## Forward-looking Statements

This presentation contains forward-looking statements that are intended to be covered by the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, including, without limitation, statements about the Company's financial condition, capital status, dividend payment practices, business outlook and affairs. Although these statements are based on management's current expectations and estimates, actual conditions, results, and events may differ materially from those contemplated by such forward-looking statements, as they could be influenced by numerous factors which are unpredictable and outside the Company's control.

Factors that may cause actual results to differ materially from such statements include, among others, the following: (1) general economic or monetary conditions, either nationally or regionally, continue to decline, resulting in a deterioration in credit quality or diminished demand for the Company's products and services; (2) changes in laws or government rules, or the way in which courts interpret those laws or rules, adversely affect the financial industry generally or the Company's business in particular, or may impose additional costs and regulatory requirements; (3) interest rates change in such a way as to reduce the Company's interest margins and its funding sources; and (4) competitive pressures increase among financial services providers in the Company's northern New England market area or in the financial services industry generally, including pressures from nonbank financial service providers, from increasing consolidation and integration of financial service providers and from changes in technology and delivery systems.

These statements speak only as of the date of this presentation and the Bank does not undertake any obligation to update or revise any of these forward-looking statements to reflect events or circumstances occurring after the date of this communication or to reflect the occurrence of unanticipated events.
