

TITOKI NURSERY LTD Est. 1983
"Leading Guardian of Conservation" - (NZPCN)

2023 REVEGETATION PLANT CATALOGUE

Titoki Nursery is a native plant nursery specialising in revegetation projects throughout Tasman & Nelson. We grow plants for conservation, river stabilisation, farm shelter and land development. Other sites include parks and reserves, coastlines, water treatment plants and wetlands.

We have a new growing system to complement the tried and trusted Roottrainer system we've used since establishing in the early 80's. "Elle's" are produced by our PlantPaper machine, which is the first of its kind in NZ, making its own biodegradable pot out of special "paper" made from corn sugars. This system is was developed in Denmark by the Ellegaard family years ago and is used extensively worldwide for forestry, bedding plants, and food production. As well as being a brilliant growing system, they're quick to plant out, and massively reduce our plastic usage and reliance.

We offer advice, and can help with revegetation planning for your project, whether from bare land; for landowners who wish to restore important remaining forest remnants; or farmers who fence off erosion prone or unproductive farmland, & create shelter using native species.

Beyond revegetation, we also grow less common species that make up important parts of our local flora often suited to forest remnants and covenants. Plants can become threatened through isolation, habitat degradation, or browsing, and we work closely with Environmental Trusts, Forest & Bird, local Councils and the Department of Conservation.

Seed is collected throughout the top of the South, and beyond for specific projects. All of our seed sources are fully recorded. Species not listed in the current year's catalogue can be grown to order with one to two years notice required to source and propagate seed, and any wish lists are welcomed!

Titoki Nursery is situated in Waimea West near Brightwater.

Titoki Nursery is open by appointment by appointment
8.30am – 4.30 pm Monday to Friday.

SPECIES	DESCRIPTION	GRADE	CONTAINER
Alectryon excelsus <i>Titoki</i>	Attractive coastal/lowland forest tree to 8m. Glossy leaves with scarlet berries. Frost tender when young. Prefers rich/free draining soils.	30 - 40cm 50 - 60cm	SOLD OUT 1.5L \$7.50
Anemanthele lessoniana <i>Gossamer grass</i>	Colourful flowing grass with fine pink feathery flower heads. Especially useful in shady dry situations.	40 - 50cm	T
Apodasmia similis (syn. Leptocarpus) <i>Oioi /Jointed Rush</i>	Attractive grey-green rush often with orange or purple in parts. Suitable for estuarine situations or mass planting for landscape effect.	30 - 40cm 40 - 60cm	SOLD OUT SOLD OUT
Aristotelia serrata <i>Wineberry</i>	Quick growing small tree with attractive leaves, flowers & fruits for sheltered, moist sites.	40 - 50cm	SOLD OUT
Arthropodium bifurcatum <i>Renga renga / Rock lily</i>	Attractive coastal landscaping plant with large green-grey leaves, white flowers in spring. Will grow in dry or damp, sun or shade.	30cm 40cm	SOLD OUT SOLD OUT
Arthropodium candidum <i>Miniature renga renga</i>	Broad green leaved form. Small white flowers spring - summer. Deciduous.	20cm	RX90 Ltd.
Arthropodium cirratum <i>Renga renga, Rock lily</i>	Locally occurring coastal species with narrow strappy green glaucous leaves & white flowers. Will grow in dry rocky situations, sun or shade.	30cm	SOLD OUT
Astelia chathamica <i>Silver Spear</i>	Spectacular silver sword-like leaved landscaping plant with orange fruits. Grows up to 2m. Sun or shade.	30 - 40cm	SOLD OUT
Astelia fragrans <i>Kakaha / Bush lily</i>	Good understorey plant or for lining a bush track/path. Stiff green strap like leaves, honey scented flowers, orange berries.	30 - 40cm	SOLD OUT
Astelia grandis <i>Swamp Astelia</i>	Olive-green flax-like leaves form large clumps to 2m in swamps. Locally rare in Moutere wetlands.	20 - 30cm 40 - 50cm	RX90 1.5L \$7.50
Atriplex cinerea <i>Grey salt bush</i>	Rare spreading coastal shrub with attractive dense silvery-grey foliage for estuary margins.	30cm	SOLD OUT
Austroderia richardii <i>Toetoe</i>	Strap-like leaves and tall flower plumes. Grows in most sites and soils. Hardy.	30 - 40cm 40 - 50cm	SOLD OUT
Austrostipa stipoides <i>Estuarine tussock</i>	Attractive fawn coloured tussock which grows on tidal estuaries and coastlines. Slow growing. 1m.	20 - 30cm	Elle
Baumea articulata	<i>Renamed, see Machaerina articulata</i>		SOLD OUT
Beilschmiedia tawa <i>Tawa</i>	Beautiful graceful tree. Slow growing and requires sheltered situations. Pale green foliage and large purple fruits.		SOLD OUT
Bolboschoenus caldwelii	Green rhizomatous perennial of waterways & estuaries for water treatment or fresh water/saline intertidal sites.		SOLD OUT
Brachyglottis greyi <i>Cook Strait Daisy</i>	Hardy shrub to 1m with grey foliage and yellow flowers.	20 - 30cm 40cm	RX90 T
Brachyglottis monroi	Attractive grey serrated foliage, yellow flowers. Good drainage or exposed sites	20 - 30cm	RX90
Brachyglottis sciadophylla	Rare yellow flowered species for semi shaded sites with something nearby to entwine.		SOLD OUT

Unless otherwise stated the following prices apply

Grasses/Carex	\$3.00
Rootrainer (T)/Elle/RX90	<500 plants \$3.50
	500 - 999 plants \$3.20
All plant prices exclude GST	>1000 plants \$3.00

Carex buchananii	Erect reddish brown foliage. Prefers moist sites.	30 - 40cm	Elle
Carex comans ' bronze'	Brown-bronze form of Carex Comans forms spreading tufts. Prefers full sun.	30cm	Elle
Carex flagelliferra	Common sedge with fine green blades. Widespread. 0.75m.	30 - 40cm	Elle
Carex fretalis <i>Syn Carex 'Frosted Curl's'</i>	Silver green tufts, tolerating a range of conditions in full sun. 0.3m.	30cm	SOLD OUT
Carex geminata	Vigorous yellow-green sedge with a creeping rhizomes, forming swathes in damp/swampy ground. 1m.	30 - 40cm	SOLD OUT
Carex inopinata <i>Grassy mat sedge</i>	Attractive small creeping sedge forming mats. Semi shaded understory, free-draining situations. Threatened, nationally vulnerable.	10cm	RX90 \$4.00
Carex lambertiana	Small green sedge with striking black seed heads. Best in understory plantings or damp shady situations.	30 - 40cm	Elle
Carex maorica	Bright green foliage forming dense swards. Prefers damp, sunny situations. 1m.	40cm	SOLD OUT
Carex raotest <i>Orange dune sedge</i>	Bright green-orange coastal tussock. Handsome & hardy tussock suited to sun or shade & most soils. 0.6m.	30 - 40cm	T
Carex secta <i>Purei</i>	Large sedge for wetland, pond or stream-side planting. Forms an attractive mop on a 1m trunk. 1.5m.	20cm 40cm	T
Carex solandri	Found in open damp sites as well as dry forest conditions. Fresh Green leaves and black seeds. 0.6m.	30 - 40cm	SOLD OUT
Carex tenuiculmis	Attractive tussock with fine red bronze foliage. Prefers sunny moist sites. 1m.	30 - 40cm	Elle T
Carex testacea	Popular ornamental sedge with fine arching green foliage turning orange in the sun. Prefers sun & drier soils. 0.4m	20 - 30cm 40cm	Elle SOLD OUT
Carex virgata <i>Pukio</i>	Large bright green sedge for wetland, pond or stream-side planting. Successful coloniser in damp areas. 1m.	40cm	T
Carpodetus serratus <i>Putaputaweta / Marble leaf</i>	Small evergreen tree especially suitable for shady damp situations.	30 - 40cm	SOLD OUT
Carmichaelia aligera	Hardy textural shrub with tiny mauve pea like flowers & orange seeds remain suspended in pods.	40 - 50cm	SOLD OUT
Carmichaelia glabrata var. odorata <i>Scented Broom</i>	Tough broom with small leaves and scented white flowers (Summer). Sunny dry situations. hardy. 3m.	40 - 50cm	Elle
Carmichaelia glabrescens <i>Pink Broom</i>	Beautiful leafless weeping broom with masses of pink flowers.	30 - 40cm	RX90 \$3.50

Unless otherwise stated the following prices apply

Grasses/Carex	\$3.00
Rootrainer (T)/Elle/RX90	<500 plants \$3.50
	500 - 999 plants \$3.20
All plant prices exclude GST	>1000 plants \$3.00

Chionochloa conspicua <i>Huangamoho</i>	Snow tussock with broad toe toe like foliage and tall ope flowering spikes. Sun - light shade, dry - moist. Hardy. 1x2m.	T	SOLD OUT
Chionochloa flavicans <i>Miniature toetoe</i>	Graceful garden tussock with green strap-like foliage and champagne coloured plumes. Hardy.	40cm	SOLD OUT
Chionochloa rubra <i>Red Tussock</i>	Large attractive tussock with flowing tawny-red foliage.	40-50cm	SOLD OUT
Coprosma acerosa <i>Sand coprosma</i>	Hardy spreading ground cover. Coastal species with inter-tangling branches and smokey blue berries. For stabilisation & coastal conservation.	30 - 40cm	T
Coprosma acerosa 'Hawera'	Hardy spreading groundcover for landscaping banks, walls, rockery, with mid-green to yellowish foliage.	Spread	RX90
Coprosma acerosa 'Red Rocks'	Hardy spreading groundcover for landscaping banks, walls, rockery, with deep red foliage.	Spread	RX90
Coprosma areolata	Upright twiggy small leaved shrub with olive/tan foliage. More open habit in shade. 4m.	RX90	SOLD OUT
Coprosma autumnalis (syn. grandifolia) <i>Kanono</i>	Large olive-green leaves. Birds love abundant orange berries. Best in shade, cool, understory.	40 - 50cm	SOLD OUT
Coprosma brunnea	Openly sprawling ground cover with dark brown foliage, smokey blue berries. Floodplains and rocky outcrops.	Spread	RX90
Coprosma kirkii	Very hardy vigorous ground cover tolerant of dry and clay. Will trail down banks.	Spread	RX90
Coprosma 'Taiko'	Hardy trailing groundcover with dark green foliage and tidy habit make this a good ornamental shrub.	Spread	RX90
Coprosma 'Wharariki'	Hardy attractive mound forming groundcover with small round dark green foliage.	Spread	RX90
Coprosma crassifolia	Stiffly branched divaricating shrub of riparian and coastal sites. Small glossy dark green leaves.	40cm	SOLD OUT
Coprosma lucida <i>Shining karamu</i>	Quick growing tall shrub with glossy green leaves and fruits attractive to birds. An excellent shrub useful for revegetation, open or shady sites.	30 - 40cm	SOLD OUT
Coprosma obconica	Hardy rare divaricating shrub occupying a wide range of habitats including braided river bars, lowland podocarp forest to montane.	30 - 40cm	SOLD OUT
Coprosma propinqua <i>Mingimingi</i>	A densely branched very hardy shrub with small leaves & fruits for birds. Grows in most sites & soils tolerating very wet.	30 - 40cm 40 50cm	SOLD OUT
Coprosma repens <i>Mirror leaved Coprosma / taupata</i>	Large dark green glossy leaved coastal shrub. Light frosts, or plant as a fire retardant hedge. Orange fruits attractive to birds.	30 - 40cm	T
Coprosma repens 'Poor Knight's'	Prostrate form of taupata with same glossy green leaves and orange fruits.	Spread	RX90

Unless otherwise stated the following prices apply

Grasses/Carex	\$3.00
Rootrainer (T)/Elle/RX90	<500 plants \$3.50
	500 - 999 plants \$3.20
All plant prices exclude GST	>1000 plants \$3.00

Coprosma rhamnoides	Common small dense divaricating shrub with dark red fruits. 1.5m	20 - 30cm	Elle
Coprosma robusta <i>Karamu</i>	Quick growing tall shrub with red fruits attractive to birds. Useful for revegetation & erosion control, open or shady sites, most soils. 5m.	30 - 40cm 40 - 50cm	SOLD OUT
Coprosma rugosa	Busy large shrub with interlacing orangish stems and narrow leaves. Flood plains and river banks Pale blue fruits. 2m.	30 - 40cm	SOLD OUT
Coprosma dumosa (syn. tayloriae) <i>Tier Coprosma</i>	Small leaved species often associated with Beech forests. Branchlets in regular planes. Translucent fruits.	40cm	SOLD OUT
Coprosma tenuicaulis <i>Swamp Coprosma</i>	Attractive small leaved shrub reaching 3m of lowland forest swamps and boggy ground, black glossy drupes.	40 - 50cm	RX90
Coprosma virescens	Attractive columnar divaricating shrub with tall weeping habit. Orange bark, tiny bright green leaves. Hardy.	40 - 60cm	2L \$7.50
Cordyline australis <i>Cabbage tree / ti kouka</i>	Very hardy lowland forest tree, tolerates most situations, but especially for wetlands and riparian margins. Attractive to birds and bees.	30-40cm 40-50cm	Elle
Cordyline banksii <i>Forest cabbage tree/ ti ngahere</i>	Smaller growing Cabbage tree often branching at ground level into several stems. Graceful long drooping leaves, fragrant flowers in spring.	40cm	SOLD OUT
Corokia buddelioides	Ideal hedge to 2m for dry sunny situations. Foliage green - bronze in autumn. Flowers yellow, berries red.	30 - 40cm	RX90 \$3.50
Corokia 'Bronze King'	Attractive shrub to 2m. Yellow flowers (spring) and red fruits (autumn). Excellent hedging. Bronze foliage most striking in winter.	30 - 40cm	RX90 \$3.50
Corokia cotoneaster <i>Korokio</i>	Attractive tight divaricating form. Very hardy, found on rocky tops, mineral belts & Nelson lakes.	20 - 30cm	2.5L \$8.00
Corokia 'Emerald & Jade'	Attractive low growing compact selection with yellow flowers & yellow berries. Low hedging. 1.2m	30 - 40cm	RX90 \$3.50
Corokia 'Geenty's Green'	Ideal hedging for dry sunny situations. Green leaves, yellow flowers, red berries. Hardy	30 - 40cm	RX90 \$3.50
Corokia 'Mangatangi'	Attractive hardy shrub with compact habit and tight green foliage. Yellow flowers & berries. Great hedging.	30 - 40cm	RX90 \$3.50
Cortaderia richardii <i>Toetoe</i>	<i>Renamed, see Austroderia richardii</i>		
Corynocarpus laevigatus <i>Karaka</i>	Attractive tree with glossy green leaves and large orange fruits	50-60cm	SOLD OUT
Cyathea dealbata <i>Ponga / Silver Fern</i>	Iconic tree fern. Likes sun or light shade, drier soils, sheltered sites.	30cm	SOLD OUT
Cyathea medullaris <i>Mamaku / Black Tree Fern</i>	Fast growing tree fern with 3m long fronds. Largest tree fern, often establishing on slips, gullies and stream-sides. Light frosts.	30cm 50cm	SOLD OUT
Cyperus ustulatus <i>Giant umbrella sedge</i>	Sharp-edged swamp grass 60 -100cm. Fast growing with olive blades. Ideal for wetland revegetation.	40cm	SOLD OUT

Terms

Priority is given, and prices apply to plant orders of 20 per species minimum. We will endeavour to meet your requirements for lesser orders or if you're filling gaps from previous years, however we cannot break-up orders beyond multiples of four.

Potted stock or plants marked as being in 'limited supply' (ltd), minimum requirements do not apply.

We stock & find the following useful (prices exclude gst, & subject to change)

Bamboo stakes (12-14mm x 750mm) - Thick grade. Guards require 2/plant.
Bale of 200 / \$50.00
50 cents each for part bundles.

Tree guards offer protection from animal pests & greatly aid release spraying.

CardGuard combo - 300 - 350mm high cardboard guard with 2 x 750mm bamboo canes. \$1.80 each. Sold in multiples of 100 only.

CardGuard - 300 - 350mm high cardboard guard. 50/pack, \$1.40 each (\$70/pack).

Coreflute guards - 450mm high, re-usable plastic.
\$1.50 each, packs of 50.

Coir weed-mats - Biodegradable weed suppression 250 x 250mm.
70c each. 175 per carton.

Fert tabs - (5g controlled release) - for nutrient starved sites especially.
\$150/Carton (1500 tabs).
20 cents each/part carton.

Wire Baskets: If we lend you our RT frames at planting time please ensure these are returned by the end of September and that you notify a staff member. Any unreturned frames will be charged \$20 per frame.

ALL PLANTS MUST BE UPLIFTED BY 30 SEPTEMBER (unless by prior arrangement). Holding charges will apply beyond.

Unless otherwise stated the following prices apply
