Resignation - Mayor's International

Rajer, Mary

From: Donald Silvis <dhsilvis@gmail.com>
Sent: Tuesday, June 21, 2016 3:10 PM
To: Rajer, Mary
Subject: Tonights meeting

Dear Mary,

Please excuse me from the meeting tonight. I'm still dealing with pain in my hip after an MIR and an epidural. Most likely, I need to go in for a second epidural.

At this time because of my physical condition, I need to send in my resignation from the committee.

It was an enjoyable experience working with each of the committee members and if there are any stipulations I need to fulfill, please let me know.

Give my greetings to all and have an eventful summer.

Sincerely,
Don Silvis

July 5, 2016

HONORABLE MEMBERS OF THE COMMON COUNCIL:

I hereby submit the following appointments for your consideration for the Mayor's Neighborhood Leadership Cabinet for the Indiana Corridor Neighborhood Association:

R. O. No. - 16 - 17. By BOARD OF WATER COMMISSIONERS. July 5, 2016.

To the Honorable, the Mayor and Common Council:

The Board of Water Commissioners informs the Common Council that it intends to apply to the Wisconsin Department of Natural Resources for principal forgiveness funds in the amount of \$300,000 through the Safe Drinking Water Loan program to use for replacing lead service lines (LSL) on private property for projects resulting in full LSL replacements. There are no loan funds associated with this application. The Board intends to apply for funds during the full extent of the WDNR's LSL program, anticipated to be available in 2017, 2018, and 2019. Overall the funds will be targeted toward water main construction projects and other situations with the largest positive impact on public health.

Gerald R. Van De Kreeke, President

Raymond W. Haen, Secretary

Res. No. 46 - 16 - 17. By Alderperson Wolf. June 20, 2016.

A RESOLUTION supporting the Wisconsin Department of Transportation request to transfer Federal Congestion Mitigation and Air Quality funds from the Federal Highway Administration to the Federal Transit Administration on behalf of the City of Sheboygan.

WHEREAS, the Wisconsin Department of Transportation is allocated Federal Congestion Mitigation and Air Quality (CMAQ) grant funds for emission reduction surface transportation projects in Non-Attainment and Maintenance Areas in the State of Wisconsin; and

WHEREAS, the Wisconsin Department of Transportation has awarded the City of Sheboygan CMAQ funds in the amount of \$1,440,000 through a competitive process to partially fund public transit projects; and

WHEREAS, CMAQ funds allocated for transit projects require a transfer of the funds from the Federal Highway Administration to the Federal Transit Administration; and

WHEREAS, the Wisconsin Department of Transportation will request the transfer of funds; and

WHEREAS, the City of Sheboygan intends to apply the CMAQ funds to purchase of revenue vehicles.

NOW, THEREFORE, BE IT RESOLVED: That the City of Sheboygan supports a request by the Wisconsin Department of Transportation to transfer \$1,440,000 of CMAQ funds from the Federal Highway Administration to the Federal Transit Administration on behalf of the City of Sheboygan to fund 80% of the cost of purchase of revenue vehicles.

Sailing Education Association of Sheboygan

June 1, 2016

City of Sheboygan
Common Council Members
626 Center Ave
Sheboygan WI 53081

Dear members of the Sheboygan Common Council,

The Sailing Education Association of Sheboygan (SEAS), will be hosting the World Sailing Championships for Blind Match Racing and Women's Match Racing the week of Sept. 19th-25th. The primary location will be at the Sheboygan Yacht Club with spectating for races off of South Pier. We are very excited to be hosting these events as it brings focus to the City of Sheboygan to the sailing world.

As part of the events, SEAS will be hosting a brat fry which will be open to the public with Johnsonville's Big Taste Grill and a band, King Solomon, on Friday, Sept. 23 on the grounds of the Sheboygan Yacht Club. The area where the tent and band will be set up is where the lightning sailboats are stored during the sailing season. Although we will be asking the boat owners to have them cleared out for the event, we know not all will be moved.

Therefore, we request permission from the City of Sheboygan Common Council to use space in the parking lot located at the Harbor Centre Marina immediately north of the Sheboygan Yacht Club, in front of the Sheboygan Youth Sailing Center, to relocate the sailboats from the Sheboygan Yacht Club during the week of the event from Sept. 19-26. The day after the conclusion of the World Sailing Championships, the boats will be returned to the lot on the Sheboygan Yacht Club grounds.

Thank you for your consideration.

With respect,

Leslie Kohler
SEAS Chairman

11 will be mailed, or commercially or personally delivered within _____ days of acceptance to listing broker or

12
13 THE BALANCE OF PURCHASE PRICE will be paid in cash or equivalent at closing unless otherwise provided below.

14 INCLUDED IN PURCHASE PRICE: Seller is including in the purchase price the Property, all Fixtures on the Property on the
15 date of this Offer not excluded at lines 18-19, and the following additional items: NONE OTHER
16 _____

17
18 NOT INCLUDED IN PURCHASE PRICE: NONE OTHER
19 _____

20 CAUTION: Identify Fixtures that are on the Property (see lines 290-294) to be excluded by Seller or which are rented
21 and will continue to be owned by the lessor.

22 NOTE: The terms of this Offer, not the listing contract or marketing materials, determine what items are
23 included/excluded. Annual crops are not part of the purchase price unless otherwise agreed.

24 ZONING: Seller represents that the Property is zoned: Suburban Industrial _____

25 ACCEPTANCE Acceptance occurs when all Buyers and Sellers have signed one copy of the Offer, or separate but identical
26 copies of the Offer.

27 CAUTION: Deadlines in the Offer are commonly calculated from acceptance. Consider whether short term deadlines
28 running from acceptance provide adequate time for both binding acceptance and performance.

29 BINDING ACCEPTANCE This Offer is binding upon both Parties only if a copy of the accepted Offer is delivered to Buyer on
30 or before 4:00pm, Friday, July 29, 2016 _____ Seller may keep the Property on the

31 market and accept secondary offers after binding acceptance of this Offer.

32 CAUTION: This Offer may be withdrawn prior to delivery of the accepted Offer.

33 OPTIONAL PROVISIONS TERMS OF THIS OFFER THAT ARE PRECEDED BY AN OPEN BOX () ARE PART OF THIS
34 OFFER ONLY IF THE BOX IS MARKED SUCH AS WITH AN "X." THEY ARE NOT PART OF THIS OFFER IF MARKED "N/A"
35 OR ARE LEFT BLANK.

36 DELIVERY OF DOCUMENTS AND WRITTEN NOTICES Unless otherwise stated in this Offer, delivery of documents and
37 written notices to a Party shall be effective only when accomplished by one of the methods specified at lines 38-56.

38 (1) Personal Delivery: giving the document or written notice personally to the Party, or the Party's recipient for delivery if
39 named at line 40 or 41.

40 Seller's recipient for delivery (optional): City of Sheboygan Attorney Charles C. Adams

41 Buyer's recipient for delivery (optional): Attorney Michael J. Bauer of Hopp Neumann Humke LLP

42 X (2) Fax: fax transmission of the document or written notice to the following telephone number:

43 Seller: (920) 459-3919 Buyer: (920) 457-8411

44 (3) Commercial Delivery: depositing the document or written notice fees prepaid or charged to an account with a
45 commercial delivery service, addressed either to the Party, or to the Party's recipient for delivery if named at line 40 or 41, for
46 delivery to the Party's delivery address at line 49 or 50.

47 X (4) U.S. Mail: depositing the document or written notice postage prepaid in the U.S. Mail, addressed either to the Party,
48 or to the Party's recipient for delivery if named at line 40 or 41, for delivery to the Party's delivery address at line 49 or 50.
49 Delivery address for Seller: 828 Center Avenue, Suite 304, Sheboygan, WI 53081

50 Delivery address for Buyer: W2312 Wilson Lima Road, Oostburg, WI 53070, with a copy to Attorney Michael J. Bauer, *

51 X (5) E-Mail: electronically transmitting the document or written notice to the Party's e-mail address, if given below at line
52 55 or 56. If this is a consumer transaction where the property being purchased or the sale proceeds are used primarily for
53 personal, family or household purposes, each consumer providing an e-mail address below has first consented electronically
54 to the use of electronic documents, e-mail delivery and electronic signatures in the transaction, as required by federal law.

55 E-Mail address for Seller (optional): Charles.Adams@sheboyganwi.gov

56 E-Mail address for Buyer (optional): mike.bauer@hopplaw.com

57 PERSONAL DELIVERY/ACTUAL RECEIPT Personal delivery to, or Actual Receipt by, any named Buyer or Seller
58 constitutes personal delivery to, or Actual Receipt by, all Buyers or Sellers.

* Hopp Neumann Humke LLP, 2124 Kohler Memorial Drive, Suite 310, Sheboygan, WI 53081

59 **OCCUPANCY** Occupancy of the entire Property shall be given to Buyer at time of closing unless otherwise provided in this
60 Offer at lines 458-464 or 526-534 or in an addendum attached per line 525. At time of Buyer's occupancy, Property shall be
61 free of all debris and personal property except for personal property belonging to current tenants, or that sold to Buyer or left
62 with Buyer's consent. Occupancy shall be given subject to tenant's rights, if any.

63 **PROPERTY CONDITION REPRESENTATIONS** Seller represents to Buyer that as of the date of acceptance Seller has no
64 notice or knowledge of Conditions Affecting the Property or Transaction (see lines 163-187 and 246-278) ~~other than those~~
65 ~~mentioned in the Seller's disclosure report~~ ~~XX~~ ~~which was received by Buyer prior to~~
66 ~~Buyer's signing of this Offer or to the date of closing of the Offer by reference to COMPLETE BOOK OF STRIKES AS APPLICABLE~~

67 ~~AND~~ This transaction is exempt from the real estate transfer fee under Wis. Stat. Sec. 77.25 and exempt from the vacant land disclosure report
68 requirements under Wis. Stat. Sec. 709.01.

69 **INSERT CONDITIONS NOT ALREADY INCLUDED IN THE DISCLOSURE REPORT**

70 **CLOSING** This transaction is to be closed no later than 4:00pm, Wednesday, August 31, 2016
71 at the place selected by Seller, unless otherwise agreed by the Parties in writing.

72 **CLOSING PRORATIONS** The following items, if applicable, shall be prorated at closing, based upon date of closing values:
73 real estate taxes, rents, prepaid insurance (if assumed), private and municipal charges, property owners association
74 assessments, fuel and NONE OTHER

75 **CAUTION: Provide basis for utility charges, fuel or other prorations If date of closing value will not be used.**

76 Any income, taxes or expenses shall accrue to Seller, and be prorated at closing, through the day prior to closing.

77 Real estate taxes shall be prorated at closing based on [CHECK BOX FOR APPLICABLE PRORATION FORMULA]:

78 The net general real estate taxes for the preceding year, or the current year if available (Net general real estate
79 taxes are defined as general property taxes after state tax credits and lottery credits are deducted) (NOTE: THIS CHOICE
80 APPLIES IF NO BOX IS CHECKED)

81 Current assessment times current mill rate (current means as of the date of closing)

82 Sale price, multiplied by the municipality area-wide percent of fair market value used by the assessor in the prior
83 year, or current year if known, multiplied by current mill rate (current means as of the date of closing)

84 There is no tax proration; property is exempt.

85 **CAUTION: Buyer is informed that the actual real estate taxes for the year of closing and subsequent years may be
86 substantially different than the amount used for proration especially in transactions involving new construction,
87 extensive rehabilitation, remodeling or area-wide re-assessment. Buyer is encouraged to contact the local assessor
88 regarding possible tax changes.**

89 Buyer and Seller agree to re-prorate the real estate taxes, through the day prior to closing based upon the taxes on
90 the actual tax bill for the year of closing, with Buyer and Seller each owing his or her pro-rata share. Buyer shall, within 5
91 days of receipt, forward a copy of the bill to the forwarding address Seller agrees to provide at closing. The Parties shall
92 re-prorate within 30 days of Buyer's receipt of the actual tax bill. Buyer and Seller agree this is a post-closing obligation
93 and is the responsibility of the Parties to complete, not the responsibility of the real estate brokers in this transaction.

94 **LEASED PROPERTY** If Property is currently leased and lease(s) extend beyond closing, Seller shall assign Seller's rights
95 under said lease(s) and transfer all security deposits and prepaid rents thereunder to Buyer at closing. The terms of the
96 (written) (oral) ~~STRIKE ONE~~ lease(s), if any, are The Property is not leased.

97 Insert additional terms, if any, at lines 458-464 or 526-534 or attach as an addendum per line 525.

98 **GOVERNMENT PROGRAMS:** Seller shall deliver to Buyer, within _____ days of acceptance of this Offer, a list of all
99 federal, state, county, and local conservation, farmland, environmental, or other land use programs, agreements, restrictions,
100 or conservation easements, which apply to any part of the Property (e.g., farmland preservation agreements, farmland
101 preservation or exclusive agricultural zoning, use value assessments, Forest Crop, Managed Forest, Conservation Reserve
102 Program, wetland mitigation, shoreland zoning mitigation plan or comparable programs), along with disclosure of any
103 penalties, fees, withdrawal charges, or payback obligations pending, or currently deferred, if any. This contingency will be
104 deemed satisfied unless Buyer delivers to Seller, within seven (7) days of Buyer's Actual Receipt of said list and disclosure, or
105 the deadline for delivery, whichever is earlier, a notice terminating this Offer based upon the use restrictions, program
106 requirements, and/or amount of any penalty, fee, charge, or payback obligation.

107 **CAUTION: If Buyer does not terminate this Offer, Buyer is hereby agreeing that Buyer will continue in such programs,
108 as may apply, and Buyer agrees to reimburse Seller should Buyer fail to continue any such program such that Seller
109 incurs any costs, penalties, damages, or fees that are imposed because the program is not continued after sale. The
110 Parties agree this provision survives closing.**

111 **MANAGED FOREST LAND:** All, or part, of the Property is managed forest land under the Managed Forest Law (MFL).
112 This designation will continue after closing. Buyer is advised as follows: The MFL is a landowner incentive program that
113 encourages sustainable forestry on private woodlands by reducing and deferring property taxes. Orders designating lands as
114 managed forest lands remain in effect for 25 or 50 years. When ownership of land enrolled in the MFL program changes, the
115 new owner must sign and file a report of the change of ownership on a form provided by the Department of Natural Resources
116 and pay a fee. By filing this form, the new owner agrees to the associated MFL management plan and the MFL program rules.
117 The DNR Division of Forestry monitors forest management plan compliance. Changes you make to property that is subject to
118 an order designating it as managed forest land, or to its use, may jeopardize your benefits under the program or may cause
119 the property to be withdrawn from the program and may result in the assessment of penalties. For more information call the
120 local DNR forester or visit <http://www.dnr.state.wi.us>.

121 **FENCES:** Wis. Stat. § 90.03 requires the owners of adjoining properties to keep and maintain legal fences in equal shares
 122 where one or both of the properties is used and occupied for farming or grazing purposes.

123 **CAUTION:** Consider an agreement addressing responsibility for fences if Property or adjoining land is used and
 124 occupied for farming or grazing purposes.

125 **USE VALUE ASSESSMENTS:** The use value assessment system values agricultural land based on the income that would be
 126 generated from its rental for agricultural use rather than its fair market value. When a person converts agricultural land to a
 127 non-agricultural use (e.g., residential or commercial development), that person may owe a conversion charge. To obtain more
 128 information about the use value law or conversion charge, contact the Wisconsin Department of Revenue's Equalization
 129 Section or visit <http://www.revenue.wi.gov/>.

130 **FARMLAND PRESERVATION:** Rezoning a property zoned farmland preservation to another use or the early termination of a
 131 farmland preservation agreement or removal of land from such an agreement can trigger payment of a conversion fee equal to
 132 3 times the class 1 "use value" of the land. Contact the Wisconsin Department of Agriculture, Trade and Consumer Protection
 133 Division of Agricultural Resource Management or visit <http://www.datcp.state.wi.us/> for more information.

134 **CONSERVATION RESERVE PROGRAM (CRP):** The CRP encourages farmers, through contracts with the U.S. Department
 135 of Agriculture, to stop growing crops on highly erodible or environmentally sensitive land and instead to plant a protective
 136 cover of grass or trees. CRP contracts run for 10 to 15 years, and owners receive an annual rent plus one-half of the cost of
 137 establishing permanent ground cover. Removing lands from the CRP in breach of a contract can be quite costly. For more
 138 information call the state Farm Service Agency office or visit <http://www.fsa.usda.gov/>.

139 **SHORELAND ZONING ORDINANCES:** All counties must adopt shoreland zoning ordinances that meet or are more
 140 restrictive than Wis. Admin. Code Chapter NR 115. County shoreland zoning ordinances apply to all unincorporated land
 141 within 1,000 feet of a navigable lake, pond or flowage or within 300 feet of a navigable river or stream and establish minimum
 142 standards for building setbacks and height limits, cutting trees and shrubs, lot sizes, water runoff, impervious surface
 143 standards (that may be exceeded only if a mitigation plan is adopted) and repairs to nonconforming structures. Buyers must
 144 conform to any existing mitigation plans. For more information call the county zoning office or visit <http://www.dnr.state.wi.us/>.
 145 Buyer is advised to check with the applicable city, town or village for additional shoreland zoning restrictions, if any.

146 **BUYER'S PRE-CLOSING WALK-THROUGH:** Within 3 days prior to closing, at a reasonable time pre-approved by Seller or
 147 Seller's agent, Buyer shall have the right to walk through the Property to determine that there has been no significant change
 148 in the condition of the Property, except for ordinary wear and tear and changes approved by Buyer, and that any defects
 149 Seller has agreed to cure have been repaired in the manner agreed to by the Parties.

150 **PROPERTY DAMAGE BETWEEN ACCEPTANCE AND CLOSING:** Seller shall maintain the Property until the earlier of
 151 closing or occupancy of Buyer in materially the same condition as of the date of acceptance of this Offer, except for ordinary
 152 wear and tear. If, prior to closing, the Property is damaged in an amount of not more than five percent (5%) of the selling price,
 153 Seller shall be obligated to repair the Property and restore it to the same condition that it was on the day of this Offer. No later
 154 than closing, Seller shall provide Buyer with lien waivers for all lienable repairs and restoration. If the damage shall exceed
 155 such sum, Seller shall promptly notify Buyer in writing of the damage and this Offer may be canceled at option of Buyer.
 156 Should Buyer elect to carry out this Offer despite such damage, Buyer shall be entitled to the insurance proceeds, if any,
 157 relating to the damage to the Property, plus a credit towards the purchase price equal to the amount of Seller's deductible on
 158 such policy, if any. However, if this sale is financed by a land contract or a mortgage to Seller, any insurance proceeds shall
 159 be held in trust for the sole purpose of restoring the Property.

160 **DEFINITIONS**

161 ■ **ACTUAL RECEIPT:** "Actual Receipt" means that a Party, not the Party's recipient for delivery, if any, has the document or
 162 written notice physically in the Party's possession, regardless of the method of delivery.

163 ■ **CONDITIONS AFFECTING THE PROPERTY OR TRANSACTION:** "Conditions Affecting the Property or Transaction" are
 164 defined to include:

- 165 a. Proposed, planned or commenced public improvements or public construction projects which may result in special
 166 assessments or otherwise materially affect the Property or the present use of the Property.
- 167 b. Government agency or court order requiring repair, alteration or correction of any existing condition.
- 168 c. Land division or subdivision for which required state or local approvals were not obtained.
- 169 d. A portion of the Property in a floodplain, wetland or shoreland zoning area under local, state or federal regulations.
- 170 e. A portion of the Property being subject to, or in violation of, a farmland preservation agreement or in a certified farmland
 171 preservation zoning district (see lines 130-133), or enrolled in, or in violation of, a Forest Crop, Managed Forest (see lines
 172 111-120), Conservation Reserve (see lines 134-138), or comparable program.
- 173 f. Boundary or lot disputes, encroachments or encumbrances, a joint driveway or violation of fence laws (Wis. Stat. ch. 90)
 174 (where one or both of the properties is used and occupied for farming or grazing).
- 175 g. Material violations of environmental rules or other rules or agreements regulating the use of the Property.
- 176 h. Conditions constituting a significant health risk or safety hazard for occupants of the Property.
- 177 i. Underground storage tanks presently or previously on the Property for storage of flammable or combustible liquids,
 178 including, but not limited to, gasoline and heating oil.
- 179 j. A Defect or contamination caused by unsafe concentrations of, or unsafe conditions relating to, pesticides, herbicides,
 180 fertilizer, radon, radium in water supplies, lead or arsenic in soil, or other potentially hazardous or toxic substances on the
 181 premises.
- 182 k. Production of methamphetamine (meth) or other hazardous or toxic substances on the Property.
- 183 l. High voltage electric (100 KV or greater) or steel natural gas transmission lines located on but not directly serving the
 184 Property.
- 185 m. Defects in any well, including unsafe well water due to contaminants such as coliform, nitrates and atrazine, and out-of-
 186 service wells and cisterns required to be abandoned (Wis. Admin. Code § NR 812.26) but that are not closed/abandoned
 187 according to applicable regulations.

188 (Definitions Continued on page 5)

IF LINE 190 IS NOT MARKED OR IS MARKED N/A, LINES 230-236 APPLY.

189

190 **FINANCING CONTINGENCY:** This Offer is contingent upon Buyer being able to obtain a written _____

191 _____ [INSERT LOAN PROGRAM OR SOURCE] first mortgage

192 loan commitment as described below, within _____ days of acceptance of this Offer. The financing selected shall be in an

193 amount of not less than \$ _____ for a term of not less than _____ years, amortized over not less than _____ years.

194 Initial monthly payments of principal and interest shall not exceed \$ _____. Monthly payments may

195 also include 1/12th of the estimated net annual real estate taxes, hazard insurance premiums, and private mortgage insurance

196 premiums. The mortgage may not include a prepayment premium. Buyer agrees to pay discount points and/or loan origination

197 fee in an amount not to exceed _____ % of the loan. If the purchase price under this Offer is modified, the financed amount,

198 unless otherwise provided, shall be adjusted to the same percentage of the purchase price as in this contingency and the

199 monthly payments shall be adjusted as necessary to maintain the term and amortization stated above.

200 **CHECK AND COMPLETE APPLICABLE FINANCING PROVISION AT LINE 201 OR 202.**201 **FIXED RATE FINANCING:** The annual rate of interest shall not exceed _____ %.202 **ADJUSTABLE RATE FINANCING:** The initial annual interest rate shall not exceed _____ %. The initial interest

203 rate shall be fixed for _____ months, at which time the interest rate may be increased not more than _____ % per

204 year. The maximum interest rate during the mortgage term shall not exceed _____ %. Monthly payments of principal

205 and interest may be adjusted to reflect interest changes.

206 If Buyer is using multiple loan sources or obtaining a construction loan or land contract financing, describe at lines 458-464 or

207 526-534 or in an addendum attached per line 525.

208 ■ **BUYER'S LOAN COMMITMENT:** Buyer agrees to pay all customary loan and closing costs, to promptly apply for a

209 mortgage loan, and to provide evidence of application promptly upon request of Seller. If Buyer qualifies for the loan described

210 in this Offer or another loan acceptable to Buyer, Buyer agrees to deliver to Seller a copy of the written loan commitment no

211 later than the deadline at line 192. Buyer and Seller agree that delivery of a copy of any written loan commitment to

212 Seller (even if subject to conditions) shall satisfy the Buyer's financing contingency if, after review of the loan

213 commitment, Buyer has directed, in writing, delivery of the loan commitment. Buyer's written direction shall

214 accompany the loan commitment. Delivery shall not satisfy this contingency if accompanied by a notice of

215 unacceptability.

216 **CAUTION:** The delivered commitment may contain conditions Buyer must yet satisfy to obligate the lender to provide217 the loan. **BUYER, BUYER'S LENDER AND AGENTS OF BUYER OR SELLER SHALL NOT DELIVER A LOAN**218 **COMMITMENT TO SELLER OR SELLER'S AGENT WITHOUT BUYER'S PRIOR WRITTEN APPROVAL OR UNLESS**219 **ACCOMPANIED BY A NOTICE OF UNACCEPTABILITY.**220 ■ **SELLER TERMINATION RIGHTS:** If Buyer does not make timely delivery of said commitment, Seller may terminate this

221 Offer if Seller delivers a written notice of termination to Buyer prior to Seller's Actual Receipt of a copy of Buyer's written loan

222 commitment.

223 ■ **FINANCING UNAVAILABILITY:** If financing is not available on the terms stated in this Offer (and Buyer has not already

224 delivered an acceptable loan commitment for other financing to Seller), Buyer shall promptly deliver written notice to Seller of

225 same including copies of lender(s)' rejection letter(s) or other evidence of unavailability. Unless a specific loan source is

226 named in this Offer, Seller shall then have 10 days to deliver to Buyer written notice of Seller's decision to finance this

227 transaction on the same terms set forth in this Offer and this Offer shall remain in full force and effect, with the time for closing

228 extended accordingly. If Seller's notice is not timely given, this Offer shall be null and void. Buyer authorizes Seller to obtain

229 any credit information reasonably appropriate to determine Buyer's credit worthiness for Seller financing.

230 ■ **IF THIS OFFER IS NOT CONTINGENT ON FINANCING:** Within 7 days of acceptance, a financial institution or third party

231 in control of Buyer's funds shall provide Seller with reasonable written verification that Buyer has, at the time of verification,

232 sufficient funds to close. If such written verification is not provided, Seller has the right to terminate this Offer by delivering

233 written notice to Buyer. Buyer may or may not obtain mortgage financing but does not need the protection of a financing

234 contingency. Seller agrees to allow Buyer's appraiser access to the Property for purposes of an appraisal. Buyer understands

235 and agrees that this Offer is not subject to the appraisal meeting any particular value, unless this Offer is subject to an

236 appraisal contingency, nor does the right of access for an appraisal constitute a financing contingency.

237 **APPRAISAL CONTINGENCY:** This Offer is contingent upon the Buyer or Buyer's lender having the Property appraised

238 at Buyer's expense by a Wisconsin licensed or certified independent appraiser who issues an appraisal report dated

239 subsequent to the date of this Offer indicating an appraised value for the Property equal to or greater than the agreed upon

240 purchase price. This contingency shall be deemed satisfied unless Buyer, within _____ days of acceptance, delivers to

241 Seller a copy of the appraisal report which indicates that the appraised value is not equal to or greater than the agreed upon

242 purchase price, accompanied by a written notice of termination.

243 **CAUTION:** An appraisal ordered by Buyer's lender may not be received until shortly before closing. Consider whether

244 deadlines provide adequate time for performance.

245 **DEFINITIONS CONTINUED FROM PAGE 3**

- 246 n. Defects in any septic system or other sanitary disposal system on the Property or out-of-service septic systems not
247 closed/abandoned according to applicable regulations.
- 248 o. Subsoil conditions which would significantly increase the cost of development including, but not limited to, subsurface
249 foundations or waste material; organic or non-organic fill; dumpsites where pesticides, herbicides, fertilizer or other toxic
250 or hazardous materials or containers for these materials were disposed of in violation of manufacturer's or government
251 guidelines or other laws regulating said disposal; high groundwater; adverse soil conditions (e.g. low load bearing
252 capacity, earth or soil movement, slides) or excessive rocks or rock formations.
- 253 p. Brownfields (abandoned, idled or under-used land which may be subject to environmental contamination) or other
254 contaminated land, or soils contamination remediated under PECFA, the Department of Natural Resources (DNR)
255 Remediation and Redevelopment Program, the Agricultural Chemical Cleanup Program or other similar program.
- 256 q. Lack of legal vehicular access to the Property from public roads.
- 257 r. Homeowners' associations, common areas shared or co-owned with others, zoning violations or nonconforming uses,
258 conservation easements, restrictive covenants, rights-of-way, easements, easement maintenance agreements, or use of
259 a part of Property by non-owners, other than recorded utility easements.
- 260 s. Special purpose district, such as a drainage district, lake district, sanitary district or sewer district, that has the authority to
261 impose assessments against the real property located within the district.
- 262 t. Federal, state or local regulations requiring repairs, alterations or corrections of an existing condition.
- 263 u. Property tax increases, other than normal annual increases; completed or pending property tax reassessment of the
264 Property, or proposed or pending special assessments.
- 265 v. Burial sites, archeological artifacts, mineral rights, orchards or endangered species.
- 266 w. Flooding, standing water, drainage problems or other water problems on or affecting the Property.
- 267 x. Material damage from fire, wind, floods, earthquake, expansive soils, erosion or landslides.
- 268 y. Significant odor, noise, water intrusion or other irritants emanating from neighboring property.
- 269 z. Substantial crop damage from disease, insects, soil contamination, wildlife or other causes; diseased trees; or substantial
270 injuries or disease in livestock on the Property or neighboring properties.
- 271 aa. Existing or abandoned manure storage facilities on the Property.
- 272 bb. Impact fees, or other conditions or occurrences that would significantly increase development costs or reduce the value of
273 the Property to a reasonable person with knowledge of the nature and scope of the condition or occurrence.
- 274 cc. The Property is subject to a mitigation plan required by DNR rules related to county shoreland zoning ordinances that
275 obligates the owner to establish or maintain certain measures related to shoreland conditions, enforceable by the county
276 (see lines 139-145).
- 277 dd. All or part of the land has been assessed as agricultural land, the owner has been assessed a use-value conversion
278 charge or the payment of a use-value conversion charge has been deferred.
- 279 ■ **DEADLINES:** "Deadlines" expressed as a number of "days" from an event, such as acceptance, are calculated by excluding
280 the day the event occurred and by counting subsequent calendar days. The deadline expires at midnight on the last day.
281 Deadlines expressed as a specific number of "business days" exclude Saturdays, Sundays, any legal public holiday under
282 Wisconsin or Federal law, and any other day designated by the President such that the postal service does not receive
283 registered mail or make regular deliveries on that day. Deadlines expressed as a specific number of "hours" from the
284 occurrence of an event, such as receipt of a notice, are calculated from the exact time of the event, and by counting 24 hours
285 per calendar day. Deadlines expressed as a specific day of the calendar year or as the day of a specific event, such as
286 closing, expire at midnight of that day.
- 287 ■ **DEFECT:** "Defect" means a condition that would have a significant adverse effect on the value of the Property; that would
288 significantly impair the health or safety of future occupants of the Property; or that if not repaired, removed or replaced would
289 significantly shorten or adversely affect the expected normal life of the premises.
- 290 ■ **FIXTURE:** A "Fixture" is an item of property which is physically attached to or so closely associated with land so as to be
291 treated as part of the real estate, including, without limitation, physically attached items not easily removable without damage
292 to the premises, items specifically adapted to the premises, and items customarily treated as fixtures, including, but not limited
293 to, all: perennial crops; garden bulbs; plants; shrubs and trees and fences; storage buildings on permanent foundations and
294 docks/piers on permanent foundations.
- 295 **CAUTION:** Exclude any Fixtures to be retained by Seller or which are rented on lines 18-19.
- 296 ■ **PROPERTY:** Unless otherwise stated, "Property" means the real estate described at lines 4-7.
- 297 **PROPERTY DEVELOPMENT WARNING** If Buyer contemplates developing Property for a use other than the current use,
298 there are a variety of issues which should be addressed to ensure the development or new use is feasible. Municipal and
299 zoning ordinances, recorded building and use restrictions, covenants and easements may prohibit certain improvements or
300 uses and therefore should be reviewed. Building permits, zoning variances, Architectural Control Committee approvals,
301 estimates for utility hook-up expenses, special assessments, changes for installation of roads or utilities, environmental audits,
302 subsoil tests, or other development related fees may need to be obtained or verified in order to determine the feasibility of
303 development of, or a particular use for, a property. Optional contingencies which allow Buyer to investigate certain of these
304 issues can be found at lines 306-350 and Buyer may add contingencies as needed in addenda (see line 525). Buyer should
305 review any plans for development or use changes to determine what issues should be addressed in these contingencies.

306 **PROPOSED USE CONTINGENCIES:** Buyer is purchasing the Property for the purpose of: to provide direct ingress and
307 egress to Weeden Creek Road for Buyer's adjacent parcel

308
309 [Insert proposed use and type and size of building, if applicable; e.g. three bedroom single family home]. The optional
310 provisions checked on lines 314-345 shall be deemed satisfied unless Buyer, within _____ days of acceptance, delivers
311 written notice to Seller specifying those items which cannot be satisfied and written evidence substantiating why each specific
312 item included in Buyer's notice cannot be satisfied. Upon delivery of Buyer's notice, this Offer shall be null and void. Seller
313 agrees to cooperate with Buyer as necessary to satisfy the contingencies checked at lines 314-350.

314 **ZONING CLASSIFICATION CONFIRMATION:** This Offer is contingent upon Buyer obtaining, at (Buyer's) (Seller's)
315 **STRIKE ONE** ("Buyer's" if neither is stricken) expense, verification that the Property is zoned _____
316 and that the Property's zoning allows the Buyer's proposed use described at lines 306-308.

317 **SUBSOILS:** This offer is contingent upon Buyer obtaining, at (Buyer's) (Seller's) **STRIKE ONE** ("Buyer's" if neither
318 is stricken) expense, written evidence from a qualified soils expert that the Property is free of any subsoil condition which
319 would make the proposed use described at lines 306-308 impossible or significantly increase the costs of such
320 development.

321 **PRIVATE ONSITE WASTEWATER TREATMENT SYSTEM (POWTS) SUITABILITY:** This Offer is contingent
322 upon Buyer obtaining, at (Buyer's) (Seller's) **STRIKE ONE** ("Buyer's" if neither is stricken) expense, written evidence from
323 a certified soils tester that (a) the soils at the Property locations selected by Buyer, and (b) all other conditions that must
324 be approved, meet the legal requirements in effect on the date of this Offer to obtain a permit for a POWTS for use of the
325 Property as stated on lines 306-308. The POWTS (septic system) allowed by the written evidence must be one of
326 the following POWTS that is approved by the State for use with the type of property identified at lines 306-308 **CHECK**
327 **ALL THAT APPLY:** conventional in-ground; mound; at grade; in-ground pressure distribution; holding tank;

328 other: _____

329 **EASEMENTS AND RESTRICTIONS:** This Offer is contingent upon Buyer obtaining, at (Buyer's) (Seller's) **STRIKE**
330 **ONE** ("Buyer's" if neither is stricken) expense, copies of all public and private easements, covenants and restrictions
331 affecting the Property and a written determination by a qualified independent third party that none of these prohibit or
332 significantly delay or increase the costs of the proposed use or development identified at lines 306-308.

333 **APPROVALS:** This Offer is contingent upon Buyer obtaining, at (Buyer's) (Seller's) **STRIKE ONE** ("Buyer's" if
334 neither is stricken) expense, permits, approvals and licenses, as appropriate, or the final discretionary action by the
335 granting authority prior to the issuance of such permits, approvals and licenses, for the following items related to Buyer's
336 proposed use: _____

337

338 **UTILITIES:** This Offer is contingent upon Buyer obtaining, at (Buyer's) (Seller's) **STRIKE ONE** ("Buyer's" if neither
339 is stricken) expense, written verification of the following utility connections at the listed locations (e.g., on the Property, at
340 the lot line, across the street, etc.) **CHECK AND COMPLETE AS APPLICABLE:** electricity _____;

341 gas _____; sewer _____; water _____;

342 telephone _____; cable _____; other _____

343 **ACCESS TO PROPERTY:** This Offer is contingent upon Buyer obtaining, at (Buyer's) (Seller's) **STRIKE ONE**
344 ("Buyer's" if neither is stricken) expense, written verification that there is legal vehicular access to the Property from public
345 roads.

346 **LAND USE APPROVAL:** This Offer is contingent upon Buyer obtaining, at (Buyer's) (Seller's) **STRIKE ONE** ("Buyer's" if
347 neither is stricken) expense, a rezoning; conditional use permit; license; variance; building permit;
348 occupancy permit; other _____ **CHECK ALL THAT APPLY**, and delivering

349 written notice to Seller if the item cannot be obtained, all within _____ days of acceptance for the Property for its proposed
350 use described at lines 306-308.

351 **MAP OF THE PROPERTY:** This Offer is contingent upon (Buyer obtaining) (Seller providing) **STRIKE ONE** ("Seller
352 providing" if neither is stricken) a Map of the Property dated subsequent to the date of acceptance of this Offer prepared by a
353 registered land surveyor, within _____ days of acceptance, at (Buyer's) (Seller's) **STRIKE ONE** ("Seller's" if neither is stricken)
354 expense. The map shall show minimum of _____ acres, maximum of _____ acres, the legal description of the
355 Property, the Property's boundaries and dimensions, visible encroachments upon the Property, the location of improvements,
356 if any, and:

357 **[STRIKE AND COMPLETE AS APPLICABLE]** Additional map features which may be added include, but are not limited to:
358 staking of all corners of the Property; identifying dedicated and apparent streets; lot dimensions; total acreage or square
359 footage; easements or rights-of-way. **CAUTION: Consider the cost and the need for map features before selecting them.**
360 **Also consider the time required to obtain the map when setting the deadline.** This contingency shall be deemed satisfied
361 unless Buyer, within five days of the earlier of: (1) Buyer's receipt of the map; or (2) the deadline for delivery of said map,
362 delivers to Seller a copy of the map and a written notice which identifies: (1) the significant encroachment; (2) information
363 materially inconsistent with prior representations; or (3) failure to meet requirements stated within this contingency.
364 Upon delivery of Buyer's notice, this Offer shall be null and void.

385 **PROPERTY DIMENSIONS AND SURVEYS** Buyer acknowledges that any land dimensions, total square footage, acreage
386 figures, or allocation of acreage information, provided to Buyer by Seller or by a broker, may be approximate because of
387 rounding, formulas used or other reasons, unless verified by survey or other means.

388 **CAUTION: Buyer should verify land dimensions, total square footage/acreage figures and allocation of acreage**
389 **information if material to Buyer's decision to purchase.**

370 **EARNEST MONEY**

371 ■ **HELD BY:** Unless otherwise agreed, earnest money shall be paid to and held in the trust account of the listing broker
372 (Buyer's agent if Property is not listed or Seller's account if no broker is involved), until applied to the purchase price or
373 otherwise disbursed as provided in the Offer.

374 **CAUTION: Should persons other than a broker hold earnest money, an escrow agreement should be drafted by the**
375 **Parties or an attorney. If someone other than Buyer makes payment of earnest money, consider a special**
376 **disbursement agreement.**

377 ■ **DISBURSEMENT:** If negotiations do not result in an accepted offer, the earnest money shall be promptly disbursed (after
378 clearance from payor's depository institution if earnest money is paid by check) to the person(s) who paid the earnest money.
379 At closing, earnest money shall be disbursed according to the closing statement. If this Offer does not close, the earnest
380 money shall be disbursed according to a written disbursement agreement signed by all Parties to this Offer. If said
381 disbursement agreement has not been delivered to broker within 60 days after the date set for closing, broker may disburse
382 the earnest money: (1) as directed by an attorney who has reviewed the transaction and does not represent Buyer or Seller;
383 (2) into a court hearing a lawsuit involving the earnest money and all Parties to this Offer; (3) as directed by court order; or (4)
384 any other disbursement required or allowed by law. Broker may retain legal services to direct disbursement per (1) or to file an
385 interpleader action per (2) and broker may deduct from the earnest money any costs and reasonable attorneys fees, not to
386 exceed \$250, prior to disbursement.

387 ■ **LEGAL RIGHTS/ACTION:** Broker's disbursement of earnest money does not determine the legal rights of the Parties in
388 relation to this Offer. Buyer's or Seller's legal right to earnest money cannot be determined by broker. At least 30 days prior to
389 disbursement per (1) or (4) above, broker shall send Buyer and Seller notice of the disbursement by certified mail. If Buyer or
390 Seller disagree with broker's proposed disbursement, a lawsuit may be filed to obtain a court order regarding disbursement.
391 Small Claims Court has jurisdiction over all earnest money disputes arising out of the sale of residential property with 1-4
392 dwelling units and certain other earnest money disputes. Buyer and Seller should consider consulting attorneys regarding their
393 legal rights under this Offer in case of a dispute. Both Parties agree to hold the broker harmless from any liability for good faith
394 disbursement of earnest money in accordance with this Offer or applicable Department of Regulation and Licensing
395 regulations concerning earnest money. See Wis. Admin. Code Ch. RL 18.

396 **DISTRIBUTION OF INFORMATION** Buyer and Seller authorize the agents of Buyer and Seller to: (i) distribute copies of the
397 Offer to Buyer's lender, appraisers, title insurance companies and any other settlement service providers for the transaction as
398 defined by the Real Estate Settlement Procedures Act (RESPA); (ii) report sales and financing concession data to multiple
399 listing service sold databases; and (iii) provide active listing, pending sale, closed sale and financing concession information
400 and data, and related information regarding seller contributions, incentives or assistance, and third party gifts, to appraisers
401 researching comparable sales, market conditions and listings, upon inquiry.

402 **NOTICE ABOUT SEX OFFENDER REGISTRY** You may obtain information about the sex offender registry and persons
403 registered with the registry by contacting the Wisconsin Department of Corrections on the Internet at
404 <http://www.widocoffenders.org> or by telephone at (608) 240-5830.

405 **SECONDARY OFFER:** This Offer is secondary to a prior accepted offer. This Offer shall become primary upon delivery
406 of written notice to Buyer that this Offer is primary. Unless otherwise provided, Seller is not obligated to give Buyer notice prior
407 to any deadline, nor is any particular secondary buyer given the right to be made primary ahead of other secondary buyers.
408 Buyer may declare this Offer null and void by delivering written notice of withdrawal to Seller prior to delivery of Seller's notice
409 that this Offer is primary. Buyer may not deliver notice of withdrawal earlier than ____ days after acceptance of this Offer. All
410 other Offer deadlines which are run from acceptance shall run from the time this Offer becomes primary.

411 **TIME IS OF THE ESSENCE** "Time is of the Essence" as to: (1) earnest money payment(s); (2) binding acceptance; (3)
412 occupancy; (4) date of closing; (5) contingency Deadlines **STRIKE AS APPLICABLE** and all other dates and Deadlines in this
413 Offer except: NONE OTHER

414 If "Time is of the Essence" applies to a date or Deadline, failure to perform by the exact date or Deadline is a breach of
415 contract. If "Time is of the Essence" does not apply to a date or Deadline, then performance within a reasonable time of the
416 date or Deadline is allowed before a breach occurs.

417 **TITLE EVIDENCE**

418 ■ **CONVEYANCE OF TITLE:** Upon payment of the purchase price, Seller shall convey the Property by warranty deed
419 (or trustee's deed if Seller is a trust, personal representative's deed if Seller is an estate or other conveyance as
420 provided herein), free and clear of all liens and encumbrances, except municipal and zoning ordinances and agreements
421 entered under them, recorded easements for the distribution of utility and municipal services, recorded building and use
422 restrictions and covenants, present uses of the Property in violation of the foregoing disclosed in Seller's disclosure report and
423 in this Offer, general taxes levied in the year of closing and NONE OTHER

424

425

426

427 which constitutes merchantable title for purposes of this transaction. Seller shall complete and execute the documents
428 necessary to record the conveyance at Seller's cost and pay the Wisconsin Real Estate Transfer Fee.

429 ■ **TITLE EVIDENCE:** Seller shall give evidence of title in the form of an owner's policy of title insurance for the amount of the
430 purchase price on a term of ____ years (not to exceed 30 years) issued by an insurer licensed to write title insurance in Wisconsin. Seller shall pay all
431 costs of providing title evidence to Buyer. Buyer shall pay all costs of providing title evidence required by Buyer's lender.

432 ■ **GAP ENDORSEMENT:** Seller shall provide a gap endorsement on an equivalent gap coverage at (Seller's) (Buyer's) **STRIKE**
433 **ONE** (Seller's) (Buyer's) cost to provide coverage for any liens or encumbrances first filed on or after the date of the
434 effective date of the title insurance commitment and before the deed is recorded, subject to the other title insurance policy
435 exclusions and exceptions provided the title company will issue the endorsement if a gap endorsement or equivalent gap
436 coverage is not available. Buyer may give written notice that title is not acceptable for closing (see lines 442-449).

437 ■ **PROVISION OF MERCHANTABLE TITLE:** For purposes of closing, title evidence shall be acceptable if the required title
438 insurance commitment is delivered to Buyer's attorney or Buyer not more than ____ days after acceptance ("15" if left blank),
439 showing title to the Property as of a date no more than 15 days before delivery of such title evidence to be merchantable per
440 lines 418-427, subject only to liens which will be paid out of the proceeds of closing and standard title insurance requirements
441 and exceptions, as appropriate.

442 ■ **TITLE NOT ACCEPTABLE FOR CLOSING:** If title is not acceptable for closing, Buyer shall notify Seller in writing of
443 objections to title within ____ days ("15" if left blank) after delivery of the title commitment to Buyer or Buyer's attorney. In
444 such event, Seller shall have a reasonable time, but not exceeding ____ days ("5" if left blank) from Buyer's delivery of the
445 notice stating title objections, to deliver notice to Buyer stating Seller's election to remove the objections by the time set for
446 closing. In the event that Seller is unable to remove said objections, Buyer may deliver to Seller written notice waiving the
447 objections, and the time for closing shall be extended accordingly. If Buyer does not waive the objections, Buyer shall deliver
448 written notice of termination and this Offer shall be null and void. Providing title evidence acceptable for closing does not
449 extinguish Seller's obligations to give merchantable title to Buyer.

450 ■ **SPECIAL ASSESSMENTS:** Special assessments, if any, levied or for work actually commenced prior to the date of this
451 Offer shall be paid by Seller no later than closing. All other special assessments shall be paid by Buyer.

452 **CAUTION:** Consider a special agreement if area assessments, property owners association assessments, special
453 charges for current services under Wis. Stat. § 66.0627 or other expenses are contemplated. "Other expenses" are
454 one-time charges or ongoing use fees for public improvements (other than those resulting in special assessments)
455 relating to curb, gutter, street, sidewalk, municipal water, sanitary and storm water and storm sewer (including all
456 sewer mains and hook-up/connection and interceptor charges), parks, street lighting and street trees, and impact
457 fees for other public facilities, as defined in Wis. Stat. § 66.0617(1)(f).

458 **ADDITIONAL PROVISIONS/CONTINGENCIES**

459

460

461

462

463

464

465 **DEFAULT** Seller and Buyer each have the legal duty to use good faith and due diligence in completing the terms and
466 conditions of this Offer. A material failure to perform any obligation under this Offer is a default which may subject the
467 defaulting party to liability for damages or other legal remedies.

468 If **Buyer defaults**, Seller may:

- 469 (1) sue for specific performance and request the earnest money as partial payment of the purchase price; or
470 (2) terminate the Offer and have the option to: (a) request the earnest money as liquidated damages; or (b) sue for
471 actual damages.

472 If **Seller defaults**, Buyer may:

- 473 (1) sue for specific performance; or
474 (2) terminate the Offer and request the return of the earnest money, sue for actual damages, or both.

475 In addition, the Parties may seek any other remedies available in law or equity.

476 The Parties understand that the availability of any judicial remedy will depend upon the circumstances of the situation and the
477 discretion of the courts. If either Party defaults, the Parties may renegotiate the Offer or seek nonjudicial dispute resolution
478 instead of the remedies outlined above. By agreeing to binding arbitration, the Parties may lose the right to litigate in a court of
479 law those disputes covered by the arbitration agreement.

480 **NOTE: IF ACCEPTED, THIS OFFER CAN CREATE A LEGALLY ENFORCEABLE CONTRACT. BOTH PARTIES SHOULD**
481 **READ THIS DOCUMENT CAREFULLY. BROKERS MAY PROVIDE A GENERAL EXPLANATION OF THE PROVISIONS**
482 **OF THE OFFER BUT ARE PROHIBITED BY LAW FROM GIVING ADVICE OR OPINIONS CONCERNING YOUR LEGAL**
483 **RIGHTS UNDER THIS OFFER OR HOW TITLE SHOULD BE TAKEN AT CLOSING. AN ATTORNEY SHOULD BE**
484 **CONSULTED IF LEGAL ADVICE IS NEEDED.**

485 **ENTIRE CONTRACT** This Offer, including any amendments to it, contains the entire agreement of the Buyer and Seller
486 regarding the transaction. All prior negotiations and discussions have been merged into this Offer. This agreement binds and
487 inures to the benefit of the Parties to this Offer and their successors in interest.

488 **INSPECTIONS AND TESTING** Buyer may only conduct inspections or tests if specific contingencies are included as a part of
489 this Offer. An "inspection" is defined as an observation of the Property which does not include an appraisal or testing of the
490 Property, other than testing for leaking carbon monoxide, or testing for leaking LP gas or natural gas used as a fuel source,
491 which are hereby authorized. A "test" is defined as the taking of samples of materials such as soils, water, air or building
492 materials from the Property and the laboratory or other analysis of these materials. Seller agrees to allow Buyer's inspectors,
493 testers and appraisers reasonable access to the Property upon advance notice, if necessary to satisfy the contingencies in
494 this Offer. Buyer and licensees may be present at all inspections and testing. Except as otherwise provided, Seller's
495 authorization for inspections does not authorize Buyer to conduct testing of the Property.

496 **NOTE: Any contingency authorizing testing should specify the areas of the Property to be tested, the purpose of the**
497 **test, (e.g., to determine if environmental contamination is present), any limitations on Buyer's testing and any other**
498 **material terms of the contingency.**

499 Buyer agrees to promptly restore the Property to its original condition after Buyer's inspections and testing are completed
500 unless otherwise agreed to with Seller. Buyer agrees to promptly provide copies of all inspection and testing reports to Seller.
501 Seller acknowledges that certain inspections or tests may detect environmental pollution which may be required to be reported
502 to the Wisconsin Department of Natural Resources.

503 **INSPECTION CONTINGENCY:** This contingency only authorizes inspections, not testing (see lines 488-502). This Offer
504 is contingent upon a qualified independent inspector(s) conducting an inspection(s), of the Property which discloses no
505 Defects. This Offer is further contingent upon a qualified independent inspector or independent qualified third party performing
506 an inspection of _____
507 (list any Property feature(s) to be separately inspected, e.g., dumpsite, etc.) which discloses no Defects. Buyer shall order the
508 inspection(s) and be responsible for all costs of inspection(s). Buyer may have follow-up inspections recommended in a
509 written report resulting from an authorized inspection performed provided they occur prior to the deadline specified at line 513.
510 Inspection(s) shall be performed by a qualified independent inspector or independent qualified third party.
511 **CAUTION: Buyer should provide sufficient time for the primary inspection and/or any specialized inspection(s), as**
512 **well as any follow-up inspection(s).**

513 This contingency shall be deemed satisfied unless Buyer, within _____ days of acceptance, delivers to Seller a copy of the written
514 inspection report(s) and a written notice listing the Defect(s) identified in those report(s) to which Buyer objects (Notice of Defects).
515 **CAUTION: A proposed amendment is not a Notice of Defects and will not satisfy this notice requirement.**

516 For the purposes of this contingency, Defects (see lines 287-289) do not include conditions the nature and extent of which the
517 Buyer had actual knowledge or written notice before signing this Offer.

518 **RIGHT TO CURE:** Seller (shall)(shall not) **STRIKE ONE** ("shall" if neither is stricken) have a right to cure the Defects. If
519 Seller has the right to cure, Seller may satisfy this contingency by: (1) delivering written notice to Buyer within 10 days of
520 Buyer's delivery of the Notice of Defects stating Seller's election to cure Defects; (2) curing the Defects in a good and
521 workmanlike manner; and (3) delivering to Buyer a written report detailing the work done within 3 days prior to closing. This
522 Offer shall be null and void if Buyer makes timely delivery of the Notice of Defects and written inspection report(s) and: (1)
523 Seller does not have a right to cure or (2) Seller has a right to cure but: (a) Seller delivers written notice that Seller will not cure
524 or (b) Seller does not timely deliver the written notice of election to cure.

525 **ADDENDA:** The attached Addendum A is/are made part of this Offer.

City Clerk

June 3rd, 2016

Sheboygan City Council
c/o City Clerk's Office
828 Center Avenue
Sheboygan, WI 53081

To Whom It May Concern:

Upon receipt of this letter, the Sheboygan Jaycee's are formally requesting the review and approval of the operating hours for our annual Brat Day's festival located at Kiwanis Park. This year's festival will be from Thursday, August 4th, 2016 through Saturday, August 6th, 2016. We are requesting the same hours that we have had approved for Brat Days in 2015. The following table summarizes our request:

	Thursday	Friday	Saturday
Music Ends:	10:30 pm	11:00 pm	11:00 pm
Beer Sales End:	10:00 pm	11:15 pm	11:15 pm
Park Closes:	Midnight	Midnight	Midnight

The hours of operation that were in place the last few years were very successful, and we do not anticipate anything but the status quo going into 2016. I have contacted the Sheboygan Police Department regarding this request and Chief Domagalski will be sending a letter expressing his support.

The benefits of these hours of operation include:

- Allowing people to leave on their own accord and not be forced out by our security team or the police department (a cool down period of 45 minutes before the park closes).
- Give our patrons an opportunity to purchase food and beverages, if desired, after the band is done playing. This is meant to keep the noise down in the neighborhood.
- This festival has brought international attention and thousands of dollars to the City of Sheboygan. We welcome the opportunity to keep our patrons longer.

The Sheboygan Jaycees would like to attend the appropriate committee meetings and a city council meeting regarding this request. Should you have any questions pertaining to this request, please contact me at 920-331-8787 or via e-mail at jackie77q@gmail.com.

We thank you and appreciate your time and consideration in this matter.

Sincerely,

Jaclyn Quasius
Brat Days 2016 Administration Chairman

Annual Report

City of Sheboygan
Fire Department

Sheboygan Fire Department Annual Report | 2015

Dear Citizens,

On behalf of the Sheboygan Fire Department, I want to thank you for taking the time to review our 2015 Annual Report. All of our members and staff work hard to provide the best possible service to our community.

2015 was another successful year for our department. The department's net cost to taxpayers went down for a third straight year in a row, we responded to a record 5,034 runs and there were no fire deaths or serious fire injuries.

2016 goals include the successful implementation of new ambulances, breathing apparatus, EMS billing, payroll and scheduling software, electronic inspections, the creation of a new public safety career path at Sheboygan South High School and the implementation of a new county-wide radio system.

I would like to thank our citizens and city leaders for the support they give us and the trust they place in us to take care of any emergency situation that may arise. And finally, thank you to the firefighters, paramedics, officers, chiefs and support personnel that make up this department. It is their dedication to service and this department that make us the best that we can be.

Respectfully,

A handwritten signature in cursive script that reads "Michael T. Romas".

Mike Romas
Fire Chief
City of Sheboygan

Sheboygan Fire Department Annual Report | 2015

Department Mission

The Sheboygan Fire Department is dedicated to serving all who live, visit, work and invest in the City of Sheboygan through excellence in fire protection, rescue, emergency and non-emergency medical services, code enforcement, and education, and at the highest professional level in a compassionate, ethical, and cost effective manner.

Department Vision

The Sheboygan Fire Department will continue to provide response times consistently within the guidelines of NFPA 1710, with up-to-date emergency vehicles/equipment and an adequate number of highly trained personnel, focused on saving lives and preventing property damage. A movement towards a regional based fire protection/shared services system would stabilize the cost of fire/EMS protection for the citizens of Sheboygan, drastically improve response times and fire/EMS protection in the neighboring communities, and increase the availability of timely resources for the entire area. This cooperative effort would bring together local governments, citizens, firefighters and EMS personnel working together towards a common goal of saving lives, property, and community assets, while protecting the investments and employment base of private enterprise.

Equipment, Facilities, and Vehicles Status Update

Equipment

- Self Contained Breathing Apparatus (SCBA) Respirators were all tested and certified. All department SCBAs are nearing the end of their service life and are to be replaced in 2016.
- Breathing-air compressor was serviced and air quality was tested.
- All Hurst extrication equipment was tested and serviced.
- Purchased seven new sets of structural firefighting protective clothing.

Facilities

- Station #4 Roof replacement project was completed.
- Station #1 and #2 Building assessment was completed on both buildings
- Station #2 had to have temporary structural work performed based on findings of assessment.
- Station #3 Concrete under east overhead doors was replaced.

Vehicles

- All fire apparatus equipped with a pump had annual pump testing and recertification.
- 2015 Pierce Impel PUC Pumper was purchased and placed into service.
- 2015 Chevrolet Equinox was leased as Chief's vehicle.
- Fleet maintenance through the Department of Public Works continues for both routine maintenance and repairs.
- Purchased a used 2008 ambulance with no mileage on it.

TOTAL INCIDENTS:	5034	100.00%

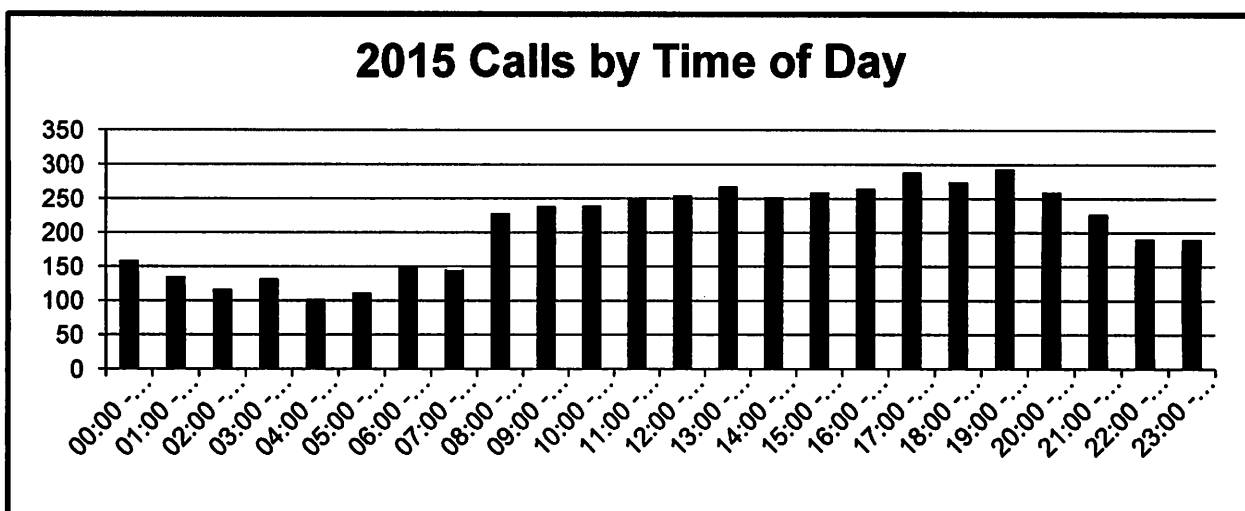

Response Statistics

Total Number of Responses

The *Calls by Day of Week* and *Calls by Time of Day* graphs are indicators of when requests for the Fire Department occur in Sheboygan. While there are some patterns that are seen, these graphs match trends nationally overall and also indicate that requests happen at all times.

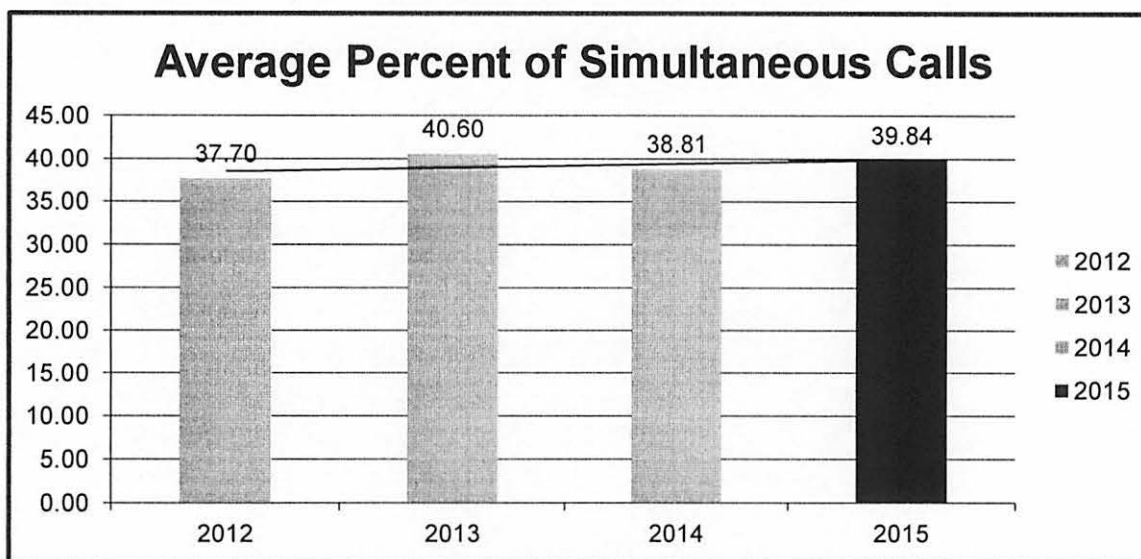

Sheboygan Fire Department Annual Report | 2015

Mutual Aid Given/Received

	2012	2013	2014	2015
Incidents with Mutual Aid Received	5	7	5	5
Incidents with Mutual Aid Given	8	9	8	8
Other Responses Outside of City	5	20	26	19

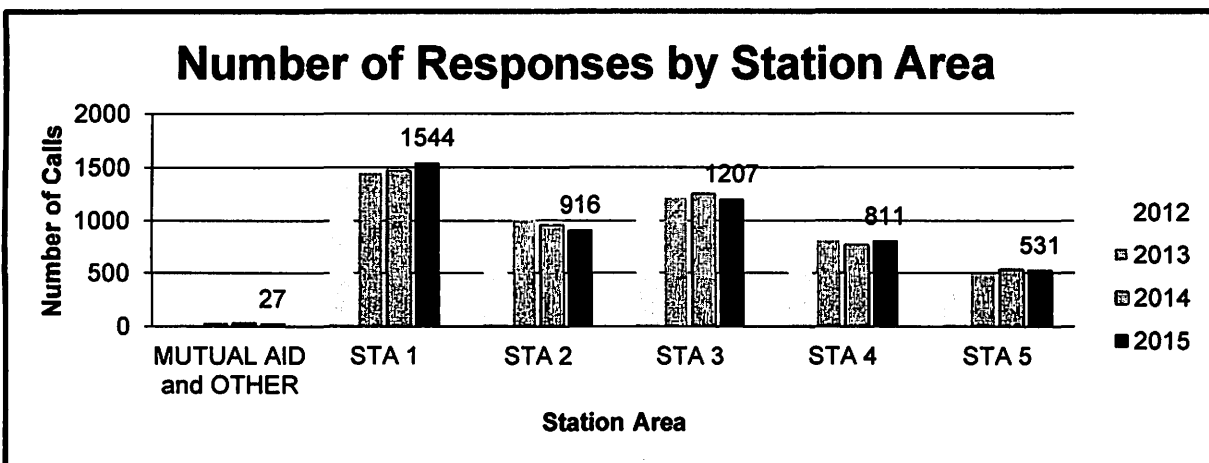

Concurrent Calls

The measure of simultaneous calls represents the percentage of total call requests for the fire department while another call or multiple calls are already in progress. Generally speaking the call requests are random and in 2015 there was a slight increase in concurrent calls from the previous year, but that increase was insignificant and represented a relatively flat trend over previous years measured.

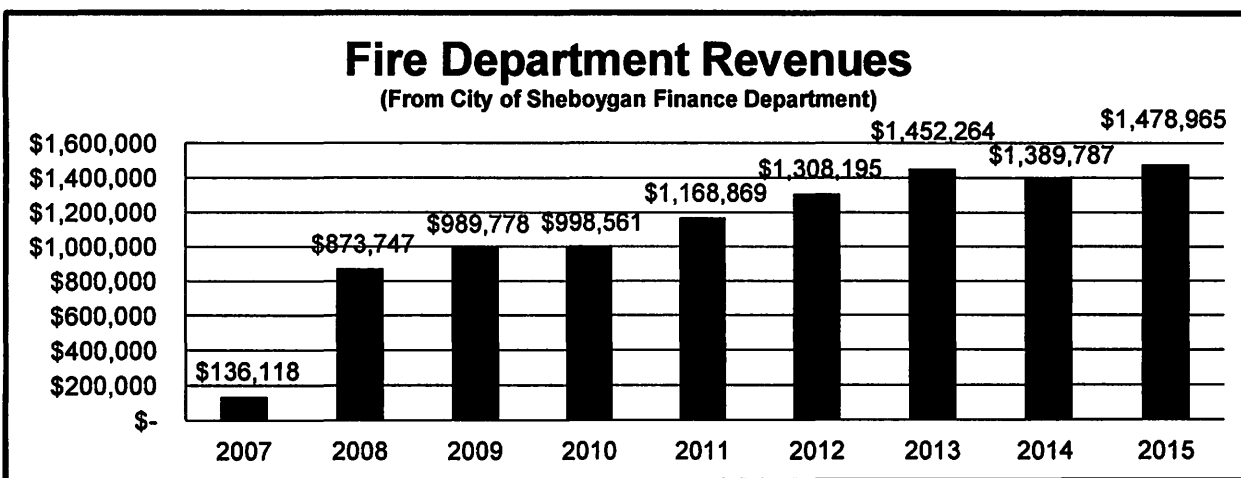

Fire Deaths

	2012	2013	2014	2015
Fire Deaths	0	1	1	0

The *Response Requests by Station Area* graph is the total number of incidents as divided by Fire Station Single Alarm response area as designated by the fire department. These response areas are established to maintain appropriate response times as set forth by the National Fire Protection Association (NFPA).

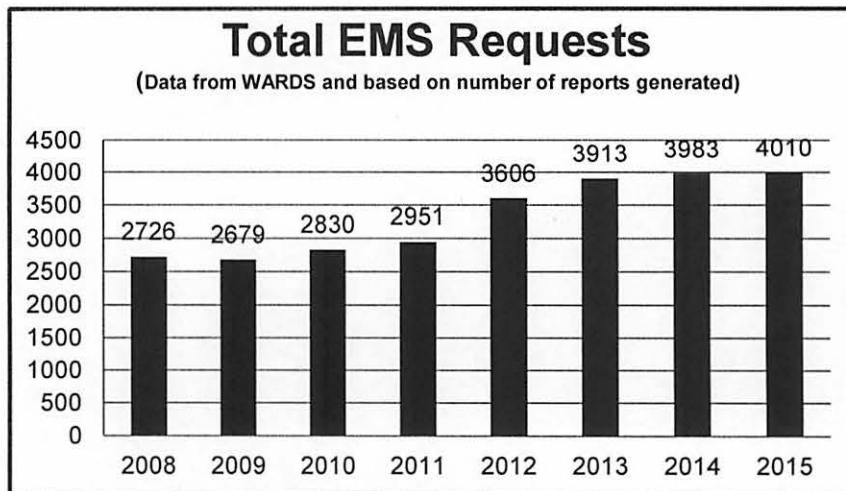

Emergency Medical Services

The Sheboygan Fire Department has provided emergency medical care for the citizens of Sheboygan for many years and as of January 1, 2008 has been a licensed ambulance service provider with the State of Wisconsin. The personnel of the fire department are cross-trained in both fire services and emergency medical care. This duality of skills and equipment

provides a very efficient model for providing both EMS and fire services to the community at a very high level. Response time requirements based on progression timelines for both critical medical events and fires are very similar which makes the medical response pair well with the existing fire department infrastructure. When responding to fire and technical rescue related responses, the cross-trained firefighter can apply the necessary skills to the problem at hand whether it is fire or an injured person, or both.

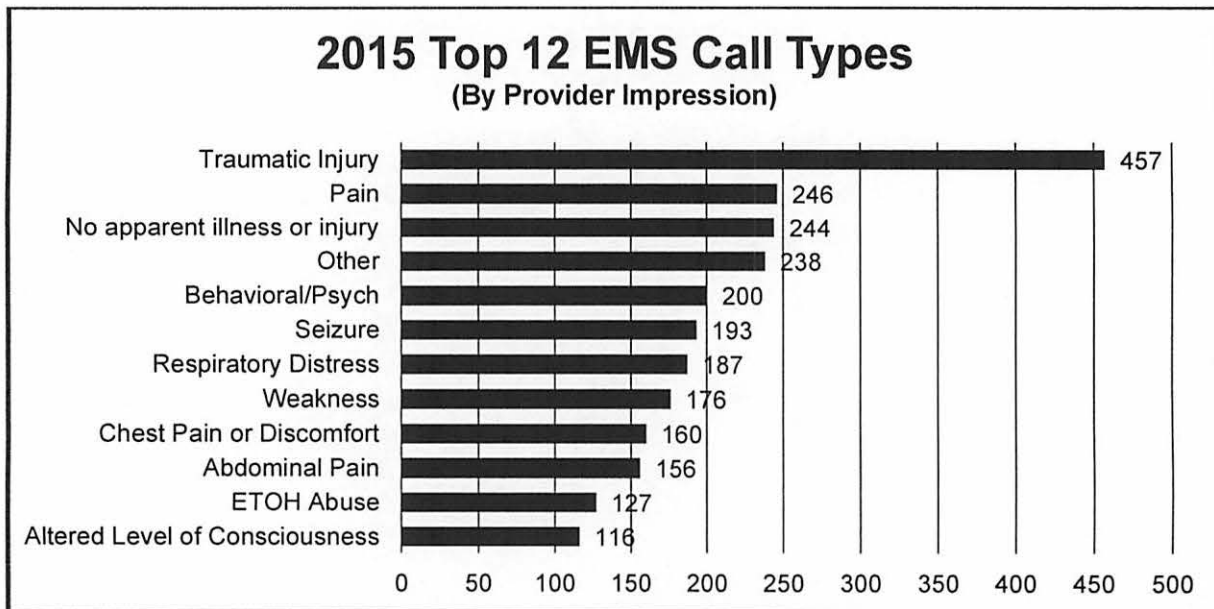

In 2015, the fire department responded to over 4000 requests for medical service. A breakdown of those requests by year over the past five years can be seen in the graph below. Of those responses, approximately 83% of those patients got transported to either a local facility, or to a facility outside of the city in order to get a higher level of care. Many of those people get care on scene and avoid a trip to the hospital by ambulance.

Dr. Steven Zils continues to fulfill the responsibilities of Service Medical Director. As a result, the department has been able to continue serving at a high level and also move forward with new medical protocols, more consistent training, and a move

toward better quality assurance measures.

The number of EMS responses by the fire department compared to other types of requests is very consistent with departments across the country according to the National Fire Protection Association statistics for fire responses. This holds true even for departments who do not provide ALS transport services. This is due largely to the fact that those departments provide for first response and other supportive duties to those incidents as well.

Fire Prevention and Public Education

In an effort to reduce the loss of life, injury, and property loss in the City of Sheboygan, the Sheboygan Fire Department is dedicated to providing education to the public as part of its mission.

As the hazards presented to the public change, so will the program offerings to the public. It is the department's intent to keep the education of our firefighters current to better offer training to the public about the hazards faced by members of the public and how to better avoid them.

While it is a core mission of the Sheboygan Fire Department to respond to and mitigate incidents in the City of Sheboygan, it is also the department's mission to reduce the number and severity of those incidents by proper code development and enforcement, effective and efficient response, and ongoing public education. It is through this continuous and comprehensive program of education

that the department maintains a culture of safety in the community.

This general program area of public education is vital to the success of the fire department mission. The funding for the materials used for the school programs is largely generated through a program developed and operated by the National Fire Safety Council (NFSC). Each year, local businesses are solicited for donations toward the program by NFSC on the department's behalf and those funds are used by the department to purchase all of the fire prevention materials used in the public education programs delivered in the schools.

Fire Investigation

Significant Fires Investigated in 2015

According to State statute it is the responsibility of the Fire Chief to investigate all fires for origin and cause. 143 fires were investigated and documented accordingly by the Incident Commander in charge of those fires. At times, additional assistance and expertise is utilized to investigate fires. In those cases, outside investigators or members of the Sheboygan County Fire Investigation Unit are requested.

The following addresses had fires that required a formal investigation:

- 952 Weeden Creek
- 3309 Hickory Circle
- 2201 Erie Avenue
- 1704 North 12 Street
- 1823 North 10 Street
- 2735 Henry Street
- 1402 North 17 Street
- 1521 Blocki Court
- 1214 North 17 Street
- 2329 South 16 Street
- 620 Broughton Drive
- 434 Huron Avenue
- 1107 South 15 Street
- 931 North 8 Street
- 1614 Indiana Avenue

Training and Resource Development

The nature of the responsibilities of a fire department requires continuous training of its personnel to assure the best possible chance of a positive outcome when critical incidents occur. This is especially important when those events do not happen very often and you get one chance to get it right. Training and preparation is tailored to create effectiveness, efficiency, and safety when the fire department responds to incidents. The Sheboygan Fire Department provides for training of its employees through many different programs using a variety of methodologies that are designed to best meet the

needs of the department both fiscally and operationally.

Because of the inherent dangers present in the job, many of the training areas are statutorily mandated for the protection of both the employee and the citizens they serve.

The elimination of staff positions within the department has made it necessary to alter how the department plans, prepares, and delivers training. The duties have been redistributed to numerous personnel in an effort to maintain adequate training and monitored compliance with mandatory training requirements. Training for the department is coordinated through Battalion Chief Keith Risse. One of the ways the Sheboygan Fire Department works to maintain cost effective training is through the development and utilization of in-house instructors. These instructors are from both the line and staff of the fire department. Thirteen of

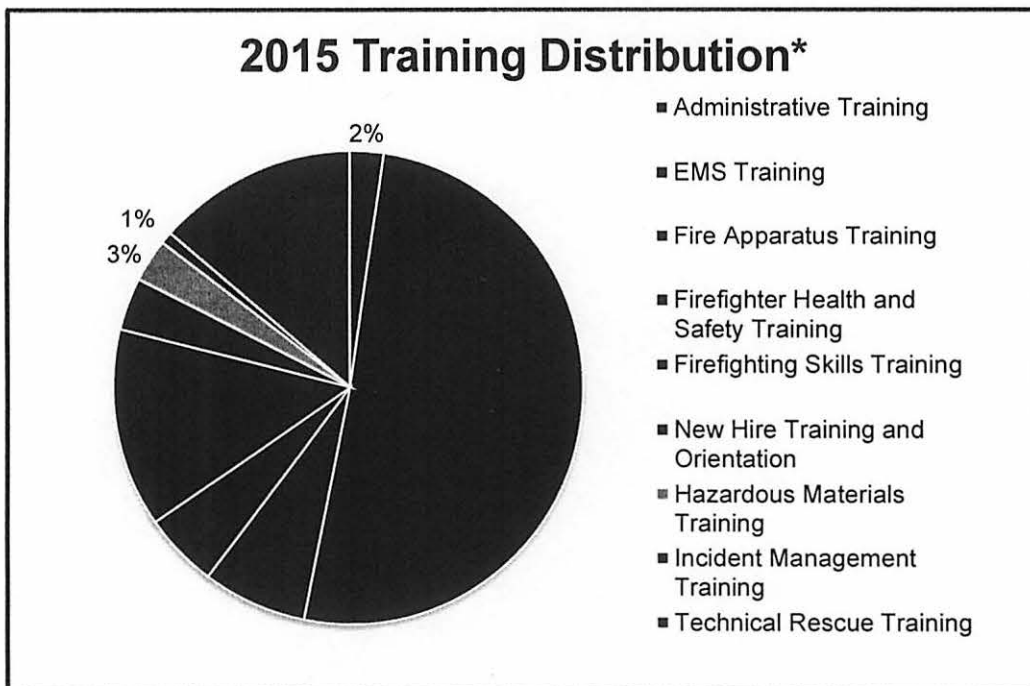

Sheboygan Fire Department Annual Report | 2015

the department's instructors are certified through the Wisconsin State Technical College System in various areas including Emergency Medical Services, Technical Rescue, Firefighting, and Incident Management. Where no qualified instructor is available from within the department, the department will occasionally send an individual to train-the-trainer education for that topic, or an outside instructor is brought to the department.

The following is a partial list of the major training topics delivered in 2015:

- Narrative/Report Writing
- Bloodborne Pathogens Training
- Rope Rescue Training
- Rapid Intervention Team Training with Haven Fire Department
- Confined Space Rescue Training
- Natural Gas Emergencies Training with WPS
- Electrical Emergencies with Alliant Energy
- Vehicle Extrication
- Fire Prevention Code Review
- New Apparatus Orientation with Pierce Manufacturing
- Radio Communication Training with Combined Dispatch Center
- EMT and Paramedic Refresher Training
- CCR Recertification

R. O. No. 62 - 16 - 17. By BOARD OF MARINA, PARKS AND FORESTRY COMMISSION.
June 20, 2016.

Submitted is a recommendation from the Board of Marina, Parks and Forestry Commission regarding the Urban Forest and Emerald Ash Borer Management Plan.

The Commissioners reviewed the Urban Forest and Emerald Ash Borer Management Plan as submitted by Bluestem Forestry Consulting, Inc. The plan offered three scenarios for the management of ash trees. Scenario Number Two consists of treating 2,800 ash trees over the next three years and removing 2,750 ash trees over the next four years. The plan suggests and provides budget estimates for tree planting, treatment and additional employees.

The Commissioners recommend following Scenario Number Two for the treatment and removal of City ash trees.

CITY OF SHEBOYGAN

REQUEST FOR PUBLIC WORKS COMMITTEE CONSIDERATION

ITEM DESCRIPTION: Urban Forest and Emerald Ash Borer Management Plan

REPORT PREPARED BY: Joseph L. Kerlin, Superintendent of Parks and Forestry

REPORT DATE: June 14, 2016

MEETING DATE: June 28, 2016

FISCAL SUMMARY:

STATUTORY REFERENCE:

Budget Line Item:	N/A	Wisconsin Statutes:	N/A
Budget Summary:	Forestry	Municipal Code:	N/A
Budgeted Expenditure:	Five year expense		
Budgeted Revenue:	Five year expense		

BACKGROUND / ANALYSIS:

Bluestem Forestry Consulting, Inc. was hired by the city to write an Urban Forest and Emerald Ash Borer Management Plan.

STAFF COMMENTS:

The plan offers three scenarios for the management of ash trees. Staff is suggesting Scenario number two. Scenario number two consists of treating 2,800 ash trees over the next three years and removing 2,750 ash trees over the next four years.

The plan suggests and provides budget estimates for tree planting, treatment and additional employees.

The Marina, Parks and Forestry Commission passed a motion of recommendation to accept the attached document as the City of Sheboygan's Urban Forest and Emerald Ash Bore Management Plan and recommend following scenario two for the treatment and removal of city ash trees.

ACTION REQUESTED:

Motion to recommend to the Common Council to accept the attached document as the City of Sheboygan's Urban Forest and Emerald Ash Bore Management Plan and recommend following scenario number two for the treatment and removal of city ash trees.

Chapter I. Introduction, Purpose & Executive Summary

Introduction

The urban forest of Sheboygan provides a multitude of aesthetic, economical, and environmental benefits to citizens, businesses, and visitors alike. Beyond shade and beauty, trees also have practical benefits and real monetary value that communities sometimes are unaware of. Sheboygan's urban forest provides valuable public services and is worth millions of dollars. Unlike other public infrastructure components, properly planted and maintained trees increase in value over time.

Based upon existing inventory data, Bluestem Forestry Consulting, Inc. completed this document that makes specific, prioritized recommendations for managing the urban forest resource for 2016-2020. This plan will provide management options that will allow the City to mitigate the disruption to its urban forest caused by the infestation of the Emerald Ash Borer (EAB), while developing a routine forestry program that will help protect and preserve the City-managed trees in a cost-effective and efficient manner.

Purpose of Plan

The purpose of having an urban forest management plan is to ensure that the citizens of City of Sheboygan will enjoy the benefits of trees through proper arboricultural techniques and management practices.

The development of a long-range urban forestry maintenance and management plan based on current research and inventory results will provide the foundation for an ongoing program that will result in a healthier and safer community. In particular, a management program can be used to monitor trees for safety risks on a continual basis, will help reduce storm damage, allow work to be executed more efficiently, and establish and prioritize annual budgets.

The plan is based on the most recent scientific studies and recommendations from key partners and multiple state and federal agencies. As this is a living document, updates to this plan will should made as new information and recommendations are released.

Executive Summary

Important points of the inventory and current tree management program include:

- *A total of 22,154 trees appear in the most recent tree inventory.*
- *5,139 trees (23.2%) are ash and are susceptible to Emerald Ash Borer. EAB was confirmed in Sheboygan in March 2016.*
- *The largest tree genus (family) occurring in Sheboygan is maple which represents 35.8% of the total population, followed by ash. Ideally, the forest should be comprised of not more than 5% of any one species and 10% of any one genus.*
- *Chemical treatments to prevent infestation of EAB on ash trees are very effective. The recommended treatment for ash is TREE-äge. The manufacturer label recommends treatments on a 2 year cycle, but research has shown it is effective for a 3 year cycle, allowing each tree to be treated every-third year.*

- *This plan recommends removing 90 ash initially that are either in 'dead' or 'poor' condition. Three scenarios are presented for ash management beyond these initial removals. These scenarios include:*

Remove all remaining 5,049 ash

Chemically treat 2,800 ash over 12" in diameter (55.5%) & remove 2,249 ash that are 0-12" in diameter (44.5%)

Chemically treat 4,276 ash over 6" in diameter (85.0%) & remove 773 ash that are 0-6" in diameter (15.0%)

- *Wood disposal options have been thoroughly researched and it is possible to re-purpose trees boles that have been removed.*
- *Four additional employees are recommended to manage ash and address routine tree management duties.*
- *The Superintendent of Park & Forestry and Director of Public Works will be responsible for the implementation of this plan.*
- *A companion document reports on findings and recommendations of the planting site inventory that was completed in the fall of 2015.*
- *An i-Tree analysis found that trees contained within the tree inventory contribute \$3.1 million in benefits per year. These benefits include: stormwater runoff reduction, carbon dioxide reduction, energy savings, property value increase and air quality improvement.*
- *Based upon projected budgets, there will be approximately 1,250 trees removed annually for the next few years. This accounts for 'regular' tree removals as well as 750 ash removals. That quantity of removals may warrant the purchase of a log truck and an additional chipper.*

Chapter II. Tree Inventory & i-Tree Analysis Findings

The first and most important step in managing a community's urban forest resource is to conduct a tree inventory. A tree inventory is the process of counting, characterizing, and recording information about the public trees that make up the publicly owned urban forest. It is a useful tool that documents important information related to the trees.

Documentation is useful for identifying trees a community is responsible for maintaining. This information can then be used to identify areas of susceptibility (i.e. high ash component), low species diversity (species and/or age), and future planting opportunities. The information can also be used to document a risk assessment program where trees prone to failure are identified and can be preemptively dealt with. Additionally, in the case of an accident, being able to produce a risk assessment and work history log indicates the community's active role in maintaining safe trees. The ultimate goal of an inventory is to provide information essential to developing a community urban forest management plan that provides direction for urban forestry initiatives.

A simple tree inventory was provided to Bluestem Forestry Consulting Inc. for purposes of the development of this plan. Three important pieces of data were included in this inventory including: species/family, diameter at breast height (dbh) and tree condition. This data is seven years old and while helpful, is likely to be somewhat out-of-date. For example, Bluestem has found that most trees grow between 0.5-1.5" in dbh annually. It is strongly recommended that Sheboygan complete a complete re-inventory of trees located on street rights-of-way, in City Parks and other City owned properties as soon as possible. This task will cost approximately \$125,000. A re-inventory will provide more accurate data and because Sheboygan will be removing and/or treating a large number of ash beginning in 2016 it is imperative that the City know not only the current state of the ash population, but the state of all trees for the purposes of risk management and routine maintenance.

Bluestem completed a planting site inventory that located available planting sites located within city street rights-of-way. Findings and recommendations of the planting site inventory can be found in the companion document "Planting Site Inventory, Findings & Recommendations."

Species Composition and Diversity

Fifteen major tree types were identified within Sheboygan's urban forest. Three genera are over-represented. Ideally, the forest should be comprised of not more than 5% of any one species and 10% of any one genus. For illustration, maple is considered a genus and includes each different type of maple. Each type of maple such as sugar maple is considered a species. The three genera over-represented are maple, ash, and basswood/linden. Limited species distribution could result in a population crash if an insect or disease were to attack any one particular species.

Similar to Dutch elm disease which destroyed American elms in the 1970-1980's, the emerald ash borer (EAB) is fatal to ash trees. The City has 5,139 ash trees (23.2% of its public tree population), all of which are threatened by EAB. EAB planning recommendations appear in the next section of this plan.

The distribution of trees by major tree types and species is shown in following table.

TREE TYPE SUMMARY TABLE - TOP 5		
Genus	Count	Percentage of Total Population
Maple	7,921	35.8%
Ash	5,139	23.2%
Linden/Basswood	4,299	19.4%
Ornamental Tree	1,160	5.2%
Oak	616	2.8%

This table illustrates how limited tree diversity is in Sheboygan. It is imperative that many different species of trees are planted. Maple and linden should be planted in very special circumstances only. Ash should not be planted for any reason. Sheboygan does have a fair number of streets with overhead power lines and/or streets with narrow boulevards where small or medium sized trees will need to be planted. These conflicts will limit the number of large canopy trees that are planted. It is critical that whenever possible, large shade trees are planted. Do not plant medium or small sized trees where large trees will grow. Canopy provides the ecological and environmental services that improve livability within a city.

Size Distribution

To optimize the value and benefit of the urban forest, an uneven-aged population is desired to allow allocation of annual maintenance costs uniformly over many years and to assure continuity in the overall tree canopy. A desirable distribution in a community's forest is to have a high proportion of young trees to offset establishment and age related mortality, while the percentage of older trees declines with age. This "ideal", uneven distribution suggests the largest fraction of trees (40% of the total) should be young, with diameters less than 8" in DBH, while only 10% should be in the large diameter classes (>25" DBH). The following chart illustrates size distribution based upon current inventory data.

SIZE DISTRIBUTION			
<u>Existing %</u>	<u>Existing Size Classes</u>	<u>Ideal dbh*</u>	<u>Ideal %**</u>
17.8%	0-6"	0-8"	40.0%
28.7%	6-12"	9-16"	30.0%
53.5%	12"+	17-24"	20.0%
		25+"	10.0%

*diameter at breast height (4.5' above ground)
 ** based on recommendations from 2011 Minnesota Shade Tree Short Course

While it is difficult to interpret the data accurately because the size classes currently recorded are narrow and differ, it is believed that the current population is top-heavy, meaning that the large size classes are over-represented. Small size classes appear to be under-represented. The City is actively considering a large scale tree planting operation. This is strongly recommended.

i-Tree Analysis

An i-Tree analysis was completed using existing tree inventory data. The analysis concluded that public trees in Sheboygan contribute \$3.1 million in benefits annually!

i-Tree is a state-of-the-art, peer-reviewed software suite from the USDA Forest Service that provides urban forestry analysis and benefits assessment tools. The i-Tree Tools help communities of all sizes to strengthen their urban forest management and advocacy efforts by quantifying the structure of community trees and the environmental services that trees provide.

Benefits calculated include:

- **Stormwater Runoff Reduction** – Trees reduce stormwater runoff and improve water quality. Stormwater runoff reduction benefits derived from Sheboygan street trees = \$931,298.
- **Carbon Dioxide Reduction** – Trees reduce atmospheric carbon dioxide by capturing and storing carbon dioxide as they grow. Benefits = \$115,812
- **Energy Savings** – Trees save energy by reducing the demand for energy to heat and cool buildings. Benefits = \$840,140
- **Property Value Increase** – Trees improve property values and beautify our communities. Benefits = \$1.1 million.
- **Air Quality Improvement** – Trees improve air quality by trapping particulates, absorbing gaseous pollutants and releasing oxygen. Benefits = \$143,585.

i-Tree allows quantifiable dollar figures and numbers from environmental benefits to be determined from tree populations. A benefit of \$3.1 million annually is a terrific contribution to the Sheboygan community. And it need not be stated that as a community located on the shore of Lake Michigan these benefits are very important, particularly the stormwater runoff reduction.

The full analysis can be found as attachment 2.

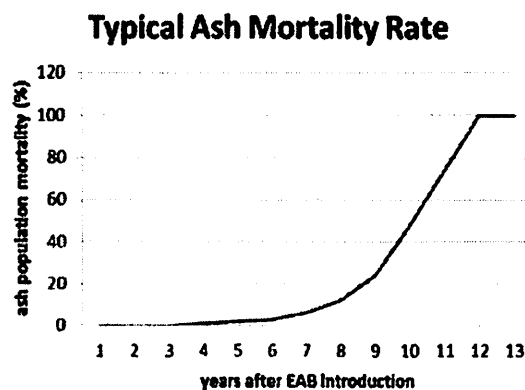

Chapter III. Emerald Ash Borer Planning

The Emerald Ash Borer (*Agrilus planipennis*) is an exotic pest native to Asia that was identified in southeastern Michigan near Detroit in the summer of 2002. The adult beetles munch on ash foliage but cause little damage. The real damage is caused by the EAB larvae that feed on the inner bark of ash trees, disrupting the tree's ability to transport water and nutrients. It is suspected that the insect was initially introduced to the United States via solid wood packing material carried in cargo ships or airplanes originating in its native Asia.

Unaided, the beetle is thought to move slowly through the landscape, approximately one mile annually, though the rate of spread varies by insect and host tree abundance. However, humans greatly accelerate the spread of the insect by moving infested nursery stock, firewood and logs to un-infested areas.

With the find of EAB in Sheboygan in March 2016, implementing management strategies will be essential in maintaining the urban forest canopy level and health. With no specific strategy or budget in place for managing EAB, Sheboygan has the opportunity to explore and select management option(s) that will provide the most economic benefit while increasing public safety.

To date, no community in North America has successfully eradicated EAB once detected. Symptoms of EAB are slow to appear, making initial infestations hard to detect. As shown in the figure below, once EAB has been found, it is usually estimated that it has been present for 3-5 years. As the insect population builds, EAB eventually infests and kills all species and varieties of ash trees in the area. It is believed that Sheboygan is at year 4-5.

One of the first questions that arise when a community is making decisions regarding EAB is whether to maintain an ash component within their public urban forest. Any untreated tree can be expected to die. The options that exist are to remove all ash, save all ash with chemical treatment or treat a portion/remove a portion. There are pros and cons to each choice:

Removing all ash from the public forest:

- | | |
|--|---|
| Pro: Costs are definitive and finite | Con: High initial cost |
| Pro: No long term chemical treatment costs | Con: A unique species is lost to the forest |
| Pro: Diverse # of species replanted | Con: Mature trees are replaced with small trees |
| | Con: Public sentiment against removal |

Save all ash thru the use of chemical treatments:

- | | |
|--|--|
| Pro: Ash remains a component of forest | Con: Long term treatment costs may be incurred |
| Pro: Public is generally supportive | Con: Potential environmental effects unknown |
| Pro: Large trees continue contributing to forest | Con: Some ash may need to be removed for other reasons |

Remove a portion of trees and treat a portion of trees:

- | | |
|---|--|
| Pro: Ash remains a native component of forest | Con: Long term treatment costs may be incurred |
| Pro: Reduces high initial removal costs | Con: Public disapproval of decision criteria |
| Pro: Only trees in good condition retained | |

The City of Sheboygan's most reasonable approach is to preserve a portion of ash trees and remove a portion. The following chart depicts three scenarios that were developed for the City based on interviews with staff. It was determined that 90 ash trees should be removed from the population because they represent a too-high risk based upon current condition.

An i-Tree analysis was completed on ash alone to highlight the good work public ash do in the community. They provide \$631,294 in benefits annually. This graphic can be found as attachment 3.

Scenario #1: REMOVE ALL ASH				
<i>Trees to be removed: 5049</i>				
DBH	# of Trees	Days per crew to remove/4 person crew	Cost of treatment for one cycle (every 3rd year)	Days per crew to treat or grind/2 person crew
0-6	773	64 days per crew	\$0	
6-12	1476	246 days per crew	\$0	
12+	2800	933 days per crew	\$0	
Stump Grind	5049	n/a	n/a	504 days per crew

TOTAL STAFF-DAYS REQUIRED: 5,980

TOTAL CHEMICAL COST: \$0

Scenario #2 (SAVE ASH >12")				
<i>Trees to be removed: 2,249</i>				
<i>Trees to be preserved: 2,800</i>				
DBH	# of Trees	Days per crew to remove/4 person crew	Cost of treatment for one cycle (every 3rd year)	Days per crew to treat or grind/2 person crew
0-6	773	64 days per crew	\$0	
6-12	1476	246 days per crew	\$0	
12+	2800	n/a	\$37,800*	80 days per crew
Stump Grind	2249	n/a	n/a	224 days per crew

TOTAL STAFF-DAYS REQUIRED: 1,848

TOTAL CHEMICAL COST: \$37,800**

Scenario #3 (SAVE ASH >6")				
<i>Trees to be removed: 773</i>				
<i>Trees to be preserved: 4,276</i>				
DBH	# of Trees	Days per crew to remove/4 person crew	Cost of treatment for one cycle (every 3rd year)	Days per crew to treat or grind/2 person crew
0-6	773	64 days per crew	\$0	
6-12	1476	n/a	\$33,210*	42 days per crew
12+	2800	n/a	\$37,800*	80 days per crew
Stump Grind	773	n/a	n/a	77 days per crew

TOTAL STAFF-DAYS REQUIRED: 654

TOTAL CHEMICAL COST: \$71,010**

*this will be an annual cost of chemicals (emmemectin benzoate) to treat each tree every third year

**cost of equipment for injecting is \$1,700

For the purposes of this plan, scenario two was chosen as the best option. The reasons for removal and treatment are based upon common sense and reasonable expectations.

Remove the 90 ash trees identified as 'dead' or 'poor' in the inventory. The most logical method to reduce ash volume initially is to remove ash trees identified through the inventory as in need of removal. The trees on this list have a significant defect that presents a high risk. Any tree, which has the potential to entirely or partially fail and impact a target, can be considered a higher risk. A target can be a person, vehicle, building or any place where people gather (Source: Urban Tree Risk Management Guide, USDA Forest Service: www.na.fs.fed/us/spfo/pubs/uf/utrmm). There are 90 ash in this condition and they are being removed as a part of the risk tree removal.

Remove and replace small diameter ash trees. According to current research, chemical treatments to preserve ash will need to continue for the lifespan of the tree. When treatment stops, the tree begins to die. Smaller diameter trees are typically not worth preserving for a variety of reasons.

- They may require treatments for many decades
- They contribute less overall benefits than large diameter trees
- Removal with immediate replanting results in less impact than would removing a very large tree

For these reasons, removal of small diameter ash (1-12") are recommended for removal and replanting. There are 2,249 ash (44.5%) of this size in Sheboygan. These should be scheduled for removal and replanting over the course of three years beginning in 2016. Presently, this plan recommends removing 1/3 of the recommended ash removals each year for the next three years. If the insect appears to be moving more quickly than this, the removal schedule may need to be accelerated.

Chemically treat all other ash. After removals, 2,800 public ash (55.5%) will remain in the population. These trees are larger diameter (≥ 12 ") ash. These are the trees that should be targeted for preservation. Treatment should be started immediately with treatment of 1/3 of the population each year beginning in 2016. Again, this plan recommends treating 1/3 of the recommended ash treatments each year for the next three years. If the insect appears to be moving more quickly than this, the treatment schedule may need to be accelerated.

The most common treatment, TREE-äge (emamectin benzoate) is injected. This trunk injected insecticide is recommended by the manufacturer for treatment every-other year, but research has shown it is effective for every-third year application. They can only be applied by a certified applicator, but are extremely effective for larger diameter trees. Procedures for application including rate and timing must be followed closely.

When considering insecticide control options, some of the highlights are:

- Research has shown that insecticides can effectively and consistently protect even large trees from EAB, even under intense pest pressure.
- Recent economic analyses have concluded that treating landscape ash trees with effective systemic insecticides is much less costly than removing trees.
- An effective insecticide may stop additional damage, but it cannot reverse damage that has already occurred. Therefore, the best control can be achieved when insecticide treatments are started before the tree is infested or in the earliest stages of infestation before visible symptoms are present.

Treatments are meant to be evaluated after each treatment cycle (2 years). A treatment program is not envisioned to last 30 or even 20 years. It is meant to provide a more gradual transition towards the disappearance of ash in Sheboygan public spaces.

Insecticide treatment options information can be found at:
http://www.emeraldashborer.info/files/multistate_eab_insecticide_fact_sheet.pdf.

EAB Regulations for Quarantined Areas

In order to prevent further spread of EAB through artificial (human assisted) means, the following materials are regulated in quarantined areas:

- Ash trees, limbs, branches, and roots
- Ash logs, slabs, or untreated ash lumber with bark attached
- Cut firewood of all non-coniferous species
- Ash chips and ash bark fragments larger than one inch in two dimensions
- Mixed wood residue that may contain ash
- Any wood items which could harbor living EAB eggs, larvae, or adults and thus transmit an infestation.

USDA- APHIS will primarily regulate interstate movement of regulated materials. DATCP will regulate intrastate movement of regulated materials. In addition, DNR Conservation Wardens have the authority to issue citations for quarantine violations through NR40 (Wisconsin's Invasive Species Identification, Classification and Control Rule). While movement of regulated material anywhere within a quarantine area is legal, caution should be placed on the movement of material across large expanses of the quarantine to limit any further spread of EAB. Quarantines will primarily affect nurseries, firewood dealers and users, and mills. DATCP will work with affected industries and communities to minimize the impacts. Compliance agreements are the most common tool used to allow industries to conduct business and move affected material while protecting areas of the state not yet affected by EAB. Compliance agreements allow for the movement of regulated material from quarantined areas to non-quarantined areas from October 1 to March 31 and require all material to be processed according to legal specifications by April 30. Under this treatment schedule, all life stages would be destroyed prior to adult emergence. The dates are determined based on the life cycle of EAB. EAB is in its larval stage under the bark of the trees from approximately October 1 to May 1, thus when transporting material during this time spread is minimized. However, due to EAB typically emerging from the trees in its adult "flight" stage between May 1 and September 30, no untreated material can be moved outside quarantine areas during this summer period. For a more extensive look at both federal and state summaries please refer to <https://datcpservices.wisconsin.gov/eab/index.jsp> or contact DATCP officials for further

Wood Utilization Options

The City of Sheboygan currently makes chips available for resident use and delivers boles suitable for firewood to a local vendor. The current vendor does not have capacity for additional wood waste. Several options were researched and it will be possible to dispose of wood waste in an environmentally sound and constructive method.

The two promising methods of wood waste disposal include:

Kettle Moraine Hardwoods - <http://www.kmhardwoods.com/> This company currently works with the City of Milwaukee and receives tree wood waste. They will accept all boles in any size, but will not accept brush or stumps. The model developed by KM Hardwoods and Milwaukee should work well in Sheboygan. KM Hardwoods has large dump containers delivered to Sheboygan and the City fills these. As filled, they can be delivered to KM Hardwoods and replaced with empty containers. The only cost incurred by Sheboygan is the cost to transport the containers. This method could be used to dispose of private wood waste as well. Contact

Bob Wesp at 414-520-9378 to further discuss this opportunity. The cost per container is estimated to be between \$300-\$400 each.

Hoppe Tree Service - <http://hoppetreeservice.com/urbanwoodlab/> Hoppe Tree Service uses urban wood in fine furniture and other unique applications. They are interested in obtaining wood from Sheboygan, but are unable to accept larger quantities. This is a very innovative project and is repurposing wood in this manner is well - received by the public. Contact August Hoppe for additional information at 414-257-2111.

Other Insects for Consideration

Asian Longhorned Beetle (ALB)

ALB is an invasive insect originally from China that has become a serious problem to trees in certain parts of the United States. The beetle's larvae creates tunnels by girdling stems and branches on trees. The insect has been reported to have entered the United States via wood packing materials originating from China.

Although ALB seems to prefer maple species (*Acer* spp.) in the United States, it has also been found in horsechestnut/buckeye species (*Aesculus* spp.), alder species (*Alnus* spp.), birch species (*Betula* spp.), poplar species (*Populus* spp.), willow species (*Salix* spp.), and elm species (*Ulmus* spp.). This list is not conclusive since a complete list of host trees in the U.S. has not been determined.

The adult beetles are persistent from July to October, but can be found later in the fall if temperatures remain warm. After adults emerge from their larvae tunnels, they bore another tunnel through wood, creating a round exit hole in the tree bark. Adults generally remain on or around the trees they originated from, only traveling short distances to feed and reproduce.

At present ALB has not been found in Wisconsin. For more information on the identification and management of ALB please refer to <http://asianlonghornedbeetle.com/>.

Other Diseases for Consideration

Oak Wilt (OW)

The disease is caused by the fungi *Ceratocystis fagacearum*, which attacks the water-conducting (vascular) system of trees. A tree responds by blocking its vascular system to contain the disease and, in doing so, cuts off the water supply to its leaves.

Oak wilt can be spread by insects that carry the pathogen on their bodies from an infected tree to an uninfected tree. It also spreads via the vascular system of grafted roots of adjacent trees. If the disease is allowed to progress, it will spread to healthy oaks that are connected by the roots (root grafts) to the diseased trees. In forested areas where oak is common and root grafting is widespread, an ever-widening pocket of dead oaks will form. Where oak is mixed with other species and is a minor part of the forest, oak wilt will spread slower and may actually stop where roots are not grafted. New pockets of dead oak may also be formed by sap-feeding beetles spreading oak wilt above ground.

In urban areas oak trees are most easily infected by overland spread in the springtime, from bud swelling until two to three weeks past full leaf development. The Wisconsin Department of Natural Resources recommends that you avoid pruning, cutting, or wounding oak trees April through July (April, May, June, and July) in urban areas. Observations and unpublished research have shown that overland infection can occur after July, yet these mid-summer through early fall infections are not common. To take a very cautious approach, do not prune

or otherwise wound oaks from April to October. In some years, spring comes much earlier. If daytime temperatures begin to reach the 50-degree mark, stop pruning oak at that time, even if it is still the middle of March.

The first signs of OW occurs when leaves in the upper crown turn a dull green, bronze, or tan beginning at the leaf margin. Soon after, the leaves will drop off with various degrees of discoloration. Brown streaks develop in the new sapwood. Trees in the red oak group are not known to recover once infected. The white oak group varies in species resistance to OW, but they usually die slowly over a period of several years.

Chapter IV. Staffing, Equipment & Budgets

Sheboygan has the benefit of some quality equipment for tree work. They are able to use a loader, tandem trucks, 2 bucket trucks, chippers, stump grinders and a variety of saws and safety gear. The only significant piece of forestry equipment lacking is a log truck or similar. Based upon projected budgets, there will be approximately 1,250 trees removed annually for the next few years. This accounts for 'regular' tree removals as well as 750 ash removals. That quantity of removals may warrant the purchase of a log truck and an additional chipper. Work will need to be very efficient to stay on schedule and these pieces of equipment will assure that occurs.

The two biggest hurdles Sheboygan faces is budgeting and staffing. A schedule of activities can be found as attachment 1. It details activities, cost and staff time for activities for the next five years. Following this schedule will get Sheboygan through the worst of the EAB crisis and start them down the path of routine maintenance. The schedule illustrates how under-staffed and under-budgeted the existing forestry program is to deal with large numbers of ash removals as well as treating the remaining ash.

A summary of the activities is:

Activities to be Completed in 2016.

Complete removals that are 'dead' and 'poor' ash (90 trees)
Routine tree removals (1.5% of population annually) (500 trees)
Pruning 1/8 of population annually (2,750 trees)
Tree Planting (500 trees)
Remove ash trees (750 trees) (1/3 of projected removals)
Treat ash for preservation (930 trees) (1/3 of projected)
Stump grinding (1,400 stumps)
Staff training

TOTAL STAFF DAYS - 7 FTE

ADDITIONAL CONTRACT & CHEMICAL COST - \$190,300

Activities to be Completed in 2017.

Routine tree removals (1.5% of population annually) (500 trees)
Pruning 1/8 of population annually (2,750 trees)
Tree Planting (500 trees)
Remove ash trees (750 trees) (1/3 of projected removals)
Treat ash for preservation (930 trees) (1/3 of projected)
Stump grinding (1,400 stumps)

Staff training

TOTAL STAFF DAYS - 6.5 FTE

ADDITIONAL CONTRACT & CHEMICAL COST - \$190,300

Activities to be Completed in 2018

Routine tree removals (1.5% of population annually) (500 trees)

Pruning 1/8 of population annually (2,750 trees)

Tree Planting (500 trees)

Remove ash trees (750 trees) (1/3 of projected removals)

Treat ash for preservation (930 trees) (1/3 of projected)

Stump grinding (1,400 stumps)

Staff training

TOTAL STAFF DAYS - 6.5 FTE

ADDITIONAL CONTRACT & CHEMICAL COST - \$190,300

Activities to be completed in 2019 & annually thereafter

Routine tree removals (1.5% of population annually) (500 trees)

Pruning 1/8 of population annually (2,750 trees)

Tree Planting (500 trees)

Training prune on newly planted trees (500 trees)

Treat ash for preservation (930 trees) (1/3 of projected)

Stump grinding (1,400 stumps)

Staff training

TOTAL STAFF DAYS - 5.0 FTE

ADDITIONAL CONTRACT & CHEMICAL COST - \$87,300

The department currently has four full-time employees (FTE). This will need to be increased by three *additional* FTE to help Sheboygan tackle the EAB crisis. Additionally, it is strongly recommended that a dedicated City Forester be hired. The current Superintendent of Parks and Forestry is doing an excellent job, however, when ash related activities begin he will be unable to complete both forestry and parks duties. It is recommended that a 'working' forester be hired. This should be an individual who can both work with the crew and manage forestry activities.

Likewise, the costs above represent *additional* costs to the program. The current funding must be maintained and increased by the numbers above. As EAB marches across the nation and state, communities are finding

they are simply unprepared to deal with a tree pest of this magnitude. Not unlike Dutch elm disease in the 1970's and 1980's, EAB does represent a crisis that must be managed quickly to ensure the safety of residents in Sheboygan.

Due to the large number of trees being removed and pruned, staff should receive training immediately on proper pruning and tree felling techniques. Each year, staff should receive training on some facet of tree care to continually expand their capabilities. A figure has been included in the budget for this. Staff will be completing most work in-house and training is critical for proper safety and tree care. Some trees may need to be contracted out to a qualified tree care firm if they are unsafe for staff to complete.

Chapter V. Urban Forestry Goals

This plan was the first step towards establishing a defined, efficient forestry program to maximize benefits and minimize costs for the City of Sheboygan. The next step is to identify goals and begin the process of implementation. The primary goals and objectives that have been identified to establish a management program in order of priority are:

GOAL 1: ELIMINATE HIGH RISK SITUATIONS.

- Remove high-risk trees.
- Prune high risk branches.
- Remove and manage EAB/ash trees

GOAL 2: ESTABLISH A ROUTINE, COMPREHENSIVE URBAN FORESTRY PROGRAM FOR A HEALTHY FOREST

- Perform yearly tree inspections/Evaluate risk management program.
- Perform training prunes.
- Perform routine pruning and removals.
- Plant high quality trees with low maintenance requirements.

GOAL 1: Eliminate high-risk situations.

The first and foremost objective of any municipality entrusted with the responsibility of an urban forest is the safety of its residents and visitors. Until a safe environment has been attained, no other objectives can be tackled. The following is a prioritized list of actions that need to be taken to eliminate the high-risk situations identified during the inventory:

Remove High Risk Trees

Tree removals are an integral part of a sound forest management program. Removals are as necessary to the urban forest's life cycle as are tree plantings and maintenance. Removals do, at times, stimulate a public reaction because people grow attached to the trees in the vicinity of their homes. Nevertheless, a successful urban forestry program demands that a removal policy be adopted and applied uniformly throughout the City. A clear policy provides coherent guidelines to enable City officials and crews to make informed, defensible, consistent removal decisions. Furthermore, such a policy can help allay public concerns about tree removals. The City's potential losses from liability claims are also reduced due to healthier and lower risk trees.

The goal of a removal plan is to develop a comprehensive risk reduction program that will guarantee the timely removal of high risk or potentially high risk trees as well as to heighten awareness of hazard abatement procedures.

There are three important reasons for establishing a strong removal policy. The first is to maintain safe public areas by reducing potentially high-risk trees and the liability associated with them. Secondly, the removal of dead and declining trees allows the urban forest manager to make room for new, diverse plantings which in turn increases the overall health of the community forest. Thirdly, it is more cost effective to maintain healthy trees rather than decadent, senescing, over mature trees.

In Wisconsin, municipal governments have a legal duty to exercise reasonable care to protect the general public from foreseeable hazards. To minimize the liability associated with trees in high use areas, such as urban streets and parks, land managers must demonstrate reasonable care in maintaining these trees. Political pressure, inadequate time, untrained staff and inadequate funding are not valid reasons for inaction and may potentially leave the City liable should there be no designated risk tree removal program showing the effort to reduce the number of these trees.

Based on the inventory data, Bluestem estimates that 90 trees should be immediately removed from the existing tree population. The City routinely removes approximately 500 trees per year (1.5% of the total population) that become unsafe or are an obstruction in some way. Additional removals are recommended due to EAB, causing the total number of removals recommended in 2016 to be around 1,400 trees. This plan recommends removing 1/3 of the recommended ash removals each year for the next three years. If the insect appears to be moving more quickly than this, the removal schedule may need to be accelerated.

Several factors can assist with prioritizing tree removals and management:

1. Utilize the Risk Management Guide (attachment 4). This guide is a step-by-step system for evaluating risk within the population. This guide was utilized during the inventory fieldwork and is a good guide for the City to use for day-to-day duties. For example, several steps are listed for tree evaluation. One step is to 'Identify Problematic Conditions'. The inventory identified a condition rating for each tree inventoried. Poor and dead trees need to be prioritized for removal. Other steps include identifying problematic species, diameters and defects. Some problematic species include willow and boxelder. These trees are typically weak wooded and tend to fail more often than other species such as oak. Problematic diameters include larger diameter trees. A 2" dbh dead tree poses minimal risk, while a 30" dead or very poor condition tree poses a very high risk. Target and location are also important factors to consider when prioritizing removals. Playgrounds and busy streets where pedestrians and vehicles frequent should receive higher priority than streets with wooded/naturalized rights-of-way. The combination of these factors should be used to determine the order in which trees need to be removed.

2. Prioritizing Funding. The safety risk of failing trees cannot be over-stressed. Staff time and funding needs to be prioritized to maximize public safety and reduce tree-related liability. The frequency of other non-safety tasks should be reduced so that staff can dedicate more time to pruning and removals? Will a reduced mowing schedule endanger residents? Will a 32" silver maple with a trunk cavity endanger residents? Again, a complete tree re-inventory is recommended. A new inventory should include much more specific information that will help Sheboygan determine risk more accurately.

A "high risk" is any tree or tree part that demonstrates a high risk of failure or fractures which would result in damage or injury to people or property. Usually, high-risk trees demonstrate visible defects.

There are two distinct aspects to the definition of a high risk tree: 1) a physical defect within a tree that increases its potential for failure, and 2) the proximity of the tree to people or property that increases the likelihood of personal injury or property damage. A decaying tree in the middle of the Chequamegon National Forest may have a potential for failure, but the chance that tree will cause personal injury is remote. However, that same tree located at a park in Sheboygan, should be considered a high risk because of its urban location.

One task of the urban forest manager is to anticipate tree failures before they occur. There are no absolutes in determining risks - only sound judgment based on experience at recognizing structurally unsound trees.

The number of trees marked for removal within a given year further describes a forest system's health, although in some instances trees need to be removed for reasons unrelated to health. The objective is to eventually have no City trees with a condition rating lower than fair.

The risk assessment that Sheboygan should use to evaluate trees was created by the International Society of Arboriculture. It is titled A Photographic Guide to the Evaluation of Hazard Trees in Urban Areas, 2nd Edition by Nelda Matheny and James R. Clark. This can be purchased for \$45.00 at 1-888-472-8733. Additional resources include the US Forest Service's "Urban Tree Risk Management" guide. This is available at no charge from the WI DNR regional urban forester.

When a tree has been identified for removal or priority pruning, it may indicate an underlying deficiency. For this reason, all trees scheduled for removal need to receive a thorough inspection twice a year (once with the leaves on and once without the leaves) until the tree has been removed or the hazard has been eliminated.

City policy should require tree pruning and removal in accordance with national industry standards. Standards-based specifications are commonly used when municipalities hire a contractor or purchase materials, but should also be applied to all work completed by staff. Industry standards and specifications include current editions of:

~ American National Standard for Safety in Tree Care Operations, ANSI Z133 (current revision). Can be purchased at: http://www.treecareindustry.org/public/gov_standards_z133.htm

~ American National Standard for Tree Care Operations - Tree, Shrub and Other Woody Plant Maintenance - Standard Practices, ANSI A300 (current revision). Can be purchased at: <http://www.tcia.org/standards/A300.htm>

A notification procedure should be enacted to alert nearby residents of the impending removal. Not only does this alert them to the high risk situation, it helps residents feel involved in the decision and gives them time to adjust to the loss of the adjacent tree. The tree can be "marked" and give the nearby homeowner written notification explaining why the tree is being removed, how the removal will be performed, when the removal will begin and if replanting will occur. Include a phone number to be contacted for any additional questions or concerns. By performing this pre-emptive task the City will find better compliance, cooperation and support from residents regarding the City's forestry program activities. Ordinances are currently undergoing revisions and will likely include a notification procedure.

Prune High-risk Branches

Often a tree may need to have a high risk branch pruned. These may be trees with obvious risks such as branch cavities, hangers or significantly sized deadwood. These trees should be pruned immediately as they present a great danger. The inventory did not identify trees with this need, but often residents will phone in a problem or the crew will note the problem as they travel throughout the community.

Manage Ash Population

Ash management strategies are a very large concern in Sheboygan. Please see Chapter III for a detailed discussion of these recommendations.

GOAL 2: Establish a routine, comprehensive urban forestry program for a healthy forest.

Systematic maintenance of existing trees is important for three reasons: safety, cost savings and aesthetics. Maintained trees have a greater lifespan and provide greater canopy benefits than trees that are not maintained. Proper maintenance can also reduce removal and replanting costs. With limited budgets and time, it is necessary to prioritize actions. High-risk tree situations should always be eliminated first (Goal 1) and then routine maintenance should proceed. The following routine objectives are listed from highest to lowest priority.

Perform Yearly Tree Inspections & Evaluate the Risk Management Program

It is important that *all* of the street and park trees in the City get a yearly inspection. Trees that have been identified during the inventory as needing immediate action should receive an inspection at least *twice* yearly. Complete this inspection once with leaf cover and once without until the hazard has been eliminated or the situation resolved. Additionally, all large diameter trees need an extra inspection after storms. If any hazards are identified, the situations need to be corrected immediately, and then continue with the list of routine maintenance.

It is important that an ISA Certified Arborist complete all tree inspections (greater than 6" in diameter).

Seven factors should be considered when evaluating trees:

Factor	Considerations
Crown Development	Characteristic of species and well balanced Branching throughout entire upper 2/3 of trunk area Lacking full crown
Trunk	One central leader is desired No defects Missing sections of bark Extensive decay or hollow
Major branch structure	Evenly distributed braches Structurally important branches not dead or broken
Twig growth rate	Typical for species and age Growth rate reduced
Foliage	Normal size and color Small leaves with deficiencies
Insects & Disease	No apparent problems Severe infestation
Roots	Extensive root loss Stem girdling roots present Trunk flare present indicating proper planting depth

An excellent resource guide is "How to Recognize Hazardous Defects in Trees" published by the USDA Forest Service (Guide # NA-FR-01-96). This can be found at:
http://www.na.fs.fed.us/spfo/pubs/howtos/ht_haz/ht_haz.htm

To reduce high-risk situations within Sheboygan, a qualified forester/ISA Certified Arborist should evaluate the risk management program annually. The evaluation can be accomplished by following the Risk Management Guide (Attachment 4). This inventory and management plan represents the first comprehensive inventory but is not a substitute for a hazard tree evaluation. This management plan is the first phase of the risk management program.

Perform Training Prunes

Training pruning is the structural pruning of all trees 10 years of age or younger. Some benefits of training pruning include:

- *Pruning 2-3 times in the first ten years of a tree's life will reduce 90% of the structural problems the tree will ever have.*
- *This is the easiest pruning to perform due to the small size of the trees.*
- *Increased safety to both the tree and public due to elimination of sight obstructing branches and less branch breakage from car/truck strikes.*
- *Training pruning is the most cost effective pruning because it reduces long-term routine pruning costs.*
- *It is the most economical pruning because an in-house crew can complete it quickly and efficiently.*

Trees that are structurally pruned at this stage require much less care as they mature. It is not necessary that they be pruned every year but an every-third year pruning is a good objective. This results in cost savings and still adequately prunes the tree. Staff can complete this task. All of the training prunes can be completed in-house until they are unable to be reached from the ground or are older than 10 years planted, and then they will be scheduled for routine pruning.

Perform Routine Pruning & Removals

One of the most beneficial and noticeable activities performed in the urban forest is routine pruning. Routine pruning is the cycle of pruning all trees on a rotating basis. Once all of the safety issues have been addressed, all trees 10 years of age or over (approximately 6" or over) need to be placed on a routine pruning cycle. Some benefits of routine pruning include:

- Increased health and viability of trees.
- Fewer tree mortalities and fewer structural deficiencies.
- Reduced liability from potential tree-related injuries or damages to property.
- Increased property values.
- Enhanced aesthetic value.
- Fewer complaints/requests.
- Increased longevity of tree.
- Reduced future costs associated with hazardous limbs and decay.
- Improved cost effectiveness of tree maintenance reducing the need for on-demand pruning and associated staff overtime.

Once risk issues have been resolved and ash management is under way, a feasible routine pruning cycle needs to be established. Industry guidelines are to prune each tree over 6" dbh once every 5-8 years. An eight year cycle is recommended for Sheboygan. Essentially, the City can be broken into eight zones and a different zone has work completed in a particular year. Taking into consideration Sheboygan's current level of stocking, the above mentioned routine pruning cycle of seven years will result in approximately 2,750 trees pruned annually.

Completing one cycle, combined with increased emphasis on training prunes, should greatly reduce the cost and time associated with future routine pruning. If a tree is pruned properly and is on a routine pruning cycle, no limb over 4" in diameter should need to be removed. The best time of year to prune is when the leaves are off the trees. If pruning does occur while the trees have their leaves on, it should be after the leaves have fully expanded and not when they are in the process of forming. Pruning should also be avoided when the leaves are turning colors in the fall and in the process of dropping. All American elms and oaks should be pruned during dormancy.

Another facet of routine maintenance includes 'routine' tree removals. Any given City can expect approximately 1-2% of trees will need to be removed per year due to high-risk situations that develop naturally as the tree population matures. This is in addition to the initial safety removals. In Sheboygan this estimates a total of 500 removals per year. This has also been figured into the schedule of activities that can be found as attachment 1.

Plant high quality trees with low maintenance needs

A planting site inventory was completed in the fall of 2015 and a companion planting document has been produced. Please refer to that document for specific information, but it is important to diversify the urban forest as much as possible. Every effort should be made to continue diversification. Planting many different species and varieties keeps the urban forest healthy and attractive. Ideally, no more than 5% of any one species and 10% of any one genus should comprise the City's trees. It is recommended at present and into the future (next 10 years) that planting of maples should not occur or be very limited due to this genus representing a quarter of the current public tree population.

Many excellent tree planting resources can be found online. A newer publication developed by the WI DNR division of forestry can be found at dnr.wi.gov/forestry/publications/newtreeplanting.pdf. Some planting techniques to utilize include:

All plant quality should follow the American National Standard for Nursery Stock; ANSI Z60 (current revision) should be used when purchasing plant material. Can be found at: http://www.isa-arbor.com/education/onlineResources/cad/resources/educ_CAD_DevelopingPlantingSpecifications.pdf

2019 & Recurring Activities

Activity	# of Trees	Contract Cost or Staff Hours Required	Misc. Comments
Tree Removals - Annual (1.5% of population)	500	100 days for a 4 person crew	crew averages 5 daily
Pruning (1/8 of population annually)	2,750	110 days for a 3 person crew	crew averages 25 daily
Tree Planting	500	20 days for a 4 person crew in-house; contract cost is approximately \$100/tree = \$50,000	contract growing is strongly encouraged; crew averages 25 daily
EAB Activities	n/a	treat 930 trees annually = \$37,800 & 26 days (2 person)	continue treating 1/3 of remaining ash annually
Training	n/a	\$2,500	Check WAA Fall Conference for potential training opportunities
Stump Grinding	500	50 days for 2 person crew	crew averages 10 daily
Training Prunes	500	20 days for single crew person	person averages 25 daily

TOTAL STAFF HOURS	982 days (5.0 FTE)
TOTAL CONTRACT & CHEMICAL COST	\$87,800

ATTACHMENT 2:

i-Tree Analysis for ALL Trees

City of Sheboygan

Street Tree Benefits

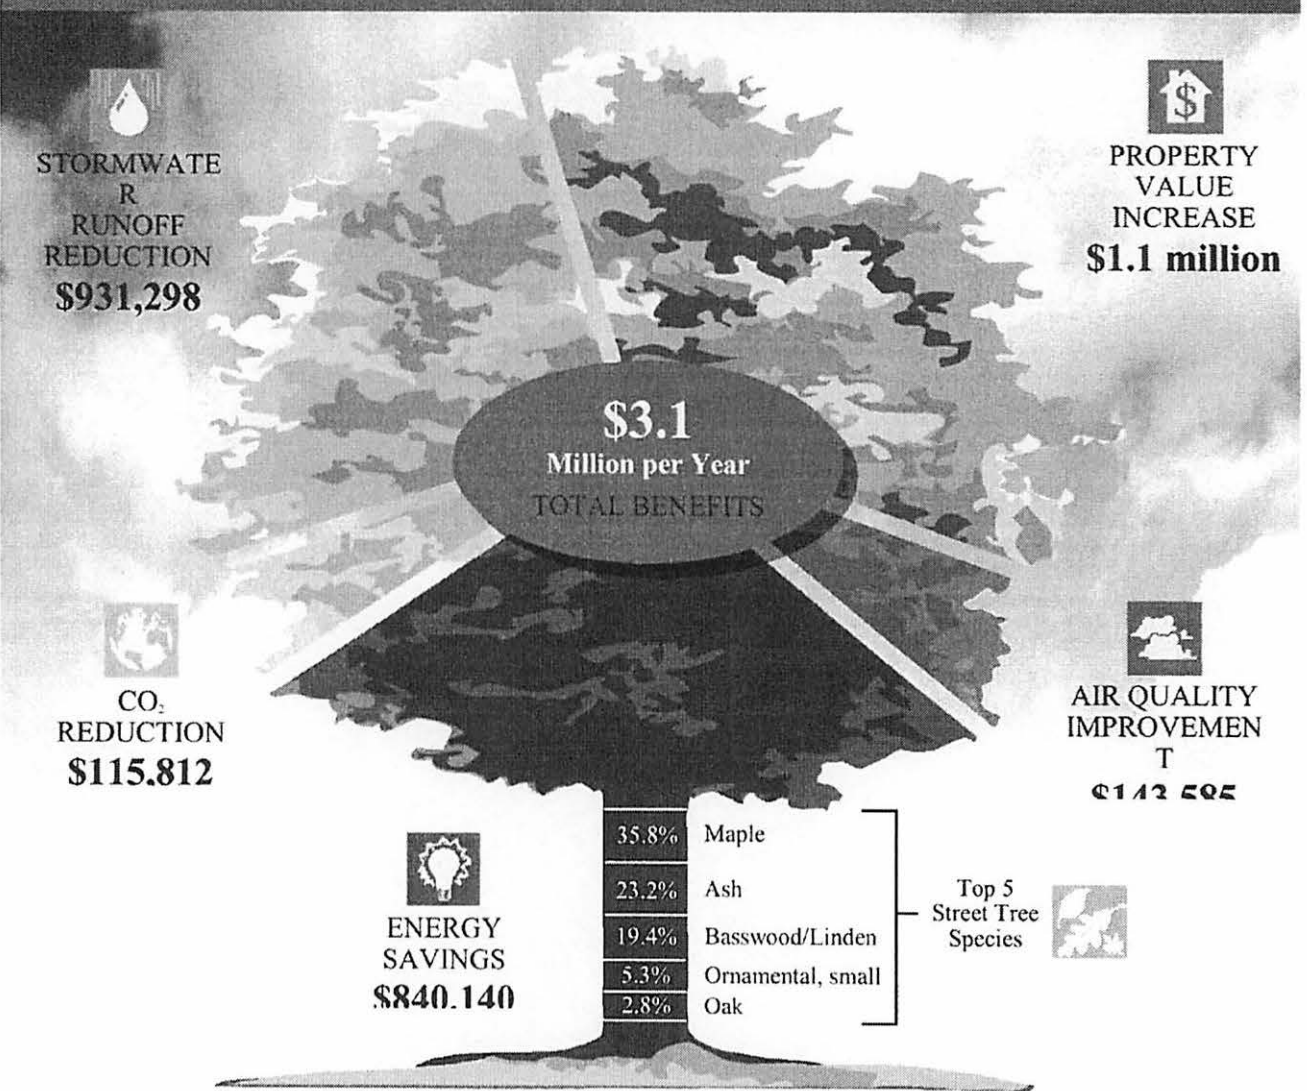

Sheboygan street trees provide millions of dollars of environmental, economic and aesthetic benefits to the community. Over their lifetime, street tree benefits exceed the costs of planting and care, representing a 300 percent return on investment. Tree benefits increase over time highlighting the importance of not only planting trees, but of providing ongoing maintenance and protection. These benefits are a reminder of the worthwhile investment in our community forestry program.

Trees:

- Reduce stormwater runoff
- Lower summer air temperatures
- Reduce air pollution
- Reduce heating and cooling costs
- Reduce atmospheric carbon dioxide (CO₂)
- Enhance property values
- Provide wildlife habitat
- Improve health and wellbeing
- Improve learning and concentration
- Provide aesthetic benefits

Annually, Sheboygan public street trees provide!...

Trees Reduce Stormwater Runoff and Improve Water Quality

Trees reduce peak stormwater runoff and associated pollutants entering local water bodies. Trees reduce stormwater volumes by intercepting a portion of rainfall, which evaporates and never reaches the ground. Tree roots also increase rainfall infiltration and storage in the soil. And tree canopies reduce soil erosion by diminishing the impact of raindrops on barren surfaces.

Street trees in Sheboygan intercept 34,365,249 gallons of water annually for a savings of \$931,298.

Trees Reduce Atmospheric Carbon Dioxide

Trees reduce atmospheric carbon by capturing and storing CO₂ as they grow. By reducing demand for heating and cooling, trees indirectly reduce CO₂ by avoiding power plant emissions associated with energy production.

Street trees in Sheboygan capture 9,485,113 tons of atmospheric CO₂ per year. Annual savings including indirect costs are \$115,812. Street trees also store approximately 97,236,186 tons of atmospheric CO₂ for a total savings of \$729,271.

Trees Improve Air Quality

Trees improve air quality by trapping particulates, absorbing gaseous pollutants, and releasing oxygen. By cooling urban heat islands and shading parked cars, trees indirectly reduce ozone levels. The Environmental Protection Agency recognizes tree planting as an ozone reduction measure in state implementation plans.

Street trees in Sheboygan remove 3,195 lbs. of particulate matter, 6,538 lbs. of ozone, 295 lbs. of sulfur dioxide and 1,110 lbs. of nitrogen oxides annually. Total annual savings including indirect costs are \$143,585.

¹Analysis was conducted using iTree Streets. iTree Streets is a street tree management and analysis tool for urban forest managers that uses tree inventory data to quantify the dollar value of annual environmental and aesthetic benefits. The iTree Suite is a free state-of-the-art peer reviewed software suite from the USDA Forest Service. www.itreetool.org. Tree graphic concept courtesy of City of New York Department of Parks & Recreation.

Trees Save Energy

Trees reduce the demand for energy to heat and cool buildings by providing shade, lowering summertime temperatures, and reducing windspeeds. Secondary benefits are reduced water consumption and pollutants emissions by local power plants.

Street trees in Sheboygan save approximately 3,853 MWH of electricity and 558,835 Therms of natural gas annually for a savings of \$840,140.

Trees Improve Property Values and Beautify Our Communities

Trees are the single strongest positive influence on scenic quality in our community! They increase the attractiveness of retail business areas. Studies found shoppers are willing to pay up to 11% more for goods and services in a well-landscaped business district. Trees increase property values. People will pay 3-7% more for properties with many trees. Trees foster safer and more sociable neighborhoods. Views of trees ease mental fatigue and stress, help concentration, reduce sickness, and provide settings for recreation and relaxation. Trees also help reduce noise, provide a refuge for wildlife, and help connect residents with their natural environment.

Street trees in Sheboygan increase property values annually by \$1,075,514.

Diversity Improves Urban Forest Resilience

A diverse palette of trees helps guard against catastrophic loss to insects and diseases or environmental stresses. A general guideline for urban forest diversity is no more than 5% of any one species, 10% of any one genus.

Maple, ash and linden trees are over-represented on Sheboygan streets. This jeopardizes \$2,679,817 of the city's urban forest's benefits from pests such as emerald ash borer (EAB) and Asian longhorned beetle (ALB). Enlist the public to help increase Sheboygan forest resilience by planting less common trees on their own property.

ATTACHMENT 4:
Risk Management Guide

RISK MANAGEMENT

Risk: is the potential for suffering harm or loss

Risk Management: is the ability to minimize the potential for harm or loss from occurring by implementing a sound risk reduction strategy.

Types of Risk

- Financial
- Physical harm

A Risk-Reduction Strategy for Trees

- Evaluate the natural resource being managed
- Evaluate the resources available to you (fiscal, staff, equipment, etc.)
- Develop a policy statement
- Develop an action plan
- Periodic review of all four components

EVALUATE THE NATURAL RESOURCES BEING MANAGED

Evaluate the Entire Population

An understanding of the entire population allows you to identify the key problem areas within the population.

- Species distribution
- Diameter distribution
- Condition distribution
- Defects
- Locations and targets

Identify Problematic Species

Identify the species that, based on your knowledge and experience, pose the greatest physical threat.

- High history of failure
- High storm damage potential
- Prone to high-risk structural defects

Identify Problematic Diameters

Identify the diameters that, based on your knowledge and experience, pose the greatest problem in your population.

- Large diameter trees

Identify Problematic Conditions

Identify the conditions that, based on your knowledge and experience, pose the greatest problem in your population.

- Very poor trees
- Poor trees

Identify Problematic Defects

Identify the defects that, based on your knowledge and experience, pose the greatest problem in your population.

- Basal decay and cavities
- Major dieback
- Poor branch attachments

Identify Locations and Targets

Identify the locations and targets that, based on your knowledge and experience, pose the greatest physical threat in your population.

- Busy streets
- Playground areas

EVALUATE THE RESOURCES AVAILABLE TO MANAGE

Staffing

- Number
- Training
- Work load

Equipment

- Diagnostic
- Capabilities/limitations
- Availability

Fiscal

CREATE A TREE RISK MANAGEMENT POLICY STATEMENT

Components of a Policy Statement

- State your agency's understanding of its responsibility to maintain a safe public area.
- Identify the manager of the risk reduction program.
- List any general constraints on managing hazard trees such as financial or personnel.

The following is an example of a Hazard Tree Policy Statement:

The City of Metropolis has an active policy to maintain the safety of public lands from potentially hazardous trees. The City will strive to eliminate, in a timely fashion, any tree deemed hazardous. When available fiscal and human resources limit the ability of the City to remove high-risk trees, priority shall be placed on trees deemed to carry the highest risk. The standard for rating the potential risk of a tree will be the International Society of Arboriculture's twelve point hazard evaluation system. The Director of Public Works will administer this program and have final judgment in all matters concerning the mitigation measures taken for any tree deemed hazardous.

Benefits of a Policy Statement

- It defines for staff the overall mission of the company or agency as it relates to high-risk trees.
- Minimizes political influence

- Allows staff to do their job

DEVELOP AND IMPLEMENT AN ACTION PLAN

Goal

After evaluating your resources, define problem areas and broad solutions to those problems. View this as a wish list.

Objectives

Define clear objectives that address the general goals you have established. The details should be more specific. A good objective defines what is going to be done and in what timeline.

Actions

A series of actions should be identified that address each objective defined

PERIODIC REVIEW OF ALL FOUR COMPONENTS

Review all four components of your risk management plan frequently.

VI

R. C. No. - 16 - 17. By PUBLIC PROTECTION AND SAFETY. July 5, 2016.

Your Committee to whom was referred R. O. No. 60-16-17 by the Fire Chief who submitted his quarterly report for the period commencing January 1, 2016 and ended March 31, 2016; recommends that the documents be accepted and placed on file.

Approved _____ 20____, _____, Mayor

III

5.2

Res. No. 42- 16 - 17. By Alderperson Thiel. June 20, 2016.

A RESOLUTION authorizing the Purchasing Agent to enter into contract for the purchase of (37) self Contained Breathing Apparatus (SCBA) Units and related equipment for the Sheboygan Fire Department.

WHEREAS: The Sheboygan Fire Department has identified the need to replace its current SCBA units due to the fact that the current units no longer meet National Fire Protection Association (NFPA) standards. Because this need was identified in 2015, funding was included in the Capital Improvements budget for this year.

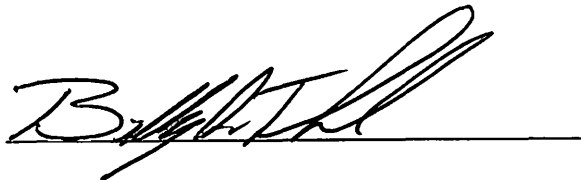

WHEREAS: Following inclusion in the budget, The Fire Department created an ad-hoc team comprised of seven (7) Department personnel to evaluate current offerings from the three major Manufacturers of this equipment. During this evaluation, SCBA units from Interspiro, MSA and Scott were evaluated and ranked. At the end of the process, the units manufactured by Scott Safety were chosen. Since Scott Safety SCBA's are currently in use by the Department, there is no need to change out certain accessories such as vehicle brackets, air bottle fill adapters, etc. In addition, because the firefighters are familiar with the Scott equipment, the learning curve will be much easier to overcome and equipment manufactured by Scott Safety has proven to be durable, reliable and easy to use and;

WHEREAS: Because Scott Safety distributes its equipment through regional distributors, the Sheboygan Fire Dept. obtained a quote for the units and accessories from Oshkosh Fire & Police Equipment in the amount of \$ \$276,350.00. This amount includes the SCBA, two air cylinders, mask, face piece and communications interface equipment and all accessories. Also included in the cost is delivery, training, mask fit testing, all available volume discounts and trade in of the old, outdated and in some cases obsolete equipment.

~~PPS~~
Approve

RESOLVED: That the Purchasing Agent is hereby authorized to enter into contract with Oshkosh Fire and Police Equipment of Oshkosh in the amount of \$ 276,350.00 for the purchase of (37) Scott SCBA's and related equipment. The amount includes delivery, training, fit testing and trade-in of the old equipment.

BE IT FURTHER RESOLVED: That the appropriate City Officials are hereby authorized to draw orders on Account # 47522100-649100 in payment of same.

A handwritten signature in black ink, appearing to read "Bill Hill", is written over a horizontal line.

CITY OF SHEBOYGAN

REQUEST FOR PUBLIC PROTECTION AND SAFETY COMMITTEE CONSIDERATION

ITEM DESCRIPTION: Resolution to authorize purchase of (37) Scott SCBA (self-contained breathing apparatus) units including all accessories and trade in of old equipment.

REPORT PREPARED BY: Bernard R. Rammer, Purchasing Agent

REPORT DATE: June 9, 2016

MEETING DATE: June 29, 2016

FISCAL SUMMARY:

Budget Line Item: 47522100-649100
Budget Summary: Capital Improvements
Budgeted Expenditure: \$ 300,000.00
Budgeted Revenue: N/A

STATUTORY REFERENCE:

Wisconsin Statutes: N/A
Municipal Code: N/A

BACKGROUND / ANALYSIS:

This resolution authorizes the department to purchase (37) new SCBA units and related equipment and accessories, including delivery, fit testing and trade in of the old and in some cases obsolete equipment. The Sheboygan Fire Dept. performed an admirable amount of due diligence in their selection of the Scott brand equipment ensuring the opinions of the people utilizing this equipment were a part of the final decision.

STAFF COMMENTS:

Scott Safety Inc. sells its equipment through regional distributors. The distributor for our region is Oshkosh Fire & Police Equipment in Oshkosh. While there are no national contracts for the purchase of this equipment, the cost provided by Oshkosh Fire & Police Equipment includes

significant discounts and incentives. Included with the purchase is the trade-in of the old equipment resulting in a \$ 6,000 deduction.

Scott Safety Inc. manufactures excellent equipment having a high level of durability and dependability. In addition, their distributor, Oshkosh Fire and Police Equipment has been extremely responsive in keeping the current units in good working order.

ACTION REQUESTED:

Motion to recommend Common Council approve a resolution to award the \$276,350.00 purchase of (37) SCBA units including accessories and trade in to Oshkosh Fire and Police Equipment of Oshkosh, WI

AGREEMENT
BETWEEN THE CITY OF SHEBOYGAN
AND
SHEBOYGAN AREA SCHOOL DISTRICT

THIS AGREEMENT, made this ___ day of _____, 2016, by and between the City of Sheboygan, hereinafter referred to as the “City,” and the Sheboygan Area School District, hereinafter referred to as the “District.”

WHEREAS, it is the mutual desire of the **CITY** and the **District** to provide the Sheboygan Area Public High Schools and Middle Schools with Four (4) School Liaison officers from the Sheboygan Police Department; and

WHEREAS, the **City** and the **DISTRICT** have agreed to equally finance the cost of the high schools’ and the middle schools’ liaison program;

NOW, THEREFORE, in consideration of the mutual promises contained herein and other good and valuable consideration,

IT IS AGREED AS FOLLOWS:

1. The **City** Police Department shall assign, on a full-time basis, a total of four (4) Police Officers to act as school liaison officers as follows:
 - a. One (1) officer to each of the **DISTRICT’S** two (2) public high schools, commencing July 1, 2016.
 - b. Two (2) officers to cover all three (3) of the **DISTRICT’S** public middle schools, commencing July 1, 2016.
2. Said department’s assigned officers shall continue to maintain their identity as police officers and be answerable as such to their superiors in the department.
3. The **CITY** shall budget, be responsible for and pay the remaining fifty per cent (50%) of the liaison officers’ salaries during the term of this contract, which salaries also shall include, but not be limited to, the Wisconsin Retirement Fund, overtime hours, Social Security, uniform allowance, health insurance, and life insurance payments.
4. The **DISTRICT** shall budget, be responsible for and pay the remaining fifty per cent (50%) of the liaison officers’ salaries during the term of this contract, which salaries also shall include but not be limited to the Wisconsin Retirement Fund, overtime hours, Social Security, uniform allowance, health insurance, and life insurance payments.
5. The **DISTRICT** shall pay its portion of the liaison officers’ salaries at the end of each month and upon receipt of a billing statement from the City Finance Director/Treasurer. Payment received by the **CITY** will be credited back to the Police Department salary account.

6. The term of this Agreement shall be one (1) year, commencing the 1st day of July 2016, to and including June 30, 2017.

7. Nothing contained herein and agreed to by these parties shall abrogate the CITY'S responsibility for keeping in full force and effect such worker's compensation or unemployment compensation insurances for the four (4) assigned liaison officers as required by federal, state or local law.

IN WITNESS WHEREOF, the parties hereunto have set their hands and seals the day and year first above written.

CITY OF SHEBOYGAN

REQUEST FOR PUBLIC PROTECTION AND SAFETY COMMITTEE CONSIDERATION

ITEM DESCRIPTION: Resolution to Authorize City Officials to enter into an agreement with The Sheboygan Area School District to provide School Liaison Officers.

REPORT PREPARED BY: Christopher Domagalski, Chief of Police

REPORT DATE: June 21, 2016

MEETING DATE: June 29, 2016

FISCAL SUMMARY:

Budget Line Item: N/A
Budget Summary: N/A
Budgeted Expenditure: N/A
Budgeted Revenue: 10121100 437206

STATUTORY REFERENCE:

Wisconsin Statutes: N/A
Municipal Code: N/A

BACKGROUND / ANALYSIS:

The current agreement between the City of Sheboygan and the Sheboygan Area School District, which provides School Liaison Officers from the Police Department, expires on June 30, 2016. This agreement is the same as past agreements and provides for the Police Department to provide 4 Officers for a period of 1 year, from July 1, 2016 to June 30, 2017. Under the agreement the City and the School District share the costs of these positions equally.

STAFF COMMENTS:

The agreement with the School District for the Police Department to provide School Liaison Officers has been very successful and is beneficial to both the City and the School District. The School District has proposed adding an additional Liaison Officer to the agreement bringing the total number of Liaison Officers to 5, to provide better coverage at the District Middle Schools. The School District has requested the City enter into a 1 year agreement while the request to add an additional position goes through the budget process.

ACTION REQUESTED:

Motion to approve the agreement with the Sheboygan Area School District.

AN ORDINANCE creating Section 70-117 of the City of Sheboygan Municipal Code so as to make it an Offense against Public Morals and Decency for someone to taunt, tease or encourage another individual to commit suicide.

WHEREAS, the First Amendment does not protect speech that encourages people to commit crimes such as suicide.

THE COMMON COUNCIL OF THE CITY OF SHEBOYGAN DO ORDAIN AS FOLLOWS:

Sec. 70-117 Solicitation of Suicide

No person shall in a public or private place, whether using a telephone, text messaging, U.S. postal mail, electronic mail, social media, nor any other form of internet messaging, to taunt, tease or otherwise encourage a victim to commit suicide. Intent is not required to be in violation of this ordinance, and a person can be found guilty of this ordinance regardless of whether or not the victim actually commits suicide.

Gen. Ord. No. 11 - 16 - 17. By Alderperson Thiel. June 20, 2016.

AN ORDINANCE creating Section 118-138 of the Municipal Code, entitled "Parking on grass surfaces on public property prohibited," so as to prohibit parking on grass surfaces on public property within the City of Sheboygan.

WHEREAS, the City has an interest in preserving the vegetation on the property it owns; and

WHEREAS, vehicles parking on the grass cause damage to City property and require repairs; and

WHEREAS, vehicles parked on the grass on public property create traffic congestion and can create hazards for both motorists and pedestrians alike.

NOW, THEREFORE, THE COMMON COUNCIL OF THE CITY OF SHEBOYGAN DO ORDAIN AS FOLLOWS:

Section 1. Section 118-138 of Division 1 of Article IV of Chapter 118 entitled "Traffic and vehicles" is hereby created to read as follows:

"Sec. 118-138. Parking on grass surfaces on public property prohibited.

No owner or operator of any vehicle shall park a vehicle or permit a vehicle to be parked on the grass on public property located in the City of Sheboygan unless otherwise directed by an authorized official of the City of Sheboygan."

Section 2. The Department of Public Works and Police Department are hereby authorized and directed to add signs that give notification of the aforementioned restrictions.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice.

2. The second part details the various methods used to collect and analyze data. It includes a section on statistical analysis, which involves identifying trends and patterns in the data.

3. The final part of the document provides a summary of the findings and conclusions. It highlights the key insights gained from the analysis and offers recommendations for future research.

Year	Q1	Q2	Q3	Q4	Total
2018	120	150	180	200	650
2019	130	160	190	210	690
2020	140	170	200	220	730
2021	150	180	210	230	770
2022	160	190	220	240	810

The data shows a consistent upward trend in the number of transactions over the five-year period. This growth is attributed to several factors, including increased market penetration and improved operational efficiency.

The analysis also reveals that the fourth quarter consistently shows the highest volume of transactions, which is likely due to seasonal factors and year-end sales pushes.

In conclusion, the findings indicate a strong and steady growth in the business's performance. The data supports the hypothesis that the implemented strategies have been effective in driving revenue growth.

~~21 HRS WERE ADDED TO THIS ESTIMATE BASED ON AUDATEX'S TWO-STAGE REFINISH FORMULA.~~

This is a preliminary estimate. Additional changes and or charges may be required for the actual repair. This estimate is valid for a period of 45 days after customer notification. This is an estimate based on our inspection and does not cover any additional parts or labor which may be required after the work has started. Occasionally worn or damaged parts are discovered which may not be evident on the first inspection. Because of this the above prices are not guaranteed. Quotes on parts are current and subject to change.

Rust/Corrosion repair estimates are based on our inspection and may require panel replacement and or more labor once the work has started. We will notify customer of any additional charges or problems once repairs have started. We make every effort to repair correctly rust/corrosion on panels, but rust and corrosion may be hidden or not showing through outer body panels at time of inspection or repair. Therefore we DO NOT guarantee rust/corrosion repair work.

R. O. No. - 16 - 17. By CITY CLERK. July 5, 2016.

Submitting a communication from John L. Korb requesting that the stop on Park Ave. (at N. 5th St.) be moved to N. 5th St. due to the speeding traffic between Saemann Ave. and Geele Ave. on N. 5th St.

PPS.

Subject: FW: Traffic

Sue,

Who should I share this with. Police Department? Public Works? Public Protection and Safety? How do I serve this citizen of Sheboygan?

Thanks,
Rosemarie

Rosemarie Trester
Alderman District 3
2110 N 9th Street
Sheboygan, Wisconsin 53081

Subject: Traffic

My name is John L. Korb. I live at 1925 N 5th St. (the SE corner of 5th St. and Park Ave.

The traffic on North 5th Street is traveling waaay to fast through this neighborhood. There are 15 children under 10 years of age in this neighborhood and we (the neighborhood parents are in unison agreement) are concerned for the safety of the children. There are no traffic controls between Superior Ave. and Geele Ave. on 5th Street, so some vehicles come blasting through here like there was no speed limits. If a child were to dart out into the road, there would certainly ne a tragedy. There is currently a stop sign on Park Ave. to protect 5th Street traffic, but Park Ave. has sparse traffic. We would like to have the City "Powers that be" relocate the stop sign from Park Ave. to 5th Street in order to keep speeding from occurring. Thank You in advance.

JL Korb

MEMORANDUM OF UNDERSTANDING

Memorandum of Understanding ("MOU") dated this 25th day of ~~June~~^{July}, 2016 by and among the Town of Wilson, a Wisconsin town ("Town"), the City of Sheboygan, a Wisconsin municipality ("City") and the Sheboygan Water Utility, a Wisconsin utility ("Utility").

Recitals

A. The Utility intends to install 860 feet of water main within the right-of-way on S. Business Drive from Riverdale Avenue to the City's southern boundary, approximately 1,230' north of Stahl Road. The water main would supply potable water and fire protection to City properties within the City's municipal water service area. Attached as Exhibit A and incorporated by reference is the Project Summary ("Project").

B. Pursuant to Wis. Stat. § 196.58(7)(a), the Utility submitted a request to the Town for the Town's approval to install and maintain the water main and appurtenances within the Town's right-of-way along South Business Drive. On April 20, 2016, the Town informed the Utility and the City of its objection to the Project. The dispute has been submitted to the Wisconsin Public Service Commission ("PSC"), Docket 5370-WI-105, for resolution.

C. The Town, City and Utility wish to resolve their dispute without an adjudication by the PSC.

NOW, THEREFORE, in consideration of the above recitals, which are contractual, the parties agree, as follows:

1. Town Consent. Subject to the performance of the terms and conditions of this MOU, for which time is of the essence, the Town hereby withdraws its objection to the Project. The Town shall promptly provide the PSC with any additional documents required to withdraw the Town's objection to the Project.

2. Project Performance. Except with regard to the timing of the Project set forth in Section 3, below, the Utility agrees to perform the Project work in accordance with the terms and conditions set forth in Exhibit A, which constitute performance standards. Exhibit A makes reference to Standard Specifications for Sewer and Water Construction in Wisconsin ("Standard Specifications"). The requirements described in Exhibit A and the Standard Specifications are intended to complement and supplement each other. However, if there is an irreconcilable conflict between them, the document imposing the greater responsibility on the contractors shall apply.

3. Traffic Control. Exhibit A describes traffic control during the Project. Among the requirements set forth therein, traffic must be accommodated as much as possible during work. In addition, affected businesses shall be notified by the contractor well in advance of any changes in traffic patterns. The Utility will also require the contractor to provide copies of these notices to the Town Clerk, 5935 S. Business Drive, Sheboygan, Wisconsin 53081 via both

9. Disclaimer of Personal Liability of Town Officials. Under no circumstances shall any Town official, officer, employee or agent (together "Town") have any personal liability arising out of this MOU, and no party shall seek or claim any such personal liability. Furthermore, the Town shall have no obligation or liability for any obligations or responsibilities to any lending institution, contractor or subcontractor or any other party involved in the Project.

10. Miscellaneous Provisions. The parties agree to the following additional miscellaneous provisions:

- (a) Amendment. This MOU may be amended or modified only in writing approved and by the parties.
- (b) Entire Agreement. This MOU, and any written amendments and reference attachments shall constitute the entire agreement among the parties. This MOU may be signed in one or more counterparts, each of which is deemed an original. In addition, this MOU may be signed in facsimile or digital pdf format, which will be deemed the same as an original signature.
- (c) Enforcement. If the Town is required to resort to litigation, arbitration or mediation to enforce the terms of this MOU, and if the Town substantially prevails on any claim in the litigation, arbitration, or mediation, the Utility and City, joint and several, shall pay all Town costs, including reasonable attorneys' fees and expert witness fees.
- (d) Binding Effect. This MOU is binding upon the parties hereto, as well as their respective heirs, successors and assigns.
- (e) No Assignment. The rights and responsibilities of this MOU cannot be assigned without the express prior written approval of each party.

WATER MAIN INSTALLATION PROJECT SUMMARY

South Business Drive (CTH OK)

Sheboygan Water Utility Project Number 15047
Sheboygan, Wisconsin

Information on water main installation and related work is summarized as described below

This project primarily consists of the installation of approximately 2,575' of 20" water main and appurtenances. The main will be used as transmission to future city development.

After the main has passed pressure and bacteriological testing, any new services shall be installed with copper and connected to the new water main. Trench restoration attributed to water main and water lateral construction is to be considered incidental to the water main & lateral work. Any removal and disposal of pavement is incidental to water main construction. The Sheboygan Water Utility will independently contract final asphalt paving. The contractor shall prepare the trench for 4" of asphalt. All trenches shall be backfilled completely, as soon as practical, and maintained to accommodate local traffic. Any temporary asphalt or at grade fill is the responsibility of the contractor and is incidental to water main construction.

The water main work shall be performed with a substantial completion by October 14th, 2016.

The proposed valve layout and tie-ins should give the contractor flexibility in construction sequencing. The contractor shall sequence his work to ensure the integrity of any existing water main still in service and/or the new water main during the subsequent construction. Before any segment of water main is put in service, the main shall be flushed, pressure tested, sterilized, flushed, and tested safe from bacteria. Adequate fire flows and water distribution within the project area shall be maintained via the existing mains until sufficient new main is put into service.

Wetlands and endangered resources are present on the construction project. Every effort shall be made to protect and not disturb these protected areas. Where a wetland and/or endangered resource disturbance is unavoidable, proper mitigation, per the Wisconsin DNR's requirements, is required.

All traffic control work including, but not limited to: planning, materials, equipment and labor shall be paid under the lump sum item Traffic Control. Traffic Control shall be carefully planned and continuously monitored. Traffic Control shall be in conformance with the latest MUTCD guidelines and Wisconsin MUTCD Supplement for work zone traffic control. Copies of a written detailed traffic control and detour plan for this project shall be submitted for discussion during the preconstruction meeting. Advance public notification of details regarding the closure and detours must be submitted to the local news media and major affected properties in advance. Road closures will be allowed during water main construction work, with marked detours. Traffic must be accommodated as much as possible during the work, and/or otherwise detoured. Affected business shall be notified by the contractor well in advance of changes in traffic patterns. The suggested detour route is Stahl Road to South 12th St (CTH KK), to Weeden Creek Road (CTH EE) back to South Business Drive (CTH OK).

- 2.1.2 Provide adequate notice (a minimum of 3 working days or more) to utility owners of facilities such as poles and anchors that may need to be supported or relocated by them, prior to excavating, and accommodate such needs
- 2.1.7 This section shall be deleted (housing for inspectors not required)
- 2.2.6 All pavements shall be full depth cut. Any adjacent pavement damaged due to construction methods or deficiency of protection shall be removed and replaced, per direction of Engineer, at no additional cost to owner. Refer to City of Sheboygan Department of Public Works Additional Specifications for Construction and Surface Restoration for pavement specifications.
- 2.2.11 Ten (10%) percent of the surplus excavated material shall be changed to 100% of the surplus excavated material.
- 2.2.15 Trees and bushes, located within the R/Ws and easements secured for the work shall be saved if possible unless being removed by City or otherwise specified, but if damaged, shall be trimmed if suitable to Engineer. If a tree or bush requires more than minor trimming, the tree or bush shall be removed. The cost of clearing and grubbing shall be incidental to the Contract. If a tree or bush is removed, it shall be replaced per the direction of the City's Forester. Replacement of trees and bushes, are incidental to the contract unless such bid items exist.
- 2.3.6 Excavations must be conducted in accordance with OSHA Standard CFR 1926 60. General requirements include:
- a) A safe means of egress must be located in all trench excavations that are 4 feet or more in depth.
 - b) Daily inspections of trench, adjacent areas, and protective systems shall be conducted by the Contractor's designated Competent Person, as defined in Preamble 29 CFR 1926.650-652.
- 2.6.1 Granular backfill conforming to Section 8.43.4 shall be used for backfill in all areas shown on the plans, and in areas where excavated material is deemed not suitable by Engineer
- 2.6.3 Wherever excavated material is deemed suitable by Engineer for use in place of required granular backfill, a credit of \$10.00 per cubic yard shall be taken by the Utility for each in place cubic yard of such material required, based on an average width of trench of pipe O D. plus 36".
- 2.6.10 Crushed road gravel conforming to Section 8.43.7 shall be used for the top 12" of backfill under and within 18" horizontally of existing pavements or proposed pavements, curbs, parking lots, driveways, and other areas when noted on the plans
- 2.6.11 Removal and restoration of all pavement, sidewalks, driveways and curb & gutter beyond the City's repaving limits shall be done incidental to water main work, and in accordance with the City's Department of Public Works' requirements. If not specified

City of Sheboygan
Department of Public Works
**Additional Specifications for Construction
And Surface Restoration**

WATER MAIN INSTALLATION

South Business Drive (CTH OK)

Sheboygan Water Utility Project Number 15047
Sheboygan, Wisconsin

Unless otherwise specified, the work under this contract shall be constructed in accordance with the State of Wisconsin *Standard Specifications for Road and Bridge Construction*, Edition 2013 and the *Standard Specifications for Sewer and Water Construction in Wisconsin*, Sixth Edition, December 22, 2003, with all addendums.

NOTIFICATION TO PUBLIC

The Contractor or sub-Contractor shall give all affected residents and businesses a minimum of two working days notification prior to commencing work that would restrict access to their property, and keep them informed of significant changes to that schedule.

Street closures and detours must be coordinated with City Staff and information regarding such to be released to the media for publication two working days before implementing closure and/or detours. See Department of Public Works for list of who must get notifications.

INSPECTION

All material and workmanship, if not otherwise designated by the specifications, shall be subject to inspection, examination, and testing by inspectors at any and all times during manufacture and/or construction and at any or all places where such manufacture and/or construction are carried on.

The Contractor shall inform the Engineer at least two working days in advance of proposed work. Any work accomplished without inspection or without two working days notice to the Engineer shall be cause for nonpayment of any item.

The Owner shall have the right to reject material and workmanship which are defective or require their correction. Rejected workmanship shall be satisfactorily corrected and rejected without charge thereof, and the Contractor shall promptly segregate and remove the same from the premises. The Contractor shall furnish promptly without additional charge, all reasonable facilities, labor and materials necessary for the safe and convenient inspection and testing that may be required by inspectors.

Should it be necessary or advisable by the Owner at any time before final acceptance of the entire work to make an examination on work already completed, by removing or tearing out same, the Contractor shall on request promptly furnish all necessary facilities, labor and materials. If such work is found to be defective in any material due to the fault of the Contractor or his sub-Contractors, he shall defray all the expenses of such examination and of satisfactory

DAMAGE TO EXISTING FACILITIES

If the Contractor damages or removes any existing utilities to facilitate their work, such as sanitary sewer mains, sanitary laterals, storm sewer mains, storm laterals and/or catch basin leads, the pipe shall be repaired using femcos to fasten the new pipe to the existing pipe and/or relay the pipe back to the structure, at discretion of Engineer. New pipe shall be reinforced concrete Class III or PVC SDR-35. Only manufactured bends will be used on a line that needs to go around a structure. It will not be acceptable to miter any lines.

Damages to any other facilities shall be repaired according to the facility owner's requirements

TRAFFIC MARKERS

All existing traffic and regulatory signs and street name signs required to be removed to facilitate the Work, shall be removed and replaced by the City, at no charge to the Contractor. The Contractor shall give the streets division at least two working days notice requesting removal, and again afterwards, to enable the City to replace the signs before removing temporary signs or barricades and/or opening a street to traffic

STREET CLOSING

At least two working days prior to closing any street or intersection or portion of street or street crossing, the Contractor shall notify the following:

Sheboygan Police & Fire Dept.	459-3333
Sheboygan County Sheriff's Dept.	459-3112
Sheboygan Transit	459-3281
Orange Cross Ambulance Service	694-0347

DUST ABATEMENT

The Contractor shall minimize the dispersion of dust from the base or sub-base course during construction operations by the application of water or other approved dust control material when directed to do so by the Engineer. This includes weekends and holidays. The cost shall be incidental to the construction contract

WATER SERVICES

Any water service damaged by the Contractor shall be repaired, except if it is galvanized-iron or lead, it shall be replaced with a new copper water service of the same or larger diameter, but in no case less than 1", from the main to and including the corporation, curb stop and box. This work shall be done at the Contractor's expense, unless it is planned for replacement under this contract. This work shall meet all state and local plumbing codes. The new stop box shall be placed as shown on drawings or as close as possible to the Code requirement of 2' beyond the right-of-way line, and as directed by the Dept. of Public Works and/or the City Plumbing Inspector.

SAWCUTTING

Wherever a permanent concrete or bituminous repair or replacement is to meet up with an existing pavement, the pavement shall be sawed full depth prior to removal, and if the resultant edge is damaged, shall be re-sawed.

CONCRETE & DRIVEWAY APPROACHES/SIDEWALK

All concrete driveway approaches/sidewalks that are damaged by Contractor shall be replaced with concrete. All concrete approaches to driveways, and sidewalks shall be replaced with 7" Portland Cement Concrete approach/sidewalk, Grade "A" mix.

DRIVEWAYS

All driveways that are damaged by Contractor shall be repaired or replaced according to the Engineer's discretion, with the material of original construction, or 7" Portland Cement Concrete, Grade "A" mix

GRADES OF CONCRETE

Any concrete pavement or curb and gutter not placed with a slipform type paver shall be a Grade "C" mix. Air-entrained concrete shall be used. The concrete shall contain six (6%) percent (+/- 1%) entrained air. The use of any additives to the concrete, other than an approved air-entraining admixture, shall not be allowed without written consent of the Engineer. The grades of concrete used on this project shall be as specified in Section 501.4.3 of the *Standard Specifications*. The minimum compressive strength shall not be less than 3500 psi when cylinders are prepared, cured and tested in accordance with ASTM Specifications.

LAWN RESTORATION (INCLUDING GRASS PARKWAY)

Four (4") inches of topsoil, seed, fertilizer, and mulch shall be placed where shown on the plans or designated by the Engineer. The topsoil shall be placed in accordance to Section 625 of the *Standard Specifications*. Mulch with tackifier added shall be placed on slopes exceeding one on three. A number forty (40) seed mixture, without the white clover, in accordance with Section 630 of the *Standard Specifications* shall be used.

FINAL CLEAN UP

Upon completion of the work under this contract, the Contractor shall, at his own expense, remove and dispose of all rubbish and debris (this includes grade stakes). New pavement and adjoining streets shall be mechanically swept if the Engineer deems so. This work shall be incidental to the contract. Defects of any nature shall be promptly corrected by the Contractor. Backfill shall not be stored on the Parkway, sidewalks or lawns. Contractor shall not disturb any more lawn or Parkway than is necessary for execution of the work.

III

Res. No. _____ - 16 - 17. By Alderperson Donohue. July 5, 2016.

A RESOLUTION authorizing the appropriate City officials to execute a Memorandum of Understanding between the Town of Wilson, the City of Sheboygan, and the Sheboygan Water Utility regarding installation of water main.

RESOLVED: That the Mayor and City Clerk are hereby authorized to execute said Memorandum of Understanding in form substantially similar to the attached.

1 suspend
1 Res pass.

I HEREBY CERTIFY that the foregoing Resolution was duly passed by the Common Council of the City of Sheboygan, Wisconsin, on the _____ day of _____, 20____.

Dated _____ 20____. _____, City Clerk

Approved _____ 20____. _____, Mayor

MEMORANDUM OF UNDERSTANDING

Memorandum of Understanding (“MOU”) dated this ____ day of June, 2016 by and among the Town of Wilson, a Wisconsin town (“Town”), the City of Sheboygan, a Wisconsin municipality (“City”) and the Sheboygan Water Utility, a Wisconsin utility (“Utility”).

Recitals

A. The Utility intends to install 860 feet of water main within the right-of-way on S. Business Drive from Riverdale Avenue to the City’s southern boundary, approximately 1,230’ north of Stahl Road. The water main would supply potable water and fire protection to City properties within the City’s municipal water service area. Attached as Exhibit A and incorporated by reference is the Project Summary (“Project”).

B. Pursuant to Wis. Stat. § 196.58(7)(a), the Utility submitted a request to the Town for the Town’s approval to install and maintain the water main and appurtenances within the Town’s right-of-way along South Business Drive. On April 20, 2016, the Town informed the Utility and the City of its objection to the Project. The dispute has been submitted to the Wisconsin Public Service Commission (“PSC”), Docket 5370-WI-105, for resolution.

C. The Town, City and Utility wish to resolve their dispute without an adjudication by the PSC.

NOW, THEREFORE, in consideration of the above recitals, which are contractual, the parties agree, as follows:

1. Town Consent. Subject to the performance of the terms and conditions of this MOU, for which time is of the essence, the Town hereby withdraws its objection to the Project. The Town shall promptly provide the PSC with any additional documents required to withdraw the Town’s objection to the Project.

2. Project Performance. Except with regard to the timing of the Project set forth in Section 3, below, the Utility agrees to perform the Project work in accordance with the terms and conditions set forth in Exhibit A, which constitute performance standards. Exhibit A makes reference to Standard Specifications for Sewer and Water Construction in Wisconsin (“Standard Specifications”). The requirements described in Exhibit A and the Standard Specifications are intended to complement and supplement each other. However, if there is an irreconcilable conflict between them, the document imposing the greater responsibility on the contractors shall apply.

3. Traffic Control. Exhibit A describes traffic control during the Project. Among the requirements set forth therein, traffic must be accommodated as much as possible during work. In addition, affected businesses shall be notified by the contractor well in advance of any changes in traffic patterns. The Utility will also require the contractor to provide copies of these notices to the Town Clerk, 5935 S. Business Drive, Sheboygan, Wisconsin 53081 via both

regular mail and email at clerk@townwilson.com. Finally, the Utility agrees to confer with the Town on the provisions of the relevant traffic control plan, once prepared but before implementation. The timing of the Project shall be coordinated with the Sheboygan County CTH OK highway reconstruction project in order to eliminate duplicate road closures and the adverse impact thereof to affected businesses and Town residents.

4. Permits/Approvals. The Utility or its agents shall obtain all necessary federal, state, and county permits and approvals required to perform the Project, and all such permits and approvals are incorporated herein by reference as performance standards.

5. Project Reciprocity. The Utility and City acknowledge the Town's cooperation with the Project as described in this MOU. In consideration for this cooperation, the Utility and City agree not to unreasonably withhold similar cooperation to the Town and its sanitary districts for road right-of-way access for Town or sanitary district utility projects. However, Town and sanitary district projects shall comply with then-existing City road project performance standards, and nothing in this Agreement shall exempt the Town and its sanitary districts from obtaining all required permissions in the same manner as any other similarly-situated applicant.

6. Indemnity/Insurance. The Utility and City shall defend, indemnify, and hold harmless the Town, its officers, agents, employees and insurers, from any and all liability, suits, actions, claims, demands, losses, costs, fees, damages and expenses of every kind and description, including attorneys' fees, for claims of any character, including environmental liability and including liability in connection with the loss of life, personal injury or damage to property, or any of them, brought because of any injuries or damages received or sustained out of the performance of the Project. This indemnity includes any act or omission of the Utility's architect, contractor or subcontractor or any other party directly or indirectly employed by or retained by the contractor or subcontractor. The provisions of this indemnification obligation shall survive termination of this MOU. This indemnification obligation shall not apply to any liability arising solely from or caused solely by the acts of the Town, its officers, agents, or employees.

The Town and its officers, agents and employees shall be named as additional insureds on all insurance policies required by the Utility for the Project. The insurance coverages shall be provided on a primary/non-contributory basis for the additional insureds, for both ongoing and completed operations. If the Town has other insurance that is applicable to the loss, such other insurance shall be on an excess or contingent basis to the coverage provided pursuant to the Project.

7. No Liability of the Town. The Town shall have no obligation or liability for any Project responsibilities or any party retained by the Utility for the performance of the Project.

8. Reservation of Rights. Nothing contained in this MOU is intended to be a waiver or estoppel of the Town or its insurer to rely upon the limitations, defenses and immunities contained within Wis. Stat. §§ 345.05 and 893.80. And nothing contained in this MOU constitutes a waiver of the Town's sovereign immunity or any other immunities provided by law.

9. Disclaimer of Personal Liability of Town Officials. Under no circumstances shall any Town official, officer, employee or agent (together "Town") have any personal liability arising out of this MOU, and no party shall seek or claim any such personal liability. Furthermore, the Town shall have no obligation or liability for any obligations or responsibilities to any lending institution, contractor or subcontractor or any other party involved in the Project.

10. Miscellaneous Provisions. The parties agree to the following additional miscellaneous provisions:

- (a) Amendment. This MOU may be amended or modified only in writing approved and by the parties.
- (b) Entire Agreement. This MOU, and any written amendments and reference attachments shall constitute the entire agreement among the parties. This MOU may be signed in one or more counterparts, each of which is deemed an original. In addition, this MOU may be signed in facsimile or digital pdf format, which will be deemed the same as an original signature.
- (c) Enforcement. If the Town is required to resort to litigation, arbitration or mediation to enforce the terms of this MOU, and if the Town substantially prevails on any claim in the litigation, arbitration, or mediation, the Utility and City, joint and several, shall pay all Town costs, including reasonable attorneys' fees and expert witness fees.
- (d) Binding Effect. This MOU is binding upon the parties hereto, as well as their respective heirs, successors and assigns.
- (e) No Assignment. The rights and responsibilities of this MOU cannot be assigned without the express prior written approval of each party.

IN WITNESS WHEREOF, the parties have signed this MOU as of the date set forth above.

WATER MAIN INSTALLATION PROJECT SUMMARY

South Business Drive (CTH OK)

Sheboygan Water Utility Project Number 15047
Sheboygan, Wisconsin

Information on water main installation and related work is summarized as described below.

This project primarily consists of the installation of approximately 2,575' of 20" water main and appurtenances. The main will be used as transmission to future city development.

After the main has passed pressure and bacteriological testing, any new services shall be installed with copper and connected to the new water main. Trench restoration attributed to water main and water lateral construction is to be considered incidental to the water main & lateral work. Any removal and disposal of pavement is incidental to water main construction. The Sheboygan Water Utility will independently contract final asphalt paving. The contractor shall prepare the trench for 4" of asphalt. All trenches shall be backfilled completely, as soon as practical, and maintained to accommodate local traffic. Any temporary asphalt or at grade fill is the responsibility of the contractor and is incidental to water main construction.

The water main work shall be performed with a substantial completion by October 14th, 2016.

The proposed valve layout and tie-ins should give the contractor flexibility in construction sequencing. The contractor shall sequence his work to ensure the integrity of any existing water main still in service and/or the new water main during the subsequent construction. Before any segment of water main is put in service, the main shall be flushed, pressure tested, sterilized, flushed, and tested safe from bacteria. Adequate fire flows and water distribution within the project area shall be maintained via the existing mains until sufficient new main is put into service.

Wetlands and endangered resources are present on the construction project. Every effort shall be made to protect and not disturb these protected areas. Where a wetland and/or endangered resource disturbance is unavoidable, proper mitigation, per the Wisconsin DNR's requirements, is required.

All traffic control work including, but not limited to: planning, materials, equipment and labor shall be paid under the lump sum item Traffic Control. Traffic Control shall be carefully planned and continuously monitored. Traffic Control shall be in conformance with the latest MUTCD guidelines and Wisconsin MUTCD Supplement for work zone traffic control. Copies of a written detailed traffic control and detour plan for this project shall be submitted for discussion during the preconstruction meeting. Advance public notification of details regarding the closure and detours must be submitted to the local news media and major affected properties in advance. Road closures will be allowed during water main construction work, with marked detours. Traffic must be accommodated as much as possible during the work, and/or otherwise detoured. Affected business shall be notified by the contractor well in advance of changes in traffic patterns. The suggested detour route is Stahl Road to South 12th St (CTH KK), to Weeden Creek Road (CTH EE) back to South Business Drive (CTH OK).

**WATER MAIN INSTALLATION
SOUTH BUSINESS DRIVE (CTH OK)**

Sheboygan Water Utility Project Number 15047
Sheboygan, Wisconsin

SPECIAL PROVISIONS TO THE STANDARD SPECIFICATIONS

Perform work in accordance with the other project bidding documents, and the "Standard Specifications for Sewer and Water Construction in Wisconsin" - 6th Edition dated December 22, 2003 with Addendum No. 1 dated December 22, 2004 and Addendum No. 2 dated April 22, 2008 as herein further modified:

Part I General Conditions

- 1.1 19 For items relating to water main materials and construction of water main and appurtenances, Engineer shall be defined as the Superintendent of the City of Sheboygan Water Utility (the Sheboygan Water Utility is also referred to as "Owner" and "Utility"), the Utility's Engineer, and such assistants authorized to represent the Utility.
- 1.3.5 All requirements of the "Standard Specifications" shall apply except when these provisions, the plans or other Contract documents, specifically adds, alters or clarifies portions of sentences, paragraphs or sections of the "Standard Specifications" and other referenced specifications, standards and codes.
- 1.5.2 Contractor shall keep all portions of street and sidewalk that are open to traffic free and clear of debris at all times, especially dirt, mud, sand and stones. If contractor fails to keep streets clean, City crews may be called out to clean the streets and Contractor shall be charged for equipment, time, labor, and call-out fee.
- 1.8.4 Insurance requirements shall be further modified as per Exhibit A, herein attached.
- 1.10.5 Unless otherwise specified, this section shall be deleted

Part II Construction - General

- 2.1.0 Perform construction within existing R/Ws, and easements and/or construction licenses shown on the plan. Any construction activity (excavating, stockpiling, tree removal, etc) on private property beyond the above-stated limits shall only be with Contractor's receiving prior approval from the corresponding jurisdiction or private property owner.
- 2.1.1 Underground utilities and structures that might conflict with the location of proposed facilities and require adjustments to the design shall be exposed adequately and far enough in advance of construction, to allow Engineer reasonable time to check for conflicts and make the necessary adjustments, without additional compensation for delays.

- 2.1.2 Provide adequate notice (a minimum of 3 working days or more) to utility owners of facilities such as poles and anchors that may need to be supported or relocated by them, prior to excavating, and accommodate such needs.
- 2.1.7 This section shall be deleted (housing for inspectors not required).
- 2.2.6 All pavements shall be full depth cut. Any adjacent pavement damaged due to construction methods or deficiency of protection shall be removed and replaced, per direction of Engineer, at no additional cost to owner. Refer to City of Sheboygan Department of Public Works Additional Specifications for Construction and Surface Restoration for pavement specifications.
- 2.2.11 Ten (10%) percent of the surplus excavated material shall be changed to 100% of the surplus excavated material.
- 2.2.15 Trees and bushes, located within the R/Ws and easements secured for the work shall be saved if possible unless being removed by City or otherwise specified, but if damaged, shall be trimmed if suitable to Engineer. If a tree or bush requires more than minor trimming, the tree or bush shall be removed. The cost of clearing and grubbing shall be incidental to the Contract. If a tree or bush is removed, it shall be replaced per the direction of the City's Forester. Replacement of trees and bushes, are incidental to the contract unless such bid items exist.
- 2.3.6 Excavations must be conducted in accordance with OSHA Standard CFR 1926.60. General requirements include:
- a) A safe means of egress must be located in all trench excavations that are 4 feet or more in depth.
 - b) Daily inspections of trench, adjacent areas, and protective systems shall be conducted by the Contractor's designated Competent Person, as defined in Preamble 29 CFR 1926.650-652.
- 2.6.1 Granular backfill conforming to Section 8.43.4 shall be used for backfill in all areas shown on the plans, and in areas where excavated material is deemed not suitable by Engineer.
- 2.6.3 Wherever excavated material is deemed suitable by Engineer for use in place of required granular backfill, a credit of \$10.00 per cubic yard shall be taken by the Utility for each in place cubic yard of such material required, based on an average width of trench of pipe O.D. plus 36".
- 2.6.10 Crushed road gravel conforming to Section 8.43.7 shall be used for the top 12" of backfill under and within 18" horizontally of existing pavements or proposed pavements, curbs, parking lots, driveways, and other areas when noted on the plans.
- 2.6.11 Removal and restoration of all pavement, sidewalks, driveways and curb & gutter beyond the City's repaving limits shall be done incidental to water main work, and in accordance with the City's Department of Public Works' requirements. If not specified

on the plans or elsewhere, the pavement shall match the thickness of the existing pavement, and in no case be less than 3" for asphalt, 4" for sidewalk, 6" for driveways (and sidewalks crossing driveways), and 7" for pavements. All main line paving will be contracted by others

- 2.6.12 Backfilling and restoration costs associated with excavations for service work shall be included in the bid items for that work respectively, when such items exist
- 2.6.14 All backfill, whether granular or excavated, shall be consolidated by mechanical means, in compacted lifts of 18" maximum; 12" for clay.

Consolidate all backfill to minimum 95% maximum density as determined by ASTM D698, (Standard Proctor).

Utility shall, at it's expense, contract with an independent firm to perform compaction tests and sieve analysis on granular backfill. Four compaction tests shall be taken within the first 400 feet of water main trench, and then two for each additional 400 feet of trench or fraction thereof, at locations determined by the Engineer. One sieve analysis shall be performed for every 1000 feet or fraction thereof. All costs to accommodate the compaction testing shall be incidental to the respective work.

All tests shall be at depths between 2' and 4' below finished grade, with Contractor to re-excavate and properly backfill and compact each test site

- 2.7.3 All pavement, sidewalks, driveways, curb & gutter, etc. damaged or removed by the Contractor beyond the contract excavation limits, whether deliberate or otherwise, shall be promptly replaced with like construction, cost incidental to the unit price bid for water main construction
- 2.8.0 Erosion control shall be furnished, installed and maintained throughout the required duration of the work, with the costs of such control incidental to the unit prices bid for the respective work. Erosion control shall conform to the Wisconsin Construction & Materials Manual and Wisconsin Erosion Control Product Acceptability List, developed by the Wisconsin Department of Transportation. Additional requirements may appear elsewhere in the project documents.
- 2.9.5 Unless otherwise noted on the plans, at reducers, the transition in payment for lineal foot of water main and/or hydrant leads shall be made at the center line of reducer, with half of the laying length paid at the larger diameter and the other half paid at the smaller diameter, when such bid items exist

Incidental Work:

Work specified in this subparagraph is incidental work. The following items include cost in unit price bid items identified, but not limited to this or other sections.

1. Excavation:

- a. Include cost of sawing and breaking pavement in unit prices bid for water

City of Sheboygan
Department of Public Works

**Additional Specifications for Construction
And Surface Restoration**

WATER MAIN INSTALLATION

South Business Drive (CTH OK)

Sheboygan Water Utility Project Number 15047
Sheboygan, Wisconsin

Unless otherwise specified, the work under this contract shall be constructed in accordance with the State of Wisconsin *Standard Specifications for Road and Bridge Construction*, Edition 2013 and the *Standard Specifications for Sewer and Water Construction in Wisconsin*, Sixth Edition, December 22, 2003, with all addendums.

NOTIFICATION TO PUBLIC

The Contractor or sub-Contractor shall give all affected residents and businesses a minimum of two working days notification prior to commencing work that would restrict access to their property, and keep them informed of significant changes to that schedule.

Street closures and detours must be coordinated with City Staff and information regarding such to be released to the media for publication two working days before implementing closure and/or detours. See Department of Public Works for list of who must get notifications.

INSPECTION

All material and workmanship, if not otherwise designated by the specifications, shall be subject to inspection, examination, and testing by inspectors at any and all times during manufacture and/or construction and at any or all places where such manufacture and/or construction are carried on.

The Contractor shall inform the Engineer at least two working days in advance of proposed work. Any work accomplished without inspection or without two working days notice to the Engineer shall be cause for nonpayment of any item.

The Owner shall have the right to reject material and workmanship which are defective or require their correction. Rejected workmanship shall be satisfactorily corrected and rejected without charge thereof, and the Contractor shall promptly segregate and remove the same from the premises. The Contractor shall furnish promptly without additional charge, all reasonable facilities, labor and materials necessary for the safe and convenient inspection and testing that may be required by inspectors.

Should it be necessary or advisable by the Owner at any time before final acceptance of the entire work to make an examination on work already completed, by removing or tearing out same, the Contractor shall on request promptly furnish all necessary facilities, labor and materials. If such work is found to be defective in any material due to the fault of the Contractor or his sub-Contractors, he shall defray all the expenses of such examination and of satisfactory

reconstruction. If, however, such work is found to meet the requirement of the contract, the actual cost of labor and materials necessarily involved in the removal examination and replacement, plus fifteen (15%) percent, shall be allowed the Contractor, and he shall, in addition, if completion of the work has been delayed thereby be granted a suitable extension of time and account of the additional work involved. After all requirements for work covered under this section are met, the Contractor will go over all the projects with the Dept. of Public Works and Water Utility. Their approval will constitute final acceptance for the work covered under these specifications.

FORM CHECK

Before any base material, concrete pavement, concrete curbs and gutter, concrete sidewalk, or bituminous pavement is placed, the forms and subgrade shall be checked by a representative of the Department of Public Works. However, the responsibility of maintaining forms true to line and grade shall be the responsibility of the Contractor. At least two working days notice shall be given for any form or subgrade check or placement of bituminous concrete. Placement of any materials within these forms or upon any subgrade without field inspection shall be cause for nonpayment of item.

TRAFFIC CONTROL/BARRICADES

A Traffic Control Plan with routing, signage, and lane closures shall be coordinated with the Public Works Departments and the Sheboygan Water Utility prior to construction.

The Contractor shall furnish and maintain, in operative condition, all necessary signs, barricades and lights to protect the work and the safety and convenience of the traveling public. The cost of furnishing, installation and no less than daily maintenance of signs, lights and the barricades shall be incidental to the construction contract, unless otherwise allowed for. Traffic control and routing shall be coordinated with Sheboygan Police, Sheboygan Water Utility, and Public Works Departments before and during construction.

Adequate signage, barricades, and traffic control devices are the responsibility of the Contractor.

TRAFFIC SIGNAL & STREET LIGHT DISRUPTION

Traffic signal and/or street light disruption, if any, shall be coordinated with the City Police and Public Works Departments. All damage to electrical conduit, loop detectors, signals or other electrical devices caused by Contractor will be replaced with same or equal. Specifications to be approved by Engineering staff. Costs to be borne by Contractor.

EMERGENCY MAINTENANCE AND PROTECTION

The Contractor shall give to the Engineer the telephone number of a responsible person in his organization that can be contacted in case of an emergency. Should an emergency arise that could endanger the public, and the responsible party cannot be reached, or Contractor does not respond or rectify the situation in a timely manner, the City will attempt to correct the situation. A one hundred (\$100.00) dollar call-out fee plus any costs incurred by the City in correcting any dangerous situation will be billed to the Contractor or deducted from his final payment, if not paid.

DAMAGE TO EXISTING FACILITIES

If the Contractor damages or removes any existing utilities to facilitate their work, such as sanitary sewer mains, sanitary laterals, storm sewer mains, storm laterals and/or catch basin leads, the pipe shall be repaired using ferncos to fasten the new pipe to the existing pipe and/or relay the pipe back to the structure, at discretion of Engineer. New pipe shall be reinforced concrete Class III or PVC SDR-35. Only manufactured bends will be used on a line that needs to go around a structure. It will not be acceptable to miter any lines.

Damages to any other facilities shall be repaired according to the facility owner's requirements

TRAFFIC MARKERS

All existing traffic and regulatory signs and street name signs required to be removed to facilitate the Work, shall be removed and replaced by the City, at no charge to the Contractor. The Contractor shall give the streets division at least two working days notice requesting removal, and again afterwards, to enable the City to replace the signs before removing temporary signs or barricades and/or opening a street to traffic.

STREET CLOSING

At least two working days prior to closing any street or intersection or portion of street or street crossing, the Contractor shall notify the following:

Sheboygan Police & Fire Dept.	459-3333
Sheboygan County Sheriff's Dept.	459-3112
Sheboygan Transit	459-3281
Orange Cross Ambulance Service	694-0347

DUST ABATEMENT

The Contractor shall minimize the dispersion of dust from the base or sub-base course during construction operations by the application of water or other approved dust control material when directed to do so by the Engineer. This includes weekends and holidays. The cost shall be incidental to the construction contract.

WATER SERVICES

Any water service damaged by the Contractor shall be repaired, except if it is galvanized-iron or lead, it shall be replaced with a new copper water service of the same or larger diameter, but in no case less than 1", from the main to and including the corporation, curb stop and box. This work shall be done at the Contractor's expense, unless it is planned for replacement under this contract. This work shall meet all state and local plumbing codes. The new stop box shall be placed as shown on drawings or as close as possible to the Code requirement of 2' beyond the right-of-way line, and as directed by the Dept. of Public Works and/or the City Plumbing Inspector.

SAWCUTTING

Wherever a permanent concrete or bituminous repair or replacement is to meet up with an existing pavement, the pavement shall be sawed full depth prior to removal, and if the resultant edge is damaged, shall be re-sawed.

GRAVEL BASE COURSE

There shall be placed under all concrete and/or bituminous pavement, and curb and gutter a roller compacted gravel base with a thickness of twelve (12") inches. The gravel and granular sub-base shall be eighteen (18") inches thick outside all pavements, or as specified on the construction plans, and compacted to form a good solid base for the forms or equipment.

The gravel shall be mixed and placed in accordance with the State of Wisconsin Department of Transportation *Standard Specifications*. The gravel shall be gradation #2, maximum aggregate size of three-quarter (3/4") inch. Drainage during and after graveling shall be maintained

TEMPORARY BITUMINOUS CONCRETE PAVEMENT, DRIVEWAY & WALK

If temporary road patch is required due to road conditions, install a two (2") inch bituminous surface course gradation #4 crushed gravel or limestone if available, otherwise use bituminous cold patch. The bituminous course shall conform to the *Standard Specifications*.

TIE-BARS

Tie-bars shall be installed in all joints, including where a Portland Cement Concrete pavement, base or curb & gutter is being placed next to an existing Portland Cement Concrete pavement, base or curb & gutter. They shall be #6x12" epoxy coated, and placed not less than 3' on center. Tie-bars are not required where the existing base is brick or where bituminous pavement will over lay the concrete.

BITUMINOUS CONCRETE PAVEMENT

The bituminous shall be replaced to the same thickness as the existing bituminous, using surface course gradation #4. If the existing bituminous depth was greater than 2", a binder course(s) shall first be installed, before the surface course. The bituminous course(s) shall conform to the *Standard Specifications*.

CONCRETE CURB AND GUTTER, CONCRETE CURB

All concrete curb and gutter that is damaged by Contractor shall be replaced with concrete. Curbs shall be depressed at driveways and at locations designated on the plans or by the Engineer for handicap ramps. There will be no additional compensation for depression of the curb. It is to be understood that State Statutes require handicap ramps at all intersections. Curb and gutters shall be of the same size and type as the existing.

CONCRETE SIDEWALKS

All concrete sidewalks that are damaged by Contractor shall be replaced with concrete. All concrete sidewalks, except those adjacent to driveways and alleys, shall be replaced with not less than the existing depth, and in no case less than four (4") inches (6" when or where shown on plans) of Portland Cement Concrete grade "A". All walks and ramps shall be placed in the location as directed by the Engineer. The material and depth of handicap ramps will be the same as for the adjacent Portland Cement Concrete sidewalk

CONCRETE & DRIVEWAY APPROACHES/SIDEWALK

All concrete driveway approaches/sidewalks that are damaged by Contractor shall be replaced with concrete. All concrete approaches to driveways, and sidewalks shall be replaced with 7" Portland Cement Concrete approach/sidewalk, Grade "A" mix.

DRIVEWAYS

All driveways that are damaged by Contractor shall be repaired or replaced according to the Engineer's discretion, with the material of original construction, or 7" Portland Cement Concrete, Grade "A" mix.

GRADES OF CONCRETE

Any concrete pavement or curb and gutter not placed with a slipform type paver shall be a Grade "C" mix. Air-entrained concrete shall be used. The concrete shall contain six (6%) percent (+/- 1%) entrained air. The use of any additives to the concrete, other than an approved air-entraining admixture, shall not be allowed without written consent of the Engineer. The grades of concrete used on this project shall be as specified in Section 501.4.3 of the *Standard Specifications*. The minimum compressive strength shall not be less than 3500 psi when cylinders are prepared, cured and tested in accordance with ASTM Specifications.

LAWN RESTORATION (INCLUDING GRASS PARKWAY)

Four (4") inches of topsoil, seed, fertilizer, and mulch shall be placed where shown on the plans or designated by the Engineer. The topsoil shall be placed in accordance to Section 625 of the *Standard Specifications*. Mulch with tackifier added shall be placed on slopes exceeding one on three. A number forty (40) seed mixture, without the white clover, in accordance with Section 630 of the *Standard Specifications* shall be used.

FINAL CLEAN UP

Upon completion of the work under this contract, the Contractor shall, at his own expense, remove and dispose of all rubbish and debris (this includes grade stakes). New pavement and adjoining streets shall be mechanically swept if the Engineer deems so. This work shall be incidental to the contract. Defects of any nature shall be promptly corrected by the Contractor. Backfill shall not be stored on the Parkway, sidewalks or lawns. Contractor shall not disturb any more lawn or Parkway than is necessary for execution of the work.

III

Res. No. _____ - 16 - 17. By Alderperson Donohue. July 5, 2016.

A RESOLUTION authorizing the Director of Planning & Development to act on behalf of the Mayor as a Certifying Officer for the issuance of environmental reviews related to HUD Community Development Block Grant (CDBG) program.

WHEREAS, the Department of Planning and Development administers the City's CDBG program and city staff complete environmental reviews as required by federal regulation.

WHEREAS, every project receiving federal CDBG funds requires an environmental review to be completed;

WHEREAS, HUD allows the Common Council to authorize additional Certifying Officers for the signing of environmental reviews.

RESOLVED: That the Common Council authorizes the Director of Planning and Development to have the authority of the certifying officer as it relates to environmental reviews.

Approved _____ 20____. _____, Mayor

CITY OF SHEBOYGAN

REQUEST FOR FINANCE COMMITTEE CONSIDERATION

ITEM DESCRIPTION: Res __-16-17, A Resolution authorizing the purchase of replacement equipment for the Cable TV (WSCS) studio and transfer the appropriate funds from the Cable TV Fund Balance to the Cable TV Audio/Visual GL Account.

REPORT PREPARED BY: David Augustin, Information Technology Director

REPORT DATE: June 22, 2016

MEETING DATE: July 11, 2016

FISCAL SUMMARY:

Budget Line Item: N/A
Budget Summary: N/A
Budgeted Expenditure: \$61,450
Budgeted Revenue: \$61,450

STATUTORY REFERENCE:

Wisconsin Statutes: N/A
Municipal Code: N/A

BACKGROUND / ANALYSIS:

Broadcast Server Replacement - \$33,500

The broadcast server and associated equipment that generates and sends the TV signal to the networks is 10+ years old. The system can only broadcast in standard definition and has little integration capability with other sources. The other issue is the current server can only utilize Charter's I-Net (coaxial based) network for sending its signal to the Charter main office. WSCS is the only user of that network with Charter indicating that it will be someday retired. The suggested replacement will have the capability to broadcast over fiber and take advantage of the fiber ring that is being installed for the City. The server will also have the capability to add other feeds to send signals to multiple sources which opens an opportunity for expense sharing if other municipalities would be open to collaborating together. There is an incentive for a \$2,500 trade-in for the existing equipment pending on the timing of purchase.

Studio Equipment Replacement - \$27,950

The trcaster control system and associated equipment is used in directing and filming productions in the WSCS studio. This equipment is also dated in it capabilities. The upgrade will allow for the capability of virtual production sets (green screen), feature rich embedding capabilities to cut down on editing time, and the ability to include videos and replays. With other planned upgrades in the Council Chambers and mobile unit(s), event coverage is much easier and integrated to provide a more professional broadcast. Such an example would be covering live election results or covering a sports event.

Both options will provide messaging capabilities that can interact with our community calendar and website.

Funds were set aside in the 2016 capital budget for such upgrades.

STAFF COMMENTS:

The equipment used in the WSCS studio for production programming is 20+ years old. Some of the equipment dates back to the start of the station which was in 1982. The age of the equipment makes it hard to find replacement parts and/or general support. When equipment fails a "creative" solution many times needs to be done that can ultimately affect the quality of the broadcast.

The present fund balance of the Cable TV Fund is \$1,028,440.

ACTION REQUESTED:

Motion to approve Res __-16-17 to transfer the appropriate funds from the Cable TV Fund Balance to the 2016 Cable TV Audio/Visual GL Account and purchase replacement equipment for Cable TV WSCS as requested.

ATTACHMENTS:

- I. Res __-16-17
- II. CIP Form – Cable TV Studio Equipment Replacements
- III. CIP Form – Broadcast Server Replacement

CAPITAL IMPROVEMENT REQUESTS 2017 - 2021

Project Title:	Broadcast Server Replacement
Department:	Cable TV
Budgetary Fund:	Cable TV Fund Balance
Account Number:	Communication Equipment

JUSTIFICATION

The server and associated equipment that generates and sends the TV signal to the networks is 10+ years old. The system can only broadcast in standard definition and has little integration capability with other sources such as our community calendar and website. The suggested replacement will have the capability to broadcast over fiber and take advantage of the fiber ring that is being installed for the City. It also has messaging capabilities that can interact with our community calendar and website. The server will also have the capability to add other feeds to send signals to multiple sources.

<p>Discussion of Operating Cost Impact:</p> <p>This request is being made for 2016 although the 2017 capital form is being used. The yearly maintenance of \$3,750 is added for support. The existing server no longer comes with support. There is also a partnership with the school district so support costs will be shared. Hardware discounts will also be evaluated by purchasing via the school district for educational reductions in price. The requested price is worst case scenario.</p>	<table style="width: 100%; border-collapse: collapse;"> <tr> <td colspan="2">Item Replace</td> </tr> <tr> <td style="width: 70%;">Model</td> <td>TelVue</td> </tr> <tr> <td>Make/Model</td> <td>Server</td> </tr> <tr> <td>Age</td> <td>10</td> </tr> <tr> <td colspan="2">Disposition (Check one box)</td> </tr> <tr> <td>Trade-In</td> <td style="text-align: center;"><input checked="" type="checkbox"/></td> </tr> <tr> <td>Sale/Auction</td> <td style="text-align: center;"><input type="checkbox"/></td> </tr> <tr> <td>Transfer</td> <td style="text-align: center;"><input type="checkbox"/></td> </tr> <tr> <td>Salvage</td> <td style="text-align: center;"><input type="checkbox"/></td> </tr> </table>	Item Replace		Model	TelVue	Make/Model	Server	Age	10	Disposition (Check one box)		Trade-In	<input checked="" type="checkbox"/>	Sale/Auction	<input type="checkbox"/>	Transfer	<input type="checkbox"/>	Salvage	<input type="checkbox"/>

CAPITAL IMPROVEMENT REQUESTS 2017 - 2021

Project Title:	Cable TV Studio Equipment Replacements
Department:	Cable TV
Budgetary Fund:	Cable TV Fund Balance
Account Number:	Audio Visual Equipment

JUSTIFICATION

The equipment used in the WSCS studio for production programming is 20+ years old. Some of the equipment dates back to the start of the station which was in 1982. The age of the equipment makes it hard to find replacement parts and/or general support. When equipment fails a "creative" solution many times needs to be done.

The long term goal of the TV station is to increase its advertising base for revenue by producing high quality productions. The equipment upgrade main ticket items are three camera replacements and the trcaster control system. The upgrade will allow for the capability of virtual production sets (green screen), feature rich embedding capabilities to cut down on editing time, and the ability to include videos and replays.

<p>Discussion of Operating Cost Impact:</p> <p>This request is for 2016 but is being submitted on the 2017 form. The equipment that will be replaced with be sold via auction or donated. Due to the age of the equipment, it is difficult to say how much revenue will be generated.</p> <p>Yearly support for the equipment will be \$3,300.</p>	<p>Item Replace</p> <p>Model _____ Various _____</p> <p>Make/Model _____</p> <p>Age _____ 20+ _____</p> <p>Disposition (Check one box)</p> <p>Trade-In <input type="checkbox"/></p> <p>Sale/Auction <input checked="" type="checkbox"/></p> <p>Transfer <input type="checkbox"/></p> <p>Salvage <input type="checkbox"/></p>

Res. No. _____ - 16 - 17. By Alderperson Thiel. July 5, 2016.

A RESOLUTION amending Res. No. 76-15-16, as amended by Res. No. 4-16-17, which established an Emergency Planning and Preparedness Committee, so as to further modify the membership of that committee.

WHEREAS, the Sheboygan County Emergency Government Director and the Health Officer for the Sheboygan County Division of Health provide knowledge and background for the Emergency Planning and Preparedness Committee; and

WHEREAS, Gen. Ord. No. 6-16-17 was approved by the Common Council on June 20, 2016, permitting the Sheboygan County Emergency Government Director and the Health Officer for the Sheboygan County Division of Health to serve on the Emergency Planning and Preparedness Committee regardless of their status as a resident of the City of Sheboygan.

NOW, THEREFORE, BE IT RESOLVED: That the committee shall be comprised as follows:

- Mayor
- Deputy Fire Chief
- Police Captain of Administration
- City Administrator
- City Attorney
- Superintendent of Streets and Sanitation
- Director of Parking and Transit
- Director of Human Resources and Labor Relations
- Information Technology Director
- Wastewater Treatment Plant Superintendent
- Water Utility Superintendent
- Sheboygan County Emergency Government Director
- Health Officer for the Sheboygan County Division of Public Health

PPS

I HEREBY CERTIFY that the foregoing Resolution was duly passed by the Common Council of the City of Sheboygan, Wisconsin, on the _____ day of _____, 20____.

Dated _____ 20____. _____, City Clerk

Approved _____ 20____. _____, Mayor

Res. No. _____ - 16 - 17. By Alderperson Belanger. July 5, 2016.

A RESOLUTION authorizing the Purchasing Agent to enter into contract for the purchase of a Case 590SN Tractor Loader Backhoe machine from Miller, Bradford & Risberg in the amount of \$115,652.00 for the Department of Public Works Motor Vehicle Division

WHEREAS: The Sheboygan Dept. of Public Works is in need of a replacing a 19 year old tractor loader backhoe with a new unit having a higher capacity and the capability to perform heavier tasks and has included the expenditure in its 2016 budget.

WHEREAS: The Public Works Department physically trialed offerings from several manufacturers and has determined that the Case 590SN meets or exceeds the current requirements and;

WHEREAS: This equipment is included in the nationwide contract offered by the National Joint Powers Alliance (NJPA) and membership in NJPA allows the City to purchase the equipment without the need for competitive bidding while assuring that the City receives the lowest pricing available.

RESOLVED: That the Purchasing Agent is hereby authorized to enter into contract with Miller Bradford & Risberg Inc. in the amount of \$115,652.00 for the purchase of a Case 590SN including delivery. The current 19 year old tractor will be sold at auction following receipt of the new equipment.

BE IT FURTHER RESOLVED: That the appropriate City Officials are hereby authorized to draw orders on Account #70136100-641100 in payment of same.

Pub Works

I HEREBY CERTIFY that the foregoing Resolution was duly passed by the Common Council of the City of Sheboygan, Wisconsin, on the _____ day of _____, 20____.

Dated _____ 20____. _____, City Clerk

Approved _____ 20____. _____, Mayor

CITY OF SHEBOYGAN

REQUEST FOR PUBLIC WORKS COMMITTEE CONSIDERATION

ITEM DESCRIPTION: Resolution to authorize purchase of a Tractor Loader Backhoe

REPORT PREPARED BY: Bernard R. Rammer, Purchasing Agent

REPORT DATE: June 29, 2016

MEETING DATE: July 12, 2016

FISCAL SUMMARY:

Budget Line Item: 70136100-641200
Budget Summary: Motor Vehicle Fund
Budgeted Expenditure: \$ 115,652.00
Budgeted Revenue: \$ 115,000.00

STATUTORY REFERENCE:

Wisconsin Statutes: N/A
Municipal Code: N/A

BACKGROUND / ANALYSIS:

This resolution authorizes the department to purchase a Case Tractor Loader Backhoe from Miller, Bradford and Risberg Inc. The equipment is listed on the National Joint Powers Alliance (NJPA) Contract which allows the City to purchase the unit without the need for competitive bidding and assures the lowest available pricing.

STAFF COMMENTS: This unit will replace a similar albeit slightly smaller unit that the Department has owned since 1997. The Department is in need of a larger unit with higher capacities to perform the work required in an efficient and effective manner. In order to assure the new machine will fulfill its needs, the Department physically trialed machines from several manufacturers. The Case 590SN was chosen as the machine most capable to perform the work required. The 19 year old current tractor will be sold at auction following receipt of the new unit. The new unit has a projected life of 15-20 years. The Department owns several pieces of Case brand equipment and has found it to be both dependable and durable.

ACTION REQUESTED:

It is the recommendation of the Department that the Public Works Committee approves this request and support passage of the Resolution. Total cost is \$115,652.00 including setup and delivery.

9.1

Res. No. 41 - 16 - 17. By Alderperson Lewandoske. June 20, 2016.

A RESOLUTION to rescind Gen. Ord. No. 1-15-16, reducing the number of Sheboygan alderpersons from the current sixteen (16) down to ten (10) for the 2018-2019 council year and instead hold a binding referendum to allow the citizens of Sheboygan to vote on this.

WHERE AS: The constitution of the United States grants U.S. citizens the right to vote for who they want to represent them in public office.

WHERE AS: The citizens of Sheboygan should have the right to vote on how many alderpersons they want to represent them, so I am asking the Sheboygan Common Council to hold a referendum on this change.

1. The first part of the report is devoted to a general survey of the situation in the country. It shows that the country is in a state of economic depression and that the population is suffering from poverty and unemployment. The report also points out that the government is unable to meet the needs of the people and that the country is in need of a radical change in its policy.

2. The second part of the report is devoted to a detailed analysis of the economic situation. It shows that the country is suffering from a chronic trade deficit and that its foreign exchange reserves are rapidly depleting. The report also points out that the government's financial policy is unsound and that the country is in need of a radical change in its economic policy.

3. The third part of the report is devoted to a detailed analysis of the social situation. It shows that the country is suffering from a high rate of unemployment and that the population is suffering from poverty and ill-health. The report also points out that the government's social policy is inadequate and that the country is in need of a radical change in its social policy.

4. The fourth part of the report is devoted to a detailed analysis of the political situation. It shows that the country is suffering from a lack of political stability and that the government is unable to carry out its policies. The report also points out that the country is in need of a radical change in its political system.

5. The fifth part of the report is devoted to a detailed analysis of the international situation. It shows that the country is suffering from a lack of international support and that its interests are being neglected by the major powers. The report also points out that the country is in need of a radical change in its international policy.

6. The sixth part of the report is devoted to a detailed analysis of the future prospects of the country. It shows that the country has a bright future if it can carry out a radical change in its policy. The report also points out that the country is in need of a radical change in its policy.

DIRECT REFERRAL

Res. No. 45 - 16 - 17. By Alderperson Donohue. June 30, 2016.

A RESOLUTION authorizing the issuance of the City of Sheboygan's 2016 Strategic Plan Community Survey.

WHEREAS, the Common Council is interested in updating its Strategic Plan, and

WHEREAS, the Common Council would like to receive input from the citizens of the City of Sheboygan, and

WHEREAS, city staff has drafted a community survey for the Common Council's consideration.

NOW, THEREFORE BE IT RESOLVED: That the City of Sheboygan approves the 2016 Strategic Plan Community Survey.

BE IT FURTHER RESOLVED: That city staff is authorized to promote and distribute the Strategic Plan Community Survey.

7.1

Gen. Ord. No. 9 - 16 - 17. By Alderperson Donohue. June 20, 2016.

AN ORDINANCE repealing and recreating Section 2-221 of the City of Sheboygan Municipal Code, related to normal working hours.

WHEREAS, constituents and customers increasingly expect to be able to conduct city business throughout the business day; and

WHEREAS, there is a need for some level of flexibility in determining normal working hours based upon personnel needs, costs, and customer expectations; and

WHEREAS, it is appropriate to delegate to the City Administrator the authority to set working hours for departments throughout the city.

THE COMMON COUNCIL OF THE CITY OF SHEBOYGAN DO ORDAIN AS FOLLOWS:

Section 1. Section 2-221 of the Sheboygan Municipal Code, entitled "Working hours," is repealed and recreated to read as follows:

"Sec. 2-221. *Working hours.*

The City Administrator shall set normal working hours for city hall. He may, in his discretion, change such hours from time to time as needed to balance customer needs, personnel issues, and costs. Whenever he makes a change in working hours he shall provide reasonable notice of the change to employees and the general public."

7.2

Gen. Ord. No. 10 - 16 - 17. By Alderperson Hou-Seye. June 20, 2016.

AN ORDINANCE amending Section 10-102 of the City of Sheboygan Municipal Code, entitled "Retail 'Class A' licenses" so as to increase the number of Retail "Class A" liquor licenses that may be issued in the City of Sheboygan.

WHEREAS, the City of Sheboygan has voluntarily limited the number of Retail "Class A" licenses that may be issued in the City; and

WHEREAS, that limit has not been increased in at least 20 years; and

WHEREAS, an increase in interest in such licenses suggests the limit be increased from 12 to 15.

THE COMMON COUNCIL OF THE CITY OF SHEBOYGAN DO ORDAIN AS FOLLOWS:

Section 1. Section 10-102 of the Sheboygan Municipal Code, entitled "Retail 'Class A' licenses" is amended in subsection (d) therein so as to read as follows:

"Sec. 10-102. Retail "Class A" licenses.

. . .

(d) No "Class A" liquor licenses shall be issued during any license year if such license shall increase the number of "Class A" liquor licenses in force beyond a total of 15.

Gen. Ord. No. - 16 - 17 . By Alderperson Thiel. July 5, 2016.

AN ORDINANCE placing a stop sign at the northeast and southwest corners of North 10th Street and Lincoln Avenue.

THE COMMON COUNCIL OF THE CITY OF SHEBOYGAN DO ORDAIN AS FOLLOWS:

Section 1. Pursuant to Section 118-51 of the Municipal Code entitled "Erection of Official Signs," stop signs shall be added requiring westbound traffic and eastbound traffic on Lincoln Avenue to stop at the intersection of North 10th Street and Lincoln Avenue.

Section 2. The Department of Public Works and the Police Department are hereby authorized and directed to add the sign(s) to give notification of the aforementioned change.

Section 3. All ordinances or parts thereof in conflict with the provisions of this ordinance are hereby repealed to the extent of such conflict, and this ordinance shall be in effect from and after its passage and publication.
