# Welcome to our Land Rover Popular Parts Catalogue

This catalogue lists popular items for all Land Rover vehicles.

We also have more detailed catalogues available for Range Rover Classic & P38, Range Rover Sport, Discovery 1, 2 and 3, Defender and Freelander 1 – please request your free copy.

Details of all our other catalogues can be found on the inside rear cover.

We pride ourselves in being able to offer from stock, a vast array of genuine, OEM and Aftermarket parts at competitive prices and deliver them fast - worldwide. We have sophisticated systems to handle, process and track your order – delivering the service you expect from a name that has been in the parts business for nearly 35 years.

We identify parts so that you know what you are buying. When there are alternatives to the original Land Rover part, we use a simple numbering system so that you can select the part that best suits your needs and budget. This avoids any confusion when comparing quality and price:

- **Aftermarket (reproduction) part – will have a P suffix**
- **OEM (original equipment manufacturer) part – will have a P1 suffix**
- **Genuine (Land Rover boxed) part – will have a plain number**

We are also able to offer a full technical sales and customer service back-up to help select the parts you need and to ensure that everything you order meets expectations.

## Can't find what you're looking for?

Rimmer Bros is an authorised Land Rover Parts Distributor. We have access to the full range of genuine Land Rover parts - for every model direct from Land Rover. For parts not listed in this catalogue, please contact us quoting your full VIN number.

## PRICING

The prices in this Catalogue were correct at the time of printing but are subject to change without prior notice. Please confirm all prices when ordering.

Our website gives up-to-the minute information regarding availability and the price of any item. We show two prices in GBP, one excluding VAT (for worldwide, outside EU countries) and one including UK VAT at 20%. Orders shipped to certain EU countries will be charged EU VAT at that country's prevailing rate - please see 'VAT' below.

All orders will be invoiced and charged in GBP. All goods are sold subject to the price ruling at the time of invoicing.

## VAT

Residents of the UK and certain EU countries pay 20% UK VAT (Sales Tax) on parts and delivery. Due to EU legislation, where we exceed the export threshold to a country, we must VAT register and charge VAT at that country's prevailing rate. UK VAT is charged at 20% on EU shipped orders except in the following countries; Austria 20%, Belgium 21%, Denmark 25%, Finland 24%, France 20%, Germany 19%, Ireland 23%, Italy 22%, Netherlands 21%, Portugal 23%, Portugal Azores 18%, Portugal Madeira 22%, Spain 21%, Sweden 25%. Our EU VAT number will be shown on the invoice.

Note that books and manuals are generally zero rated for VAT purposes.

For EU businesses who are VAT registered, we require your VAT number and official order to export at VAT exempt prices.

For Worldwide (outside the EU) orders sent direct from our premises, VAT is not charged however, any local import duty, taxes or customs clearance are not included in our prices and must be paid for by you, usually at the time of delivery by the Carrier.

Visitors to our shop & sales counter from outside the EU can reclaim the VAT (when leaving the country) using a VAT407 Reclaim Form which we can provide upon request. This form cannot be used for Mail Order transactions.

## QUOTATIONS

If you require a written quotation for the part(s) and/or delivery charge(s) before ordering, please contact us.

## BACK ORDERS

Back-ordered parts are not charged for until despatch. Upon despatch we will charge the price (in GBP) quoted at the time of ordering. Prices will be unaffected by any subsequent price alterations unless advised in writing to you.

Please notify us in writing (letter, fax or email) if you wish to cancel any back ordered items. Back orders are automatically cancelled after 3 months. Back Ordered parts will be sent carriage free (some exclusions apply for export overseas). If you would prefer that your order is sent complete, please request this at the time of ordering.

## SPECIAL ORDERS

Certain items (coloured trim, carpets, one-off type parts, etc) are sometimes only available by special order. This means we have to order them for you specially from the manufacturer. For this reason, we require a 20% non-refundable deposit upon taking your order. The balance is payable when the goods are despatched.

Please note that special order items can take several weeks to be supplied and are non returnable.

**At Rimmer Bros, we opt to use the best carriers in the business to ensure your order is delivered safely, securely, and on time.**

Orders are despatched as soon as practically possible. If your parts are required urgently and you want an express delivery service, please tell us.

We use Royal Mail's first class post service or international standard (formerly air mail) service for small packages and DPD, UPS and Fedex for most of our domestic and the majority of our overseas parcels. Larger domestic orders are sent via DX Freight, and for customers in Europe we also utilise DPD (as an alternative to UPS) for a cost effective, economy delivery service by road.

These options provide our customers with a choice of the best services available.

Guide prices for shipping (including packaging and handling), are shown below.

Shipping charges for export of oversize parcels outside the UK may need to be quoted once the order is picked and packed. Please also see below for further details.

Once your order is shipped and providing we have your email address, we will email confirmation to you, including tracking information if applicable.

Please note that as a security measure, your first order with us must be delivered to the credit card holders registered address.

## United Kingdom

We utilise Royal Mail's first class post service, DPD or UPS Standard Service, depending upon size, weight and urgency. Larger domestic orders are sent via DX Freight or Pallet couriers.

We aim to despatch all UK orders within 24hrs, subject to stock availability and payment being received. Orders containing items which are advertised as "available to order", or are temporarily out of stock will take longer, depending on stock availability from our suppliers.

The majority of UK orders are delivered within 1-3 working days. Certain off-shore, remote, Scottish Highland and Northern Ireland destinations may take longer. Bulky and very heavy items may also take longer. If you require your parts urgently, a UK Mainland next working day express option is available for orders placed by 3pm except for oversize parcels where the order must be placed by 10am. You can also choose to have your order sent to an alternative work address or direct to your garage. A nominated delivery day option is also available, as is a same day service for very urgent items. All orders sent by carrier or Royal Mail Special Delivery / DPD pre Noon will require a signature on delivery. We will send you an order despatch confirmation email and tracking number providing we have your email address. Order tracking is not available for Royal Mail first class post deliveries, so please wait a full 3-5 working days for your order to arrive. Royal Mail will only accept claims for loss after 10 working days from due date on first class post and 5 working days on Special Delivery.

Shipping charges (including packaging & handling) are calculated on the weight of the consignment and the desired shipping method.

Please note that our minimum postage charge reflects our cost of processing, picking, packing and despatching your order and may sometimes appear disproportionate with an order of very low value. An order of £10 or less will usually attract the minimum postage charge, so we recommend you add some other items to increase the order value to make the postage charge more cost effective.

The UK chart on the opposite page is a guide to our shipping charges and transit times.

Supplements apply to out of area rural destinations including Highlands, Scottish Islands, Northern Ireland, Isle of Man, Isle of Wight, and the Channel Islands and for certain 'hazardous' products, such as aerosols, paints, fluids and chemicals. Please enquire for shipping to BFPO addresses. Any quoted delivery times are for 'working days' from despatch and exclude weekends and bank holidays. All delivery times are guides. Certain large or bulky items may incur an additional packing charge. Please note that the delivery driver may need assistance to unload large/heavy items - Please advise if special delivery arrangements are required.

## EU Countries

We utilise Royal Mail Airmail for small parcels and DPD Classic for an economy, larger parcel delivery service by road for most European destinations at a low, fixed price box rate up to 31.5Kg (not exceeding 175cm length and 300cm girth which is length cm + 2 x width cm + 2 x height cm) - meaning that it costs no more to include extra parts! We also use UPS Road and Air services. Large European orders are sent by air or road freight by alternate carriers, depending upon destination and speed of service required.

We aim to despatch all export orders within 48 hours of receipt, subject to stock availability and payment for goods and shipping charges being received. Orders containing items which are advertised as "available to order", or are temporarily out of stock will take longer depending on stock availability from our suppliers. To keep shipping charges as low as possible, we may hold orders until all stock is available to ship as one consignment.

Delivery times will be dependent on location and delivery method selected. See guide below for estimated times. Bulky and very heavy items may take longer. If you require your parts urgently, an Express option is available. A Next Day service is available for very urgent orders to certain European locations. All orders sent by Carrier will require a signature on delivery. You can choose to have your order sent to an alternative work address or direct to your garage. We will send you an order despatch confirmation email and tracking number providing we have your email address. Order tracking is not available for Royal Mail Air Mail deliveries and we cannot accept a claim for loss unless at least 20 working days have passed from the due delivery date.

Shipping charges (including packaging & handling) are based on weight and volume. Our order system automatically calculates the shipping charge based only on the weight of the goods.

For orders that include oversize, large / bulky parts (e.g. body panels), an additional shipping charge may be incurred, which may not be reflected at the time of ordering. This is because the charge is calculated on physical weight, rather than volumetric weight. This can not be calculated until the order is packed, measured and weighed. If the volumetric weight exceeds the physical weight, we will notify you by email prior to despatch if the estimated shipping charge is insufficient and inform you of the new shipping total, seeking your authorisation to proceed.

Certain large or bulky items may also incur an additional packing charge.

The EU chart on opposite page is a guide to our shipping charges and transit times for EU destinations

Any quoted delivery times are for 'working days' from despatch and exclude weekends and bank holidays. All delivery times are guides. Small orders are sent via Royal Mail Air Mail service and will usually arrive within 5-15 days depending on location. Large and bulky or heavy items and orders, will be sent using international freight services. We will contact you to advise on prices and service speeds available to your destination.

VAT at the ruling rate will be applied to the order if shipped within the EU. Please note that there may be shipping restrictions for overseas destinations for certain 'hazardous' products, such as aerosols, paints, fluids and chemicals. Please enquire for shipping to BFPO addresses. Orders can not be sent to American Forces Post Offices (APO's).

## OTHER THINGS TO NOTE

### Please check your parcels

When you sign for a parcel being delivered, please inspect it carefully. If it has suffered in transit, you can mark the delivery note 'Parcel Damaged', before signing, or even refuse delivery in serious cases. We do of course pack carefully to help avoid these problems! Some deliveries involve more than one parcel - please check that all have been received.

We must be advised within 48 hours of delivery of any shortages or damaged goods.

### Loss In Transit

If your parcel does not arrive, we have to establish our claim with the carriers concerned before we can send a replacement consignment. This can sometimes be a lengthy process, and if your part is needed urgently, a second order can be paid for to save time. We refund one of your orders as soon as the carriers clear our claim.

**Worldwide (Non EC Countries)**

We utilise Royal Mail Airmail and a combination of UPS and Fedex services. Larger overseas orders are sent by air or sea freight by alternate carriers, depending upon destination and speed of service required.

We aim to despatch all export orders within 48 hours of receipt, subject to stock availability and payment for goods and shipping charges being received. Orders containing items which are advertised as "available to order", or are temporarily out of stock will take longer depending on stock availability from our suppliers. To keep shipping charges as low as possible, we may hold orders until all stock is available to ship as one consignment.

Delivery times will be dependent on location and delivery method selected. See guide below for estimated times. Bulky and very heavy items may take longer. If you require your parts urgently, an Express option is available. All orders sent by Carrier will require a signature on delivery. You can choose to have your order sent to an alternative work address or direct to your garage. We will send you an order despatch confirmation email and tracking number providing we have your email address. Order tracking is not available for Royal Mail Air Mail deliveries and we cannot accept a claim for loss unless at least 25 working days have passed from the due delivery date.

Shipping charges (including packaging & handling) are based on weight and volume.

Our order system automatically calculates the shipping charge based only on the weight of the goods.

For orders that include oversize, large / bulky parts (e.g. body panels), an additional shipping charge may be incurred, which may not be reflected at the time of ordering. This is because the charge is calculated on physical weight, rather than volumetric weight. This can not be calculated until the order is packed, measured and weighed. The Worldwide chart opposite is a guide to our shipping charges and transit times for Worldwide (Non UK/EU) destinations

Any quoted delivery times are for 'working days' from despatch and exclude weekends and bank holidays. All delivery times are guides. Small orders are sent via Royal Mail Airmail service and will usually arrive within 5-15 days depending on location. Large and bulky or heavy items and orders, will be sent using international freight services. We will contact you to advise on prices and service speeds available to your destination.

We do not charge VAT on orders despatched directly outside the EU however, any local import duty, taxes or customs clearance are not included in our prices and must be paid for by you, usually at the time of delivery by the Carrier. ## RETURNS & EXCHANGE OLD UNITS

All returns must be pre-authorised with a returns authorisation (RA) number. Returned products without an RA number will be subject to delay and possible return to sender. All returns are subject to a physical inspection.

We must have received and inspected the product before an exchange or credit can be issued (see also Warranty & Legal Info). Defective items are backed 100% and after 30 days can be returned for exchange only.

### Returns of Parts Not Required - within 14 days

All goods sold by Mail Order are covered by the Consumer Contracts Regulations, which allow for a fourteen day 'cooling off' period during which you may cancel your order (in writing) by sending us a letter, fax or e-mail at any time up to and including the fourteenth working day after the day on which you received your purchase.

If you exercise your statutory right to cancel you must immediately return to us (at your own cost), the item(s) that you do not wish to keep. Return carriage charges are non-refundable. We will acknowledge receipt of your written cancellation by issuing a 'Returns Authorisation Number' which should be quoted and accompanied by a proof of purchase or invoice when returning the goods.

Please ensure all goods are adequately packed to avoid damage, that you insure them accordingly with the carrier used and obtain a proof of shipment. Please note that all goods must be in the condition supplied at the point of sale and with their original, undamaged packaging. Returns are not permitted on parts specially ordered by Rimmer Bros on customer's behalf.

### Returns of parts not required - within 14 - 28 days

As an added benefit to Rimmer Bros customers and in addition to your statutory cancellation right (as detailed above), returns may be considered outside the 14 day cooling off period up to and including 28 days after you receive your purchase, subject to the following criteria. Please note that any offset, credit or refund will be at the sole discretion of Rimmer Bros Ltd.

A 'Returns Authorisation Number' must be applied for within the 14 to 28 day period. Where goods have been correctly supplied, it may be possible to offset the full value of the return against another order of the same or higher value. Alternatively, a credit note (for the full value) could be offered. Please note that any cash refund will be subject to a handling charge (typically 15% min £5) to cover administration and re-stocking costs. Return carriage charges are non-refundable.

All goods returned for a credit or exchange must be accompanied by our invoice quoting the 'Return Authorisation Number'. Please complete the form on the reverse side of the invoice. Goods must be adequately packed to avoid damage. You should insure them accordingly with the carrier and obtain a proof of shipment. No responsibility can be accepted for goods received by us, damaged. Goods must be in the condition supplied at the point of sale and with their original, undamaged packaging. Returns are not permitted on parts specially ordered by Rimmer Bros on customer's behalf.

### Returns of Parts Not Required - Outside 28 days

No returns will be considered after 28 days unless covered by the terms and conditions of our Warranty.

### Returns of Exchange 'Old Units'

There is no specific time limit for the return of exchange old units except for Genuine Land Rover parts, where old core must be returned within 80 days. Please contact us prior to returning the old unit for a 'Return Authorisation Number'. This speeds up the process of returning the surcharge refund. See reverse of invoice for full details of returns procedure.

Please note that old core must be complete and serviceable and drained of fluids where applicable. We reserve the right to retain all or part of the surcharge if the unit is irreparable, damaged or not identical to the type supplied.

Old core parts should NOT be disassembled for inspection purposes.

The core parts returned MUST be the same as the original part supplied and MUST be returned in the packaging used for the supply of the original part, AND must be safely fixed/fastened in that packaging – failure to comply may result in a charge being levied for any resulting or consequential costs incurred.

Returned core parts should NOT be cleaned by abrasive methods such as sandblasting or glass beading. If such cleaning methods have been used and damage has occurred the return core will be rejected and no credit will be issued.

### Other Returns

Other returns will be dealt with in accordance with your statutory rights, if applicable, or our warranty.

### Returns Processing

Please note that returns are processed as quickly as possible. During busy periods, especially in the Spring and Summer, returns may take up to 14 days to process. Your statutory rights remain unaffected.

## WARRANTY & LEGAL INFO

### Parts Warranty

All new and reconditioned parts are covered by a 12 month manufacturer's warranty unless specifically stated. You should notify us immediately if a potential warranty situation arises. We will then advise a course of action. Any suspected faulty part must be returned to us together with the original invoice or proof of purchase and with as much information relating to the problem as possible. **Please note that a defective part must be returned and received by us before it can be exchanged.** All warranty parts are subject to a physical inspection. This may involve returning the part to our supplier to verify the fault before it can be exchanged. Defective items are backed 100% and after 30 days can be returned for exchange only. For warranty claims please state vehicle chassis number, date fitted & mileage, date failed & mileage and exact nature of fault.

The warranty period commences from our invoice date not from the date of installation or first use. This warranty covers defects to the part when fitted and used correctly for normal, everyday vehicle use but does not apply to parts used for any extraordinary or unusual uses such as competition, racing, rallying or parts subsequently stripped down, altered, modified or adapted etc. in any way from their original design or intended use.

Although we are, by law, liable for death or personal injury caused by our proven negligence and by the Consumer Rights Act 2015, our warranty only covers the parts in question and not to any consequential loss or cost, eg garage labour, recovery, car hire, re-delivery, parking fines etc. No claim will be validated if the failure is caused by misuse, neglect, overheating, incorrect installation or failure of a related component.

Any part replaced or repaired under warranty, will only benefit from the balance of the cover remaining from the original purchase date. Warranties are not transferable. Acceptance of goods is deemed as acceptance of these terms. The warranties are in addition to, and do not affect your statutory consumer rights.

### Legal Info

Errors & Omissions Excepted. Please tell us if you think something is wrong in this Catalogue. All parts offered subject to availability.

All part numbers, illustrations and photographs used are intended for reference and identification purposes only and are not necessarily an exact representation of the goods supplied. Photographs of parts should be considered indicative of what we supply rather than an exact representation as sources of supply and manufacture can change.

Whilst we make every effort to ensure the accuracy of product descriptions, illustrations and photographs, they are based upon information supplied by the manufacturer or distributor at the time.

There may be occasions - due to circumstances beyond our control - when specifications are changed, or when goods become temporarily unavailable.

Certain part numbers may have been superseded to an alternative number when a later version or updated specification is offered.
