

Vascular Plant List:  
**Scatter Creek**  
Thurston County, Washington

Thurston County, WA. List covers plants found in the Scatter Creek Wildlife Refuge, located about two miles north of the junction of I-5 and State Highway 507. List by Jim Barrett, August 1979, combined with revised list by Jim Barrett and Mary Fries, 1998, with additions by Florence Caplow, 2007.

**299 species** (224 native, 75 introduced)

**Coordinates:** 46.831569°, -123.014078°

**Key to symbols:**

\* = Introduced species.

+ = Species is represented by two or more subspecies or varieties in Washington; the species in this list has not been identified to subspecies or variety.

! = Species is not known to occur near this location based on specimen records in the PNW Herbaria database, and may be misidentified.

**Numeric superscripts** after a scientific name indicates the name was more broadly circumscribed in the past, and has since been split into two or more accepted taxa in Washington. The possible accepted taxa names for Washington are provided after the species list, keyed by superscript.

Accepted names and family classifications are obtained from the [Washington Flora Checklist](#) and the [Revised Flora of the Pacific Northwest](#), managed by the [University of Washington Herbarium at the Burke Museum](#). Relevant synonyms are indicated in parentheses.

An online version of this plant list with more information and additional formatting options is available on the WNPS web site: [http://www.wnps.org/plant-lists/list?Scatter\\_Creek](http://www.wnps.org/plant-lists/list?Scatter_Creek)

This plant list represents the work of one or more Washington Native Plant Society (WNPS) members. Its accuracy and completeness has not been verified by WNPS. We offer the list to individuals as a tool to enhance the enjoyment and study of native plants.
