 7, 30, 123, 132.
- Marsdenia cubensis* Turcz., Bull. Soc. Imp. Naturalistes Moscou 25 (2): 322. 1852.  
Distribution: Endemic to Cuba.  
Reference: 3.
- Marsdenia dictyophylla* Urb., Repert. Spec. Nov. Regni Veg. 18: 194. 1922.  
Distribution: Endemic to Hispaniola.  
References: 5, 7.
- Marsdenia dussii* Schltr. in I. Urban, Symb. Antill. 1: 275. 1899.  
Distribution: Endemic to Lesser Antilles (Dominica, Martinique).  
References: 1, 30, 31.
- Marsdenia ekmanii* Alain, Brittonia 20: 149. 1968.  
Distribution: Endemic to Hispaniola (Haiti).  
References: 7, 152.
- Marsdenia elliptica* Decne. in A.L.P.P. de Candolle, Prodr. 8: 616. 1844.  
Distribution: Endemic to Puerto Rico.  
References: 32, 58, 61, 149, 349.
- Marsdenia elliptica* sensu Griseb. = *Marsdenia fusca* C. Wright ex Griseb.
- Marsdenia elliptica* sensu Duss = *Marsdenia fusca* C. Wright ex Griseb.
- Marsdenia floribunda* (Brongn.) Schltr. in I. Urban, Symb. Antill. 1: 275. 1899; *Stephanotis floribunda* Brongn., Ann. Sci. Nat. Bot., sér. 2, 7: 30. 1837.  
Distribution: Cultivated in Cuba, Hispaniola, Puerto Rico, and Virgin Islands (St. Croix).  
Common Names: Estefanotis (Cuba), Estefanotis (Dominican Republic), Estefanota (Puerto Rico).  
References: 3, 30, 32, 58, 61, 123, 131, 132, 151, 224, 230.  
Note: Considered an invasive species by CeNPIO.
- Marsdenia fusca* C. Wright ex Griseb., Cat. Pl. Cub. 178. 1866.
- Marsdenia elliptica* sensu Griseb., Syst. Veg. Karaiben 875. 1857, non Decne.
- Marsdenia elliptica* sensu Duss, Fl. Phan. Antill. Franc. 400. 1897, non Decne.  
Distribution: Endemic to Greater Antilles; native to Cuba and Jamaica.  
References: 2, 3, 30.
- Marsdenia haitiensis* Urb. & Ekman, Ark. Bot. 20A(5): 40. 1926.
- Marsdenia gonavensis* Urb., Ark. Bot. 22A(10): 104. 1929.  
Distribution: Endemic to Hispaniola (Gonave Is.).  
References: 5, 7, 149.
- Marsdenia linearis* Decne. in A.L.P.P. de Candolle, Prodr. 8: 617. 1844.
- Marsdenia saturejifolia* sensu Griseb., Cat. Pl. Cub. 178. 1866, non A. Rich.  
Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.  
Common Names: Cucharita (Dominican Republic), Copaye, Corne cabrit, Corne à cabrit, Corne a cabrite (Haiti).  
References: 3, 5, 7, 30, 123.
- Marsdenia longiflora* A. Rich. in R. de la Sagra, Hist. Fis. Cuba, Bot. 11: 100. 1850; *Stephanotis longiflora* (A. Rich.) Benth., Gen. Pl. 2: 773. 1876.  
Distribution: Endemic to Cuba.  
References: 3, 30, 152.
- Marsdenia macfadyenii* Rendle, J. Bot. 75: 349. 1937.  
Distribution: Endemic to Jamaica.  
Reference: 2.
- Marsdenia macroglossa* Schltr. in I. Urban, Symb. Antill. 1: 276. 1899.
- Metastelma schlechtendalii* sensu Duss, Fl. Phan. Antill. Franc. 398. 1897, non Decne.  
Distribution: Endemic to Lesser Antilles (Grenada, Guadeloupe, Montserrat).  
Common Name: Vanille bâtard (Lesser Antilles).  
References: 1, 30.
- Marsdenia macrophylla* (Humb. & Bonpl.) E. Fourn. in C.F.P. von Martius, Fl. Bras. 6(4): 321. 1885; *Asclepias macrophylla* Humb. & Bonpl. in Roemer & Schultes, Syst. Veg. 6: 86. 1820.  
Distribution: Native to Lesser Antilles (Guadeloupe, Martinique, St. Lucia, St. Vincent), Trinidad, Central America, and South America.  
References: 1, 149, 301.
- Marsdenia micrantha* Alain, Revista Soc. Cub. Bot. 13: 59. 1956.  
Distribution: Endemic to Cuba.  
Reference: 3.
- Marsdenia nitida* (Poir.) Decne., Ann. Sci. Nat. Bot., sér. 2, 9: 275. 1838; *Ceropegia nitida* Poir. in J.B.A.P.M. de Lamarck, Encycl. Suppl. 1: 178. 1810.  
Distribution: Endemic to Hispaniola (Haiti).  
References: 5, 7.
- Marsdenia nubicola* Alain, Phytologia 63: 66. 1987.  
Distribution: Endemic to Hispaniola (Dominican Republic).  
Reference: 7.
- Marsdenia saturejifolia* A. Rich. in R. de la Sagra, Hist. Fis. Cuba, Bot. 11: 100. 1850.  
Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.  
Common Name: Corde violón (Dominican Republic).  
References: 3, 5, 7, 123, 152.
- Marsdenia saturejifolia* sensu Griseb. = *Marsdenia linearis* Decne.
- Marsdenia suffruticosa* Alain, Moscosoa 1(1): 36. 1976.  
Distribution: Endemic to Hispaniola (Dominican Republic).  
References: 7, 8.
- Marsdenia troyana* Urb., Repert. Spec. Nov. Regni Veg. 16: 36. 1919.  
Distribution: Endemic to Jamaica.  
Reference: 2.
- Marsdenia umbellata* Griseb., Cat. Pl. Cub. 179. 1866.  
Distribution: Endemic to Cuba.  
Common Name: Curamagüey (Cuba).  
References: 3, 132.
- Marsdenia vinciflora* Griseb., Cat. Pl. Cub. 179. 1866; *Stephanotis vinciflora* (Griseb.) Benth., Gen. Pl. 2: 773. 1876.  
Distribution: Endemic to Cuba.  
Common Name: Curamagüey (Cuba).  
References: 3, 132, 152.
- Marsdenia woodburyana* Acev.-Rodr., Brittonia 51: 167. 1999.  
Distribution: Endemic to Puerto Rico and Mona Island.  
References: 32, 149, 254.
- Matelea acuminata* (Griseb.) Woodson, Ann. Missouri Bot. Gard. 28: 225. 1941; *Orthosia acuminata* Griseb., Cat. Pl. Cub. 175. 1866; *Poicilla acuminata* (Griseb.) Schltr. in I. Urban, Symb. Antill. 5: 469. 1908; *Vincetoxicum acuminatum* (Griseb.) M. Gómez in F.A. Sauvalle, Anales Acad. Ci. Méd. Habana 23: 276. 1894.  
Distribution: Endemic to Cuba.  
References: 3, 30, 39, 350.  
Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).

- Matelea alainii* Woodson, Contr. Ocas. Mus. Hist. Nat. Colegio "De La Salle" 15: 23. 1956.  
Distribution: Endemic to Cuba.  
Reference: 3.
- Matelea annulata* Alain, Brittonia 20: 149. 1968.  
Distribution: Endemic to Hispaniola (Dominican Republic).  
References: 7, 152, 156.
- Matelea bayatensis* (Urb.) Woodson, Ann. Missouri Bot. Gard. 28: 226. 1941; *Gonolobus bayatensis* Urb., Symb. Antill. 9: 420. 1925.  
Distribution: Endemic to Cuba.  
References: 3, 30.
- Matelea bicolor* (Britton & P. Wilson) Woodson, Ann. Missouri Bot. Gard. 28: 236. 1941; *Marsdenia bicolor* Britton & P. Wilson, Bull. Torrey Bot. Club 50: 47. 1923; *Gonolobus bicolor* (Britton & P. Wilson) Urb., Symb. Antill. 9: 421. 1925.  
Distribution: Endemic to Cuba.  
References: 3, 30, 149, 156.
- Matelea borinquensis* Alain = *Matelea variifolia* (Schltr.) Woodson
- Matelea constanzana* J. Jiménez Alm., Rhodora 62: 238. 1960.  
*Poicillopsis tuerckheimii* Schltr. in I. Urban, Symb. Antill. 7: 339. 1912.  
Distribution: Endemic to Hispaniola (Dominican Republic).  
References: 5, 7, 30.
- Matelea correllii* Spellman, Ann. Missouri Bot. Gard. 65: 1255. 1979 ["1978"].  
Distribution: Endemic to Bahamas.  
References: 45, 156.
- Matelea corynephora* Krings, Sida 22: 942. 2006.  
Distribution: Endemic to Hispaniola.  
Reference: 149.
- Matelea costata* (Urb.) Morillo, Anales Jard. Bot. Madrid 43: 239. 1987, var. *costata*; *Poicilla costata* Urb., Symb. Antill. 6: 38. 1909; *Jacaima costata* (Urb.) Rendle, J. Bot. 74: 340. 1936.  
Distribution: Endemic to Jamaica.  
References: 2, 30, 151.
- Matelea costata* (Urb.) Morillo var. *goodfriendii* (Proctor) Krings, J. Bot. Res. Inst. Texas 2: 150. 2008; *Jacaima costata* (Urb.) Rendle var. *goodfriendii* Proctor, J. Arnold Arbor. 63: 290. 1982.  
Distribution: Endemic to Jamaica.  
References: 149, 336.
- Matelea crispiflora* (Urb.) J. Jiménez Alm., Rhodora 62: 238. 1960; *Poicillopsis crispiflora* Urb., Repert. Spec. Nov. Regni Veg. 19: 7. 1923.  
Distribution: Endemic to Hispaniola (Haiti).  
References: 5, 7.
- Matelea denticulata* (Vahl) Fontella & E.A. Schwarz, Bol. Mus. Bot. Munic. 46: 4. 1981; *Cynanchum denticulatum* Vahl, Eclóg. Amer. 2: 23. 1798; *Gonolobus denticulatus* (Vahl) W.D. Stevens, Phytologia 64: 334. 1988.  
*Gonolobus grenadensis* Schltr. in I. Urban, Symb. Antill. 7: 339. 1912.  
*Matelea viridiflora* (G. Mey.) Woodson, Ann. Missouri Bot. Gard. 28: 235. 1941; *Vincetoxicum viridiflorum* G. Mey., J. Wash. Acad. Sci. 17: 14. 1927.  
Distribution: Native to Lesser Antilles (Dominica, Grenada, Guadeloupe), Tobago, Trinidad, Central America, and South America.  
References: 1, 30, 151, 301.
- Matelea dictyopetala* (Urb. & Ekman) Krings, J. Bot. Res. Inst. Texas 2: 130. 2008; *Gonolobus dictyopetalus* Urb. & Ekman, Ark. Bot. 20A(5): 41. 1926.  
Distribution: Endemic to Hispaniola (Haiti).  
References: 5, 7.
- Matelea domingensis* (Alain) Krings, Sida 21: 2081. 2005; *Gonolobus domingensis* Alain, Moscosoa 1(3): 46. 1978.  
Distribution: Endemic to Hispaniola (Dominican Republic).  
References: 8, 152.
- Matelea ekmanii* (Urb.) Woodson, Ann. Missouri Bot. Gard. 28: 226. 1941; *Gonolobus ekmanii* Urb., Symb. Antill. 9: 422. 1925.  
Distribution: Endemic to Cuba.  
References: 3, 30, 151.
- Matelea grisebachiana* (Schltr.) Alain, Mem. Soc. Cub. Hist. Nat. "Felipe Poey" 22: 120. 1955; *Gonolobus grisebachianus* Schltr. in I. Urban, Symb. Antill. 1: 287. 1899.  
*Gonolobus tigrinus* Griseb. var. *angustifolius* Griseb., Cat. Pl. Cub. 177. 1866; *Gonolobus angustifolius* (Griseb.) K. Schum. in H.G.A. Engler & K.A.E. Prantl, Nat. Pflanzenfam. 4(2): 302. 1895.  
Distribution: Endemic to Cuba.  
References: 3, 30, 39, 124, 152.  
Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).
- Matelea hastata* Alain, Brittonia 20: 150. 1968.  
Distribution: Endemic to Hispaniola.  
References: 7, 152, 156.
- Matelea hirsuta* (Vahl) Woodson in E.E. Cheesman, Fl. Trinidad & Tobago 2(3): 170. 1947; *Cynanchum hirsutum* Vahl, Eclóg. Amer. 2: 24. 1798; *Macroscepis hirsuta* (Vahl) Schltr. in I. Urban, Symb. Antill. 1: 265. 1899.  
Distribution: Native to Lesser Antilles (St. Vincent), Trinidad, and South America.  
References: 1, 30, 301, 336.
- Matelea linearipetala* Alain, Phytologia 64: 346. 1988.  
Distribution: Endemic to Hispaniola (Haiti).  
References: 7, 152.
- Matelea maritima* (Jacq.) Woodson, Ann. Missouri Bot. Gard. 28: 222. 1941; *Asclepias maritima* Jacq., Enum. Syst. Pl. 17. 1760; *Gonolobus maritimus* (Jacq.) R. Br., Mem. Wern. Nat. Hist. Soc. 1: 35. 1811; *Ibatia maritima* (Jacq.) Decne. in A.L.P.P. de Candolle, Prodr. 8: 599. 1844; *Lachnostoma maritimum* (Jacq.) G. Nicholson, Ill. Dict. Gard. 2: 226. 1884; *Cynanchum maritimum* (Jacq.) Jacq., Select. Stirp. Amer. Hist. 83. 1763.  
*Gonolobus floccosus* Bertol., Opusc. Sci. 4: 225. 1823.  
*Ibatia muricata* Griseb., Fl. Brit. W. I. 421. 1862.  
Distribution: Native to Cuba, Hispaniola, Puerto Rico, Virgin Islands (Guana, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Antigua, Dominica, Grenada, Grenadines, Guadeloupe, Martinique, Montserrat, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia, St. Martin, St. Vincent), Margarita, and South America.  
Common Names: Corne a cabrite, Curamagüey, Guanábana de perro, Guanábana de perro cimarrona, Guanabanita (Dominican Republic), Corne a cabrit, Corne cabrit, Corne cabrite (Haiti), Corossol à chien, Coirossol-diable (Lesser Antilles), Guanabanilla cimarrona, Popón (Puerto Rico).

- Matelea mollis* (Griseb.) Woodson, Ann. Missouri Bot. Gard. 28: 223. 1941; *Ibatia mollis* Griseb., Cat. Pl. Cub. 177. 1866; *Lachnostoma molle* (Griseb.) M. Gómez, Anales Soc. Esp. Hist. Nat. 23: 276. 1894; *Poicilla mollis* (Griseb.) Schltr. in I. Urban, Symb. Antill. 5: 470. 1908; *Ptycanthera mollis* (Griseb.) Schltr. in I. Urban, Symb. Antill. 1: 280. 1899.  
Distribution: Endemic to Cuba.  
References: 3, 30, 124.
- Matelea monticola* Alain, Sida 20: 1645. 2003.

- Matelea sylvicola* Alain, Phytologia 22: 168. 1971, *nom. illeg.*, non L.O. Williams, 1968.  
Distribution: Endemic to Hispaniola (Dominican Republic).  
References: 149, 151, 156.
- Matelea nipensis* (Urb.) Woodson, Ann. Missouri Bot. Gard. 28: 226. 1941; *Gonolobus nipensis* Urb., Symb. Antill. 9: 421. 1925.  
Distribution: Endemic to Cuba.  
References: 3, 30.
- Matelea oblongata* (Griseb.) Woodson, Ann. Missouri Bot. Gard. 28: 226. 1941; *Orthosia oblongata* Griseb., Cat. Pl. Cub. 176. 1866; *Poicilla oblongata* (Griseb.) Schltr. in I. Urban, Symb. Antill. 5: 470. 1908; *Ptycanthera oblongata* (Griseb.) Schltr. in I. Urban, Symb. Antill. 1: 280. 1899; *Vincetoxicum oblongatum* (Griseb.) M. Gómez in F.A. Sauvalle, Anales Acad. Ci. Méd. Habana 23: 276. 1894.  
Distribution: Endemic to Cuba.  
References: 3, 30, 350.
- Matelea ovatifolia* (Griseb.) Woodson, Ann. Missouri Bot. Gard. 28: 225. 1941; *Poicilla ovatifolia* Griseb., Cat. Pl. Cub. 177. 1866; *Poicillopsis ovatifolia* (Griseb.) Schltr. in I. Urban, Symb. Antill. 7: 339. 1912; *Ptycanthera ovatifolia* (Griseb.) Schltr. in I. Urban, Symb. Antill. 1: 279. 1899.  
Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.  
Common Name: Bejuquito (Dominican Republic).  
References: 3, 5, 7, 30, 123.
- Matelea pauciflora* (Spreng.) Woodson, Ann. Missouri Bot. Gard. 28: 226. 1941; *Gonolobus pauciflorus* Spreng., Syst. Veg., ed. 16, 1: 846. 1824 ["1825"].  
*Ptycanthera berteroi* Decne. in A.L.P.P. de Candolle, Prodr. 8: 606. 1844.  
Distribution: Endemic to Hispaniola.  
References: 5, 7, 30.
- Matelea pentactina* Krings, Sida 21: 1519. 2005.  
Distribution: Endemic to Hispaniola (Haiti).  
Reference: 149.
- Matelea phainops* Krings, Sida 22: 948. 2006.  
Distribution: Endemic to Hispaniola (Dominican Republic).  
Reference: 149.
- Matelea proctorii* Krings, J. Bot. Res. Inst. Texas 2: 151. 2008 [as a new name]; *Jacaima parvifolia* Proctor, J. Arnold Arbor. 63: 291. 1982.  
Distribution: Endemic to Jamaica.  
References: 2, 149, 336.
- Matelea pubescens* (Griseb.) Krings, J. Bot. Rest. Inst. Texas 2: 131. 2008; *Gonolobus pubescens* Griseb., Fl. Brit. W. I. 420. 1862.  
Distribution: Endemic to Jamaica.  
References: 2, 149.
- Matelea rhamnifolia* (Griseb.) Krings, Sida 21: 1515. 2005; *Gonolobus rhamnifolius* Griseb., Fl. Brit. W. I. 420. 1862.  
Distribution: Endemic to Jamaica.  
References: 2, 149.
- Matelea rhynchocephala* Krings, Sida 22: 949. 2006.  
Distribution: Endemic to Hispaniola (Dominican Republic).  
Reference: 149.

- \**Neobraccia acunana* Lippold, Feddes Repert. 85: 611. 1974 [as *acunaiana*].
- Distribution: Endemic to Cuba.
- Reference: 149.
- \**Neobraccia angustifolia* Britton, Bull. Torrey Bot. Club 53: 462. 1926.
- Distribution: Endemic to Cuba.
- Reference: 3.
- \**Neobraccia bahamensis* (Britton) Britton in N.L. Britton & C.F. Millspaugh, Bahama Fl. 335. 1920; *Bracea bahamensis* Britton, Bull. New York Bot. Gard. 3: 448. 1905.
- Distribution: Endemic to West Indies; native to Bahamas and Cuba.
- References: 3, 45, 147, 149.
- \**Neobraccia ekmanii* Urb., Symb. Antill. 9: 242. 1924.
- Distribution: Endemic to Cuba.
- References: 3, 30.

- \**Neobraccia howardii* Woodson ex R.A. Howard, J. Arnold Arbor. 28: 125. 1947.  
Distribution: Endemic to Cuba.  
Reference: 3.
- \**Neobraccia martiana* Borhidi & O. Muñiz, Acta Bot. Acad. Sci. Hung. 17: 22. 1972 ["1971"], var. *martiana*  
Distribution: Endemic to Cuba.  
Reference: 149.
- \**Neobraccia martiana* Borhidi & O. Muñiz var. *robusta* Borhidi & O. Muñiz, Acta Bot. Acad. Sci. Hung. 17: 22. 1972 ["1971"].  
Distribution: Endemic to Cuba.  
References: 39, 149.  
Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).
- \**Neobraccia susannina* Borhidi, Acta Bot. Acad. Sci. Hung. 17: 22. 1972 ["1971"].  
Distribution: Endemic to Cuba.  
Reference: 149.
- \**Neobraccia valenzuelana* (A. Rich.) Urb., Symb. Antill. 9: 241. 1924;  
*Echites valenzuelanus* A. Rich. in R. de la Sagra, Hist. Fis. Cuba, Bot. 11: 93. 1850.  
*Mandevilla wrightiana* Benth. & Hook. f., Gen. Pl. 2(2): 727. 1876.  
Distribution: Endemic to Cuba.  
Common Names: Meloncillo, Palo rosa (Cuba).  
References: 3, 30, 132, 147, 351.
- Nerium divaricatum* L. = *Tabernaemontana divaricata* (L.) R. Br. ex Roem. & Schult.  
*Nerium oleander* L., Sp. Pl. 209. 1753.  
Distribution: Cultivated in Bahamas, Cayman Islands, Cuba, Hispaniola, Puerto Rico, Virgin Islands (Anegada, Guana, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Barbados, Dominica, Grenada, Martinique, Montserrat, Saba, St. Barthélemy, St. Lucia, St. Vincent), and Margarita.  
Common Names: Common oleander (Bahamas), Adelfa, Adelfa sangre de toro, Adelfa varadero, Rosa francesa (Cuba), Rosa del Perú (Perú), Adelfa, Flor del Perú, Martinica, Perulí (Dominican Republic), Laurier, Laurier blanc, Laurier des jardins, Laurier rose, Laurier tropical (Haiti), Lówyé wouj, Oleander (Lesser Antilles), Adelfa, Alhelí extranjero, Laurel rosado, Oleander (Puerto Rico).  
References: 1, 3, 4, 5, 7, 45, 58, 61, 75, 123, 131, 132, 224, 323, 340.  
Note: Considered an invasive species by CeNBIO.
- Odontadenia macrantha* (Roem. & Schult.) Markgr., Meded. Afd. Handelsmus. Kolon. Inst. 30: 461. 1937; *Echites macranthus* Roem. & Schult., Syst. Veg. 4: 795. 1819.  
*Odontadenia grandiflora* (G. Mey.) Miq., Stirp. Surinam. Select. 166. 1851; *Echites grandiflorus* G. Mey., Prim. Fl. Esseq. 131. 1818.  
Distribution: Cultivated in Lesser Antilles; native to Trinidad, Mexico, Central America, and South America.  
References: 1, 147, 301.  
Note: Reported by World Checklist of Selected Plant Families (147) as occurring on Cuba and Puerto Rico, but not known to us from any collection or bibliographical reference.
- Odontadenia polyneura* (Urb.) Woodson, Ann. Missouri Bot. Gard. 18: 546. 1931; *Rhabdadenia polyneura* Urb., Symb. Antill. 7: 337. 1912 [spelled as *Odontonema* by Liogier (7)].  
Distribution: Endemic to Hispaniola.  
Common Name: Tumba gente (Dominican Republic).  
References: 5, 7, 30, 123, 149.
- Odontostigma galeottianum* A. Rich. = *Stemmadenia litoralis* (Kunth) L. Allorge

Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Thomas), Mexico, Central America, and South America.  
References: 2, 3, 7, 30, 32, 58, 61.
- Pentalinon luteum* (L.) B.F. Hansen & Wunderlin, Taxon 35: 167. 1986; *Vinca lutea* L., Cent. Pl. 2, 12. 1756; *Urechites luteus* (L.) Britton, Bull. New York Bot. Gard. 5: 316. 1907.  
*Echites barbatus* Desv. ex Ham., Prodr. Pl. Ind. Occid. 30. 1825.  
*Echites domingensis* Jacq., Collectanea 1: 73. 1787 ["1786"]; *Chariomma domingensis* (Jacq.) Miers, Apocyn. S. Amer. 112. 1878.  
*Echites jamaicensis* Griseb., Fl. Brit. W. I. 416. 1862; *Angadenia jamaicensis* (Griseb.) Lippold, Wiss. Z. Friedrich-Schiller-Univ. Jena, Math.-Naturwiss. Reihe 32: 881. 1983.  
*Echites neriandra* Griseb., Fl. Brit. W. I. 415. 1862; *Urechites neriandrus* (Griseb.) Rolfe, Bull. Misc. Inform. Kew 1893: 262. 1893.  
*Echites suberectus* Jacq., Enum. Syst. Pl. 13. 1760.  
*Mitozus jamaicensis* Miers, Apocyn. S. Amer. 225. 1878.  
*Urechites dolichanthus* Urb., Symb. Antill. 6: 38. 1909.  
*Urechites jamaicensis* Miers, Apocyn. S. Amer. 112. 1878.  
*Urechites luteus* (L.) Britton var. *angustifolia* Ekman & Helwig, Ark. Bot. 22A(10): 46. 1929.  
Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Anegada, Guana, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Anguilla, Guadeloupe, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Martin, St. Vincent), and United States (FL).  
Common Names: Ahoga vaca, Babeiro Amarillo, Bejuco ahoga vaca, Bejuco de cacadito, Curamagüey (Dominican Republic), Corne a cabrit, Corne a cabrite, Corne cabrits (Haiti).  
References: 1, 2, 3, 4, 7, 19, 30, 32, 35, 45, 58, 61, 75, 123, 147, 149, 150, 152, 338, 340.
- Philibertia clausa* (Jacq.) K. Schum. = *Funastrum clausum* (Jacq.) Schltr.  
*Pinochia corymbosa* (Jacq.) M.E. Endress & B.F. Hansen, Edinburgh J. Bot. 64: 271. 2007, subsp. *corymbosa*; *Echites corymbosus* Jacq., Enum. Syst. Pl. 13. 1760; *Forsteronia corymbosa* (Jacq.) G. Mey., Prim. Fl. Esseq. 134. 1818.  
Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.  
References: 3, 5, 7, 149.
- Pinochia corymbosa* (Jacq.) M.E. Endress & B.F. Hansen subsp. *portoricensis* (Woodson) M.E. Endress & B.F. Hansen, Edinburgh J. Bot. 64: 272. 2007; *Forsteronia portoricensis* Woodson, Ann. Missouri Bot. Gard. 21: 618. 1934.  
*Forsteronia corymbosa* sensu Bello, Anales Soc. Esp. Hist. Nat. 10: 291. 1881, non (Jacq.) G. Mey.  
*Thyrsanthus pyriformis* Miers, Apocyn. S. Amer. 100. 1878.  
Distribution: Endemic to Puerto Rico.  
References: 32, 58, 61, 149.
- Pinochia floribunda* (Sw.) M.E. Endress & B.F. Hansen, Edinburgh J. Bot. 64: 272. 2007; *Echites floribundus* Sw., Prodr. 52. 1788; *Forsteronia floribunda* (Sw.) G. Mey., Prim. Fl. Esseq. 135. 1818.  
*Forsteronia alexandri* Griseb., Fl. Brit. W. I. 412. 1862.  
Distribution: Endemic to Greater Antilles; native to Cuba and Jamaica.  
References: 2, 3, 36, 147, 149, 151, 156.

*Plumeria alba* L., Sp. Pl. 210. 1753.

Distribution: Endemic to West Indies; native in Puerto Rico, Virgin Islands (Anegada, Guana, Jost van Dyke, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), and Lesser Antilles (Anguilla, Antigua, Barbados, Barbuda, Dominica, Grenada, Grenadines, Guadeloupe, Marie Galante, Martinique, Saba, St. Barthélemy, St. Eustatius, St. Lucia, St. Martin, St. Vincent).

Common Names: Caterpillar tree, Frangipani blanc, Frangipanier, Jasmine, Pigeon wood, Wild frangipani (Lesser Antilles), Alhelí, Alhelí blanco, Alhelí cimarrón, Tabaiba, Tabeiba, Tapaiba (Puerto Rico).

References: 1, 19, 58, 61, 75, 131, 340.

*Plumeria bahamensis* Urb. = *Plumeria obtusa* L.

*Plumeria barahonensis* Urb. = *Plumeria obtusa* L.

*Plumeria berteroi* A. DC. = *Plumeria subsessilis* A. DC.

*Plumeria biglandulosa* Urb., Symb. Antill. 3: 337. 1902.

Distribution: Endemic to Hispaniola (Haiti).

References: 5, 7, 30, 337.

Note: Woodson (337) considered this taxon to be a hybrid between *P. obtusa* and *P. subsessilis*.

*Plumeria casildensis* Urb. = *Plumeria trinitensis* Britton

*Plumeria cayensis* Urb. = *Plumeria obtusa* L.

*Plumeria clusioides* Griseb. Cat. Pl. Cub. 171. 1866. Type. Cuba.

Wright 2953 (Holotype: GOET; Isotypes: NY, US).

Distribution: Endemic to Cuba.

Common Name: Lirio de sabana (Cuba).

References: 3, 132, 339.

*Plumeria clusioides* Griseb. var. *parviflora* M. Gómez = *Plumeria ekmanii* Urb.

*Plumeria confusa* Britton = *Plumeria obtusa* L.

*Plumeria cubensis* Urb., Repert. Spec. Nov. Regni Veg. 21: 219. 1925.

Type. Cuba. Ekman 16448 (S).

Distribution: Endemic to Cuba.

References: 3, 147, 339.

*Plumeria cuneifolia* Helwig = *Plumeria obtusa* L.

*Plumeria dictyophylla* Urb. = *Plumeria venosa* Britton

*Plumeria discolor* Urb. & Ekman, Ark. Bot. 20A(5): 36. 1926.

Distribution: Endemic to Hispaniola (Haiti).

References: 5, 7, 337.

Note: Woodson (337) considered this taxon to be a hybrid between *P. obtusa* and *P. subsessilis*.

*Plumeria domingensis* Urb. = *Plumeria tuberculata* Lodd.

*Plumeria ekmanii* Urb., Symb. Antill. 9: 239. 1924. Type. Cuba,

Oriente, Baracoa. Ekman 3985 (S).

*Plumeria clusioides* Griseb. var. *parviflora* M. Gómez, Anales Soc. Esp. Hist. Nat. 23: 273. 1894.

Distribution: Endemic to Cuba.

References: 3, 30, 147, 339.

*Plumeria emarginata* Griseb., Cat. Pl. Cub. 171. 1866. Type. Cuba.

Wright 2951 (GOET).

Distribution: Endemic to Cuba.

References: 3, 124, 339.

*Plumeria emarginata* Griseb. var. *sericifolia* M. Gómez = *Plumeria tuberculata* Lodd.

*Plumeria estrellensis* Urb. = *Plumeria obtusa* L.

*Plumeria filifolia* Griseb., Pl. Wright. 2: 519. 1862. Type. Cuba, Wright 1660 (GOET).

*Plumeria stenophylla* Urb., Symb. Antill. 9: 237. 1924.

Distribution: Endemic to Cuba.

Common Name: Lirio de costa (Cuba).

References: 3, 30, 132, 339.

*Plumeria gibbosa* Urb. = *Plumeria tuberculata* Lodd.

*Plumeria inaguensis* Britton = *Plumeria obtusa* L.

*Plumeria jaegeri* Müll. Arg. = *Plumeria subsessilis* A. DC.

*Plumeria jamaicensis* Britton = *Plumeria obtusa* L.

*Plumeria krugii* Urb., Symb. Antill. 1: 387. 1899.

Distribution: Endemic to Puerto Rico.

References: 30, 58, 61.

*Plumeria lanata* Britton, Bull. Torrey Bot. Club 42: 504. 1915. Type.

Cuba, Baracoa, Underwood & Earle 1442 (NY).

*Plumeria pilosula* Urb., Symb. Antill. 9: 238. 1924.

Distribution: Endemic to Cuba.

References: 3, 30, 147, 339.

*Plumeria longiflora* Urb. & Ekman, Ark. Bot. 20A(5): 38. 1926.

Distribution: Endemic to Hispaniola (Haiti).

References: 5, 7, 337.

Note: Woodson (337) considered this taxon to be a hybrid between

*P. obtusa* and *P. subsessilis*.

*Plumeria magna* Zanoni & M.M. Mejía, Moscosoa 5: 89. 1989.

Distribution: Endemic to Hispaniola.

Common Names: Alelí, Palo de gusano (Dominican Republic).

References: 8, 123, 149.

*Plumeria marchii* Urb. = *Plumeria obtusa* L.

*Plumeria montana* Britton & P. Wilson, Bull. Torrey Bot. Club 50: 46.

1923. Type. Cuba. Sierra Maestra, León 11000 (NY).

Distribution: Endemic to Cuba.

References: 3, 339.

*Plumeria nipensis* Britton = *Plumeria obtusa* L.

*Plumeria obtusa* L., Sp. Pl. 210. 1753.

*Plumeria apiculata* Urb., Repert. Spec. Nov. Regni Veg. 16: 36. 1919.

*Plumeria bahamensis* Urb., Symb. Antill. 1: 387. 1899.

*Plumeria barahonensis* Urb., Repert. Spec. Nov. Regni Veg. 14: 341. 1916.

*Plumeria cayensis* Urb., Repert. Spec. Nov. Regni Veg. 21: 218. 1925.

*Plumeria confusa* Britton, Bull. Torrey Bot. Club 42: 505. 1915.

*Plumeria cubensis* Urb., Repert. Spec. Nov. Regni Veg. 21: 219. 1925.

*Plumeria cuneifolia* Helwig, Ark. Bot. 22A(10): 44. 1929.

*Plumeria estrellensis* Urb., Symb. Antill. 9: 240. 1924.

*Plumeria nipensis* Britton, Bull. Torrey Bot. Club 42: 505. 1915.

*Plumeria portoricensis* Urb., Symb. Antill. 1: 387. 1899.

*Plumeria versicolor* Dehnh., Cat. Horti Camald., ed. 2, 23. 1832.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, and Central America.

Common Names: Frangipanni (Bahamas), Lirio de playa, Lirio morado,

Súcheli blanco, Súcheli, Lirio amarillo (Cuba), Alelí, Flor de cerro,

Palo de cerro (Dominican Republic), Franchipanier, Frangipagne,

Frangipanier, Frasoigne (Haiti), Alhelí cimarrón, Alhelí de la

mona, Alhelí montuno (Puerto Rico).

References: 2, 3, 4, 5, 7, 30, 45, 58, 61, 123, 131, 132, 134, 147, 149, 150, 339, 340.

*Plumeria obtusa* L. var. *sericifolia* (C. Wright ex Griseb.) Woodson =

*Plumeria sericifolia* C. Wright ex Griseb.

*Plumeria paulinae* Urb., Symb. Antill. 3: 336. 1902.

Distribution: Endemic to Hispaniola (Haiti).

References: 5, 7, 30, 337.

Note: Woodson (337) considered this taxon to be a hybrid between *P. obtusa* and *P. subsessilis*.

*Plumeria pilosula* Urb. = *Plumeria lanata* Britton

*Plumeria portoricensis* Urb. = *Plumeria obtusa* L.

*Plumeria pudica* Jacq., Enum. Syst. Pl. 13. 1760.

Distribution: Exotic in Cayman Islands and Margarita; native to Central America and South America.

References: 4, 147, 323.

*Plumeria rubra* L., Sp. Pl. 209. 1753.

Distribution: Cultivated in Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Dominica, Grenada, Grenadines, Guadeloupe, Martinique, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia, St. Martin, St. Vincent), Trinidad, and Margarita.

Common Names: Red plumeria, Spanish jasmine, Red frangipanni (Bahamas), Frangipani, Flor de mayo, Súcneli (Cuba), Atabaiba rosada, Frangipane (Dominican Republic), Frangipanier rouge, Frangipanier rose (Haiti), Frangipani (Jamaica), Frangipani, Frangipanier rouge, Laurier rouge bâtard (Lesser Antilles), Alhelí rojo, Alhelí (Puerto Rico).

References: 1, 2, 3, 4, 5, 7, 45, 58, 61, 75, 123, 131, 132, 224, 323, 339, 340.

Note: Considered an invasive species by CeNBIO.

*Plumeria sericifolia* C. Wright ex Griseb., Cat. Pl. Cub. 171. 1866.

*Plumeria obtusa* L. var. *sericifolia* (C. Wright ex Griseb.)

Woodson, Ann. Missouri Bot. Gard. 25: 214. 1937 ["1938"];

*Plumeria tuberculata* Lodd. subsp. *sericifolia* (C. Wright ex Griseb.) Borhidi, Bot. Közlem. 62: 26. 1975.

Distribution: Endemic to Cuba.

Common Name: Lirio de costa (Cuba).

References: 3, 124, 132, 147, 150, 309, 339.

*Plumeria stenopetala* Urb., Symb. Antill. 3: 335. 1902, var. *stenopetala*

Distribution: Endemic to Hispaniola.

Common Names: Frangipane (Dominican Republic), Frangipanier marron (Haiti).

References: 5, 7, 30, 123.

*Plumeria stenopetala* Urb. var. *angustissima* Urb., Ark. Bot. 17(7): 50. 1921.

Distribution: Endemic to Hispaniola.

Reference: 149.

*Plumeria stenophylla* Urb. = *Plumeria filifolia* Griseb.

*Plumeria subsessilis* A. DC., Prodr. 8: 393. 1844.

*Plumeria berteroi* A. DC., Prodr. 8: 393. 1844.

*Plumeria jaegeri* Müll. Arg., Linnaea 30: 397. 1860.

Distribution: Endemic to Hispaniola.

Common Names: Alelí, Frangipane (Dominican Republic), Frangipagne blanche, Frangipanier, Frangipanier marron (Haiti).

References: 5, 7, 123, 147.

*Plumeria trinitensis* Britton, Bull. Torrey Bot. Club 42: 506. 1915. Type. Cuba, Trinidad. Britton & Wilson 5514 (NY).

*Plumeria casildensis* Urb., Feddes. Repert. 21: 218. 1925.

Distribution: Endemic to Cuba.

References: 3, 339.

- Ilex cubana* Loes. var. *tiburonica* Loes., Repert. Spec. Nov. Regni Veg. 33: 179. 1933.
- Ilex occidentalis* Macfad. var. *maestrana* Loes. in I. Urban, Symb. Antill. 9: 74. 1923.
- Ilex occidentalis* Macfad. var. *rotundifolia* Loes. in I. Urban, Symb. Antill. 9: 74. 1923.
- Ilex sideroxyloides* (Sw.) Griseb. var. *occidentalis* Loes. f. *jamaicensis* Loes. in I. Urban, Symb. Antill. 1: 346. 1899.
- Ilex sideroxyloides* (Sw.) Griseb. var. *occidentalis* Loes. f. *portoricensis* Loes. in I. Urban, Symb. Antill. 1: 345. 1899.
- Ilex sideroxyloides* (Sw.) Griseb. var. *portoricensis* Loes., Bot. Jahrb. Syst. 15: 316. 1892.
- Distribution: Endemic to Greater Antilles; native to Cuba, Hispaniola, Jamaica, and Puerto Rico.
- References: 2, 3, 30, 58, 131, 152, 156, 257.
- Ilex sideroxyloides* (Sw.) Griseb. var. *occidentalis* Loes. f. *jamaicensis* Loes. = *Ilex sideroxyloides* (Sw.) Griseb. subsp. *occidentalis* (Macfad.) P.A. González
- Ilex sideroxyloides* (Sw.) Griseb. var. *occidentalis* Loes. f. *occidentalis* = *Ilex sideroxyloides* (Sw.) Griseb. subsp. *occidentalis* (Macfad.) P.A. González
- Ilex sideroxyloides* (Sw.) Griseb. var. *occidentalis* Loes. f. *portoricensis* Loes. = *Ilex sideroxyloides* (Sw.) Griseb. subsp. *occidentalis* (Macfad.) P.A. González
- Ilex sideroxyloides* (Sw.) Griseb. var. *portoricensis* Loes. = *Ilex sideroxyloides* (Sw.) Griseb. subsp. *occidentalis* (Macfad.) P.A. González
- Ilex sintenisii* (Urb.) Britton = *Ilex obcordata* Sw. var. *obcordata*
- Ilex subavenia* Alain = *Ilex hypaneura* Loes.
- Ilex subtriflora* Griseb. ex Loes., Bot. Jahrb. Syst. 15: 312. 1892. Distribution: Endemic to Jamaica. References: 2, 156, 257, 427. Note: Considered critically endangered by the IUCN Red List of Threatened Species.
- Ilex ternatiflora* (C. Wright) R.A. Howard, Brittonia 38: 15. 1986; *Quiina ternatiflora* C. Wright in F.A. Sauvalle, Anales Acad. Ci. Méd. Habana 5: 204. 1868. Distribution: Endemic to Cuba.
- Common Names: Hicaquillo de las pozas, Icaquillo de las pozas (Cuba). Reference: 3, 152, 195, 427. Note: Considered a dubious species by González (195), and extinct by the IUCN Red List of Threatened Species.
- Ilex tuerckheimii* Loes. = *Ilex macfadyenii* (Walp.) Rehder subsp. *macfadyenii* var. *macfadyenii*
- Ilex tuerckheimii* Loes. var. *constanzae* Loes. = *Ilex macfadyenii* (Walp.) Rehder subsp. *macfadyenii* var. *macfadyenii*
- Ilex tuerckheimii* Loes. var. *subalpina* Loes. = *Ilex macfadyenii* (Walp.) Rehder subsp. *macfadyenii* var. *macfadyenii*
- Ilex turquinensis* Alain = *Ilex cubana* Loes.
- Ilex uniflora* Fawc. & Rendle = *Maytenus clarendonensis* Britton (Celastraceae).
- Ilex urbaniana* Loes., Bot. Jahrb. Syst. 15: 316. 1892. Lectotype: Puerto Rico. *Sintenis 6519* (S; LD), designated by González Gutiérrez (257). Distribution: Endemic to Puerto Rico and Virgin Islands (St. John, St. Thomas, Tortola). Common Name: Cuero de sapo (Puerto Rico). References: 19, 58, 61, 131, 257.
- Ilex urbaniana* Loes. var. *riedlaei* (Loes.) Edwin ex T.R. Dudley = *Ilex nitida* (Vahl) Maxim. var. *repanda* (Griseb.) P.A. González
- Ilex vaccinioides* Loes. = *Ilex obcordata* Sw. var. *vaccinioides* (Loes.) P.A. González
- Ilex valenzuelana* Alain, Candollea 17: 118. 1960. Type. Cuba, Sierra Maestra. *López Figueiras 2214* (Holotype: HAC; Isotype: NY) Distribution: Endemic to Cuba. References: 152, 156, 257.
- Ilex victorinii* Alain, Contr. Ocas. Mus. Hist. Nat. Colegio "De La Salle" 12: 2. 1953.
- Ilex alanii* T.R. Dudley in F.C. Galle, Hollies, Gen. Ilex 154. 1997. Distribution: Endemic to Cuba. References: 3, 14, 152, 156, 257.
- Ilex vomitoria* Aiton, Hortus Kew. 1: 170. 1789. Lectotype. United States. *Casteby, 1736. Nat. Hist. Carolina 2: tab. 57*, designated by González Gutiérrez & Sierra Calzado (195).
- Ilex ligustrina* Jacq., Collectanea 4: 105. 1791 ["1790"].
- Ilex ligustrina* Jacq. f. *ekmanii* Loes. in I. Urban, Symb. Antill. 9: 74. 1923. Syntypes. Cuba, Pinar del Río. *Ekman 10469* (B †; NY, S), *Ekman 10489* (B).
- Ilex minutiflora* sensu Griseb., Cat. Pl. Cub. 56. 1866, non A. Rich.
- Ilex minutiflora* A. Rich. f. *parvifolia* Griseb. ex Loes., Bot. Jahrb. Syst. 15: 318. 1892; *Ilex ligustrina* Jacq. f. *parvifolia* (Griseb. ex Loes.) Loes., Nova Acta Acad. Caes. Leop.-Carol. German. Nat. Cur. 78: 319. 1901. Type. Cuba. *Wright 991* (Holotype: GOET; Isotypes: BREM, GH, HAC, K, MA, NY, S).
- Distribution: Native to Cuba, North America, and Mexico; reported for Puerto Rico by Otero et al. (131) but not known to occur there. Common Names: Cassena, Yaupon, Yaupón (Puerto Rico). References: 3, 131, 151, 156, 195, 257.
- Ilex walsinghamii* R.A. Howard = *Ilex hypaneura* Loes.
- Ilex wrightii* Loes. = *Ilex hypaneura* Loes.
- Ilex wrightii* Trel. = *Ilex cassine* L.
- Macoucoua guianensis* Aubl. = *Ilex guianensis* (Aubl.) Kuntze
- Prinos dioicus* Vahl = *Ilex nitida* (Vahl) Maxim. var. *nitida*
- Prinos lanceolatus* Macfad. = *Ilex macfadyenii* (Walp.) Rehder subsp. *macfadyenii* var. *macfadyenii*

*Prinos macfadyenii* Walp. = *Ilex macfadyenii* (Walp.) Rehder subsp. *macfadyenii* var. *macfadyenii*

*Prinos montanus* Sw. = *Ilex macfadyenii* (Walp.) Rehder subsp. *macfadyenii* var. *macfadyenii*

*Prinos nitidus* Vahl = *Ilex nitida* (Vahl) Maxim. var. *nitida*

*Prinos sideroxyloides* Sw. = *Ilex sideroxyloides* (Sw.) Griseb. subsp. *sideroxyloides*

## ARACEAE

by P. Acevedo-Rodríguez

**Genera.** Total: 23; native: 15; endemic: 0.

**Taxa.** Total: 74; native: 46; endemic: 14.

*Acontias cubensis* Schott = *Xanthosoma cubense* (Schott) Schott

*Acontias cubensis* sensu Bello = *Xanthosoma sagittifolium* (L.) Schott

*Acontias hastifolius* Schott = *Xanthosoma brasiliense* (Desf.) Engl.

*Acontias helleborifolius* (Jacq.) Schott = *Xanthosoma helleborifolium* (Jacq.) Schott

*Acontias plumieri* Schott = *Xanthosoma helleborifolium* (Jacq.) Schott

*Aglaonema commutatum* Schott, Syn. Aroid 123. 1856.

Distribution: Cultivated in Cuba, Puerto Rico, and Margarita; native to Malesia.

References: 28, 69, 147, 252, 323.

*Aglaonema marantifolium* Blume, Rumphia 1: 153. 1837.

Distribution: Cultivated in Puerto Rico; native to New Guinea.

Reference: 254.

*Aglaonema pictum* (Roxb.) Kunth, Enum. Pl. 3: 55. 1841.

Distribution: Cultivated in Puerto Rico; native to Sumatra.

Common Names: Aglaonema, Cara de caballo (Puerto Rico).

References: 28, 61, 131, 147.

*Alocasia cucullata* (Lour.) G. Don in R. Sweet, Hort. Brit., ed. 3: 631. 1839.

Distribution: Exotic in Lesser Antilles (St. Lucia); native to southeast Asia.

References: 1, 147.

*Alocasia macrorrhizos* (L.) G. Don in R. Sweet, Hort. Brit., ed. 3: 631. 1839.

*Alocasia metallica* Schott, Oesterr. Bot. Wochenbl. 4: 410. 1854.

Distribution: Naturalized in Cuba, Hispaniola, Jamaica, Puerto Rico, Lesser Antilles (Antigua, Barbuda, St. Lucia), and Margarita; native to Asia.

References: 2, 28, 61, 69, 147, 223, 323.

*Alocasia metallica* Schott = *Alocasia macrorrhizos* (L.) G. Don

*Alocasia plumbea* Van Houtte, Fl. Serres Jard. Paris. 2, 11: 93. 1875.

Distribution: Exotic in Hispaniola, Jamaica, Puerto Rico, Lesser Antilles, and Margarita; native to Malesia and Australia.

Common Name: Yautía morada (Dominican Republic).

References: 2, 28, 123, 147, 323.

*Alocasia undipes* K. Koch & C.D. Bouché = *Xanthosoma undipes* (K. Koch & C.D. Bouché) K. Koch

*Anthurium acaule* (Jacq.) Schott, Wiener Z. Kunst 3: 828. 1829;

*Pothos acaulis* Jacq., Enum. Syst. Pl. 31. 1760.

*Anthurium martinicense* Engl., Bot. Jahrb. Syst. 1: 480. 1881.

Distribution: Native to Lesser Antilles (Dominica, Grenada, Martinique, Montserrat, Nevis, St. Kitts, St. Lucia, St. Vincent), Trinidad, and South America.

References: 1, 30, 147.

*Anthurium acaule* sensu Britton & P. Wilson = *Anthurium crenatum* (L.) Kunth

*Anthurium acaule* (Jacq.) Schott var. *brevipes* Engl. = *Anthurium crenatum* (L.) Kunth

*Anthurium acaule* (Jacq.) Schott var. *portoricensis* Kuntze = *Anthurium crenatum* (L.) Kunth

*Anthurium andraeanum* Linden ex André, Ill. Hort. 24: 43. 1877.

Distribution: Native to Lesser Antilles (Martinique, St. Lucia, St. Vincent), Margarita, and South America; cultivated in Cuba, Dominican Republic, Puerto Rico, and Virgin Islands (St. Croix).

Common Names: Anturio, Flor de cera (Dominican Republic), Anthurium, Anturio, Anturium (Puerto Rico).

References: 1, 9, 28, 69, 123, 131, 147, 230, 323.

*Anthurium barbadosense* Engl. = *Anthurium willdenowii* Kunth.

*Anthurium cordatum* (L.) Schott, Wiener Z. Kunst 3: 828. 1829;

*Pothos cordatus* L., Sp. Pl., ed. 2, 1373. 1763.

*Anthurium guildingii* Schott, Oesterr. Bot. Wochenbl. 7: 301. 1857.

Distribution: Endemic to West Indies; native to Jamaica, Virgin Islands (St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), and Lesser Antilles (Dominica, Guadeloupe, Martinique, Montserrat, St. Kitts, St. Lucia, St. Vincent).

Common Names: Hand leaf, Petit seguine, Queue la rat (Lesser Antilles).

References: 1, 2, 19, 28, 61, 147.

*Anthurium cordifolium* Kunth = *Anthurium grandifolium* (Jacq.) Kunth

*Anthurium crenatum* (L.) Kunth, Enum. Pl. 3: 75. 1841; *Pothos crenatus* L., Sp. Pl., ed. 2, 1373. 1763.

*Anthurium acaule* sensu Britton & P. Wilson, Sci. Surv. Porto Rico & Virgin Islands 5: 128. 1923, non (Jacq.) Schott.

*Anthurium acaule* (Jacq.) Schott var. *brevipes* Engl., Bot. Jahrb. Syst. 25: 362. 1898.

*Anthurium acaule* (Jacq.) Schott var. *portoricensis* Kuntze, Revis. Gen. Pl. 2: 738. 1891.

*Anthurium huegelii* sensu Bello, Anales Soc. Esp. Hist. Nat. 12: 115. 1883, non Schott.

*Anthurium lanceolatum* sensu Bello, Anales Soc. Esp. Hist. Nat. 12: 115. 1883, non Kunth.

Distribution: Endemic to West Indies; native to Hispaniola, Puerto Rico, Virgin Islands (Guana, St. Croix, St. John, St. Thomas, Tortola), and Margarita.

Common Names: Lengua de vaca (Dominican Republic), Flor de culebra, Hoja de costado, Moco de pavo, Rabo de rata (Puerto Rico).

References: 19, 28, 30, 61, 123, 131, 147, 156, 306, 323, 340.

*Anthurium cubense* Engl., Bot. Jahrb. Syst. 25: 364. 1898.

Distribution: Native to Cuba, Mexico, Central America, and South America.

References: 3, 69, 147.

*Anthurium dominicense* Schott, Oesterr. Bot. Z. 8: 350. 1858.

*Anthurium dominicense* Schott var. *sintenisii* Engl., Bot. Jahrb. Syst. 25: 418. 1898.

Distribution: Endemic to West Indies; native to Puerto Rico and Lesser Antilles (Dominica, Martinique).

Common Names: Lengua de vaca (Puerto Rico).

References: 1, 28, 61, 69, 131, 147.

*Anthurium dominicense* Schott var. *sintenisii* Engl. = *Anthurium dominicense* Schott

*Anthurium fendleri* Schott, Prodr. Syst. Aroid. 468. 1860.

*Anthurium recusatum* Schott, Prodr. Syst. Aroid. 467. 1860.

Distribution: Exotic in Cuba; native to Central America and South America.

References: 3, 147.

- Anthurium gracile* (Rudge) Schott, Wiener Z. Kunst 3: 828. 1829.  
*Anthurium scolopendrinum* Kunth, Enum. Pl. 3: 68. 1841.  
 Distribution: Exotic in Hispaniola and Lesser Antilles (Guadeloupe); native to Central America and South America.  
 References: 1, 5, 147.
- Anthurium grandifolium* (Jacq.) Kunth, Enum. Pl. 3: 77. 1841; *Pothos grandifolius* Jacq., Collectanea 4: 121. 1791 ["1790"].  
*Anthurium cordifolium* Kunth, Enum. Pl. 3: 76. 1841.  
 Distribution: Native to Jamaica, Lesser Antilles (Antigua, Dominica, Guadeloupe, Marie Galante, Martinique, Saba, St. Lucia, St. Martin), and South America; cultivated in Cuba.  
 Common Names: Lombricero (Cuba), Junction root, Wild coco (Jamaica).  
 References: 1, 2, 132, 147.
- Anthurium guildingii* Schott = *Anthurium cordatum* (L.) Schott
- Anthurium gymnopus* Griseb., Cat. Pl. Cub. 219. 1866.  
 Distribution: Endemic to Cuba.  
 References: 3, 39, 69, 147, 156.  
 Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39).
- Anthurium bookeri* Kunth, Enum. Pl. 3: 74. 1841.  
 Distribution: Native to Lesser Antilles (St. Lucia), Curaçao, and South America.  
 References: 1, 147, 223.
- Anthurium huegelii* sensu Bello = *Anthurium crenatum* (L.) Kunth  
*Anthurium lanceolatum* sensu Bello = *Anthurium crenatum* (L.) Kunth  
*Anthurium leucocarpum* Schott = *Anthurium scandens* (Aubl.) Engl.
- Anthurium mancuense* C.D. Adams, Phytologia 21: 65. 1971.  
 Distribution: Endemic to Jamaica.  
 References: 2, 147.
- Anthurium martinicense* Engl. = *Anthurium acaule* (Jacq.) Schott
- Anthurium palmatum* (L.) Schott, Wiener Z. Kunst 3: 828. 1829; *Pothos palmatus* L., Sp. Pl., ed. 2, 1374. 1763.  
 Distribution: Native to Lesser Antilles (Dominica, Guadeloupe, Martinique, St. Lucia) and South America (Colombia).  
 Common Names: Benefice, Ciguine, Mibi, Seguine (Lesser Antilles).  
 References: 1, 147.
- Anthurium recusatum* Schott = *Anthurium fendlerii* Schott
- Anthurium scandens* (Aubl.) Engl. in C.F.P. von Martius, Fl. Bras. 3(2): 78. 1878; *Dracontium scandens* Aubl., Hist. Pl. Guiane 2: 836. 1775.  
*Anthurium leucocarpum* Schott, Oesterr. Bot. Wochenbl. 5: 53. 1857; *Anthurium scandens* (Aubl.) Engl. var. *leucocarpum* (Schott) Engl. in C.F.P. von Martius, Fl. Bras. 3(2): 78. 1878.
- Anthurium violaceum* (Sw.) Schott in H.W. Schott & S.L. Endlicher, Melet. Bot. 22. 1832; *Pothos violaceus* Sw., Prodr. 32. 1788; *Anthurium scandens* (Aubl.) Engl. var. *violaceum* (Sw.) Engl. in C.F.P. von Martius, Fl. Bras. 3(2): 78. 1878.  
 Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Lesser Antilles (Antigua, Guadeloupe), Margarita, Mexico, Central America, and South America.  
 Common Names: Cerezo, Víbora, Vívora (Dominican Republic), Guinda (Puerto Rico).  
 References: 1, 2, 3, 5, 28, 30, 32, 61, 69, 123, 131, 147, 323, 340.
- Anthurium scandens* (Aubl.) Engl. var. *leucocarpum* (Schott) Engl. = *Anthurium scandens* (Aubl.) Engl.
- Anthurium scandens* (Aubl.) Engl. var. *violaceum* (Sw.) Engl. = *Anthurium scandens* (Aubl.) Engl.
- Anthurium scolopendrinum* Kunth = *Anthurium gracile* (Rudge) Schott
- Anthurium x selloum* K. Koch Index Seminum (Berlin) 1854 (App.): 8. 1855.  
 Distribution: Endemic to Virgin Islands (St. John, Tortola).  
 References: 19, 28, 61, 147.
- Anthurium thompsoniae* Arias, Revista Jard. Bot. Nac. Univ. Habana 17-18: 5. 1998 ["1996-1997"].  
 Distribution: Endemic to Greater Antilles; native to Cuba and Jamaica.  
 References: 2, 3, 69, 147.
- Anthurium venosum* Griseb., Cat. Pl. Cub. 219. 1866.  
 Distribution: Endemic to Greater Antilles; native to Cuba and Jamaica.  
 Common Names: Hoja grande, Lombricero (Cuba).  
 References: 2, 3, 69, 132, 147.
- Anthurium violaceum* (Sw.) Schott = *Anthurium scandens* (Aubl.) Engl.
- Anthurium willdenowii* Kunth, Enum. Pl. 3: 71. 1841.  
*Anthurium barbadosense* Engl., Bot. Jahrb. Syst. 25: 404. 1898.  
 Distribution: Native to Lesser Antilles (Barbados, Guadeloupe, St. Lucia) and South America.  
 References: 1, 147.
- Arum arborescens* L. = *Montrichardia arborescens* (L.) Schott  
*Arum auritum* L. = *Syngonium auritum* (L.) Schott  
*Arum bicolor* Aiton = *Caladium bicolor* (Aiton) Vent.  
*Arum colocasia* L. = *Colocasia esculenta* (L.) Schott  
*Arum esculentum* L. = *Colocasia esculenta* (L.) Schott  
*Arum lacerum* Jacq. = *Philodendron lacerum* (Jacq.) Schott  
*Arum seguine* Jacq. = *Dieffenbachia seguine* (Jacq.) Schott  
*Arum seguinum* L. = *Dieffenbachia seguine* (Jacq.) Schott  
*Arum tripartitum* Jacq. = *Philodendron tripartitum* (Jacq.) Schott  
*Caladium belophyllum* Willd. = *Xanthosoma belophyllum* (Willd.) Kunth  
*Caladium bicolor* (Aiton) Vent., Descr. Pl. Nouv. t. 30. 1801; *Arum bicolor* Aiton, Hortus Kew. 3: 316. 1789; *Cyrtospadix bicolor* (Aiton) Britton & P. Wilson, Sci. Surv. Porto Rico & Virgin Islands 5: 126. 1923.  
*Caladium hortulanum* Birdsey, Cult. Aroids 42. 1951.  
*Xanthosoma sylvestre* Bello, Anales Soc. Esp. Hist. Nat. 12: 114. 1883.  
 Distribution: Exotic in Cayman Islands, Cuba, Hispaniola, Puerto Rico, Virgin Islands (St. Croix, Virgin Gorda), Lesser Antilles (Barbados, Dominica, Guadeloupe, Martinique, St. Lucia, St. Vincent), and Margarita; native to Central America and South America.  
 Common Names: Corazón de cabrito, Corazón de Jesús, Malanga, Malanga de jardín, Malangueta, Malanguilla, Malanguita, Malanguita cimarrona, Paleta de pintor, Papagayo (Cuba), Cananga, Lágrimas de María, Paleta de pintor (Dominican Republic), Coeur saignant (Haiti), Caladio, Cara de caballo, Corazón de Jesús, Corazón de María, Paleta de pintor, Venas de Jesús, Yautía de jardín (Puerto Rico).  
 References: 1, 4, 5, 28, 30, 61, 69, 123, 131, 132, 147, 252, 323, 340.
- Caladium brasiliense* Desf. = *Xanthosoma brasiliense* (Desf.) Engl.  
*Caladium colocasia* (L.) W. Wight = *Colocasia esculenta* (L.) Schott  
*Caladium fragrantissimum* Hook. = *Philodendron fragrantissimum* (Hook.) G. Don  
*Caladium hortulanum* Birdsey = *Caladium bicolor* (Aiton) Vent.  
*Caladium maculatum* Lodd. = *Dieffenbachia seguine* (Jacq.) Schott  
*Colocasia antiquorum* Schott = *Colocasia esculenta* (L.) Schott  
*Colocasia esculenta* (L.) Schott, Melet. Bot. 18. 1832; *Arum esculentum* L., Sp. Pl. 965. 1753.

- Arum colocasia* L., Sp. Pl. 965. 1753; *Caladium colocasia* (L.) W. Wight, Contr. U.S. Natl. Herb. 9: 206. 1905.
- Colocasia antiquorum* Schott in H.W. Schott & S.L. Endlicher, Melet. Bot. 18. 1832.
- Distribution: Cultivated and naturalized in Cayman Islands, Cuba, Hispaniola, Puerto Rico, Lesser Antilles (Antigua, Dominica, Guadeloupe, Martinique, St. Lucia), and Margarita; native to tropical Asia, Malesia, and Pacific Region.
- Common Names: Malanga isleña (Cuba), Tahia, Tania, Taro, Tayo, Yautía, Yautía coquito, Yautía morada (Dominican Republic), Caraibe, Caraibe manzoubelle, Malanga, Malanga deux palles, Malanga thiote, Taro bombou, Tayo bambou, Tayo blanc, Tayo noir (Haiti), Dachine, Dasheen, Malanga, Taro (Lesser Antilles), Angustia, Malanga, Taro, Yautía malanga (Puerto Rico).
- References: 1, 3, 4, 5, 28, 30, 61, 123, 131, 132, 147, 150, 252, 323.
- Cyrtospadix bicolor* (Aiton) Britton & P. Wilson = *Caladium bicolor* (Aiton) Vent.
- Dieffenbachia maculata* (Lodd.) G. Don = *Dieffenbachia seguine* (Jacq.) Schott
- Dieffenbachia picta* Schott = *Dieffenbachia seguine* (Jacq.) Schott
- Dieffenbachia seguine* (Jacq.) Schott, Wiener Z. Kunst 3: 803. 1829; *Arum seguine* Jacq., Enum. Syst. Pl. 31. 1760.
- Arum seguinum* L., Sp. Pl., ed. 2, 1371. 1763.
- Caladium maculatum* Lodd., Bot. Cab. 7: t. 608. 1822; *Dieffenbachia maculata* (Lodd.) G. Don in R. Sweet, Hort. Brit., ed. 3, 632. 1839.
- Dieffenbachia picta* Schott, Oesterr. Bot. Wochenbl. 2: 68. 1852.
- Distribution: Native to Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas, Tortola), Lesser Antilles (Barbados, Dominica, Grenada, Guadeloupe, Marie Galante, Martinique, St. Kitts, St. Lucia, St. Vincent), Margarita, Central America, and South America.
- Common Names: Brazo poderoso, Dicha, Malanga de la dicha, Malangueta, Mata del cáncer, Pinedo de negro, Yerba del cáncer (Cuba), Mata puerco, Pela puerco (Dominican Republic), Canne, Canne à gratter, Canne madère (Haiti), Dumb cane (Jamaica), Canne brulante, Canne d'eau, Dumb cane, Seguine (Lesser Antilles), Rábano cimarrón (Puerto Rico), Dumb cane (Virgin Islands).
- References: 1, 2, 3, 4, 5, 19, 28, 30, 61, 69, 123, 131, 132, 147, 150, 323, 340.
- Dracontium asperum* K. Koch, Wochenschr. Gärtnerei Pflanzenk. 2: 259. 1859.
- Dracontium polyphyllum* sensu Britton & P. Wilson, Sci. Surv. Porto Rico & Virgin Islands 5: 130. 1923, non L.
- Distribution: Native to Hispaniola, Puerto Rico, Trinidad, and South America.
- References: 28, 30, 61, 69, 147, 156, 340.
- Dracontium bissectum* Vell. = *Thoracocarpus bissectus* (Vell.) Harling (Cyclanthaceae)
- Dracontium pertusum* L. = *Monstera adansonii* Schott
- Dracontium polyphyllum* sensu Britton & P. Wilson = *Dracontium asperum* K. Koch
- Epipremnum pinnatum* (L.) Engl. in H.G.A. Engler, Pflanzenr. IV. 23B (Heft 37): 60. 1908.
- Philodendron nechodomae* Britton in N.L. Britton & P. Wilson, Sci. Surv. Porto Rico & Virgin Islands 6: 335. 1926.
- Distribution: Cultivated and escaped in Hispaniola, Puerto Rico, Virgin Islands (St. Thomas), and Lesser Antilles (St. Lucia); native to Asia.
- References: 1, 28, 32, 61, 147, 150, 156.
- Epipremnum pinnatum* (L.) Engl. "aureum" Nicolson, Allertonia 1: 347. 1978.
- Rhaphidophora aurea* (Linden & André) Birdsey, Bailey 10: 159. 1962; *Scindapsus aureus* (Linden & André) Engl. in H.G.A. Engler, Pflanzenr. IV, 23b (Heft 37): 80. 1908.
- Distribution: Naturalized in Cuba, Hispaniola, Puerto Rico, Virgin Islands (Guana), and Margarita; native to Society Islands (Polynesia).
- References: 3, 28, 32, 69, 147, 237, 254, 323.

- Montrichardia arborescens* (L.) Schott, Arac. Betreff. 4. 1854; *Arum arborescens* L., Sp. Pl. 967. 1753.  
 Distribution: Native to Lesser Antilles (Dominica, Grenada, Guadeloupe, Martinique, St. Lucia, St. Vincent), Mexico, Central America, and South America; reported for Puerto Rico by Bello (340) perhaps based on a misidentification of *Philodendron giganteum*.  
 Common Name: Malanga sauvage (Lesser Antilles).  
 References: 1, 28, 30, 61, 131, 147, 340.
- Peltandra virginica* (L.) Schott in H.W. Schott & S.L. Endlicher, Melet. Bot. 19. 1832.  
 Distribution: Native to Cuba and North America.  
 Reference: 147.
- Philodendron angustatum* Schott = *Philodendron consanguineum* Schott
- Philodendron bipinnatifidum* Schott ex Endl., Gen. Pl. 1(3): 237. 1837.  
 Distribution: Cultivated in Hispaniola, Jamaica, Puerto Rico, and Margarita.  
 References: 28, 254, 323.
- Philodendron clementis* C. Wright ex Griseb. = *Philodendron fragrantissimum* (Hook.) G. Don
- Philodendron consanguineum* Schott, Syn. Aroid. 88. 1856.  
*Philodendron angustatum* Schott, Syn. Aroid. 103. 1856.  
*Philodendron fuertesii* K. Krause in I. Urban, Symb. Antill. 7: 172. 1912.
- Philodendron krebsii* Schott, Bonplandia (Hannover) 7: 164. 1859.  
*Philodendron marginatum* Urb., Symb. Antill. 4: 135. 1903.  
*Philodendron urbanianum* K. Krause in I. Urban, Symb. Antill. 7: 172. 1912.
- Philodendron wrightii* Griseb., Cat. Pl. Cub. 219. 1866.  
 Distribution: Endemic to West Indies; native to Cuba, Hispaniola, Puerto Rico, Virgin Islands (St. Thomas), and Lesser Antilles (St. Lucia).  
 Common Names: Zapatico (Dominican Republic), Liane brulante, Tra-trá (Haiti).  
 References: 1, 3, 5, 28, 30, 32, 61, 69, 123, 147, 156.
- Philodendron dispar* Schott = *Philodendron lingulatum* (L.) K. Koch
- Philodendron dussii* Engl., Bot. Jahrb. Syst. 26: 530. 1899.  
 Distribution: Endemic to Lesser Antilles (Dominica, Guadeloupe).  
 References: 1, 147.

*Acontias cubensis* sensu Bello, Anales Soc. Esp. Hist. Nat. 12: 115. 1883, non Schott.

*Xanthosoma atrovirens* K. Koch & Bouché, Append. Gen. Sp. Hort. Berol. 1854: 3. 1854.

*Xanthosoma peregrinum* Griseb., Fl. Brit. W. I. 511. 1864.

Distribution: Cultivated in Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. John, St. Thomas), Lesser Antilles (Barbados, Guadeloupe, Martinique, St. Lucia, St. Vincent), and Margarita; native to Central America and South America.

Common Names: Diahutia, Galanga, Guagüi, Malanga, Malanga amarilla, Malanga blanca, Yahibías, Yantas, Yautía (Cuba), Tahia, Tania, Taro, Tayo, Yautía, Yautía amarilla, Yautía blanca, Yautía morada (Dominican Republic), Caraibe, Malanga, Malanga marron, Malanga thiote, Tayo blanc, Tayo marrón, Tayo noir (Haiti), Calau, Malanga, Taro (Lesser Antilles), Tanier, Yautía blanca (Puerto Rico).

References: 1, 2, 3, 4, 5, 28, 30, 36, 61, 69, 123, 131, 132, 147, 150, 323, 340.

*Xanthosoma sagittifolium* sensu Bello = *Xanthosoma undipes* (K. Koch) K. Koch

*Xanthosoma sylvestre* Bello = *Caladium bicolor* (Aiton) Vent.

*Xanthosoma undipes* (K. Koch & C.D. Bouché) K. Koch, Bonplandia (Hannover) 4: 4. 1856; *Alocasia undipes* K. Koch & C.D. Bouché, Index Seminum (Berlin) 1854(App.): 5. 1855

*Xanthosoma jacquinii* Schott, Melet. Bot. 19. 1832.

*Xanthosoma sagittifolium* sensu Bello, Anales Soc. Esp. Hist. Nat. 12: 114. 1883, non (L.) Schott.

Distribution: Native to Hispaniola, Puerto Rico, Lesser Antilles (Guadeloupe, Martinique, St. Vincent), Mexico, Central America, and South America.

Common Names: Chou caribe, Malanga, Wild taro (Lesser Antilles), Yautía palma, Yautía silvestre (Puerto Rico).

References: 1, 5, 28, 30, 61, 131, 147, 240, 340.

*Xanthosoma violaceum* Schott, Oesterr. Bot. Wochenbl. 3: 370. 1853.

*Xanthosoma nigrum* (Vell.) Stellfeld, Tribuna Farm. 12: 201. 1944.

Distribution: Exotic in Cuba, Hispaniola, and Lesser Antilles (Guadeloupe, St. Lucia); native to Mexico, Central America, and South America; naturalized in Puerto Rico.

Common Names: Yautía lila, Yautía morada (Puerto Rico).

References: 1, 3, 5, 28, 61, 131, 147.

*Zantedeschia aethiopica* (L.) Spreng., Syst. Veg., ed. 16, 3: 765. 1826.

Distribution: Cultivated in Hispaniola, Puerto Rico, and Central America; native to South Africa.

Common Names: Lirio cala (Dominican Republic), Lirio cala (Puerto Rico).

References: 28, 123, 131, 147.

#### EXCLUDED SPECIES

*Asterostigma cubense* (A. Rich.) K. Krause ex Bogner, Adansonia, ser. 2, 9: 129. 1969; *Andromycia cubensis* A. Rich. in R. de la Sagra, Hist. Fis. Cuba, Bot. 11: 282. 1850. Type. A. Richard s.n. (LT: inflorescence only, P) designated by Bogner 1969.

Note: The Holotype of this name included two elements that were cultivated at P, which presumably originated from Cuba. This species is not known from Cuba, and it is quite possible that the inflorescence included in Richard's type collection originally came from Brazil, where this species is known.

## ARALIACEAE

reviewed by J. Wen

Genera. Total: 6; native: 5; endemic: 0.

Taxa. Total: 51; native: 39; endemic: 29.

*Aralia arborea* L. = *Dendropanax arboreus* (L.) Decne. & Planch.

*Aralia balfouriana* André = *Polyscias balfouriana* (André) L.H. Bailey

*Aralia capitata* Jacq. = *Oreopanax capitatus* (Jacq.) Decne. & Planch.

*Aralia excelsa* (Griseb.) J. Wen, Cathaya 13-14: 96. 2002 ["2001-2002"]; *Sciadodendron excelsum* Griseb., Bonplandia (Hannover) 6: 7. 1858.

Distribution: Native to Hispaniola, Central America, and northern South America.

Common Name: Juan primero (Dominican Republic), Ouane primaire (Haiti).

References: 5, 7, 123, 147, 427.

Note: Considered critically endangered by the IUCN Red List of Threatened Species.

*Aralia filicifolia* C. Moore ex E. Fourn. = *Polyscias filicifolia* (C. Moore ex E. Fourn.) L.H. Bailey

*Aralia guilfoylei* W. Bull = *Polyscias guilfoylei* (W. Bull) L.H. Bailey

*Aralia rex* (Ekman) J. Wen, Brittonia 45: 53. 1993; *Megalopanax rex* Ekman in H.A.T. Harms, Notizbl. Bot. Gart. Berlin-Dahlem 9: 122. 1924.

Distribution: Endemic to Cuba.

References: 3, 39, 147, 149.

Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39).

*Aralia sciodaphyllum* Sw. = *Schefflera sciodaphyllum* (Sw.) Harms

*Brassaia actinophylla* Endl. = *Schefflera actinophylla* (Endl.) Harms

*Dendropanax arboreus* (L.) Decne. & Planch., Rev. Hort., ser. 4(3):

107. 1854; *Aralia arborea* L., Syst. Nat., ed. 10, 967. 1759;

*Sciodaphyllum samydifolium* C. Wright ex Griseb., Cat. Pl. Cub. 117.

1866; *Dendropanax samydifolius* (C. Wright ex Griseb.) Seem.,

J. Bot. 6: 140. 1868; *Schefflera samydifolia* (C. Wright ex Griseb.)

M. Gómez, Anales Soc. Esp. Hist. Nat. 19: 249. 1890; *Gilibertia*

*samydifolia* (C. Wright ex Griseb.) Marchal in I. Urban, Symb.

Antill. 1: 201. 1899.

*Sciodaphyllum capitatum* sensu Eggers, Fl. St. Croix Suppl. 17. 1889, non Griseb.

*Sciodaphyllum jacquini* Griseb., Fl. Brit. W. I. 306. 1860.

Distribution: Native to Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Thomas, Tortola), Trinidad, Margarita, Mexico, Central America, and South America.

Common Names: Junquillo, Lengua de vaca, Palo de burro, Palo malo, Pinga de perro, Ramón de bestia, Ramón de costa, Ramón de vaca, Víbora (Dominican Republic), Bois nègresse, Fausse salsepareille, Salsepareille bâtard, Salsepareille marrón (Haiti), Angelica tree, Galipee (Jamaica), Muñeca, Palo de cachimba, Palo de cachumba, Palo de pollo, Vibona, Víbora (Puerto Rico).

References: 2, 3, 4, 7, 30, 40, 58, 61, 75, 123, 131, 134, 147, 301, 323, 340.

*Dendropanax blakeanus* Britton, Bull. Torrey Bot. Club 39: 4. 1912;

*Gilibertia blakeana* (Britton) Fawc. & Rendle, Fl. Jamaica 5: 422. 1926.

*Dendropanax portlandianus* Proctor, Bull. Inst. Jamaica, Sci. Ser. 16: 48. 1967.

Distribution: Endemic to Jamaica.

References: 2, 147, 156, 427.

Note: Considered vulnerable by the IUCN Red List of Threatened Species.

*Dendropanax brachypodus* (Urb.) Britton = *Dendropanax arboreus* (L.) Decne. & Planch.

*Dendropanax cordifolius* Britton, Bull. Torrey Bot. Club 39: 4. 1912; *Gilibertia cordifolia* (Britton) Fawc. & Rendle, Fl. Jamaica 5: 421. 1926.

Distribution: Endemic to Jamaica.

References: 2, 147, 427.

Note: Considered critically endangered by the IUCN Red List of Threatened Species.

*Dendropanax cuneifolius* (C. Wright ex Griseb.) Seem., J. Bot. 6: 140.

1868; *Hedera cuneifolia* C. Wright ex Griseb., Cat. Pl. Cub. 117.

1866; *Gilibertia cuneifolia* (C. Wright ex Griseb.) Marchal in I.

Urban, Symb. Antill. 1: 201. 1899; *Schefflera cuneifolia* (C. Wright

ex Griseb.) M. Gómez, Anales Soc. Esp. Hist. Nat. 19: 249. 1890.

*Gilibertia macradenia* Urb. & Ekman, Repert. Spec. Nov. Regni Veg. 22: 93. 1925.

Distribution: Endemic to Cuba.

References: 3, 30, 147.

*Dendropanax elongatus* Britton = *Dendropanax pendulus* (Sw.) Decne. & Planch

*Dendropanax filipes* Britton, Bull. Torrey Bot. Club 41: 9. 1914;

*Gilibertia filipes* (Britton) Fawc. & Rendle, Fl. Jamaica 5: 422. 1926.

Distribution: Endemic to Jamaica.

References: 2, 147, 427.

Note: Considered critically endangered by the IUCN Red List of Threatened Species.

*Dendropanax grandiflorus* Britton, Bull. Torrey Bot. Club 39: 3. 1912;  
*Gilibertia grandiflora* (Britton) Fawc. & Rendle, Fl. Jamaica 5: 422. 1926.

Distribution: Endemic to Jamaica.

References: 2, 147, 156, 427.

Note: Considered critically endangered by the IUCN Red List of Threatened Species.

*Dendropanax grandis* Britton, Bull. Torrey Bot. Club 39: 4. 1912;  
*Gilibertia grandis* (Britton) Fawc. & Rendle, Fl. Jamaica 5: 422. 1926.

Distribution: Endemic to Jamaica.

References: 2, 147, 156, 427.

Note: Considered critically endangered by the IUCN Red List of Threatened Species.

*Dendropanax laurifolius* (Marchal) Decne. & Planch. ex Schneid., Bull. Torrey Bot. Club 36: 644. 1909; *Gilibertia laurifolia* Marchal in I. Urban, Symb. Antill. 1: 203. 1899.

*Sciadophyllum capitatum* sensu A. Stahl, Estud. Fl. Puerto Rico 4: 198. 1886, non Griseb.

*Sciadophyllum capitatum* sensu Bello, Anales Soc. Esp. Hist. Nat. 10: 278. 1881, non Griseb.

Distribution: Endemic to Puerto Rico.

Common Names: Gongolí, Palo de cachumba, Palo de pollo negro, Palo de vaca, Vibona, Vibora (Puerto Rico).

References: 30, 58, 61, 75, 131, 147, 340.

*Dendropanax nervosus* (Urb. & Ekman) A.C. Sm., Trop. Woods 66: 3. 1941; *Gilibertia nervosa* Urb. & Ekman, Repert. Spec. Nov. Regni Veg. 22: 92. 1925.

Distribution: Endemic to Cuba.

References: 3, 147.

*Dendropanax nutans* (Sw.) Decne. & Planch., Rev. Hort., ser. 4(3): 107. 1854; *Hedera nutans* Sw., Prodr. 51. 1788; *Gilibertia nutans* (Sw.) Marchal in I. Urban, Symb. Antill. 1: 201. 1899.

*Dendropanax nutans* (Sw.) Decne. & Planch. var. *obtusifolius* C.D. Adams, Phytologia 21: 66. 1971.

Distribution: Endemic to Jamaica.

References: 2, 30, 147.

*Dendropanax nutans* (Sw.) Decne. & Planch. var. *obtusifolius* C.D. Adams = *Dendropanax nutans* (Sw.) Decne. & Planch.

*Dendropanax ovalifolius* (Fawc. & Rendle) C.D. Adams = *Dendropanax pendulus* (Sw.) Decne. & Planch.

*Dendropanax pendulus* (Sw.) Decne. & Planch., Rev. Hort., ser. 4(3): 107. 1854; *Hedera pendula* Sw., Prodr. 51. 1788; *Gilibertia pendula* (Sw.) Marchal in I. Urban, Symb. Antill. 1: 200. 1899.

*Gilibertia ovalifolia* Fawc. & Rendle, J. Bot. 64: 158. 1926;  
*Dendropanax ovalifolius* (Fawc. & Rendle) C.D. Adams, Phytologia 21: 66. 1971.

*Dendropanax elongatus* Britton, Bull. Torrey Bot. Club 39: 3. 1912;  
*Gilibertia elongata* (Britton) Fawc. & Rendle, Fl. Jamaica 5: 421. 1926.

Distribution: Endemic to Jamaica.

References: 2, 30, 147, 427.

Note: Considered vulnerable by the IUCN Red List of Threatened Species.

*Dendropanax portlandianus* Proctor = *Dendropanax blakeanus* Britton

*Dendropanax samydifolius* (C. Wright ex Griseb.) Seem. = *Dendropanax arboreus* (L.) Decne. & Planch.

*Dendropanax selleanus* (Urb. & Ekman) A.C. Sm., Trop. Woods 66: 3. 1941; *Gilibertia selleana* Urb. & Ekman, Ark. Bot. 20A(5): 32. 1926.

Distribution: Endemic to Hispaniola.

References: 5, 7, 147.

*Dendropanax swartzii* (Fawc. & Rendle) A.C. Sm., Trop. Woods 66: 3. 1941; *Gilibertia swartzii* Fawc. & Rendle, J. Bot. 64: 158. 1926.

Distribution: Endemic to Jamaica.

References: 2, 147.

- Hedera pendula* Sw. = *Dendropanax pendulus* (Sw.) Decne. & Planch.
- Hedera sciadaphyllum* (Sw.) Sw. = *Schefflera sciadaphyllum* (Sw.) Harms
- Hydrocotyle asiatica* L. = *Centella asiatica* (L.) Urb. (Apiaceae)
- Hydrocotyle bonariensis* Lam., Encycl. 3: 153. 1789.  
Distribution: Native in Cuba, Puerto Rico, Mexico, Central America, South America, and Africa.  
References: 3, 58, 159.
- Hydrocotyle brittonii* Mathias, Brittonia 2: 239. 1936.  
Distribution: Endemic to Jamaica.  
Reference: 2.
- Hydrocotyle hirsuta* Sw., Prodr. 54. 1788, var. *hirsuta*  
*Caulis japonica* Houtt., Nat. Hist. 2(8): 42. 1777.  
*Hydrocotyle spicata* Lam., Encycl. 3: 153. 1789.  
*Torilis anthriscus* (L.) Gaertn., Fruct. Sem. Pl. 1: 83. 1788.  
Distribution: Endemic to West Indies; native to Bahamas, Cuba, Hispaniola, and Puerto Rico.  
Common Names: Hairy marsh pennywort (Bahamas), Corazón de pollo (Cuba), Yerba de clavo (Puerto Rico).  
References: 5, 7, 30, 45, 58, 61, 75, 131, 132, 152, 307.
- Hydrocotyle hirsuta* Sw. var. *leptostachys* (A. Rich.) Urb. in C.F.P. von Martius, Fl. Bras. 11(1): 282. 1879; *Hydrocotyle leptostachys* A. Rich., Ann. Gen. Sci. Phys. 4: 191. 1820.  
Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.  
References: 3, 7.
- Hydrocotyle lanipes* Urb. & Ekman, Ark. Bot. 22A(10): 42. 1929.  
Distribution: Endemic to Hispaniola (Haiti).  
References: 5, 7.
- Hydrocotyle leptostachys* A. Rich. = *Hydrocotyle hirsuta* Sw. var. *leptostachys* (A. Rich.) Urb.
- Hydrocotyle lineata* Michx., Fl. Bor.-Amer. 1: 162. 1803; *Crantzia lineata* (Michx.) Nutt., Gen. N. Amer. Pl. 1: 177. 1818.  
Distribution: Exotic in Hispaniola.  
References: 7, 151.
- Hydrocotyle oligantha* Urb., Repert. Spec. Nov. Regni Veg. 24: 7. 1927.  
Distribution: Endemic to Cuba.  
References: 3, 39.  
Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).
- Hydrocotyle polystachya* A. Rich. var. *triradiata* A. Rich. = *Hydrocotyle verticillata* Thunb. var. *triradiata* (A. Rich.) Fernald
- Hydrocotyle prolifera* Kellogg = *Hydrocotyle verticillata* Thunb. var. *triradiata* (A. Rich.) Fernald
- Hydrocotyle pusilla* A. Rich., Ann. Gen. Sci. Phys. 4: 167. 1820.  
Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Central America, and South America.  
References: 2, 3, 5, 7, 58, 61.
- Hydrocotyle pygmaea* C. Wright in F.A. Sauvalle, Anales Acad. Ci. Méd. Habana 6: 97. 1869.  
Distribution: Endemic to Cuba.  
References: 3, 39.  
Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).
- Hydrocotyle ranunculoides* L. f., Suppl. Pl. 177. 1782 [“1781”].  
Distribution: Native to Cuba and North America.  
Common Name: Sombbrero de agua (Cuba).  
Reference: 3.
- Hydrocotyle repanda* Pers. = *Centella asiatica* (L.) Urb. (Apiaceae)
- Hydrocotyle rotundifolia* Roxb. = *Hydrocotyle sibthorpioides* Lam.
- Hydrocotyle sibthorpioides* Lam., Encycl. 3: 153. 1789.  
*Hydrocotyle rotundifolia* Roxb., Fl. Ind., ed. 1832, 2: 88. 1832.  
Distribution: Naturalized in Lesser Antilles (Dominica) and Trinidad; native to Africa, Asia, and Malasia.  
References: 1, 150, 151, 301.
- Hydrocotyle spicata* Lam. = *Hydrocotyle hirsuta* Sw. var. *hirsuta*
- Hydrocotyle umbellata* L., Sp. Pl. 234. 1753.  
Distribution: Native to Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Lesser Antilles (Dominica, Guadeloupe), Trinidad, North America, Mexico, Central America, and South America.  
Common Names: Cáncer, Celedonia, Galletica, Ombligo de venus, Quitasolillo, Yerba del cáncer (Cuba), Herbe à pou de bois, Zèbe pou-bois (Lesser Antilles), Ombligo de venus, Sombbrero de agua, Yerba de cuarto (Puerto Rico).  
References: 1, 2, 3, 5, 7, 45, 58, 61, 75, 131, 132, 301, 340.
- Hydrocotyle verticillata* Thunb., Hydrocotyle 2, 5. 1798, var. *verticillata*  
Distribution: Native to Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Lesser Antilles (Dominica, Guadeloupe, Martinique, St. Lucia), North America, Mexico, Central America, and South America.  
Common Names: Whorled marsh pennywort (Bahamas), Papitas fritas (Dominican Republic), Barbados hearth, Herbe-mare (Lesser Antilles).  
References: 1, 2, 3, 5, 7, 45, 58, 61, 123, 151.
- Hydrocotyle verticillata* Thunb. var. *cubensis* Rose ex Mathias, Brittonia 2: 240. 1936.  
Distribution: Endemic to Cuba.  
Reference: 149.
- Hydrocotyle verticillata* Thunb. var. *triradiata* (A. Rich.) Fernald, Rhodora 41: 437. 1939; *Hydrocotyle polystachya* A. Rich. var. *triradiata* A. Rich., Ann. Gén. Sci. Phys. 4: 171. 1820.  
*Hydrocotyle prolifera* Kellogg, Rhodora 41: 437. 1939.  
Distribution: Native to Cuba, North America, Mexico, and Central America.  
References: 3, 6, 151.
- Megalopanax rex* Ekman = *Aralia rex* (Ekman) J. Wen
- Oreopanax capitatus* (Jacq.) Decne. & Planch., Rev. Hort., ser. 4 (3): 108. 1854; *Aralia capitata* Jacq., Enum. Syst. Pl. 18. 1760; *Sciadaphyllum capitatum* (Jacq.) Griseb., Fl. Brit. W. I. 306. 1860.  
Distribution: Native to Cuba, Hispaniola, Jamaica, Lesser Antilles (Antigua, Dominica, Grenada, Guadeloupe, Martinique, Montserrat, St. Vincent), Tobago, Trinidad, Margarita, Mexico, Central America, and South America.  
Common Names: Palo de viento, Pinga de perro, Víbora, Víbora (Dominican Republic), Bois d'Anjou (Haiti), Woman wood

(Jamaica), Aralie blanc, Bastard braselleto, Broad leaf balsam, Candlewood, Figuier, Figuier-aralie, Figuier tête (Lesser Antilles).  
References: 1, 2, 3, 5, 7, 123, 147, 301, 323.

*Oreopanax dussii* Krug & Urb. ex Duss, Ann. Inst. Bot.-Geol. Colon. Marseille 3: 322. 1897 ["1896"].

Distribution: Endemic to Lesser Antilles (Dominica, Guadeloupe, Martinique).

Common Name: Bois flot (Lesser Antilles).

References: 1, 147.

*Oreopanax ramosissimum* A.C. Sm., Brittonia 2: 256. 1936.

Distribution: Endemic to Lesser Antilles (Martinique).

References: 1, 147.

*Panax caribaeus* Siebold = *Schefflera attenuata* (Sw.) Frodin

*Panax chrysophyllum* Vahl = *Schefflera morototoni* (Aubl.) Maguire, Steyerl. & Frodin

*Panax speciosum* sensu Eggers = *Schefflera morototoni* (Aubl.) Maguire, Steyerl. & Frodin

*Panax fruticosus* L. = *Polyscias fruticosa* (L.) Harms

*Polyscias balfouriana* (André) L.H. Bailey, Rhodora 18: 153. 1916;

*Aralia balfouriana* André, Rev. Hort. 70: 229. 1898.

Distribution: Cultivated in Hispaniola and Puerto Rico; native to Australia and New Guinea.

References: 5, 7, 58, 147.

*Polyscias cumingiana* (C. Presl) Fern.-Vill., Fl. Filip., ed. 3, 4 (Nov. App.): 102. 1880.

Distribution: Cultivated in Puerto Rico; native to Malesia and Pacific Region.

References: 58, 147, 151.

*Polyscias filicifolia* (C. Moore ex E. Fourn.) L.H. Bailey, Rhodora 18: 153. 1916; *Aralia filicifolia* C. Moore ex E. Fourn., Ill. Hort. 23: 73. 1876.

Distribution: Exotic in Hispaniola, Virgin Islands (Tortola), Margarita. Cultigen from New Guinea and Pacific Region.

Common Names: Gallego, Parici (Dominican Republic), Feuilles paresseux, Persillette, Paresseux, Paresseux de clotures (Haiti), Cubano, Filipino (Puerto Rico).

References: 5, 7, 61, 123, 131, 147, 231, 323.

*Polyscias fruticosa* (L.) Harms in H.G.A. Engler & K.A.E. Prantl, Nat. Pflanzenfam. 3(8): 45. 1894; *Panax fruticosum* L., Sp. Pl., ed. 2, 1513. 1762.

Distribution: Exotic in Hispaniola, Puerto Rico, and Virgin Islands (St. Croix). Cultigen from Malesia and Pacific Region.

Common Names: Gallego (Dominican Republic), Paresseux, Persillette (Haiti).

References: 5, 7, 61, 123, 147, 230.

*Polyscias guilfoylei* (W. Bull.) L.H. Bailey, Rhodora 18: 153. 1916;

*Aralia guilfoylei* W. Bull, Cat. 83: 4. 1873.

Distribution: Exotic in Bahamas, Hispaniola, Puerto Rico, Virgin Islands (St. Croix, Tortola), and Margarita. Cultigen from Malesia and Pacific Region.

Common Names: Wild coffee (Bahamas), Gallego (Dominican Republic), Paresseux (Haiti).

References: 5, 7, 45, 58, 61, 123, 147, 150, 230, 323.

*Polyscias paniculata* (DC.) Baker, Fl. Mauritius 126. 1877; *Gilbertia paniculata* DC., Prodr. 4: 256. 1830.

Distribution: Exotic in Hispaniola; native to Mauritius.

Reference: 147.

*Polyscias pinnata* J.R. Forst. & G. Forst., Char. Gen. Pl. 32. 1775.

Distribution: Cultivated in Hispaniola and Puerto Rico; native to Pacific Region.

Common Names: Gallego, Parici (Dominican Republic), Paresseux des clorutes (Haiti).

References: 5, 7, 58, 123, 147.

*Polyscias scutellaria* (Burm. f.) Fosberg, Occas. Pap. Univ. Hawaii 46: 9. 1948. Cultiven from Malesia and Pacific Region.

*Polyscias tricochleata* (Miq.) Fosberg, Phytologia 5: 290. 1955.

Distribution: Exotic in Hispaniola, Puerto Rico, and Virgin Islands (St. Croix); native to Malesia and Pacific Region.

Common Names: Gallego (Dominican Republic), Paresseux, Persillette (Haiti).

References: 5, 58, 123, 147, 230.

*Polyscias tricochleata* (Miq.) Fosberg = *Polyscias scutellaria* (Burm. f.) Fosberg

*Schefflera actinophylla* (Endl.) Harms in H.G.A. Engler & K.A.E. Prantl, Nat. Pflanzenfam. 3(8): 36. 1894; *Brassaia actinophylla* Endl., Nov. Stirp. Dec. 1: 89. 1839.

Distribution: Cultivated in Bahamas, Hispaniola, Puerto Rico, and Virgin Islands (St. Croix); native to Australia and New Guinea.

References: 7, 45, 58, 147, 150, 230, 383.

*Schefflera arborea* (L.) M. Gómez = *Dendropanax arboreus* (L.) Decne. & Planch.

*Schefflera arboricola* (Hayata.) Merr., Lignan Sci. J. 5: 139. 1929; *Heptapleurum arboricola* Hayata, Icon. Pl. Formosan. 6: 23. 1916.

Distribution: Cultivated in Jamaica.

Reference: 161.

*Schefflera attenuata* (Sw.) Frodin, Proc. Acad. Nat. Sci. Philadelphia 141: 341. 1989; *Panax attenuatus* Sw., Prodr. 54. 1788; *Didymopanax attenuatus* (Sw.) Marchal in C.F.P. von Martius, Fl. Bras. 11(1): 234. 1878.

*Panax caribaea* Siebold in I. Urban, Symb. Antill. 1: 207. 1899.

Distribution: Endemic to Lesser Antilles (Dominica, Grenada, Guadeloupe, Martinique, Montserrat, St. Barthélemy, St. Kitts, St. Lucia, St. Vincent).

Common Names: Aralie montagne, Mapou blanc, Trompette à canon, Trompette blanc, White elder (Lesser Antilles).

References: 1, 30, 147, 151.

*Schefflera cuneifolia* (C. Wright ex Griseb.) M. Gómez = *Dendropanax cuneifolium* (C. Wright ex Griseb.) Seem.

*Schefflera gleasonii* (Britton & P. Wilson) Alain, Phytologia 55: 328. 1985; *Didymopanax gleasonii* Britton & P. Wilson, Sci. Surv. Porto Rico & Virgin Islands 6: 365. 1926.

Distribution: Endemic to Puerto Rico.

References: 58, 61, 147, 427.

Note: Considered vulnerable by the IUCN Red List of Threatened Species.

*Schefflera morototoni* (Aubl.) Maguire, Steyerl. & Frodin, Mem. New York Bot. Gard. 38: 51. 1984; *Panax morototoni* Aubl., Hist. Pl. Guiane 2: 949. 1775; *Didymopanax morototoni* (Aubl.) Decne. & Planch., Rev. Hort., ser. 4(3): 109. 1854.

*Didymopanax chrysophyllum* (Vahl) Decne. & Planch., Rev. Hort., ser. 4(3): 109. 1854; *Panax chrysophyllum* Vahl, Eclog. Amer. 1: 33. 1797 ["1796"].

*Didymopanax micans* (Willd.) Krug & Urb. in I. Urban, Symb. Antill. 1: 204. 1899.

*Didymopanax undulatus* Decne. & Planch. ex C. Wright in F.A. Sauvalle, Anales Acad. Ci. Méd. Habana 6: 98. 1869.

*Panax speciosum* sensu Eggers, Fl. St. Croix 59. 1879, non Willd.

*Sciodaphyllum paniculatum* Britton, Bull. Torrey Bot. Club 18: 37. 1891.

Distribution: Native to Cuba, Hispaniola, Puerto Rico, Virgin Islands (St. John, St. Thomas, Tortola), Lesser Antilles (Guadeloupe), Trinidad, Mexico, Central America, and South America.

Common Names: Palo de sable, Palo de viento, Palo de yagua, Pata de gallo, Pie de gallo, Sablito, Yagrumo colorado, Yagrumo macho (Dominican Republic), Aralie grandes feuilles, Bois canot, Bois trembler, Le tremble, Le trembler (Haiti), Aralie-grandes-feuilles, Bois flot (Lesser Antilles).

References: 1, 3, 5, 7, 19, 30, 58, 61, 123, 147, 301, 306, 340.

*Schefflera pubigera* (Brongn. ex Planch.) Frodin in D.G. Frodin & R.H.A. Govaerts, World Checklist Bibliogr. Araliaceae: 368. 2004 ["2003"].

*Sciodaphyllum belangeri* Marchal in I. Urban, Symb. Antill. 1: 197. 1899.

Distribution: Cultivated in Lesser Antilles; native to India.

References: 1, 30, 147.

*Schefflera samydifolia* (C. Wright ex Griseb.) M. Gómez = *Dendropanax arboreus* (L.) Decne. & Planch.

*Schefflera sciodaphyllum* (Sw.) Harms in H.G.A. Engler & K.A.E. Prantl, Nat. Pflanzenfam. 3(8): 37. 1894; *Aralia sciodaphyllum* Sw., Prodr. 55. 1788; *Hedera sciodaphyllum* (Sw.) Sw., Fl. Ind. Occid. 1: 519. 1797.

*Sciodaphyllum brownei* Spreng., Syst. Veg., ed. 16, 1: 953. 1824 ["1825"].

Distribution: Endemic to Jamaica.

References: 2, 30, 147.

*Schefflera stearnii* R.A. Howard & Proctor, J. Arnold Arbor. 39: 105. 1958.

Distribution: Endemic to Jamaica.

References: 2, 147, 427.

Note: Considered endangered by the IUCN Red List of Threatened Species.

*Schefflera tremula* (Krug & Urb.) Alain, Phytologia 58: 328. 1985; *Didymopanax tremulus* Krug & Urb. in I. Urban, Symb. Antill. 1: 206. 1899.

Distribution: Endemic to Hispaniola.

Common Names: Palo de viento (Dominican Republic), Aralie grandes feuilles, Bois d'anjou, Bois tremble, Bois trembler, Le tremble, Ouane primaire (Haiti).

References: 5, 7, 30, 123, 147.

*Schefflera troyana* (Urb.) A.C. Sm., Trop. Woods 66: 5. 1941; *Sciodaphyllum troyanum* Urb., Symb. Antill. 5: 451. 1908.

Distribution: Endemic to Jamaica.

References: 2, 30, 147, 151, 427.

Note: Considered vulnerable by the IUCN Red List of Threatened Species.

*Schefflera urbaniana* (Marchal) Frodin, Proc. Acad. Nat. Sci. Philadelphia 141: 318. 1989; *Didymopanax urbanianus* Marchal, Bot. Jahrb. Syst. 15: 326. 1892.

Distribution: Endemic to Lesser Antilles (Martinique).

Common Name: Aralie (Lesser Antilles).

References: 1, 30, 147, 427.

Note: Considered vulnerable by the IUCN Red List of Threatened Species.

*Sciadodendron excelsum* Griseb. = *Aralia excelsa* (Griseb.) J. Wen

*Sciodaphyllum arboreum* (L.) C.L. Hitchc. = *Dendropanax arboreus* (L.) Decne. & Planch.

*Sciodaphyllum belangeri* Marchal = *Schefflera pubigera* (Brongn. ex Planch.) Frodin

*Sciodaphyllum brownei* Spreng. = *Schefflera sciodaphyllum* (Sw.) Harms

*Sciodaphyllum capitatum* (Jacq.) Griseb. = *Oreopanax capitatus* (Jacq.) Decne. & Planch.

*Sciodaphyllum capitatum* sensu A. Stahl & sensu Bello = *Dendropanax laurifolius* (Marchal) Decne. & Planch. ex Schneid.

*Sciodaphyllum capitatum* sensu Eggers = *Dendropanax arboreus* (L.) Decne. & Planch.

*Sciodaphyllum jacquinii* Griseb. = *Dendropanax arboreus* (L.) Decne. & Planch.

*Sciodaphyllum paniculatum* Britton = *Schefflera morototoni* (Aubl.) Maguire, Steyererm. & Frodin

*Sciodaphyllum samydifolium* C. Wright ex Griseb. = *Dendropanax arboreus* (L.) Decne. & Planch.

*Sciodaphyllum troyanum* Urb. = *Schefflera troyana* (Urb.) A.C. Sm.

## ARAUCARIACEAE

Genera. Total: 2; native: 0; endemic: 0.

Taxa. Total: 5; native: 0; endemic: 0.

*Agathis robusta* (C. Moore ex F. Muell.) F.M. Bailey, Syn. Queensl. Fl. 498. 1883.

Distribution: Cultivated in Puerto Rico; native to Australia and New Guinea.

Common Names: Kauri (Puerto Rico).

References: 131, 147, 239, 252.

*Araucaria angustifolia* (Bertol.) Kuntze, Revis. Gen. Pl. 3(2): 375. 1898.

*Araucaria brasiliana* A. Rich. in J.B.G. Bory de Saint-Vincent, Dict. Class. Hist. Nat. 1: 512. 1822.

Distribution: Cultivated in Puerto Rico; native to South America.

Common Names: Araucaria, Brasileño (Puerto Rico).

References: 131, 147, 149.

*Araucaria araucana* (Molina) K. Koch, Dendrologie 2(2): 206. 1873.

Distribution: Cultivated in Cuba; native to South America.

Common Names: Araucaria, Árbol de navidad (Cuba).

References: 132, 147.

*Araucaria bidwillii* Hook., London J. Bot. 2: 503. 1843.

Distribution: Cultivated in Cuba and Puerto Rico; native to Australia.

Common Names: Araucaria, Árbol de navidad (Cuba), Araucaria, Bungabunga (Puerto Rico).

References: 58, 130, 131, 132, 147.

*Araucaria heterophylla* (Salisb.) Franco, Anais Inst. Super. Agron. 19: 11. 1952.

Distribution: Cultivated in Hispaniola, Puerto Rico, Virgin Islands (St. Croix), and Margarita; native to Norfolk Island.

Common Names: Siete pisos (Dominican Republic), Araucaria, Pino Norfolk (Puerto Rico).

References: 58, 123, 131, 147, 239, 252, 323.

## ARECACEAE

Genera. Total: 40; native: 21; endemic: 2.

Taxa. Total: 165; native: 136; endemic: 121.

*Acoelorrhaphe wrightii* (Griseb. & H. Wendl.) H. Wendl. ex Becc., Webbia 2: 109. 1907; *Copernicia wrightii* Griseb. & H. Wendl., Cat. Pl. Cub. 220. 1866; *Paurotis wrightii* (Griseb. & H. Wendl.) Britton in N.L. Britton & J.A. Shafer, N. Amer. Trees 141. 1908.

*Acoelorrhaphe wrightii* (Griseb. & H. Wendl.) H. Wendl. ex Becc. f. *inermis* Hadač, Folia Geobot. Phytotax. 5: 432. 1970.

- Acoelorrhaphe wrightii* (Griseb. & H. Wendl.) H. Wendl. ex Becc. var. *novo-geronensis* Becc., Webbia 2: 113. 1907.
- Paurotis androsana* O.F. Cook, Mem. Torrey Bot. Club 12: 22. 1902.  
Distribution: Native to Bahamas, Cuba, United States (FL), Mexico, and Central America.  
Common Names: Everglades palm (Bahamas), Guano prieto, Palma prieto, Miraguano espinoso (Cuba).  
References: 3, 45, 132, 147, 150, 218.
- Acoelorrhaphe wrightii* (Griseb. & H. Wendl.) H. Wendl. ex Becc. var. *inermis* Hadač = *Acoelorrhaphe wrightii* (Griseb. & H. Wendl.) H. Wendl. ex Becc.
- Acoelorrhaphe wrightii* (Griseb. & H. Wendl.) H. Wendl. ex Becc. var. *novo-geronensis* Becc. = *Acoelorrhaphe wrightii* (Griseb. & H. Wendl.) H. Wendl. ex Becc.
- Acrista monticola* O.F. Cook = *Prestoea montana* (R. Graham) G. Nicholson
- Acrocomia aculeata* (Jacq.) Lodd. ex Mart., Hist. Nat. Palm. 3: 286. 1845; *Cocos aculeata* Jacq., Select. Stirp. Amer. Hist. 278. 1763.
- Acrocomia cubensis* Lodd. ex H. Wendl., Index Palm. 1. 1854.
- Acrocomia lasiospatha* Mart., Hist. Nat. Palm. 3: 286. 1845.
- Acrocomia pilosa* León, Mem. Soc. Cub. Hist. Nat. "Felipe Poey" 14: 52. 1940.
- Acrocomia quisqueyana* L.H. Bailey, Gentes Herb. 4: 471. 1941.
- Acrocomia spinosa* (Mill.) H.E. Moore, Gentes Herb. 9: 238. 1963.
- Acrocomia subinermis* León ex L.H. Bailey, Gentes Herb. 4: 474. 1941.
- Bactris pavoniana* Mart. in A.D. d'Orbigny, Voy. Amér. MÉR. 7(3): 70. 1844.  
Distribution: Native to Cuba, Hispaniola, Jamaica, Lesser Antilles (Barbados, Dominica, Grenada, Guadeloupe, Marie Galante, Martinique, St. Lucia), Margarita, Mexico, Central America, and South America.  
Common Names: Gru gru (Barbados), Corocho de Jamaica, Corojo, Corojo de Jamaica, Palma corajo de Jamaica (Cuba), Gru gru (Dominica), Glou glou (Dominica), Palmier dindé (Guadeloupe), Macaw palm (Lesser Antilles), Palmiste espineux (Martinique), Grou grou (Martinique).  
References: 1, 2, 3, 5, 30, 147, 320, 323.
- Acrocomia aculeata* sensu Britton & P. Wilson = *Acrocomia media* O.F. Cook
- Acrocomia crispa* (Kunth) C.F. Baker ex Becc., Pomona Coll. J. Econ. Bot. 2: 364. 1912; *Cocos crispa* Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 1: 302. 1816; *Gastrococos crispa* (Kunth) H.E. Moore, Principes 11: 121. 1968.
- Acrocomia armentalis* (Morales) L.H. Bailey & E.Z. Bailey, Hort. Sec. 22. 1941; *Gastrococos armentalis* Morales, Repert. Fis.-Nat. Isla Cuba 1: 57. 1866.  
Distribution: Endemic to Cuba.  
Common Name: Corojo (Cuba).  
References: 3, 39, 132, 147.
- Acrocomia cubensis* Lodd. ex H. Wendl. = *Acrocomia aculeata* (Jacq.) Lodd. ex Mart.
- Acrocomia lasiospatha* Mart. = *Acrocomia aculeata* (Jacq.) Lodd. ex Mart.
- Acrocomia media* O.F. Cook, Bull. Torrey Bot. Club 28: 566. 1901.
- Acrocomia aculeata* sensu Britton & P. Wilson, Sci. Surv. Porto Rico & Virgin Islands 5: 115. 1923, non Mart.
- Acrocomia sclerocarpa* sensu Bello, Anales Soc. Esp. Hist. Nat. 12: 114. 1883, non Mart.  
Distribution: Endemic to Puerto Rico and Virgin Islands (St. Thomas); cultivated in Lesser Antilles (St. Lucia).
- Common Names: Corozo, Palma de corozo (Puerto Rico).  
References: 28, 61, 131, 147, 340.
- Acrocomia pilosa* León = *Acrocomia aculeata* (Jacq.) Lodd. ex Mart.
- Acrocomia quisqueyana* L.H. Bailey = *Acrocomia aculeata* (Jacq.) Lodd. ex Mart.
- Acrocomia sclerocarpa* sensu Bello = *Acrocomia media* O.F. Cook
- Acrocomia spinosa* (Mill.) H.E. Moore = *Acrocomia aculeata* (Jacq.) Lodd. ex Mart.
- Acrocomia subinermis* León ex L.H. Bailey = *Acrocomia aculeata* (Jacq.) Lodd. ex Mart.
- Adonidia merrillii* (Becc.) Becc., Philipp. J. Sci. 14: 329. 1919; *Veitchia merrillii* (Becc.) H.E. Moore, Gentes Herb. 8: 501. 1957.  
Distribution: Widely cultivated in Hispaniola, Puerto Rico, Virgin Islands (Guana, St. Croix), and Lesser Antilles (St. Lucia); native to the Philippines.  
References: 28, 147, 230, 464.
- Aeria attenuata* O.F. Cook = *Gaussia attenuata* (O.F. Cook) Becc.
- Aiphanes acanthophylla* (Mart.) Burret, Notizbl. Bot. Gart. Berlin-Dahlem 11: 558. 1932; *Bactris acanthophylla* Mart. in A.D. d'Orbigny, Voy. Amér. MÉR. 7(3): 70. 1844; *Martinezia acanthophylla* (Mart.) Becc. in I. Urban, Symb. Antill. 8: 79. 1920.
- Bactris pavoniana* sensu Bello, Anales Soc. Esp. Hist. Nat. 12: 114. 1883, non Mart.
- Curima colophylla* O.F. Cook, Bull. Torrey Bot. Club 28: 561. 1901.  
Distribution: Endemic to Greater Antilles; native to Hispaniola and Puerto Rico.  
Common Names: Cayá, Coyo (Dominican Republic), Coyo, Coyure, Palma de coyo (Puerto Rico).  
References: 5, 7, 28, 30, 58, 61, 123, 131, 147, 218, 340.
- Aiphanes erosa* (Mart.) Burret = *Aiphanes minima* (Gaertn.) Burret
- Aiphanes horrida* (Jacq.) Burret, Notizbl. Bot. Gart. Berlin-Dahlem 11: 575. 1932.  
Distribution: Exotic in Hispaniola; native to South America.  
References: 147, 248.
- Aiphanes luciana* L.H. Bailey = *Aiphanes minima* (Gaertn.) Burret
- Aiphanes minima* (Gaertn.) Burret, Notizbl. Bot. Gart. Berlin-Dahlem 11: 558. 1932; *Bactris minima* Gaertn., Fruct. Sem. Pl. 2: 269. 1791.
- Aiphanes erosa* (Mart.) Burret, Notizbl. Bot. Gart. Berlin-Dahlem 11: 558. 1932.
- Aiphanes luciana* L.H. Bailey, Gentes Herb. 8: 166. 1949.
- Aiphanes vincentiana* L.H. Bailey, Gentes Herb. 8: 170. 1949.  
Distribution: Endemic to Lesser Antilles (Barbados, St. Lucia).  
References: 1, 28, 147.
- Aiphanes vincentiana* L.H. Bailey = *Aiphanes minima* (Gaertn.) Burret
- Archontophoenix alexandrae* (F.Muell.) H.Wendl. & Drude, Linnaea 39: 212. 1875.  
Distribution: Exotic in Hispaniola; native to Australia.  
References: 147, 248.
- Areca catechu* L., Sp. Pl. 1189. 1753.  
Distribution: Exotic in Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Thomas), Lesser Antilles, and North America. Cultigen from Malesia.  
References: 1, 2, 28, 61, 147.
- Attalea crassispata* (Mart.) Burret, Kongl. Svenska Vetensk. Acad. Handl., ser. 3, 6(7): 23. 1929; *Maximiliana crassispata* Mart. in A.D. d'Orbigny, Voy. Amér. MÉR. 7(3): 110. 1844.  
Distribution: Endemic to Hispaniola (Haiti).

References: 30, 147, 248, 427.

Note: Considered critically endangered by the IUCN Red List of Threatened Species.

*Bactris acanthophylla* Mart. = *Aiphanes acanthophylla* (Mart.) Burret

*Bactris chaetophylla* Mart. = *Bactris plumeriana* Mart. in A.D. d'Orbigny

*Bactris cubensis* Burret, Kongl. Svenska Vetensk. Acad. Handl., ser. 3, 6 (7): 25. 1929.

Distribution: Endemic to Cuba.

Common Names: Coco macaco, Pajicá, Pajúa, Pajucá, Palmilla (Cuba).

References: 3, 132, 147.

*Bactris jamaicana* L.H. Bailey, Gentes Herb. 4: 177. 1938.

Distribution: Endemic to Jamaica.

Common Name: Prickly pole (Jamaica).

References: 2, 147, 427.

Note: Considered vulnerable by the IUCN Red List of Threatened Species.

*Bactris minima* Gaertn. = *Aiphanes minima* (Gaertn.) Burret

*Bactris pavoniana* Mart. = *Acrocomia aculeata* (Jacq.) Lodd. ex Mart.

*Bactris pavoniana* sensu Bello = *Aiphanes acanthophylla* (Mart.) Burret

*Bactris plumeriana* Mart. in A.D. d'Orbigny, Voy. Amer. Mer. 7(3): 64. 1844.

*Bactris chaetophylla* Mart. in A.D. d'Orbigny, Voy. Amer. Mer. 7(3): 71. 1844.

Distribution: Endemic to Hispaniola.

Common Names: Catey, Palma de catey (Dominican Republic), Coco macaque, Petit-cro-cro, Ti cro-cro (Haiti).

References: 5, 123, 147, 218.

*Calyptrogyne plumeriana* (Mart.) Roncal, Palms (1999+) 49: 149.

2005; *Geonoma plumeriana* Mart. in A.D. d'Orbigny, Voy. Amér.

Mér. 7(3): 34. 1843; *Calyptronoma plumeriana* (Mart.) Lourteig,

Phytologia 65: 484. 1989.

*Calyptrogyne clementis* León, Contr. Ocas. Mus. Hist. Nat. Colegio "De La Salle" 3: 11. 1944.

*Calyptrogyne dulcis* (C. Wright ex Griseb.) M. Gómez, Dicc. Bot. Nombres Vulg. Cub. Puerto-Riq. 50. 1889; *Geonoma dulcis* C. Wright ex Griseb., Cat. Pl. Cub. 222. 1866; *Calyptronoma*

*dulcis* (C. Wright ex Griseb.) H. Wendl. in O.C.E. de Kerchove de Denterghem, Palmiers: 238. 1878.

*Calyptrogyne intermedia* M. Gómez, Noc. Bot. Sist. 50. 1893.

*Calyptrogyne microcarpa* León, Contr. Ocas. Mus. Hist. Nat. Colegio "De La Salle" 3: 10. 1944.

*Calyptronoma clementis* (León) A.D. Hawkes subsp. *orientensis* O. Muñiz & Borhidi, Acta Bot. Acad. Sci. Hung. 28: 342. 1982.

*Geonoma intermedia* (H. Wendl.) B.S. Williams, Cat. 1882: 27. 1882. Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.

Common Names: Palma justa, Palma manaca (Cuba).

References: 3, 124, 132, 147, 320.

*Calyptrogyne rivalis* (O.F. Cook) León, Contr. Ocas. Mus. Hist. Nat. Colegio "De La Salle" 3: 12. 1944; *Cocops rivalis* O.F. Cook, Bull. Torrey Bot. Club 28: 568. 1901; *Calyptronoma rivalis* (O.F. Cook) L.H. Bailey, Gentes Herb. 4: 171. 1938.

*Calyptrogyne occidentalis* sensu Britton & P. Wilson, Sci. Surv. Porto Rico & Virgin Islands 5: 113. 1923, non (Sw.) M. Gómez.

*Calyptronoma quisqueyana* L.H. Bailey, Gentes Herb. 4. 169. 1938.

Distribution: Endemic to Greater Antilles; native to Hispaniola and Puerto Rico.

References: 28, 33, 61, 147, 152, 218, 633.

Note: Considered a threatened species by the U.S. Fish & Wildlife Service.

*Calyptrogyne victorinii* León = *Calyptrogyne occidentalis* (Sw.) M. Gómez

*Calyptronoma clementis* (León) A.D. Hawkes subsp. *orientensis* O. Muñiz & Borhidi = *Calyptrogyne plumeriana* (Mart.) Roncal

*Calyptronoma swartzii* Griseb. = *Calyptrogyne occidentalis* (Sw.) M. Gómez

*Caryota mitis* Lour., Fl. Cochinch. 2: 697. 1790.

Distribution: Cultivated in Hispaniola and Puerto Rico; native to Asia and Malesia.

References: 5, 61, 147, 150, 248.

*Caryota urens* L., Sp. Pl. 1189. 1753.

Distribution: Cultivated in Cuba, Hispaniola, and Puerto Rico; native to Asia and Malesia.

Common Names: Cariota, Cariota sin espinas, Cocollol, Escariota, Martinezia, Palma africana, Palma caña de India, Palma corajo del Orinoco (Cuba), Cola de pescado (Dominican Republic), Caryota (Puerto Rico).

References: 5, 61, 123, 131, 132, 147, 150.

*Chamaerops antillarum* Descourt. = *Zombia antillarum* (Descourt.) L.H. Bailey

*Chamaerops humilis* L., Sp. Pl. 1187. 1753.

Distribution: Exotic in Hispaniola; native to southern Europe.

References: 147, 248.

*Chrysalidocarpus glaucescens* Waby = *Dypsis lutescens* (H. Wendl.) Beentje & J. Dransf.

*Chrysalidocarpus lutescens* (Bory) H. Wendl. = *Dypsis lutescens* (H. Wendl.) Beentje & J. Dransf.

- Coccothrinax acuminata* (Sarg.) Becc. = *Coccothrinax miraguama* (Kunth) Becc. var. *miraguama*
- Coccothrinax acunana* León, Mem. Soc. Cub. Hist. Nat. "Felipe Poey" 13: 128. 1939.  
Distribution: Endemic to Cuba.  
References: 3, 39, 147.  
Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).
- Coccothrinax alexandri* León, Mem. Soc. Cub. Hist. Nat. "Felipe Poey" 13: 122. 1939, var. *alexandri*  
Distribution: Endemic to Cuba.  
Common Names: Palma yuraguano, Yuraguana, Yuraguano (Cuba).  
References: 3, 39, 132, 147, 320.  
Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).

*Sabal umbraculifera* sensu Bello, Anales Soc. Esp. Hist. Nat. 12: 114. 1883, non Mart.  
Distribution: Endemic to Greater Antilles; native to Hispaniola, Puerto Rico, and Virgin Islands (Anegada, Guana, St. Croix, Tortola, Virgin Gorda); cultivated in the Lesser Antilles (St. Lucia) and elsewhere.  
Common Names: Cana, Palma cana (Dominican Republic), Latanier chepeau (Haiti), Plama de escoba, Palma de sombrero, Yaray, Yarey (Puerto Rico).  
References: 1, 19, 28, 30, 34, 61, 123, 131, 147, 156, 340.
- Sabal domingensis* Becc., Webbia 2: 49. 1907.  
*Sabal neglecta* Becc., Webbia 2: 40. 1907.  
Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.  
Common Names: Cana, Palma cana (Dominican Republic), Latanier chepeau (Haiti).  
References: 5, 123, 147.
- Sabal florida* Becc. = *Sabal maritima* (Kunth) Burret
- Sabal haitensis* Becc. = *Sabal causiarum* (O.F. Cook) Becc.
- Sabal jamaicensis* Becc. = *Sabal maritima* (Kunth) Burret
- Sabal maritima* (Kunth) Burret, Repert. Spec. Nov. Regni Veg. 32: 101. 1933; *Corypha maritima* Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. 1: 298. 1816.  
*Sabal florida* Becc., Webbia 2: 46. 1907.  
*Sabal jamaicensis* Becc., Repert. Spec. Nov. Regni Veg. 6: 94. 1908.  
Distribution: Endemic to Greater Antilles; native to Cuba and Jamaica.  
Common names: Guano blanco, Guana cana, guano rabo de cote, palma, palma cana, palmeto (Cuba), Bull tatch (Jamaica).  
References: 2, 3, 34, 147.
- Sabal neglecta* Becc. = *Sabal domingensis* Becc.
- Sabal palmetto* (Walter) Lodd. ex Schult. & Schult. f. in J.J. Roemer & J.A. Schultes, Syst. Veg. 7: 1487. 1830; *Corypha palmetto* Walter, Fl. Carol. 119. 1788.  
*Sabal bahamensis* (Becc.) L.H. Bailey, Gentes Herb. 6: 417. 1944.  
*Sabal parviflora* Becc., Webbia 2: 43. 1907.  
Distribution: Native to Bahamas, Cuba, and southeastern United States.  
Common Names: Hat palmetto, Pond thatch, Pond-top (Bahamas), Palmeto (Cuba).  
References: 3, 34, 45, 147.
- Sabal parviflora* Becc. = *Sabal palmetto* (Walter) Lodd. ex Schult. & Schult. f.

*Thrinax morrisii* H. Wendl., Gard. Chron., ser. 3, 11: 104. 1892.

*Thrinax bahamensis* O.F. Cook, Mem. Torrey Bot. Club 12: 20. 1902.

*Thrinax drudei* Becc., Webbia 2: 269. 1907.

*Thrinax ekmanii* Burret, Kongl. Svenska Vetensk. Acad. Handl., ser. 3, 6(7): 27. 1929.

*Thrinax microcarpa* Sarg., Gard. & Forest 9: 162. 1896.

*Thrinax ponceana* O.F. Cook, Bull. Torrey Bot. Club 28: 536. 1901.

*Thrinax praeceps* O.F. Cook, Bull. Torrey Bot. Club 28: 536. 1901.

*Thrinax punctulata* Becc., Webbia 2: 280. 1907.

Distribution: Native to Bahamas, Cuba, Hispaniola, Puerto Rico, Virgin Islands (Anegada), Lesser Antilles (Anguilla, Barbuda), and United States (FL).

Common Names: Broom palm (Anguilla), Buffalo-top, Pimetta, Small-fruited thatch-palm (Barbuda), Palma de escoba, Pandereta (Puerto Rico).

References: 1, 3, 5, 28, 45, 61, 147, 150.

*Thrinax multiflora* Mart. = *Coccothrinax argentea* (Lodd. ex Schult. & Schult. f.) Sarg. ex Becc.

*Thrinax parviflora* Sw., Prodr. 57. 1788, subsp. *parviflora*

*Thrinax harrisiana* Becc., Repert. Spec. Nov. Regni Veg. 6: 94. 1908.

*Thrinax tessellata* Becc., Webbia 2: 271. 1908.

Distribution: Endemic to Jamaica.

Common Names: Thatch pole, Broom thatch (Jamaica).

References: 2, 30, 147.

*Thrinax parviflora* Sw. subsp. *puberula* Read, Smithsonian Contr. Bot. 19: 76. 1975.

Distribution: Endemic to Jamaica.

References: 2, 147.

*Thrinax parviflora* sensu Britton & Millsp. = *Thrinax radiata* Lodd. ex Schult. & Schult. f.

*Thrinax ponceana* O.F. Cook = *Thrinax morrisii* H. Wendl.

*Veitchia merrillii* (Becc.) H.E. Moore = *Adonidia merrillii* (Becc.) Becc.

*Washingtonia filifera* (Linden ex André) H. Wendl. ex de Bary, Bot. Zeitung (Berlin) 37: 68. 1879.

Distribution: Cultivated in Hispaniola, Puerto Rico, and Virgin Islands (St. Croix); native to the western United States and Mexico.

Common Names: Washingtonia (Cuba), Latanier d'Afrique (Haiti), Palma de abanico, Palma del desierto (Puerto Rico).

References: 28, 147, 248.

\**Zombia antillarum* (Descourt.) L.H. Bailey, Gentes Herb. 4: 242. 1939; *Chamaerops antillarum* Descourt., Fl. Méd. Antilles 1: t. 28. 1821.

*Coccothrinax anomala* Becc., Repert. Spec. Nov. Regni Veg. 6: 95. 1908.

*Zombia antillarum* (Descourt.) L.H. Bailey var. *gonzalezii* J. Jimenez Alm., Rhodora 62: 236. 1960.

Distribution: Endemic to Hispaniola.

Common Names: Guaney, Guamey, Guanillo, Guanillo espinoso (Dominican Republic), Latanier Zombi (Haiti).

References: 5, 147, 152.

## ARISTOLOCHIACEAE

**Genera.** Total: 1; native: 1; endemic: 0.

**Taxa.** Total: 39; native: 32; endemic: 27.

*Aristolochia anguicida* Jacq., Enum. Syst. Pl. 30. 1760.

Distribution: Exotic in Puerto Rico, Virgin Islands (St. Croix, St. Thomas), and Lesser Antilles (Martinique); native to Mexico, Central America, and South America.

Common Name: Liane doux (Lesser Antilles).

References: 1, 32, 35, 61, 151, 344.

*Aristolochia appendiculata* Vell. = *Aristolochia trilobata* L.

- Aristolochia baracoensis* R. Rankin, Revista Jard. Bot. Nac. Univ. Habana 10(2): 203. 1990.  
Distribution: Endemic to Cuba.  
References: 39, 133.  
Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39).
- Aristolochia bilabiata* L., Sp. Pl., ed. 2, 1361. 1763; *Howardia bilabiata* (L.) Klotzsch, Monatsber. Königl. Preuss. Akad. Wiss. Berlin 1859. 611. 1859.  
*Aristolochia chasmema* Pfeiff., Ann. Missouri Bot. Gard. 53: 198. 1966.  
Distribution: Endemic to Hispaniola.  
Common Names: Bejuco de jengibre, Jengibrillo (Dominican Republic), Liane jambe-pieds (Haiti).  
References: 7, 32, 58, 133, 344.
- Aristolochia bilabiata* L. subsp. *maestrensis* R. Rankin = *Aristolochia oblongata* Jacq. subsp. *maestrensis* (R. Rankin) Acev.-Rodr.
- Aristolochia bilabiata* sensu Pfeiff. = *Aristolochia oblongata* Jacq. subsp. *oblongata*
- Aristolochia bilobata* L., Sp. Pl. 960. 1753.  
Distribution: Endemic to Hispaniola.  
Common Names: Bejuco calón, Bejuco calzón, Bejuco corazón (Dominican Republic), Brisiette, Bristol (Haiti).  
References: 5, 7.
- Aristolochia brachyura* Duchesne = *Aristolochia ehrenbergiana* Cham.
- Aristolochia caudata* Jacq., Enum. Syst. Pl. 30. 1760.  
Distribution: Endemic to Hispaniola.  
References: 5, 7, 344.
- Aristolochia chasmema* Pfeiff. = *Aristolochia bilabiata* L.
- Aristolochia clavidenia* C. Wright ex Griseb., Cat. Pl. Cub. 115. 1866.  
Distribution: Endemic to Cuba.  
References: 3, 39, 133, 156, 344.  
Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39).
- Aristolochia clementis* Alain, Revista Soc. Cub. Bot. 5: 80. 1948.  
Distribution: Endemic to Cuba.  
References: 3, 39, 133, 156.  
Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39).
- Aristolochia constricta* Griseb., Abh. Königl. Ges. Wiss. Göttingen 7: 225. 1857.  
Distribution: Disjunct between Lesser Antilles (Guadeloupe, St. Lucia) and Central America.  
Common Name: Liane amère (Lesser Antilles).  
References: 1, 344, 344.
- Aristolochia cyclobilia* Duchesne = *Aristolochia passiflorifolia* A. Rich.
- Aristolochia x domingensis* Ekman & O.C. Schmidt, Notizbl. Bot. Gart. Berlin-Dahlem 12: 393. 1935.  
Distribution: A hybrid between *A. labiata* Willd. and *A. trilobata* L., reported for Brazil (artificial), Kew Botanic Gardens and Hispaniola.  
Common Name: Gallito (Dominican Republic).  
References: 7, 149, 344, 569.
- Aristolochia ehrenbergiana* Cham., Linnaea 7: 210. 1832.  
*Aristolochia brachyura* Duchesne in A.L.P.P. de Candolle, Prodr. 15 (1): 446. 1864.  
Distribution: Endemic to Hispaniola.  
References: 5, 7, 344.
- Aristolochia ekmanii* O.C. Schmidt, Ark. Bot. 21A(5): 1. 1927.  
Distribution: Endemic to Hispaniola.  
References: 5, 7, 344.
- Aristolochia elegans* Mast., Gard. Chron., ser. 2, 24: 301. 1885.  
*Aristolochia littoralis* sensu Pfeiffer, Anales Soc. Ci. Argent. 5: 155. 1878, non Parodi.  
Distribution: Exotic in Cuba, Hispaniola, Puerto Rico, Virgin Islands (St. Croix, St. John, Tortola), Lesser Antilles (Antigua, Barbuda, Guadeloupe, St. Kitts), and United States (FL); native to South America.  
Common Names: Flor del pato, Patico (Cuba), Flor de cisne, Flor de pato, Patico, Pato (Dominican Republic), Fleur cygne (Haiti), Duck vine (Lesser Antilles).  
References: 1, 2, 3, 5, 6, 7, 19, 32, 58, 123, 133, 150, 159, 224.  
Note: Considered an invasive species by CeNBIO.
- Aristolochia elliptica* Duchesne = *Aristolochia tigrina* A. Rich.
- Aristolochia fuertesii* Urb. = *Aristolochia punctata* Lam.
- Aristolochia glandulosa* J. Kickx f., Bull. Acad. Roy. Sci. Bruxelles 6 (2): 453. 1839.  
Distribution: Endemic to Cuba.  
References: 3, 133, 344.
- Aristolochia grandiflora* Sw., Prodr. 126. 1788.  
Distribution: Exotic in Cuba, Jamaica, Puerto Rico, Virgin Islands, Lesser Antilles (Martinique), and Trinidad; native to Mexico and Central America.  
Common Names: Poisoned hog meat (Jamaica), Callitos, Panitos, Pelicano (Puerto Rico).  
References: 1, 2, 3, 32, 35, 61, 131, 159, 301, 344.
- Aristolochia grandiflora* Vahl = *Aristolochia ringens* Vahl
- Aristolochia haitiensis* Ekman & O.C. Schmidt, Repert. Spec. Nov. Regni Veg. 27: 101. 1929.  
Distribution: Endemic to Hispaniola (Haiti).  
References: 7, 344.
- Aristolochia hastata* Kunth = *Aristolochia pentandra* Jacq.
- Aristolochia labiata* Willd., Mém. Soc. Nat. Mosc. 2: 101. 1809.  
Distribution: Exotic in Hispaniola; native to Brazil.  
References: 7, 159.
- Aristolochia leptosticta* Urb., Symb. Antill. 7: 206. 1912.  
Distribution: Endemic to Hispaniola.  
References: 5, 7, 30.
- Aristolochia lindeniana* Duchesne in A.L.P.P. de Candolle, Prodr. 15 (1): 453. 1864, var. *lindeniana*
- Aristolochia lindeniana* Duchesne var. *plagiophylla* Griseb., Cat. Pl. Cub. 115. 1866.  
Distribution: Endemic to Cuba.  
References: 3, 39, 133, 156, 344.  
Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39).
- Aristolochia lindeniana* Duchesne var. *bissei* R. Rankin, Stud. Bot. Univ. Salamanca 12: 244. 1994.  
Distribution: Endemic to Cuba.  
Reference: 133.
- Aristolochia lindeniana* Duchesne var. *plagiophylla* Griseb. = *Aristolochia lindeniana* Duchesne var. *lindeniana* in A.L.P.P. de Candolle
- Aristolochia linearifolia* C. Wright ex Griseb., Cat. Pl. Cub. 115. 1866.  
*Aristolochia stenophylla* Urb., Symb. Antill. 3: 281. 1902.  
Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.  
Common Name: Colique (Haiti).  
References: 3, 5, 7, 30, 39, 133, 244, 156, 344.  
Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39).

*Aristolochia littoralis* sensu Pfeifer = *Aristolochia elegans* Mast.

*Aristolochia maxima* Jacq., Enum. Syst. Pl. 30. 1760.

Distribution: Disjunct between Lesser Antilles (Martinique) and Mexico and Central America; exotic in the United States (FL).

References: 1, 150, 344.

*Aristolochia mirandae* L. Marión, Moscosoa 12: 18. 2002 ["2001"].

Distribution: Endemic to Hispaniola.

Reference: 149.

*Aristolochia montana* Ekman & O.C. Schmidt, Repert. Spec. Nov. Regni Veg. 29: 11. 1931.

Distribution: Endemic to Hispaniola (Dominican Republic).

References: 7, 344.

*Aristolochia oblongata* Jacq., Pl. Rar. Hort. Schoenbr. 2: 29. 1797, subsp. *oblongata*

*Aristolochia bilabiata* sensu Pfeiff., Ann. Missouri Bot. Gard. 53: 171. 1966., non L.

Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.

References: 3, 5, 133, 151, 159, 344.

*Aristolochia oblongata* Jacq. subsp. *calceiformis* (Urb.) R. Rankin & Acev.-Rodr., Contr. U.S. Natl. Herb. 51: 70. 2005; *Aristolochia calceiformis* Urb., Symb. Antill. 1: 300. 1899.

*Diglosselis trinervis* Raf., Fl. Tellur. 4: 98. 1838.

Distribution: Endemic to Greater Antilles; native to Cuba, Hispaniola, and Puerto Rico.

References: 3, 5, 6, 7, 30, 32, 35, 61, 133.

*Aristolochia oblongata* Jacq. subsp. *maestrensis* (R. Rankin) Acev.-Rodr., *comb. nov.*; *Aristolochia bilabiata* L. subsp. *maestrensis* R. Rankin, Revista Jard. Bot. Nac. Univ. Habana 13: 49. 1995 ["1992"].

Distribution: Endemic to Cuba.

Reference: 133.

*Aristolochia obtusata* Sw. = *Aristolochia rugosa* Lam.

*Aristolochia odoratissima* L., Sp. Pl., ed. 2, 1362. 1763.

Distribution: Exotic in Jamaica, Virgin Islands (St. John), and Lesser Antilles (Barbados, Guadeloupe, Martinique, Saba); native to Mexico, Central America, and South America.

Common Names: Duck, Swan (Lesser Antilles).

References: 1, 2, 19, 28, 32, 35, 61, 159, 344.

*Aristolochia ophioides* L. Marión, Moscosoa 11: 3. 2000.

Distribution: Endemic to Hispaniola.

Reference: 149.

*Aristolochia passiflorifolia* A. Rich. in R. de la Sagra, Hist. Fis. Cuba, Bot. 11: 195. 1850.

*Aristolochia cyclochilia* Duchesne, Ann. Sci. Nat. Bot., sér. 4, 2: 45. 1854.

*Aristolochia spathulata* Duchesne, Prodr. 15 (1): 448. 1864.

Distribution: Endemic to West Indies; native to Bahamas and Cuba.

References: 3, 9, 45, 133, 344.

*Aristolochia peltata* L., Sp. Pl. 960. 1753.

Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola; reported for Virgin Islands (St. Thomas) by Pfeifer 1966.

References: 3, 5, 7, 39, 133, 344.

Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39).

*Aristolochia pentandra* Jacq., Enum. Syst. Pl. 30. 1760; *Einomeia pentandra* (Jacq.) Klotzsch, Monatsber. Königl. Preuss. Akad. Wiss. Berlin 1859. 605. 1859.

*Aristolochia hastata* Kunth in F.W.H.A. von Humboldt, A.J.A.

Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 2: 148. 1817;

*Einomeia hastata* (Kunth) Klotzsch, Monatsber. Königl. Preuss. Akad. Wiss. Berlin 1859. 625. 1859.

Distribution: Native to Bahamas, Cuba, Jamaica, United States (FL, state endangered), and Mexico.

Common Names: Coastal aristolochia, Pitcher-plant (Bahamas).

References: 2, 3, 39, 45, 133, 150.

Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).

*Aristolochia punctata* Lam., Encycl. 1: 253. 1783.

*Aristolochia fuertesii* Urb., Symb. Antill. 7: 207. 1912.

Distribution: Endemic to Hispaniola.

References: 5, 7, 30, 344.

*Aristolochia ringens* Vahl, Symb. Bot. 3: 99. 1794; *Howardia ringens* (Vahl) Klotzsch, Monatsber. Königl. Preuss. Akad. Wiss. Berlin 1859. 607. 1859.

*Aristolochia grandiflora* Vahl, Symb. Bot. 2: 94. 1791.

Distribution: Exotic in Cuba, Hispaniola, Jamaica, Puerto Rico, Lesser Antilles (Guadeloupe), Margarita, and United States (FL); native to South America.

Common Names: Gallito, Patico (Dominican Republic), Dutchman's pipe (Jamaica).

References: 1, 2, 6, 7, 28, 32, 58, 123, 133, 150, 224, 252, 323, 344.

Note: Considered an invasive species by CeNBIO.

*Aristolochia rugosa* Lam., Encycl. 1: 252. 1783.

*Aristolochia obtusata* Sw., Prodr. 126. 1788.

Distribution: Native to Lesser Antilles (Antigua, Guadeloupe, Martinique, St. Vincent), Trinidad, and South America.

Common Names: Liane fer à cheval, Marque-en-coïn, Tref, Twef (Lesser Antilles).

References: 1, 301, 344.

*Aristolochia samanensis* O.C. Schmidt, Notizbl. Bot. Gart. Berlin-Dahlem 12: 393. 1935.

Distribution: Endemic to Hispaniola (Dominican Republic).

References: 7, 344.

*Aristolochia schottii* L. Marión, Moscosoa 11: 2. 2000.

Distribution: Endemic to Hispaniola.

Reference: 149.

*Aristolochia spathulata* Duchesne = *Aristolochia passiflorifolia* A. Rich.

*Aristolochia stenophylla* Urb. = *Aristolochia linearifolia* C. Wright ex Griseb.

*Aristolochia tigrina* A. Rich. in R. de la Sagra, Hist. Fis. Cuba, Bot. 11: 194. 1850.

*Aristolochia elliptica* Duchesne, Ann. Sci. Nat. Bot., sér. 4, 2: 51. 1854.

Distribution: Endemic to Cuba.

References: 3, 133, 344.

*Aristolochia trichostoma* Griseb., Pl. Wright. 1: 190. 1860.

Distribution: Endemic to Cuba.

References: 3, 133.

*Aristolochia trifida* Lam. = *Aristolochia trilobata* L.

*Aristolochia trilobata* L., Sp. Pl. 960. 1753; *Howardia trilobata* (L.) Klotzsch, Monatsber. Königl. Preuss. Akad. Wiss. Berlin 1859. 617. 1859.

*Aristolochia appendiculata* Vell., Fl. Flumin. Icon 9: t. 98. 1831 ["1827"].

*Aristolochia trifida* Lam., Encycl. 1: 251. 1783.

*Aristolochia trilobata* Salisb., Prodr. Stirp. Chap. Allerton 214. 1796, *nom. illeg.*

Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas, Tortola), Lesser Antilles (Antigua, Barbados, Dominica, Guadeloupe, Marie Galante,

Martinique, St. Lucia, St. Martin, St. Vincent), Tobago, Trinidad, Central America, and South America.

Common Names: Bejuco amargo (Cuba), Gallito (Dominican Republic), Liana couresse, Pipe végétale, Tref, Tréfle caraïbe (Lesser Antilles), Bejuco de Santiago, Cachimbo, Gallitos (Puerto Rico).

References: 1, 2, 3, 5, 6, 7, 19, 28, 32, 58, 61, 123, 131, 133, 151, 152, 301, 340, 344.

*Aristolochia trilobata* Salisb. = *Aristolochia trilobata* L.

*Diglosselis trinervis* Raf. = *Aristolochia oblongata* Jacq. subsp. *calceiformis* (Urb.) R. Rankin & Acev.-Rodr.

*Einomeia hastata* (Kunth) Klotzsch = *Aristolochia pentandra* Jacq.

*Einomeia pentandra* (Jacq.) Klotzsch = *Aristolochia pentandra* Jacq.

*Howardia ringens* (Vahl) Klotzsch = *Aristolochia ringens* Vahl

#### EXCLUDED NAME

*Aristolochia cubensis* Linden, Cat. Général 11(Suppl.): 12. 1856.

Reference: 152.

A nomen nudum with unknown application for a putative Cuban species.

## ASPARAGACEAE

**Genera.** Total: 9; native: 3; endemic: 0.

**Taxa.** Total: 64; native: 39; endemic: 38.

*Agave acicularis* Trel., Mem. Natl. Acad. Sci. 11: 34. 1913.

Distribution: Endemic to Cuba.

References: 3, 39, 147.

Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).

*Agave acklinicola* Trel., Mem. Natl. Acad. Sci. 11: 41. 1913.

Distribution: Endemic to Bahamas.

References: 45, 147.

*Agave albescens* Trel., Mem. Natl. Acad. Sci. 11: 44. 1913.

Distribution: Endemic to Cuba.

References: 3, 147.

*Agave americana* L., Sp. Pl. 323. 1753.

Distribution: Exotic in Cayman Islands, Cuba, Hispaniola, Puerto Rico, Virgin Islands (St. John, St. Thomas, Virgin Gorda), and Lesser Antilles (Antigua, Guadeloupe, Martinique); native to southern United States and Mexico.

Common Names: Maguey (Cuba), Maguey (Dominican Republic), Agave, Henequén, Maguey, Pita (Puerto Rico), Century plant (Virgin Islands).

References: 1, 4, 28, 123, 131, 132, 147, 282, 295.

*Agave angustifolia* Haw. = *Agave vivipara* L.

*Agave anomala* Trel., Mem. Natl. Acad. Sci. 11: 36. 1913.

Distribution: Endemic to West Indies; native to Bahamas and Cuba.

References: 3, 45, 147.

*Agave antillarum* Descourt., Fl. Méd. Antilles 4: 239. 1827, var. *antillanum*

Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.

Common Names: Maguey, Karatas (Dominican Republic).

References: 3, 5, 147.

*Agave antillarum* Descourt. var. *grammontensis* Trel., Repert. Spec. Nov. Regni Veg. 23: 362. 1927.

Distribution: Endemic to Hispaniola.

Reference: 147.

*Agave bahamana* Trel., Mem. Natl. Acad. Sci. 11: 40. 1913.

Distribution: Endemic to Bahamas.

References: 45, 147.

*Agave barbadensis* Trel. = *Agave karatto* Mill.

*Agave beauleriana* Jacobi, Abh. Schles. Ges. Vaterl. Cult., Abth. Naturwiss. 1869: 50. 1869.

Distribution: Exotic in Virgin Islands (Guana) and Lesser Antilles (Grenada, Saba, St. Martin). Probably native to Mexico.

References: 1, 28, 147, 237.

*Agave braceana* Trel., Mem. Natl. Acad. Sci. 11: 40. 1913.

Distribution: Endemic to Bahamas.

References: 45, 147.

*Agave brevipetala* Trel., Repert. Spec. Nov. Regni Veg. 23: 362. 1927.

Distribution: Endemic to Hispaniola.

Common Name: Maguey (Dominican Republic).

References: 5, 147.

*Agave brevispina* Trel., Repert. Spec. Nov. Regni Veg. 23: 363. 1927.

Distribution: Endemic to Hispaniola.

Common Names: Agave, Galatas, Galata, Karatas, Maguey, Magüey (Dominican Republic).

References: 5, 147.

*Agave brittoniana* Trel., Mem. Natl. Acad. Sci. 11: 44. 1913.

*Agave brittoniana* Trel. subsp. *brachypus* (Trel.) A. Álvarez, Fontqueria 44: 121. 1996; *Agave brittoniana* Trel. var. *brachypus* Trel., Mem. Natl. Acad. Sci. 11: 45. 1913.

*Agave brittoniana* Trel. subsp. *sancti-spirituensis* A. Álvarez, Fontqueria 44: 125. 1996.

Distribution: Endemic to Cuba.

References: 3, 147, 151.

*Agave brittoniana* Trel. subsp. *brachypus* (Trel.) A. Álvarez = *Agave brittoniana* Trel.

*Agave brittoniana* Trel. subsp. *sancti-spirituensis* A. Álvarez = *Agave brittoniana* Trel.

*Agave cacozela* Trel., Mem. Natl. Acad. Sci. 11: 41. 1913.

Distribution: Endemic to Bahamas.

References: 45, 147.

*Agave cajalbanensis* A. Álvarez, Revista Jard. Bot. Nac. Univ. Habana 1(2-3): 34. 1981 ["1980"].

Distribution: Endemic to Cuba.

References: 39, 147.

Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).

*Agave campanulata* Sessé & Moc. = *Furcraea tuberosa* W.T. Aiton

*Agave caribaea* Baker = *Agave caribaeicola* Trel.

*Agave caribaeicola* Trel., Mem. Natl. Acad. Sci. 11: 27. 1913.

*Agave caribaea* Baker, Gard. Chron., n.s., 1879: 683. 1879, *nom. illeg.*

*Agave grenadina* Trel., Mem. Natl. Acad. Sci. 11: 25. 1913.

*Agave medioxima* Trel., Mem. Natl. Acad. Sci. 11: 24. 1913.

*Agave unguiculata* Trel., Mem. Natl. Acad. Sci. 11: 29. 1913.

*Agave ventum-versa* Trel., Mem. Natl. Acad. Sci. 11: 29. 1913.

Distribution: Endemic to Lesser Antilles (Dominica, Grenada, Grenadines, Martinique, St. Lucia, St. Vincent).

Common Names: Langue boeuf, Lapitte (Lesser Antilles).

References: 1, 147.

*Agave cubensis* Jacq. = *Furcraea hexapetala* (Jacq.) Urb.

*Agave dussiana* Trel. = *Agave karatto* Mill.

*Agave eggersiana* Trel., Mem. Natl. Acad. Sci. 11: 28. 1913.

Distribution: Endemic to Virgin Islands (St. Croix, St. Thomas).

References: 19, 28, 147.

- Agave ehrenbergii* Jacobi, Hamburger Garten-Blumenzeitung 21: 255. 1865.  
*Agave legrelliana* Jacobi, Hamburger Garten-Blumenzeitung 22: 266. 1866.  
 Distribution: Endemic to Cuba.  
 References: 3, 147.
- Agave ekmanii* Trel. = *Agave tubulata* Trel.
- Agave fourcroydes* Lem., Ill. Hort. 11: 66. 1864.

*Agave tubulata* Trel. subsp. *brevituba* A. Álvarez, Revista Jard. Bot. Nac. Univ. Habana 5(3): 7. 1984.

Distribution: Endemic to Cuba.

References: 3, 147.

*Agave tubulata* Trel. subsp. *brevituba* A. Álvarez = *Agave tubulata* Trel.

*Agave underwoodii* Trel., Mem. Natl. Acad. Sci. 11: 37. 1913.

Distribution: Endemic to Cuba.

References: 3, 147.

*Agave unguiculata* Trel. = *Agave caribaeicola* Trel.

*Agave vangrolae* Trel. = *Agave karatto* Mill.

*Agave ventumversa* Trel. = *Agave caribaeicola* Trel.

*Agave vivipara* L., Sp. Pl. 323. 1753.

*Agave angustifolia* Haw., Syn. Pl. Succ. 72. 1812.

*Agave lespinassei* Trel., Trans. Acad. Sci. St. Louis 18: 33. 1909.

*Agave zapupe* Trel., Trans. Acad. Sci. St. Louis 18: 32. 1909.

Distribution: Exotic in Cuba, Puerto Rico, Virgin Islands (Guana), Lesser Antilles (Barbados, St. Martin), Aruba, Bonaire, Curaçao, and Margarita; native to Mexico, Central America, and South America (Ecuador).

Common Names: Zapupe vincent (Cuba).

References: 3, 28, 132, 147, 150, 237, 252, 323.

*Agave willdingii* Tod., Hort. Bot. Panorm. 2: t. 32. 1886.

Distribution: Endemic to Cuba.

References: 3, 147.

*Agave zapupe* Trel. = *Agave vivipara* L.

*Asparagus aethiopicus* L., Mant. Pl. 1: 63. 1770.

*Asparagus densiflorus* sensu authors, non (Kunth) Jessop.

*Asparagus sprengeri* Regel., Trudy Imp. S.-Peterburgsk. Bot. Sada 11: 302. 1890.

Distribution: Cultivated in Bahamas, Cuba, Hispaniola, Puerto Rico, Virgin Islands (Guana, St. Croix), Lesser Antilles (Guadeloupe, St. Lucia, St. Martin), and Margarita; native to South Africa.

Common Names: Cabellera de la reina, Canastillo (cv. "Sprengeri"), Espárrago de jardín (cv. "Sprengeri"), Garden asparagus (cv. "Sprengeri") (Cuba), Espárrago, Esparraguito, Pluma de cotorra (Dominican Republic), Sprengeri (Lesser Antilles).

References: 1, 28, 45, 132, 147, 230, 237, 252, 323, 383.

*Asparagus densiflorus* sensu authors = *Asparagus aethiopicus* L.

*Asparagus falcatus* L., Sp. Pl. 313. 1753.

Distribution: Exotic in Lesser Antilles (Martinique); native to Africa and Asia.

References: 1, 147.

*Asparagus officinalis* L., Sp. Pl. 313. 1753.

Distribution: Cultivated in Cuba, Hispaniola, Puerto Rico, Lesser Antilles (Grenada, Guadeloupe, Saba, St. Martin), North America, Mexico, Central America, and South America; native to Europe.

Common Names: Espárrago (Cuba), Espárrago (Dominican Republic), Asperge (Haiti), Asparagus, Asperge (Lesser Antilles), Espárrago (Puerto Rico).

References: 1, 5, 28, 61, 123, 131, 132, 147.

*Asparagus plumosus* Baker = *Asparagus setaceus* (Kunth) Jessop

*Asparagus racemosus* Willd., Sp. Pl. 2: 152. 1799.

*Asparagus tetragonus* Bresler, Gen. Aspar. 15. 1826.

Distribution: Exotic in Jamaica; native to Africa, Asia, Malesia, and Australia.

References: 2, 147.

*Asparagus setaceus* (Kunth) Jessop, Bothalia 9: 51. 1966; *Protasparagus setaceus* (Kunth) Oberm., S. African J. Bot. 2(3): 244. 1983.

*Asparagus plumosus* Baker, J. Linn. Soc., Bot. 14: 613. 1875.

Distribution: Cultivated in Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. Thomas), Lesser Antilles (Saba), Margarita, North America, Mexico, Central America, and South America; native to Africa.

Common Names: Asparagus-fern (Bahamas), Espárrago espumoso, Espárrago plumoso, Pinito de amor, Tuya sensible (Cuba), Asparagus fern, Céfiro (Dominican Republic), Mouseline (Haiti), Asparagus, Fern, Mouseline (Lesser Antilles), Abeto, Ala de pájaro, Helecho plumoso (Puerto Rico).

References: 1, 2, 28, 45, 61, 123, 131, 132, 147, 150, 220, 230, 323.

*Asparagus sprengeri* Regel = *Asparagus aethiopicus* L.

*Asparagus tetragonus* Bresler = *Asparagus racemosus* Willd.

*Convallaria fruticosa* L. = *Cordyline fruticosa* (L.) A. Chev.

*Cordyline cylindrica* (Bojer) Britton = *Sansevieria cylindrica* Bojer

*Cordyline fruticosa* (L.) A. Chev., Cat. Pl. Jard. Bot. Saigon 66. 1919; *Convallaria fruticosa* L., Herb. Amb. 16. 1754.

*Cordyline terminalis* (L.) Kunth, Abh. Königl. Akad. Wiss. Berlin 1820: 30. 1820; *Dracaena terminalis* L., Syst. Nat., ed. 12, 246. 1767.

*Dianella cubensis* A. Rich. in R. de la Sagra, Hist. Fis. Cuba, Bot. 11(2): 27. 1850.

Distribution: Exotic in Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix), Margarita, Mexico, Central America, and South America; native to Papuasias and western Pacific Region.

Common Name: Bayoneta, Ti (Puerto Rico).

References: 2, 5, 28, 61, 131, 147, 230, 323.

*Cordyline guineensis* (Willd.) Britton = *Sansevieria hyacinthoides* (L.) Druce

*Cordyline terminalis* (L.) Kunth = *Cordyline fruticosa* (L.) A. Chev.

*Dianella cubensis* A. Rich. = *Cordyline fruticosa* (L.) A. Chev.

*Dracaena cubensis* Vict., Contr. Inst. Bot. Univ. Montreal 43: 11. 1942.

Distribution: Endemic to Cuba.

References: 3, 39, 147.

Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).

*Dracaena fragrans* (L.) Ker Gawl., Bot. Mag. 27: t. 1081. 1808.

Distribution: Exotic in Cuba, Hispaniola, Puerto Rico, Virgin Islands (Guana, St. Croix), Lesser Antilles (Barbados, Grenada, Guadeloupe, Martinique, St. Vincent), Margarita, Mexico, and Central America; native to Africa.

Common Names: Dracena fragante, False ilang-ilang, Ilang-ilang, Mártir del Japón (Cuba), Coco macaco, Palmita, Palmito (Dominican Republic), Dracene, Sanddragon (Lesser Antilles), Cocomacaco, Dracena, Drecina (Puerto Rico).

References: 28, 61, 123, 131, 132, 147, 230, 323.

*Dracaena terminalis* L. = *Cordyline fruticosa* (L.) A. Chev.

*Furcraea antillana* A. Álvarez, Anales Inst. Biol. Univ. Nac. Auton. Mexico, Bot. 67(2): 331. 1996.

Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.

References: 23, 147, 384.

- Furcraea cubensis* (Jacq.) Vent. = *Furcraea hexapetala* (Jacq.) Urb.

 Distribution: Exotic in Cuba, Hispaniola, Jamaica, Lesser Antilles (Guadeloupe, Martinique), and Margarita; native to Central America and South America.  
 Common Names: Henequén de haití (Cuba), Plantain (Dominican Republic), Pite, Pite espagnole (Haiti).  
 References: 1, 2, 5, 30, 123, 132, 147, 150, 323.
- Furcraea gigantea* Vent. = *Furcraea foetida* (L.) Haw.
- Furcraea hexapetala* (Jacq.) Urb., Symb. Antill. 4: 152. 1903; *Agave hexapetala* Jacq., Enum. Syst. Pl. 18. 1760.  
*Agave cubensis* Jacq., Enum. Syst. Pl. 18. 1760; *Furcraea cubensis* (Jacq.) Vent., Enum. Syst. Pl. 18. 1760.  
*Furcraea cubensis* (Jacq.) Vent. var. *inermis* Baker, Bot. Mag. 107: t. 6543. 1881.  
*Furcraea macrophylla* Baker, Hooker's Icon. Pl. 26: t. 2501. 1897.  
 Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Mexico, and South America.  
 Common Names: Maguey (Cuba), Cabuya, Pita (Dominican Republic), Bayonette, Bois pitre, Henequén, Pite franc, Pite, Jenequén, Pite pays (Haiti).  
 References: 2, 3, 4, 5, 30, 40, 45, 147, 384.
- Furcraea macrophylla* Baker = *Furcraea hexapetala* (Jacq.) Urb.,
- Furcraea stratiotes* J.B. Petersen, Bot. Tidsskr. 37: 306. 1922.  
 Distribution: Exotic in Virgin Islands (St. Croix); native to Nicaragua.  
 Reference: 147.
- Furcraea tuberosa* W.T. Aiton, Hortus Kew., ed. 2, 2: 303. 1811.  
*Agave campanulata* Sessé & Moc., Fl. Mexic., ed. 2, 87. 1894.  
*Furcraea antillana* sensu A. Álvarez, Anales Inst. Biol. Univ. Nac. Auton. Mexico, Bot. 67(2): 331. 1996, in part.  
 Distribution: Endemic to West Indies; native to Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. Thomas), and Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Grenadines, Guadeloupe, Marie Galante, Martinique, Montserrat, Nevis, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia, St. Vincent).  
 Common Names: Cabuya, Cocuisa, Maguey (Dominican Republic), Pite, Pite espagnole (Haiti), Maguey (Puerto Rico).  
 References: 1, 2, 3, 28, 30, 61, 123, 131, 147, 384.
- Hyacinthus orientalis* L., Sp. Pl. 317. 1753.  
 Distribution: Exotic in Cuba and Hispaniola; native to Europe.  
 Common Names: Bretaña, Jacinto (Cuba), Jacinthe (Haiti).  
 References: 5, 132, 147.
- Polianthes tuberosa* L., Sp. Pl. 316. 1753.  
 Distribution: Cultivated in Cuba, Hispaniola, Puerto Rico, and Lesser Antilles (Saba, St. Kitts, St. Lucia); native to Mexico.  
 Common Names: Azucena, Azucena de cuba, Azucena de mejico, Nardo, Tuberosa (Cuba), Azucena (Dominican Republic), Tubéreuse (Haiti), Azucena, Tuberosa (Puerto Rico).  
 References: 5, 28, 61, 131, 132, 147.
- Protasparagus setaceus* (Kunth) Oberm. = *Asparagus setaceus* (Kunth) Jessop
- Sansevieria concinna* N.E. Br., Bull. Misc. Inform. Kew 1915: 233. 1915.  
 Distribution: Cultivated in Puerto Rico; native to Africa.  
 Reference: 254.
- Sansevieria cylindrica* Bojer, Hortus Maurit. 349. 1837; *Cordylina cylindrica* (Bojer) Britton in N.L. Britton & P. Wilson, Sci. Surv. Porto Rico & Virgin Islands 5: 150. 1923.  
 Distribution: Exotic in Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. Thomas), and Margarita; native to Africa.  
 Common Names: Colmillo de elefante (Cuba), Sansiviera redonda (Puerto Rico).  
 References: 2, 28, 61, 131, 147, 150, 323.
- Sansevieria guineensis* Willd. = *Sansevieria hyacinthoides* (L.) Druce
- Sansevieria hyacinthoides* (L.) Druce, Bot. Exch. Club Soc. Brit. Isles 3: 423. 1914.  
*Cordylina guineensis* (Willd.) Britton, Brooklyn Bot. Gard. Mem. 1: 35. 1918; *Sansevieria guineensis* Willd., Sp. Pl. 2: 159. 1799.  
*Sansevieria metallica* Gérôme & Labroy, Bull. Mus. Hist. Nat. (Paris) 9: 173. 1903.  
*Sansevieria thyrsoiflora* (Petagna) Thunb., Prodr. Pl. Cap. 65. 1794.  
 Distribution: Exotic in Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, and Lesser Antilles (Barbados, St. Lucia); naturalized in Puerto Rico and Virgin Islands (St. Croix, St. John); native to Africa.  
 Common Names: African bowstring-hemp (Bahamas), Espada de Santa Elena, Espada de Santa Teresa, Hoja de Santa Elena, Lengua de vaca (Dominican Republic), Oreilles d'Ane, Safran, Z'oreilles bourrique (Haiti), Bowstring hemp, Mother-in-law's tongue (Jamaica), Bowstring, Langue à chat, Sanddragon de cermitière, Snake plant, Z'oreille à bourrique (Lesser Antilles), Chucho, Cocuisa, Lengua de chuco, Lengua de vaca, Sansiviera (Puerto Rico).  
 References: 1, 2, 3, 4, 5, 19, 28, 32, 45, 61, 123, 131, 147, 150, 223, 383.
- Sansevieria cf. pearsonii* N.E. Br., Bull. Misc. Inform. Kew 1911: 97. 1911.  
 Distribution: Naturalized in Virgin Islands (St. Croix); native to Africa.  
 Reference: 28.
- Sansevieria thyrsoiflora* (Petagna) Thunb. = *Sansevieria hyacinthoides* (L.) Druce
- Sansevieria trifasciata* Prain, Bengal Pl. 2: 1054. 1903.  
 Distribution: Exotic in Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana, St. Croix, Virgin Gorda), Lesser Antilles (St. Lucia), and Margarita; native to Africa.  
 Common Names: Tiger cat (Jamaica), Oreillo di burian, Rhamni, Snake plant, Yerba ci cinta, Yerba di colebas (Lesser Antilles).  
 References: 1, 2, 28, 147, 223, 323.
- Sansevieria zeylanica* (L.) Willd., Sp. Pl. 2: 159. 1799.  
 Distribution: Exotic in Virgin Islands (St. Croix); native to Asia.  
 References: 147, 254.
- Yucca aloifolia* L., Sp. Pl. 319. 1753.  
 Distribution: Exotic in Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana, St. John), and Lesser Antilles (Anguilla, Antigua, Guadeloupe, St. Barthélemy, St. Lucia, St. Martin); native to southeastern United States and Mexico.  
 Common Names: Spanish bayonet (Bahamas), Cucarachita, Espino, Piñón de puñal (Cuba), Bayoneta, Flor de Jericó, Indian bread plant, Jericó, Yuca (Dominican Republic), Bayonette, Pingouin, Pinguin, Spanish bayonette (Haiti), Spanish dagger (Jamaica), Adam's needle, Yucca (Lesser Antilles), Aguja de adán, Bayoneta española, Mata de huevo (Puerto Rico), Spanish bayonet (Virgin Islands).  
 References: 1, 2, 4, 19, 28, 30, 45, 123, 131, 132, 147.
- Yucca gigantea* Lem., Ill. Hort. 6(Misc.): 91. 1859.  
*Yucca guatemalensis* Baker, Refug. Bot. (Saunders) 5: t. 313. 1872.  
 Distribution: Exotic in Puerto Rico and Virgin Islands (Guana, St. Croix); native to Mexico and Central America.  
 References: 28, 61, 147.

*Yucca gloriosa* L., Sp. Pl. 319. 1753.

Distribution: Cultivated in Cuba, Puerto Rico, Virgin Islands, Lesser Antilles (Guadeloupe, Marie Galante), and Margarita; native to the southeastern United States.

Common Names: Bayoneta, Cucaracha, Espino, Espino de cerca, Maguey silvestre, Piñón de puñal (Cuba), Bayoneta española (Puerto Rico).

References: 3, 28, 131, 132, 147, 295, 323.

*Yucca guatemalensis* Baker = *Yucca gigantea* Lem.

## ASTERACEAE

by H. Robinson & V.A. Funk

Genera. Total: 194; native: 141; endemic: 38.

Taxa. Total: 773; native: 660; endemic: 489.

\**Acanthodesmos distichus* C.D. Adams & du Quesnay, Phytologia 21: 405. 1971.

Distribution: Endemic to Jamaica.

Reference: 2.

*Acanthospermum australe* (Loefl.) Kuntze, Revis. Gen. Pl. 1: 303. 1891; *Melampodium australe* Loefl., Iter Hispan. 268. 1758.

Distribution: Native to Lesser Antilles (Grenada, Martinique, St. Vincent), Margarita, North America, and South America; reported for South Africa.

References: 1, 151, 323.

*Acanthospermum hispidum* A. DC. in A.P. de Candolle, Prodr. 5: 522. 1836.

Distribution: Native to Cuba, Hispaniola, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Antigua, Barbados, Dominica, Guadeloupe, Martinique, Montserrat, St. Barthélemy, St. Kitts, St. Martin), Curaçao, Tobago, North America, Central America, and South America.

Common Names: Cadillo de burro, Mala mujer (Dominican Republic).

References: 1, 5, 7, 19, 58, 61, 123, 136, 224, 301.

Note: Considered exotic and invasive in Cuba by CeNBIO.

*Acanthospermum humile* (Sw.) DC., Prodr. 5: 522. 1836; *Melampodium humile* Sw., Prodr. 114. 1788.

Distribution: Native to Bahamas, Cuba, Hispaniola, Jamaica, North America, and Central America.

Common Names: Spiny-bur (Bahamas), Guizazo abrojo, Pinea, Pinedo, Quita zapatos (Cuba), Dessalines, Mala mujer (Dominican Republic), Feuilles hareng, L'indigene, Thé menthe (Haiti), Sheep bur (Jamaica).

References: 2, 5, 7, 45, 123, 136, 151, 224.

Note: Considered exotic and invasive in Cuba by CeNBIO.

*Achillea millefolium* L., Sp. Pl. 899. 1753.

Distribution: Native to Cuba, Hispaniola, Jamaica, North America, Mexico, Central America, South America, and Old World; cultivated in Puerto Rico.

Common Names: Milenrama (Cuba), Ciprés de invierno, Cipres de Judea, Cipres de perla, Perla, Sereno de invierno (Dominican Republic), Mil en rama (Haiti), Milfoil, Yarrow (Jamaica), Milfoil, Perla, Yarrow (Puerto Rico).

References: 2, 7, 61, 131, 136, 159, 224, 295.

Note: Considered exotic and invasive in Cuba by CeNBIO.

*Acmella brachyglossa* Cass., Dict. Sci. Nat., ed. 2, 50: 258. 1827.

*Spilanthes limonica* A.H. Moore, Proc. Amer. Acad. Arts 42: 541. 1907.

Distribution: Apparently native to Cuba and Lesser Antilles (Martinique); native to Central America and South America.

References: 136, 161, 207.

*Acmella iodiscaeae* (A.H. Moore) R.K. Jansen, Syst. Bot. Monogr. 8: 53. 1985; *Spilanthes iodiscaeae* A.H. Moore, Proc. Amer. Acad. Arts 42: 536. 1907.

*Spilanthes uliginosa* sensu DC., Prodr. 5: 491. 1836, non Sw.

*Verbesina debilis* Spreng., Neue Entdeck. Pflanzenk. 2: 137. 1821.

*Verbesina pusilla* Poir. in J.B.A.P.M. de Lamarck, Encycl. 8: 459. 1808.

Distribution: Endemic to West Indies; native to Bahamas, Hispaniola, Puerto Rico, and Lesser Antilles (Barbuda).

References: 1, 7, 30, 45, 58, 61, 151, 156, 161.

*Acmella oleracea* (L.) R.K. Jansen, Syst. Bot. Monogr. 8: 65. 1985;

*Spilanthes oleracea* L., Syst. Nat., ed. 12, 534. 1767.

Distribution: Cultivated in Cuba and Lesser Antilles (Guadeloupe, Martinique), also in South America and Africa.

References: 1, 61, 136, 207, 224, 340.

Note: Considered an invasive species by CeNBIO.

*Acmella oppositifolia* (Lam.) R.K. Jansen, Syst. Bot. Monogr. 8: 30. 1985.

*Spilanthes beccabungua* DC., Prodr. 5: 622. 1836.

Distribution: Exotic in Cuba; a weed throughout tropical America.

References: 136, 161, 207, 224.

*Acmella pusilla* (Hook. & Arn.) R.K. Jansen, Syst. Bot. Monogr. 8: 46.

1985; *Spilanthes pusilla* Hook. & Arn., J. Bot. (Hooker) 3: 317. 1841.

Distribution: Exotic in Puerto Rico and southern United States; native to South America.

References: 58, 151, 207, 252.

*Acmella radicans* (Jacq.) R.K. Jansen, Syst. Bot. Monogr. 8: 69. 1985, var. *radicans*; *Spilanthes radicans* Jacq., Collectanea 3: 229. 1791 ["1789"].

Distribution: Exotic in Cuba and Curaçao; native to Mexico and Central America.

References: 2, 224.

*Acmella radicans* (Jacq.) R.K. Jansen var. *debilis* (Kunth) R.K. Jansen, Syst. Bot. Monogr. 8: 72. 1985; *Spilanthes debilis* Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (folio ed.) 4: 165. 1818.

*Spilanthes ocyimifolia* sensu Alain, non (Lam.) A.H. Moore, Proc. Amer. Acad. Arts 42: 531. 1907.

Distribution: Native to Hispaniola, Lesser Antilles (Guadeloupe, Martinique), Trinidad, and South America.

References: 1, 7, 136, 207, 301.

*Acmella uliginosa* (Sw.) Cass., Dict. Sci. Nat., ed. 2, 24: 331. 1822;

*Spilanthes uliginosa* Sw., Prodr. 110. 1788.

Distribution: Native to Hispaniola, Jamaica, Virgin Islands (St. Croix), Lesser Antilles (Antigua, Dominica, Grenada, Guadeloupe, Martinique, Montserrat, St. Eustatius, St. Kitts, St. Lucia, St. Vincent), Tobago, Trinidad, Central America, South America, and Old World.

Common Names: Créosote pays, Herbe mal aux dents, Herbe mal dents, Z'herbe amal aux dents, Z'herbe mal aux dents (Haiti), Bouton d'or (Lesser Antilles).

References: 1, 7, 2, 5, 151, 301, 340.

*Adenocritonia adamsii* R.M. King & H. Rob., Phytologia 33: 281. 1976.

Distribution: Endemic to Jamaica.

References: 149, 152.

*Adenophyllum porophyllum* (Cav.) Hemsl. var. *cancellatum* (Cass.) Strother, Sida 11: 377. 1986.

*Adenophyllum porophyllum* (Cav.) Hemsl. var. *radiatum* (DC.) Strother, Sida 11: 377. 1986; *Dyssodia porophyllum* (Cav.) Cav. var. *radiata* DC., Prodr. 5: 639. 1836.

*Lebetina cubana* Rydb., N. Amer. Fl. 34(2): 163. 1915.

Distribution: Exotic in Cuba; native to Mexico.

References: 151, 152, 156, 161, 254, 341.

- Adenophyllum porophyllum* (Cav.) Hemsl. var. *radiatum* (DC.) Strother = *Adenophyllum porophyllum* (Cav.) Hemsl. var. *cancellatum* (Cass.) Strother

- Distribution: Endemic to Jamaica.
- References: 2, 30, 149.
- Ageratina havanensis* (Kunth) R.M. King & H. Rob., Phytologia 19: 222. 1970; *Eupatorium havanense* Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (folio ed.) 4: 100. 1818.
- Distribution: Native to Bahamas, Cuba, Hispaniola, and Mexico.
- References: 7, 45, 136, 152.
- Ageratina illita* (Urb.) R.M. King & H. Rob., Phytologia 19: 222. 1970; *Eupatorium illitum* Urb., Symb. Antill. 3: 401. 1903.
- Distribution: Endemic to Hispaniola.
- References: 7, 30, 149.
- Ageratina mortoniana* (Alain) R.M. King & H. Rob., Phytologia 19: 224. 1970; *Eupatorium x mortonianum* Alain, Contr. Ocas. Mus. Hist. Nat. Colegio "De La Salle" 18: 8. 1960.
- Distribution: Endemic to Cuba.
- References: 136, 152.
- Ageratina paucibracteata* (Alain) R.M. King & H. Rob., Phytologia 19: 218. 1970; *Eupatorium paucibracteatum* Alain, Contr. Ocas. Mus. Hist. Nat. Colegio "De La Salle" 18: 8. 1960.
- Distribution: Endemic to Cuba.
- References: 136, 149, 152.
- Ageratina resiniflua* (Urb.) R.M. King & H. Rob., Phytologia 19: 225. 1970; *Eupatorium resinifluum* Urb., Symb. Antill. 1: 461. 1899.
- Distribution: Endemic to Puerto Rico.
- References: 30, 58, 61, 149.
- Ageratina riparia* (Regel) R.M. King & H. Rob., Phytologia 19: 216. 1970; *Eupatorium riparium* Regel, Gartenflora 15: 324. 1866.
- Eupatorium harrisii* Urb., Symb. Antill. 1: 460. 1899.
- Distribution: Native to Jamaica and Central America.
- References: 2, 30, 152, 224.
- Note: Considered exotic and invasive in Cuba by CeNBIO.
- Ageratina tristis* (DC.) R.M. King & H. Rob., Phytologia 19: 227. 1970; *Eupatorium triste* DC., Prodr. 5: 166. 1836.
- Distribution: Endemic to Jamaica.
- References: 2, 149.
- Ageratina urbanii* (Ekman ex Urb.) R.M. King & H. Rob., Phytologia 19: 227. 1970; *Eupatorium urbanii* Ekman ex Urb., Ark. Bot. 23A(11): 55. 1931.
- Distribution: Endemic to Hispaniola.
- References: 7, 149.
- Ageratum conyzoides* L., Sp. Pl. 839. 1753, subsp. *conyzoides*
- Ageratum conyzoides* L. var. *inaequipaleaceum* Hieron., Bot. Jahrb. Syst. 19: 44. 1894.
- Distribution: Native to Bahamas, Cuba, Hispaniola, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Guadeloupe, Martinique, Montserrat, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia, St. Martin, St. Vincent), Tobago, Trinidad, Margarita, Mexico, Central America, South America, and Old World; exotic in Jamaica.
- Common Names: Goatbush (Bahamas), Celastina, Celestina azul, Celestina blanca, Lora, Moratoria (Cuba), Rompezaragüey, Yerba de chivo (Dominican Republic), Bouton, Petit pain-doux (Lesser Antilles), Mentastro, Yerba de cabrío (Puerto Rico).
- References: 1, 2, 5, 7, 19, 45, 58, 61, 75, 136, 149, 224, 301, 323, 340.
- Note: Considered exotic and invasive in Cuba by CeNBIO.
- Ageratum conyzoides* L. var. *inaequipaleaceum* Hieron. = *Ageratum conyzoides* L. subsp. *conyzoides*
- Ageratum conyzoides* L. subsp. *latifolium* (Cav.) M.F. Johnst., Ann. Missouri Bot. Gard. 58: 31. 1971; *Ageratum latifolium* Cav., Icon. 4: 33. 1797.
- Ageratum muticum* Griseb., Fl. Brit. W. I. 356. 1861.
- Distribution: Native to Bahamas, Cuba, Hispaniola, Jamaica, Mexico, Central America, and South America.
- References: 2, 5, 7, 36, 45, 136.
- Ageratum domingense* Spreng. = *Phania domingensis* (Spreng.) Griseb.
- Ageratum houstonianum* Mill., Gard. Dict., ed. 8. 1768.
- Distribution: Exotic in Cuba and Jamaica; native to Mexico and Central America.
- References: 2, 61, 136, 224.
- Note: Considered an invasive species by CeNBIO.
- Ageratum latifolium* Cav. = *Ageratum conyzoides* L. subsp. *latifolium* (Cav.) M.F. Johnst.
- Ageratum maritimum* Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (folio ed.) 4: 117. 1818.
- Distribution: Native to Cuba, Hispaniola, United States (FL, state endangered), and Yucatan, Mexico.
- Common Name: Cangrejillo (Cuba).
- References: 7, 77, 136.

- Ageratum matricarioides* (Spreng.) Less. = *Phania matricarioides* (Spreng.) Griseb.
- Ambrosia artemisiifolia* L., Sp. Pl. 988. 1753.
- Ambrosia artemisiifolia* L. var. *jamaicensis* Griseb., Fl. Brit. W. I. 370. 1861.
- Ambrosia artemisiifolia* L. var. *trinitensis* Griseb., Fl. Brit. W. I. 370. 1861.
- Ambrosia elatior* L., Sp. Pl. 987. 1753.
- Ambrosia paniculata* Michx., Fl. Bor.-Amer. 2: 183. 1803.
- Distribution: Native to Bahamas, Cuba, Hispaniola, Jamaica, North America, Central America, and South America.
- Common Names: Southern ragweed (Bahamas), Artemisa (Cuba).
- References: 2, 3, 5, 7, 45, 132, 136, 151, 152, 224.
- Note: Considered exotic and invasive in Cuba by CeN BIO.
- Ambrosia artemisiifolia* L. var. *jamaicensis* Griseb. = *Ambrosia artemisiifolia* L.
- Ambrosia artemisiifolia* L. var. *trinitensis* Griseb. = *Ambrosia artemisiifolia* L.
- Ambrosia confertiflora* DC., Prodr. 5: 526. 1836.
- Distribution: Native to Hispaniola, North America, and Mexico.
- References: 7, 58.
- Ambrosia crithmifolia* DC. = *Ambrosia hispida* Pursh
- Ambrosia elatior* L. = *Ambrosia artemisiifolia* L.
- Ambrosia hispida* Pursh, Fl. Amer. Sept. 2: 743. 1813 [“1814”].
- Ambrosia crithmifolia* DC., Prodr. 5: 525. 1836.
- Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Tortola, Virgin Gorda), Lesser Antilles (Antigua, Barbados, Dominica, Guadeloupe, Marie Galante, Martinique, Montserrat, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia, St. Martin, St. Vincent), North America, Mexico, and Central America.
- Common Names: Sweet bay (Bahamas), Artemisa de costa, Carquesa (Cuba), Bay tansy (Jamaica), Tapis (Lesser Antilles), Altamisa de playa (Puerto Rico).
- References: 1, 2, 4, 5, 7, 45, 58, 61, 131, 136, 151.

Distribution: Exotic in Puerto Rico (Vieques); native to southwestern United States and Mexico.  
Reference: 160.

*Arctotis stoechadifolia* P.J. Bergius, Descr. Pl. Cap. 324. 1767.

Distribution: Cultivated in Hispaniola and Puerto Rico; native to South Africa.

Common Names: Blue Arctotis, Plata (Puerto Rico).  
References: 7, 131.

*Artemisia absinthium* L., Sp. Pl. 848. 1753.

Distribution: Exotic in Cuba, Hispaniola, Puerto Rico, and Virgin Islands; native to Europe, Africa, and Asia.

Common Names: Ajenjo, Incienso ajenjo (Cuba), Ajai, Ajenjo, Ajorizo, Artemisa (Dominican Republic), Absinthe, Absinthe batarde, Feuilles ameres, Matricaire (Haiti), Ajenjo (Puerto Rico).  
References: 7, 61, 131, 132, 224.

*Artemisia capillifolia* Lam. = *Eupatorium capillifolium* (Lam.) Small

*Artemisia domingensis* Urb., Symb. Antill. 7: 430. 1912.

Distribution: Endemic to Hispaniola.

Common Name: Altamisa cimarrona (Dominican Republic).  
References: 5, 7, 30.

*Artemisia stipularis* Urb. & Ekman, Ark. Bot. 23A(11): 84. 1931.

Distribution: Endemic to Hispaniola (Dominican Republic).  
Reference: 7.

*Artemisia vulgaris* L., Sp. Pl. 848. 1753.

Distribution: Exotic in Cuba and Hispaniola; native to Europe, Africa, and Asia.

Common Names: Artemisa (Cuba), Armoise, Arbre aux cent goutts, Fleurs St. Jean (Haiti).  
References: 7, 132, 224.

(L.) L. var. *parvifolia* Moore, J. Bot. 67: 130. 1929.

Distribution: Endemic to Jamaica.

Common Names: Camphor bush, Halbert weed (Jamaica).

References: 2, 151, 156.

*Calea jamaicensis* (L.) L. var. *parvifolia* S. Moore = *Calea jamaicensis*  
(L.) L.

*Callistephus x sinensis* Bergmans, Vaste Pl. Rotsheesters 546. 1924.

Distribution: Cultivated in Cuba, Hispaniola, and Puerto Rico; native  
to China.

References: 7, 61, 224.

*Calydermos jamaicensis* Spreng. = *Critonia dalea* (L.) DC.

*Calydermos spilanthisoides* (Griseb.) Griseb. = *Wedelia serrata* Rich. var.  
*serrata*

*Calyptocarpus vialis* Less., Syn. Gen. Compos. 221. 1832.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola,  
North America, Mexico, and Central America.

Common Name: Hierba del caballo (Bahamas).

References: 4, 7, 45, 136.

*Carduus pinetorum* Small = *Cirsium vittatum* (Small) Small

*Carduus vittatum* Small = *Cirsium vittatum* (Small) Small

*Carelia domingensis* (Spreng.) Kuntze = *Phania domingensis* (Spreng.)  
Griseb.

*Carthamus tinctorius* L., Sp. Pl. 830. 1753.

Distribution: Exotic in Cuba and Hispaniola; widely cultivated, origin  
probably Eurasia.

Common Names: Azafrán bastardo (Cuba), Cartamo (Dominican  
Republic).

References: 7, 132.

*Centaurea cineraria* L., Sp. Pl. 912. 1753.

Distribution: Exotic in Cuba and Hispaniola; native to Europe.

Common Names: Cineraria, Marina (Cuba), Lluvia de plata  
(Dominican Republic).

References: 7, 132.

*Centaurea cyanus* L., Sp. Pl. 911. 1753.

Distribution: Cultivated in Cuba, Hispaniola, and Puerto Rico; native  
to Europe and Asia.

Common Names: Centaura (Cuba), Flor de maíz (Puerto Rico).

References: 7, 61, 131, 132, 159.

*Centratherum muticum* (Kunth) Less. = *Centratherum punctatum* Cass.

*Centratherum punctatum* Cass., Dict. Sci. Nat., ed. 2, 7: 384. 1817.

*Centratherum muticum* (Kunth) Less., Linnaea 4: 320. 1829.

Distribution: Exotic in Hispaniola, Puerto Rico, Virgin Islands (Tortola,  
Virgin Gorda), Lesser Antilles (Barbados, Dominica, Guadeloupe,  
Martinique, Saba, St. Lucia), and Trinidad; native to Mexico,  
Central America, and South America.

Common Name: Magéwit, Marguerite (Lesser Antilles).

References: 1, 7, 58, 151, 252, 254, 301.

Distribution: Endemic to Puerto Rico.  
References: 32, 58, 61, 142, 149, 152.

*Chromolaena corymbosa* (Aubl.) R.M. King & H. Rob., *Phytologia* 20: 200. 1970; *Eupatorium corymbosum* Aubl., *Hist. Pl. Guiane* 2: 799. 1775; *Osmia corymbosa* (Aubl.) Britton & P. Wilson, *Sci. Surv. Porto Rico & Virgin Islands* 6: 288. 1925.

*Eupatorium atriplicifolium* Hort. ex Lam., *Encycl.* 2: 407. 1788.

*Eupatorium repandum* Willd., *Sp. Pl.* 3: 1767. 1803.

Distribution: Native to Bahamas, Cuba, Hispaniola, Puerto Rico, Virgin Islands (Guana, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Anguilla, Antigua, Martinique, Montserrat, Saba, St. Kitts), and French Guiana.

Common Name: Moya de Santa María (Cuba).

References: 1, 5, 7, 19, 30, 45, 58, 61, 136, 142, 151, 224.

Note: Considered exotic and invasive in Cuba by CeNBIO.

*Chromolaena dussii* (Urb.) R.M. King & H. Rob., *Phytologia* 20: 200. 1970; *Eupatorium dussii* Urb., *Symb. Antill.* 5: 521. 1908.

Distribution: Endemic to Lesser Antilles (Guadeloupe, Montserrat).

References: 1, 30, 142.

*Chromolaena geraniifolia* (Urb.) R.M. King & H. Rob., *Phytologia* 20: 201. 1970; *Eupatorium geraniifolium* Urb., *Symb. Antill.* 1: 458. 1899; *Osmia geraniifolia* (Urb.) Britton & P. Wilson, *Sci. Surv. Porto Rico & Virgin Islands* 6: 288. 1925.

Distribution: Endemic to Puerto Rico.

References: 30, 58, 61, 142, 151.

*Chromolaena heteroclina* (Griseb.) R.M. King & H. Rob., *Phytologia* 20: 201. 1970; *Eupatorium heteroclinium* Griseb., *Fl. Brit. W. I.* 358. 1861.

Distribution: Endemic to Jamaica.

References: 2, 142.

*Chromolaena heterosquamea* (Urb. & Ekman) R.M. King & H. Rob., *Phytologia* 32: 283. 1975; *Eupatorium heterosquameum* Urb. & Ekman, *Ark. Bot.* 23A(11): 54. 1931.

Distribution: Endemic to Hispaniola (Dominican Republic).

References: 7, 142.

*Chromolaena impetiolaris* (Griseb.) Nicolson, *Phytologia* 64: 164. 1987; *Eupatorium impetiolare* Griseb., *Fl. Brit. W. I.* 357. 1861.

Distribution: Endemic to Lesser Antilles (Dominica).

References: 1, 142.

*Chromolaena integrifolia* (Bertero ex Spreng.) R.M. King & H. Rob., *Phytologia* 20: 202. 1970; *Eupatorium integrifolium* Bertero ex Spreng., *Syst. Veg.*, ed. 16, 3: 410. 1826.

Distribution: Endemic to Lesser Antilles (Dominica, Guadeloupe, Marie Galante, Montserrat, St. Kitts).

Common Name: Violette bord de mer (Lesser Antilles).

References: 1, 142.

*Chromolaena ivifolia* (L.) R.M. King & H. Rob., *Phytologia* 20: 202. 1970; *Eupatorium ivifolium* L., *Syst. Nat.*, ed. 10, 1205. 1759; *Osmia ivifolia* (L.) Sch. Bip., *Jahresber. Pollichia* 22-24: 250. 1866.

Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Lesser Antilles (Guadeloupe, Martinique), Tobago, Trinidad, North America, Mexico, Central America, and South America.

References: 1, 2, 5, 7, 58, 61, 136, 142, 151, 152, 301.

Millspaugh, Bahama Fl. 458. 1920. Distribution: Native to Bahamas and North America. Common Name: Pineland thistle (Bahamas). Reference: 45.
- Clibadium badieri* (DC.) Griseb. = *Clibadium sylvestre* (Aubl.) Baill.
- Clibadium erosum* (Sw.) DC., Prodr. 6: 506. 1838; *Trixis erosa* Sw., Prodr. 115. 1788.
- Clibadium fragiferum* Griseb., Fl. Brit. W. I. 368. 1861. Distribution: Endemic to West Indies; native to Puerto Rico, Virgin Islands (St. Thomas), Lesser Antilles (Dominica, Guadeloupe, Martinique, Montserrat, Nevis, Saba, St. Kitts, St. Lucia, St. Martin, St. Vincent), and doubtful to Trinidad. Common Name: Medsinnyé benní (Lesser Antilles), Carruzo, Turma de toro (Puerto Rico). References: 1, 30, 58, 61, 301, 458.
- Clibadium fragiferum* Griseb. = *Clibadium erosum* (Sw.) DC.
- Clibadium havanense* DC. = *Clibadium sylvestre* (Aubl.) Baill.
- Clibadium surinamense* L., Mant. Pl. 2: 294. 1771. Distribution: Native to Hispaniola, Jamaica, Lesser Antilles (Grenada, Martinique, St. Vincent), Margarita, Tobago, Trinidad, Mexico, Central America, and South America. Common Name: Jackass breadnut (Jamaica). References: 1, 2, 5, 7, 151, 301, 323.
- Clibadium sylvestre* (Aubl.) Baill., Hist. Pl. 8: 307. 1882; *Baillieria sylvestris* Aubl., Hist. Pl. Guiane 2: 807. 1775.
- Clibadium badieri* (DC.) Griseb., Fl. Brit. W. I. 368. 1861.
- Clibadium havanense* DC., Prodr. 5: 506. 1836. Distribution: Native to Lesser Antilles (Dominica, Grenada, Guadeloupe, Martinique, St. Vincent), Trinidad, and South America; exotic in Cuba. Common Names: Enivre, Nivoue (Lesser Antilles). References: 1, 36, 136, 151, 224, 301, 458. Note: Considered an invasive species by CeNBIO.
- Clibadium terebinthinaceum* (Sw.) DC., Prodr. 5: 506. 1836.
- Clibadium alexandri* Griseb., Fl. Brit. W. I. 368. 1861. Distribution: Endemic to West Indies; native to Cuba, Hispaniola, Jamaica, Tobago, and Trinidad.

Common Names: Enivre, Nivoue (Lesser Antilles).

References: 2, 30, 36, 136, 149, 458.

*Cnicus portoricensis* Kuntze = *Cirsium mexicanum* DC.

*Coleostephus myconis* (L.) Rchb. f., Icon. Fl. Germ. Helv. 16: 49. 1853.

Distribution: Naturalized in Hispaniola (Dominican republic: Valle Nuevo).

Reference: 254.

*Condylidium iresinoides* (Kunth) R.M. King & H. Rob., Phytologia 24: 381. 1972; *Eupatorium iresinoides* Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (folio ed.) 4: 83. 1818.

*Eupatorium glumaceum* DC., Prodr. 5: 181. 1836.

Distribution: Native to Cuba, Puerto Rico, Lesser Antilles (Dominica, Martinique, Saba, St. Lucia), Trinidad, Margarita, Central America, and South America.

References: 1, 58, 136, 151, 152, 301, 323.

*Conocliniopsis prasiifolia* (DC.) R.M. King & H. Rob., Phytologia 23: 308. 1972; *Conoclinium prasiifolium* DC., Prodr. 5: 135. 1836.

*Eupatorium ballotifolium* sensu Alain, Fl. Española 8: 128. 1996, non Kunth.

Distribution: Native to Cuba, Hispaniola, Margarita, and South America.

References: 7, 149, 151, 161, 323.

*Conoclinium coelestinum* (L.) DC., Prodr. 5: 135. 1836; *Eupatorium coelestinum* L., Sp. Pl. 838. 1753.

Distribution: Native to Cuba and North America.

References: 136, 224.

Note: Considered exotic and invasive in Cuba by CeNBIO.

*Conoclinium prasiifolium* DC. = *Conocliniopsis prasiifolia* (DC.) R.M. King & H. Rob.

*Critonia dalea* sensu Bello, Anales Soc. Esp. Hist. Nat. 10: 284. 1881, *non DC.*  
 Distribution: Endemic to Puerto Rico.  
 References: 30, 58, 61, 75, 142, 340.  
***Critonia pseudodalea*** DC., Prodr. 5: 140. 1836; *Eupatorium pseudodalea* (DC.) M. Gómez & Molinet, Anales Hist. Nat. 19: 272. 1890.  
 Distribution: Endemic to Cuba.  
 References: 136, 151.

- Critonia stigmatica* (Urb. & Ekman) R.M. King & H. Rob., *Phytologia* 22: 50. 1971; *Eupatorium stigmaticum* Urb. & Ekman, *Ark. Bot.* 23A(11): 67. 1931.  
Distribution: Endemic to Hispaniola.  
References: 7, 142.
- Cyanthillium cinereum* (L.) H. Rob., *Proc. Biol. Soc. Wash.* 103: 252. 1990; *Conyza cinerea* L., *Sp. Pl.* 862. 1753; *Vernonia cinerea* (L.) Less., *Linnaea* 4: 291. 1829.  
Distribution: Exotic in Bahamas, Cuba, Hispaniola, Puerto Rico, Virgin Islands (Guana, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Anguilla, Antigua, Barbados, Dominica, Grenada, Grenadines, Guadeloupe, Martinique, Montserrat, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia, St. Martin, St. Vincent), Tobago, Trinidad, Aruba, Bonaire, and Curaçao; native to Africa, Asia, Malesia, and Australia.  
References: 1, 2, 4, 5, 7, 19, 45, 58, 61, 112, 136, 150, 224, 301, 322, 383.  
Note: Considered an invasive species by CeNBIO.
- Cynara scolymus* L., *Sp. Pl.* 827. 1753.  
Distribution: Cultivated in Cuba, Hispaniola, and Puerto Rico; native to Europe, Africa, and Asia.  
Common Names: Alcachofa (Cuba), Alcachofa (Dominican Republic), Artichaut (Haiti), Alcachofa, Cardo alcachofero (Puerto Rico).  
References: 5, 7, 61, 131, 132.
- Cyrtocymura saepia* (Ekman ex Urb.) H. Rob., *Proc. Biol. Soc. Wash.* 100: 853. 1987; *Vernonia saepia* Ekman ex Urb., *Ark. Bot.* 17(7): 63. 1921.  
Distribution: Endemic to Hispaniola.  
References: 149, 322.
- Cyrtocymura scorpioides* (Lam.) H. Rob., *Proc. Biol. Soc. Wash.* 100: 852. 1987; *Vernonia scorpioides* (Lam.) Pers., *Syn. Pl.* 2(2): 404. 1807.  
Distribution: Native to Hispaniola, Tobago, Trinidad, Margarita, and South America.  
References: 7, 301, 322, 323.
- Dahlia pinnata* Cav., *Icon.* 1: 57. 1791.  
*Dahlia variabilis* (Willd.) Desf., *Tabl. École Bot.*, ed. 3, 182. 1820.  
Distribution: Cultivated in Cuba, Hispaniola, Puerto Rico and Virgin Islands; native to Mexico.  
Common Names: Dahlia, Dalia, Gigantón (Cuba), Dahlia, Dalia (Dominican Republic), Dahlia, Dalia (Puerto Rico).  
References: 5, 7, 61, 123, 131, 132, 159, 224, 254.
- Dahlia variabilis* (Willd.) Desf. = *Dahlia pinnata* Cav.

Distribution: Endemic to Lesser Antilles (Dominica, Guadeloupe, Martinique).  
References: 1, 161.
- Dimorphotheca aurantiaca* DC., *Prodr.* 6: 72. 1838.  
Distribution: Exotic in Hispaniola; native to Africa.  
Common Names: Bandera española, Margarita africana (Dominican Republic).  
References: 7, 149, 159.
- Distreptus spicatus* (B. Juss. ex Aubl.) Cass. = *Pseudelephantopus spicatus* (B. Juss. ex Aubl.) C.F. Baker
- Dyssodia porophyllum* (Cav.) Cav. var. *radiata* DC. = *Adenophyllum porophyllum* (Cav.) Hemsl. var. *cancellatum* (Cass.) Strother
- Dyssodia tenuiloba* (DC.) B.L. Rob., *Proc. Amer. Acad. Arts* 49: 508. 1913.  
Distribution: Exotic in Bahamas, Cayman Islands; and Lesser Antilles (Anguilla, Barbados, Saba, St. Vincent); native to southwestern United States and Mexico.  
Common Names: Dogweed, Fetid marigold (Bahamas).  
References: 4, 41, 45, 150.
- Dyssodia divaricata* Rich. = *Melampodium divaricatum* (Rich.) DC.  
*Echinops fruticosus* L. = *Rolandra fruticosa* (L.) Kuntze  
*Eclipta alba* (L.) Hassk. = *Eclipta prostrata* (L.) L.

*Egletes florida* Shinnars, *Lloydia* 12: 248. 1949.  
*Egletes commixta* Shinnars, *Lloydia* 12: 243. 1950.  
Distribution: Native to Lesser Antilles (Guadeloupe, St. Lucia, St. Vincent), Margarita, and South America.  
References: 1, 151, 323.
- Egletes prostrata* (Sw.) Kuntze, *Revis. Gen. Pl.* 1: 334. 1891; *Matricaria prostrata* Sw., *Prodr.* 114. 1788.  
*Egletes domingensis* Cass. *Bull. Sci. Soc. Philom. Paris* 1817: 153. 1817; *Grangea domingensis* (Cass.) M. Gómez, *Dicc. Bot. Nombres Vulg. Cub. Puerto-Riq.* 115. 1889.  
*Egletes domingensis* Cass. var. *glabrata* DC., *Prodr.* 6: 42. 1838.  
Distribution: Native to Cuba, Hispaniola, Jamaica, Virgin Islands (St. Thomas), Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Grenadines, Guadeloupe, Marie Galante, Martinique, St. Kitts, St. Lucia), Tobago, Trinidad, Aruba, Curaçao, and South America.  
Common Names: Manzanilla del país (Cuba), Bouton d'or, Herbe-soleil (Lesser Antilles).  
References: 1, 2, 5, 7, 32, 61, 136, 151, 152, 224, 301.
- Egletes viscosa* (L.) Less., *Syn. Gen. Compos.* 252. 1832.  
Distribution: Exotic in Cuba; native to Mexico, Central America, and South America.  
Common Name: Manzanilla del país (Cuba).  
References: 136, 151, 224.  
Note: Considered an invasive species by CeNBIO.
- \**Ekmania lepidota* (Griseb.) Gleason, *Bull. Torrey Bot. Club* 46: 250. 1919; *Vernonia lepidota* Griseb., *Cat. Pl. Cub.* 145. 1866.  
Distribution: Endemic to Cuba.  
References: 39, 136, 149, 322.  
Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).
- Ekmaniopappus alainii* (J. Jiménez Alm.) Borhidi = *Nesampelos alainii* (J. Jiménez Alm.) B. Nord.

Distribution: Endemic to Cuba.  
Reference: 136.
- Erigeron jamaicensis* L., Syst. Nat., ed. 10, 1213. 1759; *Aster jamaicensis* (L.) Less., Linnaea 5: 144. 1830.
- Erigeron earlei* Britton & P. Wilson, Mem. Torrey Bot. Club 16: 116. 1920.
- Erigeron rivularis* Sw., Prodr. 113. 1788.  
Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, and Central America.  
Common Name: Pascueta amarilla (Puerto Rico).  
References: 2, 5, 7, 58, 61, 136, 151, 156, 161.
- Erigeron jamaicensis* sensu Sw. = *Erigeron cuneifolius* DC.
- Erigeron karvinskianus* DC., Prodr. 5: 285. 1836.
- Erigeron mucronatus* DC., Prodr. 5: 285. 1836.  
Distribution: Exotic in Hispaniola, Jamaica, and Lesser Antilles (Dominica, Guadeloupe, Martinique, St. Lucia); native to Mexico, Central America, and South America.  
Common Name: Rock side daisy (Jamaica).  
References: 1, 2, 5, 7.
- Erigeron laevigatus* Rich. = *Conyza laevigata* (Rich.) Pruski
- Erigeron libanensis* Urb., Repert. Spec. Nov. Regni Veg. 21: 226. 1925.  
Distribution: Endemic to Cuba.  
References: 39, 136.  
Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).
- Erigeron mucronatus* DC. = *Erigeron karvinskianus* DC.
- Erigeron ocoensis* Urb. & Ekman, Ark. Bot. 23A(11): 74. 1931.  
Distribution: Endemic to Hispaniola (Dominican Republic).  
Reference: 7.
- Erigeron paucilobus* Urb., Repert. Spec. Nov. Regni Veg. 21: 266. 1925.  
Distribution: Endemic to Cuba.  
References: 39, 136.  
Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39).
- Erigeron pinetorum* Urb. = *Conyza primulifolia* (Lam.) Cuatrec. & Lourteig
- Erigeron polycladus* Urb., Symb. Antill. 3: 403. 1903.  
Distribution: Endemic to Lesser Antilles (Dominica, Guadeloupe, Martinique).  
References: 1, 30.
- Erigeron psilocaulis* Urb., Ark. Bot. 23A(11): 74. 1931.  
Distribution: Endemic to Hispaniola (Dominican Republic).  
Reference: 7.
- Erigeron purpuripes* Britton & P. Wilson = *Erigeron bellidiastroides* Griseb.
- Erigeron quercifolius* Lam., Tabl. Encycl. 3: 258. 1823.  
Distribution: Native to Bahamas and North America.  
Common Name: Southern fleabane (Bahamas).  
References: 45, 149.
- Erigeron rivularis* Spreng. ex DC. = *Erigeron bellioides* DC.
- Erigeron rivularis* Sw. = *Erigeron jamaicensis* L.
- Erigeron rivularis* sensu A. Stahl = *Conyza laevigata* (Rich.) Pruski
- Erigeron semiovalis* Urb. = *Erigeron bellioides* DC.
- Erigeron spathulatus* Vahl = *Conyza laevigata* (Rich.) Pruski
- Erigeron subalpinus* Urb. = *Conyza canadensis* (L.) Cronquist var. *canadensis*
- Erigeron taylorii* Britton & P. Wilson, Mem. Torrey Bot. Club 16: 115. 1920.  
Distribution: Endemic to Cuba.  
References: 39, 136, 156.  
Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).
- Erigeron thrincoides* Griseb., Cat. Pl. Cub. 148. 1866.  
Distribution: Endemic to Cuba.  
Reference: 136.
- Erigeron tuerckheimii* Urb., Symb. Antill. 7: 427. 1912.  
Distribution: Endemic to Hispaniola (Dominican Republic).  
References: 5, 7, 30.
- Erigeron vegaensis* Urb., Symb. Antill. 7: 556. 1913.  
Distribution: Endemic to Hispaniola.  
References: 5, 7, 30.
- Eschenbachia lyrata* (Kunth) Britton & Millsp. = *Pseudoconyza viscosa* (Mill.) D'Arcy
- Ethulia bidentis* L. = *Flaveria bidentis* (L.) Kuntze

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Lesser Antilles (Barbados), North America, Mexico, Central America, and South America.  
Common Names: Contrayerba, Yerba de la vieja (Cuba).  
References: 1, 2, 40, 45, 58, 132, 136, 151, 224.  
Note: The Hispaniola (Haiti) record comes from MBG Tropicos website (151); considered exotic and invasive in Cuba by CeNBIO.
- Fleischmannia microstemon* (Cass.) R.M. King & H. Rob., Phytologia 19: 204. 1970; *Eupatorium microstemon* Cass., Dict. Sci. Nat., ed. 2, 25: 432. 1822.
- Eupatorium guadalupense* Spreng., Syst. Veg., ed. 16, 3: 414. 1826.  
*Eupatorium microstemon* Cass. var. *albiflorum* Kuntze, Revis. Gen. Pl. 1: 338. 1891.

- Eupatorium paniculatum* Schrad., Com. Soc. Sci. Gotting. 6: 130. 1827.  
Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Lesser Antilles (Antigua, Dominica, Grenada, Guadeloupe, Martinique, Montserrat, Saba, St. Kitts, St. Lucia, St. Martin, St. Vincent), Tobago, Trinidad, Mexico, Central America, and South America.  
Common Names: Tabac à diable bâtard, Tabac à jacot petit (Lesser Antilles).  
References: 1, 2, 5, 7, 30, 31, 58, 61, 136, 151, 224, 301, 340.
- Gaillardia amara* Raf. = *Helenium amarum* (Raf.) H. Rock
- Gaillardia pulchella* Foug., Mém. Acad. Sci. (Paris) 1786: 5. 1788.  
Distribution: Exotic in Bahamas, Cuba, and Hispaniola; native to North America and Mexico.  
Common Names: Firewheel, Indian blanket (Bahamas), Gaillardia (Dominican Republic).  
References: 7, 45, 159, 224, 383.
- Galinsoga caracasana* (DC.) Sch. Bip. = *Galinsoga quadriradiata* Ruiz & Pav.
- Galinsoga ciliata* (Raf.) S.F. Blake = *Galinsoga quadriradiata* Ruiz & Pav.
- Galinsoga parviflora* Cav., Icon. 3: 41. 1794 ["1795"].  
Distribution: Native to Jamaica, Hispaniola, Puerto Rico, Lesser Antilles (Guadeloupe, Martinique), Mexico, Central America, and South America.  
Common Names: Botón de oro, Yerba boba (Dominican Republic), Herbe aiguiles (Haiti).  
References: 1, 2, 5, 7, 58, 151, 252.
- Galinsoga quadriradiata* Ruiz & Pav., Syst. Veg. Fl. Peruv. Chil. 1: 198. 1798.
- Galinsoga caracasana* (DC.) Sch. Bip., Linnaea 34: 529. 1865.
- Galinsoga ciliata* (Raf.) S.F. Blake, Rhodora 24: 35. 1922.  
Distribution: Exotic in Bahamas, Jamaica, Puerto Rico, and Lesser Antilles (Dominica, Guadeloupe, Martinique); native to Mexico.  
References: 1, 45, 58, 159, 254.
- Gamochaeta americana* (Mill.) Wedd., Chlor. And. 1(4–6): 151. 1856;  
*Gnaphalium americanum* Mill., Gard. Dict., ed. 8. 1768.  
*Gnaphalium spicatum* Lam., Encycl. 2: 757. 1788.  
Distribution: Native to Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Mexico, Central America, and South America.  
References: 2, 5, 7, 45, 58, 61, 136, 151.
- Gamochaeta antillana* (Urb.) Anderb., Opera Bot. 104: 157. 1991;  
*Gnaphalium antillanum* Urb., Repert. Spec. Nov. Regni Veg. 13: 482. 1915.  
Distribution: Native to Bahamas, Cuba, Lesser Antilles (Anguilla, Guadeloupe, Saba, St. Martin), and United States (FL).  
References: 1, 136, 150, 151.
- Gamochaeta argyrinea* Neson, Sida 21(2): 718. 204.  
Distribution: Apparently exotic in Puerto Rico; native to the United States.  
Reference: 149.
- Gamochaeta coarctata* (Willd.) Kerguélen, Lejeunia 120: 104. 1987;  
*Gnaphalium coarctatum* Willd., Sp. Pl. 3: 1886. 1803.
- Gamochaeta spicata* Cabrera, Bol. Soc. Argent. Bot. 9: 380. 1961.  
Distribution: Native to Puerto Rico, North America, and South America.  
References: 58, 151.
- Gamochaeta pensylvanica* (Willd.) Cabrera, Bol. Soc. Argent. Bot. 9: 375. 1961; *Gnaphalium pensylvanicum* Willd., Enum. Hort. Berol. 867. 1809.
- Gnaphalium peregrinum* Fernald, Rhodora 45: 479. 1943.  
Distribution: Native to Bahamas, Cuba, Mexico, Central America, and South America.  
References: 45, 136, 151, 224.
- Gamochaeta purpurea* (L.) Cabrera, Bol. Soc. Argent. Bot. 9: 377. 1961; *Gnaphalium purpureum* L., Sp. Pl. 854. 1753.
- Gnaphalium spathulatum* Lam., Encycl. 2: 759. 1788.  
Distribution: Native to Cuba, Hispaniola, Jamaica, North America, Central America, and South America.  
References: 2, 5, 7, 136, 150, 151.
- Gamochaeta spicata* Cabrera = *Gamochaeta coarctata* (Willd.) Kerguélen
- Gerbera jamesonii* Adlam, Gard. Chron. ser. 3, 3: 775. 1888 [23 Jun].  
Distribution: Cultivated in Cuba, Hispaniola, Jamaica, and Puerto Rico; native to South Africa.  
Common Names: Margarita del Transvaal (Cuba), Caléndula, Gerbera, Margarita del Transvaal (Dominican Republic), Barberton daisy, Gerbera (Jamaica), Margarita africana, Margarita del Transvaal (Puerto Rico).  
References: 2, 7, 123, 131, 132, 150, 159, 224.
- Gerbera leiocarpa* (DC.) Schultz Bip. = *Chaptalia albicans* (Sw.) Vent. ex Steud.
- Gnaphalium acutiusculum* Urb. & Ekman, Ark. Bot. 23A(11): 78. 1931.  
Distribution: Endemic to Hispaniola (Haiti).  
Reference: 7.
- Gnaphalium albescens* Sw., Prodr. 122. 1788.  
Distribution: Endemic to Jamaica.  
Reference: 2.
- Gnaphalium albescens* Sw. var. *cubense* Griseb. = *Gnaphalium attenuatum* DC.
- Gnaphalium americanum* Mill. = *Gamochaeta americana* (Mill.) Wedd.
- Gnaphalium americanum* sensu DC. = *Gnaphalium polycaulon* Pers.
- Gnaphalium antillanum* Urb. = *Gamochaeta antillana* (Urb.) Anderb.
- Gnaphalium attenuatum* DC., Prodr. 6: 228. 1838.  
*Gnaphalium albescens* Sw. var. *cubense* Griseb., Cat. Pl. Cub. 157. 1866.  
Distribution: Exotic in Cuba; native to Mexico and Central America.  
References: 136, 151, 152, 224.  
Note: Considered an invasive species by CeNBIO.
- Gnaphalium coarctatum* Willd. = *Gamochaeta coarctata* (Willd.) Kerguélen
- Gnaphalium domingense* Lam., Encycl. 2: 743. 1788;  
*Pseudognaphalium domingense* (Lam.) Anderb., Opera Bot. 104: 147. 1991.
- Gnaphalium portoricense* Urb., Symb. Antill. 3: 409. 1903.  
*Gnaphalium jamaicense* Urb., Repert. Spec. Nov. Regni Veg. 13: 481. 1915.  
Distribution: Native to Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. John), Central America, and South America.  
Common Names: Altamisa blanca, Artemisa blanca (Dominican Republic), La janiver (Haiti), Botoncillo (Puerto Rico).  
References: 2, 5, 7, 19, 58, 123, 131, 150, 151, 340.
- Gnaphalium eggersii* Urb., Symb. Antill. 3: 410. 1903.  
Distribution: Endemic to Hispaniola.  
References: 5, 7, 30.
- Gnaphalium elegans* Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (folio ed.) 4: 63. 1818.  
Distribution: Native to Jamaica, Puerto Rico, Central America, and South America.  
Reference: 254. (*Sintenis* 4590, *Clute* 203).

- Gnaphalium indicum* L. = *Gnaphalium polycaulon* Pers.  
*Gnaphalium jamaicense* Urb. = *Gnaphalium domingense* Lam.  
***Gnaphalium luteoalbum*** L., Sp. Pl. 851. 1753.  
 Distribution: Exotic in Jamaica; native to Europe, Africa, Asia, and Malasia.  
 Common Name: Cudweed (Jamaica).  
 References: 2, 159.
- Gnaphalium pensylvanicum* Willd. = *Gamochaeta pensylvanica* (Willd.) Cabrera  
*Gnaphalium peregrinum* Fernald = *Gamochaeta pensylvanica* (Willd.) Cabrera  
***Gnaphalium polycaulon*** Pers., Syn. Pl. 2(2): 421. 1807.  
*Gnaphalium americanum* sensu DC., Prodr. 6: 234. 1838, non Mill.  
*Gnaphalium indicum* L., Sp. Pl. 852. 1753.  
*Gnaphalium purpureum* sensu O.F. Cook & G.N. Collins, Econ. Pl. Porto Rico 149. 1903, non L.  
 Distribution: Exotic in Cayman Islands, Hispaniola, and Puerto Rico; pantropical weed, described from India, probably native to Old World.  
 References: 4, 7, 160.
- Gnaphalium portoricense* Urb. = *Gnaphalium domingense* Lam.  
*Gnaphalium purpureum* L. = *Gamochaeta purpurea* (L.) Cabrera

*Helenium tenuifolium* Nutt., J. Acad. Nat. Sci. Philadelphia 7: 66. 1834.

Distribution: Native to Cayman Islands, Hispaniola, and North America.

Common Name: Manzanilla amarga (Dominican Republic).

References: 4, 7, 40, 136, 224.

Note: Considered exotic and invasive in Cuba by CeNBIO.

*Helenium quadridentatum* Labil., Actes Soc. Hist. Nat. Paris 1: 22. 1792.

Distribution: Native to Hispaniola, North America, and Mexico.

Common Name: Manzanilla amarga (Dominican Republic).

References: 5, 7, 136, 224.

Note: Considered exotic and invasive in Cuba by CeNBIO.

*Helenium scaposum* Britton, Bull. Torrey Bot. Club 43: 469. 1916.

Distribution: Endemic to Cuba.

References: 39, 136.

Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).

*Helenium tenuifolium* Nutt. = *Helenium amarum* (Raf.) H. Rock

*Helianthus annuus* L., Sp. Pl. 904. 1753.

Distribution: Cultivated throughout the West Indies; native to North America.

Common Names: Copa de júpiter, Flor del sol, Girasol, Jirasol, Mirasol (Cuba), Flor de sol, Girasol, Hélianthe (s) (Dominican Republic), Fleur se soleil, Fleurs soleil, Tournesol (Haiti), Sunflower (Jamaica), Girasol, Mirasol (Puerto Rico), Sunflower (Virgin Islands).

References: 1, 2, 4, 5, 7, 58, 61, 123, 131, 132, 224.

*Helianthus argophyllus* Torr. & A. Gray, Fl. N. Amer. 2: 318. 1842.

Distribution: Exotic in Bahamas; native to North America.

Common Name: Sunflower (Bahamas).

References: 45, 159.

*Helianthus debilis* Nutt. subsp. *cucumerifolius* (Torrey & A. Gray) Heiser, Madroño. 13: 160. 1956.

Distribution: Exotic in Cuba; native to North America.

References: 159, 254.

*Helianthus debilis* Nutt. subsp. *tardiflorus* Heiser, Madroño. 13: 154, figs. 5, 6. 1956.

Distribution: Exotic in Cuba; native to North America.

References: 159, 254.

*Helianthus tubiformis* Jacq. = *Tithonia tubiformis* (Jacq.) Cass.

*Helianthus tuberosus* L., Sp. Pl. 905. 1753.

Distribution: Cultivated in Cuba, Hispaniola, Puerto Rico, and Virgin Islands; native to North America.

Common Names: Pataca, Topinambour (Cuba), Flor del sol, Topi (Dominican Republic), Alcachofa, Girasole (Puerto Rico).

References: 5, 7, 58, 61, 123, 131, 132, 224.

*Helichrysum bracteatum* (Vent.) Andr., Bot. Repos. 6, t. 428. 1805;

*Xeranthemum bracteatum* Vent., Jard. Malmaison t. 2. 1803.

Distribution: Cultivated in Cuba, Hispaniola, Puerto Rico, and Virgin Islands; native to Australia.

Common Names: Eterna de Australia, Siempreviva, Siempreviva de Australia (Cuba), Botón de oro, Inmortales (Dominican Republic), Inmortal (Puerto Rico).

References: 7, 58, 61, 132, 224, 252.

\**Heptanthus brevipes* C. Wright ex Griseb., Cat. Pl. Cub. 148. 1866.

Distribution: Endemic to Cuba.

References: 39, 136.

Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).

\**Heptanthus cochlearifolius* Griseb., Cat. Pl. Cub. 148. 1866.

Distribution: Endemic to Cuba.

References: 39, 136.

Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).

\**Heptanthus cordifolius* Britton, Bull. Torrey Bot. Club 43: 455. 1916.

Distribution: Endemic to Cuba.

Reference: 136.

\**Heptanthus lobatus* Britton, Bull. Torrey Bot. Club 43: 455. 1916.

Distribution: Endemic to Cuba.

Reference: 136.

\**Heptanthus ranunculoides* Griseb., Cat. Pl. Cub. 148. 1866.

Distribution: Endemic to Cuba.

Reference: 136.

\**Heptanthus shaferi* Britton, Bull. Torrey Bot. Club 43: 455. 1916.

Distribution: Endemic to Cuba.

Reference: 136.

\**Heptanthus yumuriensis* Borhidi, Ann. Univ. Sci. Budapest. Rolando Eotvos, Sect. Biol. 14: 87. 1972.

Distribution: Endemic to Cuba.

References: 39, 149.

Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).

*Herodotia alainii* J. Jiménez Alm. = *Nesampelos alainii* (J. Jiménez Alm.) B. Nord.

\**Herodotia haitiensis* Urb. & Ekman, Ark. Bot. 20A(5): 64. 1926.

Distribution: Endemic to Hispaniola.

References: 5, 7.

*Herodotia mikanioides* Urb. & Ekman = *Ekmaniopappus mikanioides* (Urb. & Ekman) Borhidi

\**Herreranthus rivalis* (Greenm.) B. Nord., Comp. Newsl. 44: 62. 2006; *Senecio rivalis* Greenm., Publ. Field Columbian Mus., Bot. Ser. 2(8): 326. 1912.

Distribution: Endemic to Cuba.

References: 42, 136, 156.

*Hesperodoria scopulorum* (M.E. Jones) Green = *Chrysothamnus scopulorum* (M.E. Jones) Urbatsch, R.P. Roberts & Neubig

*Heterosperma diversifolium* Kunth in F.W.H.A. von Humboldt, A.J.A.

Bonpland & C.S. Kunth, Nov. Gen. Sp. (folio ed.) 4: 193. 1818.

Distribution: Native to Hispaniola and South America.

References: 5, 7.

*Heterotheca graminifolia* (Michx.) Shinners, Field & Lab. 19: 71.

1951; *Inula graminifolia* Michx., Fl. Bor.-Amer. 2: 122. 1803.

- Distribution: Native to Bahamas and North America.  
Common Name: Grass-leaved golden aster (Bahamas).  
Reference: 45.
- Hieracium ekmanii* Zahn = *Hieracium gronovii* L.
- Hieracium gronovii* L., Sp. Pl. 802. 1753.

- Senecio trineurus* Griseb. = *Leonis trineura* (Griseb.) B. Nord.
- Senecio valerianifolius* Link ex Spreng. = *Erechtites valerianifolius* (Link ex Spreng.) DC.
- Senecio vulgaris* L., Sp. Pl. 867. 1753.  
Distribution: Exotic in Cuba, Hispaniola, Jamaica, North America, and Mexico; native to Europe, Africa, and Asia.  
Common Names: Yerba cana (Cuba), Groundsel (Jamaica).  
References: 2, 5, 7, 112, 136, 224.  
Note: Considered an invasive species by CeNBIO.
- \**Shafera platyphylla* Greenm., Publ. Field Columbian Mus., Bot. Ser. 2(8): 327. 1912.  
Distribution: Endemic to Cuba.  
Reference: 136.
- Sigesbeckia agrestis* Poepp. in E.F. Poeppig & S.L. Endlicher, Nov. Gen. Sp. Pl. 3: 45. 1843.  
Distribution: Native to Hispaniola, Mexico, and South America.  
References: 5, 7, 152.
- Sigesbeckia jorullensis* Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (folio ed.) 4: 223. 1818.  
Distribution: Native to Hispaniola, Mexico, and South America.  
Reference: 7.
- Sigesbeckia orientalis* L., Sp. Pl. 900. 1753.  
Distribution: Exotic in Hispaniola; native to Africa, Asia, Australia, and Pacific Region.  
References: 7, 159.
- Sigesbeckia portoricensis* Bertero ex DC. = *Eleutheranthera ruderalis* (Sw.) Sch. Bip.
- Sigesbeckia pringlei* D.L. Schulz subsp. *tuerckheimii* D.L. Schulz, Haussknechtia, Mitt. Thüring. Bot. Ges., 4: 29. 1988.  
Distribution: Endemic to Hispaniola.  
References: 152, 254.
- Silphium trilobatum* L. = *Sphagneticola trilobata* (L.) Pruski
- Simsia foetida* (Cav.) S.F. Blake var. *jamaicensis* (S.F. Blake) D.M. Spooner = *Simsia jamaicensis* S.F. Blake
- Simsia jamaicensis* S.F. Blake, Proc. Amer. Acad. Arts 49: 388. 1913;  
*Simsia foetida* (Cav.) S.F. Blake var. *jamaicensis* (S.F. Blake) D.M. Spooner, Syst. Bot. Monogr. 30: 68. 1990.  
Distribution: Endemic to Jamaica.  
References: 2, 151.
- Solidago canadensis* L., Sp. Pl. 878. 1753.  
Distribution: Native to Hispaniola and North America.  
Common Name: Espiga de oro (Dominican Republic).  
References: 5, 7.
- Solidago domingensis* Spreng. = *Gundlachia domingensis* (Spreng.) A. Gray
- Solidago gigantea* Aiton, Hortus Kew. 3: 211. 1789.  
Distribution: Exotic in Virgin Islands (Tortola) and Lesser Antilles (Guadeloupe); native to North America.  
References: 151, 159, 254.
- Solidago lindeniana* A. Rich. = *Gundlachia domingensis* (Spreng.) A. Gray
- Solidago microglossa* DC., Prodr. 5: 332. 1836.  
Distribution: Native to Virgin Islands (Tortola) and South America.  
References: 61, 151, 231.
- Solidago missouriensis* Nutt., J. Acad. Nat. Sci. Philadelphia 7: 32. 1834.  
Distribution: Exotic in Puerto Rico; native to North America.  
References: 151, 159, 254.
- Solidago sempervirens* L., Sp. Pl. 878. 1753.  
*Solidago sempervirens* L. var. *mexicana* (L.) Fernald, Rhodora 37: 447. 1935.  
Distribution: Native to Bahamas, Cuba, Hispaniola, Puerto Rico, North America, and Mexico.  
Common Names: Seaside goldenrod (Bahamas), Espiga de oro, Lluvia de oro (Dominican Republic).  
References: 7, 45, 58, 61, 123, 136, 151, 254, 383.
- Solidago sempervirens* L. var. *mexicana* (L.) Fernald = *Solidago sempervirens* L.
- Solidago stricta* Aiton, Hortus Kew. 3: 216. 1789.  
Distribution: Native to Cuba and North America.  
Common Names: Pluma de oro, Plumeritos (Cuba).  
References: 136, 254.
- Sonchus arvensis* sensu Bello = *Sonchus oleraceus* L.
- Sonchus asper* (L.) Hill, Herb. Brit. 1: 47. 1769; *Sonchus oleraceus* L. var. *asper* L., Sp. Pl. 794. 1753.  
Distribution: Exotic in Bahamas, Hispaniola, Jamaica, Lesser Antilles (Antigua, Barbados, Guadeloupe, Martinique), and Puerto Rico.  
Common Names: Prickly sow thistle (Bahamas), Yerba espinosa, Lechuguilla (Dominican Republic).  
References: 1, 2, 5, 7, 45, 58, 61, 383.
- Sonchus oleraceus* L., Sp. Pl. 794. 1753.  
*Sonchus arvensis* sensu Bello, Anales Soc. Esp. Hist. Nat. 10: 286. 1881, non L.  
Distribution: Exotic in Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas, Tortola), Lesser Antilles (Anguilla, Antigua, Barbados, Dominica, Grenada, Grenadines, Guadeloupe, Martinique, Montserrat, Saba, St. Barthélemy, St. Eustatius, St. Lucia, St. Martin, St. Vincent), Trinidad, Margarita, North America, Mexico, Central America, and South America; native to Europe, Africa, and Asia.  
Common Names: Sow thistle (Bahamas), Algodoncillo, Cerraja, Cerraja lechosa (Cuba), Achicoria, Borraja, Borraja morada, Chicoria, Lechuguilla, Lechuguillo (Dominican Republic), Chicorée marrón (Haiti), Sow-thistle (Jamaica), Bouton blanc, Herbe à lapin, Laitue, Sow thistle (Lesser Antilles), Achicoria, Achicoria silvestre Chicoria (Puerto Rico).  
References: 1, 2, 5, 7, 19, 30, 45, 58, 75, 136, 151, 224, 301, 323, 340.  
Note: Considered an invasive species by CeNBIO.
- Sonchus oleraceus* L. var. *asper* L. = *Sonchus asper* (L.) Hill

*Tetracanthus humilis* C. Wright ex Griseb., Cat. Pl. Cub. 153. 1866.

Distribution: Endemic to Cuba.

References: 30, 39, 136.

Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39).

\**Thymopsis brittonii* Greenm., Bull. New York Bot. Gard. 3: 453.

1905; *Neothymopsis brittonii* (Greenm.) Britton & Millsp.,

Bahama Fl. 455. 1920.

Distribution: Endemic to Bahamas.

References: 45, 136, 152.

Candollea 17: 120. 1960; *Neothymopsis polyantha* Urb., Repert.

Spec. Nov. Regni Veg. 26: 113. 1929; *Thymopsis thymoides*

(Griseb.) Urb. subsp. *polyantha* (Urb.) Borhidi & O. Muñiz, Bot.

Közlem. 58: 177. 1971.

Distribution: Endemic to Cuba.

References: 39, 136, 149, 152.

Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39).

*Thymopsis wrightii* Benth. = *Thymopsis thymoides* (Griseb.) Urb. var. *thymoides*

*Tilesia baccata* (L.) Pruski, Novon 6: 414. 1996; *Wulffia baccata* (L.)

Kuntze, Revis. Gen. Pl. 1: 373. 1891; *Coreopsis baccata* L., Pl.

Surin. 14. 1775.

*Wulffia baccata* (L.) Kuntze var. *vincentina* O.E. Schulz in I. Urban,

Symb. Antill. 7: 93. 1911.

*Wulffia havanensis* DC., Prodr. 5: 563. 1836.

Distribution: Native to Cuba, Hispaniola, Lesser Antilles (Dominica,

Guadeloupe, Martinique, St. Lucia, St. Vincent), Tobago, Trinidad,

Margarita, Central America, and South America.

Common Name: Gros bouton (Lesser Antilles).

References: 1, 5, 7, 30, 136, 149, 151, 301, 323.

*Tilesia spilanthis* Griseb. = *Wedelia serrata* Rich. var. *serrata*

*Tithonia diversifolia* (Hemsl.) A. Gray, Proc. Amer. Acad. Arts 19: 5.

1883; *Mirasolia diversifolia* Hemsl., Biol. Cent.-Amer., Bot. 2(8): 168. 1881.

Distribution: Exotic in Bahamas, Cuba, Hispaniola, Jamaica, Puerto

Rico, Virgin Islands (Tortola), Lesser Antilles (Antigua, Barbados,

Dominica, Grenada, Guadeloupe, Martinique, Montserrat, St.

Kitts, St. Lucia, St. Vincent), and Trinidad; native to Mexico and

Central America.

Common Names: Mexican sunflower (Bahamas), Flor amarilla, Girasol

enano, Girasolillo, Margarita gigante, Margarita isleña, Margarita

mexicana, Margaritona (Cuba), Escopeta, Margarita haitiana

(Dominican Republic), Belle vénus, Fleurs soleil (Haiti), Mexican

sunflower (Jamaica), Girasol mejicano, Girasol pequeño, Mirasol

mejicano, Mirasol pequeño (Puerto Rico).

References: 1, 2, 5, 7, 45, 58, 61, 136, 150, 224, 231, 301.

Note: Considered an invasive species by CeNBIO.

*Tithonia rotundifolia* (Mill.) S.F. Blake, Contr. Gray Herb. 52: 41.

1917; *Tagetes rotundifolia* Mill., Gard. Dict., ed. 8. 1768.

*Tithonia speciosa* Hook. ex Griseb., Cat. Pl. Cub. 155. 1866.

*Tithonia tagetiflora* Desf., Ann. Mus. Natl. Hist. Nat. 1: 46. 1802.

Distribution: Exotic in Cuba, Hispaniola, Puerto Rico, Lesser Antilles

(Guadeloupe, Martinique, Saba, St. Lucia), and Trinidad; native to

Mexico and Central America.

Common Names: Titonia (Cuba), Escopeta (Dominican Republic), Belle

Vénus (Haiti), Fleur-soleil, Sunflower (Lesser Antilles), Escopeta

(Puerto Rico).

References: 1, 5, 7, 30, 58, 61, 136, 150, 151, 224, 301.

Note: Considered an invasive species by CeNBIO.

*Crassina multiflora* (L.) Kuntze, Revis. Gen. Pl. 1: 331. 1891; *Zinnia multiflora* L., Sp. Pl., ed. 2, 1269. 1763.

Distribution: Exotic in Bahamas, Cuba, Hispaniola, Puerto Rico, and Virgin Islands (Virgin Gorda); native to southwestern United States, Mexico, Central America, and South America.

Common Names: Celia, Escopeta, Mariela, Zinnia (Dominican Republic), Bouton d'or (Haiti), Cabrón, Clavelón, Escopetón, Eterno, Zinia, Zinia del monte (Puerto Rico).

References: 5, 7, 45, 58, 61, 131, 136, 224, 340.

Note: Considered an invasive species by CeN BIO.

*Zinnia violacea* Cav., Icon. 1: 57. 1791.

Distribution: Exotic in Puerto Rico; native to Mexico.

Reference: 159.

#### DOUBTFUL NAMES

*Eupatorium buchii* Urb., Repert. Spec. Nov. Regni Veg. 17: 9. 1921. Described from Haiti, and apparently a *Koanophyllon*, but belonging to a complex with unresolved taxonomic status.

*Eupatorium bullulatum* Urb. & Ekman, Ark. Bot. 23A(11): 67. 1931. Described from Haiti, but of unknown application, type is a sterile specimen.

*Eupatorium constanzae* Urb., Symb. Antill. 7: 422. 1912. Apparently a *Koanophyllon*, but belonging to a complex with unresolved taxonomic status.

*Eupatorium jacquemontii* Urb., Repert. Spec. nov. Regni Veg. 17: 50. 1921.

A species known only from the type; possibly a *Koanophyllon*, but we have not been able to study the type to make this determination.

*Eupatorium larcheanum* Urb., Repert. Spec. nov. Regni Veg. 17: 52. 1921.

A species little known to us, possibly a *Koanophyllon*. Recent material cited by Liogier (7), but some of them refer to *Koanophyllon gabbii* (Urb.) R.M. King & H. Rob.

*Eupatorium medullosum* Urb., Symb. Antill. 3: 393. 1903.

The Application of this name is doubtful as the type seem to be a mixture of two collections, from Martinique. King and Robinson referred this name to the genus *Chromolaena*, but did not make a combination.

*Eupatorium menthifolium* Poepp. ex Spreng., Syst. Veg., ed. 16, 3: 412. 1826.

Distribution: Cuba.

References: 136, 152.

Note: Name of unknown application.

*Wedelia ebrenbergii* Less. var. *mayerhoffii* O.E. Schulz in I. Urban, Symb. Antill. 7: 111. 1911.

Reference: 30.

Note: A taxon described as endemic to Hispaniola, however, the name has not been used by modern botanists.

## BALANOPHORACEAE

**Genera.** Total: 2; native: 2; endemic: 0.

**Taxa.** Total: 2; native: 2; endemic: 1.

*Cynomorium cayenense* Sw. = *Helosis cayenensis* (Sw.) Spreng. var. *cayenensis*

*Cynomorium jamaicense* Sw. = *Scybalium jamaicense* (Sw.) Schott & Endl.

*Helosis cayenensis* (Sw.) Spreng. var. *mexicana* (Liebm.) B. Hansen, Bot. Tidsskr. 72: 188. 1978.

*Helosis guyanensis* Rich., Mém. Mus. Hist. Nat. 8: 416. 1822.

Distribution: Native to Cuba, Lesser Antilles (Dominica, Martinique, St. Lucia), Mexico, and Central America.

References: 3, 105.

*Helosis guyanensis* Rich. = *Helosis cayenensis* (Sw.) Spreng. var. *mexicana* (Liebm.) B. Hansen

*Helosis jamaicensis* (Sw.) Rich. = *Scybalium jamaicense* (Sw.) Schott & Endl.

*Phyllocoryne jamaicensis* (Sw.) Hook. f. = *Scybalium jamaicense* (Sw.) Schott & Endl.

*Scybalium jamaicense* (Sw.) Schott & Endl., Melet. Bot. 12. 1832; *Cynomorium jamaicense* Sw., Prodr. 12. 1788; *Helosis jamaicensis* (Sw.) Rich., Mém. Mus. Hist. Nat. 8: 432. 1822; *Phyllocoryne jamaicensis* (Sw.) Hook. f., Trans. Linn. Soc. London 22: 31. 1856.

Distribution: Endemic to Greater Antilles; native to Cuba, Hispaniola, Jamaica, and Puerto Rico.

Common Names: Retoño de la tierra (Dominican Republic), John crow nose (Jamaica).

References: 2, 3, 5, 6, 7, 58, 61, 105, 123, 151.

Note: Known in Puerto Rico from a single, old collection.

## BALSAMINACEAE

**Genera.** Total: 1; native: 0; endemic: 0.

**Taxa.** Total: 2; native: 0; endemic: 0.

*Impatiens balsamina* L., Sp. Pl. 938. 1753.

Distribution: Naturalized in Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands, and Lesser Antilles (Barbados, Dominica, Guadeloupe, Martinique, Montserrat, St. Eustatius, St. Lucia); native to tropical Asia.

Common Names: Espuela, Espuela de gallo, Jardines, Madama, Miramelindo, Nicaragua (Cuba), Capricho, Espolines, Espuela de

caballero, Espuelilla, Espuelina, Espuelines (Dominican Republic), Balsamine, Balsamine des jardins, Belle z'amie, Impatience (Haiti), Gekweekt, Impatience (Lesser Antilles), Espuela de galán, Miramelinda (Puerto Rico).

References: 1, 2, 5, 7, 58, 61, 123, 131, 132, 150, 159, 224.

Note: Considered an invasive species by CeNBIO; reported by Britto & Wilson for the Virgin Islands, but no island indicated.

*Impatiens walleriana* Hook. f. in D. Oliver, Fl. Trop. Afr. 1: 302. 1868.

*Impatiens sultanii* Hook. f., Bot. Mag. 108: t. 6643. 1882.

Distribution: Exotic in Hispaniola, Puerto Rico, and Lesser Antilles (Guadeloupe, Martinique, St. Lucia); native to tropical Africa.

Common Names: Balsamine, Impatience (Lesser Antilles), Alegría, Besos, Miramelinda (Puerto Rico).

References: 1, 7, 58, 61, 131, 150, 151, 159.

## BASELLACEAE

Genera. Total: 2; native: 1; endemic: 0.

Taxa. Total: 4; native: 1; endemic: 0.

*Anredera baselloides* (Kunth) Baill., Hist. Pl. 9: 147. 1887;

*Boussingaultia baselloides* Kunth in F.W.H.A. von Humboldt, A.J.A.

Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 7: 196. 1825.

Distribution: Exotic in Hispaniola; native to South America.

Common Name: Suelda con suelda (Dominican Republic).

References: 6, 7, 61, 123, 156.

*Anredera cordifolia* (Ten.) Steenis, Fl. Males., ser. 1, Spermat. 5(3): 303. 1957.

Distribution: Exotic in Puerto Rico; native to South America.

References: 32, 150, 252.

*Anredera leptostachys* (Moq.) Steenis = *Anredera vesicaria* (Lam.) C.F. Gaertn.

*Anredera scandens* sensu Bello = *Anredera vesicaria* (Lam.) C.F. Gaertn.

*Anredera vesicaria* (Lam.) C.F. Gaertn., Suppl. Carp. 176. 1807;

*Basella vesicaria* Lam., Encycl. 1: 382. 1785.

*Anredera leptostachys* (Moq.) Steenis, Fl. Males., ser. 1, Spermat.

5(3): 302. 1957; *Boussingaultia leptostachys* Moq. in A.L.P.P. de Candolle, Prodr. 13(2): 229. 1849.

*Anredera scandens* sensu Bello, Anales Soc. Esp. Hist. Nat. 12: 106. 1883, non Moq.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas, Tortola), Lesser Antilles (Antigua, Barbados, Grenada, Guadeloupe, Martinique, St. Barthélemy, St. Lucia), North America, Central America, and South America.

Common Names: Consuelda, Suelda con suelda (Puerto Rico).

References: 1, 2, 3, 4, 7, 19, 30, 32, 45, 58, 61, 151, 340.

*Basella alba* L., Sp. Pl. 272. 1753.

*Basella rubra* L., Sp. Pl. 272. 1753.

Distribution: Exotic in Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Tortola), and Lesser Antilles (Barbados, Barbuda, St. Lucia); pantropical.

Common Names: Country spinach (Bahamas), Country spinach (Jamaica), Malabar spinach (Lesser Antilles), Acelga trepadora, Breñaña, Espinaca de Nueva Zelandia, Libato (Puerto Rico).

References: 1, 2, 3, 5, 6, 7, 32, 45, 58, 224, 231, 340.

Note: Considered an invasive species by CeNBIO.

*Basella rubra* L. = *Basella alba* L.

*Basella vesicaria* Lam. = *Anredera vesicaria* (Lam.) C.F. Gaertn.

*Boussingaultia baselloides* Kunth = *Anredera baselloides* (Kunth) Baill.

*Boussingaultia leptostachys* Moq. = *Anredera vesicaria* (Lam.) C.F. Gaertn.

## BATACEAE

Genera. Total: 1; native: 1; endemic: 0.

Taxa. Total: 1; native: 1; endemic: 0.

*Batis maritima* L., Syst. Nat., ed. 10, 1289. 1759.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola,

Jamaica, Puerto Rico, Virgin Islands (Anegada, St. Croix, St.

John, St. Thomas, Tortola), Lesser Antilles (Anguilla, Antigua,

Grenada, Guadeloupe, Martinique, Saba, St. Barthélemy, St. Kitts,

St. Martin), Aruba, Bonaire, Curaçao, Margarita, North America,

Mexico, Central America, and South America.

Common Names: Saltwort, Turtle-weed (Bahamas), Barrilla, Peregil de

costa, Peregil de playa, Peregil de costa, Platanito, Verdolaguilla

blanca, Yerba de vidrio (Cuba), Barrilla, Verdolaga rosada

(Dominican Republic), Crisse marin marron, Crisse marine

(Haiti), Jamaican samphire (Jamaica), Barilla, Planta de sal (Puerto

Rico), Saltwort (Virgin Islands).

References: 1, 2, 3, 4, 5, 6, 7, 19, 32, 45, 58, 61, 323, 340.

## BEGONIACEAE

Genera. Total: 1; native: 1; endemic: 0.

Taxa. Total: 55; native: 42; endemic: 39.

*Begonia abbottii* Urb., Repert. Spec. Nov. Regni Veg. 18: 192. 1922.

Distribution: Endemic to Hispaniola (Haiti).

Reference: 7.

*Begonia aconitifolia* A. DC., Ann. Sci. Nat. Bot., sér. 4, 11: 127. 1859.

Distribution: Exotic in Hispaniola; native to Brazil.

References: 7, 159.

*Begonia acutifolia* Balb. = *Begonia decandra* Pav. ex A. DC.

*Begonia acutifolia* Jacq., Collectanea 1: 128. 1787 ["1786"].

*Begonia obliqua* sensu León & Alain, Fl. Cuba 3: 355. 1953, non L.

Distribution: Endemic to Greater Antilles; native to Cuba and Jamaica.

References: 2, 3, 39, 176.

Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).

*Begonia acutifolia* Sw. = *Begonia jamaicensis* A. DC.

*Begonia alcarrasica* J. Sierra, Revista Jard. Bot. Nac. Univ. Habana 10(2): 104. 1990 ["1989"].

Distribution: Endemic to Cuba.

References: 39, 176.

Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).

*Begonia azuensis* Urb. & Ekman, Ark. Bot. 23A(5): 91. 1930.

Distribution: Endemic to Hispaniola (Dominican Republic).

Reference: 7.

*Begonia banaoensis* J. Sierra, Revista Jard. Bot. Nac. Univ. Habana 10(2): 106. 1990 ["1989"].

Distribution: Endemic to Cuba.

Reference: 176.

*Begonia barahonensis* (O.E. Schulz) Urb., Repert. Spec. Nov. Regni Veg. 18: 193. 1922; *Begonia plumieri* DC. var. *barahonensis* O.E. Schulz in I. Urban, Symb. Antill. 7: 23. 1911.

Distribution: Endemic to Hispaniola (Dominican Republic).

References: 7, 30.

*Begonia bissei* J. Sierra, Revista Jard. Bot. Nac. Univ. Habana 10(2): 105. 1990 ["1989"].

Distribution: Endemic to Cuba.

References: 39, 176.

Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).

*Begonia bolleana* Urb. & Ekman, Ark. Bot. 23A(5): 92. 1930.

Distribution: Endemic to Hispaniola.

Common Names: Cocaria, Ocaria (Dominican Republic).

References: 7, 123.

*Begonia brachyclada* Urb. & Ekman, Ark. Bot. 23A(5): 99. 1930.

Distribution: Endemic to Hispaniola (Haiti).

Reference: 7.

*Begonia brachypoda* O.E. Schulz in I. Urban, Symb. Antill. 7: 15. 1911.

*Begonia brachypoda* O.E. Schulz var. *pilosula* O.E. Schulz ex O.C.

Schmidt, Repert. Spec. Nov. Regni Veg. 32: 86. 1933.

Distribution: Endemic to Hispaniola.

Common Names: Cocaria, Ocaria, Pinkish shade (Dominican Republic).

References: 5, 7, 30, 123.

*Begonia bullata* Urb. & Ekman, Ark. Bot. 23A(5): 98. 1930.

Distribution: Endemic to Hispaniola (Haiti).

Reference: 7.

*Begonia coccinea* Hook., Bot. Mag. 69: t. 3990. 1843.

Distribution: Exotic in Cuba and Puerto Rico; native to Brazil.

Common Name: Begonia ala de ángel (Cuba).

References: 58, 132, 151, 159, 252.

*Begonia convolvulacea* (Klotzsch) A. DC. in C.F.P. von Martius, Fl. Bras. 4(1): 367. 1861.

Distribution: Exotic in Jamaica and Puerto Rico; native to Brazil.

References: 2, 58, 159.

*Begonia cowellii* Nash, Addisonia 1: 9. 1916.

*Begonia ekmanii* Houghton ex L.B. Sm. & B.G. Schub., Contr. Gray Herb. 154: 23. 1945.

Distribution: Endemic to Cuba.

References: 3, 39, 156, 176.

Note: Considered extinct by the Red List of the Vascular Flora of Cuba (39).

*Begonia cubensis* Hassk., Hort. Bogor. Descr. 342. 1858.

*Begonia cubincola* A. DC., Ann. Sci. Nat. Bot., sér. 4, 11: 124. 1859.

*Begonia lindeniana* A. DC., Ann. Sci. Nat. Bot., sér. 4, 11: 123. 1859.

Distribution: Endemic to Cuba.

Common Name: Begonia (Cuba).

References: 3, 39, 132, 176.

Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).

*Begonia cubincola* A. DC. = *Begonia cubensis* Hassk.

*Begonia cucullata* Willd., Sp. Pl. 4: 414. 1805, var. *cucullata*

*Begonia cucullata* Willd. var. *hookeri* (Sweet) L.B. Sm. & B.G. Schub., Darwiniana 5: 104. 1941.

*Begonia semperflorens* Link & Otto, Icon. Pl. Rar. 9: t. 5. 1828.

Distribution: Exotic in Cuba, Hispaniola, Puerto Rico, and Lesser Antilles (Guadeloupe); native to South America.

Common Names: Begonia, Begonia enana florida, Begonia semperflorens (Cuba).

References: 7, 30, 58, 61, 132, 150, 151, 159, 176, 252, 254.

*Begonia cucullata* Willd. var. *hookeri* (Sweet) L.B. Sm. & B.G. Schub. = *Begonia cucullata* Willd. var. *cucullata*

*Begonia decandra* Pav. ex A. DC., Ann. Sci. Nat. Bot., sér. 4, 11: 122. 1859.

*Begonia acutifolia* Balb., Kl. Begon. 25. 1855, *nom. illeg.*

*Begonia portoricensis* A. DC., Prodr. 15 (1): 295. 1864.

Distribution: Endemic to Puerto Rico.

Common Names: Begonia, Begonia de poeta, Begonia de sierra,

Begonia nativa, Corazón de poeta (Puerto Rico).

References: 58, 61, 131, 152.

*Begonia domingensis* A. DC., Ann. Sci. Nat. Bot., sér. 4, 11: 124. 1859, var. *domingensis*

Distribution: Endemic to Hispaniola.

Common Names: Cocaria, Ocaria (Dominican Republic).

References: 5, 7, 123.

*Begonia domingensis* A. DC. var. *oligostemon* Urb., Repert. Spec. Nov. Regni Veg. 18: 192. 1922.

Distribution: Endemic to Hispaniola (Dominican Republic).

Reference: 7.

*Begonia dominicalis* A. DC. = *Begonia obliqua* L.

*Begonia ekmanii* Houghton ex L.B. Sm. & B.G. Schub. = *Begonia cowellii* Nash

*Begonia exilis* O.E. Schulz in I. Urban, Symb. Antill. 7: 7. 1911.

Distribution: Endemic to Hispaniola (Haiti).

References: 5, 7, 30.

*Begonia cf. falcifolia* Hook. f., Bot. Mag. 94: t. 5707. 1868.

Distribution: Exotic (escaped) in Puerto Rico; native to Peru.

Reference: 254.

*Begonia fischeri* Schrank, Pl. Rar. Hort. Monac. 2: t. 59. 1820.

*Begonia fischeri* Schrank var. *tovarensis* (Klotzsch) Irmsch., Bot. Jahrb.

Syst. 76: 23. 1953; *Begonia towarensis* Klotzsch, Abh. Königl.

Akad. Wiss. Berlin 1854: 122. 1855.

*Begonia patula* Haw., J. Wash. Acad. Sci. 40: 245. 1950.

Distribution: Native to Cuba, Jamaica, Mexico, Central America, and South America.

References: 2, 39, 149, 151, 176.

Note: Considered extinct by the Red List of the Vascular Flora of Cuba (39).

*Begonia fischeri* Schrank var. *tovarensis* (Klotzsch) Irmsch. = *Begonia fischeri* Schrank

*Begonia glaberrima* Urb. & Ekman, Ark. Bot. 23A(5): 99. 1930.

Distribution: Endemic to Hispaniola (Haiti).

References: 7, 357.

*Begonia glabra* Aubl., Hist. Pl. Guiane 2: 916. 1775.

Distribution: Native to Cuba, Jamaica, Trinidad, Margarita, Mexico, Central America, and South America.

Common Name: Begonia (Cuba).

References: 2, 3, 132, 151, 323.

*Begonia guaduensis* Kunth in F.W.H.A. von Humboldt, A.J.A.

Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 7: 178. 1825.

Distribution: Exotic in Jamaica; native to northern South America.

References: 2, 357.

*Begonia heracleifolia* Schltdl. & Cham., Linnaea 5: 603. 1830.

Distribution: Exotic in Cuba, Hispaniola, and Puerto Rico; native to Mexico and Central America.

Common Names: Begonia, Begonia peluda (Cuba).

References: 7, 58, 61, 132, 159, 252.

*Begonia hirtella* Link, Enum. Hort. Berol. Alt. 2: 396. 1822.

Distribution: Exotic in Jamaica, Puerto Rico, and Lesser Antilles

(Guadeloupe, Martinique); native to South America.

Common Name: Oseille-bois (Lesser Antilles).

References: 1, 2, 150, 252.

*Begonia humilis* Dryand. in W.T. Aiton, Hortus Kew. 3: 353. 1789.

Distribution: Native to Jamaica, Lesser Antilles (Dominica, Grenada, St. Lucia), Tobago, Trinidad, and South America.

Common Name: Oseille-bois (Lesser Antilles).

References: 1, 2, 301.

- Begonia incarnata* Link & Otto, Icon. Pl. Rar. 4: 37. 1829.  
Distribution: Exotic in Cuba, and Hispaniola; native to Mexico.  
Common Name: Begonia (Cuba).  
References: 7, 132.
- Begonia jamaicensis* A. DC., Ann. Sci. Nat. Bot., sér. 4, 11: 124. 1859.  
*Begonia purpurea* Sw., Prodr. 86. 1788.  
*Begonia acutifolia* Sw., Fl. Ind. Occid. 2(2): 994. 1800.  
Distribution: Endemic to Jamaica.  
References: 2, 152, 357.
- Begonia leivae* J. Sierra, Revista Jard. Bot. Nac. Univ. Habana 10(2): 103. 1990 ["1989"].  
Distribution: Endemic to Cuba.  
References: 39, 176.  
Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).
- Begonia leuconeura* Urb. & Ekman, Ark. Bot. 23A(5): 97. 1930.  
Distribution: Endemic to Hispaniola (Haiti).  
Reference: 7.
- Begonia libanensis* Urb., Repert. Spec. Nov. Regni Veg. 21: 217. 1925.  
Distribution: Endemic to Cuba.  
References: 3, 39, 176.  
Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).
- Begonia lindeniana* A. DC. = *Begonia cubensis* Hassk.
- Begonia linearifolia* J. Sierra, Revista Jard. Bot. Nac. Univ. Habana 12: 43. 1993 ["1991"].
- Begonia stenophylla* J. Sierra, Revista Jard. Bot. Nac. Univ. Habana 10(1): 18. 1990 ["1989"], *nom. illeg.*  
Distribution: Endemic to Cuba.  
References: 39, 176.  
Note: Considered extinct by the Red List of the Vascular Flora of Cuba (39).
- Begonia lomensis* Britton & P. Wilson, Bull. Torrey Bot. Club 50: 43. 1923.  
Distribution: Endemic to Cuba.  
References: 3, 39, 156, 176.  
Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39).
- Begonia maculata* Raddi, Mem. Mat. Fis. Soc. Ital. Sci. Modena, Pt. Mem. Fis. 18: 406. 1820.  
Distribution: Exotic in Cuba and Hispaniola; native to South America.  
Common Names: Begonia, Begonia manchada (Cuba).  
References: 7, 132, 159.
- Begonia maestrensis* Urb., Repert. Spec. Nov. Regni Veg. 21: 216. 1925.  
Distribution: Endemic to Cuba.  
References: 3, 39, 176.  
Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).
- Begonia minor* Jacq., Collectanea 1: 126. 1787 ["1786"].  
Distribution: Endemic to Jamaica.  
References: 2, 7.
- Begonia nelumbiifolia* Schldtl. & Cham., Linnaea 5: 604. 1830.  
Distribution: Exotic in Cuba, Hispaniola, and Puerto Rico; native from Mexico to Colombia.  
Common Names: Begonia nelumbiforme, Begonia (Cuba).  
References: 7, 58, 61, 132, 224, 252, 357.  
Note: Considered an invasive species by CeNBIO.
- Begonia notiophila* Urb., Ark. Bot. 23A(5): 90. 1930.  
Distribution: Endemic to Hispaniola (Haiti).  
Reference: 7.
- Begonia obliqua* L., Sp. Pl. 1056. 1753.  
*Begonia dominicalis* A. DC., Fl. Brit. W. I. 304. 1860.  
Distribution: Endemic to Lesser Antilles (Dominica, Guadeloupe, Martinique).  
Common Names: Ciriél, L'eau zay, Loze, Oseille-bois (Lesser Antilles).  
References: 1, 3, 152, 176.

*Begonia vincentina* O.E. Schulz in I. Urban, Symb. Antill. 7: 14. 1911.  
*Begonia vincentina* O.E. Schulz var. *scopulicola* O.E. Schulz in I. Urban, Symb. Antill. 7: 15. 1911.

Distribution: Endemic to Lesser Antilles (Grenada, St. Lucia, St. Vincent).  
Common Name: Hunter-man blossom (Lesser Antilles).  
References: 1, 30.

*Begonia vincentina* O.E. Schulz var. *scopulicola* O.E. Schulz = *Begonia vincentina* O.E. Schulz in I. Urban

*Begonia wrightiana* A. DC., Ann. Sci. Nat. Bot., sér. 4, 11: 123. 1859.  
Distribution: Endemic to Cuba.  
Common Name: Mosaico (Cuba).  
References: 3, 39, 132, 176.  
Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).

#### EXCLUDED SPECIES

*Begonia x erythrophylla* Hort. ex Herincq, Rev. Hort., ser. 3(1): 111. 1847.  
Reference: 7.  
Note: A doubtful record, reported as exotic in Hispaniola.

### BERBERIDACEAE

Genera. Total: 1; native: 0; endemic: 0.  
Taxa. Total: 1; native: 0; endemic: 0.

*Berberis tenuifolia* Lindl., Edward's Bot. Reg. 24(Misc.): 64. 1838.  
Distribution: Exotic in Cuba; native to Mexico.  
References: 3, 159.

### BIGNONIACEAE

Genera. Total: 28; native: 16; endemic: 2.  
Taxa. Total: 121; native: 98; endemic: 83.

*Adenocalymma grenadense* Urb. = *Adenocalymma inundatum* Mart.

*Adenocalymma inundatum* Mart. in A.L.P.P. de Candolle, Prodr. 5: 201. 1836.

*Adenocalymma grenadense* Urb., Repert. Spec. Nov. Regni Veg. 14: 306. 1916.

Distribution: Native to Lesser Antilles (Grenada, St. Vincent), Mexico, Central America, and South America.  
Reference: 1.

*Adenocalymma obovatum* Urb. = *Mansoa hymenaea* (DC.) A.H. Gentry

*Adenocalymma portoricense* A. Stahl = *Arrabidaea chica* (Humb. & Bonpl.) Verlot

*Amphilophium crucigerum* (L.) L.G. Lohman, Nuevo Cat. Fl. Vasc. Venezuela 270. 2008; *Bignonia crucigera* L., Sp. Pl. 624. 1753; *Pithecoctenium crucigerum* (L.) A. H. Gentry, Taxon 24: 123. 1975.

*Pithecoctenium echinatum* (Jacq.) Baill., Hist. Pl. 10: 8. 1888.  
Distribution: Native to Cuba, Jamaica, Trinidad, Mexico, Central America, and South America.

Common Name: Monkey comb (Jamaica).  
References: 2, 3, 159.

*Amphilophium lactiflorum* (Vahl) L.G. Lohman, Nuevo Cat. Fl. Vasc. Venezuela 271. 2008; *Bignonia lactiflora* Vahl, Symb. Bot. 3: 80. 1794; *Distictis lactiflora* (Vahl) DC., Prodr. 9: 191. 1845; *Macrodiscus lactiflorus* (Vahl) Bureau ex K. Schum. in H.G.A. Engler & K.A.E. Prantl, Nat. Pflanzenfam. 4(3b): 216. 1894.

*Bignonia odorata* Bello, Anales Soc. Esp. Hist. Nat. 10: 293. 1881.  
Distribution: Endemic to Greater Antilles; native to Cuba, Hispaniola, Puerto Rico, and Virgin Islands (St. Croix, St. Thomas).  
Common Names: Bejuco de culebra (Dominican Republic), Liane blanche (Haiti), Liana fragante, Viuda (Puerto Rico).  
References: 3, 5, 7, 30, 32, 58, 61, 75, 123, 131, 132, 151, 340.

*Amphilophium paniculatum* (L.) Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 3: 149. 1819; *Bignonia paniculata* L., Sp. Pl. 623. 1753.

Distribution: Native to Puerto Rico, Lesser Antilles (Dominica, Guadeloupe, Martinique, St. Lucia, St. Vincent), Mexico, Central America, and South America.

Common Names: Liane à canots (Lesser Antilles), Liana de cuello (Puerto Rico).  
References: 1, 32, 58, 61, 75, 131, 340.

*Ampbitecna latifolia* (Mill.) A.H. Gentry, Taxon 25: 108. 1976; *Crescentia latifolia* Mill., Gard. Dict., ed. 8. 1768; *Enallagma latifolia* (Mill.) Small, Fl. Miami 171. 1913.

*Crescentia coriacea* Miers, Trans. Linn. Soc. London 26: 177. 1868.

*Crescentia cucurbitina* L., Mant. Pl. 2: 250. 1771; *Enallagma cucurbitina* (L.) Baill. ex K. Schum. in H.G.A. Engler & K.A.E. Prantl, Nat. Pflanzenfam. 4(3b): 247. 1894.

*Crescentia cucurbitina* L. var. *heterophylla* Kuntze, Revis. Gen. Pl. 2: 479. 1891.

*Crescentia elongata* Miers, Trans. Linn. Soc. London 26: 178. 1868.

*Crescentia lethifera* Tussac, Fl. Antill. 4: 50. 1827.

Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas), Lesser Antilles (Dominica, Marie Galante, Martinique, St. Vincent), Mexico, Central America, and South America.

Common Names: Guira cimarrona, Higüerillo galión, Higüerillo jamo, Higüero de río, Huguerrillo (Dominican Republic), Bashe marrón, Calebasse marrón, Calebasse zombi (Haiti), Black calabash (Lesser Antilles).

References: 1, 2, 3, 7, 19, 30, 58, 61, 64, 75, 104, 123, 150, 151, 340.

*Arrabidaea chica* (Humb. & Bonpl.) Verlot, Rev. Hort. 40: 154. 1868; *Bignonia chica* Humb. & Bonpl., Pl. Aequinoct. 1: 107. 1807.

*Adenocalymma portoricense* A. Stahl, Estud. Fl. Puerto Rico 6: 186. 1888.

Distribution: Native to Puerto Rico, Virgin Islands (St. John), Lesser Antilles (Dominica), Central America, and South America.

References: 1, 19, 30, 32, 58, 61, 75, 151.

Note: This species is currently being transferred into the genus *Fridericia* by L.G. Lohman.

*Arrabidaea magnifica* (W. Bull) Sprague ex Steenis = *Bignonia magnifica* W. Bull

*Arrabidaea podopogon* (DC.) A.H. Gentry, Rhodora 79: 439. 1977; *Spathodea podopogon* DC., Prodr. 9: 205. 1845; *Macfadyena podopogon* (DC.) Griseb., Cat. Pl. Cub. 195. 1866.

Distribution: Native to Cuba, Mexico, and Central America.

References: 3, 151, 152.

Note: This species is currently being transferred into the genus *Fridericia* by L.G. Lohman.

*Batocydia unguis* (L. ex DC.) Mart. ex DC. = *Dolichandra unguis-cati* (L.) L.G. Lohman

*Bignonia aequinoctialis* L., Sp. Pl. 623. 1753; *Cydista aequinoctialis* (L.) Miers, Proc. Roy. Hort. Soc. London 3: 191. 1863.

*Bignonia spectabilis* Vahl, Symb. Bot. 3: 80. 1794.

Distribution: Native to Cuba, Hispaniola, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas), Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Grenadines, Guadeloupe, Marie Galante, Martinique, St. Lucia, St. Vincent), Margarita, Central America, and South America.

Common Names: Bejuco blanco, Bejuco de canasta (Dominican Republic), Liane-crabe (Lesser Antilles), Bejuco blanco, Liana de sierra (Puerto Rico), Guard wiss (Virgin Islands).

References: 1, 3, 5, 7, 30, 32, 75, 123, 131, 150, 323, 340.

*Tecoma berteroi* sensu A. Stahl, Estud. Fl. Puerto Rico 6: 176. 1888,  
non A. DC.

*Tecoma eggertii* Kraenzl., Repert. Spec. Nov. Regni Veg. 17: 219. 1921.

Distribution: Endemic to the West Indies; native to Bahamas, Cayman  
Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands  
(Anegada, Guana, Jost van Dyke, St. Croix, St. John, St. Thomas,  
Tortola, Virgin Gorda), Lesser Antilles (Anguilla, Antigua,  
Barbados, Barbuda, Dominica, Grenada, Guadeloupe, Martinique,  
Montserrat, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia,  
St. Martin, St. Vincent), Curaçao, and Tobago; naturalized in  
United States (FL).

Common Names: Capá bobo, Palmito, Palo amargo, Roble blanco  
(Dominican Republic), White cedar (Jamaica), Cedar, Poirier, White  
poui (Lesser Antilles), Prieto, Roble, Roble blanco, Roble de costa,  
Roble de la mona, Roble de yugo, Roble prieto (Puerto Rico).

#### DOUBTFUL RECORD

*Ceratophytum tetragonolobum* (Jacq.) Sprague & Sandw., Kew Bull.  
 1934: 22. 1935.

The record of this species from the Lesser Antilles is based on a single  
 collection (*Oersted 8011*), which has been regarded as originating  
 from Grenada, apparently by mistake.

Reference: 1.

## BIXACEAE

**Genera.** Total: 2; native: 1; endemic: 0.

**Taxa.** Total: 2; native: 1; endemic: 0.

*Bixa orellana* L., Sp. Pl. 512. 1753.

Distribution: Cultivated in Cuba, Hispaniola, Jamaica, Puerto Rico,  
 Virgin Islands (St. John, Tortola), Lesser Antilles (Antigua,  
 Barbados, Dominica, Guadeloupe, Martinique, Montserrat, Saba,  
 St. Eustatius, St. Kitts, St. Lucia, St. Vincent), Margarita, Trinidad  
 and Tobago; native to Mexico, Central America, and South  
 America.

Common Names: Anoto, Bija, Onoto (Cuba), Achiotte, Achote, Bija,  
 Chiote (Dominican Republic), Roucou, Roucouyer (Haiti), Anatto  
 (Jamaica), Roucou, Roucouyer, Rucu, Rucu (Lesser Antilles),  
 Achiotte, Annato, Bija (Puerto Rico).

References: 1, 2, 3, 5, 7, 58, 61, 75, 123, 131, 132, 224, 252, 323, 340,  
 383.

Note: Considered an invasive species by CeNBIO.

*Cochlospermum vitifolium* (Willd.) Spreng., Syst. Veg., ed. 16, 2:  
 596. 1825; *Bombax vitifolium* Willd., Enum. Pl. 2: 720. 1809;  
*Maximiliana vitifolia* (Willd.) Spreng., Syst. Veg., ed. 16, 2: 596.  
 1825.

Distribution: Native to Cuba, Mexico, Central America, and South  
 America; cultivated in Bahamas, Hispaniola, Puerto Rico,  
 Virgin Islands (Tortola), Lesser Antilles (Dominica, Guadeloupe,  
 Martinique, Montserrat, St. Lucia), and Trinidad.

Common Names: Rosa imperial (Dominican Republic), Rose-of-Peru  
 (Lesser Antilles), Emperatriz de la selva, Rosa imperial (Puerto  
 Rico).

References: 1, 3, 7, 30, 45, 58, 61, 106, 123, 131, 151, 224, 231, 252,  
 301, 383.

Note: Considered exotic and invasive in Cuba by CeNBIO.

*Maximiliana vitifolia* (Willd.) Spreng. = *Cochlospermum vitifolium*  
 (Willd.) Spreng.

## BONNETIACEAE

**Genera.** Total: 1; native: 1; endemic: 0.

**Taxa.** Total: 1; native: 1; endemic: 1.

*Bonnetia cubensis* (Britton) R.A. Howard, J. Arnold Arbor. 28: 125.  
 1947; *Kieseria cubensis* Britton, Bull. Torrey Bot. Club 41: 19.  
 1914.

Distribution: Endemic to Cuba.

Common Names: Manglecillo, Manguillo (Cuba).

Reference: 3.

*Kieseria cubensis* Britton = *Bonnetia cubensis* (Britton) R.A. Howard

## BORAGINACEAE

by C. Feuillet

**Genera.** Total: 17; native: 12; endemic: 0.

**Taxa.** Total: 207; native: 197; endemic: 159.

*Argusia gnaphalodes* (L.) Heine = *Tournefortia gnaphalodes* (L.) R. Br.  
 ex Roem. & Schult.

*Borago officinalis* L., Sp. Pl. 137. 1753.

Distribution: Exotic in Cuba, Hispaniola, and Puerto Rico; native to  
 Europe, Africa, and Asia.

Common Names: Borraja (Cuba), Fleurs bourrache (Haiti).

References: 30, 61, 123, 131, 132, 151, 159.

*Bourreria albopunctata* O.E. Schulz in I. Urban, Symb. Antill. 7: 52.  
 1911.

Distribution: Endemic to Hispaniola.

References: 5, 7, 30.

*Tournefortia filiflora* Griseb., Fl. Brit. W. I. 483. 1862.

*Tournefortia foetidissima* sensu DC. in A.L.P.P. de Candolle, Prodr. 9: 518. 1845, non L.

Distribution: Endemic to West Indies; native to Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas), and Lesser Antilles (Antigua, Barbados, Dominica, Guadeloupe, Marie Galante, Martinique, Montserrat, Saba, St. Eustatius, St. Lucia, St. Martin, St. Vincent).

Common Names: Herbe à chique, Mal moulo-ou (Lesser Antilles), Nigua (Puerto Rico).

References: 1, 19, 30, 58, 61, 75, 131.

*Tournefortia foetidissima* L., Sp. Pl. 141. 1753.

*Tournefortia cymosa* L., Sp. Pl., ed. 2, 202. 1762.

Distribution: Native to Hispaniola, Jamaica, Mexico and South America.

References: 149, 254 (Eggers 2437).

*Tournefortia foetidissima* sensu DC., non L. = *Tournefortia filiflora* Griseb.

*Tournefortia gibberosa* Urb., Symb. Antill. 7: 349. 1912.

Distribution: Endemic to Hispaniola (Dominican Republic).

References: 5, 7, 30.

*Tournefortia glabra* L., Sp. Pl. 141. 1753.

Distribution: Native to Cayman Islands, Cuba, Hispaniola, Jamaica, Mexico, and Central America.

Common Names: Nigua (Cuba), Nigua hedionda (Dominican Republic).

References: 2, 3, 4, 5, 7, 123, 132.

*Tournefortia gnaphalodes* (L.) R. Br. ex Roem. & Schult., Syst. Veg.

4: 538. 1819; *Argusia gnaphalodes* (L.) Heine in A. Aubréville, Fl. Nouv. Caledonie Dépend. 7: 108. 1976; *Heliotropium gnaphalodes* L., Syst. Nat., ed. 10, 913. 1759; *Mallotonia gnaphalodes* (L.) Britton, Ann. Missouri Bot. Gard. 2: 47. 1915.

Distribution: Native to Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Anegada, Guana, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Anguilla, Antigua, Barbados, Barbuda, Désirade, Dominica, Grenadines, Guadeloupe, Martinique, Montserrat, Saba, St. Barthélemy, St. Eustatius, St. Martin, St. Vincent), and United States (FL).

Common Names: Balsamillo, Inciense de costa, Salvia marina (Cuba), Nigua de playa, Té marino (Dominican Republic), Bois de lance noir, Loup marin, Rosmarin, Sea lavender, Sea rosemary (Lesser Antilles).

References: 1, 2, 3, 4, 7, 19, 58, 61, 123, 150.

*Tournefortia guadalupensis* Urb. = *Myriopus maculatus* (Jacq.) Feuillet

*Tournefortia hirsutissima* L., Sp. Pl. 140. 1753.

Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas, Tortola), Lesser Antilles (Antigua, Guadeloupe, Martinique, Saba, St. Kitts, St. Martin, St. Vincent), Margarita, Tobago, Trinidad, North America, Mexico, Central America, and South America.

Common Names: Bejuco buniatillo, Bejuco cachaza, Bejuco cayaya hembra, Cayaya, Cayaya hembra, Cayaya macho, Nigua (Cuba), Chique-chique, Nigua, Nigua peluda (Dominican Republic), Liane chique (s) (Haiti), Cold with (Jamaica), Liane à chique poilue (Lesser Antilles), Nigua (Puerto Rico).

Note: Considered an invasive species by CeNBIO.

*Brassica kaber* (DC.) L.C. Wheeler = *Sinapis arvensis* L.

*Brassica lanceolata* (Willd.) C. Wright = *Cakile lanceolata* (Willd.) O.E. Schulz

*Brassica napus* L., Sp. Pl. 666. 1753.

Distribution: Exotic in Cuba, Hispaniola, and Puerto Rico; known only in cultivation.

Common Names: Nabo forrajero (Cuba), Nabo (Dominican Republic), Navet (Haiti), Naba, Rutabaga (Puerto Rico).

References: 5, 7, 30, 58, 61, 123, 131, 132, 159.

*Brassica nigra* (L.) W.D.J. Koch in J.C. Röhlhling, Deutschl. Fl., ed. 3, 4: 713. 1833.

Distribution: Exotic in Cuba and Puerto Rico; native to Europe, Africa, and Asia.

Common Names: Mostaza, Mostaza negra (Cuba), Mostaza negra (Puerto Rico).

References: 58, 61, 131, 132, 159.

*Brassica oleracea* L., Sp. Pl. 667. 1753, var. *oleracea*

*Brassica bullata* Pasq., Cat. Ort. Bot. Napoli 17. 1867.

Distribution: Cultivated in Cayman Islands, Cuba, Hispaniola, Puerto Rico, Virgin Islands (St. Croix), and Lesser Antilles (Barbados, Guadeloupe, Martinique, Saba, St. Barthélemy); native to Europe.

Common Names: Col (Cuba), Brocoli, Col, Coliflor, Repollo (Dominican Republic), Chou (Haiti).

References: 1, 4, 5, 6, 7, 58, 61, 123, 132, 492.

*Brassica oleracea* L. var. *gongyloides* L., Sp. Pl. 667. 1753.

*Brassica caulorapa* DC. ex H. Lév., Monde Pl. 12: 24. 1910.

Distribution: Exotic in Cuba, Hispaniola, and Puerto Rico; widely cultivated, origin uncertain.

Common Names: Colinabo (Cuba), Colinabo (Dominican Republic).

References: 7, 58, 123, 132, 358.

*Brassica rapa* L., Sp. Pl. 666. 1753.

*Brassica campestris* L., Sp. Pl. 666. 1753.

Distribution: Exotic in Cayman Islands, Cuba, Hispaniola, Puerto Rico, and Lesser Antilles (Barbados, Guadeloupe, Martinique, St. Barthélemy); widely cultivated and naturalized, probably native to Europe.

Common Names: Nabo (Dominican Republic), Navet (Haiti), Navet, Turnip (Lesser Antilles), Nabo (Puerto Rico).

References: 1, 3, 4, 5, 7, 30, 58, 61, 123, 131, 150, 151, 159, 224.

Note: Considered an invasive species by CeNBIO.

Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 5: 75. 1821;

- Cakile maritima* Scop. var. *cubensis* (DC.) Chapm., Fl. South. U.S., ed. 2, Suppl. 1: 606. 1883.
- Cakile domingensis* Tussac, Fl. Antill. 1: 119. 1808; *Cakile lanceolata* (Willd.) O.E. Schulz subsp. *domingensis* (Tussac) O.E. Schulz in I. Urban, Symb. Antill. 3: 505. 1903.
- Cakile lanceolata* (Willd.) O.E. Schulz var. *integrifolia* O.E. Schulz in I. Urban, Symb. Antill. 3: 507. 1903.
- Cakile maritima* sensu Bello, Anales Soc. Esp. Hist. Nat. 10: 236. 1881, non Scop.
- Cakile maritima* Scop. var. *geniculata* B.L. Rob., Syn. Fl. N. Amer. 1 (1): 132. 1895.
- Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Anguilla, Antigua, Barbados, Barbuda, Grenada, Grenadines, Guadeloupe, Marie Galante, Martinique, Montserrat, Nevis, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Martin, St. Vincent), Aruba, Bonaire, Margarita, North America, Mexico, Central America, and South America.
- Common Names: Gardena, Pork bush, Southern sea-rocket (Bahamas), Chou-bord-de-mer, Mostacilla del mar, Sea rocket (Lesser Antilles), Mostacilla del mar (Puerto Rico), Sea-rocket (Virgin Islands).
- References: 1, 2, 3, 4, 6, 7, 19, 30, 45, 58, 61, 75, 131, 150, 151, 152, 323, 340, 492.
- Cakile lanceolata* (Willd.) O.E. Schulz subsp. *domingensis* (Tussac) O.E. Schulz = *Cakile lanceolata* (Willd.) O.E. Schulz
- Cakile lanceolata* (Willd.) O.E. Schulz var. *integrifolia* O.E. Schulz = *Cakile lanceolata* (Willd.) O.E. Schulz
- Cakile maritima* Scop. var. *cubensis* (DC.) Chapm. = *Cakile lanceolata* (Willd.) O.E. Schulz
- Cakile maritima* Scop. var. *geniculata* B.L. Rob. = *Cakile lanceolata* (Willd.) O.E. Schulz
- Cakile maritima* sensu Bello = *Cakile lanceolata* (Willd.) O.E. Schulz
- Capsella bursa-pastoris* (L.) Medik., Pfl.-Gatt. 1: 85. 1792; *Thlaspi bursa-pastoris* L., Sp. Pl. 647. 1753.
- Distribution: Exotic in Cuba, Hispaniola, and Jamaica; cosmopolitan weed.
- Common Name: Shepherd's purse (Jamaica).
- References: 2, 3, 5, 7, 30.
- Carara didyma* (L.) Britton = *Lepidium didymum* L.
- Cardamine africana* L., Sp. Pl. 655. 1753.
- Cardamine porphyrophylla* Ekman ex Urb., Repert. Spec. Nov. Regni Veg. 21: 62. 1925.
- Distribution: Exotic in Cuba, Hispaniola, and South America; native to Africa.
- References: 3, 5, 7, 30, 224, 492.
- Note: Considered an invasive species by CeNBIO.
- Cardamine debilis* Banks ex DC., Syst. Nat. 2: 265. 1821.
- Distribution: Native to Hispaniola and Mexico.
- References: 7, 150.
- Cardamine flexuosa* With., Arr. Brit. Pl. ed. 3, 3: 578. 1796, subsp. *flexuosa*
- Distribution: Introduced in Cuba; native to Eurasia.
- References: 224, 492.
- Note: Considered an invasive species by CeNBIO.
- Cardamine flexuosa* With. subsp. *debilis* E.O. Schulz, Bot. Jahrb., Syst. 32: 478. 1903; *Cardamine debilis* D. Don, Prodr. Fl. Nepal 201. 1825, *nom. illeg.*
- Distribution: Exotic in Cuba; native of Asia.
- Reference: 492.
- Cardamine flexuosa* With. subsp. *pennsylvanica* (Muhl. ex Willd.) O.E. Schulz = *Cardamine pennsylvanica* Muhl. ex Willd.
- Cardamine hirsuta* L., Sp. Pl. 655. 1753.
- Cardamine sylvatica* sensu Macfad., Fl. Jamaica 1: 25. 1837, non Link.
- Distribution: Exotic in Cuba, Hispaniola, and Jamaica; native to Europe, Africa, Asia, and Malesia.
- Common Names: Berro cimarrón (Cuba), Hairy bitter cress, Lady's smock (Jamaica).
- References: 2, 3, 5, 7, 30, 112, 159, 224.
- Note: Considered an invasive species by CeNBIO.
- Cardamine impatiens* L., Sp. Pl. 655. 1753.
- Distribution: Exotic in Hispaniola; native to Europe and Asia.
- References: 5, 7, 159.
- Cardamine jamesonii* Hook., London J. Bot. 6: 293. 1847.
- Distribution: Native to Hispaniola and South America.
- References: 5, 7, 30.
- Cardamine pennsylvanica* Muhl. ex Willd., Sp. Pl. 3: 486. 1800.
- Cardamine flexuosa* With. subsp. *pennsylvanica* (Muhl. ex Willd.) O.E. Schulz, Bot. Jahrb. Syst. 32: 480. 1903.
- Distribution: Native to Bahamas and North America; exotic in Cuba, Hispaniola, Puerto Rico, and Virgin Islands (St. Croix).
- References: 1, 3, 5, 6, 7, 30, 45, 58.
- Cardamine porphyrophylla* Ekman ex Urb. = *Cardamine africana* L.
- Cardamine sylvatica* sensu Macfad. = *Cardamine hirsuta* L.
- Cochlearia armoracia* L. = *Armoracia rusticana* P. Gaertn.
- Conringia orientalis* (L.) C. Presl, Fl. Sicul. 1. 1826.
- Distribution: Exotic in Bahamas; native to Europe, Africa, and Asia.
- Common Name: Hare's-ear (Bahamas).
- References: 45, 159.
- Coronopus didymus* (L.) Sm. = *Lepidium didymum* L.
- Diplotaxis muralis* (L.) DC., Syst. Nat. 2: 634. 1821; *Sisymbrium murale* L., Sp. Pl. 658. 1753.
- Distribution: Exotic in Bahamas and Hispaniola; native to Europe, Africa, and Asia.
- Common Names: Sand rocket (Bahamas), Yerba de invierno (Dominican Republic).
- References: 5, 7, 45, 159.
- Erucastrum gallicum* (Willd.) O.E. Schulz, Bot. Jahrb. Syst. 54(Beibl. 119): 56. 1916.
- Distribution: Exotic in Bahamas; native to Europe.
- Common Names: Dog mustard, Rocket weed (Bahamas).
- References: 45, 159.
- Erysimum officinale* L. = *Sisymbrium officinale* (L.) Scop. var. *officinale*
- Erysimum vernum* Mill. = *Barbarea verna* (Mill.) Asch.
- Iberis amara* L., Sp. Pl. 649. 1753.
- Distribution: Exotic in Hispaniola and Puerto Rico; native to Europe.
- References: 7, 61, 159.
- Lepidium didymum* L., Mant. Pl. 1: 92. 1767; *Coronopus didymus* (L.) Sm., Fl. Brit. 2: 691. 1800; *Carara didyma* (L.) Britton, Ill. Fl. N. U.S., ed. 2, 2: 167. 1913.
- Distribution: Exotic in Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, and Lesser Antilles (Antigua, Martinique); widespread, origin uncertain.
- Common Names: Star-of-the-earth (Bahamas), Swine cress, Wart cress (Lesser Antilles).
- References: 1, 2, 3, 6, 7, 30, 45, 58, 151, 224, 358, 492.
- Note: Considered an invasive species by CeNBIO.

*Lepidium filicaule* C.L. Hitchc., Madroño 8: 142. 1945.

Distribution: Endemic to Bahamas.

Reference: 45.

*Lepidium pinnatisectum* (O.E. Schulz) C.L. Hitchc., Madroño 8: 140. 1945; *Lepidium virginicum* L. var. *pinnatisectum* O. E. Schulz in I. Urban, Symb. Antill. 3: 495. 1903. Type. Puerto Rico, Mayagüez, Krug 29.

Distribution: Endemic to Greater Antilles; native to Hispaniola and Puerto Rico.

References: 6, 7, 30, 58, 480.

*Lepidium sativum* L., Sp. Pl. 644. 1753.

Distribution: Exotic in Cuba, Jamaica, Puerto Rico, and Lesser Antilles (Guadeloupe); native to Africa and Asia.

Common Names: Berro de jardín (Cuba), Peppergrass (Jamaica), Cress, Garden cress (Lesser Antilles), Mastuerzo, Pimienta (Puerto Rico).

References: 1, 2, 3, 30, 131, 224.

Note: Considered an invasive species by CeNBIO.

*Lepidium virginicum* L., Sp. Pl. 645. 1753.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas, Tortola), Lesser Antilles (Anguilla, Antigua, Barbados, Barbuda, Désirade, Dominica, Grenada, Grenadines, Guadeloupe, Marie Galante, Martinique, Montserrat, Nevis, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia, St. Martin, St. Vincent), Tobago, Trinidad, Margarita, North America, Mexico, and Central America.

Common Names: Wild pepper-grass (Bahamas), Mastuerzo, Sabelección, Tostón (Cuba), Mastuerzo (Dominican Republic), Cresson alénois, Cresson danois, Cresson de savane, Cresson savane (Haiti), Wild peppergrass (Jamaica), Cresson à savane, Cresson danois, Cresson sauvage, Mastuerzo, Pepper grass, Poor man's pepper, Virginia pepper grass (Lesser Antilles), Cresón, Lentejilla, Mastuerzo (Puerto Rico), Wild pepper grass (Virgin Islands).

References: 1, 2, 3, 4, 5, 6, 7, 19, 40, 45, 58, 61, 75, 123, 131, 224, 301, 323, 340, 492.

Note: Considered exotic and invasive in Cuba by CeNBIO.

*Lepidium virginicum* L. var. *pinnatisectum* O. E. Schulz = *Lepidium pinnatisectum* (O.E. Schulz) C.L. Hitchc.

*Lobularia maritima* (L.) Desv., J. Bot. Agric. 3: 169. 1814; *Clypeola maritima* L., Sp. Pl. 652. 1753.

Distribution: Exotic in Hispaniola; native to Europe, Africa, and Asia.

Common Name: Aliso dulce (Dominican Republic).

References: 7, 123, 150, 159.

*Nasturtium aquaticum* Wallr. = *Nasturtium officinale* R. Br.

*Nasturtium brevipes* (DC.) Griseb. = *Rorippa portoricensis* (Spreng.) Stehlé var. *portoricensis*

- Tillandsia angustifolia* Sw., Prodr. 57. 1788.  
Distribution: Native to Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Lesser Antilles (Dominica, Guadeloupe, Martinique, St. Lucia, St. Vincent), Mexico, Central America, and South America.  
Common Names: Curujey, Flor del aire (Cuba), Piña de palo, Tinaja, Tinajita (Dominican Republic), Perroquet (Haiti), Parásita, Piñon (Puerto Rico).  
References: 1, 2, 3, 5, 28, 45, 61, 123, 131, 147.
- Tillandsia prascbekii* Ehlers & Willinger, Bromelie 1989: 36. 1989.  
Distribution: Endemic to Cuba.  
Reference: 147.
- Tillandsia pruinosa* Sw., Fl. Ind. Occid. 1: 594. 1797.
- Tillandsia breviscapa* A. Rich. in R. de la Sagra, Hist. Fis. Cuba, Bot. 11: 265. 1850.  
Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, United States (FL), Mexico, Central America, and South America.  
References: 2, 3, 5, 28, 147, 150.
- Tillandsia pulchella* Hook. = *Tillandsia tenuifolia* L. var. *tenuifolia*
- Tillandsia pulchra* Hook. = *Tillandsia tenuifolia* L. var. *tenuifolia*
- Tillandsia pulchra* Hook. var. *vaginata* Wawra = *Tillandsia tenuifolia* L. var. *vaginata* (Wawra) L.B. Sm.
- Tillandsia ramosa* Bello = *Tillandsia utriculata* L.
- Tillandsia ramosa* Sweet = *Tillandsia utriculata* L.
- Tillandsia rangelensis* Hechav., Selbyana 29 (2): 180. 2009.  
Distribution: Endemic to Cuba.  
References: 149, 152.
- Tillandsia recurvata* (L.) L., Sp. Pl., ed. 2, 410. 1762; *Renalmia recurvata* L., Sp. Pl. 287. 1753.
- Tillandsia recurvata* (L.) L. f. *major* André, Bromel. Andr. 65. 1889.  
Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas, Virgin Gorda), Lesser Antilles (Anguilla, Guadeloupe, Martinique, Montserrat, Nevis, Redonda, Saba, St. Eustatius, St. Kitts, St. Lucia, St. Martin), Aruba, Bonaire, Curaçao, Margarita, southern United States, Mexico, Central America, and South America.  
Common Names: Thread-leaved wild pine (Bahamas), Gungulén, Piña de los alambres (Dominican Republic), Barbe espagnole (Haiti), Old man's beard (Jamaica), Old man's beard (Lesser Antilles), Nidos de gungulén (Puerto Rico).  
References: 1, 2, 3, 4, 5, 28, 30, 45, 61, 123, 131, 147, 323.
- Tillandsia recurvata* (L.) L. f. *major* André = *Tillandsia recurvata* (L.) L.
- Tillandsia ringens* Griseb. = *Vriesea ringens* (Griseb.) Harms
- Tillandsia schiedeana* Steud., Nomencl. Bot., ed. 2, 2: 688. 1841.

- Tillandsia eggersii* Baker, Handb. Bromel. 170. 1889.  
*Tillandsia vestita* Schltdl. & Cham., Linnaea 6: 52. 1831.  
 Distribution: Native to Cuba, Hispaniola, Jamaica, Mexico, Central America, and South America.  
 Common Names: Piña de palo, Tinaja, Tinajita (Dominican Republic).  
 References: 2, 3, 30, 147, 210.
- Tillandsia selleana* Harms, Notizbl. Bot. Gart. Berlin-Dahlem 10: 799. 1929.  
 Distribution: Endemic to Greater Antilles; native to Hispaniola and Jamaica.  
 References: 2, 5, 147.
- Tillandsia sessiliflora* Ruiz & Pav. = *Catopsis sessiliflora* (Ruiz & Pav.) Mez  
*Tillandsia setacea* Sw., Fl. Ind. Occid. 1: 593. 1797.  
*Tillandsia bromoides* Mez, Repert. Spec. Nov. Regni Veg. 12: 419. 1913.  
 Distribution: Native to Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, United States (FL, GA), Mexico, Guatemala, and Brazil.  
 Common Name: Curujey bonito (Cuba).  
 References: 2, 4, 28, 35, 132, 147.
- Tillandsia sintenisii* Baker = *Tillandsia utriculata* L.  
*Tillandsia smithiana* Carabia = *Tillandsia fendleri* Griseb.  
*Tillandsia spiculosa* Griseb., Nachr. Ges. Wiss. Göttingen Jahresber. 1864: 17. 1865; *Racinaea spiculosa* (Griseb.) M.A. Spencer & L.B. Sm., Phytologia 74: 157. 1993.  
 Distribution: Native to Hispaniola, Trinidad, Margarita, southern Central America, and South America.  
 References: 147, 316, 323, 359.
- Tillandsia streptophylla* Scheidw. ex E. Morren, Hort. Belge 3: 252. 1836.  
*Tillandsia circinnata* Schltdl., Linnaea 18: 430. 1844.  
 Distribution: Native to Bahamas, Cayman Islands, Cuba, Margarita, Mexico, and Central America.  
 References: 3, 4, 5, 40, 45, 147, 323, 150.
- Tillandsia subimbricata* Baker = *Tillandsia elongata* Kunth var. *subimbricata* (Baker) L.B. Sm.  
*Tillandsia sublaxa* Baker = *Tillandsia variabilis* Schltdl.  
*Tillandsia swartzii* Baker = *Vriesea swartzii* (Baker) Mez  
*Tillandsia tenuifolia* L., Sp. Pl. 286. 1753, var. *tenuifolia*  
*Tillandsia pulchra* Hook., Exot. Fl. 2: t. 154. 1825.  
*Tillandsia pulchella* Hook., Exot. Fl. 2: t. 154. 1825.  
 Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Lesser Antilles (Martinique, St. Lucia), Margarita, and South America.  
 Common Name: Curujey bonito (Cuba).  
 References: 1, 2, 3, 28, 61, 132, 147, 323, 359.
- Tillandsia tenuifolia* L. var. *vaginata* (Wawra) L.B. Sm., Phytologia 8: 220. 1962; *Tillandsia pulchra* Hook. var. *vaginata* Wawra, Oesterr. Bot. Z. 30: 224. 1880.  
 Distribution: Native to Jamaica, Lesser Antilles (Martinique) and South America.  
 References: 147, 359.
- Tillandsia tephrophylla* Harms = *Tillandsia capitata* Griseb.  
*Tillandsia tetrantha* Ruiz & Pav. var. *caribaea* (L.B. Sm.) Gouda, Fl. Guianas, Ser. A, 3(189): 65. 1987; *Tillandsia caribaea* L.B. Sm., Contr. Gray Herb. 106: 155. 1935; *Racinaea tetrantha* (Ruiz & Pav.) M.A. Spencer & L.B. Sm. var. *caribaea* (L.B. Sm.) M.A. Spencer & L.B. Sm., Phytologia 74: 158. 1993.  
 Distribution: Native to Cuba, Hispaniola, Central America, and northern South America.  
 References: 3, 147, 359.
- Tillandsia trelawniensis* Proctor, J. Arnold Arbor. 63: 204. 1982.  
 Distribution: Endemic to Jamaica.  
 Reference: 147.
- Tillandsia tuerckheimii* Mez = *Vriesea tuerckheimii* (Mez) L.B. Sm.  
*Tillandsia turquinensis* Willinger & Michálek, J. Bromeliad Soc. 39: 8. 1989.  
 Distribution: Endemic to Cuba.  
 Reference: 147.
- Tillandsia usneoides* (L.) L., Sp. Pl., ed. 2, 411. 1762; *Renealmia usneoides* L., Sp. Pl. 287. 1753; *Dendropogon usneoides* (L.) Raf., Neogenyton: 3. 1825.  
 Distribution: Native to Bahamas, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix), Lesser Antilles (Antigua, Dominica, Grenadines, Guadeloupe, Martinique, Montserrat, Saba, St. Eustatius, St. Kitts, St. Lucia, St. Martin, St. Vincent), southeastern United States, Mexico, Central America, and South America.  
 Common Names: Old man's beard, Spanish moss (Bahamas), Guajaca, Yedra (Dominican Republic), Barbe bois, Barbe espagnole, Barbe pagnole, Barbe pangnole (Haiti), Old man's beard, Spanish moss (Jamaica), Barbe à bois, Barbe à negre, Old man's beard, Queue de cheval (Lesser Antilles), Barbas de úcar (Puerto Rico), Old man's beard, Spanish moss (Virgin Islands).  
 References: 1, 2, 3, 5, 28, 30, 45, 61, 123, 131, 295, 340, 359.
- Tillandsia utriculata* L., Sp. Pl. 286. 1753.  
*Tillandsia flexuosa* Sw. var. *pallida* Lindl., Bot. Reg. 9: t. 749. 1823.  
*Tillandsia ramosa* Sweet, Hort. Brit. 425. 1826.  
*Tillandsia ramosa* Bello, Anales Soc. Esp. Hist. Nat. 12: 121. 1883.  
*Tillandsia sintenisii* Baker, J. Bot. 26: 12. 1888.  
 Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Anegada, Guana, St. Croix, St. John, St. Thomas, Virgin Gorda), Lesser Antilles (Anguilla, Antigua, Barbuda, Dominica, Grenada, Grenadines, Guadeloupe, Martinique, Montserrat, Nevis, Saba, St. Eustatius, St. Kitts, St. Lucia, St. Martin, St. Vincent), Curaçao, United States (FL), Mexico, Central America, and northern South America.  
 Common Names: Swollen wild pine (Bahamas), Curujey, Curujey blanco (Cuba), Piña de palo, Tinaja, Tinajita (Dominican Republic), Perroquet (Haiti), Barbe à bois, Barbe à negre, Old man's beard, Queue de cheval (Lesser Antilles).  
 References: 1, 2, 3, 4, 5, 19, 28, 30, 45, 61, 147, 150, 152, 340.
- Tillandsia valenzuelana* A. Rich. = *Tillandsia variabilis* Schltdl.  
*Tillandsia variabilis* Schltdl., Linnaea 18: 418. 1844.  
*Tillandsia domingensis* Mez, Repert. Spec. Nov. Regni Veg. 16: 73. 1919.  
*Tillandsia laxa* Griseb., Fl. Brit. W. I. 596. 1864.  
*Tillandsia sublaxa* Baker, J. Bot. 25: 280. 1887.  
*Tillandsia valenzuelana* A. Rich. in R. de la Sagra, Hist. Fis. Cuba, Bot. 11: 267. 1850.  
 Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, United States (FL), Mexico, Central America, and South America.  
 References: 2, 3, 28, 36, 45, 61, 147.
- Tillandsia vestita* Schltdl. & Cham. = *Tillandsia schiedeana* Steud.  
*Vriesea antillana* L.B. Sm. & Pittendr., J. Wash. Acad. Sci. 43: 403. 1953; *Guzmania urbaniana* Mez in A.L.P.P. de Candolle & A.C.P. de Candolle, Monogr. Phan. 9: 920. 1896, non *Vriesea urbaniana* Harms, 1935; *Werauhia urbaniana* (Mez) J.R. Grant, Phytologia 79: 255. 1996 ["1995"].

- Distribution: Endemic to Lesser Antilles (Dominica, Guadeloupe, Martinique, Montserrat, Saba, St. Kitts, St. Lucia).  
References: 1, 147.
- Vriesea capituligera* (Griseb.) L.B. Sm. & Pittendr. = *Mezobromelia capituligera* (Griseb.) J.R. Grant

## EXCLUDED SPECIES

- Aechmea aquilega* (Salisb.) Griseb., Fl. Brit. W. I. 592. 1864; *Bromelia aquilega* Salisb., Parad. Lond. t. 40. 1806.  
 Distribution: Native to Jamaica, Margarita, and South America.  
 References: 147, 323.  
 Note: Presumably described from Jamaican material, but not known from any collection.  
*Aechmea paniculata* Ruiz & Pav. reported for Virgin Islands (St. Thomas) based on an error of determination.

## BRUNELLIACEAE

**Genera.** Total: 1; native: 1; endemic: 0.  
**Taxa.** Total: 4; native: 4; endemic: 4.

- Brunellia comocladifolia* Humb. & Bonpl. subsp. *cubensis* Cuatrec., Fl. Neotrop. Monogr. 2: 77. 1970.  
 Distribution: Endemic to Cuba.  
 Common Names: Ayua baria, Ayua blanca, Guásima (Cuba).  
 References: 3, 346.  
*Brunellia comocladifolia* Humb. & Bonpl. subsp. *domingensis* Cuatrec., Fl. Neotrop. Monogr. 2: 74. 1970.  
*Zanthoxylum acuminatum* sensu A. Stahl, Estud. Fl. Puerto Rico 2: 177. 1884, non Sw.  
 Distribution: Endemic to Greater Antilles; native to Hispaniola and Puerto Rico.  
 Common Names: Guao (Dominican Republic), Bois Mabel, Bois mal fini, Malabar (Haiti), Palo bobo, Palo de Cabra (Puerto Rico).  
 References: 7, 30, 58, 61, 75, 131, 346.  
*Brunellia comocladifolia* Humb. & Bonpl. subsp. *guadalupensis* Cuatrec., Fl. Neotrop. Monogr. 2: 76. 1970.  
 Distribution: Endemic to Lesser Antilles (Guadeloupe).  
 Common Names: Bois de houx, Suma, West Indian Sumac (Lesser Antilles).  
 References: 1, 7, 346.  
*Brunellia comocladifolia* Humb. & Bonpl. subsp. *jamaicensis* Cuatrec., Fl. Neotrop. Monogr. 2: 72. 1970.  
*Rhus rufescens* Desv. ex Ham., Prodr. Pl. Ind. Occid. 32. 1825.  
 Distribution: Endemic to Jamaica.  
 Common Names: Sumach, West Indian Sumac (Jamaica).  
 References: 7, 30, 151, 156, 346.

## BURMANNIACEAE

**Genera.** Total: 7; native: 7; endemic: 0.  
**Taxa.** Total: 9; native: 9; endemic: 2.

- Apteria aphylla* (Nutt.) Barnhart ex Small, Fl. S.E. U.S. 309. 1903;  
*Lobelia aphylla* Nutt., Amer. J. Sci. Arts 5: 297. 1822.

- Apteria aphylla* (Nutt.) Barnhart ex Small var. *hymenanthera* (Miq.) Jonker in A.A. Pulle, Fl. Suriname 1: 186. 1938; *Apteria hymenanthera* Miq., Stirp. Surinam. Select. 216. 1851.  
*Apteria setacea* Nutt., J. Acad. Nat. Sci. Philadelphia 7: 64. 1834;  
*Nemitis setacea* (Nutt.) Raf., Fl. Tellur. 4: 33. 1838.  
 Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Lesser Antilles (Guadeloupe, Martinique, Montserrat, St. Kitts), Trinidad, North America, Mexico, Central America, and South America.  
 References: 2, 3, 28, 61, 147, 151, 301.

- BURSERACEAE**
- Genera.** Total: 4; native: 4; endemic: 0.  
**Taxa.** Total: 24; native: 23; endemic: 21.
- Bursera angustata* C. Wright ex Griseb., Cat. Pl. Cub. 65. 1866.  
 Distribution: Endemic to Cuba.  
 Common Names: Almácigo, Almácigo de costa, Almácigo de paredón,  
 Almácigo espinoso, Almaciguillo, Azucarero, Copal (Cuba).  
 References: 3, 132.  
*Bursera aromatica* Proctor, Bull. Inst. Jamaica, Sci. Ser. 16: 16. 1967.  
 Distribution: Endemic to Jamaica.  
 Common Name: Siboney (Jamaica).  
 References: 2, 427.  
 Note: Considered vulnerable by the IUCN Red List of Threatened  
 Species.
- Bursera brunea* (Urb.) Urb. & Ekman, Ark. Bot. 22A(8): 59. 1928;  
*Spondias brunea* Urb., Symb. Antill. 7: 266. 1912.  
 Distribution: Endemic to Hispaniola (Haiti).  
 References: 5, 7, 30.  
*Bursera frenningae* Correll, J. Arnold Arbor. 60: 157. 1979.  
 Distribution: Endemic to Bahamas.  
 Reference: 45.  
*Bursera glauca* Griseb., Cat. Pl. Cub. 66. 1866.  
*Bursera nashii* (Britton) Urb., Symb. Antill. 8: 329. 1920; *Terebinthus*  
*nashii* Britton, Bull. Torrey Bot. Club 35: 342. 1908.  
 Distribution: Endemic to Greater Antilles; native to Cuba and  
 Hispaniola.  
 Common Names: Almácigo, Ayúa prieta Ayúa sin espinas, Ayuda  
 prieta, Ayuda sin espinas, Azucarero, Copal (Cuba).  
 References: 3, 5, 7, 132, 149.  
*Bursera gracilipes* Urb. & Ekman, Ark. Bot. 22A(8): 58. 1928.  
 Distribution: Endemic to Hispaniola.  
 References: 5, 7.

*Pistacia simaruba* L. = *Bursera simaruba* (L.) Sarg.

*Protium attenuatum* (Rose) Urb., Symb. Antill. 7: 240. 1912; *Icica attenuata* Rose, N. Amer. Fl. 25(3): 261. 1911.

Distribution: Endemic to Lesser Antilles (Dominica, Guadeloupe, Martinique, St. Lucia, St. Vincent).

Common Names: Bois-l'encens, Gommier, Gommier-blanc, L'encens, L'incense (Lesser Antilles).

References: 1, 2, 152.

Note: According to C.D. Adams (2), there is an early collection of Wright from Jamaica that is credited to this species.

*Protium baracoense* Bisse, Feddes Repert. 85: 594. 1974.

Distribution: Endemic to Cuba.

Reference: 149.

*Protium cubense* (Rose) Urb., Symb. Antill. 7: 240. 1912; *Icica cubense* Rose, N. Amer. Fl. 25 (3): 260. 1911.

*Icica copal* A. Rich. in R. de la Sagra, Hist. Phys. Cuba, Pl. Vasc. 386. 1845.

Distribution: Endemic to Cuba.

Common Names: Copal, Incienso (Cuba).

References: 3, 30, 152, 352.

*Protium fragrans* (Rose) Urb., Repert. Spec. Nov. Regni Veg. 22: 362. 1926; *Icica fragrans* Rose, N. Amer. Fl. 25 (3): 259. 1911.

Distribution: Endemic to Cuba.

Common Name: Incienso (Cuba).

References: 3, 152.

*Protium glaucescens* Urb., Symb. Antill. 7: 239. 1912.

Distribution: Endemic to Hispaniola (Dominican Republic).

References: 5, 7, 30.

*Protium guianense* (Aubl.) Marchand, Adansonia 8: 52. 1867; *Icica guianensis* Aubl., Hist. Pl. Guiane 1: 340. 1775.

Distribution: Native to trinidad and South America; reported for St. Vincent, Lesser Antilles.

References: 159, 301.

*Protium maestrense* Bisse, Feddes Repert. 85: 593. 1974.

Distribution: Endemic to Cuba.

Reference: 149.

*Protium subacuminatum* Swart, Recueil Trav. Bot. Néerl. 39: 192. 1942.

Distribution: Endemic to Cuba.

Common Names: Chicharrón, Copal, Copal incienso (Cuba).

Reference: 3.

*Terebinthus hollickii* Britton = *Bursera hollickii* (Britton) Fawc. & Rendle

*Terebinthus nashii* Britton = *Bursera glauca* Griseb.

*Tetragastris balsamifera* (Sw.) Kuntze, Revis. Gen. Pl. 1: 107. 1891; *Hedwigia balsamifera* Sw., Prodr. 62. 1788.

*Tetragastris ossea* Gaertn. = *Tetragastris balsamifera* (Sw.) Kuntze

## BUXACEAE

**Genera.** Total: 1; native: 1; endemic: 0.  
**Taxa.** Total: 45; native: 45; endemic: 45.

- Buxus acuminata* Müll. Arg. in A.L.P.P. de Candolle, Prodr. 16(1): 15. 1869; *Tricera acuminata* (Müll. Arg.) Griseb., Nachr. Ges. Wiss. Göttingen Jahresber. 1865: 162. 1865.  
 Distribution: Endemic to Cuba.  
 Common Name: Angelita (Cuba).  
 References: 3, 39, 134.  
 Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).
- Buxus acunae* Borhidi & O. Muñiz, Acta Bot. Acad. Sci. Hung. 22: 307. 1977 ["1976"].  
 Distribution: Endemic to Cuba.  
 References: 39, 149.  
 Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39).
- Buxus aneura* Urb., Repert. Spec. Nov. Regni Veg. 21: 214. 1925.  
 Distribution: Endemic to Cuba.  
 References: 3, 39.  
 Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39).
- Buxus arborea* Proctor, Bull. Inst. Jamaica, Sci. Ser. 16: 23. 1967.  
 Distribution: Endemic to Jamaica.  
 References: 2, 427.  
 Note: Considered vulnerable by the IUCN Red List of Threatened Species.
- Buxus bahamensis* Baker, Hooker's Icon. Pl. 19: t. 1806. 1889; *Tricera bahamensis* (Baker) Britton, Bull. New York Bot. Gard. 4: 139. 1906.  
 Distribution: Endemic to West Indies; native to Bahamas, Cayman Islands, Cuba, and Jamaica.  
 Common Name: Boxwood (Bahamas).  
 References: 2, 3, 4, 45, 152.
- Buxus baracoensis* Borhidi & O. Muñiz, Acta Bot. Acad. Sci. Hung. 18: 34. 1973.  
 Distribution: Endemic to Cuba.  
 References: 39, 149.  
 Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).
- Buxus bissei* Eg. Köhler, Feddes Repert. 109: 351. 1998.  
 Distribution: Endemic to Cuba.  
 Reference: 149.
- Buxus braimbridgeorum* Eg. Köhler, Willdenowia 36: 485. 2006.  
 Distribution: Endemic to Cuba.  
 Reference: 149.
- Buxus brevipes* (Müll. Arg.) Urb., Symb. Antill. 5: 400. 1908; *Buxus citrifolia* Willd. var. *brevipes* Müll. Arg. in A.L.P.P. de Candolle, Prodr. 16(1): 15. 1869; *Tricera brevipes* (Müll. Arg.) Britton., Bull. Torrey Bot. Club 42: 499. 1915.  
 Distribution: Endemic to Cuba.  
 References: 3, 30, 134.
- Buxus citrifolia* (Willd.) Spreng. = *Buxus laevigata* (Sw.) Spreng.  
*Buxus citrifolia* Willd. var. *brevipes* Müll. Arg. = *Buxus brevipes* (Müll. Arg.) Urb.
- Buxus crassifolia* (Britton) Urb., Symb. Antill. 9: 175. 1923, var. *crassifolia*; *Tricera crassifolia* Britton, Bull. Torrey Bot. Club 42: 499. 1915.  
 Distribution: Endemic to Cuba.  
 References: 3, 74, 134.
- Buxus crassifolia* (Britton) Urb. var. *oblongata* Borhidi & O. Muñiz, Acta Bot. Acad. Sci. Hung. 18: 36. 1973.  
 Distribution: Endemic to Cuba.  
 Reference: 149.
- Buxus cubana* Baill., Monogr. Buxac. 71. 1859; *Tricera cubana* (Baill.) A. Rich. in R. de la Sagra, Hist. Fis. Cuba, Bot. 11: 217. 1845.  
 Distribution: Endemic to Cuba.  
 Reference: 3.
- Buxus ekmanii* Urb., Symb. Antill. 9: 171. 1923.  
 Distribution: Endemic to Cuba.  
 References: 3, 30.
- Buxus excisa* Urb., Symb. Antill. 9: 172. 1923.  
 Distribution: Endemic to Cuba.  
 References: 3, 30.
- Buxus flaviramea* (Britton) Mathou, Rech. Fam. Buxac. 140. 1939; *Tricera flaviramea* Britton, Bull. Torrey Bot. Club 42: 499. 1915.  
 Distribution: Endemic to Cuba.  
 References: 3, 134.
- Buxus foliosa* (Britton) Urb., Repert. Spec. Nov. Regni Veg. 21: 215. 1925; *Tricera foliosa* Britton, Bull. Torrey Bot. Club 42: 503. 1915.  
 Distribution: Endemic to Cuba.  
 References: 3, 39, 134.  
 Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39).
- Buxus glomerata* (Griseb.) Müll. Arg. in A.L.P.P. de Candolle, Prodr. 16(1): 17. 1869; *Tricera glomerata* Griseb., Pl. Wright. 1: 157. 1860.  
 Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.  
 Common Names: Piti (Cuba), Bois tiffaille, Bois tiffait (Haiti).  
 References: 3, 5, 7.
- Buxus gonoclada* (Griseb.) Müll. Arg. in A.L.P.P. de Candolle, Prodr. 16(1): 16. 1869; *Tricera gonoclada* Griseb., Cat. Pl. Cub. 282. 1866.  
 Distribution: Endemic to Cuba.  
 References: 3, 39, 124.  
 Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39).
- Buxus heterophylla* Urb., Symb. Antill. 9: 174. 1923.  
 Distribution: Endemic to Cuba.  
 References: 3, 30.

- Buxus historica* Borhidi & O. Muñiz, Acta Bot. Acad. Sci. Hung. 22: 307. 1977 ["1976"].  
Distribution: Endemic to Cuba.  
Reference: 149.
- Buxus imbricata* Urb., Symb. Antill. 9: 176. 1923.  
Distribution: Endemic to Cuba.  
References: 3, 30.

## CABOMBACEAE

**Genera.** Total: 2; native: 2; endemic: 0.  
**Taxa.** Total: 3; native: 3; endemic: 0.

*Brasenia purpurea* (Michx.) Casp. = *Brasenia schreberi* J.F. Gmel.

*Brasenia schreberi* J.F. Gmel., Syst. Nat. 2(1): 853. 1791.  
*Brasenia purpurea* (Michx.) Casp., Journ. Sci. Math. Phys. Nat. 4: 312. 1874; *Hydropeltis purpurea* Michx., Fl. Bor.-Amer. 1: 324. 1803.  
 Distribution: Native to Cuba, Hispaniola, Jamaica, North America, Mexico, Central America, and Old World.  
 Common Names: Masamora, Mazamorra (Cuba), Batatillo (Dominican Republic).  
 References: 2, 39, 132, 147.  
 Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).

*Cabomba furcata* Schult. & Schult. f. in J.J. Roemer & J.A. Schultes, Syst. Veg. 7: 1379. 1830.  
*Cabomba piauhensis* Gardner, Hooker's Icon. Pl. 7: t. 641. 1844.  
 Distribution: Native to Cuba, Trinidad, Central America, and South America.  
 References: 3, 7, 147, 301, 360.

*Cabomba haynesii* Wiersema, Ann. Missouri Bot. Gard. 76: 1167. 1989.  
*Cabomba piauhensis* Gardner f. *albida* Fassett, Castanea 18: 123. 1953.  
*Cabomba piauhensis* sensu Liogier, Desc. Fl. Puerto Rico 1: 221. 1985.  
 Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Central America, and South America.  
 References: 58, 61, 147, 150, 360.

*Cabomba piauhensis* Gardner = *Cabomba furcata* Schult. & Schult. f.  
*Hydropeltis purpurea* Michx. = *Brasenia schreberi* J.F. Gmel.

## CACTACEAE

**Genera.** Total: 21; native: 19; endemic: 2.  
**Taxa.** Total: 110; native: 96; endemic: 71.

*Acanthocereus baxaniensis* (Karw.) Borg, Cacti 132. 1937; *Cereus baxaniensis* Karw., Enum. Diagn. Cact. 109. 1837.  
 Distribution: Exotic in Cuba; erroneously described as being from Cuba; native to the Atlantic coast of Central America.  
 References: 57, 68, 149, 151, 478.

*Acanthocereus pentagonus* (L.) Britton & Rose = *Acanthocereus tetragonus* (L.) Humm.  
*Acanthocereus tetragonus* (L.) Humm., Succulenta (Netherlands) 20: 165. 1938; *Cactus tetragonus* L., Sp. Pl. 466. 1753.  
*Acanthocereus pentagonus* (L.) Britton & Rose, Contr. U.S. Natl. Herb. 12: 432. 1909; *Cereus pentagonus* (L.) Haw., Syn. Pl. Succ. 180. 1812.  
 Distribution: Native to Cuba, Lesser Antilles (Dominica, Grenada, Guadeloupe, Martinique, St. Lucia), Tobago, Trinidad, Aruba, Curaçao, Margarita, Mexico, Central America, and northern South America; exotic in the Virgin Islands (St. Croix, St. Thomas).  
 Common Names: Liane-raquette (Lesser Antilles).  
 References: 1, 3, 68, 150, 151, 230, 301, 323.

*Acanthocereus undulosus* (DC.) Croizat = *Dendrocereus undulosus* (DC.) Britton & Rose  
*Brasiliopuntia brasiliensis* (Willd.) A. Berger, Entwicklungslin. Kakt. 94. 1926; *Opuntia brasiliensis* (Willd.) Haw., Suppl. Pl. Succ. 79. 1819.  
 Distribution: Cultivated in Puerto Rico; native to South America.  
 References: 58, 68, 159.

*Cactus alatus* Sw. = *Pseudorhipsalis alata* (Sw.) Britton & Rose  
*Cactus antonii* Britton = *Melocactus intortus* (Mill.) Urb. subsp. *intortus*  
*Cactus bleo* Kunth = *Pereskia bleo* (Kunth) DC.

- Cactus broadwayi* Britton & Rose = *Melocactus broadwayi* (Britton & Rose) A. Berger
- Cactus caesi* (Wendl.) Britton & Rose = *Melocactus curvispinus* Pfeiff. subsp. *caesi* (H. L. Wendl.) N. P. Taylor
- Cactus curassavicus* L. = *Opuntia curassavica* (L.) Mill.
- Cactus dillenii* Ker Gawl. = *Opuntia dillenii* (Ker Gawl.) Haw.
- Cactus divaricatus* Lam. = *Harrisia gracilis* (Mill.) Britton
- Cactus fimbriatus* Lam. = *Stenocereus fimbriatus* (Lam.) Lourteig
- Cactus grandiflorus* L. = *Selenicereus grandiflorus* (L.) Britton & Rose
- Cactus harlowii* Britton & Rose = *Melocactus harlowii* (Britton & Rose) Vaupel
- Cactus intortus* Mill. = *Melocactus intortus* (Mill.) Urb. subsp. *intortus*
- Cactus mammillaris* L. = *Mammillaria mammillaris* (L.) H. Karst.
- Cactus melocactus* L. = *Melocactus intortus* (Mill.) Urb. subsp. *intortus*
- Cactus paniculatus* Lam. = *Leptocereus paniculatus* (Lam.) D.R. Hunt
- Cactus polygonus* Lam. = *Pilosocereus polygonus* (Lam.) Byles & Rowles
- Cactus portulacifolius* L. = *Pereskia portulacifolia* (L.) DC.
- Cactus proliferus* Mill. = *Mammillaria prolifera* (Mill.) Haw. subsp. *prolifera*
- Cactus repandus* L. = *Cereus repandus* (L.) Mill.
- Cactus royenii* L. = *Pilosocereus royenii* (L.) Byles & Rowley
- Cactus strictus* Haw. = *Opuntia stricta* (Haw.) Haw.
- Cactus strictus* Willd. = *Pilosocereus royenii* (L.) Byles & Rowley
- Cactus tetragonus* L. = *Acanthocereus tetragonus* (L.) Humm.
- Cactus triangularis* L. = *Hylocereus triangularis* (L.) Britton & Rose
- Cactus tuna* L. = *Opuntia tuna* (L.) Mill.
- Cephalocereus bahamensis* Britton = *Pilosocereus polygonus* (Lam.) Byles & Rowles
- Cephalocereus bakeri* Britton & Rose = *Selenicereus grandiflorus* (L.) Britton & Rose
- Cephalocereus barbadensis* Britton & Rose = *Pilosocereus royenii* (L.) Byles & Rowley
- Cephalocereus brooksianus* Britton & Rose = *Pilosocereus polygonus* (Lam.) Byles & Rowles
- Cephalocereus millspaughii* Britton = *Pilosocereus royenii* (L.) Byles & Rowley
- Cephalocereus monoclonus* (DC.) Britton & Rose = *Pilosocereus royenii* (L.) Byles & Rowley
- Cephalocereus nobilis* (Haw.) Britton & Rose = *Pilosocereus royenii* (L.) Byles & Rowley
- Cephalocereus polygonus* (Lam.) Britton & Rose = *Pilosocereus polygonus* (Lam.) Byles & Rowles
- Cephalocereus royenii* (L.) Britton & Rose = *Pilosocereus royenii* (L.) Byles & Rowley
- Cephalocereus schlumbergeri* (F.A.C. Weber ex K. Schum.) Urb. = *Pilosocereus polygonus* (Lam.) Byles & Rowles
- Cephalocereus swartzii* (Griseb.) Britton & Rose = *Pilosocereus royenii* (L.) Byles & Rowley
- Cereus assurgens* C. Wright ex Griseb. = *Leptocereus assurgens* (C. Wright ex Griseb.) Britton & Rose
- Cereus bahamensis* (Britton) Vaupel = *Pilosocereus polygonus* (Lam.) Byles & Rowles
- Cereus bakeri* (Britton & Rose) Vaupel = *Selenicereus grandiflorus* (L.) Britton & Rose
- Cereus baxaniensis* Karw. = *Acanthocereus baxaniensis* (Karw.) Borg
- Cereus boeckmannii* Otto = *Selenicereus pteranthus* (Link ex A. Dietr.) Britton
- Cereus brevispinus* (Britton & Rose) A Berger = *Selenicereus pteranthus* (Link ex A. Dietr.) Britton
- Cereus cubensis* Zucc. ex Pfeiff. = *Harrisia eriophora* (Pfeiff.) Britton
- Cereus ekmanii* Werderm. = *Leptocereus ekmanii* (Werderm.) F.M. Knuth
- Cereus eriophorus* Pfeiff. = *Harrisia eriophora* (Pfeiff.) Britton
- Cereus grandiflorus* (L.) Mill. = *Selenicereus grandiflorus* (L.) Britton & Rose
- Cereus grenadensis* Britton & Rose = *Cereus repandus* (L.) Mill.
- Cereus hexagonus* (L.) Mill., Gard. Dict., ed. 8. 1768.  
Distribution: Exotic in Cuba, Hispaniola, Jamaica, Puerto Rico and Virgin Islands; native to Tobago, Trinidad, Margarita, and South America.  
Common Names: Cayuco (Dominican Republic), Cacto columnar (Puerto Rico).  
References: 2, 58, 61, 68, 123, 131, 159, 224, 301, 323.  
Note: Considered an invasive species by CeN BIO.
- Cereus hildmannianus* K. Schum. subsp. *uruguayanus* (F. Ritter ex R. Kiesling) N.P. Taylor, Cactaceae Consensus. Init. 6: 15. 1998; *Cereus uruguayanus* F. Ritter ex R. Kiesling, Darwiniana 24: 448. 1982.  
Distribution: Cultivated in Puerto Rico; endemic to Uruguay.  
Reference: 152.
- Cereus irradians* Lem. = *Selenicereus pteranthus* (Link ex A. Dietr.) Britton
- Cereus leiocarpus* Bello = *Pilosocereus royenii* (L.) Byles & Rowley
- Cereus lemairei* Hook. = *Hylocereus lemairei* (Hook.) Britton & Rose
- Cereus margaritensis* J. Johnst. = *Cereus repandus* (L.) Mill.
- Cereus nudiflorus* Engelm. = *Dendrocereus nudiflorus* (Engelm. ex Sauvalle) Britton & Rose
- Cereus nycticalus* Link ex A. Dietr. = *Selenicereus pteranthus* (Link & Otto) Britton & Rose
- Cereus paniculatus* (Lam.) DC. = *Leptocereus paniculatus* (Lam.) D.R. Hunt
- Cereus pellucidus* sensu Griseb. = *Harrisia gracilis* (Mill.) Britton
- Cereus pentagonus* (L.) Haw. = *Acanthocereus tetragonus* (L.) Humm.
- Cereus peruvianus* (L.) J.S. Muell. = *Cereus repandus* (L.) Mill.
- Cereus polygonus* (Lam.) DC. = *Pilosocereus polygonus* (Lam.) Byles & Rowles
- Cereus portoricensis* (Britton) Urb. = *Harrisia portoricensis* Britton
- Cereus quadricostatus* Bello = *Leptocereus quadricostatus* (Bello) Britton & Rose
- Cereus ramulosus* Salm-Dyck = *Pseudorhipsalis ramulosa* (Salm-Dyck) Barthlott subsp. *ramulosa*
- Cereus repandus* (L.) Mill., Gard. Dict., ed. 8. 1768; *Cactus repandus* L., Sp. Pl. 467. 1753.
- Cereus grenadensis* Britton & Rose, Cactaceae 2: 223. 1920; *Subpilocereus grenadensis* (Britton & Rose) Backeb., Cactaceae (Backeberg) 4: 2383. 1960.
- Cereus margaritenensis* J. Johnst., Proc. Amer. Acad. Arts 40: 693. 1905.
- Cereus peruvianus* (L.) J.S. Muell., Gard. Dict., ed. 8. 1768.

Distribution: Native to Lesser Antilles (Grenada), Aruba, Bonaire, Curaçao, Margarita, and Venezuela; exotic in Hispaniola.

References: 1, 30, 57, 68, 150, 151, 152.

*Cereus serruliflorus* Haw. = *Harrisia divaricata* (Lam.) Backeb.

*Cereus subrepandus* Haw. = *Harrisia gracilis* (Mill.) Britton

*Cereus swartzii* Griseb. = *Pilosocereus royenii* (L.) Byles & Rowley

*Cereus triangularis* (L.) Haw. = *Hylocereus triangularis* (L.) Britton & Rose

*Cereus triangularis* sensu Bello = *Hylocereus undatus* (Haw.) Britton & Rose subsp. *undatus*

*Cereus trigonus* Haw. = *Hylocereus trigonus* (Haw.) Saff.

*Cereus undatus* Haw. = *Hylocereus undatus* (Haw.) Britton & Rose subsp. *undatus*

*Cereus undulosus* DC. = *Dendrocereus undulosus* (DC.) Britton & Rose

*Cereus uruguayanus* F. Ritter ex R. Kiesling = *Cereus bildmannianus* K. Schum. subsp. *uruguayanus* (R. Kiesling) N.P. Taylor

*Cereus weingartianus* E. Hartmann = *Leptocereus weingartianus* (E. Hartmann) Britton & Rose

*Chilita multiceps* (Salm-Dyck) Orcutt = *Mammillaria prolifera* (Mill.) Haw.

*Consolea acaulis* (Ekman & Werderm.) F.M. Knuth = *Opuntia acaulis* Ekman & Werderm.

*Consolea bahamana* (Britton & Rose) A. Berger = *Opuntia stricta* (Haw.) Haw.

*Consolea falcata* (Ekman & Werderm.) F.M. Knuth in C. Backeberg & F.M. Knuth, *Kaktus-ABC* 146. 1935; *Opuntia falcata* Ekman & Werderm., *Repert. Spec. Nov. Regni Veg.* 29: 228. 1931.

Distribution: Endemic to Hispaniola (Haiti).

Reference: 68.

*Consolea guanicana* (K. Schum. ex Gürke) F.M. Knuth = *Consolea rubescens* (Salm-Dyck ex DC.) Lem.

*Consolea macracantha* (Griseb.) A. Berger, *Entwicklungslin. Kakt.* 94. 1926; *Opuntia macracantha* Griseb., *Cat. Pl. Cub.* 116. 1866.

*Opuntia microcarpa* K. Schum., *Gesamtbeschr. Kakt.* 12: 714. 1898; *Consolea picardae* (Urb.) Areces, *Cact. Succ. J. (Los Angeles)* 72: 42. 2000; *Opuntia picardae* Urb., *Repert. Spec. Nov. Regni Veg.* 16: 35. 1919, *nom. illeg.*

Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.

References: 3, 5, 39, 64, 151, 540.

Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).

*Consolea millspaughii* (Britton) A. Berger, *Entwicklungslin. Kakt.* 94. 1926, subsp. *millspaughii*; *Opuntia millspaughii* Britton, *Smithsonian Misc. Collect.* 50: 513. 1908.

Distribution: Endemic to West Indies; native to Bahamas and Cuba.

References: 3, 45, 68.

*Consolea millspaughii* (Britton) A. Berger subsp. *caymanensis* Areces, *Brittonia* 53: 100. 2001.

Distribution: Endemic to Cayman Islands.

*Nopalea auber* (Pfeiff.) Salm-Dyck, Cact. Hort. Dyck. 1849: 64. 1850 ["1849"]; *Opuntia auber* Pfeiff. in C.F. Otto & A. Dietrich, Allg. Gartenzeitung 8: 282. 1840.

Distribution: Native to Cuba, Mexico, and Central America.

References: 3, 57, 68, 224, 540.

Note: Considered exotic and invasive in Cuba by CeNBIO.

*Nopalea cochenillifera* (L.) Salm-Dyck, Cact. Hort. Dyck. 1849: 64. 1850 ["1849"]; *Opuntia cochenillifera* (L.) Mill., Gard. Dict., ed. 8. 1768.

Distribution: Exotic in Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Antigua, Barbados, Barbuda, Dominica, Grenada, Guadeloupe, Martinique, Montserrat, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia, St. Martin), Margarita, Tobago, and Trinidad; native to Mexico.

Common Names: Cochineal cactus, Roast pork, Smooth pear (Jamaica), Cochineal cactus, Nopal, Raquette sans piquant, Wachet (Lesser Antilles).

References: 1, 2, 3, 4, 5, 19, 45, 58, 61, 68, 75, 150, 224, 301, 323, 340, 540.

Note: Considered an invasive species by CeNBIO.

*Nopalea dejecta* (Salm-Dyck) Salm-Dyck, Cact. Hort. Dyck. 1849: 64. 1850 ["1849"]; *Opuntia dejecta* Salm-Dyck, Cact. Hort. Dyck. 1849: 64. 1850 ["1849"].

Distribution: Native to Cuba, and likely to Central America.

References: 3, 68, 224, 540.

Note: Considered exotic and invasive in Cuba by CeNBIO.

*Opuntia acaulis* Ekman & Werderm., Repert. Spec. Nov. Regni Veg. 29: 230. 1931; *Consolea acaulis* (Ekman & Werderm.) F.M. Knuth in C. Backeberg & F.M. Knuth, Kaktus-ABC 146. 1935.

Distribution: Endemic to Hispaniola (Haiti).

References: 68, 152.

*Opuntia antillana* Britton & Rose, Brooklyn Bot. Gard. Mem. 1: 73. 1918.

*Opuntia domingensis* Britton & Rose ex Urb., Symb. Antill. 8: 466. 1920, *nom. nud.*

Distribution: Endemic to West Indies; native to Hispaniola, Puerto Rico, Virgin Islands (St. Croix, St. Thomas, Tortola), and Lesser Antilles (St. Kitts).

Common Names: Guasábara pilotera, Tuna (Dominican Republic), Chardon cardasse, Chat au volant, Piquant couéna, Piquant rouge, Piquant sauteur, Raquette espagnole, Raquette pagnole (Haiti).

References: 1, 5, 58, 61, 68, 123, 362.

*Opuntia auberi* Pfeiff. in C.F. Otto & A. Dietrich, Allg. Gartenzeitung 8: 282. 1840; *Nopalea auberi* (Pfeiff.) Salm-Dyck, Cact. Hort. Dyck. 1849: 64. 1850 ["1849"].

Distribution: Native to Cuba, Mexico, and Central America.

References: 3, 57, 68.

*Opuntia bahamana* Britton & Rose = *Opuntia stricta* (Haw.) Haw.

*Opuntia borinquensis* Britton & Rose, Cactaceae 1: 103. 1919.

Distribution: Endemic to Puerto Rico.

References: 58, 61, 68.

*Opuntia brasiliensis* (Willd.) Haw. = *Brasiliopuntia brasiliensis* (Willd.) A. Berger

*Opuntia caracassana* Salm-Dyck, Cact. Hort. Dyck. 1849: 238. 1850 ["1849"].

*Opuntia tunoides* Britton & Shafer ex Bold., Fl. Dutch W. Ind. Is. 2: 81. 1914.

*Opuntia wentiana* Britton & Rose, Cactaceae 1: 116. 1919.

Distribution: Native to Lesser Antilles (Grenada), Aruba, Bonaire, Curaçao, Margarita, Trinidad, and South America.

References: 1, 68, 151, 301, 323.

*Opuntia caribaea* Britton & Rose = *Cylindropuntia caribaea* (Britton & Rose) F.M. Knuth

*Opuntia catocantha* Pfeiff. = *Consolea rubescens* (Salm-Dyck ex DC.) Lem.

*Opuntia cochenillifera* (L.) Mill. = *Nopalea cochenillifera* (L.) Salm-Dyck

*Opuntia x cubensis* Britton & Rose, Torreyia 12: 14. 1912.

Distribution: Native to Cuba, United States (FL).

References: 150, 152.

*Opuntia curassavica* (L.) Mill., Gard. Dict., ed. 8. 1768; *Cactus curassavicus* L., Sp. Pl. 469. 1753.

Distribution: Native to Puerto Rico, Lesser Antilles (Redonda, St.

Eustatius), Aruba, Bonaire, Curaçao, and northern South America.

Common Names: Pin cushion, Suckers (Lesser Antilles).

References: 1, 30, 58, 61, 68, 540.

*Opuntia dejecta* Salm-Dyck, Cact. Hort. Dyck. 1834: 361. 1834; *Nopalea dejecta* (Salm-Dyck) Salm-Dyck, Cact. Hort. Dyck. 1849: 64. 1850 ["1849"].

Distribution: Native to Cuba, and likely to Central America.

References: 3, 68.

*Opuntia dillenii* (Ker Gawl.) Haw., Suppl. Pl. Succ. 79. 1819; *Cactus dillenii* Ker Gawl., Bot. Reg. 3: pl. 255. 1818; *Opuntia stricta* (Haw.) Haw. var. *dillenii* (Ker Gawl.) L.D. Benson, Cact. Succ. J. (Los Angeles) 41: 126. 1969.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Anegada, Guana, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Anguilla, Antigua, Barbados, Barbuda, Dominica, Grenada, Grenadines, Guadeloupe, Marie Galante, Martinique, Montserrat, Redonda, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia, St. Martin), Margarita, United States, Mexico, Central America, and South America.

Common Names: Common prickly-pear (Bahamas), Higo chumbo, Tuna, Tuna brava (Cuba), Tuna, Tuna brava (Dominican Republic), Raquette (Haiti), Prickly pear, Seaside tuna (Jamaica), Broad-leafed cassie, Dildo, Prickly pear, Raquette, Tuna (Lesser Antilles), Higo de mar, Tuna brava (Puerto Rico), Prickly pear (Virgin Islands).

References: 1, 2, 3, 4, 5, 19, 45, 58, 61, 68, 75, 123, 131, 132, 152, 224, 323.

*Opuntia domingensis* Britton & Rose ex Urb. = *Opuntia antillana* Britton & Rose

*Opuntia ekmanii* Werderm., Repert. Spec. Nov. Regni Veg. 29: 225. 1931.

Distribution: Endemic to Hispaniola (Haiti).

References: 68, 152.

*Opuntia elata* Salm-Dyck, Hort. Dyck 361. 1834.

Distribution: Cultivated in Cuba; native to Paraguay fide Anderson (68).

References: 3, 68, 224.

Note: Considered an invasive species by CeNBIO.

*Opuntia elatior* Mill., Gard. Dict., ed. 8. 1768.

Distribution: Native to Lesser Antilles (Montserrat, Redonda, Saba), Margarita, Central America, and northern South America.

Common Name: French prickle (Lesser Antilles).

References: 1, 68, 323.

*Opuntia falcata* Ekman & Werderm. = *Consolea falcata* (Ekman & Werderm.) F.M. Knuth

*Opuntia ferox* sensu Bello = *Consolea rubescens* (Salm-Dyck ex DC.) Lem.

*Opuntia ficus-indica* (L.) Mill., Gard. Dict., ed. 8. 1768.

*Opuntia vulgaris* Mill., Gard. Dict., ed. 8. 1768.

Distribution: Exotic in Cuba, Hispaniola, Puerto Rico, Lesser Antilles (Guadeloupe, Saba, St. Eustatius, St. Martin), Margarita, Trinidad; possibly native to Mexico.

Common Names: Higo chumbo, Tuna, Tuna blanca (Cuba), Alquitira, Higo chumbo, Tuna de España, Tuna mansa (Dominican

Republic), Raquelle, Raquette (Haiti), Figuier de Barbarie, Indian fig, Tuna (Lesser Antilles), Tuna, Tuna de España (Puerto Rico).  
References: 1, 3, 58, 61, 68, 123, 131, 224, 323.

Note: Considered an invasive species by CeNBIIO.

*Opuntia guanicana* K. Schum. ex Gürke = *Consolea rubescens* (Salm-Dyck ex DC.) Lem.

*Opuntia haitiensis* Britton = *Consolea moniliformis* (L.) A. Berger

*Opuntia horrida* Salm-Dyck = *Opuntia tuna* (L.) Mill.

*Opuntia hystrix* Griseb. = *Cylindropuntia hystrix* (Griseb.) Areces

*Opuntia jamaicensis* Britton & Harris = *Opuntia tuna* (L.) Mill.

*Opuntia x lucayana* Britton, Bull. New York Bot. Gard. 4: 141. 1906.

Distribution: Endemic to West Indies; native to Bahamas and Virgin Islands (Buck Is).

References: 45, 68.

*Opuntia macracantha* Griseb. = *Consolea macracantha* (Griseb.) A. Berger

*Opuntia picardae* Urb. = *Consolea macrantha* (Griseb.) A. Berger

*Opuntia repens* Bello, Anales Soc. Esp. Hist. Nat. 10: 277. 1881.

Distribution: Endemic to Puerto Rico and Virgin Islands (Guana, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda); cultivated in Cuba.

Common Names: Gatos, Olaga (Puerto Rico), Suckers (Virgin Islands).  
References: 3, 19, 58, 61, 68, 75, 131, 132, 151, 340, 540.

*Opuntia rubescens* Salm-Dyck ex DC. = *Consolea rubescens* (Salm-Dyck ex DC.) Lem.

*Opuntia sanguinea* Proctor, J. Arnold Arbor. 63: 239. 1982.

Distribution: Endemic to Jamaica.

References: 2, 68.

*Opuntia spinosissima* Mill. = *Consolea spinosissima* (Mill.) Lem.

*Opuntia spinosissima* K. Schum. = *Consolea rubescens* (Salm-Dyck ex DC.) Lem.

*Opuntia stricta* (Haw.) Haw., Syn. Pl. Succ. 191. 1812; *Cactus strictus* Haw., Misc. Nat. 188. 1803.

*Opuntia bahamana* Britton & Rose, Cact. 1: 203. 1919; *Consolea bahamana* (Britton & Rose) A. Berger, Entwicklungslin. Kakt. 94. 1926.

Distribution: Native to Bahamas, Cuba, United States, and eastern Mexico.

Common Names: Common prickly-pear (Bahamas), Higo chumbo, Tuna, Tuna brava (Cuba).

References: 1, 2, 3, 4, 5, 19, 45, 58, 61, 68, 75, 123, 131, 132, 152, 224, 323.

Note: Considered exotic and invasive in Cuba by CeNBIIO.

*Opuntia stricta* (Haw.) Haw. var. *dillenii* (Ker Gawl.) L.D. Benson = *Opuntia dillenii* (Ker Gawl.) Haw.

*Opuntia taylorii* Britton & Rose, Smithsonian Misc. Collect. 50: 520. 1908.

Distribution: Endemic to Hispaniola (Haiti).

Common Names: Piquant, Piquant sauteur (Haiti).

References: 5, 68, 123.

*Opuntia testudinis-crus* F.A.C. Weber = *Consolea moniliformis* (L.) A. Berger

*Opuntia triacantha* (Willd.) Sweet, Hort. Brit. 172. 1826.

*Opuntia militaris* Britton & Rose, Cactaceae 1: 104. 1919.

Distribution: Endemic to West Indies; native to Puerto Rico, Virgin Islands (Guana, St. Croix, St. Thomas), and Lesser Antilles (Antigua, Guadeloupe, Montserrat, Nevis, Redonda, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia, St. Martin).

Common Names: Jumping cassie, Raquette volante, Suckers, Sucking cassie (Lesser Antilles).

References: 1, 3, 58, 61, 68, 150.

*Opuntia tuna* (L.) Mill., Gard. Dict., ed. 8. 1768; *Cactus tuna* L., Sp. Pl. 468. 1753.

*Opuntia horrida* Salm-Dyck in A.P. de Candolle, Prodr. 3: 472. 1828.

*Opuntia jamaicensis* Britton & Harris, Torreya 11: 130. 1911.

Distribution: Endemic to Greater Antilles; native to Hispaniola and Jamaica.

Common Name: Tuna (Jamaica).

References: 2, 5, 30, 68, 151, 340.

*Opuntia tunicata* (Lehm.) Pfeiff. = *Cylindropuntia tunicata* (Lehm.) F.M. Knuth

*Opuntia tunoides* Britton & Shafer ex Bold. = *Opuntia caracassana* Salm-Dyck

*Opuntia urbaniana* Werderm. = *Consolea moniliformis* (L.) A. Berger

*Opuntia vulgaris* Mill. = *Opuntia ficus-indica* (L.) Mill.

*Opuntia wentiana* Britton & Rose = *Opuntia caracassana* Salm-Dyck

*Pereskia aculeata* Mill., Gard. Dict., ed. 8. 1768.

*Pereskia pereskia* (L.) H. Karst., Deut. Fl. 888. 1882.

Distribution: Exotic in Cuba, Hispaniola, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas), Lesser Antilles (Antigua, Barbados, Dominica, Grenadines, Guadeloupe, Martinique, Montserrat, Saba, St. Eustatius, St. Lucia, St. Martin, St. Vincent), and Trinidad.

Common Names: Coronia de novia, Flor de cera, Grosellero, Grosellero americano, Grosellero de la florida, Guinda, Jazmín grosella, Tomate americano (Cuba), Camelia blanca (Dominican Republic), West Indian gooseberry (Jamaica), Barbados gooseberry, Groseille-Barbade, Groseille-pays (Lesser Antilles), Hortensia de bejuco, Uva espinosa (Puerto Rico), Gooseberry shrub, Lemon vine (Virgin Islands).

References: 1, 2, 3, 5, 19, 32, 58, 61, 68, 94, 123, 131, 147, 224, 301.

Note: Considered an invasive species by CeNBIIO.

*Pereskia bleo* (Kunth) DC., Prodr. 3: 475. 1828; *Cactus bleo* Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 6: 69. 1823.

Distribution: Exotic in Cuba, Hispaniola, Lesser Antilles (Guadeloupe, Montserrat, Saba, St. Eustatius, St. Kitts, St. Martin, St. Vincent), and Margarita; native to Panama and Colombia.

Common Names: Corona de Cristo, Bella hortensia, Corona del señor (Cuba), Camelia roja (Dominican Republic).

References: 1, 5, 30, 68, 94, 123, 132, 151, 323.

*Pereskia cubensis* Britton & Rose = *Pereskia zinniiflora* DC.

- Selenicereus boeckmannii* (Otto) Britton & Rose, Contr. U.S. Natl. Herb. 12: 429. 1909; *Cereus boeckmannii* Otto in J.F.M.A.H.I.F. Salm-Dyck, Cact. Hort. Dyck 1849: 217. 1850.  
Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, and Mexico.  
Common Names: Queen-of-the-night (Bahamas), Pitahaya, Pitajaya, Yaguarabas, Yaguarabos (Cuba).  
References: 3, 4, 45, 61, 68, 132.
- Selenicereus brevispinus* Britton & Rose, Cactaceae 2: 201. 1920; *Cereus brevispinus* (Britton & Rose) A Berger, Kakteen (Berger) 113. 1929.  
Distribution: Endemic to Cuba.  
References: 3, 68, 152.
- Selenicereus grandiflorus* (L.) Britton & Rose, Contr. U.S. Natl. Herb. 12: 430. 1909; *Cactus grandiflorus* L., Sp. Pl. 467. 1753; *Cereus grandiflorus* (L.) Mill., Gard. Dict., ed. 8. 1768.  
*Cereus bakeri* (Britton & Rose) Vaupel, Monatsschr. Kakteenk. 23: 23. 1913; *Cephalocereus bakeri* Britton & Rose, Contr. U.S. Natl. Herb. 12: 415. 1909.  
*Selenicereus urbanianus* Britton & Rose, Contr. U.S. Natl. Herb. 16: 242. 1913.
- Selenicereus maxonii* Rose, Contr. U.S. Natl. Herb. 12: 430. 1909.  
Distribution: Apparently native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Mexico, and Central America; exotic in Puerto Rico, Virgin Islands (Guana, St. Croix, St. John, St. Thomas, Tortola), and Lesser Antilles (Barbados, Guadeloupe, Martinique, Saba, St. Barthélemy, St. Eustatius, St. Martin).  
Common Names: Queen-of-the-night (Bahamas), Pitahaya, Pitajaya, Reina de las flores Yaguarabas, Yaguarabos (Cuba), Flor de baile, Flor de mayo (Dominican Republic), Queen-of-the-night (Jamaica), Cardón, Reina de la noche (Puerto Rico), Queen of the night (Virgin Islands).  
References: 1, 2, 3, 4, 5, 19, 32, 45, 57, 58, 61, 68, 75, 123, 131, 132, 150.
- Selenicereus grandiflorus* (L.) Britton & Rose var. *irradians* (Lem.) Borg = *Selenicereus pteranthus* (Link ex A. Dietr.) Britton  
*Selenicereus maxonii* Rose = *Selenicereus grandiflorus* (L.) Britton & Rose  
*Selenicereus pteranthus* (Link ex A. Dietr.) Britton, Contr. U.S. Natl. Herb. 12: 431. 1909.  
*Selenicereus grandiflorus* (L.) Britton & Rose var. *irradians* (Lem.) Borg, Cacti 206. 1951; *Cereus irradians* Lem., Ill. Hort. 11 (Misc.): 74. 1864.  
*Cereus nycitalus* Link ex A. Dietr., Verh. Vereins Beford. Gartenbaues Königl. Preuss. Staaten 10: 372. 1834.  
Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, and Mexico; cultivated in Puerto Rico and Virgin Islands (St. Croix).  
Common Names: Queen-of-the-night (Bahamas), Pitahaya, Pitajaya, Yaguarabas, Yaguarabos (Cuba), Flor de mayo (Puerto Rico).  
References: 3, 4, 30, 45, 61, 68, 131, 132, 150, 151, 152, 159, 230, 536, 540.
- Selenicereus urbanianus* Britton & Rose = *Selenicereus grandiflorus* (L.) Britton & Rose  
*Stenocereus fimbriatus* (Lam.) Lourteig, Bradea 5: 408. 1991; *Cactus fimbriatus* Lam., Encycl. 1: 539. 1783.  
*Lemaireocereus hystrix* (Haw.) Britton & Rose, Contr. U.S. Natl. Herb. 12: 425. 1909; *Stenocereus hystrix* (Haw.) Buxb., Bot. Stud. 12: 100. 1961.  
*Stenocereus peruvianus* (Mill.) R. Kiesling, Darwiniana 24: 446. 1982.  
Distribution: Endemic to Greater Antilles; native to Cuba, Hispaniola, Jamaica, Puerto Rico and Virgin Islands (St. John).  
References: 2, 3, 19, 57, 58, 61, 68, 149.
- Stenocereus hystrix* (Haw.) Buxb. = *Stenocereus fimbriatus* (Lam.) Lourteig  
*Stenocereus peruvianus* (Mill.) R. Kiesling = *Stenocereus fimbriatus* (Lam.) Lourteig  
*Subpilocereus grenadensis* (Britton & Rose) Backeb. = *Cereus repandus* (L.) Mill.

## EXCLUDED SPECIES

*Selenicereus innesii* Kimmach, Cact. Succ. J. (Los Angeles) 54: 4. 1982.  
References: 57, 68, 540.

Note: Described in error as originating from the Lesser Antilles, but in fact a green-house hybrid of *Disocactus flagelliformis*. (Nigel Taylor, personal comments).

## CALCEOLARIACEAE

**Genera.** Total: 1; native: 0; endemic: 0.

**Taxa.** Total: 3; native: 0; endemic: 0.

*Calceolaria chelidonioides* Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 2: 378. 1818.

Distribution: Exotic in Jamaica; native to Mexico, Central America, and South America.

References: 2, 159, 245.

*Calceolaria pinnata* L., Kongl. Vetensk. Acad. Handl. 31: 286. 1770.

Distribution: Exotic in Jamaica; native to Central America and South America.

References: 2, 151, 245, 361.

*Calceolaria tripartita* Ruiz & Pav., Fl. Peruv. 1: 14. 1798.

Distribution: Naturalized in Cuba and Jamaica; native to South America.

Reference: 361.

## CALOPHYLLACEAE

**Genera.** Total: 3; native: 3; endemic: 0.

**Taxa.** Total: 11; native: 9; endemic: 2.

*Calophyllum antillanum* Britton in N.L. Britton & P. Wilson, Sci. Surv. Porto Rico & Virgin Islands 5: 584. 1924; *Calophyllum brasiliense* Cambess. var. *antillanum* (Britton) Standl., Trop. Woods 30: 7. 1932; *Calophyllum jacquinii* Fawc. & Rendle, Fl. Jamaica 5: 200. 1926; *Calophyllum calaba* sensu Jacq. (as to the New World elements), Select. Stirp. Amer. Hist. 269. 1763, non L., 1753.

Distribution: Native to Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, Tortola), Lesser Antilles (Antigua, Barbados, Barbuda, Dominica, Grenada, Guadeloupe, Marie Galante, Martinique, Montserrat, St. Lucia, St. Vincent), Tobago, Trinidad, and Central America.

Common Names: Baría, Dalmagre, Malagueta, Mara, María, Palo María, Santa María (Dominican Republic), Bois marie, Dalemarie, Dalmarie, Damage, Dame marie (Haiti), Galba, Santa Maria (Jamaica), Bois de charromage, Galba (Lesser Antilles), Aceite de maría, María, Palo de María, Santa María (Puerto Rico).

References: 1, 2, 7, 58, 61, 75, 131, 137, 149, 230, 301, 340.

*Calophyllum brasiliense* Cambess. in A. Saint-Hilaire, Fl. Bras. Merid. (quarto ed.) 1: 321. 1828.

*Calophyllum brasiliense* Cambess. subsp. *longifolium* (Willd.) Vesque, Monogr. Phan. 8: 592. 1893.

*Calophyllum lucidum* Benth., Hooker's J. Bot. Kew Gard. Misc. 2: 370. 1843.

Distribution: Exotic in Bahamas; native to Tobago, Trinidad, Mexico, Central America, and South America.

References: 30, 45, 159.

*Calophyllum brasiliense* Cambess. var. *antillanum* (Britton) Standl. = *Calophyllum antillanum* Britton

*Calophyllum brasiliense* Cambess. subsp. *longifolium* (Willd.) Vesque = *Calophyllum brasiliense* Cambess.

*Calophyllum calaba* sensu Jacq. = *Calophyllum antillanum* Britton

*Calophyllum inophyllum* L., Sp. Pl. 513. 1753.

Distribution: Exotic in Cuba and Puerto Rico; native to Africa, Asia, Malasia, and Pacific region.

Common Names: Kamani, María grande (Puerto Rico).

References: 58, 131, 159, 224, 252, 383.

Note: Considered an invasive species by CeNBI.

*Calophyllum jacquinii* Fawc. & Rendle = *Calophyllum antillanum* Britton

*Calophyllum madruno* Kunth = *Garcinia madruno* (Kunth) Hammel (Clusiaceae)

*Calophyllum pinetorum* Bisse, Feddes Repert. 85: 603. 1974.

Distribution: Endemic to Cuba.

Reference: 149.

*Calophyllum rivulare* Bisse, Feddes Repert. 85: 604. 1974.

Distribution: Endemic to Cuba.

Reference: 149.

*Calophyllum utile* Bisse, Feddes Repert. 85: 602. 1974.

Distribution: Endemic to Cuba.

Reference: 149.

*Mammea americana* L., Sp. Pl. 512. 1753.

Distribution: Endemic to West Indies; native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas, Tortola), Lesser Antilles (Antigua, Barbados, Dominica, Guadeloupe, Marie Galante, Martinique, Montserrat, Saba, St. Eustatius, St. Kitts, St. Martin, St. Vincent), Margarita, Tobago, and Trinidad.

Common Names: Mamey (Bahamas), Mamey, Mamey amarillo, Mamey de Santo Domingo (Cuba), Mama apple, Mamey, Mamma apple (Dominican Republic), Abricot, Abricotier, Abricotier des Antilles, Zabricot, Z'abricot (Haiti), Mammee (Jamaica), Abricot, Abricotier, Mammee apple, Mammee sapote, Zabwiko, Zapricot (Lesser Antilles), Mamey (Puerto Rico), Mammee apple (Virgin Islands).

References: 1, 2, 3, 4, 5, 7, 19, 45, 58, 61, 75, 301, 323, 340.

*Mammea humilis* Vahl = *Garcinia humilis* (Vahl) C.D. Adams (Clusiaceae)

*Marila biflora* Urb., Ark. Bot. 20A(15): 78. 1926.

Distribution: Endemic to Hispaniola (Haiti).

References: 5, 7.

*Marila dissitiflora* C. Wright in F.A. Sauvalle, Anales Acad. Ci. Méd. Habana 5: 237. 1868.

Distribution: Endemic to Cuba.

Reference: 3.

*Marila domingensis* Urb., Ark. Bot. 22A(10): 17. 1929.

Distribution: Endemic to Hispaniola (Haiti).

References: 5, 7.

*Marila racemosa* Sw., Prodr. 84. 1788.

Distribution: Endemic to Lesser Antilles (Antigua, Dominica, Guadeloupe, Marie Galante, Martinique, Montserrat, St. Kitts, St. Lucia, St. Vincent); reported for Trinidad.

Common Names: Bois-cachiman, Bois-casse rose, Bois pois, Bull tongue, Bwa pwa, Cachiman bois, Cachiman marron (Lesser Antilles).

References: 1, 301.

## CAMPANULACEAE

**Genera.** Total: 5; native: 5; endemic: 0.

**Taxa.** Total: 64; native: 64; endemic: 57.

*Campanula perfoliata* L. = *Triodanis perfoliata* (L.) Nieuwl.

*Centropogon berterioanus* (Spreng.) DC., Prodr. 7(2): 345. 1839; *Lobelia berterioana* Spreng., Syst. Veg., ed. 16, 1: 712. 1824 ["1825"].

Distribution: Endemic to Lesser Antilles (Dominica, Guadeloupe, St. Lucia).

Common Name: Liane rouge (Lesser Antilles).

References: 1, 31, 152.

*Centropogon cornutus* (L.) Druce, Rep. Bot. Soc. Exch. Club Brit. Isles 3: 416. 1914; *Lobelia cornuta* L., Sp. Pl. 930. 1753.

*Centropogon cornutus* (L.) Druce f. *leucanthus* E. Wimm. in H.G.A. Engler, Pflanzenr. IV, 276b (Heft 106): 200. 1943.

*Centropogon surinamensis* (L.) C. Presl, Prodr. Monogr. Lobel. 48. 1836.

Distribution: Native to Lesser Antilles (Antigua, Grenada, Guadeloupe, Martinique), Tobago, Trinidad, Margarita, Mexico, Central America, and South America.

Common Name: Bois poison (Lesser Antilles).

References: 1, 147, 152, 323.

*Centropogon cornutus* (L.) Druce f. *leucanthus* E. Wimm. = *Centropogon cornutus* (L.) Druce

*Dortmannia acuminata* (Sw.) Kuntze var. *pubescens* Kuntze = *Lobelia acuminata* Sw.

*Hippobroma longiflora* (L.) G. Don, Gen. Hist. 3: 717. 1834; *Lobelia longiflora* L., Sp. Pl. 930. 1753; *Isotoma longiflora* (L.) C. Presl, Prodr. Monogr. Lobel. 42. 1836; *Laurentia longiflora* (L.) E. Wimm., Publ. Field. Mus. Nat. Hist., Bot. Ser. 13(6): 474. 1937.

Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas, Tortola), Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Marie Galante, Martinique, Montserrat, Saba, St. Lucia), Margarita, Trinidad, Mexico, Central America, and South America.

Common Names: Guibey, Quibey (Dominican Republic), Feuilles crabe, Feuilles crabe, Tibey (Haiti), Horse poison, Madam fate (Jamaica), Herbe-poison, Mort aux cabrits, Pipe-shank, Pipe-zombi, Star of Bethlehem (Lesser Antilles), Cipril, Tibey, Tibey blanco (Puerto Rico).

References: 1, 2, 5, 7, 19, 58, 61, 75, 123, 131, 136, 151, 159, 301, 323, 340.

*Isotoma longiflora* (L.) C. Presl = *Hippobroma longiflora* (L.) G. Don

*Laurentia longiflora* (L.) E. Wimm. = *Hippobroma longiflora* (L.) G. Don

*Legousia perfoliata* (L.) Britton = *Triodanis perfoliata* (L.) Nieuwl.

*Lobelia acuminata* Sw., Prodr. 115. 1788.

*Dortmannia acuminata* (Sw.) Kuntze var. *pubescens* Kuntze, Revis. Gen. Pl. 2: 379. 1891.

Distribution: Endemic to Jamaica.

References: 2, 30.

*Lobelia alticaulis* Proctor, Bull. Inst. Jamaica, Sci. Ser. 16: 69. 1967.

Distribution: Endemic to Jamaica.

Reference: 2.

*Lobelia aphylla* Nutt. = *Apteria aphylla* (Nutt.) Barnhart ex Small (Burmaniaceae)

*Lobelia aquatica* Cham., Linnaea 8: 211. 1833.

*Lobelia domingensis* A. DC. in A.P. de Candolle, Prodr. 7(2): 359. 1839.

Distribution: Native to Hispaniola and South America.

Common Names: Cardinale bleue, Mercure végétal (Haiti).

References: 7, 123, 151, 152.

*Lobelia assurgens* L., Syst. Nat., ed. 10, 1237. 1759, var. *assurgens*; *Tupa assurgens* (L.) A. DC. in A.P. de Candolle, Prodr. 7(2): 394. 1839.

*Winterana canella* L. = *Canella winterana* (L.) Gaertn.

## CANELLACEAE

Genera. Total: 3; native: 3; endemic: 0.

Taxa. Total: 7; native: 7; endemic: 6.

*Canella alba* Murray = *Canella winterana* (L.) Gaertn.

*Canella winterana* (L.) Gaertn., Fruct. Sem. Pl. 1: 373. 1788; *Laurus winterana* L., Sp. Pl. 371. 1753.

*Canella alba* Murray, Syst. Veg., ed. 14, 443. 1784.

*Winterana canella* L., Syst. Nat., ed. 10, 1045. 1759.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Anegada, St. Croix, St. John, St. Thomas), Lesser Antilles (Anguilla, Antigua, Barbados, Barbuda, Dominica, Guadeloupe, Martinique, Montserrat, St. Lucia, St. Martin, St. Vincent), North America, Mexico, and Central America.

Common Names: Cinnamon bark, White-wood bark, Wild cinnamon (Bahamas), Canelero de Cuba, Canelillo, Copalillo, Cúrbana Malambo, Melambo, Negracuba, Palo malambo (Cuba), Canela, Canela de la tierra, Canelilla (Dominican Republic), Camille, Canille, Cannelle, Cannelle poivree (Haiti), Canella, Wild cinnamon (Jamaica), Bastard cinnamon, Bois-cannelle, Bwa kannèl, Canellier bâtard, Canellier blanc, Kannèl, Pepper

## CANNABACEAE

Genera. Total: 3; native: 2; endemic: 0.

Taxa. Total: 10; native: 9; endemic: 5.

*Cannabis sativa* L., Sp. Pl. 1027. 1753.

Distribution: Exotic in Hispaniola, Jamaica, Puerto Rico, Lesser Antilles, Tobago, Trinidad, North America, Central America, and South America; native to Asia.

Common Names: Cañamo (Cuba), Cañamo indio, Mariguana, Marihuana (Dominican Republic), Ghanja, Marijuana, Maryjane (Lesser Antilles), Cañamo, Mariguana, Marihuana, Marijuana (Puerto Rico), Hemp, Indian hemp, Pot (Virgin Islands).

References: 1, 2, 7, 58, 301.

*Celtis aculeata* Sw. = *Celtis iguanaea* (Jacq.) Sarg.

*Celtis aculeata* Sw. var. *serrata* Griseb. = *Celtis iguanaea* (Jacq.) Sarg.

*Celtis berteroaana* Urb., Repert. Spec. Nov. Regni Veg. 15: 109. 1917.

Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.

Common Names: Bois feuilles blanches, Casser hache gris (Haiti).  
References: 3, 5, 7, 123.

*Celtis iguanaea* (Jacq.) Sarg., *Silva* 7: 64. 1895; *Rhamnus iguanaea* Jacq., *Enum. Syst. Pl.* 16. 1760; *Momisia iguanaea* (Jacq.) Rose & Standl., *Contr. U.S. Natl. Herb.* 16: 8. 1912.

*Celtis aculeata* Sw., *Prodr.* 53. 1788.

*Celtis aculeata* Sw. var. *serrata* Griseb., *Fl. Brit. W. I.* 149. 1859.

*Ziziphus reticulata* sensu A. Stahl, *Estud. Fl. Puerto Rico* 4: 42. 1886, non (Vahl) DC.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana, St. Croix, St. John, St. Thomas, Tortola), Lesser Antilles (Antigua, Barbados, Barbuda, Dominica, Grenadines, Guadeloupe, Marie Galante, Martinique, Montserrat, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia, St. Martin, St. Vincent), Aruba, Bonaire, Curaçao, Margarita, Trinidad, Mexico, Central America, and South America.

Common Names: Hackberry (Bahamas), Baboyana, Rompe ropa (Cuba), Coca, Gallito, Gatito, Guaraguao (Dominican Republic), Chene blanc, Coca chen blanche, Liane crabe, Liane grabe, Liane pagne (Haiti), Cockspur, Croca chien, Gratte-jambe (Lesser Antilles), Azufaifo (Puerto Rico).

References: 1, 2, 3, 4, 5, 6, 7, 19, 32, 45, 58, 301, 323, 340.

*Celtis jamaicensis* Planch., *Ann. Sci. Nat. Bot.*, sér. 3, 10: 290. 1848.

*Celtis trinervia* sensu Griseb., *Fl. Brit. W. I.* 149. 1859, non Lam.

Distribution: Endemic to Jamaica.

References: 2, 30, 427.

Note: Considered near threatened by the IUCN Red List of Threatened Species.

*Celtis lamarckiana* Roem. & Schult. = *Trema lamarckianum* (Roem. & Schult.) Blume

*Celtis parvifolia* A. Rich. = *Trema lamarckianum* (Roem. & Schult.) Blume

*Celtis punctata* (Urb. & Ekman) Urb. & Ekman, *Ark. Bot.* 22A(8): 14. 1928; *Sarcomphalus punctatus* Urb. & Ekman, *Ark. Bot.* 20A(5): 19. 1926.

Distribution: Endemic to Hispaniola.

Common Names: Bois feuilles blanches, Bois raie, Bois raire (Haiti).

References: 5, 7.

*Celtis trinervia* Lam., *Encycl.* 4: 140. 1797.

Distribution: Native to Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas, Tortola), Mexico, and Central America.

Common Names: Aguedita, Cabellos de la reina, Gallina, Gallinasa, Garrapata, Graciliano, Guasiriano, Guisacillo, Huesillo, Hueso, Hueso blanco, Jaboncillo, Malva de sierra, Quiebra hacha de costa, Ramón de costa, Ramón de sierra (Cuba), Amarguillo, Anisillo, Lejío, Palo amargo (Dominican Republic), Bois feuilles blanches, Bois raie, Casser hache gris (Haiti), Bastard fustic (Jamaica), Alméz, Guacimilla, Raspador, Ruiseñor (Puerto Rico).

## CANNACEAE

**Genera.** Total: 1; native: 1; endemic: 0.

**Taxa.** Total: 6; native: 3; endemic: 0.

*Canna cinnabarina* Bouché = *Canna indica* L

*Canna coccinea* Mill., Gard. Dict., ed. 8. 1768.

Distribution: Exotic in Cuba, Hispaniola, and Jamaica; native to southern South America.

Common Names: Canna, Platanillo de monte, Flor de campana, Platanillo colorado, Platanillo de Cuba (Cuba), Cigarrón (Dominican Republic), Sagou marron (Haiti), Wild Canna (Jamaica).

References: 1, 2, 30, 123, 132, 147, 159, 210, 340.

*Canna coccinea* sensu Britton & P. Wilson = *Canna indica* L.

*Canna discolor* Lindl., Edwards's Bot. Reg. 15: t. 1231. 1829.

Distribution: Exotic in Cuba; native to Mexico, Central America, and South America.

References: 3, 147.

*Canna domingensis* Urb. = *Canna jaegeriana* Urb.

*Canna edulis* Ker Gawl. = *Canna indica* L.

*Canna glauca* L., Sp. Pl. 1. 1753.

Distribution: Native to Cuba, Hispaniola, Jamaica, Lesser Antilles (Guadeloupe, Martinique, St. Lucia), Puerto Rico, North America, Mexico, Central America, and South America.

Common Names: Platanillo de Cuba, Platanillo amarillo (Cuba), Capacho manso (Dominican Republic), Toloman, Balisier jaune (Lesser Antilles), Maraca de pantano, Maraca boba, Maraca amarilla (Puerto Rico).

References: 1, 2, 3, 5, 28, 123, 131, 132, 147.

*Canna indica* L., Sp. Pl. 1. 1753.

*Canna cinnabarina* Bouché, Linnaea 18: 490. 1844.

*Canna coccinea* sensu Britton & P. Wilson, Sci. Surv. Porto Rico & Virgin Islands 5: 169. 1923, non Mill.

*Canna edulis* Ker Gawl., Bot. Reg. 9: t. 775. 1824.

*Canna lambertii* Lindl., Bot. Reg. 6: t. 470. 1820.

*Canna lutea* Mill., Gard. Dict., ed. 8. 1768.

*Canna portoricensis* Bouché, Linnaea 12: 147. 1838.

Distribution: Native in Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. John, Virgin Gorda), and Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Guadeloupe, Martinique, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia, St. Martin, St. Vincent); native to Mexico, Central America, and South America; naturalized in tropical Asia and Africa.

Common Names: Indian-shot (Bahamas), Canna, De flor colorada, Mariposa amarilla, Platanillo de monte (Cuba), Arrow-root, Cigarrón, Cigarrones, Corn-starch, Zumbadores (Dominican Republic), Araout farine, Arrorou, Balisier rouge (Haiti), Indian shot, Wild tapioca (Jamaica), Balisier, Balisier à chapelets, Balisier jaune, Balisier rouge, Cannon, Graine à chapelets, Indian shot, Scarlet shot, Toloman, Toloman batard, Tous-les-mois (Lesser Antilles), Bandera española, Maraca (Puerto Rico), Wild canna (Virgin Islands).

References: 1, 2, 3, 19, 28, 45, 61, 123, 131, 132, 147, 152.

*Canna jaegeriana* Urb., Repert. Spec. Nov. Regni Veg. 15: 102. 1917.

*Canna domingensis* Urb., Repert. Spec. Nov. Regni Veg. 15: 102. 1917.

*Canna pertusa* Urb., Repert. Spec. Nov. Regni Veg. 15: 101. 1917.

Distribution: Native to Hispaniola, Puerto Rico, and South America.

Common Names: Balisier, Banane zombie, Bananier zombi (Haiti).

References: 5, 28, 30, 61, 123, 147.

*Canna lambertii* Lindl. = *Canna indica* L.

*Canna lutea* Mill. = *Canna indica* L.

*Canna pedunculata* Sims, Bot. Mag. 49: t. 2323. 1822.

Distribution: Reported for Cuba; native to South America.

References: 3, 147, 250.

*Canna pertusa* Urb. = *Canna jaegeriana* Urb.

*Canna portoricensis* Bouché = *Canna indica* L.

## CAPPARACEAE

Genera. Total: 6; native: 6; endemic: 1.

Taxa. Total: 29; native: 29; endemic: 14.

*Breynia indica* L. = *Quadrella indica* (L.) Iltis & Cornejo

*Capparidastrum frondosum* (Jacq.) Cornejo & Iltis, Harvard Pap. Bot. 13: 232. 2008; *Capparis frondosa* Jacq., Enum. Syst. Pl. 24. 1760.

*Capparis baducca* L., Sp. Pl. 504. 1753, in part, non as to lectotype (Jacobs, Blumea 12: 435. 1965).

Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana, Jost van Dyke, St. Croix, St. John, St. Thomas, Tortola), Lesser Antilles (Anguilla, Antigua, Barbados, Barbuda, Dominica, Grenada, Grenadines,

Guadeloupe, Marie Galante, Martinique, Montserrat, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia, St. Martin, St. Vincent), Margarita, Tobago, Trinidad, Mexico, Central America, and South America.

Common Names: Berraco, Palo berraco, Palo verraco (Cuba), Church blossom, Mabouge, Mabouya, Rat-bean, Rope, Sapó (Lesser Antilles).

References: 1, 2, 3, 5, 7, 19, 58, 61, 75, 301, 323, 363.

- Capparis cynophallophora* L. var. *latifolia* (Stahl) Griseb., Fl. Brit. W. I. 18. 1859.
- Capparis latifolia* (Griseb.) A. Stahl, Estud. Fl. Puerto Rico 2: 186. 1884.
- Distribution: Native to Hispaniola, Puerto Rico, Virgin Islands (Jost van Dyke, St. Croix, St. John, St. Thomas), Lesser Antilles (Antigua, Dominica, Grenada, Grenadines, Guadeloupe, Martinique, Montserrat, St. Barthélemy, St. Kitts, St. Lucia, St. Vincent), Bonaire, Margarita, Trinidad, and South America.
- Common Names: Burro, Broad-leaved caper tree (Lesser Antilles), Sapo, Burro (Puerto Rico), Broad-leaved caper (Virgin Islands).
- References: 1, 6, 7, 19, 30, 36, 58, 61, 75, 131, 150, 151, 323, 301, 340.
- Forchhammeria brevipes* Urb., Symb. Antill. 7: 225. 1912.
- Distribution: Endemic to Greater Antilles; native to Hispaniola and Puerto Rico.
- References: 5, 6, 7, 58.
- Forchhammeria emarginata* Alain, Bull. Torrey Bot. Club 92: 292. 1965.
- Distribution: Endemic to Cuba.
- Reference: 3.
- Forchhammeria haitiensis* (Urb. & Ekman) Alain, Brittonia 20: 152. 1968; *Murbeckia haitiensis* Urb. & Ekman, Ark. Bot. 23A(5): 79. 1930.
- Distribution: Endemic to Hispaniola (Haiti).
- Reference: 7.
- Forchhammeria polyandra* (Griseb.) Alain, Bull. Torrey Bot. Club 92: 293. 1965; *Excoecaria polyandra* Griseb., Nachr. Königl. Ges. Wiss. Georg-Augusts-Univ. 1: 180. 1865; *Forestiera polyandra* (Griseb.) Alain, Revista Soc. Cub. Bot. 13: 8. 1956.
- Distribution: Endemic to Cuba.
- References: 3, 39, 151, 152.
- Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).
- Forchhammeria sphaerocarpa* Krug & Urb. in I. Urban, Symb. Antill. 1: 310. 1899.
- Distribution: Endemic to Hispaniola (Haiti).
- References: 5, 7, 30.
- Forchhammeria trifoliata* Radlk. ex Millsp., Publ. Field Columbian Mus., Bot. Ser. 1(4): 399. 1898.
- Allophylus roigii* H. Lippold, Wiss. Z. Friedrich-Schiller-Univ. Jena, Math.-Naturwiss. Reihe 19: 383. 1970.
- Distribution: Native to Cuba, Jamaica, Mexico, and Central America.
- References: 2, 3, 77, 152.
- \**Hispaniolanthus dolichopodus* (Helwig) Cornejo & Iltis, Harvard Pap. Bot. 14: 12. 2009; *Capparis dolichopoda* Helwig, Ark. Bot. 22A(10): 11. 1929.
- Distribution: Endemic to Hispaniola (Haiti).
- Common Names: Avocat marron, Z'avocat, Zavocat marron (Haiti).
- References: 5, 7, 149, 470.
- Linnaeobreyntia domingensis* (Spreng. ex DC.) Hutch. = *Capparis domingensis* Spreng. ex DC.
- Morisonia americana* L., Sp. Pl. 503. 1753.
- Morisonia imrayi* Griseb., Fl. Brit. W. I. 19. 1859.
- Morisonia johnstonii* Urb., Symb. Antill. 5: 348. 1907.
- Distribution: Native to Hispaniola, Puerto Rico, Virgin Islands (Guana, Jost van Dyke, St. Croix, St. John, St. Thomas, Tortola), Lesser Antilles Antigua, Dominica, Grenadines, Guadeloupe, Marie Galante, Martinique, Montserrat, Saba, St. Barthélemy, St. Eustatius, St. Lucia, St. Martin), Aruba, Curaçao, Margarita, Trinidad, Mexico, Central America, and South America.
- Common Names: Aguacatillo, Guarapo (Dominican Republic), Dog sapodilla, Jubie sapodilla, Sapote-bâtard, Sapote-diable, Sapotillier-falaise, Wild mesili, Wild mesplé (Lesser Antilles), Palo de peo (Puerto Rico), Rat-apple, Wild misple (Virgin Islands).
- References: 1, 6, 7, 19, 36, 58, 61, 131, 301, 323.

- Quadrella singularis* (R. Rankin) Iltis & Cornejo, J. Bot. Res. Inst. Texas 4: 131. 2010; *Capparis singularis* R. Rankin, Willdenowia 34: 263. 2004.
- Distribution: Endemic to Cuba.
- References: 74, 149, 363, 594.
- ## CAPRIFOLIACEAE
- Genera.** Total: 3; native: 1; endemic: 0.  
**Taxa.** Total: 7; native: 4; endemic: 3.
- Lonicera alba* L. = *Chiococca alba* (L.) Hitchc. (Rubiaceae)
- Lonicera caprifolium* L., Sp. Pl. 173. 1753.
- Distribution: Exotic in Hispaniola; native to Europe.
- Common Names: Madreselva (Dominican Republic), Chevre feuille des jardins (Haiti).
- References: 5, 7, 159.
- Lonicera confusa* (Sweet) DC. = *Lonicera japonica* Thunb. ex Murray
- Lonicera japonica* Thunb. in A. Murray, Syst. Veg., ed. 14, 216. 1784.
- Lonicera confusa* (Sweet) DC., Prodr. 4: 333. 1830.
- Distribution: Exotic in Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Lesser Antilles (Guadeloupe, Martinique, Saba), and North America; native to Asia.
- Common Names: Madreselva, Madreselva americana (Cuba), Honeysuckle (Jamaica), Madreselva (Puerto Rico).
- References: 1, 2, 4, 5, 7, 32, 58, 131, 132, 136, 224, 383.
- Note: Considered an invasive species by CeNBIO.
- Scabiosa japonica* Miq., Ann. Mus. Bot. Lugduno-Batavum 3: 113. 1867.
- Distribution: Exotic in Hispaniola; native to Asia.
- Common Name: Escabiosa (Dominican Republic).
- References: 7, 159.
- Valeriana candolleana* Gardner = *Valeriana scandens* L. var. *candolleana* (Gardner) C.A. Müll.

*Valeriana domingensis* Urb., Symb. Antill. 1: 450. 1899.  
Distribution: Endemic to Hispaniola.  
References: 5, 7.

*Valeriana x ekmanii* F.G. Mey., Ann. Missouri Bot. Gard. 38: 469. 1951.  
Distribution: Endemic to Hispaniola.  
Reference: 7.

*Valeriana scandens* L., Sp. Pl., ed. 2, 47. 1762, var. *scandens*  
Distribution: Native to Cuba, Hispaniola, Puerto Rico, Mexico, Central America, and South America.  
Common Name: Valeriana (Puerto Rico).  
References: 7, 32, 58, 61, 136, 150, 307, 311.

*Valeriana scandens* L. var. *candolleana* (Gardner) C.A. Müll. in C.F.P. von Martius, Fl. Bras. 6(4): 344. 1885; *Valeriana candolleana* Gardner, London J. Bot. 4: 112. 1845.  
Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.  
References: 7, 136.

## CARICACEAE

**Genera.** Total: 1; native: 0; endemic: 0.

**Taxa.** Total: 1; native: 0; endemic: 0.

*Carica cubensis* Solms = *Carica papaya* L.

*Carica jamaicensis* Urb. = *Carica papaya* L.

*Carica papaya* L., Sp. Pl. 1036. 1753.

*Carica cubensis* Solms, Bot. Zeitung (Berlin) 47: 797. 1889; *Papaya cubensis* (Solms) Kuntze, Revis. Gen. Pl. 1: 253. 1891.

*Carica jamaicensis* Urb., Symb. Antill. 6: 20. 1909.

*Carica papaya* L. f. *portoricensis* Solms, Bot. Zeitung (Berlin) 47: 774. 1889; *Carica portoricensis* (Solms) Urb., Symb. Antill. 4: 428. 1910.

Distribution: Cultivated in Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Antigua, Barbados, Barbuda, Dominica, Grenada, Grenadines, Guadeloupe, Martinique, Montserrat, Saba, St. Barthélemy, St. Eustatius, St. Lucia, St. Martin, St. Vincent), and Margarita; native to Central America and South America.

Common Names: Papaya (Bahamas), Fruta bomba, Papaya, Papaya hembra, Papaya macho, Papayero (Cuba), Lechosa, Papaye (Dominican Republic), Papailler, Papaillier, Papayer (Haiti), Papaw, Papaya (Jamaica), Papaw, Papaya, Papayer, Papayer femelle, Papayer mâle, Pawpaw, Pied-papaye (Lesser Antilles), Lechosa, Papaya (Puerto Rico), Melon tree, Papaw (Virgin Islands).

References: 1, 2, 3, 4, 5, 7, 19, 30, 45, 58, 61, 75, 151, 224, 252, 323, 340.

Note: Considered an invasive species by CeNBIO.

*Carica papaya* L. f. *portoricensis* Solms = *Carica papaya* L.

*Carica portoricensis* (Solms) Urb. = *Carica papaya* L.

*Drymaria adenophora* Urb. = *Drymaria cordata* (L.) Willd. ex Roem. & Schult.

*Drymaria cordata* (L.) Willd. ex Roem. & Schult., Syst. Veg. 5: 406. 1819; *Holosteum cordatum* L., Sp. Pl. 88. 1753.

*Drymaria adenophora* Urb., Repert. Spec. Nov. Regni Veg. 21: 213. 1925; *Stellaria adenophora* (Urb.) León, Contr. Ocas. Mus. Hist. Nat. Colegio "De La Salle" 9: 4. 1950.

*Drymaria ramosissima* sensu Kuntze, Revis. Gen. Pl. 1: 50. 1891, non Schltdl.

Distribution: Exotic in Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. Thomas), Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Guadeloupe, Martinique, Montserrat, Saba, St. Kitts, St. Lucia, St. Martin, St. Vincent), Tobago, and Trinidad; native to New World tropics, probably Central America and South America.

Common Names: West Indian chickweed (Bahamas), Matemaco (Cuba), Appétit marron (Haiti), West Indian chickweed (Jamaica),

Mourron blanc, Petit mourron (Lesser Antilles), Drimaria, Yerba de estrella (Puerto Rico).

References: 1, 2, 3, 5, 6, 7, 30, 45, 58, 61, 75, 151, 301, 340.

*Drymaria cubana* Alain, Phytologia 8: 369. 1962.

*Pinosia glandulosa* Alain, Candollea 17: 107. 1960.

Distribution: Endemic to Cuba.

References: 3, 39, 152.

Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).

*Drymaria laxiflora* Benth. f. *pauciflora* Kuntze = *Stellaria antillana* Urb. var. *antillana*

*Drymaria ortegioides* Griseb., Cat. Pl. Cub. 21. 1866; *Pinosia ortegioides* (Griseb.) Urb., Ark. Bot. 23A(5): 71. 1930.

Distribution: Endemic to Cuba.

Reference: 3.

*Drymaria ramosissima* sensu Kuntze = *Drymaria cordata* (L.) Willd. ex Roem. & Schult.

*Holosteum cordatum* L. = *Drymaria cordata* (L.) Willd. ex Roem. & Schult.

*Lychnis alba* Mill., Gard. Dict., ed. 8. 1768; *Melandrium album* (Mill.) Garcke, Fl. N. Mitt.-Deutschland, ed. 4, 55. 1858.

Distribution: Exotic in Hispaniola and North America; native to Eurasia and Africa.

References: 5, 7, 159.

*Melandrium album* (Mill.) Garcke = *Lychnis alba* Mill.

*Minuartia ekmaniana* (Urb.) Acev.-Rodr., *comb. nov.*; *Selleola ekmaniana* Urb., Ark. Bot. 23A(5): 69. 1930.

Distribution: Endemic to Hispaniola.

Reference: 7.

*Mollugo tetraphylla* L. = *Polycarpon tetraphyllum* (L.) L.

*Pinosia glandulosa* Alain = *Drymaria cubana* Alain

*Pinosia ortegioides* (Griseb.) Urb. = *Drymaria ortegioides* Griseb.

*Polycarpon tetraphyllum* (L.) L., Syst. Nat., ed. 10, 881. 1759; *Mollugo tetraphylla* L., Sp. Pl. 89. 1753.

Distribution: Exotic in Hispaniola, North America, and South America; native to Eurasia and Africa.

References: 5, 7, 151.

*Stellaria ovata* Bello, Anales Soc. Esp. Hist. Nat. 10: 238. 1881.

Distribution: Native to Greater Antilles; native to Hispaniola and Puerto Rico.

Common Names: Pega pollo (Puerto Rico).

References: 5, 6, 7, 30, 58, 61, 75, 152, 340.

*Stellaria howardii* Maguire, Brittonia 10: 32. 1958.

Distribution: Endemic to Hispaniola (Dominican Republic).

References: 7, 8.

*Stellaria media* (L.) Vill., Hist. Pl. Dauphine 3(1): 615. 1789; *Alsine media* L., Sp. Pl. 272. 1753.

Distribution: Exotic in Cuba, Hispaniola, Jamaica, Lesser Antilles (Guadeloupe, Martinique), doubtful in Trinidad, North America, Mexico, Central America, and South America; probably native to Old World.

Common Names: Berrillo (Dominican Republic), Mourron (Lesser Antilles).

References: 1, 2, 3, 7, 123, 224, 301.

Note: Considered an invasive species by CeNBIO.

*Stellaria minutifolia* Maguire, Brittonia 10: 32. 1958.

Distribution: Endemic to Hispaniola (Dominican Republic).

Reference: 7.

*Stellaria ovata* Bello = *Stellaria antillana* Urb. var. *antillana*

*Stipulicida setacea* Michx., Fl. Bor.-Amer. 1: 26. 1803.

Distribution: Native to Cuba and North America.

References: 3, 151.

#### DOUBTFUL NAMES

*Drymaria cubensis* Regel in C.F. Otto & A. Dietrich, Allg. Gartenzeitung 8: 298. 1840.

A name described from Cuba, but not used by modern botanists.

Reference: 152.

*Stellaria antillana* Urb. var. *domingensis* Urb., Symb. Antill. 1: 304. 1899.

A name described from Hispaniola, but not used by modern botanists.

References: 30, 152.

*Stellaria domingensis* Spreng., Syst. Veg., ed. 16, 2: 392. 1825.

A name described from Hispaniola, but not used by modern botanists.

Reference: 152.

## CASUARINACEAE

**Genera.** Total: 1; native: 0; endemic: 0.

**Taxa.** Total: 4; native: 0; endemic: 0.

*Casuarina cristata* Miq., Nieuwe Verh. Eerste Kl. Kon. Ned. Inst. Wetensch. Amsterdam 13: 336, t. 10A. 1848.

Distribution: Exotic in Puerto Rico; native to Australia.

Common Names: Casuarina, Pino australiano (Puerto Rico).

References: 6, 58, 159, 383.

*Casuarina cunninghamiana* Miq., Nieuwe Verh. Eerste Kl. Kon. Ned. Inst. Wetensch. Amsterdam 13: 322, t. 6A. 1848.

Distribution: Exotic in Cuba, Hispaniola, Puerto Rico, Virgin Islands (St. Thomas), and North America; native to Australia.

Common Names: Casuarina de la nueva Holanda, Pino de la Nueva Holanda (Cuba), Pin d'Australie (Haiti), Casuarina, Roble australiano (Puerto Rico).

References: 6, 7, 58, 131, 132.

*Casuarina equisetifolia* L., Amoen. Acad. 4: 143. 1759.

Distribution: Exotic in Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Guadeloupe, Martinique, Montserrat, St. Kitts, St. Vincent), Margarita, Tobago, Trinidad, North America, Mexico, Central America, and South America; native to tropical Asia, Australia, and Pacific region.

Common Names: Beef-wood (Bahamas), Casuarina de la Nueva Holanda, Pino, Pino ciprés, Pino de Australia, Pino de chipre, Pino de Holanda, Pino de la Nueva Holanda, Pino real (Cuba), Casuarina, Pino de Australia (Dominican Republic), Bois pin d'Australie, Bius pin d'Australie, Pin d'Australie (Haiti), Casuarina, Whistling pine, Willow (Jamaica), Beefwood, Filao (Lesser Antilles), Casuarina, Pino, Pino australiano (Puerto Rico).

References: 1, 2, 3, 4, 5, 6, 7, 19, 45, 52, 58, 61, 224, 301, 323, 383.

Note: Considered an invasive species by CeNBIO.

*Casuarina glauca* Sieber ex Spreng., Syst. Veg., ed. 16, 3: 803. 1826.

Distribution: Exotic in Bahamas, Hispaniola, and North America; native to Australia.

Common Names: Pino de Australia (Dominican Republic), Pin d'Australie (Haiti).

References: 7, 45, 383.

## CELASTRACEAE

Genera. Total: 18; native: 18; endemic: 2.

Taxa. Total: 84; native: 84; endemic: 71.

*Anthodon verrucosus* Griseb. = *Salacia wrightii* Urb.

*Cassine cubensis* (Bisse) Borhidi = *Elaeodendron xylocarpum* (Vent.) DC.

*Cassine domingensis* Spreng. = *Ziziphus rignonii* Delponte (Rhamnaceae)

*Cassine ehrenbergii* (Urb.) Alain = *Elaeodendron ehrenbergii* Urb.

*Cassine lanceolata* (Urb. & Ekman) Alain = *Elaeodendron lanceolatum* Urb. & Ekman

*Cassine lippoldii* (Bisse) Borhidi = *Elaeodendron xylocarpum* (Vent.) DC.

*Cassine nipensis* (Bisse) Borhidi = *Elaeodendron nipense* Bisse

*Cassine trinitensis* (Bisse) Borhidi = *Elaeodendron xylocarpum* (Vent.) DC.

*Cassine xylocarpa* Vent. = *Elaeodendron xylocarpum* (Vent.) DC.

*Cassine xylocarpa* Vent. var. *attenuata* (Rich.) Alain = *Elaeodendron xylocarpum* (Vent.) DC.

*Ceanothus laevigatus* (Vahl) DC. = *Maytenus laevigata* (Vahl) Griseb. ex Eggers

*Celastrus grenadensis* Urb., Symb. Antill. 5: 51. 1904.

*Celastrus racemosus* (Reissek) Loes., Bot. Jahrb. Syst. 24: 199. 1897.

*Celastrus racemosus* (Reissek) Loes. var. *trinitensis* Urb., Symb. Antill. 5: 52. 1904.

Distribution: Native to Lesser Antilles (Dominica, Grenada), Trinidad, Mexico, Central America, and South America.

References: 1, 31, 151, 301.

*Celastrus myrtifolius* L. = *Prunus myrtifolia* (L.) Urb. (Rosaceae)

*Celastrus parvifolius* A. Rich. = *Maytenus buxifolia* (A. Rich.) Griseb. subsp. *buxifolia*

*Celastrus racemosus* (Reissek) Loes. = *Celastrus grenadensis* Urb.

*Celastrus racemosus* (Reissek) Loes. var. *trinitensis* Urb. = *Celastrus grenadensis* Urb.

*Celastrus richardi* M. Gómez var. *elaeodendroides* (Griseb.) M. Gómez = *Maytenus elaeodendroides* Griseb.

*Crossopetalum aquifolium* (Griseb.) Hitchc., Rep. (Annual) Missouri Bot. Gard. 4: 70. 1893; *Myginda aquifolia* Griseb., Cat. Pl. Cub. 55. 1866; *Rhacoma aquifolium* (Griseb.) Urb., Symb. Antill. 5: 77. 1904.

Distribution: Endemic to West Indies; native to Bahamas and Cuba.

References: 3, 30, 45, 152.

*Crossopetalum caymanense* Proctor = *Myginda uragoga* Jacq.

*Crossopetalum coriaceum* Northr., Mem. Torrey Bot. Club 12: 48. 1902; *Rhacoma coriaceum* (Northr.) Urb., Symb. Antill. 5: 71. 1904.

Distribution: Endemic to West Indies; native to Bahamas and Cuba.

References: 45, 128.

*Crossopetalum cristalense* Borhidi, Acta Bot. Acad. Sci. Hung. 22: 307. 1977 [“1976”].

Distribution: Endemic to Cuba.

Reference: 149.

*Crossopetalum decussatum* (Baill.) Lourteig, Taxon 19: 304. 1970; *Rhacoma decussatum* Baill., Hist. Phys. Madagascar 3: t. 284. 1894 [as *decussata*].

*Rhacoma gonocladum* Urb., Symb. Antill. 5: 75. 1904 [as *gonoclada*].

Distribution: Endemic to Hispaniola.

References: 5, 7.

*Crossopetalum ekmanii* (Urb.) Alain, Bull. Torrey Bot. Club 92: 296. 1965; *Rhacoma ekmanii* Urb., Repert. Spec. Nov. Regni Veg. 21: 216. 1925.

Distribution: Endemic to Cuba.

References: 3, 149.

*Crossopetalum ilicifolium* (Poir.) Kuntze, Revis. Gen. Pl. 1: 116. 1891; *Myginda ilicifolia* Poir. in J.B.A.P.M. de Lamarck, Encycl. 4: 396. 1797; *Rhacoma ilicifolium* (Poir.) Trel., Syn. Fl. N. Amer. 1(1.2): 399. 1897.

Distribution: Native to Bahamas, Cuba, Hispaniola, and United States (FL).

References: 3, 7, 45, 149, 150, 151.

*Crossopetalum orientale* Mory, Willdenowia 31: 130. 2001.

*Rhacoma crossopetalum* L. f. *angustifolium* Urb., Symb. Antill. 5: 74. 1904.

Distribution: Endemic to West Indies; native to Bahamas, Cuba, and Hispaniola.

References: 30, 128, 149.

*Crossopetalum pallens* (Sm.) Kuntze = *Crossopetalum rhacoma* Crantz

*Crossopetalum pungens* (C. Wright ex Sauvalle) Rothm., Repert. Spec. Nov. Regni Veg. 53: 10. 1944; *Myginda pungens* C. Wright ex Sauvalle, Anales Acad. Ci. Med. Habana 5: 294. 1868.

Distribution: Endemic to Cuba.

References: 3, 152.

*Crossopetalum rhacoma* Crantz, Inst. Rei Herb. 2: 321. 1766; *Myginda rhacoma* Sw., Prodr. 39. 1788; *Rhacoma crossopetalum* L., Syst.

- Nat., ed. 10, 896. 1759; *Rhacoma crossopetalum* L. f. *typica* Urb., Symb. Antill. 5: 74. 1904, *nom. inval.*
- Crossopetalum pallens* (Sm.) Kuntze, Revis. Gen. Pl. 1: 116. 1891; *Myginda pallens* Sm. in A. Rees, Cycl. 25: n. 4. 1813; *Rhacoma pallens* (Sm.) M. Gómez, Anales Soc. Esp. Hist. Nat. 19: 239. 1890.
- Crossopetalum rotundatum* (Lam.) Kuntze, Revis. Gen. Pl. 1: 116. 1891; *Myginda rotundata* Lam., Tabl. Encycl. 1: 308. 1792.
- Myginda latifolia* sensu Vahl, Symb. Bot. 2: 32. 1791, non Sw.
- Rhacoma crossopetalum* L. f. *longifolium* Urb., Symb. Antill. 5: 74. 1904.
- Rhacoma crossopetalum* L. f. *rotundatum* Urb., Symb. Antill. 5: 75. 1904.
- Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Anegada, Guana, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Anguilla, Antigua, Barbuda, Guadeloupe, Marie Galante, Martinique, Montserrat, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia, St. Martin), Aruba, Bonaire, Curaçao, Margarita, United States (FL), and South America.
- Common Names: Poison cherry (Bahamas), Tsewal (Haiti), Poison cherry (Jamaica), Maidenberry, Ti bonbon (Lesser Antilles), Coral, Mala mujer, Manto, Maravedí, Palo de paloma, Pico de paloma (Puerto Rico).
- References: 1, 2, 3, 4, 5, 7, 19, 30, 45, 58, 61, 75, 150, 323, 340.
- Crossopetalum rostratum* (Urb.) Rothm., Repert. Spec. Nov. Regni Veg. 53: 10. 1944, var. *rostratum*; *Rhacoma rostratum* Urb., Symb. Antill. 5: 78. 1904 [as *rostrata*].
- Distribution: Endemic to Cuba.
- Reference: 3.
- Crossopetalum rostratum* (Urb.) Rothm. var. *grandifolium* Borhidi & O. Muñiz, Acta Bot. Acad. Sci. Hung. 21: 223. 1976 ["1975"].
- Distribution: Endemic to Cuba.
- References: 149, 152.
- Crossopetalum rotundatum* (Lam.) Kuntze = *Crossopetalum rhacoma* Crantz
- Crossopetalum shaferei* (Britton & Urb.) Alain, Bull. Torrey Bot. Club 92: 296. 1965; *Rhacoma shaferei* Britton & Urb. in I. Urban, Symb. Antill. 7: 520. 1913.
- Rhacoma revolutum* Urb., Symb. Antill. 9: 68. 1923 [as *revoluta*].
- Distribution: Endemic to Cuba.
- References: 3, 30.
- Crossopetalum spathulifolium* (Urb.) Rothm. = *Torralsbasia cuneifolia* (C. Wright ex A. Gray) Krug & Urb. ex Seguí subsp. *cuneifolia*
- Crossopetalum ternifolium* (Urb.) Alain, Bull. Torrey Bot. Club 92: 296. 1965, subsp. *ternifolium*; *Rhacoma ternifolium* Urb., Symb. Antill. 9: 69. 1923 [as *ternifolia*].
- Distribution: Endemic to Cuba.
- Reference: 3.
- Crossopetalum ternifolium* (Urb.) Alain subsp. *moense* Borhidi & O. Muñiz, Acta Bot. Acad. Sci. Hung. 21: 223. 1976 ["1975"].
- Distribution: Endemic to Cuba.
- Reference: 149.
- Crossopetalum uragoga* (Jacq.) Kuntze = *Myginda uragoga* Jacq.
- Cuervea hawkesii* Proctor, J. Arnold Arbor. 63: 263. 1982.
- Distribution: Endemic to Jamaica.
- Reference: 2.
- Cuervea integrifolia* (A. Rich.) A.C. Sm., Brittonia 3: 403. 1940; *Hippocratea integrifolia* A. Rich. in R. de la Sagra, Hist. Phys. Cuba, Pl. Vasc. 252. 1845.
- Pristimera wrightiana* Miers, Trans. Linn. Soc. London 28: 363. 1872.
- Hippocratea lindenii* Urb., Symb. Antill. 6: 54. 1909.
- Hippocratea pachyphylla* Urb., Repert. Spec. Nov. Regni Veg. 14: 332. 1916.
- Distribution: Endemic to Cuba.
- References: 3, 352.
- Cuervea jamaicensis* Proctor, J. Arnold Arbor. 63: 264. 1982.
- Distribution: Endemic to Jamaica.
- Reference: 2.

- Hylенаea comosa* (Sw.) Miers, Trans. Linn. Soc. London 28: 367. 1872;  
*Hippocratea comosa* Sw., Prodr. 17. 1788. Type. Presumably Haiti, Swartz s.n. (S).  
 Distribution: Native to Hispaniola, Trinidad, Venezuela, and the Guianas.  
 Common Name: Amadier des bois (Haiti).  
 References: 7, 301.  
 Note: Doubtful distribution in Hispaniola. The type collection presumably came from Haiti, but the species has never been recollected there.
- Hylенаea jamaicensis* Miers = *Cuervea kappleriana* (Miq.) A.C. Sm.

- Maytenus elliptica* (Lam.) Krug & Urb. in I. Urban, Symb. Antill. 5: 65. 1904; *Senecia elliptica* Lam., Tabl. Encycl. 2: 96. 1797.  
Distribution: Endemic to West Indies; native to Hispaniola, Puerto Rico, Virgin Islands (Guana, Jost van Dyke, St. Croix, St. John, St. Thomas), and Lesser Antilles (Anguilla, Dominica, Grenadines, Guadeloupe, Marie Galante, Martinique, Montserrat, Saba, St. Barthélemy, St. Eustatius, St. Lucia, St. Vincent).  
Common Names: Bois-citron, Bois-guillaume, Bwa di bas, Degun, Deux guns, White cinnamon (Lesser Antilles), Cuero de Sapo (Puerto Rico).  
References: 1, 7, 19, 30, 58, 61, 152, 160.
- Maytenus lineata* C. Wright ex Griseb., Cat. Pl. Cub. 54. 1866.  
Distribution: Endemic to Cuba.  
Common Names: Nazareno morado, Nazareno (Cuba).  
References: 3, 39.  
Note: Considered extinct by the Red List of the Vascular Flora of Cuba (39).
- Maytenus loeseneri* Urb., Symb. Antill. 5: 56. 1904, var. *loeseneri*  
Distribution: Endemic to Cuba.  
Common Name: Palo Sangre de toro (Cuba).  
References: 3, 5.  
Note: Reported by Barker & Dardeau (5) as occurring in Haiti, however, this record has not been confirmed by modern botanists.
- Maytenus loeseneri* Urb. var. *rotundifolia* Mory, Feddes Repert. 96: 548. 1985.  
Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.  
Reference: 149.
- Maytenus lucayana* Britton, Bull. New York Bot. Gard. 4: 140. 1906.  
Distribution: Endemic to Bahamas.  
Common Name: Bahama maytenus (Bahamas).  
Reference: 45.
- Maytenus maestrensis* Urb., Repert. Spec. Nov. Regni Veg. 21: 215. 1925.  
Distribution: Endemic to Cuba.  
Reference: 3.

*Rhacoma pallens* (Sm.) M. Gómez = *Crossopetalum rhacoma* Crantz

*Rhacoma revolutum* Urb. = *Crossopetalum shaferi* (Britton & Urb.) Alain

*Rhacoma rostratum* Urb. = *Crossopetalum rostratum* (Urb.) Rothm. var. *rostratum*

*Rhacoma shaferi* Britton & Urb. = *Crossopetalum shaferi* (Britton & Urb.) Alain

*Rhacoma spathulifolium* Urb. = *Torralsbasia cuneifolia* (C. Wright ex A. Gray) Krug & Urb. ex Seguí subsp. *cuneifolia*

*Rhacoma ternifolium* Urb. = *Crossopetalum ternifolium* (Urb.) Alain subsp. *ternifolium*

*Rhamnus cassinoides* Poir. = *Maytenus cassinoides* (Poir.) Urb.

*Rhamnus corymbosa* Vahl ex Roem. & Schult. = *Elaeodendron xylocarpum* (Vent.) DC.

*Rhamnus laevigata* Vahl = *Maytenus laevigata* (Vahl) Griseb. ex Eggers

*Salacia nipensis* Britton, Mem. Torrey Bot. Club 16: 78. 1920.

Distribution: Endemic to Cuba.

References: 3, 156.

*Salacia verrucosa* C. Wright ex Griseb. = *Salacia wrightii* Urb.

*Salacia wrightii* Urb., Repert. Spec. Nov. Regni Veg. 18: 116. 1922.

*Anthodon verrucosus* Griseb., Mem. Amer. Acad. Arts, n.s. 8: 172. 1861.

*Salacia verrucosa* C. Wright ex Griseb., Mem. Amer. Acad. Arts, n.s. 8: 172. 1861.

Distribution: Endemic to Cuba.

References: 3, 39, 151, 152.

Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).

*Schaefferia angustifolia* Urb. & Ekman, Ark. Bot. 21A(5): 92. 1927.

Distribution: Endemic to Hispaniola.

References: 5, 7.

*Schaefferia berteroi* Griseb. = *Schaefferia frutescens* Jacq.

*Schaefferia completa* Sw. = *Schaefferia frutescens* Jacq.

*Schaefferia ephedroides* Urb., Symb. Antill. 5: 87. 1904.

Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.

Common Names: Balai montagne, Bois pin marron (Haiti).

References: 3, 5, 7.

*Schaefferia frutescens* Jacq., Enum. Syst. Pl. 33. 1760.

*Bumelia berteroi* Balb. ex Griseb., Cat. Pl. Cub. 56. 1866, *nom. inval.*

*Schaefferia berteroi* Griseb., Cat. Pl. Cub. 56. 1866, *nom. inval.*

*Schaefferia completa* Sw., Prodr. 38. 1788.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana, Jost van Dyke, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Anguilla, Antigua, Barbuda, Grenada, Grenadines, Guadeloupe, Martinique, Montserrat, Saba, St. Barthélemy, St. Kitts, St. Lucia, St. Martin), Mexico, Central America, and South America.

Common Names: Amansa guapo, Boj de la florida, Boj persia cimarrón, Cambia voz, Limoncillo, Palo rajador (Cuba), Cabra cimarrona, Capable, Palo de araña (Dominican Republic), Bois capable, Bois petit garçon, Marguerite, Petit bois blanc, Petit garçon, Plé, Pti-garçon, Ti-bis blanc, Ti-bois blanc (Haiti), Merisier, Petit merisier (Lesser Antilles), Cafeillo, Jibá (Puerto Rico).

References: 1, 2, 3, 4, 5, 7, 19, 30, 45, 58, 61, 124, 150, 152.

*Schaefferia lateriflora* Sw. = *Drypetes lateriflora* (Sw.) Krug & Urb. (Putranjivaceae)

*Schaefferia marchii* Griseb. ex Urb. in I. Urban, Symb. Antill. 5: 87. 1904.

Distribution: Endemic to Greater Antilles; native to Cuba and Jamaica. References: 2, 3.

*Schaefferia obovata* Urb., Symb. Antill. 5: 405. 1908.

Distribution: Endemic to Jamaica.

Reference: 2.

*Senecia elliptica* Lam. = *Maytenus laevigata* (Vahl) Griseb. ex Eggers

\**Tetrasiphon jamaicensis* Urb., Symb. Antill. 5: 84. 1904.

Distribution: Endemic to Jamaica.

References: 2, 427.

Note: Considered endangered by the IUCN Red List of Threatened Species.

\**Torralsbasia cuneifolia* (C. Wright ex A. Gray) Krug & Urb. ex Seguí, Ojeada Sobre Fl. Med. Toxica Cuba 5: 50. 1904, subsp.

*cuneifolia*; *Euonymus cuneifolius* C. Wright ex A. Gray, Pl.

Wright. 1: 171. 1860; *Maytenus cuneifolia* (C. Wright ex A. Gray)

Griseb., Cat. Pl. Cub. 54. 1866.

*Crossopetalum spathulifolium* (Urb.) Rothm., Repert. Spec. Nov. Regni Veg. 53: 10. 1944.

*Myginda integrifolia* sensu Griseb., Cat. Pl. Cub. 55. 1866, non Kunth.

*Rhacoma spathulifolium* Urb., Symb. Antill. 5: 70. 1904 [as *spathulifolia*].

*Torralsbasia domingensis* Urb., Symb. Antill. 7: 519. 1913.

Distribution: Endemic to Greater Antilles; native to Cuba, Hispaniola, and Puerto Rico.

Common Names: Palo amargo (Dominican Republic), Boje (Puerto Rico).

References: 3, 5, 7, 30, 61, 58, 124, 128.

\**Torralsbasia cuneifolia* (C. Wright ex A. Gray) Krug & Urb. ex Seguí var. *rotundata* Borhidi, Acta Agron. Acad. Sci. Hung. 27: 434. 1978.

Distribution: Endemic to Cuba.

Reference: 149.

\**Torralsbasia cuneifolia* (C. Wright ex A. Gray) Krug & Urb. ex Seguí subsp. *verrucosa* Borhidi, Acta Agron. Acad. Sci. Hung. 27: 433. 1978.

Distribution: Endemic to Cuba.

Reference: 149.

*Torralsbasia domingensis* Urb. = *Torralsbasia cuneifolia* (C. Wright ex A. Gray) Krug & Urb. ex Seguí subsp. *cuneifolia*

*Tricerma phyllanthoides* (Benth.) Lundell = *Maytenus phyllanthoides* Benth.

## CERATOPHYLLACEAE

Genera. Total: 1; native: 1; endemic: 0.

Taxa. Total: 4; native: 3; endemic: 0.

*Ceratophyllum demersum* L., Sp. Pl. 992. 1753.

Distribution: Cosmopolitan aquatic macrophyte; native to Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Thomas), Lesser Antilles (Barbados, Martinique), Trinidad, North America, Mexico, Central America, South America, and Old World.

Common Names: Celestina de agua (Cuba), Légamo, Yerba de cotorra (Dominican Republic), Crin (Haiti), Morass weed (Jamaica), Candelabro de agua, Celestina de agua (Puerto Rico).

References: 1, 2, 3, 5, 6, 7, 58, 61, 151, 252, 301, 340, 493.

*Ceratophyllum echinatum* sensu León & Alain = *Ceratophyllum muricatum* A. Gray subsp. *australe* (Griseb.) Les

*Ceratophyllum muricatum* Cham., Linnaea 4: 504. 1829, subsp. *muricatum*.

Distribution: Exotic in Jamaica; native to South America, Eurasia, and Africa.

References: 2, 159.

*Ceratophyllum muricatum* A. Gray subsp. *australe* (Griseb.) Les, Syst. Bot. 13: 85. 1988.

*Ceratophyllum echinatum* sensu León & Alain, Fl. Cuba 2: 162. 1951, non A. Gray

Distribution: Native to Cuba, United States, Mexico, Central America, and South America.

References: 3, 151, 493.

*Ceratophyllum submersum* L., Sp. Pl., ed. 2, 1409. 1763.

Distribution: Native to Hispaniola, North America, and South America.

References: 7, 150.

## CHLORANTHACEAE

Genera. Total: 1; native: 1; endemic: 0.

Taxa. Total: 6; native: 6; endemic: 6.

*Hedyosmum arborescens* Sw., Prodr. 84. 1788.

*Hedyosmum elegans* Cordem., Adansonia 3: 305. 1862.

Distribution: Endemic to West Indies; native to Jamaica, Puerto Rico, and Lesser Antilles (Antigua, Dominica, Guadeloupe, Marie Galante, Martinique, Montserrat, Nevis, St. Kitts, St. Lucia, St. Vincent).

Common Names: Cigar bush, Cold bush, Headache bush (Jamaica), Bois de l'eau, Bois fragile, Bois molle, Bois-senti (Lesser Antilles), Azafrán (Puerto Rico).

References: 1, 2, 6, 23, 58, 61.

*Hedyosmum crassifolium* Urb. = *Hedyosmum subintegrum* Urb.

*Hedyosmum cubense* Urb. = *Hedyosmum domingense* Urb. var. *cubense* (Urb.) Todzia & C.E. Wood

*Hedyosmum domingense* Urb. subsp. *cubense* (Urb.) Borhidi = *Hedyosmum domingense* Urb. var. *cubense* (Urb.) Todzia & C.E. Wood

*Hedyosmum domingense* Urb., Symb. Antill. 7: 498. 1913, var. *domingense*

Distribution: Endemic to Hispaniola.

Common Names: Anís cimarrón, Anís de monte (Dominican Republic).

References: 5, 3, 7, 22, 23, 30.

*Hedyosmum domingense* Urb. var. *cubense* (Urb.) Todzia & C.E. Wood, J. Arnold Arbor. 69: 59. 1988; *Hedyosmum cubense* Urb., Repert. Spec. Nov. Regni Veg. 24: 1. 1927; *Hedyosmum domingense* Urb. subsp. *cubense* (Urb.) Borhidi, Acta Bot. Hung. 37: 75. 1992.

Distribution: Endemic to Cuba.

References: 3, 23.

*Hedyosmum elegans* Cordem. = *Hedyosmum arborescens* Sw.

*Hedyosmum grisebachii* Solms in A.L.P.P. de Candolle, Prodr. 16(1): 479. 1869.

*Hedyosmum leonis* Vict., Contr. Inst. Bot. Univ. Montreal 63: 8. 1948.

Distribution: Endemic to Cuba.

References: 3, 23, 177.

*Hedyosmum leonis* Vict. = *Hedyosmum grisebachii* Solms

*Hedyosmum nutans* Sw., Prodr. 84. 1788.

Distribution: Endemic to Greater Antilles; native to Cuba, Hispaniola, and Jamaica.

Common Name: Anís cimarrón (Dominican Republic).

References: 2, 3, 5, 7, 22, 23, 177.

*Hedyosmum subintegrum* Urb., Repert. Spec. Nov. Regni Veg. 24: 1. 1927.

*Hedyosmum crassifolium* Urb., Repert. Spec. Nov. Regni Veg. 24: 2. 1927.

Distribution: Endemic to Cuba.

References: 3, 22, 23, 39.

Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).

## CHRYSOBALANACEAE

Genera. Total: 4; native: 4; endemic: 0.

Taxa. Total: 13; native: 11; endemic: 3.

*Chrysobalanus cuspidatus* Griseb. ex Duss, Fl. Phan. Antill. Franc. 258. 1897.

*Chrysobalanus cuspidatus* Griseb., Fl. Brit. W. I. 711. 1864, *nom. nud.*

Distribution: Endemic to Lesser Antilles (Dominica, Guadeloupe, Martinique, St. Kitts, St. Lucia).

Common Names: Icaque grand-bois, Icaque montagne, Tuer mois un fois, Zicaque-montagne (Lesser Antilles).

References: 1, 81, 151.

*Chrysobalanus icaco* L., Sp. Pl. 513. 1753.

*Chrysobalanus icaco* L. f. *albus* G. Klotz, Wiss. Z. Friedrich-Schiller- Univ. Jena, Math.-Naturwiss. Reihe 29: 461. 1980.

*Chrysobalanus icaco* L. subsp. *pellocarpus* (G. Mey.) E. Murray, Kalmia 12: 19. 1982; *Chrysobalanus pellocarpus* G. Mey. in E. Meyer, Prim. Fl. Esseq. 193. 1818; *Chrysobalanus icaco* L. var. *pellocarpus* (G. Mey.) Hook.f. in C.F.P. von Martius, Fl. Bras. 14 (2): 7. 1867.

*Chrysobalanus savannarum* Britton, Bull. Torrey Bot. Club 48: 331. 1922.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Anguilla, Antigua, Barbados, Barbuda, Dominica, Grenada, Grenadines, Guadeloupe, Martinique, Montserrat, Nevis, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia, St. Martin, St. Vincent), Margarita, Tobago, Trinidad, Mexico, Central America.

Common Names: Coco plum, Pork-fat apple (Bahamas), Hicaco, Hicaco de playa, Hicaco dulce, Icaque, Icaque de costa, Jicaco (Cuba), Cocoa plum, Hicaco, Icaque, Jicaco, Zicaque (Dominican Republic), Icaque, Icaquier (Haiti), Coco plum (Jamaica), Hicaco, Icaque, Jicaco (Puerto Rico).

References: 1, 2, 3, 4, 5, 6, 7, 19, 45, 58, 61, 75, 81, 134, 149, 301, 323, 340.

*Chrysobalanus icaco* L. f. *albus* G. Klotz = *Chrysobalanus icaco* L.

*Chrysobalanus icaco* L. subsp. *pellocarpus* (G. Mey.) E. Murray = *Chrysobalanus icaco* L.

*Chrysobalanus icaco* L. var. *pellocarpus* (Miq.) Hook.f. = *Chrysobalanus icaco* L.

*Chrysobalanus pellocarpus* G. Mey. = *Chrysobalanus icaco* L.

*Chrysobalanus savannarum* Britton = *Chrysobalanus icaco* L.

*Couepia polyandra* (Kunth) Rose, Contr. U.S. Natl. Herb. 5: 196. 1899.

Distribution: Cultivated in Cuba; native to Mexico and Central America.

Reference: 81.

*Hirtella americana* L., Sp. Pl. 34. 1753.

Distribution: Native to Cuba, Hispaniola, Mexico, Central America, and South America.

Common Names: Icaque de aura, Icaque peludo, Mulato, Palo mulato, Teta de yegua (Cuba).

References: 3, 81, 159.

*Hirtella jamaicensis* Urb. = *Hirtella triandra* Sw.

*Hirtella multiflora* Urb. = *Hirtella triandra* Sw.

*Hirtella paniculata* Sw., Prodr. 51. 1788.

Distribution: Native to Lesser Antilles (St. Vincent), Trinidad, and South America.

References: 81, 301.

*Hirtella pendula* Sol. ex Lam., Encycl. 3: 134. 1789.

Distribution: Endemic to Lesser Antilles (Guadeloupe, Martinique, St. Lucia).

Common Names: Icaque-montagne, Icaque pendant, Pan zówèy, Pend oreille (Lesser Antilles).

References: 1, 81.

*Hirtella portoricensis* Willd. = *Hirtella rugosa* Pers.

*Hirtella racemosa* Lam., Encycl. 3: 133. 1789.

Distribution: Native to Jamaica, Tobago, Trinidad, Central America, and South America.

References: 2, 81, 301.

*Hirtella rugosa* Pers., Syn. Pl. 1: 250. 1805.

*Hirtella portoricensis* Willd. in J.J. Roemer & J.A. Schultes, Syst. Veg. 5: 274. 1819.

Distribution: Endemic to Greater Antilles; native to Hispaniola and Puerto Rico.

Common Names: Hicaquillo, Jicaquillo (Dominican Republic), Hicaquillo, Jicaquillo, Teta de burra cimarrona (Puerto Rico).

References: 6, 30, 58, 61, 75, 81, 159, 340.

*Hirtella triandra* Sw., Prodr. 51. 1788.

*Hirtella jamaicensis* Urb., Symb. Antill. 5: 355. 1908.

*Hirtella multiflora* Urb., Symb. Antill. 5: 356. 1908.

Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Tortola), Lesser Antilles (Dominica, Guadeloupe, Marie Galante, Martinique, Montserrat, Nevis, Saba, St. Kitts, St. Lucia, St. Vincent), Tobago, Trinidad, Mexico, Central America, and South America.

Common Names: Hicaco de aura, Hicaco prieto, Hicaquillo, Hicaquillo peludo, Icaco de aura, Icaco prieto, Palo mulato, Siguapa, Teta de yegua (Cuba), Caimito blanco cimarrón, Caimito cimarrón, Caimito de perro, Cocuyo, Teta de burra (Dominican Republic), Bois poil, Icaque à poils, Icaque poilu, Pigeon berry (Lesser Antilles), Teta de burra (Puerto Rico).

References: 1, 3, 5, 6, 7, 58, 61, 75, 81, 301, 340.

*Licania columbarum* Stehlé & L. Quentin = *Terminalia microcarpa* Decne. (Combretaceae).

*Licania leucosepala* Griseb., Abh. Königl. Ges. Wiss. Göttingen 7: 198. 1857; *Moquilea leucosepala* (Griseb.) R.O. Williams, Fl. Trinidad & Tobago 1(5): 315. 1932.

Distribution: Native to Lesser Antilles (Dominica, Guadeloupe, St. Lucia, St. Vincent), Tobago, Trinidad, and South America.

References: 31, 81, 151, 285, 301.

*Licania pyrifolia* Griseb., Fl. Brit. W. I. 230. 1860; *Moquilea pyrifolia* (Griseb.) R.O. Williams, Fl. Trinidad & Tobago 1(5): 314. 1932.

Distribution: Native to Lesser Antilles (Martinique), Trinidad, and South America.

References: 147, 285, 301.

*Licania rigida* Benth., J. Bot. (Hooker) 2: 220. 1840.

Distribution: Cultivated in Puerto Rico; native to Brazil.

References: 81, 159.

*Licania ternatensis* Hook. f. ex Duss, Fl. Phan. Antill. Franc. 259. 1897.

Distribution: Native to Lesser Antilles (Dominica, Grenada, Guadeloupe, Martinique, St. Lucia, St. Vincent) and Trinidad.

Common Names: Bois de ferre, Bois de masse, Bois diable, Bois gris, Bois résolu, Breaknail (Lesser Antilles).

References: 1, 31, 81, 151, 156, 301.

*Moquilea leucosepala* (Griseb.) R.O. Williams = *Licania leucosepala* Griseb.

## CISTACEAE

Genera. Total: 2; native: 2; endemic: 0.

Taxa. Total: 2; native: 2; endemic: 1.

*Crocantemum domingense* (Urb.) Janch. = *Helianthemum rosmarinifolium* Pursh

*Halimium domingense* Urb. = *Helianthemum rosmarinifolium* Pursh

*Halimium stenophyllum* Urb. = *Helianthemum rosmarinifolium* Pursh

*Helianthemum rosmarinifolium* Pursh, Fl. Amer. Sept. 2: 364. 1813 ["1814"].

*Crocantemum domingense* (Urb.) Janch. in H.G.A. Engler & K.A.E. Prantl, Nat. Pflanzenfam., ed. 2, 21: 305. 1925; *Halimium domingense* Urb., Symb. Antill. 7: 286. 1912.

*Halimium stenophyllum* Urb., Symb. Antill. 7: 524. 1913.

Distribution: Native to Hispaniola, North America, and Mexico.

References: 5, 7, 30, 151, 152.

*Lechea cubensis* Legg., Bull. Torrey Bot. Club 6: 252. 1875.

Distribution: Endemic to Cuba.

Reference: 3.

## CLEOMACEAE

Genera. Total: 6; native: 4; endemic: 0.

Taxa. Total: 17; native: 12; endemic: 5.

*Arivela viscosa* (L.) Raf., Sylva Tellur. 110. 1838; *Cleome viscosa* L., Sp. Pl. 672. 1753; *Polanisia viscosa* (L.) DC., Prodr. 1: 242. 1824.

*Cleome icosandra* L., Sp. Pl. 672. 1753.

Distribution: Exotic in Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Antigua, Barbados, Barbuda, Désirade, Dominica, Grenada, Grenadines, Guadeloupe, Marie Galante, Martinique, Montserrat, Nevis, Redonda, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia, St. Martin, St. Vincent), Aruba, Bonaire, Curaçao, Trinidad, and North America; pantropical weed, origin uncertain but possibly Asia.

Common Names: Frijol cimarrón, Jitomate, Tabaquillo (Dominican Republic), Wild caia (Jamaica).

References: 1, 2, 3, 4, 5, 6, 7, 19, 58, 61, 151, 159, 252, 301, 383.

*Cleome aculeata* L. = *Hemiscola aculeata* (L.) Raf.

*Cleome arenaria* Urb. = *Cleome procumbens* Jacq. subsp. *wrightii* (Urb.) R. Rankin

*Cleome christii* Urb. = *Cleome pilosa* Benth.

*Cleome ciliata* Schumach. & Thonn. = *Cleome rutidosperma* DC.

*Cleome cubensis* A. Rich. = *Cleome houstonii* R. Br.

*Cleome domingensis* Iltis, Brittonia 10: 56. 1958.

*Cleome erosa* Urb., Symb. Antill. 7: 224. 1912.

Distribution: Endemic to Hispaniola (Dominican Republic).

References: 5, 7, 30.

## CLETHRACEAE

Genera. Total: 2; native: 2; endemic: 0.

Taxa. Total: 19; native: 19; endemic: 18.

*Clethra alexandri* Griseb., Fl. Brit. W. I. 142. 1859.

Distribution: Endemic to Jamaica.

References: 2, 427.

Note: Considered near threatened by the IUCN Red List of Threatened Species.

*Clethra bracteata* Griseb. = *Clethra occidentalis* (L.) Kuntze

*Clethra byrsonimoides* Griseb. = *Clethra cubensis* A. Rich.

*Clethra cubensis* A. Rich. in R. de la Sagra, Hist. Fis. Cuba, Bot. 11: 75. 1850.

*Clethra byrsonimoides* Griseb., Pl. Wright. 1: 170. 1860.

Distribution: Endemic to Cuba.

References: 3, 29.

*Clethra jamaicensis* Britton = *Clethra occidentalis* Kuntze

*Clethra occidentalis* (L.) Kuntze, Revis. Gen. Pl. 2: 389. 1891; *Timus occidentalis* L., Syst. Nat., ed. 10, 1010. 1759.

*Clethra bracteata* Griseb., Fl. Brit. W. I. 141. 1859.

*Clethra jamaicensis* Britton, N. Amer. Fl. 29(1): 7. 1914.

Distribution: Native to Jamaica, Mexico, and Central America.

Common Name: Soapwood (Jamaica).

References: 2, 36, 147, 151.

## CLUSIACEAE

**Genera.** Total: 5; native: 5; endemic: 0.  
**Taxa.** Total: 49; native: 46; endemic: 42.

- Chrysochlamys caribaea* Urb., Symb. Antill. 5: 434. 1908.  
Distribution: Endemic to Lesser Antilles (Dominica, St. Lucia).  
Common Names: Bois mangle, Palatuvier blanc (Lesser Antilles).  
References: 1, 30.
- Chrysochlamys clusioides* (Griseb.) Griseb. = *Clusia clusioides* (Griseb.) D'Arcy
- Clusia abbottii* Urb. = *Clusia clusioides* (Griseb.) D'Arcy
- Clusia acuminata* sensu Bello = *Clusia minor* L.
- Clusia acuminata* Spreng. = *Garcinia portoricensis* (Urb.) Alain
- Clusia alainii* Borhidi, Acta Bot. Acad. Sci. Hung. 17: 16. 1972 ["1971"].  
Distribution: Endemic to Cuba.  
Reference: 149.
- Clusia alba* Jacq. = *Clusia major* L.
- Clusia brittonii* Alain, Revista Soc. Cub. Bot. 10: 29. 1953.  
Distribution: Endemic to Cuba.  
Reference: 3.
- Clusia callosa* Britton & P. Wilson, Mem. Torrey Bot. Club 16: 83. 1920.  
Distribution: Endemic to Cuba.  
References: 3, 156.
- Clusia calyptrata* Vesque = *Clusia gundlachii* A. Stahl
- Clusia cartilaginosa* Vesque = *Clusia minor* L.
- Clusia clarendonensis* Britton, Bull. Torrey Bot. Club 39: 7. 1912.  
Distribution: Endemic to Jamaica.  
References: 2, 427.  
Note: Considered vulnerable by the IUCN Red List of Threatened Species.
- Clusia clusioides* (Griseb.) D'Arcy, Ann. Missouri Bot. Gard. 67: 990. 1981 ["1980"]; *Tovomita clusioides* Griseb., Pl. Wright. 1: 166. 1860; *Chrysochlamys clusioides* (Griseb.) Griseb., Cat. Pl. Cub. 37. 1866.
- Clusia grisebachiana* (Planch. & Triana) Alain, Contr. Ocas. Mus. Hist. Nat. Colegio "De La Salle" 12: 6. 1953; *Tovomita grisebachiana* Planch. & Triana, Ann. Sci. Nat. Bot., sér. 4, 14: 284. 1860, *nom. illeg.*
- Clusia krugiana* Urb., Symb. Antill. 1: 367. 1899.
- Clusia abbottii* Urb., Repert. Spec. Nov. Regni Veg. 20: 340. 1924.  
Distribution: Endemic to Greater Antilles; native to Cuba, Hispaniola and Puerto Rico.  
Common Names: Copeyejo (Dominican Republic), Mountain manglier (Haiti).  
References: 3, 7, 30, 58, 61, 124, 151, 152.
- Clusia domingensis* Urb., Symb. Antill. 7: 286. 1912.  
Distribution: Endemic to Hispaniola.  
References: 5, 7, 30.
- Clusia flava* Jacq., Enum. Syst. Pl. 34. 1760.  
Distribution: Native to Cayman Islands, Jamaica, Margarita, Mexico, Central America, and Ecuador.  
Common Names: Card gum, Tar pot (Jamaica).  
References: 2, 4, 151, 323.
- Clusia grisebachiana* (Planch. & Triana) Alain = *Clusia clusioides* (Griseb.) D'Arcy
- Clusia gundlachii* A. Stahl, Estud. Fl. Puerto Rico 2: 122. 1884.

- Clusia calypttrata* Vesque, *Epharמושis* 3: 8. 1892.  
Distribution: Endemic to Puerto Rico.  
Common Names: Cupeillo de altura, Cupey de altura (Puerto Rico).  
References: 30, 32, 58, 61, 75, 151, 365.
- Clusia havetioides* (Griseb.) Planch. & Triana, *Ann. Sci. Nat. Bot.*, sér. 4, 13: 368. 1860, var. *havetioides*; *Tovomita havetioides* Griseb., *Fl. Brit. W. I.* 106. 1859.  
Distribution: Endemic to Jamaica.  
References: 2, 149.
- Clusia havetioides* (Griseb.) Planch. & Triana var. *pauciflora* Proctor, *J. Arnold Arbor.* 63: 248. 1982.  
Distribution: Endemic to Jamaica.  
Reference: 149.
- Clusia havetioides* (Griseb.) Planch. & Triana var. *stenocarpa* (Urb.) Proctor, *J. Arnold Arbor.* 63: 248. 1982; *Clusia stenocarpa* Urb., *Symb. Antill.* 5: 433. 1908  
Distribution: Endemic to Jamaica.  
Reference: 165.

Note: Considered an invasive species by CeNBIO.

*Terminalia chicharronia* Wright in F.A. Sauvalle, *Anales Acad. Ci. Méd. Habana* 5: 410. 1869, subsp. *chicharronia*

Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.

References: 39, 151, 560.

Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).

*Terminalia chicharronia* Wright subsp. *domingensis* (Urb.) Alwan & Stace, *Ann. Missouri Bot. Gard.* 76: 1125. 1989; *Terminalia domingensis* Urb., *Symb. Antill.* 7: 524. 1913.

Distribution: Endemic to Hispaniola.

Common Name: Chicharrón (Dominican Republic).

References: 5, 7, 151, 560.

*Terminalia chicharronia* Wright subsp. *neglecta* (Bisse) Alwan & Stace, *Ann. Missouri Bot. Gard.* 76: 1125. 1989; *Terminalia neglecta* Bisse, *Feddes Repert.* 85: 607. 1974.

Distribution: Endemic to Cuba.

References: 149, 151, 560.

*Terminalia chicharronia* Wright subsp. *orientensis* (Monach.) Alwan & Stace, *Ann. Missouri Bot. Gard.* 76: 1125. 1989; *Terminalia orientensis* Monach., *Caribbean Forest*. 8: 79. 1947.

Distribution: Endemic to Cuba.

Common Name: Jucarillo charrasco (Cuba).

References: 3, 151, 560.

*Terminalia domingensis* Urb. = *Terminalia chicharronia* Wright subsp. *domingensis* (Urb.) Alwan & Stace

*Terminalia eriostachya* A. Rich. in R. de la Sagra, *Hist. Phys. Cuba, Pl. Vasc.* 524. 1845; *Chuncoa eriostachya* (A. Rich.) Griseb., *Cat. Pl. Cub.* 109. 1866.

Distribution: Endemic to Cuba.

Common Names: Chicharrón amarillo, Chicharrón prieto (Cuba).

References: 3, 39, 40, 124, 427.

Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39) and endangered by the IUCN Red List of Threatened Species.

*Chuncoa arbuscula* Griseb., *Fl. Brit. W. I.* 275. 1860.

*Chuncoa chicharronia* Griseb., *Cat. Pl. Cub.* 109. 1866.

Distribution: Endemic to Cuba.

Common Names: Chicharrón, Chicharrón de carreta, Chicharrón de monte, Júcaro acerado, Júcaro amarillo (Cuba), Chicharrón (Dominican Republic).

References: 3, 5, 36, 40, 124, 151, 427.

Note: Considered endangered by the IUCN Red List of Threatened Species.

*Terminalia ivorensis* A. Chev., *Vég. Utiles Afrique Trop. Franç.* 5: 152. 1909.

Distribution: Cultivated in Puerto Rico; native to tropical Africa.

References: 58, 151, 152, 159, 383.

*Terminalia latifolia* Sw., *Prodr.* 68. 1788.

Distribution: Endemic to Jamaica.

Common Name: Broadleaf (Jamaica).

References: 2, 427.

Note: Considered near threatened by the IUCN Red List of Threatened Species.

*Terminalia maestrensis* Bisse, *Feddes Repert.* 85: 606. 1974.

Distribution: Endemic to Cuba.

Reference: 149.

*Terminalia microcarpa* Decne., *Nouv. Ann. Mus. Hist. Nat.* 3: 457. 1834.

*Licania columbarum* Stehlé & L. Quentin, *Fl. Guadeloupe Dépend. & Martinique* 2(3): 50. 1949.

Distribution: Cultivated in Lesser Antilles (Guadeloupe).

References: 1, 81, 151, 152.

*Terminalia molinetii* M. Gómez = *Bucida molinetii* (M. Gómez) Alwan & Stace

*Terminalia myriocarpa* Van Heurck & Müll. Arg., *Observ. Bot.* 215. 1871.

Distribution: Exotic in Puerto Rico; native to Asia and Malesia.

References: 58, 159, 383.

*Terminalia neglecta* Bisse = *Terminalia chicharronia* Wright subsp. *neglecta* (Bisse) Alwan & Stace

*Terminalia nipensis* Alain, *Contr. Ocas. Mus. Hist. Nat. Colegio "De La Salle"* 12: 8. 1953.

Distribution: Endemic to Cuba.

Common Name: Chicharrón prieto (Cuba).

Reference: 3.

*Terminalia oblonga* (Ruiz & Pav.) Steud., *Nomencl. Bot.*, ed. 2, 2: 668. 1841.

Distribution: Exotic in Puerto Rico; native to Mexico, Central America, and South America.

References: 58, 159.

*Terminalia pachystyla* Borhidi, *Acta Bot. Acad. Sci. Hung.* 21: 224. 1976 ["1975"].

Distribution: Endemic to Cuba.

Reference: 149.

## COMMELINACEAE

**Genera.** Total: 11; native: 9; endemic: 1.

**Taxa.** Total: 30; native: 22; endemic: 5.

*Aneilema pauciflorum* (Urb. & Ekman) Alain = *Gibasis pauciflora* (Urb. & Ekman) D.R. Hunt

*Aploleia monandra* (Sw.) H.E. Moore, *Baileya* 9: 17. 1961;

*Tradescantia monandra* Sw., *Prodr.* 57. 1788; *Callisia monandra* (Sw.) Schult. & Schult. f. in J.J. Roemer & J.A. Schultes, *Syst. Veg.* 7: 1179. 1830.

- Callisia repens* sensu Bello, Anales Soc. Esp. Hist. Nat. 12: 122. 1883, non L.
- Callisia umbellulata* Lam., Tabl. Encycl. 1: 130. 1791.  
Distribution: Native to Cuba, Hispaniola, Puerto Rico, Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Guadeloupe, Martinique), Mexico, Central America, and South America; possibly in Virgin Islands based on a common name record, but no specimen record has been found.  
Common Names: Petit curage, Petit herbe grasse (Lesser Antilles), Cohítre morado (Puerto Rico).  
References: 1, 3, 28, 30, 61, 147, 340.
- Athyrocarpus leiocarpus* (Benth.) Benth. & Hook. f. ex Hemsl. = *Commelina leiocarpa* Benth.
- Athyrocarpus persicariifolius* sensu Britton & P. Wilson = *Commelina rufipes* Seub. var. *glabrata* (D.R. Hunt) Faden & D.R. Hunt
- Callisia cordifolia* (Sw.) E.S. Anderson & Woodson, Contr. Arnold Arbor. 9: 117. 1935; *Tradescantia cordifolia* Sw., Prodr. 57. 1788; *Tripogandra cordifolia* (Sw.) Aristeg., Bol. Acad. Ci. Fis. 25: 125. 1965.
- Callisia meiantra* C. Wright in F.A. Sauvalle, Anales Acad. Ci. Méd. Habana 7: 610. 1871.
- Spironema robbinsii* C. Wright in F.A. Sauvalle, Anales Acad. Ci. Méd. Habana 7: 609. 1871.  
Distribution: Native to Cuba, Jamaica, Mexico, Central America, and South America.  
References: 2, 3, 147, 350.
- Callisia filiformis* (M. Martens & Galeotti) D.R. Hunt, Kew Bull. 41: 410. 1986; *Leptorhoeo filiformis* (M. Martens & Galeotti) C.B. Clarke in W.B. Hemsley, Diagn. Pl. Nov. Mexic. 55. 1880.  
Distribution: Native to Lesser Antilles (Grenada, Martinique, Montserrat, St. Lucia), Mexico, Central America, and South America.  
References: 1, 147.
- Callisia fragrans* (Lindl.) Woodson, Ann. Missouri Bot. Gard. 29: 154. 1942; *Spironema fragrans* Lindl., Edward's Bot. Reg. 26: t. 47. 1840.  
Distribution: Exotic in Jamaica, Hispaniola, Puerto Rico, Virgin Islands (Guana, St. Croix, St. John, Tortola), Lesser Antilles (St. Lucia, St. Martin), and Margarita; endemic to Mexico; widely cultivated elsewhere.  
References: 1, 2, 19, 28, 147, 252, 254, 323.
- Callisia meiantra* C. Wright = *Callisia cordifolia* (Sw.) E.S. Anderson & Woodson
- Callisia monandra* (Sw.) Schult. & Schult. f. = *Aploleia monandra* (Sw.) H.E. Moore
- Callisia repens* (Jacq.) L., Sp. Pl., ed. 2, 62. 1762; *Hapalanthus repens* Jacq., Enum. Syst. Pl. 12. 1760.
- Callisia umbellulata* sensu Bello, Anales Soc. Esp. Hist. Nat. 12: 122. 1883, non Lam.  
Distribution: Native to Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana, St. Croix, St. John, Tortola, Virgin Gorda), Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Grenadines, Guadeloupe, Martinique, Montserrat, Saba, St. Eustatius, St. Kitts, St. Lucia, St. Martin, St. Vincent), Aruba, Bonaire, Curaçao, Margarita, United States (TX), Mexico, Central America, and South America.  
Common Names: Canutillo rastrero (Cuba), Cohítre enano, Suelda con suelda, Ti-bon bieu mouri (Dominican Republic), Belle mere soleil, Bon dieu mouri, Bon dieu soleil, Mais marron, Petit bon dieu mouri, Ti-bon dieu mouri (Haiti), Oreillo di raton, Yerba de awa (Lesser Antilles), Belleza, Lengua de gallina, Tradescantia (Puerto Rico).  
References: 1, 2, 3, 4, 5, 19, 28, 30, 61, 123, 131, 147, 151, 323, 340.
- Callisia repens* sensu Bello = *Aploleia monandra* (Sw.) H.E. Moore
- Callisia umbellulata* Lam. = *Aploleia monandra* (Sw.) H.E. Moore
- Callisia umbellulata* sensu Bello = *Callisia repens* (Jacq.) L.
- Campelia zanonía* (L.) Kunth = *Tradescantia zanonía* (L.) Sw.
- Commelina acutissima* Urb., Repert. Spec. Nov. Regni Veg. 19: 1. 1923.  
Distribution: Endemic to Hispaniola (Dominican Republic).  
Reference: 147.
- Commelina angustifolia* Michx. = *Commelina erecta* L. var. *angustifolia* (Michx.) Fernald
- Commelina benghalensis* L., Sp. Pl. 41. 1753.  
Distribution: Exotic in Cuba, Jamaica, Puerto Rico, and Lesser Antilles (Barbados, Martinique, Montserrat, Saba, St. Vincent); native to Africa, tropical Asia, Malesia, and Pacific region.  
Common Name: Herbe grasse (Lesser Antilles).  
References: 1, 2, 28, 147, 159, 252.
- Commelina blainii* (C. Wright) Woodson = *Sauvallea blainii* C. Wright in F.A. Sauvalle
- Commelina cayennensis* Rich. = *Commelina diffusa* Burm. f.
- Commelina diffusa* Burm. f., Fl. Ind. 18. 1768.
- Commelina cayennensis* Rich., Actes Soc. Hist. Nat. Paris 1: 105. 1792.
- Commelina longicaulis* Jacq., Collectanea 3: 234. 1791 ["1789"].  
Distribution: Native to Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana, St. Croix, St. Thomas, Virgin Gorda), Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Guadeloupe, Marie Galante, Martinique, Montserrat, Saba, St. Kitts, St. Lucia, St. Vincent), Margarita, North America, Mexico, Central America, and South America.  
Common Names: Creeping day-flower (Bahamas), Water grass (Jamaica), Curage, French weed, Herbe grasse, Water grass (Lesser Antilles), Cohítre, Cohítre azul, Cojitre (Puerto Rico).  
References: 1, 2, 3, 28, 45, 61, 131, 147, 254, 323.
- Commelina elegans* Kunth = *Commelina erecta* L. var. *erecta*
- Commelina erecta* L., Sp. Pl. 41. 1753, var. *erecta*
- Commelina elegans* Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 1: 259. 1816.
- Commelina erecta* L. var. *hamipila* (C. Wright ex Sauvalle) Brashier, Bull. Torrey Bot. Club 93: 10. 1966; *Commelina hamipila* C. Wright ex Sauvalle, Anales Acad. Ci. Méd. Habana 7: 608. 1870.
- Commelina virginica* sensu authors, non L.  
Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Anegada, Guana, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Anguilla, Barbados, Barbuda, Dominica, Grenada, Guadeloupe, Martinique, Montserrat, Nevis, Saba, St. Eustatius, St. Kitts, St. Lucia, St. Martin, St. Vincent), Aruba, Bonaire, Curaçao, Margarita, North America, Mexico, Central America, and South America.  
Common Names: Canutillo (Cuba), Botoncillo, Consuelda, Suelda con suelda, Suelda consuelda (Dominican Republic), Mais marron, Z'herbe maiz marron (Haiti).  
References: 2, 3, 4, 5, 19, 28, 45, 61, 147, 150, 323, 340, 350.
- Commelina erecta* L. var. *angustifolia* (Michx.) Fernald, Rhodora 42: 439. 1940; *Commelina angustifolia* Michx., Fl. Bor.-Amer. 1: 24. 1803.  
Distribution: Native to Cuba, Jamaica, North America, Mexico, and South America.  
References: 2, 3, 147.
- Commelina erecta* L. var. *hamipila* (C. Wright ex Sauvalle) Brashier = *Commelina erecta* L. var. *erecta*
- Commelina geniculata* Desv. ex Ham., Prodr. Pl. Ind. Occid. 4. 1825.

- Distribution: Endemic to Hispaniola.  
References: 5, 147.
- Commelina haitiensis* Urb. & Ekman, Ark. Bot. 20A(15): 10. 1926.  
Distribution: Endemic to Hispaniola.  
References: 5, 147.
- Commelina hamipila* C. Wright ex Sauvalle = *Commelina erecta* L. var. *erecta*
- Commelina hexandra* Aubl. = *Dichorisandra hexandra* (Aubl.) Standl.
- Commelina leiocarpa* Benth., Bot. Voy. Sulphur 176. 1846;  
*Athyrocarpus leiocarpus* (Benth.) Benth. & Hook. f. ex Hemsl.,  
Biol. Cent.-Amer., Bot. 3(18): 386 1885.  
Distribution: Native to Cuba, Mexico, Central America, and South America.  
References: 3, 147.
- Commelina longicaulis* Jacq. = *Commelina diffusa* Burm. f.
- Commelina nudiflora* L. = *Murdannia nudiflora* (L.) Brenan
- Commelina rufipes* Seub. var. *glabrata* (D.R. Hunt) Faden & D.R. Hunt, Ann. Missouri Bot. Gard. 74: 122. 1987; *Commelinopsis glabrata* D.R. Hunt, Kew Bull. 36: 195. 1981.
- Athyrocarpus persicariifolius* sensu Britton & P. Wilson, Sci. Surv. Porto Rico & Virgin Islands 5: 144. 1923, non Hemsl.
- Commelinopsis persicariifolia* (Delile) Pichon, Notul. Syst. (Paris) 12: 227. 1946.
- Tradescantia portoricensis* Bello, Anales Soc. Esp. Hist. Nat. 12: 122. 1883.  
Distribution: Native to Cuba, Puerto Rico, Lesser Antilles (Grenada, Martinique, Montserrat), Mexico, and South America.  
References: 3, 28, 61, 147, 152, 340.
- Commelina serrulata* Vahl = *Tripogandra serrulata* (Vahl) Handlos
- Commelina virginica* sensu authors, non L. = *Commelina erecta* L. var. *erecta*
- Commelina zanonina* L. = *Tradescantia zanonina* (L.) Sw.
- Commelinopsis glabrata* D.R. Hunt = *Commelina rufipes* Seub. var. *glabrata* (D.R. Hunt) Faden & D.R. Hunt
- Commelinopsis persicariifolia* (Delile) Pichon = *Commelina rufipes* Seub. var. *glabrata* (D.R. Hunt) Faden & D.R. Hunt
- Cyanotis cristata* (L.) D. Don, Prodr. Fl. Nepal. 46. 1825.  
Distribution: Exotic in Lesser Antilles (St. Lucia); native to Africa, Asia, and Malesia.  
References: 1, 2, 147.
- Cyanotis cucullata* (Roth) Kunth, Enum. Pl. 4: 107. 1843.  
Distribution: Exotic in Lesser Antilles (Antigua, Barbados, St. Lucia).  
References: 1, 294.
- Cyanotis vittata* Lindl. = *Tradescantia zebrina* Bosse
- Dichorisandra hexandra* (Aubl.) Standl. in P.C. Standley & S. Calderon, Lista Pl. Salvador: 48. 1925; *Commelina hexandra* Aubl., Hist. Pl. Guiane 1: 35. 1775.  
Distribution: Native to Lesser Antilles (Guadeloupe), Margarita, Mexico, Central America, South America, and Old World.  
Common Name: Herbe-ravine (Lesser Antilles).  
References: 1, 147, 323.
- Gibasis geniculata* (Jacq.) Rohweder, Abh. Auslandsk., Reihe C, Naturwiss. 18: 143. 1956; *Tradescantia geniculata* Jacq., Select. Stirp. Amer. Hist. 94. 1763.  
Distribution: Native to Cuba, Hispaniola, Puerto Rico, Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Grenadines, Guadeloupe, Martinique, St. Lucia, St. Martin, St. Vincent), Mexico, Central America, and South America.
- Common Names: Curage des bois, Herbe grasse des bois (Lesser Antilles), Cohitre azul (Puerto Rico).  
References: 1, 3, 5, 28, 30, 61, 147, 340.
- Gibasis pauciflora* (Urb. & Ekman) D.R. Hunt, Kew Bull. 33: 146. 1978; *Tradescantia pauciflora* Urb. & Ekman, Ark. Bot. 23A(11): 7. 1931; *Aneilema pauciflora* (Urb. & Ekman) Alain, Brittonia 20: 152. 1968.  
Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.  
Reference: 147.
- Hapalanthus repens* Jacq. = *Callisia repens* (Jacq.) L.
- Leptorhoeo filiformis* (M. Martens & Galeotti) C.B. Clarke = *Callisia filiformis* (M. Martens & Galeotti) D.R. Hunt
- Murdannia nudiflora* (L.) Brenan, Kew Bull. 7: 189. 1952; *Commelina nudiflora* L., Sp. Pl. 4. 1753.  
Distribution: Exotic in Cuba, Hispaniola, Puerto Rico, North America, Mexico, Central America, and South America.  
References: 3, 5, 28, 30, 147, 244.
- Rhoeo discolor* (L'Hér.) Hance = *Tradescantia spathacea* Sw.
- Rhoeo spathacea* (Sw.) Stearn = *Tradescantia spathacea* Sw.
- \**Sauvallea blainii* C. Wright in F.A. Sauvalle, Anales Acad. Ci. Méd. Habana 7: 608. 1871; *Commelina blainii* (C. Wright) Woodson, Ann. Missouri Bot. Gard. 29: 150. 1942.  
Distribution: Endemic to western Cuba.  
Common Name: Cañutillo de paredón (Cuba).  
References: 3, 39, 132, 147.  
Note: Considered extinct by the Red List of the Vascular Flora of Cuba (39).
- Setcreasea pallida* Rose = *Tradescantia pallida* (Rose) D.R. Hunt
- Setcreasea purpurea* Boom = *Tradescantia pallida* (Rose) D.R. Hunt
- Spirocnema fragrans* Lindl. = *Callisia fragrans* (Lindl.) Woodson
- Spirocnema robbinsii* C. Wright = *Callisia cordifolia* (Sw.) E.S. Anderson & Woodson
- Tinantia caribaea* Urb., Symb. Antill. 3: 280. 1902.  
Distribution: Native to Lesser Antilles (Guadeloupe, Martinique) and northern South America.  
References: 1, 30, 147.
- Tinantia erecta* (L.) Schldl., Linnaea 25: 185. 1852; *Commelina erecta* L., Sp. Pl. 41. 1753.
- Tinantia fugax* Scheidw., Allg. Gartenzeitung 7: 365. 1839.  
Distribution: Native to Hispaniola, Jamaica, Mexico, Central America, and South America.  
References: 2, 5, 30, 147.
- Tinantia fugax* Scheidw. = *Tinantia erecta* (L.) Schldl.
- Tradescantia bicolor* sensu Bello = *Tradescantia spathacea* Sw.
- Tradescantia cordifolia* Sw. = *Callisia cordifolia* (Sw.) E.S. Anderson & Woodson
- Tradescantia discolor* L'Hér. = *Tradescantia spathacea* Sw.
- Tradescantia elongata* G. Mey. = *Tripogandra serrulata* (Vahl) Handlos
- Tradescantia geniculata* Jacq. = *Gibasis geniculata* (Jacq.) Rohweder
- Tradescantia monandra* Sw. = *Apololeia monandra* (Sw.) H.E. Moore
- Tradescantia multiflora* Sw. = *Tripogandra multiflora* (Sw.) Raf.
- Tradescantia multiflora* Sw. var. *tobagensis* Urb. = *Tripogandra multiflora* (Sw.) Raf.
- Tradescantia pallida* (Rose) D.R. Hunt, Kew Bull. 30: 453. 1975; *Setcreasea pallida* Rose, Contr. U.S. Natl. Herb. 13: 294. 1911.

*Setcreasea purpurea* Boom, Acta Bot. Néerl. 4: 167. 1955.

Distribution: Exotic in Bahamas, Hispaniola, Puerto Rico, Virgin Islands (Guana, St. Croix, St. Thomas), Lesser Antilles (Guadeloupe, Martinique, Saba, St. Eustatius, St. Lucia, St. Martin), and Margarita; native to Mexico.

Common Names: Cucaracha extranjera, Cucaracha morada (Dominican Republic), Purple heart (Lesser Antilles), Cohître morado (Puerto Rico), Purple heart, Purple queen (Virgin Islands).  
References: 1, 28, 45, 123, 147, 323.

*Tradescantia pauciflora* Urb. & Ekman = *Gibasis pauciflora* (Urb. & Ekman) D.R. Hunt

*Tradescantia pendula* (Schnizl.) D.R. Hunt = *Tradescantia zebrina* Bosse

*Tradescantia portoricensis* Bello = *Commelina rufipes* Seub. var. *glabrata* (D.R. Hunt) Faden & D.R. Hunt

*Tradescantia spathacea* Sw., Prodr. 57. 1788; *Rhoeo spathacea* (Sw.) Stearn, Bailey 5: 198. 1957.

*Rhoeo discolor* (L'Hér.) Hance in W.G. Walpers, Ann. Bot. Syst. 3: 660. 1853; *Tradescantia discolor* L'Hér., Sert. Angl. 8. 1789.

*Tradescantia bicolor* sensu Bello, Anales Soc. Esp. Hist. Nat. 12: 122. 1883, non Kunth.

Distribution: Exotic in Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana, St. Croix, St. John, Virgin Gorda), Lesser Antilles (Antigua, Barbados, Grenada, Grenadines, Martinique, Saba, St. Lucia, St. Vincent), and Margarita; native to Mexico and Central America.

Common Names: Moses-in-the-bulrushes, Oyster plant (Jamaica), Canoa di San Pedro, Gros curage, Grosse herbe grasee, Indjån den boto, Ladies in a boat, Moses in the basket (Lesser Antilles).  
References: 1, 2, 3, 4, 5, 19, 28, 30, 45, 61, 147, 150, 323, 340, 383.

*Tradescantia virginiana* L., Sp. Pl. 288. 1753.

Distribution: Native to Cuba and North America.  
References: 3, 147.

*Tradescantia zanonía* (L.) Sw., Prodr. 57. 1788; *Commelina zanonía* L., Sp. Pl. 41. 1753; *Campelia zanonía* (L.) Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 1: 264. 1816.

Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Margarita, North America, Mexico, Central America, and South America.

References: 2, 3, 5, 28, 61, 147, 323, 340.

*Tradescantia zebrina* Heynh. ex Bosse, Vollst. Handb. Blumengart. 4: 655. 1849.

*Cyanotis vittata* Lindl., J. Hort. Soc. London 5: 139. 1850.

*Tradescantia pendula* (Schnizl.) D.R. Hunt, Kew Bull. 36. 197. 1981; *Zebrina pendula* Schnizl., Bot. Zeitung (Berlin) 7: 870. 1849.

Distribution: Exotic in Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John), Lesser Antilles (Antigua, Barbados, Guadeloupe, Martinique, Montserrat, Saba, St. Lucia), and Margarita.

Common Names: Cucaracha (Dominican Republic), Wandering jeu (Haiti).  
References: 2, 3, 19, 28, 30, 45, 61, 123, 147, 150, 323, 592.

*Tripogandra cordifolia* (Sw.) Aristeg. = *Callisia cordifolia* (Sw.) E.S. Anderson & Woodson

*Tripogandra multiflora* (Sw.) Raf., Fl. Tellur. 2: 16. 1837; *Tradescantia multiflora* Sw., Prodr. 57. 1788; *Tradescantia multiflora* Sw. var. *tobagensis* Urb., Symb. Antill. 7: 174. 1912.

Distribution: Native to Jamaica, Tobago, Mexico, Central America, and South America.

References: 2, 147.

*Tripogandra serrulata* (Vahl) Handlos, Bailey 17: 33. 1970; *Commelina serrulata* Vahl, Eclor. Amer. 2: 4. 1798.

*Tradescantia elongata* G. Mey., Prim. Fl. Esseq. 146. 1818.

Distribution: Native to Hispaniola, Puerto Rico, Lesser Antilles (Dominica, Guadeloupe, Martinique, St. Vincent), Mexico, Central America, and South America.

Common Names: Curage-rivière, Herbe grasse rivière (Lesser Antilles).  
References: 1, 28, 61, 147.

*Zebrina pendula* Schnizl. = *Tradescantia zebrina* Bosse

## CONNARACEAE

Genera. Total: 3; native: 3; endemic: 0.

Taxa. Total: 6; native: 6; endemic: 3.

*Cnestidium rufescens* Planch., Linnaea 23: 440. 1850.

Distribution: Native to Cuba, Mexico, Central America, and South America.

References: 3, 89.

*Connarus grandifolius* Planch., Linnaea 23: 432. 1850.

Distribution: Endemic to Lesser Antilles (Dominica, Guadeloupe, Martinique, St. Kitts).

Common Names: Lian caco, Liane à barriques (Lesser Antilles).  
References: 1, 31, 89.

*Connarus reticulatus* Griseb., Cat. Pl. Cub. 84. 1866.

Distribution: Endemic to Cuba.

Common Name: Sangre de toro bejuco (Cuba).  
References: 3, 89, 132, 156.

*Rourea cubensis* Urb. = *Rourea glabra* Kunth var. *glabra*

*Rourea frutescens* sensu Bello = *Rourea surinamensis* Miq.

*Rourea glabra* Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 7: 41. 1824, var. *glabra*

*Rourea cubensis* Urb., Symb. Antill. 5: 356. 1908.

*Rourea sympetala* Urb., Symb. Antill. 5: 357. 1908.

Distribution: Native to Cuba, Jamaica, Mexico, Central America, and South America.

Common Names: Bejuco Baracoa, Bejuco vergajo, Bergajo, Juan caliente, Mata negro (Cuba).

References: 2, 3, 89, 152, 156.

*Rourea glabra* Kunth var. *jamaicensis* Forero, Mem. New York Bot. Gard. 26: 55. 1976.

Distribution: Endemic to Jamaica.

Reference: 89.

*Rourea surinamensis* Miq., Linnaea 26: 221. 1854.

*Rourea frutescens* sensu Bello, Anales Soc. Esp. Hist. Nat. 10: 255. 1881, non Aubl.

Distribution: Native to Cuba, Hispaniola, Puerto Rico, Lesser Antilles (Grenada, St. Lucia), Trinidad, and South America.

Common Names: Bejuco de Luis Gómez, Bejuco Luis Gómez (Dominican Republic), Bejuco de garrote, Juan caliente (Puerto Rico).

References: 1, 5, 6, 7, 32, 58, 61, 89, 301.

*Rourea sympetala* Urb. = *Rourea glabra* Kunth var. *glabra*

## CONVOLVULACEAE

Genera. Total: 15; native: 10; endemic: 0.

Taxa. Total: 157; native: 135; endemic: 63.

*Aniseia cernua* Moric., Pl. Nouv. Amer. 56. 1837.

Distribution: Native to Cuba, Hispaniola, Trinidad, Central America, and South America.

References: 3, 7, 144.

- Aniseia martinicensis* (Jacq.) Choisy, Convolv. Diss. Sec. 144. 1837, var. *martinicensis*; *Convolvulus martinicensis* Jacq., Select. Stirp. Amer. Hist. 26. 1763.
- Aniseia salicifolia* (Desr.) Choisy, Mém. Soc. Phys. Genève 8: 144. 1838. Distribution: Native to Jamaica, Hispaniola, Lesser Antilles (Guadeloupe, Marie Galante, Martinique), Trinidad, Mexico, Central America, and South America. Common Names: Liseron savane, Patate marron, Petit liseron (Lesser Antilles). References: 1, 2, 3, 5, 32, 58, 144, 150, 301.
- Aniseia martinicensis* (Jacq.) Choisy var. *ambigua* Hallier, Bot. Jahrb. Syst. 18: 96. 1893.
- Aniseia nitens* Choisy, Mém. Soc. Phys. Genève 8: 145. 1838; *Aniseia martinicensis* (Jacq.) Choisy var. *nitens* (Choisy) O'Donell, Lilloa 30: 60. 1960. Distribution: Native to Cuba, Hispaniola, Puerto Rico, Lesser Antilles (Guadeloupe, Marie Galante, Martinique), Mexico, Central America, and South America. Note: Differs from typical variety by its basally truncate to slightly cordate sepals with scattered trichomes vs. basally cuneate and decurrent glabrous sepals. References: 7, 58, 144.
- Aniseia martinicensis* (Jacq.) Choisy var. *nitens* (Choisy) O'Donell = *Aniseia martinicensis* (Jacq.) Choisy var. *ambigua* Hallier f.
- Aniseia nitens* Choisy = *Aniseia martinicensis* (Jacq.) Choisy var. *ambigua* Hallier f.
- Aniseia salicifolia* (Desr.) Choisy = *Aniseia martinicensis* (Jacq.) Choisy var. *martinicensis*
- Argyreia bracteata* Choisy = *Argyreia nervosa* (Burm. f.) Bojer
- Argyreia nervosa* (Burm. f.) Bojer, Hortus Maurit. 224. 1837; *Convolvulus nervosus* Burm. f., Fl. Ind. 48. 1768; *Rivea nervosa* (Burm. f.) Hallier f., Bull. Herb. Boissier 5: 381. 1897.
- Argyreia bracteata* Choisy, Convolv. Orient. 39. 1834.
- Argyreia speciosa* (L. f.) Sweet, Hort. Brit. 289. 1827. Distribution: Cultivated in Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Thomas, Tortola), and Lesser Antilles (Barbados, Guadeloupe, Martinique, St. Lucia); native to India. Common Names: Campanola, Cordón de seda, Hoja de plata, Ipomea, Ipomea morada, Ipomea (Cuba), Basquiña, Hoja de seda (Dominican Republic), Coup d'air, Liane à minguet, Liane d'argent, Liane tonnelle (Haiti), Elephant ear vine (Jamaica), Elephant climber, Liane à tonnelle, Liane à vonvon, Liane d'argent, Liane de soie (Lesser Antilles). References: 1, 2, 3, 7, 32, 132, 150.
- Argyreia speciosa* (L. f.) Sweet = *Argyreia nervosa* (Burm. f.) Bojer
- Argyreia tiliifolia* (Desr.) Wight = *Stictocardia tiliifolia* (Desr.) Hallier f.
- Argyreia tiliifolia* sensu A. Stahl, non (Desr.) Wight = *Operculina turpethum* (L.) Silva Manso var. *ventricosa* (Bertero) G.W. Staples & D.F. Austin
- Batatas edulis* Choisy = *Ipomoea batatas* (L.) Lam.
- Batatas pentaphylla* (L.) Choisy = *Merremia aegyptia* (L.) Urb.
- Batatas quinquefolia* (L.) Choisy = *Merremia quinquefolia* (L.) Hallier f.
- Calonyction aculeatum* (L.) House = *Ipomoea alba* L.
- Calonyction bona-nox* (L.) Bojer = *Ipomoea alba* L.
- Calonyction megalocarpum* A. Rich. = *Ipomoea alba* L.
- Calonyction speciosum* Choisy = *Ipomoea alba* L.
- Calonyction tuba* (Schltdl.) Colla = *Ipomoea violacea* L.
- Convolvulus acetosifolius* Vahl = *Ipomoea imperati* (Vahl) Griseb.
- Convolvulus aculeatus* L. = *Ipomoea alba* L.
- Convolvulus acuminatus* Vahl = *Ipomoea indica* (Burm. f.) Merr. var. *acuminata* (Vahl) Fosberg
- Convolvulus alsinoides* L. = *Evolvulus alsinoides* (L.) L. var. *alsinoides*
- Convolvulus auritus* Willd. ex Roem. & Schult. = *Ipomoea imperati* (Vahl) Griseb.
- Convolvulus batatas* L. = *Ipomoea batatas* (L.) Lam.
- Convolvulus cissoides* Lam. = *Merremia cissoides* (Lam.) Hallier f.
- Convolvulus corymbosus* L. = *Turbina corymbosa* (L.) Raf.
- Convolvulus cumanensis* Kunth = *Jacquemontia cumanensis* (Kunth) Kuntze
- Convolvulus cuspidatus* Willd. ex Spreng. = *Ipomoea meyeri* (Spreng.) G. Don
- Convolvulus dissectus* Jacq. = *Merremia dissecta* (Jacq.) Hallier f.
- Convolvulus domingensis* Desr. = *Turbina corymbosa* (L.) Raf.
- Convolvulus domingensis* Spreng. = *Merremia quinquefolia* (L.) Hallier f.
- Convolvulus fastigiatus* Roxb. = *Ipomoea tiliacea* (Willd.) Choisy
- Convolvulus filicaulis* Vahl = *Xenostegia tridentata* (L.) D.F. Austin & Staples
- Convolvulus frondosus* Willd. ex Roem. & Schult. = *Jacquemontia havanensis* (Jacq.) Urb.
- Convolvulus grandiflorus* Jacq. = *Ipomoea violacea* L.
- Convolvulus havanensis* Jacq. = *Jacquemontia havanensis* (Jacq.) Urb.
- Convolvulus heptaphyllus* Rottler & Willd. = *Ipomoea wrightii* A. Gray
- Convolvulus imperati* Vahl = *Ipomoea imperati* (Vahl) Griseb.
- Convolvulus indicus* Burm. = *Ipomoea indica* (Burm. f.) Merr. var. *indica*.
- Convolvulus jamaicensis* Jacq. = *Jacquemontia havanensis* (Jacq.) Urb.
- Convolvulus jamaicensis* Spreng. = *Ipomoea jamaicensis* G. Don var. *jamaicensis*
- Convolvulus jamaicensis* Jacq. var. *major* A. Rich. = *Jacquemontia havanensis* (Jacq.) Urb.
- Convolvulus littoralis* L. = *Ipomoea imperati* (Vahl) Griseb.
- Convolvulus macrocalyx* Ruiz & Pav. = *Merremia macrocalyx* (Ruiz & Pav.) O'Donell
- Convolvulus macrocarpus* L. = *Operculina macrocarpa* (L.) Urb.
- Convolvulus macrorhizos* L. = *Ipomoea furcyensis* Urb.
- Convolvulus martinicensis* Jacq. = *Aniseia martinicensis* (Jacq.) Choisy var. *martinicensis*
- Convolvulus meyeri* Spreng. = *Ipomoea meyeri* (Spreng.) G. Don
- Convolvulus micranthus* Roem. & Schult. = *Jacquemontia verticillata* (L.) Urb. var. *verticillata*
- Convolvulus nervosus* Burm. f. = *Argyreia nervosa* (Burm. f.) Bojer
- Convolvulus nil* L. = *Ipomoea nil* (L.) Roth
- Convolvulus nodiflorus* Desr. in J.B.A.P.M. de Lamarck, Encycl. 3: 557. 1792; *Jacquemontia nodiflora* (Desr.) G. Don, Gen. Hist. 4: 283. 1837-1838.
- Convolvulus albiflorus* H. West, Bidr. Beskr. St. Croix 271. 1793. Distribution: Native to Hispaniola, Puerto Rico, Virgin Islands (Guana, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda),

- Lesser Antilles (Barbados, Grenada, Grenadines, Guadeloupe, Martinique, St. Barthélemy, St. Lucia, St. Martin, St. Vincent), Aruba, Bonaire, Curaçao, Margarita, Trinidad, Central America, and South America.
- Common Names: Bejuco ratón, Campanitas, Pascua (Dominican Republic), Aguinaldo blanco (Puerto Rico).
- References: 2, 3, 5, 7, 19, 32, 58, 61, 75, 301, 323, 340.
- Convolvulus nummularius* L. = *Evolvulus nummularius* (L.) L.
- Convolvulus obcordatus* Millsp. = *Jacquemontia ovalifolia* (Vahl) Hallier f. subsp. *obcordata* (Millsp.) K.R. Robertson
- Convolvulus obscurus* L. = *Ipomoea obscura* (L.) Ker Gawl.
- Convolvulus obtusifolius* Sessé & Moc. = *Jacquemontia havanensis* (Jacq.) Urb.
- Convolvulus ochraceus* Lindl. = *Ipomoea ochracea* (Lindl.) G. Don
- Convolvulus operculatus* M. Gómez = *Operculina macrocarpa* (L.) Urb.
- Convolvulus parviflorus* Desr. = *Jacquemontia verticillata* (L.) Urb. var. *verticillata*
- Convolvulus pennatus* Desr. = *Ipomoea quamoclit* L.
- Convolvulus pentanthus* Jacq. = *Jacquemontia pentanthos* (Jacq.) G. Don
- Convolvulus pentaphyllus* L. = *Merremia aegyptia* (L.) Urb.
- Convolvulus pes-caprae* L. = *Ipomoea pes-caprae* (L.) R. Br.
- Convolvulus phyllomega* Vell. = *Ipomoea philomega* (Vell.) House
- Convolvulus pinnatifidus* Kunth = *Operculina pinnatifida* (Kunth) O'Donell
- Convolvulus plumieri* Spreng. = *Jacquemontia verticillata* (L.) Urb. var. *verticillata*
- Convolvulus polycarpus* Kunth = *Jacquemontia verticillata* (L.) Urb. var. *verticillata*
- Convolvulus portoricensis* Spreng. = *Ipomoea indica* (Burm. f.) Merr. var. *acuminata* (Vahl) Fosberg
- Convolvulus purpureus* L. = *Ipomoea purpurea* (L.) Roth
- Convolvulus ruber* Vahl = *Ipomoea setifera* Poir.
- Convolvulus ruderarius* Kunth = *Jacquemontia havanensis* (Jacq.) Urb.
- Convolvulus serpyllifolius* Kunth = *Jacquemontia serpyllifolia* (Kunth) Urb.
- Convolvulus serpylloides* Griseb. = *Evolvulus minimus* Ooststr.
- Convolvulus sphaerostigma* Cav. = *Jacquemontia sphaerostigma* (Cav.) Rusby
- Convolvulus tenuifolius* Vahl = *Ipomoea tenuifolia* (Vahl) Urb.
- Convolvulus tiliaceus* Willd. = *Ipomoea tiliacea* (Willd.) Choisy
- Convolvulus tillifolius* Desr. = *Stictocardia tiliifolia* (Desr.) Hallier f.
- Convolvulus tomentosus* L. = *Ipomoea jamaicensis* G. Don var. *jamaicensis*
- Convolvulus tridentatus* L. = *Xenostegia tridentata* (L.) D.F. Austin & Staples
- Convolvulus trifidus* Kunth = *Ipomoea trifida* (Kunth) G. Don
- Convolvulus triqueter* Vahl = *Operculina turpethum* (L.) Silva Manso var. *turpethum*
- Convolvulus tuba* Schldl. = *Ipomoea violacea* L.
- Convolvulus turpethum* L. = *Operculina turpethum* (L.) Silva Manso var. *turpethum*
- Convolvulus umbellatus* L. = *Merremia umbellata* (L.) Hallier f.
- Convolvulus valenzuelanus* A. Rich. = *Jacquemontia serpyllifolia* (Kunth) Urb.
- Convolvulus ventricosus* Bertero = *Operculina turpethum* (L.) Silva Manso var. *ventricosa* (Bertero) G.W. Staples & D.F. Austin
- Convolvulus violaceus* Vahl = *Jacquemontia pentanthos* (Jacq.) G. Don
- Cuscuta americana* L., Sp. Pl. 124. 1753.
- Distribution: Native to Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Anguilla, Antigua, Barbados, Dominica, Grenada, Grenadines, Guadeloupe, Martinique, Montserrat, Nevis, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia, St. Martin, St. Vincent), Aruba, Bonaire, Curaçao, Margarita, North America, Mexico, Central America, and South America.
- Common Names: Bejuco de fideo, Fideílo, Malarrabia (Cuba), Bejuco amarillo, Bejuquito de amor, Cuscute, Fideitos, Fideos (Dominican Republic), Amitié, Choisy, Cuscute d'Amérique, La amitié, L'amitié, Lanmitié, Vermicelles (Haiti), Dodder, Love vine (Jamaica), Corde à violon, Corde de violon, Herbe à z'amourelle, Herbe à z'amourette, Herbe z'amitié, Liane à cordon, Liane sans fin, Love vine, Teigne, Vermicelle, Yellow dod, Yellow dodder (Lesser Antilles), Bejuco de mona, Fideos (Puerto Rico), Dodder (Virgin Islands).
- References: 1, 2, 3, 5, 7, 19, 32, 45, 58, 61, 323.
- Cuscuta arvensis* Beyr. ex Engelm. = *Cuscuta campestris* Yunck.
- Cuscuta boldinghii* Urb., Repert. Spec. Nov. Regni Veg. 16: 38. 1919.
- Distribution: Native to Hispaniola, Lesser Antilles (Grenada), Aruba, Bonaire, Curaçao, and Mexico.
- References: 1, 7, 150.
- Cuscuta campestris* Yunck., Mem. Torrey Bot. Club 18: 138. 1932.
- Cuscuta arvensis* Beyr. ex Engelm. in A. Gray, Manual, ed. 2, 336. 1856.
- Cuscuta pentagona* Engelm. var. *calycina* Engelm., Amer. J. Sci. Arts 45 (1): 76. 1843.
- Cuscuta pentagona* sensu Britton & Millsp., Bahama Fl. 356. 1920, non Engelm.
- Distribution: Native Cuba, Hispaniola, Puerto Rico; Lesser Antilles (Guadeloupe, Marie Galante, Martinique), Mexico, Central America, South America, and Africa; exotic in Bahamas and Jamaica.
- Common Names: Liane vermicelle, Liane z'amitié (Lesser Antilles).
- References: 1, 2, 3, 7, 30, 45, 58, 61, 151.
- Cuscuta decora* Choisy ex Engelm. = *Cuscuta indecora* Choisy var. *indecora*
- Cuscuta domingensis* Urb. = *Cuscuta gronovii* Willd. ex Schult.
- Cuscuta glandulosa* (Engelm.) Small = *Cuscuta obtusiflora* Kunth var. *glandulosa* Engelm.
- Cuscuta globulosa* Benth., Bot. Voy. Sulphur 138. 1845.
- Distribution: Native to Bahamas, Cuba, Hispaniola, Puerto Rico, Virgin Islands (Tortola), Lesser Antilles (Antigua, Grenada, Martinique, Montserrat, St. Barthélemy, St. Vincent), Tobago, Trinidad, and Mexico.
- References: 1, 3, 7, 45, 58, 231.

Distribution: Native to Cuba, North America, Mexico, Central America, and South America; cultivated in Bahamas and Jamaica; naturalized in Africa, Asia, and Malesia.  
Common Name: Speedwell (Jamaica).  
References: 2, 3, 45, 150, 151, 285.
- Evolvulus alsinoides* (L.) L. var. *debilis* (Kunth) Ooststr., Meded. Bot. Mus. Herb. Rijks Univ. Utrecht 14: 33. 1934; *Evolvulus debilis* Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 3: 115. 1819.
- Evolvulus linifolius* sensu Britton & P. Wilson, Sci. Surv. Porto Rico & Virgin Islands 6: 104. 1925, non L.  
Distribution: Native to Cuba, Mexico, Central America, and South America; cultivated in Puerto Rico Virgin Islands (Virgin Gorda), and Jamaica.  
References: 2, 3, 6, 58, 61, 151, 228.
- Evolvulus alsinoides* (L.) L. var. *grisebachianus* Meisn. in C.F.P. von Martius, Fl. Bras. 7: 344. 1869.  
Distribution: Native to Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Lesser Antilles (Barbados, Guadeloupe, St. Martin), North America, Central America, and South America.  
References: 1, 2, 3, 7, 45, 58, 151.
- Evolvulus antillanus* D.A. Powell, J. Arnold Arbor. 60: 225. 1979.  
Distribution: Native to Lesser Antilles (Antigua, Barbuda, Guadeloupe, Martinique, St. Lucia, St. Martin), Aruba, Bonaire, Curaçao, and northern South America.  
Common Name: Lin, Lin bâtard (Lesser Antilles).  
Reference: 1.
- Evolvulus arbuscula* Poir. in J.B.A.P.M. de Lamarck, Encycl. Suppl. 3: 459. 1814, var. *arbuscula*  
Distribution: Endemic to West Indies; native to Bahamas, Cuba, Hispaniola, and Jamaica.  
Common Names: Tebenque (Cuba), Romerillo, Romero silvestre (Dominican Republic), Jean Paul (Haiti), Sea thyme (Jamaica).  
References: 2, 3, 4, 5, 7, 40, 45, 123.
- Evolvulus arbuscula* Poir. var. *canus* Ooststr., Meded. Bot. Mus. Herb. Rijks Univ. Utrecht 14: 180. 1934.  
Distribution: Endemic to Cuba.  
Reference: 149.
- Evolvulus arenicola* Britton & P. Wilson = *Evolvulus siliceus* Britton & P. Wilson
- Evolvulus bahamensis* House, Bull. Torrey Bot. Club 35: 89. 1908.  
Distribution: Endemic to Bahamas.  
References: 45, 152.

- Evolvulus mucronatus* Sw. ex Wikstr., Kongl. Vetensk. Acad. Handl. 1827: 61. 1827.  
Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Anegada, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Anguilla, Antigua, Barbados, Grenada, Grenadines, Guadeloupe, Marie Galante, Martinique, St. Barthélemy, St. Kitts, St. Lucia, St. Martin, St. Vincent), Aruba, Bonaire,

Curaçao, Margarita, North America, Mexico, Central America, and South America.

Common Name: Teigne (Lesser Antilles).

References: 1, 2, 3, 4, 7, 19, 45, 58, 61, 75, 151, 323.

*Evolvulus domingensis* Spreng. ex Choisy = *Evolvulus nummularius* (L.) L.

*Evolvulus filipes* Mart., Flora 24: 100. 1844.

Distribution: Native to Jamaica, Virgin Islands (St. Croix, St. John, St. Thomas, Virgin Gorda), Lesser Antilles (Grenada, Martinique), Margarita, Mexico, Central America, and South America.

Common Name: Herbe grise (Lesser Antilles).

References: 1, 2, 19, 151, 323.

*Evolvulus glaber* Spreng. = *Evolvulus convolvuloides* (Willd. ex Schult.) Stearn

*Evolvulus grisebachii* Peter in H.G.A. Engler & K.A.E. Prantl, Nat. Pflanzenfam. 4(3a): 19. 1897.

*Evolvulus incanus* Pers., Syn. Pl. 1: 288. 1805.

*Evolvulus wrightii* House, Bull. Torrey Bot. Club 33: 316. 1906.

Distribution: Native to Cuba and United States (FL).

References: 3, 149, 150, 152.

*Evolvulus incanus* Pers. = *Evolvulus grisebachii* Peter

*Evolvulus linifolius* sensu Britton & P. Wilson = *Evolvulus alsinoides* (L.) L. var. *debilis* (Kunth) Ooststr.

*Evolvulus longifolius* Choisy = *Evolvulus tenuis* Mart. ex Choisy subsp. *longifolius* (Choisy) Ooststr.

*Evolvulus minimus* Ooststr., Meded. Bot. Mus. Herb. Rijks Univ. Utrecht 14: 110. 1934.

*Convolvulus serpylloides* Griseb., Cat. Pl. Cub. 207. 1866.

Distribution: Endemic to Cuba.

References: 3, 124.

*Evolvulus mucronatus* Sw. ex Wikstr. = *Evolvulus convolvuloides* (Willd. ex Schult.) Stearn

*Evolvulus nummularius* (L.) L., Sp. Pl., ed. 2, 391. 1762; *Convolvulus nummularius* L., Sp. Pl. 157. 1753.

*Evolvulus domingensis* Spreng. ex Choisy, Mém. Soc. Phys. Genève 8: 72. 1837.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas), Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Grenadines, Guadeloupe, Marie Galante, Martinique, St. Barthélemy, St. Lucia), Margarita, Trinidad, Mexico, Central America, and South America.

Common Names: Money-wort *evolvulus* (Bahamas), Aguinaldito de sabana, Aguinaldito rastrero (Cuba), Tripita de pollo (Dominican Republic), Petite véronique, Teigne, Ti teigne, Véronique, Véronique bord de mer (Lesser Antilles), Agracejo rastrero (Puerto Rico).

References: 1, 2, 3, 4, 5, 7, 19, 45, 58, 61, 131, 151, 301, 323, 340.

*Evolvulus sericeus* Sw., Prodr. 55. 1788.

Distribution: Native to Bahamas, Cuba, Hispaniola, Jamaica, Virgin Islands (Anegada, Tortola), Lesser Antilles (Anguilla, Antigua, Dominica, Guadeloupe, St. Barthélemy, St. Eustatius, St. Martin), Margarita, Tobago, Trinidad, North America, Mexico, Central America, and South America.

Common Name: Herbe argentée (Lesser Antilles).

References: 1, 2, 3, 5, 7, 45, 58, 61, 151, 301, 323.

*Evolvulus siliceus* Britton & P. Wilson, Bull. Torrey Bot. Club 44: 36. 1917.

*Evolvulus arenicola* Britton & P. Wilson, Bull. Torrey Bot. Club 43: 466. 1916.

Distribution: Endemic to Cuba.

References: 3, 39, 149.

Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).

*Evolvulus squamosus* Britton, Bull. New York Bot. Gard. 3: 449. 1905.

Distribution: Endemic to West Indies; native to Bahamas, Cayman Islands, and Virgin Islands (Anegada).

Common Name: Broom-bush (Bahamas).

References: 40, 45, 61.

*Evolvulus tenuis* Mart. ex Choisy subsp. *longifolius* (Choisy) Ooststr., Meded. Bot. Mus. Herb. Rijks Univ. Utrecht 14: 61. 1934; *Evolvulus longifolius* Choisy, Mém. Soc. Phys. Genève 8: 81. 1837.

*Evolvulus bocasanus* Britton, Bull. Torrey Bot. Club 48: 337. 1922.

Distribution: Native to Hispaniola, Virgin Islands (St. Croix, St. Thomas), Lesser Antilles (Guadeloupe, St. Kitts), Bonaire, Curaçao, Trinidad, and South America.

Common Name: Lin (Lesser Antilles).

References: 1, 7, 134, 151, 301.

*Evolvulus wrightii* House = *Evolvulus grisebachii* Peter

*Exogonium arenarium* Choisy = *Ipomoea steudelii* Millsp.

Note: Considered exotic and invasive in Cuba by CeNBIO.
- Ipomoea alterniflora* Griseb., Cat. Pl. Cub. 202. 1866.  
Distribution: Endemic to Cuba.  
Common Name: Aguinaldo de pinares (Cuba).  
References: 3, 124, 132.
- Ipomoea angulata* Lam. = *Ipomoea hederifolia* L.
- Ipomoea angustifolia* Jacq. = *Xenostegia tridentata* (L.) D.F. Austin & Staples
- Ipomoea antillana* Millsp. = *Turbina corymbosa* (L.) Raf.
- Ipomoea aquatica* Forssk., Fl. Aegypt.-Arab. 44. 1775.  
Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Lesser Antilles (Guadeloupe), Trinidad, South America, Africa, Asia, Malaysia, and Australia.  
References: 1, 2, 3, 7, 58, 159, 224, 301.  
Note: Considered exotic and invasive in Cuba by CeNBIO.
- Ipomoea arenaria* (Choisy) Steud. = *Ipomoea steudelii* Millsp.
- Ipomoea arenaria* sensu Urb. = *Ipomoea eggersii* (House) D.F. Austin
- Ipomoea argentifolia* A. Rich. in R. de la Sagra, Hist. Fis. Cuba, Bot. 11: 131. 1850.
- Ipomoea praecox* C. Wright in F.A. Sauvalle, Anales Acad. Ci. Méd. Habana 7: 46. 1870.  
Distribution: Endemic to Cuba.  
Common Name: Terciopelo solferino (Cuba).  
References: 3, 30, 351.
- Ipomoea arnoldsonii* Urb., Symb. Antill. 9: 424. 1925.  
Distribution: Endemic to Cuba.  
References: 3, 30.
- Ipomoea asarifolia* (Desr.) Roem. & Schult., Syst. Veg. 4: 251. 1819; *Convolvulus asarifolius* Desr. in J.B.A.P.M. de Lamarck, Encycl. 3: 562. 1792.
- Ipomoea nymphaeifolia* Griseb., Cat. Pl. Cub. 203. 1866.  
Distribution: Native to Cuba, Jamaica, Lesser Antilles (Martinique, St. Lucia), Mexico, Central America, South America, and Old World.  
Common Name: Bejuco buniatillo (Cuba).  
References: 1, 2, 3, 132, 150, 159.
- Ipomoea balioclada* Urb., Symb. Antill. 9: 245. 1924.  
Distribution: Endemic to Cuba.  
References: 3, 30.
- Ipomoea batatas* (L.) Lam., Tabl. Encycl. 1: 465. 1793; *Convolvulus batatas* L., Sp. Pl. 154. 1753.  
*Batatas edulis* Choisy, Convolv. Orient. 53. 1834.  
Distribution: Cultivated worldwide; native to the New World tropics, occurring in Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. John, Tortola, Virgin Gorda), Lesser Antilles (Guadeloupe, St. Lucia), Margarita, Tobago, Trinidad, North America, Mexico, Central America, and South America.  
Common Names: Sweet-potato (Bahamas), Boniato, Buniato (Cuba), Batata, Batate (Dominican Republic), Patate, Patate des jardins, Patate douce (Haiti), Sweet potato (Jamaica), Patate douce, Sweet potato (Lesser Antilles), Batata (Puerto Rico), Sweet potato (Virgin Islands).  
References: 1, 2, 3, 4, 5, 7, 19, 32, 45, 58, 61, 75, 151, 159, 224, 301, 323.  
Note: Considered an invasive species by CeNBIO.
- Ipomoea beyeriana* Urb., Symb. Antill. 9: 425. 1925.  
Distribution: Endemic to Cuba.  
References: 3, 30.
- Ipomoea bona-nox* L. = *Ipomoea alba* L.
- Ipomoea buchii* Urb. = *Ipomoea clausa* Rudolphi ex Ledeb.
- Ipomoea caerulea* Bello = *Ipomoea meyeri* (Spreng.) G. Don
- Ipomoea cairica* (L.) Sweet, Hort. Brit. 287. 1826.  
Distribution: Exotic in Cayman Islands, Cuba, Jamaica, and Lesser Antilles (Barbados, Grenada, Guadeloupe, St. Lucia); pantropical; native range uncertain.  
References: 1, 2, 3, 4, 150.
- Ipomoea calantha* Griseb., Cat. Pl. Cub. 202. 1866.  
*Ipomoea carnea* sensu Bello, Anales Soc. Esp. Hist. Nat. 10: 295. 1881, non Jacq.  
Distribution: Native to Cuba, Hispaniola, Puerto Rico, and South America.  
Common Name: Aguinaldo chamiso (Cuba).  
References: 3, 7, 30, 32, 58, 61, 224, 340.  
Note: Considered exotic and invasive in Cuba by CeNBIO.
- Ipomoea calophylla* C. Wright ex Griseb. = *Ipomoea lacteola* House
- Ipomoea carmesina* Proctor, J. Arnold Arbor. 63: 292. 1982.  
Distribution: Endemic to Jamaica.  
Reference: 149.
- Ipomoea carnea* sensu Bello = *Ipomoea calantha* Griseb.
- Ipomoea carnea* Jacq., Enum. Syst. Pl. 13. 1760, subsp. *carnea*  
Distribution: Exotic in Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Lesser Antilles (Guadeloupe, St. Eustatius, St. Lucia, St. Martin), Aruba, Curaçao, Margarita, Mexico, and Central America; native to South America.  
Common Names: Campana (Dominican Republic), Batilla carnosa (Puerto Rico).  
References: 1, 2, 7, 45, 61, 131, 132, 224, 323.  
Note: Considered an invasive species by CeNBIO.
- Ipomoea carnea* Jacq. subsp. *fistulosa* (Mart. ex Choisy) D.F. Austin, Taxon 26: 237. 1977; *Ipomoea fistulosa* Mart. ex Choisy in A.L.P.P. de Candolle, Prodr. 9: 349. 1845.
- Ipomoea crassicaulis* (Benth.) B.L. Rob., Proc. Amer. Acad. Arts 51: 530. 1916.  
Distribution: Exotic in Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, Virgin Gorda), and Lesser Antilles (Guadeloupe, St. Eustatius, St. Lucia, St. Martin); native to Mexico, Central America, and South America.  
Common Names: Aguinaldo color de carne (Cuba), Campana (Dominican Republic), Clochette (Haiti), Ológi di anochi, Petite campanule (Lesser Antilles).  
References: 1, 2, 3, 7, 19, 58, 150, 151, 159, 224, 349.  
Note: Considered an invasive species by CeNBIO.
- Ipomoea carnosa* R. Br. = *Ipomoea imperati* (Vahl) Griseb.
- Ipomoea carolina* L., Sp. Pl. 160. 1753.  
*Ipomoea yamuriensis* Urb., Symb. Antill. 9: 247. 1924.  
Distribution: Native to Bahamas, Cuba, and North America.  
Common Name: Bejuco de indio (Cuba).  
References: 3, 30, 45, 132.
- Ipomoea carolina* sensu Griseb., non L. = *Ipomoea tenuifolia* (Vahl) Urb.
- Ipomoea cathartica* Poir. = *Ipomoea indica* (Burm. f.) Merr. var. *indica*

- Ipomoea cissooides* (Lam.) Griseb. = *Merremia cissooides* (Lam.) Hallier f.
- Ipomoea clarensis* Alain, Mem. Soc. Cub. Hist. Nat. "Felipe Poey" 22: 121. 1955.  
Distribution: Endemic to Cuba.  
References: 3, 152.
- Ipomoea clausa* Rudolphi ex Ledeb. in C.F. Ledebour & J.P. Alderstrom, Diss. Bot. Pl. Doming. 14. 1805.
- Ipomoea buchii* Urb., Symb. Antill. 3: 356. 1903.
- Ipomoea hospitalis* Urb., Ark. Bot. 23A(5): 102. 1930.
- Ipomoea hotteana* Urb. & Ekman, Ark. Bot. 23A(5): 103. 1930.
- Ipomoea pitoniana* Urb., Repert. Spec. Nov. Regni Veg. 24: 10. 1927.
- Ipomoea samanensis* Urb., Repert. Spec. Nov. Regni Veg. 20: 343. 1924.
- Ipomoea selleana* Urb., Repert. Spec. Nov. Regni Veg. 24: 11. 1927.
- Ipomoea viridiflora* Urb., Symb. Antill. 3: 348. 1902.  
Distribution: Endemic to Hispaniola (Haiti).  
References: 7, 30, 149, 244, 430.
- Ipomoea caerulea* Bello = *Ipomoea meyeri* (Spreng.) G. Don
- Ipomoea cordatotriloba* Dennst., Nomencl. Bot. 246. 1810.
- Ipomoea trichocarpa* Elliott, Sketch Bot. S. Carolina 2(3): 260. 1823.  
Distribution: Naturalized in Cuba and Jamaica; native to North America, Mexico, Central America, and South America.  
References: 2, 3, 159, 224, 430.  
Note: Considered an invasive species by CeN BIO.
- Ipomoea crassicaulis* (Benth.) B.L. Rob. = *Ipomoea carnea* Jacq. subsp. *fistulosa* (Choisy) D.F. Austin
- Ipomoea cubensis* (House) Urb., Symb. Antill. 5: 356. 1908;  
*Exogonium cubense* House, Bull. Torrey Bot. Club 35: 105. 1908.  
Distribution: Endemic to Cuba.  
References: 3, 30, 151, 152, 156.
- Ipomoea curtissii* House = *Ipomoea ochracea* (Lindl.) G. Don
- Ipomoea cyanantha* Griseb., Fl. Brit. W. I. 469. 1862.
- Ipomoea plicata* Urb., Symb. Antill. 5: 471. 1908.  
Distribution: Endemic to Jamaica.  
References: 2, 30, 36, 151, 156, 430.
- Ipomoea dactylophylla* Griseb. = *Ipomoea subrevoluta* Choisy
- Ipomoea dajabonensis* Alain, Anales Acad. Ci. Republ. Dominicana, Bot. 3: 68. 1978.  
Distribution: Endemic to Hispaniola (Dominican Republic).  
Reference: 7.
- Ipomoea desrousseauxii* Steud., Nomencl. Bot., ed. 2, 1: 816. 1840.
- Ipomoea eriosperma* (Desr.) Urb., Symb. Antill. 3: 351. 1902.
- Ipomoea leuconeura* Urb., Symb. Antill. 3: 350. 1902.  
Distribution: Endemic to Hispaniola.  
Common Names: Batata zambomba, Batata zandumbia (Dominican Republic).  
References: 7, 30, 244.
- Ipomoea digitata* L., Syst. Nat., ed. 10, 924. 1759.

- Ipomoea fimbriosepala* Choisy, Prodr. 9: 359. 1845.
- Ipomoea pinosia* Alain, Revista Soc. Cub. Bot. 13: 60. 1956.  
Distribution: Exotic in Cuba, Mexico, and South America; native to Africa, Asia, and Malesia.  
References: 3, 152, 430.
- Ipomoea fistulosa* Mart. ex Choisy = *Ipomoea carnea* Jacq. subsp. *fistulosa* (Choisy) D.F. Austin
- Ipomoea flavopurpurea* Urb., Symb. Antill. 3: 345. 1902.
- Ipomoea punctata* C. Wright in F.A. Sauvalle, Anales Acad. Ci. Méd. Habana 7: 44. 1870.  
Distribution: Endemic to Cuba.  
References: 3, 30, 39, 74.  
Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39).
- Ipomoea fuchsoides* Griseb., Cat. Pl. Cub. 205. 1866.  
Distribution: Endemic to Cuba.  
References: 3, 124.
- Ipomoea furcyensis* Urb., Symb. Antill. 3: 351. 1902.
- Convolvulus macrorhizos* L., Syst. Nat., ed. 10, 923. 1759; *Ipomoea macrorhiza* (L.) Roem. & Schult., Syst. Veg. 4: 211. 1819, *nom. illeg.*
- Ipomoea plumieriana* House, Bot. Gaz. 43: 413. 1907.  
Distribution: Endemic to Hispaniola.  
Common Names: Coronita (Dominican Republic), Liane à minguet (Haiti).  
References: 7, 30, 123, 151, 430.
- Ipomoea gracilis* sensu House, non R. Br. = *Ipomoea tiliacea* (Willd.) Choisy
- Ipomoea grisebachii* Urb. = *Ipomoea rubella* House
- Ipomoea hamiltonii* G. Don = *Operculina hamiltonii* (G. Don) D.F. Austin & Staples
- Ipomoea hederacea* Jacq., Collectanea 1: 124. 1787 ["1786"].  
Distribution: Native to Bahamas and North America, Mexico, Central America, and South America; exotic in Cuba and Hispaniola.

Common Name: Gloria de la mañana (Cuba).

References: 3, 7, 28, 45, 150, 151.

*Ipomoea hederifolia* L., Syst. Nat., ed. 10, 925. 1759.

*Ipomoea steudelii* Millsp., Publ. Field Columbian Mus., Bot. Ser. 2(1): 86. 1900.

*Exogonium arenarium* Choisy, Mém. Soc. Phys. Genève 8: 129. 1838;

*Ipomoea arenaria* (Choisy) Steud., Nomencl. Bot., ed. 2, 2: 815. 1841.

*Exogonium pedatum* sensu Bello, Anales Soc. Esp. Hist. Nat. 10: 295. 1881, non Choisy.

*Ipomoea eggersiana* Peter in H.G.A. Engler & K.A.E. Prantl, Nat. Pflanzenfam. 4(3a): 30. 1891.

Distribution: Endemic to Greater Antilles; native to Hispaniola, Puerto Rico, and Virgin Islands (St. Croix, Tortola, Virgin Gorda).

References: 7, 30, 32, 58, 61, 151, 152, 340.

*Ipomoea stolonifera* J.F. Gmel. = *Ipomoea imperati* (Vahl) Griseb.

*Ipomoea stolonifera* Poir. = *Ipomoea imperati* (Vahl) Griseb.

*Ipomoea subrevoluta* Choisy, Prodr. 9: 386. 1845.

*Ipomoea dactylophylla* Griseb., Cat. Pl. Cub. 203. 1866.

Distribution: Native to Cuba, Trinidad, and South America.

References: 3, 124, 301, 430.

*Ipomoea tammifolia* L. = *Jacquemontia tammifolia* (L.) Griseb.

*Ipomoea tenuifolia* (Vahl) Urb., Symb. Antill. 5: 472. 1908;

*Convolvulus tenuifolius* Vahl, Symb. Bot. 3: 33. 1794.

*Ipomoea carolina* sensu Griseb., Fl. Brit. W. I. 470. 1862, non L.

Distribution: Endemic to Jamaica.

References: 2, 30, 151.

*Ipomoea tenuissima* Choisy in A.L.P.P. de Candolle, Prodr. 11: 376. 1847.

Distribution: Native to Cuba, Hispaniola, and United States (FL, state endangered); probably exotic in Puerto Rico.

References: 3, 7, 32, 58, 61, 150.

*Ipomoea ternata* Jacq., Pl. Rar. Hort. Schoenbr. 1: 16. 1797.

*Ipomoea saxicola* Proctor, J. Arnold Arbor. 63: 292. 1982.

*Ipomoea thomsoniana* Mast., Gard. Chron. 20: 818. 1883.

Distribution: Endemic to Jamaica.

References: 2, 30, 149, 430.

*Ipomoea thomsoniana* Mast. = *Ipomoea ternata* Jacq.

*Ipomoea tiliacea* (Willd.) Choisy in A.L.P.P. de Candolle, Prodr. 9: 375.

1845; *Convolvulus tiliaceus* Willd., Enum. Pl. 1: 203. 1809.

*Convolvulus fastigiatus* Roxb., Hort. Bengal. 13. 1824; *Ipomoea*

*fastigiata* (Roxb.) Sweet, Hort. Brit. 288. 1826.

*Ipomoea gracilis* sensu House, Ann. New York Acad. Sci. 18: 248.

1908, non R. Br.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Anegada, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Grenadines, Guadeloupe, Marie Galante, Martinique, Montserrat, Saba, St. Eustatius, St. Kitts, St. Lucia, St. Martin, St. Vincent), Tobago, Trinidad, North America, Mexico, Central America, South America, and Old World.

Common Names: Bejuco lechoso, Marrullero (Cuba), Batatillo, Bejuco de puerco, Bejuco de tabaco, Guatabo, Guatavo (Dominican Republic), Wild potato, Wild slip (Jamaica), Caapi, Hogmeat, Liane douce, Patate à cochon, Patate bâtard, Patate marron, Patate sauvage, Wild potato, Wild slip, Wild potato vine (Lesser Antilles), Bejuco de puerco (Puerto Rico).

References: 1, 2, 3, 4, 5, 7, 19, 30, 32, 45, 58, 61, 75, 123, 131, 132, 301, 340.

*Ipomoea tomentosa* (L.) Urb. = *Ipomoea jamaicensis* G. Don var.

*jamaicensis*

*Ipomoea trichocarpa* Elliott = *Ipomoea cordatotrilobata* Dennst.

*Ipomoea tricolor* Cav., Icon. 3: 5. 1794 ["1795"].

*Ipomoea violacea* sensu Griseb., Fl. Brit. W. I. 469. 1862, non L.

Distribution: Pantropical; in the West Indies occurs in Hispaniola, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas), and Lesser Antilles (Antigua, Guadeloupe, Saba, St. Martin); probably of Neotropical origin.

Common Names: Ferrocarril (Dominican Republic), Liane douce (Lesser Antilles).

References: 1, 7, 19, 30, 32, 58, 61, 159.

*Ipomoea trifida* (Kunth) G. Don, Gen. Hist. 4: 280. 1837-1838;

*Convolvulus trifidus* Kunth in F.W.H.A. von Humboldt, A.J.A.

Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 3: 107. 1819.

*Ipomoea ramonii* Choisy, Prodr. 9: 380. 1845.

Distribution: Native to Cuba, Mexico, Central America, and South America.

References: 3, 151, 152.

*Ipomoea triloba* L., Sp. Pl. 161. 1753.

*Ipomoea krugii* Urb., Symb. Antill. 5: 472. 1908.

Distribution: Native to Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Anguilla, Antigua, Barbados, Guadeloupe, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia), Aruba, Bonaire, Curaçao, Tobago, Trinidad, North America, Mexico, Central America, and South America.

- Common Names: Aguinaldo de Pascua, Aguinaldo marrullero, Aguinaldo rosado, Bejuco caracol, Bejuco de manteca, Bejuco de puerco, Bejuco marrullero, Caracol de cerca, Caracol real, Marrullero (Cuba), Liane purgative, Petite liane douce, Petite patate marron (Lesser Antilles), Bejuquillo de puerco (Puerto Rico).  
References: 1, 2, 3, 7, 19, 30, 32, 45, 58, 61, 75, 301, 254.
- Ipomoea trinitensis* Urb. = *Ipomoea squamosa* Choisy  
*Ipomoea tuba* (Schltdl.) G. Don = *Ipomoea violacea* L.  
*Ipomoea tuberosa* L. = *Merremia tuberosa* (L.) Rendle  
*Ipomoea turbinata* Lag. ex Choisy in A.L.P.P. de Candolle, Prodr. 11: 345. 1847.  
Distribution: Pantropical; in the West Indies occurs in Lesser Antilles (St. Eustatius), Bonaire, and Curaçao.  
Common Name: Lilac bell (Lesser Antilles).  
References: 1, 159.
- Ipomoea umbellata* (L.) G. Mey. = *Merremia umbellata* (L.) Hallier f.

*Ipomoea angustifolia* Jacq., *Collectanea* 2: 367. 1789 ["1788"].

*Ipomoea sericantha* sensu A. Stahl, *Estud. Fl. Puerto Rico* 6: 162. 1888, non Griseb.

Distribution: Exotic in Puerto Rico.

References: 32, 58.

#### DOUBTFUL SPECIES

*Ipomoea jamaicensis* G. Don var. *glabrata* Griseb., *Fl. Brit. W. I.* 474. 1862.

Distribution: Native to Jamaica and Panama.

Reference: 36.

Note: Doubtful application, name has not been used by modern botanists.

*Jacquemontia verticillata* (L.) Urb. var. *stenophylla* Urb., *Symb. Antill.* 3: 340. 1902.

Described from Cuba, name has not been used by modern botanists.

Reference: 30.

## COSTACEAE

Genera. Total: 2; native: 1; endemic: 0.

Taxa. Total: 10; native: 5; endemic: 1.

*Banksea speciosa* J. König = *Cheilocostus speciosus* (J. König) C. Specht

- Cheilocostus speciosus* (J. König) C. Specht, *Taxon* 55: 159. 2006;  
*Banksea speciosa* J. König in A.J. Retzius, *Observ.* 3: 75. 1784;  
*Costus speciosus* (J. Koenig) Sm., *Trans. Linn. Soc. London* 1:  
 249. 1791. Type: East Indies. J. König, s.n. (C).  
 Distribution: Exotic in Cuba, Hispaniola, Jamaica, Puerto Rico, Lesser  
 Antilles (Grenada, Guadeloupe, Martinique, St. Eustatius, St.  
 Lucia, St. Vincent), Central America, and South America; native to  
 tropical Asia and Malesia.  
 Common Names: Caña americana, Caña mejicana, Caña santa,  
 Cañuela santa, Caracol, Cojate, Flor de martí, Jengibre de jardín,  
 Jengibre blanco (Cuba).  
 References: 1, 2, 28, 132, 147, 252.
- Costus arabicus* L., *Sp. Pl.* 2. 1753.  
*Costus glabratus* Sw., *Prodr.* 11. 1788.  
 Distribution: Native to Hispaniola, Lesser Antilles (Guadeloupe,  
 Martinique, St. Lucia, St. Vincent), Margarita, and South America.  
 Common Names: Caña japonesa (Dominican Republic), Canne-congo,  
 Petit dégonflé, Shell plant (Lesser Antilles).  
 References: 1, 123, 147, 323, 482.
- Costus cylindricus* Jacq. = *Costus spicatus* (Jacq.) Sw.  
*Costus glabratus* Sw. = *Costus arabicus* L.
- Costus guanaiensis* Rusby var. *macrostrobilus* (K. Schum.) Maas, *Fl.*  
*Neotrop. Monogr.* 8: 52. 1972; *Costus macrostrobilus* K. Schum.  
 in I. Urban, *Symb. Antill.* 4: 159. 1903.  
 Distribution: Native to Puerto Rico, Mexico, Central America, and  
 South America.  
 References: 28, 61, 147, 482.
- Costus lucanusianus* Braun-Blanq. & K. Schum., *Mitt. Deutsch.*  
*Schutzgeb.* 2: 151. 1889.  
 Distribution: Exotic in Lesser Antilles (Martinique); native to west  
 tropical Africa.  
 References: 1, 147.
- Costus macrostrobilus* K. Schum. = *Costus guanaiensis* Rusby var.  
*macrostrobilus* (K. Schum.) Maas
- Costus malortieanus* H. Wendl., *Hamburger Garten- Blumenzeitung*  
 19: 30. 1863.  
 Distribution: Exotic in Hispaniola and Puerto Rico; native to Central  
 America.  
 References: 28, 147, 252, 482.
- Costus pulverulentus* C. Presl, *Reliq. Haenk.* 1(1): 41. 1825.  
*Costus ruber* C. Wright ex Griseb., *Cat. Pl. Cub.* 256. 1866.  
 Distribution: Exotic in Cuba, Mexico, Central America, and South  
 America.  
 References: 3, 147, 150, 482.
- Costus ruber* C. Wright ex Griseb. = *Costus pulverulentus* C. Presl
- Costus scaber* Ruiz & Pav., *Fl. Peruv.* 1: 2. 1798.  
 Distribution: Native to Hispaniola, Lesser Antilles (Grenada, St. Lucia,  
 St. Vincent), Mexico, Central America, and South America;  
 cultivated in Puerto Rico and the Virgin Islands (St. Thomas).  
 Common Name: Camarón (Dominican Republic).  
 References: 1, 28, 123, 147, 482.
- Costus speciosus* (J. Koenig) Sm. = *Cheilocostus speciosus* (J. König)  
 C. Specht
- Costus spicatus* (Jacq.) Sw., *Prodr.* 11. 1788; *Alpinia spicata* Jacq.,  
*Select. Stirp. Amer. Hist.* 1. 1763.  
*Costus cylindricus* Jacq., *Fragm. Bot.* 54. 1806.  
 Distribution: Endemic to West Indies; native to Cuba, Hispaniola,  
 Puerto Rico, and Lesser Antilles (Dominica, Guadeloupe, Marie  
 Galante, Martinique).  
 Common Names: Cañita de limón, Cañuela santa, Caña santa, Caña  
 de arroyo, Yerba de limón (Cuba), Jengibre amargo, Cumani,  
 Jengibre cimarrón, Caña de cristo (Dominican Republic), Caña  
 amarga (Puerto Rico).  
 References: 1, 2, 3, 5, 28, 30, 61, 123, 131, 132, 147, 482.
- Costus spiralis* (Jacq.) Roscoe, *Trans. Linn. Soc. London* 8: 350. 1807;  
*Alpinia spiralis* Jacq., *Pl. Rar. Hort. Schoenbr.* 1: 1. 1797.  
 Distribution: Exotic in Cuba and Margarita; native to Central America,  
 and South America.  
 References: 3, 147, 323, 482.
- Costus villosissimus* Jacq., *Fragm. Bot.* 55. 1806.  
 Distribution: Native to Jamaica, Lesser Antilles (St. Vincent), Central  
 America, and South America.  
 References: 1, 2, 147.
- Costus zerumbet* Pers. = *Alpinia zerumbet* (Pers.) Burt & R.M. Sm.  
 (Zingiberaceae).

## CRASSULACEAE

**Genera.** Total: 5; native: 0; endemic: 0.

**Taxa.** Total: 18; native: 0; endemic: 0.

- Bryophyllum calycinum* Salisb. = *Kalanchoe pinnata* (Lam.) Pers.  
*Bryophyllum crenatum* Baker = *Kalanchoe laxiflora* Baker  
*Bryophyllum daigremontianum* (Raym.-Hamet & H. Perrier) A. Berger  
 = *Kalanchoe daigremontiana* Raym.-Hamet & H. Perrier  
*Bryophyllum delagoense* (Eckl. & Zeyh.) Schinz = *Kalanchoe*  
*delagoensis* Eckl. & Zeyh.  
*Bryophyllum pinnatum* (Lam.) Oken = *Kalanchoe pinnata* (Lam.) Pers.  
*Bryophyllum tubiflorum* Harvey = *Kalanchoe delagoensis* Eckl. & Zeyh.  
*Cotyledon integra* Medik. = *Kalanchoe integra* (Medik.) Kuntze var.  
*integra*  
*Cotyledon laciniata* L. = *Kalanchoe laciniata* (L.) DC.  
*Cotyledon macrantha* A. Berger, *Monatsschr. Kakteenk.* 106. 1900.  
 Distribution: Exotic in Hispaniola; native to South Africa.  
 Reference: 7.  
*Cotyledon pinnata* Lam. = *Kalanchoe pinnata* (Lam.) Pers.  
*Crassula aquatica* (L.) Schönland in H.G.A. Engler & K.A.E. Prantl,  
*Nat. Pflanzenfam.* 3(2a): 37. 1891; *Tillaea aquatica* L., *Sp. Pl.*  
 128. 1753.  
 Distribution: Exotic in Hispaniola; native to North America and  
 Eurasia.  
 References: 7, 461.  
*Crassula argentea* L. f. = *Crassula ovata* (Mill.) Druce  
*Crassula ovata* (Mill.) Druce, *Rep. Bot. Soc. Exch. Club Brit. Isles* 4:  
 617. 1917.  
*Crassula argentea* L. f., *Suppl. Pl.* 188. 1782 ["1781"], *nom. illeg.*  
 Distribution: Exotic in Hispaniola; native to South Africa.  
 References: 7, 152, 462.  
*Echeveria glauca* (Baker) E. Morren = *Echeveria secunda* Booth ex Lindl.  
*Echeveria peacockii* Croucher, *Gard. Chron.*, n.s. 1: 674. 1874.  
 Distribution: Exotic in Hispaniola; native to Mexico.  
 Common Names: Flor de mármol, Mármol (Dominican Republic).  
 References: 7, 151.  
*Echeveria secunda* Booth ex Lindl., *Edwards's Bot. Reg.* 24(Misc). 59.  
 1838.  
*Echeveria glauca* (Baker) E. Morren, *Belgique Hort.* 24: 161. 1874.  
 Distribution: Exotic in Hispaniola; native to Mexico.  
 Common Names: Flor de mármol, Mármol (Dominican Republic).  
 References: 7, 159.

*Kalanchoe beharensis* Drake, Bull. Mus. Hist. Nat. (Paris) 9: 41. 1903.  
Distribution: Exotic in Hispaniola; native to Africa.  
Reference: 7.

*Kalanchoe blossfeldiana* Poelln., Repert. Spec. Nov. Regni Veg. 35: 15. 1934.

Distribution: Exotic in Hispaniola and Puerto Rico; native to Madagascar.

References: 6, 7, 58, 150, 159.

*Kalanchoe brasiliensis* Cambess. = *Kalanchoe crenata* (Andrews) Haw.

*Kalanchoe crenata* (Andrews) Haw., Syn. Pl. Succ. 109. 1812;  
*Kalanchoe integra* (Medik.) Kuntze var. *crenata* (Andrews) Cufod.,  
Oesterr. Bot. Z. 116: 320. 1969.

*Kalanchoe brasiliensis* Cambess. in A. Saint-Hilaire, Fl. Bras. Merid.  
(quarto ed.) 2. 196. 1830.

*Kalanchoe integra* sensu authors, non (Medik.) Kuntze  
*Kalanchoe integra* (Medik.) Kuntze var. *varea* (Jacq.) Cufod., Oesterr.  
Bot. Z. 116: 318. 1969.

Distribution: Exotic in Bahamas, Cuba, Hispaniola, Puerto Rico, Lesser  
Antilles, and naturalized in Virgin Islands (St. Thomas, Tortola);  
native to Africa.

Common Names: Flame kalanchoë (Bahamas), Belladonna, Kalanchoe,  
Siempreviva (Cuba), Bruja mansa (Dominican Republic), Madre  
de la bruja roja (Puerto Rico).

References: 1, 3, 6, 7, 45, 61, 123, 131, 132, 151, 159, 224, 321.

Note: Considered exotic and invasive in Cuba by CeNBIO.

*Kalanchoe daigremontiana* Raym.-Hamet & H. Perrier, Ann. Inst.  
Bot.-Geol. Colon. Marseille, ser. 3, 2: 128. 1914; *Bryophyllum*  
*daigremontianum* (Raym.-Hamet & H. Perrier) A. Berger in  
H.G.A. Engler & K.A.E. Prantl, Nat. Pflanzenfam., ed. 2, 18a:  
412. 1930.

Distribution: Exotic in Bahamas, Cuba, Hispaniola, and Puerto Rico;  
native to Africa.

Common Names: Devil's backbone (Bahamas), Kalanchoe (Cuba),  
Tope-tope (Haiti).

References: 6, 7, 45, 58, 123, 132, 150.

*Kalanchoe delagoensis* Eckl. & Zeyh., Enum. Pl. Afric. Austral. 2: 305.  
1836; *Bryophyllum delagoense* (Eckl. & Zeyh.) Schinz, Mém.  
Herb. Boiss. 10: 38. 1900.

## CUNONIACEAE

**Genera.** Total: 1; native: 1; endemic: 0.

**Taxa.** Total: 2; native: 2; endemic: 1.

*Weinmannia hirta* Sw. = *Weinmannia pinnata* L.

*Weinmannia pinnata* L., Syst. Nat., ed. 10, 1005. 1759.

*Weinmannia hirta* Sw., Prodr. 63. 1788.

Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Lesser Antilles (Dominica, Guadeloupe, Martinique, Montserrat, St. Kitts, St. Lucia, St. Vincent), Trinidad, Mexico, Central America, and South America.

Common Names: Oreganillo, Sabicú de pinares (Cuba), Casabito, Casavito, Tamarindo de loma, Tamarindo de sierra (Dominican Republic), Bastard braziletto (Jamaica), Bois siffleur, Bois-tan rouge, Tamarin-montagne (Lesser Antilles), Oreganillo (Puerto Rico).

References: 1, 2, 3, 5, 6, 7, 30, 58, 61, 123, 131, 132, 151, 301.

*Weinmannia portlandiana* R.A. Howard & Proctor, J. Arnold Arbor. 39: 106. 1958.

Distribution: Endemic to Jamaica.

References: 2, 427.

Note: Considered vulnerable by the IUCN Red List of Threatened Species.

## CUPRESSACEAE

**Genera.** Total: 4; native: 1; endemic: 0.

**Taxa.** Total: 12; native: 6; endemic: 6.

*Chamaecyparis funebris* (Endl.) Franco, Agros (Lisbon) 24: 93. 1941;

*Cupressus funebris* Endl., Syn. Conif. 58. 1847.

Distribution: Cultivated in Puerto Rico; native to China.

References: 6, 28, 58, 149, 151.

*Cupressus arizonica* Greene, Bull. Torrey Bot. Club 9: 64. 1882.

Distribution: Cultivated in Cuba, Hispaniola, and Puerto Rico; native to North America and Mexico.

Common Names: Ciprés, Ciprés fúnebre (Cuba), Cyprés (Haiti), Ciprés de Arizona (Puerto Rico).

References: 6, 28, 58, 123, 132, 149, 159, 463.

*Cupressus benthamii* Endl. = *Cupressus lusitanica* Mill.

*Cupressus funebris* Endl. = *Chamaecyparis funebris* (Endl.) Franco

*Cupressus lusitanica* Mill., Gard. Dict., ed. 8. 1768.

*Cupressus benthamii* Endl., Syn. Conif. 59. 1847.

Distribution: Cultivated in Cuba, Puerto Rico, and Margarita; native to Mexico and Central America.

Common Names: Ciprés, Ciprés fúnebre (Cuba), Ciprés, Ciprés mejicano (Puerto Rico).

References: 6, 28, 58, 131, 132, 323, 151, 159, 323, 383, 463.

*Cupressus macrocarpa* Hartw., J. Hort. Soc. London 2: 187. 1847.

Distribution: Cultivated in Cuba, Hispaniola, and Puerto Rico; native to North America.

Common Names: Ciprés (Cuba), Ciprés (Dominican Republic), Ciprés Monterrey (Puerto Rico).

References: 6, 28, 58, 123, 131, 132, 159, 463.

*Cupressus sempervirens* L., Sp. Pl. 1002. 1753.

Distribution: Cultivated in Cuba, Hispaniola, Puerto Rico, and Margarita; native to Europe, Africa, and Asia.

Common Names: Ciprés, Ciprés fúnebre, Ciprés piramidal (Cuba), Cinta, Ciprés, Cypres (Dominican Republic), Ciprés italiano (Puerto Rico).

References: 6, 28, 58, 123, 131, 132, 159, 323, 463.

*Juniperus barbadensis* L., Sp. Pl. 1039. 1753, var. *barbadensis*

Distribution: Endemic to Lesser Antilles (Barbados, Redonda, St. Lucia).

References: 151, 212, 427, 463.

Note: Considered vulnerable by the IUCN Red List of Threatened Species.

*Juniperus barbadensis* L. var. *lucayana* (Britton) R.P. Adams, Phytologia 78: 145. 1995; *Juniperus lucayana* Britton, N. Amer. Trees 121. 1908.

Distribution: Endemic to West Indies; native to Bahamas, Cuba, Hispaniola, and Jamaica.

Common Name: West Indian red cedar (Bahamas).

References: 3, 30, 39, 45, 74, 212, 463.

Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39).

*Juniperus barbadensis* L. subsp. *urbaniana* (Pilg. & Ekman) Borhidi = *Juniperus gracilior* Pilg. var. *urbaniana* (Pilg. & Ekman) R.P. Adams

*Juniperus gracilior* Pilg. in I. Urban, Symb. Antill. 7: 481. 1913, var. *gracilior*

Distribution: Endemic to Hispaniola.

Common Names: Sabina (Dominican Republic), Weeping sabina, Cèdre (Haiti).

References: 30, 38, 151, 156, 212, 427, 463.

Note: Considered endangered by the IUCN Red List of Threatened Species.

*Juniperus gracilior* Pilg. var. *ekmanii* (Florin) R.P. Adams, Phytologia 78: 144. 1995; *Juniperus ekmanii* Florin, Ark. Bot. 25A(5): 14. 1934.

Distribution: Endemic to Hispaniola.

References: 30, 38, 151, 212, 463.

*Juniperus gracilior* Pilg. var. *urbaniana* (Pilg. & Ekman) R.P. Adams, Phytologia 78: 144. 1995; *Juniperus urbaniana* Pilg. & Ekman, Ark. Bot. 20A(15): 9. 1926; *Juniperus barbadensis* L. subsp. *urbaniana* (Pilg. & Ekman) Borhidi, Acta Bot. Hung. 37: 90. 1992.

Distribution: Endemic to Hispaniola.

References: 30, 38, 151, 156, 212, 463.

*Juniperus saxicola* Britton & P. Wilson, Bull. Torrey Bot. Club 50: 35. 1923; *Juniperus barbadensis* L. subsp. *saxicola* (Britton & P. Wilson) Borhidi, Acta Bot. Hung. 37: 90. 1992.

Distribution: Endemic to Cuba.

Common Name: Sabina (Cuba).

References: 3, 39, 132, 212, 427, 463.

Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39) and by the IUCN Red List of Threatened Species.

*Juniperus urbaniana* Pilg. & Ekman = *Juniperus gracilior* Pilg. var. *urbaniana* (Pilg. & Ekman) R.P. Adams

*Platycladus orientalis* (L.) Franco, Portugaliae Acta Biol., Sér. B, Sist. Julio Henriques 33. 1949; *Thuja orientalis* L., Sp. Pl. 1002. 1753. Distribution: Cultivated in Cuba, Puerto Rico, Virgin Islands (St. Croix), and Margarita; native to Asia.

Common Names: Plátano de Virginia, Plátano occidental, Plátano oriental (Cuba).

References: 323, 463.

*Thuja aphylla* L. = *Tamarix aphylla* (L.) Karst. (Tamaricaceae)

*Thuja orientalis* L. = *Platycladus orientalis* (L.) Franco

## CYCADACEAE

Genera. Total: 2; native: 1; endemic: 1.

Taxa. Total: 3; native: 1; endemic: 1.

*Cycas circinalis* L., Sp. Pl. 1188. 1753.

Distribution: Cultivated in Cuba, Hispaniola, Puerto Rico, Virgin Islands (St. Croix), and Margarita; native to tropical Asia.

Common Names: Alcanfor, Isamia, Palma alcanfor, Palma sagú (Cuba), Palma de Siria, Palma funeraria (Dominican Republic), Cica, Cycas (Puerto Rico).

References: 123, 131, 132, 159, 323.

*Cycas revoluta* Thunb., Verh. Holl. Maatsch Weetensch. Haarlem 20: 424, 426. 1782.

Distribution: Exotic in Cayman Islands, Cuba, Hispaniola, Puerto Rico, Virgin Islands (St. Croix), and Margarita; native to Asia.

Common Names: Alcanfor, Palma alcanfor, Palma de sagú (Cuba), Palmiste des Indes (Haiti), Alcanfor, Cica, Palma de sagú (Puerto Rico), Sago palm (Virgin Islands).

References: 4, 123, 131, 132, 323.

\**Microcycas calocoma* (Miq.) DC., Prodr. 16(2): 538. 1868; *Zamia calocoma* Miq., Fl. Serres Jard. Eur. 7(misc.): 141. 1852.

Distribution: Endemic to Cuba.

Common Name: Palma corcho (Cuba).

References: 3, 39, 159, 353, 427.

Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39) and critically endangered by the IUCN Red List of Threatened Species.

*Zamia calocoma* Miq. = *Microcycas calocoma* (Miq.) DC.

## CYCLANTHACEAE

Genera. Total: 4; native: 3; endemic: 0.

Taxa. Total: 6; native: 5; endemic: 3.

*Asplundia dussii* Harling, Acta Horti Berg. 18: 226. 1958.

Distribution: Endemic to Lesser Antilles (Guadeloupe, Martinique, St. Vincent).

References: 1, 147.

## CYMODOCEACEAE

**Genera.** Total: 2; native: 2; endemic: 0.

**Taxa.** Total: 2; native: 2; endemic: 0.

*Cymodocea filiformis* (Kütz.) Correll = *Syringodium filiforme* Kütz.

*Cymodocea manatorum* Asch. = *Syringodium filiforme* Kütz.

*Diplanthera wrightii* (Asch.) Asch. = *Halodule wrightii* Asch.

*Halodule beaudettei* (Hartog) Hartog, Blumea 12: 303. 1964.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Virgin Islands (St. Croix, St. Thomas), Lesser Antilles (Guadeloupe, Marie Galante, St. Martin), Curaçao, Trinidad, SE United States, Central America, and Venezuela.  
References: 28, 635.

*Halodule wrightii* Asch., Sitzungsber. Ges. Naturf. Freunde Berlin. 19. 1868; *Diplanthera wrightii* (Asch.) Asch. in H.G.A. Engler & K.A.E. Prantl, Nat. Pflanzenfam. Nachtr. 1: 37. 1897.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas), Lesser Antilles (Grenadines, St. Vincent), possibly Florida Panama, Africa, Madagascar, and Maritius.  
References: 1, 2, 3, 4, 5, 28, 30, 40, 45, 61, 147, 254, 495, 635.

*Syringodium filiforme* Kütz. in R.F. Hohenacker, Alg. Mar. Exsicc. 9: 426. 1860; *Cymodocea filiformis* (Kütz.) Correll, Wrightia 4(2): 74. 1968.

*Cymodocea manatorum* Asch., Sitzungsber. Ges. Naturf. Freunde Berlin 1868: 19. 1868.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Guana, Jost van Dyke, St. Croix, St. John, St. Thomas, Tortola, Virgin Gorda), Lesser Antilles (Barbados, Barbuda, Dominica, Guadeloupe, Marie Galante, Martinique, Saba, St. Lucia, St. Martin), Curaçao, North America, Mexico, Central America, and South America.

Common Names: Manatee grass (Antigua), Manatee-grass (Bahamas), Eel grass (Cayman Isl.), Yerba manatí (Puerto Rico), Manatee grass (Virgin Islands).

References: 1, 2, 3, 4, 19, 28, 30, 45, 61, 147.

## CYPERACEAE

by M.T. Strong & P. Acevedo-Rodríguez

**Genera.** Total: 21; native: 20; endemic: 0.

**Taxa.** Total: 360; native: 329; endemic: 91.

*Abildgaardia monostachyos* (L.) Vahl = *Abildgaardia ovata* (Burm. f.) Kral

*Abildgaardia ovata* (Burm. f.) Kral, Sida 4: 72. 1971; *Carex ovata* Burm. f., Fl. Ind. 194. 1768; *Fimbristylis ovata* (Burm. f.) J. Kern, Blumea 15: 126. 1967. Type: Java. *Coll. ign.* (Holotype: G).

*Abildgaardia monostachyos* (L.) Vahl, Enum. Pl. 2: 296. 1805; *Cyperus monostachyos* L., Mant. Pl. 2: 180. 1771; *Fimbristylis monostachyos* (L.) Hassk., Pl. Jav. Rar. 61. 1848; *Scirpus monostachyus* (L.) Kuntze, Revis. Gen. Pl. 3(2): 337. 1898. Lectotype: India. *Koenig s.n.* (LINN 70.3), designated by Gordon-Gray, J. S. African Bot. 32: 144. 1966.

*Cyperus caribaeus* Pers., Syn. Pl. 1: 65. 1805, *nom. illeg.*; *Iria caribaea* Steud., Nomencl. Bot. 437. 1821. Type: West Indies. *Coll. ign.* (Holotype: probably at L).

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (Anegada, St. Croix, St. John, Virgin Gorda), Lesser Antilles (Anguilla, Antigua, Barbados, Barbuda, Dominica, Grenada, Guadeloupe, Martinique, St. Lucia, St. Vincent), Bonaire, Curaçao, Margarita, Tobago, Trinidad, United States (FL), Mexico, Central America, South America, and Old World tropics.

Common Name: Flat-spiked rush (Bahamas).

References: 1, 2, 3, 4, 5, 19, 28, 30, 45, 61, 147, 149, 301, 323, 325, 494.

*Abildgaardia setacea* Griseb. = *Bulbostylis setacea* (Griseb.) Svenson

*Anosporum cubense* (Poepp. & Kunth) Boeckeler = *Oxycaryum cubense* (Poepp. & Kunth) Palla

*Bulbostylis alpestris* Urb. = *Bulbostylis subaphylla* C.B. Clarke

*Bulbostylis antillana* (Britton) Fernald, Rhodora 40: 392. 1938; *Stenophyllus antillanus* Britton, Bull. Torrey Bot. Club 43: 447. 1916; *Bulbostylis capillaris* (L.) C.B. Clarke subsp. *antillana* (Britton) T. Koyama, J. Arnold Arbor. 60: 322. 1979. Type: Dominica. Grand Savanna. *F.E. Lloyd 822* (Holotype: NY).

Distribution: Endemic to West Indies; native to Puerto Rico and Lesser Antilles (Dominica, Martinique, St. Lucia).

References: 1, 28, 147, 156.

*Bulbostylis arenaria* (Nees) Lindm. = *Bulbostylis capillaris* (L.) C.B. Clarke subsp. *capillaris*

*Bulbostylis barbata* (Rottb.) C.B. Clarke in J.D. Hooker, Fl. Brit. Ind. 6: 651. 1893; *Scirpus barbatus* Rottb., Descr. Pl. Rar. 27. 1772. Type: Asia. *Koenig s.n.* (Holotype: C-Rottb.).

*Bulbostylis fimbriata* sensu C.B. Clarke in I. Urban, Symb. Antill. 2: 87. 1900, in part.

*Bulbostylis floridana* (Britton ex Nash) Fernald, Rhodora 40: 392. 1938; *Stenophyllus floridanus* Britton ex Nash, Bull. Torrey Bot. Club 22: 161. 1895. Type: United States. Florida, Eustis, *Nash 1423* (Isotype: US).

*Scirpus dussii* Boeckeler, Beitr. Cyper. 2: 38. 1890; *Scirpus dussianus* Boeckeler ex Duss, Ann. Inst. Bot.-Géol. Colon. Marseille 3: 548. 1897 ["1896"], *orth. var.* Type: Guadeloupe. Champ de Pétrification, à Sainte-Anne, *Duss 478* (Holotype: B †).

Distribution: Exotic in Cuba, Lesser Antilles (Martinique), southeastern United States, Mexico, Central America, Surinam, and Venezuela; native to Africa, Asia, Malesia, and Australia.

References: 1, 30, 147, 149.

*Bulbostylis capillaris* (L.) C.B. Clarke subsp. *antillana* (Britton) T. Koyama = *Bulbostylis antillana* (Britton) Fernald

*Bulbostylis capillaris* (L.) C.B. Clarke in J.D. Hooker, Fl. Brit. Ind. 6: 652. 1893, subsp. *capillaris*; *Scirpus capillaris* L., Sp. Pl. 49. 1753; *Fimbristylis capillaris* (L.) A. Gray, Manual, ed. 5, 567. 1867. Lectotype: (LINN 71.25), designated by Fernald in *Rhodora* 40: 395. 1938.

*Bulbostylis arenaria* (Nees) Lindm., Bih. Kongl. Svenska Vetensk.-Akad. Handl. 26(9): 19. 1901; *Oncostylis arenaria* Nees in C.F.P. von Martius, Fl. Bras. 2(1): 87. 1842; *Fimbristylis savannarum* Alain, Bull. Torrey Bot. Club 92: 389. 1965. Type: Brazil. Bahia, *coll. ign.* (Holotype: not located).

Distribution: Native to Cuba, Hispaniola, Jamaica, Margarita, Trinidad, North America, Mexico, Central America, South America, and Old World.

References: 1, 3, 5, 28, 149, 254, 301, 323.

Note: Cited for Puerto Rico and the Windward Islands (147), but no specimens or other literature records were found to confirm its occurrence on these islands.

- Bulbostylis capillaris* (L.) C.B. Clarke subsp. *insulana* M.T. Strong in Acevedo-Rodríguez & M.T. Strong, Contr. U.S. Natl. Herb. 52: 243. 2005. Type: Puerto Rico. *Woodbury s.n.* (Holotype: SJ; photo at US).
- Bulbostylis juncooides* sensu Liogier, Fl. Puerto Rico & Adjac. Is. Synop. 212. 1982, non Kük. ex Osten.
- Distribution: Endemic to Greater Antilles; native to Cuba, Hispaniola, and Puerto Rico.
- References: 6, 28, 254.
- Bulbostylis capillaris* (L.) C.B. Clarke subsp. *tenuifolia* (Rudge) C.B. Clarke = *Bulbostylis tenuifolia* (Rudge) J.F. Macbr.

- Cyperus surinamensis* Rottb., Descr. Pl. Rar. 20. 1772. Type: Surinam. *Rolander s.n.* (Holotype: probably at C-Rottb.).
- Cyperus acuminatus* sensu Bello, Anales Soc. Esp. Hist. Nat. 12: 124. 1883, non Torr. & Hook.
- Distribution: Native to Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. John, St. Thomas), Lesser Antilles (Dominica, Grenada, Guadeloupe, Martinique, St. Lucia, St. Martin), Tobago, Trinidad, southern United States, Mexico, Central America, and South America.
- Common Name: Coquillo (Dominican Republic).
- References: 1, 2, 3, 19, 28, 30, 45, 61, 123, 147, 301, 340.
- Cyperus surinamensis* Rottb. var. *formosus* (Vahl) Kük. = *Cyperus virens* Michx. var. *virens*
- Cyperus swartzii* (A. Dietr.) Boeckeler ex Kük., Repert. Spec. Nov. Regni Veg. 23: 186. 1926; *Mariscus swartzii* A. Dietr., Sp. Pl. 2: 343. 1833; *Kyllinga filiformis* Sw., Prodr. 20. 1788 [non *Cyperus filiformis* Sw., 1788]; *Mariscus filiformis* (Sw.) Spreng., Syst. Veg. 1: 234. 1824. Type: Jamaica. *Swartz s.n.* (Holotype: S-Sw.).
- Cyperus caymanensis* Millsp., Publ. Field Columbian Mus., Bot. Ser. 2(2): 120. 1900. Type: Cayman Islands. Bodden Bay road beyond Spot Bay, Grand Cayman, *Millspaugh* 1334 (Holotype: probably at F; Isotypes: G (fragment), NY-2).
- Cyperus granularis* (Desf. ex Link) Britton, Bull. Torrey Bot. Club 43: 44. 1916; *Kyllinga granularis* Desf. ex Link, Jahrb. Gewächsk. 1(3): 91. 1820; *Cyperus swartzii* (A. Dietr.) Boeckeler ex Kük. var. *granularis* (Desf. ex Link) Kük., Repert. Spec. Nov. Regni Veg. 23: 186. 1926. Type: Hispaniola. *Coll. ign.* (Holotype: B-Willd. 1443, which stems from Desfontaines).
- Cyperus swartzii* (A. Dietr.) Boeckeler ex Kük. var. *efoliatus* Kük., Repert. Spec. Nov. Regni Veg. 23: 187. 1926. Type: Cuba. Villa Clara. Santa Clara Prov., *Ekman* 16991 (Holotype: B †; Isotype: NY, US).
- Cyperus swartzii* (A. Dietr.) Boeckeler ex Kük. var. *elongatus* Kük., Repert. Spec. Nov. Regni Veg. 23: 187. 1926. Type: Cuba. Pinar del Rio, *Ekman* 10989 (Holotype: B †; Isotype: NY).

- Cyperus swartzii* (A. Dietr.) Boeckeler ex Kük. var. *latifolius* Kük., Repert. Spec. Nov. Regni Veg. 23: 187. 1926. Type: Cuba. Prov. Camaguey, *Ekman 15394* (Holotype: B †; Isotype: S-2).
- Kyllinga filiformis* Sw. var. *junciformis* C. Wright ex Griseb., Cat. Pl. Cub. 238. 1866. Type: Cuba. C. Wright 1865 (Holotype: B †).
- Kyllinga granularis* Desf. ex Boeckeler, Linnaea 35: 432. 1868, *nom. illeg.*
- Kyllinga rigidifolia* Boeckeler, Linnaea 35: 432. 1868. Type: Cuba. *Sagra s.n.* (Holotype: B †).
- Mariscus gracilis* Vahl, Enum. Pl. 2: 373. 1805 [non *Cyperus gracilis* R. Br., 1810]. Type: South America. *Richard s.n.* (Holotype: C-Vahl). Distribution: Native to Cayman Islands, Cuba, Hispaniola, Jamaica, Lesser Antilles (Guadeloupe), Puerto Rico, Virgin Islands (St. Croix), and Mexico. References: 1, 2, 3, 4, 5, 28, 30, 61, 124, 147, 156, 329.
- Cyperus swartzii* (A. Dietr.) Boeckeler ex Kük. var. *efoliatus* Kük. = *Cyperus swartzii* (A. Dietr.) Boeckeler ex Kük.
- Cyperus swartzii* (A. Dietr.) Boeckeler ex Kük. var. *elongatus* Kük. = *Cyperus swartzii* (A. Dietr.) Boeckeler ex Kük.
- Cyperus swartzii* (A. Dietr.) Boeckeler ex Kük. var. *granularis* (Desf. ex Link) Kük. = *Cyperus swartzii* (A. Dietr.) Boeckeler ex Kük.
- Cyperus swartzii* (A. Dietr.) Boeckeler ex Kük. var. *latifolius* Kük. = *Cyperus swartzii* (A. Dietr.) Boeckeler ex Kük.
- Cyperus tenuifolius* (Steud.) Dandy = *Kyllinga pumila* Michx.
- Cyperus tenuis* Sw., Prodr. 20. 1788; *Mariscus tenuis* (Sw.) C.B. Clarke in I. Urban, Symb. Antill. 2: 48. 1900. Lectotype: Jamaica. *Swartz s.n.* (S-Sw; Isolectotypes: B-Willd. 1390, C, M, S), designated by G.C. Tucker, Syst. Bot. 11: 15. 1986.
- Cyperus flabelliformis* (Kunth) Spreng., Syst. Veg. 1: 228. 1825, *nom. illeg.*, non Rottboell, 1773; *Mariscus flabelliformis* Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 1: 215. 1816. Type: Venezuela. Caracas, *Humboldt & Bonpland s.n.* (Holotype: B-Willd. 1433).
- Cyperus hartii* Boeckeler, Beitr. Cyper. 1: 9. 1888. Type: Jamaica. *Hart s.n.* (Holotype: B †).
- Cyperus platystachyus* Griseb., Fl. Brit. W. I. 567. 1864. Type: Jamaica. *Coll. ign.* (Holotype: GOET). Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix), Lesser Antilles (Dominica, Martinique), Mexico, Central America, South America, and tropical Africa. Common Name: Junquillo de costa (Cuba). References: 1, 2, 3, 28, 30, 61, 147, 254.
- Cyperus tenuis* Sw. var. *capillaris* (Sw.) Kük. = *Cyperus nanus* Willd.
- Cyperus tetragonus* Elliott, Sketch Bot. S. Carolina 1(1): 71. 1816. Type: Florida. *Baldwin s.n.* (Holotype: CHARL; Isotype: PH). Distribution: Native to Lesser Antilles (St. Vincent), southern United States, and Mexico. References: 147, 254.
- Cyperus thyrsoiflorus* Jungh., Linnaea 6: 24. 1831; *Mariscus thyrsoiflorus* (Jungh.) T. Koyama, Phytologia 29: 74. 1974. Lectotype: Mexico. Veracruz, Jalapa, *Schiede 849* (HAL), designated by G. C. Tucker, Syst. Bot. Monogr. 43: 169. 1994.
- Cyperus amphekes* Steud., Syn. Pl. Glumac. 2: 56. 1854. Type: Cuba. *Coll. ign.* (Holotype: probably at P).
- Cyperus anceps* Liebm., Mexic. Halvgr. 213. 1850. Type: Cuba. Bejucal, *Liebmann 14351* (Holotype: B †).
- Cyperus dissitiflorus* Nees ex Torr., Ann. Lyceum Nat. Hist. New York 3: 266. 1836; *Mariscus dissitiflorus* (Nees ex Torr.) C.B. Clarke in I. Urban, Symb. Antill. 2: 45. 1900. Type: United States. Louisiana, New Orleans, *Ingalls s.n.* (Holotype: NY).
- Mariscus dissitiflorus* (Nees ex Torr.) C.B. Clarke var. *lucidior* C.B. Clarke in I. Urban, Symb. Antill. 2: 45. 1900. Syntypes: Trinidad. *Fendler 892* (K); *Hart 2091* (K).
- Distribution: Native to Cuba, Tobago, Trinidad, southern United States, Mexico, Central America, and South America. References: 30, 147, 150, 156, 301, 324.
- Cyperus toluensis* Kunth = *Cyperus laxus* Lam.
- Cyperus trichodes* Griseb., Fl. Brit. W. I. 564. 1864. Type: Jamaica. Manchester, at Fairfield, *Wullschlaegel s.n.* (Holotype: B †; Isotype: K). Distribution: Endemic to Jamaica. References: 2, 36.
- Cyperus trigonus* Boeckeler = *Cyperus ligularis* L.
- Cyperus umbellatus* (Rottb.) Benth. = *Cyperus cyperoides* (L.) Kuntze
- Cyperus uncinatus* Poir. = *Cyperus cuspidatus* Kunth
- Cyperus uncinatus* Desv. ex Ham. = *Cyperus cuspidatus* Kunth
- Cyperus underwoodii* Britton = *Cyperus filiformis* Sw.
- Cyperus unifolius* Boeckeler, Linnaea 36: 374. 1870. Type: St. Croix, U.S. Virgin Islands. *Ravn s.n.* (Holotype: B †; Isotype: probably at C).
- Cyperus calcicola* Britton, Bull. Torrey Bot. Club 42: 387. 1915. Type: Puerto Rico. Caja de Muertos, N.L. Britton et al. 4976 (Holotype: NY; Isotypes: UPR, US). Distribution: Endemic to Puerto Rico and the Virgin Islands (Anegada, Guana, St. Croix, Tortola). Common Name: Pajón de costa (Puerto Rico). References: 28, 61, 131, 149, 156.
- Cyperus uniolooides* R. Br., Prodr. 216. 1810; *Pycreus uniolooides* (R. Br.) Urb., Symb. Antill. 2: 164. 1900. Type: Australia. Queensland, R. Brown 5900 (Holotype: BM; Isotype: K).
- Cyperus angulatus* Nees in R. Wight, Contr. Bot. India. 73. 1834; *Pycreus angulatus* (Nees) Nees ex C.B. Clarke in J.D. Hooker, Fl. Brit. Ind. 6: 593. 1893. Type: Nepal. *Wallich 3324 a, b* (Holotype: K).
- Cyperus bromoides* Willd. ex Link, Jahrb. Gewächsk. 1(3): 85. 1820. Type: South America. *Humboldt s.n.* (B-Willd. 1353).
- Cyperus pseudobromoides* Boeckeler, Linnaea 35: 464. 1868. Syntypes: Nepal; Hispaniola. Not located.
- Cyperus uniolooides* R. Br. f. *pallescens* Kük., Repert. Spec. Nov. Regni Veg. 23: 184. 1926. Type: Cuba. Pinar del Rio, *Ekman 11395* (Holotype: B †). Distribution: Pantropical; Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Mexico, Central America, South America, Africa, Malesia, Australia, and Pacific Region. References: 2, 3, 5, 28, 30, 147, 254.
- Cyperus uniolooides* R. Br. f. *pallescens* Kük. = *Cyperus uniolooides* R. Br.
- Cyperus urbanii* Boeckeler, Beitr. Cyper. 1: 10. 1888; *Mariscus urbanii* (Boeckeler) C.B. Clarke in I. Urban, Symb. Antill. 2: 47. 1900. Lectotype: Puerto Rico. Aibonito, *Sintenis 2929* (NY), designated by Strong & Acevedo, Contrib. U.S. Natl. Herb. 52: 292. 2005. Distribution: Endemic to Puerto Rico. References: 28, 30, 61, 156.
- Cyperus variegatus* Griseb. = *Cyperus lanceolatus* Poir.
- Cyperus virens* Michx. var. *brittonii* C.B. Clarke = *Cyperus distinctus* Steud.
- Cyperus virens* Michx. Fl. Bor.-Amer. 1: 28. 1803, var. *virens*. Type: United States. "Carolina," *Michaux s.n.* (Holotype: P; photo at GH).
- Cyperus formosus* Vahl, Enum. Pl. 2: 327. 1805; *Cyperus surinamensis* Rottb. var. *formosus* (Vahl) Kük., Repert. Spec. Nov. Regni Veg. 32: 74. 1933. Type: "Habitat in Louisiana et Caribaeis." *Coll. ign.* (Holotype: P-Juss.; Isotype: C-Vahl). Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, southeastern United States, Mexico, Central America, and South America. Common Name: Cortadera (Dominican Republic). References: 2, 3, 5, 28, 61, 123, 313, 467.

- Cyperus virens* Michx. var. *minarum* (Boeckeler) Denton, Contr. Univ. Michigan Herb. 11: 264. 1978; *Cyperus minarum* Boeckeler, Beitr. Cyper. 2: 5. 1890. Type: Brazil. Minas Gerais, *Widgren s.n.* (Holotype: C).  
Distribution: Native to Hispaniola, Mexico, Central America, and South America.  
References: 147, 254, 324, 467.
- Cyperus viscosus* Sw. = *Cyperus elegans* L.
- Dichromena ciliata* Vahl var. *ciliata* = *Rhynchospora ciliata* (G. Mey.) Kük.

- Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Lesser Antilles (Dominica, Martinique), Trinidad, Mexico, Central America, and South America.
- Common Names: Junquillo (Dominican Republic), Jonc matte, Jonc natte (Haiti), Junquillo (Puerto Rico).
- References: 1, 2, 3, 28, 123, 131, 301.
- Eleocharis elongata* Chapm., Fl. South. U.S. 515. 1860. Type: United States. Florida, Franklin Co., Apalachicola, *Chapman s.n.* (Holotype: NY).
- Distribution: Native to Jamaica, southeastern United States, and Central America.
- References: 2, 150, 156.
- Eleocharis fallax* Weath., Rhodora 24: 23. 1922. Type: United States. Massachusetts, *Fernald & Long 18025* (Holotype: GH; Isotype: US).
- Eleocharis nervosa* Kük., Repert. Spec. Nov. Regni Veg. 23: 192. 1926. Type: Cuba. Santa Clara, Laguna la Grande, *Ekman 18543* (Holotype: S; Isotype: NY).
- Distribution: Native to Cuba, Puerto Rico, Virgin Islands (St. Croix), and North America.
- References: 3, 28, 156, 329.
- Eleocharis filiculmis* Kunth, Enum. Pl. 2: 144. 1837. Type: Brazil. *Schrader s.n.* (Holotype: B †).
- Eleocharis sulcata* (Schult.) Nees, Linnaea 36: 445. 1870; *Fimbristylis sulcata* Schult. in J.J. Roemer & J.A. Schultes, Mant. 2: 52. 1824; *Scirpus sulcatus* Roth, Nov. Pl. Sp. 30. 1821, *nom. illeg.*
- Distribution: Native to Cayman Islands, Cuba, Hispaniola, Trinidad, Mexico, Central America, and South America.
- References: 3, 30, 40, 147, 254, 301.
- Eleocharis flaccida* (Rchb. ex Spreng.) Urb. var. *fuscescens* Kük. = *Eleocharis flavescens* (Poir.) Urb.
- Eleocharis flaccida* sensu Britton & Millsp. = *Eleocharis bahamensis* Boeckeler
- Eleocharis flavescens* (Poir.) Urb., Symb. Antill. 4: 116. 1903; *Scirpus flavescens* Poir. in J.B.A.P.M. de Lamarck, Encycl. 6: 756. 1805. Type: Puerto Rico. *Ledru s.n.* (Holotype: P; Isotype: P-2).
- Eleocharis albivaginata* Boeckeler var. *humilis* Boeckeler, Linnaea 36: 438. 1870; *Eleocharis ochreatea* (Nees) Steud. var. *humilis* (Boeckeler) C.B. Clarke in I. Urban, Symb. Antill. 2: 64. 1900. Type: Puerto Rico. *Coll. ign.* (Holotype: B-Willd. 1162).
- Eleocharis dussiana* Boeckeler, Allg. Bot. Z. Syst. 2: 54. 1896; *Eleocharis flavescens* (Poir.) Urb. var. *dussiana* (Boeckeler) Stehlé, Notul. Syst. (Paris) 13: 91. 1947. Type: Martinique: *Duss 466a* (Holotype: B †; Isotype: NY).
- Eleocharis flaccida* (Rchb. ex Spreng.) Urb., Symb. Antill. 2: 165. 1900; *Scirpus flaccidus* Rchb. ex Spreng., Tent. Suppl. 3: 1828; *Eleocharis albivaginata* Boeckeler var. *flaccida* (Rchb. ex A. Spreng.) Boeckeler, Linnaea 36: 437. 1870; *Eleocharis ochreatea* (Nees) Steud. var. *flaccida* (Rchb. ex A. Spreng.) Boeckeler ex C.B. Clarke in I. Urban, Symb. Antill. 2: 63. 1900. Type: Surinam. *Weigelt s.n.* (Holotype: B †).
- Eleocharis flaccida* (Rchb. ex Spreng.) Urb. var. *fuscescens* Kük., Repert. Spec. Nov. Regni Veg. 23: 191. 1926. Syntypes: Cuba. Pinar del Rio, Mendoza, *Ekman 18763* (B †; Isosyntype: S); Prov. Santa Clara, *Ekman 18369b* (B †; Isosyntypes: G, S).
- Eleocharis ochreatea* Nees in C.F.P. von Martius, Fl. Bras. 2(1): 102. 1842; *Eleocharis ochreatea* (Nees) Steud., Syn. Pl. Glumac. 2: 79. 1854; *Scirpus ochreateus* (Nees) Griseb., Pl. Wright. 2: 535. 1862. Syntypes: Brazil. *Macrae s.n.* (CGE); *von Martius s.n.* (M); and *Beyrich s.n.* (B †).
- Scirpus anisochaetus* C. Wright in F.A. Sauvalle, Anales Acad. Ci. Méd. Habana 8: 78. 1871. Type: Cuba. Pinar del Rio, vicinity of Colon, C. Wright 3761 (Holotype: GH).
- Scirpus caribaeus* Griseb., Abh. Königl. Ges. Wiss. Göttingen 7: 269. 1857, *nom. illeg.*, non Rottb., 1773.

Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. John), Lesser Antilles (Dominica, Guadeloupe, Martinique, Montserrat, St. Lucia), Trinidad, North America, Mexico, Central America, and South America.

References: 1, 2, 3, 5, 28, 30, 61, 147, 152, 254, 301.

*Eleocharis flavescens* (Poir.) Urb. var. *dussiana* (Boeckeler) Stehlé = *Eleocharis flavescens* (Poir.) Urb.

*Eleocharis geniculata* (L.) Roem. & Schult., Syst. Veg. 2: 150. 1817; *Scirpus geniculatus* L., Sp. Pl. 48. 1753; Lectotype: Jamaica. *Coll. ign. Herb. Clifford*: 21, *Scirpus* 1 (BM), designated by Furtado, Gard. Bull. Straits Settlements 9: 299. 1937.

*Eleocharis capitata* (L.) R. Br., Prodr. 225. 1810.

*Eleocharis caribaea* (Rottb.) S.F. Blake, Rhodora 20: 24. 1918; *Scirpus caribaeus* Rottb., Descr. Pl. Rar. 24. 1772. Type: St. Croix, U.S. Virgin Islands. *Coll. ign.* (Holotype: C-Rottb.).

*Eleocharis caribaea* (Rottb.) Blake var. *achlamydea* Zavaro & Pabón, Fontqueria 42: 269. 1995. Type: Cuba. Holguín, León *et al.* 21046 (Holotype: HAC).

*Eleocharis geniculata* (L.) Roem. & Schult. var. *minor* (Vahl) Roem. & Schult., Syst. Veg. 2: 150. 1817; *Scirpus geniculatus* Rottb. var. *minor* Vahl, Enum. Pl. 2: 251. 1805. Type: Jamaica. *Coll. ign.* (Holotype: probably at C-Vahl).

*Eleocharis sintensisii* Boeckeler, Beitr. Cyper. 1: 16. 1888. Lectotype: Puerto Rico. Bayamón, *Sintensis* 1220 (NY; Isolectotype: B), designated by Strong & Acevedo-Rodríguez, Contr. U.S. Natl. Herb. 52: 300. 2005.

*Scirpus capitatus* sensu Griseb., Fl. Brit. W. I. 570. 1864, non Linnaeus, 1753.

Distribution: Pantropical; native to Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. John, St. Thomas, Tortola), Lesser Antilles (Anguilla, Antigua, Barbados, Guadeloupe, Marie Galante, Martinique, Nevis, St. Lucia), Aruba, Bonaire, Curaçao, Margarita, Tobago, Trinidad, United States, Mexico, Central America, South America, Africa, Malesia, and Australia.

Common Names: Junquillo (Dominican Republic), Jonc natte (Haiti).  
References: 1, 2, 3, 4, 5, 19, 28, 30, 40, 45, 61, 149, 152, 156, 301, 323, 330, 494.

*Eleocharis grisea* Kük., Repert. Spec. Nov. Regni Veg. 23: 194. 1926. Type: Cuba. Prov. Isla de Pinos, Santa Bárbara, *Ekman* 12077 (Holotype: B †; Isotype: S).

Distribution: Endemic to Cuba.

References: 3, 147, 329.

*Eleocharis interstincta* (Vahl) Roem. & Schult., Syst. Veg. 2: 149. 1817; *Scirpus interstinctus* Vahl, Enum. Pl. 2: 149. 1805. Type: West Indies. *Martfelt s.n.* (Holotype: C-Vahl).

*Scirpus plantagineus* Sw., Fl. Ind. Occid. 1: 123. 1797, *nom. illeg.*, non Retzius, 1788.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. Thomas), Lesser Antilles (Barbados, Dominica, Grenada, Marie Galante, Martinique, St. Lucia), Trinidad, southern United States, Mexico, Central America, and South America.

Common Names: Knotted spikerush (Bahamas), Junco, Junco de ciénaga (Cuba), Junco, Junquillo (Dominican Republic), Junco, Junco de aparejos, Junco de ciénaga, Junco de espiga (Puerto Rico).  
References: 1, 2, 3, 4, 5, 28, 45, 61, 123, 131, 147, 152, 301.

*Eleocharis knutei* Pabón & Zavaro, Fontqueria 42: 269. 1995. Type: Cuba. Pinar del Río, *Areces et al.* 28481 (Holotype: HAJB).

Distribution: Endemic to Cuba.

References: 149, 330.

*Eleocharis liogieri* T. Koyama, Brittonia 29: 237. 1977. Type: Dominican Republic. Bayaguana, vic of Trinidad, *Liogier & Liogier* 19006 (Holotype: NY; Isotype: JBSD).

Distribution: Endemic to the West Indies: native to Hispaniola and Lesser Antilles (Nevis).

References: 1, 8, 156.

Note: No specimens were seen of this taxon but the illustration of it is referable to *Eleocharis filiculmis* Kunth.

*Eleocharis macrostachya* Britton in J.K. Small, Fl. S.E. U.S. 184. 1903.

Type: United States. Oklahoma, Indian Territory, between Fort Cobb and Fort Arbuckle, *Palmer* 264a. (Holotype: NY).

Distribution: Native to Lesser Antilles (Barbados), North America, Mexico, and South America.

References: 1, 156.

*Eleocharis maculosa* (Vahl) Roem. & Schult., Syst. Veg. 2: 154.

1817; *Scirpus maculosus* Vahl, Enum. Pl. 2: 247. 1805. Type: Guadeloupe. *Richard s.n.* (Holotype: C).

Distribution: Native to Lesser Antilles (Dominica, Guadeloupe, Martinique), Mexico, Central America, and South America.

Reference: 1.

*Eleocharis microcarpa* Torr., Ann. Lyceum Nat. Hist. New York 3: 312. 1836. Type: United States. Louisiana, *Ingalls s.n.* (Holotype: NY).

*Eleocharis cubensis* Boeckeler, Beitr. Cyper. 2: 10. 1890. Type: Cuba. C. Wright 3765 (Holotype: B †; Isotype: GH).

Distribution: Native to Cuba, Jamaica, eastern United States, Central America, and Venezuela.

References: 2, 3, 147, 156, 254.

*Eleocharis microcarpa* sensu Britton & P. Wilson = *Eleocharis minutiflora* Boeckeler

*Eleocharis microlepis* (Griseb.) D.A. Simpson, Kew Bull. 43: 429. 1988; *Scirpus microlepis* Griseb., Cat. Pl. Cub. 239. 1866. Type: Cuba.

C. Wright 3370 (Holotype: GOET; Isotypes: K, S).

Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.

References: 124, 147.

*Eleocharis minima* Kunth, Enum. Pl. 2: 139. 1837, var. *minima*. Type: Brazil. *Coll. ign.* (Holotype: B †; Isotype: probably at P).

*Eleocharis oropuchensis* Britton, Bull. Torrey Bot. Club 48: 327. 1922. Type: Trinidad. Oropuche Lagoon, *N.L. Britton, Hazen, & Freeman* 1155 (Holotype: NY; Isotype: US).

*Eleocharis savannarum* Britton, Bull. Torrey Bot. Club 48: 327. 1922. Type: Trinidad. O'Meara Savanna, *N.L. & E.G. Britton* 2491 (Holotype: NY; Isotype: US).

*Eleocharis tenuissima* Boeckeler, Linnaea 36: 419. 1870. Syntypes: Guadeloupe, *Bertero s.n.* (B †); Brazil, *Sello s.n.* (B †, P).

*Eleocharis wrightiana* Boeckeler, Beitr. Cyper. 1: 12. 1888. Type: Cuba. C. Wright 3369 (Holotype: B †; Isotypes: NY, P).

Distribution: Native to Cayman Islands, Cuba, Hispaniola, Jamaica, Lesser Antilles (Guadeloupe), Trinidad, United States (FL, MD, TX), Mexico, Central America, and South America.

References: 3, 4, 5, 30, 134, 147, 156, 254, 301.

*Isolepis vestita* Kunth = *Bulbostylis vestita* (Kunth) C.B. Clarke

*Kyllinga aphylla* (Vahl) Kunth = *Kyllinga tibialis* Poit. ex Ledeb.

*Kyllinga brevifolia* Rottb., Descr. Icon. Rar. Pl. 13. 1773; *Cyperus brevifolius* (Rottb.) Endl. ex Hassk., Cat. Hort. Bot. Bogor. 24. 1844. Type: East Indies. *Koenig s.n.* (Holotype: C-Rottb.; Isotypes: C-Rottb., S).

*Kyllinga brevifolia* Rottb. var. *longifolia* Boeckeler, Linnaea 35: 426. 1868. Type: not designated.

*Kyllinga cruciformis* Schrad. ex Schult., Mant. 2: 137. 1824. Type: St. Thomas, U.S. Virgin Islands. *Ehrenberg 69* (Holotype: B; Isotypes: C, HAL).

*Kyllinga intermedia* R. Br., Prodr. 219. 1810. Type: Australia. Apparently not collected by Brown.

*Kyllinga monocephala* sensu Grisebach, Fl. Brit. W. I. 568. 1864, non Rottboell, 1773.

Distribution: Native to Bahamas, Cayman Islands, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Croix, St. Thomas, Tortola), Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Guadeloupe, Martinique, St. Lucia), Tobago, Trinidad, United

States, Mexico, Central America, South America, Africa, Asia, Malesia, Australia, and Pacific Region.

Common Name: Cortadera (Cuba).

References: 1, 2, 3, 4, 5, 28, 30, 45, 61, 147, 301.

*Kyllinga brevifolia* Rottb. var. *longifolia* Boeckeler = *Kyllinga brevifolia* Rottb.

*Kyllinga capillaris* (Sw.) Griseb. = *Cyperus nanus* Willd.

*Kyllinga cayennensis* Lam. = *Cyperus aggregatus* (Willd.) Endl. var. *aggregatus*

*Kyllinga cruciformis* Schrad. ex Schult. = *Kyllinga brevifolia* Rottb.

*Kyllinga cyperina* Retz. = *Cyperus cyperinus* (Retz.) Suringar

*Kyllinga filiformis* Sw. = *Cyperus swartzii* (A. Dietr.) Boeckeler ex Kük.

*Kyllinga filiformis* Sw. var. *junciformis* C. Wright ex Griseb. = *Cyperus swartzii* (A. Dietr.) Boeckeler ex Kük.

*Kyllinga flexuosa* Boeckeler = *Kyllinga pumila* Michx.

*Kyllinga granularis* Desf. ex Link = *Cyperus swartzii* (A. Dietr.) Boeckeler ex Kük.

*Kyllinga granularis* Desf. ex Boeckeler = *Cyperus swartzii* (A. Dietr.) Boeckeler ex Kük.

*Kyllinga incompleta* Jacq. = *Cyperus hermaphroditus* (Jacq.) Standl.

*Kyllinga intermedia* R. Br. = *Kyllinga brevifolia* Rottb.

*Kyllinga maculata* Michx. = *Lipocarpa maculata* (Michx.) Torr.

*Kyllinga nemoralis* (J.R. Forst. & G. Forst.) Dandy ex Hutch. & Dalziel, Fl. W. Trop. Afr. 2: 468. 1936; *Thryoccephalon nemorale* J.R. Forst. & G. Forst., Char. Gen. Pl. 65. 1775; *Cyperus kyllingia* Endl., Cat. Horti Vindob. 1: 94. 1842, *nom. illeg.* Lectotype: Society Islands. Otaheite, *Forster & Forster s.n.* (BM), designated by Nicolson, Regnum Veg. 139: 184. 2003.

Distribution: Exotic in Jamaica, Puerto Rico, Lesser Antilles (Dominica), Tobago, Trinidad, Hawaii, and South America; native to the tropics and subtropics of Africa, Asia, Malesia, Australia, and the Pacific Region including Hawaii.

References: 28, 147, 254, 301.

*Kyllinga obtusata* J. Presl & C. Presl = *Kyllinga vaginata* Lam.

*Kyllinga odorata* Vahl, Enum. Pl. 2: 382. 1805. Type: South America. *Rohr s.n.* (Holotype: C).

*Kyllinga sesquiflora* Torr., Ann. Lyceum Nat. Hist. New York 3: 287. 1836; *Cyperus sesquiflorus* (Torr.) Mattf. & Kük. in H.G.A. Engler, Pflanzenr. IV, 20 (Heft 101): 591. 1936. Type: United States. Florida, *Chapman 12* (Holotype: NY).

Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. John, St. Thomas), Lesser Antilles (Antigua, Dominica, Grenada, Guadeloupe, Martinique), Tobago, Trinidad, southern United States, Mexico, Central America, South America, tropical Africa, Madagascar, southeast Asia, Malesia, and northern Australia. *Rhynchospora bahamensis* Britton = *Rhynchospora lindeniana* Griseb.  
*Rhynchospora barbata* (Vahl) Kunth, Enum. Pl. 2: 290. 1837; *Schoenus barbatus* Vahl, Eclog. Amer. 2: 4. 1798. Type: West Indies. *von Robr 72* (Holotype: C-Vahl, microfiche US ex C; possible Isotype: BM).  
*Rhynchospora pterocarpa* (Kunth) Roem. & Schult., Syst. Veg. 2: 89. 1817; *Chaetospora pterocarpa* Kunth in F.W.H.A. von Humboldt, A.J.A. Bonpland & C.S. Kunth, Nov. Gen. Sp. (quarto ed.) 1: 230. 1816. Type: Venezuela. Atures, *Bonpland s.n.* (Holotype: P-HBK).  
Distribution: Native to Hispaniola, Margarita, Trinidad, Mexico, Central America, and South America.  
References: 5, 30, 147, 301, 323, 332.  
*Rhynchospora berteriana* Boeckeler = *Rhynchospora berteroi* (Spreng.) C.B. Clarke  
*Rhynchospora berteroi* (Spreng.) C.B. Clarke in I. Urban, Symb. Antill. 2: 119. 1900; *Hypolytrum berteroi* Spreng., Neue Entdeck. Pflanzenk. 1: 241. 1820; *Rhynchospora berteriana* Boeckeler, Flora 41: 645. 1858. Type: Guadeloupe. *Bertero s.n.* (Holotype: TO; Isotypes: M, MO).  
*Rhynchospora pusilla* (Sw.) Griseb., Abh. Königl. Ges. Wiss. Göttingen 7: 271. 1857; *Schoenus pusillus* Sw., Prodr. 20. 1788. Type: Jamaica. *Swartz s.n.* (Holotype: BM; Isotype: M, S-Sw.).  
*Rhynchospora subfiliformis* H. Pfeiff., Repert. Spec. Nov. Regni Veg. 49: 80. 1940, *nom. nov.* for *Dichromena filiformis* C.B. Clarke in I. Urban, Symb. Antill. 2: 102. 1900, *nom. illeg.*; *Rhynchospora nervosa* (Vahl) Boeckeler var. *subfiliformis* (H. Pfeiff.) Kük., Bot. Jahrb. Syst. 75: 295. 1951. Type: Hispaniola. *Poiteau s.n.* (Holotype: G).  
*Scleria microdiscus* Steud., Syn. Pl. Glumac. 2: 175. 1855. Type: Puerto Rico. *Wydler s.n.* (Holotype: G).

Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. Thomas, Virgin Gorda), Lesser Antilles (Guadeloupe, Marie Galante, St. Kitts), and Central America (Belize).

References: 1, 2, 3, 5, 28, 30, 61, 117, 147.

*Rhynchospora blaueri* Britton = *Rhynchospora brachychaeta* C. Wright

*Rhynchospora borinquensis* Britton = *Rhynchospora marisculus* Lindl. & Nees

*Rhynchospora brachychaeta* C. Wright in F.A. Sauvalle, Anales Acad. Ci. Méd. Habana 8: 85. 1871. Type: Cuba. Pinar del Rio, C. Wright 3782 (Holotype: GH; Isotypes: NY, US).

*Rhynchospora blaueri* Britton, Bull. Torrey Bot. Club 50: 56. 1923. Type: Puerto Rico. Sierra de Luquillo, *Blauner* 247 (Holotype: NY).

Distribution: Native to Cuba, Hispaniola, Puerto Rico, Central America, and South America.

References: 3, 28, 61, 156, 254, 332, 350.

*Rhynchospora brevirostris* Griseb., Cat. Pl. Cub. 246. 1866. Lectotype: Cuba. C. Wright 3410 (P, sheet # P00264361); Isolectotypes: GH, P, here designated.

Distribution: Native to Cuba, Hispaniola, Trinidad, Mexico, Central America, and South America.

References: 30, 124, 147, 254, 301, 332.

Note: Specimens of C. Wright 3413 are a mixture of two different taxa, *R. brevirostris* and *R. cernua*. Grisebach cited this collection in the protologues of both of these taxa. Thus, a lectotype is designated herein for both taxa (see also *R. cernua*).

*Rhynchospora breviseta* (Gale) Channell = *Rhynchospora galeana* Naczi, W.M. Knapp, & Gerry Moore

*Rhynchospora brittonii* Gale, Rhodora 46: 241. 1944. Type: Cuba. Pinar del Rio, E.G. Britton 10023 (Holotype: NY; Isotype: US).

Distribution: Native to Cuba, Mexico, and South America.

References: 3, 147, 156.

*Rhynchospora bruneri* Britton = *Rhynchospora pusilla* Chapm. ex M.A. Curtis

*Rhynchospora bucherorum* León, Contr. Ocas. Mus. Hist. Nat. Colegio "De La Salle" 8: 226. 1946. Type: Cuba. Moa, *Victorin & Alain* 21455 (Holotype: HAC).

Distribution: Endemic to Cuba.

References: 3, 39, 320.

Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).

*Rhynchospora buchii* Urb. = *Rhynchospora mexicana* (Liebm.) Steud.

*Rhynchospora cacuminicola* Gale, Rhodora 46: 275. 1944. Type: Dominican Republic. Vicinity of Constanza, *Tuerckheim* 3417 (Holotype: NY).

Distribution: Endemic to Hispaniola.

References: 117, 156, 254.

*Rhynchospora careyana* Fernald, Rhodora 20: 140. 1918.

*Rhynchospora inundata* sensu C.D. Adams, Fl. Pl. Jamaica 136. 1972, non (Oakes) Fernald.

Distribution: Native to Cuba, Jamaica, and southeastern United States.

References: 2, 147.

*Rhynchospora cephalantha* A. Rich. = *Rhynchospora globosa* (Kunth) Roem. & Schult. var. *tenuifolia* León

*Rhynchospora cephalantha* A. Gray var. *microcephala* (Britton ex Small) Kük. = *Rhynchospora microcephala* Britton ex Small

*Rhynchospora cephalotes* (L.) Vahl, Enum. Pl. 2: 237. 1805, var.

*cephalotes*; *Scirpus cephalotes* L., Sp. Pl., ed. 2, 76. 1762.

Lectotype: West Indies. (LINN 71.56), designated by C.B. Clarke, J. Linn. Soc., Bot. 30: 314. 1894.

Distribution: Native to Cuba, Jamaica, Tobago, Trinidad, Mexico, Central America, and South America.

References: 2, 3, 147, 301, 332.

*Rhynchospora cephalotes* (L.) Vahl var. *comata* sensu Kük. = *Rhynchospora cephalotoides* Griseb.

*Rhynchospora cephalotes* (L.) Vahl var. *pseudocomata* Kük. = *Rhynchospora cephalotoides* Griseb.

*Rhynchospora cephalotoides* Griseb., Cat. Pl. Cub. 242. 1866. Type: Cuba. C. Wright 3390 (Holotype: GOET; Isotypes: G-2, GH, GOET, NY-2, US).

*Rhynchospora cephalotes* (L.) Vahl var. *pseudocomata* Kük., Bot. Jahrb. Syst. 75: 123. 1950; *Rhynchospora cephalotes* (L.) Vahl var. *comata* sensu Kük., Repert. Spec. Nov. Regni Veg. 23: 210. 1926, non *Rhynchospora comata* (Link) Roem. & Schult. Lectotype: Cuba. Oriente, Sierra de Nipe, *Ekman* 2047 (B, extant; Isolectotype: S), designated by T. Koyama, Mem. New York Bot. Gard. 23: 41. 1972.

Distribution: Endemic to Cuba.

Common Name: Cortadera (Cuba).

References: 3, 124, 132, 329.

*Rhynchospora cernua* Griseb., Cat. Pl. Cub. 248. 1866. Lectotype: Cuba. C. Wright 3365 (GOET; Isolectotype: GH), here designated.

Distribution: Endemic to Cuba.

References: 3, 124.

*Rhynchospora cernua* Griseb. var. *depressa* (Kük.) Kük. = *Rhynchospora depressa* (Kük.) Gale

*Rhynchospora chapmanii* M.A. Curtis var. *nuda* (Gale) Kük. = *Rhynchospora nuda* Gale

*Rhynchospora ciliata* (G. Mey.) Kük., Bot. Jahrb. Syst. 56 (Beibl. 125): 16. 1921; *Dichromena ciliata* Vahl, Enum. Pl. 2: 240. - Rhynchospora scabrata* Griseb., Cat. Pl. Cub. 243. 1866, var. *scabrata*.  
Type: Cuba. Pinal of Monte Libans, C. Wright 3391 (Holotype: GOET; Isotypes: GH, NY, US).  
*Rhynchospora randii* Britton, Mem. Soc. Cub. Hist. Nat. "Felipe Poey" 2: 198. 1916; *Rhynchospora pruinosa* Griseb. var. *randii* (Britton) Kük., Bot. Jahrb. Syst. 75: 162. 1950. Type: Cuba. Oriente, Sierra de Nipe, Woodfred, *Shafer* 3077 (Holotype: NY).  
Distribution: Endemic to Cuba.  
References: 3, 117, 124, 147, 149, 487.
- Rhynchospora scabrata* Griseb. var. *laevifolia* Gale, Rhodora 46: 222. 1944; *Rhynchospora pruinosa* Griseb. var. *laevifolia* (Gale) Kük., Bot. Jahrb. Syst. 75: 163. 1950. Type: Cuba. Oriente, Sierra de Nipe, along trail from Piedra Gorda to Woodfred, *Shafer* 3098 (Holotype: NY).  
Distribution: Endemic to Cuba.  
References: 3, 117, 149, 156.
- Rhynchospora schmidtii* Kük., Repert. Spec. Nov. Regni Veg. 23: 202. 1926. Syntypes: Cuba. Pinar del Rio, *Ekman* 11597 (B †; Isosyntypes: S, US), 17739 (B †; Isosyntype: NY, S); La Coloma, *Ekman* 17843 (B †; Isosyntype: S); Pinar del Rio-City, *Ekman* 17914 (B †; Isosyntype: S).  
Distribution: Endemic to Cuba.  
References: 3, 149, 329.
- Rhynchospora scirpoides* (Torr.) Griseb., Cat. Pl. Cub. 247. 1866; *Psilocarya scirpoides* Torr., Ann. Lyceum Nat. Hist. New York 3: 360. 1836. Type: United States. Rhode Island, New Providence Pond, *Green s.n.* (Holotype: NY).  
*Rhynchospora corymbifera* (C. Wright) Kük. var. *pseudeximia* Kük., Repert. Spec. Nov. Regni Veg. 23: 206. 1926. Type: Cuba. Isla de Pinos, *Ekman* 12433 (Holotype: B †; Isotype: S).  
*Rhynchospora ignorata* Boeckeler, Bot. Jahrb. Syst. 5: 508. 1884; *Scirpus corymbiferus* C. Wright in F.A. Sauvalle, Anales Acad. Ci. Méd. Habana 8: 80. 1871; *Psilocarya corymbifera* (C. Wright) Benth., Hooker's Icon. Pl. 15: 25. 1883; *Rhynchospora corymbifera* (C. Wright) Britton, Trans. New York Acad. Sci. 11: 86. 1892, *nom. illeg.*, non Nees, 1843; *Rhynchospora corymbifera* (C. Wright) Kük., Repert. Spec. Nov. Regni Veg. 23: 205. 1926, *nom. illeg.*, non Nees, 1843. Type: Cuba, Pinar del Rio, C. Wright 3774 (Holotype: GH; Isotypes: NY, US).  
Distribution: Native to Cuba and eastern United States.  
References: 3, 30, 117, 124, 147, 150, 350.
- Rhynchospora scutellata* Griseb., Cat. Pl. Cub. 246. 1866. Type: Cuba. C. Wright 3406 (Holotype: GOET; Isotypes: GH, MO, NY, US).  
Distribution: Native to Cuba, Mexico, and South America.  
References: 3, 124, 147.
- Rhynchospora seslerioides* Griseb., Cat. Pl. Cub. 247. 1866; *Dichromena seslerioides* (Griseb.) Benth. ex C.B. Clarke in I. Urban, Symb. Antill. 2: 100. 1900. Type: Cuba. Pinales, C. Wright 3415 (Holotype: GOET; Isotypes: G-2, GH, NY, US-2).  
Distribution: Endemic to Cuba.  
References: 3, 30, 124.
- Rhynchospora setacea* (P.J. Bergius) Boeckeler = *Rhynchospora tenerrima* Nees ex Spreng.
- Rhynchospora shaferi* Britton, Mem. Soc. Cub. Hist. Nat. "Felipe Poey" 2: 197. 1916. Type: Cuba. Loma Mensura, *Shafer* 3797 (Holotype: NY; Isotype: US).
- Rhynchospora lingulata* Kük., Repert. Spec. Nov. Regni Veg. 23: 211. 1926. Syntypes: Cuba. Oriente, Sierra de Nipe, *Ekman* 2172 (B †; Isosyntypes: NY, S, US); Rio Piedra, *Ekman* 10010, 19107 (B †; Isosyntype: S); *Ekman* 3084 (B †); Loma Mensura, *Ekman* 9113 (B †); Arroyo Machete, *Ekman* 15121 (B †).  
Distribution: Endemic to Cuba.  
References: 3, 147, 149, 487.
- Rhynchospora siguaneana* Britton, Mem. Soc. Cub. Hist. Nat. "Felipe Poey" 2: 191. 1916. Type: Cuba. Isla de Pinos, vicinity of Siguanéa, N.L. Britton & P. Wilson 14356 (Holotype: NY; Isotype: HAC).  
Distribution: Endemic to Cuba.  
References: 3, 39, 149, 320, 487.  
Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).
- Rhynchospora simplex* (Kük.) Kük., Bot. Jahrb. Syst. 74: 441. 1949; *Rhynchospora exaltata* Kunth var. *simplex* Kük., Repert. Spec. Nov. Regni Veg. 23: 201. 1926. Syntypes: Cuba. C. Wright 719 (B †; Isosyntype: NY); Pinal de Santa Anna, *Eggers* 5007 (B †); Oriente, Sierra de Cristal, *Ekman* 6866 (B †); Baracoa, *Ekman* 3604 (B †; Isosyntype: NY); Guantanamo, Monte Libanon, *Ekman* 10251 (B †).  
*Rhynchospora exaltata* Kunth var. *simplex* Kük. f. *angusta* Kük., Ark. Bot. 22A(17): 8. 1929; *Rhynchospora simplex* Kük. var. *β angusta* (Kük.) Kük., Bot. Jahrb. Syst. 74: 441. 1949. Type: Haiti. Massif de la Hotte, Jérémie, *Ekman* 10352 (Holotype: B †; Isotypes: NY, US).  
Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.  
References: 5, 329.
- Rhynchospora simplex* (Kük.) Kük. var. *angusta* Kük. = *Rhynchospora exaltata* Kunth
- Rhynchospora sola* Gale, Rhodora 46: 162. 1944. Type: Cuba. C. Wright 3397 (Holotype: GH, sheet labeled 'A')  
Distribution: Native to Cuba and Yucatan.  
References: 3, 149, 329.
- Rhynchospora sparsa* (Michx.) Vahl = *Rhynchospora miliacea* (Lam.) A. Gray

- EXCLUDED SPECIES
- Bulbostylis funkii* (Steud.) C.B. Clarke. Cited by World Checklist of Selected Plant Families (147) for Puerto Rico, but no specimen record is known from there and it has not otherwise been recorded from the West Indies.  
*Cyperus coriifolius* Boeckeler Cited provisionally by Kükenthal (327) for Puerto Rico and Martinique. However this is a Brazilian species and he questioned its occurrence in the West Indies. The specimens cited were not located by us in order to confirm their identity.  
*Cyperus aureolus* Steud. This taxon was described from Guadeloupe but we have seen no specimens. Not seen by Kükenthal (327).  
*Cyperus echinatus* (L.) Alph. Wood. Cited by Flora of North America (Vol. 23: 182) and World Checklist of Selected Plant Families (147) for the West Indies. However, no specimen or other literature records were found to confirm its occurrence there.  
*Cyperus fuscus* L. Cited by World Checklist of Selected Plant Families (147) for the Leeward Islands, but no specimen record is known from there and it has not otherwise been recorded from the West Indies.  
*Cyperus redolens* Maury ex Micheli. Cited by C.B. Clarke in Urban (30) for Martinique, but no specimen record was found from there. Not otherwise recorded from the West Indies.  
*Rhynchospora gracilescens* A. Gray. Cited by C.B. Clarke in Urban (30) and World Checklist of Selected Plant Families (147) for Cuba based on a C. *Wright* collection at K which is actually *R. leptorhyncha* C. *Wright*. Not otherwise recorded from the West Indies.

*Rhynchospora oligantha* A. Gray. Cited for Puerto Rico by Liogier & Martorell (6), but no specimen record was found to confirm its occurrence there or elsewhere in the West Indies.

*Schoenoplectus californicus* (C.A. Mey.) Soják. Cited by Flora of North America (Vol. 23: 50) for the West Indies. However, no specimen or other literature records were found to confirm its occurrence there.

*Scleria oligantha* Michx. Cited for Puerto Rico by Liogier & Martorell (6), but no specimen record was found to confirm its occurrence there or elsewhere in the West Indies.

*Scleria triglomerata* Michx. Records of this species in the West Indies are based on misidentifications of *Scleria havanensis* Britton. No specimen records were found to confirm its occurrence in the West Indies.

## CYRILLACEAE

**Genera.** Total: 1; native: 1; endemic: 0.

**Taxa.** Total: 11; native: 11; endemic: 10.

*Costaea cubensis* A. Rich. = *Purdiaea cubensis* (A. Rich.) Urb.  
(Clethraceae)

*Cyrilla antillana* Michx. = *Cyrilla racemiflora* L.

*Cyrilla coriacea* Berazaín, Willdenowia 39: 122. 2009.

Distribution: Endemic to Cuba.

Reference: 465.

*Cyrilla cubensis* P. Wilson, Mem. Torrey Bot. Club 16: 77. 1920.

Distribution: Endemic to Cuba.

References: 3, 156.

*Cyrilla cubensis* P. Wilson subsp. *nitidissima* (Urb.) Borhidi = *Cyrilla nitidissima* Urb.

*Cyrilla lutgardae* Berazaín, Willdenowia 39: 125. 2009.

Distribution: Endemic to Cuba.

Reference: 465.

*Cyrilla macrocarpa* Berazaín, Willdenowia 39: 128. 2009.

Distribution: Endemic to Cuba.

Reference: 465.

*Cyrilla megaphylla* Berazaín, Willdenowia 39: 131. 2009.

Distribution: Endemic to Cuba.

Reference: 465.

*Cyrilla microareolata* Berazaín, Willdenowia 39: 133. 2009, subsp.  
*microareolata*

Distribution: Endemic to Cuba.

Reference: 465.

*Cyrilla microareolata* Berazaín, subsp. *microphylla* Berazaín,

Willdenowia 39: 135. 2009.

Distribution: Endemic to Cuba.

Reference: 465.

*Cyrilla nipensis* Urb., Repert. Spec. Nov. Regni Veg. 22: 365. 1926;

*Cyrilla cubensis* P. Wilson subsp. *nipensis* (Urb.) Borhidi, Bot.

Közlem. 58: 176. 1971.

Distribution: Endemic to Cuba.

Reference: 3.

*Cyrilla nitidissima* Urb., Repert. Spec. Nov. Regni Veg. 22: 366. 1926;

*Cyrilla cubensis* P. Wilson subsp. *nitidissima* (Urb.) Borhidi, Bot.

Közlem. 58: 176. 1971.

Distribution: Endemic to Cuba.

Reference: 3.

*Cyrilla perrottetii* Briq. = *Cyrilla racemiflora* L.

*Cyrilla racemiflora* L., Syst. Nat., ed. 12, 50. 1767.

*Cyrilla antillana* Michx., Fl. Bor.-Amer. 1: 158. 1803.

*Cyrilla perrottetii* Briq., Annuaire Conserv. Jard. Bot. Genève 4: 232.  
1900.

*Itea cyrilla* Sw., Prodr. 50. 1788.

Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Lesser Antilles (Dominica, Guadeloupe, St. Vincent), Trinidad, southeastern United States, Central America, and South America.  
Common Names: Barril, Clavellina, Encino, Llorona, Palo de jutía, Yanilla (Cuba), Granadillo, Granado, Palo de toro, Palo colorado, Palo prieto, Sabina, Sabina macho (Dominican Republic), Beet wood (Jamaica), Bois couché, Olivier-montagne, Pigeonberry (Lesser Antilles), Colorado, Palo colorado (Puerto Rico).

References: 1, 2, 3, 5, 7, 58, 61, 75, 151, 152, 301, 340.

*Cyrilla silvae* Berazaín, Willdenowia 39: 137. 2009.

Distribution: Endemic to Cuba.

Reference: 465.

*Itea cyrilla* Sw. = *Cyrilla racemiflora* L.

## DICHAPETALACEAE

**Genera.** Total: 1; native: 1; endemic: 0.

**Taxa.** Total: 5; native: 5; endemic: 5.

*Chailletia cubensis* Poepp. = *Tapura cubensis* (Poepp.) Griseb. subsp.  
*cubensis*

*Dichapetalum cubense* (Poepp.) M. Gómez = *Tapura cubensis* (Poepp.)  
Griseb. subsp. *cubensis*

*Dichapetalum cubense* Engl. = *Tapura cubensis* (Poepp.) Griseb. subsp.  
*cubensis*

*Tapura antillana* Gleason = *Tapura latifolia* Benth.

*Tapura cubensis* (Poepp.) Griseb., Cat. Pl. Cub. 56. 1866, subsp.

*cubensis*; *Chailletia cubensis* Poepp. in E.F. Poeppig & S.L.

Endlicher, Nov. Gen. Sp. Pl. 3: 41. 1843; *Dichapetalum cubense*

(Poepp.) M. Gómez, Anales Soc. Esp. Hist. Nat. 19: 240. 1890;

*Dichapetalum cubense* Engl. in H.G.A. Engler & K.A.E. Prantl,

Nat. Pflanzenfam. 3(4): 349. 1897, *nom. illeg.*

*Tapura cubensis* (Poepp.) Griseb. var. *wrightiana* Baill. in C.F.P. von  
Martius, Fl. Bras. 12(1): 375. 1886.

*Tapura obovata* Britton & P. Wilson, Bull. Torrey Bot. Club 43: 465.

1916; *Tapura cubensis* (Poepp.) Griseb. subsp. *obovata* (Britton &

P. Wilson) Borhidi, Bot. Közlem. 62: 25. 1975.

Distribution: Endemic to Cuba.

Common Names: Aura, Lechuza, Vigueta de aura, Vigueta de lechuza,

Vigueta naranjo, Vigueta peluda (Cuba).

References: 3, 151, 152, 156.

*Tapura cubensis* (Poepp.) Griseb. subsp. *minor* Prance, Fl. Neotrop.

Monogr. 10: 63. 1972.

Distribution: Endemic to Cuba.

References: 149, 152.

*Tapura cubensis* (Poepp.) Griseb. subsp. *obovata* (Britton & P. Wilson)

Borhidi = *Tapura cubensis* (Poepp.) Griseb. subsp. *cubensis*

*Tapura cubensis* (Poepp.) Griseb. var. *wrightiana* Baill. = *Tapura*

*cubensis* (Poepp.) Griseb. subsp. *cubensis*

*Tapura haitiensis* Urb. & Ekman, Ark. Bot. 20A(15): 44. 1926.

Distribution: Endemic to Hispaniola (Haiti).

References: 5, 7.

*Tapura latifolia* Benth., Hooker's J. Bot. Kew Gard. Misc. 5: 291. 1853.

*Tapura antillana* Gleason, N. Amer. Fl. 25(4): 382. 1924.  
 Distribution: Endemic to Lesser Antilles (Dominica, Guadeloupe, Martinique, St. Lucia).  
 Common Names: Côtelette noir, Bois-côte, Rosillet, Bois-côte gebois, Bois-côte noir, Bois-côtelette noir (Lesser Antilles).  
 References: 1, 151, 156.  
*Tapura obovata* Britton & P. Wilson = *Tapura cubensis* (Poepp.) Griseb. subsp. *cubensis*  
*Tapura orbicularis* Ekman ex Urb., Repert. Spec. Nov. Regni Veg. 20: 305. 1924.  
 Distribution: Endemic to Cuba.  
 References: 3, 39, 156, 427.  
 Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39) and vulnerable by the IUCN Red List of Threatened Species.

## DILLENACEAE

**Genera.** Total: 6; native: 5; endemic: 0.  
**Taxa.** Total: 19; native: 18; endemic: 1.

*Curatella americana* L., Syst. Nat., ed. 10, 1079. 1759.  
*Curatella grisebachiana* Eichler, Fl. Bras. 13(1): 69. 1863.  
 Distribution: Native to Cuba, Hispaniola, Trinidad, Mexico, and Central America.  
 Common Names: Bababuey, Careicillo, Chaparro, Peralejo macho, Vacabuey (Cuba), Aperalejo, Curatela, Peralejo (Dominican Republic), Pomme torche (Haïti).  
 References: 3, 5, 7, 123, 132, 151, 301.  
*Curatella grisebachiana* Eichler = *Curatella americana* L.  
*Davilla ciliata* A. Rich. = *Davilla nitida* (Vahl) Kubitzki  
*Davilla multiflora* (DC.) A. St.-Hil. = *Davilla nitida* (Vahl) Kubitzki  
*Davilla nitida* (Vahl) Kubitzki, Mitt. Bot. Staatssamml. München 9: 95-99. 1971; *Tetracera nitida* Vahl, Symb. Bot. 3: 70. 1794.  
*Davilla ciliata* A. Rich. in R. de la Sagra, Hist. Phys. Cuba, Pl. Vasc. 19. 1845.  
*Davilla multiflora* (DC.) A. St.-Hil., Fl. Bras. Merid. 1: 13. 1824.  
*Davilla rugosa* sensu León & Alain, Fl. Cuba 3: 292. 1953, non Poir.  
*Davilla rugosa* sensu C.D. Adams, Fl. Pl. Jamaica 292. 1972.  
*Davilla sagraana* A. Rich. in R. de la Sagra, Hist. Phys. Cuba, Pl. Vasc. 17. 1845 [as *sagraana*].  
 Distribution: Native to Cuba, Jamaica, Mexico, Central America, and South America.  
 Common Names: Bejuco Carey, Bejuco de cerca Bejuco guará, Bejuco guárana, Carey bejuco (Cuba), Red withe (Jamaica).  
 References: 3, 151, 254, 352, 374.  
*Davilla rugosa* sensu León & Alain & sensu C.D. Adams = *Davilla nitida* (Vahl) Kubitzki

*Davilla sagraana* A. Rich. = *Davilla nitida* (Vahl) Kubitzki  
*Dillenia indica* L., Sp. Pl. 535. 1753.  
 Distribution: Cultivated in Cuba, Hispaniola, Puerto Rico, and Virgin Islands (St. John); native to Asia.  
 Common Names: Coco africano (Cuba), Coca (Dominican Republic), Dilenia, India dillenia (Puerto Rico).  
 References: 3, 7, 58, 61, 123, 131, 132, 159, 224.  
 Note: Considered an invasive species by CeNBIO.

*Doliocarpus brevipedicellatus* Garcke, Linnaea 22: 47. 1849.  
*Doliocarpus major* sensu authors, non J.F. Gmel., Ann. Missouri Bot. Gard. 52: 589. 1966.

Distribution: Native to Hispaniola, Puerto Rico, Trinidad, and South America.  
 References: 7, 32, 58, 61, 151, 301, 374.  
*Doliocarpus calineoides* (Eichler) Gilg. = *Pinzona coriacea* Mart. & Zucc.  
*Doliocarpus coriaceus* (Mart. & Zucc.) Gilg. = *Pinzona coriacea* Mart. & Zucc.  
*Doliocarpus dentatus* (Aubl.) Standl., J. Wash. Acad. Sci. 15: 286. 1925; *Tigareea dentata* Aubl., Hist. Pl. Guiane 2: 920. 1775.  
*Doliocarpus rolandri* J.F. Gmel., Syst. Nat. 2(1): 805. 1791.  
 Distribution: Native to Cuba, Tobago, Trinidad, Mexico, Central America, and South America.  
 References: 3, 151, 301.  
*Doliocarpus herrerae* J. Pérez, Fontqueria 40: 43. 1994.  
 Distribution: Endemic to Cuba.  
 References: 149, 152.

*Doliocarpus major* sensu authors, non J.F. Gmel. = *Doliocarpus brevipedicellatus* Garcke  
*Doliocarpus multiflorus* Standl., J. Wash. Acad. Sci. 15: 285. 1925.  
 Distribution: Native to Cuba and Central America.  
 References: 3, 374.  
*Doliocarpus olivaceus* sensu Liogier = *Pinzona coriacea* Mart. & Zucc.  
*Doliocarpus rolandri* J.F. Gmel. = *Doliocarpus dentatus* (Aubl.) Standl.  
*Pinzona calineoides* Eichler = *Pinzona coriacea* Mart. & Zucc.  
*Pinzona coriacea* Mart. & Zucc., Abh. Math.-Phys. Cl. Königl. Bayer. Akad. Wiss. 1: 371. 1832; *Doliocarpus coriaceus* (Mart. & Zucc.) Gilg., Nat. Pflanzenfam. 3(6): 114. 1893.  
*Pinzona calineoides* Eichler in C.F.P. von Martius, Fl. Bras. 13(1): 71. 1863; *Doliocarpus calineoides* (Eichler) Gilg. in H.G.A. Engler & K.A.E. Prantl, Nat. Pflanzenfam. 3(6): 114. 1893.  
*Doliocarpus olivaceus* sensu Liogier, Desc. Fl. Puerto Rico 3: 207. 1994, non Sprague & R.O. Williams.  
 Distribution: Native to Hispaniola, Puerto Rico, Lesser Antilles (Dominica, Guadeloupe, St. Lucia), Trinidad, Central America, and South America.  
 Common Names: Corde de l'eau, Liane à eau (Lesser Antilles).  
 References: 1, 7, 32, 58, 61, 151, 301.  
*Tetracera jamaicensis* DC. = *Tetracera volubilis* L.  
*Tetracera volubilis* L., Sp. Pl. 533. 1753.  
*Tetracera jamaicensis* DC., Syst. Nat. 1: 399. 1817 ["1818"].  
 Distribution: Native to Cuba, Jamaica, Mexico, Central America, and South America.  
 Common Names: Bejuco Carey, Bejuco de hojas de Carey, Bejuco guará, Bejuco raspa, Carey bejuco, Cogote de toro (Cuba), Briar withe (Jamaica).  
 References: 2, 3, 132, 151.

## DIOSCOREACEAE

**Genera.** Total: 2; native: 2; endemic: 0.  
**Taxa.** Total: 35; native: 26; endemic: 23.

*Dioscorea alata* L., Sp. Pl. 1033. 1753.  
*Rajania flexuosa* Bello, Anales Soc. Esp. Hist. Nat. 12: 124. 1883.  
 Distribution: Exotic in Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. John), Lesser Antilles (Antigua, Barbuda, Dominica, Grenada, Guadeloupe, Marie Galante, Martinique, Montserrat, Saba, St. Barthélemy, St. Eustatius, St. Kitts, St. Lucia), Margarita, United States (FL, GA, LA), Central America, and South America; native to tropical and subtropical Asia.

Common Names: Ñame, Ñame amarillo, Ñame blanco, Ñame bobo, Ñame bombo, Ñame cola de pato, Ñame de Guinea, Ñame morado, Ñame negro, Ñame pelado (Cuba), Ñame, Ñame amarillo, Ñame blanco, Ñame del monte jujador, Ñame de monte pujador, Yam blanco, Yame blanco, Yame de gallina (Dominican Republic), Igame bombarde, Igame caracol, Igame française, Yam, Yame (Haiti), Greater yam, Water Yam (Jamaica), Ñame de agua, Ñame de mina (Puerto Rico), Native yam, Water yam, White yam (Virgin Islands).

References: 1, 2, 3, 5, 19, 28, 30, 32, 45, 61, 123, 131, 132, 147, 152, 159, 323, 340, 383.

*Dioscorea alata* sensu Bello = *Dioscorea polygonoides* Humb. & Bonpl. ex Willd.

*Dioscorea altissima* Lam. = *Dioscorea cayennensis* Lam. subsp. *cayennensis*

*Dioscorea altissima* sensu authors non Lam. = *Dioscorea chondrocarpa* Griseb.

*Dioscorea bulbifera* L., Sp. Pl. 1033. 1753.

*Dioscorea latifolia* Benth. in W.J. Hooker, Niger Fl. 535. 1849.

Distribution: Exotic in Bahamas, Cuba, Hispaniola, Jamaica, Puerto Rico, Lesser Antilles (Antigua, Guadeloupe, Martinique, St. Kitts, St. Vincent), Central America, and South America; native to Africa, Asia, and Malesia.

Common Names: Potato yam (Bahamas), Ñame, Ñame cimarrón, Ñame de cimarrón, Ñame de monte (Cuba), Bondá, Bondanza, Bonday, Masoco, Massoco, Monday (Dominican Republic), Bonay, Igame massokor, Massokop (Haiti), Potato yam (Jamaica).

References: 1, 2, 3, 5, 28, 32, 45, 61, 123, 131, 132, 147, 150, 340.

*Dioscorea bulbifera* sensu Griseb. = *Dioscorea pilosiuscula* Bertero ex Spreng.

*Dioscorea cayennensis* Lam., Encycl. 3: 233. 1789, subsp. *cayennensis*

*Dioscorea altissima* Lam., Encycl. 3: 231. 1789.

*Dioscorea occidentalis* R. Knuth in H.G.A. Engler, Pflanzenr. IV, 43 (Heft 87): 299. 1924.

Distribution: Exotic in Cuba, Hispaniola, Jamaica, Puerto Rico, Lesser Antilles (Dominica, Grenada, Guadeloupe, St. Lucia, St. Vincent), Central America, and South America; native to Africa.

Common Names: Ñame, Ñame amarillo, Ñame de Guinea (Cuba), Yellow yam (Jamaica), grosse tête, Igame carême, Igame jaune, Yam jeune la fièvre (Lesser Antilles), Ñame tongo, Tongo yam (Puerto Rico).

References: 1, 2, 3, 5, 28, 32, 61, 131, 132, 147, 340.

*Dioscorea cayennensis* Lam. subsp. *rotundata* (Poir.) J. Miège in J. Hutchinson & J.M. Dalziel, Fl. W. Trop. Afr., ed. 2, 3(1): 153. 1968; *Dioscorea rotundata* Poir. in J.B.A.P.M. de Lamarck, Encycl. Suppl. 3: 139. 1813.

Distribution: Cultivated in Jamaica and Puerto Rico; native to west tropical Africa.

References: 2, 28, 32, 61, 147.

*Dioscorea chondrocarpa* Griseb. in C.F.P. von Martius, Fl. Bras. 3(1): 34. 1842.

*Dioscorea altissima* sensu authors non Lam.

Distribution: Native to Cuba, Hispaniola, Puerto Rico, Lesser Antilles (Guadeloupe, Martinique, St. Kitts, St. Lucia, St. Martin, St. Vincent), and South America.

Common Names: Ñame muerto (Dominican Republic), Igame chat (Haiti), Igame grand bois, Igame marron (Lesser Antilles), Dungey (Puerto Rico).

References: 1, 3, 5, 28, 32, 61, 147.

*Dioscorea cubensis* R. Knuth, Notizbl. Bot. Gart. Berlin-Dahlem 7: 209. 1917.

Distribution: Endemic to Cuba.

References: 3, 147.

*Dioscorea cyclophylla* Urb. = *Rajania cordata* L. var. *cordata*

*Dioscorea duchassaingii* R. Knuth in H.G.A. Engler, Pflanzenr. IV, 43 (Heft 87): 67. 1924.

Distribution: Endemic to Lesser Antilles (Guadeloupe, Martinique, St. Vincent).

References: 1, 147.

*Dioscorea dumetorum* (Kunth) Pax in H.G.A. Engler & K.A.E. Prantl, Nat. Pflanzenfam. 2(5): 134. 1888.

Distribution: Exotic in Jamaica; native to Africa.

Common Names: Bitter yam, Cluster yam (Jamaica).

References: 2, 147.

*Dioscorea ekmanii* R. Knuth = *Rajania psilostachya* (Kunth) Uline ex R. Knuth

*Dioscorea esculenta* (Lour.) Burkill, Gard. Bull. Straits Settlement. 1: 396. 1917.

Distribution: Exotic in Cuba, Puerto Rico, and Lesser Antilles (Guadeloupe, Martinique); native to tropical Asia.

Common Names: Bondá, Ñame boniato, Ñame papa (Cuba).

References: 1, 28, 32, 61, 132, 147.

*Dioscorea grisebachii* León = *Dioscorea nipensis* R.A. Howard

*Dioscorea haitiensis* R. Knuth = *Rajania ovata* Sw.

*Dioscorea herradurensis* (R. Knuth) P. Wilson ex León & Alain = *Dioscorea wrightii* Uline ex R. Knuth

*Dioscorea kegeliana* Griseb. = *Dioscorea polygonoides* Humb. & Bonpl. ex Willd.

*Dioscorea latifolia* Benth. = *Dioscorea bulbifera* L.

*Dioscorea linearis* Griseb. = *Dioscorea nipensis* R.A. Howard

*Dioscorea lutea* sensu Griseb. = *Dioscorea villosa* L.

*Dioscorea montecristina* Hadač = *Dioscorea nipensis* R.A. Howard

*Dioscorea multiflora* C. Presl = *Dioscorea polygonoides* Humb. & Bonpl. ex Willd.

*Dioscorea nipensis* R.A. Howard, J. Arnold Arbor. 28: 119. 1947.

*Dioscorea grisebachii* León, Contr. Ocas. Mus. Hist. Nat. Colegio "De La Salle" 8: 321. 1946, *nom. illeg.*

*Dioscorea linearis* Griseb., Cat. Pl. Cub. 251. 1866, *nom. illeg.*

*Dioscorea montecristina* Hadač, Folia Geobot. Phytotax. 5: 430. 1970.

*Rajania linearis* R.A. Howard, J. Arnold Arbor. 28: 118. 1947.

Distribution: Endemic to Cuba.

References: 3, 147.

*Dioscorea occidentalis* R. Knuth = *Dioscorea cayennensis* Lam.

*Dioscorea pentaphylla* L., Sp. Pl. 1032. 1753.

*Dioscorea triphylla* L., Sp. Pl., ed. 2, 1032. 1763.

Distribution: Exotic in Cuba; native to Asia, Malesia, and Australia.

References: 3, 147.

*Dioscorea pilosiuscula* Bertero ex Spreng., Syst. Veg., ed. 16, 2: 152. 1825.

*Dioscorea bulbifera* sensu Griseb., Fl. Brit. W. I. 587. 1864, non L.

Distribution: Native to Hispaniola, Jamaica, Puerto Rico, Virgin Islands (St. John, St. Thomas, Tortola), Lesser Antilles (Antigua, Barbados, Dominica, Grenada, Guadeloupe, Martinique, St. Vincent), Mexico, Central America, and South America.

Common Names: Alambrillo, Ñame peludo, Ñame volador, Papas al aire, Voladores (Cuba), Maguey, Maguey cimarrón, Mapuey cimarrón, Ñame cimarrón, Yamey cimarrón (Dominican

- Republic), Igname b tard, Igname coc-bourrique, Igname porte-en-l'air (Lesser Antilles), Dungeny (Puerto Rico).  
References: 1, 2, 5, 19, 30, 32, 61, 123, 132, 147.
- Dioscorea polygonoides* Humb. & Bonpl. ex Willd., Sp. Pl. 4: 795. 1806.
- Dioscorea alata* sensu Bello, Anales Soc. Esp. Hist. Nat. 12: 123. 1883, non L.
- Dioscorea kegeliana* Griseb., Linnaea 21: 279. 1848.
- Dioscorea multiflora* C. Presl, Abh. K nigl. B hm. Ges. Wiss., ser. 5, 3: 546. 1845.
- Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Lesser Antilles (Antigua, Dominica, Grenada, Guadeloupe, Martinique, Montserrat, St. Lucia, St. Vincent), Margarita, Mexico, Central America, and South America.
- Common Names:  nambriz,  name matagallina (Dominican Republic), Yam chat (Haiti), Bitter jessie, Wild Yam (Jamaica), Igname-bois, Igname sauvage, Yam pule, Yami marron (Lesser Antilles), Gunda, Hicamo, Matagallina (Puerto Rico).

## DIPSACACEAE

Genera. Total: 1; native: 0; endemic: 0.

Taxa. Total: 1; native: 0; endemic: 0.

*Scabiosa japonica* Miq., Ann. Mus. Bot. Lugduno-Batavi 3: 114. 1867.

Distribution: Cultivated in Hispaniola.

Reference: 7.

## DROSERACEAE

Genera. Total: 2; native: 1; endemic: 0.

Taxa. Total: 5; native: 4; endemic: 1.

*Dionaëa muscipula* J. Ellis, St. James Chron. Brit. Eve. Post 1172: [4]. 1768.

Distribution: Exotic in Jamaica; native to United States (NC).

Reference: 2.

*Drosera brevifolia* Pursh, Fl. Amer. Sept. 1: 211. 1813 ["1814"].

Distribution: Native to Cuba, United States, Mexico, and South America.

References: 3, 151, 173.

*Drosera capillaris* Poir. in J.B.A.P.M. de Lamarck, Encycl. 6: 299. 1804.

*Drosera tenella* Willd. ex Schult., Syst. Veg. 6: 763. 1820.

*Drosera communis* A. St.-Hil. var. *breviscapa* C. Wright ex Griseb., Cat. Pl. Cub. 12. 1866.

*Drosera rotundifolia* sensu León & Alain, Fl. Cuba 2: 210. 1951, non L.

Distribution: Native to Cuba, Hispaniola, Jamaica, Puerto Rico, Trinidad, United States, Mexico, and Central America.

Common Name: Sundew (Jamaica).

References: 2, 3, 6, 7, 58, 124, 173, 301.

*Drosera communis* A. St.-Hil. var. *breviscapa* C. Wright ex Griseb. = *Drosera capillaris* Poir.

*Drosera intermedia* Hayne, J. Bot. (Schrader) 1: 37. 1801.

Distribution: Native to Cuba, Hispaniola, North America, and South America.

References: 3, 7, 151, 156, 173.

*Drosera moaensis* Panfet, Revista Jard. Bot. Nac. Univ. Habana 12: 27. 1993 ["1991"].

Distribution: Endemic to Cuba.

References: 39, 173.

Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).

*Drosera rotundifolia* sensu León & Alain = *Drosera capillaris* Poir.

*Drosera tenella* Willd. ex Schult. = *Drosera capillaris* Poir.

## EBENACEAE

Genera. Total: 1; native: 1; endemic: 0.

Taxa. Total: 18; native: 17; endemic: 13.

*Cavanillea philippensis* Desr. = *Diospyros blancoi* A. DC.

*Diospyros acunae* Bisse, Mem. Fac. Ci. Univ. Habana 1(6): Ser. Ci. Biol. 2: 2. 1968.

Distribution: Endemic to Cuba.

Reference: 149.

*Diospyros anisandra* S.F. Blake, Proc. Biol. Soc. Wash. 34: 44. 1921.

Distribution: Native to Cuba and Yucatan, Mexico.

References: 3, 77.

*Diospyros blancoi* A.D.C., Prodr. 8: 237. 1844.

*Diospyros discolor* Willd., Sp. Pl. 4: 1108. 1806.

*Diospyros philippensis* (Desr.) Gürke in H.G.A. Engler & K.A.E. Prantl, Nat. Pflanzenfam. 4(1): 164. 1891; *Cavanillea philippensis* Desr. in J.B.A.P.M. de Lamarck, Encycl. 3: 663. 1792.

Distribution: Cultivated in Cuba and Puerto Rico; native to Asia and Malesia.

Common Name: Mabolo (Cuba, Puerto Rico).

References: 3, 30, 61, 151, 159, 224, 376.

Note: Considered an invasive species by CeNBIO.

*Diospyros caribaea* (A. DC.) Standl., Publ. Carnegie Inst. Wash. 461(4): 80. 1935; *Macreightia caribaea* A. DC., Prodr. 8: 221. 1844; *Ebenus caribaea* (A. DC.) Kuntze, Revis. Gen. Pl. 2: 408. 1891; *Maba caribaea* (A. DC.) Hiern, Trans. Cambridge Philos. Soc. 12: 125. 1873.

Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.

Common Name: Bois raide (Haiti).

References: 3, 5, 7, 151.

*Diospyros crassinervis* (Krug & Urb.) Standl., Publ. Carnegie Inst.

Wash. 461(4): 80. 1935, subsp. *crassinervis*; *Maba caribaea* (A. DC.) Hiern var. *crassinervis* Krug & Urb. in I. Urban, Bot.

Jahrb. Syst. 15: 327. 1892; *Maba crassinervis* (Krug & Urb.) Urb., Symb. Antill. 7: 329. 1912.

Distribution: Endemic to the West Indies; native to Bahamas, Cuba, and Hispaniola.

Common Names: Boa-wood, Feather-bed (Bahamas).

References: 3, 30, 45, 151, 159, 254.

*Diospyros crassinervis* (Krug & Urb.) Standl. subsp. *kubal* B. Walln., Ann. Naturhist. Mus. Wien 108B: 222. 2007.

Distribution: Endemic to Cuba.

References: 149, 152.

*Diospyros crassinervis* (Krug & Urb.) Standl. subsp. *urbaniana* (Leonard) Alain, Phytologia 63: 65. 1987; *Maba urbaniana* Leonard, J. Wash. Acad. Sci. 14: 414. 1924.

Distribution: Endemic to Hispaniola.

References: 7, 149.

*Diospyros discolor* Willd. = *Diospyros blancoi* A. DC.

*Diospyros domingensis* (Urb.) Alain, Brittonia 20: 154. 1968; *Maba domingensis* Urb., Symb. Antill. 7: 328. 1912.

*Diospyros leonardii* (Urb. & Ekman) Alain, Brittonia 20: 154. 1968; *Maba leonardii* Urb. & Ekman, Ark. Bot. 23A(5): 100. 1930.

Distribution: Endemic to Hispaniola.

References: 5, 7, 30, 149, 152.

*Diospyros ebenaster* Retz., Observ. Bot. 5: 31. 1789.

*Diospyros laurifolia* A. Rich. in R. de la Sagra, Hist. Fis. Cuba, Bot. 11: 86. 1850.

Distribution: Cultivated in Cuba; native India and Indonesia.

*Diospyros ebenaster* sensu Britton & P. Wilson = *Diospyros revoluta* Poir.

*Diospyros grisebachii* (Hiern) Standl., Publ. Carnegie Inst. Wash. 461(4): 80. 1935; *Maba grisebachii* Hiern, Trans. Cambridge Philos. Soc. 12: 125. 1873.

*Macreightia buxifolia* Griseb., Cat. Pl. Cub. 169. 1866, non *Diospyros buxifolia* Hiern, 1873.

Distribution: Endemic to Cuba.

Common Name: Ébano negro (Cuba).

References: 3, 124, 151.

*Diospyros halesioides* Griseb., Cat. Pl. Cub. 168. 1866.

Distribution: Endemic to Cuba.

Common Names: Ébano blanco, Guazumilla, Güirilla (Cuba).

Reference: 3.

*Diospyros inconstans* Jacq., Enum. Syst. Pl. 34. 1760; *Maba inconstans* (Jacq.) Griseb., Fl. Brit. W. I. 404. 1861.

Distribution: Native to Lesser Antilles (Grenadines), Margarita, Tobago, Trinidad, and South America.

References: 1, 36, 151, 301, 323.

*Diospyros laurifolia* A. Rich. = *Diospyros ebenaster* Retz.

*Diospyros leonis* (Britton & P. Wilson) Standley, Publ. Carnegie Inst. Wash. 461: 80. 1935; *Maba leonis* Britton & P. Wilson, Bull. Torrey Bot. Club 53: 462. 1926.

Distribution: Endemic to Cuba.

References: 3, 134, 149, 152.

*Diospyros oxycarpa* (Urb.) Alain, Brittonia 20: 154. 1968; *Maba oxycarpa* Urb., Ark. Bot. 23A(5): 101. 1930.

Distribution: Endemic to Hispaniola (Haiti).

References: 7, 149, 152.

*Diospyros philippensis* (Desr.) Gürke = *Diospyros blancoi* A. DC.

*Diospyros relit* B. Walln., Ann. Naturhist. Mus. Wien, B 106: 246. 2005.

Distribution: Endemic to Jamaica.

Reference: 152.

*Diospyros revoluta* Poir. in J.B.A.P.M. de Lamarck, Encycl. 5: 435. 1804.  
*Diospyros ebenaster* sensu Britton & P. Wilson, Sci. Surv. Porto Rico & Virgin Islands 6: 74. 1925, non Retz.

Distribution: Endemic to West Indies; native to Hispaniola, Puerto Rico, and Lesser Antilles (Dominica, Guadeloupe, Marie Galante, Montserrat, St. Lucia).

Common Names: Ebano (Dominican Republic), Barabacoa, Barbara, Black apple, Bois-nigresse (Lesser Antilles), Guayabota, Zapote negro (Puerto Rico).

References: 1, 7, 30, 58, 61, 351.

*Diospyros sintenisii* (Krug & Urb.) Standl., Publ. Carnegie Inst. Wash. 461(4): 80. 1935; *Maba sintenisii* Krug & Urb. in I. Urban, Bot. Jahrb. Syst. 15: 327. 1893.

Distribution: Endemic to Puerto Rico.

Common Names: Guayabota, Guayabota nispero, Tabeiba (Puerto Rico).

References: 58, 61, 149, 152.

*Diospyros tetrasperma* Sw., Prodr. 62. 1788.

*Diospyros tetrasperma* Sw. var. *pisocarpa* Urb., Symb. Antill. 2: 455. 1901.

Distribution: Native to Cuba, Hispaniola, Jamaica, Mexico, and Central America.

Common Names: Ébano carbonero, Ébano real (Cuba), Ebano (Dominican Republic), Bois raide (Haiti), Clamberry (Jamaica).

References: 2, 3, 5, 7, 30, 123, 131, 151.

*Diospyros tetrasperma* Sw. var. *pisocarpa* Urb. = *Diospyros tetrasperma* Sw.

*Ebenus caribaea* (A. DC.) Kuntze = *Diospyros caribaea* (A. DC.) Standl.

*Macreightia caribaea* A. DC. = *Diospyros caribaea* (A. DC.) Standl.

## ELAEOCARPACEAE

**Genera.** Total: 1; native: 1; endemic: 0.

**Taxa.** Total: 19; native: 19; endemic: 8.

*Sloanea amygdalina* Griseb., Pl. Wright. 1: 165. 1860.

*Sloanea domingensis* Urb., Repert. Spec. Nov. Regni Veg. 16: 140. 1919.

Distribution: Endemic to Greater Antilles; native to Cuba, Hispaniola, and Puerto Rico.

Common Names: Berijúa, Cocuyo, Cogote de toro, Cresta de gallo, Juba blanca, Pito (Cuba), Chicharrón (Dominican Republic), Acomat, Bois coq, Chapeau carré, Comat (Haiti).

References: 3, 5, 7, 39, 58.

Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).

*Sloanea berteriana* Choisy ex DC., Prodr. 1: 516. 1824.

Distribution: Endemic to West Indies; native to Hispaniola, Puerto Rico, and Lesser Antilles (Dominica, Guadeloupe, Martinique, Montserrat, Nevis, St. Kitts).

Common Names: Cacaíllo, Cacao cimarrón (Dominican Republic), Bullwood, Châtaignier petit coco, Cocoyer, Petit coco (Lesser Antilles), Cacaíllo, Cacao roseta, Cacao motillo, Cacaotillo, Motillo, Roseta (Puerto Rico).

References: 1, 5, 7, 58, 61, 75, 123, 131, 340.

*Sloanea caribaea* Krug & Urb. ex Duss., Fl. Phan. Antill. Franc. 90. 1897.

Distribution: Native to Lesser Antilles (Dominica, Grenada, Guadeloupe, Martinique, St. Lucia, St. Vincent) and South America.

Common Names: Acomat-boucan, Châtaignier, Châtaignier petite feuille, Châtaignier 'ti fay (Lesser Antilles).

Reference: 1.

*Sloanea castor* Urb. & Ekman = *Sloanea ilicifolia* Urb.

*Sloanea curatellifolia* Griseb., Pl. Wright. 1: 164. 1860.

*Sloanea longiseta* C. Wright ex Griseb., Cat. Pl. Cub. 30. 1866.

Distribution: Endemic to Cuba.

Common Names: Achiotte, Achotillo, Chicharrón, Cresta de gallo, Cocuyo, Guayo, Pito (Cuba).

References: 3, 132, 178.

*Sloanea dentata* L., Sp. Pl. 512. 1753.

Distribution: Endemic to Lesser Antilles (Dominica, Guadeloupe, Martinique, Montserrat, St. Kitts, St. Lucia).

Common Names: Balai velu, Burrwood, Châtaignier grandes feuilles, Petit balai, Petit balai velu (Lesser Antilles).

Reference: 1.

*Sloanea domingensis* Urb. = *Sloanea amygdalina* Griseb.

*Sloanea dussii* Urb., Symb. Antill. 1: 361. 1899.

Distribution: Endemic to Lesser Antilles (Martinique).

Common Names: Petiti coco, Châtaignier coco, Châtaignier petit coco (Lesser Antilles).

References: 1, 30.

*Sloanea ilicifolia* Urb., Repert. Spec. Nov. Regni Veg. 18: 365. 1922.

*Sloanea castor* Urb. & Ekman, Ark. Bot. 22A(17): 26. 1929.

Distribution: Endemic to Greater Antilles; native to Hispaniola and Puerto Rico.

Common Names: Castor, Chicharrón (Dominican Republic), Chapeau cané, Chapeau carré, Chapeau chinois (Haiti).

References: 5, 7, 123, 254.

*Sloanea jamaicensis* Hook., Hooker's Icon. Pl. 7: t. 693-696. 1844.

Distribution: Endemic to Jamaica.

Common Names: Break-axe tree, Lignum durum (Jamaica).

Reference: 2.

*Sloanea longiseta* C. Wright ex Griseb. = *Sloanea curatellifolia* Griseb.

*Sloanea massoni* Sw., Prodr. 82. 1788.

*Sloanea truncata* Urb., Notizbl. Bot. Gart. Berlin-Dahlem 8: 26. 1921.

Distribution: Endemic to Lesser Antilles (Dominica, Grenada, Guadeloupe, Martinique, Montserrat, Saba, St. Kitts, St. Vincent).

Common Names: Bullet tree, Burrwood, Châtaignier, Châtaignier grande feuille, Châtaignier petite feuille, Chatonier, Ironwood, Petit coco, Red santinee (Lesser Antilles).

Reference: 1.

*Sloanea truncata* Urb. = *Sloanea massoni* Sw.

## ELATINACEAE

**Genera.** Total: 2; native: 2; endemic: 0.

**Taxa.** Total: 2; native: 2; endemic: 1.

*Bergia capensis* L., Mant. Pl. 1: 241. 1767.

*Bergia sessiliflora* Griseb., Cat. Pl. Cub. 40. 1866.

Distribution: Native to Cuba, Hispaniola, South America, and Africa.  
References: 3, 5, 7.

*Bergia sessiliflora* Griseb. = *Bergia capensis* L.

*Elatine triandra* Schkuhr var. *baitiensis* Monach., Phytologia 5: 231. 1955.

Type Haiti. *Holdridge* 1875 (Holotype: US; Isotypes: MO, NY).

Distribution: Endemic in Hispaniola (Haiti).

Reference: 7.

## ERICACEAE

Genera. Total: 12; native: 12; endemic: 0.

Taxa. Total: 55; native: 53; endemic: 50.

*Andromeda cubensis* Griseb. = *Pieris cubensis* (Griseb.) Small

*Andromeda fasciculata* Sw. = *Lyonia jamaicensis* (Sw.) D. Don

*Andromeda glandulosa* (A. Rich.) C. Wright = *Lyonia glandulosa*  
(A. Rich.) Griseb. var. *glandulosa*

*Andromeda glandulosa* (A. Rich.) C. Wright var. *ovalifolia* (Griseb.)  
M. Gómez = *Lyonia myrtilloides* Griseb.

*Andromeda jamaicensis* Sw. = *Lyonia jamaicensis* (Sw.) D. Don

*Andromeda jamaicensis* Sw. var. *myrsinifolia* (A. Rich.) M. Gómez =  
*Lyonia affinis* (A. Rich.) Urb.

*Andromeda lacustris* C. Wright = *Lyonia lucida* (Lam.) K. Koch

*Andromeda latifolia* (A. Rich.) C. Wright = *Lyonia latifolia* (A. Rich.)  
Griseb. var. *latifolia*

*Andromeda lucida* Lam. = *Lyonia lucida* (Lam.) K. Koch

*Andromeda obtusa* (Griseb.) C. Wright = *Lyonia obtusa* Griseb.

*Andromeda octandra* Sw. = *Lyonia octandra* (Sw.) Griseb.

*Andromeda rubiginosa* Pers. = *Lyonia rubiginosa* (Pers.) G. Don

*Bejaria cubensis* Griseb., Cat. Pl. Cub. 52. 1866.

Distribution: Endemic to Cuba.

References: 3, 101, 206.

*Brossaea anastomosans* (L.) Griseb. = *Gaultheria domingensis* Urb.

*Cassandra jamaicensis* (Sw.) Nied. = *Lyonia jamaicensis* (Sw.) D. Don

*Ceratostema portoricensis* (Urb.) Hoerold = *Gonocalyx portoricensis*  
(Urb.) A.C. Sm.

*Chimaphila domingensis* S.F. Blake = *Chimaphila umbellata* (L.) W.P.C.  
Barton subsp. *domingensis* (S.F. Blake) Dorr

*Chimaphila umbellata* (L.) W.P.C. Barton subsp. *domingensis* (S.F.  
Blake) Dorr, Sida 11: 370. 1986; *Chimaphila domingensis* S.F.  
Blake, J. Bot. 52: 169. 1914.

Distribution: Endemic to Hispaniola.

References: 7, 101, 151.

*Desmothammus lucidus* (Lam.) Small = *Lyonia lucida* (Lam.) K. Koch

*Gaultheria domingensis* Urb., Symb. Antill. 3: 329. 1902.

*Brossaea anastomosans* (L.) Griseb., Fl. Brit. W. I. 142. 1859, *nom. illeg.*  
Distribution: Endemic to West Indies; native to Hispaniola and Lesser  
Antilles (Dominica, Guadeloupe, Martinique); reported for  
Trinidad by Grisebach (36).

Common Names: Niquivá (Dominican Republic), Myrtille des hauts,  
Myrtille (Lesser Antilles).

References: 1, 5, 7, 36, 101, 286.

*Gonocalyx concolor* Nevl., J. Arnold Arbor. 51: 222. 1970.

Distribution: Endemic to Puerto Rico.

References: 32, 58, 149.

*Gonocalyx portoricensis* (Urb.) A.C. Sm., Contr. U.S. Natl. Herb. 28:  
354. 1932; *Thibaudia portoricensis* Urb., Symb. Antill. 1: 376.  
1899; *Ceratostema portoricensis* (Urb.) Hoerold, Bot. Jahrb. Syst.  
42: 276. 1909.

Distribution: Endemic to Puerto Rico.

References: 30, 32, 58, 61, 149, 152.

*Gonocalyx smilacifolius* (Griseb.) A.C. Sm., Contr. U.S. Natl. Herb.  
28: 354. 1932; *Vaccinium smilacifolius* Griseb., Fl. Brit. W. I. 144.  
1859.

Distribution: Endemic to Lesser Antilles (Dominica, Guadeloupe).

References: 1, 36.

*Gonocalyx tetrapterus* Alain, Mem. New York Bot. Gard. 21: 140.  
1971.

Distribution: Endemic to Hispaniola (Dominican Republic).

Reference: 7.

*Hornemannia alainii* Acuña & Roig = *Symphysia alainii* (Acuña &  
Roig) Berazain

*Hornemannia racemosa* Vahl = *Vaccinium racemosum* (Vahl) Wilbur &  
Luteyn

*Kalmia aggregata* (Small) H.F. Copel. = *Kalmia ericoides* C. Wright ex  
Griseb. var. *aggregata* (Small) Ebinger

*Kalmia ericoides* C. Wright ex Griseb., Cat. Pl. Cub. 51. 1866, var.  
*ericoides*; *Chamaedaphne ericoides* (C. Wright ex Griseb.) Kuntze,  
Revis. Gen. Pl. 2: 388. 1891; *Kalmiella ericoides* (C. Wright ex  
Griseb.) Small, N. Amer. Fl. 29(1): 54. 1914.

*Kalmia simulata* (Britton & P. Wilson) Southall, J. Elisha Mitchell Sci.  
Soc. 90: 22. 1974; *Kalmiella simulata* Britton & P. Wilson, Mem.  
Torrey Bot. Club 16: 93. 1920.

Distribution: Endemic to Cuba.

References: 3, 39, 101, 156, 206.

Note: Considered endangered by the Red List of the Vascular Flora of  
Cuba (39).

*Kalmia ericoides* C. Wright ex Griseb. var. *aggregata* (Small) Ebinger,  
Rhodora 76: 389. 1974; *Kalmiella aggregata* Small, N. Amer. Fl.  
29(1): 54. 1914; *Kalmia aggregata* (Small) H.F. Copel., Amer.  
Midl. Naturalist 30: 571. 1943.

Distribution: Endemic to Cuba.

References: 3, 39, 101, 156, 206.

Note: Considered endangered by the Red List of the Vascular Flora of  
Cuba (39).

*Kalmia simulata* (Britton & P. Wilson) Southall = *Kalmia ericoides*  
C. Wright ex Griseb. var. *ericoides*

*Kalmiella aggregata* Small = *Kalmia ericoides* C. Wright ex Griseb. var.  
*aggregata* (Small) Ebinger

*Kalmiella ericoides* (C. Wright ex Griseb.) Small = *Kalmia ericoides*  
C. Wright ex Griseb. var. *ericoides*

*Kalmiella simulata* Britton & P. Wilson = *Kalmia ericoides* C. Wright ex  
Griseb. var. *ericoides*

*Leucothoe affinis* A. Rich. = *Lyonia affinis* (A. Rich.) Urb.

*Leucothoe glandulosa* A. Rich. = *Lyonia glandulosa* (A. Rich.) Griseb.  
var. *glandulosa*

*Leucothoe jamaicensis* (Sw.) Ettingsh. = *Lyonia jamaicensis* (Sw.) D. Don

*Leucothoe latifolia* A. Rich. = *Lyonia latifolia* (A. Rich.) Griseb. var.  
*latifolia*

*Leucothoe myrsinefolia* A. Rich. = *Lyonia affinis* (A. Rich.) Urb.

*Lyonia acutata* Urb. = *Lyonia affinis* (A. Rich.) Urb.

*Lyonia acutifolia* Urb. & Ekman = *Lyonia stablii* Urb. var. *costata*  
(Urb.) Judd

- Lyonia affinis* (A. Rich.) Urb., Repert. Spec. Nov. Regni Veg. 22: 44. 1925; *Leucothoe affinis* A. Rich. in R. de la Sagra, Hist. Fis. Cuba, Bot. 11: 74. 1850; *Xolisma affinis* (A. Rich.) Small, N. Amer. Fl. 29(1): 69. 1914.

Distribution: Endemic to Hispaniola.  
References: 7, 101.
- Lyonia truncata* Urb. var. *proctorii* Judd, J. Arnold Arbor. 71: 129. 1990.  
Distribution: Endemic to Puerto Rico.  
References: 5, 58, 101, 633.  
Note: Considered endangered by the U.S. Fish & Wildlife Service.
- Lyonia tuerckheimii* Urb., Symb. Antill. 7: 317. 1912.  
*Lyonia eggersii* Urb., Symb. Antill. 7: 534. 1913.  
Distribution: Endemic to Hispaniola.  
References: 7, 30, 101.
- Lyonia turquini* (Small) Ekman ex Urb. = *Lyonia latifolia* (A. Rich.) Griseb. var. *latifolia*
- Lyonia urbaniana* (Sleumer) J. Jiménez Alm., Rhodora 62: 237. 1960; *Xolisma urbaniana* Sleumer, Repert. Spec. Nov. Regni Veg. 36: 273. 1934.  
Distribution: Endemic to Hispaniola (Dominican Republic).  
References: 7, 101.
- Lyonia vaccinioides* (Small) Acuña & Roig = *Lyonia myrtilloides* Griseb.
- Pieris cubensis* (Griseb.) Small, N. Amer. Fl. 29(1): 63. 1914; *Andromeda cubensis* Griseb., Cat. Pl. Cub. 51. 1866.  
Distribution: Endemic to Cuba.  
Common Name: Clavellina (Cuba).  
References: 3, 39, 101, 206.  
Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).
- Pseudogonocalyx paradoxa* Bisse & Berazaín = *Schoepfia paradoxa* (Bisse & Berazaín) Berazaín ex Acev.-Rodr. (Olacaceae)
- Sophoclesia domingensis* Urb. & Ekman = *Sphyrospermum cordifolium* Benth.
- Sophoclesia trinitensis* Britton = *Sphyrospermum cordifolium* Benth.
- Sphyrospermum cordifolium* Benth., Pl. Hartw. 222. 1846.  
*Sophoclesia domingensis* Urb. & Ekman, Ark. Bot. 21A(5): 54. 1927.  
*Sophoclesia trinitensis* Britton, Bull. Torrey Bot. Club 48: 335. 1922.  
*Sphyrospermum majus* Griseb., Fl. Brit. W. I. 143. 1859.  
Distribution: Native to Hispaniola, Mexico, Trinidad, and South America.  
References: 5, 7, 36, 134.
- Sphyrospermum majus* Griseb. = *Sphyrospermum cordifolium* Benth.
- Symphysia alainii* (Acuña & Roig) Berazaín, Revista Jard. Bot. Nac. Univ. Habana 4(3): 5. 1983 [“1984”]; *Vaccinium alainii* Acuña & Roig, Contr. Ocas. Mus. Hist. Nat. Colegio “De La Salle” 15: 3. 1956; *Hornemannia alainii* Acuña & Roig, Contr. Ocas. Mus. Hist. Nat. Colegio “De La Salle” 15: 4. 1956.  
Distribution: Endemic to Cuba.  
References: 3, 156, 206, 286.
- Symphysia racemosa* (Vahl) Stearn = *Vaccinium racemosum* (Vahl) Wilbur & Luteyn
- Thibaudia cubensis* A. Rich. = *Vaccinium cubense* (A. Rich.) Griseb. var. *cubense*
- Thibaudia domingensis* Urb. = *Vaccinium racemosum* (Vahl) Wilbur & Luteyn
- Thibaudia krugii* Urb. & Hoerold = *Vaccinium racemosum* (Vahl) Wilbur & Luteyn
- Thibaudia portoricensis* Urb. = *Gonocalyx portoricensis* (Urb.) A.C. Sm.
- Vaccinium alainii* Acuña & Roig = *Symphysia alainii* (Acuña & Roig) Berazaín
- Vaccinium assimile* C. Wright = *Ouratea elliptica* (A. Rich.) M. Gómez (Ochnaceae)
- Vaccinium bissei* Berazaín, Revista Jard. Bot. Nac. Univ. Habana 10(2): 215. 1990 [“1989”].  
Distribution: Endemic to Cuba.  
References: 39, 206, 427.  
Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39) and by the IUCN Red List of Threatened Species.
- Vaccinium cubense* (A. Rich.) Griseb., Pl. Wright. 1: 171. 1860, var. *cubense*; *Thibaudia cubana* A. Rich. in R. de la Sagra, Hist. Fis. Cuba, Bot. 11: 73. 1850.  
Distribution: Endemic to Greater Antilles; native to Cuba and Hispaniola.  
References: 3, 7, 151, 206.
- Vaccinium cubense* (A. Rich.) Griseb. var. *giganteum* (Bisse) Berazaín, Revista Jard. Bot. Nac. Univ. Habana 10(2): 217. 1990 [“1989”]; *Vaccinium giganteum* Bisse, Ciencias (Havana), ser. 10, 2: 16. 1975.

Distribution: Endemic to Cuba.  
Reference: 206.

*Vaccinium cubense* (A. Rich.) Griseb. subsp. *ramonii* (Griseb.) Borhidi & O. Muñiz, Bot. Közlem. 62: 26. 1975; *Vaccinium ramonii* Griseb., Cat. Pl. Cub. 52. 1866.

Distribution: Endemic to Cuba.  
References: 3, 149.

*Vaccinium ekmanii* Berazaín, Revista Jard. Bot. Nac. Univ. Habana 10(2): 218. 1990 [“1989”].

Distribution: Endemic to Hispaniola.  
References: 8, 149.

*Vaccinium giganteum* Bisse = *Vaccinium cubense* (A. Rich.) Griseb. var. *giganteum* (Bisse) Berazaín

*Vaccinium latifolium* Benth. & Hook. f., Gen. Pl. 2: 575. 1876.

Distribution: Native to Lesser Antilles (Grenada), Margarita, Trinidad, and South America.

References: 1, 151, 301, 323.

*Vaccinium leonis* Acuña & Roig, Contr. Ocas. Mus. Hist. Nat. Colegio “De La Salle” 15: 3. 1956.

Distribution: Endemic to Cuba.  
References: 3, 206.

*Vaccinium meridionale* Sw., Prodr. 62. 1788.

Distribution: Exotic in Jamaica; native to South America.  
Common Name: Bilberry (Jamaica).  
Reference: 2.

*Vaccinium racemosum* (Vahl) Wilbur & Luteyn, Brittonia 29: 275. 1977; *Hornemannia racemosa* Vahl, Skr. Naturhist.-Selsk. 6: 120. 1810; *Symphysia racemosa* (Vahl) Stearn, Taxon 21: 111. 1972.

*Thibaudia domingensis* Urb., Symb. Antill. 7: 319. 1912.

*Thibaudia krugii* Urb. & Hoerold in I. Urban, Symb. Antill. 5: 454. 1908.

Distribution: Endemic to West Indies; native to Hispaniola, Jamaica, Puerto Rico, and Lesser Antilles (Dominica, Grenada, Guadeloupe, Martinique).

Common Names: José, José vrai (Lesser Antilles).

References: 1, 2, 5, 7, 30, 32, 58, 61, 152, 254, 304.

*Vaccinium ramonii* Griseb. = *Vaccinium cubense* (A. Rich.) Griseb. subsp. *ramonii* (Griseb.) Borhidi & O. Muñiz

*Vaccinium shaferi* Acuña & Roig, Contr. Ocas. Mus. Hist. Nat. Colegio “De La Salle” 15: 3. 1956.

Distribution: Endemic to Cuba.  
References: 3, 39, 156, 206.

Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39).

*Vaccinium sintenisii* Urb. = *Ilex obcordata* Sw. var. *obcordata* (Aquifoliaceae)

*Vaccinium smilacifolium* Griseb. = *Gonocalyx smilacifolius* (Griseb.) A.C. Sm.

*Xolisma apiculata* Sleumer = *Lyonia microcarpa* Urb. & Ekman

*Xolisma brittonii* Small = *Lyonia affinis* (A. Rich.) Urb.

*Xolisma calycosa* Small = *Lyonia latifolia* (A. Rich.) Griseb. var. *calycosa* (Small) Judd.

*Xolisma elliptica* Small = *Lyonia elliptica* (Small) Alain

*Xolisma latifolia* (A. Rich.) Small = *Lyonia latifolia* (A. Rich.) Griseb. var. *latifolia*

*Xolisma longelaminata* Sleumer = *Lyonia stablii* Urb. var. *costata* (Urb.) Judd

*Xolisma macrophylla* Britton = *Lyonia macrophylla* (Britton) Ekman ex Urb.

*Xolisma myrsinifolia* (A. Rich.) Small = *Lyonia affinis* (A. Rich.) Urb.

*Xolisma myrtilloides* (Griseb.) Small = *Lyonia myrtilloides* Griseb.

*Xolisma obtusa* (Griseb.) Small = *Lyonia obtusa* Griseb.

*Xolisma orbiculata* Sleumer = *Lyonia alpina* Urb. & Ekman

*Xolisma pseudotinensis* Sleumer = *Lyonia tinensis* Urb.

*Xolisma rubiginosa* (Pers.) Small = *Lyonia rubiginosa* (Pers.) G. Don

*Xolisma stablii* (Urb.) Small = *Lyonia stablii* Urb. var. *stablii*

*Xolisma turquini* Small = *Lyonia latifolia* (A. Rich.) Griseb. var. *latifolia*

*Xolisma urbaniana* Sleumer = *Lyonia urbaniana* (Sleumer) J. Jiménez Alm.

*Xolisma vaccinioides* Small = *Lyonia myrtilloides* Griseb.

## ERIOCAULACEAE

Genera. Total: 5; native: 5; endemic: 0.

Taxa. Total: 31; native: 31; endemic: 25.

*Dupatya montana* Britton = *Paepalanthus pungens* Griseb.

*Dupatya pungens* (Griseb.) Britton = *Paepalanthus pungens* Griseb.

*Eriocaulon arenicola* Britton & Small, Bull. Torrey Bot. Club 44: 31. 1917.

*Eriocaulon olivaceum* Moldenke, N. Amer. Fl. 19(1): 22. 1937.

Distribution: Endemic to Cuba.

References: 3, 39, 147, 196.

Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).

*Eriocaulon cubense* Ruhland, Repert. Spec. Nov. Regni Veg. 22: 29. 1925.

Distribution: Endemic to Cuba.

References: 3, 39, 147, 196.

Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).

*Eriocaulon dioecum* Ruhland = *Eriocaulon pseudocompressum* Ruhland

*Eriocaulon echinospermoideum* Ruhland, Repert. Spec. Nov. Regni Veg. 22: 31. 1925.

Distribution: Endemic to Cuba.

References: 3, 39, 147, 196.

Note: Considered extinct by the Red List of the Vascular Flora of Cuba (39).

*Eriocaulon echinospermum* C. Wright in F.A. Sauvalle, Anales Acad. Ci. Méd. Habana 7: 716. 1871.

Distribution: Endemic to Cuba.

References: 3, 147, 196.

*Eriocaulon ekmanii* Ruhland, Repert. Spec. Nov. Regni Veg. 22: 30. 1925.

*Eriocaulon heteropetalum* Ruhland, Repert. Spec. Nov. Regni Veg. 22: 33. 1925.

Distribution: Endemic to Cuba.

References: 3, 39, 147, 196.

Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).

*Eriocaulon fuliginosum* Griseb., Cat. Pl. Cub. 226. 1866.

*Eriocaulon insulare* Ruhland, Repert. Spec. Nov. Regni Veg. 22: 32. 1925.

*Eriocaulon pinarense* Ruhland, Repert. Spec. Nov. Regni Veg. 22: 32. 1925.

*Eriocaulon scirpoides* Griseb., Cat. Pl. Cub. 226. 1866.

*Eriocaulon sphaerospermum* C. Wright in F.A. Sauvalle, Anales Acad. Ci. Méd. Habana 7: 716. 1871.

- Eriocaulon trichosepalum* C. Wright in F.A. Sauvalle, Anales Acad. Ci. Méd. Habana 7: 715. 1871.  
Distribution: Native to Cuba, Mexico, and Central America.  
References: 3, 30, 147, 196.
- Eriocaulon fusiforme* Britton & Small = *Eriocaulon ovoideum* Britton & Small
- Eriocaulon gnaphalodes* sensu C. Wright = *Eriocaulon pseudocompressum* Ruhland
- Eriocaulon heteropetalum* Ruhland = *Eriocaulon ekmanii* Ruhland
- Eriocaulon insulare* Ruhland = *Eriocaulon fuliginosum* Griseb.
- Eriocaulon lacustre* Ruhland = *Eriocaulon melanocephalum* Kunth
- Eriocaulon melanocephalum* Kunth, Enum. Pl. 3: 549. 1841.  
*Eriocaulon lacustre* Ruhland, Repert. Spec. Nov. Regni Veg. 22: 33. 1925.  
*Eriocaulon melanocephalum* Kunth var. *longipes* Griseb., Cat. Pl. Cub. 325. 1866.  
Distribution: Native to Cuba, Trinidad, and South America.  
References: 3, 147, 196.
- Eriocaulon melanocephalum* Kunth var. *longipes* Griseb. = *Eriocaulon melanocephalum* Kunth
- Eriocaulon minutissimum* Ruhland, Repert. Spec. Nov. Regni Veg. 22: 32. 1925.  
Distribution: Endemic to Cuba.  
References: 3, 39, 147, 196.  
Note: Considered extinct by the Red List of the Vascular Flora of Cuba (39).
- Eriocaulon miserrimum* Ruhland, Repert. Spec. Nov. Regni Veg. 22: 30. 1925.  
Distribution: Endemic to Cuba.  
References: 3, 39, 147, 196.  
Note: Considered threatened by the Red List of the Vascular Flora of Cuba (39).
- Eriocaulon olivaceum* Moldenke = *Eriocaulon arenicola* Britton & Small
- Eriocaulon ovoideum* Britton & Small, Bull. Torrey Bot. Club 44: 32. 1917.
- Eriocaulon fusiforme* Britton & Small, Bull. Torrey Bot. Club 44: 32. 1917.  
Distribution: Endemic to Cuba.  
References: 3, 147, 196.
- Eriocaulon pinarensis* Ruhland = *Eriocaulon fuliginosum* Griseb.
- Eriocaulon pseudocompressum* Ruhland in I. Urban, Symb. Antill. 1: 492. 1900.
- Eriocaulon dioecum* Ruhland, Repert. Spec. Nov. Regni Veg. 22: 29. 1925.
- Eriocaulon gnaphalodes* sensu C. Wright in F.A. Sauvalle, Anales Acad. Ci. Méd. Habana 8: 48. 1871, non Michx.  
Distribution: Endemic to Cuba.  
References: 3, 30, 147, 196.
- Eriocaulon scirpoides* Griseb. = *Eriocaulon fuliginosum* Griseb.
- Eriocaulon sclerocephalum* Ruhland, Repert. Spec. Nov. Regni Veg. 22: 31. 1925.  
Distribution: Endemic to Cuba.  
References: 3, 147, 196.
- Eriocaulon sigmoideum* C. Wright in F.A. Sauvalle, Anales Acad. Ci. Méd. Habana 8: 48. 1871.  
Distribution: Endemic to Cuba.  
References: 3, 147, 196.
- Eriocaulon sphaerospermum* C. Wright = *Eriocaulon fuliginosum* Griseb.
- Eriocaulon trichosepalum* C. Wright = *Eriocaulon fuliginosum* Griseb.
- Eriocaulon umbellatum* Lam. = *Syngonanthus umbellatus* (Lam.) Ruhland
- Lachnocaulon anceps* Morong, Bull. Torrey Bot. Club 18: 360. 1891.  
Distribution: Native to Cuba and southeastern United States.  
References: 3, 147, 196.
- Lachnocaulon cubense* Ruhland, Repert. Spec. Nov. Regni Veg. 22: 34. 1925.  
Distribution: Endemic to Cuba.  
References: 3, 39, 147, 196.  
Note: Considered extinct by the Red List of the Vascular Flora of Cuba (39).
- Lachnocaulon ekmanii* Ruhland, Repert. Spec. Nov. Regni Veg. 22: 34. 1925.  
Distribution: Endemic to Cuba.  
References: 3, 147, 196.
- Paepalanthus alsinoides* C. Wright in F.A. Sauvalle, Anales Acad. Ci. Méd. Habana 8(1): 49. 1871, subsp. *alsinoides*  
Distribution: Endemic to Cuba.  
References: 3, 39, 130, 147, 196.  
Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39).
- Paepalanthus alsinoides* C. Wright subsp. *minimus* (Jenn.) Gonz. Géigel, Revista Jard. Bot. Nac. Univ. Habana 8: 5. 1987;  
*Paepalanthus alsinoides* C. Wright var. *minimus* Jenn., Ann. Carnegie Mus. 11: 89. 1917.  
Distribution: Endemic to Cuba.  
References: 147, 196.
- Paepalanthus alsinoides* C. Wright var. *minimus* Jenn. = *Paepalanthus alsinoides* C. Wright subsp. *minimus* (Jenn.) Gonz. Géigel
- Paepalanthus androsaceus* Griseb. = *Syngonanthus androsaceus* (Griseb.) Ruhland
- Paepalanthus androsaceus* Griseb. var. *flavescens* Griseb. = *Syngonanthus androsaceus* (Griseb.) Ruhland
- Paepalanthus brittonii* Moldenke = *Paepalanthus pungens* Griseb.
- Paepalanthus domingensis* Ruhland = *Paepalanthus repens* (Lam.) Körn.
- Paepalanthus lagopodioides* Griseb. = *Syngonanthus lagopodioides* (Griseb.) Ruhland
- Paepalanthus lamarckii* Kunth, Enum. Pl. 3: 506. 1841.  
Distribution: Native to Cuba, Hispaniola, Mexico, Central America, and South America.  
References: 3, 147, 196.
- Paepalanthus moaensis* Gonz. Géigel, Feddes Repert. 96: 513. 1985.  
Distribution: Endemic to Cuba.  
References: 147, 196.
- Paepalanthus montanus* (Britton) Moldenke = *Paepalanthus pungens* Griseb.
- Paepalanthus nipensis* Gonz. Géigel, Feddes Repert. 96: 515. 1985.  
Distribution: Endemic to Cuba.  
References: 147, 196.
- Paepalanthus pungens* Griseb., Cat. Pl. Cub. 224. 1866; *Dupatya pungens* (Griseb.) Britton, Bull. Torrey Bot. Club 44: 33. 1917.  
*Paepalanthus brittonii* Moldenke, Known Geogr. Distrib. Eriocaul. 5: 45. 1946.
- Paepalanthus montanus* (Britton) Moldenke, Revista Sudamer. Bot. 4: 17. 1937; *Dupatya montana* Britton, Bull. Torrey Bot. Club 44: 33. 1917.
- Paepalanthus pungens* Griseb. var. *brevifolius* Moldenke, Phytologia 4: 56. 1952.

Distribution: Endemic to Cuba.

References: 3, 39, 130, 147, 196.

Note: Considered vulnerable by the Red List of the Vascular Flora of Cuba (39).

*Paepalanthus pungens* Griseb. var. *brevifolius* Moldenke =  
*Paepalanthus pungens* Griseb.

*Paepalanthus repens* (Lam.) Körn. in C.F.P. von Martius, Fl. Bras. 3(1): 371. 1863.

*Paepalanthus domingensis* Ruhland in I. Urban, Symb. Antill. 1: 485. 1900.

*Paepalanthus tuerckheimii* Ruhland in I. Urban, Symb. Antill. 7: 173. 1912.

Distribution: Endemic to Hispaniola.

References: 5, 30, 147, 196.

*Paepalanthus retusus* C. Wright in F.A. Sauvalle, Anales Acad. Ci. Méd. Habana 8: 50. 1871.

Distribution: Endemic to Cuba.

References: 3, 39, 147, 196.

Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39).

*Paepalanthus riparius* Moldenke, N. Amer. Fl. 19(1): 42. 1937.

Distribution: Endemic to Cuba.

References: 3, 147, 196.

*Paepalanthus seslerioides* Griseb., Cat. Pl. Cub. 224. 1866.

*Paepalanthus seslerioides* Griseb. var. *carabiae* Moldenke, Phytologia 34: 485. 1976.

*Paepalanthus seslerioides* Griseb. var. *wilsonii* Moldenke, Phytologia 34: 485. 1976.

Distribution: Endemic to Cuba.

References: 3, 39, 130, 147, 156, 196.

Note: Considered endangered by the Red List of the Vascular Flora of Cuba (39).

*Paepalanthus seslerioides* Griseb. var. *carabiae* Moldenke =  
*Paepalanthus seslerioides* Griseb.

*Paepalanthus seslerioides* Griseb. var. *wilsonii* Moldenke =  
*Paepalanthus seslerioides* Griseb.
