<i>Seriola dumerili</i>	AMB	Greater amberjack	Sérieole couronnée	111

# Caranx ignobilis

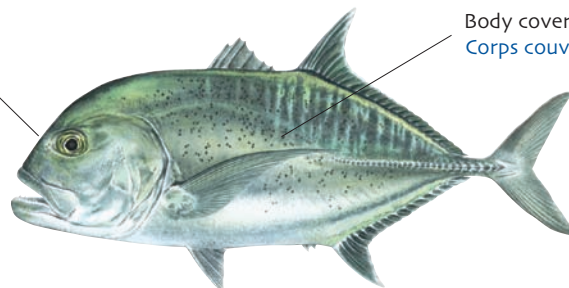

1–140 m

NXI

English: Giant trevally  
French: Carangue têteue  
Japanese: Ronin-aji  
Hawaiian: Ulua, White ulua  
Local:

Head profile steep and  
straight at eye level  
Profil de la tête presque  
vertical et droit au niveau  
de l'œil

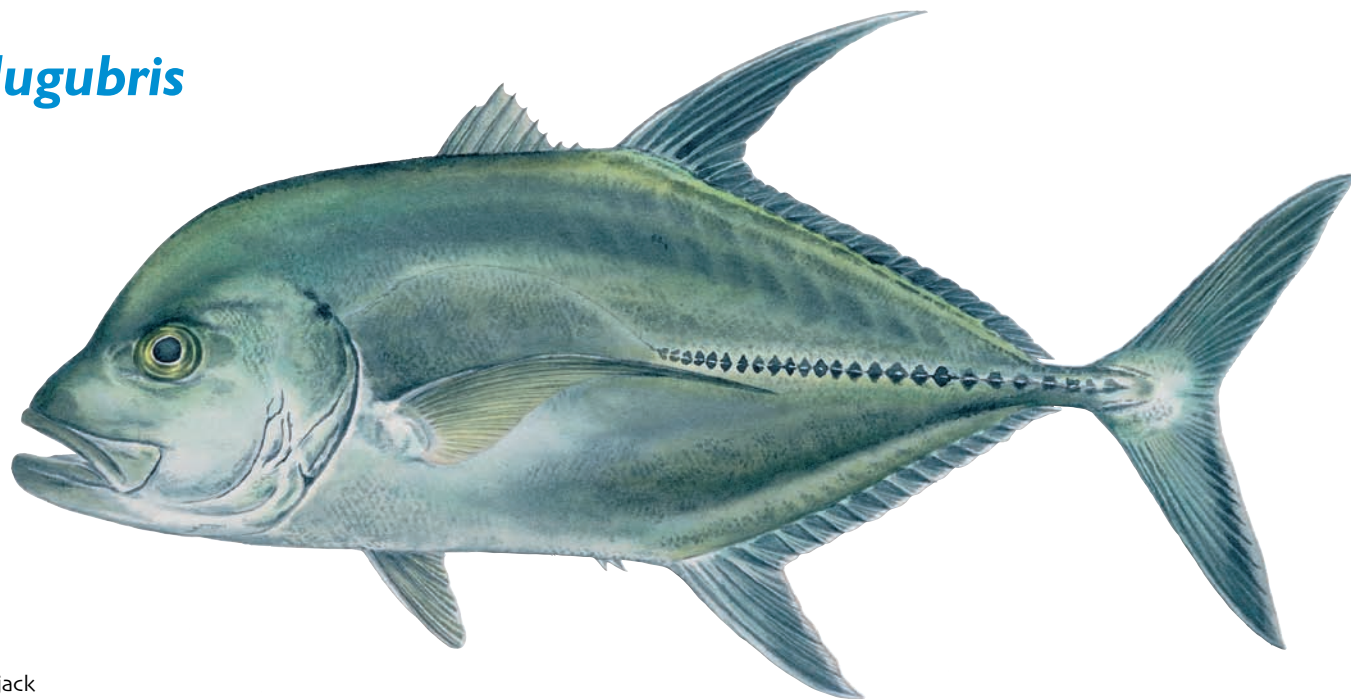

Body covered with numerous very small black dots  
Corps couvert de nombreux très petits points noirs

# *Caranx lugubris*

10–350 m

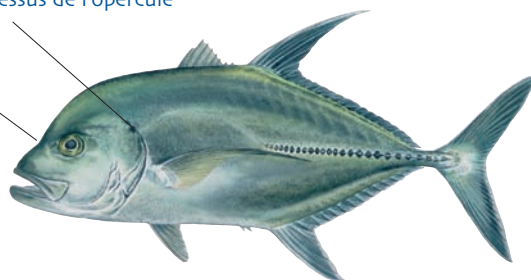

NXU

English: Black jack  
French: Carangue noire  
Japanese: Kappore  
Hawaiian: Black ulua,  
Ulua-'ele'ele  
Local:

Small black spot at top of gill cover  
Petite tache noire sur le dessus de l'opercule

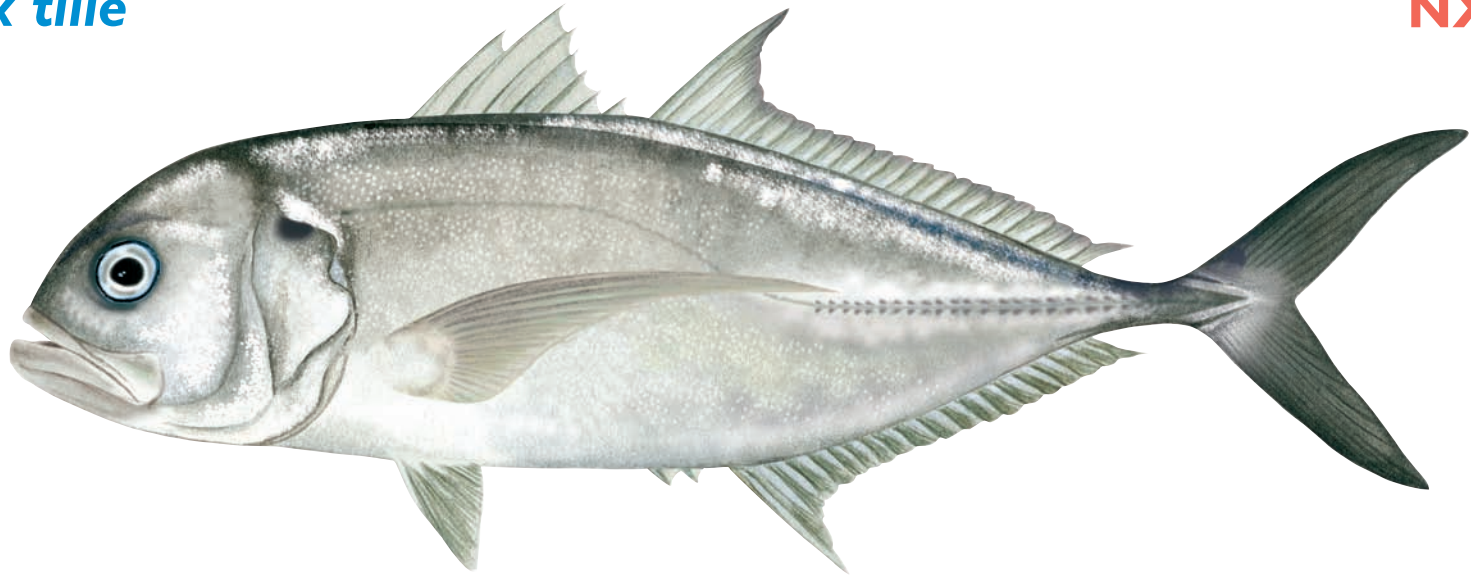

Head profile concave at eye level  
Profil de la tête concave  
au niveau de l'œil

## Caranx tille

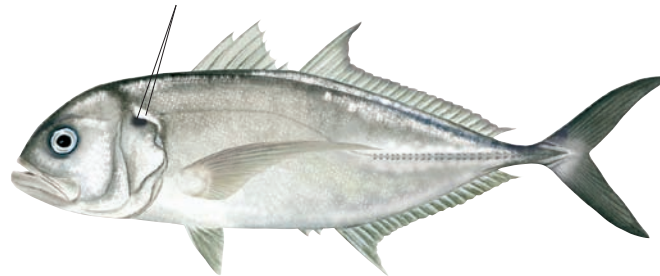

30–120 m

NXT

Black spot at upper edge of gill cover, adjacent to a small white spot  
Tache noire sur le bord supérieur de l'opercule, à côté d'une petite tache blanche

English: Tille trevally  
French: Carangue tille  
Japanese: Minami-gingame-  
aji  
Local:

# Caranx sexfasciatus

2–120 m

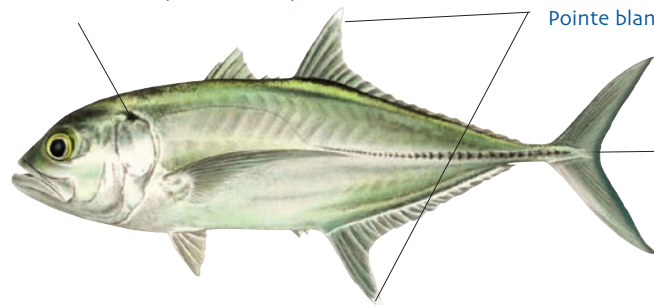

CXS

English: Bigeye trevally  
French: Carangue vorace  
Japanese: Gingame-aji  
Hawaiian: Pake ulua, Sasa ulua  
Local:

Small black spot at upper edge of gill cover  
Petite tache noire sur le bord supérieur de l'opercule

White tip on second dorsal and anal fin  
Pointe blanche sur la seconde dorsale et la nageoire anale

Black margin on caudal fin  
Bordure noire sur la nageoire caudale

# *Carangoides fulvoguttatus*

NGU

1–140 m

Many small dark-yellow spots on side of body, mainly above midline  
Nombreuses petites taches jaune sombre sur le flanc,  
surtout sur la partie supérieure du corps

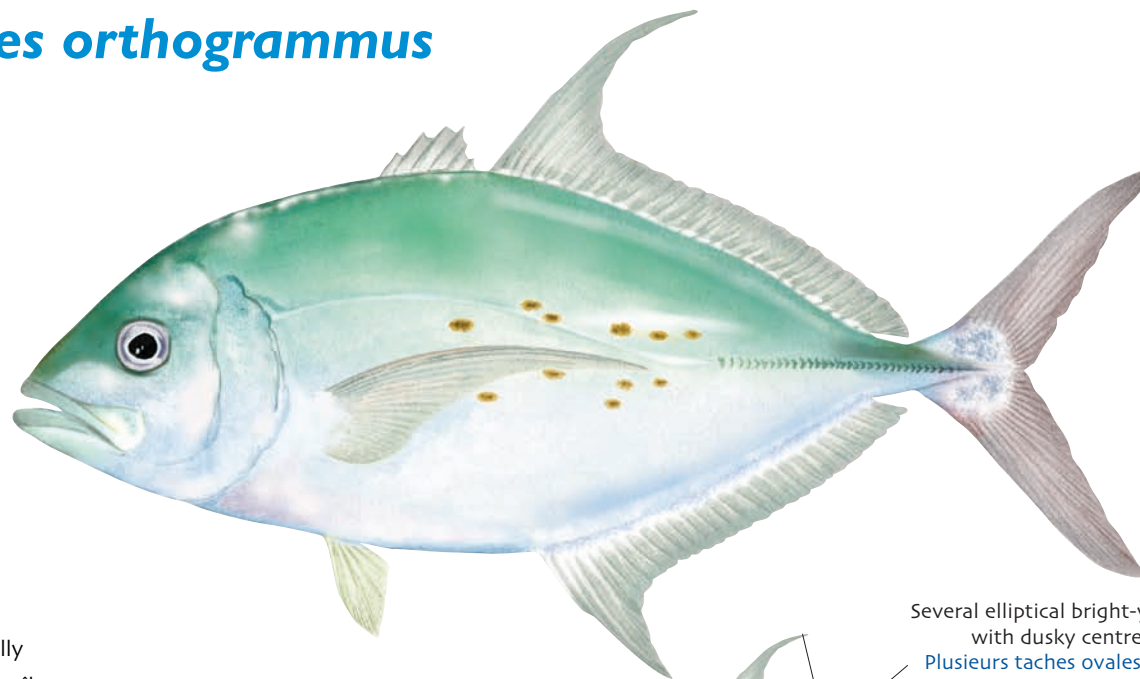

No scales on breast, ventrally to behind origin of pelvic fin  
Absence d'écaille sur le thorax et autour  
de la base de la nageoire pelvienne

English: Yellowspotted trevally  
French: Carangue pailletée  
Japanese: Hoshi-kaiwari  
Local:

# Carangoides orthogrammus

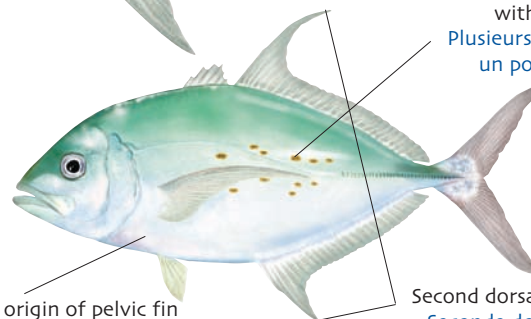

3–170 m

NGT

English: Island trevally  
French: Carangue des îles  
Japanese: Nanyo-kaiwari  
Hawaiian: Yellow spot papio,  
Papa papio  
Local:

Several elliptical bright-yellow spots (sometimes with dusky centres) on side of body  
Plusieurs taches ovales jaune vif (parfois avec un point sombre au centre) sur le flanc

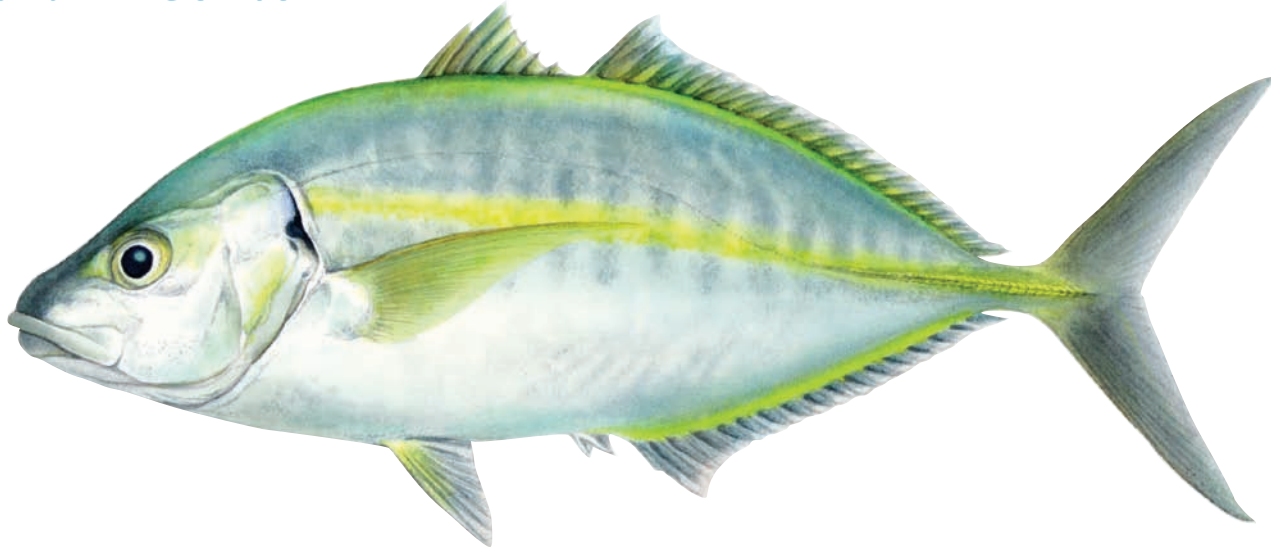

No scales on breast, ventrally to origin of pelvic fin  
Absence d'écaille sur le thorax

Second dorsal and anal fins very long  
Seconde dorsale et nageoire anale très longues

# Pseudocaranx dentex

TRZ

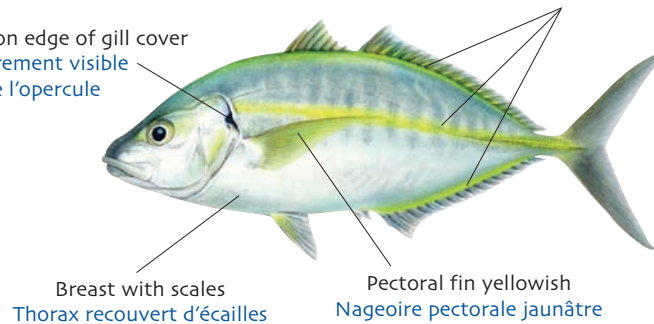

80–200 m

Distinct yellow stripe along body and at base of dorsal and anal fins  
Raies longitudinales jaunes caractéristiques sur le corps  
et à la base des nageoires dorsale et anale

English: White trevally  
French: Carangue dentue  
Japanese: Shimaaji  
Hawaiian: Butaguchi, Pig  
ulua  
Local:

Prominent black spot on edge of gill cover  
Tache noire clairement visible  
sur le bord de l'opercule

Breast with scales  
Thorax recouvert d'écailles

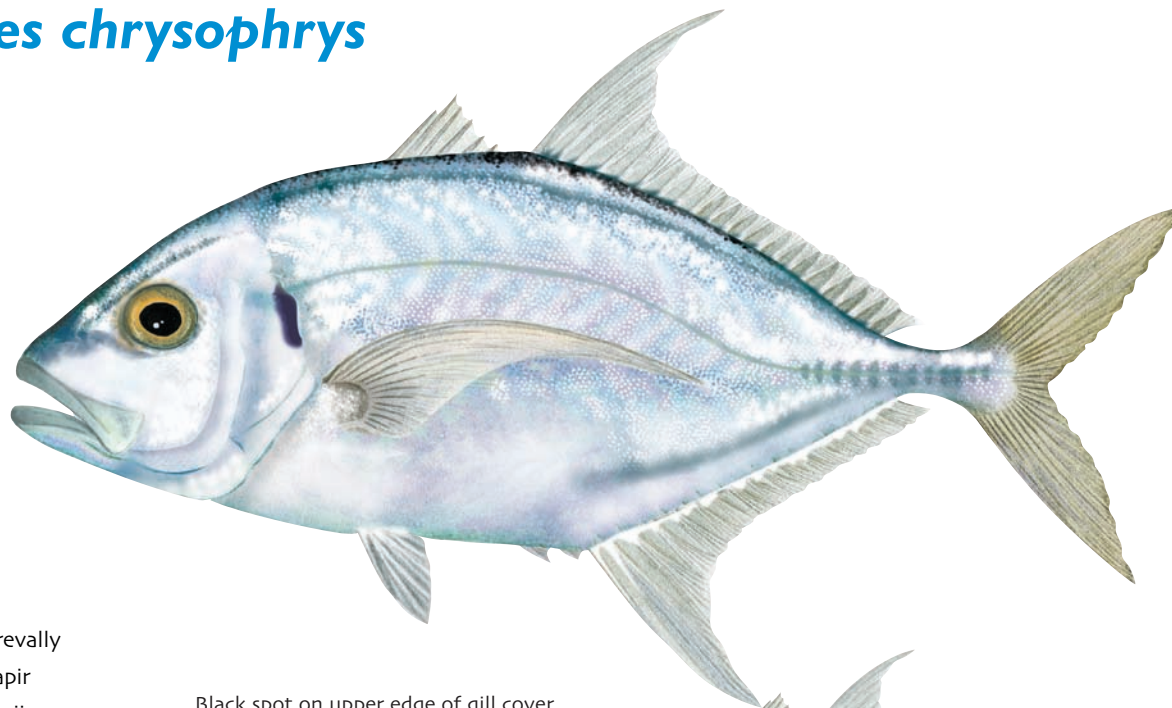

Pectoral fin yellowish  
Nageoire pectorale jaunâtre

# *Carangoides chrysophrys*

30–240 m

NGH

English: Longnose trevally

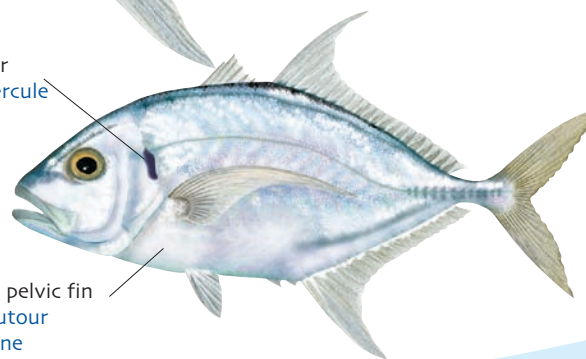

French: Carangue tapir

Japanese: Hishi-yoroi-aji

Local:

Black spot on upper edge of gill cover  
Tache noire sur le bord supérieur de l'opercule

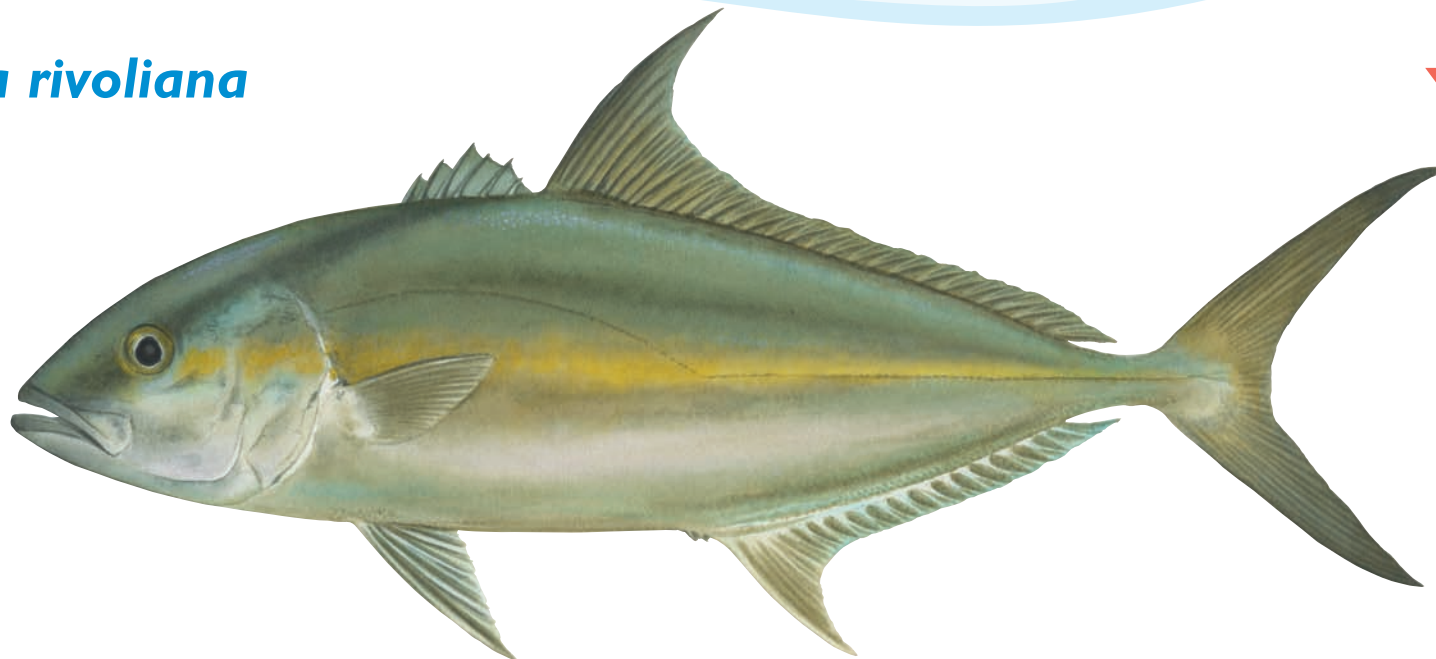

No scales on breast, ventrally to behind pelvic fin  
Absence d'écaille sur le thorax et autour  
de la base de la nageoire pelvienne

## *Seriola rivoliana*

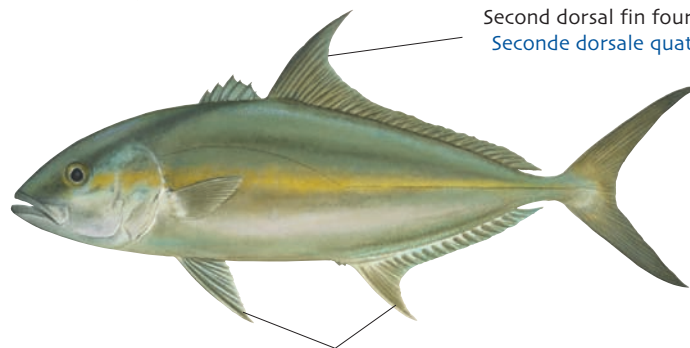

10–340 m

YTL

Second dorsal fin four times the height of first dorsal fin  
Seconde dorsale quatre fois plus haute que la première

English: Almaco jack,  
Longfin yellowtail  
French: Sériole limon  
Japanese: Hirenaga-kanpachi  
Hawaiian: Kahala, Almaco jack  
Local:

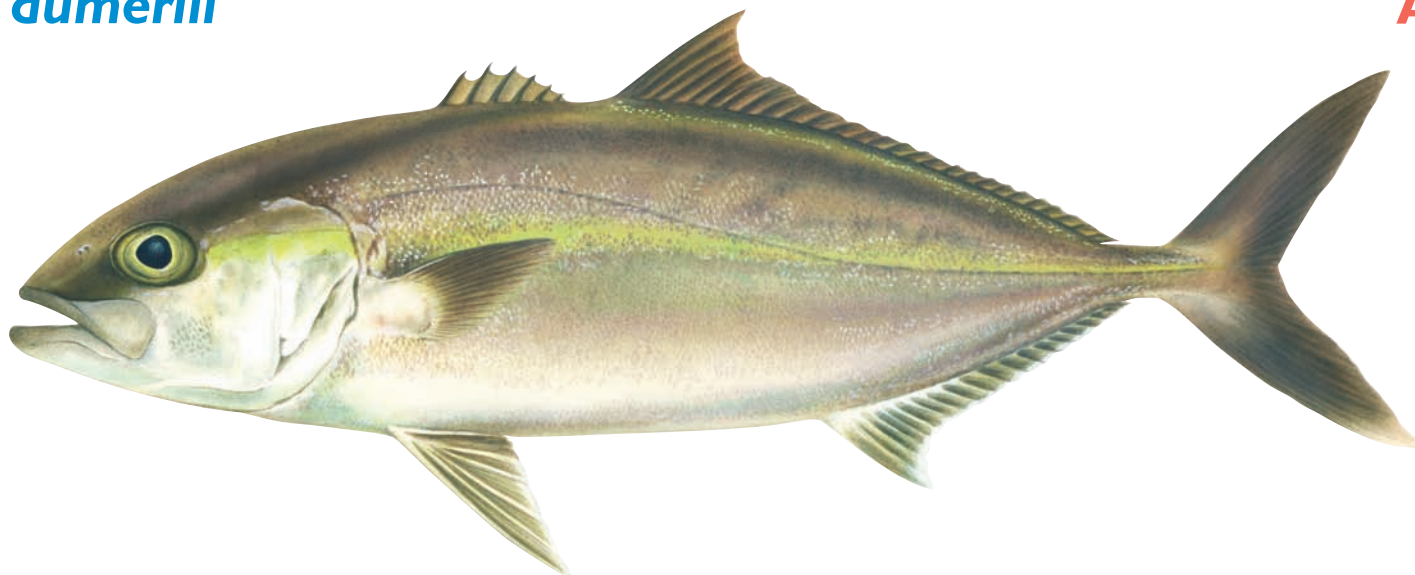

Leading edge of pelvic fin and margin of anal fin white  
Bord antérieur de la nageoire pelvienne et bords de la nageoire anale blancs

# *Seriola dumerili*

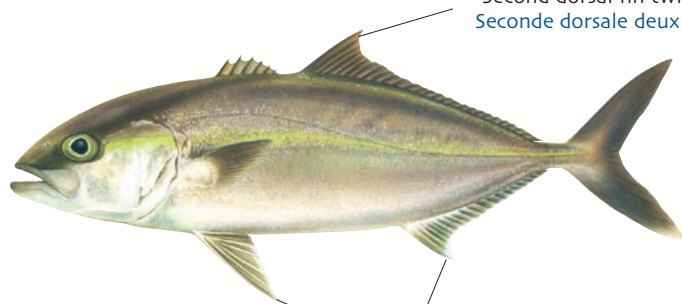

1–360 m

AMB

English: Greater  
amberjack  
French: Sérieole couronnée  
Japanese: Kanpachi  
Hawaiian: Kahala  
Local:

Second dorsal fin twice the height of first dorsal fin  
Seconde dorsale deux fois plus haute que la première

Extreme tip of lower caudal fin  
lobe pale or white  
Extrémité du lobe inférieur de  
la nageoire caudale claire ou blanche

Tip of pelvic fin and anal fin lobes white  
Extrémités des lobes des nageoires pelvienne  
et anale blanches
