## Release Date

12/3/2003

---

## Introduction

**FEDERAL RECALL CAMPAIGN 03KW9 - Superseded by 03KWH**

**T300 MODELS BUILT AT THE STE. THERESE FACTORY SEPTEMBER 1, 2002 THROUGH SEPTEMBER 26, 2003 WITH CAT C7 & 3126E ENGINE & HORTON DRIVEMASTER FAN HUB - REFER TO 03KWH**

***NOTE: This recall was originally posted on 10/15/03. This revision contains a new repair procedure with different torque values. Chassis that already had the original repair procedure performed will need a "2nd Repair" performed using this new repair procedure. The DWC and SIR online systems will have the "P" for "Performed" removed from next to the "03KW9" designator in the campaign field.***

Kenworth Truck Company has determined that a defect, which relates to motor vehicle safety, exists in certain Kenworth T300 models with CAT C7 & 3126E engine and Horton Drivemaster fan hubs. The subject vehicles were manufactured on September 1, 2002 through September 26, 2003. A total of 1811 U.S. and 194 Canadian trucks are involved in this campaign. The chassis list (Chassis Dealer / Chassis) and a copy of the U.S. customer letter is attached. The DWC and SIR online systems indicate chassis involved in this recall with the designator of "03KW9" in the campaign field.

---

## Situation

Kenworth was notified that on some vehicles the above referenced hub and fan assembly can become separated from the engine. Following an intensive investigation, it was determined that there is a reduction of bolt clamp load during normal vehicle operation. This loss of clamp load may lead to premature failure of the bolt(s), which could cause the hub assembly to separate from the engine. This sequence of events may result in equipment damage and/or personal injury.

---

## Resolution

Kenworth has initiated a recall to correct this condition.

- **Chassis built 9/01/02 - 7/30/03:** The repair will consist of removing the fan hub and removing paint from the hub mounting surface of the engine, and reinstalling the hub with new fasteners and a rigid spacer.
  - **Chassis built 7/31/03 - 9/26/03:** The repair will consist of leaving the fan hub mounted on the engine, removing the existing fasteners and replacing them with new fasteners.
  - **"2nd Repair" Chassis:** The repair will consist of leaving the fan hub mounted on the engine, removing the 2 lower fasteners and replacing them with new fasteners.
- 

**It is a violation of Federal law for a dealer to sell or lease new vehicles covered by this recall until the defect or noncompliance has been corrected.**

---

## Warranty

- **Chassis built 9/01/02 - 7/30/03:**  
Kenworth will allow 2 hours to perform this recall. Use Quick Claim 03K9C for repair reimbursement.
  - **Chassis built 7/31/03 - 9/26/03:**  
Kenworth will allow 0.3 hours to perform this recall. Use Quick Claim 03K9D for repair reimbursement.
  - **"2nd Repair" chassis:**  
Kenworth will allow 0.3 hours to perform this recall. Use Quick Claim 03K9D for repair reimbursement.
- 

## Parts

- **Chassis built 9/01/02 - 7/30/03:**  
Order (1) Kit # D34-1000 from PPD and use the Repair Procedure for recall repair.
- **Chassis built 7/31/03 - 9/26/03:**  
Order (1) Kit # D34-1001 from PPD and use the Repair Procedure for recall repair.

- **"2nd Repair" chassis:**  
Order (1) Kit # D34-1001 from PPD and use the Repair Procedure for recall repair.

**03KWH**

## Supplier

Horton

---

## Description

Fan Hub Bolts Loosen

---

## Release Date

4/20/2004

---

## Introduction

### **FEDERAL RECALL CAMPAIGN 03KWH**

### **T300 MODELS BUILT AT THE STE. THERESE FACTORY SEPTEMBER 1, 2002 THROUGH FEBRUARY 18, 2004 WITH CAT C7 ENGINE & HORTON DRIVEMASTER FAN HUB**

This recall supersedes 03KW9 with a new repair procedure, as well as adding additional chassis to the recall. Please note, even though 03KW9 may have been performed, 03KWH still needs to be completed.

Kenworth Truck Company has determined that a defect, which relates to motor vehicle safety, exists in certain Kenworth T300 models with CAT C7 engine and Horton Drivemaster fan hubs. The subject vehicles were manufactured on September 1, 2002 through February 18, 2004. A total of 2578 US and 301 Canadian trucks are involved in this campaign. The chassis list and a copy of the customer letter are attached. The DWC and SIR online systems indicate chassis involved in this recall with the designator of "03KWH" in the campaign field.

---

## Situation

Kenworth initiated a recall on October 10, 2003 to correct a condition where the hub and fan assembly can become separated from the engine. Kenworth received notice of further failures after the recall had been performed. Kenworth continued to investigate and notified Horton. Horton has determined that the #989183 fan hub resonates in the operating range of the Cat C7 engine in T300s. This vibration could lead to premature failure of the fan hub, either by fatigue of the fan hub material or failure of the mounting bolts. This failure may cause the hub assembly to separate from the engine resulting in equipment damage and/or personal injury.

---

## Resolution

Kenworth has initiated a second recall to correct this condition. Horton has redesigned the fan hub to shift the hub's dynamic characteristics away from the operating frequencies of the engine.

The recall repair will consist of replacing the existing fan hub mounting bracket and related parts in accordance with the attached Horton Repair Procedure and returning the take-off bracket to Horton. The original take-off bolts, washers, and F80-1011 Fan Hub Spacer Bar should be discarded and not reused under any situation. Order Horton Fan Hub Kit 994934 for this repair. These kits will be available from PACCAR Parts May 1, 2004.

---

**It is a violation of Federal law for a dealer to sell or lease new vehicles covered by this recall until the defect or noncompliance has been corrected.**

---

## Warranty

Use Quick Claim 03KWH for repair reimbursement. Kenworth will allow 2.3 hours to perform this recall. You will receive a packing slip with ship location code "HR" for return of the take-off bracket. Parts returns will be UPS collect against account 571145 with reference number 03KWH in the UPS log entry.

---

## Parts

Order Horton Fan Hub Kit 994934 for replacement parts. Return the take-off bracket to Horton using the packing slip generated from Quick Claim 03KWH. The original take-off bolts, washers, and F80-1011 Fan Hub Spacer Bar should be discarded and not reused under any situation.

**\*Note:** Claim payments may be reversed if dealers fail to return take-off brackets, so retain records of UPS shipment numbers as proof of delivery if asked.

---

## Shipping

The packing slip address will be:

U.S. Dealers

Horton Manufacturing  
Ref.Recall 03KWH

10840 423rd Avenue  
Britton, SD 57430

UPS Coll: 571145 Ref. 03kWH

### Description

Drivemaster Fan Hubs

---

### Release Date

10/16/2003

---

### Introduction

#### **Safety Recall 803-E**

**(revised 5/11/06)  
Horton Drivemaster Fan Hubs**

Peterbilt Motors Company has determined that a defect, which relates to motor vehicle safety, exists in certain Model 330 vehicles built at the Ste. Therese factory with CAT C7 & 3126E engine and Horton Drivemaster fan hubs. The subject vehicles were manufactured between August 1, 2002 and September 18, 2003. A total of 2008 vehicles are involved in this campaign (see attached dealer to chassis list). Peterbilt will be sending a letter to all customers affected (copy of the customer letter is attached).

---

### Situation

Peterbilt was notified that on some vehicles the above referenced hub and fan assembly can become separated from the engine. Following an intensive investigation, it was determined that there is a reduction of bolt clamp load during normal vehicle operation. This loss of clamp load may lead to

premature failure of the bolt(s), which could cause the hub assembly to separate from the engine. This sequence of events may result in equipment damage and/or personal injury.

---

## **Resolution**

Peterbilt has initiated a recall to correct this condition. The repair will consist of removing the fan hub and paint from the hub mounting surface, and reinstalling the hub with new fasteners and a rigid spacer. Refer to the attached Repair Procedures to accomplish these tasks.

---

**It is a violation of Federal law for a dealer to sell or lease new vehicles covered by this recall until the defect or noncompliance has been corrected.**

---

## **Warranty**

For this repair, please submit a standard warranty claim using the coding provided below.

- Claim Type: C
- Campaign Number: 803-E
- ATA Code: 042-003-013
- Failure Type: 705

Please advise your customers that repairs must be performed **only** at an authorized Peterbilt dealership. Under no circumstances are you to charge a customer for any portion of this repair.

---

## **Parts**

The parts referred to in this document are summarized below and available from PACCAR Parts using normal ordering procedure.

<b>Part Number</b>	<b>Description</b>
D34-1000	Fan Hub Kit w/spacer

---

## **Labor**

Peterbilt will pay for labor as per the schedules below.

<b>Operation No.</b>	<b>Time (hr.)</b>	<b>Description</b>
042-XXX	0.2	Remove Paint
042-XXX	1.7	R & R Fan Clutch

---

# FIELD SERVICE BULLETIN

Date: April 18, 2007  
ATTENTION: Service Manager  
SUBJECT: Horton Fan Hub Upgrade – Group 1

EXPIRATION: **Extended to December 14, 2007**  
*(repair must be on or before 12/14/07 and claim must be submitted before 12/31/07)*

Horton has decided that vehicles with an 'in-service' date of April 1, 2005 to March 31, 2006 may be eligible to receive:

1. A new Bearing Kit at no cost

OR

2. A new Super-Kit\*

*\*This option comes with an extended warranty through Horton for 1 year/100,000 mi/160,000 km from the repair date.*

This upgrade offer is for kits only; it does not cover costs for the dealer to install the kit.

Peterbilt is sending letters to customers that have been selected for Horton's bearing upgrade program – Group 1.

Selected chassis are noted in DWC and SIR in the campaign field "FSB-1". Please refer to the attached chassis list (Chassis must be on this list to be eligible) and customer letter for more information.

**Administrative Notes:**

Parts are available through PACCAR Parts according to the following table:

PART NUMBER	DESCRIPTION	QTY	DEALER NET EACH USD (CAN)	CLAIM REIMBURSEMENT USD (CAN)	
				PARTS	LABOR
995048HOR	Bearing Kit	1	\$ 10.00 (\$ 11.85)	\$ 20.00 <sup>1</sup> (\$ 23.70)	NONE
995051HOR <sup>2</sup>	Super Kit	1	\$ 276.02 <sup>3</sup> (\$ 327.09)	\$ 125.00 <sup>3</sup> (\$ 148.10)	NONE
<sup>1</sup> Includes \$10 USD mark up for dealer <sup>2</sup> Super Kits will be available for PACCAR Parts distribution approximately April 30, 2007 <sup>3</sup> Dealer's final cost for Super Kit: <div style="text-align: right; margin-right: 100px;">                     Dealer net = 276.02 USD                      Claim reimbursement = -125.00 USD                      Dealer cost = 151.02 USD                      Suggested charge to customer = 200.00 USD (\$236.97 CAN)                 </div>					

Peterbilt Motors will reimburse the dealer \$20.00 USD (\$23.70 CAN) for a Bearing Kit OR \$125.00 USD (\$148.10 CAN) for a Super Kit.

There is no reimbursement for labor.

Please submit a warranty quick claim according to the table below:

If you are a US Dealer...	Then use Quick Claim...
And the customer wants the Bearing Kit	HOR-1A
OR the customer wants a Super Kit	HOR-1B

If you are a Canadian Dealer...	Then use Quick Claim...
And the customer wants the Bearing Kit	HOR-3A
OR the customer wants a Super Kit	HOR-3B

SUBJECT: Updates for Horton Fan Hub

EXPIRATION DATE: September 30, 2007

VIN: \_\_\_\_\_

Dear Peterbilt Customer:

Peterbilt is pleased to announce that Horton is offering a proactive fan hub upgrade program for qualified vehicles. Our records indicate that the vehicle identified by the VIN above, is eligible for this fan hub upgrade program.

This program contains one of two options:

1. A new Bearing Kit at no cost  
OR
2. A new Super-Kit at a significant discount

This upgrade offer is for kits only; it does not include kit installation.

***Renew your DriveMaster with a Super Kit!***

Horton would like to offer the chance to completely renew your DriveMaster fan drive at a lower cost than ever before!

As an option to a new bearing kit at no cost, customers with qualifying trucks also have the option to purchase a **SUPER KIT** at a **SIGNIFICANT DISCOUNT**. With this option you'll not only get new bearings and seals, but also a new friction liner, fan mounting disk and clutch pack. This kit will rebuild your entire fan drive to "**LIKE NEW**" condition.

By purchasing the Super Kit at a reduced rate, your aftermarket rebuild will come with a Horton **1 YEAR / 100,000 MILE WARRANTY** from the time of installation.

In addition to new bearings, the reduced-price Super Kit includes:

- O-Ring Lubricant
- Bearing Nut
- O-Ring Seal
- Fan Mounting Disc/Studs
- Button Head Screws
- Air Chamber Seal
- Face Seal
- Retaining Ring
- Air Cartridge Assembly
- Friction Liner
- Spring Housing/ Piston

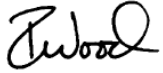

With Genuine Horton Parts, you get proven, guaranteed performance, second to none. Horton's experience with today's industry conditions has resulted in a more robust design for higher temperatures and speeds. Backed by an extended warranty, they give you the peace of mind that your vehicles are equipped with the best.

Please contact your Peterbilt dealership before expiration date to receive one of the two kits.

If you require further information about this letter please contact: Peterbilt Motors Company, 1700 Woodbrook Street, Denton, Texas 76205: Customer Service Department, phone 940-591-4196.

Sincerely,

A handwritten signature in black ink, appearing to read "Rick Wood". The signature is written in a cursive style with a large, stylized "R" and "W".

Rick Wood

# FIELD SERVICE BULLETIN

Date: April 18, 2007  
 ATTENTION: Service Manager  
 SUBJECT: Horton Fan Hub Upgrade – Group 2  
 EXPIRATION: **Extended to December 14, 2007**  
*(repair must be on or before 12/14/07 and claim must be submitted before 12/31/07)*

Horton has decided that vehicles with an ‘in-service’ date after April 1, 2006 may be eligible to receive:

1. Parts and labor for a new Bearing Kit at no cost
- OR
2. Parts, at a reduced price, and labor for a new Super-Kit\*

*\* This option comes with an extended warranty through Horton for 1 year/100,000 mi/160,000 km from the repair date.*

Peterbilt is sending letters to customers that have been selected for Horton’s bearing upgrade program – Group 2.

Selected chassis are noted in DWC and SIR in the campaign field “FSB-2”. Please refer to the attached chassis list (Chassis must be on this list to be eligible) and customer letter for more information.

**Administrative Notes:**

Parts are available through PACCAR Parts according to the following table:

PART NUMBER	DESCRIPTION	QTY	DEALER NET EACH USD (CAN)	CLAIM REIMBURSEMENT USD (CAN)	
				PARTS	LABOR
995048H0R	Bearing Kit	1	\$ 10.00 (\$ 11.85)	\$ 20.00 <sup>1</sup> (\$ 23.70)	2.5 hrs (387 only) 3.25 hrs (CONV)

PART NUMBER	DESCRIPTION	QTY	DEALER NET EACH USD (CAN)	CLAIM REIMBURSEMENT USD (CAN)	
995051H0R <sup>2</sup>	Super Kit	1	\$ 276.02 <sup>3</sup> (\$ 327.09)	\$ 125.00 <sup>3</sup> (\$ 148.10)	2.5 hrs (387 only) 3.25 hrs (CONV)
<sup>1</sup> Includes \$10 USD mark up for dealer <sup>2</sup> Super Kits will be available for PACCAR Parts distribution approximately April 30, 2007 <sup>3</sup> Dealer's final cost for Super Kit: <div style="text-align: right; margin-right: 100px;"> Dealer net = 276.02 USD  Claim reimbursement = -125.00 USD  Dealer cost = 151.02 USD  Suggested charge to customer = 200.00 USD (\$236.97 CAN) </div>					

Peterbilt Motors will reimburse the dealer \$20.00 USD (\$23.70 CAN) for a bearing kit OR \$125.00 USD (\$148.10 CAN) for a super kit.

The quick claims are applicable according to the tables below:

If you are a US Dealer...	Then use Quick Claim...	Which pays labor
And the customer wants the Bearing Kit	HOR-2A	2.5 hrs
OR the customer wants a Super Kit	HOR-2B	2.5 hrs

If you are a Canadian Dealer...	Then use Quick Claim...	Which pays labor
And the customer wants the Bearing Kit	HOR-4A	2.5 hrs
OR the customer wants a Super Kit	HOR-4B	2.5 hrs

If your vehicle is a conventional model (not a model 387), then submit an **additional** quick claim per the table below. Peterbilt is supporting this additional quick claim to bring your total labor allowance to 3.25 hrs (which is Peterbilt's published labor allowance for conventional model vehicles).

If your vehicle is...	Then submit an <b>additional</b> Quick Claim...	Which pays labor
Conventional Model (Not 387)	HOR-5	0.75 hr

**For questions call Peterbilt Customer Service at 940-591-4196.**

SUBJECT: Updates for Horton Fan Hub

EXPIRATION DATE: September 30, 2007

VIN: \_\_\_\_\_

Dear Peterbilt Customer:

Peterbilt is pleased to announce that Horton is offering a proactive fan hub upgrade program for qualified vehicles. Our records indicate that the vehicle identified by the VIN above, is eligible for this fan hub upgrade program.

This program contains one of two options:

1. A new Bearing Kit at no cost  
OR
2. A new Super-Kit at a significant discount

***Renew your DriveMaster with a Super Kit!***

Horton would like to offer the chance to completely renew your DriveMaster fan drive at a lower cost than ever before!

As an option to a new bearing kit at no cost, customers with qualifying trucks also have the option to purchase a **SUPER KIT** at a **SIGNIFICANT DISCOUNT**. With this option you'll not only get new bearings and seals, but also a new friction liner, fan mounting disk and clutch pack. This kit will rebuild your entire fan drive to "**LIKE NEW**" condition.

By purchasing the Super Kit at a reduced rate, your aftermarket rebuild will come with a Horton **1 YEAR / 100,000 MILE WARRANTY** from the time of installation.

In addition to new bearings, the reduced-price Super Kit includes:

- O-Ring Lubricant
- Bearing Nut
- O-Ring Seal
- Fan Mounting Disc/Studs
- Button Head Screws
- Air Chamber Seal
- Face Seal
- Retaining Ring
- Air Cartridge Assembly
- Friction Liner
- Spring Housing/ Piston

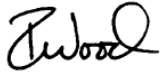

With Genuine Horton Parts, you get proven, guaranteed performance, second to none. Horton's experience with today's industry conditions has resulted in a more robust design for higher temperatures and speeds. Backed by an extended warranty, they give you the peace of mind that your vehicles are equipped with the best.

Please contact your Peterbilt dealership before expiration date to schedule an appointment to have this upgrade installed. The labor to perform this upgrade will be provided at no charge to you.

If you require further information about this letter please contact: Peterbilt Motors Company, 1700 Woodbrook Street, Denton, Texas 76205: Customer Service Department, phone 940-591-4196.

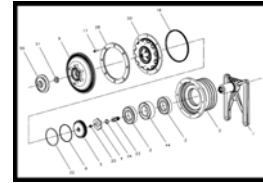

Sincerely,

A handwritten signature in black ink, appearing to read "Rick Wood". The signature is written in a cursive, flowing style.

09 August 2006

**BULLETIN NUMBER**

42-36

**SUBJECT**

Horton Fan Drive Repair Kits

**CONDITION**

Horton has asked that Kenworth call attention to availability of repair kits and the requirement that kits rather than replacement assemblies be used in warranty repairs.

**CHASSIS AFFECTED**

All chassis equipped with Horton brand fan drives.

**ACTION**

Dealer Service technicians and Parts Departments should become aware of Horton repair kits, described in the attached.

**WARRANTY**

Both the Horton and Kenworth warranty programs require use of repair kits when practical.

**PARTS**

Parts are available from PACCAR Parts. See attached publications for part numbers or visit Horton's website [www.hortoninc.com](http://www.hortoninc.com), or call 1-800-621-1320 for assistance.

**BACKGROUND**

There are approximately 100 different Horton fan drive assemblies but a single repair kit (DriveMaster Super Kit) will remedy over 95% of product issues and lesser kits (Seal Kit, Friction Disc Kit, Clutch Pack Kit) will remedy many of the remainder. Stocking and using repair kits will reduce inventory requirements, reduce customer down time and expense.

**PROCEDURE**

See the attached Horton [cover letter](#) and KW ServiceNet posting of Horton [Spring Engaged Repair Kit](#) Installation Instructions, Horton [S & HT/S Repair Kit](#) Bulletin, and Horton [S & HT/S Seal Kit](#) Bulletin (ServiceNet Vendor folder, Engine section). For a troubleshooting guide and diagnostic instructions about when to use which kit, see [page 19](#) of the Horton Spring Engaged Repair Kit bulletin.

**Note:** Kenworth uses Horton's Spring Engaged (air disengaged) Fan Drive. Horton S & HT/S Air Engaged (spring disengaged) literature is provided for service information.

Horton, Inc.  
2565 Walnut Street  
Roseville, MN 55113 • USA  
(651) 361-6400

## Horton Service Bulletin

As Horton continues to monitor and reduce warranty costs and expenses, it has become clear that we need to pursue kits as our first repair option for warrantable failures, and replace complete fan drive units only when absolutely necessary. The vast majority of warranty repairs can be performed using one of our standard kit offerings, which are currently available through the PACCAR PDC network:

- Super Kit
- Seal Kit
- FMFD Kit
- Friction Liner Kit

Therefore, warranty repairs made with complete clutches on or after **9/1/06** will no longer be considered for full warranty reimbursement if a repair kit could have been used instead. In these cases, warranty will be paid as if a Super Kit was installed.

**The only time a complete unit should be considered for a warranty replacement is if the clutch has come off the engine, or the pulley and/or bracket has been damaged. We understand that situations may arise where it is simply not possible to use a repair kit. In these cases, please note on the Repair Order the specific reason(s) a repair kit was not used.**

Dealers can use our on-line catalog to find all repair options available for a particular clutch at <http://www.hortonww.com/catalog/index.asp>. Enter the part number in the section entitled "Part Number Search", hit the "Search" button, and then click on "Repair Options" to find all available kit options.

Horton also has a complete set of product literature and repair instructions published on-line at [http://www.hortonww.com/literature/lit\\_order\\_new.asp](http://www.hortonww.com/literature/lit_order_new.asp). Click on "Literature Order Center", and then click on the desired product category on the left hand side of the screen. From there, PDF files can be viewed or printed.

If you need any additional information, please do not hesitate to contact your Horton Territory Manager, or call Horton Customer Service at 1-800-621-1320.

Sincerely,

A handwritten signature in black ink that reads "Neal Shawaluk". The signature is fluid and cursive, with a long horizontal stroke at the end.

## BULLETIN NUMBER

42-37

original publication ; 25 May 2007

revision date; 02 October 2007

## SUBJECT

Horton DriveMaster Fan Hub Bearing Upgrade

**REVISION:** Program expiration is changed from repairs completed 09/30/07 to repairs completed 12/14/07. Claims with repair dates after 12/14/07 will be denied and dealers are instructed to file claims prior to 12/31/07. Dealers may inform customers. Kenworth will not mail update customer letters.

## CONDITION

Product improvement upgrade for specific Kenworth vehicles with Horton fan hubs.

## CHASSIS AFFECTED

21,155 T2000s, T600s, T800s and W900s equipped with Horton fan hubs, built prior to 05/15/06 and with Kenworth Date of Delivery on or after 07/01/05, excluding hubs repaired since 06/30/06. This offer is only available to vehicles that are repaired, or have made repair appointment, within the Kenworth/Horton warranty time and mileage limits\*.

\* Kenworth/Horton warranty is to 1 yr service/100,000 mi, 160,000 km; including Parts & Labor.

\* Horton warranty is up to 2 yr service/200,000 mi, 320,000 km; including Parts, no Labor.

See the attached [chassis list](#), [Dealer/chassis list](#) and [customer letter](#).

## ACTION

Horton has developed an improved bearing system and is offering Kenworth customers the opportunity to upgrade their DriveMaster fan hubs by selecting one of two kits;

- Bearing Kit – Improved bearing replacement kit.
- Super Kit – Includes a bearing kit, new fan mounting disc, ultra high-torque clutch pack, o-rings, friction liner, air cartridge, face seal, retaining rings, facing screws and lube. See the Warranty section below for offer details of each kit.

Customers that are eligible will receive a letter announcing this offer. Eligible chassis are identified on the attached lists. Review DWC/SIR online systems for “P” (indicating repair has already been “Performed”) next to the “42-37” campaign code prior to performing the upgrade.

## WARRANTY

This offer is provided by Kenworth and Horton and will be administered through the Kenworth warranty (DWC) system. The offer will expire 12/14/07 (repair date) and dealers are instructed to file claims prior to 12/31/07. Below are the offer options.

Repairs in 1<sup>st</sup> yr service, up to 100,000 mi, 160,000 km: Use Quick claim 4237A1 or 4237A2

- Bearing Kit (4237A1)– Parts and labor at no cost to the customer.
- Super Kit (4237A2) – Parts at reduced cost and labor at no cost to the customer.  
Super Kit comes with 1 year/100,000 mile after-market parts only warranty, starting from the Super Kit installation date.

Repairs in 2<sup>nd</sup> yr service/100-200,000 mi, 160-320,000 km: Use Quick Claim 4237B1 or 4237B2

- Bearing Kit (4237B1) - Parts at no cost, customer to pay labor (KW Standard 2.1 hours)
- Super Kit (4237B2) - Parts at reduced cost, customer to pay labor (KW Standard 2.5 hr)  
Super Kit comes with 1 year/100,000 mile after-market parts only warranty, starting from the Super Kit installation date.

See the Procedure section of this bulletin for related Quick Claims and payment amounts.

A DIVISION OF **PACCAR**

**PARTS**

<u>Quantity</u>	<u>Part Number</u>	<u>Description</u>
1	995048HOR	Horton Bearing Kit
- or -		
1	995051HOR	Horton Super Kit

**PROCEDURE**

Standard mechanic's R&R and overhaul operations apply (ref SRT 042-101).

All chassis are identified in SIR by campaign code 42-37. Repair reimbursement depends upon the time in service and/or mileage at the date of repair. The associated Quick Claims and reimbursement levels are described below. The Super Kit option entitles the customer to Horton's after-market warranty (parts and dealer markup only) for 1 yr service/100,000 mi, 160,000 km from the date of Super Kit installation. A paid warranty claim is evidence of Super Kit installation and extended warranty start date. Contact Horton at 1-800-621-1320 for more information on this program or Horton Super Kit warranty.

**Repairs in 1<sup>st</sup> yr service, up to 100,000 mi, 160,000 km**

PART NUMBER	DESCRIPTION	QUICK CLAIM	DEALER NET EACH USD (CAN)	CLAIM PAYMENT FOR PARTS USD (CAN)	CLAIM PAYMENT LABOR
995048HOR	Bearing Kit option	4237A1	\$ 10.00 (\$ 11.85)	\$ 20.00 <sup>1</sup> (\$ 23.42)	2.1 hrs SRT 042-102
995051HOR	Super Kit option	4237A2	\$ 276.02 <sup>2</sup> (\$ 327.09)	\$ 125.00 (\$ 146.37)	2.5 hrs SRT 042-101

<sup>1</sup>Includes \$10 mark up for dealer

<sup>2</sup> Suggested retail price is \$325 (includes 15% dealer margin). Kenworth/Horton reimbursement through the KW claim system is \$125 and it is recommended that the customer pay \$200.00 USD (\$234.19 CAN) for this option.

**Repairs in 2<sup>nd</sup> yr service/100,000-200,000 mi, 160,000-320,000 km**

Customer Address

Subject: TIB 42-37, Horton DriveMaster Fan Hub Bearing Upgrade

Dear Kenworth Customer,

Horton Inc. has developed an improved bearing system for the DriveMaster fan hub. Horton is promoting the introduction of this new product by contributing toward the cost of updating fan hubs already in service for select customers. If you elect to participate in this offer, you may select one of two kits; a standard bearing kit or a Super Kit. Super Kits include a bearing kit, new fan mounting disc, ultra high-torque clutch pack, o-rings, friction liner, air cartridge, face seal, retaining rings, facing screws and lube. Super Kit purchase and dealer installation also entitles the customer to 1 year/100,000mi or 160,000km Horton after-market warranty (parts costs, no labor) starting from the date of Super Kit installation.

Promotion payments depend upon the kit selected and the age or length of service for the chassis at the time of repair. Following are details of the offer.

### Repairs in 1<sup>st</sup> yr service, up to 100,000 mi, 160,000 km

- Bearing Kit – Parts and labor at no cost to the customer.
- Super Kit – Parts at reduced cost and labor at no cost to the customer.  
Super Kit comes with 1 year/100,000 mile after-market parts only warranty, starting from the Super Kit installation date.

### Repairs in 2<sup>nd</sup> yr service/100-200,000 mi, 160-320,000 km

- Bearing Kit – Parts at no cost, customer to pay labor (KW Standard 2.50 hours)
- Super Kit - Parts at reduced cost, customer to pay labor (KW Standard 2.50 hours)  
Super Kit comes with 1 year/100,000 mile after-market parts only warranty, starting from the Super Kit installation date.

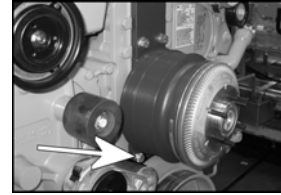

To accept this offer, contact a Kenworth dealership and schedule work. Refer to TIB 42-37 and the chassis listed on this letter when you call. Appointment for repair must be made while your chassis is within Horton's warranty time and mileage limits (2yr/200,000mi 320,000km) and **offer expires 09/30/07 (repair date).**\*

Thank you,

Mike Kalkoske  
Director, Quality Services  
Kenworth Truck Company.

RESPONSE 9  
TIB% 2042-40

**BULLETIN NUMBER**  
42-40

Original publication: 17 September 2007  
Revision Date: 31 October 2007

**REVISION:** An additional 144 chassis were added to chassis lists. The additions are noted with asterisk (\*) in the chassis and dealer/chassis lists.

**SUBJECT**  
C15 Fan Hub Mounting Bolts Campaign

**CONDITION**  
Fan hubs may have been mounted with bolts that are either too long or too short and there may be damage to the front engine cover.

**CHASSIS AFFECTED**  
824 T2000s, T660s and T800s built between 06/07/07 and 08/24/07 at the Chillicothe and Renton factories, equipped with C15 engines and F17-6005-1071 fan hubs. See the attached [chassis list](#), [dealer/chassis list](#), and [customer letter](#).

**ACTION**  
Inspect and, if necessary, service all chassis affected that enter your dealership, even if the customer has no issue with the chassis. Use the procedure below. Review the DWC or SIR online systems for "P" (indicating repair has already been "Performed") next to the "42-40" campaign code prior to performing this repair.

**WARRANTY**  
Through the Basic Vehicle Warranty, Kenworth will pay for parts at dealer net plus applicable mark-up and labor.

- Use Quick Claim 42-40a for repairs that require inspection and bolts replacement. (Includes parts price, mark-up and 2.0 hours labor)
- Use Quick claim 42-40b for repairs that require inspection only. (Includes 2.0 hours labor, no parts.)
- Create a long claim form for claims that require replacement of the front engine cover. NOTE: Caterpillar standard labor is 15.3 hours, including front cover R&R (14.5 hr), washing the cover (0.5 hr) and testing afterward (0.3 hr).

Coding  
042-003-005  
470-20-01

**PARTS**  
For repairs requiring a front engine cover, parts are available from Caterpillar.  
For repairs requiring replacement bolts, parts are available from PACCAR Parts, as follows:

<u>Quantity</u>	<u>Part Number</u>	<u>Description</u>
2	D8400-4318	40mm bolt

## PROCEDURE

- 1) Inspect the front engine cover below the fan hub mounting area.
  - If there is an oil leak, skip to step 4.
  - If there is no oil leak, continue to step 2.
- 2) Remove the lower two hub bracket mounting bolts. See figure 1.

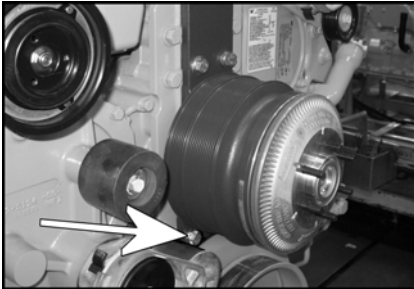

Figure 1; lower mounting bolt

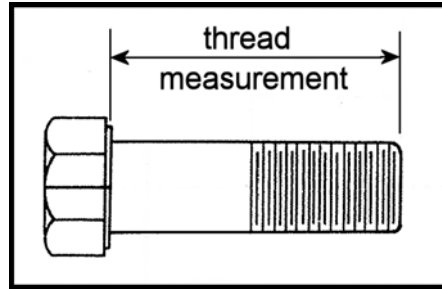

Figure 2: thread measurement

- 3) Measure bolts from underside of the bolt head to the end of the threads. See figure 2.
  - If the bolts measure 30mm (1-3/16"), replace them with D8400-4318 (40mm or 1-9/16"). Apply 55-75 ft-lb torque. File Quick Claim 42-40a. No further action is required
  - If the bolts measure 40mm (1-9/16"), reinstall them. Apply 55-75 ft-lb torque. File Quick Claim 42-40b. No further action is required
  - If the bolts measure 50mm (2"), replace them with D8400-4318 (40mm or 1-9/16"). Apply 55-75 ft-lb torque. File Quick claim 42-40a. No further action is required.
- 4) If there is an oil leak, remove the fan hub and validate that the leak source is mounting bolt damage as depicted in figure 3.
  - If damage is as shown, replace the front engine cover and file a long Kenworth claim form. Obtain the appropriate engine cover from your Caterpillar distributor and use D8400-4318 lower hub mounting bolts in the repair (torque 55-75 ft-lb).
  - If the leak source **is not** as depicted, further diagnose the cause of leak. File Kenworth Quick Claim 42-40a for campaign related inspection and file independently for correction of the unrelated engine oil leak (i.e. engine manufacturer or other warranty if applicable).

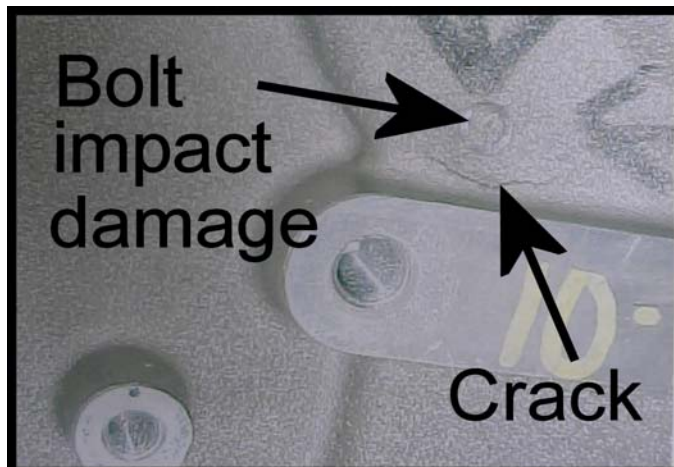

Figure 3; Engine front cover damage (bolt) and crack (leak path)

Subject: TIB 42-40, C15 Fan Hub Mounting Bolts Campaign

Dear Kenworth Customer,

Kenworth has identified that incorrect length bolts may have been used to install the fan hub to the engine in your chassis. If the bolts used were too long, it is possible that these bolts could impact and crack the front engine cover. A cracked engine cover could leak and cause engine damage if not corrected.

Kenworth is asking for the opportunity to inspect and, if necessary, make repairs on your chassis to eliminate the potential for such engine damage. Please make an appointment with a Kenworth dealer and refer to TIB 42-40 with the chassis listed on this letter when you call.

It is important that you schedule service as soon as practical. There will be no charge for work performed in connection with TIB 42-40 if you schedule an appointment within the standard warranty time and mileage limits.

We apologize for this inconvenience and ask for your cooperation to ensure continued satisfaction with Kenworth products.

Thank you,

Mike Kalkoske  
Director, Quality Services  
Kenworth Truck Company.
