AVerTV Hybrid Volar T2

AVerTV Hybrid Volar T2 is an HD hybrid TV tuner card with USB interface that possesses the most advanced DVB-T2 processing technology. It is an elegant yet powerful PCTV solution for watching analog and digital TV, as well as listening to FM radio from your laptop. AVerTV Hybrid Volar T2 supports MPEG-2, MPEG-4 and H.264 HDTV, which is capable for displaying full HD TV up to 1080p. When having HD TV from your PC is this easy, that means you don't need to settle for poor video quality any longer!

With exclusive AVerMedia TV software AVerTV 3D, you are not only able to watch Live HD TV but also enjoy 3D TV from a PC or laptop. Moreover, schedule and record your favorite shows via EPG (Electronic Program Guide) in various file formats, so you never have to miss an episode again! Even better, you can pause, rewind the Live TV, or even record it with the TimeShift function as you prefer.

Moreover, AVerTV Hybrid Volar T2 is Windows 8 ready. You can start enjoying favorite TV shows on Windows 8's Media Center Pack right away by simply plugging it in to the desktop or laptop.

AVerTV Hybrid Volar T2 presents a comprehensive set of functions to ensure that you enjoy TV and digital entertainment on your own terms.
