Safescan

TA-8035
CLOCKING IN SYSTEM
WITH RFID / FINGERPRINT SENSOR AND WI-FI

The Safescan TA-8035 Time Attendance system provides an efficient way of keeping track of your employees working hours. Users clock in and out with their fingerprint, an RFID badge or personal pin code. All clocking data is logged, resulting in accurate and comprehensive management reports. For even more precise overview your employees can also clock with customizable workcodes, enabling you to see exactly how the actual worked were spent. Featuring a large 3.5" colour TFT display, an intuitive graphical user interface and 8 programmable function keys, the Safescan TA-8035 is an indispensable tool for optimizing your workforce management, increased productivity and an effective HRM administration.

- Complete registration of working hours (clocking in/out, including breaks)
- Clocking with fingerprint, RFID badge and/or pin code
- Door-access control and alarm sensor enabled
- Real-time access to the log data via Wi-Fi or Ethernet connection
- Clear 3.5" colour TFT display with user-friendly graphical interface
- Numeric keypad, navigation keys and 8 programmable function keys

- Possibility to use multiple TA terminals inside one network
- Easy wall-mounting
- Clocking with user-definable work- and project codes (holiday, projects etc)
- Including Time Attendance Software with comprehensive reporting functions
- Extensive filter function per employee / department
- Exact calculation of worked hours / overtime

WITH FINGERPRINT AND RFID BADGE READER

USER-FRIENDLY GRAPHICAL INTERFACE
