

Smart Label Printers

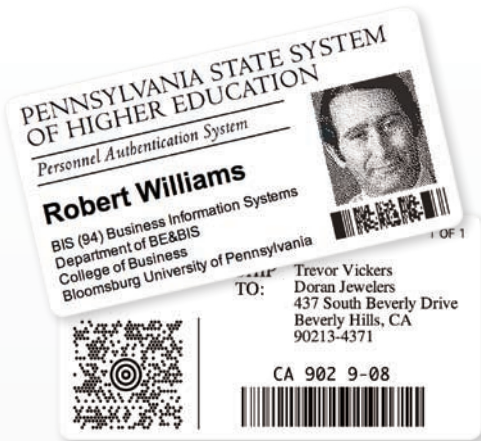

Fast label printing— one at a time.

- High-speed, high resolution printing at 300 DPI
- Enhanced label graphics and bar code printing
- Direct thermal printing eliminates expensive inks, ribbons and toner
- Smart Label software included
- Works with Windows®, Mac OS®X and Linux
- Networkable through built-in USB and serial connections
- Easy to use labels load automatically
- Compact design saves desk space
- Capture and import an image directly to the label with Camera Acquire™. Supports many kinds of web cams.

SLP 450

SLP 440

Create custom labels with ID photos and 2-D barcodes such as PDF417 for security data or MaxiCode for package sorting.

Smart Label Software:

- Import graphics for high-quality custom labels including company logos, digital images, web cam photos, and create bar codes with our easy-to-use Smart Label software
- Print labels directly from virtually any Windows or Mac application
- SmartCopy imports lists of contacts or captures text
- Shrink-to-fit and word wrap ensures text fits the label
- Built-in database saves most commonly used labels for instant recall
- Spreadsheet-style data view allows for import, printing or both
- Label preview while selecting labels to print
- MS Access, Excel, Outlook and Word Plug-ins allow easy use of these applications.
- Automatically print postal bar codes for UK, US and the Netherlands.
- Print digital stamps in several European countries
- Print Code39, I-2 of 5, Code128, EAN13, EAN128, UPC-A, UPC-E, Codabar, MaxiCode, PDF 417 and DataMatrix barcodes.

3 Year Warranty

The Smart Label Printer makes it easy to create and print professional looking labels, quickly, one at a time, without the hassle of standard printers. Create customised formats with your own company logo, mix and match fonts, add graphics or a post office approved bar code.

SmartCopy™ eliminates retyping. With the click of your mouse you can capture an address from many Windows or Mac applications.

SmartLabels Guide

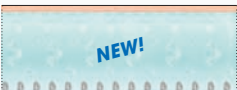

Our full line of SmartLabels™ will help you get the most from your Smart Label Printer. SmartLabels are useful for more than just envelopes. Choose from a variety of sizes and colours for office, retail, medical or industrial uses, or around the house. From receipts to vouchers, clear labels to colour, CDs to video cassettes, or jewellers price tags to name tags, the possibilities are endless. All labels compatible with SLP 440 and SLP 450 printers. For additional labels, tags and products visit our web site: www.siibusinessproducts.com.

**Large Capacity Tray
SLP-TRAY**

Large volume Label Tray for use with all bulk labels. Quickly print shipping and address labels, inventory tags, business and appointment cards, and other kinds of large volume label printing. Large capacity means you don't need to change label rolls as often.

New features in Smart Label software.

Our newest version of Smart Label software supports Vista and Mac OS X, and is CITRIX/2003 ready. We also make it easy to customise your labels, mix fonts, import graphics, use bar codes and print Post Office approved postal barcodes. To download the latest version of our software visit our web site: www.siibusinessproducts.com.

Capture images with Camera Acquire.

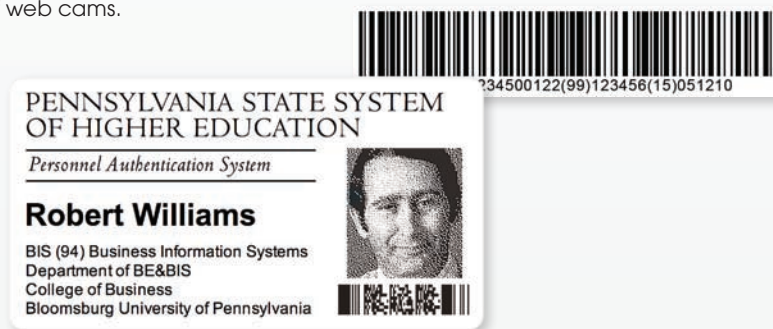

With our new Camera Acquire feature you can capture and insert a snapshot directly from a web camera without cutting and pasting. With a few simple clicks you can take a picture with an installed web cam and it will appear on the label template where you can easily adjust the contrast and brightness.

You can use pictures on name badges for identity or security, creating custom address labels or picture labelling. Camera Acquire supports a wide variety of web cams.

Generate EAN-128 barcodes.

Now you can create UCC/EAN-128 barcodes – also known as GS1-128. This barcode is the standard way of labelling packages with more than just a product code. It provides supplemental information such as batch number and "use before" dates.

You can insert data to barcode fields and we have added "Mode" and "Security" settings for 2D barcodes.

Smart labelling with SmartLabels.

No matter what your industry – health care, government, education, property, retail, or professional services – we make it easy to create and print customised labels to meet your business needs. SmartLabels can help you improve medical records tracking, prevent errors in specimen, X-ray or unit dose labelling, increase security with personnel, staff or visitor ID badges, track evidence, manage files, records, or IT equipment. Easily create custom labels with graphics, webcam photos or 1-D and 2-D bar coding, such as Codabar, EAN-128 and UPC for retail products, highly secure PDF417 or Data Matrix, and print in clear, legible, machine-scannable 300 dpi (12 dots/mm).

Patient record labelling with SLP-SRL

Colour-coded files with SLP-FLB, SLP-FLG or SLP-FLR

X-ray labelling with SLP-FN or SLP-FW

Folder labels with SLP-FLW or clear, no tear SLP-1RLC

Prescription or equipment labelling with durable moisture and smear resistant SLP-TRL or SLP-TMRL

Shipping labels with SLP-SRL or SLP-SRLC
