INTRODUCTION

ASBS Newsletter Index

Part 3 — Issued June 1994

This is the third part of a consolidated index to all issues of the society's *Newsletter*, which Council decided would be the most practical means of accessing the considerable amount of information that this periodical contains. The index has been compiled over a number of years by several members of the society. To all of those contributors we are very grateful, and council hopes that you will find this a very useful compilation. Actually, it is compulsory for all members to use it at least once a month!

The data for this third part of the index are in three groups:- taxonomic names (including latin binomials and trinomials, as well as all higher categories), personal names (including authors), and subjects (including titles of articles, as well as particular topics).

Parts of the subject index and author index have already been published in the *Newsletter*, covering issues 54-57 (57: 26-28), 58-61 (61: 21-23), and 62-65 (65: 39-41), which were compiled by Barbara Barnsley & Mike Crisp in Canberra, and issues 66-69 (69: 31-34) and 70 (74: 32-35), which were compiled by David Morrison in Sydney. The remainder of these two indexes has been compiled by David Morrison.

Council decided to compile a thorough index to the scientific plant names from issue 1 through to issue 60. This was done by Kirsten Cowley in Canberra, and the data are now maintained as a computer database. This third part of the index includes all of the data from issues 51-60 inclusive, covering the period from mid 1987 to late 1989. The data were checked and edited by David Morrison. The remainder of this index has been compiled by David Morrison.

The Society

The Australian Systematic Botany Society is an incorporated association of over 300 people with professional or amateur interest in botany. The aim of the Society is to promote the study of plant systematics.

Membership

Membership is open to all those interested in plant systematics. Membership entitles the member to attend general meetings and chapter meetings, and to receive the *Newsletter*. Any person may apply for membership by filling in an "Application for Membership" form and forwarding it, with the appropriate subscription, to the treasurer. Subscriptions become due on January 1 each year.

The Newsletter

The *Newsletter* appears quarterly, keeps members informed of Society events and news, and provides a vehicle for debate and discussion. In addition, original articles, notes and letters (not exceeding ten published pages in length) will be considered.

Contributions should be sent to one of the editors at the address given below. They should preferably be submitted as:- an unformatted word-processor or ASCII file on an MS-DOS or Macintosh diskette, accompanied by a printed copy; as an unformatted word-processor or ASCII email file, accompanied by a fax message reporting the sending of the file; or as two typed copies with double-spacing.

The deadline for contributions is the last day of February, May, August, and November.

All items incorporated in the *Newsletter* will be duly acknowledged. Authors alone are responsible for the views expressed, and statements made by the authors do not necessarily represent the views of the Australian Systematic Botany Society Inc. *Newsletter* items should not be reproduced without the permission of the author of the material.

Notes

ASBS annual membership is \$30 (Aust); full-time students \$15. Please make cheques out to ASBS Inc., and remit to the treasurer. All changes of address should be sent directly to the treasurer, as well.

Advertising space is available for products or services of interest to ASBS members. Current rate is \$100 per full page, \$50 per half-page or less. Contact one of the *Newsletter* editors for further information.
