Dedicated to June Ford Shelton

It's been 40 years since June Shelton and a handful of parents put into action their vision for a school that would help students who needed a different environment in which to learn. They did it in faith that it was the right thing to do. We truly believe that Shelton is a place that transforms lives every day. We do it humbly, with the dedication of all involved – students, parents, faculty, staff, administrators, and all others in the Speech Clinic, Evaluation Center, and Outreach / Training Program. This Horizon is dedicated to June Ford Shelton and her pioneer work in the field of learning differences. With every good faith, we look forward to the next forty years of a mission that still is timely. We think she would be so pleased to see Shelton today, and she'd be the first one to encourage us to charge forward.

Forward at Forty - A New Horizon for Shelton

The name of this publication is *The Horizon*. I see a great new horizon for Shelton. Having spent 31 years of my career at Shelton, I am fortunate to have been here for, or remember so many benchmark events in the life and growth of this wonderful place. Four things come to mind:

- 1) **The way things were before and after we had a high school.** We've always been about nurturing relationships in the community. We worked diligently with all referral schools when we had to send students elsewhere after the eighth grade. Our goal was to find each individual the very best match. Then, upon the addition of our high school in 1999, we knew we had the best possible match for so many *right here*. It was a game-changer that helped us fulfill a longer-term vision for success for our students.
- 2) **The expansion of our academics and extra-curricular activities.** We are well known for our curriculum. But we have also enriched the lives of our students with the addition of *Fine Arts*, including Music (Band, Choir, Drumline), Art (Visual and Photography), Film, and Theatre; *Athletics*; and *Spirit Organizations* that define a well-rounded life for our students. Our students thrive in the midst of these realms.
- 3) **Technology.** The use of technology in education has taken us places we never dreamed about.
- 4) **The expansion of our Speech Clinic, Evaluation Center, and Outreach / Training Program.** We're now taking Shelton's expertise and services from Dallas to Dubai, from California to China.

What's Next On Shelton's Horizon? A Re-energized Mission

- 1) **We are changing the way the world thinks about learning differences.** We are redefining and re-energizing our mission in terms of messaging. We will continue to empower the lives of intelligent students who learn differently through a customized approach within a mainstream environment. But we are shaping our messages to all that learning differences are not to be viewed negatively, or as disadvantages; rather, many successful people with great minds are that way precisely because of their learning difference – it's ultimately been their advantage.
- 2) **We are exploring options on where we will be.** A new campus may be in Shelton's horizon. It would help us achieve many goals identified by our staff and board for the next ten years. A new property would allow us to maximize our 900 students' environment and total experience. Our other three entities would be able to expand as they continue to respond to the growing demands for their services here and beyond.

As we set strategic direction and priorities for a bright future, we will remain grounded in our original mission and forward thinking in our vision. I invite you to share your vision with me. We're again at the cusp of so many great opportunities.

Looking forward to transforming lives in our next forty years,

Suzanne Stell

SHELTON CELEBRATES FOUNDERS AND FORTIETH

When Shelton School opened its doors this fall, it did so for the fortieth time. In one of several special events to mark the occasion, Shelton celebrated its fortieth anniversary at a founders' reception on September 16. On hand were former and current administrators, board members, major donors, and parent and alumni representatives who have held leadership roles.

Student ambassadors greeted guests who were entertained by Shelton's jazz band and vocalist Haley Thomas.

Attendees included **Bill and Cindy Ward**, for whom Shelton's current campus is named; founding and current board member **David Martineau**; Executive Director Emerita **Joyce Pickering** and former Director of Finance **Bob Pickering**; former Speech Clinic Director and original employee **Marilyn Aaron**; former Evaluation Center Director **Dr. Susan Fleming**; former Head of Lower School **Betty Glasheen**; Board of Trustees President **Gary Webb** and other guests with historical ties to the school.

(L to R) Bill Ward, Joyce Pickering, Cindy Ward, Bob Pickering

Executive Director Suzanne Stell led the celebratory remarks. "From our founding in 1976, we have never wavered from June Shelton's mission — and that of a handful of dedicated parents who wanted the same — to serve intelligent students who learn differently. From Shelton's first class of 48 students, to today's enrollment of 900, we've spanned the time when we've been able to develop educational strategies and the learning environment that work best for our amazing, successful students."

Today Shelton remains the largest private school of its kind worldwide for students with learning differences, most typically dyslexia and attention deficit disorder. In addition, Shelton's speech therapy services, evaluation center, and outreach / training programs serve clients and professionals from Dallas to Dubai.

Said reception attendee André Dowd, Class of 2007 and recipient of Shelton's 2014 *Alumnus of the Year Award*, "I envision a new campus for Shelton in its future, with expanded programs and facilities for academics, fine arts and athletics. Shelton helped shape who I am, and I hope to be here to celebrate its next 40 years."

Assuring the Future Endowment Campaign

Shelton continues to move forward on our \$10,000,000 Endowment Campaign. Growth of the Shelton School Endowment Fund is one of the school's highest priorities as we *Move Forward at Forty!* With a larger endowment, Shelton will have additional financial resources to:

- Attract and retain the best teachers
- Increase financial aid support
- Offer enhanced programs and improve facilities for our students
- Continue community outreach programs and research

While Annual Fund donations help us with today's operating expenses, Shelton's Endowment is a permanent, self-sustaining source of funding that provides a steady annual income for future use. An investment in Shelton's Endowment Fund will help guarantee that Shelton is here not only for those who need us today, but more importantly, for generations to come.

There are many opportunities available to help support the Endowment Campaign. The Development Office would be delighted to meet with you to answer any questions or discuss endowment opportunities. Please call Theresa Bruno at Ext. 2230 or email tbruno@shelton.org for further information.

Supporting Shelton — Forward at Forty

This is an exciting year for Shelton, as it marks our 40th anniversary. We are inspired by our history and encouraged by our successes. As Shelton moves *Forward at Forty*, we reflect on our past, appreciate our accomplishments, and are excited about our future.

Since 1976, Shelton has remained true to founder Dr. June Shelton's values, philosophy and commitment to excellence by providing a quality education for students who learn differently. Shelton has been a partnership among those in the community who wanted more for their children and understood that learning differences are an opportunity, rather than something to rise above.

Over the past 40 years, Shelton has grown from 48 students into what is the world's largest school specializing in learning differences with an enrollment of 900 full-time students and 250 staff. Shelton School is a leader in empowering learning different students to leverage their uniqueness for success in college and the world. There is no other school that offers the expertise, experience, services or reputation as does Shelton.

As we continue to move *Forward at Forty*, we honor Dr. June Shelton's vision and are grateful for the opportunity to continue and remain true to her mission. Without your support, Shelton and our students would not be where they are today. We appreciated your generosity then, and we continue to see the lasting impact of our community's support today. Thank you for being a member of our Shelton community.

Above and Beyond

We gratefully acknowledge and thank our Shelton Parents' Association for its generosity in 2014-15. They raised \$385,091, which was used for Technology enhancements, Faculty Endowment Support, Financial Aid Endowment Support, and Enhancements for the Dining Hall.

Supporting Shelton's 40 Years of Success

We are honored to serve as this year's Co-Chair of Shelton's Annual Fund Drive. The Annual Fund is the first and most important way to support Shelton. The Annual Fund Drive creates opportunities for all Shelton students. Your gift covers the gap between tuition and operating expenses to benefit the programs and academics that directly affect students. From curriculum and technology needs to fine arts and athletics, your gift makes a difference.

Your generosity propels us *Forward at 40*. Tuition alone does not cover the total cost of educating a student. The gap is covered by fundraising, your generous contributions to the Annual Fund, and other sources. When we work together, every Shelton student benefits from your support.

Our goal this year is \$700,000 and 100% participation. Please make a gift today either by check or go online at www.shelton.org and click "Make a Gift."

National Recognition of Shelton's Growing Impact in Public School Systems

In the summer of 2009, Shelton Outreach entered into a contract with the two school districts in Alabama to train teachers to certification at the therapy level in Multisensory Structured Language Education (MSLE) using the Shelton Academic Reading Approach (SARA) based on the curriculum from Texas Scottish Rite Hospital, *Take Flight: A Comprehensive Intervention for Students with Dyslexia*. From the spring of 2012 through the spring of 2014, we offered the same therapy level training in Oxford, Mississippi. Beginning in June 2015, we started offering the training in Arkansas.

Shelton Outreach/Training provided training to teachers in three areas of Arkansas, outside Fayetteville in the northwest, outside Jonesboro in the northeast, and in Monticello in the southeast. There are now 56 teachers in Arkansas delivering instruction to students identified with dyslexia using the *Shelton Way*. Cohorts are also working toward their therapy level certification in Montgomery and Birmingham, Alabama. Those cohorts comprise 34 teachers. Meanwhile, back in Dallas there are 18 teachers enrolled in the initial year of the SARA training.

Shelton continues to share expertise with public teachers across the country, and we have received national attention. The International Dyslexia Association

featured an article about our offsite training on their homepage. You can view that article, *How School Without Borders Saved 10,000 Lives*, at www.eida.org/school-without-borders/. The article cites data collected from interviewing teachers who had completed the two-year training. The 76 teachers interviewed reached more than 10,000 students in a two-year period.

Shelton Featured at IDA Conference

Shelton faculty, students and administrators were well represented at the recent International Dyslexia Association's (IDA) annual conference in Dallas. Those making presentations included Dr. Laure Ames, Nancy Coffman, Amy Kelton, Blair King, and Joyce Pickering. Attendees also were given the opportunity to tour Shelton's campus as part of the three-day conference. Several student groups performed at the event: Vocal Charge, cheerleaders, Drumline, and Chargerettes. Shelton's longtime ally Tincy Miller was the recipient of IDA's *Presidential Award of Excellence*.

40th Trivia

Q: When was Shelton's Scholars Program (see pg 7) begun?

A: 1990-01. Today some 30+ students receive tutoring each semester on Saturdays to strengthen their reading / writing / spelling skills. The program is also offered in the summer during our summer school to some 70 students. Many Scholars students cannot afford to attend Shelton regularly. This is a great shot-in-the-arm approach that has proven to be one of our most effective programs for the community at large. It is based on Sequential English Education (SEE).

Ground Level Work Helping China with Montessori Standards

In November, American Montessori Society (AMS) Executive Director Richard Ungerer and I traveled to

Qingdao, China, where we consulted with and made presentations to the Chinese Society of Education (CSE). We are assisting CSE in the development of standards for Early Childhood Montessori education, following a year of conferencing on the topic. We are excited about this collaborative work. As AMS board president, I look forward to working with AMS and CSE as we help CSE design criteria needed for schools that will use the standards.

Training for Teachers and Therapists

The Sequential English Education (SEE) approach is one of three Shelton methods of teaching reading to students with dyslexia and related disorders. SEE was written in the late 1960s by Dr. Charles Shedd, revised, and is now updated regularly by **Dr. Joyce Pickering**. Joyce and **Amy Kelton** are co-directors of the SEE training course, which is accredited by International Multisensory Education Council (IMSLEC) and International Dyslexia Association (IDA). In the two-year training cycle training, there have been 60 teachers working on their teaching or therapy level certificates. They are from Shelton, Bridgemark Learning Academy in Tyler, TX, LIFT (an adult Dallas literacy program), Dallas Juvenile Justice Program, All Children's Academy in Little Rock, AK, Levine Academy in Richardson, the May Center in Santa Fe, NM, Santa Cruz Montessori in Santa Cruz, CA., Fredericks, MD, and Los Alamos, NM. Nine teachers are working to achieve Instructor Level certification. Dallas Baptist University (DBU) credit is available for this course, and teachers may complete a Master's in Multisensory Teaching upon completion of this course.

Workshops and Seminars

Each year there are many requests for our Outreach staff to present at schools and conferences. This year presentations are being given in Dallas, El Paso, Lexington, SC, Albuquerque, NM, Cincinnati, Ohio, Boston, MS, Philadelphia, PA, Fayetteville, AK, Anchorage, Alaska, Toronto, Dundas, and Calgary, Canada, Barcelona, Spain, Beijing, China, and Tokyo, Japan. Traveling to take our *Shelton Way* to these locations are Joyce Pickering, Amy Kelton and Pauline Novak.

Shelton Scholars

Shelton opened the Scholars program in January 1991. Students who may not be able to attend Shelton fulltime can receive one on one or small group instruction in reading, writing and spelling. Many have spent several years attending the Saturday and summer programs and improved their skills to a fully functional level.

Students receive instruction in the SEE program under the supervision of **John Hodges**. There are approximately 30 students each semester and 70 in the summer program.

John Hodges delivers SEE curriculum

Montessori Courses

Shelton is affiliated with AMS and accredited by Montessori Accreditation Council for Teacher Education (MACTE) as a full training course in Montessori education at the Early Childhood and Elementary Levels. Dr. Pickering and **Pauline Novak** co-direct these courses. Both hold Montessori credentials.

Enrollment in the courses has flourished in each course, boosted by a grant from the Simmons Foundation for scholarships, marketing and additional materials. This donation has provided significant scholarships to teachers who otherwise could not afford to attend. Our training courses are also supporting the growing movement of Montessori education in the Dallas and Garland public school systems. These ISDs have a vision of education that will provide their children the ability to participate in a Montessori school of choice. In response to the positive demand for Montessori education, these ISDs are sending more than 30 teachers to us for training.

Shelton's courses are known for the excellence of their instructors, most of whom are on staff at Shelton. DBU credit for these courses is available.

Krista Norwood, M.S., CCC/SLP, Director

Since 1986 the mission of the Speech / Language / Hearing Clinic has been to serve students and families at Shelton and in the community by providing thorough and informative screenings, comprehensive speech and language evaluations, and, of course, speech therapy services of the highest quality. We could never begin to fulfill this mission without our team of experienced and caring clinicians. The therapists in the Speech Clinic have a combined

total of 124 years of experience. We are thankful for the opportunity to provide support to each student with unique learning needs. Our greatest goal is to help our clients realize success by giving them the tools for better communication.

Staff Update

We are excited to welcome **Lori Johnson**, Speech-Language Pathologist, to the Speech Clinic staff. Most recently she was a staff member in the Shelton Middle School Speech Department. Lori also has many years experience at Plano ISD, as well as home health services.

Screening Program

Our Speech, Language, Reading, Hearing and Vision screening program is a vital component to fulfilling our mission. Early intervention is critical, not only for closing language learning gaps and providing a stable foundation upon which to build future language, but also for avoiding frustration and allowing a child to maintain self-esteem and confidence in his or her ability to communicate. Through the screening process, our Clinic provides invaluable assistance to parents and educators by identifying young children with speech, language and reading delays. From individual conferences and professionally written results to recommendations for intervention, our therapists join parents and teachers in supporting their children in methods unique to Shelton. For these reasons, the Shelton Speech Clinic is becoming the gold standard in Dallas for speech, language, and reading screenings.

Our clinic currently provides screenings for:

The Hockaday School	Mount St. Michael Catholic School
Parish Episcopal School	Greenhill School
Episcopal School of Dallas	Stringfellow School
Pebblecreek Montessori	St. Andrew United Methodist Childcare Program
The DaVinci School	The Meadowbrook School
A Child's Garden Montessori	Arbor Creek Montessori
Guthrie School	

Screenings begin in August and usually conclude in January. Shelton's Speech Clinic annually screens some 1,200 children.

Therapy Services

The Speech Clinic therapists complete some 150 therapy sessions each week. We provide private speech, language, reading and social communication therapy to Shelton students (EC - high school) and also to students in Metroplex private schools including Hockaday, Greenhill, Parish Episcopal, ESD, Spring Creek Daycare, St. Thomas Aquinas Catholic, Lamplighter, Plano Day School, and Prince of Peace Christian. In addition, many community clients are seen in the Speech Clinic on Shelton's campus. Therapy is provided for receptive and expressive language, articulation, language and auditory processing, phonological awareness and reading difficulties, reading comprehension, and social language. Several of our therapists are also trained in the multisensory reading methods used so successfully by Shelton School. Therapy is available year round, Monday through Thursday, 7:30 am to 5:30 pm.

We have expanded our Social Communication program to students with social cognition challenges. Using a Social Thinking (Winner, 2000) model of therapy, groups and individuals are not simply taught to memorize social routines, but explicitly taught the thought process behind social interaction. Students practice using one's language skills to seek information; listening that involves not simply taking in auditory information, but integrating information for a deeper concept, when all messages cannot be taken literally; gaining skills for abstract and inferential language; and interpreting others perspectives, thoughts and feelings across contexts. Our fastest growing group of social clients is college prep high school students. We have several therapists trained in Social Thinking who offer individual and group social cognition therapy to clients of all ages.

Summer Programs

Shelton's Speech Clinic continues to offer speech and language camps and private therapy throughout the summer.

Clinic therapists, along with speech therapy graduate student interns from the University of Texas at Dallas and Texas Women's University, host children of all ages in therapeutic camps that are both impactful and fun.

Please call or check the website for summer offerings.

Laure Ames, Ph.D., Director

From Dallas to Dubai

The Shelton Evaluation Center has stayed busy year round working with wonderful clients from Dallas to Dubai. When we evaluate a client through either a psychoeducational, neuropsychological, psychological, Autism Spectrum Disorder, and/or ADHD evaluation, our goal is to obtain a comprehensive picture of the client's functioning so that we can make appropriate recommendations. We also want clients to leave this Center feeling understood and hopeful.

Understanding and Diagnosing Dyslexia

Reading difficulty is frequently assessed at the Shelton Evaluation Center. The most common reason for reading difficulty is dyslexia. Dyslexia is a specific language-based learning disability that is neurological in origin. It is characterized by difficulties with accurate and/or fluent word recognition and by poor spelling and decoding abilities. These difficulties typically result from a deficit in the phonological component of language that is often unexpected in relation to other cognitive abilities and the provision of effective classroom instruction (International Dyslexia Association 2012). Dyslexia is the most common of all the learning disabilities and affects 15-20% of the population. According to Sally Shaywitz at Yale, we know as much about dyslexia as any other

neurological disorder. This is because over 25 years ago, the National Institute of Child Health and Human Development determined that not being able to read was a national health problem because it predicted dropping out of school and prison incarceration. Statistics indicate that 85% of juvenile delinquents experience reading difficulties associated with dyslexia and at least 70% of the American prison population is illiterate, often the result of

"You all are the best in the country. Until we came here, no one could find out what was going on. You explained everything."

Mother of a 16-year-old public school student

"We came to the Shelton Evaluation Center for testing because you are the only ones who get it."

Shelton parent of an 11-year-old

un-remediated dyslexia. As a result of these NICHD studies, we know that the dyslexic brain is different from the brain of the typical reader, and we know what methods work to teach this disordered reader. However, despite this research, and a 1985 Texas law that requires identification and remediation of dyslexia, the disorder continues to be misunderstood and under-identified. To diagnose dyslexia at Shelton, we obtain a family history and administer measures of reading, spelling, and written expression. Dyslexia typically impacts these

academic areas in varying degrees. A basic evaluation should include measures of: letter knowledge, phonological awareness, rapid naming, word decoding, fluency (accuracy and rate), spelling, and written expression. A professional must obtain scores on these measures, but also look beyond scores at the quality of the performance. We are particularly interested in hearing a student read orally.

Dyslexics make the same types of errors in reading when you listen to them read. When we hear substitutions of words that are shaped like the word on the page, the substitution of "a" for "the," repetitions, omissions, or mispronunciations, it usually indicates dyslexia. Once dyslexia is identified, we would recommend academic language therapy with a Certified Academic Language Therapist (CALT). It is important to identify and remediate dyslexia as early as possible. We can see red flags as young as four years of age. Of the children who are not diagnosed by the age of 8, 75% continued to have reading difficulty throughout high school.

The Shelton Evaluation Center is unique in the Dallas area because our experienced staff is capable of offering multiple kinds of evaluations and integrating the information from these different evaluations in order to make appropriate and targeted recommendations for intervention and accommodations. Please call Ext 2244 if you have any questions.

Haupt Represents Shelton at Invitational Exhibit

Middle School Art Instructor **Sherry Haupt** represented Shelton in the invitational exhibit, *Artist as Teacher, Teacher As Artist*, held at the Episcopal School of Dallas September 25 - December 4. The exhibit showcased professional artists who teach in private schools throughout the Dallas/Ft. Worth area.

Sherry also conducted a visual art bonding session for professionals enrolled in the Leadership Arts Institute (LAT) of the Business Council for the Arts (BCA) in October. She led the group in creating artist trading cards and a corresponding interview/discussion session. The LAT prepares members for service on boards of art organizations and non-profits in the Dallas area. Sherry was also a juror for the BCA's *On My Own Time* art exhibit at Northpark mall in September.

STEAM+ Approach Makes Learning Optimum

STEM (Science, Technology, Engineering, Math) curriculum is in great demand for the 21st Century learner. We add the "A" for Arts as a part of the design process. In addition, Shelton further modifies these classes by including Social Skills as an integral part of the program. We use social skills to help students learn to work

with others, take turns, share, explain their work, discuss choices, and learn how to handle disappointing results.

The STEAM class combines problem- and performance-based activities. Students are given a problem or design challenge to solve in collaboration with other classmates. They learn to communicate their findings in written and verbal formats, to reflect on the solutions, and are given the opportunity to rethink and improve their designs.

Recent studies included tests to see how many marbles an aluminum foil boat would hold before sinking. Another teamwork exercise involved students putting a gummy life saver around a gummy worm. Another was finding the best design to build the tallest structure. Students have benefitted from the STEAM approach.

Student Council Concludes Full Fall Schedule

The Middle School Student Council spearheaded numerous fall activities: a back-to-school swim party, a party for new students, an annual Halloween parade, and several community service projects (see page 24 *Community Connections*).

Officers for 2015-2016 are:

Co-Presidents – **Sam Korman** (8th) and **Lane Mantzey** (8th)

Co-Vice Presidents – **Katie Clay** (8th) and **Harper Hinds** (8th)

Treasurer – **Slayton Pierson** (7th)

Secretary – **Lindsey Galvan** (7th)

Historian – **Sami Roberts** (8th)

Public Relations – **Garrett Kembel** (8th)

Officers and representatives traveled to San Marcos in November to attend the Texas Association for Student Councils meeting. They also visited the State Capital in Austin. **Ann Wright** and **Lauren Sanders** are faculty sponsors of the group.

40th Trivia

Q: When did Shelton add its Middle School?

A: 1977. We added 7th Grade. Enrollment was 112. We had 31 staff and faculty.

Project Heroes

Shelton parent Clint Bruce (daughter Madeline, 6th grade) spoke to Middle School and Upper School students November 11 at the first *Project Heroes* presentation of the year. The program features people who have overcome significant obstacles and gone on to lead successful lives. Bruce, a Navy Seal, founded the non-profit organization *Carry the Load*. Denying he was a hero, Bruce spoke to students about having 3 A's — allies, angles and advantages. **Chuck Locke** is faculty coordinator of the program.

Homecoming 2015: *It Was a Blue-Out*

Upper School celebrated Homecoming in late September. This year's theme was *Superhero*. Activities included dress-out days, a Pep-nic lunch, Class Olympics, a Blacklight Pep Rally, tailgate parties and the football game against Brook Hill School, and the homecoming dance at NTX Classic Cars and Event Center. *Shelton Pride* was high at an all-school pep rally to recognize fall sports teams and announce the Homecoming Court:

- Homecoming Queen and King: **Haley Thomas** and **Christian Cole**
- Freshman Prince and Princess: **Benny Smith** and **Jenna Fonberg**
- Sophomore Prince and Princess: **Tyler Mitchell** and **Kat Freudenthal**
- Junior Prince and Princess: **Andrew Redd** and **Jordan Brown**
- Senior Homecoming Court: **Zach Jones, Jack Kennedy, Ashton Case, Adrianna Luedtke**

Shelton Salutes Andy Krippner on Veterans Day

In conjunction with *Project Heroes* (see *Middle School News*, pg. 13) Shelton Upper School and Middle School students gave a salute to veterans on November 11 at a special assembly. In addition to hearing *Carry the Load* founder Clint Bruce, the audience honored Andy Krippner (Class of 2010) as his family was presented with a framed memorial photo display. A duplicate piece was presented to the Upper School, and it will hang on the walls in Shelton Upper School. Shelton remains proud of Andy's service to the USA, and he is fondly remembered by Shelton students and faculty.

Eric McGehearty and son Keegan tour the green RV

Roadtrip Nation Selects Shelton for Visit

The Roadtrip Nation program started 15 years ago when three college graduates were trying to figure out what to do with their lives. They decided to interview people in all types of jobs to spark their interest and give them some guidance on some possibilities. They borrowed some money, bought an old RV, painted it bright green and traveled across the United States, speaking with professionals of every kind to learn about their career paths. The first Roadtrip was so successful that the three students passed the RV on to another group of graduating college students. The interviews can be seen on PBS television, and the video archive collection can be viewed on Naviance.

Upper School students think on their future

The legacy continues. The most current tour began this past September. This year's traveling students selected 30 high schools to visit and Shelton was chosen as a stopping point on December 7. Alumnus Eric McGehearty spoke at the Roadtrip assembly. Says Shelton's College / Career Advisor **Debbie Knox**, "I'm super excited our students had this fun experience of touring the green RV."

Pride and Prejudice a Source of Shelton Pride

Upper School Theatre Arts presented the stage adaptation of Jane Austen's popular *Pride and Prejudice* October 21-24. Fifty-five Upper School students were involved with cast and crew in three productions that were a hit with all audiences.

Next on Shelton's playbill is the musical *Guys and Dolls*, which will be produced in February.

Art Everywhere

Upper School

The Upper School Studio Art class studied several advanced carving techniques and then carved their own pumpkins for Halloween, with an emphasis on a non-traditional design. Students enjoyed working outdoors in fall weather for several days.

They also learned several new drawing techniques, including scumbling, script stroke, impressed lines and zero drawing. Student drawings are currently on display in the Lenox Gallery here at Shelton.

Visual Art - collage

In Introduction to Visual Art (Art 1) students created 3-D hanging collages as part of a unit on Shape, Balance, and Emphasis.

Middle School and Fifth Grade Art

The theme for the fall art classes was *What Inspires You?* Students interpreted this idea through drawings, paintings, original linoleum block prints, and clay sculptures. Artists shared their creations and reported on styles of art and artists studied at *Gallery Days* for parents.

Middle School Artists represented Shelton in the International Dyslexia Association Youth Art Gallery, held at the Gaylord Texan Resort, Oct. 27- 30. The exhibit was a colorful and insightful look at the interests and art skills of many young artists.

Alumnus Scoot McNairy Visits Film / Theatre Students

Actor and producer John “Scoot” McNairy visited Shelton October 28 to speak with middle and high school students during a special visit to his hometown. McNairy, who attended Shelton, struck a chord with students when he related with them his experiences of being dyslexic. Film instructor **Cliff Samuelson** and film students also enjoyed interviewing McNairy and filming him for a school project during Shelton’s 40th anniversary.

Describing himself as “highly dyslexic,” McNairy recounts that his being a visual learner drew him to films for that very reason.

McNairy, who now lives in California, worked his way through carpentry and sets, movie extra stints, and later TV commercials that eventually landed him roles in movies. In 2009 his film *In Search of a Midnight Kiss*, which he both acted in and produced, received the John Cassavetes Award at the Independent Spirits Awards. The award honored the best feature made for under \$500,000. McNairy since was nominated for Best Actor in *Monsters* at the 2010 British Independent Film Awards. He shared a Screen Actors Guild (SAG) Award with fellow actors from the ensemble of Ben Affleck’s *Argo*, voted as Outstanding Performance by a Cast in a Motion Picture. He was again a SAG Award nominee with actors from Steve McQueen’s *12 Years a Slave*, an Academy Award winner for Best Picture. McNairy was also selected as one of *Variety’s 10 Actors to Watch*.

Scoot McNairy with niece Emma

Scoot McNairy (center) visits with film and theatre students

McNairy currently stars in the AMC series *Halt and Catch Fire* and has made guest appearances on *CSI*, *How I Met Your Mother*, *Bones* and *Six Feet Under*. He was recently seen in *Gone Girl*. He’ll soon be seen in *Batman v. Superman: Dawn of Justice*, *Sleepless Night* and *War Machine*. His film *Our Brand Is Crisis* opened in November.

McNairy has a brother, cousins and a niece who have attended Shelton, so his visit was a natural homecoming event.

McNairy told students to “Think differently. Take a risk. Use your dyslexia as a gift. Having dyslexia, you’ll have to work hard all of the time. If you mix that with passion, it will serve you well.”

Says Shelton film instructor **Cliff Samuelson**, “It’s great for our students to see success in action in someone who has been in their footsteps, and it’s great for Scoot to see some of our talented students who will pursue a similar career.”

McNairy also made an appearance at the International Dyslexia Association’s (IDA) conference in Dallas, where he received IDA’s Pinnacle Award for achievement. His visit to Shelton and to the IDA event coincided with October, which is Dyslexia Awareness Month.

Groups Perform for Grandparents and Take Holiday Honors

Several performing groups delighted some 1,000 visiting grandparents on November 20 at the annual Grandparents’ Day. **Ken Utz** directed Lower School music students; **Blair King** conducted the Vocal Charge choir; **Jerry Bishop** marked the tempo for the Shelton drumline, which roused the entire audience.

The band and drumline entertained guests at their annual holiday concert on December 3. They also livened spirits at the Richardson Christmas Parade on December 5. The Drumline won first place for the junior/senior high marching division. The band earned Honorable Mention in the heavily contested youth open marching division.

Shelton Collaborates with Stanford Student on Research Study

Shelton School has been collaborating with Joseph Powers, a doctoral student from Stanford University, in a research study being conducted over a two-year period, 2014 - 2016. The study focuses on how student beliefs about their brain development and social surrounds affect their motivation to seek out opportunities and resources

for learning and growth. Shelton students in grades seven through twelve were invited to participate in this study.

Joseph Powers is a fourth-year doctoral student at Stanford University's Graduate School of Education. After teaching students with dyslexia and ADHD, he became interested in how students' basic beliefs about their learning differences and how they learn could foster or undermine their motivation to use educational resources such as learning technologies and improved study strategies. Mr. Powers hopes that by better understanding how students perceive threats to self-integrity and resources for growth we can improve the way all schools foster student engagement, self-integrity and life-long learning.

In the first part of the study, students took brief, online surveys measuring student beliefs about how their brains work as well as related beliefs on learning, social adjustment and motivation. Surveys have continued twice a year to track how beliefs evolve and if performance changes with them.

The second part of the study consisted of a 45-minute online workshop in which students learned scientific facts about brain development and some of the unique developments and strengths among students with learning differences. Students were shown different videos during the workshop so that we could learn which videos were the most effective in teaching them about the human brain.

Students took a third survey in October, 2015. This survey was conducted to better understand students' personal beliefs and experiences in order to provide unique insight into ways education and school culture can be improved. Mr. Powers visited Shelton and was able to speak with students and teachers regarding their educational experience.

It has been rewarding to work with Mr. Powers. Shelton appreciates this opportunity, and we look forward to the results of this study in Fall 2016.

Says Mr. Powers, "It's really been a pleasure to work with the staff and families of Shelton over the past two years. I hope that our study increases our understanding of motivational factors among students with learning differences, but I've really been inspired by Shelton's ability to create a structured environment where teachers have the bandwidth to teach and students with LD have the accommodations they need to learn and thrive."

Children's Medical Center Dallas Sends Pediatric Residents to Shelton

Shelton School has been in collaboration with Children's Medical Center Dallas for several years. Second-year pediatric residents observe at Shelton as part of their Developmental rotation. They observe in the Lower School and Upper Elementary classrooms, group speech and language classes, the Shelton Speech and Language Clinic, as well as in the Shelton Evaluation Center.

Many times a pediatrician is the first point of contact for parents whose children may be experiencing difficulties with reading, writing, spelling, speech, or attention. We are grateful to Children's for the work they are doing and their continued interest in collaborating with Shelton.

TECHNOLOGY UPDATE

Assistive Technology a Shelton Plus, Thanks to SPA

Shelton is dedicated to providing strategies that assist students in learning. Through a gift from Shelton Parents' Association alumnus **Eric McGehearty** (pg. 15), CEO of Globe Runner, collaborated with us to acquire **Christine Chien**, an assistive technology consultant to help our students, teachers, and parents. McGehearty, a dyslexic, is a presenter to such organizations as International Dyslexia Association and Region X Texas Education Agency. He knows firsthand the benefits of assistive technology for the student with learning differences. He has spoken with Shelton's Parents' Association numerous times.

Ms. Chien has consulted this year with **Sally Baird**, Upper School Assistant Head, and **Tina Larson**, Director of Student Information Resources, to familiarize teachers and students with *Snap*, *Read Universal* and *Co-Writer*, as well as top assistive technology apps. She introduced OSMO, an interactive problem solving and language based IOS app, to Lower School and Upper Elementary teachers to help reinforce spelling and word patterns with students.

Ms. Chien will continue to advise and answer questions related to the use of assistive technology. We are pleased to add this component to our academic program.

Shelton Is Third-Year Partner with Commit!

Shelton continues its partnership with Commit! for a third year. Commit! is an organization of over 45 institutions whose mission aligns educational advocates across Dallas County to increase the number of children graduating with some form of higher education degree. Shelton has partnered with Dallas ISD's Cabell Elementary through Commit!

This fall Shelton has continued its involvement with Cabell by:

- Providing refreshments for a PTA meeting at Cabell
- Providing 16 Shelton math files for Cabell math faculty
- Sharing Shelton's *Choices* program at a Cabell in-service program
- Hosting Cabell teachers for observation in Shelton Lower School and Upper Elementary classroom
- Discounting Shelton's *Choices* curriculum manuals for Cabell employees
- Collecting toiletries, stuffed toys, puzzles, coloring books and school supplies for the Good Samaritan Purse Project (Cabell's students will be using some of the items for filling boxes for the needy)

Says **Amy Kelton**, who spearheads Shelton's collaboration with Commit!, "We enjoy our ongoing partnership with this rewarding project. Staff and students at each school gain much from the program."

Shelton Participates in Center for Transformational Leadership

Twelve Dallas Independent Schools (including Shelton), the Independent School Association of the Southwest (ISAS) and the Annette Caldwell Simmons School of Education and Human Development at Southern Methodist University (SMU) have teamed together to create a center that is intended to provide learning experiences for a wide range of high-capacity school personnel — from teachers leading from their classroom, to those aspiring to move into administration, and those presently in leadership positions.

Amy Kelton is representing Shelton for this project. “We are honored for Shelton to be included in this amazing and innovative program. I am excited for us to have a voice as we rethink our educational system and develop new models,” says Amy.

In addition to enlivening face-to-face learning experiences, the Center will likely use a unique virtual learning platform to unite learners across barriers of time and place.

This fall Shelton faculty and staff participated in a survey and gave feedback concerning their greatest areas of need and interest to the Center as it continues to develop models and experiences for aspiring independent school leaders. Responses were collected and are being aggregated by the Center on Research and Evaluation (CORE) at SMU.

Shelton looks forward to the ongoing work of the Center as it seeks to create transformative leadership and promote thoughtful, agile change in our schools through:

- Catalyzing innovation
- Facilitating growth
- Engaging others
- Building efficiencies
- Realizing self

2804 ... and Counting

Shelton students, staff and parents serve the community in a wide array of community service activities. To date, 2,804 hours have been turned in for the 2015-2016 school year by Upper School students alone. This includes hours completed during the summer, weekends and a community service day for freshmen and sophomores. Freshmen and sophomores complete 10 hours of community service per school year; juniors and seniors complete 20 hours per school year. Community service remains an integral part of Shelton's culture.

Shelton's David Martineau Honored as Father of the Year

Shelton Board of Trustees member David F. Martineau was honored June 2, 2015 as a Father of the Year at the 40th annual Father of the Year Awards Luncheon at Frontiers of Flight Museum in Dallas. David was one of three, along with Michael A. Jenkins and Kneeland Youngblood, recognized as being an exceptional father, philanthropist and businessman.

The event benefits the selected charities of the honorees, and Shelton was David's beneficiary. David is exploration manager for Pitts Oil Company, LLC. A founding board member of Shelton, he is the sole member to remain in board service since Shelton's inception in 1976. He and his wife Sara are parents to son David T., a student in Shelton's first class, and daughter Maria.

Says Suzanne Stell, "David Martineau is a fine and upstanding man who has helped so many in Dallas, as well as many in need of Shelton's educational program."

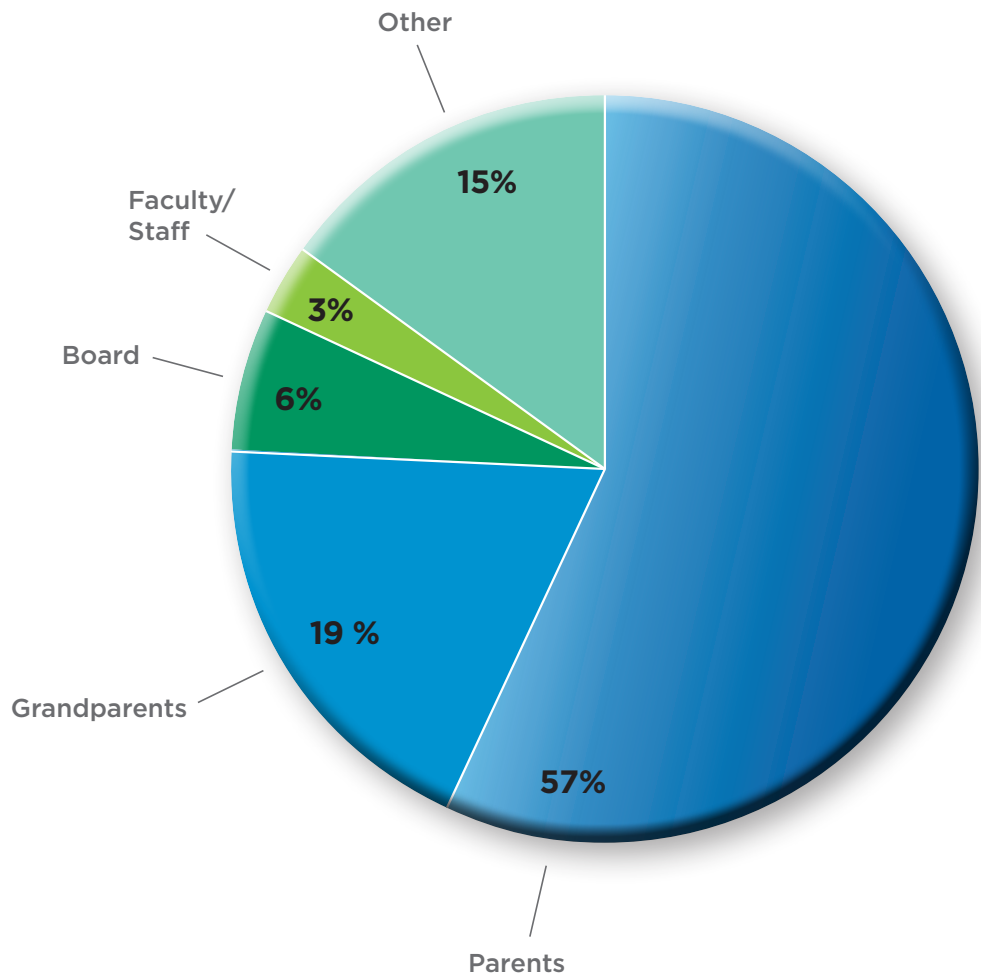

(L to R) Suzanne Stell, Sara and David F. Martineau, Joyce Pickering, David T. Martineau

DELPHI SOCIETY

DELPHI
SOCIETY

Delphi is a small town in the mountains of Greece where the famous oracle of Apollo supposedly took place, announcing the future. It is a symbol for seeking to know and shape the future.

To honor those individuals who seek to shape the future of Shelton School, the Delphi Society was established in 2003. The Society recognizes and thanks alumni and friends of Shelton who have created provisions in their wills or estate plans to benefit Shelton School.
