

VISUAL Real Estate & Facility Management with SAP

With BIM 360 and SAP
Right into the Cloud

KORASOFT - Our Milestones on the road to a SAP based **visual** Real Estate & Facility Management

- 1999 starting on Germany's Facility Management Conferences earning LoL
- 2001 first go-live with an AutoCAD frontend for CRE (Switzerland)
- 2002 first go-live with a SVG implementation on RE classic (Switzerland)
- 2004 first go-live with a SVG implementation on RE-FX (UK)
- 2006 Korasoft get established as preferred SAP Germany Vendor, first US project
- 2008 first go-live with a MapGuide implementation on RE-FX (USA)
- 2010 KORASOFT Inc. established, getting preferred Vendor of SAP US
- 2012 Korasoft merged with Cideon Software
- 2013 Enlarge Customer base due to standardized KoraSoft plug-ins into Cideon CAFM-Suite
- 2014 Cideon gets acquired by Friedhelm Loh Group
- 2015 Emerging of the S4/HANA platform plus Fiori and Visual Enterprise
- **2016 KORASOFT gets re-established** by a MBO from Friedhelm Loh Group
- 2018 delivering a complete SAP Fiori based IWMS and CAFM solution
- 2019 enabeling BIM 360 and SAP to work together

visual Real Estate & Facility Management for SAP with BIM 360

The real estate management business processes will be effectively supported by the visualization of buildings and spaces by integrating CAD floorplans and BIM building models.

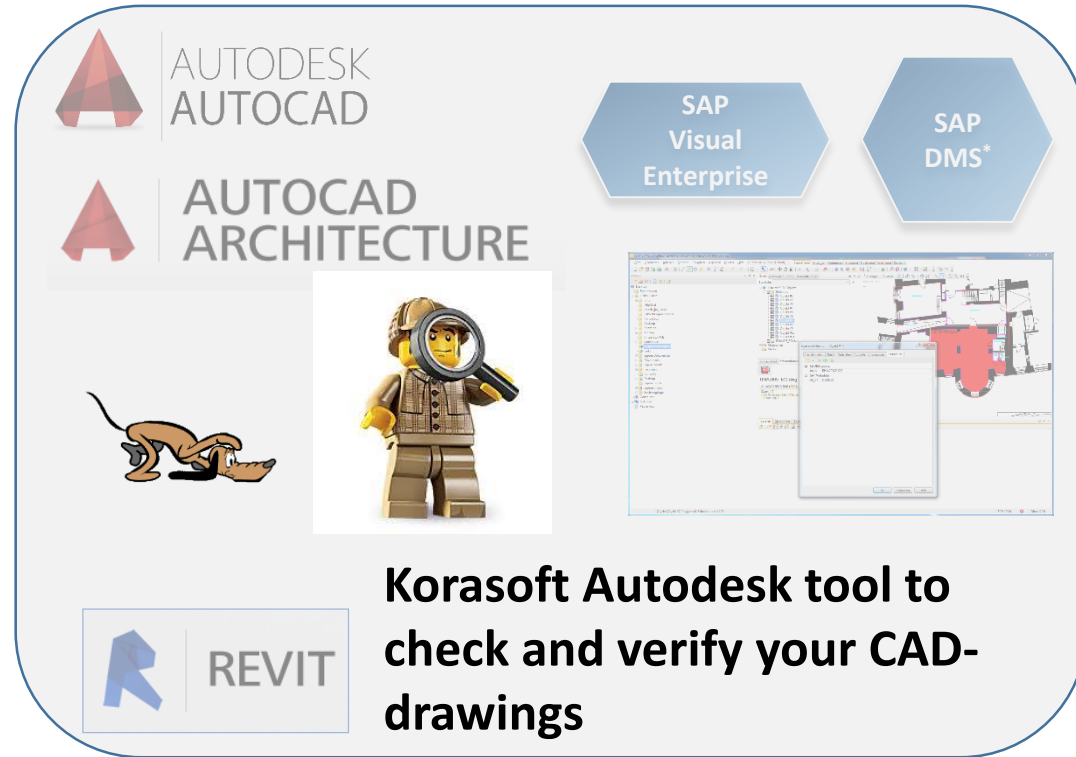

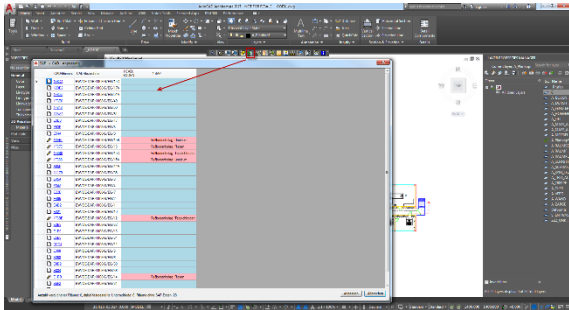

KORASOFT enables BIM360 for the following use cases during construction and operation phase of a building:

- Master Data Management with AutoCAD floorplans and Autodesk Revit BIM models
- Space and work place management with scenario planning for move management
- Graphical lease management
- Service- and Cleaning management
- Maintenance and ticketing system
- Key & Locking System Management
- Tree cadaster

visual Real Estate & Facility Management for SAP with BIM 360

Autodesk CAD Integration with SAP

*) Document Management System
 **) Enterprise Asset Management (Plant Maintenance)
 ***) Real Estate Management

AutoCAD: closed Polyline with Block attributes for room number and area
 Architecture: space object room with „mv block“ for room number and area
 Revit: BIM / BIM360

visual Real Estate & Facility Management for SAP with BIM 360

When do you need which information in SAP

SAP ERP and
IWMS / CAFM
Software in one system

for
construction and
operation phase

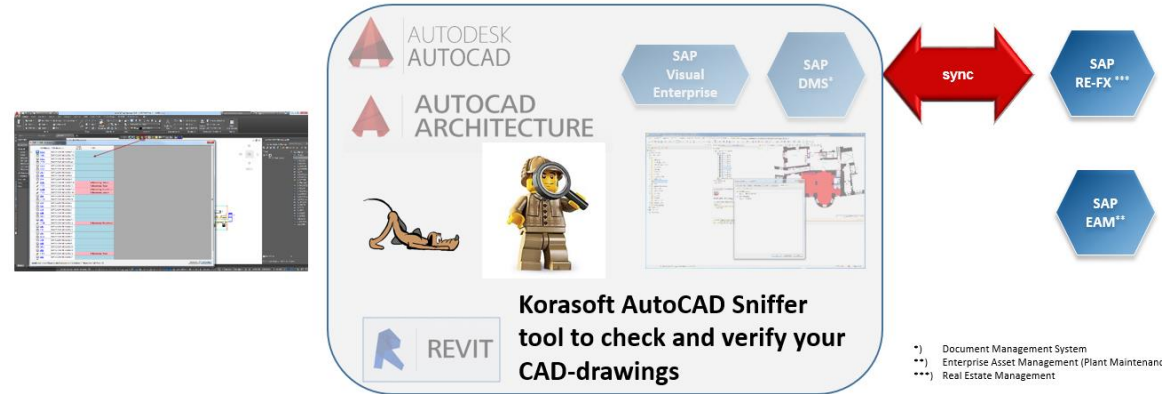

visual Real Estate & Facility Management for SAP with BIM 360

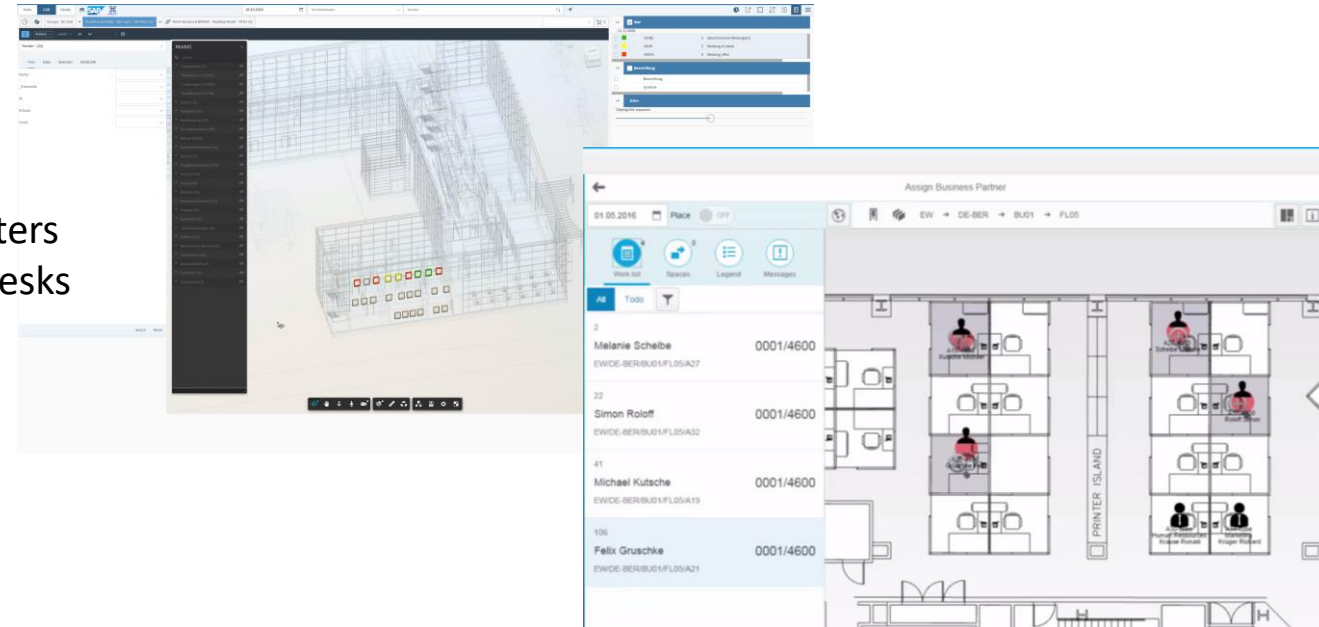

Add-on to SAP with AutoDesk Integrationen for SAP

- ⌘ Bidirectional Master Data Management from Autodesk AutoCAD, Architecture and Revit to SAP and vice versa (back from SAP to CAD)
- ⌘ checks whether all information are identified inside the drawings and successfully synchronized to SAP

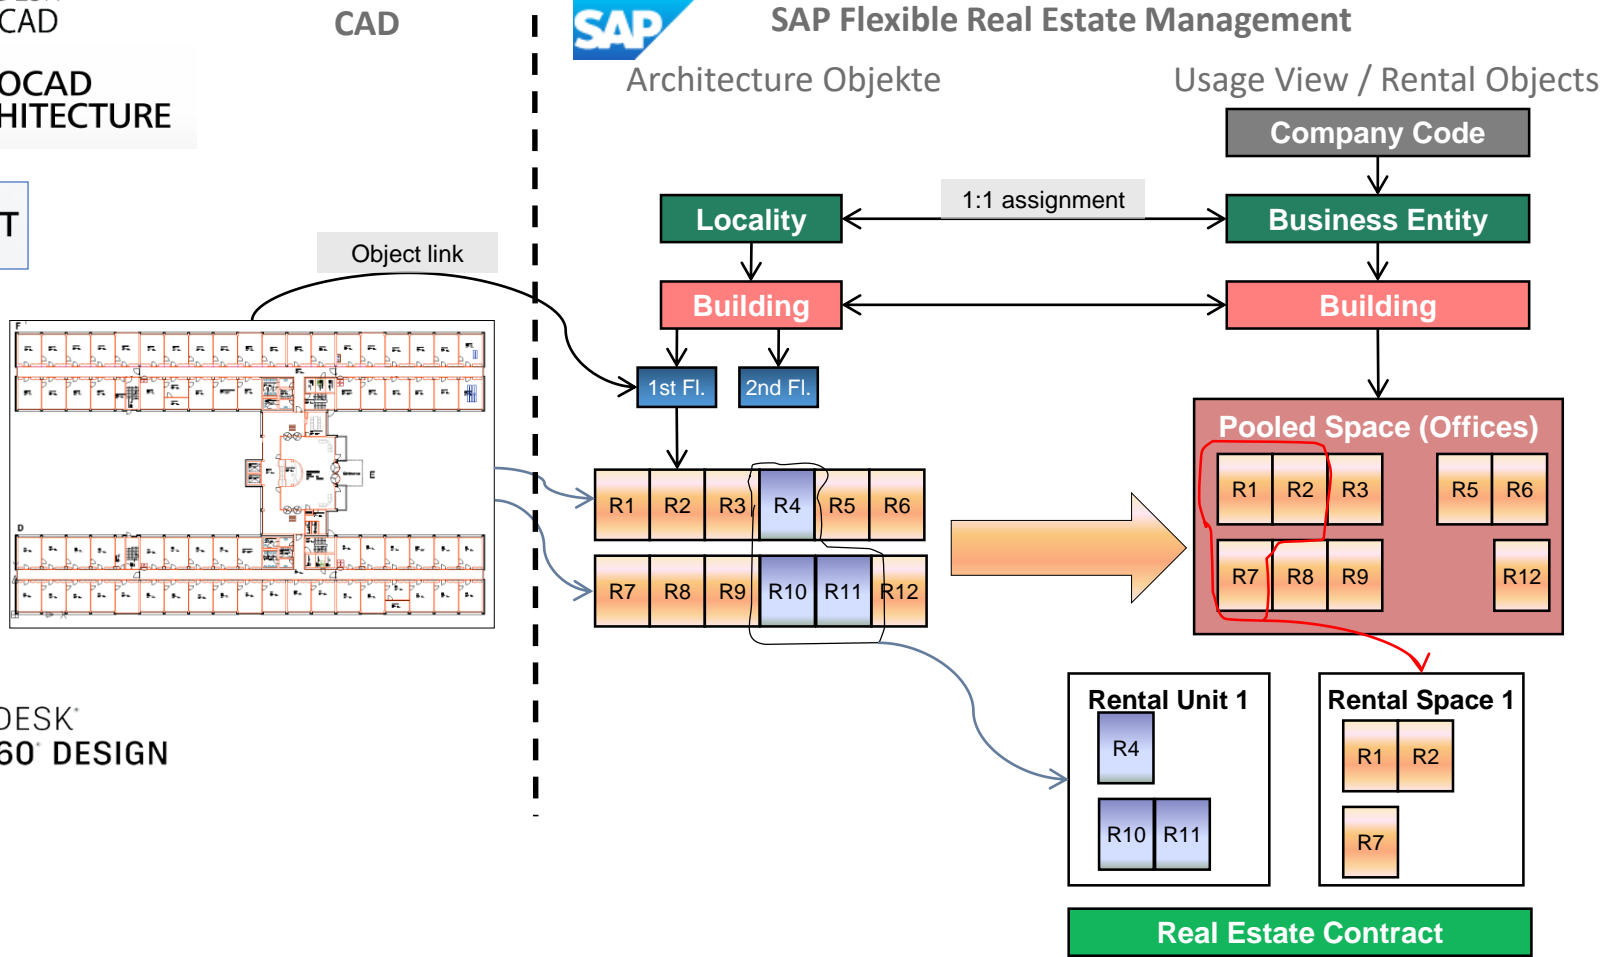

- ⌘ Dynamic Icons - visualize SAP Information as extra icons within drawings in SAP
- ⌘ Graphical support of Move Management and Maintenance
 - ⌘ show icons for (one or multiple) occupants or cost centers
 - ⌘ Use icons to place occupants or cost centers on their desks (by Click-and-Place) within SAP GUI (RE-80) (also available as additional SAP Fiori web interface)

- ⌘ Roll based WEB Application with SAP Fiori

visual Real Estate & Facility Management for SAP with BIM 360

VISUAL Real Estate & Facility Management with SAP

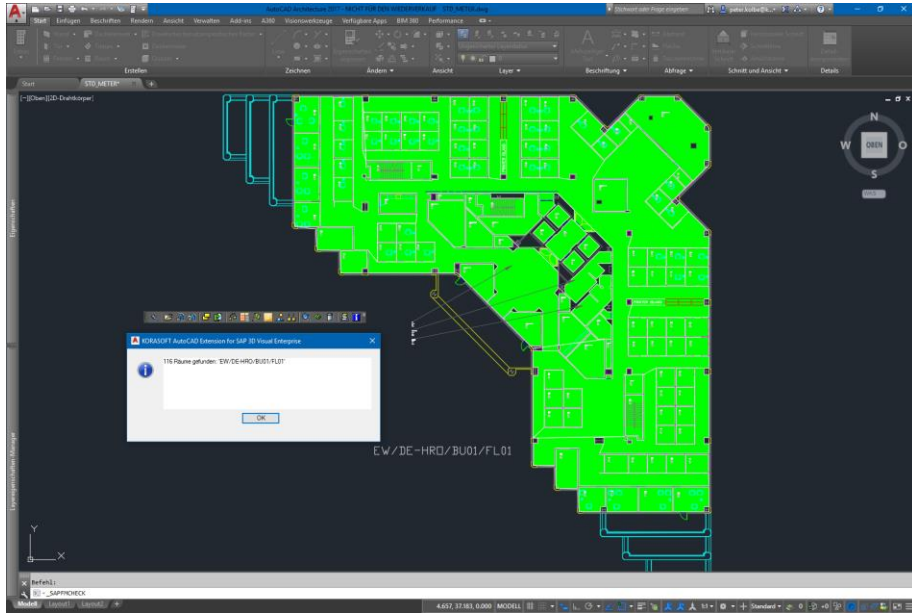

visual Real Estate & Facility Management for SAP with BIM 360

Master Data Maintenance by CAD

- Integration of AutoCAD in SAP DMS
- Linking in SAP & create object & asset structure through CAD
- Visualization in SAP with 3D Visual Enterprise

visual Real Estate & Facility Management for SAP with BIM 360

Now we're Adding BIM to SAP

BIM – Why using it with SAP?

BIM data are of use for any aspect of a buildings lifecycle.

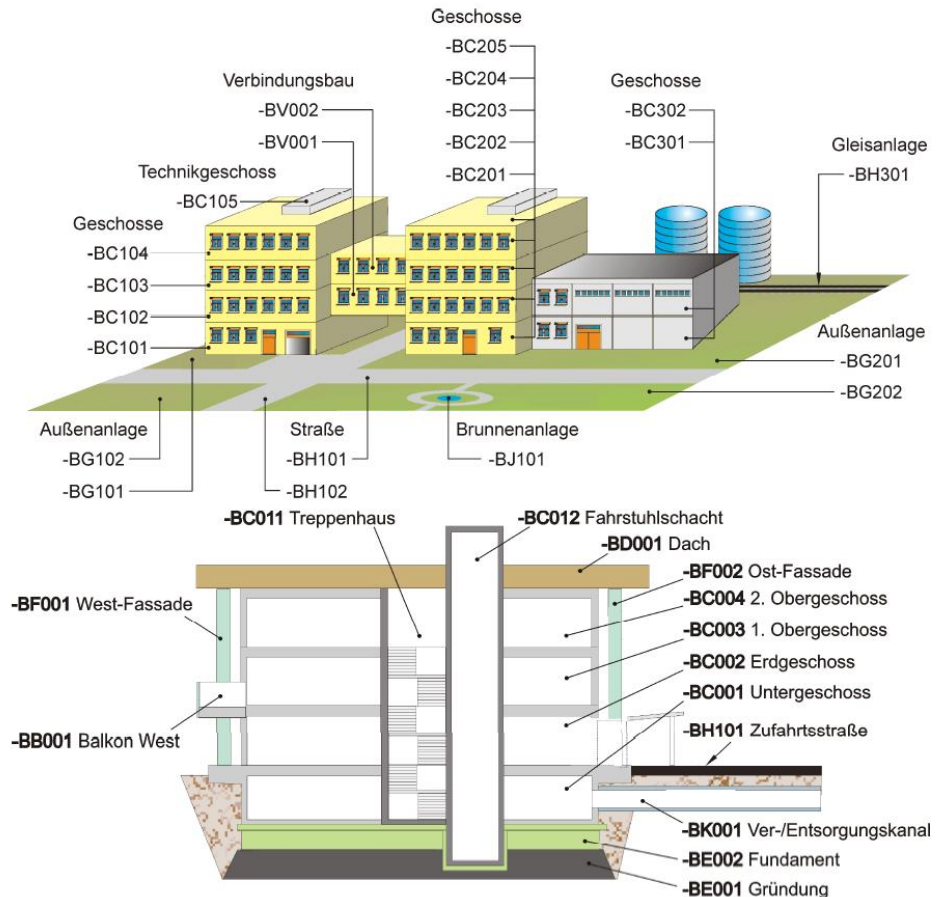

BIM delivers structured data directly linked to CAD elements.

Using CAD & BIM data in SAP

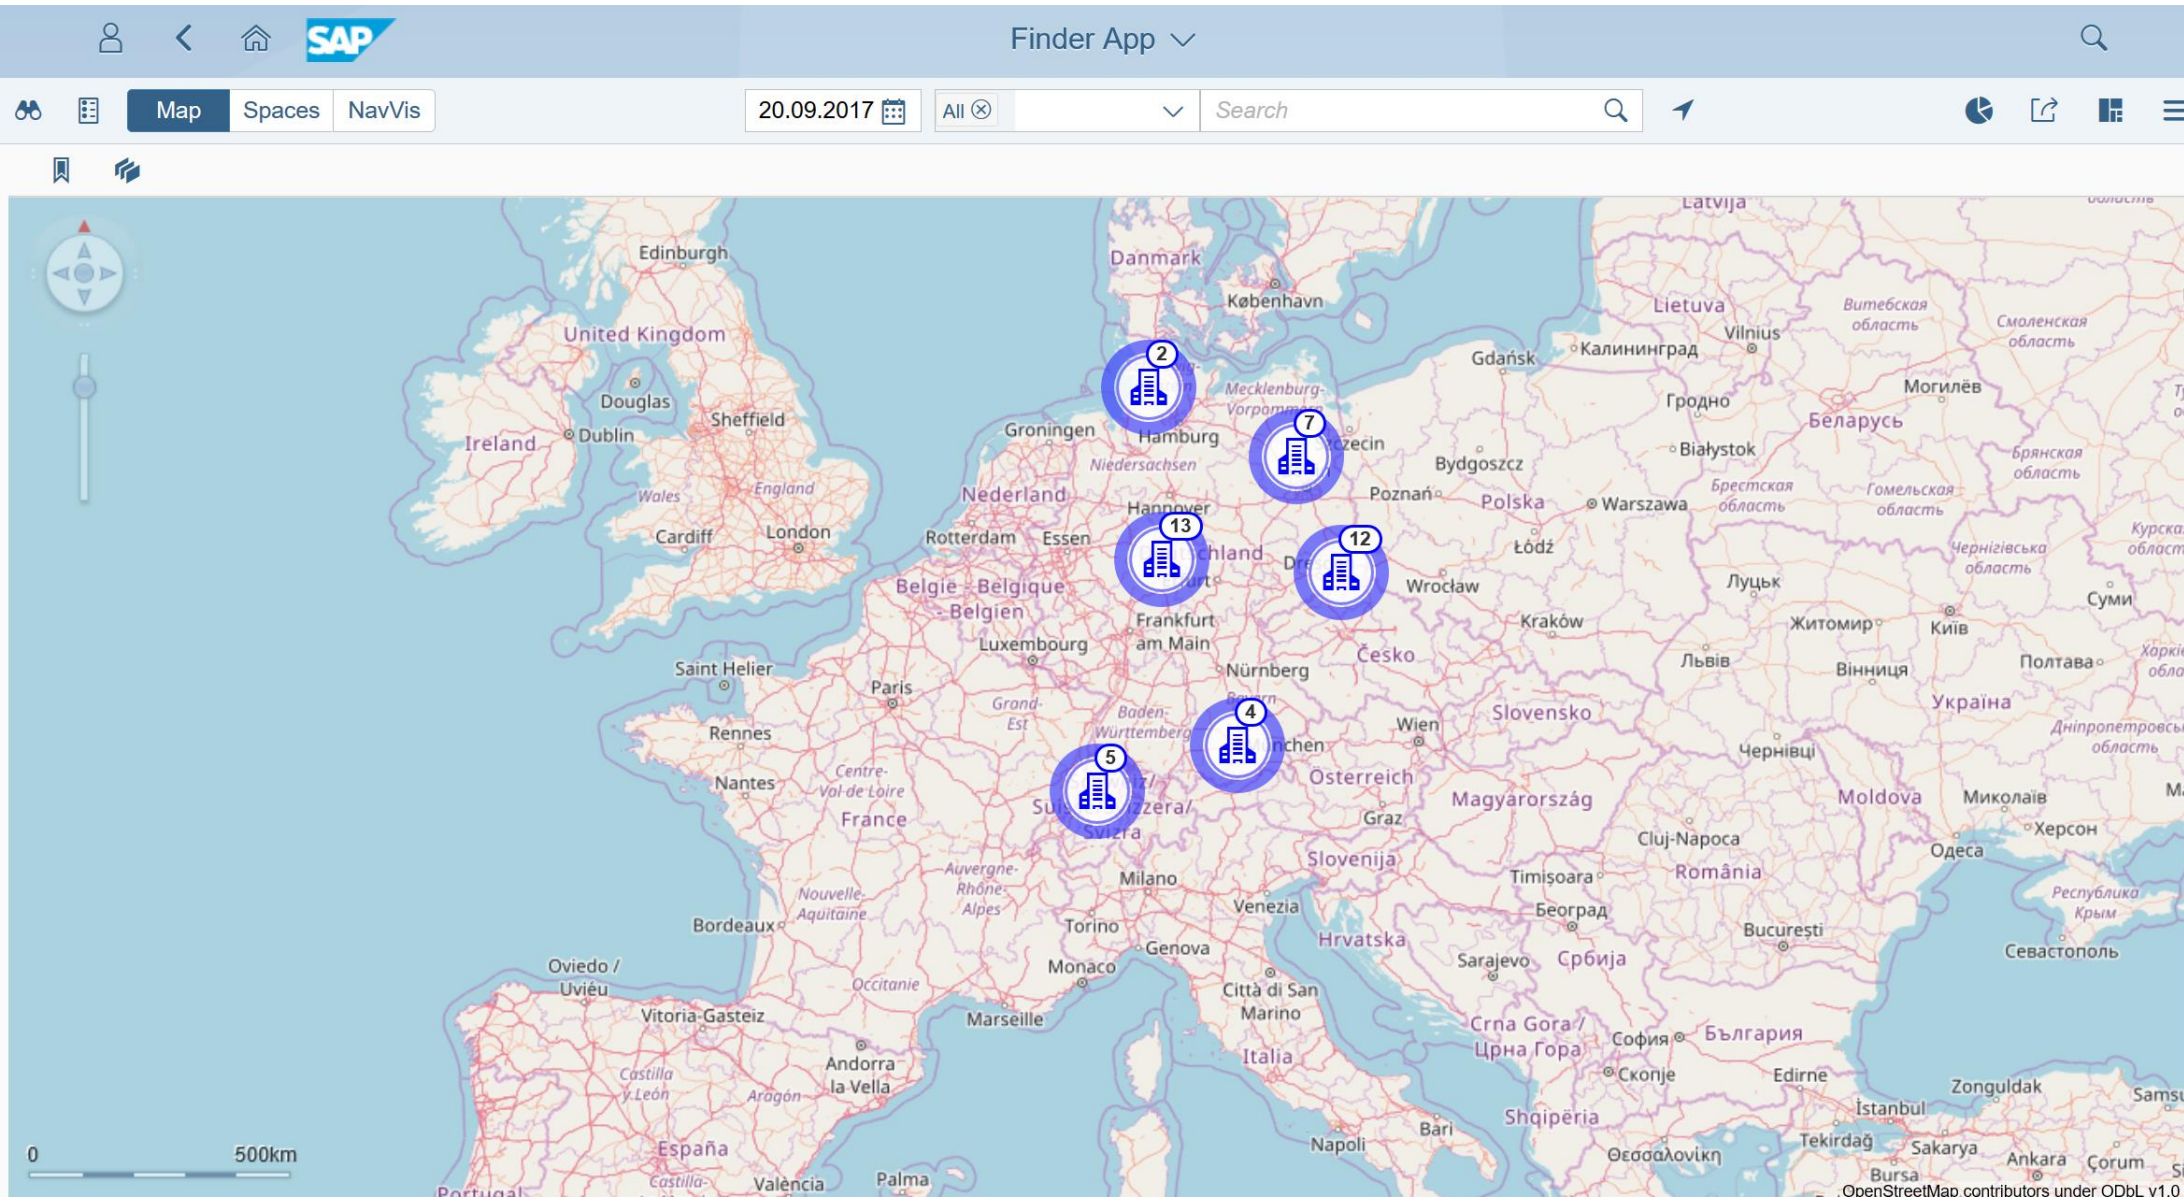

The screenshot shows the SAP Fiori Home dashboard. At the top, there is a navigation bar with the SAP logo on the left, the word 'Home' in the center, and a search icon on the right. Below the navigation bar is a horizontal menu with several tabs: 'Workspace-Tasks', 'Workplace-Navigation', 'Workplace-Planning', 'Workspace-Services', 'Workspace-Administration', 'CAFM', and 'CAFM V2'. The main area of the dashboard is filled with a grid of tiles. The first row contains seven tiles: 'Occupancy' (0 tasks), 'Rental' (0 tasks), 'Workplace' (0 tasks), 'Move' (0 tasks), 'Inventory' (1 task), 'Key Distribution' (0 tasks), and 'Review-App' (Control / Inspect / C...). The second row contains three tiles: 'Mobile-Service List', 'Key Distribution', and 'Key Return'. Below these is a section titled 'Workplace-Navigation' which contains five tiles: 'Info-App' (Display room & floor ...), 'Printer-App' (PDF printing), 'Sync App' (Synchronize master ...), another 'Sync App' (Synchronize master ...), and 'Editor-App' (Maintain room & buil...). The bottom of the dashboard shows the start of a 'Workplace-Planning' section.

The screenshot displays the SAP Finder App interface for a floor plan layout. The top navigation bar includes the SAP logo, 'Finder App', and search filters for location (Europa - EU (10) → Bonn, Nordrhein-Westfalen - DE-BN (2) → Klinikverwaltung - UK01 (5) → 1. Obergeschoss - 01 (28)) and object ID (EU/DE-BN/UK01.01.A1.01-AP120). The main area shows a detailed floor plan with numerous rooms labeled with alphanumeric codes such as A1.00, A1.01, A1.02, A1.03, A1.04, A1.05, A1.06, A1.07, A1.08, A1.09, A1.10, A1.11, A1.12, A1.13, A1.14, A1.14A, A1.14B, A1.15, A1.16, A1.17, A1.18, A1.00A, A1.00B, A1.00C, A1.00D, A1.00E, and A1.01A. The right-hand side features a 'Tools' panel with sections for 'Edit Elements' (rotation), 'Edit Rooms' (move), 'Redlining' (edit lines), and 'Align Stuff' (align to objects). A red callout box points to the floor plan with the text: 'What you can do: Place and edit objects in drawings, e.g. add new desks, move and turn them with the mouse. Merge or split rooms'. The bottom of the interface has buttons for 'Speichern', 'Verwerfen', and 'Download', and a list of active layers including 'Geometry - Display' and 'Beschriftung'.

SAP Notifications and Work Orders

The screenshot displays a BIM 360 interface for SAP Notifications and Work Orders. The main view is a floor plan of a building, with various rooms and areas highlighted in different colors (red, green, blue, yellow) to indicate the status of notifications or work orders. The interface includes a top navigation bar with tabs for 'Karte', 'Flächen', and 'Details', a search bar, and a right-hand sidebar with filters for 'Stat', 'Meldungsart', 'Beschriftung', and 'Extra'. The floor plan shows rooms with icons for 'Stuhl defekt', 'Test 2', 'Rattenbefall', 'Telefon kaputt', and 'Dringend'. The sidebar on the right shows a list of notifications with their status and type, including 'Meldung offen', 'Alle Maßnahmen erledigt', 'Offene Maßnahme(n) vorhanden', 'Meldung zurückgestellt', and 'abgeschlossene Meldung(en)'. The 'Meldungsart' section shows 'Service Management' and 'Störmeldung' with various sub-categories like '0001 abgeschlossene M', '0002 abgeschlossene M', and '0009 abgeschlossene M'. The 'Beschriftung' and 'Extra' sections are also visible.

NavVis on SAP Fiori

here maintenance management – view & create Notifications & track Work orders

The screenshot displays the SAP Fiori NavVis interface. The top navigation bar includes the SAP logo, 'Finder App', and a search icon. Below the navigation bar, there are tabs for 'Map', 'Spaces', and 'NavVis'. The main content area is divided into a left sidebar and a central view. The sidebar lists 'Geo Code' and several 'Install' items with their respective IDs and coordinates. The central view shows a 3D model of a fire extinguisher with a notification overlay. The notification overlay has a title 'leaking fire extinguisher' and a message 'please replace this one'. A 'Notification' dialog box is open in the foreground, containing a form with the following fields: 'External ID' (6/46), 'Notification no.' (000500000142), 'Room no.' (leaking fire extinguisher), 'Service Provider' (Dr. Rettler Reinigungsfirma), 'Task' (E-Mail versender), and 'Attachments (0)'. The dialog box also includes a 'Submit' button at the bottom right.
