SIM TALK

Linking SimGenetics to Commercial Cattle

SPECIAL ISSUE

2017 Membership Directory

Welcome

Dear ASA Members, Seedstock Producers, Commercial Producers and all members of the Beef Industry,

On behalf of the American Simmental Association Board of Trustees, we welcome you to the *SimTalk* Special Edition Membership Directory. This serves as a great reference guide for everyone involved in the cattle industry to find contact information of ASA members.

I would like to take this opportunity to thank all members for supporting ASA with dues, activity fees, registrations, transfers and THE enrollment. It is only with your support that ASA has the means to develop the multi-breed genetic evaluation, the Carcass Merit Program, youth programs, the Feeder Profit Calculator, genomic enhanced EPDs, a new headquarters, advertising, promotion and a dedicated staff devoted to helping all members achieve success in whatever segment of the industry they choose to target. Congratulations to the breeders of these great SimGenetics. You have developed cattle that perform for your customers. When we study genetic trends of SimGenetic cattle, we see everything going in the right directions to keep these cattle relevant and important to the industry, now and for years to come.

The ASA Board and staff will continue, with your input, to develop the tools that will help improve your product and increase market share. Give us your suggestions and learn

about the tools that are available by attending the 4th Annual Fall Focus Educational Symposium and Board Meeting held September 17-20, in Bismarck, North Dakota. It is our way of bringing the boardroom to you. You can learn about what the Board does for its members, learn from staff presentations, and give us feedback. Please take time from your busy schedule to attend. You will be glad you did.

Brian DeFreese
Chairman, ASA Board of Trustees

In closing, we hope you enjoy this edition of *SimTalk*. Thank you to all the advertisers who make it possible and thank you to the staff who puts it together. We hope you have a great calf crop on the ground and wish you success in making the next one. The dedication, energy and passion that our members put forth every day to produce the next one, never ceases to amaze me. Thank you!

Brian DeFreese
Chairman, ASA Board of Trustees

2017-2018 ASA Board of Trustees

ABS Bull Search

The beef industry's most comprehensive sire selection tool

- Quick and easy access on all mobile devices
- Your source for the latest on ABS sires including
 - Our newest additions
 - Weekly data updates
 - Video & progeny photos
 - Hotlists and Specials
- Find the best bulls to meet your individual needs with nearly unlimited lookup, search, and sort capabilities
- Save your favorite bulls and search criteria for later use
- Includes mating recommendations for daughters of the Angus breed's most popular sire lines

Visit absbeef.com
to find the right sire for your herd!

ELEMENT

29SM0471

GIBBS 3009A **ELEMENT** ASA 2845573
GW-WBF SUBSTANCE 820Y x RCR STETSON T17

Essential Element for Success

- ✓ One of the most interesting purebred bulls to come down the pike in quite some time
- ✓ Has a pedigree with tremendous mating flexibility yet still offers a very progressive EPD package - ranks in the top 20% of the breed in 12 categories
- ✓ Curve bending performance with lights out end product, ranks in the top 2% for MARB with a +1.00 REA and top 3% values for API and TI
- ✓ His prolific donor dam consistently adds performance to progeny while ELEMENT posted his own 105 IMF and 110 REA ratios
- ✓ DNA tested homozygous black, homozygous polled, PB SM

YOUR SUCCESS *Our Passion.*

Conception. Calving Ease. Carcass. Cows.

Phone: (614) 873-4683 ♦ www.selectsiresbeef.com

Welcome to the cutting edge

Our new GGP lineup delivers amazing power to genomically enhance your EPDs.

Today, you can plan, select and manage young seedstock with the prediction accuracy of older bulls siring several calf crops. You can save years on your herd goals – for less than it costs to fill up with gas.

We not only make DNA testing easy. We make it profitable. From fast sampling of calf DNA to quick turn-around with new products that work in powerful synergy. From time-saving conveniences to a full range of innovations designed to help you take full advantage of beef genomics.

There are exciting new ways for us to work together to attain your goals with Simmental, SimAngus™, Simbrah and SimAngus HT cattle. And we would love to be your partner as you brand your legacy in the 21st Century. To learn more, contact ASA at (406) 587-4531 or visit www.simmental.org

ORigen YOUR COMPLETE GENETIC SOURCE

MARKETING PROGRAM • CUSTOM COLLECTION • ORIGIN EMBRYO TECHNOLOGIES • SEMEN SALES

Dispelling the Myths...

Bull owners make bull decisions.

ORigen does not tell bull owners what to do with their bulls - owners decide what is best for the bull and themselves. ORigen provides the facilities, care and marketing opportunities bull owners need.

ORigen does not own your bull.

All bulls are owned solely by the registered owners of the bull.

Bull owners set semen and certificate prices.

ORigen does not dictate pricing. All pricing is set by bull owners.

ORigen is a state-of-the-art collection facility.

Located in South Central Montana. Whether bulls are collected at ORigen, or another approved facility, bulls can be marketed through ORigen.

ORigen provides alternative marketing solutions.

The ORigen marketing program is one of the largest distribution networks in the United States. Bull owners maximize their exposure and semen marketing options at ORigen.

The ORigen Difference.

ALLIED
GENETIC RESOURCES

ORigen is an industry partner of Allied Genetic Resources.

The Proven Source of Top-Quality SimAngus™, Simmental and Angus Genetics

Next Step Cattle Co. announces New Location for its Bull Development Center and 5th Annual Bull Sale on December 2, 2017

Next Step Cattle Co. has taken the next step in being your proven source of SimAngus™, Simmental and Angus bulls by moving our Bull Development Center to Livingston, AL. The Bull Development Center is located at 200 Bartram Street in Livingston, AL. This location is 2 miles east of 120-159 at the AL Hwy 28 exit 17 and is 50 miles east of Meridian, MS and 70 miles west of Tuscaloosa, AL.

We would like to thank all our customers that have purchased bulls the past four years at the previous location and look forward to providing them with top quality bulls in the future. We invite all cattlemen to come by and evaluate the 100 bulls wearing the boot brand that are being developed at the Bull Development Center this summer and fall for Bull Sale on December 2.

The bulls wearing the boot brand from Next Step Cattle Co. will sire calves which will calve easy, wean heavy, demand top prices, and make top replacement females. These calves will also have the genetic ability to be profitable in the feedyard, produce a top quality carcass and provide the consumer with a enjoyable eating experience.

To take the Next Step toward your goal of producing profitable cattle, mark December 2, 2017 on your calendar and plan to attend the 5th annual Next Step Cattle Co. Bull Sale. We will be offering 75 head of SimAngus™, Simmental, and Angus bulls.

New Herd Sire at Next Step Cattle Co.

Direct		Maternal			Carcass				\$ Index					
CE	BW	WW	YW	MCE	Milk	MWW	DOC	CW	YG	MB	BF	REA	\$API	\$TI
15	-1.6	66	116	10	24	57	12	37	-.12	.93	.002	.72	175	90

EPDs 5.18.2017

Billboard was the top-selling bull at the 2017 River Creek Farms Sale and will add top calving ease, carcass and SAPI and STI genetics to the Next Step Cattle Co. program. Owners: River Creek Farms Manhattan, KS; Dixon Farms and Woodco Cattle Co. Thomasville, AL; and Sucaroonchee Cattle Co., Livingston, AL. Semen available from Allied Genetics.

Check out the Next Step Cattle Co. website for information on all our top herd sires.

Programs

Total Herd Enrollment (THE):

A cow-inventory-based reporting program, THE requires participants to provide annual reproductive and inventory status on their cowherd.

THE is designed to:

- 1) Improve quality of data submitted for genetic evaluation.
- 2) Improve and develop reproductive EPDs.

The ASA recently added a new option to THE for commercial producers. Commercial operations enroll their females and submit data on their calves and in return the ASA calculates EPDs on their cow herd — a win-win situation!

There are currently four options offered to members participating in Total Herd Enrollment. Each option is unique and how you enroll / pay for your dams determines how data will be delivered and reported on the yearly calf crop. It is highly recommended to evaluate your individual herd goals to better select the option best suited for your operation.

Total Registration (TR)

- Every dam enrolled on inventory for \$15.00 / dam / year
- Calves born in enrollment year and meeting all registration requirements are registered for FREE.
- Performance based EPDs returned on all calves, regardless if they are registered or reported.
- This option fits herds where the majority of the calf crop is registered (>40%) and EPDs are utilized in selection decisions.

Selective Registration (SR)

- Every dam enrolled on inventory for FREE
- Age dependent calf registration fees
 - ◆ Under 10 months of age = \$30.00
 - ◆ 10 to 15 months of age = \$40.00
 - ◆ Over 15 months of age = \$50.00
- Performance-based EPDs returned on registered calves only
- This option fits herds where less than 40% of the calf crop is registered and EPDs are NOT utilized in selection decisions.

No Registration (NR)

- Every dam enrolled on inventory for \$7.50 / dam / year
- Age dependent calf registration fees (same as Option B)
 - ◆ Under 10 months of age = \$30.00
 - ◆ 10 to 15 months of age = \$40.00
 - ◆ Over 15 months of age = \$50.00
- Performance based EPDs returned on all calves, regardless if they are registered or reported.
- This option fits herds where EPDs are utilized in selection decisions but registration papers are not necessary on the calves. If you start registering more than 5% of the calf crop each year, take a look at Option A, it might suit your operation better.

Commercial (CR)

- Cost of \$500 per year to enroll plus \$50 membership set-up fee for first timers. This cost includes ASA annual membership fee of \$110.
- If you enter and set up your herd into the database, it is free. If ASA inputs your herd data for you, there is a one-time herd set-up fee of \$2.00 per female on inventory and sires (includes imputing animal, its dam, sire and maternal grand sire).
- EPDs and indexes provided on all females and herd sires, while group average EPDs and indexes are provided on steers. The above information provides commercial producers with an unparalleled opportunity to make within herd selection decisions and valuable information for marketing.
- This option is designed for the commercial producer who is looking to receive EPDs on replacement females through the genetic evaluation.

"The ASA has advanced the simplification of data across breed lines and eliminated the information barrier to the commercial producer. They are pioneering a better beef business because of it."

— Wes Tiemann

Manager of Strategic Solutions
Missouri Cattlemen's Association

Are you a Progressive Commercial Producer?

Do you use AI, single sire pastures, parent verification?
Do you select replacement heifers?
Do you want to make better genetic decisions?

If the answer is **Yes!** Step into the future and become part of the world's largest genetic evaluation system.

ASA's new Commercial Option is for you!

- EPDs and economic indexes on every female and herd sire in your herd... regardless of breed or breed composition.
- EPDs and economic indexes on steer groups.
- Online record keeping, herd management and report generation software.
- Access to a wide array of highly effective DNA technology.
- Best deal in the industry: call for pricing/quotes.

Be progressive and call today: 406-587-4531

ASA Performance Advocate

The phrase “we’re all in this together” is certainly on the mark when it comes to our genetic evaluation program. Though a top-tier genetic evaluation system requires an engine built on cutting edge technology, that engine will not get us anywhere without fuel — the fuel being data. No matter how high tech the system used to calculate EPDs, achieving high levels of accuracy requires data — lots of data.

To encourage more thorough reporting of performance data, ASA has implemented the Performance Advocate Program. Any breeder who meets its requirements are listed annually in the late fall *SimTalk* and on our website as a Performance Advocate — a designation that should carry weight in the industry. The achievement conveys to potential customers that you are serious about performance testing.

■ Only members enrolled in THE are eligible for the Performance Advocate designation.

■ A breeder must submit the following records on 100% of the calves in their herd:

- ◆ Calving ease scores
- ◆ Birth weights
- ◆ Weaning weights
- ◆ Yearling weights
- ◆ Yearling hip heights
- ◆ Ultrasound or carcass measurements

To comply with the program, a breeder is required to submit calving ease scores and calf birth weights for every cow on inventory that calved during that year (whether its calf was dead or alive). From calving on, breeders need to be vigilant about using Calf Removal Codes to achieve Performance Advocate status. If no calf record exists because they have been removed from the herd, the only way to reach 100% compliance is by applying a calf removal code for those which were not in your herd at the time of data recording.

Your level of compliance with the program can be monitored by logging into your account on our website. There you will find graphs indicating the proportion of your calves that have data recorded for each trait listed above. Hopefully, the capacity to easily monitor data submission and public acknowledgement for 100% compliance will increase data flow to the ASA.

Progress Through Performance

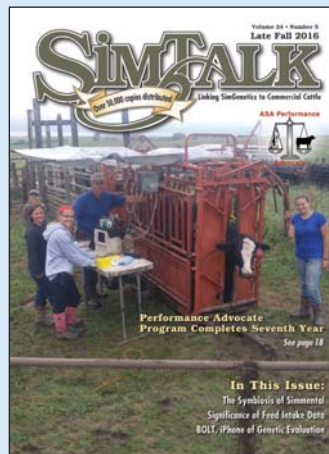

The American Simmental Association’s Progress Through Performance (PTP) program reflects an industry reality that producers routinely balance between phenotypic evaluation and scientifically relevant EPD and Indexes. The ASA’s sanctioning of worthy shows throughout the country aids in furthering the Association’s mission and efforts to highlight SimGenetics to a wide and enthusiastic audience.

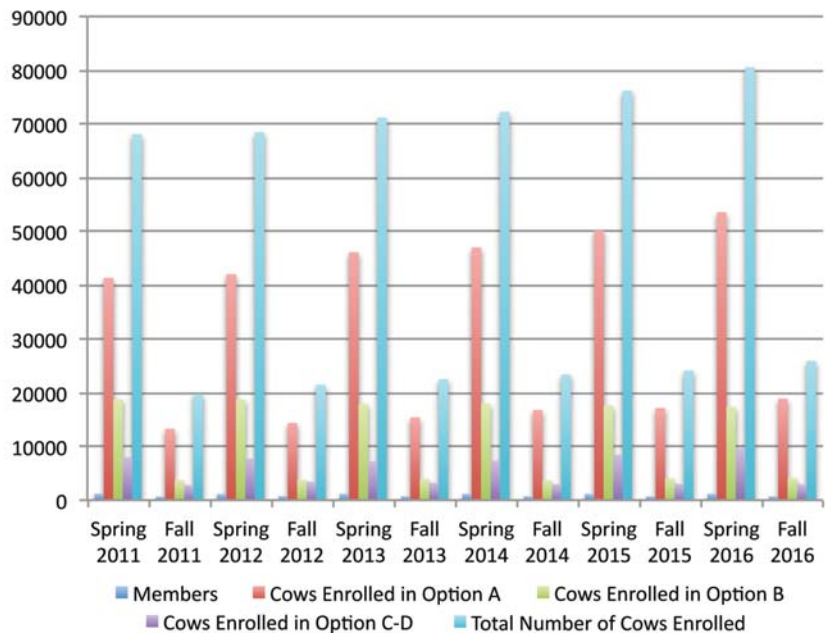

New PTP judge applications and all existing PTP judges are reviewed annually by the ASA Board of Trustees Activities and Events Committee (A&E). A&E seeks judges who are effective visual evaluators, appreciate the value of sound science and have a willingness to thoroughly discuss the cattle presented to them. Approved judges are deemed knowledgeable cattle evaluators, aware of the EPDs and Indexes used by the ASA.

The list of PTP approved judges, the PTP judge nomination process and pertinent PTP show information can be found at Simmental.org.

A&E and ASA staff consistently monitors the PTP program and are constantly in search of methods to enhance and elevate the program. 2017 will continue to provide strategic opportunities to hone the program and its alignment with ASA mission and membership interests.

Total Herd Enrollment Counts by Season

*At the time when this was written, the ASA had not received carcass data from these years yet.

**Update after 11/15 and new genetic evaluation.

Carcass Merit Sire Evaluation Program

ASA's Young Sire Progeny Testing Program

With the first matings at the Sheek Ranch, Cabool, Missouri, in the spring of 1997 the ASA launched a program that would eventually change the direction and collective futures of all producers and users of Simmental genetics. Then simply known as the Carcass Merit Project, the top sires of the Simmental and Simbrah breeds were randomly mated to commercial females with the plan to collect difficult to get progeny sire group carcass information and when possible, tenderness data. CMP is now entering its 20th breeding season. In addition to information about carcass traits, this program contributes well over 1,000 birth, weaning and yearling weights, and calving ease scores each year and nearly 4,000 shear force records have been collected. While feed intake has been collected in the past, the ASA is working to add intake data annually to the CMP.

The data collected has allowed the ASA to amass substantial information for benchmarking so that performance and value expectations can be conveyed to current and potential customers of our members. From providing confidence regarding levels of calving assistance, all the way to predicting end product value for those wishing to be profitable in the feeding business, ASA can reliably estimate the performance of their genetic products due in part to the information collected on SimGenetic sires tested in these "real world" commercial situations.

Carcass Merit Sire Evaluation Program

You may ask yourself, who pays for all this? Bull owners commit thousands of dollars each year to get unbiased evaluation for the next generation of genetically influential young candidate sires. This information is important for all SimGenetic users as it builds significant accuracy for economically important EPDs and assists in the early screening for bulls that possess unique levels of trait differential and thus provide maximum selection leverage. Many of the industry's top sires of various breeds and breed combinations are CMP graduates.

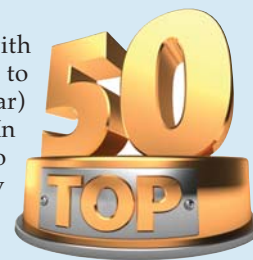

GGP-LD Rebate

In the spring of 2016, the Board unanimously passed a directive to provide a 50% price discount on LD genomic tests, per animal for which an ASA member provides feed intake and/or carcass data. To qualify, an animal's record must be viable for use in genetic evaluation (i.e., come from a valid contemporary group in ASA's Herdbook database) and have been born later than August 31st, 2015. This incentive couples the need to increase the number of carcass and feed intake records in our database with an increase in the use of genomic testing — a win-win situation!

Top 50 — High-Influence Bulls

Historically, the ASA partnered with Dr. Jon Beever (University of Illinois) to test the 50 most popular sires (per year) for the main beef genetic conditions. In 2015, the ASA expanded this testing to include voluntary submission for any AI sires. This program now includes over 300 SimGenetic sires tested for the following conditions:

- AM — Arthrogryposis Multiplex (Angus)
- DL — Dilutor (Hereford)
- IE — Idiopathic Epilepsy (Hereford)
- NH — Neuropathic Hydrocephalus (Angus)
- OS — Osteopetrosis (Red Angus)
- PHA — Pulmonary Hypoplasia with Anasarca (Shorthorn and Dexter)
- TH — Tibial Hemimelia (Shorthorn)
- HY — Hypotrichosis (Hereford)
- CA — Contractural Arachnodactyly (Angus)
- DD — Developmental Duplication (Angus)
- OH — Oculocutaneous Hypopigmentation (Simmental and Angus)

Beyond the Bounds of Print

An extended electronic version of *the Register* going beyond the bounds of print to delve deeper into the stories of Simmental and SimGenetics' producers, programs, and events.

**Belief in His Breed —**

The barn on the Eichacker farm near Salem, S.D., gets plenty of use. This time of year, it's a cozy place for newborn Simmental and red Angus calves, but it also has served as a space for family gatherings and community

fundraisers. Just before the new year began, it hosted a wedding rehearsal dinner for . . .

**Parker Cattle Company: Success in the Details —**

A family-run Colorado Simmental operation achieves quick progress through carefully made genetic decisions and a focus on quality over quantity. Seven years typically isn't enough time to build a respected seedstock

operation. It takes 18 months to see whether or not a chosen cross was the right choice; years to know if customers are happy with their bulls; even longer to simply build a good reputation, even if cattle are performing alongside competitors. For Reed Parker and his father Brett, genetics have allowed them to build a respected operation . . .

Stuck on SimAngus™ Genetics —

A Montana commercial operation transitions to producing high performance SimAngus™ seedstock bulls. "SimAngus, Simmental and Angus breeds have always been the top of our list because of the quality of the breeds," commends Will Townsend of Townsend Ranch LLC, "We have used traces of other breeds in the past, but when it came down to it, the trends weren't as good as Simmental, Angus, and SimAngus." The Townsend Ranch, located outside of White Sulphur Springs, Montana, is situated with . . .

Sale:
We sell purebred Simmental bulls, and a few club calves each year. Our bulls will work on Angus herds without problems, and these bulls will put significant pounds on your calves at weaning!

We AI our cows using the very best of the Simmental breed and are producing bulls for commercial cattlemen that increase profits with every calf crop. We believe in the breed and what it can do for your commercial herd, and we absolutely guarantee our cattle. They will travel well, breed a lot of cows, and you will be impressed with your calves from the very first year. We'd be happy to deliver your bull within a reasonable distance.

Call or email us to arrange a visit to see our bulls and females.

Welcome to
Beautiful Colorado

Shear Force	First	First

2012 Across-Breed EPD Table, GPE Rep. 22, MARC, USDA

* Major Continental Breeds — Simmental, Gelbvieh, Limousin, Charolais

SimAngus™ The Obvious Choice.

"Crossbred steers with a **50:50 ratio of Continental European to British breed** inheritance are likely to produce a more **optimum** balance between carcass **quality grade** and **yield grade** than crossbred or straightbred steers that represent either 100% British breed, or 100% Continental European breeding."

— MARC GPE Progress Report No. 22, USDA

Sale: 6th Annual Strickland-Driggers
Bull Sale will be held on Saturday,
December 9, 2017, in Glennville,
Georgia. We will have 35 service
ready bulls for sale.

GW Marshall 756A

*We are breeders of Simmental and
SimAngus™ seedstock. Our goal is to
produce bulls that will sire the type
and kind of cattle that are profitable
for our customers and that create an
enjoyable eating experience for the
beef consumer.*

International Genetic Solutions (IGS)

Providing Genetic Resources that Maximize Profit

IGS is a collaboration of 12 progressive breed associations that have put the needs of the commercial cattle producer first by creating an unprecedented multi-breed genetic evaluation. With more than 17,500,000 total animals and 375,000+ new animals added annually, IGS has the largest beef genetic evaluation system in the world — a system that provides beef producers with the most powerful and user-friendly selection tools that have ever existed.

- Largest beef genetic evaluation
- All breeds and breed compositions
- Full suite of EPDs and indexes
- Direct EPD comparisons
- Full range of DNA enhancement options
- Commercial herd access
- Producer friendly cost structures
- Feeder Profit Calculator (FPC)

The IGS Advantage

- **Proven Genetic Evaluation System** — With roots tracing back to Cornell University's renown geneticists, Dick Quaas and John Pollak, and over three decades of continuous improvements, the genetic evaluation software employed by IGS is one of the world's most trusted and respected.
- **Unrivaled Database** — Fueled by data from 12 progressive breed associations, including 17.5 million total animal records with 375,000+ additions annually. Not only is the IGS database unmatched in size, it's also unsurpassed in quality, as the vast majority of new records are derived from IGS partners who implement whole-herd reporting.
- **Simplified Selection Tools** — While the process of calculating EPDs on the world's largest multi-breed database is complex, the IGS partners have taken a revolutionary step by presenting the resulting EPDs on a common base, which allows users to directly compare the genetic merit of animals regardless of breed composition.

"IGS represents an unprecedented collaboration between multiple beef breed associations with a common goal: Improving National Cattle Evaluation and providing commercial cattle producers with the tools needed to make informed selection decisions."

— Dr. Matt Spangler, University of Nebraska
Beef Genetics Specialist

Vision Statement:

To deliver the best objectively described, user-friendly and science-based genetic predictions to enhance the profitability of beef cattle producers.

- **Commercial EPDs** — Commercial producers now have access to the tools once reserved for seedstock operations. EPDs, Indexes, and DNA enhancement are now available for commercial cowherds. Producers can now make more knowledgeable selection decisions regarding their female base and select bulls that best fit their herd and marketing plans. Also, this genetic information can be incorporated into a program that values and differentiates the profitability of feeder cattle — such as the IGS Feeder Profit Calculator!

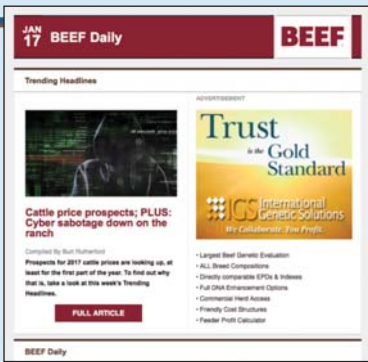

- **IGS Feeder Profit Calculator (FPC)** — Historically, the primary limitation of valuing feeder calves has been accurately gauging the profit potential in the largest genetic group within the industry — the crossbred calf. Therefore, a feeder calf profit calculator must have multi-breed capabilities. It must be able to incorporate genetic value with management related information. Fortunately, IGS provides the ideal platform to generate unparalleled information on crossbred feeder calves. IGS is uniquely suited to provide the industry's benchmark in gauging feeder calf value. The IGS FPC empowers producers to market with confidence and allows feeders to maximize their purchasing dollars.

"This concept of data sharing or data comingling facilitates efficient bull selection and adds a simpler tool to the commercial producer's toolbox for bull selection."
— Dr. Kris Ringwall, North Dakota State University

Buy Seedstock with IGS-Generated EPDs

Never in history has there been such a wide array of genetic material evaluated under one roof. The result is the deepest and broadest selection pool ever available to our industry. Any geneticist will tell you that genetic reach, or the diversity of the selection pool, is a critical component in making genetic progress. With the ability to compare animals of virtually all breeds and breed combinations directly, IGS provides a new level of genetic reach.

Ad promoting IGS on BEEF Daily

Genetic Evaluation for Commercial Producers

When it comes to selecting replacement heifers or making culling decisions, many commercial producers are limited to evaluating their females phenotypically, or making a simple gate cut. The former isn't much better than the latter and both are extremely primitive compared to the use of EPDs and economic indexes.

Many producers collect extensive data on their animals and face the daunting task of evaluating that data to make selection decisions. Now, these producers can enroll in the Commercial Option and benefit from a professional genetic evaluation. Through the Total Herd Enrollment (THE) Commercial Option EPDs and economic indexes are computed on all females enrolled, allowing for the most accurate selection decisions available. In addition to genetic evaluation, the program provides on-line databasing and herd management software services.

"The decision to join the collaborative evaluation undertaken by International Genetic Solutions (IGS) will bring a number of advantages to commercial cow-calf producers and other participants in the beef value chain."

— Dr. Bob Weaber, Kansas State University Cow-calf Extension Specialist

The IGS Revolution

To maintain its leadership position, IGS teamed up with world-renowned geneticists from Theta Solutions, LLC, to develop the world's most advanced genetic evaluation system across all species.

Dubbed BOLT (Biometric Open Language Tools), this system greatly enhances the beef industry's ability to leverage genomic information, thereby accelerating genetic improvement at rates beyond what is currently possible.

The first IGS evaluation produced by BOLT, featuring multi-breed stayability EPDs, has been released.

Sale Date:
 Annual "Bulls in Bancroft"
 Production Sale last Saturday
 in March.

Vertical Edge Genetics specializes in producing Angus and SimAngus™ seedstock that thrive in the high elevation, arid West. We demand moderate-framed cattle that are easy-fleshing with a strong work ethic for efficient performance. We utilize Fleckvieh bloodlines to produce our SimAngus™ cattle. We would love to visit with you anytime and enjoy showing the cowherd to visitors.

Sale Date:
 Bulls of the Big Sky,
 Billings, MT,
 February 19, 2018

We began our cattle ranch in 1999, with genetics tracing back to 1992 when Maureen, as a youth, founded a small Simmental herd. We utilize AI to produce SimAngus™ and to strengthen our purebreds. We also farm 1,600 acres of mixed row crops while custom baling several thousand tons of alfalfa and timothy hay.

Scientific & Technical Advancements

The science of genetic improvement is at the core of ASA's very existence.

Multi-Breed Genetic Evaluation/EPDs

ASA's multi-breed genetic evaluation system has the distinction of being the world's first and the world's largest. Although we have been running and refining our system since 1997, we entered an entirely new realm of genetic evaluation in 2014 with Operation Quantum Leap.

Operation Quantum Leap

Operation Quantum Leap is a collaborative effort between the ASA and world-renowned geneticists Bruce Golden and Dorian Garrick of Theta Solutions, LLC, to build new genetic evaluation software. The next-generation software, collectively known as Biometric Open Language Tools (BOLT), is flexible yet extremely powerful. BOLT contains all the tools needed to prepare, assemble, solve and analyze problems common in computing animal breeding data and genomic evaluations. It utilizes high-performance sparse matrix methods, parallel computing techniques (multi-core and multi-GPU) and shared memory management to efficiently solve problems with millions of records. Leveraging technology built for the computer gaming industry, BOLT boosts computer performance to spectacular levels. What takes days to run with our current software takes only minutes with BOLT. Our goal is to fully implement BOLT in 2017, with improved techniques for computing accuracies, handling genomic data, EPDs from other breeds, and more frequent genetic evaluations.

Dorian Garrick, Ph.D.
CSO & CFO
Theta Solutions LLC

Bruce Golden, Ph.D.
CEO & President
Theta Solutions LLC

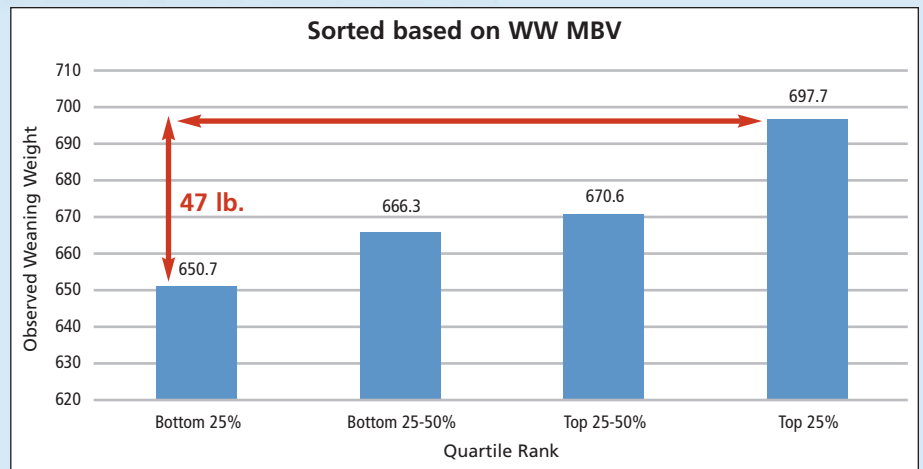

Figure 1. The average observed weaning weight (WW) for 1,926 Simmental calves ranked based on their DNA test result (MBV) only.

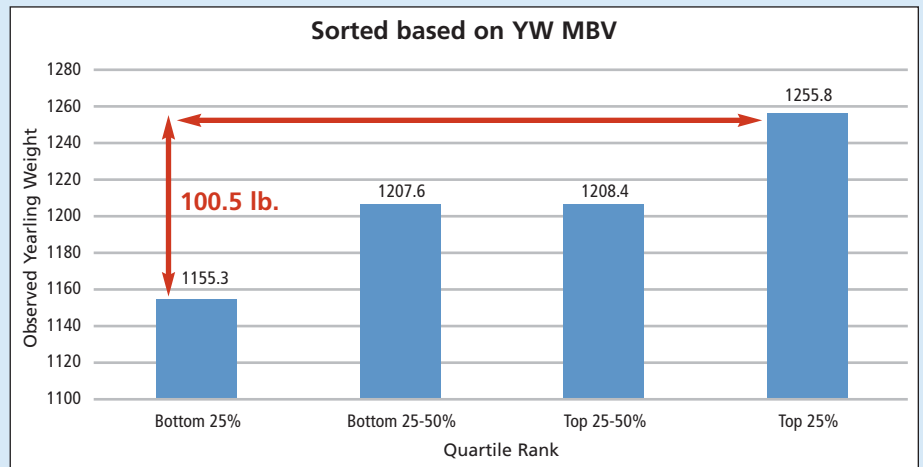

Figure 2. The average observed yearling weight (YW) for 1,926 Simmental calves ranked based on their DNA test result (MBV) only.

Though important, software is only part of an effective genetic evaluation system. To achieve highly accurate EPDs, genetic evaluation systems require large amounts of quality data. With over 17 million records from 12 collaborative breed associations in the US and Canada, our multi-breed database is the largest in the world and continues to grow at the rate of 375,000+ records annually.

Genomic Evaluation

Genomic profiles provide additional information about the genetic merit of a DNA tested animal and increase the accuracy of EPDs of selection candidates (bulls and replacement heifers). The ASA produced the industry's first set of genomically enhanced EPDs (GE-EPDs) in the fall of 2004 for Warner-Bratzler Shear Force (tenderness). Eight years later the ASA leveraged advancements in

single nucleotide polymorphism (SNP) technology to produce GE-EPDs for all other traits. The number of animals with genomic profiles in the evaluation database has increased significantly, growing from 2,703 Simmental samples in 2011 to over 40,000 by December 2016.

The ASA periodically analyzes genotypes and phenotypes to confirm that, for many traits, incorporation of DNA test results into ASA's multi-breed genetic evaluation system adds a significant amount of information, improving accuracy of predicted genetic merit on young animals, and in turn providing the opportunity to increase the rate of genetic change within the population. Recently, the ASA performed a validation test on the value of genomic information of the 1,926 Simmental calves born between January and June 2014. The calves were ranked based on their predicted Molecular Breeding Values (MBV) only for weaning weight (WW) and yearling weight (YW) (no phenotype or observations were used in the ranking). Then, the average observed WW and YW were compared between the top 25% and bottom 25% ranked calves based on their MBV information only. The calves that ranked in the top 25% based solely on their genomic tests were on average 47.0 pounds heavier at weaning than the calves that ranked in the bottom 25% MBV. The superiority of the top 25% calves, when compared to the bottom 25% calves, increased at yearling where they were 100.5 pounds heavier at yearling weight. The genomic validation results for WW and YW are shown in Figures 1 and 2, respectively.

IGS Genotype database (iGDB)

The DNA information (genotype data) is a main component of today's genomic evaluation program. To incorporate the DNA information into the genomic evaluation (either by the blending approach or single step methodology), the raw genotype data need to be pooled together and transformed into a suitable format usable by the genomic evaluation software like BOLT. The genotype data also need to be presented in the same SNP marker density (same number of markers per animal) to be usable by the genomic evaluation software. As our animals have been genotyped with the variety of SNP platforms, their genotype data could include many missing genotypes if compared together. The good news is that we can predict the genotypes of missing markers very accurately within a population in the process called imputation.

The International Genetic Solutions (IGS) raw genotype data used to be stored in the different genotyping labs (e.g. GeneSeek in Lincoln, NE; Zoetis in Kalamazoo, MI and Delta Genomics in Canada). The scientists at Iowa State University, led by Dorian Garrick, executive director of the National Beef Cattle Evaluation Consortium (NBCEC), periodically pooled and imputed all the IGS genotypes data for research and GE-EPDs production purposes.

We built a genotype database (called iGDB) to store and keep all our valuable genotype data in-house and make sure that every genotyped animal is counted for the GE-EPDs production. We also made a data flow pipeline to handle all the raw genotypes from different marker densities and collect them together into a single pooled genotype file, in the right format usable by BOLT, and then impute all the missing genotypes for a standard marker density platform (e.g. the 50K+ markers used in the current ASA prediction equations). The iGDB will facilitate the DNA information flow into the BOLT software for more frequent genomic evaluations in the future when we fully implement BOLT in 2017. The counts on the number of genotyped animals per breed (including the Canadian genotype data) from two different genotype pools are shown in Table 1.

Features of new IGS evaluation with BOLT:

- ◆ **Speed:** The fastest genetic evaluation software that has ever existed, allowing for more frequent evaluations with larger datasets, incorporation of more advanced and superior methodology than previously thought computationally possible.
- ◆ **Accuracy:** More precise computation of EPD accuracy.
- ◆ **Single Step Genomic Evaluation:** Inclusion of genomic information directly into the evaluation along with the pedigree and performance data simultaneously.
- ◆ **Flexibility:** Allows for a much wider range and ease of implementation of statistical models, for instance, adding multi-breed stayability and docility.
- ◆ **DNA markers:** More precise use of genomic marker information leading to more reliable predictions of DNA effects on various traits.
- ◆ **Multi-breed evaluation:** New breed effects model incorporating information from USMARC results in more precise breed contrasts.

Number of genotyped animals

Breed	6-6-2016 Iowa State University	12-9-2016 ASA/IGS (iGDB)
British Shorthorn	1,180	1,499
Gelbvieh	9,400	11,607
Limousin	7,275	7,959
Maine-Anjou	1,125	1,142
Red Angus	15,577	17,527
Simmental	32,414	40,613
Total	66,971	80,347

Table 1: The number of genotyped animals per breed (including the Canadian genotype data) from two different genotype pools.

First to Use Single Step Genomic Evaluation with a large population in the Beef Industry!

Multi-breed Stayability EPDs

For several years, the ASA membership has asked for multi-breed stayability EPDs. However, because of limitations within our genetic evaluation system, we were not able to deliver, until now. In December of 2016, a multi-breed stayability EPD was published using BOLT for the genetic evaluation. The stayability EPD uses a random regression approach to predict stayability developed by Dr. Janusz Jamrozik and colleagues from the University of Guelph and the Canadian Simmental Association. Dr. Scott Speidel (Colorado State University), Dr. Bruce Golden (Theta Solutions), and the genetics team

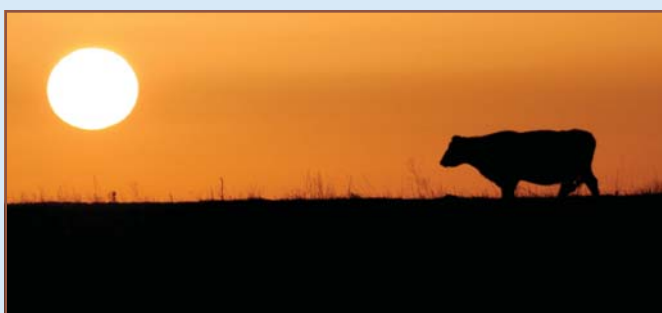

at IGS (Lauren Hyde, Wade Shafer, Mahdi Saatchi, and Steve McGuire) worked together to incorporate the new methodology into the IGS evaluation.

The new stayability evaluation:

- Includes data on animals of varying breed composition.
- Uses single step genomic evaluation — the industry's first on a large database!
- Produces true accuracy values.
- Provides stayability EPDs to all IGS partners on a common base.

Economic Selection Indexes

To ratchet up our genetic evaluation capability, the ASA teamed up with retired USDA geneticist Mike MacNeil to develop the all-purpose and terminal dollar indexes, All-Purpose Index (\$API) and Terminal Index (\$TI), respectively. The result of well-conceived, rigorous mathematical computation, these indexes blends EPDs and economics to estimate an animal's overall impact on profitability. Used extensively in the swine, poultry and dairy industry for many years, indexes allow breeders and commercial cattle producers to make more accurate decisions than ever before when selecting seedstock.

Interesting Facts:

Genetic Evaluation Database

- ◆ 17.5 Million Records in the Multi-Breed Genetic Evaluation Database:
 - American Chianina Association
 - American Gelbvieh Association
 - American Maine-Anjou Association
 - American Shorthorn Association
 - American Simmental Association
 - Canadian Angus Association
 - Canadian Gelbvieh Association
 - Canadian Limousin Association
 - Canadian Shorthorn Association
 - Canadian Simmental Association
 - North American Limousin Foundation
 - Red Angus Association of America
- ◆ 375,000+ New animal records added annually.

ASA Database

- ◆ 5.26 Million Animal records in ASA's database
- ◆ 104,000 Active cows enrolled annually in Total Herd Enrollment (THE) by ASA members
- ◆ 1,847 Active ASA members committed to THE
- ◆ 76,046 Registrations issued in the last year
- ◆ 34,446 Transfers processed in the last year
- ◆ 7,126 Active adult and junior members

Feeder Profit Calculator

In early 2017, the IGS launched a new tool for the beef industry to more accurately evaluate the profitability of feeder calves, coined the Feeder Profit Calculator (FPC). The history of the FPC has its roots in ASA's Terminal Index (\$TI). Dr. MacNeil, now with Delta Genetics, and Dr. David Lalman of Oklahoma State University, were tapped to evolve the \$TI into the FPC by adding additional factors such as a current accounting of prices/costs, heterosis, and non-genetic factors (e.g., vaccination status), to improve the accuracy of predicting feeder calf values.

Providing the most robust genetic awareness of crossbred calves requires the most robust multi-breed genetic evaluation. Fortunately, IGS provides the ideal platform to generate unparalleled information on crossbred and composite feeder calves. IGS, along with its member associations, the science team at Theta Solutions, and scientific contributions by Dr. Matt Spangler, University of Nebraska, is ideally suited to provide the industry's benchmark in gauging feeder calf value. The IGS FPC empowers producers to market with confidence and allows feeders to maximize their purchasing dollars.

Partners in Research

The ASA leverages expertise from many of the nation's top research institutions. Over the last few years, ASA has participated in research projects with Iowa State University, Montana State University, University of Illinois, Colorado State University, University of Missouri, University of Nebraska, Cornell University, University of Idaho, Oklahoma State University, Kansas State University, University of Vermont, National Beef Cattle Education Consortium (NBCE), USDA Fort Keogh and USDA Meat Animal Research Center (MARC). In the last year, the ASA has collaborated on several research projects including genetic influence in structure and soundness with Kansas State University, continued research into genomics and fertility with University of Missouri (and other partners), genetic correlations between maternal and carcass traits with Montana State University, hair shedding and environmental stress responses with the University of Missouri, breed effects with USDA MARC, and a new study on taurine and indicine composite cattle studying the allele fixation in various regions of the DNA with the University of Missouri.

Commitment to Accurate EPDs

■ **Total Herd Enrollment (THE):** A cow-inventory-based reporting program, THE requires participants to provide annual reproductive and inventory status on their cowherd. THE is designed to improve quality of data submitted for genetic evaluation and improve and develop reproductive EPDs. The ASA recently added a commercial option to THE. Commercial operations can enroll their females and submit data on their calves. In return, the ASA will calculate EPDs on their cowherd — a win-win situation!

■ **Carcass Merit Program (CMP):** 2017 marks the 20th anniversary of the CMP. Through the CMP, the ASA collected data on steers from 50 different herds fed and harvested in nearly every cattle-feeding region in the US. The CMP contributed over 10,000 carcass records improving accuracy in carcass trait EPDs not only in the bulls enrolled in the CMP, but also in the IGS population at large. In 2015, the ASA started collecting feed intake data on CMP calves, which will be combined with DNA marker data to better predict genetic merit for this elusive trait. The American Simmental-Simbrah Foundation (ASF) is funding this long-term project and seeking donations to cover the annual expense of data collection.

Trends in maternal and growth traits in Simmental cattle over a 20 year period.

Industry Firsts

A list of beef industry "firsts" showcasing the progressive and science orientated nature of the ASA.

- 1971 Published first sire summary
- 1984 Conducted first genetic evaluation using Best Linear Unbiased Prediction (BLUP)
- 1990 First to use a threshold model for genetic evaluation (in Calving Ease).
- 1997 Produced first multi-breed genetic evaluation
- 2002 Published first tenderness EPDs
- 2006 Produced first genomically enhanced EPDs (on tenderness)
- 2007 Published first stayability EPDs using data on multiple parities
- 2012 Published first multi-breed calving ease EPDs
- 2015 First collaboration between breeds on genetic evaluation, which led to world's largest beef cattle database.
- 2016 Published first multi-breed stayability EPDs on a large database.
- 2016 Conducted first "single step" EPDs on a large database
- 2016 Calculated first EPDs using the BOLT (Biometric Open Language Tools) software

The Key to Success — ASA Members' Commitment to Genetic Improvement

Cutting-edge technology by itself does not guarantee progress — it must be used. Perhaps no other breed has made as much genetic progress as Simmental. These genetics not only deliver on the traditional strengths of maternal growth traits;

research by MARC has established Simmental cattle as a leader among Continental breeds for direct and maternal calving ease, marbling and every measure of efficiency quantified at MARC. The MARC data is a testament to ASA members' willingness to roll up their sleeves and use sound scientific principles to breed better cattle and produce better beef.

Rincker Simmentals is a seedstock cow-calf operation located in East Central Illinois. The primary herd raises seedstock replacement and show heifers along with select performance bulls. Several cows are targeted for show quality steer and heifer calves, and our customers' success is our focus. Annually, Rincker Simmentals makes available the top selections from its calf crop, along with quality AI bred heifers.

Please feel free to contact us anytime for more information on our cattle, sales or upcoming events. Visitors are welcome anytime.

Sire Source Valuable Tool

Sire Source, a publication produced by ASA Publication staff, has gained great traction in the world of advertising and promotion of superior beef cattle genetics. The seven-year-old publication is widely respected as an effective vehicle for helping progressive seedstock producers reach prospective buyers.

In addition to distribution to all ASA members and paid subscribers through *the Register*, Sire Source also receives heavy exposure at trade shows, field days and sales throughout the nation and is accessible on ASA's website all yearlong for potential customers. Throughout the year, the Sire Source stays current with the online Sire Source, where you can display your photos and videos online; link to your website; update your online listing anytime. Bull photos are attached to the official animal record in the ASA Herdbook; your bull will be featured in an eBlast during the year. This online version has steadily increased the popularity of the print version.

Sire Source users favor the standard format utilized in displaying listed bulls, which allows potential buyers to compare "apples to apples," as every animal is presented in exactly the same format with information laid out on each page in identical fashion.

ASA Trustee Gordon Hodges, Genetic and Marketing Manager for Gibbs Farms, Ranburne, Alabama, is sold on the concept. "Once the ad is designed, other options, such as e-blasts and additional advertising in *the Register*, *SimTalk* or any other magazine, can be easily placed since they are camera-ready, eliminating the need for designing a new ad," he said.

"The Sire Source is effective, efficient and has a long shelf life," said Simbrah breeder Bill Travis, owner of Pine Ridge Ranch, Athens, Texas. "Not only does it have broad beef industry distribution and appeal, but I've found it to be a home base for seedstock producers," Travis explained.

"It makes no difference how good your bulls might be, if you don't advertise, you will have a hard time selling genetics," Hodges concluded, "The best way to add value to progeny is by promoting the sire from generation to generation. We have found that the Sire Source can be a most valuable tool in our marketing effort."

The table below clearly illustrates the increased popularity of the Sire Source as a promotional tool.

Sire Source number of bulls listed by year

	2010	2011	2012	2013	2014	2015	2016	2017
Simmental	39	33	41	40	55	69	71	72
SimAngus™	16	16	14	17	39	59	78	86
Simbrah		1		4	3	4	4	8
Angus	2	2	1	1	2	1	1	1
Red Angus								1
Total Bulls	57	52	56	62	99	133	154	168

Samples of the printed bull pages in the 2017 Sire Source.

Sample of the online Sire Source.

www.simmental.org

We also offer the opportunity to promote additional sires in the online version of Sire Source anytime during the next year. Promoting your bull in the online version opens huge marketing avenues for you.

Contact Nancy Chesterfield at 406-587-2778 or nchesterfield@simmgene.com to promote your bull(s) in the online version of Sire Source.

Sale Date:
Family Matters Sale,
September 16, 2017

In 1997, we started our family-run operation. Our goal is to raise the highest quality of cattle at an affordable price. We are proud to be a part of this industry and encourage the next generation. Feel free to call or stop by anytime. Our doors are always open to for anyone with a passion for the Simmental and cattle industry.

Sale Date:
Right By Design Sale,
November 25, 2017 on the farm

Trennepohl Farms is a diverse family farm operation. For four generations we have prided ourselves on producing some of the finest seedstock genetics and agricultural products anywhere. Through the vision and leadership of our grandfather, Howard, Trennepohl Farms beginnings trace back to some of the greatest bloodlines that the Belgian Draft Horse industry has known. It is that purebred seedstock passion that has laid the foundation for our success thus far.

We are committed to ensuring that our products will be successful for our customers including livestock, grain, hay and straw. Thank you for your interest in our program.

PERFORMANCE
BREEDERS

Who collects complete data on all calves for each of these six traits:

- Calving Ease
- Birth Weight
- Weaning Weight
- Yearling Weight
- Yearling Hip Height
- Ultrasound or Carcass Measurements

ASA Performance

Advocate

Prove to the world that you are serious about performance . . . become a Performance Advocate.

For more information: Call 406-587-4531

ASA Membership

Consider joining the American Simmental Association.

We take our mission statement seriously and pride ourselves in the programs we have available for your advantage, and our friendly customer service staff are just a phone call away — 406.587.4531 or by email: simmental@simmgene.com.

MISSION statement

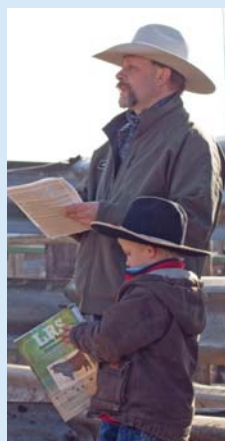

“The success of the American Simmental Association is dependent on the success of our members. In turn, our members’ success is dependent on their cattle making an important and significant contribution to the beef industry. Our highest priority is to maintain and nurture services and products which bring value to ASA members’ customers.”

VISION statement

The American Simmental Association believes the best way to serve its members, its members’ customers and the beef industry is through continual improvement and use of genetic and associated technologies. As such, the Association will continue to be a worldwide leader in the development and integration of these technologies for the beef industry. The Association will initiate and foster relationships with like-minded entities to enhance our ability to achieve this objective. The Association will be widely recognized as having an unyielding commitment to scientific principles and as a hub for the industry’s most progressive seed-stock producers — an organization that is extremely cooperative with all facets of the industry and tirelessly devoted to the success of its members and its members’ customers.

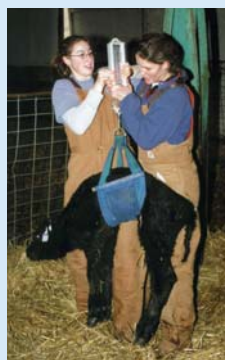

Core Policies

1. Development, registration and promotion of SimGenetics.
2. Offer services relating to all beef production segments. Be leaders. Step outside the traditional services and offer opportunities for our members to grow in the industry.
3. Commitment to science and development of the most effective selection tools.

Advance ASA in the industry.

4. Commitment to partnerships with industry leaders and universities to advance research and science. Advancing selection tools, DNA-enhanced EPDs and monitoring genetic defects.
5. Promotion and marketing to enhance our members’ market share. Ensure that SimGenetics continue to appeal to the commercial industry.
6. Offer the most advanced genetic evaluation services with the largest database regardless of breed.
7. Financial stability using sound business practices. ASA will maintain sufficient financial reserves to assure leadership in the beef industry, funds for continued research and development, and a thriving breed association.
8. Support junior programs. Guide the junior membership and their programs to learn life skills, science and use of technology, and financial responsibilities. Involve the Foundation.
9. Education for members’ advancement and profit.
10. Membership and data growth.

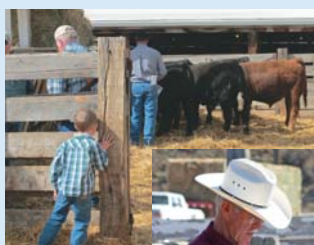

Become involved with progressive, innovative breeders like you through membership with the American Simmental Association.

ASA membership provides:

- Access to world's largest multi-breed database and genetic evaluation.
- Venues for interaction with progressive, innovative breeders like you.
- Educational/Informational opportunities through print and electronic medias to keep you up-to-date. *SimTalk, the Register, ASA Science, tReg, Have You Herd?* blogs to name a few.
- Thriving state associations to connect you with like-minded breeders.
- Data and programs to use which will help your operation thrive.
- TraitTrac — designed to trace genetic defects.
- ASA's Operations/Processing Team — customer service team ready to provide assistance.
- ASA's dedication to provide assistance to breeders interested in advancing their programs to improve cattle production.
- Open HerdBook Policy — accepting all data regardless of breed or breed composition.
- Structured tools for reporting and updating animal records to assist in better record-keeping and complete records.

Do you want to maximize genetic profitability on your ranch?

Gain the ASA advantage by using . . .

◆ The world's first, largest and most powerful multi-breed genetic evaluation

Fueled by data from 12 progressive breed associations across the United States and Canada that combine for over 17,500,000 total animal records with over 375,000 new animals added annually.

◆ An industry-common EPD base

Direct across-breed EPD comparisons simplify and allow for more effective crossbreeding decisions.

◆ Economic Selection Indexes

Long accepted by animal geneticists and competing meat animal species as the most effective means of utilizing EPDs to maximize profit.

American Simmental Association

Founders of IGS an unprecedented collaboration between progressive breed associations to enhance beef industry profitability.

Profit Through Data

The "go-to" blog for Herdbook Data, Submissions, Tools and Important Deadlines.

Planned Mating: How to Compare Sire and Dam — Planned mating is a tool to help make breeding decisions. It gives breeders an estimate of the genetic level of their calves from a mating. Using the Planned Mating tool in Herdbook Services, you can select to mate to one or several sires. 1. Log into Herdbook Services, 2. Click on Herd Mgmt, then select Planned Mating . . .

How to Put an Animal "On File" —

What does it even mean to put an animal on file? The animal is NOT registered when it is put on file, but it is saved into our database. An easy way to think about it: the data on the calf is saved in it's own file and filed away in our "filing cabinet". If you so choose, you then can register the animal at a later time. When filling out the registration . . .

How to Register a Foundation Cow or Bull —

Any animal that is registered with another breed association is eligible for registration with ASA, this is called a foundation animal. Foundation registration is an in-house process. To start the registration process, please submit a copy of the primary Association's registration certificate to the ASA office. If you do not have a copy of the certificate, you can . . .

American Simmental Simbrah Foundation

The American Simmental-Simbrah Foundation (ASF) is committed to supporting the work of the ASA through three primary pillars: youth, education and research. Contributions made to the ASF will be invested as a part of good financial planning to ensure the Foundation board will stay strongly committed to its mission, and to ensure ASA continues to advance and maintain leadership within the beef industry. To enhance existing programs, the Foundation has implemented a new model for fundraising: member groups. If you have an interest in fundraising for any of these special projects, contact the listed Foundation Board Member to get involved!

Feed Intake Project

Board Member Contact:

Fred Schuetze 817-894-0563
Bill McDonald 540-230-6225
Gordon Jones 270-991-2663

ASA Staff Contacts:

Jackie Atkins 406-587-4531 ext 103
Chip Kemp 406-587-4531 ext 508

The cost of feed is the number one cost to the beef industry annually (65% of production cost of beef). The ability to predict differences in feedlot intake of sires' offspring is an important component in the assessment of differences in profitability between sires. The Feed Intake Project collects individual feed intake data on calves of known sire groups to improve our ability to predict feed intake and thus improve our ability to predict differences in profit. Goal \$30,000/year.

Steer Profitability Contest

Member Contact:

John Irvine 785-313-7473

ASA Staff Contact:

Chip Kemp 406-587-4531 ext 508

The AJSA Steer Profitability Competition (SPC) is designed to provide members of the AJSA meaningful exposure to the opportunities and challenges associated with cattle feeding. The SPC will not only allow participants to measure and compare the profitability of their own animal(s), but of greater importance, will introduce young beef enthusiasts to peers, mentors, industry advocates, and exceedingly difficult to acquire experiences for any beef producer. Goal \$2,500/year.

Fall Focus Educational Symposium

Board Member Contact:

Bill McDonald 540-230-6225

ASA Staff Contacts:

Jackie Atkins 406-587-4531 ext 103

Each fall the ASA hosts an educational session in conjunction with the fall board meeting. Since 2014, this symposium has educated nearly 650 participants from all over the country along with international guests. The day-long event features recognized experts in livestock genetics, animal breeding, and other key topics for beef cattle. Seedstock producers, commercial cattlemen, industry personnel, other breed associations and academics come together for this session and following social. Join us in hosting the 2017 Fall Focus in Bismarck, ND, by donating funds to this event. Goal \$10,000/year.

Walton-Berry Graduate Student Support Grant

Member Contact:

Dr. Robert Walton

Jim Berry 815-777-1107 (evenings)

ASA Staff Contacts:

Jackie Atkins 406-587-4531 ext 103
Wade Shafer 406-587-4531 ext 127

Walton-Berry Graduate Student Support Grant supports graduate education with emphasis on genetic improvement of livestock. The fund originally started by Jim Berry of Wildberry Farms, honors Dr. Bob Walton's life-long efforts in animal breeding and raising Simmental cattle. The Walton-Berry Graduate Student Support Grant funds graduate education in research programs to directly improve applied livestock genetics and help build future experts in animal breeding. There are two awards annually — one for \$5,000 and a second for \$3,000 for graduate education programs; each recipient will contribute to ASA Publication regarding their research for both *SimTalk* and *the Register*.

The Foundation Auction

Board Member Contact:
Fred Schuetze 817-894-0563
ASA Staff Contacts:
Emily Lochner 406-587-4531 ext 517

Held in Denver, Colorado, each January, 2017 was another success! This year the auction included on-line bidding through liveactions.tv and entertainment by Trent Loos, a recent appointment to President Donald Trump's Agricultural Advisory Committee.

The crowd exceeded expectations and a total of \$46,710 was raised by the end of the night with 48 on-line bidders. This has been a great year for the Foundation where an additional \$160,531 was raised by "Foundation Member Groups" in FY 2016. Contact any Foundation Board Member if you are interested in donating or purchasing an item at the Denver Foundation Auction.

Foundation Wall

Board Member Contact:
Fred Schuetze 817-894-0563
ASA Staff Contact:
Emily Lochner 406-587-4531 ext 517
Linda Kesler 406-587-4531 ext 123

"Brand Yourself in Simmental History" by being included in the ASA's newly built office through a personalized branded wall plaque, or by dedicating a tree outside the building. Several levels of sponsorship exist, with all proceeds going to the Foundation. You may designate which

of the three pillars you wish to support by tagging your donation to a specific project.

Youth Merit Awards

Board Member Contact:
Lori Eberspacher 612-805-8225
ASA Staff Contact:
Linda Kesler 406-587-4531 ext 123

Dollars for scholars. Established in 1981, the Merit Award is designed to provide recognition to junior members who have made "significant contributions to their community, home, family, school and the Simmental or Simbrah breeds of cattle". As college tuition continues to increase, the Foundation continues to support 16 AJSA members each year by awarding more than \$25,000 in scholarships, 11 Silver Merit Awards and 5 Gold Merit Awards, to help them continue their collegiate educational endeavors.

Young Canadian Exchange Project

ASA Staff Contact:
Emily Lochner 406-587-4531 ext 517

Each summer, two AJSA Board of Trustee members will be randomly selected to attend the Young Canadian Simmental Association National Classic. This is more than just an opportunity to travel, but rather an opportunity for AJSA members to learn about international agriculture, new ideas to progress the Association, and gain new friends in an attempt to build their resume and personal experience.

Youth Eastern and Western Regionals

Youth — Eastern Region Specific:
Fred Swain 502-599-4560
Youth — Western Region Specific:
John Walston 518-851-2000
ASA Staff Contact:
Emily Lochner 406-587-4531 ext 517

Together as one team, our junior programs will flourish! The Eastern and Western Regions have each formed state groups to fundraise for their yearly Regional Classics. The Eastern Regional group hosts a fundraiser at the NAILE each year, allowing states in the east to step up more freely to host classics, due to a lower financial cost. Following suit of a previously successful regional group, the Western Region formed their own group. The goal is to see states within a specific region as one unit, rather than individuals. The establishment of these regional groups is to raise funds for the Eastern and Western Regional Classics, despite which state holds the classic.

Youth National Classic

Facility Support:
Linda Kesler 406-587-4531 ext 123
ASA Staff Contact:
Emily Lochner 406-587-4531 ext 517

Each year your state associations host the largest SimGenetics event in the country, one of the most prestigious youth livestock events, the AJSA National Classic. With each year's National Classic getting bigger than the last, more and more SimGenetic enthusiasts attend the National Classic and purchase SimGenetics; at the same time, state associations are saddled with a growing financial responsibility in hosting. Help lighten the load by contributing and ensuring many years of AJSA National Classics to come. ASA is already committed to contribute \$10,000 annually and the Foundation would like to match that amount each year.

Sponsorship Packages ASA Fall Focus 2017

"Select for Success"

September 17-20, 2017

Bismarek, North Dakota

Contributions may be made to the
American Simmental-Simbrah Foundation
designated to the Fall Focus.

For more information about
sponsoring Fall Focus 2017,
please contact Bill McDonald
at 540.230.6225
or by email at
info@mcdonaldfarms.com

Become a sponsor of ASA's Fall Focus 2017
and enjoy the following:

Level I (Under \$500):

- Name listed in Fall Focus 2017 program
- Name included on sponsor poster
- Name on fallfocus.org
- Group photo at the event

Level II (\$500-\$999):

In addition to the above perks, donors will also receive the following:

- Banner ad on fallfocus.org
- Your business brochure included in the registration packets
- Designed poster — 20 inches wide x 30 inches tall
- eNews banner
- Tabletop space by registration desk for business promotion

Level III (\$1000-\$3,499):

In addition to the above perks, donors will also receive the following:

- Slide show promotion during breaks

Level IV (\$3,500 and above):

In addition to the above perks, donors will also receive the following:

- Ten minutes to address attendees

A Profitable Cow Herd Begins With Honest Reflection.

1. Who is Profiting?

Are your industry partners helping you stretch your dollars? Or, are you merely lining the pockets of others? In an effort to chase those vaunted premiums have you sacrificed the fertility and longevity of your cowherd? Have you been convinced of the merits of straightbreeding, when you know the time-tested truths of crossbreeding and heterosis? Tradition only has staying power if it is linked with technology, adaptability, and beneficial business relationships.

USDA MARC GPE Progress Report 22 data states that a 50% Continental x 50% British composite is optimal balance of yield grade and quality grade.

2. Collaboration.

You demand humble business partners willing to collaborate on your behalf. You reach your hand across the fence and expect your breed association to have the courage to do the same. The American Simmental Association was a founding partner in International Genetic Solutions (IGS). IGS now represents 12 breed associations and the largest beef genetic evaluation on the planet. We Collaborate. You Profit.

IGS has over 17.5 million head in its database and adds more than 300,000 head every year.

3. Truth.

Ask any crop farmer – the size of a check doesn't reflect profitability. In recent years, crop producers deal in larger dollars, but haven't necessarily taken more money home to their families. It is uncontested that cow fertility and reproduction are the primary impact on the bottom line for a beef producer. Regardless of biases or misconceptions, some breeds have focused on an efficient cow while some speak purely to terminal premiums.

It is scientific fact that the Crossbred cow is more fertile and more profitable over her lifetime.

Youth Programs

The American Junior Simmental Association (AJSA) is the official youth organization of the American Simmental Association. Founded in 1975, the AJSA has more than 3,500 members. The AJSA strives to help youth achieve future success by instilling a comprehensive understanding of the beef industry while developing leadership, networking, and communication skills. The AJSA is governed by 16 AJSA Trustees, with each person serving a two-year

term. The Trustees generate progressive leadership and educational activities, make recommendations for new programs and ideas, all the while striving to strengthen the leadership potential of the junior members, and promote Simmental cattle.

AJSA Summer Classics

Each summer, youths from around the nation gather to compete in the AJSA Summer Classics. Exhibitors not only show their cattle, but also compete in three of four educational contests. Through these contests, the AJSA strives to develop highly skilled young breeders motivated to continue in the beef and agriculture industries.

Regional Classics

Regional Classics are hosted by a state Simmental association in three or four of the ASA's four geographical regions. Held in June, Regional Classics are, for many members, a warm-up for the National Classic. Regionals are a fun-filled week of friends, cattle, and educational contests.

other beef breed junior national event, the AJSA requires exhibitors to compete in three of four educational events in order to exhibit their cattle. Educational competitions include public speaking, sales talk, cattlemen's quiz, and livestock judging, all of which help to develop confidence and communication skills in the future leaders of the Simmental industry. Juniors from across the country vie for top honors to place in the Top 20 of each of the contests

National Classic

The National Classic is the highlight of the AJSA summer events and is co-sponsored by the American Simmental Association and the host state Simmental association. The National Classic provides an opportunity for AJSA members to showcase knowledge of their cattle and the industry. Unlike any

and the esteemed Overall Top 20 of each age division (junior, intermediate, and senior).

Activities showcased at the National Classic include:

- ◆ Bred-and-Owned and Owned Purebred Simmental, Percentage Simmental, Simbrah, and Fullblood female, cow-calf, and steer shows
- ◆ Showmanship
- ◆ Sales Talk
- ◆ Livestock Judging
- ◆ Photography Contest
- ◆ Recognition of Merit Award and Steer Profitability Competition winners
- ◆ Cattlemen's Quiz
- ◆ Public Speaking
- ◆ Junior Herdsman of the Year
- ◆ Interview Contest

Summit Leadership Conference

While the Regional and National Classics promote the show cattle and educational contests, the AJSA's biennial Summit Conference focuses on leadership development. Junior members, parents and advisors from all over the country participate in the event. During the four-day event, they hear nationally known speakers, visit farms and ranches, and attend workshops designed to enhance the individual's leadership talents, communication skills, and beef industry knowledge.

Scholarships

The AJSA is dedicated to learning. Each year the American Simmental-Simbrah Foundation awards over \$25,000 in scholarships to AJSA members receiving the Silver and Gold Merit Awards.

Steer Profitability Competition

The AJSA Steer Profitability Competition (SPC) is designed to provide members of the AJSA meaningful exposure to the opportunities and challenges associated with cattle feeding. The SPC not only allows participants to measure and compare the profitability of their own animal(s), but of greater importance, introduces young beef enthusiasts to peers, mentors, industry advocates, and experiences that are exceedingly difficult to acquire for any beef producer.

Value Based Genetics Sale, February 3, 2018, Decorah, IA. Herd improving bulls, females and embryo matings available at all times.

Our mission statement has become simply: **"VALUE BASED GENETICS"**. Every selection criteria we use has an economic benefit or cost. Selecting for phenotype only without considering feed efficiency, reproductive efficiency, carcass, or growth would be disastrous just as ignoring phenotype would limit marketing. Our goal is to produce the best females possible by multiplying proven cow families and incorporating value parameters on their performance.

Profit Through Science

We do the science, you make the profit.

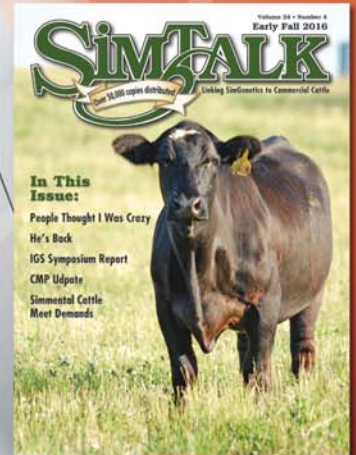

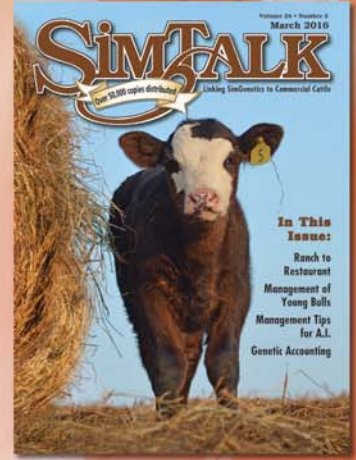

SIMTALK

Linking SimGenetics to Commercial Cattle

Published four times annually with a special edition Breeder Directory, *SimTalk* is a glossy, full-color publication with a circulation of 40,000+ targeting commercial users of SimGenetics. Advertising in *SimTalk* provides a unique opportunity to brand and trademark your program to thousands of potential customers. If you are serious about communicating with the commercial beef business, consider an advertising presence in every one of our four annual issues.

Genetics don't lie. Woodside Land and Cattle is a 4th generation farm in Pleasantville, Iowa. We have an entire herd of recips, a herd of registered cows, and a handful of donors and donors in development. We have been to many venues like the Iowa State Fair and the Kansas City Royal and done quite well. We sell cattle at the Iowa Beef Expo and private treaty. Through rigorous selection for pedigree, performance, and phenotype, we are making improvements every day.

are serious about data they collect!

Do you collect data on all calves for each of these six traits?

- Calving Ease
- Birth Weight
- Weaning Weight
- Yearling Weight
- Yearling Hip Height
- Ultrasound or Carcass Measurements

Yes! You qualify as a

ASA Performance Advocate

ASA Representatives

Bill Zimmerman
 ASA Representative Manager
 406-587-4531 • Ext. 510
 Foley, MN
 bzimmerman@simmgene.com

The ASA vision as set forth by the Board of Trustees is to enhance the success of ASA members and their customers predominantly by meeting the genetic needs of the commercial industry through the application of science and technology. To help accomplish this vision, since the fall of 2013, the ASA has provided field support services to members by strategically using and targeting the talents and geographical locations of the ASA Trustees, Staff and Representatives.

ASA Representatives work on an area event-by-event basis, with their primary role being attendance at member and state association functions. By using \$2,000 or more of promotion services from ASA Publication, Inc., you qualify to have an ASA Representative assist you, the ASA member, and your customers to be successful using Simmental, SimAngus™, and Simbrah genetics. You may request an ASA Representative to assist you in various ways — such as attending a sale, speaking at an open house or field day, assisting in making customer or feedlot visits, attending local feeder calf sales, or other ideas you have that can help you be successful. State associations can request ASA Representatives for one state function annually. And, Cost Share funds can also be utilized to sponsor ASA Representatives to attend state association endorsed producer meetings, seminars, trade shows, and field days.

Your local ASA Representatives are familiar with the commercial and seedstock business in your area, are people who you and your customers probably already know, and, over time, can become an invaluable part of your business network. They have strong technical knowledge of the beef industry, and the ability to communicate it. The ASA team includes former animal science professors, extension educators and common sense producers with decades of collective practical experience and formal training in beef cattle production. They are the best in the industry!

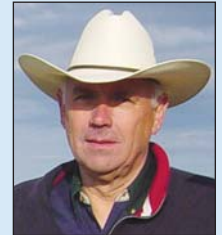

“We’re here to serve you!”

Gold Bullion Group's 16th Annual
Sale, March 4, 2018

We have been breeding red and black Simmentals along with SimAngus™ genetics since 1986. We breed cattle that are structurally correct, moderate framed and deep bodied with plenty of muscle. Calving ease and maternal traits are very important as well as carcass quality. However, we will not sacrifice performance as we feel that is a major strength of the Simmental breed. The ranch is located 4 miles east and 5 miles north of Manhattan, Kansas. Feel free to drop by any time to look at our herd or the cattle we are currently offering.

Cow Camp Ranch is a multi-breed seedstock supplier located on the western edge of the Flint Hill grasslands. We have been raising cattle for four generations and have been heavily involved in the Simmental breed since 1970. During that time cross-breeding has become an important and essential tool here at Cow Camp as we have incorporated the Angus and Red Angus breeds into our program. In these days of high market volatility and high-input costs there has never been a bigger need for cattle that will function efficiently and create a high-quality end product that will meet the demands of our consumers. Crossbreeding helps us meet those goals and produces cattle that will work in the real world as well as in the market place.

We invite you to join us in building better beef.

Through long-term dedication to measuring, testing, & selection, Irvine Ranch's objective is to provide consistent and reliable genetics for our customers.

Increase EPD Accuracy

If you are interested in knowing more about your young animals, ASA can help.

Three panels are currently offered. These panels include parent verification and improve the accuracy of EPDs.

GGP-HD – \$90.00

Required for AI Sires and Donor Dams

GGP-LD – \$50.00

Recommended for all other animals

GGP-uLD – \$33.00

Recommended for replacement heifers

Genotyping performed at **GENESEEK**

Sale:
We have bulls, cows, heifers,
semen and embryos for sale.

Jensen Simmentals breeding program concentrates exclusively on Fullblood Fleckvieh Simmental cattle. We have used full Fleckvieh bulls from the beginning and are in our fifth decade. Fleckvieh cattle have become increasingly popular due to their moderate frame, docile nature, and fleshing ability. We have concentrated on low birth weight, fast-growing cattle when selecting our bulls.

Selling: 90 Bulls

50 Registered Yearling Heifers

Simmental • SimAngus™ • Angus • Red Angus

Get Genetics that will

**Maximize your Profits!
Optimize your Resources!**

- Smaller framed, big-ribbed cattle with optimum milk production that can function on your available forage with little or no supplemental hay or grains.
- Genetics from a cowherd that is required to calve on the open range, even first-calf heifers.
- Genetics from a cowherd where there are no "free passes". She must calve and rebreed on grass with no human help. No excuses. No Pets!
- Genetics from low-input females that are also proven for carcass traits and value.

- Genetics from a cowherd that stresses longevity. 13-15 year-old cows still raising calves on minimal inputs. These are genetics from proven females not from over-pampered flush cows that may have only had one or two natural calves.
- Big ribeye bulls with above average marbling and tenderness.
- Genetics from a herd that has for 40 years, selected for feedlot gain and feed conversion.

These were the bottom-end of the 2015 bull calves. They netted 71.54 over the base-price and were fed at the ranch on a high-roughage ration.

PROVEN GENETICS ...

Predictable Results

For over 30 years, we have been committed to raising cattle that work for a living and perform profitably.

We're proud to have always been involved with a breed that provides solutions to the entire beef industry, and look forward to a bright future with SimGenetics.

Some of our past sale successes:

Plan now to join us at the farm.

Fort Worth Stock Show and Rodeo

Show Date - January 26, 2018
817-877-2400
www.fwstockshowrodeo.com

Note: Fort Worth is the National Show
this year.

The American Simmental Association

is proud to sanction high-quality Simmental and Percentage Simmental Progress Through Performance (PTP) shows throughout the country. The PTP program is designed to promote multi-level progress within the SimGenetics industry. PTP shows effectively combine the assessment of statistical data, such as EPDs and actual measurements, with traditional phenotype evaluation.

PTP Judges

PTP approved judges have been deemed as respectable and knowledgeable cattle evaluators by the ASA Board of Trustees Activities and Events (A&E) Committee. To be named as a PTP approved judge, an application must be sent by the applicant or on the applicant's behalf along with two letters of recommendation from current ASA members for review by the ASA Board of Trustees A&E Committee. The A&E Committee approves or denies all applicants. Each year the A&E Committee inspects the list of approved judges and makes modifications when necessary. View the PTP approved judges list at: www.simmental.org

The Maryland Simmental Association will be sponsoring a number of Junior Simmental Show Divisions throughout Maryland to help promote and obtain recognition for the Simmental Breed.

We sincerely wish our juniors all the best with a fun and successful show year.

Genetics customers deserve profit improvement with no surprises when it comes to performance and convenience. All cattle must be fertile, calve easily, grow fast and efficiently and provide product value up and down the beef chain.

Longevity traits like feet, udders, disposition are also non-negotiable. If you aren't getting all of that and more from your seedstock provider, give us a call. You really do deserve to have it all.

The Most Profitable Calf is the Crossbred Calf.

**SimAngus™
The Obvious Choice.**

"Crossbred steers with a **50:50 ratio of Continental European to British breed** inheritance are likely to produce a more optimum balance between carcass **quality grade** and **yield grade** than crossbred or straightbred steers that represent either 100% British breed, or 100% Continental European breeding."

— MARC GPE Progress Report No. 22, USDA

Trait	Simmental Rank vs. Major Continental Breeds*	Angus/Red Angus Rank vs. Major British Breeds
Marbling Score	First	Second
Carcass Weight	First	First
# Retail Product	Second	First
Weight Gain Feed Efficiency	First	Second
Weaning Weight	Second	First
Post Weaning Gain	Second	Second
Shear Force	First	First

2012 Across-Breed EPD Table, GPE Rep. 22, MARC, USDA

Beyond the Bounds of Print

An extended electronic version of the Register going beyond the bounds of print to delve deeper into the stories of Simmental and SimGenetics producers, programs, and happenings.

www.simmgene.com/tReg

Promotion & Marketing

Chip Kemp
 Director of Member & Industry Relations
 406-587-4531 • Ext 508
 ckemp@simmgene.com

ASA continues to strive for a promotion and marketing campaign that is adaptable and effective across a variety of platforms.

The primary focus of this effort is to inform our membership and the beef industry as a whole of our programs and the impact those programs are having across the industry. At the same time, a major secondary focus is to increase application of science-based technologies and approaches in all facets of beef production. This takes a cohesive, yet tailored approach that reflects different venues and different audiences. Print advertising, continued enhancement of our multimedia efforts, app-based promotional work, and unique collaborative measures are always being reviewed and updated to reflect the mission of ASA and its members.

Advertising

Advertising is no longer limited to print media — it is a larger campaign utilizing new resources. Ad clicks for national publications, online and print readership of *SimTalk* and *the Register*, in-house produced sale flyers, and eBlasts are all included in ASA's multi-layered advertising efforts to add value to SimGenetics.

Advertising is also increasingly customized to have the desired result at the most reasonable price point. Ongoing reviews of current marketing campaigns and strategies,

continual development of materials that are in line with current industry topics and concerns, and collaborative efforts with International Genetic Solutions (IGS) partners when prudent, are always front and center for ASA.

Multimedia

Multimedia continues to provide ASA unique methods for outreach and promotion. A robust lineup of websites:

- simmental.org
- internationalgeneticsolutions.com
- fallfocus.org

ASA Mobile App

All of these websites, provide relevant and timely updates and information. Increasingly, these resources also share video testimonials, educational and industry related talks, and interactive portals regarding the latest scientific topics impacting ASA members and our industry.

Multimedia also allows ASA to adapt to the latest technologies available. Whether it's the "in your pocket" convenience of the ASA Mobile app or the cooperative work with DVAuctions to produce highly effective SimGenetic testimonial videos to be shared through many platforms, ASA staff is constantly considering novel manners of relating to the membership and the larger industry.

Press Releases

Available on Simmental website www.simmental.org. Click on Simmental Media, Press Releases.

State Association Support

State association support is a major focal point for ASA staff. Passionate breeders and state associations are vital to the success of both sharing the industry changing strengths of SimGenetics and expanding the utilization of Simmental and Simmental hybrids. It is ASA's job to aid the state groups in this effort.

ASA has two programs for state association participation:

- **Cost Share:** The Cost Share program provides reimbursement funds for state association advertising and breed promotion.
- **Check-Off:** The Check-Off program is an incentive-based reimbursement calculated on animal registrations within each state.

For more detailed information check out pages ?? and ?? or www.simmental.org.

Samples of pull-up booths used by State Associations at sales, shows and regional events. Cost Share dollars can be used for booths.

Samples of pull-up booths used by ASA Representatives at sales, shows and regional events.

Trade Show Booths

Trade show booths are a tried-and-true method of reaching SimGenetic enthusiasts and helping develop relationships with new SimGenetic users and customers. ASA develops attractive booth displays that garner attention at a wide array of trade shows on an annual basis.

4-panel booth developed to be used by ASA at national conventions such as NCBA.

Maximize Your Profits. Focus on Crossbreeding.

The Science of Crossbreeding

- Crossbred cows stay in the herd 1.3 years longer and produce 20% more weaning weight over the lifetime of the cow than their straight-bred counterparts (USDA MARC Report 22).
- SimAngus™ utilizes genetics from the #1 Continental and British breeds for nearly every category measured by USDA's Meat Animal Research Center (USDA MARC Report 22).
- SimGenetic composites simplify crossbreeding, maintain uniformity and achieve optimum levels of heterosis.
- Simbrah and SimAngus™ HT genetics offer insect and heat tolerance.

SimGenetics
PROFIT THROUGH SCIENCE
American Simmental Association
406-587-4531 • www.simmental.org

We do the Science. You Make the Profit.

International Genetic Solutions

- World's first, largest and most powerful multi-breed genetic evaluation.
- Based by data on over 14 million records from 13 breed associations.
- Compares animals of all breeds and breed combinations on a common EPD base.

Economic Indexes Powered by USDA

- AAA SAPI is the industry's most widely used index for predicting whole herd profits.
- ASA's STI provides powerful profit prediction for terminal sire usage.

Carcass Merit Program

- The industry's longest running and largest carcass merit test.
- Testing sites of multiple breeds to establish breed differences useful for crossbreeding.

It Works!

- Proven to breed herds as much larger in the traits that impact your bottom line.
- Healthiness and dramatic improvement in calving ease, genetics and marketing.
- Less mature size than Angus, Hereford and Red Angus (US MARC Data).

Good Science is Good Business and that Means Profit.

The Most Profitable Calf is the Crossbred Calf.
Its superior performance, efficiency and combination of carcass traits cannot be matched.

The Most Profitable Cow is the Crossbred Cow.
Her superior longevity, fertility and efficiency cannot be rivaled.

SimAngus™

Don't take our word for it.

The data provided by the USDA through the Meat Animal Research Center shows the clear choice to maximize profit. SimAngus™ provides the hybrid vigor and complementarity necessary to maximize profit both in the cowherd and feeder calf scenario.

ASA's primary function is to develop the best possible tools for genetic improvement.

Luke Bowman
Director of Commercial and Industry Operations
406-587-4531 • Ext 518
lbowman@simmgene.com

The ASA takes this role very seriously and as a result, has developed the strongest genetic evaluation in the industry, along with genetic selection tools to accompany that genetic evaluation. Many of the members and their customers have adopted and implemented these tools and technologies and, as a byproduct, have created some of the best cattle in the world. Although the American Simmental Association is not a feeder calf marketing company, they have done what they can to express the genetic superiority of the cattle that are a result of the adoption of the mentioned technologies.

Sample still shot from SimGenetic marketing videos produced by DVAAuction. View video at www.simmental.org

Some of the feeder calf marketing efforts include:

- Established feeder calf sales highlighting the respective genetics.
- Connecting buyers who recognize this genetic value with ASA's members' customers.
- Developing new means of genetically evaluating feeder cattle.
- Ear-marking (both figuratively and literally) those genetics with the SimChoice and Allied Access programs.
- Providing representation at feeder calf sales to assist in highlighting and representing the genetics being marketed.

Trust in the Gold Standard

- Largest Beef Genetic Evaluation
- All Breeds and Breed Combinations
- Full Suite of EPDs and Indices
- Direct EPD Comparisons
- Full range of Risk Management Options
- Commercial Herd Access
- Producer Friendly Cost Structures
- Proven Profit Calculator

Sale Date:

16th Annual Carcass Performance Partners Bull Sale, March 10, 2018, Lucedale, MS

Our bulls keep getting better and better each year. That's what they are supposed to do if we are breeding our cows to the right AI sires. Many large herds keep all their bulls to have enough bulls to have a sale on their farms but their tail-end bulls are not as outstanding. We offer only our best. The lower quality calves meet an appointment with a pocket knife – so we can offer you a bull that is a top-end bull with all the performance, calving ease, disposition, carcass traits and maternal traits you are looking for that will make your calves more profitable. Our group of smaller breeders do just that, cut the bottom end – grow out the best to bring to Lucedale!

PROFIT THROUGH SCIENCE
American Simmental Association

All Purpose Index API

- Designed to work best when selecting sires for use in herds that retain replacements and culled females: steers are finished and sold grade and yield.
- Uses USDA technology and CattleFax price projections to predict profit differences between sires in units of \$ per exposed female.
- ASA establishes API to be the most effective selection tool available to commercial producers working to improve their genetics and ranch profitability.

For more detailed information on API, visit: www.simmental.org

Our Registered Full Fleckvieh Simmental farm was started in 1994. It is based on the belief that Fleckvieh-influenced cattle provide valuable carcass quality and yield in today's beef market. We have a variety of offspring to offer including red, black, and polled. Our breeding program uses both top AI sires and hybrid herd sires. Disposition is very important to us in our selection process. We are members of the Fullblood Simmental Fleckvieh Federation and American Simmental Association. Our farm utilizes the (THE) Total Herd Enrollment Program with the American Simmental Association.

Yeah, We're **HOT**

But we can take it!

Heat, Humidity, Fescue

The American Simmental Association offers the Beef Industry's most varied and robust lineup of heat tolerant, fescue tolerant, disease resistant cattle. As you battle through the environmental challenges that face your cow herd, take the time to check out SimAngus™ HT, Simbrah, and slick-haired Simmental and SimAngus™ options.

BREED FOR PROFIT

Utilize the #1 Tool to Maximize Terminal Value

TI Terminal Index

For more detailed information on TI, visit:
www.simmental.org

Proud Partner

IGS International
Genetic Solutions
www.internationalgeneticsolutions.com
We Collaborate. You Profit.

SimGenetics
PROFIT THROUGH SCIENCE

American Simmental Association

Designed to work best when selecting sires for use in herds that finish all calves and sell on a grade and yield basis.

Uses USDA technology and CattleFax price projections to predict profit differences between sires in units of \$ per exposed female.

ASA establishes TI to be the most effective selection tool available to commercial producers when marketing all heifers and steers through terminal channels.

ASA Fall Focus 2017

“Select for Success”

September 17-20

Bismarck, North Dakota

Co-hosted by the North Dakota Simmental and
American Simmental Associations

Fall Focus 2017 Registration Information:

There is no registration fee; however, pre-registration is required to plan for meals and refreshments.

Complete program details will be available in the *July/August Register*

www.fallfocus.org

Schedule:

Sunday, September 17 — Education Session

Ramkota Hotel (Headquarters)

- Come and learn from one another. This year's educational session will feature academics, industry leaders, ASA staff, and renowned breeders. Seedstock breeders and commercial cattlemen will leave the session with information to confidently make genetic selection decisions.
- Watch for a detailed agenda on www.fallfocus.org and in the July/August issue of *the Register*.
- Evening Dinner and Social at Black Leg Ranch, transportation provided. Hosted by the North Dakota Simmental Association.

Dining room at Black Leg Ranch

Monday, September 18

- Interactive Committee Meetings and staff presentations. Join the ASA Trustees to discuss critical issues in each of the five Standing Committees and hear staff reports in various areas.
- Lunch is provided
- Dinner on your own

Tuesday, September 19

- Board Meeting Continues — all are invited to stay
- Lunch is provided
- Dinner on your own

Wednesday, September 20 —

adjourn by 10:00 am

- Board Meeting — voting on resolutions
- Adjourn by 10:00 am

North Dakota State Capitol

Theodore Roosevelt National Park

Hotel Information:

Ramkota Hotel (Headquarters)

800 South 3rd Street, Bismarck, ND 58504
701-258-7700

Rate: \$109.00

Cut Off Date: September 4, 2017

www.bismarck.bwramkota.com

Group Code: Fall Focus

Travel Information:

Bismarck, ND Airport

www.bismarckairport.com

Free shuttle to and from the airport —
use the courtesy phone in luggage area.

Area Information:

The Bismarck/Mandan area provides a variety of activities for the entire family. The North Dakota state capitol is a beautiful site to see. It is located next to the Heritage Center, which includes a variety of artifacts and pieces of North Dakota's history, dating back 600 million years. The Missouri River separates Bismarck and Mandan and offers a variety of recreational activities. Fort Lincoln, just south of Mandan, is a fascinating historical site offering military and Native American history. Tour through the On-a-Slant Indian Village with reconstructed earth lodges or walk through Custer's house to step back in time. The North Dakota Badlands and Theodore Roosevelt National Park lie west of Bismarck/Mandan about 90 minutes by car. North Dakota has elite fishing, golfing, rugged biking, fine shopping, dining, and so much more!

Unprecedented awareness of your calves.

NO COST!

IGS breed associations are ideally suited as the industry's benchmark in gauging feeder calf value. Leverage the power of the world's largest beef genetic evaluation to identify your calves' profit potential. The IGS Feeder Profit Calculator identifies the relative value of your feeder calves and provides a third party certification to data-driven buyers. All at no cost to you!

Open to the majority of breeds and breed compositions.
Market with confidence and maximize your purchasing dollars.

Member Development

Open HerdBook Policy

ASA accepts all data regardless of breed composition. ASA has the largest database ready to accept your records and assist you with making better beef.

Database Collection

One of the primary functions of the ASA is maintaining the database which comprises the animal, breeding and performance records. The database contains more records on cattle including information such as ownership, name, identification, pedigree, birth date, weights at different ages, and DNA status. This information is provided to ASA members and non-members. We also maintain a member database which is tied to the animal database. Let a member of our Processing Team assist you in your reporting needs and reports available for making breeding decisions.

Ownership of Records

Record of ownership is tracked, first by the person submitting the record when accepted into ASA's HerdBook (database), and then by breeders submitting transfers (informing ASA that the animal has been sold). ASA recommends that transfers be recorded each time an animal is sold; however, this is only a record of who owns the animal.

Membership

Many benefits are included with every membership, including products and services offered exclusively to active ASA members. There are two types of memberships, Adult and Junior. Junior programs are oriented to keep our youth involved in the industry. Membership is open to anyone.

Registrations/Registration Certificates

Registration certificates are an important service. For animal records that meet certain breed and pedigree requirements, the Association issues registration certificates based on the information in the database. A registration certificate is a document that reports information — identification, ancestry, gender, ownership, EPDs and other information.

Transfers Mean Opportunity

Transferring the registration certificate from one owner to another represents valuable marketing opportunities.

HerdBook Services

Herdbook Services gives current members electronic access to their own herd data as well as pedigree and performance information on all animals in the database. General information is available to the public via ASA's website. **Check out www.herdbook.org for more information.**

Data Reporting

HerdBook gives members a structured way to report or update their own animal records electronically. Edits (checks/validations) are in place to assist members in meeting needed requirements (stated in the Rules and Bylaws) for acceptance into ASA's HerdBook (database).

Active Herd

Introducing a new Herdbook feature called "Active Herd", which allows members to create and maintain informal records for animals. Active Herd is a service to members who wish to record supplementary data for their animals.

Members can add new animals or import existing (reported) animals into custom animal groups, and report various data, including: animal data, breeding records, pregnancy checks, treatment records, and weaning/yearling records. The animals and data are not official records; however, Active Herd data can be used to start a new job to report and register animals in Herdbook.

This feature can be accessed by going to Herdbook Services at herdbook.org, logging in, and clicking the "Active Herd" link under the "Herd Mgmt" menu.

ASA's Operations/Processing Team

*Left to Right, Back Row: Cindy Newell, Heidi Todd, Marni Gaskill, Leoma Wells, Erika Tinetti, Marilyn Roth, and Carla Stephens.
Front Row: Jannine Story, Emme Troendle, Sage LeBlanc, and Lilly Brogger.*

ASA's Processing Team is on the cutting edge of records management systems, utilizing the latest in technology to provide accurate, up-to-the-minute analysis of all herd records. The processing team's mission is to provide assistance to breeders interested in advancing their programs to improve cattle production.

Any Customer Service Specialist is able to assist you with your registrations, enrollments, transfers, processing or web data-entry support.

Please call 406-587-4531 and we'll connect you with the right person to assist you or correspond by email:

DNA – Genetic Trait and Defect Monitoring (TraitTrac)

ASA's genetic condition and trait monitoring policy (known as TraitTrac) uses DNA marker tests to identify, monitor and provide information concerning genetic traits or conditions for animals in our registry. TraitTrac indicates the status (free, at risk, or carriers) of different traits with known information on individual animals. This status can be viewed from the EPD/Pedigree display found in Herdbook Services,

under Animal Search. An animal's genetic condition status is determined from information provided to the ASA from recognized laboratories or Breed Associations.

HD and LD Testing for SimGenetic DNA-Enhanced EPDs

For decades, the ASA has used DNA to verify color, genetic conditions and parentage. For the past four years, the ASA has used a DNA test (GGP-HD) that, when incorporated into ASA's genetic evaluation, adds significant enhancement to lower accuracy EPDs. Recently, members had a less expensive and nearly as accurate DNA test

option called GGP-LD. In the fall of 2016, GeneSeek launched an even more economical genomic test called the GGP-uLD. DNA information is just like adding progeny to the genetic evaluation. Genomic testing advances accuracy without waiting for progeny. What would you pay to progeny test your animals?

GGP-LD Rebate

In the Spring of 2016, the board unanimously passed a directive to provide a 50% price discount on LD genomic tests, per animal for which an ASA member provides feed intake and/or carcass data. To qualify, an animal's record must be viable for use in genetic evaluation (i.e., come from a valid contemporary group in ASA's Herdbook database) and have been born later than August 31, 2015. This incentive couples the need to increase the number of carcass and feed intake records in our database with an increase in the use of genomic testing.

Find out more about ASA's DNA testing options at www.simmental.org/haveyouherd

New DNA Prices:

In the fall of 2016, the ASA staff and executive committee undertook a massive revamping of the DNA price schedule. A highlight of the new structure is add-on pricing, reduced rates for traits and conditions completed with the genomic panels (GGP-HD and GGP-LD). Parent Verification (PV) was also reduced. The previous PV fee was higher in part to compensate for staff time spent on exclusion cases or large multi-sire groups. In the case of an exclusion, the new price will include testing two additional possible parents. However, if more time is needed beyond these two additional parents, there will be a DNA research fee charged to compensate for additional staff time.

 Bull Sale, February 27, 2018

Settled between the Highwood and Little Belt mountains, Hill's Ranch Simmentals is proud to call central Montana home. We have been raising Simmentals since 1969 and find them to be the best type of cattle to meet our goals of providing an excellent beef product. From the beginning, Hill's Ranch has focused on calving ease, maternal and growth traits. Now as we look into the future, the goal is to also incorporate exceptional carcass and tenderness traits. Come join us in March for our annual bull sale. Females are also available so stop in any time to view our cattle. The coffee pot is always on.

Bulls of the Big Sky,
February 19, 2018,
Billings, MT

We are a family owned and operated business. Jeff and Shere began raising cattle together in 1985, now joined by son, Shane, and his wife, Katie and grandson Taylor. Koch Cattle is looking toward a strong future in the Simmental cattle business for years to come. Shane started our Simmental herd with the purchase of a Simmental heifer to show in 4-H. From a strong foundation of Angus cows, our expansion into the Simmental, SimAngus™, and Angus cattle has grown and will continue to grow. Koch Cattle uses AI sires to produce cattle with the focus on maternal and carcass traits to produce well-rounded functional cattle. We produce bulls and replacement females for the commercial buyers and the seed stock producers. Koch Cattle is blessed to be one of the breeders in the Bulls of the Big Sky group. Koch Cattle is represented by our herd bull "Koch LC Monte 803U" and new herdsires Hooks Beacon 56B, and LRS TenX Excellence 352C.

Begger's Diamond V

Two-year-old heifer with a seven-month-old bull calf

At Begger's Diamond V Ranch the rancher comes first. Our focus is to raise homozygous black homozygous polled Simmental, SimAngus™ and Angus seedstock that calve easy and have the genetics that work for the cowmen and women who raise them.

Our cattle are easy-keeping, sound, and low-maintenance, these cattle possess excellent udder quality and pigment is a high priority. We don't tolerate wild, nervous cattle and you shouldn't have to either. At Begger's Diamond V Ranch we offer over 200 high-quality breeding bulls annually that have passed our rigorous culling program. You can be confident that your purchase will be guaranteed to satisfy the most demanding cowman's needs. You bet they calve easy, weigh heavy at weaning, and they will sire outstanding replacement females that won't need pampering to survive. These cattle work in tough environments and excel in profitability (feeders and packers love them). They are more than a pretty set of EPDs.

Plan to attend our 42nd Annual Production Sale February 7, 2018, where over 80 long-age 18-month-old and 120 stout yearling bulls sell, every one black and polled and all ranch-raised in an environment that separates cattle that become problematic; yes they are backed by a guarantee second to none.

State Associations

The ASA is continuing its efforts to enhance the relationship between the ASA and the State Simmental/Simbrah Associations and expand the promotion of SimGenetics at the local and regional levels.

Since 1979, when the ASA established programs to assist state associations with promotion and activities, it has been our goal to reach and support these groups. State/regional activities provide important connections with the ASA, which for that reason, works to help each association and in turn, the beef industry as a whole.

Dr. Bert Moore

State Association Liaison
406-587-4531 • Ext. 509
bmoore@simmgene.com

State associations utilizing financial resources provided by the ASA have expanded membership and the popularity of Simmental in all aspects of the beef industry in their respective areas. We urge the leadership and members of state and regional associations to study the resources available to them and use them for maximum benefit. Each state association has the option of having an ASA representative present at one event each year, including meetings, field days, trade

shows, educational programs, etc. The list of states requesting this service increases each year, representing ASA across the country. If an association requests additional funding beyond their one fully-funded event, cost share monies can be utilized.

Associations not taking advantage of this funding are “leaving money on the table”. An effort has been put forth to contact all associations to inform them of and encourage them to use this money. The ASA website, simmental.org, has information dedicated specifically to state associations, including information on state officers, promotional Check-off dollars, bonuses and Cost Share, available ad templates, and links to state association websites. State associations are strongly urged to submit information to register@simmgene.com to be featured in STATE NEWS. Please contact me to learn more about how your state association can take full advantage of available resources.

Regular and consistent contact has helped to maintain the use of the promotional funding which is available to state associations. Quarterly messages reminding of the availability of check-off dollars has been a good way to keep in touch with these associations. Trustees and area representatives are also important contacts with knowledge of these programs. It is a privilege to work with the state associations from across the country and find out about their needs and the variety of ways that SimGenetics are working for them.

For the 2014-15 and 2015-16 fiscal years, the Board of Trustees increased the funding available to each State Association from \$3,500 to \$4,000. As a reward and continued incentive to all state associations that used their maximum allotted cost share funds, available monies were increased an additional \$1,000 for 2016-17. Eleven associations qualified this past year. This incentive continues into the 2017-18 fiscal year. These funds are available for a wide variety of promotional activities and are detailed at:

www.simmental.org/site/index.php/membership/state-associations.

Cost Share: \$4,000 each year for advertising and promotion.

Cost Share Program

Designed to reach regional markets by assisting states in the advertising and promotion of SimGenetics. The program also provides support for the promotional activities of state associations to help increase their membership as well as their market share. May be submitted all during the year. **Deadline June 30.**

- ◆ Print advertising
- ◆ eBlasts
- ◆ Booths and booth space
- ◆ Web development and maintenance
- ◆ Newsletters and member directories
- ◆ *SimTalk* special mailings
- ◆ ASA representation at state events

Check-off Program

Paid quarterly and based on animal registrations in your state. The only requirement is for your state association to send us your current list of officers. **Deadline June 30.**

- ◆ Based on animal registrations in your state — 25¢ per animal
- ◆ Current list of officers submitted each quarter — on-line form is available.

Check-off Bonus Bucks

Paid annually at the end of the fiscal year. For additional bonus dollars, a state association may submit a report indicating participation in the list of options — this bonus is also based on animal registrations in your state. **Deadline July 10.**

- ◆ Booth and Booth space
- ◆ Field Day with ASA Representative
- ◆ AJSA Event
- ◆ Cost Share Participation
- ◆ Website Promotion (link to ASA site)
- ◆ Mailings (include promotion for ASA Representative)
- ◆ PTP Show

35 state and regional associations reported their officers to the ASA, and are listed in the annual membership directory issue of *SimTalk* and the ASA website.

27 of the 35 state associations utilized the Cost Share program to varying extents during the fiscal year 2015-16. This is the same number that utilized the program for 2014-15 but up from only 20 associations using it in 2013-14. Eleven of the associations used their maximum allowable funds which qualified them for an additional \$1,000 in matching funds for promotional activities.

Cost Share: \$4,000 each year for advertising and promotion. An additional \$1,000 is awarded in the next fiscal year to those State Associations that use the entire allotted amount.

Promotional Material Available for Use

- ◆ Brochures are available for your booth at trade shows.
 - ◆ Only cost to your association is shipping.
 - ◆ Order early to save money on shipping.
- Contact Bert Moore at 406-587-4531 • Ext. 509.

State Association Pull-up Display Booth

- ◆ Can be purchased with Cost Share dollars
- ◆ Several booths to choose from

Any questions can be answered by calling Bert Moore at 406-587-4531 • Ext. 509

State Association Ad Templates

Ad templates are available to download for your use. There is no cost attached to this service. The template contains the 50% generic advertising required through the Cost Share program. They are ready to use — just place your state information in the remainder of the ad space (white area), and you are ready to go! Ads designed entirely by you may be accepted if they contain 50% generic advertising and are pre-approved.

Any questions can be answered by calling Bert Moore at 406-587-4531 • Ext. 509.

Western Cattle Source

Your source for Quality Black and Red Simmental, SimAngus™ and Angus Seedstock and Semen

We have an outstanding selection of Purebred Simmental and SimAngus™ bulls and females. This is the highest quality of seedstock from top to bottom ever offered by WCS. We have seen a tremendous increase in demand for Simmental-cross cattle. People are looking for that little extra punch in their calves whether it be in the feedlot or in the females they are keeping.

It pays to own high-quality livestock that will add pounds to your calf crop and leave tremendous females.

Stop by and take a look or give us a call to visit about how our program can benefit your operation.

Our website is located on breedingcattlepage.com

January 27, 2018
West Point Sale Barn,
West Point Livestock, NE
Consignor to Ladies of the
Valley Female Sale –
October 15, 2017,
West Point Sale Barn,
West Point Livestock, NE

At J&C Simmentals we believe quality and performance are more important than percentage. We offer quality bulls from purebred to 1/4 blood for both the registered producer as well as the commercial cowman. We guarantee our bulls and feel confident you will find something in the offering that will fit your needs. Our females are fancy, high-performance females that will fit any operation. Stop by anytime and we'll be happy to discuss cattle and the cattle industry with you.

WE WANT YOU

To choose your best option!

TOTAL HERD ENROLLMENT

Whether you are a seedstock or commercial producer, ASA has a THE option that will fit your objectives and budget.

ASA's THE dam inventory program has four different enrollment options available, making it easier than ever to find the best fit for your herd.

Genetic evaluation is available on all breeds and breed combinations for both seedstock or commercial producers.

Total Registration

Selective Registration

Non Registration

Commercial Herd

By choosing one of the THE options you will become part of the world's largest multi-breed genetic evaluation and database.

Contact ASA today to discuss the best option for you!

Sale Date:
Watch for our consignments to the Stars and Stripes Sale the first Saturday of May, Gettysburg, PA.

Simme Valley Zipper • BD: 9-11-12
JF Milestone x
CLO Sweet Sensation (War Diva)
Illinois State Fair Senior Calf Champion
Dam was flushed in co-op with
Hudson Pines Farm

Producing stylish, predictable Simmental Cattle that perform in and out of the showing. Show cattle and breeding stock for sale at all times. Bull calves and show steers available through the summer. We strive for Satisfied Customers. Our cattle work for us and their new owners, performing on grass in the summer and hay in the winter.

Visitors Always Welcome

Sale Date: 21st Annual Bull Sale
February 9, 2018, Rugby, ND

Bata Brothers Simmentals is a family-run operation in NE North Dakota that consists of Joe and his sons, Mark and Chris. Together we maintain an entirely Purebred Simmental herd of both red and black cows. Our focus is on producing high-performance, growth-oriented cattle that will add pounds and increase profitability for our customers. Our 21st annual bull sale will be held in Rugby, ND, with guest consignor Travis Bell. We sell powerful breed-leading bulls and a select group of bred heifers annually. Feel free to contact us any time.

Annual Sale: Bull and female production sale
4th Wednesday in February. Open
heifers, semen, embryos, flushes,
and donor prospects available at
all times by private treaty.

Our family is passionate about breeding Simmental cattle that are on the forefront of genetic progress. Tremendous selection pressure is placed upon foot and udder quality, along with calving ease, performance, and carcass traits. Our herd sires and donor dams are some of the most well known and heavily used genetics in the upper Midwest. Please feel free to stop in at any time to view the cowherd or call and talk "Simmental".

Sale date:
Bull and Female Sale
January 26, 2018

Terry Ellingson and father, Trueman, began **Ellingson Simmentals** in 1990 with the purchase of foundation females from Kenner Simmentals of Leeds and Marvin Ritz of Almont. Through use of embryo transfer and artificial insemination, the herd has grown to 120 brood cows of both black and red color. The goal has always been to produce high-performance cattle with calving ease, high carcass traits and functional females. Sires that have had national impact on the breed include Black Perfector, Olie, Ideal, Klondike and Dominator. Our farm is located in northeastern North Dakota between Grand Forks and Devils Lake, just 10 miles north of Highway 2. Please stop by whenever you would like to inspect our breed-improving genetics!

Sale Date:
36th Annual Klain Simmental Ranch Production Sale, Saturday, February 4, 2018, Turtle Lake, ND

We need to keep these bulls and females easy fleshing, moderate, sound, fertile and functional to succeed in our extreme environment. Our cows are raised on native grass pasture with no grain supplement. We adhere to very strict culling practices for convenience traits such as polled, moderate frame size, quality udder structure, disposition and calving ease. We also put a lot of emphasis on profit traits, growth, milk, marbling, feed efficiency, tenderness, rate of gain, fertility and longevity. With the commercial producer in mind, we offer the entirely polled, powerful, balanced traits for a useful and efficient set of cattle, with emphasis on fertility, performance and balanced EPDs.

We are looking forward to the next five to 10 years in the beef industry as it should be very exciting. It has never been more important to purchase a sire to produce functional and productive females to expand your cowherd.

Sale Date:
2nd Annual KNH Simmentals Online Bull & Female Sale
Sunday, January 28, 2018
Animals also for sale private treaty and at various consignment sales throughout the year.

KNH Simmentals is located just north of Berthold, ND and a quick 25 miles west of Minot on Hwy 2. Kent and Heather started KNH Simmentals in 1995, when they married; however, Heather, daughter of longtime producers Roger and Susan Finke, grew up in the Simmental business. They are a family run operation along with their four children, Jaden, Dawson, Jamison and Addison.

We'd like to extend a special THANK YOU to all who have purchased or shown an interest in KNH genetics and we'd love to hear from you on how those cattle are working out!! Please feel free to call and visit with us any time!

"Genetic Explosion" Sale
Friday, February 9, 2018
At the Ranch, Almont, ND

*Your commercial bull headquarters,
along with breed-leading herd sires! All
backed by the TNT 100% guarantee!
No creep feed! We invite everyone to
come to the ranch to view the cattle
and see the way we manage our herd.
We are very proud of our cattle, and
feel you will be proud of "The Explosive
Difference" they will make for you. I
truly have a passion for this business,
and love breeding cattle and the never
ending pursuit to try to make them
better. One of our greatest blessings
over the past 30 years is the wonderful
people we have met, and the dear
friends we have made in this business.*

Your Source for Everything Simmental

Circulation — 6,000 +

Circulation — 40,000 +

Circulation — 9,500 +

the Register

Serving as the American Simmental Association's (ASA) official publication, *the Register* is mailed nine times annually, has a circulation of 6,000 +, and is focused primarily on ASA's paid membership. *the Register* is a glossy, full-color publication that provides a direct and consistent line of communication to the ASA membership.

SimTalk

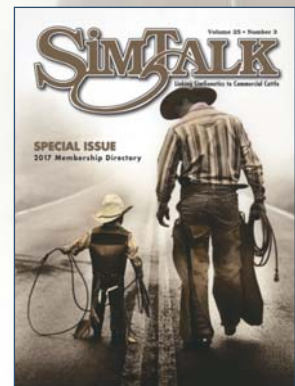

Published four times annually, *SimTalk* is a glossy, full-color publication with a circulation of 40,000 + and targets commercial users of SimGenetics and is mailed to all ASA members. Advertising in *SimTalk* provides a unique opportunity to brand and trademark your program to thousands of potential customers. If you are serious about communicating with the commercial beef business, consider an advertising presence in every one of our four annual issues.

ASA Membership Directory

Increase your brand recognition and introduce your program to thousands by advertising in the ASA Membership Directory, mailed annually in June. Breeders reference this publication year-round, and new buyers use it to get into the Simmental business. Thousands more are distributed each year to your potential customers at trade shows and Simmental events.

Sire Source

A directory designed to assist in the promotion of semen sales of quality Simmental, SimAngus™ and Simbrah bulls. This directory is mailed each spring to every ASA member in order to target potential clients at the height of the semen sales season. Thousands more are handed out at trade shows and industry events, and carried by ASA field staff throughout the year. We also offer the opportunity to promote additional sires in the on-line version of Sire Source anytime during the next year. Promoting your bull in the online version opens huge marketing avenues for you.

ASA Publication, Inc. is a wholly owned, for-profit subsidiary of the American Simmental Association, that publishes magazines and related media directed to breeders and cattlemen interested in Simmental cattle. These publications seek the following goals:

- ◆ Maintenance of quality communication sources for the American Simmental Association, its membership and the commercial industry, including: editorial content which provides Association and industry news; and as promotional, marketing and advertising vehicle for the membership.
- ◆ Enhancement of financial returns by performing additional services and programs to outside enterprises; thus, providing benefits to ASA and the membership, while building a strong staff.

- ◆ Development of cutting-edge technologies to ensure the position of ASA Publication, Inc. within the livestock and publication industries, by utilizing the most current technology and improved efficiency.

An effective outlet for Advertisers!

With the increasing demand for Simmental Genetics, now is the perfect time to create a specific marketing plan to access the growing number of breeders and available customers. ASA Publication, Inc. can help you target new business with a marketing strategy designed to establish reputation and expectation for your products and services.

Whether you choose one of our traditional, high-reputation print advertising outlets, or opt for new innovative web marketing services, let us help you develop a multi-faceted plan to bolster the success of your program.

Incredibly Affordable Full-Color Catalogs!

Be sure to contact Nancy Chesterfield for a free quote on your sale catalog or other special promotional items. Our quotes on low-cost, full-color printing options may just surprise you! Also, with our vast photo library and direct access to ASA's database, we can provide quicker, more efficient service in our catalog department — making the process easier for you.

Contact Nancy Chesterfield at 406-587-2778 or
nchesterfield@simmgene.com

Date Book

Listing of sales by month. Printed in each issue of *the Register* and *SimTalk*. No charge, no requirements.

Mailing Lists

Whether you are mailing a sale catalog or one of our special-design promotional projects, we can help you obtain a custom mailing list that specifically targets your ideal demographic. Contact Nancy Chesterfield at 406-587-2778 or
nchesterfield@simmgene.com

Web Marketing

eBlast — ASA Publication, Inc. has expanded beyond print advertising to offer our clients a broader range of marketing services. Our most popular form of web promotion is the **eLink**, or eBlast that emails directly to approximately 6,000 ASA members and subscribers. It's a quick and affordable way to get the word out about your upcoming event. Turn-around time for **eLink** can be as fast as one day.

One eLink eBlast	\$250	(includes design services)
Two eLink eBlasts	\$325	(no changes in design)
Three eLink eBlasts	\$400	(no changes in design)
Changes in design	\$250	per eBlast

Banner ad — ad placed on our website and Sales Call or weekly editions of ASA's eNews.

One Banner ad \$200
Additional runs of same banner (if space available): \$75

On-line Sale Catalog

Posting ASA designed sale catalog online in flipbook or PDF format included in package. Posting of outsourced catalogs in flipbook or PDF format: \$150.

Additional Services

Our experienced design staff can assist you in developing any form of creative printed promotion. Projects we can produce include:

State directories	Brochures	Flyers
Posters	Postcards	Banners
Printed catalogs	Business cards	eBlast ads
Photo retouching	Logos	Booths
Online catalog flipbooks	Websites	
Downloadable PDFs	Save-the-date postcards	

Per Bid Basis. Call 406-587-2778 to discuss details.

State Associations: A 10% increase in reimbursement for cost share dollars if ASA Publication services are used for ad design, newsletters, brochures, and/or directories.

Sales Call

If you have recently advertised in *the Register* or *SimTalk*, you are automatically included in **Sales Call** prior to your sale. **Sales Call** is broadcast to over 6,000 subscribers. **Sales Call** announces the date of your sale, location and provides a link to your sale catalog or website.

Added Value

Your advertisement in any one of our publications provides added value beyond your ad. Your sale dates will be published in the Datebook of both *the Register* and *SimTalk* issues leading up to your event, as well as on our website at www.simmental.org. Advertisers will also have sale reports published in *the Register* featuring sale averages, high-selling lots, and up to four photos.

Transfer Services for Sale Managers

Here's how it works: we provide a simple spreadsheet that contains all of the sale lots. Following the sale, return the completed spreadsheet to ASA — all we need is a record of the buyer number(s) on each lot and a list of your buyers. We'll handle it from there, matching buyer information to ASA memberships and completing the transfers.

- ◆ It saves you time and postage expenses when we complete the transfers online.
- ◆ Ownership is updated immediately. As soon as you give the green light, we can mail the certificates directly to the new owners or send them to you.
- ◆ Saves you the hassle of dealing with the paper certificates.

Managed by Cattle In Demand –
www.cattleindemand.com

Rolling Hills Farms is a Simmental and SimAngus™ family operation established in 1993. Our goal is to have cattle for both registered and commercial producers. We use artificial insemination and embryo transplant to advance and improve our herd. Rolling Hills Farms is located 18 miles southeast of Lima, Ohio. Visitors are always welcome. Annual Production Sale 1st Saturday in October. Like us on Facebook.

ASA Science Blog

The purpose of ASA Science Blog:

- To provide information on timely topics and subjects our readers want to better understand.
- To provide a platform for our readers to ask questions, comment, or communicate with one another about the topics posted.

The ASA Science Blog has multiple stories under the following main topics:

- **Genetic Evaluation**
Examples: “Multi-breed Stayability EPDs: Here’s what you need to know”
“ASA releases the first evaluation with BOLT and Single Step genomic enhanced EPDs!”
- **Genetic Traits and Conditions**
Examples: “Red Charlie: A Newly Discovered Red Coat Color Variant”
“Oculocutaneous Hypopigmentation (OH) testing now available through GeneSeek”
- **DNA Testing**
Example: “How Does Parent Verification Work?”

We sincerely hope our readers will use this blog to communicate with us and one another about important scientific topics that affect beef cattle production. If you have an idea about a topic you would like to see posted, please send an email to jatkins@simmgene.com.

Quick Reference Guide to ASA EPDs and \$ Indexes

Expected Progeny Differences (EPDs)

EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing what units they are expressed in. If the above case referred to weaning weight EPDs, A would be expected to sire 15 pounds more weaning weight than B. If calving ease were the trait, A would be expected to sire 15 percent more unassisted births in first-calf heifers; in other words, if B sired 30 assists in a group of 100 heifers, we'd expect A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and \$ indexes, visit www.simmental.org, then click Science/Education.

Listed below are the units ASA EPDs are expressed in:

All-Purpose Index (\$API): Dollars per cow exposed under an all-purpose-sire scenario. (See right for more details).

Average Daily Gain (ADG): Pounds of post-weaning daily weight gain.

Back Fat (BF): Inches of backfat at 475 days.

Birth Weight (BW): Pounds of birth weight.

Calving Ease (CE): Percent of unassisted births when used on heifers.

Docility (DOC): Percent of offspring receiving a disposition score of 1 (docile).

Carcass Weight (CW): Pounds of carcass weight at 475 days.

Maternal Calving Ease (MCE): Percent of unassisted births in first-calving daughters.

Milk (MLK): Pounds of weaning weight due to milk.

Marbling (MRB): Marbling score at 475 days.

Maternal Weaning Weight (MWW): Pounds of weaning weight due to milk and growth.

Ribeye Area (REA): Square inches of ribeye.

Stayability (STAY): Percentage of daughters remaining in the cowherd at six years of age.

Terminal Index (\$TI): Dollars per cow exposed under a terminal-sire scenario. (See right for more details).

Weaning Weight (WW): Pounds of weaning weight.

Yearling Weight (YW): Pounds of yearling weight.

Yield Grade (YG): Yield grade score at 475 days.

\$ Indexes

Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide a piece of the economic puzzle. That's where \$ indexes come in. Through well-conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on your cowherd enterprise. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes:

All-Purpose Index (\$API):

Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

Terminal Index (\$TI):

Evaluates sire for use on mature Angus cows with all offspring put on feed and sold grade and yield.

Using \$API and \$TI:

First, determine which index to use; if you're keeping replacements use \$API, if not, \$TI. Then, just as with EPDs, zero in on the unit difference between bulls. (As described above, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Or, put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for \$API is worth an extra \$6,000 over a +50 bull if both are exposed to 30 cows over 4 years ($\$50 \text{ diff.} \times 30 \text{ hd.} \times 4 \text{ yr.} = \$6,000$). A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and \$ indexes visit www.simmental.org, then click Science/Education.

Important disclaimer:

DO NOT compare index values of purebreds of different breeds, hybrids of different breed composition or purebreds with hybrids — our system was not developed to make valid comparison among these groups. Therefore, you must first determine the breed and breed composition appropriate for your herd and use index values to compare animals within that population.

Stay ON top OF Total Herd Enrollment

The purpose of the Have You Herd blog is to:

- Provide up-to-date information on Total Herd Enrollment (THE) and DNA services.
- Communicate instantly with members on relevant topics.

Topics posted to date include:

- A.JSA Regional/Classic Participants – DNA Testing
- Fall 2017 THE is OPEN – Deadline is June 15, 2017
- What to Expect When You're Expecting . . . DNA Results!
- THE Spring 2016 Calf Reporting – Are you in Compliance?
- New DNA Sampling Method – AllFlex TSUs
- Late Enrolled for Spring 2017 – What Happens Now?
- DNA Testing – Lab and ASA Holiday Schedule

How to follow the blog:

Stay up-to-date and receive an email notification for each blog post by visiting www.simmental.org/haveyouherd and selecting the +Follow option at the bottom right of the screen. Enter in your email address and select sign me up.

We're hoping that the blog will be a great resource for members to access with any questions regarding THE and DNA services. If you have an idea for a blog post, please email to lwells@simmgene.com.

Sale Date:
Profit Sharing February 2018

SimGenetics's #1 Supplier of Profit,
as predicted by \$API (Enterprise Wide-Life-Cycle Profitability).

No need to sacrifice cow herd fertility and longevity to get "Angus" calving ease and quality grade. Bar CK offers high calving ease, high carcass value SimAngus™ bulls available in volume. Bred and developed to work for western ranchers.

Elite \$API, Calving Ease and Marbling sires available for commercial A.I. heifer projects. Contact Bar CK for commercial heifer semen pricing.

Linking Simmental genetics to the beef business!

ASA Publication, Inc. is a wholly owned, for-profit subsidiary of the American Simmental Association, that publishes magazines and related media directed to breeders and cattlemen interested in Simmental cattle. These publications seek the following goals:

- Maintenance of quality communication sources for the ASA, its membership and the commercial industry, including: editorial content which provides Association and industry news; and as a promotional, marketing and advertising vehicle for the membership.
- Enhancement of financial returns by performing additional services and programs to outside enterprises; thus, providing benefits to ASA and the membership, while building a strong staff.
- Development of cutting-edge technologies to ensure the position of ASA Publication, Inc. within the livestock and publication industries, by utilizing the most current technology and improved efficiency.

An effective outlet for advertisers!

With the increasing demand for Simmental genetics, now is the perfect time to create a specific marketing plan to access the growing number of breeders and available customers. ASA Publication, Inc. can help you target new business with a marketing strategy designed to establish reputation and expectation for your products and services.

Whether you choose one of our traditional, high-reputation print advertising outlets, or opt for new innovative web marketing services, let us help you develop a multi-faceted plan to bolster the success of your program.

the Register

Serving as American Simmental Association's (ASA) official publication, *the Register* is mailed nine times annually, has a circulation of 6,000, and is focused primarily on ASA's paid membership. *the Register* is a glossy, full-color publication that provides a direct and consistent line of communication to the ASA membership..

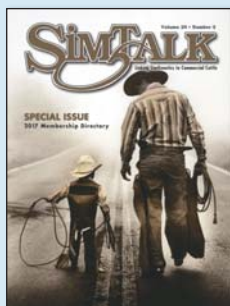

SimTalk

Published four times annually, *SimTalk* is a glossy, full-color publication with a circulation of 40,000+ and targets commercial users of SimGenetics. Advertising in *SimTalk* provides a unique opportunity to brand and trademark your program to thousands of potential customers. If you are serious about communicating with the commercial beef business, consider an advertising presence in every one of our four annual issues.

Online version of *the Register* and *SimTalk* have live links, and searchable content.

ASA Membership Directory

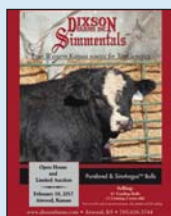

Increase your brand recognition and introduce your program to thousands by advertising in the ASA Membership Directory, mailed annually in June. Breeders reference this publication year-round, and new buyers use it to get into the Simmental business. Thousands more are handed out each year to your potential customers at trade shows and Simmental events.

Incredibly Affordable Full-Color Catalogs

Be sure to contact Nancy Chesterfield for a free quote on your sale catalog or other special promotional items. Our quotes on low-cost, full-color printing options may just surprise you!

Also, with our vast photo library and direct access to ASA's database, we can provide quicker, more efficient service in our catalog department — making the process easier for you.

Date Book

Listing of sales by month. Printed in each issue of *the Register* and *SimTalk*. No charge, no requirements.

Mailing Lists

Whether you are mailing a sale catalog or one of our special-design promotional projects, we can help you obtain a custom mailing list that specifically targets your ideal demographic.

Web Marketing

eBlast — ASA Publication, Inc. has expanded beyond print advertising to offer our clients a broader range of marketing services. Our most popular form of web promotion is the eLink, or eBlast that emails directly to approximately 6,000 ASA members and subscribers. It's a quick and affordable way to get the word out about your upcoming event. Turn-around time for eLink can be as fast as one day.

Banner ad — ad placed on our website and Sales Call or weekly editions of ASA's eNews.

Sales Call

If you have recently advertised in *the Register* or *SimTalk*, you are automatically included in Sales Call prior to your sale. Sales Call is broadcast to over 6,000 subscribers. Sales Call announces the date of your sale, location and provides a link to your sale catalog or website.

Additional Services

Our experienced design staff can assist you in developing any form of creative printed promotion. Projects we can produce include:

- ◆ State directories
- ◆ Photo retouching
- ◆ Business cards
- ◆ Printed catalogs
- ◆ Posters
- ◆ Downloadable PDFs
- ◆ Brochures
- ◆ Postcards
- ◆ Websites
- ◆ eBlast ads
- ◆ Online catalog flipbooks
- ◆ Save-the-date postcards
- ◆ Flyers
- ◆ Booths
- ◆ Banners
- ◆ Logos

Added Value

Your advertisement in any one of our publications added value beyond your ad. Your sale dates will be published in the Datebook of both *the Register* and *SimTalk* issues leading up to your event, as well as on our website at www.simmental.org. Advertisers will also have sale reports published in *the Register* featuring sale averages, high-selling lots, and up to four photos.

Transfer Services

Here's how it works: we provide a simple spreadsheet that contains all of the sale lots. Following the sale, return the completed spreadsheet to ASA — all we need is a record of the buyer number(s) on each lot and a list of your buyers. We'll handle it from there, matching buyer information to ASA memberships and completing the transfers.

- ◆ It saves you time and postage expenses when we complete the transfers online.
- ◆ Ownership is updated immediately. As soon as you give the green light, we can mail the certificates directly to the new owners or send them to you.
- ◆ Saves you the hassle of dealing with the paper certificates.

Sire Source

A directory designed to assist in the promotion of semen sales of quality Simmental, SimAngus™ and Simbrah bulls. This directory is mailed each spring to every ASA member in order to target potential clients at the height of the semen sales season. Thousands more are handed out at trade shows and industry events, and carried by ASA field staff throughout the year. We also offer the opportunity to promote additional sires in the online version of Sire Source anytime during the next year. Promoting your bull in the on-line version opens huge marketing avenues for you.

Here's what you get:

- ◆ Instant access through online Sire Source Catalog.
- ◆ Print version in hard copy at no cost to you.
- ◆ Discount on a full or half page ad in *the Register* or the *SimTalk* anytime during the on-line post.

Education

ASA strongly believes in education and reaching out to our members and their customers through a variety of ways.

Jackie Atkins, Ph.D.
Director of Science and Education
406-587-4531 • Ext. 103
jatkins@simmgene.com

In addition to our printed publications, the following educational resources are available to you:

eNews

Subscribe to ASA's weekly electronic newsletter and stay current on ASA events and news. eNews offers a quick source for the most up-to-date information about the ASA. To subscribe, go to ASA's homepage: www.simmental.org/enews/.

Internet Portal

ASA and ASA Publication, Inc. (www.simmental.org) provide information to keep you informed on the industry and ASA activities and programs. It also provides access to ASA's entire database for research.

State Associations

State associations are local or regionally based Simmental entities that operate independently from ASA to support seedstock breeders in specific locales. Access your state association officers on ASA's website.

Fall Focus

The ASA fall board meeting is coupled with a day-long educational session focused on animal breeding and current topics important to seedstock breeders and commercial cattle operations. Open committee meetings and staff updates are a perfect opportunity to learn what's happening at the ASA and offer your ideas. Join us in Bismarck, ND, for Fall Focus 2017. Watch for details or view past years' presentations at www.fallfocus.org.

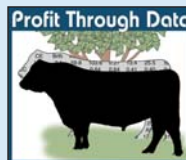

Fall Focus 2016 attendees take notes, listen, and ask questions during educational session.

Educational Events and Electronic Seminars

ASA hosts educational events in partnership with industry and academia throughout the United States as well as electronic seminars. Check ASA's website, our Facebook page or sign up for eNews to keep current on events taking place.

Blogs

The ASA has several blogs offering timely news on a variety of topics.

- **ASA Science Blog** — Join Drs. Jackie Atkins, Lauren Hyde and Mahdi Saatchi to discuss the latest animal breeding topics. Questions and comments are welcome!
- **Have You Herd?** — Your resource for all things related to DNA testing and Total Herd Enrollment (THE).
- **tReg** — An extended electronic version of *the Register*. Launched in 2013, tReg goes beyond the bounds of print to delve deeper into the stories of Simmental and SimGenetics producers, programs, and happenings.
- **Profit Through Data** — Provides information on data submission, relevant ASA news and deadlines, tools available through Herdbook Services, and much more.

Walton-Berry Graduate Student Support Grant

In 2013, Jim Berry of Wildberry Farms, Hanover, IL, started a grant to honor Dr. Walton's dedication to animal breeding and Simmental cattle. Due to a decrease in available grant money and graduate students interested in applied agriculture, conducting research in applied animal breeding faces new challenges. The Walton-Berry Graduate Student Support Grant provides \$8,000 per year (one \$5,000 and one \$3,000 grant) to faculty in order to advance graduate research programs with preference given to the area of genetics in livestock species.

Sale Date:

"King of the Range" Bull Sale –
Thursday, February 1, 2018

If you are trying to rebuild an aging cowherd, expanding an existing herd or simply trying to maximize pounds in a terminal program the option with Simmental or SimAngus™ are proven! We have tried to deliver genetics that will help in any direction you might be headed.

For the 6th straight year we have been recognized for being a Performance Advocate (PA) and enrolled in Total Herd Enrollment (THE) in that every animal in our herd has data turned in for birth weight, weaning weight, yearling weight and hip height. We take great pride in the data collection process and rest assured all the data is getting turned in.

Bulls and heifers are available for viewing at the ranch anytime, call or just stop by! If we can be of any help please give us a shout and thank you for taking the time to look thru our offering.

Sale Date:
Annual Bull and Female Production Sale, Friday, February 16, 2018

R & R Cattle Company is a family owned and operated business located in central South Dakota along the Missouri River. We are in the seedstock business to produce performance oriented Simmental, SimAngus™ and Angus bulls and females aimed at the commercial production of efficient beef cattle with high cutability. Traits such as polled or horned status, color, eye and udder pigmentation, disposition, udder quality, scrotal circumference and hoof quality are taken into consideration when making breeding decisions. Contact us for more information about our program and the genetics we have to offer.

Feeder Profit Calculator

By Will Townsend and Chip Kemp

Will Townsend

Chip Kemp

Director of Member & Industry Relations
406-587-4531 • Ext 508
ckemp@simmgene.com

The Problem

Imagine you had to find bulls for your operation but you didn't know any breeders, nobody used EPDs, or even shared actual data. It's obvious to anyone interested in building quality cattle and maximizing profit this would be a major blow to the bottom line. Yet, this is how the feeder calf business exists today. Frequently, when purchasing quality feeder calves, we can receive crucial information regarding environmental factors such as management and health protocols, weights, etc. However, when it comes to genetic awareness, color and polled status are often asked to substitute for true knowledge.

A common scenario, and at times the best-case scenario, is that the calf buyer has a previous relationship with the seller and has owned and experienced the performance of the seller's calves before. In more rare cases, we may have some information on the seller's bull purchases. Again, this is a powerful step forward. It provides at least some insight into a portion of the genetics within the program. However, in a data-driven world, this level of genetic awareness is woefully inadequate. Especially since the financial stakes for feeder calf procurement are even higher than the stakes for bull procurement. Understandably, most large cattle buyers have technology to estimate genetic and environmental performance on feeder cattle but that information is not public and, for obvious reasons, is kept to those companies. Therefore, price discovery as we know it today, most often does not take account the actual performance potential of a producer's feeder cattle.

The Solution

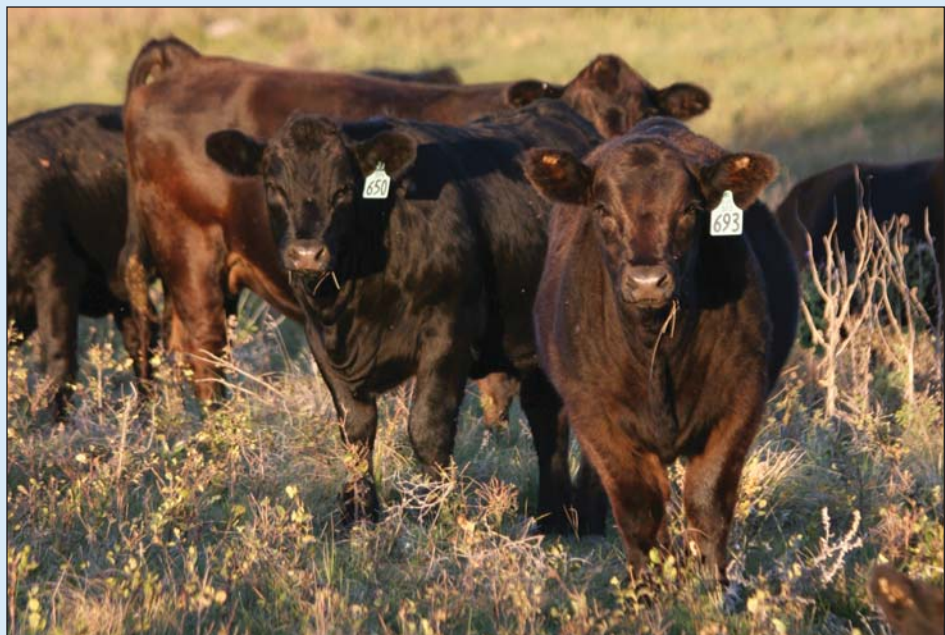

Attempts to determine relative value of feeder cattle have been made for a long-time; however, certain issues have made it difficult. The foremost limitation has been accurately gauging the profit potential in the largest genetic group within the beef industry — the crossbred calf. It is a known scientific fact that commercial beef producers wishing to maximize cowherd fertility and longevity must crossbreed. This not only provides them a sustainable and profitable cow base, but fortunately generates an end product that is known to be the best combination of growth potential and carcass merit — the crossbred calf.

The history of the Feeder Profit Calculator (FPC) has its roots in the American Simmental Association's (ASA) Terminal Index (\$TI). The \$TI was developed over a decade ago by ASA in collaboration with Dr. Michael MacNeil, who was a USDA research geneticist at the time. The \$TI is an economic selection index designed for selecting terminal sires. Though \$TI could do a reasonable job valuing feeder calves, it was determined that evolving \$TI into a tool that could account for such things as a current accounting of prices/costs, heterosis, and non-genetic factors (e.g., vaccination status), would improve the

accuracy of predicting feeder calf values. Dr. MacNeil, now with Delta G Genetics, was tapped to evolve \$TI into that tool — the FPC. Many of the FPC's non-genetic components were sourced by Dr. David Lalman of Oklahoma State University.

Providing the most robust genetic awareness of crossbred calves requires the most robust multi-breed genetic evaluation. Fortunately, International Genetic Solutions (IGS) provides the ideal platform to generate unparalleled information on crossbred and composite feeder calves. IGS, along with its' member associations, the science team at Theta Solutions, and scientific contribu-

tions by Dr. Matt Spangler of the University of Nebraska, is ideally suited to provide the industry's benchmark in gauging feeder calf value. The IGS Feeder Profit Calculator empowers producers to market with confidence and allows feeders to maximize their purchasing dollars.

The Future

Capitalizing on novel technology usually requires a tremendous learning curve and a major outlay of dollars. Not this time! The IGS Feeder Profit Calculator is unique. It will offer a level of genetic awareness of crossbred feeder calves that has not been previously possible in the beef business. The IGS science team, the IGS partner associations, and the world's largest beef genetic evaluation database allows the IGS FPC to be delivered at no cost to producers. That is correct. No Cost! Beef producers looking for a transparent and straightforward assessment of their calves will harness the power of IGS by simply making a call, sending an email, or visiting the IGS website.

IGS and/or breed association personnel will request information on herd health, basic management protocols, the bull battery used in previous years, and insight into the makeup of the cowherd. The more thorough the inputs from the producer, the better the predictive ability of the FPC. While individual sire identification isn't required, identification of the bulls used in the operation is required. Producers will be asked to share pre-conditioning information and the health program in place.

A prototype of the IGS Feeder Profit Calculator was demonstrated at the 2017 NCBA Convention in Nashville. It garnered serious attention and has stimulated many conversations since. The IGS Feeder Profit Calculator will be made available to the public in the spring of 2017. For producers who have interest in having their calves evaluated through the IGS FPC please contact one of the IGS breed partners or contact

Unprecedented awareness
of your calves.

NO COST!

**Feeder Profit
CALCULATOR**

IGS breed associations are ideally suited as the industry's benchmark in gauging feeder calf value. Leverage the power of the world's largest beef genetic evaluation to identify your calves' profit potential. The IGS Feeder Profit Calculator identifies the relative value of your feeder calves and provides a third party certification to data-driven buyers. All at no cost to you!

Open to the majority of breeds and breed compositions. Market with confidence and maximize your purchasing dollars. Contact beef@internationalgeneticsolutions.com

Sale Date:

24th Annual BHR's Designer's
Classic Sale, May 19, 2018

Since 1982, **Buzzard Hollow Ranch** has been striving to produce Fleckvieh cattle that are moderate framed with fertility and milk, easing calving, set on sound feet and legs. The cattle have to have body capacity, natural muscling, short hair coats, longevity, carcass quality, ease of fleshing and eye appeal, all to meet the needs of our environment and that of our customer base. In addition to the Fleckviehs, Simbrahs and SimAngus™ have been added to the program, along with Red Angus to meet the needs of a broader customer base. Select both Power and Maternal genetics and blend them into a select product that has calving ease and growth, fertility, milk, muscle, depth of rib, ease of fleshing, with excellent carcass data all set on sound feet and legs. Our future depends on our ability to produce cattle that meet the needs of the Seedstock Producers worldwide and meet the needs of the Commercial Cattle Industry.

TOM BROTHERS

We Measure. We Evaluate. We Document Progress.

Tom Brothers Ranch has been in the beef cattle business since 1857. Our longevity has depended on a tradition of hard work, persistence, toughness, common sense, and an openness to innovation of ideas and practices. Performance-based selection has been a mainstay in our cattle for generations.

Our continuous goal is to produce problem-free, durable cattle bred and selected to perform in hot, humid climates that positively impact the bottom line. Our selection of SimAngus™ and Simbrah enables us to offer cattle that have profit potential in any management scenario.

SIMANGUS™ and SIMBRAH

Visit our website and learn about our program, visit the ranch and see our program.

 14th Annual Cattleman's Kind Bull Sale, March 8, 2018, San Saba, TX

Keeping quality at the center of our attention! Our emphasis is and always has been on quality. We demand a combination of balanced EPDs, visual appraisal, ultrasound data and we place a priority on tenderness and marbling technology. In addition to our herd sires, we use some of the most popular and proven AI sires in the breed.

For Quality Simmental Purebred and Percentage Give Us A Call!!!

Sales Call

A bi-monthly
electronic announcement
of upcoming sales for
ASA Publication advertisers.

If you have recently advertised in **the Register** or **SimTalk**, you are automatically included in **Sales Call** for the month prior to your sale, and is broadcast to over 5,000 subscribers. **Sales Call** announces the date of your sale, location, provides a link to your sale catalog or website and a map.

Consider one of these packages to promote your sale.

Package 1

Sale Announcement Option.

Price: \$550

- ◆ One-year business card ad placement in *the Register* or *SimTalk*.
- ◆ One eBlast announcement prior to your sale.
- ◆ Sale announcement in **Sales Call** one month prior to your sale.

Package 2

Advertising Package Option.

Price: \$2,000

- ◆ One-year business card ad placement in *the Register* or *SimTalk*.
- ◆ One eBlast announcement prior to your sale.
- ◆ Two full-page ads in *the Register* or *SimTalk*.
- ◆ Link your sale to website.
- ◆ Sale announcement in **Sales Call** one month prior to your sale.
- ◆ Must purchase package in advance of your sale — ads can be placed throughout the fiscal year.
- ◆ Package can be modified.
- ◆ Other packages available.

Interested in either of these options? Contact:

*Committed to producing high-quality
cattle with a show look in real
world function.*

Are you a Progressive Commercial Producer?

Do you use AI, single sire pastures, parent verification?

Do you select replacement heifers?

Do you want to make better genetic decisions?

If the answer is **Yes!** Step into the future and become part of the world's largest genetic evaluation system.

"The ASA has advanced the simplification of data across breed lines and eliminated the information barrier to the commercial producer. They are pioneering a better beef business because of it"

Wes Tiemann
Manager of
Strategic Solutions

**We do the Science.
You Make the Profit.**

ASA's new Commercial Option is for you!

- EPDs and economic indexes on every female and herdsire in your herd . . . regardless of breed or breed composition.
- EPDs and economic indexes on steer groups.
- Online record keeping, herd management and report generation software.
- Access to a wide array of highly effective DNA technology.
- Best deal in the industry: call for pricing/quotes.

Be progressive and call today: 406-587-4531

Sale: heifers and bulls private treaty

We summer our cows in the mountains of Southeastern Idaho between 6,500' and 8,750', and then bring them home each fall to winter. Our operation focuses on raising high-quality Simmental and Angus seed stock cattle both for the purebred breeder and for the commercial cattlemen utilizing embryo transfer and extensive artificial insemination. Our cattle have performed well both in the ring, in the pasture, and on official feed tests. We do not emphasize one particular trait over another, but strive to provide a balanced animal that will have longevity, milk well while maintaining her own body weight, and wean a heavy calf without creep. Docility is a trait that will not be compromised no matter how perfect the animal. Our customers have appreciated the gentle nature of our bulls for years.

Top Hat genetics come dressed in both black and red... some with a little chrome! If you want performance with Style, always remember to grab a TOP HAT!

* You can run 3 consecutive 2 year terms if re-elected.

updated 3-26-2017

2017

October

1 WSA Midwest Fall Round-Up Sale
Grant County Fairgrounds – Lancaster

2018

March

24-25 WSA Annual Meeting and Spring Spectacular
Sale Weekend
Grant County Fairgrounds, Lancaster, WI

Junior Purchase Credit Incentive Program

- Juniors purchasing heifers, steers or embryos at a WSA sanctioned sale will now be eligible to receive credit toward their next purchase of an animal and/or embryos at future WSA sanctioned sales or utilize earned show credits, if eligible, toward scholarships.
- Juniors must be a member in good standing in either the WJSA or a member of another state cattle association. Any Junior that shows his or her animal at least twice and provides validated proof of purchase and participation in an event with the animal that was purchased at a WSA sanctioned sale shall be eligible for a \$150.00 credit toward their next purchase of an animal from a WSA sanctioned sale. Any Junior in or entering his/her Junior year of High School up to their maximum WJSA membership age, with commitment to a post secondary education will be eligible to convert their purchase credits into a scholarship to the school of their choice. Scholarship will be paid upon completion of first semester and proof of enrollment in the following semester.
- The animal is not required to place or win to be eligible.
- Please refer to the WSA/WJSA website for more information.

New this year . . . Junior Advisory Committee:

Devin Hadorn-Papke, Dusty Jentz, Nate Moll and Damin Hadorn-Papke
The Committee will be working together to meet the needs of WJSA, spreading the responsibility and requirements out between several people instead of just one Advisor. These Committee members look forward to working with WJSA, as does the entire WSA Board of Directors.

Sale:

Bulls by private treaty. Bulls available for viewing first part of January.

Crowfoot Ranch has been providing quality Simmental bulls for years to the commercial industry. We have been using artificial insemination since the late 1960's, which we believe increases the quality and marketability of our cattle more every year. Vearl and Patsy Ann Bird are the owners and operators of the Ranch. Lane and Kirsten Bird help manage and run the operation on a daily basis. We are nestled at the bottom of the Uinta mountain range in the great Bridger Valley in Wyoming. Our base operation is around 7,000 feet in elevation and we run up from that into the wilderness of Utah, so our bulls seldom have a pap problem.

Are you a Canadian Breeder wanting the most complete source of Simmental information in the US?

Get
the Register
and
SimTalk!!

the Register, the official publication for American Simmental Association, is sent to all active members. If you are not a member, but still want to receive *the Register*, it is easy to subscribe.

ASA Membership:

1. Membership costs: \$50.00 initiation/set-up charge plus \$110.00 annual service fee which totals \$160.00 US Dollars for the first year.
2. Annual service fee after the first year is \$110.00/year US Dollars.

If you have or would like to join the ASA, contact the ASA office at 406-587-4531.

Subscription — *the Register*:

1. Subscription rate:
\$100.00/year US Dollars.
9 issues produced annually.
2. All issues of *the Register* are mailed first-class.

To subscribe, you may do so by contacting Nancy Chesterfield or Rebecca Price at 406-587-2778.

Fees:

- Fees are in US dollars.
- Payment may be made by Visa, MasterCard or Discover.
- Payment by check must be in US dollars and include a nine digit routing number to avoid conversion costs and a \$10.00 international bank fee.
- The additional cost of becoming a member, compared to only subscribing, is \$10.00 per year.

SimTalk:

Designed for the commercial cattleman, *SimTalk* has a circulation of more than 40,000 readers. Print subscriptions to *SimTalk* are not available in Canada. An electronic online version of *SimTalk* is available for free:

- Visit the American Simmental Association website: www.simmental.org — Click on “ASA Publication” tab.
- Under *SimTalk* click on “read this issue”.

Electronic News:

Don't miss receiving other electronic news. Visit the home page, www.simmental.org, to sign up for eNews, Sales Call, eLink and the AJSA newsletter, Hotwire. Click on the “Join ASA” tab, and then click on the “Subscribe to eNews” tab.

Click on the “Blog” tab to read and learn more about SimGenetics. tReg can be found on “*the Register*” tab.

Thank you for your interest!

SIMMENTAL
Maternal Value

It Shouldn't Be Complicated

- ◆ High Fertility
- ◆ Exceptional Maternal Calving Ease
- ◆ Increased Maternal Weaning Weights
- ◆ Lower Mature Weight than Hereford or Angus

You Are What You Eat

I'm Fescue

Beef producers who rely on fescue-based pastures know the blessings and the curse. Your cows experience one of the harshest and most relentless environmental impacts in the U.S. Beef Industry. As such, you need cows that shed early and face the heat.

The American Simmental Association offers the Beef Industry's most varied and robust lineup of heat tolerant, fescue tolerant, disease resistant cattle. As you battle through the environmental challenges that face your cow herd, take the time to check out SimAngus™ HT, Simbrah, and slick-haired Simmental and SimAngus™ options.

SimTalk is an 8 1/8 x 10 7/8 inch publication produced by *the Register*, the official publication of the American Simmental Association. Published four times annually, *SimTalk* is a glossy, full-color publication with a circulation of 50,000+ and targets commercial users of SimGenetics. Advertising in *SimTalk* provides a unique opportunity to brand and trademark your program to thousands of potential customers. If you are serious about communicating with the commercial beef business, consider an advertising presence in every one of our four annual issues.

Space and four-color rates for *SimTalk*:

Space Rates	Non-Contract	2X Contract	4X Contract	Four Color
1 page	\$890	\$840	\$800	\$300
2/3 page	\$760	\$730	\$700	\$200
1/2 page	\$510	\$480	\$460	\$150

Classified Ads	\$2.00/word, \$24.00 minimum, must be prepaid			

SimTalk Deadlines for Publication:

	Sales Close	Ad Materials	Camera Ready	Mail Date
Early Fall 2017	July 24	Aug 1	Aug 11	Aug 25
Late Fall 2017	Sept 21	Sept 28	Oct 10	Oct 20
January 2018	Dec 5	Dec 14	Dec 21	Jan 9
March 2018	Jan 23	Jan 30	Feb 9	Feb 24

ASA/*SimTalk* Membership Directory 2018 Deadlines for Publication:

May 1	May 10	May 23	June 12
-------	--------	--------	---------

Send all ad materials to: register@simmgene.com or Fax: 406-587-9301

A non-refundable fee of \$50.00 will be assessed if a client does not meet deadlines or if the client commits to advertising and cancels after the deadline or if the ad must be dropped to ensure on time publication.

Advertising materials (including photos) must be in *SimTalk* office by the dates listed above. *SimTalk*, which mails by bulk rate, assumes no responsibility for actual receipt date.

Design Charges

Advertising rates are for camera-ready ads only. Additional design charges will apply to any ad that is designed by ASA Publication, Inc.

Layouts & Proofs

Although every effort will be made to provide proofs on all ads, proofs are guaranteed only if all ad material arrives in *SimTalk* office prior to deadline.

Terms

All accounts are due and payable as invoiced. Interest charges of 1.5 percent per month (18 percent APR) will be added to accounts 30 days past due. If an account becomes 60 days delinquent, all ASA Publication, Inc. work may be suspended until full payment is made. After review by the ASA Executive Committee, ASA privileges may be denied to those with accounts over 90 days delinquent.

Advertising Content

SimTalk and its staff assume no responsibility or obligation to verify the accuracy and truthfulness of advertising copy submitted to *SimTalk*. However, *SimTalk* reserves the right to reject any advertising copy or photo which *SimTalk* deems unsuitable for publication for any reason, including copy or photographs which are false or misleading. *SimTalk* assumes no responsibility for the accuracy and truthfulness of submitted print ready ads. Advertisers shall indemnify and hold harmless *SimTalk* for any claims concerning advertising content as submitted. Advertising containing pedigrees or statements regarding performance must conform to records kept by the American Simmental Association. Copy deviating from official records may be changed as necessary without advertiser consent.

Editorial Policy

Opinions expressed are the writers' and not necessarily those of *SimTalk*. Photographs are welcome, but no responsibility is assumed for material while in transit or while in the office.

ASA PUBLICATION, INC

One Genetics Way

register@simmgene.com

The collection of feed intake is difficult and, for many breeders, far too expensive.

By working together, we can develop the means to leverage DNA in the genetic prediction of intake.

ASA currently has intake records on roughly 3,500 head, collected largely on carcass merit program cattle fed at the University of Illinois. This project came to a close 5 years ago.

Very little intake data has been submitted since the University of Illinois project.

To develop effective DNA predictions, we must ramp up our collection of intake data.

The ASA has collected feed intake data coupled with the carcass merit program since 2015 and we need your help to continue.

We ALL will benefit from the collection of this data — ASA members, members' customers and the industry.

Your gift to the American Simmental Simbrah Foundation, earmarked for the Feed Intake Project will help make collecting feed intake data a reality for ASA.

Cooperator Herds Wanted

CMP
ASA
CARCASS MERIT PROGRAM

“Participating as a CMP cooperative herd for nine years has enabled us to get the hard facts on feeding efficiency and harvest value by traits on our calves. As a commercial cow/calf operation, interested in making genetic progress in the cowherd, we have used the data in replacement selection and are seeing a difference in our bottom line.”

*Lynda Stuart,
Stuart Land and Cattle Co.*

“We are glad to be part of the CMP program. It provided us with top quality calves while we get to participate in improving Simmental genetics.”

*John Hall, Ph. D.,
Professor and Extension Beef
Specialist and Superintendent
at University of Idaho Nancy
M. Cummings REEC.*

Would you like to get paid to use some of the most promising young bulls in the industry? Do you have accurate and consistent record keeping? Then we have the program for you!

The ASA is seeking additional cooperator herds for the Carcass Merit Program. Spring or Fall calving herds are welcome.

Incentives for Cooperators

- ◆ Free semen from the industry's top herd sire prospects
- ◆ All cows in herd will be put in ASA's database which will provide EPDs for every female. This allows you to make selection and culling decisions within the cowherd based on EPDs.
- ◆ You have the option to retain all or some of the females produced from the program
- ◆ ASA will pay \$60/AI sired carcass that is harvested
- ◆ Cooperators will get carcass data back on all the calves harvested through the program.
- ◆ A portion of the CMP calves have feed intake collected and records shared with the cooperators.

How does it work?

- ◆ ASA assigns all matings in a random fashion so that the test produces unbiased, accurate results.
- ◆ ASA will work to provide bulls that fit the general criteria of your herd. However ASA must use only bulls that are enrolled in the program.
- ◆ At least two sires will be used per contemporary group and ASA likely will use several sires per contemporary group to provide better more accurate test results.
- ◆ Only bulls with high calving ease EPDs are used on heifers.

Qualifications

1. All cows will be individually identified along with birth year and approximate breed makeup
2. Collect birth weights, calving ease scores, and weaning weights on CMP sired calves
3. Beneficial but not required — have a current AI program established
4. Must commit to collecting carcass data

Contact Jackie Atkins, Jannine Story or Luke Bowman for more information at 406-587-4531.

The Next Generation of SimAngus™ Sires

Homozygous Black, Homozygous Polled,
½ Simmental, ½ Angus

1SM00160 CCR 7322 PAYDAY 0320C

PAYDAY

Basin Payweight 1682 x HTP SVF In Dew Time

Reg#: 3111909

- A maternal brother to Cowboy Cut, sired by the popular Angus sire Payweight 1682, Payday offers the best of both breeds in a herd bull phenotype.
- Look to Payday to add depth of rib, body thickness and muscle shape all in a structurally correct, eye-appealing package.

1SM00163 CDI MAINLINE 265D

MAINLINE

TJ Main Event 503B x GW-WBF Substance 820Y

Reg#: 3152346

- A highlight of the 2017 sale season, Mainline created a buzz with his flawless phenotype and breed-leading EPD profile.
- As a ¾ blood, purebred breeders can use Mainline to create the next generation of herd sires, while commercial producers can capture additional value with hybrid vigor.
