

Do you love gardening but aren't quite sure which plants to choose for your landscape to blossom? Having trouble finding plants that look great and thrive season after season? Take the guesswork out of finding the right plant for the right spot (with perfect plant combinations) by purchasing a custom-designed, water-saving Go n Grow Garden!

Our pre-planned gardens include sure-fire plants hand selected by Rooted In Horticulturists that are proven to flourish in our challenging North Texas soils and harsh and unpredictable climate.

START SMALL, SAVE BIG! Go n Grow Gardens include 24 starter plants sown in 3-inch pots and bundled into a 2 ft. x 1 ft. box. Each plant is tagged and numbered to correspond with our professional designs to make planting as easy as possible for your DIY installation!

Select from our 3 professionally designed PLANT-BY-NUMBER garden layouts to get started converting those empty, bare spaces in your landscape into colorful perennial gardens. Each boxed garden comes with a free comprehensive planting and maintenance guide, including everything you will need to know to prepare for, plant, and manage your new garden for years to come.

POLLINATOR GARDEN

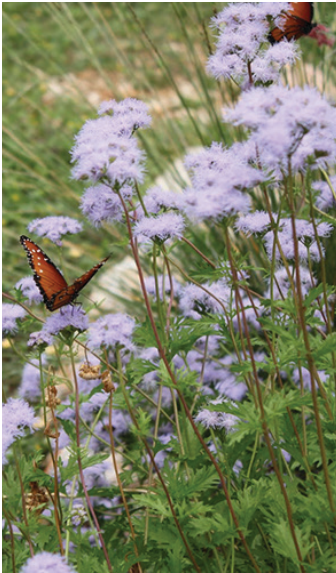

Gardens that support pollinators are one of the hottest landscape design trends and a great way to help your problem landscape area take flight! With "The Pollinator Pack" not only will you be giving back to honey bees, native bees and butterflies, but many species also support our favorite hummingbirds as well! The bonus: These easy to grow plants look great, too! Each plant has been thoughtfully selected to fit perfectly into your colorful pre-designed landscape plan with long blooming pollinator-supporting flowers that are Texas tough. PLUS, the garden includes semi-evergreen plant material for year-round interest. Bring your landscape to life with activity with a simple solution that is sure to be the buzz of the neighborhood!

- Covers: up to 125 sq. ft
- Exposure: Plant in Full Sun to Part Shade for best results. (Minimum of 5 hrs direct sun per day)
- Duration: Colorful blooms from Spring to Fall

GREGG'S MISTFLOWER

Conoclinium greggii

Plant Type	Perennial	Bloom Time	Summer, Fall
Mature Height	1-2'	Character	Deciduous
Plant Spread	2-3'	Light Requirement	Full Sun, Partial Shade
Flower Color	Blue	Water Requirement	Low

Description If you were to choose one plant for attracting butterflies and native pollinators, Gregg's mistflower is hard to beat! Summer through fall powdery blue flower clusters almost completely cover the tops of its lacey green foliage. It is so adaptable and easy to grow, it often forms a tall groundcover which works as a virtual stop sign for fall migrating Monarchs.

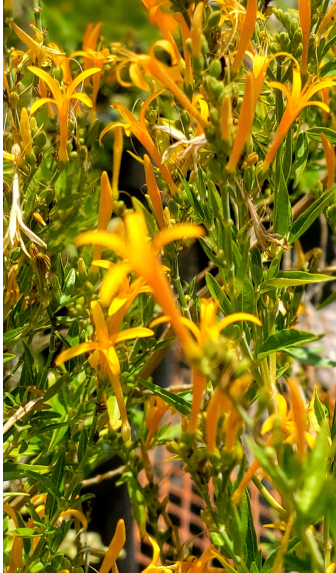

Autum Sage (Purple)

Salvia greggii 'Purple'

Plant Type	Perennial	Bloom Time	Summer, Fall
Mature Height	3'	Character	Deciduous
Plant Spread	3'	Light Requirement	Full Sun, Partial Shade
Flower Color	Purple	Water Requirement	Low

Description A semi-evergreen Texas native shrub planted for its colorful and long blooming deep purple flowers that attract hummingbirds and pollinators alike. It's extremely heat and drought tolerant, needing very little maintenance. The nativar 'Purple' is one of our favorites, producing dense flushes of blooms spring through late fall.

'Benny's Gold' Flame Acanthus

Anisacanthus quadrifidus var. Wrightii

Plant Type	Perennial	Bloom Time	Spring, Summer, Fall
Mature Height	3-4'	Character	Deciduous
Plant Spread	3-4'	Light Requirement	Full Sun, Partial Shae,
Flower Color	Gold	Water Requirement	Low

Description Also known as hummingbird bush, this Texas native shrubby perennial planted for its showy gold to orange long-blooming flowers which attract both hummingbirds and butterflies. It's very easy to grow in sunny spots with good drainage and can withstand even the sunniest spot with blistering summer sun!

LANCELEAF COREOPSIS
Coreopsis lanceolata

Plant Type	Perennial	Bloom Time	Spring, Summer
Mature Height	1-2'	Character	Semi-evergreen
Plant Spread	1-2'	Light Requirement	Full Sun
Flower Color	Yellow, Red	Water Requirement	Low

Description This prolific flowering native perennial is adapted to a number of sites and soil conditions and is a favorite of many bees and butterflies. Clumps of lance-shaped leaves give rise to bright yellow daisy-like flowers which can bloom spring to fall.

WILD BERGAMOT
Monarda fistulosa

Plant Type	Perennial	Bloom Time	Spring, Summer, Fall
Mature Height	2-3'	Character	Deciduous
Plant Spread	2-3'	Light Requirement	Full Sun, Partial Shade
Flower Color	Pink, Lavender	Water Requirement	Low

Description Also know as bee balm this native perennial is highly adaptable and produces long blooming whorls of pink to lavender flowers that attract a number of pollinators and hummingbirds.

White Mistflower
Ageratina havanensis

Plant Type	Perennial	Bloom Time	Fall
Mature Height	2-4"	Character	Deceduous
Plant Spread	2-3'	Light Requirement	Full Sun, Partial Shade
Flower Color	White	Water Requirement	Low

Description One of the best plants for attracting fall-migrating monarch butterflies and native pollinators, autumn-blooming white mistflower is hard to beat! When summer temperatures begin to fade, dense white flower clusters explode, almost completely covering the tops of its attractive green foliage. Also known as shrubby white bonset, this evergreen sub-shrub adaptable and easy to grow, it often forms a tall groundcover which works as a virtual stop sign for fall migrating Monarchs.

SUNDANCE RUDBECKIA
Rudbeckia grandiflora

Plant Type	Perennial	Bloom Time	Summer, Fall
Mature Height	3-4'	Character	Deciduous
Plant Spread	2-3'	Light Requirement	Full Sun
Flower Color	Yellow	Water Requirement	Low

Description A striking native coneflower that produces large and showy yellow blooms from summer to fall that are a favorite of people and pollinators alike.

GREEN MILKWEED
Asclepias viridis

Plant Type	Perennial	Bloom Time	Spring, Summer
Mature Height	1-3'	Character	Deciduous
Plant Spread	1-2'	Light Requirement	Full Sun
Flower Color	White, Yellow, Green	Water Requirement	Low

Description A native, perennial forb that serves as a host plant for Monarch butterflies. Has a spreading, open growth form with cluster forming whitish yellow flowers with purple centers that also provide nectar for a number of native butterflies and bees.

RATTLESNAKE MASTER
Eryngium yuccifolium

Plant Type	Perennial	Bloom Time	Spring, Summer, Fall
Mature Height	3-5'	Character	Evergreen
Plant Spread	2-3'	Light Requirement	Full Sun
Flower Color	White	Water Requirement	Low

Description Often hard to find in nurseries, this striking native perennial is a bit of an enigma with its unusual yucca-like foliage and showy white thistle-like blooms. Spring, summer and fall this tough Texas native provides a striking show for both people and pollinators.

Wright's Skullcap
Scutellaria wrightii

Plant Type	Perennial	Bloom Time	Spring, Summer, Fall
Mature Height	1'	Character	Evergreen
Plant Spread	2'	Light Requirement	Full Sun, Part Shade
Flower Color	Purple	Water Requirement	Low

Description A low-growing evergreen perennial that is covered in small purple blooms spring through summer and sometimes into fall. Bees and butterflies will often frequent this tough, showy and evergreen Texas native.

'Augusta Duelberg' Sage
Salvia farinacea 'Augusta Duelberg'

Plant Type	Perennial	Bloom Time	Spring, Summer, Fall
Mature Height	2-3'	Character	Deciduous
Plant Spread	2-3'	Light Requirement	Full Sun, Partial Shade
Flower Color	White	Water Requirement	Low

Description 'Augusta Duelberg' produces highly ornamental upright spikes of white to light blue flowers that bloom spring to fall. This nativar is an exceptionally reliable drought tolerant perennial and has become somewhat of an industry standard for its super showy blooms, adored by gardeners and pollinators alike.
