- a. The organization must be or become a chapter of a Missouri not-for-profit and non-partisan corporation governed by a student board.
- b. The articles of incorporation and bylaws of the corporation will assure that its procedures and activities are democratically controlled by students and will clearly limit its activities to those which advance the general welfare of students and the public and are consistent with the overall educational mission of St. Louis Community College.
- c. The organization has been recognized as an approved campus organization in accordance with campus procedures.
- d. The organization has demonstrated general and substantial support among the students through:
 - A majority of the enrolled students signing a petition supporting collection of an optional/non-refundable fee for the organization.
 - A vote in favor of the fee collection by a majority of those students voting in a campus referendum may be held during the regular student government elections and conducted by the student government.
 - There will be a reaffirmation vote every other year to determine continued collection of an optional/non-refundable fee for the organization. Such referendum will be decided by majority vote and may be held in conjunction with the regular student government elections.

Fees collected under this process are private contributions, not funds of the College, and will be placed in a separate trust account until remitted to the organization.

The College will recover all of the actual costs of collecting and implementing the fee out of the revenues generated by the fee. The chancellor, as necessary to implement the Board's decision, is authorized to enter into a contract with the organization, specifying the arrangements for the election process and arrangements for the collection of fees, including terms and conditions for continued collection of the fee.

Definitions:

Optional/non-refundable fee: A fee which will be collected each semester unless the student declines to pay the fee.

II. Instruction and Student Services

It is recommended that the Board of Trustees approve the **revised Computer Aided Manufacturing (CAM) Certificate of Specialization** approved and submitted by the District Curriculum Committee.

**Program: Computer Aided Manufacturing (CAM)
Certificate of Specialization**

Campus: Florissant Valley

Effective: Spring 2008

Impact Statement

The Computer Aided Manufacturing Programs is being updated to remove deactivated classes from the program, and allow EE: 236 as an alternate course for ME:140. This will allow for more accurate representation of the program courses in the catalog, increase the flexibility for students scheduling courses, and reduce the number of course substitutions needed by students in the program.

It is recommended that the Board of Trustees approve the **revised** Associate in Applied Science, Information Reporting Technology: Judicial Reporting Option, the new Associate in Applied Science, Information Reporting: CART, and the new Associate in Applied, Information Reporting: Captioning approved and submitted by the District Curriculum Committee.

**Program: Information Reporting Technology: Judicial Reporting
Information Reporting: CART
Information Reporting: Captioning
Associate of Applied Science**

Campus: Meramec

Effective: Fall 2008

Impact Statement:

The Associate in Applied Science (A.A.S.) degree and the Certificate of Proficiency in Judicial Reporting and Certificate of Proficiency in CART/Captioning will be revised as well as the Certificate of Specialization in Broadcast Captioning. The curriculum will be revised and updated to reflect current technology and modern professional practice and to prepare our students for the state licensing exam for Judicial Reporting. The Missouri state exam does not parallel the national standards and therefore, these changes must be made per discussions with our Advisory Committee who have requested these changes. Since the last program revision in 2004 the field of Judicial Reporting and CART reporting and captioning reporting has changed and so have the licensing exams.

The Americans with Disabilities Act created a new demand for professionals trained to do CART reporting and captioning reporting. The proposed revised A.A.S. degree will allow students to specialize in either Judicial or CART or Captioning reporting. The program will be cost-effective because it provides three program tracks that each relies on a common core curriculum. Students in the revised Information Reporting program will be offered a first-year core curriculum that will transition into a second year in which they will choose a concentration in either Judicial, or CART or Captioning reporting.

Graduates of all three tracks of the program should expect to find immediate employment. All of our core courses are now offered online and many of them are also offered at night. This opportunity is attracting many students from out of state, who had been unable to find a program near their home, and who are preparing to enter the job market in their respective states.

Campus: Meramec

Effective: Fall 2008

Impact Statement

The Certificate of Proficiency in CART reporting will be revised to reflect current technology and modern professional practice and to prepare our students to pass the national licensing exam for CART reporting. The National exam is a different exam from the exam for Captioning reporting and the classes need to reflect the training for CART as a separate entity from captioning.

The Americans with Disabilities Act created a new demand for professionals trained to do CART reporting. Students in the revised program will be offered a first-year core curriculum that will transition into a second year in which they will choose a concentration in CART reporting.

The Certificate of Specialization in Broadcast Captioning curriculum will be revised and updated to reflect current technology and modern professional practice and to prepare students to pass the national licensing exam for captioning. Program: Skilled Trades Industrial Apprenticeship Training: Electrician Certificate of Proficiency

Campus: Florissant Valley

Effective: Spring 2008

Impact Statement

This change consists of adding EE:236 PLC/Programmable Logic Controller as an alternate course for ME:211 Programmable Logic Controllers, and a minor change in the wording of the program description. No changes are being made to the program total credit hours or content.

Board approval is requested for Amendment #01 to our **CONSULTING AGREEMENT A6-0202 SMW #01, CONSTRUCTION MANAGEMENT SERVICES FOR DISTRICT-WIDE LABORATORY RENOVATIONS**, to the firm of S.M. Wilson and Company, in the amount of \$431,000.00 covering General Conditions and Clean-up/Dumpsters. Clean-up/dumpster services for the project will be provided by **S.M. Wilson and Company** for, a not to exceed amount of \$201,000.00. This was determined to be a more cost effective and controlled method of having the final clean-up done rather than having each individual contractor do a small portion of the work.

Background:

The planning and programming phase of our agreement with S.M. Wilson was approved at the BOT Meeting of August 30, 2007, as agenda item 4.3.2, and this effort will essentially be completed with the presentation of the preliminary plans. Description:

The Natatorium houses the swimming pool which is used by students, the public and for officially sanctioned intercollegiate competitions. The present humid, chlorinated pool environment is prone to condensation problems that can damage the building’s finishes and mechanical equipment. This project will replace the pool’s mechanical unit with one specifically designed to decrease humidity, provide proper ventilation and maintain relative humidity between 50% and 60% for optimal health and comfort of the occupants and building protection. A new fiberglass grid and panel system ceiling which will perform better in this caustic environment, complete with new lighting, will be installed.

Draining the pool for an extended period of time could result in heaving and structural cracking of the pool floor and walls. Therefore, this contractor is required to erect scaffolding and adequately cover the pool so the work can be completed safely over the filled pool.

Alternate #1 will provide indirect lighting in the pool area.

Plans and specifications were prepared by Bond Wolfe Architects, BRiC Partnership, LLC and the Physical Facilities/Engineering and Design Department.

This project will be funded from Capital Budget: Fiscal year 2007/08, Tab J, Page 1, Item 13.

Board approval is requested for award of **F 08 505, ABATEMENT FOR LAB RENOVATIONS IN SCIENCE/MATH, ST. LOUIS COMMUNITY COLLEGE AT FLORISSANT VALLEY** to the low bidder, **GATEWAY CONSTRUCTION SERVICES, INC.**, for **\$16,920.00**.

<u>Contractor</u>	<u>Base Bid</u>
GATEWAY CONSTRUCTION SERVICES, INC.	\$ 16,920.00
Midwest Asbestos Abatement Corporation	21,120.00
Talbert Industrial Commercial Services, Inc.	21,927.00
Cardinal Environmental Operations Corporation	23,386.00

Description:

When the Science/Math building was constructed, asbestos was frequently used as insulation due to its resistance to heat, electricity and chemical change, sound absorption and tensile strength. If asbestos fibers are disturbed, they can become airborne and be inhaled causing health issues. Therefore, when renovation of the Science/Math labs (in Contract F 08 001, BOT Recommendation 4.3.1) was planned, an environmental consultant was hired to test the area and determine if asbestos had been used in the original construction. This contract will allow for the safe and controlled removal and disposal of asbestos from floors, tile mastic, countertops, sinks and ventilation hoods, before renovation of the area begins. The building will not be closed during the abatement but the environmental contractor will contain the area in accordance with the Asbestos Hazard Emergency Response Act (AHERA), Environmental Protection Agency (EPA) and the St. Louis County Department of Health Asbestos Abatement Rules and Regulations.

Plans and specifications were prepared by Professional Service Industries, Inc., and the Physical Facilities/Engineering and Design Department.

Description:

An existing classroom space will be converted into three patient simulator areas and a general classroom space. The existing raised access floor will be removed to expose a vinyl composition tiled floor that does not need to be replaced. Once the access floor is removed new walls will be constructed to separate the various classrooms. A new mold resistant ceiling, light fixtures and diffusers will be installed. Each simulator lab will hold a life-like human simulator which replicates the human body and all its functioning systems. A small office will be converted into the control room for all of the simulator classrooms. From the control room the professor will be able to manipulate the human simulator being cared for by the nursing students. A camera in each classroom allows the professor to observe the student's reaction and techniques used in response to the patient's symptoms. These classrooms will allow students to perfect life saving skills without endangering a single life. All new work will conform to ADA standards, seismic regulations and meet National Electric Code and all other local and state codes.

Alternate #1 will renovate the office complex in an adjoining area.

Alternate #2 will deduct casework in E412 Classroom

**Executive Summary February 28, 2008
(Financial Results Through 01/31/2008)****Revenue**

The Budget Status Summary Report shows revenue of \$124.0 million or 80.0% of the budgeted revenue as compared to \$124.1 million or 82.2% of the budget for the prior year. A decrease in local taxes is the primary reason that the FY 2008 total revenue amount is less than the previous fiscal year. The decrease is due to the fact that some tax receipts, which are being held in escrow due to tax protests, have not been released to the College. This matter should be resolved in future months.

Expenditures

Expenditures are \$74.4 million or 53.5% of the budgeted expenditures as compared to \$72.8 million or 53.6% for the prior year. An increase in salaries and wages is the primary reason that FY 2008 total expenditures amount is greater than the amount for FY 2007.

Transfers

Transfers are at \$14.1million or 88.9% of the budgeted transfers as compared to \$14.2 million or 88.7% for the prior year. The dollar amount for FY 2008 is less than that of FY 2007 because of reduced planned capital.

VIII. Insurance

Employee Benefits

OVERVIEW

In 2008, the contracts for all employee benefits with the exception of Medical Insurance expire. These contracts for ancillary benefits include various dental, vision, life/AD&D, and disability plans. (7 in total). The College is also entering the second year of a 3 year contract with Anthem Blue Cross/Blue Shield. This 3 year contract has annual renewals.

A. Ancillary Benefits

There were no cost increases in any of the bids recommended for the miscellaneous benefits. In fact, overall, these plans total nearly **\$220,000** in cost savings to the College with no adverse changes to the plan designs of the various plans. As a result of the bidding, vendor changes occurred in 3 of the 7 plans. Hartford is being recommended for the Voluntary Short-term Disability plan, the Long-term Disability plan and the Life Insurance AD&D plan. There were significant cost savings and Hartford is a reputable company.

B. Medical Insurance Renewal

The renewal for the 2nd year of our contract with Anthem Blue Cross Blue Shield came in at a 2.46% increase over last years premiums. This is the lowest increase in many years for the College. There are no plan design changes associated with this increase. National trend for medical insurance renewals with no plan design changes is approximately 12%. Cost of this 2.46% increase to the College is \$272,566 for 2008-2009.

While the College has obtained a very favorable renewal, medical insurance costs continue to be a challenge for all organizations in the future.

SUMMARY

The combination of the savings on the cost of the ancillary products and the minor cost increase in the medical insurance costs for 2008-2009 result in a net increase in insurance benefits costs of \$52,886.

The details of the marketing/bids for ancillary products and the renewal of medical insurance are on the following pages.

(8) CONTRACT AWARD/RENEWAL FOR EMPLOYEE INSURANCE

8.1.1 Recommendation for Award of Dental (PPO) Insurance Contract

Board Approval is requested for the award of a contract to MetLife (Dental PPO) for a period of three (3) full years to begin June 1, 2008.

Description

The College sought competitive bids for the Dental PPO plan. The bid specifications required quotes that duplicated our current dental plans. Proposals were received from 11 insurance carriers, however, 2 of the 11 were disqualified due to not meeting proposal guidelines. Our insurance consultant, Lockton, analyzed the proposals and the College's Benefits Advisory Committee reviewed and evaluated the results. The top 4 proposals were from MetLife, Untied Healthcare, Dental Source and United Concordia. All carriers offered rate reductions to the current program. After a thorough review of all of the companies' rates, rate guarantees, network size and disruption, plan design, continuity and customer satisfaction, it was unanimously agreed upon by the Benefits Advisory Committee to recommend MetLife. MetLife offered a one year rate guarantee at a decrease in rate of 9.2% and provided a 5% rate cap in year 2 and 3. The 3 projected year savings to the College is \$97,874 (\$136,246 overall). The majority of the savings is realized first year - \$65,543 to the College. In addition, MetLife had one of the most comprehensive networks, would not require plan design changes, had high customer satisfaction results, and would provide continuity for our employees and their dependents as our current insurance carrier. Based on the foregoing information, the College recommends MetLife as the sole finalist and recommended contractor. The total annual premium for the Dental PPO Insurance under this recommendation first year will be \$901,446 which is an annual cost savings of \$65,543 to the College. The College's portion of the total premium will be \$647,714.

8.1.2 Recommendation for Award of Dental (HMO) Insurance Contract

Board Approval is requested for the award of a contract to Dental Source (Dental HMO) for a period of three (3) full years to begin June 1, 2008.

Description

The College sought competitive bids for the Dental HMO plan. The bid specifications required quotes that duplicated our current dental plans. Proposals were received from 4 insurance carriers for the Dental HMO plan. The top two proposals were received from incumbent Dental Source and Standard. Our insurance consultant, Lockton, analyzed the proposals and the College’s Benefits Advisory Committee reviewed and evaluated the results. Dental Source quoted a 3 year rate guarantee and proposed holding the current rates. Standard quoted a 2 year rate guarantee with a decrease for employee only coverage in the amount of 8.7% but an increase in the amount of 8% for family coverage. Overall, Standard would be an increase of 4.8% over current cost. The Committee voted to recommend Dental Source as our DMO carrier due to a no rate increase and over all employee satisfaction. The total cost from the previous year of \$29,328 will remain the same. The College recommends Dental Source as the sole finalist and recommended contractor. The College’s portion of the total premium will be \$21,091.

8.1.3 Recommendation for Award of Vision Insurance Contract

Board Approval is requested for the award of a contract to EyeMed, our incumbent carrier for a period of three (3) full years to begin June 1, 2008.

Description

The College sought competitive bids for the Vision plan. The bid specifications required quotes that duplicated our current vision plans. Proposals were received from 4 insurance carriers for the Vision plan. The top two proposals were received from Davis Vision and the incumbent EyeMed. Our insurance consultant, Lockton, analyzed the proposals and the College’s Benefits Advisory Committee reviewed and evaluated the results. EyeMed proposed a 2.4% decrease with a 4 year rate guarantee while Davis proposed a 4% decrease over current with a 3 year rate guarantee. Although the Davis’s rates are lower there are several reasons the College should not change from EyeMed. Davis Vision is not as well known as EyeMed and employees are satisfied with EyeMed. In addition, the negligible savings that would result from changing to Davis Vision would far be out weighed by the soft dollar cost of education and communicating to employees the change in carrier. Lastly, there would be provider chains lost that many employees currently use with a change to Davis Vision. Based on the foregoing information, the College recommends EyeMed as the sole finalist and recommended contractor. The total annual premium for Vision Insurance under this recommendation will be \$128,342, with an annual cost savings of \$3,129. The College’s total portion of the annual premium is \$94,124.

8.1.6 Recommendation for Award of Voluntary Short-Term Disability Insurance Contract

Board approval is requested for the award of a contract to Hartford for a period of three (3) full years to begin June 1, 2008.

Description

The College sought competitive bids for the Voluntary Short-Term Disability (VSTD) plan. The bid specifications required quotes that duplicated our current VSTD plan. Proposals were received from 8 insurance carriers for the VSTD plan. The top three proposals were received from Hartford, Anthem and Reliance Standard. Our insurance consultant, Lockton, analyzed the proposals and the College’s Benefits Advisory Committee reviewed and evaluated the results. Anthem was the most competitive with a total annual cost of \$91,719 and quoted a 2 year rate guarantee, while Hartford quoted a three year rate guarantee. However, the Benefits Advisory Committee voted to switch to Hartford who also provides a discount over current rates and a 3 year rate guarantee. This decision was based primarily on the benefits to the filing of one claim to a single carrier for both Short Term and Long Term Disability. This provides for “one stop” filing and consistency in processing and claim determination. Based on the foregoing information the College recommends Hartford as the sole finalist and recommended contractor. The total annual premium for VSTD Insurance under this recommendation will be \$99,363, which is a cost savings of \$15,286. Since this is a voluntary program, there is no cost to the College.

MEDICAL INSURANCE RENEWAL NOTE

It should be noted that the average annual increase in medical insurance at the College for the last 5 years was **13.8%**.

The 2.46% increase for 2008-2009 compares with a national average increase of 12.7% (with no plan design changes). Several factors influenced this year's favorable renewal:

It should also be noted that our benefit consultant, Lockton, was helpful in achieving the favorable rate change this year.

While health care costs continue to rise dramatically across the country and the College's increase this year was favorable, keeping cost increases under control for future years will continue to be a challenge.
