

May 23, 1969

Governor Ronald Reagan,
California State Capitol,
Sacramento, California

Dear Governor:

The ranchers and town folks in this West Texas area highly commend you for your stand against rioting, rebellions and damages to private and public rights and property.

Fortunately in this area of Texas we have very few buffalo headed militant blacks, long haired white misfits and radical professors but your words and intestinal fortitude displayed on T. V. in putting a faculty member dissentious instigator in his proper place was music to a Texan's ears.

Governor Reagan, if there were more leaders in this country with your courage and desire to preserve our great American way of life, a wonderful future for our children would be assured.

May you continue to stand up and fight for what you believe is right--Texans and all real americans are behind you 100%.

Respectfully,

TBS:m
