nt to the of George nomina ancial ex ty of Mr. section of to bet could be	Chlozema hispida, creeping snow-berry. Vaccinium Pennsylvanicum, Dwarf blueberry. Vaccinium Canadense, Canada blueberry. Chlozema hispida, creeping snow-berry.	FREDERICVILLE. Editor Avalanche: Crops generally in need of rain, but looking quite well considering the lateness of the season. Haying in progress and the yield fair. Mr. Stephen Arnold has sold out and gone to Dakota, where his family expect to follow him in the fall. Mr. Dennis, son-in-law to our townsman Mr. Davenport, bought the house and lot of Mr. Arnold. M. S. Dilley has fenced his lot adjoining the above-mentioned lot with a neat picket fence, and that with the fence built by Mr. Arnold makes a decided improvement to the village. Hugh Langhead is putting a wing on his residence. F. L. Barker's new store has donned a neat coat of white and makes quite a presentable appearance. Fencing has been going on in other parts of the village and so our little burgh is assuming quite an improved appearance and an increased area. There are rumors of another mill in the near future, of which I expect in due time to notify you. Considerable hemlock tar-bark is being hauled by the settlers east of here, and is purchased by L. W. Wight. Mr. Henry Davenport is slowly recovering from a very serious and sudden illness. Mrs. Henry Davenport wishes to return thanks through the columns of the AVALANCHE to the many friends who tendered their sympathy and aid during the late illness of her husband.
