

[International Classification of Diseases, \(ICD-10-CM/PCS\)](#)

Acute Polio, Polio Sequelae and Post-Polio Syndrome

Transition - Background

"The Department of Health and Human Services (HHS) has mandated that all entities covered by the [Health Insurance Portability and Accountability ActExternal](#) (HIPAA) must all transition to a new set of codes for electronic health care transactions on October 1, 2015."

What is it?

"World Health Organization (WHO) authorized the publication of the [International Classification of DiseasesExternal](#) 10th Revision (ICD-10), which was implemented for mortality coding and classification from death certificates in the U.S. in 1999. The U.S. developed a [Clinical Modification](#) (ICD-10-CM) for medical diagnoses based on WHO's ICD-10 and CMS developed a new Procedure Coding System (ICD-10-PCS) for inpatient procedures. ICD-10-CM replaces ICD-9-CM, volumes 1 and 2, and ICD-10-PCS replaces ICD-9-CM, volume 3."
