## MORE CREATIVE, MORE INNOVATIVE, EXCELLENCE IN BEARINGS

ILJIN is widely known as a global leader in providing leading technology automotive components of the highest quality.

ILJIN's core expertise is two-fold; providing application-proven standard product designs or designing a custom-made solution for your specific application. Either way, all of ILJIN's products go through the same rigorous design, testing and quality standards that you would expect from a leader in supplying world-class product solutions.

# PRODUCTS

Starting with the production of transmission gears and hot-forged automotive parts in 1978, ILJIN has developed technologies, taken on constant challenges, and played a major role in the domestic production of wheel bearings and the development of steering parts.
