OVER 800 PRODUCTS READY FOR YOUR BUSINESS

For over 34 years, Stinger® Chemical has proven to be one of the country's dynamic automotive chemical companies. The company specializes in manufacturing and supplying a complete line of automotive and aftermarket chemicals for the car care professional, including reconditioning products, car wash chemistry, automotive chemistry and equipment.

Our highly trained staff is committed to being innovators in the industry, continually improving our products and services to ensure customer satisfaction. Working closely with our distributor network on the development process ensures that our products meet user expectations in performance, value, and quality.

Located in Houston, Texas, the Energy Capital of the world, Stinger Chemical's 9.5-acre campus and state-of-the-art production facility enable us to be a leader across the automotive chemical industry today and into the future. Our location and history in Houston allow us to have direct access to the world's largest producers of raw materials from leading petrochemical refineries. The connections to these raw material suppliers and access to the second-largest port in the US allow us to procure the finest materials to produce the highest quality automotive care products. Access to these raw materials translates to superior products and a reliable supply chain for our customers.

Our professional line of products are used in *car washes, auto dealerships, reconditioning shops, OEM, and auto auctions* across the United States and internationally. Our international business and objectives for expansion are at the forefront of our minds. We export our products to North America, South America, Europe, Asia, Australia, and the Middle East.

OUR LAB

Our Research and Design Lab is not just responsible for creating new products; they also manage our quality control operation, ensuring that our full line of products perform as designed with each shipment. Every time you receive our products, you can be confident that each detail has been tested to meet our highest performance standards.

Our results extend far beyond the lab. Each of our car wash, reconditioning, and automotive chemistry products receive extensive testing in the field by our certified distributors.

THE STINGER® SANITIZER PROGRAM ADDS THAT EXTRA LEVEL OF PROTECTION TO REDUCE THE RISK OF CONTAMINATION.

E53 SANI-STATION

Designed for ease of use, the Stinger® Sani-Station provides a simple way to fill and spray right from the bottle. No manual mixing is required. The sanitizing station mixes RTU (ready-to-use) disinfectant every time.

E60 MOBILE SANI-CART

The battery-operated mobile sani-cart allows for dispersing of sanitizer over large areas. Excellent for public areas such as restaurants, churches, stadiums, auto dealerships, car washes, hospitals, etc.

E56 HANDS-FREE DISPENSERS (BLACK) SIZE: 14" X 14" BASE | 51" TALL

E57 HANDS-FREE DISPENSERS (STAINLESS STEEL) SIZE: 10" X 16" BASE | 55" TALL

Our hands-free sanitizer dispensers are an excellent solution for providing protective sanitizer to your customers and staff in common areas. It easily holds a gallon of sanitizer. Available in two options, stainless steel and black.

E58 ULV COLD FOGGER

The ULV Cold Fogger has a spray range of 10 to 25ft, making it ideal for penetrating challenging areas. With adjustable and uniform droplets, its fast spreadability, makes it ideal for disinfecting and sterilizing common areas. The solution pipe and air pipe are corrosion resistant, and its head is crack resistant and shockproof. Patented technology prevents the solution from flowing back. The inclusion of the frequency-conversion motor and adjustable delivery lift make it more efficient, enabling you to use less solution.
