

PRODUCT SELECTION GUIDE

Electrification UK

Contractor handbook

ABB's Electrification Business Area is a global leader in electrical products and solutions, operating in more than 100 countries, with over 200 manufacturing sites. Our 50,000+ employees are dedicated to delivering safe, smart and sustainable electrification. With ABB Ability™ enabled digital solutions at its core, our portfolio protects, connects and optimises the flow of electrical energy for smarter electricity distribution for utilities, industry, buildings, infrastructure and mobility.

A safer, more reliable flow of electricity

"We make our customers more successful by identifying the challenges they face and creating opportunities through intelligent solutions to improve insight and efficiency into power distribution."

To meet the needs of this changing world, ABB's Electrification business is dedicated to developing pioneering technologies that, from the substation to the point of consumption, create a safer, smarter, more sustainable electrical flow – for everyone

With a broad range of market-leading products and solutions, a global sales network and customised support, ABB provides flexibility that improves energy performance, whatever the requirements. Our trusted, high-quality products are intelligent and cloud-based, enabling them to control and protect power more effectively.

Our portfolio spans a wide range of industries, from solar plants, where our inverters convert electricity to be used at low- and medium-voltage, to integrated systems for industrial sites and remote locations, to products that protect and connect electricity in the world around us.

Digital services

Simplified business solutions

By digitalising our services, we are easing the transformation for our customers from traditional office based operations, towards a digitalised future, enabling a more efficient pro-active work environment.

E-Configure

With e-Configure, customers can completely integrate the ordering process, selecting, configuring and ordering their products more quickly and simply.

Learn more: <http://new.abb.com/low-voltage/software/e-configure>

ABB Connect

ABB Connect helps you to find product information and stay connected to ABB's latest news and tools.

ABB Electrification business

Service facilities

The ABB Electrification Service facility in Coleshill demonstrates our commitment to customer experience, enabling faster response for investigation, repair and refurbishment of ABB's Electrification portfolio.

Your business efficiency depends on your choices. ABB's service agreements let you focus on what you do best, while your power distribution system runs smoothly. With your equipment performance optimised, your cost control improved, it's your way towards less unplanned downtime and easier maintenance budgeting.

Here are some examples of the service choice you can make:

Delivered maintenance services

This is the essential maintenance to prolong the lifetime of your assets. We take precise maintenance actions, including providing genuine ABB parts in preventive maintenance kits.

Self maintenance services

We provide you with access to proprietary resources that allow you to manage your own maintenance. Resources include online troubleshooting tools, manuals and equipment histories.

Technical support

Expert help is only a phone call away. This solution is for all technical telephone assistance and rapid troubleshooting advice.

On-site response time

For those times when you need help, and you need it now. One phone call and an expert will be on-site within the time agreed.

Skills development services

Your investments improve performances when effectively used on a day-to-day basis. We share our expertise to elevate your operators' skills to maximise your investment.

Our centralised service facilities, located at Coleshill, Birmingham allow ABB to provide a faster and more efficient turnaround on maintenance, investigation and repair of electrical vehicle charging stations, solar inverters, low- and medium-voltage circuit breakers, low-voltage panels and other electrical apparatus including uninterruptible power supply (UPS) systems and emergency lighting.

Located directly opposite, our dedicated assembly site covers approximately 2,000 sq.m of warehouse space, and is used to pre-assemble and store our sub-distribution products, adding further added value from ABB services including all the testing facilities. Our centralised service facility produces both standard and custom variants of:

Assembled plastic and metal switches

Enclosed ATS panels

Assembled panel boards

Assembled distribution boards

Product Training & CPD Seminars

What courses and training are available?

We offer training in the following areas, among others:

- Products and systems
- Commissioning and user training
- Service and maintenance training
- Design and dimensioning
- Customer-specific tailored courses

ABB offer a wide range of free product training and support, providing informed decision making for your electrical installation needs.

With ABB Electrification Business you don't just have access to the most comprehensive range of Low and Medium Voltage products available - providing unlimited compatibility solutions - we also offer industry-leading support services.

These include structured training and seminars to help our customers develop a greater knowledge and understanding of their industry's legislation and standards - essential for making informed project specification decisions.

Our CPD seminars and training aim to:

- provide critical and relevant facts on changes in industry legislation
- address the impact of these changes on your business
- provide guidance on effective methodologies to simplify implementation
- address ways of reducing overall labour and maintenance costs

CPD Seminars and training

ABB Ability™ Digital Solutions

for safer, smarter and
more sustainable
electrification

ABB Ability™ solutions deliver a safer, smarter, more sustainable electrical infrastructure by providing data-driven insights that enable you to reduce costs, increase comfort, and drive efficiency.

With our solutions, you can unlock the full potential of your equipment by quickly and easily adding innovative new features and functionality.

Our digital transformation solutions for Smart buildings, E-Mobility, Data Center, Food & beverage, Chemicals, oil and gas and many other transform the way you work by:

- Empowering better decisions with data and Improving reliability
- Increasing flexibility and Reducing cost
- Optimising comfort and Improving ROI (return of investment)

ABB Ability™ Energy and Asset Manager

ABB Ability™ Energy and Asset Manager provides application-specific asset and energy management. Users can view and analyze data on facility performance and manage assets to optimise energy consumption in real time and improve overall site efficiency. This SaaS assist conformity to assessments like ISO 50001, LEED, CIBSE TM39, BREEAM.

With instant access, anytime, anywhere the new solution is suitable for small and midsize factories, shopping malls or data centers, and could save customers up to 30% on their energy bills and up to 40% on maintenance costs.

Dashboard of ABB Ability™ Energy and Asset Manager

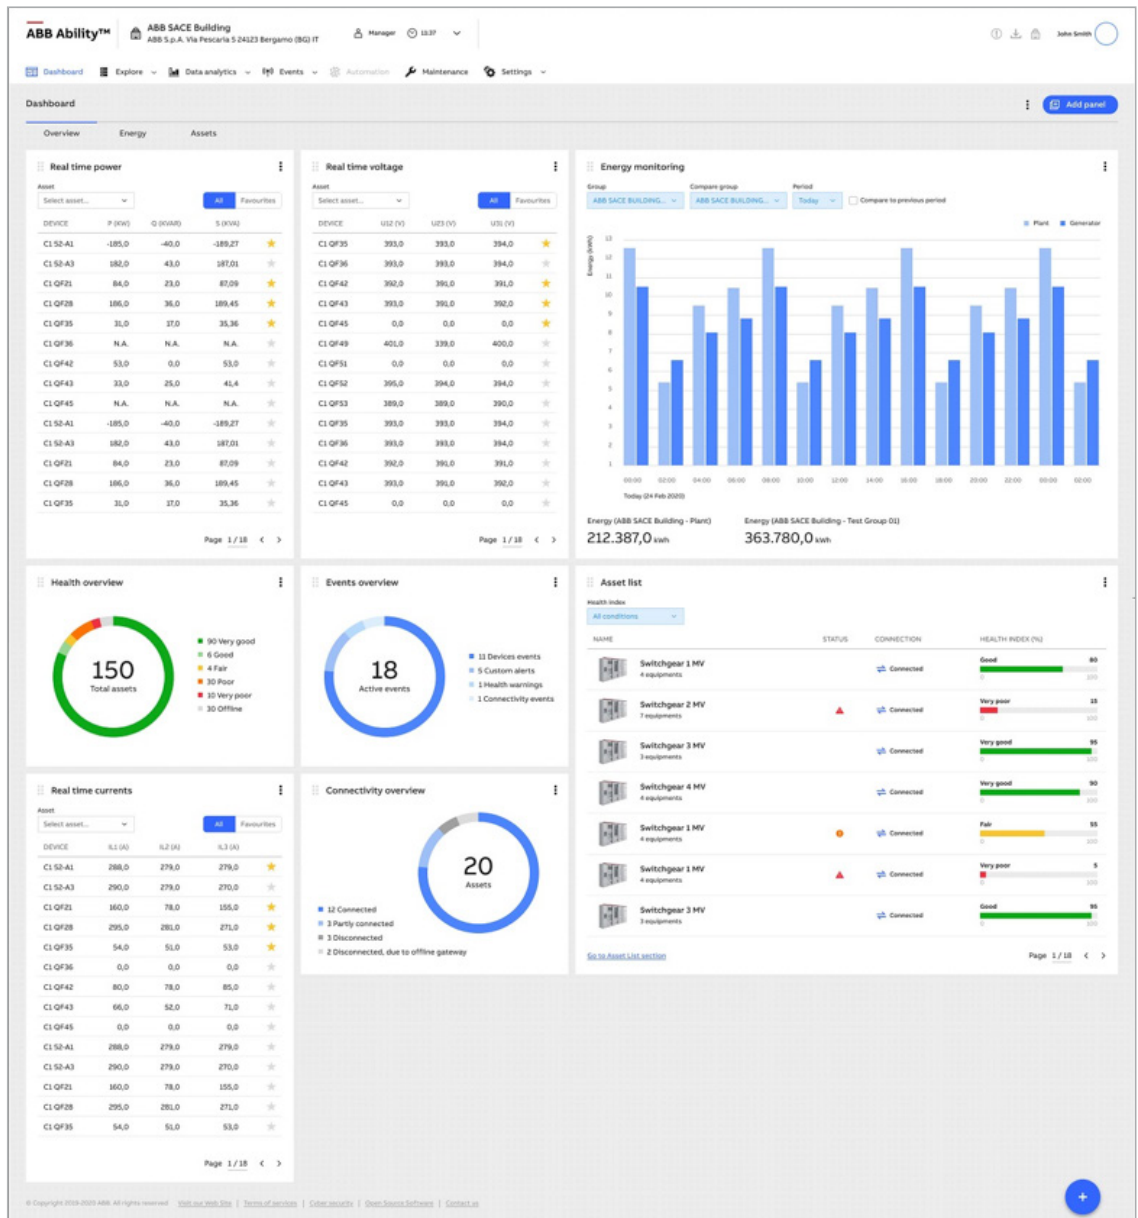

ABB is also delivering the future of electrification with **digital twin** solutions. In the near term, we'll be using digital twin solutions to integrate operations with the installation and commissioning of our products, ensuring our customers don't lose the connection between our pre- and post-sales support.

Maximum safety and easy installation

Arc fault detection devices
with integrated MCB and RCBO

- Complete protection against arc faults, overcurrent and earth faults
- Easy cross-wiring and installation
- Supply possible from both top and bottom side
- Family feeling in the System pro M compact® range
- LED for an easy troubleshooting of the network
- equipped also with memory recall function

Maximum safety in buildings

Extended fire protection in the electrical installation with AFDDs

Comprehensively protect people, irreplaceable goods and buildings – easier, better, safer. Extended fire protection in the electrical installation with ABB’s arc fault detection devices (AFDD) S-ARC1 and DS-ARC1

— 01 The S-ARC1 and DS-ARC1 reliably protect against arc faults.

Each year over two million fires erupt all over Europe. More than one third of these due to faults in the electrical installation which prevalingly occur as a result of dangerous arc faults.

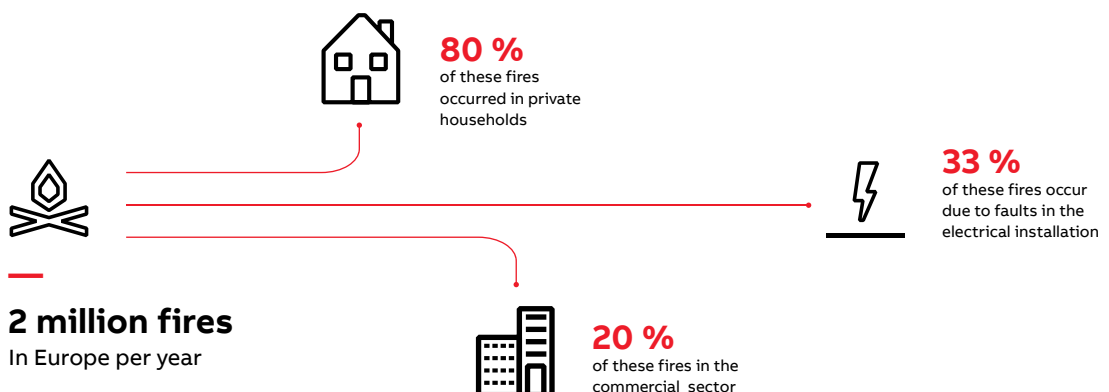

The best comprehensive protection

According to the product standard “IEC 62606 – General requirements for Arc Fault Detection Devices” an AFDD is a device intended to mitigate the effects of arcing faults by disconnecting the circuit when an arc fault is detected. This product standard is partially derived from the UL 1699 standard.

ABB's arc fault detection devices provide maximum safety in all buildings, thus protecting people and valuable assets. By early detecting arc faults and disconnecting the affected circuit they offer reliable and complete protection in any type of building.

- ABB offers two different versions:
- AFDD with integrated MCB: S-ARC1
 - AFDD with integrated RCBO: DS-ARC1

Both versions are integrated into ABB's proven System Pro M compact® range of modular DIN rail devices.

Protection for people and irreplaceable goods

Maximum safety in all kinds of applications

The majority of fires in buildings are caused by faults in the electrical installation. These fires are mainly caused by dangerous arc faults. The solution: S-ARC1 and DS-ARC1.

— 01 Areas of application for AFDDs Bedrooms and common rooms in nurseries

— 02 Areas of application for the AFDDs Paper manufacturing plants, printers

— 03 Causes of fire in Germany (2015)

S-ARC1 and DS-ARC1 provide maximum safety in all buildings, thus protecting people and valuable assets. By early detecting arc faults and disconnecting the affected circuit the AFDD's with integrated MCB or RCBO offers reliable and complete protection in any type of building.

Safety in many building types

According to the wiring regulation IEC 60364-4-42, an arc fault detection device is strongly recommended in particular applications, as per example:

- **Sleeping and common rooms**
 - in nurseries
 - in senior and care homes
 - in equipment for disabled persons
- **Places and rooms with existing fire risks and flammable materials**, such as for example in production facilities, barns, carpenter workshops, paper manufacturing plants or printing shops where the fire risk is high
- **Places and rooms with prevalingly flammable building materials** like wood houses, flammable buildings or forced ventilation systems
- **Places and rooms with irreplaceable goods (cultural assets)**, such as those in museums, libraries, galleries, archives or architectural monuments

Recommendation for any room

The use of the AFDD is additionally recommended in any rooms with sleeping facilities in private apartments, houses, hospitals (does not apply in medically used areas) and hotels. This also includes places with a fire-disseminating structure, such as the chimney effect in high-rise buildings or final circuits with high connected load, e.g. dishwashers, washing machines or dryers.

— 03

— 01
— 02

01

—
01 Security
in buildings with
flammable materials

With AFDDs many hazards triggered by disruptions in the electrical installation are detected in advance. Thus, the existing gap of protection against arc faults is closed, leading to complete safety in buildings for persons, investments and irreplaceable goods.

In case the overvoltage level exceeds 275 V, both S-ARC1 and DS-ARC1 are equipped with an overvoltage protection. In addition, DS-ARC1 also offers protection against earth fault currents.

With S-ARC1 people and valuable assets are protected against:

With DS-ARC1 people and valuable assets are protected against:

Protecta Home - Consumer units

Steel enclosures

Steel Enclosure to BS EN 61439-3

- Supplied factory fitted with switch disconnector and/or RCD, specification as table. Unit comes complete with shrouded busbar, earth and neutral bars and installation instructions
- Colour RAL7035 Steel
- Adaptable split load versions.

Protecta Plus

General features of the series

With the new Protecta Plus system, ABB has developed a new and personalised series of MCB distribution boards which can be expanded over time. The wide internal accessibility ensures a quick and easy approach to the electrical components assembly. The neutral and earth bars positioned on the inner sides of the distribution board are completely isolated to ensure better safety for users.

Main construction features

- Structure in epoxy coated metal sheets, 1 mm, textured finish
- Wall installation for indoor environments
- Degree of protection - IP43 with door, IP30 without door
- Mechanical resistance: IK07
- Busbar rating: 250A
- Number of ways: 4, 8, 12, 16, 20, 24
- Maximum ambient temperature +35 °C
- Compliance with IEC BS EN 61439 1-2
- Simple wiring of all cabinets, both horizontally and vertically
- Easy internal accessibility that facilitates all the wiring operations and maintenance
- Prepackaged standardised kits for specific applications (e.g. surge protection, metering)

A comprehensive range

The range consists of distribution boards for wall mounting in six heights from 590 mm to 1360 mm, 450 mm width and depth starting from 125 mm, ensuring the development of multiple solutions. Protecta Plus system is easy to design, quick to assemble and reliable to apply.

Ease of wiring

With the new mounting concept, Protecta Plus offers great levels of flexibility and accessibility for installation and wiring. The internal module can be easily removed allowing the wiring of different equipment outside the distribution board. This solution allows for an easier installation with more rapid production times.

Maximum accessibility

Thanks to the particularly large opening angle of the door, Protecta Plus offers the possibility to have optimal access to the distribution board, especially in case of maintenance. The perfectly reversible doors can be installed with right or left opening.

A series of rational solutions developed to achieve a complete range of capabilities and functions with a single type of distribution board to meet different installation requirements, whilst simplifying the work of the installer.

Simplified series connection

The distribution boards can be combined side-by-side through pre-cut cable conduit holes large enough for the passage of wiring harnesses.

Range

depth: 125 mm;
width: 450 mm;
6 heights: 590, 730, 870, 1050, 1220, 1360 mm.

Ergonomics and design

The design of this series is characterized by special features, such as rounded edges for a more efficient ergonomic look.

High output capacity

Primary branch capacity up to 100A.

Complete protection

Designed to ensure maximum protection and efficiency, through the prevision for the installation of surge protection devices and counters.

Flexible mounting

The PAN assembly system can easily be removed from the bottom distribution board of the framework, ensuring quick and simple installation.

Protecta Plus

The details make the difference

Board width

Protecta Plus has been designed with a width of 450 mm, this combined with the reduced RCBO height of 115 mm gives the installer ample cable room either side of the board.

One Solution

All Protecta Plus boards come as standard with 250A main bars. This gives the user a full range from 125A 3P through to 250A 4P incoming options.

Incoming shroud

The shroud comes ready to accept a 125A 3P incoming devices. The easy break technology and clear indication on the rear allows the user to modify the shroud dependant upon requirements up to 250A 4P.

100A Outgoing ways

The first two 3P outgoing ways are fitted with 3 mm branch copper to allow for 100A MCBs to be fitted. This allows for a maximum of **2 x 100A 3P** or **6 x 100A 1P** MCBs per board removing the need to move up to high performance boards or panel boards.

Full MCB blank

To aid installation and safety a custom MCB blank has been developed specifically for Protecta Plus.

Clean earth

Earth bars are fitted with removable links allowing the boards to be configured for 50/100% clean earth.

Padlocking facilities

All outgoing devices on Protecta Plus can be padlocked in on/off position for increased safety.

Metering and surge protection

Available in kit form to fit all Protecta Plus TPN boards. The boards have been designed to house these integrally.

EPP-VSL1212-1253P 12+12 Way 125A 3P

EPP-VSL168-2503P 16+8 Way 250A 3P

* M-Bus available on request

Pack contents

- 2 MID, Modbus (RS485) & pulse meters
- Incoming terminals
- Internal cables

Please note, no additional assembly is required.

Order Code	Description	No. of outgoing ways	Incomer rating (A)	No. of poles
EPP-SSL1412-1002P	Single Phase Power & Lighting 14+12	14+12 TPN	-100A	2 P
EPP-SSL66-1002P	Single Phase Power & Lighting 6+6	6+6 TPN	-100A	2 P

* M-Bus available on request

Metering EQmatic series

Order codes

EQmatic Energy Analyzer the perfect solution for connecting all localized meters to a single connection point, with embedded data logging functions and TCIP internet gateway functionality. Designed for Modbus A & B EQ series meters with up to 16 or 64 devices connected to a single Eqmatic.

Eqmatic Gateway

40A TPN 3 Mod	Description	Order Code
	Energy Analyzer, 16 device, Modbus	QA/S 4.16.1
	Energy Analyzer, 64 device, Modbus	QA/S 4.64.1

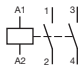

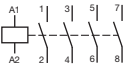

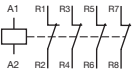

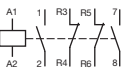

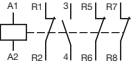

ESB installation contactors

Order codes

These devices are specifically made for commanding loads and signalling electrical conditions in any low-voltage distribution board. The functions of these devices are particularly switching, pushing and signalling electrical conditions in any installations (low-voltage area)

D Line digital time switches

Order codes

D Line weekly digital time switches

The unique design, with white backlit LCD display, and extreme ease of use with two lines of text menu and only four buttons, make D Line ideal to automate the installation functions.

Thanks to the innovative management of time vacation, the D Line digital time switches allow the exclusion of the normal weekly program in one or more periods of several years or between two different years.

The range includes 1 and 2 channel versions, equipped with large capacity internal battery to maintain operation without power supply and permanent memory EEPROM, to avoid the risk of program loss and to maintain the date and time settings in the event of power failure, irrespective of its duration.

The “Plus” version can transfer different types of program by using a D KEY to be quickly copied in using no digital time switches, avoiding the errors due to future modification. The “SYNCHRO” version can be coupled to the D DCF77 antenna, that allows an automatic synchronization of the digital time switch with the Frankfurt DCF77 time signal, or can be coupled to the D GPS antenna to allows synchronization received from the Global Positioning System.

The D Line is particularly useful in environments and situations where user management is required with a time schedule flexible enough to predict or exclude activities according to time and day of week or month.

T Line modular twilight switches

These twilight switches allow to switch ON and switch OFF lighting devices according to a scheduled level of the ambient light. They are used in combination with an external sensor to detect if the ambient light is higher or lower than the set level.

A switching delay prevents them from operating unnecessarily when the light intensity suddenly changes (e.g. lightning, moving vehicles, etc.). The T1 twilight switch in 1 channel is preset at 10 lux

from factory and is equipped with 2 signalling LEDs that indicate the setpoint value and display the status of the contact. The operating instructions are printed on the side of the product. T1 PLUS switches feature a setpoint that can be adjusted for 4 different scale values (2:40, 20:200, 200:2000, 2000:15000). This makes them ideal for daytime applications where the lux values are very high. With a 10 lux preset factory setting, they are equipped with 2 signalling LEDs that indicate the setpoint value and display the status of the contact.

Accessories for T Line modular twilight switches

The external sensor is supplied in the same package of the switch, but it's also available separately as spare part. The upper part of the external case (with screw locking), is made up of

thermoplastic materials and bears up against ultraviolet rays to guarantee a homogeneous diffusion of the daylight internally. LS-D is also equipped with a cable gland.

E 90 fuse switch disconnectors

Order codes

E 90 series fuse switch disconnectors are designed for switching circuits under load, providing protection against short circuits and overloads. The case is made of self-extinguishing thermoplastic material resistant to high temperatures (all materials are UL listed) while the contact clips are in silver plated copper. E 90 fuse switch disconnectors can be sealed or

padlocked to ensure operator safety during maintenance. Versions with blown fuse indicator allow to check whether the fuse is still working correctly or not. For easy and quick installation E 90 range is totally compatible with connecting bars, terminals and caps of S 200 MCBs. Thanks to cURus approval, they can be installed in UL certified machines.

E 90 fuse switch disconnectors for 10.3 x 38 mm fuses (AC-22B)

ArTu PB panelboard

Overview

The ArTu PB panelboard is available wall mounted as standard, and in three configurations of 6/8, 12/16 and 18/24 outgoing ways, giving you the ability to build your own custom panelboard.

The new system allows you to fit F1 single pole, together with XT1 and XT3 three pole MCCBs to the same busbar system using the new plug in bases designed by ABB. Side cable chambers are available which can be fitted on either side of the main structure. There is also an option of adding top, bottom and metering extension boxes. As standard the panelboard is fitted with a plain door but, an optional glazed version is available.

Key features

- Robust metalwork system
- Incoming options up to 1250A
- Outgoing ways up to 400A
- Shrouding for spare ways and busbar covers for unused ways are both available for additional safety
- Comprehensive range of surge protection and metering solutions available

General characteristics

- Compliance with IEC 61439-1 & 2
- ASTA Certified busbars
- Rated at 415V, 50-60Hz
- Rated current/I_{cn}
- Up to 400A/35kA flat busbar
- Up to 800A/50kA profiled busbar
- Up to 1250A/65 kA profiled busbar
- Rated impulse withstand voltage U_{imp} 8Kv
- Rated short-circuit short-time withstand current I_{cn} up to 65kA
- Rated short-circuit peak current I_{cn} up to 143kA
- IP43 ingress protection with door
- Colour light grey RAL 7035
- Supplied with plain door as standard
- Supplied without incomer, wide variety of options available
- Earth and neutral terminals are included
- 4 pole versions are available upon request

ArTu PB panelboard

General characteristics

Surge Protection options

Complete portfolio of surge protection options available for Type 1-3 protection using either the Furse or Quicksafe ranges.

Easy to access or expand

Removable side covers allow side access, future expansion of panelboard layout or additional accessory fitment.

Adaptability

Layout and design can be altered using ABB's plug in bases to fit outgoing breakers to suit.

Wide range of metering options

Metering chambers available with cutouts to house 96 x 96 meters. Blank cutout covers are also available for future addition.

Flexibility

Incoming options from 250 - 1250A, 3 and 4 pole, which include shrouding for extra safety.

Modular range of metalwork depth:

240mm; width: 690, 890mm; height: 1250, 1650, 2050mm

ArTu PB panelboard

The details which make the difference

Flexibility

Flexible incoming options from 250A-1250A including shrouding for additional safety.

Plug in technology

A spring loaded contact achieves a high contact force, again leading to a greater effective contact area.

Easy Access

Removable side covers in addition to top and bottom gland plates ensure there are a variety of access points for efficient assembly, installation and maintenance.

Modular design

Top / bottom extension boxes and side cable/ metering chambers of one depth (240mm) allow for additional accessories or cabling to be added.

630A Incoming metering module	PB-METMOD630-B
800A Incoming metering module	PB-METMOD800-B
1000A Incoming metering module	PB-METMOD1000-B
1250A Incoming metering module	PB-METMOD1250-B

Incoming metering modules using M2M MODBUS network analyser with active energy, pulse/alarm output and RS-485 communication

Description	Order Code
250A Incoming metering module	PB-METMOD250-M2M
400A Incoming metering module	PB-METMOD400-M2M
630A Incoming metering module	PB-METMOD630-M2M
800A Incoming metering module	PB-METMOD800-M2M
1000A Incoming metering module	PB-METMOD1000-M2M
1250A Incoming metering module	PB-METMOD1250-M2M

Metering Cable chamber for outgoing metering

Suitable size PB	Description	Order Code
6 W	PB Side metering chamber 1250 x 390 x 240mm (with 3 x 92 x 92 cutouts)	PB-SIDEMET-12
12W	PB Side metering chamber 1650 x 390 x 240mm (with 6 x 92 x 92 cutouts)	PB-SIDEMET-16
18W	PB Side metering chamber 2050 x 390 x 240mm (with 9 x 92 x 92 cutouts)	PB-SIDEMET-20
	92 x 92 Blank covers (un-used way)	EV1136

Note:
Includes cable connection loom to power meters

Selection and ordering guide

Outgoing meter kits, surge protection kits and other accessories

Includes meter, CT, terminals, wiring looms for breaker – terminals, terminals to CT & CT to meter.

Outgoing metering modules for 3 pole breakers using M2M MODBUS network analyser with active energy, pulse/alarm output and RS-485 communication

Description	Order Code
0 - 63A Outgoing metering kit	PBMET63-M2M
80 - 125A Outgoing metering kit	PBMET125-M2M
160 - 250A Outgoing metering kit	PBMET250-M2M
400A Outgoing metering kit	PBMET400-M2M

Outgoing metering modules using B24-112-100 MID approved class 1 meter with active energy, pulse output and RS-485 communication

Description	Order Code
For 3 pole breakers	
0 - 63A Outgoing metering kit	PBMET63-B
80 - 125A Outgoing metering kit	PBMET125-B
160 - 250A Outgoing metering kit	PBMET250-B
400A Outgoing metering kit	PBMET400-B
For single pole breakers	
0 - 63A Outgoing v with single core CT inc B24 - 112 - 100 meter	PBMET63-S-B
80 - 125A Outgoing metering kit with single core CT inc B24 - 112 - 100 meter	PBMET125-S-B

Surge protection kits

Description	Order Code
Surge Protection kit Type 1 & 2. Includes 63A breaker protection	PB-SOULE
Surge Protection kit Furse Type 1, 2 & 3. Includes 63A breaker protection and remote display	PB-FURSE

Note:

A side extension box with hinged door must be used to house the surge protection kit. In addition the MCCB protection device for the surge protection device requires the use of a one three phase outgoing way. Fuse protection options may be available upon request. Please ask for details if required.
Fuse protection options may be available upon request. Please ask for details if required

Other accessories

Description	Order Code
Neutral shroud 250 - 800A – pair	AD1082
Neutral shroud 1250A – pair	AD1084
Aluminium gland plate for 250 - 800A panelboards	ALF0600
Aluminium gland plate for 1250A panelboards	ALF0800

Enclosed automatic transfer switches

General specification

The handle is a direct mounted type, and it can be padlocked in the “0” position with three padlocks with a 5 ... 6 mm hasp. It is possible to operate switch with the manual handle in case of emergency, regardless of the position of switch and without any supply power.

Technical specifications according to IEC 60947-3 and IEC 60947-6-1

• Type of equipment	ATSE
• Class of equipment	PC
• Rated operational voltage,	U_e Max. 415 V
• Rated impulse withstand voltage,	U_{imp} 6 kV
• Rated frequency	50 - 60 Hz
• EMC environment	A and B

Bypass Requirement

In order to comply with BS8519 which states “Where the availability of the life safety and fire-fighting equipment is conditional to the occupation of the building, a bypass arrangement should be incorporated to enable the changeover device to be maintained without loss of service from the critical plant”.

The bypass switches consist of the following;

Single or mains bypass

Operate isolators to give a seamless transfer to the primary supply bypassing the ATS. The front of the panel should indicate that the ATS has been bypassed and is safe to carry out maintenance.

Dual Bypass

Operate isolators and change over switches to give a seamless transfer to bypass the ATS and to select either the primary supply or secondary supply.

The one ATS with all these advantages

Easy to Install

Reduces installation time by up to 80%.

Why waste time piecing together an ATS from multiple components and as many as 20 connection wires, not to mention the time spent testing? TruONE® is the first automatic transfer switch to put it all together, including the controller with detachable HMI. It can be installed with a single wire using standard enclosures.

Safety and Protection

Reduces risk of operator injury.

TruONE® enables emergency manual operation — even under load — without opening the panel door when the HMI is mounted to the ATS frame. The HMI can be detached from the frame for door mounting, offering more flexibility for the panel designer. Best of all, regardless of the HMI installation method, there's no need for connecting dangerous line voltages to the door, so the risk of operator injury due to equipment malfunction is reduced.

Optimum Interface

Simplifies connectivity.

TruONE® features cloud-based connectivity through the ABB Ability™ Electrical Distribution Control System (EDCS). ABB Ability simplifies implementation and use of TruONE® in coordination with other ABB devices, ensuring one common user interface and one common software environment. Market-leading modular connectivity with seven communication protocols ensures easy installation and connectivity now and far into the future.

Even more advantages

Speed Up Your Project

Now you can speed up your project even more, thanks to TruONE[®] automatic commissioning capabilities. Pre-made configuration files can be uploaded from your PC to TruONE[®], minimising the risk of human error and reducing programming time by 80%.

Continuous Operation

TruONE[®] features predictive maintenance, self-diagnostics and customer-replaceable critical modules to simplify service and significantly reduce downtime and service costs. Say goodbye to blinking lights and stopping motors. TruONE[®] provides a fast in-phase open transition of power, ensuring unnoticed generator use during business hours.

Energy Efficiency

Full compatibility with ABB Ability™ EDCS allows data processing from the site's electrical equipment to deliver analysis and make recommendations for optimising the electrical system's performance. This allows remote monitoring of plants, energy consumption and costs at a glance, making implementation of energy management strategies easier and faster.

Optimized Logistics

TruONE[®] features a wide voltage range from 200 to 480 Vac (with +/-20% tolerance), reducing the need to stock multiple SKUs, reducing inventory and saving space in the warehouse.

Space Saving

TruONE[®] features plug-in factory and field-mount accessorising, so you don't need extra space inside the panel. Even in the case of specialised customer needs, you can use standard cabinets.

ABB

Architecture

Truly plug & play

Embedded solution with Ekip Com Hub
 Emax 2 equipped with the new Ekip Com Hub establishes the cloud connection for the whole switchboard.

This dedicated cartridge-type communication module just needs to be inserted into the terminal box and connected to the internet.

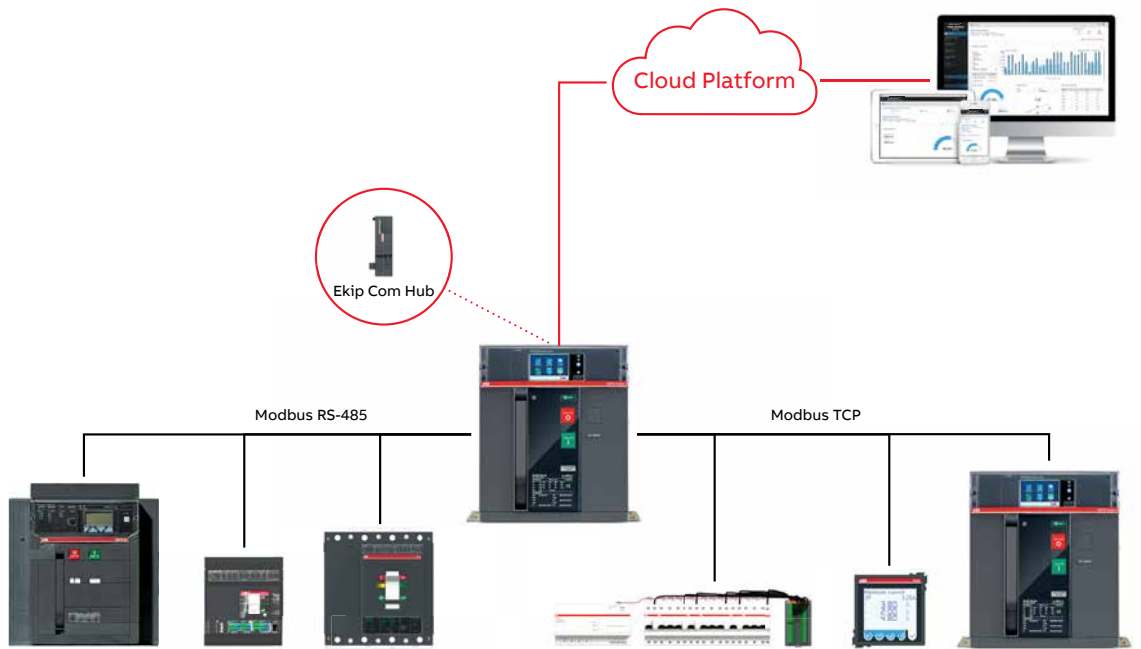

ABB showcases a further evolution in the low-voltage distribution business, setting a new benchmark in terms of simplicity and performance.

ABB Ability™ Electrical Distribution Control System enables the collection of relevant information from the ABB devices installed in the low-voltage power distribution system.

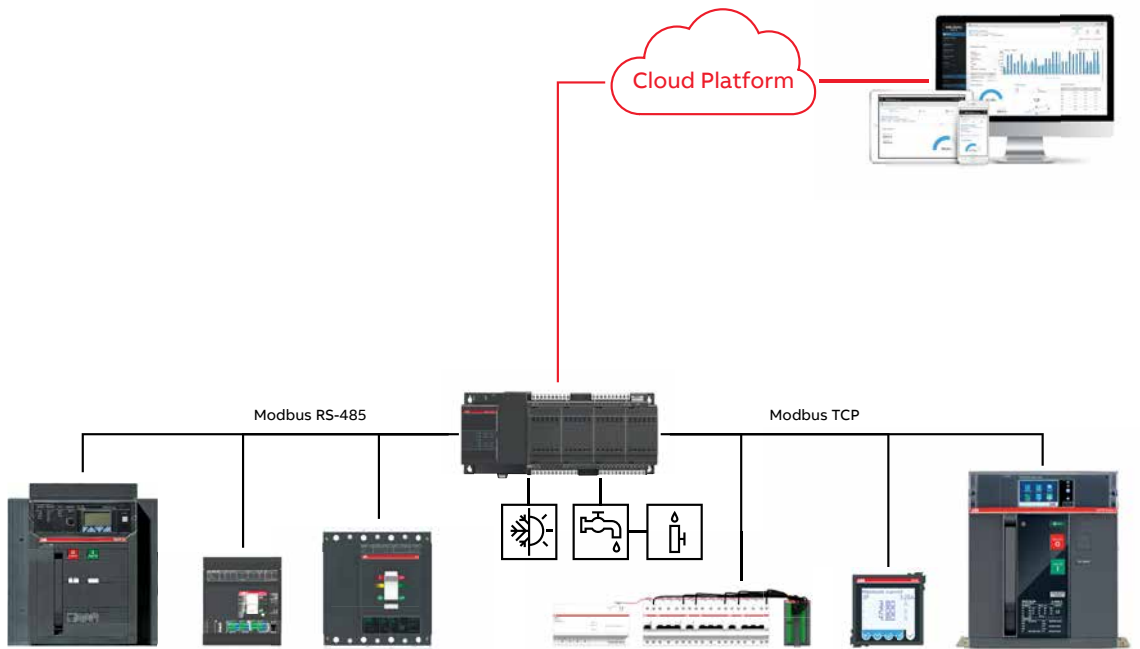

These devices can be connected, plug & play, to the cloud-computing platform by sharing data either with Emax 2 (equipped with Ekip Com Hub) or with Ekip E-Hub via Modbus RS-485, Modbus TCP and Ekip Link.

Family	Device
ACB	Emax 2 (*)
ACB	New Emax (*)
MCCB	Tmax T (*)
MCCB	Tmax XT (*)
Metering device	M2M
Metering device	CMS 700
Fusegear	Slimline XR ITS 2
Signalling module for digital inputs (e.g. for MCBs)	Ekip Signalling Modbus TCP
Digital Meters/Sensor	Pulse meter (**)
Analog Meters/Sensor	Analog meter (**)
Arc guard	TVOC-2
And many others to come...	

External solution with Ekip E-Hub

The Ekip E-Hub module can be mounted on DIN rail to collect data throughout the system. Moreover, it is possible to connect sensors for

environmental parameters (temperature, water, gas) via both analog and digital I/O. Modules for Wi-Fi or GPRS connection are provided as optional features.

Reliable in extreme conditions

You can be sure TruONE® exceeds standard requirements for performance and reliability to bring you dependable operation in even the most challenging electrical, mechanical and environmental conditions.

TruONE® is the only ATS to guarantee safe and reliable operation during dramatic variations in temperature (-25–+70°C) and voltage (200–480 Vac with +/-20% tolerance), and it's tolerant of vibrations (acc. IEC 60068-2-6) and shocks (acc. IEC 60068-2-27). TruONE® also has true short-circuit resilience, able to take the hit and remain fully operational after exposure to even the most dangerous phenomena.

Site conditions can change due to unexpected situations, but the performance of TruONE® does not.

Testing for vibrations, shocks and a wide temperature range.

Enclosure

IP65 SR2 Sheet steel enclosures

The SR2 enclosures come from years in building the experience IP65 metal structures (in accordance with the IEC 60529 Standard), together with the innovative new production process used for construction patented by ABB.

Conforming to EN 62208 standard for low voltage switchgear and controlgear assemblies and allow realisation of electrical equipment conforming to

IEC 60204-1 standard "Safety of machinery", electrical equipment of machines and of the EN 60439-1 Standard and the new EN 61439-1-2 standard "Low voltage protection switchgear and controlgear for assemblies". The degree of protection, in accordance with the IEC 60529 standard "Degrees of protection of enclosures (IP Code)", is IP65.

Ordering Information

Enclosed ATS

Mimic panel on front door for easy identification.

Features and benefits:

- I-O-II –operation with stable OFF position between positions I and II
- HMI can be mounted on the door upon request, please add -H to part number (e.g. OTOne40E4L3SBSR-H)

I-O-II Delayed transition - Open style operation

Automatic transfer switches

OXEA1

Auxiliary power supply module

Suitable for switches	Aux voltage	Type	Order number	Weight/unit kg
OX30...1600	12-24Vdc	OXEA1	1SCA148926R1001	0.04

The OXEA1 auxiliary power supply module is used for: a) connecting connectivity modules (signalling and communication) to the switch b) powering the ATS controller and connectivity modules from auxiliary 12-24 Vdc power supply, to keep them operational during power failures. A 12-24 Vdc power supply is not required when line power is available but it is necessary to keep the modules operational during power failures.

Connectivity modules

The connectivity modules are used in combination with OXEA1 auxiliary power supply module to enable communication capabilities (Ekip Com modules) and increase the number of digital inputs and outputs (Ekip Signalling modules). The maximum number of additional modules depends on the TruONE switch size: IEC 200-400 Amps and UL 30-260 Amps can fit three additional modules and IEC 500-1600 Amps and UL 400-1200 Amps can fit four additional modules. These modules are available with TruONE Level 3 and Level 4 controllers.

EKIP COM

The Ekip Com modules enable TruONE to be integrated in an industrial communication network for remote supervision and control of the switch. Several Ekip Com modules can be installed at the same time, thereby enabling connection to communication systems that use different protocols. The Ekip Com modules for Modbus RTU, Profibus-DP and DeviceNet contain a terminating resistor and DIP switch for optional activation to terminate the serial network or bus. The Profibus-DP module also contains a polarisation resistor and DIP switch for its activation.

Accessories

Automatic transfer switches

Ekip 2K SIGNALLING

The Ekip 2K Signalling modules add two input and two output contacts for controlling and remote signalling. They can be programmed with the HMI unit's display or with the Ekip Connect software. Three versions of the Ekip 2K Signalling modules are available: Ekip 2K-1, Ekip 2K-2, Ekip 2K-3. Simultaneous usage of same types is not possible.

Signalling modules for Level 3 and Level 4 controllers

Suitable for switches	No. of DI/DO	DI/DO numbering	Type	Order number	Weight/unit kg

OX30...1600	2/2	31,32/31,32	Ekip Signalling 2K-3-OX	1SDA104055R1	0.2

Ekip PROGRAMMING

The Ekip Programming module is used for programming TruONE via USB to a PC using the Ekip Connect software that can be downloaded online. It enables both online (line power available) and offline (no line power available) programming. Available for TruONE Level 3 and Level 4 controllers.

Ekip programming module

Suitable for switches	Type	Order number	Weight/unit kg
OX30...1600	Ekip Programming	1SDA076154R1	0.2

Ekip COM HUB

Ekip Com Hub is a communication module for cloud-based connectivity through the ABB Ability™ Electrical Distribution Control System (EDCS). TruONE equipped with Ekip Com Hub can establish the connection to ABB Ability for the whole low-voltage power distribution panel. This dedicated cartridge-type communication module just needs to be inserted into the TruONE and connected to the internet. For further information related to ABB Ability and Electrical Distribution Control System, please visit the dedicated website <https://new.abb.com/low-voltage/launches/abb-ability-edcs>. Available for TruONE Level 3 and Level 4 controllers.

Note: Phase barriers cannot be used together with terminal shrouds.

OXEW1600_

Wide blade kit

This is required for IEC 1000-1600 A and UL 800-1200 A switches on the LOAD side terminals, when wiring is done with four cables and using mechanical compression lugs.

Suitable for switches	No. of poles	Units/type [pcs]	Type	Order number	Weight/unit kg
IEC 1000-1600 Amps	3	6	OXEW1600/3	1SCA150204R1001	1.38
UL 800-1200 Amps	4	8	OXEW1600/4	1SCA150205R1001	1.83

Note: These codes are only for spare part purposes as the items are already included in the standard delivery.

OXEC21

IP54 padlockable transparent cover, providing protection against accidental contact.

Wide blade kit

Suitable for switches	Type	Order number	Weight/unit kg
OX30...1600	OXEC21	1SCA147308R1001	0.18

Mimic panels (Single/Dual Bypass)

Part Number	Description	Dimensions
01MimicDB	Mimic Panel for Dual ByPass ATS	200 x 200 x 80
01MimicSB	Mimic Panel for Single ByPass ATS	200 x 200 x 80

Note: Other options available upon request.

Accessories

Automatic transfer switches

OA1G01AU

Mounting on the right side of the switch: Max. 4 auxiliary contact blocks / Source 1 and Source 2 position indication (totally 8 blocks). Types _AU have gold plated contacts for harsh environments and low operating voltages. Simultaneous action with the main contacts, IP20.

Enclosed switches

Switch solutions - Functionality and features

Enclosed switches are designed and used as main switches for applications, which need to be isolated from the network. The range includes front operated and side operated switch disconnectors, switch fuses and changeover switches enclosed in plastic, steel sheet or stainless steel sheet and aluminium enclosures. They are rated for utilization categories including disconnecting as well as making and breaking the load. In addition the switch fuses equipped with fuse links protects the application and the cables from overload currents and short circuits.

Plastic enclosures

The plastic enclosures are most suitable for locations with high chemical and moisture requirements. In addition they are light and easy to install and handle.

Steel sheet enclosures

The steel sheet enclosures are hot dip galvanized and the surface is polyester powder painted. The enclosures are durable and robust for various environments.

Stainless steel sheet enclosures

The stainless steel sheet enclosures are made of AISI 304 stainless steel. They are used particularly in the food and beverage industry and in locations where high hygiene is required. The smooth surface does not require any painting and is easy to clean.

Aluminium alloy enclosures

Aluminium enclosures have very good impact strength and protection against UV light. They are suitable both for indoor and outdoor use in medium to heavy-duty applications.

Safety for personnel – reliable position indication

- Padlocking in the OFF-position with one, three or six (with the shackle L6) padlocks against unintentional start-up.
- The handle cannot be padlocked in the OFF-position if one of the contacts is not in the OFF-position.
- The cover cannot be removed if the handle is padlocked.
- Door interlock in the ON-position.
- Arc proof, short circuit durability function: Expander washers in aluminium enclosures with $I_e > 160$ A and door locking release in large metal sheet enclosures type MSC.
- Door interlock defeatable with rectangular and pistol type handles.

Switchgear - Loadbreak and safety switches

Load Break Switches 3 - 4 pole 9...37kW

- IP65 three and four-pole switch disconnectors suitable for load break switching or isolation.
- Polycarbonate enclosure. IEC 60947-3

- IP65 rated
- Grey plastic enclosure
- Standard handle - Red/Yellow (padlockable in the off position)
- Cable entries top and bottom
- All OTP16 (excluding 3p) /25/32 all have 25/20mm reducers

Switchgear - Loadbreak switches

IP65 Steel enclosure

- IP65 rated (not suitable for external installation)
- Powder coated textured finish (RAL 7035)
- All 3 pole switches include detachable neutral link (OT160 solid link)
- Hinged lid complete with lock
- Padlockable pistol grip handle as standard
- Removable gland plates fitted top and bottom (see below for knockout configurations)
- Spreader boxes available see below

Switchgear - Switch fuses

IP65 Steel enclosure

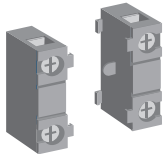

- IP65 rated (not suitable for external installation)
- Powder coated textured finish (RAL 7035)
- All switches are supplied with fuses and removable gland plates
- All 3 pole switches include detachable neutral link (OT160 solid link)
- Switch Fuses are internally rated IP20 on incoming terminals up to 63A
- Hinged lid complete with lock
- Padlockable pistol grip handle as standard
- Switch Fuses 100A are supplied with incoming terminal shrouds (NOT FITTED) to allow customer connections
- Spreader boxes available see below

New watertight Easy and Safe

Our new IP67 Easy & Safe is a perfect choice in most applications where water and dirt can occur. They combine easy access to contact parts during installation with high protection degree while the products are in use. Electrical contacts protected against liquids and dirt retains its performance over time. High contact performance means reliability, reducing downtime and lowers maintenance costs.

Modular Combi

Modular Combi is a system consisting of compact units replacing outlets that traditionally has been scattered around the walls. Modular combi is a cost effective system.

Modular Combi is a cost effective system with different types of outlets, RCDs and MCBs in one location. Modular Combi is very easy to install and, thanks to the solutions and design, it saves time and money. The Modular Combi range consists of two lines, one product line in plastic,

and the other one in metal. Common for them are among other features that you only need one feeding cable, it can be mounted with an already existing 4-wire as well as 5-wire cable and that the modules are easy to modify in the future for additional needs.

Modular Combi Plastic

The enclosure is in aluminium with front plates of galvanised steel. Modul Combi Metal is designed for different types of single phase domestic outlets and for IEC outlets up to and including 63 A.

Operating voltage 230/400 V ~

Enclosure: Plastic (PBT)

Dimensions: According to table

Outlets: Combi Plastic is designed for different types of single phase domestic outlets and for IEC outlets up to and including 63 A.

With or without mechanical interlocked IEC outlets.

Cable entry: 4 knock-outs at the top, suitable for 2xØ 40 mm and 2xØ 25 mm

At the bottom 3xØ 47 mm

Cable area: 2x16 mm² Cu. Designed for looping

Covers: For MCB/RCD, maximum 13 modules, 2 opened and knock-outs for the rest of the modules row. DIN-rail in bottom for terminals and MCB/RCDs.

With a distance at the bottom to allow wiring behind the rail. The lid is pad lockable.

Modular Combi Metal

The enclosure is in aluminium with front plates of galvanised steel. Modul Combi Metal is designed for different types of single phase domestic outlets and for IEC outlets up to and including 63 A.

Operating voltage 230/400 V~

Enclosure: Aluminium with front plates of galvanised steel.

Dimensions: According to table or customer order

Outlets: Combi Metal is designed for different types of single phase domestic outlets and for IEC outlets up to and including 63 A. With or without mechanical interlocked IEC outlets.

Cable entry: FL21 flange openings at top and bottom

Cable area: 2x16 mm² Cu. Designed for looping

Covers: For MCB/RCD, maximum 12 modules. DIN-rail in bottom for terminals and MCB/RCDs. With a distance at the bottom to allow wiring behind the rail. The lid is pad lockable.

Enclosures

Gemini

- Made of thermoplastic material, to which the co-injection moulding technique gives the same mechanical characteristics as polyester
- Extremely sturdy, with its rigid covering and expanded internal core
- IP66, IP30 with the door open afford a very high resistance to chemical and atmospheric agents
- Guarantees excellent performances even in severe operating conditions

Terminal Blocks

Europa series

Modular Units IP65

Technical characteristics

- Protection degree IP 65
- Insulation class II
- Available in the versions with opaque and transparent, smoky vertically hinged doors
- Available in RAL 7035 grey
- In polycarbonate material, self-extinguishing and resistant to abnormal heat and fire up to 960 °C (glow wire test) in compliance with IEC 60695-2-1 Standard
- Operating temperature from -25 °C to +115 °C
- Shock resistance 20 Joules (IK level 10)
- High resistance to UV rays
- Perfectly symmetrical switchboards with the possibility of attaching the door hinge onto the front (by means of the special articulated screws supplied) on the right or left with 140° opening
- Doors designed to take lock with coded key, code 12866
- Designed for the insertion of an extractable frame with pre-drilled panelling for mounting 100, 125 and 160 A circuit breakers
- All models (except for code 12764 and 12784) are fitted with one rigid and one bimaterial flange to facilitate insertion of conduits and cables
- Switchboards made and produced in compliance with CEI 23-48, CEI 23-49 and IEC 60 670 Standards
- Switchboards are supplied complete with:
 - 4 screw-cover caps to guarantee
 - accessories for hinging the front part
 - 1 certification plate
 - instruction sheet

Junction boxes IP44, IP55 & IP65 in thermoplastic

Technical characteristics

- Protection degree:
 - IP 44 for press-on lid boxes
 - IP 55 for screw-on lid boxes
- Boxes with press-on lids in thermoplastic material, self-extinguishing in compliance with UL 94 HB Standard and resistant to abnormal heat and fire up to 650 °C (glow wire test) in compliance with IEC 60695-2-1
- Boxes with opaque screw-on lids in thermoplastic material, self-extinguishing in compliance with UL 94 V-O and resistant to abnormal heat and fire up to 960 °C (glow wire test) in compliance with IEC 695-2-1
- Boxes with screw-on covers in transparent polycarbonate material, self-extinguishing in compliance with UL 94 V-2 and resistant to abnormal heat and fire up to 960 °C (glow wire test) in compliance with IEC 60695-2-1
- Operating temperature -25 °C to +75 °C IP 44 and IP 55
- Shock resistance 6 Joules
- High resistance to heat, chemical and atmospheric agents
- Junction boxes made in compliance with CEI 23-48 and IEC60 670 Standards

Star delta starters IP55 metal enclosure

SD215S

Star-Delta IP65 metal Enclosure 400V up to 22kW

- Star-Delta starters in metal enclosure IEC 947-4-1.
- All three phase star delta starters, are complete with push buttons, and 100-250v or 250-500v coils.
- Overload for standard motor duty must be purchased separately

Measuring and monitoring relays

Assortment overview

Single-phase current and voltage monitoring

Current monitoring

- Monitoring of motor current consumption
- Monitoring of lighting installations and heating circuits
- Monitoring of transportation equipment overload
- Monitoring of locking devices, electromechanical brake gear and locked rotors

Voltage monitoring

- Speed monitoring of DC motors
- Monitoring of battery voltages and other supply networks

Please contact us for more information.

Three-phase monitoring

- Voltage monitoring of mobile three-phase equipment
- Protection of personnel and installations against phase reversal
- Monitoring of the supply voltage of machines and installations
- Protection of equipment against damage caused by unstable supply voltage
- Switching to emergency or auxiliary supply
- Protection of motors against damage caused by unbalanced phase voltages and phase loss

See “Ordering details - Singlefunctional” on page 149 or “Ordering details - Multifunctional” on page 150.

Grid feeding monitoring relays

The CM-UFx range monitors all voltage and frequency parameters in a grid and ensures the safe feeding of decentral produced electrical energy into the grid.

- Monitoring of the voltage with up to 2 thresholds for over- and undervoltage
- Monitoring of the frequency with up to 2 thresholds for over- and underfrequency
- ROCOF (rate of change of frequency) and vector shift detection
- In compliance with several local standards

Please contact us for more information.

Insulation monitoring

- Monitoring of electrically isolated supply mains for insulation resistance failure
- Detection of initial faults
- Protection against earth faults

Please contact us for more information.

Measuring and monitoring relays

Assortment overview

Thermistor motor protection

CM-MSE and CM-MSS provide full protection of motors with integrated PTC resistor sensors.

- Protection of motors against thermal overload, e. g. caused by insufficient cooling, heavy load starting conditions, undersized motors, etc.

Please contact us for more information.

Temperature monitoring

Acquisition, messaging and regulation of temperatures of solid, liquid and gaseous media in processes and machines.

- Motor and system protection
- Control panel temperature monitoring
- Frost monitoring
- Temperature limits for process variables, e.g. in the packing or electroplating industry
- Control of systems and machines like heating, air-conditioning and ventilation systems, solar collectors, heat pumps or hot water supply systems
- Monitoring of servomotors with KTY sensors
- Bearing and gear oil monitoring
- Coolant monitoring

Please contact us for more information.

Liquid level monitoring and control

- Protection of pumps against dry running
- Protection against container overflow
- Control of liquid levels
- Detection of leaks
- Control of mixing ratios

Please contact us for more information.

Timers

Ordering details

The CT-D range in MDRC design with a width of only 17.5 mm fits into all domestic installation and distribution panels. The CT-D range represents a link between industry and the installation types. For maximum flexibility in operation. The devices offer 4 or 7 time ranges from 0.05 seconds up to 100 hours. Their wide input range allows the use in applications worldwide.

The CP-D of modular power supply units in MDRC design (modular DIN rail components) is ideally suited for installation in distribution panels. This range offers devices with output voltages of 12 V DC and 24 V DC at output currents of 0.42 A to 4.2 A. Thanks to their high thermal efficiency, these power supplies have very low power and heat dissipation and can be operated without forced cooling. All power supply units in the CP-D range are approved according to all relevant international standards.

Power Supplies

Ordering details – CP-T range

2CDC271.043.50.009

CP-T 24/5.0

In terms of design and functionality, the CP-T range perfectly supplements the existing products and extends the range appropriately. The devices can be supplied with a three-phase voltage as well as with two-phase mains. Here, ABB offers power supply units with 24 V DC and 48 V DC outputs with 5 A, 10 A, 20 A and 40 A and efficiency of up to 93%.

As in the case of all products, they are designed for an ambient temperature of up to 70°C. All products can be supplied within an AC supply voltage range between 340 to 575 V AC and a DC supply voltage range between 480 to 820 V DC.

2CDC 291 003 50016

CR-S Interface relay

2CDC 291 005 50014

The slim pluggable interface relays and optocouplers of the CR-S Range may be used for electrical isolation, amplification and signal matching. The CR-S relays are 6.2 mm wide and therefore allow for the switching high currents on a small footprint.

Ordering details - CR-S range pluggable interface relays

CR-PLSX relay

The CR-P range offers the highest current switching in an IP67 rated relay housing. This range comprises of pluggable interface relays and optocouplers offered in 10 different control supply voltages. Additionally, gold plated contacts are available for applications where sensitive signals are to be switched. The CR-P range also includes complete versions consisting of a relay, socket, holder and functional module.

Ordering details – CR-M range

CR-M

2CDC291.002.F0015

The CR-M range offers the possibility of switching up to 4 different circuits with a single relay. The integrated LED and test button allow for easy testing and commissioning. This range of relays are available at a wide range of different coil voltages and are accompanied by a wide variety of functional modules. The CR-M range also includes complete versions consisting of a relay, socket, holder and functional module.

AF09 ... AF38 3 pole contactors

4 to 18.5kW AC/DC operated

AF09 ... AF38 contactors are mainly used for controlling 3-phase motors and power circuits up to 690 V AC and 220 V DC. These contactors are of the block type design with 3 main poles.

- Control circuit: AC or DC operated with electronic coil interface accepting a wide control voltage range (e.g. 100...250 V AC and DC), only 4 control voltage ranges covering 24...500V 50/60 Hz and 20...500 V DC

- Can manage large control voltage variations
- Reduced panel energy consumption
- Very distinct closing and opening

- Built-in surge suppression
- Add-on auxiliary contact blocks for front or side mounting and a wide range of accessories

Overload protection

Selection

TF42

The TF42 thermal overload relays are economic electromechanical protection devices for the main circuit. They offer reliable protection for motors in the event of overload or phase failure. The devices have trip class 10.

The thermal overload relays are three pole relays with bimetal tripping elements. The motor current flows through the bimetal tripping elements and heats them directly and indirectly. In case of an overload (over current), the bimetal elements bent as a result of the heating. This leads to a release of the relay and a change of the contacts switching position (95-96 / 97-98).

- Manual or automatic reset selectable
- Phase loss sensitive acc. to IEC/EN 60947-4-1
- TEST and STOP function – Trip indication on the front
- Temperature compensation
- Suitable for three- and single-phase applications

TF42 0.10 to 38.0A

Limit switches

Trustworthy detection devices

Using limit switches is the easiest way to convert mechanical movements into electrical signals. They combine different types of actuators, casings and contacts and are perfectly suited to a large variety of applications, whatever the environment.

—
Reliable in
extreme
conditions

Ready for anything

Limit switches are designed to operate in the most difficult environments. A high degree of protection up to IP66 and the positive contact opening, guarantees reliable operation.

—
Continuous
operation

Keep your installation running 24h a day

Limit switches secure your uptime. Their high mechanical durability can handle up to 10 million operations with contacts that are mechanically linked to actuators.

—
Global
availability

Wherever you are

Easy product selection from our core offering that covers most applications. Thanks to global certification, our products can be used everywhere to ensure your peace of mind.

Main applications

Sustainability of detection for a wide variety of applications

Material handling equipment (cranes, ramps, elevators...) Escalators, parking barriers and automatic doors
Machine tools and manufacturing lines.

Limit switches

A simple core range selection covering 80% of the applications...

Introduction

Company overview

Adaptaflex flexible conduit systems are used to protect critical power and data cabling. Established in 1972, Adaptaflex has developed into a leading player within the flexible conduit market.

Adaptaflex is a market-leading flexible conduit system brand that can be found all over the world. Combining innovative design with dedicated manufacture it offers customers one of the world's broadest ranges of cable protection products and solutions. With a choice of over 6000 products the range covers metallic and non-metallic flexible conduit systems for the protection of critical power and data cable.

The system solutions from Adaptaflex need to perform in a wide variety of environments, from high temperature to freezing conditions. The products are designed and tested to withstand constant vibrations, water ingress and offer corrosion and chemical resistance. Products are available in many different materials, including halogen free, low smoke and low toxicity materials. An extensive range of engineered solutions are designed to withstand the rigours of some of the most technically-demanding markets. So whatever your project involves, our experience will provide the answer, helping you to specify the correct flexible conduit system.

Markets and industries

Adaptaflex flexible conduit systems are used to protect critical power and data cabling throughout a wide range of markets including:

- Commercial contracting
- Machinery
- Rail/Infrastructure
- Marine
- Mechanical
- Security/CCTV
- Data cabling
- Critical power

Our products are designed and engineered to meet a variety of market application requirements, providing product innovation that saves installation and component costs, improves quality and delivers integrity in the end product.

Introduction

Quality approvals & third party testing

Quality approvals

The company's commitment to independent testing across a wide range of applications has led to an impressive range of certifications and quality approvals:

- BSI Kitemark
- BS EN ISO14001 Environmental standard
- IEC 61386 Conduit standard covering the performance characteristics of flexible conduits
- ISO 60529 IP69 Rated, standard with its Adaptaflex range of non metallic fittings
- Offer non-metallic conduit that is fully compliant to the new dual listed UL 1696 standard. Required for any equipment destined for export to the USA and Canada
- The Hi-Spec PEEK range, designed for the most demanding electrical applications in rail infrastructure, underground and public buildings, is the only non-metallic flexible conduit system fully compliant with both BS 6853 Class 1A requirement and LUL engineering standard 1-085

Industry standards

As one of the world's leading flexible conduit system manufacturers, Adaptaflex has achieved many international approvals, for our manufacturing as well as our product ranges.

Adaptaflex are able to use our experience and knowledge to ensure safety and quality levels are maintained now and in the future.

Third party testing & approvals

IEC61386 Performance classification standard

Adaptaflex has achieved third party accreditation to the IEC61386 Standard from the British Standards Institution (BSI). IEC61386 conformance guarantees that products meet performance specifications for fatigue life, operating temperature, non-flame propagation, IP ratings amongst other criteria.

BSI Kitemark

Adaptaflex manufacture to third party accreditation through the BSI Kitemark scheme. The Kitemark is one of the world's premier symbols of trust, integrity and quality. Manufacturers with the Kitemark are an elite club of some of the world's best companies being annually tested to ensure continued compliance. Having the Kitemark associated with our products illustrates that we have satisfied the most rigorous of quality processes.

ISO9001 Quality standard

Adaptaflex conform to ISO 9001:2000, the internationally recognised standard for Quality Management Systems. This standard reflects the procedures and management processes throughout the whole of the company.

ISO14001 and ISO45001 Environmental standard

Controlling the impact of manufacturing activities on the environment is a major challenge. Again Adaptaflex lead the way by being the first conduit manufacturer to comply with this Standard.

Customer support

All our products are backed up by a full technical support team, sales teams, customer care team and in-house marketing specialists. All dedicated teams working together to ensure that you have the best support in the market place.

Flexible conduit systems

Quick selection guide

Type	Metallic conduit				Non-metallic conduit	
	Corrugated Metallic	Corrugated Metallic	Smooth Liquid-Tight Metallic	Anti-microbial Liquid Tight Metallic	Corrugated Plastic	Corrugated Plastic
Series	S	SP	SPL	SAM	PP	PA
Usage	Heavy weight conduit for commercial building, light industrial or outdoor applications	Heavy-duty industrial, confined space and moving applications	Heavy-duty industrial, marine, extreme condition and hazardous explosive area applications	Food, Beverage, Pharmaceutical, Hygienic and high temperature applications	Medium weight conduit for commercial building, light industrial or outdoor applications	Commercial building, light industrial or outdoor applications
Core material	Galvanised Steel	Galvanised Steel	Galvanised Steel	Galvanised or Stainless Steel	Polypropylene	Nylon PA6
Jacket material	None	PVC	PVC	Thermoplastic	None	None
IP rating	Up to IP40	Up to IP65	Up to IP69	Up to IP69K	Up to IP66	Up to IP69K
Temperature range	-50 to +300	-25 to +70	-20 to +105	-30 to +150	-20 to +90	-40 to +120
Flexibility	High	High	Medium	Medium	High	High
Mechanical strength	Very High?	Very High	Very High	Very High	Low	Medium
UV Resistance	Very High	Very High	Very High	High	Medium	Very High
Zero Halogen	No	No	No	Yes	Yes	Yes
Self Extinguishing	Yes	Yes	Yes	Yes	No	Yes

- This product book contains a basic selection of popular ABB Adaptaflex Conduit ranges

- Several more Conduit ranges available including Stainless Steel, Low fire hazard, Braided EMI screening, Food & Beverage specific, Hazardous Explosive Area, Accessories, etc.

Convenience packs

Professional installer conduit systems

LFH Convenience

Order code	Type	Conduit/fitting diameter (mm)	One-piece conduit fittings	Locknuts	IP rating
CP-AF20A	10m Black Type PA LFH Nylon 6, 20mm diameter	20	10	10	IP66
CP-AF25A	10m Black Type PA LFH Nylon 6, 25mm diameter	25	10	10	IP66

Convenience pack / Nylon Conduit with Adaptalok One-Piece, Fast Fit, Push & Twist Fittings
Materials: Polyamide Nylon 6 / Colour: Black (BL)

Polypropylene Convenience

Order code	Type	Conduit/fitting diameter (mm)	One-piece conduit fittings	Locknuts	IP rating
CP-AF20BS-PP	10m Grey Type PP Polypropylene conduit, 20mm diameter	20	10	10	IP54
CP-AF25BS-PP	10m Grey Type PP Polypropylene conduit, 25mm diameter	25	10	10	IP54

Convenience Pack / Type PP Polypropylene Conduit with One-Piece, Fast Fit, Push & Twist Fittings
Materials: PP Polypropylene / Colour: Grey (GR)

Retail / Office Convenience

Order code	Type	Conduit/fitting diameter (mm)	One-piece conduit fittings	Locknuts	IP rating
CP-AF20BS	10m Grey Type KF PVCu, 20mm diameter	20	10	10	IP66
CP-AF25BS	10m Grey Type KF PVCu, 20mm diameter	25	10	10	IP66
CP-KF20BS	10m White Type KF PVCu, 25mm diameter	20	10	10	IP66
CP-KF25BS	10m White Type KF PVCu, 25mm diameter	25	10	10	IP66

Convenience Pack / Self-Extinguishing PVC Conduit & One-Piece Fittings & Locknuts
Materials: PVC Pliable / Colour: White (W)

Anti-microbial metallic conduit systems

SAMHL series - Smooth anti-microbial liquid-tight conduit

Anti-microbial liquid tight high temperature covered steel flexible conduit. Suitable for indoor splash zone areas or food processing equipment. The biocidal coating attacks bacteria that comes into contact with it, including MRSA, E.coli, etc eliminating 99% in 2 hours.

Features

- **Type SAMHL** - Galvanized steel core string packed with Anti-microbial protection incorporated into a FDA, EC and FSA compliant DuPont Hytrel® thermoplastic jacket
- **Type SSAMHL** - Stainless steel string with Anti-microbial protection incorporated into a FDA, EC and FSA compliant DuPont Hytrel® thermoplastic jacket
- IP40 – IP69 rated
- Temperature range up to -50°C to +130°C
- Approvals: CE, BS EN 61386-1,-23, NSF 14159-1-2014 & NSF 169-2009

Type SAMHL and SSAMHL - Anti-microbial liquid tight conduit

Order code		Conduit size (mm)	Diameter Dimensions (mm)			Coil lengths	
Galvanised Steel Core	Stainless Steel Core		Outside	Inside	Bend radius	Galvanised Steel Core	Stainless Steel Core
SAMHL16/25M	SSAMHL16/25M	16	17.8mm	12.5mm	50mm	25	25
SAMHL20/25M	SSAMHL20/25M	20	21.1mm	15.9mm	80mm	25	25
SAMHL25/25M	SSAMHL25/25M	25	26.4mm	21.0mm	110mm	25	25
SAMHL32/25M	SSAMHL32/25M	32	33.1mm	26.7mm	144mm	25	25
SAMHL40/25M	SSAMHL40/25M	40	41.8mm	35.4mm	180mm	25	25
SAMHL50/25M	SSAMHL50/25M	50	47.5mm	40.4mm	240mm	25	25
SAMHL63/25M	SSAMHL63/25M	63	59.7mm	51.6mm	345mm	25	25

Note: Conduit is fully cleanable and will maintain full ingress protection under normal wet cleaning conditions with associated fittings.

Type SAMHL

Approvals	IP rating	Appropriate fitting	Temperature range	UV resistance
   NSF 14159-1-2014 NSF 169-2009	For use with: Type SPL, SSPL and SAM		Static applications: -50°C to +130°C	-
	IP66	Type M, C45 & C90	Moving applications: -5°C to +150°C	
	IP67	Type A, B, M, C45 & C90	Flexibility & fatigue life	High flexibility - High fatigue life
	IP68	Type M, C45 & C90 (10 bar 30mins)	Fire Performance & EMI Screen	Self extinguishing
	IP69	Type M, C45 & C90		

Type SSAMHL

Approvals	IP rating	Appropriate fitting	Temperature range	UV resistance
   NSF 14159-1-2014 NSF 169-2009	For use with: Type SPL, SSPL and SAM		Static applications: -50°C to +130°C	-
	IP66	Type M, C45 & C90	Moving applications: -5°C to +150°C	
	IP67	Type A, B, M, C45 & C90		
	IP68	Type M, C45 & C90 (10 bar 30mins)		
	IP69	Type M, C45 & C90		

Anti-microbial metallic conduit systems

Type SAM for SAMHL series conduit

Single piece, liquid tight, high temperature Stainless Steel fitting suitable for indoor splash zone areas or food processing equipment

Features

- Unique single piece design
- 316 Stainless Steel
- Face seal materials adhere to FDA (Food and Drug Administration) and European Food Contact regulations
- IP67, IP68 & IP69 protection
- Approvals CE, BS EN 61386-1,-23, NSF14159-1-2014, NSF169-2009, UL514b
- Multiple thread type Metric/NPT

Fittings for SAMHL series conduit

METRIC Order code	Conduit size		Nominal Dimensions							Weight (g)
	METRIC (mm)	US (NPT)	B	C	D	E	F	G

— **Conduit cutting tool**

Order code	Features
CUT-VICE	Cut-vice offers the ability to produce a clean cut for conduit sizes 16mm to 40mm.
	Place the conduit along the vice body and tighten the clamp. Holding the conduit and integral handle together, insert a hacksaw blade into the guide and cut. For braided conduit, wrap adhesive tape around the cutting point to secure braid. Remove tape after cutting.

— **Locknuts**

	Order code	Mounting thread	Across flats hexagon (mm)	Inner carton pack quantity

General purpose nylon cable glands

NSG Series

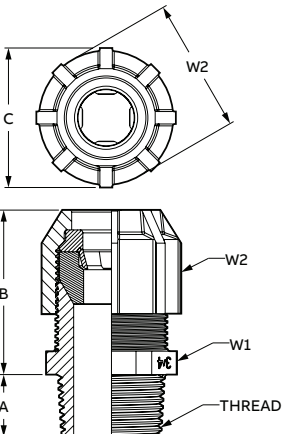

Features and benefits:

- Large cable clamping range
- Liquid tight mechanical grip
- Full length bushing seal, protects cable
- Corrosion resistant

NSG Series - Ranger® nylon cable gland

NPG Quick-Connect™

Cable glands

ABB's latest cable gland offering, the NPG Quick-Connect™, allows for fast and effective fitting without access to the inside of an enclosure, greatly speeding installation. The speed and ease of installation makes the NPG ideal for panel builders and volume installers of all types.

NPG Quick-Connect™ is a single-piece, corrosion resistant nylon gland suitable for non-armored, portable and tray cable types. When installed, the NPG achieves ingress protection of IP66 or IP68 (5 bar 30 mins).

Quick-Connect™ - NPG Series - Nylon cable gland

Approvals & certifications		Conformity Conforms to:
		EN 62444
		UL514B (see table for details)
		CSA C22.2 No 18.3
Temperature range		
Normal Use: -20°C to +100°C (-4°F to +212°F)		
Short Term: -30°C to +150°C (-22°F to +302°F)		
IP Rating		Material
IP66		Halogen free nylon (PA6) construction
IP68 (5-Bar 30 mins)		
Available in black, grey, and light grey		
Chloroprene seals		

Under normal use, NPG Quick-Connect™ glands are rated to perform from -20°C to 100°C (-4°F to 212°F), but in shorter bursts can withstand -30°C to 150°C (-22°F to 302°F).

Spec-Kon® lugs

Copper/Straight – one hole type

Technical information

Application

- Copper tin plated Metric Compression Lug for power cables for rated voltage up to 36kV. From 6 to 400mm²
- Specially designed to accommodate both stranded (class 2) and flexible (class 5) power cables according to IEC 60228

Characteristics

- Straight – one hole lug with die code marking to assist installation work and inspection
- Hole inspection to ease installation control
- Chamfer barrel to assist installation work

Material: Copper. Comply to EN13600

Surface: Tin plated

Certification: Comply to IEC 61238 - CE declaration

Ty-Rap® High Performance Cable Ties

Ty-Rap® Product code structure

Note: Nylon (Polyamide) is inherently susceptible to environmental conditions. Ty-Rap® cable ties are moisturised to optimum performance levels at machine-side and should be stored in cool dry areas out of direct sunlight. Cable ties are packaged in plastic bags to contain moisture and should remain sealed until ready for use.

Polyamide 6.6 cable ties - UV-resistant black - Euroslot packaging

Ty-Rap® High Performance Cable Ties

01 Ty-Rap® High Performance Cable Ties

Characteristics

- UV-resistant version, especially recommended for outdoor applications
- Black version (2% carbon for military specifications)
- Packaging in small polythene bags with Euroslot, ideal for display and point-of-sales promotion (rack)
- Several lengths and 6 typical widths with a tensile strength up to 780N, to cover the most demanding applications
- Very convenient for small series production: 100 pieces (for cable ties from 2.4 mm to 4.8 mm width) or 50 pieces (for cable ties 6.9 mm width and above)

Technical Information

- Material - Moulding: Polyamide 6.6
- Material - Locking barb: 316 grade stainless steel
- Temperature range: -40°C to +105°C
- Colour: See colour chart below
- Flammability rating: UL 94 V-2
- Other properties: Halogen free, Silicone free

*Product References TY5234M, TY5275M, TY5277M and TY529M have no Euroslot

01

For cable ties in a specific colour, replace * in the Product Reference by the colour code:

0 = black, 1 = brown, 2 = red, 3 = orange, 4 = yellow, 5 = green, 6 = blue, 7 = purple, 8 = grey and 9 = white

For example: TY23M-1 defines a brown TY23M cable tie. Contact your Sales Office for product availability.

** For smaller quantities, the figure "5" needs to be added to the order code immediately after "TY" - example: TY523M-2 is the same as TY23M-2 but in bags of 100

** Some approvals may not be applicable to all the Product References. Contact your Sales Office for approvals limitations.

All plastic cable ties

Ty-Rap® Product code structure

Note: Nylon (Polyamide) is inherently susceptible to environmental conditions. Ty-Rap® cable ties are moisturised to optimum performance levels at machine-side and should be stored in cool dry areas out of direct sunlight. Cable ties are packaged in plastic bags to contain moisture and should remain sealed until ready for use.

Standard cable ties

All-plastic cable ties

01 All-plastic cable ties

Characteristics

State-of-the-art robotic and raw material handling equipment assures product and material integrity throughout the manufacturing process.

- The integrally formed Polyamide pawl combines low insertion and high locking strength
- A rounded, low-profile head makes for less snags
- Tails have improved two-sided finger grip design that helps the operator grasp and pull ties snug
- Sure Grip tab keeps the tail from popping out while being threaded, then holds it securely for final tightening by hand or tool
- Quick and easy pull through increases productivity, reduces operator fatigue

Technical Information

- Material: Polyamide 6.6 (*)
- Temperature range: -40°C to +85°C
- Colour: Natural as standard colour (*)
- Approvals: MIL: MS 3367-x (see table)
- Flammability rating: UL 94 V-2
- Other properties: Halogen free, Silicone free

Ty-Met™ Stainless steel cable ties

Ball-Lock type – Standard widths, uncoated

—
01 Stainless steel
cable ties

Characteristics

The Ball-Lock Type stainless steel ties from ABB are self-locking, requiring no time consuming crimping or folding operations.

- Strong self-locking mechanism (stainless steel ball), with low insertion force
- Fast, easy and reliable installation
- Heavy-duty version (12 mm & 16 mm of width), for extreme applications, indoor and outdoor
- Uncoated version, suitable for high temperature environments
- Corrosion resistant 316 grade stainless steel (marine grade) for high mechanical and chemical durability

- Applications: installation of cables and pipes in extreme conditions and hazardous areas, such as: petrochemical and food processing industries, power stations, mining, shipbuilding, offshore and other aggressive environments

Technical Information

- Material:
 - A: 304 grade non-magnetic stainless steel
 - B: 316 grade non-magnetic stainless steel
- Temperature range: -40°C to +300°C
- Colour: Metallic
- Flammability rating: Absolutely fireproof
- Other properties: UV-resistant

Ty-Met™ Standard cable ties

Stainless steel cable ties

—
01 Stainless steel
cable ties

Characteristics

The Ball-Lock Type stainless steel ties from ABB are self-locking, requiring no time consuming crimping or folding operations.

- Strong self-locking mechanism (stainless steel ball), with low insertion force
- Fast, easy and reliable installation
- Heavy-duty version (12 mm & 16 mm of width), for extreme applications, indoor and outdoor
- Uncoated version, suitable for high temperature environments
- Corrosion resistant 316 grade stainless steel (marine grade) for high mechanical and chemical durability

- Applications: installation of cables and pipes in extreme conditions and hazardous areas, such as: petrochemical and food processing industries, power stations, mining, shipbuilding, offshore and other aggressive environments

Technical Information

- Material: 316 grade non-magnetic stainless steel
- Temperature range: -80°C to +300°C
- Colour: Metallic
- Flammability rating: Absolutely fireproof
- Other properties: UV-resistant

Naveo®Pro

The emergency lighting inspection and maintenance solution

The Naveo®Pro inspection and maintenance system provides a digital overview via the cloud – providing ready information to assist resource planning and enhance building safety. This information can be processed directly using a mobile device.

— 01 The ABB Ability™ platform is an integrated Internet platform and cloud infrastructure.

In practice, this will save you time on collecting and entering information. Utilising the ABB Ability™ platform gives you integrated cyber security for safety and reliability, enables better maintenance planning, and reduces operating costs.

Overview in inspection and maintenance

In practice, ongoing inspection, maintenance and testing of emergency lighting is a time-consuming process with a great deal of work that has to be carried out regularly during every year that the installation is in place. These costs can be out weighed with a centralised automatic test system.

With Naveo®Pro you can concentrate on what matters: letting your emergency lighting luminaire system manage itself and reduce the amount of time monitoring it. This will quickly save you a considerable amount of money on maintenance time, allowing you to focus on problems quickly and as they happen. In figures, this could have potential savings of up to 30% on costs each and every year.

An overview of the advantages

- Inspection and maintenance software for mobile device
- Save time in planning maintenance ahead
- 24/7 overview of all monitored buildings via google maps
- Save administration time with on-site data entry using your mobile app
- Status alerts pushed to your mobile device
- Automatic list of (replacement) parts, including article numbers
- Ensuring that intended design of the emergency lighting installation is never compromised
- Documents can be used to prove safety of building to insurance companies, e.g. Liability and Buildings Insurance

Share information with your service team
All-in-one tool for Naveo®Pro users

ABB Ability™ enables Intelligent Buildings
ABB Ability™ connects our customers to the power of the Internet of Things and, through our services and expertise, goes further by turning data insights into the direct action that "closes the loop" and generates customer value in the physical world.

01 The Naveo®Pro architecture for emergency lighting consists of three tiers; emergency lighting luminaires, the ABB gateway and the cloud.

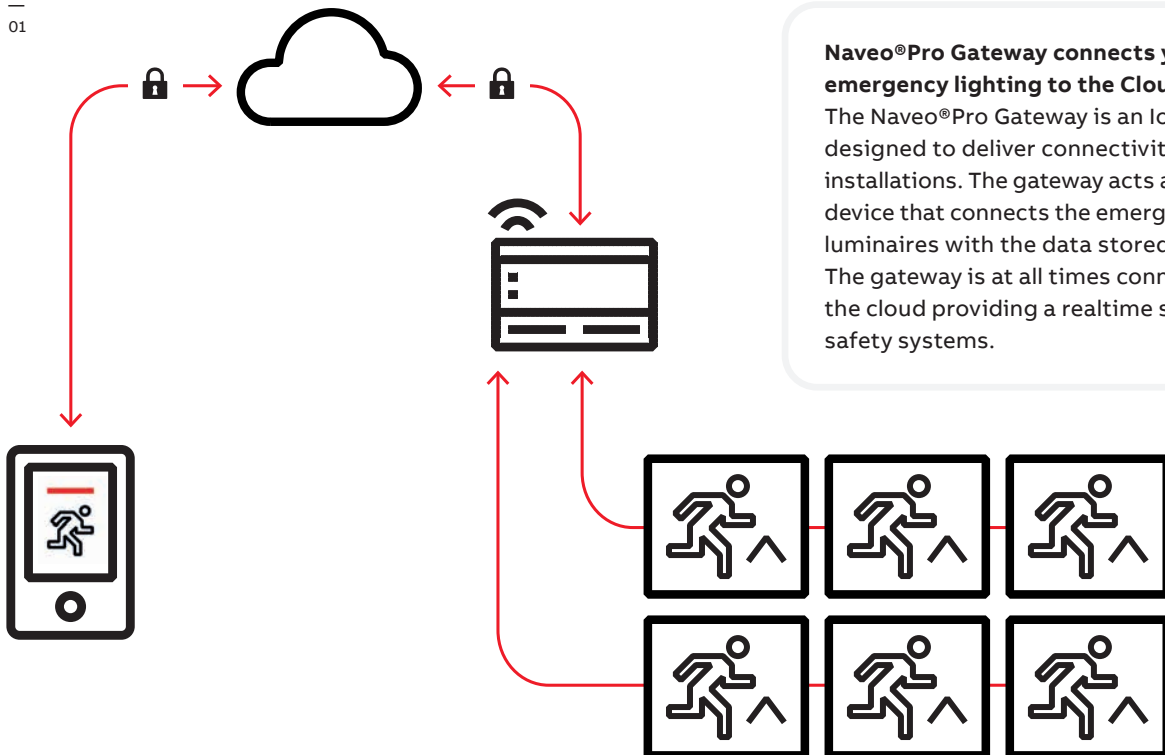

Connecting your emergency lighting luminaires to the ABB gateway is simple and makes real time system status information readily available and easy to process via the cloud. Having this information enables you to get status directly to your mobile device. This method of accessing controlling, and monitoring the status of your installation, makes maintenance of your installation a great deal easier.

How does it work?

With Naveo®Pro being connected all the time, your emergency lighting system is always fully up to date. You can easily set up the connection:

- The Gateway continuously receives all luminaires data and pushes this information to the Naveo®Pro app.
- On continuous request from the cloud the Gateway automatically sends all (test) data to the Naveo®Pro app. With Naveo®Pro you are therefore constantly in touch with your system status anytime and anywhere.
- During a visual inspection of your building you can add notes directly into the app which means you can record your visual risk assessments in one place.

01

Naveo®Pro Gateway connects your emergency lighting to the Cloud
 The Naveo®Pro Gateway is an IoT Gateway designed to deliver connectivity to all types of installations. The gateway acts as a networking device that connects the emergency lighting luminaires with the data stored in the cloud. The gateway is at all times connected to the cloud providing a realtime status of your safety systems.

* Up to 500 luminaires per gateway.

The Naveo®Pro app

Set up, maintain and fully control your entire emergency lighting installation with a new mobile app.

The Naveo®Pro App provides a real time overview of all systems, saving time, enabling better maintenance planning and enhancing building safety.

With the Naveo®Pro app, all types of emergency luminaires can be easily installed and programmed into a building in a fast and intuitive way using a QR code.

Through the ABB Ability™ platform, the system provides a digital overview via the cloud, giving instant information to assist resource planning and enhance building safety, which can be processed directly from a mobile device.

With emergency luminaire data stored in the cloud, the mobile app provides a 24/7 overview of all smart monitored buildings via Google maps. Building maps can be uploaded and overlaid onto Google maps, showing its current status and providing a clear and precise location of the emergency lighting luminaire.

Set-Up
Easily install and add new devices to your building through a list or map

Maintain
Defective devices are automatically detected and reported on your interface in addition to push notifications

Test
Run test instantly or program them to ensure that all your devices are working properly

Share
Easily share the results of tests with other people on your team

Maintained and non maintained

Lutia

Reliable and Robust

Ceiling and wall mounted luminaire

- First-fix and loop-in, loop-out systems minimise installation time
- One product concept for both wall and ceiling mounted
- Robust design developed for outdoor applications
- Complies to IEC 60598.2.22

Luminaire

Indulux escape route signalisation

Industrial and design

All-in-one tubular emergency lighting

- Mounting, wiring and expanded flexibility
- Stainless steel solution resisting dust and water (IP68)
- Rapid maintenance with sliding electronic base module

Central battery

Reliable emergency power solutions

Our Central Power Supply Systems division offers a choice of reliable and high quality products which are designed to meet the relevant standards and specifications for both AC/AC and AC/DC applications.

02

—
01 EMEX 110
—
02 EMEX Mini

EMEX – AC/AC Static inverter range: 220-230V 50/60Hz, 400V. 3ph 50/60Hz

Static inverters in this range are true passive stand-by emergency lighting units, designed and built to exceed current emergency lighting standards and technical requirements, something with which most UPS based central power products do not comply. EMEX Power, EMEX TS static inverters and EMEX Mini power systems offer a low maintenance and extremely reliable central power supply solution with low running costs and a high degree of functionality to serve individual customer needs.

- Modular design, which makes maintenance or repair a simple task
- Manufactured in the UK
- Normal mains luminaires with electronic starters/high frequency ballasts may be driven by the system (glow wire starters cannot be used in accordance with BS EN 60598.2.22)
- Ideal for task lighting projects where normal (high) lighting levels are required to minimise business disruption

- High efficiency: Low running cost. This AC/AC type of system has been designed for an inherently long service life with associated significant cost benefits over alternative emergency lighting solutions
- Cost conservancy and design:
 1. Ventilation fan life is maximised, as they will only operate when required, during 'battery charge' or 'inverter active' cycles
 2. Battery life conserved by a temperature compensated constant voltage charger circuit in conjunction with passive stand-by inverter operation
- Functional features include sub-circuit monitoring, final exit input, MCB monitoring, M/NM operation (user selectable), fire alarm input and two volt-free common alarm outputs
- MCB protection devices are used throughout the equipment, eliminating the need for fuse spares
- Digital display for battery and output metering V & I
- Fully compliant with EN 50171
- EMEX TS includes integral touch-screen with EMEX Test capability

BS EN 50171
KM542294

The 'EMEX Power' and 'EMEX TS' static inverters, 'EMEX 110' AC/DC and 'Compact Power' product ranges are manufactured in our Leeds facility, supported by an experienced engineering, sales and commissioning team:

Overview

Presence detectors

Presence detectors 230 V

Compact devices for almost every application.

Busch-Watchdog Presence tech

Versatile due to modular construction.

Busch-Watchdog Presence tech BasicLINE

For small offices, toilets, pass-through areas and dedicated applications.

Busch-Presence detectors KNX

Expertise always works. Almost unnoticed.

Technical data

Presence detectors 230 V

Technical details

The Busch-Presence detectors consist of two parts lens and 4 PIR sensors. The maximum detection range depends on the mounting site and ambient conditions.

— Detection system of conventional movement detectors

— Busch-Presence detection system

There is no better way.

The detection system consisting of four sensors and mirrors is far superior to conventional movement sensors. Even the smallest movement is reliably detected and triggers a response.

Wiring accessories

Millenium wiring accessories

—
01 ST - Stainless Steel
02 SB - Silk Black
03 MG - Matt Gold
04 AG - Antique Gold

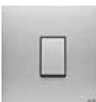

Millenium offers high quality complete sets. Each unique reference contains mechanism, frame and mounting plate; making easier the ordering, handling and installation. A reliable and complete collection with all functionality at first sight.

Millenium offers a wide and elegant choice of finishes in stainless steel AISI 304 material: from the Brush Stainless Steel, to the soft new touch given by the Silk Black, and the luxury of the sophisticated gold finishes, Matt Gold and Antique Gold.

Royce Thompson

Photo-electronic controls

Royce Thompson continue to lead the way with our range of Photo Electric Controls

—
01 Oasis 2000
—
02 Microstar 2000

Royce Thompson has been at the forefront of the photo-electronic street lighting and amenity controls market since 1963.

With our extensive experience, Royce Thompson has given street and amenity lighting engineers the 'fit and forget' products that they know and trust. After all, they want to know they have products that will ensure years of exceptional performance on key transport, infrastructure and road network projects nationwide.

—

We have continually focused on high quality and reliability, long service life and delivering goods to our customers on time whilst providing value and a service you can trust.

Today's street lighting engineers agree that a photo-electronic control located many metres in the air on street or amenity architecture must be reliable and high quality. After all, who wants to have to replace or repair products that cannot meet the service lifetime of the luminaires they are controlling. Royce Thompson photo-electronic controls ensure peace of mind and the knowledge that their superior performance mean no expensive returns have to be undertaken to replace failed equipment.

Royce Thompson Photocells

A Photo-Electronic control unit or photocell is an electronic switch that is triggered according to a specific light level measured on the Lux scale. With our electronic or microprocessor technology, photocells operate in a number of ways depending on the level of accuracy required.

258	The range
273	Door entry systems
274	ABB-tacteo® KNX
276	ABB i-bus® KNX
284	ABB secure@home

For more detailed product information, please refer to our online technical brochures available at: new.abb.com/low-voltage/support/documentation

or contact our sales team via email LV.enquiries@gb.abb.com

or call 0333 999 9933

Just as you like it.

The Smart Home.

The perfect daily routine. With ABB-free@home[®], the entire home can be controlled not only with switches, but now even more practically: by smartphone or tablet and via touch or voice control. This allows home automation to be managed in a way that's mobile and smart, precise and flexible. For example, if the light atmosphere needs to be changed, tapping on the touchscreen or a simple voice command moves the blinds or changes the colours of the lights. Experience the future of smart living today.

Communicative and competent.

The ABB partner close to you.

Advice and assistance close to you. Your electrician will be happy to explain to you in detail the advantages of ABB-free@home® in a face-to-face discussion. This will allow home automation to be planned to suit your individual requirements.

free@home
for iOS

free@home
for Android

The ABB-free@home® app

The activation of the voice control in the ABB-free@home® app suffices to control the climate, lights and safety in the entire house via voice input: "Switch on the lamp in the living room", "Move all the blinds up", and whatever else you wish, without having to learn special commands, without laborious configuration. The previously defined names of rooms, floors and devices continue to be used without interruption. Everything remains in the one system for the future.

The range

Modularity makes everything possible

System Access Point 2.0

Article no.	SAP/S.3
Description	For commissioning and remote control of the ABB-free@home® system. With integrated free@home wireless antenna. With integrated free@home bus connection. Allows the execution of astro and time programs. Commissioning and remote control is executed via web interface or app. No additional commissioning software is required. Easy commissioning with WLAN ad-hoc mode. Connection to the home network via WLAN client mode or via CAT cable.
Dimensions (H × W × D)	107 mm × 109 mm × 30 mm
Technical data	Display elements: LED for status display Nominal voltage: 230 V~ Rated frequency: 50 Hz/60 Hz Protection type of device: IP 20

ABB-free@homeTouch 7"

black: DP7-S-625 white: DP7-S-611
In indoor video station with 17.8 cm (7") touch display for ABB-free@home® and ABB-Welcome. For the central control of up to 16 configurable functions and display of the video image of an ABB-Welcome outdoor station. SD card slot for extension of the picture memory. Suitable as room temperature controller extension unit. For surface mounting.
155 mm × 218 mm × 29 mm
Display size: 17.8 cm (7") Display resolution: 800 × 480 Display elements: TFT touch display Protection type of device: IP 30

ABB-free@homeTouch 4.3"

Article no.	black: DP4-1-625 white: DP4-1-611
Description	For the central control of up to 16 configurable ABB-free@home® functions. For the display of configurable system messages. A configurable primary function can be triggered with a multi-touch gesture. Capacitive touch screen with closed glass surface. With integrated room temperature controller and temperature sensor. In connection with temperature sensor DP4-T-1 the integrated room temperature controller can be fitted with a remote sensor. Suitable as room temperature controller extension unit (up to 8).
Dimensions (H × W × D)	104 mm × 143 mm × 53 mm
Technical data	Display size: 10.9 cm (4.3") Display resolution: 480 × 854 Mounting height: 8 mm Display elements: 1 LCD display Bus voltage: 24 V~ Protection class (Device): IP 30

Installation box, FM

DP4-F
For flush-mounted and hollow-wall installation of the ABB-free@homeTouch 4.3" DP4-1-6XX. Windproof.
82 mm × 123 mm × 50 mm
Mounting depth: 50 mm

Temperature sensor

DP4-T-1
For use as remote sensor.
Cable length: 4 m
Line type: H03 VV-F Type: NTC 10 kohm

wireless

wireless

	External Antenna	Basic free@home radiator thermostat, wireless
Article no.	SAP-1-WL	HA-S-1-WL
Description	To be used in combination with System Access Point SAP-S-2 and SAP/S.3. Transmits the wireless signal outside, in case the internal antenna of the System Access Point is shielded. With magnetic foot.	For temperature regulation of water-bearing heaters. With integrated temperature sensor, controller and actuating drive. Local operation for the switchover between comfort mode and Off. No wire laying required. Communication with the free@home system is carried out wireless. Setpoint adjustment via the free@home app or a free@home extension unit (e.g. XXXXXXX). Integrated "Window open" detection or can be linked with WBI-S-X-W
Dimensions (H x W x D)	cable lengths: 1.5 m	63 mm x 48 mm x 84 mm
Technical data		With lime protection function. With frost protection function. Noiseless running. Installation with sleeve nut M 30 x 1.5. Fits many popular valve bases (e.g. Braukmann, Heimeier, Honeywell, Junkers, MNG). The adapters for Danfoss RAV, Danfoss RA and Danfoss RAVL are included in the scope of supply. Adapters for additional valves are available as accessories. Battery included in scope supply. Battery type: 2 x AA Protection class (Device): IP 20

wireless

	Comfort free@home radiator thermostat, wireless	Valve adapter Herz
Article no.	HA-S-2-WL	AC-HA-1
Description	For temperature regulation of water-bearing heaters. With integrated temperature sensor, controller and actuating drive. Local operation for the switchover between comfort mode and Off. No wire laying required. Communication with the free@home system is carried out wireless. Setpoint adjustment via the free@home app or a free@home extension unit (e.g. XXXXXXX). Integrated "Window open" detection or can be linked with WBI-S-X-WL.	Metal adapter for installation radiator thermostat. (HA-S-X-WL). For valve bodies Herz M 28 x 1,5.
Dimensions (H x W x D)	63 mm x 48 mm x 84 mm	
Technical data	With lime protection function. With frost protection function. Noiseless running. Installation with sleeve nut M 30 x 1.5. Fits many popular valve bases (e.g. Braukmann, Heimeier, Honeywell, Junkers, MNG). The adapters for Danfoss RAV, Danfoss RA and Danfoss RAVL are included in the scope of supply. Valve adapter Herz

Article no. AC-HA-1

Description Metal adapter for installation radiator thermostat. (HA-S-X-WL). For valve bodies Herz M 28 x 1,5.

Valve adapter Orkli

Article no. AC-HA-3

Description Metal adapter for installation radiator thermostat. (HA-S-X-WL). For valve bodies Orkli M 28 x 1,0.

wireless

free@home window sensor, wireless

Article no. studio white matt : WBI-S-1-64-WL
basalt black : WBI-S-1-65-WL
stainless steel : WBI-S-1-66-WL

Description For monitoring and transmission of the current window handle position (window open, closed, tilted). The status can be visualized on the free@home panel and in the free@home app. The window sensor is installed between the available window handle and the window frame. Existing window handle is used. Suitable for window handle: 7 mm square fastener, 43 mm attachment screw separation, lifter dia. 10 and 12 mm, max. mounting plate size 34 x 77 mm (WxH). No wire laying required. Mounting accessories (square extension, screws, adapter for cams) for the window sensor are included in scope of delivery.

Dimensions (H x W x D) 168 mm x 38 mm x 13 mm

Technical data Battery included in scope supply. Battery type: CR2
Notification in case of low battery capacity in the free@home app.
Protection class (Device): IP 43

wireless

free@home universal detector, wireless

Article no. studio white matt: BI-S-1-64-WL
basalt black: BI-S-1-65-WL

Description For monitoring and transmission of the state (open, closed) of dormer windows, skylights, doors and gates. Additional connection option for an external, potential-free sensor (choice of normally closed or normally open contact). The status can be visualized on the free@home panel and in the free@home app. Isolated evaluation and monitoring of channels. The universal detector and the magnets are fixed with adhesive film or screws. Accessories (adhesive foil, screws, magnet) included in delivery.

Dimensions 118 mm x 30 mm x 22 mm

Technical data Battery type: CR2
Notification in case of low battery capacity in the free@home app.
External sensor max. wire length: 5 m
External sensor terminal connection diameter: 0.14...0.5 mm² (single wire)
Protection class (Device): IP 43

Colour options for frames and cover plates
Millenium

Colour	Code (c)	Colour	Code (c)
anthracite	AN	matt gold	MG
antique gold	AG	silk black	SB
brushed stainless steel	ST		

Available symbols for push buttons

Symbol	Code (i)	Colour	Code (i)

Blind	B		

Cover plate for 2 fold push buttons incl neutral symbols

Article no. SR-2-AMAN

Description As cover for ABB-free@home® 1/2gang switches of Millenium Range.

Dimensions (H x W x D) 44 mm x 44 mm

Cover plate for 4 fold push buttons incl neutral symbols

SR-4-AMAN

As cover for ABB-free@home® 2/4gang switches of Millenium Range.

44 mm x 44 mm

Cover Plate for Movement Detector

Article no. CP-MD-AMAN

Description As cover for ABB-free@home® movement detector of Millenium Range.

Dimensions (H x W x D) 44 mm x 44 mm

Cover Plate for Room Temperature Controller

CP-RTC-AMAN

As cover for ABB-free@home® room thermostat RTC-F-1.PB.

44 mm x 44 mm

Square Frame, Millenium

Article no. AMD5144-**c**

Description As frame for ABB-free@home® sensors and rockers of Millenium Range, includes mounting frame: AMD5053.

Dimensions (H x W x D) 86 mm x 86 mm

Colours (**c**) AG, MG, SB, ST

Symbols (**i**)

Icon for Millenium Rockers

SBI-AMAN

Interchangeable icons for Millenium rockers, available with several icon design options (**i**) in colour anthracite.

Sensor/Switch actuator 1/1gang

Article no. SSA-F-1.1.PB.1

Description For switching 230 V~ devices. With 1 integrated switch actuator. Switching function is available pre-configured. Use with ABB-free@home® 2 fold push buttons.

Dimensions (H x W x D) 44 mm x 44 mm x 40.9 mm

Technical data Outputs: 1x normally open contact, potential free
Suitable for: resistive
Rated current: 10 A
Rated power: 2300 W
Suitable for: capacitive
Rated current: 10 AX
Protection class of device: IP 20
Mounting depth: 31.5 mm

Sensor/Switch actuator 2/1gang

SSA-F-2.1.PB.1

Description For switching 230 V~ devices. With 1 integrated switch actuator. Switching function is available pre-configured. Use with ABB-free@home® 4 fold push buttons.

44 mm x 44 mm x 40.9 mm

Outputs: 1x normally open contact, potential free
Suitable for: resistive
Rated current: 10 A
Rated power: 2300 W
Suitable for: capacitive
Rated current: 10 AX
Protection class of device: IP 20
Mounting depth: 31.5 mm

Sensor/Switch actuator 2/2gang

Article no. SSA-F-2.2.PB.1

Description For switching 230 V~ devices. With 1 integrated switch actuator. Switching function is available pre-configured. Use with ABB-free@home® 4 fold push buttons.

Dimensions (H x W x D) 44 mm x 44 mm x 40.9 mm

Technical data Outputs: 2x normally open contact, potential free
Suitable for: resistive
Rated current: 10 A
Rated power: 2 x 1200 W
Suitable for: capacitive
Rated current: 10 AX
Protection class of device: IP 20
Mounting depth: 31.5 mm

Sensor/Dim actuator 1/1gang

SDA-F-1.1.PB.1

Description For dimming 230 V~ loads. With integrated universal dimming actuator for controlling different lamps. The dimming function is available pre-configured. Use with ABB-free@home® 2 fold push buttons.

44 mm x 44 mm x 40.9 mm

Outputs: 1x dimming channel
Suitable for: 230 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformers
Rated power: 10–180 W/VA
Suitable for: LEDi and energy-saving bulbs
Rated power: 2–80 W/VA
Protection class of device: IP 20
Mounting depth: 31.5 mm

Sensor/Dim actuator 2/1gang

Article no. SDA-F-2.1.PB.1

Description For dimming 230 V~ loads. With integrated universal dimming actuator for controlling different lamps. The dimming function is available pre-configured. Use with ABB-free@home® 4 fold push buttons.

Dimensions (H x W x D) 44 mm x 44 mm x 40.9 mm

Technical data Outputs: 1x dimming channel
 Suitable for: 230 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformers
 Rated power: 10–180 W/VA
 Suitable for: LEDi and energy-saving bulbs
 Rated power: 2–80 W/VA
 Protection class of device: IP 20
 Mounting depth: 31.5 mm

Sensor/Blind actuator 1/1gang

SBA-F-1.1.PB.1

For controlling blind and awning motors. With integrated blind actuator. Blind function is available pre-configured. To be used with ABB-free@home® 2 fold push buttons.

44 mm x 44 mm x 40.9 mm

Outputs: 1x Change-over contacts/normally open contact, potential-bound
 Rated power: 920 VA
 Rated current: 4 A
 Suitable for: Operating mode blind
 Protection class of device: IP 20
 Mounting depth: 31.5 mm

Sensor/Blind actuator 2/1gang

Article no. SBA-F-2.1.PB.1

Description For controlling blind and awning motors. With integrated blind actuator. Blind function is available pre-configured. To be used with ABB-free@home® 4 fold push buttons.

Dimensions (H x W x D) 44 mm x 44 mm x 40.9 mm

Technical data Outputs: 1x Change-over contacts/normally open contact, potential-bound
 Rated power: 920 VA
 Rated current: 4 A
 Suitable for: Operating mode blind
 Protection class of device: IP 20
 Mounting depth: 31.5 mm

Room Temperature Controller

RTC-F-1.PB

Room temperature control function for controlling commercially available valve drives or analogue valve drives (continuous controllers). With display of set-value temperature. Only to be used with ABB-free@home® Zenit cover plates for room thermostat.

44 mm x 44 mm x 29.4 mm

Display elements: LCD Display showing operation modes Protection class of device: IP 20
 Mounting depth: 17.9 mm

Room temperature controller

Article no. RTC-F-2.1-1.PB-WL

Description Room temperature control function for controlling commercially available valve drives or analogue valve drives (continuous controllers). With display of set-value temperature. Only to be used with ABB-free@home® Zenit cover plates for room thermostat.

Dimensions (H x W x D) 44 mm x 44 mm x 29.4 mm

Technical data Display elements: LCD Display showing operation modes
Protection class of device: IP 20
Mounting depth: 17.9 mm

Sensor unit 1gang

SU-F-1.0.PB.1

For sending switching, dimming and blind commands to an ABB-free@home® actuator. To be used with ABB-free@home® 2 fold push buttons.

44 mm x 44 mm x 23.5 mm

Control element: Switch contacts top/ bottom
Display elements: LED as light for orientation or display of switching state
Protection class of device: IP 20
Mounting depth: 14.1 mm

Sensor unit 2gang

Article no. SU-F-2.0.PB.1

Description For sending switching, dimming and blind commands to an ABB-free@home® actuator. To be used with ABB-free@home® 4 fold push buttons.

Dimensions (H x W x D) 44 mm x 44 mm x 23.5 mm

Technical data Control element: Switch contacts top/ bottom
Display elements: LED as light for orientation or display of switching state
Protection class of device: IP 20
Mounting depth: 14.1 mm

Movement detector + 1 actuator

MSA-F-1.1.PB.1

With select lens for detection with animal access. Including an integrated actuator for switching 230 V~ devices. To be used with ABB-free@home® Zenit cover plates for movement detector.

44 mm x 44 mm x 47 mm

Outputs: 1x normally open contact, potential free
Suitable for: resistive
Rated current: 10 A
Rated power: 2300 W
Suitable for: capacitive
Rated current: 10 AX
Detection range: frontal 6m, lateral 3m
Detection angle: 180°
Brightness limit value: 1 – 500 lux
Protection class of device: IP 20
Mounting depth: 31.5 mm

Movement detector

Article no. MD-F-1.0.PB.1

Description With select lens for detection with animal access. For automatic switching of ABB-free@home® actuators dependent on movement and brightness. To be used with ABB-free@home® Zenit cover plates for movement detector.

Dimensions (H x W x D) 44 mm x 44 mm x 29.6 mm

Technical data Detection range: frontal 6 m, lateral 3 m
Detection angle: 180°
Brightness limit value: 1 – 500 lux
Protection class of device: IP 20
Mounting depth: 14.1 mm

wireless

Sensor/Switch actuator 1/1gang, wireless

Article no. SSA-F-1.1.PB.1-WL

Description For switching 230 V~ devices. With integrated actuator. Switching function is available pre-configured. To be used with ABB-free@home® Zenit cover plates for 2 fold push buttons.

Dimensions (H x W x D) 44 mm x 44 mm x 40.9 mm

Technical data Outputs: 1x normally open contact, potential free
Suitable for: resistive
Rated current: 10 A
Rated power: 2300 W
Suitable for: capacitive
Rated current: 10 AX
Protection class of device: IP 20
Mounting depth: 31.5 mm

wireless

Sensor/Switch actuator 2/1gang, wireless

Article no. SSA-F-2.1.PB.1-WL

Description For switching 230 V~ devices. With integrated actuator. Switching function is available pre-configured. To be used with ABB-free@home® Zenit cover plates for 4 fold push buttons.

Dimensions (H x W x D) 44 mm x 44 mm x 40.9 mm

Technical data Outputs: 1x normally open contact, potential free
Suitable for: resistive
Rated current: 10 A
Rated power: 2300 W
Suitable for: capacitive
Rated current: 10 AX
Protection class of device: IP 20
Mounting depth: 31.5 mm

wireless

Sensor/Switch actuator 2/2gang, wireless

Article no. SSA-F-2.2.PB.1-WL

Description For switching 230 V~ devices. With integrated actuator. Switching function is available pre-configured. To be used with ABB-free@home® Zenit cover plates for 4 fold push buttons.

Dimensions (H x W x D) 44 mm x 44 mm x 40.9 mm

Technical data Outputs: 2x normally open contact, potential free
Suitable for: resistive
Rated current: 10 A
Rated power: 2 x 1200 W
Suitable for: capacitive
Rated current: 10 AX
Protection class of device: IP 20
Mounting depth: 31.5 mm

wireless

Sensor/Dim actuator 1/1gang, wireless

Article no. SDA-F-1.1.PB.1-WL

Description For dimming 230 V~ loads. With integrated universal dimming actuator for controlling different lamps. The dimming function is available pre-configured. To be used with ABB-free@home® Zenit cover plates for 2 fold push buttons.

Dimensions (H x W x D) 44 mm x 44 mm x 40.9 mm

Technical data Outputs: 1x dimming channel
Suitable for: 230 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformers
Rated power: 10–180 W/VA
Suitable for: LEDi and energy-saving bulbs
Rated power: 2–80 W/VA
Protection class of device: IP 20
Mounting depth: 31.5 mm

Sensor/Dim actuator 2/1gang, wireless

Article no. SDA-F-2.1.PB.1-WL

Description For dimming 230 V~ loads. With integrated universal dimming actuator for controlling different lamps. The dimming function is available pre-configured. To be used with ABB-free@home® Zenit cover plates for 4 fold push buttons.

Dimensions (H×W×D) 44 mm×44 mm×40.9 mm

 Technical data Outputs: 1× dimming channel
 Suitable for: 230 V incandescent lamps and low-voltage halogen lamps with conventional transformers or electronic transformers
 Rated power: 10–180 W/VA
 Suitable for: LEDi and energy-saving bulbs
 Rated power: 2–80 W/VA
 Protection class of device: IP 20
 Mounting depth: 31.5 mm

Sensor/Blind actuator 1/1gang, wireless

Article no. SBA-F-1.1.PB.1-WL

Description For controlling blind and awning motors. With integrated blind actuator. Blind function is available pre-configured. To be used in combination with ABB-free@home® Zenit cover plates for 2 fold push buttons.

Dimensions 44 mm×44 mm×40.9 mm

 Technical data Outputs: 1× Change-over contacts/normally open contact, potential bound
 Rated power: 920 VA
 Rated current: 4 A
 Suitable for: Operating mode blind
 Protection class of device: IP 20
 Mounting depth: 31.5 mm

Sensor/Blind actuator 2/1gang, wireless

Article no. SBA-F-2.1.PB.1-WL

Description For controlling blind and awning motors. With integrated blind actuator. Blind function is available pre-configured. To be used with ABB-free@home® Zenit cover plates for 4 fold push buttons.

Dimensions (H×W×D) 44 mm×44 mm×40.9 mm

 Technical data Outputs: 1× Change-over contacts/normally open contact, potential-bound
 Rated power: 920 VA
 Rated current: 4 A
 Suitable for: Operating mode blind
 Protection class of device: IP 20
 Mounting depth: 31.5 mm

Room Thermostat, wireless

Article no. RTC-F-1.PB-WL

Description Room temperature control function for controlling commercially available valve drives or analogue valve drives (continuous controllers) in connection with HA-M-0.6.1, HA-M-0.12.1, FCA-M-2.3.1. With display of set-value temperature. To be used with ABB-free@home® Zenit cover plates for room temperature controller.

Dimensions 44 mm×44 mm×29.4 mm

 Technical data Display elements: LCD Display showing operation modes
 Protection class of device: IP 20
 Mounting depth: 17.9 mm

wireless

Room Thermostat, wireless

Article no. RTC-F-2.1-1.PB-WL

Description	Room temperature control function for controlling commercially available valve drives or analogue valve drives (continuous controllers) in connection with HA-M-0.6.1, HA-M-0.12.1, FCA-M-2.3.1. With display of set-value temperature. To be used with ABB-free@home® Zenit cover plates for room temperature controller.
Dimensions (H x W x D)	44 mm x 44 mm x 29.4 mm
Technical data	Display elements: LCD Display showing operation modes Protection class of device: IP 20 Mounting depth: 17.9 mm

wireless

Sensor unit 1gang, wireless

Article no. SU-F-1.0.PB.1-WL

Description	For sending switching, dimming and blind command to an ABB-free@home® actuator. To be used with ABB-free@home® Zenit cover plates for 2 fold push buttons.
Dimensions (H x W x D)	44 mm x 44 mm x 23.5 mm
Technical data	Control element: Switch contacts top/bottom Display elements: LED for orientation or switch state display Protection class of device: IP 20 Mounting depth: 14.1 mm

wireless

Sensor unit 2gang, wireless

Article no. SU-F-2.0.PB.1-WL

Description	For sending switching, dimming and blind command to an ABB-free@home® actuator. To be used with ABB-free@home® Zenit cover plates for 4 fold push buttons.
Dimensions (H x W x D)	44 mm x 44 mm x 23.5 mm
Technical data	Control element: Switch contacts top/bottom Display elements: LED for orientation or switch state display Protection class of device: IP 20 Mounting depth: 14.1 mm

wireless

Movement detector + 1 actuator, wireless

Article no. MSA-F-1.1.1-WL

Description	With select lens for detection with animal access. Including an integrated actuator for switching 230 V~ devices. To be used with ABB-free@home® Zenit cover plates for movement detector.
Dimensions (H x W x D)	44 mm x 44 mm x 47 mm
Technical data	Outputs: 1x normally open contact, potential free Suitable for: resistive Rated current: 10 A Rated power: 2300 W Suitable for: capacitive Rated current: 10 AX Detection range: frontal 6 m, lateral 3 m Detection angle: 180° Brightness limit value: 1 – 500 lux Protection class of device: IP 20 Mounting depth: 31.5 mm

Binary input 2gang

Article no. BI-F-2.0.1

Description Conventional push-buttons or auxiliary contacts can be connected to 2 channels. The information of the contact enquiry can be used for activating ABB-free@home® actuators or for recording status information. The contact polling voltage is made available from the binary input itself. Extension of the connecting cables possible by a maximum of 10 m. Flush-mounted device for installation in a 60 mm device box or distribution box.

Dimensions (H × W × D) 39 mm × 40 mm × 12 mm

Technical data Inputs: 2
Polling voltage: 20 V–
Protection type of device: IP 20

Binary input 4gang

Article no. BI-F-4.0.1

Description Conventional push-buttons or auxiliary contacts can be connected to 4 channels. The information of the contact enquiry can be used for activating ABB-free@home® actuators or for recording status information. The contact polling voltage is made available from the binary input itself. Extension of the connecting cables possible by a maximum of 10 m. Flush-mounted device for installation in a 60 mm device box or distribution box.

Dimensions (H × W × D) 39 mm × 40 mm × 12 mm

Technical data Inputs: 4
Polling voltage: 20 V–
Protection type of device: IP 20

Fan coil actuator, MDRC

Article no. FCA-M-2.3.1

Description For controlling blower convectors. Supports 2-pipe and 4-pipe system for heating and cooling. The fan speed levels can be switched using a changeover or step switch function. Three contacts for switching a three-stage fan. Two contacts for activating the heating and cooling valves. With two binary inputs for connecting dewpoint and condensation contacts. The scanning voltage is provided by the device. The bus connection is provided via the enclosed bus terminal.

Dimensions (H × W × D) 90 mm × 108 mm × 64 mm

Technical data Supports 24 V and 230 V valves
Outputs: 3x Normally open contact, potential free
Suitable for: AC3
Rated current: 6 A
Output voltage: 230 V~
Protection type of device: IP 20
Module width: 6 MW

Power supply

Article no. PS-M-64.1.1

Description Power supply with integrated choke. Fast diagnosis due to LED display for operational readiness and errors.

Dimensions (H × W × D) 90 mm × 72 mm × 64 mm

Technical data Display element: operating/overload LED
Nominal voltage: 230 V~, +10%/-15%
Secondary: 30 V, +2 V/-2 V
Rated frequency: 50 Hz/60 Hz
Outputs: 1
Nominal current: 640 mA
Protection type of device: IP 20
Module width: 4 MW

Binary input 4gang

Article no. BI-M-4.0.1

Description Records 10 to 230 V AC/DC signals via 4 channels. The information of the signal evaluation can be used for activating ABB-free@home® actuators or for recording status information.

Dimensions (H × W × D) 90 mm × 36 mm × 64 mm

Technical data Inputs: 4
Protection type of device: IP 20
Module width: 2 MW

Switch actuator 4gang

SA-M-0.4.1

For switching 4 independent 230 V~ loads. Each contact has a manual operation function independent of auxiliary voltage for additionally displaying the contact setting.

90 mm × 72 mm × 64 mm

Outputs: 4
Type of load: AC1
Nominal current: 16 A, at $\cos \phi$ 0.8
Output voltage: 230 V~
Type of load: AC3
Nominal current: 8 A, at $\cos \phi$ 0.45
Protection type of device: IP 20
Module width: 4 MW

Switch actuator 8gang

Article no. SA-M-8.8.1

Description The binary inputs can be used as an interface for convenient operation of free@home systems via potential free push buttons or for reading technical binary signals. The switching outputs can be switched independently as a function of other sensors connected to the bus.

Dimensions (H × W × D) 90 mm × 144 mm × 64 mm

Technical data Inputs: 8
Polling voltage: 32 V
Max. cable length: ≤100m
Outputs: 8
Suitable for: AC1
Rated current: 6 A, at $\cos \phi$ 0.8
Output voltage: 230 V~
Suitable for: AC3
Rated current: 6 A, at $\cos \phi$ 0.45
Protection class of device: IP 20
Module width: 8 MW

Blind actuator 4gang

BA-M-0.4.1

For controlling 4 independent blind or roller shutter drives. The outputs are inversely blocked.

90 mm × 72 mm × 64 mm

Outputs: 4
Type of load: AC3
Nominal current: 6 A, at $\cos \phi$ 0.45
Output voltage: 230 V~
Protection type of device: IP 20
Module width: 4 MW

Dimming actuator, 4gang

Article no.	DA/M.4.210.2.1
Description	Multichannel universal dimming actuator optimised for dimming retrofit LED lamps (LEDi). Also suitable for dimming incandescent lamps, low-voltage halogen lights with conventional or electronic transformers, 230 V halogen lamps and dimmable energy-saving halogen lamps. Automatic load detection (can be deactivated). Separate N-connection per channel. Parallel connection of the outputs possible to increase the output power. Outputs can be connected in parallel in any configuration. Minimum load: 2 W.
Dimensions (H x W x D)	90 mm x 108 mm x 64 mm
Technical data	Rated voltage: 110 - 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Outputs: 4x dimming channel Rated power: 2 - 210 W/VA Protection class (Device): IP 20 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 90 mm x 108 mm x 64 mm Mounting depth: 68 mm Module width: 6 MW

Dimming actuator, 6gang

Article no.	DA/M.6.210.2.1
Description	Multichannel universal dimming actuator optimised for dimming retrofit LED lamps (LEDi). Also suitable for dimming incandescent lamps, low-voltage halogen lights with conventional or electronic transformers, 230 V halogen lamps and dimmable energy-saving halogen lamps. Automatic load detection (can be deactivated). Separate N-connection per channel. Parallel connection of the outputs possible to increase the output power. Outputs can be connected in parallel in any configuration. Minimum load: 2 W.
Dimensions (H x W x D)	90 mm x 144 mm x 64 mm
Technical data	Rated voltage: 110 - 230 V~, +10 % / -10 % Rated frequency: 50 Hz - 60 Hz Outputs: 6x dimming channel Rated power: 2 - 210 W/VA Protection class (Device): IP 20 Temperature range (Device): -5 °C to 45 °C Dimensions: (L x W x D): 90 mm x 144 mm x 64 mm Mounting depth: 68 mm Module width: 8 MW

Heating actuator 12gang

Article no.	HA-M-0.12.1
Description	For controlling thermoelectric actuating drives in heating/cooling systems. The outputs are protected against short-circuit and overload.
Dimensions (H x W x D)	90 mm x 144 mm x 64 mm
Technical data	Outputs: 12 Type of load: resistive Nominal current: 160 mA Protection type of device: IP 20 Module width: 8 MW

Heating actuator 6gang

Article no.	HA-M-0.6.1
Description	For controlling thermoelectric actuating drives in heating/cooling systems. The outputs are protected against short-circuit and overload.
Dimensions (H x W x D)	90 mm x 72 mm x 64 mm
Technical data	Outputs: 6 Type of load: resistive Nominal current: 160 mA Protection type of device: IP 20 Module width: 4 MW

DOOR ENTRY SYSTEM

Your gateway to the world

ABB-Welcome

Your home is an expression of yourself. And with the ABB-Welcome system, you won't compromise impressive style for innovative technology. For Welcome is more than just a door video system – it is the future of home monitoring and security at your fingertips.

ABB-tacteo® KNX

The individual touch

Intelligent control that adapts to your individual needs.

Which functions do you need? Make a selection with our configurator.

The ABB-tacteo® KNX sensor is a capacitive control element for the intelligent building automation of high-end luxury hotels, offices and public and residential buildings.

ABB-tacteo® KNX meets all the requirements that a modern design demands – the highest levels of quality and above all comfort: from blinds, lighting and heating to media and access, everything is easy to control.

Are you an architect planning a building with maximum functionality and a personal touch? Do you desire a modern home that is as individual as you are? Design your KNX sensor with the ABB-tacteo® configurator, completely as you like. The number of functions is variable and can be determined according to your specific needs and wishes. Individually configured as required, each sensor is unique in design and function.

Product overview

You can find the complete product range online at abb.com/tacteo

Six symbol control element

86 × 86

Four symbol control element with room temperature control

86 × 157

86 × 115

Room outside sensor with card reader and room number

86 × 157

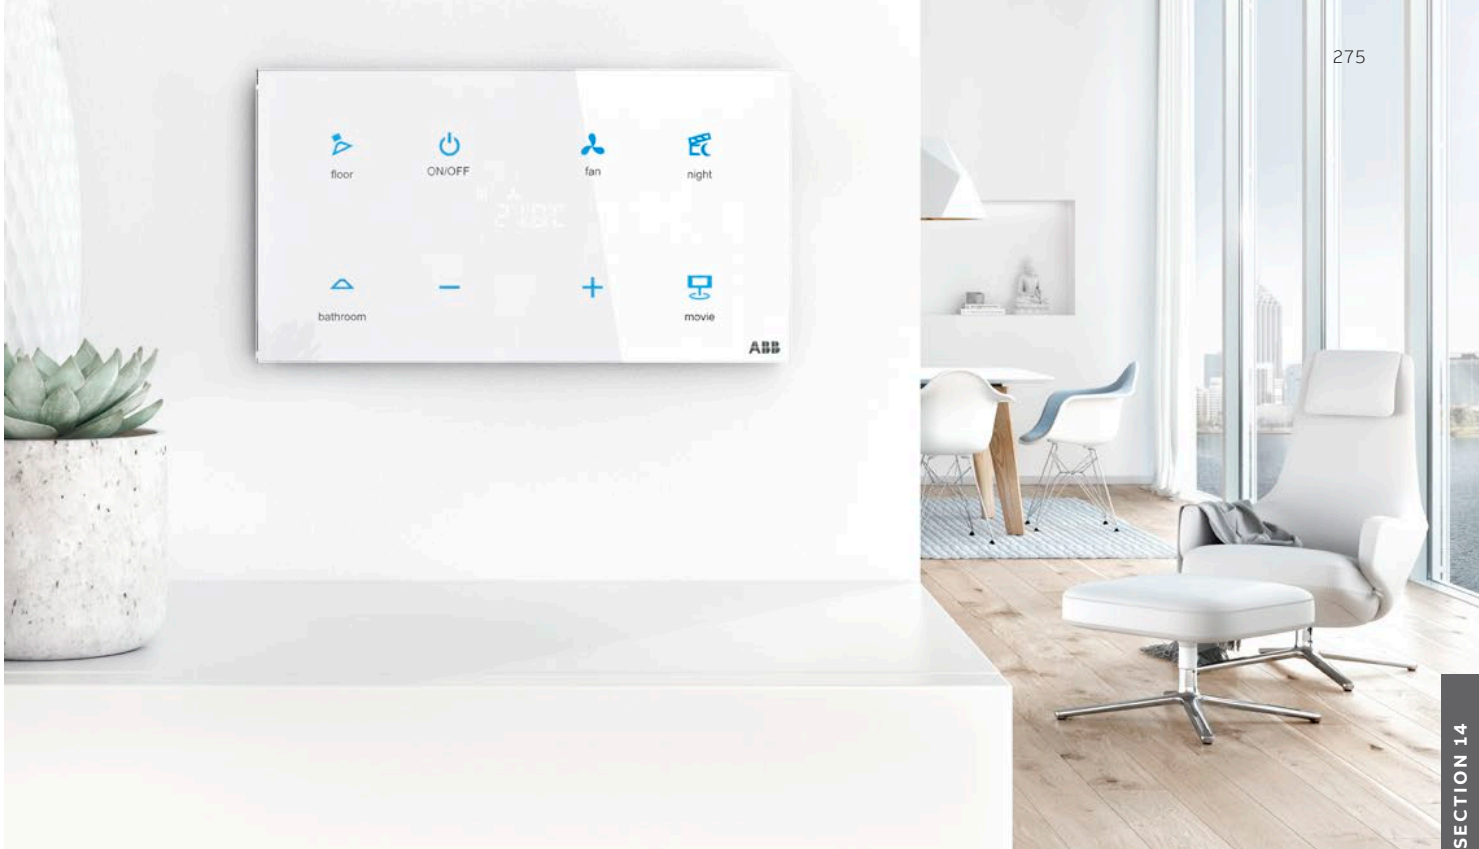

ABB-tacteo® KNX combines maximum functionality with a personal atmosphere. For first-class hotels, residential buildings and public buildings with the highest standards of design.

Advantages for you at a glance

Configurator and simple ordering process

Design your KNX sensors exactly as you want them. You determine the design and functions, you can define icons and texts and also select the colours of the housing and buttons – completely in keeping with the established colour control concept. As soon as the configuration is completed and the finished sensors are saved, you will receive an individual design ID. All of your project sensors, including ID, are added to a parts list. This list allows the wholesaler to produce your personal sensors. Thanks to the design ID, the unique sensors can be retrieved and ordered again at a later date. The configurator can be found at:

tacteo-configurator.
my.abb-livingspace.com

Hotel access control

The ABB-tacteo® KNX range offers secure access control for the hotel and hospitality industry. The sensor performs all the management tasks of a hotel operation, which can be controlled from a central point.

Flat and theft-proof

The frameless and extra-flat KNX sensor sits almost flush with the wall and blends harmoniously into any wall design. Peace of mind is provided by the optional removal guard, which protects the KNX sensor from theft.

Intuitive operation

The capacitive KNX glass sensors react without any touch or contact. When moving your hand towards the sensor, the status lighting switches on automatically. On the other hand, touching the sensor with the entire palm of your hand triggers a preprogrammed function. With a tap of the finger the desired function can be activated.

Smarter Solutions for Home and Building Automation

ABB i-bus® KNX – Power Supply

SV/S 30.160.1.1

Power Supply Standard, 160 mA, MDRC

KNX power supplies generate and monitor the KNX system voltage (SELV). The bus line is decoupled from the power supply by an integrated choke.

The voltage output is short-circuit and overload protected.

The two-colour LED indicates device output status. With two-coloured status indicator and wide range input from 85...265 V AC, 50/60 Hz.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code	€	kg	pc.
	4	SV/S 30.160.1.1	2CDG110144R0011		0.30	1

SV/S 30.320.1.1

Power Supply Standard, 320 mA, MDRC

KNX power supplies generate and monitor the KNX system voltage (SELV). The bus line is decoupled from the power supply by an integrated choke.

The voltage output is short-circuit and overload protected.

The two-colour LED indicates device output status.

With two-coloured status indicator and wide range input from 85...265 V AC, 50/60 Hz.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code	€	kg	pc.
	4	SV/S 30.320.1.1	2CDG110166R0011		0.30	1

SV/S 30.640.3.1

Power Supply Standard, 640 mA, MDRC

KNX power supplies generate and monitor the KNX system voltage (SELV). The bus line is decoupled from the power supply by an integrated choke. The voltage output is short-circuit and overload protected.

The two-colour LED indicates device output status.

Device type SV/S 30.640.3.1 has an additional 30 V DC short-circuit and overload protected voltage output that can be used to power an additional bus line (in combination with a separate choke).

With two-coloured status indicator and wide range input from 85...265 V AC, 50/60 Hz.

ABB i-bus® KNX – Power Supply

SV/S 30.320.2.1

Power Supply with Diagnostics, 320 mA, MDRC

Compact Power Supply with integrated choke. Quick diagnostics by LED display and ETS communication objects. Analysis of the operating state and the bus line possible by means of ABB i-bus® Tool.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code	€	kg	pc.
	4	SV/S 30.320.2.1	2CDG110145R0011		0.26	1

SV/S 30.640.5.1

Power Supply with Diagnostics, 640 mA, MDRC

Compact Power Supply with integrated choke. Quick diagnostics by LED display and ETS communication objects. Analysis of the operating state and the bus line possible by means of ABB i-bus® Tool. Additional voltage output to supply an additional line in conjunction with an additional choke.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code	€	kg	pc.
	4	SV/S 30.640.5.1	2CDG110146R0011		0.26	1

SU/S 30.640.1

Uninterruptible Power Supply, 640 mA, MDRC

Power supply with integrated choke for supplying a bus line from an uninterrupted supply. Quick diagnostics via LED display for operational readiness, fault and battery level as well as a floating contact for a fault signal indication. The accumulator module or up to 2 rechargeable batteries can be charged in normal operation by the voltage supply. The bus voltage is provided by the batteries in the event of a mains failure.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code	€	kg	pc.
	8	SV/S 30.640.5.1	GHQ6310049R0111		0.55	1

AM/S 12.1

Battery Module, 12 V DC, MDRC

With lead-gel battery for use in uninterruptible power supply SU/S 30.640.1 and for maintaining the bus voltage during a mains failure for 10 minutes (at full load). Connection is made via 4-core standard cable.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code	€	kg	pc.
	8	AM/S 12.1	GHQ6310062R0111		0.81	1

Smarter Solutions for Home and Building Automation

ABB i-bus® KNX – System Infrastructure and Interfacing

LK/S 4.2

Line Coupler, MDRC

The line coupler is used in larger installations to connect KNX lines or areas. The lines or areas are galvanically isolated from one another. Telegrams can be filtered to simultaneously reduce the telegram traffic between lines or areas. With ETS 4 (V4.1.2 and higher) the complete group address range of the main groups 0...31 can be filtered. Within a line, the LK/S 4.2 can also be used as a line amplifier (repeater).

Description	Mod. width	Order details		Price	Weight	Pack
		Type code	Order code	1 piece	1 piece	unit
				€	kg	pc.
	2	LK/S 4.2	2CDG110171R0011		0.1	1

IPR/S 3.1.1

IP Router, MDRC

Connects the KNX bus with the Ethernet network. The device uses the KNXnet/IP protocol for communication (Routing and Tunneling). It can be used as a fast line and area coupler. The full filter table for main groups 0-31 is supported. KNX devices can be programmed via the LAN using ETS. For this and further clients 5 Tunneling Servers are available. The IP address can be fixed or can be received from a DHCP server. Power supply via 12...30 V DC or PoE (IEEE 802.3af class 1). The KNX Standard Communication (Multicast) can be switched off. In this case, up to 10 IPR/S 3.1.1 can communicate using unicast communication.

Description	Mod. width	Order details		Price	Weight	Pack
		Type code	Order code	1 piece	1 piece	unit
				€	kg	pc.
	2	IPR/S 3.1.1	2CDG110175R0011		0.11	1

IPR/S 3.5.1

IP Router Secure, MDRC

NEW

Connects the KNX bus with the Ethernet network and encrypts communication on the IP backbone. The device uses the KNXnet/IP Secure protocol for communication (Routing and Tunneling). It can be used as a fast line and area coupler. The full filter table for main groups 0-31 is supported. KNX devices can be programmed via the LAN using ETS. For this and further clients 5 Secure Tunneling Servers are available. The IP address can be fixed or can be received from a DHCP server. Power supply via 12...30 V DC or PoE (IEEE 802.3af class 1). The KNX Standard Communication (Multicast) can be switched off. In this case, up to 10 IPR/S 3.5.1 can communicate using unicast communication.

Available January 2019

Smarter Solutions for Home and Building Automation

ABB i-bus® KNX – System Infrastructure and Interfacing

BE/S 8.230.2.1

Binary Inputs, 10 – 230 V AC/DC, MDRC

Detects AC/DC signals in the voltage range from 12...230 V. The state of the input is displayed via yellow LEDs. The binary inputs enable detection of independent input signals. The devices feature a manual operation push button for each channel. The devices are powered via the ABB i-bus® and do not require an additional power supply.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit

US/U 4.2

Universal Interface, FM

The universal interface has 2, 4 or 12 channels which can be parametrised as inputs or outputs with the ETS software. Conventional push-buttons, auxiliary contacts, LEDs and the electronic relay ER/U can be connected. The connecting cables can be extended up to 10 m. The contact scanning voltage and the supply voltage for the LEDs are made available by the device, the series resistors for the LEDs are integrated.

ABB i-bus® KNX – Outputs

SA/S 8.6.1.1

Switch Actuator, 6 A, MDRC

Using floating contacts it switches 4, 8 or 12 independent electrical loads. The 6 A-AC3 devices are suited for switching resistive, inductive and capacitive loads. Please note: Increased module width compared to previous generation.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code			
4-fold	4	SA/S 4.6.1.1	2CDG110152R0011		0.18	1

Smarter Solutions for Home and Building Automation

ABB i-bus® KNX – Lighting Control – DALI

DG/S 1.64.1.1

DALI-Gateway, Basic, 1-fold, MDRC

The device is used to interface between DALI and KNX installations and incorporates the DALI power supply. One DALI output for up to 64 DALI Slaves. Control and status feedback is carried out via KNX per DALI slave (64), with lighting groups (16), together in broadcast or per scenes (16). Extensive fault and error messages are available. Self-contained emergency converter (64) acc. EN 62386-202 will be supported. By means of KNX and emergency converter, different emergency tests (e.g. function and duration test) can be triggered. Feedback is sent. Slave-, staircase-, force-, block- and scene- function are integrated. DALI telegram rate can change. For diagnostic use and individual change of the DALI address or group assignment a separate ABB i-bus® Tool is available.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code			
	4	DG/S 1.64.1.1	2CDG110198R0011		0.133	1

DG/S 2.64.1.1

DALI-Gateway, Basic, 2-fold, MDRC

The device is used to interface between DALI and KNX installations and incorporates the DALI power supply. Two DALI output for up to 2 x 64 DALI Slaves. Control and status feedback is carried out via KNX per DALI slave (2 x 64), with lighting groups (2 x 16), together in two broadcasts or per scenes (2 x 16). Extensive fault and error messages are available. Self-contained emergency converter (2 x 64) acc. EN 62386-202 will be supported. By means of KNX and emergency converter, different emergency tests (e.g. function and duration test) can be triggered. Feedback is sent. Slave-, staircase-, force-, block- and scene- function are integrated. DALI telegram rate can change. For diagnostic use and individual change of the DALI address or group assignment a separate ABB i-bus® Tool is available.

		Type code	Order code			
	4	DG/S 2.64.1.1	2CDG110199R0011		0.15	1

DG/S 8.1

DALI Gateway, 8-fold, MDRC

For controlling up to 128 DALI devices. There are 8 separate, independent DALI outputs/channels available. Up to 16 DALI devices can be connected per channel. The DALI power supply is integrated in the gateway. The functions of switching, dimming, set values and fault indication for lamps and electronic ballasts are available for each output. It is possible to set the lamp burn-in time and 16 light scenes. Commissioning is simplified as no addressing or commissioning of the DALI devices is necessary.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code			
	6	DG/S 8.1	2CDG110025R0011		0.31	1

Smarter Solutions for Home and Building Automation

ABB i-bus® KNX – Lighting Control

UD/S 4.210.2.1

LED Dimmer, 4-fold, 210 W/VA, MDRC

NEW

Multichannel universal dimming actuator optimized for dimming of retrofit LED lamps (LEDi). Also suitable for dimming of incandescent lamps, low-voltage halogen lamps with conventional or electronic transformers, 230 V incandescent halogen lamps and dimmable halogen energy-saving lamps. Automatic load detection (deactivatable). One separate N-terminal per channel. Channel bridging possible in order to increase the maximum load. Outputs can be switched in parallel as required. Minimum load: 2 W. Manual operation on the device is possible also without bus voltage or in unprogrammed state. One LED control button per channel (including status indication) for ON and OFF switching as well as for up and down dimming. Programming of the device is possible without connecting 230 V supply voltage. Comprehensive test and diagnostic functions via the i-bus® Tool. Fast parameterization in the ETS by means of copyable channel templates. With integrated bus coupler.

Rated power at 230 V ~:

- 230 V ~ incandescent and halogen lamps: 4 x 210 W/VA to 1 x 600 W/VA.
 - Dimmable 230 V ~ LEDi: 4 x 210 W/VA to 1 x 600 W/VA in trailing edge mode, 4 x 80 W/VA to 1 x 200 W/VA in leading edge mode.
 - Inductive L-transformers with LED/low-voltage halogen lamps: 4 x 210 W/VA to 1 x 600 W/VA.
 - Electronic C-transformers with LED/low voltage halogen lamps: 4 x 210 W/VA to 1 x 600 W/VA.
 - Electronic LC transformers with LED/low-voltage halogen lamps: 4 x 80 W/VA to 1 x 200 W/VA.
- Recommendation: Always use bulbs of one type and manufacturer.

Description	Mod. width	Order details		Price 1 piece	Weight 1 piece	Pack unit
		Type code	Order code			
4-fold	6	UD/S 4.210.2.1	2CKA006197A0047			1

UD/S 6.210.2.1

LED Dimmer, 6-fold, 210 W/VA, MDRC

NEW

Multichannel universal dimming actuator optimized for dimming of retrofit LED lamps (LEDi). Also suitable for dimming of incandescent lamps, low-voltage halogen lamps with conventional or electronic transformers, 230 V incandescent halogen lamps and dimmable halogen energy-saving lamps. Automatic load detection (deactivatable). One separate N-terminal per channel. Channel bridging possible in order to increase the maximum load. Outputs can be switched in parallel as required. Minimum load: 2 W. Manual operation on the device is possible also without bus voltage or in unprogrammed state. Maximum protection, maximum communication

Wireless and with the highest quality standards.

ABB-secure@home is a security system design by ABB to ensure maximum protection to people and buildings. The alarm system signals every danger as intrusions, water leak (flooding) and a fire principle. Communication between central unit and devices is wireless based on radio frequency signal, in compliance with European standards EN50131 with a Grade2.

Reliability

ABB-secure@home wireless communication operates at 868.3MHz. It is a frequency band regulated by European norms (ERCREC-70-3E) much less crowded than the traditional one of 434MHz, with a power of 25mW and considered as privileged. In addition the components are ETSI-RED (Radio Equipment Directive) 2014/53/EU compliant. The alarm system uses an ABB owner communication protocol, optimized to the best ratio distance over energy consumption and it is classified as long range wireless communication, since it supports an alarm system up to 300m in free field. The bidirectional transmission let know the status of each single component, because the sensor receives instructions from the central unit and sends back messages when the action is accomplished.

Security

ABB-secure@home counts on a digital encrypted communication with 128 bits and it is supplied with a 65k rolling code remote control which creates unique code each time a command is sent to prevent it from being maliciously copied and replicated. Moreover the bidirectional communication let the central unit know the state of each controlled device, as battery charge state, state of functioning and if any infringement has been done. The multiple access (CSMA) transmission system, avoid interferences, disturbances and signal collisions.

- **Bidirectional**
- **Simplified commissioning**
- **Distance up to 300m**
- **128 Bit Proprietary protocol and encryption plus a unique 65k rolling code for all arming/disarming control**
- **CSMA transmission**

Different wireless choices for

ABB-free@home and ABB-secure@home

ABB-secure@home and ABB-free@home are different systems, the first one aims at security, the second one at home automation. ABB-free@home is based on a 2.4 GHz proprietary protocol meshed network frequency with an encryption of 128bits. This frequency gives the advantage of a globally approved band, but some potential interferences such as WIFI router, microwaves, fluorescent lamps could occur. ABB-free@home wireless system solves these issues by using a meshed network, which allows to leverage on all the devices to repeat the signal, overcoming the attenuation and interference effects mentioned above.

ABB-secure@home has privileged the choice of an approved frequency in a lower band to maximize security; this choice allows one of the best performances in terms of signal propagation and, at the same time, to be able to communicate directly with every device to better ensure security and data protection with rolling codes and supervision checks. Each ABB-secure@home device communicates bidirectionally with the central unit. If needed, the repeater can repeat the signal and extend the communication distance.

ABB-free@home

ABB-secure@home

ABB-secure@home wireless communication, thanks to its characteristics, can be defined secure and reliable, since it has been designed to avoid any interference, fraudulent communication issues, and to monitor the entire system status, ensuring its proper functioning.

Introduction

Lightning protection standard IEC/BS EN 62305

Within the field of lightning protection, developing a thorough understanding of IEC/BS EN 62305 is fundamental to ensure the design and implementation of safe systems against risk from lightning.

—
* We hope you find this guide useful and should you require assistance or advice, please do not hesitate to contact ABB.

This guide has been developed therefore to improve understanding of lightning protection and to help industry professionals, including M&E engineers, lightning protection designers and contractors, to navigate through the principles of IEC/BS EN 62305 in a practical and pragmatic manner, considering the diverse and often complicated recommendations therein.

In conjunction with our other Furse technical material, such as CPD accredited seminars and risk assessment software, this guide is presented with the following aims:

- To briefly explain the theory and phenomenon of lightning
- To précis, and simplify where possible the four parts of IEC/BS EN 62305
- To provide an introduction to the transient overvoltage protection requirements defined within IEC60364 / BS 7671
- To outline the importance of lightning protection component performance to IEC 62561, which follows on from former product standard, BS EN 50164

All standards are open to individual interpretation. This guide therefore reflects Furse's own views on good practice and it is not the intention that these views replace, in any way, the recommendations contained in the IEC/BS EN 62305 series, but rather to be read in conjunction with the standard.

Development of the lightning protection standard

The International Electrotechnical Commission (IEC) is the body responsible for the recommendations and maintenance of IEC 62305, through its technical committee, TC 81. This committee includes many member countries including the UK. Additionally, the UK, as part of the European Union, is one of the 28 countries with membership of CEN (Comité Européen de Normalisation), which focuses on ensuring harmonisation of design and application standards throughout its member states.

The electrical arm of CEN is CENELEC (CLC), and it is this committee which is responsible for compiling and producing standards relevant to lightning protection. In 2006, a four-part suite of standards on lightning protection was compiled by CENELEC under the reference number 62305 series.

The UK's **British Standards Institution (BSI)** adopted this CENELEC standard as its own British Standard (with minor amendments), and introduced BS EN 62305 in August 2006. A second edition of each of the four parts of BS EN 62305 was introduced in 2011/2012.

British Standard, BS EN 62305, is a national standard developed from the international standard, IEC 62305 in agreement with TC/81 and CENELEC. This approach has been followed by many other countries worldwide, which have introduced their own national standards, and therefore the content of this guide shall be equally of interest to those working in the lightning protection industry in those countries.

Scope of IEC/BS EN 62305

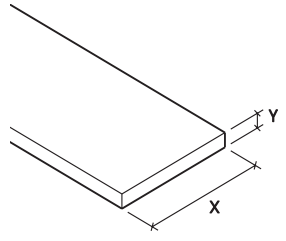

IEC/BS EN 62305 considers lightning protection in much greater depth and detail than historic standards, such as BS 6651. Additionally, in two key areas, Part 2: Risk management and Part 4: Electrical and electronic systems within structures, it is radically different:

- **Part 2:** presents risk management in much greater detail and complexity and defines a single risk assessment process for protection against physical damage to structures, life hazard, and protection of electronic systems
- **Part 4:** is now a key part of the core IEC/BS EN 62305 standard with implementation driven by Part 2

Tinned soft drawn stranded copper cable	Order Code	Cross sectional area (mm ²)
	CB070-T	70

Hard drawn stranded copper cable	Order Code	Cross sectional area (mm ²)
	CB071	70

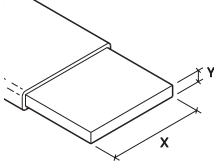

Conductors

PVC and LSOH covered conductors

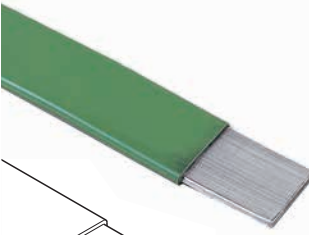

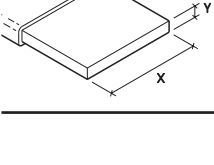

PVC covered copper tape

	Order Code	Conductor size (X x Y) (mm)	Colour range
 	TC100	12.5 x 1.5	Black
	TC105-FU	25 x 3	Black
	TC110	25 x 3	Green
	TC115-FU	25 x 3	Grey
	TC120-FU	25 x 3	Stone
	TC125-FU	25 x 3	White
	TC130-FU	25 x 3	Brown
	TC140-FU	25 x 6	Green
	TC145	50 x 6	Green

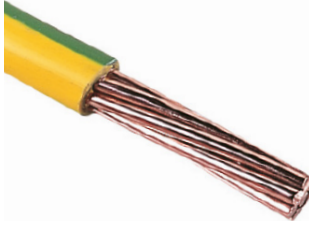

Green & yellow PVC insulated copper tape

	Order Code	Conductor size (X x Y) (mm)
 	TC111-FU	25 x 3

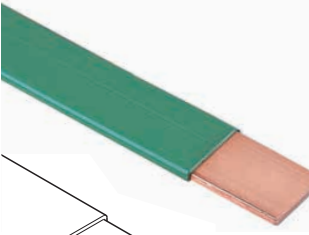

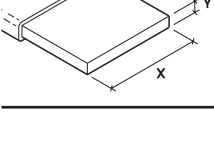

PVC covered aluminium tape

	Order Code	Conductor size (X x Y) (mm)	Colour range
 	TC100	12.5 x 1.5	Black
	TA104	20 x 3	Black
	TA105	25 x 3	Black
	TA110	25 x 3	Green
	TA115	25 x 3	Grey
	TA120	25 x 3	Stone
	TA125	25 x 3	White
	TA130	25 x 3	Brown

Green & yellow PVC insulated stranded copper cable

	Order Code	Cross-sectional area (mm ²)
	CC016	16
	CC025	25
	CC035	35
	CC050	50
	CC070	70

	CC240	240
	CC300	300
	CC400-FU	400

LSOH covered copper tape

	Order Code	Conductor size (X x Y) (mm)	Colour range
 	TC910	25 x 3	Green
	TC940	25 x 6	Green
	TC980	50 x 6	Green

Conductor network

Conductor clips

Metallic tape clip

	Order Code	Conductor size (mm)
	For use with bare copper	
	CP210	25 x 3-4
	CP220	25 x 5-6
	For use with bare aluminium	
	CP110	25 x 3-4
	CP120-H	25 x 6

Tape clip

	Order Code	Conductor size (mm)
	For use with bare copper	
	CP510	20 x 3
	CP515	25 x 3
	For use with bare aluminium	
	CP405	20 x 3
	CP410	25 x 3
	CP415	25 x 6
For use with PVC covered tape		
	CP517	25 x 3

Metallic tape clip

	Order Code	Conductor size (mm)
	For use with bare copper	
	CP230	30-32 x 3-4
	CP240	38-40 x 3-4
	CP260	50 x 5-6-5

Non-metallic tape clip

	Order Code	Conductor size (mm)	Colour
	For use with bare tape		
	CP005	20 x 3	Brown
	CP010	20 x 3	Grey
	CP015	25 x 3	Brown
	CP020	25 x 3	Grey
	CP060*	38 x 5	Brown
	CP065*	50 x 6	Brown
	For use with PVC covered tape		
	CP025	25 x 3	Brown
	CP030	25 x 3	Black
CP035	25 x 3	Green	
CP040	25 x 3	Grey	
CP045	25 x 3	Stone	
CP050	25 x 3	White	

Metallic tape clip

	Order Code	Conductor size (mm)
	For use with bare copper	
	CP205	20 x 3
	CP216	25 x 4
	CP227	30 x 5
	CP245	38-40 x 5-6-5
	CP241	40 x 4
	CP256	50 x 4
	For use with PVC covered copper	
	CP215	25 x 3-4
	CP225	25 x 6
	CP265	50 x 6
	CP256	50 x 4
	For use with lead covered copper	
	CP305	25 x 3
	For use with bare aluminium	
CP105	20 x 3	
CP125	50 x 6	
For use with PVC covered aluminium		
CP115	25 x 3	
CP130	50 x 6	

* Not as illustrated (drawing available on request)

Conductor network

Conductor clamps

Square tape clamp

	Order Code	Conductor size (mm)	Conductor material
	CT105-H	25 x 3	Copper
	CT110-H	25 x 6	Copper
	CT115-H	50 x 6	Copper
	CT005-H	25 x 3	Aluminium
	CT010*	25 x 6	Aluminium

* Not as illustrated (drawing available on request)

Crossover tape clamp

	Order Code	Conductor size (mm)	Conductor material
	CX105-H	25 x 3	Copper
	CX005-H	25 x 3	Aluminium

Cable to tape square clamp

	Order Code	Conductor size	Conductor material
	CT125	25 x 3mm to 50mm ²	Copper
	CT130	25 x 3mm to 70mm ²	Copper
	CT135	25 x 3mm to 95mm ²	Copper

Test/ Junction clamp

	Order Code	Max. conductor (mm)	Conductor material
	CN105-H	26 x 8	Copper
	CN005*	26 x 8	Aluminium

* Not as illustrated (drawing available on request)

Earth bonds and clamps

Mechanical clamps

Rod to tape clamp (type A)

	Order Code	Nominal rod diameter		Max. conductor (mm)
		(in.)	(mm)	
	CR105	Ø 1/2	Ø 12.7	26 x 12
	CR105	Ø 5/8	Ø 16	26 x 12
	CR105	Ø 3/4	Ø 20	26 x 10
	CR108	Ø 5/8	Ø 16	30 x 2
	CR108	Ø 3/4	Ø 20	30 x 2
	CR110	Ø 5/8	Ø 16	40 x 12
	CR115	Ø 5/8	Ø 16	51 x 8
	CR125	Ø 3/4	Ø 20	51 x 12
	CR130	Ø 1/2	Ø 12.7	26 x 20
	CR130	Ø 5/8	Ø 16	26 x 18
	CR130	Ø 3/4	Ø 20	26 x 10
	CR130	Ø 1	Ø 25	26 x 10

Rod to tape clamp (type G)

	Order Code	Nominal rod diameter		Conductor range (mm ²)
		(in.)	(mm)	
	CR505	Ø 3/8	Ø 9.5	6-35
	CR510-FU	Ø 1/2	Ø 12.7	16-50
	G5	Ø 5/8	Ø 16	5.2-33.6
	CR515	Ø 5/8	Ø 16	16-70
	G6	Ø 3/4	Ø 20	5.2-33.6
	CR520	Ø 3/4	Ø 20	35-95
	CR525	Ø 1	Ø 25	70-150

Earth bonds and clamps

Mechanical clamps

Rod to tape clamp (type B)

	Order Code	Nominal rod diameter		Rod type
		(in.)	(mm)	
	CR205	Ø 3/8	Ø 9.5	Copperbond
	CR215	Ø 5/8	Ø 16	Copperbond
	CR220	Ø 5/8	Ø 15	Solid copper
	CR225	Ø 3/4	Ø 20	Copperbond
	CR230	Ø 3/4	Ø 20	Solid copper

'U' bolt rod clamp (type E)

	Order Code	Nominal rod / rebar diameter		Hole centres (mm)
		(in.)	(mm ²)	
	CR305	Ø 5/8	Ø 16	37
	CR310	Ø 3/4	Ø 20	37
	CR315	Ø 1	Ø 25	37
	CR320*	Ø 5/8	Ø 16	37
	CR325	Ø 1 1/2	Ø 38	54
	CR330	Ø 2	Ø 50	64
	CR326	Ø 1 1/2	Ø 38	54

* CR320 includes additional plate to allow tape to be clamped without drilling.

'U' bolt rod clamp (type GUV)

	Order Code	Nominal rod / rebar diameter		Conductor range (mm ²)
		(in.)	(mm)	
	CR700	Ø 5/8	Ø 16	16-95
	CR700	Ø 3/4	Ø 20	16-70
	CR705	Ø 5/8	Ø 16	70-185
	CR705	Ø 3/4	Ø 20	70-150
	CR730	Ø 5/8	Ø 16	150-300
	CR730	Ø 3/4	Ø 20	150-300
	CR710	Ø 1	Ø 25	16-70
	CR740	Ø 1	Ø 25	70-150
	CR750	Ø 1	Ø 25	150-300

B bond

	Order Code	Max tape width (mm)	Conductor material
	BN005	26	Aluminium
	BN113	31	Copper
	BN114	40	Copper

Earth electrodes

Earth rod and earth rod seal

Threaded copperbond earth rod

Order Code	Nominal diameter (in.)	Length (mm)
RB105	Ø 1/2	1200
RB110	Ø 1/2	1500
RB115	Ø 1/2	1800
RB125	Ø 1/2	2400
RB205-FU	Ø 5/8	1200
RB210	Ø 5/8	1500
RB215	Ø 5/8	1800
RB220-FU	Ø 5/8	2100
RB225	Ø 5/8	2400
RB235	Ø 5/8	3000
RB305	Ø 3/4	1200
RB310	Ø 3/4	1500
RB315	Ø 3/4	1800
RB320-FU	Ø 3/4	2100
RB325	Ø 3/4	2400
RB335	Ø 3/4	3000

Fittings

Order Code	Type (in.)
CG170	1/2 Coupling
CG270	5/8 Coupling
CG370	3/4 Coupling
ST100	1/2 Driving stud
ST200	5/8 Driving stud
ST300	3/4 Driving stud

Earth rod seal

Order Code	Type
Earth rod seal assembly	
ES300	Earth rod seal and membrane seal
Earth rod seal pack	
ES300-12	Seal pack for 1/2" (Ø 12.7 mm) Copperbond rod
ES300-58	Seal pack for 5/8" (Ø 14.2 mm) Copperbond rod
ES300-34	Seal pack for 3/4" (Ø 17.2 mm) Copperbond rod
ES300-15	Seal pack for Ø 15 mm solid copper rod
ES300-16	Seal pack for Ø 16 mm stainless steel rod
ES300-20	Seal pack for Ø 20 mm solid copper rod
Earth rod seal tube	
ES310-03	Seal tube, 300 mm length
ES310-05	Seal tube, 500 mm length
ES310-10	Seal tube, 1000 mm length
ES310-15	Seal tube, 1500 mm length
ES310-20	Seal tube, 2000 mm length
ES310-30	Seal tube, 3000 mm length
Accessory spanner set	
ES320	Membrane seal torque spanner set

Earth electrodes

Inspection pits, plate, lattice, backfill materials

FurseCEM® conductive aggregate

	Order Code	Description	Weight (kg)
	CM035	FurseCEM®	25kg
	CM040	FurseCEM® (supplied with cement)	25kg

Bentonite moisture retaining clay

	Order Code	Description	Weight (kg)
	CM015	Bentonite powder	25kg
	CM020	Bentonite granules	25kg

Lightweight inspection pit

	Order Code	Description
	PT205	Lightweight inspection pit with grey polymer lid
	PT309-FU	Lightweight inspection pit with black (unbranded) polymer lid
	PT110	Lightweight inspection pit with concrete lid
	PT004	5 hole earth bar
Accessories for polymer lid		
	AK005	6 mm Allen key
Accessories for concrete lid		
	JH100	M8 x 100 mm long mild steel 'J' bolt lifting hook
	AS100	M8 x 60 stainless steel Allen caphead screw (2 per lid)

Concrete inspection pit

	Order Code	Description
	PT005	Concrete inspection pit
	Accessories	
	PT006	5 hole earth bar
	PT007	7 hole earth bar

Earth plate (solid copper)

	Order Code	Size (mm)
	PE005	600 x 600 x 1.5
	PE015	900 x 900 x 1.5
	PE010	600 x 600 x 3
	PE020	900 x 900 x 3

Earth mat (lattice copper)

	Order Code	Size (mm)
	PE110	600 x 600 x 3
	PE120	900 x 900 x 3
	PE101	300 x 300 x 3

Earth bonds and clamps

Earth bar accessories

Order Code	Description
Copper earth bar	
LK004	Swan-neck link
LK205	Disconnecting link
Tinned copper earth bar	
LK004-T	Swan-neck link
LK205-T	Disconnecting link

Electronic systems protection

Surge protection devices (SPDs) for mains power supplies

Mains supplies - equipotential bonding

		Old part no.	NEW part no.	Comment	Description
	ESP 240/I/TNS	-	-	-	Enhanced Type 1+2 power SPD for Single Phase 240V TNS supplies, 50kA 10/350
	ESP 240/III/TNS	ESP 240T1/25/TNS		Also replaces MMP B275B/2/S	Enhanced Type 1+2 power SPD for Single Phase 240V TNS supplies, 25kA 10/350
	ESP 240 /I/TT	-	-	-	Enhanced Type 1+2 power SPD for Single Phase 240V TT supplies, 50kA 10/350
	ESP 240/III/TT	ESP 240T1/25/TT		Also replaces MMP B275B/1+1T/S	Enhanced Type 1+2 power SPD for Single Phase 240V TT supplies, 25kA 10/350
	ESP 415/I/TNS	ESP 415T1/25/TNS		Also replaces MMP B275B/4/S	Enhanced Type 1+2 power SPD for Three Phase 415V TNS supplies, 25kA 10/350
	ESP 415/III/TNS	ESP 415T1/12.5/TNS		Also replaces MMP 2B275A/4/S	Enhanced Type 1+2 power SPD for Three Phase 415V TNS supplies, 12.5kA 10/350
	ESP 415/I/TT	ESP 415T1/25/TT		Also replaces MMP B275B/3+1T/S	Enhanced Type 1+2 power SPD for Three Phase 415V TT supplies, 25kA 10/350
	ESP 415/III/TT	ESP 415T1/12.5/TT		Also replaces MMP 2B275A/3+1T/S	Enhanced Type 1+2 power SPD for Three Phase 415V TT supplies, 12.5kA 10/350

Mains supplies - DIN housing

Part no.	Description
ESP 240 D1	Enhanced Type 1+2+3 Full Mode power SPD for 240V Single Phase supplies, Din Rail mounted
ESP 415 D1	Enhanced Type 1+2+3 Full Mode power SPD for 415V 3 Phase supplies, Din Rail mounted
Supplied with remote indication display	
ESP 415 D1R	Enhanced Type 1+2+3 Full Mode power SPD for 3 Phase 415V supplies, LED status indication on remote display, Din Rail mounting
ESP RLA HD-4	4 Metre display lead for ESP D1R Series

Mains supplies (extra high maximum surge currents)

Part no.	Description
ESP 415 M2	Enhanced Type 1+2+3 Full Mode power SPD for 3 Phase 415V supplies, high surge current rating
ESP 415 M4	Enhanced Type 1+2+3 Full Mode power SPD for 3 Phase 415V supplies, very high surge current rating

Mains supplies & power distribution system

Part no.	Description
ESP 240 M1	Enhanced Type 1+2+3 power SPD for 240V Single Phase supplies
ESP 415 M1	Enhanced Type 1+2+3 power SPD for 415V 3 Phase supplies

Electronic systems protection

Surge protection devices (SPDs) for mains power supplies

Mains supplies - with remote display indication

Part no.	Description
ESP 415 M1R	Enhanced Type 1+2+3 power SPD for 3 Phase 415V supplies, with remote indication display
ESP 415 M2R	Enhanced Type 1+2+3 power SPD for 3 Phase 415V supplies, 12.5KA 10/350, with remote indication display
ESP 415 M4R	Enhanced Type 1+2+3 power SPD for 3 Phase 415V supplies, 25KA 10/350, with remote indication display
ESP RLA-4	4 Metre display lead for ESP M1R, M2R and M4R Series

Mains supplies and fused connections up to 10 amps or up to 32 amps

Part no.	Description
Protectors rated at 10 amps or less	
ESP 240D-10A	Enhanced mains SPD for 240V supplies up to 10A, with LED status indication
ESP 240DS-10A	Enhanced mains SPD for 240V supplies up to 10A, with LED status indication and remote signal contact
Protectors rated at 32 amps or less	
ESP 240D-32A	Enhanced mains SPD for 240V supplies up to 32A, with LED status indication
ESP 240DS-32A	Enhanced mains SPD for 240V supplies up to 32A, with LED status indication and remote signal contact

Mains supplies and fused connections up to 5 amps or up to 16 amps

Part no.	Description
Protectors rated at 5 amps or less	
ESP 240-5A	Enhanced mains SPD for 240V supplies up to 5A
ESP 240-5A/BX	Enhanced mains SPD for 240V supplies up to 5A, IP66 enclosure
Protectors rated at 16 amps or less	
ESP 240-16A	Enhanced mains SPD for 240V supplies up to 16A
ESP 240-16A/BX	Enhanced mains SPD for 240V supplies up to 16A, IP66 enclosure
ESP 240T3/SKT	Type 3 mains SPD for supplies up to 16A for installation behind socket outlets

Plug-in SPD for mains power supplies, with telephone and computer line protection options

Part no.	Description
ESP MC/19BK	Brackets and fixings for mounting ESP MC SPD Series To 19"
ESP MC	Plug-in power SPD with filtering for 220-240V systems up to 13A with UK plug
ESP MC/TN/RJ11	Plug-in power SPD with filtering for 220-240V systems up to 13A with UK plug and data SPD for telecom systems with RJ11 connection
ESP MC/Cat-5e	Plug-in power SPD with filtering for 220-240V systems up to 13A with UK plug and data SPD for Cat-5E computer systems with RJ45 connection

Electronic systems protection

Surge protection devices (SPDs) for data, signal and telephone lines

Twisted pair data communication & signal lines (lower in-line resistance, higher current and higher bandwidth)

	Part no.	Description
	ESP 06E	Data SPD for 2-Wire signal lines up to 6V, 1.25A
	ESP 15E	Data SPD for 2-Wire signal lines up to 15V, 1.25A
	ESP 30E	Data SPD for 2-Wire signal lines up to 30V, 1.25A
	ESP 50E	Data SPD for 2-Wire signal lines up to 50V, 1.25A
	ESP 110E	Data SPD for 2-Wire signal lines up to 110V, 1.25A

Twisted pair data communication, signal & telecom lines - slim line, with removable protection module

	Part no.	Description	
	ESP SLTN	Data SPD for 2-Wire telephone lines up to 296V (ringing voltage)	
	Slim line protectors with removable protection module, LED status indication and isolated screen		
	ESP SL06L/I	Data SPD for 2-Wire signal lines up to 6V, 750mA	
	ESP SL15L/I	Data SPD for 2-Wire signal lines up to 15V, 750mA	
	ESP SL30L/I	Data SPD for 2-Wire signal lines up to 30V, 750mA	
	ESP SL50L/I	Data SPD for 2-Wire signal lines up to 50V, 750mA	
	ESP SL110L/I	Data SPD for 2-Wire signal lines up to 110V, 750mA	
	Slim line, Intrinsically Safe protectors (ATEX approved) with removable protection module, LED status indication and isolated screen		
	ESP SL15XL/I	Data SPD for 2-Wire signal lines up to 15V, 750mA	
	ESP SL30XL/I	Data SPD for 2-Wire signal lines up to 30V, 750mA	
	Slim line SPD for 4-20mA current loops with removable protection module, LED status indication and isolated screen		
	ESP SL30L/4-20/I	Data SPD for 4-20mA signal lines up to 30V, 75mA	

High density data, signal & telephone lines (/PT fast fit Push Terminal option)

	Part no.	Description
	ESP 06Q or ESP 06Q/PT	Data SPD for 8-Wire (4 pairs) 6V signal lines space saving design
	ESP 15Q or ESP 15Q/PT	Data SPD for 8-Wire (4 pairs) 15V signal lines space saving design
	ESP 30Q or ESP 30Q/PT	Data SPD for 8-Wire (4 pairs) 30V signal lines space saving design
	ESP 50Q or ESP 50Q/PT	Data SPD for 8-Wire (4 pairs) 50V signal lines space saving design
	ESP 110Q or ESP 110Q/PT	Data SPD for 8-Wire (4 pairs) 110V signal lines space saving design
	ESP 180Q or ESP 180Q/PT	Data SPD for 8-Wire (4 pairs) 180V signal lines space saving design
	ESP TNQ or ESP TNQ/PT	Data SPD for 4 twisted pair phone lines with a maximum (ringing) voltage of 296 volts

Three wire RTD applications

	Part no.	Description
	ESP RTD	Data SPD for three 3-Wire RTD systems
	ESP SL RTD	Slim Line Data SPD for 3-Wire RTD systems
	ESP RTDQ	Data SPD for three of 3-Wire RTD systems space saving design
	ESP RTDQ/PT	

RS485 & Fieldbus applications

	Part no.	Description
	ESP RS485	Data SPD for RS485 signalling systems
	ESP SL RS485	Slim Line Data SPD for RS485 signal lines
	ESP RS485Q	Data SPD for 8-Wire (4 pairs) RS485 signal lines space saving design
	ESP RS485Q/PT	

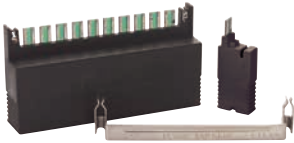

Electronic systems protection

Surge protection devices (SPDs) for computer and telephone lines

Plug-in protectors for telephone and ISDN lines

	Part no.	Description
	ESP TN/JP	Data SPD for telephone line with BT UK connection
	ESP TN/RJ11-6/6	Data SPD for 6-Wire telephone line with RJ11 connection
	ESP ISDN/RJ45-8/8	Data SPD for 8-Wire ISDN telephone line, RJ45 connector

PSTN and ISDN telephone lines with LSA-PLUS connections

	Part no.	Description
	ESP KE10	Earth connection bar for up to 10 of ESP KT1 data SPDs for LSA-PLUS PBX systems
	ESP KT1	Data SPD for one LSA-PLUS PBX phone line, use with ESP KE10 earth bar
	ESP K10T1	Data SPD for 10 LSA-PLUS PBX telephone lines

Computer networks up to Cat-6 cabling & PoE+

	Part no.	Description
	ESP Cat-6	Data SPD for Cat-6 1000 Base T computer networks, RJ45 connector
	ESP Cat-6/PoE	Data SPD for Cat-6 1000 Base T computer networks with Power over Ethernet, RJ45 connector

Electronic systems protection

Surge protection devices (SPDs) for specific systems

Mains supplies - wind turbine (WT) power distribution systems

Part no.	Description
ESP 690/25/WT	Type 1+2 power SPD for wind turbine systems, 25kA 10/350
ESP 690/12.5/WT	Type 1+2 power SPD for wind turbine systems, 12.5kA 10/350
ESP CE7	Connection and earthing bar for use with 3 of ESP 690/12.5/WT protectors for TNC systems
ESP CE9	Connection and earthing bar for use with 4 of ESP 690/12.5/WT protectors for TNS systems
ESP CE10	Connection and earthing bar for use with 3 of ESP 690/25/WT protectors for TNC systems
ESP CE13	Connection and earthing bar for use with 4 of ESP 690/25/WT protectors for TNS systems

DC photo-voltaic (PV) power distribution systems

Part no.	Description
ESP DC1000/12.5/PV	Type 1+2 power SPD for 1000Vdc PV supplies, 12.5kA 10/350 surge current rating
ESP DC550/12.5/PV	Type 1+2 power SPD for 550Vdc PV supplies, 12.5kA 10/350 surge current rating

Coaxial cable TV (CATV) systems

Part no.	Description
ESP CATV/F	Data SPD for Cable TV 5-860Mhz with F Type connector
ESP TV/F	Data SPD for TV 5-860Mhz with F Type connector
ESP TV/EURO	Data SPD for TV 5-860Mhz with Euro-TV connector
ESP MATV/F	Data SPD for main antenna TV MATV 5-2450Mhz with F Type connector
ESP SMATV/F	Data SPD for satellite main antenna TV SMATV 860-2450Mhz with F Type connector

Coaxial RF systems (for frequencies between DC and 2.7 GHz)

Part no.	Description
ESP RF 111421	RF Data SPD high performance N Type connection
ESP RF AA1421	RF Data SPD 350V GDT with 7/16 Din connection
ESP RF 441421	RF Data SPD 350V GDT with BNC connection

Higher performance coaxial RF systems (for frequencies between 50 MHz and 2.7 GHz)

Part no.	Description
ESP RF 111A11	RF Data SPD high performance N Type connection
ESP RF AA1A11	RF Data SPD high performance 7/16 Din connection
ESP RF 441A11	RF Data SPD high performance BNC connection

Closed circuit TV video lines

Part no.	Description
ESP CCTV/B	Data SPD for CCTV systems with BNC connection for Coax cable
ESP CCTV/T	Data SPD for CCTV systems with twisted pair cables

Electronic systems protection

Accessories

Weatherproof enclosures

Part no.	Description
WBX 2/G	IP66 Enclosure for 2 single stud ESP D/E/H data SPDs or ESP TN telecom SPD, grey lid
WBX 3	IP67 Enclosure for 3 single stud data SPDs or ESP Single Phase M1 mains SPD, clear lid
WBX 3/G	IP67 Enclosure for 3 single stud data SPDs, grey
WBX 4	IP66 Enclosure for ESP 415 M1, ESP 208 M1 or ESP 480 M1 or 4 single stud ESP data/telecom SPDs using CME4 earth bar, clear lid
WBX 4/GS	IP66 Enclosure for 4 single stud ESP data/telecom SPDs using CME4 earth bar, grey lid, security screws
WBX 8	IP66 Enclosure for 8 single stud ESP data/telecom SPDs using CME8 earth bar, grey lid
WBX 8/GS	IP66 Enclosure for 8 single stud ESP data/telecom SPDs using CME8 earth bar, grey lid, security screws
WBX 16/2/G	IP56 Enclosure for 1 or 2 CME16 earth bars for mounting and enclosing up to 32 of ESP single stud data/telecom SPDs, grey lid
WBX D4	IP65 Enclosure for 72mm DIN (4TE)
WBX D8	IP65 Enclosure for 144mm DIN (8TE)
WBX M2	IP67 Enclosure for ESP 415 M2 or ESP 480 M2, clear lid
WBX M4	IP67 Enclosure for ESP 415 M2 or ESP 480 M2, clear lid
WBX SLQ	IP66 Enclosure for up to 15 of ESP SL Series, or up to 6 of ESP Q Series, clear lid
WBX SLQ/G	IP66 Enclosure for up to 15 of ESP SL Series, or up to 6 of ESP Q Series, grey lid

Combined mounting and earthing kits

Part no.	Description
CME 4	4 Hole combined mounting & earthing kit
CME 8	8 Hole combined mounting & earthing kit
CME 16	16 Hole combined mounting & earthing kit
CME 32	32 Hole combined mounting & earthing kit

Jokab safety products

306	Sentry safety relays
307	Eden safety sensors
308	Magne – Magnetic lock
309	Smile emergency stop buttons

For more detailed product information, please refer to our online technical brochures available at: new.abb.com/low-voltage/support/documentation

or contact our sales team via email LV.enquiries@gb.abb.com

or call 0333 999 9933

Our range of safety products

SECTION 16

ABB is the only supplier that can deliver complete safety solutions (including output devices such as contactors and frequency converters) together with automation solutions such as robotics, motors, drives and PLCs.

Sentry – Safety Relays

Ordering details

	Expansion	Safety devices	Test/Reset	Safety relay outputs	Timer function	Feature	Power supply		
								Type	Order code
 <p>BSR10</p> <p>2TLC172049V0201</p>	Expansion of safety controller outputs	1 channel	Manual reset (all models have auto reset) Start/Test	3 NO + 1 NC	Off-delay 0.5 s Off-delay 1.5 s	Advanced timer functions 0 – 999 s ^{d)} Configurable with display	85-265 VAC / 120-375 VDC +24 VDC		
		2 channels with equivalent contacts		4 NO					
		2 channels with antivalent contacts		2 NO + 2 delayed/delayable NO					
		OSSD outputs / PNP outputs		4 NO + 1 NC					
		Contact mats, bumpers and safety edges ^{c)}							
		Two-hand devices							
 <p>SSR32</p> <p>2TLC172064V0201</p>	Expansion of safety controller outputs	1 channel	Manual reset (all models have auto reset) Start/Test	3 NO + 1 NC	Off-delay 0.5 s Off-delay 1.5 s	Advanced timer functions 0 – 999 s ^{d)} Configurable with display	85-265 VAC / 120-375 VDC +24 VDC		
		2 channels with equivalent contacts		4 NO					
		2 channels with antivalent contacts		2 NO + 2 delayed/delayable NO					
		OSSD outputs / PNP outputs		4 NO + 1 NC					
		Contact mats, bumpers and safety edges ^{c)}							
		Two-hand devices							
 <p>USR10</p> <p>2TLC172079V0201</p>	Expansion of safety controller outputs	1 channel	Manual reset (all models have auto reset) Start/Test	3 NO + 1 NC	Off-delay 0.5 s Off-delay 1.5 s	Advanced timer functions 0 – 999 s ^{d)} Configurable with display	85-265 VAC / 120-375 VDC +24 VDC		
		2 channels with equivalent contacts		4 NO					
		2 channels with antivalent contacts		2 NO + 2 delayed/delayable NO					
		OSSD outputs / PNP outputs		4 NO + 1 NC					
		Contact mats, bumpers and safety edges ^{c)}							
		Two-hand devices							

a) These models can also be used for expansion of Pluto safe transistor outputs (-24 VDC)
 b) No monitoring of two-channel fault, i.e. max Category 3 without fault exclusion.
 c) The safety relay detects a short-circuit, not a change in resistance.
 d) Off-delay, On-delay, Time bypass or Time reset.
 e) BSR23 must be monitored by another device in order to reach higher than Category 1/PL c according to EN ISO 13849-1, for example a safety relay, a safety PLC or an Orion light guard (EDM function).

Eden – Non-contact safety Sensors

Adam - Ordering details
