HELPING YOU CARE FOR YOUR RANGE ROVER SPORT

Since the early 1980s, Rimmer Bros. has specialised in supplying parts for British cars. In 1982 we started selling Classic Triumph parts and by the mid 80's were supplying stainless steel exhaust systems for Land Rovers and other 4x4 vehicles. In 1993, we added to our range of parts catalogues when we began stocking parts for the Rover SD1.

In the summer of 2000, to celebrate 30 years of Range Rover production, we launched our parts catalogue for the Range Rover Classic. This was a natural move, as a vast number of Range Rovers were powered by the Rover V8 engine - a subject in which we specialise. This was followed by our Discovery, Discovery Series II, Range Rover P38a, Freelander, Defender and Discovery 3 parts and accessories catalogues. In 2005, Rimmer Bros set up an MG Rover Parts business covering all models and more recently, Jaguar 1998 on.

We are now pleased to introduce our latest parts and accessories catalogue, for the Range Rover Sport (2005 to 2009). This catalogue lists a comprehensive range of genuine, original equipment manufacturer (OEM) and aftermarket parts and accessories. Our web site also features this catalogue and lists recently introduced products and parts updates. For Range Rover Sport models 2010 on, please also refer to our website.

Please note that our catalogue predominantly covers UK and non USA Models. Although most parts listed are common to the Rest of the World Markets, there are sometimes specific parts for certain countries that are different to those listed herein. If unsure, please contact us quoting your full VIN number.

Our customers are owners, garages and other specialists looking for a fast, reliable source of original and high quality aftermarket parts and accessories available by mail order or over the counter. We have the latest technology to ensure orders are processed efficiently and despatched promptly to wherever you are - UK or worldwide.

Our aim with this catalogue is to apply our expert parts service to Range Rover Sport 2005-2009, helping you to maintain and enhance your vehicle at affordable cost.

APPROVED BY LAND ROVER

Rimmer Bros is an authorised Land Rover Parts Distributor. This means we have access to the full range of genuine Land Rover parts - for every model.

This catalogue features genuine parts throughout - at affordable prices - alongside aftermarket parts.

The added advantage of being able to order a part for any Land Rover from the convenience of your home or workplace, means the Rimmer Bros service is hard to beat!

THE CARS WE SPECIALISE IN

As well as caring for your Range Rover Sport, we also supply parts for Range Rover, Discovery, Evoque, Freelander, Defender, 90/110 & Land Rover 'Series' vehicles.

Additionally, we also supply parts for Triumph TR2-8, Stag, Herald, Vitesse, Spitfire, GT6, 2000/2500/2.5Pi, Dolomite, Rover SD1, MG Rover cars including - Rover 100/200/400/600/800/25/45/75/ZT, MGF & MG TF. In addition we are developing a range of fast moving parts for Jaguar 1998 on models.

Please refer to inside rear cover for details on all our catalogues or our web site www.rimmerbros.co.uk

How to Order

WEBSITE	www.rimmerbros.co.uk
TELEPHONE <i>UK office hours only</i>	UK - 01522 568000 Overseas - +44 1522 568000 From the USA - 1 855 7462767
EMAIL	lrsales@rimmerbros.co.uk
FAX	UK - 01522 567600 Overseas - +44 1522 567600
POST	Triumph House, Sleaford Road, Bracebridge Heath, Lincoln LN4 2NA, England
COLLECT IN PERSON	Our sales counter is open 8.30am-5.30pm Monday-Friday and 8.30am-1pm Saturday. <i>We also offer a 'click and collect' service to save you time.</i>

PAYMENT

We accept all major credit, debit and charge cards and also Paypal on orders where all items are in stock. Orders can also be pre-paid by bank transfer (in GBP/Euro/US Dollar- see website or Price Guide for details) or cheque (in GBP-please allow a few extra days for clearance). If you send cash or Rimmer Bros Vouchers, please use registered mail, as we cannot accept responsibility for any loss.

PRICING

There are no prices in this catalogue. Use it to select the parts you need, then check the cost by referring to our website or the separate Price Guide / CD rom. Our website gives up-to-the minute information regarding availability and the price of any item.

All orders will be invoiced and charged in GBP. All goods are sold subject to the price ruling at the time of invoicing.

VAT

For details on VAT, & VAT exempt sales, please refer to our website or Price Guide / CD rom.

PART NUMBERS & IDENTIFICATION

We identify parts so that you know what you are buying. When there are alternatives to the original Land Rover part, we use a simple numbering system so that you can select the part that best suits your needs and budget. This avoids any confusion when comparing quality and price:

- **Genuine (Land Rover boxed) part** – will have a plain number
- **OEM (original equipment manufacturer) part** – will have a P1 suffix
- **Aftermarket (reproduction) part** – will have a P suffix

In addition, there is also equivalence with certain Rover/Triumph numbers or when we use our own part number where no original part number exists.

QUOTATIONS, BACK ORDERS & SPECIAL ORDERS

Quotations

If you require a written quotation for the part(s) and/or delivery charge(s) before ordering, please contact us.

Back Orders

Back-ordered parts are not charged for until despatch. Upon despatch we will charge the price (in GBP) quoted at the time of ordering. Prices will be unaffected by any subsequent price alterations unless advised in writing to you. Please notify us in writing (letter, fax or email) if you wish to cancel any back ordered items. Back orders are automatically cancelled after 3 months. Back Ordered parts will be sent carriage free (some exclusions apply for export overseas). If you would prefer that your order is sent complete, please request this at the time of ordering

Special Orders

Certain items (coloured trim, carpets, one-off type parts, etc) are sometimes only available by special order. This means we have to order them for you specially from the manufacturer. For this reason, we require a 20% non-refundable deposit upon taking your order. The balance is payable when the goods are despatched. Please note that special order items can take several weeks to be supplied and are non returnable.

SHIPPING

At Rimmer Bros, we opt to use the best carriers in the business to ensure your order is delivered safely, securely and on time. The shipping method and cost is based upon what you order, where you want the parts sending and how quickly you want them.

Orders are despatched as soon as practically possible. If your parts are required urgently and you want an express delivery service, please tell us.

For shipping methods and guide prices, (including packaging and handling), please refer to our website or Price Guide.

Shipping charges for export of oversize parcels outside the UK may need to be quoted once the order is picked and packed.

Once your order is shipped and providing we have your email address, we will email confirmation to you, including tracking information if applicable.

Delivery times will be dependent on location and delivery method selected.

Please note that certain 'hazardous' products, such as aerosols, paints, fluids and chemicals cannot be sent via post or by air freight.

RETURNS & EXCHANGE OLD UNITS

Returns

Please refer to our website or Price Guide for full details.

All returns must be pre-authorized with a returns authorisation (RA) number. Returned products without an RA number will be subject to delay and possible return to sender. All returns are subject to a physical inspection. We must have received and inspected the product before an exchange or credit can be issued.

WARRANTY & LEGAL INFO

Please refer to our website or Price Guide for full details.

Parts Warranty

All new and reconditioned parts are covered by a 12 month manufacturer's warranty unless specifically stated. You should notify us immediately if a potential warranty situation arises. We will then advise a course of action. Any suspected faulty part must be returned to us together with the original invoice or proof of purchase and with as much information relating to the problem as possible. Please note that a defective part must be returned and received by us before it can be exchanged. All warranty parts are subject to a physical inspection. This may involve returning the part to our supplier to verify the fault before it can be exchanged.

Legal Info

Errors & Omissions Excepted. Please tell us if you think something is wrong in our catalogue. All parts offered subject to availability. All part numbers, illustrations and photographs used are intended for reference and identification purposes only and are not necessarily an exact representation of the goods supplied. Photographs of parts should be considered indicative of what we supply rather than an exact representation as sources of supply and manufacture can change. Whilst we make every effort to ensure the accuracy of product descriptions, illustrations and photographs, they are based upon information supplied by the manufacturer or distributor at the time. There may be occasions - due to circumstances beyond our control - when specifications are changed, or when goods become temporarily unavailable. Certain part numbers may have been superseded to an alternative number when a later version or updated specification is offered.

Range Rover Sport, 2005–2009

Range Rover Becomes a Family

From 1970 until 2004, Range Rover was proudly but simply the name of the top model in the Land Rover line-up. Increasingly luxurious as the years went by, it was the Land Rover product to aspire to. Then, in 2005 the Range Rover Sport was introduced and all of a sudden Range Rover became a brand rather than a model, the gold standard premium name that would be applied to a family of Land Rover premium cars.

Sure, the Range Rover itself was still in the line-up, at the top of the tree as usual. Now, though, there was another Range Rover badged model with the same brand values but aimed at a different audience: Range Rover Sport. A few years later would come Range Rover Evoque, aimed at a different clientele again but still incorporating the same instantly recognisable brand values. It was a brave move to take the name of such a distinguished vehicle and make it into a brand without watering down or tarnishing the image. Land Rover achieved it in 2005, with great aplomb.

L319 and L320 Projects

Back in 2000, at the tail end of BMW's ownership of Land Rover, two very closely related projects to replace the current Land Rover Discovery were begun: L51, a seven seat high roof model following established Discovery values and L50, a lower, five seat model with more sporting overtones. Upon Land Rover becoming part of The Ford Motor Company, L51 and L50 were re-evaluated and given Ford project names, the former becoming Discovery replacement L319 and the latter morphing from a smaller sporting Discovery into a smaller Range Rover (the 'Sport') and becoming L320.

Ford naturally would have preferred the two new Land Rovers to share a platform with one of its products, but this was quickly found to be unsuitable and so a new platform was developed. Known as the T5 platform, 'T' meant truck, as Ford classed sports utility vehicles, and '5' was for the different wheelbase versions: Discovery 3, Range Rover Sport, plus the three wheelbases of a Defender replacement project that as it happened was never to see the light of day.

The T5 platform was revolutionary; instead of a body entirely supported by a strong ladder frame chassis (like most previous Land Rovers) it consisted of a lighter separate chassis with thinner - but strong - hydroformed members, sitting under a body that would be partially load bearing itself. The theory was to give the car the plus points of both a monocoque body and a ladder frame chassis. It worked. Land Rover called it 'Integrated Body Frame' construction. When Discovery 3 and then Range Rover Sport were launched, the motoring press called it 'too heavy'. Unfortunately they were right: Discovery 3 was a third of a tonne heavier than the larger Range Rover and even the smaller Range Rover Sport was the same weight.

Early Range Rover Sport styling ideas featured two door bodies, which coupled together with the car's smaller size (smaller than the then current Range Rover) made it look very much like a perfect update of the original Range Rover Classic. A four door body was quickly settled upon, however.

By April 2004, the new Discovery 3 (L319) was ready for launch. A couple of months previously the public had been treated to the sight of a concept car that would introduce the idea of a sporting Range Rover. Called the Range Stormer, it reverted to two doors (of the dramatic scissor-opening type) and a whole host of eye-catching features most of which were impractical for production. It did, however, combine established Range Rover styling features with overtly sporting ones and as such sowed the Range Rover Sport seed in the public's imagination and was much enthused over by everyone who saw it. In a little under a year the Range Rover Sport (L320) was unveiled and, hey presto, everyone linked it back to the very popular Range Stormer concept. Job well done!

A Runaway Success

Range Rover Sport was publicly launched at the end of 2004 and made available from the middle of 2005. Sales from the outset were phenomenal; by 2006 it had overtaken the smaller, less expensive Freelander as Land Rover's best selling vehicle and while it took some sales away from its sister model Discovery 3, the majority of Range Rover Sport purchases were by customers new to Land Rover products.

2007 saw the Range Rover Sport's success story continued and while by 2008 and 2009 Land Rover sales generally were affected by the global financial crash, Range Rover Sport sales still more than held their own relative to other Land Rover products. It was immediately established as a permanent and very lucrative asset in the Land Rover line up. An amazing success story and total vindication of the risky strategy to turn Range Rover into a brand. To date, aside from the years immediately following the financial crash, Range Rover Sport sales figures have always held to around 60000 units per year: phenomenal for such a big, expensive car.

The Supercharged Effect

The most powerful, most sporting Range Rover Sport came with the 400bhp, 4.2 litre Jaguar supercharged V8 petrol engine. Modified for Land Rover use (i.e. potentially off road) and providing startling performance to match or beat most executive cars, the supercharged engine created a very attractive, sporty halo around the whole Range Rover Sport model line up. Customers who bought models with the alternative petrol or diesel engines were buying into the same performance image, even if their particular cars weren't capable of 140 miles per hour or 0-60mph in 7.2 seconds. Customers who bought the supercharged car (and yes they really did include plenty of professional footballers!) simply rejoiced in its absurdly competent abilities, albeit usually more on tarmac than off it.

A normally aspirated 300bhp, 4.4 litre Jaguar V8 petrol engine was also offered and became the entry level engine in Range Rover Sports in markets where diesel models were unpopular or not even listed. As with the supercharged engine, the 4.4 litre V8 was manufactured within a special Jaguar area of Ford's Bridgend engine factory in South Wales. Featuring variable valve timing, it was more than capable of living up to most high performance expectations but was never very popular in countries where a diesel model made more economic sense. When in 2007 the TDV8 diesel arrived to soundly beat it in both performance and fuel economy, the 4.4 litre V8 petrol was quickly dropped from the UK and European price lists.

As with Discovery 3, the most important engine for European markets and many others would be the 2.7 litre TDV6 diesel, which was expected at the time of launch to be fitted to the majority of vehicles for those markets. This smooth 190bhp V6 engine, fitted with a large, single turbocharger in its Land Rover Discovery 3 and Range Rover Sport applications to increase low

range torque for off-road and towing use, was a member of Ford and Peugeot's 'Lion' engine family, also to be seen in different states of tune in Fords, Jaguars, Peugeots and Citroens and manufactured by Ford at its Dagenham plant in England.

For the 2007 model year, the TDV6 received a makeover to enable it to comply with the latest European emissions regulations. Most Euro Stage 4 engines were equipped with (and were most obviously identifiable by) the diesel particulate filter or DPF in the exhaust system. However, some countries that were not subject to the new regulations continued to receive TDV6 models with the earlier EU2 or Euro Stage 4 (without DPF) emissions equipment for some time afterwards.

2007 was to see another diesel engine introduced for the Range Rover Sport line up. The TDV8 was another member of the Ford/Peugeot Lion diesel engine family and was very closely related in some respects to the 2.7 litre TDV6. Developed especially for the Range Rover (L322) and Range Rover Sport applications, it was a 3.6 litre, wide angle V8, twin turbocharged engine developing a very lusty 268bhp. More spectacularly it produced a maximum 470lb ft of torque, which was even some 60lb ft more than the supercharged petrol engine could muster. It's been said that the TDV8 in the Range Rover Sport (and the similarly weighted Range Rover L322) is as perfect a match as the iconic Rover V8 petrol engine in the Range Rover Classic. That's no exaggeration: the phrase 'hand in glove' springs to mind.

Incredible, Off-Road and On

Only automatic transmission (the ZF 6 speed 6HP26) was offered on the Range Rover Sport, mated to a Magna Steyr DD295 transfer box as used on Discovery 3. This featured permanent four wheel drive (a given with all Land Rovers for 20 years previously) with a 50/50 torque split to front and rear axles. It was a two speed, 'shift-on-the-move' transfer box, allowing range changes without having to stop the car. An electronic clutch locked the centre differential when required and provided torque bias for optimised traction. A slip controller increased locking torque according to off-road conditions.

The suspension, fully independent, was also closely related to Discovery 3 although significant changes were made to allow for the desired Range Rover Sport on-road dynamics without compromising the incredible off-road dynamics it shared with its sibling. All models were fitted with air springs all round, but everything from struts to air springs and anti roll bars were specially fine tuned for the Range Rover Sport's unique mix of ability.

A standard feature on some models (including all TDV8s) and optional on others was Roll Stability Control. This was an updated and improved version of Active Cornering Enhancement (ACE) as used and proven on some previous air sprung Land Rovers: a high pressure hydraulic system would vary the rate of the anti roll bars in tune with the dampers and air springs to provide the optimum stability at all times. Steering was similarly adaptable for on or off-road conditions, through a speed-proportional, variable ratio steering rack.

Range Rover Sport shared an armoury of traction control systems with Discovery 3: Hill Descent Control, Electronic Traction Control (for off-road), Dynamic Stability Control (for on-road) and the terrific Terrain Response system that tied together all of the electronic settings for a range of driving conditions, all selectable by the driver from a cabin switch. At a stroke, even inexperienced amateur off-road drivers could call on all the car's potential for off-road use. Inside the car, full use of state of the art electronic display technology meant that the driver didn't have to remember the settings he or she had chosen.

Every Visible Inch a Sporting Range Rover

Most of the classic Range Rover styling cues were displayed on the Range Rover Sport: the clam shell bonnet, the blacked-out and forward leaning rear window pillars and, of course, the usual Range Rover 'command' driving position. The badging of the car was totally evocative, too, the Range Rover letter sets on the leading edge of the bonnet and the tailgate. The lamp clusters front and rear were immediately identifiable as Range Rover and yet...

...And yet the headlamps raked rearwards in a more dynamic manner, seemingly acres of air inlets made up the rest of the face of the car and very purposeful stacked air inlets (masquerading as racing style 'hot air outlets') punctuated the flanks of the front wings. The clam shell bonnet was devoid of the upright corner castellation trade marks of the Range Rover and was, well, almost streamlined. Sculpted, extended wheel arches filled by enormous wheels and tyres exaggerated the more squat, sporting stance while at the rear prominent exhaust tail pipes on both lower corners left following drivers under no illusions. Big it might be, but undoubtedly sporting, too.

The interior, while borrowing heavily from Discovery 3 hardware and finishing, established its Range Rover character and escaped from the Discovery's utilitarian roominess with a huge centre console and chunkier trim that enveloped the car's occupants with its luxurious cockpit feel. Choices of traditional wood, designer gloss black or sophisticatedly cool metallic accents helped the customer create their own desired ambience.

2010 and Beyond

For the 2010 model year, Range Rover Sport was given a major revamp. While the body shape and silhouette remained more or less the same, three of the four engines were discontinued in favour of new units, only the excellent TDV8 being retained from the 2005-2009 model. Revised suspension, adaptive damping and new, even bigger brakes made it through to production, as did an even more luxurious, Range Rover-esque interior.

These big, expensive changes and updates were made viable by the continuing tidal wave of orders for the Range Rover Sport and Land Rover's belief that this popularity would continue unabated (they also made the 2010 Range Rover Sport into an entirely different car equipment-wise, which is why this parts catalogue stops at the end of the 2009 model year). Land Rover's belief was well founded; the success did continue and by 2013 a brand new Range Rover Sport (L494), this time developed on its own and no longer sharing a platform with its Discovery sibling, was waiting in the wings to take the amazing sales story of the Range Rover Sport well into the future.

VEHICLE PRODUCTION SUMMARY

2005 to 2009 Model Years

Late 2004 (2005 Model Year)

Range Rover Sport introduced. Known in the factory by project code name L320 (its sibling Discovery 3 model was L319).

Models available in UK/Europe include Base, SE, HSE. Variations of this line up, with some differing specifications, supplied to other markets.

Powertrains available in UK/Europe include 2.7 TDV6 Diesel, 4.4 AJV8 Petrol and 4.2 AJV8 Supercharged Petrol, all with automatic transmission as standard.

2007 Model Year

For UK/Europe, TDV6 diesel engine upgraded to Euro Stage 4 emissions compliance, including diesel particulate filter or 'DPF' in exhaust system. Euro Stage 4 without DPF (rare variant) and earlier EU2 emissions TDV6 diesels retained for some other markets.

3.6 TDV8 diesel added to line up, while 4.4 AJV8 petrol is deleted for UK and most European markets.

2008 Model Year

Interior trim and fittings updated: trim panel finishes/colours changed, enhanced front seat features introduced, metallic trim accents changed, leather/alcantara and premium 'Windsor' leather introduced alongside previous cloth, leather/vinyl and full leather upholstery options.

Bluetooth phone integration introduced (previous cradle phone integration phased out during 2008 Model Year).

2009 Model Year

Exterior trim subtly updated. New interior colour schemes added to range along with further changes to fascia/console/door trim inserts (usually metallic finishes).

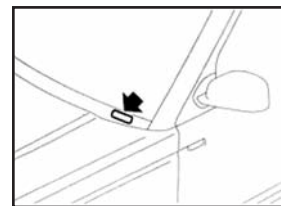

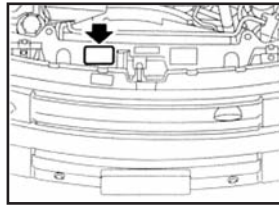

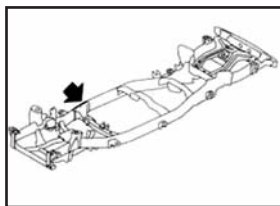

Some late 2009MY cars fitted with Range Rover Sport 2010MY components, such as fuel tank.

2010 Model Year

This catalogue does not cover 2010-2013 models. Please refer to our website.

VEHICLE IDENTIFICATION NUMBER

The following illustration shows where the VIN (Vehicle Identification Number) is located on the Range Rover Sport:

VEHICLE IDENTIFICATION

To ensure the parts that you order are correct for your Range Rover Sport, you will need to know the VIN (Vehicle Identification Number). Unlike most previous Land Rover models, *all* component change points (including powertrain changes) are documented by the VIN at which the change took place. There is no requirement to know the vehicle's engine, transmission or axle serial numbers.

The last six characters of the VIN are the serial number of your car. However, the VIN also provides you with considerably more useful information, most importantly the model year of your car (the majority - but by no means all - of changes in production relate to model years). The complete VIN (*excluding* vehicles for USA, Canada, Mexico and China, which employ a significantly different VIN code system) can be broken down thus:

- First character - S = Europe
- Second character - A = United Kingdom
- Third Character - L = Land Rover (UK)
- Fourth Character - L = Land Rover marque
- Fifth Character - S = Range Rover Sport model
- Sixth Character - A = Standard EU & Rest of World
- J = Japan
- Seventh Character - A = 4 door
- Eighth Character - 1 = 2.7 TDV6 diesel without DPF
- 2 = 3.6 TDV8 diesel without DPF
- 3 = 4.2 AJV8 supercharged petrol
- 5 = 4.4 AJV8 petrol
- 6 = 2.7 TDV6 diesel with DPF
- 7 = 3.6 TDV8 diesel with DPF
- 3 = RHD 6 speed automatic
- 4 = LHD 6 speed automatic
- Ninth Character - 5 = 2005 model year
- 6 = 2006 model year
- 7 = 2007 model year
- 8 = 2008 model year
- 9 = 2009 model year
- Eleventh Character - A = Solihull plant
- Twelfth to Seventeenth - 999999 = serial number

Example:

A car showing SAL LS A A 7 3 8 A 185256 is - Europe/UK/Land Rover UK/Land Rover/RRSport/Standard market/4 door/3.6 TDV8 with DPF/RHD 6 speed automatic/2008MY/Solihull/serial no. 185256

...and for the purposes of using the VIN to trace applicable parts for the car in this catalogue, the tenth character onwards is the most important part, i.e. 8A185256.

YOUR VEHICLE DETAILS

Enter your vehicle details here for easy reference

Vehicle Identification Number (VIN):

Paint Code:

Trim Code:

Engine Number:

Gearbox Number:

IMPORTANT NOTE

Wherever identification/serial numbers are quoted in this catalogue to help you distinguish change points between the fitment of different components, they relate to the Original Factory Specification or Component when the vehicle was new, and not to subsequent miscellaneous replacements.

Under-Bonnet VIN Plate Additional Information

Aside from the VIN, the under-bonnet VIN plate also provides the following additional information, from the top of the plate to the bottom:

1. Type Approval Specification
2. Vehicle Identification Number (VIN)
3. Gross Vehicle Weight (GVW, in Kg)
4. Gross Train Weight (GTW, in Kg)
5. Maximum Front Axle Load (in Kg)
6. Maximum Rear Axle Load (in Kg)
7. Exterior Paint Colour Name

PLEASE NOTE:

UK/EUROPEAN MODELS & REST OF THE WORLD MARKETS

Our catalogue predominantly covers UK and European Models. Although most parts listed are common to the Rest of the World Markets, there are sometimes specific parts for certain countries that are different to those listed herein. If unsure, please contact us quoting your full VIN number.

QUICK FINDER

This section will help you quickly find the parts which are most frequently called for. Each part is then listed again under its appropriate section later in the catalogue.

Land Rover	2	RBK500300
OEM	2	RBK500300P1
aftermarket	2	RBK500300P

important note

LOWER BALL JOINT

Important note concerning Range Rover Sport models up to VIN 9A199376 (all models except 3.6 TDV8 diesel) and 9A199404 (3.6 TDV8 diesel only):

The lower ball joints listed here fit into lower arms with 35mm ball joint holes and are the original fitment for vehicles from VIN 9A199377 onwards (all models except 3.6 TDV8 diesel) and 9A199405 onwards (3.6 TDV8 diesel only). Vehicles prior to these VINs originally had different lower arms taking a different diameter ball joint - this earlier ball joint is not available. To replace a lower ball joint on a vehicle prior to VIN 9A199377/9A199405, first measure the ball joint diameter. One of two actions should then be followed:

If the ball joint present is not 35mm, you will need to replace both the ball joint and lower arm, available together as a lower arm assembly - please refer to the Front Suspension section to choose the correct specification lower arm for your vehicle.

If the ball joint present is 35mm, the lower arm has already been replaced with the later type and you can order one of the 35mm ball joints listed above.

TRACK ROD END - LR010675

Timing Tool Kit - 2.7 TDV6 Diesel

Pin-point accuracy is of course essential when setting camshaft timing during an engine rebuild and that's exactly what these kits from Laser have been developed to ensure. Including all the tools required to lock the engine in the desired stroke position and then accurately align the camshafts, the kit covers the 2.7 TDV6 diesel engine as fitted to Discovery 3 and Range Rover Sport.

EU2 EMISSIONS

Details the cooling system fitted to meet EU2 (Euro Consolidated Directive 3) emissions regulations.

PIPE/HOSE:

overflow tank to radiator	1	PCH501072
top & bottom ass'y (incl. t'stat)	1	PEL500310
fuel cooler		
normal climates	1	PEH500181
hot climates		
kit of 2 hoses	1	PIH500101
short hose (incl. in kit)	1	PEH500201
long hose (incl. in kit)	1	PIH500040
cooling system bleed	1	PCH501351
cooled EGR		
inlet	1	LR011942
outlet	1	PEH500034
SENSOR, engine coolant temperature	1	LR041442

Included in EGR cooler inlet hose.

EURO STAGE 4 EMISSIONS

Details the cooling system fitted to meet Euro Stage 4 emissions regulations from 2007 model year onwards (7A000001 on). Euro Stage 4 emissions models are usually identifiable by the presence of the diesel particulate filter (DPF) in the exhaust system.

PIPE/HOSE:

overflow tank to radiator	1	PCH501072
top & bottom ass'y (incl. t'stat)	1	LR020009
T piece (incl. in hose ass'y)	1	PEI500020
fuel cooler		
kit of 2 hoses	1	PIH500101
short hose (incl. in kit)	1	PEH500201
long hose (incl. in kit)	1	PIH500040
cooling system bleed	1	PCH501351
cooled EGR		
inlet	1	LR006638
outlet	1	WAP500380
fuel fired heater	1	JHB501461
SENSOR, engine coolant temperature	1	LR041442

Fits in top & bottom hose assembly.

Overflow Tank

3.6 TDV8 Diesel

OVERFLOW TANK, with sensor:		
<i>Bleed screw LR007314 and seal LR007315 also required if fitting new overflow tank to models prior to VIN 8A129795.</i>		
Land Rover	1	LR020367
aftermarket	1	LR020367P
SENSOR, low fluid level (incl. in tank)	1	PCJ500030
CAP, overflow tank:		
Land Rover	1	PCD500030
aftermarket	1	PCD500030P
BLEED SCREW, overflow tank	1	LR055301
<i>Fitted from VIN 8A4129795 and to all replacement overflow tanks.</i>		
SEAL, bleed screw	1	LR007315
BUSH, tank mounting	1	LR015830

Radiator Fan

3.6 TDV8 Diesel

RADIATOR FAN ASSEMBLY:		
Land Rover	1	LR025234
OEM	1	LR025234P1
FAN SHROUD:		
upper	1	PGK500281
lower	1	PGK500292

Automatic Gearbox Oil Cooler & Pipes

3.6 TDV8 Diesel

OIL COOLER ASSEMBLY	1	UBC500101
OIL COOLER PIPES ASSEMBLY	1	UBP500205
<i>Includes both pipes assembled together with tie brackets.</i>		
O RING, pipes to gearbox	2	PYX500020

Intercooler & Hoses

3.6 TDV8 Diesel

INTERCOOLER ASSEMBLY	1	LR007170
HOSE, intercooler, upper:		
RH		
Land Rover	1	PNH500371
aftermarket	1	PNH500371P
LH		
Land Rover	1	PNH500361
aftermarket	1	PNH500361P
PIPE/HOSE ASS'Y, intercooler, lower:		
RH	1	PNH500351
LH	1	PNH500341
INSULATOR, pipe/hose mounting	1	KKF500010

4.2 AJV8 SUPERCHARGED PETROL

COOLING

Coolant Pipes & Hoses

4.2 AJV8 Supercharged Petrol

PIPE/HOSE:

overflow tank to radiator	1	PCH501401
radiator		
top, assembly	1	PCH501215
bottom, assembly	1	PCH500893
thermostat to bottom hose	1	PCH500923
thermostat to heater pipes, ass'y	1	LR006147
auxiliary water pump		
upper	1	PEH500122

GLOW PLUG - 1354289

Fuel Injection Pump

2.7 TDV6 Diesel

FUEL INJECTION PUMP:		
<i>New pumps include locating dowels, reconditioned exchange pumps do not.</i>		
EU2 emissions models		
new, exchange		
Land Rover	1	LR009804
OEM	1	LR009804P1
reconditioned, exchange		
up to VIN 8A999999	1	LR005958
Euro Stage 4 emissions (with DPF) models		
<i>VIN 7A000001 on.</i>		
new, exchange		
Land Rover	1	LR017367
OEM	1	LR017367P1
HARNNESS, pump control	1	LR014562
<i>EU2 emissions models only.</i>		
PULLEY, pump driving:		
up to VIN 6A999999	1	1311294
VIN 7A000001 on	1	LR003788
NUT, pulley to pump	1	LR002806

Accelerator Pedal (Injection Pump Control)

2.7 TDV6 Diesel

PEDAL, accelerator, with throttle position sensor:		
RHD	1	LR012044
LHD	1	SLC500021PVJ
PEDAL COVER SET:		
<i>Three piece set of sports covers, fashioned from stainless steel and rubber - includes covers for accelerator and brake pedals, plus footrest cover.</i>		
Land Rover	1	LR008713
Britpart	1	LR008713BP

PEDAL COVER SET - LR008713

Fuel Tank

2.7 TDV6 Diesel

important note

FUEL TANKS

Important note: the original range of fuel tanks with 3 vent pipes for the 2005-2009 models are now replaced by a universal fitment tank with many of the features of the 2010 model year onwards type tank. The result is what we know in the trade as a "multiple supersession", which means that along with your new tank you will also have to buy and fit the following parts, since the originals from your old tank will not fit the new one.

VEHICLES FITTED WITH ORIGINAL STYLE 2005-2009 MODEL YEARS (TO VIN 9A999999) FUEL TANK WITH 3 VENT PIPES

FUEL TANK, replacement type <i>Includes sender units.</i>	1	LR044038
CLIP	1	CN100509
<i>Required for all models being fitted with new universal type tank.</i>		
HARNESSEXTENSION	1	LR020971
<i>Required for all models being fitted with new universal type tank.</i>		
CAP, fuel filler	1	LR053666
<i>Required for all models being fitted with new universal type tank.</i>		
CAP, blanking heater pipe boss	1	LR021882
<i>Required for all models without fuel fired heater with new universal type tank.</i>		
PIPE, fuel:		
<i>Required for all models up to VIN 6A999999 fitted with new universal type tank.</i>		
models without fuel fired heater	1	LR021133
models with fuel fired heater	1	LR021134

The following are standard parts for original fuel tanks with 3 vent pipes:

MOUNTING COVER, fuel tank	1	WFN500021
HEATSHIELD, fuel tank:		
front	1	WFZ500034
rear	1	WFZ500130
COVER, top aperture:		
models without fuel fired heater	1	WGC500120
models with fuel fired heater	1	WGC500110
RETAINING RING, cover	1	WFM500011
GASKET, retaining ring	1	WFG000033
O RING KIT, fuel tank	1	LR006778
CAP, fuel filler:		
up to VIN 6A916350	1	LR053665
VIN 6A916351 on	1	LR053666
PIPE ASSEMBLY, fuel filler	1	LR077753
CONNECTOR, pipe assembly to tank	1	LR010620

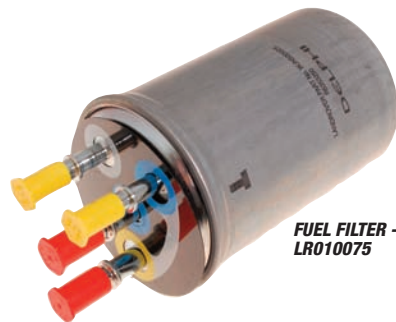

FUEL FILLER CAP - LR053666

FUEL FILLER CAP - LR053665

VEHICLES FITTED FROM NEW WITH 2010 MODEL YEAR (VIN AA000001 ON) FUEL TANK WITH 2 VENT PIPES

FUEL TANK, 2 vent pipe type	1	LR013746
MOUNTING COVER, fuel tank	1	WFN000014
HEATSHIELD, fuel tank:		
front	1	WFZ500034
rear	1	WFZ500130
COVER, top aperture	1	LR042718
RETAINING RING, cover	1	LR013771
GASKET, retaining ring	1	LR000966
CAP, fuel filler	1	LR053666
PIPE ASSEMBLY, fuel filler	1	LR077753
CONNECTOR, pipe assembly to tank	1	LR010620
HARNESSEXTENSION	1	LR020971

FUEL FILTER - LR010075

FUEL FILTER - LR009705

Adaptive Speed Control Unit & Sensor

2.7 TDV6 Diesel

ELECTRONIC CONTROL UNIT, adaptive speed control:		
up to VIN 6A999999	1	NNW501922
VIN 7A000001 on	1	NNW501923
SENSOR UNIT, adaptive speed control	1	YDB500560
<i>Located on bracket behind radiator grille.</i>		

Fuel Pump & Sender Unit

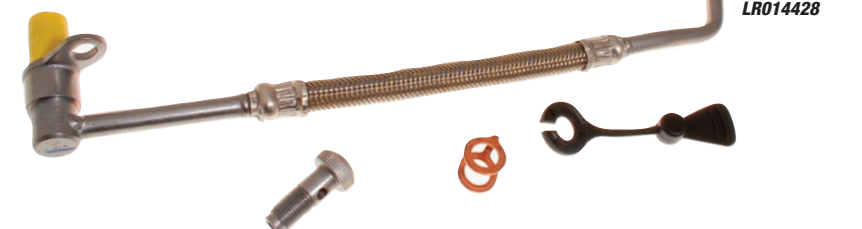

2.7 TDV6 Diesel

VEHICLES FITTED WITH ORIGINAL STYLE 2005-2009 MODEL YEARS (TO VIN 9A999999) FUEL TANK WITH 3 VENT PIPES

Fuel Tank

4.2 AJV8 Supercharged Petrol

important note	FUEL TANKS
	<i>Important note: the original range of fuel tanks with 3 vent pipes for the 2005-2009 models are now replaced by a universal fitment tank with many of the features of the 2010 model year onwards type tank. The result is what we know in the trade as a 'multiple supersession', which means that along with your new tank you will also have to buy and fit the following parts, since the originals from your old tank will not fit the new one.</i>

VEHICLES FITTED WITH ORIGINAL STYLE 2005-2009 MODEL YEARS (TO VIN 9A999999) FUEL TANK WITH 3 VENT PIPES

FUEL TANK, replacement type	1	LR041239
<i>Includes sender unit.</i>		
PIPE ASSEMBLY, fuel filler	1	LR045067
<i>Required for all models being fitted with new universal type tank.</i>		
HOSE, fuel filler	1	LR015975
<i>Required for all models being fitted with new universal type tank.</i>		
HARNESSEXTENSION	1	LR020971
<i>Required for all models being fitted with new universal type tank.</i>		

The following are standard parts for original fuel tanks with 3 vent pipes:

MOUNTING COVER, fuel tank	1	WFN500021
HEATSHIELD, fuel tank:		
front	1	WFZ500034
rear	1	WFZ500130
COVER, top aperture	1	WGC500130
RETAINING RING, cover	1	WFM500011
GASKET, retaining ring	1	WFG000033
O RING KIT, fuel tank	1	LR006778
CAP, fuel filler	1	LR053665
PIPE ASSEMBLY, fuel filler:		
up to VIN 9A192846	1	WMJ500163
VIN 9A192847 on	1	LR010516
CONNECTOR, pipe assembly to tank	1	WLH000061
CANNISTER, fuel vapour store	1	WTB000303

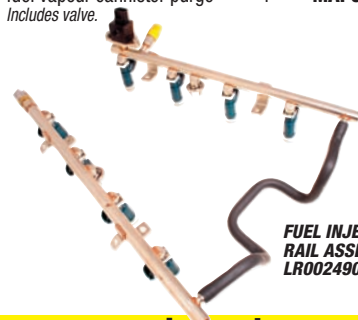

VEHICLES FITTED FROM NEW WITH 2010 MODEL YEAR (VIN AA000001 ON) FUEL TANK WITH 2 VENT PIPES

FUEL TANK, 2 vent pipe type	1	LR016241
MOUNTING COVER, fuel tank	1	WFN000014
HEATSHIELD, fuel tank	1	WFZ500034
COVER, top aperture	1	LR043420
RETAINING RING, cover	1	LR013771
GASKET, retaining ring	1	LR000966
HARNESSEXTENSION	1	LR020971
CAP, fuel filler	1	LR053665
PIPE ASSEMBLY, fuel filler	1	LR045067
CONNECTOR, pipe assembly to tank	1	LR010621

Fuel Injectors & Fittings

4.2 AJV8 Supercharged Petrol

FUEL INJECTOR RAIL ASSEMBLY	1	LR002490
<i>Includes injectors, injector seals and fuel temperature and pressure sensors.</i>		
FUEL INJECTOR	8	4650544
SEAL, fuel injector:		
upper	8	LR012785
lower	8	LR012827
CLIP, fuel injector securing	8	4484930
SENSOR:		
fuel temperature	1	LR000291
fuel pressure	1	4458309
<i>Includes O rings.</i>		
PIPE ASSEMBLY:		
fuel injector rail supply	1	MLH500160
fuel vapour cannister purge	1	MAP500180
<i>Includes valve.</i>		

FUEL INJECTOR
RAIL ASSEMBLY -
LR002490

Accelerator Pedal

4.2 AJV8 Supercharged Petrol

PEDAL, accelerator, with throttle position sensor:		
RHD	1	LR012044
LHD	1	SLC500021PVJ
PEDAL COVER SET:		
<i>Three piece set of sports covers, fashioned from stainless steel and rubber - includes covers for accelerator and brake pedals, plus footrest cover.</i>		
Land Rover	1	LR008713
Britpart	1	LR008713BP

Adaptive Speed Control Unit & Sensor

4.2 AJV8 Supercharged Petrol

ELECTRONIC CONTROL UNIT, adaptive speed control:		
up to VIN 6A999999	1	NNW501922
VIN 7A000001 on	1	NNW501923
SENSOR UNIT, adaptive speed control	1	YDB500560
<i>Located on bracket behind radiator grille.</i>		

Fuel Pump & Sender Unit

4.2 AJV8 Supercharged Petrol

VEHICLES FITTED WITH ORIGINAL STYLE 2005-2009 MODEL YEARS (TO VIN 9A999999) FUEL TANK WITH 3 VENT PIPES		
FUEL PUMP MODULE:		
Land Rover	1	WGS500012
OEM	1	WGS500012P1

EASY FIT OIL SUMP, GASKET & FILTER

Replacing the plastic oil sump/filter assembly as part of an auto box oil and filter change has, until now, been a time consuming and expensive process. Obtaining the necessary clearance to remove and refit the sump/filter has involved removal of the transmission mountings and crossmember, plus the exhaust. It doesn't have to be that way any longer!

The easy fit conversion kit includes a new, metal sump that's easy to slide out of and back into position with the crossmember and exhaust still in place, allowing simple replacement of the new separate filter. Removal of the old plastic sump/filter before fitting the conversion parts is just as easy: unbolt it from the transmission and because it's not required for refitting the filter tube can be cut or broken so that the whole thing can be easily extracted in a couple of pieces, again without removal of the crossmember.

The easy fit filter and sump gasket are of course available separately when the time comes for future oil and filter changes.

OIL SUMP CONVERSION KIT, gearbox, easy fit:

<i>Includes metal sump, separate oil filter, gasket and 'O' ring.</i>		
OEM	1	LR007474BPKITEF0EM
Britpart	1	LR007474BPKITEF
OIL FILTER, easy fit oil sump:

Front Hub & Swivel Housing (Knuckle)

SWIVEL HOUSING (KNUCKLE):

RH	1	RUB500320
LH	1	RUB500330

SWIVEL HOUSING (KNUCKLE)

Important note concerning Range Rover Sport models up to VIN 9A191791:

The swivels listed here take M14 size track rod ends and are the original fitment for vehicles from VIN 9A191792 onwards. Vehicles prior to this VIN originally had swivels taking M12 size track rod ends on different track rods - these earlier swivels are not available. On vehicles up to VIN 9A191792 the swivels may be replaced as a pair, so long as 2 off part number LR010673 track rod kits are also fitted.

Please refer to the Steering Rack section for further details of track rods and track rod ends.

LOWER BALL JOINTS

Important note concerning Range Rover Sport models up to VIN 9A199376:

The lower ball joints listed here fit into lower arms with 35mm ball joint holes and are the original fitment for vehicles from VIN 9A199377 onwards. Vehicles prior to this VIN originally had different lower arms taking a different diameter ball joint - this earlier ball joint is not available. To replace a lower ball joint on a vehicle prior to VIN 9A199377, first measure the ball joint diameter. One of two actions should then be followed:

If the ball joint present is not 35mm, you will need to replace both the ball joint and lower arm, available together as a lower arm assembly - please refer to the front suspension section for details of the correct lower arm specification for your vehicle. If the ball joint present is 35mm, the lower arm has already been replaced with the later type and you can order one of the 35mm ball joints listed above.

ALL MODELS

FRONT SUSPENSION

important note

ROLL STABILITY CONTROL

Some models of Range Rover Sport feature variable rate anti roll bars to combat undesirable body roll when the vehicle is driven in a more sporting manner. Electronically controlled by high pressure hydraulics, the system is known as **Roll Stability Control** or **Active Cornering Enhancement (ACE)**.

Roll Stability Control is fitted as standard on 3.6 TDV8 diesel models and is a very popular option on 4.2 AJV8 supercharged and 4.4 AJV8 petrol models; it is also found on some 2.7 TDV6 diesels.

The pump, reservoir, valve block and other control equipment associated with the system may be found in the 'Roll Stability Control System' section, while the specially modified anti roll bars, air springs and other suspension parts are listed here and in the Rear Suspension Section.

FRONT STRUT & AIR SPRING ASSEMBLY - LR041108P1

Front Shock Absorber & Spring

important note

Important note concerning Range Rover Sport models up to VIN 9A199376 (all models except 3.6 TDV8 diesel) and 9A199404 (3.6 TDV8 diesel only):

The lower ball joints listed here fit into lower arms with 35mm ball joint holes and are the original fitment for vehicles from VIN 9A199377 onwards (all models except 3.6 TDV8 diesel) and 9A199405 onwards (3.6 TDV8 diesel only). Vehicles prior to these VINs originally had different lower arms taking a different diameter ball joint - this earlier ball joint is not available. To replace a lower ball joint on a vehicle prior to VIN 9A199377/9A199405, first measure the ball joint diameter. One of two actions should then be followed:

If the ball joint present is not 35mm, you will need to replace both the ball joint and lower arm, available together as a lower arm assembly - please refer to the list above to choose the correct specification lower arm for your vehicle.

If the ball joint present is 35mm, the lower arm has already been replaced with the later type and you can order one of the 35mm ball joints listed above.

BALL JOINT ASS'Y, lower arm to knuckle, 35mm dia.:

Original fitment for vehicles from VIN 9A199377 onwards (all models except 3.6 TDV8 diesel) and 9A199405 onwards (3.6 TDV8 diesel only).

ROLL STABILITY CONTROL

Some models of Range Rover Sport feature variable rate anti roll bars to combat undesirable body roll when the vehicle is driven in a more sporting manner. Electronically controlled by high pressure hydraulics, the system is known as Roll Stability Control or Active Cornering Enhancement (ACE).

Roll Stability Control is fitted as standard on 3.6 TDV8 diesel models and is a very popular option on 4.2 AJV8 supercharged and 4.4 AJV8 petrol models; it is also found on some 2.7 TDV6 diesels.

The pump, reservoir, valve block and other control equipment associated with the system may be found in the 'Roll Stability Control System' section, while the specially modified anti roll bars, air springs and other suspension parts are listed here and in the Rear Suspension Section.

important note

AIR COMPRESSOR ASSEMBLIES

Important note: There are three different designs of compressor assembly, Hitachi, early type AMK and late type AMK, of which only the AMK units (early and late, successively) were available for some years. Originally 2005-2009 Range Rover Sports were fitted with the Hitachi unit.

If at some point in its history your Range Rover Sport has required a new compressor, it may have been fitted with the early type AMK unit or (possible, but unlikely) the late type AMK unit because of non-availability of the original Hitachi unit. This will have involved some modifications to the vehicle.

More recently, a Hitachi-type compressor has been reintroduced to the market, manufactured by Dunlop. This has once again made possible the like-for-like replacement of an air compressor, so long as the old unit on your vehicle is of the Hitachi type and the vehicle has not been modified to accept an AMK unit.

To order a compressor or replacement parts, you must first identify the type of compressor on your car. The most recognisable features of the Hitachi unit are a hexagonal end cover on the air dryer mounted alongside the compressor and a 'D' shaped cradle holding the whole assembly to the car through upper and lower rubber mountings.

AMK compressors have a round end cover on the dryer and mount to the car by a large plate angle bracket. The visual difference between early and late AMK compressors is subtle: the early type features an upward-angled air inlet tube with a push-fit hose connection, while the later type has a horizontal screw union to the inlet hose.

If the air compressor assembly requires replacement: Because of the reintroduction of the Hitachi type unit (now manufactured by Dunlop), a like-for-like replacement with no required vehicle modifications can be made if the old unit on your car is still of the Hitachi type.

If however your vehicle has at some point in its life been modified to take an AMK compressor, then you should fit an AMK type compressor as a replacement: re-engineering and re-programming your car back to accept an Hitachi type compressor would be time-consuming and expensive.

The official Land Rover policy on compressor replacement is still to modify the vehicle to accept a later AMK compressor. If you decide to follow this route, some adaptation or replacement of hoses will be required if an Hitachi or early type AMK compressor is being replaced. Additionally the compressor relay will require replacement with a YWB500220 relay and, when replacing an Hitachi unit, the upper and lower compressor covers will need to be changed for the AMK type as well. Finally the electronic control unit for the air suspension will require installation of new software via the vehicle's diagnostic system.

Full details of the conversion work required to fit a late type AMK compressor to a 2005-2009 Range Rover Sport are given in Land Rover Technical Bulletin LTB00420, available on request from Rimmer Bros.

Air Suspension Height Sensors & Control Unit

important note

AIR SUSPENSION HEIGHT SENSOR

Important note: the height sensors now supplied are the Range Rover Sport 2010 model year onwards type, adapted for 2005-2009 model fitment. These sensors were actually fitted new to Range Rover Sport models from VIN 9A213085 onwards. They feature 3 pin plugs which are compatible with the previous 6 pin type on Range Rover Sports prior to VIN 9A213085 and are supplied with new attachment bolts which must be fitted in place of the original screws on those models.

ROLL STABILITY CONTROL

Many models of Range Rover Sport feature variable rate anti roll bars to combat undesirable body roll when the vehicle is driven in a more sporting manner. Electronically controlled by high pressure hydraulics, the system is known as **Roll Stability Control** or **Active Cornering Enhancement (ACE)**.

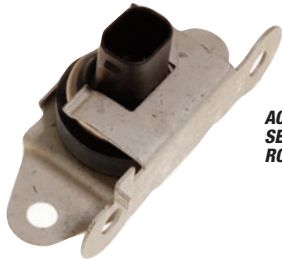

Roll Stability Control is fitted as standard on 3.6 TDV8 diesel models and is a very popular option on 4.2 AJV8 supercharged and 4.4 AJV8 petrol models; it is also found on some 2.7 TDV6 diesels.

The pump, reservoir, valve block and other control equipment associated with the system may be found in the section here, while the specially modified anti roll bars, air springs and other suspension parts are listed in the Front and Rear Suspension Sections.

Tyre Pressure Monitoring System (TPMS)

important note

TYRE PRESSURE MONITORING SYSTEM (TPMS)

Replacement of the TPMS module or sensors must be done with new items featuring the same frequency as the original. As a general guide, 433Mhz frequency equipment is used on UK and European cars, 315Mhz for the rest of the world.

MODULE, tyre pressure monitoring system:

433Mhz frequency	1	NNW501995
to VIN 6A999999		
VIN 7A000001 on	1	LR023427
315Mhz frequency	1	LR023428

SENSOR ASS'Y, TPMS:

Includes tyre valve assembly and valve cap.

433Mhz frequency	4	LR032835
315Mhz frequency	4	LR032836

VALVE KIT, TPMS sensor:

Includes tyre valve core, seal nut, seal, washer and valve cap.

Land Rover	4	LR043161
OEM	4	LR043161P1

CAP, valve

SENSOR, initiator, TPMS	4	RRE000010
RIVET, initiator sensor	8	EAP4830PMA

Wheel Accessories

SNOW CHAIN KIT:

Includes a pair of snow chains and fixings for the front wheels only.

for 17" wheels	1	VUJ000010
for 18", 19" & 20" wheels	1	VPLSW0079

TYRE VALVE CAP SET:

Union Jack emblem

Set of four valve caps, genuine Land Rover accessory, available with red, white and blue or black and grey Union Jack emblems.

red, white & blue	1	LR027664
black, white & grey	1	LR027666

Range Rover/Land Rover emblem

Set of four valve caps, genuine Land Rover accessory, available with black/silver Range Rover or Land Rover green/gold emblems.

Range Rover	1	LR027663
Land Rover	1	LR027560

Handbrake Wiring Repair

WIRING REPAIR KIT, hand brake	1	YNI500400
-------------------------------	---	------------------

Vehicles up to VIN 5A903760 can suffer water ingress in the connection on the electronic parking brake (EPB) module section of the chassis harness, resulting in EPB warning lights being displayed or the brake not being released. The repair kit overcomes this problem by replacing this section of the chassis harness with an improved waterproof version. The kit includes the new section of harness, together with a connector terminal removal tool.

BUSH, vacuum pump mounting	2	SYA500010
INSERT, bush	2	SZT500010
HOSE:		
vacuum pump to union	1	LR018331
union to inlet manifold		
4.2 AJV8 supercharged petrol	1	LR018336
4.4 AJV8 petrol	1	LR018333
union to servo		
RHD	1	SQF500042
LHD	1	LR018335

Steering Wheel & Cowling

Note: over the years a certain amount of rationalisation has taken place in the number of steering wheels available. Choosing from the list below, so long as the description includes the features you require, the wheel will work in your car (despite the fact that the wheel possibly includes more features than those relevant for your car).

STEERING WHEEL, leather, black:		
not heated		
not phone integration		
not voice input	1	LR017035
with voice input	1	LR017036
with phone integration		
not voice input	1	LR017038
with voice input	1	LR017037
heated		
not phone integration	1	LR017033
with phone integration	1	LR017034
BOLT, steering wheel to column	1	QTM100000
ROTARY COUPLING, steering wheel	1	LR018556
COWLING, steering column:		
upper	1	QRB500250PVJ
lower		
manual tilt & reach column	1	QRB500210PVJ
electric tilt & reach column	1	QRB500220PVJ
FITTING KIT, cowling	1	QMB501300
<i>Includes screws, washers and pads.</i>		
SCREW, cowling	3	FYP500260
<i>Included in fitting kit.</i>		
SHROUD, fascia, with blind	1	FAI500050PVJ
CLIP, shroud to fascia	4	FCY500040

Steering Column

STEERING COLUMN ASSEMBLY:

This is the top collapsible section; it previously included the steering angle sensor. This is no longer the case and the sensor should be ordered separately, if required.

manual tilt & reach adjustment	1	QMB501240
electric tilt & reach adjustment	1	QMB501180
SENSOR, steering angle	1	SRO500110
VIBRATION DAMPER, column:		
<i>Diesel models only.</i>		
2.7 TDV6 diesel models	1	QTD500020
3.6 TDV8 diesel models	1	QTD500040

STEERING COLUMN:

upper	1	QLB500070
<i>This is the upper of the two shafts, connecting to the top collapsible section and passing through the front bulkhead.</i>		
lower		
<i>This is the lower of the two shafts, connecting to the steering rack. It includes the universal joint.</i>		
RHD	1	LR071146
LHD	1	LR071147

SEAL:		
steering column to bulkhead	1	QMH500100
steering joint, lower	1	QMH500070

BOLT:		
collapsible column to body		
manual tilt & reach column		
long (55mm)	2	QYG500032
short (30mm)	2	QYG500021
electric tilt & reach column	4	QYG500021
upper column to lower column	1	QYG500110
lower column to rack	1	QYG500100

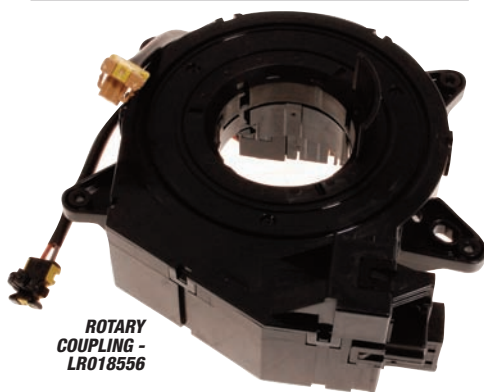

SCREW:		
steering angle sensor attaching	3	QYP500030
collapsible to upper column	1	QMW500030
vibration damper to column	3	QYP500100
<i>Diesel models only.</i>		
NUT, collapsible to upper column screw	1	QYH10005L

Steering Rack Assembly

STEERING RACK ASSEMBLY:

Includes gaiters. Does not include track rod ends.

RHD		
new, exchange	1	LR031745

NUT, locking, steering rack mounting	2	LR017002

ROTARY COUPLING - LR018556

COWLING FITTING KIT - QMB501300

important note

STEERING RACK COMPONENTS

Important note: from VIN 9A191792 (2009) the track rod ends on the Range Rover Sport steering rack were updated. Assemblies are most easily identified by the nut holding the track rod end to the swivel housing (knuckle); the later nuts are M14 thread while earlier nuts are M12. The track rods within the steering rack remained the same throughout and will accept either M12 or M14 track rod ends.

Complicating the issue is the fact that for many years now the only knuckles available have been the later type that will only accept M14 track rod ends, so earlier cars with replaced knuckles will have had to be converted to later track rod ends. It therefore follows that unless you know the full, unbridged history of your pre-VIN 9A191792 car you should not assume it still takes the same size track rod ends with which it was originally built.

When replacing track rod ends, to be safe you should measure the thread size of the track rod end to knuckle nut before obtaining replacement items.

Steering Rack Components

TRACK ROD COMPLETE ASSEMBLY:

Includes track rod, gaiter, track rod end and nuts.

to VIN 9A191791		
<i>Includes M12 track rod ends.</i>		
Land Rover	2	LR010674
Britpart	2	LR010674BP
VIN 9A191792 on		
<i>Includes M14 track rod ends.</i>		
Land Rover	2	LR010673
Britpart	2	LR010673BP

TRACK ROD, bare

Does not include track rod, gaiter, track rod end or nuts.

Land Rover	2	QFK500030
aftermarket	2	QFK500030P

TRACK ROD END (ball joint):

to VIN 9A191791

With M12 thread for knuckle nut.

with attachment nut		
Land Rover	2	LR010675
OEM	2	LR010675P1
aftermarket	2	LR010675P
without attachment nut		
Land Rover	2	QJB500040
OEM	2	QJB500040P1
aftermarket	2	QJB500040P

VIN 9A191792 on

With M14 thread for knuckle nut.

with attachment nut	2	LR010676
without attachment nut	2	QJB500070

NUT:

locking track rod end to track rod	2	QYH500040
track rod end to knuckle		
to VIN 9A191791 (M12 thread)	2	FY112056
VIN 9A191792 on (M14 thread)	2	QYH500160

GAITER KIT, steering rack:

Includes 1 gaiter and 2 clips.

Land Rover	2	QFW500020
OEM	2	QFW500020P1
CLIP, large dia., steering rack gaiter	2	LR032372

ACTUATOR ASSEMBLY, steering rack:

Includes seals and bolt.

RHD	1	LR010372
LHD	1	LR010373
VALVE PIPE FIXINGS KIT, steering rack	1	QFW500030

TRACK ROD COMPLETE ASSEMBLY - LR010674BP

TRACK ROD COMPLETE ASSEMBLY - LR010673BP

TRACK ROD END - LR010675

TRACK ROD END - QJB500040

important note

ANTI-THEFT ALARM

Important note: Replacement of the receiver or remote transmitter/key must be done with a new item featuring the same frequency as the original. As a general guide, 433Mhz frequency equipment is used on UK cars, European cars, and many other markets. 315Mhz is used for the remainder. Replacement receivers and remote transmitters/keys will require programming before use. We provide a programming service, to personal callers only, for synchronising new ECUs and remote transmitters with your car.

LED Logo Puddle Lamp Kit

LED puddle lamps, with Land Rover logo embedded in the beam, ideal for adding that personal touch to your Land Rover vehicle. The lamps are designed to operate when you open the door of your vehicle to illuminate the floor below. These lamps may also be installed internally to illuminate the interior footwell of the vehicle. Flush fitting, for discreet installation. Kit includes two puddle lamps with wiring, plus core cutter to make mounting holes.

VIN 7A000001 on		
new, outright	2	YIP500390

important note **DVD PLAYERS**
Important note: both the new and reconditioned DVD players sold for models from VIN 8A137585 onwards are later design units originally fitted to later vehicles than those covered by this catalogue. To fit them, new mounting brackets will be required (part numbers LR018675 and LR018676, see below).

DVD PLAYER:
Note: Global regions for DVD recording formats dictate the type of player required (Region 1 is North America and is not listed here). For Region 2, playback of DVDs is further complicated by the need to choose between PAL and NTSC configuration. In Europe, the usual configuration is PAL. The following details the DVD regions by continents and countries:

Region 1: USA, USA Territories, Canada, Bermuda.
 Region 2: Europe, French Overseas Territories, Middle East, Egypt, South Africa, Swaziland, Lesotho, Japan, Greenland.
 Region 3: South East Asia, South Korea, Taiwan, Hong Kong, Macau.

BATTERY CONDITIONER KIT - RX1410CTEK

Battery Conditioner

The battery conditioner is a battery charger that turns on and off automatically. This superb product is suitable for all 12 volt batteries (from 5ah to 100ah) and constantly revitalises the battery cells - helping to extend cell life, without the danger of overcharging.

Look at these benefits:

Designed to be left connected for long periods.

Use without disconnecting vehicle electrics.

L.E.D. battery condition display.

Thermal cut-out facility.

12 month guarantee.

It can also be used for the following applications, providing they use a 12 volt battery: caravans, lawn mowers, motorbikes, motor boats, wheel chairs and general leisure use. The kit is supplied complete with all fittings and operating instructions.

BATTERY CONDITIONER KIT:

0.8 amp version	1	RX1410CTEK
3.8 amp version	1	RX1410CTEK3800

BATTERY CHARGER - GAC7106

Battery Charger

BATTERY CHARGER, 6 and 12 volt 1 **GAC7106**
Conventional battery charger, ideal for charging a flat battery quickly or overnight charging.

BATTERY ACID TESTER 1 **CONS295230**

BATTERY ACID TESTER - CONS295230

Spare Bulb & Fuse Kit

LAND ROVER SPARE BULB & FUSE KIT 1 **VUB500110**
Includes spare bulbs and fuses appropriate for Range Rover Sport models.

Dis-Car-Nect

DIS-CAR-NECT IMMOBILISER KIT 1 **RX1356**
REPLACEMENT KNOB 1 **RX1356KNOB**
REPLACEMENT FUSE 1 **RX1356FUSE**

How Does 'Dis-Car-Nect' Work?

When leaving your car, simply remove the knob to isolate the starter circuit. The 16 amp fuse will maintain current supply to all other electrical circuits (central locking, stereo memory, alarm etc.). Because the starter motor draws over 150 amps, any attempt to connect (hot-wire) the starter motor will instantly cause the fuse to blow. This immobilises the car until the knob is replaced. If this should happen, simply replace the 16 amp fuse at a convenient time.

As an added advantage, the 'Dis-Car-Nect' will also prevent battery drain if you intend to store your car: simply unscrew the knob and remove the fuse. For extra security, unscrew and remove the immobiliser knob completely.

WE'RE HERE TO HELP
Can't find or not sure of the right part for your car, contact our technical sales team for help and advice.

Engine Compartment Harness

WIRING HARNESS, engine compartment 1 -

Does not include link wires for ambient air temperature sensor (all models from VIN 6A000001 on) or alternator (diesel models with Roll Stability Control) - see Link Wires later in this section.

What Land Rover call the 'Engine Compartment Harness' is in fact what car manufacturers used to call the main harness or main wiring loom in the good old days.

It's the most complex wiring harness on the car, connecting to most of the systems that make the car run. It is routed across the engine side of the front bulkhead, along the front inner wings and a smaller branch of it runs across the front of the car, behind the bonnet locking platform. In the case of the Range Rover Sport, it also includes the engine compartment fuse box.

Being the second most complex harness (after the fascia harness) on a car with complicated electrical systems, it's perhaps not surprising that there are 132 different versions of the engine compartment harness.

It's also not surprising, from the points of view of available page space and accuracy of parts supply to the customer, that we choose not to list them all here.

If you require an engine compartment harness, please contact us with as much information on your car as possible, from which we will work out which harness is the correct one for you. The minimum information you should aim to provide includes the following:

- Full vehicle identification number (VIN), including prefix
- Engine type (V6 diesel, V8 diesel, V8 supercharged petrol or V8 normally aspirated petrol)
- RHD or LHD
- Intended market/country when new (if known)
- Suspension type (with or without Roll Stability Control/Active Cornering Enhancement)
- Headlamp type (halogen, Bi-Xenon or adaptive Bi-Xenon)

Engine Harness

The engine wiring harness connects to all the electrical systems on the engine assembly, including the sensors, engine management devices, injection components, alternator, etc. It is fitted only on the engine and touches none of the bodywork of the car. It joins to the engine compartment harness via a large multiplug.

WIRING HARNESS, engine:

2.7 TDV6 diesel models

EU2 emissions

Models without diesel particulate filter (DPF) in exhaust system.

to VIN 6A916812	1	1351812
VIN 6A916813 on	1	1387757

Euro Stage 4 emissions

Most models with diesel particulate filter (DPF) in exhaust system.

VIN 7A000001 to 8A147225	1	LR006465
VIN 8A147226 on	1	LR018478

3.6 TDV8 diesel models

to VIN 8A147225	1	LR006685
VIN 8A147226 on	1	LR018492

4.2 AJV8 supercharged petrol models

Does not include fuel injector or crankshaft position sensor link wires - see Link Wires later in this section.

to VIN 6A999999	1	LR006284
VIN 7A000001 on	1	LR005049

4.4 AJV8 petrol models

Does not include temperature sensor or crankshaft position sensor link wires - see Link Wires later in this section.

to VIN 6A999999	1	4741262
VIN 7A000001 on	1	LR005046

Transmission Harness

The transmission wiring harness connects all the sensors, switches etc. on the gearbox to the engine bay harness via a multiplug connection on the RH side of the front bulkhead.

2.7 TDV6 DIESEL MODELS

WIRING HARNESS, transmission:

EU2 emissions

Without diesel particulate filter (DPF) in exhaust system.

to VIN 5A999999	1	YMD501642
VIN 6A000001 to 6A999999	1	YMD504641
VIN 7A000001 to 8A147137	1	YMD505840
VIN 8A147138 on	1	YMD506270

Euro Stage 4 emissions

Usually with diesel particulate filter (DPF) in exhaust system.

RHD

VIN 7A000001 to 8A147137	1	YMD505860

Fascia Harness

WIRING HARNESS, fascia 1 -

The fascia harness is the most complex wiring harness on the car, connecting to the controls and displays of most of the electrical and electronic systems. It is routed across the inside/underside of the dash moulding, extending down the outer sides of the footwells to meet the doors and other harnesses in the car.

There are 131 different versions of the fascia harness, too many to be able to list them here in a useable manner. If you require a fascia harness, please contact us with as much information on your car as possible, from which we will work out which harness is the correct one for you. The minimum information you should aim to provide includes the following:

- Full vehicle identification number (VIN), including prefix
- RHD or LHD
- With or without navigation system (if so, touch screen type or not)
- With or without electric steering column adjustment
- With or without DVD screen
- With or without heated seats
- Standard, HI ICE branded sound system or Premium surround sound

Centre Console Harness

The console harness connects to items such as the transmission controls, phone system, sound system and rear seat entertainments (where fitted). As its name suggests, it runs within the centre console of the car.

WIRING HARNESS, console:

without phone integration

without DVD screen		
to VIN 5A999999	1	YMH500214
VIN 6A000001 on	1	YMH500821
with DVD screen		
to VIN 5A999999	1	YMH500174
VIN 6A000001 on	1	YMH500801

with phone integration

without DVD screen		
to VIN 5A999999	1	YMH500364
VIN 6A000001 on	1	YMH500811
with DVD screen		
to VIN 5A999999	1	YMH500374
VIN 6A000001 on	1	YMH500831

Main Harness

WIRING HARNESS, main 1 -

This is what used to be called the body harness in the golden era of repairing cars without complex electrical systems. Nowadays, apart from rear and interior lighting, the fuel pump and tank sender unit, it also connects to the seats, suspension, sound system and on some cars the rear axle. It is routed along the bottom of both outer edges of the car, with spurs running across the body where necessary.

Once again, there are too many main harnesses to list them here in a practical way (208 different versions in total). If you require a main harness, please contact us with as much information on your car as possible, from which we will work out which harness is the correct one for you. The minimum information you should aim to provide includes the following:

- Full vehicle identification number (VIN), including prefix
- RHD or LHD
- Intended market/country when new (if known)
- Standard, HI ICE branded sound system or Premium surround sound
- With or without memory front seats and mirrors
- With or without rear axle locking differential
- With or without tyre pressure sensors

Chassis Harness

This harness connects to such items as the suspension height sensors roll stability control system (on vehicles so fitted), rear axle locking differential (ditto), fuel fired heater (some diesel models) etc. It is routed along the bottom of the LH outer edge of the car and crosses to the RH side at each end of the car.

WIRING HARNESS, RHD, chassis:

Without: rear axle locking differential, roll stability control & fuel fired heater
 to VIN 5A999999 1 **YNN500294**

Front & Rear Side Door Harnesses

WIRING HARNESS, door:

front		
RH	1	-
LH	1	-
rear		
RH	1	-
LH	1	-

These harnesses fit inside each door. With all the permutations of sound system speakers, window and mirror controls etc. available on the Range Rover Sport doors, there are too many door harnesses to list here. If you require a door harness, please contact us with as much information on your car as possible, from which we will work out which harness is the correct one for you. The minimum information you should aim to provide includes the following:

- Full vehicle identification number (VIN), including prefix RHD or LHD
- Front or rear door, RH or LH
- Standard, HI ICE branded sound system or Premium surround sound
- With or without headphone sockets (rear doors only)
- With or without memory mirrors

WIRING HARNESS, LHD, chassis:

Without: rear axle locking differential, roll stability control & fuel fired heater
 to VIN 5A999999 1 **YNN500214**
 VIN 6A000001 to 6A999999 1 **YNN500671**

Without: rear axle locking differential, roll stability control
With: fuel fired heater
 to VIN 5A999999 1 **YNN500334**
 VIN 6A000001 to 6A999999 1 **YNN500751**

Audio, Entertainment & Navigation Harnesses

WIRING HARNESS, audio, main 1 -

This harness runs along the lower RH side of the car, rising at the rear of the car to the roof and running forwards along both sides above the luggage area. There are many, many variations of this harness. If you require a main audio harness, please contact us with as much information on your car as possible, from which we will work out which harness is the correct one for you. The minimum information you should aim to provide includes the following:

- Full vehicle identification number (VIN), including prefix RHD or LHD
- Intended market/country when new (if known)
- Standard, HI ICE branded sound system or Premium surround sound
- With or without 6 CD autochanger
- With or without DVD entertainment system
- With or without TV integration
- With or without navigation system
- With or without Traffic Message Channel
- With or without phone integration or Bluetooth

WIRING HARNESS, audio, fascia 1 -

As the name suggests, this harness runs from behind the centre of the fascia to the underside of the centre console, where it joins the main audio harness. If you require a fascia audio harness, please contact us with as much information on your car as possible, from which we will work out which harness is the correct one for you. The minimum information you should aim to provide includes the following:

- Full vehicle identification number (VIN), including prefix RHD or LHD
- Intended market/country when new (if known)
- Standard, HI ICE branded sound system or Premium surround sound
- With or without 6 CD autochanger
- With or without DVD entertainment system
- With or without TV integration
- With or without navigation system

Link Wires & Wiring Repair Kits

ON ENGINE COMPARTMENT HARNESS

LINK WIRE:

ambient air temp. sensor 1 **YMQ501760**
All models from VIN 6A000001 on.

alternator 1 **YMQ501781**
2.7 TDV6 & 3.6 TDV8 diesel models with roll stability control.

ON ENGINE HARNESS

LINK WIRE:

fuel injectors 1 **LR005050**
4.2 AJV8 supercharged petrol models.

temperature sensor 1 **YSB500480**
4.4 AJV8 petrol only.

crankshaft position sensor 1 **4691236**
4.2 AJV8 supercharged & 4.4 AJV8 petrol models.

ON FASCIA HARNESS

CABLE ASS'Y, steering wheel switches 1 **QTV500020**

WIRING REPAIR KIT, airbag circuits:

Airbag circuit wiring repairs are available, in the event of damage to the fascia harness, which may be used instead of replacing the entire harness. The appropriate repair kit should always be fitted when replacing an activated airbag.
Note RCM means Restraint Control Module.

driver's airbag to harness 1 **YMQ502080**

passenger's airbag to harness 1 **YMQ502110**

harness to RCM connector 1 **YMQ502090**

rotary coupler to harness 1 **YMQ502100**

ON MAIN HARNESS

WIRING REPAIR KIT, airbag circuit:

Airbag circuit wiring repairs are available, in the event of damage to the main harness, which may be used instead of replacing the entire harness. The appropriate repair kit should always be fitted when replacing an activated airbag.
Note RCM means Restraint Control Module.

PARKING BRAKE WIRING REPAIR KIT - YN1500400

ON CHASSIS HARNESS

LINK WIRE:

height sensor 4 **YMQ503220**

engine bay to height sensor link wire

RHD 1 **YMQ503260**

LHD 1 **YMQ503190**

Roll Stability Control, front 1 **LR016987**

WIRING REPAIR KIT, parking brake 1 **YN1500400**

Vehicles up to VIN 5A339115 can suffer water ingress in the connection on the electronic parking brake module section of the chassis harness, resulting in EPB warning lights being displayed or the brake not being released. The repair kit overcomes this problem by replacing this section of the chassis harness with an improved waterproof version. The kit includes the new section of harness, together with a connector terminal removal tool.

ON FRONT ROW SEAT HARNESS

LINK WIRE, seat recline mechanism:

without memory facility

ALL MODELS

CHASSIS

FRONT CROSSMEMBER - KVS500030

REAR CROSSMEMBER - KVB500101

Chassis Frame Assembly

CHASSIS FRAME ASSEMBLY:

Includes front crossmember, transfer box crossmember and rear crossmember. Owners of vehicles prior to VIN 6A395256 should note that chassis no. LR014463 is set up for a bolted (rather than welded) fuel cooler bracket and has rear mass absorber mountings already fitted.

- to VIN 5A904741 1 **KVD500622**
 With early style spare wheel carrier and welded fuel cooler bracket, without rear mass dynamic absorber mountings.
- VIN 5A904742 to 8A145569 1 **LR014464**
 Fitted sporadically between VIN 8A121996 and 8A145569. With early style spare wheel carrier and bolted fuel cooler bracket, with rear mass dynamic absorber mountings.
- VIN 8A121996 on 1 **LR032580**
 Fitted sporadically between VIN 8A121996 and 8A145569. With late style spare wheel carrier and bolted fuel cooler bracket, with rear mass dynamic absorber mountings.

CROSSMEMBER:

- front 1 **KVS500030**
- transfer box 1 **KVB500110**
- rear 1 **KVB500101**

SUPPORT, chassis to body front side member:

Bodyshell

Most of the bodyshells offered now by Land Rover are types used later in the production life of the Range Rover Sport. When resheiling earlier vehicles (as a broad guideline, up to 2008) it should be expected that there will be one or two unused holes on the new bodyshell that will require sealing with plugs (see later in this section).

BODYSHELL ASSEMBLY, RHD, less doors:

Includes primed and seam-sealed welded assembly only; does not include bonnet or hinges, front wings, front panel, side doors or hinges, rear door or hinges, sun roof.

without sun roof aperture to VIN 9A205839	1	AAC790150
VIN 9A205840 on	1	LR012617
with sun roof aperture	1	LR012619

BODYSHELL ASSEMBLY, LHD, less doors:

Includes primed and seam-sealed welded assembly only; does not include bonnet or hinges, front wings, front panel, side doors or hinges, rear door or hinges, sun roof.

without sun roof aperture to VIN 7A999999	1	AAC790060
VIN 8A000001 on	1	LR012618
with sun roof aperture	1	LR012620

Front Body Protection Accessories

BUMPER PROTECTION BAR:

Enhance the appearance of your Range Rover Sport with a front protection bar. Offered as moulded soft plastic 'A' bar for durability and safety towards other road users or alternative tubular wrap-around style. Neither types are compatible with adaptive speed control; the 'A' bar is however compatible with the front parking aid system, while the wrap-around tubular bar is not.

'A' bar, plastic

Compatible with front parking aid system; not compatible with adaptive speed control.

DOOR HANDLE SET - LR006944

Car Lock Sets

CAR LOCK SET, complete vehicle:

with remote control handsets

Includes remote controls with keys, door lock barrel and steering lock barrel. Note that the car's VIN is required when placing order.

Replacement of the car lock set (including remote controls) must be done with new remote controls featuring the same frequency as the original. As a general guide, 433Mhz frequency equipment is used

on UK cars, European cars, and many other markets. 315Mhz is used for the remainder.

cars with 433Mhz equipment	1	LR017450
cars with 315Mhz equipment	1	LR017452

Not USA, Canada or Mexico.

without remote control handsets

Includes key blades for remote controls, door lock barrel and steering lock barrel.

HANDSET, remote control, with key

Replacement of the remote control must be done with a new remote control featuring the same frequency as the original. As a general guide, 433Mhz frequency equipment is used on UK cars, European cars, and many other markets. 315Mhz is used for the remainder. Replacement receivers and remote control handsets will require programming before use. We provide a programming service, to personal callers only, for synchronising new ECUs and remotes with your car.

cars with 433Mhz equipment	2	CWE500041SW
cars with 315Mhz equipment	2	CWE500061SW

KEY BLADE, replacement

Includes roll pin for fixing new blade into remote handset. May be supplied pre-cut, otherwise supplied blank.

DOOR HANDLE SET, exterior, body colour:

Car set of door handles and end caps, finished in choice of colours matching selected vehicle body colours. Originally specified for HST model.

INTERIOR - TRIM

Side Door Trim Panels

Because we, the customers, apparently wanted all the variations and options to choose from when we ordered our new Range Rover Sports, Land Rover Parts were left with a problem: how to manage spares availability for potentially hundreds of different door panels (just imagine all the combinations of trim material, trim colour, door pull finish, speaker arrangements, switches, etc.).

The Land Rover Parts solution is to ask you for your car's VIN and, having referred to the archive build records, they then build you a new, replacement door panel finished in the correct materials and colours and with the right holes, speaker grilles etc. for the equipment fitted in your car.

The up sides of this policy are that you receive exactly the right panel, without compromises, in freshly minted condition and without the dust, knocks, pressure marks and water damage that used to be invariably associated with long term warehouse storage of interior trim.

The downsides are that the panel may take anything from 2 to 6 weeks to be delivered from the date of order, plus Land Rover Parts are understandably reluctant to take the door panel back if you decide at the end of the day that you didn't really need it... and it won't be cheap.

TRIM PANEL ASSEMBLY, side door:

VIN required when ordering. There will be a period of time between ordering and receiving the panel (see notes above). Door panels include plastic fitting clips, Land Rover badges and door pulls.

Child Seats

CHILD SEAT, forward fixing:

To use Isofix mountings on car seat.

'Cosy Tot' baby carrier	A/R	VPLMS0007
0-9 months. Requires Isofix base part no. VPLMS0008.		
Isofix base, 'Cosy Tot' carrier	A/R	VPLMS0008
'Duo Plus' child seat	A/R	LR006637
9 months-4 years (9-18kg).		
'Evolva Ultra' child seat	A/R	LR004940
4-11 years (15-36kg). Booster and backrest assembly.		
STRAP, child seat securing	A/R	VTN500010
Uses Isofix mounting points behind seat.		

SRS Equipment

important note

SRS EQUIPMENT

Important note: Inspection and replacement of SRS equipment (airbag modules, steering wheel rotary coupler, seat belt pre-tensioners and ECUs) is dependent on type and severity of crash condition. The following guidelines are the minimum that should be exercised as a result of the deployment of specific SRS components.

If airbags are deployed, the following parts must be replaced:

Relevant airbag module(s)
Link harnesses connecting relevant module(s) to SRS harness or main harness (repair harnesses may be found in the Wiring Harnesses & Cables section, under 'Link Wires & Wiring Repair Kits')

Relevant seat belt pre-tensioner(s)
Driver's seat belt inertia reel and anchorage

Rotary coupler behind steering wheel

Relevant SRS deployment control module(s)

The following should be inspected for damage and replaced where necessary:

Passengers' seat belt inertia reels and anchorages

Trim mouldings adjacent to passengers' airbag modules

Steering wheel

Seat frames and head restraints

Steering column

If either or both seat belt pre-tensioners are deployed in a rear impact, the following parts must be replaced:

Both seat belt pre-tensioners

The following should be inspected for damage and replaced where necessary:

Seat frames and head restraints

Seat belt retractors and anchorages

SRS deployment control module

In addition, because of deterioration of airbag propellants over a period of time, the manufacturers recommend replacement of airbag modules, seat belt pre-tensioners and the rotary coupler at 15 year intervals.

Please note that airbag modules and seat belt pre-tensioners cannot be shipped by mail order and may only be collected from the counter. Storage and fitment of modules and pre-tensioners is potentially seriously hazardous and must be carried out by trained personnel using correct equipment.

SECOND ROW SEAT BELT ASSEMBLY - LR016451

Competition Type Harnesses

A popular alternative to standard seat belts - these really do look the part! Harnesses are supplied singularly in 2" wide red or black webbing (blue webbing supplied to special order).

The 4-point harness can be converted to the 6-point type by the inclusion of the crotch strap. Note that fittings (eye bolts, reinforcement plates & bolts/spacer sets) are supplied separately.

This harness is designed for road use - please contact us if you have specific FIA/RAC approved type requirements.

See Accessories for more information and pictures.

Sound Insulation

A multitude of small and weirdly-shaped insulating pads are to be found within the body shell of a Range Rover Sport, mostly hiding behind the interior trim and carpets. The larger or more significant insulating pads on the vehicle are listed here; the smaller, harder to describe pads nesting within the door pillars, sills and roof rails are not - if any of these are required, please contact us with a description of where the pad fits, preferably with an attached photo to further help us select the correct item for you.

DAMPER, anti-vibration, headlining	1	EIR500181

Located over 2nd row seats.

Sound Deadening Panels

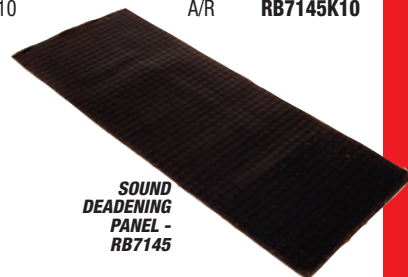

These self-adhesive bitumen pads have become a necessity with motor manufacturing engineers chasing NVH goals (eradication of noise, vibration and harshness). They are dramatically effective when applied to the inside of large, flexible pressings on a car bodyshell (such as door skins, floors and roof panels) where they will damp out drumming and give the vehicle that 'hewn from solid' feel.

The pads should be gently warmed before application, since when cold their inflexibility and brittle nature makes them impossible to fit to even the most slightly contoured body panel.

SOUND DEADENING PANEL:

Fit as required. Size: 530mm x 190mm (cut to fit).

INTERIOR - CARPETS, FLOOR TRIM & INSULATION

ALL MODELS

INTERIOR - FASCIA

Fascia Trim Panels

The trimmed components of the fascia are all assembled onto a large metal reinforcement and two armatures (frames), secured to the body shell by several brackets. Understandably there is little call for these structural components as spare parts, so they are not listed here. Their carry-over of use on later Range Rover Sport models means that they are all still available, if required - please contact us for details.

UPPER FASCIA COVER ASSEMBLY

Important note: All the upper fascia covers now available from Land Rover (with one exception, the earlier Aspen cover FAB502080LUP) are original fitment for cars from VIN 9A212698 onwards and are slightly different in design to the earlier types. To fit them to cars up to VIN 9A212697 you will need to also purchase and fit the later type of speaker grille part no. LR018984 and solar sensor finisher part no. LR013636.

UPPER FASCIA COVER ASSEMBLY:

Includes cover to windscreen seal, fixing screws and spring nuts.

PAINT

Touch Up Paint

Confirming the correct paint colour name for your car may be done by reading the paint name on the VIN plate, under the bonnet. Touch up pencils and aerosols for all of the standard paint colours are listed here, together with the Land Rover three digit codes for each colour (car body repair workshops know and match your car's colour by this code).

For reference purposes the Land Rover/MG Rover standard three letter codes are also shown; you will see these letter codes used as suffixes on the part numbers of colour coded spare parts. For example, some of the touch up paint part numbers on this page use them - a paint pencil in Rimini Red is VEP501730CBK, where VEP501730 is a paint pencil and CBK is Rimini Red.

If your car's colour is clearly not what the three letter code says it is, then the car has been refinished in a different colour (of course!). This may have been done by Land Rover - a small number of Range Rover Sports were repainted in 'any colour you like' as part of Land Rover Special Vehicles 'Autobiography' option scheme.

Each standard colour paint touch up kit includes both base colour and top coat lacquer, in either pencils or aerosol cans. Lastly, just to say Land Rover classify Adriatic Blue as being in the Greys colour group and Izmir Blue as being in the Silvers. That's where you'll find them on this page, rather than under Blues - it's not an error!

Britpac Paint Pens uniquely offer great improvements in convenience and effectiveness over the traditional touch in pencil. Manufactured in the USA, they feature non-hazardous high quality urethane paint with excellent colour matching properties. Paint is held in the pen barrel and dispensed automatically through a fine felt tip, providing unparalleled control in application and giving a first class finish without having to refinish damaged areas.

UPRATED BRAKE DISCS

SDB000604URBP

SDB000636URBP

Why fit uprated discs?

- Wide slots help brakes run up to 150° cooler
- Reduces brake fade underload
- Removes dirt, dust & debris from braking zone
- Great for off-road applications

BRAKE DISCS, uprated, slotted & drilled, pair:
front

- 320mm diameter **SDB000604URBP**
Models with 17" wheels or larger.
- 340mm diameter **SDB000614URBP**
Models with 18" wheels or larger.
- 360mm diameter **SDB000624URBP**
Models with 19" wheels or larger.

rear

- 325mm diameter **SDB000636URBP**
Models with 17" wheels or larger.
- 350mm diameter **SDB000646URBP**
Models with 18" wheels or larger.

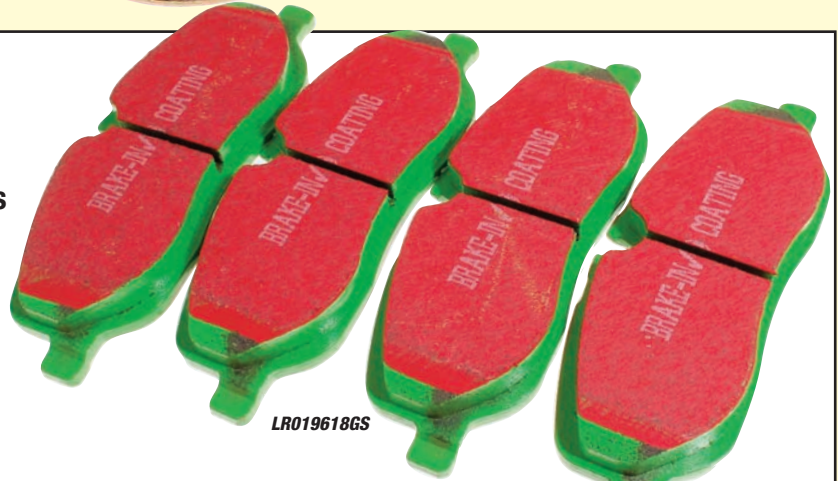

UPRATED BRAKE PADS

Why fit Greenstuff Pads?

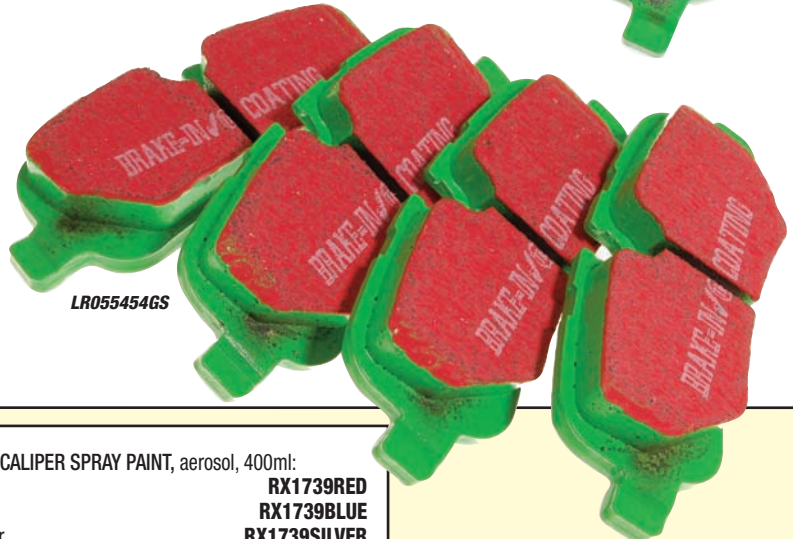

An excellent solution for 4x4 use. This heavy duty Greenstuff formulation has the benefit of longer life and better resistance to off road conditions of dust and sand. Greenstuff brake pads can deliver up to 15% improvement in stopping power. 100% British made.

BRAKE PAD SET, uprated, EBC Greenstuff, axle set:
Note that the wiring harnesses for the brake pad wear warning system sometimes need replacing along with the brake pads - for the harnesses, along with other brake pad attachment hardware, please refer to the 'Brakes - Front, Rear & Handbrake' section.

- front
for 320mm/340mm dia. discs **LR019618GS**
*Includes guide pin screws.
Models with 17" wheels, 18" wheels or larger.*
- for 360mm dia. discs **SFP500070GS**
*Includes brake pads only.
Models with 19" wheels or larger.*
- rear, for 350mm dia. discs only **LR055454GS**
*Includes guide pin screws.
Models with 18" wheels or larger.*

Polybush are the world leader in Polyurethane Suspension Bushes and Components.

Why fit Polybush?

Why use Polyurethane for your suspension requirements?

Polyurethane is an ideal material for making into suspension bushes. Its combination of high tensile strength and elasticity translates into immense durability in the toughest conditions. Polyurethane Bushes have excellent resilience, springing back in to shape effortlessly to absorb shock and prevent dirt ingress and wear. Lastly, it doesn't age or perish - rubber bushes both perish and are attacked by oils and fuels.

Anti Roll Bar Bushes

You need the resilience of polyurethane to ensure a tight fit to the bar. This avoids knock and squeaks from loose bushes and minimises wear. The "Comfort" grade is best for this, but the "Performance" grade is best if you want to reduce body roll and sharpen up steering.

Control Arm Bushes

Polyurethane's elasticity allows control arms to move as intended whilst its tensile strength soaks up punishment from cornering, braking, accelerating and poor road surfaces. Go for a "Comfort" grade bush to preserve ride quality for longer, or choose the harder "Performance" grade to improve body control and steering.

Shock Absorber Bushes

Shock Absorber bushes can crush down leaving the shock to rattle on its mountings. Polyurethane's resilience counters this without needing as hard a bush, so you can specify the "Touring" grade for all but the most arduous applications.

Mounting Bushes

All the vehicle's moving components cause noise and vibration so Polybush make a range of mounting bushes for steering, suspension, engines and transmissions. The polyurethane isolates these unwanted buzzes and rattles, but holds the components firmly in place improving ride smoothness and body control.

BRITPART PEAK PERFORMANCE AIR FILTER

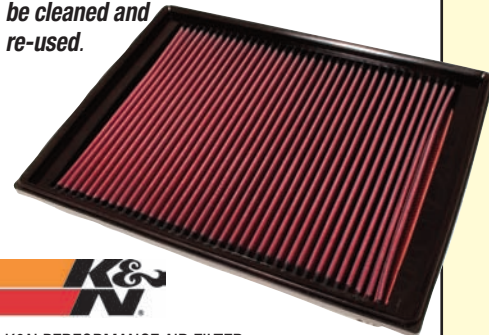

High quality filtration and maximum breathing efficiency result in more power or better fuel economy. Easily cleaned with air, water or detergent and doesn't need re-oiling before reuse.

BRITPART PEAK PERFORMANCE PHE000112BP
Fits all models, diesel and petrol.

K&N AIR FILTERS

K&N offer superior filtration, improvements in air flow and many times longer life than standard air filter elements. Plus, they can be cleaned and re-used.

K&N PERFORMANCE AIR FILTER ELEMENT PHE000112K-N
Fits all models, diesel and petrol.

POWER SOURCE INVERTER

A power source inverter converts car battery voltage (12v) into a 240v output. You can plug in a variety of mains voltage appliances into the standard UK socket. Three different inverters are available to suit a range of power requirements. There is overload, overheat and short circuit protection on all models.

Great for in car entertainment and leisure use!

150 WATT MODEL RX1551-150
 Continuous power: 150w. Peak power: 300w
 Cigar lighter plug connection. 15A fuse.
 Suitable applications: TV, DVD, Video, Computer Consoles, Lights (not fluorescent) Phone charger etc.

300 WATT MODEL RX1551-300
 Continuous power: 300w. Peak power: 660w
 Cigar lighter or battery clip connection.
 40A fuse.
 Suitable applications: as 150w model plus small power tools, small fridges, stereo etc.

500 WATT MODEL RX1551-500
 Continuous power: 500w. Peak power: 800w
 Battery clip connection only. 70A fuse.
 Suitable applications: as 300w model plus medium power tools, colour TV's with DVD's, battery chargers etc.

BATTERY CONDITIONER

The battery conditioner is a battery charger that turns on and off automatically. This superb product is suitable for all 12 volt batteries (from 5ah to 100ah) and constantly revitalises the battery cells - helping to extend cell life, without the danger of overcharging.

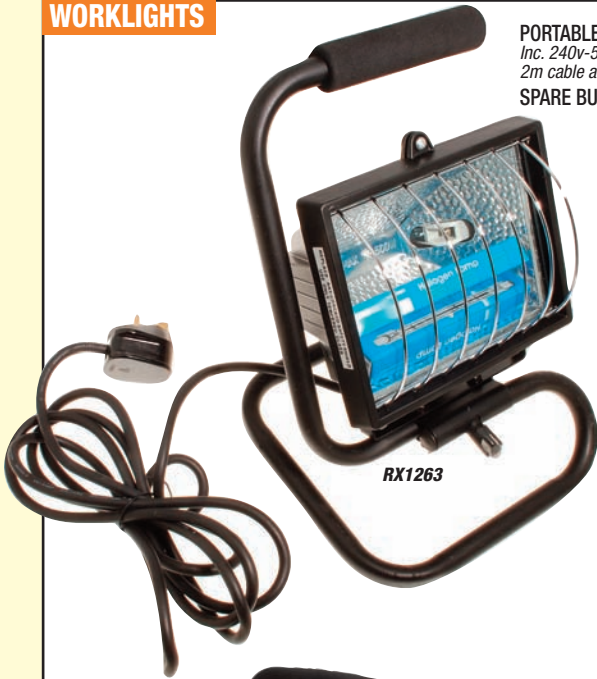

- Look at these benefits:
- Designed to be left connected for long periods.
 - Use without disconnecting vehicle electrics.
 - L.E.D. battery condition display.
 - Thermal cut-out facility.
 - 12 month guarantee.

It can also be used for the following applications, providing they use a 12 volt battery: caravans, lawn mowers, motorbikes, motor boats, wheel chairs and general leisure use. The kit is supplied complete with all fittings and operating instructions.

BATTERY CONDITIONER KIT:
 0.8 amp version
 3.8 amp version

TYRE PRESSURE MONITOR

New generation system for cars and vans

TB99 is our newest model for cars and vans with a small dashboard mounted monitor that displays the pressure of four tyres up to 99psi simultaneously and can be set up to monitor the spare tyre as well.

- Neat system, reliable and very easy to install
- Clear visible and audible alerts
- User set alert levels for low pressure, high pressure and high temperature
- Automatic back light
- Rechargeable monitor battery

The TB99 monitor continuously displays the pressure of four tyres. If there is a fifth sensor, it alternately displays the four tyres and then the spare. Tyre temperatures are shown at the press of a button.

New generation sensors simply screw on to the tyre valves in place of the normal dust caps, and they have an integral anti-theft design. They are smaller and lighter than previous models and improved electronics give up to 2 year life from the replaceable CR1632 batteries

Box contents

- TyrePal TB contents
- 1 Monitor
 - 1 Monitor mounting pad
 - 1 Charging lead
 - 4 Sensors with batteries fitted
 - 4 Locking screws
 - 2 Locking keys
 - 1 Pair sensor tools

TYRE PRESSURE MONITOR

REVERSING CAMERA KIT

REAR FACING CAMERA KIT - INCLUDES MONITOR

Seeing exactly what is behind a Land Rover is not easy using conventional mirrors. This kit is a practical driver assistance device with the primary objective of helping the driver to see things that they may not otherwise see when reversing.

Features of the kit with monitor
 Waterproof rear view or reverse camera.
 Small, discreet, MicroBlock™ colour camera.
 Slimline 3½" LCD monitor.
 Typically installed above number plate to include the rear bumper in the field of view.
 Outstanding image quality both day & night.
 Panoramic view.
 Instant image on.
 Single cable installation technology - easy to install.
 IP68 rated so 100% water and dust proof.

REVERSING CAMERA KIT **RX1710BP**

ADDITIONAL FORWARD FACING CAMERA KIT

Front facing camera kit - no monitor
 An additional camera to add to RX1710BP

Easy to install camera kit. The camera is the only external part and much like the vehicle it will be installed on it can be submerged in water, it can be blasted by a jet wash, sprayed with mud. Effectively there is very little that can be done to damage the camera, short of hitting it with a solid object. But even then it can withstand some abuse.

FORWARD FACING CAMERA **RX1710BPFFCAM**
 For RX1710BP.

AUTOMATIC REVERSING CAMERA KIT

This is a high performance, fully automatic, practical driver assistance device. The primary objective is very simple: to help a driver to see things that they may not otherwise see when reversing.

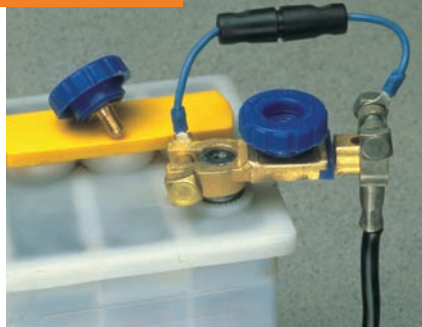

With the patented cable technology, installation should take around 30 - 45 minutes. No other system in the market is as quick and easy to install.

Features of the kit with monitor
 Small, discreet, camera.
 Typically installed above number plate to include the rear bumper in the field of view.
 Outstanding image quality both day and night.
 Panoramic view.
 Instant image on.
 Single cable installation technology.
 IP68 rated (100% water and dust proof).
 Works seamlessly with supplied LCD monitor.

REVERSING CAMERA KIT (Fully automatic) **RX1710BPAUTO**

DIS-CAR-NECT

'DIS-CAR-NECT' STARTER IMMOBILISER **RX1356**
 REPLACEMENT SCREW KNOB **RX1356K**
 REPLACEMENT FUSE **RX1356F**

HOW DOES 'DIS-CAR-NECT' WORK?

When leaving your car, simply remove the knob to isolate the starter circuit. The 16 amp by-pass fuse will maintain current to all other electrical circuits (stereo memories, vehicle alarm etc). Because the starter motor draws over 150 amps, any attempt to connect (hot wire) the starter motor will instantly cause the fuse to blow, immobilising the car until the knob is replaced. If this should happen, simply replace the 16 amp fuse at a convenient time. For extra security, unscrew and remove the immobiliser knob completely, and if you intend to store your vehicle for some time, 'Dis-Car-Nect' will also prevent battery drain, simply unscrew the knob and remove the fuse. Fits all vehicles and is easily fitted to any battery terminal. Full installation/user instructions supplied with every unit.

ELECTRIC COOL BAG

Genuine Land Rover accessory, powered by a 12 volt auxiliary socket and thermostatically temperature controlled. Easy clean interior surface. Height 380mm, Length 380mm, Width 220mm, Volume 14 Litres.

ELECTRIC COOL BAG, Land Rover **VUP100140L**

LED LOGO PUDDLE LAMP KIT

LED puddle lamps, with Land Rover logo embedded in the beam, ideal for adding that personal touch to your Land Rover vehicle. The lamps are designed to operate when you open the door of your vehicle to illuminate the floor below. These lamps may also be installed internally to illuminate the interior footwell of the vehicle. Flush fitting, for discreet installation.

Kit includes two puddle lamps with wiring, plus core cutter to make mounting holes.

PUDDLE LAMP KIT, with LED logo **RX1267**

WIND DEFLECTOR SETS

OUTDOOR COVERS

The Galaxy premium outdoor car cover is manufactured from heavy duty polyester with a superior satin finish. The resultant material has a very high tear strength combined with excellent water repellency and UV protection. This is enhanced by a waterproof membrane and heat sealed seams. The excellent waterproofing and breathability of the outer shell is combined with a soft moisture resistant fleece lining to provide the ultimate protection.

GALAXY OUTDOOR CAR COVER:
Range Rover Sport & L322 RA2113G

The Eclipse outdoor car cover is made from polypropylene with a breathable membrane. The four-layer construction consists of two non-woven top layers which gives good UV protection and water repellency. The third layer is a breathable/waterproof film, and the fourth is a non-woven soft inner lining for scratch resistance.

ECLIPSE OUTDOOR CAR COVER:
Range Rover Sport & L322 RA2113E

VEHICLE NUMBER PLATES

Number plates can only be sold directly to the owner of the vehicle together with proof of ownership and personal identification.

We will need sight of the following three original documents:-

- Vehicle registration document (V5)
- Driving Licence or utility bill.
- Passport or credit card (with photo ID), or travel/works pass (with photo ID).

Number plates are made to special order.

Please note that it is also now mandatory in the UK for all new number plates to bear the originating suppliers name, postcode and telephone number (i.e. Rimmer Bros).

VEHICLE NUMBER PLATE - Front

QUIK TAPE SILICONE RUBBER TAPE

Self-adhering and fusing, curing into a solid rubber insulator in less than 24 hours. Resists moisture and temperatures up to 260°C. Gives a tough, permanent insulation seal around electrical connections, hoses, pipes (including exhaust) etc.

QUIK TAPE **RX1479**
Black. 25mm wide x 0.5mm depth x 3m length.

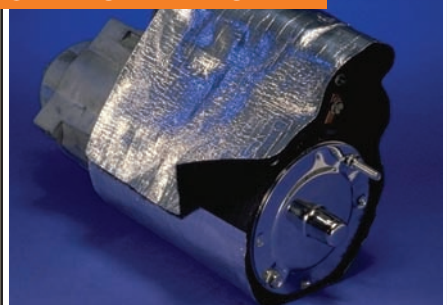

COOL TAPE

Consists of a 1mm aluminised material bonded to a lightweight, woven fibreglass with super strong adhesive backing. Reflects radiant heat. Limitless application, but common uses include wrapping cables, hoses, fuel lines, 'spot' heat retardation areas and sealing gaps in floors or firewalls. The best product on the market! Flexible, strong adhesive and thin for a tight wrap.

COOL TAPE **RX1474**
Available in 13/8" x 15', 13/8" x 30' and 2" x 60' rolls.

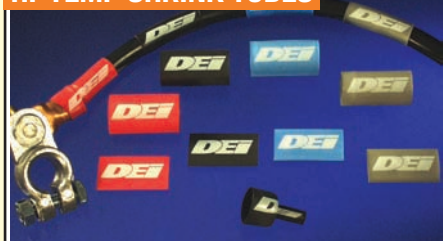

UNIVERSAL HEAT SHIELD

This multi-purpose heat shield can be used to protect starter motors, carbs, fuel pumps, electrical boxes, instruments and hydraulic cylinders from intense heat. Easily cut to shape (scissors or knife) it attaches to itself with velcro material. Simply cut off excess material.

UNIVERSAL HEAT SHIELD **RX1470**
7" wide x 24" long

HI-TEMP SHRINK TUBES

These shrink tubes are already supplied with the HT lead kits listed below. They can also be used for many other applications such as an enhanced appearance to any hose or wire, bundle wires as alternative to plastic ties or protecting electrical connections. Available in grey, black, red, blue and in 2 sizes, with a shrink ratio of 3 to 1. Easily installed with naked flame. 18mm size shrinks to 6mm and 12mm size shrinks to 4mm. Supplied in packs of 25.

HI-TEMP SHRINK TUBES;
18mm dia x 38mm long (Pack of 25) **RX1468**
12mm dia x 38mm long (Pack of 25) **RX1469**

THERMAL HEAT SLEEVES

This high temperature sleeving will protect wiring, HT leads, hydraulic hoses and coolant hoses from radiant heat. Two different designs are offered. The fixed tube type is designed to slide over wiring/hoses whereas the velcro type can be easily installed without having to disconnect anything. Easy to cut and shape to suit. Supplied in 3ft lengths.

FIXED TUBE SLEEVE **RX1471**
Supplied in diameters of 0.5", 0.75", 1", 1.25", 1.5"
(all 3ft long)
VELCRO SLEEVE **RX1472**
Supplied in 1 size - 0.5"-1.5" diameter (3ft long).

HEAT & SOUND INSULATION

Designed for insulating floors, bulkheads, transmission tunnels and many other applications from the effects of heat, road noise, engine and transmission noise. Made from an aluminium face bonded to a 1/8" composite fibreglass insulation, then backed to an aggressive adhesive. Tough enough for under vehicle applications and harsh environments where high heat can be a problem. Can also block out up to 50% of unwanted noise. Self adhesive, can be cut with tin snips to any shape.

INSULATION MATERIAL **RX1473**
Supplied in 3 sizes: 2' x 21" (3.5sq ft), 4' x 21" (7sq ft), 4' x 42" (14 sq ft).

HT LEAD & SPARK PLUG PROTECTION

Protect your HT leads and spark plugs from extreme heat and improve the appearance of your engine bay with these top quality products. Ideal for tubular extractor manifold applications where additional heat is generated, but may be fitted to a standard vehicle.

Note: For Manifold insulation wrap, refer to 'Exhausts' in relevant catalogue.

SPARK PLUG SLEEVES
Manufactured from a fibreglass composite material (no arcing), the sleeves slide over the ends of the HT leads, easy installation. Available in silver, black, red or blue.

SPARK PLUG SLEEVES
2 cylinder kit **RX1462**
Order 2 kits for 4 cylinder, 3 kits for 6 cylinder.
8 cylinder kit **RX1463**

HT LEAD SLEEVES
Made from the same material as the spark plug sleeves - these easy install, snug - fitting sleeves will fit any HT lead up to 10mm in diameter. Also included are hi-temp shrink tubes for a sharp finished appearance. Available in silver, black, red or blue.

HT LEAD SLEEVES
2 cylinder kit **RX1464**
Order 2 kits for 4 cylinder, 3 kits for 6 cylinder.
8 cylinder kit **RX1465**

HT LEAD & SPARK PLUG SLEEVE KIT
These kits comprise of both kits listed opposite in one convenient (and cost effective) kit. Colour matched sleeves available in silver, black, red or blue.

HT LEAD & SPARK PLUG SLEEVE KIT
2 cylinder kit **RX1466**
Includes 7ft of HT lead sleeve,
2 plug sleeves & 6 shrink tubes.
Order 2 kits for 4 cylinder, 3 kits for 6 cylinder.
8 cylinder kit **RX1467**
Includes 25ft of HT lead sleeve, 8 plug sleeves
& 25 shrink tubes.

HAWKEYE DIAGNOSTIC TOOLS

The *Bearmach Omitec HawkEye* is every bit as useful as carrying a spare wheel with you and compact enough to carry in the glovebox at all times, particularly if you're on a long holiday journey or off-road adventure.

Modern vehicles have advanced engine management systems and high-tech developments in suspension and braking systems - so there's a host of problems that can only be properly identified using expensive equipment at the main dealers.

HawkEye is an inexpensive solution that gives the home mechanic or small independent garage the ability to diagnose most common faults.

Once the fault is repaired, *HawkEye* can be used to verify the work and clear the fault codes.

HAWKEYE DIAGNOSTIC TOOL, for Land Rover:
Supplied with pouch and standard J1962 onboard diagnostics (OBD II) cable.

TERRAFIRMA HAND HELD DIAGNOSTIC TOOL,
for Land Rover

TF930

Professional multi-system scanner
TF930 for Land Rover

Full system diagnosis tool enabling DIY problem solving - all at a bargain price!
Read and clear diagnostic trouble codes, read live data stream. Multi-language. Test modes include: CANBUS, ISO9141, KWP2000 AND J1850.

Key Features:

- 1 Fast full colour screen
- 2 USB 2.0 high speed upgrades
- 3 Support of multi-language
- 4 Read and clear Diagnostic Trouble Codes
- 5 Read live data stream
- 6 Full System Diagnosis
- 7 Pre-programmed for Land Rover

The Kit Includes:

- Handheld scanner
- USB 2.0 cable
- Protective case
- Free updates
- OBDII connector
- User manual
- 12-month warranty

LYNX DIAGNOSTIC TOOL

Finding and rectifying common Land Rover electrical faults has never been easier. Britpart have worked closely with Omitec to design and build a highly advanced Land Rover diagnostic tool. As well as the multi-vehicle professional version a single model home use version is available too.

The Lynx interface is Windows based and when running diagnostics on a laptop or Windows tablet, far more information can be displayed to the user than on a hand held device. Being Windows based there is familiarity and flexibility with the interface and navigation is much more intuitive.

What does Lynx do?

- Read fault codes
- Read live data
- Special functions
- Programming - such as alarm settings, key fobs etc.
- Clear fault codes
- Test actuators
- Service reset

What do you get with Lynx?

- Windows compatible software
- VCI to OBD II lead
- Activation form
- Carry case with foam insert
- Vehicle Communication Interface box (VCI)
- USB to VCI lead
- Quick start booklet
- Unlock code booklet

More about Lynx

As Lynx is Windows based, the system is future proofed due to your laptop or Windows tablet hard disk drive which allows for 'many more' number of updates compared to hand held devices. Lynx is powered by Omitec who build the T4 - Official Land Rover diagnostics tool. Live data can be displayed using graphics; making it easier to read time based events and the live data can be recorded on the lap top for a comparison, a great advantage over hand held diagnostic tools as they do not usually have storage memory.

The Windows based tool allows a simultaneous access to the vehicle diagnostics and consultation of circuit diagrams and other technical information. Allows you to access the internet if you are connected to it whilst diagnosing a vehicle and other such programs you might need to use in a garage environment. Lynx is supplied in a hard wearing carry case with foam insert to protect it when not in use. For the enthusiast home user using Lynx will mean no more trips to your local main dealer to clear any faults on your Land Rover.

LYNX DIAGNOSTIC TOOL

DA6430

TIMING TOOL KITS

Pin-point accuracy is of course essential when setting camshaft timing during an engine rebuild and that's exactly what these kits from Laser have been developed to ensure.

Including all the tools required to lock the engine in the desired stroke position and then accurately align the camshafts, the two kits cover the 2.7 TDV6 diesel engine (as fitted to Discovery 3 and Range Rover Sport) and the pre-2010 Jaguar-derived AJV8 petrol engine with timing chains, both in 4.4 normally aspirated and 4.2 supercharged forms (as fitted to Discovery 3, Range Rover Sport, Range Rover L322 and several Jaguar XJ, XK, S Type and XF variants).

LASER TIMING TOOL KIT:

2.7 TDV6 diesel
4.4 & 4.2 AJV8 petrol

RA1549

RA1548

MISFUEL DEVICE RESET KEY

For diesel models with 2010 model year (Discovery 4) type fuel tank.

Resets the misfuelling safety device in the fuel filler after it has been activated. The key is normally stowed behind the panel on the RH side of the luggage area (if you can't find yours).

RESET KEY, misfuel device, yellow

RADIATOR RELIEF**COOLING SYSTEM ADDITIVE**

Radiator relief allows your radiator to transfer heat more efficiently, reducing your engines operating temperature (which is obviously controlled by the thermostat) by up to 30°F. You therefore have 'a little bit in hand' for those hot days stuck in traffic. This proven coolant additive will also cut engine warm-up time in half which will reduce engine wear which is most extreme when the engine is cold. Fully compatible with water and anti-freeze and is safe with cast iron and all alloys.

- 30°F lower operating temperature
- 50% quicker warm up time
- Safe with water/antifreeze mixture
- Safe with cast iron, alloy engines and heads
- Increased engine life!
- 100% biodegradable, non corrosive, non toxic
- For use in all water cooled engines

RADIATOR RELIEF (473ml) Treats 1 engine. **RX1461-473**

Waterless Coolants**Life Time Cooling****No Water - No Overheating**

Classic Cool 180 deg has a boiling point of 180 deg C and will not boil over.

No Water - No Corrosion

Water contains oxygen, oxygen allows corrosion. Classic Cool 180 deg eliminates corrosion.

No Water - No Pressure

Classic Cool 180 deg allows your cooling system to run at a lower pressure, reducing the strain on engine components.

No Water - No Liner Pitting

Classic Cool 180 deg generates significantly less pitting when compared with all water based coolants.

No Water - More BHP

Classic Cool 180 deg eliminates premature detonation associated with overheating.

WHEEL CLEANER

MWS' SPECIALIST WHEEL CLEANER KIT

This specialist wheel cleaning system will help you care for your Classic's wheels.

Suitable for all Steel, Alloy and Wire wheels (including painted & chromed), this wheel cleaning system uses a unique 2-stage process that not only cleans, but gives wheels a superb lasting finish that helps to protect them, making them easier to care for and clean in the future.

MWS' Wheel Cleaning Kit - RX1405

- Kit includes;
- Special cleaning solution (580ml).
 - Wooden handled cleaning brush & dispenser.
 - Finishing/protection solution (180ml)
 - 2 pair of disposable gloves.

Cleaning solution breaks down brake dust & road grime. Brush & dispenser gets into all those awkward places. Finishing/protection solution leaves wheels like new.

AUTOGLYM CAR CARE KITS

The following kits work out cheaper than purchasing individual items.

PERSONALISED RANGE ROVER SPORTS PRINTS

Personalised, mounted print (12"x10") from Classic Memories, available in black & white or your vehicle colour. Add your registration number (or wording) to the front number plate.

At time of ordering, please supply registration number (or wording) desired. If ordering a colour print, please also specify colour (we would suggest the colour name if you know it or the paint code from your car's VIN plate). If ordering from our website, this information should be entered in the 'Additional Comments' box at the checkout. Please double check that all the information you supply to us is correct, as refunds cannot be made. Personalised prints of later Range Rover Sport models (2010-2013 and 2013 onwards) are also available, along with other Land Rover, Range Rover, Jaguar, Triumph, MG, Rover and Mini personalised prints - please contact us for details or click on 'Classic Memories' in the brand box on our website. Mounted prints are despatched direct to you from our supplier - please allow 7-10 days for delivery.

PERSONALISED MOUNTED PRINT, black & white:
Please supply reg. no. or wording required.

Range Rover Sport 2005-09 model **RA1539BW**
Range Rover Sport HST model **RA1540BW**

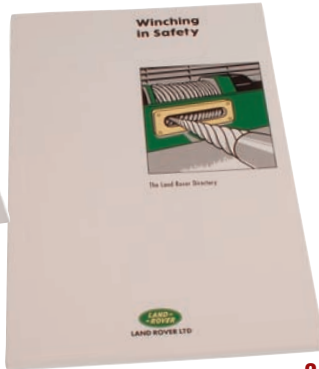

PERSONALISED MOUNTED PRINT, colour:

1. LAND ROVER DRIVING TECHNIQUES

Official Land Rover booklet guide to the more important aspects of off-roading to enable you, with practice, to get maximum benefit from the vehicle and properly maintain it. Reproduced and marketed by Brooklands Books.
32 pages, paperback, published 1996.
Land Rover Driving Techniques **RA1404**

2. WINCHING IN SAFELY: THE LAND ROVER DIRECTORY

Describes the various types of winch available and how to use them safely for the casual user. Land Rover official publication, reproduced and marketed by Brooklands Books.
104 pages, paperback, published 2010.
Winching in Safety: The Land Rover Directory **RA1405**

3. WORKING IN THE WILD: LAND ROVER'S MANUAL FOR AFRICA

Designed to equip the Land Rover user with the practical know-how to make the most of the vehicle's capacity for hard work in hostile conditions. Also includes sections on unconventional workshops and how to avoid problems and overcome difficulties. The book is based on in-depth experience of Land Rover engineers and users over many years. Published by Brooklands Books.
190 pages, paperback, published 1996.
Working in the Wild:
Land Rover's Manual for Africa **LL1019**
By William Treneman and Kurt Carolan

4. LAND ROVER: 65 YEARS OF THE 4X4 WORKHORSE

In this revised edition of his acclaimed book, first issued as Land Rover - 60 Years of the 4 x 4 Workhorse, James Taylor charts sixty-five years of Land Rover development in comprehensive detail, bringing the story right up to date with the latest models. Published by Crowood Press. 304 pages, hardback, published 2013.
Land Rover: 65 Years of the 4x4 Workhorse **RD1364**
By James Taylor

5. LAND ROVER MILITARY PORTFOLIO

A collection of 52 Military Scene features by Bob Morrison from Land Rover Owner magazine. Published by Brooklands Books.
140 pages, paperback, first published 2001.
Land Rover Military Portfolio **LL1015**
By Bob Morrison (edited R. M. Clarke)

6. COMBAT LAND ROVERS PORTFOLIO NO. 1

Compilation of articles mainly concerned with Land Rover's change from the old style vehicle into a frontline, liaison and command unit. Includes articles covering the Wolf as it was introduced to the forces in all its guises. Published by Brooklands Books.
136 pages, paperback, first published 2002.
Combat Land Rovers Portfolio No. 1 **LL1048**
By Bob Morrison (edited R. M. Clarke)

7. LAND ROVER FILE: 65 ANNIVERSARY EDITION

New photographs, details and specifications of every Land Rover Series, Defender, Freelander, Range Rover, Range Rover Sport, Discovery and Evoque including the aluminium Range Rover, military, special and expedition Land Rovers. The definitive book on every Land Rover since 1948, with company history and comprehensive index. Published by Dove Publishing.
416 pages, hardback, published 2013.
Land Rover File: 65 Anniversary Edition **RD1363**
By Eric Dymock

8. THE LAND ROVER STORY

Giles Chapman tells the story of how Land Rovers have tamed the planet's toughest terrain with their unstoppable off-road capability. It also charts how the Land Rover legend allowed the marque to gradually expand its range with the Range Rover, Discovery, Freelander and the latest Range Rover Evoque. Published by The History Press.
128 pages, hardback, published 2013.
The Land Rover Story **RD1365**

HAYNES OWNERS WORKSHOP MANUAL - MAN

All models, shapes, sizes & colours, 120,000BC to present day.

By Dr Ian Banks. 160 pages, 200 colour illustrations.

Man Manual (2nd edition)

The definitive step-by-step guide to men's health the first edition of this book became an international best-seller.

This new edition, now all in colour, has been revised and updated to take account of developments in the fast-moving world of health care and disease prevention.

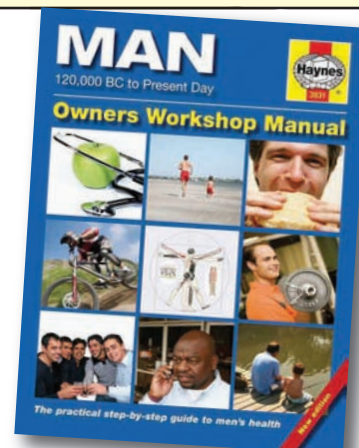

New material includes sections on asthma, allergies, diabetes, metabolic syndrome and statins.

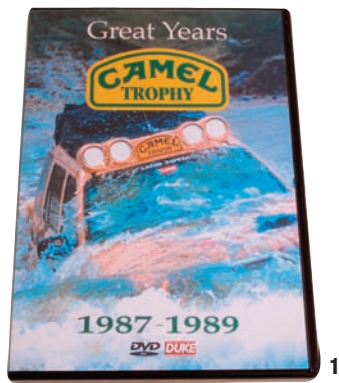

Men are far more likely to look after their cars than their own bodies!

Reading this could mean the difference between a healthy, high mileage life and premature breakdown.

1. CAMEL TROPHY: GREAT YEARS 1987-1989

This DVD brings together three fantastic years of the ultimate off-road challenge. See 4x4s in their natural environment, driven by a band of men dedicated to the cause. And not afraid of a little mud and water. All right, a lot of mud and water! From Duke Video. 180 minutes, PAL Region 2 DVD, published 2004.

CAMEL TROPHY: GREAT YEARS 1987-1989 **LR1548DVD**

2. BEST OF BRITISH: LAND ROVER

Examines every aspect of Land Rover from its beginnings right up to the 21st century. Features the sturdy, four-square Defender, the up-market Range Rover and models like the new Discovery and the sporty Freelander. A great insight into vehicles that epitomize British character. From Duke Video. 85 minutes, PAL Region 2 DVD, published 2006.

BEST OF BRITISH: LAND ROVER **RD1033DVD**

3. BEST OF LAND ROVER: VOL 1

Features a compilation of classic original films from newsreel and the Land Rover archives remastered for DVD. Includes films from 1950-1957, plus the classic '4x4Fifty' from 1999. From Heritage Motoring Films. 90 minutes, PAL Region 2 DVD.

BEST OF LAND ROVER: VOL. 1 **LR1153DVD**

4. BEST OF LAND ROVER: VOL 2

Features six classic original publicity and training films from the Land Rover archives remastered for DVD. Films range from 1957-1974, including fascinating footage of the Solihull production line in 1973. From Heritage Motoring Films. 90 minutes, PAL Region 2 DVD.

BEST OF LAND ROVER: VOL. 2 **LR1154DVD**

5. FURTHER ADVENTURES OF LAND ROVER: VOL 3

Completing the trilogy of Land Rover titles from Heritage Motoring Films, Volume 3 features more classic original promotional films from the archives of The British Motor Industry Heritage Trust, re-mastered for DVD. Includes films from 1955-1964. 76 minutes, PAL Region 2 DVD.

FURTHER ADVENTURES OF LAND ROVER: VOL. 3 **LR1155DVD**

6. BEST OF RANGE ROVER

Compilation of classic original promotional films from the Land Rover Archives re-mastered for DVD. Features films from 1969-1985, including a rolling chassis being tested in the grounds of Eastnor Castle and the prototype tackling the sands of the Sahara desert.

80 minutes, PAL Region 2 DVD. **BEST OF RANGE ROVER RA1547DVD**

Certificates can also be ordered on-line, personalised and either e-mailed or posted to the recipient!
