Bermuda's

411

Enhanced Directory Assistance

Bermuda's 411 Enhanced Directory Service is expanding to include data from ALL Bermuda telecoms. For the first time, data from **CellOne**, **Digicel**, **Quantum** and **Northrock** if you request, will be included in the 411 database.

Is your business listed?

If you would like **your business number added** to the 411 service you must contact your service provider and make the request. Do not contact BTC or Bermuda Yellow Pages as the request must come from the customer's service provider.

Listing in the 411 database is FREE! All it costs is the time it takes to make the call
