## Administrative Information

### Acquisition Information

Elaine Asch-Root, gift, 2003, 2003-0028

### Processing Information

Where aircraft designations vary from those presented in the *NASM Directory of Airplanes* (Dana Bell, ed; London and Mechanicsburg (PA): Greenhill Books/Stackpole Books, 2002) as updated by the NASM Archives staff, terms have been added in square brackets [] to align the entry with the updated Directory designation. Some redesignated aircraft and some aircraft produced by multiple manufacturers may be found under both old and new designations or under multiple manufacturers. Also, in cases where a manufacturer's name has changed, the aircraft may be listed under both the old and new corporate name. An attempt has been made to cross-reference multiple entries using "see also," but researchers are cautioned such cross-referencing may not be complete. Entries marked "CR" under "Folder" are cross-references only rather than multiple entries.

## Historical Note

*Revista Aérea Latinoamericana* was created in 1937 as a Spanish-language version of the highly regarded US monthly *Aero Digest* aimed at the Latin American market. This region was seen as a rich potential market for export sales of aircraft, engines, and associated technology, and advertisers came to rely heavily on this publication to help promote their line in this lucrative market. When *Aero Digest* ceased publication in 1956 Colombian businessman Maximillian Garavito purchased *Revista Aérea Latinoamericana* and took over as editor and publisher. Upon his death in 1979 Elaine Asch-Root assumed control, dropping "Latinoamericana" from the title and expanding into the Spanish and Portuguese markets. In 2010 *Revista Aérea* began publishing a Portuguese language edition as well as a revamped on-line version. In addition to its original role of communicating the latest in aviation technology to potential buyers, the magazine also highlights aviation-related news and events in Latin America and promotes aviation education and humanitarian aviation operations.

## Scope and Content Note

This collection consists of reference files from the Spanish-language monthly periodical *Revista Aérea Latinoamericana*. This collection is a virtual time-capsule of the evolution of aviation in Latin America over the 66-year period of publication, 1937-2003. The files include information on hardware and aircraft systems, as well as documentation on aeronautical educational enterprises in Latin America, aero clubs, sport aviation, military and naval aviation, indigenous manufacturing enterprises, and air transport. The material in the collection includes black-and-white and color photographs; color slides; domestic and foreign aerospace trade literature; speeches and lectures; news releases; and drawings.

## Series B: Propulsion

### 15 Boxes

Arrangement: This series is organized in two sections. The first section consists of material on engines and power plants, organized by manufacturer and model. The second section contains material on all other propulsion-related equipment, organized by manufacturer.

### B.1: Engines

Box 87, Folder 1	AiResearch Manufacturing Co (general) 1 Folder Notes: documents
Box 87, Folder 2-3	Allied-Signal (Garrett) TPF 351-20 Turboprop 2 Folders Notes: documents / photos
Box 87, Folder 4-5	Allied-Signal (Garrett) LF507 Turbofan 2 Folders Notes: documents / photos
Box 87, Folder 6	Allied-Signal (Garrett) CTP800-4T Turboprop 1 Folder Notes: photos
Box 87, Folder 7	Allied-Signal (Garrett) CTS800-4N Turboshaft 1 Folder Notes: documents
Box 87, Folder 8-9	Allied-Signal (Garrett) ETJ1081 Turbojet 2 Folders Notes: documents / photos (international design developed with MTU and Fiat)
Box 87, Folder 10	Allison 75 Liberty V-12 1 Folder Notes: photos
Box 87, Folder 11-12	Allison 120 Expendable Missile Engine 2 Folders Notes: documents / photos
Box 87, Folder 13	Allison 225 B10 Turboprop 1 Folder Notes: documents
Box 87, Folder 14	Allison 225 C10 Turboshaft 1 Folder Notes: documents

Box 87, Folder 15-17	Allison 250 series Turboshaft 3 Folders Notes: documents / photos / Aviall's test cell (photos)
Box 87, Folder 18	Allison 250-B17B Turboshaft 1 Folder Notes: photos
Box 87, Folder 19	Allison 250-B17C Turbohaft 1 Folder Notes: documents (fitted to Maule M-7 Super STOL Rocket)
Box 87, Folder 20	Allison 250-B17F Turbohaft 1 Folder Notes: documents
Box 87, Folder 21	Allison 250-C20B Turbohaft 1 Folder Notes: documents
