# Unlock three sources of value through RISE with SAP

**Take the lead**  
with industry innovation for top-line, bottom-line, and green-line growth

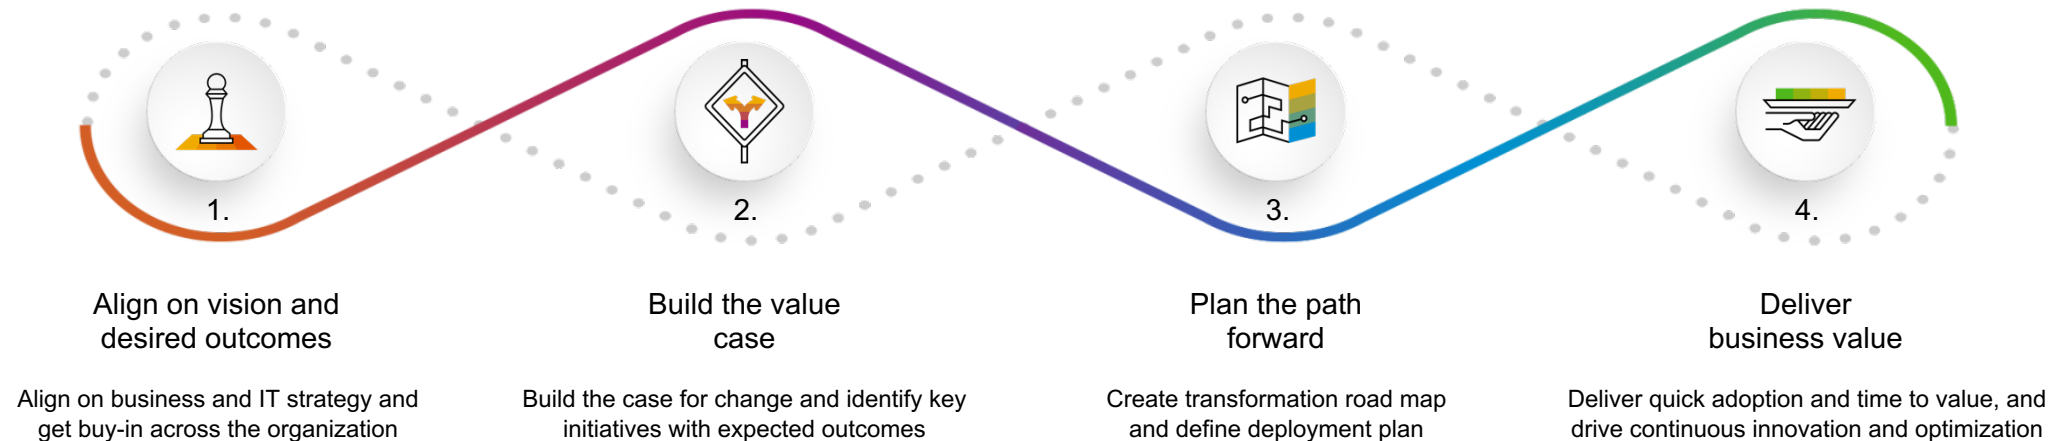

**Never stop improving**  
with continuous insight to optimize business processes

**Secure your success**  
with a trusted partner for your business needs, at every step of the way

# SAP has a proven methodology to help customers RISE with SAP, translating their Vision into tangible and measurable Value

## SAP's Vision to Value Methodology

# SAP Activate

Empowers your team to execute your digital transformation

Launch quickly and efficiently,  
standardized for integration

Self-service to expand capabilities when,  
where, and how you choose

## Business-Driven Innovation with SAP Activate

Self-service configuration through a clear deployment methodology of solution-specific practices, in a standardized environment

Business Processes  
Delivered  
Ready to Run

Clear Methodology for  
Adoption and  
Extensibility

Apps for Adoption  
and Extensibility

Speed of Innovation

Greater Productivity

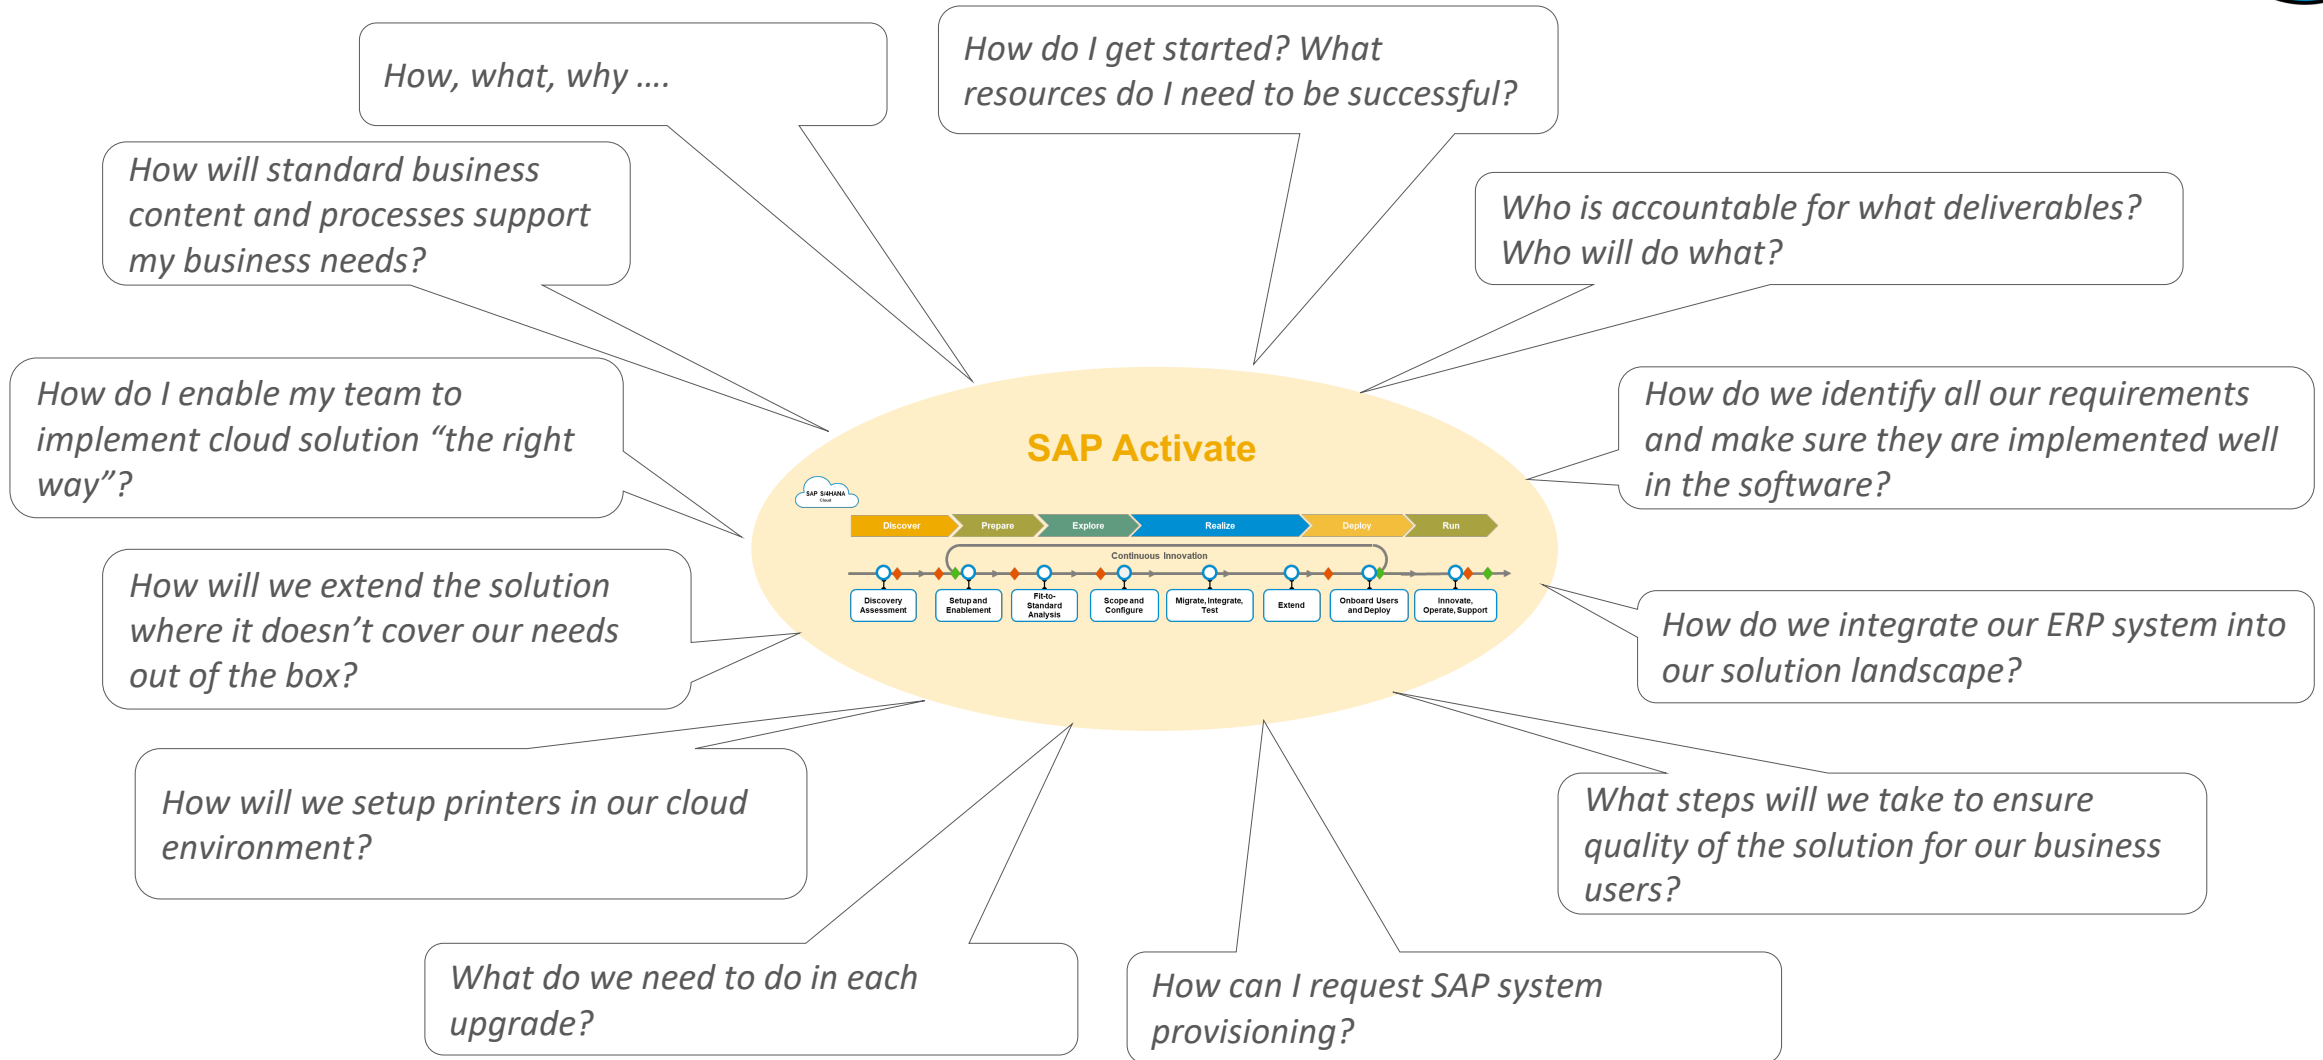

Growth & Scalability

Business Impact

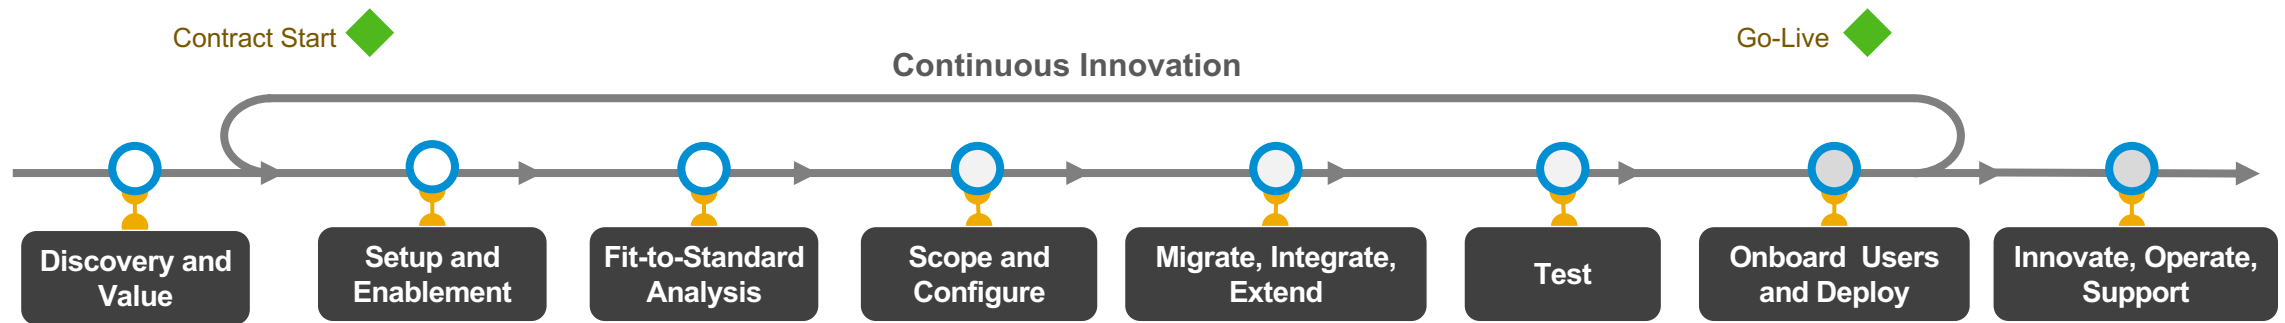

# Customers have questions about deployment of their SAP solutions

## SAP Activate Provides Guided Procedures and Accelerators

# Example: Deploy SAP S/4HANA Cloud with SAP Activate

## Journey overview and key milestones

Discover the **solution capabilities**, understand the **business value** and **benefits** of the solution to customer's business.

**Initial planning and preparation** of the project. Onboard and **enable project team**. Provision initial landscape and ALM tools.

Run a **fit-to-standard** analysis, validate the solution fit, and identify delta requirements for config, data, integration and extensibility.

Perform a series of **agile iterations to configure, extend and test an integrated business environment**. Perform data loads, adoption activities, and plan production operations.

Finalize setup of the production landscape, data loads, confirm readiness, and **go-live with the new solution**.

**Continue** adoption of the solution across the business. Do **regression test for system upgrades**. Activate **additional functionality** as needed.

# Demo: SAP Activate Methodology in SAP Cloud ALM

- Guided procedures to assist implementation teams in executing specific tasks
- Access tools and accelerators that aid your team members in performing project task
- Leverage SAP Best Practices for fit-to-standard workshops
- Run your project in remote, on-site or hybrid mode
- Easy to access and use in SAP Cloud ALM and SAP Roadmap Viewer

The screenshot displays the SAP Cloud ALM interface for a task titled "Fit-to-Standard Workshops Execution". The task is categorized as a "Template Task". Key details include: Assignee: (Not Assigned), Status: Open, Priority: High, Timebox: Explore, and Due date: Sep 23, 2022. The task description states: "The purpose of this task is to run the Fit-to-Standard Workshops for your business other functionality to be implemented. The **Fit-to-Standard Workshops** are organized around the business areas of the the functionality, to show how the solution can meet the business requirements, a process experts on the identification and execution of pre-configured business pro identified; discussed; and then added to the **Backlog** as a backlog item or the **Int** requirement. The fit-to-standard analysis uses an iterative approach to assure that addressed. During the workshops, configuration is determined and cataloged as outputs of th used as inputs for the solution configuration process in Realize. **Procedure:** In each workshop, the following process takes place: 1. Review business process flows 2. Demonstrate pre-configured business processes and concepts 3. Discuss how the business processes fit with customer requirements 4. Identify delta requirements and new processes 5. Identify required configuration 6. Enable customer execution of the pre-configured business processes".

# Success factors for your implementation project enabled through **SAP Activate**

Embrace the SAP Activate with agile principles

Live the fit-to-standard mindset

Start with data cleansing and migration early

Focus on organizational change management

Leverage Cloud ALM powered by SAP Activate and Best Practices

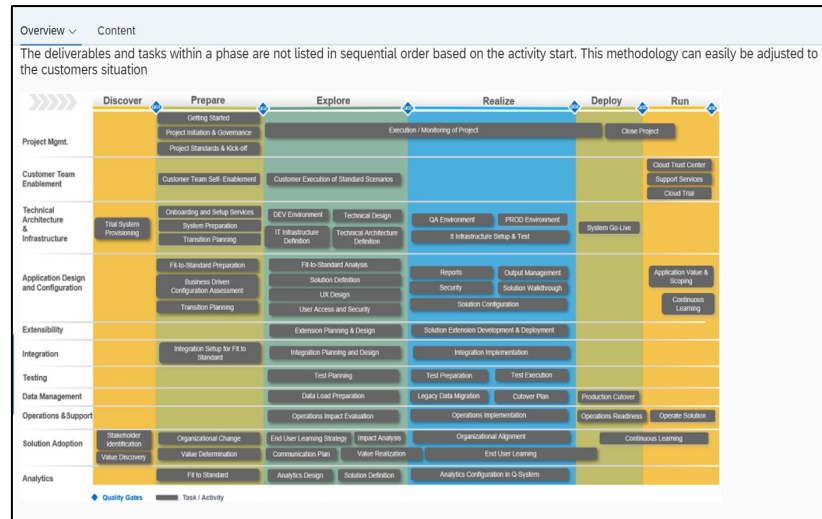

Use the right and knowledgeable resources

Integrated holistic planning, including test automation

Strategic alignment

# Enablers for Your Digital Transformation

## SAP Activate Tools and Community

Name	Description
Finance	Achieve excellence in financial management & accounting with regulatory compliance and improved margins. Achieve instantane anywhere using best practices and machine learning automation, in place of excel.
Human Resources	Integrate human resources services for growth and sustainability. Gain a competitive edge in the global marketplace and enable next-generation HR services with SAP solutions. Our software for simplified human resources can help you combine local require time insight - for fast, efficient, and accurate services.
Sourcing and Procurement	Understand your organization's spend and remove inefficiencies with machine learning to increase profits by up to five times. The success in this critical role is to deliver consistent quality, savings, and compliance over time.
Manufacturing	Develop real-time visibility and transparency over manufacturing operations, optimize manufacturing processes, materials and re networks while lowering total manufacturing costs.
R&D/Engineering	Gain market share through faster time-to-market, based on value-driven investment decisions. Align product development, mana resources across entire lifecycle from sales, supplier sourcing, service.

## SAP Activate Community

- Engage SAP Activate experts
- Ask questions and collaborate
- Stay up to date
- Follow the community at <https://community.sap.com/topics/activate>

## SAP Roadmap Viewer

- Access implementation guidance for your digital transformation
- View and download SAP Activate methodology assets and accelerators
- Provide feedback to the Activate team
- <https://go.support.sap.com/roadmapviewer/#>

## SAP Best Practices Explorer

- Access and download SAP Best Practices content
- Power your project with ready-to-run processes
- <https://rapid.sap.com/bp/>

# RISE with SAP Adoption Framework view in SAP Activate

- Quickly identify RISE with SAP Adoption Framework activities inside SAP Activate methodology
- Connect your Activity Map to tasks your team will be performing during the implementation project
- Reduced view to the Adoption Framework related deliverables.  
*Note that you can always drill down to detailed tasks for guided procedures and accelerators.*

# WHY A RISE ADOPTION FRAMEWORK

- An orchestrated framework to get you started on your cloud journey
- Supports proactive deployment management
- Clearly defines post-sales Roles & Responsibilities across SAP, the Customer, and their Partner(s)
- Describes 'what happens next' after contract signature

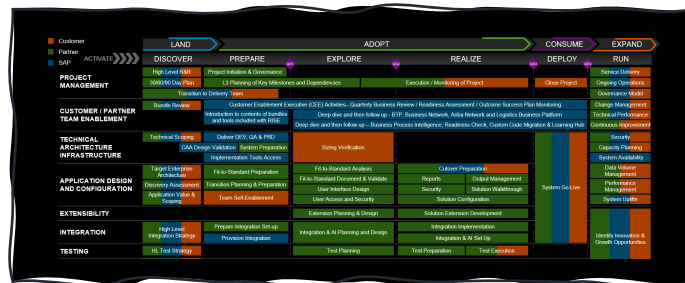

# WHAT // THREE MAJOR COMPONENTS TO ENABLE ADOPTION

## ENSURING ALIGNMENT BETWEEN STAKEHOLDERS ON WHAT HAPPENS POST CONTRACT SIGNATURE

JOURNEY

ACTIVITY MAP

ADOPTION CHECKLIST

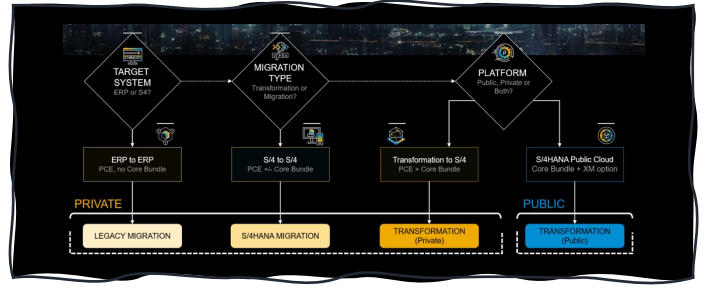

- Identify, validate and plan for the RISE with SAP journey that each customer will take, ensuring clarity during the sales process
- Align all internal SAP stakeholders in the VAT team according to the defined customer journey
- Ensure early engagement and alignment with the Partner where involved, and start documenting the Customer

- A minimum viable set of activities, baseline template of the minimum set of activities required for a successful journey
- Clearly define the tailored distribution and ownership of activities between the Customer, Partner and SAP
- Outline the SAP activities delivered as part of the baseline subscription and additional recommended and premium service options

- Define and agree the adoption checklist between the Customer, Partner and SAP and build it into the RACI and Governance model
- Highlight key touchpoints for the customer and validate the adoption start point (project plan, usage of bundle elements, governance cadence) and adoption metrics (project start, consumption etc.)
- Proactively follow up with Customers at milestones throughout the Adoption Plan

# WHAT // THREE MAJOR COMPONENTS TO ENABLE ADOPTION SAP

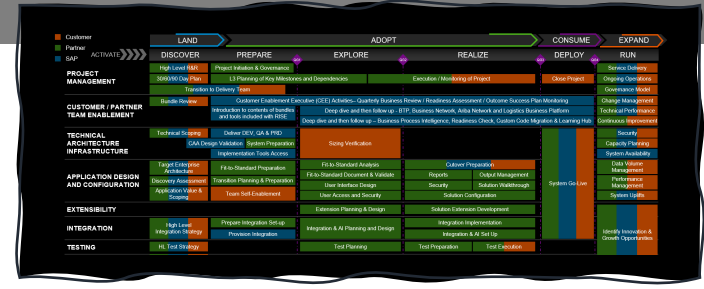

ENSURING ALIGNMENT BETWEEN STAKEHOLDERS ON WHAT HAPPENS POST CONTRACT SIGNATURE

## JOURNEY

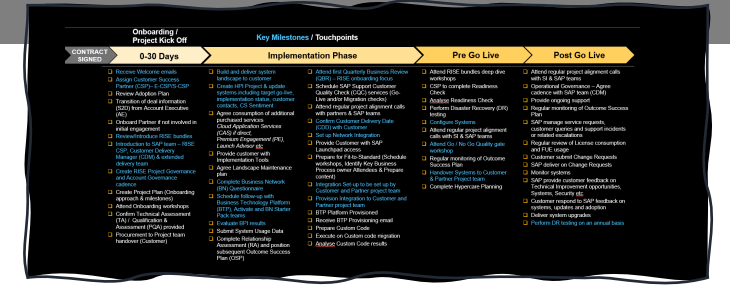

- Identify, validate and plan for the RISE with SAP journey that each customer will take, ensuring clarity during the sales process
- Align all internal SAP stakeholders in the VAT team according to the defined customer journey
- Ensure early engagement and alignment with the Partner where involved, and start documenting the Customer

## ACTIVITY MAP

- A minimum viable set of activities, baseline template of the minimum set of activities required for a successful journey
- Clearly define the tailored distribution and ownership of activities between the Customer, Partner and SAP
- Outline the SAP activities delivered as part of the baseline subscription and additional recommended and premium service options

## ADOPTION CHECKLIST

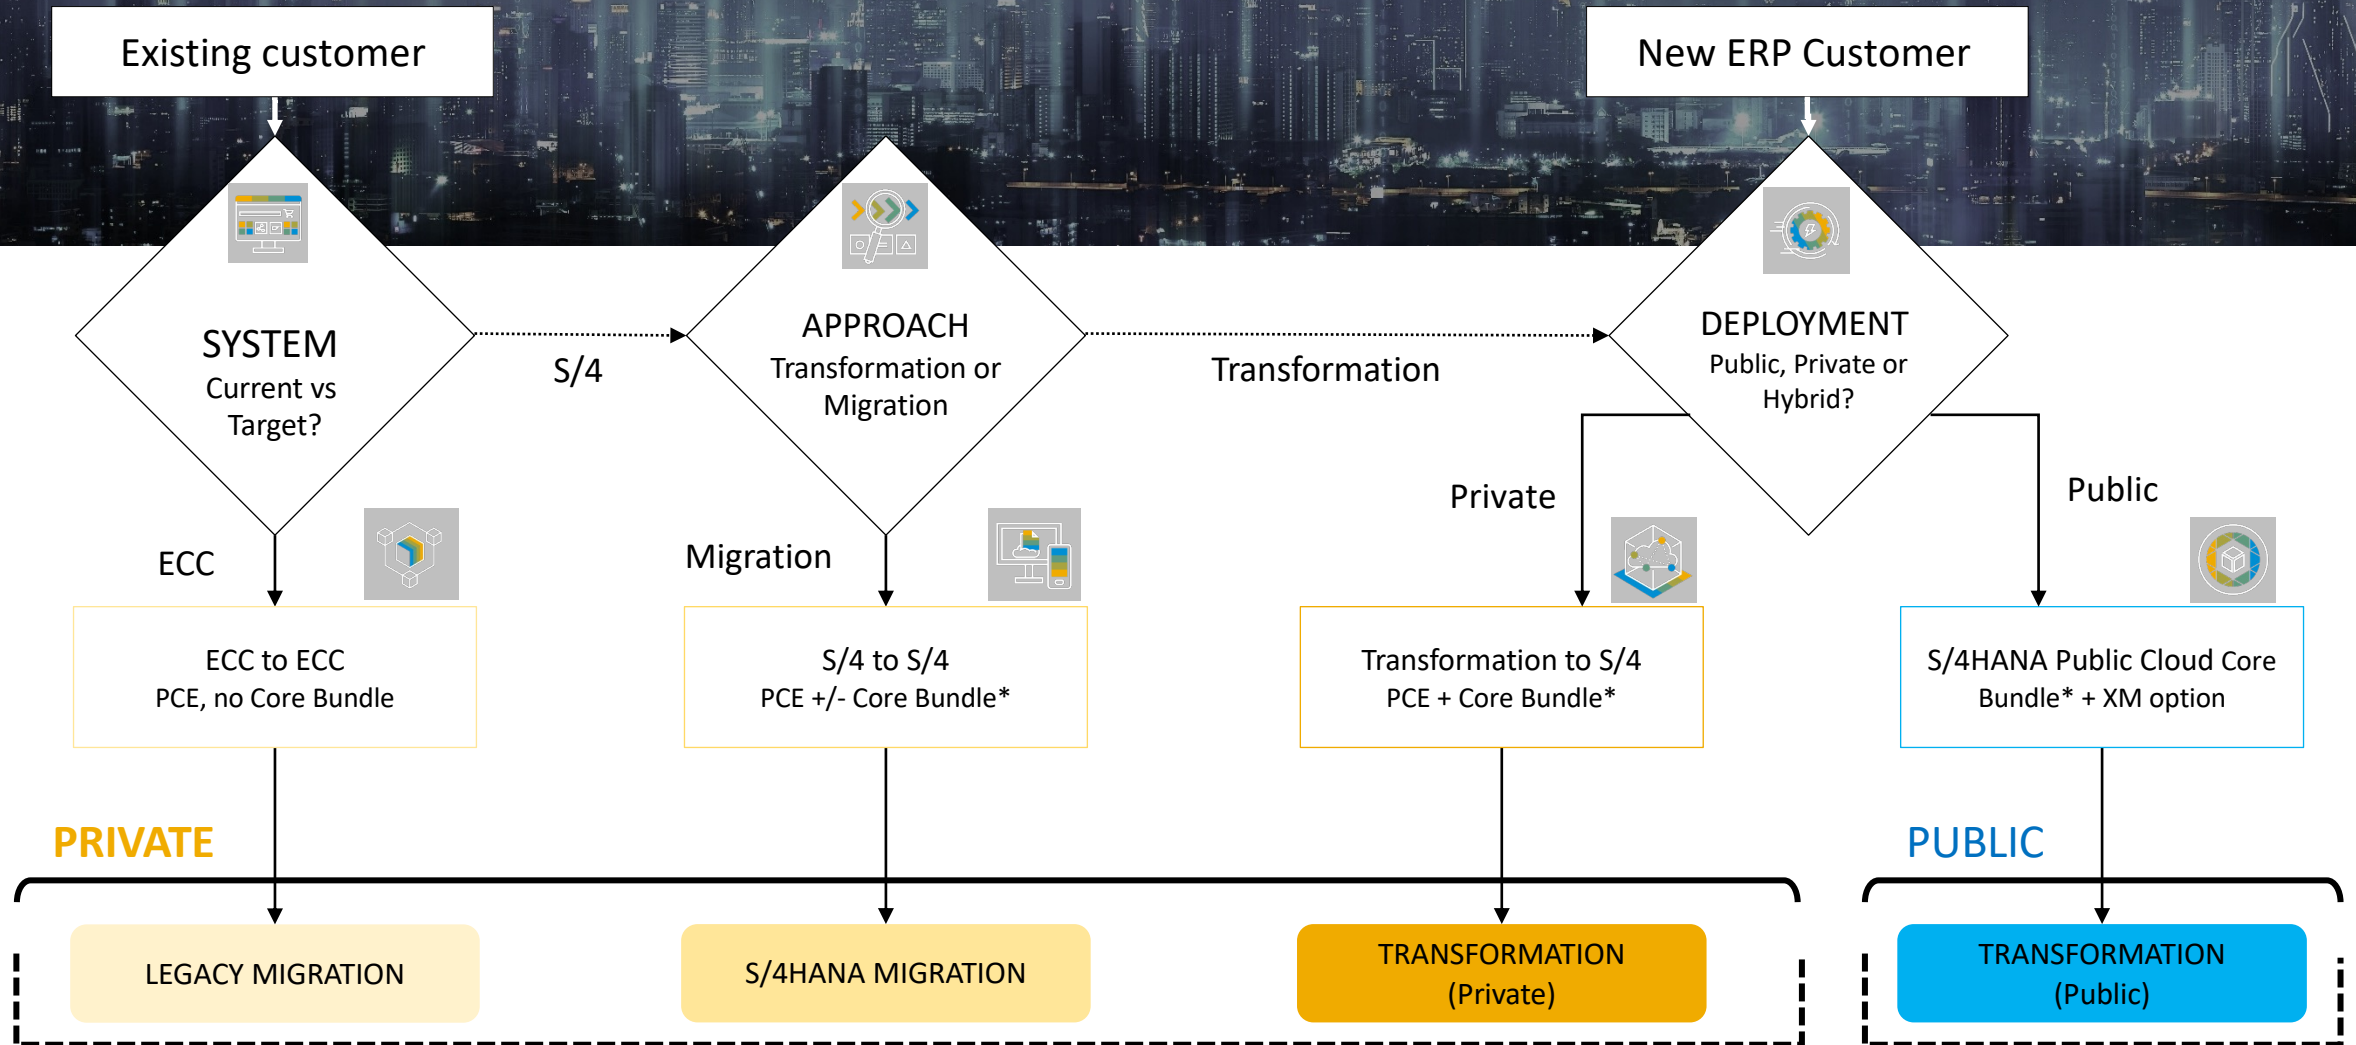

- Define and agree the adoption checklist between the Customer, Partner and SAP and build it into the RACI and Governance model
- Highlight key touchpoints for the customer and validate the adoption start point (project plan, usage of bundle elements, governance cadence) and adoption metrics (project start, consumption etc.)
- Proactively follow up with Customers at milestones throughout the Adoption Plan

# YOUR JOURNEY // AN INDIVIDUALIZED PATH TO SUCCESS

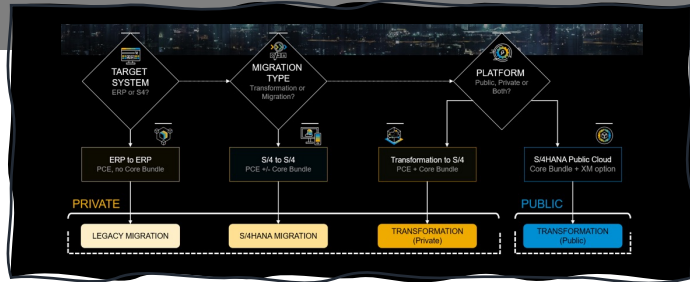

UNDERSTANDING EXACTLY WHERE YOU ARE STARTING FROM AND GOING TO

\* Core Bundle: BTP, BPI, Business Networks

# WHAT // THREE MAJOR COMPONENTS TO ENABLE ADOPTION

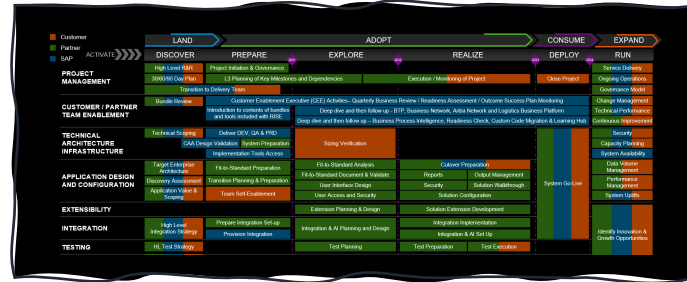

## ENSURING ALIGNMENT BETWEEN STAKEHOLDERS ON WHAT HAPPENS POST CONTRACT SIGNATURE

### JOURNEY

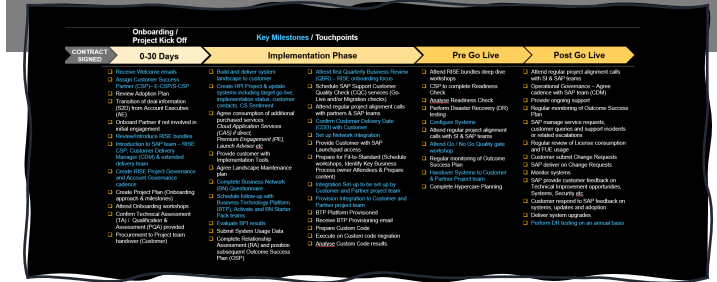

- Identify, validate and plan for the RISE with SAP journey that each customer will take, ensuring clarity during the sales process
- Align all internal SAP stakeholders in the VAT team according to the defined customer journey
- Ensure early engagement and alignment with the Partner where involved, and start documenting the Customer

### ACTIVITY MAP

- A minimum viable set of activities, baseline template of the minimum set of activities required for a successful journey
- Clearly define the tailored distribution and ownership of activities between the Customer, Partner and SAP
- Outline the SAP activities delivered as part of the baseline subscription and additional recommended and premium service options

### ADOPTION CHECKLIST

- Define and agree the adoption checklist between the Customer, Partner and SAP and build it into the RACI and Governance model
- Highlight key touchpoints for the customer and validate the adoption start point (project plan, usage of bundle elements, governance cadence) and adoption metrics (project start, consumption etc.)
- Proactively follow up with Customers at milestones throughout the Adoption Plan

# EXAMPLE // ACTIVITY MAP

INTRODUCE & OVERLAY THE ACTIVITIES THAT THE PARTNER/SAP SERVICES WILL BE RESPONSIBLE FOR

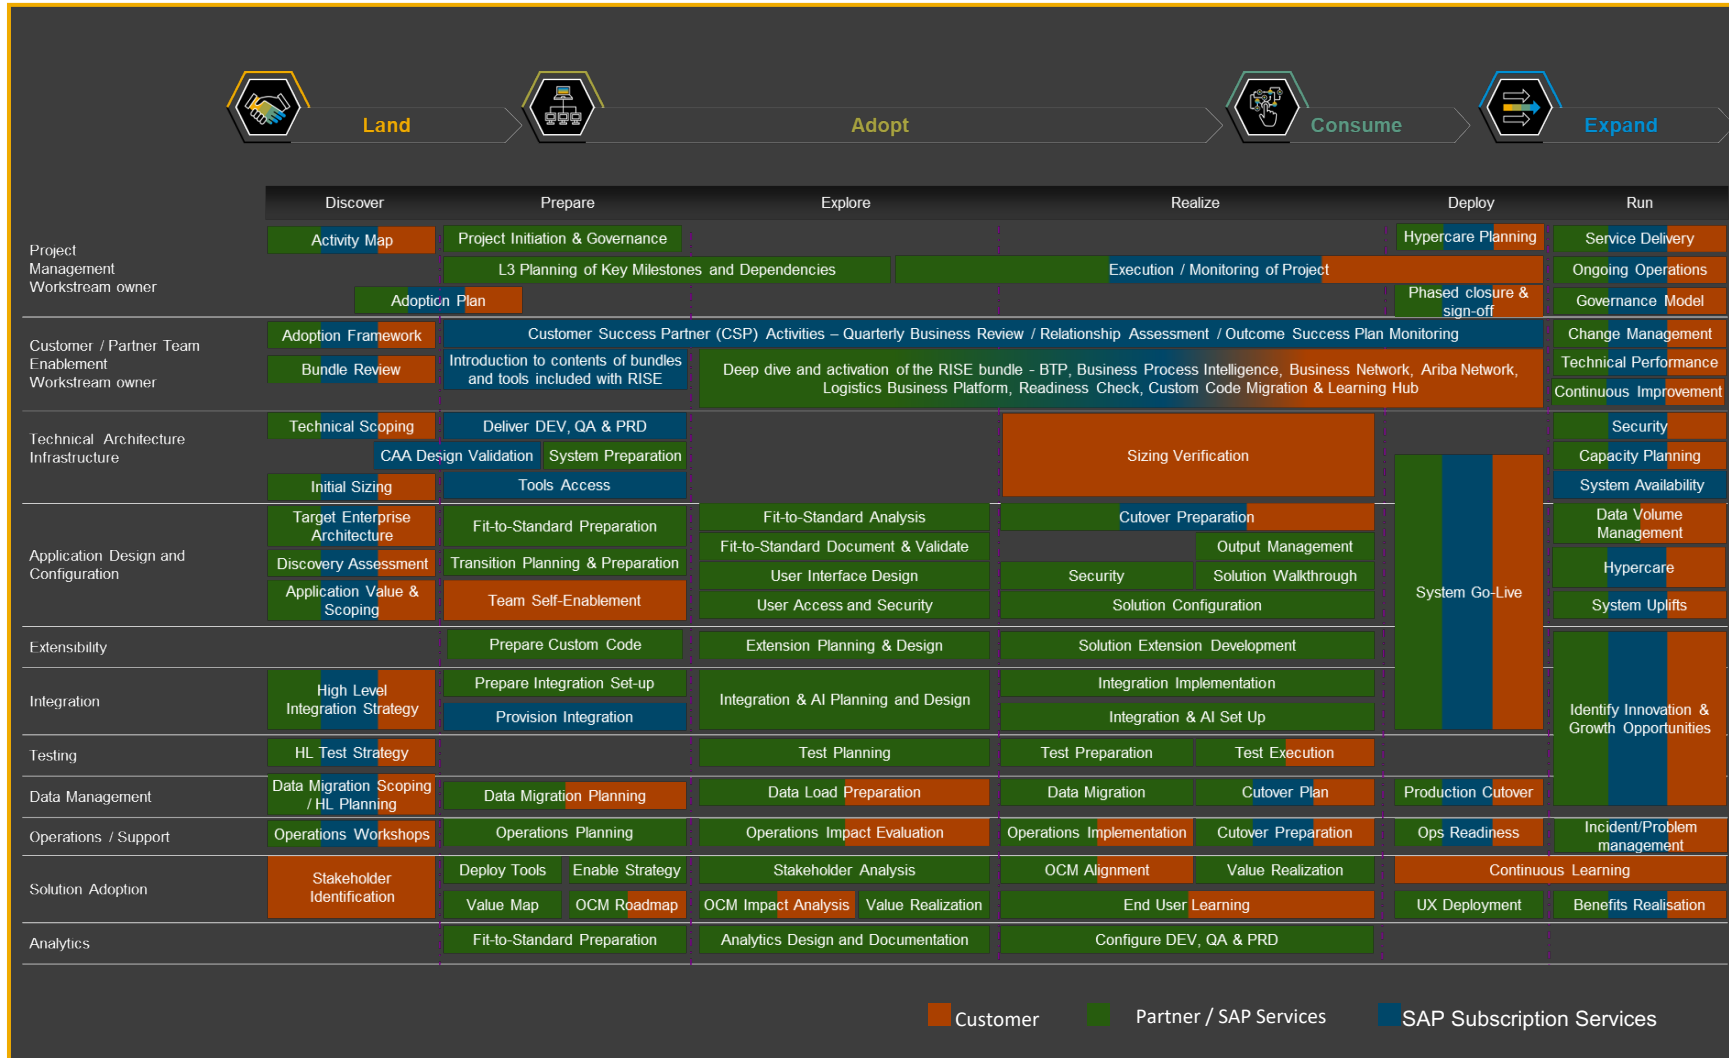

Milestone: Contract Signature

Milestone: Systems provisioned

- Business Process Intelligence (Signavio)
- Business Network Starter Pack (Ariba)
- Bus Tech Platform

# YOUR TAKEAWAY ON THE ACTIVITY MAP

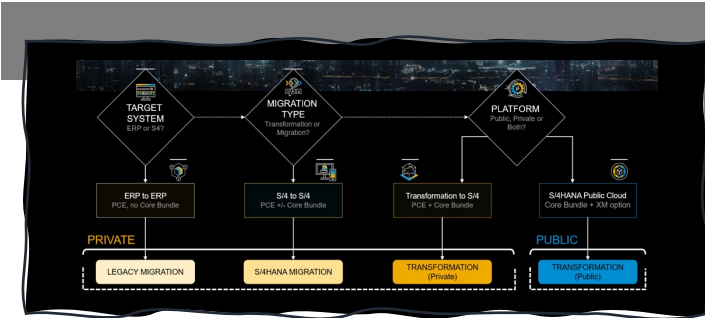

- Articulates who does what – SAP, Customer, Partner(s)
- Helps with smoother handovers and managing expectations for post-sales
- Underpinned by the SAP Activate Methodology
- Four starting templates for RISE journeys (private and public cloud)
- Piloted in 2021, with positive feedback from Customers, Partners and SAP Account Teams

# WHAT // THREE MAJOR COMPONENTS TO ENABLE ADOPTION

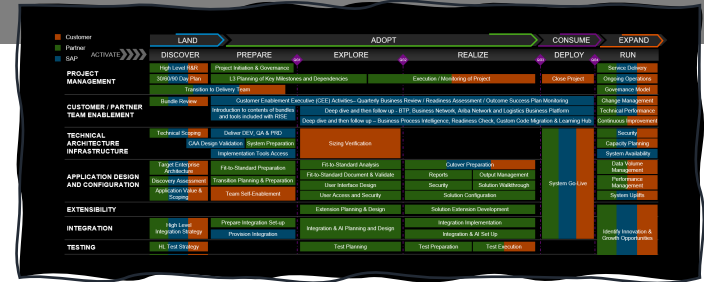

ENSURING ALIGNMENT BETWEEN STAKEHOLDERS ON WHAT HAPPENS POST CONTRACT SIGNATURE

## JOURNEY

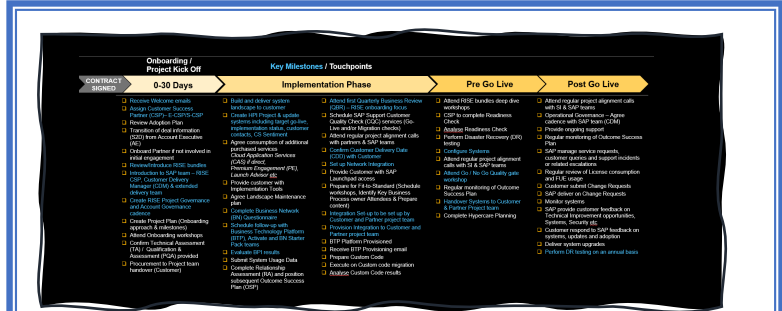

- Identify, validate and plan for the RISE with SAP journey that each customer will take, ensuring clarity during the sales process
- Align all internal SAP stakeholders in the VAT team according to the defined customer journey
- Ensure early engagement and alignment with the Partner where involved, and start documenting the Customer

## ACTIVITY MAP

- A minimum viable set of activities, baseline template of the minimum set of activities required for a successful journey
- Clearly define the tailored distribution and ownership of activities between the Customer, Partner and SAP
- Outline the SAP activities delivered as part of the baseline subscription and additional recommended and premium service options

## ADOPTION CHECKLIST

- Define and agree the adoption checklist between the Customer, Partner and SAP and build it into the RACI and Governance model
- Highlight key touchpoints for the customer and validate the adoption start point (project plan, usage of bundle elements, governance cadence) and adoption metrics (project start, consumption etc.)
- Proactively follow up with Customers at milestones throughout the Adoption Plan

# EXAMPLE // CUSTOMER CHECKLIST

UNDERSTANDING THE MILESTONES, PRIORITY TASKS AND TOUCHPOINTS POST CONTRACT SIGNATURE

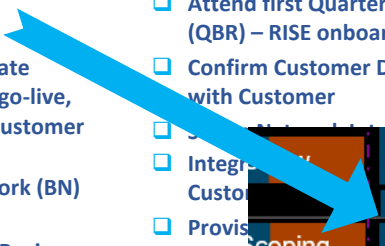

- Receive Welcome emails
- Review Activity Map & Adoption Checklist
- Introduction to SAP team – E-CSP, Customer Delivery Manager (CDM) & extended delivery team
- Create RISE Project Governance and Account Governance cadence
- Review/Introduce RISE bundles
- Confirm Landscape Information Questionnaire/ Qualification & Assessment (PQA) provided
- Transition of deal information (S2D) from Account Executive (AE)
- Onboard Partner if not involved in initial engagement
- Review the onboarding journey
- Deliver & Review Onboarding Plan
- Create Project Plan (Onboarding approach & milestones)
- Attend Onboarding workshops
- Procurement to Project team handover (Customer)

- Build and deliver system landscape to customer
- Create HPI Project & update systems including target go-live, implementation status, customer contacts, CS Sentiment
- Complete Business Network (BN) Kick-off Questionnaire
- Schedule follow-up with Business Technology Platform (BTP), Activate and BN Starter Pack teams
- Evaluate BPI results
- Complete BN Release Request form
- Agree consumption of additional purchased services
- Cloud Application Services (CAS) if direct, Premium Engagement (PE), Launch Advisor etc
- Provide customer with Implementation Tools
- Agree Landscape Maintenance plan
- Submit System Usage Data
- Complete Relationship Assessment (RA) and position subsequent Outcome Success Plan (OSP)

- Attend first Quarterly Business Review (QBR) – RISE onboarding focus
- Confirm Customer Delivery Date (CDD) with Customer
- Introduction to contents of bundles and tools included with RISE
- Integrate SAP with Customer
- Provide Partner Access
- Perform Pack D
- Schedule Check Migration
- Attend regular project alignment calls with partners & SAP teams
- Provide Customer with SAP Launchpad access
- Prepare for Fit-to-Standard (Schedule workshops, Identify Key Business Process owner Attendees & Prepare content)
- BTP Platform Provisioned
- Receive BTP Provisioning email
- Prepare Custom Code
- Execute on Custom code migration
- Analyse Custom Code results

- Verification of initial sizing
- Configure Systems
- Attend Go / No Go Quality gate workshop
- Deep dive after & Onboarding Journey
- Deliver DEV, QA & PRD
- System Preparation
- Tools Access
- Fit-to-Standard Preparation
- Fit-to-ent
- Regular monitoring of Outcome Success Plan
- Complete Hypercare Planning

- Perform DR testing on an annual basis
- Attend regular project alignment calls with SI & SAP teams
- Operational Governance – Agree cadence with SAP team (CDM)
- Provide ongoing support
- Regular monitoring of Outcome Success Plan
- SAP manage service requests, customer queries and support incidents or related escalations
- Regular review of License consumption and FUE usage
- Customer submit Change Requests
- SAP deliver on Change Requests
- Monitor systems
- SAP provide customer feedback on Technical Improvement opportunities, Systems, Security etc
- Customer respond to SAP feedback on systems, updates and adoption
- Deliver system upgrades

# YOUR TAKEAWAY ON THE ADOPTION CHECKLIST

➤ Calls out key SAP tasks/touchpoints along the adoption journey

➤ Brings together the key activities and tasks across different SAP Teams and Roles (CDM, CSP, etc.) from the baseline subscription

➤ Tailored to the customers BoM to include also key activities and tasks from other LoBs or SAP Services / CAS Packages purchased

# Agenda
