

Peony List

This year we have 78 peony varieties listed. We hopefully have a selection that provides the choices for color, bloom time, fragrance and blossom type that you may be looking for.

In the brief description of each peony, the originator and date (helpful if you want an heirloom variety), height and bloom types are listed. Height may vary according to conditions, but it provides a guideline for whether it is a taller or shorter plant.

Blossom types are:

D -Double, (full peony flower)

S –Single, (one or more rows of petals)

J-Japanese, (two or more row of petals with a fuller center)

Bloom times are classed as:

E-early season

M- mid season

L- late season

Shipping

We will ship bare root peonies September and October. Shipping costs are \$13.00 for the first root, \$2.00 for each additional root. For the prices listed for each variety, the first is the bareroot cost, the second is for potted plants purchased here at the nursery.

At this writing our on line payment is not set up yet, until then you may call or email to order shipped peonies.
